NEW SOUTH WALES.

DEPARTMENT OF LANDS.

(REPORT FOR 1886.)

Printed in accordance with Resolutions of both Houses of Parliament.

The Under Secretary for Lands to The Secretary for Lands.

Sir, Department of Lands, Sydney, 22nd December, 1887.

I have the honor to submit, for your information, the Seventh Annual Report of this Department, being for the year 1886.

The pressure of business, arising mainly from the reorganization of the Department during 1887, which will be more fully alluded to in the Report for that year, coupled with the difficulty of drawing from various sources, and examining so large an amount of information as is here comprised, has prevented this Report being completed earlier, and has rendered it impossible to do more than briefly refer to the operations of the law, and the work that has been performed.

Appeals against decisions of Local Land Boards.

It has already been explained in the Report for the year 1885, that any person aggrieved by a decision of the Local Land Board has the privilege of appealing to the Minister for Lands in open Court.

Schedule I shows that during 1886, 211 appeals came before the Minister, who sustained 40, dismissed 120, postponed 14, and returned 37 to the Land Boards for further consideration and action. The decisions in these cases are necessarily of considerable interest and value to the public, as well as to the chairmen of the Boards and other officials of the Department, and, in order to secure their circulation, full reports, with analytical headings, are printed in the Government Printing Office, and sold at very reasonable prices.

Local Land Boards.

From Schedules II and III respectively will be ascertained the number and salaries of officers employed at the several Local Land Board and District Survey Offices. From Schedule IV will be seen the number of cases set down for investigation by Local Boards in open Court, and the number disposed of or adjourned. The same Schedule exhibits the expenses which the hearing of these cases involved.

The privilege which the present Act allows of lodging caveats against applications which interested persons may deem objectionable was (as may be ascertained from Schedule V) exercised in 208 cases.

Auction Sales.

The results of sales by auction during the year 1886 are exhibited in the following Schedule, which, for the sake of comparison, also shows the previous year's transactions :—

	Year.	No. of lots offered.	Area offered.	No. of lots sold.	Area sold.	Amount realized.	Average price per acre.
			a. r. p.		a. r. p.	£ s. d.	£ s. d.
Town	1885	666	256 1 9½	259	93 1 34¼	4,536 6 0	48 10 8¼
	1886	2,322	985 0 10½	1,014	421 3 14	21,074 16 0	49 19 2¼
Suburban ...	1885	520	1,577 0 27¼	338	900 2 26¾	64,419 0 10	71 10 8
	1886	1,476	5,012 0 14	517	1,843 0 32	18,933 2 3	10 5 5¼
Country ...	1885	93	3,541 3 34	51	1,654 1 30	5,512 18 4	3 6 7½
	1886	2,267	166,990 0 24	793	58,087 2 21	100,627 6 5	1 14 7¾

It will be seen that, taking town, suburban, and country lands together, the sales of 1886 exceeded those of 1885 by 1,676 lots, and the receipts of the later year exceeded those of the earlier one by £66,166 19s. 6d. The average price of country lands fell, however, from £3 6s. 7½d. to £1 14s. 7¾d. per acre, and of suburban land from £71 10s. 8d. to £10 5s. 5¼d. per acre, while that of town lands rose from £48 10s. 8¼d. to £49 19s. 2¼d. per acre. (*Vide* Schedules VI, VII, VIII, and IX.)

The fact that country lands fell from an average of £3 6s. 7½d. to £1 14s. 7¾d. per acre is explained by the circumstance that the land disposed of during 1885 was, for the most part, submitted in small blocks, near the suburban boundaries of towns, in situations which gave it a special value.

With regard to suburban land an explanation is found in the fact that out of the 338 lots sold in 1885, realizing £64,419 0s. 10d., 229 represented land in the Field of Mars Common, adjacent to Sydney, and these alone realized £61,423 10s. 10d.

Schedule No. X shows that 39 applications were made for refund of guarantee deposits, paid under section thirty of the Lands Acts Amendment Act of 1875, and that the amount authorized to be refunded—having been paid prior to 1885—was £2,340 19s. The amount of such deposit forfeited in 1886 was £76 0s. 6d.

For non-payment of purchase money within the prescribed time only two lots were forfeited (*vide* Schedule XI), which may be looked upon as satisfactory.

Improvement Purchases.

The Act of 1884 abolished the privilege which was previously enjoyed by pastoral leaseholders of purchasing land by virtue of the improvements which they effected upon it, and thenceforward recognised only such applications as should be made by persons who hold, under miners' rights or business license, land within proclaimed gold-fields.

The Act, however, admitted applications of pastoral lessees being put forward from the time of its passing up to the time of its commencement; and during this interval an exceedingly large number of applications were received. This serves to explain the fact that, during the year 1886, 1,905 purchases were completed in satisfaction of applications made under the repealed Acts. This number, however, included not only purchases by virtue of pastoral improvements but by virtue of improvements on gold-fields as well. The aggregate area purchased (exclusive of portions sold under the 46th section of the present Act, which are referred to further on) was 227,560 acres 2 roods 30 perches, and the amount paid, £294,457 19s. 6d., or, including penalties exacted for overdue payments, £295,490 3s. 4d. As will be seen from the following comparative statement the number

number of lots sold is greater than in any year since 1881, while, although the area sold and amount realized was not so large as in 1885, the average price per acre was greater than in any previous year.

Year.	No. of lots sold.	Area sold.	Amount realized.	Average price per Acre.
		Acres.	£	£ s. d.
1880	1,245	237,646	243,026	1 0 5
1881	2,648	474,098	487,694	1 0 7
1882	934	165,030	175,236	1 1 3
1883	658	103,774	116,219	1 2 4
1884	1,191	252,127	302,315	1 3 11
1885	1,481	292,257	367,990	1 5 2
1886	1,905	227,560	294,458	1 5 10½

Schedule No. XII gives full particulars of lands alienated by virtue of improvements during the year under review.

From Schedule No. XIII it will be seen that 356 applications (being fewer by 170 than those made during 1885) were made to purchase improved lands on gold-fields, by virtue of the 46th section of the Crown Lands Act of 1884, the aggregate area represented thereby being 218 acres 2 roods 19¾ perches. Of these 46 were refused and 26 were completed during the year, representing 5 acres 3 roods 20¼ perches, the amount realized being £267 9s. 6d. A further 8 applications were approved, and, including these, 284 remained not finally dealt with at the close of the year. In reference to these it should be explained that in dealing with such applications a large amount of time is absorbed in inquiring whether the alleged improvements are actually in existence, and the value which should be attached to them, besides investigating the validity of the claims in other respects, and it has to be said that the Department is frequently put to unnecessary expense in investigating applications put forward prematurely or without any sufficient reason whatever.

Special Purchases.

Schedule XIV illustrates the number of special purchases applied for during 1886 under sections 63, 64, 66, 67, and 69 of the Act of 1884, from which it will be seen that 21 were for rescission of reservation of water frontage, 46 for permission to reclaim foreshores, 33 for isolated portions of land under section 66 of the present Act, 129 for closing and sale of unnecessary roads, and 6 for exchange of roads, the total number being 235 as against a total of 205 for 1885.

The bulk of the applications for permission to reclaim water frontage were, as might be imagined, made in connection with land in the Metropolitan District, while the applications for closing and alienation of unnecessary roads, &c., had reference to several places in the Colony.

The total area alienated in 1886 in satisfaction of applications made for special purchases under the repealed Acts and the present Act was 149 acres and 26¾ perches, and the price obtained £2,648 18s. 11d., against an area of 119 acres 1 rood 4½ perches alienated in 1885, which realized £3,853 6s. 5d. The value of these lands is entirely dependent on the circumstances of each case, and therefore is no indication of the value of land, which may be sold subject to different conditions. For further particulars, see Schedules XV, XVI, XVII, and XVIII.

Conditional Purchases.

Schedule XIX shows the number of applications made in 1886 for conditional purchases, arranged according to the districts in which the land is situated, and the sections of the Act under which the applications were made. The total number of such applications was 6,080, for an area of 963, 196 acres 2 roods 27 perches, and the deposits paid amounted to £101,794 2s. 11d.

The

The following Schedule affords a comparison between the years 1885 and 1886:—

Year.	Section 26.			Section 42.			Section 47.			Special Area.			Total.		
	No.	Area.	Deposit.	No.	Area.	Deposit.	No.	Area.	Deposit.	No.	Area.	Deposit.	No.	Area.	Deposit
		a. r. p.	£ s. d.		a. r. p.	£ s. d.		a. r. p.	£ s. d.		a. r. p.	£ s. d.		a. r. p.	£ s. d.
1885	2430	772,718 3 0	77,272 17 0	2639	344,053 3 20	34,405 10 4	302	47,806 3 0	9,251 1 0	6	742 0 0	140 8 0	5377	1,165,351 1 20	121,069 16 4
1886	2660	579,539 2 28	57,954 0 1	2987	330,279 3 2	33,028 0 4	355	43,686 2 37	8,850 5 0	78	9,690 2 0	2,121 17 6	6080	963,196 2 27	101,704 2 11

From the foregoing it will be understood that the applications made in 1886 were 703 in excess of those for 1885, but the total area fell short by 202,154 acres 2 roods 33 perches, while the deposits show a decrease of £19,275 13s. 5d. The decrease in area may be explained by the fact that the maximum area is not in all situations available, though the fact that many persons find it convenient to reach the maximum area by a gradual process rather than at once has necessarily also to be taken into account. But apart from this, selectors now have the opportunity of securing land by conditional lease, which as it carries a right of purchase, and pending the exercise of this right carries a security of tenure, has many of the advantages of an additional conditional purchase.

It is worthy of note, however, that more original conditional purchases (under section 26 of the Act) were applied for in 1886 than in the preceding year. The same remark applies to additional conditional purchases under section 42, as well as to applications for land within areas set apart as special areas in accordance with the provisions of section 24 of the Act. Of applications under section 47 of the Act for conditional purchases, which carry no obligation as to residence, there were 355 in 1886 as against 302 in 1885.

Of the 6,080 applications made in 1886, 1,467 were confirmed and 960 disallowed by the Local Land Boards, who during the same year confirmed 2,007 and disallowed 813 applications which had been made during 1885, but had not been finally dealt with at the close of that year, making a total of 5,247 applications finally dealt with. (*Vide* Schedule XIX and XX)

The fact that at the close of 1886 a large number of persons had not been put in possession of the land they had applied for during that year, or the previous one, cannot be regarded as satisfactory; but as the Bill before Parliament affords a remedy for this, by giving an applicant an immediate right of occupation, there now appears no necessity to enlarge upon the matter. Putting aside the fact that the Act of 1884 admitted an enormous number of applications of all descriptions being put forward at the same time, and the impossibility which necessarily existed of dealing with them at once, that Act itself prevents a very speedy disposal of an application, by precluding its confirmation until after the land has been measured, and by giving the applicant no right to enter upon the land until confirmation has taken place.

Having in view the reductions of deposit and rate of interest introduced by the Act of 1884, I ventured in my report for 1885 to suggest the expediency of throwing upon applicants some share of the large expense which is incurred in dealing with their applications; and this suggestion will, it is thought, be admitted not to have been without force, when it is understood, from the foregoing remarks, that the necessary delay which takes place between the time of making the application and its confirmation must represent a loss to the revenue. Apart from this, it has to be pointed out that 1,613 applications in 1885, and 3,526 in 1886, were made for reduction of interest under the provisions of the existing law. Each of these referred on an average to about three conditional purchases, and, as the law at present stands, such applications can continue to be made, and may, therefore, embrace the whole of the incomplete conditional purchases in existence.

In 1886 there were 87 special areas proclaimed, in some of which, as already pointed out, 78 conditional purchases were applied for, representing an area of 9,690½ acres.

From

From Schedule XXII it will be seen that during the year under consideration 14,108 instructions were issued to inspectors to report as to the fulfilment by conditional purchasers of the conditions of their holdings, and that these officers furnished no fewer than 14,093 reports.

From the Head Office 10,196 cases having reference to conditional purchases under the repealed Acts were transmitted to the Local Land Boards, of which 327 were for investigation by those Boards, while the balance of 9,869 were for report, in the first instance, of the conditional purchase inspectors. Particulars of these will be found in Schedule XXIII.

Schedule XXIV contains particulars of the conditional purchase cases under the repealed Acts investigated by the Local Boards, and shows that in 681 cases decisions were pronounced against the selectors, and that in 1,005 instances the conditions were found to have been fulfilled. It will also be seen that 117 cases were remitted to the Minister on special grounds, and that in 3,648 cases the Boards regarded the proof submitted to be sufficiently strong in the selectors' favour to dispense with a special investigation by the Board.

The certificates issued setting forth that all conditions of residence and improvements in connection with the conditional purchases to which they related had been fulfilled, reached (as will be seen from Schedule XXV) 6,625 in 1886, as against 4,336 in 1885; while the number of declarations made by holders of conditional purchases during the same year was 14,054, as against 11,699 in the preceding one.

During the year 7,510 notices of transfer of conditional purchases were received, and 7,154 were accepted, representing 15,030 conditional purchases. These involved the despatch of nearly 12,000 notices. From Schedules XXVI and XXVII further particulars under this head will be found.

As will be seen from Schedules XXVIII and XXIX respectively, during the year 386 conditional purchases, of a total area of 48,556 acres 20 perches, were declared forfeited for breach of conditions; while 753 purchases, of a total area of 126,283 acres and 39 perches, were notified as lapsed, in consequence of the holders having failed to make the prescribed declarations that they had carried out their obligations. In 439 cases lapsing, and in 173 cases forfeiture was, however, reversed in view of further evidence which indicated such a course to be warranted.

From Schedule XXX will be ascertained the number of forfeitures each year since the year 1864 inclusive, and similar information may be obtained from Schedule XXXI respecting purchases which have been allowed to lapse.

Schedule XXXII gives particulars of conditional purchases applied for under the repealed Acts, and declared void during 1886 on account of the several objections specified in the Appendix to the Schedule. Of these there were 329 containing an area of 51,470 acres 3 roods, against which has to be set off 136, of an area of 21,001 acres and 13 perches, the voidance of which was revoked. The same schedule shows that the area of 326 purchases (also applied for under the repealed Acts) represented 3,315 acres and 2 perches in excess of that applied for, in respect of which extra deposits, amounting to £822 4s. 5d., were called for, while the areas of 709 conditional purchases were reduced by 12,500 acres and 35 perches, and a refund of £2,949 3s. 6d. in consequence authorized.

Schedule XXXIII shows miscellaneous amounts authorized for refund in connection with conditional purchases.

The following statement exhibits, under the headings of deposits, interest, instalments, and balances of purchase money, the gross revenue received during 1886, as compared with that of 1885 and three previous years, but it has to be explained that under the head of instalments are included amounts composed partly of interest and partly of instalment of balance of purchase money. The separate figures are not exhibited by the Treasury :—

	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.

Schedule XXXIV shows that 202,930 conditional purchase applications were made between 1862 and 1886 inclusive, and that the area so applied for was 25,598,688 acres and 6 perches.

Schedule XXXV on the other hand shows the number and the area of conditional purchases as distinguished from mere applications, that is to say, conditional purchases which actually existed on 31st December, 1886, after excluding such as were declared void or forfeited, &c. These numbered 137,670, and comprised an area of 17,047,526 acres 3 roods 25 perches.

Under the provisions of the 138th section of the Crown Lands Act of 1884, 18 conditional purchases were validated, and the provisions of the 3rd section of the Act 50 Vic. No. 21 were also brought into operation in connection with 31 mining conditional purchases.

Conditional Leases.

The only conditional leases which can now be applied for are those under section 48 of the Act of 1884 which provides for conditional leases by virtue of conditional purchases applied for under that Act. With regard to these it will be seen from Schedule XXXVI that 2,500 applications were made in 1886 for an area of 1,207,953 acres and 8 perches, as against 1,822 applications in 1885 for 1,348,427 acres 3 roods 25 perches. During the year the several Local Land Boards confirmed 1,119 and disallowed 707 of such applications. These, however, included some which had been made in 1885, and were undealt with at the close of that year. The total area thus allowed in 1886 was 739,533 acres 2 roods 6 perches. In addition to these, a number of conditional lease applications, of the Act, under sections 52 and 54, which could be made only within the first quarter of 1885, were disposed of in 1886, the former being applications to convert pre-emptive leases into leases having the more secure tenure, the latter being for leases largely similar to those under the 48th section, except that they were applied for by virtue of conditional purchases taken up under the repealed Acts.

Of 52nd clause applications 1,901 were approved for an area of 1,521,241 acres, and 285 applications were refused; while of 54th clause lease applications 496 were confirmed for 240,502 acres, and 101 disallowed.

Taking the whole of these figures into account it will be seen that 3,516 conditional leases were granted for an area of 2,501,276 acres 2 roods 6 perches, and 1,093 applications were refused, making a total of 4,609 cases disposed of.

Full particulars in connection with conditional leases will be found in Schedules XXXVI to XL inclusive. At the close of 1886 the total number of conditional leases in existence was 5,280, comprising an area of 3,954,988 acres 3 roods 33 perches, the rents of which, however, had been in the majority of cases only provisionally settled.

During the year 445 conditional leases were transferred, and 2 notified as forfeited,—one for non-payment of rent, and the other for breach of conditions.

Annual Leases.

Applications under the 3rd clause of the Act, to convert pre-emptive leases into annual leases, continued to be entertained in 1886, and of these 114 were made. The number of leases granted was 562 for an area of 321,586 acres; but it has to be pointed out that some of these were granted in satisfaction of applications put forward in 1885, and, moreover, that one application not unfrequently had reference to several leases. During the year 196 of such applications were refused and 76 were not finally dealt with at the close of the year. (*Vide* Schedule XLI.) In addition to these, nineteen auction leases, held under the repealed Acts, were converted into annual leases in accordance with the provisions of the 85th section of the Act. (*Vide* Schedule XLII.)

Schedule XLIII shows that 363 applications were received or in hand in 1886 for the submission of 508,103 acres to annual lease by tender, and that 858 leases were offered during the same year, but only 193 tenders were made for an area of 151,680 acres, and of these 78 were declined. In connection with leases advertised in 1885, however, it will be seen from Schedule XLIV that 212 leases were disposed of by tender during 1886, comprising 171,768 acres, and representing an annual revenue of £1,728 15s. 3d.

One lease was disposed of by auction. This lease is particularized in Schedule XLV. During the year 107 leases were transferred; and 858 were forfeited, the latter representing an area of 492,638 acres 3 roods, and a rental of £2,252. (*Vide* Schedule XLVI.)

Reserves

Reserves and Dedications.

An area of 1,504,489 acres was reserved from sale for the several purposes specified in Schedule XLVII. This area was comprised in 1,377 distinct reserves. A large number of reserves, however, were revoked (*vide* Schedule XLVIII), the revocation, being 1,995, and representing an area of 2,376,289 acres. In explanation of this it may be mentioned that under the repealed Acts a tendency existed to multiply reserves, a large number of which were made, and indeed have still to be made, on urgent representations merely to gain time for an inquiry into the necessity for their continuing in existence or to secure against some difficulty which could be obviated in no other way.

In addition to the reserves made from sale, 185 were made from lease, comprising an area of 73,618 acres. (*Vide* Schedule XLIX.) It will be seen from Schedule L that 433 grants were made of 11,100 acres and $16\frac{1}{5}$ perches for public and religious purposes, the latter being in pursuance of provisions made before the 11th May, 1880, when the Legislature, by resolution, decided that no further grants should be permitted, except in pursuance of promises antecedent to that date.

Pastoral Leases and Occupation Licenses.

As explained in the Report for the year 1885, the principal work performed in that year in connection with the larger leases was the division of pastoral holdings in accordance with the existing law, and this task was practically finished in the same year. A few cases, however, surrounded by special difficulties remained over, and during 1886 14 leasehold and 12 resumed areas were gazetted. (*Vide* Schedule LI and LII.) With reference to the leasehold and resumed areas notified during 1885 and 1886, the necessity arose of completing arrangements for the collection of data from which to determine the rentals. As a first step in this direction tracings had to be prepared in duplicate of the whole of the land in the Colony under pastoral lease and occupation license, and each tracing exhibited not merely the external boundaries of the several holdings, but was carefully revised and made to show, as far as information in the head office would permit, the land alienated, reserved, &c., up to the latest date. The task was a very formidable one, but was nevertheless successfully and economically surmounted by the invitation and acceptance of tenders, from public contract draftsmen, who made 5,531 tracings under conditions specified in the form of tender. It may be explained that duplicate tracings were prepared in order that one might be used by the field officer, while the other was revised in the District Survey Office, for the use of the Local Land Board, when they should be called upon to make their recommendation with reference to the rent of the land. In all, 6,065 tracings were dispatched during 1886. In order to complete the work, the services were engaged of 32 appraisers, to each of whom was given certain areas to carefully inspect and report upon in detail. The matter then came before the Local Land Board in open Court, and on receipt of the Board's recommendation, it rested with the Minister to give his decision. The work of inspecting such enormous areas, and collecting the required information in reference to them, together with the formalities of the Land Board meetings, necessarily occupied a considerable time, and, consequently, only a limited number of the reports of the Land Boards were received in this Department during 1886. Of these, 172 related to leasehold and 154 to resumed areas. It, therefore, happened that most of the rents were not determined until 1887. In 1886, however, the rents of 82 leasehold areas and 74 resumed areas were notified in the *Gazette* as approved.

During the year 189 pastoral leases and 166 occupation licenses were transferred, and 6 applications were made for the subdivision of pastoral leases. Of the latter, one was finally dealt with by being refused. In connection with these applications, it may be mentioned that the most careful investigation is necessary, extending, in some instances, to an inspection of the land, as, in the majority of cases, the applications are put forward wholly in the interest of the applicant, and consequently are opposed to a judicious subdivision of the public estate. (*Vide* Schedules LIII and LIV.)

As land under occupation license is liable to absorption by conditional purchase, &c., the license fees are necessarily also liable to constant fluctuation. The holders are at liberty, when any reduction of their area takes place, to apply for an alteration

of

of their rent, and 56 of such applications were put forward in 1886. (*Vide* Schedule LV.) Arrangements have now been made, by means of which a running account will be kept in the District Survey Office, both of the land taken from, as well as that reverting to, occupation licenses, so that at the close of any year it may be clearly understood how all such matters stand.

During the year refunds amounting to £450 2s. 2d. were made in connection with 12 runs, as existing prior to the passing of the present Act, on account of money having been paid by the lessees, in advance, for land which was subsequently withdrawn from their occupation. (*Vide* Schedule LVI.)

The provisions of the 75th section of the Act of 1884, framed in connection with the division of pastoral holdings, one of which provided for an exchange to a leaseholder of land in his leasehold area, in lieu of land owned by him in the resumed area, and the other of which provided for the surrender by him of his purchased land in his resumed area, on the Government refunding the price of it, were somewhat largely sought to be availed of; but, as Schedules LVII and LVIII show, little beyond refusing some of the applications was done, inasmuch as it came to be seen that the proposals, if given effect to, would be very disadvantageous to the public interest.

Homestead Leases.

With regard to homestead lease applications, the year 1886 shows a falling off as compared with 1885, during which 391 applications, for 3,823,235 acres were made, while in the more recent year only 121 were put forward for an area of 1,141,963 acres. Of the applications made in 1886, 17 were granted and a similar number refused, leaving a balance of 87 not finally dealt with. Taking into account, however, applications made in both years, 234 leases were approved for 2,286,106 acres, at a rental of £15,237 6s. 4d., and 103 applications were refused. (*Vide* Schedules LIX to LXII inclusive.)

Scrub Leases.

It will be seen from Schedules LXIII and LXIV that of applications for scrub leases received in 1886, 39 referred to land within leasehold areas, and 29 to land within resumed areas, being 68 in all. Of these 17 were disallowed or withdrawn. The total number of such applications on hand in 1886, taking into account those made during that and the previous year, was 221, of which 26 were withdrawn or refused, leaving a balance of 195 to be dealt with. Up to the close of 1886 no scrub leases were granted. This is explained by the fact that land has to be declared scrub land before an application can properly be made in connection therewith; and it was found that no sufficiently satisfactory results could be obtained by completing so large a piece of work as was involved at a time when matters of a much more pressing nature demanded attention. It may further be mentioned that there is little probability of any such applications being granted until an amendment of the law, seeing that it contains no provision for the adjustment of rents and license fees of leasehold or resumed areas when the scrub lands are withdrawn therefrom. The rents and license fees of all such holdings are determined with due regard to the grazing capabilities of the lands within them as a whole. The withdrawal of the inferior scrub lands would necessarily enhance the value of the remaining lands, and, in such circumstances, the public revenue deserves to be benefited by a corresponding increase of rent or license fee to compensate for the withdrawn areas, which, by the operation of the law and the necessities of the cases, would be ultimately leased at a reduced rental.

Special Leases.

Applications for special leases in 1886 numbered 230, against 123 in 1885; but, including applications not completed at the close of the earlier year, there were 352 in hand in 1886. Of these 111 were granted for an area of 2,344 acres and 34½ perches, at an annual rental of £1,591 10s., while 125 were declined, leaving a balance of 116 outstanding. At the close of 1886 there were 396 special leases current, representing an area of 4,131 acres 1 rood 26½ perches, and an annual rental of £3,930 12s. These were 12 in excess of those current on 31st December, 1885, and the rent was £1,058 14s. in advance of that received in 1885. Thirty-six leases were forfeited in 1886, and fifty-two expired on 31st December, 1885.

Full

Full particulars under this head may be obtained from Schedules LXV to LXX inclusive.

Volunteer Land Order Applications.

As will be seen from Schedules LXXI to LXXIII inclusive, the applications by virtue of Volunteer Land Orders put forward in 1886, numbered 38, and referred to 1,900 acres of land, as against 60 applications in 1885, for 3,000 acres. Of the 38 applications referred to 1 was completed and 16 refused; but, including applications made in 1886 and previous years, 9 applications were satisfied for 450 acres during the year under consideration.

Deeds of Grant.

Schedule LXXIV explains the number of Deeds of Grant prepared during 1886, under the different kinds of alienation, from which it will be understood that 4,430 deeds were prepared for 433,986 acres 2 roods 6 perches of land. As compared with 1885, this represents an increase of 1,204 deeds and 23,273 acres 2 roods 8 perches.

Ringbarking Applications.

Schedule LXXV contains particulars of applications made to the Local Land Boards for permission to ringbark trees on the land under lease to the applicants. During the year 708 applications were made, 387 of which were granted and 35 refused.

Trespassers on Crown Lands.

The number of trespass cases reported by Crown Lands Bailiffs in 1886 was 272, which, together with 180 cases from 1885, left 452 to be dealt with. Particulars will be found in Schedule LXXVI. Of the above number, there remained a balance of 156 in course of investigation at the close of the year.

Thirty-one convictions were obtained, the fines amounting to £42 15s. Eleven other cases, in which legal proceedings were taken, were dismissed.

The Department gave notice of trespass in 106 cases, after which notice the trespass was abated, and in ninety-four other cases it was found, after investigation, that legal proceedings were not necessary.

Correspondence.

During the year no fewer than 17,510 manuscript and 61,990 printed letters were dispatched from the Head Office, exclusive of 661 schedules and 9,730 parcels, making a total dispatch of 89,891, or 4,848 in excess of the year 1885. (*Vide* Schedule LXXVII.)

The letters and documents received in the Department numbered 110,071, being less by 18,256 than those received during 1885. A classification of the papers received will be found in Schedule LXXVIII. Similar information in connection with the Local Land Board Offices, is contained in Schedule LXXIX, which shows the several Boards to have received 81,126 communications, and to have dispatched 12,047 manuscript letters, independently of formal documents, &c., numbering 56,637 in all.

Parliamentary Returns.

During the year there were ordered to be prepared for Parliament twenty-five returns, being an increase of 25 per cent. on the previous year.

As several of these returns proved to be much larger than usual, the work of preparation and examination was very heavy.

Expenditure in 1886.

The amount voted for the expenses of the Department (exclusive of the Survey Branch) was £168,769 0s. 9d., of which the sum of £130,414 13s. 5d. was expended during the year, the balance remaining available until the close of 1887 to pay for outstanding claims. Of the above amount £9,878 15s. 3d. was paid to inspectors of runs for reports in connection with the appraisement of pastoral holdings. Work in this direction was commenced in the month of April and continued throughout the year.

The

The advertising accounts, which are paid from a vote to the Colonial Treasurer, amounted to £884 8s. 9d., as against £891 14s. 10d. for the previous year.

For the payment of the expense connected with the preparation of tracings of plans of pastoral holdings, showing the resumed and leasehold areas, a survey vote was operated on to the extent of £1,837 2s. 6d.

The total expenditure in 1886 for the services of the year was £133,136 4s. 8d., as against £146,805 1s. 11d. for the previous year, or a decrease of £13,668 17s. 3d.

Head-quarters Staff.

The administrative branch on the 31st December comprised 114 officers and twenty messengers, office-cleaners, &c., making a total of 134. Of this number seventy-seven were on the permanent staff and fifty-seven were temporarily employed. The actual payments on account of salaries to permanent officers during the year amounted to £21,557 2s. 3d., and to those temporarily employed £8,868 4s. 10d., or a total sum of £30,425 7s. 1d.

The actual payments in 1886 for permanent and temporary staff salaries in connection with the several Local Land Boards were—to chairmen and clerks, £26,819 0s. 2d.; messengers and office-cleaners, £865; and to inspectors of conditional purchases, £7,325 14s., making a total of £35,009 14s. 2d.

District Surveyors.

Schedules LXXX to LXXXVII inclusive exhibit what appears to be of any special interest with regard to work performed under the District Surveyors' supervision. The several District Surveyors had, on the 1st January, 1886, 6,684 instructions to deal with, to which were added 20,646 during the year, making a total of 27,330. Of these 21,002 were reported to have been dealt with, leaving a balance of 6,328 for 1887. The instructions which had reference to the survey of land numbered in all 17,390, and these were all dealt with during the year except 5,070, of which 1,643 were over, and 3,427 under, six months old. Schedule LXXXVII explains the work performed in the District Survey Offices in connection with the charting of maps and the preparation of tracings, &c.

Appended hereto is the report of the Surveyor-General.

I have the honor to be,
Sir,
Your most obedient servant,
CHARLES OLIVER,
Under Secretary.

Report of The Surveyor-General to The Under Secretary for Lands.

Sir, Surveyor-General's Office, Sydney, September, 1887.

I have the honor to lay before you my Annual Report for the year 1886.

The numbers and classification of surveyors employed during the year were as follows, viz.:—Sixteen district surveyors, seven first-class surveyors, and thirty-six second-class surveyors, thirty-one licensed surveyors temporarily on salary, 152 licensed surveyors paid by fees.

During the year the following alterations occurred in the permanent salaried staff, viz.:—E. G. Vickery, first-class surveyor, died 17th April; J. E. Hicks, second-class surveyor, died 24th November; A. Ebsworth, first-class surveyor, resigned 27th January. There were no new appointments. In the staff of licensed surveyors temporarily on salary, there were three resignations, viz.:—S. J. Pinnington, H. A. Evans, L. A. Wilkinson; and there were three new appointments, viz.:—A. Peake, F. W. Hawkins, F. v. Arnheim.

Two board meetings for granting license to survey were held with the following results, viz.:—

At the June examination, twenty-nine candidates presented themselves; of these one retired, and one did not produce satisfactory evidence of field service. Sixteen of the twenty-seven candidates remaining were found efficient, and were recommended for appointment, viz.:—

Messrs. A. Randall	Messrs. R. D. Hay
F. Watkins	R. Bergin
E. L. Schultz	J. R. Graeme
J. Garland	A. W. Mullen
R. H. Burt	E. H. Cowdery
G. H. Legge	F. G. Melville
H. M. Connal	E. Thomas
G. H. Halligan	W. P. Goddart

At the December examination, twenty-nine candidates presented themselves; of these one retired, and eleven of the twenty-eight remaining were found efficient, and were recommended for appointment, viz.:—

Messrs. J. Adams	Messrs. L. B. Sweet
J. Blaikie	H. Koebcke
W. C. Wilson	W. W. C. Reardon
L. J. Forster	S. R. Dobbie
W. R. Henwood	G. J. Skinner
H. T. Hardy	

Two candidates whose cases had been postponed from previous examinations were further examined *viva voce*, and their practical knowledge of the business proving satisfactory, they were recommended for appointment, viz.:—L. C. Palmer and P. J. A. Payten.

Area of Land Measured by Licensed Surveyors During the Year 1886.

The area measured by these officers during the year 1886 under the repealed Acts amounted to 151,353 acres 2 roods 26 perches, and 1,010 miles 60 chains 83 links linear measurement, at a cost of £11,978 6s. 4d., namely:—Conditional purchases, 57,265 acres and 35 perches; auction, 22,700 acres and 39 perches; Government and public purposes, 2,219 acres 2 roods 20 perches; improvement purchases, 68,856 acres and 12 perches; volunteer land orders, 50 acres; special leases, 262 acres 2 roods.

The area measured during the year under the Crown Lands Act of 1884 amounted to 7,283,087 acres 2 roods 26 perches, and 4,348 miles 3 chains 88 links linear measurement, namely:—Conditional purchases, 625,105 acres 1 rood 30 perches; additional conditional purchases, 92,977 acres 2 roods 1 perch; conditional leases, 1,480,457 acres 3 roods 29 perches; converted pre-leases, 2,237,978 acres and 1 perch; special leases, 476 acres 1 rood 8 perches; auction, 84,203 acres 2 roods 3 perches; volunteer land orders, 900 acres; homestead leases, 2,737,970 acres; reserves, 16,897 acres and 39 perches; public purposes, 2,028 acres 1 rood 3 perches; special purchases, 35 acres and 20 perches; improvement purchases, 130 acres 1 rood 12 perches; miscellaneous surveys, 3,928 acres.

Newtown Branch of the Surveyor-General's Office.

The business conducted at this office comprises the supervision of most of the surveys in the county of Cumberland, which do not come under the provisions of the Land Act of 1884, that is, which do not belong to alienation of Crown Lands in the more limited sense. These surveys are principally connected with the detail survey of Sydney and Suburbs (under the Sewerage Act 43 Victoria, No. 32), alignment of streets within municipal districts (under the Act 2 Victoria, No. 2), surveys for proclamation of roads (under the Act 4 William IV, No. 11), and work incidental to the trigonometrical survey for preparation of parish maps, &c., and other services of a miscellaneous character.

The number of official papers, memoranda, plans, &c., dealt with and forwarded from the Newtown office in 1886 was 3,860.

Altogether twenty-seven surveyors were employed on the work throughout 1886; but some of them were only engaged for a part of their time.

Fifty-six plans of alignment surveys, fixing the kerb and building lines of 194 streets, were completed and transmitted. All these surveys were marked in a permanent manner by erection of alignment posts (2,340), which were placed in position at the cost of the respective Municipal Councils, and under the supervision of the surveyors making the survey. The lineal measurement of building lines determined was 107 miles and 41 chains.

The following particulars will give an idea of progress of the city survey that may be readily grasped:—Forty-nine sheets of detail survey under the Act 43 Victoria, No. 32, in the following Municipalities, were completed, viz.:—26 in Sydney, 13 in Balmain, 6 in Newtown, 2 in Redfern, 1 in Waterloo, and 1 in Paddington. The city survey completed embraces that portion west of George-street from Margaret-street to Darling-street (near the Glebe), with exception of the block bounded by George, Margaret, Clarence, and Market Streets, which was done in 1885. Two sheets of detail survey were made in Surry Hills, and the total area within the city completed was 307½ acres. On the water side the work extended for a distance of 1 mile and 24 chains of the shore of Darling Harbour, from the foot of Margaret-street to Union-street, Pyrmont, and included the detail of forty wharves along it. The

The full details of 5,094 separate holdings or tenements, each dwelling-house with its out offices being considered one, were fixed.

About 1 mile 16 chains of the harbour frontage of Balmain, with detail of thirty-five wharves, was completed, and the total area surveyed in the suburbs was about 341½ acres. The number of separate holdings was 2,052. Twenty-eight miles of streets, and 5 miles 34 chains of rights-of-way were included in this work. In addition to the abovementioned particulars, several isolated surveys, and one complete street, at Waterloo, were surveyed, the plans being drawn at the Head Office.

The survey of roads, under the Act 4 William IV, No. 11, in the county of Cumberland, must always, necessarily, be somewhat costly as compared with country work, on account of the more valuable interests involved, and, consequently, the extra care that has to be bestowed upon the administrative part of the work, as well as upon the actual survey. Many short lines of road, only a few chains in length, but, nevertheless, important thoroughfares, were laid out.

The only surveys carried on for the sole purpose of compilation of parish maps, independent of the detail surveys before-mentioned, were a portion of the frontage of Middle Harbour, and seven sheets of the parish of St. George, both of which surveys are now almost complete.

In addition to the surveys that can be arranged under the above headings, a large number of services of a miscellaneous character have been rendered, such as marking the boundaries of reserves, defining limits of roads (the original marking of which had become obliterated), re-marking the boundaries of old grants where they adjoin Crown Lands, inspections of and reports upon roads applied for, sketch and contour survey for the Board of Health, surveys for Asylums, Inquiry Board, &c.

Ferro-prussiate and heliographic printing have also been carried out through the year,—a very considerable number of prints by the latter process having been prepared for the General Survey and the Compiling Branches; and the former, or blue print process, has proved extremely useful in supplying information to surveyors, so as to save their time in making tracings.

The Newtown Branch Office will shortly be closed, and the sun-printing processes lately carried on there will be conducted at the Head Office.

General Survey.—Field Staff.

There has been comparatively little of the survey proper to this Branch done during the year; in order to meet the exigencies of the Department, consequent upon the Crown Lands Act of 1884, the services of the surveyors paid under this vote were almost altogether applied to duties under the General Establishment; therefore the further survey required for compilation of a satisfactory map of the metropolitan county has not advanced much, but it is hoped now that the demand for survey for alienation has diminished, that this necessary work may proceed. The detail survey of the city of Sydney and environs has progressed satisfactorily, and in respect of the city proper is nearly completed; a map is annexed hereto which shows the extent of survey effected.

General Survey.—Office Staff.

On account of withdrawal of many of the surveyors for employment upon more urgent service of measuring land for alienation, the general survey of the Colony, as described in previous reports, has been almost restricted to the county of Cumberland. Such few surveys as have been effected during the year have supplied information respecting the position of lands and natural features which had not been defined since rudimentary survey in the early days of the Colony. These were found to be necessary for purposes of construction of reliable maps, many of the old surveys being more or less erroneous. As a measure of economy this work has been carried on in conjunction with surveys for other public purposes, such as alienation and roads, &c., and therefore it has not made the progress which otherwise might be expected, and which the necessity for projecting new maps demands. Only eight surveyors have been during the year employed thereon from time to time, the greater part of their services having been devoted to other duties. Such survey as has been done has been carried out on the system of co-ordinates.

It may be thought at first sight that the system of co-ordinate survey largely increases the office work, but this is not so, as the differences of latitude and departure of the various lines of all surveys have to be computed by the surveyor, and checked in the office for the purpose of ensuring a proper close of the survey, or for obtaining the direct bearing and length traversed; thus the only additional work for the surveyor is the arrangement in tabular form of the particulars of the traverses. I think the simplification of map construction and survey examination which may be attained by this system outweigh the small additional labour involved to the surveyor.

Sixty plans of surveys in connection with detail survey of the city and suburbs of Sydney and of county Cumberland have been received during the year. These have been examined, and of them forty-seven sheets of the detail survey have been traced for lithographing, thirty have been sent to the printer, and thirty-nine have been published, making a total of eighty-eight published up to the end of the year. The sheets received from surveyors during the year cover 319 acres of the city and 368 acres of the suburbs, the total area surveyed being 1,698 acres of the city and 1,565 acres of the suburbs. When it is understood that the whole of this area is covered densely with buildings, and that the detail has been so accurately surveyed that it could be projected to the scale of the city of London survey (4 feet to an inch) the extent of the survey will be more fully realised, while its value for the various engineering works in connection with water supply, sewerage, &c., is inestimable. Urgent requests have been made during the year by the President of the Board of Health, the Engineer-in-Chief for Sewerage, and the City Engineer, for extensions of the survey to meet the requirements of the various works being carried out by those officers, besides which the plans are frequently resorted to for information desired by other public departments.

Sixty-seven plans of alignment and road surveys have been examined and compared with the trigonometrical survey. 103 plans of reclamations, rescissions of water frontage reservations, reserves, alienations, designs of subdivisions, feature surveys, &c., have been examined and noted during the year. Connection surveys to various trigonometrical stations in the counties of Argyle, Camden, Murray, and Northumberland have been received and prepared for use in connection with the construction of maps of those counties. The general survey work has comprised the following surveys, viz., surveys of parts of the

the parishes of Cowan, South Colah, Willoughby, Gordon, and Manly Cove in connection with measurement of lands available for alienation; also parts of the parishes of Alexandria, Gordon, Hunter's Hill, and St. George for the preparation of maps of those parishes. Surveys have also been made of parts of the Hawkesbury River for the purpose of connecting various isolated surveys with the trigonometrical survey.

References from the Registrar-General in twenty-one applications to bring land under the Real Property Act have been dealt with. Several cases of disputed boundaries of old grants have been acted upon, where consideration of these cases was forced upon the Crown through alleged errors in the original surveys. The register of trigonometrical stations has been added to by descriptions of eighteen stations in the county of Cumberland, and twenty stations in and around the city of Bathurst, where at a very small expense, the trigonometrical survey was applied as a check to the extensive survey of that city, carried out by the Municipal Council. It is also to be noticed that the trigonometrical survey has been used as a check upon surveys of various characters, notably upon the survey of the underground workings of the Australian Agricultural Company's Colliery in the Newcastle district, the Company in that case bearing the small expense of the examination.

The construction of parish maps in the county of Cumberland has been proceeded with, and several sheets of the parishes of Alexandria, St. George, and Hunter's Hill are now almost ready for publication; also a map of the county has been projected as far as the recent reliable surveys extend. It is now proposed to complete this county map by incorporating the older surveys where there are none of recent date, and from time to time revising and amending it as further survey is made. It is hoped that at no distant time the doubtful parts may be corrected, but at present correct data for this purpose are obtained chiefly through other public requirements for the survey.

Among other work of a miscellaneous character performed during the year, a table of natural sines and co-sines for the use of surveyors computations has been published and supplied to the various district offices.

Trigonometrical Branch.

On account of the reduced staff, field operations have been conducted on a smaller scale than in previous years.

Two officers were employed—J. Brooks, surveyor in charge of the branch, and E. H. Taylor, bailiff in charge of trigonometrical stations.

The survey party was occupied principally in completing the main triangulation of the county of Argyle and the eastern part of the county of Camden—moving camp thirty-seven times, a total distance of 630 miles. The instrument mainly used was a 10-inch Troughton and Simms' theodolite (Everest pattern).

8,180 horizontal and 690 vertical angles were measured from fifty stations to 1,195 stations (any station which may be observed from more than once is counted accordingly).

110 stations were visited, and of these ninety were cleared of timber growth which had grown up. In the north and north-east portion of county Murray forty old stations were visited, re-marked, and, in most cases, re-piled.

The subdivision of the main for the minor triangulation of the city of Bathurst, for the purpose of checking the alignment survey, was commenced and completed. This consisted of thirty new stations, which were selected and marked by the bailiff.

Some outstanding stations in the parishes of Liberty Plains and Concord were observed, thus finally completing the county of Cumberland.

One trigonometrical reserve has been surveyed and fifteen connection surveys made. Six plans were drawn, and with field notes transmitted to office.

In addition to the foregoing, fifteen minor stations were selected and observed (by Surveyor J. H. Lucas) for the purpose of checking his alignment survey of Queanbeyan.

The bailiff has inspected and re-marked where necessary 360 of the stations in environs of Sydney, and restored eighteen of the main stations in counties of Bathurst, King, Murray, and Roxbourgh, besides the Bathurst triangulation previously referred to. He also made thirteen connection surveys.

In the computing room twenty-two field books of terrestrial observations at main, county, and minor stations in Argyle and Camden, in city of Bathurst and town of Queanbeyan, and in the parishes of Concord and Liberty Plains, have been received and dealt with.

The positions of ninety-eight stations in Argyle and Camden, eleven in Northumberland, and seventy-five in the cities of Bathurst and Newcastle and the town of Queanbeyan, have been computed and tabulated. The altitudes of 116 stations in Argyle and Camden have also been computed.

Catalogues of 4,500 latitude stars and 300 azimuth and time stars have been compiled, and the star numbers and constants computed. These are for use in determination of the latitude and longitude of a number of places in the Colony.

The approximate latitude and longitude of about 300 stations (fixed by triangulation but not comprised in the main and diagonal series) have been computed by Geodesy.

Account and Clerical Branch.

The business of this Branch is divided into the following heads, viz.:—

Accounts.
Correspondence.
Record of Measurements, &c.
Stores.

The expenditure under the first head may be summarised as follows:—The total amount of accounts rendered for services of the year was £135,473 0s. 7d. The total amount of salaries and contingencies paid was £366,971 11s. 2d.

The total number of letters, &c., written recorded and despatched, during the year was 18,146 on professional subjects, and 1,700 on questions requiring ministerial approval. In addition to the above, about 27,000 notices of payment were issued.

The number of communications received from salaried and licensed surveyors was 17,707.

Eight returns were prepared during the year.

Charting

Charting Branches or Geographical Divisions.

Reduction in Staff.

It is pointed out that business commenced with a reduction of the office staff as compared with 1884, of fifty-eight draftsmen on the permanent staff and eighty-six draftsmen on the temporary staff of all grades, and three clerks on the permanent staff and five clerks on the temporary staff. Owing, therefore, to resignations and removal of draftsmen to local offices, work during 1886, as in the previous year, has been carried on under a continually diminishing staff.

The number of draftsmen on the permanent and temporary staffs transferred to country offices during the year has been nine and thirty-six respectively. The draftsmen transferred, both on the permanent and temporary staffs, during 1885, to the Occupation of Lands, have, to some extent, been retained in that Branch to complete the work connected with appraisement, &c., of runs.

Work done during 1886.

The following tabulated statement shows the work incomplete on the 31st December, 1885, the work received and dealt with during 1886, and remainder on hand on the 31st December of that year :—

Cause of diminution of work.

The large difference of work, compared with previous years is in consequence of only surveys under the repealed Acts being dealt with at this office.

Charting cases incomplete.

The number of charting cases in abeyance, under reference to District and other surveyors, for additional information, on the 31st December, 1886, is shown to be 237, less by 350 cases than on 31st December, 1885.

Charting cases for submission.

Charting cases awaiting Ministerial decision, of which the plans are in Geographical Divisions awaiting return of papers, number 179 cases; less than on the 31st December, 1885, by 150 cases.

Plans in abeyance through being under reference to surveyors	237 cases.
Plans in abeyance, awaiting Ministerial decision	179 „
Total	416 cases.

The total number of charting memoranda sent to surveyors on subjects requiring explanation during this year is 1,284, about 1,018 memoranda less than during the previous year.

Lease Branch.

The work of this Branch consists chiefly in furnishing information from the lease maps and books for the country offices and for the administrative branches of this Department.

In the early part of January there were nine officials in this Branch; some of these were employed in examining and preparing tracings of original plans for District Surveyors, but the number was soon diminished to four. Of these three were engaged in attending to references, and one was employed in examining tracings of original plans for District offices. In February it was decided that no more tracings should be prepared, but it was thought desirable to note on the lease maps the annual leases notified. The noting of these leases was completed about June, and the staff was reduced to two, one of whom was removed in September to other work.

Business dealt with:—

Annual Lease Applications	127
Lease Papers	497
Miscellaneous Papers	695
Occupation Papers	189
Alienation Papers	58
Sundry other papers	36
	1,602

4,332 converted pre-leases and 2,992 annual leases were noted on the lease maps.

Roads Branch.

The Roads Branch reports in all cases of applications for roads through alienated lands under the Act 4th William IV, No. 11, the alignment of streets under Act 2nd Victoria, No. 2, the granting of one road in lieu of another under section 69, and resumption of land for roads from any conditional purchase under section 110 of the Crown Lands Act of 1884, and granting of public gates, under 39th Victoria, No. 10.

The Branch has been under the charge of an officer, who reports for the Surveyor-General to the Department of Mines, and, in some cases, to the Under Secretary for Lands.

The

The number of papers received was 5,518, and on many of these separate and distinct action had been several times taken. The total length of roads surveyed was 1,577 miles, delineated by 231 plans. 50 plans, showing 320 streets, have been received. 394 applications for roads, deviations in roads, and for alignment of streets, have been registered. 583 reports from surveyors have been received, together with 281 reports accompanying plans of survey. 311 objections and claims for compensation which required investigation have been sent in. 54 applications for permission to erect 98 public gates were received, and 58 gates were recommended to be granted.

There are many thousands of roads in this Colony, any one of which may form the subject of enquiry, complaint, application for re-survey, dedication, &c., and on each and every such enquiry or application the necessary information is given personally to the public, or is supplied in the shape of a minute of recommendation to the Under Secretary for Lands.

Plan Records.

This Branch has the custody of original plans, with the exception of the few still retained in geographical divisions.

During the year the endeavour has been to bring back original plans to the plan record room, instead of allowing them to be stored in several divisions of the office:—

Number of original plans in plan record room, 31st December, 1885	182,000
New plans received	6,800
Plans issued to and returned from draftsmen	122,000
Despatched to District Offices during the year	18,400
Returned from District Offices	3,000
Plans mounted and re-marked with catalogue number	7,400
Plans exhibited to the public	2,137

The above shows that the number of original plans at the District Offices at the close of the year was about 15,000 plans.

This Branch has the custody of about 2,000 duplicate auction sale plans catalogued to supply the place of original plans in cases of loss; and the custody of original county and environ maps out of office use; also the sketch books containing sketches illustrating reports, and original descriptions by surveyors of lands measured for sale, and also the *Government Gazettes*, and surveyors' field books of early surveys of grants of land, and feature surveys.

The

The older field-books are valuable as records of surveys, as they contain detail not to be found on the plans; and the service of a draftsman was set apart for indexing them. The field-books number about 1,100, and those indexed number about 780, the latter cover about 4,650 surveys, and plans or portions noted to correspond number about 3,000.

RESERVE BRANCH.

The work performed by the Reserve Branch consisted in charting all reserves on the office maps, and supplying tracings for the use of Land Agents; reporting on applications in virtue of improvements within reserves; recommending the notification, modification, and cancellation of reserves; dealing with applications under the 28th section of the Mining Act to mine under reserves and roads; dealing with all matters relating to gold-fields, special areas, population areas, reserves from sale and lease, &c.; examining and submitting for approval designs of new towns and villages, proclaiming town and suburban boundaries, dealing with alterations and amendments of designs, and reporting on applications for auction sale of town and suburban lands; inspecting the plans of all portions of land on the office maps prior to sending on for auction sale for the purpose of noting that all public requirements as to reserves for public purposes are fully met; and preparing descriptions for the incorporation of municipalities under the Municipalities Act of 1868, and for the amendment and division into wards of existing municipalities.

The Branch was also engaged in charting reserves on compilations of three counties, 197 parishes, and forty-two towns prior to their publication. The necessary action in connection with the cancellation and reproclamation of the population areas of thirty-five towns was also taken in this Branch.

The numerical strength of the staff employed during the year has varied considerably owing to the necessity for transfer of draftsmen to the various country offices. At the commencement of the year seven draftsmen on the permanent staff, twenty-five temporary draftsmen, and two clerks were employed; and at close of the year the staff comprised seven permanent staff draftsmen, fifteen temporary draftsmen, and two clerks.

The appended lists show the particulars of reserves for various public purposes from sale and lease during the year, and the number, purpose, and areas of the reserves cancelled.

LITHOGRAPHIC BRANCH.

A summary of the operations of this Branch has hitherto appeared in combination with the statement under the heading of "Compiling and Publishing Branch," but the importance attached to the reproduction of maps by the Department, and the manifold results obtained by recent methods of applying lithography, engraving, photo-lithography, and machine chromo-printing appear to warrant some detail.

For convenience of official record and execution of work, lithographs are classified thus:—

1. Counties.
2. Towns (comprising cities, towns, villages, and environs).
3. Parishes.
4. Auction sale plans.
5. Miscellaneous.
6. Other Departments.
7. Official forms.

1. *Counties.*

County lithographs are designed to show alienations, reserves, and all other information which is capable of delineation on a scale of 2 miles to an inch; they are produced by lithographic and photo-lithographic processes, and in order to facilitate general usefulness the distinguishing boundaries are often printed in colours. The standard price is 5s. per copy.

Counties completed (33), comprising 7,950 printed copies:—

Ewenmar	Durham	Tandora	Ewenmar (small scale)
Narran	Hume	Livingstone	Gordon
Culgoa	Clyde	Manara	Gregory
Murchison	Cumberland	Raleigh	Narromine
Mouramba	White	Cooper	Gowan
Dowling	Blaxland	Goulburn (sheet 3)	Oxley.
Sturt	Nandewar	Goulburn (sheet 4)	
Cowper	Denham	Lincoln	
Mossgiel	Wakool	Leichhardt	

2. *Towns.*

Town lithographs show the general design, measured lands, and names of purchasers within town and suburban limits; they are usually lithographed or photo-lithographed from the surveyors' original plans to a scale of 4 chains to an inch, and are sold at 1s. per copy.

Towns completed (25), comprising 6,200 printed copies:—

Forbes	Carranbah	Cooper	Molong
Toogong	Barry	Bourke	Noorooma Enrs.
Rocky Glen	Trangie	Teramby	Wagga Wagga

Myrangle	Goombalie	Rock Flat	
McAlister	Mulwarrie	Noorooma T.	
Coolah	Nambucca	Heathcote	

3. *Parishes.*

Parish maps are compiled on a scale of 20 chains to an inch, and reduced by photo-lithography to 40 chains to an inch for publication. They are sold at 1s. per copy.

Parishes completed (286), comprising 30,375 printed copies.

4. *Auction Sale Plans.*

Lithographs of all lands measured for auction sale are printed for use at sales. The price is 1s. per copy.

Auction sale plans completed (39), comprising 2,580 printed copies.

5. *Miscellaneous.*

In this class are included the various published maps of the Colony, sheets of the detail survey of the city and suburbs, trigonometrical surveys of Port Jackson and City of Sydney, maps for Parliamentary reports, Cumberland parishes, compiled in General Survey Branch, maps and diagrams for Surveyors' regulations, Exhibition maps, showing pastoral, agricultural, and mineral information, Land Board Districts, City of Sydney index map, National Park, George's River chart, Sydney suburban subdivisions, star maps for use of surveyors, plan and letter forms for surveyors, and other lithographs of general character, not enumerated under the preceding headings. Completed during the year, 114 miscellaneous lithographs, comprising 150,800 printed copies.

6. *Other Departments.*

Plans and diagrams are printed for other Departments. The principal maps executed this year were for the Treasury, Public Instruction, Public Works, and Mines Departments, and comprised Colony maps, tourists' guide maps, roads and bridge drawings, diagrams and maps for the reports of the Royal Commission on Conservation of Water. Completed during the year, 36 lithographs, comprising 85,775 printed copies.

7. *Official Forms.*

NEW SOUTH WALES.

LANDS DEPARTMENT.

(RETURN SHOWING AMOUNT PAID FOR OVERTIME WORK DURING 1887.)

Ordered by the Legislative Assembly to be printed, 15 *February,* 1888.

STATEMENT showing Amounts paid for Overtime to Officers of the Department of Lands during the year 1887.

Capper, W. H. ...	Clerk-in-charge, Conditional Sales Branch.	11 13 3	94	Arranging and examining from 6,000 to 7,000 conditional purchase cases for the purpose of despatch to the Local Board Offices for inspection of conditional purchases, or inquiry in open Court into the fulfilment of the conditions required by law. Formerly it was the practice to distribute this work, which falls in as the three-year or five-year term of the conditional purchases is reached, over such period as might be required to perform it within the ordinary office-hours, which, as will at once be seen, distributed it when done, as was necessary, in conjunction with ordinary current work, over a considerable time, resulting in vexatious delay to the parties interested. In connection with this work only officers trained in particular duties could be employed; hence the necessity for overtime, which, so far, has been attended with success, and may not again require to be resorted to, all the work which accumulated under the old system having been disposed of, and arrangements made for dealing with cases now maturing as they arise. Some of the local offices had accumulated a very large amount of work, in connection with which conditional purchase certificates were to be issued, and in consideration of the importance of these certificates to the selectors special efforts had to be made in their interest to save further delay. It became necessary to arrange the old records of the Department, consequent upon the reorganization of the Department, and the officer to whom the work was entrusted was fully employed during the day on his ordinary work. During 1887 a large number of appraisements of leasehold and resumed areas were received, which created an amount of work that could not be disposed of within a reasonable period during the usual office hours; and, moreover, required the employment of officers having a thorough knowledge of the work, involving among other things adjustments of accounts which, in consequence of previous provisional arrangements and difficulties in regard to dates from which computations had to be made, were of an intricate nature. The work had been maturing in the local offices, and the Department was rushed with it almost simultaneously from several.

No. 1.

Minute by The Secretary and Under Secretary for Lands.

I AM strongly convinced that the number of Land Board offices can be considerably reduced (say) from sixteen to twelve. Before, however, giving definite instructions to give effect to this conviction, I should like the matter to be considered by the Under Secretary, and to have the benefit of any suggestions he can give upon the subject, and in the direction I have indicated.—T.G., 24/2/87.

I am of opinion that there is no necessity to retain the Local Land Board and District Survey offices at either Albury or Wilcannia after the appraisements of runs are disposed of. The former could be incorporated in Wagga Wagga and the latter in Hay, and perhaps portion of it in Bourke. This arrangement might be given effect to almost immediately if the amended Land Bill now before the Legislature becomes law. Possibly for a time a salaried surveyor will be required at Albury and Wilcannia, but it is thought that the Board duties could be arranged for as provided by the amended Land Bill. It is, however, worthy of consideration whether it would not be well to defer any alteration until the close of the present year, which will permit of the disposal of all appeals against rents.—C.O., 25/3/87.

