The Chairman, Local Land Board, Tamworth, to Miss Mary Ann Parnell.

Madam, Local Land Board Office, Tamworth, 16 September, 1887.

I have the honor to inform you that the conditional purchase applied for by you, as per margin, has been disallowed; previously applied for and alienated to Martha Poole under conditional purchase 87-9.

Gunnedah, C.P., 87-11; M. A. Parnell; date of application, 5 May, 1887; 540 acres; amount of refund, £54.

2. The deposit paid thereon, amounting to £54, will be refunded to you by the Colonial Treasurer on application, or will be paid into any Bank you desire, by filling up the order at foot hereof, and forwarding the same, together with this communication, to the Under Secretary for Finance and Trade, Sydney.

3. It is pointed out that your signature to such order must be witnessed by a Magistrate, Clergyman, or Clerk of Petty Sessions.

I have, &c.,
JNO. M'DONALD,
Chairman.

I hereby authorise and direct the above-mentioned amount to be paid on my behalf to the credit of Poole and Parnell Bros.' account, Bank of Australasia, Tamworth.

MARY ANN PARNELL,
Curlewis.

Witness,—ARTHUR POOLE.

No. 11.

The Chairman, Local Land Board, Tamworth, to The Under Secretary for Finance and Trade.

Conditional Purchase—Revenue Refunded.

Sir, Local Land Board Office, Tamworth, 16 September, 1887.

I have the honor to request that you will be good enough to refund to Miss Mary Ann Parnell, of Goran Lake, Curlewis, the sum of £54, being deposit paid in connection with the conditional purchase specified in the margin, the same having been disallowed; previously applied for and alienated to Martha Poole under conditional purchase 87–9.

Gunnedah, C.P., 87–11; M. A. Parnell; date of application, 5 May, 1887; 540 acres; amount of refund, £54.

I have, &c.,
JNO. M'DONALD,
Chairman.

The Auditor-General for verification.—W.N., for Under Secretary, B.C., Treasury, 21/9/87.

I certify that the amount referred to above (£54) was credited to Consolidated Revenue Fund on the 11th May, 1887. E.A.R., Auditor-General.
Department of Audit, Sydney, B.C., 26 September, 1887.

Received on the 25th day of October, 1887, the sum of £54, on behalf of Mary Ann Parnell (*pro* Poole, Parnell, Bros.). H. E. WILSON.

No. 12.

Mr. Licensed Surveyor Turner to The District Surveyor at Tamworth.

Sir, Gunnedah, 17 December, 1887.

I have the honor to transmit herewith the plan of one portion of land, containing 540 acres, numbered 56, in the parish of Digby, in the county of Pottinger, conditionally purchased by Martha Poole, under the 26th section of the Crown Lands Act of 1884, measured by me on 10th December, 1887, in accordance with instructions No. 87–44, dated 30th August, 1887. The land is undulating, medium soil, poorly grassed, timbered with pine, gum, and box. There is no permanent surface water. Residence had not commenced at date of survey. There are no improvements. None of the boundaries possess any claim to exemption from the fencing condition. The number used (56) will do for either parish, as this portion is about the boundary.

I have, &c.,
E. W. TURNER,
Licensed Surveyor.

Examined and charted on parish map.—JOHN E. DALY, 17/1/88. Plan approved.—W. H. HALL, 17/1/88. Dealt with in District Survey Office. Tracing herewith for Conditional Purchase Inspector.—W. H. HALL (*pro* District Surveyor), 17/1/88. For confirmation.—Gunnedah Board, 22/2/88. Applicant informed, 4/2/88. No appearance. Conditional purchase, 87–9, confirmed for 540 acres, portion 56, in parish of Digby.—JOHN M'DONALD, Chairman, Gunnedah, 22/2/88. Confirmed, 22/2/88. Applicant's agent, and Treasury informed, 28/3/88. Lease for Inspector. Applicant resides on lease. Forwarded to head office as requested, in order that answers may be furnished to Mr. M'Elhone's questions, on 14th June, 1888.—JOHN M'DONALD, Chairman, Tamworth, 11/6/88.

District Survey Office, Tamworth, 6 January, 1888.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portion 56, parish of Digby, county of Pottinger, transmitted by Mr. Licensed Surveyor Turner, letter No. 87–105 of 17th December. Instructions issued to Mr. Turner on 30th August, 1887, No. 44, and on which Mr. Turner reports no explanation is requested.

Subject.	Report.						
			North.	South.	East.	West.	
From data given on plan of above-mentioned portion, the survey does not appear to close.—W. H. HALL, *pro* District Surveyor.	359° 14′	4,600	4,599	.....	.....	62	
	89° 48′	7,488	26	.....	7,488	.....

No. 13.

Confirmation of Martha Poole's Application.

Crown Lands Act of 1884—(Part III, Sections 29 and 48).

New South Wales, } to wit. }

WHEREAS, on the 28th day of April, 1887, Martha Poole, of Goran Lake, lodged with the land agent at Gunnedah an application No. 9, 1887, for 540 acres of Crown Land, in the county of Pottinger, parishes of Brown and Digby, as original conditional purchase under the 26th section of the Crown Lands Act of 1884, and the said application having been received by the Local Land Board, and it appearing to the said Board, by report of the District Surveyor, that the land applied for is available, these are therefore to confirm the said application, and the same is confirmed accordingly for 540 acres, portion 56. Six wire fence.

Given under my hand at the office of the Local Land Board, at Gunnedah, this 22nd day of February, 1888,— JOHN M'DONALD, Chairman.

No. 14.

Martha Poole to The Chairman, Local Land Board, Tamworth.

Crown Lands Act of 1884.—(Part III, Section 51.)

I, MARTHA POOLE, of Rugby, Curlewis, hereby give notice that it is my intention from and after the 22nd day of May, 1888, to reside on my conditional lease No. 87-5 of 1,620 acres, applied for at the Crown Lands office, Gunnedah, on the 28th day of April, 1887, in connection with my conditional purchase No. 9 of 1887 of 540 acres, instead of on my conditionally-purchased land.

Dated this 22nd March, 1888. MARTHA POOLE.

Note Register.—W.A., 14/4/88. Register noted.—J.H., 14/4/88.

No. 15.

The Chairman, Local Land Board, Tamworth, to The Crown Land Agent, Gunnedah.

Sir, Local Land Board Office, Tamworth, 28 March, 1888.

C. P. No. 87-9. Area applied for, 540 acres; area confirmed, 540 acres.

I have the honor to inform you that the application made by Martha Poole, on the 28th April, 1887, for the conditional purchase, as set forth in the margin, was confirmed by the Local Land Board, at Gunnedah, on the 22nd February, 1888. I have, &c.,

JOHN M'DONALD, Chairman.

Description of Fencing Required (as endorsed on Certificate of Confirmation)—Six wire fence.

C.P. 81-110.—Gunnedah, 320 acres—Richard Peter Parnell.

No. 1.

Application by Mr. R. P. Parnell.

[Alienation Act, section 13.]

District of Gunnedah. No. 110 of 1881.

Application by Richard Peter Parnell, a minor, over 16 years of age, for the conditional purchase, without competition, of 320 acres unimproved Crown Land.

Received by me, with a deposit of £80, this 14th day of July, 1881, at 12 o'clock,—

A. P. D. HAMILTON,
Agent for the sale of Crown Lands at Gunnedah.

Sir, 14 July, 1881.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 320 acres; and I herewith tender the sum of £80, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,
RICHARD PETER PARNELL,
Gunnedah.

To the Agent for the sale of Crown Lands at Gunnedah.

Description.

County of Pottinger, Parish of Brown, 320 acres: Starts from north-east corner of M. P. Parnell's conditional purchase of this day, thence east and south.

Mr. Licensed Surveyor Goodwin for measurement if unobjectionable. The back boundary of this portion being a continuation of the north boundary of conditional purchase 81–109.—CHAS. ED. FINCH, for Surveyor-General, 30th November, 1881. Replied to by letter 82–65, dated 26th June, 1882.—THOMAS H. H. GOODWIN.

No. 2.

Application by Mr. R. P. Parnell.

[Alienation Act—Sections 21 and 22.]

Application by Richard Peter Parnell for the conditional purchase, without competition, of 140 acres, unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £35, this 22nd day of September, 1881, at 10 o'clock,—

A. P. D. HAMILTON,
Agent for the Sale of Crown Lands at Gunnedah.

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase.
		Acres.
110, por. 11.	7/81.	320
141, por. 27.	9/81.	140
Total.....		460

Sir. 22 September, 1881.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 140 acres, which adjoins my conditional purchase or freehold property of 320 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £35, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase or freehold of 320 acres.

I have, &c.,
RICHARD P. PARNELL,
Quirindi.

To the Agent for the Sale of Crown Lands at Gunnedah. By his Agent, JOHN J. POOLE.

Description.

County of Pottinger, parish of Brown, 140 acres, south and east of my first conditional purchase.

Mr. Licensed Surveyor Goodwin for measurement, if unobjectionable, or of so much of the area as may be unobjectionable within the boundaries described, it having a mean depth of not less than 60 chains, or within those boundaries extended to a depth of 60 chains from the road. The available land described is apparently an area of about 80 acres, and has a mean depth of about 55 chains, which in measurement should be increased to not less than 60 chains, with corresponding increase of area.—CHAS. ED. FINCH, for Surveyor-General, 30/11/81.

Replied to by letter, 82–65, dated 26/6/82.—THOMAS H. H. GOODWIN.

No. 3.

Mr. Licensed Surveyor Goodwin to The Surveyor-General.

Conditional Purchases, 81–110 and 81–141.

Sir, Trinkey, Gunnedah, 26 June, 1882.

I have the honor to forward herewith the plan of two portions of land containing 320 and 113¾ acres, numbered 11 and 27, in the parish of Brown, county of Pottinger, applied for under the 13th and 21st clauses of the Crown Lands Alienation Act of 1861, by Richard Peter Parnell, and surveyed in accordance with letters No. 81–183, dated 3rd December, 1881, and No. 81–182, dated 3rd December, 1881.

The

The applicant resides on portion 27, and has made improvements worth £32 5s., viz., a gunyah worth £1, and a tank of 500 cubic yards, at 1s. 3d. per yard, worth £31 5s.

The land consists of good red soil, suitable for agricultural purposes, and is timbered with box, oak, and dead yarran.

The form of measurement proposed by the Department for these portions was shown on a tracing issued with letter 81–184; this tracing will be found by referring to my letter 82–64, of the 26th June, 1882. Portion 27 is designed with a depth of 60 chains, but for the sake of carrying out a better design, I have measured it with a depth only of 59 chains 35 links; but as this portion and No. 11 taken together, have a depth of considerably more than 60 chains, I trust my action will meet with your approval.

The instrument used was a theodolite, and the date of survey 24th May, 1882.

I have, &c.,
THOMAS H. H. GOODWIN.

Conditional purchases, 81–110 and 81–141, B.C., 81–183 and 11–182. Plan herewith.—T.G. To the Surveyor-General.—A. DEWHURST, 25/7/82. Examined and charted.—E.P., 11/10/82.

The area available for additional conditional purchase 81–141 within the boundaries described, is only 113¾ acres, whereas 140 acres were applied for. It is recommended that the applicant be refunded deposit on 26¼ acres.—CHAS. E. FINCH, for Surveyor-General, 12/9/84. The Chief Commissioner, Conditional Sales.

*Appendix 7. For refund.—O.A.M., 11/10/84. Applicant's refund order, difference in area. Agent and Treasury informed, 22/10/84. Dealt with in Charting Branch. *Tracing herewith.—T.F.C., 29/10/84. Description prepared.—P.B.D., 14/12/84.

No. 4.

Application by Mr. R. P. Parnell.

[Alienation Act, sections 21 and 22.]

Application by Richard Peter Parnell for the conditional purchase, without competition, of 80 acres unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £20, this 29th day of June, 1882, at 11 o'clock,—

A. P. D. HAMILTON,
Agent for the Sale of Crown Lands at Gunnedah.

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase. acres.
110	7/81	320
141	9/81	140
....	....	80
	Total area	540

Sir, 29 June, 1882.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 80 acres, which adjoins my conditional purchase or freehold property of 320 acres, upon which I am now residing, or upon which I have resided for three years; and I herewith tender the sum of £20, being a deposit at the rate of five shillings per acre on the area for which I apply.

This is the second selection made by me in virtue of my conditional purchase or freehold of 320 acres.

I am, &c.,
R. P. PARNELL,
Gunnedah.
By his Agent, RATCLIFFE J. PARNELL.

To the Agent for the Sale of Crown Lands at Gunnedah.

Description.

County of Pottinger, parish of Brown, 80 acres. Starts at north-east corner of my 320 acres; thence east to north-east corner of my 140 acres; thence north and west.

21/7/82, J.W.T. First conditional purchase, 81–110.—Licensed Surveyor Goodwin, Gunnedah, 2/12/81. Mr. Licensed Surveyor Goodwin instructed to measure on certified copy.—P.B.J., 26th September, 1882. 29/9/82.—Certified copy sent to Mr. Lauders.

21st section, conditional purchase, No. 82–84; land agents, No. 82–84; land district of Gunnedah; application by Richard Peter Parnell; area, 80 acres; date, 29th June; time, 11 o'clock; number of first conditional purchase, 81–110. Transferred from Licensed-Surveyor Goodwin.

Number of applications made under 21st or 22nd sections, conditional purchases, 1 and 2; land agents Nos., 110 and 141; dates of previous conditional purchases, July, 1881, and September, 1881; area of each conditional purchase, 320 acres, 140 acres, now 113 acres 3 roods, and 80 acres. Total area applied for, including freehold (if any) and last conditional purchase, 540 acres.

Description.

County of Pottinger, parish of Brown, 80 acres. Starts at north-east corner of my 320 acres; thence east to north-east corner of my 140 acres; thence north and west.

Gunnedah. Mr. Licensed-Surveyor Goodwin to measure if unobjectionable.—L. G. J. BENNETT, for Surveyor-General, 26th September, 1882. Transferred to Mr. District Surveyor M'Master.—T. GOODWIN, 28/2/83. Mr. Licensed Surveyor Turner for action.—COLIN JAS. M'MASTER, 2nd April, 1883. Dealt with by survey; plan with letter, 30th August, 83–78.—E. W. TURNER, Licensed Surveyor.

No. 5.

No. 5.
Mr. Licensed Surveyor Turner to the Surveyor-General.

Sir, Gunnedah, 30 August, 1883.

I have the honor to transmit herewith the plan* of one portion of land, containing 80 acres, numbered 31, in the parish of Brown, the county of Pottinger, conditionally purchased by Richard Peter Parnell under 21st section of the Crown Lands (1861) Act, measured by me on 26th of July, 1883, in accordance with instructions No. 82-174, Goodwin, dated 26th September, and transferred to me, 2nd April, 1883. Applicant has a gunyah on first conditional purchase, and is probably resident on Pullanaming Run. Good agricultural land; no natural water; timber valueless.

*Appendix 8.

I have, &c.,
E. W. TURNER,
Licensed Surveyor.

The Surveyor-General.—Colin Jas. M'Master, Acting District Surveyor, 27th September, 1883. Examined and charted on parish map 21st December, 1883.—J. Murray. Dependant on first conditional purchase; tracing herewith.—T.F.C., 29th October, 1884. Description prepared.—P.D.B., 4/12/84.

No. 6.
Declaration by Mr. R. P. Parnell.

C.P. No. 81–110.
Gunnedah.

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861,

I, Richard Peter Parnell, of Quirindi, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of house, dam, fencing, yard, and to the value of £210 have been made on such land; and I declare further, that the said land has been the *bonâ fide* residence, continuously, of myself from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Gunnedah, this 8th day of October, 1884, before me,— RICHARD P. PARNELL.

A. P. B. Hamilton, J.P.

Description.

County of Pottinger, parish of Brown, 320 acres, being conditional purchase No. 110, of 1881, in the district of Gunnedah, made on the 14th July, 1881.

Instalment credited at Treasury, £16, 16th October, 1884, 39 Vic. No. 13. Examined and entered conditional purchase register.—C.D., 24/10/84.

The Chief Commissioner, Conditional Sales, to The Under Secretary for Finance and Trade.

Conditional Purchase—Revenue Refunded. C.P. No. 81–141.

Sir, Department of Lands, Conditional Sales Division, Sydney, 22 October, 1884.

I am directed to inform you that the area of the conditional purchase, noted in the margin, having been reduced from 140 acres to 113 acres 3 roods, you will be good enough to refund the amount of deposit, viz., £6 11s. 3d., on the area paid for in excess.

C.S. No. 82-5087, Survey. District, Gunnedah; name, Richard Peter Parnell; date of selection, 29th September, 1881.

2. I am to add, that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &c.,
WM. BLACKMAN,
(for Chief Commissioner).

The Auditor-General for verification.—W.N., for Under Secretary. The Treasury, B.C. 27th October, 1484. The above deposit of £6 11s. 3d. was credited to the Consolidated Revenue Fund, on the 29th September, 1881.—E.A.R., Auditor-General. Audit Office, Sydney, B.C., 4th November, 1884. The Under Secretary for Finance and Trade.

No. 8.
The Chief Commissioner, Conditional Sales, to Mr. R. P. Parnell.

C.P. 81–141.

Sir, Department of Lands, Sydney, 22 October, 1884.

With reference to your conditional purchase at Gunnedah on the 22nd September. 1881, I am directed to inform you, that the area of the portion selected having been found to be only 113¾ acres instead of 140 acres, as stated in your application, you are entitled to a refund of £6 11s. 3d,, being the amount of deposit on the 26¼ extra acres, paid in excess.

Enclosed is a form which, on being filled up and forwarded to the Treasury, with the authority signed by you, will enable that Department at once to refund the amount.

I have, &c.,
A. O. MORIARTY,
Chief Commissioner, (*per* J.B.)

Declaration by Mr. R. P. Parnell.

C.P. No. 81–141. D. [Alienation Act.]
Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, RICHARD PETER PARNELL, of Goran Lake, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of building, dam, yard, and fencing, and to the value of £200, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Quirindi, this 10th day of December, 1884, before me,— RICHARD PARNELL.

ROBERT H. V. ALLNUTT, J.P.

Description.

County of Pottinger, parish of Brown, 113¾ acres, being conditional purchase No. 141, of 1881, in the district of Gunnedah, made on the 22nd September, 1881.

Instalment credited at Treasury, £5 13s. 9d., December 24th, 1884, 39 Vic. No. 13. Examined and entered Conditional Purchase Register.—C.D., 13/1/85.

No. 14.

Mr. Inspector O'Hara to The Chief Commissioner, Conditional Sales.

Selection of R. P. Parnell, made at Gunnedah.

C.P. 81–110, 81–141, 82–84; section 138–21; portions 11, 27, 31.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 21st October, 1884, and that I found the selector then not resident upon this selection.

The land, which consists of bush, and comprises 320, 113¾, and 80 acres, is not occupied, but used by J. J. Poole as grazing, and the selector, who follows the avocation of had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Portion 11, nil; portion 31, nil; portion 27, hut, £6; portion 27, dam, £40; total, £46.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection:—The hut is a roughly built place, the walls being half paling and half bark, with earth floor and bark roof. I noticed a few articles in it, but no marks of traffic to show that it has been used as a residence.

I have, &c.,

J. S. O'HARA.

Residence not satisfactory, 2/2/85. For Local Land Board.—W.H.C., F.H.W. (*for* the U S), 17/2/85. Approved.—J.S.F., 18/2/85. Local Land Board, Tamworth, 5/3/85.

No. 15.

The Chairman, Local Land Board, Tamworth, to Mr. R. P. Parnell.

[Crown Lands Act of 1884.]

New South Wales, to wit. Notice to appear at Local Land Board.

You are hereby notified to attend at the Court-house at Gunnedah, on Monday, 27th day of April, 1885, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Tamworth, this 31st day of March, 1885.

JOHN M'DONALD,
Chairman.

Matter for investigation.

The fulfilment of the conditions as to residence and improvements upon the conditional purchase of 320 acres, made by you at Gunnedah, on 14th July, 1881, portion 11, parish of Brown; additional conditional purchase of 113¾ acres, 22nd September, 1881; and 80 acres, 29th June, 1882.

Declaration of service.

I, HENRY WILLIAM KING, of Gunnedah, constable of police, sincerely declare and affirm that on the 8th day of April, 1885, I served a copy of the within notice upon Richard Peter Parnell, the person to whom it is addressed, by handing the same to his brother, at their selection at Goran Lake, and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

H. W. KING.

Made before me, at Gunnedah, this 10th day of April, 1885,—

A. P. D. HAMILTON, J.P.

No. 16.

Caption to Deposition of Witnesses.

Crown Lands Act of 1884—(Part II, section 14, subsection 1).

New South Wales, to wit. } Caption to deposition of witnesses.

THE examination of John Still O'Hara, of Moree, in the Colony of New South Wales, Inspector of Conditional Purchases; Richard Peter Parnell, of Goran Lake; and Thomas Pryor, of Red Creek, Goran, in the said Colony, labourer.

Whereas it hath been alleged that Richard Peter Parnell did not fulfil the conditions as to residence and improvements upon the conditional purchase of 320 acres made by him at Gunnedah, on 14th July, 1881, and it hath been found necessary to investigate the said matter on oath; the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

Mr. Tribe, Solicitor, appeared for claimant.

THIS deponent, *John Still O'Hara*, of Moree, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows:—On 21st October, 1884, I inspected the conditional purchase, the subject of this inquiry, taken by Richard Peter Parnell, at Gunnedah, on the 14th of July, 1881; selector was not resident, and there was nothing to indicate residence upon the land; I also inspected an additional, taken in virtue of this, dated 22nd September, 1881; there was a hut on that with a bunk, and several articles inside, but there were no marks of recent traffic about; there were marks of fire in the fire-place, but only little.

Examined by Chairman: The hut is built, half the walls of slabs, the other half bark, bark roof, split slab floor, and a verandah; a small wooden bench, a bunk, three cups and saucers, a wooden block, tin can, a bag, and some sheepskins; I value the hut at £6; the hut is on an additional to the original conditional purchase; the additional is portion 27.

Examined by Mr Tribe: That is the only time I inspected this conditional purchase; I am sure the hut is on the additional No. 27; I saw nobody about the place.

Sworn by this deponent, John Still O'Hara, on this 27th day of April, 1885, at Gunnedah, before us. } JOHN S. O'HARA.

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, } Members of the Board.
J. P. WIGHTMAN, }

This deponent, *Richard Peter Parnell*, of Goran Lake, in the Colony of New South Wales, selector, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr Tribe: I am the owner of the conditional purchase in question; I selected it on the 14th July, 1881; I went to reside on it about nine or ten weeks after I took it up; since that time it has been my only residence; I have resided there continuously; I have been working on it; I was away on the 21st October; I was away getting cattle from Quirindi; another brother was with me at that time; I have been away occasionally, but this is my only home.

Examined by Inspector: I have heard your evidence; at the time you visited my place I had been away about three weeks or a month getting cattle; I have been off the land for two months at a time; that was only once; that is the longest time I have been off the land; the Pullanming Station have not used my land; when I was away it was always on business; I always returned to this land.

Examined by Chairman: Sometimes I get my meals cooked there by a shepherd; the shepherd is there now.

Sworn by this deponent, Richard Peter Parnell, on this 27th day of April, 1885, at Gunnedah, before us. } RICHARD PARNELL.

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, } Members of the Board.
J. P. WIGHTMAN, }

This deponent, *Thomas Pryor*, of Red Creek, Goran, in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Tribe: I know Mr. Richard Parnell's selection, and I know him; he selected the land about three years ago, in 1881; I have seen him on the land often; I have seen him living at the house; I have gone down there to see him; I am not interested with the Parnells; I saw him there three or four days ago; I don't know him to have any other residence; I know he has a shepherd there.

Examined by the Inspector: I did not know him before he took up the selection; I have known him between two and three years; I have not been at Walhala during that time; my place is about 12 miles now, at first it was about 3 or 4 miles away; I will swear this is Mr. Parnell's residence. THOMAS PRYOR.

Sworn by this deponent, Thomas Pryor, on this 27th day of April, 1885, at Gunnedah, before us,— }

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, } Members of the Board.
J. P. WIGHTMAN, }

No. 17.

Decision of Local Land Board.

Crown Lands Act of 1884 (Part II, section 14, sub-section 4).

New South Wales, to wit. } Decision of Local Land Board.

WHEREAS on the 27th day of April, 1885, it became a matter of investigation before us whether the conditions as to residence and improvements had been fulfilled upon the conditional purchase of 320 acres, made by Richard Peter Parnell, at Gunnedah, on 14th July, 1881, and having taken evidence and inquired into the said matter, we find that the said conditions have been fulfilled on the said conditional purchase, and we recommend that this selection should be upheld.

Given under our hands, at the office of the Local Land Board, at Gunnedah, Colony of New South Wales, this 30th day of April, 1885,—

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, } Members.
J. P. WIGHTMAN, }

May await receipt of final declaration.—F.H.W. C.O., 11/8/85. Approved.—J.S.F., 12/8/85.
Applicant (p.), 5/9/85. To await final declaration.

No. 18.

No. 18.
The Under Secretary for Lands to Mr. R. P. Parnell.

C.P. No. 81–110.

Sir,

Department of Lands, Sydney, 5 September, 1885.

Referring to the conditional purchase of 320 acres, applied for by you, at Gunnedah, on the 14th July, 1881, which was the subject of inquiry by the Local Land Board at Gunnedah, on the 27th April, 1885, I am to inform you that, under the report furnished by the Local Land Board, the Minister for Lands does not see any necessity to interfere further at present with the selection in question.

I would, however, warn you that it is incumbent upon you to continue residing *bonâ fide* upon the conditional purchase for the remainder of the term, and that it will be necessary for you in terms of section 18 of the Crown Lands Alienation Act, 1861, and section 5 of the Lands Acts Further Amendment Act, 1880, to furnish the required declarations at the prescribed time.

I have, &c.,
F. H. WILSON,
(for the Under Secretary).

No. 19.
Declaration by Mr. R. P. Parnell.

C.P. No. 82–84. D. [Alienation Act.]

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, RICHARD PETER PARNELL, of Goran Lake, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of a well 5 ft. x 5 ft. and 65 feet deep, and appliances, and to the value of £10 have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Quirindi, this 11th day of December, 1885, before me,— RICHARD PARNELL.

ROBERT H. V. ALLNUTT, J.P.

Description.

County of Pottinger, parish of Brown, 80 acres, at Goran Lake, being conditional purchase No. 84-82, of 1882, in the district of Gunnedah, made on the 29th June, 1882.

Instalment credited at Treasury (£4), 22nd December, 1885, 20 Vic. No. 13. Examined and entered in conditional purchase register.—G.D., 15/1/86. H.R., 18/1/86.

[*Enclosure.*]

Under Secretary for Finance and Trade,

Sir,

Quirindi, 19 December, 1885.

Please accept the sum of £4 interest overdue on my additional conditional purchase of 80 acres, and oblige.

Yours, &c.,
RICHARD P. PARNELL.

£4 credited, 22nd December, 1885.

The Land Agent will be good enough to state whether Richard Parnell is identical with Richard Peter Parnell.—H.R. (for the Under Secretary), B.C., Department of Lands, Sydney, 4/1/86. The Land Agent, Gunnedah. He is. Returned, 7/1/86.—A. P. D. HAMILTON, Crown Lands Agent. May await final declaration on original conditional purchase.—H.W., 18/2/86.

No. 20.
Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Richard P. Parnell, made at Gunnedah, on 14th July, 1881.

C.P. 81-110, section 13, portion 11.

Sir,

Tareela, 4 August, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 3rd July, 1886, and that I found the selector then not resident upon selection.

The land, which consists of forest, and comprises 320 acres, is occupied and used by J. J. Poole; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—As formerly.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection :—I saw selector at the house on his brother's selection, he accompanied me to this land. The hut was dirty, and did not appear to have been in use for a long time. Inquiry recommended as to residence and improvements. Will inspect again as to improvements before Court, as I had no tracing.

Summon John Callaghan, Spring Ridge; William Callaghan, Breeza; Alfred King, Goran Lake; William King, Goran Lake; William Jones, Breeza.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Forwarded to Under Secretary for former papers, and Minister's approval of inquiry by Board.—WM. ARDILL (*pro* Chairman), Tamworth, 10/8/86. Submitted for inquiry subject to the provisions of the 20th section Act 48 Vic. No. 18.—F.B.S., 23/10/86. F.H.W. S.F., 29/10/86. Approved.—H.C., 30/10/86. Declaration on conditional purchase, 81-110 enclosed, Gunnedah Board. Inspector should report on improvements.—W.A., 18/7/87.

No. 22.

Transfer of Conditional Purchase.

Crown Lands Act of 1884—Part VII, Section 117.

I, RICHARD PETER PARNELL, of Goran Lake, selector, being the lawful owner of the conditional purchase of 320 acres, taken up by Richard Peter Parnell, at the Land Office at Gunnedah, on the 14th day of July, 1881, being conditional purchase No. 110, of 1881, and situated in the county of Pottinger, parish of Brown, together with the additional conditional purchases made in virtue thereof, and particularised herein. That is to say:—113¾ acres, 22nd September, 1881, No. 141; 80 acres, 29th June, 1882, No. 84. In consideration of the sum of £700, paid by Nathan Cohen and Michael Cleveland Solomon, of Tamworth, auctioneers, the receipt whereof I hereby acknowledge, do hereby transfer to the said Nathan Cohen and Michael Cleveland Solomon all my estate and interest, whether at law or in equity, in all the conditionally purchased land hereinbefore particularised.

In witness whereof, I have hereunto subscribed my name at Tamworth, the 29th day of December, in the year 1886. RICHARD PARNELL.

Signed in my presence,—
EDWIN HUNT, J.P.

We accept this transfer, and declare that we are above the age of 21 years.
NATHAN COHEN.
Signed in my presence,— MICHAEL CLEVELAND SOLOMON.
EDWIN HUNT, J.P.

I have duly registered the within transfer in the records of this Office, and the sum of 7s. 6d. has been paid to me, being 7s. 6d. for registration.

A. P. D. HAMILTON,
Land Office at Gunnedah, 4 January, 1887. Land Agent.

Received into the Office of the Registrar-General, at Sydney, this 21st day of February, A.D. 1887, at 3 o'clock in the afternoon, from Frank Griffin, of Sydney, a copy of the within transfer, verified by John Gill Grayston, of Tamworth, and numbered 591, book 358.

E. G. WARD,
Registrar-General.

No. 23.

Declaration by Mr. R. P. Parnell.

C.P. No. 81–110.
Final declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, RICHARD PETER PARNELL, of Goran Lake, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of house, well, dams, yards, fencing, stumping, and clearing, and to the value of £320, have been made on such land; and I declare further, that the said land has been the *bonâ fide* residence, continuously, of myself, from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the abovenamed holders, until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions

provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Gunnedah, this 13th day of January, 1887, before me,— RICHARD P. PARNELL.

A. P. D. HAMILTON, J.P.

Description.

County of Pottinger, parish of Brown, 320 acres, being conditional purchase No. 110, of 1881, in the district of Gunnedah, made on the 14th July, 1881.

R. P. Parnell states that he made this declaration and presented it during my temporary absence on leave last October. By an oversight, presuming his statement to be correct, no entry appears to have been made in the Conditional Purchase Register. Please say if Parnell's memory serves him correctly or not in this instance.—A. P. D. HAMILTON, Crown Lands Agent, Gunnedah, 17/1/87.

Instalment £16 paid, 24/10/84, *vide* 1st declaration.—C.C., 25/1/87. Examined and registered in Conditional Purchase Register.—C.C., 31/1/87.

No. 24.

The Under Secretary for Lands to the Chairman, Local Land Board, Tamworth.

District, Gunnedah; conditional purchase No. 81–110, section 13 of the Alienation Act of 1861 (25 Vic. No. 1); area, 320 acres; date, 14th July, 1881; name of applicant, Richard Peter Parnell.

THE declaration upon the above-described conditional purchase requires verification. All available papers in connection with the case were referred to the Chairman of the Local Land Board, Tamworth, 12/11/86, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report when finished by the Inspector shows that the conditions of the Act under which the conditional purchase was made have not been or are not being carried out, an investigation may be instituted by the Local Land Board, subject to the provisions of section 20 of the Crown Lands Act of 1884. C.C., 23/2/87.

The above recommendation approved by the Minister for Lands, *vide* 87–5,890 D.—F.H.W. (for the Under Secretary), 28/2/87. The Chairman Local Land Board, Tamworth, B.C. Received, 12/3/87.

No. 25.

Transfer of Conditional Purchase.

Crown Lands Act of 1884—(Part VII, section 117).

WE, NATHAN COHEN AND MICHAEL CLEVELAND SOLOMON, of Tamworth, auctioneers, being the lawful owners of the conditional purchase of 320 acres, taken up by Richard Peter Parnell, at the Land Office at Gunnedah, on the 14th day of July, 1881, being C.P. No. 110, of 1881, and situated in the county of Pottinger, parish of Brown, together with the additional conditional purchases made in virtue thereof and particularised herein, that is to say:—113 acres 3 roods, 22nd September, 1881, No. 141 of 81, county of Pottinger, parish of Brown; 80 acres, 29th June, 1882, No. 84 of 82, county of Pottinger, parish of Brown. In consideration of the sum of £400 paid by Richard Peter Parnell, of Goran Lake, grazier, the receipt whereof I hereby acknowledge, do hereby transfer to the said Richard Peter Parnell, all my estate and interest, whether at law or in equity, in all the conditionally purchased land hereinbefore particularised.

In witness whereof we have hereunto subscribed our names at Tamworth, the 21st day of July, in the year 1887.

A. P. D. HAMILTON,

Land Office at Gunnedah, 27 August, 1887. Land Agent.

Received into the office of the Registrar-General, at Sydney, this 9th day of February, A.D., 1888, at ten o'colck in the forenoon, from George Drury, of Sydney, a copy of the within transfer, verified by William Frederick Tribe, of Tamworth, and numbered 786, Book 379.

E. G. WARD,

Registrar-General

No. 27.

Declaration by Mr. R. P. Parnell.

C.P. No. 81–141.

Final declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, RICHARD PETER PARNELL, of Goran Lake, do solemnly and sincerely declare that the Bank of Australasia is the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of well, fencing, ringing, and to the value of £60, have been made on such land until after the residence thereon of such holder for a period of one whole year. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Gunnedah, this 5th day of December, 1887, before me,— RICHARD PETER PARNELL.

A. P. D. HAMILTON, Commissioner for Affidavits.

Description.

County of Pottinger, parish of Brown, 113¾ acres, at Gunnedah, being conditional purchase No. 141 of 1881, in the district of Gunnedah, made on the 22nd September, 1881.

Final declaration was made on the original conditional purchase 81–110, on 30th December, 1886, £320. This final declaration is therefore superfluous.—A.P.D.H., Crown Lands Agent, 5/12/87. Examined and entered.—T.G., 19/1/88.

No. 28.

Declaration by Mr. R. P. Parnell.

C.P. No. 82–84.

Final declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, RICHARD PETER PARNELL, do solemnly and sincerely declare that the Bank of Australasia is the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of ringing, dams, house, and fencing yards, and to the value of £320, have been made on such land and on the original; and that no alienation of the land has been made by any of the abovenamed holders until after the residence thereon of such holder for a period of one whole year. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Gunnedah, this 5th day of December, 1887, before me,— RICHARD PARNELL.

A. P. D. HAMILTON, Land Agent.

Description.

County of Pottinger, parish of Brown, 80 acres, at Gunnedah, being conditional purchase No. 84 of 1882, in the district of Gunnedah, made on the 29th June, 1882.

Examined and entered.—T.G., 19/1/88.

No. 29.

No. 29.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

C.P. 82-84, section 21, portion 31.

Selection of Richard Peter Parnell, made at Gunnedah, on 29th June, 1882.

Sir, Kickerbell, 14 January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last.

The land, which consists of box and oak forest, and comprises 80 acres, is occupied and used by selector as grazing land; and the selector, who follows the avocation of selector, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
100 rod 6-wire fencing, at 3s. 6d....	17	10	0
Well, 72 feet	72	0	0
	£89	10	0

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

No. 30.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Richard Peter Parnell, made at Gunnedah, on 22nd September, 1881.

C.P. 81-141, section 21, portion 27.

Sir, Kickerbell, 14 January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last.

The land, which consists of box forest, and comprises 113¾ acres, is occupied and used by selector as grazing land; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
116 rods 7-wire 1-batten fence, at 4s.	23	4	0
80-rod division fence, at 4s.	16	0	0
40-rod 6-wire fence, at 3s. 6d.	7	0	0
900-yards tank	56	5	0
Hut, 20 x 12; verandah, slab floor, half slab, half bark ...	20	0	0
Sheep yard, £8; fence at dam, £5	13	0	0
Area ringbarked, at 1s.	5	14	0
	£141	3	0

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

No. 31.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Richard Peter Parnell, made at Gunnedah, on 14th July, 1881.

C.P. 81-110, section 13, portion 11.

Sir, Kickerbell, 14th January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last, and that I found the selector then not resident upon selection.

The land, which consists of box forest, and comprises 320 acres, is occupied and used by selector as grazing land; and the selector, who follows the avocation of selector, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

	£	s.	d.
100-rod 6-wire horse paddock fence, at 4s.	20	0	0
60-rod 7-wire fence paddock fence, at 4s.	12	0	0
Ringbarking, £16; clearing, £30...	46	0	0
	£78	0	0

Probably an enquiry may be deemed necessary in this case, as the hut is now in a dilapidated condition, and I am doubtful as to residence having been carried out The hut is upon portion 27, an additional conditional purchase.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Evidence as to residence required.—JOHN M'DONALD, Chairman, 12/3/88. Gunnedah Board *re* residence. Forwarded to head office, *re* Mr. McElhone's questions for 14th instant.—JOHN M'DONALD, Chairman, Tamworth, 11/6/88. To be returned.

C.P. 83-69—Gunnedah, 360 acres—Laurence Parnell.

No. 8.

Mr. Licensed Surveyor Capper to The Surveyor-General.

Transmitting plan* of four portions of land applied for by George Lewis, minor. *Appendix 9.

Sir, Gunnedah, 27 February, 1875.

I have the honor to transmit herewith the plan of four portions numbered 1, 2, 3, 4, in the parish of , in the county of Pottinger, applied for by George Lewis (minor) under the 13th and 21st clauses of the Crown Lands Alienation Act, and measured by me on the 11th and 12th February, 1875, in compliance with your instructions, No. 74-579, 578, 577, 576, of the 9th, July, 1874. Nos. 74-6,617, 74-579, 9 July, 1874; 74-6,618, 74-578, 9 July, 1874; 74-6,619, 74-577, 9 July, 1874; 74-6,620, 74-576, 9 July, 1874.

The applicant was not present at the date of survey. His father, as his agent, stated he was absent with the sheep that had been depasturing on the land, which had to be removed in consequence of the drought, and would return in a few days. There are no improvements on the conditional purchase or additional conditional purchase; the gunyah erected for the purpose of residence upon measured additional conditional purchase was not within the boundaries. I respectfully submit applicant should be called upon to prove *bonâ-fide* residence.

I have, &c.,
JAMES F. CAPPER,
Licensed Surveyor.

To the Surveyor-General, March 9, 1875.—A. DEWHURST. Applicant to show cause.—T.H.L., 8/7/75. For Inspector Geary; no reply having been received to the above letter.—W.B., 14/1/76. A.O.M., 7/7/76. G. Lewis, care of D. Sinclair, 27 August, 1875, end of September. Applicant, care of D. Sinclair, reminded 8 November, 1875, end of December. Tracings of the four conditional purchases herewith.—G.H.P., 23/2/76. H. V. Geary, Inspector of Conditional Purchases, for report, 22/4/76.

No. 14.

Mr. Commissioner J. Delaney to The Under Secretary for Lands.

Report of an inquiry held at Gunnedah, on the 21st of February, 1877, by John Delaney, Commissioner for the North-western Division, respecting the conditional purchase of Charles Lewis, made at Tamworth, on the 11th June, 1874.

Sir,

I have the honor to transmit herewith, for the consideration of the Honoroble the Minister for Lands, minutes of evidence taken at an inquiry under the Lands Act Amendment Act of 1875, held by me in pursuance of the reference notified in the *Gazette* of the 14th November, 1876, in the matter of the above described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry, was not present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz.:—Harry Vincent Geary, Inspector of Conditional Purchases for the north-western district, states he inspected three selections made at Tamworth for Charles Lewis by D. Sinclair, his agent, on the 11th of June, 1874, county of Pottinger, parish of Brown; they consist of one of 200 acres and two of 40 acres each. At the date of inspection, 6th July, 1876, there was no one resident, and there were no improvements; the country is clear, but in some places, pine and oak scrub; fit for grazing purposes.

On the 15th February, 1877, a notice was served on the residence of Charles Lewis, issued by me, stating that a Court of inquiry would be held at Gunnedah, on the 21st of February, 1877, for the purpose of inquiring into the above-mentioned matters. Applicant did not attend.

I have, therefore, to report that I find such conditions not to have been fulfilled, and to recommend that this conditional purchase be cancelled.

I have, &c.,

JOHN DELANEY,
Commissioner.

For forfeiture.—A.O.M., 30/4/77. Selector informed by circular, 6th July, 1877. Forfeited, *Gazette*, 19th June, 1877. For auction, 7/7/77. Sale at Gunnedah, 5th September, 1877.

[*Enclosure.*]

COMMISSIONERS' Court of Inquiry under Lands Act Amendment Act 1875.

New South Wales, Gunnedah, to wit.

Charles Lewis, for non-residence; summons served; does not appear.

Harry Vincent Geary, being duly sworn, on his oath saith: I am Inspector of Conditional Purchases for the north-western district. On the 6th of July, 1876, I inspected three selections of Charles Lewis, one of 200 acres and two of 40 acres each, situate in the county of Pottinger, parish of Brown, selected at Tamworth on the 11th of June, 1874, selected for him by his agent, D. Sinclair; the applicant was not resident, and there were no improvements; the country is clear, and in some places pine and oak scrub; it is only fit for grazing purposes.

Taken and sworn before me, at Gunnedah, this 21st day of February, 1877,—

HARRY V. GEARY.

JOHN DELANEY, J.P., Commissioner.

No. 15.

Mr. Commissioner J. Delaney to The Under Secretary for Lands.

Report of an inquiry held at Gunnedah on the 21st of February, 1877, by John Delaney, Commissioner for the North-western Division, respecting the conditional purchase of George Lewis, made at Tamworth, on the 11th June, 1874.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the Lands Act Amendment Act of 1875, held by me in pursuance of the reference notified in the *Gazette* of the 14th November, 1876, in the matter of the above described conditional purchase.

The

The claimant, having been duly served with notice of the time and place of holding the inquiry, was not present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz. :—Harry Vincent Geary, Inspector of Conditional Purchases, North-western District, states: On the 6th July, 1876, he inspected the four selections made at Tamworth on the 11th July, 1874, by D. Sinclair, as agent for George Lewis; they consist of one 200 acres and three of 40 acres each, situated in the county of Pottinger, parish of Brown. At the time he inspected them no one was resident, and there were no improvements; the country is clear in some places, others pine scrub.

On the 15th day of February, 1887, a notice issued by me was served on the residence of George Lewis, stating that a Court of inquiry would be held at Gunnedah on 21st February, 1877.

Applicant did not attend. I have, therefore, to report I find such conditions not to have been fulfilled, and to recommend that this conditional purchase be cancelled.

I have, &c.,
JOHN DELANEY,
Commissioner.

For forfeiture.—A.O.M., 30/4/77. Forfeited, *Gazette*, 19th June, 1887. Mr. Stephens, for auction. Selector informed by circular, 6th July, 1877. Records—for letter, transmitting plan 75-5,838 alienation.—T.S., 14th July, 1887. Sale at Gunnedah, 7th November, 1877. Informed, 18th October, 1887.

[*Enclosure.*]

Application by Mr. L. Parnell.

C. [Alienation Act, section 13.]

Application for the conditional purchase, without competition, of unimproved Crown Land.

District of Gunnedah. No. 69 of 1883.

Application by Lawrence Parnell, of full age, for the conditional purchase, without competition, of 360 acres, unimproved Crown Land.

Received by me, with a deposit of £90, this 21st day of June, 1883, at 10·40 o'clock,—

A. P. D. HAMILTON,
Agent for the sale of Crown Lands at Gunnedah.

Sir, 21 June, 1883.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 360 acres; and I herewith tender the sum of £90, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

his
LAWRENCE × PARNELL,
mark.

Witness to mark: A. P. D. HAMILTON, Crown Lands Agent.

Gunnedah.

To the Agent for the sale of Crown Lands at Gunnedah.

Description.

County of Pottinger, parish of Brown, 360 acres, including measured portions Nos. 4, 5, 6, and 7, also 40 acres, commencing 10 chains south of the north-east corner of portion 6; thence north, thence east to Alfred Poole's western boundary of 640 acres; thence south, and back to point of commencement.

I pointed out to applicant that No. 4, measured land embraced by his description, is unlikely to be granted, the form of measurement being objectionable. He declines to withdraw it.—A. P. D. HAMILTON, Crown Land Agent, Gunnedah, 21st June, 1883.

The land applied for under this application consists of measured portions 4, 5, 6, and 7, and 40 acres of unmeasured land on the east of portion 6, as shown on tracing* by red line hatching. It is pointed out that the unmeasured land applied for exceeds, when taken in conjunction with the measured portions, the 80 chain boundary limit in an easterly direction to the extent of about 24 chains; and, further, that the form of measurement would be of a very unsuitable kind. It is therefore recommended that applicant be allowed to retain the measured portions, with refund of deposit on the difference of area, viz., 40 acres, or be given a refund of the whole deposit.—CHAS. ED. FINCH (for Surveyor-General), 10th October, 1883. The Chief Commissioner, Conditional Sales.

* Appendix 11.

Approved.—J.S.F., 19/12/83. Lawrence Parnell informed, with refund order, Agent and Treasury. Conditional purchase area reduced. 21st January, 1884.

No. 19.

The Chief Commissioner, Conditional Sales, to Mr. L. Parnell.

C.P. 83-69, Gunnedah.

Sir, Conditional Sales Division, 21 January, 1884.

With reference to your conditional purchase noted in the margin, the land applied for being measured portions 4, 5, 6, and 7, and 40 acres of unmeasured land on the east of portion 6, I have to inform you that the unmeasured land applied for exceeds, when taken in conjunction with the measured portions, the 80-chain boundary limit, in an easterly direction, to the extent of about 24 chains; and further, that the form of measurement would be of a very unsuitable kind. The Minister for Lands has, therefore, approved of your being allowed the option of retaining the measured portions, with the enclosed voucher for refund of your deposit of the difference in area, viz., 40 acres, or of receiving a refund of your whole deposit.

Gunnedah, C.P. 83-69; Lawrence Parnell; 360, now 320 acres; 21st June, 1883.

Voucher, £10.

I have, &c.,
WM. BLACKMAN,
For Chief Commissioner.

[*Enclosure.*]

[Special Payments Form No. 2.] NEW SOUTH WALES.

Conditional purchase—Revenue refunded.

No. 25.

Mr. Inspector O'Hara to The Chief Commissioner of Conditional Sales.

C.P. 83–69, section 13, portions 4, 5, 6, 7.

Selection of Lawrence Parnell, made at Gunnedah on 21st June, 1883.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 21st October, 1884, and that I found the selector then not resident upon this selection.

The

The land, which consists of bush and plain, and comprises 320 acres, is not occupied, but used by J. J. Poole as grazing, and the selector, who follows the avocation of , had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—Nil.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. There is nothing to indicate residence upon this land.

I have, &c.,
J. S. O'HARA,
Inspector of Conditional Purchases.

Depositions of Witnesses.

This deponent, *John Still O'Hara*, of Gunnedah, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows:—On 21st October, 1884, I inspected the conditional purchase, the subject of this inquiry, taken up by Lawrence Parnell, on 21st June, 1883; selector was not residing, and there were no improvements of value on the land; there was part of an old gunyah and marks of where fires had been lit close by a few times; the gunyah was not fit for habitation, and there were no marks of traffic to show the place had been occupied by any one.

Sworn by this deponent, John Still O'Hara, on this 24th November, 1885, at Gunnedah, before us,— } JOHN S. O'HARA.

John M'Donald, Chairman.
James G. Dight, } Members of the Board.
J. P. Wightman, }

This deponent, *Edwin Woodward Turner*, of Gunnedah (called by Inspector), in the Colony of New South Wales, surveyor, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know the conditional purchase indicated upon the tracing produced; I was on this selection in November, 1884, and then saw no place of residence on it; I saw no signs of residence; the land is scrubby, and there may have been a house without my seeing it; I have been through parts of this land, and around it, but not through the centre; I saw no tracks or signs of residence; I saw no track leading into the block.

Sworn by this deponent, Edwin Woodward Turner, on this 24th November, 1885, at Gunnedah, before us,— } E. W. TURNER.

John M'Donald, Chairman.
James G. Dight, } Members of the Board.

This

THIS deponent, *Lawrence Parnell*, of Goran Lake, in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—I have £61 worth of fencing on this land and a dam which occupied me, with a bullock team, for over two months to build; I make this land my home, except when away kangaroo-shooting or working.

Examined by Inspector: I put a bark hut on this land to live in about two months after I took up the ground; I shifted it down to the road out of the scrub; I heard of your inspecting this land; the hut was then up in the scrub; my hut was on the north side of portion 6; I did not know there was a crooked line north of No. 6, so the hut might have been off this land; I moved the hut so as to be close to my work at the dam; I moved the hut a short time after you were there; I use this land for my horses and bullocks.

No. 28.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Lawrence Parnell, made at Gunnedah on the 21st June, 1883.

[C.P. 83–69, section 13, portions 4, 5, 6, and 7.]

Sir,

Tamworth, 1 May, 1886.

I have the honor to report that I visited and inspected the above described conditional purchase on the 22nd March, 1886, and that I found the selector then not resident upon selection.

The land, which consists of box and yarran and myall, and comprises 320 acres, is occupied and used by J. J. Poole as grazing land, and the selector, who follows the avocation of labourer, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

Gunyah £2 0 0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

Gunyah did not appear to have been in use for some time. Fireplace outside had not many fires lit, as only a small quantity of ashes, and not apparently disturbed lately. Inside was a bed tick, blankets, and pillow; a very little flour in the bottom of a three-bushel bag; no tea, sugar, meat, or cooked foods; no water; there was a bucket and a large billy, also pannikin, small billy with holes in bottom, a frying-pan—these not used lately; a few clothes in a case. Another inspection recommended.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Declaration due, June, 1886. Await declaration, then, for further action.

No. 29.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Lawrence Parnell, made at Gunnedah on the 21st June, 1883.

[C.P. 83–69, section 13, portion 5.]

Sir,

Tareela, 3 August, 1886.

I have the honor to report that I visited and inspected the above described conditional purchase on the 3rd July, 1886, and that I found the selector then not resident upon selection.

The land, which consists of forest and plain, and comprises 320 acres, is occupied and used by J. J. Poole, and the selector, who follows the avocation of selector, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sum respectively stated, viz.:—As formerly.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

83

Remarks.

As I had no tracing, I merely inspected as to residence. Selector is a single man, and a half-caste The land is used by J. J. Poole, in whose interest I believe this selection to be taken. No appearance of occupation about gunyah. Inquiry recommended as to *bonâ fides* and residence, also improvements, as three years have expired.

Summon John Callaghan, Spring Ridge.
„ William Callaghan, Breeza.
„ William King, Goran Lake.
„ Alfred King, Goran Lake.
„ — Pope, senior, Wondoba.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Evidence required as to residence and improvements and *bonâ fides*. Gunnedah Board meeting, 19th November, 1886. Appellant and witnesses informed, 22/10/86. Upheld for present; declaration enclosed, 30/11/86.

No. 30.
Declaration by Mr. L. Parnell.

[C.P. No. 83-69.]
Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, Lawrence Parnell, of Goran Lake, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of fencing, dam, hut, and yards, and to the value of £150, have been made on such land; and I declare further that the said land has been the *bonâ fide* residence, continuously, of myself, from the period of selection and first occupation to the present date, and that no alienation of the land has been made by any of the above-named holders until after the residence thereon of such holder for a period of one whole year. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

The contents having been read over to the said Lawrence Parnell, who appears to understand the nature of same,—
Taken and declared, at Quirindi, this 6th day of September, 1886, before me,—
Robert H. V. Allnutt, Justice of the Peace.

Description.

County of Pottinger, parish of Brown, 320 acres, at Goran Lake, being conditional purchase No. 69 of 1883, in the district of Gunnedah, made on the 21st June, 1883.

No. 31.
The Chairman, Local Land Board, Tamworth, to Mr. L. Parnell.

[Crown Lands Act of 1884.]

New South Wales, to wit. Notice to appear at Local Land Board.

You are hereby notified to attend at the Court-house, at Gunnedah, on Friday, 19th day of November, 1886, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Tamworth, this 22nd day of October, 1886,—
JOHN M'DONALD,
Chairman.

Matter for Investigation.

The fulfilment of the conditions as to residence and improvements upon the conditional purchase of 320 acres made by you on 21st June, 1883, county of Pottinger, parish of Brown, portions 4, 5, 6, and 7, taken in violation of the provisions of the 9th section of the Act 39 Vic. No. 13.

Declaration of Service.

I, John Thomas Cleary, of Tamworth Land Board Office, sincerely declare and affirm that on the 22nd day of October, 1886, I served a copy of the within notice upon Lawrence Parnell, the person to whom it is addressed, by forwarding the same by registered post to his last known place of abode, and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

Made before me, at Tamworth, this 12th day of November, 1886,— J. T. CLEARY.

No. 37.

Caption to Deposition of Witnesses.

[Crown Lands Act of 1884—Part II, section 14, sub-section 1.]

Caption to Deposition of Witnesses.

New South Wales, }
to wit. }

The examination of William Brown, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases; Ezekiah Pope, of Goran Lake; Lawrence Parnell, of Goran Lake; Alfred Poole, of Goran Lake; Samuel Smith, of Goran Lake; and Reuben Pope, of Goran Lake, in the said Colony.

WHEREAS it hath been alleged that the condition as to residence had not been fulfilled upon the selection of 320 acres made by Lawrence Parnell, at Gunnedah, on the 21st of June, 1883, county of Pottinger, parish of Brown, portion 5; and also that this selection was made in violation of the provisions of the 9th section of the Act 39 Vic. No. 13; and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[*Enclosure.*]

[Mr. Wright, Agent for Selector.]

THIS deponent, *William Brown*, of Barraba, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows:—I know a selection of 320 acres made by Lawrence Parnell at Gunnedah on 21st of June, 1883; I visited this selection on 6th October, 1885; there was a gunyah on it worth about a £1; there was no cooked food in the gunyah, the only rations was a little sugar; there was a cask of water outside; inside was a mattress on some slabs on the ground, no blankets; there were a couple of "billies"; selector was not present, and, owing to the absence of blankets and rations, he was not making it his home at that time; I saw selector at Ratcliffe Parnell's selection, in the locality, at that time; I again saw this land on 22nd March last; selector was not residing then; the gunyah did not appear to have been in use for some time; the fire-place outside had only a small quantity of ashes, and had not apparently been disturbed lately; there was no water; there was a bed-tick, and blankets, and pillow inside; there was a little flour in the bottom of a three-bushel bag, but no other rations; no cooked food; there were cooking utensils, a bucket, and a billy, and a pannikin, which did not appear to have been in use recently; there was also a frying-pan; I again saw this land in July last; selector was not residing then, and there were no fires lit there recently, and still only a few ashes; the place did not appear to me to have been used since my last visit; the blanket had been removed; the bed-tick was on the ground, off the slabs; no rations or cooked food, and there was some water in a cask outside; as far as I could ascertain, selector had no stock of his own; his place adjoins the Poole and Parnell selections, and it seemed to be worked in connection with those selections.

Examined by Mr. Wright: From the appearance of the utensils, and there were no fires apparently lit outside, I should say the utensils had not been used for some time; it was wet weather in July last; there did not then appear to be any more ashes than for months previously; I should say the wind would not blow all the ashes away; I consider this selection is worked with all the Poole-Parnell selections; they are not fenced off separately; I cannot say that I saw any of the Poole-Parnell stock on this selection; I saw no sheep on this land; I saw no sheep there on any of these selections; I know selector goes out working; I know he was with a surveyor at Barraba, from hearsay; Surveyor Thursby told me that selector was in his employ, and that selector asked him twice for permission to go to his selection—so selector told Mr. Thursby; there was bullock gear on the land on the first occasion; I saw a plough and scoop on this land; I saw selector at Ratcliffe Parnell's selection on the first occasion; I do not know if he was working there.

WM. BROWN.

Sworn by this deponent, William Brown, on this 22nd November, 1886, at Gunnedah, before us,—

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, }
J. P. WIGHTMAN, } Members of the Board.

THIS deponent, *Ezekiah Pope*, of Goran Lake (called by Inspector), in the Colony of New South Wales, labourer, being duly sworn, maketh oath, and saith as follows:—

Examined by Inspector: I know Lawrence Parnell's selection, and I know the selector; his land joins my son's conditional lease; I remember the time this land was selected; I saw a gunyah on this selection; that is the same one as at present; it is about twelve months ago since that gunyah was built; I never saw any other gunyah on this selection, but I saw another gunyah a few chains from this one; that gunyah was not on this selection; I never saw any gunyah in the scrub on this selection; I have known this selection since it was taken up; up to the present time I have been in the neighbourhood; I never saw selector at the gunyah that was off the boundaries of this land; I was to it many a time; there were tracks about it sometimes; I saw a fire there once; I never went inside; I never saw inside; there was a bark door to it; there was a small heap of ashes outside; I could not say if anyone was living there or not; I passed early and late, and never saw selector at the gunyah; I saw selector riding across this selection about that time; I saw him at Ratcliffe Parnell's house two or three times; I have also seen him at my son's house; this is during the time the gunyah was off this land; I never saw him at the gunyah that is now on this land; I have been past it often; I was past it nearly every day, off and on; selector was working for my son about that time; he was doing the work for about three months; my son's place is about 1½ miles distant from this place; during that time he slept at my son's place; during the time the last gunyah was up, I saw selector once at Ratcliffe Parnell's selection about 11 or 12 o'clock in the daytime; I cannot say if selector has any sheep or cattle of his own; he never told me anything in reference to his selection.

Examined by Mr. Wright: I do not recollect speaking to selector at the gunyah off this land; I could not have this conversation and not recollect it; I did not often see selector riding across this land; I never saw selector working his team on this selection; I never asked selector to go with his plough and open some plough furrows into my tank and dam; my son asked him; I do not know whether selector has a team of bullocks or not; I told selector that he could water bullocks at my son's well; I do not know that they were selector's bullocks; I could not say if selector resided on his land; I was not at his gunyah at night.

Examined by Inspector: I could not say if he lived at Ratcliffe Parnell's or not; I do not know where he lived.

his
EZEKIAH x POPE.
mark.

Sworn by this deponent, Ezekiah Pope, on this 22nd November, 1886, at Gunnedah, before us,—

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, }
J. P. WIGHTMAN, } Members of the Board.

THIS deponent, *Lawrence Parnell*, of Goran Lake, in the Colony of New South Wales, labourer and selector, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Wright: I am the owner of the selection in question; I selected it with my own money for my own sole use and benefit, and not as the hired servant, agent, or trustee of anyone else; there was no agreement by which this land was to be transferred to any person when the time was up; I earned the money to select by working, kangaroo-shooting, and by foot-racing; I have earned from £1 to £1 2s. 6d. per week, sometimes £2 to £3 per week, when working; I was working with the threshing machine, and got from £2 to £3 a week at that; I have been working for a surveyor for some time back; I got permission from the surveyor, and came back to my selection three times; I then went and lived on my selection till I

went

went back to the surveyor; when not away at work for my living, this is my home; I have no other home but this; I have cooked and slept on this land; I went to reside within two month after selecting; I lived there at first in a hut, and I have made this my home till now; I was splitting timber for Alfred Poole about the time the Inspector was at my place thirteen months ago; I had my blankets and things then with me up at Alfred Poole's; he was paying me for my work; I engaged with Surveyor Thursby six months ago; I was in the locality in March last, among the neighbours; I was with Surveyor Thursby last July when the Inspector was at my place; I lived at my place when in the locality, and not at Ratcliffe Parnell's; none of the Parnell's or Poole's have anything to do with my selection; I have a team of bullocks and two or three head of horses; I had the horses and bullocks before I selected; I have had no water, and it was very dry, so I have not had any other stock; there was no water in my dam till two months ago; the dam broke away and I have put men on to mend it; the dam has not been full since; I have never given any stock of Poole's or Parnell's the run of my land; Mr. Pope's sheep have had the principal use of my land; I have seen Mr. Ezekiah Pope at the gunyah that was off this land; I think I spoke to Pope at the gunyah off the land; I am sure I have spoken to him; I have spoken to him at one gunyah; Pope and his son asked me to make furrows to his dam; I am not sure which of them asked me; this was on my ground; there is a mile and a half of 7-wire fencing with a batten, posts about 9 feet apart, worth £120; a dam worth, at 1s. 6d. or 1s. 3d. per yard, about 600 yards (say at 1s. 3d. per yard), £37 10s.; a bullock yard worth £1; hut worth £1; some posts along the back line of the 200 acres block; total, £159 10s.

Examined by Inspector: Messrs. Clift put up the 1½ mile of fencing; I paid £61 for my half to Mrs. Poole; she holds my money, as I have no one else to look after it; she holds all my money; I gave the £61 to give to Mr. Clift; I don't know if she gave it to him or not; that is all I know; the excavation in the dam is about 600 yards; I am a cousin of the young Parnell's; the Poole's have selections near me; the Poole's and Parnell's are half-brothers; Mr. Poole and I were looking at the map, and asked Mr. Poole if it was open; he said "yes"; I could also see myself that it was open; I took it up to be near my friends; I could not remember what deposit I paid without I saw the papers; I paid the deposit by cheque; it was one of Mrs. Poole's cheques; I do not recollect the amount; I applied for 320 acres; I applied for 360 acres, but could not get it; I suppose Mrs. Poole got the money for the land I could not get; I suppose she has got it back for me; I told her to pay for this land out of my money, and I told her to get back the refund; when I want money I get it from Mrs. Poole; she tells me she pays the interest on my land, and I send her money as I earn it; I took up this land to run my bullocks and horses on it: I have ten bullocks of my own; water will not stay in the lagoon except with a dam.

Examined by Mr. Wright: Mrs. Poole's first husband, Mr. Parnell, reared me from a little boy; I stayed with Mrs. Parnell after Mr. Parnell died; Mrs. Parnell has reared me up; she sometimes employed me and paid me wages; she has always treated me well, and looked after my interests; she has no claim on my selection; all the moneys I earn I send to her to take care of.

Examined by Chairman: I was in Mr. Poole's employ when I selected; I was working for Ratcliffe Parnell when I selected; I was making dams for him; I was on weekly wages for Ratcliffe Parnell; I have not been in his employ ever since I selected.

Examined by Mr. Wright: I worked for young Pope, and I worked for whoever gave me work.

Examined by Inspector: I was working for young Pope for three months, about 1¼ or 1½ miles from my gunyah; I slept at that time at young Pope's place; I have worked for the Poole's and Parnell's on odd jobs since I selected; on those times I may have stopped some nights at Ratcliffe Parnell's big house; that is not the place I mostly sleep at in this locality; I will swear I have slept more at my selection than at Ratcliffe Parnell's.

Examined by Chairman: I am only entitled to £60 for half-cost of the 1½ miles of fencing.

Examined by Inspector: I am sure I paid £61 to Mrs. Poole for my share of the fencing.

Sworn by this deponent, Lawrence Parnell, on this 22nd November, 1886, at Gunnedah, before us,—

JAMES G. DIGHT, J. P. WIGHTMAN, } Members of the Board.

THIS deponent, *Alfred Poole*, of Goran Lake (called by the selector), in the Colony of New South Wales, selector, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Wright: I know the selector and his selection; I remember his selecting the land in question; he went to reside on this land within a month after selecting; my selection is about three-quarters or a mile from this selection; I know selector shifted his hut; I know that selector has made this his home since he selected; I have often been at his house, and have had meals there; I have slept there; upon these occasions selector was there; I have often seen him there; since he has grown up he has made money for himself; he has worked for my stepmother, Mrs. Poole; I know he has earned considerable amounts of money; he has a team of bullocks and a few head of horses of his own; he has no other home that I know of; he stays at his neighbours on visits; I know that selector resides and makes this place his thorough home; I remember the Inspector being in this locality in October, 1885; selector was then working for James Parnell; the Poole-Parnell stock have run on this land, but they have not got the right to do so; Pope's sheep have been running on it.

Examined by Inspector: We have stock on our selections now—sheep; they are shepherded; they do not graze over this selection; they have never been on it that I am aware; the selector has been away with a surveyor, and has been back three or four times; selector has been about the neighbourhood more than half the time since he selected; he does not usually reside at Ratcliffe Parnell's place when in the locality.

Sworn by this deponent, Alfred Poole, on this 22nd November, 1886, at Gunnedah, before us,—

ALFRED POOLE.

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, J. P. WIGHTMAN, } Members of the Board.

THIS deponent, *Samuel Smith*, of Goran Lake (called by selector), in the Colony of New South Wales, grazier, being duly sworn, maketh oath, and saith as follows:—

Examined by Mr. Wright: I know the selector and his selection; I was living at Mr. Alfred Poole's place for about two months—this was six or eight weeks ago; I have been at selector's house; I was working for him there; I saw him there then; I have not seen him having his meals there; I have seen cooking utensils there and rations; the selector employed me to do the work—it was fixing up a dam that had broken away; selector paid me.

Examined by Inspector: Selector was not there all the time I was working at his place; I camped at Alfred Poole's while doing the work; selector was helping at the work; I saw selector going with his blankets to his hut, and coming away in the morning; he came from the direction of Mr. Ratcliffe Parnell's place with the blankets; I was never there in the night-time, nor at this selection; I had a contract for my work; I got £4 for the work; it was a small gap in the dam; I do not know how many yards are thrown up on the embankments; it would take me three or four days to put up the whole of the bank.

Examined by Mr. Wright: I should have said the gap.

SAMUEL SMITH.

Sworn by this deponent, Samuel Smith, on this 22nd November, 1886, at Gunnedah, before us,—

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, J. P. WIGHTMAN, } Members of the Board.

THIS

THIS deponent, *Reuben Pope*, of Goran Lake (called by selector), in the Colony of New South Wales, being duly sworn, maketh oath, and saith as follows :—

Examined by Mr. Wright: I know the selector and his selection ; I recollect the time of this selection ; about the time, I cannot remember him going to live upon it ; he had a hut there, but it was a couple of chains off his ground ; I have seen him at that hut pretty often ; I was knocking about there a bit ; I gave him a hand for a time ; I didn't get paid ; he was there all that time for about a week or so ; I slept with the selector in the first humpy ; I had my meals there with him at that time ; I have seen him sometimes riding on his selection ; I do not know where the selector lives ; he has stayed at my place ; I do not know anything about it.

Examined by Chairman : I am a neighbour of selector's ; I live about 1½ miles from selector's place ; I do not know if he makes this his home.

Examined by Mr. Wright : I did not meet selector with my father ; I and my brother met him, and he spoke about watering some bullocks ; I know selector has a team of bullocks and a couple of horses.

Examined by Inspector : I have been living about there since selector selected ; I have seen selector a few times before he selected at the Parnell's ; I have passed the first gunyah without seeing selector, and I have passed and seen him there ; I have seen selector there quite as often as I have not seen him there ; I have seen selector at Ratcliffe Parnell's place in the morning, and have come from Ratcliffe Parnell's place with him in the morning ; I have seen the second gunyah on the land ; I have not been much to it ; selector could live at Ratcliffe Parnell's place without my knowing it, or at any other place ; for all I know, he might be living at Ratcliffe Parnell's place.

No. 38.

The Under Secretary for Lands to The Chairman, Local Land Board, Tamworth.

District, Gunnedah ; conditional purchase No. 83–69, section 13 of the Alienation Act of 1861 (25 Vic. No. 1) ; area, 320 acres ; date, 21st June, 1883 ; name of applicant, Lawrence Parnell.

THE declaration upon the above described conditional purchase requires verification. All available papers in connection with the case were referred to the Chairman of the Local Land Board, Tamworth, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report, when furnished by the Inspector, shows that the conditions of the Act under which the conditional purchase was made have not been, or are not being carried out, an investigation may be instituted by the Local Land Board, subject to the provisions of the 20th section of the Crown Lands Act of 1884.

W.H.C., 29/10/86.

The above recommendation approved by the Minister for Lands (*vide* 86–34,705 D.)—F.H.W. (for the Under Secretary), 4/11/86. The Chairman, Local Land Board, Tamworth, B.C.

No. 39.

Decision of Local Land Board.

[C.P. 83-69, Gunnedah.]

[Crown Lands Act of 1884—Part II, section 14, sub-section 4.]

New South Wales, to wit.

Decision of Local Land Board.

WHEREAS, on the 22nd day of November, 1886, it became a matter for investigation before us whether the condition as to residence had been fulfilled upon the conditional purchase of 320 acres made at Gunnedah, on 21st June, 1883, by Lawrence Parnell, county of Pottinger, parish of Brown, portion 5 ; and also as to whether this selection was made in violation of the provisions of the 9th section of the Act 39 Vic. No. 13 ; and, having taken evidence and inquired into the said matter, we find that there is no evidence against the selector, and we recommend that this selection be upheld for the present as to residence. To be inspected after receipt of declaration as to improvements.

Given under our hands, at the office of the Local Land Board, at Gunnedah, Colony of New South Wales, this 22nd day of November, 1886,—

JOHN M'DONALD, Chairman.
JAMES G. DIGHT, } Members of the Board.
J. P. WIGHTMAN, }

Declaration received for Inspector.—W.A., 17/1/87. Conditional Purchase, 83/69. Inspector Brown, 31/1/87.

No. 40.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Lawrence Parnell, made at Gunnedah, on 21st June, 1883.

[C.P. 83–39, section 13, portion 5.]

Gunnedah, 12 August, 1887.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th July last, and that I found the selector then not resident upon selection.

The land, which consists of box and myall forest, and comprises 320 acres, is occupied and used by J. J. Poole as grazing land, and the selector, who follows the avocation of labourer, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—As formerly.

From

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion, that the selector has not been continuously resident upon the selection.

Remarks.

No sign of any one occupying the hut; no blankets or rations, and the place did not appear to be often used. Only a bed-tick and a kerosene-tin in hut. I had no time to report on improvements, country so boggy. Will visit again shortly.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Inspector has retained tracing for report *re* improvements.—W.A., 27/8. Await further report.—JOHN M'DONALD, Chairman.

No. 41.

Mr. Inspector Brown to The Chairman, Local Land Board, Tamworth.

Selection of Lawrence Parnell, made at Gunnedah on 21st June, 1883.

[C.P. 83–69, section 13, portions 5, 6, 4, and 7.]

Sir,

Kickerbell, 17 January, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 8th December last, and that I found the selector then resident upon selection.

The land, which consists of box and yarran forest, and comprises 320 acres, is occupied and used by J. J. Poole as grazing land, and the selector, who follows the avocation of labourer, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

North—178 rods, seven-wire fence, at 4s.	£35	12	0
West and south—Share division, 332 rods, seven-wire fence, at 4s.	66	8	0
Dam	20	0	0
Hut	10	0	0
	£132	0	0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has been fairly resident upon the selection recently.

Remarks.

Hut contained blankets upon bunk, and had appearance of being in use lately. I saw selector at the dam on this land.

I have, &c.,
WM. BROWN,
Inspector of Conditional Purchases.

Improvements not up to 10s. per acre. Inspector to furnish final report about June, 1888.—JOHN M'DONALD, Chairman, 6/3/88. Tracing to Inspector for final report, June, 1888. Forwarded to the head office *re* Mr. M'Elhone's questions for 14th instant.—JOHN M'DONALD, Chairman, Tamworth, 11/6/86. To be returned.

No. 1.

Application by John Harrison.

C.P. No. 81–92. E. [Alienation Act—Sections 21 and 22.]

Two tracings attached. See appendices 1 and 2.

Application by John Harrison for the conditional purchase without competition, of 40 acres, unimproved Crown Land under section 21, of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £10, this 9th day of June, 1881, at 3·32 o'clock.

PHILIP F. RICHARDSON,
Agent for the sale of Crown Lands, at Lismore.

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase. Acres.
13	19/2/74.	40
11	11/1/77.	40

9 June, 1881.

Sir,

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of the unimproved Crown Land hereunder described, containing 43 acres, which adjoins my conditional purchase or freehold property of 40 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £10, being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the second selection made by me in virtue of my conditional purchase or freehold of 40 acres.

I am, &c.,
JOHN HARRISON,
Lismore.

To the Agent for the sale of Crown Lands, at Lismore.

Description.

County of Rous, parish of Bungabee, 40 acres, adjoining west boundary of John Harrison's 40 acres, No. 11 of 19th February, 1874, to form a square block.

