Instructed by Resolution as to course to be followed in carrying out Resolution that Entry in		
votes and Proceedings be expanded, 91.	1	
Authorized to present Additional Standing Order to Governor for approval, 28.  Reports Governor's approval of Additional Standing Order, 31.		
Reports receipt of letter from Clerk, reporting that a document laid on the Table had not been		
returned to his custody by a Member who had had the use of it. 51.		
Reports retirement of Stephen W. Jones, Esq., Clerk of Legislative Assembly, 250.  Notice of Motion to rescind appointment of Mr. James Henry Young, 252.	<u> </u>	
Lays on Table Election Petition, Hellmrich v. W. J. Allen, Paddington, 269	1	
Calls on a Deputy Chairman of Committees to act for the day only, 397, 403, 408, 416, 420, 425.		
429, 432, 437, 442, 451, 454, 463, 468, 476, 479, 484, 433, 496, 500, 506, 513, 519, 524, 532, 538, 543 (2), 547, 560, 565, 573.		
Issues Warrant committing Member to custody of Sergeant-at-Arms, 480.	1	
Vacates Chair when motion couched in terms personal to himself is to be discussed; resumes Chair, and motion proceeded with, 579.	<b>1</b>	
Motion made (Mr. Buchanan) setting forth the qualifications essential to the Chairman or Speaker		
that the present occupant of the Unair is deficient in the knowledge essential in anyone holding		
the office, and that his frequent interference is the cause of much disorder, and negatived, 579.  RULINGS OF:—		
Motion made to dissent from, and negatived, 4, 24, 49, 156, 565.		
That it is not in order, on the motion for the adoption of the Address in Reply, to speak of any		
private transactions between a Minister and any person outside, that the matter was not relevant, and that any charges should be made on a specific motion, 4.		
That, on the question "That the question be now put." when there are no voices for the Noes		
and when the Chair is satisfied there are forty Members present, it is not necessary to take a	1	
division, 24.  That the Albury Cattle Sale-yards Bill, notwithstanding that the Select Committee to whom it		
was referred and decided at one sitting against a motion to report the Bill with amendments to		
the mouse, was not out of order, 42, 43.	1 1	
That language reflecting on the Chief Commissioner of Insolvent Estates, now an Acting Judge of the Supreme Court, infringes the rules of Debate, 49.		
That a motion adjudging a Member ("named" by Mr. Speaker) guilty of contempt can be put	] [	
from the Chair, notwithstanding that the question "That the Question be now put" has been		
put from the Chair and is undecided, 156.  That Registered Medical Practitioners Bill contains provisions not authorized by the Order of	,	
Leave, 192.	í l	
That to challenge the action of the Chair under cover of a Motion for Adjournment of the House	<u> </u>	
would be out of order, 224.  That Notice of Motion to rescind appointment of Speaker was not out of order, and that motion		
submitted "That no Resolution reflecting upon the Speaker be entered on Votes and Pro-		
cecongs" could not be put as one of Privilege, 252,	1	
That the Public Works Bill did not contain provisions beyond the Order of Leave, 259.  Discussing Bill in detail on second reading, 315.	1 .	
That Councils amendments in Government Railways Bill, do not infringe on Rights of Assembly.		
426.	1	
That Estimates were properly before the House, notwithstanding the Salaries therein shown were lower than those provided by the Civil Service Act, 433.		
That Schedules A, B, and C on Estimates are not open to discussion, as they are already provided		
for by Acts of Parliament, 433,	1 1	
Declines to overrule the opinion of the Chairman in reference to words used by Mr. M'Elhone in Committee of Supply, 452.	1	-
That clause 3, of Chinese Restriction and Regulation Bill was not beyond order of leave, 455.		
That amendment made in Land Tax Bill was in order, 587.  That Church of England Property Bill, although introduced in the Council as a Private Bill	]	
should, under the 69th Standing Order, be treated as a Public Bill in the Assembly, 599.	1 1	
That by a previous decision of the House he had been relieved of the responsibility of determining	1 1	
whether, on a motion of adjournment, the matter stated in the notice was of urgent public	ı I	

lxxii INDEX.

#### No. VI-Administration of Justice-continued.

#### PETTY SESSIONS, &c.

Police Magistrates receive travelling expenses when absent from head-quarters (at night) visiting minor Courts in district, 25s. per diem on the road, and 20s. per diem, with forage and stabling, when at Police Stations. Police Magistrates, who are also Mining Wardens without salary, receive travelling expenses at same rate while engaged on duty. Coroners receive 20s. each inquest, and 9d. a mile (one way) travelling expenses. District Commissioners of Insolvent Estates receive 20s. in respect of each meeting. Commissioners of Affidavits receive fees—usually 2s. each affidavit.

#### · NEW SOUTH WALES.

### FIFTH REPORT

ON

## THE CREATION, INSCRIPTION, AND ISSUE OF STOCK,

UNDER THE PROVISIONS OF THE

"INSCRIBED STOCK ACT OF 1883" (46 VIC. No. 12).

To the Honourable J. F. Burns, Esq., M.P., Colonial Treasurer.

The Treasury, New South Wales,

Sir,

Sydney, 7th February, 1888.

I have the honor to submit the Fifth Annual Report under the provisions of the "Inscribed Stock Act of 1883."

Since my last Report, in January, 1887, there has been no further issue of Stock.

A statement of the Stock created and inscribed under the provisions of the Act is given below:—

FIRST INSCRIBED LOAN.

Created for the conversion of outstanding Debentures, on which a Loan had been raised on the 8th June, 1882, under authority of the Acts 41 Vic. No. 7 and 43 Vic. No. 11, with an obligation on the part of the Government to convert same into Inscribed Stock:—

Capital amount of such Stock

\*£1,186,300.

Rate of interest thereon

4 per cent. per annum, payable half-yearly.

Currency

Fifty years.

Condition of redemption

Payment on maturity, at par.

#### SECOND INSCRIBED LOAN.

Created for the purpose of raising a Loan under authority of the Acts 41 Vic. No. 7 and 43 Vic. No. 11:—

Capital amount of such Stock

£3,000,000.

Rate of interest thereon

... 4 per cent. per annum, payable half-yearly.

Currency

Fifty years.

Condition of redemption

Payment on maturity, at par.

THIRD

. . .

<sup>\*</sup> The balance of this Loan, £813,700, is outstanding in Debentures.

#### THIRD INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 43 Vic. No. 11, 44 Vic. No. 12, and 44 Vic. No. 28:—

Capital amount of such Stock ... £3,000,000.

Rate of interest thereon ... 4 per cent. per annum, payable half-yearly.

Currency ... Fifty years.

Condition of redemption ... Payment on maturity, at par.

#### FOURTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 44 Vic. No. 28, and 46 Vic. No. 12:—

Capital amount of such Stock ... £5,500,000.

Rate of interest thereon ...  $3\frac{1}{2}$  per cent. per annum, payable half-yearly.

Currency ... Forty years.

Condition of redemption ... Payment on maturity, at par.

#### FIFTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 44 Vic. No. 28, 45 Vic. No. 22, 46 Vic. No. 23, and 48 Vic. No. 26:—

Capital amount of such Stock ... £5,500,000.

Rate of interest thereon ...  $3\frac{1}{2}$  per cent. per annum, payable half-yearly.

Currency ... ... Forty years.

Condition of redemption ... Payment on maturity, at par,

#### SIXTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Act 48 Vic.

No. 26:---

Capital amount of such Stock ... £5,500,000.

Rate of interest thereon ...  $3\frac{1}{2}$  per cent. per annum, payable half-yearly,

Currency ... ... Thirty-eight years.

Condition of redemption ... Payment on maturity, at par.

I have, &c.,

G. EAGAR,

Under Secretary for Finance and Trade,

1887.

The Treasury, New South Wales, 31st March, 1887.

JAMES PEARSON,
Accountant.

#### SIXTEENTH ANNUAL REPORT

OF THE

## AUDITOR-GENERAL

ON

THE TREASURER'S STATEMENTS OF THE RECEIPTS AND EXPENDITURE OF THE CONSOLIDATED REVENUE FUND, AND OTHER MONEYS, FOR THE YEAR 1886.

(Under Act 33 Victoria No. 18.)

- 1. The Treasurer's Statements of his Receipts and Disbursements within the year 1886 were with the usual punctuality forwarded to me for audit on the 29th March. After examination certain emendations and corrections were suggested or required by letter of 8th of June, and the Abstracts, amended in the particulars pointed out, having been received back from the Treasury on the 27th of the same month, I have now the honor to lay the same before the Legislative Assembly, with the following Report and Explanatory Statements, as directed by section 38 of the Audit Act of 1870.
- 2. These Statements are substantially a reproduction, but in somewhat greater detail, of the Quarterly and Annual Accounts published in the Government Gazette, showing the progressive produce of the Public Revenue and the Expenditure of the same, the results, so far as the cash balances are concerned, being the same in both.
- 3. There being, however, nothing in these Accounts to show how far the public engagements have been met by the income of the year, it will, as on former occasions, be proper to state, as nearly as may be practicable, the relation between the Public Income, as given in these Cash Statements, and the Statutory charges upon it. This is all the more desirable as the balance on the Revenue portion of the Account has now reached so large a figure on the wrong side.

#### GENERAL STATE OF THE BALANCES.

4. Upon the whole of the Public Account, as summarized at pages 10 and 11, there is shown a gross net credit balance at 31st December, 1886, of ... ... £3,850,211 12 8

represented by-

Cash and Securities at Sydney at 31st December, 1886... 2,238,232 1 Cash in London at 30th September, 1886 ... 1,611,979 11 8

£3,850,211 12 8

7. The appropriation of the estimated Revenue of 1886 not having been made until 25th October of that year, the Appropriation Act was anticipated by the usual monthly Temporary Supply Acts, nine in number, to the amount of £6,381,033, and the Public Works Loan Act, of corresponding date, was also anticipated by the same arrangement to the amount of £1,216,200. Of this latter amount, however, a payment of £1,999 14s. 2d. for Works at Lake Macquarie Harbour was not covered by the Loan Act, 50 Victoria, No. 28, and appears consequently as an advance out of the Consolidated Revenue Fund to be recovered out of a future Loan Appropriation.

8. The Supply Act, 49 Victoria, No. 4, also includes a second advance vote of £100,000 to the Treasurer, which is omitted from the General Appropriation Act, and was probably intended from that circumstance to be adjusted before the close of the year, and no doubt ought to have been so dealt with. A reference, however, to the Special Deposits Account, at page 101, will show that there was at 31st December a sum of £93,583 5s. only at the credit of the Treasurer's Advance Account, all of which, with £6,416 15s. in addition, was due to the Revenue at that date to replace the Advance Vote of 1885—£100,000.

A like omission occurs of the sum of £30,000, granted under the Supply Act, 49 Victoria, No. 3, for the service of 1885, as Fees to Licensed Surveyors.

- 9. As in 1885, the annual increases to the salaries of classified Officers under section 3 of the Civil Service Act for 1886, have been distributed throughout the various Departments where they occur. A separate vote (item No. 173 of the Appropriation Act of 1886) was taken for these increases in a lump sum of £66,500, but, the actual amount required being found to reach only £48,348 13s. 8d., the balance will of course be written off during the year. The detailed distribution of the vote is given in a Schedule to Appendix A.
- 10. By the Customs Duties Act of 1886, which came into force from the 7th April, certain additions were made to the Customs Tariff in three forms, the total produce of which has been calculated to be as follows, viz.:—

Ad Valorem Duties	£277,117	16	៦
Increased Rates on Pre-existing Duties (Vide Return Appendix B)	00.00%	0	0
Extended range of Articles subject to Specific Duties (Vide Return, Appendix B)	, (0.000		
	£365,544	16	5

The apparent difference of increase in the total Customs collections for the years 1885 and 1886 is, however, only £308,616 13s., or, more correctly, deducting the Drawbacks and Refund of Duties from the respective years, £294,716 4s. 8d. These figures serve to show that but for the additional duties the Customs receipts for 1886 would have exhibited a decrease of (say) £70,828 11s. 9d.

- 11. The Stamp Duties Amendment Act of 1886 also changed to some extent the basis of taxation in the form of Stamp duties, but the precise effect of the change cannot readily be ascertained. The receipts, however, show an increase of £44,488 2s. 6d. in 1886 over the collections in 1885, the Act coming into force only on the 1st September, 1886. It may be proper to notice, in connection with this item of receipt, that in consequence of a large number of postage stamps being allowed to be used in lieu of duty stamps for stamping money acquittances a sum of £24,000 has for some years been annually credited to the Stamp Duties' Account by transfer from the head of postage as the estimated extent of the use made of postage stamps for stamp duty requirements.
- 12. It may be observed that the amount credited at page 17 as "Interest on Land conditionally purchased" is £129,968 4s. 5d. only, while the Collection of Instalments appears as £514,135 10s. 8d., but both these quotations are qualified by the fact that the annual instalments of 1s. per acre on the unpaid balances of the Purchase

Purchase Money represent both Principal and Interest, which could not be separated without very considerable inconvenience and expense. The amount shown as Interest only is mainly paid on early conditional purchases, not yet brought by the purchasers under the provisions of the Amended Land Acts.

13. The Postage Receipts show an apparent increase of £14,689 14s. 6d., but as large numbers of postage stamps are purchased or used for purposes of remittances, and large numbers are also employed on Public Service and paid for out of Votes of Parliament, the gross collections must be subjected to deductions in the above directions to arrive at the net sums contributed by the public at large to the Postal Revenue. A comparison of the receipts of the year 1886 with those of the previous year give the following results, viz.:—

Gross postage receipts credited in 1885  Stamps used as cash  Stamps used on Public Service, paid by Votes	£12,638	7	 4. 0	£315,606	17	9
-				28,638	7	4
Net receipts, 1885				£286,968	10	5
Gross postage receipts credited in 1886 Stamps used as cash	 £14,737	4:	 8	£330,296	12	3
Stamps used on Public Service, paid by Votes	26,513	5	2	41,250	9	10
Net receipts, 1886	,			£289,046	2	5

Showing a net increase on 1885 of only £2,077 12s.

14. The receipts "For work performed by Prisoners in Gaol," stated at page 19 as £4,649 8s. 6d., show apparently a very large reduction on the receipts of previous years. Under that head the

Receipts for	1883	were	•••	 	 £20,314 19	7
,,	1884	,,,	• • •	 	 36,294 11	7
,,	1885	,,		 	 23,516 14	9

Upon inquiry it appears that these receipts are mainly drawn from the votes for Stationery and Stores; but the vote for 1886 having been exhausted otherwise by the close of the year, there were no means of meeting accrued claims to a large amount for work done in the respective gaols until further appropriations should be obtained in the following year.

15. Under "Miscellaneous Receipts" the amount shown as "Repayments to credit of Votes" is short by two sums repaid in December, on account of Issues from the Votes for the Volunteer Service of 1884 (£3,071 3s. 5d.) and 1885 (£2,620), in all £5,691 3s. 5d. These sums were improperly credited to the account of "Over Issues" in the Trust Fund Account, as they could not be required for reissue. This was pointed out to the Treasury, but the erroneous credit having already been published in the Gazette accounts of 4th January, my request for a correction in the Statements of Accounts for Parliament was not acceded to. The Revenue Account will consequently be deprived of this credit until the close of this year.

- 16. The mode of appropriating certain fines under section 128 of the Municipalities Act, 31 Victoria, No. 12, being rendered somewhat doubtful by the terms of the last clause of the section quoted, a reference was made to the Attorney-General for his advice. A copy of the case submitted, and of the opinion given by Mr. Attorney-General Foster, confirmatory of the practice followed since the Act came into force, will be found in Appendix C.
- 17. A contract was taken by the Department of Public Instruction late in the year for alterations to the building at Parramatta, which had been occupied as a Roman Catholic Orphan School, for the purpose of converting it into an Industrial School for Girls. The amount of the contract was £2,013, and towards that amount it had been proposed to utilize the votes of 1885 and 1886, of £500 each, for "Repairs for Roman Catholic Orphan School," but the Treasury demurred to that arrangement, and referred the matter for my decision, which was that the votes in question could not be diverted to a new service without the express sanction of Parliament.

The Department of Public Instruction, however, referred the matter to the Attorney-General, who gave his opinion to the effect that, under all the circumstances, the money could be expended as desired by the Minister for Education. (The papers are given in Appendix C.) The balance of the contract, £1,089 12s. 4d., was unprovided for, and was accordingly paid from the Treasurer's advance vote. It is observed, however, that no provision has been made on the Estimates to cover that balance, while a sum of £789 has been recently voted on the additional Estimates for 1887, for a further contract to that amount. This is one of the many cases which show how imperfectly the Estimates as submitted provide for known obligations.

- 18. The sums of £500 and £1,021, paid as compensation for loss and treatment of sheep in quarantine (Service of 1885, page 43), and the sum of £1,564 3s. 8d. for salaries and contingencies (paid out of Vote 608 of 1886, page 56), making together £3,085 3s. 8d., having been only temporarily paid from the Revenue Account, have now been transferred to the Sheep Account under Trust Fund.
- 19. The cost during the year of the Rabbit Extermination Service having, so far as paid, amounted to £86,014 18s. 5d., while the assessment under the Rabbit Nuisance Act contributed only £38,464 8s. 5d., a further debt of £45,814 16s. 3d. has been incurred to the Revenue, making now a total of £180,756 17s. 11d., repayable out of future assessments.
- 20. Among the sums embezzled by George Berner, late Chief Clerk in the Railway Department, were six deposits on tenders which, when applied for by the contractors on the completion of the works, had to be repaid to them, and the amount, in all £1,475, was paid under the authority of the Minister for Public Works out of the vote for the working expenses of the Railways. This unfortunate loss can hardly be legitimately classed as a "working expense," and should more properly have been covered by a separate vote, but as the Railway income must be considered in one way or other liable for it, as it is for compensations in the cases of accidents and for the value of goods lost in transit, &c., the result of making it a direct charge upon the general vote for management is practically the same as if specially voted. In another direction the same result is arrived at as the remainder of Berner's embezzlement, consisting of the value of certain season tickets, £522 5s. 7d., and a miscellaneous item of £15 paid to him, simply constituted a loss of income. 21.

21. The unauthorized transfers of £275,000 from the Revenue to the Treasurer's Advance Vote, specified in my Report on the Accounts of 1885, were replaced to the Revenue Account on the 18th November. A Bill to indemnify the Colonial Treasurer, the officers of the Treasury, and other officers, in respect of their unauthorized action in this matter was introduced and read a first time in the Legislative Assembly on the 5th February last, but a change of Government having occurred the order for the second reading of the Bill was discharged on the 24th March. It is very much to be regretted that there is thus no recorded expression of opinion by Parliament as to the illegal action of the Treasury in laying hands upon the Public Revenue without Parliamentary sanction.

#### THE TRUST FUNDS ACCOUNT.

- 22. The transactions of the year have increased the total balance at the credit of the Trust Funds by the sum of £261,907 14s. 5d., being the net difference of increase and decrease under the various heads into which the Trust Fund Account is divided, and the details of which are given at pages 11 and 93. Many of these separate accounts are opened mainly for convenience, or to satisfy statutory requirements, and as may be seen by reference to the General Miscellaneous Receipts, page 20, portions of the balances are periodically claimed by the Revenue.
- 23. The larger half of the total balance or £1,393,925 4s. 1d. belonged to the Government Savings' Bank. Of that sum £385,666 13s. 11d. were invested in Debentures and Funded Stock, and for the remainder, while a floating balance, interest at 4 per cent. is paid by the Treasury under a specific appropriation annually taken on the Supplementary Estimates.
- 24. The Cash Receipts credited to the Civil Service Superannuation Account (page 86) were £90,495 10s. 7d., and exceeded the Disbursements within the year by £79,308 17s., thus increasing the Cash Balance of 1885 from £70,455 10s. 8d. to £149,764 7s. 8d.

From the Report of the Civil Service Board for 1886 it would appear that the annual rate of charge for 66 Pensions, sanctioned to the 31st December, was £5,620 5s. Sd., while gratuities under various sections of the Civil Service Act were paid at the Treasury to the amount of £5,426 8s. 11d. These figures show that the Account will admit of a very considerable addition to the Pension List before its amount can approach the, at present, large income derived from the 4 per cent. deductions from the salaries of Officers liable under the Act for that rate of contribution to the Superannuation Fund.

25. The Police Superannuation Fund, as assisted by the Police Reward Fund, has also an increase of £2,621 16s. 9d. in the cash balance at the close of the year, while the annual rate of charge for Pensions has been raised from £10,230 12s. 8d. to £11,361 14s. 4d.

#### THE TREASURER'S ADVANCE ACCOUNT.

26. The account of the Treasurer's Advance Votes is still in an unsatisfactory condition, notwithstanding that the illegal transactions connected with it, already referred to, have been disposed of by their transfer to the proper accounts, and that the Advance Votes of 1883 and 1884 have now been repaid to the Revenue. The Appropriation Act of 1886 afforded the means of also repaying the vote of £100,000

£100,000 for the emergencies of 1885, as well as the second advance of £100,000 taken under a temporary Supply Act for 1886. The balance at the 31st December amounted to only £93,583 5s., and is shown as at the credit of the Advance Account, while it was due to the Revenue, and ought to have been transferred to that Account before the year's accounts were closed.

27. It may be observed that the credits and recredits to this Account during the year are shown as reaching the very large sum of £1,248,937 17s. 3d., and the reissues as reaching to £1,192,976 18s. 10d. The first-named of those sums includes the recredit of £525,000, and the second includes the reissue to the Revenue Account of £525,000 in satisfaction of the Advance Votes of 1883 and 1884, and of the irregular drafts (£275,000) from the Revenue in 1885 and 1886. By this absurd operation the receipts and disbursements of the year on this Account are quite unnecessarily enlarged to the extent of £525,000, while there is nothing on the face of the accounts to show the extent of the Treasurer's liability for his Advance Votes.

The amount actually issued and unadjusted at 31st December was £206,416 15s., and consisted of—

, w	£	s.	d.
Payments in anticipation of Votes	183,841	6	6
Advances on account of Trust Funds	6,069	3	1
" on account of Loan Services	2,689	0	6

" to be recovered from various other sourc	es 11,715	<b>12</b>	11
	£206,416	 15	0
The Cash Balance at the same date having been	93,583	5	0

The total of £300,000 0 0

respresents the three advances of £100,000 each voted to meet the emergencies of 1885 and 1886. The details of the above payments are given in Appendix D.

#### GENERAL LOANS ACCOUNT.

- 28. The General Loans Account, which was overdrawn at the close of 1885, was replenished during the year by the credit to it of the balance proceeds of the fifth Loan under the Inscribed Stock Act, and part proceeds of a sixth Loan of £5,500,000, negotiated in London in July, 1886, thereby converting the overdraft into a credit balance at Sydney of £2,299,639 7s. 10d. The whole proceeds of this last Loan having, however, been fully credited in London by the close of the year, the actual credit balance of this Account at Sydney and London on the 31st December was £3,782,454 15s., after allowing for payments there to same date for Loan Services, but not brought to account in Sydney until this year.
- 29. The additional issue of Inscribed Stock, to the amount of £5,500,000, in July realised in gross £5,247,692 2s., or at a rate of £95 8s. 3d. per cent. The charges for Bank commission, brokerages, and miscellaneous expenses, were £56,423 16s. 6d., and, with commutation of Stamp Duty, £34,375, reduced the proceeds to a net total of £5,156,893 5s. 6d., available for expenditure, and the rate per cent. of the principal to £93 15s. 3d., giving thus an interest-rate of

£3 14s.  $7_4^3$ d. instead of £3 10s., but, as it may be observed that in this case the Stock was inscribed with three months' accrued interest at date of negotiation, the annual interest rate should be quoted more correctly as £3 15s.  $4_4^1$ d. on net proceeds of £92 17s. 9d., showing an improvement of £2 18s.  $8_2^4$ d. per cent. over the realized proceeds of the Loan of October, 1885.

The Fourth Report under the Inscribed Stock Act of 1883, 46 Victoria, No. 12, presented to Parliament in January last, explains the proceedings connected with the inscription of this sixth Loan.

- 30. A portion only of the Loan of July, 1886, having been brought to Account in Sydney, the whole of that Loan is omitted from the Statement of the Public Debt, as given at page 107, following the same course as in the previous year. As, however, the Loan began to bear interest from the 1st of April, and a half year's interest was actually paid thereupon in September, it cannot properly be excluded in reckoning the Public Debt at the close of the year.
- 31. The total outstanding debt at the close of 1885 was shown in that year's accounts to amount to ... ... ... ... £30,064,259 9 2 adding the further Loans of October, 1885 £5,500,000 0 0 July, 1886 5,500,000 0 0 £11,000,000 0 0

and allowing for the further reduction by £30,000 during 1886, of the million loan of 1867, and of £10 of the Interminable Debentures ... ... ... ...

30,010 0 0

10,969,990 0 0

the Public Debt at 31st December, 1886, became increased to £41,034,249 9 2 bearing an annual interest charge of £1,645,180 11s. 8d. from the 1st January, 1887.

32. So far as can be readily computed the above amount of outstanding Loans, together with the annual interest thereupon, is chargeable in the following proportions to the respective Services stated hereunder, viz.:—

Services.	Principal,	Interest.
Railways and Tramways Electric Telegraphs Iarbours and Rivers Navigation Roads and Bridges Immigration Eity of Sydney Sewerage Do Water Supply Isseellaneous Public Works	£ s. d. 33,602,345 14 4 679,173* 5 1 2,465,604 12 4 586,531 2 9 387,663 4 0 592,123 1 8 1,057,674 11 7 1,663,133 17 5	£ s. d.  1,335,618 14 10  29,942 5 9  99,459 5 0  26,428 5 1  18,863 2 2  24,217 0 2  43,773 5 4  66,878 13 4
	41,034,219 9 2	1,645,180 11 8

33. The Public Works Loan Act of 1886, 50 Vic. No. 28, added £3,115,393 to the authorized charges upon the General Loans Account for Railways and other Public Works. The total amount of those charges as represented by unissued balances of Loan Service Appropriations at the close of the year was £15,984,213 19s. 11d. After crediting in full the net proceeds of the loan of July, and £14,485 2s. 3d., recovered from the Government of Victoria on account of the railway bridge at Albury, there remains a sum still to be raised of £12,108,196 4s. 4d. to cover authorized appropriations.

34. The Supply Act, 49 Vic. No. 2, provided £28,000 in anticipation of a Loan Vote as a further sum towards the "Railway—Albury to the Murray" apparently to relieve the Treasurer's Advance Vote of the charge upon it for the temporary defrayal of the half cost of the railway bridge at Albury recoverable from the Government of Victoria, and the vote was used for that purpose and otherwise in March, 1886. The same sum of £28,000 was again appropriated in the Loan Act of 1886 above quoted, without reference to the fact of its including the half cost of the bridge not chargeable to this Colony. The Act was passed on the 25th October, and the Government of Victoria repaid their moiety—£14,485 2s. 3d.\*—in the following month, and the amount should have been credited direct to the General Loans Account as a surcharge on account of the erroneous appropriation, but it has been treated as an over-issue, and was accordingly placed in the Trust Fund, whence it has this year been transferred to the proper account.

35. In addition to the sums reported in 1884 and 1885, as improperly paid from the vote of £500,000 for "Alterations, Additions, &c., to Railway Stations," sundry other payments of a similar character have been disallowed in 1886 to the amount of £39,488 18s. 7d., making a total of £154,237 7s. 4d., for which the vote referred to was utilized by the Treasury contrary to the directions on the vouchers as forwarded by the Railway Department. The services so charged were as follow, namely:—

							£	8.	d.
Railway	, Wallerawan	g to Mudgee		•••	1884	• • •	16,737	9	0
1>	,,	,,			1885	•••	14,848	4	11

Trial Su	urveys		•	•	1885	• • •	18	10	9
						4	C154,237	7	4

36. Provision having been made in the Loan Act of 1886 for all these services the whole of the above sums were transferred to the Account of that Act under their respective heads, (excepting £790 17s. 7d., disallowed in 1884, and which is in course of adjustment), and thus the General Loans Account appears twice charged for the same service without a corresponding credit. This requires to be explained. The Treasury having expended so much of the vote of £500,000 irregularly, was required to replace it, and taking advantage of the Account of "Over Issues,"—an account opened to prevent losses under Votes by accidental overcharges—credited that Account with the transfer, so that it might be available to meet proper charges for "Alterations, Additions, &c., to Stations" when presented, and the greater part of it had been so spent before the end of the year, but the transactions in the "Over Issues" Account Trust Fund not being detailed, the expenditure does not of course appear in that form.

In

<sup>\*</sup> The actual moiety of the cost of the permanent bridge was £16,259 19s. 6d., but the Government of Victoria having defrayed the whole cost of a temporary structure, one moiety thereof was payable by the Government of this Colony or £1,774 17s. 3d., making the net repayment £14,485 2s. 3d. as quoted.

In connection with this it may be of interest to state that out of the receipts and payments given under the "Over Issues" Account at page 101, the credits on account of "Alterations, &c., to Stations," in 1886, were £202,327 5s. 8d., and the reissues £201,014 12s. 10d., leaving a balance credit of £1,312 12s. 10d.

- 37. A branch line of railway having been constructed to the National Park from the railway line to Illawarra, which was not included in the plans laid before and approved by Parliament, the expense, so far as appeared in the Treasurer's Accounts, was disallowed, the amount being £519 5s. 7d. paid from the Loan Act, 44 Victoria No. 28, and £2,805 10s. 5d. from the Supply Act, 49 Victoria No. 5. This latter sum is now charged to the Loan Act of 1886—item "Towards completion of line Sydney to Wollongong and Kiama, £666,000," which sum, I am informed, includes £5,100 for the branch to the National Park, although it is not shown in the appropriation.
- 38. The partial cost of the temporary Water Supply which was paid in 1885, (£45,000) and disallowed as against the vote for the permanent works, has with later payments for the same service been legalized by the addition of the words "inclusive of cost of temporary supply," to the additional vote for the Sydney Water Supply Works taken under the new Loan Act. It is however uncertain whether or not the whole cost of the temporary Water Supply is intended to remain a charge upon the Loans Account. The amount is ascertained to be £75,894 15s. 5d.
- Act for the "purchase of railway stores" appears paid in full, but, as in former appropriations of a like kind, it has been simply transferred to the "Railway Stores Account," under Trust Fund, as part of the capital, now with this addition, amounting to £600,000, employed as a basis for the operations upon it. The cash balance at the credit of the Account at the close of the year was £176,603 19s. 5d., the difference between that balance and the total capital, or £423,396 0s. 7d., represents nominally the value of the stores on hand; but as the operations on the Account recorded at the Railway Department and at the Treasury do not run on parallel lines, the cash balances and the estimated value of the stores at any one date of stocktaking cannot agree. An effort is being made, however, to reconcile the balances, with a view to their becoming in future more nearly in accord with each other.
- 40. The "Railway Stores Account" and the Loan Fund transactions, included now in "Over Issues," might with advantage be hereafter separated from the Trust Account and made appendices to the General Loans Account, in order that a better view might be thus obtained of the whole operations upon the Loans Fund than is now possible.

#### THE RAILWAY RECEIPTS.

41. The Railway traffic on all lines, after deducting the collections on account of the Victorian Government, contributed cash receipts in 1886 to the amount in gross of ... ... ... ... ... ... ... £2,137,802 8 3 which, as compared with the gross total, after similar deductions, credited in 1885 ... ... ... ... ... 2,252,400 12 8 Shows a decrease of ... ... ... £114,598 4 5

The larger portion of that decrease, however, arises from the receipts for work done, and paid for out of votes of Parliament and other sources, having been reduced from £177,125 1s. in 1885 to £98,432 2s. 1d. in 1886, a difference of £78,692 18s. 11d. Allowing for this diminution of special receipts, the decrease of income from the ordinary tolls for public traffic in 1886 is reduced to £35,905 5s. 6d. The Tramway receipts on the other hand show an increase of £9,550 0s. 8d., which is not subject to a like correction.

42. The amounts collected by the Railway Department for work done and chargeable to various services are set forth in Appendix E. The following table shows the relations of these special collections to the total credit for Railway earnings and also the net income contributed directly by the public towards the working expenses of the Railways during the past four years:—

	1883.	1884.	1885.	1886.
Gross receipts	£1,891,592 13 9	2,066,382 9 9	2,252,400 12 8	2,137,802 8 3
Transfers from Public Funds for work done		174,387 10 11	177,125 1 0	98,432 2 1
Net contribution by the Public to working expenses	£1,771,889 11 6	1,891,994 18 10	2,075,275 11 8	2,039,370 <b>G</b> 2

43. The inspection of the Railway Traffic Accounts at the several stations along all lines has been continued by the staff of inspectors attached to this Department with good results. The report furnished to me by the Inspecting Officer-in-Charge upon the work of the year gives full details of the very numerous points which the several inspectors found necessary to bring under notice for instructions as to queries for papers in explanation, or for authorities in support of action by the Railway officers. The questions raised were very much of the same nature as those noticed in my report upon the Accounts of 1885 and in the Appendix II thereto.

The Inspector's report for 1886 shows that the number of stations inspected was 219. In the majority of cases the results were more or less satisfactory, while in about forty the results were not of that character. To some of these it was considered advisable to direct the attention of the Commissioner, whose prompt action in some of the cases reported had more or less of the desired effect, as appeared in subsequent inspections.

- 44. In cleven instances the authority of the Governor and Executive Council was obtained in satisfaction of queries upon rates levied but not contained in the authorized published scales, while in some thirty cases of like variations no replies have yet been received to inquiries for authorities. The like authority was supplied for the relief of the Commissioner from surcharge in seven instances (details in Appendix J), but for fourteen other small sums, in all £103 14s. 10d., of a similar kind, the surcharges still remain unsatisfied.
- 45. Old outstanding claims for freight, to the amount of £7,047 15s. 1d., are still under query. As no reply has been supplied to many repeated queries on some of the items, and as the nature of the replies, where such have been given indicate difficulties in settlement, it seems probable that little of this sum will be recovered. In addition to these an old claim for £220 9s. 3d. was lost by the operation of the Statute of Limitations.

- 46. Although much greater promptitude is now shown to current queries by the Commissioner, a considerable number of questions raised in 1884 and 1885 still remain open ones, as well as a number raised in the past year, no replies having as yet been received to them.
- 47. Among other matters attention was given with most satisfactory results to the mode of collecting the Tramway receipts, together with the arrangements for the printing and the issue of the tram-fare tickets, as well as their destruction after collection.
- 48. The right of enforcing or remitting charges for demurrage of trucks and storage of goods not taken immediate delivery of, the issue of tickets at special excursion fares, concessions to millers at Goulburn, the arrangements for providing and letting refreshment-rooms, rent of railway premises to be paid by employés, hire of cranes at Newcastle, rebates on freight of starving stock, with some other matters involving questions of authority, have given rise to much correspondence with the Commissioner, which is not as yet in all cases concluded. It is not considered of sufficient interest or importance to quote the correspondence that has taken place in the cases indicated, but the particulars can of course be easily given should they be required.
- 49. In one, however, of those cases above-mentioned, namely, the issue of excursion tickets at rates and on occasions other than those specially fixed by the Governor and Executive Council, on the authority of the Minister for Public Works alone, although supported by a minute of the Executive Council, it was considered that the delegation of authority to fix tolls to any single Minister of the Crown by the Governor and Executive Council was ultra vires under the 100th section of the Railway Act; and, on submitting the case for his opinion, Mr. Attorney-General Foster supported my view. To obviate the alleged inconvenience which a strict interpretation of the law would occasion, the Commissioner suggested that an expost facto authority would sufficiently meet the requirements of the case, but I did not feel justified in concurring in the suggestion. (Vide Appendix C.)
- 50. The inspection of the accounts at Glen Innes in September disclosed a falsification of the ledger accounts by the goods clerk there, by means of which he had succeeded in embezzling a sum of £651 9s. 8d. The fraud had been carried on in a very skilful manner, so much so that although the Commissioner's inspectors had repeatedly gone through the books, they had failed to detect it; but the modus operandi being familiar to the Inspector of this Department, who had on at least two other occasions discovered the like fraudulent manipulations of books, his suspicions were aroused by certain incidents that occurred in the course of his examination. From reports in the press it appears that Cooper—the clerk in question—was tried, convicted, and sentenced to five years' imprisonment; but, although asked for, no communication has been received from the Commissioner as to the action taken upon my report of this case to him.
- 51. At Narrandera Station it was also found that the goods clerk there (Gamble) had stolen a sum of £73 17s. 2d. from moneys entrusted to him by the station-master to lodge in the bank. As the papers in the case asked for in June, 1886, have not been yet furnished to me, I am unable to report what action was taken in the matter by the Commissioner further than that the amount has been written off the station-books.

- 52. Upon the whole the work of the Inspectors during the year has abundantly shown the necessity for the external audit thus applied to the Railway traffic receipts; and, although limited in its range of operation, the time, labour, and expense devoted to this important service have, beyond doubt, proved of considerable benefit to the Railway Department itself, and through it to the advantage of the Revenue.
- 53. In connection with the contemplated change in the constitution of the Railway Department, I desire to invite special attention to the remarks made in my Report on the Accounts of 1885 upon this branch of audit, and especially to paragraphs 59 and 60, page 120.

### MISCELLANEOUS.

- 54. An abstract of the disallowances made in the preparation of the Monthly Certificates of Discharge to the Treasurer will be found in the Appendix F.
- 55. The Mint Bullion Accounts and the Savings' Bank Accounts have passed under the usual examination, and have been certified to represent correctly the Books and Vouchers produced in support of the same.
- 56. Special Statements and Returns containing miscellaneous information similar to what has been afforded in former Reports are submitted herewith, namely,—
  - Statements of Advances to Public Officers and others awaiting adjustment. (Appendix G.)
  - Statement of Surcharges raised and recovered upon the Expenditure and Revenue Accounts. (Appendix H.)
  - Statement of Authority granted by the Governor and Executive Council under the 18th section of the Audit Act. (Appendix I.)
  - Statement of Authorities granted by the Governor and Executive Council in relief of Public Accountants under sections 30 and 31 of the Audit Act. (Appendix J.)
  - Statements of Receipts and Disbursements in connection with the Registration of Brands and the Public Abattoirs Fund. (Appendix K.)
- 57. Among the surcharges may be noticed the exceptionally large amount Finding considerable recovered from the Brigade Paymaster of £1,668 5s. 6d. difficulty in getting his Accounts of Advances adjusted, the matter was reported to the Government, and a special investigation was directed to be made, when it was found that, mainly through the want of proper assistance, and the complications arising out of the Soudan Expedition, the accounts had got into an almost hopeless state of confusion, and that, unless a change were at once made, there was every probability of the current transactions adding still further to the difficulty of restoring them to order. On my recommendation an Accountant was at once appointed to attend to the current accounts, while one of my Inspectors, with an assistant, was instructed to take up the arrears. This work occupied the greater part of six months, but it was most effectually done, and the result was the recovery of the surcharges already quoted; but the statements of items set forth in the Inspector's able report as requiring settlement are not yet fully disposed of. 58.

- 58. The following cases of default have come under notice during the year, viz.:—
  - Mr. W. Forbes, Warden's Clerk, Barmedman, embezzled £43 7s. 6d; tried, and sentenced to eight months' imprisonment.
  - Mr. Theo. Horton, Land Agent, Young, was convicted of embezzling £2,678 7s. 4d., and sentenced to seven years' imprisonment.
  - Mr. Colin Cooper, Railway Goods Clerk, Glen Innes, embezzled £651 9s. 8d., and on trial was sentenced to five years' imprisonment.
  - Mr. George Berner, Chief Clerk, Department of Railways, embezzled £2,012 5s. 7d.; was tried and sentenced to ten years' imprisonment.
  - Mr. E. V. Gamble, Goods Clerk, Narrandera, embezzled £73 17s. 2d. Action not known.
- 59. Subject to the foregoing remarks, and to the advances to Public Officers and others being adjusted in accordance with the heads of service to which they have been charged, I consider that the Statements of Accounts now submitted, correctly represent the Treasurer's Receipts and Disbursements within the year 1886. In their present form, however, and until the annual appropriations be made for the payments fulling within each year without respect to date of service, these annual statements will not fully satisfy the intention of the 22nd section of the Audit Act, nor afford such an Account of the Income and Expenditure of the Colony as to be easily intelligible to the public at large.

EDWARD A. RENNIE,

Department of Audit, Sydney, 20th August, 1887.

Auditor-General.

#### APPENDIX C.

### Opinions of Attorney-General.

(No. 1.)

Mode of Appropriating Fines under section 12S of the Municipalities Act, 31 Vict. No. 12.

Case for the opinion of the Honorable the Attorney-General.

CERTAIN fines imposed at the Courts of Petly Sessions at Newtown and Redfern under section 23 of the Act 2 Victoria No. 2 have been usually appropriated, one half to Police Reward Fund, and the other moiety to the borough in which the offence was committed.

It is contended that the 128th section of the Municipalities Act 31 Victoria No. 12 limits such

appropriation to cases confined to the specific enactments quoted in the margin of said section.

On the other hand, the practice has been based upon the terms of the latter portion of the 128th section 31 Victoria, No 12, namely:—"And so much of all fines fees and sums of money which by reason of the operation of the said Acts or either of them in for or in respect of any municipality shall be payable by any person as would if this Act had not been passed be paid into the Consolidated Revenue shall belong to the said municipality and shall be paid to the Treasurer or other proper officer of such municipality for the general purposes thereof.

Similar procedure as to appropriation of fines under 4. Wm. IV No. 7 and 17 Victoria No. 31 in

Similar procedure as to appropriation of fines under 4 Wm. IV No. 7 and 17 Victoria No. 31, in reference to Sunday trading and riotous conduct, is also objected to on similar grounds, that the Act 31

Victoria No. 12 gives the municipalities no claim to moieties of fines under the Acts quoted.

The Auditor-General respectfully requests the opinion of the Honorable the Attorney-General as to the legal disposal of the fines in question.

Department of Audit, 4 June, 1886.

EDWARD A. RENNIE Auditor-General.

Copy Opinion.

Ir appears to me that the advice asked is substantially whether the concluding part of 31 Vic. No. 12 is to be acted upon or not. It is therein accurately stated what fines, fees, and sums of money are to belong to each municipality, and it ought not to be necessary for me to transcribe the words. It must be fines, or fees, or sums of money, which by reason of the operation of 2 Vic. No. 2, 11 Vic. No. 44, 19 Vic. No. 10, and 17 Vic. No. 25, in, for, or in respect of any municipality are payable by any person, and it is restricted to such part of them as would, but for the Municipalities Act, be payable to the Consolidated Revenue. Revenue

No fees or fines, except those payable by reason of the operation of these Acts in the municipality in question (or for or in respect thereof) are affected by this Act.

W.J.F., A.-G., 8/2/87.

### (No. 2.)

Diversion of Votes for a specific service to meet a contract for a new work not in the voted Estimates of Expenditure.

#### INDUSTRIAL SCHOOL, PARRAMATTA.

Minute for the Auditor-General.

Treasury, No. 392, 10 November, 1886.

THE Accountant of the Treasury informs me that under your decision of years past, constantly acted upon by us, an Annual Vote lapses at the end of the year for which voted, unless some contract has been

A contention has arisen between the Treasury and the Department of Public Instruction in reference to the Annual Vote of 1885, "Repairs for Roman Catholic Orphan School, £500." The Minister desires to use this vote for a contract now taken or about to be taken, and relies upon the following words in the 15th section of the Appropriation Act of 1885:—"No appropriation included in this Act shall lapse until the 31st day of December, 1886."

The decision of the Auditor-General is specially requested in this case, all the perticulars of which are set forth in the enclosed paper, Treasury number 8,141, of 14th ultimo.

The Auditor-General, B.C.

G.E.

Department of Audit, B.C, 8 November, 1886.

The 15th clause of the Appropriation Act was introduced to prevent the lapsing of votes for new works, when those votes were taken so late in the year as not to allow time for contracts to be entered into before its close.

Annual Votes of the class in which the vote of £500 referred to is included, are obviously not of the nature of new services, and when not expended are not entitled to be added to the corresponding votes of the following year, and thus make the expenditure double what was really provided by Parliament, for the year's requirements.

Apart from this, however, the vote of £500 desired to be utilized, was expressly granted for "Repairs to the Paramatta Roman Catholic Orphan School," but as there is no longer such an Institution, and no contract has been entered into for such repairs prior to the abolition of that Institution, it is clear that neither the vote for 1885, nor the corresponding one of £500 for 1886, is available for the proposed purpose, without the express sanction of Parliament.

The Under Secretary for Finance and Trade.

E. A. RENNIE, A.-G.

### Copy Opinion.

I AM inclined to think, though the question is not free from doubt, that the sum mentioned of £500 may

be legally applied for the payment of this work.

The idea that this is not now the Parramatta Roman Catholic Orphan School, and that therefore the money cannot be applied for it, is, I think, an erroneous one. The term is clearly only one applied for

the purpose of designating the particular locality or building upon which the money is to be expended.

The other question, as to whether the money, being for a new work, can be expended, is a more difficult one, but, under all the circumstances, I think it comes within the wording and protection of the Appropriation Act, and that the money can therefore be expended as desired by the Minister for Education. J. H. WANT.

### (No. 3.)

Legality of the collection of Railway Tolls fixed on the authority of a single Minister of the Crown.

Department of Audit, Railway Branch, Sydney, 9 May, 1887.

I have the honor to enclose a case for the opinion of the Attorney General, as to the legality of levying railway tolls fixed otherwise than by the Governor, with the advice of the Executive Council,

as prescribed by the 100th section of the Railways Act, 22 Vic. No. 19.

A précis of the facts which have given rise to the case, and other papers serving to explain it, are also enclosed, with a request that they may be returned, with a copy of the Attorney-General's advising thereupon, at your earliest convenience.

I have, &c., E. A. RENNIE, Auditor-General.

The Crown Solicitor.

### Case for Opinion.

Under the 100th section of the Railways Act, 22 Vic. No. 19, the Governor and Executive Council fixed (among others) the rates of tolls to be charged for "excursion tickets," and fixed also the days on which such tickets were to be issued. The Commissioner for Railways issued excursion tickets on other special days, and at rates differing from those fixed by the Governor and Executive Council. Admitting

special days, and at rates differing from those fixed by the Governor and Executive Council. Admitting the irregularity, the Commissioner sought and obtained from the Governor and Executive Council (minute No. 87/17, dated 28 Feb., 1887) an authority for "the Secretary for Public Works to issue special passenger tickets on the various lines of Government railways when necessary."

It is held to be incompetent for the Governor and Executive Council to delegate their special functions, under the 100th section of the Act, 22 Vic. No. 19, of fixing rates of tolls to any single Minister of the Crown, or to the Commissioner for Railways, and that consequently any rates so fixed, which may differ from those published in accordance with sections 102 and 103 of the same Act cannot be legally collected.

collected.

The advice of the Attorney-General is solicited.

EDWARD A. RENNIE, Auditor-General.

Department of Audit, 9 May, 1887.

#### Précis.

Power of the Minister for Works to fix rates for Excursion Tickets on Railways at his discretion.

By Coaching-rate Pamphlet, dated 1st Jan., 1884, in force at the time the cases herein referred to occurred, and sanctioned by the Governor and Executive Council, under section 100 of the Railway Act, 22 Vic. No. 19, pages 6 to 17, certain excursion rates are fixed to be charged on the railways of the Colony

for distances up to 600 miles.

At page 28 of same pamphlet a regulation is inserted limiting and defining the occasions as to day

and train on which these excursion rates shall be charged.

In October, 1885, the Auditor-General called for papers in support of a credit of 15s. 6d. at Goulburn, upon receipt of which it was found to be a refund based upon the issue of an excursion ticket on a day other than those named in the regulations.

The Auditor-General replied, asking the Commissioner for Railways under what authority excursion rates were taken on days other than those named in the regulations issued under the sanction of the Executive Council.

In reply, the Commissioner forwarded an authority of the Governor and Executive Council, just obtained by him, empowering the Secretary for Public Works to issue tickets at excursion rates at his discretion on the railways of the Colony.

This authority was accepted by the Auditor-General as simply relaxing the regulation before referred to (which restricted the issue of tickets at the excursion rates named in the pamphlet), and

allowing the Minister to apply those rates on other occasions, as he might see fit.

In the meantime other questions had been raised by the Auditor-General as to rates charged, viz.: -

Query 910.—Rate of 12/-, 1st special fare, Sydney to Windsor Races.

,, 948.—Rate of 8/-, 1st excursion
,, 947.—Rate of 4/- and 2/-, 1st and 2nd class fares, Sydney to Liverpool.

all of which were special rates not to be found in the scale of fares fixed by the Governor and Executive Council, and the Commissioner was requested to obtain Executive sanction for such rates.

. In reply, the Commissioner referred the Auditor-General to the general authority recently obtained from the Executive (and herein already referred to) as authority for the Minister to fix these special charges. The

The Auditor-General replied that the authority referred to manifestly only applied to the occasions on which the Minister might at his discretion issue tickets at the excursion rates fixed by the Executive, and could not give the Minister power to vary the rates fixed by the Executive under the 100th section of the Railway Act. Executive authority was again asked for for the rates objected to.

The Commissioner then minuted, on 23/8/86, that as the papers upon which the authority was obtained contained instances in which excursion fares had been charged, not only at rate-sheet rates, but at rates both above and below those rates, and as it was authority for the continuance of this practice which was asked for and obtained, he saw no reason for again seeking Executive authority.

The Minister for Works concurred in this view, and the papers were again returned to the Auditor-

The Auditor-General replied that the effect of such a reading of the Executive Council's minute would be to give the Minister power to fix what rates he pleased for excursion fares, which, it was contended, could hardly have been the intention in view of the 100th section of the Act, which expressly provides that the charges to be made are only such as "may from time to time be determined upon by the Governor with the advice of the Executive Council." Secs. 102 and 103 were also referred to. The Commissioner was informed that the authority quoted could not be read as conveying a liberty which it would appear it could not legally confer.

Upon reconsideration by the Commissioner it was admitted that the authority referred to did not (as the Commissioner intended it should) confer authority for the Minister to vary the rates fixed by the Executive, and a fresh minute was prepared asking for a general authority for the Minister for Works to fix special excursion rates at his discretion. By an oversight the power was obtained in the name of the Commissioner for Railways, but upon this being pointed out by the Auditor-General a fresh Order-in-Council was obtained conferring the power upon the Minister for Public Works, and the previous order cancelled.

It is contended by the Auditor-General that, under the 100th section of the Act 22 Vic. No. 19, the power of fixing all rates of tolls chargeable on the railways is vested solely in the Governor, with the advice of the Executive Council, and that therefore it is not competent for that body to delegate to the Minister for Works a general power to fix rates on certain or any occasions.

Department of Audit, 9 May, 1887.

W.R.R.

#### Copy Opinion.

Ann tolls or rates of passage-money must be fixed by the Governor with the advice of the Executive Council, s. 100, and can only be legally collected when, having been so fixed, they are duly posted up, ss. 101, 102. The amounts must be fixed by the Governor and Executive Council in each case, and this power cannot be deputed.

I am not prepared to say that, if excursion rates are duly fixed, it might not be left to the Minister, or even to the Commissioner, to say when he would run an excursion train, but no Minister or Commissioner can legally determine the rates themselves.

W.J.F., A.-G., 17/5/87.

Sir,

Department of Railways, Sydney, 24 June, 1887.

I have the honor to acknowledge the receipt of your letter of the 27th ultimo, intimating that you have taken the opinion of the Law Officers of the Crown as to the validity of the authority exercised by the Governor and Executive Council in delegating to the Minister for Public Works the power to issue excursion and special tickets at special rates fixed by himself; that such delegation has been pernounced to be illegal and inoperative; that it will therefore be necessary to obtain Executive authority for all rates which have been charged under this arrangement outside the formally authorized rates; and that you must not be understood to challenge the Executive minute of 4/5/86, which confers on the Minister the power to fix the occasions upon which excursion tickets shall be issued.

In reply, I have to inform you that I see no reason to question the interpretation placed by the Attorney-General on sections 101 and 102 of the Railway Act, as contained in his opinion, copy of which you have enclosed.

It is, however, absolutely necessary that some other measure should be adopted to obviate the inconvenience arising from a strict interpretation of the Act, which requires that Executive authority shall be obtained before any charges are levied.

Occasions frequently occur when the delay incidental to a strict compliance with the requirements of the Act in this regard would be fatal to the objects sought to be attained, and valuable traffic might be

lost to the Department.

With a view to meet the difficulty, and at the same time avoid too frequent applications for authority, I propose, with your concurrence, to continue the present practice of issuing excursion and special tickets on the authority of the Minister, and periodically—say every three months, or oftener, if you would prefer it - to obtain Executive authority for all such departures from the sanctioned rates.

Executive authority will be obtained immediately for the special rates which have been charged in virtue of the minute which has been pronounced to be inoperative.

The Auditor-General.

I have, &c.,
C A. GOODCHAP,
Commissioner for Railways.

Department of Audit, Railway Branch, Sydney, 6 July, 1887. I have the honor to acknowledge receipt of your letter of 24th June, 1887, having reference Sir, to the necessity of special and excursion fares for collection on the railways of the Colony being fixed by the Governor with the advice of the Executive Council, and inviting my concurrence in an arrangement whereby an ex post facto authority for all such rates should be recognized as sufficient.

In reply thereto, I am compelled to say at once that I could not possibly agree to a proposal which sets at naught the specific provisions of an Act of Parliament, and which, I feel sure, if submitted to the Crown Law Officers, would only elicit a repetition of the opinion already given.

Crown Law Officers, would only elicit a repetition of the opinion already given.

It does not appear to me, however, that practically such great inconveniences would arise as are foreshadowed in your letter, as occasions must be few and far between on which other than excursion rates would need to be published to secure special traffic, and as authority is already given for the application of excursion rates to special occasions not noted in the rate-sheet. Moreover, any special occasion for which extra traffic might be secured in the way supposed must surely be known in sufficient time to make provision for it; and, besides, the scales of rates that might be applicable to such cases cannot be so very numerous or varied as to preclude the possibility of framing a scale to be authorized by the Executive for use as the Minister may direct, under the authority already given for occasions.

I have, &c.,

E. A. RENNIE,

Auditor-General.

The Commissioner for Railways.

Auditor-General.

(FOR THE YEAR 1887, WITH 17TH ANNUAL REPORT OF THE AUDITOR-GENERAL.)

Ordered by the Legislative Assembly to be printed, 4 July, 1888.

The Auditor-General to The Honorable the Speaker of the Legislative Assembly.

Sir,

Department of Audit, Sydney, 4 July, 1888.

Under the provisions of the Audit Act of 1870, I do myself the honor to transmit to you, for presentation to the Legislative Assembly, a copy of the Colonial Treasurer's Statement of the Receipts and Expenditure of the Consolidated Revenue and other moneys for the year 1887, together with my Report thereon.

I have the honor to be,

Sir,

Your obedient servant,

EDWARD A. RENNIE,

Auditor-General.

† Transferi							A (T)		<del>~</del>		43.5	- 4	ct, vlz , £175.838 13° 1	d has been meda co	od from the Cansolida

<sup>†</sup>Transferred to the credit of the Consolidated Revenue Fund. 1 The amount short raised under this Act, viz, £175.838 12° 1d. has been made good from the Consolidated Revenue Fund. § Of this sum £2,050,000 were issued in Debentures. The £2,000,000 lean of 1882 was usued in Debentures also, but they were since authorized to be exchanged for Inscribed Stock at the option of the holders; a proflege which was availed of to the extent of £1,180,300 only. The balance was in the form of Inscribed Stock.

a. Issued as Inscribed Stock.

The Treasury, New South Wales, Sydney, 31st March, 1888. JAMES PEARSON, Accountant.

# SEVENTEENTH ANNUAL REPORT

OF THE

# AUDITOR-GENERAL

ON

THE TREASURER'S STATEMENTS OF THE RECEIPTS AND EXPENDITURE OF THE CONSOLIDATED REVENUE FUND, AND OTHER MONEYS, FOR THE YEAR 1887.

(Under Act, 33 Victoria No. 18.)

- 1. As directed by section 38 of the Audit Act of 1870, I have the honor to lay before the Legislative Assembly, the statements prepared by the Treasurer, of his Receipts and Disbursements of Public Moneys within the year 1887, together with the following Report and Explanatory Returns. The statements were received by me for Audit on the 27th March; were returned on the 18th May for certain emendations found to be necessary or desirable in the course of examination, and were received back from the Treasury amended as required, on the 18th June.
- 2. The Accounts appear in the same form as in previous years, and show the usual classification under the ordinary principal Divisions of Revenue Proper, Loans in Aid, and the miscellaneous transactions which constitute the Trust Funds.

#### GENERAL STATE OF THE BALANCES.

3. Taken together as form	ning th	ie Ger	ieral	Public	Acco	unt	of 1	the	Colo	ny
they show on the 1st January,	, 1887,	a cr	edit 1	oalance	in c	ash	and	l sec	curit	ties

5. The nominal Liabilities of the Revenue as ascertained from Statutory Appropriations which remained unsatisfied or undischarged at the same date were as follows:—

For Public Works chargeable to the Old Loans Account	£132,664	10	1
Current Services of 1887 (vide Appendix A)	911,720	4	3
Services voted out of Surplus Revenue of previous

Interest and Extinction of the Public Debt (vide			
Appendix A)	567,088	16	4
T. Comments of the Comment of the Co	£1,901,689	0	0

The Revenue Account being already overdrawn, as shown by preceding paragraph, such portion of these nominal Liabilities as may require to be satisfied will of course become charges upon the growing produce of the Revenue of the present year. It may be remarked, however, that, with the exception of the amount due for Interest on the Public Debt, which, in strictness, ought to have been set aside on or before the 31st December, these liabilities would have ceased at that date if the appropriations for the Public Service, so often advocated in these reports, had been specified to meet only the payments falling to be actually made within the year. The balance, in that case, debtor or creditor, would always show the surplus or deficiency without elaborate—after all, but estimate—statements to arrive at it.

- 6. The passing of the Appropriation Act having been delayed until the 13th July, five Temporary Supply Acts provided the required sanction of Parliament to cover in the meantime, the necessary ordinary disbursements together with several items for urgent services which are omitted from the General Act. Attention was called last year to similar omissions from the Appropriation Act of 1886. It is very desirable that the whole of the temporary grants unless in the meantime replaced by any process, should be recapitulated in the final Act of appropriation of the Revenue, and that such final Act where it has become necessary to obtain temporary grants, should quote the balance only as required to complete the sum total of the items specified in it. It may be worthy of consideration whether some arrangement could not be made to avoid these temporary appropriations.
- 7. By referring to Appendix A, it will be seen that to complete the statement of authorised appropriations of the year, it became necessary to quote four out of the five Temporary Supply Acts as authorities to the amount of £125,000 (most of which was expended during the year), and also by anticipation of the General Appropriation Act for 1888, to quote a Temporary Supply Act passed at the very close of the year for a sum of £127,000, all of which is brought to account as expended, in the statements under review.
- 8. The amount in question was granted by that Act to replace payments temporarily made from the Treasurer's advance vote on account of services specified in the Supplementary Estimates then before the Legislative Assembly, and, having been treated as a final appropriation, the temporary payments have been distributed under

under the heads of the respective services to which they refer. This partial appropriation can hardly be considered a satisfactory one inasmuch as not being expressly limited to the sums stated as paid to 31st October in the Supplementary Estimates it has afforded the Treasurer the advantage of, in some cases, drawing against the items proposed to be voted beyond the sums reported as paid on their account.

9. Moreover the effect of this appropriation was to restore the Treasurer's Advance Vote for 1887 to the full amount of £200,000 a few days only before it would cease to be legitimately available for re-expenditure, but between the 28th of December, when the Supply Act became available, and the 31st of that month £113,691 18s. 8d. were issued in satisfaction of further claims, for which the sanction of Parliament had not then been obtained.

This operation was the more remarkable that by the same Act another sum of £100,000 was granted on account of the Advance Vote for 1888, which became available immediately after the close of the year, and also that the Advance Vote of £200,000 for 1886 was due for adjustment. This will be explained further on.

10. In connection with the expenditure for "Relief Works and Relief to the Unemployed," it appears that prior to the passing of the Temporary Supply Act for August, 1886, advances for that service began to be made by the Mercantile Bank of Sydney—the first payment having occurred on the 17th of that month. No notice of these transactions, however, accompanied the Daily Bank Sheets furnished by that bank, until the 19th March, 1887, by which time the bank advances had reached a sum of £27,544 15s. 9d. This was increased by the end of the following month to £27,700, at which amount it remained until the 11th December, when repayment was made to the bank from the Public Account.

The Vouchers for this expenditure, extending from 17th August, 1886, to 30th April, 1887, thus only came under notice with the Treasurer's Cash Sheet of the 11th December, and being for an exceptional service the adjustment of the Account was rendered difficult by the lapse of time since the expenditure was incurred.

- 11. The pension list under Schedule B for 1887 is remarkable for the reappearance upon it of an old political officer's pension of £800 per annum which was attached by the Constitution Act to the abolished office of the Solicitor-General. That pension had remained in abeyance for eleven years in consequence of the appointment of the then holder of the pension, Sir William M. Manning, to the office of a Judge of the Supreme Court. Having retired from that office on the 17th October last he became entitled to a pension for his service as such Judge at the rate of £1,820 per annum under the "Judges' Salaries and Pensions Act of 1883."
- 12. A question arose as to whether Sir William M. Manning was entitled to receive his former pension as Solicitor-General along with his pension as a Judge of the Supreme Court, and on being referred to by the Treasurer, Mr. Attorney-General Wise, advised as follows:—

<sup>&</sup>quot;Sir William Manning is without doubt entitled to receive a pension of the full amount of the "salary received by him as Solicitor-General at the date of the passing of the Constitution Act in addition "to his retiring allowance as Puisne Judge. By section 81 of the Constitution Act this pension merged "only 'during the tenure' of his appointment as Judge. It therefore now revives."

- 13. The new Excise Duty upon beer brewed in the Colony established by the Act 50 Victoria No. 38, which came into force on the 3rd June, 1887, produced £63,565 4s. 3d.; and by the Acts 51 Victoria Nos. 6, 7, and 8, certain alterations were made in the duties on spirits and tobacco, and in the General Customs Tariff, but as these alterations were not all made on the same date, the precise effect of these cannot be stated. Taking, however, the produce of the Customs and Excise together as a whole, and deducting the drawbacks and refunds allowed in each of the past two years, the result shows an increase of £16,274 9s. 3d., the net receipts of 1886 having been £2,120,912 7s. 11d., and the corresponding receipts of 1887 £2,137,186 17s. 2d.
- 14. The Act 50 Victoria No. 39 authorized the sale by auction of certain classes of Crown Lands on condition of the payment of the balances of purchase money being deferred for periods not exceeding five years, but bearing interest at 5 per cent. The amount of balances so deferred for three years on sales within the year was £34,349 11s. 3d., but there are no means of ascertaining how far the sales themselves or the prices obtained were affected by the new conditions.
- 15. Under the head of Wharfage and Tonnage Dues there is included a payment from the Loans Fund of a claim for £1,910 11s. 5d. made against the Harbours and Rivers Department for wharfage dues in connection with the Sydney Water Works. The effect of this transaction is that the money having been raised on a loan, the cost of this payment to the Revenue Account in interest will amount to something like £2,500 by the time the Loan out of which it has now been issued falls due for liquidation.
- 16. The system of charging the values of all interdepartmental services to Votes, and crediting corresponding sums to the Revenue, unnecessarily exaggerates the account both of the Expenditure and the Revenue. It should be sufficient to record all such values for use in the departmental reports to Parliament, or in any statistical account that might be required to show the extent to which any department was utilized for services other than those for which revenue was directly derived from the public. The existing practice serves apparently no good purpose, while it certainly occasions much unnecessary trouble, and to some extent misleads.
- 17. The Statement of Revenue and Receipts as a whole is made up, as it should be, very much on the lines of the Ways and Means Estimates, but it may be observed that a number of the heads of Receipts under the divisions "For services rendered" and "Miscellaneous" admit of a better classification than that which has been for some time adopted. It would also greatly enhance the interest and value of these Annual Returns were they accompanied by accounts current to show, year by year, at least under the general heads of Customs and Excise, Land, Railway, Postage and Telegraph Receipts, the specific cost of the respective Departments, and the net amount of their contribution to the Public Revenue, or the reverse.

#### THE TRUST FUNDS ACCOUNT.

18. The credit balance on the Trust Funds as a whole show an increase of £6,448 12s. 2d. on the operations of the year, which closed with a gross total of £2,514,510 2s., representing the public liabilities as regards the collective Trusts. These are set forth in abstract under their respective designations at pages 11 and 107—the principal item being the Government Savings Bank Account, with a credit balance of £1,472,525 4s. 7d., an increase of £78,600 (s. 6d. over the previous year.

- 19. The Civil Service Superannuation Account also shows a considerable increase in its credit balance. This is raised from £149,764 7s. 8d. to £230,986 2s. 11d., a net addition of £81,221 15s. 3d. The account is given in detail at pages 86 to 93, where it will be seen that 158 Public Officers and Servants were in receipt of pensions, and 105, including 31 widows, were paid gratuities, under the various sections of the Civil Service Act. The total payments amounted to £29,661 15s. 2d., while the ordinary contributions to the account by the 4 per cent. deductions from salaries during the year reached the sum of £64,454 3s. Further information respecting the operation of this Superannuation Account is given in the report of the Civil Service Board for 1887, recently laid before Parliament.
- 20. The Police Superannuation Fund has decreased its credit balance from £12,373 18s. 7d. to £7,428 3s., with increased liabilities—while the Police Reward Fund has been augmented during the year by the sum of £5,533 10s. 1d. The two funds are, however, practically one—as explained in a former report—and their united balances thus exhibit a small advance over the year 1886 of £587 14s. 6d, while a net increase has occurred in the Police Pension List of £1,438 7s. 1d.—the total annual rate having been £13,289 6s. 3d. at 31st December last.
- 21. A new account entitled, "The Colonial Treasurer's Master-in-Lunacy Account" (page 61), has been established under the "Lunacy Rules" made by the Supreme Court on the 7th July, 1887, pursuant to the Lunacy Act of 1878, 42 Vic. No 7; but the operations upon it are similar to those of the account in the name of the Master-in-Equity, and are carried on independently of the provisions of the Audit Act. This was explained in the report upon the Accounts of 1883, when the latter Account was first detached from the "Trust Moneys Deposit Account," as established under 20 Vic. No. 11. No certificate can therefore be given as to a detailed audit of these two statements.

#### THE TREASURER'S ADVANCE ACCOUNT.

- 22. The Advance Vote of £100,000 to the Treasurer for the year 1885, has at length been adjusted by a recredit of that amount to the Revenue during the past year—although it was due for adjustment not later than the 31st December, 1886.
- 23. For the emergencies of 1886 two similar Advance Votes were granted on the usual condition of adjustment not later than the 31st of December, 1887; but, as in the former case, the condition has not been fulfilled, while a further advance of £200,000 was voted in 1887 for unforeseen demands of that year, making thus a total of £400,000 placed at the disposal of the Treasurer for expenditure in anticipation of Parliamentary sanction.

Of this sum the unexpended balance at 31 December is shown at page 107 to have been £13,308 1s. 4d., being the remnant of the restoration vote of £127,000, passed 28th December, 1887. The total amount requiring adjustment was consequently £386,691 18s. 8d.,—disbursements to that extent having been made for the services specified in appendix B, according to the following classification, viz.:—

		£	8.	d.
		375,056	5	<b>2</b>
Advances	on account of Loan Services	2,501	4.	41
,,	on account of other Governments	731	12	8
. ***	to be recovered from various other sources	8,402	16	6
•		£386,691	18	8

- 24. On reference to Appendix D to last year's Report it will be seen that the corresponding amount requiring adjustment for the Advance Vote of 1886 was £206,416 15s. The Appropriation Act of 1887, passed in July, expressly covered the greater portion of the amount, and otherwise afforded the means of replacing the whole to the credit of the Revenue Account, and this should certainly have been done before the close of the month of July. While the literal terms of the Advance Vote for any year give the Treasurer up to 31st December of the following year to adjust it, those terms cannot fairly be held to allow of the money being used over again after the transactions arising out of it had been expressly covered by Parliamentary appropriation, or by other means of fully accounting for it.
- 25. The Advance Vote of £100,000 for 1885 was only adjusted in September, but there was a sufficient balance to have also adjusted the vote of £200,000 for 1886, even in the previous month of July. Advantage was, however, taken of that balance to meet a portion of the purchase money of the property of the Australasian Steam Navigation Company, at the Circular Quay, and accordingly £200,000 were paid for that purpose on the 28th of October; but this issue was made from the Public Account without my certificate of its being legally available, and consequently without the warrant of the Governor, in direct violation of the Audit Act.
- 26. On or about the same date the balance of £75,000 of the purchase-money for the property referred to was drawn from the Commercial Bank and the Bank of New Zealand, in equal proportions; but nothing appeared of this transaction in the Public Account or the Bank Sheets, until repayment of the money to those banks was made on the 30th December, out of the Restoration Vote of £127,000, in favor of the Advance Account. This-transaction, by reducing the interest bearing balance at the credit of the Government, occasioned a loss of £235 1s. 3d.
- 27. The whole amount of £275,000 thus appears as part of the unadjusted Advance Votes, as also the cost of the purchase of the adjoining Dawes' Point property, £29,000. This latter sum, however, was advanced in a regular way, the Treasurer having apparently a sufficient balance upon his vote at the time to meet it.
- 28. These transactions with the Banks outside of the Public Account, and the unquestionably illegal draft of £200,000 upon that account itself, clearly show the necessity of placing the Advance Vote upon a statutory footing, and also of enacting some more stringent measure than the Audit Act for securing the Public Account against operations which are not supported by Parliamentary sanction.
- 29. Another payment was made out of the Advance Vote of £11,354 12s. 5d. for "Transmission of Telegraphic Messages, 1886"—being a transfer to the Revenue Account, where it was credited on the last day of the year, under the head of "Electric Telegraph Receipts." In the Supplementary Estimates, dated 30th November, 1887, no provision is made for this arrear claim of 1886; but a claim of that kind could not fairly be considered so urgent as to require settlement out of the Advance Vote—for, if even the amount had been voted in due course, the payment of it would have been of no benefit to the Revenue.

This is another illustration of the uselessness of exaggerating the Revenue Account at the expense of Votes for Expenditure, to which reference has already been made in a previous paragraph (16).

#### GENERAL LOANS ACCOUNT.

- 30. The expenditure brought to account during the year for General Loans Services reached the sum of £1,977,501 4s. 3d., full details of which are given at pages 75 to 79. These disbursements still left a balance of the Loan Fund on hand of £1,908,516 11s. 4d., without any addition having been made to the Public Debt beyond a sale to the Police Reward Fund of Debentures to the amount of £10,000. Moreover, no additional Loan Act was passed for 1887; but certain Services, which it is stated are to be provided for by a future Loan Act, have been made a temporary charge upon the Revenue Account in the General Appropriation Act to the amount of £310,000; and in the Temporary Supply Act, 50 Victoria, No. 30, to a further amount of £250,000. For those Services payments were actually made to the extent of £156,830 9s. 4d., and appear accordingly as issues from the Revenue to be replaced thereto hereafter.
- 31. The transactions of the year within the Loans Account proper have reduced the nominal Appropriation Liabilities to £14,015,939 12s. 9d., to meet which, should all the Services be carried out, and at the full estimated cost, further Loans to the extent of £12,107,423 1s. 5d.\* will have to be raised in addition to the cash on hand.
- 32. But it must be observed that for £11,538,500 of the £13,013,500 authorized to be borrowed for the construction of certain Railways, and other Railway Services, by the Loan Act, 48 Victoria, No. 26, the specific authority of Parliament has not yet been given for the works. Until that authority has been obtained therefore, and tenders accepted for the works, no demand can arise for utilizing the power to borrow given by the Act referred to, for that Service.

Between the years 1884 and 1887, however, sums amounting to £82,872 16s. have been expended in preparations for carrying out the railway lines which yet wait full authority for their construction.

33. By the operation of the Million Loan Act of 1867, 31 Victoria, No. 11, a reduction of £48,900 was effected in the debt created by that Act—£19,600 by the annual drawing at 31st December, 1886, and £29,300 by purchases at premiums of from 5 to  $8\frac{1}{2}$  per cent. As previously reported (Report on Accounts of 1884, sections 43 to 45) the premiums, including accrued interest, are met by specific Votes of the Revenue instead of by the provision made in the Loan Act itself.

The Revenue has thus been improperly charged to the end of 1887 with a sum of £11,462 10s. expended in this way. Moreover the taking of extra votes for the cost of purchase of these Debentures over par has undoubtedly interfered with the conditions upon which, as set forth in the Act, the Loan was originally negotiated.

34. With the reduction thus made of £48,900, and the small addition of £10,000 by the sale of debentures already referred to, the total Public Debt was reduced during the year to £40,995,349 9s. 2d., the annual interest charge being £1,643,135 11s. 8d. from the 1st January, 1888. Distributing the total debt approximately

<sup>\*</sup> This sum may be observed to be less than that stated at page 112 as the "amount not yet raised" by £107,211 15s., being the total of certain balances of Loan Service Appropriations no longer required for expenditure.

approximately according to the amounts allotted to the various services in the respective Loan Acts, the proportions of the debt and of the annual interest appear as follow:—

Services.				Principa	1.		Interest.	
Pailways and Transvers		· ·		£ 33,556,627	B.		£ 8.	d.
Railways and Tramways Electric Telegraphs	•••	411	•••	683,309		4 4	1,333,301 0 30,107 15	$\frac{6}{2}$
Harbours and Rivers Naviga	ition	***	,	1,998,705	19	7	82,073 7	9
Roads and Bridges Immigration	***	***	•••	587,006 387,663		9	$ \begin{array}{rrr} 26,447 & 5 \\ 18,863 & 2 \end{array} $	$rac{1}{2}$
City of Sydney Sewerage	***	•••	•••	592,123		8	24,217 0	$\frac{2}{2}$
Do. Water Suppl	у			1,526,100		7	61,220 4	5
Miscellaneous Public Works	1 * *	***		1,663,812	13	11	66,905 16	5
Total	•••	•••		£40,995,3 <b>4</b> 9	9	2	£1,643,135 11	8

Inasmuch, however, as the actual expenditure for the services has been more or less than the above-stated proportions, the exact expense for interest to each can only be ascertained upon their completion.

### THE RAILWAY RECEIPTS.

35. The Railway tolls and other items of receipt connected with the Railway traffic as credited at the Treasury in 1887, include as usual sums collected on this side of Albury for traffic to Victoria and South Australia beyond that border town which have been paid over to the Governments of those Colonies respectively. The sums are, for Victoria, £27,172 1s. 4d., and for South Australia, £511 15s. 7d.

36. Deducting the amount of these contingent receipts, there remains a gross total proper to this Colony of ... ... ... £2,257,291 3 10 which, compared with the corresponding receipts of 1886 ... 2,137,303 4 5

Shows an increase of ... ... ... £119,987 19 5

To make this comparison fair, however, there should be set off against this increase a sum of £35,393 8s. 7d., collected on the 31st December, which was not paid to the Public Account, nor credited at the Treasury until the 3rd of January of this year, but was nevertheless taken up into the Accounts of 1887, while the corresponding collections of the 31st December, 1886—£27,403 5s. 5d.—were credited in January, 1887, and also formed part of the Receipts for the past year, not having been taken up into the Accounts of 1886.

37. The proportion of the toll receipts as a whole derived from votes of Parliament and other services for work done by the Railway Department, as set forth in Appendix C, was £71,328 0s. 7d.—a decrease upon the like credit of the past year of £27,104 1s. 6d. Taking, however, the whole receipts belonging to the Colony as credited within each of the past four years and the payments made for working expenses within the same period, the following table shows approximately what amount each year's traffic receipts realized towards meeting the interest on the capital invested, and other charges of the Railway Service not classed as working expenses.

-	1884.			1885.	1886.	1887.
	£2,066,382	9	9	2,252,400 12 8	2,137,303 4 5	2,257,291 3 10
Gross payments for work-	1,427,365	8	5	1,550,789 9 8	1,583,658 9 6	1,544,715 16 3
Net contribution towards				<del></del>	<del></del>	
interest on Capital and ( charges other than (	£639,017	1	4	701,611 3 0	553,644 14 11	712,575 7 7
working expenses )						

38. The local inspection of the Railway Station Accounts, which together furnish the details of the above-stated receipts making up the Railway Revenue, has been carried out during the year as far as the staff of inspectors at my disposal has permitted.

It will be understood from the observations made in the reports of the past four years, since a special audit was directed by the Government to be applied by this Department to the collections of the Commissioner for Railways, that such audit does not by any means signify an exhaustive examination of the detailed accounts which represent those collections. It may nevertheless on this occasion be as well to repeat that the detailed examination of the daily collections by the Commissioner of railway tolls and freights is carried out by his own staff, and is only subject to review by occasional visits to the collecting stations by my inspectors.

- 39. The whole number of visits made in 1887 to stations where accounts are kept was 265. Of these the inspectors reported the results of their examinations in 212 cases as more or less satisfactory, and in fifty-three as varying from indifferent to very unsatisfactory in their character. In thirteen cases it was considered advisable to make special reports to the Commissioner. In one of these a deficiency of £205 8s. 6d. was found to have occurred since a previous inspection, and had been discovered by one of the Commissioner's inspectors in the interval, but the defaulting clerk, on being tried, was acquitted of the charge made against him. A portion of this deficiency, however (£100), was subsequently recovered upon his fidelity bond.
- 40. It may be as well to take this opportunity of remarking that in this and all similar cases, while the moneys have actually been collected by the Commissioner's officers, they have not, as a matter of course, reached his hands, and are consequently excluded from his attested accounts of collections. Such sums must, sooner or later, be written off the station books, together with all earnings debited therein which from any cause fail to be collected. This is one of the directions, and an important one, in which the inspections made independently of the Commissioner's own officers, becomes valuable as a check against possible frauds or losses through carelessness, as without such independent inspections nothing would ordinarily be known of them outside the Commissioner's offices.
- 41. As it is not possible under present arrangements to visit each of the stations more than about once a year on an average, the independent inspections by this Department become restricted to a minute examination of only a small portion of the whole accounts of each station, although advantage is always taken of the opportunity of a visit to extend the review as far as may be to the operations since the previous inspection, and to note all rebates or other special facts affecting the accounts.
- 42. Moreover as the transactions of one station are more or less mixed up with those of others, a large amount of vigilance and energy is required on the part of the inspectors to avoid oversights, and it is only due to the three officers who are now engaged in this inspecting work to bear testimony on this occasion to their zeal and efficiency in carrying out a very arduous work under more or less disadvantageous circumstances, to which reference has been made in former reports.
- 43. While there is, as explained, no complete review of all the details of the accounts, the ground work of the operations is carefully examined and numerous instances

instances are found to occur in which the published normal standards of fares and charges are added to, departed from, or modified to suit special cases, or circumstances, developed by the extension of traffic, without the proper legal sanction being first obtained. A list of such cases in illustration is given in Appendix D.

In addition to that list, for which it will be seen that authority has at length been supplied, about thirty other cases have been challenged as irregular but the objections taken have not as yet been replied to.

44. In Appendix E will be found the particulars of a case submitted for the opinion of the Attorney-General, in reference to a proceeding of the Commissioner for Railways, which I found it necessary to challenge on two distinct grounds, but in which the Commissioner declined to take any steps beyond obtaining the approval of the Sceretary for Public Works.

A man was fined £5 in due course of law by a bench of magistrates for a breach of a railway by-law. On certain representations, after in the first instance declining to do so, the Commissioner on his own authority remitted the fine, which he had no power to do, and directed the fine to be refunded at Campbelltown, but the money having been previously paid into the Revenue Account, the man was refunded the fine out of tolls collected at Campbelltown.

If legally sanctioned as a remitted fine, the proper course was to obtain the money from the Treasury, as in similar cases.

45. The fine was therefore illegally remitted, and the railway collections for a subsequent date were transmitted to the Treasury short by the amount of the fine. A surcharge against the Commissioner for the short collection of £5 was accordingly made, which he has so far declined to acknowledge.

#### MISCELLANEOUS.

- 46. The Certificates of Discharge to the Treasurer have been subject to certain disallowances which are set forth in Appendix F, the chief item being an improper issue of £200,000 from the Public Account, as explained above.
- 47. The Mint Bullion Accounts, and the Savings' Bank Accounts have been examined in the usual manner, and have been found to correctly represent the Books and Vouchers produced in support of the same.
- 48. The usual Special Statements in connection with the Public Accounts to which reference is not otherwise made in this Report are given as Appendices, viz.:—
  - Statement of Advances to Public Officers and others awaiting adjustment. (Appendix G.)
  - Statement of Surcharges raised and recovered upon the Expenditure and Revenue Accounts. (Appendix II.)
  - Statement of Authorities granted by the Governor and Executive Council in relief of Public Accountants under Sections 30 and 31 of the Audit Act. (Appendix I.)
  - Statements of Receipts and Disbursements in connection with the Registration of Brands and the Public Abattoirs' Fund. (Appendix J.)

- 49. The following cases of default have come under notice during the year, viz.:—
  - Mr. E. J. Pruen, Assistant Goods Clerk, Railway Station, Bathurst, charged with embezzling £50. Acquitted. Papers in this case were laid before the Legislative Assembly, on 25th October, 1887.
  - Mr. J. F. Conlin, Railway Station-master, Yanko, embezzled £19 3s. 10d. Three years' imprisonment.
  - Mr. J. P. Holohan, Postmaster, Gladstone, embezzled £71 17s. 2d. Six months' imprisonment. In this case £70 14s. 4d. were recovered.
- 50. Subject to the foregoing explanations and to the outstanding Advances to Public Officers and others being adjusted in accordance with the services to which they have been charged, I consider that the Statements of Accounts now submitted are correct abstracts of the Treasurer's Receipts and Disbursements within the year 1887.

Department of Audit, Sydney, 30 June, 1888. EDWARD A. RENNIE,
Auditor-General.

#### APPENDIX E.

Opinion of Attorney-General-Authority of the Commissioner for Railways to remit a fine.

Case for the opinion of the Honorable the Attorney-General.

THE Commissioner for Railways prosecutes for a breach of the Railway By-law No. 14, and obtains a decision of the Bench of Magistrates whereby a fine of £5 was inflicted upon the defendant. The fine was duly paid to the Commissioner as informer, and by him paid to the Consolidated Revenue Fund.

On appeal the Commissioner remitted the fine on his own authority, and refunded the amount of

£5 out of his current receipts for Railway Tolls.

The Auditor-General disputes the authority of the Commissioner to deal with the fine, and requested him to obtain legal sanction for his procedure. The Commissioner produces the approval of the Minister for Public Works, which the Auditor-General deems to be irrelevant.

The opinion of the Attorney-General is respectfully solicited as to whether it was competent for

the Commissioner to remit the fine in question.

E. A. RENNIE, Auditor-General.

Department of Audit, 17th December, 1887.

John Donnellan. Fine £5.

Précis.

An intending passenger named John Donnellan attempted to jump into the express train when passing Bowral Station on 22 July, 1886, but his foot slipping, he fell and sustained some small injuries.

He was proceeded against on the information of the Commissioner for Railways at the Police Court, Moss Valo, on or about 19 August, 1886, for a breach of Railway By-law 14, to which he pleaded guilty, and a fine of £5 was inflicted by the Bench.

This amount was paid over by the C.P.S. to the

Commissioner (as the informer), and was by him paid to Revenue.

On 23 August, 1886, Donnellan appealed to the Commissioner for Railways to grant him a refund of the £5, which the latter on 11/9/86 "regretted he could not do"; but subsequently, on 29/9/86, on the intervention of Mr. Kidd, M.P., the Commissioner directed that "under the circumstances the fine may be remitted."

Accordingly, in October, 1886, replications amount was refunded to Donnellan at Campbelltown by the station master these parts of him of the stations and the station master the station master the station and the station and the station master the station and the station and the station and the station and the station and the station and the station and the station and the station and the station and the station and the station and the station are stationary to the station and the station and the station and the station are stationary to the station and the station are stationary to the station and the station and the station are stationary to the station and the station are stationary to the station and the station are stationary to the station and the station are stationary to the station and the station and the station are stationary to the station and the station are stationary to the station and the station are stationary to the station and the station are stationary to the station and the stationary that the stationary the station are stationary to the station are stationary to the station are stationary to the station and the stationary that the station are stationary to the station are stationary to the station are stationary to the station are stationary to the station are stationary to the station are stationary to the station are stationary to the station are stationary to the station are stationary to the stationary to the station are stationary to the stationary that the stationary tof the station are stationary to the stationary to the stationary by the station-master there out of his ordinary collections.

When this refund came under the notice of the Auditor-General the papers were called for

when this retund came under the notice of the Auditor-General the papers were called for disclosing the above facts, and the Commissioner was asked on 27/9/87: "Under what Act, or clause of an Act, authority is given him to remit a fine duly imposed by a bench of magistrates?"

The Commissioner, by B.C. of 8/10/87, replied that he did not remit a fine in the ordinary sense, and that he took the proceedings to establish his position in case a claim for damage should arise, &c.; and that having done so he had attained his object, and he had no wish to punish the unfortunate man. He concluded by stating that he ought perhaps to have fortified his action at the time by obtaining the sanction of the Minister for Works, which he now asked for and obtained.

The Auditor-General replied on 25/10/87 that however reasonable or politic his action may have

The Auditor-General replied on 25/10/87 that, however reasonable or politic his action may have been, it certainly was not right for him to remit a fine legally imposed. He was further requested to

obtain the necessary legal sanction for such a course.

The Commissioner replied on 10/11/87 that he was "satisfied with the decision of the Minister for Works."

And this reply is of course equivalent to a refusal by the Commissioner to take any further steps to justify his action.

No person shall, without the consent of a duly authorized officer, travel outside a carriage on any Railway, or shall unly any circumstances get into, or upon, or quit any Railway carriage, when the train is in motion, nor shall any one leave the train on the side furthest from the arrival platform for the time being; and any person doing so, or attempting to do so, shall be liable to a penalty of Five Pounds.

W.R.R., 17/12/87. BY-LAW NO. XIV.

## COPY OPINION.

I AM quite clear that a penalty which is either by any Act expressly directed to be paid to the Consolidated Revenue, or which in the absence of any such direction, comes under section 15 of 16 Victoria No. 1 (Acts Shortening Act), cannot be remitted, except by the Governor, with the advice of the Executive Council. (See 33 Victoria, No. 13.)

B. R. WISE, 1/2/88. Correspondence

#### Correspondence respecting the Case.

WILL the Commissioner please state under what Act, or clause of an Act, authority is given him to remit a fine duly imposed by a Bench of Magistrates, as in this case.

E.A.R.

B.C., 27 September, 1887.

The Commissioner for Railways.

Urgent.

#### Donnellan, Fine £5.

Reply to B.C. of 27/9/87, on query 4,353 of 24/6/87.

I DID not remit a fine in the ordinary sense—it is more the case of a prosecutor who has recovered compensation, and, with fresh evidence before him, determines to refund the amount recovered. To remit a fine is the province, I believe, of the Minister for Justice. It is done in a certain prescribed form, and a record of the transaction is made in the books of the Court—the offence being, in a manner, condoned, or, perhaps, admitted to be less than the punishment inflicted called for, or it might have been wrongfully inflicted.

In the present case, I should not have proceeded for the fine had it not been for the fear that a claim for compensation would otherwise have been set up; and it was a judicious proceeding to take the initiative and establish, by this process of law, that the Department was free from blame. There is virtue in being a plaintiff or complainant, and the case of the Department is more likely to be sustained on that aspect than defending it negatively on the defensive. That object being accomplished in the present case, it was not thought unreasonable to refund the amount recovered to the unfortunate person who had been mulet; he was represented to be in destitute circumstances, and had suffered much bodily pain in being dragged along the platform by the train, which he had attempted to enter while it was in motion. I do not consider that it required an Act of Parliament to justify or to authorise the Commissioner for Railways to act in this humane and reasonable way; but I am quite alive to what can be urged from the Auditor-General's standpoint. I should, perhaps, have justified my action by obtaining the Minister's sanction to the course adopted. I now ask for that sanction.—Cn.A.G., 8/10/87.

Approved.—I.S., 13/10/87

Approved.—J.S., 13/10/87.

Railway Revenue Branch, Department of Audit, 25 October, 1887.

Query, No. 5,632.—Donnellan, fine £5, remitted. Query, 4,353.—Record, 87/1,667.

Whatever points of reason or policy there may be in the explanation tendered by the Commissioner in his minute of 8/10/87, it certainly is not right for him to remit a fine legally imposed, and repay it from a fund which did not originally receive it.

The Commissioner should obtain the necessary sanction to remit the fine which will enable the Department and the Treasury to adjust the matter by re-crediting "Tolls" with the charge unjustly imposed upon them by the Commissioner's action.—E.A.R., B.C., 25/10/88.

Query, No. 6,120.—Donnellan, fine of £5 remitted by Commissioner. Query, 4,353.—Commissioner,

87/1,667.

In returning these papers, the Commissioner is informed that the opinion of the Honorable the Attorney-General has been taken upon the point raised, a copy of which, together with the "case" submitted, is enclosed for the Commissioner's information.

It is again requested that the matter may be properly adjusted by obtaining the necessary legal sanction for the course pursued by the Commissioner in this case.

E. A. RENNIE, B.C., 7/2/88.

Seen.—I have not remitted the fine. I have previously so stated. It seems to me that the case has not been submitted for the advice of the Attorney-General on the facts of the case.—Ch.A.G.

Railway Revenue Branch, Department of Audit, 22 February, 1888.

Query, No. 6,363.—Remark on reply to B.C. of 7/2/88, on Query 5,632.—Commissioners 87/5,255.

Donnellan, fine of £5 remitted by Commissioner.

It is quite open to the Commissioner to discuss the matter with the Attorney-General, and to point out wherein the précis which accompanied the case stated for opinion, fails in statement of fact.

The Auditor-General can be guided only by the opinion of the Attorney-General, and again requests that the illegality of the Commissioners action may so far as it can, be now rectified.

It may be as well to add that although the money was credited to Railway Receipts under Fines, the Tolls Account is deficient in that amount by what was undoubtedly an improper refund from it—if

the Tolls Account is deficient in that amount by what was undoubtedly an improper refund from it-if legally authorised the £5 should have been obtained from the Treasury, and replaced to Tolls.

E. A. RENNIE.

Seen.—I can take no further action. It is an idle contention. No possible good can come of it. I repeat I have not remitted the fine—on that point the whole question turns. The Auditor-General represented to the Attorney-General that I had done so, and so far his representation was an erroneous one. The action I took has been approved of by the Minister.—Cu.A.G., 24/2/88.

Department of Audit, 13 March, 1888. I have the honor to acknowledge the receipt of your reply to my query of 22nd ultimo, referring to the case of the fine of £5 levied by the Bench of Magistrates at Moss Vale upon the man Donnellan in August, 1886, for a breach of Railway By-law No. 14, and regret that you have not seen your way to adopt the course suggested by me for putting yourself right in regard to your mode of dealing with the fine in question.

The

The papers in the case show unmistakably that, while you at first (11/9/86) directed that your regret should be expressed "that fine cannot be remitted," you afterwards (29/9/86), upon Donnellan's plea for the remission of the fine, expressly say, "I think, under the circumstances, the fine may be remitted," and go on to explain that "Mr. Kidd, M.P., represents that the accident was purely mischance, and that Mr. Donnellan is an industrious sober man. The Bench, Mr. Kidd says, would not have inflicted the fine had not Donnellan pleaded guilty, and left them no alternative." You add, "Let the money be paid at Campbelltown, at which station Mr. Donnellan will call."

When you say in reply to my representations that you did not remit the fine and reitersta the

When you say in reply to my representations that you did not remit the fine, and reiterate the statement, I am entirely unable to reconcile it with the facts as quoted above; nor am I able to adopt your view that my contention is an idle one, and that I had presented an erroneous view of the matter to

the Attorney-General.

As you now, a second time, distinctly decline to take action, I am compelled to formally surcharge you now, a second time, distinctly decline to take action, I aim compensed to formarly surenarge you in the sum of £5 erroneously paid by you to the man Donnellan as a refund of the fine inflicted upon him by the Bench at Moss Vale, and further, as paid from funds which were not in your hands for such a purpose. To make the matter clear the cash collections at Campbelltown on the 2nd October, 1886, were £18 14s. 5d., while £13 14s. 5d. only were remitted to the Public Account in or about that date, showing a deficiency of £5, that sum having been taken credit for as a refund to Donnellan—a proceeding in itself wholly irregular, and one which, together with the other circumstances of the case, I could not consider myself instifed in allowing to pass without challenge. myself justified in allowing to pass without challenge.

I desire to add that if not satisfied within a reasonable time, either by repayment to the Treasury or by an authority of the Governor and Executive Council, I shall be further laid under the necessity of forwarding the surcharge to the Treasury for recovery, a course, however, which I shall be glad to hear that you will relieve me from taking.

I have, &c.,
E. A. RENNIE,

Auditor-General.

Papers returned herewith.

Sir,

Department of Railways, Sydney, 23 March, 1888.

I have the honor to acknowledge the receipt of your letter of the 13th instant, relative to the action taken in connection with the fine of £5 inflicted on Mr. John Donnellan for a breach of the

Railway By-laws (No. 14).

I have already explained in the papers which were forwarded for your information that I did not remit the fine in the ordinary sense. The case was one in which, if Donnellan had proceeded against the Department, he might have recovered compensation. It was judicious to take the initiative, and

proceedings were taken against Donnellan, the result being that he pleaded guilty, and was fined £5.

All fear of action being thus set aside, it was not thought unreasonable to pay £5 to the unfortunate man who had been mulct. He was represented to be in destitute circumstances, and had suffered much bodily pain by being dragged along the railway platform by the train. It is, therefore, more the case of a prosecutor who has recovered compensation, and, with fresh evidence before him, determines to refund the amount recovered, than a remittance of a fine in the ordinary sense. The course taken has met with the approval of the Secretary for Public Works.

I cannot see any necessity for further action in this matter, but if you still press the point, and represent the case to the Treasury, I must ask that you will be good enough to send copies of the papers I have addressed to you on the subject, with your representations.

I have, &c. CH. A. GOODCHAP,

The Auditor-General, Sydney. .

Commissioner for Railways.

Department of Audit, Railway Branch, Sydney, 7 April, 1888. I have the honor to acknowledge receipt of your letter of 23rd ultimo, relative to the

remission by you of a fine of £5 inflicted on J. Donnellan for a breach of the Railway By-laws, and regret to perceive that it merely reiterates what has been stated more than once already, and does not afford any new grounds on which I can see my way to alter my opinion of the bearings of the case.

In these circumstances, as you decline to pursue the course which I have already indicated, and which is undoubtedly the right one for you to take, there is no alternative than to refer the matter to the Treasury, for which purpose it will be proper that all the original papers enclosed with my letter of 18th ultime be returned to me at as early a data as convenient.

ultimo be returned to me at as early a date as convenient.

I have, &c., E. A. RENNIE,

Auditor-General.

The Commissioner for Railways.

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# THREE AND A HALF MILLION LOAN.

(CABLE CORRESPONDENCE BETWEEN THE COLONIAL TREASURER AND THE ACTING AGENT-GENERAL IN REFERENCE TO THE FLOATING OF.)

Ordered by the Legislative Assembly to be printed, 1 May, 1888.

#### No. 1.

From The Colonial Treasurer, Sydney, to The Acting Agent-General, London.

Sydney, 19 March, 1888. Report to me by telegraph, after consulting with Bank of England, what you think of the money market; is it a favourable time for floating a Loan (say) early next mouth; three millions and a half, three and a half per cent.; thirty years; payment to be made same as before; minimum to be subject to approval. Please telegraph reply as soon as possible; use code words for telegram. It is important should be kept secret.

### No. 2.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 21 March, 1888. Referring to your telegram of 19th March, I have consulted Bank of England. Sudden increase of five to ten per cent. in all good stocks has unsettled the money market, and indicates falling prices, but to what extent quite uncertain; any change will be reported. Under Goschen's conversion scheme investors in Government stock have to accept or reject between 29th March and 12th April. On 5th April, Bank dividends payable; these together may set free a large amount of money. I recommend that you telegraph as soon as possible, with power to self and Bank of England to invite tenders for Loan between 10th and 25th April, leaving Loan minimum to us. Should be kept secret. Telegraph Act of Parliament.

### No. 3.

From The Colonial Treasurer, Sydney, to The Acting Agent-General, London.

Sydney, 22 March, 1888. We are desirous to take advantage of the present favourable state of the money market, and Loan placed on market as soon as possible. Give notice of Loan for not longer than last time. Loan minimum to be submitted to us before our final decision. Suggest 104, but will be guided by advice of Bank of England. Telegraph reply as soon as possible. Secrecy to be observed.

### No. 4.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

Bank of England wants to keep all quiet until after date, 5th April.

London, 28 March, 1888.

Our 3½ per cents 106% per cent.

### No. 5.

From The Colonial Treasurer, Sydney, to The Acting Agent-General, London.

Sydney, 10 April, 1888. Anxiously awaiting information from you as to what action you have taken consequent upon my telegram, March 22nd. Reply.

### No. 6.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 10 April, 1888.

STRICTLY confidential. I have consulted Bank of England to-day. Our 3½ per cents, 106, with a false money market. Dealers overstocked at heavy prices; unwilling to buy or selt, except at much decline. Money likely to continue cheap. I am in hope of seeing course very clearly on completion of conversion. I will telegraph again next week.

### No. 7.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 12 April, 1888.

Our 3\frac{1}{3} per cents 106 to-day.

#### No. 8.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 13 April, 1888. Goscnen's conversion practically closed successfully to-day, also Stock Exchange settlements. Money market shows no signs of recovery. To-day uneasiness about the French Government affairs. Your 3½ per cents nominally 105½. I have consulted Bank of England. We recommend that the Loan might be issued immediately. I see favourable prospects; therefore telegraph immediately Acts of Parliament, and please instruct me fully to authorize Bank of England to proceed with arrangements, and wish me to fix minimum, which should be 103, or even 102. It is desirable that we should anticipate any other Loan operation which is known to be pending, so as to avoid too much risk of failure or delay until autumn.

#### No. 9.

From The Colonial Treasurer, Sydney, to The Acting Agent-General, London.

Sydney, 14 April, 1888.

GOVERNOR-IN-COUNCIL authorize you and Bank of England to place on market, immediately, three millions and half, three and half per cents, twenty-five years, under Act 48 Victoria No. 26; minimum, 102; payment same as before; necessary official documents by first mail.

#### No. 10.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 16 April, 1888.

Your telegram of 19th March fixes thirty years for currency of Loan, and your cypher telegram of 14th April says twenty-five years. Are they not both mistakes? Essential that new Loan should rank with two previous Loans under same authority, which are repayable 1924. A difference between maturities would considerably lessen value of new Loan. All highest price Colonial Government Stocks [\* \* \*] and flat. An immediate reply requested to enable us to bring out Loan on the evening of the 17th instant and open Tenders 23rd instant. Stock Exchange settlement on the following day, and must be closed before, or thrown over for a few days.

#### Word not decipherable.

### No. 11.

From The Colonial Treasurer, Sydney, to The Acting Agent-General, London.

Sydney, 17 April, 1888.

THERE is no mistake. Must not be more than thirty years. This is final. Lose no time in placing Loan. May lose present favourable money market.

#### No. 12.

From The Acting Agent-General, London, to The Colonial Treasurer, Sydney.

London, 17 April, 1888.