[830 copies—Approximate Cost of Printing (labour and material), £5 8s. 0d.]

I have to point out that at Moree the offices of Chairman and District Surveyor have been combined, so that there has already been a saving effected of at least £1,000 per annum.—C.O.

I entirely approve of the proposed amalgamations and consequent reductions, but think they should take effect at the end of June. If it should be found necessary to carry on longer than above date the expense may be provided for on Supplementary Estimates.—T.G., 26/3/87.

Chairman and District Surveyors, Albury and Wilcannia, informed, 4th April 1887. The Acting Accountant.—B.A., 27/5/87.

The Under Secretary for Lands to The District Surveyor, Albury.

Sir, Department of Lands, Sydney, 4 April, 1887.

I have the honor, by direction of the Secretary for Lands, to intimate to you that it has been determined to disestablish the Local Land Board and District Survey offices at Albury, and in accordance with this determination provision for carrying on the offices to the 30th June next has been made.

I am to ask that you will be good enough to intimate to your staff that their services will not be required after 30th June next, and that they will be treated in the manner indicated in the attached circulars, which are copies of those issued to other officials of the Department.

At the same time you may also state that whenever opportunity offers their services will be utilized, but upon this point no distinct assurance can be given.

I have, &c,,
CHARLES OLIVER,
Under Secretary.

Sir, Department of Lands, Sydney, 4 April, 1887.

Adverting to my letter of even date, apprising you of the determination to disestablish the Local Land Board Office at Albury, I have the honor to inform you that with regard to your own position it is considered improbable that any similar office can be offered you, but an effort will be made to secure to you an office equal to that held prior to your appointment as chairman.

Minute Paper for the Executive Council.

Subject: Change of head offices of Albury, Tumut, and Corowa Local Land Boards from Albury to Wagga Wagga.

Department of Lands, Sydney, 28 June, 1887.

It is recommended to His Excellency the Governor and the Executive Council that the head offices of the Local Land Boards for the Board Districts of Albury, Tumut, and Corowa be changed in pursuance of the terms of Regulation No. 5 under the "Crown Lands Act of 1884," from Albury to Wagga Wagga, and that Mr. F. W. Watt, at present Chairman of the several Local Land Boards for the Board Districts of Cootamundra, Gundagai, Narrandera, Urana, and Wagga Wagga, be appointed as from the 30th instant to exercise the additional jurisdiction, powers, and authorities of Chairman of the several Local Land Boards herein first mentioned without increase of salary or rate of travelling allowance, *vice* Mr. Thomas A. Brown, whose appointment is recommended to be cancelled as from that date.

THOS. GARRETT.

The Executive Council approves of the proposed change of the head offices of the Local Land Boards referred to from Albury to Wagga Wagga, and that Mr. Watt be appointed Chairman of the Boards referred to.—Alex. C. Budge, Clerk of the Council, 28/6/87.

Approved.—Carrington, 28/6/87. Confirmed, 5/7/87. Noted on salary register.—H.J.C., 9/7/87.

No. 5.

The Council Clerk, Albury, to P. E. Fallon Esq., J.P.

Sir, Municipality of Albury, Council Chambers, Albury, 15 July, 1887.

I have the honor herewith to enclose copy of resolutions passed at a public meeting held in this town on Wednesday, 13th instant, in reference to the removal of the Land Board and Survey Office from Albury, and have to request you will be good enough, in conjunction with the other members of the deputation named in the fourth resolution, to present the same to the Minister for his consideration, and urge upon him the various matters referred to in such resolutions.

I have, &c.,
J. M. H. PAINE,
Council Clerk.

[*Enclosure.*]

The abolition of the Survey Office.—Resolutions passed at public meeting in Albury :—

That as, in the opinion of this meeting, the action of the Minister of Lands in causing the work in connection with the Albury Land Board and Survey Office to be removed to Wagga Wagga is unjust to the town and district, and will entail greater expenditure in carrying out said work, the Minister be asked to revoke his instructions, and that all the work of the Albury land district be performed at Albury in the same way as heretofore since the establishment of the Albury Land Board. That,

That, on the ground of economy, it is a mistake to remove the survey staff from Albury, where there is ample accommodation. Their removal to Wagga Wagga will necessitate a large expenditure to provide the necessary office accommodation.

That it is the opinion of this meeting that, as there is such a demand for land in this district, the Minister of Lands be asked to give the necessary notice to the lessees of the Eastern Division, informing them that their leases will not be renewed at the expiration of the present term, and that all unalienated land be measured forthwith for settlement.

That the foregoing resolutions be presented to the Minister for Lands by a deputation consisting of Messrs. Geo. Day, M.P., Jas. Hayes, M.P., J. Lyne, M.P., and P. E. Fallon, with power to add to their number.

Presented by Messrs. Lyne and Day. Ms.P., and Mr. Fallon.

I promised them that, having regard to the current needs of the public, the Survey Office should be made as effective to the public as it was before the Land Board was established; and further, that the inquiry Board should examine and report to me as soon as possible as to effect of change, and in what respects present arrangements require modifying to meet local need.—T.G.

Said this was a matter of public policy, and required careful consideration.—T.G., 21/7/87. Referred to the Board.—C.O., 21/7/87.

No. 6.

Mr. G. Adams to The Chairman of Board of Inquiry Commission.

Dear Sir, Albury 6 August, 1887.

Permit me to add to my testimony of yesterday the following additional argument why the Survey Office and Land Board should be continued in Albury:—There is such a demand for land by persons now resident in Victoria and South Australia, and as Albury is the nearest and most direct route, I am of opinion that the Government should lose no time in having all waste and unalienated land in the Eastern and Central divisions surveyed at once, and that maps and every other information should be available at the Albury office, that every particular should be given by the surveyor, so that immediately the selector puts in his application he should be allowed to take possession at once; and as a further means to expedite settlement I would also suggest that Mr. Wood should sit as Chairman every Land Office day and deal with the applications there and then. This would save the selectors from travelling such long distances. A great convenience would also be afforded to selectors if the Albury Board were empowered to deal with all cases whether the land is situate in this district or otherwise, if the applicant wishes it, provided he be an immigrant, or reside near the Albury district. You will doubtless see the force of the suggestion. At present the selector has to wait until his selection has been confirmed by the Board, and if he has no home in New South Wales he is put to great expense in travelling backwards and forwards; whilst if the above proposals were carried out the selector could put in his application, it could be confirmed there and then, and he would thus be enabled to go direct to his land and commence work at once.

I have, &c.,
GEORGE ADAMS.

No. 7.

The Chairman of Board of Inquiry to G. Adams, Esq.

Sir, Wagga Wagga, 8 August, 1887.

I have to acknowledge the receipt of your letter of the 6th instant, containing additional arguments why the Survey Office and Land Board should be continued at Albury. In reply I beg to assure you that the Board will carefully collate and report to the Minister for Lands all the circumstances connected with the matter.

Perhaps it is desirable that I should inform you that the suggestions contained in your letter are such as would necessitate an alteration of the existing Lands Act. Whilst our duty is confined to a report on the administration of the law as it is, your letter will be submitted to the Minister in due course, but I venture to suggest that, with regard to proposed amendments of the law, they should be submitted to the Minister either direct or through your local representatives, as may be deemed advisable.

I have, &c.,
WM. J. CONDER,
Chairman, Board of Inquiry.

Extracts from *Albury Border Post*, Tuesday 9 August, 1887.

Removal of the Lands Office, &c., &c.

On Friday morning, a large deputation, representatives of all classes, met the gentlemen forming the Inquiry Board, at present taking evidence in the country branches of the Lands Department, with a view of urging the injustice the removal of the Lands Office had inflicted on the town and district. Only very short notice of the intention of waiting on the Board had been given, yet there was an attendance of nearly 100 of the principal ratepayers. The Board, which is composed of Messrs. Conder (Chairman), R. M'Donald, and Wm. Houston, was met in the Police Court hall.

The Mayor, having first performed the formal introductions, began by thanking the Board for the opportunity it had accorded of placing their grievances before them. From a conversation he had had with Mr. Conder, it was plainly shown to him that he intended to conduct the inquiry in a thorough and impartial manner. The meeting was for the purpose of urging a strong protest against the removal of the land office from Albury to Wagga Wagga. It was not as if they had not all the facilities for doing the work in Albury, or that there was not sufficient work to justify the retention of the staff. Indeed, he believed that just prior to the abolishment of the Survey Branch application was about to be made for an increase in the staff, rendered necessary by the steady accumulation of work. There were, however, many gentlemen present who were more qualified than he to speak as to the absolute necessity for the retention

of

of the office in Albury. They were simply asking whether a town of 6,000 or 8,000 inhabitants was not entitled to some consideration at the hands of the Government, and, putting it plainly, they would never rest satisfied until this matter was rectified. (Hear, hear.) The Chairman of the Board has stated that he has no power to effect an alteration, yet he might be induced to put in a good word in his report that would bring about the desired object.

Mr. Geo. Adams, who then came forward, and was well received, commenced by stating that when it was first proposed to remove the Land Board from Albury, the greater bulk of the people believed that it was simply doing away with the chairman and his assistants; hence they did not bestir themselves to protest, fully believing that the reduction was absolutely necessary in accordance with the retrenchment policy of the Government. But they certainly must protest against the work in connection with the operations of the Land Board being removed from Albury. This was the sole cause for their complaint.

The Chairman of the Board: The removal of the Chairman of the Board you don't object to.

Mr. Adams replied that the removal of the Board to Wagga Wagga was not so much the cause for complaint, as the removal of the survey staff, which would necessitate selectors having to go to Wagga Wagga on their land business, or do it by letter, which was both inconvenient and unsatisfactory.

Mr. W. J. Jones: Then there is the delay awaiting answers to the letters.

The Chairman: The objection is having to go to Wagga Wagga?

Mr. Adams: Yes; the residents claim it as a right that the work of the district should be done in the district (hear, hear), and not taken to another town. When I was in Sydney, about a month ago, Mr. Garrett informed me, together with Messrs. Lyne and Hayes, that the Board would be here to make the necessary inquiries into the working of the Lands Office, and he assured us that any work in connection with the district would be done here, and that the report of the Board would be handed in in July.

The Chairman: Then you had some promise from the Minister for Lands?

Mr. Adams: Most distinctly; Mr. Garrett promised Mr. Hayes privately, and Mr. Lyne and myself, who waited upon him subsequently, for confirmation that the work appertaining to the Albury district would be done in Albury. But, instead, towards the end of June, an officer was sent here to remove the furniture and send the officials adrift, and the staff of the Survey Office was treated in the same manner, with the exception of one or two. Mr. Woods was one of these, and we consider that a great injustice has been done him, as well the infliction of a no less great injustice on the town and district. The Government received upwards of £100,000 annually from the district, and we expect some return, and, in fact, unless we obtain redress, we will carry the matter to Parliament. We don't intend to be sat upon. As a border town, many people came here from Victoria in search of land, and now they would have to go to Wagga Wagga. Another reason why the Lands Office should be allowed to remain was that in two years time the leasehold lands would fall in, and there would then be a great demand for land.

The Chairman: That is a matter of public policy.

Mr. Adams: It was one of the reasons why the office should be allowed to remain in its entirety. When I was last in Sydney there was more than six months' work remaining to be done in the office, and when the first intimation was received by Mr. Wood that the office was going to be abolished, he was about to apply for an additional draftsman, in order to clear away the arrears of work. I would ask the chairman to bear out my statement by making inquiries as to the amount of work there was in the office before its removal. There was really no justification for the removal, and I believe that it was only done to grab work from the Albury district to provide employment for the staff at Wagga Wagga, who previously had little or nothing to do. I would also like to bring under your attention a matter of a more personal bearing. It is the indignity inflicted on Mr. Wood by his reduction. No one here can point a finger at Mr. Wood. (Hear, hear). He had been 30 years in the service, and was not like some of the officials in Sydney, who had taken tip. You cannot say that he has ever done that, and, as reward, they were going to turn him out of an office he has enjoyed for the past 30 years. We must protest against this, to the extent even, if necessary, of the people of the whole Albury district going down to Sydney. They have reduced his salary by £200 a year.

The Chairman: That is not so much a matter for the Board to inquire into.

Mr. Adams: Well, the removal of the office was a great injustice to the town, and the officers should be sent back again. (Hear, hear).

The Chairman: Can anyone show the Board any inconvenience that has been caused by the removal of the office?

Mr. Thomas Affleck then came forward. He said that, as an old resident of the district, and through his connection with the local press, he would take the opportunity offered for furnishing evidence of the inconvenience and loss the removal of the office has caused. He had considerable correspondence with his subscribers throughout the whole of the Albury district, who wrote asking that inquiries of a general character should be made for them at the Lands and Survey Office, and it was a practice to furnish them with this information. Applications for these inquiries came from Tumbarumba and other long distances, and, now that the office had been removed, these persons will be compelled to go to Wagga Wagga, at considerable expense and loss of time, in order to obtain the required information. This, he contended, was strong evidence of the inconvenience the removal of the office would cause. We, as residents of the town, and on behalf of the selectors and graziers who had acquired land in the district of Albury, considered that it was an injustice that they should be compelled to travel into another district to obtain information that should be obtainable in Albury, as headquarters of the district. (Hear, hear.) He could cite several instances that had occurred during the past few weeks of the inconvenience the removal of the Lands Office had occasioned.

The removal of the Lands Office would as well tend to injure the interests of the town itself in a great many respects, in fact, already the disestablishment of the office has the effect of depreciating the value of property in the town, by the houses occupied by the officials being vacated by their removal to Wagga Wagga.

He did not want to impute any personal feeling to the Minister in the matter.

The Chairman: We want to find out what injury or inconvenience the removal of the office to Wagga Wagga will cause. We cannot do anything with other matters.

Mr. Affleck continuing, said that from his own personal knowledge the removal of the office would be very inconvenient to the selectors, and, in the event of their requiring information, they would have to travel

travel to Wagga Wagga to obtain it. As the community of a large town, they claimed to have the work done on it. (Hear, hear.) The land was originally selected here, and, in the face of that, an injustice had been done to the town by the abolishment of the office, after it had been built up, to no small extent, on the anticipations of the retention and extention of the Government offices.

The Chairman: Do you not think that, inasmuch as the Land Board will sit here as before, all information will be obtainable?

Mr. Affleck: It is from the Survey Office that all information is required. That the sittings of the Land Board are necessary in the town, it stands to reason that the Survey Office and staff are also necessary.

Mr. E. Scanlon said he desired to direct attention to a point that had been omitted by the other speakers. In addition to the injury the removal of the Lands Office would do to the town, and as showing that the Government, by abolishing the office, was reversing the policy of affording facilities to people desirous of settling on the lands, he desired to state that it was well known that a great portion of Riverina had been selected by people who came through Albury from the other colonies. It was here that they first obtained their information on which their subsequent movements were regulated. Of his own personal knowledge he knew of many men who had come from Victoria and New Zealand, who took up land in the Colony on the strength of information supplied them at the Albury Lands Office. In removing the office 80 miles inland, it seemed to him that instead of encouraging the people to settle on the land, the Government was placing obstactles in the way of selectors. This, he argued, was in addition to the very great injury the removal of the office inflicted on the people of the town, a substantial reason why the action should not have been taken. (Hear, hear.)

Mr. C. L. Griffiths said it seemed to him that in the present inquiry the people of Albury were being placed in a false position, in being compelled to come forward with evidence when the onus of proof lay with the Government. (Hear, hear.) They had been called on to show cause why this very startling alteration should not be made; but it seemed to him that the Government instead should prove to them that it was necessary, either on the grounds of economy or anything else. Now, so far as retrenchment was concerned, from what he could gather, the Government would have to erect buildings in Wagga Wagga to accommodate the staff, and, as they all knew, these buildings would cost a lot of money before they were finished. The money expended on the building, while they had ample accommodation in Albury, would pay the salaries of a staff for a considerable time. The business in the Eastern Division of the Colony would be greatly increased when the leasehold areas were thrown in. Albury was in the Eastern Division, which alone would be affected by the falling in of the lands, while Wagga Wagga was in the Central Division, the leasehold lands of which would not undergo the same operation. Again, the Albury District was one of the most thickly populated in the Colony. (Hear, hear.) An industrious man could make a better living on 200 acres in this district than another on a much larger area in the back country. In fact they had instances of men selling out here and settling in the Lachlan District, returning poorer men than when they left. There were a large number of persons watching for the lands to be thrown open, and when they were, there would be a great rush, and consequently much work in all the branches of the local Lands Department. He certainly thought that the town was entitled to some consideration from the Government, and that justification should have been shown before making such a violent change.

Admitting that the Government saved from £200 to £1,000 a year, it would, in his opinion, be a very bad kind of saving, when it caused such a large amount of inconvenience to selectors and others, as well as affecting the interests of a large town. (Hear, hear.)

Mr. Thorold said he was credibly informed that when the staff was taken away there was work in the office properly belonging to the district that would have taken nine months to have completed. For what reason they were removed he was at a loss to understand, as they had the offices here, and all other requirements, while in removing to Wagga Wagga it became necessary to erect buildings there. It was stated that these buildings would cost about £600, but before they were finished their cost would be nearer £1,500. He could not understand why the staff had been removed to a smaller town. Albury should have been considered because it was the first point in the Colony intending selectors struck when coming from Victoria. It might reasonably be asked, why these people should be made to travel an extra 84 miles into the Colony, when there was no reason why they should not obtain the necessary information in Albury.

The expenditure of money in the town was also a serious consideration. There were eight or ten gentlemen who had resided in the town, and their removal, and the consequent loss of their salaries, was an injustice to Albury. (Hear, hear.)

Mr. Adams finally suggested that the Board might see its way clear to recommend that all the work in connection with the district should be done in Albury; that Mr. Wood should be reinstated in his former position, by having full control of all departments. That was all they asked for. Mr. Wood could be appointed Chairman of the Albury Board, with the Police Magistrate, which would save the expense of bringing the Board from Wagga Wagga, while the work could be as efficiently performed. This would place them in the same position as before, and the Government would not be put to greater expense than would be necessary under the present system of doing the work at Wagga Wagga and sending the Board to Albury.

The Mayor said there was one thing for which they had just cause for complaint against the Minister. Mr. Garrett gave them a distinct promise that no action would be taken until the report of the Board had been received, but instead, the office had been wiped out, and the Board of Inquiry followed afterwards. It seemed to him that their case had been prejudged, and that they had every cause for complaint on that head. (Hear, hear.)

The Mayor then moved a vote of thanks to the Board for the courtesy they had extended in attending to hear their different views.

The Chairman, in returning thanks, said, all they could do was to collect and put in proper form the opinions they had that day heard, as well as take notes from the records of the office, the amount of work in hand, and the amount in hand when the office was abolished. They could not promise anything further than the views the deputation had given would be laid before the Minister. (Hear, hear.)

The proceedings then closed.

Since the date of the meeting Mr. Adams has sent the following additional suggestion to the Board:—"Permit me to add to my testimony of yesterday the following additional argument, why the Survey Office and Land Board should be continued at Albury. There is such a demand for land by persons now resident in Victoria and South Australia, and as Albury is the nearest and most direct route, I am of opinion that the Government should loose no time in having all the waste and unalienated land

in

in the eastern and central divisions surveyed at once, and that maps and every other information should be available at the Albury office; that every particular should be given by the surveyor, so that immediately the selector puts in his application he should be allowed to take possession at once, and as a further means to expedite settlement, I would suggest that Mr. Wood should sit as chairman every land office day, and deal with the applications there and then. This would save the selectors from travelling such long distances. A great convenience would also be afforded to selectors if the Albury Board were empowered to deal with all cases, whether the land is situated in this district or otherwise, if the applicant wishes it, provided he be an immigrant or reside near the Albury district. You will, doubtless, see the force of the suggestion. At present the selector has to wait until his selection has been confirmed by the Board, and if he has no home in New South Wales he is put to great expense in travelling backwards and forwards; whilst if the above proposal was carried out, the selector could put in his application, it could be confirmed there and then, and he would thus be enabled to go direct to his land and commence work at once."

After the deputation, Mr. J. Hayes gave evidence before the Board. We understand that he strongly urged that, inasmuch as there were many reserves that would soon be thrown open, there would be a great demand for land, and these reserves should be surveyed at once.

Extract.

In submitting the recommendation of the Board of Inquiry with reference to the Survey Office at Albury, which could not in consequence of other matters having in connection therewith requiring to be first dealt with, be placed before the Minister at an earlier date, I beg to suggest that the arrangement proposed be given effect to * * * * As before stated I concur in the recommendations of the Board, and therefore recommend that Mr. Barlow be transferred to Albury, with a view to his entering fully on the duties appertaining to his position, which will necessitate his being an active field officer.

The suggestion as to the transfer of Mr. Day to Albury is also one that can with advantages be adopted, his duties (among any others which may be hereafter allotted to him) to be those laid down by the Board, viz.:—The Board are of opinion that it will be desirable to provide such arrangements at Albury as will render that office of more tangible value as an inquiry office than it has yet been, and recommends that the services of Mr. Draftsman Day, who appears to have a good practical knowledge of the Act, be retained. This office should be furnished with a complete set of maps of the present Land Board District of Wagga Wagga; also with a supply of all lithographed maps of the district extant, or as published from time to time for sale purposes. Mr. Day's duties should be, the custody of all maps; supplying the public with information and assistance in drawing up applications; answering all inquiries as to the progress of applications; communicating, if necessary, by telegraph or letter to the Local Land Board or District Survey Office at Wagga Wagga; provisionally charting the maps from tracings to be supplied from the Wagga Wagga office immediately on receipt of plans, such charting to be confirmed after due notice, or amended from tracings (if an amendment of survey has taken place); charting reserves, or noting revocations of same from slips supplied from the District Survey Office; also forfeiture and lapsing, &c., of conditional purchases or leases, from slips supplied from the same sources. The spare time at the disposal of this officer should be occupied in assisting Mr. Surveyor Barlow in general office duties, such as plotting, writing reports, &c. The tracings to be forwarded from the Wagga Wagga office to be returned by Mr. Day immediately after charting. The tracing may then be used as a Land Board, Head Office, or Inspector's tracing.

No. 10.
Report of Board of Inquiry.

Sir, Department of Lands, Sydney, 30 November, 1887.

In accordance with the Minister's instructions of the 21st July last (endorsed on a copy of certain resolutions passed at a public meeting held in Albury, 87-7,301 Ml. herewith) "to examine and report as soon as possible" as to the effect of recent changes made at Albury relative to the administration of the Land Act and "in what respects present arrangements require modifying to meet local needs," the Board have been at great pains to investigate all details in connection with this matter, and as far as lay within their functions, have carefully considered the subject matter of the resolutions referred to.

Although the papers, books, and other documents transferred from Albury, were seen and critically examined at Wagga Wagga, it was considered advisable to inspect the office at the former place and elicit evidence from Mr. Surveyor Wood and other officers in respect of the inquiry.

While there, the Board had the advantage of learning from a numerous deputation—including the Mayor and many of the leading citizens—their views on the removal of the Land Board Offices, and would invite the Minister's attention to the annexed clipping from the *Albury Border Post*, which accurately sets forth the arguments used by the several speakers.

Some important information was also afforded by Mr. Hayes, M.P., on various points affecting the local administration, which will be found with the notes of evidence attached.

The resolutions previously mentioned are as follows:—

1st. That, as in the opinion of this meeting, the action of the Minister for Lands in causing the work in connection with the Albury Land Board and Survey Office to be removed from Wagga Wagga is unjust to the town and district and will entail greater expenditure in carrying out said work, the Minister be asked to revoke his instructions, and that all the work of the Albury Land District be performed at Albury in the same way as heretofore since the establishment of the Albury Land Board.

2nd. That, on the ground of economy, it is a mistake to remove the survey staff from Albury, where there is ample accommodation. Their removal to Wagga Wagga will necessitate a large expenditure to provide the necessary office accommodation.

3rd. That it is the opinion of this meeting, that as there is such a demand for land in this district, the Minister of Lands be asked to give the necessary notice to the lessees of the Eastern Division, informing them that their leases will not be renewed at the expiration of the present term, and that all unalienated land be measured forthwith for settlement.

4th. That the foregoing resolutions be presented to the Minister for Lands by a deputation consisting of Messrs. Geo. Day, M.P.; Jas. Hayes, M.P.; W. J. Lyne, M.P.; and P. E. Fallon; with power to add to their number.

The first and second resolutions embrace the whole subject to be dealt with by the Board, the third being one involving a matter of public policy requiring the consideration of the Government, while the fourth is purely formal.

The Board have to report that as the centre of administration for the three Land Districts (Albury, Tumut, and Corowa), which formed the late Land Board District, the geographical position of Albury is unfavourable. The Tumut Land District is more convenient of access from Wagga Wagga, in fact, the late Chairman of the Albury Board had to pass through Wagga Wagga *en route* to Tumut, and the weight and importance of land business at the latter is little less than that of Albury.

The adoption of Wagga Wagga as the local centre of administration facilitates the holding of Board meetings at Tumut, reduces expense, and is a considerable convenience to the public at Tumut in the transaction of business.

In the Land Districts of Albury and Corowa alone there is not nearly sufficient work to justify the large expenditure necessary to maintain a Local Land Board Office. The former town is reached by railway from Wagga Wagga in three or four hours.

The following summary illustrates the number of conditional purchases and conditional leases (48 sec.) applied for in each Land District from the 5th August, 1885 (the first Land Office day under the present Act), to the 30th June, 1887, and the total number not confirmed on the 26th July, the date of the Boards' inspection:—

Land District.	Applications received in 1885.	Applications received in 1886.	Applications received in 1887.	Total.
Albury	91	106	60	257
Tumut	57	160	21	238
Corowa	85	74	29	188

	1885.	1886.	1887.	Total.
Not finally dealt with on the 26th July, 1887 ...	64	263	81	408

With regard to the additional expenditure, alleged in the second resolution to be necessary at Wagga Wagga, in order to enable the business to be transacted, the Board have to report that no necessity exists for any expenditure whatever on this ground. The only expenditure which the Board have felt justified in recommending being that for the construction of fire-proof apartments to contain the official records, which under any circumstances would have been necessary. [*Vide* Report on Wagga Wagga Office.]

While the natural advantages of the Land District of Albury as a field for selection are manifest, the position of the town, by reason of railway communication with Victoria making it a convenient place for inquiry by persons crossing the border, enhances its importance and suggests the advisableness of maintaining the Crown Land and Survey Offices in a high state of efficiency.

In the general arrangements for the reorganization of the staff of the Wagga Wagga District, the Board have submitted such recommendations as appear necessary to provide for the maintenance of the Albury office in such a state as will meet all public requirements; a copy of these recommendations is attached, together with the notes of evidence collected at Albury.

[*Enclosure.*]

Mr. Dalhunty, Land Agent:—I do not think two sets of maps are required in this office. I think it is an advantage that the maps should be kept upstairs in the Survey Office, and is most advantageous to the public. This is the largest office in the Colony for transfers, and information can be obtained more readily in the Survey Office. The Land Agent's time being fully taken up, particularly on Thursday, the public can get any information they require. I can see no reason why the abolition of the Land Board and District Survey Offices is objectionable, especially the Land Board. A very large number of applications for information are received here from Victoria from intending settlers. I have no means of supplying definite information in all means. I send my clerk to the survey branch for information. The questions generally relate to country all over New South Wales. I generally refer the letters to the proper district. I receive many applications for lithographs up to date. There are several private land agents in the district. There is no authorized draftsman here. I think there would be plenty of work for one.

Mr. Hayes, M.L.A.:—I honestly think the abolition of the Land Board Office is decidedly objectionable on public grounds. I do not say that it is necessary to keep it up on the same basis as heretofore, but it should be made effective, as it was in former days. The main objection is the abolition of the Survey Office. The people are afraid they cannot get good information from the maps under other arrangements. There has been a very great delay in surveying selections, and people feel that if the Survey Office was removed from here there would be greater delay. These delays have prevented a large number of people from Victoria coming over here. They say it is quite useless to select in New South Wales because of the "law's delays." There are a great number of complaints in regard to the issue of certificates of conformity. I receive from twelve to fifteen letters every month from conditional purchasers, crying out for inquiry. I think the delay is with the conditional purchase inspectors. As a suggestion I would say that the police should be employed on conditional purchase inspection. This system is adopted in Victoria, and is universally approved. The *bona fide* selector would have no objection to police supervision: the dummy might. I think the police officers are capable of valuing improvements. I desire particularly to invite attention to the fact that there is a very great demand for land here, and every inch of available land that will be open, when reserves are revoked and leaseholds fall in, will be most eagerly taken up.

CROWN LANDS ALIENATION ACT OF 1861.

(OPINION OF MR. ATTORNEY-GENERAL DALLEY RESPECTING RESERVATION OF AREAS FROM SALE FOR MINING PURPOSES.)

Ordered by the Legislative Assembly to be printed, 7 June, 1888.

OPINION of the Honorable the Attorney-General (Mr. Dalley), *re* application of section 4 of the Crown Lands Alienation Act of 1861, to the reservation of large areas from sale for mining purposes.

Re application of section 4 of Crown Lands Alienation Act of 1861, to the reservation of large areas from sale for mining purposes.

I HAVE the whole of the papers in this case submitted to me and have also the advantage of perusing and considering the case on which this question originally arose (that of reserves from sale for mining purposes), 1879. I have patiently read and considered the report in that case of the Deputy Surveyor-General, the memorandum of the Secretary for Lands, and the opinion of the Attorney-General. I have come to the conclusion that the view of my colleague, the Minister for Lands, is the true one, that under the 4th section of the Act of 1861 such reserves were not contemplated. The public purposes contemplated by this section were necessarily of the same kind as those specifically mentioned, namely, sites for cities and towns and for preservation of water supply.

I think the reasoning of the Deputy Surveyor-General in his memorandum of date 24th September, 1882, is unanswerable.

THOMAS THOMPSON'S CONDITIONAL PURCHASE, MADE AT MOAMA.

DRAFT REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 7th October, 1887, A.M.,—"*with power to send for persons and papers to inquire into and report upon all the circumstances attending the Conditional Purchase of Thomas Thompson, made at Moama on the 12th January*, 1882"; and to whom was referred on the same date "*the Progress Report, Minutes of Proceedings, and Evidence, brought up on the 12th July*, 1887,"—have agreed to the following Report:—

Your Committee having examined the witnesses named in the list*, whose evidence will be found appended hereto, and carefully considered the Report and Evidence referred, find as follows:— * See List, p. 6.

(1.) That on the 12th January, 1882, Thomas M. Thompson selected a portion of land, No. 76, from the Crown, on Perricoota Run, in the county of Cadell, parish of Benerca, at Moama Land Office, and paid the deposit thereon.

(2.) Thompson selected the land through seeing a notice in the *Gazette* that the land was open for selection. The Land Officer took the deposit money without objection. Thompson took immediate possession of the land, and commenced to reside on it and to fence it in.

(3.) The land at the time of selection contained improvements, consisting of an old two-rail fence, valued at £10, and which did not bar selection.

(4.) Thompson was subsequently served with a writ, by Messrs. Robertson and Wagner, on the 2nd December, 1885—nearly three years after—for trespass on this land. Thompson in the meantime had built a house, fenced in the land with a six-wire fence, and scrubbed 12 acres, which has been under cultivation for three years. Thompson had been in the undisturbed possession of the land for three years, when he received the writ.

(5.) After the writ was served on Thompson, an offer was made to him by Robertson and Wagner, the lessees of Perricoota Run, of £240 to complete the term of residence, and then to hand over the land to them, which offer he declined.

(6.) Thompson entered no appearance to the writ, owing to a similar case (Mr. M'Kindly's) having been decided as against the selector (M'Kindly) by the Supreme Court—Thompson trusting to the Crown to protect his contract with it. Judgment was given against him (he having put in no appearance) in the Supreme Court for £250, and £50 expenses or damages for an alleged trespass which actually took place on his own land, and which land is still in his lawful possession, and acknowledged by the Crown to be his property.

(7.)

(7.) Thompson's father paid the amount of costs and damages to prevent the Sheriff's officer, who appeared on the land with an execution for the purpose of selling the same; the land therefore still remains in the possession of Thompson. Your Committee are of opinion that the action brought by Robertson and Wagner for trespass on portion No. 76 (Thompson's *bonâ fide* conditional purchase) was vexatious and utterly without grounds. Thompson's conditional purchase portion 76 still stands good in the books of the Lands Department and in his (Thompson's) name.

2. Your Committee, therefore, consider that Thompson has been cruelly and unlawfully persecuted, and inasmuch as the Crown should have protected him in the enjoyment of his property lawfully acquired from the Crown, recommend his case to the favourable consideration of the Government.

J. M. CHANTER,
Chairman.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

THOMAS THOMPSON'S CONDITIONAL PURCHASE, MADE AT MOAMA.

FRIDAY, 11 *NOVEMBER*, 1887.

Present:—

MR. CHANTER, MR. DAY, MR. GALE, MR. GARRETT, MR. KELLY.

J. M. CHANTER, ESQ., IN THE CHAIR.

Mr. Thomas Edward Murphy called in, sworn, and examined:—

1. *Chairman.*] What is your occupation? I am a clerk.
2. In what office? In the Supreme Court Office.
3. *Mr. Garrett.*] You are third clerk in the Prothonotary's Office? Yes.
4. Were you examined before a Committee on the 22nd June of this year? I was examined, but I forget the date.
5. And you then produced the papers in the case of Robertson and Wagner against Thomas Thompson? I did.
6. You produced the papers in that case then? Yes.
7. Do you produce them now? No; I left them at that time with the Committee.
8. There was a case tried some time before that between some plaintiffs and a defendant named M'Kindlay? Yes.
9. Have you got the papers in that case with you? I have the papers in the case of Robertson and another against M'Kindlay. The trial took place on the 24th November, 1884, in this case, but I forget the date of the trial in the other case.
10. What was the subject matter of that suit? It was merely a matter of trespass. The declaration sets forth the cause of action.
11. What was the cause of action? The cause of action is set forth in the declaration, which I will read:—

Mr. T. E. Murphy. 11 Nov., 1887.

"In the Supreme Court of New South Wales.—The sixteenth day of August, in the year of our Lord one thousand eight hundred and eighty-four.

"Sydney, to wit.

"Alexander William Robertson and John Wagner, by Melbourne John Macnamara, their attorney, sue Neil McKindlay, for that the defendant on divers days and times broke and entered the plaintiffs' close known as Perricoota Run, and situated in the Murrumbidgee District, in the Colony of New South Wales, and kept possession thereof for a long time, and with sheep, cattle, and horses, depastured the same, and ate up the grass and herbage and consumed the water thereon, and erected fences and buildings on the said close, and by means of the premises the plaintiffs were prevented from using their said close in as beneficial a manner as they otherwise could and would have done, and their stock have become impoverished and deteriorated in value, and the plaintiffs have been otherwise greatly damaged And the plaintiffs claim two thousand pounds.

"MELBOURNE JOHN MACNAMARA,
"Plaintiffs' Attorney."

Mr. T. E. Murphy. 11 Nov., 1887.

12. How was the case conducted, and what was the result in court? They went to trial. The trial took place on the 24th November, 1884, and a verdict was directed to be entered for the plaintiff with 1s. damages.
13. Where did the trial take place? At Sydney.
14. Was there any evidence given at that trial? Yes; there must have been evidence given.
15. Have you got any notes of the evidence? No.
16. Is there any notation upon the record of the verdict as to any order of the Court as to a new trial being moved for or an appeal? Yes.
17. What was it? The first step towards an appeal was taken on the 1st December, 1884. The memorandum for a new trial was filed. It sets forth the grounds on which they intended to apply for a new trial.
18. What are the grounds? The first is upon the points reserved at the trial.
19. What were those points? The only way to get at that would be by seeing the Judge's note-book.
20. Can you tell us the history of the case? There are several grounds on which the appeal is asked for. One was upon the points reserved at the trial, but I have not those points. The second was that the defendant's conditional purchase as proved in evidence and admitted was valid in law. The third was that lands may be conditionally purchased under the 12th section of the Act 43 Victoria, No. 29, whether the improvements thereon are less than 20s. or not. The rule was granted on these three grounds.
21. What was done then? Nothing further appears to have been done.
22. What would have been the usual course;—was it not for the defendant to have gone on then? It for the defendant to have gone on then, because the rule was obtained by him.
23. Has he gone on? He has not.
24. *Chairman.*] Is the declaration in this case precisely similar to that in Thompson's case? I do not know.
25. You see it in the printed evidence. Is not that a *fac-simile* of the declaration in Thompson's case? It is, as well as I can judge from reading the one and then the other. They appear to be just alike.
26. *Mr. Gale.*] Have you the particulars of the trespass in M'Kindlay's case? I have.
27. Will you read it? Yes; the particulars are as follows:—

"In the Supreme Court of New South Wales—No. 2,267 of 1884—Between Alexander William Robertson and John Wagner, plaintiffs, and Neil M'Kindlay, defendant.

"Particulars of trespass:—The trespasses complained of herein were committed by the defendant, his servants, sheep, cattle, and horses upon plaintiffs' lands, between the 12th day of January, 1882, and the commencement of this action, and which said lands are shown upon the plan annexed hereto and hereon colored red.—Dated this 16th day of August, in the year of our Lord 1884.

"MELBOURNE JOHN MACNAMARA,
"Plaintiffs' Attorney."

28. *Mr. Garrett.*] What judge tried that case? Sir James Martin.
29. Can we get the notes taken at the trial? I think so.
30. *Chairman.*] Have you any record of the costs in the case of M'Kindlay? No; no record here.
31. *Mr. Garrett.*] The costs have not been paid yet? No; they have never been taxed.

Mr. William Henry Capper called in, sworn, and examined:—

Mr. W. H. Capper. 11 Nov., 1887.

32. *Chairman.*] You are engaged in the Lands Department? Yes.
33. *Mr. Garrett.*] Do you produce the papers in regard to the conditional purchase made by Neil McKindlay? Yes.
34. Is that case in all its particulars on all fours with that of Thomas Thompson's? Yes, so far as that it stands good.
35. It is on the same reserve, the Perricoota Run? Yes.
36. And like Thomas Thompson's it now stands good? Yes.
37. Are all the particulars you gave in Thomas Thompson's case to this Committee on the 22nd June last applicable to this case? Yes. The only difference between the two cases is this, that in McKindlay's the portion which he selected embraced improvements, for which he paid under the 12th section of the Act of 1880; but there were no improvements in Thompson's case.
38. In McKindlay's case he paid as required by the Act of 1875 or 1880? Under the Act of 1880.
39. Is it not a fact that according to the Land Act Amendment Act of 1880 improved measured portions could be selected, and if improvements had been made subsequent to a certain date, namely 1876, upon any reserve, and that reserve was revoked, that then the land although it was improved could be selected? Yes, that is the law.
40. It was under that law that McKindlay selected? Yes.
41. And under that law he came to pay for the improvements? Yes.
42. Have you any knowledge from the papers of any action in the Supreme Court by the lessees of the Perricoota Run against McKindlay? Yes, there is a letter from Mr. Andrew Armstrong, a land agent, asking the then Minister for Lands to direct the attendance at court as witnesses of District-Surveyors Orr and Trickett.
43. For what purpose? As witnesses in support of the value placed upon the improvements effected upon portions 83 and 101 selected by James and Neil McKindlay. Mr. Secretary Farnell decided upon that application and the papers before him that the Government were not involved, and therefore he could not interfere.
44. The Government were not involved in the action? No.
45. With regard to these portions that had been selected, had they been previously applied for by anyone else? Yes, applied for by the lessees of the run, Messrs. Robertson & Wagner, as I.P. applicants.
46. How were the applications dealt with? They were refused on account of the improvements having been effected during the currency of the reserve.
47. Was that after the notice that had appeared in 1876, warning lessees not to improve reserves, that it would not give them any right to purchase?. Yes.
48. In the Act of 1880 was not the substance of that notice embodied in the law? I believe so.
49. That being the case the I.P. applications were refused? Yes.

Mr. W. H. Capper.
11 Nov., 1887.

50. And the land under the law of 1880 was open to conditional purchase? Yes.
51. No matter to what extent it might have been improved? No.
52. McKindlay's people selected it knowing that it was improved, and paid the value of the improvements? Yes.
53. Who received the value? The Crown.
54. McKindlay still holds his land? Yes; he has his certificate.
55. Thompson also holds his land? Yes.
56. Has he got his certificate? No.
57. Has he applied for it? Yes, and as a matter of routine the papers in the case are in the hands of the Board for the verification of his final declaration.
58. He has made a final declaration, and will get his certificate? Yes, I have no doubt of it, the reports with the papers were satisfactory.
59. *Chairman.*] These lands we are now speaking of in connection with McKindlay's selections, do they stand in your books in the name of McKindlay, or in the name of Robertson & Wagner? The last date here in the papers is March, 1887. They were then in the name of McKindlay.
60. *Mr. Garrett.*] Were they transferable then? They were transferable on the 12th January, 1887. The certificates were issued on the 17th October to Neil McKindlay, care of the agents, Messrs. H. H. Brown & Co.
61. You have not received notice of any transfer? No.
62. *Chairman.*] There are two selections;—are the certificates issued in both cases? Yes, to both Neil and James. They were issued on the same day, both to Messrs. H. H. Brown & Co.
63. *Mr. Gale.*] Did you say that the certificate is as good as issued in Thompson's case? Yes.

CROWN LANDS.

No. 1.

Application by Mr. W. Skene.

K.

[Occupation Act, 1861, and Lands Acts Amendment Act, 1875, and the Lands Acts further Amendment Act of 1880.]

To be used in claiming to lease adjoining lands under pre-emptive right.

District of Deniliquin.

Received this 28th day of September, 1877, at o'clock, together with the sum of £1.

J. A. BROUGHTON,
Land Agent.

Sir, Deniliquin, 28 September, 1877.

In pursuance of the provisions of the Crown Lands Occupation Act of 1861, and the Lands Acts Amendment Act, 1875, and the Lands Acts further Amendment Act of 1880, and regulations thereunder, I, William Skene, do hereby apply to be allowed to lease the sections or portion of Crown lands hereunder described, at the fixed rent of £2 per section, which I hereby tender.

The land in virtue of which I claim to exercise a right of pre-emption, is situated as follows, and is now in my possession, viz. :—

County of Townsend, parish of Conargo, containing 640 acres, being conditional purchase on the 27th day of September, 1877, by William Skene, at Deniliquin.

I am, &c.,
WILLIAM SKENE.

To the Land Agent for the district of Deniliquin.

Description of the sections or portion applied for:

320 acres, south of and adjoining my conditional purchase.

No. 2.

Mr. A. Armstrong to The Under Secretary for Lands.

Deniliquin, parish 78-4; 2nd Jan., 1878; 320 acres; W. Skene.

Sir, Land Agency Office, 26, Bridge-street, Sydney, 5 July, 1883.

Referring to the pre-emptive lease, noted in the margin, I have the honor to make application for leave to pay overdue rental to end of current year.

I have, &c.,
A. ARMSTRONG,
(Agent for W. SKENE.)

Register and forward to Mr. Burt. The papers are at present not forthcoming.—H.C., 5/7/83.

Mr. Burt, as far as can be ascertained from the maps in use in the office and the description of travelling stock reserve No. 986, there would appear to be a limited area available for the renewal of the within prelease.—ALFRED W. EAST, 11/7/83.

Mr. Curry,—Appears to be about 85 acres adjoining the conditional purchase at present vacant, but whether it is within the lease or not I cannot state definitely, as it is an undefined lease so far as this area is concerned there are no objections.—J.B., 11 July, 1883.

Ask Land Agent for a copy of the application.—H.C., 11/7/83. M.W. Agent, Deniliquin, for duplicate of application, 12 July. Mr. Croft. An immediate and special search must be made for the papers.—H.C., 12/7/83.

No. 3.

Objections by Pastoral Leases.

Ch. Walker's application to convert prelease 78-4 into conditional lease.

1. The prelease was never transferred by executor of Wm. Skene to Walker, and prelease still stands in name of deceased.
2. Walker was not the holder at the date of his application.
3. The prelease was forfeited, and there is no evidence of it having been reinstated.
4. By the terms of the Act itself no prelease existed at date of application, and consequently there was none to convert.
5. That the land applied for contains improvements, made by pastoral lessees while in possession, to the value of over £1 an acre.
6. That the land is not open to conditional purchase, and, consequently, not open to conditional lease.
7. That Walker lay by while the pastoral lessees were making the improvements and made no objection.
8. That the acceptance of the back rent for the prelease did not operate as a waiver of the forfeiture which had been gazetted.
9. That if the prelease was reinstated by notice in *Gazette*, such action was *ultra vires*, and not within the jurisdiction of the Minister.

MACNAMARA & NORTON,
Solicitors for the Pastoral Lessees.

1. That land in dispute was granted as a prelease to Wm. Skene as No. 78-4, being then unimproved.

2. When the tank was put down I informed parties that I thought they were making a mistake. I had been in communication with the Minister for Lands then, but had no answer. The station were aware that the land had been taken out of their lease.

3. That the land was charted as a prelease to W. O. Walker's selection of 1876, February, when Austin and Millear placed the tank thereon.

4. That the prelease, being forfeited, required to be put to auction before it could be again granted as a prelease, or fall into lease of station.

5. That I have been paying rent to the Crown for same.

6. Austin and Millear has never any right during the currency of Skene's prelease to enter the land, never being gazetted as a prelease to them.

CHRISTIAN WALKER.

The prelease was granted to Mr. Skene for 320 acres when Messrs. Pippen were the lessees.

No. 4.

Memo. by The Under Secretary for Lands.

THE Land Agent is requested to be good enough to furnish this Department with a duplicate of the application for a prelease, made by Mr. W. Skene, on the 5th October, 1877, for 320 acres, county Townsend, parish of Conargo, gazetted approved on the 22nd January, 1878, No. 78-4.

The Manager of the Australian Mortgage, Land, and Finance Company, to The Under Secretary for Lands.

Australian Mortgage, Land, and Finance Company (Limited), Incorporated A.D. 1863,
2, Spring-street, Sydney, 24 October, 1883.

Sir,

I have the honor to address you in reference to the portion of land tinted pink on the accompanying parish map within the Conargo South Run, and in view of the following facts:—

I beg to request that the land may be sold at auction,—

1st. On the 26th September, 1877, W. Skene conditionally purchased, under the 13th clause of the Act of 1861, the land now measured as portion 89, parish of Conargo, county of Townsend, and on the 5th October, 1877, applied for a pre-emptive lease of 320 acres south of and adjoining his selected, being the land, about 178 acres, now in question, which was approved and gazetted on the 22nd January, 1878, as lease No. 78-4, at Deniliquin, subsequently forfeited on 31st March, 1881; but permission was granted to pay up overdue rental with fine upon the area then in the lease, which was amended accordingly, and approval notified with the reduced area, 66 acres, on 7th September, 1883. (*Gazette* No. 379, page 4,850.)

2nd. I. H. Walker claims the remaining portion of this area as part of her prelease, No. 7,747, applied for on the 26th February, 1877, by W. O. Walker, in right of his selection shown on the map, which was gazetted on the 31st August, 1887, but the fact that water reserve No. 759, notified on 7th March, 1870, was not cancelled in part till the 22nd August, 1877, the pre-emptive right of W. O. Walker, made on the 26th February, 1877, could not extend over this area. And even if this area was available, I. H. Walker's claim could only be exercised over 46½ acres, as she already holds portions 55, 78, and 100, in all 273½ acres.

3rd. In 1882, twelve months after date of forfeiture of W. Skene's pre-emptive lease, my clients put down a tank of 2,038 cubic yards excavation, costing £125, in order that the timber reserve No. 1,849 might be utilized at that time, firmly believing the area had reverted to the run, and has since held undisputed possession of the land. Since the death of Mr. Skene, his wife, I believe, wishes to sell to Mrs. Walker, the adjoining landholder, who is now claiming this land, in part for herself and part in Mrs. Skene's interest, that the tank referred to may be secured under the 2nd clause by Mr. Walker. I now beg your consideration of this matter cancelling Mrs. Walker's claim to that area, and, if necessary, referring the matter to appraisement for inquiry and report.

I have, &c.,
W. A. COTTEE, Manager,
(Agent for AUSTIN & MILLEAR).

Lease

Lease 77–47 stands renewed in name of Isabella H. Walker, Ls. 77,607 with 82–8,972 Ls. This is noted to Mr. Hall, in January, 1883, and is a letter referring to Skene's lease 78–4 or rent thereon. It will be seen that the papers could not be found on a former occasion, and a duplicate of Skene's application was obtained. Perhaps a duplicate of 7,747 may be obtained.—C.H., 26 October.

Office Memo.

MR. LEWIS,—Would you please state whether the land to the south of portion 89, and north of T.R. 1,849, formed part of that portion of reserve 759, revoked 22nd August, 1887. (*See* Litho. herewith.)* J.B., 14 November, 1883.

* Appendix A

The land referred to was was included within the area revoked on the date mentioned.—G.S. (for G. LEWIS), 14 November, 1883. Mr. Burt.

Mr. Curry,—From the above memo. it will be seen that part of W. O. Walker's prelease embraced land which, at date of application (26 February, 1877), formed part of W.R. No. 759, notified 7 March, 1870, consequently prelease No. 77–47 should be reduced to 273 acres 2 roods, that being all the land available at date of application. Skene's application covered the land in question, and should have been included in his prelease No. 78–4, and even now I presume it will be necessary to include the area in dispute (about 115 acres), even though it would include the dam erected by the lessee of the run, and re-gazetted the lease accordingly.—J.B., 15 November, 1883.

When was lease 77–47 applied, and when gazetted?—H.C., 21/11/83. Applied for about 25 February, 1877. Gazetted, 24 August, 1877.—C.H., 21 November.

As the reserve in question was in existence when lease 77–4 was applied for, that lease should be, as suggested, confined to the available land. The land south of portion 89 between 78–4, as reduced, and portion 78 would seem to be the improved land, and as this was applied for by Skene, it might be still claimed. It is not understood that the parties on whose behalf Ls. 83–11,733 has been written are desirous that 78–4 should be thus liberally amended as their interests appear to conflict. It may be as well not to extend 78–4 leaving the question as to the improvements to be subsequently decided should the improvers ask to purchase, and (apart from the usual questions) the two leases referred to would not seem to operate against the cases, as 77–47 will be amended, and 78–4 appears to have been recently chartered for the first time.—H.C., 21/11/83.

For approval.—C.O., 26/11/83. Approved.—J.S.F., 26/11/83. Mr. Burt, 27/11/83. Mr. Curry, lease 77-47 for re-gazetting, November, 1883.

The Under Secretary for Lands to The Crown Lands Agent, Deniliquin.

Sir, Department of Lands, Sydney, 7 February, 1884.

I am directed to inform you that the area of pre-emptive lease, approved on the 24th August, 1877, was, by notice in the *Government Gazette* of the 11th December, 1883, reduced from 320 to 273½ acres; and that a tracing showing approximately the present boundaries of the lease has been forwarded to you for public inspection.

I am to explain that the action taken was found necessary, as at date of application the land now cast out of the lease formed part of water reserve No. 759, notified 7th March, 1870, and was not therefore available.

I am directed to inform you that the area of your pre-emptive lease, No. 77-47, latitude, in the district of Deniliquin, approved on the 24th August, 1877, was, by notice in the *Government Gazette* of the 11th December, 1883, reduced from 320 to 273½ acres; that a tracing showing approximately the present boundaries of the lease, has been forwarded for public inspection to the local Crown Lands Agent.

Mr. C. Walker to A. Armstrong, Esq.

Dear Sir, Forest Creek, Conargo, 13 February, 1884.

Skene's prelease is only charted as 66 acres, there is in reality about 195 acres. The Department, through some mistake, had granted and chartered the balance to W. O. Walker's prelease. They have, as is shown by the within report, discovered their mistake. Would you, therefore, see to the immediate charting of Skene's prelease, including the additional area—it being improved to about £100. House, £50; woolshed, £100; yards attached, £20; fencing, £90; tank, £125; making £485. I have put in an application for an improvement purchase for 190 acres on behalf of Skene's estate. The area originally granted Skene as a prelease was 320 acres, but was reduced, owing to its overlapping a timber reserve * * * * * * * * * * *

From this rough sketch you will see what I mean. I wish the recharting Skene's prelease to take place before the new Act comes into force, so please press this to its finality.

Yours, &c.,
CHRISTIAN WALKER.

Deniliquin, P.L., 76-4; W. Skene; 320 acres; 83-6,222-6,571.

Referring to the pre-emptive lease, particulars of which are noticed in the margin, I have the honor to request the favour of the statements made in the letter herewith receiving attention.

I have, &c.,
A. ARMSTRONG,
(Agent for W. Skene's Executors).

Mr. Burt—Please report.—C.H.C., 21/2/84.

This request is reasonable, especially as the land was described in Skene's application, but according to Ls. 83-11,733 the lessee of the run has improved the area to the value of £125, by an excavation, but as he had no right to do this, I presume the best course to adopt would be to include all the vacant land in Skene's lease. Skene's representatives should probably compensate the lessee for the tank.—J.B., 25 February, 1884.

Mr. Curry.—C.H.C., 26/2/84.

The land in dispute was applied for by Skene, in September, 1877, and was available, as the reserve had been cancelled, but as it formed part of lease 77-47, Skene's lease was cut down to 66 acres. As it was subsequently found that 77-47 had been applied for when the land was reserved, the area was cut out of this lease, and now is in neither. Skene's lease has not been extended over the land, as it has, it seems, been improved, and the question of the ownership of the improvements is a disputed case (*See* memo. of 21/11/83,

21/11/83, on 83-12,742. As the land has been applied for in right of improvements, action in regard to the lease may be deferred, pending report on the I.P. applications, with which those papers may be placed.—H.C., 28/2/84.

Sir, Forest Creek, Conargo, 24 March, 1884.

I hereby enter my protest against the survey made this day by Mr. Licensed-Surveyor Callaghan, of an I.P. for 66 acres, whereas I applied for 190 acres, and for which there are ample improvements erected thereon; besides, the land is open for such admeasurement, Mr. W. O. Walker's prelease having been found to have been wrongly charted. Would you therefore please order the additional area to be surveyed to make up the quantity applied for as I.P.

Yours, &c.,

Memorandum referring to plan and letter No. 30, transmitted by Mr. Licensed-Surveyor Callaghan, on the 29th April, 1884.

ACCORDING to the tracing accompanying the instructions, the only part of prelease No. 4 of 78, now available, is 66 acres. According to the survey 68, 238 acres are allowed. Letter No. 30 states that the improvements were effected by C. Walker.

The manager of Conargo Run informed me that he made the tank when the prelease was defunct—that is, after W. Skene had allowed it to lapse, and before it was restored to the executors of Wm. Skene. As in all probability the case will come before the Supreme Court, I am of opinion that the survey should be amended, and I now respectfully submit the matter to the Surveyor-General, as Mr. Chisholm is unwilling to carry out my instructions.

Surveyor.

Mr. A. Armstrong to The Under Secretary for Lands.

Sir, Land Agency Office, 26, Bridge-street, Sydney, 16 June, 1884.

Referring to the pre-emptive lease, particulars of which are noted in the margin, now standing as 66 acres, I have the honor to state that the area should be increased to 180 acres, as correction of W. O. Walker's lease shows that a portion of W. Skene's lease was embraced in land leased to Walker. I respectfully beg the favour of correction at an early date.

Deniliquin, P.L. 78-4, formerly 320 acres; W. Skene.

I have, &c.,

Deniliquin,—Lease 78-4 of 66 acres renewed for 1884 in name of Wm. Skene. Please attach L.A. 77-2,929 and forward to Mr. Burt for report, 83-7,969.—H.S.F., 17/6/84. Mr. Croft. This is a request to increase the area of prelease 78-4 from 66 acres to 180 acres, as shown by blue hatching, including all the vacant land south of the basis of the claim. The area now sought to be included formed part of prelease 77-47, as shown by blue lines on enclosed tracing, but reduced to 273 acres 3 roods, as shown by broken blue hatching. A survey by Mr. L.-S. Callaghan is now with Mr. Hall, Geographical Division No. 1, showing an area of 66 acres (Skene's prelease). This includes Skene's improvements and the tank erected by the lessees of the run, to which there is no access, as it is wholly within the area measured. In order to settle the case it might be suggested that a road of access 5 chains wide be left on the east side of Skene's lease of 66 acres, and then to extend sufficiently west (about 150 links) to the tank. This would cause a slight amendment of survey which is not yet accepted. The cost of such amendment might be arranged with the lessees, who, at law, do not appear to have any claim whatever on the improvements effected. Skene's lease could then be increased, and include all the vacant land comprising an area of about 170 acres.—J.B., 15 July, 1884.

Sir,

Department of Lands, Sydney, 8 August, 1884.

Adverting to your letter of the 24th October, 1883, in which you state that during 1882 Messrs. Austin and Millear put down a tank of 2,038 cubic yards, costing £125, on land to the south of portion 89, parish of Conargo, I have the honor to request, having regard to the circumstances of the case as explained by you, that you will be good enough to have furnished a statutory declaration setting forth the facts of the case, especially in regard to your client's original and present interest in the tank.

I have, &c.,

Under Secretary.

Statutory Declaration.

I, JOHN WOODMASON FROOM, in the Colony of New South Wales, do hereby solemnly and sincerely declare that I am Manager of the Wanganella Station, in the Murrumbidgee District, the property of Albert Austin and Thomas Millear, having full control of the sinking of tanks, &c., on the said station, and that a tank of 2,038 cubic yards excavation was put down about 4 chains south of measured portion 89, parish of Conargo, county of Townsend, and costing £101 18s., without any opposition from any person whatever, and that the said Albert Austin and Thomas Millear have held possession of the said improvements, and that no transfer or alienation has taken place. And I make this solemn declaration concientiously, believing the same to be true, and by virtue of the provisions of an Act made and passed in the fifth and sixth years of the reign of His late Majesty King William the Fourth, intituled "An Act to Repeal an Act of the present Session of Parliament, intituled 'An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the State, and to substitute declarations in lieu thereof, and for the more entire suppression of voluntary and extra judicial Oaths and Affidavits, and to make other provisions for the abolition of unnecessary Oaths.'" And also under and by virtue of the provisions of an Act of the Governor and Legislative Council of New South Wales, made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations, taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra judicicial Oaths and Affidavits."