First conditional purchase 74–2,138, R 993 over 1,759. Mr. Licensed-Surveyor J. Barling to measure if unobjectionable. If first conditional purchase is satisfactory.—T. W. RUTTER (for Surveyor-General), 23/7/81. See my letter of 8th December, No. 67, 1881.—J. BARLING, Licensed Surveyor.

No. 2.

Application by John Harrison.

Original C.P.; 13th clause.

Sir, Lismore, 22 September, 1881.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 40 acres, which adjoins my conditional purchase or freehold property of 40 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £10, being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the sixth selection made by me in virtue of my conditional purchase or freehold of 40 acres, of 19th February, 1874.

I have, &c.,

JOHN HARRISON

(For Commercial Bank, Sydney),

Lismore.

To the Agent for the Sale of Crown Lands, at Lismore.

Description.

County of Rous, parish of Bungabee, 40 acres. In a square block adjoining southern boundary of my conditional purchase, 40 acres, No. 28, and western boundary of George Harrison's portion, No. 30.

First conditional purchase, 74-2,138; original applicant, John Harrison, Richmond River. Mr. Licensed-Surveyor J. Barling,—If first conditional purchase is satisfactory, to measure if unobjectionable.—J.H. (for Surveyor-General), 27/10/81. B.C., 3/11/81. See my letter of 8th December, 1881, No. 17.—J. BARLING, Licensed-Surveyor.

No. 6.

Application by Commercial Banking Company of Sydney.

C.P. No. 81-440. E. [Alienation Act—Sections 21 and 22.]

Application by Commercial Banking Company, of Sydney, for the conditional purchase, without competition, of 125¾ acres, unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £31 8s. 9d., this 1st day of December, 1881, at 10 o'clock,—

A. BENEST,

Agent for the Sale of Crown Lands, at Lismore.

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase.
		Acres.

128	23/6/81	40
297	15/9 81	40
319	22/9/81	40
	Total area.....	280

Original C.P 13th clause.

Sir, 1st December, 1881.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 125¾ acres, which adjoins my conditional purchase or freehold property of 40 acres, upon which I am now residing, or upon which I have resided for three years; and I herewith tender the sum of £31 8s. 9d., being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the seventh selection made by me in virtue of my conditional purchase or freehold of 40 acres.

I have, &c.,

JOHN HARRISON

(*Pro* Commercial Banking Company of Sydney),

Lismore.

To the Agent for the Sale of Crown Lands, at Lismore.

Description.

County of Rous, parish of Bungabee, 125¾ acres. Portion No. 70, adjoining my conditional purchase, No. 3, 48-49, on the west, and my conditional purchase, 65, 66, 67, on the north.

First conditional purchase, 74-2,138, transferred from John Harrison, Casino. The Land Agent, Lismore, is informed that conditional purchase 81-128 should not have been inserted in Schedule as it stands in the registers of this Department as additional to a conditional purchase, 77-96, made on the 29th March, 1877, by John Harrison, and transferred to Commercial Bank, 27th June, 1881.

Please correct and return at once.—J.W. (for Chief Commissioner), B.C., 13/12/81. Mr. Harrison called, and I went over his selections with him; attached is a correct list, the ones underlined with red are the originals, and the underneath ones additionals. Lismore.—A.B., 28/12/81. To place with papers, 81-57,094, C.S., L.-S. J. Barling.—F.R.C., 1/3/82.

No. 7.

Mr. Licensed-Surveyor Barling to The Surveyor-General.

Sir, Casino, 8 December, 1881.

I have the honor to transmit herewith the plan* of six portions of land, containing 40 acres, 40 acres, 40 acres, 40 acres, 40 acres, 125¾ acres, numbered 65, 66, 67, 68, 69, 70, in the parish of Bungabee, county of Rous, applied for by John Harrison for Commercial Banking Company, on the 9th, 16th, 23rd June, 15th, 22nd September, and 1st December, 1881, under section 21 of Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated 23rd July, No. 38; 28th October, No. 76; 23rd August, No. 43; 27th October, No. 72; and anticipated for portion 70. *Appendix C.

It will be seen that the one-mile limit has been exceeded, but this was unavoidable, on account of the conditional purchases of W. Webster, junior. I know of no objections to the form of measurement.

I have, &c.,
JOHN BARLING.

Conditional purchases 81, 92, 107, 128, 297, 319, and plan herewith. Examined and charted.—J.R.C., 1/4/82.

Conditional purchases 82–128 and 440, together with applicant's former conditional purchases, exceed the limit of 80 chains northerly and westerly by about 20 chains, but as all the available land within the limit has been conditionally purchased by Wm. Webster, junior, it is recommended that the measurement of portion 67, conditional purchase 81–128, portion 70, conditional purchase 81–440, be accepted, under the 8th clause of the Lands Act Amendment Act of 1880, such measurement being unobjectionable in other respects.—CHAS. E. FINCH (for Surveyor-General), 26/6/82.

Approved.—JNO. R. Tracing herewith for report of Conditional Purchase Inspector.—J.H.C., September, 1882.

No. 8.

Application by Commercial Banking Company of Sydney.

C.P. No. 82-476. E. [Alienation Act—Section 21.]

Application by Commercial Banking Company of Sydney, for the conditional purchase, without competition, of 234¼ acres unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £58 11s. 3d, this 22nd day of June, 1882, at 11·25 o'clock,—

A. BENEST,
Agent for the Sale of Crown Lands at Lismore.

128	23/6/81	40
297	15/9/81	40
319	22/9/81	40
440	1/12/81	125¾
476	22/6/82	234¼
	Total acres.....	640

Sir, Lismore, 22 June, 1882.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 234¼ acres, which adjoins my conditional purchase property of 125¾ acres, upon which I am now residing, or upon which I have resided for three years; and I herewith tender the sum of £58 11s. 3d., being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the eighth selection made by me in virtue of my conditional purchase of 40 acres.

I am, &c.,
JOHN HARRISON
(*Pro* Commercial Banking Company of Sydney.)

To the Agent for the Sale of Crown Lands, at Lismore.

Description.

County of Rous, parish of Bungabee, 234¼ acres, adjoining western boundaries of John Harrison's conditional purchases Nos. 67 and 70.

Applicant has reselected land comprised in conditional purchase 82-125, which was declared void, as exceeding the mile, and desires this put in pending an explanatory letter and subject to approval.—A.B.

No. 9.

Mr. A. Benest to The Chief Commissioner, Lands Department.

C.P. 82-476, 234 acres 1 rood, Commercial Bank (John Harrison), county Rous, parish Bungabee, 22nd June.

Sir, 27 June, 1882.

I have the honor to draw your attention to the conditional purchase noted in the margin. The conditional purchase in question would seem to go over the boundary of the Land District of Lismore, but as the original selection and all other additional conditional purchases are in this District, the application was accepted by desire of applicant.

I have therefore drawn a sketch* of the land, and forwarded to the Land Agent at Casino, to enable him to make a note of it. *Appendix D.

I omitted to mention this on the application.

I have, &c.,
A. BENEST,
Crown Lands Agent.

82-476, Lismore.

Recommended that conditional purchase No. 82-476, Lismore, be declared void, being wholly within the Land District of Casino; see tracing herewith.—CHAS. E. FINCH (for Surveyor-General), 31/10/82. Chief Commissioner, Conditional Sales.

Void.—A.O.M., 14/11/82. Conditional purchase 82-476, Lismore; Commercial Bank; Rous—Bungabee; 234 acres 1 rood adjoining western boundary of J. Harrison's conditional purchases 67 and 70—Dealt with by survey under letters 31st March, 83-37,—C. F. GARVAN.

Sir, Department of Lands, Sydney, 14 November, 1882.

I desire to inform you that the application of the Commercial Banking Company, Lismore, on the 22nd June, 1882, for the conditional purchase of 234¼ acres of land is void, being wholly within the Land District of Casino.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &c.,
A. O. MORIARTY,
Chief Commissioner.
(*Per* J.B.)

No. 11.

The Chief Commissioner to Manager, Commercial Banking Company of Sydney.

C.P. No. 82-476.

Sir, Department of Lands, Sydney, 14 November, 1882.

Deposit paid, £58 11s. 3d.

I desire to inform you that the application made by the Commercial Banking Company, at Lismore, on the 22nd June, 1882, for the conditional purchase of 234¼ acres of land, is void, being wholly within the Land District of Casino.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasurer, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &c.,
A. O. MORIARTY,
Chief Commissioner.
(*Per* J.B.)

No. 12.

The Chief Commissioner to The Under Secretary for Finance and Trade.

[Special Payments—Supplement to Form No. 2 (b).]

Conditional Purchase—Revenue refunded.

C.P. No. 82-476.

Sir, Department of Lands, Sydney, 14 November, 1882.

District, Lismore; name, Commercial Banking Co.; date of selection, 22nd June, 1882; area, 234 acres 1 rood; deposit, £58 11s. 3d

I have to inform you that the conditional purchase, noted in the margin, being void, as the land is wholly within the Land District of Casino, you will be good enough to refund to the selector the sum of fifty-eight pounds eleven shillings and threepence, being the deposit money paid thereon.

2. I am to add, that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &c.,
W. BLACKMAN
(For Chief Commissioner).

Sir, Casino, 30 November, 1882.

I am desirous of purchasing without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 234¼ acres, which adjoins my conditional purchase or freehold property of 40 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £58 11s. 3d., being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the eighth selection made by me in virtue of my conditional purchase or freehold of 40 acres.

I am, &c.,
M. SOLLING
(For the Commercial Banking Company of Sydney).

To the Agent for the Sale of Crown Lands, at Casino.

Description.

County of Rous, parish of Bungabee, 234¼ acres. Adjoining the western boundaries of John Harrison's, now Commercial Bank, portions No. 67 and 70.

Deposit satisfied by refund voucher representing conditional purchase, 82-476, at Lismore.—M.M.C.

Additional conditional purchase, with previous conditional purchases, exceeds the limit of 80 chains both in a northerly and westerly direction, but as applicant cannot increase his holding to the maximum area of 640 acres without exceeding the limit in either direction, it is recommended that this application be allowed for the land described, as shown on tracing* by red edging, which forms a suitable design.—CHAS. E. FINCH (for Surveyor-General), 31/7/83. The Chief Commissioner, Conditional Sales. * Appendix E.

Approved.—J.S.F., 29/8/83. Copy of application to Licensed-Surveyor Garran, to amend the west boundary of portion 85 of 229 acres 1 rood, parish of Bungabee, so as to include the full area applied for.—JNO.J.C., 6/9/83.

Portion 85, parish of Bungabee, county of Rous, having been amended in the form shown by red edging on tracing, giving applicant the full area applied for, in accordance with Ministerial decision of 29th August, 1883, hereon this paper, should now be placed with C.S. 83-3,650 Survey.—H. COLE (*pro* J. J. CALLACHOR), 22/11/83.

Description.

County of Rous, parish of Bungabee, 234 acres 1 rood, adjoining the western boundary of John Harrison's, now Commercial Bank, portions Nos. 67 and 70. Mr. Licensed-Surveyor Garvan (if first conditional purchase is satisfactory) to amend, if unobjectionable, the west boundary of portion 85, parish of Bungabee, in the form shown on the attached tracing so as to include the full area applied for in accordance with Ministerial approval on original application.

JNO. J. CALLACHOR
(For Surveyor-General).

6 September, 1883.

Alteration made, as shown on accompanying tracing, to include the full area, viz., 234 acres 1 rood.—C. F. GARVAN, 21/10/83.

No. 19.
Office Memorandum.

Memorandum of subjects requiring explanation or completion in connection with the survey and plan of portion 85, parish of Bungabee, county of Rous; transmitted by Mr. Licensed-Surveyor Garvan; letter No., 83–31, of 31st March, and on which Mr. Licensed-Surveyor Garvan's report in explanation is requested.

Subject.

The features of the land adjacent to the eastern boundary of the above portion do not agree with those represented by Mr. Licensed-Surveyor J. Barling in his survey of portions 67 and 70.

The bearings of the eastern boundary of the above portion does not agree with that of the western boundary of portions 67 and 70, there being a difference of 1 degree 12 minutes between them. Mr. Garvan will explain this difference, having adopted the same azimuth as Mr. Licensed-Surveyor J. Barling.—JNO. J. C. 30/11/83. P.F.A., 1/12/83.

Report.

The difference in bearing is owing to portion 85 being measured on same meridian as my other measurements in the neighbourhood, which, when connected with other work, shows the difference in meridian. It will be seen that allowance is made for the divergence in calculating the area.

I cannot at present find any alteration to make in the features. It is, however, very difficult to form a correct idea, and no two people would exactly agree in their representation. If necessary, I will again go over the line and examine any difference that may be pointed out.—C. F. GARVAN, 26/12/83.

No. 20.
Declaration by John Harrison.

C.P. No. 81–319. D. [Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN HARRISON, of Lismore, do solemnly and sincerely declare that the Commercial Banking Company are the lawful owners by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of falling and clearing, and to the value of £160, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

No. 25.

Declaration by John Harrison.

C.P. No. 81-297. D. [Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN HARRISON, of Lismore, do solemnly and sincerely declare that the Commercial Banking Company are the lawful owners by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of falling, clearing, and fencing, and to the value of £160, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitue declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

JOHN HARRISON.

Taken and declared, at Lismore, this 6th day of January, 1885, before me,—

ANTHONY BENEST, Commissioner for Affidavits.

Description.

County of Rous, parish of Bungabee, 40 acres, at Lismore, being conditional purchase No. 297, of 1881, in the district of Lismore, made on the 15th September, 1881.

No. 26.

Declaration by John Harrison.

C.P. No. 81-440. D. [Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN HARRISON, of Lismore, do solemnly and sincerely declare that the Commercial Banking Company are the lawful owners by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of building, fencing and clearing, and to the value of £200, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths end affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

JOHN HARRISON.

Taken and declared, at Lismore, this 16th day of March, 1885, before me,—

ANTHONY BENEST, Commissioner for Affidavits.

Description.

County of Rous, parish of Bungabee, 125¾ acres, at Lismore, being conditional purchase No. 440, of 1881, in the district of Lismore, made on the 1st December, 1881.

No. 27.

Report of Inspector George W. West.

C.P. 81-92. Section 21. Portion 65. Parish Bungabee

Report by George W. West, Inspector of Conditional Purchases, respecting the selection of Commercial Bank (John Harrison), made at Lismore, on 9th June 1881.

Sir, Woodburn, 30 December, 1885.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 7th december, 1885, and that I found the selector then resident upon selection.

The land, which consists of forest, and comprises 40 acres, is occupied and used by selector as pasture; and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz.:—

100 rod 2-rail split fence, at 5s.	£25 0 0
35 rod 2-wire barb fence, at 5s.	£ 8 15 0
Total...	£33 15 0

Additional

Additional conditional purchases,—
81–107, 40 acres, on the 16th June, 1881.
21.
66.
81–128, 40 acres, on the 23rd June, 1881.
21. Improvements nil.
67.
81–297, 40 acres, on the 15th September, 1881.
21.
68, 20 acres, ringing, at 3s. £3 0 0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

I have, &c.,
GEORGE W. WEST,
Inspector of Conditional Purchases.

The Chairman of the Local Land Board, at Grafton.

No. 28.
Report by Inspector George W. West.

Report by George W. West, Inspector of Conditional Purchases, respecting the selection of Commercial Bank (John Harrison), made at Lismore, on 22nd September, 1881; place, Woodburn; date, 30th December, 1885. C.P. 81-319; section 21; portion 69; parish Bungabee.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 7th December, 1885, and that I found the selector then resident upon selection..

The land, which consists of forest and comprises 40 acres, is used by selector as pastoral, and the selector, who follows the avocation of grazier, had, at the time of my visit, made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

	£	s.	d.
20 acres ringing, 3s.	3	0	0
Additional conditional purchase, 81–440—21.—125 acres on the 1st December, 1881.			
70.—13 chains, 2-rail fence, £1	13	0	0
125 acres, ringing, 3s.	18	15	0
	£31	15	0
On original conditional purchase, portion 11—			
100 rod 2-rail barb wire fence, 5s.	£25	0	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

I noticed where a stockyard and house had been on original conditional purchase.

I have, &c.,
GEORGE W. WEST,
Inspector of Conditional Purchases.

The Chairman of the Local Land Board, at Grafton.

It is necessary that Mr. West should make a specially careful reinspection of the whole series of John Harrison's conditional purchases, transferred to Commercial Bank. This will most likely be a serious case in Court, and Mr. West must make himself thoroughly up in the facts of the case. The series is as follows :—

74–2,138 = 40 acres.	81–297 = 40 acres.
77– 11 = 40 „	81–319 = 40 „
81– 92 = 40 „	81–440 = 125¾ „
81– 107 = 40 „	82–136 = 234¼ „
81– 128 = 40 „	

The time in which improvements on 82–136 may be made has not yet expired.—W.B., Chairman, 12/4/87.

Inspector West instructed as above, 13/4/87. Await report. See page 120.

No. 29.
Declaration by John Harrison.

C.P. No. 82–136. D. [Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, John Harrison, of Hanging Rock Creek, Lismore, do solemnly and sincerely declare that the Commercial Banking Company of Sydney are the lawful owners, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of house, stockyard, fencing, ring-barking, &c., and to the value of £610, have been made on such land, in conjunction with the selections noted in the margin. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

No. 38.

Mr. John Harrison to The Chairman, Local Land Board, Lismore.

Hanging Rock Creek, Lismore, 12 April, 1887.

Sir,

I have the honor to request that the Local Land Board, Lismore, may receive an application from myself requesting that I may be allowed an extension of time to complete the improvements on my conditional purchase of 125¾ acres, made at Lismore, 1 December, 1881.

I beg to bring under the notice of the Board that improvements are required on this conditional purchase, and the adjoining conditional purchases in connection therewith to the amount of £273, and that improvements to the amount of £210 are already made, and that I hold the Certificate of Conformity of residence and improvements on the original conditional purchases. My reason for requesting that the

Land

Land Board may grant me extension of time to complete the improvements to the required amount, are that the frequent floods and continual wet weather have stopped all out-door work for some considerable time, and that, although I have a number of men employed, I have not been able to make use of their services for ploughing, &c., to complete the required improvements.

I have, &c.,
JOHN HARRISON.

Conditional Purchase, John Harrison, Commercial Bank, 125¾ acres, 1st December, 1881.

Forwarded in connection with former papers in the case.—J.E., Land Board Office, Grafton, 26/4/86. The Under Secretary for Lands. The Land Agent will be good enough to furnish conditional purchase, number, &c., of John Harrison's conditional purchase.—A.A.B. (for Chairman), 18/4/87. The papers of this conditional purchase have not been received by us.—A.A.B., 27/4/87. Mr. Evans.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

I have, &c.,
GEORGE W. WEST,
Inspector of Conditional Purchases.

The Chairman of the Local Land Board, at Grafton.

No. 44.

No. 44.

Final Declaration by John Harrison.

C.P. No. 81-440. D. [Alienation Act.]

Final Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN HARRISON, of Lismore, do solemnly and sincerely declare that the Commercial Banking Company is the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of building, falling, clearing, and fencing, and to the value of £275 have been made on such land in conjunction with the original conditional purchase. And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Lismore, this 3rd day of August, 1887, before me,— } JOHN HARRISON.

PROSPER DE MESTRE, Commissioner for Affidavits.

Description.

County of Rous, parish of Bungabee, 125¾ acres, at Bungabee, being conditional purchase No. 440, of 1881, in the district of Lismore, made on the 1st December, 1881.

No. 45.

Office Memorandum.

81- 440	21	125¾	For verification.

Name of applicant—Commercial Banking Company.

Declaration upon additional conditional purchase 81-440 requires verification. All papers in connection with the case were referred to the Chairman of the Local Land Board, Grafton, 18/6/87, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report, when furnished by the Inspector, shows that the improvements are not sufficient on additional conditional purchase 81-440, or that there is not a surplus from those on the original conditional purchase and intermediate conditional purchases of this series to cover the deficiency, an investigation by the Local Land Board may be instituted, subject to the provisions of the 20th section of the Crown Lands Act of 1884.

J.R.Y.

The above recommendation approved by the Minister for Lands, *vide* 87-32,113 D.—F.H.W. (for the Under Secretary), 9/9/87.

The Chairman, Local Land Board, Grafton, B.C.

No. 46.

Decision of Local Land Board.

New South Wales, to wit. } [Crown Lands Act of 1884—Part II., section 14, sub-section 4.]

WHEREAS on the 22nd day of November, 1887, it became a matter for investigation before us whether the conditions of improvements had been fulfilled upon the conditional purchases applied for on the 9th, 16th, and 23rd June, 1881; 15th and 21st December, 1881; and 1st December, 1881, by John Harrison, county Rous, parish of Bungabee, and now transferred to the Commercial Bank, and having taken evidence and inquired into the said matter, we find that the decision of the Board is, that the conditional purchases above specified must be forfeited, as, while their aggregate area is 326 acres, and their aggregate improvements should be worth £163, they are only worth £122 16s., thus showing a deficiency of £40 existing, as will be found on reference to the depositions, not only at the time the declarations were made, but even in July, 1887, and *after*, that is, many months after the expiration of the five years on each of the conditional purchases referred to. (See over for a statement of the principal facts and considerations which have led to above decision).

Given under our hands, at the office of the Local Land Board, at Lismore, in the Colony of New South Wales, this 22nd day of November, 1887.

WM. BLACKMAN, Chairman.
DUNCAN M'DONALD, } Members.
S. GARRARD, }

Statement

Statement referred to in within decision.

The original conditional purchase of 1874, and additional conditional purchase of 1877, were duly approved, but the whole of the improvements by virtue of which they were passed, were destroyed years ago. There is, therefore, no surplus of improvements from them applicable to the additional conditional purchases of 1881. But about one-and-a-half, or two years ago, £25 worth of fresh improvements were put on the original conditional purchase, and were allowed to be surplus available for said additional conditional purchases.

But according to a careful inspection by Inspector West in July, 1887, of the specific improvements on each conditional purchase of series, there were improvements on each conditional purchase of the series; there were improvements on the additional conditional purchases of 1881 only worth £97 14s., and this sum, with the £25 referred to, made up the £122 14s., referred to in the decision of the Board as leaving a deficiency of £40 on the additional conditional purchases.

This inspection was made by Mr. West, in company with Mr. Harrison, who admits in his evidence that Mr. West's valuation is a fair one.

Mr. Harrison tried before the Court to claim a surplus from conditional purchase 82–136 of 234 acres, sufficient to make up the deficit; but clearly nothing can be got from this quarter, as it had not 10s. worth of improvements *on* itself at any time; and 10s. worth of improvements *for* it only existed very recently, as Mr. Harrison admitted that the improvements required by the 640 acres were but "now finished" at the present date. (Page 4 of his deposition).

The forfeiture of the additional conditional purchases of 81 would, of course, entail the forfeiture of the additional conditional purchase of 82, which would be thus cut off from its original conditional purchase.

WM. BLACKMAN, Chairman.
DUNCAN M'DONALD, } Members of
S. GARRARD, } the Board.

No. 47.

Caption to Deposition of Witnesses.

New South Wales, } [Crown Lands Act of 1884—Part II., section 14, sub-section 1.]
to wit. }

The examination of George Wolfe West, of Lismore, in the Colony of New South Wales, Inspector of Conditional Purchases; John Harrison, of Lismore, in the said Colony.

WHEREAS it hath been alleged that the improvement condition has not been complied with upon the conditional purchases applied for by John Harrison on 9th, 16th, and 23rd June, 1881, 1st December, and 15th and 22nd September, 1881, county Rous, parish of Bungabee, and now transferred to Commercial Bank, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

No. 48.

Inspector G. W. West's evidence.

This deponent George Wolfe West, of Lismore, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath and saith as follows:—

By Board: I know the series of selections taken up by John Harrison; I was specially directed last April to make a very careful inspection of the whole series, on the original conditional purchase 74-2,138, portion 11—I value the improvements at £25; on conditional purchase 77–11, portion 28—improvements, nil; on conditional purchase 81–92, portion 65—improvements, £33 15s.; on conditional purchase 81–107, portion 66—improvements, nil; on conditional purchase 81–128, portion 67—improvements, £7 4s.; on conditional purchase 81–297, portion 68—improvements, £22; on conditional purchase 81–319, portion 69—improvements, £3; on conditional purchase 81–440, portion 70—improvements, £31 15s.; on conditional purchase 82–136, portion 85—improvements, £86 11s.; total value of improvements, £209 5s., as shown by my report dated 6th July, 1887; I made a very careful inspection, and Mr. Harrison was with me; I told him I was specially instructed to report the value of improvements.

Sworn by this deponent George W. West, on this 22nd day of November, 1887, at Lismore, before us,— } GEORGE W. WEST.

No. 49.

J. Harrison's evidence.

This deponent, John Harrison, of Lismore, in the Colony of New South Wales, grazier and dairyman, being duly sworn, maketh oath and saith as follows:—

By Board: I have heard the statement made by Inspector West as to the value of the improvements on the whole series; it is a fair estimate, with the exception of portion of the southern and western line of portion 85 of 234¼ acres; I think I can fairly claim 1s. a rod on a mile of fencing on the back, or 1s. on 320 rods, amounting to £16; the fence is on a very rough place, and many of the posts had to be carried, and the scrub cleared to erect the fence; the country is very rugged; portions 28 and 11 are old selections that have been approved; they were taken up in 1874 and 1877; on those two portions I did improvements

improvements which I value at £65; the improvements valued at £60 by Inspector Trollope were not on the ground when Inspector West inspected; I drew Inspector West's attention to this at the time of his inspection; I now propose to leave out the two portions on which I have got the certificates, and on which the old improvements have been destroyed; I consider that I was perfectly justified in putting up my improvements on any portion of the 640 acres; this opinion I have always found to be their opinion, also the opinion of the Land Agent at Casino; I also consider that the improvements as valued by Inspector West are sufficient for the selections that are complete to date of making the declaration; I would also add that the whole improvements required on the 640 acres are now finished at the present date; the improvements valued at £25, which Inspector West found on the original conditional purchase of 1874 were not part of the improvements which passed the selection, but which were erected about two years ago; the only improvements on portion 85, conditional purchase 82–136, are the same now as when Inspector West visited it; since Inspector West visited all the selections in July, 1887, I have erected 40 chains of 3-barb wire fence on original conditional purchase, valued at £40, also 140 acres ringbarked of very thick forest, which I value at £21; there are thirty-two panels of 2-rail fence on portion 11, worth 5s. a rod; this piece of fence was missed both by myself and Inspector West when inspecting.

Sworn by this deponent John Harrison, on this 22nd November, 1887, at Lismore, before us,— JOHN HARRISON.

No. 50.

Notice of Appeal.

Re appeal of John Harrison.

Dear Sir, Lismore, 8 December, 1887.

Enclosed please find appeal of John Harrison against the decision of Land Board in respect of the additional conditional purchases, set out in such appeal held at Lismore on the 26th November last; also bank draft for £10 to cover the cost of such appeal.

I have, &c.,
E. W. ALLINGHAM,
Solicitor for John Harrison.

The Chairman of the Land Board, Grafton.

[*Enclosures.*]

IN THE LAND COURT, LISMORE.

In the matter of the conditional purchases of John Harrison of 325¾ acres, parish of Tunstale, taken up on various days.

Notice is hereby given that I, John Harrison, intend to apply on the 28th day of November, 1887, that the case decided on the 26th day of November last may be reopened, and that I may be permitted to add to my evidence of improvements as I omitted to give—evidence of other improvements on my land— to wit, 40 acres of land ringbarked, and about 20 acres sown with clover seed.

Dated this 28th day of November, 1887.

E. W. ALLINGHAM,
Applicant's Attorney, Lismore.

Statutory Declaration.

I, JOHN HARRISON, of Tunstale, do solemnly and sincerely declare that, in giving my evidence on the 26th day of November last, before the Land Court in the inquiry into my conditional purchases noted in the margin, I omitted to give evidence of improvements done, to wit, 40 acres of land ringbarked, and about 20 acres sown with clover seed, and I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

C.P. 325¾ acres, parish of Tunstale.

Subscribed and declared at Lismore, this 28th day of November, 1887, before me,— JOHN HARRISON.

S. GARRARD, J.P.

No. 51.

Mr. John Harrison to The Chairman, Local Land Board, Grafton.

[Crown Lands Act of 1884—Part II, section 17.]

Notice of appeal to the Minister from decision of Local Land Board to be lodged with the Chairman.

New South Wales, to wit.

WHEREAS on the 26th day of November, 1887, a certain matter wherein John Harrison, of Hanging Rock Creek, near Lismore, being the conditional purchaser of 40 acres, taken up on the 9th June, 1881, parish of Bungabee; additional conditional purchase No. 81–92, 40 acres, 16th June, 1881; additional conditional purchase No. 81–107, 40 acres, 23rd June, 1881; additional conditional purchase No. 81–128, 40 acres, 15th September, 1881; additional conditional purchase No. 81–297, 40 acres, 22nd September, 1881; additional conditional purchase No. 81–319, 125¾ acres, 1st December, 1881; additional conditional purchase No. 81–440, and the question of compliance with the conditions of improvements thereon under above Act, came before the Local Land Board at Lismore, in the Colony of New South Wales, for decision and adjudication: I being the said conditional purchaser and a party to such proceedings, and the said Board, after having inquired into the premises, decided that, on the 326 acres comprised in the additional conditional purchases of 1881, there were not 10s. worth of improvements on or for them, either within the five years required by law or even many years after, and recommended the conditional purchases

purchases for forfeiture. And whereas I am dissatisfied with such decision, and intend to appeal therefrom to the Minister. These are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal. And the grounds of such appeal are annexed.

JOHN HARRISON.

Received the sum of £10 referred to above.

B. S. LEVICK,
Clerk-in-Charge.

Grafton, 14th December, 1887.

Grounds of appeal:—

I appeal against the decision of the Local Land Board that, on the 326 acres comprised in my additional conditional purchase of 1881, there were never 10s. worth of improvements on or for them either in the five years required by law or even many months after. The grounds of my appeal are as follows:—

1. The aggregate area of my conditional purchases is 640 acres, and at the date of inspection, 5th July, 1887, also time of inquiry, 22nd November, 1887, the amount of improvements required was as follows (40 acres, 19th February, 1874, portion 11; 40 acres, 11th January, 1887, portion 28), complete certificates of conformity of residence and improvements having been received by selector, improvements valued £60.

40 acres, 9th June, 1881; 40 acres, 16th June, 1881; 40 acres, 23rd June, 1881; 40 acres, 15th September, 1881; 40 acres, 22nd September, 1881; 125¾ acres, 1st December, 1881; in all, 325¾ acres, on which 10s. per acre improvements were due	£162	17	6
234¼ acres, 30th November, 1882, required 6s. per acre	70	5	6
640 acres.	£233	3	0

The evidence of Inspector West shows that improvements to the value of £229 5s. had been made, and not including the improvements (£60) made to complete first and second selections, of which I hold certificate.

I therefore submit that the decision of the Lismore Land Board, that six portions, comprising 325¾ acres, should be forfeited, is unjust and quite at variance with the evidence, more especially as I deposed in my evidence that I had made further valuable improvements after date of inspection and previous to the date of inquiry to the value of £61. Thus making the total amount of improvements on or for the 560 acres as follows:—

	£	s.	d.
Improvements as per Inspector West's report, including allowance of £16 and £4 by the Board	229	5	0
Improvements after inspection and previous to inquiry	61	0	0
Improvements omitted by the Inspector which were made before date of inspection...	16	0	0
Total amount on or for the 560 acres	£306	5	0
Amount of improvements as per Inspector Trollope's report on two first selections...	60	0	0
Total improvements—640 acres	£366	5	0

The improvements omitted in Inspector's report were ringbarking (£6), land sown with clover seed (£10). These, also improvements, can be verified by further inspection.

That some of portions comprised in the 325¾ acres recommended for forfeiture actually had a surplus of improvements over and above the 10s. per acre, viz., portion 65 of 40 acres and portion 68 of 40 acres. Also, I had placed on the original conditional purchase (40 acres, No. 11) improvements to the value of £29, and as these improvements were additional to those originally placed on first two conditional purchases to complete them, I therefore hold this £29 is a surplus available for deficient selections.

That on portion 85 (234¼ acres of 30th November, 1882) I had valuable improvements to the amount of £100 16s., and that as, at the time of inspection and inquiry, the five years term for this portion had not expired, it had a surplus of less 234¼ acres at 6s., £100 16s. — £70 5s. 6d., leaving £30 10s. 6d. available for deficient selections, thus leaving, at the time of Inspector's visit and according to his statement, a deficit of £3 18s., but which is more than covered by improvements omitted, value £16. Also, that I completed before the expiration of the five years on the last conditional purchase further improvements to the value of £61.

That on the 28th day of November I applied to the Land Board to reopen the case on the grounds that I omitted in my evidence certain valuable improvements, to wit, 40 acres of ringbarking and about 20 acres of land sown with clover seed. Such application was supplemented by declaration. The Board decided that they would reopen the case providing the Board had the power, and recommended me to apply to the Minister for that purpose, and intimated that the Board would not oppose such a course.

JOHN HARRISON.

No. 52.

The Chairman Land Board, Grafton, to The Under Secretary for Lands.

MEMO.—

Special attention is drawn to the grounds of appeal formulated by Mr. Harrison, or rather by his solicitor, Mr. Allingham, and which I leave to speak for itself, along with the statement of facts on which the Board founded its recommendation.

I will only say that, perceiving that the case was bound to be a most serious one, and not being satisfied with the reports already in, I specially instructed Inspector West to make a more thorough inspection, not only of the improvements on the additional conditional purchases of 1881, but on the original conditional purchase and additional conditional purchase already approved of; and I warned Mr. West that, as the case was likely to be serious, he must be prepared to support his evidence in Court by facts

facts that could not be impeached. I made the same statement to him personally. The Inspector acted in the fairest possible manner. He called on Mr. Harrison, read to him the stringent and imperative instructions he received, and under the circumstances proposed that they should both go and together examine and determine the value of all the improvements. This was done. Inspector West left a copy of the improvements, with their value as agreed on between himself and Mr. Harrison on the ground, with Mr. Harrison, and Mr. Harrison admits in his evidence that this valuation was a fair one; but when he found that his claim to a surplus from conditional purchase 82–136, of 234 acres, would not be allowed, he no longer acquiesced in the improvements as examined by Mr. West and himself; but two days after the Board concluded the case, he went to Mr. Allingham, a solicitor, in Lismore, and that gentleman wanted the Board to reopen the case, as Mr. Harrison was prepared to prove the existence of much more improvements. Anything more barefaced I never saw. My colleagues are strong personal friends of Mr. Harrison, but were so disgusted with the unscrupulousness displayed that it was determined not to reopen the case at Lismore, but leave the parties concerned to their remedy by appeal.

WM. B.,
Chairman, Local Land Board.

Grafton, 9/1/88.

Appeal by John Harrison against the proposed forfeiture of his conditional purchases 81-92, 81-107, 81-128, 81-319, and 81-440, Lismore.—In opposition to the statement made as grounds of appeal by Harrison, the Chairman has forwarded an explanation of the reasons for the Board's decision. The appellant asks that the case may be referred back for a rehearing.—F.H.W., 29/2/88.

Harrison, care of E. W. Allingham, Grafton, informed that Court will be held on 5th proximo.—F.H.W., 15/2/88. Appellant informed of decision of Court.—J.P., 16/3/88.

No. 53.

The Under Secretary for Lands to Mr. John Harrison.

Notice of date of holding of Appeal Court.

[Crown Lands Act of 1884—Part II., section 18.]

Department of Lands, Sydney, 15 February, 1888.

On the 14th day of December, 1887, a notice of appeal was lodged by you against the proposed forfeiture of applications made by you for additional conditional purchases, tendered at the Lands Office, at Lismore on the 16th June, 23rd June, 15th September, 22nd September, and 1st December, 1881. This is, therefore to give you notice that the said appeal will be dealt with by the Minister for Lands, at the Department of Lands, Sydney, at 11 o'clock in the forenoon, on the 5th day of March, 1888.

F. H. WILSON
(For the Under Secretary).

No. 55.

Decision of Minister.

[Crown Lands Act of 1884—Part II., section 18.]

Decision of Minister on a case of appeal from Local Land Board.

New South Wales, } to wit. }

Whereas on the twenty-second day of November, 1887, a certain matter wherein the fulfilment of the condition of improvements by John Harrison, on his conditional purchases 81–92, 81–107, 81–128, 81–297, 81–319, and 81–440, Lismore, came on for investigation and adjudication before the Local Land Board at Lismore, Colony of New South Wales, and the said Board decided that all these conditional purchases be forfeited, and John Harrison, one of the parties thereto, appealed from such decision to the Minister, and the said matter having this sixth day of March, 1888, come before me, Thomas Garrett, on appeal, I, being

the

the Minister charged with the administration of the Crown Lands Act of 1884, having heard the said appeal in open Court, do hereby decide as follows:—I uphold the appeal as regards conditional purchases 81–92 and 81–297, and dismiss it as regards conditional purchases 81–107, 81–128, 81–319, and 81–440; deposit to be refunded.

Given under my hand at the Department of Lands, Sydney, this sixth day of March, 1888.

THOS. GARRETT,
Minister.

[*Enclosure.*]

John Harrison.

APPEAL against the proposed forfeiture of his conditional purchases 81–92, 81–107, 81–128, 81–297, 81–319, and 81–440, Lismore.

Mr. Allingham appeared on behalf of the appellant.

Mr. Allingham asked to have the case referred back for reconsideration, as he asserted that there were considerably more improvements on the land than allowed by the Board, but the Minister refused to do so.

The Minister gave the following decision in the case:—

The improvements on the original conditional purchase 74–2,138, portion 11, and the first additional conditional purchase 77–11, portion 28, which were taken into consideration when the certificates were issued, did not exist at the date when Inspector West inspected the whole series of conditional purchases, in July last, and this was admitted by the appellant, and, therefore, these improvements could not be taken into consideration in connection with the additional conditional purchases now in question. £25 worth of improvements since then placed upon portion 11 has been allowed for.

The valuation of improvements upon the other conditional purchases (those now in question) only amounted to £122 6s., including the £25 replaced on portion 11. This is £40 less than the required amount for the whole series.

As the improvements on portion 84 (conditional purchase 82–136) are certainly not more than sufficient to meet the requirements of the law with regard to it, they cannot be considered in connection with the question as to whether the other conditional purchases are sufficiently improved, as that selection is not now under investigation.

Dealing with the several additional conditional purchases separately, I find from the evidence of the Inspector, with which the conditional purchaser agreed, and which I intend to accept, that the additional conditional purchases of portions 65 and 68 may stand good as being sufficiently improved.

The other portions, 66, 67, 69, and 70, are insufficiently improved, even after allowing for the fencing of portion 11, which, it is stated by the appellant, Harrison, were missed by the Inspector when valuing the improvements.

I therefore uphold the appeal as regards portions 65, conditional purchase 81–92 and 68, conditional purchase 81–297, and dismiss it as regards portions 66, conditional purchase 81–107; 67, conditional purchase 81–128; 69, conditional purchase 81–319, and 70, conditional purchase 81–440.

Deposit to be refunded.

6th March, 1888. B. J. ATTERBURY.

No. 56.

Thomas Ewing, Esq., M.P., to The Under Secretary for Lands.

Sir, Parliament House, 10 March, 1888.

I shall be glad if you will kindly delay any further action in the case of conditional purchase land, John Harrison, county of Rous, which was before your last Appeal Court, until I have an opportunity of seeing you. I shall be out of town for a few days, but will call immediately on my return.

I have, &c.,
THOS. EWING.

Mr. Ewing has seen me. The necessary action to be completed.—C.O., 16/3/88.

No. 57.

Thomas Ewing, Esq., M.P., to The Minister for Lands.

Sir, Parliament House, 21 March, 1888.

I have the honor to request that any further action in case of John Harrison, of Lismore, declared forfeited before last Appeal Court, may be for the present suspended.

It is my intention to call for the papers and further to endeavour to procure a Select Committee to inquire into the case.

Under these circumstances I feel sure you will have no objection to suspend further action.

I have, &c.,
THOS. EWING.

If not gazetted perhaps forfeiture may be held over for two months to allow time for the action indicated by Mr. Ewing.—S.F., 21/3/88. Let forfeiture be notified at once.—T.G., 3/5/88.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

VOTES No. 44. FRIDAY, 16 DECEMBER, 1887.

14. PETITION OF GEORGE MATCHAM PITT, JUNIOR:—Mr. Bowman moved, pursuant to Notice,—
(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon the Petition presented to this House on the 15th November, 1887, from George Matcham Pitt, junior, with respect to the losses sustained by him in connection with his pastoral holdings.
(2.) That such Committee consist of Mr. Garrett, Mr. O'Connor, Mr. See, Mr. Black, Mr. Lyne, Mr. Teece, Mr. Day, Mr. Levien, Mr. Tonkin, and the Mover.
Question put and passed.

VOTES No. 83. THURSDAY, 26 APRIL, 1888.

10. PETITION OF GEORGE MATCHAM PITT, JUNIOR:—Mr. Bowman, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose consideration and report this subject was referred on 16th December, 1887.
Ordered to be printed.

PETITION OF GEORGE MATCHAM PITT, JUNIOR.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly appointed on the 16th December, 1887, "*with power to send for persons and papers, to inquire into "and report upon the Petition presented to this House on the 15th November,* "1887, *from George Matcham Pitt, Junior, with respect to the losses sustained "by him in connection with his pastoral holdings*"—have agreed to the following Report:—

Your Committee, having examined the witnesses named in the list,* (whose evidence will be found appended hereto) find as follows:—

* See list, p. 6.

(1.) That when the "Land Act of 1884" was passed, George Matcham Pitt, Junior, was the owner of a pastoral holding known as Currugundi, situate in the district of the Gwydir.

(2.) That in accordance with the said Act, the said George Matcham Pitt applied for a division of his run, and the same was duly divided, and the southern half (containing about 28,000 acres), was Gazetted as his leasehold area.

(3.) That at the time of the said division about 3,000 head of cattle were depasturing on a portion of the said leasehold area, known as Warren South Paddock.

(4.) That prior to the said division applications were made by the conditional purchasers on the said leasehold area for conditional leases and conversion of leases of selections, and the same were heard before the Land Board at Moree; and that at such hearing the said George Matcham Pitt objected to the applications being allowed, on the ground that the division of the run had been granted and gazetted according to law, but the said Land Board granted the said conditional leases notwithstanding such objection.

(5.) That the decision of the said Land Board allotted about 16,000 acres to the said conditional purchasers, leaving the said George Matcham Pitt only about 12,000 acres, consisting of strips and blocks scattered over the whole area of the said leasehold.

(6.) That, owing to the decision of the said Land Board, the said conditional purchasers depastured on the said leasehold area large herds of cattle and horses, in addition to their own stock, which consumed the grass and water, and compelled the said George Matcham Pitt to remove the whole of his cattle to another station, Bunaba South, where there was little or no grass, and in consequence about 600 head died, and he afterwards was obliged to sell the remainder of the herd at a price below their value.

(7.) That the said George Matcham Pitt appealed to the Minister against the decision of the said Land Board, and ultimately a special case was submitted to the Supreme Court, and the said Court reversed the decision of the said Land Board.

(8.) That subsequent to the hearing of the case by the Supreme Court, and prior to its giving judgment, the Parliament passed a Validating Act legalizing applications for leases, thus making the judgment of the Court inoperative, and depriving the said George Matcham Pitt, of any legal rights he had.

(9.) That owing to litigation, loss, and forced sale of stock, and being virtually dispossessed of his leasehold, the said George Matcham Pitt has suffered great hardship and large pecuniary loss.

Your Committee, therefore, recommend the case of the said George Matcham Pitt to favourable consideration.

ALEXANDER BOWMAN,
Chairman.

No. 3 Committee Room,
Sydney, 26th April, 1888.

PROCEEDINGS OF THE COMMITTEE.

TUESDAY, 6 *MARCH*, 1888

MEMBERS PRESENT:—

Mr. Bowman, | Mr. Day.

In the absence of a quorum, the meeting called for this day lapsed.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE

PETITION OF GEORGE MATCHAM PITT, JUNIOR.

THURSDAY, 5 APRIL, 1888.

Present:—

MR. BOWMAN, MR. DAY, MR. TEECE, MR. TONKIN.

A. BOWMAN, ESQ., IN THE CHAIR.

George Matcham Pitt, Junior, Esq., called in, sworn, and examined:—

G. M. Pitt, jun., Esq. 5 April, 1888.

1. *Chairman.*] Are you the owner of a run called Bunarba North, and another called Currugundi, situated on the Big River? Yes.

2. Will you state to the Committee what your petition relates to? . There is a printed copy of the petition before Parliament.

3. Will you inform the Committee of the circumstances of the case? I made application for the division of my run in the usual way. I held the Currugundi run at that time, and also the Bunarba run. They are situated about 15 miles apart. They were divided by the Department. The petition states that I had 2,000 head of cattle on the runs, but I had about 3,000 head depastured there altogether. The division was made by the Department, and without any reference to me as to which half I would have. It was intimated to me shortly afterwards that the northern half was to be gazetted to me. I went and saw Mr. Farnell, who was then Minister for Lands, and he said that the decision had been arrived at in his absence by Mr. Wright. He conferred with Mr. Wright and the Under Secretary on the subject, and, there being no objection, the southern half was gazetted to me. At that time we were suffering from a drought, but there were grass and water on the Currugundi run; but the Bunarba run had no grass, but plenty of water. Soon after the Currugundi run was divided, applications, which apparently had been previously made, were brought forward for conditional leases out of my leasehold area. These applications were considered by the Moree Land Board, and the Board granted them. At the time that the run was divided I estimated that there were 28,000 acres in the leasehold area, and 28,000 acres in the resumed area. I appealed against the decision of the Land Board, paying down £10 in each case.

4. *Mr. Day.*] What was the decision of the Board? They granted the leases, and I appealed. Mr. Abbott was Minister for Lands at the time, and I went to him and asked him whether he could not withdraw the resumed area from conditional sale until those applications were finally determined, because, in the event of the resumed area being selected, and my losing the leasehold, I should be entirely ruined. Mr. Abbott wrote me an official letter shortly afterwards, in which he declined to interfere. He shortly afterwards went out of office, and the matter came before Mr. Spring. I was heard by counsel, and the selectors were also represented by counsel. The counsel on behalf of the selectors raised a technical objection to the effect that I had no *locus standi*, inasmuch as the run was in the name of John Towns; but I produced the probate of the will, showing that I was the absolute owner, and was treated as such by the Crown. Mr.

Spring

G. M. Pitt, jun., Esq. 5 April, 1888.

Spring said that he could not take any evidence, and referred the matter to the Moree Board. I knew that the objection was only of a technical character. What was done by the Board I do not know, but the case was sent back to Mr. Copeland, the Minister for Lands; and Mr. Copeland had the case argued, and stated that he would waive the technical question, but he did not feel himself competent to decide the point whether the leases could be legally granted on the leasehold area. Mr. Copeland said, "I will make one of your cases a test case, and have it tried in the Supreme Court." The case of Pitt *versus* Parry came on subsequently, and I was called upon to defend myself. I employed counsel, and the case was heard by Chief Justice Martin and Judge Innes. We waited some time for a decision, but Sir James Martin died without leaving a written judgment. The Crown therefore ordered that the cases should be heard over again before the Judges in Banco, and it came before Chief Justice Darley, Mr. Justice Fawcett, and Mr. Justice Innes, and it was argued by the ablest counsel available. After the trial we waited for some time for the decision, but about ten days before the Judges gave their decision an Act was passed by Parliament validating the leases taken up on leasehold areas, as I understand, without compensation. The Court, ten days afterwards, unanimously gave a decision in my favour. They decided that the Moree Land Board was wrong, and that the land was mine, and they awarded me costs against the Crown, which was thought rather unusual. The Validating Act, however, left me in a very awkward position. It made the decision of the Court wholly inoperative. In the meantime I was being devoured by herds of cattle and sheep belonging to the selectors. One man had 4,000 rams from Queensland on the run. I had to sell a few of the strongest cattle—500 or 600. The selectors' stock ate up the grass and drank up the water. They had about 12,000 head of stock on the run. I took my cattle back to Bunarba, where there was plenty of water, but no grass, and there 600 or 800 of them died. I brought them back to save them, but I had to take them back again to Bunarba; but fortunately a few thunder-storms came on, which saved them. Seeing that I was ruined, I sold the cattle at £3 a head. They were magnificent cattle, 800 of the cows being in calf by Mr. Lomax's bulls. I lost the whole of my herd. When the Moree Board granted leases to the selectors I had issued writs for £500 and £1,000 each. The Validating Act had a saving clause at the end which said that the Act should not take effect in any cause of action commenced prior to the 1st of January. I took counsel's opinion on that clause, and from what I could gather I had power to sue them for trespass, but could not recover the land. I thought that I was placed in a peculiar position, having power to sue when the land did not belong to me. I have heard it said since that there was a doubt whether the Act does cover the conditional leases. I have lost all my run, but I could not see that I had any case against the Crown. I was informed by counsel that Parliament had, through the Validating Act, put me in this unfortunate position, and that it was only to Parliament that I could appeal for redress. The run was a very valuable one, subject to periodical overflows from the Big River. It was rich fattening land, as may be imagined from the fact that it carried 12,000 stock in a drought. It contains a great deal of sag, and sag country is very rich. If I had had my herd now I should have been independent. The land which has been left is simply composed of strips, which cannot be occupied. At the time of the division of the run I employed a land agent, Mr. Bloomfield, of the firm of Bloomfield & Dixson, and he informed me that in preparing the plans for the division no notice was taken of any lands, except such as were alienated.

5. *Mr. Day.*] You say that the two runs are 15 miles apart? Yes. When I found that I was placed in this awkward position I sold the Bunarba run.

6. What did you do with the Currugundi station? I have it still. I am liable for the rent, but I could not pay it. I forgot to mention that I have expended £4,000 or £5,000 on the run in searching for water.

7. Do you live on the run? My manager is there.

8. How many stock are there on it now? About 250. When I found that the Validating Act had taken the land away, I did not want to press the selectors. I had no desire to crush them. I knew that they had as much right to live as myself. An error had been committed, and I arranged to settle the actions that had been commenced. Some paid £20, some £30, some £50 into the Court, and I accepted the money as a nominal amount, to put me in a position to appeal to Parliament. I may state how this error arose. It was an error committed in the Department. The division of the run was effected in the Sydney Office, and they took no notice of applications for conditional leases.

9. Did you send in a map showing the division of the run? Yes; but they did not accept my division. They made their own, and I accepted it. Then it was found out that these leases were applied for.

10. Did the Department divide the run in the way that you wanted? No; not on the lines on which I divided it.

11. Did they nearly? Yes.

12. In sending in the application did you give all the alienated land? Yes; but I did not give the applications for conditional leases.

13. From the 1st January, 1885, there was no such thing as selection allowed until the date of the gazetting of the division of your run; how then did these men get on to it in the meantime? They never left it.

14. Were these conditional purchasers on the land before the Land Bill of 1884 came into operation? Yes; but not with their herds of sheep and cattle.

15. Were these selectors on the land previous to the Land Act of 1884 coming into operation? Yes; they were on the run.

16. Had they made application for these conditional leases previous to the Act coming into operation? They had their preleases under the old Act of 1880.

17. Then why did you not send in your application marking off the preleases? They were not on the maps.

18. Did you know that they existed? I knew that they had a prelease, but I did as the other lessees did, I presume. I furnished the plans and the matter was carried out by the land agent, who was instructed that the only lands to be deducted were to be the alienated lands.

19. Was the land in their occupation previous to the Act of 1884 coming into operation? Yes; I know they had their preleases.

20. Did you think that the Act of 1884 took them away? I was ignorant on that point.

21. Were you not aware that the clause in the Act allows the conditional purchaser to convert his prelease under the Act of 1884? Yes; but the Crown made their own division of the run.

22. Do you not know that you have to send in a map, and to show on it the whole of the land in the occupation of any one else besides yourself? Yes; whatever was necessary was done. The plan is in the Department.

23.

G. M. Pitt jun., Esq. 5 April, 1888.

23. You did not chart on your map any preleases? I could not tell you. The land agent carried the matter out.
24. Were you aware that it was imperative on the part of the lessee to send in a map of the runs when he applied for a division of the run? I was.
25. Were you aware that you had to chart on the map the whole of the land on the run in the occupation of any one else? No; only the alienated land.
26. Therefore you did not show the preleases belonging to the selectors on the run? The plans were in the office.
27. *Mr. Teece.*] What area of land granted as conditional leases in the leasehold area was held under prelease; was it the whole of that 16,000 acres? I think a good deal of it was. I do not think that it all was.
28. What is the date of the division of your run? The 11th July.
29. *Mr. Day.*] You are aware that there were no conditional purchases allowed and no preleases, in dealing with the Crown lands, from January 1st to the 11th July, 1885? Yes. All I am aware of is that under the law they had ninety days to make application for conditional leases, or the conversion of leases. If the selectors had made application for conditional leases, or the conversion of leases, that fact was not known at the Sydney office. If known at all, it must only have been known at Moree. The judges particularly noted that the mere fact of both applications going in at one time did not destroy the lessees' right, when the case was finally dealt with by the Department, that nothing could be granted to them afterwards.

Mr. William Strong, called in, sworn, and examined:—

Mr. W. Strong. 5 April, 1888.

30. *Chairman.*] Where do you live? At Currugundi.
31. What are you? Stockman and manager for Mr. G. M. Pitt.
32. How long have you been living at Currugundi? About eight years.
33. When the Moree Land Board granted the selectors their conditional leases, how many cattle had Mr. Pitt on the run? About 2,500.
34. What did the selectors do after the Moree Land Board granted the conditional purchases? They took possession of the land, and stocked it.
35. About how many stock did they put on it? I could not tell you exactly. They had it pretty heavily stocked.
36. With what sort of stock? Sheep, cattle, and horses.
37. Were there any rams put on to it? Yes; a lot of rams belonging to Mr. Fisher.
38. How many? One man had about 1,000.*
39. How many were there altogether? With sheep and horses and cattle there must have been about 6,000 or 7,000.
40. After the stock were put on by the selectors, what became of Mr. Pitt's stock? He had to shift them to another place, where there was nothing for them to eat, although there was water.
41. What did he do after that? He had to sell them, because he could not bring them back to Currugundi. He could not keep them from trespassing, and he had to sell them at a sacrifice.
42. Did he sell the lot? All except 200 or 300.
43. How many did he sell? About 2,000.
44. And he had only about 2,500 on the run? He sold about 2,000 or 2,200.
45. Do you know what he got for them? £3 5s. a head.
46. Did any of them die? Yes; a lot died before he sold them.
47. How many? A couple or 300.
48. Was anybody else looking after the run besides you? Yes.
49. If the selectors had not put their stock on the run would these cattle have had to be removed? No.
50. And it was on account of the selectors that they had to be taken away? Yes; they ate it right out.
51. *Mr. Day.*] Was this one paddock, or two, or three, that the selectors were in? One paddock.
52. What is the number of acres in that paddock? I could not tell you. It is about 9 miles long and 4 miles wide at one end, and 2½ or 3 miles wide at the other end.
53. Do you know how much was left in the paddock belonging to Mr. Pitt after the selectors came? Not much. It was cut up into small pieces, and it was of no use to Mr. Pitt. It was not worth fencing, and you could not keep the stock from trespassing on the selectors' land.
54. *Chairman.*] Before the Moree Board granted the selectors' conditional leases, how much was there belonging to Mr. Pitt? I could not say what number of acres.
55. *Mr. Day.*] About how many acres? There must have been over 20,000 acres belonging to Mr. Pitt.
56. Were the 2,500 head of cattle in that paddock? Yes; they were in the Warren paddock.
57. There was no stock on the Currugundi? No.
58. On the map there is shown the Big Leather watercourse, which passes through the run, was that dry? Yes.
59. How did the selectors get water for their stock? Some of them had wells, but the principal part of them had to go to Mr. Pitt's tank.
60. Did he allow that? I gave them notice to keep away, but they would not. I tried to keep them away from the tank, but I could not.
61. How long were they there before they brought the stock? For some time before that.
62. How long? Some of them might have been there nearly twelve months before. They took in a large number of stock when there was no grass anywhere else. They took in stock on keep.
63. Did they make any improvements during that time? Only a few wells.
64. Did they put up any houses? No.
65. Did they live in tents? Yes.
66. And they commenced to construct wells? Yes.
67. Did they get water? Yes. There is only one who has a house there now, that is Reuben Parry.
68. When did the selectors come on the Warren paddock? I think it was after 1874 that some of them came.

69.

---

* Note *(on revision)*:—The Parrys had about 4,000 rams of Mr. Fisher's.

Mr. W. Strong. 5 April, 1888.

69. How long is it since the last of them came on? It would be in 1884. I think Miller was the last.
70. What was the size of his selection? 640 acres.
71. Did the selectors who were there so long before 1884 interfere with the stock? No.
72. Did Mr. Pitt's stock run where the selectors' were? Yes. I think they made an agreement for the stock to run on the land for a while.
73. Were these old selections fenced in? No.
74. Had they water? Two of them had wells, and one of them had a little tank.
75. What is the depth of the wells? One is sunk 140 feet, and they have bored 20 feet further.
76. Has any fencing been done since? No; none of them are fenced in yet. Some of the stuff is there; but the country has been flooded.
77. They are all trespassing on one another's land? Yes.
78. *Chairman.*] What kind of cattle were those that died? Cows and bullocks.
79. Were they well bred? Yes; very well bred.
80. Were they in calf? Yes; by good bulls belonging to Mr. Lomax. About 800 cows were in calf, and a good many of the bullocks would have been fat if they could have remained.

TUESDAY, 9 *APRIL*, 1888.

Present:—

MR. DAY, | MR. LEVIEN.

A. BOWMAN, ESQ., IN THE CHAIR.

Charles Nicholson Jewel Oliver, Esq., Under Secretary for Lands, called in, sworn, and examined:—

C. N. J. Oliver, Esq. 9 April, 1888.

81. [*Chairman.*] I believe that you are Under Secretary for Lands? Yes.
82. [*Mr. Levien.*] Do you produce the map containing the division of the run? Yes. The plan which I put in is a plan of Currugundi station as submitted by Mr. Pitt to the Department of Lands, for the division of the run in accordance with the Crown Lands Act of 1884. The line of division proposed by Mr. Pitt was the one marked yellow, on the plan; that proposed by the Department of Lands is that shown in blue etching.
83. Which is the leasehold area, and which is the resumed area? Mr. Pitt desired to have the southern portion of the run as the leasehold area, and the northern portion as the resumed area. The Department objected, on the ground that the southern portion was where a large number of selectors were, and where, in all probability, selection would take place; and, as far as I was aware, the country on both sides of the line was equally good. It was determined, therefore, that Mr. Pitt should have the northern portion of the run, but that decision was appealed against by Mr. Pitt on more than one occasion, and much influence was brought to bear to have the division altered. I reported more than once against the alteration, but ultimately Mr. Farnell decided to grant Mr. Pitt's request, and the decision was reversed, making the northern portion the resumed area. If that had not been done no complications such as since have arisen would have taken place. Mr. Pitt ultimately got the southern portion of the run as the leasehold.
84. Does this plan show any of those selections on the leasehold area? If I am right, the conditional leases to which you refer were taken up under the 54th section; in the division of the run conditional leases taken up under the 52nd section were allowed for, but there was no consideration extended to applications made under the 54th clause.
85. *Mr. Day.*] Were you aware at the time of the division that applications were made for conditional leases? No; I was not aware that applications were made under the 54th section.
86. *Mr. Levien.*] Were they made after or before the division of the run? Before the division of the run. The law required them to be made within ninety days from the 1st January, 1885. They were made to the land agent, who sent them to the Land Board. The Land Board, at the time of the division of the run, had not dealt with them, therefore the applications for conditional leases under the 54th section were not taken into consideration.
87. *Mr Levien.*] So that Mr. Pitt and the Department knew nothing of the applications made under the 54th section of the leasehold area? No.
88. And as a matter of fact these applications could be made without the runholder knowing anything about it? They could, possibly. The Crown Lands Act of 1884 gave all holders of conditional purchases under the repealed Act the right of converting their conditional leases under the 52nd section, or the right of obtaining leases under the 54th, with a right of purchase. The difference between the 52nd and the 54th sections is that the 52nd section conveyed no right of purchase, but the 54th conveyed the right of purchase on condition of residence for five years. Applications were made under the 52nd section: I think I am right in saying that these were shown on the plan. But inasmuch as the applications under the 54th section were made to the land agent, and by him sent to the Board, and had not been dealt with when the runs were divided, they were not taken into consideration. When the division of the runs was made—and I may state that I do not know that it applies to this case, but the majority of cases—it came out that there was almost an equality of leases under the 54th section on each side of the dividing line.
89. *Mr Day.*] Do you remember the date of the applications for the conditional leases? No; they must have been made within ninety days of the 1st January, 1885.
90. Are you aware that under the Act of 1884 it was the duty of the land agent, when application was lodged, to send notice to the lessee of application for land on his run? I forget whether it is in the present law; it was in the repealed Act.*
91. *Mr. Levien.*] Have you the date of that application? Mr. Pitt's application is dated 28th February, 1885. It appears to have been received in the Department on the 30th April, 1885. I do not know why it was dated 28th February, and was not received in the Department until the 30th April.

92.

* NOTE (*on revision*):—No notice is required under the present law.—C.O.

C. N. J. Oliver, Esq. 9 April, 1888.

92. Can you tell us the date of the Minister's approval of the division? The division of the run was first approved of on the 18th May, 1885. That division was again confirmed on the 18th June, 1885. On the 9th July, 1885, Mr. Farnell wrote this minute: "After consultation with Mr. Wright, he concurred that the division decided upon shall be reversed." The division was then notified in the first batch of divisions under the Act on the 11th July, 1885. It is from that date that the division takes effect.
93. *Mr. Levien.*] When this was notified in the *Gazette* of the 11th July, 1885, could you tell me whether the conditional leases on the leasehold area then had been approved of, or had been granted to the applicants? I could not say positively; I was not prepared with this question when I came here. I can say from my general knowledge that they were not.
94. Was it not the general impression of all the runholders, and of the Department, that if the run was gazetted as divided, and no applications were approved of on the leasehold area, the whole went to the squatter? No.
95. What was the impression? All knew that the division was subject to any applications that were made under the 54th section. That was acknowledged by the Department, because if the division of the runs had been delayed until the applications under the 54th section were dealt with, there would have been no runs divided at the present date. That was known to the Department, and I believe the lessees knew it also.
96. The opinion of the Supreme Court was against that? The opinion of the Supreme Court was that, if the run was first divided, it would destroy the rights of the applicants under the 54th section, but the Government brought in a Validating Bill to legalize the lease applications, and it became law.
97. You are aware that Mr. Copeland, when Minister for Lands, submitted the case of Pitt *versus* Parry to the decision of the Supreme Court? Yes.
98. And that the Court decided in favour of Mr. Pitt? Yes; I believe so.
99. That is to say that they decided that those persons who had appealed during the time and after the gazetting of the division of the run had no right to occupy those lands? Yes; because the division of the run had taken place before these applications were granted. The Supreme Court's decision was on the 25th July, the Bill was assented to on the 18th May. There is a saving clause in the Bill which preserved all the rights with regard to actions for trespass, but does not destroy the title to the land.
100. Then the decision of the Court was diametrically opposed to the opinion of the Department? To the action of the Department.
101. Or, in other words, the Court decided that Mr. Pitt's contention was right, that he had the right to the land, as against the conditional lessees? Yes. Of course that was the opinion of the Department, or the Bill would not have been introduced. The opinion of the Department is entirely in accord with the opinion of the Court, but the action of the Department was not in accordance with law, and the reason that the runs were divided without regard to whether the applications for conditional leases, under the 54th section were dealt with, was that if the Department had waited for the completion of all that was necessary to be done in connection with the thousands of applications for conditional leases that were sent in, the runs would not have been divided up to the present day.
102. You are of opinion that Mr. Pitt must suffer considerable loss? Yes; he must lose a considerable area. Of course I think Mr. Pitt is entirely responsible for the position he occupies, because of his insisting upon a division of the run, which the Department said he should not have.
103. That was a difference of opinion? Our opinion was based on this, that that was the side of the run which should be reserved for selection.
104. But the opinion of the Minister upheld Mr. Pitt's application ultimately? Yes; he ultimately allowed him to take that part of the run which the Department said should be reserved for selection.
105. That was the decision of the Minister? In consequence of the persistence of Mr. Pitt.
106. *Mr. Day.*] If you had been aware that these applications would have been made, would your Charting Branch have taken them into consideration when the runs were divided? If we had been in a position to take them into consideration we should have done so, but, in consequence of having no particulars of these applications, it was impossible to take them into consideration, and it was impossible to say what applications would be complied with, and what would not; and if we had waited until they were dealt with the division of the runs would have been entirely suspended for an indefinite period. Applications under the 54th section of the Act are now being granted.
107. If you had known that these applications had been made to convert these preleases and to obtain conditional leases on the run, would you have taken the matter into consideration in dividing the run? I do not think that could have been taken into consideration, and the only way to meet the difficulty would have been to suspend the division of the runs. If the Department had allowed for every application the division of the runs throughout the Colony would have been erroneous, because a large majority of these applications were ultimately refused. They were put forward for the purpose of temporarily covering the land. I think I am bound to say that they could not have been taken into consideration at all.
108. Even if you were aware of them? If they had been taken into consideration at all it must have been by the suspension of the division of the runs entirely until the applications had been dealt with by the Local Land Boards.
109. Is it not the duty of the Crown Lands agents to supply particulars of all applications to the Under Secretary? No; they go direct to the Local Land Board.
110. And it is possible that you are not aware of them? As a matter of fact, we were not aware of them.
111. If you had been, you could not have taken notice of them? Speaking generally, I could not say that this applies to this particular run; but under the 54th section it would not have been safe for the Department to treat every application as one which would be granted. Suppose that a number of applications were put in, as was done in some instances, just to cover a certain quantity of land for a time; well, if the Department had ventured to consider them all as good the consequence would have been fatal to the accuracy of the division of the run.
112. How did you intend to get rid of them after dividing the run with these applications staring you in the face? It was suggested at the time that the applications stood good, and, as a matter of fact, in the majority of cases the number of applications on each side of the line made no appreciable difference in the division. If 2,000 acres were taken up on one side, you generally found that 2,000 acres were applied for on the other. That was found to be the result in the large majority of cases.

C. N. J. Oliver, Esq. 9 April, 1888.

113. Suppose it happened that all the applications for land were on the leasehold area? Then the leasehold, of course, would be deficient, but it is only the duty of the Minister to divide the run as nearly as practicable, and I contend that this has been done in almost every instance. The law does not require an exactly equal division.
114. Suppose the applications had been made on Mr. Pitt's run for 5,000 acres of converted preleases and conditional leases, and all were refused, what would become of that land? He would get it in his leasehold area.
115. One half might be refused and the other half confirmed, and that would make it level? Yes.
116. You are not aware whether they were refused on this run? No.
117. You found it necessary, having got into this difficulty, to bring in a Bill to legalize these selections? The Bill was not brought in to meet this case, but to deal with a number of cases. The result of the action in this particular case, had it not been for the Bill, would have pronounced the law in connection with the whole of this class of leases throughout the Colony, and every one of these, if that action proved successful, which it did, would, in the absence of that Validating Bill, have been illegal. It was to legalize those conditional purchases that the Bill was brought in. It was to protect the interests of all the conditional leaseholders throughout the Colony.
118. Mr. Pitt then would be as ignorant as the head of the Department was about those lessees being on his leasehold area? I presume that he was. Generally, as a matter of fact, the lessee has more speedy information as to what is going on on his run than the Department. His manager is generally watching the applications made at the different land offices, and very often communications reach the Department in reference to applications that we are not aware of.
119. Is it not very likely that he did not know of it when he wanted to change the boundary? I could not say. Mr. Pitt's contention was that all the water was on the south-eastern corner of the run.
120. I think you said that some action was taken in the course of law with regard to this particular case? Yes; the case of Pitt *versus* Parry was tried.
121. Was that before or after the Bill was passed? It was commenced before.
122. Did that Bill preserve the rights of the lessees? It preserved the right to sue for trespass, but did not affect the title to the land.
123. Did it not make provision that any action which had been commenced should not be interfered with? Only as to the right of trespass. The saving clause says:—"Nothing in this Act shall affect any cause or action in respect of which proceedings have been commenced in any Court prior to the 1st January, 1887." I point out that the cause of action is not the title to the land, and it allowed Mr. Pitt to go on with his action and to recover for trespass, but at the same time, by this Act, the title of the land was secured to Parry.
124. What became of that action? I believe it was decided in Mr. Pitt's favour.
125. The result was that he got damages for the loss of the land? He did not recover the land. The result of the action, taken in connection with the Validating Act, was that Mr. Pitt got a verdict for damages, but it did not restore him the land.
126. Then the Court decided that as Mr. Pitt had made his application for the land, and as the division of the run had taken place prior to the dealing with the application for the division of the lease, Mr. Pitt was entitled to the land? Yes.
127. Then the Validating Bill upset it? The Validating Bill was law before the decision of the Court was given; but, in the absence of that Bill, the decision of the Supreme Court, taken subsequently, would have had the effect of restoring to Mr. Pitt the land that he claimed.
128. It was the Validating Bill, then, that prevented him from getting the land back? Yes.

David P. Dickson, Esq., called in, sworn, and examined:—

D. P. Dickson, Esq. 9 April, 1888.

129. *Mr. Day.*] Are you agent for Mr. Pitt with respect to the Currugundi run? Yes.
130. Do you remember the time when you received the plan from Mr. Pitt? No. I got the plan made for Mr. Pitt.
131. How did you find out all the alienated lands and the lands that did not belong to the run? We had all the alienated lands charted in the office.
132. Had you the preleases? No; because they all expired at the end of 1884.
133. Were you aware that clauses 52 and 54 of the Act gave ninety days after the 1st January for application for the leases to be converted, and conditional leases to be applied for? Yes.
134. Did you make inquiries whether applications had been made for conditional leases or for the conversion of preleases on the Currugundi run previous to the division of the run? No.
135. Did you see Mr. Pitt on the subject? Yes.
136. Did you ask him anything about it? I could not say that I did. I sent in a plan to the Minister for Lands according to the Act. We had only to put on the alienations belonging to our run, the Department had to do the rest. The 71st section of the Act says that the lessee shall "mark on such plan the position of all lands held or occupied by him under any tenure other than pastoral lease, and of all improvements upon such holding made by him or of which he claims to be the owner, and shall furnish in the prescribed form a statement of the average grazing capabilities of the holding, the nature and value of the improvements thereon, together with any other information required by the Minister, and the runholder shall divide by a line or lines." The 74th section says, "After receipt by the Minister of any application he shall cause to be marked upon the plan of the pastoral holding all portions of alienated land not already shown thereon within such holding, which part is to be the resumed area and which the pastoral lease; but the Minister, if not satisfied with any proposed division, may require the same to be amended by the runholder until it becomes satisfactory to him, and upon failure of the runholder to make any such division the Minister may determine the dividing line or lines and deal with such holding under the provisions in this Act."
137. *Mr. Levien.*] When you presented the plan to the Minister for the division of the run you were not aware, either directly or indirectly, of any of these applications for conditional leases being made upon the leasehold area. If application was made to the Moree Board you would not know anything about it? No. The map sent in has been altered.
138. *Mr. Day.*] You sent in an application for one-half of the run to be converted into a pastoral holding and the other half into a resumed area? Yes.

139. What answer did you get? The yellow light on the plan was the division I proposed, the one in blue was the one which the Department was willing to accept. D. P. Dickson, Esq.
140. Did they make any difference in the area of the run after the plan went into the office? Yes; they made several alterations on it. 9 April, 1888.
141. Did they plot small portions of land upon it? That, I cannot say.
142. And the only communication you got from the Government was that they did not agree to the division being made at the yellow line—that they proposed to throw more into the resumed area? Yes; and they proposed to give the lessee the north side instead of the south.
143. The Minister had the power to take the northern side for the leasehold area? Yes.
144. And he proposed to do that? Yes.
145. On the very first occasion? Yes.
146. Did you not apply to have the southern portion converted into a pastoral holding? Yes.
147. Was that refused or granted? It was refused at first, but ultimately granted.
148. The Minister proposed to give the northern portion to Mr. Pitt as a pastoral holding? Yes.
149. Then afterwards altered his intention, and decided that the northern portion should be the resumed area, and the southern portion the pastoral holding? Yes.
150. And on the southern portion is where the conditional leases and the preleases were taken up? Yes.
151. Were any taken up on the resumed area? I was not aware that any were taken up there.
152. Were you aware that any conversions were taken up on the pastoral holding? No.
153. *Mr. Levien.*] Did you know that there were any applications at all? I do not know that I could answer that, I do not think that I should know.
154. Is this the map that you sent in? Yes; that is the map that I sent in.
155. Are there any more applications on it? The only way to ascertain that would be to call Mr. Rowley, who charted the map. He could tell you whether the figures on the map are his or whether they are departmental figures.
156. *Mr. Day.*] Had you only one copy? Only one, and we sent that to the Minister.