LATEST news from France and Germany very unfavourable. Consols down one quarter. New South Wales 3½ per cents and most Colonial Government Stocks down 1 per cent. Not without hesitation, and disclaiming any responsibility in the matter, Bank of England complied with your urgent wish, and advertised Loan to-night. Maturity of Loan 1st September, 1918. Minimum, 102. Interest March and September to meet altered date of maturity. The above is the expression of opinion of the Bank of England, but 1 am confident Loan will be successful unless something very unforescen happened, and there is some doubt if better prices could be obtained after delay. Recommend authority be given to me to promise, if absolutely required, that you will not come on market again for eighteen months or two years. Telegraph immediately. Have advertised for tenders 23rd April.

NEW SOUTH WALES.

# LAND TAX BILL.

(PETITION FROM MAYOR OF WOOLLAHRA, AGAINST.)

Received by the Legislative Assembly, 10 July, 1888.

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the Council of the Borough of Woollahra,—

RESPECTFULLY SHOWETH:—

1st. That your Petitioners observe that by the provisions of the Bill now before your Honorable House, to impose a tax on land, provision is made for exempting from the operation of the said tax lands on which are erected Town Halls and Municipal Council Chambers, the fee-simple of which is vested in any such Council or in any Municipality, while no such exemption is made in respect of such lands where the Council's owner-ship is a leasehold one, and your Petitioners respectfully protest against this inequality of taxation.

2nd. That your Petitioners also observe that by the said Bill, provision is made for the exempting from taxation all lands the unimproved value of which does not exceed £500, while no such exemption is made in respect of lands held by a leasehold title, and your Petitioners submit that it is manifestly inequitable to tax small leaseholds while comparatively large freeholds are exempt from taxation.

Your Petitioners therefore humbly pray that your Honorable House will take the foregoing into your most favourable consideration, and grant such relief as to your Honorable House may seem fit.

And your Petitioners, as in duty bound, will ever pray. Signed for and on behalf of the Borough Council of Woollahra.

JNO. C. NEILD, Mayor.

# PROPERTY TAX.

(MESSAGE No. 22.)

Ordered by the Legislative Assembly to be printed, 16 December, 1887.

CARRINGTON,

Governor.

Message No. 22.

In accordance with the provisions contained in the 54th section of the Constitution Act, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill for imposing a tax on certain forms of personal property.

Government House,

Sydney, 16th December, 1887.

### LEGISLATIVE ASSEMBLY.

### NEW SOUTH WALES.

### PROPERTY TAX BILL.

(PETITION FROM MANAGERS OF VARIOUS BANKING COMPANIES FOR AMENDMENTS IN.)

Received by the Legislative Assembly, 11 July, 1889.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the Managers of the various Banking Companies transacting business in New South Wales,-

RESPECTFULLY SHOWETH:

That the "Bill for imposing a tax on certain forms of personal property," which is now before your Honorable House, contains several clauses, which we think will press unjustly upon the said Banks, for example:-

1. Clause 8, sub-section A, provides that the whole of the liabilities of the Banks as shown by their last published statements shall be taxed.

last published statements shall be taxed.

Your Petitioners would point out that only in the highly taxed Colony of New Zealand is there any similar tax, and there the capital and reserve funds only are taxed.

2. That the notes and bills in circulation are already taxed.

3. That with regard to taxing fixed deposits, such a tax would be equal to an income tax of twelve-pence and one half-penny in the £, which is more than the amount of a war tax in the Old Country.

4. That the less income the depositor receives the greater is the proportionate tax.

5. With regard to deposits at call, in our humble opinion it would be a suicidal act to enforce any tax, for it would prevent deposits being made and would inevitably tend to drive capital away.

6. We also desire to call attention to sub-section B of clause 8 which in our humble opinion operates inequitably as regards the Foreign Banks. It provides that they shall pay on an amount equal to the average capital of the New South Wales Banks without reference to their proportionate amount of business, and in some cases this tax would tend to extinguish thom.

7. In conclusion we humbly desire to express our opinion that the Bill as drawn is oppressive,

7. In conclusion we humbly desire to express our opinion that the Bill as drawn is oppressive, unequal, and would be most disastrous to the country if passed into law.

Your Petitioners therefore humbly pray that your Honorable House will take the foregoing matters into your favorable consideration, and will cause such amendment to be made in the "Bill for imposing a tax on certain forms of personal property" as will give the relief your Petitioners seek.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 15 signatures.]

# $\cdot 1887.$ (THIRD SESSION.)

## NEW SOUTH WALES.

# CUSTOMS REGULÁTION ACT OF 1879, AND CUSTOMS DUTIES ACT OF 1887.

(REGULATIONS UNDER.)

Presented to Parliament, pursuant to Act 42 Vic. Ao. 19, sec. 131.

The Treasury, New South Wales, 16th November, 1887.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to make the following amended Regulations, under the "Customs Regulation Act of 1879" and the "Customs Duties Act of 1887."

J. F. BURNS.

REGULATIONS UNDER THE "CUSTOMS REGU-LATION ACT OF 1879" AND THE "CUSTOMS DUTIES ACT OF 1887."

- 1. Upon the arrival of any ship within a league of any port on the seaboard, the master or pilot as the case may be, shall cause to be hoisted and exhibited on a conspicuous part of the rigging, the numeral flags indicating her port of departure; and if such ship shall arrive in the night, the master shall cause such flags to be hoisted and exhibited at sunrise next morning, and keep them hoisted during the hours of daylight until boarded by the proper officer of Customs.
- 2. Private re-gauging in bonded warehouses can only be done by gaugers licensed by the Collector.
- 3. Drawback on the exportation of duty-paid wine, beer, and sugar will be allowed as heretofore until further notice.
- 4. Upon examinations and inquiries made by the Collector or other principal officer of Customs, or other persons appointed by the Colonial Treasurer or Collector of Customs to make such examinations and inquiries for ascertaining the truth of facts relative to the Customs, or the conduct of officers or persons employed therein, any person examined before them or him as a witness shall give evidence on oath or affirmation, to be administered or taken by such Collector or other principal officer or such other person as shall examine him, and who are hereby authorized to administer such oath and take such affirmation.
- 5. The hours appointed for the discharging and loading of ships 5. The hours appointed for the discharging and loading of snips thall be from 8 a.m. to 5 p.m. from Monday to Friday, and on Saturdays from 8 a.m. till noon. The Landing Waiters and Ilido Waiters will be required to be in attendance at those hours. The hours of attendance of the Warehouse-keeper and the Lockors shall be from 8 a.m. to 6 p.m. from Monday to Friday, and on Saturdays from 8 a.m. to noon, throughout the year.
- 6. The hours of attendance of Clerks and Indoor Officers generally shall be from 9 a.m. to 4:30 p.m. throughout the year, except on Saturdays, on which days the Custom House will be closed at noon.
- 7. In cases where it may become necessary to extend the working hours, the Collector of Customs will make special arrangements to meet such necessity, the fees for the attendance

of necessary officers to be paid by the applicants at the following rates, viz., for

Warehouse-keeper	2	6 per hour
Landing Waiters	2	6
Lockers	2	0
Tide Waiters	1	6
Night Watch	15	o "

8. The proper ensign for the Customs shall be red English ensign with the addition of a white cross, being in form and proportion the same as the white English ensign, but with the colours of the flag and cross reversed, and with the letters CH in the outer lower quarter of the flag, and the pendant shall be the red pendant. the red pendant.

9. Every entry which the master of any coaster is required by the 126th and 129th sections of the Customs Regulation Act, 1879, to make in the Cargo Book shall be duly signed by the said Master.

the said Master.

10. In the computation of duties, when the precise duty upon any article may produce a fraction of a penny less than a halfpenny, the fraction is to be rejected, and when a fraction amounts to a half penny or more, the next highest number of pence is to be stated on the entry, and brought to account.

11. Over-payment of duties of Customs, or duties orroneously charged, cannot be repaid unless claimed within five years.

12. Whenever an over-payment by a merchant shall be discovered, a written intimation thereof is to be sent to him in a prescribed form, which is to be filled up in the office where the error is discovered.

error is discovered.

13. Vessels may be cleared at the Custom House, and steamers if required - at the wharf, until 6 p.m.—on notice given before 4 p.m. A fee may be charged for each foreign or intercolonial clearance made after 430 o'clock, but in all such cases a special permit will be required.

14. The business of the Long Room at the Custom House will commence at 9-15 a m

will commonce at 9.15 a.m.

will commonce at 9:15 a.m.

15. Free bouding and export entries will be passed from 9:15 a.m. until the time for closing; all entries presented will be forwarded in due course to the various stations.

No responsibility will be accepted by the Customs Department for the non-delivery of entries to the officers at Bonds, or the water side.

the water side.

In order to give every facility to business, an additional copy of entries passed may be signed and given to merchants or their

of entries passed may be signed and given to merchants or their representatives for direct delivery to the officers.

Entries for goods subject to duty, and home consumption entries will be passed, and the duties due thereon will be taken by the Cashier from 9 15 a.m. to within fifteen minutes of the time appointed for closing.

16. The importer or owner shall be at the expense of unshipping, carrying, and landing of all goods, and bringing them to the proper place for examination, opening, unpacking, and of removing, placing, and keeping all goods in the warehouse. It any goods shall be removed from any ship, wharf, or other place previous to examination by the proper officer of Customs, such goods shall be forfeited. (Customs Regulation Act, sec. 77, 78.)

17. Parcels by coach may be forwarded under transire from a crossing-place to any other Customs station. In all such instances separate notices are to be sent under cover from

officer to officer.

18. A drawback of the full duty paid on importation may be allowed on any goods entitled to drawback of duties, if exported in original packages as imported: Provided that the number and date of the entry on which the import duty was paid be specified in the entry for drawback. And provided also that the proper officer in every case satisfies himself, and certifies on the entry that such goods are in all respects in the same condition as when they were entered for duty on importation.

same condition as when they were entered for duty on importation.

No drawback shall be allowed on goods in broken packages, or on goods which may be packed in the Colony, except such goods shall be packed by permission of the Collector of Customs, or in the presence of an officer of Customs appointed for that purpose, at the cost of the applicant for such re-pack; and no drawback debenture will be passed until all expenses increased here here noid.

neutred have been paid.

Before payment of drawback of duties the Collector may require the production of a landing certificate duly signed by the proper officer of Customs of the port or place to which any such goods may be exported.

#### TRAVELLER'S SAMPLES.

19. All goods imported in excess of ordinary requirements for sample purposes are to be treated as merchandise.

#### TREASURY MINUTES AND GENERAL ORDERS.

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# IMPORT DUTY ON AGRICULTURAL PRODUCE.

(PETITION FROM CASINO POLITICAL LEAGUE IN FAVOUR OF.)

Received by the Legislative Assembly, 6 June, 1888.

To the Honorable the Speaker and the Honorable Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of Members of the Casino Political League, comprising farmers, dairymen, timber-getters, landowners, and others,—

HUMBLY SHOWETH:-

That while a large number of farmers in the Richmond River District have to pay a heavy rental for land alienated by the Crown for £1 per acre, they are unable, owing to the present fiscal policy of the Colony permitting a free import system, to dispose of agricultural and other produce at prices which will afford them even a bare livelihood.

That the Potitioners and other producers in this district labour under the double disadvantage of not possessing railway communication with any part of the Colony as well as having to pay high freights by the steamers trading to Sydney and other ports, caused by the fact that no Government has attempted to carry out improvements at the Richmond River entrance, and, as a result, by reducing the liability to disaster to shipping, bring about a reduction in freights. In addition to these manifest disadvantages many of them have not even a road by which to bring the fruits of their labour to any market. For these and other reasons the classes referred to are deemed to be unfairly treated in having to compete in the Sydney market with the sea-borne produce of foreign countries, grown in many instances by negro labour and conveyed there frequently at a very low freight or as ballast.

That your Petitioners claim to have fair grounds for asking to have the disabilities referred to ameliorated or removed, the granting of which will lead to a vastly increased trade with the metropolis, and the promotion of the cultivation of the soil which is admitted by all political economists to be the

That it is desirable, in order to profitably develop the acknowledged superlative agricultural resources of this district, to not only grant relief in the direction previously indicated but also impose reasonable import duties upon timber and agricultural produce shipped to this Colony from other ports, and thus enable the producers in this and other districts to dispose of their produce at such prices as allow them to carry on their business profitably without injuriously increasing the price of these necessary articles to the consumer—a result that has been clearly demonstrated by the adoption of a protective relief in other Colonies.

Policy in other Colonies.

Your Petitioners therefore pray that as continued depression amongst producers has and must inevitably react upon the welfare of the general interests of the Colony in a most disastrous manner, your Honorable House will favourably consider such resolutions as may be submitted by Henry Copeland, Esq., M.L.A., for that purpose, and also oppose any reduction in the butter, bacon, cheese, and timber

And your Petitioners, as in duty bound, will ever pray.

# IMPORT DUTY ON AGRICULTURAL PRODUCE.

(PETITION FROM FARMERS AND RESIDENTS OF INVERELL, IN FAVOR OF.)

Received by the Legislative Assembly, 5 June, 1888.

To the Honorable Legislative Assembly of New South Wales.

The humble Petition of us the undersigned farmers and others of the Inverell District, concerning the necessity of establishing in New South Wales a specific duty upon grain imported from foreign ports,-

RESPECTFULLY SHOWETH:-

That the impossibility of competing under our condition with the importation of grain free of duty is becoming to us evermore practically apparent.

That the effect of continuing the present state of things will be to compel us to abandon agricultural pursuits and leave the ground untilled.

That the large sum raised by the rent of our land and taxation of various kinds is under existing circumstances sent out of the colony, instead of being as it should be largely retained amongst ourselves.

That, but for the existing specific duties upon iron and sugar, the iron and sugar industries would cease to exist in the colony, and unless the agricultural interest so deeply affecting our Colonial prosperity be similarly guarded by a specific duty, it must steadily decrease. Your Petitioners therefore pray that your Honorable House will be pleased to take this matter into your serious consideration, and place such specific duties upon imported grain as will save the agricultural industry from destruction.

And your Petitioners will ever pray.

# IMPORT DUTY ON AGRICULTURAL PRODUCE.

(PETITION FROM RESIDENTS AND FARMERS OF NEW ENGLAND IN FAVOR OF.)

Received by the Legislative Assembly, 5 June, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned farmers and residents of New England and others,—Most respectfully Showeth:—

- 1. That the farming industry is in a most deplorable condition.
- 2. That on account of distance and the high rate of freight no market is available.
- 3. That under such conditions farming cannot be made remuncrative.
- 4. That as a consequence farmers are migrating, many having lost all after many years' hard toil.
- 5. That because of the free import of farm produce our farmers are totally deprived of the market they would otherwise have.
- 6. That as there is no market available the land is rapidly falling out of cultivation and wholly unsaleable.
- 7. That to prevent the wholesale destruction of such an important industry, and the absolute ruin of the farming population, your Petitioners most humbly pray that your Honorable House will give the prayer of your Petitioners the fullest consideration, and grant us such relief as you may deem advisable, and thus save the farmers from ruin and the country from calamity.

And your Petitioners, as in duty bound, will ever pray.

The Petition of Members of the Richmond River Farmers' Union, comprising farmers, dairymen, timber-getters, and landowners,—

HUMBLY SHOWETH :-

- 1 That while a large majority of the farmers in this district have to pay a heavy rental for land alienated from the Crown at £1 per acre, they are unable, owing to the present fiscal policy of the Colony permitting a free import system, to dispose of agricultural and other produce grown by them at prices which will afford even a bare livelihood.
- 2. That your Petitioners and other producers in the Richmond River District labour under the double disadvantage of not possessing railway communication with any part of the Colony, as well as having to pay high freights by the steamers trading to the Sydney market, caused by the fact of no Government having attempted to carry out permanent improvements at the Richmond River Heads, and, as a result, by reducing the liability to disaster to shipping, bring about a reduction in freights. In addition to these manifest disadvantages, many of the resident farmers have not even a road by which to convey the fruits of their labour to any market. For these and other reasons the classes referred to are deemed to be unfairly treated in having to compete in the Sydney market with the sea-borne produce of foreign countries, grown in many instances by negroes, and carried there frequently as ballast, or for a nominal freight.
- 3. That your Petitioners claim to have fair grounds to have the disabilities referred to removed, the granting of which will lead to a vastly increased trade with the metropolis and the promotion of the cultivation of the soil, which is admitted by all political economists to be the foundation of national prosperity.
- 4. That it is desirable, in order to profitably develop the acknowledged superlative agricultural resources of this district, to not only grant relief in the direction previously indicated, but also to impose reasonable import duties upon agricultural produce shipped to this Colony from other ports, and thus enable the producers in this and other districts to dispose of their produce at such prices as will enable them to carry on their business profitably without injuriously increasing the prices of these necessary articles to the consumer—a result that has been clearly demonstrated by the adoption of a protective policy in other colonies.
- 5. # IMPORT DUTY ON AGRICULTURAL PRODUCE.

(PETITION FROM FARMERS AND OTHERS IN CENTRAL NEW ENGLAND IN FAVOUR OF.)

Received by the Legislative Assembly, 12 June, 1888.

To the Honorable the Speaker and the Members of the Legislative Assembly, in Parliament assembled.

The Petition of the undersigned farmers, agriculturists, and labourers, resident in Central New England, and others,—

HUMBLY SHOWETH:-

- 1. That your Petitioners are unable to dispose of their agricultural produce grown by them at prices which will afford a fair livelihood, and are entirely unable to dispose of their surplus after supplying the local market.
- 2. That although your Petitioners have access by railway to the Sydney market, they are unable without loss (owing to the cost of land carriage), to compete in that market with the sea-borne produce of foreign countries, and the adjacent colonies, conveyed there for nominal freights or as ballast.
- 3. That the removal of the foregoing disabilities will prevent a large area of land from going out of cultivation; will promote the prosperity and increase the population of the inland districts of New South Wales; will increase the trade between those districts and the metropolis, and thus contribute to the financial success of our railways, and profitably develop the magnificent agricultural lands of the interior.
- 4. That whether as part of a general system of protection for Home Industries or otherwise it is desirable to place such moderate duties upon imported agricultural produce as may prevent the overloading of the home market, and thus enable your Petitioners to dispose of their homogrown produce at such prices as may enable them to carry on their business without injuriously increasing the price of these necessary articles to the consumer.

And whereas the welfare of agriculture is the fundamental element of national prosperity, and its depression cannot fail to react upon the welfare of all other industries, your Petitioners humbly pray your Honorable House to impose moderate import duties on such agricultural productions as can be grown in this Colony, with the object of granting the relief sought for by them.

And your Petitioners, as in duty bound, will ever pray, &c.

[Here follow 331 signatures.]

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# DUTY ON IMPORTED TIMBER.

(PETITION AGAINST PROPOSED REDUCTION OF-SAWMILL PROPRIETORS AND OTHERS.)

Received by the Legislative Assembly, 21 December, 1887.

To the Honorable the Speaker, Legislative Assembly of New South Wales, in Parliament now assembled. Honorable Sir,—

Your Petitioners having learned with regret that it is the intention of the present Government to propose the reduction of the present duties on imported timber, would humbly bring before your Honorable House the following facts:—

That when the timber trade of New South Wales is in a flourishing state there are many sawmills in full work, giving employment to thousands of people as well as keeping many vessels employed in the trade.

That through the low prices obtained at present for Colonial hardwood, &c., caused by the keen competition created by the imported timber being allowed in at the present low duty, many of these sawmills have been compelled to close, and thereby many people are thrown out of employment, and only those sawmills which occupy the best positions are able to continue operations, and even they are only making ends meet without considering the interest on the large capital employed on plant, &c.

They are only carrying on waiting for a greater demand and higher prices for Colonial timber.

That should the duties on imported timber be still reduced, the Colonial trade will be completely crippled, and nearly all the mills will have to cease work, and thousands of people thrown out of employment, and many vessels now employed in the timber trade will have to be laid up.

Your Petitioners therefore earnestly pray that your Honorable House will refuse to sanction the proposed reduction of the duty on imported timber.

And your Petitioners, as in duty bound, will ever pray, &c., &c., &c. Nambuccra Heads, 14 December, 1887.

[Here follow 64 signatures.]

#### LEGISLATIVE ASSEMBLY.

## NEW SOUTH WALES.

# PROPOSED NEW TARIFF.

(PETITION AGAINST-RESIDENTS, BROUGHTON CREEK, BROGHER'S CREEK, &c., &c.)

Received by the Legislative Assembly, 7 February, 1883.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of the undersigned residents of the district of Broughton Creck, Brogher's Creek, Broughton Vale, and Kangaroo Valley,—

That your Petitioners view with alarm the proposals made to repeal the Customs' duties now existing upon cheese, butter, bacon, and hams, which if carried out will result in severe injury to the residents of these districts.

By reason of the encouragement given to these productions, a large amount of money has been expended for dairying purposes, and large numbers are now employed in this industry.

The importation of produce from New Zealand and other markets, free from duty, will seriously injure us; in consequence of the increased cost of carriage by land and sea from these districts to Sydney, it is impossible to compete with such importations without loss.

The districts abovementioned have suffered from severe droughts for the past three years, which has caused a loss of numbers of dairy stock; though blessed at present with a good season, a considerable time it will take before we recover from the effects of the severe depression.

Your Petitioners therefore humbly pray that you will be pleased to take into consideration the facts above stated, and not repeal the existing duties on the articles above referred to.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 114 signatures.]

(1HIRD SESSION.)

## NEW SOUTH WALES.

# BEER DUTY ACT OF 1887.

(REGULATIONS.)

Presented to Parliament, pursuant to Act 50 Vic., Ao. 38, sec. 38.

The Treasury, New South Wales, 27th September, 1887.

# "THE BEER DUTY ACT OF 1887."—REGULATIONS.

His Excellency the Governor, with the advice of the Executive Council, in pursuance of the powers contained in the 38th section of the "Beer Duty Act of 1887," has been pleased to make the following Regulations, which shall take effect on and from the twenty-seventh day of September, 1887.

J. F. BURNS.

## REGULATIONS UNDER "THE BEER DUTY ACT OF 1887."

- 1. In these regulations, unless the context otherwise determine "cask" means every hogshead, half-hogshead, barrel, kilderkin, firkin, and keg, or other receptacle containing beer.
- 2. Permits granted under the sixteenth section of the Act will be supplied by the Collector of Customs, on the written application of the brewer.
- 3. Every permit granted as aforesaid shall be securely fixed upon the head of every cask containing the beer proposed to be removed under such permit, and shall not be cancelled or destroyed until such beer is removed from the depôt, warehouse, or other building to which the same has been removed.
- 4. When beer is being delivered or forwarded from any brewery, it must be accompanied by a cart note, upon which the words duly stamped shall be written or printed in red ink.
- 5. No beer shall be removed from any brewery except between the hours of five o'clock in the morning and seven o'clock in the evening of the same day between the months of October and April, both inclusive, and between the hours of six o'clock in the morning and six o'clock in the evening of the same day between the months of May and September, both inclusive.
- 6. The written notice required to be given to the Collector, or other officer, under the twentieth section of the said Act, shall be given twenty-four hours before the beer intended to be purchased as therein mentioned shall be removed; and no brewer shall remove beer purchased as aforesaid without giving such notice or before the expiration of the time herein limited.
- 7. Whenever any unfermented worts shall be sold as mentioned in the twenty-first section of the said Act, such unfermented worts shall not be removed except between the hours of six o'clock in the morning and six o'clock in the evening of the same day, nor until twenty-four hours' notice has been given to the Collector, or other duly appointed officer, of the intention to remove the same, stating therein the brewery from which and to which such worts are to be removed.
- 8. No beer shall be bottled in any brewery except from a cask, and no beer shall be withdrawn from any cask for the purpose of bottling the same in the brewery where the same is made unless such cask has been duly stamped as required by the Act; and before any beer shall be withdrawn from any such cask for the purpose of bottling the same, the stamp placed thereon shall be destroyed or defaced as required by the Act upon the sale or removal of beer from the brewery where the same is made.

9. Every brower who carries on the business of bottling beer shall from day to day cuter or cause to be entered in a book to be kept by him solely for that purpose, the kind of beer and number in detail of hogsheads, half-hogsheads, kilderkins, firkins, and kegs of beer which have been bottled by him, and the quantity removed in bottles from the brewery, and the name or names and address or addresses of the person or persons to whom such beer has been delivered; and such book shall be open at all reasonable hours in the day-time to the Collector, or other duly appointed officer.

10. When any beer upon which duty has been paid under the said Act shall be entered outwards at the Custom House for exportation, the cancelled stamp or stamps on every cask containing such beer shall be destroyed by the proper officer of Customs in such manner as he sees fit; and the provisions contained in any act relating to the Customs restricting the amount of drawback which shall be allowed and paid upon the exportation of any goods shall apply to the exportation of beer upon which duty has been paid under the

11. In addition to the books required to be kept by brewers under "The Beer Duty Act 1887," there shall be also kept at each brewery a book, in the form of the Schedule to these regulations, in which shall be entered the date of delivery, number, and contents of each vessel, also the name and address of the person inspection of any officer appointed under the provisions of this Act, who may take extracts therefrom or transcripts thereof.

12. Every person who shall commit a breach of any of these regulations shall be liable to penalty of not exceeding Fifty pounds.

13. In these regulations, if not inconsistent with the context, the singular number shall include the plural and the plural the singular.

#### SCHEDULE.

# FORESHORES OF SYDNEY HARBOUR.

(DR. BOTTRELL'S APPLICATION.)

Ordered by the Legislative Assembly to be printed, 25 November, 1887.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 4th October, 1887, That there be laid upon the Table of this House,—

"Copies of all papers connected with Dr. Bottrell's claim to a portion of "the foreshores of Sydney Harbour."

(Mr. Lyne.)

# 

#### FORESHORES OF SYDNEY HARBOUR.

#### No. 1.

#### Application by Mr. E. T. H. Bottrell.

Crown Lands Act of 1884—(Part III., sections 63, 64, 66, and 67). Application for a Special Purchase under the Crown Lands Act of 1884.

RECEIVED the sum of £10, being the deposit required on this application. The Treasury, New South Wales, 14 July, 1885.

P. J. HOLDSWORTH.

Sydney, 14 May, 1885. In accordance with the provisions of section 63 of the Crown Lands Act of 1884, I, Edwin Toudgeon Horace Bottrell, hereby apply for the rescission of reservation of water frontage of the land hereunder described, a receipt is hereon showing that the sum of £10 has been lodged with the Colonial Treasurer on account of such application.

Annexed hereto is a plan illustrative of the position of the area applied for.

EDWIN TOUDGEON HORACE BOTTRELL,

(By his Agents),

GARRETT, RICHARDSON, & BRETT,

Under Secretary for Lands.

&c., &c., 7, Gresham-street.

To the Under Secretary for Lands.

Description of Land applied for:—

Eastern Division, county of Cumberland, parish of Willoughby, 100 feet fronting 10 acres at Little Sirius Cove (being lot 11 advertised in Government Gazette of the 20th August, 1832, for sale), the portion desired is shown approximately in broken black lines, on sketch herewith.

District Surveyor.—J.E. (pro U.S.), 20/7/85. Original deed of grant to James Holt (reg. 20, fol. 456 and 7, Registrar-General's Office), contains the usual reservation of land within 100 feet of high-water-mark.—J.D., Met. D. S. Office, 25 July, 1885. Report to the Under Secretary, No. 701, of 26 August, 1885.—John W. Deering, Metropolitan District Surveyor.

#### No. 2.

Mr. Surveyor Deering to The Under Secretary for Lands.

E. T. H. Bottrell, 100 ft. rescission, Little Sirius Cove, parish of Willoughby, county of Cumberland,

HAVING in view a probable reclamation by the Crown of the head of this bay at some future time, and of the dedication of the available adjoining land for the purposes of public recreation, I have the honor to recommend that the application be refused, so far as the reservation north of the line A, B, upon accompanying tracing is concerned; but that applicant be permitted to purchase the proposed rescission, marked A, B, C, D. Tracing herewith \* marked "I."

JOHN W. DEERING,

Metropolitan District Surveyor. If the high-water-mark under general survey is not already plotted to 1 chain by Mr. Harper, 2 chains is large enough.—J.W.D.

The District Surveyor's report is submitted.—J.E., 31/8/85. F.H.W. (for the U.S.), 8/9/85. Approved.—J.S.F., 11/9/85. Mr. J. W. Deering, for provisional description and tracing for applicant.—J.E. (for U.S.), 11/9/85. Mr. W. A. Harper, licensed surveyor, for survey, &c. The boundaries for alienation purposes must be given in mag. azimuth. Connect with  $\triangle$  if not already done.—John W. Deering, Metropolitan District Surveyor, 16 September, 1885.

#### No. 3.

Mr. Licensed-Surveyor W. A. Harper to Mr. Surveyor Deering.

Sydney, 30 November, 1885.

I have the honor to transmit herewith plan of reservation and rescission\* applied for by E. T.

H. Bottrell, at Little Sirius Cove. The piece tinted green is proposed to be reserved permanently, the pink to be rescinded. The northern boundary of the grant is definitely fixed, and is no doubt correct, being exactly 100 ft. from high-water. The southern boundary is not yet fixed; but as there are no marks I have fixed it on plan according to original, 14 chains south.

The reserved part I have marked permanently and record.

I have, &c., WALTER A. HARPER. high-water.

No. 4.

\*Appendiz

•Appendix.

#### No. 4.

## Messrs. Richardson & Coghlan to The Under Secretary for Lands.

7 Gresham-street, Sydney, 27 January, 1886. Referring to Dr. E. T. H. Bottrell's application for the rescission of reservation of water Sir. frontage of land situated on the east side of Little Sirius Cove, and to an interview relating thereto, with which we were favoured by you last week, we have the honor to draw your attention to the following

1. Little Sirius Cove is a very small inlet from Great Sirius Cove, and the frontage of the greater portion is quite inaccessible, and has no value for business or other purposes; and also that on the other side of the cove, permission has been accorded for the purchase of the foreshore.

2. The southern portion of the land tinted pink on the enclosed tracing\*, which is proposed to be Appendix. alienated to our client would be of no service to him for the purpose for which he requires it, viz., to form a frontage to a private residence which he intends to erect on his property, as it is nothing but precipitous rocks, possessing no advantages for landing, &c.

3. The only portion of the land which may be considered level ground, and is in any way suitable for

a landing place, is the northern part, tinted green, which it was proposed to reserve.

The matter is one we venture to think merits your favourable consideration on behalf of our client, as he bought the land believing he had the right to the water frontage, and you can readily understand that the omission of the latter would render his purchase practically valueless for the object he had in view in acquiring it.

We may add, that there is no conflicting interest in the matter, and further that the public interest can in no way suffer from the granting of the full area applied for.

Trusting that you will be pleased to deal favourably with our client's application.

We have, &c., RÍCHÁRDSON & COGHLAN.

Mr. District Surveyor Deering in connection with previous papers, which should be connected in register.—R.H.D., 16/2/86. Previous papers now herewith, which require connection at records.— John W. Deering, 20 March, 1886. Mr. De Low. Applicant should be called upon to pay an additional sum of £3 13s., cost of survey, &c.—J.W.D., 30 April, 1886. Mr. District Surveyor Deering's memo. of 30/4/86 herewith, is submitted for approval. After asking for the money, case may await general decision.—F.H.W. G.H.G., 3/5/86. May remain in abeyance pending action on the general question now under consideration relative to rescission and reclamation.—C.O., 9/6/86. Approved.—H.C., 10/6/86. Mr. Wilson. Applicant might be called upon to pay a further deposit of £3 13s. for survey.—A. M'D. (for the U.S.), 14/7/86. Applicant and Treasury, 21/7/86.

#### No. 5.

The Under Secretary for Lands to The Under Secretary for Finance and Trade.

Department of Lands, Sydney, 21 July, 1886. I am directed to request that you will be good enough to receive, when tendered, an additional sum of £3 13s., cost of survey, &c., in connection with the application of Dr. E. T. H. Bottrell, under 63rd section of the Crown Lands Act of 1884, for the rescission of reservation of water frontage of land situated on the cast side of Little Sirius Cove. I have, &c., F. H. WILSON,

(For the Under Secretary).

The sum of £3 13s. received and suspended on the within account this day.—G.E., B.C., Treasury, 27/7/86. The Under Secretary for Lands. Applicant having paid the extra survey fee, the papers are referred to Mr. District Surveyor Deering for description for Gazette notice.—R.H.D., B.C., Lands (for the Under Secretary), 26/11/86.

#### No. 6.

## The Under Secretary for Lands to Mr. E. T. H. Bottrell.

Sir,

Referring to your application for the rescission of reservation of water frontage of land situated on the cast side of Little Sirius Cove, I have the honor to report that you will be good enough to pay into the Treasury an additional sum of £3 13s., cost of survey, &c., in connection with the application in question.

I have, &c.,
F. H. WILSON,

(For the Under Secretary).

#### No. 7.

Messrs. Richardson & Coghlan to The Under Secretary for Lands.

19 Macquaric-place, Sydney, 27 July, 1886. Sir, In reply to your letter of the 21st instant, respecting the payment of £3 13s. cost of survey, &c., in connection with the application noted in the margin, we beg to inform you that the sum required s P. 85-704. has this day been paid into the Treasury.

> RICHARDSON & COGHLAN. Agents for Dr. Borrrell.

#### No. 8.

#### Mr. V. Coghlan to The Under Scoretary for Lands.

19, Macquaric-place, Sydney, 16 December, 1986. Enclosed please find a copy of a letter referring to an application of Dr. E. T. H. Bottrell. Sir. May I ask you to have the request contained therein dealt with as speedily as possible.

I have, &c., VINCENT COGHLAN, Agent for E. T. H. BOTTRELL.

Referred to Mr. Dist. Surveyor Deering in connection with papers Misc. 86-14272, noted to him on 26 November, 1886.—R.H.D. (for the Under Secretary), B.C., Lands, 22 December, 1886.

I am well acquainted with the locality and the facts of this case, and fail to see that sufficient

reasons have been advanced to warrant a reversal of my recommendation of the 26 August, 1885.—
John W. Deering, Metrop. Dist. Surveyor, 6 January, 1887. The Under Secretary for Lands.
Mr. Dist. Surveyor Decring's minute of the 6th instant is submitted.—R.H.D., 21-27/1/87.
F.H.W. Little Sirius Cove is the next bay to Mossman's Bay.—S.F., 26/2/87. C.O., 1/3/87. I cannot disturb the decision of my predecessor.—T.G., 2/3/87. V. Coghlan informed, 9/3/87. Mr. De Low,—Case might await reply from applicant as to whether he is willing to complete the purchase of

the area allowed.—G.H.G., 11/3/87.

Mr. Bottrell and Mr. Richardson have personally seen me, and represented that the portion which it has been so far decided ought to be sold to Mr. B. is entirely useless to him as a means of access from the water to his land. A tracing may be sent to Mr. B. with a request that he would mark thereon the least portion available of the area proposed to be retained of the revocation that would afford him the means of access he desires. When this has been done the matter will be reconsidered.—T.G., 6/5/87.

#### No. 9.

#### The Under Secretary for Lands to Mr. V. Coghlan.

Department of Lands, Sydney, 9 March, 1887. Sir. Referring to your letter of the 16th December last, respecting the application made by Mr. Bottrell for the rescission of reservation of water frontage to land at Little Sirius Cove, I have the honor to inform you that Mr. Secretary Garrett has decided not to disturb the decision already arrived at in this matter, viz., that only a part of area applied for be granted in satisfaction of this application. I have, &c.

STEPHEN FREEMAN, (For the Under Secretary).

#### No. 10.

Department of Lands, Sydney, 26 April, 1887. Sir. Referring to your application for the rescission of 100 feet reservation at Little Sirius Cove, parish of Willoughby, county of Cumberland, I have the honor to forward herewith, and to ask that you will be good enough to mark therein the portion of land you require to afford you means of access to your property, and to return the same to this Department.

I have, &c STEPHEN FREEMAN, (For the Under Secretary).

#### No. 12.

## Mr. P. F. Richardson to The Secretary for Lands.

1, Spring-street, Sydney, 17 May, 1887. In reply to your letter of the 20th ultimo, enclosing tracing of proposed rescission of reserva-tion at Little Sirius Cove, parish of Willoughby, county of Cumberland, I have now the honor to return the same, showing, by double pencil-line, the portion of land required by Dr. Bottrell to afford him access to his property.

I am further instructed by my client to add that, if the concession applied for be granted, he is willing to convey to the Government, if required, a 66-feet road on his boundary adjoining the Silex Estate. As Dr. Bottrell is desirous of building as soon as possible, an early consideration will much oblige. I have, &c.,

PHILIP F. RICHARDSON, Agent for Dr. BOTTRELL.

Put with papers and submit.—T.G., 17/5/87. Papers herewith. Please see Mr. Secretary Garrett's decision of 2/3/87.—R.H.D., 18/5/87. S.F. The District Surveyor should perhaps report upon the proposal now made. I think it desirable that he should carefully examine the locality.—C.O., 23/5/87. Urgent. Approved.—T.G., 26/5/87. The District Surveyor should perhaps report

upon enclosed tracing.\* A new plan is not necessary; the amendment can be shown upon Mr. Harper's \* Appendix plan.—John W. Deering, 24 June, 1887. Mr. Surveyor Perdriau.

Replied to by my letter \$7/40 of 30 June, to Metropolitan District Surveyor.—Stephen E.

Perdriau, Government Surveyor.

#### No. 14.

#### Mr. Surveyor Perdriau to Mr. Surveyor Deering.

Sir, Sydney, 30 June, 1887.

In compliance with your instructions, No. 1,535 of 24th instant, I have the honor to report that I have made the necessary alteration in the boundary between that portion of the 100 feet reserve, which it is proposed to alienate, as amended, and shown on tracing forwarded with instructions.

As explained to me on the ground by the Metropolitan District Surveyor, the intention was that the amended boundary should be 150 links distant from a small watercourse, now shown on Mr. Harper's plan, and parallel to the line A, B, on tracing with instructions. This has been done by turning an angle of an even number of degrees at the point of intersection of lines 2 and 3 shown on Mr. Harper's plan now A cut by me.

The amended boundary is well marked on the ground, and I have shown it on the plan in red.

The marking on the ground on that part of the "proposed reservation," which has been rescinded, has been obliterated. Cost of alteration—one day at £3 3s. (for alteration in field and on plan, and writing I have, &c., STEPHEN E. PERDRIAU, this report).

Government Surveyor.

Papers Misc., 87-1569, and Mr. Harper's plan herewith, \* S.E.P., 30th June, 1887.

\* Appendix.

Mr. Dimelow,-This case may now proceed, but see that all costs of former survey (Harper's) and those at present (£3 3s.), with appraisement fee, £1 1s. are charged.—John W. Deering, 18 July, 1887.

Examined and charted.—D. M. Maitland, 28 July, 1887. Plan approved.—John W. Deering, Metropolitan District Surveyor, 3 August, 1887.

#### St. LEONARDS WHARVES BILL.

A DEPUTATION from North Shore yesterday waited on Sir Henry Parkes, asking that he should endeavour to pass into law the St. Leonards Wharves Bill, which had been before the House for two Sessions. The deputation consisted of Captain Jenkins, Mayor, St. Leonards; N. M'Burney, Mayor, East St. Leonards; D. Munro, Mayor, Victoria; J. Forsyth, Mayor, North Willoughby; Aldermen Bell and Waterhouse; and Messrs. Alexander Aitken, Bligh, Temple, and E. M. Clark.

The deputation having stated their sees, and presented a petition in forcer of the Bill

The deputation having stated their case, and presented a petition in favour of the Bill.

SIR HENRY PARKES promised to comply with the wish of the deputation, and asked to be reminded

of the matter again when the House met.

MR. BELL complained of the action of the Minister for Lands, in connection with water frontages, not only at Cremorne, but elsewhere. It was very well to talk about frontages not being sold, but by various practices, which he called "Tiddley-winking," and the assistance of Parliamentary Agents, the water frontages were passing into private hands. He referred to the case of Dr. Bottrell, who had managed to secure a frontage to Little Sirius Cove, and handed the Premier the following letter which had been written to one of the clerks of Council, at North Shore, by order of the Minister for Lands:—

Department of Lands, 25 August, 1887. Referring to your letter of 20th ultimo, protesting against Dr. Bottrell's application for the rescission of reservation fronting his property at Little Sirius Cove, I am directed by the Secretary for Lands to inform you that your protest cannot be entertained, and that only a portion of the 100 feet reservation will be granted.

Yours, &c., STEPHEN FREEMAN.

SIR HENRY PARKES made a note of the case, and promised to enquire into it.

#### [Enclosure.]

#### Extract from Daily Telegraph, 17/9/87.

Another Water Frontage Case—Vigorous Protest from North Shore Aldermen—The Influence of Land Agents in the Lands Department.

A DEFUTATION from the Borough Council of St. Leonards yesterday waited on the Minister for Lands to protest against the rescission of the reservation of the 100 feet water frontage to Little Sirius Cove in favour of one, Bottrell.

The deputation consisted of Captain Jenkius, Mayor, Aldermen Punch, Bell, Cowles, Massey, and Mr. Smith, Council Clerk. The facts of the case put forward by the deputation have appeared in connection with the report of an interview, which a similar deputation had with Sir Henry Parkes some weeks since. It appears that Bottrell during last year made application through a land agent for the rescission of the 100 feet reservation of the frontage to Little Sirius Cove, which fronts his property. The application was refused, but subsequently on the recommendation of the Metropolitan District Surveyor (Mr. Deering) the rescission of the reservation of sufficient frontage towards the centre of the cove was approved of, in order to allow Bottrell a convenient entrance to a private residence, which he intended to erect. Against this decision the St. Leonards Council came forward to protest, holding that the 100 feet frontage should be preserved for public purposes, and that Bottrell could obtain a suitable entrance to his house through the adjoining lands. His original application described Little Sirius as a very small inlet from Great Sirius Cove.

The frontage to the great portion of it was said to be quite inaccessible, and of no value for business or other purposes. The land which the Department at first proposed to alienate would be of no service to Bottrell as a frontage to a private residence, as it had no available place for landing, and was obstructed with precipitous rocks. It was also claimed that the omission of the level portion of the ground would render the whole purchase useless. The deputation having stated their case.

MR. GARRETT explained that in solling land the Crown reserved the right of taking the water frontage only for some great public requirement. It was never intended that the owners of the land should be deprived of the water frontage, merely that it might be handed over to somebody else.

MR. PUNCH admitted that the land was not intrinsically valuable, but he protested against its being given away, because it was desirable to avoid such mistakes as had been made in the past. The people of St. Leonards had rights to this particular piece of land, which deserved greater consideration than the rights of a single individual. On the broad basis that no alienation of harbour frontages should take place in future the deputation objected to this grant.

CAPTAIN JENKINS: It shuts out access to the reserve on both sides.

MR. GARRETT: But you ask me to shut the owner out from all access to his land.

MR. Bell: Not at all. That idea is erroneous. He has the access to his property which the public have. You might as well say that Mort & Co. were shut out from access to the Circular Quay. A road could be made through the Government Reserve to him.

MR. GARRETT: Now you are talking wildly. There is no road on the plans

MR. GARREIT: Now you are talking wildly. There is no road on the plans.

MR. Punch: He would have the same right as other people to any road that might be made. We ask you to

Mn. Punch: He would have the same right as other people to any road that might be made. We ask you to dedicate this land as a public reserve.

Mn. Garrett: That is another question altogether, but we have sold this man 10 acres, and he has not that quantity unless he gets this 100 feet reservation.

Mn. Punch: When you sell Crown lands, you do so, stating as to the area that it may be more or less.

Mn. Bell: There is too much truckling in this Department with land agents.

Mn. Garrett: Well, I think you may leave this office to take care of itself in that respect. Your manner of approaching the matter is not an agreeable one to me, nor is it a fair way either. The case ought to be dealt with on its merits, and you do not approach the question in a manner at all conducive to a fair settlement of it. There is no use in selling Bottrell a piece of land unless we give him a landing-place on it. I admit that our first consideration should be the public interest, but we must also consider the claims of owners, who ought to be given access to their land. This land which we propose to give Bottrell is of no value to anyone else. Of course he will have to pay for it.

Mn. Bell: In time the place will be as valuable as the Circular Quay. Do I understand that you have already sold it to Bottrell?

MR. GARRETT: The sale has been approved of but not yet carried out.

MR. GARRETT: Then we ask in the interests of the whole people that it shall not be done.

MR. GARRETT: All I can tell you is that I will reconsider the whole case again. The public interests are, however, amply provided for by the retention of that portion of the reservation which it is proposed to retain. In my opinion it is not necessary to retain that portion which it was proposed to sell to Bottrell. It is absolutely necessary to retain only that portion which will be affected by the reclamation at the head of the bay.

Ma. Punch: You are going to make this man rich at the public expense.

Mr. Garrer: Nothing of the kind. We give him nothing that he has not already. We merely have the power to take the thing away.

Mr. Bell: Water frontages should not be sold to anyone. The land agents are tampering with the Government of the country.

Mr. Garritt: Now will you tell me how the Government of the country have been tampered with in this case?

Will you tell me that?

MR. Bell: 1 think he should lease a wharf as other people do if he wants access to his land.

Mr. Garrett: Well, now, I think you are most unreasonable. I do not know what your motives may be; perhaps you have some water frontages yourself?

Mr. Bell: Yes; I have. (Laughter).

Mr. Garrett: In regard to this case I can only say that you are very unreasonable. I speak now, not as a

Mr. Bell: I look at it in this way; sooner or later these reserves will become very valuable, and if the Government sell them now they may have to buy them back again at a very big price.

Mr. Garrett: In my opinion, as a matter of law, we have no right to take away these reservations from the owners of the land unless for some very urgent and important public purpose. And there should be some great public interest in the before reservations. interest involved before we refuse to grant an owner the right to the reservation of the water frontage. However, I will reconsider the whole case.

## RECLAMATION OF NEUTRAL BAY AND CAREENING COVE.

(PETITION-RESIDENTS AND RATEPAYERS OF NORTH SHORE.)

Received by the Legislative Assembly, 14 February, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales. The humble Petition of the undersigned residents and ratepayers on the North Shore,-

RESPECTFULLY SHOWETH :-

1. That the present unsanitary condition of the mud flats exposed at low tides at the heads of Neutral Bay and Careening Cove is highly dangerous to the health of the people.

2. That the residents in the vicinity of the bays are fearful that some virulent disease may break out in consequence of these fever-beds remaining in this most unsatisfactory state.

3. Your Petitioners are desirous that the Government should deal with this matter without delay, by reclaiming and filling in the bays to low-water-mark, and thus transform these unhealthy spots into recreation reserves, which would be a boon to the inhabitants.

Your Petitioners therefore humbly pray that you will be pleased to take such steps as you may think fit with a view to give immediate relief in respect of the above matter.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 509 signatures.]

#### NEW SOUTH WALES.

## LAKE MACQUARIE HARBOUR WORKS.

(REPORT AND PLANS OF SIR JOHN COODE FOR.)

Ordered by the Legislative Assembly to be printed, 7 March, 1888.

#### Sir John Coode to The Secretary for Public Works.

New South Wales Harbours.

Sir,

5, Westminster Chambers, London, S.W., 20 July, 1887.

I have the honor to enclose herowith my report on Lake Macquarie Entrance, and trust that the recommendations made therein will prove satisfactory to your Government.

The drawings illustrating the report not being quite complete will be forwarded by the next mail. I take advantage of this opportunity to acknowledge the courteous attention which I received from those members of the Government and of the Marine Board with whom I was brought into communication during my stay in the Colony.

My best thanks are also due to Mr. Moriarty and the other officers of the Harbours and Rivers Department, for the willing and valuable assistance accorded to me by them during my inspection of the several localities where works of improvement were in progress or contemplated, and also whilst occupied in other interest and also whilst occupied in obtaining oral and documentary evidence relating thereto.

I have, &c., JOHN COODE.

Sir John Coode to The Secretary for Public Works.

New South Wales Harbours and Rivers—Lake Macquarie Entrance.

Sir,

5, Westminster Chambers, London, S.W., 20 July, 1887.

In accordance with instructions received when in the Colony, in the latter part of 1885, I visited Lake Macquarie entrance, and made a careful inspection of the works in progress, examining at the same time the shores at the eastern end of the lake, and the estuary from Pelican Island down to the sea. I also inspected the quarries on the cliff to the southward, whence the stone was being obtained for the works

Before leaving Sydney I framed a memorandum, setting forth in detail the technical data that

would be necessary to enable me fully to consider and report upon this case.

A considerable instalment of these data reached me in February last. The remainder came to hand on 27th ultimo, and although it was practicable to make some progress before the former reached me, it was not until the receipt of the latter that I was in a position to study this question in all its bearings, as I have now done, and have the honor to submit my report thereon.

From the information in my possession Lake Macquarie appears to have a surface area of from 40 to 50 square miles, with a length in a north and south direction of about 15 miles, and a perimeter, or shore line, of over 100 miles.

Situated in an important colliery district, and having an ample depth of water, the Lake would of necessity be of immense value as a port, if its connection with the sea were sufficiently deep and easy of access. The estuary or entrance, on the improvement of which I have been consulted, is the only outlet; but this, in its present condition, is, even in fine weather, navigable only by the smallest class of vessels.

For elucidating my report I have had the two accompanying drawings prepared. Drawing No. 1 is a plan of the estuary from Pelican Island to the sea, on a scale of 1 inch to 300 feet, showing the works executed up to the present time, and the positions of those now recommended for construction. Drawing No. 2 is a sheet of sections showing the present condition of the channel, and the proposals for its improvement, also cross sections of the several proposed Breakwaters and Training banks.

On reference to drawing No. 2 (fig. 1) it will be seen that the range of spring-tides at the entrance (gauge A) is 5½ feet, whilst at Pelican Island (gauge G) it is only 4 inches. In consequence of this small range, and the short length of the estuary, the volume of tidal water flowing in and out is very small, and in the absence of artificial works, quite inadequate to keep open a navigable channel. The pottom velocity during the strongest part of each spring-tide is barely half a knot per hour at the bridge. pottom velocity during the strongest part of each spring-tide is barely half a knot per hour at the bridge, which is at the narrowest part of the estuary.

The temporary assistance of a large volume of upland water after heavy rains is also wanting in this case, as the lake, with its large area, acts as a regulating reservoir, and causes the flood waters to be discharged gradually.

The present width between the North Breakwater and the South Head is about 1,400 feet. To maintain by natural scour alone a depth suitable for even small craft, under such circumstances, would require the discharge at high velocity of an enormous volume of water, such as can never be approximated

under the conditions of this site.

The present shallow reach or bar extending, practically from gauge C to gauge A, has the effect of retarding the tidal flow to a serious extent; there can, however, be no question that a properly formed and graded channel will relieve this obstruction, and thereby carry the high water at its sea level well up towards the lake. In the same way the low water would be brought to a more uniform gradient between the lake and the sea, and the quantity of water passing up and down at each ride would thus be largely increased. With the greatest possible addition the quantity of tidal water would be still quite inadequate to maintain such a channel, as is required with a width as at present existing; for this reason it is imperative that the channel should be narrowed so as to obtain the greatest scouring effect with the limited power available. On reference to drawing No. 1 it will be seen that my recommendation is that a new Breakwater should be constructed on the south side, starting from the existing south Breakwater a new Breakwater should be constructed on the south side, starting from the existing south Bleakwater at a point about 650 feet from the Boat-house, near gauge B, and running for about 1,200 feet in a northerly direction (magnetic bearing), and curving round until parallel with the outer end of the existing North Breakwater, terminating in a depth of about 15 feet at low water of an ordinary spring tide. The total length of this work would be about 1,740 feet.

The North Breakwater should be extended beyond the termination shown on the plans received from the Colony for a distance of 400 feet in the same direction as its present outer length-i.c. N. 46° 30' E. (magnetic). Its end would be abreast of the termination of the South Breakwater, and would be in a depth of 18 feet. The width at low water line between the two works would be 200 feet.

As being probably sufficient for all purposes for a considerable period, a channel from the lake to the sea with a depth of 9 feet at low water springs has been allowed for. To secure the full benefit of this depth inside it is necessary that it should be increased at the entrance to allow for sea disturbance, and a depth of 101 feet has therefore been allowed for between the Breakwaters.

The mean velocity at the strongest period of tide through a channel with a depth of 10; feet and a width of 200 feet, both at low water, would be only 13 knot per hour, allowing for the largest possible

increase in tidal volume.

I have before said that the lake would act as a regulating reservoir in times of flood, and I have no information as to the occurrence of any special discharge after heavy rains. Should it be, however, considered desirable to make provision for any such special or abnormal discharge, this may be done by keeping the surface of the inner length of the South Breakwater at, or slightly above, the level of high water; in case of an exceptional rise in the water level within, this length would act as a weir, and tend to prevent any such velocity being generated between the Breakwaters as would be adverse or dangerous

to navigation.

Longitudinal and cross sections of the North and South Breakwaters are shown on drawing No. 2, figures 11 to 15; they contemplate the same character of construction as that already adopted by Mr. Moriarty in the existing works, but with larger blocks on the outer faces and with a slight flattening of the slopes, thus giving increased strength to the banks. The sea face of the inner length of the South Breakwater should be formed at a slope of 2 to 1, inasmuch as the wave-stroke will be practically in a broadside direction on this point of the work. The exceptionally large average size of the blocks obtainable from the quarry in the cliff, about 4 miles south of the entrance, makes this class of bank the most suitable and economical. If such large blocks had not been available it would have been necessary to form the mounds with much flatter slopes on their exposed or sea faces, and to have erected expensive

temporary staging to facilitate the deposit of the stone.

On drawing No. 1 the channel, which will probably best meet the present requirements, is shown This follows generally the present line of deepest water, and will therefore be the most in red colour.

economical.

Between the Lake and the Bridge, measuring from the low water gradient, as expected after the improvements have been carried out, its depth is, as before stated, 9 feet, with a bottom inclination of 13 From the bridge, measuring also from the assumed improved low water, the depth inches to the mile. would increase uniformly to 10 feet 6 inches between the Breakwaters, the bottom inclination over this length being 25 inches to the mile. The bottom width throughout would be 80 feet, and the slopes, such as the material excavated would allow, probably about 5 to 1.

To render the curves of the channel less abrupt, and to lead in a fair line into the proposed new entrance, it has been necessary to leave the line of deep water in two cases. The first departure is directly below the bridge, and the second below "Mat's Point." At each of these points it will be necessary to construct a Training Bank, as shown in plan on drawing No. 1, and in section on drawing The first departure is

No. 2, figures 16 to 20.

The improved channel, as described above, is the most economical that will give the required depth of water with a reasonable probability of maintaining itself without periodical and heavy dredging operations. It will be seen, however, that the "bend" immediately below the bridge, although considerably improved, will still be sharp and not so convenient as could be desired for navigation. The line of channel which I should much prefer is shown by broken green line commencing just above the bridge, skirting the south side of the estuary, and running through "Mats' Point." The cost of this route would, however, considerably exceed that of the line shown in red, and would also render useless the dredging work which has been carried out since the time of my inspection.

While on the subject of the Channel it may be mentioned that, although the several reaches are laid down in curves on the plan, it has not been overlooked that those above the bridge might be formed on straight lines with sharper curves at their junctions. The straight reaches would doubtless be more favourable for navigation, as permitting the erection of leading beacons at each end of each reach. The contour of the sharps will allow this mathed to be readily adopted by it is such soft metanicles. I believe contour of the shores will allow this method to be readily adopted, but in such soft material as I believe exists over the entire estuary, it is doubtful if the straight channels could be maintained, as the currents, however weak, would probably tend to "fret" away one side or the other of each reach. The curved reaches, on the other hand, being practically formed on the existing natural lines indicated by the currents would be more likely to be maintained, and could of course be marked by buoys at proper intervals.

The sectional area of waterway at the bridge should not exceed that of the entrance between the Broakwaters; to diminish it accordingly the present Railway bank on the left side should be extended towards the channel, as shown on drawing No. 2, fig. 6.

I estimate the cost of the several works, as shown on the drawings and described above, as follows:-North Breakwater Extension. Length, 400 ft.; top width, 16 ft.; height, 6 ft. above H.W.O.S.T.; sea slope, 1; to 1; channel slope, 1; to 1; mound, faced with blocks 4 to 8 tons weight; hearting of smaller stones, including provision and fixing of east iron tower with lantern and dioptric apparatus complete 11,500 New South Breakwater. 16,000 Upper Training Bank. Length, 1,120 ft.; top, at half-tide level, and 10 ft. wide; channel slope, 1½ to 1; outer slope, 1½ to 1; mound, faced with blocks, 1 to 4 tons; hearting of smaller stones ... 3,400 Lower Training Bank. Length, 2,630 ft. Inner length-Top, at level of high water, and 10 ft. wide. Outer length—Top, at half-tide level, 10 ft. wide. Slopes throughout—Channel side, 12 to 1; outside, 1; to 1 7,600 Extension of Bank at Bridge. Length, 365 ft.; top, at level of 5 ft. above high water; slopes, 14 to 1 2,000 Training works 40,500 Channel. On line shown in red colour on drawing No. 1. Bottom width, 80 ft.; side slopes, 5 to 1. Dopth from lake to bridge, 9 ft. below low water, falling from 9 ft. to 10; ft., between bridge and proposed entrance 22,500

In this estimate no allowance has been made for dredging on the line of proposed channel executed since the date of Lieutenant Francis's survey, nor for any saving that may be effected by the removal and use of blocks from the portion of the South Breakwater which will be superseded by the proposed works.

Whether the entire length of the South Breakwater should be raised to 6ft. above high water, or

Total

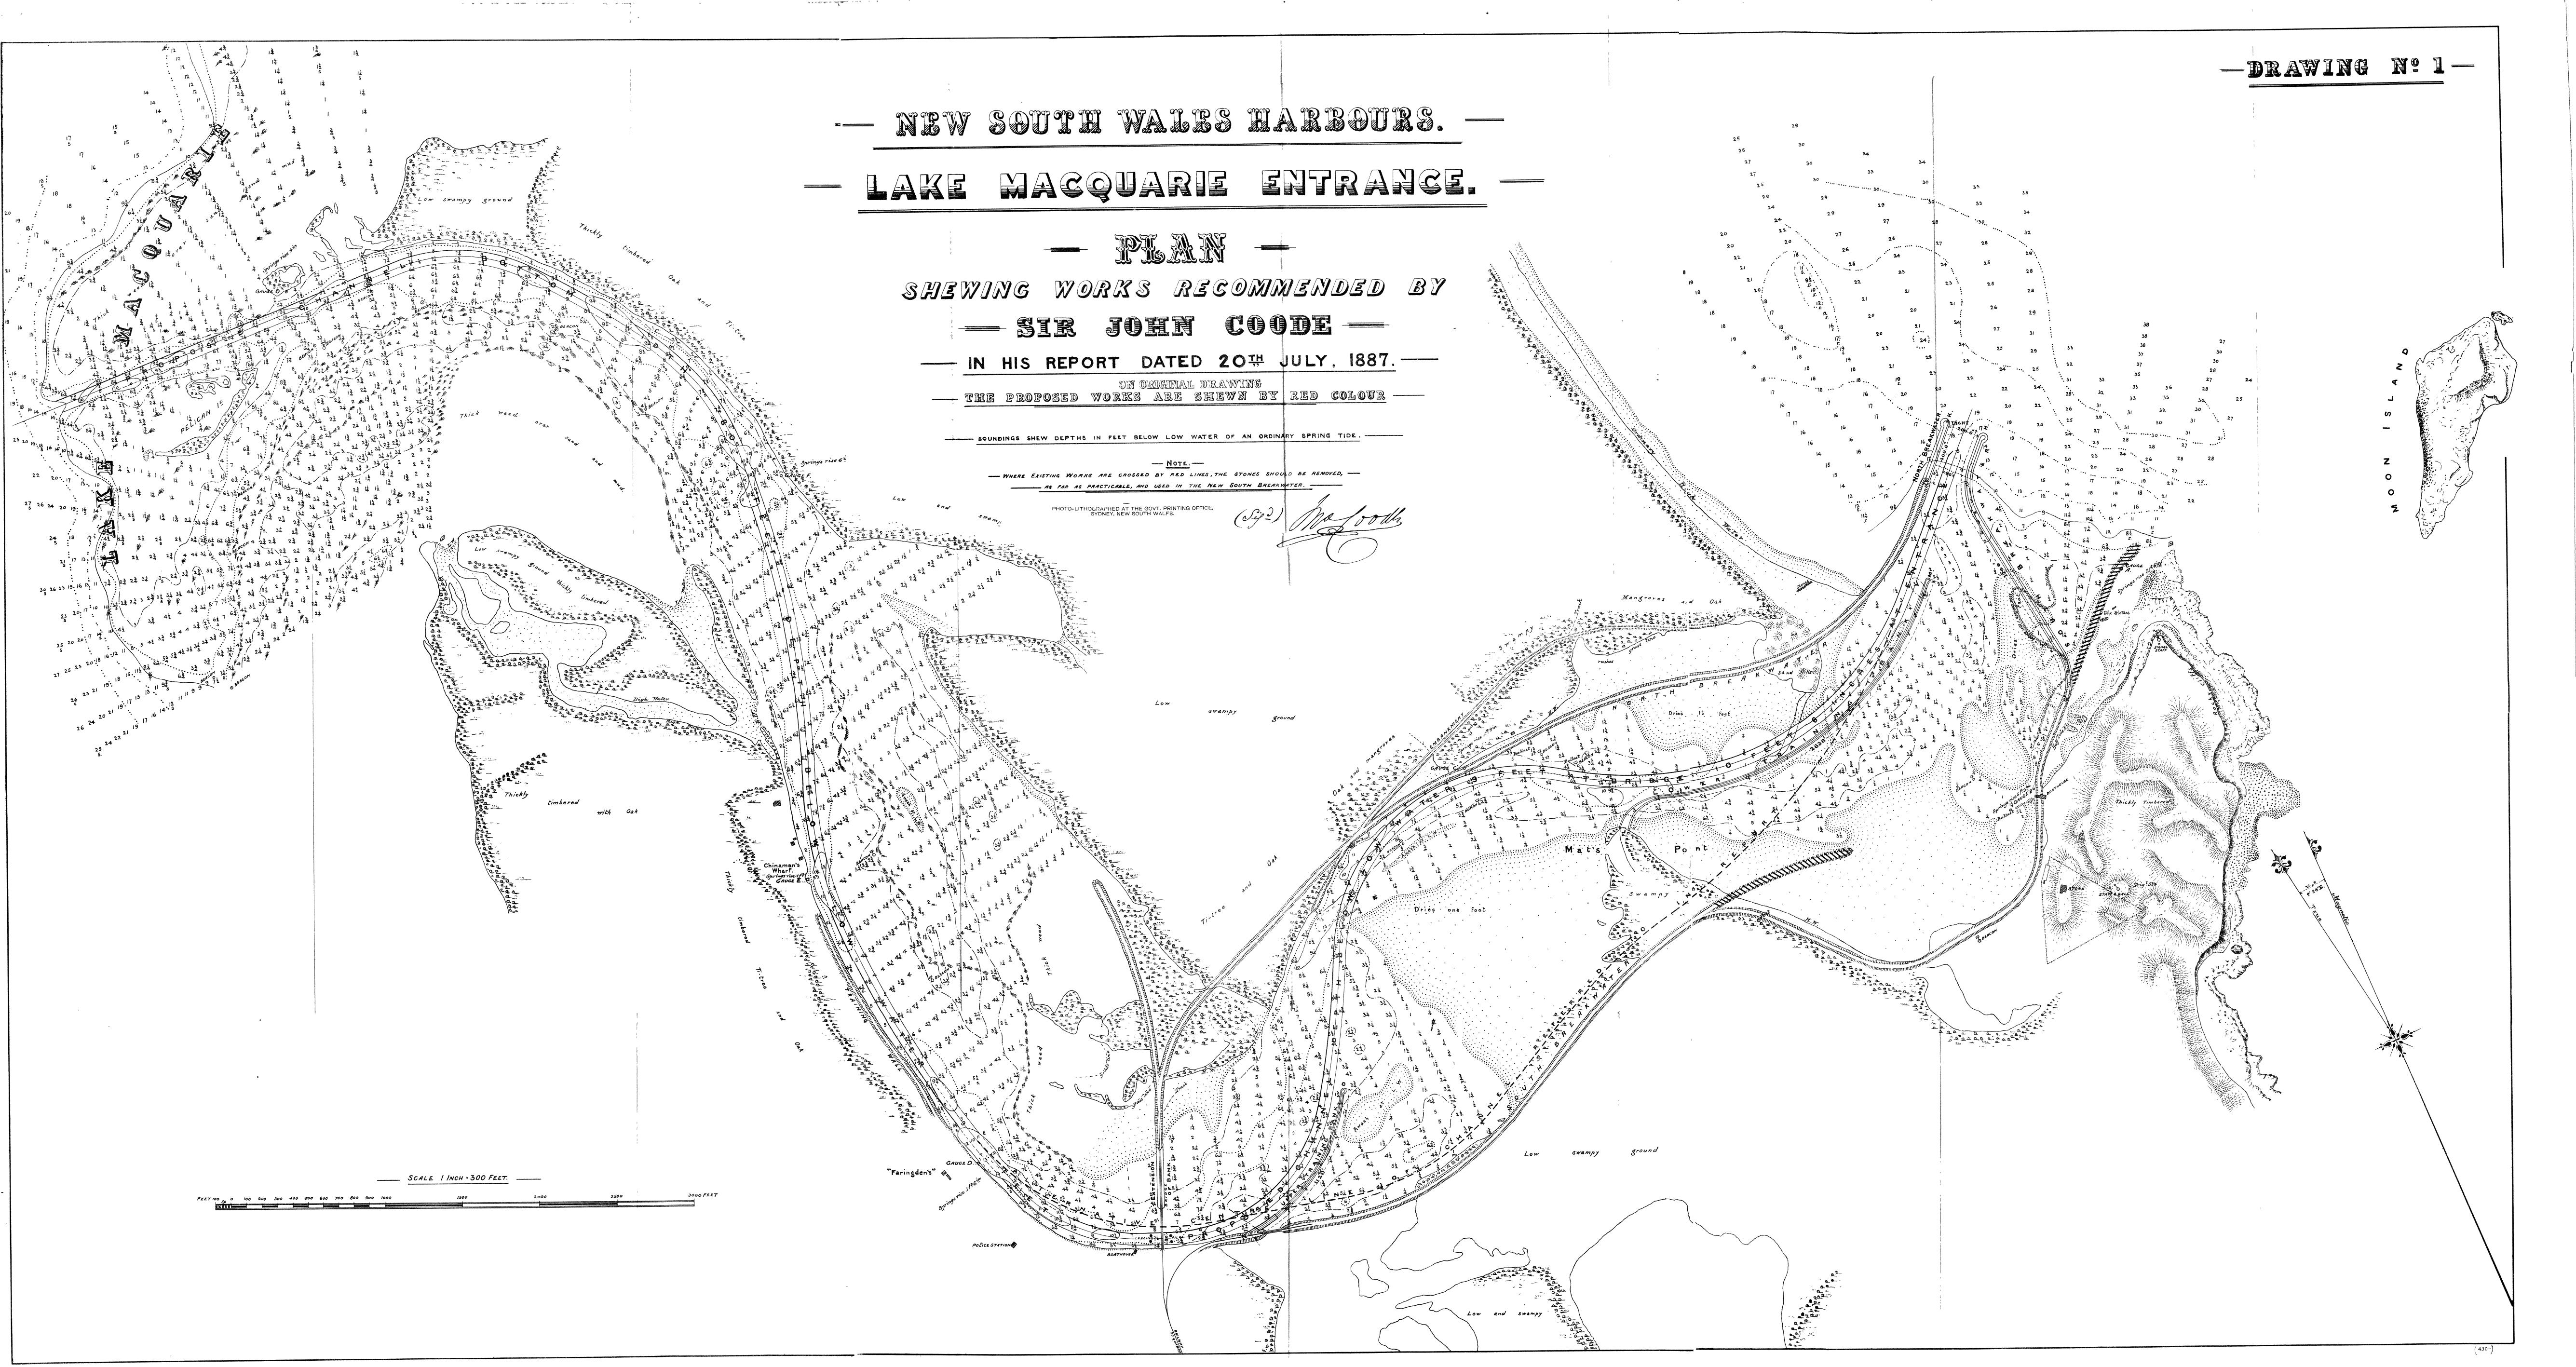

whether a portion should be kept at high water, as hereinbefore indicated, can better be determined from local inquiry as to the level of the water within the estuary after exceptional rainfall.

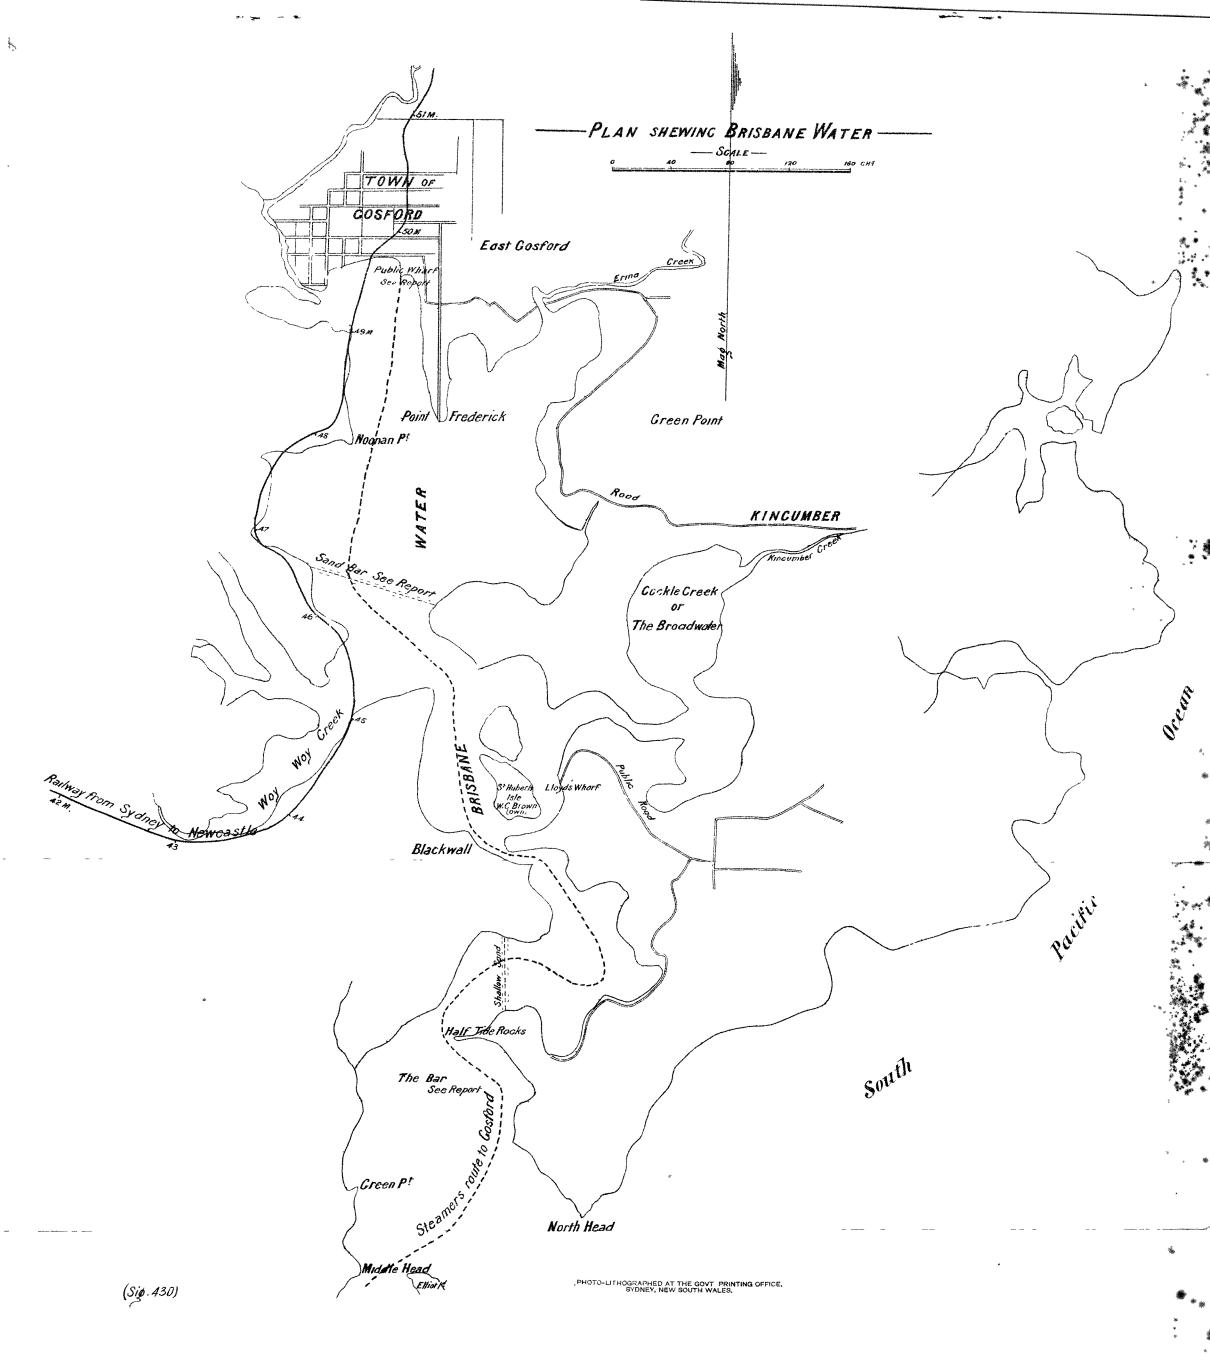

The increased cost of carrying the Breakwater to the higher level throughout its entire length, I have, &c., JOHN COODE. estimate at £6,400.

I would like to see Mr. Moriarty re this Harbours and Rivers.—J.R., B.C., 29/8/87. report.—J.S., 29/8/87. Mr. Moriarty.—J.R., B.C., 29/8/87. Sir John Coode, C.E. Letter acknowledged.—29/8/87.

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

## CLARENCE RIVER.

(REPORT BY SIR JOHN COODE ON ENTRANCE TO.)

Ordered by the Legislative Assembly to be printed, 29 May, 1888.

## Sir John Coode to The Secretary for Public Works.

5, Westminster Chambers, London, S.W., 12 October, 1887. Sir.

I have now the honor to submit my report on the Clarence River, which river I inspected in October, 1885, in accordance with instructions received through the late Sir Alexander Stuart, K.C.M.G. On my visit to the Clarence I was accompanied by Mr. Moriarty, Engineer-in-Chief for Harbours and Rivers, Mr. Darley, his Chief Assistant, and Staff-commander Howard. By the kind intervention and assistance of the Mayor of Grafton, Mr. S. See, I also had the opportunity afforded me, either in Grafton or Sydney, of interviews with Captains Curphey, Creer, and Fraser, all having long experience in the navigation of the entrance as masters of steamers; Messrs, James Freeburn and Henry Macauley, pilots; and Mr. A. H. Pegus, late Collector of Customs at Yamba.

From each of these gentlemen I received valuable information on points affecting the object of

From each of these gentlemen I received valuable information on points affecting the object of my investigations. Further facts and data, which I considered requisite, have since been supplied in accordance with a memorandum which I left with Mr. Moriarty. I have thus been enabled to study the question of the Clarence and its entrance with every advantage, and to design and lay down such works as I consider will be best adapted to remedy the existing evils.

#### Drawings.

Accompanying this report are two illustrative drawings. Drawing No. 1 is a general plan of the Clarence River, on a scale of 2 inches to 1 mile, extending from Tindall's Falls to the sea. It has been compiled from the following documents:—

(1.) Tindall's Falls to Moleville Point-from the published lithographed parish maps of Turville and Eaton.

(2.) Moleville Point to Estuary-from survey made by Navigating Lieutenant J. Gowlland,

(3.) Estuary and Entrance—from survey made in 1882 by Staff-commander Howard, R.N., assisted by Lieutenant P. Francis, R.N., with corrections and additions from survey made specially by Staff-commander Howard in 1886 for the purposes of this report.

Drawing No. 2 is a plan of the Entrance and Estuary, extending from the South Head to Freeburn Island, on a scale of 1 in. to 400 ft.; it has been compiled from the surveys of 1882 and 1886.

On both these drawings the several works which I recommend for adoption are shown in red colour. With the limited information at my disposal as regards the commercial aspect of the question, it would be out of place for me to enlarge on the value of the present and future trade of the Clarence District. The present importance of this trade is undoubted, and renders it expedient that all reasonable means should be taken to give it the full accommodation it may require.

#### River entrance.

The most important consideration in connection with the river is the improvement of its entrance, and I will, therefore, deal with this in the first instance.

#### The Bar.

As in the case of almost all Tidal Rivers on sandy coasts, in the absence of remedial works, the navigation of the Clarence entrance is rendered difficult and dangerous by a sand bar, deposited under the usual conditions, outside the river mouth. This Bar continually varies in position and extent, as also does the depth over its crest, according to the direction and strength of the sea, and the velocity of the river currents respectively. The problem therefore is, how best to counteract and guide these existing forces, so as to fix the entrance, and to utilize the scour for the creation and maintenance of the greatest navigable dopth.

431---A Among

Among the points on which it became necessary to make careful inquiry, the direction and strength of the prevailing winds, and of the seas caused thereby, were, perhaps, the most important.

#### Winds.

The following results are given by an examination of the records made by the Pilots at the Clarence

Heads, and abstracted from their log-book for my use and information by Captain Howard.

Between March, 1877, and August, 1886, 5,965 observations were made and recorded; these show that on 3,303 occasions the wind was blowing from some point either in the quadrant between N. and E. or in that between E. and S., and on 2,662 occasions from some point either in the quadrant between N. and E. and W. or in that between W. and S. Thus, taking all velocities into account, easterly or on-shore winds prevailed more frequently than those westerly or off-shore, in the proportion of about 11 to 9. If, however, the winds classed as "light" are omitted, the variation is more marked, the observation being 1,500 easterly, and only 723 westerly, a proportion of rather more than 2 to 1.

The winds from the two westerly quadrants being off-shore need not be further discussed, but with regard to those from the easterly quadrants examination gives the following results:—

Total observations from between N. and E.  Do do E. "S.  Proportion of Northerly to Southerly, about 9 to 11.	Number, 1,484 1,819
Moderate and strong winds and gales, N. to E.  Do do E. ,, S  Proportion of Northerly to Southerly, about 1 to 1.	$752 \\ 748$
Gales only, N. to E.  Do E., S.  Proportion of Northerly to Southerly, 1 to 6.	3 18

It may therefore be stated, briefly, that although in the totals on-shore winds from the southern quadrant exceed slightly those from the northern quadrant, yet with regard to the winds of higher velocity taken alone the proportion is equal; and further, that on-shore gales from the Southward exceed those from the Northward in the proportion of 6 to 1.

#### Direction of Waves.

The conclusion thus arrived at as regards the prevailing direction of strong winds and gales is fully corroborated by the evidence given to me by the masters and pilots, who also agreed on the still more important fact that whether the wind blows from the S.E., E., or N.E., the break near the shore runs directly in from E. to W. I was also informed that south was winds, although they are off-shore, bring in a heavy see the breakers assured the relative that they are off-shore than the strong that they are off-shore than the strong that they are off-shore than the strong that they are off-shore than the strong that they are off-shore than the strong that they are off-shore than the strong than

in a heavy sea, the breakers caused thereby wheeling around and running in to the westward.

The run of the waves which primarily cause the formation of the Bar being thus proved to be practically east and west, this direction must be the best for the entrance channel, for the more directly the Tidal and Upland waters running out of the river are brought to bear upon the Bar itself the more offective will be their power to overcome it, and to prevent any accumulation. In connection with this subject I may mention that I was informed at Yamba that the direction of the line of deep water over the Bar after the great flood of July, 1876, was east and west; the soundings taken after the flood of January in the present year show the same result. It is right for me to state that the axis of the entrance proposed by Mr. Moriarty is on an east and west line, i.e., on the same compass bearing as that which I have just indicated as the best in this particular case.

#### Velocity of River Currents.

It will hereinafter be necessary to describe the Clarence River somewhat in detail. For the present it will be sufficient to state that it has a total length of about 250 miles, and a watershed of about 8,700 square miles. The tidal rise at Yamba is 5 ft. at ordinary springs. The velocity of the ebb tide in 8,700 square miles. The tidal rise at Yamba is 5 ft. at ordinary springs. The velocity of the ebb tide in the entrance, under ordinary conditions, is given on the Admiralty Chart as from 3 to 5 knots per hour, and after heavy rains at from 5 to 8 knots. The greatest velocity recorded during Captain Howard's observations in May, 1886, was 2 44 knots per hour, but on this occasion the tidal range was only 3½ feet; with a range of 5 feet it would necessarily have been greater; and Mr. Moriarty, in his evidence, given before the Legislative Assembly in 1862, refers to measurements giving 5 knots. In times of flood the velocity must considerably exceed this; and I may mention that Captain Creer informed me that about twenty years ago he was obliged to lie off the Bar for three days, the "fresh" from the river being too strong to admit of his steamer, having an ordinary speed of about 11 knots, getting in against the current. This experience can be more readily appreciated by bearing in mind that the flood of 1876 raised the water level of the river at Yamba 3 feet above the level of high water of ordinary spring tides.

With such a great variation in the discharge of the river during ordinary and special conditions it

With such a great variation in the discharge of the river during ordinary and special conditions it is impracticable to construct works at the mouth which, whilst ensuring a permanent channel of adequate depth when the river is in a normal state, will also allow of the escape of flood water after exceptionally heavy rains without the production in the entrance of currents of high velocity, and the creation there of disturbance to such an extent as will sometimes prove inconvenient.

After taking into account all the circumstances of the case, I am of opinion that the proper width for the entrance, or the distance between the Sheltering and Guiding Moles, will be 1,400 feet. A greater width than this will not concentrate the ordinary discharge sufficiently to produce the desired effect on the Bar under normal conditions, whilst a narrower entrance would increase the velocity during periods of fleed to a waindicial extent.

of flood to a prejudicial extent.

The works which, for the reasons given above, I have to recommend for adoption for regulating the navigable depth over the Bar, are shown more partithe currents at the entrance, and improving the navigable depth over the Bar, are shown more particularly on drawing No. 2. They consist of two Moles or Piers, which would act both as Breakwaters and Training Works.

#### South Breakwater.

That on the south side would be a continuation of the Breakwater commenced by Mr. Moriarty, the direction of the present end of which is about N.N.E. The new work would start on a curve, and would so continue until it pointed due east; in this direction it would be extended until it terminated in a depth of about 24 feet at low water, its total length being 2,350 feet.

#### North Breakwater.

The North Breakwater would commence at a point on the sea front near Iluka, about 1,200 feet S.S.W. from the present outer beacon. It would be formed on a curve of 4,800 feet radius until it became tangential to a line parallel to the outer length of the southern work. Beyond the tangent point it would be formed on an East and West line, and would terminate abreast of the end of the South Breakwater; the total length of this northern work being about 3,650 feet.

#### Breakwater Construction.

As regards the construction of the Breakwaters, I consider it essential, in view of the depth in which the greater part of the works will be founded, and of their great exposure, that they should take the form of rubble mounds, deposited as pierres perdues, the material being conveyed over and tipped from a temporary stage, to be formed practically throughout the entire length of each work. The strong ebb currents which will sweep across the temporary end of the Northern Breakwater during construction render this course especially necessary. By keeping the Stages well in advance of the end of the Breakwater Mounds the surface of the sand can be coated with rubble seaward of the works proper, thereby obviating as far as practicable, the scouring of the bottom which would otherwise occur. Morethereby obviating, as far as practicable, the scouring of the bottom which would otherwise occur. Moreover, the facilities for depositing the material which would be derived from the adoption of a stage for cach mole, taken in conjunction with the preservation of the roads during progress, and the necessity for maintenance and upkeep for some little time after completion, and until the normal slopes have been formed by the action of the sea, are all good and sufficient reasons why Staging should be provided.

The rubble for the South Breakwater would be procured from the quarries at the North and Middle

Heads, and that for the South Breakwater from the quarry at the South Head.

#### Removal of Reef.

The most unfavourable feature of the Clarence Mouth is the existence of the Rocky reef-most probably the flank of Pilot's Hill—extending to the northward, right across the entrance. It is practically divided into two parts by a narrow depression or "gutway," situated between the black and red buoys, shown on the plan. The southern or larger part is known as the "Black Buoy Reef." The position of these reefs is indicated on drawing No. 2, by brown contours and shading, representing depths of rock below low water in fathoms and half fathoms, the darker shades indicating the shallower parts. These contours have been prepared here from a detailed examination made by Captain Howard, at my request.

The track used by all vessels entering or leaving the river is between the buoys referred to, the greatest depth over the rock being from 3 to  $3\frac{1}{5}$  fathoms. Besides being dangerous to navigation, the recfs have the further disadvantage of impeding the free flow of the tidal and river currents, thus causing the waters to "back up" in a serious degree. By their removal to the extent indicated by red cross lines much benefit will be felt, and it is probable, in consequence of this removal, and notwithstanding the curtailment in width of entrance, that the velocity during floods will not be greater than at present—possibly it may be less.

The necessary operations for the blasting of these rocks should be commenced as soon as sufficient shelter is afforded by the South Breakwater to enable the work to be carried on without interruption,

except on the occurrence of gales or floods.

#### Internal Works.

On the drawings certain internal Training and Protecting Banks are shown in red colour. Parts of these Banks are outside the limits of drawing No. 2, but the whole of them are shown on the smaller scale sheet drawing No. 1.

#### South Training Bank.

As will be seen, it is recommended that the Main Channel for the navigation of the river should be diverted from its present course, which runs along the southern shore, and should be confined nearly to the centre of the estuary. To accomplish this a low Training Bank of rubble stone should be formed, starting from about the centre of the eastern side of Freeburn Island, curving gradually southward and castward, crossing the site of the existing channel, and terminating about 450 feet to the westward of the Black Buoy, now marking the southern slope of the deeper part of the Rocky reef above referred to. For the last 1,200 feet of its length the Bank would be fair, with an east and west line drawn through the end of the South Breakwater end of the South Breakwater.

North Training Bank.

On the northern side a Training Bank, also of rubble stone, should be constructed as shown. It would start from the elbow in the present Protecting Bank, about 1,200 feet south of the Engineer's office at Iluka, and would curve round south and east until fair with the line of the Northern Breakwater. Being a protection as well as a training work, it would require to be brought up considerably above highwater level. The space between its outer end and the North Breakwater would form a "wave trap," by which the range of seas due to easterly winds would be considerably reduced.

It is on record that in 1845 the end of the sand spit on the south of Iluka was nearly a mile and a quarter to the north of the Yamba shore, while in 1860 it had approached to within 800 feet of the same point. Since 1860 it has receded with various fluctuations. Mr. Moriarty has proposed to fix this spit by the construction of a Training Bank, as shown by green dotted line on drawing No. 2. I consider, however, that the advantages to be gained by leading the channel into the centre of the estuary—and so giving to both the ingoing and outgoing currents a direct course on to the Bar—are so great, that I am compelled to recommend that the Bank at the southern end of the spit should be constructed as above described, and as shown on the drawings.

Training

#### Training Bank at Goodwood Island.

From Goodwood Island (see drawing No. 1) another Training Bank is shown, running generally in a S.E. direction; it would be a low work, and would serve the double purpose of causing the main stream to flow over towards the western bank, and of diverting the water from the North Arm along the eastern shore, thus assisting to maintain a fair depth in the channel in front of Iluka Wharf.

#### Protection of Iluka Shore.

Near the junction of the North Arm with the main channel the river bank on the lluka side is falling away. This, as well as the foreshore in front of the township, should be protected, as they are subject to considerable scour, especially in times of flood. A Protecting Bank is therefore shown along this foreshore, commencing a short distance up the north arm, and terminating at the existing bank to the south of the Engineer's office.

Between the new main channel, which will be formed under the proposed South Training Bank, and the channel along the Iluka shore it is nearly certain that a shoal will be formed. This will no doubt be considerably reduced in times of flood, but in the normal state of the river it will be of service in training and confining the currents, so that full advantage would be derived from the available scour.

#### Yamba Channel.

As regards that part of the present main channel which runs in front of the Yamba training bank, I consider that there will be a loss of depth there, but as this channel will receive the water from the main river, which will flow between Palmer and Freeburn Islands, and also the tidal and drainage water from Wooloweyah Estuary, it is not probable that the loss will be sufficient to be detrimental to the trade carried on at the Yamba wharf.

With the enormous scouring power available, it is not probable that any large amount of dredging will be required to form the new channels; and if, as appears probable, no material more difficult to move than sand or silt exists above the depth required it is quite possible that dredging may be entirely dispensed with.

#### Estimate.

I estimate the cost of the works as hereinbefore described as follows:-

Breakwater Works and Blasting Rocks at Entrance.	
South Breakwater, formed of rubble stone, deposited à pierres perdues from temporary staging, including substantial Head and Light, complete;	£
length, 2,350 feet	171,400
North Breakwater, similar in construction to southern work: length 3.650 feet	197,600
Removing northern reef to a depth of 18 feet below low-water of ordinary	,
spring tides, over the area crossed by red lines on drawing No. 2	28,500
Total for Works at Entrance	397,500
Works in Estuary, below Freeburn and Goodwood Islands.	£
South Training Bank, top slightly above low-water level: length, 12,200 feet	=
South Training Bank, top slightly above low-water level; length, 12,200 feet North Training Bank, top 6 feet above high-water; length, 3,200 feet	77,700
South Training Bank, top slightly above low-water level; length, 12,200 feet North Training Bank, top 6 feet above high-water; length, 3,200 feet	=
South Training Bank, top slightly above low-water level; length, 12,200 feet North Training Bank, top 6 feet above high-water; length, 3,200 feet Protecting face to shore in front of Iluka, top 6 feet above high-water; length, 7,000 feet	77,700 <b>16</b> ,900
South Training Bank, top slightly above low-water level; length, 12,200 feet North Training Bank, top 6 feet above high-water; length, 3,200 feet Protecting face to shore in front of Iluka, top 6 feet above high-water; length, 7,000 feet Training Bank at south-eastern point of Goodwood Island, top slightly above	77,700
South Training Bank, top slightly above low-water level; length, 12,200 feet North Training Bank, top 6 feet above high-water; length, 3,200 feet Protecting face to shore in front of Iluka, top 6 feet above high-water; length,	77,700 <b>16</b> ,900

These works, if completely carried out, would, I am confident, result in the formation and maintenance of a minimum depth in the entrance of at least 18 feet at low-water; with this depth vessels could always enter and leave with safety, regardless of the state of the sea. The only times on which they might be delayed would be on the occurrence before adverted to, of exceptionally severe freshes.

In view of the very large expenditure thus involved, and in case the total amount required for the complete scheme is greater than can be appropriated for the Clarence works during the next few years, I consider it advisable to show how the river may be benefited by a portion only of the works being executed in the first instance, leaving the remainder to be added as circumstances of trade may demand, and financial considerations may admit.

As regards the most important works, viz., those at the entrance, the Breakwaters might at first be stopped at the points marked XX and YY (in red) on drawing No. 2, that is to say, 600 feet (in each case) short of their ultimate length. These reduced lengths of sheltering and guiding works, together with the deepening of the northern reef, as before named, would result in fixing the entrance and greatly improving the depth therein, so that if funds are not immediately forthcoming for the execution of the Breakwaters of the full lengths proposed, it would certainly be desirable to proceed with them on the understanding that, in the first instance, they are to be restricted to the lengths XX and YY.

The following is the relative order in point of importance which I assign to the several works in

The following is the relative order in point of importance which I assign to the several works in regard to their effect on the improvement of the entrance and the navigation:—

1. South Breakwater, carried to a point 600 feet short of its ultimate length.

- do do Removal of northern reef to 18 feet below low-water.

  2. Construction of Low South Training Bank.
- Protection of southern end of Iluka Spit by construction of Northern Training Bank.
   Completion of North and South Breakwaters to full length.
- Protection of Iluka foreshore.
- 6. Construction of Low Training Bank at Goodwood Island.

#### Alternative Estimate.

The expenditure to be incurred in the first instance, if the Breakwaters are stopped for the time at XX and YY, as above indicated, would be

South Breakwater, length 1,750 feet North do length 3,050 ,, £124,500 146,000 North do length 3,050 ,, ... ... ... ... ... ... Removal of northern reef to 18 feet below low-water, as before 28,500 £299,000

On completion of these instalments of the Works, and after experience of the effects thereby produced, the Training Banks and Breakwater extensions could be carried out in sections, as would then appear to be most advisable; under any circumstances the first point to be arrived at is to fix and train the currents at the entrance in the manner proposed, allowing the internal works within the estuary to follow thereafter.

#### Tidal Compartment.

Having thus formulated my recommendations, as far as regards the entrance, I will now, as briefly as possible, point out the steps which should be taken for the improvement of the navigation in the tidal compartment of the Clarence.

In addition to my own observations, and the information given to me on my visit to Grafton as to the general condition of the river, I have been greatly assisted by the survey made by Lieutenant Gowlland in 1870, and by the detailed and highly practical description of the river written for the purposes of this investigation by Captain Howard.

## Copmanhurst to Grafton.

Copmanhurst is the highest point to which navigation on the Clarence can be carried without exceptional works. The rise of tide at this place is said to be 15 inches. At present the craft trading to the township do not draw more than 4 feet. Between Copmanhurst and Grafton, a distance of about 25 miles, a minimum depth of 8 to 9 feet at low-water might be obtained by comparatively slight works

at the following points:—
1. "Hell's Gate," 1; miles below Copmanhurst; present width of river channel, 100 feet; present minimum depth, 7 feet.

2. "Red Rock Crossing," 27 miles below Copmanhurst, a narrow artificial cutting; present minimum depth, 6 feet.

3. Shoal near junction with Orara River, 4 miles below Copmanhurst, navigable channel very narrow; present minimum depth, 61 feet.

4. " First Falls," 52 miles below Copmanhurst, artificial cutting through shingle; present minimum depth, 6 feet.

аеры, о теет.
"Morgan's Flat," 8 miles below Copmanhurst, artificial cutting through shing's; present minimum depth, about 6 feet. This point can be reached at high-water by vessels drawing less than 8 feet, but cannot be passed by craft drawing 6 feet.
"M'Gillveray Reach," 19 to 21 miles below Copmanhurst, several small shoal patches with minimum death of really 8 feet.

minimum depth of nearly 8 feet.
7. Shoal between "Carr's Flat" and "Susan Island," artificial cutting, minimum depth, 7 feet.

The united length of the portions of these shoals having a depth less than 8 feet at low-water is about 2 miles. The depth of material to be dredged is at no point more than 3 feet, and its removal would not involve any great expenditure.

#### Bishop Passage.

Immediately below Grafton the river is divided into two branches by Elizabeth Island. The navigable channel known as Bishop Passage is on the north side of the Island, and has a general depth of 20 to 30 feet. A spit extending from the left bank near Bishopthorpe causes a shoal at one place where there is not more than 14 feet in the fairway. An enlarged plan, No. 1, showing this spit, is given on the left side of drawing No. 1. It will be seen on reference thereto that I recommend that the area crossed by red lines should be dredged, so as to give a depth of at least 12 feet at low-water in the main channel. At present the depth over the spit is in some places as little as 6 feet.

#### The Elbow.

Opposite Lawrence the river turns sharply to the eastward at The Elbow, where considerable deepening has also been carried on since 1870. An enlarged plan, No. 2, of The Elbow, The Elbow Bank, and the township of Lawrence, &c., is given on drawing No. 1, and shows the line of a channel 200 feet wide at bottom, with a depth of at least 12 feet at low-water, which 1 consider is the minimum depth which should be provided. From an inspection of the soundings taken in this locality by Captain Howard when making his examination of the river, it appears that a considerable portion of the deepening already carried out will be within the lines of the channel now recommended. out will be within the lines of the channel now recommended.

#### Humbug Reach.

From the mouth of the Broadwater and the end of Creer Reach the river turns sharply to the From the mouth of the Broadwater and the end of Creer Reach the river turns sharply to the south-cast; it runs practically in this direction for about  $1\frac{1}{2}$  miles, and then turns quickly again until its course is nearly due north. Near the most southern point of this reach the South Arm makes its lower junction with the main stream. On the hillside immediately below the junction lies the township of Maclean or Rockymouth. This length of river is known as Humbug Reach. The depth of water in fairway is from 50 to 60 feet, and the bottom is generally rocky. Immediately above the junction of the two channels some rocky shoals extend into the stream for quite 800 feet from the right bank. Captain Howard informs me that the Government are now removing some of these rocks and deepening the channel into the South arm. Having no information as to the extent or exact locality of the removal which is being effected. I have considered it desirable to show on an enlarged plan. No. 3, drawing No. 1. which is being effected, I have considered it desirable to show on an enlarged plan, No. 3, drawing No. 1, 431—B

my recommendation that the entire reef should be removed, as far as it affects the main channel, and where less than 12 feet is found over it at low-water. Should it be considered inexpedient to carry out the whole of the work immediately, the deepening should be commenced by opening a channel through the rock near the right bank. The eastern side of such a channel is shown by a full red line on the enlarged plan; its bottom width should be 100 feet, and its depth, 12 feet, at low-water, both as a minimum.

The small improvements in the river channel, which I have herein suggested, have been put forward solely for the improvement of the river enames, which I have neven suggested, have been put forward solely for the improvement of the river navigation, and are based on the idea of providing at once r reasonably easy channel, with a depth of at least 12 feet to Grafton and of 8 feet to Copmanhurst at lowwater of spring tides. The information available here is not sufficient to enable me to arrive at an estimate of the cost of these minor improvements.

At my request, Tide gauges were fixed at six points on the river, between the Saltwater Creek and Yamba. Simultaneous observations taken at these gauges on the occasion of a spring tide show the following tidal range at the several points:-

#### Flood Relief.

The question of Flood relief is so important, and in a large degree so inseparable from that of navigation, that I consider it my duty to make a few remarks thereon, although the point was not submitted for my opinion.

With the information at my disposal, it is not possible for me to determine what measures would have to be taken for the prevention of the evils which are now experienced after exceptional rainfalls. The very serious damage which is caused in the Clarence District by such floods as those of 1876, and of January last, would no doubt warrant a considerable expenditure on remedial works. The questions involved are large and important, and would require a special and exhaustive examination of the locality, as well as surveys and other observations of a costly nature before it could be determined whether an amount well as surveys and other observations of a costly nature, before it could be determined whether an amount of relief could be given that would be commensurate with the cost to be incurred—and if so, by what

measures such relief could be provided.

Grafton appears to suffer severely at times of exceptional floods; the river bank in front is from 20 to 25 feet above high-water, and up to 1886 the highest known flood had only been level with its top; the land, however, falls to the northward, and water is admitted at the back by a small creek and at a low place at Bishopthorpe which makes an island of a great portion of the township. In July, 1876, nearly all the streets of the town were submerged for about twenty-four hours, although the water did not come over the bank in the centre or to the westward.

The data as to the flood levels at Grafton are as follows:—1857, 194 feet above high-water; 1861, nearly as high as in 1857; 1863, February 16, as in 1857; 1876, July 17, 21 feet above high-water; 1879, June 20, 20 feet above high-water.

The flood of 22nd-23rd January in the present year is variously stated to have been from 13 inches to 3 feet higher at Grafton than in 1876.

The damage done appears to have been very serious at Copmanhurst, as also at Lawrence and at Woodford Island.

The improvements which may be effected in the channel by giving greater freedom to the discharge

The improvements which may be effected in the channel by giving greater freedom to the discharge of the flood waters, will of course tend to mitigate the existing evils, whilst the proposed works at the entrance, by providing a fixed and uniform channel, cannot fail to be of material service in this respect.