Sir,

In reply to your letter of the 8th instant, with reference to the tank effected by my clients south of portion 89, parish of Conargo, county of Townsend.

I now beg to hand you a statutory declaration by Mr. J. W. Froom, setting forth the nature and value of the tank, and also my client's interest in the same.

I note the date of the completion of the tank is not declared to, but I will ask for this information. In making a for the protection of my clients or otherwise dealing with the matter, I beg to request that action be taken to enable my clients to hold undisputed right of possession to the land under the pastoral lease as the tank is of great importance to the station, being the only water to work that part of the run.

I have, &c.,
W. A. COTTEE, Manager,

Please attach 84–5,302 Ls.—H.S.F., 22/8/84. Records Ls. 84–5,302, with Ls. 84–6,039, herewith. Mr. Curry. The declaration asked for now attached.—H.S.F., 27/8/84. Mr. Burt. (*See* memo. of Sur. Orr.) Is the tank within the boundaries of case 78–4, judging from the plan made by L.-S. Callaghan.—H.C., 29/8/84.

The tank is actually within the prelease by scale. Even if the road were included in the measurement the tank would appear to be situated about 30 or 40 links inside of it. Mr. Callaghan should not have measured 66 acres exclusive of road.—J.B., 29 August, 1884.

Office Memo.

FROM the statutory declaration furnished, it appears the tank was made by the lessees of the run, and it is understood from the surveyor's report, mis. 84–11,975 in July, 1883, that is, at the time when the rent upon lease 78–4 was in arrears.

Assuming that the lessees regarded the pre-emptive lease to have reverted to the run, when the holders had ceased to pay rent, this action is intelligible. Mr. L.-S. Callaghan has measured portion 2 of 66 acres in satisfaction of an application made by Skene's representatives for 180 acres.

This has been protested against by Skene's representatives; and as the improvements are worth £150, and Skene applied for a lease of the land south of portion 89, something may be said in respect of it. His lease was, it will be seen, reduced to 66 acres. As it clashed with 77–47, but as 77–47 was improperly charted to include land south of 89, being at the time a reserve, the earlier lease was amended.

The land east of 78–74 is therefore Crown land, and was available for Skene when he applied for it. The existence of the tank constitutes the difficulty in the case. It has been pointed out that Mr. Orr's objection to the survey made by Mr. Callaghan are well founded, inasmuch as 78-4 was charted to include what is now the road east of portion 79, and did not extend quite so far east as the eastern boundary of portion 2. If contracted, however, to the land actually charted for 78–4, the tank it seems would not fall outside the lease.

It has been suggested that the tank should be excluded from the prelease, and this will, it is presumed, be approved. The facts of the case may further warrant the tank being included in a measurement of 40 acres, and this land being submitted to sale by auction with the improvements protected for the lessees. The remainder of the land might then be granted, as an extension of the prelease, and a more liberal measurement made, if practicable, in satisfaction of the improvements made by Skene.

The cost of survey might be borne, perhaps, by the lessees or pastoral lessees.

Mr. Hall,—What will be the expense of survey. The case is scarcely sufficiently matured to convey any definite information to the parties interested, though, of course, they might be advised of the contemplated action.—H.C., 2/10/84.

With a view of giving effect to the decision arrived at in this case, it is submitted that the area be sub-divided as shown by red lines on attached tracing. The cost of survey would be about £10.—W. H. HALL, 6 October, 1884. The Surveyor-General. Approved for Surveyor-General.—E. TWYNAM, 31 October. Mr. Curry,—Instructions issued this day to Mr. Surveyor Orr to measure 40 acres for auction, and an area approximated at 132 acres in satisfaction of the I.P. application. Skene, I have the honor to inform you that upon payment by your clients of the sum of £10 the matter will be dealt with, with a view, if possible, to the tank being included in a portion of 40 acres, and excluded from Skene's pre-emptive lease.

Sir, 13, Spring-street, Sydney, 29 November, 1884.

I have to acknowledge the receipt of your letter of the 7th instant, with reference to my client's claim to a tank situated south of portion 89, parish of Conargo, county of Townsend. My client now informs me that instructions have been issued to survey the area, as shown by pink on the enclosed tracing, which he considers would be of little use for his protection, and asks that you will reinstruct the surveyor to measure the area with frontage to portion 89 and the reserve No. 1,849. Such action could not prejudice Mrs. Skene's claim, as she would have free access from portion 89 to the land now about to be measured.

I have, &c.,
W. F. ALLWORTH, Manager,
(Agent for AUSTIN & MILLEAR).

Mr. Curry,—The papers required are now Ls. 84–14,653 with you.—J.B., 6 January, 1885. Please connect papers and forward to Mr. Hall, Survey Branch.—H.S.F. Mr. Thomson, 9/1/85. Connected.—A.O., 9/1/85.

The decision already arrived at in this case is that an area of 40 acres should be measured to include improvements effected by Messrs. Austin and Millear, and offered at auction, the value of the improvements being added for their protection. The balance of the area was then to be included in Mrs. Skene's pre-lease, and measured in satisfaction of the improvements effected thereon. Instructions for survey in the form, shown by red lines on accompanying tracing,* have been issued, which give effect to the decision referred to. To this, however, the pastoral lessees object, on the ground that the area proposed to be measured for auction would be of little use for their protection, and suggest that a measurement, extending from portion 89 to travelling reserve 1,849, shown by blue line, should be substituted. To give effect to the request preferred would be to curtail Mrs. Skene's to an area of 60 acres, in satisfaction of improvements of the value of £150. In view of the fact that the decision arrived at is a liberal one, as regards Messrs. Austin and Millear, inasmuch as they effected the improvements on land not held under lease by them, it is submitted that the request be not complied with.—W. H. HALL, 12 January. CHRISTIAN WALKER.

C.S. Branch. Mr. Burt, 16/5/85.—J.P.M. Mr. Curry,—No run objections. Dealt with in this branch. This lease was erroneously re-gazetted as 320 acres instead of 132, as recommended. Applicant has applied for vacant land under C.P. 83–38.—J.B., 27/5/85. The whole of the land embraced in the two applications appear to be I.P.S.

It is submitted in the first instance whether the restriction of the 52nd clause to cases in which the C.Ps. were not transferred subsequently to 18 July, '84, applies to transfers by way of mortgage. The C.L. in the present instance was transferred to the Bank on the 25 July, 1884. See schedule attached.—H.C., 28/5/85.

The 52nd section draws no distinction between absolute transfers and transfers by way of mortgage, but it is thought the intention of the last proviso is to let in the mortgagers so that they shall obtain the full area allowed. This could not be done if the limitation as to transfer should apply in such cases.—J.R.E. (for the U.S.), 30/5/85.

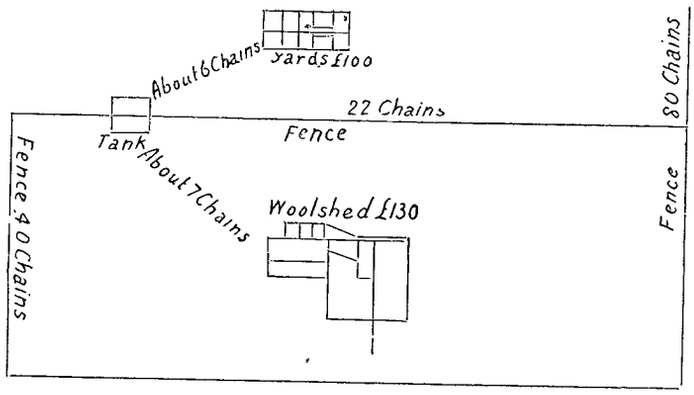
No. 35.

Mr. C. Walker to The Secretary for Lands.

Sir, Conargo, 9 March, 1885.

I am informed by Mr. Orr, the District Surveyor, that a portion of the prelease to Wm. Skene's selection of 640 acres, September, 1877, is to be surveyed, so as to include a tank that Messrs. Austin and Millear put down on the said prelease, they at the time having no legal or other right to do so. It bears the appearance of an act of privacy, they being well aware that the said prelease had been excluded out of their lease, and was held by Wm. Skene as a prelease, being so gazetted in 1878 as No. 78–4 of 320 acres, therefore until said lease being abandoned, was again put to auction, they could not have any possible title.

They surely must have relied upon their influence with the Department to get the matter put through rightly for themselves, this I trust they will find a mistake. I purchased the selection and prelease from the estate of Wm. Skene; on the prelease there are over £320 of improvements, consisting of drafting-yards, £100; woolshed, £130; men's hut, £35; and fencing, £65, being mostly immediately adjacent to the tank, say within 10 chains, thus— * * * * * * * * *



This sketch shows how the improvements stand.

I therefore enter my protest against any such action on the part of the Lands Department interfering with my right to said land. Believing that Messrs. Austin and Millear have no possible right to any portion of my prelease in any shape or form their action being illegal and sharp.

Yours, &c.,

CHRISTIAN WALKER.

The Under Secretary for Lands to The Manager, Australian Mortgage, Land, and Finance Company (Limited).

Sir, Department of Lands, Sydney, 31 March, 1885.

With reference to your letter of the 29th November last, requesting that fresh instructions be issued to the surveyor to measure the area to include the improvements affected by Messrs. Austin and Millear with frontage to portion 89, parish of Conargo, county of Townsend, and reserve No. 1,849.

I have the honor to inform you that in view of the fact, that the decision already arrived at is a liberal one as regards Messrs. Austin and Millear, in as much as they have effected the improvements on land not under lease to them, the Secretary for Lands has decided that your request cannot be complied with.

I have, &c.,

CHARLES OLIVER,
Under Secretary.

Mr. C. Walker to The Surveyor-General.

Sir, Conargo, 8 June, 1885.

Re Wm. Skene's, now Christian Walker's prelease: On the 28th September, 1877, Mr. Skene applied for a prelease of 320 acres in virtue of his selection of 640 acres, selected on the 27th September, 1877. It was gazetted 22nd January, 1878, as No. 78–4, of 320 acres. Skene, two or three years afterwards allowed the rents to fall in arrears, but the Department allowed the back rents to be paid up, whilst in treaty for the renewal of the prelease the station-holders commenced putting down a tank on this prelease. Although the land was not in their lease for which tank they applied for an I.P. knowing at the same time that said land did not form a portion of their run. If this was not a bit of high-handedness what was it? Now it appears that they have got the Department to survey off 40 acres out of the prelease, although applied for as an I.P. by me, to include this said tank and valuable improvements of mine, so that it may be put up for auction sale. The survey not only takes in valuable improvements erected by me, but also depreciates very materially my drafting-yards by preventing the inlet of the sheep, in fact making it almost valueless for the purposes for which it is used; then my woolshed is made very inconvenient owing to the manner in which the survey encloses it.

I,

I, therefore, protest against the survey, also against any sale of part of my prelease, it being fully improved and applied for as an I.P. for 180 acres. Until the last year the Department showed a large portion of my prelease as belonging to an adjoining prelease, but lately found their error.

Yours, &c.,
CHRISTIAN WALKER.

P.S.—The amount of land available for Skene's prelease was about 180 acres at the time of application, including the 40 acres surveyed for the tank.—C.W.S., Ls. 85–5,832.

No. 38.

Mr. C. Walker to The Secretary for Lands.

Sir, Forest Creek, Conargo, 1 August, 1885.

A prelease was applied for by Wm. Skene on the 28th September, 1877, in virtue of his selection, No. 89 of 640 acres, 27th September, 1877. Area of prelease applied for, 320 acres. The prelease was gazetted No. 78–4, 22nd January, 1878, as 320 acres, but was reduced to 66 acres, September, 1883, by the Charting Branch. It was again re-gazetted 12th December, 1884. In July, 1883, Messrs. Austin and Millear put a tank upon the 66 acres, as charted by the Charting Branch. Since then Mr. Wood, surveyor, has surveyed the prelease, No. 78–4, 22nd January, 1878, into two portions—one about 40 acres as portion No. 97, and the other about 135 acres as portion, No. 102–2.

The portion No. 97, of about 40 acres, is said to be for auction sale through Messrs. Austin and Millear's having put a tank upon it, although at time of doing so it was no part of their run, but was a portion of prelease applied for by Wm. Skene. An I.P. for 190 acres was applied for by me in virtue of improvements to the extent of some £350 worth on the aforesaid prelease.

Messrs. Austin and Millear were well aware that the land formed no portion of their run when they put the said tank down, and that they were trespassing in doing so on the prelease, No. 78–4, 22nd January, 1878.

I therefore enter my protest against the aforesaid surveys, as in the event of the one portion, viz., No. 97, of 40 acres, as surveyed by Mr. Wood, being taken out of the lease, you deprive me of my right to purchase same as an I.P., which right I have secured by virtue of improvements for which an application to purchase has been put in. I also protest on the ground that as now surveyed my sheep-yards and woolshed are rendered almost useless, as see plans of surveyors.

I remain, &c.,
CHRISTIAN WALKER.

The Under Secretary for Lands to The Manager of the Australian Joint Stock Bank.

Sir, Department of Lands, Sydney, 11 March, 1886.

I am directed to inform you that your application of the 24th August, 1877, under the 52nd clause of the Crown Lands Act of 1884, for the conversion into a conditional lease of pre-emptive lease, No. 78–4, of 273½ acres, in the parish of Conargo, county of Townsend, land district of Deniliquin, has been refused, and the Under Secretary for Finance and Trade has been requested to refund the sum of £1 2s., being the amount paid as rent for 1885 upon the pre-emptive lease.

The application has been refused as the conditional purchase in virtue of which it is alleged to have been held, was transferred subsequent to the 15th July, 1884, and therefore no right to apply for its conversion into a conditional lease was possessed by Christian Walker or any other person.

No. 43.

Mr. C. Walker to J. M. Chanter, Esq., M.P.

Dear Sir, Warriston, Forest Creek, Deniliquin, 11 July, 1887.

I wrote you some time ago with reference to my prelease. The Department having notified me that 134 acres of it was gazetted to be purchased as an improvement purchase, having deducted 40 acres off to be sold at auction, although my application was for the whole area, viz., 180 acres; they have only allowed me to purchase the 134 acres; at time of making my application the whole area was unsurveyed. Messrs. Austin and Millear having put down a tank on my prelease, the Department has taken this course of handing a portion of my prelease over to the station, or make me pay them for putting down the tank. The prelease was granted to Wm. Skene in 1878, as 320 acres; that area was not open, there being only some 180 acres. This prelease, together with his selection of 640 acres, I purchased about four years ago. Austin and Millear soon afterwards commenced putting down the tank. I having previously requested the Department to take the back rent which Skene had neglected to pay up, and whilst the tank was being excavated, I got notice to remit the back rent, at the same time I informed the tank sinkers that the land was my prelease. A few days afterwards the manager stopped further work. After improving the land, I applied for an improvement purchase for 180 acres. This now is gazetted as 134 acres, instead of 180 acres as applied for, or all the prelease that was open to Wm. Skene.

Further,

Further, although Wm. Skene's conditional purchase has been transferred to me, yet the Department has notified Wm. Skene as being entitled to purchase as an improvement purchase the 134 acres. I remitted you the dates and particulars of this transaction when you asked for the papers to be placed on the table. Would you kindly look into this matter and advise me.

Yours, &c.,
CHRISTIAN WALKER.

J. M. Chanter, Esq., M.P., to The Secretary for Lands.

Sir,

I enclose you a letter received from Mr. C. Walker, to which I ask your especial attention. Mr. Walker is fully entitled to the full amount of his prelease 180 acres, and it does seem peculiar that only 134 acres has been gazetted to him. Messrs. Austin and Millear have had no right to the land, and the improvements upon it have not been effected by them, but by Mr. Walker, who had a perfect right to put them there. I therefore sincerely hope you will have this error corrected at once. Awaiting the favour of your early reply.

Office Memo.

Lease 78–4 was applied for on 28th September, 1877, by virtue of C.P. 77–242, and was for south of and adjoining C.P.

The lease had, up to 1883, never been defined. (*Vide* Ls. 83–6,222 and 6,576).

On the 5th July, 1883, an application (Ls. 83–6,222) was made on behalf of Skene to pay the rent, and it was then reported by the Survey Branch (Ls. 83–6,576) that there were only 66 acres available for the lease. The larger part of the land south of the C.P. was at that time occupied by an earlier prelease, 77–47, applied for in February, 1877, by W. O. Walker. The overdue rent was accepted in Skene's lease, the area of which, in September, 1883, was formally reduced to 66 acres. The lessees of the run (*vide* Ls. 83–11,733) then represented that they had made a tank on the land at a time they regarded the forfeited lease to have reverted to the run; and on this the Survey Branch (*vide* memo. covering Ls. 87–11,733) explained that part of the land in Walker's lease, 77–47, was reserved from sale at the time of application, and, as a legal decision had been given in another case, that land reserved from sale was available for lease, the area of Walker's lease was reduced. The land south of Skene's C.P. was then rendered vacant; but at this time Skene's lease was left at 66 acres. As conflicting interests had apparently arisen through the lessees of the run having sunk a tank in 1883, according to the surveyor's report (Mis. 84–11,975), at a time when the rent was unpaid on the pre-emptive lease, both the lessees of the run and the holders of the pre-emptive lease applied to purchase the land by virtue of their respective improvements, and both applications were made in 1883. The case was then reviewed, and an attempt made to go as far as possible to settle the case with due regard to the interests of both parties.

The fact that the lessees of the run had improved the land after the prelease was forfeited was regarded as affording some moral ground for the protection of the improvement which apparently they had made in good faith, while on the other hand, it was conceded in regard to Skene, that although the land had for some time been held under an earlier pre-emptive lease, the amendment of that lease admitted of a redistribution of the land, and his application was accordingly satisfied as far as was practicable, excluding 40 acres for the protection of the lessee's tank. The present position of the case, therefore, is this: that both parties have had measured for them the land proposed to be alienated. The lessees of the run may secure at auction portion 97 of 40 acres surrounding their tank, which will be protected by being added to the upset price. For Skene's improvement purchase application, portion 102 of 133½ acres has been measured. Mr. Christian Walker is apparently the late Mr. Skene's successor by transfer from Skene's widow. The C.P. by virtue of which Skene's prelease was granted was held by Walker after Skene, though at present it stands in the name of the Australian Joint Stock Bank. Mr. Walker has already been informed of the decision arrived at, and, in complaining against the proposed action, seems to have forgotten that the Government might have refused to receive the overdue rent on the prelease, in which case he would have lost all.

Register and return with former papers.—C.O., 20/10/87. Urgent. Herewith is Ms. 87-9,261 —R.H.D., 24/10/87. The pre-emptive lease held by the late Mr. Skene, and under which Mr. Walker claims, was when improved by the lessees of the pastoral run, within which it was situated, forfeited, and was reinstated, minus 40 acres, to include the improvements referred to. The area of 40 acres it is proposed should be offered at auction with the value of the improvements added to the upset price, and Mr. Walker, in common with others will have an opportunity of purchasing it.—C.O., 29/10/87. Inform.—T.G., 31/10/87. Inform Mr. Walker, per Mr. Chanter, M.P., and send papers to me specially.—C.O. Infr., 31/10/87. By whom is C.P. 77,242, Deniliquin, held? What transfers have been made?—H.C., 1/11/87. Selected by William Skene; transferred to Annie Skene (Crown Solicitor's certificate to C. Walker, 25/7/84, to Australian Joint Stock Bank, the present holder, 25/7/84).—H.R., 1 November, '87. Mr. Shaw,—Please supply illustrative tracing.—H.C., 1/11/87. The case is stated on leases 84-6,976 and Ms. 87-9,261. It appears that the pre-lease 77-47 was Gazetted forfeited (for non-payment of rent since 1880) on 3 March, 1881, and the forfeiture was not reversed until 6 October, 1883, by the Under Secretary, and during the time the pre-lease remained forfeited. The lessees effected their improvements. —F.H.W., 25/10/87.

Warriston, Forest Creek, Deniliquin, 11 October, 1887.

The Honorable Minister for Lands, Sydney,—

Sir,

Yours of the 23rd September, 1887, Ms. 87-9,261, to hand. Would the Minister of Lands kindly inform me under what section or clause he has power to take a part off a pre-lease to satisfy a lessee's improvement purchase where such improvement has been placed on the pre-lease five years after it was granted as a pre-lease, and taken out of the lease of the run, they being knowingly trespassers when they placed such improvements on my pre-lease. Further: By what authority do you confiscate my improvements, erected *bona fide*, on the land which you threaten now to sell by auction, there being within the lines of the surveyed portion of 40 acres by Mr. Wood over £70 worth of improvements erected by me?

There is on the whole pre-lease (of about 180 acres) full £350 of improvements, which entitles me to the purchase of the whole of the area of my pre-lease as an improvement purchase.

These improvements have been on the said pre-lease from 1883, long before any survey was made. The lessee's action was an act of piracy, believing, no doubt, that their influence with the Lands Department would be sufficient to pull it through, and leave me to lament my misplaced confidence in believing my rights would be protected.

If the Honorable the Minister of Lands would kindly give me the information asked he would confer a great favour.

I have, &c.,
CHRISTIAN WALKER.

Sir,

Department of Lands, Sydney, 31 October, 1887.

Deniliquin, P.L. 78-4, W Skene.

With reference to your letter of the 11th instant, relative to the pre-emptive lease noted in the margin hereof, I am directed by the Minister for Lands to inform you that the lease in question under which you claim was, when improved by the lessees of the pastoral run within which it was situated, forfeited, and was reinstated minus 40 acres to include the improvements referred to.

The area of 40 acres it is proposed should be offered at auction with the value of the improvements added to the upset price, and you in common with others will have an opportunity of purchasing it.

I have, &c.,
F. H. WILSON,
(For the Under Secretary).

No. 5.

Mr. C. Walker to The Secretary for Lands.

Sir,

Warriston, Forest Creek, Deniliquin, 15 July, 1887.

Re your notice to Wm. Skene to purchase 133 acres improved land, I would draw your attention to the fact that this land was transferred to me with his conditional purchase of 640 acres in the month of July, 1884, it originally being a pre-lease to his conditional purchase of 640 acres, selected in 1877. Since July, 1884, the conditional purchase was transferred to the Australian Joint Stock Bank by way of mortgage, and is now in their name. You would please cause this improvement purchase to be altered so that the purchase can be made on my behalf by the Australian Joint Stock Bank, instead of as it stands now, gazetted in Wm. Skene's name as the person allowed to purchase. The area applied for as an improvement purchase was 180 acres, and as that is nearly the area (being about 176 acres) of Wm. Skene's pre-lease, would you kindly inform me why I am not permitted to purchase the whole of the pre-lease, viz., about 176 acres, instead of 133 acres, as mentioned in your notice to Wm. Skene, dated 1st June, 1887, Ms. 87-433, improvement purchase 83-38, Deniliquin.

An early answer will oblige

Yours truly,
CHRISTIAN WALKER.

In whose name did the pre-lease stand on 31st December, 1884?—S.F., 3/9/8. Mr. Williams. Pre-lease 78-4, 132 acres, stood good in name of Wm. Skene on 31st December, 1884.—F.W., 5/9/87. Will Mr. Keating please say, if possible, why only 133 acres were measured in satisfaction of improved purchase 83-38.—A. M'D. (*pro* R.H.D.), 26/7/87.

The reasons are fully set forth upon papers, leases 84-8,153, and L.B.D. 85-1,152, Surveys, enclosed, but may be briefly stated as being the only land available, it having been decided to exclude an area of 40 acres surrounding a tank the property of the lessee of the run, and which area has been measured for auction sale under ministerial approval.—J.T.K., 25/8/87. Mr. De Low.

Submitted in connection with Mr. Chanter's letter of 18 July, 1887, Leases, 87-5,591. The correspondence seems to be interminable. The tank on the 40 acres excluded from the portion to be sold to satisfy two improvement purchases 83-38 was made by the lessees of the run, and not by the holders of the pre-lease, the basis of the improvement purchase (*vide* Mr. Curry's report of 29/8/84, Leases 84-8,153), to which attention is invited; as also to L.L.B. 85-1,152, Survey. The 40 acres now in contention Mr. Walker wants in virtue of a tank effected by the lessee. Submitted. Mr. Chanter and Mr. Walker be informed the decision cannot be altered.—F.H.W., R.H.D., 25/8/87.

Submitted that the substance of above minute be communicated to Mr. Chanter, M.P., and the writer of this letter. In regard to Mr. Walker's request to have the improvement purchase approved in his name, attention is invited to the fact that the improvement purchase was applied for in 1883 by Wm. Skene, the registered lessee of the pre-emptive lease, that approval has been made in Skene's favour, and that the lease stood in that gentleman's name at 31st December, 1884, when such holding ceased to exist. Further, it is pointed out that there is nothing to show that Skene parted with his interest in the improvements in virtue of which he claimed the land. In a similar case (Forbes district) the Department declined to recognise the transferree of the conditional purchase as being entitled to the improvement purchase in virtue of the dependent pre-emptive lease.—S.F., 13/9/87.

Submission approved.—T.G., 13/9/87. Correspondence Branch,—To inform; then to Mr. M'Donald, Ms. Branch.—R.H.D., 14/9/87. Mr. Walker and Mr. Chanter, M.P., inform; 22/9/87.

Office Memorandum.

Particulars of application for pre-lease 77–47.—Applied for by W. O. Walker, at Deniliquin, on 20th February, 1877.

On the 20th February, 1877, Mr. William O. Walker made application, at Deniliquin, for a pre-lease of 320 acres in the county of Townsend, parish of Conargo, in right of conditional purchase 76–19 of 500 acres. A lease was gazetted on the 24th August, 1877, as No. 77–47, for 320 acres. On the 11th December, 1883, by regazetted notice the lease was reduced in area from 320 acres to 273½ acres, as at date of application for the lease the land formed part of water reserve No. 759, notified 7th March, 1870, and was therefore not available; the lease was transferred to Isabella H. Walker in 1882. The tracings show the lease as granted and as afterwards amended. Application was made by Christian Walker to convert the lease under clause 52 of the Act of 1884. The Board recommended that it be disallowed, as the prelease did not stand in the name of the applicant. The applicant was asked, on the 12th February, 1886, to explain why he made the application, seeing that the conditional purchase was held by Isabella H. Walker, and asked to submit his statement in the form of a statutory declaration; no reply was received and the application was refused on 23rd June, 1887, as the conditional purchase did not stand in the applicant's name. Isabella H. Walker has since furnished a declaration, setting forth that the conditional purchase is held by her by way of mortgage from C. Walker, and it has been submitted that the refusal of the application to convert under clause 52 be reversed, and the conditional lease granted for about 127 acres, that being all the land available after deducting that taken out of the lease by improvement purchase by Isabella H. Walker. F.W., 14/6/88.

I am directed to inform you that, in accordance with the request contained in your letter of 5th July, 1883, permission has been granted for the payment of the arrears of rent, together with the incurred penalty of 10 per cent. upon that amount, on W. Parry, Reuben Parry, and Richard "O. Parry, conditional purchasers on the Currugundi and Warren South Runs, "in the Land District of Moree, as to the loss sustained by them in consequence "of the division of the runs having been dealt with in the Lands Office prior to "dealing with the application of James N. Parry for an additional selection, "and the applications of Reuben and Richard O. Parry for conditional leases "under the Crown Lands Act of* 1884"—have agreed to the following Report:—

Your Committee, having examined the witnesses named in the list*(whose evidence will be found appended hereto), find as follows:— * See list, page 5.

(1.) That, under the Land Act of 1875, the Parry Brothers (James N., Richard O., and Reuben) acquired by conditional purchase, additional conditional purchase, and prelease, an area of 4,520 acres of land, situate on Currugundi and Warren South Runs in the Land District of Moree.

(2.) That the said runs were then held under pastoral lease by George Matcham Pitt, junior, and, on the division of the said runs under the Act of 1884 (whereby preleases were abolished), the portion allotted to the said G. M. Pitt, junior, embraced the land held by the said Parry Brothers.

(3.) That, under the Act of 1884, James N. Parry obtained as an additional conditional purchase three forfeited selections of 320 acres each, adjoining his original conditional purchase, making a total area of 1,600 acres, and that his said brothers applied, within the ninety days prescribed by law, to the Local Land Board for the conversion of their preleases into conditional leases, which application the said Board finally allowed.

(4.) That thereupon the said G. M. Pitt, junior, entered actions in the Supreme Court against each of the said Parry Brothers, fixing damages at £500 in each case for trespass upon his said leasehold area, and meanwhile appealed to the Minister against the decision of the said Land Board, and subsequently, with the permission of the Minister, a special case was stated to the Supreme Court, which resulted in the reversal of the decision of the said Land Board.

(5.) That, subsequent to the judgment of the Supreme Court, the said Parry Brothers, while believing that they had a good title to the land in dispute, settled the said actions out of Court by payment to the said G. M. Pitt, junior, of the sum of £165 15s., rather than become involved in an expensive law suit.

(6.) That, prior to the judgment of the said Court, the Parliament passed an Act having the effect of validating the leases of the said Parry Brothers, and securing to them all rights appertaining thereto.

(7.) That, having complied with all the requirements of the existing law, the said Parry Brothers were legally in possession of the land claimed by the said G. M. Pitt, junior, but that, owing to delay occasioned in settling the disputed title, whereby they were put to loss in having to pay a large sum of money to avoid the responsibility of going to law, the said Parry Brothers have suffered great hardship and pecuniary loss.

Your Committee recommend their case to your Honorable House as deserving of favourable consideration.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

PARRYS' CONDITIONAL PURCHASES ON CURRUGUNDI AND WARREN SOUTH RUNS.

FRIDAY, 22 *FEBRUARY*, 1888.

Present:—

MR. HASSALL, MR. WADDELL, MR. EWING, MR. FRANK FARNELL.

T. H. HASSALL, ESQ., IN THE CHAIR.

Mr. James Nicholas Parry, called in, sworn, and examined:—

Mr. J. N. Parry. 22 Feb., 1888.

1. *Chairman.*] What are you? A selector, residing at South Warren, in the land district of Moree.
2. And the holder, I believe, of a conditional purchase? Yes.
3. In conjunction with your brothers? Yes.
4. What are their names? Reuben Parry and Richard Parry.
5. You are working the selections as a joint concern amongst yourselves? Yes.
6. And you are a representative of the firm of Parry Brothers? Yes.
7. What land do you hold there altogether? My own selection is 1,600 acres, and one of my brothers has a selection of 640 acres, and the other one of 640 acres, and 1,640 acres of prelease.
8. Have you any others? Yes, there is another small one.
9. Not adjoining those? No.
10. Those are adjoining each other, and worked together? Yes.
11. Who is the lessee of the run on which the selections are situated? Mr. George Matcham Pitt.
12. Do you remember the date when the selections were taken up? I could not give the date.
13. What Act were they taken up under? Some were taken up under the Act of 1875.
14. With regard to your own selection, which you took up under the old Act, how did you become the possessor of a 1,600 acre selection? When I took the land up first I took 640 acres with the prelease of 1,920 acres. Then there were three selections taken up on my prelease, three selections of 320 acres each.
15. Were they adjoining your conditional purchase? Yes.
16. So as to cut you off from access to the remainder of your prelease? Yes.
17. What became of those selections? They were held some time, and then forfeited. Then after that I took them up as additional conditional purchases under the Act of 1884. That brought my selection up to 1,600 acres.
18. At the time you held this selection I believe an action was commenced against you for trespass? Yes.
19. Who commenced the action? Mr. George Pitt, lessee of the run.
20. What was the amount of the writ? £500 against each of us holding selections on the run.
21. In what way did you settle the matter? My father came down and settled it, my brothers and I were away at the time. My father paid Mr. Pitt a certain sum of money.
22. Have you any proof of that money having been paid? Yes.
23. *Mr. Frank Farnell.*] Did he pay the money to Mr. Pitt personally, or did he pay it into Court? He paid it to Mr. Pitt.
24. You say you have papers showing what you paid? Yes, I have this letter, which I will read:—

Pitt, G. M., junior, v. *Parry; three cases.*

79, Pitt-street, near Bridge-street, Sydney, 24th February, 1888.

THE amount paid to me in settlement of these actions was £165 15s. The actions were brought to recover damages for trespass by defendants on Warren South and county of Bunaba.

CHARLES B. PITT.

25.

Mr. J. N. Parry. 22 Feb., 1888.

25. *Chairman.*] Was Mr. Pitt acting on behalf of Mr. G. M. Pitt and as his solicitor? Yes.
26. And the money was paid to him as agent for Mr. Pitt to put a stop to the action? Yes.
27. At the time the action was commenced you had what you thought a good title to the land? Yes.
28. You having applied for it as an additional conditional purchase? Yes. It was granted by the Land Board at Moree.
29. Your brothers were also in possession of the preleases on which the alleged trespass took place? Yes.
30. These conditional leases had been granted by the Board? Yes.
31. And it was on account of these preleases being situated on the leasehold area of the run that Mr. Pitt objected to them? Yes.
32. What was his contention? That we had no right to the ground at all.
33. But he gave you no reason? Only that it was on the leasehold area, and that belonged to him.
34. He contended that, in consequence of his having made application for the division of his run previous to your application being dealt with by the Board, he had a right to the ground? Yes.
35. Were your applications for the conversion of your preleases into conditional leases signed within the ninety days required by the Act? Yes.
36. And, instead of applying for a conditional lease of your additional purchase, you applied for an additional conditional purchase to make up the area of 1,600 acres you now hold? Yes.
37. How were you put into possession of the land at the finish, was it by the Validating Act passed by Parliament? Yes; that Act gave me a title to the land.
38. *Mr. Frank Farnell.*] The Validating Act was passed after you had received receipts from Mr. Pitt? Yes.
39. *Chairman.*] Therefore the case resolves itself into this, that you held possession of certain lands in South Warren by virtue of a conditional purchase and a conditional lease, that there was a disputed claim to the land, Mr. Pitt, the lessee, having claimed a right to it, but you were eventually put into undisputed possession by the Validating Act, but Mr. Pitt had commenced an action against you before a certain date, and you had to defend that action? Yes.
40. And instead of defending the several actions for £500 each, your father came down and paid on your behalf to Mr. C. B. Pitt, solicitor for Mr. George Pitt, the lessee, the sum of £165 15s.? Yes.
41. Your claim is for compensation of the loss sustained by you in the action taken by Mr. Pitt for trespass, and in the delay which took place in dealing with your application for the land which left you open to this action, and that you had been in possession of this land to which there was a disputed title, but which was eventually secured to you, and that you had to pay the sum of £165 15s.? Yes.
42. What was your defence? That there was no wilful trespass at all.
43. That action had been commenced before the date at which the Validating Act came in force, and like many others, I suppose, you were afraid to go to law, and you thought it better to pay a sum of money and drop it? Yes.
44. *Mr. Frank Farnell.*] What induced your father to pay the £165 15s.? I do not know.
45. *Chairman.*] Do you base your claim on the ground that you were originally in possession of the land, but that in consequence of the delay in dealing with it, and the uncertainty that existed, and on account of Mr. Pitt laying claim to it, you were put to loss and had to pay this money to relieve yourself of the responsibility of going to law, and that it was through the fault of the Government that you had to pay? Yes.
46. *Mr. Frank Farnell.*] Did you or your father consult any solicitor on your behalf? Yes; Mr. Dixson.
47. Do you know what directions were given by the solicitor, and whether he advised your father to pay that money into Court? I do not know.
48. *Mr. Waddell.*] You took up a selection under the Act of 1875? Yes.
49. Were you in undisputed possession for some considerable time? Yes; for eighteen months or two years.
50. The lessee did not dispute your possession at all? No; but I would not be certain as to the length of time. It was a good while.
51. *Mr. Ewing.*] You are sure the trespass referred only to the land that afterwards became yours? Yes.
52. On what ground did Mr. Pitt first dispute your ownership of the land? He said it belonged to his leasehold area.
53. Do you know the date on which you took up the land? I believe it to be three years. The additional conditional purchase is about two years.
54. Did you get your certificate for the selection? Yes.
55. And you got the prelcases granted, and paid your rents, and had undisputed possession for two years? Yes.
56. And then the lessee stepped in and claimed it as part of a leasehold area? Yes.

THURSDAY, 1 *MARCH*, 1888.

Present:

MR. HASSALL, | MR. CHANTER,
MR. WADDELL.

T. H. HASSALL, ESQ., IN THE CHAIR.

George Matcham Pitt, Esq., junior, called in, sworn, and examined:—

G. M. Pitt, Esq., junior. 1 Mar., 1888.

57. *Chairman.*] Where do you reside? At Richmond.
58. You are the nominal lessee of the runs known as Currugundi and Warren South? Yes.
59. Are there any selectors on your runs named Parry Brothers? Yes.
60. Did you enter any action against them for trespass some time ago? I did.
61. Did they not hold selections and conditional leases in virtue of those selections on your run? Prior to 1884, I think.
62. Why did you enter the action againt them? Because I considered them trespassers on my leasehold area. One half of the run was gazetted to me as leasehold area; the other half was the resumed area.
63. Where were those runs situated, on the leasehold or on the resumed area? On the leasehold area.
64. In what way did you consider you had a title to the land? It was gazetted to me as leasehold area and included in the area when the division took place.

65.

G. M. Pitt, Esq., junior. 1 Mar., 1888.

65. Were the Parry Brothers at that time running stock upon a portion of the land which you laid claim to? I believe they were.
66. You entered an action against them on this ground: that they were trespassers on a portion of your leasehold area? Yes.
67. Did you know at that time that they considered they had a claim to the land on which their stock was running? I did not know what they considered. I did not know virtually, you know. I heard that they had made applications for this land as a conditional lease in virtue of their conditional purchase.
68. *Mr. Chanter.*] Did this action only apply to the prelease? On what was granted to me as a leasehold area.
69. Did it apply to the prelease only, or to the conditional purchase? To the prelease only.
70. *Chairman.*] What sum did you fix as damages? That I cannot tell you. I think it was £1,000.
71. £500 each? It may have been. My brother carried out the arrangements.
72. Have you any idea why they did not defend the action? None whatever.
73. In what way was the matter settled? My brother, who is a solicitor, wrote stating that the Parrys had paid, and he had accepted, £50, as a nominal sum after the Validating Bill had passed. Parliament passed a Validating Bill and took this land out of my leasehold area, and gave it to these selectors.
74. As a conditional lease? I think as a conditional lease.
75. Did they not pay your brother £150 cash to put an end to the action, and a sum of fifteen guineas cost? Yes.
76. At the time you entered the action you considered that the land was yours in virtue of your application for division of the run? Yes.
77. The chief portion of the run on which their selection was situated was granted to you? Yes. One case was made a test case. I was put to the expense of defending it, and the Supreme Court decided that the land was mine.
78. It was in virtue of that decision that you entered the action against the Parrys? My action was long prior to that.
79. Your case against the Parrys was not upset in any way by the Validating Bill, which was subsequently brought in, which provided that all actions commenced after a certain date should be null and void, as between the lessee and the selector for trespass? It said any cause of action commenced after a certain date; but, as mine were only actions for trespass, it was a question whether the exemption in the Bill referred to them.
80. Your actions were commenced prior to the date mentioned in the Bill? Yes.
81. *Mr. Chanter.*] Did you say that this action was decided in your favour by the Supreme Court? Yes.
82. The settlement on the part of the Parry Brothers with your brother was prior to that decision? Yes.*
83. *Mr. Waddell.*] When did the Parrys first select on your run? I could not say.
84. You are aware that it was a considerable time before 1884? Yes.
85. It was probably a year before? I think it was.
86. You say that they had undisputed possession of the land for some time as a pre-emptive right, which was afterwards the subject of dispute? As far as I know.
87. *Mr. Chanter.*] Have you obtained a lease from the Lands Department of your run? Not more than the Gazette notice.
88. What is the area of your leasehold? I understand that it is about 26,000 acres.
89. What is the area of the resumed portion of the run? It is about the same.
90. That is at the time the division took place? Yes.
91. What is the area of your leasehold now? It is not 10,000 acres.
92. Is that reduction consequent upon the withdrawal of these lands which you held to be Crown lands,—the preleases of the Parry Brothers? Yes.
93. *Mr. Waddell.*] You claim this land simply owing to the fact that the Government had notified that it was in your pastoral lease,—land which you had previously looked upon as their pre-emptive right? I claim the land because it was gazetted to me as part of my leasehold area; all pre-emptive rights became null and void at the end of the year 1884.
94. *Chairman.*] When the division took place, was any calculation made as to the area alienated by conditional purchase or conditional lease? The conditional purchases were all deducted.
95. The conditional leases were not deducted? No.
96. The result is that instead of having 26,000 acres, a half of the run, as you should have had, you have less than 10,000 acres? Yes.
97. *Mr. Waddell.*] You sent in a petition some time ago about this matter to the Legislative Assembly? Yes.
98. *Chairman.*] At whose door do you think the blame lies in regard to the disputed ownership of the land as between you and the Parry Brothers? It is a difficult question to answer.
99. *Mr. Waddell.*] Do you think it was the Government, or do you think it was a fictitious right which the Parrys had over the land? I would sooner say it was the Crown.
100. *Chairman.*] You think that the Parrys had a title, having held the land under prelease previous to the Act of 1884? I did not know the Parrys after 1884.
101. *Mr. Chanter.*] You have every reason to believe that they held the prelease prior to 1884? Yes.
102. *Chairman.*] Was there not some agreement made between you and the Parry Brothers recognizing their rights to the lands they held under prelease in Warren South, and agreeing that their stock and your stock should run together without molestation until a certain date? Yes; the *bonâ fide* stock.
103. By that agreement you recognized their right to this land previous to the division of the runs taking place? Correct.
104. *Mr. Waddell.*] Do you say that the Supreme Court decided that your claim to the land was legal and that their claim was illegal? Yes.
105. *Chairman.*] It was after that decision was given that the Validating Bill was brought in, putting the parties in possession of the land again? Prior. The Bill was passed before the Court had given its decision on the case which was sent to them for judgment. 106.

* NOTE (*on revision*): No; the settlement on the part of the Parry Brothers was AFTER that decision.

G. M. Pitt, Esq., junior. 1 Mar., 1888.

106. *Mr. Waddell.*] Was it this particular selection mentioned in the Bill? The Bill covered all.
107. *Chairman.*] The Supreme Court had given you possession of the land previous to the Validating Bill being brought into the House? Not previous. The Government anticipated that the decision of the Court would be against them, and they brought in this Bill.
108 Have you any idea why the Parrys did not defend the action instead of paying a certain sum to you to quash it? No.
109. The fact remains that they did pay to you, through your brother, the sum of £165 15s. to quash these actions for trespass, which you had entered against them, damages at £500 each? Yes.

WEDNESDAY, 7 MARCH, 1888.

Present:—

MR. HASSALL, | MR. GALE,
MR. WADDELL.

T. H. HASSALL, ESQ., IN THE CHAIR.

William Henry Capper, Esq., called in, sworn, and examined:—

W. H. Capper, Esq. 7 Mar., 1888.

110. *Chairman.*] You are clerk in charge of the Conditional Sales Branch of the Lands Department? Yes.
111. Have you any knowledge of the case of the Parry Brothers in regard to their selections? Yes. I produce the papers. Four conditional purchases were taken up by or in the name of the Parrys.
112. Are you aware whether any preleases were granted in virtue of these conditional purchases? Yes; the records show that there were conditional leases in some of the cases.
113. In what year? They were applied for in 1885.
114. Were the preleases granted in virtue of the conditional purchases before the conditional leases were applied for? Yes.
115. It was in virtue of the preleases that the conditional leases were applied for? Yes.
116. Were these conditional leases granted? I have only got information about one conditional lease having been confirmed.
117. Whose conditional lease was that? It is the conditional lease made in virtue of Reuben Parry's conditional purchase.
118. It was confirmed by the Board? Yes.
119. Have you any knowledge of an application having been made for the increased area to James N. Parry's original conditional purchase. That is, I suppose, an additional conditional purchase under the present Act? No; I have no papers in connection with that matter. The notice I got merely refers to Parry's conditional purchase; but this further information I will search for. All these papers would be in the local office. They would not be in the Department except in the case of an appeal.
120. Have you any knowledge that Mr. Pitt, the lessee of this run, laid any claim to this land? I have the correspondence in connection with the division of the run. I do not think there is any specific reference to these areas covered by preleases.
121. There is nothing in the correspondence bearing upon that particular question? No; there is no specific reference to these particular areas.
122. In the correspondence, does Mr. Pitt lay claim to the whole of the land within the leasehold area with the exception of the conditional purchases? He, in the ordinary course of business, lodged his application for the division of his holdings, and furnished the necessary plan, which I produce; and then he asked for an amendment. The areas were altered once or twice in view of his correspondence.
123. You say that the Parrys hold their preleases in virtue of these conditional purchases. Are you aware whether they made application for their leases within the specified time of ninety days? I cannot answer the question. These papers are before the local Board.
124. They are in possession of these leases now? That, I cannot say. I do not know what action the Board has taken. I shall ascertain the information for the Committee.

TUESDAY, 1 MAY, 1888.

Present:—

MR. HASSALL, | MR. FRANK FARNELL,
MR. EWING, | MR. GALE.

T. H. HASSALL, ESQ., IN THE CHAIR.

William Henry Capper, Esq., recalled and further examined:—

W. H. Capper, Esq. 1 May, 1888.

125. *Chairman.*] At the last meeting of the Committee you stated that you had no papers in connection with James Nicholas Parry's additional conditional purchase under the present Act and the conditional leases? I produce the papers now.
126. Why were you unable to produce them at the last meeting? Because they were in the Local Land Board office at Moree.
127. You have since obtained them? Yes.
128. And they are the papers produced? Yes.
129. Would the circumstances of one conditional lease apply to the rest? Not necessarily.
130. But would not the same conditions applying to one application apply to the others? Yes.
131. The evidence taken with regard to one conditional purchase or lease would apply to a great extent to the other cases? Yes; assuming you refer to the conditional leases applied for by the Parrys.
132. On the 7th March I asked you this question: "Have you any knowledge of an application having been made for the increased area of James N. Parry's original conditional purchase, that is, I suppose, an additional conditional purchase under the Act;" and you replied, "No; I have no papers in connection with that matter. The notice I got merely refers to Parry's conditional purchase, but this further information I will search for. All these papers will be in the local office. They will not be in the Department except in the case of an appeal." Will you state the circumstances in connection with the conditional purchase?

An

W. H. Capper, Esq. 1 May, 1888.

An application for the additional conditional purchase under the Act of 1884 was lodged by James Nicholas Parry, with the land agent at Moree on the 4th February, 1886, for 960 acres. It was applied for in virtue of conditional purchase 83-180 of 640 acres.

133. Does the application say whether the land was in measured or in unmeasured portions? In measured portions.

134. What were those measured portions? 38, 39, and 40, in the parish of Tiela, containing 320 acres each, and being forfeited conditional purchases of John Edwards, Thomas Peisly, and Joseph Edmunds. The matter came before the Local Land Board at Moree on the 26th March, 1886, and the application was confirmed.

135. Then it never went before the Minister? No.

136. The applicants were put in possession of the land? Yes.

137. And what date was that? The 26th March, 1886.

138. Were the conditional leases applied for in virtue of the conditional purchases of the Parry Brothers made within the specified time of ninety days? There was no application for a conditional lease in the case of J. N. Parry.

139. Do the papers in J. N. Parry's case show that he held any of this land as a prelease? I have a note to the effect that there was a prelease in connection with the original conditional purchase of 640 acres.

140. Did the three selections forfeited embrace any portion of that prelease? That I cannot say, as I have not the description of the prelease.

141. But from your knowledge of land matters and your knowledge that this additional conditional purchase, embracing three forfeited conditional purchases, adjoined J. N. Parry's original conditional purchase, would it be your opinion that they originally formed a portion of the prelease? That could not have been the case immediately before, because they were covered by the conditional purchases mentioned which were forfeited. The land may originally have formed part of the prelease prior to the conditional purchases which were forfeited.

142. You know, as a matter of fact, that preleases were abolished by the Act of 1884? Yes.

143. And that it was made compulsory to apply for a conversion of the prelease into a conditional lease within ninety days from the passing of the Act? Yes.

144. In the case of the conditional leases do the papers show that these applications were made within ninety days specified by the Act? Yes. With the exception of J. N. Parry, who did not apply to convert his prelease made in virtue of conditional purchase 83–180.

145. Are they in possession of the land at the present time? Some of the leases were refused.

146. Is Reuben Parry now in possession of his land? Yes.

147. And Richard O. Parry, is he in possession of his land? Yes.

148. Then do the papers distinctly say that the Parry Brothers, as concerned in this inquiry, held possession of the land originally under prelease and made application within the specified time, and had their conditional leases granted in virtue of that application? Yes. With the exception quoted in J. N. Parry's case.

149. They now hold possession of the whole land in dispute? Yes.

150. *Mr. Ewing.*] Was Parrys' title a prior title to that of Mr. Pitt? Yes; that is, they obtained their title to the land in virtue of the preleases originally held by them.

151. How does the Department view the matter? Parliament went so far as to validate their titles with others of a similar nature by a special Act.

IN accordance with the provisions of the Crown Lands Act of 1884, I, John Town, being a runholder in the Central Division, and this day having made application for a pastoral lease, hereby apply for a license to occupy for the term of one year for grazing purposes whichever portion of my pastoral holding, known as Currugundi Station, may be converted into a resumed area under the said Act.

Annexed hereto is a receipt showing that the sum of £42 on account of the first year's license fee, at the rate of £2 per section of 640 acres of the estimated area of 13,440 acres I now apply for, has been deposited with the Colonial Treasurer, and I also agree to pay any further sum that may be demanded, being the difference between the sum paid into the Treasury and the said license fee, as appraised hereafter.

Report, &c.

Report for appraisement of Rent or License Fee.

OFFICE reference number, 448; name of Lessee or Licensee, John Towns, senior; name of holding, Currugundi; date of inspection, 7th April, 1887; Division Central.

1. Is water supply natural and permanent? The only natural supply is in a swamp near the homestead, and very shallow water in the Gingham watercourse.
2. Give the names of rivers, creeks, lakes, or lagoons affording this natural supply?
3. Is this supply sufficient to keep the land fully stocked in ordinary seasons? No.
4. If not, state for how many months of the year, and for what number of stock the supply is available? The swamp has about 3 feet 6 inches of natural water at present. If filled in the spring from floods it lasts fairly well for about 500 head of cattle through the following summer in ordinary seasons.
5. Is the water supply artificial? Partly so.
6. Is this supply derived from underground sources, or from rain or flood waters conserved in tanks and dams, or from a combination of all? Two tanks and a well.
7. If from underground sources, state the depth and interior size of the shaft or well; its capacity to water a given number of stock every twenty-four hours; the quality of water, whether pure and wholesome, or of the kind called "stock-water"? The well is 100 feet deep and 3 feet by 3 feet 6 inches, and supplies stock water for four or five horses in a dry season.
8. If from tanks, state the original depth, the number of cubic yards, and, as near as you can tell, the present water supply; also as to catchments? One tank, 2,300 yards, 9 feet deep, on portion 9, parish of Crinoline, forfeited C.P., G. Watson, fair catchment; full; one tank, very old, about 3 feet of water; silted up; fair catchment, on water reserve 1,384.
9. If from dams, state the depth of the river, creek, or watercourse; the height, breadth, and length of embankment; and, as near as you can judge, the present water supply, together with any other information, such as favourable water catchments, retentive soil, hard drainage surface, or otherwise, &c. There is an old broken dam on the Gingham watercourse, erected some years ago, between Currugundi and Yarrawah. It is useless now, but should think the present water supply would last through about this present year.
10. Is the present artificial supply sufficient to keep the land permanently and fully stocked in ordinary seasons? No.
11. If not, state for how many months and for what number of stock the supply is sufficient?
12. Is the supply partly natural, partly artificial. If so, state particulars? Yes; the swamp near the homestead. The Gingham watercourse and the tanks and well already described.
13. If lakes, lagoons, creeks, or watercourses are supplied with water raised from adjacent rivers by pumping or otherwise, state the facts?
14. If any improvements in the shape of tanks, dams, wells, &c., are situated on freeholds or leaseholds, state the facts.
15. Ascertain, where practicable, from Station records, the rainfall for the preceding twelve months, two years, or more? No record.
16. State whether any extraordinary or special facilities for obtaining or securing water appear to exist on the land? There are fair catchments for tanks, but the watercourses are not fit for dams.
17. What is the nature of the soil and rock formation—such as granite, lime-stone, trap, &c.? Some rich black soil, some chocolate and white, and some sandy soil.
18. What is the character of the country—Is it level, hilly, or mountainous; thickly or thinly timbered; rocky or otherwise? Level; in some parts very thickly timbered; some very good open forest, and some good plains.

19.

19 Give the proportion of "scrub" country, stating its kind—whether mallee, pine, oak, wattle, belar, mulga, gidyea, brigalow, &c Indicate its position on tracing? About 7,000 acres pine, box, belar, coolabah, buddah, &c.

20. State the number of stock the land will carry, if the stock is fully supplied with water? About 6,000 sheep.

21. State whether the land can be classed as fattening or breeding country? Both fattening and breeding

22 Is the country timbered, if so, is it heavily or thinly covered, and what is the kind or kinds of timber—indicate position of different classes of timber on tracing? Yes, generally, with some good plains, and heavily timbered in parts, and open forest, pine, box, coolabah, belar, some boirr or myall, and some gum.

23 What is the description of pasturage, is it the stronger grasses of the Eastern Division, or the more succulent and fattening grasses, salt or other bush, and herbs of the Central and Western Divisions? There are good fattening grasses also good salt-bush, with the coarser kinds of grasses in the flooded country

24 State the number of acres required per sheep unimproved, and the number of acres per sheep with the same land improved? Unimproved by water it could only be stocked in favourable seasons while the water lasted If supplied with sufficient water, about 4 acres to a sheep.

25. Within the snowbelt, gather from records on the stations where practicable the months of the year the country is wholly unavailable?

26. Where available certain months of the year, or all the year round, give the acreage required for a sheep or horned cattle?

27. Describe in general terms the kind of grasses, shrubs, timber, &c? Barley, blue coolah, and other good grasses and herbs, with salt-bush and coarser grasses, already described

28. State nature and value of any improvements which have become forfeited to the Crown, and are situated upon Crown Lands?

29 State the annual value of such improvements in connection with the occupation of the adjoining land, whether Crown Lands or not, for pasture purposes?

I hereby certify that I have inspected the land shown in accompanying tracing, and described as 448 Currugundi reduced area by office reference, and I have also made inquiry concerning its character and capabilities, and I declare that the statements as to facts contained in this report are correct to the best of my knowledge, and that they are given to the best of my judgment as to other particulars

Caption to Deposition of Witnesses.

[Crown Lands Act of 1884—Part II, section 14, sub-section 1.]

New South Wales, Moree, }
to wit. }

The examination of William Broughton, of Moree, in the Colony of New South Wales, Inspector of Runs.

WHEREAS it became a matter for inquiry before us as to the yearly rent to be paid on the leasehold area of Currugundi Holding No. 448, in the Central Division, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

There was no appearance on behalf of the Lessee.

THIS deponent, *William Broughton*, of Moree, Inspector of Runs, being duly sworn, saith : On the 8th April, 1887, I inspected the leasehold area of Currugundi holding, No. 448, in the Central Division, containing for 1885, 22,388 acres, 12,526 for 1886 and 1887 ; there is no natural permanent water supply beyond which is contained in the watercourse country in flood time ; the artificial supply is in a tank of 1,000 yards, originally 12 feet deep ; it is situated on portion 28, parish of Teela freehold, and it is filled from flood waters ; I could not get to this tank during my inspection ; there is no record of rainfall, but the record at Goonal and adjoining run is for an average, from 1881 to 1885, 17·56 inches ; the rainfall for 1886, and to date this year, greatly exceeded this average ; the soil, I believe, is generally a black soil ; when it was not under water it was black soil, some red and a lighter coloured soil ; the country is level generally, timbered country, some plains, and partly open forest ; the timber is beelah coolabah, box oak, with some gum ; the scrub is pine oak, beelah, coolabah, box, and buddah, with some silverleaf wattle ; there are between 2,000 and 3,000 acres of this scrub ; this area would be suitable for both fattening and breeding cattle in ordinary seasons if artificial water could be secured, but at present very little stock could be kept on it owing to its flooded state ; I do not believe that it can be stocked fully until next summer ; there are the good grasses of the Western Division outside the flooded country, also salt bush of small kinds ; most of the flooded country was, as far as I could see, growing sags and rushes ; the sags are in many places quite 12 feet high ; I estimate this area in ordinary seasons, and supplied with water, to carry between 500 and 600 head of cattle of a fattening and breeding herd ; this would be about 22 to 23 acres to a beast, owing to this leasehold being so cut up and divided by conditional purchases and conditional leases, I am certain the portions left would not be worth paying rent for by one lessee ; there are no separate returns for Currugundi holding.

By Chairman : I have heard the letters from Mr. Pitt read, and I agree with them ; I think there is between 2,000 and 3,000 acres of land on the leasehold area which would be improved by ringbarking and scrubbing, and would cost 2s. per acre ; if this country were ringbarked it would carry 150 head more cattle ; I do not think the lessee would be justified in expending this amount unless he was compensated ; therefore under existing arrangements I would not make any additional water on this area ; there are no suitable catches, and it would therefore be very difficult to make water if the wells failed ; this would be expensive country to work ; I saw no stock on the land ; all the best of the country has been selected, and also some inferior country ; I am sure the Big Leather watercourse does not reach Currugundi every year ; the country was too flooded to reach the dam.

WILLIAM BROUGHTON.

Decision of Local Land Board.

[Crown Lands Act of 1884—Part II, section 14, sub-section 4.]

New South Wales, Moree, to wit.

WHEREAS on the 4th day of May, 1887, it became a matter for investigation before us as to the yearly rent to be paid on the leasehold area of Currugundi holding, No. 448, in the Central Division, lessee, John Town, sen., and having taken evidence and inquired into the said matter, we find that this area consists of excellent grazing and fattening country, subject to inundation, and only suitable for cattle; but the manner in which it is cut up by adverse alienations, renders its occupation comparatively unremunerative.