Mr. William Strong recalled and further examined:—

157. *Mr. Levien.*] You are manager of Mr. Pitt's run? Yes. Mr. W. Strong.
158. Have you read the evidence which you gave at the last meeting of the Committee? Yes.
159. Do you find that you have made some mistakes in that evidence? Yes. 9 April, 1888.
160. And you desire to correct them? Yes.
161. Can you tell me how many rams of Fisher's had Parry Brothers on the run? 4,000.
162. Then it was a mistake when you said that they had only 1,000? Yes; when I came to think about it, I found that I had made a mistake.
163. How long had they those rams there? About six months; and after they left, 3,000 or 4,000 of Jim Duff's were there about two months.
164. How many stock did Parrys have of their own? About 3,000 sheep, besides some horses of their own.
165. How many cattle, sheep, and horses, do you think there were on the leasehold area belonging to the squatters around, excluding Mr. Pitt's? About 10,000, I think.
166. That is from what you could learn? What they told me they had.
167. *Mr. Day.*] Were they on the pastoral holding? They were all over the leasehold.
168. Do you know the difference between the leasehold and the resumed area? They were all over the leasehold down to the tank.
169. How many of Mr. Pitt's cattle died during 1885? About 600.
170. You said in your evidence about 300? Yes. I made two shifts of cattle. Of the first lot which I took 300 died, and about 300 more in the second lot.
171. *Mr. Levien.*] If Mr. Pitt had had his leasehold area intact apart from any conditional lessees whatever, could he have maintained the whole of the stock on the leasehold area? Yes. There would have been plenty of grass, and they would have had no occasion to sell.
172. Then there were 10,000 head of stock on it, exclusive of his own? Yes.
173. And how many had Mr. Pitt? About 1,500.
174. Of course the leasehold area would maintain them? I am sure it would.
175. And he would have had no occasion to sell? No.
176. *Mr. Day.*] Had you an opportunity of seeing the run every day, and riding over it? Yes.
177. Did you notice any other stock dying? Yes; there were odd ones. The rams were only on six months.
178. Did any rams die? Yes; and some forty head of cattle of Wilmot's died.
179. Died of starvation? Yes; some he had on keep died.
180. How many do you suppose belonging to the squatters died? I could not say how many sheep died.
181. Do you know how many cattle Parry had on the run? Parry had no cattle.
182. I mean the whole lot—how many had they on the run? Wilmot, with what cattle he had adjisted and his own, had about 800, Power had 200, Miller had about 50, and Ferguson about 200.
183. Did any of these die? Yes; 25 of Ferguson's died.
184. Were they all mixed together—Pitt's and others? Yes.
185. Were they running on Mr. Pitt's land? Yes, and used to go to Mr. Pitt's land for water. I gave them notice to keep away, and I tried to keep them off, but I could not; they came in the night.
186. Most of those cattle died at Burnaba? Yes.
187. *Chairman.*] Those cattle of Mr. Pitt's died on the run to which he had shifted them? Yes; they were so weak.
188. He shifted them because there was no water left? Yes; no water and no grass left. They drank the tank out.
189. How many thousand head of cattle had Mr. Pitt there when Parry's lot of rams came? At first we had between 2,500 and 3,000.

John Thomas Matcham Pitt, Esq., called in, sworn, and examined:—

J. T. M. Pitt, Esq. 9 April, 1888.

190. *Chairman.*] You are a son of Mr. George M. Pitt? Yes.
191. Were you living upon this station of your father's? Yes; at Currugundi and Burnaba, from the middle of 1884 until about the middle of 1886.
192. Were you there when Parrys took the sheep in of Messrs. Fisher? Yes, the whole time.
193. And when the other selectors took stock in? Yes.
194. How many stock did they take in altogether? Parrys had 4,000 rams of Fisher's there for six months. After that they had 3,000 rams of Duff's three months, besides 3,000 of their own sheep. Wilmot, another selector, had about 1,000 head of cattle and horses mixed, part belonging to Mr. Bucknell, taken on adjistment. Ferguson, another selector, had about 250 head of cattle there continuously. In round numbers, the biggest trespass during the time was about 10,000 sheep, horses, and cattle. That was in the severest part of the drought.
195. Did that include your own stock? No.
196. How many stock had your father? About 1,800 running in the paddock at that time.
197. Had he to shift these on account of the trespasses of other stock? Yes. 1,000 head of cattle were bought out from Bernaba Station in the first instance. That was as many as we could put into the paddock. We could not put more than 1,000 head in the paddock, on account of the selectors trespassing to such an extent. The greater part of those cattle were sold, after which we brought out the remainder.
198. How many? About 1,000 head.
199. You took them to the paddock? Yes.
200. What became of them? Things got so bad in the paddock—the water dried up—that we had to shift them back to Burnaba.
201. Did any of them die? What, with shifting them backwards and forwards, 600 of them must have died during that drought.
202. Did they die on account of the drought, or on account of the selectors' animals eating the grass and drinking the water? Not a hoof would have died if we could have had the paddock.
203. Were a lot of the cattle thorough-bred? They were very well bred. About 800 of the cows were in calf to Mr. Lomax's thorough-bred bulls.
204. I suppose the majority of them died? No; those cows were sold.
205. You do not believe that any would have died if other people's sheep had not been put into the paddock? I am perfectly certain of it.
206. *Mr. Levien.*] If the leasehold area had been kept intact, and without conditional lessees having any right to keep cattle, they would not have died? There would have been sufficient grass and water to maintain the lot.
207. *Mr. Day.*] What year do you refer to now? This was in 1885.
208. Did they all die in 1885? Chiefly in 1885.
209. Was it a very dry season up there? Yes, and before that too.
210. Did any of your neighbours' stock die round there? Not many. On the Midkin run they had several losses of cattle.
211. I suppose this Currugundi run was a very good one? A splendid run.
212. It had grass when other runs had not? Yes. Midkin run was a very good patch of country.
213. How many acres were taken up by conditional lease and converted conditional lease after January? 15,000 odd acres. That was the information that we got from the Land Board.
214. Was that on the leasehold area? That was on the leasehold area.
215. Any on the resumed area? Yes; two blocks on the resumed area. The resumed area was dry country, and two selectors took up each 1,920 acres of conditional lease on the resumed area, besides their 640 acres.
216. Did the selectors keep the cattle and sheep on their own land? No; they ran in common on the paddock.
217. And the stock were all running in one paddock together? Yes.
218. Then you are clearly of opinion that if the cattle and sheep belonging to the selectors had not been brought in in such large numbers your cattle would not have died? I am certain of that; and we should not have had to sell any.
219. Have you any idea of the loss your father sustained through these conditional leases and preleases being taken up and stock belonging to the selectors being turned into the paddock? It simply ruined the run.
220. *Mr. Day.*] Have you considered what loss you sustained? Yes; I should say it was £20,000.
221. Can you give us any information of how you arrived at it? Having to sacrifice 1,500 head of cattle in one lot at £3 a head, having to sell 800 in another lot, and store cattle which could have been fattened, and the deaths of about 600. I reckon the rest is the loss of the run, which was cut into strips and rendered useless.
222. What would the cattle have been worth just as they stood, if the selectors had not come? At that time we should have been able to sell all the bullocks as fat cattle. I think that the least value you could put on them would be £6 a head. There were 800 cows in calf, and we lost their progeny; they were sold at a sacrifice.
223. Then after thorough consideration you believe your father lost £20,000 by the selections being taken up on the land? Yes, I do.
224. What do you think the 28,000 acres were worth without stock? I should think £2 an acre.
225. What division is the Currugundi run in? It is in the Central Division.
226. Then your father had a ten years' lease? Yes.
227. What would you value the ten years' tenure at? I would think it would be worth an income of £2,000 a year. That could be made out of it in ordinary seasons.
228. What do you think it was worth to sell without stock in 1884 and 1885? £10,000 or £12,000.
229. I suppose there is no stock on it now? About 250 head of cattle.
230. Is that as many as it will carry? No; it is all that remains.
231. *Chairman.*] Will the country you have got left carry more than 250 head the way it is cut up? It is all cut into strips. There is only one block that you could make use of, one reserve of 1,280 acres, that would carry about 250 cattle in good seasons.

George

George Matcham Pitt, Junior, Esq., recalled, and further examined:—

G. M. Pitt, jun., Esq. 9 April, 1888.

232. *Mr. Day.*] You are the owner of the Currugundi Station? Yes.
233. Was the run in your name? In my father-in-law's name the late John Towns.
234. In 1884 and 1885, if that run had been cleared of stock and put up for the sale of the ten years' lease that you were entitled to, what would it have been worth? I was offered £6,000 for the Currugundi without stock, and I considered that it was worth £10,000.
235. In what year? In the beginning of 1885. The offer was made through Pitt, Son, & Badgery.
236. That was before the selectors took up the land? Yes.
237. What could you get for that same leasehold now, with the improvements you have got? The improvements I have are scattered. I do not think I could get £500, in fact I do not think I could sell it at all.
238. Have you considered what loss you have sustained in this particular case? I have.
239. And what conclusion have you come to with regard to your loss? It is a loss that is irreparable in many respects. If you only mean what is the amount of money lost I can easily state that. But one loss is the loss of occupation for my sons, who were living there, then there is the loss of the cattle and the loss of the station. If I could have kept those cattle, which I could have done if the leasehold had remained intact, and fattened from 1,000 to 2,000 a year, losing all that, I estimate at the very least calculation that I am at a loss of £20,000.
240. Did you hear the evidence of Mr. Oliver, the Under Secretary for Lands? Yes.
241. Did you hear him say that he objected to the southern half being converted into a pastoral holding? Yes.
242. That he objected to it several times by minutes on the papers? Yes.
243. And the Minister, against his opinion, converted the southern half into a pastoral holding, and the northern half into a resumed area? Yes.
244. You heard Mr. Oliver say that he had recommended on two or three occasions that the southern half should be the resumed area? Yes.
245. And you also heard Mr. Oliver say that a lot of influence was brought to bear on the Minister, and that afterwards he agreed, against the advice of the Under Secretary, to make the southern half a pastoral holding? I did.
246. Are you aware of any influence having been brought to bear on the Minister? It was never known to me.
247. Did you instruct any agent to do it? No. I called on my brother-in-law, and asked him to get me an introduction to the Minister for Lands to state what I wanted, and I explained to him the facts in his office. He did so, and the Minister stated that the decision had been arrived at by Mr. Wright, in his absence, but he said he would consult the Under Secretary, and if there was no departmental objection the southern portion of the run should be converted into the leasehold area.

TUESDAY, 17 *APRIL*, 1888.

Present:—

MR. DAY, | MR. LEVIEN,
MR. TEECE.

A. BOWMAN, ESQ., IN THE CHAIR.

Robert Matcham Pitt, Esq., called in, sworn, and examined:—

R. M. Pitt, Esq. 17 April, 1888.

248. *Chairman.*] What are you? I am a member of the firm of Pitt, Son, & Badgery, stock and station agents, Sydney.
249. Do you know the Currugundi run? Yes. I have never been on it, but I have had it in my hands for sale.
250. Can you tell us what was offered for it, with or without stock? Yes. I am not quite sure of the period. I think it was the end of 1884; it was some time after Mr. Towns' death. We were under instructions from my brother and the present Mr. John Towns to offer the whole of the property at auction. We did so, and failed to obtain a bid at the reserve. We then submitted to my brother an offer of £6,000 in cash for the Currugundi run unstocked; but he declined it, asking £10,000.
251. Can you tell us what you were offered for the run with the stock on it? I had no offer made for the run with stock.
252. Was there any purchased land included? Yes; some volunteer land orders. The station was to be taken as it stood. I think there were about six land orders of 50 acres each.
253. Have you any recollection of the number of acres of purchased land that there were on the run? I think about 300 acres; I am not quite sure.

Benjamin Richards, Esq., called in, sworn, and examined:—

B. Richards, Esq. 17 April, 1888

254. *Chairman.*] Where do you reside? At Windsor.
255. You are a large land proprietor? Yes.
256. And own some stations? Three stations.
257. *Mr. Levien.*] Do you know the Currugundi run? I cannot say that I knew it personally. I have country adjoining it, which we call our sag country, or low country, but I could not speak as to the boundaries.
258. What kind of country is it? It is exceptionally good dry weather country. It is where the rivers, the Gwydir and other tributaries, as it were, terminate, and spread out over the country, and in dry weather there is always feed. We call the adjoining Bullendoon run our standby.

B. Richards, Esq. 17 April, 1888.

259. Supposing Mr. Pitt could have held that country during the drought would it have been very valuable to him? I should consider so. Our Bullendoon run saved what stock we saved during the drought, and it adjoins the Currugundi run, I believe, I am not quite sure.
260. *Chairman.*] What do you think was the value of the Currugundi run, without stock? I could not say; I never was on it.

Alexander Benson, Esq., called in, sworn, and examined:—

A. Benson, Esq. 17 April, 1888.

261. *Chairman.*] Where do you live? I live at Richmond.
262. You are owner of some runs, are you not? I was until the last twelve months.
263. Do you know the Currugundi run? Yes; I know it well.
264. Do you think it is a good run? Yes; a very good run indeed.
265. In dry weather? Yes; it is a very good run in dry weather, no doubt about it.
266. What do you consider the value of the run without stock? We should have to consider the matter carefully. It is worth more in dry seasons than in a wet season.
267. *Mr. Day.*] Which do you consider the best half of the run, the north or the south; one arm goes down to the Big Leather watercourse, and the rest goes back, and it comes to a point almost like a wheat-sheaf. One half is on the south of the dividing line, and the other is on the north. Which do you consider the best? The south side is by far the more valuable in dry seasons. The south side is all flooded country.
268. On the south side there are 300 acres of purchased land; what do you consider that to have been worth in the year 1884? It would be worth £5,000.
269. Would it have been worth more in 1885? No; not more in 1885 than in 1884; both were wet years.
270. Some portion of it is swamp, is it not? It is nearly all flooded country; the south portion is all flooded. It is invaluable in dry seasons; you could not put a value on it in dry seasons.
271. *Chairman.*] What value would you put upon it in dry seasons? I suppose it would carry about 3,000 or 4,000 head of cattle on it in all seasons. In some seasons it would carry a great deal more than in others.
272. *Mr. Day.*] This is one half of a run of 56,000 acres, making it 28,000 acres; how many cattle would that carry? It would carry about 3,000 head, or a beast to every nine or ten acres.
273. Do you value the whole of it, or only half of it at £5,000? I say that the 28,000 acres, in 1884 and 1885, would be worth about £5,000. There is not the slightest doubt that Mr. Pitt could have got that for it in those two particular years.
274. *Mr. Levien.*] Did you know Mr. Pitt's stock? Yes, very well.
295. Were they a good herd? Yes, a very good description; bred principally from John Lee's bulls. I know the original proprietors of this run always had good animals. They were a very good average herd of cattle. I lived in that locality about twenty-five years, and I ought to know something about it.

Joseph Single, Esq., called in, sworn, and examined:—

J. Single, Esq. 17 April, 1888.

276. *Chairman.*] Where do you live? At Penrith.
277. You are the owner of some stations? Yes.
278. Do you know the Currugundi station? Yes, well.
279. Will you tell us what you think was the value of that run, without the stock, in 1884 and 1885? I can hardly tell you in one way. The land is almost invaluable in a dry time.
280. What do you think they could have got for it? I should say £8,000 or £10,000 for it, without stock, in a dry season. I had country similar to it, in fact adjoining it.
281. You have sold yours? I sold mine.
282. Do you know what sort of stock was on the Currugundi run? Yes. I have been through the stock many a time. The stock were very good indeed, principally from Lee's and the Company's bulls. The cows were very fine. They used to get very fine fat bullocks from there. I believe that the only place where Mr. Towns used to get fat stock from was that very Currugundi run.
283. *Mr. Day.*] What could be got for the stock on the south side of the run in 1885? 1885 was a bad time to buy stock, because people had no grass. I was a buyer of stock, but I would not give a very great price in 1885, the season was so bad, and there was no prospect before one. I bought a mixed herd of cows, bullocks, steers, and calves at £3 a head. There were not many of them—about 250 head.
284. Were they good cattle? Yes; very good—some of Mr. Bloxom's.
285. *Chairman.*] Supposing there had been no trespasses on the Currugundi run in 1885, how many stock could Mr. Pitt have kept there? From 3,000 to 4,000 head of cattle. On similar country adjoining it—Cudgildool—Mr. Lomax put 4,000 or 5,000 head of cattle, and afterwards forfeited the land when the rain came. He kept all his stock alive by so doing on an area of only one block and a half. That was similar country to the Currugundi.
286. *Mr. Day.*] If that run had not been occupied by selectors' stock, what would it have been worth now, if open as it was in 1884? It would be worth a lot of money.
287. That is the lease? Yes.
288. What do you think it would be worth? If I could get the same country now on a ten years' lease, I would give £10,000 to-morrow for it. There is no end to the cattle it will fatten, and you do not want too much wet.

Sydney: Charles Potter, Government Printer,—1888.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MR. GEORGE MATCHAM PITT, JUNIOR.

(PETITION OF.)

Received by the Legislative Assembly, 15 *November*, 1887.

To the Honorable the Legislative Assembly of New South Wales.

The humble Petition of George Matcham Pitt, the younger, of North Richmond, in the Colony of New South Wales,—

RESPECTFULLY SHOWETH:—

That in the year 1884, when the present Land Act was passed, your Petitioner was the owner of two stations, one known by the name of Bunaba North, situate on the Boomi River and Gill Gill Creeks, and the other known as Carragundi, situated on the Bigleather and Gingham Watercourses, in the District of the Gwydir.

That in accordance with the said Act your Petitioner duly applied for a division of his said runs, and the same were duly divided by the Department of Lands, Sydney, and the southern half of the Curragundi Run was gazetted to your Petitioner as his leasehold area.

That at the time of the said division your Petitioner had more than 2,000 cattle depasturing on a portion of his said Curragundi leasehold area known as Warren South, and this paddock had in it the only water contained in the said run.

Soon after the said division applications were made by conditional purchasers for conditional leases and conversion of leases of selections, situate within your Petitioner's leasehold area, and the same were duly heard before the Land Board at Moree. Your Petitioner was represented by counsel before the said Land Board, and objected to the applications being allowed, but the said Land Board granted the said leases.

That previous to this, the whole of your Petitioner's said leasehold area consisted of about 26,000 acres, but the decision of the Land Board reduced his area to 10,000 acres, about 16,000 acres having been awarded to the said selectors.

The 10,000 acres left to your Petitioner consists of strips and blocks scattered over the whole area of the run, and is utterly useless.

That immediately after the decision of the said Land Board the said selectors took possession of the whole of the run, and some of them brought in as many as 4,000 rams; others brought in herds of cattle and horses, together with their own stock.

The said sheep, cattle, and horses depastured and destroyed the grass, and drank up the water situated in Warren South, so that your Petitioner was compelled to remove the whole of his cattle to his other station, Bunaba South, where there was plenty of water, but no grass.

At Bunaba South about 600 of the said cattle died.

If your Petitioner had not removed them from Warren South for the reasons aforesaid probably they would nearly all have died.

That your Petitioner was afterwards compelled to sell (otherwise they would all have died) the remainder of the said herd for £3 a head, being considerably below their value, the herd being generally known to be of the best breeding—600 of the cows also then being in calf to the progeny of Lomax's celebrated stud bull, which cost about £2,500.

That your Petitioner appealed to the Minister for Lands against the said leases being granted out of his leasehold area. The matter was argued twice before different Ministers, and a special case was eventually referred to the Supreme Court of New South Wales. That

That on the 25th July last the Supreme Court decided that the decision of the Land Board was wrong in point of law, and that a mere application for a conditional lease, which has not been confirmed at the date of the notification of the pastoral lease in the *Gazette*, confers no right as against the pastoral lessee.

That previous to the decision of the Supreme Court the Validating Act, 50 Victoria, No. 34, was passed.

This Act, as your Petitioner is advised by counsel and verily believes, makes the judgment of the Supreme Court wholly inoperative, and takes away from him the said 16,000 acres previously mentioned, and renders the remainder of said run useless.

That your Petitioner, owing to the said Validating Act and the foregoing facts, will have now no alternative but to abandon his said run.

That the said run was extremely valuable, and on account of being deprived of it your Petitioner has been put to great expense, and has suffered most considerable damage.

Your Petitioner therefore humbly prays that your Honorable House will take the premises into your most favourable consideration, and will grant him such relief as you consider fit and just.

And your Petitioner, as in duty bound, will ever pray.

GEORGE MATCHAM PITT, JUNIOR.

November 15th, 1887.

1887-8.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

VOTES No. 29. FRIDAY, 18 NOVEMBER, 1887.

6. CLAIM OF ISAAC BARCLAY:—Mr. Martin moved, pursuant to Notice,—
(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon the claim of Isaac Barclay, Cambewarra, for compensation for losses sustained by loss in defending his title to land held under Crown grant.
(2.) That such Committee consist of Mr. Hawken, Mr. Kethel, Mr. Stevenson, Mr. Wilson, Mr. Kelly, Mr. Waddell, Mr. Garrett, Mr. Chapman, and the Mover.
Question put and passed.

VOTES No. 118. TUESDAY, 17 JULY, 1888.

12. CLAIM OF ISAAC BARCLAY:—Mr. Martin, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before the Select Committee for whose consideration and report this subject was referred on 18th November, 1887, together with Appendix.
Ordered to be printed.

CLAIM OF ISAAC BARCLAY.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 18th November, 1887, "*with power to send for persons and papers to enquire into "and report upon the claim of Isaac Barclay, Cambewarra, for compensation "for losses sustained by loss in defending his title to land held under Crown "Grant,*" have agreed to the following Report:—

Your Committee having examined the witnesses named in the margin (whose evidence will be found appended hereto) find as follows:— Isaac Barclay. W. H. Capper

That in 1863 Isaac Barclay acquired by conditional purchase under the "Crown Lands Alienation Act of 1861," three allotments comprising 54 acres, and two additional of 40 acres each at Cambewarra, parish of Illaroo, county of Camden, and subsequently obtained his deeds for two of them.

That during the same year William Emery conditionally purchased 96 acres, the measurement of which Barclay objected to on the ground that the land measured was already in his possession, and on a resurvey being made on the authority of the Minister it was found that Emery's application clashed with Barclay's. The Minister decided, however, to uphold Barclay's.

That Emery subsequently entered an action in the Supreme Court against Barclay for trespass, and obtained a verdict, notwithstanding that Barclay held an indefeasible title from the Crown. The title of Barclay is therefore upheld by the Government, whilst the Supreme Court holds that the land belongs to Emery.

That the evidence given for the Crown before your Committee clearly admits Barclay's title, and that he was justified in defending such, the Crown grant being regarded as indefeasible, though held by the Court not to be so.

Your Committee are therefore of opinion that Isaac Barclay in having been, through a mistake on the part of the Crown, forced into litigation and deprived of his land, has established a just claim for compensation, and they recommend such claim to the favourable consideration of your Honorable House.

W. FRASER MARTIN,
Chairman.

No. 3 *Committee Room,*
Sydney, 17th July, 1888.

PROCEEDINGS OF THE COMMITTEE.

TUESDAY, 22 *NOVEMBER*, 1887.

MEMBERS PRESENT:—

Mr. Hawken,	Mr. Martin,
Mr. Kelly,	Mr. Waddell,
Mr. Stevenson,	Mr. Wilson.

Mr. Martin called to the Chair.
Entry from the Votes and Proceedings appointing the Committee *read* by the Clerk.
Committee deliberated.
Ordered,—That the Under Secretary for Lands and Mr. Isaac Barclay be summoned to give evidence next meeting.

[Adjourned to Thursday next, at half-past *Ten* o'clock.]

THURSDAY, 24 *NOVEMBER*, 1887.

MEMBERS PRESENT:—

1887-8.

LEGISLATIVE ASSEMBLY,

NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE

CLAIM OF ISAAC BARCLAY.

TUESDAY, 19 *JUNE*, 1888.

Present:—

MR. MARTIN, MR. HAWKEN, MR. KELLY, MR. KETHEL, MR. STEVENSON.

W. F. MARTIN, ESQ., IN THE CHAIR.

William Henry Capper, Esq., called in, sworn, and examined :—

W. H. Capper, Esq. 19 June, 1888.

1. *Chairman.*] You are clerk in charge of the conditional sales branch of the Lands Office? Yes.
2. Do you produce the papers in connection with the claim of Isaac Barclay? Yes.
3. Have you had any instructions from the Lands Office as to the claim? It all appears in the papers.

Mr. Isaac Barclay called in, sworn, and examined :—

Mr. I. Barclay. 19 June, 1888.

4. *Chairman.*] Will you explain to the Committee how your claim arose? In 1863 I selected three allotments, namely, 54 acres, 40 acres, and 40 acres at Cambewarra, in the county of Camden, parish of Illaroo. Mr. Emery selected two selections, namely, 54 acres and 40 acres; when Mr. Surveyor Houghton came there he gave my land to Emery. I complained to the Government about the matter, and the land was resurveyed. I got the land back, and at the expiration of the time I paid the Government, and got the deeds of the two allotments, namely 54 acres and 40 acres. For the other I am paying a yearly rental to the Government; of course I have not got a grant for that selection. I put my cattle on the other selections; Mr. Emery impounded them. There was a great deal of litigation in the Courts at Nowra, and then he entered an action against me in the Supreme Court. I was continually raising money to carry on the law-suit; I had to sell my young stock for the purpose, and then I had to sell my milch cows; in fact I was left penniless, and had to go out and earn my livelihood the best way I could, to rear a big family. I can tell you I was just knocked about from one place to another; but before then I was in comfortable circumstances, and was in no way embarrassed.
5. Did Emery oust you from the ground? Yes.
6. By what means? By means of the Supreme Court.
7. He took an action against you? Yes; for £500 damages. It was before the Supreme Court on two occasions. I had to sell all to pay the expenses of litigation.
8. *Mr. Hawken.*] Did you lose the cases? Yes.
9. Did Emery establish his title? I cannot say; the Supreme Court says so.
10. *Chairman.*] On two occasions he succeeded in the action that he brought against you? Yes.
11. Did you not get a title from the Crown? Yes; I got two grants—one for 50 acres, and the other for 40 acres.
12. You got two grants from the Crown before he took action against you? Yes.
13. But notwithstanding that the Court ruled against you? Yes.

Mr. I. Barclay. 19 June, 1888.

14. After those actions were over did not the Crown pay some of your costs as a kind of compromise, which you accepted through your solicitor, for their having issued the deeds of grant to you? The costs of Supreme Court action only were taxed, and my own came to £1,050 and some odd shillings, out of which I got from the Government £467 as a part payment.
15. You were defending the case on your own behalf and on the Crown's behalf? Yes.
16. The costs came to £1,000, and the Crown paid you £467? Yes, as part payment.
17. Was it your impression, and is it still your impression, that the Crown acknowledged by paying the money that they had made a mistake in the matter? Yes.
18. They only paid a portion of your expenses? Yes.
19. The Crown never directly refused to pay you the balance; they always acknowledged their liability to you? Well they never paid it to me.
20. Did they at any time refuse to pay you? Not to my knowledge.
21. Is it a fact that the several Ministers have always believed that you have a fair claim against the Crown, but that none of them have cared to take it up? Yes; they do not care to take it up. Whenever there was a new Minister I brought it forward.
22. *Mr. Hawken.*] Did you not get a grant of the other 40 acres? I had not the money to get it.
23. You did not fulfil the conditions on that allotment? Oh, yes; I paid for the other two allotments; but I am paying an annual rental or conditional purchase interest for the third one.
24. Then you still have a claim on that allotment? Yes.
25. *Chairman.*] With regard to the costs being taxed, was it only Emery's costs that were taxed, or was it your costs and his costs that were taxed? I cannot say for certain, but I think it was only mine.
26. Would it be Emery's costs only? No. I do not think that the Government recognised Emery in any way.
27. The Government paid you the taxed costs on the other side, leaving yours out of the question altogether? I cannot say.
28. Who was your solicitor? Mr. T. M. Richards, of Shoalhaven.
29. Did the Crown ever offer to pay you the whole of your costs on condition that you returned the deeds of the two selections? Not to my knowledge.
30. Did they ever offer to make some compromise on condition that you returned the titles to the two blocks? I do not remember. They paid me £467 as part payment of the £1,000.
31. I understand that they offered to pay you a further sum if you returned the deeds? I do not recollect anything about it.
32. *Mr. Kethel.*] Have you these deeds in your possession still? About the time of the law-suit they went astray. I understood that they are in the Supreme Court.
33. *Mr. Kelly.*] When you first put in your application for the allotments were they surveyed portions? I first made application, and then went through the routine of selecting, and then a surveyor by the name of Houghton came down and surveyed them.
34. Were they surveyed at the time you put in your application? No.
35. *Chairman.*] How long is it since they were taken up? In 1863 or 1864.
36. You hand in a statement of the losses which you estimate you have sustained? Yes. [*Vide Appendix* A.]
37. When did the action take place? In 1868 or 1869.
38. With regard to the item: "Mr. Thompson—mortgage 8 per cent., £144;"—what was that for? I had to mortgage my place to a Mrs. Mackellar, of Queanbeyan. I am paying 8 per cent. on the money, and it has eaten up nearly £150, although only £144 appears in the statement.
39. Why did you do it? To defend myself in the action.
40. What is the meaning of the item: "Cash payments by Barclay, and losses sustained, £121 16s. 7d."? It means that I had to pay cash, and had to sell my young stock and everything to help me to defend the action. I had to sacrifice everything.
41. What is the meaning of the item, "£300"? It is a fair estimate of the losses I sustained through having to sell my milch cows, and all things like that to raise money.
42. Do you think £75 is a fair estimate of the fifteen journeys that you made to Sydney? Yes. I have been sent for by several Ministers.
43. Which Ministers? Mr. Cowper was one, and Mr. Bowie Wilson, I think, also wrote to me to come to Sydney. Nearly every week I had to come up at the request of the Minister for Lands.
44. What does the item of £564 mean? It represents the loss that I sustained by not having the use of the 94 acres all this time.
45. When were the deeds of grant issued to you? I took up the land in 1862 or 1863. I think that the deeds were issued just before Sir John Young left the Colony—about 1866.
46. *Mr. Kethel.*] How long did you remain in possession of the two allotments before you were ejected at the suit of Mr. Emery? It might have been one year.
47. Had you cleared any land? Yes.
48. How much? I cannot say.
49. How many acres;—10, 20, or 30? I cannot say.
50. *Mr. Hawken.*] How many acres have you now? I have part of 40 acres.
51. *Mr. Kethel.*] Did you take up 54 acres as an original selection, and the other two allotments of 40 acres each as additionals? Yes.

TUESDAY,

TUESDAY, 26 JUNE, 1888.

Present:—

MR. HAWKEN, MR. KELLY, MR. KETHEL, MR. STEVENSON.

W. F. MARTIN, ESQ., IN THE CHAIR.

William Henry Capper, Esq., recalled and further examined :—

W. H. Capper, Esq. 26 June, 1888.

52. *Chairman.*] Do you hand in a *précis* of the case? I do. [*Vide Appendix B.*]
53. *Mr. Hawken.*] Is Emery still in possession of the land? I cannot say. I know that the balance of his purchase money was paid in 1866.
54. *Chairman.*] Do you know if there is anyone in possession of the land? I cannot say.
55. Your impression is that Barclay's claim has not been sufficiently satisfied? It has, as far as the Department is concerned.
56. I suppose the Department does not think that it is liable for this error? No; the Department is not liable for the decision of the Supreme Court.
57. At the same time, the feeling of the Department is that Barclay's claim has not been properly satisfied? I can only tell you what the feeling of the Department is from the decisions of the various Ministers.
58. *Mr. Hawken.*] Are you aware whether Emery has subsequently acquired deeds for this land? No, he has not. The Department cannot give deeds in the face of the decision of the Supreme Court.
59. Supposing an officer in a public department makes a mistake, is the department responsible for the mistake? If a mistake is made by an officer the department is held responsible.
60. *Chairman.*] You look on Barclay as the possessor of the land, the grant having been issued to him? Yes.
61. *Mr. Kelly.*] Notwithstanding that, is it a fact that the Department accepted Emery's money subsequently? Oh, no; the balance was paid in 1866.
62. Who paid the money in first? Barclay.
63. How does the Department come to keep possession of Emery's money, having accepted the other's money? Because the Minister for Lands has approved of the resurvey by Christie, which gave certain lands to Barclay and certain other lands to Emery.
64. Then it clashes, because Houghton in the first instance made a wrong survey? It is a wrong survey clashing with an approved survey.
65. You gave evidence here recently in a case somewhat similar; I mean Thompson's case? It was not exactly on all fours with this case. In that case the decision of the Supreme Court was given for the plaintiff, as the parties interested did not feel disposed to contest their case; in fact, it went by default.
66. The effect of the verdict was to dispossess the man? Not so. The selector's conditional title was, and is still good.
67. In Emery's case the description was extremely vague? It is as follows:—"About 40 chains from James Emery's conditional purchase of 320 acres, east and west 40 chains, and north and south 18 chains."
68. What sort of a starting point is that? It has been remarked that the descriptions were vague in the case of both parties.
69. What was Barclay's description? It is as follows:—"Bounded on the north by 40 chains bearing west, on the west by 22 chains bearing south, on the south by 6 chains bearing east, on the east by 10 chains bearing north. Again, on the north by 34 chains bearing eastward, on the east by 12 chains bearing north to the point of commencement at the head of Bangalee Creek."
70. He takes no starting point at all? None whatever.
71. *Chairman.*] The description is vague in each instance? Yes. Emery has a starting point, but Barclay gives no starting point.
72. As a matter of fact, there were three surveyors against one? Mr. Surveyor Houston surveyed it incorrectly; Mr. Surveyor Arnheim was instructed to remeasure, but he transferred his instructions to Mr. W. H. Christie, who carried out the survey which was approved by the Departmeet.
73. *Mr. Hawken.*] Barclay's difficulty may have been caused by Mr. Houston's error? There is no doubt of that. It was also brought about by the vague description supplied by the parties in the first instance.
74. *Chairman.*] Is it understood in the Department that deeds, such as those issued to Barclay, under the Real Property Act are supposed to give an indefeasible title? Yes.
75. Barclay has, therefore, an indefeasible title for nothing? The Supreme Court decided so.
76. Do you hand in a tracing showing the two surveys? Yes. [*Appendix C.*]
77. Were the conditions of residence fulfille dby Emery? No. Emery stated in a local court, during the hearing of an assault case, that he had not resided on the land.
78. *Mr. Kethel.*] Was that admission made within the period of three years after the selection was taken up, or was it made afterwards? It was recognized by the Department to refer to the residence term.

Mr. Isaac Barclay called in and further examined :—

Mr. I. Barclay. 26 June, 1888.

79. *Chairman.*] As far as you know Emery went insolvent? Yes.
80. He is not in possession of the land at the present time? No; he is not living on the land.
81. Have you good reason to believe that the official assignee has been laying claim to the land? I believe so.
82. *Mr. Kelly.*] Do you live in that part of the Colony now? Yes; I do not live on the land; I live on a farm about a mile or two below the land.
83. Is that an additional selection? No.
84. Have you been detained in town all this time at your own expense, waiting for your case to be inquired into? Yes.
85. *Mr. Stevenson.*] Is what you call your land unoccupied? There is no one living on it.
86. Is it being cultivated? It has been cultivated.
87. How long ago? I cannot say.
88. By you? By Emery.

Mr. I. Barclay. 26 June, 1888.

89. You have never cultivated it? No.
90. You never went into possession of the land? Yes; I still hold possession of part of the 54 acres which was measured to me.
91. Has the official assignee attempted to sell any right, title, or interest in Emery's land? I do not know.
92. *Chairman.*] Are you aware whether Emery, has consequently, upon the decision of the Supreme Court, mortgaged his interest in the land to Dr. Tarrant? Dr. Tarrant has a mortgage on 96 acres. I think, if I am not mistaken, that Emery swore in the Court that he had no land at all.
93. He had transferred it by way of mortgage? Yes.
94. That is when he filed his schedule? I suppose so.

APPENDIX.

[*To the Evidence of Mr. Isaac Barclay.*]

A.

Losses to Isaac Barclay estimated after action of 1869, with interest thereon calculated to end of 1887 at 5 per cent per annum :—

	£ s. d.
Judgment and taxed costs—Emery *v.* Barclay	466 19 9
Balance of law costs secured by mortgage	501 14 6
Mr. Thomson—mortgage 8 per cent. interest	144 0 0
Cash payments by Barclay and losses sustained	121 16 7
Various sums paid Richards, cattle and stock sold	70 0 0
Loss sustained by being compelled to sell cattle and being prevented working farm, having no means to purchase implements or horses	300 0 0
Journeys to Sydney attending trials—15 at £5 each	75 0 0
Loss of 94 acres improved land at £6	564 0 0
Paid Crown for 94 acres land	96 0 0
	2,339 10 10
Less amount of taxed costs, £466 19s. 9d. and £501 14s. 6d.; compromised by amount voted £467	968 14 3
	1,370 16 7
Interest at 5 per cent., to 31st December, 1870	68 10 9
	1,439 7 4

Copy of *précis* by Mr. Freeman.

Isaac Barclay's Claim for Compensation.

Memo. :—Owing in a great measure to circumstances not controllable by the Department, the papers in this case are in some instances apparently incomplete or worn from use, and as no comprehensive history of the case appears to have been compiled, it is difficult at this late period to arrive at all the facts.

William Emery and Isaac Barclay having selected at Shoalhaven the lands particularised hereunder, Mr. Licensed-Surveyor Houghton, in March, 1864, surveyed the purchases, first satisfying Emery's two applications and then surveying the conditional purchases applied for by Barclay :—

Applicant.	Date of Conditional Purchase.	Area. a. r. p.	Section.	Description.
Wm. Emery	25 June, 1863	72 0 0	13	About 40 chains from James Emery's conditional purchase of 320 acres, east and west 40 chains, and north and south 18 chains.
Isaac Barclay.....	16 July, 1863	54 0 0	13	Bounded on the north by 40 chains bearing west ; on the west by 22 chains bearing south ; on the south by 6 chains bearing east ; on the east by 10 chains bearing north ; again on the north by 34 chains bearing eastward ; on the east by 12 chains bearing north to the point of commencement, at the head of Baryalie Creek.
Isaac Barclay.....	6 August, 1863 ...	40 0 0	21	On the west and south boundaries of William Emery's conditional purchase of 25th June, 1863, and adjoining the south boundary of applicant's conditional purchase of 16th July.
Isaac Barclay.....	20 August, 1863 ...	40 0 0	21	Adjoining the north-eastern portion of his conditional purchase of 16th July.
Wm. Emery	3 September, 1863.	96 0 0	21	A joining his conditional purchase of 25th June, and Barclay's conditional purchase (additional) of 6th August.

Barclay having objected to the measurements, Mr. Surveyor Arnheim was instructed to measure the land, first surveying Emery's conditional purchase of 25th June, 1863, and then Barclay's three selections, last of all measuring Emery's conditional purchase of 3rd September.

This instruction was carried out by Mr. Licensed-Surveyor Christie in February, 1866 ; but as Barclay taking possession of the land measured in satisfaction of his 54-acre conditional purchase, Emery assaulted and obstructed him, claiming that Mr. Houghton's survey of his (Emery's) 72 acres was correct, and that Mr. Christie's surveys, by which the purchases were differently located, were incorrect.

On this Barclay prosecuted Emery at the local Police Court for assault, the Bench convicting Emery, and inflicting a fine.

It may be mentioned, in passing, that, as some of the letters from the parties are confusing, and the descriptions given by both parties as to the situation of their first conditional purchases (72 and 54 acres) are very vague, there is some danger of misunderstanding points of importance in the case. The proceedings, however, relate principally to the conflict between Emery's 72 acres and Barclay's 54 acres, and the validity of these conditional purchases necessarily governs the additionals.

Barclay and Emery having each made declarations of residence, &c., Mr. Secretary Wilson approved on 3rd October, 1866, of Barclay's declaration on his original, and on 5th August, 1867, of the declaration on his additional conditional purchase of 20th August, 1863, Barclay being informed of such approval on 20th August, 1867.

On 11th September, 1867, Mr. Secretary Wilson decided that Mr. Christie's measurements should stand, and Emery was so advised on 17th September, 1867. Before this Emery had been officially informed (Aln. 67-6,377 and Sg. 66-18,643) that the proof of residence furnished as to his conditional purchase of 25th June, 1863, was considered satisfactory.

Emery having on 2nd October, 1867, in reply to the letter of 17th September, 1867, offered to give up all claim to his selections on receipt of his purchase money and payments of cost of improvements, Mr. Secretary Wilson decided that Emery should receive refund of purchase money and interest paid, but no compensation for improvements ; and the selections were thereupon (29th January, 1868) cancelled, refund vouchers being sent to Emery.

In reply to the letters of cancellation, Mr. R. W. Robberds, solicitor for Emery, on 20th February, 1868, claimed grants of the land, declining to notice the cancellation. This claim was refused by Mr. Secretary Wilson, who remarked that Emery's sworn statement at Kiama Police Court being in direct contradiction of his declaration, that the conditional purchase was his *bonâ fide* residence, he was not entitled even to the refund, but that the refund, having been authorised, would be allowed ; also, that his claim for compensation could not be entertained.

The deeds of grant of two of Barclay's purchases having issued, Barclay (by 68-6,497) asked to be put in possession, representing that Emery refused to leave the land.

Mr. Secretary Forster (on 21st December, 1868) declined to interfere, as Barclay, having the grants, it rested with him to take action for Emery's ejection.

In August, 1869, Emery obtained a Supreme Court judgment against Barclay for trespass on the 54 acres represented by Barclay's grant, contending that it formed part of his (Emery's) 72-acre conditional purchase ; and on Barclay's solicitor appealing to the Government for assistance in defending his claim against Emery, Mr. Secretary Forster (3rd September, 1869) saw no sufficient reason to recommend the Government to incur any expense in the case, but decided to consult the Crown Law Officers as to how far the Government was legally bound to protect Barclay's interests or to compensate him for any loss incurred.

The Attorney-General (Manning) on this advised as follows :—"The Government is not in my opinion legally bound to protect Barclay's interest, or to compensate him for any loss incurred beyond restoring to them the price paid for the land if he should finally lose it. But I think the Government is under political and moral obligations to protect him if it can, and that it is important to the Government itself that the question raised in the case of Emery *v.* Barclay should not be decided without the fullest and most able discussion. The whole of the understood law, and of the accustomed practice of the Government in reference to its superintendence over free selection, and its powers of determining by survey and otherwise as to the rights of selectors may be said to have been called in question. There were a multiplicity of points upon reversal of which I am by no means satisfied with the decision of the Judge at *nisi prius*, and upon some of them it eventually decided against Barclay. I would advise an appeal in his name to the Privy Council at the public expense, they affect the Government a thousand-fold worse than the defendant in this action."

"In this view of the matter it will be my duty to place my own services, hitherto that of private council to Barclay, at the disposal of the Government, but some costs would nevertheless be occasioned for which provision would have to be made."

Barclay having in January, 1870, requested the Government, for the purpose of a new trial, to direct a surveyor to ascertain whether Emery ever resided on his 72 acres surveyed by Mr. Houghton, Mr. Secretary Forster, on the recommendation of Mr. Moriarty, declined to do so, as it would be inexpedient to appoint a surveyor to determine that which would depend upon evidence, and which appeared to be a material point of inquiry at the new trial.

On the 3rd June, 1870, a new trial having been granted, the jury gave a verdict for Emery, 40s. (the Judge certifying the costs), and Barclay's attorney, Mr. F. M. Richards, applied that the question as to whether the Government was not legally and justly bound to meet all claims against Barclay arising out of the actions might be considered.

On

On reference to the Crown Law Officers, Mr. Attorney-General Manning advised: "I have some hesitation in advising the Government in this case, on the ground of my relation to it as private counsel for Barclay. This difficulty has increased since the time of my advice in September, 1869, because I have (in consequence of the non-adoption of the suggestions then made) been again engaged as private counsel in the case. I cannot, however, withhold my opinion that *Barclay has a strong claim upon the Government for protection.* He has been depending on his title under grants issued to him by the Crown after full consideration by the Government of the rival claims of himself and Mr. Emery, and in accordance with the surveys which were made by order of the Surveyor-General, and which were expressly approved by the Minister for Lands.

"Emery on the other hand has succeeded in inducing two juries to return verdicts by which land is recognized as his for which he has no grant, and which the Government has deliberately, and, as I am satisfied, rightly decided that he was not entitled to. Barclay paid for this land after the Government had decided in his favour."

The case of Emery owed its acceptance by the juries to a mistaken survey made by a then inexperienced Government Surveyor, on the advantages of which he insisted, notwithstanding that it had upon examination by the Surveyor-General been rejected, and had been amended under his orders.

The resurvey had unfortunately been made after a considerable interval of which Emery had taken advantage to make improvements which furnished a ground for appeal to the sympathies of the juries. But Mr. Barclay is not responsible for this as he instantly protested against the error, and constantly maintained his rights to its correction, and it is to be presumed that the Survey Department were prevented by other duties from giving earlier attention to the matter.

I learn that the result of these trials and verdicts must be absolute ruin to Barclay, who is a small working farmer with small means.

Should the Government decide on protecting him from this result it will be necessary to consider whether it should not take care to furnish funds so as to pass over to Emery in payment of his costs.

This would not I presume be desired, and in order to prevent it some trust arrangement could be made under direction by the Crown Solicitor.

The Secretary for Lands (Mr. Chas. Cowper) having asked on this, whether an appeal to the Privy Council should be prosecuted, the Attorney-General advised that an appeal was not possible, Barclay through want of means having allowed the time for moving for a new trial to go by. The Attorney-General added: "It only therefore remains with the Government to consider whether it shall protect Barclay from the ruin impending over him by reason of a verdict, is in direct opposition to the decision of the Government, which decision was given by it upon question which has I think properly belonged to the Government, under the terms of the 'Crown Lands Alienation Act,' and whether it will put itself in the position of contesting the right to this land with Mr. Emery which it might perhaps do, by taking a surrender of Barclay's grants."

On this Sir Charles Cowper wrote: "Request Mr. Barclay to come and see me."

Whether or not Mr. Barclay saw the Secretary for Lands, and without result, the papers do not show. It is presumed however that one result was to induce the Government to put before Parliament an item of £467 which was voted as compensation to Mr. J. Barclay for losses in case of Emery *v.* Barclay (subject to taxation of costs).

In a letter of 19th October, 1870, Barclay claimed additional consideration for the loss of her grazing right.

In June, 1873, Barclay in a detailed statement of her position financially before selecting compared with his condition after the actions, represented that he had spent £751 16s. 7d., besides being liable for a further sum of £1,267 8s. 3d.—in all £2,019 4s. 10d. Mr. Secretary Farnell on this sought the advice of the Crown Solicitor as to whether the law costs charged were fair and reasonable, and the Crown Solicitor suggested that if the Government desired to pay the costs the best plan would be to have them taxed as between attorney and client.

In June, 1874, on the advice of the Crown Solicitor, Mr. Secretary Farnell decided that if Barclay would accept the sum voted by Parliament it would be paid to him; and on Barclay being so informed, he, by letter of 20th July, 1874, protested against the sum voted (£467) being considered adequate compensation. The Chief Commissioner of Conditional Sales concurred with Barclay, and pointed out that if the intention of the Government was to compensate Barclay, the case could only be satisfactorily adjusted by payment of the whole amount of his losses.

Mr. Secretary Farnell wrote on the paper: "I do not think that further action can be taken on the matter. I am not disposed to reopen the case." Barclay was so informed on 11th August, 1874.

In April, 1875, the money voted (£467) having been paid to Barclay, that person stated by letter that he had satisfied his own solicitors and Mr. Emery's claims against him.

In February, 1876, Barclay, in acknowledging the £467, represented that he was still under a loss of £591 15s. 10d., together with £94 (purchase money) and interest thereon. On this letter Mr. Secretary Garrett wrote: "I think Barclay should be asked if he will surrender the deed upon the receipt of the £94 and interest named in his letter, which is all the Government can undertake to pay. If he consents, put amount on Estimates." Barclay was so informed on 22nd March, 1876, and in reply, on 28th May and 6th August, 1877, letters were received from Barclay again urging his claim and offering to surrender his deeds upon payment of £591 15s. 10d. (the balance of costs incurred in the law cases), together with £94 interest thereon and purchase money.

Mr. Secretary Garrett, on 25th August, 1877, saw no reason to alter his previous offer to Barclay.

In April, 1878, Barclay, through Mr. Roseby, M.P., reopened the case by again setting forth his claim. Mr. Secretary Farnell, however, decided that, "having dealt with the case some years since he saw no reason for again reopening it."

Mr. Armstrong (Barclay's present agent) now asks for a reconsideration of the whole question of Barclay's claim, and in doing so points out the present very unsatisfactory state of affairs, viz., that Barclay holds deeds of grant, without being able to establish possessory title, and that Emery's representatives have a possessory title, approved by the Supreme Court, notwithstanding which they cannot obtain deeds of grant. If the Government recognize Barclay's claim to compensation, it must be clear, as indicated by the Chief Commissioner, that the sum voted (£467) is inadequate even for the payment of the law costs; and if the Government have any intention of adjusting the case, and giving Emery a title, it will first be necessary to obtain a surrender not only of Barclay's deeds but of Isaac Barclay junior's right to the additional conditional purchase of 20th August, 1863, that selection having been alienated by the original selector, and being of course dependent on the conditional purchase of 16th August, 1863.

20th September, 1881. S.F.

All papers now complete. They having been obtained from the records of the Supreme Court.—L.A.C., 9/4/88.

The facts of the case are set forth in this *précis.* In view of the previous Ministerial decisions I feel that I can only submit the letters reviving Mr. Barclay's claim for the direction of Mr. Secretary Hoskins.—C.O., 13/10/81.

Previous Ministers having dealt with this case I do not consider I should be justified in interfering with Mr. Garrett's decision of March 8th, 1876.—J.H., 5/11/81.

CROWN LANDS.

No. 1.

The Under Secretary for Mines to Mr. Forest Ranger Rudder.

Sir, Department of Mines, Forest Branch, Sydney, 14 September, 1886.

It having been represented that valuable young timber trees are being removed from the Clarence Town Reserve for use in the coal-pits, I have to request that you will be good enough to inspect, and report whether you consider it necessary or advisable to exempt from timber license any portion of the area referred to, so as to stop the alleged wholesale and reckless destruction of young timber.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 2.

The Under Secretary for Mines to Mr. W. H. Holmes.

Sir, Department of Mines, Forest Branch, Sydney, 15 September, 1886.

With reference to your letter of 14th August last, I have to inform you that Mr. Ranger Rudder has been instructed to report as to the advisableness of exempting the timber upon the Clarence Town Reserve from the operation of licenses.

I have, &c.,
W. F. PIPER,
(For the Under Secretary).

No. 3.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Booral, 21 September, 1886.

In reply to your letter of the 14th instant (86-7,687 Forests), *re* the Clarence Town Reserve, I have the honor to inform you that I will attend to this matter as soon as possible, but I have Court cases pending at Bulladelah and Raymond Terrace, which will prevent me taking action at present; in the meantime, I shall be glad if you will be good enough to have forwarded to me some particulars of this reserve, as I have none. Is Temporary Common, notified 12th of August, 1878, the one referred to?

I have, &c.,
AUGUSTUS RUDDER,
Forest Ranger.

No. 4.

Mr. T. Thorley to The Under Secretary for Mines.

Sir, Glenoak, 27 October, 1886.

I write these few lines to tell you I am a drawer of timber. I never cut any, only buy it off of labouring men. I have bought 1,200 coal props off the three young Bartons, and paid for them. The Forest Ranger has seized upon them and branded them, on the reserve of Clarence Town. Would you give me permission to remove them. I have never drawn any timber without I held my license for Crown Land or Church and School.

Would you be so kind as to let me know at once.

Yours, &c.,
THOMAS THORLEY.

No. 5.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Booral, 27 October, 1886.

In obedience to your instructions of the 14th ultimo (86–7,687 Forests), *re* trespass upon the above reserve, by the cutting of mining props thereon, upon which you directed me to inspect and report, I do myself the honor to inform you, that owing to pressure of other duties I was unable to carry out your instructions as promptly as I could wish, but availed myself of the first opportunity to do so, and hasten to send in my report.

On inspection I found the trespass complained of, and have seized 923 props, and 2,411 spokes, and 12 posts, for being illegally cut, the props for being cut without the required permit, and the other timber for being cut under wood-cutters license. I have posted up the required notice of seizure, and have also laid informations against four of the offenders.

As there are other matters connected with this reserve, independent of that just referred to, to which I feel that I should draw your attention, I have deemed it advisable to make this a sort of general report as follows :—

1.—*Conformation of the country.*

North of road leading to Trapples rather ridgy, with gullies falling into Stoney Creek. Along Wallaroo Creek low and flat in places, to the south a mountain range near the elbow where intersected by the population boundary. Other portions undulating. It is intersected by Wallaroo Creek, also on the south-west by gullies leading from the Sugar Loaf.

2.—*Formation and soil.*

Chiefly conglomerate overlying sandstone, also a little porphery, soil clayey, and generally very poor. There is, however, a little fairly good land on the banks of Wallaroo Creek, and on its south-west portion, where some ringbarking has been done.

3.—*Water supply.*

By Wallaroo Creek, also on the south-west by gullies leading from the Sugar Loaf. In drought times the surface water sometimes disappears, but is reliable in ordinary seasons.

4.—*General distribution—kinds and character of the timber.*

To the north of the road leading to Trapples (see plan) in the following order in relative proportion of each:—Ironbark, spotted gums, and stringybarks, with occasional apple-tree. In the central portion, say to a line west from Dobson's south-west corner to E. Johnston's south-east corner of 640 acres, ironbark, spotted gum, stringybark, blue-gum, grey-box, forest oak, and apple tree; a considerable portion of this area is covered with dwarf tea-tree and other scrubby undergrowth in patches; on the south-west grey-box, ironbark, stringybark, and a little blue-gum; remaining or eastern portion of reserve ironbark, spotted-gum, and stringybark, and a little blue-gum. Of mature timber there is, on an average, about three trees to the acre all round, but most of these are gnarled, ill-grown, or hollow. The young timber is of all sizes from about 18 inches in diameter downwards, the larger proportion being under 9 inches. The number of all sizes to the acre is about 100—in some places fully 200, in others thirty or forty only; it is impossible to form an exact estimate. The ironbark is nearly all of the broad leaf red-wooded kind, which is inferior. With the exception of that on the banks of Wallaroo Creek and a few other patches the timber, generally, is more or less stunted in growth, particularly the stringybark and some of the ironbark saplings on some of the ridges, which are only a few inches in thickness. Some of the stringybark bearing the axe marks of thirty years ago are still under 8 inches in diameter, at the same time there is a vast quantity of timber suitable for mining props, and a good deal besides which, if left, will become useful timber, but never of very large size or prime quality for saw-mill purposes. The ironbark and spotted gum predominate in proportion (say) of about three-fifths of the whole.

5.—*Condition of reserve.*

As is usually the case with nearly all reserves in close proximity to towns and villages, most of the good mature timber has long since been taken away, there is now very little left for squaring, splitting, or for saw-mill purposes; most of the good timber now remaining is of young growth, and some of this (not to any great extent) has been taken for mining props.

6.—*Trespass.*

Some portions of the reserve were selected about two years ago by parties named Trapple, also by one Andrew Killenen, and by a Mr. Holmes, all of whom had their money returned, but not until after they had made partial clearings. One of the Trapples, however, though non-resident, is still working some of the land on the banks of the Wallaroo Creek; and Killanen has built a substantial hut and outbuildings on the same creek, and is still in occupation with his family. Mr. Holmes rung about 100 acres on the south-west corner of the reserve, but has since left. On what appears to be the extreme eastern portion of it *(see plan)*, between the road and Stoney Creek, there is now residing with his family a man named John Donnelly, who holds it under written lease from a Mr. William Johnston, who, it is said, claims it as part of his property.

7.—*Concluding remarks.*

Near to Trappel's conditional purchase some allotments have recently been measured off for a public school, &c., and a surveyor's line has also recently been cut right across the reserve, from the south-west corner of J. Dobson's 640 acres west to the south-east corner of E. Johnston's 640 acres *(see plan, dotted line in red)*, as if to indicate the intended cancellation of a portion of it, of which supposed intention several parties made mention.

As there is now little or no good mature timber left, and there is evidently no urgent requirement for mining props, I would suggest the closing of this reserve for a few years, excepting for the purpose of obtaining firewood only for local requirements.

I have, &c.,
AUGUSTUS RUDDER,
Forest Ranger.

Is this a common under trustees?—W.F.P. Not yet placed under trustees.—G.W.

No. 6.

The Bench of Magistrates, Clarence Town, to The Secretary for Mines.

Sir, Court-house, Clarence Town, 10 November, 1886.

With reference to certain cases heard before the undersigned this 10th day of November, 1886, the defendants having pleaded guilty, but they were ignorant of the necessity of holding special permits to cut timber on reserves, although holding ordinary timber licenses, and the forest ranger, Mr. Augustus Rudder, having stated that he was specially instructed to put a stop to such proceedings, but that he did not desire to press for any serious penalties, but would report thereon,—we, under the circumstances, recommend the surrender of the timber seized by Mr. Rudder.

CHAS. GRAHAM SMITH, P.M.
W. H. HOLMES, J.P.
WILLIAM CROKER, J.P.

No. 7.

No. 7.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Booral, 11th November, 1886.

In reply to your B.C. of the 3rd instant, on Thomas Thorley's letter of the 27th ultimo (86-9,927 Forests), I have the honor to inform you that the case therein referred to came on for hearing, with six others, before a full Bench, at Clarence Town, yesterday, and out of the seven complaints five convictions were obtained; but as it transpired during the inquiry that parties holding wood-cutter's licenses only had for many years been in the habit of cutting and removing timber from the Clarence Town Reserve without let or hindrance of any kind, the Bench took a lenient view of the matter, and dismissed the defendants with a reprimand and caution only.

With respect to the timber seized, I believe you will receive a communication from the Bench recommending its release; and as I believe, in this instance, the parties were not (in the ordinary sense) wilful offenders, and that the action taken by me will have the desired effect of preventing future trespass, I see no reason to oppose such recommendation, should it be made; but the parties should, I think, be required to hold sufficient licenses.

I have, &c..

AUGUSTUS RUDDER,
Forest Ranger.

No. 8.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir, Department of Mines, Forest Branch, Sydney, 26th November, 1886.

The Forest Ranger having reported that valuable timber is being destroyed on the Clarence Town Temporary Common, I am directed to request that you will be good enough to cause the area to be proclaimed a timber reserve, if unobjectionable, with a view to the better protection of the growing timber.

I have, &c.,

HARRIE WOOD,
Under Secretary.

No. 9.

The Under Secretary for Mines to Mr. Forest Ranger Rudder.

Sir, Department of Mines, Forest Branch, Sydney, 1st December, 1886.

With reference to previous correspondence, I have to inform you that the Secretary for Mines has decided that all timber under seizure upon the Clarence Town Reserve is to be released, and that mining-prop permits will not be issued for that reserve; but no objection will be raised to timber being felled by holders of timber-cutter's licenses (Class A.), provided the restriction as to minimum girth is observed.

I have, &c.,

No. 10.

Mr. W. H. Holmes to The Secretary for Mines.

Sir, Oakendale, Glen Oak P. O., 3 June, 1887.

Some time since I represented to the late Minister for Mines that the Clarence Town Reserve, containing some 2,000 or 3,000 acres of land, had a large quantity of young and valuable timber growing on it, some of the timber, ironbark, gum, and mahogany, being of great length, 30 to 40 feet, and straight without a branch. I represented to the Minister that this timber was being cut down for coal props—wholesale—nothing but the very best and straightest being used; I also stated that this valuable timber, which was being destroyed in this manner, was only realizing the timber cutters about (6d.) sixpence for tree in its present state, whereas if it was left for (say) 10 or 12 years, it would readily bring 15s. to 20s. each tree for piles, &c., it being the only reserve having valuable timber upon it in this district. I consider that it will be conferring a great benefit upon the public and the rising generation if you give immediate instructions to the forest ranger to stop all timber cutters from destroying this valuable timber. Being a Magistrate of the territory, and having already fined a number of persons for cutting timber on this reserve without licenses, I think it my duty to again draw your attention to this matter, as the timber in a few years will be very valuable indeed for Government purposes, and being so very close to water carriage (some 2 miles) distance makes the timber still more valuable.

I believe that a petition is to be presented to you signed by a large number of persons representing themselves coal prop cutters, when in reality one-third of the names are not timber-getters at all. No doubt they will try to make their case good by stating that the closing of this reserve will throw a very large number of men out of work these times, &c., &c.

I have no interest in the affair whatever, but I consider it my duty to lay the case fairly before you, and I think you will agree with me that the wanton destruction of this valuable timber should be at once stopped.

I remain, &c.,

W. H. HOLMES.

No. 11.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Clarence Town, 6 June, 1887.

I regret to have to report to you recent trespass upon that portion of the Clarence Town Timber Reserve recently gazetted (I have no reference by me) by parties cutting mining props and other timber thereon. On the 3rd instant I caught two persons in the act of removing timber, neither of whom held

held licenses or permits, one of them a man by the name of Smith, the other the son of a local magistrate Mr. Wm. Croaker, a name, I think, familiar to the Department. I am taking proceedings against these parties and two others, of whom I believe I have reliable information. I have also seized 286 mining props and small trees cut for mining props.

After viewing the trespass just referred to, I saw Constable Preston, of Clarence Town, who informed me he was aware of the trespass, and was and had been carefully on the watch, but up to the time of my doing so had failed in detecting the guilty parties. I have, &c.,

AUGUSTUS RUDDER,
Forest Ranger.

H. H. Brown, Esq., M.P., reports that the Forest Ranger at Clarence Town has been acting somewhat harshly to a Mr. Croaker, who had been cutting a little useless timber. Will the Commissioner obtain a report?—F.A., 7/6/87.

A petition has been presented by Mr. Brown, largely signed, requesting permission to cut poles. Has a report been obtained?—F.A., 7/6/87. Ranger Martin has been instructed to make a special report.—W.F.P., 7/6/87. Instruct Ranger not to take proceedings without first obtaining authority.—H.W., 7/6/87. Telegram.—Forest Ranger Rudder, 7/6/87.

The facts, if as represented herein by the Ranger, do not justify the complaint of harsh treatment. Pursuant to instructions, the Ranger has been instructed not to take proceedings till authorized specially; he had, however, taken them before the instructions could have reached him. Ranger Martin has been directed to proceed to Clarence Town and report upon the case, and in the meantime the proceedings may stand over, but possession of the timber may be retained.—H.W., 13/6/87.

Submitted. Approved.—F.A., 15/6/87. Re-submitted as to whether any action is required with reference to latter portion of minute.—28/7/87.

No. 12.

Telegram from The Under Secretary for Mines to Mr. Forest Ranger Rudder.

No proceedings to be taken *re* timber cutting on the Clarence Town Common without first obtaining authority.

HARRIE WOOD,
Under Secretary.

No. 13.

Petition.

To the Honorable the Minister of Mines,—

We, the undersigned petitioners, residents of Clarence Town and district, respectfully beg that you will cause to be thrown open, for the purpose of cutting mining props, the reserve known as the Clarence Town Reserve. This is the only timber now available for this purpose, and a great many men are thrown out of employment through this reserve not being thrown open. The timber trade, which is the mainstay of this place, is now at a very low ebb, and unless the reserve is thrown open, it will be the means of causing a great deal of distress in the district, as the prop trade finds employment for a large number of men, horse and bullock teams.

Hoping you can do this; and your petitioners, as in duty bound, will ever pray.

John Lawrie, J.P.	Martin Henery	William Quinn
Joseph W. Mudie	John Slattery	Charles O'Neill
W. Bryson	James L. Wardrop	John Walterbach

No. 14.

The Under Secretary for Mines to H. H. Brown, Esq., M.P.

Sir, Department of Mines, Forest Branch, Sydney, 8 June, 1887.

I am directed to inform you that the petition presented by you from the residents of Clarence Town, praying that permission may be given to cut mining props on the Clarence Town Common, has been forwarded to Mr. Forest Ranger Martin, Gosford, for special report.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 15.

The Under Secretary for Mines to Mr. Forest Ranger Martin.

Sir, Department of Mines, Forest Branch, Sydney, 8 June, 1887.

Petition and copy of letter *re* cutting mining props, Clarence Town Reserve, and plan.

With reference to the enclosed petition from the residents of Clarence Town, and the copy of a letter, I am directed by the Secretary for Mines to request that you will be good enough to make a special inspection, and report as to the desirableness of complying with the prayer of the petitioners, and as to the matter in general.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 16.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir, Department of Mines, Sydney, 8 June, 1887.

I am directed by the Secretary for Mines to ask that you will favour me by cancelling Timber Reserve 3,132, county of Durham, the area being within the Clarence Town Temporary Common; and section 10 of the Commons Act of 1886 empowers the commoners to take fallen timber or underwood only, and the Common Regulations impose a charge for each tree felled.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 17.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Paterson, 8 June, 1887.

I have the honor to acknowledge the receipt of your telegram of this day, *re* trespass on the Clarence Town Timber Reserve, which came to hand when the Bench was sitting, and about to proceed with the cases referred to.

I am at a loss to determine whether your message implies any censure of the course I adopted, which was similar to all my other proceedings in such cases, but would respectfully observe that its appearance, coming as it did, for I had to proceed before a full Bench and a good attendance of timber cutters, had, unfortunately, the effect of making light of my office, if not of bringing me somewhat into contempt.

The first intimation I had of your message was a telegram from the Member of the district, Mr. Brown, which was produced by Mr. Croaker—whose son was one of the offending parties—while he, Mr. Croaker held a seat on the Bench.

With respect to the trespass itself, it was exceptional for its audacity, and as far as I know without any extenuating circumstances whatever, none of the parties held either licenses or permits of any kind, and commenced to level the young forest without any consideration whatever, some of them even removing the timber during the night time.

I have several days duty on the Paterson, *re* prickly pear matters, before returning to my station, and have afterwards two cases before the Raymond Terrace Bench, to come off on the 17th, against a party for neglecting to destroy the prickly pear, *opuntia vulgaris*, more than six weeks after receiving a registered notice to do so.

I have, &c.,
AUGUSTUS RUDDER.

No. 18.

The Under Secretary for Mines to Mr. Forest Ranger Rudder.

Sir, Department of Mines, Forest Branch, Sydney, 16 June, 1887.

With reference to your letter of the 8th instant, in answer to my telegram of the same date informing you that no proceedings were to be taken in reference to timber cutting on the Clarence Town Common without at first obtaining authority, I have the honor to inform you that the action taken in regard to stopping proceedings was not intended as a censure upon you.

I have, &c.,
W. F. PIPER,
(For the Under Secretary.)

No. 19.

Mr. Forest Ranger Martin to The Under Secretary for Mines.

Sir, Clarence Town, 20 June, 1887.

With reference to appended petition of certain residents of Clarence Town, requesting that the Clarence Town Timber Reserve No. 3,132, parish of Uffington, and county of Durham, may be thrown open to the operations of mining prop cutting, and also to a letter opposing such request. I have

have the honor to state that on the 18th and 20th instant I inspected the reserve above referred to and found that the mature timber of value has been nearly all cut out. I noticed on reserve a thick growth of young timber of fair quality, of present value for props and of prospective value for timber supply. The percentage of young trees would be for ironbark, 40; spotted gum, 35; mahogany, 17; and white box, 8. I also noticed three ring-barked areas within reserve of about 120 acres. The ring-barking appears to have been done four or five years. The reserve is easy of access and handy to water carriage. There is one saw-mill at work in Clarence Town, and timbered areas of Church and School lands are in the neighbourhood.

I think the petitioners' case may be met by bringing reserve under class A of timber regulations and permitting the cutting of props of no greater diameter than 8 inches at 3 feet from the ground, and leaving no greater distance between growing saplings than 22 feet from tree to tree, but excluding young ironbark (the timber of greatest prospective value) from all prop-cutting operations. I think if the above was carried out a sufficient supply of young timber for future uses would still be retained on reserve.

I have, &c.,
JOHN MARTIN,
Forest Ranger.

Clarence Town Temporary Common, special report by Ranger Martin:—This land being a common, it appears doubtful whether any permission to cut timber can be granted under the 11th regulation, excepting perhaps to a commoner. The Attorney-General's opinion is under submission from the Stock Branch in connection with the Pitt Town Common.—W.F.P., 23/6/87.

Enclosures, petition, letter, and two tracings:—As I understand no Crown grant has issued in the case of the Clarence Town Common, perhaps permission might be granted subject to such restrictions as may be necessary.—H.W., 18/7/87. Appendices A and B.

Approved.—F.A., 19/7/87. Mr. Brown, M.P., may be informed.—A.A.D., for Chief Clerk, 21/7/87. Yes.—H.W., 21/7/87. H. H. Brown and A. Rudder, 25/7/87.

No. 20.

Mr. Forest Ranger Rudder to The Under Secretary for Mines.

Sir, Booral, 27 June, 1887.

Referring to recent proceedings in connection with Timber Reserve 3,132, county of Durham, parish of Uffington, gazetted on the 26th March last, which were stayed by your orders, I should inform you, on that occasion a quantity of timber was seized thereon by me for being cut without either permit or license, will you be good enough to say what action is to be taken in reference to it? The usual notice in such cases was duly posted.

I have also the honor to state I have been unofficially informed of Mr. Ranger Martin's recent inspection of this reserve, and regret this action, since it implies want of confidence in me. If such is the case I would ask most respectfully that it may please you to name it, and sift the cause, and be good enough to give me the opportunity to offer my explanation. I have always regarded honesty, sobriety, and industry, and a fair knowledge of duty, as essential in a public servant, and when I have failed in these, or any of them, shall then feel I am no longer fitted for the service. I am, perhaps, the more sensitive from the conscientiousness of having in the performance of my duties made more than ordinary efforts to meet the requirements of the department.

My report of the 27th of October last was based on long experience in forest matters, and the result of a very careful inspection of the reserve in question.

In further reference to this reserve, I should again direct your attention to a supposed trespass upon it, as indicated by the tinted portion shown on the accompanying sketch, upon which a hut has been erected, and is still occupied by one Donelly and his family.

I have, &c.,
AUGUSTUS RUDDER,
Forest Ranger.

No. 21.

The Under Secretary for Mines to Mr. Forest Ranger Rudder.

Sir, Department of Mines, Forest Branch, Sydney, 25 July, 1887.

With reference to previous correspondence I have to inform you that it has been decided to grant permissions to persons desirous of cutting mining props on the Clarence Town Reserve, subject to such restrictions as may be deemed advisable.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 22.

The Under Secretary for Mines to H. H. Brown, Esq., M.P.

Sir, Department of Mines, Sydney, 25 July, 1887.

Having submitted for consideration of the Secretary for Mines the petition presented by you from the residents of Clarence Town, asking that the Clarence Town Reserve should be thrown open for the purpose of cutting mining props, I am directed to inform you that permission will be granted to persons desirous of cutting mining props on that reserve, subject to such restrictions as may be deemed necessary.

I have, &c.,
HARRIE WOOD.
Under Secretary.

1887–8.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

VOTES No. 5. WEDNESDAY, 28 SEPTEMBER, 1887.

9. CROWN LANDS PURCHASES VALIDATION BILL:—The Order of the Day having been read,—Mr. Garrett moved, "That" this Bill be now read a second time.
Mr. Abbott moved, That the Question be amended, by the omission of all the words after the word "That," with the view to the insertion in their place of the words "this Bill be referred to a Select "Committee, with power to send for persons and papers, to inquire into the same, and to report "to this House.
"(2.) That such Committee consist of Mr. Allen, Mr. Black, Mr. Burdekin, Mr. J. S. Farnell, Mr. "Foster, Mr. Garrett, Mr. Goodwin, Mr. McMillan, Mr. Street, and the Mover."
Question,—That the words proposed to be omittted stand part of the Question,—put and negatived.
Question,—That the words proposed to be inserted in place of the words omitted be so inserted,—put and passed.
Main Question,—
(1.) That this Bill be referred to a Select Committee, with power to send for persons and papers, to inquire into the same, and to report to this House.
(2.) That such Committee consist of Mr. Allen, Mr. Black, Mr. Burdekin, Mr. J. S. Farnell, Mr. Foster, Mr. Garrett, Mr. Goodwin, Mr. McMillan, Mr. Street, and the Mover,—put and passed.

VOTES No. 24. THURSDAY, 10 NOVEMBER, 1887.

6. THE JOACHIM FAMILY:—Mr. Garvan presented a petition from William Joachim, Annie Joachim, Sophia Joachim, Selina Joachim, and John Thomas Joachim, representing that, with a deceased brother, they came to this Colony in the year 1873, and conditionally purchased land in the vicinity of Moama, and took possession of the same; that, on alleged ground of non-residence and other grounds, they were subjected to long and severe litigation, ending in an appeal to the Privy Council; that, notwithstanding the fact that they had been undisturbed in their possession of the land, their title has in no way been recognized by the Crown;—and praying the House to take the whole of the circumstances into consideration, with a view to relief.
Petition received.

Mr. Garvan (*by consent*) moved, without Notice, That the Petition of the Joachim family be referred to the Committee of the House appointed to inquire into, examine, and report upon the Conditional Purchases Validating Bill.
Question put and passed.

7. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Garrett (*by consent*) moved, without Notice, That the applications or recommendations to the Minister for Lands for the validation of the conditional purchases enumerated at end hereof be referred to the Select Committee, now sitting upon "the Bill to legalize certain Conditional and other Purchases of Crown Lands," for its consideration and report as to whether the said cases should be added to the Schedules to the said Bill, viz.:—

Name.	Area.	Portion.	District.	Section.
	acres.			
Bate, Henry Jefferson, now Edward P. Simpson	40	404	Bega	21
Do. do. ...	49¾	405	do.	21
Evans Rees, now Edmund Walsh	40	145	Queanbeyan ...	14
Gillespie, Charles.	500	89 & 91	Molong	13
M'Naught, Alexander	80	.....	Bega	13
Do.	40	.....	do.	21
Riley, Daniel	40	161	Mudgee	13
Rolfe, Edmund	100	62	Queanbeyan ...	22
Do.	60	155	do. ...	22
Do.	40	156	do. ...	22
Do.	50½	157	do. ...	22
Do.	40	158	do. ...	22
Ryrie, Alexander	40	58	Cooma	21

Question put and passed.

VOTES

VOTES No. 28. THURSDAY, 17 NOVEMBER, 1887.

13. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Abbott (*by consent*), moved without Notice, That the papers printed by the order of this House in reference to the conditional purchases of the Joachim family, be referred to the Select Committee sitting on the Crown Lands Purchases Validation Bill.
Question put and passed.

14. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Carruthers presented a Petition from Martin Tully, the younger, of Kilenawello, near Wheeo, representing that he is directly interested in a certain selection in the name of one Thomas Millane, mentioned in Schedule A to the Crown Lands Purchases Validation Bill, the purchase of which has been found to be wholly or in part illegal, and that it is proposed by the said Bill to legalize such purchase in the name of the said Thomas Millane; and praying that he may be heard by Counsel, or Attorney, or Agent, or in person, before the Select Committee to which the said Bill has been referred, in opposition to the Bill, so far as the same relates to the said selection, with liberty to adduce such evidence as he may be advised in opposition thereto, or in support of his Petition.
Petition received.
Mr. Carruthers (*by consent*) moved, without Notice, That the prayer of the Petitioner be granted.
Question put and passed.

VOTES No. 29. FRIDAY, 18 NOVEMBER, 1887.

5. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Creer presented a Petition from Robert Barclay Wallace, of Newcastle, representing that, conjointly with James Robert Millar Robertson, of Sydney, and others, he purchased certain conditional purchases in the Newcastle District; and that it appears that the original selectors had, at the time of making these selections, other selections which had been converted into mining selections, and that it is matter of doubt whether the last made selections are made in contravention of the Act, 42 Vic. No. 29; and praying the House to take the matter into consideration.
Petition received.
Mr. Creer (*by consent*) moved, without Notice, That the Petition be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Question put and passed.

VOTES No. 38. TUESDAY, 6 DECEMBER, 1887.

7. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Slattery presented a Petition from Matthew O'Shanassy, of Moira, in reference to a Petition received by this House from William Joachim and others, setting forth certain circumstances in connection with lands alleged to have been conditionally purchased by George Joachim and others; and representing that he, the Petitioner, is now the lawful occupier and lessee from the Crown of the said lands mentioned in the said Petition; and praying that leave may be given to him to be represented by Counsel or Solicitor before the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Petition received.
Mr. Slattery (*by consent*) moved, without Notice, That the prayer of the Petitioner be granted.
Question put and passed.

VOTES No. 39. WEDNESDAY, 7 DECEMBER, 1887.

2. CROWN LANDS PURCHASES VALIDATION BILL:—*Mr. Wall*, for Mr. Levien, presented a Petition from Alexander Rodgers, of Attunga, near Tamworth, alleging that he purchased at a Sheriff's sale certain conditional and additional purchases in the belief that, under the circumstances, he would not be required to fulfil the condition of residence, as in the case of ordinary selections; that these purchases have been the subject of a Land Board inquiry at Glen Innes, and the decision of the Board appealed against and decided against him; and praying that all the circumstances may receive consideration at the hands of the House, and that his case may be submitted to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Petition received.

VOTES No. 40. THURSDAY, 8 DECEMBER, 1887.

6. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Wall moved (*by consent*), without Notice, That the Petition of Alexander Rodgers, presented yesterday evening, be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Question put and passed.

VOTES No. 44. FRIDAY, 16 DECEMBER, 1887.

10. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Lakeman presented a Petition from John Allen, of Narrandera, representing that he purchased at a Sheriff's sale a conditional purchase and pre-emptive lease; that the previous holder of such lease had made no provision for the conversion of such lease, as provided by the 52nd section of the Crown Lands Act of 1884, and that Petitioner was barred from making such provision; that the loss of the lease is to him a matter of extreme importance, and entails upon him great loss; and praying the House to take the circumstances into consideration, and direct such action as shall seem fit.
Petition received.
Mr. Lakeman (*by consent*) moved, without Notice, That the Petition of John Allen be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Question put and passed.

VOTES No. 51. THURSDAY, 16 FEBRUARY, 1888.

4. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. J. P. Abbott (*by consent*) moved, without Notice, That the name of Mr. Thompson be added to the Select Committee on Crown Lands Purchases Validation Bill.

Question put and passed.

VOTES No. 63. WEDNESDAY, 7 MARCH, 1888.

4. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Fitzgerald presented a Petition from Edward Grace, of Bando, Gunnedah, selector and grazier, representing that he conditionally purchased 512 acres, at the Gunnedah Land Office, and took possession of the land; that he fulfilled all the conditions of residence and improvements to the satisfaction of the Inspector; that, at an inquiry held by the Local Land Board at Gunnedah, such Board recommended that the said conditional purchase be forfeited; that an appeal against this decision was dismissed by the Minister; and praying the House to consider the whole of the circumstances of his case, and direct that such relief may be afforded the Petitioner as may seem fit.

Petition received.

Mr. Fitzgerald (*by consent*) moved, without Notice, That the Petition of Edward Grace be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.

Debate ensued.

Question put and passed.

VOTES No. 64. THURSDAY, 8 MARCH, 1888.

3. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Walker presented a Petition from Stephen Fennell, of Wagga Wagga, selector, stating that Petitioner inadvertently, in making final declarations upon several selections owned by him upon which all conditions of the Land Act of 1861 had been duly observed, omitted to make declaration referring to selection 76-375, Wagga Wagga, 57 acres 1 rood, although conditions to be declared to were duly completed, and, in consequence of such omission, the selection was duly notified as lapsed, and reverted to the Crown; that after such reversal the land was embraced within a leasehold, which fact renders it difficult for the Crown to reverse the lapsing; and praying the House to take the whole of the circumstances into consideration, and in its wisdom direct such action as shall seem fit.

Petition received.

Mr. Walker (*by consent*) moved, without Notice, That the Petition of Stephen Fennell be referred to the Select Committee of the House appointed to inquire into, examine, and report upon the Crown Lands Purchases Validation Bill.

Question put and passed.

VOTES No. 80. THURSDAY, 19 APRIL, 1888.

4. CROWN LANDS PURCHASES VALIDATION BILL (*Formal Motions*):—

(1.) Mr. Garrett moved, pursuant to Notice, That the applications or recommendations to the Minister for Lands for the validation of the auction purchases enumerated at end hereof be referred to the Select Committee now sitting upon "the Bill to legalize certain Conditional and other Purchases of Crown Lands" for its consideration and report as to whether the said cases should be added to the Schedule to the same Bill, viz.:—

Name.	Area.	Portion.	District.
	a. r. p.		
The Scottish Australian Investment Company (Limited).	100 3 0	55	Wagga Wagga.

Do. do. ...	126 0 0	66	do.
Do. do. ..	166 0 0	67	do.
Do. do. ...	116 0 0	68	do.

Question put and passed.

2. Mr. Garrett moved, pursuant to Notice, That the applications or recommendations to the Minister for Lands for the validation of the conditional purchases enumerated at end hereof, be referred to the Select Committee now sitting upon "the Bill to legalize certain Conditional and other Purchases of Crown Lands" for its consideration and report as to whether the said cases should be added to the Schedules to the said Bill, viz.:—

Name.	Area.	Portion.	District.	Section, 25 Vic. No. 21.
	acres.			
Batty, Amos	75	264	Molong ...	14
Fenton, John	98½	48 and 254	Carcoar ...	22

Do. do. ...	100	127	do. ...	22
Do. do. ...	40	128	do. ...	22

Question put and passed.

VOTES NO. 81. TUESDAY, 24 APRIL, 1888.

4. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Garland presented a Petition from Mary Elizabeth Murphy, of Heyfield, Strathfield, representing that she is the present owner of a grant in fee simple, in virtue of which her brother, the late William Edward Murphy, applied for an additional conditional purchase, No. 80-114, of 320 acres, on 20th May, 1880, at Carcoar Land Office; that the said William Edward Murphy took possession of the land, and entered into occupation thereof within three months from the date of selection; that he died in May, 1881, and that under his will the Petitioner inherited his estate; and praying that, under the whole of the circumstances, the matter will receive the consideration of the House, and that it will be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.

Petition received.

Mr. Garland (*by consent*) moved, without Notice, That the prayer of the Petitioner be granted.

Debate ensued.

Question put and passed.

5. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Garrett laid upon the Table the Papers regarding the case of the conditional purchase of 40 acres applied for by Robert Cork, at Milton, on 3rd June, 1880;—and (*by consent*) moved, without Notice, That they be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.

Question put and passed.

VOTES NO. 89. THURSDAY, 10 MAY, 1888.

3. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Garrett (*by consent*) moved, without Notice, That the recommendation of the Minister for Lands for the validation of the conditional purchase enumerated at end hereof be referred to the Select Committee now sitting upon "the Bill to legalize certain conditional and other purchases of Crown Lands" for its consideration and report as to whether the said case should be added to the Schedules to the said Bill, viz.:—

Name.	Area.	Portion.	District.	Section, 25 Vic. No. 1.
	acres.			
Finneran, John	220	121	Orange	21

Debate ensued.

Question put and passed.

VOTES No. 90. TUESDAY, 15 MAY, 1888.

4. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. Ewing presented a Petition from Patrick Hogan, of Randwick, stating that he is the purchaser of conditional purchase No. 83-34, of 640 acres, parish of Nimbin, county of Rous; that it was selected by James Murphy, upon the death of whom the Petitioner purchased it, and expended large sums of money in improving it; and praying that the whole circumstances of the case may receive the consideration of the House.
Petition received.
Mr. Ewing (*by consent*) moved, without Notice, That the Petition of Patrick Hogan, of Randwick, respecting a conditional purchase taken up in the county of Rous, be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill.
Question put and passed.

VOTES No. 94. WEDNESDAY, 23 MAY, 1888.

3. CROWN LANDS PURCHASES VALIDATION BILL:—Mr. J. P. Abbott, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose consideration and report this Bill was referred on 28th September, 1887, together with Appendix, and a copy of the Bill as amended and agreed to by the Committee.
Ordered to be printed.

CROWN LANDS PURCHASES VALIDATION BILL.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, for whose consideration and report was referred on the 28th September, 1887, the "*Crown Lands Purchases Validation Bill*," and to whom was also referred on the 10th November, 1887, "*the Petition from the Joachim Family*" and "*the applications or recommendations to the Minister for Lands for the validation of the Conditional Purchases of Henry Jefferson Bate (now Edward P. Simpson), Rees Evans (now Edmund Walsh), Charles Gillespie, Alexander M'Naught, Daniel Riley, Edmund Rolfe, and Alexander Ryrie;*" on the 17th November, 1887, "*the Petition from Martin Tully, the younger;*" on the 18th November, 1887, "*the Petition from Robert Barclay Wallace;*" on the 6th December, 1887, "*the Petition from Matthew O'Shanassy;*" on the 8th December, 1887, "*the Petition from Alexander Rodgers;*" on the 16th December, 1887, "*the Petition from John Allen;*" on the 7th March, 1888, "*the Petition from Edward Grace;*" on the 8th March, 1888, "*the Petition from Stephen Fennell;*" on the 19th April, 1888, "*the applications or recommendations to the Minister for Lands for the validation of the auction purchases of the Scottish Australian Investment Company (Limited),*" and "*the applications or recommendations to the Minister for Lands for the validation of the conditional purchases of Amos Batty, John Fenton, Jonathan Warner, and Frederick H. Warner (transferred to the Bank of New South Wales;)*" on the 24th April, 1888, "*the Petition from Mary Elizabeth Murphy;*" on the 10th May, 1888, "*the recommendation of the Minister for Lands for the validation of the conditional purchase of John Finneran;*" and on the 15th May, 1888, "*the Petition from Patrick Hogan,*"—beg to report to your Honorable House,—

That they have examined the witnesses named in the list* (whose evidence will be found appended hereto); and considered the Bill and Schedules referred to them, in which it was deemed necessary to make certain amendments. * See list, page 14.

That they have also considered the Petitions and cases referred to them, and have inserted in the Schedules to the Bill those claims which in their opinion should be validated.

Your Committee now beg to lay before your Honorable House the Bill as amended by them with an amended Preamble.

J. P. ABBOTT,
Chairman.

No. 3 *Committee Room,*
Sydney, 23 *May,* 1888.

Hannah (*Appendix KK*); papers in the case of Thomas Morris (*Appendix LL*); *précis* of the case of Alexander M'Vean (*Appendix MM*); *précis* of the case of N. P. Neilson (*Appendix NN*); papers in the case of Richard W. Sutton (*Appendix OO*); papers in the case of William Smith (*Appendix PP*); memo. in the case of Alexander Ryrie (*Appendix QQ*); *précis* of the case of Edmund Rolfe (*Appendix RR*); papers in the case of Daniel Riley (*Appendix SS*); *précis* of the case of Rees Evans (*Appendix TT*); *précis* of the case of Charles Gillespie (*Appendix UU*); papers in the case of Henry Jefferson Bate (*Appendix VV*); papers in the cases of Mary Lane and William Thorne (*Appendices WW and XX*); *précis* of the case of Stephen Fennell, junior (*Appendix AAA*); papers in the case of John Allen (*Appendix BBB*).

Room cleared.

Committee deliberated.

Ordered,—That Mr. M. Tully and the Under Secretary for Lands be summoned to give evidence next meeting.

[Adjourned to Thursday, 26th April, at *Ten* o'clock.]

THURSDAY, 26 *APRIL*, 1888.

MEMBER PRESENT:—

Mr. Street.

In the absence of a quorum, the meeting called for this day lapsed.

THURDSAY, 17 *MAY*, 1888.

MEMBERS PRESENT:—

Mr. J. P. Abbott, in the Chair.

Mr. Street, | Mr. Black,
Mr. Thompson.

Committee deliberated.

Present,—W. E. Hawkins, Esq. (*Solicitor for Mr. Tully*), in opposition to Thomas Millane's claim.

A. O. Moriarty, Esq. (*Chairman, Goulburn Land Board*), called in, sworn, and examined.

Cross-examined by Mr. Hawkins.

Witness withdrew.

W. H. Capper, Esq. (*Chief Clerk, Conditional Sales Branch, Lands Department*), called in and further examined.

Cross-examined by Mr. Hawkins.

Mr. Hawkins addressed the Committee.

Room

Room cleared.

Committee deliberated, and decided to pass Thomas Millane's claim.

Parties called in and informed.

W. H. Capper, Esq., called in and further examined.

Witness *handed in précis* of the case of Alexander Maclean (*Appendix CCC*); memorandum of the case of John Fenton (*Appendix DDD*); minute in the case of Amos Batty (*Appendix EEE*); statement of the case of Jonathan Warner, and letter from Chairman of Local Land Board (*Appendices FFF & GGG*); memo. in the case of the Scottish Australian Investment Company (*Appendix HHH*); statement of the case of Robert Cork (*Appendix III*); letter in the case of John Finneran (*Appendix JJJ*).

Room cleared.

Committee deliberated.

[Adjourned to Tuesday next at *Ten* o'clock.]

TUESDAY, 22 *MAY*, 1888.

MEMBERS PRESENT:—

Mr. J. P. Abbott, in the Chair.

Mr. Garrett,	Mr. Burdekin,
Mr. Alfred Allen,	Mr. Black.

W. H. Capper, Esq. (*Chief Clerk, Conditional Sales Branch, Lands Department*), called in and further examined. ce Schedule of Amendments.

Witness withdrew.

Preamble postponed.

Clause 1 read and *agreed* to.

Clause 2 read, amended, and *agreed* to.

Clause 3 read, amended, and *agreed* to.

Clause 4 read, amended, and *agreed* to.

Schedules read, amended, and *agreed* to.

Preamble read, amended, and *agreed* to.

Title read and *agreed* to.

Chairman to report the Bill with amendments to the House.

Name.	Description.				Place, date, and number of Conditional Purchase	Section.	Cause of illegality of purchase
	Area.	Portion.	Parish.	County.			
	a. r. p.					25 Vic. No. 1.	
George Joachim	320 0 0	162	Bama	Cadell	Moama, 20th February, 1873—2,744.	13	The conditions of selection were not wholly carried out. (87-6,490 Cor.)
William Joachim, junior	320 0 0	163	Bama	Cadell	Moama, 20th February, 1873—2,745.	13	
Annie Joachim	320 0 0	165	Bama	Cadell	Moama, 20th February, 1873—2,746.	13	
Sophia Joachim	320 0 0	168	Bama	Cadell	Moama, 20th February, 1873—2,747.	13	
Selina Joachim	320 0 0	166	Bama	Cadell	Moama, 20th February, 1873—2,748.	13	
John Thomas Joachim	320 0 0	167	Bama	Cadell	Moama, 20th February, 1873—2,749.	13	
Alexander Ryrie	40 0 0	58	Tinderry	Beresford	Cooma, 14th April, 1881—259	21	The Conditional Purchase was declared lapsed for non-receipt of declaration, which was shortly afterwards furnished. The Local Land Board held an inquiry, and decided to uphold the purchase to date, but in the meantime the run had been divided, and the land in question was included in the leasehold area of "Micalago" Holding, No. 207, Eastern Division, Gazetted 11th July, 1885. (87-3,284 Dep.)
Henry Jefferson Bate (now Edward P. Simpson).	40 0 0	404	Noorooma	Dampier	Bega, 8th January, 1880—2	21	The land does not adjoin applicants' previous Conditional Purchases of the same series, viz., 78-105 and 78-109. (87-1,040 Cor.)
Henry Jefferson Bate (now Edward P. Simpson).	49 3 0	405	Noorooma	Dampier	Bega, 15th January, 1880—3	21	
Edmund Rolfe	100 0 0	62	Ginninderra	Murray	Queanbeyan, 30th May, 1872—2,956.	22	Applicant was not resident upon the particular portion No. 36, the land in question adjoined, but resident upon another portion (No. 37) forming part of the same freehold property. (87-18,555 Dep.)
Edmund Rolfe	60 0 0	155	Ginninderra	Murray	Queanbeyan, 26th October, 1876—301.	22	The Conditional Purchases were separated from the freeholds, in virtue of which they were made by portion No. 14 of 60 acres, subsequently selected by the same applicant under Additional Conditional Purchase 78-328. (87-18,555 Dep.)
	40 0 0	156	Ginninderra	Murray	Queanbeyan, 2nd November, 1876—310.	22	
	50 2 0	157	Ginninderra	Murray	Queanbeyan, 6th June, 1878—178.	22	
	40 0 0	158	Ginninderra	Murray	Queanbeyan, 20th June, 1878—201.	22	
Rees Evans (now Edmund Walsh).	40 0 0	145	Thurralilly	Murray	Queanbeyan, 21st Feb., 1884—20.	14	Applicant (now deceased) did not reside upon the Conditional Purchase. It was found upon survey—which took place after selector's death—that the hut in which he had resided was not included within the boundaries of the portion. (87-51,237 Dep.)
Charles Gillespie	500 0 0	89 & 91	Nanami	Ashburnham	Molong, 25th October, 1883—228.	13	Part of the land, consisting of 288 acres (portion 89), is situated within Travelling Stock Reserve No. 633, notified 5th November, 1875; and upon this part applicant resides, and has made improvements. (87-33,843 Dep.)

John Fenton	98 2 0	48 & 254	Kangaloolah ..	Georgiana...	Carcoar, 11th March, 1880—27	22	Applicant was not resident upon the particular portion the land in question adjoined, but resided upon another portion, forming part of the same freehold property. (87-53,659D.)
John Fenton	45 3 0	44	Kangaloolah ..	Georgiana...	Carcoar, 3rd January, 1884—1	22	
Amos Batty..... ..	75 0 0	.....	Toogong	Ashburnham.	Molong, 19th April, 1883—84...	14	Selector, through misapprehension, did not reside upon the land in question, but resided some 12 chains to the south of it, on land which is now included in the leasehold area of "Toogong Run." (87-55,830D.)
Jonathan Warner	40 0 0	35	Cooyal	Phillip	Mudgee, 9th September, 1869—3,508.	22	The original Conditional Purchase was made by Jonathan and Frederick H. Warner conjointly, but the additionals in virtue thereof were made by each of the selectors separately, and not conjointly, as required by law. (87-6,845 Cor.)
Jonathan Warner	40 0 0	51	Cooyal	Phillip	Mudgee, 2nd May, 1872—2,278	22	
Jonathan Warner	40 0 0	124	Cooyal	Phillip	Mudgee, 19th October, 1876—167	22	
Jonathan Warner	100 0 0	125	Cooyal	Phillip	Mudgee, 8th March, 1877—37	22	
Frederick H. Warner (now Bank of New South Wales).	40 0 0	37	Cooyal	Phillip	Mudgee, 8th August, 1872 —4,867.	22	
Frederick H. Warner (now Bank of New South Wales).	40 0 0	52	Cooyal	Phillip	Mudgee, 12th August, 1875—190	22	
Frederick H. Warner (now Bank of New South Wales).	40 0 0	126	Cooyal	Phillip	Mudgee, 19th October, 1876—168	22	
Frederick H. Warner (now Bank of New South Wales).	100 0 0	127	Cooyal	Phillip	Mudgee, 1st March, 1877—33...	22	
Frederick H. Warner (now Bank of New South Wales).	40 0 0	128	Cooyal	Phillip	Mudgee, 8th March, 1877—36...	22	
Mary Lane (now R. B. Wallace and J. R. M. Robertson).	298 0 0	94	Teralba ...	Northumberland.	Newcastle, 8 May, 1884—9	13 (now 19) ...	Selector, having made a conditional purchase under the 13th section on 15th June, 1882, was not capable of making this application within five years from that date.
William Thorne (now R. B. Wallace and J. R. M. Robertson).	126 1 0	89	Stockrington..	Northumberland.	Newcastle, 8 May, 1884--10 ...	13 (now 19) ...	Selector, having made a conditional purchase under the 13th section on 26th July, 1883, was not capable of making this application.
Alexander Rodgers (now Bank of New South Wales).	92 0 0	46	Rusden	Gough	Glen Innes, 1st September, 1881—191.	22	Selector did not comply with the conditions of residence required by the Act, being under the impression that residence was not required, these applications having been made in virtue of a freehold formerly an improvement purchase.
Alexander Rodgers (now Bank of New South Wales).	100 0 0	45	Rusden	Gough	Glen Innes, 22nd December, 1881—258.	22	
Alexander Rodgers (now Bank of New South Wales).	100 0 0	43	Rusden	Gough	Glen Innes, 29th December, 1881—263.	22	
John Finneran	220 0 0	121	Towac	Wellington	Orange, 27th November, 1879—32.	21	Because it was served by a small area of 10 acres.
William Edward Murphy (now Mary Elizabeth Murphy).	320 0 0	73	Ballyroe	Georgiana...	Carcoar, 18th May, 1880—22 ...	21	Because, owing to ill-health and ultimate death, he was prevented from continuing residence.

1887.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE

CROWN LANDS PURCHASES VALIDATION BILL.

FRIDAY, 25 *NOVEMBER*, 1887.

Present:—

MR. ABBOTT,	MR. GARRETT,
MR. BLACK,	MR. STREET.

J. P. ABBOTT, ESQ., IN THE CHAIR.

Francis Henry Wilson, Esq., called in, sworn, and examined:—

F. H. Wilson, Esq. 25 Nov., 1887.

1. *Chairman.*] You are Chief Clerk in the Lands Department? Yes.
2. Do you produce the papers relating to the conditional purchases made by the Joachim family? Yes.
3. *Mr. Garrett.*] Do you hand in a *précis* of the case from the beginning up to the present time? Yes. [*Appendix A.*]
4. Is it correct? I have read the various papers and I think the *précis* is correct.
5. The pencil alterations which appear in the *précis* are correct? Yes; they were made by me.
6. What called forth this *précis*? A letter which was written by Mr. Andrew Armstrong as agent for the Joachim family, urging that the case might be reopened.
7. Do you produce a copy of the letter? Yes; it is dated 21st July, 1886.
8. Who was the Minister at that time? Mr. Copeland.
9. What action was taken on that letter? We tried to get a copy of the decision of the Privy Council in the case O'Shanassey *v.* Joachim. We only got a newspaper report of that decision lately. I hand in a copy of it. [*Appendix B.*]
10. You have every reason to believe that it is correct? Yes; I have not verified it in any way.
11. Did the Department try to obtain from the Supreme Court any record of the judgment? There is nothing in the papers to show that they did.
12. In 1884 there was an effort made, on behalf of the Joachims, to get a reversal of the forfeiture? Yes.
13. In what form was it made? A petition was presented to the Executive Council, signed by John T., Sophia, Selina, Ann, W. H., and William Joachim (the administrator to the estate of George Joachim, deceased), asking that the forfeiture of their holdings might be reversed.
14. How did it come before the Executive Council? It was presented to the Governor, who sent it to the Under Secretary for Lands, and the Minister, Mr. Farnell, submitted it to the Cabinet on the 27th August, 1883. It was considered by the Cabinet on the 19th June, 1884, and the following minute was written by Mr. Stuart:—"The Cabinet, having had under consideration the request to reverse the reversion to Her Majesty as Crown lands of the lands formerly applied for as conditional purchases by members of the Joachim family, decided that such cannot be done."
15. Do you hand in a copy of their petition? Yes. [*Appendix C.*]
16. Is the area of these selections in the leasehold or the resumed area? Within the outer boundaries of the leasehold area.
17. Was it included in the lease? I think so. The *précis* says, "Within the boundaries of the leasehold area, and treated as vacant in consequence of forming part of the leasehold area."
18. Do you know who divided the run? Mr. Copeland.

Miss Sarah Joachim called in, sworn, and examined:—

Miss S. Joachim. 25 Nov., 1887.

19. *Chairman.*] Where do you reside now? I am not a selector. I reside with my sisters (who are the selectors) on the selections at Warleigh, about 10 miles from Moama.
20. Do you remember your father, your sisters, and your brothers taking up the selections there in 1873? Yes.
21. And have the whole of the family been in possession of them ever since? Yes.
22. Your father has died since? Yes; on the 22nd of December last.
23. And George, one of your brothers, is dead? Yes.
24. Do you remember these selections being forfeited? Yes.
25. Notwithstanding the forfeiture, you have remained in possession? Yes.
26. Have you been interfered with at all by the Government? Never, until last Thursday three weeks, when Mr. O'Shanassey put some sheep on the selections. We drove them off.
27. You have not been interfered with by the Government? Not in any way.
28. Has any one else interfered with you? Only when Mr. O'Shanassey sent Mr. Warren with some men to put some sheep on the selections, and we resisted the attempt.
29. Do you know anything about the facts of taking up the land and the residences of the children? I know all about it; I was there at the time.
30. *Mr. Garrett.*] Your people have been residing on the land there since it was taken up? Yes; they have never been away.
31. Have they taken up any other selection? No.
32. It has been held by the family ever since they went there in 1873? Yes.
33. I understand that it was forfeited because they were not residing upon the land at the date of survey? Yes; at the date of a special inspection by Mr. Maunsell, land agent at Moama.
34. *Mr. Abbott.*] Did surveyor report non-residence? On survey the selections were found resident, and reported so by Mr. Finlay in June following date of selection.
35. And this led to the residence of Selina being slightly off the land surveyed in compliance with her selection?——
36. They were each living on what they thought formed a part of the selection? Yes.
37. But on survey it was found in some cases that the selection was not the same as it was intended to be? Yes. My father chained the selections himself.
38. He allotted the different residences to the different children who took up the land, and when the surveyor came along he altered the boundaries as set out by your father? Yes; because he pegged it out in error from the railway line. It threw some of the selections further back.
39. That put you out of your residence on the selection in some cases? Yes.
40. In whom are the selections vested now, your brothers, or each individual? Each individual.
41. Who inherits your father's interest in them? No one at all.
42. *Chairman.*] Did he make a will? No.
43. Is your mother alive? Yes.
44. *Mr. Garrett.*] Does your mother occupy your father's position in regard to the selections? Yes. She would have administered, but they said there was no estate to administer to but George's selection, if it was a valid one.
45. Who hold's George's selection? It will be held by mother when they allow us to administer.
46. *Chairman.*] Your mother will administer to his estate and your father's estate? Yes.
47. *Mr. Garrett.*] What was your father's name? William Joachim. One of my brothers is called William too.
48. *Chairman.*] Your father was not a selector himself? No.
49. Do you remember the date of the survey in July, 1873? Yes.
50. Do you remember whether the different holders were on the land at the time? Yes. It was Mr. Finlay, I think, who surveyed the land.
51. *Mr. Garrett.*] Have you any knowledge of whether they have mortgaged their right or claim to the selections or obtained advances on them? No; they have not.
52. *Chairman.*] These selections are now within the leasehold area? Yes.
53. Is there anything else you would like to tell the Committee. I suppose your father lost a great deal of money in defending his rights? I think he lost all he had. The only thing I would wish to say would be about the advances which Mr. O'Shanassey has been making to us lately. I have been doing all the business for mother since father died; my eldest brother would have come over, only that he was afraid to leave his selection. Since I have been over, Mr. O'Shanassey has been up to Moama to see me, and he said that he was prepared to be very friendly towards us, but what he meant by that I do not know. He afterwards tried to put his sheep on the selections, which of course we would not allow.
54. Do you know what money your father had when he went there? I cannot tell you, but I could find out. He sold out the farm in Victoria, which he had rented for over twelve years; he sold out all his effects.
55. Everything he had he brought into this Colony? Yes.
56. And all you have left are these selections? That is all.
57. I suppose the lawyers have got the most of the money? As long as we have the land we do not mind what the lawyers have. We have looked upon it as our home. We have a very nice home there; it is all we have.
58. *Mr. Garrett.*] The selectors have been using this land entirely as their own, grazing it themselves, or allowing others to graze it in their interest? We have always used it in our own interest. Never but once did we let the grass, and that was to Mr. Lyne during this year.
59. Did Mr. Lyne pay you or Mr. O'Shanassey for the grass? He took the grass for three months for £90. He paid down £45 before my brother allowed his sheep to go into the paddock. At the end of the three months he was to have paid the balance of the money. The agreement was signed by his manager, Mr. Cottrel. The sheep went out of the paddock a fortnight before the three months was up. Of course when it was up my brother wrote to the manager for the money. I think he wrote three times and he got no reply. We wrote then to Mr. Lyne, and he said that Mr. O'Shanassey threatened proceedings if he paid the money to us, but as soon as it was explained he was quite willing to pay us. I came over here, and nothing has been done about it since.
60. The money has not been paid since? Not to us.
61. Do you know whether it has been paid to anyone? I do not know; I should not suppose so by Mr. Lyne's note.

John Moore Chanter, Esq., M.P., called in, sworn, and examined:—

J. M. Chanter, Esq. 25 Nov., 1887.

62. *Chairman.*] You are a member of the Legislative Assembly? Yes.
63. You reside at Moama? Yes; I have resided there for ten years.
64. For how long have you known the Joachim family? About sixteen years.
65. Do you know these selections of theirs on Mr. O'Shanassey's run? Yes.
66. Have you known them during the whole time of your residence at Moama? Yes; and previously.
67. Have the family been constantly residing there and using the lands? Ever since the day of the selection. That I know as a matter of fact.
68. Have they been well used—that is, well improved? Yes; they have been well improved.
69. The best use has been made of them? Yes; they have been partly cultivated.
70. Is it good country for grazing and agricultural purposes? It is very good; it is partly plain, and partly timbered.
71. *Mr. Garrett.*] You know the history of these cases very well? Yes.
72. Are you aware that the Government voted a sum of money to enable them to take their case before the Privy Council? I am not aware of that fact. I know that the public contributed money to that end.
73. Has it come to your knowledge that these selections have ever been held, either directly or indirectly by anyone else but the Joachim family? I am perfectly satisfied that they have not. They have been held entirely in the interests of the Joachim family; I know the history and the circumstances of the family so well.
74. And they are now held entirely in their interests? Yes; and occupied by them solely for their use and benefit.
75. You are in business at Moama? Yes; I am constantly doing business with the family and their neighbours.
76. What would be the loss to the Joachim family if they were to lose the selections now? In my opinion it would mean complete ruin to them.
77. If the selections were good in law and held by them, and had to be sold, what would they bring in the open market? They would bring about £6,000; that is £3 an acre as they stand improved.
78. Transactions have taken place in like land, I suppose, to justify you in making that assertion? Yes; transactions have taken place in land immediately alongside at nearly twice that sum; in fact the free-hold of the adjoining station (Mathoura) has been sold at £6 per acre.
79. *Chairman.*] You are perfectly satisfied that every one of the Joachims is a *bonâ-fide* selector? Yes; quite. I have reason to know it.
80. *Mr. Garrett.*] Have you any knowledge of the amount which was subscribed by the public to defray Mr. Joachim's law expenses? No; I could not tell you the amount. I could supply the Committee with the information later on.
81. Perhaps you could also inform the Committee at the same time what was the amount of the costs which were absolutely incurred, and to what extent that subscription satisfied them? I shall use every endeavour to obtain the information for the Committee. I think it can be obtained.

Miss Sarah Joachim recalled and further examined:—

Miss S. Joachim. 25 Nov., 1887.

82. *Mr. Garrett.*] You have heard Mr. Chanter's evidence. From your knowledge of your father's affairs can you say what was the amount of the public subscription? I cannot say exactly, but I think it was nearly £300.
83. Can you say what was the amount of the law costs that he was put to; does it appear in the papers in any way? I do not know whether it appears in his papers. I think it appeared in the *Sydney Morning Herald.* I know that he was served with a writ for £900 by his solicitors.
84. From your knowledge of his affairs can you say what he had to pay in law costs? I do not think I can tell you. I could find out, I suppose, by writing home and seeing his books.

Francis Henry Wilson, Esq., recalled and further examined:—

F. H. Wilson, Esq. 25 Nov., 1887.

85. *Chairman.*] In the case of William John Ball what is the point which requires validating? The date of the selection was the 5th October, 1882, and it was found to be in the reserve from conditional purchase on account of the population of the town of Temora, under the census of 1881, published on the 30th August, 1882. The census papers were all burnt, and it was decided that a notification in the *Gazette* was to be taken as defining the boundaries of the reserve.
86. Does it appear by the papers that it was known in the Department that this population reserve existed on the date of selection, or did the local land officer know of it? No. The only notification of the existence of the population reserve was a paper submitted to both Houses of Parliament, on August 30th, 1882. The census papers having been burnt in the Garden Palace fire, on 22nd September, 1882, no other formal notification of the reserve was made.
87. No objection has been made by the lessee or by anyone else to his selection? No.
88. And, as far as you know, it does not conflict with the rights of any body? No.
89. What is the point in the case of Thomas Henry Beattie? The same as Ball's case. He applied for 480 acres, and the surveyor measured 363¾ acres, which was all the land available then, the rest of the land being within the Temora population reserve.
90. The population of Temora increased very suddenly about this time? Yes; it suddenly rose, owing to the diggings in 1881.
91. In this case, too, there has been no protest against the selection? No.
92. And the selector has been in possession ever since, I suppose, fulfilling the conditions without interfering with the rights of any person as far as the Department know? Yes.
93. In the case of Isaac Porter, what are the particulars? It is like the two previous cases. The surveyor measured 380 acres.
94. Who recommended the validation of the selections? Mr. Farnell made a recommendation on the 30th June, 1884.
95. There was no conflicting interest? No.
96. Are there any similar cases in the schedule to this Bill with regard to that particular reserve? No.

F. H. Wilson, Esq. 25 Nov., 1887.

97. How does the selection of William Blackburn come to be recommended for validation? I hand in a statement which explains the claim for compensation in connection with the case of Blackburn *v.* Flavelle. [*Appendix D.*]
98 Why is it necessary to validate the selection of Nicholas Bornholt? I hand in an explanation of the case. [*Appendix E.*]
99. At the date of the first selection this 640 acres was within the pastoral lease? Yes
100. And that selection was contested by the lessee of the run? Yes.
101. At the date of the second selection the land was not within a pastoral lease, it had been withdrawn? Yes.
102. But the improvements which barred the first selection were still there? Yes.
103. And in consequence of that the Minister could not approve of the selection? Mr. Farnell could not, but afterwards on representations made by the agent in Sydney, the case was referred to Mr. Copeland. The Under Secretary says "the case has been before submitted in reference to similar requests with the result that it has been decided not to legalise the conditional purchase. It is questionable, however, whether it would not be well to remove any doubt by such a course," and on that Mr. Copeland wrote, "It may be included in the Validating Bill now being prepared."
104. What is the case of John Bugden? It is an additional purchase separated from the original by selections of another series belonging to himself.
105. Was it a measured portion? No. It seems that the land does not adjoin the conditional purchase in virtue of which it is taken up. It is separate.
106. Do you hand in a statement of the case? Yes. [*Appendix F.*]
107. What is the case of William Cox? This case is stated by the Board. I hand in a copy of their statement. [*Appendix G.*]
108. Why does Michael Costello's selection require to be validated? I hand in a memorandum of the case. [*Appendix H.*] The case was referred to the Land Board for inquiry at the instance of Mr. Spring, and they suggested that the conditional purchase might be included in the Validating Bill.
109. What is the case of Henry Harry Cooke? I hand in a copy of the office memorandum. [*Appendix I.*]
110. He took it up by virtue of two improvement purchases? No; under the 13th section.
111. He took it up as an additional? No; as an original.
112. With regard to the case of George Andrew Crawford, I suppose it is a mineral conditional purchase? No; it is taken up under the 14th section, and owing to roads and to the reserve, they could only measure 35¾ acres.
113. *Mr. Garrett.*] It would have been good if they could have measured 40 acres? Yes.
114. *Chairman.*] He applied originally for 320 acres, the Minister approved of giving him 200 acres, and afterwards, owing to roads and to the reserve, the surveyor was able to give him only 35¾ acres? Yes.
115. What is the case of Frederick A. M'Evoy? It was declared void on account of coming within the population boundary of the town of Gundagai. No notification had been sent to the local officers of the Department, and they did not know that it had been so included. Mr. Copeland says, "In view of the fact that the alteration of the population boundary had not been notified to the local office, and the purchase was made in good faith, the conditional purchase may be included in the next Validating Bill."
116. As a matter of fact it was not locally known that this land was not open to selection? No.
117. It was only after it had been selected by the applicant that it was discovered that it was within the population area? Yes.
118. In the case of the Commercial Banking Company of Sydney, what are the particulars? I hand in a *précis* of the case. [*Appendix J.*]
119. The selector has never had a refund of his deposit? He returned the refund voucher. He has never accepted the refund.
120. What is the case of Henry Davis? I hand in a memorandum of the case. [*Appendix K.*]
121. What is the case of John Fagan? I hand in a statement of the case. [*Appendix L.*]
122. Was there any report by the Local Land Board on this case? Yes; I hand in a copy of it. [*Appendix M.*]
123. What is the case of Patrick Fitzpatrick? I hand in a statement of the case. [*Appendix N.*]
124. What is the case of Thomas Flynn? I hand in a memorandum of his case. [*Appendix O.*]
125. What is the case of William Charles Freeman? I hand in a memorandum of his case. [*Appendix P.*]

FRIDAY, 2 DECEMBER, 1887.

Present:—

Mr. J. P. ABBOTT,	Mr. GARRETT,
Mr. BLACK,	Mr. STREET.

J. P. ABBOTT, Esq., in the Chair.

Francis Henry Wilson, Esq., recalled, and further examined:—

F. H. Wilson, Esq. 2 Dec., 1887.

126. *Chairman.*] On what ground does David Gallagher's selection require to be validated? I hand in an office memorandum of this case. [*Appendix Q.*]
127. What are the particulars in William Green's case? I hand in a memorandum of the case. [*Appendix R.*]
128. David M. Garnock's case? I hand in a statement of the case. [*Appendix S.*]
129. John Harvey's case? I hand in a *précis* of the case. [*Appendix T.*]
130. James Hollow's case? On the 13th March, 1870, he applied for an additional conditional purchase of 40 acres. This was cancelled, being for land within the Gulgong Gold-field reserve from conditional purchase. A report was obtained from the Mines Department as to whether there was any objection to the land being withdrawn on account of gold, and they having reported that there was no objection, and the case having been represented by Mr. Wall, M.P., it was recommended that his conditional purchase could not be validated under section 138, but it would appear that the land should be withdrawn from the gold-field and thrown open to selection. It was recommended by the Under Secretary, and Mr. Secretary Copeland decided that it should be included in the Validating Bill. 131.

F. H. Wilson, Esq. 2 Dec., 1887.

131. George Jackson's case? On the 27th December, 1883, he applied for a conditional purchase of 100 acres. It was declared void, being in a restricted gold-field, on the 11th September, 1884. The surveyor measured 100 acres, and reported on the 9th February, 1886, that the selector was then resident on the land, and had effected improvements of the value of £136 8s. The area was withdrawn from the gold-field reserve on the 4th September, 1884. On the 30th September, 1884, the selector applied for a duplicate refund voucher, which was sent him on the 30th October, 1884, and on the 21st October, 1886, he asked that the conditional purchase be validated. It was discovered that the deposit had not been refunded, and the case was recommended to the Minister, who approved of it being included in the Validating Bill.
132. It does not interfere with anybody else's interest? No.
133. *Mr. Garrett.*] Is there anything from the lessee against Jobson's case? There is a protest against it by the lessee, Mr. Macpherson. [*Appendix U.*]
134. James Keohane's case? On the 23rd March, 1882, James Keohane applied for a conditional purchase of 40 acres at Bourke. It was declared void on the 22nd March, 1884, the land being part of reserve number 505.
135. Have you a *précis* of the case? No; it rests on the fact that it was declared void two years after the additional purchase was taken up.
136. Has he improved it and made a declaration? Yes. It was eight months before he heard anything about its being wrong, and then the surveyor told him, after the lessees had protested against his application on the ground that the land formed part of reserve number 305.
137. *Mr. Garrett.*] What did the lessee say? I hand in a copy of the communication addressed on his behalf, to the Minister, of Keohane's declaration and of Mr. Secretary Copeland's minute. [*Appendix V.*]
138. *Chairman.*] Thomas Leslie's case? Thomas Leslie applied on the 17th November, 1881, for an original conditional purchase of 640 acres. On the 16th November, 1882, a survey was made, and the plan accepted on the 23rd May, 1883. On the 17th March, 1884, the selector applied for a refund deposit on the ground of non-survey within twelve months. The case was sent to the Board. I hand in a copy of their report and the minutes which were written upon it. [*Appendix W.*]
139. Daniel Murphy's case? I hand in a *précis* of the case. [*Appendix X.*]
140. Donald M'Lean's case? In this case the additional conditional purchases were taken up by Mr. Donald M'Lean, the transferee, from J. M'Lean, of certain additional conditional purchases at a time when the original, through some error in the register, had not been transferred to him.
141. *Mr. Garrett.*] Was it really an error in the register? Yes.
142. *Chairman.*] Thomas M'Cormick's case? He applied for a conditional purchase of 80 acres on the 15th April, 1880. The case was referred to the Board, who reported, "It appears that the conditional purchaser was not resident on his freehold at the date of the conditional purchase, but it further appearing that he had been resident thereon at a former period for seventeen years, and having regard to the validating section of the Act of 1880, we were of opinion that the conditions of purchase had been satisfied, and that it should be passed." The Under Secretary minuted, "The 138th section does not apply, as, although it meets the case so far as the failure to be resident at date of conditional purchase, it requires that all conditions must be thereafter fulfilled." Mr. Secretary Farnell then approved of it being forfeited, and a short time afterwards he said, "I think the conditional purchase should, under the facts and circumstances, be validated."
143. Hugh M'Kenzie's case? I hand in a *précis* of the case. [*Appendix Y.*]
144. John M'Namara's case? He became the holder of 163 acres, part of a freehold portion of 640 acres belonging to Charles Campbell. M'Namara having become the possessor of it took up the several additional conditional purchases mentioned in the Bill, under the 22nd section of the Act, as adjoining his freehold, but as his freehold formed part of an original grant he was not entitled to take up the land legally, and therefore it was necessary to give him a title by validating his additional conditional purchases.
145. *Mr. Garrett.*] Was there any part of the original conditional purchase cut out and converted into a freehold separate and distinct? No; the 640 acres was never a conditional purchase.
146. *Chairman.*] Alexander M'Clenaghan's case? On the 27th May, 1880, he took up 320 acres. The case was referred to the Board for fulfilment of conditions. The Board reported, "The selector in this case is a *boná-fide* settler, and held a number of conditional purchases. It appears this was taken up only two days after the passing of the Act of 1880, which requires five years residence; of this fact the selector was not aware, and only completed his three years. It is very hard that he should lose his land and improvements, but we have no alternative but to report conditions not to have been fulfilled, and to recommend this conditional purchase be forfeited." Mr. Secretary Copeland approved of the forfeiture, and subsequently on the case being again before him he said, "On consideration of this case at the instance of Mr. Inglis, M.P., I am inclined to think it a case of considerable hardship, and as except in the error of residence it appears otherwise perfectly satisfactory it may be included in a Validating Bill."
147. Mary Ann Orr's case? On the 20th September, 1876, Mary Ann Orr applied for 640 acres. It was declared void, as the land applied for was within reserve 228, notified on the 10th February, 1874. Mr. Secretary Hoskins decided that an area of 90 acres on which Miss Orr had erected the most valuable of her improvements should be granted to her. Mr. Barbour represented that she had spent £1,000 in improving her selection, and asked that a larger area might be allowed to her. I hand in a *précis* of what took place after that. [*Appendix Z.*]
148. *Mr. Garrett.*] What is the value of the improvements? On the 26th March, 1881, the surveyor reported that the value of improvements within the area mentioned was £572.
149. *Chairman.*] That is within the 90 acres? Yes.
150. *Mr. Garrett.*] Does he mention the nature of the improvements? On the 1st July, 1878, Mr. Inspector Carne reported, "weather-board house, nine rooms, floored, ceiled, and lined, worth £450; 2 miles wire fencing, £160; 80 chains brush fencing, £20; well, £37; total £667."
151. It has been approved all through to give her 90 acres? Yes; and now Mr. Secretary Spring decided to give her more.
152. For what reason? He gives no reason.
153. *Chairman.*] Jules Schrieber's case? On the 20th March, 1879, Jules Schrieber applied for a conditional purchase of 40 acres. The case was sent to the Board, and I hand in a copy of their report. [*Appendix AA.*]

F. H. Wilson, Esq. 2 Dec., 1887.

154. John Perrett's case? In this case John Perrett applied on the 8th August, 1878, under the 22nd section, for 40 acres of land, being portion 4, and also the forfeited conditional purchase of J. D. Perrett. He applied for it in virtue of freehold portion number 2 of 41 acres 38 perches. It is, however, separated from that portion by applicant's freehold portion 1 of 40 acres, also the property of J. D. Perrett. On the case being submitted Mr. Secretary Copeland decided that it should be included in the Validating Bill.
155. Charles William Porter's case? A married woman, Mary Ann Porter, with the consent of her husband, applied for a conditional purchase of 640 acres. I hand in a copy of a minute on the case. [*Appendix BB.*]
156. George Power's case? I hand in a *précis* of the case. [*Appendix CC.*]
157. Matthew Roach's case? It was not discovered until all the conditions had been fulfilled and certificate issued that additional conditional purchase 73-5,243 was separated from the original conditional purchase in virtue of which it was made. Upon these grounds it was approved for forfeiture, but in view of the length of time that has elapsed it is now proposed to validate it.
158. *Mr. Garrett.*] It was allowed to go on for years? Yes. It was discovered after the certificate was issued that it did not adjoin the original.
159. What is the case of David Robertson, junior? I hand in a *précis* of the case. [*Appendix DD.*]
160. The validation will not include the tank now? Yes; it is shown by hatching on tracing A.

TUESDAY, 13 *DECEMBER*, 1887.

Present:—

MR. J. P. ABBOTT, | MR. McMILLAN,
MR. GARRETT, | MR. STREET.

J. P. ABBOTT, ESQ., IN THE CHAIR.

M. J. Macnamara, Esq., solicitor, appeared on behalf of Mr. Matthew O'Shanassy.

Miss Sarah Joachim recalled and further examined:—

Miss S. Joachim. 13 Dec., 1887.

161. *Mr. Macnamara.*] You gave evidence at the last meeting of the Committee that there was no mortgage or any security over these selections? Yes.
162. That, I believe, is strictly correct? Yes.
163. As a matter of fact, I believe, your father was largely in debt at the time of his death? I do not know what you mean when you say that he was largely in debt.
164. Was he in debt at all? Naturally there were personal debts, but none that would affect his children's claim to the land.
165. Do you know that he was indebted to Mr. J. T. Brown in a large sum? I know that he was indebted to him, but I do not know that it was in a large sum.
166. Was it as much as £400? I do not know that it was as large a sum as that, but I know that he did owe Mr. Brown some money.
167. Was there any arrangement or understanding to the effect that if you got these selections validated your father's debts should be paid? There was no understanding as far as that goes, but we intend to pay my father's debts whether we get the selections validated or not.
168. Was there any understanding with any one assisting you that if you got the selections validated you would pay your father's debts? I think I can say no. Of course the selections are our living, and the honor of our father is connected with the selections. His debts will be paid under any circumstances.
169. You feel in honor bound to pay those debts? Yes, whether we get the selections validated or not.

Matthew O'Shanassy called in, sworn, and examined:—

Mr. M. O'Shanassy. 13 Dec., 1887.

170. *Mr. Macnamara.*] You are the lessee of Moira Run, on which these selections are situated? Yes.
171. I think at the time these selections were forfeited you were not living at Moira? No; I was at Bourke. My brother, who has since died, was living on the station then.
172. Your father also is dead? Yes.
173. Some point has been made of the fact that you have not disturbed these selectors in their occupation. I should like you to explain to the Committee your reason for not having disturbed them? I was transferred from Bourke to manage Moira station. My brother was not very well, and went to England. When I came to the run the Joachim case was notorious all over the country, and attracted a number of selectors from Victoria, the run being just over the Victorian border. I had so much work on my hands at that time that I had not time to bother about land over which there was any dispute. I had all my work cut out to secure the portion of the area that was left. Another reason for my not taking any immediate steps was that I did not wish to have any litigation at all. I thought I should be able to settle the matter amicably. I have been on the run ten years and I have not had a single dispute with a man or a woman on it.
174. Then we are to understand that you have made every effort to settle this matter amicably? Yes.
175. You have made proposals which have been rejected? I discovered the best friend of the Joachim family, and found that he was a gentleman living at Sandhurst, and I asked a friend of mine, a stock and station agent, to see this gentleman and arrange that both of them should subsequently see the Joachim family and submit my proposal, which was to this effect,—that I was willing to purchase the blocks of land to which they thought they had a claim from them at a valuation agreed upon by the two gentlemen. I said that I would be willing to pay whatever these gentlemen agreed upon. There were certain improvements, such as fencing and small tanks on the forfeited lands, and I said that I should be willing to pay for the improvements.
176. You made that offer in the hope of getting the thing settled, without acknowledging their legal rights? I did not want to have any litigation if I could settle the matter amicably.
177. You have inherited this property since your father's death, and you desire possession of this land? Yes.
178. Is it on your leasehold area? Yes.

179.

Mr. M O'Shanassy. 13 Dec., 1887.

179. Can you say as a matter of fact whether your father paid rent for this land before it came under the new Land Act? Yes; and under the new Act as well, in fact, ever since the selections were forfeited.
180. That is about fourteen years ago? Yes.
181. The advances referred to by Miss Joachim are those which you have already described, and which you made with a view to the settlement of the matter? Yes; I tried to settle the thing amicably, and the gentleman to whom I have referred, a friend of theirs, recommended that they should do what I suggested. I may also mention that there was a house on one of the forfeited selections in which Mrs. Joachim resided. I said that if she liked to remain there I would fence in 40 acres for her, and that she was at perfect liberty to do so. I said that her being there would not interfere with the run at all.
182. *Mr. Garrett.*] At what rent per acre is the leasehold area assessed at? At 3¾d.
183. How many acres are there in dispute? 1,920.
184. Do you consider the rent a fair rent—does it represent the value of the land to you? I consider it fair as a Government rental.
185. But does it represent the grazing value of the land to you as a tenant? I do not know. If I had to get the land from anyone who owned it I should have to pay considerably more than that. Grazing land in that neigbourhood is leased up to 4s. and 5s. an acre.
186. If you were parting with your leasehold interest in the land, you would represent it as being worth more than 3¾d. per acre to you? Yes.
187. You would represent it as being worth 4s. an acre to you—I refer of course to the particular block on the run which the Committee have under consideration? I think so, under the circumstances. The block would be worth from 3s. to 4s. an acre to me.
188. You have a lease for ten years? Yes.
189. And about three are gone? Yes; I have paid for three.
190. So that your remaining interest is, roughly speaking, for about seven years? Yes.
191. What would have been the amount of money you would have had to pay to the Joachims if they had accepted your proposal to settle this case? That would have been left to the arbitrators. I should have had to pay whatever they agreed upon.
192. In your opinion what would have been the value you would have had to pay for the two blocks to which the family had a good title? I should think the outside price for the two blocks would be £2 10s. per acre.
193. With a liability to pay the other 15s.? I should consider that the value of the land would be about £2 10s. per acre paid up.
194. What is the value of the improvements on the selections? They are of very little value to me. There is a boundary fence, which I do not require, and there are some tanks, but I have the whole country supplied with water.
195. Could you not name a sum for them? I should think about £200 for the lot.
196. Since you have been in possession as a leaseholder, have you done any act to assert your hold over this land as a leaseholder? Yes. When I found the negotiations failed I instructed my manager to put on sheep. He did so, and the sheep were put off. He came to me and told me what had been done, and asked me what action he should then take. I went down to see Miss Joachim, and I found that she was in Sydney. I have endeavoured to do everything in an amicable way up to the present time.
197. You have in no way derived benefit or advantage for this land since you have been paying rent for it? Not the slightest.
198. Where is the house in which the elder Mrs. Joachim has been living? That is on the forfeited land.
199. Do you reckon that in the value of £200? I have not seen the house, except at a distance. Of course it would be of very little value to me. I thought that if the arrangement which I suggested were come to Mrs. Joachim might like to reside there. She could have had the house with pleasure so far as I was concerned.
200. Then you have not included the value of the house in your valuation of £200? I did not look upon the house as being of much value to me. I thought that £200 would be a fair thing for whatever there was.
201. *Mr. McMillan.*] There seems to be a discrepancy between the leasing value and the freehold value? The land at present disconnects my run, and, of course, would be more valuable to me than to anyone else.
202. Do you know of any case in your neighbourhood in which the conditional purchase or conditional leases are rented? Yes.
203. What are the rentals paid? 4s. per acre. Some of Mr. Virgoe's land is leased at 4s. and 5s. per acre. The leases were sold at auction.
204. For cultivation? Yes; and farming.
205. Do you hold any lease of that character with respect to any conditional purchases within the boundaries of Moira? No; not one.
206. As the leaseholder of this area of 1,920 acres, have you made any calculation as to the claim you would make for the loss of the area upon the Crown or anyone else? No.

WEDNESDAY, 28 *MARCH*, 1888.

Present:—

MR. J. P. ABBOTT, | MR. GARRETT,
MR. THOMPSON.

J. P. ABBOTT, ESQ., IN THE CHAIR.

Willian Henry Capper, Esq., called in, sworn, and examined:—

W. H. Capper, Esq. 28 Mar., 1888.

207. *Chairman.*] What is your position in the Lands Office? I am clerk-in-charge of the Conditional Sales Branch.
208. You see in the schedule of this Bill to validate certain conditional purchases, the conditional purchases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan? Yes.
209. These conditional purchases have been the subject matter of an inquiry by a Select Committee of the Assembly, and the Committee recommended that they should be validated? Yes; they recommended that Thomas Ryan's conditional purchase should be validated.

210.

W. H. Capper, Esq. 28 Mar., 1888.

210. The reasons for validating his selection would also apply to Ellen Ryan's and Anastasia Ryan's selections? Yes; although these are not in the reserve to the same extent as are Thomas Ryan's selections
211. So far as you know, these people were strictly within what they believed their rights when they made their application? Yes.
212. And they were to some extent misled by a statement made to them by an officer of the Department in the first instance? Yes. He was acting simply as a friend.
213. What is the case of David Ryrie? This conditional purchase was taken up by virtue of an original 320 acres which had been fully improved to £1 an acre. Mr. Inspector Spicer informed the selector that in such cases it was not necessary to put any improvements on additionals. The Board, of course, found that the conditions as to improvements had not been completed within the time required by law for the completion of those improvements. They were of opinion, however, that the selector had to some extent shown his desire to comply with the conditions by erecting good improvements on the land since that date, but that in accordance with law the conditional purchase was forfeited.
214. What is the case of Phillip Sharkey? It is situated within the Cargo Gold-field reserve from conditional purchase, and almost wholly within the Cargo population boundary.
215. Was it pure accident on his part—there was nothing defiant about it? No. Phillip Sharkey and Michael Sharkey both selected within the gold-field. The application was subsequently declared void, and having both made valuable improvements they applied specially to have the conditional purchases reinstated.
216. Did they make improvements before they knew they were within the gold-field, or was it after they were warned? The conditional purchases were taken up on the 3rd and 10th March, 1881, and refund vouchers were issued on the 27th and 21st July, respectively.
217. *Mr. Garrett.*] Of the same year? Yes. They were cases which could not come under the 138th section of the Act of 1884.
218. *Mr. Thompson.*] When was the gold-field proclaimed? 27th July, 1876.
219. *Mr. Garrett.*] Was the population boundary created by the census of 1881? Yes.
220. Are they open to be mined upon? Yes.
221. *Chairman.*] The population boundary was not known at the date of the selection to the land agent? No.
222. What is the case of George Smith? It is within the population boundary.
223. *Mr. Garrett.*] It is a case of the same character as we have been dealing with? Yes.
224. The greater part of the land applied for is within the reserve on account of the population of Wardell? Yes.
225. When was it taken up? The conditional purchase on the 12th April, 1883, and the additional conditional purchase, on the 3rd May, 1883. The land was unmeasured at the date of selection, consequently the application was sent to Mr. Surveyor Hunter, on the 17th May, 1883, with a view to measurement. His measurement was received in the office on the 6th May, 1884, and it was found then that the greater part of the land applied for was within the reserve, on account of the population of Wardell, according to the census of 1881. The applicant had resided, or was residing when the surveyor was there, and had improved the land to the extent of £150, by erecting a house, £100, and by clearing, £50.
226. *Chairman.*] What is the case of Jacob Stadtmiller? The area of the land available was less than the minimum allowed by the law.
227. *Mr. Garrett.*] I suppose it is good in every other respect, except it is less quantity? Yes.
228. *Chairman.*] What did he apply for? 40 acres, but it was found on examination of the plan in the Department, that the portion contained 38 acres only, and that there was no more available land adjoining to make up the deficiency.
229. What is the case of John Sands and John Samuel Sands? The selectors did not reside upon the conditional purchase or upon the freehold in virtue of which it was made.
230. *Mr. Garrett.*] What is their justification, or their excuse in this case? I hand in an explanation by Mr. F. Cumming, who acted as agent for the selectors, together with a memo. written thereon by Mr. Secretary Farnell. [*Appendix EE.*]
231. *Chairman.*] It had not been necessary up to the year previously. The Act of 1875 was the first which made it necessary? Yes; it required three years' residence.
232. *Mr. Garrett.*] Did the Board or any one else report upon it? Mr. Commissioner Burne reported upon it on the 7th August, 1884, to the following effect: "By the evidence of one of the selectors in this case, J. S. Sands, it will be seen that they have never resided on the adjoining freehold or upon the selection in question."
233. What is the case of John Sager? I hand in a *précis* of the case. [*Appendix FF.*]
234. *Mr. Garrett.*] It is not making the conditional purchase good if it is not good in every other respect? No.
235. Did the land agent warn him at the time? No.
236. Was it formally applied for by Green? It was formally conditionally purchased by Green. The land agent evidently accepted the withdrawal as final.
237. *Chairman.*] What is the case of John Smyth? The land applied for was situated at the date of selection within the population boundary of the village of Goolagong by the census of 1881, published 30th August, 1882. The application was balloted for, and the successful tender was John Smyth.
238. *Mr. Garrett.*] When was the mistake found out? The selector was informed on the 24th June, 1884, that the land was in the population boundary of the village.
239. I suppose it was not found out until the surveyor went to survey? It was found out in the Department. In the mean time the selector had effected improvements to the extent of £50 at least.
240. *Chairman.*] What is the case of Emanuel Thompson? It was taken up in virtue of part of a freehold, the area of which exceeded that allowed by law.
241. *Mr. Garrett.*] How much does he exceed the quantity? I hand in a synopsis of the case. [*Appendix GG.*]
242. *Chairman.*] What are the cases of Patrick Tully, senior? I hand in a *précis* of his cases. [*Appendix HH.*]
243. *Mr. Garrett.*] Who recommended the validation of these selections? Mr. Secretary Garrett, on the 12th April, 1887.

W. H. Capper, Esq. 28 Mar., 1888.

244. *Chairman.*] Did Tully take up the conditional purchase by virtue of the freehold originally? By virtue of amalgamated freeholds. Mr. Garrett approved of it being included in the schedule to this Bill.
245. Is there any conflicting interest in this case? No. The *précis* gives a history of the case.
246. What is the case of Henry Edward Bigg? This is a selection under the Act of 1884. I hand in a copy of the minutes leading up to the inclusion of the case in the schedule to special Bill. [*Appendix II.*] It will be seen that the conditional purchase in question was illegally granted, for the land comprised in an existing purchase 84–385 in Geo. Lewis' name, who stated in his declaration attached to his application 86–40 for a fresh selection, that he had abandoned his former conditional purchase.
247. What do you mean by abandoning all claims? He applied on the 29th June, 1886, for a refund of his deposit.
248. *Mr. Garrett.*] On what ground? It is not clearly stated.
249. Who approved of it being included in this Bill? Mr. Secretary Garrett, on the 10th May, 1887.
250. They have both been confirmed by the Board? Yes.
251. *Chairman.*] What is the case of James Peak? The reason is that the applicant did not enter into residence within three months of the date of confirmation of his application. I hand in a copy of the explanation which was given by the agent acting on his behalf, and evidence taken before the Board at the inquiry on the case. [*Appendix JJ.*]
252. *Mr. Garrett.*] How long was it before he went to reside on the land? It was a month after the three months.
253. What does the Department say to it. Was an inquiry made about it? Yes. The Milton Board inquired into the case of this selection on the 14th December, 1886. They found that the purchaser did not enter into residence within three months from the date of confirmation, and that therefore he had not fulfilled the required conditions, and they recommended forfeiture.
254. What evidence was given before the Board? I hand in a copy of Mr. Peak's evidence.
255. *Chairman.*] Was there any other evidence? I hand in a copy of Mr. Inspector Brown's evidence.
256. What is the feature in the cases of James Tyson? They are within water reserve No. 1,070.
257. *Mr. Garrett.*] Are they all alike? Yes.
258. *Chairman.*] The whole of these portions in Tyson's name were sold by public auction? Yes.
259. They turned out then to be within a water reserve? Yes.
260. *Mr. Garrett.*] The Crown sold them in ignorance that the land was within a water reserve? Yes.

WEDNESDAY, 18 *APRIL*, 1888.

Present:—

MR. J. P. ABBOTT, | MR. A. ALLEN,
MR. GARRETT.

J. P. ABBOTT, ESQ., IN THE CHAIR.

William Henry Capper, Esq., recalled, and further examined:—

W. H. Capper, Esq. 18 April, 1888.

261. *Chairman.*] You produce papers in the case of Robert T. Hannah, whose case is mentioned in schedule B. It appears to have been an application for an improvement purchase, made in virtue of an alleged authorized occupation, and a business license and miner's right. It appears, however, that the land applied for was not embraced in a gold-field? I hand in a *précis*. [*Vide Appendix KK.*]
262. *Mr Garrett.*] Is that a correct statement of the facts? Yes. The conflict mentioned in the *précis* has been satisfactorily disposed of, and the claim now under the consideration of the Committee, if allowed, will in no way operate to the detriment of anyone else.
263. *Chairman.*] Do you produce the papers in the case of Thomas Morris, also mentioned in schedule B, whose improvement purchase is stated to have been within reserve No. 12 from lease? Yes. [*Vide Appendix LL.*]
264. *Mr. Garrett.*] I suppose the Department are satisfied that the improvements were upon the land prior to the 26th July, 1876, when a Government notice barring improvements upon reserve was issued? Yes.
265. I suppose the Department have satisfied themselves that there is some foundation for the statement that the application made in 1873 miscarried? Yes. It also appears from reports from district surveyor Fisher, and by licensed surveyor Rae that the improvements on the 1st January, 1873, were valued at £700.
266. And the surveyors would not have reported except on application? Of course not.
267. *Chairman.*] Do you produce a *précis* in the case of Alexander M'Vean, in schedule B, whose improvement purchase is stated to be within a reserve from lease on account of the population of the town of Howlong, as well as within other reserves from lease and sale? Yes. [*Vide Appendix MM.*]
268. *Mr. Garrett.*] Are you satisfied that the contents of that *précis* are in accordance with the document? Yes.
269. *Chairman.*] In the case of N. P. Nielson, also in schedule B, whose improvement purchase is stated to be within a temporary common, notified the 15th March, 1867, do you produce a *précis*? Yes. [*Vide Appendix NN.*]
270. *Mr. Garrett.*] There is no conflict? No.
271. And the only reason for illegality is that set out by the *précis*—that the land happened to be on the temporary common which was unknown to the Department up to a later stage of dealing with the case? Yes.
272. *Chairman.*] In the case of Richard W. Sutton (now Charles E. Pilcher) in schedule A, do you produce the papers? Yes. [*Vide Appendix OO.*]
273. Also in the case of William Smith, in the same schedule? Yes. [*Vide Appendix PP.*]
274. In the case of Alexander Ryrie, the first case in the supplement to schedule A, do you furnish papers? I have a memo., a copy of which I will hand in. [*Vide Appendix QQ.*]
275. In the case of Edmund Rolfe, in the supplement to schedule A, can you give a *précis*? Yes. [*Vide Appendix RR.*]

276.

W. H. Capper, Esq. 18 April, 1888.

276. In the case of Daniel Riley, in the same schedule, in which it is stated that the condition of residence was not carried out by the selector, who was under the impression that residence upon the adjoining freehold was sufficient, do you produce papers? Yes. [*Vide Appendix SS.*]
277. *Mr. Garrett.*] Was the purchase forfeited? No; it was declared void.
278. *Chairman.*] In the case of Rees Evans (now Edmund Walsh), in which it is stated that applicant, now deceased, did not reside upon the conditional purchase, and that it was found upon survey which took place after selector's death that the hut in which he resided was not included within the boundaries of the portion, do you produce a *précis*? Yes. [*Vide Appendix TT.*]
279. In the case of Charles Gillespie, also in the same schedule, do you produce a *précis*? Yes. [*Vide Appendix UU.*]
280. In the case of Henry Jefferson Bate (now Edmund P. Simpson), also in the supplement to schedule A, in which it is stated that the land does not adjoin applicant's previous conditional purchase of the same series, have you any papers? Yes. [*Vide Appendix VV.*]
281. Do you also produce papers in the cases of Mary Lane and William Thorne, in the same supplement? Yes. [*Vide Appendices WW* and *XX.*]
282. In the case of Alexander Rodgers (now Bank of New South Wales), in the same supplement, in which it is stated that selector did not comply with the conditions of residence required by the Act, being under the impression that residence was not required, these applications having been made in virtue of a freehold formerly an improvement purchase, can you give us a *précis*? Yes. [*Vide Appendix YY.*]
283. In the case of Edward Grace, in the same supplement, whose selection is said to have been made in violation of the provisions of the 9th section of the Act of 1875, do you produce a *précis*? Yes. [*Vide Appendix ZZ.*]
284. In the case of Stephen Fennell, senior, in which it is stated that the cause of illegality of purchase is that the selector did not lodge the declaration required by law within the prescribed time, can you give us a *précis*? Yes. [*Vide Appendix AAA.*]
285. In the case of John Allen, in schedule D, a case of application to convert a preemptive lease, in which it is stated that the transfer of the selection in right of which the application was made was notified to the land agent subsequent to the 15th July, 1884, it therefore not coming within the provisions of the 52nd section, do you produce papers? Yes. [*Vide Appendix BBB.*]

THURSDAY, 17 *MAY*, 1888.

Present:—

MR. J. P. ABBOTT, MR. STREET,
MR. BLACK, MR. THOMPSON,
MR. McMILLAN.

J. P. ABBOTT, ESQ., IN THE CHAIR.

W. E. Hawkins, Esq., solicitor, appeared for Mr. Tully to oppose the validating of Thomas Millane's conditional purchase.

Abram Orpen Moriarty, Esq., called in, sworn, and examined:—

A. O. Moriarty, Esq. 17 May, 1888

286. *Chairman.*] What do you know of this case of Millane's, Mr. Moriarty—only what you know officially as Chairman of the Board, I suppose? I have had conversations with both the parties at different times in my office.
287. But have you been dealing with it as chairman? I have dealt with it at all critical periods, both as chairman, and under Mr. Farnell prior to the 31st December, 1884.
288. Will you look at the papers dealing with M. M. Tully's selection. It is alleged that at the date of selection by Millane the land in question formed part of conditional purchase 80–91 by M. M. Tully, which was void from the first, but was not so declared until five months after Millane's application? I know that as a fact.
289. Can you tell us how it was that Tully's conditional purchase 80–91 was void from the beginning? Because it was an application made by a minor under the statutory age.
290. M. M. Tully? M. M. Tully, junior, I think. The question was very elaborately discussed and very carefully considered by the Minister of the day, in consultation with myself, when the action was taken. Tully's application was declared void, as in itself an invalid and void thing by Mr. Farnell, after he had referred to the action taken and the decisions arrived in corresponding cases.
291. Then, as a matter of fact, Tully's selection was never a selection? Tully's selection was never a selection at all.
292. Because Tully who made the application was under the age of 16 years? He was absolutely incapable by law.
293. That is undisputed by the papers? I never heard it questioned. It was ascertained as a matter of fact that he was not 16 when he made the application, and as soon as it was ascertained a refund of the money was tendered.
294. And then Millane made a selection after this, before the Department acted on Tully's selection? Millane made an application for the land before it was ascertained that Tully's selection was a nullity. Millane's was the first valid selection of the land.
295. *Mr. Hawkins.*] I heard you say that you had acted in this matter before acting as Chairman of the Land Board. I want to know in what capacity? As Chief Commissioner for Conditional Sales. That was before the passing of the Act of 1884. In that capacity it was my duty to deal with all conditional purchase business.
296. After the application was lodged, on the 17th June, 1880, is it not a fact that on the 22nd April, 1882, long before the voidance, and after certain conditions had been complied with, the Land Board wrote to Tully informing him that the original survey, whereby it was considered that the land contained 200 acres, was incorrect, and that the land really contained 212 acres, and he was required to make a further payment? I cannot answer that directly. No doubt, Tully's application was treated as though valid until it was found invalid. It was ascertained that it had been void from the beginning.