I would suggest that steps be taken to protect such portions of the banks as are now being washed away, as a large proportion of the soft material thus removed is certain to be deposited in the channel, and to become prejudicial to the regime of the river. I also consider it highly desirable, where dredging consistence are being carried on that the material raised should not be dropped in any part of the river. operations are being carried on, that the material raised should not be dropped in any part of the river having a less depth than 5 fathoms at low-water.

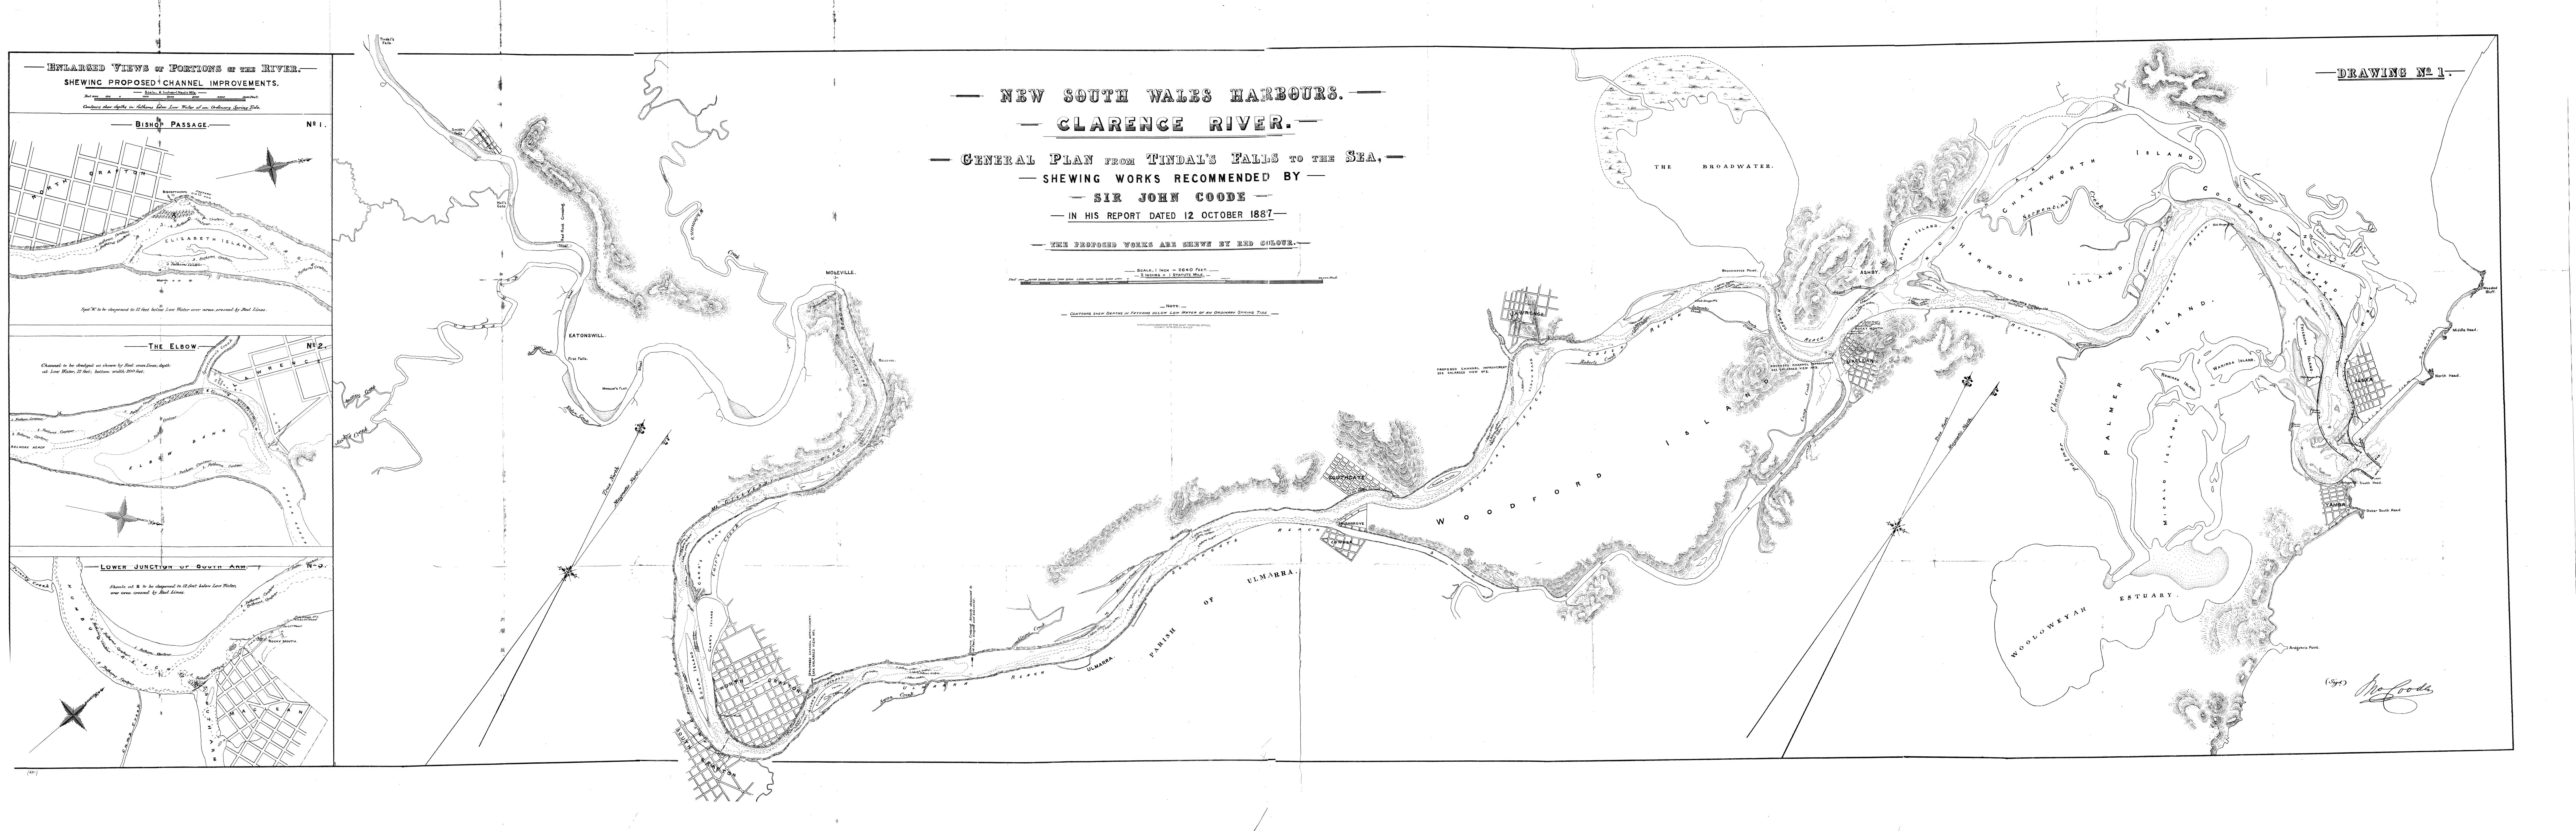

In conclusion, I would like to remark that it would have been much more satisfactory to me had it been possible to recommend for adoption at the Clarence River entrance work, of less extent, and consequently of less cost, than those hereinbefore described, and shown upon the accompanying drawings, but it has not been practicable to do so, having regard to the object to be accomplished.

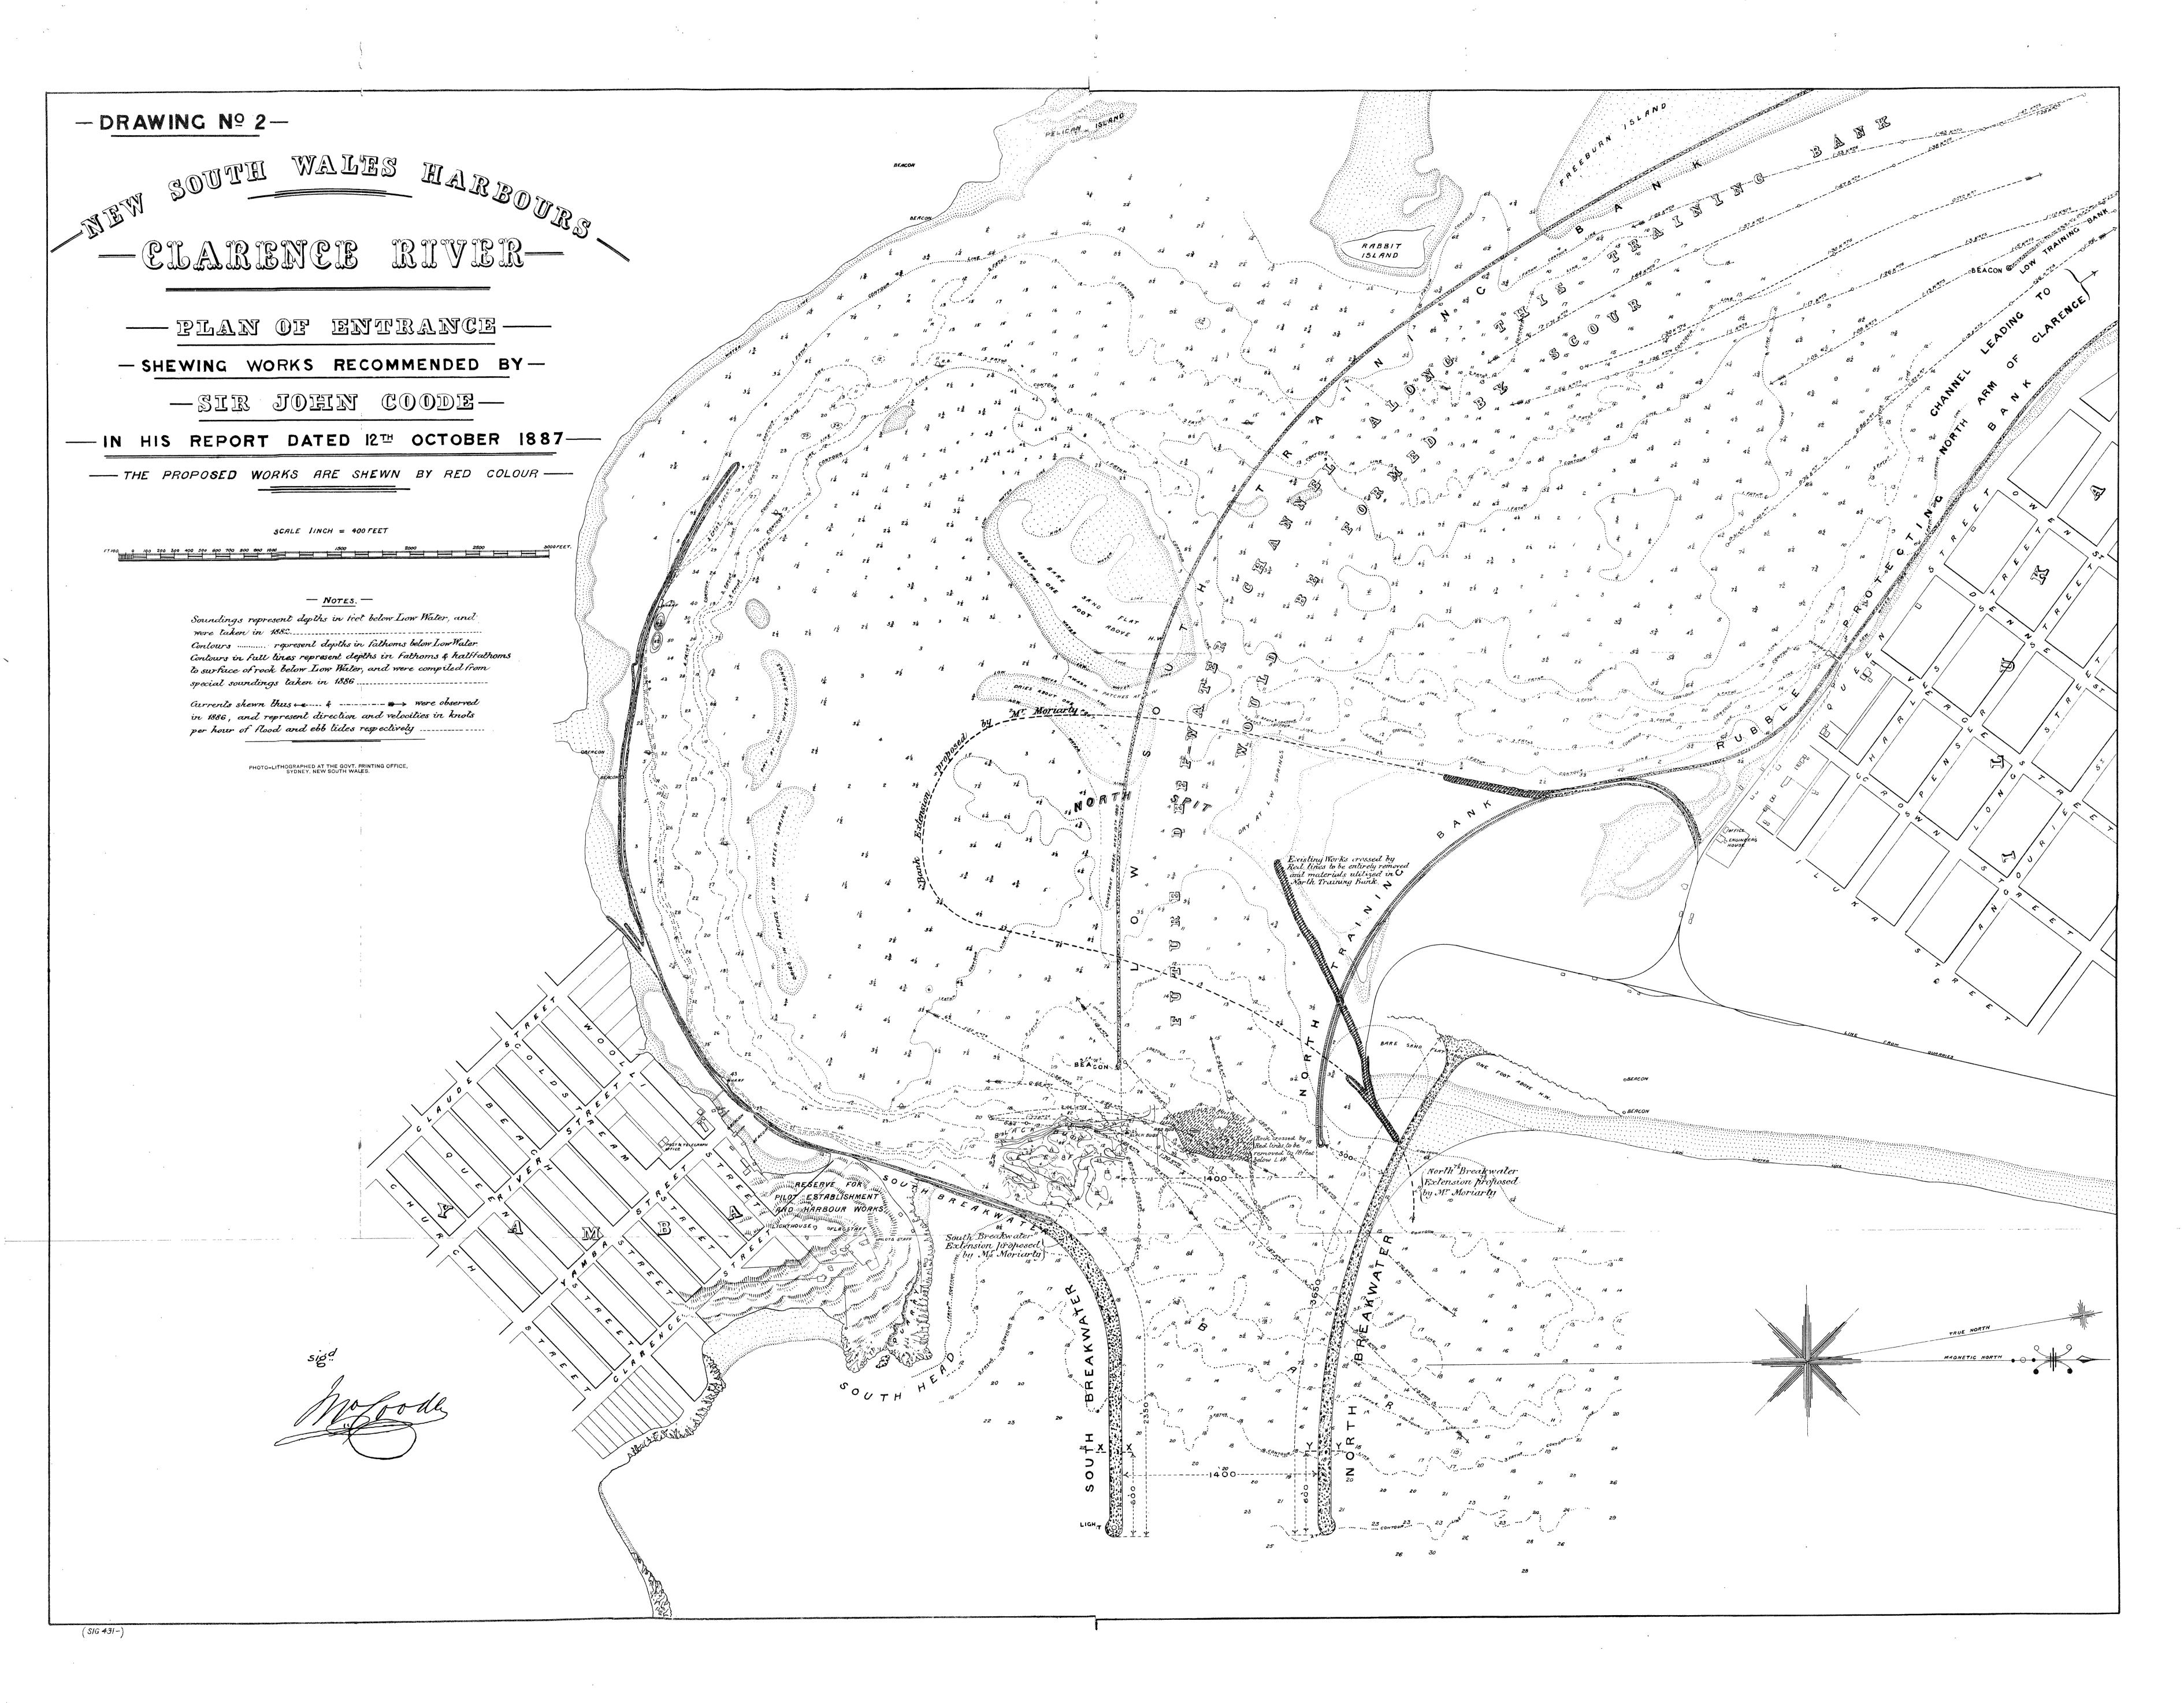

I have, &c., JOHN COODE.

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# RICHMOND RIVER.

(REPORT BY SIR JOHN COODE ON ENTRANCE TO.)

Ordered by the Legislative Assembly to be printed, 17 May, 1888.

#### Sir John Coode to The Secretary of Public Works.

Sir, 5, Westminster Chambers, London, S.W., 27 February, 1888.

After my inspection of the Entrance and lower portion of the Richmond River in the early part of November, 1885, I took the evidence of Mr. George Easton, who had known the Port intimately for a long time, he having been a licensed Pilot for about thirty years, and for nearly seven years previously thereto master of a vessel trading between this place and Sydney. I also took the evidence of Mr. Fenwick, who informed me that he had been in and out over the Bar about every other day for ten

years as master of the tug belonging to the Port.

Mr. Ross, J.P., of West Ballina, kindly furnished me with some facts bearing upon the subject of my inquiry which had come under his own observation during his long residence there, and Staff Commander Howard, who was on the spot at the time of the heavy "fresh" in the Richmond, which occurred in January, 1883, gave me useful information as to the levels attained by the River at different points on that occasion.

On returning to Sydney I prepared and placed in the hands of Mr. Moriarty, C.E., a detailed memorandum of the technical particulars necessary to enable me to study this important case in all its bearings. The plans and documents prepared in accordance therewith reached me on 29th November

last, and after careful consideration of the whole matter, I have the honor to submit the following report thereon, accompanied by three explanatory drawings, numbered 1, 2, and 3 respectively.

Drawing No. 1 is a general plan of the river from Coraki to the sea, compiled from a survey made Accompanying by Licutenant Gowland, R.N., in 1871; the depths, which are indicated by contour lines at each fathous, have been platted from accompanying that the data named and form the matter than the second of th have been plotted from soundings taken at the date named, and form the most complete information which is available throughout the length of the River. It is possible that slight changes may have since occurred in the depths, but not to such an extent, except at the Entrance, as to affect, in any material

degree, the points to be considered in this report.

Drawing No. 2 is an enlarged plan of the Entrance, plotted from a survey prepared by Staff Commander Howard, R.N., in 1883. On this sheet the soundings which were specially taken at my request in 1887, are shown by red figures.

Drawing No. 3 consists of four views giving the position of the Channels at the Entrance, and the configuration of the sand-spits there at the respective dates named.

The points which these sheets are intended more particularly to illustrate will be referred to here-

after.

# General description of the River.

Mr. Moriarty has furnished me with a general description of the Richmond River and its tributaries, which is so full of useful and valuable information, both with regard to the present inquiry, and for reference hereafter, that I have considered it desirable to annex hereto in the form of an appendix a copy of this description, together with the tracings to which it refers. It will not, therefore, be requisite that I should here do more than touch very briefly upon the tidal compartment of the River, and the principal features in connection therewith, except with regard to those special matters which bear on the improvements hereinefter described improvements hereinafter described.

When visiting the site I was much struck by the richness and extent of the agricultural district through which the Richmond River passes, and to and from which it forms the principal highway. I gather that in this respect it is one of the most important rivers in Australia, and that its navigable length exceeds that of any other coast river in New South Wales.

The great drawback to the Richmond is the shifting character of its entrance channel, and the extent to which the passage of shipping in and out is hampered, by reason of the bar and shoals which encumber its mouth. These evils are intensified by the conflict of the waters from the North Creek with those from the main river at their point of meeting between East and West Ballina. Once within the Entrance, and clear of the shoals and conflicting currents to which I have referred, there is a good channel having a width of 400 feet and upwards at low water, to Coraki, a township distant about 40 miles from the Entrance. At this point the River bifurcates into the North and South Arms, the town of Lismore, 623 miles from the Entrance being on the former, and Casino, 71 miles from the Entrance on the latter. miles from the Entrance being on the former, and Casmo, 71 miles from the Entrance, on the latter. 739 -

A navigation for vessels drawing 10 feet is available as far as Lismore, on the North Arm, and to within two miles of Deep Creek, or 183 miles below Casino, on the South Arm. The termination of the navigation on the North Arm is at Clancy's Falls, 683 miles from the Entrance, up to which point there is water for craft drawing 4 feet. On the South Arm the navigation ends at Irvington Wharf, 2 miles below Casino, where a depth of not less than 4 feet is available.

The rise of tide at different points on the River is as follows:-

Rise of spring tides at sea, 4' 4" in winter. Do. do. 5' 6" in summer.

Do. do. at Coraki, 2 feet Do. Dо at Lismore, 1 foot.

High water at Coraki occurs at 44 hours, and at Lismore at 64 hours after high water at the Heads.

Bungawalbin Creek, one of the principal tributaries of the Richmond, which joins the latter at a point about 4 miles below Coraki, is navigable for vessels drawing 10 feet for a distance of 14 miles from the Main River (or 34 miles from sea), and is then obstructed by a short reef of rocks, which (as will appear from the Appendix) if removed, would open the navigation for a further length of 5 miles.

The shoalest "crossing" on the River occurs at Wardell Flat; having passed this point vessels cannot fail to reach Lismore without further obstruction.

Large quantities of cedar and other timber are rafted through the North Arm tributaries to the saw-mills on the main stream, and sugar-cane is plentifully grown on the lands in the vicinity of the River and its creeks generally, and conveyed to the several mills on the banks for crushing. There are therefore present all the elements for a growing internal trade carried on by means of barges and small craft, for which ample facilities are available as regards the depth in the channel.

The great defect is, as I have before stated, to be found at the Entrance, and it is to this important feature, and to the causes which produce the fluctuations and obstructions there that I propose now to

direct attention.

#### The River entrance under existing conditions.

Pluctuations in depth and position of Entrance

When visiting the site in November, 1885, I was informed that the Entrance had never been known nearer the North Head than at that time. It had been as far south as Ti-tree scrub, viz., 7,200 feet from the North Head. The channel had broken through the South Spit three times within the last thirty years, on each occasion after a freshet, and always in the vicinity of Ti-tree scrub. southern entrance is thus formed, the north entrance generally closes within two or three days

Pilot Easton informed me that on one occasion the South Channel was navigable for twelve s, and that three months was the shortest period for which it was open. These southern entrances months, and that three months was the shortest period for which it was open. These southern entrances had generally a depth of about 12 feet at high water of medium tides, although 17 feet is stated to have existed on one occasion. Looking, however, at the character of the bottom, as shown by the new borings on the site of the said channel, it is doubtful whether such a depth was ever really formed.

It will be seen from the Appendix that the Bar and Entrance at the Richmond, which are in a state of continual fluctuation as to depth and position, are therein stated to have considerably improved during the previous six months, and lad then a depth of 14 feet at low water; it is evident, however, that this exceptionally favourable condition, in the absence of remedial works, could only have existed for a comparatively short period.

Mr. Easton informed me that on a few occasions it had not been possible for a vessel to cross the Bar either inwards or outwards in consequence of the uncertainty which existed as to the position of the channel, and that this untoward state of things had been experienced for six weeks continuously, the strength of the stream and force of the sea preventing the taking of soundings.

With regard to the locality of the bar, it would appear that, whereas in 1871 it was 1½ miles to the south-east of the north headland, it was only 500 yards therefrom at the end of last year.

Drawing No. 3 shows the condition of the Entrance in 1871, 1883, January 1887, and June 1887. In 1871, it will be observed that two channels are shown to exist, but looking at the tortuous line of the southern outlet, and the shoals at its mouth, it is evident that at the date of the survey this channel was not navigable. In 1883, the South Spit was continuous, the entrance channel being 600 yards to the southward of the north headland, but divided into two internal branches, one on either side of the Beacon Rock, of the South Spit having extended to, and gathered around, the Beacon Rock, forming a considerable accumulation to the southward. The only approach to the River at this time was between the northwestern shoulder of the beacon, and the rocky foreshore immediately under the Pilot Station, the navigable width at low water being about 160 feet, the gorge at this spot scouring out the bottom to a depth of 30 feet. In June 1887, a further change had occurred, the point of the South Spit at its junction with the Beacon Rock having been reduced in bulk in the interval. It will be observed that in all four cases the Beacon Rocks have exercised a paramount influence in determining the configuration of the channel within the Bar, and it is desirable that this point should be kept prominently in view as affecting the character of the remedial works.

Conditions
which govern
the fluctuations
of the Entrance.

The prevailing winds during summer months are from east and south; those create the worst seas upon the bar. In the winter west and south-west winds prevail, and produce comparatively smooth water in the entrance channel, although there is always a constant break on either side of this channel in the finest weather, irrespective of the quarter from which the wind may be blowing.

Records show that of the gales occurring on the eastern half of the compass, during the eleven years, from 1876 to 1886 inclusive. 370 were over the quadrant from east to south, and fifty from east to north, thus proving that the gales, and therefore the resultant force of the seas come from the south rather than from the north.

The fluctuations in the Entrance and on the Barare due to the action of the freshets trying to cut through the South Spit, and to curtail and keep back the northern end thereof on the one hand, whilst on the other there is the wave action with its preponderating force from the south tending to heap up and accumulate the sand along the shore, and to prolong the spit to the northward. The closing of the accumulate the sand along the shore, and to prolong the spit to the northward. The closing of Southern Channel and the changes in the configuration of the South Spit are due to the same causes.

In the absence of works for training and fixing the entrance and channels, the relative prevalence and strength of freshets, and the direction and force of gales, must of necessity determine the frequency and extent of the changes which are produced in the Entrance and on the Bar.

I would here direct attention to Drawing N. 2, which shows on a large scale the embouchure of Conflict of currents to and brings out the very remarkable configuration of the Entrance as regards the indentation of from the North Shaw's Bay, between the North Head and the Pilot Station, and a little further West the mouth of the Creek with those of the main North Creek, the waters from this arm being discharged almost in direct antagonism to those from the ever. Main River, thereby creating conflicting currents and weakening the effect of the cbb in scouring the Entrance and Bar.

Similarly, the mouth of the North Creek in its present condition, must of necessity create baffling currents on the flood tide, which are detrimental to the navigation and tend to the formation of sand accumulations. One point therefore which I have kept in view in designing the works of improvement has been the training of the currents, both flood and ebb, into and out of the North Creek, so that they may harmonize with, instead of being antagonistic to, those of the river proper, the waters being jointly

discharged seaward, so that they may both be fully utilized in the maintenance of the Entrance.

As stated in the Appendix, "the Richmond Bar is at all times a difficult one to cross, but Navigation of especially so in east or south-easterly weather. No vessel attempts to pass either in or out except at existing conflood tide, and all sailing craft are towed; for this purpose a tug is subsidized by the Government. When-distons, ever a fresh occurs in the River the "stand-off" signal is hoisted against all vessels until the water has cleared, and the tides commence to make in again. Vessels in crossing the Bar are chiefly guided by attenting for where these appears to be the least break as it is very purely the wild is able to sound the steering for where there appears to be the least break, as it is very rarely the pilot is able to sound the Bar or fix the position of the deepest water.

Under such peculiarly adverse and trying conditions, it will be readily understood that the sea-going trade is only carried on with difficulty, attended with delays, and not a little danger, as is evidenced by several wrocks lying in and about the sites of former entrance channels.

I have already referred to the injurious effect which this mass of rock exercises under existing Beacon Rock, conditions. Its configuration has been fully determined by the extensive series of borings which were so admirably put down under Mr. Moriarty's direction. Without the information thereby afforded it would have been absolutely impossible to have devised works for the improvement of the Entrance with any degree of certainty.

The extent and configuration of this rock having now been accurately determined, it appears that its area, at a depth of 12 feet below low water, is  $6\frac{1}{2}$  acres, and at 15 feet, 12 acres. To remove the overlying mass to the former of these depths would necessitate the blasting of 45,000 cubic yards of rock, whilst to carry the removal still further to 15 feet under low water level, 98,000 cubic yards would require to be blasted.

Such removal would be entirely out of the question on the ground of cost, and, looking at the position of the rock with regard to the shore lines and headland to the northward, a partial execution of this deepening would not suffice for the creation of a true run for the River currents. It has therefore been requisite, in framing the design, to provide for permanently shifting the position of the Entrance to the south-west, so that the flood and ebb streams may pass entirely clear of these Beacon Rocks, which have hitherto proved so obstructive.

#### Proposed Works for the improvement of the River entrance.

Having described the River in general terms, and referred at length to the fluctuations in the position and depth in the Entrance and on the Bar, and to the causes thereof, it becomes desirable that I should now describe the extent and character of those remedial works which appear to be called for under the circumstances.

The works which I have to recommend for adoption are shown by red colour on the accompanying Drawings; they all refer to the improvement of the entrance and the channels immediately in connection

therewith, and have been designed with a view to effect the following important objects:—

1st. To fix the Channel and to regulate its width, so that the scour may be confined to a definite track of proper proportions, instead of its useful effect being partially lost, as at present, in opening fresh channels and in the removal and cutting through of the Sand Spit.

2nd. To neutralize the obstruction to the ebb and flood currents which is now offered by the Beacon Rocks.

3rd. To prevent the conflict of the waters from the North Creek with those from the Main River. 4th. To so devise the works that the cost of the first instalment of the undertaking may, if possible,

be brought within the sum which will be available, indicating, however, the character of extensions, to be executed hereafter, when justified by the requirements of trade, and when more perfect accommodation is demanded.

The first work to be taken in hand should be the South Training Bank. It would commence at South Training the hight on the southern margin of the River, nearly opposite to the eastern end of West Ballina, and proceed therefrom towards the western face of the South Spit upon the curved line indicated on the drawings. The total length of this bank, as shown, is 4,500 feet, and it would be formed throughout of rubble stone brought up to say 6 feet above high water of ordinary spring tides. Its primary object is to prevent in future the cutting by freshets of a channel through the South Spit where passages have been formed on three occasions within the last thirty years, as before explained. This bank would also create a true run for the currents, the main force of the obly being discreted from the sharp angle in the hight near the inverse ord week parties of the South of the ebb being diverted from the sharp angle in the bight near the inner and weak portion of the South Spit, upon which it now directly impinges. A bank of this character would effectually protect the South Spit from the scouring effect of river freshets, and sand may be expected to accumulate at the back or seaward side thereof, thus securing the permanence and continuity of the spit. Upon the accretion of this sand it will be desirable to fix the new surface by sowing "bent" or other marine grasses thereon.

The second stage in the operations to be undertaken after the completion of the South Training North and south Bank for the length above named, will be the construction of the North Breakwater from the Pilot Station breakwaters.

across the present deep water channel, thence over the south-west flank of the Beacon Rock, and seaward in a direction about east south-east. The total length of the first instalment of this arm, which is indicated by red colour on the drawings, would be 2,500 feet.

When the last-named work has been completed for a length of 1,200 feet or thereabouts, the South Breakwater should be commenced in continuation of the South Training Bank on a curve of 1,600 feet radius, the works on the north and south sides being thereafter carried on simultaneously. The first instalment of the South Arm is shown as 2,000 feet in length.

Each of these Breakwaters would consist of rubble stone deposited in the form of a mound, and if fairly large stones are available, there is every reason to anticipate that it will be practicable to carry them out for the lengths proposed without the employment of temporary staging.

It will be observed that the curved lines which have been adopted admit of the regulation of the width between the outer ends of the moles, as experience may show to be desirable, and as the works advance, the point to be aimed at being the confining of the currents to such an extent as will utilize them in the fullest degree for scouring purposes, without unduly creating a gorge during periods of flood discharge. As far as can now be ascertained the proposed width of the entrance between the ends of the moles when the first instalments have been completed, viz., 1,150 feet, will prove about correct.

It will be observed that the North Breakwater would be carried across the deep water channel

between the north-west face of the Beacon Rocks and the headland at the Pilot Station. Drawing No. 3 shows that in 1871 and in 1887 this channel formed the only outlet to the Richmond. Looking, however, at the obstructive position of the Beacon Rocks, and the certainty which exists that the sand to the southward thereof, would be readily removed by scour during the closing of the course between the beacon and the Pilot Station, there need be no apprehension as to any injurious results of a permanent nature being produced on the navigation by the adoption of this mode of procedure. In fact the course proposed is the only one whereby the obstruction hitherto experienced from the Beacon patch can be effectually overcome at a reasonable outlay.

Upon the completion of the South Training Bank, the Breakwaters and the Guide Bank at the

Entrance to the North Creek which will be presently described, a new channel may be expected to be formed and permanently maintained by scour to the westward of the South Spit in the position shown. A fixed depth of 12 feet in this channel at low water of spring tides may be confidently looked for.

For the indication of the new entrance by night, I propose to erect two leading lights near the mouth of the North Creek on the centre line of the opening between the moles, and in about the position shown on the Drawing No. 2. These lights would be sufficient for the first stage of the works, but should the suche he are used at hereof teners and divisional light on the end of the North Breakwater would also be required. moles be extended hereafter an additional light on the end of the North Breakwater would also be required.

It will be observed on Drawing No. 1, that the centre line of the proposed entrance points slightly to the northward of a right angle from the shore. I have adopted this direction in view of the great exposure of the site, and in order to lessen as far as practicable the conflict between the outgoing currents and the on-shore waves, which now create dangerous seas, necessitating, as before explained, the departure of vessels from the River during the flood tide, when the current and waves are running in the same direction, and the seas are then relieved of their "bursting" tendency.

For the training and regulating of the waters to and from the North Creek, and the prevention of the conflict between them and the currents in the Main River, I propose to form a Guide Bank of 2,000 feet in length at the mouth of the creek, in the position, and on the line shown upon the drawings. This bank, like the works previously described, would be constructed of rubble stone, deposited à pierres perdues, the top of the mound being 4 feet above the level of high water of spring tides.

The bank is shown with a concave face towards the creek along which the deep water channel would be formed by scour. The length of this bank has been determined so as to admit of such traffic as is now carried on between the North Creek and the Main River, being hereafter conducted with increased facility

and convenience.

I estimate the cost of the works above described as follows:-

Estimated cost of proposed works.

Guide Bank at mouth of North Creek.

							20
South Training Bank, 4,50	0 feet i	n length					43,800

						-	

Total cost of first instalment of works ...

Effect of pro-posed works, and future extensions.

The works proposed would create a fixed and permanent entrance channel, in which there should be a depth of from 16 feet to 17 feet at high water of spring tides. During and after freshets, there would be a much greater depth than this, and such increase would be maintained for a longer period than under existing conditions. Again, the occasions when traffic would be interrupted by bad weather and freshets (which generally occur together) would be comparatively few, and the periods of very much shorter

It will be apparent upon looking at the drawings that an absolutely perfect entrance could not be expected from the action of Breakwaters of the comparatively short lengths of those proposed. Some irregularities in depth may therefore be looked for upon the completion of the works consequent upon sand being driven into the channel from the southward. The only complete remedy will be found in the extension of the arms in the manner indicated on the drawings by crossed red lines. These extensions can be executed at any future time when the requirements of the trade are such as to justify the additional outlay.

My aim has been not so much to provide perfect accommodation in the first instance, although this would have been done if possible, as to bring the first expenditure within reasonable limits, and such as may be approved under the circumstances, indicating the nature of the additions to be made hereafter if

and when desired.

I estimate the cost of the two extensions shown on the drawings as follows:-

Total cost of the two breakwater extensions, if carried out hereafter

Prolongation of the South Breakwater for a length of 2,000 feet ... 100,000 Prolongation of the North Breakwater, also for a length of 2,000 feet 90,000 ... £190,000

Before

Before commencing the first instalment of the works proposed, it will be desirable to put down a series of borings on the precise line of the new entrance and channel. Although occasional borings of the old series were made within this area and gave favourable results, it is only prudent, in a matter of such moment, that the bottom within the limits proposed to be scoured should be fully investigated before operations are commenced. Looking, however, at the results now available, I do not consider that there is any cause for apprehension on this head, nevertheless, as I have just said, it should be tested, in order to remove all doubt.

There are two curves on the River between the Entrance and Coraki which are abnormally abrupt, curves on the one of them specially so. I refer in the former case to the bend just below the mouth of Dungarouba Creek, and in the second to the elbow opposite the entrance to the lagoon about halfway between Woodburn and Bungawalbin Creek. It is probable that some improvement at the last-named bend will be called for at no distant date.

It is stated in the Appendix that "very heavy floods occur in the Richmond District, and, although Floods causing great damage and disaster at the time, are nevertheless beneficial to the land on account of the large dposit of silt which is left upon it after the flood waters subside, this deposit reinforcing the land and enabling it to produce abundant crops.'

The following table shows the level of the water during the flood of January, 1887, taken at the

points named, with the heights of such floods above the banks.

Po	int of ob	servatio	n.	Distance from Entrance in Statute Miles.	Height of flood above High water ordinary Spring Tides.	Height of flood above or below River Banks respectively.
Wardell Woodburn The Elbow Coraki Junction	Main  	River.		 26 ,,	4 feet 10 ,, 11 ,, 18 feet 3 inches	2 feet below. 1 foot below. 1 ,, 3 inches below.
Coraki Minnes Farm Wyrallah Gunderimba Lismore	North	Arm		 $\begin{array}{cccccccccccccccccccccccccccccccccccc$	19 feet 20 23 ., 30 ,, 34 ,,	4 feet above. 1 foot above. level with banks. 2 feet above. 1 foot above.
Coraki Codrington Deep Creek Tomki Station Irvington Wharf	***	Arm	•••	 55½ ,, 65 ,,	19 ", 26 feet 9 inches 39 feet 55 ", 70 ",	1 foot below . 1 foot above . 6 feet above. 3 ,,

The observations which have been made show that the throttling of the flood discharge mainly occurs above the elbow, therefore the improved Entrance would only exert a minor influence thereon. The question of the mitigation of flooding in the Richmond Basin is a large one and could only be dealt with after special investigation which does not appear to be called for, at all events for the present.

with after special investigation which does not appear to be called for, at all events for one present.

In conclusion, I may observe that during my visit to the Richmond River Entrance,—as in the case conclusion of the other rivers and ports inspected when in the Colony,—I had the great advantage of being accompanied by the Engineer-in-Chief of the Harbours and Rivers Department, Mr. Moriarty, as also by the Assistant Engineer, Mr. Darley, and Staff Commander Howard, R.N., each and all of whom greatly facilitated my inquiry and examination of the locality.

I have, &c.,

JOHN COODE.

#### NEW SOUTH WALES HARBOURS AND RIVERS.

#### RICHMOND RIVER.

General description of the Richmond River and its tributaries, with accompanying tracings.

Appendix to Sir John Coode's Report, dated 27th February, 1888.

1. The Richmond River is situate in the Counties of Rous and Richmond, and flows into the South Pacific Ocean in latitude 28° 51′ 20″ S., and longitude 153° 36′ 33″ E. It is the principal highway to a large agricultural and farming district, and is one of the most important rivers in Australia. Its navigable length being greater than any other coast river in New South Wales.

2. The area of the Richmond Basin is 2,635 square miles, and the principal tributaries which join Area of water the Main River are the North Arm, having a basin of 610 square miles, the South Arm, having a basin of \$\frac{1}{2}\$ 1,050 square miles, and Bungawalbin Creek, having a basin of 650 square miles.

3. Very heavy floods occur in the Richmond District, and, although causing great damage and Floods are disaster at the time, are nevertheless beneficial to the land on account of the large deposit of silt which is left upon it after the flood-waters subside, this deposit reinforcing the land and enabling it to produce abundant crops. abundant crops.

4. The rainfall of some portions of the Richmond District was obtained, the average of which for the Rainfall. last ten years is about 42 inches. Nothing has been done to ascertain the permeability or otherwise of the strata forming the basin, it cannot therefore be said how much of this rainfall reaches the river, or how

Absorption and evaporation.

much is lost by filtration or evaporation; but it is supposed that a very small percentage of the rainfall finds its way to the river directly, from the fact that the velocity and sectional area of the channel at the entrance was but slightly increased during the time of the last heavy rains which occurred while the survey was being made.

Cross-sections flood-levels, soundings.

- 5. In order to comply with the conditions of Clause 21 and 22, Sir John Coode's general notes, a careful examination was made of the Richmond River and its branches, as well as taking cross-sections, flood-levels, and soundings.
- 6. The Richmond River is divided into two main branches at the Township of Coraki, distant about 40 miles from the Entrance, called the North and South Arms, and leading respectively to the Townships of Lismore and Casino.
- 7. The North Arm is divided at Lismore 623 miles from the Entrance into Wilson and Leicester Creeks: Leicester Creek again dividing at 67% miles from the Entrance into Terania and Hanging Rock Creeks.
- 8. Commencing then with Wilson Creek, the most eastern of these branches, it was found to be

navigable for vessels drawing 4 feet and under up to Clancy's Falls. 68\frac{3}{4} miles from the Entrance, and 6 miles above the Township of Lismore. There was no appearance of tidal influence at Clancy's Falls.

9. About \frac{1}{4} mile below Clancy's Falls a cross-section was taken (shown on tracing\*), and from thence a continuous line of soundings down to the Township of Lismore. The creek has a mean that the creek has a mean than the creek has a mean Drawing No. 9. 100 feet, and the soundings showed an average depth of 7 to 8 feet in the reaches and 15 to 20 feet in the sharp bends of which there are several, until Geraghty's Flat is reached 664 miles from the Entrance.

At this flat there is an extremely sharp bend, having only a depth of 5 feet upon it, the bottom being composed of shingle: from Geraghty's to the north-west corner of section 41 of the Township of Lismore, 634 miles from the Entrance, the soundings show a depth of 7 to 22 feet, when another shallow flat is Limit of naviga- reached, having only 5 feet of water upon it; this point is the limit of navigation in Wilson Creek for vessels drawing 6 feet and upwards. Wilson Creek is principally used for rafting cedar and other drawing 6 feet, timber of which large quantities are brought to the several saw mills established lower down the River

tion, Wisson a Creek for vessel drawing 6 feet. timber, of which large quantities are brought to the several saw-mills established lower down the River. 10. The Township of Lismore, the population of which is 5,500, is situated on the left bank of Wilson Creek at its junction with Leicester Creek. Wilson Creek is here crossed by a large lattice Lismore popula-tion.

Wilson Creek at its junction with Leicester Creek. Wilson Creek is here crossed by a large lattice bowstring bridge having in it an opening span, the deck level of this bridge is 43 feet above summer level of the River and 9 feet above the highest flood level ascertained, which flood occurred in the winter of 1871. The banks here are about 33 feet above summer level. The rise and fall of tide at Lismore appeared to be about one foot, but it is difficult to say how much of this is due to slight freshes coming down the River, and how much to tidal influence. High water full and change at Lismore occurs at 4 p.m., or about 6 hours 45 minutes later than at the heads. There is 150 feet of wharf accommodation and also a storage shed about 4-mile below the junction, principally used by the Clarence and Richmond Rivers Steam Navigation Companys' and B. B. Nicoll's steamers, which vessels run bi-weekly between here and Sydney: there are also river-boats running daily between Lismore Balling and Casino calling here and Sydney: there are also river-boats running daily between Lismore, Ballina, and Casino, calling at the several townships situated on the river banks. A cross section of Wilson Creek was taken at the junction.

11. Terrania and Hanging Rock Creeks are both navigable for vessels drawing 4 feet to about 2 miles above their junction, and 69½ miles from the Entrance. They are both used, as is also Leicester Creek, for rafting cedar and other timber, there are also brick kilns established on Terrania Creek at ¾ and 2 miles from its junction with Leicester Creek. A cross-section of Leicester Creek was taken at one mile up stream from its junction with Wilson Creek.

12. It was not thought necessary to go above this point as the steamer which was drawing  $4\frac{1}{2}$  feet had grounded shortly before reaching here. From here (Griffith's farm) to the junction of Wilson and Leicester Creeks the soundings showed 6 to 20 feet, with the exception of one short flat about  $\frac{3}{4}$  of a mile from the junction upon which 4½ feet was found. At the junction Leicester Creek is spanned by a large queen post truss timber bridge, this and the iron bridge leading from Lismore meet upon the point formed by the junction of the two creeks, the bridges being at the same height above summer level. A cross section was also taken about \(\frac{1}{2}\) mile below the junction of Wilson and Leicester Creeks (shown on tracing). Starting now from the Township of Lismore, soundings were taken along the navigable channel of the North Arm, which showed at Snow's Flat, about \(\frac{3}{2}\) of a mile below Lismore, a depth of 11 feet, and, as no shallower water was found in the North Arm or between here and the Entrance, Lismore may be said to be the limit of navigation for vessels drawing 10 feet and under, supposing the bar to be sufficiently deep to admit of such a vessel crossing. Some dredging has been done on Snow's Flat by the dredge "Archimedes," the material excavated being sand and mud. There is a large saw-mill situated on the right bank near this flat, at 601 miles from the Entrance there is a Government wharf on the right bank, the depth of water at it being 14 feet, and from here to the Township of Gunderimba,  $58\frac{1}{4}$  miles from the Entrance, there is a depth of 15 to 18 feet of water in the reaches, and 20 to 30 feet in the bends. The

banks of the River along here are about 25 to 30 feet high, and are greatly overhung with willows.

13. At Gunderimba there is a sharp bend in the River. A cross-section was taken here, and the flood levels obtained from the oldest inhabitants. The highest flood reached 30 feet 6 inches above summer level, and about 2 feet above the bank of the River. There is a Government wharf, and also a ferry punt at this Township. Large quantities of sugar-cane are grown on the surrounding land and taken to the several mills upon the River for crushing.

14. From Gunderimba to Wyrallah, which Township is 51\frac{1}{4} miles from the Entrance, there is deep water, but the River has two very sharp bends in it about halfway between the Townships. At Wyrallah, a cross-section was taken and flood levels obtained, the highest flood recorded being 24 feet above summer level, and the banks at this place are about the same height. At Wyrallah there is a saw-mill on the left bank, and from here large quantities of colonial pine are shipped. From Wyrallah to 46 miles from the Entrance the same depths of water were found in the reaches and bends, viz., 15 to 20 feet and 20 to 30 At 46 miles a cross-section was taken and the highest flood was found to be 20 feet above summer level (1871), the banks are here about 19 feet high. For the next 6 miles down stream, there is a depth of water varying from 15 to 27 feet, until the bend above the Coraki junction is reached, here 11 feet of water was obtained on a rocky bottom in the bend, but there is better water in the centre of the channel. Some of the rock here has been removed; from here to the junction there is 20 feet of water, the banks are 15 feet, and the highest flood reached 19 feet above summer level. A cross-section was taken here (shown on tracing).

Drawing No. 9.

Drawing No. 9. Highest flood record.

Drawing No. 9

Drawing No. 9.

15. Starting again in the South Arm, the limit of navigation for vessels drawing 4 feet and upwards south Arm, is at Irvington Wharf, distant 69 miles from the Entrance and 2 miles down stream from the Township of Casino. The Grab dredge is working one mile below Irvington Wharf.

16. Casino is the oldest Town upon the River and is the centre of a large pastoral district. Above Irvington Wharf the River consists of a series of rapids and falls in wet weather, and a chain of water-holes in dry weather. In the South Arm the floods reach a much greater height than in the North, Floods are higher and at Irvington Wharf, in January, 1887, the floods rose 70 feet above summer level, and 39½ feet in Arm.

16a. The banks of this Arm are of an extremely unstable nature, and portions of them are River banks very constantly slipping into the River and carrying with them large trees and stumps. At Irvington Wharf At Irvington Wharf a cross-section was taken, and a line of soundings along the channel from here to the junction at Coraki, Drawing No. 10, distant 29 miles. The soundings showed a patch of rock at 67½ miles from the Heads, on which there was Patch of rock. ly  $5\frac{1}{2}$  feet of water, and this point is the limit of navigation for vessels drawing 6 feet and upwards in Limit of navigation for vessels e South Arm. From this point to Tomki Station homestead, which is on the left bank distant  $63\frac{1}{2}$  miles drawing 6 feet. From the Heads, the least depth found was over 6 feet. Here a cross-section was taken, and January, 1887, Drawing No. 10. flood-level obtained, which was 55 feet above ordinary summer level.

16b. From Tomki to Deep Creek, which is 64½ miles from the Entrance, the least available depth is

over 6 feet, and a cross-section taken at Deep Creek gives a very fair approximation of the average channel Drawing No. 10. of the river for some considerable distance on either side of it. Deep Creek is decidedly a misnomer, as This part very of the river for some considerable distance on either side of it. it was found that a boat could only be pulled up it a short distance. As an instance of the circuitous course of the river between the last two cross-sections, the distance by water is 94 miles, and in a direct line 31 miles. The January, 1887, flood rose to 39 feet above summer level at Deep Creek.

Flood level, January, 1887.

17. From Deep Creek to 52½ miles from the Entrance there is good water, but at this point there is Drawing No. 10. a shallow flat, having only 7 feet upon it, and this is the limit of navigation for vessels drawing 10 feet and upwards. There is over 10 feet from here to the junction, and the cross section taken at Codrington Town-Flood level at ship, distant 47 miles from the heads, gives a good general idea of the stream from there to Coraki. The 1887, 1887 flood at Codrington was 27 feet, and the banks are 25½ feet above summer level. This is the same 1890 which reached a height of 70 feet at and near Casino, and the highest flood which head here! Highest flood which from the flood here the flood which from the flood here the flood the district for over 30 years. A section was taken on the South Arm at the junction, and the flood-level 30 years. here was 19 feet, the banks being 20 feet high.

Drawing No. 10. 18. Coraki is situated on both banks of the River, at the junction of the North and South Arms, it is Coraki Towna rising township, and is the centre of a large sugar-cane growing district. There is a ferry punt established here, crossing both arms, also good wharf and storage accommodation. The rise and fall of tide is 2 feet, and high water at full and change occurs at 1°30 p.m. A cross-section was taken here about Drawing No. 10-1,000 feet below the junction, and the 1887 flood-level obtained showed a drop of 9 inches in this distance.

19. From Coraki, distant 40 miles from the Bar, the River runs south-east about 1 mile, and the least available depth in this reach is 12 feet. It then takes a rectangular bend to the right and runs south-west about 2 miles; this is a line straight reach and has at least 13 feet of water in the shallowest part; from here the River runs east south-east about 1½ miles, and has an available depth of 12 feet, when it again turns to the right and runs 2 of a mile in a south south-east direction to its junction on the right

bank with Bungawalbin Creek. 20. Bungawalbin Creek, called South Arm on county map, is one of the principal tributaries of the Bungawalbin Creek, called Richmond; it is navigable for vessels drawing 10 feet for a distance of 14 miles from its mouth, and is south Arm, on then obstructed by a short reef of rocks, which, if removed, would open the navigation 5 miles further, the county map. then obstructed by a short rect of rocks, which, it removed, would open the navigation a mues further, the least depth obtained was 14 feet, the general run being from 20 to 25 feet. Unlike the South Arm the May be made navigable for banks of this creek are sound and the channel clear of trees and snags. There is a sandstone quarry vessels drawing at the head of navigation on the right bank, and a large amount of hardwood timber is brought down this 10 feet for distance of 19 miles. creek. Several lesser creeks flow into Bungawalbin, and are used by settlers for conveying produce, &c. The largest of these is Sandy Creek, which joins Bungawalbin at 13 miles from the mouth; it is navigable

about 5 miles for vessels drawing 4 feet.

21. Cross-sections of Bungawalbın were taken at the mouth, and 6 miles from there up stream, the Drawing No. 10. highest flood-level on this portion was 12 feet above summer level, which is also the mean height of the Drawing No. 10. hanks. A section was also taken of the Main River a short distance helps the inaction. From this point banks. A section was also taken of the Main River a short distance below the junction. From this point the River runs south-east  $2\frac{1}{2}$  miles to the Elbow; this is the longest straight reach on the River and is a The Elbow. fine sheet of water, there being nothing less than 12 feet in the channel. At the Elbow the river is joined on the right bank by an almost circular lagoon called Swan Bay, there is 8 feet of water in the narrow channel connecting this lagoon with the River and 14 to 22 feet inside; large quantities of sugar-cane and timber (for piles) are brought out of this bay. A short distance below the Elbow there is a Government Drawing No. 11. wharf and punt. From the Elbow to the Township of Woodburn, distant 4½ miles, the river makes two semi-circular bends, there is a flat about  $1\frac{1}{2}$  miles below the Elbow, which has only 10 feet at low water upon it, the bottom is soft and muddy, the deep water being close to the left bank. At  $28\frac{3}{4}$  miles from the Heads, there is a shingly patch having only 11 feet of water upon it, and from here to Woodburn there is 14 feet available. At Woodburn, there is a rocky patch just above the Township, the least depth

there is 14 feet available. At Woodl upon which is 11 feet in the channel. 22. The Township of Woodburn is situated on the right bank, distant 27 miles from the Heads. Woodburn Township.

The head waters of the Evans River lie to the south-east of the Township of Woodburn, distant 1½ miles, prawing No. 12 and the intervening space is low and flat. From Woodburn to the junction of the Main River and Dungarooba Creek, distant 20½ miles from the Heads, the least available depth is 11 feet. There is good Sandstone quarry. sandstone showing in the high ground on both sides of the River here, the surface samples indicate stone of good quality, but no tests have been made by sinking trial shafts, there is every reason however to believe it to be the best site for a quarry in the district.

23. At this point a cross-section was taken, and from here to 171 miles from the Heads the least Drawing No. depth obtained in the channel was 12 feet.

24. At this point the Colonial Sugar Company's Mill is situated on the right bank, this is a very important industry. large and important industry, employing 500 hands in the season and about 250 permanently, they have also about ten steamers at work upon the River. At 1 mile below the mill the Broadwater joins the River on the left bank. It is a large shallow lagoon used chiefly for conveying the punts laden with sugar-cane to the mill, there is only 4 feet of water at the entrance to this bay.

Wardell Flats, a difficult crossing.

25. From Broadwater down stream there is good water until Wardell Flats are reached, distant 13 miles from the Heads, this is the worst crossing on the River, having a bare 10 feet upon it at low water, there is however between 2 and 3 feet of tide at this place. A vessel having crossed here cannot fail to reach Lismore without further obstruction.

Wardell tide gauge.
Drawing No. 12.
Immigrant
Creek entrance
shallow.

The bar has improved.

North Creek opposes the current on Main River.

Patch of rocks causing deflec-tion.

26. Immediately below the flats is situated the township of Wardell on the right and left banks of the river, there is good wharf and storage accommodation and a ferry punt here, and a large amount of timber is sawn at the mills in this place. Wardell is one of the positions fixed by Sir John Coode for timber is sawn at the mills in this place. Wardell is one of the positions fixed by Sir John Coode for erecting a tide gauge, the next being at Pimlico, 4 miles down stream, and between which places there is good water, the least being 12 feet. From Pimlico to Immigrant Point, where another gauge was erected, there is from 15 to 40 feet of water; here Immigrant Creek joins the River on the left bank, the entrance to this creek is shallow, only 5 feet, but once inside there is good water for over 20 miles, like the other creeks it is principally used for conveying sugar-cane to the mills. From Immigrant Creek to the Township of Ballina, situated on the left bank, the least depth at present is 14 feet, but the River may be the other ways said to enter upon its variable are untable position. here said to enter upon its variable or unstable portion.

26a. From Ballina to the Bar the distance by the present channel is about 24 miles, but this channel is constantly shifting its position and varying its depth, the Bar, which in 1871 was 1; miles to the south east of the North Headland, is now only 1,500 feet from it.

27. The Richmond Bar has improved in depth very much during the last six months, and has at present a greater depth of water upon it than any other bar harbour on our coast (14 feet at low water).

28. Ballina is situated on the left bank of the River, about 24 miles from the Entrance, and the

deep water channel runs close along this bank until it reaches the south-eastern extremity of the Township. Here the river widens into a large bay, and the deep water channel turns away towards the South Sand The general direction of this spit is north-east and south-west, and the channel follows its western shore until it reaches the Beacon Rock, which is 500 feet south from the high rocky point on the north side upon which the Pilot Station is situated. The current is here met and directly opposed by the waters of the North Creek, which waters flowing in almost the same line as that of the channel, but in a contrary direction must weaken considerably the ebb current on its way towards the Bar, and this fact is fully examplified, for although the absenced is immediately below this contracted to 700 feet in is fully exemplified, for although the channel is immediately below this contracted to 780 feet in width, the ebb current does not receive a corresponding increase in strength, being very little greater than when it is flowing in the wide open space above. After passing through this narrow channel the River again widens out into Shaw's Bay. Skirting round the shores of this bay, the deep water makes a segmental bend on its way to the Bar, when it is again deflected southward by the patch of rocks lying on the foreshore of the North Headland and upon which the wreck of the "Lismore" is now lying. Passing here current again bends to the eastward and runs directly out to sea, the deep water channel being about 1,500 feet south of the North Headland; on this headland the lighthouse and signal station are situated

at a height of 117 feet above high water. Statements 29. It is stated that when the Entrance was much further to the south, or at the end of what is former entrance, known as the Ti-tree serub, that there was 17 feet of water upon the Bar, and it is not improbable that

this was the case, as with the channel in this position the waters of the North Creek and Main River would combine to assist one another in their scouring action instead of each exerting a retarding influence on the

other as they now do.

Difference in time of tides.

29a. A curious fact is noticed with regard to the tides in the North Creek and Main River. The flood commences in the former nearly one hour earlier than in the latter, and the same occurs at the obbtide, which may be attributed to the greater momentum in the waters of the Main River (on account of its greater volume) requiring a longer time to be overcome by the incoming flood, and this flood meeting with less resistance from the smaller body of water coming from the North Creek, consequently strikes off in that direction. The same reasoning would apply to the cbb-tide.

Bar most difficult to cross in cast or south-casterly weather.

30. The Richmond Bar is at all times a difficult one to cross, but especially so in east or southeasterly weather. No vessel attempts to pass either in or out except at flood tide, and all sailing craft are towed; for this purpose a tug is subsidized by the Government. Whenever a fresh occurs in the River towed; for this purpose a tug is subsidized by the Government. Whenever a fresh occurs in the River the stand-off signal is hoisted against all vessels until the water has cleared and the tides commence to

Winds.

make in again.

31. The most prevalent winds during the summer months are from the east and south, and these create the worst sca upon the Bar. In the winter the west and south-west winds which prevail produce comparatively smooth water in the deep water channel, but there is always a constant break on either side of the channel in the finest weather, independent of where the wind may be blowing from at the

Constant sea-break in all weathers.

32. Vessels in crossing the bar are chiefly guided by steering for where there appears to be the least break as it is very rarely the pilot is able to sound the bar or fix the position of the deepest water.

29 September, 1887.

E. O. MORIARTY.

#### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# TENDERS FOR CASTINGS FOR THE HUNTER RIVER DISTRICT.

(INFORMATION RESPECTING, FOR 1888.)

Ordered by the Legislative Assembly to be printed, 29 February, 1888.

[Copies of Papers respecting Tenders for Supply of Castings for the Hunter River District during 1888, referred to in answer to Question No. 13, Votes No. 60, Wednesday, 29 February, 1888.]

#### TENDERS FOR CASTINGS, HUNTER RIVER DISTRICT.

Name.	Rate.	Remarks.
Robt. Gibson	33½ % off	manufacture of ovens (of which he makes a specialty), &c., but has no appliances for large castings, and his shop is situated about 2 miles
J. S. Rodgers & Sons	31 % off	from where the dredges are laid up for repairs.  Has a good-sized shop, about 1 miles from where the dredges are laid up.  The foundry is sublet, the result of which, for the one year they had our contract, was that we had great trouble in getting work either expeditiously or well done.
J. B. Barclay	30 % off	Has a small foundry about 1½ miles from where the dredges lay up. He could do most, if not all, of our castings, but has no fitting-shop.
	1	With the exception of Hudson Bros., these are the largest and best regulated shops in the district, having appliances for carrying out the largest eastings, and a very complete and extensive fitting-shop. They have been our contractors for some years, and have given complete satisfaction. Their place of business is about 4 mile from where the dredges lay up for repairs.
Hudson Bros	20 % on	where our dredges lay up. Their price, however, is much higher than any of the others.

There are three important points to be considered in deciding on tenders for castings:-

First—The quality of the work.

Second—The facilities for supplying all sizes of eastings, and doing all fitting work connected therewith.

Thirdly—Ifaving the shop in close proximity to the work that is under repair.

I have no hesitation in saying that, taking these things into consideration, it would be to the advantage of the Department to let the contract to Morrison & Bearby. The loss of time that would be occasioned by having to send the work to and from the other foundries would make far more than the difference in percentage in the prices quoted.

ROBT. HICKSON.

The Engineer-in-Chief.

For the reasons stated by Mr. Hickson, I beg to recommend that the tender of Messrs. Morrison & Bearby be accepted for castings for the Hunter River District.—E.O.M., 21/12/87.

Schedule of Prices for the Supply of Castings for the Service of the Harbours and Rivers Department.

All persons tendering are requested to notice the following directions:—

The person who submits a tender is to fill up the undertaking at the end of the list of prices, stating at how much per cent. above or below the prices inserted in the schedule he is willing to contract for the supply of castings that may be required, to which he is to sign his name; he is also to give his address, and the names, professions, and places of residence of his proposed bondsmen.

The contractor is to make out his account in duplicate on the Government forms not later than the 3rd (third) of each month, at the printed prices named in the schedule of net rates furnished to him.

Note.—Parties tendering are particularly requested to observe that they must name only one rate of percentage above or below all the prices in the schedule, and that they must not give one rate of percentage upon the prices of certain of the items and another rate upon others.

#### General Conditions.

- 1. All articles included in this contract must be supplied in such quantities and at such times as may be required, from the 1st January next to the 31st December, 188 . Net weights only will be allowed for.
- 2. All articles which may be required for use or delivery in Sydney, within 4 miles of the General Post Office, or at the Fitzroy Dock, and in the Hunter River District (see clause 8), or on any vessel or wharf in Port Jackson or the Parramatta River, must be delivered where directed free of cost; but to any other part of the Colony the freight or carriage to be charged, in addition, by the contractor.
- 3. Samples will be required in all cases where practicable unless some special and satisfactory reason be assigned.
- 4. All articles must be of the very best quality, according to sample, where samples may have been furnished, and are to be subject to the approval of the Engineer-in Chief or his authorized subordinate; and in case of any dispute as to the quality of such articles, or as to any other matter in connection with the contract, the decision of the Engineer-in-Chief shall be final.
- 5. In the event of there being any unnecessary or unreasonable delay in executing any order under the contract, the articles so ordered, or any portion of them, may be purchased by the Engineer-in-Chief, at his discretion, in this or any of the markets of the other Australasian Colonies, and in such manner as he may think best for the public interests, at the risk and expense of the contractor. Should it not be possible to procure articles of the kind or quality ordered, the contractor shall supply, or, on his failure to do so, the Engineer-in-Chief shall be entitled to obtain at the contractor's risk and expense, others of the next higher quality, kind, or make procurable which, in the opinion of the Engineer-in-Chief, may be suitable, and in such event the Government shall only be liable to pay for the articles so supplied at the contract rate of those in lieu of which such articles of superior make, kind, or quality shall have been procured, or should such articles have been procured by the Engineer-in-Chief from others than of the contractor (which the said Engineer-in-Chief shall have full power to do), any extra cost of any kind whatever over the contract rate shall be deducted from any moneys due, or to become due, to the contractor in respect of this contract. Should, however, articles of lower value be accepted than those ordered, the lower price only shall be charged; and in the event of any loss being suffered by the Government, by reason of such articles not having been duly and properly supplied as aforesaid, the amount of such loss may be deducted by the Engineer-in-Chief from any moneys that may be due, or that may become due, to the contractor in respect of his contract.
- 6. The Secretary for Public Works reserves to himself the right to annul the contract at any time, on giving three months' notice in writing to that effect, should be not be satisfied with the quality of the articles, or with the manner in which his orders may have been executed.
- 7. Payments will be made not oftener than once in every month, but only on the certificate of the proper officer that the articles have been supplied according to contract.
- 8. Separate tenders to be sent in for the supply of stores in the Hunter River District, such stores to be delivered free of cost.
  - 9. The contractor will have to pay all stamp duties required under his contract.
- 10. On the acceptance of the tender, the prices in this schedule, to simplify calculations, will be altered to not rates, the percentages being added to or taken from the respective items in terms of the tender. In thus fixing the rate, any amount one farthing and under will not be taken into consideration; any amount over one farthing and under one half-penny will be put down as one half-penny; any amount over one half-penny and under three farthings will be put down as one half-penny; any amount three farthings and under one penny will be put down as one penny.
- 11. The Engineer-in-Chief shall have the right to order for the use of any other Department of the Government of New South Wales, or of the Imperial Government in connection with the Colonies, any of the articles comprised under this contract, and they shall be supplied at the contract rates.
- 12. The person whose tender may be accepted is to enter into a bond, with two eligible sureties, jointly and separately, to be bound under a penalty of one bundred pounds, for the due performance of this contract.

# EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

#### VOTES No. 5. WEDNESDAY, 28 SEPTEMBER, 1887.

Purchase by the Government of Land adjoining the Australasian Steam Navigation Company's Wharf:—Mr. Melville moved, pursuant to Notice.—
(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon the purchase by the Government of the land adjoining the Australasian Steam Navigation Company's Wharf. Circular Quay.
(2.) That such Committee consist of Mr. Black, Mr. Slattery, Mr. Street, Mr. Chapman, Mr. Brunker, Mr. R. Burdett Smith, Mr. McElhone, Mr. O'Sullivan, Mr. Garvan, and the Mover.

Debate ensued.

And Dr. Ross requiring that the Committee be appointed by ballot,-

Question,—That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon the purchase by the Government of the land adjoining the Australasian Steam Navigation Company's Wharf, Circular Quay.—put and passed.

Whereupon the House proceeded to the ballot; and Mr. Speaker declared the following to be the Committee duly appointed:—Mr. Melville, Mr. Brunker, Mr. Chapman, Mr. R. Burdett Smith, Mr. Street, Mr. Black, Mr. Bardekin, Mr. See, Mr. Gould, and Mr. Abigail.

#### VOTES No. 9. THURSDAY, 6 OCTOBER, 1887.

 PAPERS:—Sir Henry Parkes laid upon the Tuble,— (1.) Correspondence respecting the purchase by the Government of land between the Australasian Steam Navigation Company's Wharf and Dawes Point. Ordered to be printed and referred to the Select Committee now sitting on the subject.

#### VOTES No. 60. WEDNESDAY, 29 FEBRUARY, 1888.

1. Purchase by the Government of Land adjoining the Australasian Steam Navigation Company's Wharf:—Mr. Melville, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose consideration and report this subject was referred on 28th September, 1887, together with Appendix.
Ordered to be printed.

### PURCHASE BY THE GOVERNMENT OF LAND ADJOINING THE AUSTRALASIAN STEAM NAVIGATION COMPANY'S WHARF.

# REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 28th September, 1887, "with power to send for persons and papers to inquire into and report upon the purchase by the Government of the land adjoining the Australasian Steam Navigation Company's Wharf, Circular Quay," and to whom was referred on the 6th October, 1887—"Correspondence respecting the Purchase by the Government of land between the Australasian Steam Navigation Company's Wharf and Dawes Point,-have agreed to the following Report:

Your Committee have examined the witnesses named in the list,\* and \*See list page 11. having carefully considered their evidence, together with the documents appended

thereto, find the evidence discloses the following facts:-

That the Government, in view of the future growth of commerce of the port, decided to acquire the whole of the foreshores of Sydney Cove, to purchase the A.S.N. Co.'s wharf and premises, and, in anticipation of the latter purchase, to secure the land in question (known as Cunninghame's grant) which severed the A.S.N. Co.'s land from Dawes Point.

In dealing with the subject, the Cabinet deemed it expedient, in the public interest, to secure the intervening strip of land (Cunninghame's) before negotiating for the property belonging to the A.S.N. Co., lest they should be subsequently

placed at a disadvantage in purchasing.
On the 7th June, 1887, Sir Henry Parkes addressed a letter to Mr. H. Gorman, of the firm of Hardie & Gorman, requesting him to call upon him at the Colonial Secretary's Office. Mr. Gorman complied with Sir Henry Parkes' wish, and the result of the interview was that Mr. Gorman was instructed to ascertain who was the owner of the land between Dawes Point and the A.S.N. Co.'s property, at what price it could be purchased, and to get it placed under offer to the Government, as they

were considering the purchase of the A.S.N. Co.'s property.

On the same day Mr. Gorman sought Mr. Cliff, and found him at the office of Messrs. Mills & Pile. Mr. Gorman elicited from Mr. Cliff, in reply to an inquiry that he was the owner of the land referred to, and had just placed it in the hands of Messrs. Mills & Pile for sale. An arrangement was then made between Mr. Gorman and Mr. Cliff that the property should be placed under offer to Messrs. Hardie & Gorman for a few days. The arrangement was carried out by letter from Messrs. Mills & Pile, accompanied by a rough sketch of the property—the price fixed being £31,000, the offer to remain open until the 13th June. This letter was forwarded to the Colonial Secretary, who asked that the time might be extended to the 14th instant,—the request was acceded to by the agents for the vendor.

On the 14th instant Mr. Gorman received a letter from the Colonial Secretary informing him that the Government had decided to purchase the land for £29,000. Mr. Gorman immediately waited on Messrs. Mills & Pile, and, after an agreement to divide commission, made an offer of £29,000 on behalf of the Government, and

later in the day received a letter covering its acceptance.

142 -

The

The following facts have also been elicited in evidence:-

That Mr. Cliff first entered into negotiations with Messrs. Richardson & Wrench (agents for the proprietors) for the purchase of the property, and, with the assent of Mr. I. J. Josephson, trustee of the Hanson Estate, the property was placed under offer to him on the 6th June for £20,000, by letter, stating terms and conditions, the offer to remain open until the 16th June.

That on the following day the property was offered to Mr. Gorman on behalf of the Government for £31,000, accepted at £29,000 on the 14th June, and the contract between Richardson & Wrench and Mr. Cliff for the first purchase at £20,000, made and completed on the following day, viz., 15th June.

The original deed of grant in favour of R. D. Cunninghame concedes to the "Governor for the time being the power to resume or take possession of all "or any part of the said land which may be required at any time or times "hereafter for the improvement of the said town" (meaning Sydney) upon stated conditions. It also appears from a plan produced by the Acting Surveyor-General that the land comprising the foreshore has been acquired by reclamation, and that in a reply given to requisition No. 21, made on the title by the Crown Solicitor, it is asserted that so far as the solicitors for the vendors were aware, no right of reclamation had been applied for.

The evidence given with regard to the value of the land is conflicting, and the opinions expressed denote that valuations have been stated with a marked degree of uncertainty, thus leaving the Committee to solve a very important

point by inference rather than by undoubted facts.

The Committee further report,-

That the course adopted by the Premier in arranging to secure the land known as Cunninghame's before concluding negotiations for the purchase of the A.S.N. Company's property affords substantial proof of his desire to conserve the public interest.

That after a careful revision of the evidence the Committee exonerate the Members of the present Administration from being in any way improperly

connected with the purchase of the land.

That in negotiating the purchase the broker employed by the Premier evinced an unaccountable degree of indifference in the exercise of his duty. No care or attention appears to have been given to the business beyond a desire to complete the transaction in the shortest possible time, and to obtain a

share of the profit derivable by way of commission.

That in consideration of the fact that Messrs. Richardson & Wrench were entrusted with the sale of the property for several years, during which period they adopted the usual course by way of advertisement and otherwise to dispose of it without result, and subsequently having sold the land to Mr. Cliff on behalf of the proprietors for £20,000, and a second sale having been made by Mr. Cliff to the Government for £29,000 before the first was completed, denotes a very questionable change in value, and leads the Committee to believe that befter terms might have been made.

The Committee are of opinion that the Government would not only have freed themselves from an undue share of responsibility, but would have conserved the public interest, had they decided to resume the land under the provisions of the Lands for Public Purposes Acquisition Act. The adoption of this course would simply have been a confirmation of the rights maintained and the power given

under the original deed of grant from the Crown to R. D. Cunninghame.

The action of the agent employed by the Premier to partially conduct this purchase, combined with further information elicited from the evidence, induces the Committee to recommend that in acquiring properties required for public purposes it is (except under special conditions) advisable to take advantage of the powers conceded by law rather than purchase by private contract.

> NINIAN MELVILLE, Chairman,

No. 3 Committee Room, Sydney, 29th February, 1888.

#### PROCEEDINGS OF THE COMMITTEE.

#### WEDNESDAY, 5 OCTOBER, 1887.

#### . Members Present :--

Chairman submitted Draft Report which was read a first time, as follows:-

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 28th September, 1887, "with power to send for persons and papers to inquire into and report upon the purchase by the Government of the land adjoining the Australasian Steam Navigation Company's Wharf, Circular Quay," and to whom was referred, on 6th October, 1887-" Correspondence respecting the purchase by the Government of Land between the Australasian Steam Navigation Company's Wharf and Dawes Point," have agreed to the following Report :-

Your Committee have examined the witnesses named in the list, \* and having carefully considered their scollet, rego 11 evidence, together with the documents appended thereto, find the evidence discloses the following

That the Government, in view of the future growth of commerce of the port, decided to acquire the whole of the foreshores of Sydney Cove, to purchase the A.S.N. Co.'s wharf and premises, and, in anticipation of the latter purchase, to secure the land in question (known as Cunninghame's Grant) which severed the A.S.N. Co.'s land from Dawes Point.

In dealing with the subject, the Cabinet deemed it expedient, in the public interest, to secure the intervening strip of land (Cunninghame's) before negotiating for the property belonging to the A.S.N. Co., lest they should be subsequently placed at a disadvantage in purchasing.

On the 7th June, 1887, Sir Henry Parkes addressed a letter to Mr. H. Gorman, of the firm of Hardie & Gorman, requesting him to call upon him at the Colonial Secretary's Office. Mr. Gorman complied with Sir Henry Parkes' wish, and the result of the interview was that Mr. Gorman was instructed to ascertain who was the owner of the land between Dawes Point and the A.S.N. Co.'s property, at what price it could be purchased and to get it placed under offer to the Government as they

instructed to ascertain who was the owner of the land between Dawes Point and the A.S.N. Co.'s property, at what price it could be purchased, and to get it placed under offer to the Government, as they were considering the purchase of the A.S.N. Co.'s property.

On the same day Mr. Gorman sought Mr. Cliff, and found him at the Office of Messrs. Mills & Pile. Mr. Gorman elicited from Mr. Cliff, in reply to an inquiry that he was the owner of the land referred to, and had just placed it in the hands of Messrs. Mills & Pile for sale. An arrangement was then made between Mr. Gorman and Mr. Cliff that the property should be placed under offer to Messrs. Hardie & Gorman for a few days. The arrangement was carried out by letter from Messrs. Mills & Pile, accompanied by a rough sketch of the property—the price fixed being £31,000, the offer to remain open until the 13th June. This letter was forwarded to the Colonial Secretary, who asked that the time might be extended to the 14th instant,—the request was acceded to by the agents for the vendor.

On the 14th instant Mr. Gorman received a letter from the Colonial Secretary informing him that the Government had decided to purchase the land for £29,000. Mr. Gorman immediately waited on Messrs. Mills & Pile, and, after an agreement to divide commission, made an offer of £29,000 on behalf of the Government, and later in the day received a letter covering its acceptance.

of the Government, and later in the day received a letter covering its acceptance.

The following facts have also been elicited in evidence:—
That Mr. Cliff first entered into negotiations with Messrs. Richardson & Wrench (agents for the proprietors) for the purchase of the property, and, with the assent of Mr. I. J. Josephson, trustee of the Hauson Estate, the property was placed under offer to him on the 6th June for £20,000 by letter stating terms and conditions the offer to remain onen until the 16th for £20,000, by letter, stating terms and conditions, the offer to remain open until the 16th

That on the following day the property was offered to Mr. Gorman on behalf of the Government for £31,000, accepted at £29,000 on the 14th June, and the contract between Richardson & Wrench and Mr. Cliff for the first purchase at £20,000, made and completed on the

following day, viz., 15th June.

The original deed of grant in favour of R. D. Cunninghame concedes to the "Governor for the "time being the power to resume or take possession of all or any part of the said land which may be required at any time or times hereafter for the improvement of the said town" (meaning Sydney) upon stated conditions. It also appears from a plan produced by the Acting Surveyor-General that the land comprising the foreshore has been acquired by reclamation, and that in a reply given to requisition No. 21, made on the title by the Crown Solicitor, it is asserted that so far as the solicitors for the vendors were aware, no right of reclamation had been applied for.

The

The evidence given with regard to the value of the land is conflicting, and the opinions expressed denote that valuations have been stated with a marked degree of uncertainty, thus leaving the Committee to solve a very important point by inference rather than by undoubted facts.

The Committee further report,

That the course adopted by the Premier in arranging to secure the land known as Cunninghame's before concluding negotiations for the purchase of the A.S.N. Company's property affords substantial proof of his desire to conserve the public interest.

That after a careful revision of the evidence the Committee exonerate the Members of the present Administration from being in any "way" connected with the purchase of the land, "except in the strict performance of their Ministerial duties."

the strict performance of their Ministerial duties.

That in negotiating the purchase the broker employed by the Premier evinced an unaccountable degree of indifference in the exercise of his duty. No care or attention appears to have been given to the business beyond a desire to complete the transaction in the shortest possible time, and to obtain a share of the profit derivable by way of commission.

That in consideration of the fact that Messrs. Richardson & "Wrench" having sold the land to Mr. Cliff on belefit of the promistors for COO and a second selection have "made" to

Mr. Cliff on behalf of the proprietors for £20,000, and a second sale having been "made" to the Government for £29,000 before the first was completed, denote a very questionable change in value, and leads the Committee to believe that better terms might have been made.

The Committee "suggest" that the Members of the Government would "not only have freed themselves from an undue share of responsibility, but would" have conserved the public interest had they decided to respons the land under the manufactor of the Lands for Public Purposes Acquisition 4 of The decided to resume the land under the provisions of the Lands for Public Purposes Acquisition Act. The

adoption of this course would simply have been a confirmation of the rights maintained and the power given under the original deed of grant from the Crown to R. D. Cunninghame.

The "unintelligible" action of the agent employed by the Premier to partially conduct this purchase, combined with further information elicited from the evidence, induces the Committee to recommend that in acquiring properties possible for public purposes; it is (except public properties possible to in acquiring properties required for public purposes it is (except under special conditions) advisable to

take advantage of the powers conceded by law rather than purchase by private contract.

Motion made (Mr. See), and question "That the Draft Report be read paragraph by paragraph,"put and passed.

Paragraphs 1, 2, 3, 4, 5, and 6, read and agreed to.

Paragraph 7 read and considered.

Amendment proposed (Mr. See), after "way," in line 9, insert "improperly," and in lines 9 and 10 omit "except in the strict performance of their Ministerial duties,

Amendment put and agreed to.

Paragraph 7, subsection 7, read and considered.

Question—"That the subsection as read stand part of the Report," put.

Committee divided.

No. 1. Ayes, 4. Mr. R. Burdett Smith Mr. See, Mr. Gould, Mr. Brunker, Mr. Chapman.

And so it was resolved in the affirmative.

Paragraph 7, subsection 8, read and considered.

Amendment proposed (Mr. Brunker), after "Wreneh," in line 15, insert "were entrusted with the sale of the property for several years, during which period they adopted the usual course by way of advertisement and otherwise to dispose of it without result and subsequently."

Amendment put and agreed to.

Amendment proposed (Mr. Gould), after "made" in line 16 insert "by Mr. Cliff."

Amendment put and agreed to. Paragraph 8 read and considered.

Amendment proposed (Mr. Gould) omit "suggest" in line 1, and insert "are of opinion."

Amendment put and agreed to.

Amendment proposed (Mr. Smith) in lines 1 and 2, omit "not only have freed themselves from an undue share of responsibility, but would."

Onestion—"That the words were add to be added to be added to be added.

Question,-"That the words proposed to be omitted stand part of the Report,"-put.

Ayes, 4. Mr. Sec, Mr. Brunker, Mr. Gould, Mr. Chapman.

No. 1. Mr. R. Burdett Smith.

Noes, 2

Mr. Brunker, Mr. Chapman.

And so it was resolved in the affirmative.

Paragraph 9 read and considered.

Amendment proposed (Mr. Smith) omit "unintelligible," in line 1. Question,—"That the word 'unintelligible' be omitted,"—put.

Ayes, 3 Mr. See, Mr. R. Burdett Smith, Mr. Gould.

And so it was resolved in the affirmative.

Motion made (Mr. See) and Question,—"That the paragraph as amended stand part of the Report,"—put

Ayes, 3. Mr. See, Mr. Chapman, Mr. Gould.

Noes, 2. Mr. R. Burdett Smith, Mr. Brunker.

And so it was resolved in the affirmative.

Motion made (Mr. See) and Question,—That the Draft Report as amended be the Report of the Committee,—put and passed.

Chairman to report to the House.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## MINUTES OF EVIDENCE

TAKEN BEFORE

#### THE SELECT COMMITTEE

ON

# THE PURCHASE BY THE GOVERNMENT OF LAND ADJOINING THE AUSTRALIAN STEAM NAV IGATION COMPANY'S WHARF.

#### THURSDAY, 6 OCTOBER, 1887.

#### Present : -

Mr. GOULD, Mr. MELVILLE, MR. ABIGAIL, Mr. BLACK, Mr. BRUNKER. Mr. SEE,

MR. R. BURDETT SMITH, Mr. BURDEKIŃ, MR. CHAPMAN, MR. STREET.

N. MELVILLE, Esq., in the Chair.

The Honorable Sir Henry Parkes, K.C.M.G., called in, sworn, and examined:-

1. Chairman.] Are you aware that the Government have purchased a piece of land near the A.S.N. Company's wharf? Yes.

2. Can you tell us about the date when this matter was first submitted to the Government? Yes; about three months ago the matter was initiated. The land was never submitted to the Government. Possibly the matter was initiated. The land was purchased at all.

2. I think the better was will be for you to size the Committee and his formation are non-large in your arm.

3. It hink the better way will be for you to give the Committee such information as you have in your own way? Soon after the formation of the Government, the question arose of our consenting to allow a portion of land, known as Dawes Point, to be set apart for a special purpose—that is, for the crection of what is called the Royal Naval Home. There were good reasons why we should have carried out this project. Our predecessors had assented to it, and, as a rule, a Government is always desirous of carrying out the arrangements of their predecessors, and we were also strongly in favour of the object, namely, the establishment of a Royal Naval Home. In considering that matter, and the inexpediency of alienating any portion of the land known as Dawes Point, the question arose as to whether the Government ought not, in the interests of the public, to acquire the whole of the foreshores of Sydney Cove, the Government having already the greater part. It appeared to us necessary, in the interests of the public, looking to the future growth of the commerce of the port, to acquire the whole of the foreshores of Sydney Cove; and in consequence of our taking that rions we decided—though it was rather a poinful decision the future growth of the commerce of the port, to acquire the whole of the foreshores of Sydney Cove; and in consequence of our taking that view we decided—though it was rather a painful decision to come to—not to confirm the action of our predecessors in granting this part of Dawes Point—to purchase the land known as the A.S.N. Company's wharf; but in considering that we naturally enough saw that we should not get the whole of the land unless we obtained the strip known formerly as Cunningham's land, which separated the A.S.N. Company's wharf from the land known as Dawes Point. It was at this time that I submitted the question to the Cabinet. No land had ever been submitted to us, except that the A.S.N. Company had offered to sell their land to the Government. It appeared to me, in submitting the matter to the Cabinet, that we should make a great mistake if we bought Campbell's wharf, for which the Company asked £300,000, unless we first secured this narrow strip of land. It 142-A

Sir struck me—and I know that my view was confirmed by very shrewd business men with whom I have spoken Henry Parkes, on the question since—that if we obtained the larger property and took no steps to secure the smaller one we should place the helders of that smaller and the same than the same that the same than the same t one we should place the holders of that smaller property in a position of great advantage in dealing with us, and that naturally they would ask a greater sum when they know we must have it. I explained that view to the Cabinet, and the Ministers concurred in the view I took of the position of things. At this time I did not know to whom the land belonged—I did not even know to whom I must apply to ascertain how it could be purchased—and I sent for Mr. Henry Gorman, of the firm of Hardie & Gorman, whom I had employed on other occasions for several years past, and in whose knowledge of business and in whose character I had great confidence, and instructed him to make inquiries as to who were the owners of this land adjoining Campbell's wharf, and to ascertain at what price it could be purchased. Mr. Gorman reported to me, by letter, that the land was in the hands of Messrs. Mills & Pile, and that the price asked for it was £81,000. I reported that to the Cabinet, and the result was that I was authorized to offer £29,000 for it. I offered that price, and it was accepted; and, so far as I am informed, I believe the Government made a good purchase, and that they would have failed in their duty, in view of other matters which I have explained, if they had not secured it. Here is a plan of the land. (Plan produced.) The land has a frontage to George-street, exclusive of the right-of-way of 100 feet, and it has a frontage to the water of Sydney Cove of 113 feet, and what appears to me to be a very moderate price, that is £150 a foot, would come to £31,450.

4. Mr Branker.] What is the depth? The depth from the street to the water is about 220 feet. Some

considerable time ago I was in conversation with Mr. James Ewen, Chairman of the A.S.N. Company was speaking of the other property, which was under offer to us, and he informed me that the land had been placed under offer to him for some considerable period at a sum of £22,100; and I have been informed that it never could have been purchased of late years for anything like the sum which has been stated. At all events, considering the circumstances in which we were placed, and wishing to complete the whole line of foreshore to Sydney Cove, I think we acted wisely, and took the right course in securing this land before we attempted to purchase the other land. We have now purchased the whole. It has been stated repeatedly in the Assembly that the A.S.N. Company's wharf would be cheap at £300,000. We have purchased the whole, the Company's wharf and Cunningham's land, for £304,000.

5. Chairman.] Had you any conversation with anyone outside the Cabinet before Mr. Gorman was instructed to see about the purchase of the land? No; I never had a conversation with anyone outside the Cabinet on the subject in my life. The whole matter arose with me in the way in which I have

simply stated.

6. What are the Committee to understand you to represent in the speech which you delivered in the Assembly with regard to this matter. According to Hansard you said, "It was represented to me by persons not connected with the Government, nor Members of this House, that it would be a mistake to negotiate for the purchase of the Australian Steam Navigation Company's wharf, and to leave this particular piece of land unacquired"—what is the meaning of that? It may be that I was alluding to conversations that I had after the purchase. I do not think there was any conversation between me and any person before the purchase, but after the purchase. I would not be quite sure about that, because it is very difficult to remember whether I had or had not. If I had I think it would be very innocent indeed.

7. Would you kindly look at the statement contained in Hansard—it has a distinct reference to a con-7. Would you kindly look at the statement contained in Hansard—it has a distinct reference to a conversation which took place previous to the purchase? That may be the case, or it may not. I did not go about to seek persons; but I did ask two or three individuals their opinion of the value of the land, and also whether we had not taken the right course in trying to secure that before offering any price for the

larger property.

8. Were those opinions sought after the purchase or before it? It may have been previously; I cannot be quite sure. Naturally enough it would be rather difficult for me to be quite correct, because it did not occur to me that I should be questioned about the matter. I sought to ascertain people's opinion on the

subject, and I may have done it previously.

9. Have you any objection to tell the Committee who were the persons with whom you consulted? I do not think I could recollect. I dare say I could in the course of time. They were persons whom I met

with accidentally. I dare say I shall recollect in the course of the day.

10. Will you look at the report of your speech. You will there find statements setting forth the reasons why certain things should be done? Yes; I gave very much the same reasons as I am giving now. I will read what I stated:—"It is right for me to put my case in my own way. With regard to the reason of for the purchase of this land, the Government considered that it was a proper thing to get possession of the whole of the water-frontage to Sydney Cove Questions were asked of me in this House at different times, and I stated that it was the intention of the Government to get possession of the whole of the water-frontage. These statements were always received apparently with the concurrence of Honorable Members. No objection or sign of objection was raised. It was represented to me by persons not connected with the Government, nor Members of this House, that it would be a mistake to negotiate for the purchase of the Australian Steam Navigation Company's wharf and to leave this particular piece of land unacquired. It was urged upon me that we ought to have the whole of the frontage to the deep waters, and that if we purchased the large property we should be likely to have a much higher price asked for this strip of land." That is exactly what I say now.

11. Did the conversation take place after the purchase of the land or before? I dare say some before

and some after.

12. Do you remember the names of any persons with whom you conversed on the subject? I cannot at this moment; I might make a mistake; but I should have no objection to give names if I recollected them. A great many things have occurred to me since then. I see a great number of persons connected with business in the city. I have no objection to give the names if I can recollect them accurately.

13. Was it not in consequence of representations made by these representations made by these representations made by these representations are also because of the process of the

13. Was it not in consequence of representations made by these persons, whose names are not at present fresh in your memory, and who you say are not Members of the Government or the Assembly,—was it not in consequence of their representations that you took steps to secure the land? Certainly not. I have explained what induced me to take this step; but naturally enough in conversation I ask anyone's opinion whose opinion I think of value, to see whether he agrees with me. If I had spoken to no one I

should have taken exactly the same steps.

14. During the time of the Administration of which you were Premier, and Sir John Robertson also a member, was the land offered to the Government? I do not think so; I do not remember it. I do not

think it came under my notice; still it may have been.

15. What department of the Government does the purchase of the land actually belong to? I consider that it is my province when we are acting in the interests of the whole Government to act on behalf of Henry Parkee, K.C.M.G. any department of the Government. I should not hesitate to do so.

any department of the Government. I should not hesulate 10 do so.

16. In the event of your not, as Premier, taking this matter into your own hands, what department 6 Oct., 1887. would have conducted the negotiations? No department could have negotiated without my consent.

17. In what sense—as a member of the Cabinet, or individually? Both.

18. With your consent, which department would do it? I cannot tell. I think in such a case we might have entrusted it to any Minister. It does not particularly belong to a Minister because he is called the Secretary for Lands or the Secretary for Works. In my opinion the proper person to do it was the head of the Government, who did it. head of the Government, who did it.

19. Have you the documents connected with the purchase? Yes, the documents are here, prepared to be laid on the table of the House. I refrained from laying them on the table simply on account of the appointment of this Committee; but I think the best way will be to lay them on the table of the House,

and move that they be referred to the Committee.

20. Before you sent for Mr. Gorman, was this a Cabinet matter? I have already said so. It was in consequence of the decision of the Cabinet to purchase the land that I sent for Mr. Gorman to ascertain who had the selling of the land. We knew nothing about it; we only knew the land was there, that in our judgment we ought to obtain it, and that we could not in any way get at it without employing an

21. Did it ever come to your knowledge that the land had been offered to the A.S.N. Company some

years ago? No; I know nothing about the land, except what I have told you.

22. What particular circumstance induced you to send for Mr. Gorman as a duly qualified person to negotiate the business? I look upon Mr. Gorman as a man of good standing in that way of business. I bought through him a very large estate, known as the Eveleigh Railway Station, a transaction which, I believe, no one has objected to, and I had employed him in several other cases. I had no reason to be, any way, dissatisfied with his ability or his integrity. Naturally enough, I preferred to go to him rather than to go to a transger of when I know nothing than to go to a stranger of whom I knew nothing.

23. As a matter of fact, then, this matter was discussed in the Cabinet before it was entrusted to Mr. Gorman? I have pointed out that I brought the matter before the Cabinet myself, and I pointed out why I brought it before the Cabinet, and I as clearly explained what I did as it is possible for me to

explain.

21. I wish merely to get back to the fact that the matter was discussed in the Cabinet. It is no use disguising from you that certain statements have been made in the Assembly with regard to some of your colleagues, and I want to ask you whether you remember all the members of the Cabinet being present when the subject was discussed? I think the whole were present; it is pretty well a rule with the present Government not to transact business unless all the members of the Cabinet are present.

25. Upon Mr. Gorman being commissioned to purchase the land his communication to you was as to who were the owners, and who had the right to sell? I have already stated that. I will read Mr. Gorman's

letter, if you like. This letter is addressed to the Colonial Secretary-

Sale Rooms, 133, Pitt-street, Sydney, 8 June, 1887. In accordance with your instructions we made inquiries respecting the property situate between the A.S.N. Co.'s wharf and Dawes Point.

We find the property in the hands of Messrs. Mills & Pile, and we enclose you their letter and a sketch plan, in which they offer it for Government purposes only at £31,000 (thirty-one thousand pounds), giving to the 13th instant for the Government to decide.

We await your instructions to form a contract for the purchase or otherwise.

We are, &c., HARDIE & GORMAN.

#### [Enclosure.]

Gentlemen,

Referring to your inquiry to-day as to a block of land in George-street North, adjoining the A.S.N. Co.'s property on the south and Dawes Battery on the north, we beg herewith to hand you a plan of the same. You will observe that the land has 75 feet frontage to George-street, to a lane at the rear, also showing the other portion adjoining Dawes Battery, extending to the waters of Port Jackson, to which it has a frontage of about 13 feet.

We beg to place the same under offer to you until noon on the 13th instant, as we understand, and solely under condition, that it is for the Government, for the sum of thirty-one thousand (£31,000) pounds.

We are, &c., MILLS & PILE.

property

Messrs. Hardie & Gorman, Auctioneers.

- 26. Upon the receipt of that latter, what steps did you take? I have already stated that I submitted the matter to the Cabinet, and the result was that I was authorized to purchase the land for £29,000.

  27. Who fixed the value at £29,000? I cannot tell—the Cabinet. It arose with some Minister, no doubt.
- 28. We want to be very clear upon the point—are we to understand that it was a resolution of the Cabinet? There are never any resolutions of the Cabinet. It was an agreement from which no one dissented, and therefore it was a decision of the Cabinet.
  29. But then what means did the Cabinet take to arrive at the £29,000 as its value? We did not take

any other than I have explained to you.

30. Did Mr. Gorman in any way communicate as to its value? No. I must state that I thought the price extremely high, but we must expect the full value to be asked under such circumstances, and we thought that we were justified in giving the price.

31. Mr. Black.] You mean that after the Cabinet had discussed the matter you considered it would be a reasonable thing to offer £29,000? Yes, in view of our wishing to purchase the other property.

32. Chairman.] Is it usual for a Cabinet to fix the price of property without calling in the assistance of their officers to ascertain the value? I do not know whether it is usual; but I know that it is a thing which the Government are quite competent to do, and in many cases we could do it better than our officers. We should not care to explain to our officers our whole policy. The purchase of the land cannot be well separated from our intention of securing the whole of the land fronting the waters of Sydney Cove. Sydney Cove.

33. What was the object in purchasing, instead of resuming, the land, as you had power to do? I expressed my opinion on the second reading of the Act, which empowers us to resume land, and I have expressed it on many occasions since, that that Act was never intended to be used to take away people's

Sir property where it can be secured in the ordinary manner. It is only justifiable, in my judgment, to put K.C.M.G. that Act in force when it is absolutely necessary to resume land. I think it is a great hardship to take people's property in any way but fair purchase, unless it is absolutely necessary to do it. That is an opinion which I have always held from the time that I introduced the Bill. It is not to be fallen back to be always held from the condition of the condition upon as an easy mode of wrenching from people their land, and I should not think of putting that Act in force unless other means failed, and I was compelled to do it.

34. Mr. Gould.] Were any steps taken to obtain a valuation? No. Suppose we had sought a valuation, and £15,000 had been put upon it, we should not have been deterred by that valuation, because 34. Mr. Gould.] Were any steps taken to obtain a valuation?

we were determined to have the land.

35. What if £50,000 had been asked for it;—would the Government then have thought it right to purchase the land without a valuation? You put a question to me which is an extreme one. It is not likely that we should. In my opinion the price asked for the land was the full value, but not an extortionate value, and that was the opinion of the Cabinet. I have pointed out that the land would come to more money at £150 a foot for the frontage—a very reasonable price.

36. Chairman.] I presume you cannot of your own knowledge say, or you do not remember, whether any member of the Cabinet had called attention to the fact that the land had been in the market for many member of the Cabinet had called attention to the fact that the land had been in the market for many years? No. We knew that the land had been sold, and had changed hands several times. I remember the land very well. I have known it all my life, because I happened to be acquainted with the original owner, Mr. Cunningham, many years ago. I knew every inch of the land, but I do not think that the other members of the Cabinet did. I regard it as an extremely valuable piece of property.

37. Mr. Gould ] Do you know the size of the A.S.N. Company's wharf? I cannot tell at this moment 38. Were there any improvements upon the land? Yes; there is a house upon it, I believe.

39. Nothing of any great value? I do not think so.

40. Mr. Brunker.] Have you any idea what the commercial value of the land is, apart from any use it may be to the Government? No. I have not: but I think that can be readily obtained from persons far

may be to the Government? No, I have not; but I think that can be readily obtained from persons far better qualified to give an opinion than I am.

41. Chairman.] After Mr. Gorman sent the letter to the Government, and before the price was fixed by the Cabinet, had you any conversation with Mr. Gorman as to the value of the land? No. I instructed Mr. Gorman to ascertain the ownership of the land, and at what price it could be obtained.

42. So that after the receipt of his letter you had no conversation with him as to the value of the land at

all? I do not think that I saw him personally about it.