Central Currugundi, No. 448, Leasehold area: 1885, 22,388 acres; 1886 and 1887, 12,536 acres.

We therefore recommend the annual rent for first five years be fixed at 2½d. per acre.

Given under our hands, at the office of the Local Land Board, at Moree, in the Colony of New South Wales, this 4th day of May, 1887,—

There is a tank originally about 12 feet deep and 6,000 yards On freehold land, portion 28 of 50 acres; parish of Field. It is filled from flood waters, and is situated in saggy country I could not get to it during my inspection.
9. If from dams, state the depth of the river, creek, or watercourse, the height, breadth, and length of embankment; and, as near as you can judge, the present water supply, together with any other information, such as favourable water catchments, retentive soil, hard drainage surface, or otherwise, &c?
10. Is the present artificial supply sufficient to keep the land permanently and fully stocked in ordinary seasons? No
11. If not state for how many months and for what number of stock the supply is sufficient?

16. State whether any extraordinary or special facilities for obtaining or securing water appear to exist on the land? Not any.
17. What is the nature of the soil and rock formation—such as granite, limestone, trap, &c.? Generally I should suppose rich black soil; but where not under water it is similar to that on Burrendoon.

18. What is the character of the country—Is it level, hilly, or mountainous; thickly or thinly timbered; rocky, or otherwise? Level; generally timbered country, with some small plains and broken country; partly open forest.
19. Give the proportion of "scrub" country, stating its kind—whether mallee, pine, oak, wattle, belar, mulga, gidyea, brigalow, &c. Indicate its position on tracing? Between 2,000 and 3,000 acres; perhaps more. Pine, oak, belar, wattle, coolabah, box, and buddah.
20. State the number of stock the land will carry, if the stock is fully supplied with water? Between 500 and 600 head of cattle.
21. State whether the land can be classed as fattening or breeding country? I presume it would be suitable for either fattening or breeding cattle, but at present very little stock could be kept on it.
22. Is the country timbered; if so, is it heavily or thinly covered; and what is the kind or kinds of timber. Indicate position of different classes of timber on tracing? Yes. In parts very heavily timbered. In parts open forest, some good plains, and some bad scrub. The timber is pine, belar, oak, box, coolabah, some gum and carbean.

What is the description of pasturage; is it the stronger grasses of the Eastern Division, or the more succulent and fattening grasses, salt or other bush, and herbs of the Central and Western Divisions? In the flooded, coarse grass and sags, &c.; on other parts good grasses, and I believe herbage in season.
24. State the number of acres required per sheep unimproved, and the number of acres per sheep of the same land improved? It is impossible to estimate this leasehold for sheep. About 24 acres to each head of cattle.
25. Within the snowbelt gather from records on the Stations, where practicable, the months of the year the country is wholly unavailable?
26. Where available certain months of the year, or all the year round, give the acreage required for a sheep or horned cattle?
27. Describe in general terms the kind of grasses, shrubs, timber, &c.? There are the best kind of grasses outside the flooded country, such as blue barley, coolah, &c., with some salt-bush.
28. State nature and value of any improvements which have become forfeited to the Crown, and are situated upon Crown Lands?
29. State the annual value of such improvements in connection with the occupation of the adjoining land, whether Crown Lands or not, for pasture purposes?

REMARKS.

This leasehold area is so divided by settlement, and owing to the very extraordinary season so flooded, that I have found it very difficult to make a reliable report. Many parts I could not reach, although I had a guide who knew the country well. I do not think it will be possible to put even large stock on many parts until next summer.

The sags, in many places 12 feet high, appear to extend for miles, and although I had a strong horse I had to turn back before getting through them.

I hereby certify that I have inspected the land shown in accompanying tracing, and described as 448, Currugundi Leasehold, and by office reference, and I have also made inquiry concerning its character and capabilities, and I declare that the statements as to facts contained in this report are correct to the best of my knowledge, and that they are given to the best of my judgment as to other particulars.

LAND VALIDATING ACT.

To the Editor of the Herald.

SIR,—I was pleased to read your leader in yesterday's *Herald*, *re* Validating Bill. Pray pardon me. I would like to bring under your notice how I am likely to be affected if same becomes law. I always understood the last Land law was passed to give pastoralists security of tenure for half of their run. Well this is my case: The Crown divided my run, would not accept my proposition; they divided and allotted me the northern portion and wrote me that decision was final. I could see I should be ruined, as the only water for years was on the southern half and all the cattle I was possessed were running on it. I went down and saw Mr. Farnell and Mr. Wright, and explained matters, and the southern half was then given me and gazetted, as I understood, for fifteen years. Shortly after this the selector made application for conditional leases and conversion of leases; the matter came before the Moree Board. I objected to any pre-leases or conditional leases being granted out of my leasehold area; however the Board granted them. I appealed; soon after I called on Mr. Abbott—then Minister for Lands,—and asked him to withdraw from conditional sale the resumed portion until my appeals were considered, so that I may have an opportunity of getting another division line. He refused, and wrote officially that he would not disturb the division line, and that I must only make the best of the position I could. I had to employ counsel (Mr. Barton). The cases came before Mr. Spring. A technical point was raised by the counsel for selectors that I had no *locus standi*, as the station was in the name of John Town. I produced probate showing that the station was mine absolutely, under the will of Mr. Town. The matter was referred back to the Moree Board, and subsequently came before Mr. Copeland. I had to employ counsel again, and Mr. Copeland, having a doubt in his mind as to the legality of granting these leases, made one

of

of my cases a test case—Pitt *v.* Parry. I was notified to defend the case by counsel; I did so, and it was heard before the late Chief Justice and Mr. Justice Innes. I waited some time anxiously for their decision; unfortunately for me the Chief Justice died, and had never conferred with Mr. Justice Innes; consequently I was called upon again to defend myself by counsel before the present Chief Justice, Mr. Darley, also Justices Innes and Faucett. They heard the case *de novo*, and up to now have not given their decision. In the meantime the Crown are now bringing in a Validating Bill, and making it take effect from last December. Now my case to me is ruination. The leasehold area is 28,000 acres, and the conditional leases applied for within that area are nearly 20,000 acres, which would leave me only about 8,000 scattered in strips all over the area, and useless. In the meantime the resumed area is being selected; the selectors took possession of their leases; I had to sell my cattle at sacrifice, and, in fact, brought to the verge of utter ruin. As soon as I saw that the Validating Bill was to be retrospective, I could see what a fix I should be in, for I only took out, I think, seven writs prior to that date, and the remaining five have only recently been issued. I saw the present Chief Justice's opinion before I appealed to the Land Board at Moree. It was conclusive that the Crown had no power to grant any leases out of a leasehold area. If this Validating Bill be passed I shall be ruined, and no other course will be left me but to give up the station to the Crown. I should be glad if you could with your powerful paper have some of these facts brought prominently forward. I am the scapegoat; I have three portions also, 320 acres each, which are governed by the decision, Edols *v.* Thurle.

Appraisement of the rental of your pastoral holding "Currugundi," No. 448, in the Central Division.

You are requested to bring particulars of the working expenses, average annual clip, and general returns in connection with this holding. Forwarded to the chairman of the Moree Board, with my letter this day, 12 April, 1887.—Geo. M. Pitt, Junr., North Richmond.

No. 4.

G. M. Pitt, Esq., to The Chairman, Moree Land Board.

Sir, North Richmond, 12 April, 1887.

I beg to acknowledge the receipt of your notice, informing me that the appraisement of the rental of my pastoral holding, Currugundi, No. 448, in the Central Division, would be considered at the Court-house, Moree, on the 20th instant, and you further request me to bring particulars of the working expenses, receipts, &c. As it will be impossible for me to attend your Court, I beg most respectfully to state a few facts for your information when dealing with the matter. The station for the last seven years (prior to this year) has been waterless—with the exception of a small waterhole (to which Midkin station has equal rights), situate at the extreme end of the run on Warren South. This hole was occasionally filled from the overflow of the Big River, but it seldom lasted long, and I had several times to remove my cattle to my other station, Bunaba South; here they died in hundreds, plenty of water but no grass; the herd was reduced in a few years from 5,000 head to less than a fourth of that number, which I had to sell at a sacrifice, owing to the selectors having taken possession of nearly the whole of the leasehold area. (*Vide* my printed letter to the *Herald*, enclosed.) They overstocked the place with other people's sheep and cattle (thousands), and very soon devoured all the grass and water. I sank several wells on other parts of the run at considerable expense, but could find no water; about a quarter of the run is scrub. The best of the country has been taken up by selectors, and should such succeed in ejecting them from the leasehold area the station will be comparatively valueless. I therefore trust that you will (under the circumstances) deal with me as liberally as you can. I feel assured that you will do what is just and fair.

I have, &c.,

GEO. M. PITT.

P.S.—I sold Bunaba North Station to Mr. Weston in September last; the transfer is to be effected this week. The last seven years there has been little or no grass on this station. The greater part is scrub.—G.M.P.

G. M. Pitt, jun., Esq., to The Chairman, Land Board, Moree.

North Richmond, 14 April, 1887.

Sir,

In connection with my letter to you, dated 12th inst., and printed enclosure therein, I have the honor to forward herewith, for your information, a sketch plan showing the isolated and scrubby portions of my holding, Currugundi, No. 448, after satisfaction of all adverse conditional purchases and leases.

Upon reference plan it will be seen that these portions are of such an inconvenient size and shape as to preclude any working of them without enormous expense; the fencing alone would cost more than the value of the leasehold. On the plan is shown the position of Woondoona Waterhole, which contains the only supply available for the last seven years (and to which Midkin run has also equal rights); it, however, can only be used for a small portion of the leasehold; no means of access to it is practicable from the other portions, each of which would have to be provided with a supply. The plan also shows the extent of the dense scrub belts, from which it will be seen that very little practicable land is available for grazing purposes.

Owing to the unsettled applications for conditional purchases and leases, I have to point out that since the present Act became law I have not been able to take possession of the leasehold awarded to me in the division of my holding, and, consequently, could not in any way make use of it. In submitting the foregoing facts I earnestly trust you will take them into favourable consideration when determining the value of my holding.

I have, &c.,

GEO. M. PITT, JUNR.

P.S.—I have to request that the enclosed tracing may be returned when my case has been dealt with.—G.M.P.

[Crown Lands Act of 1884—Part II, section 14, sub-section 1.]

New South Wales, Moree, to wit.

The examination of William Broughton, of Moree, in the Colony of New South Wales, Inspector of Runs.

WHEREAS it became a matter for inquiry before us as to the yearly rent to be paid on the leasehold area of Currugundi Holding, No. 448, in the Central Division, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

There was no appearance on behalf of the lessee.

THIS deponent, *William Broughton*, of Moree, Inspector of Runs, being duly sworn, saith:—On the 8th April, 1887, I inspected the leasehold area of Currugundi Holding, No. 448, in the Central Division, containing for 1885, 22,388 acres; 12,526, for 1886 and 1887; there is no natural permanent supply beyond what is contained in the watercourse country in flood time; the artificial supply is in a tank 1,000 yards, originally 12 feet deep; it is situated on portion 28, parish of Tiela,

Tiela, freehold, and it is filled from flood waters ; I could not get to this tank during my inspection ; there is no record of rainfall, but the record at Goonal, an adjoining run, is for an average from 1881 to 1885, 15·56 inches ; the rainfall for 1886 and to date this year greatly exceeded this average ; the soil, I believe, is generally a black soil, where it was not under water it was black soil, some red and a lighter-coloured soil ; the country is level generally, timbered country, some plains, and partly open forest ; the timber is belah, coolabah, box, oak, with some gum ; the scrub is pine, oak, belah, coolabah, box, and buddah, with some silverleaf wattle ; there are between 2,000 and 3,000 acres of this scrub ; this area would be suitable for both fattening and breeding cattle in ordinary season if artificial water could be secured, but at present very little stock can be kept on it owing to its flooded state ; I do not believe that it can be stocked fully until next summer ; there are the good grasses of the Western Division outside the flooded country, also salt bush of small kinds ; most of the flooded country was, as far as I could see, growing sags and rushes ; the sags are in many places quite 12 feet high ; I estimate this area in ordinary seasons, and supplied with water to carry between 500 and 600 head of cattle of a fattening and breeding herd ; this would be about 22 to 23 acres to a beast ; owing to this leasehold being so cut up and divided by conditional purchases and conditional leases, I am certain the portions left would not be worth paying rent for by one lessee ; there are no separate returns for Currugundi Holding.

By the Chairman: I have heard the letters from Mr. Pitt read, and I agree with them ; I think there are between 2,000 and 3,000 acres of land on the leasehold area which would be improved by ringbarking and scrubbing, and would cost 2s. per acre ; if this country were ringbarked it would carry 150 head more cattle ; I do not think the lessee would be justified in expending this amount unless he was compensated therefor under existing arrangements ; I would not make any additional water on this area ; there are no suitable catches, and it would therefore be very difficult to make water if the wells failed ; this would be expensive country to work ; I saw no stock on the land ; all the best of the country has been selected, and also some inferior country ; I am sure the Big Leather watercourse does not reach Currugundi every year ; the country was too flooded to reach the dam.

[Crown Lands Act of 1884—Part II, section 14, sub-section 4.]

Decision of Local Land Board.

New South Wales, Moree, to wit.

Whereas on the 4th day of May, 1887, it became a matter for investigation before us as to the yearly rent to be paid on the leasehold area of Currugundi Holding, No. 448, in the Central Division, lessee, John Towns, senior, and having taken evidence and inquired into the said matter we find that this area consists of excellent grazing and fattening country subject to inundation, and only suitable for cattle, but the manner in which it is cut up by adverse alienations renders its occupation comparatively unremunerative. We therefore recommend that the annual rent per first five years be fixed at 2½d. per acre.

Central Currugundi, No. 448 ; leasehold area, 1885, 22,388 acres ; 1886 and 1887, 12,526.

Given under our hands, at the office of the Local Land Board, at Moree, in the Colony of New South Wales, this 4th day of May, 1887,—

C. J. M'MASTER, Chairman.

Rent determined at the rate of 2½d. per acre per annum, commencing from the date of notification of division of pastoral holding, and to apply to the term of five years.—Thos. Garrett, 16/7/87. Gazetted 12th September, 1887. Lessee informed 27th September, 1887.

Government Gazette Notice.

Department of Lands, Sydney, 12 September, 1887.

CENTRAL DIVISION.

Notice is hereby given that, in pursuance of the provisions of the "Crown Lands Act of 1884," the Minister has determined the annual rentals of the Pastoral Leases specified in the annexed Schedule, at the respective rates per acre therein mentioned, such rentals to apply from the date of notification of the division of the Pastoral Holding in each case until the expiration of the first period of the lease. For the second period the annual rentals will be increased by one-fourth.

The first period of the leases will be for the term of five years, commencing from the date of notification of the division of the Pastoral Holding, and the second period will be for five years, commencing at the expiration of the first period.

The leases may be terminated subject to the provisions of the "Crown Lands Act of 1884."

In every case the current year's rent, as specified in the Schedule, must be paid to the Colonial Treasurer within sixty days from this date, subject in default to the provisions and penalties of the 96th clause of the "Crown Lands Act of 1884"; and any arrears (which are exclusive of the rents for the current year) when not exceeding £10, must also be paid within the same period, subject in default to the provisions and penalties referred to.

In cases where the arrears amount to over £10, such arrears may be paid, with 5 per cent. interest added, by four half-yearly instalments, the first payment being due on the 10th May, 1888, and subsequent payments being due six months from date of expiration of the preceding term, or the arrears may be paid in one sum within sixty days from this date.

CENTRAL DIVISION.

LEASEHOLD area No. 448, Currugundi; Land Board District of Moree; rent recommended by Board, 2½d. per acre.

Grazing capabilities:—Mr. Inspector Broughton reports that it is impossible to estimate this leasehold for sheep. About 24 acres to each head of cattle classes it as a fattening and breeding country.

Nature of country:—Owing to the flooded state of the country at the time of inspection Wm. Broughton says he found it very difficult to give a reliable report. There is no permanent natural water supply. The main supply is from flood waters conserved in a tank on freehold, but it is insufficient to keep the land fully stocked. Level country; rich black soil generally; timbered with pine, oak, belar, wattle, coolabah, box, and buddah; good grasses and herbage in season, and the coarser grasses, sags, and rushes in the flooded parts, from the pasturage. There are no suitable catchments for securing water; about one-quarter the area is scrubby.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

GEORGE ROBERT EDWARD FERGUSSON.

(PETITION.)

Received by the Legislative Assembly, 15 *February*, 1888.

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of George Robert Edward Fergusson, of Currygundi, in the Colony of New South Wales, selector,—

SHOWETH :—

1. That your Petitioner, on the twenty-fourth day of August, one thousand eight hundred and eighty-two, applied to purchase, without competition, six hundred and forty acres of land, situate in the parish of Gin, county of Benarba, and Colony of New South Wales, under and in accordance with the "Crown Lands Alienation Act of 1861" and the various Acts amending the same, and the said application was duly approved of.

2. That your Petitioner, on the twenty-fifth day of August, one thousand eight hundred and eighty-two, applied for a pre-emptive lease of one thousand nine hundred and twenty acres adjoining his said conditional purchase, and the said application was duly gazetted and approved as granted in the New South Wales *Government Gazette* of the day of , one thousand eight hundred and eighty-three.

3. That your Petitioner occupied his said conditional purchase and pre-emptive lease from the dates of his said applications respectively, and fulfilled and performed all the conditions as required by the Acts and regulations relating to the sale of Crown Lands and pre-emptive leases respectively.

4. That the said conditional lease and purchase are only fit for grazing purposes and not for cultivation.

5. That on the first day of January, one thousand eight hundred and eighty-four, the "Crown Lands Act of 1884" became law, whereby all pre-leases then held under and by virtue of any Act then in force relating to sale of Crown Lands reverted to the pastoral holding.

6. That your Petitioner, on the seventeenth day of February, one thousand eight hundred and eighty-four, under and by virtue of the 54th section of the said Act of 1884, applied for a conditional lease of one thousand nine hundred and twenty acres of land, being the same land as was held by your Petitioner under the aforesaid pre-emptive lease.

7. That Mr. George Matchem Pitt, the Crown lessee of the pastoral holding out of which your Petitioner's application was to come, on the fourth day of February, one thousand eight hundred and eighty-four, forwarded to the Department of Lands the plan of subdivision of his pastoral holding or run, whereby the area applied for by your Petitioner as aforesaid was included in the leasehold area of the pastoral holding of the said G. M. Pitt.

8. That the said application by the said G. M. Pitt to subdivide his run was accepted by the Department of Lands as presented by the said G. M. Pitt.

9. That your Petitioner's application came before the Local Land Board at Moree on the day of October, one thousand eight hundred and eighty- , whereat the said G. M. Pitt attended and objected to your Petitioner's application on the ground that the area was included within the leasehold area of the pastoral holding, as appeared by the notification in the *Gazette* of the day of July, one thousand eight hundred and eighty-four.

10. That the said Local Land Board decided to grant your Petitioner's application, and the said G. M. Pitt appealed therefore to the Minister, but such appeal was dismissed.

11. That upon the granting of your Petitioner's conditional lease by the Local Land Board, your Petitioner entered into possession of the said land and fenced the same with a substantial fence, and proceeded to stock the said land and your Petitioner's conditional purchase with cattle.

12. That your Petitioner was advised by entering into possession of the said conditional lease and erecting fences thereon, and running his stock thereon, he was committing various acts of trespasses, and was therefore liable at law for damages, and your Petitioner would respectfully refer to the special case of Pill *v.* Parry, decided by the full Court sitting in Banco of the Supreme Court of New South Wales in support thereof.

13. That in consequence—and a necessary attendant to such advice as aforesaid—your Petitioner was compelled to sell the whole of his stock, and to allow his conditional purchase and pre-conditional lease to remain idle and unproductive.

14. That by the judgment *in re* Pill *v.* Parry, hereinbefore referred to, the land applied for therein —and being under exactly similar circumstances as detailed herein—was adjudged to be included in the leasehold area, and not the resumed area of the pastoral holding.

15. That on the sixteenth day of November, one thousand eight hundred and eighty-six, the said George M. Pitt commenced an action for trespasses alleged to have been committed on his said run, and being the land occupied by your Petitioner as a conditional lease as aforesaid.

16. That your Petitioner defended the said action, and incurred expense in so doing, and had to attend in Sydney for the purpose of attending the trial of the cause then pending between the said G. M. Pitt and himself, but the said action was settled.

17. That your Petitioner has incurred losses to the extent of five hundred pounds through being compelled to sell his stock at a loss of seventy pounds, and to allow his conditional purchase and lease to remain idle for a period of one year.

18. That your Petitioner has complied with the Act and regulations relating to conditional purchases and leases in every respect.

Your Petitioner therefore humbly prays that your Honorable House will be pleased to take into your consideration this his petition, and grant to your Petitioner such relief for the losses incurred by him as to your Honorable House may seem just.

And your Petitioner, as in duty bound, will ever pray, &c., &c.

G. R. E. FERGUSSON.

Dated this 18th day of January, A.D. 1888.

MRS. ANN ROUSE'S CONDITIONAL PURCHASE, PARISH OF KAHIBAH.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 25th October, 1887, "*with power to send for persons and papers to inquire into and "report upon all the circumstances attending the conditional purchase of Mrs. "Ann Rouse of* 80 *acres, situate in the parish of Kahibah, and the forfeiture of "the same,*" and to whom was referred on the 18th April, 1888, "*the papers "relating to the conditional purchase of Ann Rouse,*" and "*the applications of "Messrs. Houghton and Palmer to mine under Reserves at Kahibah,*" beg to report to your Honorable House:—

Your Committee, having examined the witnesses named in the List* (whose evidence will be found appended hereto), find as follows:— * See list, page 5.

(1.) That on the 20th July, 1871, Ann Rouse conditionally purchased 80 acres of land in the parish of Kahibah, county of Northumberland, and in 1874 the Government sent Mr. Surveyor Stuart to measure the land, and he reported the survey on the 26th January, 1875, which was approved on 20th September, 1875, four years after the land was selected.

(2.) On the 29th January, 1875, the conditional purchase was declared lapsed, owing to non-payment of interest and non-receipt of declaration.

(3.) On the 4th February, 1875, the said Ann Rouse re-selected the land by virtue of her freehold, on which she then resided, and on the 6th February, 1879, her second selection was declared void, as being on a water reserve.

(4.) Formal protests were made by the said Ann Rouse to the Lands Department against such voidance, and Mr. Secretary Copeland, after considering the case, wrote a minute on the 9th December, 1886, to the effect that he considered the case was one which should be validated under section 138 of the Land Act of 1884. This minute was written some nine years after the first selection, and over four after the second.

(5.) No further steps appear to have been taken by the Department until 31st July, 1886, when a lease of the land was granted to Messrs. Houghton and Palmer for coal-mining purposes, thus creating conflicting interests, which prevented Mr. Secretary Copeland's minute from being carried out.

Your Committee, having considered all the circumstances of the case, and in view of the improvements effected on the land—the extraordinary delay of the Lands Department in declaring the voidance of the selections—and that the said Ann Rouse and her heirs have been in undisturbed possession since 1871—strongly recommend her case to the favourable consideration of the Government.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

MRS. ANN ROUSE'S CONDITIONAL PURCHASE, PARISH OF KAHIBAH.

THURSDAY, 3 *MAY*, 1888.

Present:—

MR. BRUNKER,	MR. LEE,
MR. EWING,	MR. SYDNEY SMITH,
MR. THOMPSON,	MR. DAY.

G. DAY, ESQ., IN THE CHAIR.

Mr. Henry Rouse called in, sworn, and examined:—

Mr. H. Rouse. 3 May, 1888.

1. *Chairman.*] Where do you reside? At Redhead, near Newcastle.
2. What is your occupation? I am what is termed a yeoman, living on my own property and spending my own means.
3. Do you remember an application being made by Ann Rouse in 1871? I made an application in her name.
4. You made an application in her name for the right to purchase 88 acres of land, and tendered a deposit of £20 in accordance with the provisions of the law? I did.
5. Did you ever hear anything about the purchase before you got a letter from the Under Secretary for Lands? I heard nothing of the property until 1879.
6. Did not Mrs. Ann Rouse receive a letter from the Under Secretary on the 5th August, 1874? Yes; it was about the forfeiture.
7. It stated that the land was forfeited because she could not make the declaration? It did.
8. What did you do after that? Re-selected as a conditional purchase by virtue of the freehold that we were then residing on. We had spent something between £1,500 and £2,000 on the freehold. It was not voided until February, 1875. It was taken up as a free selection instead as an additional conditional purchase.
9. You heard nothing of the land after the second application was made until 1879? Not a sentence that I am aware of.
10. What did you first hear? That the Department had reserved the land for water purposes.
11. Did they refuse the application? They asked me to make out a claim for any improvements I might have made upon the land. I was in the hands of trustees, my mother having died. Mr. John Wood and Mr. H. J. Brown of Newcastle were my trustees. Mr. Brown was solicitor to the estate, and his reply was, "No; we will make no application. The land is freehold property. I do not think that the Government are entitled to take freehold property away from us without an Act of Parliament. We want compensation for the land and the coal that is underneath it." Matters have remained in that state until the present.
12. Did the Government take possession of the land? I have had possession ever since 1871. It is fenced in.
13. Have you had any communication from the Government since 1879? I have corresponded with them since 1879.

14.

Mr. H. Rouse. 3 May, 1888.

14. What has been the result of the correspondence? The last correspondence was to this effect—that the 80 acres was leased to Messrs. Houghton and Palmer, for coal-mining purposes. Most of the correspondence has taken place since the land was taken up for coal-mining purposes.
15. Did you get any reason from the Department? They said that it was taken for water purposes—that it was part of the Newcastle water reserve.
16. It was not part of the water reserve when you took it up? Not that I know of. We did not know that there was a water reserve there.
17. Was there really a water reserve? I do not think that it had been proclaimed a water reserve. In 1875 Mr. Secretary Farnell did not tell me that it was a water reserve. If he had thought that it was a water reserve he would not have given me the land. I saw him frequently about the matter. He said that the land must be voided, and that I could take it up as an additional conditional purchase by virtue of my freehold. He told me what section of the Act I could take it up under.
18. You would not be satisfied with a refund of the deposit money, the interest, and the cost of the improvements? No; I should like the property. The improvements have all been burnt down. The land that had been cleared is now covered with bush. Saplings a foot through have grown on it since 1879. The property is too valuable for me to take compensation for the improvements.
19. Have you paid up the interest? Up to the time that they gave me notice that they had taken it for water purposes. I have not paid interest since the 6th February, 1879.
20. If the land was a water reserve then, according to law, you could not keep it? I do not know whether it was or not. If I had thought that it was a water reserve, I should not have taken it up. They took my money for the land both in 1871 and in 1875. I think that Mr. Bowie Wilson was Secretary for Lands in 1871. But Mr. Farnell was Minister when I took the land up on the second occasion. I was with him every week for twelve weeks over the matter. He told me how to get it forfeited. When I saw notice of the forfeiture in the Court-house, at Newcastle, I immediately went in and paid a deposit of £20. Mr. Farnell told me afterwards that no one could take the land from me.
21. *Mr. Brunker.*] What was the area of your mother's freehold? 40 acres.
22. Does this land adjoin it? Yes; the Government sent a surveyor, Mr. Clarendon Stuart, in 1874 to survey the land.
23. You were not aware that it was a water reserve at the time the selection was made? No, else we would not have made it.
24. When did you receive the first intimation that it was a water reserve? In February, 1879.
25. What action did you then take? The Government then asked us to make out a claim for any improvements that might have been made on the 80 acres, but Mr. Brown, one of the trustees and solicitor to the estate, as I have already said, would not consent to their proposition.
26. Did you take any further action? I applied to Mr. Secretary Copeland, and he, after looking into the case, wrote a reply which you will find in the papers, saying that he could see no reason why under a certain section of the act the selection might not be validated. I wrote my application in September, but I did not receive a reply until January.
27. Why was that? My application was mislaid somewhere or other. He did not get my letter.
28. Had Messrs. Houghton and Palmer, any idea that the conditional purchase had been taken up by you before they made application for a lease of the land for coal mining purposes? They knew all about it. Mr. Palmer knew about it for years and years.
29. Who is he? He was a boundary rider for Mr. Merewether. I used to see him every day. He knew that I had possession of the land since 1871. It was fenced in and there was a hut and everything on the land. He said to me one day in Sydney "I see you have gone in for your land." "Yes, of course I have." I said, "I know you are going round selecting all the land you can get. I want only 80 acres." He said, "Our people have plenty of money. We want the land. Give us the first chance. We will give you more than anybody else." I said, "So far as I am concerned I will sell the land and the homestead too, because I want to make a change; but my trustees are the proper parties to deal with, make your bargain with Mr. John Wood and Mr. J. H. Brown." He said "Alright."
30. *Mr. S. Smith.*] When Mr. Secretary Copeland wrote his minute were there any conflicting interests in existence? No.
31. Palmer and Houghton had not applied for the land then for coal purposes? No.
32. *Mr. Ewing.*] Do you believe that the land that you took up in 1871 is not within the boundary of the reserve? No; because Mr. Surveyor Stuart told me that there were no objections to the deeds being made out. In 1874 he stopped at my mother's place. He surveyed the 80 acres first and the reserve afterwards.
33. Did the Government put you in possession of the land? We have kept possession of the land; we have never lost possession.
34. How long have you been in possession? I have not given up possession of the land from 1871 up to the present time.
35. How long did the Government allow you to be in possession? They have never given me notice to quit the land in any shape or form. It was forfeited on account of a mistake in the application. Mr. Gillies, who is called a long-headed Scotchman, said to my mother, "Mrs. Rouse, take my advice, apply for the 80 acres as an additional conditional purchase in virtue of your freehold, and I will measure it for you." He wrote out the application, but instead of it being for an additional conditional purchase it was for a free selection. I think it was Mr. Baker, a lawyer in Newcastle, who made the mistake. Mr. Stuart, when he was at my mother's place in 1874 said, "Now, Mrs. Rouse, I have surveyed your land. I have sent the document to the Government. You can apply for the deeds and get them as quickly as you like."
36. You stated that you are still in possession of the land; I asked you whether the Government had at any time interfered with you in possession, and you said "no," but it seems that the land has been cancelled? Forfeited.
37. That is the most practical interference that the Government could have with you? It was forfeited, and I took it up under another section. I applied for the land in 1874, and I was in occupation for four years before they gave me notice that they required it for water purposes.
38. *Mr. S. Smith.*] Were you informed by Mr. Stuart when he made the survey, that the land was within the water reserve? No; he surveyed all the water reserve after he had surveyed my selection. He was there for weeks after he had surveyed my selection.

William Henry Capper, Esq., called in, sworn, and examined :—

W. H. Capper, Esq. 3 May, 1888.

39. *Mr. Brunker.*] You are clerk in charge of the conditional sales branch in the Lands Department? Yes.

40. What do you know with regard to this case of Mrs. Ann Rouse? An application was made on the 20th July, 1871, by Mrs. Ann Rouse under section 13 of the Act of 1861, for a conditional purchase of 80 acres in the district of Newcastle. It was declared lapsed on the 29th January, 1875, for non-receipt of declaration and non-payment of interest. This action was taken with the concurrence of the parties interested. The land was re-applied for by Mrs. Ann Rouse, on the 4th February, 1875. The application was declared void on the 6th February, 1879.

41. Was that the first intimation they had between the receipt of the application and the voidance of the selection? Yes. Protests against the voidance were subsequently received, but it was upheld. These protests have recently been renewed. Mr. Secretary Copeland on the 9th December, 1886, wrote a minute to the effect that he thought the case was one which should be validated under section 138 of the Act of 1884.

42. *Mr. Ewing.*] What is the section? No. 138, it provides for the validation of selections taken up within reserves where the applicants have retained undisturbed possession for twelve months.

43. It is a "retrospective" section virtually? Yes, but it has no effect where there are conflicting interests.

44. Not as against the Crown, but as between individuals? Yes. And in the case now before the Committee, upon inquiry being made at the Mines Department, it was found that there were conflicting interests, and consequently Mr. Secretary Garrett, on the 20th September, 1887, decided that he could not validate it under that section.

45. You say that Ann Rouse first of all made application in 1871, and that it was declared forfeited in 1875. What was the Department doing in the interim? The Department was waiting for the selector to fulfil the conditions.

46. *Mr. Thompson.*] In what way? Residence and improvements.

47. *Mr. Ewing.*] But the selection was not forfeited for that reason? Yes; as well as for the reasons already given.

48. Then the reason it was declared forfeited was not because it was a reserve, but because the selector had not carried out any of the conditions? Exactly.

49. Suppose that she had carried out the conditions—how would the Department have stood then—she would have got the land? That I cannot say.

50. If you forfeited the selection because she did not carry out the conditions, and you say that the Department was waiting for her to fulfil the conditions, the inference is that if she had carried out the conditions she would have got the land? I should say so.

51. Does it not seem a strange thing to resuscitate the reserve after an action of that kind? No; because the second application was quite a new matter entirely.

52. The re-application was made on the 4th February, 1875. On the 5th September, 1875, the Department sent a surveyor in the employ of the Surveyor General to survey the land*? Yes; that is the date of the approval of the plan.

53. When were the parties first informed that they were in occupation of Crown Land? On the 6th February, 1879, when they received notice of voidance.

54. As far as the Crown was concerned the people apparently were in undisputed possession of the land for about four years? Yes.

55. You are aware that under the present act if a person has been in undisputed possession for twelve months his title is a good one? It is capable of validation.

56. It is reasonable to infer that had Mr. Secretary Copeland remained in office this particular selection would have been validated? The present Secretary for Lands would validate it if there were no conflicting interests.

57. From the tenor of Mr. Secretary Copeland's minute it would appear that had he remained in office he would have taken definite action in the matter? That I cannot say, as it has been shown recently that conflicting interests had arisen. The conflicting interests would have affected the late Minister in the same way as they have affected the present one.

58. These conflicting interests have only been in existence since the 31st July, 1886. Does it not appear a strange thing that they should override what previously was departmentally a good claim? I cannot admit that they had a good claim.

59. Apparently the Department considers that had not application been made on the 31st July, 1886, Mr. Copeland would have validated it? Yes.

60. And that Mr. Secretary Garrett, it would appear, would be willing to validate it only for the existence of these conflicting interests? Yes.

61. The simple accident of a man creating conflicting interests ruins what otherwise would be to the man a good case? Yes, so it appears.

62. *Mr. Brunker.*] Is there anything in the records of the Department that would lead you to believe that it was anything but *bonâ fide* selection? No. But if the conditional purchase were validated to-morrow the Department would at once set to work to ascertain if the conditions had been fulfilled; but as the selection was declared void the Department ceased to take any steps to investigate the fulfilment of the conditions.

63. *Mr. Ewing.*] It is the custom of the Department to take a retrospective view of cases of this kind? Yes.

64. *Mr. Brunker.*] Who was the first to survey the land? Mr. Stuart surveyed the land in virtue of the first application made in 1871.

65. When did he report to the Department? He reported on the 26th January, 1875, and his survey was approved on the 21st September, 1875.

66. He made a survey of the land between 1871 and 1875, and the survey was approved in 1875? Yes.

67. What do you mean by the survey being approved? The Minister or an officer deputed by him has to approve of all surveys.

68. Then on the forfeiture of the first selection was there a second survey made? No.

NOTE (*on revision*) :—Not so, no instructions were issued to a surveyor in connection with the second application.

W. H. Capper, Esq. 3 May, 1888.

69. How was the information first obtained by the Department that the first selection was within a water reserve? The question did not arise in connection with the first application but an explanatory memorandum was furnished by the Crown Lands agent in regard to the second application.
70. But he must have been put in motion by the Department? Yes. In the application lodged by Mrs. Ann Rouse there were particulars wanting as to the freehold. In fact sufficient information was not given in the application to identify the freehold. A copy of the original application was sent to the Crown Lands agent in 1878 to furnish particulars. Thereupon Mr. Lumsdaine furnished a memorandum dated 29th November, 1878, and upon that the deputy Surveyor-General recommended the application for voidance, on account of the land being within the Newcastle population reserve, and also within the water reserve.

MR. DAY,

MR. EWING, | MR. THOMPSON.

GEORGE DAY, ESQ., IN THE CHAIR.

William Henry Capper, Esq., called in, sworn, and examined:—

W. H. Capper, Esq. 16 May, 1888.

71. *Chairman.*] Was the second application made for this conditional purchase on the 4th February, 1875? Yes.
72. Was that application taken into consideration, and a surveyor sent to survey the land? No, a surveyor was never sent to measure it.
73. It was never measured after the second application? No, no steps were taken by any surveyor in connection with the second application.
74. *Mr. Ewing.*] You said that the Department never issued instructions to survey in connection with the second application? They did not.
75. Did they accept the deposit? The land agent did, of course, as he must do.
76. Did he accept it under protest? That I cannot say; I have nothing to show that he did.
77. You cannot say that it was not? I assume that it was not under protest.
78. They accepted the deposit, and the man went into occupation? I do not know anything about that.
79. You did not send a surveyor? No.
80. Do you mean that they intended to take no further action about it? No, certainly not. As I have already stated, the description was not sufficiently explicit and the land agent was asked for information regarding the freehold.
81. What steps did the Department take after accepting the deposit? The papers merely show that the matter was dealt with by a draftsman, on the 16th November, 1878.
82. About three years after it was taken up? Yes, and then he stated that he could not trace any freehold in the name of Ann Rouse, and suggested that the land agent might be able to give particulars.
83. From 1875 to 1878 the applicant did not know departmentally that the Government was not prepared to complete the bargain? No.
84. *Mr. Thompson.*] Does it not show also by memorandum number 10 in printed copy of papers that the freehold of Ann Rouse was discovered, and information given on the 29th November, 1878, as to that freehold? Yes, and upon that information the freehold was identified, and the position of the additional C.P. in virtue of it was located, and found to be in a reserve. Then the application was cancelled.
85. *Mr. Ewing.*] In the year 1878? Yes, on the 6th February.
86. *Chairman.*] Do you remember when the water reserve was proclaimed? No; but I can give you the date of the proclamation. It is dated the first January, 1867.
87. Was all the land embraced in this conditional purchase within that water reserve? Yes.
88. It was taken from the water reserve? Yes.*
89. And there has been no selection on that water reserve since then until now? Yes.
90. Have the selections been allowed? One has been validated by a special Act.
91. Which was that? One taken up on the 1st May, 1873, by Walter Baylis, portion 93.
92. *Mr. Ewing.*] On what ground was it validated? Because of its being within an area reserved from conditional purchase on account of the population of the City of Newcastle.
93. *Chairman.*] There is no reserve dated the 20th March, 1885. Yes; it is the population area. There is a water reserve proclaimed on the 1st. January, 1867, and a population area proclaimed on the 20th March, 1885.
94. *Mr. Thompson.*] Look at the letter dated the 16th May, 1873, from the land agent at Newcastle, and say whether there do not appear to be two conditional purchases dealt with there within the area? Yes; but one is cancelled.
95. Which is that? One taken up in 1873 by Daniel Cane.
96. And Alcock's, which was originally Baylis's was validated? Yes.
97. And is it not a fact that Baylis's consisted of portions 93, 55, and 56? Yes; but those others you have included now were made before the reserve was proclaimed.
98. Which? Numbers 55 and 56.
99. They were made then before the reserve was proclaimed? Yes. Number 56 was made in the year 1863, and number 55 was made in the year 1862.
100. How is it then that they are both included in the water reserve which was made in 1867. How did the Government come to make a proclamation of a water reserve which included land already alienated from the Crown? I cannot answer that.
101. But still it is apparent that these selections were taken up within the area of the reserve a year before the reserve ever was proclaimed? Yes; but this matter of Mr. Rouse's only dates from the year 1875. Mr. Rouse has no claim before that.
102. Apropos of that, will you find out the minute with regard to the validation of Baylis's conditional purchase amongst the papers? The following is the minute with reference to the validation of Baylis's conditional

* NOTE (*on revision*):—No; it was not taken from the water reserve, as the application was declared void on account of it embracing land within the boundaries of the reserve in question.

W. H. Capper, Esq. 16 May, 1888.

conditional purchase. It is dated the 5th January, 1877, and is upon a special report by Inspector George Smith, "It is respectfully recommended that this case be inserted in the schedule to the Bill now in course of preparation. Applicant has been for years allowed to remain in possession of the land and to make improvements on the faith of the promise of successive administrations that his holding should be legalised. As pointed out, the only conflicting claim is from a person who subsequently to such promise, and on the failure of certain proposed transactions between them, has applied for the land under mineral lease. The omission of the case from the former Bill by the Committee of the Legislative Council was based not on the superior merits of the conflicting claim but on the ground that such a claim existed. It is submitted that the case can only be dealt with by legislation. If the land possesses special value, that will be settled by appraisement." Sir John Robertson approved of that minute, and wrote, "This case should be included when the next Bill is brought in." Cane's selection was made on the 1st March, 1873, and cancelled on the 27th June, 1873.

103. *Mr. Ewing.*] The reason why Baylis received his land was that he had been in undisputed possession for a considerable time, was it not? Yes.

104. *Mr. Thompson.*] And always paid his money? Yes.

105. *Mr. Ewing.*] The same grounds may be urged in favour of this claim from 1875 to 1879? I am not prepared to say so.

106. *Mr. Thompson.*] Can you give us the particulars of number forty-nine? That was applied for by John Riley as a mineral conditional purchase, on the 3rd June, 1872, and transferred to Frederick Alcock on the 7th April, 1874. The land was also measured in 1862.

107. *Chairman.*] I suppose that number ninety-two was taken up at the same time? That appears to have been taken up by John Riley on the 3rd August, 1871, and transferred to Frederick Alcock.

108. *Mr. Thompson.*] Can you find number fifty-seven, Thomas Jarvis Alcock, 40 acres on the lagoon? That, it appears, was selected by James Parker, on the 4th September, 1862, and subsequently transferred to Thomas G. Alcock.

Mr. H. Rouse to The Secretary for Lands.

Sydney, 29 July, 1874.

Sir,

On the 20th day of July, 1871, my mother, Mrs. Ann Rouse, of Red Head, near Newcastle, selected a piece of land, adjoining her own freehold property, of 80 acres, under (as she thought) the 22nd section of the Crown Lands Alienation Act, and has made improvements thereon to the value of not less than £100. She now finds that the said land was applied for under another section of the Act.

She now therefore and hereby requests permission to amend her application for the said land, so as to fulfil the requirements under the aforesaid 22nd section of the said Act.

I have, &c.,
H. ROUSE,
Agent for the said Ann Rouse.

The Minister for Lands decided this morning that the purchase should be declared lapsed, as Mrs. Rouse cannot make the declaration required by the Act in consequence of her not having resided on the land.—30/7/74. A. Rouse, 5 August, 1874.

Sir,

My mother, Mrs. Ann Rouse, selected at Red Head, parish of Kahibah, near Newcastle, on the 21st July, 1871, 80 acres of land, under the 13th clause, and not having complied with the land regulations the same land by the Act will be declared forfeited. As agent for Mrs. A. Rouse I hope the land will be declared forfeited as soon as convenient to the Government.

No. 5.

Mr. Licensed-Surveyor Stuart to The Surveyor-General.

Sir, Camp, Teralba, 26 June, 1875.

I do myself the honor to transmit to you a plan of Ann Rouse's 80-acre A.C.P., No. 121.

Though now within the Newcastle water reserve, I presume that at the date of application, and from the number of surveyors hands it has been through, it was then unobjectionable. I have therefore measured it subject to your approval.

The improvements, consisting of hut and fencing, I value at £46.

I have, &c.,
CLARENDON STUART,
Licensed Surveyor.

P.S.—The applicant is resident.—C.S.

Ask Mr. L.-S. Stuart why he left the road, &c.; also, why he stated on plan that the portion was applied for under the 21st clause.—J.H.C., 19 August, 1875. Dealt with in charting branch. The conditional purchase is within water reserve, notified 1st January, 1867, and also now within the population reserve around Newcastle.—J.H.C. Call the portion No. 221, and inform Mr. L.-S. Stuart to that effect.—H.C.

D.-S. General,—Mr. L.-S. Stuart draws attention to the fact of the portion being measured within water reserve notified 1st January, 1867, but he has overlooked the fact of it being also within population reserve around Newcastle.—J.H.C., 21 September. Shall he be paid for survey?

Conditional purchase application is noted forfeited. Papers may be placed at records after the D.-S. General has seen my memo. of to-day's date.—J.H.C., 21 September, 1875. Measurement should be paid for, as the application was made before the extension of the population boundary.—R.D.F., 5 October, 1875. Papers may be placed away, as the portion, although measured, will not be offered at auction sale.—J.H.C., 5 October, 1875.

Mr. H. Rouse to The Under Secretary for Lands.

Sir, Newcastle, 11 August, 1875.

I have received your letter of the 5th, in answer. I am sorry the Minister could not allow the alteration to be made, inasmuch as all the money had been duly paid. I suppose the deposit will have to be forfeited. The balance (£61) I hope will be returned at your earliest convenience, and placed to the credit of Ann Rouse or myself in the Bank of New South Wales, Newcastle.

By so doing you will oblige.

On behalf of Ann Rouse we have the honor to request that you will grant a refund of deposit paid by our client on the conditional purchase noted in margin. This land was taken up in 1871, but was not surveyed until the latter end of last year.

Ann Rouse, 21st July, 1871, at Newcastle.

Declaration of Conditional Purchaser.

(C.P. No. 75-1.) D. [Alienation Act.]

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861 (25 Vic. No. 1.)

I, JOHN WOOD, of Newcastle, wine merchant, do solemnly and sincerely declare that I am one of the trustees and executors of Ann Rouse, who died the lawful owner, by conditional purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of house, fencing, and orchard, and to the value of £500, have been made on the original selection adjoining (see 39 Vic. No. 13/8/22). The said Ann Rouse died on 17th March last. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

JOHN WOOD.

Taken and declared, at Newcastle, this 6th day of May, 1878, before me,—

ALEX. LUMSDAINE, Commissioner for Affidavits.

Description.

No. 1, and alienated to Ann Rouse aforesaid (entered in error by late L.A. as Henry Rouse, a son of said Ann Rouse), then a widow, on 23rd October, 1866, who, by payment of the balance of purchase money thereon, rendered it a freehold*, and who, in virtue thereof, and consequently under section 22* of aforesaid Act selected the 80 acres referred to in the amended paper,—a prior selection by her of same area, and identical therewith, having been cancelled, &c. (See *Government Gazette* in 75/30.)

No. 14.

Mr. H. J. Brown to The Chief Commissioner.

Sir, Newcastle, 12 February, 1879.

Referring to your communication of the 6th instant, addressed to the late Mrs. Ann Rouse, informing her that her conditional purchase of 80 acres of land, made on the 4th February, 1875, is void, as the land is situate within the Newcastle population reserve, I have the honor to state, on behalf of the executors and trustees of the will of Mrs. Rouse, that the land in question is situated 7 miles from the extreme boundary of the city of Newcastle, the population of which, according to the last census, was considerably under the prescribed number of 10,000, and was therefore open for selection, under the 13th section of the Crown Lands Alienation Act of 1861, and to purchase under the 22nd.

I may mention that at least £200 have been spent on the land, and that, in compliance with notice from the Government, interest has been paid on the balance of purchase-money, the whole of which would have been paid but for the fact that the will, not having been proved, the executors were not in a position to do so, which they are now prepared for.

I have, &c.,
HENRY J. BROWN.

The C.P. has been correctly declared void. The population reserve of Newcastle extends 5 miles, in a *direct line* southerly as far as Red Head, and includes the land applied for.—T.S. (for Surveyor-General), 27 March, 1879.

No. 15.

The Chief Commissioner to H. Brown, Esq.

Department of Lands, Conditional Sales Division,
Sir, Sydney, 24 April, 1879.

Adverting to your letter of the 12th of February last, on behalf of the executors of the late Mrs. A. Rouse, relative to the cancelled selection quoted in the margin, I have to apprise you that this purchase has been recently declared void, the population reserve of Newcastle extending 5 miles in a direct line southerly, as far as Red Head, including this land applied for.

Newcastle, C.P 75-1; Mrs. A. Rouse.

I have, &c.,
A. O. MORIARTY,
Chief Commissioner.

No. 16.

Mr. H. Rouse to The Secretary for Lands.

Sir, Red Head, *via* Charlestown, September, 1886.

On the 20th July, 1871, I, as agent for my mother, the late Ann Rouse, selected 80 acres of land adjoining her freehold selection, portion 21, parish Kahibah.

In January, 1875, it was surveyed by Mr. Stuart, Government Surveyor, who made the selection 79 acres, the land at the time being outside the population boundary.

On

On applying for the deeds I found that the application was a free selection in place of an additional purchase to the selection my mother was at the time living on.

I may state that my mother expended in buildings, orchard, and fencing, upwards of £1,500.

I applied to the Lands Agent, Newcastle, for the necessary papers for my mother to sign; on finding a resident clause in the declaration my mother would not sign, not actually living on the selection.

I then went to Sydney, and had a personal interview with Mr. Farnell, then Minister for Lands; his advice was to get the selection forfeited and reselect under the clause he then read to me.

After a short time the selection was cancelled in 1875. (See *Gazette* No. 303.)

I then reselected, on 4th February, 1875, and paid another £20 as an additional purchase, in virtue of her freehold portion 21, parish Kahibah.

I also paid interest on the land from the 4th February, 1878, to the 3rd February, 1879.

After paying the interest I received notice that the land was resumed on the 6th February, 1879, for water purposes.

I also wish to state that the land at the second time of selection was outside the population boundary.

About 60 acres were fenced—a two-railed split, substantial, and capping in some parts; also a two-roomed slab hut, shingled; and about 6 acres felled and cleared,—the cost being at least £200.

The last time Mr. Farnell held office as Minister for Lands I spoke to him about the land and the fix I was in on account of the land being reserved as a watershed. Mr. Farnell's advice was, as the Government had gone to Maitland for their water supply, to get the reserve revoked; then put an application in for the land, having a prior claim, and he could not see what would stop me from securing it.

My mother died on the 17th of March, 1878, willing the proceeds of her property to myself, her only son; at my death the property will then fall into the hands of my four daughters. Mr. John Wood, spirit merchant, and Mr. H. J. Brown, solicitor, both of Newcastle, are the trustees. I am now acting in their behalf.

I am, &c.,

HENRY ROUSE.

Submitted as to whether, under the circumstances stated, the C.P. of 1875 may be validated under section 138 of the Act of 1884, provided that clause be deemed to include cases where residence has been complied with on the adjoining area held in connection with such C.P., and subject to the report of the Local Land Board as to the land not having been claimed in a lawful manner by anyone else since the date of voidance, and to its not being required for public purposes.—S.F., 9/12/86.

I think this is a case that can and should be validated under the 138th section, provided that no conflicting interests have arisen.—H.C., 9/12/86. Mr. H. Rouse informed, 15 December, 1886.

Sir, Department of Lands, 15 December, 1886.

C.P. 75-1, Ann Rouse, 4th Feb., 1875, 80 acres, Newcastle.

I have the honor to acknowledge receipt of your letter of September last, respecting the voidance of the conditional purchase quoted in the margin, and to inform you that the Secretary for Lands has approved of this conditional purchase being validated under the 138th section of the Crown Lands Act of 1884, subject, however, to the report of the Local Land Board, as to the land not having been claimed in a lawful manner by anyone else since the date of voidance, and to its not being required for public purposes.

Mr. H. Rouse to The Chairman, Local Land Board, Maitland.

Sir, Newcastle, 5 February, 1887.

C.P. 75-1, Ann Rouse, 4th Feb., 1875, 80 acres, Newcastle.

I have the honor to communicate with you with reference to the land as mentioned in the margin of this communication.

As I am only acting in the capacity as a life legatee, and as it is in the interests of my family alone, I wish to express my desire that your local Land Board, of which you are the head, will cause an inquiry to be held at the earliest opportunity, so that I may be prepared with my witnesses, &c.

Mr. John Wood, one of the executors of my late mother's estate, is shortly leaving for England, and it may be some considerable time before he returns, and as he is in possession of all the facts of the case it is both his wish and my wish that the matter should be settled prior to his departure.

Would you therefore kindly press this matter on as an urgent one, as Mr. H. J. Brown, the other executor in the estate, is willing to give his assistance in furthering the inquiry.

I shall be happy to suit your convenience as to whether the inquiry shall be held in Newcastle or Maitland, but as my witnesses are domiciled in Newcastle and its immediate surroundings, and it would suit my convenience and my witnesses if the inquiry were held in Newcastle so as to save unnecessary time, trouble, and expense.

I have, &c.,

HENRY ROUSE.

The District Surveyor will be good enough to report.—JAS. VERNON, Chairman. East Maitland, 8 March, 1887.

The Chairman,—There does not appear to be any other application for this land, but an authority, No. 352, under which permission to mine for coal, in terms of section 28 of the Mining Act of 1874, has been granted to Victor Thomas, Sherbrooke, Houghton, and Samuel Palmer, for certain lands, of which this portion forms a part. Memo. from The Under Secretary for Lands to The Chairman, Local Land Board, Maitland.

THE enclosed papers, referring to the C.P. noted in the margin, are forwarded to the chairman of the local Land Board, Maitland, with a view of ascertaining whether there are any conflicting interests before validating the C.P. in question.

The Chairman,—Since writing the above a letter has been received from the Land Agent at Newcastle stating this land has been applied for as a mineral lease. No. of application, No. 87–2; date of application, 17th January, 1887; area, 79 acres; No. of portion, 221; parish of Kahibah, county of Northumberland.—J. WITTEN ALLWORTH, 10 March, 1887.

No other interest has arisen with respect to this land than those referred to by the District Surveyor.—JAS. VERNON, Chairman, L.B., Maitland, 12 August, 1887. The Under Secretary for Lands.

No. 20.

Mr. H. Rouse to The Under Secretary for Lands.

Sir,

Redhead, *via* Charlestown, 13 July, 1887.

The Land Board held here last week did not think it advisable to take my claim into consideration from the fact that the chairman, Mr. Vernon, could do all that was required.

Mr. Vernon gave me to understand that he would send his report to Sydney after his return to Maitland.

You will please let me know if such report has been received at your office. I should like to go to Sydney and get the matter put through with the assistance of my solicitor, Mr. Merriman. Please let me know.

Yours, &c.,
H. ROUSE.

Mr. Fletcher, M.P., brought Mr. Rouse here some six or seven months back in reference to a void C.P. at Redhead, near Newcastle, and the case was remitted to the Board. Please let me know how the matter stands.—S.F., 14/7/87.

Inform that the case has not yet been returned.—S.F., 14/7/87.

Would you be good enough to send in the report as speedily as possible, as Mr. Rouse is continually urging me on the subject.

I have, &c.,
HENRY J. BROWN.

Mr. Brown may be furnished with a copy of the letter written by his co-executor, and informed at the same time that the case has been this day returned with the required report to the Under Secretary for Lands.—JAS. VERNON, Ch., L.B., 12/8/87. Mr. Fitzpatrick.

ROBERT MACKRELL'S CONDITIONAL PURCHASE AT FORBES.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 8th of November, 1887, "*with power to send for persons and papers, to inquire into "and report upon the case of a selection at Forbes, made in* 1878 *by Robert "Mackrell, and now recommended for forfeiture, and all circumstances con- "nected with the fulfilment of conditions,*" and to whom was referred on the 11th November, 1887, *the Minutes of Proceedings of, and Evidence taken before the Select Committee on this subject during last Session*, and to whom was also referred on the 24th November, 1887—"*a petition from Edward Henry Moulder*—have agreed to the following Report :—

Your Committee, having carefully considered the evidence referred to them, which is appended hereto, find as follows :—

(1.) That Robert Mackrell selected 100 acres on the 7th March, 1878, and commenced to reside thereon within the time required by law, and that he effected the required improvements and otherwise complied with the terms and conditions of the Lands Act.

(2.) That the said Robert Mackrell transferred the said conditional purchase to William Peters on the 21st October, 1879.

(3.) That William Peters resided upon the said conditional purchase until January, 1881.

(4.) That William Peters transferred the said conditional purchase to Henry Alexander Richards on the 15th December, 1880.

(5.) That Henry Alexander Richards commenced to reside upon the said conditional purchase in January, 1881, when after residing a few days Mrs. Richards was taken seriously ill; he then left and accompanied her to Melbourne and Sydney for medical advice. Mrs. Richards has since died.

(6.) That Henry Alexander Richards made an additional conditional purchase of 500 acres on the 13th January, 1881.

(7.) That Edward Henry Moulder, the Lessee of the Run upon which the Selection is situated, made, on the 10th July, 1885, a statutory declaration that he was desirous of prosecuting a complaint before the Land Board at Condobolin as to the fulfilment of conditions by Henry Alexander Richards and William Peters, but he did not appear to give evidence.

(8.) That the said Edward Henry Moulder caused a petition to be presented to the Assembly, praying that he might be permitted to appear before your Committee by Counsel or otherwise, and that your Committee gave due notice of the date of the meeting of the Committee, but the said Edward Henry Moulder did not appear to give evidence.

That your Committee, having carefully considered the facts of the case, as shown by the evidence before them, recommend that the conditional purchase should not be forfeited.

Stephen Freeman, Esq., called in and examined:—

S. Freeman, Esq. 8 June, 1887.

1. *Chairman.*] You are Assistant Under Secretary for Lands? Yes.
2. Do you produce the papers in reference to this case? I received notice to produce the papers and give evidence with respect to this case. The papers are not yet forthcoming, a search is being made, and I have no doubt that during the day we shall get them.

THURSDAY, 9 *JUNE*, 1887.

Present:—

MR. COOKE, MR. DAY, MR. MATHESON.

R. M. VAUGHN, ESQ., IN THE CHAIR.

Mr. Wm. Hy. Capper called in and examined:—

Mr. W. H. Capper. 9 June, 1887.