A. O. Moriarity, Esq. 17 May, 1888.

297. *Chairman.*] That is a thing in the knowledge of the selector, not of the Department? The papers show that nothing was said by the applicant as to his age. It was only as the result of inquiries initiated by myself, I believe, that his age was ascertained.
298. Millane's application is dated 16th September, 1882? This note on Tully's papers that I am going to read says, "The applicant is stated in his original application dated 17th June, 1875, to have been a minor aged 6 years. This should have been noticed when 80–91 was dealt with. The applicant should now be called upon to show that at the date of such latter application he was 16 years of age" (16/9/82). As the result of these inquiries, I find a note note here, dated 25th June, 1883: "A.C.P., 91–80, should be declared void. Approved.—J.S.F., 25/6/83." There is also a note for the refund of the deposit.
299. What Act was it that limited the age fo selection; was it the Act of 1880 or the Act of 1875? The Act of 1875 was to interpret the Act of 1861. It declared a "person" as used in the Act of 1861, to be a person over 16.
300. And this was made nearly five years after that? Yes; It was an additional conditional purchase.
301. Is it not a fact that this additional conditional purchase was made on the 17th June, 1880, and that no steps whatever were taken for over three years afterwards to declare it void, that is, until the 10th July, 1883? I have read a note of mine, dated September, 1882, to the effect that he should be called upon to show what his age was.
302. This was not declared void until three years after? Not until the 10th July, 1883.
303. Can you explain why no proceedings were taken during that lapse of time? I think I can explain it in this way. The Act of 1875 said that if any person under the age of 21 should conditionally purchase land, he should state in his application that he was over 16 years of age, and in Tully's application, which I now hold in my hand, dated 17th June, 1880, that statement is not made.
304. *Chairman.*] What statement is made? There is no statement as to the age. The words of the Act I think are, "Every application for a conditional purchase must be tendered in person by the applicant to the land agent of the district. And in every case where such applicant is under the age of 21 years he shall state in his application that he is of the age of 16 years or upwards. Should such statement be proved at any time thereafter to be untrue the purchase shall become void and the deposit forfeited." If the statement had been made in this application the purchase would have been forfeited but his application was treated simply as a void thing.
305. *Mr. Black.*] How long was it after that before you discovered that he was under age? Two years.
306. *Mr. Thompson.*] How old was the lad? Six; he was 6 in 1875.
307. *Mr. Hawkins.*] Is it not a fact that on the 10th November, 1886, an appeal was heard by Mr. Copeland, then Minister for Lands, an appeal lodged by the applicant, Tully, which was sustained? I should not like to answer unless I gave a full answer.
308. *Mr. Thompson.*] That came within your supervision as a member of the Board? I took certain action as the Chairman of a Land Board. If you will allow me, I will add a few words explanatory of my previous action. The action that was taken in declaring this conditional purchase of Tully's voided was taken by myself, under the direction of Mr. Farnell. Millane's conditional purchase was allowed to stand good by Mr. Secretary Farnell, but at a later stage Millane's conditional purchase was declared void on certain grounds. These grounds were based on the assumed practice of the Department to the effect that a Minister must declare a purchase void before the land is open to selection again. That statement was right as far as it went. But the practice of the Department had not been to recognise a voided conditional purchase as good, unless when the purchase was good in itself for a certain time; as, for example, when a purchase was made of three portions and two only were available. In that case, if the holder elected to retain the available portion he could do so. On the other hand, if the purchase were declared void altogether, it would have remained a good purchase up to the day of the voidance. And so with regard to the purchase of unmeasured land. If the land was not measured within twelve months the applicant could withdraw his application; but that never applied to a case found in itself to be bad.
309. *Mr. Hawkins.*] The original was declared and gazetted void by the Department? It was simply declared void, and the refund of the deposit sent to the applicant.
310. *Chairman.*] Voided conditional purchases are never gazetted? Never.

William Henry Capper, Esq., called in and further examined:—

W. H. Capper, Esq. 17 May, 1888.

311. *Mr. Hawkins.*] Do you know that this matter of Tully's came on before Mr. Copeland, as Minister for Lands, on the 10th November, 1886, when he sustained Tully's appeal? Yes.
312. And that it was there declared that the first application for an additional conditional purchase of this land was not bad *ab initio?* [*Question disallowed.*]
313. *Chairman.*] In the case of the selection of John George Gough was this improved purchase application under a miner's right? Yes.
314. And the town common was not shown on the local maps? Exactly.
315. This man went into possession and made his improvements, and then it was found that the town common included his selection; and it is proposed to validate it? Yes.
316. Can you tell us anything about Alexander Maclean's case? I hand in a *précis* of the case. [*Appendix CCC.*]
317. John Fenton? I hand in a memorandum of his case. [*Vide Appendix DDD.*]
318. Amos Batty;—will you tell us about his case? There is a minute on the case, which I now hand in. [*Vide Appendix EEE.*]
319. Jonathan Warner? I will read a statement of his case. [*Vide Appendix FFF.*]
320. No conflicting interests have arisen with regard to these selections? No; but I have a letter from the Chairman of the Local Land Board at Orange, drawing attention to the case, and suggesting that the additional conditional purchase be validated. [*Vide Appendix GGG.*]
321. In the case of the Scottish Australian Investment Company? Portions 55 to 61, and 64 to 68, were sold at auction. It was afterwards found that a forest and water reserve, No. 3,924, had been proclaimed on the 13th August, 1887. I handed in memo. of the matter. [*Appendix HHH.*]

322.

W. H. Capper, Esq. 17 May, 1888.

322. The only reason for doing it is, that it had been proclaimed a forest reserve, but the land had nevertheless been sold? Yes.
323. *Mr. Thomson.*] And the money has been paid? Yes.
324. *Chairman.*] What is the case of Mary Elizabeth Murphy? I have not the papers.
325. Cork's case, in the Milton District? I hand in a statement of the case. [*Vide Appendix III.*]
[The papers were laid upon the Table by Mr. Secretary Garrett and referred to the Select Committee the Crown Lands Purchases Validation Bill.]
326. What is Finneran's case? I will hand in a letter from John Finneran. [*Vide Appendix JJJ.*]
327. What is proposed is to validate it? Yes; because it would be illegal to take land away from Casey so as to connect Finneran's selections.

TUESDAY, 22 *MAY*, 1888.

Present:—

MR. J. P. ABBOTT, | MR. BLACK,
MR. ALFRED ALLEN, | MR. BURDEKIN,
MR. GARRETT.

J. P. ABBOTT, ESQ., IN THE CHAIR.

William Henry Capper, Esq., recalled and further examined:—

W. H. Capper, Esq. 22 May, 1888.

328. *Mr. Garrett.*] Have you any papers in the case of Elizabeth Murphy? Yes.
329. Have you read the petition? Yes.
330. Are the allegations in the petition correct, so far as you know? Yes.
331. Have you compared the petition with the papers? No, I cannot say that; but I have read both. The matter came before the Minister for Lands on the 7th March, and he then decided that it should be dealt with as a similar case had been dealt with, and that, consequently, the land should be declared forfeited.
332. What was the reason of the forfeiture? That there was no residence on the freehold in virtue of which the land was taken up, although there had been residence some years before.
333. Have you any papers in the case of Patrick Hogan? No, but I can give you all the necessary information.
334. Have you read the petition? Yes.
335. After the date of transfer to Patrick Hogan, what residence, if any, was required? The date of selection is the 8th March, 1883; the transfer was made on the 23rd January, 1886. There would thus be two years and two months for the alienee to reside. This matter is before the local Land Board at Grafton, and—so far as the Department knows at present—the case is good.
336. Do I understand that the matter is before the local Land Board now, and that no decision has been given? No decision has been given, so far as is known at the head office.
337. The case is therefore not ripe for validation? No.

CROWN LANDS PURCHASES VALIDATION BILL.

APPENDIX.

A.

[To Evidence of F. H. Wilson.]

UPON the 20th February, 1873, at Moama, eight members of the Joachim family conditionally purchased 320 acres each, upon the Moira run, belonging to Sir John O'Shannassy, as per margin. 73/2,742-43-43-45 46-47-48-49.

The attention of the Secretary for Lands was, upon the 2nd of April, called by Mr. M. Fitzpatrick (on behalf of the lessee) to the fact that the several persons were residing under a tent on *one* selection in evasion of the law, and at Mr. Fitzpatrick's request the local land agent was instructed to report on the case, which he did representing that the selectors were minors, and that upon Mr. James and H. B. Joachim's land were erected two tents, portion of dwelling house and bark kitchen, and apparently the *whole* family resided there. No houses or tents being upon the other selections, but the father pointed out to the land agent a covered dray which he alleged was used for the purpose of conveying Selina, John, Thomas or George Joachim to their lands at night. H. B., James, G. T., Wm., Annie, Sophia, Selina, & John T. Joachim. 9 April, '73.

Mr. Secretary Farnell directed that six out of the eight selectors should show cause why the selections should not be forfeited. 28 April, '73.

Messrs. Fitzpatrick and W. Joachim were informed of the position of the case, and that the Secretary for Lands had decided to forfeit at once, John, Thomas, and George Joachim's land, and that at least four of the other selections would be forfeited after a definite report had been received from the local surveyor as to their position. Protests were lodged on behalf of the Joachim's, also statutory declarations that they had resided upon their lands, and that material for the erection of permanent dwellings was on the ground. 28 April, '73. 30 April, '73.

Upon the 8th July, 1873, the surveyor reported, residence and improvements upon H. B. James, William, Selina, and J. T. Joachim; and that George Joachim, at time of survey, was residing with his brother on the supposition that the residence was on the boundary-line dividing the two selections; and that Annie Joachim was residing in a tent with galvanized roof, supposed to be upon her own land; but owing to the form of measurement it was on Selina Joachim's, and that Sophia Joachim was residing in a hut near the west boundary, and just off the portion; she was ignorant of the exact position that the boundaries would be laid out in.

Messrs. M'Carthy & Robertson continued the protests against forfeiture, and lodged notices of proceedings in the Supreme Court.

After considerable correspondence between the Department and Mr. Fitzpatrick, who forwarded statutory declarations, with the view of disproving residence; and Messrs. Robertson and M'Carthy on the other hand, who furnished statutory declarations in proof of *bonâ fide* residence, the selections noted in the margin were declared forfeited. 72/2746, Annie; 2744, George; 2749, John, T.; 2748, Selina; 2747, Sophia; 2745, William.

Strong and continuous protests were made against these forfeitures by Messrs. M'Carthy & Robertson. Mr. Secretary Farnell declined to reopen the case, and upon petition, the Cabinet decided against a reversal.

The parties became engaged in Supreme Court actions for trespass, &c., and the points of law it is alleged were by the Privy Council decided in favour of the Joachims. Mr. Armstrong, in various argumentative letters, pleads hard for the reinstatement of the various selections, and that the tendered declarations and interest may be received, and specially urges among other things that the act of 1861, under which the selections were made, gave no power to the Minister to forfeit until declaration made was found to be untrue. That such forfeiture being bad, the selections still stand good, the Joachim family being prevented by the action of the Crown from carrying out the conditions of declaration and payment, and that the Joachim Family realized that the result of the Privy Council decisions secured their title, and as years passed and the Crown has never taken steps of any kind for their ejectment they naturally are justified in assuming that they cannot be disturbed. Four of these selections were selected by Messrs. Fitzgerald, and again forfeited. See Supreme Court reports, page 174, page 98.

The cases at present stand :—73/2742, H. B. Joachim; 2743, James Joachim—Approved by Minister; interest paid for 1887. 2744, G. T. Joachim; 2745, William Joachim; 2746, Annie Joachim; 2747, Sophia Joachim—No payments made. 2748, Selina Joachim; 2749, John T. Joachim—First payment suspended. 84-3885, cor.

The forfeited selections are within the boundaries of leasehold area of Moira, holding No. 619, Central division, Conditional Purchases 73/2744 to 73/2749, were treated as vacant, and consequently as forming part of the leasehold.—E.D.B., 2/3/87.

B.

[To Evidence of F. H. Wilson.]

From *Herald* of 5th May, 1876.

O'SHAUNNESSY *v* JOACHIM AND OTHERS.

THE following is the judgement of the Lords of the Judicial Committee of the Privy Council on the appeal of O'Shaunessy *v* Joachim and others, from the Supreme Court of New South Wales, delivered 5th February, 1876.

Present:—Sir James W. Colvile, Sir Barnes Peacock, Sir Montague E. Smith, Sir Robert P. Collier.

Three infants of the name of Joachim, of the ages respectively of 16, 14, and 12 years, brought separate actions in which they complain that the defendants had trespassed upon their closes. They claimed their land under grants made by the Governor in pursuance of the Crown Lands Alienation Act of 1861. The only defence which is now insisted upon is that the grants to the plaintiffs were absolutely nul and void, inasmuch as when those grants were made, they were under the age of 21 years. The questions would undoubtedly be one of great importance and wide application in the Colony, were it not for a recent statute, which has decided it with respect to all cases except those pending at the time of the passing of the Act; the Act affirming the validity of all grants to infants of whatever age before its passing, and of all subsequent grants to infants of and above the age of 16 years. Upon an application which was made in pursuance of leave reserved to enter a verdict for the plaintiff, on the ground that the grants were void, because the plaintiffs were under 21, the Court refused to grant the *Rule Nisi*, on the ground that the question had already been decided in the Colony, in the two cases which have been referred to at the Bar. The first case was a case of Emery *v.* Barclay, decided in 1869, in the report of which this statement occurs :—"The Court were agreed in the opinion that a selection might be made by a person under 21 years, and by a father in the name of his son." It is true that the Chief Justice, Sir Alfred Stephen, said in a subsequent case, that the point was not argued, but was decided as it were, incidentally, and without much consideration. At the same time the case as reported appears to have been understood in the Colony as deciding this point, and their Lordships cannot doubt that Mr. Justice Hargrave is right in saying that a good deal of land was purchased upon the strength of that decision, and that many titles may have depended upon it.

The subsequent case was decided in 1871. It was a case of *Drinkwater* v. *Arthur*, in which one of the questions was whether an infant of the age of 3½ years was capable of taking land under the Act referred to. The Chief Justice held that an infant of that age was not capable, on the ground apparently that it was of too tender age to be able to execute the necessary documents, or even to form any understanding of the transaction; but it is to be observed that the Chief Justice then expressed an opinion that an infant of the age of 16 or thereabouts would be capable of labouring, capable of occuping the ground, and capable of understanding the nature of the transaction in which he was engaged, and would therefore be capable of taking under the Act. The other two Judges decided that the infant was capable, Mr. Justice Cheek no doubt considering himself bound by the former decision. That was in 1871, and from that time until these actions were brought the doctrine so laid down would not appear to have been questioned, and their Lordships must treat it as having been laid down by a course of decisions in the Colony.

Their

Their Lordships are now asked to reverse these decisions, and the grounds on which they are said to be wrong is, in effect,—That the sections of the Crown Lands Alienation Act which have been a good deal referred to, chiefly the 13th, the 16th, and 18th, impose upon the person who is to apply and who is to be the conditional purchaser several obligations such as the making of a written application, the payment of money by way of deposit, the ascertaining the temporary boundaries, the exercising of an option of whether to withdraw his application or to have the land remeasured, and, at the end of three years, the duty of improving the land, without which improvements it would be forfeited.

Undoubtedly there is a good deal of force in the arguments which have been drawn from these provisions, and their Lordships would be disposed to give them very great weight if the question before them was whether the Governor would be bound to accept an application from an infant of so tender years, as to be incapable of subscribing the necessary form, or of exercising any judgement, or even understanding the question with which it had to deal.

It may be that the Governor would be justified in refusing such an application. It may also be that the Governor might repudiate such a transaction if it were entered into on the ground that the Crown had been imposed upon in its grant, or that the grant *improvide emanavit.*

These, however, are not the questions which are before their Lordships. The defendant has to make out not merely that the Governor might exercise or might not exercise an option of refusing applications under certain circumstances, but he has to go the length of satisfying their Lordships that the word "person" used in section 13, must be limited to persons above the age of 21, and that any grant made to any person under that age is void, although he may be of years sufficient to reside on and cultivate the land, and to execute improvements, and to be able to decide for himself as to whether he shouid or should not exercise the option referred to. The defendant has to satisfy their Lordships that the word "person" must necessarily be restricted to all persons above 21, and that a grant made to any person under 21, no matter how near he may be to that age, is so completely nul and void that a stranger can take advantage of it in order to excuse a trespass.

Although their Lordships have not been entirely free from difficulty in considering this question, they have come to the conclusion that the defendant has not established that which he had to make out. He has not satisfied their Lordships that they ought to reverse a series of decisions in the Colony, and to lay down that a grant made to any person under the age of 21 is necessarily void to all intents and purposes. It has been, indeed, contended on the part of the appellant that the meaning of the word "person," in the sections above referred to, must be somewhat restricted, and cannot be held to have the effect of enabling any person to take, who could not previously take, a grant of Crown lands, and so far their Lordships are disposed to agree with the view of the Counsel for the appellant; but it is to be observed that the construction which they put upon the clauses does not enlarge the powers of infants inasmuch as before the passing of the Act the Crown might grant to infants and infants might take.

On the whole, their Lordships think that no sufficient case has been made out to satisfy them that the Court was wrong and to reverse decisions which have been acted upon for several years, and under these circumstances they will humbly advise Her Majesty to dismiss this appeal.

A printed case was lodged on behalf of the respondents, although they did not appear by Counsel at the Bar on the hearing. Under these circumstances, their Lordships will direct that the respondents should be allowed their costs down to the lodging of their case inclusive. This sum will be paid to them out of the sum deposited by the appellant in the registry as security for the costs of the appeal.

C.

[*To Evidence of F. H. Wilson.*]

To the Right Honorable Lord Augustus Loftus, President of the Executive Council of New South Wales, and to all other Members thereof in Council assembled.

We hereby pray that your Honorable Council will take into consideration the circumstances of our case, and in your wisdom give such directions as may seem wise.

We came to this Colony in the year one thousand eight hundred and seventy-three, and conditionally purchased land in the vicinity of Moama, in blocks of three hundred and twenty acres each. We took possession of the same as early as circumstances would admit, but from the fact that the land had not been surveyed, we were compelled to fix camps and sleeping places to the best of our knowledge and belief on the ground applied for in our various separate applications. On the alleged ground of non-residence, and other grounds, we were subjected to long and severe litigation, ending in an appeal to the Privy Council on certain points which the Court decided in our favour.

During the continuance of our difficulties, our lands were declared forfeited by notice in the *Government Gazette*, on the alleged ground of non-residence by us.

Acting under the belief that the various legal points decided in our favour by the Privy Council gave us a holding title to the land, and believing that in due course we would be advised by the Department of Lands that the forfeiture of our holding would be reversed, we took no steps in the matter until the year one thousand eight hundred and eighty-two, when we made and lodged with the Department of Lands the declarations required in the terms of the 18th section of the "Lands Act of 1861," which declarations have been referred for inquiry, and show officially that we have effected the improvements necessary under the law.

We have, from the first, held possession of our lands personally, and in proof that we have resided we append hereto a memorandum signed by various of our neighbours who have no interest whatever in our lands.

We estimate the value of our improvements at seventeen hundred and seventy-five pounds sterling, effected by us on our holdings.

We hereby pray your Honorable Council to take a favourable view of our case and to consider the trying circumstances in which we have been placed; and we submit that such circumstances warrant the reversal of the forfeiture of our holdings and the re-establishment of our conditional purchase titles.

Signed: JOHN T. JOACHIM,

[*To Evidence of F. H. Wilson.*]

Claim for compensation in connection with the case Blackburn *v.* Flavelle.

It will be seen from the papers, that originally Mr. Secretary Hoskins decided that Blackburn's application for portion 100 should be acepted, upon the ground that previous selection of the land by Wood had not been notified as forfeited, when Devlin applied, whereas the notification had appeared before Blackburn had tendered his application. Subsequently, Mr. Attorney-General Windeyer advised that the notification of Wood's original conditional purchase and two additional purchases carried the forfeiture of the further additional purchase of portion 100 without any special notification, and upon this opinion Blackburn's conditional purchase was declared void.

In the Supreme Court, action afterwards brought by Blackburn, it was held that Mr. Hoskin's original decision was correct, but the suit was decided against the plaintiff upon the point that forfeited conditional purchases were not open to conditional purchase, but, if alienated, should be so disposed by auction.

The fact of the Government appealing to the Privy Council in the name of Blackburn, does not, I assume, affect the question, as the course was not pursued with any desire to take up the cause of Blackburn, but because the judgment

judgment of the Supreme Court invalidated a large number of conditional purchases which had been allowed by the Government. Notwithstanding the precautions taken, it is well known that the ruling of the Supreme Court was upheld, which necessitated the introduction of the Forfeited Purchases Declaratory Bill which became law.

Three different claims for compensation have been made, none of which agree indeed, in each case an increased amount is claimed, the last being for £1,573 2s. 4d., which includes £550 for loss of land and improvements, and £100 for loss of time, &c. These two items could be met by including the conditional purchase in a validating Bill. Devlin's conditional purchase, which embraced other forfeited conditional purchases besides that applied for by Blackburn, was legalized under the "Forfeited Purchases Declaratory Act," but the provisions of this Act cannot be extended to Blackburn's, as it specially excludes purchases in connection with which legal proceedings had been commenced prior to 31st March, 1880.

If it is decided to entertain a claim for compensation for costs in the action originally brought by Blackburn, it will be necessary that duly taxed bills of costs should be furnished to the Department. C.O., 27/11/83.

I have carefully perused these papers, and I am of opinion that the facts do not disclose that Blackburn is entitled to any compensation, but I think that Blackburn's conditional purchase, portion 100, should be legalized, subject to the conditions of the law having been fulfilled.—J.S.F., 4/12/83.

E.

[To Evidence of F. H. Wilson.]

S., 28. L.B., 83–19–85 Aln. C.P., 81–1.

On 6th January, 1881, Nicholas Bornholt made a conditional purchase application for 640 acres, at Naranderra, being measured portion 1, in parish of Burt, the area of the purchase was held on 3rd November, 1881, to be good for only 590 acres on account of Volunteer Land Order, 79/185, application enclosed, and the purchase was subsequently declared void, 29th of April, 1882, on applicant's request the Supreme Court having decided that the selection is void, the land having improvements scattered over it of more than £40 in value. C.P., 81-1. 81-54,339, C.S.

And the 640 acres were withdrawn from the lessee's lease, 24th March, 1882. 82-1,112, C.S.

The application under Volunteer Land Order, 79/185, for 50 acres, part of same land referred to was declared void, 2nd April last, by decision of the Minister for Lands. 83-1,744, Alu.

Sub-division fee, £2 7s. 6d., was paid at date of application which the Treasury Department has been authorized to refund, and the certificate has been returned.

Bornholt, on 30th March, 1882, again applied for the land originally included in portion 1, under conditional purchase describing it as "measured portions 1–63–64, in parish of Burt," but the application is not yet dealt with. C.P., 82-15.

Attention is drawn to the Deputy Surveyor-General's Minute of 19th March last, and 8th instant, as to whether the portion now remeasured in accordance with the direction of the late Minister, Mr. Hoskins, should be received as a measurement of a 50-acre portion.—C.N., 17/5/83. 83-1,744, Aln.

The present matter appears chiefly to relate to the claim under V.L.O. which the Minister has recently declined to entertain, and to the measurement of which the late Minister took exception, obviously the V.L.O. stood upon the same footing as the conditional purchase, and if the land was barred by the improvements, as the Supreme Court has held for the one it was equally barred for the other, unless by a sub-division approved by the Minister. The Minister has not approved of the proposed sub-division, for the purposes of this V.L.O., and failing that approval there is no right on the part of the applicant. The conditional purchase, made subsequently to the withdrawal of the land from lease, awaits survey or disposal otherwise on the report of the Survey Department.—A.O.M.

This is a matter arising out of the case, Moore *v.* Bornholt, I am asked to decide as to the legality of Bornholt's second application for the same measured portion that was previously decided by the Supreme Court as being void, on the ground that the portion was improved to the value of £40. I cannot see that I have any alternative than that of obeying the decision of the court. By that ruling the first application was declared bad, and as the same measured portion is still improved to the value of £40, it therefore follows that by that ruling the second application is also bad, and consequently void. The fact of withdrawing the portion from lease does not confer on Bornholt a good title to the land, because according to the judgement of the court, the measured portion is Crown land sufficiently improved to bar selection with every respect for the judgments of the Supreme Court generally. I cannot understand how such a decision was arrived at as was in this case Moore *v.* Bornholt.—J.S.F., 10/7/83.

F.

[To Evidence of F. H. Wilson.]

C.P. 78-545, Casino, John Budgen, 40 acres, 19th December. C.P. 82-2637, Sur. enclosed.

JOHN BUDGEN, by C.P. 71-1945 (1), Casino, 8th June, selected 40 acres, 13th clause, parish of Gunderunba, county of Rouse, and an additional A.C.P., 71-2724 (2), 50 acres, which adjoins C.P. 71-1945 (1) on the north, as shown on accompanying tracing by red tint.

On the 3rd of September, 1874, Patrick Budgen transferred A.C.P. 71-272 (2), 50 acres, shown by red hatching, taken up in virtue of C.P. 71-1947 (1), shown by blue tint, to John Budgen, who was apparently under the impression that he could increase his holding by selecting land adjoining this A.C.P., notwithstanding that it was fully a mile north of his former C.P., therefore on the 31st of October, 1878, by A.C.P., 489 (3), he selected 80 acres in virtue of C.P. 71-1945 (1), but described it adjoining his A.C.P. 71-2720 portion 100 (2), (transferred to him by Patrick Budgen.) This A.C.P., 78,489, was declared void as the land did not adjoin the first conditional purchase, 71-1945, and on the 19th December, by A.C.P. 78-445 (4), he selected 40 acres also, in virtue of C.P. 71-1945 (1), and described it "adjoining the east boundary of my C.P. of 80 acres, (3), made 31st October, 1878, and the whole of the north boundary of portion No. 100" (2).

The validity of this C.P. was apparently never questioned, and applicant has been in possession ever since. Plan was accepted 9th September, 1882, and applicant called upon to pay extra deposit upon 21 acres 2 roods, area measured in excess of that applied for.

It is submitted whether C.P. 78-545 (4) should not also be declared void, and applicant informed that A.C.P. 71-2720 (2), held by him, independent of the original C.P. of that series, 71-1947 (1), carries no right of extension of holding under the 21st section.

Apparently the validity of the C.P., 78-545 (4), was not questioned for the reason that the number of the adjoining A.C.P., 71-2720, was quoted in the schedule, and that the other numbers quoted were supposed to be those of the other C.P., 71-2720, whereas it is now seen that they are of another series, and not adjoining. Tracing herewith.

CHARLES E. FINCH
(For the Surveyor-General).

31st March, 1884.
The Chief Commissioner Conditional Sales.

Approved.—J. S. F., 8/5/84. Budgen having again urged a reconsideration of his case, the Under Secretary minuted the papers as follows: "Under all the circumstances of this case it would appear only equitable to validate the C.P., by special Bill.—C.O., 10/3/86. Approved.—H. C., 11/3/86.

G.

G.

[*To Evidence of F. H. Wilson.*]

Sir, Land Board Office, East Maitland, 30 January, 1886.

In forwarding the enclosed papers of C.P. 76-12, Newcastle, in connection with which an inquiry was held by the Local Land Board, on the 27th instant, with the result that the Board find "the condition of residence has not been complied with." I wish and am desired by the local members of such Board, to state that in this case there has been no intended or wilful evasion of the law, the original selector and his alienees appear to have acted in all good faith. A long time has elapsed since date of selection (nearly 10 years) the balance of purchase money was paid into the Treasury five years since, for the past seven years the present holder has lived on the land with his wife and family, and has extensively improved it (to the value of over £200). It is hoped, therefore, that the Minister will see some way of validating this selection.

The facts are briefly these: On 12th September, 1876, William Cox applied for 80 acres under 13th Section; he lived on and improved it, and he transferred it to Anthony West on 11th October, 1877. Anthony West owned a small freehold adjoining, on which he was residing, and although he continued the improvements commenced by W. Cox and made others, he did not live on this selection, as he was under the impression that his residence on the adjoining land was sufficient. On the 9th of October, 1879, he transfers the land to his son, William West, the present holder, who paid his father, Anthony West, for the improvements effected, amongst others a good house into which he (William West) removed his family, and in which they have been living ever since.

Submitting the matter for your favourable consideration,

I have, &c.,

(Sd.) JAS. VERNON,

Chairman.

The Under Secretary for Lands, Sydney.

Submitted.—F.H.W., 28/6/86. C.O. May be validated by inclusion in the Bill to be submitted to Parliament. —H.C. 28/12/86. Wm. West and the Chairman, East Maitland, informed.—V.C., 6/1/87.

H.

[*To Evidence of F. H. Wilson.*]

M. Costello's application to conditionally purchase Crown lands, parish of Bindogandri, county of Ashburnham, covered by reserves 928 and extension.

On the 10th April, 1879, M. Costello applied at the Lands Office, Forbes, to conditionally purchase 60 acres of Crown lands, parish of Bindogandri, and as the land applied for was intersected by the main road, 5 chains wide from Parkes to Orange, and was further required as a reserve for access (reserve 928 extension, notified 5th May, 1879), between the portions of travelling stock reserve 928 on the opposite banks of the Bindogandri Creek, the purchase was declared void on the 4th of July, 1879.

On being informed of the voidance of his purchase, applicant, in August 1879, through his agent, lodged a protest against the voidance of the whole area, with a request that about 40 acres, being that part of the north of the road and between the road and the creek, should be allowed to stand; but this application was not considered favourably, as it was thought that the alienation of the land applied for would form a block to stop travelling along travelling stock reserve 928.

Applications have since been made by the agents of M. Costello in June, 1880, applying for the cancellation of travelling stock reserve 928, and in August, 1881, for the cancellation of parts of 928 and extensions.

From a recent report on this subject by Mr. L. S. Sharpe, endorsed by Mr. District Surveyor Crouch, it would appear that the revocation of part of travelling stock reserve 928, between portion 81 and 54, is unobjectionable, and the further retention of travelling stock reserve 928 extension unnecessary.

It is pointed out that the area between the road and creek, if cleared from reservation, would not be open to selection, being less than 40 acres, and that the 60 acres originally applied for is intersected by the main road.

T. H. LEWIS

23rd Sept., 1884. (For Surveyor-General).

The Under Secretary for Lands.

Submitted that applicant be informed in terms of the last paragraph of the minutes of the Surveyor-General, and that the application for cancellation of the reserve be refused.—F.H.W., 29/9/84. C.O., 2/10/84. Approved.— J.S.F., 3/10/84. J. A. Martin informed, 7/10/84. Put away.—J.D., 8/10/84.

On representations being made to the Minister, Mr. Secretary Spring, on the 2nd February, 1886, directed the case to be forwarded to the Land Board of the district, Forbes, for enquiry, which was held on the 10th June, 1886, and their report was to the effect that they were of opinion that the voidance was correct, as reserve 928 never appears to have been revoked. They further submitted for the consideration of the Minister whether the conditional purchase might be included in a Bill to validate it. On this recommendation the Under Secretary remitted as follows:—"As suggested in the Local Land Board the case may be included in a validating Bill and legalized, subject to the fulfilment of all the conditions usually incident to a conditional purchase."—C.O., 20/9/84.

Approved.—H.C., 22/9/86.

I.

[*To Evidence of F. H. Wilson.*]

Department of Lands Office Memorandum—Registered number of papers, 86-1683 Cor.

REMARKS.

MR. H. H. COOKE on the 15th instant of July, 1876, applied that 160 acres improved by himself be brought forward for auction. £4 paid.

The land was measured by Mr. L. S. Phillip upon the 8th September, 1876. It was situated within a gold-field. Warden Dalton's report of the 12th December, 1876, was favourable to the alienation of portion 65, as shown in a tracing under the 14th section of the Act of 1861. On the 10th of March, 1881, H. H. Cooke again applied to purchase at auction the 160 acres already described, and measured in accordance with Warden's report. Objection was taken by the department to the alienation of so large a portion (160 acres) in such proximity to the town of Parkes. The portion was originally measured in 1876, and the town largely increased in importance since then.

Mr. Cooke's application was, however, remitted to the surveyor under Mr. Secretary Hoskin's decision of the 21st March, 1881, for report as to whether there was any objection to the sale of the land under the 14 section of the Act of 1861.

Mr. Surveyor Sharpe reported on the 29th of the same month that he was of opinion that the land might be alienated under the 14th section, but that a resurvey should be made excluding that part of it which is objected to by the Warden, also subdividing the remainder into three blocks of about 50 acres each, as he considered the present area too large to be alienated in one block so close to the town of Parkes. He also reported that he had made the case a special one, knowing that Mr. Cooke had been at a considerable outlay in improving the land, and honestly acting under the impression that having obtained the sanction of the Mining Department he would be allowed to purchase it, and that there are never likely to be any similar claims arise excepting one (Bullock's) as the census was about being taken, which would entitle Parkes to a population area of two miles on each side of the town. He also remarked that, owing to gold-mining interests, there had not been much land alienated of what will form the population reserve of Parkes, so that the sale of this area cannot very materially affect the public interests.

Under further instructions Mr. Surveyor Sharpe furnished a design for subdivision of portion 65, in which he included all the improvements (£100) in one block.

It was then, 22nd April, 1881, approved by Mr. Secretary Hoskins, that the land be measured for sale by auction or otherwise, in accordance with the design.

The land was measured in May, 1881, as portion 65 (47¾ acres), 280 (42¼ acres), and 281 (42 acres).

Portion

Portion 65 embraced improvements consisting of clearing and fencing to the value of £122, effected by H. H. Cooke, and portion 281, a small tank worth £2, by J. Schane. It was at the same time reported by the surveyor that a small rush to the locality had taken place, and that some five parties were at work and were obtaining a little gold.

In view of this reference was made to the Department of Mines, and it was reported that there was no objection to the alienation of the land under the provisions of the 29th section of the "Lands Act Further Amendment Act" of 1880.

As these portions embracing an area of 132 acres were within reserve 37, notified 10th of March, 1865, and also within the Billabong gold-field, proclaimed on the 16th April, 1872, that part so affected was revoked to admit of the land being offered at auction.

The portions were, however, applied for as a conditional purchase under the 14th section, by Mr. H. H. Cooke, on the 9th of February, 1882.

Inspector Page visited the selection on the 2nd of April, 1883, and reported that the selector had never resided upon it, simply from the fact (so Mr. Cooke informed him) the he (the selector) took up the land under the impression that he was doing so in vertue of his freehold on which he was residing at the date of his application, and had been for years previously where he also had expended large sums on improvements, consisting of dwelling-house, large vineyard, orchard, cultivation paddock, tanks, and fencing. Inspector Page gave further details of freehold on 11th of October, 1883, which comprised portion 57, embracing Mr. Cooke's dwelling-house, vineyard, garden, &c.

The case in view of the report by the inspector of non-residence, became the subject of inquiry before the Local Land Board at Parkes, on the 11th of April, 1885.

Inspector Page gave evidence similar to the remarks in his report, and Mr. H. H. Cooke deposed that at the end of 1884, he went to reside upon the conditional purchase. Before that time he had been living on the freehold nearly adjoining where his wife and family lived. When he selected the portion under inquiry he was residing upon 41 VIII, and had lived there until the time he removed to the selection. And in making his application, he fell into an error, as he intended to take up the land in virtue of the freehold, and, up to the end of 1884, he had been negotiating with the Minister for Lands to have the section altered. He then erected a house on the selection of the value of £30, but did not remove his wife and family to it. He (the selector) sometimes slept upon it. The improvements consist of 28 acres cleared, £100; fencing, £130; 40 acres deadwood cleared, £5. Total £235.

And at one time he resided for a number of years on portion 67. In view of this evidence, the board reported that selector lived with his wife, and upon a 2-acre improvement purchase, portion 41 VIII, until the end of 1884, which was divided from the selection by a road. The residence required since that date had been only occasionally performed, as the selector was under the impression that he merely made a mistake in the clause under which he applied for it by substituting that of 13 for 22, which he could have remedied by application. But the Board considered that he had not complied with the conditions of residence, and that he could not select in virtue of the land he then held, and recommended forfeiture.

Forfeiture was approved of by Mr. Secretary Abbott on the 19th December, 1885. The conditional purchase had, however, been declared lapsed (forfeited) on the 17th November, 1885, for non-receipt of declaration and non-payment of interest.

Under the authority of Mr. Secretary Copeland, the lapsing was reversed on the 18th of March, 1886; and on the 25th of the same month, Mr. Cooke not being a member of Parliament at this time. Mr. Secretary Copeland approved of the case being included in the Schedule of the first Validating Bill introduced, as it appeared to him that the selection was taken up in good faith.

The conditional purchase is now in the Schedule of the special Bill before Parliament.

5th July, 1887. W.H.C.

J.

[*To Evidence of F. H. Wilson.*]

On the 5th June, 1882, the Commercial Banking Company of Sydney applied for an additional conditional purchase of 320 acres (conditional purchase 82/86, Forbes), which was declared on the ground that the land was sufficiently improved to bar selection at date of application. The bank protested and lodged £6 6s. in order that an appraisement might take place. Owing to the papers being mislaid, no enquiry took place until the 7th October, 1886, when the local Land Board at Forbes reported that the value of the improvements at date of the bank's application was £25 10s. 6d. only, and recommended that the voidance of the selection be reversed. In the meantime the run had been divided and the land in dispute was included within the leasehold area of the holding.

24/10/87.

C.P. 82/86, J. Thomson, Forbes.—Papers, 86/6904, correspondence.

7 and 8, Norwich Chambers, Hunter-street, Sydney, and Pastoral Exchange, Young,

The Assistant Under Secretary for Lands, Sydney,— Sydney, 24 November, 1886.

Dear Sir,

We wrote Mr. Thomson on the 5th instant, in which we suggested that he should, without delay, cause improvements to the value of £70 9s. 6d. to be put on the additional conditional purchase in question; and we learn from him to-day that he wishes a written reply from the Department prior to commencing the improvements. In accordance therewith will you kindly comply, to enable us to communicate the same to him.

We remain, &c.,

BROCK, MACKINNON, & CO.

Urgent.—S.F., 24/11/86. Mr. Capper.

86/7415 C.S., correspondence.

The selection was of a measured portion, and as according to the records of the Department the land appeared to contain improvements sufficient to bar conditional purchase, the purchase was on 30th November, 1882, declared void. Against the voidance a protest was entered, and £6 6s. paid for appraisement fee, but the papers were mislaid, and it was not until 7th of October, 1886, that the local land board met and determined that the land was not improved sufficiently to render it unavailable for conditional purchase. In the meantime the run was divided, and the selection is now within the leasehold area boundaries, and has not been improved by selectors to value of 6s. per acre within three years of date of purchase. Applicants ask for reversal of voidance and for an extension of time within which to complete improvements to the necessary value. The case is one of hardship, but the law only contemplates extension of time in cases of land not measured.

S.F., 24/12/86.

Department of Lands.—Office Memorandum.—Registered number of Papers, 86, 25,658 Dep.

Remarks.

As additional conditional purchase 81, 11, was in the name of Samuel Jepps, senior, from the 14th of February, 1884, till the 8th of April, 1884, when the previous conditional purchases of the same series stood in the name of Josiah Wm. Perks, it was during that period—about two months—an illegal additional conditional purchase. It is now submitted as to what steps may be taken to rectify the matter.

W.H.C., 22/2/87. F.H.W.

There seems to be no alternative but to validate the purchase by inclusion in the Special Bill Schedule.—S.F., 31/3/87. C.O., 7/4/87. Approved.—G., 12/4/87.

[*To Evidence of F. H. Wilson.*]

Re John Fagan's C.P. 84/52 and 67, Land District of Carcoar

REVERTING to decision of 22nd February last on C.S. 6-31/6/78 Dep. enclosed, and subsequent instructions to me for description of that part of T. S. R. No. 118 proposed to be revoked, it is pointed out that the area applied for by Fagan, under applications 84-52 and 67 do not accord with those measured by Mr. Licensed Surveyor Biddulph. Under the former application 320 acres are applied for, and 233¼ acres measured. Mr. Biddulph's explanation *re* this reduction (C.S. 84/7070 survey enclosed) is, it is submitted, satisfactory—such area, in conjunction with former purchases of the series, completing the maximum allowed by law. Under the latter application 84/67, which forms part of another series, 40 acres or more, applied for purporting to embrace the remaining part of the supposed cancelled portion of the reserve. Owing to the reduction in the area of A.C.P. 84/52 Mr. Biddulph, in his survey, has extended the area of this A.C.P. to 131¼ acres, thus including in the two A.C.P's. an area almost identical with that applied for under the two applications, and extending westward to the former boundary of V.R. No. 1, which was revoked by *Gazette* notice of 12th of May, 1884.

It is therefore submitted whether the two A.C.P's. should be legalized for the areas measured, or whether the later A.C.P. should bo restricted to 40 acres. It may be stated, in support of the former course, that the portions were surveyed by Mr. Biddulph in July, 1884, and that improvements in the form of fencing were effected by Fagan prior to his receiving notice of the invalidity of his purchases. Action with regard to the preparation of description for revocation, and also approval of plans of portions 137 and 138, which were measured by Mr. Biddulph without authority, is being delayed, pending decision on this point.

Illustrated tracing marked X enclosed. H. A. CROUCH, D.S.

17 March, 87/36.

The Under Secretary for Lands.

Submitted.—F.H.W., 23/3/87. C.O., 21/4/87.

I think the A.C.P's. of Fagan (84/52 and 84/67) may be legalized, being practically identical with those applied. I have no doubt that the Land Agent did unintentionally misinform the applicant that the land in question was open; doing so he (the Land Agent) was guided by the information and instructions sent to him from the head office. Set all the necessary action as to reservation of reserve be taken, and applicant informed of this decision and his position.—T.G., 22/4/87.

M.

[*To Evidence of F. H. Wilson.*]

C.P.-84/52-Carcoar.—Crown Lands Act of 1884, (part 11, section 14, sub-section 4)—Report of Local Land Board.

New South Wales (Carcoar to wit), John Fagan.

WHEREAS on the eighth day of September, 1886, it became a matter of investigation before us whether the conditions of improvements have been complied with by John Fagan, on the conditional purchase of 320 acres, applied for by the said John Fagan, at Carcoar, on 12th June, 1884; and, having taken evidence and enquired into the said matter, we have to report that the improvements on portion 137 and 138, consisting of fencing on the north, east, and part of the south boundaries, was effected by Mr. Fagan after he applied for the land as a conditional purchase, and before he received notice of the invalidity of the purchase, and that those improvements are worth £109 10s. We would add that the letter of the 29th May, 1884, followed as it was by the lithograph (enclosed) marked "B," misled the Land Agent, and induced him to advise Mr. Fagan that the land was open to selection.

Given under our hands at the Court House, at Carcoar, in the colony of New South Wales, this eigth day of September, 1886.

CHAS. E. FINCH, Chairman.

Noted, 4/10/86. Mr. Dodd (solicitor) appeared for the applicant. Submitted, see decision on C.S., 86/ 28,019 Dep. and on C.S., 86/ 2,093 cor.—F.H.W., 19/11/86. S.F., 24/12/86. C.O., 29/12/86. If this T.S.R. can be dispensed so far as this portion is concerned, the C.P. may be validated; refer to Mines for report. H.C., 14/1/87. The report as to whether the cancellation of that portion of T.S.R. 118 coloured pink would interfere with travelling stock in any way. A.B. B.C., 28/1/87.—M.B., S/ Mr. Smith.

The cancellation of that portion of T.S.R., 118, coloured pink, would not interfere with travelling stock, as there is sufficient left to meet the requirements of any stock travelling on that road. The railway from Cowra to Blayney will divert the stock traffic from the Canowindra road, in fact, at present there are very few travelling sheep or cattle coming or going by that route, and when the railway is opened, I do not think there will be any *bonâ fide* travelling sheep (*i.e.* sheep travelling over 40 miles) come by that route at all.—P.L. SMITH, Inspector of Stock, Carcoar, 31/1/87. Alex. Bruce, Esq., Chief Inspector of Stock.

In view of the Inspector's report the Lands Department might be informed that there is no objection to the portion T.S.R., 118, coloured pink, being cancelled.—A. B., B.C., 2/2/87. The Under Secretary for Mines. Submitted for approval.—H. W., 7/2/87. Approved.—F. A., 9/2/87. The Under Secretary for Lands, B.C.— A. B. for (U.S.) 9/2/87. Misc. Bch.—F. H. W., 25/2/87. In view of the report of the Mines Department, 2/3/87, it is submitted whether the cancellation be now carried out.—R. H. D., 18/2/87. S. F., 21/2/87., F. H. W. Approved.—T. G., 22/2/87. The District Surveyor, at Orange, for description.—R. H. D., (for U. S.) for Lands, B.C., 2/3/87, 31 a. Returned for further decision with my memo. of 17th March, 1887, 36.—H. A. CROUCH, District Surveyor.

N.

[*To Evidence of F. H. Wilson.*]

Misc. 84-7740, Macleay River.

PATRICK FITZPATRICK and Robert Workman applied to conditionally purchase 640 and 40 acres in the county of Raleigh, parishes of North Bellinger and Bonville, on the 29th of June and 16th of November, 1882, (C.P. 82-113 and 224.)

The conditional purchases were declared void (*vide* C.S. 93-2540 Sur.) as the land applied for was embraced by forest reserve 121 extension, notified 27th of February, 1872.

The Secretary for Lands, under S.C. 84-1018 Cor., directed that a report should be obtained as to the nature and character of the reserve and the improvements made by the selector, ond to his *bona fides*.

The reserve was made for the reservation of timber, and includes some of the most valuable in the Macleay District, together with some very rich brush flats. The land is suitable for the production of crops of sugar-cane and maize.

When reporting, Mr. Licensed Surveyor Parsons states that he cautioned the applicant Fitzpatrick from making improvements within three months after date of selection, but that he continued to improve what he knew to be Crown land.

The improvements are valued by Mr. Parsons as follows :—

Nature of improvements :—Clearing, £300; house and barn, £50. Total, £350

Mr.

Mr. Parsons states that Mr. Fitzpatrick appears to be residing, when first reporting. Mr. Parsons directs attention to R. Workman's improvements, &c., which are as follows :—

Nature of improvements :—Clearing part of 40 acres, £20—10s. per acre on the whole area, £20.

The portion applied for by R. Workman is shown by blue tint.

Mr. Greaves states that he has no doubt that Fitzpatrick is a *bonâ fide* selector.

Submitted for the consideration of the Secretary for Lands.

G. LEWIS.
(For the Surveyor-General).

8th December, 1884.

The Under Secretary for Lands.

Submitted.—F.H.W. (for W.S), 11/12/84. The reserve cannot be interfered with at present.—J.S.F., 19/12/84. A. Cameron, M.P., informed.—22/12/84.

To The Honorable Minister for Lands, Sydney.

Sir, Bonville Creek, 25 July, 1885.

I, the undersigned, on the 29th day of June, 1882, free-selected 640 acres of land on Bonville Creek, which was subsequently declared void. I now wish the same brought under the Crown Lands Act of 1884. An answer will oblige as I am too ill to come to Sydney.

PATRICK FITZPATRICK,
Bonville Creek.

This applicant appears to have been under the impression that this land was open to selection, although warned to the contrary. However, as the conditions appear to have been satisfactorily complied with it would be a considerable hardship for him to leave the improvements, and the case might be met by allowing him 250 acres to cover the improvements. It may be included in the Validating Bill.—H.C. 22/4/86.

O.

[*To Evidence of F. H. Wilson.*]

Registered number of Papers, 86-72 71, Correspondence, Department of Lands office memorandum.

REMARKS.

TENTERFIELD, C.P. 78-85, 13 sec., 200 acres. A.C.P. 145, 21 sec., 40 acres. A.C.P. 80-35, 21 sec. 56½ acres. A.C.P. 82-46, 21 sec., 100 acres. Selected by William Henry Walker.

In 1875, a selector, named Thomas Flynn, made three selections, viz., C.P. 75-40, 116, and 118, which were afterwards transferred to W. H. Walker. These selections were declared void in 1878, being for lands taken up as mineral leases and since cancelled, and the transferee, W. H Walker, was informed that he could reselect the land then available. This he did under C.P. 78-85, which is the conditional purchase now under consideration. On the 16th of March, 1883, C.P. 78-85, formed the subject of an inquiry before Mr. Commissioner Blythe, and as a result of this inquiry it was declared forfeited, together with the additionals, *vide Gazette* of 10th July, 1883, for non-fulfilment of conditions of residence.

Applicant strongly protested against the forfeiture on the grounds that the residence condition had been fulfilled on the 75 C.P., of which this C.P. 78-85 was a reselection, and that he made the reselection *pro forma* for the purpose of getting over the difficulty, which he contends was caused through a default of the Department in allowing the C.P.s' to be transferred and held so long without declaring them void.

An inquiry into the case was held by the Local Land Board at Tenterfield, on 23rd of March, 1885, and on the 15th of September, 1885, Mr. Secretary Farnell decided that the forfeiture be reversed, but that the C.P.s' be declared void, as the land was improved at the date of selection.

The forfeiture of O.C.P. 78-85, was revoked, and applicant informed on the 11th of November, 1885, but the forfeiture of the A.C.P.s' which were erroneously omitted from previous schedule was not revoked until 29th of April, 1886.

The notice of voidance and the refund vouchers were sent to applicant on 18th of May, 1886.

These vouchers have now been returned by applicant, who protests against the voidance, and asks that the C.P.s' be validated by special Bill, giving at the same time certain reasons why he considers such a course should be adopted.

It may be mentioned that the land embraced within void A.C.P. 82-46, has been reselected by James Drury under C.P. 84-89, which stands good.

W.H.C., 13/1/87.

The Assistant Under Secretary.

Submitted. Mr. Walker has made out a strong claim for special consideration, the action of the Department having misled him. The fairest course would appear to be to include C.P.s' 75-40, 116, and 118, in the Schedule to the validating bill about to be prepared for submission to Parliament. C.P.s' 78-85, 78-145, and 80-35, cannot, it is thought, be validated, as the conditions were not fulfilled, and C.P. 82-46, has now been claimed by James Henry, under C.P. 84-89 which stands good.—S.F., 13/1/87. C.O.

Approved.—H.C. 15/1/87. Informed.—25/1/87.

P.

[*To Evidence of F. H. Wilson.*]

Department of Lands.—Office Memorandum—Registered number of papers, 87-13,030 Dep.

REMARKS.

CONDITIONAL PURCHASE 66-194, of 320 acres was applied for by William Bocking in the district of Gundagai, on the 11th of January, 1866, and measured as portion 2, parish of Mundarlo, county of Wynyard.

Balance thereon was credited 15th March, 1869.

Bocking died before the declaration was made, and his widow and administratrix (Sarah Jane Boking, afterwards Sarah Jane Freeman, wife of William Charles Freeman) applied to have the deed issued in the name of her daughter, Mary Ann Jane Bocking.

This was done, and upon reference to the Registrar-General it appears that the portion still stands in the name of the aforesaid Mary Ann Jane Bocking.

On 30th of May, 1878, W. C. Freeman applied for additional conditional purchase (78-160) of 60 acres, in virtue of the 320 acres portion 2 referred to above, and although the land was measured and Freeman's title thereto, has remained unquestioned for so many years, yet as Freeman had no title whatever to the freehold, it is submitted that conditional purchase 78-160 was bad at *ab initio*, and the only course open is, it is thought, to declare the conditional purchase 78-160 void.

F.B.S., 29/4/87.

Perhaps the circumstances would justify the inclusion of the conditional purchase in the special validating Bill now in course of preparation.—S.F., 21/5/87. Submitted for approval.—C.O., 25/5/87. Approved.—T.G., 26/5/87.

Q.

Q.

[*To Evidence of F. H. Wilson.*]

Department of Lands—Office memorandum—Registered number of Papers, 86-1,925. Cor.

REMARKS.

C.P. 84-3, Maitland, 5th June, 1884—40 acres—David Gallagher :—The application describing the piece of land, was lodged on the 5th of June, 1884, by David Gallagher, at the Maitland Land Office.

Upon its being found that the description embraced part of the reserve from conditional purchase on account of population of the town of Cessnock, and part of travelling stock reserve 24, the application was declared void, and the necessary notification issued on the 5th of February, 1885.

From the correspondence in the case, it would appear that the applicant is still in occupation, and persists in urging his claim to the land in question.

Mr. Burns, M.P., has also interested himself in the matter, and refers to the applicant as having "acted in good faith, and having improved, and continuously held possession of the land."

It is submitted that David Gallagher has no claim whatever to the land, and as he received the notification of voidance, and the reason for such action, was aware of his position.

It is reported from Survey Branch, that there is no lithograph of the village of Cessnock, as it is a private one, but a tracing showing the locality has been prepared for the information of the Under Secretary. W.H.C., 19/6/86.

Submitted.—C.O., 21/6/86. The applicant for this conditional purchase was duly informed of the invalidity of his position ; and as he persists in his occupancy, steps may be taken to eject him.—H.C., 28/12/86. The Crown Lands Bailiff, Cessnock, with tracing, 4/1/87.

The proceedings may be withdrawn, and the District Surveyor instructed to report as to what objection there may be to the validating of the conditional purchase other than the fact of the conditional purchase being within the population area of Cessnook.—T.G., 31/1/57.

Sir,

In reply to your communication of 1st February, 1887, asking for a report as to any objection there may be to the validation of conditional purchase 84-3, Maitland, other than the fact of the land being within the population area of Cessnock, I have the honor to state that the land occupied by David Gallagher embraces part of the land set apart as a police paddock, as well as part of travelling stock reserve No. 24, notified 15th September, 1875.

I have seen the local Superintendent of Police, and he informs me that the portion of the police paddock reserve included in the conditional purchase is not required for police purposes.

I am not aware of any objection to validating this conditional purchase other than the fact that it embraces land reserved from conditional purchase.

I am, &c.,

J. W. ALLWORTH,

District Surveyor.

24th February, 1887.

Submitted as to whether the conditional purchase is to be validated by inclusion in the special Bill about to be placed before Parliament.—S.F., 29/3/87. C.O., 31/3/87. Approved.—T.G., 1/4/87.

R.

[*To Evidence of F. H. Wilson.*]

William Green's Case.

ON 18th May, 1871, John McKeag and William Green, each conditionally, purchased 100 acres of land at Paling Yard's Creek, in the district of Molong. The selections adjoined and were measured as portions $\frac{50}{1}$ and $\frac{51}{1}$, parish of Bowan, county of Ashburnham, and McKeag and Green duly complied with the residence condition until, on the 5th September, 1872, the former transferred his purchase to Green, who proceeded to reside upon the land, and continued to do so until the expiration of the residence period—in fact, is said to still reside there—and improve the area in a substantial manner.

Upon receipt in this office of the transfer of McKeag's conditional purchase Green was informed that he could not hold both purchases, and in consequence he asked leave to abandon his own in order that the other might stand in his name.

Eventually the transfer of McKeag's conditional purchase was approved, declaration made, and interest duly paid, but Green continued to improve his own selection, and although lapsing was duly declared, he paid interest regularly to the Treasury ; and has continued to do so to the present time—the money being regularly placed to suspense account. In June, 1882, one Henry Newton applied to conditionally purchase William Green's lapsed conditional purchase (portion 51), but as the local surveyor reported that the land at date of conditional purchase contained improvements to the value of £155, effected by William Green, voidance was notified, and Newton's deposit—at his request—refunded. Green now asks that, as many similar cases of adjoining purchases under section 13 have been treated as of one series, the purchase originally applied for by him may be restored, and deemed to be an additional holding (under section 21 of the Act of 1861) to McKeag's.

Unfortunately, in the division of the pastoral holding, the land in question became—with the exception of a small area on the frontage—part of the leasehold area of Davy's Plains, No. 298 holding.

Submitted, as to whether the case may be included in Schedule to the Validating Bill now in course of preparation, provided Green can produce the written consent of the pastoral lessees, the Australian Joint Stock Bank, for the restoration of the purchase in his favour.

S.F., 31/5/87.

Consent of Mr. H. C. Wall, and the A.J.S. Bank now herewith (*vide* 87-2,937).—S.F., 2/6/87.

The conditional purchase in question may now be placed in Schedule of Validating Bill.—T.G., 6/6/87.

S.

[*To Evidence of F. H. Wilson.*]

C.P. 76-208, Bombala, 13th section, now 228 acres.

ON 24th August, 1876, by conditional purchase 76-208, David M. Garnock selected 320 acres, portions 154 and 180. On 10th of August, 1878, the lessees of the run protested against the selection, on account of improvements, in consequence of which it was referred to the surveyor for report.

In view of the report received from the surveyor, it was submitted and approved that Garnock be allowed the unimproved part of the land, about 210 acres, and that the remainder (improved) about 110 acres, be offered at auction sale, with the value of the improvements added to the upset price, or applicant to have the option of a refund of the whole deposit.

Applicant protested against the reduction, and on 31st of March, 1880, he lodged an appraisement fee of £1 1s. An appraisement was made on the 8th of September, 1880, when the improvements were valued at £92. On 22nd September, 1880, applicant protested against the award made by the appraiser, on the grounds that it was not in accordance with evidence, and that improvements effected subsequently to selection were taken into consideration.

On the 16th of May, 1881, the Minister approved that Garnock should have the option of retaining the remaining 228 acres on payment of the sub-division fee, or of having his conditional purchase declared void, and his deposit refunded to him. (81-9084.)

It was afterwards decided that the sub-division fee need not be paid, as the measurement of the portion was not made until some time after the conditional purchase was applied for. The area was then reduced, and a refund of the difference sent to applicant.

Inspector Maddison visited the land on the 24th of June, 1885, and reported improvements to the value of £136 ; and that he believed Garnock did his residence upon portion 180, which had been excised from his conditional purchase. An investigation was held before the Land Board at Cooma, on the 15th of October, 1885, and having taken evidence, the Board found that the conditions of residence had not been complied with on portion 154, and they therefore recommended it for forfeiture. On

On the 29th October, 1885, a letter was received from Mr. James Carrol, protesting against the recommendation of the Land Board, and bringing forward several reasons why the forfeiture should not be carried out. On the 1st of February last, Mr. Secretary Spring gave the following decision :—"Taking all the circumstances of this case into consideration, I do not feel inclined to strain the law against the selector. There is no doubt as to his residence upon what he claimed as part of his conditional purchase. If afterwards it was proved to belong to the lessee, by virtue of improvements, that was only arrived at after four years. I now decide that D. M. Garnock be allowed portion 154, and that his declaration be received and certificate issued. The £10 may be returned to Mr. Cruikshank."

The £10 referred to was thereupon refunded to Mr. J. Cruikshank, but the action as to issue of certificate does not yet appear to have been carried out.

W.H.C., 4/8/86.

Submitted as to whether the certificate is to issue. Please see *précis* of case.—C.O., 28/12/86.

J. W. Spring's decision is so clearly against the law that it will be necessary to validate the conditional purchase to give effect to his decision. This may be done.—H.C., 27/12/86.

T.

[*To Evidence of F. H. Wilson.*]

HARVEY transferred conditional purchase 75–779, Wagga Wagga, to Robert Harris, the holder of an original conditional purchase on which the condition of residence was being fulfilled, Harris treated this conditional purchase as though held under the 21st section, and on the case being submitted to Mr. Secretary Farnell on 21st September, 1885, he approved of the same being passed and treated as a 21st section purchase. It was afterwards found that this conditional purchase did not adjoin Harris' conditional purchases except through another additional conditional purchase of subsequent date, upon which the Under Secretary submitted as follows :—"Mr. Farnell's decision of the 21st September, 1885, was evidently given under a misapprehension. It is submitted whether it should, at this late date and after being duly communicated to the selector, be disturbed." And thereon, Mr. Secretary Copeland decided that as the selector was informed that the conditional purchase was to be transferred from one section to another in effect, he did not care to interfere with his (Mr. Secretary Farnell's) decision ; but it will be necessary to include Harvey's conditional purchase in a Validating Bill.

U.

[*To Evidence of F. H. Wilson.*]

ON the 25th of November, 1884, the Chief Commissioner, under the report of Mr. Commissioner Trollope, minuted conditional purchase 81-9, W. W. Jobson, Balranald, for forfeiture (*vide* conditional purchase 84–33,329 Dep.), and before the case was submitted to the Minister for approval, it was included in a schedule of conditional purchases for forfeiture (84-35,597 Dep.), to which the Minister as a matter of form attached his signature on the 9th of December, 1884.

Subsequently the lease was submitted to the Minister on the 24th of December, 1884, who first approved of the Chief Commissioner's minute recommending forfeiture, and afterwards, but on the same day, decided that a further inquiry might be held. Instead of carrying out the latest decision, which virtually overruled the former one, the conditional purchase was gazetted as forfeited on 30th of December, 1884.

The case was referred to the Board for further inquiry on the 31st of August, 1885, but recalled by Mr. Secretary Abbott, who directed on the 12th December, 1885, that the forfeiture of the conditional purchase should be provisionally reversed. On the 31st December, 1885, the Board reported that being of opinion that "the forfeiture was valid, and the further inquiry was a misapprehension" (L.L.B. 85-2,607 and C.S. 84-12), they did not feel justified in reopening the case.

The decision of Mr. Secretary Abbott was not carried out until April, 1884, when the forfeiture was reversed.

The lessee now protests against the reversal of the forfeiture, on the ground that at the date of the division of the run the land was Crown lands, and was included in and forms part of the leasehold area of his holding.

No declaration has yet been made, on the conditional purchase, which was applied for on the 11th December, 1881, and therefore the conditional purchase is liable to be declared lapsed.

F.H.W., 2/2/87.

The reversal of the forfeiture was under the circumstances now stated illegal, and may therefore be revoked. At present the conditional purchase is liable to forfeiture for non-receipt of declaration, &c., but the course above suggested is that which should be pursued.—C.O., 10/2/87.

Approved.—T.G., 16/2/87. Executive Council minute, 10th March, 1887 :—Mr. Secretary Garrett approved, on 6th July, 1887, that the case be included in the Schedule of the Validating Bill.

V.

[*To Evidence of F. H. Wilson.*]

To The Honorable the Minister for Lands, Sydney.

Sir, Bourke, 31 August, 1886.

I am instructed by the lessee of Tinapagee Run to bring under your notice the occupation by a man, named James Keohane, of a conditional purchase of 40 acres, situated upon the Tinapagee Run, on the west bank of the Paroo River, the selection was gazetted forfeited on account of its being on water reserve No. 305, and a letter written by the Lands Department, dated the 17th of August, 1884, conveys that information. Since its forfeiture, Keohane has fortified himself with miners' rights, and when threatened with a prosecution for occupying Crown lands, states his right to do so under the miner's right. I should like an inquiry made as to what right this man has to the occupation of this forfeited selection, and also a direction given to the proper officer to institute proceedings against him ; his avocation is not that of a miner, and, I am instructed, does not attempt to pursue anything in that direction. If inquiries are made at the Wanaaring Police Office, it will be found that his removal will be an advantage to the district, as I am informed he keeps a "shanty," giving no end of trouble to the lessee of the station.

I have, &c.,
J. T. REDFORD.

Mr. Gerard,—Is the res. referred to within a leasehold area?—E.L., 10/9/86. Yes.—F.G., 13/9/86.

Statutory Declaration A.

I, JAMES KEOHANE, of Wanaaring, selector, in the Colony of New South Wales, do hereby solemnly and sincerely declare as follows :—That I made my application conditional purchase 82-13 of 40 acres, at Bourke, in ignorance of the fact that the land I applied for was included in a reserve. The first official intimation I received was from Mr. Licensed-Surveyor Granter, sometime about November, 1883, a year and eight months (about) after selection, when that officer came to measure the portion. I have not ceased to perform the conditions of selection up to the present time ; and I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

JAMES KEOHANE.

Subscribed and declared at Sydney, this 29th day of April, 1886, before me,—JAMES CARROLL, J.P.

Let the papers in this case be brought in.—H.C., 29/4/86.

I should have been very glad to have validated this selection under the 138th section, but the proviso precludes me from doing so. The land having since voidance been included in a leasehold area "conflicting interests" have arisen ; moreover it is questionable whether the case has not "been finally disposed of in a lawful manner." However, as the case is a very hard one it may be included in a Validating Bill.—H.C., 7/6/86.

J. Carroll, 9/8/86.

W.

W.

[*To Evidence of F. H. Wilson.*]

C.P., 81-281,—Forbes.—Thomas Leslie.

640 acres, portion 16, parish of Currawong, county of Forbes, 14th section. Date of application—17th November, 1881. Date of Survey—16th November, 1882. Plan accepted—23rd May, 1883.

On the 17th March, 1884, the selector applied for a refund of deposit, on the ground of non-survey within 12 months. Inspected 8th of June, 1885. Non-resident, improvements, £205 5s.

The selection was notified as lapsed on the 30th of June, 1885.

Mr. Secretary Farnell declined to grant a refund of deposit.

The case has been reopened, and the Minister has directed an enquiry whether the selector resided on the land up to the time of his application for a refund of deposit (17th March, 1884). J.L.D., 2/10/86.

The land was actually surveyed on 16th November, 1882, within 12 months from selection, but the plan was not approved till 23rd May, 1883. Therefore not surveyed within 12 months from selection, but the selector resided on the land for over a year after survey, before claiming a refund of deposit, and then he sent his letter to the Chief Commissioner. No withdrawal of application appears to have yet been lodged with the land agent till 17th March, 1884. We are of opinion the residence was satisfactory, and we recommend accordingly, but the rest, we think, questions of law, wholly for the consideration of the Minister.—J.R.E., Chairman, E.S., J.D.H.—7/10/86.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4). Decision of Local Land Board. New South Wales, Forbes, to wit.

Whereas on the seventh day of October, 1886, it became a matter for investigation before us, whether Thomas Leslie has resided upon C.P., 81-281, Forbes, 640 acres, parish of Currawong, county Forbes, portion 16, from date of declaration (17th November, 1881) to date of application for refund of deposit (17th March, 1884), and having taken evidence and inquired into the said matter, we find that the land was actually surveyed on 16th November, 1882, within 12 months of selection, but the plan was not approved till 23rd May, 1883, therefore not surveyed within 12 months from selection, but the selector resided on the land for over a year after survey, before claiming a refund of deposit, and then he sent his letter to the Chief Commissioner. No withdrawal of application appears to have been lodged with the land agent till 17th March, 1884. We are of opinion the residence was satisfactory, and we recommend accordingly, but the rest, we think, questions of law, wholly for the consideration of the Minister. Given under our hands, at the office of the Local Land Board, at Forbes, Colony of New South Wales, this 7th day of October, 1886.

J. R. EDWARDS, Chairman.
ERNEST A. L. SHARPE, } Members.
J. D. HUTCHINSON, }

Submitted.—The notice of withdrawal, as pointed out by the Board, was not lodged with the local land agent, but the custom of the Department in such cases has always been to forward similar notices to the land agent for notation. Residence was satisfactory. Submitted, that refund may, under the circumstances, be granted.—S.F., 21/10/86.

My attention has been drawn to the fact that the plan of the survey of this C.P. was approved on 23rd May, 1883, whereas notice of withdrawal was not given until 17th March, 1884.—S.F. As the application for a refund to Leslie was by an inadvertance of the Department, not refused for two years, during which time Leslie ceased residing on the land under the supposition that his application would be granted, he now asks to be reinstated. This may be done, and the lapse in residence may be validated under the Validating Bill, to be brought in during next session of Parliament. Inform.—H.C., 28/10/86.

In view of Ministerial decision, dated 28/10/86, it is submitted whether, in the meantime, the lapsing of the C.P. in question be provisionally reversed.—F.H.W., S.F., 3/12/86. C.O., 17/12/86. Approved.—H.C., 17/12/86.

X.

[*To Evidence of F. H. Wilson.*]

C.P. 82-53, Narrabri, 13th section, portion 13.

On 23rd March, 1882, by C.P. 82-53, Daniel Murphy selected 640 acres of land in the parish of Coolga. On 16th November, 1882, applicant stated he was informed that part of the land applied for was upon a 10-chain T. S. Reserve, and that since selecting he had erected extensive improvements upon this reserve and wished to know whether such was the case before he further improved it.

The case was thereupon referred to Mr. Licensed-Surveyor Rigaut, who reported that he visited the land and inspected Murphy's improvements on 27th March, 1883, and found that he had erected a house, outhouses, yard, and sunk a well on the 10-chain road, within travelling stock reserve No. 1,755, at a cost of about £300.

The land was measured by Mr. L.-S. Rigaut, on 16th June, 1883, and the acting district surveyor, in transmitting the plan to the Surveyor-General, made the following remarks: "That part of water reserve, 1,160, situated on the north side of T.S.R. 1,755, is under existing conditions useless as a reserve, and is not now required in the public interest. I would therefore suggest its cancellation, and also the cancellation of a part of T.S.R. 1,755, in order to allow applicant to secure the land he intended to take up, and secure his improvements also. Mr. Rigaut's report is not as complete as it might be, but from my own intimate knowledge of the locality, I am in a position to state that the utility of T.S.R. 1,755, and W.R. 1,160 would not be in any way impaired by the revocation of the area referred to.

In a letter dated 8th October, 1883, Mr. L.-S. Rigaut stated that in May, 1883, he had cautioned Murphy, through his wife, against further improving the land, but this caution was disregarded, as a slaughter-house and other minor improvements had been erected in the meantime. (83-9,594 sur.)

On 9th September, 1884, it was approved that the conditional purchase be measured as shown by red hatching on enclosed tracing (B) and the road and reserve be modified, so as to afford applicant an opportunity of selecting afresh the land not then available.

The area was thereupon reduced to 422 acres, and a refund order issued to applicant upon the area excised, and applicant availed himself of the refund on 27th November, 1884.

Mr. Secretary Farnell, however, approved, on the 29th June, 1885, as the reserves had not yet been cancelled, and as the survey received embraced the full area of 640 acres applied for, the applicant be allowed the land measured by special enactment, and that if the purchase be established applicant be asked to pay deposit on 218 acres.

Applicant was asked to pay the extra deposit on 3rd September, 1885, but although again reminded on 8th February last, no reply appears to have been received from him.

Inspector Cox has now reported that applicant has effected improvements to the value of £273, and is resident with his wife and family.

Applicant should be again reminded and informed that upon repayment of the extra deposit upon 218 acres the conditional purchase for an area of 640 acres will be included in a Validating Bill now in course of preparation.

W.H.C., 24/8/86.

The Under Secretary.

For approval.—C.O., 6/9/86. Approved.—H.C., 7/9/86. Include in Validating Bill in anticipation of payment of deposit. The case can be struck out if deposit be not paid.—C.O. D. Murphy informed accordingly.—8/9/86.

[*To Evidence of F. H. Wilson.*]

C.S., 84-5,920 Cor.

Conditional purchase 83-143, Molong, Hugh Mackenzie, within travelling stock reserve 633. notified 5th November, 1875. On the 21st June, 1883, H. Mackenzie selected at the Lands Office, Molong, 250 acres of Crown lands, in the parish of Belubula, county of Ashburnham, which, on account of its being with the reserve above quoted, was declared void in November, 1883.

On being informed of the voidance of his selection a protest was lodged by applicant, stating that the land agent, when he applied for the area, had shown him the maps in which the reserve was marked as cancelled, and also informed him that the land was open for selection, on the strength of which assurance he had started to improve the land by clearing, &c., which he states to have cost him over £100.

Mackenzie now seeks for the revocation of so much of travelling stock reserve 633, as will allow of his reselecting the land originally applied for by him.

Approval has been obtained (84-17,298 Misc.) for the revocation of the portion of the reserve north of the road after survey has been made of the part of the travelling stock reserve on the southern side.

The plans of these surveys have been received and are now being dealt with. The portion of the travelling stock reserve included in Mackenzie's application is wholly north of the road, and embraced by the part of the reserve intended for revocation.

Submitted, that so much of travelling stock reserve 633 included within the area applied for, as shown in red on enclosed tracing, be revoked after measurement, with the view of affording applicant an opportunity of reapplying for the land.

G. LEWIS
(for the Surveyor-General),
16 September, 1884.

The Under Secretary for Lands.

Submitted.—F.H.W., 14/10/84. C.O., 16/10/84. Approved.—J.S.F., 24/10/84. Dr. Ross, M.P., R. M. Vaughn, M.P., and H. Mackenzie informed.—27/10/84. Mr. District-Surveyor Crouch for measurement, in accordance with ministerial decision hereon.—G. Lewis (for Surveyor-General), 31/10/84. Mr. D.-S. Crouch.

Hugh Mackenzie, conditional purchase 83-143, Molong—void conditional purchase 86-6,—ditto disallowed, 250 acres, parish Belubula, county Ashburnham.

THE particulars of the case of conditional purchase 83-143, Molong, are set forth in the memo. of the 16th September, 1884 (84-19,753 Misc.), in which, under the circumstances of the case, it was recommended that the part of the travelling stock reserve, within which the land applied for was situate be revoked with a view to enabling Mackenzie to reselect the land he had occupied and improved. The revocation was approved, to be carried out after survey of the land.

The survey was effected, and on the 18th November, 1885, the revocation of that part of the travelling stock reserve within the portion was notified, but in the meantime the Crown Lands Act of 1884 had come into operation.

On the 21st January, 1886, Hugh Mackenzie reapplied for the land (as he had been advised to do) as conditional purchase 86-6, Molong, but as the land is wholly within the leasehold area of Mogong and Tilga Runs, the Board had no alternative but to disallow the application.

The case appears to be one of very great hardship, as applicant has placed valuable improvements (to the amount of about £213) on the land, and has been residing on it since he first selected.

As conditional purchase 83-143 was declared void in November, 1883, less than one year after the selection was made, it cannot be validated under the provisions of section 138 (clause 3) of the Act of 1884 ; but in order to give applicant relief, it is suggested, if such a course may be taken, that the land may be withdrawn from the "leasehold area, when Mackenzie might reapply for it under a fresh application," or that the purchase made in 1883 may be validated under a special Act of Parliament. I am led by Mackenzie to believe that the lessees will not oppose his occupation of the land.

CHAS. E. FINCH,
Chairman.

Local Board Office, Orange, 3 September, 1886.

Resubmitted.—C.O., 7/4/87. I am of opinion, and so decide that the conditional purchase of 1883 should be included in the Schedule of the Validating Bill for submission to Parliament. If the Land Act of 1884 had not been passed there cannot be the slightest doubt that the void conditional purchase would have been reselected, and the great hardship Mackenzie has suffered, and is still liable to, would have been avoided.—T.G., 12/4/87.