43. Can you tell the Committee, on the purchase of the land, who was revealed as the then owner of the land—from whom did the Government actually purchase it? I do not think the owner was revealed at the time we agreed to purchase. I do not see it in this correspondence.

44. When the purchase was completed, who was the owner? I never knew who the owner was until the matter was put into the hands of the Crown Solicitor.

45. Who was the owner? Mr. Cliff. He has signed a receipt for the money; but I do not know Mr.

Cliff; I never saw him in my life.

46. Mr. See.] The whole transaction has been completed? It is, virtually; but, from respect to the Committee, I did not approve of the money being paid; but I must approve of it, and I think I shall approve of it to-day. I thought that as a Committee was appointed, out of respect to the Committee, I would not take any step until the Committee had met. I might as well say that I shall approve of the payment of the money to-day. I must pay it, and it is no use delaying the payment. We have purchased the land, and we are bound to pay the money.

the land, and we are bound to pay the money.

47. Mr. Brunker.] Was the land purchased through Mossrs. Mills & Pile? Yes.

48. And there was no valuation made before you concluded the purchase? No. We formed our own

opinion of the value, in view of what we had to do.

49. There are officers of the department whose duty it is to make valuations of property of this kind, are there not? Yes; but I do not think that there is any officer who can give a fair valuation, in view of all that we wish to do. If we had intended to purchase a piece of land without regard to any other object we should have been able to employ such an officer; but our operations were all of an extensive nature, and depended upon our getting this land.

50. Mr. Gould.] But, if a grossly excessive price were asked, would it not then be the duty of the Government to consider the propriety of resuming the land under the Act? If a grossly excessive price were asked we should not give it; but I have said that, in my judgment and in the judgment of the Cabinet, it was not a grossly excessive price.

51. Mr. Sec.] Do you think this land would be of any service for wharves, apart from the A.S.N Company's land? It would be no use giving an opinion of that sort, because the Government would never think of purchasing it apart from the A.S.N. Company's land.

52. But it never has been used in connection with the A.S.N. Company? They have never had possession of it. You must bear in mind it is to complete the Government possessions fronting the waters of

Sydney Cove.

53. Mr. Brunker.] The fact is, that having Dawes Point, and wishing to have the A.S.N. Company's wharf, you thought it the duty of the Government to purchase this frontage? Yes.

54. Mr. R. Burdett Smith.] It disconnects the two parts? It separates the two pieces. I do not think I should have consented to the purchase of the A.S.N. Company's wharf without having first obtained this land. Our chieft was to obtain the whole and it did not appear to me to be a question of £2,000 or Our object was to obtain the whole, and it did not appear to me to be a question of £2,000 or £3,000 in carrying out that object.

55. I understand you to say that the purchase of the land was effected before the negotiations for the A.S.N. Company's wharf? Certainly. I declined to entertain the idea of purchasing the A.S.N. Company's wharf until we had got this. I thought that if we purchased the larger property we should place the owners of the smaller property in a position of great advantage, as they would be able to demand a higher

56. Is there anything unusual in a Minister of the Crown bringing under the notice of the Cabinet any purchase of land, whether it relates to his Department or not? I should think not. Every set of men conduct their business in their own way.

57. It was the duty of the Minister to bring it under the notice of the Cabinet, I suppose, or at any rate not unusual? It could not be a penal offence for him to do so.

58. It is not unusual? I have never known Ministers to trouble much about pieces of land, unless they wanted

wanted them for some particular purpose. As a Cabinet, we consider it an object of high concern to the public, especially looking to the future, to secure the whole of these lands; and I have pointed out that we went through a painful business in refusing to confirm what was done by a previous Government with regard to Dawes Point regard to Dawes Point.

Sir 6 Oct., 1887.

59. Do you know that Mr. Isaac Josephson, the former owner, busied himself very much in endcavouring to preserve his rights to the water-frontage? I do not know anything about it.
60. You do not happen to know that? It may have come before me, and have been forgotten.
61. That he busied himself very much to preserve his right of frontage? If it ever came before me I do not preserve his right of frontage? not recollect it.

62. Mr. Brunker.] You said you received a communication giving you to the 13th of the month to con-

62. Mr. Brunker.] You said you received a communication giving you to the 13th of the month to consider the offer of the land? Yes.
63. You decided before that? No; we obtained a longer time. We considered the matter several times, and did not determine before that period. We appear to have determined two or three days after the 13th. The matter came before the Cabinet two or three times during that period.
64. Mr. See.] Before you concluded the purchase I understood you had in contemplation the purchasing of the A.S.N. Company's wharf? Yes; that had been offered in a formal way. It had been offered to we amonth on a rive weeks or two months before and we delayed toking any action to purchase it until this

us a month, or six weeks, or two months before, and we delayed taking any action to purchase it until this piece of ground was secured.

65. You said that if you had not purchased this piece of ground you would not have bought the A.S.N. Company's wharf? I did. It is plain enough that our object of securing the unbroken shores would

have been defeated if we had left a gap of this kind.

66. Was Mr. Gorman, who was employed as an agent, paid for his services? I have no doubt.

67. By the Government? I am not sure of that; I think probably not. I do not think it is a matter that would give me very much concern.

68. Mr. Brunker.] Would you know whether the negotiations were completed by Mr. Gorman or by the Government? I do not quite understand.

69. Did Mr. Gorman act as the agent of the Government? Certainly. We should not interfere in such a transaction.

70. But Messrs. Mills & Pile were the agents for the vendors? Yes; they never appeared to us; they appeared to Messrs. Hardie & Gorman. We should scarcely go to the trouble of interfering in a matter appeared to Messrs. Hardie & Gorman.

71. Mr. R. Burdett Smith.] You have heard rumours in the House. May I ask you whether you could say whether there is any foundation for the statements that you derived any pecuniary benefit from the sale of the land? I feel indignant at the question being put to me. How could I derive any advantage? I have heard statements made in the House, but here let me say that it is a new definition of rumour if these statements mean a rumour. I have never heard any rumour. I have heard statements made that there are rumours about the transaction, and it would not surprise me what rumours occurred, because I know well enough the disposition of people to put the worst construction on every human action, especially of persons who are entrusted with power, and it would not surprise me what rumours arose with regard to whether I made any profit out of this transaction. I have never heard anyone dare to say or suggest it.

72. Mr. Brunker.] The land referred to is included in the red mark on the plan. This only shows a frontage of 75 feet to George-street by a depth of 210 feet? It shows the hotel 25 feet.

73. Does that belong to it? Yes.

73. Does that belong to it? Yes.
74. Chairman.] No; it does not belong to it? Then that is an error of my own. Perhaps I had better make the statement here that when I spoke of the land having 100 feet frontage to George-street I made the mistake of supposing that the hotel called "Harbour View Hotel" belonged to the property. To that extent my former answer was in error. It is 75 feet instead of 100 feet frontage.
75. Is there any intention on the part of the Government to complete the George-street frontage? We really have had no intention to do anything of that sort. If the Committee would kindly recollect my former statement; it was, that our object in securing this piece of land was to complete the ownership by the Government of the land fronting Sydney Cove. They will then see why we purchased it, and it remains to be seen what we will do with the land. remains to be seen what we will do with the land.

76. Yes, but there remains 25 feet frontage to George-street. I ask whether the Government have any intention to complete this George-street frontage? We have no thought of it, and I do not think it is

necessary

77. May I ask whether the Government, in purchasing this frontage, were made aware of the fact that there was still a break in George-street? We never intended to have all the land fronting George-street. There is no break in our land fronting the waters of Sydney Cove.

78. When this purchase was being made of the water-frontages, were the Cabinet aware that a frontage of 25 feet to George-street was still left unpurchased? I do not suppose the existence of the hotel once entered into our minds. What we wanted was to purchase the land fronting the waters.
79. Mr. Brunker.] The fact is, the land was submitted as shown on the plan, and you purchased it? We agreed to purchase the land without seeing this plan, which I have tried to explain plainly enough. The land was never submitted to us. No one asked us to buy it. We had to employ an agent to inquire who the land helpoged to and how we could have it. who the land belonged to, and how we could buy it.

80. You knew the area? Only by a personal observation. We did not particularly know.

81. Mr. See. It was only after an offer of the land was made that you ascertained the area?

82. Is it intended to use it for wharfage purposes? It is rather too early to decide what we shall do with

the land, but we shall use it in all probability for extending the wharf.

83. Mr. R. Burdett Smith.] Mr. Gorman occupies one of the highest positions as an auctioneer, does he not? I have had a great many transactions with Mr. Gorman, extending over many years. I have employed him on behalf of the Government several times, and on some very large and important transactions I have employed him to sell property of my own, and I have always found him a man of intelligence, of high character, and of good business habits; I have never had any cause to be dissatisfied with his proceedings. I have found him a strictly honourable man, and a man who appeared to thoroughly understand his business. That was the reason why I employed him on this occasion.

84. Chairman, I would like to ask, do you remember whether Mr. Clarke was present on the occasion of

Sir 6 Oct., 1897.

the Cabinet fixing the amount of the purchase-money? I distinctly remember that he was present. I Henry Parkes, would like to add that I have already stated that we seldom transact business unless all the Members of K.C.M.G. the Cabinet are present.

85. Did Mr. Clarke advocate the purchase of this land in the Cabinet? I do not think Mr. Clarke took any part in the discussion. To the best of my recollection, he did not seem to take any particular interest in the matter. I do not remember him expressing an opinion on the subject. The opinion expressed was chiefly the opinion of the Colonial Treasurer.

86. Mr. See.] Was the Colonial Treasurer at this time a shareholder in the A.S.N. Company? I do not know whether he was or not - I know I was not.

know whether he was or not I know I was not.

87. Was he favourable to buying the property? Not very. To do Mr. Burns justice, or injustice, which you like, he is never very favourable to doing anything that takes money out of the Treasury.

88. Mr. R. Burdett Smith.] Do you happen to know that Mr. Burns sold all his shares in the A.S.N. Company, and ceased to have any interest whatever before the purchase? Well, as I was not a sleeping partner in his shares, I know nothing at all about it. I know nothing about his transactions in any way.

89. Do you not know that he sold them? I do not of my own knowledge; I have heard him say so.

90. Did you ever hear Mr. Burns say he had sold his shares at a great loss? No; I know nothing about Mr. Burns' private transactions.

Mr. Burns' private transactions.

91. Mr. Gould.] Was there any private conversation between you and the Members of the Cabinet about the purchase? I do not think I ever spoke about it except in Cabinet.

92. Mr. R. Burdett Smith.] Are you familiar with the area? I have known it for nearly forty years, and I regard it as well worth the money given for it, especially under the circumstances under which we bought it.

93. Mr. Gould. Do you recollect when it was first decided in Cabinet that negotiations should be opened? Early in June.

94. Were the instructions of Messrs, Hardie & Gorman verbally given? Yes; by me. I sent for Mr. Gorman and told him what I wanted. It is right that I should make this explanation. I wanted to purchase this property in the most advantageous way I could, and I refrained from giving my instructions in writing because the letter would have been open to all the clerks in Hardie & Gorman's office. In a and instruct him I should send for a person in whom I had confidence, tell him privately what I wanted, and instruct him to go the best way about it. I should not have written a letter to be registered in an office like Hardie & Gorman's, where every clerk could have access to it.

95. It appears that Messrs. Mills & Pile were aware whom Messrs. Hardie & Gorman were acting for? Well, I suspect it is so. They say in the letter that they offer the land for £31,000, solely on the condition that it is for the Government; but I do not attach much value to that statement. I imagine that they put that in to intimete that they would not sell to other persons for the money. Of course I do not

Of course I do not they put that in to intimate that they would not sell to other persons for the money.

96. Chairman.] I may explain that the reason why I am asking questions about Mr. Clarke is that his name has been mentioned in the matter, and any evidence with regard to him should now come out. May I ask now, seeing that Mr. Clarke was present at the Cabinet meeting, if you heard in the debates in the Assembly any charge against Mr. Clarke with regard to the purchase? I have heard what Mr. Burdett

Smith calls rumours, loud and noisy statements, in the Assembly.

97. Having heard these statements, did you take any steps? I did. I sent for Mr. Clarke the morning after, and as head of the Government asked him whether he had any transactions with the person who had the property for sale, whether he had any knowledge whatever about it, and he assured me on his word of honor that he had not anything to do with the property, and had never spoken to anyone on the subject; that he had not had any transactions with the person, who at this time had become known to be the owner of the property, for some years; that he was in no way concerned in the matter, nor had men-

tioned the property to any person.

98. Mr. See.] That he had had no transactions with Mr. Cliff for years? He told me so. He satisfied me that the statements about himself were without foundation. I took some other steps to ascertain something about the property, but I found it so troublesome that I gave the matter up, seeing that it did not concern me who had been the previous owner; nor did I think it concerned me if the property had been bought for £10.000 three months before. If it had been, and we could not buy it for less than £29,000, considering our object, I should are felt myself justified in giving £29,000 for it. I should are in no way contrary to the manner in which any men engaged in business would do when an important object was to be served.

object was to be served.

99. Had it come to your knowledge that the persons with whom the Government were then dealing for the land had not actually completed their purchase? No; my object was to get the land at a fair market price. It was no part of my business to higgle about the land in the name of the country.

100. Chairman.] Will you look at the statement made in this speech in Hansard, saying that you cannot give the names now; will you read the sentence there, and explain to the Committee what is meant by it: "I took no steps on my own responsibility; I represented to them what was represented to me, and they concurred in my opinion that it would be a prudent and wise course to acquire this property before even opening negotiations for the purchase of the larger one, in order that we might have the whole of the properties complete from Dawes Point round to Fort Macquarie." What I want to arrive at is this, were the representations there referred to made before the Cabinet, considered this matter? I have were the representations there referred to made before the Cabinet considered this matter? I have already told you. The matter at the time I made those remarks was fresher in my memory than it is now. I imagine that the representations I referred to had been made to me whilst the purchase was going on; some have been made since. When I have met with persons who have been capable of giving me a reliable opinion I have naturally enough asked them to do so, just as any man would desire to know

whether his judgment was confirmed by the opinion of other people.

101. What I wish to call your specific attention to is this, that you there state that in consequence of these representations you made certain representations to the Cabinet? I have no doubt I did.

102. Will you endeavour to remember some of the names of the persons to whom you spoke, and furnish them to the Committee? I do not know that I shall be justified in furnishing them. If I can recollect the names and obtain the consent of the parties possibly I may. If I ask a friend a question about a transaction I am responsible for the transaction, and if I say that he concurred in my view of the matter it cannot make my conduct any better or any worse. Upon reflection I do not know that I am justified in giving the names.

103.

103. That is tantamount to declining to reveal the names to the Committee? I have not done that.

104. I say do you decline? No; I do not promise to do it.

105. You are here under the authority of the Committee, who have power to make this demand? I am aware of that, and I am prepared for the Committee to take any course it thinks fit. I do not know why 6 Oct., 1887. I should be reminded of this.

Henry Parkes, K.C.M.G.

12 Oct., 1887.

106. You will not promise? No; I will not promise to reveal the names; I do not see how they can affect my evidence.

107. Mr. R. Burdett Smith.] Mr. Gorman regarded the price as a fair and reasonable one? I imagine that, as my agent, if he had thought it a high price it was his duty to report that to me.

108. Mr. Gould.] He was not asked, and volunteered no information? No; but I think it would be his duty to report his opinion to me if he thought it an unusual price. It was enough for me to submit the matter to the Cabinet, which, apart from its corporate capacity as the Government of the country, is composed of men as well fitted to form an opinion on the value of property as anyone else.

109. Mr. Brunker.] It seems that an opinion as to the value of the property is formed by the Government, and Mr. Gorman was instructed to buy? No; not at all. We instructed Mr. Gorman to ascertain from whom we could purchase the land, and the price. We had formed no opinion as to the value, but when the price was submitted we thought it an extreme value, and we finally offered £2,000 less, and we considered that we were justified in making that offer, considering what the land was, and how important it was to secure it before we negotiated for the larger property, and bearing in mind our decision to have the whole frontage to the waters of Sydney cove.

110. Mr. See.] Did it come under your own notice that the land had a very short time before that been sold? No. I have already stated that if it had been sold for £10,000 it would not have affected us in the position in which we were placed; but I do not believe that this land ever was offered for anything

of the sort.

111. You were not aware that it had been recently sold to Mr. Cliff? I have given evidence already that I did not know to whom it belonged-anything at all about it-and never heard of Mr. Cliff's name until a long time afterwards.

112. Mr. Brunker.] With reference to the value of the land, I notice here in a letter from Messrs. Hardie & Gorman, dated 15th June, complying with your instructions, the words "we submitted the offer of £29,000"? Yes; we offered £29,000 afterwards, but the price submitted to us was £31,000.

113. It was determined by the Government? Yes.

114. They said £31,000, and the Government offered £29,000? Yes; but I do not think that a fair way of putting it. We were responsible for the purchase, and did not think it necessary to call in any valuator. We did not act as assessors but determined to buy the land on our own responsibility.

tor. We did not act as assessors, but determined to buy the land on our own responsibility.

115. Mr. Gould.] At what you considered a fair price? Yes.

116. Mr. R. Burdett Smith ] And to your own knowledge the site is a most valuable one? I do not pretend to know particularly much about the value of land. It appeared to me an extreme price, but I thought that we were justified in giving an extreme price under the circumstances.

117. Mr. Gould.] Were steps taken to obtain the value of the A.S.N. Company's property? No; we acted in precisely the same way in that case. That is a reproductive property. It is now bringing in, I think, as much as  $5\frac{1}{5}$  per cent. on the money given for it. The tenancies, as long as we choose to continue

them, will bring in that amount, so that we had less hositation about that.

118. That is on the £275,000? On the £300,000. The A.S.N. Company's property was placed under offer to us by a letter from the Chairman or the Secretary at the sum of £300,000, and the rents received. other to us by a letter from the Chairman of the Secretary at the sum of £300,000, and the rents receivable by the Company, and of course they will be receivable by us, amount to  $5\frac{1}{2}$  per cent. interest on that. I am speaking now from recollection, and I am open to correction. We had, therefore, less hesitation about buying that property, seeing the object for which we bought it. We eventually bought it for £275,000. I have heard it stated repeatedly in Parliament, without any qualification, that the price at which it was offered was a very reasonable price, and I heard, amongst others, Mr. McElhone repeatedly say that it was a cheap property at £300,000. The result is that we bought the whole—the A S.N. Company's property and Cunningham's frontage—for £301,000.

119. Mr. Sec.] Are you aware that one of your principal tenants at the A.S.N. Company is likely to leave you soon? I do not know; but I apprehend that the property would not suffer very much supposing we

wanted tenants, but we did not buy it to let it.

120. But the rent which they pay goes to make up that  $5\frac{1}{2}$  per cent. interest? Yes; but I mention that only as a gauge of the value of the property; if it is worth that to private persons it must be worth it to the Government.

#### WEDNESDAY, 12 OOTOBER, 1887.

#### Present:-

Mr. ABIGAIL, Mr. BLACK, MR. BURDEKIN, MR. CHAPMAN,

MR. SEE, MR. R. BURDETT SMITH.

#### N. MELVILLE, Esq., IN THE CHAIR.

#### John William Cliff, Esq., called in, sworn, and examined:-

121. Chairman.] Are you aware of the nature of this inquiry? Yes; it is with regard to a certain piece J. W. Cliff, of land at the Circular Quay, 1 imagine. 122. Look at that document, and say whether that represents the piece of land in question.

Appendix A.]? Yes; that is it. [Vide]

123. On or about what date did you first commence negotiating for the land, and with whom?

early in June, about the first or second day in June, when I first saw Mr. Wrench about the land.

124. That is Mr. Wrench, of the firm of Richardson & Wrench? Yes. I knew that the land was in his hands for sale some eighteen months previously; they advertised it for sale by auction. I had that running in my mind at the time, and I went round and saw Mr. Wrench, and asked if he had it for sale, and he said yes.

Esq.

12 Oct., 1887.

J. W. Cliff, 125. What price did he ask for it? £200 a foot for the water frontage. That, you will find, is at the rate of £22,600 for the block.

126. Did you close with it? No; I asked if he would place it under offer to me for a time for £20,000, I think for a fortnight or three weeks. He could not do that at the time without consulting his principal. Two or three days after that I received the following letter from him, placing the land under offer to me for £20,000 :-

98, Pitt-street, Sydney, 6 June, 1887.

J. W. Cliff, Esq. Dear Sir.

Dear Sir.

We are authorised by the Trustees of the late Mr. Hanson's Estate to place under offer to you the right to purchase the block of land lying between the premises of the Australian Steam Navigation Company and Dawes Point (and of which a rough sketch accompanies this letter), for the lump sum of £20,000 (twenty thousand pounds), on the following terms, viz. :-£3,000 in cash on signing contract, a further payment of £3,000 in cash on completion of the conveyance, and the balance may remain secured upon the property by mortgage for a term of three years, bearing interest at the rate of 6 per cent. per annum, payable half-yearly, with power to pay off such mortgage at any time during its currency, with interest only to such date of payment.

This offer to remain in force until 12 o'clock noon on Thursday, the 16th June instant, Yours, &c.,

RICHARDSON & WRENCH.

127. Upon receipt of that letter what step did you take? I then went round to Messrs. Mills & Pile. 128. I would ask here, on receipt of that letter from Richardson & Wrench, did you go to them then? That is more than I can tell you; I do not think so.

129. Then you went to Messrs. Mills & Pile? Yes.
130. About what date? I think about the same date as the letter. My impression was that it was a cheap piece of land.

131. About the 6th June? I think that was the date.
132. What did you do when you went to Messrs. Mills & Pile? I asked Mr. Mills his valuation of the

property.

133. Did you get it in writing or verbally? Verbally.

134. What was it? From what he said I concluded the valuation was about £32,000.

135. Is it a usual thing to get verbal valuations of property of that kind? That was for my own guidance.

137. What step did you take then? I left it in his hands for sale.

138. Did you instruct him to offer it to any person or persons? No.
139. How long have you known that property? I have known it for the last seven or eight years. I was interested in the large property adjoining it, which was sold some two years or two years and a half

140. Near to it? Adjoining it.

141. That would be the A.S.N. Company's property? The George-street portion of the A.S.N. Company's

property.

142. Has it ever come to your knowledge that that property was offered to any other person in the city of Sydney?

No, only a rumour that I have seen in the papers.

143. Did you ever hear of it having been offered to the A.S.N. Company? No. I may mention that one day I met Mr. Dalton in the street after it had been mentioned in the House, and I asked if it was a fact that the land was offered to him for £7,500, and he said, no, but it had been offered for £11,500.

144. Had you any conversation with any one relative to the purchase of the property before you went to Messrs. Richardson & Wrench? No, unless it may have been with my partner, Mr. Vallack, but I do not think I even mentioned it to him.

145. What induced you to go and purchase this property? Well, the idea of making money.

146. Seeing you tell us you had no conversation with any person, and knowing the property some time before, what special knowledge caused you to go and make inquiries about the property? Well, the mere fact of wishing to make money. I could see money in it. It is not the first property of the kind I have had under offer, it is not an unusual thing.

147. Then the Committee are to understand distinctly that without any conversation with any person you

went to Messrs. Richardson & Wrench and inquired concerning this property? Yes.

148. Did I correctly understand you to say that you were aware that the property had been in the hands of Messrs. Richardson & Wrench for some time? I was under the impression that the property was advertised for sale by auction some time previously.

149. Do you know Mr. Gorman, of Messrs. Hardie & Gorman? Yes. 150. You are on good terms with him, I suppose? Yes. 151. He is an auctioneer, is he not? Yes.

152. Have you ever been jointly interested in the purchase of land or property with Mr. Gorman? Never.

153. Do you know Mr. William Clarke? Yes.154. You have been interested with Mr. Clarke in the purchase of property? Several properties years

155. How long ago? The last that we were interested in must have been five or six years ago.

156. If the statement has been made that Mr. Clarke is interested with you, or was interested with you, in the purchase of this property, either directly or indirectly, would that be true or untrue? Untrue. 157. You are quite sure you have had no conversation with Mr. Clarke about the property? Not a

word.

158. Are you on terms of friendship or intimate acquaintance with any other member of the administration besides Mr. Clarke? I know Mr. Inglis.

159. Any other member? No, I cannot say that I do.

160. Did you meet Mr. Inglis on or about this time? No.

161. Are you acquainted with the Under Secretary or with any of the chief clerks in the Colonial Secretary's Office? No.

162. I presume you read the papers? Yes.163. Did you at any time notice the Parliamentary reports in reference to this land? Oh yes.

164. Did you at any time observe in the Parliamentary reports any question asked with regard to the J. W. Cliff,

land? Well, I have read reports in the paper, but I could not tell you what they were or what they were not. I see a lot of reports, some of them very far from the truth.

165. And did you observe in the Parliamentary reports previous to your visiting Messrs. Richardson & Wrench any question with reference to the Government's intentions in respect to this land? I think I sec what you are driving at. I did see in the paper, the Herald I think it was, some little time previously apparently an authorized paragraph stating that Mr. Burns had resigned his seat on the A.S.N. Company's

Board—is that the paragraph you mean?

166. It is not; we will come to that directly. The paragraph I allude to is this:—A question was asked in Parliament whether it was the intention of the Government to resume the land at the Circular Quay, and an answer was given favourably to that question. Did you see that question and answer in the newspaper? Yes, I imagine so. I could not say that that was the exact wording of the thing, but something to that effect. It was pretty well known by everybody that the Government had some intention of resuming the A.S.N. Company's land.

167. Then you had that knowledge? Of course.

168. Did that knowledge influence you in going to purchase the land? No doubt it had some influence.
169. Had you not had that knowledge of the intentions of the Government to resume the A.S.N. Company's wharf would you have felt yourself justified in giving £20,000 for this land? Yes, I think I should.

170. To what use would you have put the land? I look upon it as a very valuable piece of land for several There are peculiar purposes, for wool stores especially, or any large bonded stores, or even for an hotel. advantages there for a store. You have the water level, which I suppose is 25 feet below the street level. 171. As a matter of fact the whole of the land is 25 feet below the street level, is it not? No; when you

get towards George-street it is higher.

172. What is the level there? I suppose there is a fall of 10 or 12 feet, then you run some little distance

and it drops again.

173. Would not that land have been more valuable to the A.S.N. Company than to a private individual?

That is their business, not mine.

174. In your opinion? I should have thought the A.S.N. Company would have secured it; it should have been a very valuable piece of property to them. Does it not look like being on a par with the

A.S.N Company's management altogether?

175. If that laud was offered for £7,500 to the A.S.N. Company four or five years ago, can you give the Committee any circumstances that have occurred to raise the value to £20,000? I should say that if it was offered to the A.S.N. Company for £7,500 there were two fools to the transaction, the man who offered it, and the man who refused to buy it; but I can mention a little circumstance with regard to land there which will throw some light upon the value of property in that place. Five or six years ago I

was interested in a block adjoining this for which we paid £25,000.

176. What was the extent of the land? 630 feet to George-street.

177. What was the depth? It ran from seventy to ninety or a hundred feet, varying depths. placed that land under offer some two or three years ago to a broker in town for £17,000, that was 580 feet of it, in the interval we had sold one block of 50 feet out of it.

178. Mr. Abigail.] What is the name of the broker? Mr. H. M. Mills. During the week he resold it That will give some idea of for £60,000, and the parties who own that land now want £90,000 for it. the increase in the value of property in that quarter.

179. Chairman.] Did you know that this special piece of land which the inquiry is about was for sale at that time? No, I did not.

180. Did you sign any documents at Messrs. Richardson & Wrench's office? The ordinary contract note. 181. Have they got it? I suppose so.

182. Then your position with regard to this piece of land was this: it was under offer to you for ten days without any money having been paid upon it? Exactly.

183. Was it during the ten days that the land was under offer to you without your having paid any money upon it that the land was sold to the Government? Yes.

184. Then, as a matter of fact, the Government purchased the land from you before you paid a shilling for it? Yes; the land was mine for ten days.

185. Mr. Abigail.] Was the same principle adopted in connection with those transactions in which the amounts were £47,000 and £60,000? Yes, the same principle.

186. Mr. Burdekin.] As a matter of principle, is it a common thing to deal with land in that way? Yes. 187. It is a course followed frequently by men of business? Yes, frequently.

188. Chairman.] What price did you put on the land when you placed the matter in the hands of Messrs. Mills & Pile? £31,000.

189. Have you any interest in the Anglo-Australian Building and Investment Society? Has that anything to do with this matter?

190. I ask the question. You must not argue with any of the Committee. Is it a question I am bound

191. Yes. Have you any interest in that society? I am a shareholder.
192. Is Mr. Gorman interested in it? Yes; he is a director, I think he is chairman of the directors.

193. Has this property in any way come under the notice of that society? Not through me.
194. You are not on the Board? No; I have only been a shareholder within the last month or six weeks

for a period of some two years.

195. There was a lapse of two years? Yes.

196. Have you and Mr. Gorman had any conversation with regard to the land purchased by that society? Well, I do not see that that has anything to do with the matter. I decline to answer such a question.

197. Mr. Abigail. I should like to ask a question. Have you had any conversation about this particular piece of land? No.

198. You do not decline to answer questions about this piece of land? No.

199. Chairman.] You have a good knowledge of city property? I have a fair knowledge. 200. Have you ever been in Mr. Gorman's auction room? Yes.

201. Have you ever noticed in his auction room a plan of the City of Sydney and the harbour? I could

142-B 202. 12 Oct., 1887.

J. W. Cliff, 202. Did you have any conversation with Mr. Gorman about this property which you tell us was sold for £60,000? Mr. Gorman was the individual who sold it to us originally.

203. Did any conversation take place at that time with Mr. Gorman about this piece of land adjoining that which he sold you? I do not think so.

204. Arc Messrs. Mills & Pile your general agents in land matters? Any of them are my agents; I have no particular agents.

205. What object had you in going to Messrs. Mills & Pile in preference to Messrs. Hardie & Gorman?

That is simply a matter of policy as between one man and another.

203. When you placed the land in the hands of Messrs. Mills & Pile what were the instructions you gave them with regard to it? No particular instructions. 207. None whatever? No, none.

208. Were they to sell it at auction? No.

209. Were they to advertise it to be sold privately? No; I thought it was a very good thing to sell for a syndicate.

210. Does it not strike you as something singular that a piece of land of this value should remain so long without being taken up by a syndicate? That has nothing to do with me.

211. But does it not strike you as somewhat singular that that course should not have been pursued previously? That has nothing to do with me, it is no business of mine.

212. Had you any conversation with Mr. Gorman about the land since it was sold? No.

213. After you placed the land in the hands of Messrs. Mills & Pile had you any conversation with any one about it? No, only with Mr. Mills.
214. Anybody else? No.
215. What date did you first get an intimation that Messrs. Mills & Pile had an offer for the land? Very

shortly after I placed it in Mr. Mills' hands.

216. You say you placed it in his hands on June 6? Yes; there is not much time between the 6th and

217. About what time did Mr. Mills inform you that the transaction was about to take place? The following day, the 7th.

218. Did he say someone wished to buy the property? He asked me if he should place the land under offer to the Government for £31,000 for so many days, I think it was five or seven days.

219. To which you consented? To the Government only.

220. Why to the Government only? Well, it struck me that I could possibly get a better thing out of it.

221. Had you never told him to sell it for £31,000? Not definitely, there was no definite arrangement; I went round to see him to get his idea of the value of the land. It appears that Mr. Gorman had seen Mr. Mills and made some overtures to him for the purchase.

222. That is before you had actually placed a selling price on the land Mr. Mills had an offer for it? No.

222. That is before you had actually placed a selling price on the land Mr. Mills had an offer for it? No,

he had not had an offer.

223. What had he had then? He asked me if I would place the land under offer to the Government. 224. Did he tell you he had had an offer? He said Mr. Gorman had seen him and made overtures for the purchase of the property for the Government.

225. Then as a matter of fact you would not have taken £31,000 from a private individual for that land at that time? I do not say so.

226. Then why were the Government only mentioned in the matter? I would not have sold it to anyone else but the Government at that particular time

227. As a matter of fact you would not have sold it to a private individual for £31,000 at that time. No,

228. Then why did you consent to sell it to the Government for £31,000? I was content.

229. What is the difference between money from the Government and money from a private individual? That is my business.

230. I beg your pardon; you are here to tell us certain matters. I ask you why you were willing to sell it to the Government for £31,000, and not to a private individual? Because it happened to be my

particular fancy.

231. Is that the only answer you can give to that question? Yes.

232. Will you explain to the Committee why, after declining to sell the property to a private individual for £31,000, because it was your fancy, you accepted £29,000 for it from the Government? It answered my purpose. Some days clapsed between the one and the other.

233. You tell us that the land was under offer to you for ten days? Yes.
234. And on the 7th June you were informed that the Government wanted to purchase the land, and you consented to offer the land to the Government on the 7th June for £31,000? Yes.

235. Can you tell whether Messrs. Mills & Pile wrote to Messrs. Hardie & Gorman on the 10th June,

extending the time? A request was made by Mr. Gorman that the time should be extended.

236. Was it a written or a verbal request? I do not know.

237. Do you know whether at that time any offer had been made to Messrs. Mills & Pile of a less sum than £31,000? Certainly not.

238. It is singular that you would not sell to a private individual for £31,000. Can you explain to the Committee why, upon the receipt of the Government offer of £29,000, you immediately accepted it? I had some days to think of it then.

239. Would you have taken £29,000 from a private individual? Yes.

240. What caused you to change your mind as to the value of the land, what knowledge had you become

possessed of? None, only it was a very good profit to make.

241. And the land was as valuable when you accepted the £29,000 as when you purchased it? Exactly.

242. Did all this transaction go on without your consulting anyone or taking the advice of any person?  $\mathbf{Yes}$ 

243. Did you have any conversation with Mr. Mills about it at the time you have spoken of? I could not

tell you. No doubt I consulted Mr. Mills as to the price I would take. It is very natural.

244. Now, you are a business man, you have had a great many land transactions, did you enter into conversation with Mr. Mills as to the value of the land and especially as to accepting a smaller sum from the Government? I am pretty sure that Mr. Mills advised me to take the £29,000.

245

245. Then the Committee are to understand that after a conversation with Mr. Mills as to the value, you J. W. Cliff, consented to accept the lesser amount? Exactly.

246. Did he say anything about the land having been offered to anyone else? No.

247. Who is this gentleman to whom you have authorised the payment of the money? Mr. Way, he is 12 Oct., 1887. my solicitor.

248. Has the money been paid yet? Yes.249. Have you received it? Yes.

250. Has any other person an interest in the money besides yourself? Yes.
251. Who are they? Mr. Edmund Taylor and Mr. Vallack.
252. Had you any conversation with Mr. Taylor or Mr. Vallack about the acceptance of the lesser sum

from the Government? I should think it is very possible that I had.

253. I should like to remind you that a few minutes ago you seemed to be very doubtful about ever having any conversation with anyone about it; did you have conversation with either or both of them on the subject? I think it is very possible that I had a conversation with the two of them on the subject, I could not say positively.

254. Had you any conversation with those two gentlemen before you went about the purchase of this

land? No.

255. No conversation with them? None.
256. To what amount are they interested in the purchase? They are equally interested with myself.

257. Then after you had the land placed under offer to you by letter you did not see these two gentlemen or either of them? I see them every day, several times a day.
258. Did you see them on 6th June? I have not the slightest doubt.

259. I want you to be definite? I cannot be more definite than that, I see them every day.
260. I desire you to be definite. When you received this letter of Messrs Richardson & Wrench did you speak to Mr. Vallack on the subject? I have not the slightest doubt that I did.
261. Was it on the 6th June? I have not the slightest doubt that I did on the 6th June.
262. Did you have any conversation with him as to his third share? No

262 Did you have any conversation with him as to his third share? No.
263. Did you consult with Mr. Taylor as to his third share? I do not think that I did.
264. Did you on the 7th June? I cannot swear to dates like that—possibly.

265. When you saw Mr. Taylor and Mr. Vallack on the 6th, 7th, or 8th June, what conversation took place relative to the land? Really that is more than 1 can tell you.

266. What was the conversation that took place with Mr. Taylor and Mr. Vallack in reference to the land and the letter? That has nothing to do with the purchase of this land by the Government.

267. Do you decline to tell the Committee how and by what means Mr. Vallack and Mr. Taylor became responsible for the part payment of the £20,000? Decidedly.

268. You decline to tell? Decidedly.

269. Did you have any conversation with Mr. Taylor or Mr. Vallack before you purchased that land? That has nothing to do with the matter, and I decline to answer the question.

That has nothing to do with the matter, and I decline to answer the question.

270. What was the date when you signed the contract note? I could not tell you. It was within the

ten days.

271. Can you tell the Committee when the money was paid to Messrs. Richardson & Wrench for the land? The £3,000 deposit was paid at the time of signing the contract note.
272. Can you tell us what date? Between that date and the 16th.
273. Was that £3,000 deposit paid before the land was under offer to the Government, or whilst it was

under offer to the Government? The £3,000 deposit was not paid until I completed the contract with Messrs. Richardson & Wrench.

274. I must put that question again. Was the £3,000 paid to Messrs. Richardson & Wrench before the land or after the land was under offer to the Government? After the land was sold to the Govern-274. I must put that question again. You will see I had only ten days in which to complete the transaction.

275. You had ten days—that was up to the 16th, and the land was placed under offer to the Government up to the 13th, on the first occasion; but, according to the letter, the period was extended to the 15th? The correspondence between Messrs. Hardie & Gorman and Messrs. Mills & Pile gives all the particulars. It was all done through Messrs. Mills & Pile.

276. To the best of your knowledge it was after the 14th June that you went and paid Messrs. Richardson & Wrench? Decidedly.

277. Now, before you went and paid Messrs. Richardson & Wrench the money, had you any conversation with Mr. Taylor or Mr. Vallack about the money? That is rather an awkward question. Taylor and Mr. Vallack every day.

278. Had you any conversation about this transaction? That I could not tell you. I have no doubt some conversation would ensue. The thing was left entirely in my hands to do as I liked.
279. Who left it in your hands? Mr. Taylor and Mr. Vallack.
280. When did they leave it in your hands? What is that to you.
281. When did they leave it in your hands? The thing was in my hands from its inception to the finish.

282 They left it in your hands and were aware of your intention to purchase the property? to do it

283. Did Mr. Taylor or Mr. Vallack suggest to you to go and purchase the property? No.

284. Did they call attention to the statements made in Parliament in reference to this property? No; I

285. Did you call their attention to it? I should not think so. I may have done; I could not say. 286. Had you not in the public print had some intimation that the Government were about to purchase the A.S.N. Company's wharf, would you have purchased that land? That is a very peculiar question to put to anyone.

287. I ask you had you not seen in the public prints the intention of the Government to purchase the A.S.N. Company's wharf would you have purchased the land? That I cannot say definitely.
288. Had not the Government entered into negotiations with you within the time given by Messrs.

Richardson & Wrench for you to complete your purchase, would you have completed that transaction?

289. Then I am clearly and distinctly to understand that had there been no offer on the part of the Government to purchase the land, you had full authority on the part of Mr. Vallack and Mr. Taylor to conclude the purchase? I should have purchased the land.

J. W. Cliff, 29 ). Did you instruct Messrs. Mills & Pile to extend the time that it was under offer to the Government? Esq. No doubt I did. Messrs. Mills & Pile would not extend the time without my sanction. 291. Have you made any offer to obtain the property with the hotel on it, and having 25 feet frontage?

12 Oct., 1887. Yes, I applied for that.

292. Before this was sold to the Government? Yes.

293. What was asked for that property? I could not get it under offer.

294. There is a lane 20 feet wide shown on the plan, is there any connection with that lane from the property? I think there is a road to the back from the A.S.N. Company which, I think, reaches it. That frontage to George-street was sold on the understanding that there would be a road to the back.

295. Have the owners of the land a right over the right-of-way as shown on the plan? Yes; I think

you will find that in the contract.

296. Mr. Abigail.] I want to ask in a very definite form did you receive any information from any member of the Government or any civil servant that induced you to enter into negotiations in connection with this purchase? No, none whatever.

297. How long is it since Mr. Clarke has had any land transactions with you? It must be five years ago;

it may be six.

298. You are a man who has had large speculations in land? Yes.
299. I suppose you are always ready to make a purchase if you see anything in it? Yes.

300. And when you opened up negotiations you thought there was a very good thing in it? Yes.
301. Did you think when you commenced these negotiations that this was a very good speculation?

Decidedly. I thought the property was cheap for £20,000.

302. Is it the custom in opening up negotiations for a purchaser to adopt the plan you have adopted in this case, namely, to get the land under offer and effect a sale as you evidently did in this instance?

Yes, it has been done frequently.

303. Do you say that if no negotiations had been opened up with the Government you would have purchased the land as a speculation? I should most decidedly have purchased it. I should like to explain a little about that land. There is a depth of about 400 feet from George-street, 113 feet frontage to the water. That frontage to the water, independently of the George-street frontage, I valued at £200 a foot for my own guidance.

304. Chairman.] The depth is only 210 feet? Well, take it that way. Y and I valued that at £200 a foot. The George-street is worth £100 a foot.

Well, take it that way. You have the reclaiming right,

305. When you opened up negotiations for the purchase of the property did you know of your own knowledge that the Government would be a purchaser? No, decidedly not

306. The statement has been made in Parliament that there is no doubt that Mr. Clarke is up to his

neck in that transaction; is that statement true? It is not,—perfectly untrue.

307. Is it true that Messrs. Richardson & Wrench wrote to you about the property and advised you that the Government were going to buy Campbell's wharf, and would be compelled to purchase this property? No, I am sure they did not.

308. Mr. Burdekin.] In land transactions is it usual for men in business buying property to be sure that they have a purchaser before they pay a deposit, and virtually to sell the land? Yes; I know it has

been done.

309. In your experience it is frequently done? Yes, it is frequently done.

309. In your experience it is frequently done? Yes, it is frequently done.

310. Mr. Sec.] I understood you to say that you had no idea the Government intended to buy the land, but you opened up negotiations for the purchase, and the very next day you had an inquiry about it? Yes.

311. On the 7th, you had an inquiry? Yes.

312. And it was placed under offer for ten days? Yes.

313. And after the negotiations you concluded the purchase from Messrs. Richardson & Wrench? Yes.

314. That is not the usual thing? It is usual to get the land under offer for a given time.

315. Does that letter bind them? It is as binding as anything you can possibly get.

316. Could Messrs. Richardson & Wrench not have withdrawn the offer within ten days? No.

316. Could Messrs. Richardson & Wrench not have withdrawn the offer within ten days? No.

317. Did you ever have any idea of buying the land before the negotiations took place on this occasion?

I had no idea of purchasing the land for some three or four weeks before.

318. Did you know that it was for sale for any given time before the negotiations when you were interested in the land you spoke of as being so much enhanced in value and fronting George-street, did you know then that the land was for sale? No; if I had I should have purchased it. I had no idea that it was for sale.

It was for sale.

319. It simply occurred to you in the way you say. There were reports in the newspapers to the effect that the Government would probably resume Campbell's wharf? It was a good enough thing for me if the Government had not purchased it. Suppose that the Government resumed the A.S.N. Company's wharf, the adjoining property was quite good enough for me as a speculation.

320. Is it a suitable site for a wharf? It is a good one for many things.

321. Is it good for a wharf? Yes.

322. What depth of water is there? I could not tell. If you go out to same extent as the A.S.N. Company have done you would get into deep water, but apart from that it is a very good block of land for a free or bonded store or wool store.

for a free or bonded store or wool store.

323. Was Mr. Taylor a partner of yours? No; we are interested in many transactions, and have been for some time past working together.

324. Mr. R. Burdett Smith.] Who was interested with you in the other piece of property which you purchased in George-street some years ago? Mr. John Wilson, Mr. Vallack, and Mr. William Clark.

324. Mr. R. Burdett Smith.] Who was interested with you in the other piece of property which you purchased in George-street some years ago? Mr. John Wilson, Mr. Vallack, and Mr. William Clark. 325. That occurred some years ago? Yes.
326. And your interests have ceased? Yes; we sold between two and three years ago.
327. Mr. Black.] Previously to your going to Messrs. Richardson & Wrench had you received any information from Mr. Vallack, or Mr. Taylor, or anyone outside the Government, that the Government would be likely to purchase or resume that land? No.
328. Mr. See.] Had you any conversation with Mr. Gorman about the property before the conclusion of the sale? Not a word.

329. Neither directly or indirectly? Not a word of any description.

330.

Note (on revision):—This is substantially correct with exception of answers with regard to conversation with Mr. Corman, and on thinking the matter well over, I now remember that a few words did transpire, but they are of very little moment. If required, I shall be pleased to give the Committee the information.—J.W.C.

330. Or with anyone else in the office? No.

331. Mr. R. Burdett Smith.] I believe it was a matter of notoriety that the Government intended to purchase the A.S.N. Company's wharf? Yes, it was.

332. It had been for some time? Yes, for some weeks. There was no secret about it. It was open to

other people to purchase the land as well as myself.

J. W. Cliff. Esq. 12 Oct.,1887.

I, J,

Josephson. Esq.

#### Isaac John Josephson, Esq., called in, swern, and examined:-

333. Chairman.] Are you aware of the nature of the inquiry the Committee is holding? Yes; it has refer-

ence to a piece of land with a water frontage near Circular Quay.

334. Will you see if you recognize on this plan the piece of land in question (Vide Appendix A.)? Yes;

that is the piece of land.

335. What interest had you in that land? In right of my wife I claim one-sixth. It belonged to my wife's father, and at his death the property was divided amongst the children.

336. In what capacity have you acted in regard to it—have you acted as agent? No. For over twenty years I acted as trustee in conjunction with Mr. G. W. Graham, who is now dead. Since he died I have been sole trustee.

337. Have you at any time endeavoured to effect a sale of this land? Yes; about eight or nine years ago we put it and some other property into the hands of Messrs. Richardson & Wrench for sile, with certain reservations. Nothing was sold.
338. This is part of that estate? Yes

339. On that occasion nothing was sold? No.

340. Are you aware of that land at any time having been offered for sale subsequently? Yes; it was officed for £10,000 to the A.S.N. Company after they had purchased their land.

341. What was the result? It was not sold. They only offered us £8,000 for it.

342. Can you fix the number of years since that was? I should say it was soon after the wharf was

completed.

343. Mr. See.] Eight or nine years ago? Not so long as that, because the company wished to enclose our water by making their wharf across our land to Dawes Point, and we stopped that.

341. Did the company make you any offer for the use of the foreshore? No. 345. Then have you had any other offer for the land? No; it has never been offered by me or by Mr. Graham cither.

346. Except to the A.S.N. Company? No. We said, "If we cannot get our price now we will keep it until we can.

347. About what date? I suppose it is more than eight or nine years ago. It must be more, because it was before Dr. Hanson went to England, and that was more than seven years ago

348. Chairman.] This property has been in the hands of Messrs. Richardson and Wrench for sale all this

time? Not without our sanction. They could not sell it without our permission.

349. But it was in their hands for sale as agents, was it not? No; none of the Hanson's estate was in the hands of Messrs. Richardson & Wrench for positive sale without submitting proposal.

350. Mr. See.] Has the land been for sale at any time since it was offered for public auction? We have

had several after it; we have had several offers.

351. What offers? They wanted to know what price I wanted for it, and I said £10,000; but that was not within the last five years.

352. Have you had any offers for the land within the last five years? None to my knowledge.
353. Who were the persons who came after it? Well, I think a person named Baldwin, an agent, came,

and I think he was about the only one.

354. When was this piece of land placed in Messrs. Richardson & Wrench's hands to effect a sale-354. When was this piece of land placed in Messrs. Richardson & Wrench's hands to effect a sale—recently? The first time it was placed in their hands for sale was about last March, when I received a letter from Mr. Wrench, asking me to go down and see him as he had got a purchaser. I went to see him and he said "I have a purchaser for the land, what is your price;" "I said £200 a foot for the water frontage, George-street frontage given in." "Mr. Wrench asked how long I would leave it open, and I replied ten or fourteen days. He said, "then leave it open," and I did so. In the mean time I got a letter from Wrench stating that the purchaser would not take it at that price. I did not ask who the purchaser was. Two or three months after I got another letter from Mr. Wrench, asking me to go and see him. I went down, and he said, "What is your price for the land now?" I said "The same as before, £200 a foot for the water frontage. George-street frontage given in."

water frontage, George-street frontage given in."

355. Mr. R. Burdett Smith.] What would that amount to? £22,600.

356. He said "How long will you let it remain open?" I said "About a week or ten days." I think that was in the beginning of June. A little time afterwards I received another note from Mr. Wrench, saying that he had got another purchaser. He said, "I have submitted your offer, but the gentleman does not feel inclined to give £200 a foot for the land." I asked what he could get. He said, "I think I could get you £20,000 cash," and I said, "I will take it." Mr. Wrench said, "Will you name your terms." I said, "Yes, £6,000 down, and £14,000 for three years at 6 per cent." He said, "I contract then," and I said, "Yes." I saw Mr. Wrench afterwards, and he said they would pay £3,000 as a denosit, and he saked me to send an electron. as a deposit, and he asked me to send an abstract. I sent all the papers down then to Messrs. Stephen, Lawrence, & Jacques, so that they might furnish them with the abstract.

357. What was the date? The contract was signed about the 15th June. I think I placed it in their

hands about the 6th.

358. Was it after the 6th June that you agreed to the terms, or when the contract was drawn up? I agreed to the terms before the contract was drawn up, of course. On the 6th June I received a letter from Messrs. Richardson & Wrench, asking me to call and see them.

359. On that day what occurred? Nothing, except that I told them the price.

360. Was nothing said about terms? No, not until afterwards.

361. How long? Some few days.

I. J. Josephson, Esq. 332. If Messrs. Richardson & Wrench offered that property on certain terms on the 6th June that was before you had arranged the terms with them? It was before I had arranged the terms with them. It may have been on the date mentioned in the letter. I recollect that I had a second interview with Mr. Wrench, when he proposed the terms.

363. Did he reveal to you who the purchaser was? Not until after the contract was signed. I did not

ask him.

364. Have you any knowledge of this ground having been offered to the A.S.N. Company recently for £22,000? No; I never heard of it. No; I never heard of it.

365. Then if it has been it has been done without your consent or knowledge? I know to whom the first

offer was made, but it was declined. That was about March. It was offered to Mr. James Ewen.

366. Do you know whether they made any offer? All I know is that it was declined.

367. Do you know Mr. Cliff? I have known him for a long time, but not intimately.

368. He has had no conversation with you about the property? Not the slightest. I did not know who was the purchaser until after the contract was signed. I asked Mr. Wrench who was the purchaser and he said Mr. Cliff.

369. Did he say anything upon the contract having been signed about the Government having purchased the land? Not a word.

370. Did you know that the Government had purchased it? I did not know anything until I heard rumours. I did not know that Mr. Cliff had purchased the land to sell it to the Government. It was immaterial to me as I had got my price.

371. What induced you to accept £2,600 less than the value you had put upon the land? take the price considering that the land was bringing in nothing. I had to look after the interests of the estate. I thought it better to get £1,200 a year instead of £100. It had been lying idle for the last 40 years, bringing in comparatively nothing. My impression is that if the land is wanted for any specific purpose it is worth £500 a foot; I do not think it is possible to put a proper appreciation on the value for anyone who wants it. You cannot get another piece of land like it in the whole city.

372. Is it true that the property had been hawked about for years, and that no one would buy it because it was inaccessible? No. One gentleman pooh-poohed it, but would have been glad to have it. That was

Mr. J. C. Neale.

373. Is it true that you have boasted about the enormous price you have obtained? No, why should I boast about it? I was glad that I got it. People have said that I was very fortunate in getting such a

price.

374. Mr. R. Burdett Smith.] At the time of the purchase of Campbell's wharf by the A.S.N. Company did you not attach great value to the property? Yes; I knew that that would increase the value of it.

375. How long is that ago? Eight or nine years.

376. Do you remember in conjunction with your co-trustee, Mr. G. W. Graham, presenting a petition to Parliament for the preservation of your water frontage? No; we wrote to the Government relative to preventing the A.S.N. Company from carrying their wharf across our water, and they were stopped.

377. At that time you asserted your rights? Decidedly, inasmuch as we had fulfilled the conditions under which we were told we could have the water. There was a slip, and the "Sarah Pine" had been will and launched there.

built and launched there.

378. Did you present a petition? No; we wrote to the Government.

379. And you were alive to your interest in regard to the water frontage as being very valuable? Yes, and I have stated I considered it a piece of land for which anyone who wanted it would have to pay a fancy price.
380. Has it increased in value owing to the proximity of the A.S.N. Company's wharf? Yes, and owing

to the general rise in the value of land.

381. Do you think the price given by the Government a very high one? I do not, because I think it is of greater value to the Government than to anybody else, to complete their property.

382. You do not think it an excessive price? No; but I do not think it would be worth that to anybody

else, unless they had some specific purpose for it.

383. You have known the property for many years? I have, for the last fifty years. 384. You are a large landed proprietor? Yes.

385. And you know the value of property about Sydney? Yes, I do; I have had a great deal of experience in auctioneering.

386. Mr. Sec.] Was the land for sale after you had offered it to the A.S.N. Company and they had refused it—would you have sold from that time up to the time you accepted Mr. Cliff's offer? No; I would not during the last five years at a lower price than I have obtained.

387. It did not occur to you that the Government would be likely to buy the land? No.

388. If they had come to you would you have asked them the same amount as you asked Mr. Cliff? Yes; I considered that as the property was bringing in nothing we should take £20,000 for it. We were not in a position to improve it.

389. Mr. R. Burdett Smith.] You never saw Mr. William Clarke on the subject? No.

390. And never had any communication with him? No; I communicated with no one but Messrs. Richardson & Wrench.

391. Mr. Sec.] What depth of water is there at the front? It is very shallow, you can take skiffs up at high water; but it is a good depth at the end of the Company's wharf.
392. What is it used for? Boat building.
393. Who are the boat builders? Mr. Macbeath and Mr. Frank Ward. They build and let boats out

on hire.

394. What use can the land be put to? I think it will be valuable for two things—first, for gasworks, and secondly, it affords facilities for putting up the handiest slip in the world, 395. Do you think it can be made available for wharfage purposes without much expense? Yes. Large

steamers go alongside the northern wharf of the Company now, and that is our southernmost boundary I think that the land could be made very valuable by carrying out a wharf to the same depth. The depth of the property from George-street would then be about 500 feet.

396. Mr. Burdekin.] And the Government arc only paying for 200 feet? The jetties have to be built.

I am surprised that the Gas Company has not attempted to get this piece of land, as it is the only piece

T. I Josephson, Esq.

12 Oct., 1887.

available in that locality. I think that it is a most invaluable piece of land for anyone that requires it for any special purpose. They could not give too much for it.

397. There have not been many inquiries for it during the last few years? None that I am aware of.
398. You had no negotiation from the time you offered it to the A.S.N. Company and Mr. Ewen until 12 Oct., 1887.

you sold it to Mr. Cliff? No. If it was offered between those times, it was offered without my knowledge.

399. The proceedings did not become ripe enough for the auctioneer to submit any offer to you, at any rate? No.

400. Chairman.] Messrs. Richardson & Wrench may have had offers of which you had no knowledge? Yes.

401. Mr. Abigail.] Did you leave the property in their hands from the time you state, many years ago, until recently? No; any offer which they received they would have to submit to me. 402. Mr. Black.] Do Messrs. Richardson & Wrench act for you? Yes. 403. And if they had an offer they must come to you? Yes; they came and told me that they had an offer. If Mr. Wrench had had carte blanche he could have sold without sending to me at all.

401. Mr. Chapman.] Have you any reason to believe that any member of the Government had anything to do with the purchase of the land? I know nothing about the transaction. My only dealings were with Mr. Cliff, and Messrs. Richardson & Wrench.
405. Mr. See.] Were you surprised, seeing the price at which you sold the land, that it realised £29,000?

I did not know what they purchased it for.

406. Were you surprised at its realising so much? No, I would not have been surprised if they had got £35,000

407. Mr. Chapman.] You speak of terms being given? Yes, £6,000 down, and £14,000 in three years at 6 per cent.

408. Are those the terms now? No, they afterwards agreed to pay cash.
409. Which they have done? Which they have done. When it became known that they had sold to the Government, I said, "They must give me cash, or I will hold the mortgage, and they cannot hand it over to the Government."

410. You would have sold it to the Government for £20,000? I do not know whether I should. Perhaps if I had asked them £200 a foot they would have paid it.

411. You asked £22,600, but you accepted £20,000; would you have sold to the Government for the

same amount? I would.

412. Mr Abigail.] You would be likely to ask the Government more than you would be likely to ask a private individual? No; I ask a price, and it is immaterial to me who is the purchaser.

# John Yelverton Mills, Esq., called in, sworn, and examined:-

- 413. Chairman.] Are you aware of the nature of this inquiry? Yes; I believe it concerns the purchase J. Y. Mills, of a piece of land at the Circular Quay. Esq.
- 411. Will you see if that plan relates to the piece of land [Appendix A]? Yes, it does. 415. Do you know Mr. Cliff? Yes.
- 416. Do you remember about the date of his coming to you concorning the land? It was somewhere about the 6th or 7th of June.
- 417. What was the nature of the instructions he gave you on that occasion—did he give you any? Yes, that he had secured a piece of land at the Circular Quay, and wanted us to sell it for him.
- 418. Were there any particular instructions as to the mode in which it was to be sold? No, except that it was to be sold privately.
- 419. Did he name any person or persons with whom you were to communicate as likely to be the purchasers? I do not think so. We had no instructions to communicate with anyone. It was simply
- placed in our hands for sale.
  420. Did he show you this letter? No; he showed us nothing except a tracing of the plan of the land. I know nothing at all about the letter.
- 421. Did, he have a conversation with you as to the value of the land? He had a conversation as to what he would take for it.
- 422. Did he have a conversation with you as to your opinion of the value of the land? No. 423. Did he ask you what the land was worth? That I cannot say.

- 424. Did you on that occasion estimate the value of the land at about £31,000? I cannot say that I did. 425. Did you at any time give him a value for the land? No. 426. Then what price did he fix for the land as the selling price when he left it with you that day? I think it was somewhere about £30,000 or £31,000.
- 427. Did he sign any authority for you to sell? No, merely verbal instructions were given. It is not
- 428. You have some knowledge of this land, I presume? Yes.
  429. Has it ever come to your knowledge that that land was in the market for sale previously to Mr. Cliff bringing it to you? No; I have no knowledge of it all. I never had any dealings with it nor any knowledge of it knowledge of it.
- 430. Then, as a matter of fact, you have never made a valuation of it? No, there was no necessity. It
- was placed in our hands for sale at a price, and I was never asked to value it by anybody.

  431. Then if Mr. Cliff stated that you suggested to him that £31,000 was a fair value for it would that be correct? That I cannot say. I may have sat down and divided the price to see what it would come to per foot, or have gone into calculations of that kind.
  432. If he has stated that you suggested that in your opinion it was worth £31,000, is that correct?
- That I cannot say. I may have sat down when he named his price and divided the price to see if he had secured that land what he ought to get for it.

  433. Did he tell you what he had to pay for it? No, I have no knowledge of it, or what the dealings
- were up to that time.

J. Y. Mills, 434. How long was it in your hands before someone approached you, and who was it that approached you, to purchase? Mr. Gorman.

435. How many days or weeks after it was put into your hands for sale? I do not think any days at all. 435. How many days or weeks after it was put into your names for said: I no not said: There were a said in your books? No; I do not think it is, I did not make a note of it at the time. There were only verbal instructions. My own impression is that it was the same day.

437. What did Mr. Gorman say when he came? He found the land in our hands for sale, and he had been instructed to buy it, and finding that we were the selling agents he wanted to know what was the

price, and if we would place the land under offer for a week.

438. Did he say to whom? Yes, to the Government. Our letter placing it under offer was on the 7th

That was Tuesday, and I think I went to Melbourne the same evening.

439. Then you placed it under offer? Yes.

440. Had you any communications from Mr. Cliff before it was placed under offer during that day? That I cannot say. There may have been some communication. We might have sent across to him, but my impression is that we communicated the offer to him in some way or other.

441. Does your memory serve you whether you had absolute power to place it under offer without communication with him? It does not.

442. Then, having placed it under offer to the Government, you specified the time? Yes. 443. Can you tell us how you came to specify the time? It was asked for by Mr. Gorman. 444. Did he specify the time? He asked for a week, I think.

445. That is, he asked you to place it under offer to him for the Government, leaving them a week to decide? Yes.

446. Does your memory serve you as to how it came that the time had to be extended? An application came from Mr. Gorman for the time to be extended, and Mr. Cliff consented.

447. When you received the offer from the Government of £29,000, I presume that you communicated with Mr. Cliff? Yes.

448. Did he object to receive less than he asked for it? Ultimately he cannot have objected, because he

agreed to take it.

449. What I want you to do is this, to refresh your memory with regard to the circumstances. I wish to ask what actually took place. As nearly as your memory will serve, can you tell the Committee the conversation that took place when he came. He had asked £31,000, and the Government offered £29,000. What led him to accept less than he asked? I suppose the idea was that it would be a cash sale, and the thing would be done with. He thought, at any rate, he ought to get £30,000 for the property.

#### THURSDAY, 13 OCTOBER, 1887.

Bresent:

Mr. ABIGAIL, Mr. BLACK, MR. BRUNKER, MR. BURDEKIN,

Mr. CHAPMAN, MR. GOULD, MR. SEE, MR. R. BURDETT SMITH,

460.

MR. STREET.

#### N. MELVILLE, Esq., in the Chair.

John Yelverton Mills, Esq., recalled, and further examined:-

J. Y. Mills, 450. Chairman.] Having had time to refresh your memory, will you now tell the Committee what valuation, if any, you placed on this land in response to Mr. Cliff's request when he waited upon you?

13 Oct., 1887.

14 Oct., 1887.

15 Oct., 1887. some figures as to how much per foot it was worth, but I do not think I gave any valuation. I may have stated that Mr. Cliff having secured the land it was not too much for him to get £31,000 or £30,000 for it.

451. If Mr. Cliff has stated that he asked you for a valuation of the property would that statement be correct or incorrect? I have given no valuation at all, apart from what I said when I received my instructions to sell. I did go into the matter as to what price the owner having secured the property ought to get for it, but that is all. I gave no valuation. I do not think Mr. Cliff's price was too much. 452. Your opinion that the sum of £31,000 was not an excessive one for the property was based upon what? Upon the property having been secured, and in view of the knowledge that was then public

property.

453. Had it not been rumoured that the A.S.N. Company's property was about to be purchased by the Government would you have considered £31,000 an excessive price for the land? That I cannot say.

This property naturally occupies a very peculiar position. 454. You know the property well? Yes.

455. Will you please endeavour to disassociate in your mind as well as you can the facts surrounding this property, and then tell us what you consider a fair value for it? That I cannot do. My only previous knowledge of the property was that I understood it belonged to Mr. Josephson, and that it could not be bought, else I had a buyer for it long ago.

456. At what price? That I cannot say. The North German Lloyd's Company were anxious to obtain a property at the Circular Quay, and I always understood that this particular property could not be obtained from Mr. Lesenberg.

obtained from Mr. Josephson.

457. You are not prepared to say what the company would have given for it? I am not. I went to see

them about it, understanding that they were buying a property, and I tried to get them to take a property on the other side of the quay, but they would not do so.

458. Did you make any inquiry at that time as to whether this property was in the market or not? I did not, for the reason that I looked upon it as a sort of family property which could not be got hold of.

459. You have told the Committee that Mr. Gorman called upon you on the same day that Mr. Cliff and 2. I believe it was on the same day. called? I believe it was on the same day.

460. Did it strike you as somewhat peculiar that Mr. Gorman should call upon you so soon after the J. Y. Mills, property had been placed in your hands to inquire if it was for sale? I cannot remember the date disproperty had been placed in your hands to inquire if it was for sale? I cannot remember the date distinctly. On turning the matter over in my mind since I was last here, I think that Mr. Gorman followed Mr. Cliff in, and said, "I have been looking for you; I want to see you about that property down at the Circular Quay; I find it is in your hands for sale." Whether that occurred the day after Mr. Cliff gave

his instructions or upon the same day I could not be positive.

461. Will you try to fix a date. In the early part of your evidence you said something about leaving for Melbourne on the evening of the day the property was placed under offer. Was that the same day that Mr. Cliff placed the property in your hands? That I cannot be positive of. Whether Mr. Cliff came to me on the Monday, and came again on the Tuesday morning, I cannot say.

462. To the best of your recollection and belief Mr. Gorman came into your office while Mr. Cliff was

there, or was leaving? I think he followed Mr. Cliff in, but I cannot be quite sure.

463. The 6th of June was upon a Monday? Yes, the 7th was the date the land was placed under offer,

and I went to Melbourne on the Tuesday.

464. Then you think that on Monday, the 6th, Mr. Cliff came to you and put this land into your hands for sale? I am not positive about that, that is, whether it was the morning of the Tuesday when Mr. Gorman came in, or whether Mr. Cliff was there on the Tuesday morning and came again in the afternoon. I cannot be sure whether Mr. Cliff was there on the Monday. I am not at all clear about the date of instruction being the 6th or 7th.

465. You cannot be sure whether Mr. Cliff came in and placed the land under offer, and then went away and returned some time during the day, Mr. Gorman meeting him there. You do not know what time, if any, elapsed between the placing of the land in your hands and the interview with Mr. Gorman in your

1 think a little time must have elapsed.

office? I think a little time must have elapsed.
466. Did Mr. Gorman address himself to you or to Mr. Cliff when he came into your office? I think to Mr. Cliff.
467. Did you hear what he said? No.
468. You simply saw them meet? That is all.

469. Did Mr. Cliff remain present when Mr. Gorman spoke to you about the property at that time? 1 think he may have remained there some little time. I do not think he was there when the letter was delivered to Mr. Gorman.

470. Did Mr. Gorman in the first instance come to you or to one of the clerks, to inquire about the property? I believe that, seeing Mr. Cliff come in at the door, he came in after him to inquire, and found that the land was placed in our hands for sale.

471. What did he say when he came into you? That I cannot remember. I can remember only the

472. But did he not ask you something about the property? He might have said that he had instructions to buy, and he might have wanted to know what we would take.
473. But did he not ask you if you had a certain property in your hands for sale? That I cannot say.
474. Then how did he pool negotiation? I cannot tell you now.

475. But did he not begin by saying that you had such and such a property for sale, and that he wanted to buy it? Mr. Cliff may have come forward and said, "Mr. Gorman has come about this property," but

1 cannot give you the details of the conversation. I charged my mind only with the transaction.

476. When the subject had been introduced in this way can you tell me what Mr. Gorman said—did he tell you who had authorized him to purchase? I think he must have done so, for our letter states most distinctly that it was only for the Government of New South Wales.

477. Do you know why that condition was placed in the letter? I inserted it.
478. What was the object? Because if we were dealing with Mr. Gorman on behalf of the Government 1 did not want any other transaction to take place in connection with the land at all.
479. What other transaction could take place? It could have been offered to a third party.
480. Who would do that? I cannot tell you; I wanted it to be distinctly understood that it was to be

held under offer to Mr. Gorman for the Government, and not that it should be held under offer to any other person indefinitely.

481. Do you mean by that that Mr. Gorman had revealed to you who the purchaser was likely to be? That must have been revealed before the letter was written.

482. After Mr. Gorman had revealed to you who the purchaser would most likely be, what did you do with the land? I placed it under offer.
483. Can you tell the Committee what caused the extension of time? There was simply an ordinary

application for extension.

484. From whom? Mr. Gorman.
485. For how long did Mr. Gorman remain in your office? I do not think very long.
486. Can you tell the Committee what he said to you with reference to this land? I cannot.
487. As a matter of business 1 mean? I cannot; 1 would give it you in a minute, but it is of no use my guessing; I charged my mind only with the transaction; what the actual conversation was it would be impossible for me to tell you.

488. Did Mr. Gorman say this, "You have a certain property for sale situated near Circular Quay?" I cannot tell you.

489. Then how did you know what property Mr. Gorman referred to? I think Mr. Cliff said, "Here is Mr. Gorman come about that property."

490. Did you ask Mr. Gorman who was likely to be the purchaser? Mr. Gorman must have disclosed his purchaser, because it is mentioned in the letter.

491. When Mr. Gorman disclosed the name of his purchaser did you say anything to him to the effect that the property should not be placed under offer to any other person? I think it is very likely.

492. Did Mr. Gorman say anything to you on that occasion as to who had instructed him to purchase the property? I think I understood that his instructions came from the Colonial Secretary-that is the impression I have. 493. Did he intimate that his instructions were of such a character that he was not to reveal who were to

be the owners? I do not think so.

142 - C

Esq. 13 Oct., 1887.

J. Y. Mills, 494. Did he make any objection to revealing the name of the intending purchaser? I do not remember any.

495. Do you remember whether Mr. Gorman and Mr. Cliff left your office together on that day? I do not think so. I think Mr. Cliff had gone before Mr. Gorman received the letter.

496. He did not take the letter away with him, did he? I could not say.

497. Is it possible that he did? He may have done so, or he may have asked me to send it across. That

I could not say

498. Did you know at the time of the placing of this land under offer to the Government whether the Government would have a right-of-way over the right-of-way which is marked 12 feet wide on the plan [Appendix A]? I only know that a plan similar to that produced was given to us to submit with the offer.

499. Had you that? It must have been sent with the letter, I think.

500. Had you any other interview or conversation afterwards with Mr. Gorman about this property? Not until he came to ask for an extension of time.

501. After the day on which you say this matter occurred, when Mr. Gorman and Mr. Cliff were in your office together, did Mr. Cliff come to you previous to the completion of the transaction? That I cannot sav

502. Upon your receiving the offer of the Government of £29,000 you communicated with Mr. Cliff? Yes. 503. By letter? That I cannot say.

504. Would not your letter-book show? Yes; if a letter were sent, the book would show it. I cannot say whether a message was sent to him, or whether a letter was sent to him.

505. Will you look at your letter-book when you go home, and if you find a letter, will you be so good as to forward the Committee a copy? Certainly.

to forward the Committee a copy? Certainly.

506. When Mr. Cliff came to your office and you informed him that the offer was £2,000 less than the sum asked what did he say about accepting it? I cannot say whether he came to the office or not, but he was communicated with. Whether he was seen at the office or at the warehouse I cannot say.

507. Did he instruct you to accept £29,000? He did ultimately.

508. In what way, verbally or by letter? I think verbally.

509. Can you remember what he said with reference to taking less than £31,000? I think he was of opinion that he ought to get £30,000 for the land.

510. Did he give you any reason for accepting £29,000? I think he recarded it as a cash transaction and

510. Did he give you any reason for accepting £29,000? I think he regarded it as a cash transaction, and

that it would be better to accept than to continue holding.

511. Did he say anything to you to the effect that he would not have accepted £29,000 from a private buyer? That I cannot say.

512. Might he have said so? 1 do not remember it.

513. What impression was made on your mind from the fact of Mr. Cliff placing this property in your hands, and Mr. Gorman coming in so soon afterwards and offering to purchase on behalf of the Government—did it not strike you as something peculiar? I do not know; I thought Mr. Cliff was very lucky to find a buyer so quickly.

514. Is it a usual thing for buyers to turn up so rapidly? They do sometimes.
515. Have you done much business for Mr. Cliff? Yes, we have off and on. He is a man who deals very largely in property. He is looked upon as one of the shrewdest and holdest speculators in Sydney. I think he deals with nearly all the auctioneers.

516. Have you expressed any opinion to any person with regard to the peculiar circumstances surrounding the purchase of this property? No. 517. Might you have expressed any such opinion? I do not know why I should. 518. Do you know any reason why you should not? No.

519. Have you had any conversation with any person concerning this transaction besides Mr. Cliff and Mr. Gorman? I am not aware of any.

520. Have you had any with your partner? Nothing beyond general conversation. 521. Have you had any general conversation with any one else? I do not remember.

522. Have you at any time to any person expressed it as your opinion that the circumstances attending this purchase were of a peculiar character? I cannot remember.

523. Have you at any time to any person since the sale to the Government expressed the opinion that there were any suspicious circumstances surrounding the transaction? I do not remember.

there were any suspicious circumstances surrounding the transaction? I do not remember.

524. I am very sorry to caution you Mr. Mills. Perhaps you have a wrong impression as to your position, but I may tell you that you are in all respects in the same position as if you were in a court of justice. To the question I have just asked you I desire an answer "yes" or "no." You may give either of those answers, or you may decline to answer the question? I do not remember in any conversation stating that there were suspicious circumstances in connection with this matter. I may have mentioned that it was very funny that in my position as Government Valuator, that is, being at the command of the Government at any moment. I should have have get into the position of calling agent. Government at any moment, I should here have got into the position of selling agent.

525. Have you said that to any person? I may have said so.
526. Do you think you said so to your partner, Mr. Pile? I cannot say. I think I may have made such a remark.

527. But you do not remember to whom you made the remark? I do not. What makes me say so is that it was the impression made upon my own mind.

528. Have you received your commission upon this sale? Not yet. 529. What does it amount to? 2½ per cent.

530. Are you in the habit of valuing land for the Government? I have an official appointment. I am

bound whenever they call upon me to value.
531. You hold an official appointment as Government Valuator? Yes; my appointment refers to land other than railways.

532. Had you been called upon in your official capacity as Government Valuator would you have recommended the Government to give £31,000 for the land? I think that the land having got into the hands of a third party I would have done so.

533. What do you mean by the land getting into the hands of a third person? I think that Mr. Cliff as a speculator having bought the land, and with the knowledge that was then public, if he had asked more he would have been bound to get it.

534. Mr. Gould.] If the Government had consulted you at this time would you have advised them to exercise their power of resumption instead of giving the price that was asked? I certainly should.

Esq. 535. Then would you have advised the Government as to the value to be paid for the land, or as to the 13 Oct., 1887. price to be paid for the land in the event of their having resumed it? That I cannot say. I have never

entered into that question at all. It did not arise, 536. But I think it is important that we should have your view upon that point? I think the land is

worth the money the Government gave for it.

537. Chairman.] What causes you to say so? Because it is the only piece of freehold which it was possible to get on that side of the harbour with a water frontage. The A.S.N. Company's wharf was too big for one person to buy, and that was the only other water frontage on which wharves could be erected on this side of the harbour

538. Mr. Gould.] Then why would you have advised the Government to exercise their power of resumption and to go into court? There might have been no necessity to go into court.
539. But would you not have advised the Government to exercise their power of resumption in the event of too high a price being put upon the land? Yos; they would have been dealing with first power of the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world have been dealing with the world parties It would not have become public knowledge that the Government were going to resume. 540. Did it matter in whose hands the property was so far as its intrinsic value was concerned?

did not matter; but it sometimes happens that people put in very reasonable claims.

541. Would you ever advise the Government to exercise a power of resumption in the case of land on which a reasonable claim had been made? The claims are always put in after resumption.

542. But is it not a fact that steps are usually taken to ascertain what price an individual may require for

this land before the question of resumption under the law is considered? I do not know that it is always

543. Have you ever known of a case otherwise? Yes.

544. When the Government have not ascertained, by any means, what the owner wanted for the land? I do not think that it has been always the case that the price has been ascertained

545. Are you not aware that the power of resumption is very sparingly used by the Government when they can effect their purpose without it? Yes.

546. Is there not a special form of application for vendors to fix their prices? After resumption.

547. Mr. See.] If you had been asked by the Government whether they should give £29,000 for the land or resume, what would you have advised them to do? That I cannot say now. I think the property is

or resume, what would you have advised them to do? That I cannot say now. I think the property is worth the money given for it.

548. Mr. Gould.] If the Government required land would they not probably ask you for a valuation before deciding on resumption? I think that has been very often done.

549. Mr. Abigail.] Is it the invariable rule adopted by the Government that they consult you in connection with every property they want to purchase? I cannot say so. I do not think it has been the case.

550. Mr. Black.] Has it ever come to your knowledge that the Government have bought any property previous to obtaining a valuation? That I cannot say. A valuation may be made by an officer in a department, or the Government may come to me outside department, or the Government may come to me outside.

551. Do you know of any purchase of a property by the Government without a valuation having been first made? A valuation may have been made by somebody else.

552. But I am speaking of cases within your own knowledge? I am not aware of any.

553. Mr. Abigail Did the Government consult you with reference to the purchase of the Eveleigh estate? No; I had no connection with the Government at that time.

554. Nor with regard to the Callan Park estate? No; that was done by Mr. Woolcott, years before.

555. Mr. Brunker. You are aware that in cases of resumption it is usual to ascertain the price required by the vendor before taking advantage of the provisions of "The Lands for Public Purposes Acquisition Act"? I think it is the custom

Act"? I think it is the custom.

556. But you know that it is the case without thinking? I believe it is.

557. And that these valuations are made by the Government in order to see that the price asked is a fair one? Yes.

558. There is a letter written from you to Hardie & Gorman on the 7th June. That letter was written after you had the interview with Mr. Gorman to which you referred in your evidence? It was written on the same date as the interview.

559. Is it not an exceptional thing for a buyer to follow a vendor so quickly, and concede the price asked without any consideration? A week elapsed between the offer and its acceptance.

560. I think in your evidence to-day you said that Mr. Cliff and Mr. Gorman waited upon you almost at the same time? I think Mr. Gorman followed Mr. Cliff into the office, but whether Mr. Cliff gave us

instructions to sell on the day before or the same morning I am not quite clear about.

561. Were the instructions in writing? No; they were verbal instructions.

562. Were you aware at that time of the price at which Mr. Cliff purchased? I was aware of nothing in connection with the property until Mr. Cliff gave me instructions to sell.

563. Were any arrangements made about commission at the time he placed the property in your hands?

564. He offered to give you two and a half if you got the price he asked, did he not? Yes.
565. That is not the usual rate of commission for so large a sale, is it? It is a very good commission.
566. But is it the usual rate of commission in such cases? It is a very good commission.
567. Mr. See.] I believe it is the maximum commission? It is not.

568. Mr. Brunker.] You conduct the bulk of the Government sales. Will you state to the Committee what commission you get for conducting those sales? It is merely a nominal commission, it is one-tenth per cent. The Government sales come under a different head altogether. In Victoria they are done for nothing. There is no charge, except the charge for advertising and money out of pocket.

569. In this case did your firm derive the full benefit of the whole commission? The commission was

2½ per cent.

570. Then there was no division of commission? I do not think so.
571. Was there no arrangement for the division of this commission between your firm and any other firm. Surely if you have made arrangements with Hardie & Gorman or Richardson & Wrench to share this commission you would be able to say so. You surely do not require to refresh you memory on that point? I think Mr. Cliff said we should have to forego some of the commission if we took the lower price for the land.

J. Y. Mills, Esq. 572. Chairman.] As a matter of fact, did you arrange to give any part of the commission at  $2\frac{1}{2}$  per cent. to any other persons, auctioneers, or otherwise? I think it is very likely that Hardie & Gorman will

13 Oct., 1887. get a share of it.
573. Do you not know that they are getting a share of it? Nothing very definite was settled about it.
574. With whom did you arrange to give Hardie & Gorman part of the commission? I think with
Mr. Cliff, who said that if he took the lesser sum Hardie & Gorman would get a portion of the

575. As a matter of fact do you receive on behalf of your firm the whole of the commission? I do not think so.

576. I want an answer "yes" or "no." Will you or will you not answer the question? We shall not receive the whole of the commission.

577. Then who will receive the remaining portion? I take it that Hardie & Gorman will. 578. How do you know that Hardie & Gorman will? I think I understood that from Mr. Cliff.

579. Mr. Brunker.] But is there not an arrangement between yourself and Hardie & Gorman to share the commission? No; any arrangement would be made with Mr. Cliff, because we deal with him in

regard to the commission.

580. Is it an unusual circumstance for a division of a commission to be made between the agents of the vendor and the agents for the purchaser? It is not a very general occurrence, but it is done sometimes. 581. I understood you to say that you had at one time endeavoured to get possession of some facts with reference to this property for the purpose of selling it to a company? I did not say that. I said that I had negotiations with the North German Lloyds Company. I was told that they wanted a wharf. I wanted to sell them a wharf at Darling Harbour. They refused, and said that if I could get a property round about the Circular Quay they would buy it, but that they would not buy anywhere else.

582. You did not know this particular property at that time? I knew of it, but I always understood that they have all the travellers to the circular property at the circular

582. You did not know this particular property at that time?

that it belonged to Mr. Josephson and that he would not sell.

583. Mr. R. Burdett Smith.] Do you say that there was no understanding between yourself and Messrs.

Hardie & Gorman with reference to the commission? No, there was no understanding.

584. Mr. Brunker.] In your interview with Mr. Cliff in the first instance did you take any opportunity to inspect the land? No.

585. I suppose you knew it, and did not think it necessary to make an inspection? I have never made an inspection of the land. I have seen it passing in going backwards and forwards, but I never went on to it to make what we should consider in our business an inspection. 586. You know the piece of land thoroughly well? Yes.

587. If this property had been placed in your hands for public auction and your constituent had asked you to place a value upon it what would that value have been? I cannot say, I have never entered into

that question.

588. But your knowledge of the value of city properties is such that you ought to be able to give the Committee an immediate answer to that question? I cannot.

589. But you have had a very large and wide experience? I have never considered that question.

590. Judging from the general value of property in George-street what would you estimate this property to be worth, taking it at its legitimate market value, and apart from any knowledge of the Government having acquired the A.S.N. Company's land, or of their owning Dawes Point? I think some of the land near this property was sold at about £90 a foot.

591. You observe that twenty-five feet of one of the blocks shown in this plan is now in the hands of some other person, the "Harbour View Hotel" is on it. I assume that this twenty-five feet has been sold outside the Government subject to this lane of 12 ft. wide. Does it not detract from the general value of the whole block so far as the Government are concerned? That would all depend upon whether the

lane goes beyond or not.

592. But twenty-five feet having been purchased subject to that lane would not the owner have access to

11. The right-of-way is on the north. I do not think it detracts from the rear? Only to his own property. The right-of-way is on the north. I do not think it detracts from the value when one owner owns the two blocks, because there is no necessity to fence the lane off.
593. You have said that land in George-street has realized £90 a foot—would it be more valuable than this frontage? I do not know. There is a very deep fall in the land sold at £90 a foot.
594. Would you consider this the more valuable land of the two? No; 1 think the other might be the

more valuable.

595. What is this water frontage worth, do you suppose? £200 a foot. I merely mentioned the land at £90 a foot because it was an actual sale.

596. You have stated that you are the Government Valuator—had you any conversation with the Government with reference to this matter before concluding the negotiations with Mr. Gorman? No; I did not go near them. The property was placed in our hands in the ordinary way of business, and there was no necessity for us to go near the Government. We were not employed, except by the seller. 597. Had you any conversation with Mr. Gorman about it apart from Mr. Cliff? I do not think Mr.

Cliff was there when we arranged to send him a letter.

598. Either in the presence of Mr. Cliff or in his absence was there any conversation between you and Mr. Gorman which would be of any value to this Committee? No; I think we conversed upon merely

formal business matters.

599. I understand that you have done business before with Mr. Cliff? For a number of years. I think

nearly every auctioneer in Sydney has done so.
600. Was not this property once in the hands of Richardson & Wrench? I do not know. My first knowledge of the property was when it was placed in my hands for sale.

601. Notwithstanding the whole of these negotiations and the extent of the purchase, you have never made it your business to inspect the land? No, there was no necessity.

602. Did Mr. Cliff hesitate in the acceptance of the £29,000 instead of the £31,000, or did he make any second offer? Mr. Cliff thought that he should have received £30,000.

603. Did you say so to Mr. Gorman? I do not think so. I think Mr. Cliff's acceptance was without further negotiations with Mr. Gorman.

604. Then I am to understand that no intermediate offer was made by Mr. Cliff? No. The offer for £29,000 was a cash offer, and was accepted. I believe Mr. Cliff's remark was to the effect that he would be dealing with the Government, that it would be a cash transaction, and that he would take the amount. 605. You knew that Mr. Gorman was acting in the interest of the Government? He stated so in the J. Y. Mills, first instance.

606. Mr. Black.] When Mr. Cliff first placed this property in your hands for sale did he then arrange 13 Oct., 1887. 607. Then it was not on that occasion that he said you might have to share it with Mr. Gorman? No.

We thought at first that we were going to have the whole of the commission.
608. It was only when the offer of £29,000 was under consideration that he said you might have to share the commission with Messrs. Hardie and Gorman? Yes. I understood that Mr. Gorman would get the benefit of any reduction of commission which might be made.

609. That arrangement was made with Mr. Cliff and not with Mr. Gorman? I think with Mr. Cliff. It

is not an unusual thing at all to share between buying and selling agents.

610. Mr. Abiqail.] If you were asked to give a valuation of the property would you give that valuation without considering all the surrounding circumstances and conditions in connection with this property. For instance, if you were asked to value this particular property would you not consider the peculiar position in which it was placed having regard to the properties adjoining it? You could not give a correct estimate without doing so, because the surrounding properties and their positions affect the value as much as anything.

611. If the frontage of 113 feet was sold at £200 a footit would give £29,350? Yes. 612. Do you consider this an excessive valuation of this property? I do not.

613. Would not the mode in which you conducted these proceedings with Mr. Cliff happen in any other case, or is it singular? No; it was an ordinary business transaction.

614. Was there anything singular in the manner of Mr. Cliff's coming to you and placing this property in your hands? No, not at all.

615. You have conducted transactions with other persons in exactly the same way? Yes. Mr. Cliff simply came in and gave me instructions to sell. He said that he had secured the land, and he wanted us to act for him in selling it.

616. Mr. Burdekin.] Is it a practice in your business to share commissions with brother auctioneers? Yes.

617. With reference to this land at Circular Quay, I think I understood you to say that it was the only piece of private property attainable in that neighbourhood? Yes.

618. That being so, is that land of exceptional value to any person requiring it? Yes.

619. Under ordinary circumstances, would £200 a foot be a fair price for water frontage in the locality?

620. If so then, having regard to the exceptional circumstances of this land, £200 a foot would be a really reasonable price? I should consider it so.

621. Supposing a man required a block of land in that locality for wharves, stores, or some purposes of that sort and the purchase were placed in your hands, would you expect to pay an extreme price to obtain the land, or would you expect to get it at the ordinary rate which would obtain if a great deal of land were available? I should expect to pay an exceptional price for it.

622. Then you think that whoever purchased this land—the Government or anyone else would have to pay to some extent an extreme rate? I think anyone wanting the land at all would have to pay the money

Mr. Cliff took for it.

623. Although you think the price given reasonable, you would not have been surprised if an extreme rate had been given for the land? I should not.

624. Taking the land at its fair value you think that the price asked by Mr. Cliff was a reasonable one? Yes.

625. Do I understand that you have no commission as Government Valuator? None at all.

626. In this matter you were simply acting as vendor's agent? 627. And doing the best you could for your client? Yes. Yes.

628. The transaction between Hardie & Gorman and yourself is not an unusual business transaction? Not at all.

629. Mr. Black.] Is it usual for the vendor of a property to arrange that he should divide commission with the purchaser's auctioneer? It is sometimes done.

630. But the vendor might not know who the purchaser would be? In this case it was disclosed.
631. Mr. Gould.] Why should such an arrangement be made because a smaller price happened to be taken for the land? I suppose that if Mr. Cliff had obtained more profit out of it he could have afforded to pay more

632. I believe you are paid a fee for Government valuations? Yes. Every transaction is separate. I get a reasonable valuation fee in each case.

633. Did Hardie & Gorman stipulate with you for a division of the commission. I do not think so.

634. Did they or did they not? I do not think they did.
635. Cannot you say "yes" or "no"? No, I cannot.
636. When Mr. Cliff placed the property in your hands what reserve did he place upon it? It was either £30,000 or £31,000; but whatever conversation there was it ended upon his fixing upon £31,000.
637. That was to be charged against any buyer who came along? Yes. We had no authority to sell

under that money.

638. Was the price fixed before you knew Hardic & Gorman were making inquiries on behalf of the Government? I think so.
639. Cannot you say "yes" or "no"? I think it was.

640. Then there was no particular merit in offering it to the Government at £31,000, solely under the condition that it was for the Government? I think there was.

641. What was it? Because if anyone else had bought it with the knowledge that the Government were going to take the A.S.N. Company's land the Government would have been compelled to pay more money for it 642. When Mr. Cliff placed it in your hands he fixed the reserve at £31,000 before the Government made

any offer at all? Certainly.

643. And were you not prepared to accept £31,000 from anyone? At that time decidedly.

Esq.

J. Y. Mills, 644. And yet you say that you would only take £31,000 for the land upon the condition that it was for the Government? Yes, because the Government was disclosed the purchaser by Mr. Gorman.

13 Oct., 1887.

646. Might he have been present? He might.

647. Did Mr. Cliff say in conversation with you that it was possible an offer might be made by the Government? He may have said that it was probable the Government would have to buy it, because it

was public property, and they were going to deal with the A.S.N. Company's wharf.

648. Mr. Burdekin.] Mr. Cliff is the only person you know as the owner of this land; you do not know of anybody else who is interested in it? Not a single individual.

649. With you Mr. Cliff was the sole vendor? Yes.

650. Mr. Gould.] Do you know that Mr. Cliff had not actually purchased, but only had the property under offer to him for a limited period? No; all we knew was that Mr. Cliff said he had secured the property, and that he gave us instructions to sell. How he got it, and what he had given for it, or what his position was beyond that I knew nothing.

651. But in dealing with the property subsequently the title would have to be disclosed? Yes. 652. Mr. Brunker.] Was the conveyance direct from Mr. Cliff or the original purchaser? That is a matter for the solicitor—we know nothing about that. Ours was a simple contract in the ordinary way

653. Was the land sold under ordinary conditions? Yes, it states so in the letter.
654. Mr. Abigail.] Is it unusual for a person to get a property under offer, and then sell it before completing the transaction? No; it is a very common thing for vendors to agree to convey to the purchaser

655. Chairman.] Who will pay Hardie & Gorman the portion of the commission to which they are entitled? That I cannot say

656. Who will pay you? Mr. Cliff. 657. Direct? Yes.

### THURSDAY, 27 OCTOBER, 1887.

#### Bresent :

Mr. ABIGAIL, Mr. BLACK MR. BURDEKIN, Mr. CHAPMAN, Mr. GOULD,

MR. R. BURDETT SMITH.

MR. STREET.

# N. MELVILLE, Esq., IN THE CHAIR.

John Yelverton Mills, Esq., called in, and further examined :-

J. Y. Mills, 658. Chairman.] Have you in your office any documents having reference to this purchase? No; I have only copies of the letters already here.
659. Who has the contract? That was made in one of the letters.

659. Who has the contract? That was made in one of the letters.
660. May I ask you as to whether your memory is generally good with regard to circumstances and dates?
Generally, if I charge my memory with any particular object or circumstance; but so many things pass through our hands that I do not charge my memory with the details of the matters.
661. Do you remember being asked this question, "Have you had any conversation with any person concerning this transaction except Mr. Cliff and Mr. Gorman"? Yes.
662. The answer you gave was, "I am not aware of any"? Yes.
663. Having had time to refresh your memory let me ask you that question again? I do not remember

anyone in particular, except perhaps Mr. Pile. 664. Do you know Mr. W. J. Lyne, a member of the Assembly? Yes.

665. Do you remember travelling with him in the Western train sometime after this purchase? Yes. 666. When you were travelling with him on that occasion did any conversation take place between you with reference to this purchase? I cannot remember any particulars of any. We were chatting for a long time on all sorts of things; but I do not remember any particular part of the conversation referring

667. Was there any conversation at all with reference to it? That I cannot say.
668. Is this a transaction of so little importance in its character that you would easily forget the circumstances surrounding it? I cannot say that it is, either one way or the other.
669. Might you have had a conversation with Mr. Lyne about the matter? The matter might have been mortioned because I was shetting with Mr. Lyne for about an hour or two ween all costs of subjects.

mentioned, because I was chatting with Mr. Lyne for about an hour or two upon all sorts of subjects;

but what definitely took place, or was mentioned, with regard to this matter I cannot say now.

670. Might you have expressed your opinion to Mr. Lyne about the matter? I cannot say that I did not.

671. Are you sure that you did not? No, I am certainly not.

672. Would you be positive that you did? No.

673. Might you have said to Mr. Lyne on this occasion that you thought the Government had made a good purchase? That I cannot say.

674. Might you have said to Mr. Lyne that you considered that the price was excessive? I do not

remember.

675. Did the circumstance of this purchase by the Government fix itself in your mind in any way?

Only as to the mode of going about it, nothing beyond that.

676. Might you have said to Mr. Lyne that you did not realise that you were being had until after Mr. Gorman had left your office? I cannot say.

677. Will you swear that you did not say that? I will not.

678. If you are not positive that you did not say this to Mr. Lyne might you not at some time or other in some other place have said so to other persons? That I cannot say.

679. It is a usual thing for you to become so absent-minded with regard to business matters? At the present time you are asking me about things I did not charge my mind with, and which occurred months

680. When you have had time to refresh your memory with reference to any given transaction does it generally serve you? Yes.

681. You have had time to refresh your memory in reference to this matter; you have given it some J. Y. Mills, consideration, I presume, since you were last here before the Committee? I dare say I have.

682. Have you in any way, since you have been before this Committee, refreshed your memory as to the circumstances of this case? I do not know that I have. The questions you are now asking me I certainly did not think of.

683. In your opinion, were the circumstances surrounding this transaction fair and above board? In what way, Mr. Chairman?

684. You tell us that Mr. Cliff came and placed this property in your hands, that to the best of your belief and remembrance while Mr. Cliff was in your office, and before he had left it, Mr. Gorman came

in? That was on Tuesday, I believe.
685. That Mr. Gorman sought to purchase the property on behalf of his client, the Government, revealing

686. Upon that negotiations were opened up with the Government? Yes.

687. And the property was purchased by the Government? Yes.

688. The fact was revealed to you that Mr. Cliff, as a purchaser from Mr. Josephson, did not pay any money whatever for the land until after the Government had decided to purchase? That was not revealed to me.

689. But of your own knowledge you were aware of the fact? I have heard it.

690. You were made aware of it by this letter (Appendix B), under which Mr. Cliff had the offer? 1 did

691. Will you read it now? Yes; I did not know anything about it until I saw it in your hand the

other day; and I did not read it then, nor was I aware of its contents.
692. You became possessed of the information that Mr. Cliff had this property under offer from the

6th to the 16th June? I did not; this is the first time I have had such a knowledge.
693. Is the paper marked "Enclosure" in the Parliamentary papers, signed Mills & Pile, and dated 7th June, 1887, written by your instructions? Yes.
694. Who instructed the clerk to write the letter? I should think it very likely that I did so, in

conjunction with Mr. Pile. I may have seen Mr. Pile about it.

695. Can you remember how long after this land was placed in your possession as agent to sell you consulted with your partner; was it in an hour, a day, or a week afterwards? No; I should think

directly afterwards.
696. You will observe that the letter to which I have referred places land under offer to the Government until the 13th June? Yes.

697. Why was that date mentioned in the letter? Because it was asked for. It is the usual thing for land to be placed under offer for a particular period.
698. Who asked for it in this instance? Mr. Gorman.

699. Do you remember whether Mr. Cliff was present when Mr. Gorman asked for that time? That 1 cannot say.

700. It may, or it may not, have been asked for in the presence of Mr. Cliff? It may, or may not; but Mr. Cliff must have had some knowledge of it, because we should not have done so without his consent.

701. When Mr. Cliff consented to the 13th being fixed as the date, did he say anything to you about the title? No; we had no knowledge of Mr. Cliff's title or mode of purchase, or how he became possessed of the land. That I say distinctly.

702. Did Mr. Cliff, in consenting to the fixing of the 13th, say anything about the length of time the land had been placed under offer to him? No, he did not.

703. In the papers to which I have already referred, you will see a letter from Hardie & Gorman to the Colonial Secretary in these terms :-

Salc Rooms, Sydney, 10 June, 1887.

Messrs. Mills & Pile have written us extending the time from 13th inst. to noon on 14th inst. for your decision ter of the Circular Quay property.

We have, &c.,

HARDIE & GORMAN. in the matter of the Circular Quay property.

Yes. I think the extension of time was a verbal extension.

704. Was Mr. Cliff consulted as to that extension? He certainly must have been; an agent would not like the second of time is concerned. It would be necessary have authority beyond selling, that is so far as the making of time is concerned. It would be necessary to obtain the consent of the principal.

705. Will you try to bring your mind back to this extension of time and tell us why the extension was asked for from the 13th June until noon on the 14th; why was it fixed a day longer, and not two or three days? That I cannot say. This is entirely new to me—the coincidence of dates.

706. How do you mean that it is new to you? The letter from Richardson & Wrench, and these dates

coming just within it, is all matter entirely new to me.

707. Do you mean to tell the Committee that this is the first time you have heard of it? It is the first time I have seen the letter or have had any knowledge of the dates.

708. Are you aware that the letters were published in the daily papers? Yes; but I am referring now to the letter Appendix B.

709. Are you aware that the letters contained in the Parliamentary papers were published in the Sydney Morning Herald? I am.

710. Can you tell the Committee why the 14th was fixed? I cannot, it would be a matter of impossibility

710. Can you tell the Committee why the 14th was fixed? I cannot, it would be a matter of impossibility for me to state that; I know that one day's extension was asked for, and that one day was fixed. I took it to be that Mr. Gorman could not get his answer in time from the Government.

711. Will you look at the letter dated 14th June. I call your particular attention to this sentence. "We have seen the proprietor, and he has agreed to accept the sum now offered." Was it on that occasion that Mr. Cliff stipulated the commission should be shared with Hardie & Gorman? That I cannot say.

712. You are quite sure that he did stipulate it? I quite understand that any reduction of commission will go to Hardie & Gorman.

713. What do you mean by any reduction of commission? We were to have got  $2\frac{1}{5}$  per cent., and any rebate or diminution of commission was to go to Hardie & Gorman. We were not aware of that at the beginning of the negotiations; but I think that afterwards if I remember rightly, Mr. Gorman said, "This is a good sale, I shall have to get half the commission." I think I expressed some surprise, or objected. Nothing more was said at the time, until Mr. Cliff came into the office in connection with the completion.

J. Y. Mills, Esq. 27 Oct., 1887.

completion. I then said, "Mr. Gorman talks about having half of this commission, I cannot understand completion. I then said, "Mr. Gorman talks about naving nair of this commission, I cannot understand it," or something to that effect, and I think Mr. Cliff's answer was, "It is all right, I shall be only able to give you half commission as I have not all the money I expected. I will not be able to give you  $2\frac{1}{4}$  per cent. You will have to agree to the reduction," or something to that effect.

714. What took place then? I do not think anything more.

715. But you agreed to it? I think I mentioned the matter to Mr. Pile, and expressed surprise at it. His remark was, I fancy, "Oh, it is Mr. Gorman's way, and we shall have to put up with  $1\frac{1}{4}$  per

cent.

716. But you agreed? Yes; Mr. Cliff refused to give us more.

717. What difference does it make to Mr. Cliff, his giving Mr. Gorman 14 per cent. and you 14 per cent.? None at all that I can see.

718. The amount paid would be just the same to him? Yes.

719. Then what was the meaning of the expression that he could not afford to give the money? That 1

cannot tell you. I can only give you the facts.

720. Now that the whole circumstances in connection with the commission and completion have been brought to your mind, can you say whether, from commencement to the finish of this matter, it impressed you as a business man that the transaction was fair and above board? I was surprised at the position in which I was placed in the matter when I came to know the transaction.

721. What surprised you? Well, that I should have been selling agent.

722. What was there about that to surprise you? Well, that I had not been imported into the matter before

before.

723. By whom? By the Government.
724. What impression did it make upon your mind in regard to the whole thing? I looked upon it that Mr. Gorman perhaps was more of a personal friend of Sir Henry Parkes than I was. I have never done any business with him at all, and I thought that Sir Henry Parkes had sufficient confidence in Mr. Gorman to give him the job.