3. *Chairman.*] What is your position in the Department of Lands? I am Clerk in charge of the conditional sales branch.
4. Do you produce all the papers in connection with Mackrell's selection? Yes. [*Handed in. See Appendix A.*]
5. When did Mackrell make the selection? On the 7th March, 1878, he selected at the Land Office in Forbes 100 acres in the county of Dowling, parish of Wardry.
6. Did he select any additional land? There was an "Additional" but he did not select it. On the 21st October, 1879, Mackrell transferred his selection to William Peters, who transferred it on the 15th December, 1880, to Henry Alexander Richards.
7. Who took up the "Additional?" Richards selected an "Additional" of 500 acres, on the 13th January, 1881.
8. Had Mackrell complied with all the conditions before he transferred to Peters? Under the old Acts a selector could transfer at the end of a twelvemonth, but he made the transfer at his own risk. Mr. Inspector Franks visited this selection on the 11th May, 1883, which was a long time after Mackrell transferred it to Peters. Mr. Inspector Page reported about that time "The selector has been continuously resident on the selection, and is at the present time making it his *bonâ fide* home." The Inspector spoke

Mr. W. H. Capper. 9 June, 1887.

spoke only of the residence of Mackrell. There was information wanted as to the residence of Peters and Richards, and so the case was sent on for inquiry. Mr. Commissioner Street held an inquiry into the matter on the 8th July, 1884. He examined the Inspector, Richards, and Mackrell, and submitted the evidence to the Minister.

9. Did Mr. Moriarty then recommend a rehearing of the case? Yes; on the 30th October, 1884.

10. Did the Minister approve of his recommendation? Yes.

11. And in the meantime the Act of 1884 was passed? Yes.

12. Was the case afterwards heard before the Local Land Board? Yes, on the 1st of April, 1885. Their decision was as follows: "That Henry Alexander Richards only resided three days out of eleven weeks and five days during which he should have been on this selection—that the nature of the money transactions between the parties is of the most doubtful character—and that the original selector never ceased to reside upon the conditional purchase, and is at the present time the holder of a publican's license there. The position of Peters—a labourer—does not warrant us in believing that the transaction testified to by selector ever took place. We desire to leave this case in the hands of a Minister." Upon this recommendation Mr. Acting Secretary Wright wrote this minute on the 15th June, 1885: "I do not consider this case altogether satisfactory, but in view of the date of the selection I do not think there is sufficient evidence to warrant forfeiture."

13. What action was taken then? A letter dated the 3rd July, 1885, was received from Mr. W. G. Freeman, acting as agent for Mr. E. H. Moulder, lessee of the run on which the selection was made, in which he requests that the issue of the certificate be deferred pending the prosecution of complaint before the Local Land Board, notice of which had been lodged with the Local Land Agent upon the prescribed form.

14. Was any action taken upon the letter? Mr. Secretary Farnell minuted it to this effect: "The final action of decision already given may be suspended pending further inquiry by the Local Board."

15. What was the result of the minute? All the papers in connection with the case were referred to the Local Land Board. The Board instituted an inquiry at Condobolin, on the 13th February, 1886. Evidence was taken, and they recommended to the Minister that the selection be forfeited.

16. What action did the Minister take on the report? On the 11th March the Minister approved of the forfeiture of the selection, upon the recommendation of the Under Secretary.

17. On what grounds did the Department oppose the selection? Being a conflicting case, I presume that they decided it upon the evidence which was taken at the different inquiries, and on account of the non-residence for that short time. The Department does not require a selector to live on his selection from day to day, but when complaints are made, and the law is put in operation by an adverse party, it must be administered according to the letter.

18. Is there any circumstance which would warrant a selector in leaving his selection? Certainly.

19. Does the Department recognize the severe sickness of a selector's wife as a reason why he should leave the selection, in order to get medical advice for her? Any tribunal in the world would, I should think.

20. Do you hand in a copy of a letter, dated 23rd November, 1886, from Mr. W. G. Freeman, Mr. Moulder's agent? Yes. [*Handed in*].

21. *Mr. Day.*] How long is it since this selection was forfeited? It is not yet notified as forfeited. The Minister has approved of the forfeiture of the selection, but the case has not gone before the Executive Council yet.

22. There is no conflicting interest now between the Government and any other person in regard to this land? No.

23. *Mr. Cooke.*] No one but Mr. Moulder is opposed to Mr. Mackrell's claim? No.

24. *Mr. Day.*] There is nothing to prevent the Government from granting the selection to Richards? No.

25. No compensation would be payable to any one? No.

Henry Harry Cooke, Esq., M.P., sworn and examined:—

H. H. Cooke, Esq., M.P. 9 June, 1887.

26. *Chairman.*] You are one of the Members for Forbes in the Legislative Assembly? Yes.

27. Do you know Wardry Run? Yes; Mr. E. H. Moulder is the lessee.

28. Is Wardry the run upon which Mackrell's selection is situated? Yes.

29. Is the selection on the resumed area or the leasehold area? I do not know.

30. Do you know a storekeeper named Richards in Condobolin? Yes.

31. Is he still residing there? I believe so. He was carrying on business there in February last. I know, too, that his wife is dead.

32. Do you know that Mrs. Richards died from the illness which she was suffering from when her husband took her away from the selection to Melbourne for medical treatment? I do not know. I know that she has died since he left the selection on that occasion.

33. *Mr. Day.*] For how long have you known Condobolin? A long time; off and on about 16 years.

34. Was there a medical man there when Mr. Richards took his wife away for medical treatment? There was no medical man there in 1881. There is a qualified doctor there now.

35. *Mr. Matheson.*] Is Richards a large or a small storekeeper in Condobolin? He is one of the largest in the town.

Present:—

MR. COOKE, | MR. STOKES.

R. M. VAUGHN, ESQ., IN THE CHAIR.

Mr. Hy. Alex. Richards sworn and examined :—

36. *Chairman.*] What are you? I am a storekeeper in Condobolin.

37. Did you purchase some time since from one Peters a selection which was formerly taken up by Robert Mackrell? Yes, in December, 1880.

38. Did you reside on it? I started to do so in January, 1881.

39. How long were you on it? We lived there only a few days. My wife was taken ill on the selection and I had to take her away to Melbourne for medical treatment, because there was no doctor nearer than in Forbes.

40. How long were you in Melbourne with your wife? We did not start for that city until February. I did not return to Sydney until the beginning of March.

41. Did your wife see a doctor in Melbourne? She was under the care of two doctors—Dr. Smith and, I believe, Dr. Yule.

42. Was your wife still ill when she returned to Sydney? She never had good health afterwards; she was under the care of Dr. Morphett, Dr. Jones, and other doctors here.

43. Did she die from the illness which she was suffering from when she went to Melbourne? It was the main cause of her death; she died last year.

44. Did you have any transactions with Peters before you bought the selection from him? I never saw him until he offered to sell his selection to me; he said that he wanted to leave the district.

45. Did you know anything about his position at the time? No. I have learned since that he sold a selection of 300 or 400 acres in Gulgoa to William Richards before he bought this particular selection; it took place some fifteen or eighteen months before he came to me.

46. Did you know as a fact that he had means at the time? Yes.

47. Mr. William Richards is a relation of yours? No; I come from Austria; he comes from Parramatta.

48. *Mr. Stokes.*] Had the time for the fulfilment of residence expired when you returned from Melbourne? Yes, it expired on the 7th March.

49. On what date did you return? It was about the middle of the second week in March.

50. *Chairman.*] Was your wife well enough then to reside on the selection? Yes, but we returned too late from Melbourne.

51. You do not know where Peters is now? No. I tried to find him in February last. I heard that he was in the Bourke district, but the police could not find any trace of him there.

52. Did Peters hold the selection for you as a dummy? No. I did not know him until September or October, 1880, when he asked me to buy the selection.

53. You have resided for a long time in Condobolin? Yes, about eleven years.

54. You are sufficiently acquainted with local affairs not to buy a dummy selection? Yes; I would not have had anything to do with it if I had thought that it was a dummy selection.

55. Did Mackrell first take up this selection? I remember that he took up one when he first came there.

56. Has he resided there ever since he took it up? Yes, except when Peters had the transaction with him; he had possession of the selection for seven or eight years altogether. When he transferred it the condition of residence had been fulfilled, with the exception of eleven weeks.

57. When you went on the selection in January, 1881, was your wife with you? No.

58. Was there any special reason to prevent her from accompanying you? She had the measles; it was the beginning of her sickness. I should explain that I did not actually go on the selection then, owing to the first creek which I reached being flooded. It was impossible for me to cross, and I had to return. I went back in February, when the floods were down, with my wife, and we resided on the selection.

59. When did the time for the fulfilment of the condition of residence on the original selection expire? In 1881.

60. When was the objection to your title first raised? It was at the end of 1884; Mr. Street held an inquiry there about that time.

61. If you had paid £60—the balance of the purchase money on the original selection—at any time between 1881 and the end of 1884, you would have got your certificate of conformity? Certainly.

62. Was Mr. Moulder the owner of the run on which the selection is situated at the time you purchased it? No.

63. Did he purchase this run shortly afterwards? In 1884.

64. Had any complaint been made prior to that time with regard to the non-fulfilment of the conditions of residence by any selectors upon the run? No.

65. As soon as he purchased it did he begin to lay complaints against not only yourself but other selectors? Yes.

66. *Mr. Stokes.*] Did you reside on the land between December, 1880, and March, 1881? I went on the selection in February, 1881, with my wife, with a full intention to live there as a *bona fide* selector.

67. *Chairman.*] Who appeared for Mr. Moulder at the inquiry before the Land Board? Mr. M'Lachlan, of Orange. He is a solicitor of great repute.

68. What relation does he bear to Mr. Moulder? He is a brother-in-law.

69. What is the distance between Orange and Condobolin? 140 miles.

70. Mr. Moulder could have got a solicitor nearer than in Orange? There are more than three or four solicitors in Forbes; it is only 60 miles from Condobolin.

71. Do you know that Mr. M'Lachlan is the mortgagee of this run? Yes; by repute. I know that if there are any big transactions in the way of cheques or bills he has to back them.

72. He generally acts as if he is interested in the run? Yes.

73. Did he visit Condobolin on two occasions when this case was before the Land Board? Yes.

74. *Mr. Stokes.*] Did you pay his costs on any occasion? Yes; on the 13th February, 1886. The Chairman said that I would have to pay his costs—namely, £22, but Mr. M'Lachlin of his own accord came to me and said that the amount was too much. He asked for £16, which I paid to him. 75.

Mr. H. A. Richards. 16 June, 1887.

Mr. H. A. Richards. 16 June, 1887.

75. *Chairman.*] As the costs of one visit? Yes; it was to postpone the case so that I might have an opportunity to engage a solicitor.
76. Did you pay any other costs to him? No; only the costs of that day's visit.

Mr. Thomas Winters sworn and examined:—

Mr. T. Winters, 16 June, 1887.

77. *Chairman.*] What are you? I am a selector residing at Kiaccatoo.
78. Do you remember Peters living in Warby's hotel? I saw him there in 1880.
79. On more than one occasion? Yes, several times.
80. Was he a selector? I know by repute that he was one.
81. How far do you live from the hotel? Five miles, on the northern side of the river.
82. Were you at Warby's hotel casually? I used to pass the place often. I have seen Peters there when I have called.
83. Do you remember a transaction between Peters and Mackrell? I have heard of it.
84. Did you know Peters? Yes, well.
85. Did you think at the time that he had money to buy a selection? I should think so. I know that he had just sold a selection in order to purchase one on the Gulgoa from Mackrell.
86. You know only by repute that Peters bought his selection? That is all.
87. *Mr. Cooke.*] When did you first hear of it? During 1879.
88. *Chairman.*] As far as you know the transaction between Mackrell and Peters was a *bona fide* one? I know nothing but by report. I believe that it was a genuine transaction.
89. Did Peters leave the district immediately after he sold his selection? Yes.
90. Have you ever seen him since in the district? No. I know that he left the district, but I do not know the time.
91. Did Moulder prosecute at the time any other selectors besides Richards for non-residence? Yes.
92. Who? Jeremiah Higgins, R. M'Lean, and, I believe, — Lewis.

Copies of Papers C.P. 78-51, and A.C.P. 81-5. District of Condobolin, Robert Mackrell, now H. A. Richards.

REPORT by Joseph C. Page, Inspector of Conditional Purchases, respecting the selection of Robert Mackrell, made at Forbes on 7th March, 1878.

Sir, Young, 24 May, 1883.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 11th instant, and that I found the selector then resident upon selection.

The land, which consists of plain, and comprises 100 acres, is occupied and used by selector as his home, and the selector, who follows the avocation of innkeeper, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

	£	s.	d.
9-roomed sawn slab house, floored, galvanized iron roof, and verandah	250	0	0
1-roomed kitchen, shingled roof	50	0	0
Stable, hay-shed, milking yard	50	0	0
30 ft. well, slabbed	20	0	0
2½ acres cleared and under crop, and fenced	20	0	0
3½ acres vegetable and fruit garden, and fence	50	0	0
1 mile two-rail split fence	60	0	0
	£500	0	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection, and is at the present time making it his *bona fide* home.

I have, &c.,
JOSEPH C. PAGE,
Inspector of Conditional Purchases.

The Chief Commissioner, Department of Lands, Sydney.

The Inspector only speaks of the residence of Robert Mackrell. There is information wanting as to the residence of W. Peters and H. A. Richards.—(For Commissioner), F.T., 13/10/83.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and, to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Notification of Alienation of Conditional Purchase under the Crown Lands Alienation Act of 1861.

Notification of Alienation of Conditional Purchase by Robert Mackrell, in the District of Forbes.

I HEREBY notify to you, as the Agent for the Sale of Crown Lands for the district of Forbes, that I have (after a residence thereon of at least twelve months) this day alienated to William Peters, of Condobolin, the 100 acres of land, situated in the county of Dowling, which I selected at Forbes as a conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, on the 7th March, 1878.

Dated at Forbes this 21st October, 1879.
To the Agent for the Sale of Crown Lands at Forbes.

I HAVE duly registered the above notification of alienation in the records of this office.

STEPHEN FREEMAN,
Agent for the Sale of Crown Lands.

District of Forbes, Land Office, Forbes, 25th October, 1879.

Mr. Licensed-Surveyor Menzies to The Surveyor-General,

Sir, Burwood, 26 September, 1878.

I have the honor to transmit herewith the plan of one portion of land, containing 100 acres, numbered 11, in the parish of Wardry, county of Dowling, applied for by Robert Mackrell, under the 13th section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions, not yet received.

The land was applied for at Forbes.

The applicant was residing on his selection on date of survey.

The tree shown on plan as marked with ⅄ (and horseshoe on four sides) is supposed by the lessee to be at the corner of Wardry Run; it is about three quarters of a mile from the river. This would, I presume, if it be the case, make the description of the water reserve correct.

I have, &c.,

I am, &c.,
ROBERT MACKRELL,

To the Agent for the Sale of Crown Lands at Forbes.

DESCRIPTION.

County of Dowling, parish unnamed, 100 acres, Wardry or Gobothery Run, north of and fronting the main down river road, and east of and adjoining water reserve 788. Being about 30 chains east of the western boundary of the run.

REPORT of an inquiry held at Condobolin on the 8th July, 1884, by P. Wood Street, Commissioner for the Western Division, respecting the Conditional Purchase of Robert Mackrell, made at Forbes on the 7th of March, 1878. Transferred to William Peters, 21/10/79. Transferred to Henry Alexander Richards, 15/12/80.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the *Gazette* of the 4th of February, 1884, in the matter of the above-described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz.:—That the Inspector visited this conditional purchase on the 11th May, 1883, and on previous occasions; Mackrell was resident on each occasion; he never saw Peters or Richards upon it; knows Richards to be a storekeeper at Condobolin and to have been living there for eight years; and found improvements of the value of £500. From the evidence of Mackrell, fully substantiated by that of the Inspector, I have no doubt he complied with the condition of residence up to the time of transfer to Peters, whose *bona fide* and continuous residence upon the selection after it became his is very doubtful. I do not believe Richards resided on it for more than the time stated by himself and by Mackrell. At the time Peters transferred this conditional purchase to him less than three months of the term required for residence remained, and of this he resided on it for only three days. He states he had to go to Melbourne about this time and returned in April, 1881. Under the circumstances, and considering the valuable improvements effected, I am of opinion his absence may be condoned. Mackrell and Peters appear to have, if the evidence is correct, resided two years and ten months.

I have therefore to report that I find such conditions to have been fulfilled, and to recommend that this conditional purchase be upheld.

I have, &c.,
P. WOOD STREET,
Commissioner.

The Chief Commissioner (Conditional Sales Division), Department of Lands.

It does not appear satisfactorily that the conditions of the law have been fulfilled *bona fide*, and I think it advisable that the inquiry should be resumed to elicit more detailed evidence as to the residence of Peters and his connection with the conditional purchase and the other respective holders. In particular it is desirable that evidence should be given in detail as to the transactions between Mackrell and Peters, and the latter and the present claimant, which led to the several transfers.—A.O.M., 30/10/84.

Approved—J.S.F., 6/11/84.

[*Enclosure.*]

Joseph Cope Page, on oath, states: I am an Inspector of conditional purchases; I inspected the conditional purchase now the subject of inquiry, on the 11th of May, 1883, and on previous occasions; the selector, Robert Mackrell, was resident on each occasion; I never saw William Peters on it; I never saw Henry Alexander Richards on it; I know him; he is a storekeeper, and resides in Condobolin; I have known him to be living in Condobolin, and keeping a store there, for eight years; I found improvements of the value of £500, as detailed by me in my report of the 24th of May, 1883.

By the Claimant, H. A. Richards: I did not visit this selection during the time Peters held it; I do not know that it was transferred from Peters to you; I do not know that it was transferred by Mackrell to Peters.

By the Commissioner: I have passed this selection once a year since the date of selection, but did not call at the house; Peters or Richards may have been in the house; I had no intimation from the Department of Lands of this conditional purchase having been transferred to either of them.

JOSEPH C. PAGE.

Sworn before me, at Condobolin, this 8th day of July, 1884,—
P. WOOD STREET, Commissioner.

Henry

Henry Alexander Richards, on oath, states: The selection now the subject of inquiry, was transferred to me in January, 1881, by William Peters; to the best of my belief, he resided upon it during the time he held it; I never saw him there; I heard he lived there; after it was transferred to me I went to live on it; my wife accompanied me; I remained a few days, when business compelled me to go to Melbourne; on my return, the term required for residence had expired; I was, at the time of transfer, a storekeeper in Condobolin, and had been so for five years previous, and lived there; when I took possession I gave my private residence in Condobolin to a married couple in my employment; they were in charge of it until I returned from Melbourne, in April, 1881; my wife accompanied me to Melbourne; the improvements were made before the selection was transferred to me; when I say in my evidence the selection was transferred to me in January 1881, I mean my notice of transfer from the Lands Department, Sydney, was in January, 1881; as a fact, this selection was transferred to me, by Peters on the 15th of December, 1880.

H. ALEX. RICHARDS.

Sworn before me, at Condobolin, this 8th day of July, 1884,—

P. WOOD STREET, Commissioner.

Robert Mackrell, on oath, states: I selected the land now the subject of this inquiry; within two months from doing so I commenced to reside upon it; I lived on it for seventeen or eighteen months; I was never absent for more than a day or two during that period; my wife and family lived with me; I made the improvements seen by the inspector; I transferred this selection to a person of the name of William Peters; I do not remember the date on which the transfer was made; it was in the summer of 1879; Peters was a drover, and, at times, a shearer; he commenced to reside upon it at once, and remained up to within a few months of the expiration of the term required for residence; on one occasion he was absent for about two months; I remained in occupation of the house for which I held a publican's license, and paid Peters rent for it; he was a single man; Peters told me he transferred this conditional purchase to Henry A. Richards, about the end of the year 1880; I still remained in occupation of the public-house; Richards came to the land shortly after the transfer to him, and remained about three days; he then left for Condobolin, where he had a store; I afterwards heard he had gone to Melbourne; he did not return to the selection until after the term required for residence had expired; he has been there several times since; I am still living in the licensed house on this land, and am a tenant of Mr. Richards; William Peters purchased this selection from me, with all the improvements then on it; he paid me part in cash, part in stock.

ROBERT MACKREL.

Sworn before me, at Condobolin, this 8th day of July, 1884,—

P. WOOD STREET, Commissioner.

REPORT by Joseph C. Page, Inspector of Conditional Purchases, respecting the selection of Henry A. Richards, made at Condobolin, on 13th January, 1881.

Sir, Forbes, 24 March, 1885.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 3rd instant; and that I found the selector then not resident upon selection, but the original applicant of conditional purchase of 100 acres.

The land, which consists of box and gum forest, and comprises 500 acres, is occupied and used by Mackrell for a paddock; and the selector, who follows the avocation of storekeeper, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
400 acres ringbarked at 1s. 3d. per acre	25	0	0
10 ,, under crop, at £1 per acre	10	0	0
½-mile 2-rail split and 2-wire fence	35	0	0
60 chains 5-wire fence at £40 per mile	30	0	0
500-yards tank at 1s. 3d. per yard	31	5	0
34 chains 2-rail split fence	25	14	0
	£156	19	0

On the original conditional purchase is a 9-roomed sawn slab and horizontally-built pine hotel, kitchen, stable, hay-shed, yards, good well, garden, and fencing of various kinds.—*Vide* my Report of the 24th June, 1883, and which I then valued at £490.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the original selector has been continuously resident upon the selection, with the exception of a short time when he transferred his license to another person, and which case comes on for adjudication on the 30th of this month.

I have, &c.,

JOSEPH C. PAGE,

The Chairman of the Local Land Board at Forbes. Inspector of Conditional Purchases.

(C.P. No. 81-5.) [Alienation Act.]

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, HENRY ALEXANDER RICHARDS, of Condobolin, do solemnly and sincerely declare, that I am the lawful owner, by Conditional Purchase, under the section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of hotel, fencing, dam, cultivation, and to the value of £600, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

HENRY ALEXANDER RICHARDS.

Taken and declared, at Condobolin, this 1st day of April, 1884, before me,—

MATTHEW BOULTON, J.P.

DESCRIPTION.

County of Dowling, parish of Wardry, 500 acres at Wardry, being Conditional Purchase No. 5 of 1881, in the District of Forbes, now Condobolin, made on the 13th January, 1881.

Instalment credited, £25, 29th April, 1884, at Treasury. Submitted for approval of Minister.—F.H.W. (for the U.S.) Approved.—J.S.F., 29th July, 1885.

Mr. Licensed-Surveyor E. J. Burgess to The Surveyor-General.

Sir, Hay, 29 June, 1881.

I have the honor to transmit herewith the plan of one portion of land containing 500 acres, numbered seventeen (17), in the parish of Wardry, county of Dowling, applied for by Henry A. Richards, under the 21st section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated the 30th March, 1881.

The applicant, at the time of survey, was not residing on the ground, the hotel being kept by one R. Mackrell. I was informed the owner was temporarily absent at Condobolin. The improvements made on No. 11 are of a very good and permanent character, comprising hotel, private house, stable, &c., also garden and fencing. The improvements on this portion

portion consist of brush fence, £25, and post and rail fence, £9. In making this survey I had in view the desirability of not exceeding 80 chains northward; but after due consideration, seeing that the unalienated land to the north was bounded on one side by W.R. No. 788, and on the other by conditional purchases; and access thereto, during some months in the year, would be very uncertain, owing to the creek (*see* plan), I determined that it was far better to measure the full area of land applied for, thus leaving about 320 acres between it and the Lachlan River.

It will be seen that there is a difference of 12′ between the azimuths of portions Nos. 2 and 11, surveyed by Mr. L.-S. Menzies.

I have, &c.,
EDWD. J. BURGESS,
Licensed-Surveyor.

13 January, 1881.

Sir,

I am desirous of purchasing without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 500 acres, which adjoins my conditional purchase or freehold property of 100 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £125, being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase or freehold of 100 acres.

I am, &c.,

To the Agent for the Sale of Crown Lands at Forbes.

Description.

County of Dowling, parish of Wardry, 500 acres, east and north of and adjoining my selection, late William Peters'; selected 7th March, 1878.

Crown Lands Act of 1884—(Part II., section 14, sub-section 4).

Decision of Local Land Board.

New South Wales, to wit.

Whereas on the 1st day of April, 1885, it became a matter for investigation before us whether Henry Alexander Richards and William Peters had complied with the condition of residence with respect to C.P. 78–51, section 13, 100 acres, being portion 11, parish of Wardry, county of Gipps, district of Condobolin, selected by Robert Mackrell, on the 7th March, 1879, transferred to William Peters on the 21st October 1879, and transferred to Henry Alexander Richards on the 15th December 1880; and having taken evidence and inquired into the said matter, we find that Henry Alexander Richards only resided three days out of eleven weeks and five days during which he should have been on his selection; that the nature of the money transactions between the parties is of a most doubtful character, and that the original selector never ceased to reside upon the C.P., and is at the present time the holder of a publican's license there; the position of Peters, a labourer, does not warrant us in believing that the transaction testified to by selector ever took place. We desire to leave this case in the hands of the Minister.

Given under our hands, at the office of the Local Land Board, at Condobolin, Colony of New South Wales, this 1st day of April, 1885,—

CHARLES CROPPER, Chairman.
MATTHEW BOULTON, Member.

Submitted.—C.O., 9/6/85. I do not consider the case altogether satisfactory, but in view of the date of selection I do not think there is sufficient evidence to warrant forfeiture.—F.A.W., 15/6/80.

Caption to Deposition of Witnesses.

New South Wales, to wit.

The examination of Henry Alexander Richards, of Condobolin, in the Colony of New South Wales, storekeeper, John Lewis, jun., Richard Cobden, and Robert Mackrell, in the said Colony.

Whereas the question hath arisen whether Henry Alexander Richards and William Peters have complied with the condition of residence with respect to C.P. 78–51, section 13, 100 acres, being portion 11, parish of Wardry, county of Gipps, district of Condobolin, selected by Robert Mackrell, on the 7th March, 1878, transferred to William Peters on the 21st October, 1879, and transferred to Henry Alexander Richards on the 15th December, 1880, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Henry Alexander Richards, on oath, states: The selection now under inquiry was transferred to me from Peters in December, 1880; I went to reside on it in the following February, with my wife; at that time I was a storekeeper in Condobolin; I left the store in charge of a manager; I remained on the selection several days with my wife, when urgent business not connected with the store called me away to Melbourne; I decline to say what that business was; I did not return till the beginning of March, when the time for residence had expired; I left Mr. Mackrell, the original selector, in charge of the selection when I left, he then held a license for a public-house upon it; Mr. Mackrell was to pay me £50 a year until the improvements were erected upon the additional selection, and has paid me up to the expiration of the residence term; I paid Peters for the land about £75 in cash, and the balance which he was indebted to other parties I guaranteed to pay; I know nothing about the transaction between Mackrell and Peters; Peters owed me no money at the time I bought the selection; I do not know if Mackrell gave up his license or ceased to reside on the selection after transferring it to Peters; I know nothing of the residence of Mackrell or Peters upon the selection.

Sworn by this deponent, Henry Alexander Richards, upon this 1st day of April, 1885, at Condobolin, before us,—

H. ALEX. RICHARDS.

Charles Cropper, Chairman.
Matthew Boulton, Member.

John Lewis, junior, on oath, states: (*By Claimant*)—I once had a selection on Kiacatoo; I know William Peters; I know the selection now under inquiry; I have seen him on that selection, but cannot say when I first saw him there; I think it was in 1879; he told me he had bought the place, and it was at that time I saw him there; I have seen him there more than once living in the house.

By Chairman: I know nothing of the transaction between Mackrell and Peters, who was a single man; I have seen Peters on the selection a good many times; there was then a public-house there kept by Mackrell; during that time I have not seen Peters living at any place; when Peters was on the selection I do not know who held the license for the public-house; Peters is not now in this district.

Sworn by this deponent, John Lewis, junior, on this 1st day of April, 1885, at Condobolin, before us,—

JOHN LEWIS.

Richard

Richard Cobden, on oath, states:—*By Claimant*—I am a selector, living near the selection now under inquiry; I know William Peters, he is my brother-in-law; I remember him holding the selection; I have seen him living there at different times when passing up and down; I think it was about five years ago; I have seen you at the selection; Peters is not now in the district.

By Chairman: Peters was a working man; I think the improvements were worth about £100 at the time the selection was sold to Peters. There was a public-house on it; Peters never told me what he paid Mackrell for the selection; I cannot say whether he was in a position at that time to buy a place of that description; I cannot say over what time Peters' residence extended; I cannot say what part of the public-house he occupied.

R. COBDEN.

Sworn by this deponent, Richard Cobden, on this 1st day of April, 1885, at Condobolin, before us,—

CHARLES CROPPER, Chairman.
MATTHEW BOULTON, Member.

Robert Mackrell, on oath, states: I am the selector of the portion of land now under inquiry; it was about three months after selection that I obtained a publican's license; I continued to hold that license and occupy the place until I transferred to Peters, who was a labourer; I sold the place to him for £400, for which I took his bill for twelve months, that bill was paid by Peters in cash, when he sold the selection, before which he had paid me £40 of it, and paid me the balance after he sold to Richards; I took part of the purchase-money in fat sheep; Peters gave me no security for the purchase-money other than the bill; he bought the sheep from John Lewis, on whose place they were running at the time I took them; during part of the time Peters held the land James M'Fadden held the license; I do not know what the arrangement was between Peters and M'Fadden; M'Fadden held the license about twelve months; I continued to reside in part of the house with Peters' permission; he came to live there as soon as it was sold to him and stayed there continuously; I have never known him to be away more than three or four days at a time; he had his meals at the public table.

ROBERT MACKRELL.

Sworn by this deponent, Robert Mackrell, on this 1st day of April, 1885, at Condobolin, before us,—

CHARLES CROPPER, Chairman.
MATTHEW BOULTON, Member.

Henry Alexander Richards, recalled: I have heard the evidence given by Mackrell; I paid Peters for the selection £75 in cash the day the transfer was signed; the balance was paid six weeks after the transfer was made to Mackrell.

Sir, 2 Spring-street, Sydney, 3 July, 1885.

I have the honor to address you with reference to the conditional purchases noted in the margin, which I learn through the Department, are considered so far satisfactory, and that there is every reason to believe the certificate of conformity will be issued by you. C.Ps., 78-51, 81-5 H. A. Richards, Condobolin.

I beg to request that you will delay the issue of certificate, pending the prosecution of a complaint before the Local Land Board, notice of which has been lodged with the Local Land Agent upon form 64, as prescribed by Regulation No. 178, under sub-section V, clause 14, of the Act of 1884, a copy of which I enclose.

Sir, Local Land Board Office, Forbes, 18 July, 1885.

I, EDWARD HENRY MOULDER, of Condobolin, in the Colony of New South Wales, do hereby solemnly declare and affirm that I am desirous of prosecuting a complaint before the Local Land Board, and that the notice below correctly sets out the grounds of such complaint; and I make this solemn declaration as to the matters aforesaid according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

Crown Lands Act of 1884—(Part II., section 14, sub-section 5.)

Notice of Prosecution of Complaint before Local Land Board.

I HEREBY notify to you, as Land Agent at Condobolin, that I am desirous of prosecuting a complaint before the Local Land Board, for that the provisions of the law have not been fulfilled as regards the residence of William Peters and Henry Alexander Richards, which was never fulfilled by either party as holders of the conditional purchases herein mentioned—

C.P., 78-51 of 7th March, 1878 ... . 100 acres.
,, 81-5 of 13th January, 1881... ..... 500 ,,

and I herewith deposit the sum of £10 as security for any costs which may be awarded against me by such Board.

Given under my hand at Condobolin, this tenth day of July, 1885.

Witness—MATTHEW BOULTON, J.P. E. H. MOULDER.

To the Land Agent at Condobolin.

Received the sum of £10 above-mentioned.

13 July, 1885. TYSON A. SLACK,
Land Agent at Condobolin.

Sir, Brotherony, December 7, 1885.

With reference to the case of non-fulfilment of conditions of conditional purchase by William Peters, transferred to H. A. Richards, in which I am summoned as prosecutor, might I suggest to you, if not already done, that you issue summons for the attendance of said William Peters—he is a material witness.

I may mention, that in the first inquiry relative to this conditional purchase, the transferee, H. A. Richards, for reasons of his own failed to produce Peters. I have correct information that Peters is living with one Henry Jobson, about 3 miles

miles from Bourke. If I am permitted to advise, I should say issue a summons, intrusting same to the Bourke police; this when served on Peters would make it imperative on him to appear on 28th instant. I have forgotten to state that this case comes on for hearing at the Condobolin Land Board on 28th instant.

I am, &c.,
E. H. MOULDER.

The Chairman, Land Board, Forbes.

Officer in charge of police at Bourke, with summons, 17/12/85.

Sir,

2 Spring-street, Sydney, 3 March, 1886.

Referring to the complaint lodged by my client on the 10th July, 1885, with reference to the fulfilment of the conditions of residence by William Peters and Henry Alexander Richards on the conditional purchases C.P. 78-51 of 7th March, 1878, 100 acres, and A.C.P. 81-5 of 13th January, 500 acres.

I now beg respectfully to call your attention to the recommendation by the Local Land Board on the evidence taken at the Court of Inquiry, on the 13th February ultimo, which tends to show that the residence by W. Peters has not been proved, and while the selection stood in his name the house was occupied by one M'Fadden under a publican's license; and further, that no attempt at residence was ever made by the last alienee H. A. Richards, who was a storekeeper in Condobolin, some 30 miles distant. In view of these facts, I request you will sustain the recommendation of the Board and notify forfeiture upon an early date.

I have, &c.,
H. G. FREEMAN,
Agent for E. H. MOULDER.

The Under Secretary for Lands, Sydney.

See within. The Board recommend forfeiture.—F.H.W., 9/3/86. The recommendation of the Board should, I think, be adopted.—C.O., 10/3/86. Approved.—H.C., 11/3/86. Applicant, care of J. A. Martin, Chairman, and H. G. Freeman, informed 5th April, 1886. The C.Ps. referred to are within the boundaries of the leasehold area of Wardry Holding No. 269, Central Division, gazetted 11th July, 1885.—G.S., 14/4/86.

Recommendation of Local Land Board.

New South Wales, Condobolin, to wit.

WHEREAS, on the 13th day of February, 1886, it became a matter for investigation before us whether the conditions prescribed by law have been fulfilled with respect to conditional purchase 78-51, Condobolin, 100 acres, portion 11, parish Wardry, county Gipps, selected under section 13, on the 7th March, 1878, by Robert Mackrell, transferred on the 21st October, 1879, to William Peters, transferred on the 15th December, 1880, to Henry Alexander Richards, and have taken evidence and inquired into the said matter, we recommend that the selection be forfeited. Conditional purchase 78-51, Condobolin.

THE residence of Peters seems to be doubtful, but we would not feel justified in recommending forfeiture on that ground; but there does not appear to have been the residence anticipated by law in Richards' case, and the new evidence adduced from Mr. Richards himself in reference to the purchase from Peters and payment to Peters and Mackrell, seems so inconsistent with the evidence of Mackrell on a former occasion that we do not think Mr. Richards is entitled to any doubt that may exist as to the residence. We therefore recommend the selection for forfeiture.

The examination of Joseph Cope Page, of Young, in the Colony of New South Wales, Inspector of Conditional Purchases; William Henry Cousins; Richard Cobden, of Wardry, selector; John Caban, of Condobolin, constable; John Lewis, of Kiacatoo, fencer; and Henry Alexander Richards, of Condobolin, storekeeper, in the said Colony.

WHEREAS it hath been alleged that the conditions prescribed by law have not been fulfilled with respect to conditional purchase 78-51, Condobolin, selected by Robert Mackrell, now standing in name of Henry Alexander Richards, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr. M'Lachlan, solicitor, appears on behalf of E. H. Moulder.

THIS deponent, *Joseph Cope Page*, of Young, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows: I know the selection now under inquiry; I visited it on the 11th May, 1883, and found improvements of the value of £500, as enumerated in my report; I found the original selector, Mackrell, resident; I visited it again on the 3rd March last; I have repeatedly passed the selection and found Mackrell resident; I know nothing of Peters' residence; Mackrell held a license for a public-house on the selection for four or five years.

By Mr. M'Lachlan: I do not know the man Peters, and never saw him to my knowledge; the house is situated on the main road; I always called at it when passing; between the time of the transfer to Peters and the expiration of three years I was frequently there and never saw Peters; the last time I was there Mackrell was still living there; that was in March last.

By Mr. Richards: I believe I have passed the place between the 21st October, 1879, and the 15th December, 1880; I never saw you on the selection; I did not visit the selection during the time you held it; Mr. Richards is a storekeeper in the town of Condobolin, 30 miles from the selection, and is generally considered to be in a large way of business.

By Mr. M'Lachlan: This deponent, *William Henry Cousins*, being sworn, saith as follows: I know the selection now under inquiry; I am superintendent for Mr. Moulder, and live at Brotherony; until lately the run on which this selection is situate belonged to my uncle; I had a selection about a quarter of a mile from it and in sight of it; I was living on my selection in the years 1881, 1882, and 1883; I was living about there before I selected in 1880; I selected in October, 1880; before that I was occupied there about two months by my uncle; I know William Peters; I have seen him knocking about; I mostly saw him at Richard Cobden's place; before September, 1880, I lived at Molong; I knew Peters years ago up the country; Mackrell's place is well known, it is on the road.

By Mr. Richards: Peters used to knock about mustering cattle; in 1881 I was owner of Wardry Station; it belonged to my uncle; I had stock of my own there; I have seen Peters in the place; I cannot remember the date; it was between September and December, 1880; I never saw him fencing or making a dam on the selection; I have seen you there; I did not see you in February, 1881; I was not in the district from November, 1880, to March, 1881. [*Objected to by Mr. M'Lachlan.*] I saw in the paper that you made an additional selection during that time; in March I had a conversation with you; since that time I have been insolvent, and am now working at Mr. Moulder's.

By Mr. M'Lachlan: I never saw Mr. Richards living at the selection.

By Mr. M'Lachlan: This deponent, *Richard Cobden*, of Wardry, selector, being duly sworn, maketh oath and saith as ollows: I know William Peters; he is my brother-in-law; he is my wife's brother; about 1879 and 1880 he was a abouring man, about twenty-three or twenty-four years old; he has worked for me, driving my team; my place is about 2 miles from the selection now under inquiry; for three or four years before Peters held the selection he was knocking about there and used to make my place his home; I am one of the oldest residents on the river, and I was not aware of any home that he had other than my place; I know that he sometimes went down to Mackrell's place; I believe that he has slept there, but I do not know it; I could not swear that he slept one night on Mackrell's selection; he used to take jobs, and would sleep where he worked; with those exceptions, I do not know of any place that he slept other than mine; I remember the selection being transferred to Peters; I heard of the selection being transferred to Richards; my place is a four-roomed one; Peters used to sleep in a skillion room at my place; there were about two beds in that room.

By Mr. Richards: I know that the selection was transferred to Peters; I have seen him at the selection, but have never seen him sleeping there; I know that he used to go down there backwards and forwards; I think he was working there at one time; I could not say that I saw him; I have seen you down there, but could not say that you were living there.

By Chairman: I gave evidence in this case on a previous occasion; what I mean by what I said in my previous deposition by saying that he was living on the selection was that I have seen Peters at the selection; Peters was a labouring man, taking jobs; I do not know of his having any means other than a few horses; he never worked for me as a hired servant; I do not know of my own knowledge that any money passed between him and Mr. Richards over the selection.

By Mr. Richards: Peters, with his brother, may have been able to take a contract of two or three hundred pounds; I think their team and scoop would be worth over £100; he used to trade with cattle at times; I have heard of working men making a cheque of £200 or £300 at a job.

By Mr. M'Lachlan: I know Richard Cobden's place; I cannot name any place at which Peters was to be seen as frequently as at Cobden's; I have frequently stopped at Cobden's for a night; I could not say that I have not slept in the same room at Cobden's as Peters; there is no house on the selection of Mackrell's, excepting the public-house.

By Mr. Richards: There are stables and a kitchen and dining-room apart from the public-house.

This deponent, *Henry Alexander Richards*, of Condobolin, storekeeper, being duly sworn, maketh oath and saith as follows: I bought the selection now under inquiry from Peters on the 5th December, 1880, and then went in the beginning of 1881 with my wife to Wardry to the selection to make it our home for that period, when family business called me away to Melbourne, where I stayed till near the end of March, 1881; I returned home when the time of residence had expired; I gave up my home in Condobolin in the beginning of January, 1881, and left my children and a nurse in charge of another person 6 miles out of town, and left my business place in Condobolin in the full charge of a manager; I went on the selection in February.

By Mr. M'Lachlan: I gave up my home in Condobolin intending to live on the selection for three mouths; the family matters that took me to Melbourne were not the matters that caused me to leave my children in charge of another person; I bought the selection from Peters; I decline to say what I gave him for it; I gave him £190; I value the improvements on the selection between £400 and £500; I got a rental of £50 a year for it; I gave Peters between £70 or £80; I do not remember the exact amount; my books would not show how much I gave him, nor would they show for how much I bought the selection; I fancy I gave Peters the £70 or £80 in notes; I am not sure if it was in notes or a cheque; I sent the money up to my agent in Forbes; he was a lawyer; I sent the money up in a letter; there was a bank here at which I had an account; I can't remember who the solicitor was; I only sent £70 or £80 because Peters owed people money and I had to pay them; he owed money to Mackrell; I paid the balance of the money to Mackrell about five weeks after the transfer; I believe it was a promissory-note in Mackrell's favour for about £120; it was paid through a Bank; Mackrell did not owe me money at that time; I do not think he owed me money at the time he sold the selection to Peters; I will swear that I had nothing to do with the selection directly or indirectly until it was sold to me; I did not know Peters until a few days before I bought the selection; I have known Mackrell a long time; when I took possession of the selection I let it to Mackrell for £50 a year; he still lives on the selection; if the case were postponed I would not try to get Mackrell here as a witness; I saw him last week and spoke with him, and since getting my summons I took a solicitor's advice; I did not speak to Mackrell about this matter; Mackrell's place is about 28 or 30 miles from here; I did not try to get Peters here as a witness, because I knew that Mr. Moulder was getting him; I could have got Mackrell as a witness; there is a mail to his place twice a week; I bought the selection simply for myself, and Mackrell has no interest whatever in it; I keep a set of books for the store, and have no partner; my books show nothing respecting my land transactions; there has been an account of Mackrell's in my book, and there is no reference whatever to the promissory note; there was no written agreement between Peters and myself in buying the selection; I do not think that Mackrell was present; I think Peters was; I did not hold the selection as a security.

By Chairman: The area of the land at the time I bought it was 100 acres; I considered the improvements at the time worth £70; £190 was the full sum I paid; the other improvements were put on since; between the 15th December, 1880, and February, 1881, I lived in the town of Condobolin.

By Mr. M'Lachlan: It was from about the shearing time of 1879 to the shearing of 1880 I saw Peters at Mackrell's public-house; it was a licensed public-house; there is no building on the selection except the public-house that I am aware of; M'Fadyen's name was over the door; I do not know of any room that was allotted to Peters; it was sometimes in the daytime that I saw Peters at the selection; I saw him there once at eleven o'clock at night and at daylight the next morning; I never saw Peters do any work on the selection.

By Chairman: I knew nothing of Peters' monetary position.

By Mr. M'Lachlan: During the twelve months I may have seen him once or twice at Richard Cobden's; when I was last at the selection Mackrell was there, and as far as I know he has never ceased to reside there.

By Mr. Whelan: I believe M'Fadyen is Mackrell's brother-in-law.

Did William Peters ever consult you with respect to taking out a publican's license? *Objected to.*

By Mr. M'Lachlan: I am now 18 years old; my father and mother lived there; I do not remember anybody else being there at that time; I last saw Peters at our place a long time ago; it must have been five or six years ago; I have not seen him recently; he had a room allotted to him next to the bar; it is a room that comes partly to the front and partly to the side; I was never engaged to Peters; it was not more nor less than six years ago that Peters was living at our place; I never told my father or mother or anyone else that I could say so; M'Fadyen is my mother's brother; at the time I speak of M'Fadyen was living at our place; I saw him there; M'Fadyen is not here to-day; I do not know where he is; I saw him last a long time ago; he was not married; I was not subpœnaed to come here to-day as a witness; I did not come here without being asked; I have not a good memory; I never knew till to-day that I was asked to come here as a witness; I live now at "Wardry Hotel;" I had a conversation the night before last with Mr. Whelan about this case; I did not come into Condobolin for the purpose of giving evidence in this case; I do not come into Condobolin often, only once or twice in twelve months; in fixing the six years, I am not guided by any person; I have nothing to fix the time at six years; I have three sisters and two brothers; I am the eldest—the youngest is eight months old; the next to me is a sister; I do not know her age within two or three years; she is at home to-day; she is about fourteen years old; my father and mother helped in the house work; we had one servant, a woman named Miss Hughes; I do not know where she is now; we had no man servant; I helped generally to make the beds; Miss Hughes did the cooking; my mother is not here to-day; she is at home; there was nothing to prevent her coming; I will not swear that Peters slept at our house fifty nights, between the 21st October, 1879, and the 11th December, 1880; I will swear that he slept there twenty-five nights; I will swear that he slept there night after night for a week; I do not know the longest time; I know Richard Cobden; I do not know his usual place of residence; I will not swear that Peters was not living more at Cobden's place than at ours; my mother is not ill; I do not know if my father has not left the selection as his residence since he bought it, because I was so young; I cannot remember if he has left it for the last six years; I do not remember when he first bought it; I remember when I went to live there; I know that the selection has been my father's continuous and only home; I do not know how Peters earned his living; I do not remember any work that he ever did on the selection; I do not remember him ever being away for any length of time; it is not a fact that I thought I would simply be asked if Peters lived at our place for a month.

By Mr. Whelan: I have never been in a Court before, and never gave evidence on oath before; I remember saying that Peters was living at our place for twelve months; I cannot say how I arrived at that conclusion; I was in the habit of making his bed: I do not know what position he held; I was not courting with Peters.

By Chairman: I never saw witnesses examined in Court before.

By

By Mr. M'Lachlan: Mackrell's was at that time the only public-house for many miles around; I could say that I had seen most of the neighbours at Mackrell's; it was about sundown that I saw Peters there; I do not remember seeing him later than sundown; I have been at the house pretty often; I have seen Peters pretty often at Cobden's; of course I have seen him more often at Cobden's than at the selection; if I wanted Peters I would look for him both at Cobden's and Mackrell's; if I were going from here I would call first at Cobden's; I don't know where Peters would go for a change of clothes; Mrs. Cobden was his sister; I was droving in 1879; Peters was with me; he was away about ten weeks; Peters was working under me as a rouseabout at Brotheroney woolshed.

By Mr. Whelan: It was about October, 1879, that Peters came back from the droving with me; Peters always made Cobden's his home before he got Mackrell's place; Cobden's place is 1½ mile from Mackrell's.

By Mr. M'Lachlan: I know nothing of the year 1880, and only speak of 1879.

By Mr. Whelan: Deponent, *Henry Alexander Richards*, being sworn, maketh oath and saith as follows: I remember, at a previous inquiry, declining to answer why I went to Melbourne; the reason was that Mrs. Richards took ill on Wardry; there was no medical man here, and Mrs. Richards was advised to go out of the district for a few weeks; she could not have gone by herself, and I had to take her; I declined to answer the question at first because I thought it was a delicate one.

By Mr. M'Lachlan: I had no other reason for declining to answer; I have not taken out a subpœna for Peters or M'Fadyen, or Mrs. Cobden since the last Court; Mrs. Mackrell could not come to-day, as Mr. Mackrell and Miss Mackrell are in town; I am not paying Mackrell's expenses; as I saw Miss Mackrell in town I asked her father to allow her to give evidence; she did not come in to give evidence on my case; Mackrell intended to come in on my case; I have not tried to find out where Peters is; I will swear that I have not seen Peters since last Court; the last time I saw Peters was in 1881; in 1881 I went to Mackrell's; I slept there every time I went there in 1881.

By Chairman: I got subpœnas for Mr., Mrs., and Miss Mackrell, and served them; the portion of my evidence given at the last Court, with reference to my paying the balance of the purchase money to Mackrell is quite correct.

Dear Sir,

Condobolin, 1 April, 1886.

As I am well acquainted with the circumstances connected with Mr. H. A. Richards' selection on Wardry, I have the honor to report as follows:—

In December, 1880, William Peters transferred to Richards, and in that month he (Richards) started to take possession, but had to return as owing to the river being flooded he could not get to the land; in January Mrs. Richards was taken ill, and in February Richards took possession of the land, and after taking such possession he was recalled to remove his wife to Victoria for change of climate, returning in March when the full term of residence on the selection expired.

As I am fully convinced the full term of residence was fairly completed by the various holders, I trust you will give this matter your favourable consideration.

Yours, &c.,

The Hon. Henry Copeland, Sydney. ——— H. W. GREY INNES.

Submitted.—Mr. Secretary Copeland on the 11th March last decided that the forfeiture must take place.—F.H.W., 1/5/16.

Sir,

Condobolin, 3 May, 1886.

I beg to call your attention to a forfeited conditional purchase on the Wardry Run, in this district, and which is open for selection one month after gazetting. This conditional purchase was taken up by one Robert Mackrell in 1878, and resided there one year; he got into difficulties, and then transferred to a labouring man, who, in his turn, transferred to H. A. Richards, storekeeper, of Condobolin, who, as proved at Land Board inquiry, failed to reside, and thus the land was recommended for forfeiture. The land is on my run Wardry, lately Mr. Cousin's, and being held illegally by Richards prevented me from having it proclaimed part of the leasehold area of the run, whereby I have sustained considerable loss. The improvements on the land are hotel, &c., on 140 acres original conditional purchase, and only fence on the additional 500 acres. Should this latter be reselected at 2s. per acre deposit, I think it would be a great injustice to me who has been debarred, by the illegality of Richards' occupancy, of applying for this land as leasehold area.

I am not sufficient master of the Act to know if the 500 acres could be proclaimed a special area, and open for lease at a fair rental which I would give. Further, anticipating that this land would be forfeited, and guided by the late Minister's just decision that forfeited lands on leasehold areas would revert to the lessee, I erected fence on the boundary between portions applied for by Mr. Cousins as the leasehold and resumed areas. The then Minister's second decision upset all calculations, and thus I have left, out on the resumed area, 2,000 acres of land with half-a-mile river frontage, which is useless to me, and which I would give for the 500 acres forfeited; and which would be more beneficial to the public or the Crown, and more likely to induce settlement, as the 500-acre lot has no water frontage of any sort. No doubt I am approaching with some impertinence, but I trust that the loss of country fenced out on to the resumed area, and the circumstances of the case may, I hope, excuse me somewhat in your eyes.

I have, &c.,

The Minister for Lands. ——— E. H. MOULDER.

Statutory Declaration.

I, ROBERT MACKRELL, of Wardry, do hereby solemnly and sincerely declare as follows:—That in October, 1879, I transferred to William Peters all my right, title, and interest in and to a conditional purchase of 100 acres, situate at Wardry.

That to the best of my knowledge and belief the said William Peters purchased the said conditional purchase for his own sole use and benefit.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made passed in the ninth year of the reign of Her Majesty intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of extra-judicial oaths and affidavits.

Declared at Condobolin, this 30th day of April, 1886, before me,—

Sir,

Land Agency Office, 26, Bridge-street, Sydney, 7 May, 1886.

Referring to the selection, particulars of which are noted in the margin, as the Department appears to me to be in a measure influenced by the evidence given with regard to the holding by Peters, I have the honor to enclose statutory declaration of transferor, to the effect that his transfer to Peters was a full and complete one, and to the best of his knowledge and belief made fully with the object of Peters holding in his own right. With this information, and the facts which occasioned the delay in my client, Mr. Richards, taking possession, I submit that a good case for the reversal of forfeiture is now submitted.

I, HENRY ALEXANDER RICHARDS, of Condobolin, general storekeeper, do solemnly and sincerely declare that :—

1st. In the beginning of February, 1881, my wife appearing to have recovered from the effects of a serious illness, I took her home to my conditional purchase at Wardry.

2nd. That after a few days she suffered a relapse and became so ill that I at once took her away for change of climate and medical advice, and could not return until the beginning of April in 1881.

3rd. That from the time I took possession of my conditional purchase at Wardry, it was my *bona fide* residence and home.

4th. That at the time referred to, there was no medical man resident in the district.

And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Referring to the selection, particulars of which are noted in the margin, and to my former letters submitting that there were ample good reasons showing the impossibility of my client taking possession of the selection after its transfer to him, until the expiry of several weeks, I have the honor to enclose statutory declarations of Mr. Richards declaring to the serious illness of his wife and family and to the necessity of his taking them entirely away from the district owing to the impossibility of obtaining medical assistance, which declaration is supported by that of F. T. Piercy and Sophia Ashworth, the latter having acted as nurse to Mrs. Richards during the time that Mr. Richards should have been on the selection transferred to him. I again submit that the circumstances justify the slight lapse in residence by the proper party being overlooked, seeing that the selection was never non-resident.

I have, &c.,

This case was, on a previous occasion, thoroughly gone into by the Minister, who saw no course open but to forfeit the C.P. Mr. Cass, M.P., urged that it should be reopened, and was met with a refusal. It does not appear to me that the declarations, enclosed, change the merits of the case, which throughout is one in exhibiting a want of *bona fides*. The forfeiture, it is submitted, may be finally confirmed.—C.O., 27/5/86. Approved.—H.C., 28/5/86.

I, SOPHIA ASHWORTH, of Condobolin, do solemnly and sincerely declare that :—

1st. That during the whole of the month of January, 1881, Mrs. H. A. Richards and family of four children, were suffering from the prevailing epidemic of measles.

2nd. That during said month of January, I was in continual attendance on Mrs. Richards, and up to the time she left with her husband to go to Wardry.

3rd. That there was no medical man resident nearer than Forbes, 70 miles distant.

And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

I, FREDERICK T. PIERCY, of Condobolin, schoolmaster, do solemnly and sincerely declare that :—

1st. That during the whole of the month of January, 1881, Mr. H. A. Richards' wife and family of four children, were suffering from an attack of measles.

2nd. That in order to lighten the duties of the lady attending Mrs. Richards I consented to allow my wife to take charge of the four children referred to, and they were brought to my home, 6 miles from Condobolin.

3rd. That in the beginning of February, 1881, Mr. Richards had to take his wife away for change of climate, in consequence of Mrs. Richards' continued ill-health, and did not return until the beginning of April following.

4th. That there was no medical man resident nearer than 70 miles from Condobolin.

And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

As agent for Mr. H. A. Richards, I respectfully desire the favour of reconsideration of the case, particulars of which are noted in the margin.

The selection now recommended for forfeiture has been resided upon constantly for eight years, and a large hotel erected upon it has been, during the greater part of that time, licensed, and towards the close of the three years term of residence required by law, was purchased by Mr. H. A. Richards, of Condobolin, who was prevented by circumstances over which he had no control from going into residence for two months after his purchase, which facts are set forth in statutory declaration herewith. There has been no lapse in residence, the full meaning and intention of the law has been carried out, and I submit that the accidental circumstance of two months of the residence required by law having been fulfilled by transferee to Richards, instead of Richards, when the latter was barred by floods and illness of his family, is insufficient to justify so severe and harsh an interpretation of the law.

I have, &c.,
A. ARMSTRONG,
Agent for H. A. RICHARDS.

The Under Secretary for Lands.

I, HENRY ALEXANDER RICHARDS, of Condobolin, do solemnly and sincerely declare that, that selection made by Robert Mackrell in March, 1878, at Forbes, transferred to me by William Peters, was taken possession of by me at the earliest possible date after such transfer to me in December, 1880 ; that immediately after such transfer to me was effected, I proceeded to take possession, but was prevented by flood in the Lachlan River, immediately followed by long and severe illness of all members of my family, who were attacked by measles, by which they were confined in the town of Condobolin under heavy expense ; that the conditional purchase had a hotel erected thereon ; and has been from the first, and still is resided upon by Mackrell, and would have been resided upon by me from December, 1880, to March, 1881, instead of part of that time only, but for the above-described circumstances.

And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute Declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Sir, Land Agency Office, 26, Bridge-street, Sydney, 4 June, 1886.

Forbes, now Condobolin, C.P. 78-51, 7 March, 1878, 100 acres, R. Mackrell, now H. A. Richards, 86-3,243 Cor.

Further referring to the selection, particulars of which are noted in the margin, I have the honor to point out that there is no justification whatever for the assertion contained in your letter stating that a want of *bona fides* is exhibited. The area selected in 1878 as a site for an inn by Mackrell was occupied and an inn erected and licensed within a few months of the date of the selection. It has never been without residence for a single day, and has always been continuously a licensed house; for a time quite within the law the selection was transferred to Peters, who duly resided. The only lapse of residence by the actual holder is during the time that such holder was my client, and this is of so short a duration, and is fully explained, that I submit that forfeiture would be a punishment severe beyond the intention of the Legislature.

I enclose further statutory declaration of Mr. H. W. Grey Innes, supporting previous statements that flood prevented my client from being able to reach the land during the last few weeks of fulfilment of the residence conditions, and I have to ask again the favour of the case being considered.

I have, &c.,
A. ARMSTRONG,
Agent for H. A. RICHARDS.

The Under Secretary for Lands.

[*Enclosure.*]

I, HUMPHREY WILLIAM GREY INNES, of Condobolin, auctioneer, &c., do solemnly and sincerely declare that in the month of December, 1880, the Lachlan River was in flood, and the road on the south side of the said river below the town of Condobolin was impassable by reason of the creeks being flooded, there being at that time no bridges on the said road. And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Made and signed before me, at Condobolin, this 21st day of May, 1816,— T. M. SEWELL, J.P.

H. W. GREY INNES.

Sir, Lands Agency Office, 26, Bridge-street, Sydney, 5 July, 1886.

Forbes, now Condobolin, C.P. 78-51, 7 March, 1878, 100 acres, H. A. Richards, 86-3,243 Cor.