Z.

[*To Evidence of F. H. Wilson.*]

Conditional Purchase, Deniliquin, 76-151, 28th September, 1876—Mary Ann Orr.

The Honorable the Minister for Lands.

Sir,

Sydney, 2nd February, 1886.

This conditional purchaser sold out her home in Victoria, and brought her household "goods," and nearly a thousand pounds into New South Wales, and selected 640 acres to make a new home for herself near her relatives in my electorate. She selected in 1876, and at that time there was a good deal of land open, but unfortunately she fixed upon a reserve without knowing it, because the land agent told her it was open for selection. She commenced vigorously to improve the selection, and soon she had spent what your inspector valued at £800. The Lands Department offered her 90 acres, but as that much would not support her, and as the money spent would be as thrown away on 90 acres, they tried hard to get the 640 acres which she had selected. The District Surveyor, Mr. Orr, has recommended that if more were given it would not injure the public interests, and if she cannot get the area of her conditional purchase she will be content with the area recommended by the District Surveyor in his report No. 80-53, dated 27th April, 1880.

I am myself satisfied that the Minister will only be doing justice if this selector gets her land ; she has paid for it many times over in disappointment and loss of time, and from being misled by the land agent.

I have, &c.,
ROBERT BARBOUR.

P.S.—I may mention that this land has long since been reserved from lease, so that the lessee has no claim.—R.B.

Submitted.—It has been several times decided to validate Miss Orr's selection to the extent of 90 acres (about), to include the improvements made by her, and opinions have been expressed that this course meets all the requirements of the case. It is true that Mr. District-Surveyor Orr reported that it would not be prejudicial to the public interests to include an area of about 526 acres, yet Mr. Farnell, on two occasions decided not to do so. Mr. Barbour appears to again appeal for the 526 acres. It will not be more difficult to validate that area than 90 acres, yet there is no argument now brought forward which has not already been considered, and therefore the previous decisions should be adhered to. This and other cases should be included in a Validating Bill, with a view to the cases, which have been so long outstanding, being finally disposed of.—C.O., 12/2/86.

There appears to be nothing prejudicial to the public interest in permitting the larger area of about 526 acres to be sold to this applicant, and steps may be taken to place in such Schedule with a view to being included in a Validating Bill.—G.S., 17/2/86.

Mr. R. Barbour informed, 18 February, 1886.

AA.

[*To Evidence of F. H. Wilson.*]

Report by Local Land Board, Nowra.

IN reference to the investigation before us concerning the fulfilment of conditions upon the C.P. 79-11 of 40 acres, being portion 240, parish Wallaya, county of Camden, we found that the C.P. was made in March, 1879, and was duly transferred on 1st of April, 1880, and that no inspection, inquiry, or investigation was made until December 1885.

We also found that Jules Schreiber, to whom the C.P. was transferred on 1st April, 1880, had faithfully fulfilled all required conditions from that date.

We avoided making any report concerning the faithful fulfilment of residence by the original purchaser, Patrick O'Dwyer, as it appeared to us that the interests of Jules Schreiber should not, and could not equitably be injuriously affected by any incomplete performance of conditions by P. O'Dwyer after such a lapse of time.

For

For the information of the Minister, as desired, we beg now to further report that P. O'Dwyer did not in our opinion, strictly comply with the conditions of continuous residence, from March, 1879, until 1st April, 1880. Given at the office of the Local Land Board, at Nowra, this 18th December, 1886.

T. WARRE HARRIOTT, Chairman.
JAMES HUNT.
T. G. BEAL.

Submitted.—F.H.W., 18/1/87. S.F., 21/2/87. C.O. 22/2/87. Under the circumstances, I think this is a case for the Validating Bill.—T.G., 24/2/87.

BB.

[*To Evidence of F. H. Wilson.*]

APPEAL by Charles W. Porter against the decision of the Wentworth Land Board, that C.P. 78-3 be declared void.

It appears that a married woman, Mary Ann Porter, with the consent of her husband, the appellant, applied for a C.P. of 640 acres, on the 24th of January, 1878. On the 21st of August, 1880, the Chief Commissioner minuted 78-28,316 as follows:—"As the selection was made in January, 1878, and has not previously been questioned, it is submitted that the husband of the applicant be allowed the option of having the selection registered in his name, subject to the fulfilment by him of the conditions." On which Mr. Secretary Hoskins wrote, "I concur.—J.H., 23/5/80."

The selection was accordingly registered in the husband's name and though the Board find that the conditions of residence and improvements have been fulfilled, they now declare it void, against which decision C. W. Porter appeals.—F.H.W., 29/7/87.

Mr. Secretary Garrett postponed the hearing of the case in the Appeal Court, and decided that it be included in the Schedule to the Validating Bill then about to be introduced to Parliament.

CC.

[*To Evidence of F. H. Wilson.*]

C.P. 84–550, Wagga Wagga, George Power, 18th November, 1884.

WITH regard to the subdivision of portion 80 having subsequently been made in the same form as applied for by Power, in his application 84–550, and upon which applicant lays such stress, and appears to have interpreted as a measurement in satisfaction of his C.P., it may be stated that after reservation of portion 80 for water supply (with the view of its being set apart as a special area) it was submitted as to whether any further action was to be taken towards proclaiming the land, a special area under section 24 of the Act of 1884. Mr. Secretary Farnell approved on 29th July, 1885 (12,002 Mis.) that the portion be subdivided for that purpose into areas of not more than 160 acres. In accordance with this decision the papers were forwarded on 10th August, 1885, to Mr. District-Surveyor Bolton, who issued instructions to Mr. Surveyor Bray, but appears to have omitted to state definitely the form of subdivision required, merely enclosing tracing of the land alluded to, and requesting the surveyor to subdivide the portion and to carry out such instructions with all possible despatch (*see* letter of instructions, dated 19th August, 1885, herewith). Mr. Surveyor Bray sent in his report on 21st of August, 1885, at the same time transmitting plan of the subdivision, showing 2 portions of 160 and 40 acres numbered 85 and 86.

There are three tracings of portion 80 herewith, but it is not known which of them was sent to the surveyor, and as two of them show the subdivision as applied for by Power in his application 84–550, it is thought that the surveyor, not having any definite instructions as to the form of subdivision required, subdivided it as shown on the tracing. This therefore would appear to account for the subdivision having been made in the same form as desired by Power in his application, 84–550, but it is submitted that this does not, as Power seems to think, give him any legal claim to the land in question.

With regard to the statement that the portion is not required as a travelling stock reserve, attention is drawn to the report by Mr. Stock-Inspector Brentwall, of 14th October, 1885 (85–1,663, Mis.), and the opinion expressed by the Local Land Board at Wagga Wagga, after due inquiry on 9th October, 1886 (86–18,119, Mis.) The recommendation of the Board was approved by Mr. Secretary Copeland, and the land proclaimed a travelling stock reserve. (*Vide Gazette* of 11th December, 1886.)

W.H.C., 23/7/87.

The Under Secretary.

The further consideration of this case has been strongly urged by Mr. Gormly, M.P., and he points out that Power has never ceased to occupy the land since he applied for it. The C.P. was declared void because the Minister declined to permit the subdivision of a measured portion, an exception is taken to that action, on the ground that the portion was subsequently subdivided in the way necessary to permit of Power's C.P. being allowed, and therefore that the voidance of his application upon the finding that the subdivision was objectional was erroneous. This is a matter of opinion, and it would appear, although not so expressed in the papers, that Mr. Secretary Farnell was influenced by the legal aspect of the case in so far as on more than one occasion the Supreme Court have ruled that a measured portion containing £40 worth of improvements or more could not be selected unless the improved portion was excluded from the portion as originally surveyed, prior to the C.P. being applied for. If these circumstances guided Mr. Farnell to his decision, the course pursued is supported by legal decisions, and however hard the case may be for Power it would not be prudent to reinstate his C.P. unless by special validation. In connection with such a course it involves a question of the land being required for travelling stock.—C.O., 25/7/87.

From an examination of the map, which shows ample and continuously connected reserves without the one in question, I am of opinion that extension of travelling stock reserve 1,950, which embraces the land sought for by Power, should be revoked after Power's conditional purchase application has been validated by Act, and the proper steps to that end should be taken.—T.G., 25/7/87.

Sir, Department of Mines, Stock Branch, Sydney, 28 September, 1887.

I have the honor to inform you that a communication has been received protesting against any curtailment of travelling stock reserve No. 2,758, parish of Pearson, county of Mitchell, and as it is understood that it is proposed to validate the conditional purchase applied for within the reserve by George Power, at Wagga Wagga, I am directed by the Secretary for Mines to point out that this is one of the most important camping and watering reserves on the main eastern stock route to and from this Colony and Victoria, and its alienation would do a very serious injury to the large stock traffic constantly on this line, and as there is already too little provision on it for travelling stock Mr. Abigail thinks this reserve certainly ought not to be interfered with, and trusts that the Secretary for Lands will see his way to withdraw this item from his Validating Bill.

I would, in conclusion, point out that between this reserve and the river at Wagga Wagga, a distance of over 12 miles, there is only a single turn out on a long narrow road, and that without water, and that the recommendation previously made by this Department for the retention of the reserve in question was supported by the Local Land Board, the District Surveyor, and Local Inspector of Stock.

I have, &c.,
GERARD E. HERRING
(for The Under Secretary).

The Under Secretary for Lands

Acknowledge receipt and inform that the cases for validation are pending investigation by a Select Committee of the House, and that this letter will be considered with the other papers of the case in question.—W.H.C., 6/10/87. F.H.W. (for U.S.), 10/10/87. U.S. Mines informed, 13/10/87.

DD.

[*To Evidence of F. H. Wilson.*]

Additional conditional purchase 82-211, additional conditional purchase 83-17, D. Robertson, junior, Coonamble.

See tracing DD

SURVEY of additional conditional purchase 82-211 and 83-17, D. Robertson, junior, subdivision of measured portions 31 and 32, parish of Carval, county of Oxley, has now been made and plan approved.

In satisfaction of additional conditional purchase 83-17, applicant has signified his intention of accepting the 40 acres offered to him, now measured as portion 24, but he has only conditionally accepted the area now measured as portion 25, offered in satisfaction of his additional conditional purchase 82-211 (*vide* Surveyor's report). He is apparently reluctant to accept this latter area because he has constructed a dam and tank worth about £35 on the part of portion 31 excluded from his conditional purchase as being unavailable at date of application. This area is still unavailable for conditional purchase, as it forms part of a travelling stock reserve, which the Land Board have recently recommended should be retained.

In

In view of the long delay already incurred, it is suggested that applicant be informed that, failing his written acceptance of portion 25 for his additional conditional purchase 82-211, say within one month, that additional conditional purchase will be declared void for the reason that the area applied for is not available.

THOS. H. FINCH,
District Surveyor.

26 April, 1887.

The Secretary for Lands.

Submitted.—F.H.W., 6/5/87. S.F., 21/5/87. C.O., 23/5/87. Approved.—T.G., 25/5/87.

Sir, Warren, 8 June, 1887.

In answer to your favour of the 3rd instant respecting my conditional purchase (82-211), I wish to place before the Under Secretary a few facts relating to this case, and the unjust manner in which I am being dealt with.

In 1882, this land was surveyed and thrown open for selection by Surveyor Dalgleish, and I, in common with others, accepted that survey as correct, and selected. The Government received my deposit, and of course I, believing all to be right, put on the land my improvements, a dam and tank worth £100 alone, fencing, &c. After a silence of four years, the refund is suddenly offered, and I am called upon to vacate that part of the land containing the dam and tank, which is the only water I have there. It simply spoils the whole selection, not to forget the fact of losing the use of my money for that long time. Feeling as strong as I do the injustice of this demand (which in plain terms means that I am to be made the sufferer for the surveyor's blunders) I cannot give up possession of the portion referred to in your letter; but I am willing for the Government to take the whole of conditional purchase 82-212 if I am paid for my improvements. In my submitting these few facts for the Under Secretary's perusal, I respectfully hope he will not see fit to proceed with the extreme measures mentioned in your letter.

I am, &c.,
DAVID ROBINSON, junr.,
Wooran Warren.

Dubbo, additional conditional purchase 82-211, 9th October, 1882, 87 acres, J. F. Dooran, C. Oxley, D. Robertson, junr. Submitted.—F.H.W., 4/7/87. Will the District Surveyor please cause to be noted on the tracing A within, the position (approx.) of the tank.—S.F., B.C., 20/8/87. The District Surveyor, Dubbo.—Urgent. Returned to Under Secretary for Lands. The position of the tank and dam has now been shown in tracing A enclosed.—C. G. RENNIE (for the District Surveyor), 25/8/87.

The action of the Department in notifying Robertson on 4th April, 1883, that the revocation at that part of the reserve encroached on by his conditional purchase 82-211 had been recommended, must have mislead him into the belief that he would eventually be enabled to purchase it, and that he therefore would appear to have a strong moral claim to the validation of his purchase, at any rate to the extent covered by his tank improvements. Submitted, as to whether the case may be included in Schedule to the special Validating Bill about to be introduced to Parliament with a view to the validation of the purchase to include the area approximately shown on the tracing A, enclosed by black hatching, and embracing about 40 acres of the reserve.—S.F., 26/8/87.

May be included in Schedule of Bill.—T.G., 27/8/87. Entered in Schedule of Validating Bill. Corr. Branch to inform and return.—W.H.C., 9/9/87. Mr. Robertson informed, 23/9/87, with tracing.

EE.

[To Evidence of W. H. Capper.]

Sir, 295 George-street, Sydney, 17 August, 1885.

Under instructions from, and on behalf of, John S. Sands, I have the honor to request reversal of forfeiture of the conditional purchase noted in the margin. It appears that John and John S. Sands applied for 320 acres of land, in the parish of Garway, and county King, in right of, and as an additional to an old freehold block, which had been resided upon for some years, but upon which they were *not* residing at date of application.

Yass, C.P. 76-338, 320 acres, 10th Aug., 1876. John & John S. Sands.

In filling within application the selectors altered the form substituting the words "which has been resided upon" for the words "and upon which I am now residing," showing clearly that they did not understand that residence was necessary by the selector during the term of the conditional purchase, when that condition had been previously carried out upon the freehold prior to the selection being made. Under the impression that their selection was a legal one the selectors proceeded to occupy the land, and made the necessary improvements thereon, retaining possession, and holding said land in utter ignorance of any question as to their selection, until about August, 1884, when an inquiry was held before Mr. Commissioner Burne, which resulted in forfeiture.

I am given to understand by my client, Mr. J. S. Sands, that the papers were sent to the land agent, for him to fill in the names of the persons who had resided upon the freehold—I think this was in 1879—with which information the Department seemed satisfied, if silence is a criterion, for no intimation was sent my client that he was acting or holding illegally, and as before stated he remained in ignorance of the state of matters until he received notice to attend the inquiry.

If my client has fallen into an error, the Department has, certainly—according to his account—perpetuated it, and thereby caused him to expend a large sum of money upon it, which it would seem the Minister for Lands has decided he must lose, together with the deposit and instalments which he has paid up to the present time.

Now, in the interests of my client, after a careful review of all the circumstances, I fail to see that he is deserving of such severe punishment as that inflicted upon him by the forfeiture of this block of land, for to say the most of it he has fallen into a very popular error, and one which is most natural, and had this freehold been once a conditional purchase, and the same residence performed upon it that has been performed in the present case, this land, which is now taken from the selector, would have been looked upon as a most orthodox selection, but now, through the existence of this distinction in the denomination of the purchases, it appears my client must suffer notwithstanding that the Department has over and over again condoned his offence, or overlooked his error; in fact done what would have the effect of making a selector who had doubts put them aside as groundless and unfounded, and I submit that to forfeit a selection of this kind after such a lapse of time, which should have been voided when applied for, is unfair.

In conclusion, I submit that this is a case which deserves special consideration on account of the *bonâ-fides* of the selector, and the loss he will sustain through unfortunate circumstances over which he had no control.

I have, &c.,
FREDK. CUMMING,
(Agent for John S. Sands.)

The Under Secretary for Lands, Sydney.

The forfeiture may be reversed and the sale validated under a special Bill.—J.S.F., 28/8/85.

FF.

[To Evidence of W. H. Capper.]

THE C.P. in question 84-154 was applied for on the 2nd October, 1884, by J. Sager.

This C.P. was declared void on 30th April, 1885, as the land was under an existing purchase (C.P. 82-179) made by F. Green, on the 7th December, 1882.

Green made an application (*vide* C.S. 83-11,086 cor.) to withdraw his C.P., on account of non-survey, within twelve months, but his request was postponed, pending inquiry whether he had not forfeited his C.P. A report on the C.P. by Inspector Wilshire is enclosed (L.L.B., 85-74), but this report is of a negative character, and scarcely affords as much information as the case requires. As so much time has elapsed since Sager took up his C.P., it becomes a question whether the case might not be equitably settled by granting a refund of deposit to Green, and reversing the voidance of the more recent selection which might then be dealt with on its merits.

H.C.,
Inspector of L.A. & L.B. Offices.

B.C., Grafton, 30/3/87.

To the Under Secretary for Lands.

Submitted.—F.H.W., 14/4/87. S.F., 28/4/87.

The submission is one which might be adopted.—With regard to Sager's C.P., it is pointed out that although the case is one of hardship, the purchase can only be made good by validation under special Bill.—C.O., 28/4/87. Apprd.—T.G., 29/4/87.

GG.

[To Evidence of W. H. Capper.]

87-33,799 Dep.,—C.P.'s, under the 22nd clause of the Act of 61, in virtue of a freehold or part thereof.

Up to a certain date, it would appear to have been the practice to allow applications under the 22nd clause in virtue of subdivisions, not exceeding 280 acres, of Crown Grants irrespective of their original area.

Several decisions upon the subject have been given that of Mr. Solicitor-General Salomons in 1870, upon papers 70-1,724 alienation would appear to limit such applications to Crown Grants (or subdivision of such) not exceeding 280 acres; the decision referred to is as follows:—"In my opinion the original grant from the Crown (under section 22) must be a grant of not more than 280 acres, but the holder who may be a conditional purchaser need not be the original grantee, but may also be any transferee of such 280 acres or any part thereof. There is no doubt much ambiguity in the wording of the section."

Later a decision was given by Mr. Attorney-General Wisdom upon papers 81-12,711 C.S., which would appear to give the right of application under the 22nd clause to any holder of a Crown Grant subdivision irrespective of the original area of such grant, for the Under Secretary wrote the following minute in connection with the decision.

"Under this opinion, the holders of the subdivision of a freehold cannot make a joint application, and therefore the conditional purchase must be declared void, it being open to each holder to make an application in virtue of the subdivision held by him, should there be land available adjoining.

"It would also appear that any holder of a subdivision of a freehold can make an application in right of such a subdivision."

The Assistant Under Secretary. C.O., 24/6/81.

Approved.—J.H., 11/7/81.

However, the action in the present instance taken in 1882 appears to have been governed by the former decision, as it is clearly regarded that a subdivision of the 2,560 acres grant, though in itself only 220 acres, confers no right under the 22nd clause, and the question of the propriety of validation was raised in consideration of the age of the application, and of the fact of its being so long entertained as valid.

Latterly the practice of the Department appears to have been based more upon the decision of Mr. Attorney-General Wisdom, and it appears to have been customary to allow applications under the 22nd clause for subdivisions of any Crown Grant. With regard to the question of validation under the 13th section of the Crown Lands Act of 1884, it is respectfully submitted that that clause does not meet the cases.—J.T.K., 7/9/87.

C.P., 64-134.

Submitted.—It occurs to me that as the man has been so long in undisturbed occupation the case might be treated as coming under Attorney-General Wisdom's decision, and the direction of the Under Secretary, 24/6/81, quoted by Mr. Keating in spite of decision on C.S., 78-38,759, dated 4/11/82, to validate by special Bill.—C.J.S., 9/9/87.

See also enclosed note, dated the 13th.—W.H.C., 13/9/87, (the A.U.S.)

Under the circumstances the case would appear to be one that should be included in the special Validating Bill.—S.F., 14/9/87. Include in Bill.—T.G., 15/9/87.

Freehold	35	acres, portion	14
Additional conditional purchase 80-8	220	,, portions	154 and 155
	255		

When the Alienation Act of 1862 came into force, Patrick Tully held four freeholds, as shown on the enclosed tracing marked A, being portions 14 of 35 acres, 15 of 32½ acres, 16 of 35 acres, and 77 of 122½ acres.

On the 30th June, 1864, by C.P. 64-1,286 (portion 58), he increased his holding by 40 acres, under the 22nd section.

In his declaration upon this C.P., Tully described it as in virtue of and adjoining his freehold of 122½ acres (portion 77.)

On the 26th September, 1872, he made a further selection of 40 acres (portion 99), describing it as being the second selection made by him under 22nd section in virtue of his freehold of 35 acres, and quoting his C.P. of 30th June, 1864 (C.P. 64-1,286), as the original selection.

The declaration upon the above mentioned C.P.'s were accepted on 9th July, 1885, and 14th May, 1877 respectively.

By C.P. 78-109, Tully made a further application for 65 acres (portion 159), describing it as the *fifth* selection made by him in virtue of his freehold of 122½ acres.

It was, however, observed that two of the C.P.'s included in the schedule, viz., 78-23 of 120 acres, and 78-97 of 100 acres had been declared void on 16th December, 1879, on account of being separated from the freehold (portion 77) in virtue of which they were made. They were therefore struck out of the schedule, and the word "fifth" in the body of the application altered to "third." The area of the freehold has also been altered upon the application to 35 acres. The land embraced by void C.P. 78-23 and 78-97 has since been selected by Tully, under C.P. 80-8 under 22nd section in virtue of his freehold of 35 acres (portion 14), thereby forming a separate series.

On 25th September, 1879, by C.P. 79-167, Tully made a further application for 40 acres (portion 201), describing it as the fourth selection made by him in virtue of his freehold of 122½ acres. C.P.'s 78-109 and 79-167 were inquired into by the Local Land Board on 17th September, 1886, and as a result of this inquiry, were declared void on 10th February, 1887, as applicant was not resident upon the particular portion (16) that the lands in question adjoined, but resided upon another freehold (portion 77) forming part of the same freehold property.

It will be seen that the same objection will also hold good in the case of C.P. 80-8, which, it is submitted, should be declared void on the same grounds, as applicant was, and is residing on his freehold portion 77, and not on portion 14, in virtue of which C.P. 80-8 was made.

C.P.'s 64-1,286 and 72-6,196 upon which the certificates have issued would also appear to be invalid for the same reason.

Letters have now been received from Tully's agent, Mr. N. T. Collins, asking that the voidance of C.P.'s 78-109 and 79-167 be reversed, and that they, together with the other C.P.'s in question, viz., 64-1,286, 72-6,196, and 80-8 be included in a special Validating Bill.

In support of this request, Mr. Collins states, that nearly ever since Tully bought the four freeholds—some thirty years ago—he has resided upon portion 77, but as they adjoined he has always looked upon the four portions as one and the same holding, and upon that understanding he made the selections in question, some of which, he states, are highly improved. W.H.C., 28 March, 1887.

Submitted as to whether the purchases are to be included in schedule to the Validating Bill to be placed before Parliament.—S.F., 28/3/87. C.O., 7/4/87. Approved.—T.G., 12/4/87.

II.

[*To Evidence of W. H. Capper.*]

Sir, Armidale, 29 June, 1886.

On behalf of Mr. G. Lewis, I have the honor to request that you will grant him a refund on his C.P. 84-385, being measured portion 186, parish of Gyra, county of Sandon.

G. Lewis having left it this portion was applied for by Mr. H. E. Bigg, as A.C.P. 86-52, of 15th April, and granted by the Local Land Board, at Armidale, 25th June.

As this application is accepted, I think there can be no objection to grant the refund to Lewis.

I have, &c.,

C. Oliver, Esq., Under Secretary for Lands, Sydney. J. B. BLENCOWS.

If Lewis abandoned all claim to C.P. 84-385 when he applied for C.P. 86-40, he certainly cannot claim any refund of deposit. How far the land agent was justified in allowing Lewis to select again when C.P. 84-385 requiring, I presume, residence, was still good in the name of Lewis, I don't pronounce an opinion. I do not, however, think the land agent ought to have accepted the application of Bigg's C.P. 86-52 for the identical portion selected by Lewis, as C.P. 84-385, and which had not been declared void. I think the proper course will be for the Inspector to visit land, and if Lewis not residing, the C.P. can, after inquiry, be declared forfeited. Meanwhile it will be necessary to disallow Bigg's application for same land C.P. 86-52, giving him his refund, which he can use to reselect the portion when declared forfeited. There is, of course, the awkwardness of Bigg's application having (in ignorance of previous selection by Lewis) been confirmed. The course suggested seems to me the only legal way out of the difficulty.

S. BLYTHE,

The Under Secretary for Lands. Chairman, 2/2/87.

The Chairman's Memo. on C.S. 86-4,165 Cor. is submitted.—F.H.W., 10/3/87.

C.P. 86-40 was improperly confirmed, as applicant was already the holder of an incomplete residence C.P. 84-385, and 86-52 was illegally granted, for the land comprised in an existing purchase, 84-385, submitted that C.P.'s 86-40 and 52 be included in schedule to the Validating Bill about to be introduced, and that C.P. 84-385 be inquired into with a view to forfeiture.—S.F., 23/4/87. C.O., 7/5/87. Approved.—T.G., 10/5/87.

JJ.

[*To Evidence of W. H. Capper.*]

Sir, 1 Spring-street, Sydney, 4 March, 1887.

I have the honor to request your reconsideration of the recommendation for forfeiture of the C.P. noted in the margin, and I beg to point out that the only reason for forfeiture was that his house was not built till a month after the time allowed, but this was unavoidable, as the ground had to be cleared and burned off before a house could be erected with safety, and any delay that occurred was owing to the wet weather, which prevented him from getting a fire through the falling. 87-100, C.P. 85-21 (Dowling), Milton.

He states that when he got his receipt from the land agent he went to work till he was told that the ground did not belong to him till application was confirmed; when this was done he worked continuously on the place (with the exception of two weeks in July), and from the time he began his house he lived there day and night till the sitting of the Land Board. He has also improved the land to over £40—which together with the facts just stated is strong evidence of his *bonâ-fides*.

I therefore hope for your favourable consideration of the case, and I may add that he is prepared to substantiate his statements on oath if necessary.

I have, &c.,

The Hon. the Minister for Lands. PHILLIP F. RICHARDSON.

This deponent, *James Peak*, of Conjola, carpenter, being duly sworn, maketh oath, and saith as follows:—I applied for a conditional purchase in 1875, which was confirmed in May, 1886; I went to live upon the land immediately after confirmation, within a month; I have lived on it continuously until now, with the exception of about a fortnight, when I went out to work; I put up a residence shortly after June, I cannot say the exact date; I have lived in it since I put it up continuously; until I put up the house I lived with my parents, about 3 miles away; the house is a slab house, about 18 x 10, iron roof; it has been finished about a couple of months.

JAMES PEAK.

Sworn by James Peak, at Milton, this 14th day of December, 1886,—

T. WARRE HARRIOTT, Chairman.
FRAS. M'MAHON, } Members.
THOMAS HOBBS, }

This deponent, *James Bordley Brown*, of Sydney, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows:—I was instructed to visit J. Peak's conditional purchase; I inspected it on the 21st September last; I did not find selector residing; there was no one on the place; no house, but an old shed; there was no sign of any one residing there at the time; there was some clearing and burning going on; I did not see the selector; I saw his mother the day before; I was on there yesterday; there was a hut with iron roof; I was not at the house to see if any one was residing; there has been a good bit of clearing done and burning; I do not think it would have been dangerous in burning off to have put up a house; there was burning fires when I first went on.

J. B. BROWN.

[*To Evidence of W. H. Capper.*]

Cor. 82-4,012 C.S.—Case of Jas. Pauling and Mrs. Hannah.

IN view of the reports from Mr. L.-S. Robertson (82-1,391 Sur.), and Mr. Surveyor Crouch (82-1,392 Sur.), it is recommended that James Pauling be given permission to remove any improvements he may have on hand, and that the area between the road and the produced north boundary of the Wesleyan church land and the west boundary of Wilton's C.P. portion 157, be reserved for Public School purposes.

As regards Mrs. Hannah's claim, which is based upon a business license and extensive improvements erected under the impression that the land was hers under such business license and under her (void) C.P., I am of opinion that it is deserving of consideration, but there would appear to be no way of granting her the land except under a special Bill at an appraised value. To send the land to auction would probably be to deprive her of the land and her improvements.

ROBT. D. FITZGERALD,
(For Surveyor-General), 1/6/82.

For approval of this proposal as to removal of improvements by Pauling, the claim of Hannah may, perhaps, be allowed to rest pending further legislation by special Bill or otherwise that will admit of its being dealt with.—A.O.M., 5/7/82.

The matter may rest.—JNO. R. Inform. Then to survey with reference to reservation proposed.—A.O.M., 17/8/82. Jas. Pauling (M) informed in terms of 1st part, 9 Sept., 1882.—Mr. G. LEWIS. Mr. Payton—should a survey be made of the school site with a view to dedication?—C.J.S. (for G. LEWIS), 20/9/82. Mr. G. Lewis,—I consider the proper course would be only to notify the land as reserved pending selection of school site. A.S., 3/10/82.

Mudgee Land District; submitted for the consideration of the Secretary for Lands that the area of 5 acres, situate in the parish of Erudgen, county of Wellington, defined by the enclosed description, be reserved from sale for Public School purposes as recommended by minute 1st June, 1882.—G. LEWIS (for the Surveyor-General), 18/10/82. The Under Secretary for Lands.

Recommendation submitted for approval.—F.H.W., 10/11/82. E.O., 15/11/82. Approved.—JNO. R., 29/11/82. Ex. C. Min. Land agent inform, 8/1/83. Charted on pl. map of Erudgen; tracing made for land agent.—A.C., 13/1/83.

C.S. 83-357.—Robert Taylor Hannah, James Pauling, Mary Hannah, and Arthur Edwin Pauling.

Mudgee. 74-6,300. 75-4,168 Aln.

THE facts of this case are fully set out up to that date by the late Deputy Surveyor-General in his memo. of 22nd July, 1878, and have not materially been departed from. James Pauling, by an A.C.P., dated 4th June, 1874, applied for 40 acres, in the parish of Erudgen, county of Wellington, which was separated from his O.C.P. by a main road, and which was declared void for that reason on the 22nd September, 1876.

I.P. 74-4,401. C.P. 76-33.

On the 27th June, 1874, R. T. Hannah applied for an I.P. of 2 acres, in virtue of improvements, valued by him at £30, which was cancelled, and Hannah informed on 23rd October, 1878. As the land was not within a gold-field, and therefore not available for sale as applied for, subsequently John Wilson applied for 50 acres, which embraced part of the land applied for by Pauling. After satisfying this application, an area of only 32 acres was available.

C P. 76-35.

On the 30th March, 1876, Mary Hannah, and on the 28th September, 1876, A. E. Pauling applied for 40 acres, being the land embraced in Pauling's application which had then been declared void. Both these applications were declared void as the area available was, as already stated, only 32 acres. During the interval between the date of Pauling's selection and the date of voidance Pauling stated he effected improvements which, in view of his repeated complaints in the matter, was

82-1 392 Sur.

referred to Mr. L.-S. Robertson and Mr. D.-S. Crouch for report, the latter of whose report states :—* * "It is evident that if such fences were erected by James Pauling they must have been so erected by him in the interests of A. E. Pauling, and therefore James Pauling would be entitled to consideration for such in the appraisement suggested. As Mr. James Pauling's letter of the 2nd November, 1876, shows that the occupation of A. E. Pauling was undertaken with the full knowledge of Mary Hannah's prior application and founded on a submitted technical objection, I would submit that A. E. Pauling is not entitled to consideration for improvements effected by him, or in his interest."

On the submission of this report it was decided that James Pauling be permitted to remove any improvements he may have effected on the land, and that the granting of an area to cover Hannah's house, &c., erected under his business license and embraced by his I.P. 74-4,401 should be validated by a special Bill.

W.H.C., 3/4/88., H.P.

LL.

[*To Evidence of W. H. Capper.*]

86-16,903 Ms.—*Re* I.P. 77-3,458, Forbes.

IT appears I.P. 77-3,458 is an application by Thomas Morris, of Bocabigal, in virtue of improvements valued at £1,000, and *vide* letter 77-10,929, it was represented that 646 acres was the area desired, and that an application had been made in the year 1874 for the same land; the earlier application is not entered in the books of this Department.

Mr. L.-S. Rae transmitted a plan (A 1,935-1,770) showing portion 101 of 440 acres (being all he considered available in the parish of Bocobidgle, county of Ashburnham, measured in satisfaction of I.P. 77-3,458, and which area he stated the applicant was agreeable to accept, though subsequently tried to obtain a greater area, viz., 550 acres.

It transpired that owing to an error in locating the true position of R. 12 from lease, notified 8th September, 1853, and cancelled 3rd December, 1879, an area of about 260 acres of portion 101, *vide* tracing B, was within this reserve. The mistake affected the C.P. applications also, and was the cause of a deal of correspondence and delay, but through comprehensive submission on papers 82-9,114 and 82-12,434 Ms., a compromise was made, and it was decided to grant 413 acres in satisfaction of the I.P., and *vide* 82-18-275 Ms. Mrs. Morris (who represents herself as the legal alienee) accepted that area. Under this decision a slight amendment of survey, *vide* 85-16,903 was effected, and according to plan A 1,935-1,770 (also amended) the area allotted is 407 acres.

Vide 81-11,993 Ms., Mr. Dis.-Sur. Fisher made a long report about I.P. 77-3,458 and adjacent C.P.'s. He estimated the improvements of the former worth £700 on the 1st January, 1873, but neither he nor Mr. L.-S. Rae referred to the value of the land.

It is ascertained that a non-frontage area, or portion 48 of 37¼ acres, same parish, will be offered for auction at £1 5s. per acre, *vide* 87-4,635 aln.

According to parish map Bocobidgle, the dividing line of Bocabigal Holding runs through portion 101.

It is now submitted that I.P. 77-3,458 as measured, be validated on account of about 223 acres of it being at the time of application within R. 12 from lease of 8th Sept., 1853.

It is also observed that 160 acres of this I.P. are embraced within reserve from lease, notified 28th April, 1884, to include the Forbes population reserve as per census of 1881, and it is worthy of notice that the bulk of the improvements are outside the boundaries of the reserve from lease on account of which the I.P. is proposed to be validated.

E.J.S., 10/11/87.

MM.

[*To Evidence of W. H. Capper.*]

83-688 Ms.—Albury, I.P. 73-3,180 Ms., 40 acres, portion 102.—Alexander MacVean.

76-4,901 Ms.

THE above application was lodged for Alexander MacVean by his agents, Moon and Waller, on 20th June, 1873. The land was measured as portion 102 of 25¾ acres on 12th April, 1876, by Mr. Licensed-Surveyor Brown, who reported improvements to the value of £165. On 28th August, 1876, applicant was informed that as the portion contained only 25¾ acres it could not be alienated in virtue of improvements, being too small an area, and the land was then set down for auction. Appli-

78-3,975 Ms.

cant then through his agents, Messrs. Wilson and Rankin, asked that reserve No. 176 be moved in a northerly direction so as to allow portion 102 to be measured to 40 acres, and on 2nd October, 1878, Mr. D.-S. Wood reported, as there was a large reserve from lease, No. 270, adjoining the wool-shed, there was no objection to the alienation of 40 acres as desired. In

78-13,925 Ms.

view of this report Mr. Secretary Farnell on 2nd December, 1878, approved that so much of reserve 176 from lease, notified 11th July, 1873, be cancelled after measurement so as to allow applicant to purchase 40 acres in virtue of improvements as

79-4,951 S.

desired. The land was thereupon resurveyed on 7th March, 1879, as portion 102 of 40 acres by Mr. L.-S. Armstrong. From inspection of the recent compilation of the parish map it was discovered that the land was within the reserve from lease on account of population of the town of Howlong (census 1871) as well as within other reserves from sale and lease,

83-388 Ms.

and it was submitted by the Deputy Surveyor-General that the lease be dealt with under a Validating Bill, as the Crown was to a great extent pledged to the alienation, and there appeared to be no objection on public grounds to the sale of the land. In view of this submission Mr. Secretary Farnell approved of the case being noted for a Validating Bill or for action in accordance with any legislation applicable to the point which may take place before a Validating Bill was passed. The I.P. in question has therefore been included in the schedule of the special Bill now under review by a Select Committee of the Legislative Assembly.

W.H.C., 16/4/88.

NN.

[*To Evidence of W. H. Capper.*]

85-24,791 Dep.—Young, I.P. 81/6, 2 acres, portion 1,852—31st January, 1881.—N. P. Neilson.

THE above mentioned I.P. application was lodged by N. P. Neilson on 31st January, 1881, and described as county of Monteagle, parish of Young, portion 241 of 3 acres 2 roods 26 perches, adjacent to William-street, and held by applicant by virtue of miner's right, dated 26th October, 1880. No. 350, applicant was asked to pay 17s. 6d. for subdivision

81-13,440 Ms.

of the portion in question, and the same was paid and credited at the Treasury, on 26th July, 1881.

81-17,227 Ms.

On 29th August, 1881, reference was made to the Under Secretary for Mines who reported that the sale was unobjectionable as regards mining, and that applicant was in authorised occupation. Instructions were then issued to Mr.

83-367 Ms.

Licensed-Surveyor Hosie who furnished a plan of the portion (1852) containing 2 acres as surveyed by him on 19th March, 1882; the improvements were valued by him at £41, and he was of opinion that the land was worth £6 10s. per acre. By minute of 13th September, 1883, it was reported by Charting Branch that the land in question was within the Temporary Common

Common notified 15th March, 1867, and it was therefore recommended for refusal, considering however the time that had elapsed since date of application, the value of improvements, and the fact that applicant was in lawful occupation, Mr. Secretary Farnell decided that the sale be legalised by special Bill, and the I.P. has therefore been included in schedule of cases to be submitted to Select Committee for consideration, and report as to whether it should be included in schedule of the special Bill. 83-17,990

W.H.C., 3/4/88.

OO.

[*To Evidence of W. H. Capper.*]

87-6,906 Cor.—Dubbo, C.P. 78-120, 22nd section, 100 acres, portion 41.—R. W. Sutton (now C. E. Pilcher.)

THE above C.P. was selected by R. W. Sutton on 4th July, 1878, and measured as portion 41. On 23rd December, 1878, by Mr. L.-S. Charneir, who reported that applicant had been seven years' resident on his freehold, the improvements on which he valued at £220, and that the improvements on portion 41, consisting of hut and grubbing, were made by Mr. Hennessy, and did not belong to the selector with the exception of yards and fencing worth £2. 79-6,314 C.S.

The declaration not having been duly furnished the C.P. was declared forfeited (lapsed) on 27th April, 1882, for non-receipt of same, and by letter of 21st September, 1882. Mr. Pilcher (alienee), solicitor, gave notice that the land contained improvements to the value of £40, and was not therefore open to reselection. In view of this letter, instructions were issued to Mr. Inspector Franks, who visited the land on 28th August, 1883, and valued the improvements at £22. 82-7,774 Cor.

The land in question was included within the leasehold area of Murrumbidgerie Holding, No. 655, Central Division, gazetted 5th August, 1885, the date of lapsing being long prior to the division of the Holding. In answer to his personal inquiries Mr. Pilcher was informed to this effect, and that the C.P. was thereby prevented from being resuscitated. On 25th April, 1887, Mr. Pilcher asked that the C.P. be inserted in the schedule of the special Bill, and he at the same time forwarded a letter signed, by the General Manager of the A.J.S. Bank, in which he stated that the Bank as lessees of the Murrumbidgerie Station upon the leasehold area of which the C.P. in question was situated, had agreed and consented to the reinstatement of the C.P. if the Department would approve of this being done. In view of this letter a minute was written on 7th May, 1887, in which it was submitted as to whether the purchase should be included in schedule to the Validating Bill. This submission was approved by Mr. Secretary Garrett on the 16th May, 1887, and the case was thereupon included in such schedule. A wrong interpretation would, however, appear to have been placed upon the approval of the 16th May, 1887, as the following minutes were written by Mr. Secretary Garrett on 6th September and 7th October respectively, of the same year. "To remove any ground for misapprehension, I may state that my decision is that this application must be disallowed as in other like cases." 87-12,005 D. 87-2,146 Cor. 87-2,146 Cor.

"If this is in schedule it must be withdrawn when Select Committee is dealing with it." By letter of 8th November, 1887, Messrs. Stephen, Laurence, and Jaques, on behalf of Mr. Pilcher, asked that the C.P. be restored or validated, and upon a further letter from Mr. Pilcher himself on 11th November, 1887, that gentleman was informed that the Minister could not see any reason why the C.P. should be validated. Messrs Stephen, Laurence, and Jaques were also informed to the same effect on 6th January last. 87-6,365 Cor. 87-6,403 Cor.

W.H.C., 3/4/88.

PP.

[*To Evidence of W. H. Capper.*]

87-6,695 Cor.—Cowra, C.P. 83-189, 100 acres, 13th section—22nd Nov., 1883.—William Smith.

THE above C.P. was selected on 22nd November, 1884, by William Smith, who described it as follows: Commencing at the south-west corner of portion 117, and bounded on the east by the western boundary of portion 117, and by lines S., W., and E. to point of commencement.

The C.P. was declared void on 13th June, 1884, as the land applied for was within the Woods' Flat Gold-field, proclaimed 21st August, 1868, reserved from conditional purchase 12th October, 1878. By letter of 5th November, 1884, the selector protested against the C.P. being declared void, as he alleged he had spent a lot of money and labour on it, and had given up a good position for the purpose of carrying out the conditions. In this letter the writer lays great stress on a Departmental letter dated 24th January, 1884, which he states led him to believe that his application had been accepted and sent on for survey, and he therefore extensively improved the land. The Departmental letter referred to, however, was simply a printed form informing applicant that his application had been received and forwarded to the Survey Branch for its transmission to the surveyor, and the selector was informed on 19th December, 1884, that the letter referred to gave him no special claim to the land, and there were no sufficient grounds for reconsideration. Part of the area applied for was revoked from the restricted gold-field by Gazette Notice of 16th October, 1885, but Smith was not officially informed of such revocation, and on 17th December, 1885, the land applied for by Smith under his void C.P. 83-189 was included in an application for a C.P. of 640 acres, by A. Whiteman, 85-117. Smith then applied for 191¼ acres of the same land by applications 85-121 and 86-9, but they were both disallowed, as the land (since measured as portions 65 and 66) had been previously selected by Whiteman under his C.P. 85-117. Smith then appealed against the Board's decision to uphold Whiteman's claim, but the appeal was dismissed, and the deposit ordered to be refunded. Whiteman's application came before the Board on 14th September, 1886, and the Chairman reported that on the evidence then taken the Board decided that the improvements *on portion 66 at date of Whiteman's selection* were worth £60, and barred from selection about 57 acres (the eastern part) of the portion, and as the residue (the western part) was less than 40 acres, the Board did not sanction subdivision, and therefore confined Whiteman's C.P. to portions 67, 68, 69, and 160, of 530¾ acres, thus leaving portion 66 available. 84-247 Cor. 84-8,523 Cor. 84-8,523, Cor. 87-4,208, Ms. 86-17,773, D 86-25,376, D 86-33,356, D.

In view of this report the following minute was approved by Mr. Secretary Garrett:—"On 1st April, 1887, the action of the Land Board in determining that portion 66 is improved in a manner and to an extent to bar conditional purchase, has rendered it possible to deal favourably with Smith's case should the Minister now determine to do so. Submitted that William Smith's C.P. be validated by inclusion in schedule to the Validating Bill about to be placed before Parliament, and that the measurement be so effected as to include 100 acres of the eastern part of portions 65 and 66, parish Kenilworth, county of Bathurst, and to comprise Smith's improvements." 86-38,397, D.

W.H.C., 3/4/88.

QQ.

[*To Evidence of W. H. Capper.*]

87-3,284 D.

Sir,

Micalago, 14 June, 1887.

In reply to your letter of the 3rd August, 1886, and of a subsequent one dated 20th May, 1887, and numbered 86-34,352, I on the part of Ryrie Brothers will agree to waive any claim for compensation upon two conditional purchases if withdrawn from the Micalago Run leasehold, in order to reverse the lapsing, provided that I obtain certificates of them.

I may mention that these selections have been fully improved by me, and the interest paid regularly as time was allowed by the Cooma Land Board to finish the necessary improvements.

I have &c.,
ALEX. RYRIE,
(For RYRIE BROTHERS.)

S. Freeman, Esq., for the Under Secretary, Lands Department.

This is a provisional waiver and cannot, it is submitted, be accepted. The Department requires an unconditional guarantee before steps as to reversal of lapsing can be taken.—W.H.C., 18/6/87.

In John Dwyer's appeal case heard on the 7th instant, in which the lessees asked that his C.P. might be allowed, being a reselection of a voided C.P. which was bad *ab initio*. The Minister refused to allow it, the land being within the leasehold area of the holding, in this case the C.P.'s were lapsed were treated as vacant at date of division of runs, and included within the leasehold area, it would therefore appear that there is no power to enable the lessees to consent to the land being withdrawn from the leasehold.—F.H.W., 23/6/87, S.F.

Application refused.—T.G., 9/7/87.

Resubmitted as to whether the case is one that should be included in schedule to the Validating Bill now in course of preparation. The Board recommend that the purchases should be upheld, and no conflicting interest exist. The only bar appears to be the fact that the land forms part of the leasehold area; as, however, the pastoral lessees consent to validation that should not be an objection to the course now suggested.—S.F., 26/7/87.

Approved.—T.G., 26/7/87. Inform Mr. Ryrie.—S.F., 26/7/87. Informed.—H.A.T., 27/7/87. Return papers to me.—F.H.W., 27/7/87.

RR.

RR.

[*To Evidence of W. H. Capper.*]

Edmund Rolfe's A.C.P.'s, Queanbeyan District.

C.S.,87-18,555 D, 2nd cover. A.C.P., 72-2,956 of 30th May, 1872, portion 62, applied for in virtue of two freehold portions 36 and 37 should, in accordance with the practice of the Department, be declared void, as the residence has been done on portion 37, which the A.C.P. does not adjoin, but in view of the date of selection and the responsibility of the Department in accepting the application, perhaps the case is one for validation under a special Bill. A.C.P.'s 76-301, 76-310, 78-178, and 78-201 of the same series should also, it is submitted, be declared void, as they are separated from both the freehold portions by portion 14 of 60 acres, subsequently selected by the same applicant under A.C.P. 78-328, but probably some consideration is due to applicant as in the former case, he having been allowed to occupy the land for some ten or eleven years owing to the failure of the Department to point out the illegality of his application in the first instance. (See tracing in illustration.)

See Appx. RR 2.

J.S.K. (for Acting Surveyor-General),
5/9/87.

The Under Secretary for Lands.

Minutes to C.S., 87-18,555 D.

Submitted.—F.H.W., 14/9/87. Put in schedule to Validating Bill now before Parliament by way of amendment whilst before Select Committee.—T.G., 22/10/87.

SS.

[*To Evidence of W. H. Capper.*]

86-5,014 D. Crown Lands Act of 1884—(Part II., Section 14, Sub-section 4).
Report of Local Land Board.

New South Wales, Mudgee, To Wit.

Daniel Riley.—C.S., 84-8,512 Sur., and 85-324 Orange.

Mr. Wall, agent, appeared for the claimant. WHEREAS on the 21st day of October, 1885, it became a matter for investigation before us whether the conditions of residence and improvements are being complied with by Daniel Riley on the conditional purchase of 40 acres applied for by the said Daniel Riley, at Mudgee, on the 3rd April, 1884, and having taken evidence and inquired into the said matter, we have to report that selector, who is an illiterate man, states he did not intend his application which was filled in by the late land agent to be for a residential selection, but for an additional to an A.C.P., portion VI over IX, which he had purchased from J. Riley, and that he did not consider residence to be required of him. He went to live on portion VI over IX so as to make a home, having sold the place where he had been living, and had he known it was necessary for him to do so he could have erected his home on the selection under inquiry instead of on his adjoining portion VI over IX. Selector, who has made a home and is still living on the last-mentioned portion, appears to have acted all through in good faith. Under the circumstances it is suggested that if possible the selection may be allowed as an additional to portion VI over IX, and if that may not be, that selector's case may not be prejudiced by his having resided off his selection. It should be pointed out that selector when purchasing J. Riley's A.C.P. 64-1,723 did not also purchase the original C.P. 63-837.

Given under our hands, at the Court-house, at Mudgee, in the Colony of New South Wales, this 21st day of October, 1885,—

CHAS. E. FINCH, Chairman.
JAMES ATKINSON, Member.

As selector was not the holder of the original C.P. 63-837, but only of an A.C.P. 64-1,723 taken up in virtue thereof, the C.P. 84-33 cannot be treated as having been made under the 21st section. It would therefore appear that C.P. 84-33 on which selector has not resided should be declared forfeited unless the Minister, as a concession under the circumstances stated in the Board's report, should see fit to declare the C.P. void.—F.H.W., 24/6/86.

Submitted.—C.O., 31/7/86. The C.P. may be declared void and a refund granted of the deposit.—H.C., 27/12/86. Appt. refund order, care of W. C. Wall, M.P., agent and treasury. District Surveyor and Chairman C.P. 84-33 void, 10/2/87. Mr. Rich, then Charting Branch.—Noted 11/2/87.—H.R. Voidance of C.P. 84-33, Mudgee.—Noted in Charting Branch.—R.M., 16/5/87.

See previous decision; the selector was not the holder of the O.C.P. of the series to which he asked that his C.P. under the 13th clause might be treated as if made under the 21st clause. The Minister as a concession allowed the C.P. to be declared void, as no doubt forfeiture had been incurred, there appears to be no ground for reopening the case.—F.H.W., 23/5/87.

S.F., 3/6/87. C.O., 4/6/87. I can do no more for Riley than my predecessor has done.—T.G., 8/6/87.

Mr. Wall, M.P., urges the further consideration of this case. He is so satisfied with the *bonâ-fides* of the selector which are endorsed by the papers, that he desires that the Minister will favourably entertain a suggestion that the C.P. may be made good by validation, and in the mean time the voidance reversed.—C.O., 19/7/87.

May go in schedule of Validating Bill.—T.G., 19/7/87. Reverse voidance.—T.G. Inform Mr. Wall, M.P.—C.O. Mr. Wall, M.P.—Informed, 20/7/87.

TT.

[*To Evidence of W. H. Capper.*]

C.S. 87-4,837 Cor.—C.P. 84-20, Queanbeyan, *re* Evans' 40 acres.

THE above C.P. was taken up on 21st February, 1884. On 16th May, 1885, applicant applied for refund of deposit because the land was not measured within twelve months, but on 12th December, 1885, withdrew his application for refund on condition that his hut should be included in his selection. The land was measured on 8th February, 1887, when it was found that the hut in question in which applicant had been residing was situated outside his selection on water reserve 195, notified 9th April, 1884 (subsequent to date of C.P.) On the recommendation of Mr. District Surveyor Betts the C.P. was declared void on 9th August, 1887, *vide* 87-10,627 Dep. enclosed. Applicant being now deceased his representative, Mrs. Kate Walsh, and her agent have written the enclosed letters which are submitted for consideration, asking that the case be re-opened in view of the fact that Evans erected his hut on what he believed to be his selection, and that the C.P. be validated under the 138th clause of the Crown Lands Act of 1884.

Tracing herewith. It is pointed out that the sale of this land at auction has been approved.

J.S.K. (for Acting Surveyor-General),
20/9/87.

The Under Secretary for Lands.

Submitted.—F.H.W., 4/10/87.

Validation should apparently be approved, provided the Minister be satisfied that residence was performed. About this it is evident that selector believed he was residing, although on survey after his death the boundaries of the portion did not include Evans' hut.—S.F., 5/11/87.

As a very exceptional case validation approved.—T.G., 7/11/87.

UU.

[*To Evidence of W. H. Capper.*]

C. Gillespie's C.P. 83-228, Land District of Molong.

C.S. 86-48 Cor. L.B.D. 87-3,549. ADVERTING to a memorandum by the Chairman of the Land Board at Orange, on cover to C.S. 86-48 Cor. (enclosed), having reference to Chas. Gillespie's C.P. 83-228, Molong, it is pointed out that measurement of two portions 89 and 91 has now been made as indicated upon enclosed tracing to embrace the full area applied for under that C.P. application—the latter portion representing the available land, and the former that part included within travelling stock reserve 633, of 5th November, 1875. The

The plan has been approved, and all necessary action completed as regards this office, including preparation of description for the revocation of that part of travelling stock reserve 633, embraced within the boundaries of portion 89.

The papers are now forwarded to the Under Secretary for Lands for completion of action on the C.P. in question, and it is suggested, in view of the fact that applicant has resided and effected all his improvements on the reserve, whether it would not now be more advisable to specially legalise the C.P. after revocation of reserve, so that it shall include the two portions 89 and 91 of 500 acres as applied for.

The enclosed papers C.S. 86–48 Cor. were placed temporarily with 85–5,963 leases, in order that Gillespie's application to convert his prelease under the 52nd section of the Act might be dealt with by the Board. They have been separated in this office and placed with this case, and it is suggested that the record books may be so noted.

H. A. CROUCH, District Surveyor,
12/9/87/154.

The recommendation of the District Surveyor is submitted for approval.—J.S.K. (for Surveyor-General), 27/9/87. The Under Secretary for Lands. Submitted.—F.H.W., 30/9/87. That in view of all the circumstances the C.P. be included in schedule to the Validating Bill now before Parliament. Failing this there will be a difficulty as to residence as the conditional purchaser lives on the reserve.—S.F., 5/11/87.

VV.

[*To Evidence of W. H. Capper.*]

A.C.P.'s 80–2, Broulee, for 40 acres, and 80–2 and 80–3, Bega, for 40 acres each, by Henry Jefferson Bate. 83-12,168.

By enclosed letter (C.S. 83–9,613 Cor.), H. J. Bate, through his agent, requests that his A.C.P.'s 80-2, Broulee, and 80–2 and 80–3, Bega, may be located on measured portions 401, 404, and 405 respectively. 83 C.S. 9,613 Cor.

It is stated that A.C.P.'s 80–2, Broulee, has been inadvertently connected as on the series of C.P. 70–1,724; whereas it was applicant's intention to have taken it in virtue of C.P. 78–105 of another series, and the C.P.'s of that series were intended to cover the land comprised in portions now measured and numbered 337, 336, 402 (eastern part), 401, 404, and 405. C.S 83-21,744 Dep.

On account of the uncertainties in the several descriptions of the C.P.'s made by applicant, and consequent difficulty in reconciling them so as to accord separately with any of the measurements made, there has been difficulty in dealing with this case; but having had an interview with the applicant who, although he appears to be fully cognizant of the locality of the lands applied for under his several applications is, I am satisfied, unable to describe their position from a plan.* And as regards A.C.P.'s 80–2, Broulee, having been connected with the series of C.P. 70–1,724, there is every appearance of the correctness of applicant's statement that it was intended to be of the series of C.P. 78–105, notably that in connection with C.P. 70–1,724, it would be an infringement of the 80 chains boundary limit, of which limit applicant was aware. * See Appendix VV. 2, W.T.N

Under the circumstances, and in view of the representation now made by applicant, I feel constrained to modify the view held by me when submitting these cases by the minute of 26th June, 1883, covering C.S. 83–2,718 Dep., and would submit whether A.C.P. 80–2, Broulee, may not be treated as of the series of C.P. 78–105, and the voiding of A.C.P. 80–2, Broulee, and 80–2 and 80–3, Bega, be revoked, and the purchases located on portions 401, 404, and 405 respectively (these portions being subject to slight amendments), in which case the land allotted to each purchase will be in the district in which the application is made, and the five purchases of the series (78–105, &c.) will cover substantially the land intended to have been applied for.

It may be mentioned that applicant is debarred from securing the land under fresh applications with definite descriptions as, unless it be covered by the A.C.P.'s above referred to, the land will form part of reserve from C.P., notified 27th October, 1880, within the Dromedary Gold-field, and Dromedary Gold-field South Extension.

The Chief Commissioner, Conditional Sales.

CHAS. E. FINCH,
(*Pro* Surveyor-General),
19 December, 1883.

Approved.—J.S.F., 16/1/84. Mr. F.W.B., 16/1/84. H. J. Bate, care of H. Brees, informed, and requested to return Refund Vouchers in above C.P.'s. 15 February, 1884. In a month to await return of vouchers. Mr. Ardil to draw attention to the O.C.P. 78–105, taken up under 13th section, being the subject of inquiry by Commissioner Bolding.

C.S. 84–1,616 Cor.

Sir,

338 George-street, Sydney, 21 February, 1884.

I have the honor to reply on behalf of H. J. Bate in answer to your communication 83–12,168 survey on the 15th instant, and beg to enclose and return the refund vouchers for Broulee, C.P. 80–2.

Bega.	Bega.	Broulee.	
C.P. 80–3.	C.P. 80–2.	C.P. 80–2.	Bega, C.P. 80–2.
			Bega, C.P. 80–3.

as instructed.

I have, &c.,
HAROLD BREES,

To the Chief Commissioner.

Mr. Bailie.—W.B., 6/3/84.

I preceive that these A.C.P.'s were both made on the same day by Mr. Bate—one at Bega the other at Broulee—the one at Bega before the other. Papers should be returned to Mr. Finch to say how this will affect Mr. Bate s selections.—W.B., 8/3/86.

A.O.M., 8/3/84.

A.C.P. 80–2, Broulee, being the later of the two C.P.'s made on the same day would, it is presumed, be invalid, but for the fact that the earlier one (80–2, Bega) is for land which does not adjoin applicant's previous C.P.'s 78–105 and 109. It seems to me that 80–2, Bega, is invalid for the reason that it does not adjoin land held by applicant under pervious C.P.'s of the series, and that A.C.P. 80–3, Bega, invalid for the same reason; also that 80–2, Broulee, is invalid, although made on the same day, but subsequent to 80–2, Bega, the latter being void *ab initio*. It is a question for consideration, whether under all the circumstances of the case, and as applicant appears to have acted in good faith, the Bega A.C.P.'s 80–2 and 3 may not be dealt with under a Validating Bill.—CHAS. E. FINCH (for Surveyor-General), 10 March, 1884.

The Chief Commissioners. Urgent. Approved.—J.S.F., 13/3/84.

Mr. F., with reference to you inquiry, I have spoken to the Chief Commissioner. The Minister having approved of the restoration of these C.P.'s. They may stand subject to validation, and of course at the risk of Mr. Bate.—W.B., 24/3/84.

Mr. J. Bate, care of Harold Brees, 27 March, 1884.—Applicant, care of H. Brees, agent and treasury, C.P. 80–2, Broulee, and C.P. 80–3, Bega, voiding revoked; alienee, agent, and treasury, C.P. 80–2, Bega, voiding revoked.

THE above C.P. was selected by William Thorn on 8th May, 1884, and described as measured portion 89, of 126¼ acres, adjoining the northern boundary of portion 17. By letter of 26th February, 1885, the Under Secretary for Mines asked that the C.P. be cancelled, as permits had been granted to mine upon the land under the belief that it had been reserved. 85-5,212 D.

The declaration was made on 27th January, 1887, upon the C.P. as a mineral conditional purchase, although no application for conversion appears to have been received, although at the subsequent inquiry applicant stated he had applied for such conversion. Inspector Higgins visited the land on 30th June, 1887, and reported improvement nil; on 12th September, 1887, the Land Board held an inquiry and found as follows:—"This conditional purchase has been applied for contrary to the provisions of section 24, of 43 Vic. No. 29, inasmuch as the applicant, William Thorn, having made a conditional purchase under the 13th section of the Act of 1861, on the 26th July, 1883, at Maitland, was not capable of making another at date of application for this 8th May, 1884, this latter application should be declared void." 87-10,467 D. 87-4,150 L.B. 87-36,647 D.

87-6,492 Cor.
87-6 724 Cor.

The alienees Messrs. Wallace and Robertson appealed against this decision, but Mr. Secretary Garrett dismissed the appeal and ordered the deposit to be refunded. Voidance has not yet been carried out, and by letter of 16th November, 1887, Mr. A. Armstrong on behalf of Messrs. Wallace and Robertson asked that the C.P.'s be validated by special Bill. A further letter dated 25th November, 1887, has also been received from Mr. Armstrong, in which he states that the selectors have petitioned the Legislative Assembly asking their cases to be fully considered, and by resolution of the House such petition has been referred to the Select Committee now receiving cases for inclusion in special Bills.

W.H.C., 9/4/88.

XX.

[*To Evidence of W. H. Capper.*]

87-6,724, Cor.—Newcastle, C.P. 84-9, 13th section, 298 acres, portion 94.—Mary Lane, transferred to R. B. Wallace and J. R. M. Robertson, 8/1/86.

On 8th May, 1884, by C.P. 84-9, Mary Lane applied for 320 acres in the parish of Teralba, and upon the application the following note was made by the land agent. The land applied for is within revoked reserve, and the applicant has been so informed, but insists on the reception of her application. It was declared void on 20th December, 1884, as the land applied for extended southerly about 115 chains, being 35 chains beyond the boundary limit, there being vacant and
84-9,473. available Crown lands within the limit of boundary on part of the west and north, the form was also objectionable.

85-176, Cor. On 11th December, 1884 (prior to voidance), applicant paid a further deposit of £80, and applied for conversion of the C.P. to the 19th section, but this application has not yet been dealt with. On 4th July, 1885, in view of a letter from Mr. Withers on selectors behalf, the voidance was reversed upon the following minute by the Under Secretary :—I think it would be well to continue the road as suggested in the within letter, and allow the C.P. to extend back to Bucknell's 2,560 acres, otherwise an isolated portion will be left. The land was surveyed by Mr. Suveyor Murray, as portion 94 of 298
87-10,464, D. acres, and plan was approved on 6th May, 1887. The declaration was made on 27th January, 1887, by Messrs Wallace and Robertson, to whom the land was transferred on 5th January, 1886. Inspector Higgins visited the land on the 30th June, 1887, and reported improvements nil, and on 12th September, 1887, an inquiry was held by the Land Board, who found as follows :—"This conditional purchase has been applied for contrary to the provisions of section 24 of 43 Vic. No. 29, inasmuch as the applicant (Mary Lane) having made a conditional purchase under the 13th section on the 15th June, 1882, was not
87-36,645, D. capable of making another at date of application for this, which application should be declared void." This decision was
87-53,018, D. appealed against by Messrs Robertson and Wallace, but such appeal was dismissed by Mr. Secretary Garrett, who ordered the
87-6,492, C. deposit to be refunded. Voidance has not yet, however, been carried out, and by letter of 16th November, 1887, Mr. A.
87-6,724, Cor. Armstrong, on behalf of the present holders, asked that the C.P. be validated by special Bill. A further letter dated 25th November, 1887, has also been received from Mr. Armstrong, in which he states that the selectors have petitioned the Legislative Assembly, asking their cases to be fully considered, and by resolution of the House such petition has been referred to the Select Committee now reviewing cases for inclusion in special Bills. W.H.C., 9/4/88.

YY.

[*To Evidence of W. H. Capper.*]

C.S. 88-12,090.—Glen Innes. Alexander Rodgers, now Bank of New South Wales. A.C.P. 81-191, 92 acres; 258, 100 acres; 263, 100 acres.

THE facts of this case may be stated briefly as follows :—"On the 1st September, 1881, the Bank of New South Wales, and on the 22nd and 29th December, 1881, Alexander Rodgers, applied for 92, 100, and 100 acres, in the parish of Rusden, county of Gough, under the 22nd section, in virtue of freehold portion 1 of 81 acres, an improvement purchase of Thomas George Rusden, whose interest in that freehold and two subsequent A.C.P.'s made in 1872 were sold by the sheriff to Alex. Rodgers."

The matter was inquired into by the Local Land Board, who reported on the 3rd June, 1887, that such conditions have not been fulfilled. * * We hereby forfeit the abovenamed conditional purchases, the inquiry being held under 20th section.

This decision was appealed against but it was dismissed by Mr. Secretary Garrett, who in dismissing it stated :—"This is a case in which the appellant became the purchaser of certain conditional purchases at a sheriff's sale. * * * The law clearly required that the condition of residence should be fulfilled either upon the freehold or the selection, and it also clearly required that the purchaser of selections at a sheriff's sale should complete the unfulfilled conditions that has not been done in this case. * *" I recognise the hardship of the case, and if it be brought up in another way probably some relief may be given.

Mr. Rodgers represents that he was unaware that the condition of residence was necessary and that if he had known it was required he would have complied with the law, furthermore he was of opinion that as Rusden could have taken up and held these A.C.P.'s without residence, and as he purchased all Rusden's privileges at the sheriff's sale, no further residence was required by him.

Rodgers has now presented a petition asking that his selections be validated and included in the Bill now before the Select Committee. H.P., 4/4/88

ZZ.

[*To Evidence of W. H. Capper.*]

87-39,268 Dep.—Gunnedah, C.P. 82-134, 13th section, 512 acres, portion 99.—Edward Grace.

On 28th September, 1882, by C.P. 82-134, Edward Grace applied for 640 acres, in the parish of Tamber. The land was
83 10,963 S. measured as portion 99, in September, 1883, by Mr. L.-S. Turner, who reported that applicant was on ground at time of survey, but *bonâ-fide* residence was doubtful. As there were only 512 acres available for the C.P., the area was reduced and a refund order for the difference was sent to applicant on 24th July, 1884, and he was informed that he could select the land, if available, under a fresh application under the 21st section.

86-16,798 D. Mr. Inspector Brown visited the land on 29th April, 1885, and reported improvements £214 16s., and *bonâ-fides* and residence doubtful, selector being a boundary-rider employed by the lessees of Bando Station as a boundary-rider.

Mr. Brown also reported to the same effect in December, 1886, but that selector was then residing with
87-30,685 D. his wife and family. The case was inquired into on 9th August, 1887, by the Land Board, who found that the said selection has been made in violation of the 9th section of the Crown Lands Amendment Act of 1875, and that the condition as to residence had not been fulfilled. They therefore recommended that the C.P. be declared forfeited, and Mr. Secretary
87-32,329 D. Garrett approved of forfeiture on 6th September, 1887. Selector appealed against this decision on 6th September, 1887, and at the same time lodged the sum of £10 as security for the costs of such appeal, and on the 19th October last the matter came before Mr. Secretary Garrett, who dismissed the appeal and ordered the deposit to be refunded.

87-39,268 D. A petition from the selector (E. Grace) was presented to the House by Mr. Fitzgerald, M.P., setting forth that the C.P. had been recommended for forfeiture notwithstanding selector had fulfilled the conditions of residence and improvements. Mr. Fitzgerald moved without notice that such petition be referred to the Select Committee now sitting on the Crown Lands Purchases Validation Bill. Debate ensued, and the question was put and carried.

W.H.C., 9/4/88.

AAA.

[*To Evidence of W. H. Capper.*]

88-567 Cor.—Wagga Wagga, C.P. 76,375, 21st section, 57¼ acres, portion 109, Stephen Fennell, senr.

THE above C.P. was applied for by Stephen Fennell, senr., on the 5th October, 1876. It was declared lapsed *vide Gazette* of 24th September, 1880, for non-receipt of the necessary declaration and instalment.

86-13,554 D. The declaration was made on 11th June, 1886, and forwarded to the Department by Messrs. H. H. Brown & Co., who asked that the lapsing be reversed, and their client reinstated. The instalments, £20 0s. 9d., were at the same time placed to Suspense Account at the Treasury. As, however, the portion in question was found to be within the leasehold
86-3,743 Cor. area of Oura Holding, No. 557, Central Division, Gazetted 31st July, 1885, and was treated as vacant in dividing the run. Mr. Secretary Copeland decided that the request for reinstatement of the C.P. could not be complied with. Messrs. H. H. Brown & Co. were informed to this effect on 23rd August, 1886, and on 28th September, the Treasury was authorised

to

to refund the instalment paid to Suspense Account since lapsing of the C.P. By letter of 4th March, 1887, Messrs H. H. Brown & Co. renewed their request for reversal of lapsing, and at the same time forwarded a letter from the lessee in which he (lessee) stated he had no objection to reversal of forfeiture of the C.P., and agreed to make no claim for compensation for loss of such land by reason of its being withdrawn from the leasehold area. 87-1,098 Cor.

In view of this letter, Mr. Secretary Garrett approved of the following minute on 23rd May, 1887 :—"Notwithstanding the consent of the lessee, there is no legal means of reversing the forfeiture." In a recent case (Pilcher's) a similar request was declined. The decision already arrived at should not be disturbed. This decision was conveyed to Messrs. Brown & Co. on 6th June, 1887.

By letter of 14th July, 1887, Mr. A. Armstrong (as agent for the selector) asked that the C.P. be inserted in the schedule for validation by special Bill, as he stated that the lapsing of the C.P. occurred entirely through misapprehension. Mr. Secretary Garrett, however, decided that the former decision must be upheld. Upon a further request for validation by Mr. Armstong on 31st January last, Mr. Secretary Garrett again decided that the request could not be complied with. Mr. Walker, M.P., presented a petition from the selector (S. Fennell) setting forth the facts of the lapsing and the subsequent inclusion of the land in the leasehold area, and praying the House to take the whole of the circumstances into consideration, &c., and he (Mr. Walker) moved without notice that such petition be referred to the Select Committee of the House appointed to inquire into, examine, and report upon the Crown Lands Purchases Validation Bill. The question was put and passed. 87-3,866 C. 88-567 C.

W.H.C., 9/4/88.

BBB.

[To Evidence of W. H. Capper.]

87-4,153 Dep.—Narrandera, P.L. 82-4, 1,920 acres.—Alice Risby to John Allen.

THIS case briefly stated would appear to be as follows :—

Alice Risby selected 640 acres on 19th May, 1881, as C.P. 81-48, and in virtue of this she made a pre-emptive lease No. 82-4 of 1,920 acres.

The C.P. was transferred by the sheriff to John Allen on 31st December, 1884. It has since been transferred to George Beeby, 3rd August, 1886.

On 17th March, 1885, John Allen applied for the conversion of the prelease into a conditional lease, but the application was refused, as the 52nd section of the Act of 1884 did not apply to the holder of any C.P., the transfer of which was notified to the land agent subsequent to 15th July, 1884.

W.H.C., 16/88.

CCC.

[To Evidence of W. H. Capper.]

Coonabarabran, I.P. 84-36, 50 acres, 17th December, 1884.—Alexander Maclean. 87-4,221 Ms.

THE above I.P. application was tendered by Alexander Maclean, on 17th December, 1884, but it was refused on 27th February, 1885, as the land was within the reserve from sale and lease on account of population of the town of Coolah. It was also within water reserve, No. 485, notified 31st March, 1875. 85-2,939 Ms. 85-12,182 Ms.

In the application the land applied for was stated to be situated within Black Stump Run, and the application was tendered as an amendment to I.P. application 84-33, in which the land was described as being situated on Queensborough Flats Run. This application (84-33) was also refused for the same reason as 84-36, and also on account of the land being situated on Black Stump Run. By letter of 30th June, 1885, Messrs. Garrett, Richardson, & Brett applied for the reinstatement of I.P. 84-33, and, in submitting this letter, the Surveyor-General pointed out that I.P. 84-33 was made in virtue of Queensborough Flats Run, and was amended by I.P. 84-36 for the same land in virtue of Black Stump Run, and that the latter (84-36) was the application that should be considered. Messrs. Garrett, Richardson, & Brett were, however, informed on 10th September, 1885, that the application not having been made while the land was held under lease it could not be considered. 85-12,182 Ms.

In view of the statutory declaration by P.M. Giles, dated 23rd March, 1887, the Minister approved of a minute to the effect that the Tamworth Land Board be requested to enquire into the circumstances of the date of erection and the value of the improvements mentioned in the I.P. application 84-36 (not 33, in which the wrong run was mentioned), and whether any objection existed to the sale of the land. The next day, however (1st April, 1887), in view of a letter from Messrs. Brett & Coghlan, the following minute was written by Mr. Secretary Garrett :—"I now perceive that my decision of yesterday was erroneous, the land not being under lease to the applicant. The case, however, has so many strong features in support of the application that I think it should be placed in the Schedule of proposed Validating Bill."

The land in question is situated within the resumed area of Queensborough Holding, No. 312, Central Division. 87-3,958 Ms

W.H.C., 26/4/88.

DDD.

[To Evidence of W. H. Capper.]

John Fenton, Carcoar, C.P. 80-27, 22nd sec., 98½ acres } Freehold, 67 acres.
C.P. 84-1, 22nd sec., 45¾ acres } 87-5,171 Cor.

THE abovementioned C.P.'s were made by John Fenton, on 11th March, 1880, and 3rd January, 1884, respectively, in virtue of his freehold of 67 acres, consisting of two portions of 30 acres and 37 acres respectively, originally granted to his father, Isaac Fenton.

On 23rd May last, Mr. Inspector Sims reported improvements on C.P. 80-27, to the value of £82 10s., and applicant resident on freehold portion of 37 acres. As this portion did not adjoin either of the A.C.P.'s, but was separated therefrom by the freehold of 30 acres (see tracing), C.P.'s 80-27 and 84-1 were declared void on 9th August ultimo.