725. After Mr. Cliff placed the land in your hands, you made no notification to the public which would have given anyone an opportunity of knowing that the land was for sale before Mr. Gorman came to you

have given anyone an opportunity of knowing that the land was for sale before Mr. Gorman came to you about it? I have distinctly stated that I am uncertain whether we received our first instructions on the Monday or the Tuesday. It is quite possible that the first instructions were given on Monday, and that Mr. Gorman followed Mr. Cliff into the office on Tuesday.

726. But between Monday and Tuesday how could it become known to the public outside that the land was for sale? We did not move in the matter. If Mr. Cliff came in on the Monday it must have been to give us a sort of preliminary instruction without definitely fixing the price. There was certainly no time between Mr. Cliff's entrance on Tuesday and Mr. Gorman's coming in for any other negotiatious to time between Mr. Cliff's entrance on Tuesday and Mr. Gorman's coming in for any other negotiations to have taken place.

727. Have you become possessed of any knowledge showing how Mr. Gorman knew that you had the property for sale? No. I know nothing, except that Mr. Gorman followed Mr. Cliff in, and said, "I want to see about the property which I find you own at Circular Quay."
728. These circumstances are fresh in your mind now? Yes.

728. These circumstances are fresh in your mind now? 729. They are perfectly fresh? Yes.

730. Your mind can go back to this scene distinctly? Yes.
731. What impression did it make upon you when you saw Mr. Gorman come in so soon after Mr. Cliff; did it make any impression upon your mind at all? I do not think it did at the moment.

732. Has it since, in thinking the matter over? In what way?
733. It is not possible for me to put to you a leading question, because I might be asking you to express sentiments which are in my own mind. I do not wish to influence the answer you will give me. The circumstances being fresh in your mind can you tell us whether the impression created upon you was favourable to the transaction being fair and above board, or unfavourable to that supposition? I did not see anything unfair in the matter.

734. But from all the circumstances of the case do you not think it was rather a peculiar coincidence that these two gentlemen should meet in your office? It was a coincidence.

735. Will you swear to the Committee that you have not expressed yourself to the effect that you considered you had been had in the transaction? I will not, certainly.
736. You will not swear that you have not said so? No.
737. Then you might have said so? I might have said so.
738. Then jot was did can so were it in consequence of the popularities appropriate the popularities.

738. Then, if you did say so, was it in consequence of the peculiarities surrounding the purchase? It must have been.

739. Will you swear that you have not said this to other persons beside Mr. Lyne? I do not remember. 740. Will you swear? Certainly I will not.

741. Then you may have said so to other persons? I may have said so to other persons.
742. Then if you have made such a statement as this to Mr. Lyne and to other persons did it arise from a feeling in your mind that the circumstances were not straight? I do not think so.
743. Then what feeling induced you to make the statement? I do not care to go into the question of

straight or crooked.

744. But you are here to give evidence, and I must ask you to answer the question? I intend to answer it. The impression in my mind is quite apart from any impression of the thing being straight or crooked. It arose from my position of being selling agent when I ought to have been called upon to value by the Government before purchase. The feeling in my mind did not arise from any question of fairness or unfairness. Of course if I had have been called upon to value I should have been shut out from acting as selling agent.

745. The property being sold by Messrs. Richardson & Wrench to Mr. Cliff, Mr. Cliff placing the property in your hands for sale, and Mr. Gorman being instructed by the Government to purchase, what disinterested firms where there left in the city who could be looked upon as authorities for the valuation of

this property? I think another firm might have been employed to do that.

746. Can you tell us of a leading firm whose valuations would be accepted—whose valuations are as good as a bank-note—who were left to be consulted? Well, Messrs. Batt & Rodd might have been asked.
747. Do you know of any other firms? I do not know of any others.

748. Mr. Abigail.] When Mr. Cliff came to you and placed this property in your hands did he give you any particulars as to how he came possessed of it? No; we never dreamt of asking. Mr. Cliff would have rendered himself liable to an action if he had placed in our hands property which he had no

27 Oct., 1887.

authority to sell.
749. Is it a rule in your firm to ask people particulars of this kind, that is, as to how they became possessed of property, and so forth, when they wish to place it in your hands for sale? No; we never dream of it in the case of a known man.

750. I am going to ask you a very important question, and I should like a straightforward answer. Do you consider that the circumstances in connection with the sale of this land by Mr. Cliff, and the purchase by the Government, through Messrs. Hardie & Gorman, are of such a character as to warrant you in characterising the transaction as a swindle? No.

751. Mr. Chapman.] Have you seen the land since this inquiry took place? Only in passing.
752. I suppose you have taken a good look at it? No; not particularly.
753. But you would do so naturally? I daresay I have glanced at it in passing to and fro in the Manly steamers, that is all.

754. If you had been called upon to value this land on behalf of the Government at that time, would you have considered the price which they gave excessive? That I cannot say. I think if Mr. Cliff had asked more money it would have had to be paid to him, from the circumstance of his having secured a good position,

755. You admit that in travelling with Mr. Lyne you may have said that the price given was excessive? I do not remember it. I do not think I said that.
756. Is it possible that you could have said so? I think I told the Chairman before that I did not remember saying that. I may have said that from the peculiarity of my position in the matter I thought I had been had; but that is all.

757. You have been valuing land for the Government for a number of years? Yes.
758. Are you aware that public opinion is to the effect that in valuing land you keep it down to the lowest possible price? No; I think the general impression is that I am very fair.
759. If you had been called upon to value this land at this particular time, you cannot say at what price you would have valued it? No. The circumstances are so altered that it is no use going back to the matter now.

760. You do not consider that the price paid by the Government was excessive? I think the land is

worth the money; but I think it might have been bought cheaper in the first instance.

761. In your previous examination you seem to have qualified your answer by the admission that the Government were bound to buy the land because of its position; you think they would have had to give more if it had been demanded? Well, it became public property that the A.S.N. Company's land was to be taken by the Government, and if Mr. Cliff had asked more money I think it would have had to be given. 762. Had not the Government power to resume land in this position? Yes; under the Land for Public Purposes Acquisition Act.

763. Then in valuing the land, you would not have taken into consideration the fact that it was situated

between two Government properties? Certainly not.
764. You would have valued it simply for what it is worth as a piece of land? Of course, the position and the surroundings would affect the value one way or another. Sometimes surroundings tell against, and sometimes in favour of, land. You cannot value a piece of land entirely upon its individual merits.

It may be deteriorated or benefited by the position and character of adjoining properties.

765. Mr. Black.] Have you ever said to any person that you were surprised that the Government did not employ you to value the property before Mr. Gorman was sent to purchase it? I think it is very

possible that I did.
766. Do you remember to whom you said so? No. What makes me say I think I did is that I should simply have spoken my own thoughts had I said so.
767. Has your commission been paid yet? No; we have had no notification of the matter being settled,

and it being a sale to the Government we have no deposit.

768. Have you had any property in this neighbourhood placed in your hands for sale at any time? could not get any property which would be analogous to this, because it is the only piece of private property on that side of the harbour, with the exception of the A.S.N. Company's land. 769. Chairman.] You know the "Harbour View Hotel"? Yes.

770. Do you know that it has been in the market for sale lately? Yes; but that is not a water frontage.
771. Have you any idea what has been offered for it? No, I have not.

772. In view of all the circumstances connected with this purchase becoming the property of the public, and in the event of any person expressing the opinion that the transaction was one of a peculiar nature, would that opinion, in their mind, be based upon anything like truth? That is too deep a question for me.

773. You decline to answer it? Yes.

774. I will try to put it in another way. In view of all the circumstances surrounding this purchase becoming public property, and public opinion being expressed to the effect that the circumstances were of a very peculiar and suspicious nature, would you, from your knowledge of the case, consider that a correct or incorrect opinion? That I cannot say. I do not feel myself competent to answer such a question.

775. Do you think, from your knowledge of all the circumstances, that such an opinion would be justifiable? I do not feel myself competent to answer such a question. It is too deep for me.

776. Do you decline to answer it? I do not feel myself competent to answer it.

Edmund Taylor, Esq., called in, sworn, and examined :-

777. Chairman.] What is your occupation? I am an accountant, a member of the firm of Starkey & E. Taylor, Taylor. Esq.

778. You received a notice to attend this Committee? I did.
779. You were made aware by that notice of the nature of this inquiry? I was.
780. You know Mr. Cliff? I do.

781. Do you know that Mr. Cliff has given evidence before this Committee? I believe so. 142-D

E. Taylor, Esq. 782. Were you in any way associated with Mr. Cliff in the purchase of a property marked upon this plan. (Appendix A)? Yes.

783. Do you recognise it as property purchased by the Government at Circular Quay? Yes.

27 Oct., 1887. 784. Can you tell the Committee what took place in the first instance between you and Mr. Cliff concerning the purchase of this property? Mr. Cliff came to me and asked me if I was prepared to go into a speculation.

785. Can you remember the date? I was spoken to about the matter weeks and weeks before any question of actual settlement with Richardson & Wrench was arrived at. Mr. Cliff came to me more with the view of my financing the concern. On my agreeing to do that for him he said that I should have an interest in it; that was all. He came to me for my cheque, and I gave him my proportion.

786. How long after the interview did you give him the cheque? I dare say three or four weeks.

787. Are you in the habit of going into land speculations with Mr. Cliff? Yes; I have had several

speculations with him.

788. Between the interview you have referred to and Mr. Cliff calling upon you for your cheque, were there any other interviews between you? I met Mr. Cliff every day, in one way of business or another. 789. Do you remember whether any conversation took place about this matter? No; we simply spoke of the matter generally, that is, as to what we intended doing with the property. 790. Were you aware of what amount of money was to be paid for the land? Yes. 791. How much? £20,000.

792. Was that the amount arranged for at the first interview? Yes.

793. Was that the first occasion on which the matter was mentioned; did you then first become aware of the fact that £20,000 was to be the purchase money? Yes, that was the first occasion. Mr. Cliff and myself had frequently gone into speculations together. He asked me if I would be disposed to go into a speculation in connection with some land at the Circular Quay. I asked him the amount, and he said £20,000. He said he could get one or two others to go in. I agreed to do it, and that was the end of the matter. I have complete confidence in Mr. Cliff. We never consult one another in these matters. If I take up the running I go through with it myself, and if he takes up a case he goes through it himself. We each leave a thing of this kind entirely in one another's hands.

794. Mr. Gould ] Was anything said as to terms? A certain amount was to be paid in eash, and a

certain amount on terms.

795. Chairman.] Was the price of £20,000 agreed upon some weeks previous to the land being purchased?

Many weeks previous.

796. Did Mr. Cliff say anything on that occasion as to the probability of the land being sold to the Government? Not a word.

797. Did he indicate to you in any way the future disposal of the land, that is to say, did he go into the question of making a profit out of it after you had purchased? We had several ideas before us. 798. Did Mr. Cliff ever make you aware of the existence of this document (Appendix B.)? Yes. 799. Can you tell us how long after the date of the letter? I cannot give you any idea at all; the matter was seedless elleved to

was so seldom alluded to.

800. Do you think it likely that he spoke to you on the date on which he received the letter? I should think it was some time after.

801. How long? It may have been a week, and it may have been a fortnight.
802. A fortnight afterwards would be the 20th June. Did Mr. Cliff convey you any information as to who would purchase the land? He did not.

803. Is the Committee to understand that the land was bought and sold at that time? During the time the arrangements were being made I was in Melbourne. I was running backwards and forwards, and on my return Mr. Cliff mentioned to me some time after that the Government had purchased the land.

Sol. As a matter of fact, you were away at the time? I was nobody in the matter. I simply agreed to

finance it. I was to get an interest for financing it, that is all.

805. What was your interest to be? A fourth or a fifth. I understand from Mr. Cliff that his partner,
Mr. Vallack, also had an interest in it. but beyond this I know nothing.

806. Do you know whether you were to get a fourth or a fifth? It was either a fourth or a fifth. 807. How much of the £20,000 were you to pay on your own responsibility? £10,000. It was with that view that Mr. Cliff offered me an interest. I was to find £10,000.

808. For finding this amount you were to receive a fourth or a fifth interest? Yes. 809. You cannot say which—whether a fourth or a fifth? I have not the slightest idea now.

son. You cannot say which—whether a fourth or a fifth? I have not the slightest idea now.

810. Is that your usual way of doing business? No, it is not.

811. And have you actually paid the £10,000? Certainly not.

812. How much have you paid? I have paid a portion of the deposit.

813. How much? I believe it was £750 or £1,500, I could not tell you which. Mr. Cliff and myself have many transactions between us. As a rule there is between £4,000 and £5,000 one way and another to our credit in a running account. Mr. Cliff gave a cheque from the joint account.

814. Supposing the deposit to be £3,000, that would make you responsible for half the amount—£1,500? Yes.

815. Is there any reason why Mr. Cliff should not have informed this Committee of the amount of your share in the matter? I am sure I do not know.

816. Do you know of any reason why Mr. Cliff should decline to inform the Committee how you became interested in the purchase? No.

817. Have you been engaged in any way in connection with the assignment of Sir Henry Parkes' estate? No. 818. Not as accountant? No. I have not.

819. Have you received your share of the purchase money for this land? I have not.

820. Have you had any conversation with Mr. Cliff concerning this matter since the completion of the purchase by the Government? I have only met Mr. Cliff once since my return from Melbourne. No mention was made of the settlement at all; I heard from the papers indirectly, however, that a settlement had been made; Mr. Way, the solicitor, I think told me.

821. Mr. Abigail.] Did Mr. Cliff tell you that he was buying this land for the Government? No.

822. Was it bought as a general speculation, or for the direct purpose of selling it to the Government? It was bought as a general speculation.

was bought as a general speculation.

823. Had you prior to this transaction any conversation with any member of the Government or any civil E. Taylor, Esq. servant from whom you received information as to the intentions of the Government in this matter? do not know any member of the Government.

824. Is there anything in connection with this transaction which has led you to have the opinion that it is 27 Oct., 1887. a swindle? Certainly not.

825. Mr. Chapman.] You were aware at the time that the Government had power to resume this land?

826. Chairman. If you were convinced that this transaction really was a swindle, considering that you were participating in it to the extent of a one-fifth share, would you be prepared to swear before this Committee that it was a swindle? I certainly would. You charge me with a swindle, and I will soon let you see whether I would stand it or not.

827. I do not accuse you of any swindle, but Mr. Abigail has asked you a certain question which you have answered. You are an interested party in this matter, and what I want to know is whether, if you were aware that it was a swindle, you would be prepared to admit the fact? I would. aware that it was a swindle, you would be prepared to admit the fact?

828. Mr. Abigail. If you knew that this was a swindle, and had been called here to testify to the fact on oath, you would tell the truth? I would, undoubtedly.
829. Mr. Gould. At the time Mr. Cliff spoke to you about this business you were not aware that the

Government had any intention of resuming or purchasing? No. 830. Mr. Black.] You never discussed the matter with Mr. Cliff? I never discussed the matter at all.

My position was merely one of financing.

831. Mr. Chapman.] Do you now think for one moment that there is anything dishonest in the transaction? I do not.

832. Mr. Gould.] I suppose you considered that it was a good speculation, that there was money in it? I certainly did think so.

833. Mr. Black.] I understand you to say that in going into this speculation you relied entirely upon Mr. Cliff's judgment in taking you into it? I did entirely.

834. Mr. Abigail.] Have your other transactions with Mr. Cliff turned out well? Very well indeed.

835. Basing your judgment upon past transactions you went in for this? Yes.
836. Chairman.] You must have held a security in this matter? Yes; in the event of the money being wanted I would have paid it up and held the security.
837. You would have paid up the whole £20,000 if necessary? Yes.

838. I suppose you would have taken the bills of the other gentlemen for their proportions, and would have held the deeds? Yes.

839. Then, as a matter of fact Mr. Cliff would have had to find nothing but the security which he would give you for the money? Yes; he would have had to find some money.

# WEDNESDAY, 2 NOVEMBER, 1887.

### Present:

MR. ABIGAIL, Mr. BLACK, Mr. BRUNKER, MR. BURDEKIN, Mr. CHAPMAN

MR. R. BURDETT SMITH.

#### N. MELVILLE, Esq., in the Chair.

The Honorable John Fitzgerald Burns called in, sworn, and examined:-

840. Chairman.] I believe you desire to make a statement to the Committee, will you proceed in your own way? With your permission I will make a short statement, and then submit myself to any J. F. Burns. examination you may think fit to make. I have desired to be examined by this Committee, and, with all 2 Nov. 1887. respect to the Chairman, may I say that I demur to his reference to me on several occasions as having 2 Nov., 1887. been a shareholder of the A.S.N. Company at the time of the purchase of their property by the Government. There is a close association between the purchase of that property and the property adjoining, in reference to which this Committee is now bell in the second to be examined by this Committee is now bell in the purchase of the property and the property adjoining, in reference to which this Committee is now holding an inquiry.

841. You refer to the property on the plan (Appendix A.) showing the water frontage? Yes, that is the property to which I refer. I may say that I believe that several Governments had contemplated the purchase of the wharfage property of the A.S.N. Company; and it is the view of the present Government that the whole wharfage in Sydney Cove should be in the hands of the Government. On this subject coming before the present Government I was at the time a shareholder and a director of the A.S.N. Company. When the matter came before the Cabinet I requested that it should not be dealt with until I pany. When the matter came before the Cabinet I requested that it should not be dear with until I could sell out of the Company, and the more so as properly speaking any question with respect to the purchase of, or the management of, the wharves came within my Department. My colleagues thought there was no occasion for my taking that course. It was foreseen that to do so would involve a sacrifice on my part, yet I persisted, and authorised Messrs. Jones & Black to sell my shares. I find from the account sales of Messrs. Jones & Black that they were sold in the month of May at £9 10s. per share, the net proceeds being £658 7s. The shares were sold in the open market, and I have no knowledge of the purchasers. The account sales were sent to me by Mossrs. Jones & Black with a cheque for the proceeds. I was aware that in making the sale I was submitting to a large sacrifice, because, as a director, I felt satisfied from the estimate put by the directors upon its assets that the shares would eventually return from £16 to £16 10s. per share. Since then £15 per share has been returned to the shareholders, and at the present time there have been buyers for the residue of the assets at the rate of £1 per share. Up to the present time my loss through the sale of these shares represents £455. I may say that at the same time 1 resigned my seat on the directorate to the great regret of my co-directors. The property was not purchased, nor, as far as I can recollect, were any negotiations entered into for its purchase prior to my selling my shares in the Company.

812. You refer to the A.S.N. Company's property? Yes. I cannot fix the order of dates. The Cabinet authorised Mr. Henry Gorman to take steps for the purchase of the adjoining property, as in its opinion it was important that that property should be purchased before we purchased the property of the A.S.N. Company, and the matter, as far as I recollect now, was left in the hands of Mr. Gorman to negotiate. There were reasons why the Government desired to secure this piece of land with a water frontage which

The Hon. J. F. Burns. 2 Nov., 1887.

might be called of a special character. It has been the desire of the Government to provide additional accommodation in Sydney Cove for large ocean-going vessels, and to erect a jetty near Fort Macquario where the Government boats at the present time are located. Mr. Moriarty is now preparing plans for the erection of a jetty there for the P. and O. Company, which is prepared to take it on terms which will give the Government a good return for the investment. It is proposed to remove all the Government boats from Fort Macquarie to this piece of land adjoining the A.S.N. Company's wharf. We have also been urged on several occasions to make arrangements for the more harmonious working of the traffic in Sydney Cove, and we shall require all the water frontage from Dawes Point to Fort Macquarie to carry out the proposals made to us, which we intend, so far as we can, to carry into effect, in reference to that out the proposals made to us, which we intend, so far as we can, to carry into effect, in reference to that traffic. I may perhaps be allowed to add, with respect to the purchase of the property of the A.S.N. Company, that I had, of course, as a director of the Company, a special knowledge of the value of that property, and after I had sold out of the Company I had to join with my colleagues in determining what price should be offered for its purchase. The Company first asked £300,000, which sum we declined to give. We offered £275,000, and a meeting of the shareholders was held, I believe, to consider whether our offer should be accepted. The meeting, so we were informed, I think by the Chairman of the Board by letter, approved of the sale at £275,000. Since the conclusion of the sale I have taken possession of the property on help of the Government and at the same time obtained from Mr. Doyle, who had been the property on behalf of the Government, and at the same time obtained from Mr. Doyle, who had been the property on behalf of the Government, and at the same time obtained from Mr. Doyle, who had been acting as wharfinger for the A.S.N. Company, a statement as to the rents and profits of this property. I hold that statement now in my hand. Mr. Doyle holds the probable gross receipts at £19,700 per annum, and the working expenses, including all incidental charges, at £2,500, which would leave a net income from the property of £17,200 a year. The property will therefore, in all probability, realise 6 per cent. on its cost to the Government. My recollection of the matter is that there was in the first instance a communication from the Chairman of the A.S.N. Company on the subject of the Government purchasing this wharfage property.

843. That communication then will be in existence in the office of the Colonial Secretary? It may have been verbal. I know it was mentioned that he had been communicating with the Colonial Secretary upon the subject of this property; but whether the communication was in writing, or whether he called to see the Colonial Secretary, I cannot say. In discussing that matter the question of securing the piece of land adjoining was suggested, but by whom I cannot recollect. I do recollect that it occurred to me in common with others that it was very natural that we should endeavour to secure that property, and of course that we should not give a large price for it. If the owners got to know that the A.S.N. Company's property was in the hands of the Government, who would be likely to improve it, together with the whole navigation of the Cove, they would naturally look for a higher price, and we decided that it was desirable to put some person in motion without mentioning that the Government were the purchasers with a view to securing the land for the Government. On a later occasion the whole matter of the purchase of the two properties was postponed in deference to my wish. I cannot fix from memory the order in which the business was done; but I recollect that Mr. Henry Gorman was the gentleman who was named to act on

behalf of the Government in securing this land.

814. Are you aware as a matter of fact that Mr. Gorman was commissioned to secure this land adjoining the AS.N. Company's land on behalf of the Government? I believe he was.

845. Can you say after he was so commissioned what happened with regard to that particular piece of land? I recollect that there was a report from Mr. Gorman, and that a price was mentioned.

846. I believe the price he mentioned was £31,000? I think it was. I observe that his letter about the land is dated the 8th June; this confirms my recollection of events, for I find that my shares were paid for on the 20th May.

847. Can you tell us what took place when the offer of £31,000 was submitted to the Cabinet? I think it was reported to the Cabinet that £31,000 was asked. The amount was mentioned, but I do not suppose the letter would be read. I think that directions were given to try to get the land at a lower price.

848. Do you remember whether any sum was named? I do not recollect.

849. Was any one member of the Cabinet commissioned to fix a lower price? I do not think so. I am now speaking of a matter of detail which would not have struck my attention very closely, but I think it is very likely that it was left to the Colonial Secretary to try and get Mr. Gorman to negotiate for a lower price if he could get it.

850. Do you recollect whether £29,000 was decided upon by the Cabinet as the price to be given? I think Either the Cabinet was aware that the land might be had at that price and approved of it, or the

matter came before the Cabinet by way of endorsement, 1 forget which.

851. The offer of the land at £31,000 was made known to the Cabinet? I think so.

852. Can you tell us whether the Cabinet at that time fixed £29,000 as the price the Government would give I cannot state that positively. I know a desire was expressed to get the land at as low a price as possible, and £31,000 was discussed as a price for the property, but whether we fixed £29,000 at the time as the maximum price I cannot say.

853. You will see from the correspondence that Mr. Gorman submitted to the Cabinet meeting of which you speak, the offer of £29,000? I see a letter from him to that effect.

source of \$29,000? I see a letter from him to that effect.

854. But on whose authority would Mr. Gorman offer £29,000? Of course on the authority of the Government as conveyed no doubt through the Colonial Secretary. It would be for his Department to conclude the negotiations. Properly speaking the matter would be in my Department; but as I kept aloof from the thing it would be in the hands of the Colonial Secretary.

855. Are the Committee to understand that the Colonial Secretary in offering £29,000, did so with the concurrence of his colleagues? I think it must have been done with their concurrence, If £29,000 was actually the sum mentioned to be offered to the vendors. I believe that the Cabinet finally approved of the purchase of the land at £29,000; but whether that was prior to the purchase, or to its being reported, I cannot say at the present moment. I cannot say at the present moment.

856. Do you remember whether the Cabinet decided to purchase at £31,000? I think the Cabinet decided

to ask Mr. Gorman to try and get the land at a lower price.

857. But that in the event of his not being able to get it at a lower price he should give £31,000. That I

858. But I suppose you took part in the discussion in the Cabinet? Yes.

859. Did you approve or disapprove of the purchase of this property? I felt the necessity for the Government

29

Government getting the property as part of the scheme we proposed to carry out in regard to the navigation of Sydney cove; but naturally 1 did not desire to give more for the land than it could be bought for. J. F. Burns. 860. Did you approve of the property being purchased for £29,000? I think I must have done so. 861. Did you approve of the property being purchased at £31,000 provided it could not be purchased at 2 Nov., 1887. a lower sum? I think I had the impression that it was a high price; but as a rule when Government wish to purchase property they do not always contrive to get it at as low a price as other persons who are not compelled to buy. In this case we were forcing on the purchase of the A.S.N. Company's property, because the Company was liquidating, and we wished to secure the land. It was quite reasonable that the Government should be disposed to give a little extra for this property so as to have it as part of the whole purchase.

862. But as a matter of fact, Mr. Burns, was not the purchase of the A.S.N. Company's property in suspense pending the completion of the purchase of this land? I do not know as to its being actually in suspense. Negotiations for both were going on simultaneously. I do not think it was in suspense. As I explained before, the whole matter of the purchase of the A.S.N. Company's property was postponed at

my urgent request.

863. Do you know whether any other member of the Cabinet expressed an opinion as to the value of this land? I can only state generally that we all felt that we had to purchase the property, and to get it at as

low a price as we could.

864. Then as a matter of fact you were favourable to the purchase of this property? I was favourable to

the purchase of the property.

865. If the Colonial Secretary, when before this Committee, stated that you were not favourable to the purchase of this property, would that statement be correct? My opinion was influenced in some degree by the price. I was in favour of purchasing the property, but not of paying too high a price.

866. Did you consider £31,000 too high a price for the property? I believe I did.

867. Was this property offered to the A.S.N. Company during the time you were a director? No; I think not. I never heard it mentioned at any Board meetings, and I certainly must have heard of it if it had been offered because I attended the meetings very regularly, and if I had not been present at any

had been offered, because I attended the meetings very regularly, and if I had not been present at any one meeting I should have been present at the subsequent meeting, and I should have heard of the matter when the minutes were read. It was not offered during the time I was director of the Company.

868. Were you a director of the Company in the seventh month of the present year? I had sold out

then, and I abstained from any interference in the Company's affairs for some time before I sold out.

869. Was any valuation made of this land by any person for the Government previous to its purchase? I do not recollect. I suppose you would have some evidence on this point from some one else, but I cannot recollect any case of valuation. There may have been a valuation.

870. Was any valuation made of the A.S.N. Company's property previous to this purchase? I do not know of any valuation but I may state for the information of the Company's that is that matter I

know of any valuation, but I may state for the information of the Committee that in that matter I was prepared to go on my own judgment, for I had a knowledge of the wharfage charges independent of any valuation, and I felt satisfied that it was a good purchase for the Government at about £275,000. 1n that matter I should have acted upon my own judgment.

871. In other words you were in a position to value the property? Yes.
872. Have you any particular knowledge of the piece of land immediately adjoining the A.S.N. Company's land, were there many improvements upon it? I have seen it frequently, but I do not think there were many improvements on it. Of course it is capable of being greatly improved.

873. What amount of commission had Mr. Gorman to receive for purchasing the land? I do not know;

that is a matter of detail into which I did not inquire.

874. Mr. Chapman.] Can you tell us why Mr. Gorman was called in to purchase this land? Well, I presume he was asked as a responsible gentleman to negotiate the purchase on behalf of the Government, because he would be a likely man to do the business satisfactorily, and on the best terms he could. I think I need not remind the Committee that, for the most part, when anyone has property for sale and faucies the Government requires it for any special purpose his estimate of the value of the property immediately goes up. We were anxious that Mr. Gorman should not negotiate in any way which would give the impression that he was purchasing for the Government. We were compelled to employ some agent. If any member of the Government went to purchase, people would suspect at once that he was purchasing on behalf of the Government.

875. Are you not aware that Mr. Mills is the valuator of property about to be resumed by the Government? I do not know of any obligation to employ Mr. Mills or ary particular auctioneer.
876. But are you not aware that he has been employed on nearly all occasions? I know that he has been employed in connection with some railway land resumptions, but in the Department I preside over I have had some matters in connection with which I have never yet employed Mr. Mills, not from any objection to that gentleman, but from the fact that others have been doing the work, both while I have been in office and while previous Governments have been in office. I never thought of Mr. Mills as an auctioneer in connection with the sales to which I refer. I am not aware that he is Government auctioneer in the sense of there being any agreement on the part of the Government that he should do their business.

877. Did it never strike you that the Government had the power to resume this land? power exists, but the Government do not profit by resumptions such as you suggest. I think that the experience of all Governments has been that when they resume property which has been valued they pay too high a price for it, and that a negotiation for purchase is better for the Government than a compulsory

resumption.

878. Can you state any one instance in which land has been resumed in which the Government has paid more than the valuation for it? I think if you take almost any instance in which the Government has resumed land and it has been a question of arbitration, the general impression is, without stating any one case, that the Government do not get the best end of the bargain. We were anxious, in this instance, to avoid resumption. If I had been acting on my own behalf with the power of the Government I should have preferred negotiation to resumption, unless I found that the owner of the property was asking an exorbitant price, which I might have an opportunity to reduce by means of resumption.

879. Yet you say that you thought £31,000 an exorbitant price for the land? I made no statement of

the kind.

880. Did you not state that you thought the price was too high? I did not say that. I said that I thought when £31,000 was mentioned that it was a high price to pay.

The Hon. J. F. Burns.

881. You thought so? Yes.

J. F. Barns. 882. You thought it too high then? I did not say too high, I said a high price to pay.

2 Nov., 1887. 883. Did it not strike you then that the Government should resume? My impression was that it would be far worse if we went to resumption.

884. But the Government knew that this property was purchased by Mr. Cliff for £20,000? No, that is not so. I did not know who the vendor or the holder was.

885. Do you know by report that Mr. Cliff purchased this property? I did not know then, and I do not know now at what price he purchased. I hear so many unfounded statements about the matter that I pay no attention to them. As a matter of fact I did not know at the time who owned that property when the Government opened up their negotiations to purchase, and I do not know now, except by report, by whom it was sold to Mr. Gorman. I have heard so many statements about this matter which are utterly false that I pay no attention to any one of them. I have heard the statement made in a most public place that this property was officied to the A.S.N. Company, and to Mr. Dalton, M.P., for £7,000. If I were called upon to offer an opinion with reference to either of those reports I should feel bound to state that they were not true.

886. Then you say that Mr. Mills is not appointed Government valuator? I do not say that.
887. Do you know that he is not? I know that he is acting as auctioneer or valuator for the Government in some transactions; but I am not aware that there is any gentleman who holds the position of Government auctioneer. I know that in practice different Governments employ different auctioneers, in fact different auctioneers have been employed during the same administration. There has been no Government auctioneer, so far as I know, such as you assume Mr. Mills to have been, to act for them in all transactions such as that before the Committee. I had before me a short time ago a question of sale by auction in connection with the abattoirs. There is a case in point. These sales have been in the bands of different auctioneers, and they have been changed about since the time Mr. Mills has been acting for the Government. In no case her Mr. Mills eated for the Government in the sale of these leases. the Government. In no case has Mr. Mills acted for the Government in the sale of these leases.

888. Are you aware that Mr. Mills was the party who sold to the Government? So it has been reported. 889. Did it not strike you as strange that Mr. Mills who was Government valuator should sell this property to the Government through Mr. Gorman? I think there is nothing at all strange about that. If Mr. Mills sold the property to the Government, as I am informed he did, I do not apprehend that he was obliged to sell to the Government any property or that on the other hand he was obliged to decline was obliged to sell to the Government any property, or that on the other hand he was obliged to decline to sell any property to the Government. If he had property for sale in common with all other auctioneers I presume it was open to him to sell to the Government or to any other purchaser.

890. Have you any idea of the commission to be paid for the purchase of this land? I have no knowledge about commission. That is a matter of detail about which I give myself no concern.

891. Is the land paid for? It is paid for.
892. Then what is the use of this inquiry? That is a matter for the Committee to consider. The payment for the land is quite distinct from the work of this Committee. The Government completed a bargain to purchase this property, and they had to pay for it. That they have done. Allegations have been made as to impropriety in the purchase of this property; but the Government purchased it in good faith, and so far as I know, the whole transaction has been bond fide, and there is no reason why the vendor should not be paid. As a matter of fact he has been paid.

893. I presume that the land is paid for through your Department? Through my Department 894. Would not the commission be paid through your Department? At the present moment I can recollect no question of commission. I do not know how the commission was settled. I have a keen recollection of having to find the £29,000 to pay for the land. When sums of that amount come before me they arrest my attention; but I pay smaller accounts which are not of much importance, having satisfied myself that they are correct, without giving them very much attention, and hence the commission

in this instance may have been paid without arresting my notice.

895. Mr. Brunker. You said just now that Mr. Gorman was employed by the Government to so purchase this land that the action of the Government might not be known to outsiders? Yes.

896. Do you know that it was a condition made by Mills & Pile, in negotiating with Mr. Gorman, that it was only upon condition that the Government got the property that it should be sold for £31,000? I think that came afterwards. At the time we gave instructions to Mr. Gorman to enter into negotiations we had no knowledge whatever of that condition.

897. Do you know when instructions were first given to Mr. Gorman to negotiate the purchase, or could you ascertain? I think that first took place after I represented to the Cabinet that I was clear of the

A.S.N. Company.

898. That would be after May? Some time in May, I think.

899. And you are quite clear upon this point, that no negotiations were concluded with regard to this property of Josephson's previous to the purchase of the A.S.N. Company's wharf? I recollect he Cabinet thought that we ought to buy that property first, and I presume that that was done. I cannot fix the dates, as I have no papers at hand.

900. You are perfectly clear that the property was never offered to the A.S.N. Company for £7,000?

Not while I was interested in the Company.

901. If that offer had been submitted it would have come under your notice? Yes; and if the Company had not taken the land for £7,000, I should have found a purchaser for it at a considerably higher price. 902. You knew at the time that the A.S.N. Company did not wish to extend their operations? I know that the A.S.N. Company having strong competition for their shipping business opened up negotiations in England either to amalgamate with the Company of which Mr. Dawes is the Chairman, or to sell to them, and at that time the Company did not wish to add to their freehold property. The feeling of the them, and at that time the Company did not wish to add to their freehold property. The feeling of the Board was that we already held too much freehold, and that it would be better for the Company had they leased more and bought less, athough the freehold, and that it would be better for the Company had they leased more and bought less, athough the freehold properties had increased enormously in value since they were first secured by the Company. If the offer had been made then it would have been a matter of consideration as to what should be done, but if the property was offered at the price you named, a purchaser would soon have been found for it at more than double the price.

903. When you state that you considered £31,000 a high price for the property you meant to say that although you considered it a high price—this property having a special value to the Government—if the vendor had not accepted £29,000 you would have felt it your duty in the interest of the public to have given £31,000? That is about the state of the case

given £31,000? That is about the state of the case

904. Mr. Gorman, I suppose, as agent for the Government, would be paid a certain rate commission for J. The Hon. his negotiations? I do not know what were the J. F. Burns. terms upon which he acted for the Government.

905. But you know the usual custom in these matters? I do not know that the question of his 2 Nov., 1887. remuneration came up in my presence. My mind was more bent upon the price which should be paid for

the property

906. But Mr. Gorman having been employed to negotiate the sale he would receive some consideration? I know that auctioneers, like brokers, sometimes divide commission. Supposing an auctioneer had property in his hands without a purchaser and another auctioneer were to go to him and say, "I have a buyer for the property you have for sale," they would perhaps divide commission. I know that is sometimes done.

907. You do not know whether Mr. Gorman received any consideration or not? I do not know how he was paid.

908. But he would have to be paid through the Treasury? If he had an account it would come to me for payment.

909. You have a pretty good knowledge of the value of landed properties yourself? I have a slight

knowledge.

910. What is the commercial value of this property apart from its special value. It has a frontage of 75 feet to George-street and of 113 feet to the Cove? Well, the A.S.N. Company offered their property at auction some time ago, and there was not a purchaser. There might have been a similar experience with regard to this property, yet it would have an intrinsic value.

911. But what was the commercial value apart from its special value? As the Government have bought it I decline to offer a price as its value now. I would rather not fix a value now as we have purchased it. I may state that some estimates I have heard placed upon it are ridiculous.

912. Mr. Chapman.] What were they? Well, the statement for instance that the property was offered for £7,000.

913. Mr. Brunker.] If Mr. Cliff purchased it for £20,000, do you think he got it cheaply? I would say

that it was a cheap purchase.

914. Chairman.] Can you not tell us the commercial value of the land apart from the fact that the Government were about to purchase the A.S.N. Company's property? Of course the purchase of the A.S.N. Company's property would enhance its value. For some time past there has been an agitation for the reorganization of all the traffic as regards Manly, North Shore, and the Parramatta River. It was known that this property would enable the Government to carry out improvements: for instance, putting up a lot of new piers for steamers.

915. These improvements would give this land a special value? Yes. I do not wish to enter into a speculation as to the special value which this property would derive from the improvements; but speaking for myself, I should prefer to purchase it before the Government obtained the A.S.N. Company's wharf

than afterwards.

916. Mr. Chapman.] I thought the purchase was made before the A.S.N. Company's wharf matter was settled? Yes; but that has no connection with the answer I have now given. The Government desired to obtain this property before it was known that the A.S.N. Company's property would be wanted by the

917. Chairman.] You say that in your experience it is usual for auctioneers and brokers to share commission? I do not know that it is usual, but I know that it is sometimes done.

918. You said the circumstances under which it generally took place were those in which a seller had not a purchaser? I said that the statement I made would apply both to brokers and auctioneers. times when an auctioneer has property for sale and another auctioneer brings him a buyer, it is the practice to divide commission. Of course it is not always done. There are auctioneers, who, if an outsider were to come to them and were to offer to negotiate a purchase of a property, would decline to entertain the matter; but when auctioneers of equal standing are acting, I believe, from what I learn, that it is often the practice to divide commission when the purchasers and to be property. 919. Do you consider that this purchase was of such a character as to warrant the division of the commission? I do not know. I know nothing of the negotiations between Messrs. Mills & Pile, who I am

informed acted for the vendors and Mr. Gorman; that is a matter entirely beyond my knowledge.

920. If it has been stated in evidence before this Committee that Mr. Cliff having had this property placed under offer to him by letter placed it in the hands of Messrs. Mills & Pile for sale, and before he had left the office or any other business had taken place Mr. Gorman entered and opened negotiations for the purchase of the property, revealing the fact that the Government were the purchasers—would you consider that a case in which commission should be divided? I have never seen the letter to which you refer, and I know nothing of the negotiations between the auctioneers.

921. I am merely telling you what has been given in evidence before the Committee, and I ask you as one of the persons interested in this purchase for whom Mr. Gorman was acting, whether you consider that it was a case in which commission should be divided? I am perfectly willing to give you my opinion on the matter from an imperfect knowledge of the facts. I can see no objection to commission being divided if it were honorably done, and if Mr. Gorman exercised all the power he possessed to buy the land at the lowest price at which it could be obtained. If, after having done that, he proposed that the commission should be divided, it does not seem to me that the transaction is one to which any exception can be taken.

922. Can you remember what members of the Cabinet were present when this matter as to £31,000 or £29,000 being the purchase money was being discussed-were all present? I think so. I cannot state

that with any pretence to being positive.

923. Mr. Abigail was present, I presume? I do not know, I cannot tell who were present.

924. Mr. Abigail states that he was present—can you remmember if he said anything about the purchase? I do not recollect Mr. Abigail in particular making a statement in regard to the purchase.

925. Was Mr. Clarke, the Minister for Justice, present? I think Mr. Clarke was present.
926. Do you remember if Mr. Clarke passed any remark as to the value of this land or the purchasing of it? I do not know.

927. Would you try to refresh your memory? It is not easy trying to refresh your memory about a matter which occurred a long while ago, to which I would not give much thought. When a discussion takes place

The Hop. J. F. Burns. 2 Nov., 1887.

amongst any body of gentlemen who have to deal with a matter of business, unless some member takes a leading part in that business with regard to the decision of the question you do not notice what he may say. 928. Have you heard Mr. Clarke charged with having an interest in this purchase—the money of this purchase? I have heard the whole of the Government charged with having an interest in it.

929. Have you heard Mr. Clarke charged by Mr. M'Elhone in the Assembly? I have heard a number of

charges with no foundation, against different members of the Government.

930. Have you heard Mr. Clarke charged in the Assembly with having an interest in this purchase? have. Before the recess Mr. M'Elhone made some statements in the Assembly in reference to this purchase, and he made a statement to the effect that Mr. Clarke was a partner with Mr. Cliff. I recollect that.

931. Would not the circumstance of that charge being made against one of your colleagues cause any action which that colleague had taken in connection with this matter to be permanently fixed upon your

mind? Not necessarily, because these charges are so frequent.

932. As a matter of fact, did Mr. Clarke, or did he not, take any part other than voting for the purchase of the land; did he specially advocate the purchase? I do not know that Mr. Clarke took any special interest in the matter. I recollect that he was present, but I do not recollect that he took any specially active part or any special interest in the settlement of the matter.

933. Then, as a matter of fact, you were the only member of the Cabinet who offered any objection? I recollect that I entertained an opinion, which I think I expressed, that £31,000 was a high price to pay

for the land.

934. Then, upon your expressing that opinion you do not remember whether Mr. Clarke expressed any opinion? I do not recollect his doing so.

935. Did Mr. Inglis? I do not know what the members of the Government individually did upon the matter. I know that I expressed an opinion, and I think the consequence of our discussion was that Mr. Gorman was to make an effort to get a little lower price.

936. If the owner of that land has stated before the Committee in evidence that he would have been willing to sell it to the Government for £20,000 would the probability not be that if Government had resumed the land they would have got it for less than £29,000? I do not think so.

937. Why? It is very easy to make a statement after the fact. You ask my opinion, and I will give it freely. When the first owner of a piece of land finds that some other person has realised a large profit by selling to the Government it is very easy for him to say that he would have been satisfied with £20,000; but if the whole of the property were resumed for public purposes he would not have been less

active in getting what they call the Government price for it than anyone clse.

938. Do you know of a case in which holders of a property after the Government have resumed it have received the price which they demanded before the resumption? There may be cases of small resumptions of land, where people have taken the price they first proposed to get for it; but with regard to any large property the whole of my observation and experience is that the owners think they have a right to look for a higher price when it has been taken from them by violence, so to speak, for Governmental purposes. 939. But do you know of any case in which the owners of property resumed by the Government have received the price for it they demanded before the resumption? Cases of the kind may have occurred, but I cannot state at the present moment,

940. Do you know of any? No, not at the present moment.
941. Then as a matter of fact all negotiations for the purchase of this property were left in the hands of the Colonial Secretary by the Cabinet? They had their origin with the Colonial Secretary, and chiefly I believe in consequence of my peculiar position at first in connection with the A.S.N. Company, and the property adjoining. Of course we had not thought of purchasing, except in connection with that property. 942. I think you stated in evidence that the A.S.N. Company's property was offered by auction, and that it failed to find a purchaser? Negotiations were entered into privately by some parties to purchase; but I think they fell through, and partly in view of the arrival in the colony of Mr. Dawes, Chairman of the Company which subsequently bought the fleet of the A.S.N. Company. The Board looked forward to that Company which subsequency, sought Company purchasing the wharf.

943. But as a matter of fact was not the property put up to public auction? Yes.

And it failed to find a purchaser? There was no bidder.

Some months;

945. How long was that before the resumption by the Government? Some months; I cannot state exactly. 946. Was it twelve months? Within twelve months I think. I may state that there were proposals to form a syndicate to purchase the property from the Company. I may also state, while on this topic, that some of the largest and most influential shareholders were opposed to the property being sold, and that before I was a member of the Government I was quite prepared to marge the whole of my interest in the before I was a member of the Government I was quite prepared to merge the whole of my interest in the company in the wharfage property of the company—to let the other properties be realised, including the fleets, and to take the value of my shares in the A.S.N. Company's wharf property; and up to the last, I believe, some of the largest shareholders were opposed to the Government obtaining this property, believing that it was so good an investment that it would be better for them to keep it in their hands than allow it to be sold. At meetings of the Company at which I was present, gentlemen who had been identified with the Company for a great many years expressed a decided aversion to any sale of the property, regarding it as one that would be likely to increase in value greatly, and they were prepared to form an assets company to take it over at a price which would satisfy the great body of the shareholders. If I had not joined the Government I should still have remained one of those prepared to take over that property, and to decline to sell it to the Government or anyone else.

947. Has it come to your knowledge that the piece of land which the Government bought, and which is the subject of this inquiry was recently offered to the Chairman of the Company? I have never heard

anything about the offer to the Chairman; I do not know anything about it.

anything about the offer to the Chairman; I do not know anything about it.

948. Has the Colonial Secretary ever stated to you that any such offer was made to Mr. Ewan, the Chairman of the Company, or did he mention the price? Yes; I recollect there was a statement made to us as to the price at which it had been offered to Mr. Ewan.

949. It was in May you sold? Yes.

950. Mr. Ewan is Chairman of the Board of Directors? Yes.

951. Would Mr. Ewan open any negotiation for the purchase of this property without the knowledge of his fellow directors on the Board? That would not be likely.

952. During the month of March of this year? I do not recollect hearing of any offer of the property to the Company. It is quite possible that they had some conversation with the Chairman on the subject.

953.

23

953. Then as a matter of fact you do not know that the property was offered during the month of March to the AS.N. Company for £22,100? I do not know of my own knowledge. I heard a report of some offer having been made to Mr. Ewan; but 1 do not know anything about it.

954. That offer never came before the Board of Directors? No, not so far as I can recollect. It is quite possible that it was brought under the notice of Mr. Ewan; but as at the time we were not purchasing, but taxing to sell appropriate any the absorbalders desired it and we had some to a revolution.

but trying to sell property in all directions, as the shareholders desired it, and we had come to a resolution to sell if we could, the Company at the time not giving the shareholders any return, it is quite possible that Mr. Ewan would let the matter go no further than a conversation.

#### Edward Wrench, Esq., called in, sworn, and examined:-

955. Chairman.] Do you identify this letter (Appendix B.) as one written by your firm placing certain property adjoining the A.S.N. Company's Wharf at Dawes Point, under offer to Mr. Cliff? 1 do. 956. Do you identify that property as marked on this plan? This is a copy of a rough plan I made myself; but this is not the shape of the land. That plan was merely for the sake of showing the fact that the public-house was not in the offer; that there was this right of way, and that there was this 20-feet lane dividing the land. It was in order that it should not be considered as one piece of land. 957. Mr. Brunker.] The property is actually severed? Yes. I produce the surveyor's plan of the property. (Appendix C.) property. (Appendix C.)

958. Chairman.] Would you kindly tell us in your own way what you know of this transaction? In the month of March Mr. Ewan applied to me to know whether we had this property in our hands and for sale. We said, "Yes." He said, "Will you put it under offer to me, and at what price?" I said, "I will see the owners; if they will put it under offer, well and good, and I will mention the price to you." I put it under offer to him with the consent of the owners for the sum of £22,600. I gave him till the

month of April to determine whether he would take it or not. 959. Was that offer in writing? It was. This is a copy of it verified by my signature. This offer was made to Mr. Ewan with the right of accepting it or rejecting it within the month of April. Long before the expiry of the month of April he brought me back the letter, and said, "I decline to buy; there is your letter," and there ended the transaction. In June Mr. Cliff came to us, and asked if the property was still in our hands for sale, and if we would put it under offer to him. I told him then that we had put it under offer for the sum of £22,600, and it had been declined. "Well," he said, "if you will put it under offer to me for £20,000 1 think business may come out of it; but 1 want a few days to make my money arrangements." I got the consent of the owners of the property to put it under offer to Mr. Cliff for the sum of £20,000. Within a few days afterwards he wrote me this letter accepting the purchase. It is dated the 15th June. (Appendix E.) That of course closed the transaction so far as letters could do it. I gave a letter to Mr. Cliff almost in the same terms as that which I gave to Mr. Ewan, the only difference being that in the latter case the words "£3,000 cash on signing the contract" occur, so that there was only a step further to be taken to make the bargain complete. The letters took the matter up to a certain stage, and then we required our ordinary contract to be signed as per our offer. matter up to a certain stage, and then we required our ordinary contract to be signed as per our offer. This is a copy of the contract. (Appendix F). The contract was entered into, the usual advice given to the vendor that we had closed the contract, the £3,000 was received, and there ended the business so far

as 1 or my firm was concerned.
960. Mr. Brunker.] What was the date of the contract? 15th June, 1887.

961. Chairman.] How long had this property been in your hands for sale? For some years.

961. Chairman. I now long had this property been in your names for safe? For some years.
962. Had you received any offers to purchase it, except those you have mentioned? None.
963. Had it been offered to the public in any way? No. It was advertised for safe by auction in April, 1886, but in consequence of my finding out that this lane intersected the land I withdrew it, and the property was not offered. The late Mr. George Graham, who was trustee and solicitor to the estate, differed from me as to this lane, and its being open to the public-house, and their having any right to it, but I stuck out, and then we found it necessary to withdraw the intended auction safe, so that it was never offered.

964. Some years ago did you offer it to the A.S.N. Company? No. 965. It was not in your hands then? I could not tell you whether it was in our hands then or not. It has been in our hands for many years, but the price of £20,000 was always mentioned concerning it, and at that time we found it useless to attempt to get it.

at that time we found it useless to attempt to get it.

966. Mr. Chapman.] The £20,000 was a frost, and stopped the sale? Well, if you like to put it in that poetic way, you may call it a frost.

967. Chairman.] That was the reserve placed upon it? The fact is that we never thought of doing anything with it. £20,000 was spoken of very indefinitely. We said, "This must wait," and it waited.

968. Did Mr. Ewan come to you with regard to it, or did your firm open up negotiations with him? Mr. Ewan came to me at the time I am speaking of, March in the present year.

969. And then the reserve was increased to £22,600? Yes; that is £200 a foot for a water frontage of the fact.

113 feet.

970. After Mr. Ewan refused to negotiate for the purchase Mr. Cliff came? Some time afterwards; one was in the month of April, and the other was in the month of June.

971. Can you remember how many times Mr. Cliff called before your client consented to place it under offer to him; did he call once, twice, or frequently? I think he only called once; he came and asked me whether we had got this property for sale, and we said that we had, and that we had offered it for £22,600 and it had been declined, and he said "If you can get it placed under offer to me for £20,000 I think business will come out of it." These were his words. I recommended the trustees to place it under offer to him for £20,000, believing it to be a very good price for the property, and they allowed me

to do so. It resulted in a contract being signed.

972. What would you have considered a fair price for that property below £20,000? I do not think that

is a question you ought to ask me.

973. This property was in your hands, and you have admitted that the reserve of £20,000 effectually prevented its sale. I am speaking now of years ago. You must not confound years ago with the present

2 Nov., 1887.

Esq. 2 Nov., 1887.

E. Wrench, 974. Why was the increase of £2,000 placed on the reserve when the property was offered to Mr. Ewan?

That was done at the option and at the request of those who were interested—the principals.

975. For what reason; had the property increased in value? I cannot tell you what operated in the mind of my principal. I could not say to my principal "You ought to be ashamed of yourself for asking such a price," or anything of that sort. He says "There is an article; sell it for me; I want so much money for it." I could not go to a man who proposes to buy it and say, "Do not buy it for that price, you can get it for less." My duty is to carry out the instructions of my principal, if I can.

976. But you have told the Committee that the reserve of £20,000 prevented the sale of the property?

Yes; years ago. 977. Mr. Ewan refused to purchase at £22,600? Yes.

978. Did you advise your client to place it under offer at £20,000? I did.
979. Why did you take the £2,600 off? I thought £20,000 was a very fair price.
980. Do you consider £20,000 its commercial value? I consider that an offer of £20,000 ought not to have been refused.

981. Would you have advised your client to have refused £16,000? That is hardly a fair way of putting it. I have not valued the property. I went once to look at it; but found it would take a very long ladder to get from the top to the bottom of it. There is a very steep descent from George-street. When you get through the gate in the wall you find the ground overgrown with weeds, where there is a very precipitous fall, and I value my neck too much to chance these things.

982. As a matter of fact, do you consider that your client got the full value of that property in receiving £20,000? ·1 do. He was satisfied, I was satisfied, and everybody appears to have been satisfied as far as

I was concerned.

983. Had Mr. Cliff offered £16,000 instead of £20,000, would you have advised your client to take it?

Certainly not, in the face of my client's instructions.

984. But you advised him to take £20,000 in the face of his instructions to take £22,600? The first price was £22,600, which was an increase of £2,600 over the original £20,000. Then finding we could not get that, and having a chance of getting the £20,000, I advised his accoptance of it.

985. Supposing you had the chance of getting £18,000, it would only have been £2,000 less than the original sum? I should have submitted it, but I should not have attempted to induce my principal to

accept it. He could have accepted it if he liked.

986. Is it the usual way of doing business for you to share the commission with the buyer when selling a property like that? I never heard of such a thing. When I descend to that I shall shut up my shop. 987. Is it a usual matter of business amongst auctioneers that the seller shares the commission with the buyer? No.

988. It has been stated in evidence before this Committee that Mr. Mills, an auctioncer entrusted with the sale of this property, agreed to halve his commission with Mr. Gorman, the agent on behalf of the Government purchasing the property—is that a usual business transaction? Certainly not. I never heard of such a thing. I will tell you at once that Mr. Cliff did not get a shilling of my commission, and heard of such a thing. I will tell you at once that Mr. Cliff did no never asked for it. He would not have done so twice in my office.

989. If Mr. Mills has stated before this Committee that he is going to share his commission, he being the auctioneer selling, with Mr. Gorman, who was the agent buying for the Government, is that a usual business proceeding? No. Of course there are operations in which there are two brokers acting for the vendor in which an arrangement may be made whereby each participates to some extent in the commission, but they must both be acting in the one direction.

990. Mr. Abigail.] You say you had this property in your hands for years; have you ever hawked it

about? No.

991. If it has been stated in Parliament that this property has been hawked about for a number of years would that be incorrect? Well, I do not know what other people have done.
992. That Richardson & Wrench have hawked it about? No, we have done nothing of the kind.
993. I understand you to say that Mr. Cliff came and asked you if you had the property in your hands for

sale? He did.

994. If it has been stated in Parliament that you wrote to him advising him as a first step to purchase the property as the Government were going to resume the A.S.N. Company's wharf, and would be sure to buy the adjoining land, would that be true? Totally untrue.

995. You never wrote to Mr. Cliff? I never saw Mr. Cliff on the subject until he came to my office with a view of opening from his side negotiations for the purchase.

996. Is it an unusual thing in selling large properties for a party to get a property under offer to him and sell it at a considerable profit even before concluding the transaction? I can only answer part of your question. It is not at all an unusual thing for a buyer to get a property placed under offer to him for a stated number of days; what he does in the meantime does not concern us, and we do not know.

997. But has it ever come to your knowledge that properties have changed hands in this way at considerable profit? I do not know of any; I cannot call to my mind any. I do not consider that it is my duty to see beyond my particular part of the business. If I sell a man an orange for a penny, and he goes and sells it for three half-pence, what has that to do with me.

998. Mr. Black.] Have you made any attempt to sell this land privately? Not within my knowledge. I told you that we put it in the market for auction sale in April, 1886, but in consequence of a difference of opinion between the late Mr. George Graham and myself as to this road it was never offered.

999. Have you ever spoken to anybody privately with a view to selling it? No.

1000. And no offer was ever made to you? No offer was ever made for the property. The only negotiations were by the two persons I have mentioned, who wanted the property placed under offer to them.

1001. Mr. Burdekin.] Has the reserve of £20,000 been placed on that property for a number of years? Well, it has always been spoken of. It has been in our hands with a lot of other properties belonging to the same estate, and £20,000 has always been spoken of as being the selling price.

1002. The price was not at one time £10,000 and at another £15,000? They would not sell it under

£20,000.

1003. For how many years was it in your hands? I could not tell you. It might have been for six, or

seven, or perhaps ten years.

1004. Mr. Brunker.] From your general knowledge of the value of property, what do you consider this property would realise in the market? That is not for me to answer.

1005.

PURCHASE BY THE GOVERNMENT OF LAND ADJOINING THE A.S.N. CO.'S WHARF.

1005. If you were called upon to make an estimate of its value in your business capacity? I have not E. Wrench, been called upon.

1006. But if you were? I should not value it for the purchaser; I should value it for the vendor.

1007. What value would you put upon it? I have never gone into it. I once went to look at it; but got into a funk about it, and sheered off. It is a piece of property that requires great consideration; you must know all the surroundings, and everything else. Individually it is as ugly a piece of land as you could find anywhere in the city of Sydney—a very ugly piece.

1008 Chairman.] Then, in your opinion, the owners of this property got full and fair value for it? They got the value that satisfied them.

got the value that satisfied them.

1009. Did they get full and fair value? Well, I was satisfied to recommend them to accept it.

1010. Mr. Brunker.] With regard to this question of brokerage, it appears that Mr. Gorman was employed by the Government to negotiate the purchase of this property. Messrs. Mills & Pile were acting for the vendors, and Mr. Mills stated in evidence that it was usual to divide commission in such

cases. Has that been the practice with you? Never; nor do I conceive it to be correct.

1011. Except, as you say, when both parties are acting in one direction? Exactly; what are we paid for but to do the best we can for our clients. If I were to take up the other side and accept half the commission I think 1 should be a scoundrel.

#### THURSDAY, 3 NOVEMBER, 1887.

#### Present:—

Mr. ABIGAIL Mr. BRUNKER, MR. GOULD,

MR. BURDEKIN, Mr. CHAPMAN

MR. R. BURDETT SMITH.

# N. MELVILLE, Esq., in the Chair.

Henry Charles Mitchell, Esq., called in, sworn, and examined:-

1012. Chairman.] Do you know the piece of land that was owned by Mr. Josephson, between the A.S.N. H.C. Company's wharf and Dawes' Point, which the Government has recently purchased? Yes.

1013. What is your usual occupation? I am a commercial broker and secretary to the Chamber of Rev. 1887.

Commerce. 1014. Would you kindly look at this plan (Appendix A) and identify the land to which you refer? Yes;

I know the land generally.

1015. Have you had any dealings in city property? I have sold one or two little odd bits.

1016. Have you any knowledge of the value of city property? No.

1017. Do you know Mr. Greig, of the firm of Richardson & Wrench? Yes.

1018. Did you at any time before the public notification that the Government had purchased this property have any conversation with Mr. Greig in reference to it? Never.

1019. Have you had any conversation with him since? No.

1020. Do you know Mr. Thomas Dalton, M.P.? Yes.

1021. Have you had any transactions with Mr. Dalton in regard to city properties? Yes.
1022. Did you at any time, either separately or with other persons, call Mr. Dalton's attention to this

land? I cannot recollect.

1023. Will you try and refresh your memory? I know that Mr. Dalton told me that I did offer the

1024. If he told you so, was he stating the truth? I could not say that he was, and I could not say that he was not. I come over with him in a steamer so often, going backwards and forwards to North Shore, that, seeing the land, I have no doubt I have had conversation with him about it.

1025. Did you ever suggest to him the purchase of it at a certain price? Not to my knowledge.
1026. Is it possible that you may have done so? It is impossible.
1027. Then if Mr. Dalton says that you have done so would it be correct or incorrect? I should say that he had made a mistake. It would be incorrect.

1028. Did you ever open negotiations about this land at all? I spoke about eighteen months ago to Mr. M'Millan. At one time Mr. M'Millan was interested in the principal part of what is called Campbell's wharf. I sold Mr. M'Millan's share in it about eighteen months ago; and shortly after that Dr. Hanson came out from England. I had known him for about thirty-five years, and I said to him, "What about your piece of land?" He said that he would sell it. I said, "What about the price?" He said, "Well, I will not mention a price; see if you can get somebody to go in for it; but it must be somebody who is likely to deal, because we will not have the property hawked."

1029. Was anything said then about the probable price? No.

1030. But how could you find a buyer without knowing the price? I knew that Mr. M'Millan had been interested in a piece of land fronting George-street, and adjoining the southern boundary of Josephson's land. I thought he would have put me on to the syndicate, and I would have talked to them about it as to whether it would not be more valuable to them than to anyone else, because of the road behind the A.S.N. Company's stores, which road belongs to the syndicate, would have given them a better access to Josephson's land than that up from the gateway on the property.

1031. After you spoke to Dr. Hanson about this land, did you offer it to anyone? No, except to Mr.

M'Millan.

1032. Might it not be possible that you spoke to Mr. Dalton about it? No.

1033. What would have been the amount you would have expected to get had you offered it to the syndicate? I do not deal in land sufficiently to know, but if I had asked a price it would have been for the syndicate to judge whether they would give it.
1034. What would you have asked them? Whatever Dr. Hanson told me he wanted.
1035. As a matter of fact, was anything said about £11,000, £12,000, or £15.000? No.
1036. You say that you sold Mr. M'Millan's share in the syndicate for the land immediately adjoining—had you any idea of the market value of the frontage? No.

н. с. H. C. 1037. Did you offer the land to any syndicate? No. Mitchell, Esq. 1038. Did you see Dr. Hanson again? No.

3 Nov., 1887. Did you see Dr. Hanson again? No.
1038. Do you know if he is in Sydney? I believe he is at Strathfield.
1040. Mr. Chapman.] Do you consider that Mr. Greig is a good judge of the value of property? Ho ought to be—it is his business.
1041. You think that he is the state of the value of property?

1041. You think that he is in a position to give us information as to the real value of property in and about the city. I think I should prefer the valuation of the firm of Richardson & Wrench to that of any other valuators in Sydney.

1042. Were you ever in a position to offer this property to Mr. Dalton? No, never; that I am certain of. I know what Mr. Dalton says; he says I offered it to him; but I was never in a position to offer it at a quoted price to anyone, for Dr. Hanson would never give it to me.

1043. But you were in a position to solicit a purchaser? Yes, and the only person I can remember talking to about it would be Mr. Dalton, coming over in the steamer. I believe that he says that I took him to the wall at Dawes Battery, and that we looked over there, but I have not the most remote recollection of such a circumstance.

1044. Mr Abigail.] Your memory is pretty good? I have had two or three other transactions with Mr. Dalton, which I can remember exactly.

1046. Mr. Brunker.] I suppose the property was not in your hands at any time for sale? Not absolutely. 1046. You were in this position: that if you could get an offer which you would consider reasonable you would submit it to Dr. Hanson for his approval? Yes; Dr. Hanson and I were old schoolfellows, and we just chatted matters over. However, he was always very cautious. 1047. Mr. Abigail.] He would never state a price? He never stated a price to me.

1048. You are quite sure that you never offered the property at any price to Mr. Dalton? I am positive, 1049. Yours were ordinary conversations in travelling to and fro on the steamer? Yes, more often than anywhere else.

1950. Chairman.] Did you and Mr. M'Millan ever have any conversation about the price of the property? No; when I asked him if it would do for the syndicate to buy, he said, "I do not know; I might think of it." He then, as I know outside, sold the balance of his share in the syndicate to somebody, and took no more interest in the matter.

1051. Do you know what the whole property was? I know that he had a certain share of a share.

1052. Do you know what the whole property was? No; I only know it was the land from the junction of Hanson's land and George-street down to the old gateway of the A.S.N. Company, with the exception

of land on which stores are placed by Virgo, Son, & Chapman.

1053. You do not know the area? No.

1054 Do you know anything about the price? No; I only know that I sold half of Mr. M'Millan's share, and I think it realised £315.

1055. Do you remember whether on the day on which Mr. Dalton says you showed him this property from the wall of Dawes Battery you showed him other city properties? I offered him on one occasion a piece of property down at Washington-street, off Sussex-street, for £2,000. I remember that he offered me £1,400.

1056. Might the viewing of this land have taken place on the day you showed him that property? It is possible, because I took him down in a cab.

1057. Would it be in the same direction? No; one property was in Sussex-street; but having a cab, I might have said, "Come and look at this place of Hanson's while you are out."

1058. How long ago is that? Four and a half to five years ago.

1059. You do not remember going to see this land with Mr. Dalton? No. I was thunderstruck when he spake to me shout it going ever in the attention that the property was in the attention of the street of the

he spoke to me about it going over in the steamer when this purchase was announced. He said to me, "Do you not remember that is the land that you offered to me for £7,000." I said, "No, I do not remember.

1060. Mr. Brunker.] In fact you were never in a position to offer it for that price? No; not for any

price, I have turned up my books.

1061. But you could not have forgotten a thing of that kind? No; I am positive about it.

1062. Chairman.] How long is it since Dr. Hanson's return to the colonies? About eighteen months.

1063. Might this viewing you spoke of by Mr. Dalton and yourself over the wall, have taken place since Dr. Hanson's return, or might it have taken place before? I am positive it did not take place since his

1064. If it did not take place since his return, with which of the owners of the property did you have any conversation previous to Dr. Hanson's going home? Any conversation I had with him must have been before he went home.

1065. Do you remember any particular conversation? It would only be general. He would never quote a price. I think he said to me, "If you know anyone who is likely to take a piece of land like this, see me, and let us see what can be done."

1066. Do you know if Dr. Hanson would have consented to receive £18,000 for the property? I do not

1067. Would be have received £20,000? I do not know.

1068. Is it a usual thing for you when you have properties at your disposal to go and see the purchaser, without knowing what the vendor will take? It would be unusual, no doubt; but as I have already stated, Dr. Hanson and myself were old schoolfellows, and our conversations have been more in a friendly way. There was nothing binding in any of our conversations.

The Honorable Francis Abigail (a member of the Committee) sworn and examined:—

1069. Do you identify the land on the plan (Appendix A) as the land recently purchased by the Govern-The Hon. ment for the sum of £29,000? F. Abigail.

3 Nor., 1887. and by whom it was brought? My attention was first directed to this land when I went to Dawes Point with other members of the Government to inspect a site which had been granted to trustees

appointed by the late Government for a naval home. Several members of the Government then pointed to this land, and made inquiries about it, seeing that it was between Dawes' Point and the A.S.N. Company's property.

3 Nov., 1887.

1071. Do you remember who was with you on that occasion,—that is to say, what members of the Govern-

mont? Sir Henry Parkes, Mr. Burns, Mr. Roberts, Mr. Inglis, Mr. Salomons. 1072. Were there other persons there? Mr. Ives was there, Captain Lake of "H.M.S. Nelson," and one or two other gentlemen who had been appointed by the late Government trustees of the land to which I have referred.

1073. What followed upon that? After that the matter of the purchase of the A.S.N. Company's land was brought up at a Cabinet meeting. Then this land was spoken of, and it was suggested that it would be better to take no steps to commit the Government to the purchase of the A.S.N. Company's property until they had acquired the other piece of land.

1074. Do you remember by whom that was suggested? I think Mr. Burns mentioned the matter, but I could not say for certain. When nine or ten gentlemen are sitting at a table in conversation it is

impossible to remember what each one of them says.

1075. But cannot you tell the Committee definitely what member of the administration first brought this

matter under the notice of the Cabinet? Sir Henry Parkes.

1076. What was done on that occasion? The question was postponed, and at a subsequent meeting the

matter was brought up again by Sir Henry Parkes, and the Cabinet decided that steps should be taken to ascertain at what price this land could be acquired by the Government.

1077. Do you know if any person was instructed to do so? Mr. Gorman was selected by the Cabinet to negotiate the purchase, as he had acted for the Government in the past in land transactions.

1078. What followed—Mr. Gorman reported, I presume? Yes; it was reported to a subsequent Cabinet meeting that the price asked was £31,000. The Cabinet thought that they would have to purchase the land, but urged that steps should be taken to see if it could be obtained for a less sum.

1079. Was any smaller sum stated by the Cabinet? I believe it was stated that if the land could be pur-

1079. Was any smaller sum stated by the Cabinet? I believe it was stated that if the land could be pur-

chased for £29,000 the purchase should be completed.

1080. Upon what grounds did the Cabinet arrive at the fact that £29,000 was a fair price for this property? They reckoned the water frontage in some measure, and the George-street frontage. They had knowledge, I think, of what the George-street frontage had been sold for, and they estimated the price of the water frontage by the A.S.N. Company's land, and calculated it by that.

1081. You say that the Cabinet had a knowledge of the frontage? We knew that there were 113 feet of

water frontage.

1082. But how did they arrive at the value of the water frontage? It was merely an estimate.

1083. What was the estimated value of the water frontage according to the Cabinet? Something like £200 a foot.

1084. Can you tell the Committee which member of the Cabinet suggested £200 a foot as the value of the water frontage? No one suggested £200 a foot; in fact, in conversation it was stated that it was worth more than that.

1085. Did any member of the Cabinet suggest that any Government officer or competent person should be sent for to value the land? No.

1086. In what way then did you arrive at the conclusion that the land would be worth £200 a foot? We took into consideration the extension of the wharfage accommodation. Large demands have been made upon the Treasury for increased wharfage accommodation. The Circular Quay does not give anything like sufficient accommodation to meet demands.

1087. Did the Cabinet take into consideration the probable expense of putting the place in such a position as to make it of use? Details of that kind were not entered upon.

1088. Were the Cabinet aware of the fact that there was a 20-feet road running through the property? They were aware that there was a road at the back; but that had nothing to do with the water frontage.

1089. Will you kindly tell the Committee how the Cabinet became aware of the fact that there was a 20 feet road when, on the plan submitted by Sir Henry Parkes, the road is marked 12 feet? As a matter of fact the Cabinet did not know what was the width of the road, they only knew that there was a lane there. 1090. Mr. R. Burdett Smith.] The Cabinet did not take any details into consideration on that occasion? They did not.

1091. Chairman.] Is Mr. Gorman to receive any commission, and if so, how much? I cannot say. No question of commission was brought before the Cabinet. Mr. Gorman was simply employed to negotiate the purchase. I suppose that in the ordinary course of business he will receive some payment for it. 1092. Had not the Cabinet power of resumption? They had; but the Government believe that that power of resumption should be used only in extreme cases.

1093. In which opinion you join? Certainly.

1094. Was that the opinion you held in regard to the Darling Harbour resumption? Yes, certainly. I believe the Darling Harbour resumptions were an extreme case in which power should be used.

1095. In your opinion this was not a case in which it should have been exercised? That is so.

1096. You heard the evidence before this Committee of Mr. Cliff? Yes.
1097. You also heard Mr. Mills give evidence? Yes.
1098 You heard Mr. Mills tell the Committee that while Mr. Cliff was in his office Mr. Gorman came in, and in the presence of Mr. Cliff opened negotiations for the purchase of this property on behalf of

the Government? Something of that kind.

1099. But you heard him say so? Not exactly in those terms. I heard Mr. Mills say that Mr. Gorman

came in and asked if he had a certain property for sale.

1100. But did you not hear him say that Mr. Cliff was present? I did.

1101. When instructions were given to Mr. Gorman to purchase the property,—did the Cabinet make any condition as to the name of the purchaser not being revealed? No; the Cabinet did not know that Mr. Mills had the property in hand for sale.

1102. Do you not think it rather a singular coincidence that Mr. Gorman and Mr. Cliff should have met in the manner described in Mr. Mills' office? It may appear so, but I think after all, it is quite reasonable to suppose that the thing came about without any pre-arrangement.

1103.

The Hon. F. Abigail. 3 Nov., 1887.

1103. You have heard Mr. Mills state before the Committee that one half of the commission he was to receive, 22 per cent., for selling the property, was to be paid to Mr. Gorman? I heard him state so.

1104. Do you consider that Mr. Gorman was acting fairly and honestly in the interests of the Govern-

ment? I do not think I should be called upon to express an opinion upon that matter. 1105. But you were one of the persons interested in the purchase of the property, you were a member of

the Government. Do you consider that Mr. Gorman was acting honestly as your agent? Yes; I consider that there was nothing dishonest in the transaction. If it did not enhance the value of the property Yes; 1 conthe Government were not called upon to pay an increased amount owing to that arrangement which was made subsequent to the completion of the purchase.

1106. Did you hear Mr. Wrench, an experienced auctioneer, give evidence before this Committee yester-

Yes.

1107. Did you hear him say that such a thing as division of commission was certainly not a business proceeding? I did; but I have heard many other auctioneers say that it is. 1108. Do you know if Mr. Gorman is an auctioneer? I know he is.

1109. He is reported to be a good business man? I believe he stands very high in the estimation of the public.

1110. You would take his opinion as to the value of property? I should.

1111. Had Mr. Gorman reported to Sir Henry Parkes that £29,000 was more than the value of this property, would that have influenced the Cabinet in offense money? If Mr. Gorman had been employed to value the property no doubt his report would have received fair consideration.

1112. Mr. Gorman was employed to purchase the property on behalf of the Government?

1113. Was it in consequence of his knowledge and business capabilities that the Government entrusted to him the purchase of the property? Yes; the Government had confidence in his integrity.

1114. Then when he offered to give £29,000 for this property, if that was more than the market value you would have expected Mr. Gorman to say so? No; he was not asked nor employed to do anything of the kind. The Government had decided to buy the property, and he was employed to negotiate the

purchase at the least possible price.

1115. When he offered £29,000 for the property did he not acquiesce in the supposition that £29,000 was a fair price? He said nothing about it. He said that he had got it under offer, and that he could

purchase for £29,000.

1116. What was the object of having a competent valuator and business man to buy the property when his opinion was neither sought nor asked for? There is nothing in connection with the case leading to the statement that he was employed as a competent valuator.

1117. Do you mean to say that a gentleman having no knowledge whatever of the value of property would have answered the purpose of the Government just as well? A gentleman with good business capabilities would, I have no doubt, have answered just as well; but as Mr. Gorman had completed large transactions on previous occasions he was selected.

1118. As a business man, if you entrusted a matter of this kind to the hands of a gentleman in Mr. Gorman's position, would you not expect that if to his knowledge you were giving more than the value of the property he would say so? If I employed a person to purchase a property for me 1 should have decided first in my own mind what I was to give, and instruct him to give it; but if I wanted him to value before purchasing I should have instructed him to take the necessary steps for a valuation. As a matter of fact I have just completed the purchase of a large property on my own account without any valuation whatever, depending on my own judgment.

1119. Are the Committee to understand that the Government were decided to purchase this piece of land, fixing the price at £29,000, irrespective of any value which might be placed upon it by anyone? The Government would have purchased it if they had to pay £35,000 for it. They had determined to have it.

Public requirements demanded it, in their estimation.

1120. Then why did not the Government give £31,000 if they were willing to give £35,000? Acting in the public interest they felt it to be their duty to get the land at as low a price as they could, and they did not think £29,000 was an excessive price, having regard to all the circumstances surrounding the

property.

1121. Mr. Brunker.] When Mr. Gorman was employed did the Government consider it his duty to make any inquiry with reference to the area and value of the land held by the proprietor? I do not know what took place between Mr. Gorman and Sir Henry Parkes. The Cabinet, in consequence of requests him to employ Mr. Gorman to do it. I do not know, of course, what conversation took place between Sir Henry Parkes and Mr. Gorman.

1122. You said just now that the principal object of the Government in securing this land was to acquire the water frontage? Yes, to continue and complete the Circular Quay.

1123. Do you know whether any inqury was made into the right of the vendor to the water frontage? We knew that the Government had water frontage right no matter what the rights of the vendor were. 1124. You see this plan (Appendix C.); do you know whether Mr. Gorman made any inquiry as to the right of the Government to the water frontage as shown upon that plan? I do not know.

1125. Do you not think that the fact of the Government still holding this right would have depreciated the value considerably? I have no doubt that it would if the Government held the right.

1126. Do you not think, as a Minister, that in negotiating for the purchase of this land you should have endeavoured to take advantage of that right? I do not think an unfair advantage should be taken of any private person in regard to rights of this kind. They had been in possession of the land for a considerable time and other regards. able time, and other persons had acquired water frontage rights upon application to previous Govern-

1127. But considering that the Government now demand from private individuals not the original but the present value of lands which have been reserved under old grants, do you not think it is only fair that the Government, in the interests of the public, should take the same privilege when they are acquiring land? I think that the Government, in the interests of the public, should take all fair steps to protect the public

interest in acquiring property of this kind for public purposes.

1128. But you know as a matter of fact that the Government are making the holders of private lands pay a very large sum for the rights at the present time? I know they are not. I know that in a number of

The Hon.

cases in the past people have acquired water frontage rights for a mere trifle, and very large water rights. As a matter of fact the alienation of water frontage has been hung up within the last few months.

1129. Do you know anything of the terms between Mr. Gorman and the Government? If you refer to the terms with reference to his payment. I do not.

1130. You know nothing of the arrangement at all? I do not; it is not a customary thing for a Minister of the Crown to report how much commission he pays to people who conduct departmental

F. Abigail.

transactions.

1131. The purchase of this property was made before you entered into negotiations with the A.S.N. Company? The purchase of the A.S.N. Company's property was submitted to the Government, and was allowed to remain until this purchase was completed, because it was seen at once that if the A.S.N. Com-

pany's property was purchased first the value of the other would be considerably enhanced.

1132. Was any surprise expressed by the Government when they heard that this land had been sold to them at a large profit by the original owners? They never heard it. I heard a lot of wild statements

in Parliament about the transaction; but I did not pay much attention to them.

1133. But you know now that it is a fact. You have heard it said that Mr. Cliff made £9,000 by the transaction? I have heard it said so.

1134. Chairman.] You see the letter marked Appendix B. It shows that Messrs. Richardson & Wrench placed the property under offer to Mr. Cliff for £20,000? Yes.

1135. And the Government gave £29,000? Yes.
1136. You see the contract note placed in evidence by Mr. Wrench yesterday, under which Mr. Cliff purchased the property for £20,000? Yes.

1137. Can you tell the Committee of our own knowledge what amount the Government paid for the land? I believe they paid £29,000.

1138. Mr. Brunker.] Do you think under the circumstances that the Government would have gained anything by resuming the land? I do not think so. I do not think it is a case in which the power of resumption should have been used. If £60,000 or £70,000 had been asked I could have understood it. 1139. The Government thought the price asked was reasonable? Yes. 1140. Chairman.] In view of the fact, as revealed by the evidence, that £9,000 was cleared by this purchase without the purchaser paying a shilling within the week, do you not think it would have been possible for the Government to take more care to make a better purchase in the interests of the public?

possible for the Government to take more care to make a better purchase in the interests of the public? I think the Government took all care that they reasonably could to acquire the property at the lowest price. The profit made is apparently large, but events of that kind frequently happen. You have a case in evidence to that effect.

1141. Have you heard any member of the Administration charged in the Assembly with being interested in the purchase of this land? Yes.

1142. Which members have been charged directly by name? The Minister for Justice, Mr. Clarke, more

1143. Has Mr. Clarke furnished the Cabinet with any evidence that he is not interested in this purchase? Mr. Clarke was not called upon to do anything of the kind. No member of the Cabinet believed one sentence of the charge levelled against him, and we certainly did not place him on his trial, and call upon him to furnish proof. Mr. Cliff has given evidence as to the truthfulness of the statement.

1144. Are you quite sure that no member of the Cabinet believed the charge? I am quite certain of it.

1145. Did you see Sir Henry Parkes' evidence upon that point? I did. 1146. Did you not bear him state that he sent for Mr. Clarke on the following morning? I did.

1147. You heard what Sir Henry Parkes said with regard to the conversation which took place between himself and Mr. Clarke? Yes, and I am satisfied that there is nothing in it to imply that Sir Henry Parkes believed him guilty of the charge.

1148. Did Sir Henry Parkes communicate to the rest of the Cabinet the fact that he had made inquiries and found out that Mr. Clarke was not interested? Sir Henry Parkes told me that he did not believe there was a word of truth in the statement, and that he had also informed Mr. Clarke that he did not believe it.

1149. You are perfectly satisfied as a Minister of the Crown and a member of the Cabinet that the Government have made a good and cheap purchase in the interest of the public? I am satisfied that the Government made a fair and reasonable purchase of the property under all the circumstances in the public interest.

1150. And you are still of that opinion after the evidence you have heard before the Committee? Certainly. Mr. Mills valued the property at £29,300, the George-street frontage at £90 a foot, and the water frontage at £200 a foot.

1151. Do you not remember that Mr. Mills declined to give his opinion as to the value of the property? I remember that he said that he was not sent there to value it, and that he declined to give any particular valuation.

1152. Do you not remember Mr. Mills saying that the amounts to which you have referred were the computations which Mr. Cliff and himself made in the office? I do not think that is so. I asked him a question as to what he thought was the value of the George-street frontage in view of the price at which the adjoining property sold, and he said £90 a foot. I then asked him the value of the water frontage, and he said that in his estimation it was £200 a foot.

1153. When this matter was first brought under your attention on the occasion of the members of the Cabinet accompanying the trustees to the Naval Homesite at Dawes Point, was Mr. Clarke present? I do not think so. I think Mr. Ives first called attention to the piece of land.

# David Wilson, Esq., called in, sworn and examined:-

1154. Chairman.] What are you? I am a merchant.

1155. Do you know the piece of land situated between Dawes Point and the A.S.N. Company's wharf, which the Government have recently purchased? I have often passed it in the steamers, and it has been pointed out to me.

D. Wilson, Esq. 3 Nov., 1887.

1156. Are you aware that the Committee has been appointed to inquire into the circumstances attending the purchase of that land? I have read so in the papers. 1157. Do you know who owned that land? No.

1158. Do you know Mr. Greig, of the firm of Richardson & Wrench? Yes.
1159. Have you at any time had any conversation with Mr. Greig with reference to this land? Not a

word; never.

1160. Have you ever been present in company with others when Mr. Greig might have said something about the land? I have never heard Mr. Greig speak of it.

1161. Do you know Mr. J. P. Garvan, M.P.—have you ever been in Mr. Garvan's company when another person has spoken of this land? Yes.

1162. Will you tell the Committee what was said in the presence of yourself and Mr. Garvan? Some 1162. Will you tell the Committee what was said in the presence of yourself and Mr. Garvan? Some one made a remark to the effect that it was a long price, and I was asked whether I would give £29,000 for the land. I said no, that I thought it was a long price. Then a remark was made that Richardson & Wrench had it for sale at a much less sum. I think £15,000 was the amount named.

1163. By whom was the remark made? I am not quite sure; I have an idea, but I could not swear positively as to who said it; there were several present. There is only one gentleman besides Mr. Garvan whom I distinctly remember being present, and I impute these words to him; but I would not swear positively that he used them. Somehody made the remark.

1164. Then as a matter of fact you did not make the remark? No.

1165. Have you any knowledge of the value of city property? I have bought and sold a few properties for myself, but I cannot say that I am a judge as to the value of properties. I am a managing director

for myself, but I cannot say that I am a judge as to the value of properties. I am a managing director of Mason Brothers (Limited).

1166. Have you any knowledge at all of the value of property about Circular Quay? I bought and sold one property near Circular Quay, and that, perhaps, would afford me some criterion as to what should be the value of this land.

1167. According to that, what would be the value of this property, as shown on this plan (Appendix C)? I should consider that it would be worth from £175 to £200 a foot to a person who did not own the adjoining land. My valuation, of course, includes double frontage, and it assumes that an extension to high-water mark could be obtained at prices ordinarily current.

1168. £200 a foot would make the value of the land £22,600? I should consider that a good price for

1169. You spoke of having interest in a property near the Circular Quay, was it a water frontage? No. 1170. Mr. Brunker.] In making your estimate of from £175 to £200 a foot value for water frontage, did you consider that the property would be worth that amount, assuming that the Government still retained its right to the reservation? I based my estimate on the fact that people have been always able to get these water frontages from the Crown.

1171. You appear to have some knowledge at what these rescissions could be obtained for. What would have been the cost to the original proprietor for obtaining the rescission of this particular reservation? From facts which came to my own knowledge some two or three years ago, I should fancy from £300 to

£500 at the most.

1172. Mr. Gould.] Assuming that the reservation could not be rescinded, what would be the value of the land? Of course the value would be materially affected if you could not get the water frontage. Of course the value would be materially affected if you could not get the water frontage. Its value depends chiefly upon the access to the water.

1173. The value lies really in the water frontage which has been reserved to the Crown? Yes. 1174. Mr. Brunker. What would have been its value apart from the water frontage? I should have great trouble in valuing it.

1175. Mr. Gould.] Taking the frontage to George-street, what would be its value in that part of the city? The frontage to George-street in that part, with an ordinary depth, would be worth, I should say, about £50 a foot; and, I take it, that an ordinary depth would be 80 or 90 feet.

### FRIDAY, 4 NOVEMBER, 1887.

#### Bresent:

Mr. ABIGAIL, Mr. BLACK, Mr. BRUNKER,

Mr. BURDEKIN, Mr. GOULD Mr. STREET.

N. MELVILLE, Esq., IN THE CHAIR.

Thomas Dalton, Esq., M.P., called in, sworn, and examined:—

T. Dalton,

1176. Chairman.] What is your occupation? I am a merchant and wharf-owner.

1176. Chairman.] What is your occupation? I am a merchant and wharf-owner.

1177. Will you kindly look at the plan (Appendix C); it is a plan of the property purchased recently by the Government at Circular Quay; can you identify the property? Yes.

1178. Can you tell the Committee whether at any time that property has been offered to you, and if so, at what price? I have no record to fix the exact date at which the property was brought under my notice; but I have a distinct recollection of a broker, Mr. H. C. Mitchell, calling upon me on two or three occasions with a view to my purchase of this property. I went with him to inspect it, and found upon inspection that there was no deep water frontage available for the berthing of a ship. That being so, it was of no use whatever to me. We had some conversation, the purport of which I cannot now exactly recall. We remained some time upon the premises, and finally walked up from the water frontage along the lane by the "Harbour View Hotel" into George-street. While leaning against the stone wall there we had some further conversation about the property. Mr. Mitchell asked me to say what I thought it was worth. I said it was worth nothing whatever to me; I could not utilize it. He then wished to point out what could be done with it. He told me that if I could make an offer of £11,000 he would submit it. I told him I would not give £7,000, or even £4,000 for it.

1179. Did Mr. Mitchell tell you in any way that he was authorized to offer it to you? He called upon me on two or three occasions offering the property for sale, and through those representations I went

me on two or three occasions offering the property for sale, and through those representations I went with him to inspect it.

T. Dalton,

Esq., M.P. 4 Nov., 1887

1180. You were under the impression that he had power to dispose of the property? Yes.

1181. He never gave you to understand that he had no authority to dispose of the property? No. 1182. Did he at any time ask any price, or suggest any price? I think he suggested £11,000. 1183. He gave you to understand that the property could be purchased for £11,000? I was under that

1184. For reasons which you have stated to the Committee, you declined to enter into negotiations for the purchase of the property?

1185. Had you any interest in the A.S.N. Company? No, I never had, neither directly nor indirectly. 1186. About how long ago is it since Mr. Mitchell made this offer to you? I think it was in 1883, but I cannot state positively; I can only give you the date to the best of my recollection; looking at other matters, I have been able to fix that date, it might have been at the end of 1882.

1188. You are quite positive as to the facts? Yes.

1188. Has any circumstance come to your knowledge since then which in your opinion has caused the value of the property to increase? Yes; I understand that there is a lane in the subdivision of the A.S.N. Company's property, and if that lane, abutting upon this particular piece of land, could be opened up so that traffic might come down from George-street, and delivery take place there, it would be a very suitable place for the erection of goods warehouses or bulk stores. Of course, if there were no access from this

lane, it would be useless for that purpose.

1189. Do you think the owners of this particular piece of property would have a right-of-way over the lane through the A.S.N. Company's property? I do not know; it would depend upon the purchaser from

the A.S.N. Company.

1190. As a matter of fact, the owners of the A.S.N. Company's property could, if they thought fit, decline to give that right-of-way to anyone? Undoubtedly, unless the Government stepped in and opened the lane as a public thoroughfare; then, if they did that, as I understand the plan, they would have to pull

down a stone wall to give access.

1191. What, in your opinion, is the commercial value of the property at the present time? Well, when the property was offered to me, I did not know of the existence of this 20-foot lane marked on the plan; I only knew of the small lanc leading down by the side from George-street. Of course, if the stone wall were removed, giving access to the A.S.N. Company's property, this lane would at once more than double the value of the property. As I have already said, stores might be erected, and drays might come down the side lane from George-street. I presume that the right to purchase water frontage would exist, and under all the circumstances surrounding the property at the present moment I take it that it would be worth about £10,000. If there were a deep water frontage, and a jetty (shown on plan) could be utilised, the property from the 20-foot lane downwards would readily let at £2,000 a year. I reekon the Georgestreet frontage at about £50 a foot.

1192. You have some knowledge of the value of Sydney properties? Yes, particularly wharf properties. Of course if there were to be no access to this land from the A.S.N. Company's property £4,000 or £5,000 would be its full value, because it could not very well be utilised.

1193. Mr. Abigail.] Can you state positively that the property was ever offered to you for a definite sum? Only in the manner I have stated.

1194. That was a suggestion that if you offered £11,000 it might be received? Just so.
1195. Have you ever told anyone that the land was placed under offer to you within the last three years for £7,000? When the matter first appeared in the newspapers I think I may have said that. In my opinion I could have purchased the property for £7,000.
1196. But has it ever been placed under offer to you for £7,000 within the last three years? It was

never placed under offer to me at all within the last three years.

1197. Then if it has been stated in Parliament that Mr. Dalton had stated that the property had been offered to the firm of Dalton Brothers within the past three years for the sum of £7,000, would that statement be correct? As I have already said, I was under the impression at the time that £7,000 would purchase the property.

1198. But you now say that it was not offered to you at that sum? It was not offered to me. Since I made that statement matters have occurred which led me to suppose that I was in error. I certainly was under the impression at one that if I had offered £7,000 for this property I could have obtained it.

1199. But you say distinctly that it was not offered to you at that sum? Yes; it was not.

1200. You say that if there were deep water frontage it would let for £2,000 a year? Yes.

1201. Yet you value the whole property at £10,000? Yes.

1202. Do you know that £2,000 a year would be 6 per cent. on something like £33,000? It is not easy making calculations about a thing which does not exist. You have not got any deep-water frontage, and it will be improved to a string which the heathing of a large stranger. and it will be impossible to utilise it for the berthing of a large steamer.

1203. Do you know how many feet of water frontage there are? I know that there are sufficient to

berth a large steamer, or to erect a jetty.

1204. At how much did you reckon the water frontage to arrive at your estimate of £10,000? I put it down as a lump sum; but I suppose it would come to something like £70 a foot. If there were deep water the property would probably be worth from £200 to £250 a foot, always having in view the

existence of the lane to which I have referred, not otherwise.

1205. Are you interested in any water frontage? Yes; at Darling Harbour, round Dawes Point.

1206. What part of Darling Harbour? The wharf which is now known as Dalton's wharf.

1207. What value do you attach to that water frontage per foot? We have laid out a large amount of money in improvements. I think we paid £38,000 actual first cost, say £35,000, for it originally, and since then we have improved it. It stands in our books now, I think, at close upon £30,000.

1208. How many feet of frontage. 250 feet.

1209. Do you reckon that the frontage round there is as valuable as the frontage to Circular Quay? No,

certainly not. We had to use mechanical appliances to utilise the property.

1210. If you were the owner of Dawes Point and the A.S.N. Company's property, would you take that into consideration in purchasing this particular piece of land? Yes; I would give 50 per cent. more for

it than anyone else could afford to give.
1211. Mr. Black.] You have a personal knowledge of this property? Yes. 142—F

1212.

T. Dalton,

Esq., M.P.

4 Nov., 1887.

1212. What would it cost to reclaim land, and to erect a jetty sufficient for the berthing of a 3,000 ton ship? The harbour regulations would prevent you running out a jetty after you had reclaimed.

1213. Under those conditions you could only berth 200 feet along the length of the frontage? Yes. You

would have to cut a channel through the rock under water to berth a ship there.

1214. Supposing the harbour regulations permitted you to erect a jetty, what would it cost? But I know

that they do not permit it.

1215. How is it that the A.S.N. Company built their jetties? You would have to go out a much greater distance with your jetty than the A.S.N. Company have theirs now, and even the A.S.N. Company, as far as I can understand, have materially encroached upon the harbour regulations in the construction of their jetties. They were allowed to do it; but I should not be allowed to do so. I asked for the same rights in Darling Harbour when creeting my jetties there, and they were refused to me, and it certainly would not have injured the traffic so much as the A.S.N. Company's jetties at the Circular Quay injure it.

1216. What would be the cost of reclaiming the land? That would be a matter for an architect to consider. You would have to build a stone wall, and take soundings.

1217. Mr. Street.] I think you stated that in roughly estimating the value of the land you took the block with the water frontage at £7,000? Yes.

1218. Then, as regards the block with the double frontage, I suppose you would take the frontage to the lane at the same price as the frontage to George-street? Certainly not.

1219. What depth would you require for one store there? It would require to be about 70 or 80 feet long, I should prefer it 100 feet if I could get it.

1220. What would you value the frontage to the lane at? I should not like to give more than £35 or

£40 a foot, that is, provided there was access through the A.S.N. Company's property.

1221. That is irrespective of the water frontage? No; I take the block between the lane and the water

at £7,000.
1222. Mr. Burdekin.] About what time did you purchase your wharf property in Darling Harbour? I

1223. I believe you gave somewhere about £150 a foot? Yes.

1224. You admit that wharf property at Circular Quay is much more valuable than wharf property at

Darling Harbour? Yes.

1225. In the face of that does it not seem to you that you have drawn a hasty conclusion with respect to the value of this property at Circular Quay? No. My reason for my valuation is that there is no adequate water frontage for the berthing of ships. In arriving at my valuation I took into consideration the principal thing—depth of water. I think I am quite correct in my valuation of the property in Darling Harbour; the depth of water against Dalton's wharf is from 22 to 80 feet, whereas in the case of this property adjoining the A.S.N. Company's property, there is no sufficient depth of water until you get a long distance out. There is no comparison between the two properties. One is valuable for the hard-line of ships and the other could not be made available, except at great expense by cutting a dock get a long distance out. There is no comparison between the two properties. One is valuable for the berthing of ships, and the other could not be made available, except at great expense by cutting a dock out of the solid rock. If it were a deep water property 1 should consider that it would be cheap at

1226. If the property were purchased at £10,000, with the possibility of making it suitable for the berthing of ships, it would have been a cheap purchase? Well it would cost a fabulous sum of money to

make it suitable.

1227. What would be the cost of erecting a jetty? What would be the use of creeting a jetty if there were no deep water? Of course a jetty could be run out at a nominal sum. If the harbour regulations

permitted you to run out into deep water and interrupt the whole traffic, that would be another matter.

1228. But is it not a fact that the natural contour of the harbour is followed in the wharfage system, and that a jetty could run further into the harbour at Dawes' Point than at the A.S.N. Company's property? I do not think I am the proper person to give evidence on a matter of that kind. I should think the Harbour Master would be able to tell you about that. As far as my opinion goes, if you were to run out a long jetty there, you would interrupt the berthing of ships at and near the A.S.N. Company's wharf; in fact, I do not think it would be possible for a pilot to take a ship in there. However the Marine Surveyor might think differently. Marine Surveyor might think differently.

1229. Mr. Brunker.] The valuation which you have placed upon this property is £50 a foot for the George-street frontage, and £7,000 for the piece of land between the lane and the water, that is under existing conditions? Yes.

1230. At the time this property was purchased by the Government you would consider that a fair valuation for it? Yes.

1231. You seem to have a thorough knowledge of the property—what is the depth of water 200 feet from high-water mark? I have not made soundings, and so cannot tell.

1232. Then why do you say it would be impossible to berth a ship if a jetty were erected? I went out in a boat and looked at it at the time I came down to the Point. I think there is a ledge of rock, if I remember rightly, running out from the boatshed in a line with the A.S.N. Company's property. It goes some distance out, and it would have to be cut away.

1233. Assuming that there is deep water to high-water mark, what length of jetty would be required to berth a ship of 3,000 tons? A jetty at that particular place to be of any possible use would require to be from 200 to 225 feet long. I do not know the distance from high water to deep water; but I know that

there is rock at the boat-shed.

1234. You have not considered the cost of dredging? There would be no dredging; it is all rock. As I have already said, a fabulous sum of money would have to be expended. My own opinion is that a dock under water would have to be cut. You would have to have 60 feet for the whole length, and it would not be worth that expenditure in a harbour like Sydney where there is so much available deep water

1235. Does the property at the present time derive any advantage from the road through the A.S.N. Company's property, to which you have referred? At the present time it derives no advantage at all from that road, and if that road could not be utilised, I should not like to give more than £4,000 for the

property.

1236. Considering that the Government have a right to the frontage from the dotted line on the plan [Appendix C] to high-water mark, what would be the value of this property, purchasing it under the

usual conditions? The value would be very much reduced; in fact I should not value it at more than £2,000. My valuation assumes that the property carries with it the right to the reservation. It would be worth nothing at all without that, unless for stables, and then they would be a source of pollution to 4 Nov., 1887.

T. Dalton

1237. You are quite clear that you never made Mr. Mitchell a direct offer for the land? I never offered

him anything for it.

1238. But the negotiations were of such a character as to enable you to say to your brother that you result for a certain sum? I believe I could have purchased it for £11,000; but I have related to you word for word what took place between myself and Mr. Mitchell.

1239. Mr. Mitchell never came to you and said, "Mr. Dalton, if you like to take this property for £11,000 you can have it?" No.

# Charles Parkinson, Esq., called in, sworn, and examined:-

1240. Chairman.] What is your position? I am Chief Clerk in the Crown Solicitor's Office.
1241. What do you produce? The title deeds of the property recently purchased by the Government Esq.

from Mr. Cliff. 1242. Was the property purchased direct from Mr. Cliff? Yes, as far as my instructions go. 1243. Who conveyed to the Government? Mr. Cliff.

Esq. 4 Nov., 1887.

1244. Who conveyed to Mr. Cliff? Numerous parties; the Hanson family were interested. The deed of conveyance is dated 21st September, 1887. 1245. What is the consideration mentioned?

£20,000.

1246. Mr. Gould ] You produce the conveyance of Cliff to the Queen? Yes. It is dated the 8th October last, and the consideration is £29,000.

1247. Does that include the whole of the land in the deed of grant? Yes; with the exception of the roadways and the hotel property.

1248. What is the date of the deed of grant? 9th January, 1838.

1249. What are the reservations? Full power to construct drains and sewers, to take any part of the land for a public purpose on paying the value of the land, with the usual arbitration clause as to assessing the value.

1250. Mr. Brunker.] There is no water frontage reservation? No; no reservation of the 100 feet. 1251. Mr. Gould.] Do you know what rights the Government have, or claim to have, to the 100 feet reservation in respect of lands where no such reservation is contained in the deed of grant? No, I do not. 1252. I suppose you had the preparation of the matter? Yes.

1253. Did you see this plan (Appendix C) before you prepared the deeds? No. 1254. On that plan is shown a 100 feet reservation, or a reservation of water frontage of considerable size? This is the first time I have seen this sketch. All the plans I have seen go down to deep water frontage

1255. Did you have the contract? We had copies of the correspondence contained in the papers referred to the Committee. These constituted the contract between Mr. Cliff and the Government. 1256. Mr. Brunker.] Have you managed the whole of the business? Yes.

1257. And so far as the transaction has come under your knowledge there has been nobody recognised in the office except Mr. Cliff and the Government? No one whatever.