I have the honor to direct the favour of your attention to the fact that Mr. Vaughn, M.P., has given notice that he will move on 16th instant for the appointment of a Select Committee to inquire into all circumstances respecting fulfilment of conditions upon the selection, particulars of which are noted in the margin, and request the favour of forfeiture already approved being delayed pending the result of Mr. Vaughn's parliamentary action.

I have, &c.,
A. ARMSTRONG,
Agent for H. A. RICHARDS.

Submitted, as to whether the notification of the forfeiture should be delayed (as herein requested) until the result of the proposed inquiry by a Select Committee has been obtained.—F.H.W., 13/7/86.

[*Enclosure.*]

I, WILLIAM PETERS, of Tully Springs, in the Colony of New South Wales, teamster, do solemnly and sincerely declare, conscientiously believing the same to be true, as follows:—

1. That on the 21st day of October, 1879, one Robert Mackerell transferred to me a conditional purchase of 100 acres, taken up at Forbes, in the Colony aforesaid, by him, on the 7th day of March, 1878, and situated in parish of Wardry, county of Dowling, but what consideration I paid for the same I cannot remember, but I know I gave three or four horses, but what money I don't remember, or how it was paid, or when or where it was paid.
2. I am unable to read or write, and I cannot say under what circumstance the said selection was transferred to me by the said Robert Mackrell; I was a labouring man, working about doing odd jobs for any person in the district of Condobolin.
3. At the time of transfer I have not the slightest recollection of how much money I had; I keep no banking account.
4. The whole time that the selection stood in my name the said Robert Mackerell kept the house as a licensed public-house, and resided there with his family, and I also lived there when on the said selection, and I paid for my board and lodging as in any ordinary public-house, and don't remember any arrangement between myself and the said Robert Mackrell as to the payment of any rent.
5. I do not know any person named M'Fadden to my recollection.
6. I cannot say how long I resided upon the selection, but I was constantly boarding at Mackerell's public-house which is upon the said selection, and I did not reside upon any other part of the said selection, and I did not reside upon the said selection other than staying at Mackrell's as before mentioned.
7. I distinctly state that I have no recollection under what circumstances I transferred the said selection to one H. A. Richards, nor can I say what money I received for the said transfer, or how it was paid.
8. I cannot say how many times I slept at Mackrell's public house.
9. At the time the said selection stood in my name I worked at various places in the district.
10. I cannot remember how many rooms there are in Mackrell's public-house, there is no other habitable house upon the said selection.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

VINCENT A. BROWN,
A Commissioner for Affidavits.

[*Enclosure.*]

I, WILLIAM PETERS, of Tully Springs, teamster, do hereby solemnly and sincerely declare:—

That I have no recollection of giving any bill or promissory-note to Robert Mackrell for the purchase of the selection which was transferred to me on 21st October, 1879, and I do not recollect ever signing a bill or promissory-note.

I have no recollection of being the owner of any sheep, or selling any sheep to the said Robert Mackrell, except it might be a few pets.

I do not remember that I paid Mackrell £400 or any other sum.

I do not recollect giving any bill or promissory-note at any time, nor can I recollect what name was over the door the public-house; as far as I recollect, there was a small paddock upon the selection fenced, but who occupied I cannot say.

The public-house contained five or six rooms including the bar. The Mackrell's had three or four children.

I cannot say whether I paid any instalments or interest on the land.

I do not know whether I was residing at Condobolin or Forbes previous to my transferring the selection.

I do not recollect doing any work on the land.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Subscribed and declared at Bourke, this 20th day of August, 1886, before me, same having been read over to declarant, and he appearing to understand the nature and effect thereof,—

THOS. W. WARD,
A Commissioner for Affidavits.

Sir,

Sir, 2, Spring-street, Sydney, 31 August, 1886.

Referring again to the question of *bona fides* of the residence of William Peters on the conditional purchase noted in the margin, I now beg to hand you statutory declarations by this transferee made before the Police Magistrate at Bourke, and also before a member of your staff, who is a commissioner for affidavits by virtue of his office.

In the declaration made on 20th instant, you will note that Peters declares he gave no bill or promissory-note to Mackrell (the transferor) as purchase-money; also that he was not the owner of any sheep, nor did he sell fat sheep to R. Mackrell, that he did not work on the land.

And in his declaration of the 19th instant, that the whole time the selection stood in his name Mackrell held the house as a licensed public-house; that when on the said selection he lived at this house, but paid his board and lodging as in an ordinary public-house; that he never entered into any agreement with Mackrell; and that he never knew a man named M'Fadden; all of which is in direct opposition to the evidence before the Court.

I have, &c.,
W. G. FREEMAN,
Agent for E. H. MOULDER.

The Under Secretary for Lands.

Condobolin, C.P. 78-51, C.S. 86-3516, Cor. 4,204, Dep. A.C.P 81-5.

Sir, Land Agency Office, 26, Bridge-street, Sydney, 28 October, 1886.

Referring to the selections, particulars of which are noted in the margin, I have the honor to furnish the two following precedents:—

1st. The Manning family, who selected at Moama, transferred by way of mortgage and then continued residence. The Department were satisfied that the intention and meaning of the law were fulfilled, and issued certificates of conformity. This precedent is, I submit, sufficient to justify the Department in being fully satisfied with the residence proved by Richards during the short time that he held during the currency of the residence conditions, three days out of at most two months; the remainder of which he was prevented by circumstances which fully justify so slight a straining of the law.

Bombala, C.P. 73-5,757, ,, 76-262, C.S. 84-28,564, Dep.

2nd. In the case of the selections particularised opposite hereto in the margin, after forfeiture was notified, I submitted to the Department that such forfeiture was illegal, and of no effect consequent upon its having been notified after the declaration had been countersigned. The Department, after careful consideration, submitted the forfeiture to the Executive for reversal; this I submit as a precedent which proves that the forfeiture of Richards' selections cannot be legally effected after declaration made referring to second selection has been countersigned.

I have, &c.,
A. ARMSTRONG,
Agent for H. A. RICHARDS.

Submitted.—The declaration on Richards' O.C.P. 78-51, has not been countersigned by the Minister.—F.H.W., 5/11/86. I see no reason for reopening the question.—H.C., 18/11/86. A. Armstrong informed.—19/11/86.

C.P. 78-51. A.C.P. 81-5. Condobolin. 86-6,901. Cor. C.S.

I have the honor to address you in reference to the conditional purchase noted in the margin.

I now learn that you are quite satisfied that the conditions prescribed by law have not been complied with, and further, that you have decided to declare forfeiture.

I would point out that my client has been put to a great deal of trouble and expense in proving the complaint lodged by him under the fifth sub-section of clause 14 of the Crown Lands Act of 1884, and is likely to suffer much annoyance till forfeiture is gazetted.

I am told that as this land is within the leasehold area, you have decided not to declare forfeiture till the result of your appeal to the Privy Council in the case of Edols *v.* Tearle is made known.

I now beg respectfully to ask that you will declare the forfeiture upon an early date, and have the land reserved from sale pending that decision, as the delay might prove unsatisfactory, and my client's trouble without any good result.

Asking your favourable consideration of this matter, an early gazettal of forfeiture, and a refund of the £10 paid with the complaint,

I have, &c.,
H. G. FREEMAN,
Agent for E. H. MOULDER.

The Under Secretary for Lands.

Forfeiture in this case has been more than once approved, although repeated attempts have been made to avert it. On the 6th August last, Mr. Vaughn moved in the Legislative Assembly for a Select Committee to inquire into the case, and the debate being adjourned, it did not again come on for discussion before Parliament prorogued. Considering the case, apart from the special cirumstances of a Select Committee having been moved for, it is desirable that it should be dealt with as suggested in this letter, as the longer the case remains in abeyance, the more difficult it will be to give effect to the forfeiture which has been approved of. The effect, generally, upon the revenue, caused by delaying all forfeitures upon leasehold areas, is more fully dealt with on papers 86-7,373.—C.O., 11/12/86.

Approved.—H.C., 8/1/87.

Dear Sir, Wardry, Euabalong, 23 November, 1886.

Some short time ago I signed a document asking you to forward any moneys accruing from my conditional purchase at Wardry (under recommendation for forfeiture) in shape of rents, &c., which I understand will be returned to me in event of conditional purchase being forfeited. If forfeiture is carried out, which I hope will not be the case, I would feel grateful if you would forward any moneys to my credit to A. J. S. Bank for us, and take no notice of any document in reference to conditional purchase, but this, dated 23rd November, 1886.

I am, &c.,
ROBERT M'LEAN,
Wardry, Euabalong.

The Minister for Lands, Sydney.

To be attached to previous papers and acted on if desirable. The papers might be looked into and their position ascertained.—H.C., 1/12/86. It is submitted that the papers marked to Local Board, 19/10/85, may be temporarily withdrawn to enable this matter to be dealt with.—E.B., 3 Jan., 87. F.H.W. S.F., 12/1/87. Approved.—H.C., 14/1/87. Referring to your printed letter of date 16th instant, asking for final declaration to be furnished on the selection, particulars of which are noted in the margin, I have the honor to state that such declaration was made declaring to a complete amount of improvements on the conditional purchase referred to, which declaration has been countersigned by the Hon. J. S. Farnell. My client has, however, in order to comply with the law, now forwarded an additional declaration.

Declaration upon additional conditional purchase 81-5 requires verification. All papers in connection with the case were referred to the Chairman of the Local Land Board, Forbes, 19 October, 1885, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report, when furnished by the inspector, shows that the improvements are not sufficient on additional conditional purchase 81-5, or that there is not a surplus from those on the original conditional purchase and intermediate conditional purchases of this series to cover the deficiency, an investigation by the Local Land Board may be instituted, subject to the provisions of the 20th section of the Crown Lands Act of 1884. Application by Z. Benn.

Application for the conditional purchase, without competition, of unimproved Crown Land.

C. [Alienation Act, sections 13, 14, & 19.]

District of Casino. No. 75 of 1884.

Application by Zachary Benn, sixteen years, February, 1884, for the conditional purchase, without competition, of 202 acres 2 roods, unimproved Crown Land, under section No. 18.

Received by me, with a deposit of £50 12s. 6d., this 24th day of July, 1884, at 10 o'clock,—

M. M. CAMPBELL,
Agent for the Sale of Crown Lands at Casino.

Casino, 24 July, 1884.

Sir,

I am desirous of purchasing, without competion, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 202 acres 2 roods; and I herewith tender the sum of £50 12s. 6d., being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,
ZACHARY BENN,
Casino.

To the Agent for the Sale of Crown Lands, at Casino.

Description.

County of Richmond, parish of Shannon, 202½ acres, measured portion No. 40, being reserve No. 597, revoked 23rd June, 1884.

No. 2.

Report by Mr. Inspector Miller.

Casino, 10 August, 1885.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 4th of August, 1885, and that I found the selector then *not* resident upon his selection.

The land, which consists of gum flat, and comprises 202 acres, is occupied and used by and the selector, who follows the avocation of , had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
Hut, slabs, bark roof	8	0	0
About 1½ miles of fencing	80	0	0
Ringbarking	12	10	0
	£100	10	0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

This selector was not on his land when I visited it, nor is there any appearance of any sign of him residing there. He has put a hut on it, and, I believe, comes there occasionally and works. There were no rations or cooking utensils in the hut. His father resides a short distance from this place, and, I suppose, that is where he lives.

I have, &c.,
T. MILLER,
Inspector of Conditional Purchases.

WHEREAS, on the 23rd day of October, 1886, it became a matter for investigation before us whether Zachary Benn had complied with the residence condition upon his conditional purchase of 202¼ acres, selected 24th July, 1884, county Richmond, parish Shannon, and having taken evidence, and inquired into the said matter, we find that. . . . [Crown Lands Act of 1884.—Part 2, section 14, sub-section 1.]

New South Wales, } to wit. }

THE examination of William J. Fanning, of Wooroowoolgan, in the Colony of New South Wales, station manager; Thomas Miller, of Casino; Alfred Chas. Taylor, of Deep Creek Station; James Timms Tandy, of Casino; Alexander Campbell, of Wooroowoolgan; Zachary Benn, of Shannon Brook; James Burns, of Shannon Brook; James Mathers, of Dyrabba; John O'Connell, of Coraki; Phillip O'Connor, of Casino; Martin Mulhearn, of Casino; Thomas J. Carlill, of Casino; William J. Fanning, of Wooroowoolgan, and Thomas Benn, of Shannon Brook, in the said Colony.

Whereas it is doubtful if Zachary Benn has complied with the residence condition upon his C.P. 202½ acres, selected 24th July, 1884, county of Richmond, parish of Shannon, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosures*]

[*Enclosures.*]

Mr. E. W. Allingham, Solicitor, appeared for complainant; Mr. James, Solicitor, appeared for selector.

This deponent, *William Joseph Fanning*, of Wooroowoolgan, in the Colony of New South Wales, manager of Wooroowoolgan Station, being duly sworn, maketh oath and saith as follows :—

By Mr. Allingham: The complaint lodged was on behalf of the proprietors of the station; I know the selector, Zachary Benn, and I know his selection of 202½ acres in the parish of Shannon; I know the hut on the selection; I visited it on the 9th of June, 1886, with Alexander Campbell; the interior of the hut looked as if it had not been occupied for some time; the selector was not there; there was a bunk in the hut and some tools lying about; I am not sure if there was any furniture or not; there was a blanket in one corner, and the place seemed as if no one had occupied it for some time; there were no tracks about the place; I had never been at the hut before, but I have passed the place many times, and never saw the selector there; I have seen the selector there since the case was first called on, but I never saw him there before that time; Mr. Donald Campbell is not in the employ of the station now; he is not here to-day; he told me he was afraid to come, and I doubt if he will be here.

By Board: He did not say why he was afraid to come to-day.

Cross-examined by Mr. James: The 9th June, 1886, was the only occasion on which I visited the hut, and Benn was not there then; I did not make a search for him, but I rode across the selection before I went to his place; it is quite possible for Benn to have been on the land; but not probable; it is quite possible Benn was there on other occasions, but not probable; I did not look for him on any one occasion except at the hut; I never saw Benn there previous to the time when the case was called on, in October, 1886; I know he has been there since; I should not say the improvements are considerable; there is some fencing on it; I think it is fenced on two sides and three quarters; some fencing has been put on land belonging to the station; there is some cultivation since last October, but I do not know how much; I don't remember seeing any yards.

By Board: The hut was a rude place, with a bark roof, and a sheet of bark leaning against the opening for a door; I cannot remember if there was a fireplace; the floor was made of earth; I frequently passed it by the road, and the country was open enough for me to see over a good part of the land; his father resided four or five miles from the selection, and there was a beaten track between the two places; I never saw any cultivation there before October, 1886.

W. J. FANNING.

Sworn by this deponent, William Joseph Fanning, on this 9th day of August, 1887, at Casino, before us,—

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *Thomas Miller*, of Casino, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows :—

By Mr. Allingham: I know Zachary Benn's selection, taken up on the 4th July, 1884; I inspected it on 4th August, 1885; no one was residing there then; there was a hut on the land; I went into it; there was nothing in it except a few tools; no furniture or bedding; no fireplace; the place had not been long built, and it did not appear to be a residence; it is forest country and flats; selector was not on the land; I cooeyed and got no reply; selector's father resides about 2½ miles away; I reported that I believed selector resided with his father; I saw him coming from the direction of his father's place once with iron, previous to the last Court; I called at the hut on that occasion, and selector was not there; I met him afterwards and spoke to him; he asked me if I had been at his hut, and I said "Yes;" he said "I have had to be away for some cause;" I said "I think you are pretty often away," and I then rode on; on the occasion of my second visit, the hut was in the same state as the time of my first visit; the hut did not appear to have been abandoned; I will not swear there were no cooking utensils there on the occasion of my second visit; I have ridden by the selection twice since, and I have never seen the selector on the selection.

Cross-examined by Mr. James: I went into the hut on the first occasion; I am pretty sure I saw no bed; I did not see any cooking utensils; I did not take a note of what I actually saw there; I did not see selector on the first occasion, and I do not remember seeing anyone at the slip-rails; it is possible, but I do not remember; I do not think it was Benn; I saw the selector on the second visit after I left the land; I saw him about half-a-mile away from the selection; I told him I was at the selection on that occasion; he did not tell me that he saw me at the selection on the first occasion, and that he did not know me when I told him I thought he was very often away; I formed that opinion from my visits; I fancy there was a stretcher in the hut at the time of my second visit; I did not go into the hut; it had the appearance of not being occupied for some considerable time, I have ridden by the land on two occasions, and have not seen selector; it is possible he was working on the land and I did not see him; in my report I stated I believed selector lived with his father, but it was merely a conjecture; I often make such reports as that.

By Board: When I went the first time, I went to find Benn, and I deliberately and intentionally looked for him; if I had met Benn at the slip-rails I should have asked where Benn was, and I do not think I would possibly have forgotten it.

T. MILLER

Sworn by this deponent, Thomas Miller, on this 9th day of August, 1887, at Casino, before us,—

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *Alfred Charles Taylor*, of Deep Creek Station, in the Colony of New South Wales, stockman, being duly sworn, maketh oath and saith as follows :—

By Mr. Allingham:—I have been living at Deep Creek Station for six years; I know Zachary Benn's selection since it was taken up; Deep Creek Station is scarcely 2 miles from Benn's selection, and in going to Wooroowoolgan Station I passed through the selection; on an average I passed through the selection once a week for the last six years; I remember the selection being taken up, and I recollect the hut being erected on it; it is 18 feet in length, and 11 or 12 feet wide, made of slabs with bark roof, and a sheet of bark for a door. I made many visits to the selection, and I kept a diary of them. I first went to the selection on the 30th January, 1885; I did not go into the hut; there was no one on the selection at that time; I next visited it on the 6th of February; I did not go into the hut, the door was fast, and I did not see anyone on the selection; it was in the day time I went there; I next visited it on 14th of February; the door was fastened from the outside, and there was no one about the place; from the appearance of the place I should say no one had been there recently; I next visited it on 24th of February, and the place had the same appearance, and no one there; the door was propped up from the outside; I next visited it on the 24th March, and the same result, the door was still propped up; I next visited it on the 31st of March, and saw no one on the premises, the door being still propped up from the outside; I was in the hut on one occasion only; I visited the hut during 1885 as follows :—15th, 16th, 29th, 30th of May; 8th, 15th, 16th, 29th, 30th of June; 8th, 9th, 11th, 16th, and 21st of July; 11th, 22nd of August; 3rd, 23rd, 28th September; 13th, 19th, and 21st October; 4th, 5th, 17th, 19th, 30th of November; and I went some time in December with Mr. Alex. Campbell; I did not see selector on any of these occasions, and the door was fastened from the outside on all these occasions; from the appearance of the place it did not seem to be occupied; I had instructions to see if anyone was occupying the place; I first visited the selection in 1886 on the 27th January, and on the 28th January, on the 12th and 27th February; 4th, 9th, 17th, 26th March; 2nd, 13th, 15th April; 5th, 27th May; 5th, 14th June; 7th, 14th July; 9th August, 22nd August, 27th August; 16th, 25th September; 11th November, 17th November; 20th December; I did not see anyone there on any of my visits; the door of the hut was closed; I went always in the day time at all hours; I visited the

selection

selection on the 12th and 27th of January, 1887; 12th February, 1887; 17th, 21st March, 1887; 15th, 23rd April, 1887; 16th May, 1887; 21st June, 1887; 25th July, 1887; during my visits in 1887 I did not see selector; the door was fastened with a padlock; I sometimes worked near the selection for a day or two, and I never saw the selector; the hut did not appear to be occupied at night; I have only seen the selector on the land five or six times; I know where his father resides about 3½ or 4 miles away from the selection; I do not know where selector resided; the selection is open country, and in riding through it I could see over it; on one occasion when I was there I saw selector erecting a sapling fence.

By Mr. James: I always keep a diary to keep down each day's transactions; I keep the diary at home and do not carry it about with me; I made the notes on a Saturday evening, generally every week; it was done pretty regularly; I was instructed by Mr. Donald Campbell to make these visits, and I thought it part of my duty; I did not report to Mr. Campbell every week; I never told anyone I was watching Benn; I did not tell anyone I was doing it; Mr. Campbell did not tell me why he wanted me to do it; I did not make all the visits to the place specially; I did not see Benn once on any of the occasions set down in my diary; except on one occasion, I never went into the hut; the selector may have been in the hut; I did not look for him; I did not ride all over the land on each occasion; I rode straight through it; the selector certainly may have been on the land; I made no particular search for him; I am satisfied he was not on the ground; it is quite possible he may have been on the ground on any one of these occasions; the hut was closed from the outside; I never went there at night; I am not certain he did not sleep there; I saw him on five or six occasions and spoke to him; I did not tell him I was watching his place; I made these visits generally alone, and I never told Benn what I had been doing, and I never asked him if he slept there at night; there are considerable improvements on the land; I do not know the man's name who made them; I do not know selector did the work himself; I saw him erecting a sapling fence, and erecting a straddle for corn.

By Board: I saw a man fencing; I saw him on each time I went through while he was putting up one line of fence; I never had any conversation with fencer.

By Mr. Allingham: When I visited the hut I saw a part of a blanket in it; it did not appear to be used; there was no furniture in it.

By Board: The reason I did not go in was because I did not think I had any right to go in.

A. C. TAYLOR.

Sworn by this deponent, Alfred Charles Taylor, on this 9th day of August, 1887, at Casino, before us,—

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *James Timms Tandy*, of Casino, in the Colony of New South Wales, Commission Agent, being duly sworn maketh oath and saith as follows:—

By Mr. Allingham: I was formerly book-keeper at Wooroowoolgan Station, and left there twelve months ago; I know Zachary Benn's selection; I visited it on the 5th, 11th, and 28th November, 1885; I went to the hut and did not see the selector there; I went into the hut on two occasions with Mr. Alexander Campbell; no one was there, and no signs of anyone having lived in the humpy, for months, if at all; there was half a blanket in the humpy, a knife and a billy-can; there had been a fire in a corner of the hut, and I should say it never had been a residence.

By Board: I am not in the employ of complainant now.

By Mr. James: I went to the selection to see if the condition of residence was being fulfilled; the interest of the station has everything to do with the employés; if the conditions are not fulfilled on land that is taken away from the station, it ought to be forfeited; I got instructions to go from my employer; I went into the hut to see what was there; I do not think I was committing a trespass in going into the hut; I rode through the selection, and there was no one about; I did not make a particular search; I did not see selector; it was between 4 and 5 o'clock, when we visited it on the two first occasions; and in the morning on the other occasion; I never visited the selection at night, and I cannot say he did not sleep there.

By Mr. Allingham: I have been through the selection frequently, and I saw two men coming away from the fencing on one occasion; they were 40 yards away from me, outside the place, going towards other selectors' places.

By Board: The two men I saw in 1885 appeared to be a grown up man, and a youth, and one looked like the selector.

Sworn by this deponent, James Timms Tandy, on this 9th day of August, 1887, at Casino, before us,— JAMES TIMMS TANDY.

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *Alexander Campbell*, of Wooroowoolgan, in the Colony of New South Wales, Overseer of Wooroowoolgan Station, being duly sworn, maketh oath and saith as follows:—

By Mr. Allingham: I know Zachary Benn's selection; I have known the land a long time; I first visited it on the 11th November, 1885, and subsequently on the 28th November, and 5th December, 1885, and 9th June, 1886; when I visited it, I went to the hut about 4 or 5 o'clock; I went inside, and there was no sign of anyone living there; I did not see anyone there; I have often been on the land since July, 1884; about once a month; I rode over the land on those occasions, and never saw the selector there; the hut showed no signs of residence whatever.

By Board: I saw someone fencing there; I did not see them very often; I saw them when they were fencing; I do not think Zachary Benn was one of the men; I was not close enough to identify them; there had been a fire inside the house some months back; no signs of habitation, or tracks about the hut.

By Mr. James: I did not see a bed or bunk in the hut; there was part of a blanket, an old pint pot, a billy-can, and a knife inside the hut; I went into the hut on each occasion, and never found anything more than what I have stated; I never went there at night; I cannot say if the selector slept there at night; I never saw the selector there, that I can remember; he may have been on the ground somewhere.

Sworn by this deponent, Alex. Campbell, on this 9th day of August, 1887, at Casino, before us,— ALEX. CAMPBELL.

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *Zachary Benn*, of Shannon Brook, Casino, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows:—

By Mr. James: I am the holder of a selection of 202½ acres, in the parish of Shannon, taken up on the 24th of July, 1884; I went to reside somewhere about two months after selecting; when I first went there I put up a bit of a hut; I was sleeping on the land under a tarpaulin while I was putting up the hut; I took my team with me; I lived in the hut about twelve months continuously; I then put up a better class of house and removed into it, and continued there ever since; from the time I first went to live there, I have not made any other place my home; I slept on a bunk for a couple of months, and then got an iron stretcher, which I have used ever since; I used to have my supper and breakfast in the hut, and used to take my dinner away with me if I was far away from the hut; my sister used to cook for me and do my washing; I used to go for my food and washing a couple of times a week; I was never away from the selection except now and again, when I went to give my brothers a hand; the longest time I have been away is six weeks, when I had my foot cut with an axe; I was at my brother's place during that time; I went to my brother's place to be nursed; there was no other

other time on which I was away, except for a week or day or two with my brothers ; I heard what Inspector Miller said ; at the first time he came there was a bunk in the hut; the bunk was about two months in the new house ; I saw the Inspector at a distance when he first visited the selection ; I saw him going through my slip-rails ; I did not speak to him; I thought it was someone going through the paddock ; I found out who it was about a day or two after ; I saw him on the second occasion about half a mile from the selection ; I was fetching some iron and flooring-boards to the selection at the time ; there was an iron stretcher, bucket, bedding, billy-can, a couple of cups and saucers, and three or four knives and forks in the hut when the Inspector visited it the second time ; I am a single man ; I am quite positive that I have made the selection my *bona fide* home, and I have no other home ; my sisters used to cook for me at my brother's place.

By Board: I was bringing iron to cover the house when I met Inspector Miller ; I covered the house with it.

By Mr. Allingham: I cannot tell you in what year I was born ; I was born on the Myall River, but I cannot say what month or year ; my father went to the Lands Office with me, and he found the money ; I had no means of my own ; I was 16 years when I selected ; I went on to the land in September ; I worked at farming one year, and my father used to find me in means ; I went on to the selection two months after I selected ; I took my father's bullocks, and lived under a tarpaulin until I put up the hut ; I put up the hut in September, I think ; I lived in the hut for twelve months regularly ; I used to be away at odd times, sometimes at town or at my neighbours' ; I used to live on the land for weeks, and then be away for a week at my brothers', giving them a hand ; I cannot tell you how many weeks I was away during the first twelve months ; I might have been away twelve weeks ; I will swear I was not away twenty weeks ; I did not stay away a whole month at a time ; I never baked bread on the selection ; I only used to cook my beef there ; I cannot say how long I was away during the second year ; three months at the outside, but not at a stretch ; I was giving my brothers a hand ; my sisters did the cooking and the washing ; I was away about a couple or three months during the third year, and my sister did the cooking ; I will swear I was not away six months at a time ; I know a man named Taylor ; I do not know how it was that he went there sixty-eight times and never saw me ; I have seen him there seven or eight times when he was riding through it ; my father found me in everything ; I had to work on the place ; I had blankets in the place, and a bunk during the first twelve months ; sometimes I would be away a week, and sometimes I would be there all the week; my brothers' names are John and Tommy ; at the time I took up the selection my father was living on his selection ; my brother owns his place, about 4 or 5 miles from my selection ; I worked with a man named Doyle for a week, fencing for the station ; I do not remember working for anyone else, except my brothers ; they slept on my selection with me ; I know Mr. Tandy and Alex. Campbell ; the country is open and ringbarked ; I was along the creek when the Inspector visited the land ; I had the bunk and the blankets and cooking utensils there at the time.

By Board: There was a man named James Mathers fencing the land ; remember seeing Inspector Miller at the slip-panels ; I slept on the selection that night and the night before.

By Mr. Allingham: I cannot tell what year I was born in.

By Board: John O'Connell and Mathers were fencing ; Mathers did about a mile and a half ; O'Connell worked with me, fencing for about nine months ; we did not work the whole nine months at the fence ; we were sinking a tank during that time ; I cannot say how many nights I did not sleep on the selection ; I cannot say how long we were engaged at the fencing ; we fenced the creek with a sapling fence, and we were at it about nine months off and on ; the ringbarking was done by the blacks.

ZACHARY BENN.

Sworn by this deponent, Zachary Benn, on this 9th August, 1887, at Casino, before us,—

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *James Burns*, of Shannon Brook, in the Colony of New South Wales, grazier, being duly sworn, maketh oath and saith as follows:—

By Mr. James: I know Zachary Benn's selection in the parish of Shannon ; I remember when he took it up in July, 1884 ; I remember when he first went to live on it, very shortly after he took it up ; he put up a bark hut first, and lived in it for some time ; he has put up another one since ; a slab house with iron roof ; he continued to live there up to the present ; I live about a mile and a half from his selection ; my selection is next but one to his ; I have had every opportunity of seeing him ; he slept in the hut ; I have been there frequently at night ; at times I have been there as often as two or three times a week, and on all occasions I found him there ; to the best of my knowledge it has been his *bona fide* home ; I have not known him to be away any length of time ; I have never known him to be away more than a week.

By Mr. Allingham: I am intimate with Benn ; I visit other neighbours ; I went to Benn's place for company, and have kept it up ever since he has been there ; I used to go there after sundown ; I was a witness for old Benn ; I was up for non-residence on my own selection ; Benn cooked on his selection ; I am certain he cooked his tea there ; I cannot say if he cooked his dinner on the selection ; every time I went there he was on the selection ; he had plenty of blankets there, a stool, table, oven, billy-can, and bucket ; I did not know John Benn had a place ; I know a man named John Benn ; I cannot say where he lived when the selection was taken up ; I cannot say how long he has been away ; I know old Benn's place ; I have seen the selector there, but I have never seen him sleep there ; I saw him after he cut his foot, but cannot say where he stayed.

By Board: I used to go down to Benn's place about sundown, and stay for an hour and a half or two hours ; I left the place at half-past 8 or 9, and I cannot swear he slept there, because I never slept there with him.

JAS. BURNS.

Sworn by this deponent, James Burns, on this 9th day of August, 1887, at Casino, before us,—

———, Chairman.
JOHN C. IRVING, S. GARRARD, } Members of Board.

This deponent, *James Mathers*, of Dyrabba, in the Colony of New South Wales, labourer, being duly sworn, maketh oath and saith as follows:—

By Mr. James: I know Zachary Benn's selection in the parish of Shannon ; I have been there ; I went there in the latter end of August, 1884 ; I went there to fence the selection ; I was the first that went there, and the selector came there after me ; he put up a yard for bullocks, and was sleeping under a tarpaulin ; he put up a small bark house and slept in it; I had a tent alongside of it ; I finished in the beginning of January ; Benn was there the whole time, with the exception of an odd night or two ; he was there continuously with that exception.

By Mr. Allingham: I was in his hut ; he had blankets and cooking utensils there ; old Benn lives up the creek, and I will swear he slept most of his time in the hut ; he was away an odd night or two while I was there ; I do not think he was under the tarpaulin two months.

By Board: I fenced in the selection from creek to creek ; I put a few panels along the creek ; that is all that was there when I left ; I never went round the creek, and cannot say if it was a sufficient boundary.

J. MATHERS.

Sworn by this deponent, James Mathers, on this 9th day of August, 1887, at Casino, before us,—

This

This deponent, *John O'Connell*, of Coraki, in the Colony of New South Wales, labourer, being duly sworn, maketh oath and saith as follows :—

By Mr. James : I know Zachary Benn's selection ; I have been there ; I went there in January, 1885, to work for Zachary Benn ; he was living there at the time ; when I went there first he had only a humpy ; he afterwards put up a better house while I was there ; I remained there twelve or thirteen months ; I slept on the selection in the house with Benn all the time ; Benn slept there all the time ; he went to his brother's place a few times to give him a hand ; he had bedding, a stretcher, and cooking utensils in the hut ; I went away to draw cedar in February, 1886 ; I was there three months ago to give him a hand to put up a shed ; Zachary Benn was living there.

By Mr. Allingham : I first went to Benn's in January, 1885, and slept in the hut with him with the exception of a few nights ; his sister cooked bread for us ; we used to cook our own tea in the hut ; we had a fire-place in the hut with a chimney ; there was no chimney in the first hut, and we used to cook outside ; I have often seen Taylor riding through the paddock ; I never saw him at the hut ; we had two bunks in the first hut, and an iron stretcher in the second ; Benn's father engaged me for £35 a year to work on the selection, and told me it was his son's ; Zachery Benn found me in rations ; I do not know where he got them from ; I do not think Benn was away twelve weeks during the time I was there, but I will not swear he was not ; I do not think I was away twenty weeks.

By Board : I did between 1½ and 2 miles of fencing along the creek ; it was a post and sapling fence ; the creek would not keep out cattle ; we were a couple of months or more putting it up, and during that time we were sinking a water dam for cattle ; it was about 20 feet long and 10 or 15 feet wide ; I think we were a couple or three months working at it off and on ; I did the fencing first and then went to the dam ; I think we made it in May or June, 1885 ; it is at Studder's side, near the fence ; the new hut was up in April, 1885 ; there was bark on it for a few weeks ; I did not see Inspector Miller there in August.

By Mr. James : I know Zachary Benn's selection in the parish of Shannon ; I first knew it in May, 1886 ; I was doing some ringbarking for the station close by ; Zachary Benn was living on the selection at the time ; he slept there, and I slept with him one night ; there was an iron bedstead and bedding, cooking utensils, tea, sugar, and flour in the hut ; I saw him on two or three different occasions on the selection ; he used to come to my camp and spend the evening, and stay until 9 or 10 o'clock, and then go back ; my camp was a mile and a half from the selection.

By Mr. Allingham : Old Benn's selection is 3 or 4 miles from where my camp was ; I saw flour in the hut ; I had something made from it, but I cannot say where it was made.

By Board : The hut was about 20 by 12, and the bed was big enough for two ; I never saw Mr. Burns there ; I only slept in the tent a couple of nights ; I was camped there, and had my own blankets.

By Mr. James : I know Zachary Benn's selection ; I first went out there in November, 1885, to see some fat cattle in Benn's paddock ; I found Z. Benn there burning off logs ; I went to the door of the hut ; it was open ; I saw some stools, cooking utensils, pint pots, and a bed ; the hut appeared to be occupied as a single man's residence ; I went again, about two months after Christmas ; there was nobody in the house ; I cooeyed, and the selector came up with an axe in his hand ; I did not go into the hut ; I went out a few weeks after, and took away the cattle ; the selector was there, working in the paddock ; I did not go into the hut ; I saw it afterwards coming from Deep Creek Station ; I saw the selector there, and I said, "It is a good job you are here ; I have come to jump your claim ;" I crossed the road from the hut, but did not go into it ; I know selector's father ; I know where his place is, and have been there several times, sometimes on Saturday night and remained till Monday ; I saw selector there once or twice during the day-time, but never at night, except when he was laid up with a bad leg three months ago.

By Mr. Allingham : I did not go to the selection by appointment ; I am a good friend of the Benns ; I am not a cousin ; I was in the hut in November, 1885 ; it was a slab hut with iron roof ; the boy was laid up at his father's with a bad leg ; I was there dozens of times at night, and never saw selector there ; I was not summoned here to-day ; I was asked to come, and I did ; when I went to take the cattle I had no appointment ; I bought the cattle from the father.

By Mr. James : I know Z. Benn's selection, in the parish of Shannon ; I know about the time he took it up ; I used to visit the locality regularly as a hawker every month, and passed the selection ; Benn had two men splitting, and blacks ringbarking, and I have seen him there ; I did not go to the hut, but I spoke to him ; I saw him on three different occasions on the selection at different times when making my usual trips ; on one occasion he was cutting poles, and stopped me to buy tobacco ; on the second occasion he was engaged about the place ; on the third time he came off the selection to me.

By Board : I was hawking and making my rounds until September, 1885 ; I was passed the selection a dozen times, and only saw him three times.

William Joseph Fanning, recalled, states as follows :—

By Board: Taylor and the employés of the station visited Benn's selection first by Mr. Campbell's directions, and then by mine; we watched him to see if the conditions were being fulfilled, in order that the selections might be forfeited; I am aware that a number of selectors are on the same run, and I do not believe the lessees have taken any action before.

By Mr. James: By obtaining the forfeiture of the conditional purchase we would be getting rid of an undesirable neighbour, and the land would revert to the run.

By Mr. W. Allingham: Other selectors are watched besides Benn.

No. 7.

Decision of Local Land Board.

[Crown Lands Act of 1884.—Part 2, section 14, sub-section 4].

New South Wales to wit.

WHEREAS on the 9th day of August, 1887, it became a matter for investigation before us whether the conditions of the law have been complied with by Zachary Benn upon his conditional purchase of 202½ acres, selected at Casino, on the 24th July, 1884, under section 13, Act of 1861. Notice of prosecution of complaint having been lodged by Donald Campbell, on the 11th November, 1885, as having taken evidence and inquired into the said matter, we find, on careful consideration of the evidence given by the witnesses for the complainant, W. J. Fanning, manager for Griffiths, Fanning, & Co., lessees of Wooroowoolgan station, and for said Zachary Benn, the defendant and selector, that complainant has substantially proved that Zachary Benn has not fulfilled the condition of residence in accordance either with the spirit or letter of the law. Consequently, our unanimous decision is that the selection of Zachary Benn above referred be forfeited, under the 20th clause of the Lands Act of 1884. The Board desires to state that it considers the witnesses produced by the complainant as trustworthy and credible, and those of the defendant as wholly unreliable, except Mulhearn (the butcher) and Carlill (hawker). Especially does it consider the evidence of young Zachary Benn, the defendant, entirely unbelievable.

Mr. Fanning visited Benn's hut but once, but he was not there; no tracks, no sign of recent occupation; passed the selection many times, but never saw Benn till after October, 1886, when the case was called; saw him several times after this.

A. C. Taylor, stockman, living 2 miles from Benn's conditional purchase, swore that it was his business before Benn took up the land, and after, to pass through it on an average once a week for six years; went by instructions when the selection was made to see if Benn was residing; went seventy times specially to see if he was there, at all times of the day, between January, 1885 and 25th July, 1887; never saw him there; hut always fastened or propped up from the outside; did not go in but once; saw selector five or six times on the land and spoke to him. It is important to note this, as selector, when asked if he ever saw Taylor, said he did seven or eight times, thus proving that when both were on the land at the same time, they saw one another. Taylor appears to have seen whoever was on the land; always saw the man employed to fence the selection. No furniture in hut. James Tandy, formerly book-keeper, visited Benn's hut 5th, 11th, and 28th November, 1885; selector not there; no signs of residence for months, if at all. Alexander Campbell (overseer) visited conditional purchase 11th November, 1885, and 28th; also on 5th December, 1885, and 9th June, 1886; no sign of residence; often on the land since 1884; never saw selector, but saw men fencing. Inspector Miller corroborates the testimony of these men.

In the face of this evidence, the defendant Benn swears he lived in the hut continuously for the first twelve months, then put up a new hut, and continued there ever since. Cross-examination seriously modifies this statement, and there is evidently much absence.

James Burns strongly supports Benn, but makes him out a much better resident than Benn does himself. He begins by swearing that Benn slept in the hut, and ends by admitting he cannot swear it.

James Mathers swears Benn lived on his land from September to December, 1884 inclusive. He (Mathers) was employed to fence the selection.

John O'Connell swears he worked for Benn from January, 1885, for twelve or thirteen months, and slept in the house with him all the time, and there was bedding, stretcher, cooking utensils. Cross-examined, he does not think Benn was away twelve weeks in that time; does not think he, himself, was away twenty weeks; was five months fencing and making a dam with Benn—a couple of months at the sapling fence and two or three months at the dam, off and on. This five months Benn makes nine months, off and on.

It is not necessary to refer specially to Benn's other witnesses; as far as they go, they are in favour of Benn. If Benn had been able to show that the improvements had been substantially done by himself

himself it would be a different matter. This he does not show. The 202½ acres are all ringbarked, but they were ringbarked by the blacks. The fencing was substantially done by Mathers, and when the Board sees how little he did, and how little he had to do in reality, it does not wonder that the door of his hut was so often found fastened up or padlocked from the outside, and, as a matter of course no tracks without, and no signs of residence within.

The £10 deposit by complainant should be refunded. Professional costs £1 1s.. and £1 1s. for attendance to Mr. Tandy, to be paid by Z. Benn, recoverable in the prescribed manner.

Given under our hands, at the office of the Local Land Board, at Casino, Colony of New South Wales, this 9th day of August, 1887.

[Crown Lands Act of 1884.—Part II, section 17.]

Amended Notice of Appeal to the Minister from decision of Local Land Board to be lodged with the Chairman.

New South Wales, }
to wit. }

WHEREAS, on the 9th day of August, 1887, a certain matter, wherein a complaint made by Donald Campbell, on the November, 1885, that I did not reside upon my conditional purchase of 202½ acres, in the parish of Shannon, came before the Local Land Board, at Casino, in the Colony of New South Wales, for decision, I being a party to such proceedings, and the said Board, after having inquired into the premises, decided that the conditions of residence had not been complied with and the purchase should be forfeited, and awarding £2 2s. costs to opposite party. And whereas I am dissatisfied with such decision, and intend to appeal therefrom to the Minister. These are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal. And the grounds of such appeal are annexed.

ZACHARY BENN,
Shannon Brook, Casino.

To the Chairman of the Local Land Board, at Grafton.

Grounds of Appeal.

1. That the decision of the Board is entirely against the weight of evidence.
2. That the conditions of the law have been duly complied with, as clearly proved by disinterested witnesses called on that behalf.
3. The complaint having been lodged in November, 1885, the action of the Board in admitting evidence subsequent to the date of such complaint was entirely erroneous, and such evidence should not have been admitted under any circumstances.
4. That I received notice from the Land Court that the complaint, dated November, 1885, would be dealt with, and was not aware the Board would admit evidence subsequent to such date.
5. The appellant submits, under these circumstances, that the decision of the Land Board, declaring his conditional purchase forfeited, should be reversed.

No. 14.
The Chairman, Local Land Board, to The Under Secretary for Lands.

In *re* appeal of Zachary Benn.

THE complaint *v.* Benn was lodged in November, 1885, but in the hearing of the case the date was lost sight of, and evidence received from both parties after that date. But appellant's solicitor, Mr. James, raised no objection; on the contrary, he cross-examined the witnesses, and produced counter evidence in reply also after the date; thus, perhaps, condoning the original irregularity; nor is any exception taken on the grounds of appeal.

It has never been necessary for witnesses to account for every day of a selector's residence to establish non-fulfilment, and the seventy or eighty times Benn was found away, amid surroundings and circumstances implying still longer absence, are taken as "specimen days" in his career as a selector, and as the rule, not the exception.

The appellant declares that the decision of the Board is against the weight of evidence adduced. The Board intends it as against the weight of perjury exhibited, and after carefully noting the demeanour of witnesses.

Memo. from The Chairman, Local Land Board, to The Under Secretary for Lands.

THE papers in this case have been forwarded since when this amended notice of appeal has been received, and is now forwarded.

See my former memo., with the papers. I have only to add that Benn, by his lawyer, now specifies new grounds of appeal, and, evidently on second thoughts, will no longer depend on the weight of evidence adduced in his first notice of appeal to bring him through, but falls back on a technical error in admitting evidence, I admit, after the date of the complaint, but which his lawyer accepted without ever raising any objection, and met with "a weight of evidence," also beyond the date of the notice. No doubt the Board lost sight of the date of the notice, and all the more as Benn's solicitor, who had a copy of it, met the case on its merits without taking any exception.

APPEAL against the forfeiture of his conditional purchase, 84–75, Casino, as recommended by the Local Land Board, Mr. P. Hogan appeared for the appellant.

Mr. Hamilton appeared on behalf of the lessees of the run in support of the finding of the Board, and raised the objection that the appeal could not be heard, as the notice of appeal was not lodged within the twenty-eight days prescribed by clause 17, and regulation 176 of the Crown Lands Act of 1884.

As the point taken was borne out by the papers before him, the Minister held the objection to be fatal, and, therefore, dismissed the appeal, the deposit to be refunded.

No. 22.

Mr. T. Benn to The Secretary for Lands.

C.P. 84-75, Casino.

Sir, Casino, 11 February, 1888.

I would respectfully bring under your notice what I deem a very hard case. I was one of the earliest selectors under the Land Act of 1861, having taken up 50 acres in February, 1862, in the Port Stephens District, and afterwards two additional portions of 40 acres each as my limited means permitted. Having a large family growing up, and being unable to extend my holding there, I had to sell out. I then came to the Richmond River District, and selected 246 acres on Wooroowoolgan Run in this district; but was prevented from extending the area through the owners of the station being permitted to surround my holding with Volunteer Land Order Purchases.

I then selected 113 acres in an adjoining parish, and the station-owners used every means to have this selection forfeited, but did not succeed, as it was confirmed by the Local Land Board some twelve months ago; but for some unaccountable reason I have not yet been able to procure the usual certificate.

In July, 1884, one of my sons, Zachary Benn, selected 202½ acres also on Wooroowoolgan Station, and had performed the conditions required by law up to August, last year, when an inquiry was held by the Local Land Board, on the complaint of the manager of Wooroowoolgan Station, as to my son not having fulfilled the residence condition. Excepting the Government Inspector, who had visited the land twice, and admitted having on one occasion met my son carting building material to his selection, no witnesses were called in support of the complainant's allegations except station employés, and the manager of the station admitted that his object was to have the land forfeited, so that it would revert to the run, it being within the leasehold area. On the other hand, my son called a number of witnesses who were totally disinterested and had nothing to gain in any way, and had not, as the complainant's witnesses admitted, been specially instructed to act as spies.

The Local Land Board decided to recommend forfeiture of my son's selection, thus depriving him of his house and causing considerable loss in labour and improvements thereon.

Acting for him, he being under 21, I lodged written notice of appeal with the Chairman, together with the £10 deposit. The latter was accepted, and I was requested to lodge an amended notice of appeal on the printed form, which I did, not being previously aware that such forms were procurable in Casino, or that it was absolutely necessary to use them.

That proper notice was only received by the Chairman only one or two days beyond the time allowed by the Act, but the written notice and £10 deposit were both in the Chairman's hands in ample time.

As

As you are aware, the appeal was dismissed by the Land Court, on the technicality evidently raised in the Chairman's report on the case, that the printed appeal was not received in due time.

I am satisfied that a careful perusal of the evidence taken by the Casino Land Board in regard to my son's selection will convince you that a very great hardship has been done, and therefore I would respectfully urge a rehearing by the Land Court of the appeal lodged, feeling sure that the decision of the Board will be reversed if the matter is dealt with on its merits, apart from mere technicalities.

I have, &c.,

I, WILLIAM EDWARD MEE, auctioneer, of Casino, do solemnly and sincerely declare that I know the selection of 202½ acres, parish of Shannon, taken up by Zachary Benn during the month of July, 1887. On that occasion I saw the selector and other men having dinner in the house on the selection; they all had the appearance of having just left off work. The house had the appearance of being a regular habitation. And I make this solemn declaration conscientiously believing it to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

I, JOHN STUDDERS, farmer, of Shannon Brook, do solemnly and sincerely declare that I know the selection of 202½ acres, parish of Shannon, taken up by Zachary Benn, during the period between August, 1884, and the middle of 1887. I have seen the selector both in the day and at night on the land in question, also going along the road to and from the said land. I have seen maize growing on the land, and know of my own knowledge that the land was cultivated by the selector. I am satisfied selector was making the land his home at the times I passed through or by the land. I have done so dozens of times. The land is all fenced, the timber ringbarked, and a portion cleared and cultivated. I have no interest in the matter whatever, and even at the present time am not on friendly terms with the selector's relatives. And I make this solemn declaration conscientiously believing it to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

I,

I, SYLVESTER SHANLEY, of Casino, do solemnly and sincerely declare that during the early part of 1887 I passed through the selection of 202½ acres, parish of Shannon, held by Zachary Benn, on three different occasions. On two occasions I saw the said selector on the ground ploughing, and saw a recently-erected corn straddle on the selection. On the third occasion I went to the house erected on Zachary Benn's selection. The house was then locked up; between 10 and 11 o'clock in the forenoon, but had every appearance of being inhabited constantly. On that occasion Benn was under medical treatment for a serious wound on the foot. The whole of the land, except the creek frontage, which formed a boundary, was enclosed with a substantial fence, and the general appearance of the place was that of a *bona fide* selector's home. There were a number of working horses and cows on the selection. I am no connection of the selectors, and have no interest in the matter in question whatever. And I make this solemn declaration, conscientiously believing it to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

I, JOHN RYAN, the elder, of Dyrabba, do solemnly and sincerely declare that I formerly resided at Shannon Brook. I know the selection of 202½ acres, parish of Shannon, taken up by Zachary Benn, during the years 1884, up to about the end of 1886. I saw the selector on the land in question, or proceeding thereto. On one occasion the selector remarked to me that he had just met the Inspector of Conditional Purchases, and I replied, "He will be after reporting you absent from your selection." On that occasion the selector was conveying building materials to his selection. On two other occasions during the period stated, I saw the selector drawing fencing stuff with bullocks from off a portion of his selection to the line where men were then engaged erecting fencing to enclose his land. I am no relation of the selector, nor have I the slightest interest in the matter in question. And I make this solemn declaration, conscientiously believing it to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

I, GUSTAFO PETERSSON, farmer, of parish Bundock, near Shannon Brook Creek, do solemnly and sincerely declare that I know the selection of 202½ acres, parish of Shannon, taken up by Zachary Benn. On about half a dozen different occasions I visited the selection referred to on business with the selector, in the years 1884 to 1886, and always found Benn resident there. Went into his house on the land, which was provided with all that was necessary for a single man's use in a house. On several occasions selector left my place late in the evening to return to his own selection, and to do so had at different times to swim his horse across Shannon Brook Creek. A portion of Benn's selection was under cultivation with a growing crop, and the land was fenced in. From what I saw in the house and on the land, I am satisfied selector made it his home. I have no interest whatever in the matter in question. And I make this solemn declaration, conscientiously believing it to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Conditional Purchase, 83-41.

Sir, Trunkey, 31 May, 1883.

I have the honor to transmit herewith the plan of one portion of land containing 200 acres, numbered 76, in the parish of Swatchfield, in the county of Westmoreland, conditionally purchased by James Cumming Stevenson, under the 21st section of the Crown Lands Alienation Act, measured by me on the 1st May, 1883, in accordance with instructions No. 135, dated 30th October, 1882, issued to Mr. Licensed-Surveyor Mylecharane. This portion is situated within the Oberon gold-field, open to conditional purchase.

I have to report that at the time of survey improvements had been effected on this portion, consisting of fencing, £6. In surveying this portion, I asked the applicant if he would accept the land so as not to extend further north than the southern boundary of 36, but he stated that his main object in applying for the land was to get a suitable place for making a dam for the conservation of water, and the little gully at the north-west corner was the only suitable place for that purpose.

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES CUMMING STEVENSON, of Black Springs, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that the improvements, consisting of fencing, clearing, and buildings, and to the value of 10s. per acre have been made on such land (and that no alienation of the land has been made by any of the above-named holders, until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits.

AREA of conditional purchase applied for, 180 acres; area suggested, subject to survey, 170 acres. Total area of prior conditional purchase of series, 400 acres; portions, Nos. 30, 74, and 76.

1. The above application has been recorded upon the maps in this office.

2. On the tracing herewith the prior conditional purchases, apparently held by applicant in the same series, have been shown by blue tint; the land applied for, by blue lines; and the area suggested to satisfy the application has been shown by red edging.

3.

3. The applicant applies for 180 acres, but describes, exclusive of necessary reservations for road purposes, only about 170 acres, which area it is suggested he should be restricted to.

4. The position of prior conditional purchases of the series, together with that of other adjacent alienations, preclude an adherence to the provisions of the 59th section of the Act, and therefore, approval under the powers conferred by the 60th section is suggested.

5. In the description, applicant refers to portion 8, and evidently intended portion 80. As the area suggested is plainly that intended to be described, it is submitted that approval be likewise granted under the 57th section.

Declaration upon additional conditional purchase 82–57 requires verification. All papers in connection with the case are therefore referred to the Chairman of the Local Land Board, Orange, with a view to the necessary instructions being issued to the Inspector of conditional purchases at an early date.

If the report, when furnished by the Inspector, shows that the improvements are not sufficient on additional conditional purchase 82–57, or that there is not a surplus from those on the original conditional purchase and intermediate conditional purchases of this series to cover the deficiency, an investigation by the Local Land Board may be instituted, subject to the provisions of the 20th section of the Crown Lands Act of 1884.

You are hereby notified to attend at the Court-house, at Bathurst, on the 9th day of March, 1886, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

Your application of 1st October, 1885, for an additional conditional purchase of 180 acres, made at Bathurst.

No. 21.

The Chairman, Land Board, Orange, to Mr. Inspector Sim.

Sir, Local Land Board Office, Orange, 1 March, 1886.

I beg to transmit herewith a schedule of conditional purchases taken up under the repealed Acts; and I am to request that you will endeavour thoroughly to ascertain how far the condition of residence has been complied with, from the date of occupation to the end of the residence term, by the original purchaser, or his alienee or alienees, should the land have been transferred, bearing in mind that every original purchase (except under the 19th clause of the Alienation Act of 1861), with the additional selections made in virtue thereof, will, as regards residence, be dealt with as one holding, and residence on any one portion be deemed a fulfilment of the law.

Whenever a conditional purchase has been taken up under the 22nd clause by virtue of a freehold under the Alienation Act of 1861, it will be sufficient that the conditional purchaser should have been resident on the freehold at the date of selection; but when such purchases have been made since the passing of the Lands Act Further Amendment Act of 1880, it will be necessary that there should be five years residence, either on the freehold before the conditional purchase was made, or on the freehold or conditional purchase after the selection was taken up. Of course, if anyone has resided on his or her freehold for any portion of time, it will only be necessary to reside for the remainder of the five years on the freehold or conditional purchase.

Original conditional purchases under the 13th, 14th, and 19th clauses of the alienation Act, together with the additional purchases made in virtue thereof, will be regarded, in so far as improvements are concerned, as one holding; and I am further to request that you will furnish me with as concise and accurate a statement as you can of the nature, extent, and value of the improvements alleged to be made, and also that you will carefully note whether they are on the additional conditional purchases, the originals, or on the freeholds by virtue of which the additional purchases were selected.

With regard to improvements under the 19th clause, I am specially to point out that a sum of money equal to £2 per acre must be expended in mining operations on the land selected for mining purposes, or upon any adjoining lands held and used in connection therewith; but should the area of any such purchase be reduced (say) for instance, from 200 acres to 40, as specially contemplated by the 19th clause of Alienation Act, then a sum of money equal to £5 per acre must be expended in the said operations on the reduced area.

I also transmit tracings of the conditional purchases made therefore. In all cases in which any special action has been taken, or serious complications have arisen, sufficient information for your guidance will be afforded you in the accompanying schedule.

It is confidently expected that, if these general directions are intelligently carried out, such a reliable statement of the facts of each case will be obtained as will enable the Board to report to the Minister for Lands whether the conditions of residence and improvement have been fulfilled as by law required.

I desire to urge upon you the necessity for immediate action in this matter, and request that you send your report hereon to the Head Office of the Board with as little delay as possible. You will receive intimation should you be required to give evidence.

I have, &c.,
C. E. FINCH,
Chairman of the Board.

Report by R. Sim, junr., Inspector of Conditional Purchases, respecting the selection of James Cumming Stevenson, made at Bathurst, on 17th August, 1882.

Sir, Swatchfield, 20 April, 1886.

C.P. 82-57 : section 21; portion 76.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 20th day of April, 1886, and that I found the selector then not resident upon his selection.

The land, which consists of grazing, and comprises 200 acres, is occupied and used by selector, and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

200 acres, ringbarked	£15 0 0
Fencing, log and dog-leg	£16 0 0
	£31 0 0
Improvements on original 30 to the value of ...	£350 0 0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Inspector of Conditional Purchases.

Conditional Purchase.

Sir, Black Springs, 16 August, 1886.

I have the honor to transmit herewith the plan of one portion of land containing 204 acres, numbered 39, in the parish of Swatchfield, in the county of Westmoreland, conditionally purchased by James Cumming Stevenson, under the 42nd section of the Crown Lands Act of 1884, measured by me in June, 1886, in accordance with instructions No. 106, dated 1st May, 1886.

2. The improvements consist of fencing worth £15.

3. In consequence of an error in the position of the Oberon to Swatchfield road on parish map, this portion contains considerably more than was anticipated. I wrote to applicant stating that he would probably be offered the option of taking the whole area, or to have 40 acres excised, and received the enclosed telegram in reply.

4. I found no marks on the north boundary of Swatchfield, and therefore ran east from south-east corner of portion 30. This line will be accepted by the owners. Discrepancies in boundaries of No. 30, I cannot account for.

I have, &c.,

J. RUSSELL BLACKET,

Licensed Surveyor.

No. 25.

Memorandum from The District Surveyor to Mr. Licensed-Surveyor Blacket.

Requesting information respecting plan of portion 39, parish of Swatchfield, county of Westmoreland, transmitted with letter No. 86–58, dated 16 August.

District Survey Office, Orange.

FROM data given on above plan, the road through the portion closes as follows:—North, 3,277; south, 3,279; east, 2,414; west, 2,420—disclosing a difference of 6 links between the eastings and westings. Mr. Blacket is requested if possible to explain this difference at his earliest convenience. The close of the survey of the portion attained by calculations in this office, is north, 7,868; south, 7,871; east, 4,400; west, 4,405. The date of the survey is also required.—H.A.C., 27/8/86.

I have examined the lines included in the closing of road against southern part of surround, and found an error of 3 links in the chaining of road line, which should be 90° 10′, 2,079, and also an error of 3′ in my bearing of the east boundary of portion No. 30, which should be 180° 3′, instead of 180, as on plan, the latter error occurred through diverging from the line to avoid fencing, these corrections cause a slight misclose in the reverse direction, but within reasonable limits.—J. RUSSELL BLACKET, 16/9/86. Mr. Gerard, 21 September.