Applicant appears to be under the impression that voidance was brought about on account of a road separating the A.C.P.'s from the freehold, in virtue of which they were made, but this was not the case as is shown above.

By letter of 10th ultimo, applicant requests that the C.P.'s in question be validated, and in support of this request it may be stated that there is included in the schedule of the Special Validating Bill, now before Parliament, a very similar case, viz., that of P. Tully, senior, in which the reason for validation is that applicant was not resident upon the particular portion the land in question adjoined, but resided upon another portion forming part of the same freehold property.

W.H.C., /9/87.

Submitted that the purchase be included in schedule to the Validating Bill now before Parliament, and that voidance be reversed pending the result of the Parliamentary action.—S.F., 7/11/87. Submission approved.—J.G., 14/11/87. Submitted that the return of the refund vouchers be called for.—J.R.Y., 24/11/87. Yes.—F.H.W. (for the U.S.), 26/11/87. Mr. Fenton asked, 30/11/87.

EEE.

[To Evidence of W. H. Capper.]

C.P. 83-84, Amos Batty, Molong; section 13, 40 acres applied for.

As approval of the performance of conditions (suggested by the Board) will not place Batty in the position he is morally entitled to occupy, inasmuch as he would still have no title to the land he has actually improved and resided on, and as Mr. Smith, the pastoral tenant, has no objection, *vide* his letter of 20th October, 1887, to Batty's claim, it is submitted that a resurvey be directed to include the conditional purchaser's hut and clearing, and to comprise a total area of (say) 75 acres, and, in the meantime, that the permission of the Legislative Assembly be sought for inclusion of the case in Schedule to the Special Validating Bill now before Parliament.

In

In cases of a like nature it has been customary for surveyors to include improvements effected under misapprehension, provided the additional area covered thereby be less than 40 acres. Unfortunately Mr. Licensed Surveyor Lupton appears to have disregarded the practice when surveying this land, and now that the area forms part of a leasehold, and the case is not met by the Validating Clause of the Act of 1884, reference to Parliament becomes necessary, or else a cruel hardship will be suffered by the selector.

S.F., 6/12/87.

Approved.—T.G., 6/12/87.

Derowil, Toogong, 20 October, 1887.

I am, &c.,
F. JAGO SMITH.

The Chairman of the Local Land Board, Orange.

FFF.

[*To Evidence of W. H. Capper.*]

87-6,845 Cor. Mudgee.—Jonathan and Fredk. H. Warner.

From the enclosed papers it would appear that Jonathan and F. H. Warner selected 40 acres of land on 20th December, 1866, being portion 34 of 40 acres C.P. 66-4,201. In virtue of this C.P. Jonathan Warner selected C.P.'s 69-3,508, 72-2,278, 76-167, and 77-37; and F. H. Warner selected C.P.'s 72-4,867, 75-190, 76-168, 77-33, and 77-36. Will Charting Branch please report and show the positions of the portions in question upon a tracing?—W.R.F., 6/12/87.

Misc. Charting Branch.

See Appendix 2 Tracing enclosed showing the conditional purchases in question. It will be seen that the original of the series was taken up conjointly by Jonathan and F. H. Warner (C.P. 66-4,201, portion 34), but that the subsequent applications were made separately by Jonathan and F. H. Warner respectively, each using portion 34 as his basis of application. It would appear that the Department was aware of the part ownership, and allowed the applications, provided the series did not exceed (taking the applications made by each together) the maximum of 320 acres, and later of 640 acres. The maximum area has not been exceeded, but it will be seen that the 80-chain limit has been exceeded, both in a north and south and east and west direction. This, however, would not be the case if applied to each brother's series separately. It is presumed that no action is necessary in regard to this matter, as the surveys have been made so long since, and the excess should have been attended to before acceptance of survey submitted.—J.L.K. (for Surveyor-General), 8th December, 1887. The Under Secretary.

Submitted.

Validation of the purchases made under the repealed Acts will apparently be necessary, even though the Minister of the day (Mr. Secretary Forster) approved of the purchases being made. Such validation will not, however (so far as can be seen), enable the respective selectors to add to their holding under the existing law, unless they do so as joint holders, and reside a further term of five years.—S.F., 14/12/87.

Prepare resolutions to have these C.P.'s put before Select Committee of Assembly on Validatory C.P. Bill.—T.G., 19/12/87.

GGG.

[*To Evidence of W. H. Capper.*]

88-197 D Land Board Office, Orange, 31 December, 1887.

87-4,158, Orange Sir,

I have the honor to draw attention to the conditional purchases specified in the enclosed schedule taken up by Jonathan and Frederick Warner separately, in virtue apparently of C.P. 66-4,201, which was taken up by them, and is still held jointly; and would suggest that the additional conditional purchases be validated, but with a restriction as to the maximum area that may be held by the Messrs. Warner, either separately or jointly.

I have, &c.,
CHAS. E. FINCH,
Chairman.

The Under Secretary for Lands, Sydney.

It is submitted that this letter be placed before the Select Committee when the cases in question form the subject of examination.—W.H.C., 18/2/88. F.H.W., S.F. Approved.—T.G., 5/3/88.

HHH.

[*To Evidence of W. H. Capper.*]

Portions 55 to 61 and 64 to 68—sold.

The portions 55 to 61 and 64 to 68 sold at auction as above, were, I find, proclaimed Forest and Water Reserve 3,924 on 13th August, 1887, *i.e.*, two months prior to auction sale. The re-proclamation of the portions was consequent upon Mr. Garrett's memo. of 15th June, 1887, see Ms. 87-7,047—the two sets of papers were not together. This should, however, *i.e.*, the sale and notification of the reserves should, have been checked and brought under notice by the District Offices. The land agent at Wagga has verbally represented to me that consequent upon the arrangement that charting of his maps is done by Local Survey Office it was not possible for him to have detected this re-notification of the lots as reserves. It is scarcely likely that the purchaser, the Scottish Investment Company, will forego their claim—the land brought £2 10s. per acre—and the only way would seem to be, to include the sale in a Validating Bill. R.H.D., 12/1/88.

Submitted.—C.O., 20/1/88. Include portions sold in next Validating Bill.—T.G., 6/2/88.

III.

88-16,506 Dep. [*To Evidence of W. H. Capper.*]

87-7,365 Cor. Milton, C.P. 80-5, 13th section, 40 acres.—Robert Cork.

The above C.P. was made on 3rd June, 1880, a few days after the Act of 1880 came into force. Selector made a declaration on 21st June, 1883, and on 1st June, 1885, Mr. Inspector Lawlor reported improvements £42 14s.—the only place of habitation mentioned being a bark gunyah, worth £1. In his report the Inspector added the following remarks:—"No resident date of inspection. I am informed selector does reside upon C.P.; he was away getting timber when I visited the C.P. From the appearance of C.P. I am of opinion selector resides thereon." The

The papers were then put away to await final declaration, but such not having been received on 19th June, 1886, the selector was warned of the default. By letter of 27th December last he writes to the effect that he was under the impression that the C.P. was made under the Act of 1875, and when making his three years' declaration, the late Mr. Frazer, then Crown Lands Agent, told him all he would then have to do was to pay the balance of purchase money. He has, therefore, not been residing on the land, and says he cannot conscientiously make the necessary declaration.

Under the circumstances it is submitted as to whether the case be referred to the Chairman of the Local Land Board for enquiry, subject to the provisions of the 20th section of the Crown Lands Act of 1884, or whether the Minister will be pleased to move that the case be referred to the Select Committee now sitting upon the Bill, to legalize certain conditional and other purchases of Crown lands, for its consideration, and report as to whether it should be added to the Schedules to the said Bill, as an exactly similar case (M'Clenaghan's) is already included in the Schedule of that Bill.

W.R.F., F.H.W., W.H.C., S.F., 2/3/88.

Prepare form of Notice of Motion, and let me have it as soon as possible.

T.G., 23/4/88.

JJJ.

[*To Evidence of W. H. Capper.*]

Orange Land District—A.C.P. 79-32 for 230 acres—John Finneran; A.C.P. 86-13 of 96¼ acres—Michael Casey.

THIS letter from John Finneran contains the request that 10 acres be excluded from A.C.P. 86-13 and added to A.C.P. 79-32 to make up his original area of 230 acres and preserve the connection of his series of C.P.'s.

It appears A.C.P. 79-32, although describing a greater area was confined, *vide* C.S. 82-2,755 Sur. to portion 121 of 220 acres and a refund granted on 10 acres; but at the same time applicant was advised he could secure portion 154 of 56 acres 1 rood, if available, under a fresh application.

Evidently it was supposed by this Department that John Finneran would be glad to make an application for portion 154, or it was not noticed that his neglect to do so would cause a severance of A.C.P. 79-32 from the previous C.P.'s.

It transpires that he did not accept the refund, or select portion 154, and as this portion has been confirmed on 6th October, 1886, to Michael Casey, as part of A.C.P. 86-13, portion 121 is now cut off from the previous C.P.'s tinted pink of the series, see tracing* herewith.

C.S. Branch.

R.M. (for Acting Surveyor-General), 28/3/88.

*See Appendix 3.

A.C.P. 79-32 by J. Finneran has been separated from its base by the selection of an adjoining portion under the Act of 1884, which it was thought would have been selected by Finneran. As suggested to him by this Department the circumstances in connection with which are fully set out in this memo.

Finneran appears to be a *bonâ fide* settler, and in view of all the circumstances it is submitted that the C.P. 79-32 be validated by special Bill.—H.P., 11/4/88. The suggestion is submitted as Bugden's case, included in Schedule of special Bill has been brought forward for validation, on account of it being separated from the O.C.P., in virtue of which it was made.—F.H.W., S.F., W.H.C., 13/4/88. Prepare usual notice for special Bill and inform Dr. Ross, M.P.—T.G., 9/5/88. Notice prepared.—W.H.C., 9/5/88. Dr. Ross, M.P., informed, 10/5/88.—H.A.T.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE JOACHIM FAMILY.

(PETITION FROM, IN REFERENCE TO CONDITIONAL PURCHASES TAKEN UP BY.)

Received by the Legislative Assembly, 10 *November*, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of William Joachim, Annie Joachim, Sophia Joachim, Selina Joachim, and John Thomas Joachim,—

SHOWETH:—

That your Petitioners, with their brother the late George Joachim, deceased, came to this Colony in the year 1873, and conditionally purchased land in the vicinity of Moama in blocks of 320 acres each, and took possession of the same as early as circumstances would admit, but from the fact that the land had not been surveyed they were compelled to fix camps and sleeping places, to the best of their knowledge and belief, on the grounds applied for in their various separate applications; on the alleged grounds of non-residence and other grounds they were subjected to long and severe litigation, ending in an appeal to the Privy Council on certain points, which the Court directed in the favour of your Petitioners, who were litigants in the cases referred to.

That during the continuance of their difficulties all of the conditional purchases were declared forfeited by notice in the *Government Gazette*, on the alleged grounds of non-residence.

That on their declarations becoming due under the provisions of the eighteenth section of the Crown Lands Act of 1861, your Petitioners duly tendered same to the Land Agent at Moama, and such declarations were refused.

That acting under the belief that the various legal points decided in favour of those of your Petitioners who were litigants by the Privy Council and by the Supreme Court gave them a perfect title to the land, and believing that in due course they would be advised by the Department of Lands that the forfeiture of their holdings would be reversed, they took no steps in the matter until the year 1882, when they again made and lodged with the Department of Lands the declarations required in the terms of the eighteenth section of the Lands Act of 1861, which declarations were referred for inquiry and officially reported upon, and show that your Petitioners have effected the improvements necessary under the law.

That your Petitioners have, from the first, held possession of their land personally, and have occupied and held same since they first selected to the present time, and during such term have made full use of the said land, and have in every way used their best capacity for obtaining and utilising the production of the soil for their own use and benefit, and in every way using such land as a home for the past fourteen years.

That notwithstanding the fact that they have been undisturbed in their possession, their title has in no way been recognised by the Crown.

Your Petitioners therefore humbly pray that your Honorable House will take the whole of the circumstances into its consideration, and in its wisdom direct that such relief may be afforded as may seem fit.

And your Petitioners, as in duty bound, will ever pray.

Dated at Moama, the 5th day of November, in the year 1887.

WILLIAM JOACHIM.
ANNIE JOACHIM.
SOPHIA JOACHIM.
SELINA JOACHIM.
JOHN THOMAS JOACHIM.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE, ROBERT BARCLAY WALLACE.)

Received by the Legislative Assembly, 18 *November*, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of James Robert Millar Robertson, of Sydney, and Robert Barclay Wallace, of Newcastle,—

HUMBLY SHOWETH:—

That your Petitioners are the purchasers of conditional purchase 84/9, 320 acres, and conditional purchase 84/10, 126¼ acres, in the Newcastle District, which selections they hold conjointly with others, upon which they have expended for colliery purposes the sum of £25,000.

That upon making declarations regarding completion of mining conditions upon their aggregate area it appeared that the original selectors had at the time of making such selections other selections which had been converted into mining selections.

That it is a matter of grave doubt whether the last made selections are made in contravention of the twenty-fourth section of Act 42 Victoria, number 29, which provides that, excepting under the nineteenth section, no person can make a selection within five years of having made a former selection.

That doubt arises as to whether the selection formerly held, having been under the thirteenth section, and then converted to the nineteenth, was a selection of such nature as to be a bar to a second selection being made.

That the loss of the area embraced within these two holdings will be a great and serious one to your Petitioners, and will materially lessen the value of the undertaking in which they have embarked a large sum of capital for the development of an industry calculated to give employment to a considerable number of miners.

Your Petitioners therefore humbly pray that the whole of the circumstances will receive consideration at the hands of your Honorable House.

And your Petitioners, as in duty bound, will ever pray.

JAMES R. M. ROBERTSON,
(By his agent, J. RAYDEN BINGLE)
ROBT. B. WALLACE.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE—MARTIN TULLY.)

Received by the Legislative Assembly, 17 November, 1887.

To the Honorable the Speaker and the Honorable Members of the Legislative Assembly of the Colony of New South Wales, in Parliament assembled.

The humble Petition of Martin Michael Tully, the younger, of Kilenawello, near Wheeo, in the Colony of New South Wales, farmer,—

RESPECTFULLY SHOWETH :—

1. That leave has been obtained by the Honorable Minister for Lands from your Honorable House to bring in a Bill intituled "A Bill to legalise certain conditional and other purchases of Crown Lands," and that such Bill has by your Honorable House been referred to a Select Committee of your Honorable House for inquiry and report.

2. That your Petitioner is directly interested in a certain selection in the name of one Thomas Millane, mentioned in Schedule A to such Bill, the purchase of which has been found to be wholly or in part illegal.

3. That the said Bill proposes to legalise such purchase in the name of the said Thomas Millane.

4. That your Petitioner will be seriously and injuriously affected and prejudiced and subjected to great loss if such Bill is passed, on the following grounds :—

(*a*) That at the date of the selection by the said Thomas Millane the land formed part of additional conditional purchase 80, 91, selected by your Petitioner.

(*b*) That such application was, on the tenth day of July, one thousand eight hundred and eighty-three, declared void, but on appeal to the Minister such decision was set aside and the conditional purchase declared valid.

Your Petitioner therefore humbly prays that he may be heard by his counsel, attorney, or agent, or in person, before your Honorable House, or before the Select Committee, in opposition to the said Bill and the provisions thereof, so far as the same relates to the said selection, with liberty to adduce such evidence as he may be advised in opposition thereto, or in support of this Petition.

And your Petitioner, as in duty bound, will ever pray, &c.

Dated this seventeenth day of November, A.D. 1887.

MARTIN TULLY.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR LEAVE TO APPEAR BEFORE SELECT COMMITTEE—M. O'SHANASSY.)

Received by the Legislative Assembly, 6 December, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of Matthew O'Shanassy, of Moira, in the said Colony,—

HUMBLY SHOWETH:—

That a Petition was received by your Honorable House on the 10th day of November last from William Joachim, Annie Joachim, Sophia Joachim, Selina Joachim, and John Thomas Joachim, setting forth certain circumstances in connection with certain lands alleged to have been conditionally purchased by one George Joachim, and the said William Joachim, Annie Joachim, Sophia Joachim, Selina Joachim, and John Thomas Joachim, and praying that your Honorable House would take the circumstances into its consideration and direct that such relief would be afforded as might seem fit.

That your Petitioner is now the lawful occupier and lessee from the Crown of the said lands mentioned in the said Petition.

That your Petitioner has good grounds for opposing the granting of the prayer of the petition aforesaid, so far as the granting of such prayer may tend to any recognition by the Crown of the title of said Petitioners, or any of them, to the lands mentioned in the said Petition or any of them.

Your Petitioner, therefore, humbly prays that leave may be given to him to be represented by counsel or solicitor before the Select Committee appointed by your Honorable House, in connection with the Petition aforesaid.

And your Petitioner, as in duty bound, will ever pray, &c.

Dated this 6th day of December, 1887.

M. O'SHANASSY.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE BY SELECT COMMITTEE ON—ALEXANDER RODGERS.

Received by the Legislative Assembly, 7 December, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of Alexander Rodgers, of Attunga, near Tamworth, in the Colony of New South Wales,—

RESPECTFULLY SHOWETH:—

1. That your Petitioner is the purchaser of conditional and additional purchases 81–191, 92 acres; 81–258, 100 acres; 81–263, 100 acres.

2. That the original conditional purchase was taken up by Thomas George Rusden, and was sold by virtue of a writ of *fieri facias*, issued out of the Honorable the Supreme Court of New South Wales, when I became the purchaser of the said original conditional purchase, and took up the two additionals herein named.

3. That when I purchased I fully and conscientiously believed that it was not required of me to fulfil the condition of residence, as in the ordinary cases of selections, this being a sale by the Sheriff; and this, I am informed, was the popular belief of the general public in such cases.

4. That I have expended large sums of money in improving both the original and conditional purchases, to the amount of eleven hundred pounds, or thereabouts.

5. That the head station is situated on the original improvement purchase, and has always been occupied and used as such, and the loss to me would be considerable if I do not obtain the same.

6. That these purchases have been the subject of a Land Board inquiry at Glen Innes, and the decision of such Board appealed against, and also decided against me, but at the time the Honorable the Minister for Lands gave his decision he stated that he admitted it was a hard case, and said he would give relief in another form; but it is now ascertained that these purchases would have to be validated, and your Petitioner humbly prays that his case may be submitted to the Committee now sitting, with reference to validating certain conditional and other purchases.

Your Petitioner, therefore, humbly prays that the whole circumstances will receive consideration at the hands of your Honorable House.

And your Petitioner, as in duty bound, will ever pray, &c.

ALEX. RODGERS.

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE BY SELECT COMMITTEE—JOHN ALLEN.)

Received by the Legislative Assembly, 16 *December*, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of John Allen, of Narrandera,—

HUMBLY SHOWETH:—

That your Petitioner purchased, at a Sheriff's sale, in the month of December, in the year 1884, a conditional purchase and pre-emptive lease, the latter being of the area of 1,920 acres.

That previous holder of such lease had made no provision for the due conversion of such lease, as provided by the 52nd section of the Crown Lands Act of 1884.

That under such clause your Petitioner was barred from making such provision.

That your Petitioner at time of purchase relied upon clause 123 of same Act placing him exactly in the position of former holder.

That your Petitioner now finds that, owing to his acceptance of transfer being subsequent to transfers conveying right of conversion, the Crown decides that right of conversion is lost.

That the loss of such lease is to your Petitioner a matter of extreme importance, and entails upon him a great and severe loss.

Your Petitioner, therefore, humbly prays that your Honorable House will take the whole of the circumstances into consideration, and in its wisdom direct such action as shall seem fit.

And your Petitioner, as in duty bound, will ever pray.

JOHN ALLEN.

1887–8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE—STEPHEN FENNELL.)

Received by the Legislative Assembly, 8 *March*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of Stephen Fennell, of Wagga Wagga, selector,—

HUMBLY SHOWETH:—

That your Petitioner inadvertently, in making final declarations upon several selections owned by him, upon which all conditions of the Land Act of 1861 had been duly observed, omitted to make declaration referring to selection No. 76–375, Wagga Wagga, 57 acres 1 rood, although conditions to be declared to were duly completed, and in consequence of such omission the selection was duly notified as lapsed, and reverted to the Crown.

That after such reversal it was embraced within a leasehold, which fact renders it difficult for the Crown to reverse the lapsing.

That your Petitioner has asked the Crown lessee of the holding embracing the selection in dispute to intimate to the Lands Department his willingness to admit of the 57 acres 1 rood in dispute to be restored to him, and intimation to that effect has been conveyed to the Honorable the Minister for Lands.

That the selection in question is centrally situated amongst other selections owned by your Petitioner, and can only be reached by roads through your Petitioner's holding, rendering its ownership important to your Petitioner, while comparatively useless to others.

Your Petitioner, therefore, humbly prays that your Honorable House will take the whole of the circumstances into consideration, and in its wisdom direct such action as shall seem fit.

And your Petitioner, as in duty bound, will every pray.

STEPHEN FENNELL.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE—EDWARD GRACE.)

Received by the Legislative Assembly, 7 March, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of Edward Grace of Bando, Gunnedah, in the Colony of New South Wales, selector and grazier,—

SHOWETH:—

That your Petitioner conditionally purchased five hundred and twelve acres on the twenty-eighth day of September, one thousand eight hundred and eighty-two, at the Gunnedah Land Office, and took possession of the said land within a month of the date abovementioned.

That your Petitioner fulfilled all the conditions of residence and improvements upon his selection and in so doing expended large sums of money, and that the Inspector was satisfied that these conditions were so fulfilled.

That the selection was made *bonâ fide* by your Petitioner and not as agent for or in the interest of any person whomsoever.

That an inquiry was held in respect of the said conditional purchase by the Local Land Board at Gunnedah on or about the ninth day of August last past, and evidence was taken, and the said Board recommended that the said conditional purchase be forfeited.

That your Petitioner appealed against such decision, and such appeal came on for hearing before the Minister for Lands in one course on or about the twentieth day of November last past.

That your Petitioner did not retain any agent or solicitor to support his said appeal and the same was dismissed by the said Minister.

That great injustice has been done by reason of the action taken and your Petitioner has incurred serious and ruinous loss.

Your Petitioner, therefore, humbly prays that your Honorable House will take the whole of the circumstances disclosed by the evidence taken at the said inquiry into its consideration, and in its wisdom direct such relief may be afforded your Petitioner as may seem fit.

And your Petitioner, as in duty bound, will ever pray.

Dated at Gunnedah, the 24th day of February, A.D. 1888.

E. GRACE.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE BY SELECT COMMITTEE ON—MARY ELIZABETH MURPHY.)

Received by the Legislative Assembly, 24 April, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of Mary Elizabeth Murphy, of Heyfield, Strathfield, in the Colony of New South Wales,—

RESPECTFULLY SHOWETH:—

1. That your Petitioner is the present owner of a grant in fee-simple, in virtue of which the Petitioner's brother, the late William Edward Murphy, applied for an additional conditional purchase, No. 80–114 of 320 acres, on the 20th May, 1880, at Carcoar Land Office.

2. That the said William Edward Murphy had, previous to the date of application for the additional conditional purchase, lived continuously upon the freehold for a term of seven years.

3. That at the date of application for the additional conditional purchase the said William Edward Murphy was a solicitor, practising in Brisbane.

4. That the said William Edward Murphy was suffering from disease of the heart and extensive dropsy, and was advised by his medical attendant to give up his practice and follow the pursuits of farming.

5. That the said William Edward Murphy took possession of the additional conditional purchase and entered into occupation thereof within three months from date of selection, and afterwards proceeded to Brisbane, with the view of arranging his business affairs there and returning to Sydney, so as to resume farming operations on the said additional conditional purchase.

6. That the said William Edward Murphy returned to Sydney on the 2nd December, 1880, and being so ill, his medical attendant, Dr. Atherton, had again to attend him, which he did up to the 19th May, 1881, upon which day he died.

7. That under the will of the said William Edward Murphy your Petitioner inherited his estate, comprising the freehold and additional conditional purchase before referred to.

8. That your Petitioner obtained from the Crown Solicitor his certificate showing she, the Petitioner, was entitled to deal with the lands.

9. That your Petitioner forwarded to the local Land Agent the certificate, together with the necessary declaration, as to the said William Edward Murphy's residence on the freehold.

10. That the local Land Board held an inquiry on the 21st of November last, at Carcoar, and was of opinion that, as the selector had resided upon the freehold for such a considerable period, viz., seven years previous to the date of application for the additional conditional purchase, the Minister could exercise his right under the provisions of the 138th clause of the Crown Lands Act of 1884, and recommend the Governor to include the case in a Validation Bill.

11. That the Lands Department have forwarded your Petitioner a letter, dated 10th April, 1888, conveying the Minister's decision that the selection must be forfeited.

12. That your Petitioner has regularly paid the instalment due upon the selection.

Your Petitioner therefore humbly prays that under the whole circumstances the matter will receive consideration at the hands of your Honorable House, and that the matter be referred to the Select Committee now sitting on the "Crown Lands Purchases Validation Bill."

And your Petitioner, as in duty bound, will ever pray.

MARY ELIZABETH MURPHY.

1887–8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE BY SELECT COMMITTEE ON—MICHAEL HERREN.)

Received by the Legislative Assembly, 25 April, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

May it please your Honorable House, the humble Petition of the undersigned, Michael Herren,—

RESPECTFULLY SHOWETH:—

1. That on the 16th day of December, 1880, I selected on the Jacob and Joseph Creek 40 acres, No. 242, in the parish of Wallabadah, county of Buckland; paid my deposit then, and interest since December, 1883, regularly. Being a *bonâ fide* selector I made a dam, fenced with wire and top-rail, erected a shed 45 feet long, and cultivated about 14 acres.

2. That the Inspector of Conditional Purchases declared the improvements to be of the value of £82.

3. That the Land Board has now declared my selection cancelled, because the road runs between it and my residence.

4. That after working that land for *eight* years and improving it this cancelling is a great injustice to me.

5. That the improvements erected thereon would be a very great loss for a poor working man.

6. That I could not pay the sum of £82 for improvements to reselect it.

Your Petitioner, therefore, humbly prays your Honorable House will grant me permission to refer my case to the Committee now sitting and inquiring into legalising selections, and that my selection may be legalised and granted me.

And your Petitioner, as in duty bound, will ever pray.

MICHAEL HERREN.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS PURCHASES VALIDATION BILL.

(PETITION FOR CONSIDERATION OF CASE—P. HOGAN.)

Received by the Legislative Assembly, 15 *May*, 1888.

To the Honorable the Speaker and the Honorable Members of the Legislative Assembly of the Colony of New South Wales, in Parliament assembled.

The humble Petition of Patrick Hogan, of Randwick, in the Colony of New South Wales, merchant,—

RESPECTFULLY SHOWETH:—

1. That your Petitioner is the purchaser of conditional purchase number 83-34, of 640 acres, parish of Nimbin, county of Rous.

2. That the said conditional purchase was selected by James Murphy, upon the death of whom your Petitioner purchased the said conditional purchase.

3. That your Petitioner fully and conscientiously believed it was not required of him to fulfil the condition of residence, James Murphy having been killed while in occupation of the land.

4. That your Petitioner has expended large sums of money in improvement of the land.

5. That your Petitioner acted from motives of sympathy with James Murphy's relatives more than a desire to benefit himself.

Your Petitioner therefore humbly prays that the whole circumstances may receive consideration at the hands of your Honorable House.

And your Petitioner, as in duty bound, will ever pray, &c.

Dated this fifteenth day of May, A.D. 1888.

P. HOGAN.

(THIRD SESSION.)

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(AMENDED REGULATIONS NOS. 107, 168, 171, 172, AND 173.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 16 August, 1887.

It is hereby notified, for public information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of Regulation No. 107, under the Crown Lands Act of 1884, published on 2nd January, 1885, being amended as hereunder.

[Ml. 87-7,981] THOS. GARRETT.

REGULATION No. 107.

107. The rents of all pastoral leases, when determined, shall be notified to the lessee, and shall be payable yearly in advance to the Colonial Treasurer; and if not paid on or before the dates on which the same may be due, the additional sums mentioned in section 96 of the Act will be payable.

Department of Lands, Sydney, 16 September, 1887.

It is hereby notified, for public information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of Regulations Nos. 168, 171, 172, and 173, under the Crown Lands Act of 1884, published on 2nd January, 1885, being amended as hereunder, viz.:—

Regulation No. 168 to read "Application for permission to search for gold in alienated land within a gold-field shall be made on Form 68 to the Secretary for Mines; and if such application be approved, a permit may be granted in the Form 60."

Regulations Nos. 171 and 172 to be amended by the substitution in each case of the words "Secretary for Mines" instead of "Minister for Lands."

Regulation No. 173 to be amended by the words "in Form 69" being inserted after the words "the Governor may grant a permit."

(THIRD SESSION.)

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(FURTHER AMENDED REGULATION NO. 5—CLASSES OF FENCING.)

Presented to Parliament, pursuant to Act 48 Vic., No. 18.

Department of Lands,
Sydney, 28 June, 1887.

WITH reference to the *Government Gazette* notice of the 8th December, 1886, whereby "The Schedule of Classes of Fencing" in connection with the Crown Lands Act of 1884 and the Regulations thereunder was amended, it is hereby notified for public information that His Excellency the Governor, with the advice of the Executive Council, has been pleased to further amend section No. 5 of the said Schedule as hereunder.

[Ml. 87-6,329.] THOS. GARRETT.

5. A substantial six-wire fence, the top wire of which shall be not less than three feet eight inche from the ground, having the wires tightly stretched, the spaces between the several three lowest wires and the lowest wire and the ground to be not more than six inches. The posts to be not more than eleven feet apart, and straining posts not more than one hundred yards apart, sunk three feet in the ground, or the posts may be not more than sixteen feet apart, provided that there be two battens between the posts, leaving about five feet between the battens and between each post and each batten. A wooden top rail may be substituted for the top wire.

1887.

(THIRD SESSION.)

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(ADDITIONS TO SCHEDULE OF CLASSES OF FENCING.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 29 November, 1887.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following additions to the "schedule of classes of fencing" in connection with the "Crown Lands Act of 1884," and the Regulations thereunder, published on 2nd January, 1885, viz.:—

1. A post and top rail, and two-wire fence, the top rail of which shall not be less than 3 feet 8 inches from the ground, of substantial materials firmly erected. The posts to be not more than 9 feet apart. The space between the top rails and the ground to be divided as far as possible, so that the spaces between each wire, the top rail and the first wire, and the bottom wire and the ground shall be equal.

2. A substantial four-wire fence, the top wire of which shall not be less than 3 feet 8 inches from the ground, having the wires tightly stretched, the spaces between the several wires and the bottom wire and the ground to be as nearly equal as possible. The posts to be not more than 11 feet apart, and straining posts not more than 100 yards apart, sunk 3 feet in the ground, or the posts may not be more than 16 feet apart, provided that there be two battens between the posts, leaving about 5 feet between the battens and between each post and each batten.

THOS. GARRETT.

1887-8.

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(ADDITION TO THE SCHEDULE OF CLASSES OF FENCING.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 10 July, 1888.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following addition to the "Schedule of Classes of Fencing" in connection with the "Crown Lands Act of 1884," and the Regulations thereunder, published on 2nd January, 1885, viz.:—

In mountainous country, or where a very substantial fence is not necessary, a post and top rail and three-wire fence, about 4 feet in height. The posts to be about 11 feet apart, and the wires to be placed at convenient distances. The top rail may be secured on top of the posts.

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(AMENDED REGULATION NO. 164.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 23 December, 1887.

It is hereby notified, for public information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of Regulation No. 164, under the Crown Lands Act of 1884, published on 2nd January, 1885, and amended on 4th June, 1886, and further amended on 22nd March, 1887, being still further amended as hereunder.

[Ml. 87-11,672]

THOS. GARRETT.

REGULATION NO. 164.

Ringbarking.

164. Persons desirous of ringbarking trees on their leased land must (unless the land is held by conditional lease under section 48 or section 54 of the Act) make application on form 58, with all the particulars thereby required correctly filled in, accompanied by a sketch of the locality. A separate application must be made and a separate fee paid for each detached area, except when the land forms part of the same conditional lease or of an annual lease under clause 3 or 85 of the Act.

Each application must be addressed to the Crown Land Agent of the district, and be accompanied by a fee of £3 for the first 1,920 acres or less area, and £2 for each additional 1,920 acres or part thereof. These fees will be charged on the area applied for without reference to that in connection with which permission may subsequently be granted, and no refunds will be allowed except in cases where no expense is incurred, and the applications may be allowed to be withdrawn.

1887–8.

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(AMENDMENT OF REGULATION No. 111.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 24 February, 1888.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of Regulation No. 111, under the Crown Lands Act of 1884, published on 2nd January, 1885, being amended as hereunder.

THOS. GARRETT.

[Ml. 88–1,455]

REGULATION No. 111.

111. Subject to the approval of the Minister, Pastoral Leaseholds may be divided on application:—

(1.) Every application must be in Form 44, and must be accompanied by a description and sketch of the subdividing line or lines, together with an estimate of the grazing capability of each proposed subdivision.

(2.) The Minister may modify or alter any proposed dividing line, and may require any line or lines to be surveyed.

(3.) All costs of report, survey, or otherwise, incurred in dealing with the application, must be borne by the lessee; and each application must be accompanied by a receipt showing that a deposit of ten pounds has been paid to the Colonial Treasurer in connection therewith.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

PUBLIC LANDS BILL.

(MESSAGE No. 5.)

Ordered by the Legislative Assembly to be printed, 5 October, 1887.

CARRINGTON,
Governor.

Message No. 5.

In accordance with the provisions contained in the 54th section of the Constitution Act, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to regulate the sale, lease, and management of Crown Lands, and for other purposes.

Government House,
Sydney, 5th October, 1887.

[3*d.*] 125—

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL.

(PETITION SUGGESTING AMENDMENTS—ROBERT PAGE, CHAIRMAN OF CASINO POLITICAL LEAGUE.)

Received by the Legislative Assembly, 4 November, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the Members of the Casino Political League,—

RESPECTFULLY SHOWETH:—

That in their opinion the undermentioned emendations should be made in the Bill to regulate the sale, lease, and management of Crown Lands, and for other purposes.

Clause 6 only to apply to such conditional purchases in the Eastern and Central Divisions as shall be proven to the satisfaction of the Land Board to contain minerals of marketable value. Your Petitioners would point out that in the Richmond River District numerous areas have been applied for as mining conditional purchases upon which minerals have never existed.

Clause 11 to read as follows:—That there shall be a Local Land Board for every Land District, and the members of such Board shall not exceed three in number, two of whom shall be elected every three years, by landholders (freehold or leasehold), in each Land District. One of such members shall be the chairman, who shall be the Police Magistrate in such district. Every member of the Board shall be paid such fee for each sitting as may be prescribed. And so on as in Bill, except that in lines 12 and 13 the words "until the new Boards are elected" be substituted for "without reappointment."

Clause 12.—In third line insert words "until a successor has been elected," after the word "place."

Clause 13, sub-section III.—In sixth and seventh lines omit words "shall be a Justice of the Peace by virtue of his office, and"

Clause 13, sub-section V.—In fifth and sixth lines insert after "aforesaid" the words, "but a member dissenting therefrom may state his reasons in open Court, and have said reasons filed with the proceedings in the case" in lieu of the words "and no member shall comment upon, or question, such decision."

Clause 13, sub-section IX.—In tenth line substitute words "provide for the election of a" for words "appoint a"

Clause 18.—Substitute words "twenty-eighth" for "fourteen" in fourth line.

Clause 20, sub-section IV.—In lines six and seven omit words "and no other member shall comment on, or question, such decision". In ninth line insert after word "case," the words "and state same in open Court."

Clause 20, sub-section VI.—In second line insert word "shall" in lieu of "may"

Clause 22, sub-section IV.—That distinct provision be made not to exempt from conditional purchase or lease the resumed areas, as defined under the Land Act of 1884, in the Eastern and Central Divisions.

Clause 22, sub-section V.—Your Petitioners would submit that this would be a dangerous power to give, as under it the entire area of any Land District could be proclaimed a gold-field, and thus conditional sale of such land barred.

Clause 22, sub-section IX.—Your Petitioners would submit that Crown Lands on resumed areas that may have been improved should be open to conditional sale or lease, provided the applicant is prepared to pay value of such improvements, as equitably appraised by the Land Board.

Clause 23.—Your Petitioners would urge that Volunteer Land Orders should only be used to purchase areas adjoining freehold land now held by the owners or holders of such orders; and should not be used to alienate choice pieces of land in separate localities, and thus destroy the value and utility of large areas of adjoining Crown Lands.

Clause 25.—That a proviso be made that improvements referred to are necessary to the conditional purchaser or lessee for the profitable occupation and use of such land. That in sub-section I the words "or lease" be omitted from the last line.

Clause

Clause 39.—That in the first line the words "or additional" be inserted after the word "original,' and the last four lines omitted.

Clause 41.—That the words "within twenty-four hours of the date of such applications" be inserted after the word "office" in the last line.

Clause 42.—That the words "Land Board Office" may be substituted for the words "Chairman of the Land Board may, if he shall think fit," in the second and third lines.

Clause 44.—That the following words be added: "Provided that when the District Surveyor shall report that the whole area applied for as a conditional purchase is available for selection, and no error or misdescription shall appear in the application the Land Board shall give to the lessee or licensee of such land (if any) notice of intention to confirm such application, and unless within 21 days from the date of such notice such lessee or licensee shall give notice of objection to such confirmation, the application shall forthwith be confirmed, and notice of such confirmation be sent by post to the applicant."

Clause 46.—That all the words from "call" in the sixth line to "highest" in the tenth line, be omitted, and the following inserted: "the said applicants shall attend at the Land Office on a day to be fixed by the Land Board, when the land so applied for shall be submitted at auction by the Land Agent —only such applicants being allowed to bid."

Clause 48.—That the words "three months" be substituted for "one month" in the second line.

Clause 49.—That the following words be inserted after the word "land" in the fifth line, namely, "and in the Eastern Division shall include the continuous cultivation of an area of at least five acres each year, or a total area within five years of twenty-five acres."

Clause 63.—In sub-section II, line four, omit words "other than a mining conditional purchase." In sub-section IV provision to be made for the cultivation of a portion of the area each year.

Clause 82.—Insert "and local newspaper" after word "*Gazette*" in fourth line.

Clauses 93 to 101.—Your Petitioners would strongly urge as regards leasehold areas in the Eastern Division that no further extension of lease be granted than that provided for in the Crown Lands Act of 1884, and would specially urge the adoption of the latter portion of clause 94, from the word "Provided" in the fifth line.

Clause 102, sub-section II.—Your Petitioners would urge that this be amended in accordance with the provisions of the Crown Lands Act of 1884.

Clause 103.—Your Petitioners submit that this clause is inconsistent with the proviso in clause 94.

Clause 104.—Your Petitioners would urge that this clause should be made to apply only to improvements made under the Crown Lands Act of 1884, and this Act, with the sanction of Local Land Boards.

Clause 105.—That the term of leaseholds in Eastern Division be as provided under the Crown Lands Act of 1884.

Clause 111.—That the words "one year" be substituted for "two years" in eighth line, and clause amended in conformity with alteration suggested in clause 105.

Clause 113.—That extension of lease should only apply to scrub lease, and not to pastoral leases generally.

Clause 117.—Your Petitioners would urge that this should only apply to improvements made under the Crown Lands Act of 1884, or this Act.

Clause 121, sub-section IV.—Your Petitioners urge that all Crown Lands within resumed areas, except such as are required for *bonâ fide* public purposes, should be open to selection.

Clauses 127 to 129.—Your Petitioners would urge that no one applicant should hold more than one scrub lease in the Eastern Division, and that a limit should be fixed as regards area.

Clause 130.—Your Petitioners would urge that all annual leases should be sold by auction.

Clause 132.—That no one applicant should be permitted to hold more than one lease for a special purpose in any Land District in the Eastern Division.

Clause 138.—That resumed areas should be exempt from pastoral lease in the Eastern Division.

Clause 141.—That application for permission to ringbark should state clearly the description of timber on the land they desire so to deal with. Your Petitioners would point out that in the northern districts thousands of acres of valuable timber has been ruthlessly destroyed.

Clause 159.—That the words "and may be approved of, or otherwise" be added after the word "session."

Clause 168.—That the words from "five" in the thirteenth line to "transfer" in the fourteenth line be omitted, with a view to insert the following: "the original term of five years from the date of application."

Your Petitioners would further urge,—

That provision should be made for a large map of each Land District to be exhibited at each Land Office, showing all land open for sale or lease.

That the fencing of all lands conditionally sold or leased be compulsory within the five years, provided that an extension of time be granted to applicants showing good cause for such request; and that applicants be relieved from the obligation in all cases where a fence may be shown to be unnecessary, and that adjoining lands held by members of a family, or partners, may be enclosed as one holding.

That in cases where lands are divided by a road a fence may be erected on one side of the road only, provided that the owners of the land equally contribute the cost and maintenance of such fence.

Your Petitioners therefore humbly pray that your Honorable House will take the foregoing matters into your favourable consideration, and will cause such amendment to be made in the Land Laws as will give the relief your Petitioners seek.

And your Petitioners, as in duty bound, will ever pray.

Signed for, and on behalf of, the members of the Casino Political League.

ROBERT PAGE,
Chairman.

Casino, Richmond River, 1 November, 1887.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (No. 2).

(MESSAGE No. 9.)

Ordered by the Legislative Assembly to be printed, 17 *November*, 1887.

CARRINGTON,
Governor.

Message No. 9.

In accordance with the provisions contained in the 54th section of the Constitution Act the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to regulate the sale, disposition, dedication, and management of Crown Lands; to repeal existing Acts relating to Crown Lands; to establish Land Boards and a Land Court, and to provide for their procedure, and to confer on them certain powers; to make provision for the destruction of noxious animals and plants; for payment for improvements to the outgoing tenant, and enabling a preferential charge for such payment to be given; for the granting of loans to persons engaged in agricultural or pastoral pursuits, and for securing the repayment of such loans by preferential mortgages; for granting to the Crown the right of entry on land for certain purposes, and the right to resume land for approaches to water, roads, railways, canals, and other purposes; for regulating dividing fences between adjoining lands; for providing and enforcing penalties for various offences against the provisions of this Act; for enabling certain duties of the Surveyor-General to be performed by other officers; for validating certain Crown grants and conditional purchases made prior to the passing of this Act; and generally for the encouragement of agricultural and pastoral pursuits, and other purposes.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (NO. 2).

(PETITION FROM CERTAIN INHABITANTS OF MOAMA AGAINST PASSING OF.)

Received by the Legislative Assembly, 9 *May*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly, in Parliament assembled.

WE, the undersigned inhabitants of Moama and surrounding districts, desire to enter our strong protest against the passage of the Land Bill, now before your honorable House, as being one calculated only to still further defeat the *bonâ fide* settlement of the people upon the soil.

Your Petitioners, many of whom have large families now arriving at maturity, are anxious to settle upon the lands and found prosperous and permanent homes thereon, and are fully assured, from an intimate knowledge of the working of the past Land laws, that the passage of the present Bill into law will close from settlement the whole of the Crown Lands in this district, and your Petitioners will be compelled to leave the Colony and seek homes for their families elsewhere.

We therefore respectfully pray that you will reject the Bill now before the House, and pass such a one into law as will enable your Petitioners to obtain portions of land upon which to settle.

And your Petitioners will, as in duty bound, for ever pray, &c., &c., &c.

Moama, 24 March, 1888.

1887-8

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (NO. 2).

(PETITION FROM WILLIAM JAMES REID AND THOMAS SHAW, FOR AMENDMENT OF, AND FOR LEAVE TO BE HEARD AT THE BAR IN OPPOSITION TO.)

Ordered by the Legislative Assembly to be printed, 28 *February*, 1888.

To the Honorable the Speaker and Legislative Assembly of the Colony of New South Wales, in Parliament assembled.

The Humble Petition of William James Reid and Thomas Shaw, of Yancannia, in the Colony of New South Wales, lessees of the leasehold area of Yancannia pastoral holding, in the Western Division of the Colony of New South Wales, on their own behalf,—

RESPECTFULLY SHOWETH:—

1. That your Petitioners were the lessees under the Crown Lands Acts in force in the said Colony at the time of the passing of the Crown Lands Act of 1884, of the 23 blocks of country known as the Yancannia Run, in the Western Division of the said Colony.

2. That after the passing of the Crown Lands Act of 1884 the said run or pastoral holding was, by virtue of the provisions of the said Act, divided into two parts, and such division was duly notified in the *Government Gazette*, upon the 11th day of July, 1885, and your Petitioners became the lessees of the leasehold area of the Yancannia pastoral holding.

3. That your Petitioners have paid rent to the Government of New South Wales for the said leasehold area from the date of the said notification up to the 10th day of July, 1888, according to the amount fixed by the Honorable the Minister for Lands as the rent in respect of the said leasehold area since the date of the said notification, which rent, so fixed as aforesaid, is in excess of the rent payable under the leases of the said several blocks of country comprising the said Yancannia Run or pastoral holding existing at the date of the passing of the Crown Lands Act of 1884.

4. That your Petitioners claim that the rent so fixed as aforesaid was only payable at and from the mean date of the determination of the leases of the several blocks comprising the Yancannia Run or pastoral holding which were in existence and current at the date of the passing of the Crown Lands Act of 1884.

5. That the mean date of the determination of the said leases of the said several blocks comprising the Yancannia Run, which were current at the date of the coming into force of the Crown Lands Act of 1884, is the 12th day of October, 1888.

6. That your Petitioners commenced an action upon the 16th day of November, 1887, in the Supreme Court of New South Wales, against the Honorable Thomas Garrett, who was duly appointed a nominal defendant under and by virtue of the provisions of the claims against the Colonial Government Act, to recover from the Government of New South Wales the difference between the rent reserved under the said leases of the said several blocks comprising the Yancannia Run, existing at the date of the passing of the Crown Lands Act of 1884, and the amount so fixed by the Minister as aforesaid, between the dates of the said notification in the *Government Gazette* and the mean date of determination of the said existing leases.

7. That the Bill now before this Honorable House, which is proposed as the Crown Lands Act of 1887, in the second clause proposes that the repeals in the said section mentioned shall not abate prejudice or affect any proceeding, civil or criminal, at law or in equity pending in any court or before arbitrators, or any other authority, at the commencement of this Act, or affect any grant, lease, license, reservation, lawfully made before the commencement of the Act.

8. That the said Bill, in section 101, provides, with reference to the rents payable in respect of pastoral leases, that the rent determined before the commencement of this Act, or to be determined after the commencement of, this Act, by the Minister, shall be payable, and shall be held to have been payable, from the date of the notification in the *Government Gazette*, under the Crown Lands Act of 1884 of the division of the pastoral holding, until the expiration of the said first period of the lease.

9. That the effect of the said 101st section if it became law would be to make your Petitioners liable for rent which was not payable under the provisions of the Crown Lands Act of 1884, in respect of the said leasehald area, and to defeat the said action brought by your Petitioners as aforesaid.

10. That your Petitioners will be seriously and injuriously affected and prejudiced by the passing of the said 101st section in its present form, for the following reasons :—

1. That it will introduce new terms into the said leases which are now and will be in existence at the time of the passing of the proposed Crown Lands Act of 1887.
2. That your Petitioners' action so brought as aforesaid against the Government of New South Wales will be entirely defeated and prejudiced.

Your Petitioners therefore humbly pray that the said 101st section may be amended so as to carry out the intention of the 2nd section of the said Bill, and to protect the vested interests of your Petitioners, and that your Petitioners may be heard by their counsel or solicitor or in person at the bar of your Honorable House, or before the Committee, in opposition to the said Bill and the provisions therefore abovementioned, and to represent the mischief which will be caused by the passing of the said 101st section in its present form to your Petitioners, and generally on behalf of your Petitioners' case.

And your Petitioners, as in duty bound, will ever pray.

Dated this thirty-first day of December, one thousand eight hundred and eighty seven.

WILLIAM JAMES REID.
THOMAS SHAW.

Sydney: Charles Potter, Government Printer—.1888

[3*d*.]

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS (No. 2).

(PETITION FROM MUNICIPAL COUNCIL OF ST. LEONARDS AGAINST PASSING OF CLAUSES 84 TO 87.)

Received by the Legislative Assembly, 17 *May*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales.

The humble Petition of the undersigned Council of the Borough of St. Leonards, in the Colony of New South Wales.

SHOWETH :—

1. That the said Borough of St. Leonards has considerable frontage to the waters of Port Jackson and Middle Harbour.

2. That your petitioner is informed that certain clauses in the Bill to regulate the sale, disposition, dedication, and management of Crown Lands now before your Honorable House, propose to continue the power which exists under the present law of rescinding reservations of water frontage and permitting the reclamation of land lying beyond or below high-water-mark by proprietors in fee simple having frontage to the sea or any tidal water or lake.

3. That such power has been in injurious operation for some years past, and has resulted in the loss without adequate recompense of a large portion of valuable water frontage in Port Jackson and other important harbours in the Colony, to the serious detriment of your petitioner and others of the community.

4. That your petitioner is apprehensive that unless such power is curtailed and the provisions of clauses 84 to 87 are eliminated from the Bill now before your Honorable House, certain valuable reservations of water frontage, more particularly in Port Jackson and Middle Harbour, will be alienated, and the use and enjoyment thereby lost to your petitioner and the people in general.

5. Your petitioner therefore respectfully urges that your Honorable House will eliminate clauses 84 to 87 from the Bill, or amend them in such particulars as to prevent the power being vested in any Minister or Board of rescinding any reservation of water frontage, or selling or giving the right to any person to reclaim land below high-water-mark.

Your petitioner therefore humbly prays that your Honorable House will be pleased to grant his prayer that clauses 84 to 87, in the Bill to regulate the sale, disposition, dedication, and management of Crown Lands, may be eliminated or amended in the manner asked.

And your petitioner, as in duty bound, will ever pray.

Sealed with the Corporate Seal of the Borough of St. Leonards, by order of the Council, this sixteenth day of May, 1888.

BENJAMIN JENKINS,
Mayor.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (No. 2).

(PETITION FROM CERTAIN SELECTORS OF ADAMINABY SUGGESTING AMENDMENTS IN.)

Received by the Legislative Assembly, 7 June, 1888.

To the Honorable the Legislative Assembly of New South Wales in Parliament assembled.

May it please your Honorable House,—

That we the undersigned, selectors of Adaminaby and District, in public meeting assembled at Adaminaby, on the 7th day of April, 1888, proposed and passed the following resolutions, which we humbly hope will be received for the information of your Honorable House, and that such practical effect be given them as the nature of each respective clause merits :—

1. Resolved,—That it is the opinion of this meeting that a fencing clause be inserted in the new Land Bill, but no condition as to the description of fence to be erected; and should any dispute arise, such dispute to be referred to the Land Board, whose decision to be final.
2. Resolved,—That it is the opinion of this meeting that the holders of converted leases be placed on the same footing as holders of conditional leases, as far as practicable with existing Act.
3. Resolved,—That it is the opinion of this meeting that the powers proposed to be given by the new Bill to the Minister for Lands, is dangerous to the best interest of the people.
4. Resolved,— That it is the opinion of this meeting that the Land Boards should consist of three members, one of which should have the power of a Supreme Court Judge, and to be only answerable to Parliament; the two others to be elected by the people.
5. That a copy of the foregoing resolutions be forwarded to our Members, Messrs. O'Mara and Dawson, for presentation to Parliament.

Your Petitioners humbly pray that your Honorable House will give their views your earnest consideration.

And your Petitioners, as in duty bound, will ever pray.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (No. 2).

(PETITION FROM CERTAIN INHABITANTS OF BOGGABRI AGAINST.)

Received by the Legislative Assembly, 12 *June*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly.

The humble Petition of the undersigned residents of the District of Boggabri,—

SHOWETH:—

1. That your Petitioners are deeply interested in the proper and permanent settlement of the people upon the Crown lands of the Colony.

2. That your Petitioners are of opinion that it will be to the best interests of the people of the Colony that a Land Court of Appeal should be established, and that such Court ought to be constituted so as to give confidence to the public by its decisions.

3. That such Court should be able to give its decisions upon all matters submitted to it without being in any way controlled or guided by political considerations, and its decisions should in no way be subject to the interference of the Minister for Lands, but should upon all questions of fact be final and conclusive, and also upon questions of law only subject to appeal to the Supreme Court.

4. That in the opinion of your Petitioners it is only by the establishment of such a Court that uniformity of decisions will become general and such decisions be respected.

5. That in the opinion of your Petitioners the present Court of Appeal and that proposed by the Land Bill now before the House does not meet with either the approval or confidence of the people of the Colony.

Your Petitioners therefore humbly pray that your Honorable House will take the above premises into your consideration.

And your Petitioners, as in duty bound, will ever pray, &c.

[*Here follow* 65 *signatures.*]

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (No. 2).

(PETITION FROM MUNICIPAL COUNCIL OF MANLY, AGAINST PASSING OF CLAUSES 84 TO 87 IN.)

Received by the Legislative Assembly, 12 *June*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales.

The humble Petition of the undersigned Council of the Municipal District of Manly, in the Colony of New South Wales,—

SHOWETH:—

1. That the said Municipal District of Manly has considerable frontage to the waters of Port Jackson and Middle Harbour.

2. That your Petitioner is informed that certain clauses in the Bill to regulate the sale, disposition, dedication, and management of Crown Lands, now before your Honorable House, propose to continue the power which exists under the present law of rescinding reservations of water-frontages and permitting the reclamation of land lying beyond or below high-water-mark by proprietors in fee-simple having frontage to the sea, or any tidal water or lake.

3. That such power has been in injurious operation for some years past and has resulted in the loss without adequate recompense of a large portion of valuable water frontage in Port Jackson and other important harbours in the Colony, to the serious detriment of your Petitioner and the people in general.

4. That your Petitioner is apprehensive that unless such power is curtailed, and the provisions of clauses 84 to 87 are eliminated from the Bill now before your Honorable House, certain valuable reservations of water frontage, more particularly in Port Jackson and Middle Harbour, will be alienated and the use and enjoyment thereby lost to your Petitioner and the people in general.

5. Your Petitioner therefore respectfully urges that your Honorable House will eliminate clauses 84 to 87 from the Bill, or amend them in such particulars as to prevent the power being vested in any Minister or Board of rescinding any reservation of water frontage, or selling or giving the right to any person to reclaim land below high-water-mark.

Your Petitioner therefore humbly prays that your Honorable House will be pleased to grant his prayer that clauses 84 to 87 in the Bill to regulate the sale, disposition, dedication, and management of Crown Lands may be eliminated or amended in the manner asked.

And your Petitioner, as in duty bound, will ever pray.

On behalf of the Municipal Council of Manly and in accordance with a resolution passed on the undermentioned date, I hereby affix my signature, and the seal of the aforesaid Council, this thirty-first day of May, A.D. 1888.

J. G. GRIFFIN, Mayor.

T. W. HAYLOCK, Council Clerk.

[3*d*.] 922—

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS BILL (No. 2).

(PETITION FROM MAYOR OF WEST MAITLAND FOR AMENDMENT OF.)

Received by the Legislative Assembly, 26 *June*, 1888.

To the Honorable the Speaker and the Honorable the Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned Mayor of the Borough of West Maitland in the Colony of New South Wales,—

RESPECTFULLY SHOWETH:—

1. That the Borough of St. Leonards has considerable frontage to the waters of Port Jackson and Middle Harbour.

2. That your Petitioner is informed that certain clauses in the Bill to regulate the sale, disposition, dedication, and management of Crown Lands now before your honorable House, propose to continue the power which exists under the present law of rescinding reservations of water frontage, and permitting the reclamation of land lying beyond or below high-water mark by proprietors in fee simple having frontage to the sea or any tidal water or lake.

3. That such power has been in injurious operation for some years past, and has resulted in the loss, without adequate recompense, of a large portion of valuable water frontage in Port Jackson and other important harbours in the Colony, to the serious detriment of your Petitioner and others of the community.

4. That your Petitioner is apprehensive that, unless such power is curtailed and the provisions of clauses 84 to 87 are eliminated from the Bill now before your honorable House, certain valuable reservations of water frontage, more particularly in Port Jackson and Middle Harbour, will be alienated, and the use and enjoyment thereby lost to your Petitioner and the people in general.

5. Your Petitioner therefore respectfully urges that your honorable House will eliminate clauses eighty-four (84) to eighty-seven (87) from the Bill, or amend them in such particulars as to prevent the power being vested in any Minister or Board of rescinding any reservation of water frontage, or selling, or giving the right to any person to reclaim land below high-water mark.

Your Petitioner therefore humbly prays that your honorable House will be pleased to grant his prayer that clauses 84 to 87 in the Bill, to regulate the sale, disposition, dedication, and management of Crown Lands may be eliminated or amended in the manner asked.

And your Petitioner, as in duty bound, will ever pray, &c.

J. GILLIES,
Mayor.

[3*d*.] 974—

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE LAND LAW.

(PETITION FOR AMENDMENT OF—PASTORAL LESSEES IN THE GRAFTON LAND DISTRICT.)

Received by the Legislative Assembly, 18 *October*, 1887.

To the Honorable the Legislative Assembly of New South Wales.

The humble Petition of the undersigned Pastoral Lessees in the Grafton Land District,—

RESPECTFULLY SHOWETH:—

That the said lessees applied for pastoral leases on the understanding that their rents would be determined within a reasonable time and in general accordance with the appraisement of the Local Land Board.

That although about half their term of lease has expired, their rents are only now being determined, and that apparently even in those cases where a rental increased four and five fold, will compel the lessees to throw up the remainder of the lease, an attempt will be made to exact the higher rate for the expired portion.

That the rents so far determined in this district have been "determined by the Minister after appraisement by the Local Land Board" only in the sense of subsequent to, not by any means in accordance with such appraisement, and this notwithstanding that the Local Board sit in open court, and have power to compel the attendance of witnesses and to hear evidence on oath, and to cross-examine, and that every party to proceedings before the Local Board has the same right to be heard as in summary proceedings before Justices; and notwithstanding that the Minister reviews the appraisement so made in private without cross-examination, and without hearing the lessee.

That even granting the documentary evidence which alone is before the Minister to be sufficient in the hands of a man thoroughly competent, both in practical knowledge of stock and country, and in administrative powers, nevertheless the practice of wholesale alteration of rents suggested by the Board on the sole authority of the Minister is to be deprecated for the following reasons:—

1st. That it places the absolute and unrestrained power of taxing a class in the hands of a single man, thus placing in his way temptations which, although they may be powerless, should never exist.

2nd. That the evidence thus laid before the Minister must be too voluminous to allow of his examining each case carefully in detail.

Your Petitioners therefore humbly pray that your Honorable House will take the premises into your most favourable consideration, and will cause such amendment to be made in the Land Laws as will give the relief your Petitioners seek.

And your Petitioners, as in duty bound, will ever pray, &c., &c.

[*Here follow* 22 *signatures.*]

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE LAND LAWS.

(PETITION FROM INHABITANTS OF GRAFTON, THE CLARENCE, AND THE RICHMOND ELECTORATES.)

Received by the Legislative Assembly, 25 October, 1887.

To the Honorable the Legislative Assembly of New South Wales.

The humble Petition of the undersigned inhabitants of Grafton, the Clarence, and the Richmond Electorates,—

RESPECTFULLY SHOWETH:—

That the Colony of New South Wales is suffering from general depression; that there is much want among the working classes in the country districts, and the number of unemployed is daily increasing; that one of the most potent and active causes of the present depression is the uncertainty regarding the rentals of pastoral and other holdings, and the reluctance of lessees to keep in order or to erect improvements, which in a few years will become without compensation the property of the Crown.

That the rents so far fixed for both pastoral and conditional leases are excessive and must tend not only to the ruin of such lessees but to the abandonment of large areas of State lands.

That the minimum rent and license fee fixed by the Land Act of 1884 is far in excess of what the poorer land in the Eastern District can afford to pay, whether such land be held under pastoral or conditional lease.

That by an admitted oversight in the Act of 1884 appeals are only allowed against minimum rents.

That the appraisement of holdings in the Eastern Division has been delayed in most cases till half the term of lease has expired; that in others it has not yet been commenced, and that in hardly any case has the appraisement submitted by the Board been definitely accepted or rejected by the Minister even now; that pending the definite decision by the Minister as to the rent, holdings are almost unsaleable. That should new leases be refused at the expiration of the present tenure, the pastoral lessee will have received no benefit in the way of security of tenure, although his rent will have been raised enormously, and the money he has spent on improvements confiscated.

That the conditional lessee in the Eastern Division suffers under equally heavy disabilities, for at the end of five years his improvements, erected at his sole cost, and absolutely necessary to the advantageous occupation of the land, will revert without compensation to the Crown, and that although the tenant has the option of purchasing the leasehold at £1 per acre within five years, the cost of such purchase being above the average value of conditionally leased lands nullifies the supposed advantages.

That in the appraisement of holdings it should be remembered that, as the carrying capacity per square mile decreases, the working expenses per beast increase, and that on every extensive holding are large areas of utterly worthless country. That the only really good land, which is in narrow strips on the frontages, is all alienated, and for the most part owned by farmers. That land purchased for pastoral purposes requires heavy expenditure in clearing and keeping down undergrowth. That in respect of the unalienated back country, still more inferior, the method of determining rents as advocated by the present Honorable Minister for Lands is particularly unfair to the pastoral lessee, based as that advocacy appears to be on a calculation of the average grazing capabilities of the entire holding, notwithstanding a large portion thereof may be purchased land, and ignoring the fact that not only are those purchased lands the better naturally, but that their natural capacity has been increased by a large outlay expended in clearing and otherwise improving the land; and further, that the Crown has had the full benefit of the purchases so made; that such improvements would be impossible on Crown Lands, first, owing to the uncertainty of tenure under the present and preceding Land Acts, and, secondly, from the inferior character of those lands.

That

That your Petitioners understand it is intended to introduce a Bill to amend the Land Act of 1884. Your Petitioners therefore respectfully submit that, in such amendment of the law, the following provisions should be introduced:—

1. The removal of the administration of the Act from the Minister to a non-political Land Court.
2. That the right of appeal in open Court to the said Land Court in respect of all rents and occupation fees be granted to all classes of Crown tenants, alike with the right to produce evidence in support thereof.
3. That the principle of compensation for improvements be applied equally to pastoral, homestead, and conditional lessees.
4. That the Local Land Boards be empowered in certain cases to permit the substitution of other improvements for fencing, and to allow, in cases where all concerned ask for the concession, that one ring fence enclosing two or more holdings be considered an enclosure of each holding.
5. That when desired by either pastoral or conditional lessee, the term of lease in the Eastern Division be extended to ten years.
6. That minimum rentals be abolished.
7. That the Land Court shall accept the rentals fixed by Local Land Boards, except in cases of appeal, or when the Land Court is convinced that the Local Land Board has erred through incompetency or dishonesty; and that rentals fixed by the Local Land Board in open Court, after hearing both sides, shall not be liable to arbitrary alteration by a single Minister on his sole authority.
8. That allowance be made for worthless or unavailing country when assessing the rental of holdings.

Your Petitioners therefore humbly pray that your Honorable House will take the premises into your most favorable consideration, and will cause such amendment to be made in the Land Laws as will give the relief your Petitioners seek.

And your Petitioners, as in duty bound, will ever pray.

Sydney: Charles Potter, Government Printer.—1887.

[3*d.*]

1887.
(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE LAND LAWS.

(PETITION FROM CROWN LESSEES, CONDITIONAL PURCHASERS, AND OTHERS.)

Received by the Legislative Assembly, 13 *December*, 1887.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned, Crown lessees, conditional purchasers, merchants, and others interested in the question of land legislation for the Colony of New South Wales,—

SHOWETH:—

That your Petitioners are all greatly affected by and interested in the question of land legislation for this Colony.

That some of the provisions of the present land laws and the present administration of them are detrimental to the best interests of the country and the prosperity of the people at large, they having the effect of crushing and impoverishing the main producing industry of the Colony and sending people and capital from this to other Colonies.

That your Petitioners beg respectfully to protest against the provisions of the Land Act of 1884, which place absolute power of ultimately determining the rental of Crown Lands in the hands of the Minister for Lands, and that they consider that the administration of the Land Act should be placed in the hands of a non political Board of Commissioners sitting in open Court.

That the fixed minimum rent should be abolished and the right of appeal be allowed in all cases of appraised rental, and such appeal be heard before the Board of Commissioners sitting in open Court.

That provision be made for giving compensation for improvements to all classes of Crown tenants, such compensation to be made to the outgoing holder by the incoming tenant, whether he be conditional purchaser or otherwise, and to be the appraised value of the improvements, not, however, to exceed the first cost of construction, or in any case not to exceed two shillings and six-pence per acre.

That in all cases where the Land Board sanctions an improvement a piece of land be measured off and attached to the improvement to the extent of one acre for every two shillings and six-pence spent on the improvement, not to exceed 1,280 acres in the Eastern, 2,560 acres in the Central, and 10,240 acres in the Western, Division, such land only to be alienated in one block.

That provision be made whereby adjoining holders may enclose two or more holdings by one ring fence.

That the term of residence of a conditional purchaser shall be calculated as commencing from the date of application.

That the sale of Crown Lands, other than town and suburban lots, be abolished.

That we urge the necessity of erecting, as soon as possible, a rabbit-proof fence from Narramine to the Murray, about Albury. If not done at once the country now uninfested will become valueless. That all motions passed by the late Conference be acted on at once and that all money collected on account of the rabbit tax be expended in the district in which it is collected on the destruction of the pest, such money to be dealt with by Local Boards.

That your Petitioners strongly favor the principles of the proposals of the Hon. P. G. King to erect a rabbit-proof fence, supplementary to the present barrier line, and that the said fence should be erected with as little delay as possible, the funds for same to be taken out of the amount raised on rabbit tax in the uninfested portion of the Colony, east of said supplementary line.

That all persons who make their holdings rabbit and dog proof shall be exempt from the rabbit and noxious animals tax, and in cases of Crown tenants shall be entitled to five years extension of lease.

Your Petitioners, therefore, humbly pray that your Honorable House will favorably consider the matters in the foregoing Petition, and make such amendments in the Land Act as will give the relief which your Petitioners seek.

And your Petitioners will ever pray.

[*Here follow* 233 *signatures.*]

1887–8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE LAND LAWS.

(PETITION FOR AMENDMENT OF—MERCHANTS, SHOPKEEPERS, &c., IN CITY OF SYDNEY.)

Received by the Legislative Assembly, 23 *February*, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned merchants, shopkeepers, and traders in the City of Sydney.

That your Petitioners are engaged in various businesses in the city, and employ a great number of assistants.

That during the last three years grievous depression has existed in all branches of their trade.

That from inquiries made, and from information obtained from our customers throughout the Colony, we are led to understand the principal cause of the continuous want of prosperity is due to—

(*a.*) Want of employment among the population.

(*b.*) Want of security for investors of capital in rural enterprises.

That a fine season has passed, another is passing, money is plentiful, yet our trade has not improved, men are not being employed, reductions in the number and wages of our assistants are still taking place, and it is commonly accepted that the main reason is, there is not sufficient security offered in any rural pursuit.

That the operation of the various Land Acts have largely tended to restrict and cripple permanent progress.

That as our best prosperity proceeds from the healthy activity and well-doing of our up-country population,—

Your Petitioners pray that your Honorable House will take the foregoing into consideration, and bring about the needful amendment in our Land Laws.

And your Petitioners, as in duty bound, will ever pray.

[*Here follow* **157** *signatures.*]

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THE LAND LAW.

(PETITION FROM CERTAIN RESIDENTS OF NEW ENGLAND.)

Received by the Legislative Assembly, 27 March, 1888.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned, Residents of New England,—

RESPECTFULLY SHOWETH:—

That the Minister for Lands in fixing, as he has done, the rents of Pastoral and Conditional Leases has assumed powers which were not intended to be conferred upon him by the Land Act of 1884.

That by ignoring the assessments of the Local Land Boards, based upon sworn evidence, and ruinously raising the rents, he has greatly depreciated the value of pastoral securities, affected injuriously all branches of trade, and is causing widespread distress among the labouring population of the Colony.

We therefore respectfully beg that your Honorable House will take such steps as shall remedy the grievance we complain of, and that in any future legislation the power of fixing Crown rents may be exercised only by a competent Court.

And your Petitioners, as in duty bound, will ever pray.

PROPOSED RESUMPTION OF RECREATION RESERVE AT SASSAFRAS GULLY, NEAR SPRINGWOOD, AND DEDICATION FOR PUBLIC RECREATION IN LIEU THEREOF.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the recreation reserve at Sassafras Gully, near Springwood, in the parish of Magdala, county of Cook, area 350 acres, dedicated on the 7th May, 1886, and hereunder described, with a view to the dedication in lieu thereof of 723 acres in the locality mentioned, also hereunder described, for public recreation.

[Ms. 87-8,037] THOS. GARRETT.

RECREATION RESERVE PROPOSED TO BE RESUMED.

County of Cook, parish of Magdala, area 350 acres: Commencing on the east boundary of portion 1, at the sout-west corner of portion 2; and bounded thence by part of the south boundary of the latter portion bearing east 2 chains 63 links to the north-west corner of portion 27; thence by the west boundary of that portion bearing south 29 chains 21 links, by its south boundary and part of the south boundary of portion 28 bearing east in all 22 chains 25 links to the north-west corner of portion 30; thence by the west boundary of that portion bearing south 20 chains and by part of its south boundary bearing east 5 chains 75 links to the north-west corner of portion 31; thence by part of the west boundary of that portion bearing south 12 chains 43 links to the north-east corner of portion 34; thence by the north boundary of that portion bearing west 13 chains 54 links and by part of its west boundary bearing south 18 chains 43½ links; thence by a line bearing west 67 chains 85 links to a point south of the south-east corner of portion 24; thence by a line and part of the east boundary of that portion bearing north in all 67 chains 16½ links to the south-west corner of portion 62; thence by the south boundary of that portion and its prolongation bearing east in all 22 chains 1 link to the west boundary of portion 26; thence by part of that boundary of that portion bearing south 8 chains 6 links, and by part of its south boundary bearing east 22 links, to the north-west corner of portion 36; thence by the west boundaries of portions 36 and 37 bearing south in all 43 chains; thence by the southern boundary of portion 37 bearing east 24 chains; thence by the eastern boundaries of portions 37 and 36 bearing north 43 chains; thence by part of the northern boundary of portion 36 bearing west 22 links to the south east corner of portion 26; thence by the eastern boundary of portion 26 and a line bearing north in all 17 chains 56 links to the southern boundary of portion 1 aforesaid; and thence by parts of the southern and eastern boundaries of that portion bearing east 4 chains 75 links and north 3 chains 41 links, to the point of commencement.

Shown on plan catalogued C 29-2,062.

RECREATION RESERVE PROPOSED TO BE DEDICATED.

County of Cook, parish of Magdala, area 723 acres: Commencing on the east boundary of portion 1, at the south-west corner of portion 2; and bounded thence by part of the south boundary of the latter portion bearing east 2 chains 63 links to the north-west corner of portion 27; thence by the west boundary of that portion bearing south 29 chains 21 links, and by its south boundary and part of the south boundary of portion 28 bearing east in all 22 chains 25 links to the north-west corner of portion 30; thence by the west boundary of that portion bearing south 20 chains, and by part of its south boundary bearing east 5 chains 75 links, to the north-west corner of portion 31; thence by part of the west boundary of that portion

portion bearing south 12 chains 43 links to the north-east corner of portion 34; thence by a north boundary of that portion bearing west 13 chains 54 links to its north-west corner; thence by a line partly forming the west boundary of that portion bearing south 88 chains 43 links; thence by a line bearing west 68 chains 41 links to a point 5 minutes south of the south-east corner of portion 24; thence by a line and part of the east boundary of that portion bearing north 5 minutes west in all 137 chains 51 links to the south-west corner of portion 62; thence by the south boundary of that portion and its prolongation bearing east in all 22 chains 1 link to the west boundary of portion 26; and thence by part of that boundary of that portion bearing south 8 chains 6 links, and by part of its south boundary bearing east 22 links, to the north-west corner of portion 36; thence by the west boundaries of portions 36 and 37 bearing south in all 43 chains; thence by the south boundary of the latter portion bearing east 24 chains; thence by the east boundaries of portions 37 and 36 aforesaid bearing north in all 43 chains to the north-east corner of the latter portion; thence by part of the north boundary of that portion bearing west 22 links to the south-east corner of portion 26 aforesaid; thence by the east boundary of that portion and its prolongation bearing north 17 chains 56 links in all to the south boundary of portion 1 aforesaid; thence by part of that boundary of that portion bearing east 4 chains 75 links; and thence by part of the east boundary of that portion bearing north 3 chains 41 links, to the point of commencement,—exclusive of portions 48 and 50 of 50 acres each, within the above described boundaries.

Shown on plan catalogued Ms. 1-sy in the Department of Lands.

Department of Lands, Sydney, 1 July, 1887.

PROPOSED RESUMPTION OF RECREATION RESERVE AT REEDY FLAT, AND REDEDICATION FOR RACECOURSE AND PUBLIC RECREATION.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the recreation reserve at Reedy Flat, in the parish of Batlow, county of Wynyard, area 84 acres 1 rood, dedicated on the 5th November, 1886, and hereunder described, with a view to the rededication of that area for racecourse and public recreation.