1258. Chairman.] Do you know on what date the money was paid for this land? As far as I can recollect on the day the conveyance bears date, the Sth October.

1259. I presume a search was made with regard to title? Yes.

1260. You say that by this grant the Government had the power to resume the land at any time for public purposes? Yes. We looked into the reservations to see what they were and that there was no reservation of the 100 feet, and we also made inquiry as to whether any right of reclamation had been granted.

1261. Has any right of reclamation been granted in this case? We were informed that it had not.

1262. Do you know if application was made for it? No.

1263. Then, as a matter of fact, these people had not the right to reclaim; they did not receive permission from the Government to reclaim? Not that we knew of. This is the requisition made on the title: "Has any right of reclamation been applied for in connection with the property sold? If so, with what result?" Any such rights should be surrendered to the Crown together with any land granted in virtue of such application." The reply to that was, "None that we are aware of."

1264. The owners of the land under the deed have not the right to reclaim without the permission of the Government? Certainly not.

Government? Certainly not.

1265. In selling the property they could not give any rights of reclamation without having first procured them from the Crown? No. It is always necessary to make the inquiry whether any such rights exist, or whether any grant has been issued in virtue of such an application, and if the answer is satisfactory the

matter goes on.

1266. There is nothing in the deed of grant that gives the right to reclaim? Oh, yes; owning property up to the water's edge would give the right of reclamation, with the consent of the Crown.

1267. To the owner of the property as against others? Yes.

1268. But that is the only right he has? That is the only right I know of. Oh, yes; owning the

1269. Can you tell the Committee of your knowledge if, where even deeds of that character are in existence, the Government do not claim the 100 feet reservation? I cannot say.

1270. Has a case of that character come under your notice? Not that I remember. I have not dealt with it personally if it has.

1271. What officer in your Department would be able to give us information with regard to this? The

Crown Solicitor.

1272. Mr. Gould.] You produce a copy of requisitions on title; also a copy of the Crown grant and the description contained in the conveyance Cliff to the Crown? Yes.

1273. Will you state the date of registration of the two conveyances, one from Hanson's estate to Cliff, and the other from Cliff to the Queen? They were both registered on the 10th October, 1887, at the same hour, and they are numbered respectively 481, book 372, and 483, book 372.

1274. And by whom are they registered? By Mr. Frazer, a clerk in the Crown Solicitor's office.

C. Parkinson, 1275. And are the affidavits both verified by him? Yes.

1276. What is the date of the stamp on each of them? They were both stamped on the 8th October.

1276. What is the date of the stamp on each of them? They were both stamped on the oth October.

1277. Were they also stamped by a clerk from the Crown Solicitor's Office? Yes.

1278. Chairman.] What solicitor was acting for Mr. Cliff? Messrs. Way & Way.

1279. Is there anything to show who acted for Hanson's estate? No. The conveyance merely shows that it was prepared by Way & Way, whose names appear on the foot.

1280. Would it not be more in accordance with the usual practice if some person from the office of Messrs. Way & Way had registered their transfer from Hanson's estate to Cliff? No. Where a conveyance immediately follows a previous conveyance it is usual for the last purchaser to register and stamp. This is done as a matter of precaution, because, if the first purchaser retains the conveyance, there may be some delay in registering and nothers the subsequent conveyance might to in hefere his, and your be some delay in registering and perhaps the subsequent conveyance might go in before his, and your deed would be placed on the register before his appeared.

1281. But Mr. Cliff purchased the property through Messrs. Way & Way, solicitors? They were

acting for him.

1282. As between him and Hanson's estate? Yes.
1283. And the Crown had nothing whatever to do with Cliff's purchase from Hanson's estate? Nothing

1284. Then how does the Crown come to register his deed of conveyance? Simply because he handed it over to us with the registration fee and everything ready so that we could register both deeds simultaneouly.

1285. Mr. Abigail.] Is there anything extraordinary in that proceeding-do you do that in other cases?

In nearly every case, I may say. It is the usual practice.

1286. Mr. Gould.] That is the case where a person buys, and immediately sells to the Government, and where both transactions are completed pretty well simultaneously, but it is not the practice in any other case—not where the purchaser buys and sells sometime afterwards? Oh no; he is supposed to register at once.

1287. And you are supposed to make your searches? Yes.

### Albert George Hanson, Esq., called in, sworn, and examined:—

1288. Chairman.] I believe you were part owner of the piece of land situated between the A.S.N. Com-A. G. pany's property and Dawes Point, which was recently sold to the Government? Yes.

1289. What interest had you in that land? A one-sixth share under the will of my father, the late Hanson, Esq.

4 Nov., 1887. Joseph Samuel Hanson. 1290. How long have you been interested in it? Since the death of my father, which occurred thirty-

five years ago last Junc. 1291. Do you know of your own knowledge whether this property has ever been offered for sale, and, if so, to whom? About the time the A.S.N. Company were buying Campbell's wharf Mr. G. R. Dibbs, Mr. Richard Driver, and Mr. J. T. Neale spoke to Mr. Graham at different times. Mr. Neale and Mr. Dibbs spoke to me, and the former gentleman offered me £8,000 for the property, which was declined.

declined.

1292 When was this? It was about the time the A.S.N. Company were purchasing, or after they had purchased, Campbell's wharf. I do not recollect the year; but I think it was after they had concluded the purchase of Campbell's property. The trustees in my father's estate were Mr. Isaac Josephson and Mr. George William Graham. It seems that Mr. Dibbs spoke to Mr. Josephson, who sent word that Mr. Dibbs wanted to see Mr. Graham about the property. I went with Mr. Graham to Mr. Dibbs' office in Bridge-street, and the latter gentleman said to me, "You are the stumbling block in this matter; you will not sell." I said, "Yes, I am the stumbling block; I want a certain price for the land." He said, "What do you want?" I said, "£9,000, and I am led to believe that you will give £9,000. Are you prepared to give a cheque on account?" Mr. Dibbs said, "If you will allow me £500 commission I will come to business." I said, "I will not allow you one penny. Messrs. Richardson & Wrench are the parties through whom we deal, and they are the people to whom we pay commission; and the moment I step outside your door the price will be £10,000 cash." Shortly after that I went to England.

1293. Mr. Brunker. Mr. Dibbs wanted £500 commission? Yes.

1294. Is he a director of the Company now? I should not like to say. I would not be certain about it. I went to England, and during my residence there I received a cablegram—I think about the year 1882, went to England, and during my residence there I received a cablegram—I think about the year 1882,

I went to England, and during my residence there I received a cablegram—I think about the year 1882, but I cannot speak positively—asking if I would take £12,000 cash for the property.

1295. By whom was this offer made? I did not know. My brother-in-law cabled to me, and I sent word back. I do not know the exact words I used, leaving the matter in the hands of the trustees. Though they were trustees they never did anything without consulting me. I am the only son living, and I have the voice of three in the matter.

1296. Chairman.] Did anything come of that offer? No; it ended in smoke.
1297. You would have been willing at that time to take £12,000? The price we were asking then and before 1 left for England was £14,000.

1298. But you would have taken £12,000? I would not like to say certainly whether I would or not.
1299. But did you not send back word that you would? I left the matter to the trustees.
1300. Having left it to them? If they had sold for £12,000, I should not have complained.
1301. About what year was this? I should think it was about the year 1881 or 1882. I left for England

in the year 1879, and the cable came when I was in England.
1302. Have you ever heard who the person was who made that offer? Not at that time.
1303. Has anybody clse been after the property since? Not to my knowledge, and I think if there had been anyone after it I should have heard.

1304. Has the property been in the hands of any auctioneer for sale? Only in the hands of Messrs. Richardson & Wrench. Ever since my mother's death they have had the selling of properties in the estate. In fact if I were to sell a property to-morrow privately it would go through their hands. I never

treated with any other auctioneers in Sydney about the property.

1305. What sum has your estate received from Mr. Cliff for that property; what did you sell for?
£20,000 cash. The terms were £3,000 deposit on the signing of the contract, £3,000 on completion of conveyance.

conveyance, the balance to remain at 6 per cent. interest, with the option of paying it off at any time A. G. Hanson, Esq. 1306. What annual income did this property yield previous to its sale? A very small income, and a very 1306. What annual income did this property yield previous to its sale? A very small income, and a very 1307. Would it be £100 a year? About that: perhaps a little more some years, and other years a little less, according to whether the rent was paid or not. It was submitted in the month of March by Messrs. Richardson & Wrangh to samphed which what a samphed which are aching about the property. It was offered I think for

Richardson & Wrench to somebody who wrote, asking about the property. It was offered I think for the sum of £200 a foot for the water frontage, throwing the George-street frontage in, the total being £22,600. That offer was left open for the month of April, and it was declined. I have since found that the name of the party was Mr. James Ewan. He declined it, and I knew nothing more about the property until I received a letter, in consequence of which I came into town on or about the 15th June, and that the contract had been simulated of which I came into town on or about the 15th June, and found that the contract had been signed to Mr. Cliff.

1308. It was offered to Mr. Ewan for £22,600, terms cash, or half cash and balance to remain for three years at 6 per cent., and that offer was declined? Yes, by letter.

1309. You were willing, I presume, to take £22,600 when that offer was made. It was made with your consent and knowledge? Yes.

1310. That was in the month of April. In the month of June in the same year Messrs. Richardson & Wrench, acting on your behalf, placed the same property under offer to Mr. Cliff for £20,000? I did not know this until I was sent for, and when I came I found that the contract was signed for £20,000.

1311. That was done without your knowledge and consent—the offer in the first instance? It was this way: Mr. Josephson is the sole trustee. Legally I had no power; but he never did anything without consulting me. In this case it seems that Mr. Wrench wrote to him asking him if he would submit the consulting me. In this case it seems that Mr. Wrench wrote to him asking him if he would submit the property for offer for £20,000, and he said yes, and when I came in the contract was signed for £20,000. At the same time I consented to it afterwards; but I was not asked prior to the sale.

1312. You consider £20,000 a fair price for the property? I do.
1313. A good price? Well, I consider it a very fair price. I am satisfied, that is the way to put it. I cannot say more.

1314. You would have sold to the Government for £20,000? I would most certainly, or to any other

public or private individual.

1315. At the time that this property was sold to Mr. Cliff for £20,000, had you say knowledge then that the Government intended to purchase the A. S. N. Company's wharf? I had, and I told Mr. Wrench so, and I said "I believe that indirectly this property is for the Government now;" but he pooh poohed it, and said he had heard nothing about it. I said "Of course you, being a man of business, ought to know all about it, but I have an idea that it is being bought indirectly for the Government." But I thought it was the Government buyer who was buying.

1316. With a full knowledge of the facts surrounding the property you consider that £20,000 was a fair value for it? I do; but I tell you I am not in the business, and I do not know how property is going.

1317. You must remember that you are one of the owners? I know. Well, I am satisfied with the sale.

We are all Jewishly inclined, and would all like to get more if we could. At the same time I am satisfied

with the sale at £20,000.

1318. Mr. Abigail.] If £29,000 had been offered to you do you think you would have said it was too much? No, I do not think I should; but I certainly should have been astonished. It would have taken my breath away. When we asked 22,600 we did so with the understand bit if we liked. But, as I said before, I am contented with the £20,000. When we asked 22,600 we did so with the understanding that we could come down a

1319. Chairman.] You would have been surprised if you had been offered £29,000 for it? I would. I tell you candidly I would have been surprised, but nevertheless I would have been very pleased to accept it. 1320. With a full knowledge of the property, and having been one of the owners, in your opinion is not £29,000 more than its value? As I said before I am not in the property business, and I do not know the

way property is valued in town.
1321. Is not £29,000 more than its actual commercial value? I am perfectly satisfied with £20,000. may be worth more, but at the same time I am satisfied with the sale at £20,000. I consider that it has

been a very good sale.

1322. Would you have taken less than £20,000? Well, no; I think we would have stood out for the £20,000. That was the price we named some time before. We went into figures, and we put down £200 a foot for the water frontage, and threw in the allotment in George-street.

1323. Can you give us any information as to the depth of water, and the nature of the bottom? I could not. 1324. Has it come to your knowledge that this land has been sold to the Government for £29,000? Yes. 1325. Did Mr. Wrench reveal to you who was purchasing the property? Not until the contract was signed. 1326. The first knowledge you had of the purchaser was when the contract was signed? Yes, the morning when I saw the contract; that was on the 16th June.

1327. Mr. Brunker.] How long was it after the contract was signed before you were made aware of the sale? That I could not say exactly. It was the next day, or the day afterwards. I know the contract was

dated the 15th June, and it was signed before I saw it.

1328. Did you ever have any valuation of the property by Richardson & Wrench or anybody else? I do not remember any.

1329. Have you ever seen this plan of the property before (Appendix C)? I have seen a similar plan, I am not sure whether it is the same. 1330. Could you explain to the Committee what these words mean—" boundary as per deed "? No, I could

not, except that I presume this is the low-water mark.

1331. You always assumed that you had a right to the water frontage? I believe so, and some years ago a permit was granted by the Crown to run out a slip, and it was run out by Captain Pile.

1332. When you were negotiating for the sale of this land with the A.S.N. Company I suppose your principal negotiations were made through Mr. Dibbs? I have told you the conversation that occurred with Mr. Dibbs; that he saw Mr. Josephson, that Mr. Graham and myself went to Mr. Dibbs' office, and then he wanted £500 commission before he would buy.

1333. You were negotiating with Mr. Dibbs in his capacity as a director of the A.S.N. Company? I could not say that.

1334. Was he not the Chairman of Directors at that time? I could not say positively.

A. G. 1335. Was Mr. Dibbs acting then as a broker? I could not say. I think he was acting as a general Hanson, Esq. merchant at that time. He had an office in Bridge-street.

4 Nov., 1887. 1336. If you had accepted the £9,000 and paid him £500 commission the sale would have been completed? 1337. Mr. Black.] Did Mr. Dibbs say that he wished to purchase the property for the A.S.N. Company? I cannot say; but we came to that conclusion, because a short time before he had purchased Campbell's wharf for the Company.

1338. If you had paid the £500 commission the sale would have been completed for £9,000? Yes.
1339. That was in 1880 or in 1881? No; it was in 1878.
1340. Chairman.] And if Mr. Dibbs had given you the £9,000 the sale would have been completed? Yes.

1341. Mr. Abigail.] You say that it was in the year 1877 or 1878 that you offered to take £9,000? It was prior to my going to England. It was about 1877 or 1878.

1342. Then while you were in England a cable message reached you about the year 1881 or 1882, stating that £12,000 had been offered for the property? Yes.

1343. That was an advance of £3,000 in that short space of time? I must tell you that we had always been asking £10,000 for it; but the trustees seemed to think that if we could get £9,000 we had better

1344. Mr. Black.] Did you ever know from whom the offer of £12,000 came? Not at the time; but since I came out I have been told that it was made by Mr. Statham.

1345. What commission did you pay Richardson & Wrench for this sale? 1 per cent. commission, and

of course the cost of advertising, and other expenses.

of course the cost of advertising, and other expenses.

1346. Chairman.] You did not make any arrangement with Richardson & Wrench that the commission should be shared by the purchaser? Certainly not.

1347. Have you sold many properties? Yes, a few.

1348. Has it ever come within your knowledge that an auctioneer purchasing for another person has received half commission from the auctioneer selling? I should think not. I do not know of any such case. I should not think it was a straight sort of business. As I understand you, the auctioneer would get two commissions, half from the other party and his own. I should think that would be hardly straight business. Of course we employ Messrs. Richardson & Wrench, and give them 1 per cent. commission. What they do with it we do not know. There is one thing in this matter which I do not understand, and that is, how the firm of Mills & Pile ever had the property for sale from the 6th to the 14th June. I do not know who gave it to them for sale; it certainly never emanated from us. Richardson & Wrench had the sale of it, and I did not know that any offer had been made to Mr. Cliff until the morning I found the contract was signed. contract was signed.

1349. This letter (Appendix B), being the offer to Mr. Cliff, is dated June 6th? Yes. I did not know

anything about it until after the 15th, when the contract was signed.

1350. Then you, as one of the owners of the property, were not aware of that offer having been made? No. 1351. It was only after seeing the correspondence in the paper that you knew that the property was in the hands of Messrs. Mills & Pile from the 6th to the 14th June? Yes; I saw by the correspondence that the 14th June was the time allowed. A day's longer grace was asked for, and on the 15th the property was sold by Cliff, through Mills & Pile to the Government, and on that same day Cliff's contract to purchase from Hanson's estate was signed. That was the circumstance which struck me as peculiar.

1352. As a business man, a professional man, and a man of the world, what impression has that transaction made upon your mind. What is your impression of it, you having been one of the owners of the property? My impression is that there has been a little sharp practice, that is all; that the property must have been traded about before it was bought. It was under offer from the 6th to the 14th. I knew nothing about

that until I saw the contract signed on the 15th.

1353. Mr. Abigail.] But the trustee had full power to place it under offer to anyone? He had full power legally.

1354. And do you not know that Mr. Josephson authorised Messrs. Richardson & Wrench to place it under offer to Mr. Cliff on the 6th.? I did not know.

1355. Have you any doubt that the letter of Messrs. Richardson & Wrench making the offer to Mr. Cliff is a correct document? I have no doubt Mr. Wrench had his instructions, but I never asked the question of Mr. Josephson. Of course I knew that Mr. Josephson, in answer to Mr. Wrench's letter, gave him power to £20,000, but I did not know this until the 15th, when the contract was signed.

1356. Mr. Josephson acted within his powers? He has power as trustee, but he cannot sell unless we all

When I became of age all the property was to have been sold under my father's will, but we signed a document agreeing not to sell, as times were bad, and of course we all had to sign that document; but Mr. Josephson, as the trustee appointed by the late W. G. Graham, had the power. He does not do anything without consulting me, but in this case I knew nothing of what occurred until I found the contract was signed.

## George Pile, Esq., called in, sworn, and examined:-

G. Pile, Esq. 1357. Chairman.] What are you? I am a member of the firm of Mills & Pile, auctioneers.

1358. Do you identify the property marked on this plan (Appendix C.) as the property sold by your firm on behalf of Mr. Cliff to the Government? Not the whole of the land.

1359. Except the part shaded? Yes.

1360. Will you kindly tell the Committee what you know of this transaction? Some time ago—I cannot

remember the date—my partner asked me one day if I would take in hand for sale a portion of land to the Government which Mr. Cliff owned. I listened to what he said, and did not do anything until the next morning. When I came in the next morning he spoke to me again, and I said I was thinking about what member of the Government I should speak to on the matter, and while we were talking Mr. Cliff came in to my partner's office. Shortly afterwards, and while Mr. Cliff was speaking, Mr. Gorman came

into the office, and said he was commissioned by the Government to purchase the property. 1361. Was Mr. Cliff present when Mr. Gorman made that statement? I think so. Mr. Gor 1361. Was Mr. Cliff present when Mr. Gorman made that statement? I think so. Mr. Gorman said something to the effect—the exact words I cannot recollect—that if he had known Mr. Cliff was in the office he would not have come in, or he would not have come in if he had known that Mr. Cliff was coming to 1362.

us on that business.

1362. Did he say at that interview how he knew that you had the property for sale? No, he did not, not G. Pile, Esq. in my hearing. I understood that he came to see Mr. Cliff about it, and not to see us. That was my 4 Nov., 1887.

1363. What gave you that impression? I cannot exactly say, except that Mr. Gorman said that if he had seen Mr. Cliff coming into our office about this business he would not have followed him.

1364. But how was he to know that Mr. Cliff had possession of this property? That I cannot tell.

1365. Why was the impression on your mind? It was the impression, that is all.

1366. How long had the property been in your hands for sale when Mr. Gorman came in? My partner had spoken to me about it on the previous day.

1367. That is one day? I think it was one day; but it might have been two.

1368. Had you advertised it for sale? No.

1369. Was there anything in your office, any notice or otherwise to indicate that it was in your hands for-sale? No.

1370. Had you in any way made it know to the public that you had it for sale? No.

1371. Were there any means by which so far as your office was concerned Mr. Gorman could have become aware that the property was in your hands for sale? I do not know whether I made myself clear. My notion was that Mr. Gorman followed Mr. Cliff into our office to see Mr. Cliff.

1372. Mr. Gorman, you were saying, came into the office while Mr. Cliff was there?

1373. And in your presence opened negotations for the purchase of the property? He said he had come for that purpose. He entered into conversation about the property.

1374. Do you remember anything particular he said. Did he ask you if you had the land for sale, or did he ask Mr. Cliff? I do not remember the exact words, but Mr. Gorman soon became acquainted with the fact that we had the property for sale, and the feeling which I thought Mr. Gorman expressed was that it looked as if he had come to take the property we had in our head for sale, manifest the weak that it looked as if he had come to take the property we had in our hands for sale, meaning that he was looking after business too sharply, and without due regard to the proper etiquette which should be observed by a professional man. In other words it looked like trying to jump our claim.

1375. Are you aware at what sum the property was offered to Mr. Gorman? £31,000 is mentioned, 1 think, in the letter which we wrote under Mr. Cliff's instructions.

1376. Did Mr. Gorman wait in the office, and take the letter with him? My memory will not serve me upon that point.

1377. Did Mr. Gorman at that time make you aware of the purchaser of the property, that is, as to who it was likely to be? I think so. To the best of my belief it was stated in the letter that the Government were to be the purchasers.

1378. Mr. Gorman made no reservation about the matter? No.

1379. He did not endeavour to conceal the fact that the Government were to be the purchasers? I think not.

1380. Then for what reason was it said in your letter that the property was to be placed under offer for the Government only? I do not know that I can give you any special reason for that now. We knew that Mr. Gorman was purchasing for the Government. Of that I am certain.

1381. But why was it said in your letter that the property was placed under offer to the Government only? That I do not know. My partner drafted the letter.

1382. Had you any conversation with your partner about this property previous to Mr. Gorman coming in ? Had you have the was if the Gorman would appelled the respective.

in? He said he wished me to see if the Government would purchase the property.

1383. When he made that request that you should see if the Government would purchase the property, did he indicate that they were your instructions from Mr. Cliff? He did not say so, I think. I do not pretend to remember the exact words; but the understanding in my mind was this, that the Government would not purchase the A.S.N. Company's property unless they got the only piece of land dividing the A.S N. Company's property from Dawes Point.

1384. That was the understanding arrived at between you and your partner? Yes.
1385. Was Mr. Cliff a party to that understanding in any way? He might have had a knowledge of it; but this conversation between and my partner was between ourselves. It was the first time my

but this conversation between me and my partner was between ourselves. It was the first time my partner spoke to me about the matter.

1886. Did your partner lead you to infer in any way that Mr. Cliff had suggested that the Government would be the purchasers? Oh yes; in fact I think the words used were "The Government must buy it if they intend to secure the A.S.N. Company's property."

1887. Do you think those words were used by Mr. Cliff to your partner? I cannot say.

1888. Did your partner by statement, or in any other way, lead you to infer that a part of the instructions Mr. Cliff had given to him relative to the disposal were that the Government were to be sought as purchasers? Oh yes. The words were, or rather the idea was, that unless the Government could secure that land it was not likely that they would purchase the A.S.N. Company's property.

1889. At the time you were told that the property had been placed in your hands for sale, and previous

1389. At the time you were told that the property had been placed in your hands for sale, and previous to Mr. Gorman coming in, Mr. Cliff had left definite instructions? He instructed my partner to sell,

and my partner asked me to take the matter in hand.

1390. You know this property well? Yes, very well. I saw boys bathing from it forty years ago.

1391. Do you know in whose hands the property was previous to its purchase by Mr. Cliff? No.

1392. Did you at any time know the owners? I believe that many years ago it belonged to a namesake of mine; but I had not the slightest idea to whom it belonged at the time of its recent purchase.

1393. You have a good knowledge of the value of properties? Yes.
1394. Will you give us the commercial value of this particular piece of land? My partner and myself went into the matter, and we both agreed that the price the Government was going to give was a fair price, that is, we thought that Mr. Cliff was not asking an outside price for it. We went into figures on the plan. Perhaps I may be permitted to say that in determining the value of a particular block of land it must not be supposed that you can put it in the market and sell is at a moment's notice. Pieces of land, in the city especially, are often not sold until someone comes along whom the property suits. I may add that some time ago my partner and myself were instructed—I think by a wharf improvement association—to value all the wharf frontages, and we came to the conclusion, after going through the whole of them, that there was scarcely any property below Prymont. Bridge and Circular Oney fronting the herbory. that there was scarcely any property below Pyrmont Bridge and Circular Quay, fronting the harbour, which was worth less than £200 a foot.

1395. Would that estimate include this property? It included all the property shown by Mr. Schultz's plan.

G. Pile, Esq. 1396. Would it include the frontage to George-street? No; simply the water frontage with means of access. I think when we went into figures about this piece of land, at the time of negotiations, we valued 4 Nov., 1887. the water frontage at £200 a foot, and the land at the back at about £80 a foot.

1397. Can you tell the Committee what reason Mr. Cliff had in accepting £29,000 instead of £31,000? We advised him to accept it. I said to him, "You had I cannot say that he had any particular reason.

better make a quick deal and accept."

1398. Have you seen Mr. Gorman on any other occasion save the one referred to in connection with this transaction? I think that I saw him twice. I believe that he came in to ask for an extension of time, but I

am not sure about it. It may or it may not have been a verbal communication.
1399. Did it not strike you as being singular that Mr. Gorman should have come into your office while Mr. Cliff was there, taking into consideration the other circumstances in connection with the case, did it not make any impression upon your mind? I must frankly say that I am not in the habit of expecting other than straightforward action on the part of anyone. It may be only a habit of thought of mine; but I have seen coincidences, and this transaction did not occur to me as being otherwise than bonå fide in every way.

1400. Is that your impression still? It is so still. Of course I have heard since that Mr. Cliff did well out of the transaction. I did not know at the time that he had only just bought the property; but these things do occur often. It never struck me then, and, as I said, I am not in the habit of thinking otherwise than that every one acts bond fide. I have known Mr. Cliff for many years, and knowing Mr. Gorman intimately, I am not inclined to believe that either of them could act otherwise than straight-

forwardly.

1401. Have you had any conversation with your partner about this matter since the transaction was closed? I have had a few words; but I did not see his evidence. I remember his receiving it, and he said, "This is the evidence I have given before the Committee;" but I said I thought I had better not

1402. Did he offer to allow you to see it? No. He merely said, "Here is the evidence I have given." I refused to see it, thinking that I myself might be examined before the Committee, and that it was per-

haps not well that I should see it.

1403. In this conversation with you, did your partner express any opinion with reference to this transaction? I do not think so, except perhaps that he may have said that Mr. Gorman's action was ill-judged, and showed a certain amount of anxiety for commission which he did not care to see. He seemed to think that Mr. Gorman was not right in attempting to receive the portion of the commission to which

1404. Has he not expressed any other opinion to you about the transaction? I do not recollect any. 1405. Has he ever said to you that in his opinion he had been had? He said that we had perhaps been employed as selling agents in order to prevent him acting as a Government valuator. He may have said We talked over the matter two or three times freely.

something like that. We talked over the matter two or three times freely.

1406. Mr. Gorman, I believe, is to receive a part of the commission? Yes, one half of 2½ per

1407. Was that arranged the first morning Mr. Gorman came to see you? No. When Mr. Cliff agreed to accept the offer of the Government I think he said, "You fellows will have to divide it with Mr. Gorman." I think I said, "If we must, I suppose we shall." That was at the interview when the business was closed.

1408. But you could have recovered the  $2\frac{1}{2}$  per cent, if you had refused to divide, could you not? Yes. 1409. Then why did you so readily consent to his proposal? I am as you know of a pretty easy disposition, and Mr. Cliff is an old friend of mine, I have known him for twenty-five years. I am also very friendly with Mr. Gorman, and we often meet. Though I may have said to my partner afterwards that Mr. Gorman had no right to ask for a pornion of the commission, and grunbled at it very much, I happen to know that Mr. Gorman likes a commission, and is in fact rather eager about getting one. I know that he is Mr. Cliff's agent. My partner and myself both said shortly afterwards that Mr. Gorman should have been satisfied, as he was no doubt getting a buying commission. We thought that he ought to have been satisfied with that.

1410. You know of your own knowledge that Mr. Gorman is usually Cliff's agent? I know that he has

acted very frequently for Mr. Cliff.

1411. Do you know if they are on friendly terms? I have every reason to believe so. 1412. I believe you often value property for the Government? Yes. We were engaged We were engaged in the Darling

Harbour valuations. The vacant lands, these were my valuations principally.

1413. Did you advise the Government to accept what the owners of property in Darling Harbour asked?

In several instances we passed the claims because we thought that they were just claims. In other cases we did not pass them. When I have been acting for the Council of Education I have often recommended that amounts asked should be paid. The rule is when a person makes a fair and just claim to recommend the resonance and if he makes as a relief to the rule of the rule when the recommended. its acceptance, and if he makes an exorbitant claim to put our estimate of the value upon the property.

1414. If the Government had consulted you in this matter do you think it probable that you would have recommended them to pay £29,000? I think so. My impression now is that I should.

1415. Before you made that recommendation to the Government would you not cause certain inquiries to be made with respect to the title of the property? The duty of a valuator is simply to assume that the owner owns all the property, leaving the legal gentlemen to discuss such matters as titles, and discover if anything is offered to the purchaser which does not properly belong to the vendor.

1416. You see this plan (Appendix C.)? Yes.

1417. It has been handed in in evidet way would infor by the and line worked over that all 2. Timber.

1418. Will you tell the Committee what you would infer by the red line marked upon that plan? I infer that in the deed of grant there was 100 feet reservation.

1419. Mr. Brunker.] But supposing that 100 feet reservation had not been in the grant? It is the practice of our firm in dealing with properties on that eastern side of Darling Harbour to consider that any reservations in the Crown grant have been condoned by long possession. In our valuations, therefore, we have never yet taken notice of them. We never inquire into the question of reservation. We believe that if there were any error in the documentary title, as regards frontage in these cases, it has been condoned by long possession. That observation includes property from the Circular Quay right round to Ultimo, including the property now under consideration.

1420. If as a matter of fact the Crown grant of this property reserves to the Crown the right to step in at G. Pile, Esq. any time and resume; would not that affect the value? No; because we do not believe the Crown would I am not now dealing with the legal question, I am simply referring to the actual facts of the 4 Nov., 1887. case. I do not think that in the case of any of these reservations the Crown would think of moving in

the matter; it is quite a different case to that of Cremorne. At Cremorne no one had built down to the

water's edge. This land has been in actual bond fide possession for many years. Forty years ago it was a ship building yard, and altogether I should say there were about sixty years against the Crown.

1421. Mr. Abigail.] I understood you to say that acting in the public interest if you were valuing for the Government you would not have recommended that the power of resumption should have been enforced in this instance? No; that question has not arisen. We never advise about resumption; if the parties take a fair value we advise the Government to pay it; that is what I said.

1422. It is no part of the duty of your firm as valuators to recommend the Government to resume land for public purposes? No; the Government come to us only after resumption, or after the land has been offered to them: they never consult us in the matter of resumption

offered to them; they never consult us in the matter of resumption.

1423. You have no doubt in your mind that £29,000 is a reasonable price for the land with all its surrounding circumstances? If the Government had resumed this property and the claimant had asked £29,000 for it, we should certainly—of course, I can only speak for myself—have recommended the Government to pay it; I should not have hesitated one moment.

1424. Were you present when Mr. Cliff first spoke to Mr. Mills about this matter? I was not. 1425. You do not know what took place on that occasion? I do not.

1426. Did you hear anything about the division of commission before the completion of the sale? No. My impression is that we first heard of it at the interview at which the matter was closed. My impression is that after we had advised Mr. Cliff to close, he said, "You follows will have to divide with

1427. Is it a very unusual thing for city properties to change hands, and for large profits to be made out of them? It is a common thing. I was in an equity suit, which was settled out of court, the other day, in which there was a difference between the two amounts of £20,000, and I daresay that by referring to my books I could give other instances.

1428. Is it a usual thing for persons to get properties put under offer to them and to sell them actually before they have completed the purchase? Oh, yes.

1429. What character does Mr. Cliff bear among commercial men? I have never heard him spoken of

except as a land dabbler, sharp as a needle, and fond of the profit.

1430 Have you ever heard anyone describe him as an unscrupulous man? I never heard such a thing. He stands well in the commercial world, and he is a managing partner of one of our principal importing houses.

1431. If this property had been valued by a witness at £4,000, should you think that valuation a reasonable one? I should like to buy it at that price.

1432. Or even at £7,000? If a person could afford to hold the property at a low rate of interest, he could be a price for it.

within reason command his own price for it.

1433. Mr. Brunker.] You say that at the commencement of this matter, when Mr. Mills first spoke to you about it, he asked you to take the business in hand for the purpose of making a sale to the Government? Yes.

1434. Do you know how Mr. Mills became informed that the Government required the property? Of course I am speaking as to knowledge by conversation; but I may mention that the moment I heard of the thing from my partner I saw it was the key, so to speak, to the union of two Government properties,

that the Government in all reason must purchase it.

1435. But it did not strike you, as Mr. Mills' partner, to ascertain from him how he became aware that the Government wanted the property? I think he told me that Mr. Cliff had said that the Government would have to buy it. I think I said at the time that it was not likely that the Government would have to buy it. I think I said at the time that it was not likely that the Government would have to buy it. would have to buy it. I think I said at the time that it was not likely that the Government would purchase the A.S.N. Company's property while this little strip of land intervened between it and Dawes Point. My partner agreed with me; I saw that at once as a business man.

1436. Mr. Gorman and Mr. Cliff were in your office at the same time? Mr. Cliff came in the second time to speak about this matter, and then within five minutes Mr. Gorman followed, and from what Mr. Gorman said I should say that seeing Mr. Cliff come in he followed him.

1437. Was anything done with regard to the property while they were there? I do not know the exact words; but of course Mr. Gorman spoke about it. It came out in conversation that Mr. Gorman had come to see about the very matter we were talking about.

1438. Was anything definitely done? Yes. Our instructions were to place the land under offer to Mr.

Gorman for the Government; that was arranged during the interview.

1439. I suppose Mr. Cliff made a special arrangement about commission? Yes; we were to receive 21/2

per cent. upon the sale of the property to the Government.

1440. And I suppose on condition that it realized a certain price? Mr. Cliff's instructions were that we were to offer the property to the Government at £31,000, and our commission was then arranged at 2½ per cent. I was not present; but I came in during the day, and my partner said, "I want you to take this matter in hand, it will require a good deal of looking after."

1441. It is not usual for auctioneers acting in opposite directions to divide commission, is it? It is seldom asked. I have been offered commission on both sides; but I have always refused. I do not consider that it is a proper thing. A man is paid commission for attending to the interest of his constituent, and the only explanation I can give about this matter is that which I gave before, namely, that Mr. Cliff and Mr. Gorman were old friends, that Mr. Cliff generally employed Mr. Gorman. I do not know what Mr. Gorman may have said to him, but when he came to us he said, "You fellows must divide with Gorman." My partner and I agreed when he went away that Mr. Gorman had no right to ask such a thing because there

was no doubt that he was getting a buying commission.

1442. As a matter of fact you now have to share the commission with Mr. Gorman? We have promised to do so, and I suppose that we shall keep our promise; we have never broken one yet.

1443. Is there not a marked difference between the value of water frontages at Darling Harbour and Circular Quay? Oh, yes; some are worth £400 a foot. We put a minimum at £200 a foot.

1444. How does the difference in value arise? By position. People are in the habit of giving the market value of the property. A man would give more for a piece of land with a water frontage at the foot of 142 - G

G. Pile, Esq. Market-street or King-street, because traffic concentrates there, than he would give round in Darling Harbour where Mr. Dalton's wharf is.

4 Nov., 1887. 1445. Would not the value be affected by the depth of water? By a variety of circumstances. depth of water would affect it, because if there was no great depth of water you would have to place jettics a long way out, or dredge.

1446. In the case of this piece of land, what would it be necessary to do? It would decision of the Harbours and Rivers Department as to what extent you could build out It would depend upon the

1447. But considering the depth of water immediately opposite this piece of land, would it not be necessary Well, the line to which you could extend a jetty is determined by the Harbours and Rivers Department. You would either have to reclaim the land, or to build out jetties, or to deepen the water.

1448. Does your knowledge of the property enable you to say to what extent reclamation would be necessary? I know that it is shallow, but I do not know how rapidly it shelves beyond low water mark. The

value of this particular piece of land consists in the fact that with the exception of the A.S. N. Company's land it is the only piece of land available on the Circular Quay.

1449. Your experience will enable you to say that there are many cases in which properties of this kind acquire a special value? Yes.

1450. And your experience also enables you to say that in realizing, the price obtained would not necessarily be the actual market or commercial value? Yes; I would say a value that is not ordinarily obtainable.

obtainable.

1451. You think that this particular piece of land is a property in that position? Yes; a person would only have to hold it to get his own price for it one of these days. The Government having Dawes Battery and the A.S.N. Company's wharf, the idea of allowing anyone else to have this one strip of land would be an absurdity. It would be a matter of wisdom upon the part of the Government to purchase it. 1452. Chairman.] The Government could have resumed the land? Yes.

1453. And then the price would have been fixed by arbitration? If the price asked for had been thought fair it would have been paid. If it had been exhorbitant the vendor would have had to stand the ordeal to which Mr. Lucas was subjected in the case of the Darling Harbour resumptions.

1454. Had you conversation with anyone with the exception of your partner with reference to this

business? I do not recollect any conversation.

1455. Mr. Brunker.] In transacting this business, you have not known of any other person in connection with it but Mr. Cliff? No, only Mr. Cliff.

None to

1456. The name of no other person has transpired as having any connection with the property? None to

#### THURSDAY, 10 NOVEMBER, 1887.

Bresent:-

Mr. ABIGAIL, MR. BLACK.

MR. BURDEKIN, MR. CHAPMAN, Mr. R. BURDETT SMITH.

# THE HON. F. ABIGAIL IN THE CHAIR.

James Patrick Garvan, Esq., M.P., called in, sworn, and examined:-

J. P. Garvan, 1457. Chairman.] You are a Member of the Legislative Assembly? I am.

Esq., M.P. 1458. You know the purpose for which this Committee is sitting—to inquire into the purchase of a piece of land adjoining the A.S.N. Company's wharf, Circular Quay? I do.

10 Nov., 1887. We want you to tell the Committee as briefly and as clearly as you can what you know about this transaction; it has been suggested that you know some particulars of the purchase? My knowledge of it, I suppose, will be with reference to the value of it, and any circumstances connected with ascertaining the value.

1460. But do you know anything surrounding the purchase of the property which leads you to believe that the purchase was of a suspicious character? I believe that the price paid was very much greater than

1461. Upon what do you base that conclusion or belief. Here is a plan (Appendix C) handed in in evidence by Mr. Wrench? I know from my personal knowledge of the property that this is not nearly a correct plan. If the value is to be clearly ascertained, the property of the Government at Dawes Point should be shown, as the situation of that property materially affects the value of the property under consideration. I had better perhaps tell you in a conversational way what led me to say anything about it. At some time in the House the statement was made that this land was put under offer to Mr. Dalton—I do not know by when the statement was made after a considerably less sum than the price at which it was purchased: time in the House the statement was made that this land was put under offer to Mr. Dalton—I do not know by whom the statement was made—for a considerably less sum than the price at which it was purchased; I think for £11,000 or £8,000. The person who was supposed to have put the land under offer to Mr. Dalton was Mr. Mitchell, the Secretary to the Chamber of Commerce. Mr. Mitchell lives at North Shore, and I also live there. In going over in the steamer a day or two following the statement to which I have referred, I met Mr. Mitchell, and the property became the subject of conversation. He stated that he had never put it under offer to Mr. Dalton; I remarked that it was rather strange that a man of the business habits of Mr. Dalton should say that the land had been put under offer to him if it had not been put under offer. He said, "I have no recollection of speaking to Mr. Dalton at all about this property. I have spoken to him about the purchase of several other properties; but not of this one." I said, "Well, whether you offered the property to Mr. Dalton or not, you know it well," and he said, "I have known it well for years." I said, "What is your estimate of the value of it?" He answered, "The outside estimate of the value I suppose would be £10,000" That is one reason which led me to form the opinion that the price paid by the Government was largely in excess of its value. There was also another circumstance to which I will refer: During the debate in the House, Mr. Ives stated that he had known the property for a great number of years, that in fact he had known it for the past twenty-five years, and that the price paid by the Government was only a reasonable price, and a price which he himself would have been willing to give for the property twenty-five years ago. Meeting Captain Breumer

Bremner one day on board one of the North Shore steamers I spoke to him about the property. He said J. P. Garvan, bremner one day on board one of the North Shore steamers I spoke to him about the property. He said J. P. Garvan, he had known it for a long time. I asked him whether from his knowledge of it the statement of Mr. Ives that it was worth £29,000 twenty-five years ago was a correct estimate of its value. He said, "Very far from it, for twenty-five years ago the land was put under formal offer to me for £1,600, and declined. At a period since then—perhaps seven or eight years later—it was again placed under offer to me at about £2,400; that price I also declined, as being in excess of the true value of the property." These are two points from which, in connection with anything said by the people outside, I infer that the price paid by the Government was in excess of the true value of the land. In addition to this, however, I have my own personal knowledge of it ever since I was a child. I know the land very well, and it appears to me that for any of the purposes of large shipping for which alone the property would be of appears to me that for any of the purposes of large shipping, for which alone the property would be of use, it would be perfectly impossible by any process that I know of to make a wharf to which vessels could come, unless the Government gave up their rights on the Dawes Point side. Unless they totally gave up their rights of water frontage on that ide it would be impossible by any process I know of for a vessel of moderate size to discharge a cargo upon any wharf constructed on this land, and I do not think in view of the fact that the Consequent in view of the fact that the Government have conflicting rights that it would be likely that a reclamation right would be given in respect to this particular piece of land. If the Government exercise their rights in respect to the Dawes Point property the piece of land recently purchased will be valueless, and if they exercise their rights in regard to the frontage of that property the frontage of the Dawes Point property will be interfered with.

1462. These are your reasons for thinking that the amount paid by the Government for this piece of land is in excess of its true value? Yes.

1463. You made a remark in Parliament reflecting upon the Minister for Justice as to his connection with this purchase. Have you any information to give the Committee which will sustain that position, or which will connect the Minister for Justice in any way with the sale or purchase of this property? I have no direct evidence at all. There was merely a ground of suspicion by reason of the largeness of the price, and the individual to whom the price was paid.

1464. And you have no evidence of a reliable character upon which you base that suspicion? No more evidence than that I consider the price largely in excess of the true value of the property.

1465. Have you since acquired any evidence to show you that the Minister for Justice was in any way connected with this purchase? No, except information of the character I have given to you, I should not be in the way of ascertaining anything further. I may state perhaps a little more fully for the information of any member of the Committee who did not hear what I said, that it had been stated that Mr. Cliff, who had bought this land, and Mr. Clarke, the Minister for Justice, had frequent transactions in land. Just about the time the Government were going to acquire the property Mr. Cliff got it put under offer to him for £20,000. Immediately following, the Government purchased it for £29,000, leaving the transaction open at any rate to some ground of suspicion that possibly Mr. Cliff and Mr. Clarke, who had frequently been mixed up in other land transactions, might have been mixed up in this particular transaction. 1466. If Mr. Cliff has sworn that no land transaction has taken place between himself and Mr. Clarko during the last four or five years would that remove your suspicion? I should not have my suspicions removed except in view of the whole evidence justifying it. I would not like, any more than yourself, to arrive at any immediate conclusion until I saw the whole of the evidence.

1467. You would still have the suspicion you stated? Of course any direct evidence that would tend to remove it I would give due weight to. It has often occurred before now that although there were suspicious circumstances surrounding transactions, yet those circumstances proved to be only suspicious

and not grounded on fact.

1468. But you have no direct evidence to furnish except the general impressions which you have stated? None whatever.

1469. Mr. Chapman.] You say that the claim of water frontage rights in respect to the Dawes Point property would render this particular piece of property of very little value; do you not think it would be worth £29,000 as a continuation of the A.S.N. Company's property? I do not think it could be valued at more than £10,000. I myself would not give even that amount for it.

1470. You know a great deal I dare say about the purchase, that is, you have heard a great deal about it; do you think it was a fair, honest, business-like transaction? I do not.

1471. Why? It bears strongly the suspicion that Mr. Cliff had some information with reference to the land before he took action. I do not say that Mr. Cliff was not fully justified in taking the course he did as a speculative one.

1472. But you are of opinion that he had information which he ought not to have had? I would certainly say that circumstances lead to that suspicion, and that in the absence of that information the Government

would have been saved a considerable sum of money.

1473. Mr. Burdekin.] You say that the value of this land would be very much decreased if the Government, acting upon any rights they might possess in respect to the Dawes Point site, projected a jetty into the Sydney Cove? Yes.

1474. But would not the same argument have applied to the A.S.N. Company's property? No; there

is an intervening space.

1475. Is it within your knowledge that the right of reclamation goes directly out, and that it could not go round a piece of land like this? There are equal rights on the part of the Government to go south as on the part of the owners of this land to go east, and in the event of two rights conflicting there would have to be a curtailment of right on each side.

1476. But the A.S.N. Company having enjoyed their full rights it would be an extraordinary thing to throw all the disability upon the owners of the small piece of land recently purchased? I do not think the A.S.N. Company have extended their jetties in a straight line with the boundary of their property.

1477. Chairman.] You say that this purchase bears the suspicion that Mr. Cliff had some information before he purchased this land? Yes.

1478. If he has sworn positively that he had no information from any member of the Government, or from any civil servant, would you still retain your suspicion upon that point? I said before, I think that the decision arrived at should be in view of the whole evidence.

1479. But you say you think Mr. Cliff had information leading to the purchase; if he has sworn that he had no information, would your impression to that effect still remain? I would give some weight to his J. P. Garvan, oath; but I would not say, except in view of all the other evidence, whether my impression would be Esq., M.P. entirely removed. entirely removed.

1480. If every person interested in this purchase swore that he received no information, would that 10 Nov., 1887. influence your opinion? The statement of any honourable man would influence me in the decision I would arrive at.

1481. If Mr. Cliff has sworn that he purchased this property for £20,000 as a general speculation, believing it to be worth that amount, what would be your impression? I do not believe he would give £20,000 for the property except he had made his bargain with the Government. I am certain that the land is not worth it.

1482. But Mr. Cliff has sworn that he purchased this property as a general speculation without any information or knowledge to the effect that the Government would be the purchaser? Did he not

say that he purchased it in expectation of the Government purchasing?

1483. He said that he purchased it without any knowledge or thought that the Government would be a purchaser? I must candidly say, if he swore that, I would not give credence to it. That recalls to my mind a short interview with Mr. Cliff. I did not know him by sight until six or seven weeks ago. Sometime after the statement was made by me in the House, Mr. Cliff made himself known to me as being the person referred to in this matter. He then stated to me that he was led to buy the property because of a statement made by Mr. Burns in the House that it was probable that the Government would resume all the wharf frontages, he thought, consequently, that the Government would want this piece of land. That is the statement Mr. Cliff made to me.

1484. Is your suspicion based upon a statement made in Parliament or upon private information conveyed to you by Mr. Cliff? My suspicion, as I said in the beginning, was in view of the price being immensely over the value of the property, that led to my first suspicion.

1485. You have no direct evidence to give to the Committee to sustain such an impression? I am positively of opinion that the price paid is in excess of the value.

1486. But you have no direct evidence? None whatever.

1487. Mr. Chapman.] You have a good knowledge of the value of land in the city, and of harbour frontages? Fairly good; but I would not say I have as good a knowledge as persons who make land valuation their business.

1488. And you are really of opinion that this land is not worth anything like the money the Government have paid for it? The land would only be of value in view of its being bought for wharfage of occangoing vessels, and it would be absolutely impossible to make a wharf for occan-going vessels in that place. If you want to ascertain the value of the land with reference to that point, it would perhaps be well to examine the Surveyor-General or the officers of the Harbours and Rivers Department. I think that they would bear out what I say. They will tell you that it would be impossible to make a wharf there to which ocean-going steamers could come.

1489. Do you think that £200 a foot frontage for land facing the Circular Quay is an excessive price? In this position I think £200 a foot would be immensely in excess of the value.

1490. If you were told that a gentleman had purchased land at Milson's Point for £150 a foot, would you think that land, having a frontage to Sydney Cove, would be worth considerably more? My objection to the value of this land is based upon te fact that it is not a water frontage in the proper or commercial acceptation of the term. There is no water frontage of a commercial value. Of course, if the land had

full water frontage rights, £200 a foot would not be too much.

1491. But when you see land selling in George-street at £800 or £900 a foot does it not strike you that £200 a foot for land of such an exceptional character as this, with a water frontage, is really worth £200 a foot? As a water frontage, this land is valueless; no value can be attached to it in view of its water

frontage.

1492. If you had two wharves divided by a strip of land, and supposing you had paid £150 a foot for the land on each side of your wharf, would you think £250 or £300 too much to give for the block of land intercepting your traffic between the two wharves? It would hardly be any use my saying, unless the question were put to me as to the value of a specific property. Many things might affect the value of

the intervening piece of land.

1493. Mr. Chapman.] In face of the fact that there is a road dividing the property recently purchased at Circular Quay are you still of opinion that it is not worth the money? I still think it is not worth the

money.
1494. Mr. Burdekin.] What would you think is the value of the frontage of the A.S.N. Company's wharf? The value of wharf property would depend upon the depth and the right of way at the back, taken with the improvements upon it.

1495. But suppose there were no improvements upon the A.S.N. Company's property. I should not like to give a value, unless you could show me exactly the depth, and other particulars of that kind.

1496. You have had no experience in the value of property? I am compelled by my business to have a

little; but I will at once say that I have not the knowledge which an expert would have in the matter. 1497. If an expert had said that the value of £200 a foot for a water frontage at Circular Quay was a reasonable value your previously formed opinion would be modified? Of course the weight of evidence would modify my opinion.

1498. On what ground do you say that this frontage has no commercial value as a water frontage? Because it would be impossible to bring any ocean-going vessel to any wharf made there.

1499. Mr. Black.] Do you know that it would be quite impossible to construct a wharf? In my opinion it would not be possible, keeping in view the rights of the Government with reference to their property In my opinion at Dawes Point. I assume, of course, that the wharf would be used for ocean-going vessels. I may mention that it would only be for large vessels that that part of the Harbour would be fitted. It may be remembered that some years ago the Hunter River Company came from Darling Harbour to bring the Hunter River traffic to this portion. Although they had a better wharf than the wharf at Darling Harbour the trade was of such a character that it was ruined by being brought to the new place.

1500. You make your statements of value from your own opinion, and not by any guidance from experts? Yes. If I might be allowed to say so I think an expert in this matter would be one of the officials of the

Harbours and Rivers Department, or the Surveyor-General.

1501. Chairman.] Have you ever been employed to value any city property? Never.

1502. Do I understand you to say that the Government could not construct a wharf to bring vessels to J. P. Garvan, this property? Not unless they gave up their rights in respect to the Dawes Point property. this property? Not unless they gave up their rights in respect to the Dawes Point property.

Esq., M.P.

1503. But the Government being the purchasers could not they make this property available for wharfage purposes? I think it is better to recognise the Government as having no more rights than a private

person would have.
1504. But the Government have purchased the property with a view to make it serviceable for the continuation of wharfage accommodation at the Circular Quay? Giving to the property its full rights it does not matter much whether it belongs to the Government or to a private person; but to the best of my judgment I think it would be impossible to construct there a wharf to which an occan-going steamer could come.

#### James Ewan, Esq., called in, sworn, and examined:-

1505. Ohairman.] You are connected with Frazer & Co? I am a member of the firm of John Frazer J. Ewan, Esq.

1506. And Chairman of the A.S.N. Company? Yes.

10 Nov., 1887.

1507. This plan (Appendix C.) represents a block of land adjoining the A.S.N. Company's property, recently purchased by the Government—do you recognise it? Yes.

1508. When was it placed under offer to you, how, and at what price? Noticing that the Government Noticing that the Government would probably purchase the A.S.N. Company's property, I thought it would be a good thing if I were in a position to offer them the two blocks, and about the 25th March last I saw Mr. Wrench, and told him what I thought about the matter. I asked him if he could place the property under offer to me for a month or five weeks, so that I could communicate with the Government not only in connection with that, but in connection with the A.S.N. Company's own wharf. He gave me a letter at the time I mentioned and I kent it over awar to my partner's absence from his iness, for about a fortuicht or three mentioned, and I kept it over, owing to my partner's absence from business, for about a for night or three weeks, until the 10th or 12th April. The letter placed the property under offer to me for £22,100 until the 30th April, and Mr. Wrench told me that if I brought a cash offer of £20,000 it would purchase the property. I mentioned to my partner, Mr. Watson, that I thought of submitting the matter to the Government as a whole, with Richardson & Wrench's offer for this piece of land. We talked the matter over, and he recommended me not to do anything with the piece of land which Richardson & Wrench had placed under offer to me, and that, as my intention was to submit the land to the Government at the same price as it was submitted to me, he thought that my motives might be misconstrued. I agreed with him in his conclusion, and did not move any further in the matter. I gave the letter back to Mr. Wrench about the middle of April, about a fortnight before the time had expired.

1509. You did not decline the offer on the ground of the property not being worth anything like the money? Oh no My intention was to submit it to the Government, and to say to them, that in buying the A.S.N. Company's wharf, they could also purchase this piece of land for £20,000. I never entered

into the matter from any other aspect.

1510. Has the land ever been offered to you at any other time for £7,000? No.
1511. Has it ever been offered to you at any time except that to which you refer at a less sum? I have a faint recollection that I spoke to Mr. Wrench about it about two years ago, and the price he then mentioned, as far as my recollection goes, was £18,000. I have no recollection of its being less than £18,000. 1512. Mr. Black.] Did you ever mention to anyone that this land was put under offer to you? I did so to Sir Henry Parkes and three or four other gentlemen.

1513. Do you remember to whom you mentioned the matter besides Sir Henry Parkes? I have men-

tioned it to Mr. McElhone.

1514. I suppose that would be only in a casual way? That is all. I know I mentioned it to several.

1515. Have the A.S.N. Company at any time since you have been connected with them had any idea of purchasing this property for themselves? Never, so far as I can remember.

1516 Did you ever form any idea in your own mind as to its commercial value? I think that £18,000 or

£20,000 would not have been dear for it.

1517. Mr. Burdekin.] Did you sell the wharf frontage of the A.S.N. Company to the Government at a lump sum, or was it taken at so much per foot? The basis upon which we sold the wharf to the Government was the rental. We were receiving a rental of about £15,600 a year, and we had a prospect of getting a higher rental from the P. & O. Company. We looked upon it as being, worth a rental in a short time of probably £18,000, and we took six per cent, upon that.

1518. Speaking generally; at what would you value land having a frontage to Sydney Cove. I suppose it would be more valuable than land having a frontage to Milson's Point? Oh, yes.

1519. If land at Milson's Point were worth £150 a foot what value would you attach to a water frontage at Sydney Cove? I should say, with an ordinary depth, the A.S.N. Company's water frontage would be worth £300 a foot with the improvements upon it.

1520. Do you recollect what frontage you sold to the Government? 600 feet, I think, altogether.
1521. This piece of land which we are now discussing was the only piece of private property remaining in that part of the harbour at the time of the purchase by the Government? From my standpoint I deemed it of the greatest importance that the Government should possess it; it made Dawes Point land so much more valuable and available

1522. In your own business arrangements, if a piece of land intervened between two properties which you owned, should you consider that you would be justified in buying that piece of land to form a complete property at an increased rate above the market value? Most decidedly.

1523. Would you say that £200 a foot was an excessive valuation for land having a water frontage to Sydney Cove? I should not under the circumstances.

1524. There is some question about this land not having deep water, would you consider that the fact of land having a water frontage at all would give it an exceptional value? I should.

1525. You think that the land being placed between two Government properties that fact alone would make it a judicious purchase on the part of the Government, even supposing they paid a price above the market rate? I look upon its purchase as a necessity.

1526. Mr. Chapman. You said that it had been offered to you at £18,000? Yes, I think so.

1527. And you said afterwards that you told Sir Henry Parkes that it had been offered to you at £20,000,

J. Ewan, Esq. was that prior to the purchase by the Government or after? The offer was prior to the purchase by the

10Nov., 1887. 1528. Mr. Black.] Did you, between the 10th April and the date of the purchase by the Government, mention the offer of it to you to anyone clse? I think not. I do not recollect doing so.

1529. Were you aware that the land was severed, that there was a lane passing through it? I think I

am right in saying that in the A.S.N. Company's property there is a lane made to correspond with the lane

shown on this plan. (Appendix C.)
1530. Can you form any idea what it would take to construct a jetty to berth an ocean-going ship or steamer at this place? You could not berth an ocean-going steamer or a vessel of any size at this piece of land alone.

1531. Not by constructing a jetty? I do not think so, because there are only 110 or 120 feet frontage, and if you put up a fifty-foot jetty and allowed for a ship with 45 feet of beam you would interfere with

the adjoining property.

1532. Mr. Burdekin. In putting out jetties from the A.S.N. Company's Wharf, did the Company have the right to project the lines of jetty in the direction of their property, or were the lines tapered off to the southward? At the northern boundary there is a small jetty for ferry boats, which I think goes straight out.

1533. You have no reason to believe that there was a divergence to the southward? I do not thinks so,

that is to the best of my belief.

1534. If this property had remained in private hands, and the property of the A.S.N. Company had remained in their hands, would you have felt it your duty to resist a jetty erected from this property overlapping your property? Most decidedly.

1535. Your impression is that whatever rights you have lie at right angles to your property? Yes.

1536. Mr. Black. I understood you to say just now that it was not practicable to build a jetty to berth an ocean-going ship? Not on this piece of land by itself.

1537. Mr. Chapman. But in connection with the land known as the A.S.N. Company's land it could be made use of for ocean-going steamers? Oh ves.

made use of for ocean-going steamers? Oh, yes.

1538. You own property in other parts of the city; what would be the position of this particular piece of property with regard to the right of reclamation? I do not think the right of reclamation would be given in view of the fact that it would render almost useless the frontage at Dawes Point.

1539. Chairman.] If you owned the A.S.N. Company's property and the property at Dawes Point, would you consider the question of price in purchasing this piece of land intervening? I should do my utmost to get it as cheaply as possible; but I should doem it of vital importance to my interests to obtain it.

1540. Mr. Black.] If you owned the A.S.N. Company's property and the Dawes Point land would you consider £29,000 an excessive price to give for the block we are now considering? I think it would be write aufficient.

quite sufficient; but rather than lose it, if I were situated as you describe, I would give that price.

John McElhone, Esq., M.P., called in, sworn, and examined:-

J. McElhone, 1541. Chairman. You are a Member of the Legislative Assembly? Yes.

Esq., M.P. 1542. You know the object of this investigation? Yes; I understand it concerns the recent purchase by

the Government of property at the Circular Quay.

10 Nov., 1887. 1543. We want you to tell the Committee what you know about this purchase to warrant you in concluding that it was a suspicious transaction? Well, on account of the enormous price paid, and the fact that Mr. Cliff has been intimately connected for years past with Mr. Clarke, the Minister for Justice, in land purchases. I need only instance a piece of land they bought—Mitchell's store and the adjoining property—from Mr. Clissold, for £21,000. Immediately afterwards they claimed about £62,000. That is shown by the records of Parliament. My opinion from these facts is that the public have been robbed in a scandalous manner.

1544. Have you any knowledge as to Mr. Clarke and Mr. Cliff being connected in this particular purchase? No. 1 only went by a letter which I received, stating that Mr. Cliff was a particular friend of Mr.

Clarke's. The letter was about this land. 1545. From whom did you receive the letter? I cannot recollect. I tore it up immediately afterwards. 1546. Was it an anonymous letter? No; a name was attached to it; but it was some months ago and I

do not remember the name.

1547. But you have no direct evidence to connect Mr. Clarke with this purchase? No; and if I may be allowed to refer to the evidence which I understand Sir Henry Parkes has given to this Committee to the effect that the whole transaction originated through him, that would clear Mr. Clarke so far as I am

concerned. I have heard that Sir Henry Parkes has given evidence to that effect. If that is a fact I should at once say that it would clear Mr. Clarke completely in my mind.

1548. When you said in Parliament, on the 12th July, "I will prove by that time that the Minister for Justice is up to his neck in this transaction," what did you mean? I was under the impression that such was the fact, and that I should be able to prove that the money was paid; but I was a little too quiek.

1549. You have no evidence to prove it now? None, now. I am only sorry that I did not wait as you did in the case of Wright, Heaton, & Company. I believe that I could have caught the lot of them; but I was too hasty.

1550. You said in the Assembly that Mr. Wrench wrote to Mr. Cliff advising him to purchase this

property? I did not say that.

1551. You have been reported as saving, "He had been told that Mr. Wrench, who had the property in his hands for sale, wrote to Mr. Cliff, advising him to buy it, as the Government were going to resume the A.S.N. Company's property, and would be sure to buy the adoining piece of land?" I was told so; but a party told me the next night that he had informed me wrongly about the matter. I found that Mr. Cliff had waited upon Mr. Wrench.

1552. On the 13th July, you are reported to have said you "would call members of the House to prove that Mr. Cliff said not very long ago, that if a certain member of the Government—the Minister of Justice—stopped in office for a few months he would make a big pool. This was the beginning of the big pool?" I could give the name of the man who told me, if necessary.

1553. I must ask you to do so? He said that Mr. Cliff had said in a club that if the Government stopped

in office for a few months he expected to make a big pool out of them. The name of the member who J. McElhone, told me is Mr. Dibbs. But Mr. Cliff did not tell Mr. Dibbs himself; a friend of Cliff's told Dibbs. Mr. Esq., M.P. Dibbs said that he had stated so to some friend in the club. That was between the time when I mentioned the matter first and when I made the statement you have just read. I had not spoken to Mr. Dibbs for some years; I met him casually, and the remark was made to me that this thing had been stated by Mr.

Cliff to a friend in a club, which friend told Mr. Dibbs of it.

1554. On the day of the prorogation of Parliament you said, "I will have you (the Minister of Justice) out of office for it. There is no doubt that the Minister of Justice is in this land swindle up to his neck"? I have no knowledge of it now; but I believe in my conscience that Mr. Clarke has still got an interest in the money. I believe that it will never be proved that he has an interest in it; but I believe that he would have received some money. If I had waited as you did in the Wright-Heaton case, the money would have been paid, and we should have found it all out.

1555. If it has been sworn by Mr. Cliff and other parties that Mr. Clarke is not in any way interested in

this purchase, and by Mr. Cliff that he has had no land transactions with Mr. Clarke for the last four of five years, would that alter your impression? No. Mr. Clarke said that he had had no transaction with Mr. Cliff for the last six years, but I myself have purchased land through Hardie & Gorman from Mr. Clarke and Mr. Cliff within the last six years, and it is not more than five or six years ago that Mitchell's property at the Circular Quay was bought by them. If anyone looks at the records he will see that Mr. Cliff's name appears all through as the purchaser, although I can prove that in the first instance Mr. Clarke was the absolute purchaser. Mr. Clarke's name did not appear until the last moment. 1556. Do you know Mr. Cliff? I should not know him if I saw him. I have heard that he is a partner in Gardney's the wholesale drawers.

in Gardner's, the wholesale drapers.

1557. But you would not believe his oath if he swore what I have stated? I most distinctly would not. 1558. Did you state in Parliament that Mr. Dalton had been offered this property for £7,000 within the last three years? I did. I was advised by some members that that was the case; but I saw Mr. Dalton himself about it, and he told me that he had been offered the property about four years ago for £11,000. I may add that Mr. Ewan told me that the property had been offered to him for £22,000, and Mr. Wrench told him that if he made a cash offer for £20,000 he would get the property. If Sir Henry Parks had stated on the night when I first mentioned the matter, what I hear he has stated before this Committee, that he originated the purchase, and that it was done through him, I would have withdrawn the statement I made, and would have expressed my regret for having made it.

#### WEDNESDAY, 16 NOVEMBER, 1887.

Present:-Mr. ABIGAIL, Mr. CHAPMAN, Mr. BLACK Mr. GOULD, Mr. BRUNKER, Mr. R. BURDETT SMITH, MR. STREET.

N. MELVILLE, Esq., IN THE CHAIR.

James Ewan, Esq., recalled and further examined:

1559. Chairman.] Were you the Chairman of the A.S.N. Company some few years back when the picce J. Ewan, Esq. of land which forms the subject of this investigation was placed under offer to them? No.

1560. Were you a director at that time? No.

1561. Do you know if there is any document in possession of the Company in the shape of a letter of offer or otherwise, having reference to this piece of land? On referring to the evidence which I gave last Thursday I recollected a conversation that I had had with Mr. G. R. Dibbs on this subject, I then spoke to the secretary, the acting manager at the present time, about the matter, and asked him to give me any information he had about the land being offered to the Company, and he wrote me a memorandum on the 15th instant, which I will read to the Committee:—"I cannot find a minute offering the property at £7,000. I find on the 3rd April, 1877, it was offered at £8,000, and on the 11th the Company declined it at the price. Subsequently Mr. Dible and Mr. Caldell was a through the name of the price. it at the price.

te price. Subsequently Mr. Dibbs and Mr. Caddell were authorized to purchase, if obtainable, at pounds [the amount is not named]. I have an impression that it was offered at £7,000. However, all this must have taken place before you joined the Board, which was on the 29th January, 1878." 1562. About what date did you have the first conversation with Sir Henry Parkes about this land? I could not recollect the date; but I know that Sir Henry Parkes took it down on the day I mentioned

it. I think he names the date in some place.

1563. Did you have any conversation with Sir Henry Parkes previous to the conversation which he minuted, and which is shown in the papers laid before Parliament? I think that is the only one I had with Sir Henry Parkes on the subject.

1564. Had you any conversation with anyone else about it? Only in a casual way, speaking about the matter.

1565. Have you ever had a conversation with Mr. J. Watson about it? I have had several conversations

with my partner.

1566. Were they previous to the conversation with Sir Henry Parkes? Both previously and subsequently.

1566. Were they previous to the conversation with Sir Henry Parkes? Both previously and subsequently. 1567. What particular object had you in view in seeking to purchase this property? I never sought to purchase the property.

1568. It was placed under offer to you? In the way I stated last week.
1569. But Richardson & Wrench placed the property under offer to you? Yes, in the way I have stated. 1570. What object had you in view in seeking to have the property placed under offer to you? Simply as being connected with the A.S.N. Company's property, so that I might be in a position to offer the whole of the property which they had not acquired at the Circular Quay to the Government.

1571. Had you any conversation with Mr. J. Watson concerning that particular object? I may explain that Mr. Watson was absent from business for two or three weeks. The view I have mentioned occurred to me, and I went to Mr. Wrench and spected to him about it.

to me, and I went to Mr. Wrench and spoke to him about it. I obtained from him a letter placing the property under offer until the 30th April. I did not move any further in the matter until I had consulfed my partner. I showed him the letter, and he said I had better leave it alone.

J. Ewan, Esq. 1572. What reason did he assign for that advice? The view we took was that as we were not going to make a profit out of it it would be better for us to have nothing to do with. The view my partner took of it was that it was no business of mine to urge the Government to obtain a property in which I had no interest.

1573. Was that the reason which led you not to complete the purchase? The only reason.

1574. Your idea in attempting to purchase this property was that the A.S.N. Company might be in a position to offer the complete piece of land to the Government? That was the only object I had in view.

1575. You are write contain now several had any company with Sin Hours. Parket containing this pro-

1575. You are quite certain you never had any conversation with Sir Henry Parkes concerning this property previous to the date of the minute shown on the papers? As far as my recollection serves me that is the only conversation I ever had with Sir Henry Parkes on the subject.

1576. Had you purchased the property at the time it was offered to you would it have remained your own private property, or would it have become the property of the A.S.N. Company? I should not under any circumstances have purchased the property.

any circumstances have purchased it for inyself.

1577. But if you had completed the purchase with Messrs. Richardson & Wrench in whom would the property have been vested? In myself, I suppose; but I had no intention of purchasing it.

1578. Had the purchase been completed, what profit would you have asked at the hands of the Government? I could not say. I should strive to get as much as possible.

1579. Mr. Brunker.] Was Mr. Dibbs on the Board of Directors with you? Yes.

1580. Was he Chairman of the Board? Yes.

1581. During the time you were a director? Yes.
1582. Do you know in what year that was? No. I know that Mr. Dibbs was Chairman at the time of the Chinese strike.

1583. Mr. Abigail.] Who was Chairman when you were first elected? Mr. J. H. Neale was Chairman then. 1584. Mr. Brunker.] Mr. Dibbs was on the Board when Mr. Neale was Chairman? Yes.

1585. Did he ever inform the Board that he had been offered the property at £9,000? I have no knowledge of the matter ever having been spoken of in my presence.

1586. It has been said in evidence that Mr. Dibbs was negotiating for the purchase of the property at £9,000? I have no recollection or knowledge of it.

1587. Will you inform the Committee, treating the matter in the interests of the A.S.N. Company, what you would have thought the property worth to the Company had it been submitted to you during the term you were a director? Comparatively speaking, it was useless to us. We had plenty of land without it. That was the view I took of the matter so far as the A.S.N. Company was concerned.

1588. But if the Company had wished to extend their operations what would have been the value of the

property? I should have thought the property not dear at £18,000 or £20,000.

1589. Then I glean from your evidence that the Government having Dawes Point, and having subsequently acquired the A.S.N. Company's property, you would consider that the property between those two places had a special value? If I had owned Dawes Point and the A.S.N. Company's property, the piece of property which forms the subject of this investigation, I should have tried all I could to obtain it—of course as absorby as possible.

cheaply as possible.

1590. You wished to obtain it in order to effect the sale of the A.S.N. Company's property? I thought it follows:

1590. You wished to obtain it in order to effect the sale of the A.S.N. Company's property? I thought it

would be beneficial to the interests of the port if the Government had the whole of the property. That was the only object I had in view. I had no desire to profit.

1591. You thought that if you had this property it would assist you in effecting a sale of the A.S.N. Company's property to the Government? Yes; I thought that in the interests of the port the Government should have the whole property.

#### Edward Twynam, Esq., called in, sworn, and examined:-

 E. Twynam, 1592. Chairman.] You are the Acting Surveyor-General? Yes.
 Esq. 1593. You know the nature of the inquiry which the Committee are making? Only from seeing the business paper, and from a notice I received.

16 Nov., 1887. 1594. The inquiry is in connection with the land recently purchased by the Government at Circular Quay, known as Josephson's land. Do you know the property? I have seen it.

1595. Can you furnish us with plans of it? I have been asked to exhibit plans, and I have brought all the plans in the office which I understand relate to the matter.

the plans in the office which I understand relate to the matter.

1596. Will you kindly show us from these plans the boundaries of the property? There is no plan of Cunynghame's grant; but upon the map showing Campbell's purchase of 3 acres 3 roods, it is shown as adjoining Campbell's land.

1597. Will you give the Committee such information as you possess relative to the boundaries of the land? I know very little about it, inasmuch as I have been Acting Surveyor-General for only a few months.

1598. Can you give us a plan showing the shape of the land? The plan I have already referred to is the only one I have. Nothing is known in the office of a separate original plan of the land.

1599. Would it not be possible for you to send an officer of your department and have a survey made, enabling you to furnish the Committee with a plan of the ground? You could have a survey made of course, if you ordered it: but I am not aware that it would be of much use to you. I have had a plan

course, if you ordered it; but I am not aware that it would be of much use to you. I have had a plan compiled showing the whole of the front of the Circular Quay, which I will leave in the hands of the Committee. The notice which I received seems to imply that you wished for a plan of the whole of the Circular Quay. The plan produced by Mr. Wrench (Appendix C.) is, I observe, similar in shape to the shape of the property as shown on my plan of the Circular Quay. I have had an extract made from the deed of grant of the land, and I notice that it contains a most extraordinary reservation.

1600. In what way do you consider the reservation extraordinary? It contains these words, "And also full power to resume and take possession of all or any part."

full power to resume and take possession of all or any part."

1601. I observe that the distances are not marked on your plan of the Circular Quay? No. 1602. Could you furnish the Committee by this day week with a tracing of the land with its exact measurements under the original grant, and showing any land which may have been silted up, and where the original high-water mark was? Yes; I could have a survey made within a week's time.

1603. It would be necessary to show the boundaries of the original grant and the boundaries of the land as it now stands? Yes. 1604.

1604. Is the usual 100 ft. water reservation shown in the deed? I think it is not, neither is it in the E. Twynam, case of the adjoining land. It is not always the case.

1605. Can you say if the deed shows any reservation? I have not seen the deed itself. The extract I

produce is from our register.

1606. Does your register show any reservation? I am not aware that it does.

1607. Then what is the extract you produce? It is simply an extract from the deed. 16 Nov., 1887.

1608. Does the description of the land in your book show any reservation? I am not aware that it does. The extract which I have produced shows the reservation of the whole land. There is no mention made of a 100 feet reservation.

1609. The extract, which you believe to be a correct extract from the records of your office, shows a reservation? A reservation of the whole land for resumption at any time. I hand in the extract.

(Appendix H.)

1610. Mr. Brunker.] Taking the data furnished by the extract together with the plan, if the Government were to ask your opinion as to its power of reservation under the deed, what should you say it would be? That the Government can resume the land under the terms of the deed, most decidedly so. As I understand it they could resume the whole of the land. That seems to me very plain; but I am not a lawyer. 1611. But I suppose reference would be made to you as to the area the Government could resume under the deed? The whole of the grant, I should say, whether the area is over or under the mark, more or less. 1612. Your knowledge of properties in this locality entitles you to say that there are not water reservations of a 100 feet there? Not on Campbell's land adjoining, nor in Cunnyghame's grant.

#### Henry Gorman, Esq., called in, sworn, and examined:-

1613. Chairman.] You are a member of the firm of Hardie & Gorman, auctioneers, of Sydney? Yes.

1614. Do you know the nature of the inquiry upon which this Committee has been engaged? I understand that it is an inquiry into the purchase by the Government of the land adjoining the A.S.N. Company's 16 Nov., 1887.

property at Circular Quay.

1615. Will you kindly tell the Committee what you have had to do with the matter from the beginning? On the morning of June 7th I received a letter from Sir Henry Parkes, asking me to call upon him at the

Colonial Secretary's Office.

1616. Have you that letter? I have not. I called upon him there; he then asked me if I would endeavour to find out who owned the land between Dawes Point and the A.S.N. Company's property, and at what cost it could be purchased, and to try and get it under offer to the Government, as they were considering the purchase of the A.S.N. Company's property. After the meeting of the Infirmary Board on Tuesday, June 7th, I walked to Gardiner & Company's office to see Mr. Cliff, who I understood had on Tuesday, June 7th, I walked to Gardiner & Company's office to see Mr. Cliff, who I understood had purchased the property. I saw Mr. Vallack, who told me that Mr. Cliff had gone to Mills & Pile's. I walked round to Mills & Pile's office, and I saw Mr. Cliff talking to Mr. Mills. I told him that when he had finished with Mr. Mills I wanted to speak to him. We then walked down together to my office, and I said to him, "Cliff, I understand you own the block of land between Dawes Point and the A.S.N. Company's property." He said, "Yes; I do." I said, "Will you sell it?" He told me that he had just placed the property in the hands of Mills & Pile for sale. I said, "Will you instruct them, as your agents, to place the property under offer for a few days through my firm?" He said that he would. No mention of any price was made at the time; Mr. Cliff gave no detailed particulars. Subsequent to that I received a letter from Mills & Pile, in which they placed the property under offer from June 7th to June 13th; they sent with the letter a rough sketch of the property. The letter, of which I produce a copy, I then sent to the Colonial Secretary, stating that the property was under offer for £31,000 until June 13th. At that the matter rested until June 10th, when I saw Sir Henry Parkes about another matter—I forget now what the other matter was; but I know that it was not this particular matter matter—I forget now what the other matter was; but I know that it was not this particular matter which took me to him. I incidentally asked him if any decision had been arrived at with respect to which took me to him. I incidentally asked him if any decision had been arrived at with respect to the purchase of this particular property; I called his attention to the fact that the time expired on the 13th. He then said "Well, I do not think we shall be able to decide by the 13th; if you can get it under offer to us until the 14th. We shall only have had seven days to consider it." I then wrote this letter to Mills & Pile: "Adverting to your communication in this matter, the Colonial Secretary has asked for an extension of the time for considering the purchase from Monday, the 13th instant, at noon, until Tuesday, the 14th instant. A Cabinet meeting is to be held on Monday next, and a decision given next day." To that I got this letter from Mills & Pile: "In answer to yours of even date, asking for an extension of time from the 13th to the 14th instant, we have much pleasure in acceeding to your request." On the 14th instant I received this letter from the Colonial Secretary: "With reference to the property situate between the A.S.N. Company's wharf and Dawes Point, and between George-street and the waters of Sydney Cove; after consideration the Government are prepared to purchase for £29,000, you can therefore conclude the purchase for that sum." Having that letter before me, I went to Mills & Pile. I said, "I think I can get an offer which your client should consider, and I suppose, if business follows, you will divide commission with my firm in the usual way?" To that consent was given. I then made a written offer of £29,000, on behalf of the Government, and I received consent was given. I then made a written offer of £29,000, on behalf of the Government, and I received a letter under date of June 14, covering an acceptance. I then wrote to the Colonial Secretary sending the original letter, and asking if he would instruct the Crown Solicitor to deal with the matter of the title. So far as I can at present see, that is about the gist of what I had to do with the matter and what title. I carried out.

1617. What instructions did Sir Henry Parkes give you—were they in writing or where they only verbal?

They were verbal; he sent for me.

1618. Was anything said on that occasion as to not revealing who the purchasers were to be? No.

1619. Was anything said to you as to the reason why your instructions were not sent to your office in writing? Oh, no. I may say that I could not have got the property under offer if I had not disclosed that I was acting for the Government. I did not, of course, volunteer the name of my client until it was necessary to do so in order to get the property under offer.

1620. What took place to cause you to give the name? Mr. Cliff had obtained the property, and he felt that the Government would purchase it.

1621. But you said that something occurred which made it necessary that you should reveal the name of 142 - H

H. Gorman, the purchasers? When I asked Mr. Cliff to place the property under offer he said, "Who are you acting for?" I said, "You must not ask me that," and he said, "Then I cannot place the property under offer." 16 Nov., 1887. Did that conversation take place when you saw Mr. Cliff in the afternoon after the meeting of the Infirmary Board? Yes, in my office, before I received the letter from Mills & Pile. You see he went from my office to instruct Mills & Pile to send the letter which they did send to me, and in that letter, if you notice, it is mentioned that it was placed under offer to the Government. That is how it came about.

1623. Then the Committee are to understand that Mr. Cliff refused to place this property under offer until you revealed the name of the purchasers? He did.

1624. How did you know that Mr. Cliff had the property? I knew more than a fortnight previously. A certain notice had appeared in the papers. The Committee may not know it; but my transactions with Mr. Cliff, almost daily, are very large. I understood that he had purchased the property a fortnight previously. That was my real reason for going to him? No; from a rumour that Mr. Cliff, a fortnight previously, through a notice appearing in the papers had purchased the property.

through a notice appearing in the papers, had purchased the property.

1626. Had you any conversation with him about the purchase of the property? No.

1627. You are quite sure? Certainly. I have told you the beginning and the end of the thing.

1628. And you had no conversation with Mr. Cliff concerning this property until the afternoon to which you have referred? No; none whatever.

1629. Can you bring to mind how, when, and where you heard Mr. Cliff had purchased the property?

I really could not. Sometimes we get information from the clerks of the respective offices.

1630. As a matter of fact, when did Mr. Cliff purchase the property? I do not know. He told me that he was the purchaser of the property when I interviewed him. Of course had I known that he had placed the selling of it in Mills & Pile's office I would not have gone to him.

1631. Did you know that the property had been in Richardson & Wrench's hands? Years ago they

offered it for auction.

1632. The conversation to which you have referred took place on the 7th of the month? Yes; on

1633. Was it on the Monday that Sir Henry Parkes sent for you? No; on the Tuesday morning.
1634. Then the conversation with Mr. Cliff took place in the afternoon? Yes.
1635. How long after the interview with Sir Henry Parkes, and at what date, did you go to Mills & Pile's office? I went the same afternoon. I followed Mr. Cliff round. Mr. Cliff came back to my office. Of course, I did not exact a fether thing before Mills & Pile.

1636. When did you speak to Mills & Pile about it? After the correspondence. You will understand that one agent would not go into another agent's office to talk with their client about business. We held our conversation in my office, not in Mills & Pile's office, and then Mr. Cliff told me that the property was in Mills & Pile's hands. He left me in order that he might instruct Mills & Pile to do what has been done.

1637. Did you see Mills & Pile in their own office before you received their letter? I saw Mr. Cliff

talking to Mr. Pile; that was when I went round for him.

1638. But after Mr. Cliff left the office with you and went round to your own office and had a conversa-

tion with you, did you on that same day see Mills & Pile? No.

1639. When did you see Mr. Cliff again? Not until near the expiry of the time. He gave us six days originally, and I got it extended to seven days, which was practically a week.

1640 Then it was absolutely in consequence of a rumour you had heard that you sought Mr. Cliff as the owner of the property? Quite so.

1641. You say that no price was fixed at the time Mr. Cliff and yourself had the conversation? No. 1642. What commission are the Government allowing you for this purchase? None. I have not charged the Government a buying commission, because I am following the usual course among auctioneers of dividing commission.

1643. Was that understood between yourself and Sir Henry Parkes when he instructed you to purchase?

Oh no, I never said anything as to whether I was to get a buying commission or not.

1644. Did you understand from Sir Henry Parkes that you were to undertake this duty for the State without payment? No; the custom is to divide commission. If I had not divided commission I should have charged a buying commission. That is the custom of auctioneers.

1645. Did that take place in connection with the purchase of the Eveleigh Estate? I was the only

agent. It was purchased through me direct, therefore I got my commission without division.

1646. Can you give us a case in which you have acted for the Government before without receiving a commission from them? I have not a case.

1647. What would you have charged the Government had you failed to get half commission from the selling agents? A buying commission of 1 per cent. If you were to send me over to Richardson & Wrench's to purchase at auction I should charge you a buying commission. In a private sale auctioneers divide between themselves in the way I have described, and the clients are not subjected to two commissions.

1648. What amount of commission has been paid in this sale? I cannot say. I have not received a penny; but I suppose I shall get my usual allowance. I have heard of nothing to the contrary.

1649. What do you expect to get? I expect to get 1 per cent.

1650. I want you to be very clear about the time you were in Mr. Mill's office. Will you swear before the Committee that you did not speak to Mr. Mills in the presence of Mr. Cliff about this land? I will.

1651. Then if Mr. Mills has sworn before the Committee that you did? He is mistaken, and the proof of it is that if I had spoken to Mr. Cliff about the matter there he need not have some down to my office. of it is that if I had spoken to Mr. Cliff about the matter there he need not have come down to my office. 1652. You have been associated with Mr. Cliff in a number of land transactions? Tremendous—half a million, I should think, at least.

1653. During the time the purchase of this property was under negotiation did you become possessed of any knowledge as to what price Mr. Cliff had paid for it? I never heard or read about it.

1654. Was not Mr. Cliff in your office nearly every day during the week the negotiations were going on?

1655. Now be sure? He was not in my office seeing me.
1656. Was Mr. Cliff, while these negotiations with the Government were pending, frequently in your office having conversations with you? Certainly not.

1657. It is not his usual custom to call every afternoon at your office? It was.

1658. When did the custom stop? A year ago. I may say that at that time I had a smoking-room in

Esq.

:H. Gorman,

1659. If Mr. Pile has stated to the Committee that he saw you enter the office of Mills & Pile, and that when there you opened up negotiations with Mr. Mills in the presence of Mr. Cliff, is his statement correct? Absolutely incorrect; and I say again that the proof is that Mr. Cliff came down to my office afterwards. afterwards.

1660. Mr. Cliff was in Mr. Mills' office on the afternoon when you went to look for him-you found him

1661. What did you say to him? "When you have finished with Mr. Mills, Mr. Cliff, I want to see you." We went out together down to my office

1662. Had any conversation taken place between Sir Henry Parkes and yourself as to the value of this land? No.

1663. Was it your duty as purchasing agent to intimate to the purchaser of the property that the price asked was too large, or was reasonable, or anything of that kind? My duty was first of all to find out who owned the land, if possible, and at what price it could be purchased. I performed that, and subse-

quently, on behalf of the Government, I made an offer of £29,000 for the property.

1664. When you made this offer of £29,000 for the property on behalf of the Government did you not know that Mr. Cliff was netting £9,000? No, nor 9,000 pence. In other words, I did not know what sum he was netting.

1665. When did the friendly relations between yourself and Mr. Cliff cease? There has been no cessation of friendly relations between us, only instead of smoking in my office now I smoke in the club; that is the only difference.

1666. Do you meet him at the club? He is not a member of my club. I may tell you that I am Vice-President of the Atheneum Club; that will explain a little more than I can otherwise do why my attention is directed to the club a little more.

1667. Did you see Mr. Vallack while these negotiations were going on? No. 1668. Did you see Mr. Taylor? No.

1669. Did you have a conversation with anyone about this property? Of my knowledge, no; it is not

likely that I would. I was simply acting for the Government. I only knew Mr. Cliff. 1670. When did you become aware of the fact that Mr. Cliff had purchased the property for £20,000. I never was aware of it until the facts were disclosed subsequent to the completion of the transaction.

1671. Then you wish the Committee to understand that being on terms of intimacy and friendship with Mr. Cliff, he never told you that he had bought this property for £20,000? Certainly; nor would he have told me of lots of other purchases.

1672. Has he told you since the purchase? He has not spoken to me about the matter since. seen statements in the newspapers, but I do not think it is a thing greatly to be wondered at that a man does not disclose what he pays for a hat or a piece of land.

1673. Your memory does not serve you as to how you became possessed of the information that Mr. Cliff It is in my business a common thing for me to hear of many thing which had purchased this property? may, or may not, be correct.

1674. Did you over hear that Mr. Ewan, of the A.S.N. Company, endeavoured to purchase this property? I did not.

1675. As a matter of fact, did not Mr. Cliff tell you on the afternoon you saw him that only the day before, on June 6th, he had had the property placed under offer to him? He did not, nor did I know anything of it until the publication of the correspondence.

anything of it until the publication of the correspondence.

1676. You say that it is an usual thing for auctioneers to divide commission? Yes. If you like me to give you proof, I will submit a letter first of all from Richardson & Wrench, who agreed to divide commission with us as selling agents. That letter is dated May 13 (Appendix I.). Mr. Wrench came to me as buying agent, I being the selling agent, for a property bought by Mr. Spark in Macleay-street.

1677. In the letter which you have produced, I observe that you occupy the position of selling agent? We both occupied the position of selling agents. In a large property which Richardson & Wrench bought for Mr. Spark from me, as agent for Mr. Farrell's estate, I returned a cheque for commission for

£63 5s. I will give you another instance, and I only point out these so that they may be specially known. I bought, as buying agent, from Richardson & Wrench, the property occupied by the National Building Society, opposite to the School of Arts in Pitt-street. They gave me a rebate cheque of £62 10s. 1678. In these cases the selling agent divided commission with the buying agent? Yes, and vice versa, I have put cases each way. I may further state that to Batt, Rodd, another respectable firm, of auctioneers, who purchased from me a property of Farrell's estate in Young-street, I returned £48 15s. I also submit a case in which I paid to Watkin & Watkin a commission of £554 4s. 6d. in connection with the sale of Holterman's estate. I also submit cases in which I returned to Withers, Callaghan, and Brown commissions amounting to £15 £25 18s 2d and £3 10s 6d. To Mr. Inglis a live stock Brown commissions amounting to £15, £25 18s. 2d., and £3 10s. 6d. To Mr. Inglis, a live stock auctioneer, I returned a commission of £45 16s. 10d.

1679. Are these cases in which commission has been divided between the buyer and the seller? some. Batt, Rodd's case was a division between buying agent and selling agent. Withers, Callaghan, and Brown's cases are in the same position; also, the two cases of Richardson & Wrench, and another case of Mr. Parsons. The case of Mr. Inglis and Messrs. Watkin & Watkin are cases of selling agents. I gave to Mr. Parsons, who is a small agent, £8 18s. 6d. I forgot to bring details from my office of another case. Messrs. Mills & Pile were acting for Sir George Wigram Allen in the property which I sold; they divided commission with me, they being the agents for Sir George Wigram Allen's estate.

1680. You tell us that you stipulated that the commission in this case should be divided? I said, "I sup-

pose, in the ordinary way, the commission will be divided."

1681. Was that said to Mr. Mills or to Mr. Cliff, or to whom? It was said to Mills & Pile, who consented.

1682. Did you have a personal interview with Mr. Mills or Mr. Pile before the letter of offer was sent to you after you had parted with Mr. Cliff? No.

1683. Then if Mr. Mills informed Mr. Cliff that you had seen him and had made overtures for the purchase of the land, would that be correct? No; the proof being that Mr. Cliff came down to my office. 'What would be the use of repeating business.

H. Gorman, 1684. The first offer made by Mills & Pile on behalf of Mr. Cliff was for £31,000? That is so 1685. The offer made through you to Messrs. Mills & Pile for the Government was £29,000? Yes.

1686. Did you see Mr. Cliff, Mr. Mills, or Mr. Pile, and have any conversation with them as to taking the lesser amount? No.

1687. Did I understand you to say just now that it was upon their accepting the offer of the Government of £29,000 that the question of commission was talked of? Yes.

1688. And it was with Mr. Mills? Yes.

1689. Was Mr. Cliff present? No. 1690. Was Mr. Pile present? No.

1691. Was that the only conversation you had on the subject? Yes. 1692. Was nothing else spoken of besides commission? No.

1693. And on that occasion Mr. Mills intimated that his client was willing to accept £29,000? Yes; I sent a written offer, and he sent a letter replying.

1694. Is there anything in your written offer with reference to the commission? No; I treated it as an ordinary thing, as they would have done with me.

1695. Then the arrangement as to the commission was verbal? Yes.

1696. You say that you and Mr. Mills were together. Was that after you had received the letter intimating the acceptance of the offer of £29,000, or was it when you offered £29,000? At the time I made him a written offer for the property I said, "I suppose if it is accepted you will divide commission with me in the ordinary way"? If he had said "No," I should have charged the Government a buying commission.

1697. I want to get back to this interview. Mr. Mills and Mr. Pile have stated before this Committee definitely and distinctly that the negotiations for the purchase of this property were opened up in their presence to Mr. Mills, Mr. Cliff being present in their office. Is that correct? It is not correct. May I ask if Mr. Cliff has stated so? My reason for asking that, is that Mr. Cliff's coming to my office is

primâ facie evidence against any supposition of the kind.

1698. Having refreshed your memory, is it a fact that on the 7th June, when Mr. Mills, Mr. Pile, and Mr. Cliff were present, when you went to Mills & Pile's office negotiations were opened up for the purchase of this property, and that you then and there revealed the name of the purchase? I say that it was not so. I say that the negotiations were opened up in my own office. I brought Mr. Cliff down with me from Mills & Pile's. We walked down the street together. You must know that I would not have gone into another agent's office had I known that the property was in their hands; I went in simply to bring Mr. Cliff out.

1699. Did you ever use this expression to Mr. Mills at any time when the question of commission was being spoken about. "This is a good sale, I shall have to get half commission"? No. 1700. You are positive that you did not? I am certain. If it was a bad sale I should expect half the commission under the circumstances.

1701. Did Mr. Mills in any way protest against giving you half the commission? No. It was a matter of indifference to me. If he had, I should have charged the Government. It was no compliment to me.

It was an ordinary thing. I think I have shown that.

1702. Was anything said to you by Mr. Mills or Mr. Cliff that in consequence of Mr. Cliff accepting £29,000 instead of £31,000 he would have to give Mills & Pile only half commission? No. They sent me a letter of acceptance. It was not a personal interview, therefore I was not present to hear any such conversation.

1703. Did Mr. Cliff tell you when he had placed this land in the hands of Mills & Pile for sale? No. 1704. He did not say how long it had been in their hands? No. He only told me that he had placed it

in their hands.

1705. You are sure he did not say when? I am.
1706. You are sure that he did not reveal to you in any way in conversation how he became possessed of

1705. You are sure that he did not reveal to you in any way in conversation how he became possessed of the land? No. I have already answered that question twice.
1707. You did not say when you went into Mr. Mill's office, addressing yourself to Mr. Cliff, "I want to see you about the property which I find you own at the Circular Quay." Did you say that? No.
1708. You are quite sure you did not say that? Certain. What I did say was what I have already told you:—"I want to see you, Mr. Cliff, when you have finished with Mr. Mills."
1709. Sir Henry Parkes says in his evidence that you had been employed by him both publicly and privately, that is in connection with his own private business as well as in connection with public business. Is that true? Certainly. Is that true? Certainly.

1.710. Had you in hand at this particular time any private business of Sir Henry Parkes? No. 1711. How long is it since you had any? I should think my last sale for him was about five or six years ago. It was the sale of the property at Faulconbridge.

ago. It was the sale of the property at Faulconbridge.

1712. Have you had any other business matters with Sir Henry Parkes for which you were to receive commission or payment? Sales of property.

1713. How much commission were you to receive in these cases? 2½ per cent.
1714. Did you divide that commission with the persons buying? The persons buying were not in the position of agents.

1715. Where was the property which you sold situated? On the mountains, at Faulconbridge; but I may say I am not the only auctioneer who has sold property for Sir Henry Parkes.

1716. Are any of these matters still incomplete so far as you are concerned between yourself and Sir Henry Parkes? No.
1717. They are all completed? Yes.

1718. And you have received the commission? Yes, and spent it. 1719. Do you know Mr. William Clarke? Yes.

1720. Can you of your own knowledge say whether Mr. William Clarke has any interest in this particular purchase? None whatever.

#### THURSDAY, 17 NOVEMBER, 1887.

Bresent :-

MR. ABIGAIL MR. BRUNKER.

MR. CHAPMAN, MR. GOULD,

MR. R. BURDETT SMITH.

#### N. MELVILLE, Esq., in the Chair.

Henry Gorman, Esq., recalled, and further examined :-

1721. Mr. Abigail.] How long have you been in business? About fifteen years.
1722. Your firm, I believe, have had large business transactions? The largest of any separate firm in one H. Gorman, year.
1723. Have you had any information from any of your constituents that they suspect or distrust your way of carrying on business? No.

17 Nov., 1887.

1724. In connection with this particular transaction, is there anything in the way in which it was negotiated between yourself and Mr. Cliff of a suspicious or disreputable character? No.

1725. Did you go to Mills & Pile's on the date on which you saw Mr. Cliff there by arrangement previously made with Mr. Cliff? No.

1726. Did you have any communication from Mr. Cliff as to the reason which led him to purchase this land? No; nor did I ever speak to him about the land until I brought him to my office, after having seen him at Mills & Pile's.

1727. That was after you had been requested by the Government to ascertain certain particulars about it? Yes.

1728. Now, with reference to the division of commission. If it has been stated by Mr. Wrench that such a thing would be unbusinesslike and discreditable, is that the case? No; he has received from me and paid to me. I have given you some particulars of the dates. All sharebrokers are engaged every hour of

the day almost in the division of commission.

1729. Chairman.] But a sharebroker does not stand in the same position as an auctioneer? Well, he is a buying or a selling broker for commission.

1730. Are they recognized as being in the same line of profession as auctioneers? Oh, yes; it is quite a commission business.

1731. Mr. Abigail.] Mr. Wrench was examined by the Committee, as follows:—
"989. It has been stated in evidence before this Committee that Mr. Mills, an auctioneer entrusted with the sale of this property, agreed to halve his commission with Mr. Gorman, the agent on behalf of the Government purchasing the property—is that a usual business transaction? Certainly not. I never heard of such a thing. I will tell you at once that Mr. Cliff did not get a shilling of my commission, and never asked for it. He would not have done so twice in my office."

Mr. Cliff is the buyer; he was not an agent. I have given the dates on which Richardson & Wrench divided with me and I with them, and that will go on, in spite of the evidence you have read.

1732. Mr. Chapman.] Did you by any means become possessed of the fact that the Government, according to the deed, could resume the land during the transaction; was it ever intimated to you? It was not

1732. Mr. Chapman.] Did you by any means become possessed of the fact that the Government, according to the deed, could resume the land during the transaction; was it ever intimated to you? It was not intimated to me. I was carrying out specific instructions. I was not asked to give my own opinion. I was told to do a certain thing by the Colonial Secretary.

1733. Mr. Brunker.] I think you said at the outset that you were asked by Sir Henry Parkes who was the owner of the property, and the price at which it could be purchased. Were there any further instructions given to you as to negotiating about it? Not then. I received subsequently a letter from Sir Henry Parkes, which I read to the Committee. In that letter he said that the Government had considered the matter of purchases and had decided to offer £29,000.

considered the matter of purchase, and had decided to offer £29,000.

1734. But in negotiating in the first instance did you do anything more than simply ask the price. Did you ask to get the land at a reduced value? The Government made an offer themselves, and I carried out their instructions.

1735. You made no offer to get the land for less? I could not then. The time for which the land had been placed under offer to me had expired.

1736. If it has been sworn in evidence that during your first interview with Mr. Cliff, in Mills & Pile's office, you said that you were commissioned by the Government to purchase this property, is that true or untrue? I never opened my mouth about this business in Mills & Pile's office. I spoke to Mr. Cliff

subsequently about it in my own office.

1737. It has been said that in the presence of Messrs. Mile & Pile and of Mr. Cliff negotiations were made for the purchase of this property, and that you entered into some conversation about it?

1738. You said yesterday that you knew a fortnight previously by rumour that Mr. Cliff had purchased the property? Yes.
1739. When Sir Henry Parkes gave you instructions to ascertain who the owner of the property was, did you say that you had heard by rumour that Mr. Cliff was the owner? No.
1740. But you knew by inference that he was? I knew by rumour. A number of persons come into my

office, and want particulars about such and such a property, and it is my business to hear as much as I can about properties. All that I hear, however, may not be correct.

1741. Are we to understand that you were buying agent for the Government, or that you were acting as a friend of the Government? I was carrying out the instructions of the Government.

1742. As buying agent, or as a friend? I do not quite know how to answer that question. I certainly

was not acting as a friend.

1743. You were acting in a business capacity? Certainly. If there had not been a division of commission I

should have charged the Government a buying commission.

1744. Acting in the capacity of buying agent or broker is it not usual to endeavour to do the best you can for your principal? Yes.

1745. And you think that you purchased this property at the lowest price at which it was obtainable? I do.

H. Gorman, 1746. You made every effort to do so? I am perfectly satisfied in my own mind that I did the best I could under the circumstances, and if I had not so acted in all human probability the Government would have lost that chance of purchase. They might have had to pay more for the land, or they might have had to pay less; but what I did I did for the best.

1747. Until you met Mr. Cliff after the interview at Mills & Pile's you had no conversation with any other person about the property except Sir Henry Parkes? No.
1748. If you had been asked to purchase this property by any other person but the Government would you have adopted the same course? Yes.

1749. With regard to commission? Yes.

1750. You state most distinctly in your evidence that it is customary for buying and selling agents to divide commission. Are not these exceptional cases. Is it not the rule only to divide commission when the brokers and agents are acting in the same direction? I can only repeat what I have already said in my evidence as to what is customary with me and other auctioneers. There was no stipulation even, it is so much a matter of custom. I have pointed out some of the larger instances in which commission has been divided; but if the Committee think it desirable I could give you a host of smaller instances. It is quite an ordinary thing, and I cannot understand why there should be any wonderment at it.