The Under Secretary for Lands to Mr. J. C. Stevenson.

Sir, Department of Lands, Sydney, 12th July, 1887.

The declaration made by you at Bathurst, on the 18th November, 1885, with reference to the conditional purchase described at foot hereof, having been furnished, and it having been reported that an instalment of the balance of purchase money, has been duly paid, I am now directed by the Minister for Lands to notify to you that he is satisfied, after due inquiry, that the conditions as to residence and improvement prescribed by the 18th clause of the Crown Lands Alienation Act of 1861, have been completed in respect of the said conditional purchase.

The deed of grant may be obtained at any time hereafter by payment of the balance of the purchase money, with the interest, if any, then due; but should such payment be deferred, an instalment at the rate of one shilling per acre must be paid between the 1st January and 31st March in each year until the balance, inclusive of interest as prescribed by law, shall have been duly paid, otherwise the selection will be forfeited.

Memorandum from The District Surveyor to The Chairman, Land Board, Orange.

Land District, Bathurst.

Area of conditional lease applied for, 612 acres; area suggested, nil; total area of prior conditional purchases of series, 604 acres; portions 30, 39, 74, 76.

1. The land now applied for does not adjoin the conditional purchase, 85–62, in virtue of which this application is made, being separated therefrom by the prior conditional purchases, portions 30, 74, and 76. Also, the basal conditional purchase was confirmed on 6th January, 1887, prior to this application, which was made on 5th July, 1887, and it is held that the right to take a conditional lease ceases when the conditional purchase in virtue of which it is made has been confirmed.

2. It is therefore suggested that this application should be disallowed.

H. A. CROUCH,
District Surveyor.

21st July, 87–476.

Minute.—The Board disallows the application, as the land applied for does not adjoin the basal conditional purchase (85–62), although it adjoins the conditional purchases of the series held under the repealed Acts.

It will thus be seen, as stated in Part 1 of my previous report of 21st July, the land required does not adjoin the base, and it is, therefore, suggested that the enclosed application should be disallowed.—J. [*Enclosure.*]

Grounds of Appeal.

1. That by the 43rd section of the Crown Lands Act of 1884, it is enacted that the area embraced by any original conditional purchase and any additional conditional purchase made in virtue thereof, shall for all purposes of fencing and residence, be considered as one holding.

2. That by the 48th section of the said Act it is enacted that any applicant for a conditional purchase or an additional conditional purchase of land under the said Act who desires to obtain in connection with such purchase a conditional lease of adjoining land, may lodge with the Land Agent an application for such conditional lease in the prescribed form. The area to be allotted under such lease shall not exceed three times the area of the conditional purchase by virtue of which it is applied for. Provided that the conditional purchase, with any additional conditional purchase, shall not, with such conditional lease, exceed in the Eastern Division, 1,280 acres.

3. That by the 50th section of the said Act, under which the preferrent right to purchase conditional leases is given to conditional purchasers, it is provided that any such conditional lease so purchased shall adjoin the original or any additional purchase.

4. That by the 51st section of the said Act it is enacted that the conditional lessee shall fence the outside boundaries of his conditional lease, and that it shall be sufficient for the fence to be erected on the exterior boundaries of the conditional purchase and conditional lease so as to enclose the whole area.

5. That the conditional lease applied for by me adjoins two of the additional conditional purchases forming portion of the holding in which the additional conditional purchase in virtue of which the conditional lease was applied for is included, and that the whole of the conditional purchases in the series were inserted in the prescribed form of application for the said lease.

6. That the conditional lease, as shown in the annexed diagram, forms with the conditional purchases a compact block, and is land which thus makes the holding more valuable, and does not interfere with the rights of any adjoining holder.

7. That the conditional purchases and conditional lease do not in all exceed 1,280 acres.

Notice of appeal against decision of the Bathurst Land Board, lodged by James Cumming Stevenson.

Sir, Bathurst, 30 November, 1887.

In reply to your letter, No. 5,967, I send herewith notice of appeal on behalf of Mr. J. C. Stevenson, upon the prescribed form as requested.

The £10 I duly sent in my letter of the 23rd instant.

JOHN M'PHILLAMY,
(*Pro* G. H. KITE.)

Minute on No. 38.

In forwarding the enclosed notice of appeal against the decision of the Local Land Board at Bathurst, and with reference to the grounds of appeal, the Board held that—(1) land can be taken as a conditional lease under section 48 only when the lands adjoins the purchase, in virtue of which it is applied for that; (2) It is not sufficient that the conditional leased land adjoins other earlier conditional purchases of the series; that (3) the 43rd section allows of an original conditional purchase and its additional conditional purchases being held to be one holding, only for all purposes of residence and fencing; and that (4) the 51st section makes provision only to the same effect in respect to conditional leases and their associated conditional purchases and conditional leases.

In respect to the third ground of appeal I would submit that the 50th section does not bear on the question at issue; but merely provides that an additional conditional purchase, taken under preferential right out of a conditional lease, shall adjoin one or other of the prior conditional purchases of the holdings. When this case was before the Board at Bathurst we had no knowledge of Mr. Secretary Copeland's decision of the 7th June, 1886. I have now seen the papers upon which that decision was given; but

but I fail to see either how a conditional lease under section 48 can be allowed in virtue of two conditional purchases of the same series (the case submitted by the Dubbo Board, upon which the decision referred to was given) or that a conditional lease under that section can be allowed for land not adjoining its base but adjoining another conditional purchase of the same series. It might be desirable, as a matter of expediency, to allow a conditional lease under the last-mentioned circumstances, but complications would in many cases arise, such as, where the conditional lease adjoins an additional conditional purchase, other than its base which subsequently becomes forfeited, by which the conditional lease would become severed from the conditional purchase holding, and yet would legally stand good; and it appears to me, there being no provision in the Act to meet such a contingency, that the Act did not intend that the conditional lease land should other conditional purchase instead of the one conferring it.—CHAS. E. FINCH, Chairman, Land Board Office, Orange, 3rd January, 1888. The Under Secretary for Lands, Sydney.

Plan attached. Appendix G.

WHEREAS on the 10th day of November, 1887, a certain matter wherein I, James Cumming Stevenson, of Swatchfield, near Oberon, in the said Colony, grazier, made an application to have a conditional lease applied for by me confirmed, came before the Local Land Board at Bathurst, in the Colony of New South Wales, for adjudication, and the said Board, after having inquired into the premises, disallowed the application, as the land applied for does not adjoin the basal conditional purchase, 85–62, by virtue of which the Crown land was taken up although it adjoins the conditional purchase of the series held under the repealed Acts. And whereas I am dissatisfied with such decision, and intend to appeal therefrom to the Minister. These are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal. No. 41.

The Chairman, Local Land Board, Wellington, to The Under Secretary for Lands.

Sir, Local Land Board, Wellington, 12 December, 1887.

In reference to the appeal of Stevenson *re* the Bathurst Land Board, and which I believe will be before the Appeal Court at its next sitting, I may mention that I should have reported fully on the case had I previously seen the circular of 30th November ultimo, No. 60, and Mr. Secretary Copeland's decision bearing on similar cases.

The Bathurst Board, in dealing with the case referred to, has taken the same view as other Boards with which I am associated as Chairman, viz., that a conditional lease cannot be held unless adjoining the conditional purchase in virtue of which it is applied for, although the land applied for, when not adjoining that conditional purchase, may adjoin others of the series.

The 48th section of the Act provides that the applicant for a conditional purchase or additional conditional purchase * * * who desires to obtain, in connection with such purchase, a conditional lease of adjoining land may lodge, &c., &c. It seems, therefore, that each purchase may have a lease of land adjoining the purchase in virtue of which it has been applied for, but not adjoining any other purchase of the series. If such were intended it should have been expressed either in section 48 or in sections 43 and 51, which should have been extended to amalgamate a holding comprised of a conditional purchase and additional conditional purchase and conditional leases for that purpose, and not alone for the purpose of residence and fencing.

If leases be allowed not adjoining the basal conditional purchase, though adjoining, the associated conditional purchases complications will arise, and the law appears to have been drawn, as it is, advisedly to prevent such complications.

Complications would also arise if a conditional lease were allowed contrary to the Act. It appears to me, in virtue of two or more conditional purchases, though of the same series.

Appeal by James C. Stevenson.

Against the disallowance of his application for conditional lease, 87-13, Bathurst, on the ground that the land applied for does not adjoin the basal conditional purchase 85-62, although it adjoins the conditional purchases of the series held under the Repealed Acts.

On a submission by the Under Secretary on leases 86-3,970 to the following effect:—

"As a conditional purchase and the additional conditional purchase made in virtue of it are treated as one holding, it will, I think, be proper to hold that a conditional lease may be granted so long as the land adjoins any one of the series of conditional purchases. There is no provision in the law on the subject, but the foregoing appears to be a practical solution of the difficulty. Mr. Secretary Copeland, on the 7th June, 1886, wrote 'approved.' I think that was the clear intention of the Act and Legislature."

The point has not previously been before the Appeal Court.

No. 46.

Office Memorandum.

James C. Stevenson.

APPEAL against the disallowance of his application for conditional lease 87-13, Bathurst, on the ground that the land applied for does not adjoin the basal conditional purchase 85-62, although it adjoins the conditional purchases of the series held under the Repealed Acts.

Mr. Pring (Barrister) appeared for the appellant.

Mr. Pring said the question to be be decided was, whether a conditional lease must actually adjoin the conditional purchase in virtue of which it is applied for, or whether it is sufficient for it to adjoin any part of the land which may be included in the same holding or block. The Local Land Board held that the lease must be conterminous with its base. This he submitted was wrong, and he asked that the appeal be upheld and the decision of the Board reversed.

The

The Minister sustained the appeal, though with some doubts, as clause 43 of the Crown Lands Act of 1884 does not mention that conditional purchases and their additionals shall be treated as one holding for the purpose of obtaining a conditional lease. Administratively, this course has been pursued in other like cases. Deposit to be refunded.

[Crown Lands Act of 1884—Part II, section 18.]

WHEREAS on the 10th day of November, 1887, a certain matter wherein the application for a conditional lease, 87–13, Bathurst, by James C. Stevenson, one of the parties thereto, appealed from such decision to the Minister, and the said matter having this 5th day of March, 1888, come before me, Thomas Garrett, on appeal, I, being the Minister charged with the administration of the Crown Lands Act of 1884, having heard the said appeal in open Court, do hereby decide as follows:—I sustain the appeal, though with some doubt, as clause 43 of the Crown Lands Act of 1884 does not mention that conditional purchases and their additionals shall be treated as one holding for the purpose of obtaining a conditional lease. Deposit to be refunded.

Given under my hand at the Department of Lands, Sydney, this 5th day of March, 1888.

No. 1.

Report by Mr. Inspector Griffin.

Selection of George F. Millgate, made at Molong in 1878.

Sir, August, 1883.

C.P. 78-30; section 21, portion 62.

I have the honor to report that I visited and inspected the above described conditional purchase on the 24th July last, and that I found the selector then was resident upon a selection adjoining.

The land, which consists of portion 62, parish of Copper Hill, and comprises 40 acres, is now occupied and used by the selector as grazing land, and the selector, who follows the avocation of a farmer, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
40 acres cleared of rubbish and dead timber, at 5s. per acre	10	0	0
40 acres ringbarking, at 1s. 6d. per acre	3	0	0
	£13	0	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Any deficiency in the value of improvements on this portion 62 is provided for from the surplus amount on portion 73. Where improvements to the extent of over £400 were found at the date of my visit, the amount being considerably beyond the sum required for 196 acres 1 rood contained in that portion.

I have, &c.,
J. H. GRIFFIN,
Inspector of Conditional Purchases.

The Chief Commissioner, Department of Lands, Sydney.

C.P. 78-9; section 13, portion 60.

I have the honor to report that I visited and inspected the above described conditional purchase on the 24th July last, and that I found the selector then not resident upon this selection.

The land, which consists of portion 60, parish of Copper Hill, and comprises 40 acres, is now occupied and used by the selector as grazing land, and the selector, who follows the avocation of a farmer, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
40 chains five-wire fencing split posts, at £1 per chain	40	0	0
7 acres grubbed and partly cleared, at £3 per acre	21	0	0
40 acres ringbarking, at 1s. 6d. per acre	3	0	0
	£64	0	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

The selector was not resident here at the time of my visit, but explained that he had resided there for some time until he removed his residence to portion 73, and where, as will be found in my report on that portion, improvements have been made to the value of £400.

I have, &c.,
J. H. GRIFFIN,
Inspector of Conditional Purchases.

Mr. G. F. Millgate to The Chief Commissioner.

Honorable Sir, Bell River, Molong, 27 March, 1884.

In reference to my 40-acre selection, made on the 15th January, 1880, at Molong, I have been informed by the Lands Agent at Molong that the above land has lapsed in consequence of there being no declaration made on it. I beg to state that this was purely an oversight on my part in not doing so, as I went to the Lands Office twice to pay my interest and instalments on all my land, and the place was so crowded

crowded that I could not do it on either occasion, so I gave the list of selections to an agent to pay, and the abovementioned selection included with them, and the Land Agent could not take the interest till the declaration was made in consequence of my agent having forgotten to tell me. I did not know that it was lapsed till to-day when I went to pay the interest, when the Land Agent informed me of the matter, as it was purely an oversight on my part, and the land is of a great importance to me, and is situated in the middle of my selections, and would be a great loss to me. I herewith enclose you a post-office order for £4, being the two instalments on the above lands. Hoping you will accept the same, as it will be a great boon to me.

I remain, &c.,
G. F. MILLGATE.

I, GEORGE FREDERICK MILLGATE, of Molong, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 21st section of the "Crown Lands Alienation Act of 1861," of the land hereunder described, and that improvements, consisting of fencing, clearing, ringbarking, and building, and to the value of £600, have been made on such land and the original conditional purchase. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

With reference to your conditional purchase at Molong, on the 22nd February, 1877, I desire to inform you that the area of the portion selected having been found on measurement to be only 81½ acres, instead of 100 acres, as stated in your application, you are entitled to a refund of £4 12s. 6d., being the amount of deposit on the 18½ extra acres, paid in excess.

Enclosed is a form which, on being filled up and forwarded to the Treasury, with the authority signed by you, will enable that Department at once to refund the amount.

Office Memorandum.

I.P. 77–3,682, Molong.

Memo. for Mr. R. H. Delow.

21 December, 1885.

IN 1869 G. F. Millgate conditionally purchased 40 acres of land at Molong, and in 1875 and 1877 he applied for additional C.P's.

In October, 1877, John Smith applied for 60 acres (I.P. 77–3,682) as lessee of the Gambooka Run, upon which these selections are made.

Mr. Smith possessed improvements worth £69, and so situated as to admit of being measured into a corresponding area, and it was recommended to Mr. Hoskins that they should be so measured and excluded from the measurement of adjacent conditional purchases, which had been made in such a manner as to embrace portions of the improved area in no instance sufficient to bar selection.

Mr. Hoskins, however, held a different view, viz., that the improvements on the several selected portions should be appraised separately.

Mr. John Smith appealed, and on the 28th February Mr. Secretary Farnell gave it as his opinion, "The land that is improved to the value of £69 is barred from selection, consequently as much of Millgate's selections as encroach upon the 69 acres of improved land is void."

On the 17th April, 1885, the application was refused, on the ground that the land applied for was at the date of application situated within a forfeited pre-lease.

On the 6th August, 1885, Mr. Smith wrote, protesting against the refusal, and enclosing copy of Treasury receipt, dated 25th September, 1876, for £36 2s. 11d "for land awaiting examination by Lands Department."

On the 11th September, 1885, the Lease Branch stated that it had been "ascertained by personal inquiry that Audit Office register agrees with ours with respect to pre-lease 49–21–1 as being gazetted forfeited on 3rd December, 1880, and no rent has been paid since 1877, and not 1875, as stated in memo. of 24th July, 1875."

In view of the fact that the books of the Audit Department support Mr. Smith's contention that he paid up to and inclusive of the year 1877, it is now decided that the sale may be completed.

The Under Secretary for Lands to Mr. G. F. Millgate.

Sir, Department of Lands, Sydney, 10 April, 1886.

The Colonial Treasurer having forwarded to this Department the declaration made by you at Molong on the 6th January, 1883, with reference to the conditional purchase described at foot hereof, and having reported that an instalment of the balance of purchase money has been received at the Treasury, I am now directed by the Minister for Lands to notify to you that he is satisfied, after due inquiry, that the conditions as to residence and improvement, prescribed by the 18th clause of the "Crown Lands Alienation Act of 1861," have been completed in respect of the said conditional purchase.

The deed of grant may be obtained at any time hereafter by payment of the balance of the purchase money, with interest, if any, then due; but should such payment be deferred an instalment at the rate of 1s. per acre must be paid between the 1st January and 31st March in each year until the balance, inclusive of interest as prescribed by law, shall have been duly paid, otherwise the selection will be forfeited.

Conditional purchase No. 79-239, section 21, district of Molong; date, 9th October, 1879; county of Wellington; parish of Copper Hill; number of portion, 59; area, 45 acres 2 roods; present holder, George Frederick Millgate.

No. 15.

Office Memorandum.

Department of Lands, 10 June, 1886.

REMARKS:—In 1877 G. F. Millgate applied for the additional C.P's., noted in the margin, in virtue of portion 23, held by him under section 13. C.P. No. 77-25, 200 acres. C.P. No. 77-73, 100 acres. C.P. No. 77-104, 100 acres. C.P., No. 78-30, 40 acres.

The instructions were protested against by the Crown lessee, Mr. Smith, on the ground that they included improvements worth £69, so situated as to admit of being measured into a corresponding area. Different views were taken by different Ministers, Mr. Secretary Hoskins' action being adverse to the owner of the improvements.

It was, however, ultimately decided by Mr. Secretary Farnell (84-177,304, misc.), that as much of Millgate's selections as encroached upon the 69 acres of improved land is void. Portions 57, 58, 59, and 62, 1 February, 1877. 22 February, 1877, and 15 March, 1877.

Instructions were accordingly issued (83-5,135, misc.) to survey the improved 69 acres, and to make the necessary amendments in portions 57, 58[1], 59, and 62, Millgate's C.P's. (84-8,065 misc.), in a survey report of portion 91, 69 acres, being Smith's I.P.

The following appears to be the action now required:—

1. Payment of valuation (cover 84-8,065, misc.) by the lessee of the area applied for as an I.P.
2. Survey reports with regard to amendments of surveys of portions 57, 58, 59, and 62, Millgate's C.P's.
3. Declaration upon same to be dealt with.

With these papers is a *précis* (82-17,303, misc.) by Mr. Stobo, setting forth the case at an earlier stage, more in detail. The present statements give a fair approximation as to how the matter now stands.

E. BROWN.

As it was decided by Mr. Abbott, on the 4th December last, that Mr. Smith was to be allowed to complete the improvement purchase, and Mr. Smith was so informed, I do not feel justified in reopening the case. Dr. Ross, M.P., may be so informed.—H.C., 21/6/86. Dr. Ross informed.—C.W.T., 25 June, 1886.

Sir,

The Minister for Lands promised a few days back to furnish me with a copy of the late Minister for Lands (Mr. Abbott's) decision in the above case, a copy of which I have not received. May I ask you to kindly forward a copy of the same to me by to-night's post to Molong, so that I may be in a position to take further action in the matter.

The case is one of extreme urgency, and I trust that this application will be attended to.

Petition.

Sydney, 1 July, 1886.

To His Excellency the Governor and Executive Council.

May it please your Excellency, in Council assembled,—

On behalf of George Frederick Millgate, an industrious and deserving selector, residing in my electorate, near Molong, I beg respectfully to protest against the action of the Honorable the Minister for Lands, Mr. Copeland, in refusing to reconsider a decision of Mr. Land Secretary Farnell, wherein he reversed a decision of Mr. Land Secretary Hoskins, of 21st July, 1881. (*See* papers herewith attached.)

Mr. Millgate selected land in the district of Molong, and was opposed by the Honorable John Smith, M.L.C., who claimed that there were improvements on 60 acres of such land sufficient to warrant him in applying for an improvement purchase, I.P. 79–3,682.

Mr. Smith's claim was investigated, and the alleged improvements appraised and reported upon, and Mr. Land Secretary Hoskins decided, on 21st July, 1881, that the improvements were of a less value than £40, and that therefore no purchase could be claimed.

This was confirmed on several other occasions. Mr. Smith then removed his improvements, and Millgate was left in undisturbed possession, and he settled himself down to improve the land, and on it he has since spent several hundred pounds on the good faith of Mr. Land Secretary Hoskins' decision.

Mr. Smith does not seem to have been satisfied, for he renewed his application, and Mr. Land Secretary Farnell reversed the decision of Mr. Hoskins by allowing Mr. Smith's claim. This was years after Millgate had considered it all settled in his favour.

Mr. Millgate protested against Mr. Farnell's meddling with Mr. Hoskins' decision, and Mr. Copeland, who was then Minister for Lands, refused to open up Farnell's decision. (*See* his letter attached.)

On behalf of Millgate I protested, viz. :—

1. That the matter was settled years ago by Mr. Secretary Hoskins in Millgate's favour.
2. That "Smith" acquiesced in that conclusion by removing his improvements.
3. The improvements being removed, the land cannot possibly be purchased as an I.P., and Smith's claim must now be extinguished.

Therefore I pray your Excellency and Executive Council will cause inquiries to be made as to the truth of the allegations herein contained, and if the facts are as stated that you will order *cancellation* of the Land Secretary Farnell's reversal of Mr. Hoskins' decision, and that Millgate's claim to the land as decided years ago in 1881 be confirmed, and the uncertainty put an end to.

DR. ANDREW ROSS, M.L.A.

Laid before the Council on the 6th July, 1886. Referred to the Honorable the Secretary of Lands.—ALEX. C. BUDGE, Clerk of the Council. Submitted.—C.O., 26/7/86. See *précis* within.

I have again carefully reread this correspondence, and fail to discover any justification for departing from my former decision of 21/6/86. On the merits of the case it appears to me Mr. Secretary Hoskins should have allowed Smith's improvement purchase, and though the wisdom of disturbing that decision after the lapse of time by Mr. Farnell may perhaps be questioned yet he was quite within the law in doing so. Mr. Abbott confirmed the action of Mr. Farnell, and Mr. Smith was informed he would be allowed to purchase by virtue of his improvements. Dr. Ross and others have had several interviews with me, and I have frequently gone through the papers, with every desire to rectify any wrong that had been done, but have come to the conclusion that under all the circumstances Mr. Smith is entitled to the land, and will not therefore interfere with the decision of Mr. Abbott.—H.C., 28/12/86.

Inform Dr. Ross, M.P.—S.F., 29/12/86. Dr. Ross, M.P., informed, 4/1/87. Then to Misc. Branch. To call for purchase money, I.P. (Smith's).

The I.P. papers have been separated herefrom, and are going on for action in regard to I.P. 77–3,682 by Smith. Copy of decision hereon also placed with I.P. papers, viz., 85–15,221 Misc.—E.M., 24/1/87. May now go on to C. S. Branch.—E.M., 24/1/87.

No. 19.

Dr. Ross, M.P., to The Secretary for Lands.

Dear Sir, Sydney, 1 July, 1886.

Allow me, on behalf of Mr. G. F. Millgate, to thank you for the interest you have taken in his case, as an honest *bonâ fide* selector. I regret, exceedingly, however, that you have been unable to see your way to reverse what I conceive to be a very harsh, if not unwarrantable, decision, made by Mr. Land Secretary Farnell, and subsequently confirmed by Mr. Abbott. By this decision I fear it will have the effect of ending in the complete ruin of as honest and industrious a selector as ever existed in these Colonies.

I have, under all the surrounding features of what I believe to be a sound and genuine case, and in the interest of the unfortunate selector, deemed it advisable to have the case fairly submitted to the consideration of the Executive Council, which I have this day done by letter. When it comes before that tribunal I shall be pleased if you can render any assistance in the way of bringing about a "reversal" of what I look upon as a cruel and unrighteous decision made by Mr. Farnell, &c.

I have, as you will perceive by the document submitted to the Executive, fairly stated the case, and I sincerely trust it will receive due and favourable consideration at the hands of the Executive.

The poor and honest selector and his family seeks for justice, and upon the final decision in this prolonged and painful case rests whether he is to be permitted to remain on the soil as an honest *bona fide* settler, or become ruined for ever.

Again thanking you for the trouble you have taken in the matter,

I have, &c.,
DR. ROSS.

C.P. No. 75/266. D. [Alienation Act.]

Final Declaration of conditional purchaser, under the 18th section of the "Crown Lands Alienation Act of 1861."

I, GEORGE FREDERICK MILLGATE, of Boomey, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 21st section of the "Crown Lands Alienation Act of 1861" of the land hereunder described, and that improvements, consisting of building, fencing, clearing, and ring-barking, and to the value of £600, have been made on such land, and on the original and additional purchases. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

G. F. MILLGATE.

Taken and declared at Molong, this 13th day of July, 1886, before me,—

H. J. JEFFREYS, Commissioner for Affidavits.

Description.

County of Wellington, parish of Copper Hill, 40 acres, at Bell River, being conditional purchase No. 266, of 1875, in the District of Molong, made on the 1st July, 1875.

In the original declaration, made in September, 1878, improvements to the amount of £10 only were declared.

H. J. JEFFREY,
Crown Lands Agent.

No. 21.

Office Memorandum.

Millgate and Smith.

MR. G. F. MILLGATE, being the holder of a conditional purchase made in the year 1869, 40 acres, portion 33, and also of an additional selection made in the year 1875, portion 56, applied for further additional selections, viz.:—

77–25, 200 acres, 1st February, 1877, portion 57.
77–73, 100 acres, 22nd February, 1877, portion 58.
77–104, 100 acres, 15th March, 1877, portion 59–62.

The lessee of the run (Mr. John Smith), I. P. No. 3,682, 19th October, 1877, upon which these selections are situated, applied, upon the 19th October, 1877, to purchase 60 acres in virtue of improvements. Parts of these improvements were included in the three additional conditional purchases abovementioned (and this fact was pointed out by Licensed-Surveyor Burnside, who measured the portions, and also reported that the improvements upon the 60 acres applied for by Smith were, in his opinion, of a less value than £40), and included also about 40 acres of vacant land. Under survey report it was submitted that Mr. Smith's application should be refused, and that resurvey should be made of Millgate's conditional purchases, to include part of Smith's improvements. It was directed in December, 1878, by Sir John Robertson, acting on behalf of the Minister, that the lessee should be informed of the objection to his application, and that he might apply for an appraisement; also, that the solicitor should be informed of the action taken, and that the surveys of his selections must be influenced by the result of the lessee's claim. Owing to some mistake this direction of Sir John Robertson was omitted to be done.

An appraisement was instituted to determine the value of the improvements effected upon this conditional purchase, mentioned in a letter written on behalf of Mr. Smith, by Messrs. Wilson and Ranken, dated August, 1878, which specially protested against Millgate's last additional conditional purchase, of 15th March, 1877. This appraisement being held to be informal, a fresh one was made by District-Surveyor Crouch, who found that the improvements on the land included in the conditional purchase referred to in the abovementioned letter of Messrs. Wilson & Ranken were of the value of £5 14s. only. It was then decided that the conditional purchase should be sustained by Mr. Hoskins.

The surveys of Mr. Millgate's conditional purchases have been completed, and the usual declarations as to improvements have been made, and instalments of balance of purchase money lodged within the prescribed period.

Against Mr. Hoskins' decision Mr. Smith has persistently protested. Mr. Surveyor Crouch in his report of 11th February (80–2,050 Misc.) shows that the total value of Mr. Smith's improvements is over the value of £60, and that a block of 60 acres can be measured to include the same, £37 of which are upon a vacant portion, and the remainder upon Millgate's selections; and that the improvements were erected prior to October, 1877.

Mr. Secretary Farnell, upon the 28th of February, 1883 (84–17,304 misc.) held "that the land that is improved to the value of £69 is barred from selection; consequently as much of Millgate's selections as encroach upon the 69 acres of improved land is void."

The 69 acres were accordingly measured for Mr. Smith as portion 91, and valued. Instructions were also issued (83–5,135 misc.) to make the necessary amendments in Millgate's C.P.'s, and Dr. Ross informed.

Upon the 4th March, 1884 (84–1,494 Cor.), Mr. Secretary Farnell decided that he knew of no reason for altering the previous decision, and thought that the previous decision is legally and substantially correct, upon the supposition that the land applied for by Mr. Smith was situated within a forfeited

 prelease.

prelease. Mr. Smith was, upon the 17th of April, 1885, informed (84–4,300 Cor.) that his improvement application was refused, but upon its being shown that the prelease was in existence in October, 1877, Mr. Secretary Abbott approved that the sale be completed, and Mr. Smith was informed upon the 8th December, 1885.

In dealing with the case upon the 21st of June last, Mr. Secretary Copeland (the present Minister) ruled that as it was decided by Mr. Abbott on the 4th December last, that Mr. Smith was to be allowed to complete the improvement purchase, and Mr. Smith was so informed, he did not feel justified in reopening the case, and of this decision Dr. Ross, on behalf of the selector, was informed (86–4,300 Cor.)

Dr. Ross now petitions His Excellency the Governor and Executive Council on the following grounds :—

1. That the matter was settled years ago in Millgate's favour.
2. That Smith acquiesced in that conclusion by removing his improvements.
3. The improvements being removed the land cannot possibly be purchased as an improvement purchase, and Smith's claim must now be extinguished.

Brown.

Sir,

I have the honor to report that I visited and inspected the above described conditional purchase on the 21st October, 1884, and that I found the selector then not resident upon this selection.

The land, which consists of plain and bush and comprises 462 acres, is not occupied but used by selector as grazing, and the selector who follows the avocation of grazier had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Hut, split slab sides, earth floor, iron roof, two rooms and verandah; £25.

From the appearance of the land and the circumstances stated in the following remarks I am of opinion that the selector has not been continuously resident upon the selection: I noticed a table and some cooking utensils in the hut, but no bed clothes; selector resides with his wife and family on the Walhollow Estate, distant about 20 miles from this selection.

This deponent, *John Still O'Hara*, of Moree, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows:—On 21st October, 1884, I inspected the conditional purchase, the subject of this inquiry, taken by John Joseph Poole, at Gunnedah, on 23rd November, 1882; selector was not resident; there was a hut with a table and some cooking utensils in; no bedding; I heard selector and his family reside at Walhala.

Examined by Chairman: The hut is built of split slabs, earth floor, two rooms and a verandah; there were marks of traffic about, but they were not recent.

Examined by Mr. Tribe: There was no water about the place—the season was dry; I saw into the hut; there was an earth floor, but I will not swear there was flooring or not—not from memory.

This deponent, *John Joseph Poole*, of Goran Lake, in the Colony of New South Wales, grazier, being duly sworn, maketh oath and saith as follows:—I made this selection on 23rd November, 1882, at Gunnedah; two or three weeks after I went to reside on it; I have resided there continuously ever since; I have no other home; I have had my wife repeatedly living there too; the family have lived there too; I have no other home; want of water and ill-health is the reason my wife does not live there; she visits at different places; she has been at Sydney, Brisbane Water, and Armidale, but that is our home; I was at Quirindi on the 21st October, 1884; the bedding was taken away by the family about a week before that time; the bedding was taken to Mount Parnell; when I returned on the night of the 22nd I brought my own blankets back with me; I had a cook named Green; the building was floored; it was a comfortable dwelling-house; I made this my home, and have no other, and still live there.

Examined by Inspector: I had no place at Walhollow when I took this selection; I have not attended a court at Quirindi since I took this up; my family were living at Mount Parnell, within the Walhollow Station, when I took up this land; my family went on to the selection within three months after it was taken up; my family lived more on this selection than at Mount Parnell.

Examined by Mr. Tribe: My wife has no property at Mount Parnell; she has no property standing in her name this land was my home and Mrs. Poole's home, and the only home we had; when I say my wife did not live there I mean that she had to leave there occasionally; I swear this has been my residence continuously from the time I took it up to the present.

Examined by Mr. Tribe: I know Mr. Poole's selection at Goran Lake; I went with him to the selection, and since then I have been living there off and on; Mr. Poole lived on the selection; he has lived there ever since; he has another home at Quirindi; sometimes he is there, sometimes here; his wife and family live at Goran Lake; the place he lives in at Quirindi belongs to Mr. Parnell; Mrs. Poole has resided on this selection; she has been away at times, but I have seen her on this land; she has been away on business; I could not say if she was unwell or not; this is the only place I know belongs to Mr. Poole; he stayed at Parnell's; sometimes he stayed there two or three days at a time; this home was at the Green Ridges; that means this place; I don't know that he has any other home.

Examined by Inspector: Mr. Poole came to the selection very often; he used to stay on the selection for a couple of months without going away; he used to be "burning off" while on the selection; he has been two or three weeks "burning off"; I assisted him to burn off; I have been living on the selection about seven or eight months altogether; Mr. Poole's wife and family have been living there during that time; at night I stopped at the hut and cooked; I stayed there at night; no other building upon the land besides the hut; there were three children there with Mrs. Poole; they were very young; the youngest was about six years old, and the oldest about twelve years old; there are two rooms in this hut.

Examined by Mr. Tribe: I was there with Mr. Poole while the house was being built; his family came afterwards and lived in it.

Examined by Chairman: I lived with the family in the hut; I used to be off and on the place for some weeks, but left Mr. Poole there and found him there on my return; Mr. Poole used to cook while I was away; I used to cook there when Mrs. Poole was there; I went with Mr. Poole to take up this selection; I was there about seven months; the rest of the time I was at home; I spent nearly three years between this place and Quirindi backwards and forwards; when I was away Mr. Poole was on his selection.

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN JOSEPH POOLE, of Goran Lake, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of fencing, cottage, and tank, and to the value of £231, have been made on such land; and I declare further that the said land has been the *bona fide* residence continuously of myself from the period of selection and first occupation to the present date: And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

THE declaration upon the above described conditional purchase requires verification. All available papers in connection with the case are therefore referred to the Chairman of the Local Land Board, Tamworth, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date. C.P. 82–172; section 13; portions 13, 14, and 17.

Sir, Tamworth, 1 May, 1886.

I have the honor to report that I visited and inspected the above described conditional purchase on the 22nd March, 1886, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 462 acres, is occupied and used by selector as grazing land, and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Slab hut, not on sleepers, 20 x 12, skillion, and verandah, shed on side, galvanized iron roof, slab floor; £30.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection:—I did not report as to improvements, as I was without a tracing of the portions. In front room—table and chair, bucket, frying-pan, billy, camp-oven, large hole in side, four saucers, broken cup, one cup, and small jug, mattress and counterpane, and pillow, no blankets. Other room—bed, blankets, and counterpane, and sheet turned down, lots of mouse dirt near pillow, a couple of children's petticoats hanging on nails, fat lamp, old broken glass, and brush, pair of child's boots, comprised inventory of things. No rations or water, no sign of recent traffic. I am told selector chiefly resides at Mount Parnell, near Quirindi, with his wife and family. Another inspection recommended.

I have, &c.,

Inspector of Conditional Purchases.

No. 21.

Mr. J. J. Poole to The Minister of Justice.

Sir,

Goran Lake, 9 November, 1886.

I beg most respectfully to bring under your notice, as one of the Executive Ministers, and who has known me for a great number of years, that myself and members of my family have been conditional purchasers of Crown Lands for upwards of fifteen years; and further that every acre of our selections remain in our possession to this day; that a numerous family has been supported, and finally settled, on the waste lands; that our undoubted *bona fides* are an established fact, having no other calling than those of graziers and farmers. Notwithstanding, we have been, and are now, cited to appear on summons to attend a Land Board at Gunnedah, on the 19th, to show cause why our present unfulfilled conditional purchases shall not revert to the Crown. I may here state that Inspector Brown told me that his official instructions were to procure forfeitures of selections no matter by what means, and irrespective of the *bona fides* of selectors. I need scarcely point out to you the great stumbling-blocks such proceedings will have against the settlement of small holders on the soil. Our present inspectors of conditional purchases are not likely to inspire confidence with those already on the soil, or likely to encourage others to settle, by proceedings such as I have described, is altogether contrary to the Act. A great impetus could be given to the settlement of the people on the soil if our inspectors were practical instructors instead of persecutors. Numbers of desirable settlers are leaving this district for Queensland rather than undergo the chance of forfeiture here.

I am, &c.,
JOHN J. POOLE.

The writer may be asked to give further particulars of the conditional purchases referred to. The particular case in question cannot be identified, but as the papers would appear to be under reference to the chairman of the Tamworth Board this communication may be remitted to him.—W.H.C., 18/11/86.

Forward.—F.H.W. (for the Under Secretary), 18/11/86. Writer informed, 18/11/86. The Chairman Local Land Board, Tamworth.—S.F., B.C., 18/11/86. Chairman directs that a copy of this letter be sent to Inspector Brown, 10/12/86. Copy to Inspector Brown, 13/12/86. Await reply. End of month.

Sir,

Department of Lands, Sydney, 18 November, 1886.

I have the honor to acknowledge receipt of your letter of the 9th instant (presented by the Honorable J. P. Garvan, M.P.), respecting certain selections made by your family in the Gunnedah district, and to inform you that the particular cases referred to therein cannot be identified in the Department; but as the papers in connection with the matter would appear to be under reference to the Chairman of the Local Land Board, your communication has been forwarded to him.

THE examination of William Brown, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases; Joseph Clift, of Breeza; John Callaghan, of Spring Ridge; W. J. Callaghan, of Breeza; William King, of Goran Lake; William Jones, of Breeza; Thomas Dickson, of Quirindi; Ezekiah Pope, of Curlewis; John Joseph Poole, of Goran Lake; John Clarke, of Quirindi; Reuben Pope, of Goran Lake; John Kelly, of Goran Lake; Ratcliffe Parnell, of Goran Lake; and Richard Peter Parnell, of Goran Lake, in the said Colony.

WHEREAS it hath been alleged that the conditions as to residence had not been fulfilled upon the conditional purchase of 462 acres made by John Joseph Poole, at Gunnedah, on 23rd November, 1882, county of Pottinger, parish of Brown, portions 13, 14, and 17, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

[*Enclosure.*]

Mr. Tribe, solicitor, appeared for selector.

This deponent, *William Brown,* of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows :—I know a selection of 462 acres made by J. J. Poole, on 23rd November, 1882; I first saw this selection on 6th October, 1885, it was pretty early in the morning, and the selector was there ; there were no rations or cooked food in the hut; there was a bunk in the front room with a chaff mattress on it; there was a counterpane on the mattress, but no blankets ; there was a lot of the chaff spilt on the ground, and apparently eaten by mice ; there was a wooden bedstead in the next room, but no bedding on it; there was a billy and frying pan ; no water about the place ; very few ashes in the fire-place ; the selector told me that he got his meals sent over from his step-son's place, and that he did not bother cooking ; expected his breakfast to be sent over ; no one came with any breakfast while I was there, and I was there a considerable time ; he also accounted for the absence of water by saying it was the day for bringing water round, but I saw no marks of a dray ; my impression from seeing the hut, was that no one resided there continuously ; on 22nd March, 1886, I again visited this land ; selector was not residing, he was not there ; there was no indication of anyone residing in the hut ; the mattress and counterpane were still in the room ; in the bed-room a bunk, blankets, pillow, and sheet, a lot of mouse-dirt on the pillow, no rations ; no water, a camp-oven with a big hole in the side ; a few saucers, a broken cup and a jug ; the place did not appear to me to be in occupation by any one, I saw it again on the 3rd July last ; selector was not there, nor did the place appear to have been much used since my previous visit on this occasion ; there were some rations, about ¼ lb. of tea in a paper ; about a pound of sugar ; 3 or 4 lb. of flour in a canvas bag ; there was more furniture in the place since the former occasion, also a bucket.

Examined by Mr. Tribe : I had dinner with selector at the step-son's place after going round the selection, this was on the first occasion of my visit.

J. P WIGHTMAN, }

This deponent *Joseph Clift,* of Breeza (called by Inspector), in the Colony of New South Wales, grazier, being duly sworn, maketh oath, and saith as follows :—

Examined by Inspector : I know J. J. Poole's selection, and I know the selector ; this selection was taken partly out of the Breeza holding, of which I am one of the owners ; I recollect the time of Poole selecting ; I was living on the station the chief part of my time ; I saw this selection shortly after it was taken up ; my knowledge extends about fifteen months after residence should commence. [Mr. Tribe objects to any evidence being given respecting the residence before the last inquiry.] I first saw a few sheets of bark on this land in the form of a gunyah ; I never saw selector residing in this gunyah ; there was no sign of residence in the gunyah ; afterwards a zinc gunyah was put up, three or four months after I saw the bark one ; I never saw selector residing in the zinc gunyah ; I saw no one residing in that gunyah ; there were no cooking utensils in either gunyah, only some grass in a bag ; the bag was the only thing in the gunyah ; there was a dead sheep in the zinc gunyah when I last passed it ; I passed the two gunyahs five or six times at different intervals during the fifteen months ; I saw selector in the locality once in the fifteen months ; he was not then on his selection ; there was no house on the land while I was there ; I do not know Mr. Poole to reside anywhere else ; our firm has corresponded with selector since he took up his selection ; we addressed letters to Mount Parnell, about 40 miles from this selection ; we expected the letter to find him there.

Examined by Mr. Tribe : I lived about 14 miles from this selection ; I rode past the gunyah ; I never got off my horse ; I could see as much on my horse as off it ; I could see all over the selection ; selector had stock on the place then ; I was there to look out that the cattle did not trespass on our land ; I had improvements going on there ; selector has been at our station on his way to Goran Lake to and fro.

Examined by Inspector : Breeza or Spring Ridge, was the nearest post-town before the post-office was established at Goran Lake.

Sworn by this deponent, Joseph Clift, on this 19th November, 1886, at Gunnedah, before us,— JOSEPH CLIFT.

J. P. WIGHTMAN, }

This deponent, *John Callaghan,* of Spring Ridge (called by Inspector), in the Colony of New South Wales, superintendent of sheep, being duly sworn, maketh oath and saith as follows :—

Examined by Inspector : I know J. J. Poole's selection, and I know the selector ; he took it up in 1882 ; there was a humpy and part of another humpy on the land ; the iron humpy remained there for eighteen months ; I was at this selection twice-a-week for two months in 1883—in August and September, 1883 ; during these two months selector was not residing in either of these gunyahs ; up to the two months there was no appearance of any residence in these gunyahs ; in September, 1883, I looked for Mr. Poole on business, and I found him at Ratcliffe Parnell's selection ; there was a good house at Parnell's selection ; there is a hut on the land now ; the only place of residence on this selection for two years were the gunyahs ; during those two years, till 1884, I frequently saw this selection, and was near the gunyahs ; passed them close ; there was no water or cooking utensils in the gunyah ; there was an old mattress in the gunyah ; you could see in the gunyah without getting off the horse ; there was no door to it ; I have never been to the hut on this land ; I saw selector in the locality two or three times in the two years.

Examined by Mr Tribe : There was a drought in the two years, but selector had let the place to Mr. Mosely for sheep ; there was water on Richard Parnell's selection ; I had charge of this end of the run, and so I know this selection ; Poole's cattle were trespassing.

Sworn by this deponent, John Callaghan, on this 19th day of November, 1886, at Gunnedah, before us,— JOHN J. CALLAGHAN.

This deponent, *William J. Callaghan,* of Breeza (called by Inspector), in the Colony of New South Wales, overseer being duly sworn, maketh oath and saith as follows :—

Examined by Inspector : I know J. J. Poole's selection, and I know the selector ; a humpy was the first residence on this land ; I did not see selector residing in this gunyah ; I did not see anybody residing in this gunyah ; from the appearance of the place it did not seem to be occupied by anyone—I am satisfied of that ; I never saw any cooking utensils or rations in the humpy ; I saw a sort of a bed ; I was on my horse, the humpy was open ; I was there in 1883—I was there from April till latter end of May, 1883 ; I was looking after stock in that locality ; I saw the humpy frequently then—no one was residing there then ; it was a zinc humpy ; there were no signs of occupation at that time ; my knowledge is up to end of 1883 or beginning of 1884 ; a fence was put up that time ; I did not know this land before April, 1883 ; I was there nearly every day in April and May, 1883 ; I saw selector once in those months at Parnell's selection in the locality, about 2 miles from this selection.

Examined by Mr. Tribe : I could not say that selector did not sleep in the gunyah in the night, during the two months ; if he did sleep there he must have gone away very early in the morning ; I was in the Messrs. Clift's employ at that time ; I was living within a mile or 1½ miles, and at other places in the two months I was camped out, and at other places I rode up to the humpy ; this joins the run of which I was in charge.

This deponent, *William King*, of Goran Lake (called by Inspector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath and saith as follows :—

Examined by Inspector: I know J. J. Poole's selection, and I know the selector; I remember the time of the selection; he took it up shortly after I went to Goran Lake, four years ago; I was then living about 3 miles from this selection; I was shepherding Mr. Clift's sheep; the land I shepherded over joined this selection; the only residence I saw was a couple of sheets of tin as a gunyah; enough to make a gunyah; I never saw selector living in that gunyah; I remember the land being fenced; I kept the Breeza sheep off Poole's ground; I was there every day nearly, and over to the gunyah; it was about eighteen months after selection before the land was fenced; during that eighteen months I saw no one residing in that gunyah; I do not see how he could be there without my knowing it; I saw nothing at all in the gunyah; no water or cask there either; there is a hut there now; I am living still about 3 miles from the place; my business has taken me past the hut several times; I saw no one on those occasions in the hut; the hut did not appear as if anyone was using it; I have passed the hut over a dozen times at intervals up to the present time; I never saw selector in that locality at all; no cask at the hut; the hut was put up about a month after the fence was put up; I did not go inside the hut, but there were no signs of traffic outside.

Examined by Mr. Tribe: I never saw selector in the locality, but have seen Mr. Callaghan; he is my master; I have been over to the hut, perhaps a dozen times; I have been more than six times by his hut; I will swear I have been a dozen times; I went to see if Mr. Poole was at home to give him notice to keep his cattle off Mr. Clift's ground; it was my duty; I was ordered by my master; I did not see him on one occasion; I will not say he was not there at night; I never saw selector at Parnell's selection; I never saw selector about this place; I am sure I went to Poole's place; I will swear I was on Poole's selection; I know it as the house has a verandah in the front and in the back; the subpœna was the first that I heard of giving evidence here; nobody knew that I was going to give evidence here; I have had no rows with selector; I know John Kelly; I did not tell him I would do selector all the injury I could.

Examined by Chairman: I had some words with selector's family to-day in the train, in consequence of some language they applied to me; they called me a "one-eyed bowker;" I have known this selection since it was taken up up to the present time.

Examined by Inspector: The house at the homestead was one of six or eight rooms; I saw Mr. Poole there; I was fencing in this locality nine months; if I wanted to see selector I used to go to the house or homestead; I saw him there when I went there; I do not know if he lives there or not.

Examined by Chairman: I went once or twice to see him on business; I was oftener there than when seeing him on business.

Examined by Inspector: The nine months were in 1884.

Examined by Chairman: I could not say where Mr. Poole lives.

Examined by Inspector: I have never been to Mount Parnell.

Examined by Mr. Tribe: I took up my selection in November, 1882; I went to reside within the three months; this has been my *bona fide* continuous residence ever since, except when away on business; in March, 1886, I was away on business when the inspector called; on 3rd July last when inspector called I was in Uralla, purchasing sheep from Mr. R. Vickers; I bought the sheep, and brought them to Goran Lake; my wife has property near Quirindi, and at other places; she resides at different places at times, and also with me; but this is my *bona fide* home; some of my family are located round me; this place is my permanent home; my labour and money are expended here; I have no other home but this selection as a permanent home; I went on this land and lived on it, and I have no other habitual residence but this; I have my letters sent here chiefly.

Examined

Examined by Inspector: I am married; I was married when I took up this selection; I was living at Mount Parnell just before I selected; it is near Quirindi; I went to reside in a bark humpy at first; I was a little longer commencing my present house on account of the drought; I resided in the bark humpy till the house was put up fully twelve months; I used to eat, sleep, and drink; I had a bed, blankets, and cooking utensils, and rations there; I used to take my things with me into the bush when I was working there; I remember your visit in October, 1885; I knew nothing of your movements; I will swear that I did not ride over from Quirindi the previous night; I will swear I slept in my hut the night previous to your visit; I do not know a young man named Fraser; it is not a fact that I reside in the big house where we had dinner one day at Ratcliffe Parnell's; my wife lives principally at Mount Parnell; I will swear that she has lived on my selection; I have lived on this selection fully two-thirds of my time; I have had a good many servants there at this particular house on this selection; I have not had stock there all the time; I had business of some kind that kept me in the neighbourhood; I leased my grass sometimes to Mr. Morseley.

Examined by Chairman: I had sufficient cooking utensils in the gunyah within three months after selection; Mr. Clift's assertion is false as regards this matter; it is not correct that the bag was the only thing in the gunyah; it may be that when Mr. Clift called I had taken the things into the bush splitting, so it is possible he is right in that sense; in my absence a person might find the hut without any cooking utensils in it; I do not know the witness King, and have not seen him before to-day; it may have been possible that when sheep and cattle were dying in the drought a sheep may have crawled up to the hut and died; hundreds of them died about there.

Examined by Inspector: I do not remember the date of this selection; I was working about five years there off and on, and left about five or six months ago; I may have been there altogether at different times for about two years; at first he had a place of galvanized iron, there were doors to it; there was a fire-place outside; the fire-place was two forks and a pole; I first saw Mr. Poole about six or eight months after he took it up; I was not close to the gunyah; I could not swear there was anything in it; I concluded he lived there by seeing him there night and morning; I was then stopping at Ratcliffe Parnell's selection about 1½ miles from this selection; I was working on Parnell's selection; I used to go by Poole's looking after my bullocks; there was water near the gunyah; I did not notice if there was any water cask near the gunyah; there was water in the swamps 20 or 30 yards from the gunyah; there was a drought, but a storm would fill the swamps; selector stopped at Ratcliffe Parnell's cottage one night to my knowledge; I have known Mr. Poole to have meals at Parnell's on odd times; I cannot say I have seen Mr. Poole late at night, and early in the morning at Parnell's big house; I have seen Mr. Poole a good deal at Parnell's house and on this selection; I have worked for Mr. Poole at Mount Parnell; I have seen him at Parnell's house when he came from his selection; I was not there when the house was put up; could not say how long after selection that I saw the house up; it was up about twelve months after selection.

Examined by Inspector: When working at the tank; I did not sleep in the hut on this land; I stayed at Ratcliffe Parnell's, at night I walked up there; Mr. Poole came over with me, the morning we started; he returned at night with me to Parnell's; I stayed at Mr. James Parnell's during the week; there was bedding in the hut, the week I was at work at the tank, there were cooking utensils there, we had dinner there then; he was there a good part of the week, when we went away at night we left Mr. Poole there; I have been riding past his place before I was working there; I used to go past the place; I saw a gunyah on the land; I did not see any body living in it; I did not see selector there then, when I rode past, he may have been there.

Examined

Examined by Inspector: I have been in the Court and heard all the evidence in this case; my selection was made before this one was made; I had a comfortable house on my selection of one room before this selection was made; it was not the big house I have at present; the big house was built eight or nine months after Poole selected; I have been in this neighbourhood, except when away travelling and droving; at first a bark humpy was put on this land; I helped to build it; when in the locality he lived in this bark hut; I took the cooking utensils to this place; there were bedding and rations during the four months; when I saw it there were cooking utensils and mostly rations; Poole erected a tin humpy after that; I have known him to reside and sleep there; I have not slept in either gunyahs; Mr. Poole was living in these gunyahs between twelve and eighteen months; he has slept and had meals at my place; he was in the habit of sleeping at his place; he used to come to my place on Saturday and Sunday nights; I do not know how long Mr. Poole was in the neighbourhood out of the whole time; I am selector's step-son; this is the second time this case has been before this Court.

Decision of Local Land Board, Tamworth.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, to wit.

WHEREAS on the 19th day of November, 1886, it became a matter for investigation before us whether the condition as to residence had been fulfilled upon the conditional purchase of 462 acres, made at Gunnedah, on 23rd November, 1882, by John Joseph Poole, county of Pottinger, parish of Brown, portions 13, 14, and 17, and having taken evidence and inquired into the said matter, we find that the evidence shows that this selection did not have the appearance of being resided upon; that the residence clause has not been satisfactorily observed, but as applicant states that he was absent on business, we give him the benefit of the doubts, and recommend that this selection be upheld for the present. We would also point out that this selection is a *bona fide* one, and that the selector is *bona fide*.

Given under our hands, at the office of the Local Land Board, at Gunnedah, in the Colony of New South Wales, this 19th day of November, 1886,—

Inspector Brown to The Chairman, Local Land Board, Tamworth.

Sir, Tareela, Barraba, 6 January, 1887.

I have the honor to return to you copy of a letter addressed to Honorable J. Garvan, Member of the Legislative Assembly, Minister of Justice, by J. J. Poole, bearing date 9th November, 1886. In it I see Poole writes, "I may here state that Inspector Brown told me that his official instructions was to procure forfeitures of selections no matter by what means, and irrespective of the *bona fides* of selectors." I need hardly say that the Department will know that such are not our instructions, and I give the above a most emphatic denial. I never told Poole anything of the sort, and you will remember when Poole at the inquiry stated the same thing, I then stood up and gave the statement a flat contradiction. As for Poole being persecuted as he calls it, I know of no selections in the district where the residence condition is more neglected than upon Poole's and his relations' selections, and I did nothing but my duty in bringing the cases up for inquiry. It is the talk of the district by the neighbouring selectors, how land can be held in such a manner.

I have, &c.,

Selection of John Joseph Poole, made at Gunnedah, on 23rd November, 1882.

C.P. 82-172; section 13, portion 13, &c.

Sir, Gunnedah, 12 August, 1887.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th July last, and that I found the selector then not resident upon selection.

The land, which consists of box forest plain, and comprises 462 acres, is occupied and used by selector as grazing land; and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz :—As formerly.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. I did not see selector at his selection, although I heard he was in locality. The hut was in occupation, and had rations and cooked food in it, and one bunk occupied. I believe Arthur Poole is camping in the hut at present; he accompanied me to the hut from off the run. Will inspect again shortly.

Application by Mr. J. V. Parnell.

C. [Alienation Act, sections 13, 14, and 19.]

District of Gunnedah. No. 173 of 1882.

Application for the conditional purchase, without competition, of unimproved Crown Land, by James Virgo Parnell, a minor, over sixteen years of age.

Received by me, with a deposit of £160, this 23rd day of November, 1882, at 11·20 o'clock.

A. P. D. HAMILTON,
Agent for the Sale of Crown Lands at Gunnedah.

Sir, 23 November, 1882.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 640 acres; and I herewith tender the sum of £160, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,
J. V. PARNELL,
Quirindi.

To the Agent for the Sale of Crown Lands at Gunnedah.

Description.

County of Pottinger, parish of Brown, 640 acres. Start at north-west corner of portion 22; bounded on the east by that portion and portion 21; on the south by portions 14, 17, and 18; also partly bounded on the north and west by portions 15 and 16.

It will be found that the portions 15 and 16 were incorrectly compiled, the true position being considerably north of that on map.—A. P. D. HAMILTON, Crown Land Agent, Gunnedah, 24th November, 1882.

Mr. Licensed-Surveyor Goodwin instructed to measure on certified copy.—P.B.J., 27th December, 1882. Certified copy sent to Mr. Landers.

CONDITIONAL Purchase No. 82–173, 13th section, Land District of Gunnedah; application by James Virgo Parnell; area, 640 acres; date, 23rd November; time, 11·20.

County of Pottinger, parish of Brown, 640 acres. Start at north-west corner of portion 22; bounded on the east by that portion and portion 21; on the south by portions 14, 17, and 18; also partly bounded on the north and west by portions 15 and 16.

Gunnedah. Mr. Licensed-Surveyor Goodwin to measure, if unobjectionable.—L. G. J. BENNETT (for Surveyor-General), 27/12/82. Transferred to Mr. District-Surveyor M'Master.—T. GOODWIN, 28/2/83. Mr. Licensed-Surveyor Turner.—COLIN J. M'MASTER, 2/4/83. Dealt with by survey. Plan with letter of this day, No. 83–69.—E. W. TURNER, Licensed Surveyor, 29/8/83.

No. 3.

Mr. Licensed-Surveyor Turner to The Surveyor-General.

Sir, Gunnedah, 29 August, 1883.

I have the honor to transmit herewith the plan of one portion of land, containing 640 acres, numbered 28, in the parish of Brown, in the county of Pottinger, conditionally purchased by James Virgo Parnell, under the 13th section of the Crown Lands (1861) Act, measured by me on 24th July, 1883, in accordance with instructions, No. 82/221, Goodwin, dated 27th December, transferred to me 2nd April, 1883.

Applicant was residing in a gunyah just off the land, at corner (d). The 80 chains limit is unavoidably exceeded, and in the least objectionable manner. To have measured in accordance with description would have exceeded the 80 chains limit objectionably. There is a difference of 14 links between my survey and that of portion 21, situated on Breeza Run. The southern part of portion 28 is inundated in wet seasons, being perfectly level and 6 or 8 feet below surrounding country on the north.

I have, &c.,
E. W. TURNER,
Licensed Surveyor.

The Surveyor-General, September 27th, 1883.—Colin J. M'Master, Acting District Surveyor. Examined and charted on parish map.—J. S. Murray, 21st December, 1883.

To have measured in strict accordance with the description would involve an objectionable excess of the boundary limit, and the surveyor has therefore modified the survey so that the excess is only about 22 chains in a southerly direction. Owing to previous measurements, this excess was unavoidable, whilst a suitable design has been maintained in survey. It is therefore submitted that the survey be accepted for the conditional purchase under the 13th and 14th clauses of the Act of 1875, and the 8th clause of
See Appendix 1. Act 1880. Tracing herewith.—Chas. Ed. Finch (for Surveyor-General), 17th March, 1884. The Chief Commissioner, Conditional Sales.