1751. Who do you recognise as your principal in this matter? The buyer.

1752. One of the oldest agents in Sydney dealing with land gave to the Committee the following

evidence:

'1010. Mr. Brunker.] With regard to the question of brokerage, it appears that Mr. Gorman was employed by the Government to negotiate the purchase of this property. Messrs. Mills & Pile were acting for the vendors, and Mr. Mills stated in evidence that it was usual to divide commission in such cases. Has that been the practice with you? Never; nor do I conceive it to be correct.

1011. Except, as you say, when both parties are acting in one direction? Exactly; what are we paid

for but to do the best we can for our clients. If I were to take up the other side and accept half the commission, I think I should be a scoundrel."

With a great deal of respect, that is not so. I gave the firm to which you refer a cheque for £62 10s. on account of one transaction, and at that rate there must be a great deal of scoundrel work about that. I repeat that it is quite an ordinary thing, and I defy anyone in an office in which our kind of business is carried on to prove the contrary.

1753. It is done as a rule? Excepting in cases of auction sales.

1754. Mr. Abigail.] The cheque of £62 10s. was given to the firm represented by the gentlemen who gave the evidence which was quoted by Mr. Brunker? Yes; not only that, but they have given me cheques. If there is any scoundrel work about it it is fair on both sides. They are scoundrels to give, and I am a scoundrel to receive.

1755. Chairman.] Can you tell the Committee whether the particular transaction to which you refer was carried out with the knowledge of Mr. Wrench? It was Mr. Wrench himself who conducted the

business with me.

1756. Mr. Brunker.] In that case you were acting in opposite directions. You were the selling agent, and Mr. Wrench was the buying agent? Yes.

1757. You know this property, I suppose, Mr. Gorman? Yes
1758. I suppose no man in the city has a better knowledge of the value of city properties? I claim to know something.

1759. What do you think of the price paid for the property compared with its values? I think it is a fair price.

1760. And not an excessive value? And not an excessive value. I do not believe that if the land had been resumed it would have been obtained at the same price.

1761. That is to say more would have had to be paid for it? I think there would be a strong case from the price given and the values fixed on the other properties round about.

1762. Was the arrangement for the division of commission made between you and Mills & Pile, or between you and Mr. Cliff? I wish you would not use the word arrangement. I have tried to disabuse the Committee that there was any arrangement. At the time of tendering my written offer I said, "I suppose you will divide commission in the usual way."

1763. My reason for using the word "arrangement" was this, that other persons have spoken of this thing

being done only by special arrangement, and of its being a piece of scoundrel work to do it.

you to Mr. Pile's evidence. He says.—

"1407. Was not that arranged the first morning Mr. Gorman came to see you? No. When Mr. Cliff agreed to accept the offer of the Government I think he said, "You follows will have to divide it with Mr. Gorman." I think I said, "If we must, I suppose we shall." That was at the interview when the business was closed."

That is why I ask if there were any arrangement, and I think, under the circumstances the word "arrangement" is the proper term? There was none.

1764. You know nothing of Mr. Cliff having spoken to Mr. Pile about the commission? No.

1765. Is  $2\frac{1}{2}$  per cent, the usual commission on sales of this kind? Sometimes it is more and sometimes it is not nearly so much. On a £47,000 property adjoining I got £1,250.

1766. Mr. Abigail.] How much per cent, would that be? Nearly 3 per cent.

1767. Mr. Brunker.] The Committee, then, are to distinctly understand that you know no one in this matter but the Government and Mr. Cliff? That is all.

1768. You do not know, of your own knowledge, that any other person has participated in the profit which we have heard has been derived, except Mr. Cliff? 1 do not.

which we have heard has been derived, except Mr. Clift? I do not.

1769. I suppose you know the difference between the amount paid by Mr. Cliff and the amount which he received? I do now. I did not know that he had a partner.

1770. Mr. Gould.] Has your firm been in the habit of acting for the Government? Very little. They do not pay us well enough. We cannot do business for one-tenth per cent.

1771. When did you last act for the Government prior to this matter? I think that when Sir Alexander Stuart was Prime Minister I made one or two small valuations for him.

1772. Have you done anything since then? Nothing.

1773. Are you in the habit of doing Mr. Cliff's business? A large proportion, I think I may say that the chief proportion. He is a large haver. He deals with Mills & Pile Bichardson & Wrench, Watkin &

1773. Are you in the habit of doing Mr. Cliff's business? A large proportion, I think I may say that the chief proportion. He is a large buyer. He deals with Mills & Pile, Richardson & Wrench, Watkin & Watkin, and other firms beside our own.

1774. Have you any idea why this matter was placed in the hands of Mills & Pile by Mr. Cliff? Not the H. Gorman,

1775. When you were asked to look after this property for the Government was anything said about 17 Nov., 1887.

There was no mention of it.

1776. Mr. Brunker.] Mr. Cliff, I suppose, is a shrewd business man? Yes; we look upon him as a bonny buyer. He will buy, although he may sometimes burn his fingers.

1777. It is quite possible that although he was a friend of yours his business tact and his desire to obtain as large a price as possible for this property, would induce him to go to Mills & Pile, knowing that they did Government business? Without expressing himself to that effect, he might have thought that as they did a large proportion of Government business he would act wisely in placing this property in their hands

1778. Mr. Abigail.] Is it a customary thing in these large speculations for persons to get properties placed under offer to them, and to actually sell them before they have completed their purchase? They often get them placed under offer, and sometimes sell them before they complete, that is, they make another sale before they complete their own. Sometimes properties are placed under offer in that way and no business follows.

1779. Mr. Brunker.] I suppose you know of cases in which transactions of that kind may extend over seven years? Yes, and in some cases only seven days.

1780. Mr. Gould.] Did you know that this Circular Quay property belonged to the Hanson Estate? No.

1781. You have no idea who the owner of the property was previously? No. 1782. Did you know what amount of commission was to be paid to Mills & Pile in connection with the thing? No.

1783. Did you say anything to Mr. Cliff, or did Mr. Cliff say anything to you about the division of the commission with Mills & Pile? Certainly not.

1784. Can you give any reason way Mr. Cliff should tell Mr. Mills that he would have to divide the commission with you? I have not the remotest idea.
1785. Chairman.] You have found Mr. Cliff to be a truthful man? Yes.

1786. Here is the evidence which he has given to the Committee,—
"222. Had you never told him to sell it for £31,000? Not definitely, there was no definite arrangement; I went round to see him to get his idea of the value of the land. It appears that Mr. Gorman had seen Mr. Mills and made some overtures to him for the purchase.

223. That is before you had actually placed a selling price on the land Mr. Mills had an offer for it?

No, he had not had an offer.

224. What had he had then? He asked me if I would place the land under offer to the Government." From your knowledge of Mr. Cliff as a business man, is that evidence a correct statement of what took place? I do not know. I was not there at the time.

1787. Taking the evidence which you gave yesterday, and the evidence given on oath by Mr. Cliff wherein he states that Mr. Mills told him that Mr. Gorman had seen him, and had made overtures for the purchase of the property by the Government, what are we to conclude? How could I say whether that took

place.
1788. From your knowledge of Mr. Cliff's truthfulness should you say that Mr. Cliff was stating the actual facts connected with this transaction, or that he was not doing so? He is not stating facts when

1789. Mr. R. Burdett Smith.] Or that you made overtures to Mr. Mills? Or that I made overtures to Mr. Mills. I cannot tell you whether another man tells the truth or a lie. I can only say that I did not have this interview with Mr. Mills. If Mr. Cliff says that I had he is incorrect in saying so.

1790. Chairman.] But if Mr. Mills said so? It would be incorrect.

1790. Do you think it possible that Mr. Mills Mr. Dila and Mr. Cliff says that I had he is incorrect.

1792. Do you think it possible that Mr. Mills, Mr. Pile, and Mr. Cliff, standing in the same room with you, could all make the same mistake as to what took place there? I am here on oath to tell the truth, and it would not shake my statement one iota if you were to tell me, which you have not done, that all three of those gentlemen have made that statement.

1793. Sir Henry Parkes gave this evidence:—

"22. What particular circumstance induced you to send for Mr. Gorman as a duly qualified person to negotiate the business? I look upon Mr. Gorman as a man of good standing in that way of business. I bought through him a very large estate, known as the Eveleigh Railway Station, a transaction which, I believe, no one has objected to, and I had employed him in several other cases; I had no reason to be in any way dissatisfied with his ability or his integrity; naturally enough I preferred to go to him than go to a stranger of whom I know nothing.—" than go to a stranger of whom I know nothing,-

Were you commissioned by the Government to purchase the Eveleigh Estate? Sir Henry Parkes bought it of me; I was the seller.

1794. Sir Henry Parkes says that you have been employed in several other cases. Are there any cases in

1794. Sir Henry Parkes says that you have been employed in several other cases. Are there any cases in which you have been employed by Sir Henry Parkes on behalf of the Government which you can call in mind? I think I have only made two or three small valuations, amounting to about ten guineas 1795. Do you know Mr. Taylor of the firm of Starkey & Taylor? Very slightly.

1796. Sir Henry Parkes gave this evidence:—

"95. Were the instructions of Messrs. Hardie & Gorman verbally given? Yes; by me. I sent for Mr. Gorman and told him what I wanted. It is right that I should make this explanation. I wanted to purchase this property in the most advantageous way I could, and I refrained from giving my instructions in writing because the letter would have been open to all the clerks in Hardie & Gorman's instructions in writing because the letter would have been open to all the clerks in Hardie & Gorman's office. In a case of that kind I should send for a person in whom I had confidence, tell him privately what I wanted, and instruct him to go the best way about it. I should not have written a letter to be registered in an office like Hardie & Gorman's, where every clerk could have access to it."

He did not understand the conduct of my business or he would not have said that.

1797. Did you receive from Sir Henry Parkes at the time of your receiving your commission to purchase this property any instructions which would lead you to believe that the Government were desirous that the owner should not become aware of the fact that they were the purchasers? No. What he told me is what I have already told the Committee; but in any case I should use as much business tact as I could. I should do so as a matter of business.

H. Gorman, 1798. You tell us that Mr. Cliff declined to place this property under offer unless you revealed the pur-Yes; Mr. Cliff having bought with a knowledge that the Government might possibly be wanting chasers? the land, did not want a third person to come between him and the Government, and that third person to 17 Nov., 1837. make something out of it.

1799. Mr. Brunker.] Mr. Cliff made that stipulation with you in reference to the matter? Yes; it is in

writing.
1800. In your interview with Mr. Cliff, which you say is the only interview you had with him about this matter, did the amount to be paid for the property transpire? No.
1801. You are quite sure of that? Perfectly.

1802. If Sir Henry Parkes, in commissioning you to purchase this property, was under the impression that as buying agent you would let him know if you thought the price an unreasonable one, would be have formed a correct impression of your duties as buying agent? I think I cannot answer that question.

1803. Sir Honry Parkes gave us this evidence:

"108. Mr. Burdett Smith.] Mr. Gorman regarded the price as a fair and reasonable one? I imagine that, as my agent, if he had thought it a high price, it was his duty to report that to me."

Evidently his impression is that this duty was imposed upon you in your position as buying agent. Is his impression, as here stated, a correct one? Yes, certainly.

1804. The property was first placed under offer to you at £31,000. Yes.

1805. Did you take any steps to ascertain whether that was a fair and just price for the land before you forwarded the offer to the Government? Yes.

1806. What steps did you take? I made my own calculations. I went by my own dealings in adjoining land. There have been very few dealings in that neighbourhood, and I have happened to have them.

1807. Upon that calculation you arrived at the conclusion that £31,000 was a reasonable price? Was a

reasonable price.

1808. On what did you base that calculation? On the sale of properties adjoining, and on the price

asked for land without water frontage on the opposite side.

1809. But is it not possible that there may be some reservations or matters connected with the property which would interfere with your calculation as to its value? That would become a matter of title.

1810. If that were discovered would it not conflict with the valuation? Then the valuation would be a question for reconsideration. We often enter into contracts which have to be modified or cancelled; but

to get into the thing we must make a start.

1811. If the fact had been made known to you that the property was granted in the first instance with a reservation in the deed giving the Government the right at any time for public purposes to resume the whole of the land would that have affected your calculation as to its value? No, it would be a matter for arbitration, and the calculation then would have to depend upon the prices round about. That is a restriction which only gives the Government a right to come in and purchase for public purposes.

1812. Would the property have been as valuable in the market with this reservation in the deed of grant as without it. Yes; for the simple reason that the property is not singular in that respect. Most of the Government grants have reservations of various kinds. The people fully understand the way in which the

Government exercise their rights in this respect.

1813. Mr. Brunker.] The fact being that this reservation in the deed of grant is similar to the power possessed by the Government under the Lands for Public Purposes Acquisition Act? Yes; in the absence of any reservation in the grant they would have the right to resume the property under that Act. 1814. And then the value would be paid upon arbitration? Yes.

1815. Mr. Abigail.] I understood you to say that you based your calculations of this property upon the prices paid for the adjoining properties, that is properties having a frontage to George-street without a water frontage? Yes. I sold a property there for £25,000, I subsequently placed it under offer at £47,000, and while it was under offer it was sold for £60,000.

1816. What property is that? The property behind the A.S.N. Company's wharf.

1817. It was actually sold for £60,000 before the purchase for £47,000 was completed? Before the contract was givened.

contract was signed.

1818. What was the frontage to George-street of that property? 631 feet.
1819. Has that property any water frontage? No.
1820. How much per foot does the sum you have named represent? £100 a foot.
1821. When was the sale? In 1885.

1822. Mr. Brunker.] You think the George-street frontage now under consideration is equally valuable?  ${f Y}$ es, and the water frontage more valuable

1823. Have you ever been interested with Mr. Cliff in any land purchases? No; I have been interested only in commission.

1824. You have acted simply as agent? Yes, never as a principal.

1825. Has it ever come to your knowledge that the property under consideration was advertised for public sale by Richardson & Wrench? Yes; I stated so yesterday. I think that would be seven or eight years ago.
1826. You are quite clear as to all the circumstances which you have stated to the Committee? Yes.

#### THURSDAY, 24 NOVEMBER, 1887.

Present:

Mr. ABIGAIL Mr. CHAPMAN, Mr. GOULD

MR. R. BURDETT SMITH.

# N. MELVILLE, Esq., IN THE CHAIR.

George Richard Dibbs, Esq., called in, sworn, and examined :-

G. R. 1827. Chairman. You are aware of the nature of the inquiry for which this Committee was appointed? Dibbs, Esq., Yes. M.P. 1828

1828. Do you know whether the land concerning which this inquiry is being held was ever offered to the Nov. 24, 1887. A.S.N. Company for sale? Yes.
1829. At what price? I think it was either £7,000 or £7,500; I am not sure which.

Dibbs, Esq.,

1830. At what date was that? In 1877, 1878, or 1879, about ten years at the outside. I remember that I was at that time Chairman of the Board.

1831. What steps did the Company take? They declined it.

1832. Would the land have been of any value to the A.S.N. Company? It would have been of decided 24Nov., 1887. value to them, because it could have been approached from the level of the Circular Quay through their property by the moving of a wall, and by filling up the frontage with heaps of ashes and stuff which they They could have formed a good track of level land, and useful to them for sheds have to punt out to sea. and things of that kind.

1833. Can you tell the Committee what reason led the Company to decline to purchase at the price you have named? They did not object to it so much on the ground of the high price as that they thought that the property was useless to any one else but themselves, and that they could get it when they wanted it. 1834. Do you know Dr. Hanson! No; I knew the original proprietor, Mr. Hanson, who used to be a ship owner in Sydney. I knew him forty years ago.

1835. Do you remember at any time after the offer you have spoken of having any conversation with Mr. Hanson, jun. I have no recollection of it at the moment. My negotiations were with Mr. Josephson, who was working in connection with some solicitor, a Mr. Graham, I think. I think that Mr. Graham's wife had an interest in the property. Mr. Josephson was the gentleman with whom I negotiated.

1836. You do not remember Mr. Hanson, jun., calling at your office, and offering the property to you at £9,000? I do not remember it. I know that when the A.S.N. Company refused to take it I endeavoured to sell it for Mr. Josephson. I offered it to two other gentlemen in town.

1837. It might have been about that time, I suppose, that Mr. Hanson called ? I do not know. I know that after the A.S.N. Company refused to buy the land I wanted Mr. Dibbs, the manager of the Commercial Bank, to buy it as a speculation, but he would not have anything to do with it. I wanted Mr. J. T. Neale to buy it. I thought it might be valuable some day, but neither gentlemen would look at it, and then I dropped the matter.

1838. Might not Mr. Hanson have called upon you at that time and offered you the property for £9,000 ?

He might have done so, but I do not remember it.

1839. Such an offer would not be made to you on account of the A.S.N. Company? No. Only one offer was made to the A.S.N. Company, and I think it was in writing. I am certain that the amount did not exceed £7,500, and I am under the impression that it was £7,000. I have no recollection of any offer of £9,000. Seeing that the A.S.N. Company would not purchase the property at £7,000, I tried to sell it for Mr. Josephson. I would have bought it myself at £7,000 if I had had the means.

1840. Mr. Abigail. You have no recollection of Mr. Graham and Mr. Hanson, who is now Dr. Hanson, calling at your office in Bridge-street about this matter? No. As far as my recollection goes, my interviews with Mr. Josephson were in his own house, in Macquarie-street. I may have seen Mr. Graham in some office in Elizabeth-street with Mr. Josephson, but I have no recollection of Mr. Hanson

being present.

1841. Chairman.] The following evidence has been given by Mr. Albert George Hanson:—
1292. When was this? It was about the time the A.S.N. Company were purchasing, or after they 1292. When was this? It was about the time the A.S.N. Company were purchasing, or after they had purchased, Campbell's wharf. I do not recollect the year; but I think it was after they had concluded the purchase of Campbell's property. The trustees in my father's estate were Mr. Isaac Josephson and Mr. George William Graham. It seems that Mr. Dibbs spoke to Mr. Josephson, who sent word that Mr. Dibbs wanted to see Mr. Graham about the property. I went with Mr. Graham to Mr. Dibbs' office, in Bridge-street, and the latter gentleman said to me, "You are the stumbling-block in this matter; you will not sell." I said, "Yes, I am the stumbling block; I want a certain price for the land." He said, "What do you want?" I said, "£9,000, and I am led to believe that you will give £9,000. Are you prepared to give a cheque on account?" Mr. Dibbs said, "If you will allow me £500 commission I will come to business." I said, "I will not allow you one penny. Messes Richardson & Wrench are the parties through whom we deal, and they are the people to whom Messrs. Richardson & Wrench are the parties through whom we deal, and they are the people to whom we pay commission; and the moment I step outside your door the price will be £10,000 cash." Shortly after that I went to England.

I am under the impression that I never saw Mr. Hanson, junior, about the property. The only persons I ever saw were Mr. Josephson and Mr. Graham. I have had no conversation such as is referred to beyond what I have already stated. Finding that the A.S.N. Company would not buy the property, I endeavoured to sell it at the price at which it was offered to the two persons I have named.

1842. If any such conversation took place, it could have had no reference to the offer made to the A.S.N. Company? No. It must have been after the Company had done with the matter.

1843. Mr. Abigail.] Have you any information of your own knowledge implicating any member of the Government improperly with the purchase of this land? No.

1844. The reason I asked that question was that the following evidence has been given to the Committee:—
1552. On the 13th July, you are reported to have said you "would call members of the House to prove that Mr. Cliff said not very long ago, that if a certain member of the Government—the Minister of Justice—stopped in office for a few months he would make a big pool. This was the beginning of the big pool." I could give the name of the man who told me, if necessary.

1553. I must ask you to do so? He said that Mr. Cliff had said in a club that if the Government stopped in office for a few months he expected to make a big pool out of them. The name of the member who told me is Mr. Dibbs. But Mr. Cliff did not tell Mr. Dibbs himself; a friend of Cliff's told Dibbs. Mr. Dibbs said that he had stated so to some friend in the club. That was between the time when I mentioned the matter first, and when I mentioned the matter you have just read I had

not spoken to Mr. Dibbs for some years. I met him casually, and the remark was made to me that this thing had been stated by Mr. Cliff to a friend in a club, which friend told Mr. Dibbs of it.

Mr. McElhone is entirely wrong. No friend in the club had any conversation with me about it. I did hear it remarked outside the club that Mr. Cliff had used such an expression as you referred to, but that of course would be no evidence against him. I have heard it said easually out of doors that Mr. Cliff has said in conversation with someone something to the effect of the words you have quoted.

1845. Are you able to give the name of the party to whom Mr. Cliff made the statement, or any of the parties in whose presence the statement was made? I could give the name of the party to whom the state-142 - I

G. R. Dibbs, Esq. M.P.

24 Nov., 1887.

ment was made, but I do not know that I am bound to do so. If I have a conversation with a man in the street I do not know that I ought to use his name.

1846. Mr. Chapman.] You have not used his name in speaking about the matter? I have not. was made casually to me in the street by a gentleman, and it was to the effect that Mr. Cliff had said that if Mr. Clarke remained in office there would be a good thing made out of it. I have never mentioned the

party's name.
1847. Mr. Abigail.] You object to do so now? I do; I do not think it is right. Were the evidence of any value I should have no hesitation in giving you the name, but it was a mere casual conversation and is no evidence of value.

1848. Mr. Gould.] The person with whom you had this conversation said that Mr. Cliff had told him? He had heard it from Mr. Cliff; I suppose in some loose sort of conversation. I do not attach any value to it as a matter of evidence. If it were evidence in such a form as would give the persons charged an opportunity of proving it, I would state the names, but a mere casual conversation collected by Mr. McElhone is a thing I should be very sorry to be a party to give life to, because Mr. McElhone often says more than his prayers.

1849. What was the price given by the A.S.N. Company for their wharf? £100,000.

1850. Was that about the time that this property was placed under offer to them for £7,000? Within a

few days of it.
1851. Was the price at which the Company purchased regarded as a fair price for wharf property? It was supposed to be a good purchase—a cheap purchase for the Company?

1852. Was there any money laid out upon any wharf property after its purchase by the Company? A great deal.

1853. How much? During the time that I was in the Company I suppose we must have spent over £70,000 We rebuilt the whole of the wharves.

1854. Was it necessary? It was necessary for the Company's business. All the wharves there now are new; and they required to be substantially erected. Of course the area of the wharf accommodation was increased. If I remember rightly over £70,000 was spent upon those alterations. Of course I have my eyes open, and in passing I see that they have spent a lot of money on the property since that time.

1855. How much do you suppose? From a rough idea of the value of bricks and mortar, I should think they must have spent between £30,000 and £40,000.

1856. Then you roughly estimate that the property stands the A.S.N. Company in to the extent of £200,000? They have sold a portion of land at the back which had a frontage to George-street of 600 feet.

1857. What did that land sell for? I believe the price of the George-street frontage was £30,000.
1858. Was that all the land which was taken off? Up to that time. The Company threw a large portion of their land in to widen George-street, upon condition of the Corporation spending £6,000 upon the erection of a retaining wall upon which a store could be built. The Company threw in 15 feet to widen the road in consequence of that expenditure.

1859. Did the A.S.N. Company sell any other portion of their property? Not that I know of. I may say that I look upon the price given for the A.S.N. Company's wharf as a fair purchase.

1860. At the time the Company purchased the wharf from Campbell had they in view the necessity which would shortly arise of making all the improvements which were subsequently made on the property? Yes; Campbell's wharf as it stood had no jetty accommodation. There was nothing but a little bit of a jetty, which was tumbling to pieces. In order to utilise the property for the Company it became necessary to recast the whole of the frontage and to reclaim a lot of the gaps, and to build out certain piers and jetties, which Campbell had not permission to do. The Company bought with the full knowledge of the expenditure which it would be necessary to make. which it would be necessary to make.

1861. And they applied to the Government for permission to run out piers and jetties? Yes. 1862. Mr. Abigail. Did they obtain permission? Yes. 1863. Mr. Gould. You consider that the price paid by the Government for the A.S.N. Company's property a fair price? Yes.

1864. That it was neither excessive nor too cheap? I think it was a fair price.

1865. Would it be a fair price in consequence of the general increase in the value of property? Not so much that as the peculiar position of the property. I do not think that £275,000 represents a like advance in the value of other city properties which have been sold, and that is what makes me say that I think the price a fair and a reasonable one, and that it was a good purchase. Of course you must bear in mind that on the south of Campbell's wharf you have the Circular Quay, and the purchase of the A.S.N.

Company's wharf made one perfect property.

1866. Mr. Chapman.] At the time of the negotiations between Mr. Josephson and yourself, did you look at the title deeds of the property? No.

1867. Were you aware that that there was a peculiar reservation in the deeds, and that the Government could at any time resume the whole of the land? No. All that I knew about it was that I had been informed by some one that the property had been originally granted by the Crown for the purpose of erecting a patent slip; whether that is true or not I do not know.

1868. I hardly like to ask you this question, but would you, if you had been a Minister of the Crown at the time, have purchased this land or resumed it? I think that that is hardly a fair question to ask of a critic.

1869. Mr. Gould.] In view of the desirableness of purchasing the A.S.N. Company's wharf, do you think it was a wise thing in the interests of the Colony that the property under consideration should have been purchased? I thing it would have been a proper thing to secure this property at a reasonable purchase in order to complete the frontage. That is the way in which I looked at it when I recommended the A.S.N. Company to purchase it. I said, "There is only a little tongue of land between the A.S.N. Company's property and Dawes Battery, and you will presently come to a good holder in person of the Government."

1870. Assuming that it was desirable to purchase this little piece of land in order to complete the block, what should you consider would be a fair price to give for it, of course having in view the power of resumption by the Government, the frontage to George-street, the condition of the water frontage, access, and other matters? I think that the full value of the property under all those conditions, comparing it

with the price given by the A.S.N. Company's property, would be £10,000, or £12,000 at the outside. I arrive at that conclusion, because in purchasing the A.S.N. Company's property, you not only obtain deep water, but modern wharves, and a number of stores, I believe some thirty or forty stores at the back, together with an enormous area of land at the back, outside of the wharf property. Relatively I should 24 Nov., 1887.

not say that this property would not be worth more than £10,000 or £12,000 to complete.

1871. What would be the value of the frontage to George-street? I have never gone into that calculation.

The frontage to George-street, as far its I recollect, would not be suited for business sites.

1872. What do you suppose this property would be worth, independently of the fact that £275,000 had been given for the A.S.N. Company's wharf? I think a man buying the property to work it for himself would be a lunatic if he were to give more than £10,000 for it. I do not see how he would get the interest to be a limited by the street of the fact that £275,000 had been given for the A.S.N. Company's wharf? I the street of the fact that £10,000 for it. on his money. I have known the property for forty years, and with all the demand for water frontage, I have never seen it turned to particular account. It has been a site for a blacksmith's shop, for a mast maker's shop, a rendezvous for boats, and so forth; but if a man intended to work the property by itself, without its being accessible from the level of the Circular Quay, I think he would be a lunatic if he gave more than £10,000 for it.

1873. Is there not a right of way through the A.S.N. Company's property? I do not think it goes through. 1874. Mr. Abigail.] But the Government could knock down the wall! Of course.

1875. If you were the owner of the adjoining property, and desired to acquire this land, what value would you put upon it, without considering the surrounding circumstances? If I were the Government with the right of resumption, I should have resumed it.

1876. But if the property were resumed the value would have to be fixed by arbitration? Of course.

1877. Does arbitration generally give a low figure, in your experience? I have seen some high figures and

some low figures, but I should be sorry to give £20,000 for the property to day, unless I had unrestricted water rights, and the right to come through the A.S. N. Company's property from the Circular Quay. 1878. There are 75 feet of frontage to George-street, what do you reckon they would be worth? When the A.S.N. Company's George-street property was sold, I know that property in a better position than that was sold at £30 a foot.

1879. We have been told in evidence by Mr. Gorman that the A.S.N. Company's property has since been sold at £100 a foot? They may have made sales at that price.

1880. The property was originally sold at £30,000; do you know that it was afterwards sold for £45,000, and that within a week it was again sold for £60,000? I believe these kind of sales are made by progressive syndicates. If you will tell me the names of the first purchasers, and of the second purchasers, I may be able to give you a clue to what you want. These have been sales to syndicates and companies, they have not been out and out sales. You will probably find that some of the parties mixed up in this other affair were mixed up in them. The Company, I know, put the property up at auction, and were not successful in selling it.

1881. Mr. Abigail.] Mr. Gorman gave us the following evidence:-

1815. Mr. Abigail. I understood you to say that you based your calculations of this property upon the prices paid for the adjoining properties, that is properties having a frontage to George-street without a water frontage? Yes. I sold a property there for £25,000, I subsequently placed it under offer at £47,000, and while it was under offer it was sold for £60,000.

1816. What property is that? The property behind the A.S.N. Company's wharf.

I should like to know who the buyers and sellers were.

1882. Mr. Mills and Mr. Pile were examined oath—they were in no way connected with this property, and they have given the valuation of the 75 feet frontage to George-street at £90 a foot. There are 113 feet of water frontage, what should you think it would be worth? There is no depth of water.

1883. But the owners would have the same right to go out as the A.S.N. Company? I do not think they

1884. But they could acquire them? I do not think so. If they acquired that right it would take away the rights from the Government property on the left.

1885. Then you think that the water-frontage is of no value? It is of some value.

1886. Do you know that for years past the price of water frontage in this situation has been valued at £200 a foot? I have already said that nobody but a lunatic would buy this property, as it stands, for the purpose of utilising it in any other way except as a junction between two properties, in which case it might fetch something of a fancy price at a value of more than £10,000 or £12,000.

1887. What is your estimate of the value of the water frontage? I cannot attach a special value to the

water frontage, unless you have access.

1888. But it must have a value? A cargo of bluestone metal would have a value, and so would a cargo of watches and brooches. If the frontage were accessible from behind, and if it had deep water in front, with the right to extend wharves—at present you are shut in, because there is no way, except a very difficult road at the back—you would still have to face an expenditure on the improvement of access and on dredging, you would run the property up to £60,000 before you got a shilling for it, and that is the reason, I think, which has kept its value so low.

1889. But what value would you place on the water frontage with the knowledge I have given you of the estimate of skilled valuators? I do not count them, because they are all, to my knowledge, interested parties.

1890. Does that apply to Mills & Pile? I leave them out; I do not know about them.

1891. Chairman.] But if Mills & Pile had been employed to sell this property at a commission would they not be interested in the sale? I am under the impression that Mr. Gorman was interested in the syndicates which dealt with the George-street frontage of the A.S.N. Company, and in such a case as this I would discount the opinion of a man who was interested in the adjoining land.

1892. Mr. Abigail. Then you will not put a price on the water frontage! I look upon it as a commercial and a practical man, and I should like to know what use you could put it to.

1893. Has it not a value to the owners of the adjoining property? I have already stated that when the A.S.N. Company had it under offer to them at £7,000, I persuaded them hard to accept the offer, but I was in a minority.

1894. In 1880, Dr. Hanson, when in England, received an offer of £10,000 or £12,000 for the property? I was not aware of that. 1895.

G. R. Dibbs, Esq. M.P.

1895. Chairman.] You have been Colonial Secretary? Unfortunately.

1896. Had you considered it your duty, as Colonial Secretary, to purchase this land in the interest of the Government, would you have caused an inquiry to have been made with regard to its title; or-I will put 24 Nov., 1887 it to you in this way: What inquiries would you have caused to be made with regard to the land previous to purchasing it? That is not a fair question; my answer might be held to be a criticism on the acts of the Government.

1897. Then I will ask you this: Is it usual for a Government in purchasing properties to purchase them without making any inquiries as to their titles, or anything of that kind? It is usual for the Government in buying properties to do precisely what a private individual would do, that is, to exercise their common sense; beyond that, I think I have no right to express an opinion.

1898. Mr. R. Burdett Smith. You say that this property would have been more valuable if there had been unrestricted rights to the use of the water frontage at the time of sale? I said something like that.

1899. As the Government have acquired unrestricted right to the water frontage, what would be your estimate of the value? I think that with all the circumstances to which I have referred £10,000 or

£12,000 would be the full value of the property.

1900. With the unrestricted right to the use of the water frontage? Yes; because the Government have acquired that right, not by the purchase of this property, but by the purchase of another. The value at the time the Government bought it was £10,000 or £12,000; that was its extreme value, it having been

refused by the A.S.N. Company a few years before at £7,000.

1901. But now that the Government have acquired an unrestricted right to the water frontage, what increased value would you attach to the property? If you were to put the property into the market now, with a right to the water frontage, and with a right of exit to the Circular Quay from the A.S.N. Company's

property, and a right to build wharves, it would be worth about £20,000.

1902. But by the Government acquiring this property, these rights are now conferred? You cannot get an

increased value for one property at the expense of another. Such a concession as you speak of would be to the detriment of the A.S.N. Company's property.

1903. But the Government possess the A.S.N. Company's property? If you gave to the owners of this property the right to put out a wharf you would depreciate the value of the A.S.N. Company's property. In the same way, if you gave a right of traffic to this property through the A.S.N. Company's property you would further depreciate its value.

1904. To what extent would these rights depreciate the value of the A.S.N. Company's property? That would be a matter of calculation.

1905. Can you say approximately? No.
1906. Mr. Abigail.] Mr. Ewan gave us the following evidence:—
1588. But if the Company had wished to extend their operations what would have been the value of the property? I should have thought the property not dear at £18,000 or £20,000.

1907. Do you think that Mr. Ewan is in a position to give a fair estimate of the value of property? I sat with Mr. Ewan at the A.S.N. Company's Board when he considered that the purchase of the A.S.N. Company's property at £100,000 was a bad purchase by the Company, and he did his best to capsise it. I believe that he was one of those who ridiculed the idea of giving £7,000 for the property under consideration. 1908. Mr. R. Burdett Smith.] You say that, with unrestricted use of the water frontage, you would attach a value of £20,000 to this property? I say that if you were to give to the holder of this land, whoever he might be, a right of access to the Circular Quay through the A.S.N. Company's property, and the right to build wharves out into the Cove, you would largely increase its value, but you would do so at the expense of the A.S.N. Company's property.

1909. Mr. Chapman.] Are there any water rights attaching to the Dawes Battery property which would interfere with the water rights of the property recently purchased by the Government? I should think so. Having before me the boundaries of Dawes Battery, and of the land which is the subject of inquiry, and of the A.S.N. Company's property, I am of opinion that the southern shore of Dawes Battery has water rights which would to some extent interfere with the free water rights of the property under consideration.

1910. Mr. R. Burdett Smith.] The Government having purchased the A.S.N. Company's property, was not it highly desirable that they should acquire the land which is the subject of this investigation? I do not know that it was highly desirable, but I think it was just as well to complete the Government property all round the Quay. I think that was a proper thing to do.

1911. Having regard to that circumstance, do you think that the purchase made by the Government at a fair and reasonable sum was a judicious undertaking? I think the Government were justified in securing the right to connect the whole of their water frontage to the cove round to Dawes Battery, but I think the fact of the Government having the other property was no reason why they should give such a fancy price for the property under consideration.

1912. Under the circumstances what would you consider a fair price? £10,000 or £12,000.

1913. Having regard to everything? Yes.

1914. Including the unrestricted use of the water frontage? Taking everything into consideration I do not think the Government would be justified in giving more than £10,000 or £12,000 for a property which is useless to any one else.

1915. But you think that approximately the value of the land would be increased to £20,000 if the concessions to which you have referred were granted? Those concessions could only be given to the owners of this property at the expense of owners of the other property.

#### WEDNESDAY, 30 NOVEMBER, 1887.

Present:

Mr. ABIGALL, Mr. BLACK,

MR. BRUNKER, Mr. R. BURDETT SMITH.

N. MELVILLE, Esq., IN THE CHAIR.

The Hon. William Clarke, Esq., M.L.A., called in, sworn, and examined :-

1916. Chairman.] You are a member of the Legislative Assembly, and at the present time Minister for The Hon, W. Justice? Yes.

1917. You know the nature of the inquiry for which this Committee was appointed? Yes.

M.L.A.

1918. Were you present at the Cabinet meeting when this matter was discussed? Yes; at one stage of 30 Nov., 1887. the proceedings.

1919. Did you take any part in the discussion? Yes.

1920. Does your memory serve you as to what it was? Yes.
1921. Will you kindly state it as nearly as you can? Yes. The first reference to the matter in my presence was on the 13th June, when I understood from Sir Henry Parkes that he had been in negotiation with Mr. Gorman for the purchase of the strip of land adjoining the A.S.N. Company's property, which it was thought desirable to obtain before completing the transaction of the Government with the A.S.N. Company. That was all that was said on that occasion, but on the following day, Tuesday, Sir Henry Parkes said that he had received a communication from Mr. Gorman, offering this strip of land to the Government at £31,500.

1922. You are sure that this was on the following day? Yes, on the 14th June, after an Executive meeting. The first time I saw the cold knew of any correspondence in fact. The first time I saw the correspondence it was published in the Herald, that was the first time

1923. Mr. R. Burdett Smith.] That circumstance enables you to fix the date? No; what made me fix the date was the charges made against me in the Legislative Assembly. I taxed my memory immediately, but if I were to tax it now the probability is that I should not be able to fix the date with such accuracy.

1924. As a matter of fact you were not present when this matter was first submitted to the Cabinet? do not remember to have heard it submitted to the Cabinet until the 13th June.

1925. On that occasion the matter was completed with the Cabinet? No; on the following day, the 14th. 1926. Mr. Cliff states that five or six years have elapsed since you were connected with him in land transactions? That is right. I may state that my business connection with Mr. Cliff ceased in the year 1882, in consequence of my visit to England. Shortly after my return from England, in the following year, being appointed manager to the Anglo-Australian Company, I did not think it my duty to be mixed up in further transactions with Mr. Cliff. further transactions with Mr. Cliff,

1927. Then as a matter of fact, Mr. Clarke, you had no interest whatever with Mr. Cliff in this purchase? Not one penny of interest.

Not one penny of interest.

1928. You have had no conversation with him in regard to it? Not a single conversation.

1929. Nor with any person who could have communicated it to him? Nor with any other person. I wish to add this, that I did not interview either before, during, or after these negotiations any of my colleagues in reference to this matter. The only opportunity I had of knowing anything about it was on the 13th or 14th June. I wish to state that on the 14th June, when the matter was decided, the Cabinet authorised Sir Henry Parkes to offer the sum of £29,000 for the property.

1930. Mr. Brunker.] Then, as a matter of fact, you had no interest in the matter, except in so far as your action as a Minister was concerned? I had no private interest at all, either personally or through any other individual in the community.

other individual in the community.

1981. Being manager of the Anglo-Australian Company you have a pretty fair knowledge, I suppose, of the value of property? I have.

1932. Do you know the property under consideration? I do.

1933. What do you think the true value of that property in comparison with the price paid for it by the Government? I had an interest in an adjoining block of land which we sold two years previously at

Government? I had an interest in an adjoining block of land which we sold two years previously at about £90 per foot.

1934. Mr. Abigail.] That was a George-street frontage? Yes; and without any water frontage. The depth was 90 to 130 feet. That land, within a fortnight of its sale at £90 per foot, sold at the rate of £190 per foot. That was within my knowledge when this purchase was discussed by the Cabinet, and I thought that as the adjoining piece of land, which is similar in every respect, as will be seen on inspection, to that under consideration, sold at £109 per foot, a similar frontage to George-street was at any rate of equal value. I took the George-street frontage at about £8,000. I knew that no water frontage near the Circular Quay could be obtained for less than £200 a foot with a depth of about 100 feet. I reckoned the water frontage therefore at about £22,000, and the frontage to George-street being £8,000, I thought that £30,000 was a fair value for the land. With other Members of the Cabinet, in the way these things are usually done, I said "Let us offer £29,000." That is how the matter was settled so far as we were concerned. concerned.

1935. You have treated the amount you have named as the ordinary value? Yes.
1936. Taking into consideration the fact that the Government owned Dawes Point and had an intention of

1936. Taking into consideration the fact that the Government owned Dawes Point and had an intention of purchasing the A.S.N. Company's land, I suppose you would place some special value on the property? I thought it was worth to the Government considerably more than even the sum I have named. 1937. And your business knowledge enabled you to discern that if the Government attempted to purchase the property after purchasing the A.S.N. Company's land they might have had to pay considerably more for it? I thought that if the purchase of the A.S.N. Company were first completed the man holding this particular strip of land would have the key of the position so far as any negotiations for purchase were concerned—that is to say, would be able to make his own terms. 1938. Mr. R. Burdett Smith.] You consider the sum paid a fair and reasonable one? I think it was a very fair sum.

1939. Mr. Abigail.] Was the sale of the George-street property, to which you have referred, at £90 a foot a bona fide sale? Yes; decidedly so. I got my money.

1940. Can you say whether the second sale of the same property at £109 per foot was also a bona fide sale? It was a bona fide sale.

The Hon. W. 1941. If it has been stated in evidence that it was simply a change of property among the same syndicate Clarke, Esq., that is not correct? Not by any means. The money was actually paid. I could not give the names of the syndicate who purchased in the second instance if you desired them. There were such men as Mr. W. M'Millan, Mr. Wallace, of Newcastle, Mr. Jacques, of the firm of Stephen, Laurence, & Jacques, Mr. Griffin, who recently contested Wentworth, Messrs. Mills & Pile, and Mr. Evans, of York-street.

1942. They were the second purchases at the largest sum? Yes.

1943. Do they hold the property now? Yes.

1944. Were any of the men you have mentioned members of the first syndicate? No.

Isaac Ellis Ives, Esq., M.L.A., called in, sworn, and examined.

I. E. Ives, 1945. Mr. R. Burdett Smith.] You are a member of the Legislative Assembly of New South Wales? Esq., M.L.A. I am.

30 Nov., 1887. I 946. Do you know anything with regard to the value of the land which forms the subject of this inquiry? I know the land in question, but so far as the value of it goes I do not profess to be an expert in land valuation.

1947. How long have you known this land? I have been in business in Argyle-street for over twenty-seven years, almost within a stone's throw of this land.

1948. Have you known anything about its value, or its graduated value, if I may use that term, from time to time? The value of wharf property, as compared with twenty years ago, has more than doubled. 1949. What value would you attach to this particular piece of land? My valuation of the George-street frontage is from £125 to £135 per foot. I value the water frontage at not less than £160 per foot. 1950. In the aggregate what would have been a fair and reasonable sum for this property in June last? At the figures I have given it would be about £27,830.

1951. And you think that any purchaser would not be giving too much for the land if he paid that price at that time? I do not think so, taking into consideration the great increase in the value of such properties.

1952. Do you know anything further with regard to the subject matter of this inquiry? No; I am not acquainted with any particulars of the sale; I have not heard or seen any of the evidence, nor have I been in communication with any of the witnesses.

1953. Mr. Abigail.] You were present, I believe, when several members of the Government visited Dawes Point to see the site selected for the Naval Home? Yes.

1954. Do you remember anything occurring on that occasion which directed the attention of the Government to this particular piece of land? Yes; I was gazetted as one of the trustees for the site of the Royal Naval Home which the Government propose to cancel, and when we were visiting the spot, understanding that the Government intended to purchase the A.S.N. Company's wharf, and to continue the wharfage round Dawes Point, I pointed out that there was a small piece of land intervening between the two properties and that it would be necessary to secure that also; I was not aware if any members of the Government were acquainted with the fact, and I mentioned it casually.

1955. You directed their attention to the necessity of acquiring this piece of land in order to complete their scheme if they purchased the property of the A.S.N. Company? Undoubtedly; immediately they declared their plan of action I said it was necessary to complete the scheme to have this particular piece

of land.

1956. You are a man of large business knowledge, and in making this recommendation I suppose you wished the Government to act as you would have acted had you been in their place? Undoubtedly.

1957. You considered it a good business arrangement? If I intended to purchase a property situated as

the A.S.N. Co's. property was situated, and owned another piece of property near at hand, I should certainly endeavour to secure the area of intervening property in order to make a complete whole.

1958. Have you heard in any way that any member of the Government is pecuniarily interested in this purchase? I have not heard anything of the sort, with the exception of the remarks which were made in the Assembly.

1959. Has any knowledge come to you which would lead you to believe that there is any truth in the statements which were made in the Assembly? I have not heard a word in support of those statements from anyone outside.

1960. Chairman.] As a matter of fact, you are in a position to state that they are not true? Of my own

knowledge, I am in a position to give no information on the subject.

1961. Would your opinion of the value of the land be altered if you were aware that there was in the deed of grant a clause reserving to the Government the right at any time to resume for a public purpose the whole of this land? Most decidedly. If that clause were in the grant 1 should say that it would be Most decidedly. If that clause were in the grant 1 should say that it would be a matter for grave consideration whether to purchase the land at all.

1962. Mr. Black.] Have you seen the plan of this land? I have seen only the plan attached to the Parlia-

mentary papers.

1963. Does the existence of a lane dividing this property make any alteration in the value which you have just placed upon this land? I estimated that the 12-foot lane running north and south in the plan which I have seen would be taken into the property as so much land.

1964. Having that in view, you still think that the property would be worth £27,830?

siderable knowledge of the value of land I think that would be its fair value.

1965. If you owned Dawes Point and the A.S.N. Company's property would you yourself be prepared to give that sum of money for the land? I could give you a case in point. There is a piece of land situated between two properties of my own, and I am doing all I can to secure it, in order that I may enlarge and complete my two properties. I expect that I shall have to pay nearly 50 per cent. more than the market value of the land in order to do so.

1966. Taking the whole of the circumstances of the case into account you think the price paid by the Government was not exhorbitant? I do not think it was exhorbitant, considering the object in view—that of securing the land to make one whole property. The difference between my estimated value and the price actually paid is not very large, only about £1,200.

1967. Chairman. Did you make that estimate of value without considering the reservation to which I have referred? I have not taken that into consideration; I am supposing that there is a Torrens' title, and that it is indefeesible.

and that it is indefeasible.

71

1968. Mr. Brunker.] You said you made a suggestion to the Government when visiting the site of the Royal Naval Home at Dawes Point. After making that suggestion had you any communication or Esq., M.L.A. conversation with any other person with reference to the matter? No; I heard nothing more about it along the land. The days communication either with the land. The days communication either with the until I heard that the Government had purchased the land. I had no communication either with the

Government or with any person in the city.

1969. Is your estimate of £27,830 a special, or the market value of the land? I regard £27,830 as the market value of the land at the present time. There are other small pieces of land similarly situated in the city, the price asked for which is in excess of my estimate of the value of this particular piece of property.

1970. The hotel property belongs to some private individual? It used to belong to a man named

Robertson.

1971. That property having been sold subject to the existence of the lane shown upon the plan before you,—would it not be impossible to take away the right of that person to the lane by closing it? You could close it where the line marks the division. The owner of the property to which you refer has no

right to the lane between two blocks of property which have been purchased by the Government.

1972. But might not a right of way be given through to the A.S.N. Company's property? Of course I understand that if anyone buys a property in connection with which lanes are laid out those lanes can be closed only with the consent of the purchaser. I doubt very much, however, whether any individual would claim this particular right of way; still it is true that the right you refer to exists.

1973. Mr. Abigail.] You are not interested in any way with Mr. Cliff in the purchase of this property,—or in the division of profits? I am not; I am not a great speculator in property,—and I am in no syndicates.

syndicates.

#### Mr. John Norton, called in, sworn, and examined:—

1974. Chairman.] What is your occupation? I am a journalist.

1975. Mr. Abigail.] You are aware that the Government have purchased a piece of property at the Circular Quay, adjoining the A.S.N. Company's property? Yes.

1976. I suppose you learnt that through the press? Yes; through the press.

1977. Have you any personal knowledge of the transaction? No personal knowledge at all.

1978. Mr. R. Burdett Smith.] Have you any knowledge whatever of the matter which now forms the subject of inquiry by this Committee? As I have said, none of a personal nature.

1979. You have no knowledge of the transaction? Excepting that it is a matter of public potential.

1979. You have no knowledge of the transaction? Excepting that it is a matter of public notoricty that this is a swindle.

1980. Mr. Abigail.] You have only acquired your knowledge by hearsay statements? I cannot exactly

say that they have been hearsay statements.

1981. You say that it is a matter of public notoriety that this is a swindle. Will you tell the Committee upon what you base that statement, or who supplied you with information in the case? So many people have spoken to me, and it is so long since, that I could not recall the names; but many responsible people, whose names I cannot mention, have talked to me, and at times they gave me information upon which I have spoken in public.

which I have spoken in public.

1382. You cannot remember the names of any of them? No.

1983. You addressed a public meeting in Orange in August last in which you made serious reflections upon the Minister for Justice, implicating him in this transaction? Yes.

1984. Can you give us the evidence upon which you did so? I have been wrongly reported in that matter. I do not accept the newspaper report as an accurate report of my speech.

1985. Did you make any reflections upon Mr. Clarke? Yes. I spoke directly to the subject, and stated that from what I had beard in the matter that I considered that the Minister of Justice was stronged up

that from what I had heard in the matter that I considered that the Minister of Justice was steeped up to his ears in corruption, assuming that the information I had received was true.

1986. Will you give us the sources from which you obtained that information? It was in conversatio I cannot say where I got it.
1987. Street corner talk? No; I had mixed with members of Parliament on both sides of the House.
1988. I suppose you have a good memory? Not in matters of this kind. It was in conversation.

1989. You have a distinct recollection that the people to whom you refer, told you that the Minister of Justice was steeped in corruption; but you cannot give the names of the person? I did not say they told me so; but the impression upon my mind from information I had received was that it was so, and I stated that as my belief before Mr. Clarke's constituents.

1990. Did you take any steps to satisfy yourself as to the correctness of your conclusions before you endeavoured to take a man's character away? I did make efforts to get the information, but I admit that I was not able to find evidence amounting to proof.

1991. Having made inquiries, and not finding evidence amounting to proof, you nevertheless made the statement 1 have referred to before the public? I believe that such evidence exists, and that Mr. Charke

himself could give it.
1992. If Mr. Clarke has sworn upon oath that he is in no way connected with this transaction, and that he

has no direct or indirect interest in it, how would that affect your conclusion? I should be astonished.

1993. Upon what do you base your statement that Mr. Clarke could give evidence to the effect that he is implicated in this matter? I said that I believed that he could give evidence.

1994. On what do you base your belief? There was formerly a transaction between the Government and Mr. Cliff, and at the time that transaction took place it was not known that Mr. Clarke was on a business way with Mr. Cliff. When the transaction was completed it was found that Mr. Clarke was a connected and that he had signed papers in connection with the purchase. so connected, and that he had signed papers in connection with the purchase.

1995. Did he ever deny his connection with the matter? No; but my reason for saying that his statement on oath that he was not connected with the present purchase would astonish me is that I was under the impression that he had been very careful to cover up, or to hide his present connection with Mr. Cliff am only stating my opinion.

1996. You have no evidence to give to the Committee on which you base that opinion? No evidence of a direct character.

1997. And your feeling towards the present Government is of a friendly character? Yes; very friendly. 1998. And to Mr. Clarke particularly? I have no prejudice. 1999.

Mr.J.Norton, 1999. As evinced by your statement at the public meeting to which I have referred? It is not a matter of friendship. I consider that the statements which I publicly made against Mr. Clarke at Orange, and 30 Nov., 1887. which I repeated at Balmain, and at Redfern, were of such a charater as to compel a Minister of the Crown to go into a court of law. I believe you will never get at the truth unless you get Mr. Clarke into the witness box. That is what I was trying to do; but he refuses to go to law.

2000. Then you tried to get Mr. Clarke to go to law? Yes.

2001. Who gave you the assurance that they would pay the law costs of the action? No one.
2002. Do you say that on oath? No one gave me any such assurance.
2003. You tell the Committee that you have needing at Orange? No; only the corroborative evidence of the previous transaction to which I have referred.

of the previous transaction, to which I have referred.

2004. How many years ago is that? Several years ago.

2005. You cannot prove that Mr. Clarke attempted to hide or to cloak up that transaction? No; but I

believe he was corrupt.

2006. Can you give the Committee any evidence to sustain that statement? He was a member of Parliament, and he was connected at that time with a man who was doing business with the Government.

ment, and he was connected at that time with a man who was doing business with the Government. He benefitted by the transactions of that man. Although I have no proof of it, I believe that he used his position as a member of Parliament to facilitate the transaction to which I have referred.

2007. You have no evidence to prove it? No.

2008. On August 23 you addressed a public meeting at Redfern, and you are reported to have used these words: "He explicitly charged the Minister of Justice with being pecuniarily interested in the resumption of land next to the A.S.N. Company's property." Have you any evidence of a direct character to give to the Committee to warrant that public statement? I do not recognise that as a proper report of what I said. I said substantially what I said at Orange.

2009. Is this a correct report of what Mr. Traill said in reference to your speech, "He did not know from what source Mr. Norton had obtained his information; but as the charge had been formulated before such a large gathering of people it was impossible that a Minister of the Crown could remain silent under such allegations. Mr. Norton has done that evening a very brave or base action in speaking as he had. The hand of the Minister was forced." Did Mr. Traill say that? I believe that is substantially what Mr. Traill did say. Mr. Traill did say.

2010. But you say that it is not a correct report of what you yourself stated? I do not think it is. What I said at that meeting was substantially what I said at Orange—that the information I had received, it being a matter of common notoriety, led me to believe that the Minister of Justice was corrupt.

2011. And you state that you made some inquiries to test the truthfulness of that statement, and found

2011. And you state that you made some inquiries to test the truthfulness of that statement, and found no evidence? Yes; I could not get it.

2012. Having made these inquiries, you still persisted in making the statement in public? I was so convinced of the corruption of the Minister of Justice at the time, and his general character led me to believe that he was such a man as he was reported to be, and that it was a public duty to endeavour to get him to go into a court of law, which was the only place where he could be thoroughly cross-examined.

2013. Even now you believe him to be thoroughly corrupt in connection with this transaction? Unless I got some strong evidence to the contrary, I should believe that he is a corrupt man. That is an impression unsupported by direct evidence.

2014. Are you in the habit of making statements of this kind against public men? I do not think I

ever made such a statement before.

2015. You are a pretty shrewd man in searching out things, are you not? I do not know that I am. I think that a very good opportunity was given to the Minister of Justice to clear his character, but he never accepted it.

2016. Mr. R. Burdett Smith.] I think you said that you had no evidence to justify your suspicion of corruptness on the part of Mr. Clarke? No, I did not say so. I said that I had no direct proof of it. I say that I have evidence to justify the suspicion.

2017. Would you be good enough to state what that evidence is? I have already said that it was a common report. Statements were made both in and out of Parliament.

2018. Then you base your suspicion of corruption on the part of Mr. Clarke on common report? I do not think that is a fair way of putting it. I also base my suspicions on the fact that Mr. Clarke has never taken steps to clear himself from the odium of these reports.

2019. Are you, or are you not, in a position to afford any evidence to this Committee of corruption on the part of Mr. Clarke in this transaction? No, I am not.

2020. I think I am justified in saying that the Committee would be glad of any evidence you could give in support of your statements? I have none.

2021. Mr. Brunker.] Do you know when the transaction took place? I cannot exactly state the date. I had some notes which I once took down from certain people, but I have lost them. It was upon those notes that I based my speech at Orange.
2022. On what date did you make your speech at Orange? In August last, I think.
2023. Is it within six months? Yes.

2024. And you do not remember the names of any of the persons who have given you the information, bearing in mind the fact that your speech was delivered so recently? I cannot say positively; I have spoken to so many.

2025. That is a reason why you should be able to give us some of the names. Surely, the more persons you spoke to the more likely you would be to remember one of them? I think that the fact of the matter being so much spoken about has made it indefinite in my mind.

2026. Is it a fact that you do not remember the names, or that you will not give the Committee the information? I have stated that I do not remember.

2027. A man in your position and of your intelligence ought to be able to remember the names of some persons with whom he had conversation. You must have had something upon which to base the statements you made? The probability is that I had some authority; but I have forgotten it now.

2028. Do you think it likely that a public man—which I presume you are—making statements of this kind would not remember the source of the information upon which those statements were based? I do

not know exactly.

2029.

2029. When you went to Orange and made such a deliverance, a special statement in the public interest, Mr. J. Norton. you must have had some fact upon which to base it beforehand? One fact in my mind is that Mr. Dalton, himself stated that this land had been offered to him for. I think. £7.000.

himself stated that this land had been offered to him for, I think, £7,000.

2030. But that does not connect Mr. Clarke with it? I would be glad to give the Committee the authorities upon which I base the statement, but as it is so long back I cannot remember them now. 2031. The fact is then, Mr. Norton, that you made these representations without foundation, and that you simply did it for the purpose of eliciting a contradiction from Mr. Clarke in a court of law? That is hardly a fair way to put it. In my opinion the statements were so publicly made, so reiterated, and were so damaging to a Member of Parliament, and especially to a Minister, that I considered that if they were sometime. Mr. Clarke would have contradicted them in a generated law instead of going up as he did to untrue, Mr. Clarke would have contradicted them in a court of law, instead of going up, as he did, to Broken Hill, and saying that it was simply a lie.

2032. Presuming that Mr. Clarke was perfectly innocent, do you not think that he was quite justified in treating such statements with contempt? Not as a Minister of the Crown, or as a member of Parlia-

2033. That is a matter of opinion? Yes.

2034. You stated just now that there was some transaction in which you knew that Mr. Clarke had acted in a corrupt manner? I may as well tell the Committee that I have received statements in common conversation with people who never knew that I was going to use them. I have received information with reference to other matters in which Mr. Clarke has been concerned. If this information is true it shows to my mind that Mr. Clarke is what I represented him to be at the time. I have heard that he has been connected with other swindles; but I should not like to mention them. I do not think they are relevant to this inquiry.

2035. Have they taken place since Mr. Clarke's acceptance of office? No; before he was a Minister of the Crown, and some before he was even a member of Parliament. These rumours made a strong impression upon my mind; but they are not relevant to this inquiry. They have bred in my mind the

suspicion that Mr. Clarke was what he has been reported to be.

suspicion that Mr. Utarke was what he has been reported to be.

2036. Cannot you give the Committee one illustration of these acts of corruption? I do not think that I am justified in doing so, unless the Committee were to insist. They are private affairs of Mr. Clarke's, and I do not think I am justified in mentioning them. I do not think that they are at all relevant to his position as a member of Parliament, or a Minister of the Crown, or to this particular transaction.

2037. Can you tell the Committee of any transaction which has taken place since Mr. Clarke has been Minister of Justice, which has been corrupt? I have stated that I have no personal knowledge of any. I base my statement on rumours which I considered, in view of the position of Mr. Clarke in the Government, were of such a character as to deserve contradiction. They were not contradicted, and that confirmed my suspicion. That is the only basis of my charge.

2038. The real fact is that you have made these statements simply from rumour? If you like to put it

2038. The real fact is that you have made these statements simply from rumour? If you like to put it

in that way

2039. And that you have no knowledge of the persons who gave you that information? I have said that

I cannot recollect their names

2010. The result being that it is simply a matter of your own opinion that Mr. Clarke must have acted corruptly? For the simple reason that he has never contradicted the statement. I consider that Mr. Clarke was dealt with fairly in having charges which were formulated against him in Parliament stated upon a public platform. He has not taken the remedy which that course gave him, and that fact 1 consider has confirmed the charges which I made against him.

2041. You are aware that this Committee has been appointed to clicit all the information they can to test the validity of these charges? Yes.

2042. Notwithstanding the fact that you have made these statements you can give the Committee no

further information to guide them than you have already done? No. 2043. Mr. R. Burdett Smith.] Would your suspicion of any complicity on the part of Mr. Clarke in this matter be removed from your mind if Mr. Clarke contradicted the statements which have been made? Seeing the gentlemen on this Committee, and knowing them, I should certainly say that if they had come to that conducion after bearing Mr. Clarke's evidence that evidence would have estimated me. If the to that conclusion after hearing Mr. Clarke's evidence that evidence would have satisfied me. If the evidence has convinced the Committee that Mr. Clarke is not corruptly connected with this transaction I suppose the evidence would have satisfied me, and if such evidence had been forthcoming at the meeting at Orange, or subsequently, or had been contained in a letter addressed to anyone of the newspapers, I would have immediately withdrawn my charge; but neither of these courses has been taken.

2044. If the Committee are of opinion from their investigation that Mr. Clarke has not the slightest

interest in this transaction, would you be prepared to withdraw any statement attributing corruption to him in regard to this matter? If that were the unanimous finding of the gentlemen I now see before me, I should certainly be prepared to do so, because I take it that they have thoroughly investigated the matter. 2045. Mr. Brunker.] Do you know of your own knowledge of any transaction between Mr. Clarke and Mr. Cliff? No; I do not, but dozens of people have told me that Mr. Clarke has been for years connected with Mr. Cliff, and that he is at the present time connected with him in business. I have had scores of discreditable rumours with reference to Mr. Clarke, but they are not relevant to this matter.

2016. If Mr. Clarke has sworn that he has had no business transactions with Mr. Cliff for the last five or six years, can you give the Committee any information which would bring them to a different conclusion? No. I should be astonished to hear Mr. Clarke swear that, because I believe, unless the Committee find anything to the contrary, that he is still connected with Mr. Cliff in business. If he is not so connected, and if the reports which have been in circulation are untrue I think it is a pity that that statement was not made months ago.

#### WEDNESDAY, 7 DECEMBER, 1887.

Bresent : --

Mr. ABIGAIL, Mr. BRUNKER, MR. CHAPMAN, MR. GOULD,

MR. R. BURDETT SMITH.

N. MELVILLE, Esq., in the Chair.

Richard Glinn Vallack, Esq., called in, sworn, and examined :--

R.G. Vallack, 2047. Chairman. You are an importer?

2048. You are aware of the nature of the inquiry which this Committee has been appointed to hold? Yes. 2049. Will you kindly give to the Committee any information which you have relative to the purchase of this piece of land at the Circular Quay? I have no information to give. I know nothing at all about it. 2050. Have you any interest in it? Yes. 2051. To what extent? I do not. 7 Dec., 1887.

2052. Do you know whether you are to receive one-half or one-third? I do not. 2053. For what amount of the purchase money were you responsible? I was not responsible at all except by word of mouth. I never signed any contract or bond.

2054. You say you were responsible by word of mouth? If any loss had accrued on the resale of the land I should have felt myself bound to contribute my quota, whatever it might have been.

2055. With whom did you converse about the land in the first instance? With Mr. Cliff. He retained

his interest in our firm until Christmas. He was at this time my partner.

2056. Do you remember when the conversation took place, that is to say, how long before the land was purchased? Some time after it was announced in Parliament that the Government intended to purchase purchased? Some time after it was announced in Parliament that the Government intended to purchase the A.S.N. Company's property. Mr. Cliff and I have had many speculations in land together; I have generally had plenty to do while Mr. Cliff has had some leisure, and our speculations have occurred in this way. He has said to me, "There is some land going at such and such a place, shall I put your name down"? And I have said, "All right." Cliff thereupon has taken an interest for me, and at the same time one for himself. Probably he would come to me a day or two afterwards and say, "I paid out £100 for you yesterday on account of such and such a piece of land." and I have immediately drawn the cheque. Whatever he wanted he was at liberty to draw in my name. I suppose we have had ten or a dozen speculations together, and in no instance have I known positively the interest which I have held, or the interest which others have held. Mr. Cliff, having determined to buy some land, would come to me and ask me whether he should put my name down, and I have generally said, "All right." That was just the position of the matter under consideration. Cliff probably said to me, "There is some land for sale at the Circular Quay." What amount he paid in my name, if he paid anything, I do not know. I do not think he paid anything out of my account, but I am not sure. If he did, he did, and there is an end of it. That is just the position of affairs. I do not know anything about the details. I know nothing about the purchase of the land and its resale. I do not know what Cliff gave for the land, or what it sold for, purchase of the land and its resale. I do not know what Chiff gave for the land, or what it sold for, except what I have seen in the public prints. I have always accepted what Mr. Cliff has done for me in these matters in good faith. We have always shared the proceeds of our speculations, and in most instances, until the proceeds have been shared, I have not known what interest I held, or what other persons have been interested—that is in the various speculations. When the senior partner of the firm came out some months since he said to me, "You have some interest with Mr. Cliff in some of his land specs, in how many?" I could not tell him. I said, "I will ask Mr. Cliff to give me the list." Mr. Cliff gave me a memorandum in pencil, and I knew nothing more than that.

2057. Do you know of your own knowledge whether the Government have paid for the land? I know

nothing at all about it.

2058. Or that your share of the money has been paid into your credit at the bank? Not to my credit. 2059. Not yet? No.

2060. Would your share be paid into your credit, or would it be paid into a joint account? Cliff would probably tell me what it was, and in all probability hand me a cheque for that amount.

2061. Then as a matter of fact Mr. Cliff and yourself have had no definite conversation with reference to this transaction since its completion? We have not.

2062. For all you know outside of what you have seen in the press you may yet be called upon to pay a share of some loss accraing from the purchase? If there were a loss upon the resale of the property I should feel bound to contribute my quota.

2063. Mr. Gould.] How many persons were concerned in this purchase? I have no idea.

2064. Do you know the names of any purchaser besides yourself and Mr. Cliff? No.

2065. Are there not a number with whom you are usually associated in these land speculations? They

are not the same in every speculation by any means.

2066. They are not the same each time? No. Of course I may have speculations with a friend on my

own account, and Mr. Cliff may have speculations with a friend on his own account.

2067. Mr. Brunker.] Do you remember the receipt of a letter from Richardson & Wrench by Mr. Cliff in reference to this matter? I do not know that he ever received such a letter. In the case of these land transactions a document is generally offered to me for my signature, and as soon as I see Mr. Cliff's name attached to it I attach my own.

2068. Do you know if Mr. Taylor had any connection with this transaction? I have not the slightest

idea. I have not spoken to Mr. Taylor on the subject.

2069. Mr. Abigail.] As a matter of fact Mr. Cliff had the whole thing in his hands? He always has had in any land transactions in which we have been jointly interested.

2070. Mr. R. Burdett Smith.] You have no knowledge whatever of this transaction? No. Mr. Cliff probably came to me and said that he was going into a land purchase at Circular Quay, and asked me whether he should not mr. approaches the transaction has been probably came to me and said that he was going into a land purchase at Circular Quay, and asked me whether he should not mr. approaches the transaction has been probably came to me and said that he was going into a land purchase at Circular Quay, and asked me whether he should put my name down, but that would be all.

2071. Mr. Brunker. If he has made £9,000 out of the purchase you do not know anything about it? I do not, and I do not know what my interest would be.

2072. Mr. Chapman. Has not Mr. Cliff told you that there was a profit of £9,000 upon the transaction? Since this inquiry was instituted I have not spoken to Mr. Cliff on the subject at all, therefore I am not in a position to say. It is quite possible that in the course of some conversation Mr. Cliff may have said, "There will be £9,000 or £10,000 to divide," but as a rule I do not trouble about matters of this kind until I get my share of the money.

### Edward Wrench, Esq., re-called, and further examined :-

2073. Chairman.] The following evidence has been given to us by Mr. Gorman:

1676. You say that it is an usual thing for auctioneers to divide commission? Yes. If you like me to give you proof, I will submit a letter first of all from Richardson & Wrench, who agreed to divide commission with us as selling agents. That letter is dated May 13 [Appendix I]. Mr. Wrench came to me as buying agent, I being the selling agent, for a property bought by Mr. Spark in Maclany-street. in Macleay-street.

E. Wrench, Esq. 7 Dec., 1887.

1677. In the letter which you have produced, I observe that you occupy the position of selling agent? We both occupied the position of selling agents. In a large property which Richardson & Wrench bought for Mr. Spark from me, as agent for Mr. Farrell's estate, I returned a cheque for commission for £63 5s. I will give you another instance, and I only point out these so that they may be specially known. I bought, as buying agent, from Richardson & Wrench, the property occupied by the National Building Society, opposite to the School of Arts in Pitt-street. They gave me a rebate cheque of £62 10s.

1678. In these cases the selling agent divided commission with the buying agent? Yes, and vice

versa. I have put cases each way.

Here is the letter [Appendix I.] which Mr. [Gorman put in. Bearing in mind your own statements to the Committee with reference to the matter can you give any explanatory statements? This is a letter written by one of my clerks, and signed by one of my partners. Mr. Jamieson was thinking of going to England, and he wished the business undertaken by the two lims. We were asked if we would act in conjunction with Hardie & Gorman, and we said that we would. We were both selling agents. 2074. Mr. Brunker.] You were not both acting in opposite directions? No. I will explain the operation as far as Mr. Spark's case is concerned. It was conducted by myself. I met Mr. Spark, and he asked me if I could find a house for his brother. He wanted to find a house near his own place at asked me if I could find a house for his brother. He wanted to find a house near his own place at Elizabeth Bay, but he preferred a freehold to a leasehold property. I said that I did not know of any property, but that I would make inquiries. I found that Mrs. Farrell had a house in Macleay-street which was for sale by Hardie & Gorman. I saw Mr. Gorman, and told him that I thought I could sell the house for him, if he would let me sell it, and quote the price. He gave his assent. I forget whether I said to him, "I will divide commission," or whether he himself proposed that we should divide commission, but I do not think that it is very important. I acted as selling agent. I saw the two brothers. Spark, and induced them, after some time to make an offer for the property, which offer was submitted to Mr. Gorman, and, I believe, by him to Mrs. Farrell. I was told that the offer would be accepted, and they carried the transaction through. We debited them in our books for the amount of the commission, £63 15s., in April, 1885. They paid us the amount in May. So much for the Macleay-street operation. Then, as to the case of the National Building Society—that was carried through by my partner. Mr. Gorman was introduced into the matter at the particular request of our principal, Mr. George Evans, of the firm of Holdsworth & Evans, Solicitors. I do not know which of the two houses took the greatest trouble in the matter, but the sale was effected. I do not know which of the two houses took the greatest trouble in the matter, but the sale was effected. It was the sale of a lease of some premises in Pitt-street, I think at £1,000 a year. When the thing was settled Mr. Evans asked us for our charges. We made out our account as usual, and charged, as we always do, a commission of 5 per cent. on the first year's rent, that was £50 commission. Mr. Evans said, "That is not sufficient. You have gone to a great deal of trouble in the matter, and as you have to divide with Hardie & Gorman, I shall allow you £125 for this operation." We made out fresh account sales, and charged £125 commission, as agreed, half of which we gave to Messrs. Hardie & Gorman, that is to say £62 10s. That account was resident for this form in large 125. is to say, £62 10s. That account was paid to their firm in June, 1885. I had nothing to do with the

negotiations in regard to the Pitt-street property. 2075. Mr. Abigail.] So that as a matter of fact each firm received more than double the commission which you had first charged? Our first charge, as I told you, was made out at £50. Mr. Evans said that as the matter had taken a great deal of time and trouble he desired that we should increase the commission to £125, especially seeing that we should have to pay half of it to Mr. Gorman. We acted accordingly.

2076. Chairman. Let me refer you to the answer you gave in your evidence on the 2nd November, 1887,—
1010. Mr. Brunker. With regard to this question of brokerage, it appears that Mr. Gorman was employed by the Government to negotiate the purchase of this property. Messrs. Mills & Pile were acting for the vendors, and Mr. Mills stated in evidence that it was usual to divide commission in such cases. Has that been the practice with you? Never; nor do I conceive it to be correct.

1011. Except, as you say, when both parties are acting in one direction? Exactly; what are we paid for but to do the best we can for our clients. If I were to take up the other side and accept but the commission it think I should be a granted.

half the commission I think I should be a scoundrel.

2077. With the facts of these cases still fresh in your memory do you still maintain the answers given to the questions I have quoted? I do undoubtedly. I may tell you that I am at the present moment working for the Master in Equity in a large property in which there are two selling brokers.

2078. Mr. Abigail.] In one of the cases to which you have referred you were the buyer and Hardie & Gorman were the sellers? Nothing of the kind, as you will see, if your refer to what I said.

2079. Mr. Chapman.] Do you know where one half of the amount of £62 10s, which you paid to Hardie & Gorman in the case to which you have referred, went to? I have not the slightest idea. How should

2080. Mr. Gould.] Can you say whether your own amount of £62 10s. was divided with anyone else?

2081. Do you think that Holdsworth & Evans participated in the £125 charged for the sale? I can say this, that if we were to offer either of those gentlemen rebate commission in a matter of this kind they would kick us out of their office.

2082. Mr. Abigail.] Have you done any other business in which they have been interested? We do business for them almost every month.

2083. Have they ever acted in a similarly liberal manner? No, we make our charges according to the usual rate and according to the amount of the property.

2084. Then I suppose it would be an exceptional case in which they would more than double the amount of commission you were about to charge? I believe this is the only case of the kind on our books.

76

Евq. 7 Dec., 1887.

E. Wrench, 2085. Mr. Brunker.] Mr. Gorman gave to the Committee the following evidence:-

1752. One of the oldest agents in Sydney dealing with land gave to the Committee the following

1010. Mr. Brunker.] With regard to the question of brokerage, it appears that Mr. Gorman was employed by the Government to negotiate the purchase of this property. Messrs Mills & Pile were acting for the vendors, and Mr. Mills stated in evidence that it was usual to divide commission in such case. Has that been the practice with you? Never; nor do I conceive it to be correct.

1011. Except, as you say, when both parties are acting in one direction? Exactly; what are we paid for but to do the best we can for our clients? If I were to take up the other side and

accept half the commission, I think I should be a scoundrel.

With a great deal of respect, that is not so. I gave the firm to which you refer a cheque for £62 10s. on account of one transaction, and at that rate there must be a great deal of scoundrel work about that. I repeat that it is quite an ordinary thing, and I defy anyone in an office in which our kind of business is carried on to prove the contrary.

1753. It is done as a rule? Excepting in cases of auction sales.

1754. Mr. Abigail.] The cheque of £62 10s. was given to the firm represented by the gentlemen who gave the evidence which was quoted by Mr. Brunker? Yes; not only that, but they have given me cheques. If there is any scoundrel work about it it is fair on both sides. They are scoundrels to give, and I am a scoundrel to receive.

1755. Chairman.] Can you tell the Committee whether the particular transaction to which you refer was carried out with the knowledge of Mr. Wrench? It was Mr. Wrench himself who conducted

the business with me.

1756. Mr. Brunker.] In that case you were acting in opposite directions. You were the selling agent, and Mr. Wrench was the buying agent? Yes. wear that that was not the case. There is no doubt that I found the buyer, and conducted the

I swear that that was not the case.

negotiations.

2086. The plan [Appendix C] was prepared under your instruction? Yes; by Aitchison and Schleisher. 2087. What does the dotted red line signify? It shows the land as described in the original deeds. The space between that line and the dotted black line shows the land relaimed and the present water frontage. 2088. Mr. Gould.] I believe this property was in your hands for sale for some considerable time prior to its sale to Mr. Cliff? For years.

2089. Was it well known in the city to be in your hands for sale? I think it must have been, because it

was advertised for auction sale some few months previously.

2090. For how long was it advertised for auction sale? Two or three weeks.
2091. In every issue of the papers? Two or three days of the week, in the same way as other properties are advertised.

2092. Did you ever see Mr. Gorman in reference to the property at any time? I do not think so. I do

not remember to have spoken to Mr. Gorman about it.

2093. You are not aware of any inquiries being made by him at your office with regard to the property? I think not. People generally come to see me about the large estates in our hands. The first application about this property was made to me by Mr. Ewan—that was in April.

2094. In what month was the sale of the property advertised? I could not say from memory, but I

could let you know.

2095. When the property was placed in your hands for sale, what was the reserve placed upon it? It was placed in our hands by Mr. George Graham (since deceased), one of the trustees of the Hanson Estate. They always asked a very high figure, but we took no notice of it, because we knew that we could do nothing with it. The land never went to auction, because there was a dispute about the road on it which was shown on the plan. They wanted me to sell it without showing the road, but I declined on it, which was shown on the plan. They wanted me to sell it without showing the road, but I declined to do so. I said that it would only lead to a lawsuit afterwards. Mr. Graham was taken ill, and when the time for the auction sale came round the land was not offered

2096. No reserve was placed upon it? No, because it was not offered.
2097. Mr. Brunker.] But there was a standing limit for private sale? Well, £20,000 was asked, but it was looked upon at time as a joke rather than anything else.
2098. Mr. B. Burdett Smith.] I think you said that the approximate value put upon the land by Mr. Graham was £20,000? That was the amount he used to talk about.

2099. You never thought it worth that money? At that time, no. Campbell's wharf sold afterwards at £100,000, and that is ten times as big.

2100. What is your idea of the value of the property? I have already said that I was acting for the seller. I named my price, and I got it. He was satisfied, and I was satisfied; everyone was satisfied.
2101. What value do you attach to the property? I cannot value on both sides.
2102. What is your value? I decline to say.
2103. Do you think that £20,000 was a very high price at the time you sold the property? I cannot value for two sides. I was asked to get £20,000, and I got it.

2104. Then you decline to say what value you attach to the property? I decline to value on both sides. 2105. Mr. Brunker. When you recommended Mr. Josephson to accept £20,000, you thought it a fair price? I recommended him to accept it.

APPENDIX.

#### PURCHASE BY THE GOVERNMENT OF LAND ADJOINING THE A.S.N. CO.'S WHARF.

#### APPENDIX.

[To evidence of Sir Henry Parkes.]

[See Sketch.]

В.

[To evidence of J. W. Cliff, Esq.]

J. W. Cliff, Esq.,-

Dear Sir,

98, Pitt-street, Sydney, 6 June, 1887.

We are authorised by the trustees of the late Mr. Hanson's estate to place under offer to you the right to purchase the block of land lying between the premises of the Australasian Steam Navigation Company and Dawes Point (and of which a rough sketch accompanies this letter), for the lump sum of £20,000, on the following terms, viz., £3,000 in cash on signing contract, a further payment of £3,000 in cash on completion of the conveyance, and the balance may remain secured upon the property by mortgage for a term of three years, bearing interest at the rate of 6 per cent. per annum, payable half-yearly, with power to pay off such mortgage at any time during its currency, with interest only to such date of payment.

such date of payment.

This offer to remain in force until 12 o'clock noon, on Thursday, the 16th June instant.

Yours, &c., RICHARDSON & WRENCH.

C. [To evidence of E. Wrench, Esq.] [See Sketch.]

D.

[To evidence of E. Wrench, Esq.]

98, Pitt-street, Sydney, 29 March, 1887.

James Ewan, Esq.,--

James Ewan, Esq.,—
Dear Sir,

We are authorised by the Trustees of the late Mr. Hanson's estate to place under offer to you the right to purchase the block of land lying between the premises of the Australasian Steam Navigation Company and Dawes Point, (and of which a rough sketch accompanies this letter), for the price of £200 per foot on the water frontage, or a total of £22,600. Terms cash, or half cash, and balance to remain for three years at 6 per cent. per annum, interest secured in the usual way by mortgage.

This offer is to remain in force until 12 o'clock noon, on Saturday the 30th of April next.

Yours, &c.,

RICHARDSON & WRENCH.

Ε.

[To evidence of E. Wrench, Esq.]

333, 341, George-street, Sydney, 15 June, 1887.

Messrs. Richardson & Wrench, Pitt-street,-

Dear Sirs.

Referring to your letter of the 6th instant, in which you place under offer to me a block of land fronting Georgestreet North and the waters of Sydney Cove, lying between the premises of the A.S.N. Co. and Dawes Point, for the sum
of £20,000, I now beg to inform you that I accept the offer, and herewith hand you my cheque for £3,000 sterling as a

deposit.

Messrs. Way & Way, solicitors, will act for me in the matter, and I shall be glad if you will furnish them with an abstract of title as soon as possible.

J. W. CLIFF.

F. [To evidence of E. Wrench, Esq.]

Private Contract.

Conditions and terms of sale for the undermentioned property sold by private contract this 15th day of June, 1887, by Richardson & Wrench, on account of and as agents for the vendor the trustees of the estate of the late W. Hanson, two parcels of freehold land, one having a frontage of 75 feet to George-street North, being the land lying between the premises known as "The Harbour View Hotel," and the property of the Australasian Steam Navigation Company, and having a right-of-way on the north of said first named premises, and the other having a frontage of about 113 feet to the waters of Sydney Cove, extending back to a lane separating the said purcels of land one from the other, being the parcels of land offered for sale in Messrs. Richardson & Wrench's letter to Mr. J. W. Chiff, dated the 6th June, instant instant :-

1. Upon signing this contract the purchaser shall pay down to the agents a cash deposit of £3,000 of the whole amount of the purchase money, and the residue of the purchase money as in the terms hereinafter mentioned. 2.

78 APPENDIX.

2. The vendor will within a reasonable time after the day of sale prepare and deliver to the purchaser, or his solicitor, or the agents, an abstract of his title, and shall not be called upon to abstract, produce, or procure a covenant to produce, or to covenant to produce any deeds, copies of deeds, or evidences of title whatsoever, in support of his title, or in verification of the abstract, other than what are now in his possession, and no objections shall be made to any deed or deeds (if any) which shall appear to have been executed under a power of attorney, and the properties are sold subject to the existing tenancies or occupancies.

3. That all attested or other copies and evidences of title which the purchaser shall require, and which the vendor shall be able and willing to obtain, shall be procured at the purchaser's expense.

4. That all objections which under these conditions the purchaser can take to the title shall be made and delivered to the vendor's solicitor within seven days from the delivery of the abstract, and all objections not so taken shall be deemed to be waived, and within fourteen days from the delivery of the abstract the purchaser shall at his own expense tender to the vendor or his solicitor a conveyance for execution.

to be waived, and within fourteen days from the delivery of the abstract the purchaser shall at his own expense tender to the vendor or his solicitor a conveyance for execution.

5. That no error or misdescription of the property shall annul the sale, but a compensation shall be made or given as the case may require, by the usual mode of arbitration.

6. That upon the completion of the purchase, the vendor will deliver to the purchaser all deeds relating solely to the lot sold, but will retain such as relate to other lands sold by or belonging to the vendor, and from such completion the purchaser shall be entitled to the rents and profits of the lot or lots purchased by him.

7. If the purchaser shall fail to comply with these conditions or any of them, all moneys, bills, and promissory notes which he shall have paid to the agents or vendor on account of his purchase, shall be absolutely forfeited to the vendor, and the vendor or agents shall be at liberty to sue such purchaser for breach of contract, or at his option to resell the property in any manner and upon such terms and conditions as be may think proper, and all loss and expenses consequent upon such resale, and all damages which the vendor may sustain thereby, shall be recoverable by him from the purchaser as and for liquidated damages, and it shall not be necessary to give any notice of such resale.

8. That if the vendor shall be unable or unwilling to remove any objection which the purchaser shall be entitled to make under these conditions, the vendor shall he at liberty to rescind the contract, and upon returning to the purchaser all monoys, bills, and promissory notes given by him as aforesaid, shall not be liable to any sum for damages, costs, charges, or expenses whatsoever incurred by the purchaser in and about the contract.

Terms of sale:—That upon signing the contract the purchaser shall pay into the hands of the agents a cash deposit of £3,000, a further payment in cash of £3,000 on completion of the conveyance, and the balance, viz., £14,000 may remain secured upon the property by mortgage for a term of three years from date hereof, bearing interest at the rate of 6 per cent. per annum payable half-yearly, with power to pay off such mortgage at any time during its currency, with interest only to such date of payment.

Subject to the preceding conditions and terms of sale, I hereby agree to and do purchase the two parcels of freehold land described on front page hereof for the sum of £20,000 (twenty thousand pounds sterling).

J. W. CLIFF.

For vendors.-RICHARDSON & WRENCH.

[To evidence of Charles Parkinson, Esq.]

TOWN GRANT A.

Town Grant A.

Victoria by the grace of God of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith, and so forth. #### [Endorsement.]

Dated 9th January, 1838—Town of Sydney, 1 rood and 37 perches—Copy of grant to Robert Drybrough Cunynghame.—J. Williams, Crown Solicitor.

Copy Descriptions from indenture of conveyance, dated 8th October, 1887, from John William Cliff to Her Majesty Queen Victoria. Registered No. 483, Book 372.

Victoria. Registered No. 483, Book 372.

All that parcel of land situate in the parish of Saint Phillip, in the City of Sydney, in the Colony of New South Wales, comprising lot 1 of the subdivision of R. D. Cunynghame's grant, bounded on the south by the north side of a garden wall formerly the property of Mr. Robert Campbell, commencing at the south-west corner thereof, in George-street, bearing east 33 degrees north, 87 feet to a reserved road 20 feet wide; on the east by the west side of the said reserved road, bearing north 7 degrees 30 minutes west, 25 feet to the south-east corner of land belonging to J. S. Hanson; on the north by the south boundary of the same land, bearing west 33 degrees south, 86 feet 6 inches to George-street; and on the west by George-street 25 feet to the commencing corner. Also, all that piece or parcel of land situated as aforesaid, comprising tots 2 and 3 of the said subdivision bounded on the south by the north boundary line of lot 1, aforesaid; commencing at the north-west corner thereof, in George-street, bearing east 33 degrees north, 86 feet 6 inches to a reserved road 20 feet wide; on the east by the west side of the said reserved road, bearing north 7 degrees 30 minutes west, 50 feet to the south-east corner of lot 4 (formerly sold to one Michael Gannon); on the north by the south boundary of the said lot 4, bearing west 38 degrees south, 88 feet 6 inches to George-street; and on the west by George-street 50 feet to the commencing corner. And also, all that piece or parcel of land situated as aforesaid, comprising lot 5 of the said subdivision, bounded on the south by the north boundary of property formerly belonging to Mr. Robert Campbell; commencing at the south-east corner of a reserved road 20 feet wide, and extending along the said boundary to deep water in Sydney Cove; on the west by the east side of said 20 feet reserved road, bearing north 7 degrees 30 minutes west, 118 feet from the first commencing point to the line of the Government Reserve for Dawes' Fort; on thousand eight hundred and thirty-eight.

REQUISITIONS upon, and objections to the title of Mr. J. W. Cliff to land in George-street, Sydney, adjoining the Australasian Steam Navigation Company's premises and Dawes Point, and lying between George-street and the Circular Quay, contracted to be sold to the Government of New South Wales.

1. The quit rent reserved in the Crown Grant should be

redeemet?

2. Dower in the wife or widow of any former owner of the land should be negatived or released?

3. The abstracted indentures of the 25th and 27th June, 1839, recites a mortgage in fee from R. D. Cunynghame to John Lamb, dated 4th August, 1835. The latter deed is not abstracted nor has it been produced to me. This cheef by Jane. should be done

should be done.

4. The release of the mortgage of 28th March, 1840, D. Scott to J. F. Beattie and John Rac, has not been abstracted or produced. I require that a proper release thereof be obtained and registered at vendor's expense.

What were the indentures of 25th and 26th July, 1839, recited in this deed? They have not been produced or abstracted, nor has the lease from D. Scott to D. Cunninghame. This should be done.

 Production is required of the original power of attorney from D. Scott to Robert Anderson, a copy only of which has been produced. Evidence should be given that the power was not revoked at the date of the execution of the deeds of 31st December, 1841, 4th March, 1842, and 18th lime 1842. June, 1842.

June, 1842.

The vendor should obtain and hand over a covenant to produce the original power of attorney, or the latter should be handed over.

6. Evidence should be given of the payment to R. D. Canynghame by D. Scott of the £285 11s., balance secured by the mortgage of 26th July, 1839.

If not paid it will be done.

If shown to exist this will be done.

This deed is not in vendor's possession.

The vendor has no release in his possession. The mortgage was most probably discharged before 1841, because in the conveyance by Scott and Rutledge to Hanson, Scott covenants for title free from encumbrances. Scott covenants for title free from encumbrances. We have no evidence in our possession to show that the mortgage was discharged beyond the fact that no claim has been made under it for at least forty-five years, and this we think should be sufficient evidence of payment. We do not find these deeds recited in the last one. We presume they are the lease and release or mortgage, Scott to Cunynghame, which has been abstracted.

This power of attorney is not in vendor's possession, nor is there any evidence of its non-revocation.

If required we will endeavour to obtain same, and, if possible, a covenant to produce at the purchaser's expense.

This is not in the vendor's possession further than disclosed by the abstract.

80

The description of the land conveyed by deeds of 18th June, 1842, and 23rd August, 1847, is incorrect, the western boundary line thereof being described as running north 30 minutes east instead of west, thereby leaving a wedge-shaped strip of land to which no title is shown. A satisfactory title to this strip must be shown in the vendor. vendor.

For some reason the usual receipts for purchase moneys, said to have been paid under the deed of 18th June, 1842, are not endorsed thereon, evidence of the payment of the purchase moneys should therefore be given.

Proof that default was made in payment of the moneys secured by indenture of mortgage of 21st June, 1842, should be given.
 The indenture of 9th August, 1851, has not been registered. This should be done.

10. Proof of the payment of the debts, &c., and legacies with which J. S. Hanson, deceased, charged his real and personal estate should be furnished.
11. By the will of J. S. Hanson the real and personal estate was devised to trustees upon trust to pay, convey, and assure same unto and amongst his children in equal shares and proportions. and proportions.

and proportions.

No conveyance from the trustees of the will to the beneficiaries thereunder appears to have been executed. I require that the Trust should be carried out.

12. Evidence is required that J. S. Hanson left only the seven children, named in the abstract of title, namely, Juliet Mary, Lavinia Alice, Clara Emma, Romeo Joseph, Alexander Charles, Eliza, and Albert George.

13. Has any statement been made of Mrs. Josephson's and Mrs. Bowlin's shares under J. S. Hanson's will?

14. Evidence of the death under 21, unmarried, and without issue of Romeo Joseph Hanson must be furnished; also of the death of Mary Hanson and George William Graham.

15. The indenture of 30th April, 1855, from A. W. Young to Mary Hanson, is executed by the former, by his attorney,

Mary Hanson, is executed by the former, by his attorney, W. W. Billyard.

W. W. Billyard.

The power of attorney has not been abstracted or produced for my inspection. I require that this should be done, and the power should prove sufficient for the purpose for which it was exercised; and the vendor should hand over same, or obtain and hand over a covenant for the production thereof, and the usual evidence of non-revocation should be furnished. should be furnished.

should be furnished.

16. Was there any conveyance or vesting order vesting the trust property in G. W. Graham jointly with Mary Hanson, under the decree of 21st July, 1885; and was the Report of the Master in Equity confirmed by the Court? It does not appear so by the Abstract of title furnished. The appointment of G. W. Graham as such trustee, and the subsequent appointments by him, would, if such is the case, be incomplete, and the legal estate would be still outstanding, and must be got in.

17. Proof should be given that Clara Emma Graham was of age at the date of the execution by her of the settlement of 1st March, 1867; also of the marriages of Elizabeth Esther Hanson with J. C. Read, junn, and Mr. and Mrs. Bowlin.

Bowlin.

18. The date of the power of attorney from L. A. Hanson to A. G. Hanson appears to have been altered, but not initialled, nor any reference made thereto in the attestation, nor has the usual notarial certificate as to the execution of the power (which appears to have been executed out of the Colony), by Miss Hanson, been obtained. The power is therefore defective, and cannot be acted upon.

19. The Abstract of Title furnished does not show that the legal estate in the property contracted to be sold is vested in the vendor. I require that this should be done by deed to be duly registered.

20. Who are in occupation of the premises, and what is the

20. Who are in occupation of the premises, and what is the nature of the tenancies? Particulars of same should be furnished, and all leases and agreements handed over, and the present occupants will be required to attorn to Her

Majesty.

21. Has any right of reclamation been applied for in connection with the property sold; if so, with what result?

Any such rights should be surrendered to the Crown, together with any land granted in virtue of such application.

cation.

22. Rates, taxes, and assessments, whether Parliamentary, municipal, or otherwise, must be paid, and receipts pro-

23. Are there any matters affecting the title known to the

vendor, and not disclosed?

I reserve the right to make such other requisitions or objections as may be necessary upon receiving replies hereto, or upon the usual searches, or upon a survey of the land being made.

Crown Solicitor's Office, Sydney, 14th July, 1887.

JOHN WILLIAMS, Crown Solicitor. This is apparently a clerical error, but as it states that the land is bounded by the 20-feet reserved road we do not see how there can be any wedge-shaped strip.

This evidence is not in vendor's possession.

We contend that this is not necessary.

We do not think that this is necessary, as there is a later deed (30th April, 1855) to the same effect which is registered.
If the purchaser requires the registration it will be done at purchaser's expense.
A declaration to this effect will be given.

The trustees and beneficiaries will join in the conveyance.

A declaration to this effect will be obtained.

See No. 12.

This is not in vendor's possession.

If required, we will endeavour to obtain a covenant for its production, an attested copy, and a declaration of non-revocation, but it must be at purchaser's expense.

We believe that no order was made confirming the Report.

We will endeavour to obtain a declaration to this effect.

If this is considered of sufficient importance, Miss Hanson's signature to the deed might be obtained. We understand that she is coming from England in a couple of months.

In the meantime the attorney could sign.

If insisted on, this will be done, but we would point out It insisted on, this will be done, but we would point out
that a conveyance deed from the Trustees to the purchaser, by Mr. Cliff's direction, will make the title
perfect, and save expense.

There are two tenants—one monthly and one weekly.
There are no leases. An order on the tenants to pay
rent to the purchaser will be given on completion.
We will ascertain the tenants' names.

None that we are aware of.

Rates and taxes will be paid to completion.

We decline to answer this on principle.

We cannot admit this right.

WAY & WAY, Solicitors for Vendor.

27th July, 1887.

Bell's

[To evidence of E. Twynan, Esq.]

H.

Grantee—Robert Dryborough Cunninghame. Date—9th January, 1838. Area—1 rood 37 perches; allotment No. 3. County Cumberland, parish St. Philip, town of Sydney: Bounded on the west side by 164 links of the road leading to Dawes' Battery: Commencing at Campbell's north-west corner on the north corner by a line of 323 links to the waters of Sydney Cove, on the east by 200 links of the Cove to Campbell's north-east corner, and on the south by Campbell's northern boundary, 300 links to the first corner.

Reserving (inter alia) full power to make and conduct through the said land all common or public drains and sewers.

And also full power to resume and take possession of all or any part.

142---T

[To evidence of Henry Gorman, Esq.] Dear Sir,

Mr. Jamieson's Ashfield property.—Mr. Russell's, Balmain property

We have inspected both, and are endeavouring to dispose of them with your firm.

We understand that we each agree to divide commission, no matter which firm may sell.

Are we correct? If so, kindly advise us.

Did you name the rate of commission to each vendor, and is it 2½ per cent. to divide?

Yours, &c.,

HARDIE & GORMAN. Messrs. Richardson & Wrench, Sydney. Dear Sirs,

Re Mr. Jamieson's Ashfield house and grounds.—Mr. Russell's, Balmain, house and grounds.

We are in receipt of yours of even date, notifying having made inspection of these properties; and it was agreed with your Mr. Gorman that the commissions payable should be equally divided between our firms.

We made no special arrangement with Mr. Jamieson as to rate, and Mr. Russell advised us that he had agreed with you to pay only 1½ per cent. commission, whether sold in your hands alone, or in conjunction with our firm.

Yours. &c.,

### LEGISLATIVE ASSEMBLY.

#### NEW SOUTH WALES.

# LAND BETWEEN A.S.N. CO.'S WHARF AND DAWES POINT.

(CORRESPONDENCE RESPECTING THE PURCHASE OF.)

Ordered by the Legislative Assembly to be printed, 6 October, 1887.

Messrs. Hardie and Gorman to The Colonial Secretary.

Sale Rooms, 133, Pitt-street, Sydney, 8 June, 1887. In accordance with your instructions we made inquiries respecting the property situate between the A.S.N. Co.'s wharf and Dawes Point.

We find the property in the hands of Messrs. Mills and Pile, and we enclose you their letter and a sketch plan, in which they offer it for Government purposes only at £31,000 (thirty-one thousand pounds), giving to the 13th inst. for the Government to decide.

We await your instructions to form a contract for the purchase or otherwise.

We are, &c.

HARDIE & GORMAN.

Gentlemen,

Referring to your inquiry to-day as to a block of land in George-street North, adjoining the A.S.N. Co.'s property on the south, and Dawes' Battery on the north, we beg herewith to hand you a plan of the same. You will observe that the land las 75 feet frontage to George-street, to a lane at the rear, also showing the other portion adjoining Dawes Battery, extending to the waters of Port Jackson, to which it has a frontage of about 113 feet.

We beg to place the same under offer to you until noon on the 13th instant, as we understand, and solely under condition that it is for the Government, for the sum of thirty-one thousand (£31,000) pounds.

Messrs. Hardie & Gorman, Auctioneers.

MILLS & PILE.

# Messrs. Hardie and Gorman to The Colonial Secretary.

Sir. Sale Rooms, Sydney 10 June, 1887. Messrs. Mills and Pile have written us extending the time from 13th inst. to noon on 14th inst. for your decision in the matter of the Circular Quay property. We have, &c. HARDIÉ & GORMAN.

Messrs. Hardie & Gorman to The Colonial Secretary.

Sir. 133, Pitt-street, Sydney, 15 June, 1887. Complying with your instructions, we submitted the offer of £29,000 for the property situate between the A.S.N. Company's, Dawes Point, and George-street, and the waters of Sydney Cove, to Messrs. Mills & Pile, and we have now the pleasure to hand you herewith their acceptance of same.

Will you kindly instruct the Crown Solicitor to apply to Messrs. Way and Way for particulars of We are, &c. HAŔDIE & GORMAN.

Gentlemen,

We are in receipt of your written offer made on behalf of the Government of New South Wales, of £29,000, for the property submitted to you in our letter of June 7th instant, for £31,000.

We have seen the proprietor, and he has agreed to accept the sum now offered.

The purchase to be for cash, and subject to the general printed conditions of sale used by us.

We are, &c.,

MILLS & PILE. [Enclosure.]

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

# THE AUSTRALASIAN STEAM NAVIGATION COMPANY'S WHARF, CIRCULAR QUAY.

(CORRESPONDENCE RELATING TO THE PURCHASE OF.)

Ordered by the Legislative Assembly to be printed, 29 November, 1887.

RETURN to an Order made by the Honorable the Legislative Assembly of New South Wales, dated 10th November, 1887, That there be laid upon the Table of this House,--

"Copies of all claims, correspondence, deeds, transfers, valuations, and documents connected with the purchase by the Government from the "Australasian Steam Navigation Company of property on the western

" side of Circular Quay."

(Mr. Trickett.)

The Acting Manager A.S.N. Co. to The Colonial Secretary.

Sir,

Australasian Steam Navigation Company, Sydney, 21 May, 1887.

Having observed that the Government have had under consideration the advisability of acquiring this Company's wharf property, including buildings, situated at the Circular Quay, I do myself the honor, under instructions from the Chairman of the Board of Directors, to intimate that the Company having disposed of its steam float and being in liquidation, the property is for sale, and I am directed to having disposed of its steam fleet, and being in liquidation, the property is for sale, and I am directed to place it under offer to the Government for the sum of £300,000, subject to the approval of the share-

place it under offer to the Government for the sum of £300,000, subject to the approval of the share-holders, and other ordinary conditions to be mutually agreed upon.

The property is at the present time yielding a rental of nearly sixteen thousand pounds (£16,000) annually, the water-frontage being occupied by the steamers of the A.U.S.N. Co., North German Line, and the P. & O. Company, the warehouses being leased to Messrs. Hoffmung, Upward, and Powell. The lease to the P. & O. Company expires February, 1888, and should that Company require a renewal they will be required to pay a much larger rental than they at present do, which will bring the annual rentals to an aggregate sum of £18,000, equalling a return of 6 per cent. per annum upon £300,000, without taking into consideration any prospective improvement in the value of the property.

While the property is so generally well known as not to require description, yet, for your information, I deem it well to hand you the enclosed, giving details of the property, with the rentals at present obtained.

I deem it well to hand you the enclosed, giving details of the property, with the rentals at present obtained. I have, &c.,

FRED. PHILLIPS. Acting Manager.