Approved.—J.S.F., 2/5/84. Should not the Conditional Purchase Inspector be asked to report? Tracing herewith.—T.F.C., 14th May, 1884. Received.—J.S.O'H., 19/8/84. Inspector O'Hara, 7/6/84. To await receipt of report.

Report by John O'Hara, Inspector of Conditional Purchases, respecting the selection of J. V. Parnell, made at Gunnedah, on 23rd November, 1882.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 21st October, 1884, and that I found the selector then not resident upon this selection.

The land, which consists of bush and plain, and comprises 640 acres, is not occupied, but used by J. J. Poole as grazing; and the selector, who follows the avocation of , had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Slab hut, bark roof, earth floor, one room and verandah, £5.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. There are some marks of fire in the fireplace, but from the appearance of the place, I am of opinion that it has been very seldom occupied.

I have, &c.,

Inspector of Conditional Purchases.

Examined by Inspector: I mostly stay at the selection in daytime; before you inspected I was there pretty nearly always; I used to work at my brother's place sometimes; the longest I was at a time was a month.

I, JAMES VIRGO PARNELL, of Goran Lake, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of hut, well, fencing, and sheepyard, and to the value of £193, have been made on such land; and I declare further that the said land has been the *bonâ fide* residence, continuously, of myself from the period of selection and first occupation to the present date. Selection of James V. Parnell, made at Gunnedah, on 23rd November, 1882.

Sir, Tamworth, 1 May, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 22nd March, 1886, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 640 acres, is occupied and used by J. J. Poole as grazing land; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Bark hut.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.—I have not reported as to improvements, as I had no tracing to guide me; but I do not think the 6s. required by Act is upon the land. Would like to be supplied with tracing as soon as possible. There was bedding on bunk; very few ashes in fireplace; slabs not much smoke-stained; no rations and no water; casks empty; one bucket, one kerosene-tin, tub and dish, one cup and saucer, tin plate, no billy or pannikin, a rusty frying-pan without handle; table was dirty, and place did not appear to have been used for a long time. Believe selector to live chiefly at Quirindi; he is related to J. J. Poole. Another inspection recommended.

Crown Lands Act of 1884—(Part II, section 14, sub-section 1.)

New South Wales, }

THE examination of William Brown, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases; John Callaghan, of Spring Ridge; William Callaghan, of Breeza; William King, of Goran Lake; James Virgo Parnell, of Goran Lake; John Joseph Poole, of Goran Lake; Alfred Poole, of Goran Lake; John Ellicott, of Curlewis; Reuben Pope, of Goran Lake; and Samuel Smith, of Goran Lake, in the said Colony.

Whereas it hath been alleged that the conditions as to residence and improvements had not been fulfilled upon the conditional purchase of 640 acres made at Gunnedah, on 23rd November, 1882, by James Virgo Parnell, county of Pottinger, parish of Brown, portion 28, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

Mr. Wright, Agent for Selector.

This deponent, *William Brown*, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows:—I know a selection made by J. V. Parnell, on 23rd November, 1882, 640 acres; I visited the selection on 6th October, 1885; selector was not then residing; there were no signs of recent traffic; no signs of continuous use; no cooked food or rations in the hut; there was some water in a cask outside; there was a hut on this land; I again saw it on 22nd March last; selector was not residing on this occasion; there were no indications outside by signs of traffic that anyone had been occupying the hut; very few ashes in the fireplace, and the slabs were not much smoke-stained; there were no rations in the hut, and no water; the cask was empty; the cooking utensils did not appear to be in use; there was a rusty frying-pan without a handle; the table was very dirty, and did not appear to have been used for a long time; I saw it again on 3rd July last; the fireplace was in much the same state as when I saw it in last March; there were no signs of recent traffic inside or outside the hut; no bedding except a bed-tick; there was a little tea and about 20 lb. of flour, but no cooked meat or bread; the table was still in the same dirty state; there were some casks about, but no water in them; there was also a 400-gallon tank a little way from the hut; it was empty.

Examined by Mr. Wright: For the reasons I have stated, I am perfectly satisfied that no one was making this place his residence continuously; in July last it was wet weather; it was wet now and then; there was no wood-heap; there was wood near; there is a well about 30 feet deep slabbed I valued at £30; on the east boundary were 188 posts, 9 feet apart, not bored for wire; I valued them at £5; on the north boundary were 315 posts standing, about half of them bored, value, £9 5s.; on the west were 330 posts standing, bored, valued at £10 10s.; and there are also on the west 112 rods of seven-wire fence, at 4s. per rod, £22 8s.; also a bark hut of one room with a verandah, £10; total, £87 3s., on 640 acres; the three years were then expired.

Sworn by this deponent, William Brown, on this 22nd November, 1886, at Gunnedah, before us,— } WM. BROWN.

JAMES G. DIGHT, }
J. P. WIGHTMAN, } Members of the Board.

This deponent, *John Callaghan*, Spring Ridge (called by Inspector), in the Colony of New South Wales, sheep superintendent, being duly sworn, saith as follows:—

Examined by Inspector: I know J. V. Parnell's selection, and I know the selector; I was living about 10 or 11 miles from this selection when it was taken up; I am still living there; I am in charge of this end of the run; I first saw an iron gunyah put on this land; this was on the land nearly two years before the present hut was put up; during these two years my business took me frequently near this humpy or gunyah; in the summer of 1883 I saw it more frequently than in winter, as men were deepening a well close by, and within a mile of the gunyah; I used to ride past the gunyah; the track passed in front of the gunyah; there was no door to the gunyah; I saw this place usually on an average once in two months; but in November and December, 1883, I saw it once or twice a week; during all this time I never saw selector living in the gunyah; the gunyah was occupied on two occasions; they had a married man shepherding there; I saw him there for a couple of months with a flock of sheep; another time they had a single man camping there shepherding; I saw him there for three weeks; except these occasions, the gunyah did not appear to be occupied by anybody; I never looked inside; I never took notice as to any fires; the gunyah seemed not to be occupied by anybody; I have never been in the hut; I have been past it; I have not looked into it; I never saw anyone there, but somebody must have been in it, as it was fenced in; I mean that someone must have been there to put up the fence, but it does not necessarily follow that somebody was living in the hut; I have been at Ratcliffe Parnell's place since this selection was taken up; I have seen selector there frequently, at the big house; I was there early in the morning and twice very early, and I did not see selector there on those two occasions; I never saw selector anywhere except on Ratcliffe Parnell's selection, not on his own; I have seen him going to Quirindi; if I wanted to see selector, I would go to Ratcliffe Parnell's selection.

Examined by Mr. Wright: I am quite sure the gunyah was not pulled down within twelve months; it was standing nearly two years; I cannot say selector did not live in this gunyah; I never saw him there; I am not certain there were no rations in this gunyah when I passed it; I will swear that I have seen selector at Ratcliffe Parnell's more than twice; I did not see selector on any of the Parnell-Poole selections, except on Ratcliffe Parnell's; I have no interest in the run.

Examined by Inspector: I never noticed any water-cask near the gunyah.

Examined by Mr. Wright: I rode past the gunyah in November and December, 1883.

Examined by Chairman: My knowledge of this selection extends over two years; I crossed one corner of the selection at the humpy.

This deponent, *William Callaghan*, of Breeza (called by Inspector), in the Colony of New South Wales, cattle overseer, being duly sworn, maketh oath and saith as follows:—

Examined by Inspector: I know J. V. Parnell's selection, and I know the selector; I was in the district when this selection was taken up; I was stock-keeping in this locality in 1883; there was an iron humpy on this land then; I was close by this humpy, I rode right by the front of it; I never saw selector living there; there was nothing inside the humpy; there was no water that I saw, no cask outside; I did not notice as to any fires; I saw this place three or four times a month in April and May, 1883; I did not see it at any other time in 1883; I was there in July, 1885; there was a slab hut there then; no one living there; I did not look inside; the hut was closed; I saw no water; there was an empty cask; I used to go by it three or four times a week in July, 1885; I have not seen it this year; I saw selector riding about the selection of the family and at Ratcliffe Parnell's house; I have seen him at Ratcliffe Parnell's house five or six times; he was there every time I was there; this was in July, 1885, and in 1883.

Examined by Mr. Wright: I went along the edge of the bush; there are two or three tracks; I did not see any cooking utensils in the humpy; they could not be there without my seeing them; there could not be rations in the humpy without my seeing them; they may, for all I know, be outside, away from the humpy, in the bush; I was out there in 1883, looking after cattle; my memory is particularly good; I did not see selector on his ground in 1883; he was riding about the selections; he may have been riding on this selection; I cannot say that selector did not sleep on this place every night; I did not see him there; I looked into the cask in 1885, and there was no water in it; I did not see any tank.

Examined by Inspector: I cannot swear that selector did not sleep every night at Ratcliffe Parnell's place; I do not know where he slept.

Examined by Mr. Wright: I saw selector fencing on this selection the latter end of 1885; I saw him on two occasions.

Examined by Inspector: I do not know where he was camped then; I was near the hut then; did not see any water in the cask then; I did not take particular notice then; I was riding by.

This deponent, *William King*, of Goran Lake (called by Inspector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know J. V. Parnell's selection and I know the selector; I don't remember the time this land was taken up; I first saw a bark humpy on this land; I never saw anyone residing in that humpy; I did not see it before the bark hut was put up; I did not see it before then; I have been by there several times, the hut is inside a fence; I was outside on Mr. Clift's land; I have been at Ratcliffe Parnell's house, but cannot recollect seeing selector there; I don't remember seeing selector about, and I have been there for four years.

Examined by Chairman: I lived about 4 miles from this place, and I never saw selector about there; I don't know where he lives; I have been to this humpy once or twice a week.

Examined by Mr. Wright: The first time I saw the hut was three or four months ago.

This deponent, *Ezekiah Pope*, of Goran Lake (called by Inspector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know J. V. Parnell and his selection near Goran Lake; I was living in the district when he took it up, and am living there now, my place is about 3½ miles from this place; I have been across this selection many times; I first noticed a bark place on this land, a gunyah, but I was not near it; I never saw anyone about there; I was in sight of the gunyah going along the road, about 100 yards off; I never saw selector at the gunyah; it was in the day time when I passed; I could not say how long the gunyah was there; there is a hut there now; the hut was a little farther off the road; I never saw selector about there at all; I have seen selector at my son's place, and at Ratcliffe Parnell's place two or three times, it was in the day time; if I wanted to find selector on business, I would go to Ratcliffe Parnell's place; I suppose I would or I would go nowhere else.

Examined by Mr. Wright: I would go to no other place to find him; I never went to his own selection to look for him; I never went any where to look for him, having no reason to do so; selector has camped at my son's while watering cattle; I have seen him oftener at my son's place than at Parnell's, as he came to water cattle often; I could not tell whether selector was in the hut or not; it was possible for him to be in the hut the whole of the time without my knowing it.

Examined by Chairman: I dont know where selector lived.

This deponent, *James Virgo Parnell*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn, maketh oath and saith as follows:—

Examined by Mr. Wright:—I am the owner of the selection in question; I went to reside on this land five weeks after selecting; I slept in a hut after I put it up; I put up a bark humpy, then I had a tin hut; that place is my home; I resided there by sleeping on it day after day; I have a slab house, bark roof, verandah, and inside are floored with slabs; I was in Uralla on 6th October, 1885, when the Inspector was at my place; I went up to get some sheep in March last; I was at Quirindi for cattle to put on the lake; I am a drover pretty often; the longest I have been away at one time is about three weeks; when away I always leave bedding and blankets and rations in the hut; I take my blankets away sometimes; one time I took my things away to Alfred Poole's to help him to get some timber; I was not away more than a fortnight; in April and May, 1883, my hut nearly always had things in it; I mostly put them under my mattress when I went away; I planted them; the track was about 350 yards in front of the humpy, just on the edge of the timber; on 3rd July last I was at Quirindi at the shearing looking after the shed; since I have had this selection I have cooked, eaten, and slept on it; I have lived there more than with my brother, Ratcliffe Parnell; I have slept at Ratcliffe Parnell's place the same as I would at any other neighbour's place; I have seen John Callaghan riding on my selection several times, and also Bill Callaghan; I spoke to Bill Callaghan on two occasions on my selection; I went back to my own selection when I watered my stock at Pope's selection; I used to water stock at Pope's, one time for three months at a stretch; I did not make Ratcliffe Parnell's my home then; I have the following improvements on my land within three years from date of selection, namely, on 23rd November, 1885, house, one room, about 9 yards long by 11 feet wide; it is built of pine slabs covered with bark roof, slab floor, edged slabs; there is a verandah covered with bark and slab floor, worth about £40; about ½ mile of 7-wire fence with one batten, posts 10 feet apart; I did not count the posts; I did not measure it; I see that that fence was 28 chains on the western boundary, worth £30; about 500 posts, worth 32s. 6d. per 100 laid on the ground, and about £2 10s. for putting up; boring 157 posts for 7 wires, at £1 per 100, £1 10s.; 330 posts erected and bored, 32s. 6d. per 100 for drawing, £1 per 100 boring, and £2 10s. per 100 for erecting; galvanized iron tank, £6; the tank is not connected to the house; is sometimes on and off a dray; well, 40 feet deep, £40; about 5 or 6 acres burnt off at 15s. per acre; there was some ringbarking done, but not within the three years.

Examined

Examined by Chairman: The shearing at Quirindi commenced about 1st September last, about that time; I swear that I made a mistake in saying that I was at Quirindi shearing in July last; I will swear that I was at Quirindi in July last, that was when I went to Uralla; I cooked at my selection when at Goran Lake; I have cooked on this selection regularly; I got water at my brother's dam.

Examined by Inspector: I could not swear that the bark hut is not 12 x 10 feet; I never knew 6d. per hole to be paid for putting in posts, 3d. or 4d. is about the price I expect; the fencers are on contract; I could not put the improvements required as the seasons were too bad; I did not have it improved to the extent of 6s. per acre within three years, although I made declaration to that amount.

Examined by Mr. Wright: I value the improvements on my land, at the time of making the declaration, that is at the end of three years from date of selection, as follows:—Hut, £40; well, £40; tank, £6; fence, £30; posts, £38 15s.; clearing, £3 15s.; sheep-yard, £1—Total, £159 10s. I was not able to put on the required amount in consequence of the bad seasons, the times were too hard.

Examined by Inspector: I was at Uralla in July last; I brought sheep from Uralla to Quirindi; I brought cattle from Quirindi to the selection in March last; I have not been at Mount Parnell more than half my time; I have not been away from my selection for three months altogether; I have been able to keep sheep there, but not all through the dry time; when in the locality I have lived in the gunyah on my selection; I was about the locality looking after my interests, and sleeping on my selection; it is not a fact that when in the neighbourhood I lived at Ratcliffe Parnell's; I carted water from my brother Richard's place to the selection, 2 miles away, unless after rain; I could not get a hut put up like this for £20; I could not get it put up for that; I helped to put it up myself, it took about three weeks for Mr. Poole and myself to get the stuff and put up the hut; we had two other men with us; I pay fencers 25s. per 100 for getting posts; I pay 15s. per 100 for boring them when they are up; the stuff is carted 1¼ miles or 1½ miles; I can get post-holes sunk for 3d. or 4d.; these posts are larger than usual, that is why I put such full value on them.

Examined by Mr. Wright: I was at Quirindi about October, 1885, for shearing.

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, J. P. WIGHTMAN, } Members of the Board.

This deponent, *John Joseph Poole*, of Goran Lake (called by selector), in the Colony of New South Wales, grazier, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr Wright: I know the selector, J. V. Parnell, and I know his selection.

The following improvements were on this land in November, 1885:—

	£	s.	d.
A well 40 feet deep, 5 ft. x 5 ft., worth £40	40	0	0
Hut, 18 ft. x 12 ft., with verandah 6 feet wide, floored, door, and windows	40	0	0
Nearly 30 chains 7-wire fence with 1-oak batten	37	10	0
90 chains of posts, pine, bored for 7-wire posts, about 8 feet apart, wire not in the posts	70	0	0
	187	10	0
7 or 8 acres of clearing at 10s. per acre	4	0	0
	191	10	0
Sheep-yard round oak saplings	7	0	0
400-gallon iron tank	5	0	0
	203	10	0

These improvements were on this selection in November, 1885.

Examined by Inspector: Mr. Clift paid half of the cost of the fencing; we paid the other half; I cannot say what price the selector paid £65 or £70 per mile was the price paid for fence like this; my value for the fence is its increased value to the land; the iron tank is not a fixture; the sheep-yard is not in a fit state at present for use; all the 90 chains of posts were bored, I think, but I am not sure; these posts are of use without the wire; they are fixed; these posts are worth £70 as they were without the wire; they cost that amount the way the work was done; this work was not done by contract; I do not think £20 is nearer the value of the hut than £40; it has one large room; the window is not glass; it is a shutter.

Examined by Mr Wright: Any sheep-yard will go to destruction unless used; in the 90 chains of posts the posts are 8 feet apart; posts are usually 10 or 12 feet apart; the posts are the heaviest I have seen in the district; those are my reasons for valuing it such a high price.

This deponent, *Alfred Poole*, of Goran Lake (called by selector), in the Colony of New South Wales, selector, being duly sworn, maketh oath and saith as follows:—

Examined by Mr. Wright: I know the selector and his selection; I recollect his selecting; he went about a month within the three months to reside; he erected a hut and lived in it; some people might call it a gunyah; I know that selector has made this his home from the time he selected up to the present; I live about a mile from this selection; I have often been at his selection, and have found him at his selection when I went there; I have frequently had meals at this selection, and have slept with him at his selection, and worked there with him at his improvements; to the best of my belief this is selector's home; I do not know of any other home that he has; I have seen selector often at Ratcliffe Parnell's and at my place; Mr. Ratcliffe Parnell is selector's brother; I have seen him at other neighbours'; he has been there with me and slept, and eaten there occasionally; we do droving together occasionally.

Examined by Inspector: The hut he lived in at first was a galvanized iron one; I believe the ends of the sheets of iron rested on the ground; there was water near this place, the first hut, in holes or swamps; it has been a pretty dry time since selector has had this land; I sometimes carted water for him; I have known him to live, and eat, and sleep regularly in this place; it is not a fact that when in the locality he lived at Ratcliffe Parnell's place.

Examined by Mr. Wright: I know J. V. Parnell and his selection; I have been at his hut on this selection often; I have not always found him there when I went; I have found him there pretty often; I have seen him having his meals there; I saw rations there and a billy-can; had tea there with selector out of the billy-can once or twice; all I can say is that I saw him there; if I wanted to find him I might go to Ratcliffe Parnell's; I mean that I would go to Ratcliffe Parnell's if I found that he was not at his selection.

Examined by Chairman: I live about two miles from this place; I cannot say where selector lives.

Examined

Examined by Inspector: I have been about this locality ever since this land was selected; I have often seen him at Ratcliffe Parnell's; I have often met him on his own selection; I usually passed this gunyah, but I did not notice if anyone was living there or not; I know the value of a 7-wire fence that we put round our own land; I value our fence at £60 per mile; it is a 7-wire fence, posts 8 feet apart, no batten, pine posts; I did not notice anything out of the ordinary in the posts in Parnell's fence; I have been in the hut; it is about 10 × 12 feet to look at the room; I could not say if it was floored; I think it was a "ground" floor; I could not say if the verandah was floored; cannot say as to the value of the hut; there was a sheep-yard there of oak rails, with stakes—cannot give its value; I have seen selector living in the present hut; I passed the hut and did not see the selector, although he might have been in the hut, or he might have been living at Ratcliffe Parnell's place at that time; I went round there nearly every day for five weeks, and he was living in the hut then; they were at work there then; on the most occasions that I went to the hut selector was there; I cannot give an average of how often I have seen selector at his place.

Examined by Mr. Wright: I have been at this place at about sunrise in the morning.

This deponent, *Reuben Pope*, of Goran Lake (called by selector), in the Colony of New South Wales, selector, being duly sworn maketh oath, and saith as follows:—

Examined by Mr. Wright: I know the selector and his selection; I live about 3½ miles from this selection; I have been often at his selection, and I have seen selector there, but I cannot say how often; I was working for him there; I have had meals there for a week, and slept there with Mr. Alfred Poole; selector was then away at Quirindi on business; Mr. Parnell or Poole found me in rations; I should say Mr. Parnell found my rations; there were cooking utensils in the place the week I was there; there were tools there that I used belonging to selector; it was a hut at that time.

Examined by Inspector: There was a gunyah there one time; I was not near it; I could not say if selector lived in the gunyah then; I know nothing as to residence before the hut was put up; I have been about the neighbourhood since the land was taken up; I could not say if selector lived at Ratcliffe Parnell's place; I don't know where he lives; I have seen him at Ratcliffe Parnell's place and at my own, and at other places; there has been always a good house at Ratcliffe Parnell's.

This deponent, *Samuel Smith*, of Goran Lake (called by selector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Wright: I know the selector and his selection; I was fencing for him for about three or four months continuously about two months ago; selector was on the selection several times then; I often had meals there with him at that time; I have stopped there a night or two with him; I was camped at Alfred Poole's while doing this fencing; selector was there most of the time I was there.

Examined by Inspector: It is two months ago since I left there; I was putting up posts; I started to put up and to split some posts; I do not know in what month I went there; it was in this year; I am sure, to the best of my belief, it was in this year; there was fencing standing when I went there; there were posts, also wire in one lot; I helped to wire the other lot of posts.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, to wit. } Decision of Local Land Board.

WHEREAS on the 22nd and 23rd days of November, 1886, it became a matter for investigation before us whether the conditions as to residence and improvements had been fulfilled upon the conditional purchase of 640 acres, made at Gunnedah, on 23rd November, 1882, county of Pottinger, parish of Brown, portion 28, selected by James Virgo Parnell, and having taken evidence and inquired into the said matter, we find that the condition as to residence has been fulfilled. The value of improvements we consider to be not sufficient at 6s. per acre as hereunder detailed; but at the same time we desire to point out that in consequence of the severity of the seasons, we recommend the question of an extension of time, to the Minister's favourable consideration. As the improvements did not amount to 6s. per acre at expiration of three years we have to recommend that this selection be forfeited.

Notice of Appeal.

Crown Lands Act of 1884—(Part II, section 17).

Notice of Appeal to the Minister from decision of Local Land Board to be lodged with the Chairman.

New South Wales, } to wit. }

WHEREAS on the 24th day of November, 1886, a certain matter wherein I, James V. Parnell, a selector at Goran Lake, in the county of Pottinger, parish of Brown, came before the Local Land Board at Gunnedah, in the Colony of New South Wales, for inquiry into my residence and improvements, and the said Board, after having inquired into the premises, in virtue of not sufficient improvements, decided to recommend the forfeiture of my selection. And whereas I am dissatisfied with such decision, and intend to appeal therefrom to the Minister. These are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal, and the grounds of such appeal are annexed.

JAMES V. PARNELL.

Received the sum of £10 referred to above at Tamworth, on the 15th December, 1886.—WILLIAM ARDILL (*pro* Chairman).

Grounds of Appeal.

I BEG most respectfully to appeal against the decision *re* improvements on my selection, given by the Land Board at Gunnedah on the 22nd and 23rd ultimo for the following reasons:—I selected 640 acres of land on the 23rd November, 1882, at Gunnedah, county of Pottinger, parish of Brown, since which date I have continuously resided thereon, and during which time I have used every exertion within my power to place the necessary improvements demanded by the Act on my selection; but having to contend with most adverse seasons I have failed in placing, according to Inspector's value, the amount required for the first three years. I beg to state since the inspection upon which this inquiry was based, I have still further considerably improved my selection to the amount more than required by the Act for the first three years. Upon these grounds let me beg of you to please grant me an extension of time.

Office Memo.

JAMES V. PARNELL'S appeal against the recommendation of the Tamworth Land Board that his conditional purchase 82–173 be forfeited on account of insufficient improvements not being placed on the land at date of first declaration. Conditional purchase applied for, 23rd November, 1882; area, 640 acres; date of first declaration, 22nd February, 1884; improvements then on land, £125 9s. 6d.

The selector in his appeal states that he has since further improved the land.

It must be pointed out that the survey made in satisfaction of the conditional purchase application was approved by Mr. Secretary Farnell on 2nd May, 1884, and therefore the proviso attached to the 17th clause of the Lands Acts Amendment Act of 1875, to the effect that the three years within which the conditional purchaser is required to effect improvements, may be held to commence from the date of the survey of the land, may be held to apply to this case as now applied for.

I, JAMES VIRGO PARNELL, of Goran Lake, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the thirteenth section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of hut, fencing, well, wool-shed, yards, ringing, and dam, and to the value of £372, have been made on such land; and I declare further that the said land has been the *bona fide* residence, continuously, of myself from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same

to

to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

C.P. 82–173, section 13, portion 28.

Selection of James Virgo Parnell, made at Gunnedah, on 23rd November, 1882.

Sir, Kickerbell, 14 January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 640 acres, is occupied and used by selector as grazing land; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
Wool-shed 18 x 40; 9 feet skillion, battened; floor boarded; sawn slabs for walls...	160	0	0
40 acres ringbarked	3	0	0
60 rod 5-sapling rail sheep-yard and race, at 10s.	30	0	0
692 rod 7-wire fence, at 4s.	138	8	0
Tank...	5	0	0
	£336	8	0

Remarks.—Hut showed signs of a fair amount of occupation; but as time for residence had expired, there was nothing now in hut. This conditional purchase was up for inquiry on a previous occasion. I know of nothing further against selector than given in evidence then adduced.

I have, &c.,

WILLIAM BROWN,

Inspector of Conditional Purchases.

Report obtained in accordance with decision given at Appeal Court. Forwarded for action on declaration.—JOHN M'DONALD, Chairman, Tamworth, 6/3/88. The Under Secretary for Lands to Mr. A. Poole.

C.P. No. 83-68.

Department of Lands, Sydney, 24 August, 1885.

Sir,

Referring to the conditional purchase of 640 acres, applied for by Alfred Poole, at Gunnedah, on the 21st June, 1883, which was the subject of inquiry by the Local Land Board, Gunnedah, on the 28th April, 1885, I am to inform you that, under the report furnished by the Local Land Board, the Minister for Lands does not see any necessity to interfere further at present with the selection in question.

I would, however, warn you that it is incumbent upon you to continue residing *bonâ fide* upon the conditional purchase for the remainder of the term, and that it will be necessary for you, in terms of section 18 of the Crown Lands Alienation Act, 1861, and section 5 of the Lands Acts Further Amendment Act, 1880, to furnish the required declarations at the prescribed time.

I have, &c.,

Selection of Alfred Poole, made at Gunnedah, on 21st June, 1883.

Tamworth, 1st May, 1886.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 22nd March, 1886, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 640 acres, is occupied and used by J. J. Poole, as grazing land; and the selector, who follows the avocation of selector had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Gunyah, £1 10s.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection:—Gunyah did not appear to have been in use for a long time; bark misplaced at end; fire-place did not seem to have been disturbed for a considerable time; some flour in a 3-bushel bag; some fat in a dish in a box; no other rations; slab on floor for bunk; bedding bundled together at head; no water and no cooking utensils; a few very old clothes hanging about; I hear selector is a single man, and that he usually resides near Quirindi. Recommend another inspection.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Forwarded to Head Office to be placed with former papers of case.—Wm. Ardill, *pro* Chairman, Land Board Office, Tamworth, 13/5/86. Conditions of residence not being carried out, submitted for inquiry subject to the provision of the 20th Section 48 Vic. No. 18.—W.H.C., 25/8/86. F.H.W., S.F., 27/8/86. Approved.—H.C., 28/8/86. Report by William Brown, Inspector of Conditional Purchases, respecting the selection of Alfred Poole, made at Gunnedah, on 21st June, 1883.

Tareela, 4 August, 1886.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 3rd July, 1886, and that I found the selector then not resident upon selection.

The land, which consists of forest and plain, and comprises 640 acres, is occupied and used by John Joseph Poole; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—As formerly.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection:—No sign of occupation about gunyah. I did not inspect as to improvements, as I had no tracing. Recommend inquiry as to residence and improvements. I will try and inspect again as to the latter before Court.

Summon John Callaghan, Spring Ridge; William Callaghan, Breeza; Alfred King, Goran Lake; William King, Goran Lake.

I have, &c.,

The examination of William Brown, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases; John Callaghan, of Spring Ridge; William King, of Goran Lake; Alfred Poole, of Goran Lake; John Ellicolt, of Curlewis; Lawrence Parnell, of Goran Lake; James V. Parnell, of Goran Lake; and Reuben Pope, of Goran Lake, in the said Colony.

WHEREAS it hath been alleged that the condition as to residence had not been fulfilled upon the conditional purchase of 640 acres made at Gunnedah, on 21st June, 1883, by Alfred Poole, county of Pottinger, parish of Brown, portion 29, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

Mr. Tribe, solicitor, appeared for selector.

This deponent, *William Brown*, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows:—

I know a selection of 640 acres, made by Alfred Poole, at Gunnedah, on 21st June, 1883; I first visited this selection on 6th October, 1885; selector was not at the gunyah, but it was in use, and there were flour and rations, and water in a cask, and it appeared to me as though in use; on 22nd March, 1886, I again saw this land; the gunyah then did not appear to have been in use for some time; the bark was displaced at one end; there did not appear to have been any fires lit for some time; the fire-place is outside; there was a little flour in a 3-bushel bag inside a box; there was some fat, but no other rations; there were slabs on the floor for a bunk, and bedding bundled together at the head of the bunk; there was no water or cooking utensils there then; a few very old clothes hanging inside the gunyah; on 3rd July last I also paid this selection a visit; there were then no cooking utensils or rations in the place; the gunyah had been patched up a little since I was there; there were no signs of anyone having used the gunyah for some considerable time; inside it was much the same as before; there was no cask for water; on the first occasion, I believe, the selector and his brother were camped at the gunyah for some work close by.

This deponent, *John Callaghan*, of Spring Ridge (called by Inspector), in the Colony of New South Wales, sheep superintendent, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know Alfred Poole's selection in question; I have been in the locality frequently from the time Poole selected up to the present time; I saw a bark humpy on the land; it was tent shape; there was a part of a frame of house on the land the last time I saw it; I know the selector; I have never seen him living in this gunyah; there

is

is a shepherd there lately; I never saw anyone on it for years; I passed close by to it; there were no fires outside when I passed by; I did not look inside the gunyah; I generally go round there three or four times a half year; before the fence was up I used to go and see if anyone were trespassing; I used to go there once a week or once a month; I never saw selector residing in this gunyah; I have seen selector all along at Ratcliffe Parnell's often; nearly every time I called he was at the house, and during those times I passed the gunyan and found no one there.

Examined by Mr. Tribe: For all I know, this may be selector's residence; I do not know where he lives; I have ridden close by the hut, as close as I could get, and did not see selector there; I have met selector in the locality; I saw him sinking a well on James Parnell's selection; that is the only time I saw him at work; he never told me where he lived.

Examined by Inspector: On one occasion I went to look for selector; did not find him at his selection; I found him at Ratcliffe Parnell's place; it was on business.

[Mr. Wright, agent, took up case for selector at this stage.]

This deponent, *William King*, at Gorom Lake (called by Inspector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know the selector Alfred Poole, and I know the house on this selection; I do not know the date of selection; I have been in the locality for four years; during those four years I have been near the gunyah on this land; I never saw selector living there; I have been there backwards and forwards pretty often—as often as five or six times altogether; I saw nothing outside the gunyah—no fires, or placas where fires had been lit lately; some dark people have been living in the gunyah these last three months; some women, two or three of them, living in the gunyah; I have seen selector about the run, but not at Ratcliffe Parnell's house; I have been at Ratcliffe Parnell's house.

Examined by Mr Wright: I have never seen Mr. Poole at his selection; I had dinner with the dark people, fencers, at the selector's ground; I said "good day" to the selector on his ground; he was with the fencers; I could not say if he was on his own land, or on Clift's ground; when I said good-day to him he was drawing fencing stuff at the time.

Examined by Chairman: I do not know if selector lives on his selection or not; I never saw him there; he could be there without my knowing it.

Examined by Mr Wright: I had my dinner with the fencers on this land, in the gunyah; I met the selector on the fencing line, unloading posts, when I went from the gunyah, after leaving dinner; I cannot say if selector lived on this selection or not; he could be there without my knowing it.

This deponent, *Alfred Poole*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Wright: I am the owner of the selection in question; I went to reside on this land about two months after selecting; I resided two years in my hut or gunyah from the time I went on to this land; I have made this my home; I have slept, and cooked, and eaten my meals there, and have always had rations and bedding and requisites there; when the Inspector visited my land in October, 1885, I slept in my hut the night before and the night after the Inspector was there; I left my hut early in the morning to see my father at Green Ridge, and when I got to my father's residence I found that he had gone away with Inspector Brown; I went then to Ratcliffe Parnell's selection, and found the Inspector and my father there. I left my selection in March last, and went to Bendemeer with sheep; that accounts for my not seeing the Inspector on that occasion; I did not leave my rations and things about when I went away; it was likely that I would remove my things when I went away, or they would be stolen.

Examined by Inspector: There is one room in the hut; it is sufficient to live in.

Examined by Chairman: I swear I lived at this place, eaten, and cooked my meals; I have no other house; I lived mostly by myself at this place; I had bed and cooking requisites; I cooked myself; I did not live at Ratcliffe Parnell's selection; I stayed there at odd times.

Examined by Mr. Wright: I have 2¼ miles of seven-wire fence, pine posts; about ½ mile of posts 10 feet apart, with a batten; the rest is 9 feet apart, no batten; I value this at £100 per mile, £225; a well 5 × 5 feet, 40 feet deep, worth £40; I value the huts at £15; four bark huts, all bark, with sides, box bark, with frames; no other improvements; total, £280.

Examined by Inspector: The fence was completed except for the wires four months ago; the wires are being completed now; about £1 per 100 is what I have got posts about there; I consider the fence is worth £100 a mile; it did not cost me that; there is nothing peculiar about this fence why it should be dearer than others in that locallty; I am close to timber, and it is flat country.

Examined by Mr. Wright: The posts are very good posts; they are about 5 inches wide by 5 inches thick, and 6 inches by 6 inches; I have gone to Ratcliffe Parnell's for water while splitting these posts.

This deponent, *John Ellicott*, of Curlewis (called by selector), in the Colony of New South Wales, grazier, being duly sworn, maketh oath and saith as follows:—

Examined by Mr. Wright: I am a selector; I know the selector in this case, and I know his selection; have been at his selection often; I have seen him several times on his selection; I have often seen him upon his selection.

Examined by Inspector: My selection is about 2 miles from where I live to selector's hut; there are two or three gunyahs on it now; there were two there all along; I have been near the gunyahs; selector was at the gunyah on one or two occasions; I was there early in the morning, after my horses; I have been about there ever since this land was selected; I have seen selector residing on his selection during the first twelve months; I have been past the gunyah, and called when I saw anyone there; I often passed the gunyah when selector was there, and I often passed when he was not there; I know Ratcliffe Parnell's house; I have been there often; he has a good big place; I have seen selector there; I know that selector does not live at Ratcliffe Parnell's place; he could live there without my knowing it; some fencers are occupying the gunyah now; they have been there a good while; could not say how long, perhaps about three months.

Examined by Mr. Wright: It would be possible that selector could be in the gunyah without my seeing him; I do not know if Mr. Poole occupies one gunyah himself; the fencers are working for selector.

Examined by Chairman: I can only say I have seen selector at this place; I cannot say if he makes it his home or not; I will not undertake to say.

Examined by Inspector: I live on my own selection; I am married; Poole is not married.

New South Wales, to wit.

Decision of Local Land Board.

WHEREAS on the 20th day of November, 1886, it became a matter for investigation before us whether the condition as to residence had been fulfilled upon the conditional purchase of 640 acres, made at Gunnedah, on 21st June, 1883, county of Pottinger, parish of Brown, portion 29, selected by Alfred Poole, and having taken evidence and inquired into the said matter, we find that the evidence on behalf of selector as to residence is positive, and we recommend that this selection be upheld for the present.

THE declaration upon the above-described conditional purchase requires verification. All available papers in connection with the case were referred to the Chairman of the Local Land Board, Tamworth, 7/9/86, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If

If the report, when furnished by the Inspector, shows that the conditions of the Act under which the conditional purchase was made, have not been or are not being carried out, an investigation may be instituted by the Local Land Board, subject to the provisions of section 20 of the Crown Lands Act of 1884. Selection of Alfred Poole, made at Gunnedah, on 21st June, 1883.

Sir, Gunnedah, 12 August, 1887.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th July last, and that I found the selector then not resident upon selection.

The land, which consists of plain and forest, and comprises 640 acres, is occupied and used by selector's father, as grazing land, and the selector, who follows the avocation of a labourer, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—As formerly.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection :—Nothing whatever in any of the humpies, and the place had the appearance of being deserted for months. Will visit again shortly.

Inspector of Conditional Purchases.

Sir, Kickerbell, 17 January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last, and that I found the selector then resident upon selection.

The land, which consists of box and yarran forest and plain, and comprises 640 acres, is occupied and used by J. J. Poole ; and the selector had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—As formerly.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been fairly resident upon the selection recently :—I saw selector on land ; he told me he was camped out sinking a tank. A new hut has been erected since my last visit ; it contained rations, cooking utensils, &c., and showed signs of a fair amount of use.

No. 1.

Messrs. Blomfield & Dickson to The Secretary for Lands.

Sir, 139, Pitt-street, Sydney, 18 July, 1881.

We have been instructed by Messrs. Clift Brothers to apply to have measured for auction about 1,300 acres of Crown lands on their Breeza Run, being all the vacant Crown lands bounded on the east by water reserve 521, on the west by measured portion 10, on the south by travelling-stock reserve 702, and on the north by measured portions 15, 16, and 21, to be measured in blocks, as shown on accompanying tracing.* * Tracing enclosed.

We have this day paid into the Treasury the sum of £32 10s., guarantee deposit, at the rate of 6d. per acre, and have the honor to request that the portions may be measured in areas as shown upon rough tracing enclosed.† † Appendix 3.

We have, &c.,

BLOMFIELD & DICKSON.

The sum of £32 10s. credited this day to Trust Fund, on within account.—E.H., B.C., Treasury, 18th July, 1881. G.E. The Under Secretary for Lands. Mr. Gall, as to pre-lease.—J.S., 26/7/81. The land applied for is Cameron's lease, applied for on leases 81-24, and not yet dealt with.—A.G., 27/7/81. Mr. Sangster.

Cameron's application is in virtue of a conditional purchase, 81-46, being portions 10, 11, 12, 13, 19, and 20, parish Nea. The whole of this land will probably be included within Cameron's pre-lease, which cannot be dealt with at present, there being conflicting claims for land to the north of Cameron's conditional purchase.—A.G. J.S., 1/8/81.

Submitted for consideration of the Secretary for Lands whether, in view of the above memorandum of Lease Branch, the land be measured for auction sale.—J. W. Ellis (for the Surveyor-General), 3rd August, 1881. Perhaps the measurement may be proceeded with, leaving the question of sale to be hereafter determined.—C.O., 5/8/81. Approved.—J.H., 5/8/81. Forwarded to Mr. District-Surveyor Dewhurst for survey, if unobjectionable, according to regulations.—J. W. Ellis (for Surveyor-General), 12th August, 1881. Messrs. Blomfield & Dickson informed of action by printed letter.—17/8/81. Mr. Goodwin, for action.—A. Dewhurst, 22nd August, 1881. Replied to by letter, dated 7th October, 1881.—Thomas H. H. Goodwin. Refunded.—14/8/82.

No. 2.

Mr. Licensed-Surveyor Goodwin to The Surveyor-General.

Bando, Gunnedah, 7 October, 1881.

I have the honor to forward herewith a ‡plan showing nine portions of land containing from 96¼ to 160 acres, numbered 12, 13, 14, 17, 18, 19, 20, 25, and 26, in the parish of Brown, county of Pottinger, applied for under the 23rd clause of the Crown Lands Alienation Act of 1861, by Messrs. Clift Brothers, and measured by me in accordance with instructions No. 263, dated 17th August, to Mr. District-Surveyor Dewhurst. ‡ Appendix 4.

The

The land consists of rich black soil suitable only for grazing purposes, and is timbered in places with box and gum. There are no improvements on any of the portions. Through portion 15 being shown out of position on the tracing, I found it necessary to make a slight alteration in the design, and measured six portions of 160 acres each in lieu of about 150 shown on tracing. I have also given a connection showing the position of No. 15.

I was unable to determine the magnetic variation through the sun being hidden by clouds in the evening. The instrument used was a theodolite, and the survey was completed on the 10th September, 1881.

Mr. Inspector O'Hara to The Chief Commissioner, Conditional Sales.

Selection of Arthur Poole, made at Gunnedah, on 11th October, 1883.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 21st October, 1884, and that I found the selector then not resident upon this selection.

The land, which consists of plain and bush, and comprises 160 acres, is not occupied, but used by J. J. Poole as grazing; and the selector, who follows the avocation of , had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz :—

Hut, split-slab sides, earth floor, one room, and verandah £6

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

There is no bedding, cooking utensils, nor furniture of any kind in the hut. There are no marks of traffic in or about it; chips of the slabs, when being erected, are now lying on the floor of the room and verandah.

Whereas it hath been alleged that Arthur Poole did not fulfil the conditions as to residence and improvements upon the conditional purchase of 160 acres, made by him, at Gunnedah, on 11th October, 1883, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr. Tribe appeared for claimant.

This deponent, *John Still O'Hara*, of Moree, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows :—On 21st October, 1884, I inspected the conditional purchase, the subject of this inquiry, taken by Arthur Poole, at Gunnedah, on 11th October, 1883; selector was not resident; the hut I valued at £6; there was no bedding, cooking utensils, or furniture of any kind, and there were no marks of traffic in or about it; chips were lying on the ground in and outside; they appear to have been cut off the slabs while being erected.

Examined by Mr Tribe : This place appeared to be not long built; I saw no other hut; I went a little past the hut, but would not say there was not another hut, but it was a small one if it was there; I could see the fence; selector went part of the way to show me his selection; he appeared to be minding a place 3 or 4 miles away, belonging to Mr. Parnell; he told me all the others were away; the place I have described was a new place, and did not appear to have been inhabited.

This deponent, *Arthur Poole*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn, maketh oath and saith as follows :—

Examined by Mr. Tribe : About a fortnight or three weeks after taking up this selection I went to reside on it; I have lived there ever since; I have made this my home continuously, and I have no other home; when the Inspector was there I was staying at Mr. Parnell's place for three or four days, as Mr. Parnell was away at Maitland; I had not lived in the new place before Mr. O'Hara came; I had been living in a small place at the back of the new hut, on the hill close to the fence; that is where I kept my blankets and my cooking utensils; I showed Mr. O'Hara my new place; Mr. O'Hara did not go in the direction of the old hut; I am in the new place where I removed to after Mr. O'Hara's visit; there is some fencing on the place; I am always about there.

Examined by Inspector : I remember you coming, and I went part of the way with you; I recollect you saying you were inspecting for residence; the new hut was the place I directed you to; I did not think of mentioning the other place to you; I had a keg of water at the old hut; I have never been away except for driving stock; I have not been oftener at the big house than at the selection.

Sworn by this deponent, Arthur Poole, on this 28th April, 1885, at Gunnedah, before us,— ARTHUR POOLE.

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, J. P. WIGHTMAN, } Members of the Board.

This deponent, *Ratcliffe John Parnell*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn maketh oath and saith as follows :—

Examined by Mr. Tribe : I know Mr. Arthur Poole's selection; I recollect about the time it was taken up; about a month after he took it up he built a hut; he resides there; as far as I know, he has resided there ever since he first went there; he has no other home; he built another place, larger, with a tin roof, where he now resides; he has no other home, to my knowledge; when I was in Maitland he stayed at my place; after I came back he went to his own place, to the best of my belief; I have seen him there several times; I was at his old hut one night; his old hut is up the ridge, towards the boundary of his place.

Examined by Chairman : I will swear that selector has lived there since he selected till now; if you went in one way from the old hut you could see the new one, but going in another way it could not be seen; a person coming under the ridge on the plain could not see the old hut.

Examined by Inspector : The old hut is about 300 yards to the east of the new hut.

Sworn by this deponent, Ratcliffe John Parnell, on this 28th April, 1885, at Gunnedah, before us,— RATCLIFFE J. PARNELL.

This deponent, *William John Dick*, of Quipolly, in the Colony of New South Wales, selector, being duly sworn, maketh oath and saith as follows :—

Examined by Mr. Tribe : I know this selection of Arthur Poole, at Goran Lake; I helped him to put up a hut about eighteen months ago on this selection; it was a bark hut; it was built for Mr. Poole as a residence; there is another and larger hut built there now; the hut I put up is about 150 or 200 yards to the back of the new place, that is to the east; I have seen Mr. Poole there.

Sir, Department of Lands, Sydney, 24 August, 1885.

Referring to the conditional purchase of 160 acres applied for by you, at Gunnedah, on the 11th October, 1883, which was the subject of inquiry by the Local Land Board at Gunnedah, on the 28th April, 1885, I am to inform you that, under the report furnished by the Local Land Board, the Minister for Lands does not see any necessity to interfere further at present with the selection in question.

I would, however, warn you that it is incumbent upon you to continue residing *bonâ fide* upon the conditional purchase for the remainder of the term, and that it will be necessary for you, in terms of section 18 of the Crown Lands Alienation Act, 1861, and section 5 of the Lands Acts Further Amendment Act, 1880, to furnish the required declarations at the prescribed time.

Selection of Arthur Poole, made at Gunnedah, on 11th October, 1883.

Sir, Tamworth, 1 May, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 22nd March, 1886, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 160 acres, is occupied and used by J. J. Poole as grazing land; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

Slab hut, 12 × 10, not on sleepers, galvanized-iron roof £20

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. Inside hut was a bunk, with bed-tick, blanket, and counterpane; no cooking utensils or rations, except a little flour in a bag hanging on wire from cross-piece; very few fires ever lit in fireplace; slabs not smoke-stained; not protected in any way; hut did not appear to have been used for a long time; no water; no clothes, except a waistcoat; carpet-bag (old), a tin dish, one cup very dirty, one broken cup, one saucer, broken plate; cask, empty. I hear selector resides principally at Quirindi. Another inspection recommended.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 3rd July, 1886, and that I found the selector then not resident upon selection.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.—Hut in same state as on last visit, except salt in bag hanging up instead of flour; cask, but no water in it; very slight sign of traffic since rain a fortnight ago; selector was in locality, for I saw him at the house on one of the Parnell's selections. THE examination of William Brown of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases; John Callaghan, of Spring Ridge; William King, of Goran Lake; Arthur Poole, of Goran Lake; James Parnell, of Goran Lake; John Clarke, of Quirindi; and Richard Parnell, of Goran Lake, in the said Colony.

WHEREAS it hath been alleged that the conditions as to residence had not been fulfilled upon the conditional purchase of 160 acres, made at Gunnedah by Arthur Poole, on 11th October, 1883, County of Pottinger, parish of Brown, portion 19, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

Mr. Tribe, solicitor, appeared for selector.

This deponent, *William Brown*, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows:—

I know a selection of 160 acres, taken up at Gunnedah, on the 11th October, 1883; I visited this selection on the 6th October, 1885; I did not find the selector residing in the hut; the hut contained a bunk with blankets on it; there were some bags of flour, tea and sugar; there was no cooked foood in the place; there were not many fire ashes in the place; there was no water about, either in the hut or outside; there was no cooking utensils; I saw it again on the 22nd March, 1886; there were no cooking utensils then there, or rations, except a little flour in the bag; the slabs in the fire-place were not smoke stained or protected; a very few ashes were in the fire-place; there was no water about, and the hut did not appear to me to be used for some time; I saw it again on 3rd July last; the hut was much in the same state as the last visit; there was a cask there then, but no water in it; there were very slight signs of traffic; I know he was in the locality at the time, because I saw him at Ratcliffe Parnell's selection.

Examined by Mr Tribe: I was not there at night-time; I should say he did not use the place to sleep; from the absence of traffic about the place, I never go at night-time; I make my reports from what I see; there was a cask inside, but it did not contain water from its appearance; I should say it would not hold; it is the custom of people in the bush to carry billies, if they are out camping; the selector told me on one occasion he was working in the bush; this was on the first occasion at Ratcliffe Parnell's.

This deponent, *John Callaghan*, of Spring Ridge, in the Colony of New South Wales, station superintendent, being duly sworn, maketh oath, and saith as follows :—

I know Arthur Poole, and his selection of 160 acres; it joins John Joseph Poole's; I remember it was taken up at the latter end of 1883; I was living about 10 miles from there at the time; I saw a building on the selection; I saw a humpy on it first; it was shortly after enclosed with a fence; I knew the selection four or five months after the three months had expired, after to commence residence; I never saw the selector on the selection at all; I was near this gunyah; I rode passed it frequently; I saw it four or five times; I went right up to the humpy each time; I never looked in; I never saw where any fires had been lit; it never appeared to be occupied; I have only seen the selector three times since he took up the selection; on one of the times I found him in bed at Ratcliffe Parnell's.

Examined by Mr Tribe : If I wanted him I would go to his humpy; I know the place as Arthur Poole's selection; I saw him sleeping in a cart about 2 miles from the humpy; there is a house there now; I saw it at a distance.

This deponent, *William King*, of Goran Lake, in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows :—

I know Arthur Poole's selection, at the Green Hill; I know the selector; it was taken up a little over three years ago; the first time I saw it it contained a skillion; it had an iron roof on it; I never saw the selector living in it; never saw anyone living in it; I was there pretty often; I was shepherding in the neighbourhood at the time, and lived 3 miles off; I saw the selector pretty often in the neighbourhood; I don't know where he was living; I never went inside the skillion.

Examined by Mr. Tribe : I went as close as 8 or 11 yards to the skillion; I don't know the date it was taken up; when I say eighteen months afterwards, that is as near as I can guess; I would not undertake to swear that the roof was not of bark; he might have been living on the place for all I know.

This deponent, *Arthur Poole*, of Goran Lake (called by selector), in the Colony of New South Wales, selector, being duly sworn, maketh oath, and saith as follows :—

I am the selector of 160 acres; I took it up on the 11th October, 1883; about a month after I went to reside on the land; I have put fencing on it since, and had sheep there; I have no other residence whatever; I have no other habitual residence; business took me away on the day Mr. Brown called; I was also away other times, at a fornight a time; my cooking utensils I took away with me in the bush; I slept in my place the night before Mr. Brown called; I was fetching rations from Curlewis at the time I was camping in the cart, and was on my way to my selection; I know young King; I have not seen him often about my place; I believe working for the Clifts.

Examined by Inspector : I believe there was some rain just before you called there; there were tracks on the ground; I have to go over 2 miles for water; I fetch it in a cart; I went over to Richard Parnell's to borrow a cart to get water; I will swear the cart contains water now; I had my cooking utensils in the bush on both occasions when you called; I was splitting at the time, and had to go home to sleep; I had tea and sugar on the last occasion you called at my place; there was a bucket, bed, and blankets also there; I usually kept the rations in the hut; I kept my old clothes in the hut; the rest I had on me; I kept my shirt and trousers and waistcoat in the hut; I will swear I don't keep my clothes at Ratcliffe Parnell's; when you saw me at Ratcliffe Parnell's I was there getting water; I might have slept at Parnell's now and again; I will swear I do not make Ratcliffe Parnell's place my home and have my meals there; the longest period I have been away from my selection at one time is about a fortnight.

This deponent, *James Parnell*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn, maketh oath and saith as follows :—

I know Arthur Poole; he lives over at the Green Hill, Goran Lake, on his selection; I have known him to reside on it ever since he took it up; I saw him there within three months after he took it up; I know his selection to be his habitual residence; he lives there now; I have been in his place scores of times; I have slept there more than once; I have seen him sometimes away; I have helped him to clear and burn wood off his place; he has helped me; it is not a fact that he made Ratcliffe Parnell's place his home; he does not sleep and have his meals there.

Examined by Inspector : I am step-brother of the selector's; I have been all the time in the neighbourhood myself, with the exception of the time I have been away for a week; he has had cooking utensils each time I was with him, also rations; he kept his clothes in the hut; the selector might have kept some clothes at Ratcliffe Parnell's for all I know; I know he has slept at Ratcliffe Parnell's—not often; he has not slept there oftener than he has done at his selection; he had a water-cask there when I was there; it pretty well nearly always had water in it; the slabs are not protected any way from the fire; that's where he did his cooking.

I know the selector and his selection; I have been working there; I am no relation of the selector's; I have been working in that neighbourhood for about two years; I don't know of any other place but the selection that the selector resided; he stayed at Ratcliffe Parnell's once or twice—I would not be sure; he helped me to tank sink; when I was on his selection once I saw him at his hut.

Examined by Inspector : I saw him on his selection several times; I camped myself in my dray at Parnell's; I don't know where he slept; he might have stayed at Ratcliffe Parnell's a few times; he used to come late to work.

Examined by Mr. Tribe : I have had nothing to do with the Parnells for the past four or five months.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, to wit.

WHEREAS on the twentieth day of November, 1886, it became a matter for investigation before us whether the condition as to residence had been fulfiled upon the conditional purchase of 160 acres, made by Arthur Poole, at Gunnedah, on 11th October, 1883, county of Pottinger, parish of Brown, portion 19; and having taken evidence and inquired into the said matter, we find that there is no evidence to show that the condition as to residence has not been fulfilled, and we recommend that this selection be upheld for the present.

I, ARTHUR POOLE, of Goran Lake, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of fencing and house, and to the value of £105 have been made on such land; and I declare further that the said land has been the *bona fide* residence continuously of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the above-named holders, until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration conscientiously, believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

THE declaration upon the above described conditional purchase requires verification. If the report, when furnished by the Inspector, shows that the conditions of the Act under which the conditional purchase was made, have not been, or are not being carried out, an investigation may be instituted by the Local Land Board, subject to the provisions of the 20th section of Crown Lands Act of 1884.

Sir, Gunnedah, 12 August, 1887.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th July last, and that I found the selector then not resident upon selection.

The land, which consists of box forest and plain, and comprises 160 acres, is occupied and used by selector's father as grazing land, and the selector, who follows the avocation of labourer, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

As formerly.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection:—There was only a little tea and sugar and some flour in hut. No sign of the place being occupied; only a single blanket lying on bunk, which had no appearance of being in use. I saw no cooking utensils. I saw the selector about, and he accompanied me to his father's selection, where, I believe, he is camped at present. I had not time to inspect improvements, as bush was too boggy. Will visit again shortly.

I have, &c.,

The additional conditional purchase, 84–87, requires inspection. All papers in connection with the case are, therefore, referred to the Chairman of the Local Land Board, Tamworth, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date, in anticipation of receipt of declaration.

If the report, when furnished by the Inspector, shows that the improvements are not sufficient on additional conditional purchase 84–87, or that there is not a surplus from those on the original conditional purchase of this series to cover the deficiency, an investigation by the Local Land Board may be instituted, subject to the provisions of the 20th section of the Crown Lands Act of 1884.

Memo. by District Surveyor at Tamworth.

REPORT of the District Surveyor at Tamworth upon application for conditional purchase No. 87–9, of 28th April, 1887, under section 26 of the Crown Lands Act of 1884, for 540 acres, parishes of Brown and Digby, county of Pottinger, by Martha Poole, Pullaming Run.

Sir, 5 May, 1887.

In compliance with your memorandum of the 4th instant, I have the honor to report that from the declaration attached to the application it would appear that the applicant is a married woman, and under the opinion of the Attorney-General, expressed in the appeal case of C. A. Rudd, is under the disability contemplated by the 23rd section of the Crown Lands Act of 1884, unless she can establish her right to the protection of 42 Vic. No. 11, in which case the disability is removed. It becomes therefore a question for the Local Land Board to decide whether the applicant has a separate estate, and if satisfactory evidence of the same is forthcoming there does not appear to be any objection to the approval of the application under the provisions of the 60th clause of the Crown Lands Act of 1884, in view of the situation of surrounding alienations.

I have, &c.,
W. H. HALL
(*Pro* District Surveyor).

I am the applicant for conditional purchase 87–9 of 540 acres under the residence clause of the Land Act of 1884; I am a married woman; I was executrix under the will of my first husband, Mr. Parnell; my first husband left his money to be equally divided between myself and my children; I got my own share, and I acted as guardian for my children; I selected this land with money made from the money left to me by my first husband; if the case is postponed I will produce the necessary documents.

This deponent, *Martha Poole*, of Curlewis, in the Colony of New South Wales, wife of J. J. Poole, being duly sworn, maketh oath and saith as follows:—

Examined by Mr. Treacher: I am the applicant for the conditional purchase of 540 acres now in question, and also a conditional lease of 1,620 acres in virtue thereof; my former husband was named James Virgo Parnell; he died on 9th May, 1870; he died leaving a will; Nicholas Gay Carter and myself were the executor and executrix thereunder; probate of this will was granted to me and to the co-executor; I am the sole surviving executrix now under the will; money and gas shares were left me; I got the money left me under the will; as a widow I always carried on business on my own account; I got furniture and money under the will, and the stock mentioned in the deed of settlement [*produced*] was the investment of the moneys left me under the will; I married Mr. Poole three years after the death of my former husband; the property mentioned in the schedule under the deed of settlement, both before and at the time of my second marriage, was my own separate property; before my second marriage an agreement was entered into by Mr. Poole and me that the property mentioned in the deed of settlement should be set out for my separate use; in 1875 the deed of settlement now produced was executed in pursuance of that agreement; I have always kept a separate banking account, and also a joint bank account with my present husband; I have very often carried on business transactions with my separate account irrespective of Mr. Poole; I paid the deposit for this selection and lease out of my separate moneys, and not out of the joint account; I take up this land solely in my own benefit, and not in the interest of any other person; before the deed of settlement was drawn the attorney who drew it had all the documents and understood the position fully; at date of the deed of settlement the value of my sheep amounted to £600, and about £60 for my cattle, and three horses for buggy worth about £100; the furniture left me under the will cost £350; it was bought in 1870; the furniture set out in the deed was worth £400 at date of the deed; the money used for taking up this land is out of the profits of my separate estate. Plan appended, No. 5.