### [Enclosure.]

The A.S.N. Co.'s property, formerly known as Campbell's Wharf, consists of a large area of land with water-frontage, the title being partly under the old Act and partly under Real Property Act. There is—

1st. The southern jetty, of 327 ft. 9 in., leased to P. & O. Co.
2nd. A jetty adjoining, of 211 ft. 6 in., at which we used to berth our Melbourne steamers.

3rd. The middle jetty, with a berth on either side, of 221 ft. on the south and 255 ft. on the north.

4th. The northern jetty, which has three berths: that on the southern side, with 345 ft. length, at which the large, German line steamers berth; another on the northern side, having 202 ft. length—here the "Lubeck" German line steamer berths; and alongside this is another jetty berth of 187 ft. in length, at which our Rockhampton steamers usually laid.

5th. Also a boat jetty.

5th. Also a boat jetty.

There are sheds built of hardwood and galvanized iron, all securely closed in round the shore portion of all these jetties, as well as partly running down them, and upon the jetties are two large granes capable of lifting very heavy

Immediately alongside the northern sheds is a large galvanized-iron and hardwood sestory building.

The

[830 copies—Approximate Cost of Printing (labour and material), £8 15s. 7d.]

The improvements beyond are—
1st. Four 3-story stores built of stone.
2nd. One 2-story store (with large space under) built of brick on stone foundations.
3rd. Eleven 3-story stores built of brick and stone.
4th. Four stores, each five stories, built of brick on stone, attached to which is,—
5th. The large offices, with wharfinger's quarters over, having three flats.
There is also a fine weigh-bridge upon the wharf.
At the rear of the four stores and the eleven stores known as the Metcalfe Bond is a reserved road of 30 feet in width. There are two outlets, one from George-street and the other from the Circular Quay, so that there is abundant means of ingress and egress without the slightest block.
All the buildings are most substantially built, several being only recently put up.

The rental presently derived from the premises is :-£650 1.8001,650 7009.200

£15,350 In addition to this there is the providing store used by A.S.N. Co., which will shortly be vacated, and would let for £150 These offices, three floors, with quarters above for wharfinger, would let for .....

Rental derivable annually . ...... £16,000

The tenants all pay the taxes and rates in addition to above rentals.

### The Colonial Secretary to The Acting Manager A.S.N. Co.

Sir,

Referring to your letter of May 21st, offering the property known as the A.S.N. Co.'s Wharf to the Government for the sum of £300,000 (three hundred thousand pounds), I have the honor to inform you that I have submitted the major for the property submitted the major for the sum of £300,000 (three hundred thousand pounds), I have the none occasion.

 $\hat{\mathbf{J}}$  now am empowered to say that for the property as it stands, and as described in your letter under I now am empowered to say that for the property as it stands, and as described in jour losts under notice, the Government is prepared to pay the sum of £275,000 in cash, subject to the approval of the Legislative Assembly, which it is not supposed will cause any delay in completing the purchase.

I have, &c.,

HENRY PARKES.

# The Principal Under Secretary to James Ewan, Esq., J.P.

Colonial Secretary's Office, Sydney, 6 August, 1887. Sir. I am desired by the Colonial Secretary to inform you that, in accordance with your request, he has resubmitted the matter of the purchase of the A.S.N. Company's wharf to the Cabinet, explaining that the sum for which you were authorized by the shareholders to sell was £300,000, and that the Cabinet, after some consideration, adhere to the offer which has been made by the Government, namely, £275,000. I have, &c.

CRITCHETT WALKER, Principal Under Secretary.

### James Ewan, Esq., J.P., to The Principal Under Secretary.

Sir, Australasian Steam Navigation Company, Sydney, 8 August, 1887. I have the honor to acknowledge receipt of your letter of the 6th instant, informing me that the Cabinet, after some consideration, adhere to the offer which had been made to the Company by letter from the Colonial Secretary, of 26th July, of £275,000 for the property known as the A S.N. Company's Wharf, as described in that Company's letter of 21st May, and for your information have to state that steps are being taken for calling the shareholders of the Company together, when the offer made will be submitted to them.

With reference to the condition that the offer was subject to the approval of the Legislative Assembly, I understood from the Colonial Secretary that this condition would be waived, and that the offer to purchase would be absolute should the consent of the shareholders be obtained.

Would you kindly assent to this in writing that it may be laid before the shareholders at the

I have, &c.,

JAMES EWAN.

Acknowledge and inform that if the condition of submitting the proposal to the Legislative Assembly for approval is held to be any bar to the completion of the transaction the Government does not insist upon it.—H.P., 13/8/87.

### The Principal Under Secretary to James Ewan, Esq., J.P.

Colonial Secretary's Office, Sydney, 13 August 1887. In acknowledging the receipt of your letter of the Sthinstant, regarding the offer of Government to purchase the property known as the "Australasian Steam Navigation Company's Wharf" for the sum of £275,000, I am directed by the Colonial Secretary to inform you that if the condition of submitting the proposal to the Legislative Assembly for approval is held to be any bar to the completion of the transaction the Government does not invite upon it. I have, &c., CRITCHETT WALKER, transaction the Government does not insist upon it.

Principal Under Secretary.

### James Ewan, Esq., J.P., to The Principal Under Secretary.

Australasian Steam Navigation Company, Sydney, 17 August, 1887. Sir. Referring to the correspondence which has passed between the Government and this Company respecting the purchase of our Circular Quay property, I have to inform you that at the meeting of shareholders referred to in my letter of the 8th instant the directors were empowered to close, and I have therefore, on behalf of the A.S.N. Company, to accept the unconditional offer of the Government of £275,000 cash for the property known as that Company's Circular Quay wharf and stores, as described in the correspondence, the date of transfer to be mutually arranged.

The property is at present under mortgage to the Australian Mutual Provident Society, which

mortgage we are now arranging to pay off.

The lease to the B.I.&.Q.A. Co. of a portion of the wharf having expired 21 July last, I have to inform you that it has been renewed with the Australian United Steam Navigation Company to the 30th June, 1888. I have, &c. JAMES EWAN.

The necessary steps to be taken for completion of purchase. Their letter to be acknowledged, with request that the matter may be arranged without delay.—H.P., 18/8/87.

The Crown Solicitor, who will take the necessary steps regarding the title of the land.—B.C., 19 August, 1887.—C.W., P.U.S.

The Principal Under Secretary to James Ewan, Esq., J.P.

Sir,

Colonial Secretary's Office, Sydney, 19 August, 1887.

In acknowledging the receipt of your letter of the 17th instant, intimating that the Australasian Steam Navigation Company accept the offer of the Government to purchase their wharf, situated at the Circular Quay, for the sum of £275,000, I am directed by the Colonial Secretary to request that the matter may be arranged without delay.

2. I am to ask that you will communicate with the Crown Solicitor regarding the title of the

property in question.

I have, &c., CRITCHETT WALKER, Principal Under Secretary.

# The Acting Manager, A.S.N. Co., to The Principal Under Secretary.

Australasian Steam Navigation Company, Sydney, 24 August, 1887.

I have the honor to acknowledge receipt of your letter of the 19th instant, addressed to our Chairman, Mr. James Ewan, respecting the purchase by the Government of our Circular Wharf property, and with regard to your request that the matter may be arranged without delay, I have to inform you that I am making arrangements to complete the transfer on the 1st October next.

I am, as requested, in communication with the Crown Solicitor in regard to the title and convey-

ance of the property.

1 have, &c., FRED. PHILLIPS, Acting Manager.

# The Crown Solicitor to The Principal Under Secretary.

Sir, Crown Solicitor's Office, Sydney, 13 September, 1887. With reference to the purchase of the Australasian Steam Navigation Company's property at Circular Quay, I have the honor to state that it is most desirable that a surveyor's description of the whole of the land intended to be purchased should be furnished to me, more especially as a portion only of the land originally conveyed to the Company appears to be under mortgage to the Australian Mutual Provident Society.

Will you therefore please cause the necessary description to be forwarded to me with as little delay as possible, as I understand the purchase is to be completed on the 1st proximo.

I have, &c.,
JOHN WILLIAMS,

Crown Solicitor.

The Under Secretary for Lands, B.C., 15 Sept., 1887.—C.W., P.U.S. Will Mr. District Surveyor Deering please see and arrange with the Crown Solicitor as to this matter.—S.F., 19/9/87.

### Mr. Metropolitan District Surveyor Deering to Mr. Government Surveyor Perdriau.

Australasian Steam Navigation Company's property, Circular Quay, purchased by Government. 21 September, 1887.

Reference to previous verbal instructions in connection with the enclosed letter from the Crown Solicitor of 13th instant, Mr. Surveyor Perdriau is requested to be good enough to survey the boundaries of the above property in such manner as will enable him to furnish sufficient data from which a description of the survey o tion may be prepared in this office for the conveyance to the Crown. The frontage in the previous conveyance to George-street appears to be less than exists upon the ground; and it is desirable that the correct dimensions should be given in the conveyance about to be prepared. A copy of the former Mr. Perdriau has already been supplied with from this office.

It is very desirable to have the description transmitted to the Crown Solicitor as soon as possible.

in view of the completion of sale and transfer of the property on 1st proximo.

JOHN W. DEERING,

Metrop. Dist. Surveyor.

### The Crown Solicitor to The Principal Under Secretary.

Crown Solicitor's Office, Sydney, 24 September, 1887. Sir, I have the honor to forward herewith a copy of a letter received by me to-day from Messrs, Stephen, Laurence, & Jaques, with respect to the purchase of the Australasian Steam Navigation Company's property at Circular Quay.

I have informed the writers that I am unable to let them have draft conveyance for approval until

I receive the surveyor's description, asked for in my letter to you of the 13th instant.

JOHN WILLIAMS, Crown Solicitor.

[Enclosure.]

A.S.N. Co. to the Crown.

Dear Sir,

81, New Pitt-street, Sydney, 23 September, 1887.

As this purchase must be completed on the 1st prox., and all arrangements are made for a settlement on that date, we shall be obliged if you will send us the draft conveyance for approval at your earliest possible convenience.

Yours, &c., STEPHEN, LAURENCE, & JAQUES, Per A. C. EI

The Crown Solicitor.

Per A. C. EBSWORTH,

# Mr. Government Surveyor Perdriau to Mr. Metropolitan District Surveyor Deering.

Sydney, 27 September, 1887. In compliance with your instructions, No. 87/2396, of 21st instant, I have the honor to report that I have surveyed those boundaries of the Australasian Steam Navigation Company's property which were not shown on any plan in the possession of the Government, and, with the aid of plans s. 46-1,544, sh. 4, and s. 394,858, I have prepared a description of the property, and now forward it herewith, also a tracing showing the two portions of which the 3a. 0r. 10p. is composed, viz.: 1a. 2r. 28p., being part of allotment 1, section 86, city of Sydney, and 1a. 1r. 22p. reclaimed land fronting the above, purchased under the 9th clause of the Crown Lands Act of 1861, by John Campbell, 29th October, 1878.

I have, &c.,

I have, &c., STEPHEN E. PERDRIAU,

Government Surveyor.

Papers Misc., 87-12146. Description and tracing herewith.—S.E.P., 27/9/87.

### [Enclosures.]

DESCRIPTION of land in convoyance. The Honorable J. Campbell to the Austrolasian Steam Navigation Company (Campbell's Wharf). 5a. 0r. 20p.

BOUNDED on the south-west by the north-east side of Lower George-street, being the outer side of the present wall bearing north 36° 15′ west 1,004 links to Robert Cunningham's premises; on the north-west by these premises, being a line of wall bearing east 31° 45′ north 420 links, more or less, to the waters of Sydney Cove; on the east by the said waters of Sydney Cove; and on the south by land on which the Mariners Church is erected, being a line of wall bearing west 3° 15′ south 300 links.

Description by the Crown to R. Campbell, and therein described as:—Bounded on the south side by premises in the occupation of the Naval Officer; on the south-west side by the road leading to Dawes Point, bearing north 26° 30' west 629 feet; on the north-west side by a line cast 31° 15' north 200 feet; and on the east side by the waters of Sydney Cove.

Description of land in mortgage, the Australasian Steam Navigation Company to the Australian Mutual Provident Society. Commencing at a point on the north-eastern side of Lower George-st, at the north-west corner of the Mariners Church land; and bounded on the north-west by a reserved road bearing north-easterly 186 feet to an angle therein; on the south-west by said road bearing north-westerly, partly along the south-western wall of bonded stores 351 feet to the north-western corner thereof; again on the south-west by said road bearing north-westerly 69 feet 6 inches to the south-western corner of other bonded stores; again on the south-west by said road and land reserved bearing north-westerly along the wall of said stores 131 feet 8 inches to the north-western corner thereof; on the north-west by a line bearing north-easterly along the wall of said stores 99 feet to the Australasian Steam Navigation Company's reclaimed land of 1 acre 1 road 22 perches; on the east and north-east by said reclaimed land, bearing southerly and south-easterly to the land on which the Mariners Church is creeted; and on the south by said land, bearing westerly 176 feet, to the point of commencement.

### GRANT upon purchase of Reclaimed Crown Land.-Reg. Book, vol. 387, folio 131.

Commencing on the limit line for reclamations as laid down by the Engineer-in-Chief for Harbours and Rivers on P. 40,574 in Surveyor-General's Office, at a point bearing north 57° 58′ east, and distant 119½ links from the northern corner of allotment 1 of section 86; and bounded thence on the north-east and east by that limit line bearing south 32° 57′ east 69½ links, north 65° 48′ east 71½ links; and thence south-easterly and southerly to a point where the easterly continuation of the southern boundary of allotment 1 aforesaid meets it; on the south by a line bearing west 42½ links; on the west and south-west by the approximate high-water mark and boundary of grant in 1814 to R. Campbell, northerly and north-westerly, to the northern corner of allotment 1 aforesaid; and on the north-west by a line bearing north 57° 58′ east 119½ links, to the point of commencement.

Transfer, 4 July, 1879, Campbell to A.S.N. Co. Lease, 15 February, 1881, A.S.N. Co. to P. & O. S.N. Co. Mortgage, 31 March, 1885, A.S.N. Co. to A.M.P. Society.

### Certificate of Identity.

13 October, 1887.

I HEREBY certify that the land purchased by the Government is comprised within the land conveyed by John Campbell to the Australasian Steam Navigation Company, by deed of, and the grant to, John Campbell, of the reclaimed land la. Ir. 22p., under the 9th clause of the C.L.A. Act of 1861. Dated 29th October, 1878.

STEPHEN E. PERDRIAU,
Government Surveyor.

Description and tracing are now transmitted for the Crown Solicitor, who desires to complete by 1st October, 1887.—John W. Deering, Metropolitan District Surveyor, 30th September, 1887. The Under Secretary for Lands. The Crown Solicitor.—S.F., B.C., 30/9/87.

# The Crown Solicitor to The Principal Under Secretary.

Sir.

Crown Solicitor's Office, Sydney, 24 October, 1887.

I have the honor to forward herewith vouchers for payment of the sums of £200,000 and £75,000, making together the full amount of purchase money payable in respect of land at Circular Quay purchased from the Australasian Steam Navigation Company, and to request that you will please cause them to be approved of and forwarded to the Treasury for payment.

I propose attending at the Treasury with the vendors' solicitors and completing the matter upon

learning that the money is available for payment.

Will you therefore please cause me to be informed when the matter may be completed, so that

I can arrange for all necessary parties to be present?

I may mention that the vouchers have been prepared for the sums stated, in accordance with the request of the Acting Under Secretary for Finance and Trade.

> I have, &c. JOHN WILLIAMS, Crown Solicitors.

### Description for Gazette.

W. J. Hobbs, special lease, wharf, &c., Drummoyne, Parramatta River, parish of Concord, county of Cumberland, section 89, Crown Lands Act of 1884.

Commencing on the high-water mark of the Parramatta River at a point bearing north-easterly and distant about 20 feet from the north-east corner of W. G. Cameron's property; and bounded thence on the north-west by a line bearing north-easterly 135 feet; thence on the north-east by a line at right-angles bearing south-easterly 21 feet; thence on the south-east by a line parallel to the first-mentioned boundary, bearing south-westerly to the aforesaid high-water mark; and thence on the south-west by that high-water mark north-westerly to the point of commencement.

#### No. 18.

# Application by Mr. W. J. Hobbs.

(Occ. 85-2,572.)

[Crown Lands Act of 1884—Part IV, sections 89, 90, or 92.]

Application for special lease.

I HEREBY apply for a special lease for wharfage and landing purposes of the land hereunder described, and for which I am willing to pay an annual rental of £5. Enclosed is a receipt showing that the sum of £10 has been paid to the Colonial Treasurer as a deposit towards cost of survey and report.

HORRS W. J. HOBBS. Dated at Sydney, this 23rd day of October, 1885.

To the Local Land Board at Sydney.

Description.

County of Cumberland, parish of Concord, 135 ft. x 21 ft. at Drummoyne Point, being the wharf at the present time leased to the said William Joyce Hobbs, together with an addition thereto rendered necessary for boats calling there to land passengers at all tides.

I, on behalf of myself and the Parramatta River Steam Company, agree to this lease being issued to Mr. W. J. Hobbs.—C. E. JEANNERET, 31st December, 1885.

Decided to recommend that a lease of one year, subject to removal, at a yearly rental of £20, under the conditions that the lessee remove any structure at his own cost if required to do so by the Crown at the end of the lease -F. A. FRANKLIN, Acting Chairman; HENRY EAGAR. 23rd February, 1886.

Submitted that the lease be granted annually under the above terms and conditions.—E.L., 2/3/86. Gazetted for objections, 9th March, 1886; W. J. Hobbs informed, 16th March, 1886; None lodged.—G.F.W.W., 8 April, 1886. Rent called for and Treasury advised, 16th April, 1886. Approved.— H.C., 3/3/86.

### No. 19.

### Mr. H. Banks-Smith to The Under Secretary for Lands.

Drummoyne Pier-Application by W. J. Hobbs for special lease.

62, Hunter-street, Sydney, 23 October, 1885.

I have the honor to enclose herewith form of application by my client, William Joyce Hobbs. Sir, He has for some years past held a lease from the Crown of this pier, and has greatly improved at considerable cost the wharf he now makes application to lease.

The last rent paid by him was at the annual rate of £1.

A slight extension of the wharf has been rendered necessary during the term which will shortly expire.

This extension I now beg to be included in the new lease. I have the honor to request that you will grant this application at your earliest convenience.

I have, &c., H. BANKS-SMITH.

Forwarded to the Local Land Board for report.—C.O. The Chairman, Local Land Board, Sydney, B.C., 30 October, 1885. Writer requested to furnish receipt of payment of deposit with Treasury, 31/10/85.

### No. 20.

### Mr. II. Banks-Smith to The Chief Officer, Occupation Branch.

Drummoyne Park Jetty, Parramatta River.

62, Hunter-street, Sydney, 30 October, 1885. I have the honor to state that my client, Mr. W. J. Hobbs, has been the holder of a lease from the Crown of 120 feet by 21 feet water frontage, upon which is crected a jetty and waiting-shed. The lease expires on 31st December next. Mr.

Mr. Hobbs has arranged in the past for the running of steamers to and from the wharf at regular hours, and in order to continue this arrangement has instructed me to apply for a renewal of the lease held by him:

As he has gone to considerable expense and has made arrangements for the continued running of

steamers, I shall be glad to hear that such renewal will be granted.

Please favour me with an early reply.

I have, &c., II. BANKS-SMITH.

Mr. Hobbs has already been informed of expiry of his lease, and supplied with the necessary information for applying for a fresh lease.—H.A., 3/10/85.

### No. 21.

### No. 25.

### Mr. H. Banks-Smith to Mr. V. Hunt.

Drummoyne Pier-Hobbs' application for special lease.

Sir, 62, Hunter-street, Sydney, 3 December, 1885. I have the honor, in reply to your letter requiring a sketch of the locality, to forward herewith two rough sketches showing the position of the land applied for.

I also enclose a description of the land comprised in the existing lease, upon which a jetty has been erected. In the new lease I have applied for an extension.

This pier is not far distant from Spectacle Island, and is between that island and the Gladesville iron bridge, and exactly opposite Hunter's IIill.

I hope the sketch will be considered sufficient; if not, I shall have to employ a surveyor to

prepare a map

I shall feel obliged by your granting the lease as soon as possible.

I have, &c.,
H. BANKS-SMITH. Forwarded to the Metropolitan District Surveyor in connection with application for special lease herewith.—V.H., Land Board Office, 7/12/86.

# No. 26.

### Mr. H. Banks-Smith to Mr. V. Hunt.

Hobbs' application-Special lease-Drummoyne Pier.

62, Hunter-street, Sydney, 21 December, 1885.

I have the honor to request your attention to this application.

I am not aware that the municipality has any claim to the wharf applied for. In fact the lease now existing was granted at a time when the municipality refused to take over the roads in the Drummoyne estate.

If they have now taken over such roads they have made no improvements thereon, and it is extremely doubtful if they would expend any money in repairing or keeping in order the wharf for which

a lease is applied for.

This wharf has been erected by the applicant at great cost, and he has arranged for the steamboat plying on the Parramatta River to call there regularly. The public would suffer greatly if, by the refusal of the Crown to grant a lease, the boats should be withdrawn.

I have perused section 89 of the Crown Lands Act, and respectfully submit that the Crown can

grant the lease requested.

If the lease be refused the present lessee will obtain no benefit for the expenditure of a large sum

If the lease applied for cannot be granted, would you kindly inform me if the Crown would grant a lease from year to year, subject to termination by the Crown if the municipality should express their desire to take over the wharf, and should refund the money spent thereon to the parties entitled, and will undertake to keep the wharf in repair. The rent for such yearly lease to be £5.

I have the honor to request an early reply, and trust you will comply with my client's request.

T have, &c., H. BANKS-SMITH.

Application within. Report to the Chairman, No. 1,778 of this date.-John W. Deering, Metropolitan District Surveyor, 31/12/85.

The only question seems to be who is now legally invested with the control of the street which this wharf points.

Should a lease be granted without tenement of such person or body?

They can by consent of proprietor, &c. (according to section 89).

It is to be presumed that the wharf was erected for the same purpose that streets were dedicated

(if they were), viz., in order to enhance value of property. No term of lease seems to have been applied for, and the Crown is here asked to make conditions with a Municipal Council who are not to be the lessees.

This seems to admit that the Council have claims. If their consent be necessary it will be for

them to make conditions. The request contained in this letter seems to be such as cannot be taken cognizance of by the Board, and should be referred to the Occupation Branch for submittal. The case seems of a critical nature, as involving the claims of a Borough Council.—T.H., 6/1/86.

### The Under Secretary for Lands to Mr. W. J. Hobbs.

Sir,

Department of Lands, Sydney, 16 April, 1886.

Referring to your application for permission to lease a portion of Crown lands at Drummoyne,
Parramatta River, for a jetty on piles, I have now the honor to request that you will pay into the
Colonial Treasury the sum of £20 for rent from 1st January, 1886, to 31st December next, on notice of receipt of which the lease will be sent on for approval.

There are no charges against your deposit of £10, but the amount will be applied towards pay. ment of rent now called for.

The sum of £10 will therefore remain due, and if not paid within three months from this date, your application for the lease will be deemed to have lapsed.

I have, &c., CHAS. OLIVER,

Under Secretary.

Term of lease-From 1st January, 1886, to terminate on the 31st December in each year.

Rent—£20 per annum.

Conditions—Lease to confer no right of purchase. The lessee to remove any structure at his own cost if required to do so by the Crown at the termination of the lease.

### No. 31.

The Under Secretary for Lands to The Under Secretary for Finance and Trade. Special lease.

Department of Lands, Sydney, 16 April, 1886. Referring to the Gazette notice of the a special lease of a small portion of land for a jetty on piles, at Drummoyne, Parramatta River, to Mr. W. J. Hobbs, at a rental of £20 per annum, I have now the honor to inform you that Mr. Hobbs has been directed to pay into your hands the sum of £20, for rent from the 1st January, 1886, to the 31st December next, and has been advised that upon such payment a lease will be granted to him, and I have therefore to request that I may be favoured with a report immediately upon that sum being credited to

There are no charges against the deposit of £10 placed in Suspense Account by him on 24th October, 1885, but the amount may be applied towards payment of rent now called for.

I have, &c.

CHÁS. OLIVER,

No. 35.

### No. 35.

## M. A. Williamson, Esq., to The Secretary for Lands.

Lilydale, Havelock-street, Drummoyne, 30 September, 1886. At the request of the residents of Drummoyne, Parramatta River, I would draw your attention Sir.

to the unsatisfactory arrangements regarding the use and occupation of the wharf at that place.

It appears, from the papers in the Department, an authority to inspect which was granted on 9th July last past, that on the 19th September, 1881, a permit to use and occupy certain land in our suburb was granted to a Mr. W. J. Hobbs, for the purpose of erecting a jetty, and at an annual rental of £1 per annum

This permit expired 31st December, 1885, and in October, 1885, Hobbs' solicitor urged the renewal of same on the grounds of the great public benefit, and running of steamers.

On the 3rd March, 1886, the Minister for Lands approved of the renewal of lease, but an increased

rental of £19 per annum, making same £20, instead of as heretofore only £1 per annum.

On 17th June, 1886, Hobbs' solicitor urged a reduction of rent, alleging certain grounds, amongst others, the large sum expended and the benefit to the public, and, in support of this reduction, Hobbs' solicitor also urged that Municipal Council of Five Dock had not taken over streets, and that municipal improvements had not extended that far. The last contention was urged, I believe, about 31st December, 1858. Permit to use and occupy has not, up to date, been issued. As before stated, the residents of Drummoyne deem the present arrangements in connection with this wharf as unsatisfactory, and would respectfully urge that you withhold the permit to use and occupy from the applicant, Mr. W. J. Hobbs or his representative and yest such wharf in the Municipal Council of Five Dock.

or his representative, and vest such wharf in the Municipal Council of Five Dock.

This request is made on the grounds that the wharf is at present situate at the end of street, which is under the control of the said Municipal Council, and has been so since the month of August, which is under the control of the said Municipal Council, and has been so since the month of August, 1885, and that, under existing arrangements, proper mode of communication with Sydney cannot be procured. It is also respectfully submitted that the contentions of Mr. Hobbs' solicitor are not tenable. The matter of great amount of money expended is evidently advanced with a view to hoodwink the Department. It is quite patent that the expenditure referred to was incurred to suit Mr. Hobbs' own ends, viz., to secure a good sale of his property. This has been done, and the public naturally conclude that they, the purchasers of this property, are entitled to have the wharf vested in the local Municipal Council for their benefit. That this is not an unreasonable request is evident from the numerous correspondence of Mr. Hobbs' solicitor who in almost every instance he wrote, brought to his assistance the pondence of Mr. Hobbs' solicitor, who, in almost every instance he wrote, brought to his assistance the great public benefit."

Further, I would point out that Mr. Hobbs in this instance is acting the part of middleman between the Department and Mr. C. E. Jeanneret, the proprietor of the Parramatta River steamers. Mr.

between the Department and Mr. C. E. Jeanneret, the proprietor of the Parramatta River steamers. Mr. Hobbs is now residing and carrying on business in Orange, and has, so I am informed, disposed of all his interest in our locality, and consequently cannot care who obtains the lease of this wharf. Mr. Jeanneret is acting as his agent in the matter, and he, being the proprietor of the boats referred to, must naturally be the only person desirous of securing the right to use and occupy the wharf in question.

Should Mr. Jeanneret come forward and make application he would justify his own actions, as on report dated 31st December, 1885, he endorsed a consent as follows, viz.: "I, on behalf of myself and the Parramatta River Steam Company, consent to lease to Hobbs." I am of the opinion that should Mr. Hobbs' application be granted he will at once transfer same to Jeanneret, who will thus secure a monopoly of the wharf, and thereby deprive the public of the use of what is really their property.

For the reasons herein given, I trust that you will be pleased to exercise your right and revoke

For the reasons herein given, I trust that you will be pleased to exercise your right and revoke Hobbs' permit to use and occupy said wharf, and cause same to be vested in the local Municipal Council

of Five Dock.

Yours truly,
MARK ANNESLEY WILLIAMSON.

Mr. De Low.—S.F., 9/10/86. Let me have papers.—H.C., 8/10/86.

62, Hunter-street, Sydney, 2 November, 1886.
I have the honor to refer you to my former letters to which I have had no reply.

Will you kindly at once write inc upon the subject.

My client is auxious to have the lease issued, and if the Crown will not reduce the rent he will pay the balance at the Treasury.

H. BANKS-SMITH. P.S.—I have to-day seen Mr. District-Surveyor Deering, who, I understand, will report favourably upon the matter.-H.B.-S.

### No. 41.

# The Under Secretary for Lands to The Under Secretary for Finance and Trade.

Sir,

With reference to my letter of the 16th April last, intimating that Mr. W. J. Hobbs had been called upon to pay £22 for rent for current year on an annual special lease approved to be granted to him for jetty at Drummoyne, I have the honor to request that no rent beyond that for this year be received as it has been decided not to repeat the loss after 21st Becomber nort. as it has been decided not to renew the lease after 31st December next.

I have, &c., CHARLES OLIVER, Under Secretary.

### No. 42.

# Office Memorandum.

An annual special lease for a wharf at Drummoyne was approved to be granted to Mr. W. J. Hobbs on 3rd March, 1886. (Vide 85-2,572 Occ.)

The usual course of gazetting for objections was gone through, and rent for 1886 was called for on 16th April, 1886.

On 17th June, Mr. H. Banks-Smith, on behalf of the applicant, requests, in view of the expense incurred upon the wharf, which he states exceed £500, as well as the additional expense of the erection of a waiting-room for travellers, a reduction of rent. (See 86-1,967 Occ.)

The rent recommended and approved to be charged for the lease was £20, while the rent of the

expired lease was only £1.

Mr. Banks-Smith has requested a reply to his letter of the 17th June, on the 7th and 19th October, and on the 2nd November, states that if the Crown will not reduce the rent Mr. Hobbs will pay the

amount called for into the Treasury.

Mr. M. A. Williamson, at the request of the residents of Drummoyne, in a letter of 30th September, 1886, complains of the unsatisfactory arrangements regarding the use and occupation of the wharf, and urges with many cogent reasons and arguments that the wharf, being at the foot of a street under the control of the Municipal Council of Five Dock, be vested in that body. (Occ. 86–2,925.)

On 27th October the Municipal Council of Five Dock apply to have the wharf vosted in them.

(Vide 86-3,035 Occ.) H.A., 25/11/86.

Submitted.—E.L. 1 am not prepared to reduce the rent, and as the street at foot of which the wharf is situated has been dedicated, the lease which is annual may be terminated at the end of the lease.—H.C., 27/11/86. See mc.—C.O. Call for rent at once, and inform to effect of merit afterwards. Rent called for and Treasury advised by manuscript, 30/11/86.

#### No. 43.

# Mr. H. Banks-Smith to The Under Secretary for Lands.

W. J. Hobbs' Special Lease—Drummoyne Pier—Occupation, 86-3,234 M.

62, Hunter-street, Sydney, 10 December, 1886. Sir. I have the honor to acknowledge receipt of your letter of 30th ult., and in reply the £10 residue of rent will be paid into the Treasury at once as directed.

I am requested by my client to ask if instead of the tenancy from year to year you would kindly grant him a lease for a term of three years. This, I believe, was the term granted by the last lease.

If you could do this my client would be in a better position to make arrangements for the running of steamers, &c., and to this end spend the large amount of money in my previous letters mentioned.

An early reply will be a favour.

I have, &c.,

BANKS.SMITH

An early reply will be a favour.

H. BANKS-SMITH.

Mr. Smith requests that a three years' lease be given to Mr. Hobbs of wharf at Drummoyne. It has been decided to terminate the lease at end of current year. On receipt of report of payment of this

year's rent from Treasury, applicant may be informed of such decision.—H.A., 13/12/86.

W. J. Hobbs, per H. B. Smith, 16th December, 1886. Treasury advised, and M. A. Williamson and Council Clerk, Five Dock, informed, 29/12/86. Resubmitted in connection with request of Municipal Council to have the wharf at Drummoyne vested in them.—E.L., 20/12/86. C.O., 20/12/86. See letter from Mr. Jeanneret.--C.O.

### No. 45.

# The Under Secretary for Lands to Mr. W. J. Hobbs.

Department of Lands, Sydney, 16 December, 1886. Sir, Referring to your letter of the 12th instant and previous correspondence respecting your special lease for a wharf at Drummoyne, Parramatta River, I have the honor to inform you that the Minister for Lands has decided that, as the street at the foot of which the wharf is situated has been dedicated, the lease shall terminate at the end of the current year.

I have, &c., CHARLES OLIVER, Under Secretary.

#### No. 46.

# C. E. Jeanneret, Esq., to The Secretary for Lands.

Sydney, 22 December, 1886. Sir. I trust you will give Mr. Hobbs (who has transferred his interest to me) a lease of Drummoyne wharf,-1st. Because he and I constructed that wharf at a cost now amounting to some £800, in faith of a

lease of the Crown land on which it stands.

2nd. Because I have expended considerable capital in making and developing in a satisfactory way (as I was bound by my agreement to do) a passenger trade to that wharf which meets all the requirements of the public. 3rd. Because without my aid, and that of Mr. Hobbs, there never would have been any wharf or

trade there. 4th. Because no other person or body has contributed a shilling to further the objects attained. I hear that the Five Dock Council applied for a lease of the wharf. I think it should not be

granted to them unless they pay its cost to me. Because,—
1st. They refused to take at once when Mr. Hobbs offered it to them, and before he transferred it to

2nd. Because they have never expended a shilling on or near it.

3rd. Because it is outside their municipal boundaries, and it has been said that municipalities cannot hold property outside their limits.

I am also obliged to point out to you that the rent increase from £1 to £20 is excessive.

I have, &c., C. E. JEANNERET.

Mr. Jeanneret may be informed that, as it appears that the wharf was constructed with a view to settling the adjacent land, and that a municipality now having been formed, it is contemplated granting a lease to the municipality. However, his view of the case will receive due consideration before anything is definitely decided upon.—H.C., 22/12/86.

What is next to be done in this C. E. Jeanneret informed, 22/12/86. Occupation Branch.

matter?—H.A.

Department of Lands, Sydney, 22 December, 1886. Referring to your letter of to-day's date, respecting the wharf at Drummoyne Park, I have Sir, the honor, by direction of the Minister for Lands, to inform you that, as it appears that the wharf in question was constructed with a view to settling the adjacent land, and that a municipality now having been formed, it is contemplated granting a lease to the municipality. However, your view of the case will receive due attention before anything is definitely decided upon.

I have, &c.

STEPHEN FREEMAN, (For the Under Secretary).

#### No. 48.

# C. E. Jeanneret, Esq., to The Under Secretary for Lands.

Sir, Hunter's Hill, 3 January, 1887. Referring to previous letters to your Department and to my conversation with you on the 31st ultimo, I beg now to urge further reasons why a lease of the Drummoyne jetty should be given to me and not to the Borough of Five Dock.

I have already stated that it is the opinion of eminent barristers that municipalities, as at present constituted, cannot legally hold, build, or lease jetties outside the boundaries of their municipalities as

this jetty is.

I am informed by the Mayor of Five Dock that it is hoped that if this wharf is transferred to the Borough of Five Dock, a revenue will be derived from it for the purpose of repairing the streets.

I trust that in any case the Government will preserve the rights of the public, and take steps to ensure free access to and from the wharf, if it be handed over to the borough. However, the wharf is at the purpose of the public and take steps to ensure free access to and from the criminal lesses and by the construction and Law at present an present mine by a transfer from the original lessee and by my own construction, and I am at present an annual tenant of it; and if the Government desires to lease to the Borough of Five Dock, my tenancy must be terminated by due notice to Mr. Hobbs, or to me, and opportunity must be given to me to

remove the structure, unless the municipality agrees to pay me the value of it.

I have read Mr. Williamson's letter to the Minister, which was written after a promise was made to me by Mr. Williamson and the committee with which he was acting, that every endeavour would be made by them to induce the Government to grant me a renewal of my lease at a lower rent. Mr. Williamson is now adverse to me, hence his action in the Council and before the Minister.

I can prove to you by impartial gentlemen, and Mr. Hobbs is one, that the ferry service is well conducted, and that I have at present derived no profit from the capital I have invested in developing a trade to Drummoyne, and that without my help the settlement would not have progressed as it has.

I think I am entitled to a lease for a term of years at a rent equal at most to interest on the value.

of the land occupied by me, supposing it to be available freehold land, in the same manner that reclamations are assessed; but I am willing, on receiving compensation for my interest in the wharf from the Government or the borough, to relinquish it on due notice, otherwise I must remove it when my tenancy expires

I have paid the current year's rent, and I hope you will have it reappraised on a fair basis, and that as soon as possible you will determine whether you will grant me a lease for a long term, or terminate the tenancy on compensation being given, or whether I shall remove the structure.

I have, &c., C. E. JEANNERET.

F., 6/1/87. Mr. De Low. Mr. Landers, Occ. Branch. Submitted.—T.M.E., 8/1/87. The lease may be continued as an annual one on the same terms as to rent.—Corr. Branch. Inform Mr. Jeanneret, Treasury, and Five Dock Borough Council.—C. E. Jeanneret, Treasury, and Council Clerk, Five Dock, 28/2/87. Urgent.—S.F., 6/1/87. C.O., 10/1/87. T.G., 24/2/87. H.A., 25/2/87.

Special Lease.

The Treasury, New South Wales, 15 March, 1887. Sir. I have the honor to inform you that the sum of £20 was paid into this office on the 14th March, 1887, being rent during year 1887 of the special lease mentioned in the margin.

I have, &c., WM. NEWCOMBE,

(For the Under Secretary).

### No. 53.

### The Council Clerk, Five Dock, to The Under Secretary for Lands.

Sir, Town Hall, Five Dock, 15 March, 1887. I have the honor, by direction of his Worship the Mayor, to acknowledge the receipt of your letter of 28th ultimo, 87-267 Occ., having reference to an application made by the Municipal Council of Five Dock for a special lease of the wharf at the foot of Wolseley-street, Drummoyne; the Council having been officially informed that a renewal of the lease to Mr. W. J. Hobbs had been refused, and I am to express surprise at the announcement contained in your letter now under acknowledgment, that it had

been decided to continue the lease to Mr. Hobbs under an annual tenancy.

At the time the application for a special lease was made by the Council, a renewal having been refused to Mr. Hobbs, no other application for a special lease had been made, and therefore the Council had the first claim to the lease being granted to it; and I have therefore to ask for a reconsideration of the case, with a view to the lease being granted to the Council, and in support of the claim made for such lease, I am to inform you that at the time Mr. Hobbs dedicated the streets in Drummoyne to the Council, he also handed over the wharf to the Council, considering that it would be better under its I have, &c., GEO. GREVILLE, control than that of a private individual.

Council Clerk.

Re Drummoyne Wharf, Borough Council of Five Dock protesting against continuance of lease Submitted.—E.L., 22/3/87. -C.O., 29/3/87. Lease must be terminated at end of current year. Inform Council and Mr. Hobbs.—T.G., 1/4/87. Cor. Beh. Inform Treasury also. Treasury, W. J. Hobbs and C. E. Jeanneret, M.P., and Council Clerk, Five Dock, 7th April, 1887.

### No. 54.

### The Under Secretary for Lands to Mr. W. J. Hobbs.

Sir,

Department of Lands, Sydney, 16 March, 1886.

In reference to your application to lease, under 89th section of the Crown Lands Act of 1884, land at Drummoyne, Parramatta River, for the purpose of a wharf, I have now the honor to inform you that it is proposed to grant a lease of 10½ perches, annually, from 1st January, 1886, at the annual rental of £20, and upon conditions that the lease will confer no right of purchase, and the lessee to remove any structure at his own cost if required to do so by the Crown at the determination of the lease.

The requisite notice of the intention to grant this lease has been published in the Gazette of 9th March, 1886, and should no valid objections be raised, and you are willing to accept the lease, the Governor in Council will be advised to grant it, under the provisions of the above Act, when payment of rent for the first year shall have been made. I have, &c.

CHARLES OLIVER. Under Secretary.

### No. 55.

### Question and Answer.

Legislative Assembly, Tuesday, 29 March, 1887.

Question-(14.) Drummoyne Wharf: -Mr. CARRUTHERS asked the Secretary for Lands,

(1.) Has the Municipal Council of Five Dock applied for a special lease of the public wharf at Drummoyne; it so, at what rental?

(2.) What are the names of the other applicants (if any) for a lease of the same wharf, and what rental has been offered?

(3.) Is it his intention to give the preference to the Municipal Council's application, in order to give the control over the public wharf to the local municipal authorities?

Hobbs; lease, for a jetty on piles at Drummoyne, Parra matta River. Answer

Mr. GARRETT answered,

Yes; at a rental of £1 per annum.
 Mr. W. J. Hobbs is the lessec, at a rental of £20 per annum.

Yes; where they have a legal right to take a lease, and are prepared to pay an equivalent

The Assistant Under Secretary for Lands to The Council Clerk, Five Dock.

Sir,

Department of Lands, Sydney, 7 April, 1887.

Referring to your letter of the 15th ultimo, protesting against the renewal of W. J. Hobbs' special lease for a jetty on piles, at Drummoyne, Parramatta River, I have the honor to inform you that the Scengary for Lands has now decided that the least in world in the protesting against the renewal of W. J. Hobbs' special lease for a jetty on piles, at Drummoyne, Parramatta River, I have the honor to inform you that the Secretary for Lands has now decided that the lease in question be terminated at the end of the current year, viz., 31st December, 1887. I have, &c.

STEPHEN PREEMAN

(For the Under Secretary).

#### No. 59.

# Messrs. Jeanneret and Hobbs to The Secretary for Lands.

Sir, Sydney, 13 April, 1887. I have the honor to acknowledge receipt of your letter of 7th instant, 87-2,598 Occ.

I think that in giving me notice that my lease must be terminated you have not fully considered all the circumstances, and I beg that you will reconsider them in view of the following facts:

1st. This wharf was erected by Mr. Hobbs, at his own cost, when the whole of Drummoyne Park belonged to him, and no streets were then dedicated, and was erected on Crown lands outside the Municipality of Five Dock, leased by your Department to him.

2nd. When the wharf and approaches were completed Mr. Hobbs offered the wharf to the Five Dock Municipality, but they declined to take over the roads and wharf.

3rd. Mr. Hobbs then transferred his interest in the wharf to the writer, on condition that I would extend the wharf to deep water and maintain an efficient ferry service, in order to encourage

4th. I maintained a ferry service, at considerable loss, for a long time, and at last, as soon as the ferry began to be profitable the Government raised the rent 700 per cent., and decided only to give me a yearly tenancy, of which only three months has expired, and which it is intended to terminate in nine months.

5th. On these terms the wharf is worth nothing, as if the tenancy is to be terminated in nine months I would rather it be terminated at once, when I could discontinue running my steamers to Drummoyne Park altegether.

6th. I am willing, therefore, to give up to the Government at once the lease in question, on receiving compensation as per valuation, to be made in the ordinary way, for the improvements thereon,

and a rebate of rent for the unexpired portion of my tenancy.

7th. If the Government is not prepared to do this I think it is only fair that I should either have a lease for a term of years or an assurance that I shall not be disturbed in my tenancy except upon compensation being given for the value of the improvements made on the leased land. I therefore suggest that the Municipality of Five Dock be asked if they desire to lease the wharf,

I have, &c., C. E. JEANNERET, and are prepared to pay for it.

(For Self and W. J. Hobbs).

Put with other papers and resubmit case. Perhaps it would be as well to send a copy of this on to the Five Dock Council, asking them whether they will accede to the request.—T.G., 27/4/87. Cor. Bch. Council Clerk, Five Dock, with copy of this letter, 11th May, 1887.—H.A.T. Resubmitted, as desired, 5/87. A wait receipt of reply from Council.—H.A., 17/5/87. End of May.

### No. 60.

The Assistant Under Secretary for Lands to The Council Clerk, Five Dock.

Sir,

Adverting to my letter of the 7th ultimo, intimating that it had been decided to terminate Mr.

W. J. Hobbs' special lease for a jetty on piles at Drummoyne, Parramatta River, on the 31st December next, I am directed by the Secretary for Lands to present herewith a copy of a communication received from Mr. Jeanueret, on behalf of Mr. Hobbs, and to request that you will be good enough to state whether your Council is willing to accept the lease of the wharf in question on the terms therein suggested.

I have, &c.,

STEPHEN FREEMAN, (For the Under Secretary).

### No. 61.

The Council Clerk, Five Dock, to The Under Secretary for Lands.

Sir,

I have the honor, by direction of his Worship the Mayor, to acknowledge the receipt of your letter, 87-3,920 Occ., of 11th instant, also copy of a letter received by you from Mr. Jeanneret, on behalf of Mr. W. J. Hobbs and himself, having reference to the wharf at Drummoyne, Parramatta River, and I have to inform you that, as there is nothing in the letter of Messrs. Hobbs and Jeanneret to show the cost of constructing the wharf, the Council cannot entertain their proposal unless furnished with more definite information.

I have, &c.,

GEORGE GREVILLE,

Mr. Jeanneret may be asked the amount he requires for the wharf.—T.G., 11/6/87. Cor. Branch. C. E. Jeanneret, M.P., asked.—H.A.T., 17/6/87.

### No. 62.

The Assistant Under Secretary for Lands to The Council Clerk, Five Dock.

Sir,

Referring to your letter of the 18th ultimo, respecting hoardings at the Drummoyne jetty, I have the honor to inform you that the hoardings in question were inspected by an officer of this Department, who reports they are in no way dangerous to the safety of the public.

I have, &c., STEPHEN FREEMAN, (For the Under Secretary).

### No. 63.

The Acting Under Secretary for Lands to C. E. Jeanneret, Esq., M.P.

Sir,

Referring to your letter of the 13th April last, respecting wharf at Drummoyne Park, I am directed by the Secretary for Lands to request that you will be good enough to state what amount of compensation you will require to surrender the wharf in question.

1 have, &c., F. H. WILSON,

(For the Under Secretary).

### No. 64.

C. E. Jeanneret, Esq., M.P., to The Under Secretary for Lands.

Sydney, 29 June, 1887.

Referring to your letter of 17th instant (Occ., 87-5,440), I have the honor to enclose copy of the certificate of value this day given by Messrs. Morell and Kemp, engineers, of Sydney, and to state that I am willing to accept that amount as compensation for giving up the wharf at Drummoyne Park. I may say that I shall be a loser by taking this sum, as the wharf has cost considerably more than £660.

I have, &c.,

C. E. JEANNERET.

A duplicate of the enclosed copy of certificate of value of the wharf at Drummoyne may be forwarded to the Borough Council of Five Dock.—H.A., 12/7/87. Submitted.—E.L., 12/7/87. S.F. Approved.—T.G., 14/7/87. Cor. Branch, 14/7/87. Copy sent to Council Clerk, Five Dock, 22/7/87. End of month.

### [Enclosure.]

Valuation of Wharf at Drummoyne Park, Parramatta River.

Sydney, N.S.W., 29 June, 1887.

Our valuation of the wharf creeted under our supervision at Drummoyne Park, Parramatta River, is £660.

It comprises the original wharf creeted by us and additions, approaches, and waiting room made since that time.

It comprises the original wharf erected by us and additions, approaches, and waiting room made since that time.

MORELL & KEMP,

### No. 66.

# The Council Clerk, Five Dock, to The Under Secretary for Lands.

Sir, Town Hall, Five Dock, 30 July, 1887. I have the honor, by direction of his Worship the Mayor, to acknowledge the receipt of your letter of 22nd instant, with enclosure copy of certificate of the value of the wharf at Drummoyne Park, on the Parramatta River, and I shall feel obliged by your informing me at an early date whether the valuation placed upon same represents the freehold value of the wharf.

I have, &c.

GEO. GREVILLE,

Council Clerk. Messrs. Morell and Kemp may perhaps be asked whether their valuation of the wharf at Drummoyne at £660 represents its freehold value.—H.A., 9/8/87. Submitted.—E.L., 9/8/87. As the Submitted.—E.L., 9/8/87. wharf is constructed at the foot of the street, and the land covered thereby cannot be sold, it is difficult to understand what the Five Dock Council mean by their inquiry. The value fixed by Messrs. Morell and Kemp evidently relates to the structure as a wharf and not to the land covered by and adjacent thereto, and used in connection therewith.—S.F., 10/8/87. May be so informed.—C.O., 12/8/87. Appd.—T.G. 12/9/87. Council Clark Five Dock 12/9/87. T.G., 12/8/87. Council Clerk, Five Dock, 13/8/87.

### No. 67.

The Acting Under Secretary for Lands to The Council Clerk, Five Dock.

Sir, Department of Lands, Sydney, 13 August, 1887. Referring to your letter of the 30th ultimo, inquiring whether the valuation of the wharf at Drummoyne Park represents the freehold value of the wharf,—

I have the honor to inform you that as the wharf alluded to is constructed at the foot of a street,

and the land covered thereby cannot be sold, it is difficult to understand what is meant by your inquiry. I may add that the value fixed by Messrs. Morell and Kemp evidently relates to the structure as a wharf, and not to the land covered by and adjacent thereto, and used in connection therewith.

I have, &c.

(For the Under Secretary).

### No. 68.

# C. E. Jeanneret, Esq., M.P., to The Under Secretary for Lands.

Sir, Referring to my previous letters to the Hon. the Minister for Lands, and to my conversation Referring to my previous letters to the Hon. the Minister for Lands, and to my conversation with you, I have the honor to request that a lease may be granted to me for a term of years of the wharf at Drummoyne Park, constructed by Mr. Hobbs and me on land leased from the Government. As this is a passenger wharf only and as the traffic to Drummoyne is very small, and the majority of the passengers travel for the low rate of 7s. 6d. to 15s. per month, I trust the rent will be fixed at a nominal rate.

I may add that neither the Government nor the Municipality have expended a shilling on this wharf, while there are several wharves which have cost the Crown several thousands of pounds erected near by during the past year or two, and for which it is impossible that the Government can obtain any rental.

I have, &c.

I have, &c., C. E. JEANNERET, M.P.

The lease of this wharf, granted to Hobbs, was, by direction of Mr. Secretary Garrett, to terminate at end of current year. (See papers, 87-2,958, Occ.) Mr. Jeanneret now wants a lease of the wharf for a period of years.—E.L., 20/10/87.

Submitted, as to whether Mr. Hobbs is to have a renewal of lease. The Borough Council have no offer of payment of value of the wharf.—S.F., 24/10/87. If Mr. Jeanneret applies for more made no offer of payment of value of the wharf.—S.F., 21/10/87. If Mr. in usual way it will be promptly dealt with on its merits.—T.G., 28/10/87. Mr. Jeanneret, M.P.,--H.A.T., 2/11/87.

# LEGISLATIVE ASSEMBLY.

### NEW SOUTH WALES.

# MOAMA WHARF.

(REPORT ON EXTENSION OF CHANNEL AND IMPROVEMENTS AT.)

Ordered by the Legislative Assembly to be printed, 28 February, 1888.

[Laid upon Table in accordance with the promise made to Mr. Chanter, Question No. 3, Votes No. 57, 23 February, 1888.]

# Mr. R. Trench to The Engineer-in-Chief for Harbours and Rivers.

Sir,

According to instructions on M.P.  $\frac{2}{2}\frac{2}{6}\frac{4}{3}\frac{2}{6}$  I have the honor to report that I have visited Moama, and found that there is no difficulty in the way to hinder the extension of the canal, or to provide the wharf with crane accommodation.

The excavation necessary for the former would be about 13,000 cubic yards, and three cranes

is what could be conveniently placed on the latter.

After carefully perusing my instructions, I am not certain that my inquiries were meant to be otherwise than merely professional, but I felt it my duty to report on the practical value of the improvements asked for, should the work be carried out. Accordingly, before these improvements could be of any use, the Deniliquin and Moama Railway Company would have to lay, with convenience for shunting, a branch line to the wharf to earry the goods thereto from Victoria, which goods are at present carried by the Victorian Railways to the wharf at Echuca. All goods which are consigned to Moama or Deniliquin from Victoria are carried by rail, and would not in any case touch the Moama wharf; thus the legitimate trade of Moama and district is provided for, and under no circumstances could any of the trade be transferred or induced to the Moama wharf from Echuca, as all vessels could load there and clear coastwise, the N.S.W. Customs Officer having only the power to board the vessel in the stream to coastwise, the N.S.W. Customs Officer having only the power to board the vessel in the stream to examine the cargo.

When the Victorian Railways are extended to Swan Hill, which may be expected very soon, all

the trade which now goes to Echuca will be done at that place.

The above was written some little time ago, when I wrote to Victoria for some further information which I have not yet received. I do not think this information necessary now, as Mr. Pope's letter explains everything. I can, from inquiry and observation, endorse all contained therein.

Albury, 4 May, 1887.

I have, &c ROBERT LÉ POER TRENCH.

Mr. C. C. Pope to The Collector of Customs.

For your private information, I beg to inform you that a Mr. Trench, of the Harbours and Rivers Department, called at my house on Saturday last (the 9th) requesting information as to the river traffic, also the number of steamers, tonnage, and value of trade, which I gave him. His special duty was to report as to the probable cost of continuing the cutting of the lagoon through to the river, extension of wharf, and erection of cranes, to afford facilities for loading vessels at Moama wharf. I pointed out to him that supposing the improvements were carried out, and the officers at this station received instructions. wharf, and erection of cranes, to afford facilities for loading vessels at Moama wharf. I pointed out to him that supposing the improvements were carried out, and the officers at this station received instructions not to be in attendance at Echuca wharf, I am certain, from my experience of Victorians and river trade, that the agents or traders would send all their goods coastwise under bond to Swan Hill, clear their boats across to Swan Hill Crossing, and pay the duty there, rather than send their boats to Moama wharf; further, that in about two years hence, when the line is continued from Kerang to Swan Hill (Victoria), all the river trade now done at Echuca wharf will be diverted to Swan Hill, on account of the great saving of time. It appears to me that the expenditure of £18,000 on Moama wharf would be a sheer waste of money. Personally I would hail the change with delight if the trade could be diverted from Echuca to Moama; I could then do without an assistant officer, and be relieved from attending Echuca, a town in which I have not the slightest interest, neither in its welfare nor its people. a town in which I have not the slightest interest, neither in its welfare nor its people. Your obedient servant

C. C. POPE.

The extension of the Railway from Kerang (Victoria) to Castle Donnington (Swan Hill) will doubtless influence the trade at Echuca and Moama. By this extension 93 miles of river traffic will be saved. With a full knowledge of the place, I agree with the opinion expressed by Mr. Pope.—Jas. P., 15/4/87. The Under Secretary Finance and Trade.

### 1887-8.

LEGISLATIVE ASSEMBLY.

SOUTH WALES.

# WHARF ACCOMMODATION FOR TRAFFIC BETWEEN SYDNEY AND BALMAIN.

(PETITION FOR FURTHER-BALMAIN.)

Received by the Legislative Assembly, 26 June, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly in Parliament assembled. The Petition of the undersigned residents and others travelling to and fro between the Western Suburbs, via Balmain and Sydney,-

HUMBLY SHOWETH TO YOUR HONORABLE HOUSE:-

That the only wharfage accommodation available for the ferry steamers carrying passengers has, owing to the rapid growth of the traffic, become quite inadequate to the requirements, and no wharfage whatever at present exists for the use of vehicular traffic.

That the daily foot passenger traffic over the wharves, at present used by the travelling public, at Erskine-street ferries exceeds 12,000; and the shelter from the weather at the command of the ferry

company there plying will accommodate 100 persons, and on occasions, when the traffic is crowded, many persons are compelled to remain in the open street without any shelter whatever.

That the want of wharf accommodation on the Sydney side, for vehicular as well as foot passenger traffic, is daily growing more urgent for Balmain and suburbs, whose population now numbers upwards

of 30,000.

Your petitioners, therefore, humbly pray that your Honorable House will take into consideration the urgent needs of the public in this respect, and cause provision to be made for obtaining the necessary increased wharf accommodation for foot and vehicular traffic without delay.

And your petitioners, as in duty bound, will ever pray.

[Here follow 3,304 signatures.]

Report of Tender Board. Contract for the Public Service, 1888.

The Treasury, 8 May, 1888.

Tenders for Leasing Public Wharf and Waiting-room, Watson's Bay for a term of three years, opened at the Treasury, 8th May, 1888.

No tenders received. The Board refers the question of inviting fresh tenders for the consideration of the Colonial Treasurer.

J. T. BLANCHARD. W. HOPKINS.

Seen.-J.F.B., 11/5/88.

[There being no tenders for the Public Wharf and waiting-room at Watson's Bay, the Colonial Treasurer, on 11th May, 1888, authorized the letting of the wharf and waiting-room to the Watson's Bay and South Shore Steam Ferry Company, Limited, at a rental of £50 per annum, provided the opinion of the Attorney-General confirms the view that under section 5 of the Wharfage and Tonnage Rates of the Wharfage and Tonnage Rates and William Research and the shored more than once a day for use of the wharfal Act, 44 Vic. No. 8, regular ferry steamers could not be charged more than once a day for use of the wharf.]

#### No. 9.

Case submitted for the Opinion of The Attorney-General.

The Treasury, New South Wales, Sydney, 8 May, 1888.

Subject:—Wharfage and Tonnage Rates Act, 44 Victoria No. 8.

Doubts having arisen as to the legal effect of clause 5 of the Wharfage and Tonnage Rates Act, 44

Victoria No. 8: it is considered desirable to all the state of the Wharfage and Tonnage Rates Act, 44 Victoria No. 8, it is considered desirable to obtain the opinion of the Honorable the Attorney-General on the question.

It is assumed that under this clause a vessel which shall have paid 10s. for the use of the wharf for part of a day, and then goes away, would be liable to a second charge of 10s. if, returning, she again

occupied the wharf for part of the same day, and so on for each succeeding visit during that day.

The doubt then arises whether such charges could be intended to apply to "forry steamers" running regularly to and from the wharf, Sunday included, say four times per day? If so intended, then the amount paid by a ferry steamer in a year would be £730, the exaction of which would shut up

the ferry and close the service.

It is therefore of importance to know whether, in view of a lease of the wharf to third parties, the payment of one sum of 10s. on any given day by a regular ferry steamer would cover the legal liability of such steamer for the whole day, notwithstanding that she occupied the wharf more than once during the day.

G.E.

The Crown Solicitor.—G.E., B.C., 8/5/88. For the Attorney-General.—J.F.B., 8/5/88.

# No. 10.

The Crown Solicitor to The Under Secretary for Finance and Trade.

Subject: - Legal effect of clause 5 of the Wharfage and Tonnage Rates Act, 44 Vic. No. 8, in relation to regular forry steamors.

Sir, Crown Solicitor's Office, Sydney, 26 May, 1888. I have the honor to return herewith the papers relating to the above matter, which were forwarded to me from your Department on the 9th day of May, 1888, and to state that I have submitted them to Mr. Attorney-General Simpson, a copy of whose advising thereon will be found below.

I have, &c.. JOHN WILLIAMS,

Crown Solicitor.

[Enclosure.] COPY OPINION.

A FERRY steamer, if she occupied a berth for a whole day, would only have to pay 10s., and she would have to pay the same amount if she occupied the berth for a portion of a day.

The maximum charge for each day's occupation is 10s.

In my opinion she is not liable to pay 10s. for each separate occupation, and this is the reasonable construction which should be put upon the words of the section; and this construction should be adopted by the Government.

If the wharfage rates should be levied under section 15, on a wharf under the Amending Act, the Colonial Treasurer should make such special conditions applicable to the case of ferry steamers as would carry out what I believe to be the intention of the Legislature when massing the clause in question. intention of the Legislature when passing the clause in question.

G. B. SIMPSON, A.-G., 21/5 88.

# The Under Secretary for Finance and Trade to Mr. T. Horton.

Sir,

I have the honor, by direction of the Colonial Treasurer, to acknowledge receipt of your letter of 25th instant, and to inform you in reply that your offer for the Watson's Bay wharf cannot be antertained a marriage of the latest and the context in the watson's bay wharf cannot be antertained a marriage of the latest and the lat I have, &c., F. KIRKPATRICK, be entertained, a previous offer having been accepted.

(for Under Secretary.)

# No. 13.

# Mr. T. F. Strange to The Colonial Treasurer.

Watson's Bay, 26 June, 1888. Sir. I do myself the honor to bring under your notice the following in connection with the wharf at Watson's Bay. Sometime ago I was informed that a notice had appeared in the Government Gazette intimating that the said wharf was to be let by public tender, and at the same time a petition was sent to you from a large number of the residents asking that this should not be done, as whoever secured the lease would have it in their power to prevent anyone from landing, unless on certain terms, to the great detriment of property, and against the progress and prosperity of Watson's Bay. On this it was understood that nothing further would be done in the matter until inquiries were made, but greatly to the surprise of all we are informed that the Watson's Bay and South Shore Ferry Company have secured the lease for the nominal sum of £50 per annum, and have already placed a wharfinger there (who has added a refreshment stall to his other duties in the public weiting ream)

a refreshment stall to his other duties in the public waiting-room).

Being convinced that means have been used not known to the public to hand over this monopoly to the Ferry Company, I would respectfully ask to be supplied with a list of the tenderers, with the amounts tendered, and their names and addresses; and also that you will cause inquiry to be made into the whole transaction, with a view of securing to the inhabitants of Watson's Bay and the public the rights to the public jetty in question. I have, &c., T. F. STRANGE, rights to the public jetty in question,

For the report of Captain Jackson.—J.F.B., 26/6/88.

Captain Jackson.—G.E., B.C., 26/6/88.

# No. 14.

# Minute of The Manager of the Circular Quay.

On the 5th May last the wharf at Watson's Bay was proclaimed a public wharf under the Act 44 Vic. No. 8. It was deemed advisable by the Government to lease it by public tender. The wharf was duly advertised in the daily papers, but no one tendered for it. It was then leased privately to the South Shore Ferry Company at £50 per annum. This amount, I think, is a fair annual rental for it.

J.J., Circular Quay, 29/6/88.

Sydney: Charles Potter, Government Printer,-1888.

# LEGISLATIVE ASSEMBLY.

# NEW SOUTH WALES.

# STEAM TUG SERVICE.

(CORRESPONDENCE, &c., RESPECTING TENDERS FOR)

Ordered by the Legislative Assembly to be printed, 16 February, 1888.

RETURN to an Order of the Honorable the Legislative Assembly of New South Wales, dated 13th December, 1887, That there be laid upon the Table of this House,—

"Copies of all letters, papers, tenders, minutes, and other documents relating to the calling for and acceptance of tenders for Steam Tug service upon the various harbours and rivers of the Colony, for the year 1888."

(Mr. Sec.)

# Mr. R. H. F. Kemp to The Colonial Treasurer.

Sir,

St. Leonards, 18 February, 1887.

I do not know whether I am taking the proper course to bring a matter of retrenchment under your notice in thus writing, but you will pardon me if not exactly correct.

J understand that the fug service at the different rivers along the coast costs something like £8,000, and I am quite satisfied that nearly all, if not all, this large amount could be saved and the work done very much more effectively by being left entirely to competition, withdraw all the subsidies, and there will be plenty to do the work without any subsidy, or you could have the service performed by the pilots and their crews, Government owning the tugs and making a charge for towage; by this means you could get a large income instead of at present a heavy outlay. I have given the matter much consideration as I am interested in sailing vessels (but not in steam) and speak from a long experience in shipping matters. I also know that the present subsidized tugs are earning very large sums for their owners, irrespective of the subsidy.

I hope, Sir, that you will take the matter into your serious consideration as I feel certain a great saving can be effected and the work performed much more satisfactorily than it is at present.

RICH. H. F. KEMP.

J.F.B., 23/2/87. The Secretary to the Marine Board, B.C., 23/2/87.—G.E. The Marine Board have somewhat anticipated the recommendation herein contained by their letter of 25th ultimo.—By order, G.S.L., 5/3/87. The Under Secretary for Finance and Trade.

The

The Secretary, Marine Board, to The Under Secretary for Finance and Trade.

Sydney, 25 February, 1887. I have the honor, by direction of the Marine Board, to inform you, that a considerable saving would be effected on the Treasury votes, amounting to £7,996 per annum, for subsidising steam tugs, and the service improved, if notice under terms of the conditions (see specification, copy enclosed) were served

on all the proprietors terminating the service at the end of twelve months. Some of these contracts have been entered into without inviting tenders; others have been in exist-

ence several years; all of them are more costly than they should be. The Board, therefore, proposes that notice of discontinuance should be served on the proprietors of each of the boats, and fresh tenders invited.

The Board also proposes that a fresh clause be inserted in the new conditions to protect the shipowner from overcharges in cases where vessels get into difficulties, and have to employ the services of these subsidised tugs to extricate them from danger.

1 have, &c., GEO. S. LINDEMAN,

Secretary.

I concur.—J.F.B., 28/2/87. Mr. Ross,-Give the required twelve months' notice. See me.-Done, 10.—M.R. G.E., 1/3/87.

# The Under Secretary for Finance and Trade to Mr. F. Buckle.

The Treasury, New South Wales, Sydney, 10 March, 1887. Sir, I am directed by the Colonial Treasurer to inform you that it has been determined to give notice of termination to all contractors for steam tug services, with a view of calling of fresh tenders upon amended conditions, which it is anticipated will lead to greater efficiency in the services. I am therefore now to give you notice that your contracts as below will be discontinued at the expiration of twelve calendar months from 1st April next, namely :-

Tug service, Tweed and Brunswick Rivers.

Dο Bellinger River. Dο Port Macquarie.

Tug service, Camden Haven.  $D_0$ Cape Hawke.  $\mathbf{D}_0$ Wollongong.

I have, &c., G. EAGAR.

The Under Secretary for Finance and Trade to Messrs. Langley and Hogan.

I am directed by the Colonial Treasurer to inform you that it has been determined to give notice of termination to all contractors for steam tug services, with a view to the calling of fresh tenders upon amended conditions, which it is anticipated will lead to greater efficiency in the services. I am therefore now to give you notice that your contracts as below will be discontinued at the expiration of twelve calendar months from 1st April next, namely:—

Tug service, Manning River.

Macleay and Nambucca Rivers.

I have, &c., G. EAGAR.

# The Under Secretary for Finance and Trade to Mr. T. Fenwick.

10 March, 1887. Sir, I am directed by the Colonial Treasurer to inform you that it has been determined to give notice of termination to all contractors for steam tug services, with a view to the calling of fresh tenders upon amended conditions, which it is anticipated will lead to greater efficiency in the services. I am, therefore, now to give you notice that your contract, as below, will be discontinued at the expiration of twelve calendar months from 1st April next, namely .—

Tug service, Richmond River.

I have, &c., G. EAGAR.

The Secretary, Marine Board, to The Under Secretary for Finance and Trade.

Marine Board of New South Wales, Sydney, 14 April, 1887. I have the honor, by direction of the Marine Board, to enclose the accompanying copy of my letter of the 25th February, and to suggest that, as notice of discontinuance of the present service has been served on the various contractors, no time should be lost in calling tenders for a fresh tug service along the entire coast.

Various suggestions in reference to improving and economising this service have been made; but if the present arrangement is changed a large outlay in providing steamers, &c., would have to be made,

and the Board very much doubt if an improvement would be effected thereby.

According to the present system of subsidising, the service should become self-supporting in time. It is therefore respectfully urged, as previously suggested, that fresh tenders be called without further I have, &c., GEO. S. LINDEMAN, delay.

Secretary.

Let fresh tenders be invited.—J.F.B., 20/4/87.

[Enclosures.]

#### [Enclosures.]

 $(\Lambda.)$ 

Sydney, 25 February, 1887. Sir. I have the honor, by direction of the Marine Board, to inform you that a considerable saving would be effected on the Treasury votes, amounting to £7,996 per annum, for subsidising steam tugs, and the service improved, if notice under terms of the condition (see specification, copy enclosed) were served on all the proprietors terminating the service at the end of twelve months.

Some of these contracts have been entered into without inviting tenders; others have been in existence several years; all of them are more costly than they should be.

The Board, therefore, proposes that notice of discontinuance should be served on the proprietors of each of the boats and fresh tenders invited.

The Board also proposes that a fresh clause be inserted in the new conditions to protect the ship-owner from over charges in cases where vessels get into difficulties, and have to employ the services of these subsidised tugs to extricate them from danger.

I have, &c., GEO. S. LINDEMAN, Secretary.

# COPY OF TREASURY NOTICE INVITING TENDERS.

The Treasury, New South Wales, 31 May, 1887.

#### STEAM-TUG SERVICES.

TENDERS will be received at this office up to noon of Thursday, the 28th July, from persons desirous of supplying and maintaining efficient steam-tugs for use at the undermentioned places, viz.:—

1. Tweed and Brunswick Rivers,

- Bellinger River (including a monthly trip to the Solitary Islands, with stores, &c.),
   Port Macquarie,
- 4. Camden Haven,

- 5. Cape Hawke,
  6. Wollongong,
  7. Manning River,
  8. Macleay and Nambucca Rivers,
  9. Richmond River,

# (Each number is a separate contract),

on the basis of an annual subsidy from the Government, and with the right reserved to the tenderer to charge shipping for

the use of the tugs at rates not exceeding 4d. per registered ton, both in and out, with a minimum of £1 10s.

The conditions of the contracts may be seen at the office of the Marine Board.

The vessels in each case must be of not less than 20-horse-power, and be thoroughly fitted, in the opinion of the

Marine Board, for the service required.

The several services will commence on 1st April, 1888.

Tenderers must state the amount of subsidy (over and above the towage rates) required for the service specified, and

must submit the names of the persons (two) they propose as surcties.

The contractors, within fourteen days from notification of acceptance of tender, will be required to enter into a bond with their surcties for the due performance of the service; and in the event of failure to complete the bond in the time named the contract may either be readvertised or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

Tenders to be addressed to the Under Secretary for Finance and Trade, and endorsed "Tender for Tug Service."

J. F. BURNS.

# COPY OF SPECIFICATION REFERRED TO IN NOTICE ABOVE.

#### STEAM TUG SERVICES.

Conditions referred to in the Treasury notice of 31st May, 1887, for the employment of Steam Tugs.

1. The tug is to be available for towing vessels in and out of the place tendered for.

2. The tug is not to leave its station at any time without the sanction of the Marine Board, and is to endeavour to be in the vicinity of the station when vessels are there ready for sea.

3. Priority of service is to be given to the vessel being then ready for sea, and first notifying to the master of the tug the want of such service, except in the case of a vessel in actual danger, when assistance is to be promptly rendered.

4. Should the tug at any time, or for any reason, be absent from her station without authority, or be incapacitated from performing her duty, the subsidy for the period of such absence or incapacity shall not be paid, unless the contractor shall

substitute an approved steamer for the service during such absence.

5. The ordinary rate for towing in or out, chargeable for the use of the tug, is not to exceed 4d. per register ton, with a minimum of £1 10s. In the event of cargo being taken to and from vessels, a rate not exceeding 2s. 6d. per ton may be charged.

6. In the event of dispute arising, by reason of special services having been rendered by the tug to stranded vessels, or to vessels otherwise in distress, the matter is to be settled by arbitration, without litigation, by the tug-owner and the owner of the distressed vessel appointing arbitrators in the usual way, and calling in an umpire if necessary; the party decided against to pay the costs of the arbitration.

7. The master of the tug will be required to take the pilot off (weather permitting) to any vessels signalling for his services in the offing. He will also be expected to render any assistance—such as sounding the bar, &c.—as may be required of him by the pilot.

of him by the pilot.

8. The service may be terminated by six months' notice on either side, subject to the right of the Government to cancel on breach of any of the conditions.

9. All conditions being observed, the subsidy will be paid monthly at the Treasury.

The Treasury, New South Wales, 31st May, 1887.

J. F. BURNS.

# R. Burdett Smith, Esq., M.P., to The Colonial Treasurer.

Sir. 24 April, 1887. I have the honor to forward the accompanying letter from Mr. Richard Kemp on the subject of the tug service, Nambucca River. Will you be pleased to give attention and consideration to the representations contained in the letter of Mr. Kemp.

I am, &c., R. BURDETT SMITH.

[Enclosure.]

[Enclosure.]

My dear Sir,

I see by the papers that the Colonial Treasurer is going to cry back in his good metentons in the matter of subsidized tugs. It is a strange thing that immediately a Minister determines to do what is right and just and for the public good, there are always found men who will bring their political influence in favour of the wrong. Such has no doubt been done in this case, and Mr. Burns is sacrificing from £8,000 to £10,000 per annum in crying back.

I am writing more particularly to you to call your attention to the disgraceful apologies for tugs stationed at the Nambucca and Macleay Rivers. One—the "Pelican"—is a condemned Parramatta River boat (running when you and I were boys); the other, the "Acia," an old condemned tug from the Manning. Neither the one nor the other of these boats is fit for the work, and their continuing there is a serious loss to the owners of vessels trading to the river, and greatly injurious to the best interests of the district. The charges for tonnage is also outrageous. I trust that you will use your best endeavours to get these things remedied, and your constituents will, as in duty bound, ever pray.

I am, &c.,

I am, &c. RICHARD II. F. KEMP.

 $P.S.{--}I$  shall be most happy to accompany you to the Minister at any date you appoint. R. B. Smith, Esq., M,P.

# Mr. R. H. F. Kemp to The Colonial Treasurer.

Sir, Sydney, 11 May, 1887. Some few weeks I addressed you on the subject of the tugs subsidized by Government on the various rivers, which letter you sent to the Marine Board for consideration. They approved of my suggestion,

so also did the Underwriters' Association, so also did all shipowners interested therein, and were all well pleased when it was announced that you were going to place the pilots in the tugs and get rid of the present very unsatisfactory and very costly system. It has been announced that you have changed your mind, no doubt under pressure brought to bear by the tug-owners.

When I wrote to you before, it was with the belief that you would not allow any influence, however strong, to cause you to swerve from the declared determination of the Government to retrench, and I am now writing to show you that my position was sound. I will take what I think is a mean of the whole of the rivers, say Port Macquarie, of which I give you the figures as near as I can get them. You have there a pilot and four men, whose pay must amount to something like £800 per year—either two or three boats, which used to some £50 per year—then the subsidy, which is, I think, £800, so that we have here an actual outlay of £1,650 without any return. I am also informed by a person who took notice of tug cornings (with a view of toudoring) and he says she clears independent of the subsidy. £40 per month earnings (with a view of tendering) and he says she clears, independent of the subsidy, £40 per month, but say £30, and we have no less a sum than £1,160 per annum this tug is making; two years of this will

pay for the tug I am told, and I think credibly that the owner of the tug at Camden Haven pays the owner of the Port Macquarie tug £300 per year bonus for not opposing him when tendering.

The proper and most satisfactory way this matter can be settled is for the Government to take the matter into their own hands, put the pilots into the tugs, abolish all exemption tickets, compel all vessels to take the tug, making the charge £3 per trip up to 100 tons, 4d. per ton over that tomage; by this, instead of some thousands going out over your going the theorems.

instead of some thousands going out every year, some thousands will come into the Treasury

I may further add that much use could be made of the tugs in connection with the dredge service towing silt punts.

I understand a numerously signed petition will be presented to you in a few days, asking you to der your recent decision.

I have, &c.,
R. H. F. KEMP. reconsider your recent decision.

# CONTRACT FOR THE PUBLIC SERVICE.

(No. 1.)

TENDERS for steam tug service at the Tweed and Brunswick Rivers, from 1st April, 1888. Opened at the Treasury, 28th July, 1887. In all six tenders received, namely :-

No.	Tenderer,	Annual S	ubsi	dy	,
1 2 3 4 5 6	J. Amess and Sons  John Fenwick	1,188 1,023 1,111 1,197	0 0 0 0 0	0 0 0 0 0 0	S.S. "Tweed." S.S. "Victoria."

The Board recommends reference to the Marine Board for report.

FRANCIS HIXSON. W. O. HOPKINS.

The Treasury, 28 July, 1887.

Refer the whole of the tenders to the Marine Board for its report.—J.F.B., 5/8/87.

The tender of C. Philbrooks, No. 5. the lowest, for £888 per annum, is recommended on condition that he names a boat or furnishes the specification of one which in the opinion of the Marine Board is thoroughly fitted for the service required.

The Under Secretary for Finance and Trade.

By order, G.S.L, 9/8/87.

(S. 945.)

The Treasury, New South Wales, Sydney, 15 August, 1887. Sir, With reference to your tenders of date 28th ultimo for the steam tug services at (1) Tweed and Brunswick Rivers, (3) Port Macquarie, (4) Camden Haven, and (5) Cape Hawke, I am directed to request that you will be good enough to name the steamers which you would be prepared to use in the event of the acceptance of your tenders in question. Should it be your intention, in the event named, to build steamers for the services, I am to ask that you will be good enough to forward the specifications of such steamers, together with a guarantee to build to such specifications in each case, if required to do so.

Mr. Charles Philbrooks, Balmain.

G. EAGAR.

Sydney, 23 August, 1887. I having seen my friends, I find they will not stick to me with money to carry out all the contracts as promised, but I have money of my own to find one boat if you should feel disposed to give I am, &c.

The Hon. G. Eagar, Esq.

CHARLES PHILBROOKS.

The Marine Board now consider the tender of Mr. F. Buckle for £996 the most suitable.— By order, G.S.L., 6/9/87. Informed.—M.R., 10/9/87. Approved.—J.F.B., 9/9/87. The Under Secretary for Finance and Trade. (87-7,290)

The Treasury, New South Wales, 10 September, 1887. Sir, I have the honor, by direction of the Colonial Treasurer, to intimate to you the acceptance of your tender of 28th July last, for the supply and maintaining an efficient steam tug service at the Tweed and Brunswick Rivers, with the s.s. "Tweed," for the sum of £996 per annum, in terms of Gazette notice dated 31st May, 1887. The service will commence on 1st April, 1888.

I have, &c., G. EAGAR.

Mr. F. Buckle, Erskine-street.

92 Sussex-street, Sydney, 7 October, 1887. We not being successful in getting any of the work for which we tendered, as employment for Sir. our tug boats, we beg to say we are willing to take up Mr. Philbrooks' tender for the Tweed and Brunswick Rivers, and carry through the same efficiently, for which we are prepared with the necessary bondsmen, and offer for the service the tug-boat "Harrington," now employed in the Manning River tug service. We have, &c.,

ROBT. LANGLEY. P. HOGAN.

The Hon. the Colonial Treasurer.

Mr. Pinhey, for report.—J.T., 12/10/87.

Mr. Philbrooks tendered for the Tweed and Brunswick. Port Macquaric, Camden Haven, and Cape Hawke tug services, and was asked by the Treasury (see letter S 945) to name his boats he intended for the various services, or forward specifications of steamers if he intended building, together with a guarantee to build to such specifications if required to do so. He replied (see letter No. 87-5,533 attached), stating that he had seen his friends, who would not stick to him Allerine Board for report, when they considered the tonder of Mr. Bushle the most suitable which recommendation was approved of by the Colonial the tender of Mr. Buckle the most suitable, which recommendation was approved of by the Colonial Treasurer (see papers 87-7,290), and Buckle informed that his tender for Tweed and Brunswick was accepted.—G.A.A., 13/10/87.

Mr. Pinhey, 13. I think these gentlemen might be informed that Mr. Philbrooks' tender has

not been accepted for the tug service referred to.-F.K., 13/10/87.  $\Upsilon$ es. Mr. Pinhey,—Inform.—

Done, 14.—C.P. J.T., 13.

The Treasury, New South Wales, Sydney, 14 October, 1887. Gentlemen, Referring to your letter of 7th instant, I have the honor to inform you that the tender of Mr. Philbrooks was not accepted for the Tweed and Brunswick tug service contract.

JAMES THOMSON.

Messrs. Langley and Hogan, 92, Sussex-street.

(per U.S.)

# CONTRACT FOR THE PUBLIC SERVICE.

(No. 2.)

Messrs. N. Christensen & Co., 37, Druitt-street.

CONTRACTS

(No. 5.)

Tenders for steam tug service at Cape Hawke, from 1st April, 1888. Opened at the Treasury, 28th July, 1887. In all three tenders received, namely:—

No.	Tendorer.	Annual Subsidy.	
· 1 2 3	Langley & Hogan F. Buckle C. Phillbrooks	672 0 0	"Marian Mayfield."

The Board recommends reference to the Marine Board for report.

The Treasury, 28 July, 1887.

FRANCIS HIXSON. W. O. HOPKINS.

The tender of C. Philbrooks (No. 3), for £480 (the lowest) per annum is recommended, on condition that he names a boat, or furnishes the specification of one which, in the opinion of the Marine Board, is thoroughly fitted for the service required.—By order, G.S.L., 9/8/87. The Under Secretary for Finance and Trade.

[Note.—See Philbrooks' letter with the Tweed and Brunswick papers.]

The Marine Board now recommend that the tender of F. Buckle for £672 be accepted.—By order, G.S.L., 6/9/87. The Under Secretary for Finance and Trade. Declined.—J.F.B., 9/9/87. Fresh tenders to be invited.—J.F.B., 29/9/87. Tenders invited to come in on 27th instant.—G.A.A., Forwarded for the information of the Marine Board.-J.T. (per U.S.), 7/10/87.

The Treasury, New South Wales, 6 October, 1887.

# FRESH TENDERS .- STEAM-TUG SERVICE AT CAPE HAWKE.

FRESH Tenders will be received at this office up to noon of Thursday, the 27th instant, from persons desirous of supplying and maintaining an efficient steam-tug for use at Cape Hawke, on the basis of an annual subsidy from the Government, and with the right reserved to the tenderer to charge shipping for the use of the tug at rates not exceeding 4d. per registered ton, both in and out, with a minimum of £1 10s.

The conditions of contract may be seen at the office of the Marine Board.

The vessel must be of not less than 20 horse-power, and be thoroughly fitted, in the opinion of the Marine Board, for the service required.

The service will commence on 1st April, 1888.

Tenderers must state the amount of subsidy (over and above the towage rates) required for the service specified, and must submit the names of the persons (two) they propose as sureties.

The Contractor, within fourteen days from notification of acceptance of tender, will be required to enter into a bond with his sureties for the due performance of the service; and in the event of failure to complete the bond in the time named, the contract may either be readvertised or another tender accepted. The Government will not necessarily accept the lowest or any tender.

Tenders to be addressed to the Under Secretary for Finance and Trade, and endorsed " Tender for Tug Service."

J. F. BURNS.

# STEAM-TUG SERVICE.

Conditions referred to in the Treasury notice of 6th October, 1887, for the employment of a Steam Tug at Cape Hawke.

1. The tug is to be available for towing vessels in and out of the place tendered for.

2. The tug is not to leave its station at any time without the sanction of the Marine Board; and is

to endeavour to be in the vicinity of the station when vessels are there ready for sea.

3. Priority of service is to be given to the vessel being then ready for sea, and first notifying to the

3. Priority of service is to be given to the vessel being then ready for sea, and first nothinging to the master of the tug the want of such service, except in the case of a vessel in actual danger, when assistance is to be promptly rendered.

4. Should the tug at any time or for any reason be absent from her station without authority, or be incapacitated from performing her duty, the subsidy for the period of such absence or incapacity shall not be paid, unless the contractor shall substitute an approved steamer for the service during such

5. The ordinary rate for towing in or out, chargeable for the use of the tug, is not to exceed 4d. per register ton, with a minimum of £1.10s. In the event of cargo being taken to and from vessels, a rate not exceeding 2s. 6d. per ton may be charged.

6. In the event of dispute arising, by reason of special services having been rendered by the tug to stranded vessels, or to vessels otherwise in distress, the matter is to be settled by arbitration, without litigation, by the tug-owner and the owner of the distressed vessel appointing arbitrators in the usual way,

and calling in an umpire if necessary; the party decided against to pay the costs of the arbitration.

7. The master of the tug will be required to take the pilot off (weather permitting) to any vessels signalling for his services in the offing. He will also be expected to render any assistance,—such as sounding the bar, &c., as may be required of him by the Pilot.

8. The service may be terminated by six months' notice on either side; subject to the right of the Government to cancel on breach of any of the conditions.

9. All conditions being observed, the subsidy will be paid monthly at the Treasury.

J. F. BURNS.

The Treasury, New South Wales, 6th October, 1887.

#### FRESH TENDERS.

FRESH Tenders for steam tug service at Cape Hawke, from 1st April, 1888. Opened at the Treasury, 27th October, 1887. In all four tenders received, namely:—

No.	Tenderers.	Annual Subsidy.	
1 2 3 4	Laugley & Hogan Peter Ellison George Dent, senr. Francis Buckle	£ s. d. 587 0 0 720 0 0 480 0 0 540 0 0	·

The Board recommend that the abovementioned (four) tenders be referred to the President of the Marine Board for report.

The Treasury, 27 October, 1887.

W. O. HOPKINS. J. T. BLANCHARD.

The Marine Board recommend that the lowest tender, that of Mr. Dent, for £480, be accepted, provided the steamer (not mentioned) comes up to the requirements of the regulations.—By order, G.S.L., 8/11/87. The Under Secretary for Finance and Trade. Mr. Dent asked to name the steamer he would use in the event of his tender being accepted.—M.R., 11/11/87.

Sir, The Treasury, New South Wales, Sydney, 11 November, 1887. With reference to your tender for the Cape Hawke tug service, I am directed to request that you will be good enough to state what steamer you would use in the event of the acceptance of your tender.

Awaiting your reply,-

I have, &c.

JAMES THOMSON, for U.S.

Mr. George Dent, sen., Ruby Cottage, Botany.

Sir,

Referring to your letter of 1,178-200 of 11th instant, requiring to know the name of the steamer with which I would perform the steam service tendered for Cape Hawke, I beg to say that I have three steamers all of the required capacity, power, and character for the service, but differing in draught of water. I start to-day to examine the bar and surroundings of Cape Hawke, to inform myself of depth of water, &c., and on my return, in a few days, will be able to name the vessel I would submit as competent for the service. I have, &c.

GEORGE DENT, SEN. Per J.H.M.

The Secretary to the Marine Board.—J.T. (for U.S.), 16/11/87.

Mr. Dent has not submitted any steamer for approval up to date; these papers are therefore returned for further action. By order.—G.S.L., 7/1/88. The Under Secretary for Finance and Trade. I recommend that Mr. Dent be reminded at once.—M.R., 11/1/88. The Under Secretary. Done.— M.R., 12.

Sir, The Treasury, New South Wales, Sydney, 12 January, 1888. I am directed to invite your attention to the circumstance that you have not yet submitted a steamer for the Cape Hawke Tug Service as promised in your letter of 14th November last.

I am now to say that the matter cannot be kept open beyond this day week, and I shall be glad to hear from you in the interval.

I have, &c.,

Mr. George Dent, sen., Ruby Cottage, Botany.

G. EAGAR.

Sydney, 18 January, 1888. In answer to your letter of 12th instant, in reference to accepted tender for tug service for Cape Hawke. The name of the steamer, that I submit for the above service, is the "Marian Mayfield." She is fully up to the requirements, and has been passed by the Marine Board.

I have, &c. ve, ac., GEORGE DENT, Sen., Per J.H.M.

The Secretary, Marine Board, for report.—G.E., 19/1/88.
In the opinion of the Marine Board the "Marian Mayfield" is well suited for the work intended. By order.—G.S.L., 25/1/88. The Under Secretary for Finance and Trade. Approved.—J.F.B., 1/2/88. Informed.—M.R., 2/2/88.

CONTRACT

(No. 6.)

TENDERS for steam tug service at Wollongong, from 1st April, 1888. Opened at the Treasury, 28th July, 1887. In all nine tenders received, namely:—

9	M. Byrnes	740 0 0	" Despatch." " Princess."

The Board recommend reference to the Marine Board for report.

FRANCIS HIXSON. W. O. HOPKINS.

The Treasury, 28 July, 1887.

The tender (No. 3) of J. Amess & Sons being the lowest—£500 per annum—it is recommended, on condition that they name a boat, or guarantee to build one, which, in the opinion of the Marine Board, will be thoroughly fitted for the tug service at Wollongong.—By order, G.S.L., 10/8/87. The Under Secretary for Finance and Trade.

(S. 946-7,295.)

(S. 946-7,295.)
Gentlemen,
With reference to your tender of 28th ultimo for the steam tug service at Wollongong, I am directed to request that you will be good enough to name the steamer which you would be prepared to use in the event of the acceptance of your tender in question. Should it be your intention, in the event named, to build a steamer for the service. I am to ask that you will be good enough to forward the specification of such steamer, together with a guarantee to build to such specification, if required to do so.

I have, &c..

Messrs. J. Amess & Sons, 93, Sussex-street.

G. EAGAR.

Sir,

93, Sussex-street, Sydney, 18 August, 1887.

In reply to yours of 15th instant (S. 946-7,295), re supply of steam tug for Wollongong, we beg to state that should our tender be accepted we are prepared to build a steamer suitable for the service 70 feet long, with engines either 10" and 20" or 11" and 22" cylinders, compound surface condensing (equal in 1 to 20-h.p. and in the other 25-h.p.), both hull and machinery subject to approval and survey by the Marine Board Surveyors. The above engines are of more power than those in the tug at present engaged in the service, the engines of which are 9" and 18" cylinders.

We are willing to enter into a bond for the completion of a steamer within the time specified.

Yours, &c.,

The Under Secretary for Finance and Trade.

J. AMESS & SONS.

The Secretary Marine Board, for report.—G.E., 24/8/87. For the Marine Board.—J.F.B., 23/8/87.

Sir,

Referring to Messrs. Amess' offer to build a suitable steam tug, the size of the engines is satisfactory, but he says nothing about the boiler or the pressure.

Have sent for him (Amess) to get the necessary particulars. Yours, &c. WILLIAM CRUICKSHANK,

G. S. Lindeman, Esq.

Government Engineer Surveyor.

Sir,

Have examined the machinery which Messrs. Amoss intend fitting in the proposed tug steamer for Wollongong. It is exceptionally suitable in every way. She will be more powerful than the vessel which is performing the service at present.

Yours, &c.,

WILLIAM CRUICKSHANK,

G. S. Lindeman, Esq.

Government Engineer Surveyor.

The Marine Board are now of opinion that Amess & Son's tender should be accepted.—By order, G.S.L., 6/9/87. The Under Secretary for Finance and Trade. Approved.—J.F.B., 9/9/86. Informed.—M.R., 10/9/87.

Gentlemen, The Treasury, New South Wales, 10 September, 1887. I have the honor, by direction of the Colonial Treasurer, to intimate to you the acceptance of your tender of 27th July last, for the supply and maintaining an efficient steam tug service at Wollongong with a new boat to be built, for the sum of £500 per annum, in terms of Gazette notice dated 31st May, 1887. The service will commence on 1st April, 1888. I have, &c . Messrs, J. Amess & Son, 93, Sussex-street. G. EAGAR.

(No. 7.)

TENDERS for steam tug service at the Manning River, from 1st April, 1888. Opened at the Treasury 28th July, 1887. In all three tenders received, namely:—

No.	Tenderer.	Annual	Sub	sidy.	
1 2 3	Hector Gollan Langley & Hogan F. Buckle	400	0	0	"Christina Gollan." New boat.

The Board recommends reference to the Marine Board for report.

FRANCIS HIXSON. W. O. HOPKINS.

The Treasury, 28 July, 1887.

The tender of Hector Gollan, No. 1, the lowest, for £400, is in the opinion of the Marine Board, of for the service.—By order, G.S.L., 10/8/87. The Under Secretary for Finance and Trade. eligible for the service.—By order, G.S.L., 10/8/87. T Approved.—J.T.B., 15/8/87. Informed.—M.R., 15/8/87.

Sir,

The Treasury, New South Wales, 15 August, 1887.

I have the honor, by direction of the Colonial Treasurer, to intimate to you the acceptance of your tender of 20th ultimo, for the supply and maintaining an efficient steam tug service at the Manning River, with the s.s. "Christina Gollan" for the sum of £400 per annum, in terms of Gazette notice dated 31st May, 1887. The service will commence on 1st April, 1888.

Mr. Hector Gollan, Lismore.

I have, &c. G. EAGAR.

# CONTRACT FOR THE PUBLIC SERVICE.

(No. 8.)

Tendens for steam tug service at the Macleay and Nambucca Rivers from 1st April, 1888.

Opened at the Treasury, 28th July, 1887. In all six tenders received, namely:—

No.	Tenderer.	Annual Subsidy.		
1 2 3 4 5	Langley & Hogan R. C. Kirkwood Christensen & Co. F. Buckle  John Fenwick  R. Hayes	708 0 660 0 660 0 800 0 920 0 1,000 0	0 0 0 0 0 0	9-hp. 11-hp. 13-hp.

The Board recommends reference to the Marine Board for report.

The Treasury, 28 July, 1887.

FRANCIS HIXSON. W. O. HOPKINS.

The lowest offers in this case are Christensen & Co. and F. Buckle, Nos. 3 and 4, each for £660; the latter guarantees to provide a boat of 25-horse-power; as the Marine Board consider this the most eligible tender, and a saving of £167 per annum will be effected on the present service, they recommend its acceptance.—By order, G.S.L., 10/8/87. The Under Secretary for Finance and Trade. Approved.—J.F.B., 15/8/87. Informed.—M.R., 15/8/87.

Sir,

I have the honor, by direction of the Colonial Treasurer, to intimate to you the acceptance of your tender of 28th ultime, for the supply and maintaining an efficient steam tug service at the Macleay and Nambucca Rivers, with a new boat 25-h.-p., for the sum of £660 per amum, in terms of Gazette notice dated 31st May, 1887. The service will commence on 1st April, 1888.

Mr. F. Buckle, Erskinc-street.

I have, &c., G. EAGAR.

Telegram from Messrs. Christensen & Erchman, to R. B. Smith, Esq., M.P.

Nambucca, 26 July, 1887. WE notice tenders for 20-h.p. tug-boat for Nambucca closes on Thursday, which is insufficient altogether for the class of vessels trading here now; 40-h.-p. is what we require. We now ask you to use your

influence to try and get us what we require.

CHRISTENSEN & ERCHMAN.

The Under Secretary for Finance and Trade, (presented by R. Burdett Smith, Member for the Macleay, 26 July, 1887). Would Mr. Eagar be pleased to cause attention to be given to these representations.—R.B.S. Mr. Ross, 26/7/87.

Messrs. Christensen & Erchman are not fully informed. The Gazette notice says:—"The vessel must be of not less than 20-h.-p., and be thoroughly fitted in the opinion of the Marine Board for the service required." As the Marine Board will be represented upon the Tender Board, Mr. R. Burdett Smith may with assurance inform his correspondents that no tender will be accepted for the Nambucca which is not likely to give satisfaction.—M.R., 26/7/87. The Under Secretary.

Mr. Ross,—To lay before the Tender Board.—G.E., 26/7/87. Seen by Tender Board.—M.R., 28/7/87.

#### CONTRACT FOR THE PUBLIC SERVICE.

(No. 9.)

TENDERS for steam tug service at the Richmond River from 1st April, 1888. Opened at the Treasury, 28th July, 1887. In all six tenders received, namely:—

No.	Tenderer.	Annual Subsidy,	
1 2 3 4 5	Langley & Hogan J. & A. Brown T. Fenwick T. Fenwick T. Fenwick J. & A. Brown	1,860 0 0	"Enterprise." "Protector." "Comet." "Sarah Hixson." "Leo."

The Board recommends reference to the Marine Board for report. The Treasury, 28 July, 1887.

FRANCIS HIXSON. W. O. HOPKINS.

The Marine Board is of opinion that the "Protector" is the only vessel in these offers capable of efficiently performing the tug service at the Richmond River; they therefore recommend that the tender of Thomas Fenwick, No. 3, for £1,860 (a saving of £360 on the present contract), be accepted.—By order, G.S.L., 10/8/87. The Under Secretary for Finance and Trade.

Approved.—J.F.B., 10/8/87. Informed.—M.R., 15/8/87.

Sir,

'In reply to your inquiries, I beg to inform you that the tug "Protector," although only 55 nominal horse-power, can be worked up to about 200 horse-power. She is therefore a very powerful boat and well fitted for the service at the Richmond, which is one of the worst bars we have on the coast. It is also the place where the largest class of vessels trade.

Yours, &c., FRANCIS HIXSON.

The Hon. G. Eagar.

Sir,

I have the honor, by direction of the Colonial Treasurer, to intimate to you the acceptance of your tender of 27th ultime for the supply and maintaining an efficient steam tug service at the Richmond River with the s.s. "Protector" for the sum of £1,860 per annum, in terms of Gazette notice, 31st May, 1887. The service will commence on 1st April, 1888.

Mr. Thomas Fenwick, c/o Messrs. Wall & Molesworth, 18 Loftus-street, Sydney. I have, &c., G. EAGAR. (THIRD SESSION.)

### LEGISLATIVE ASSEMBLY.

# NEW SOUTH WALES.

# STEAM TUG SERVICE, RICHMOND RIVER.

(CONDITIONS OF EMPLOYMENT.)

Ordered by the Legislative Assembly to be printed, 18 November, 1887.

# STEAM TUG SERVICES.

Conditions referred to in Treasury notice of 4th October, 1876, published in the Government Gazette of 6th October, 1876, for the employment of a steam tug on the Richmond River:-

1. The tug is to be kept available for towing vessels in and out of the Richmond River.

2. She is not to leave the station at any time without the sanction of the Marine Board, and is on

no account to be absent from the vicinity of the Heads when vessels are there ready for sea.

3. Priority of service is to be given to the vessel being then ready for sea, and first notifying to the master of the tug the want of such service, except in the case of a vessel in actual danger, when assistance is to be promptly rendered.

4. Should the steam tug, at any time, or for any reason, be absent from her station without authority, or be incapacitated from performing her duty, the subsidy for the period of such absence or

incapacity shall not be paid.

5. The ordinary rate for towing in or out of the port, chargeable for the use of the tug, is not to

exceed four pence per register ton, with a minimum of £2 10s. for small vessels.

6. The master of the tug will be required to take the pilot off (weather permitting) to any vessel signalling for his services in the offing.

7. All conditions being observed, the subsidy will be paid monthly at the Treasury.

ALEY STUART

ALEX. STUART.

The Treasury, New South Wales, 6th October, 1876.

Conditions referred to in the Treasury notice of 31st May, 1887, for the employment of steam tugs:-

The tug is to be available for towing vessels in and out of the place tendered for.
 The tug is not to leave its station at any time without the sanction of the Marine Board; and is

to endeavour to be in the vicinity of the station when vessels are there ready for sea.

3. Priority of service is to be given to the vessel being then ready for sea, and first notifying to the master of the tug the want of such service, except in the case of a vessel in actual danger, when

4. Should the tug at any time or for any reason be absent from her station without authority, or be incapacitated from performing her duty, the subsidy for the period of such absence or incapacity shall not be paid, unless the contractor shall substitute an approved steamer for the service during such absence.

5. The ordinary rate for towing in or out, chargeable for the use of the tug, is not to exceed 4d. per register ton, with a minimum of £1 10s. In the event of cargo being taken to and from vessels, a rate not exceeding 2s. 6d. per ton may be charged. assistance is to be promptly rendered.

exceeding 2s. 6d. per ton may be charged.

6. In the event of dispute arising, by reason of special services having been rendered by the tug to stranded vessels, or to vessels otherwise in distress, the matter is to be settled by arbitration, without litigation, by the tug-owner and the owner of the distressed vessel appointing arbitrators in the usual way, and calling in an umpire if necessary; the party decided against to pay the costs of the arbitration.

7. The master of the tug will be required to take the pilot off (weather permitting) to any vessels signalling for his services in the offing. He will also be expected to render any assistance,—such as sounding the bar, &c., as may be required of him by the pilot.

8. The service may be terminated by six months' notice on either side; subject to the right of the Government to cancel on breach of any of the conditions.

9. All conditions being observed, the subsidy will be paid monthly at the Treasury.

The Treasury, New South Wales, 31st May, 1887.

J. F. BURNS.