[Ms. 87-8,036.] THOS. GARRETT.

County of Wynyard, parish of Batlow, area 84¼ acres: Commencing on the southern side of a road from Reedy Flat to Gilmore Creek, at a point south of the south-west corner of portion 97 of 40 acres; and bounded thence on the west by a line bearing south 49 minutes west 24 chains 95 links to a point west of the north-west corner of portion 19 of 40 acres; on the south by a line bearing east, partly forming the north boundary of portion 19 aforesaid, 46 chains 81 links to the north-east corner of that portion; on the east by a line bearing north 8 chains 18 links to the southern side of the road from Reedy Flat to Gilmore Creek aforesaid; and thence by that road bearing north-westerly, south-westerly, and again north-westerly, to the point of commencement.

Plan catalogued W. 6-2,383, Surveyor General's Office.

Department of Lands, Sydney, 9 July, 1887.

PROPOSED RESUMPTION OF SHOW GROUND, RESERVE FOR ACCESS TO WATER, AND PUBLIC RECREATION, AND CRICKET GROUND AT ORANGE, AND DEDICATION IN LIEU FOR CRICKET GROUND AND SHOW GROUND.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the show ground, area 50 acres, the reserve for access to water and public recreation, area 7 acres 1 rood 24 perches, and the cricket ground, area 10 acres, in the town of Orange, dedicated on the 20th July, 1887, 8th June, 1875, and 3rd May, 1865, respectively, and hereunder described, with a view to the dedication of 8 acres for cricket ground, and 10 acres and 2 acres 3 roods 35 perches for show ground for the use of the Orange Pastoral and Agricultural Society.

[Ms. 87-8,554] THOS. GARRETT.

DESCRIPTIONS.

Show Ground proposed to be resumed.

County of Wellington, parish of Orange, area 50 acres. Within the following boundaries: Commencing at a point distant 1 chain 85 links west from the north-western corner of G. M'Kay's 13 acres 0 roods 20 perches; and bounded thence on the north by a road 1 chain wide and a line in all bearing west 33 chains 86 links; on the west by a line bearing south 26 chains 79 links; and on the south-east by a road 1 chain wide bearing north 72 degrees 30 minutes east 4 chains, north 59 degrees east 11 chains, north 65 degrees east 6 chains 80 links, north 29 degrees 30 minutes east 14 chains; and thence north 57 degrees 30 minutes east 9 chains, to the point of commencement,—but exclusive of the road 1 chain wide passing through this land in a southerly direction, the area of which has been deducted from the total area.

Areas of 2 acres 3 roods 35 perches and 10 acres respectively are proposed to be dedicated for show ground in exchange for the above.

Reserve for access to water and public recreation, proposed to be resumed.

Counties of Bathurst and Wellington, parish of Orange, town of Orange, area 7 acres 1 rood 24 perches, being the reserve on the south side of Moulder-street, between Anson-street and Lord's-place.

The above is included in an area of 8 acres, being section 48, which it is intended to dedicate for cricket ground in exchange for section 47, proposed to be resumed and rededicated for show ground.

Cricket

Cricket Ground, proposed to be resumed.

County of Bathurst, parish of Orange, town of Orange, area 10 acres, being section 47. Within the following boundaries: Commencing at the north-eastern corner of the section; and bounded thence on the east by Pieslie-street southerly 10 chains; on the south by a line westerly at right angles to Pieslie-street 10 chains; on the west by a line northerly parallel with Pieslie-street 10 chains to Moulder-street; and on the north by that street easterly, to the point of commencement.

An area of 8 acres, being section 48, is proposed to be dedicated for cricket ground in lieu of the above, which is also proposed to be rededicated for show ground in exchange for the area of 50 acres dedicated for show ground, 20th July, 1877, and proposed to be resumed.

Cricket Ground, proposed to be dedicated.

Counties of Bathurst and Wellington, parish of Orange, town of Orange, area 8 acres. Within the following boundaries: Commencing at the intersection of the south side of Moulder-street with the west side of Lord's-place; and bounded thence on the east by part of the west side of Lord's-place bearing south 8 chains 1 link to the north side of Torpy-street; on the south by part of the north side of Torpy-street bearing west 10 chains to the east side of Anson-street; on the west by part of the east side of Anson-street bearing north 8 chains 1 link to the south side of Moulder-street aforesaid; and on the north by part of that side of Moulder-street bearing east 10 chains to the point of commencement,—being section 48, as shown on plan catalogued 1, town of Orange, District Survey Office, Orange.

The above is in lieu of the area of 7 acres 1 rood 24 perches, dedicated for access to water and public recreation, on 8th June, 1875, and proposed to be resumed, and is in exchange for the area of 10 acres dedicated for cricket ground, 3rd May, 1865, also proposed to be resumed and rededicated for show ground.

Areas proposed to be dedicated for the use of the Orange Pastoral and Agricultural Society.

County of Bathurst, parish of Orange, town of Orange, area 10 acres, being section 47: Commencing at the north-east corner of the section; and bounded thence on the east by part of the west side of Pieslie-street bearing south 10 chains; on the south by a line bearing west 10 chains to the east side of Lord's-place; on the west by part of the east side of Lord's-place bearing north 10 chains to the south side of Moulder-street; and on the north by part of that side of Moulder-street bearing east 10 chains, to the point of commencement.

County of Bathurst, parish of Orange, town of Orange, area 2 acres 3 roods 35 perches. Within the following boundaries: Commencing at the intersection of the north side of Copper-place with the east side of Lord's-place; and bounded thence on the south by the north side of Copper-place bearing east 10 chains to the west side of Pieslie-street; on the east by part of the west side of Pieslie-street bearing north 2 chains 97 links to the south-east corner of section 47 of 10 acres; thence on the north by the south boundary of that section bearing west 10 chains to the east side of Lord's-place aforesaid; and thence on the west by part of the east side of Lord's-place bearing south 2 chains 97 links to the point of commencement.

Shown on plan registered L. B. D. 87–2,075, Orange District Survey Office, Orange.

The above are in exchange for the area of 50 acres dedicated 20th July, 1877, for show ground, and proposed to be resumed.

Department of Lands, Sydney, 20 August, 1887.

PROPOSED RESUMPTION OF PERMANENT COMMONS AT COONAMBLE.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Permanent Commons at Coonamble hereunder described, area 850 acres and 1,570 acres, dedicated on the 6th December, 1867, and 29th April, 1884, respectively, it being intended a permanent common in lieu thereof.

Ms. 87–9,800] THOS. GARRETT.

CENTRAL DIVISION—LAND DISTRICT OF COONAMBLE.

Description for Resumption of Permanent Common at Coonamble, dedicated 6th December, 1867.

County of Leichhardt, parish of Moorambilla, area 850 acres: Commencing on the right bank of the Castlereagh River, at a peg bearing north 9 degrees 30 minutes west 31 links from an apple-tree marked broad-arrow over TN.CN; and bounded on the west by the right bank of the Castlereagh River upwards to the intersection with a line running east and west, and passing through a point 1 mile due south of the starting point; thence on the south by that east and west line, bearing east 118 chains 94½ links; on the east by a line north 63 chains and 9 links to the left bank of Mogomodine or Coonamble Creek; thence by the left bank of that creek downwards to a point due east of the starting point, and on the north by a line west to that point

But exclusive of 2 acres resumed on the 24th November, 1881, for site for hospital, and shown on plan catalogued C. 14–1,749 Roll.

Plan catalogued C. 13–1,749, Survey Office.

Description for Resumption of Permanent Common, Coonamble, dedicated 29th April, 1884.

County of Leichhardt, parish of Warrena, area, 1,570 acres, exclusive of roads: Commencing on the right bank of the Coonamble Creek, at the south-west corner of William Frederick Buchanan's improvement purchase of 40 acres portion 2 (4); and bounded on the east by a line partly forming the west boundary of that portion bearing north 175 chains 7 links; on the north by a line bearing north 89 degrees 49 minutes west, 140 chains 57 links to the right bank of the Castlereagh River; and on the south-west by the right bank of the Castlereagh River upwards to the confluence of Coonamble Creek, and by the right bank of Coonamble Creek, upwards to the point of commencement,—shown on plan catalogued B. 90–1,834 Roll, Survey Office.

But exclusive of allotment 1, section 40, town of Coonamble, 2 roods 7 perches, alienated to J. M'Cubbin, shown on plan catalogued C. 3–1,749, Survey Office, Sydney.

Department

Department of Lands, Sydney, 3 September, 1887.

PROPOSED RESUMPTION OF PART OF PUBLIC GARDENS AT RANDWICK AND REDEDICATION AS AN ADDITION TO PUBLIC SCHOOL SITE.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the hereunder described portion of the Public Gardens at Randwick, dedicated on the 15th January, 1886, area 3 roods 5 perches, with a view to the rededication of that area as an addition to Public School site.

THOS. GARRETT.

DESCRIPTION.

County of Cumberland, parish of Alexandria, at Randwick, area 3 roods 5 perches: Commencing at a point on the western side of Avoca-street, being the eastern extremity of the southern side of Cowper-street; and bounded thence on the east by part of the western side of Avoca-street aforesaid bearing south 50 minutes west 1 chain 57½ links to the north-eastern corner of a Public School site; thence on the south by the northern boundary of that land, being a line bearing south 89 degrees 28 minutes west 5 chains to its north-west corner; thence on the west by a line bearing north 50 minutes east 1 chain 57½ links to the southern side of Cowper-street aforesaid; and thence on the north by part of the southern side of that street north 89 degrees 28 minutes east 5 chains, to the point of commencement,—being part of 4 acres 0 roods 37 perches dedicated to public gardens on 15th January, 1886.

Plan G. 494-2,030, Dep. of Lands. [Ms. 87-10,643]

Department of Lands, Sydney, 13 September, 1887.

PROPOSED RESUMPTION OF PUBLIC SCHOOL SITE AT ROSSNEATH.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Rossneath, area 2 acres, viz., portion No. 47, in the parish of Currandooly, county of Murray, dedicated on the 8th January, 1875, and hereunder described, the land being no longer required for the purpose for which it was dedicated.

[Ms. 87-11,617]

THOS. GARRETT.

DESCRIPTION.

County of Murray, parish of Currandooly, portion 47, area 2 acres: Commencing at a point distant 5 chains 52 links west; and thence 1 chain south from the south-eastern corner of portion 37 of 40 acres; and bounded thence on the north by a line bearing west 4 chains and 48 links; on the west by a line bearing south 4 chains and 48 links; on the south by a line bearing east 4 chains and 48 links; and on the east by a line bearing north 4 chains and 48 links, to the point of commencement.

CROWN LANDS.

(SETTING FORTH PROPOSED DEDICATION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. No. 18.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands, Sydney, 21 October, 1887.

PROPOSED RESUMPTION OF RECREATION RESERVE AT CAMDEN HAVEN AND REDEDICATION THEREOF FOR RACECOURSE AND PUBLIC RECREATION.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Camden Haven, area 100 acres, dedicated on the 12th August, 1887, for public recreation, and hereunder described, with a view to the rededication of that area for racecourse and public recreation.

THOS. GARRETT.

Description.

100 acres: County of Macquarie, parish of Camden Haven: Commencing at a point bearing south 69 degrees 18 minutes west, and distant 70 chains 73 links from a north-west corner of portion 32, being the west extremity of its north boundary, parish of Queen's Lake, Joseph Fagan's non-residential conditional purchase of 204 acres; and bounded thence on the north by a line bearing east 30 chains; on the east by a line bearing south 33 chains 34 links; on the south by a line bearing west 30 chains to the east side of a road 1 chain wide; and on the west by that side of that road bearing north 33 chains 34 links, to the point of commencement.

NOTE.—The above is in lieu of the notice in the *Government Gazette* of the 14th instant.

1887.

(THIRD SESSION.)

NEW SOUTH WALES.

CROWN LANDS ACT OF 1884.

(SETTING FORTH PROPOSED DEDICATION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. NO. 18.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands,
Sydney, 2nd December, 1887.

PROPOSED RESUMPTION OF SITE FOR MECHANICS' INSTITUTE AT QUIRINDI, RESERVATION THEREOF FOR PUBLIC SCHOOL PURPOSES, AND DEDICATION OF SITE FOR SCHOOL OF ARTS IN LIEU.

IT is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the site for Mechanics' Institute at Quirindi, area 1 rood 35 perches, viz., allotment 15 of section 19, dedicated on the 16th January, 1883, and hereunder described, with a view to the reservation thereof for Public School purposes, and the dedication of allotment 6 of section 19, area 2 roods, as a site for School of Arts in lieu.

[Ms. 87-12,737] THOS. GARRETT.

DESCRIPTIONS.

Site for Mechanics' Institute, proposed to be resumed.

County of Buckland, parish of Quirindi, town of Quirindi, allotment 15 of section 19, area 1 rood 35 perches: Commencing on the eastern side of Hill-street, at the south-western corner of allotment 14; and bounded thence on the west by that street southerly 1 chain; on the south by the northern boundary-line of allotment 16 easterly at right angles to Hill-street 4 chains and 70 links to a lane; on the east by that lane northerly parallel with Hill-street 1 chain; and on the north by the southern boundary-line of allotment 14 aforesaid westerly at right angles to Hill-street 4 chains and 70 links, to the point of commencement.

EASTERN DIVISION.

LAND DISTRICT OF MURRURUNDI.

Proposed reserve for Public School purposes.

County of Buckland, parish of Quirindi, town of Quirindi, containing an area of 1 rood 35 perches. The Crown Lands within the following boundaries: Commencing on the east side of Hill-street, at the south-west corner of allotment 14; and bounded thence on the west by that side of Hill-street bearing south to the north-west corner of allotment 16; thence on the south by the north boundary of that allotment bearing east 4 chains 71½ links to the west side of a lane 30 links wide; thence on the east by part of that side of the lane bearing north to the south-east corner of allotment 14 aforesaid; and thence on the north by the south boundary of that allotment bearing west 4 chains 71½ links, to the point of commencement,—to include allotment 15 of section 19.

Site for School of Arts, proposed to be dedicated.

County of Buckland, parish of Quirindi, town of Quirindi, allotment 6, section 19, area 2 roods: Commencing on the west side of George-street, at a point situated 3 chains south of the south side of Henry-street; and bounded thence on the east by part of the aforesaid west side of George-street bearing south 1 chain to the north-east corner of allotment 5; on the south by the north boundary of that allotment bearing west 5 chains; on the west by part of the east side of a lane 30 links wide bearing north 1 chain to the south-west corner of allotment 7; and on the north by the south boundary of that allotment bearing east 5 chains, to the point of commencement.

Department of Lands,
Sydney, 2nd December, 1887.

PROPOSED RESUMPTION OF PERMANENT COMMON AT FORBES.

IT is hereby notified for public information that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Permanent Common at Forbes, area 958 acres, dedicated on the 6th December, 1867, and hereunder described, it being intended to dedicate another area in lieu thereof for the same purpose.

[Ms. 87-13,727] THOS. GARRETT.

DESCRIPTION.

County of Ashburnham, parish of Forbes; area 958 acres: Commencing at the intersection of the west side of Farnell-street with the north side of Abbott-street, being the north-west corner of the town lands at Forbes, proclaimed 20th March, 1885; and bounded thence on the south by a line partly forming the north boundary of those lands bearing east 120 chains; on the east by a line bearing north 81 chains; on the north by a line bearing west 120 chains; and on the west by a line bearing south 81 chains, to the point of commencement,—but exclusive of road and portion 790 of 2 acres alienated to G. Chisholm.

Plan A. 374-1,770, Surveyor General's Office.

Department of Lands,
Sydney, 2nd December, 1887.

PROPOSED RESUMPTION OF GENERAL CEMETERY AT MERRIWA, AND DEDICATION FOR SAME PURPOSE IN LIEU THEREOF.

IT is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the General Cemetery at Merriwa, area 8 acres, dedicated on the 31st December, 1849, and hereunder described, with a view to the dedication in lieu thereof of 15 acres 3 roods 39 perches, also hereunder described, as a site for General Cemetery.

[Ms. 87-13,409] THOS. GARRETT.

DESCRIPTIONS.

General Cemetery, proposed to be resumed.

County of Brisbane, parish of Merriwa, 8 acres: Commencing at a point bearing south 80 chains from the south-east corner of the suburban lands, village of Merriwa, notified 20th March, 1885; and bounded thence on the north by a line bearing west 16 chains; on the west by a line bearing south 5 chains; on the south by a line bearing east 16 chains; and on the east by a line bearing north 5 chains, to the point of commencement.

General Cemetery, proposed to be dedicated.

County of Brisbane, parish of Merriwa, 15 acres 3 roods 39 perches: Commencing on the east side of a road 1 chain wide, at a point bearing south 7 degrees 42 minutes east and distant 7 chains 46 links from the north-east corner of portion 79 of 98 acres 3 roods, being a site for a racecourse; and bounded thence on the west by that side of that road and a line bearing north 13 chains; on the north by a line bearing east 9 chains 40 links to the south-western side of a road 1 chain wide from Merriwa to Gungal, via the Flags; on the north-east by part of that side of that road bearing south 61 degrees 56 minutes east 3 chains 49 links; on the east by a line bearing south 11 chains 35 links; and on the south by a line bearing west 12 chains 50 links, to the point of commencement.

NEW SOUTH WALES.

CROWN LANDS.

(SETTING FORTH THE RESUMPTION OF CERTAIN LANDS, UNDER ACT 44 VIC. No. 16.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) CARRINGTON, *Governor.*

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the establishment of a Public Park at Kiama, in the said Colony, and for the acquisition thereof public funds are lawfully available: Now I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification published in the Gazette, and in a certain newspaper, that is to say, in the *Kiama Independent*, circulated in the Police District wherein the said land is situated, declare that the land hereinafter described has been resumed and appropriated for the public purpose hereinafter mentioned, that is to say, for and in connection with the establishment of a Public Park, to the intent that, upon the publication of this notification in the *Guzette*, the legal estate in the said land shall forthwith be vested in the Minister for Public Works and his successors, on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estate, interest, contracts, charges, rights-of-way, or other easements whatsoever; and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee, with the powers stated in the said last-mentioned Act: And I declare that the following is the description of the land hereinbefore referred to, that is to say:—

Metropolitan Land District, county of Camden, parish of Kiama, Borough of Kiama, area 2 roods 24½ perches: Commencing at the intersection of the north-west side of Bourrool-street with the north-east side of Bong Bong-street; and bounded thence on the south-west by that side of the latter street bearing 297 degrees 0 minutes 197 links; thence on part of the north-west by a line bearing 27 degrees 0 minutes 200 links; thence on part of the north-east by a line bearing 117 degrees 0 minutes 112 links; thence again on part of the north-west by a line bearing 27 degrees 0 minutes 300·5 links; thence again on part of the north-east by a line bearing 117 degrees 0 minutes 83·5 links; thence on the remainder of the north-west by a line bearing 27 degrees 0 minutes 300 links to the south-west side of Terralong-street; thence on the remainder of the north-east by that side of that street bearing 133 degrees 42 minutes 1·6 links to the north-west side of Bourrool-street aforesaid; and thence on the south-east by that side of that street bearing 207 degrees 0 minutes 800 links, to the point of commencement.

Area 3 roods 37½ perches: Commencing at the intersection of the south-west side of Bong Bong-street, with the north-west side of Bourrool-street; and bounded thence on the south-east by that side of the latter street bearing 207 degrees 0 minutes 500 links to the north-east boundary of a reserve for public recreation numbered 131; thence on the south-west by part of that boundary of that reserve bearing 297 degrees 0 minutes 197 links; thence on the north-west by a line bearing 27 degrees 0 minutes 500 links to the south-west side of Bong Bong-street aforesaid; and thence on the north-east by that side of that street bearing 117 degrees 0 minutes 197 links, to the point of commencement.

NOTE.—All bearings are taken from magnetic north.

[Ms. 88–698; P. 88–28]

Given under my Hand and Seal, at Government House, Sydney, this twenty-first day of February, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,

J. F. BURNS.

GOD SAVE THE QUEEN!

PROPOSED RESUMPTION OF EXTENSION TO NARRABRI RACECOURSE, AND DEDICATION FOR THE SAME PURPOSE IN LIEU THEREOF.

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Narrabri, area 9 acres 2 roods 20 perches, dedicated on the 13th April, 1888, for extension to Racecourse, and hereunder described, with a view to the dedication of an area of 8 acres 3 roods 22 perches, also hereunder described, for the same purpose in lieu thereof.

[Ms. 88-8,374] HENRY PARKES.

Descriptions.

Extension to Narrabri Racecourse, proposed to be resumed.

County of Nandewar, parish of Narrabri, within the suburban lands at Narrabri, area 9 acres 2 roods 20 perches: Commencing on the south-west boundary of the site for racecourse at Narrabri, dedicated 5th October, 1866, portion 149 of 104 acres, at its intersection with the north-easterly prolongation of the south-east side of Bowen-street; and bounded thence on the south-east by that prolongation bearing south 55 degrees 43 minutes west 331 links to the north-eastern side of a road 150 links wide; thence on the south-west by that side of that road bearing north 34 degrees 25 minutes west 2,914 links to the south-eastern side of a road 100 links wide; thence on the north-west by that side of that road bearing north 55 degrees 35 minutes east 331 links to the westernmost corner of the site for racecourse aforesaid; and on the north-east by part of the south-west boundary of that site bearing south 34 degrees 25 minutes east 2,915 links, to the point of commencement.

Extension to Narrabri Racecourse, proposed to be dedicated.

County of Nandewar, parish of Narrabri, within the suburban lands at Narrabri, area 8 acres 3 roods 22 perches: Commencing on the south-eastern side of a road 1 chain wide at the western corner of portion 149 of 104 acres, site for Narrabri Racecourse, dedicated 5th October, 1866; thence bounded on the north-east by part of a south-western boundary of that portion bearing south 34 degrees 25 minutes east 29 chains 15 links to a northern corner of suburban portion 307 of 22 acres 3 roods 36 perches; thence on the south-east by a north-western boundary of that portion, being also the north-easterly prolongation of the south-eastern side of Bowen-street, bearing south 55 degrees 43 minutes west 3 chains 31 links to the north-eastern side of a road 150 links wide; thence on the south-west by part of that side of that road bearing north 34 degrees 25 minutes west 24 chains $57\frac{8}{10}$ links to its intersection with the north-easterly prolongation of the north-western side of Doyle-street; thence on the west by a line bearing north 1 degree 30 minutes east 5 chains 64 links to the western corner of portion 149 afore-mentioned, being the point of commencement.

Department of Lands,
Sydney, 13th July, 1888.

PROPOSED RESUMPTION AND RE-DEDICATION OF PUBLIC SCHOOL SITE AT SOUTH CASINO.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to resume and re-dedicate the Public School site at South Casino, viz., portion No. 54, in the parish of East Casino, county of Richmond, dedicated on the 17th June, 1873, and hereunder described, an amended survey of the land in question having been effected.

[Ms. 88-8,061] THOS. GARRETT.

Descriptions.

Public School Site, proposed to be Resumed.

2 acres. County of Richmond, parish of East Casino, portion 54: Commencing at a point 11 chains westerly and 1 chain 50 links southerly from the south-eastern corner of portion 15 of 112 acres; and bounded thence on the north by a road 1 chain 50 links wide, dividing it from part of that portion, bearing west 4 chains; on the west by a line bearing south 5 chains; on the south by a line bearing east 4 chains; and on the east by a line bearing north 5 chains, to the point of commencement.

Plan P. 182–1,978.

Public School Site, proposed to be Dedicated.

2 acres 0 roods 36 perches. County of Richmond, parish of East Casino, at South Casino, portion 54: Commencing on the southern side of the road 1 chain 50 links wide from Casino to Coraki, at the north-western corner of portion 82 of 1 acre, appropriated for an addition to the site for a Public School, being a point distant 10 chains west; and thence 1 chain 50 links south from the south-eastern corner of portion 15 of 112 acres; and bounded thence on the north by that road, dividing it from part of the latter portion, bearing west 4 chains; on the west by a road 1 chain wide, dividing it from part of portion 58 of 50 acres 1 rood 38 perches bearing south 4 chains east 86 links, and thence south 2 chains; on the south by part of a northern boundary of portion 59 of 50 acres bearing east 3 chains and 14 links; and on the east by the western boundary of portion 82 aforesaid bearing north 6 chains, to the point of commencement.

Plan P. 1,633–1,978.

FOREST BRANCH, DEPARTMENT OF MINES.

(ANNUAL REPORT.)

Printed in accordance with Resolutions of both Houses of Parliament.

To the Honorable Francis Abigail, Esq., M.P., Minister for Mines, &c., &c.

Sir,

I have the honor to submit herewith the reports furnished by the Inspector of Forests and the Chief Clerk, respectively, for the year 1886; and in doing so I have to apologize for the delay in forwarding them, due to the fact that the time of the Inspector of Forests has been solely occupied in preparing exhibits and catalogue of exhibits for the Adelaide Jubilee Exhibition, and in attending to the several plantations, and the establishment of a State Forest Nursery, that he was unable to complete his report till the 20th instant.

From the Inpector's report it will be seen that the plantations contain a large number of catalpa, walnut, red cedar, camphor laurel, Tasmanian blue gum, silky oak, &c., and wattle trees—these (wattle trees) will be ready for stripping in about two years; that 12,682 cedar trees have been transplanted, and a large number of plants have been raised from cedar seeds. A State Forest Nursery is being prepared at Gosford, where useful and rare species of indigenous and foreign timber trees will be raised for distribution.

Instructions have been issued for collecting plants, seeds, and specimens. The compilation of the work on the Forest Flora of this Colony has been delayed by the pressure of work, which retarded the preparation of the Inspector's report.

A large number of indigenous timbers, collected by the Forest Rangers, have been supplied to Professor Warren, of the Sydney University, who has conducted a series of exhaustive experiments with a view to test the strength, by direct compression, tensile resistance, and resistance to shearing, of some of our most useful timbers. The result of Professor Warren's labours, as set out in the annexed report and diagrams, will no doubt prove of great value to engineers, architects, &c., beside making known the value for various purposes of the timbers tested.

The work of the Chief Clerk, and the Officers under him, has been largely increased during the year by the transfer of the clerical work connected with Public Parks, and also by the work under the Prickly-pear Act.

I am much indebted to the Inspector of Forests and the Chief Clerk for their valuable and ready assistance in conducting the work of this branch, the more so as I am conscious that, so far as the head office is concerned, the branch is somewhat undermanned; but in view of the necessity for retrenchment in the Service I have not felt justified in recommending any increase of staff, and, indeed, I have, when practicable, refrained from recommending the filling up of vacancies.

I have, &c.,
HARRIE WOOD,
Under Secretary for Mines.

Department of Mines,
30 September, 1887.

132—A

The Strength and Elasticity of New South Wales Timbers of Commercial Value: by W. H. Warren, Whitworth Scholar; Member of the Institution of Civil Engineers, London; Professor of Engineering at the University of Sydney.

The following report on the timbers of New South Wales of commercial value has been written to accompany the timber exhibits in the New South Wales Courts at the Adelaide Jubilee Exhibition and the Melbourne Centennial Exhibition.

In consequence of the necessity of publishing the report during the former Exhibition, the author has confined himself to merely recording the results of the testing.

The experiments have all been made in the Engineering Laboratory of the University of Sydney by the author, with the assistance of Mr. E. C. Wood, B. Eng., M.A. B. Sc., Sydney, and Mr. Norman Fitz, Mr. Henry Harvey Dare, and Mr. James Vicars, Undergraduates in Engineering in the University of Sydney.

Although timber is being superseded in permanent works of construction by the use of iron and steel, there are many cases in which these materials are entirely unsuitable, and where timber is the only material which will answer the purpose. Moreover, where either material may be used timber is generally the cheaper of the two. It appears, therefore, that timber will always be used to a considerable extent in works of construction. Timber in yielding gives more warning than iron, so that an accident can generally be foreseen and prevented. The chief objections to the use of timber in this Colony are its liability to decay from dry rot, and to the attacks of the white ant. Where timber is used in marine works it is liable to the attacks of the teredo. The durability of timber depends to a large extent upon the time when the tree was felled. If a tree be cut down when in full sap it is very probable that in twelve months time dry rot will be found to exist in it. In the Wagga Wagga timber viaduct, for instance, which was thoroughly inspected by the Railway Bridges Inquiry Commission, it appeared that owing to the difficulty of obtaining ironbark timber for the whole structure in the short space of time allowed for its erection, other kinds of timber were used for the piers, such as stringybark, ash, messmate, box, spotted and white gum, of which a large proportion had to be cut down when the sap was up instead of during the winter months. In consequence of this, dry rot soon appeared in many of the piles, and this decay, together with the cavity or pipe in some of them, reduced considerably their sectional area. Timber in this Colony is cut all the year round, consequently, there is considerable uncertainty in the time which a timber structure may be supposed to last. The experiments described in the following pages have been in progress for the last fifteen months in the author's laboratory at the University of Sydney, but they have been published in their present form at the request of the Royal Commissions for the New South Wales Court of the Adelaide and Melbourne Exhibitions.

SCHEDULE of Timber sent by Mr. H. Wood, Under Secretary for the Department of Mines.

*Those marked with O, additional, felled some years ago. † From an old tree decayed at heart 12 inches pipe. Fifteen specimens, as per size, from the same tree. ‡ An old tree, 6 inches pipe. Fifteen specimens from the same tree. § An old tree, 9 inches pipe. Fifteen specimens from the same tree. ‖ Fairly matured tree, sound, no pipe. Fifteen specimens from same tree. One of these specimens, 5 x 3, is under the size given, there being no suitable timber left to make the third, 6 x 4, required. The timber having lain in the mill yard exposed since January will account for the numerous sun cracks. ¶ Fully matured tree, 4 inches pipe.

NOTE.—The natural growth and blending of the annual rings into each other renders it impossible to arrive at a correct estimate of the number on a rough surface, although this may be done on a polished surface.

In order that the results of the testing should be as valuable as possible for the purposes of comparison, the author decided that the following numbers and sizes of specimens should be used for each kind of timber tested:—

Tension—	2	pieces,	3′	0″	long	x	2¼″	x 2¼″
Compression—	2	,,	6′	0″	,,	x	3″	x 3″
	2	,,	4′	0″	,,	x	3″	x 3″
	2	,,	2′	0″	,,	x	3″	x 3″
	2	,,	1′	0″	,,	x	3″	x 3″
Cross breaking—	3	,,	4′	6″	,,	x	6″	x 4″
Shearing—	2	,,	3′	0″	,,	x	2¼″	x 2¼″

for cutting up into blocks 6″ long, for testing along and at right angles to the grain.

A letter was written by the author to the Hon. F. Abigail, Secretary for Mines, requesting that the officers of the Mines Department be instructed to arrange for the collection and naming of specimens of New South Wales timbers, in accordance with the foregoing list of particulars. The request was complied with, and the Schedule of particulars given in the preceding table was supplied by Mr. H. Wood, the Under Secretary for Mines.

The specimens of timber collected by the Department of Mines were sent to the Government Works, Redfern, where they were prepared for testing.

The specimens intended for testing in tension were turned in a lathe to the sizes shown in the detail of the tension appliances on plate 1.

The specimens for testing in compression were planed square on the four sides and ends. The specimens for testing as beams were planed square on the four sides only. The blocks for shearing along and at right angles to the grain were prepared in the University, and fitted into the special apparatus devised for testing them, which is shown on plate 1. The experiments were made in the engineering laboratory at the University of Sydney, by means of the testing machine, which is fully illustrated on plate 1, together with the various appliances for holding the specimens during the test.

An autographic stress-strain apparatus was devised and used for recording the results of the tests in compression and cross-breaking, but was not used in tension.

Description of the Autographic Stress-strain Apparatus used in testing timber.

The apparatus used in drawing stress-strain diagrams is illustrated on plate 2, and consists of a frame, R, which is rectangular in plan, and which is attached to the cross-head of the testing machine in the manner shown on the drawing. There are two steel axes fixed to the end plates of frame by means of locknuts. One axis carries a brass drum 12 inches long x 5 inches in diameter; the other axis carries a pulley, D, fixed upon or cast with a brass pipe, E. A spiral grove is cut upon the pipe, E, ¼ of an inch pitch; and there is also a spiral grove cut upon the drum, F, which is 2 inches pitch. The two spirals are connected by means of a piece of strong catgut, so that for ten revolutions of the spiral, E, the drum makes one revolution. The pulley, D, is made to revolve by means of a steel pianoforte-wire attached to the rider from which the poise weight is suspended, and is led round a guide pulley, C, and makes a complete revolution round a pully, D, passing upwards over guide pulleys fixed to ceiling, and terminating in a weight of 14 lb. There is a strong clock spring inside the drum, so fixed that the revolution of the drum produced by winding the poise weight along the steel-yard is made to coil up the spring, and by winding the poise weights in the reverse direction the spring uncoils and brings back the drum to its original position. Thus the drum is made to revolve through an angle which is proportional to the distance to which the poise weight has been wound, and therefore proportional to the load on the specimen.

The deflection or compression, as the case may be, is transmitted and recorded upon the revolving drum in the following manner:—A steel rod, H, square for a portion of its length, slides freely in bearings provided in the end plates of frames, and also at the extremity of an overhanging bracket; the rod carries a slotted link in which slides a small roller which is pressed against the sides of the link by the movement of a lever, N. There is also a weighted pencil which can be adjusted and fixed to any portion of the square rod between the end plates of frame. The lever, N, is provided with knife edges which are pressed by the forked end of the screwed rod, S, as the specimen yields. The rod, S, slides or is fixed in a bearing which is attached to the test specimen in the manner shown on the drawing for cross-breaking.

In the compression tests the screwed rod, S, is attached by means of a union screw to a steel rod which is connected at its other end with the fixed compression block of the testing machine. The lengths of the rods are arranged according to the length of the specimen tested. Both in cross-breaking or compression the yielding of the specimen is transmitted to the knife edges of the lever, N, as a simple harmonic motion which is reproduced multiplied ten times on the sliding rod, H, carrying the pencil, M, in the manner already referred to.

A piece of sectional paper is wrapped round the drum and clipped, upon which the diagram or diagrams are drawn in the following manner:—The pencil is adjusted to the datum point on the paper by means of the adjusting screw, T, and the adjustable connection of the steel wire with poise weight. The force pump is then worked until the load upon the specimens is sufficient to raise the steel-yard and the poise weight suspended from it, which causes the specimen to yield and the pencil to draw a line parallel with the axis of the drum. The pumping is continued and the poise weight wound along the steel-yard keeping it floating in a horizontal position, and balancing the load upon the specimen.

A diagram similar to those shown on plates is thus drawn, the ordinate of which shows the deflection or compression, and the abscissa the load producing it. The diagram starts with a deflection produced by 2,500 lb. in the transverse tests, and at 10,000lb. in the compression tests. The diagram is completed after the paper is taken off the drum, so that it reads from zero both for load and deflection. The effect of the tension on the wire on the poise weight of steel-yard is eliminated by means of guide pulleys, which are so arranged that the moment of the tension on the wire about the fulcrum of the steel-yard is always zero.

The autographic stress-strain apparatus above described was designed by Mr. J. A. M'Donald, A.M.I.C.E., and M.I.M.E., and the author. It was made in the author's laboratory.

Transverse

Transverse strength and elasticity.

The transverse strength and elasticity were determined in the following manner:—

The beam was fixed in the machine and connected with the autographic stress-strain apparatus in the manner shown in plate 1. The supports were 48 inches apart, and the load was applied in the centre. The apparatus was first carefully adjusted so that the slightest yielding of the specimen was accurately marked by the pencil on the sectional paper covering the drum, and the beam was first fixed by means of the hand-wheel and screw, which generally produced a slight deflection, which was recorded by the pencil moving in a straight line.

The hand-pump was then worked until the load on the specimen was sufficient to raise the steel-yard with 250 lb. resting on the figure 10, which showed that the load on the specimen was 2,500 lb.; the pencil still moving in a straight line parallel to the axis of the drum records the multiplied deflection due to the load. The load is then increased by pumping and balanced by the poise weight in the manner before referred to, and the diagram thus drawn shows the behaviour of the specimen from 2,500 lb. to the breaking load. The remainder of the diagram is completed in the manner before described. The yielding of the specimen, however, causes a slight rotation of the drum, independently of the winding of the poise weight, which, at the breaking load, would have caused considerable error only this point is read off the steel-yard and recorded independently of the diagram. The deflection of the specimen within the point where the deflection ceases to be proportional to the load producing it is accurately determined by writing on the diagram the loads called out by the assistant minding the poise weight; but in all these experiments the velocity ratio of the apparatus was so adjusted that the loads and corresponding deflections within the limit of elasticity were recorded on the diagram for average specimens, and the difference between this average and the maximum or minimum deflection did not produce an error exceeding 20 lb. over or under the true load. The modulus of elasticity was always calculated from the load and corresponding deflection within one-third of the breaking weight, so that an error of 20 lb. in recording the load would not produce any appreciable error in the modulus. There is no difficulty in eliminating this error, but it was not considered necessary under the circumstances.

The modulus of rupture is calculated from the formula—

$$f = \frac{3\,W l}{2b\,d^2}$$

Where W = Breaking loads in lb.
l = Span in inches.
b = Breadth in inches, and
d = Depth in inches.

The modulus of elasticity is calculated from the formula—

$$E = \frac{W l^3}{4 v b\,d^3}$$

Where W = Breaking load.
l = Span in inches.
v = Deflection in inches.
b = Breadth in inches.
d = Depth in inches.

l, b, d are measured accurately before the experiment.
W and v are each taken from the diagram.

The results of the experiments on transverse strength and stiffness are recorded in tables I and II and plates 3, 4, 5, 6, 7.

Compressive strength and elasticity.

The experiments on the compressive strength and elasticity were made on specimens of the following dimensions:—

$$\left.\begin{matrix} 1'\ 0'' \\ 2'\ 0'' \\ 4'\ 0'' \\ 6'\ 0'' \end{matrix}\right\} \times 3'' \times 3''.$$

The diagram-drawing apparatus was connected in the manner shown on plate 1, and the length of the rod was varied with the length of the specimen tested. The diagram of load and corresponding compression was drawn in a similar manner to that described for the specimens tested transversely, the errors, however, which were referred to are much smaller and may be entirely neglected.

The breaking load is read off the steel-yard, which is divided by the sectional area of the specimen, in order to find the load per square inch.

The modulus of elasticity is calculated from the formula—

$$E = \frac{W L}{K l}$$

Where W = Load producing compression l.
L = Length of specimen.
K = Sectional area.

If the curve of compression (as drawn by the autographic stress-strain apparatus) is a straight line, the modulus is calculated from W and l measured off the diagram anywhere in this straight line; if the curve is irregular, the modulus is calculated for W and l at about $\frac{1}{4}$ the breaking load. L is measured before the experiment at the same time as b and d, from which k is calculated thus, $K = b\,d$.

The results of experiments on compressive strength and stiffness are recorded in tables III, IV, V, VI, VII, and plates 8, 9, 10, 11, 12, 13, 14, 15.

Tensile

Tensile strength and elasticity.

The tensile strengths and elasticities were determined by fixing the turned specimens in the machine in the manner illustrated on plate 1. The autographic apparatus was not used for these tests, but the extensions were marked with steel trammels 10 inches long, and read off with a steel rule divided into hundredths with the aid of a glass.

The diameters of the specimens were carefully measured with vernier callipers.

The breaking load divided by the area in square inches gives the tensile strength per square inch.

The modulus of tensile elasticity was calculated from the formula—

$$E = \frac{W L}{K l}$$

W and l were taken within $\frac{1}{4}$ of the breaking weight.

The results obtained for tensile elasticity, and recorded in table VIII, are given as rough approximation, as the method adopted for measuring the elongations can hardly be considered accurate enough for determining the modulus.

Shearing strength.

The shearing strength of the various timbers along the grain was determined by cutting specimens of about 6 inches x 4 inches x 2 inches, and fitting them into the apparatus illustrated on plate 1. The results of the experiments are recorded in table IX. With regard to the shearing resistance of timber in a plane at right angles to the lengths of the fibres, the author experimented with a number of specimens, and found that in every case the fracture took place with the grain. It can be proved that wherever there is a tendency to shear in a certain plane, there is an equal tendency to shear in a plane at right angles to it. Hence, in the specimens of timber, although the apparatus was arranged to develop shearing stress in a plane at right angles to the direction of the fibres, there was at the same time developed an equal shearing stress in the plane of the fibres, and since the resistance of the fibres to shear with the grain is less than across the grain, it follows that it is impossible for the timber to shear in any other way than along the grain.

Weight of timber per cubic foot.

The weights of the various timbers per cubic foot were ascertained by weighing each set of three specimens of the timber before testing them for transverse strength, and dividing this weight by the numbers of cubic feet contained in the three pieces.

In this way the column in table has been obtained. The specific gravities of five kinds of timber were determined by Mr. A. Helms, M.A., Ph.D. (Berlin), demonstrator in chemistry at the University of Sydney, in the following manner:—The specimens were prepared as 1-inch cubes, and were kept five days in open air at a temperature of from 15 to 19 degrees C; they were then dried three hours in a water bath at a temperature of 96 degrees C, varnished and dried one hour in a water bath, and kept again three days in the open air at from 15 degrees to 19 degrees C. The specific gravity was taken in each case at a temperature of 17 degrees C. The results are given in the following table:—

Name of Timber.	Weight in air.	Weight in water.	Difference.	Specific gravity.
Grey ironbark	20·0610	3·0714	16·9896	1·1807
Red ironbark	20·0510	2·6620	17·3890	1·1531
Spotted gum	15·1715	1·6790	16·8505	0·9003
Blackbutt	16·0265	0·1410	16·1675	0·9912
Woolybutt	15·7605	0·5200	16·2805	0·9680

The weights per cubic foot have been deduced from the results given in the above, and compared with the results obtained by direct weighing and measuring in the following table:—

Name of Timber.	Weight per cubic foot, deduced from experiments made by Dr. Helms, in lb.	Weight per cubic foot, obtained by direct measuring and weighing, in lb.
Grey ironbark	73·79375	73·854
Red ironbark	72·06870	76·522
Spotted gum	56·2687	62·195
Blackbutt	61·9500	65·539
Woolybutt	60·5000	63·895

Both Dr. Helms and the author consider that the results obtained by direct weighing and measuring are at least as satisfactory as those obtained from the specific gravities, as the want of delicacy in the former method is compensated for by the fact that a better average of the timber is obtained from the large scantlings than from the 1-inch cubical specimens; and it was therefore not considered necessary to find the specific gravity of the remaining specimens. The results are recorded in the summary of tests.

SUMMARY of the Results of Testing New South Wales Timbers, giving the average values for each kind of Timber.

Local Name.	Number and Letter.	Weight per cubic foot in lb.	Tension Tests.		Compression Tests.								Bending Tests.		Shearing Tests.
					Ratio of length of Column to smallest dimensions.										
					24 to 1		16 to 1		8 to 1		4 to 1				
			Breaking stress in lb. per square inch.	Modulus of elasticity in lb. per square in.	Breaking stress in lb. per square in.	Modulus of elasticity in lb. per square in.	Breaking stress in lb. per square in.	Modulus of elasticity in lb. per square in.	Breaking stress in lb. per square in.	Modulus of elasticity in lb. per square in.	Breaking stress in lb. per square in.	Modulus of elasticity in lb. per square in.	Modulus of rupture in lb. per square in.	Modulus of elasticity in lb. per square in.	Breaking stress in lb. per square inch along the grain.

PHOTO LITHOGRAPHED AT THE GOVT. PRINTING OFFICE
SYDNEY, NEW SOUTH WALES.

Report from the Chief Clerk, Forest Conservancy Branch, to The Under Secretary for Mines.

Sir, Forest Conservancy Branch, Sydney, 31 March, 1887.

I have the honor to forward a report and schedules showing the general work performed by the Forest Branch during the year 1886.

The Staff.

Schedule A shows the number of officers and others employed. Schedule B is a detailed list of Forest Rangers, with the names of their stations and the Land District within which they exercise supervision.

The amount of work has been largely increased during the year, the clerical work connected with public parks and recreation reserves, including payment of subsidies, resumption of land, and proclamations under the Public Parks Act, having been performed by this Branch since October last, and also through the operation of the Prickly-pear Destruction Act of 1886; but it will be observed there has been no increase of Office Staff. This has rendered it somewhat difficult to keep the work from getting into arrear.

Revenue and Expenditure.

The following schedules are supplied:—

C. Revenue for the year 1886.
D. Expenditure for the year 1886.
E. Details of revenue from specified reserves.
F. Comparative statement of revenue and expenditure for each year from 1878 to 1886.
G. Prosecutions by Forest Rangers for illegally cutting timber; penalties inflicted.

The revenue shows an increase of £742. This is not a large one, but many of the causes affecting the timber trade referred to in my report for 1885 still exist.

The cost of a large proportion of the work which it is found convenient should be performed by this Branch cannot properly be considered as a charge against the timber revenue.

Reserves and Timber.

The following schedules are appended:—

H. Summary of number and area of timber reserves.
J. Distribution of timber reserves amongst Forest Rangers for purposes of supervision.
K. Details of area and particulars of timber on reserves notified during the year.
L. Reserves cancelled wholly or in part.
M. Classification of timber reserves.
N. Lands, other than timber reserves, exempted from operation of wood-cutters' or cedar licenses or permits.

The reserves for preservation of timber supply number 862, the aggregate area being estimated at 5,460,125 acres, a decrease of 215,825 acres. An additional area of 326,599 acres has been recommended for cancellation after report by officers of the Branch.

On reserves subject to royalty the quantity of timber cut amounted to 8,021,266 superficial feet, besides 1,900 trees for piles, &c., the fees paid being £5,464, showing a large increase over 1885, though not equal to the figures for 1884.

Very large quantities of timber are imported, the value having increased from £57,272 in 1875 to £517,723 in 1885; much of it comes from Washington Territory, United States, where there appears to be enormous supplies. It is said that many tracts exist that have 100,000,000 feet of board measure of timber per square mile, worth, when cut into lumber, about £300,000. This timber is more easily worked than our hardwoods, and for that reason often preferred, though it is not so durable. As usual, where the supply appears almost unlimited, the destruction of these magnificent woods by fire and wasteful cutting is, it is reported, enormous.

The value of the timber exported was £69,278 for 1875, and £65,539 for 1885. The quantity, however, was largely increased, 7,068,773 feet, in 1875, being valued at £50,217; while 10,919,718 feet, in 1885, were valued at only £57,537.

Plantations.

Cedar-planting has been continued on the Dorrigo Forest Reserve, and also at Nulla Nulla, Macleay River. At the latter place a large number of young tress have been removed from the bed of the creek, where they were liable to destruction from floods, and planted on the adjoining flats. The catalpa and black walnut plantation has also been kept in order. Particulars of the work done will be furnished by the Inspector of Forests in his report. The amounts expended are shown in Schedule D.

Prickly-pear Destruction Act of 1886.

Thirty-six Rangers and twenty-six Inspectors of Stock have been appointed Inspectors under the Prickly-pear Destruction Act of 1886, the Colony being divided according to land districts.

From reports received, Prickly-pear appears to be largely distributed in the valley of the Hunter River, and more or less so in the counties of Benarba, Courallie, Stapylton, Burnett, Murchison, Darling, Buckland, Parry, Pottinger, Nandewar, and Cumberland.

It is also found at Parkes, Coonabarrabran, Balranald, Deniliquin, Camden, Kempsey, Lismore, and Ballina, though apparently only in small quantities, and also on the Castlereagh River.

In places it has overrun high rocky ranges and cliffs difficult of access, and will be very costly to eradicate. In one case the cost of eradication on an area of 1,920 acres is estimated at £5,000, the land itself being rocky; and it is represented that on some holdings rented from the Crown the cost will be as much as £7,000.

Flood or storm water, birds, and animals have been the means of distribution—the water carrying pieces down from the higher to the lower lying lands—while birds and animals eat the fruit and disseminate the seed. The young plants can often be traced in lines under the boughs of trees where birds roost.

OFFICE.

The following papers were received and despatched, exclusive of those connected with the public parks and recreation reserves :—

Papers received and registered.	Papers despatched.	
12,083, exclusive of 984 timber license returns.	Letters, manuscript	3,502
	do on printed forms... ...	2,080
	Blank-cover communications ...	1,399

SCHEDULE N.

LANDS exempted from the operation of Wood-cutters' or Cedar Licenses.

In addition to the lands specified in the 2nd Timber Regulation of 18th August, 1885, the following lands have been notified in the Government Gazette as being exempted from the operation of wood-cutters' or cedar licenses:—

County.	Parish.	Area in Acres.	Date of Gazette Notice.	Particulars of Land.
Clarence	Elland, Clarenza, and Southampton	.....	24 Sept., 1886...	All Crown Lands within the population boundary of South Grafton.
Cumberland	Southerland*	.....	24 Dec., 1877...	All Crown reserves.
Do	Bulgo, Heathcote, and Southend	.....	4 Mar., 1885...	Crown Lands.
Do	Londonderry	.....	29 Oct., 1887...	All Crown Lands.
Do	Hunter's Hill and Field of Mars...	6,235	4 Nov., 1879...	Field of Mars Common.
Do	Hunter's Hill*	170	22 Dec., ,, ...	Lunatic Asylum reserve.
Do	Bulgo and Heathcote	100	20 April, 1885...	Railway reserve No. 93.
Do	Heathcote	156	28 May, 1886...	Railway reserve No. 92.
Do	Botany	.....	23 Nov., ,, ...	
Dampier	.....	300	5 Mar., ,, ...	Reserve No. 440.
Gloucester	Wang Wauk, Kyle,† Gooloongolook, Curreeki, Teleraree, Bachelor, Wallengat, Forster, Topi, and Booloombayt.	217,600	29 Sept., 1877...	Myall and Wallis Lakes Forests. Gold-field reserve No. 29.
Do	Neerong, Willabah, Myall, and Euther.	.....	24 Sept., 1886...	Crown Lands.
Leichhardt	Euroka and Youendah	4,700	8 Dec., 1884...	
Macquarie	Torrens	.....	2 June, 1885...	Land within the Port Macquarie population boundary.
Northumberland	Awaba, Teralba, and Stockrington	3,080	22 Oct., 1886...	Reserves 83B, 105 and 106.
Denison and Hume	.....	.....	9 Dec., ,, ...	All pine on lands for which permission to ringbark has been granted in the Land District of Corowa.
Pottinger	Doubleda	30	2 Oct., 1885...	Reserve No. 7.
Wynyard	Wagga Wagga	1,000	19 Aug., 1884...	Travelling stock reserve No. 3,027.
Young	.....	1,600	20 June, 1879...	Part of Wilcannia population reserve (Census of 1871).
.....	.....	.....	14 Oct., 1878...	Lord Howe Island.

* Timber-cutting prohibited. † Timber cut under timber-cutters' licenses, Class A, Regulations 10 to 12.

Annual Progress Report for the year 1886.

Report of the Inspector of Forests to The Under Secretary for Mines.

Forest Conservancy Branch, Department of Mines,
Sydney, 20 September, 1887.

Sir,

I have the honor to submit my Annual Progress Report upon the Forest Conservancy Branch of this Department for the year 1886.

I have, &c.,
JOHN DUFF.

Catalpa plantation, Railway Reserve, Cootamundra.

During the months of December and January last the above plantation was cleared of weeds, 200 large and a number of small trees were staked and tied, a gardener and two labourers being employed for the purpose, which cost the Department the sum of £38 18s. 1d. The planting of the reserve was completed in October, about 200 trees having been planted and staked, at a cost to the Department of £11 10s.

The trees in this plantation again require to be pruned, and a number of the smaller ones staked and tied, and the ground cleared of weeds; and it has been arranged to send the overseer of the State Forest Nursery and three or four labourers to do the necessary work, the cost of which I estimate will amount to from £25 to £30.

In front of the railway station an enclosed area of between three and four acres might be planted with trees in the winter and spring of 1888.

Cedar plantation on Dorrigo Forest Reserve and Forest Reserve No. 5, Bellenger and Macleay Rivers.

The number of cedar trees planted on the above reserves for the year was 7,942 and 4,740 respectively, or a total number of 12,682, and the cost for labour in clearing scrub from around the trees, planting, &c., amounted to £262 13s. 2d.

The cedar seed sown in the autumn of last year on the Dorrigo Forest Reserve have germinated freely, and will be useful for planting on this and other reserves; and I intend, if the Department approve of my recommendation, recently submitted, to proclaim a portion of the Olney Forest Reserve, No. 70A, a State Forest, to plant cedar extensively on it, as the cedar, when mature, would be more valuable and easily accessible than in the northern coast districts, to which it is now almost entirely confined.

Some of the cedar trees planted on the Dorrigo Forest Reserve have been injured by cedar-cutters' bullocks and cattle on Beilsdown Creek Run eating their tops; but it is doubtful if it would be advisable to incur the large expense of fencing the extensive area planted, as it appears that only a small percentage of the trees have been damaged, and the fencing would probably be destroyed in places by timber-cutters felling trees on it, and in order to obtain access to the timber on the enclosed area.

I intend soon to visit the reserve, and will then decide if the plantation should or not be fenced.

Plantation, Bank-street Reserve, East Maitland.

Early in spring about fifty unhealthy black walnut trees in this reserve were removed to the plantation at Cootamundra, and the vacancies in the East Maitland reserve were planted with about 150 trees of various species. The ground was dug and the trees staked and tied, at a cost to the Department of £39 19s.

Wattle plantations on Southern Railway Reserve.

In a report received from Mr. Forest Ranger Rotton, Bowral, in April last, he states that some of the wattles sown on the above reserves have recently made vigorous growth, some of the trees having attained a height of 50 ft., and many seedling plants not previously counted have germinated.

Between Minto and Campbelltown, the golden wattle (acacia pycnantha) has made more rapid growth than the green and black wattles planted at the same time.

No work has been done on the wattle plantations during the year, and the District Forest Ranger reports that the plantations are fairly clear of weeds and in good condition.

As the trees are not now likely to be damaged by fire, it is not anticipated that much additional expense will require to be incurred in removing weeds from the plantations.

State Forest Nursery, Gosford.

About six acres of land was cleared by contract of timber and scrub on Hogan's Brush Forest reserve, near Gosford, and the work cost the Department the sum of £107 17s.

The tree-ferns distributed over the cleared area were removed and planted on the banks of Narara Creek, which runs through the centre of the ground, and all of them have grown.

Tenders were invited for fencing the cleared land, but as it was flooded on several occasions to the height of from 3 to 6 feet, by the creek overflowing thereon, the site was proved to be totally unsuited for a nursery, and was consequently abandoned.

Another site for the nursery was accordingly selected, adjoining the Gosford recreation reserve and racecourse, having a frontage to Narara Creek, within a mile of Gosford, and half a mile of the Railway Station, and on this site the work of clearing, fencing, trenching, and erection of buildings has been commenced, an overseer and four men now being employed on the work.

Useful and rare species of indigenous and foreign timber trees will be raised in large numbers for planting in the forest and railway reserves of the Colony, for exchanging with kindred departments; and probably landowners desiring to plant trees will be granted the privilege of procuring plants suitable for the climate of the districts in which the trees are to be planted, either free or at a nominal cost, on condition that they guarantee to suitably prepare the land prior to receiving the trees.

The

The land first cleared for a nursery on Hogan's Brush Forest Reserve is now being planted with red cedar, catalpas, camphor laurel, Tasmanian blue gum, silky oak, &c., 600 trees having been received from the Director of the Sydney Botanic Gardens, and 1,000 from the Conservator of Forests, Adelaide, for the purpose, and I expect to procure the remainder of the trees required to complete the plantation from the Inspector of Forests, Melbourne.

It will take from one to two years before a stock of trees can be raised in the Forest Nursery for planting in the reserves and distribution, as plants, seeds, and cuttings have yet to be obtained for propagation.

Collecting Plants, Seeds, and Specimens.

Instructions have been issued to the Forest Rangers and their assistants to collect seeds annually of all useful timber trees in their respective districts; and it is intended that the rangers shall collect seedling plants of any kinds of trees that may be wanted in the State Forest Nursery, the seeds and plants being required for raising stock for planting and distribution.

Numerous dried specimens of timber and fodder trees and shrubs, and poisonous plants, indigenous to this Colony, have been received from the Forest Rangers and Stock Inspectors, which should be labelled and arranged systematically in books for reference; but it will be impossible for me to proceed with this work until a qualified assistant is appointed, who could relieve me of many minor duties, which, I respectfully submit, should not be imposed upon me, and I would thus be enabled to devote my time and attention to the more urgent and important duties of my office, which could then be performed in a more systematic and satisfactory manner.

Thinning, Scrubbing, and Ringbarking on Forest Reserves.

During the year, thinning, scrubbing, and ringbarking were done on the following forest reserves, under the supervision of the District Forest Rangers, temporary officers having been appointed to see that the best trees and saplings would be left growing at the distances specified by the Department in the permissions granted.

The whole expense of the work was defrayed by the lessees of the pastoral holdings upon which the reserves are situated, viz.:—

F.R. 1,445A, county of Wakool.—The whole area within leasehold of Gonn and Mooroomgatta Runs has been cleared of scrub.

F.R. 1,786, county of Wakool.—About 4,000 acres have been cleared of scrub, and the useless timber ringbarked.

F.R. 3,258, county of Wakool.—Portion of the reserve within Barham Run has been cleared of scrub, and the useless timber ringbarked.

F.R. 1,787, county of Wakool.—Useless timber ringbarked on the whole of the reserve within Jeegur and Chah Sing Runs.

Prickly-pear Destruction Act of 1886.

Regulations for the eradication and destruction of prickly pear were framed, and the Forest Rangers and Stock Inspectors instructed to collect and forward specimens to the Department of the species of prickly pears growing in their respective districts, with a view to ascertain the names and number of species likely to spread, and which would require to be included in the Act providing for their destruction.

The specimens when received were forwarded to the Director of the Botanic Gardens for naming, and the collectors were furnished with their names to enable them to identify the species to be destroyed; and the Forest Rangers and Stock Inspectors having been appointed Prickly-pear Inspectors, were authorized to inspect and report upon all reserves, Crown and freehold lands, infested with prickly pears in their respective districts, and to serve notices upon the owners and occupiers thereof to eradicate and destroy it within a specified period.

The Act provides for penalties being inflicted upon owners and occupiers of land infested with prickly pear, upon whom notices have been served, who fail to comply with the provisions of the Act; and the methods to be adopted for its destruction are either burying 3 ft. under ground, burning, or stacking in enclosed heaps.

Forest Flora.

Owing to delay in obtaining authority from the Treasury for the expenditure of funds on the publication of this work at the Government Printing Office, and to my time being fully occupied in selecting and preparing the forestry exhibits for the Colonial and Indian and Adelaide Jubilee International Exhibitions, and compiling descriptive lists of the exhibits for insertion in the official catalogues of these Exhibitions, I have not been able to devote sufficient time and attention to the compilation of this work to enable the first part of it to be published.

Information has, however, been obtained respecting the habitats, extent of distribution, qualities, uses, popular descriptions, and dimensions of the whole of the species of timber trees illustrated, and I expect soon to complete the technical and popular descriptions of the trees to be described and illustrated in the 1st and 2nd parts of the work, as funds are now available for the purpose.

The following is a complete list of water-colour drawings of indigenous timber trees, prepared for the forest flora, illustrating flowers, leaves, seeds, and seed-vessels, wood, and bark, viz.:—

Tristania laurina. (Water gum.)
Eucalyptus piperita var eugenioides. Peppermint.
" leucoxylon. (Red ironbark.)
" longifolia? (Peppermint or redwood.)
" sp? from Ulladulla.
" robusta. (Swamp mahogany.)
" crebra. (Grey ironbark.)
" microcorys. (Tallowwood.)
" pilularis. (Blackbutt.)
" rostrata. (Red gum.)
" piperita. (Peppermint.)

Pittosporum

Pittosporum undulatum. (Mock orange.)
Harpullia pendula. (Tulipwood.)
Grevillea robusta. (Silky oak.)
Tristania conferta. (Brush, bastard, or white box.)
Castanospermum australe. (Bean tree, or Moreton Bay chestnut.)
Callistemon salignus. (Tea tree.)
Syncarpia laurifolia. (Turpentine tree.)

Water-colour drawings of the following indigenous timber trees are prepared for the forest flora, excepting the fruit:—

Dysoxylon Fraserianam. (Rosewood.)
Eugenia Ventenattii. (Large-leaved water gum.)
Ceratopetalum apetalum. (Coachwood.)
Cedrela toona. (Red cedar.)
Hymenosporum flavum.
Syncarpia leptopetala. (Brush turpentine.)
Podocarpus spinulosa. (Native plum, deal, or damson.)

Testing strength of Indigenous Timbers.

Professor Warren, Professor of Engineering, Sydney University, applied to this Department to be supplied with samples of the leading useful indigenous timbers, with the view of testing their strength by direct compression, tensile resistance, and resistance to shearing, "the object being to conduct an exhaustive series of experiments which will be of great value to engineers, architects, carriage-builders, furniture manufacturers, and others."

Professor Warren offered to test the strength of the timbers free of all cost, on condition that this Department supplied him with ten prepared samples of various sizes of each species of seasoned timber to be tested, and also to publish a list furnishing the local and botanical names of the timbers, dates when felled and tested, height and diameter of trees, habitats, and proof strength of each kind of timber.

Specimens of the timbers procurable from the timber merchants in Sydney were obtained, and the Forest Rangers were instructed to collect and forward samples of the timbers not obtainable in Sydney which were considered worthy of testing.

The work is not yet completed, and the following are the names and sizes of the timbers tested to date, viz. :—

Sizes.

3	samples for cross breaking	...	...	4′ 4″	long	×	6″	deep	×	3″	wide.
3	„ compression	...	...	2′ 0″	„	×	2″	„	×	2″	„

Plants, Seeds, &c., received in 1886.

12th March, 1886.—From C. Moore, Esq., F.L.S., Director, Botanic Gardens, Sydney—Large parcel seeds of cedrela toona (red cedar).

19th June, 1886.—From Wm. R. Guilfoyle, Esq., F.L.S., Director, Botanic Gardens, Melbourne—Seeds of cork oak (quercus suber).

23rd June, 1886.—From Mr. F. R. Rotton, Bowral—Seeds of bangalow and cabbage-tree palms.

11th July, 1886.—From Wm. R. Guilfoyle, Esq., F.L.S., Director, Botanic Gardens, Melbourne—272 plants, miscellaneous species of timber trees for East Maitland and Cootamundra plantations.

9th August, 1886.—From Wm. R. Guilfoyle, Esq., F.L.S., Director, Botanic Gardens, Melbourne—50 species seeds, chiefly American timber trees.

12th September, 1886.—From J. W. Smith, Esq., Parramatta Road, Glebe—22 timber specimens, with leaf specimens of same, from New Hebrides Islands.

Plants, Seeds, &c., sent away in 1886.

2nd January, 1886.—Sent to G. S. Saunders, Esq., London—10 duplicate samples of indigenous timbers for wood-engraving.

15th February, 1886.—Sent to Revd. J. Campbell, London—53 samples of indigenous timbers, consisting of 45 distinct species.

24th February, 1886.—Sent to Wm. Ferguson, Esq., Inspector of Forests, Melbourne—100 plants, Norfolk Island Pines; 25 plants, walking-stick palms; 25 plants, bangalow palms; seeds of thatch and curly palms.

24th February, 1886.—Sent to Messrs. Eldred & Co., Sydney—23 specimens of indigenous timbers.

4th March, 1886.—Sent to Wm. Ferguson, Esq., Inspector of Forests, Melbourne—21 species of indigenous timber-tree seeds.

5th March, 1886.—Sent to J. E. Brown, Esq., F.L.S., Conservator of Forests, Adelaide—36 specimens of indigenous timbers, and 28 species seed-vessels of same.

12th March, 1886.—Sent to Mr. F. R. Mecham, Boat Harbour—1 large parcel cedrela toona seeds (red cedar).

17th March, 1886.—Sent to C. Moore, Esq., F.L.S., Director, Botanic Gardens, Sydney—50 species indigenous timber-tree seeds.

22 April, 1886.—Sent to Shigetake Shiga, Esq., H.I.M.S. "Tsukuba"—29 species indigenous timber-tree seeds.

[Fifteen Diagrams.]

Sydney: Charles Potter, Government Printer.—1887.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

FOREST RESERVES.

(NUMBER OF TREES PLANTED ON.)

Ordered by the Legislative Assembly to be printed, 14 *February*, 1888.

[*Laid upon the Table of the House, in answer to Question No.* 4 *on Votes and Proceedings No.* 52, *of the* 14*th February*, 1888.]

LEGISLATIVE ASSEMBLY.

5. MR. KETHEL *to ask* THE SECRETARY FOR MINES,—

(1.) Have the Government planted any cedar or other valuable indigenous timber trees of the Colony on any of the State forests or forest reserves of the Colony?

(2.) If so, on what reserves has such planting been done, the description and number of trees planted, the date of planting, and the present condition of the plantations?

(3.) Is it the intention of the Government to continue, or to extend the system of planting indigenous timber trees to other forest reserves, in order to replace the original trees now becoming rapidly exhausted?

Answers—

(1.) Yes.

(2.) Dorrigo Forest Reserve, No. 377, counties of Fitzroy and Raleigh: Young cedar trees have been planted, as follows:—August and September, 1884, 2,932 trees, besides 300 root cuttings; June to October, 1885, 5,919 trees, and 319 replanted, and subsequently, in 1885, 500 trees; January, 1886, 327 trees; June to October, 1886, 6,742 trees, also 200 replanted; July to November, 1887, 3,882 trees. Cattle have destroyed some of the trees by eating the tops off, but according to latest reports the plantation generally is in good condition. The plants grow best where the land has been cleared. In 1886 a seed-bed was prepared, and seeds of the cedar collected and sown; these are making satisfactory progress. During September, 1887, 7,104 cedar plants were collected on the Dorrigo Reserve, and planted temporarily in the Hogan's Bush Forest Reserve; these are in good condition, and are intended for the Olney State Forest. Olney Timber Reserve, No. 70, county of Northumberland: Twenty-five cedar trees were planted in 1884. Nulla Nulla Forest Reserves, Nos. 5 and 158, county of Dudley: 4,740 cedar trees were planted during June, July, and August, 1886, and 400 in July, 1887. Some of the young trees have been destroyed by wild cattle, and some by the exceptionally high floods, but the greater number are in a satisfactory condition.

(3.) The present intention is to continue and extend the planting of indigenous and other timber trees. It is approved that several thousand cedar seedlings should be collected in the Bellinger and Macleay River Districts, and planted out in the Olney State Forest. A State Forest Nursery is formed at Gosford for the purpose of raising timber trees for planting out in timber reserves. A proposition, made in the Annual Report of the Forest Branch for 1883, page 5, to establish an experimental nursery in the salt-bush country was approved, and the Inspector of Forests was directed to select a suitable site and furnish estimates of cost. In many localities the trees replant themselves, and only require thinning out to grow into valuable timber. The thinning out has been strongly recommended many times, and at one time it was contemplated that the work in localities where the timber is most valuable should be done by the department, but it was not carried out for want of funds. Some of the Crown lessees have, however, been permitted, under strict supervision, to thin out the useless trees with satisfactory results.

1887–8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

RESERVE AT BONDI.

(RETURN RELATING TO OCCUPATION OF, BY AQUARIUM COMPANY.)

Ordered by the Legislative Assembly to be printed, 28 *June*, 1888.

RETURN showing copies of all papers relating to the occupation by the Bondi Royal Aquarium Company of the 100-feet Reservation at Dixon's Bay.

No. 1.

Deed of Grant.

LAND PURCHASE.

Grantee, John Roby Hatfield; date, 15th January, 1839; county, Cumberland; acres, 10.

VICTORIA, by the Grace of God of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, and so forth.

To all whom these presents shall come, Greeting: Whereas at a public auction, held in conformity with the Regulations made for the sale of Crown Lands in our territory of New South Wales, John Roby Hatfield, of Sydney, has become the purchaser of the land hereinafter described, for the sum of £60 sterling: Now know ye, that for and in consideration of the said sum of £60 sterling, by the said John Roby Hatfield to the Colonial Treasurer of our said territory, for and on our behalf, well and truly paid before these presents are issued, and in further consideration of the quit-rent hereinafter reserved, we have granted, and for us, our heirs and successors, do hereby grant, unto the said John Roby Hatfield, his heirs and assigns, subject to the conditions, reservations, and provisos hereinafter mentioned, all that piece or parcel of land in our said territory, containing by admeasurement 10 acres, be the same more or less, situated in the county of Cumberland, and parish of Alexandria, at Nelson's Bay, and bounded on the south-west by a line commencing at a pile of stones on the east shore of Nelson's Bay, bearing west 20 degrees, north 13 chains 80 links; on the north-west by a line north 20 degrees east 10 chains; on the north-east by a line east 20 degrees, south 14 chains, to the waters of the South Pacific Ocean, and easterly by those waters to the pile of stones aforesaid,—being the land sold as lot fifty-two in pursuance of the advertisement of 25th June, 1838, with all the rights and appurtenances whatsoever thereto belonging, to hold unto the said John Roby Hatfield, his heirs and assigns for ever, yielding and paying therefore yearly

yearly unto us, our heirs and successors, the quit-rent or sum of one farthing for ever if demanded: Provided, nevertheless, and we do hereby reserve unto us, our heirs and successors, all such parts and so much of the said land as may hereafter be required for a public way, or public ways in, over, and through the same, to be set out by our Governor for the time being of our said territory, or some person duly authorized in that respect; and also all stone and gravel, all indigenous timber, and all other materials, the produce of the said land, which may be required at any time or times hereafter for the construction and repair of ways and bridges, for naval purposes, and for public works, together with the right of taking and removing the same; and also all land within 100 feet of high-water mark on the sea-coast, and on every creek, harbour, and inlet; and also all mines of gold, of silver, and of coals, with full and free liberty and power to search for, dig, and take away the same: and also the right of full and free ingress, egress, and regress into, out of, and upon the said land for the several purposes aforesaid: And we do further reserve unto us, our heirs and successors, full power for us, or our successors, or for the Governor for the time being of our said territory, to resume and take possession of all or any part of the said land not hereinbefore reserved, which may be required at any time or times hereafter for any public purpose, the value of the said land not hereinbefore reserved, or of so much thereof as shall be so required, and of any building standing on the said required land being paid by the Government to the party entitled thereto, at a valuation by arbitrators chosen as hereinafter mentioned: And we do hereby declare that in every case of arbitration which may arise under and by virtue hereof, one arbitrator shall be chosen by the Governor for the time being of our said territory, and one by the then owner or owners of the said land, which two arbitrators (before they enter upon the said arbitration) shall elect a third as umpire, who shall determine any disagreement between the two said arbitrators; but if the owner or owners of the said land shall refuse or neglect to choose an arbitrator on his, her, or their part within one calendar month after being required so to do by public advertisement in the *Government Gazette*, or otherwise, then both arbitrators shall be chosen by the Governor for the time being of our said territory, which arbitrators shall also elect an umpire in the manner abovementioned: Provided always, that if the conditions, reservations, and provisos herein contained, or any part thereof, be not duly observed and performed by the said grantee, his heirs and assigns, then the said land shall be forfeited and revert unto us, our heirs and successors; and these presents and every matter and thing herein contained, shall cease and determine and become absolutely void to all intents and purposes; and it shall be lawful for us, our heirs and successors, by our Governor for the time being of our said territory, or other person duly authorized in that behalf, to re-enter upon the said land, or any part thereof, and the said grantee, his heirs and assigns, and all occupiers thereof thereupon wholly to remove. In testimony whereof we have caused this our grant to be sealed with the seal of our said territory.

Given under the hand of Sir George Gipps, Knight, our Captain-General and Governor-in-Chief of our said territory and its dependencies, at Government House, Sydney, in New South Wales aforesaid, this fifteenth day of January, in the second year of our reign, and in the year of our Lord one thousand eight hundred and thirty-nine.

(L.S.) GEO. GIPPS.

Signed and sealed in the presence of,—
Hy. Watson Parker.

Entered on record by me this twelfth day of March, one thousand eight hundred and thirty-nine.
E. DEAS THOMSON,
Colonial Secretary and Registrar.

No. 2.

The Council Clerk, Waverley, to The Under Secretary for Lands.

Sir, Borough of Waverley, Council Chambers, 30 July, 1887.

I have the honor, by direction of the Borough Council of Waverley, to inform you that a trespass has been committed upon a public reserve at Dixon's Bay, Waverley, by the erection of a fence across the reserve of 100 feet shown in grant to J. R. Hatfield, 10 acres. (Reg. 49., No. 79.)

I have, &c.,
ROBERT T. ORR,
Council Clerk.

Submitted. This letter may be referred to the Cumberland Ranger for report.—F.H.W., R.H.S., 2/8/87. The ranger may not know the position of the reserve, and, therefore the matter may be referred to Mr. District-Surveyor Deering. If it is necessary to take proceedings the ranger may then be instructed.—C.O., 6 8/87.

Mr. Surveyor Perdriau to visit locality and report encroachments.—John W. Deering, 6/8/87. (No. 1,952). Transmitted to Metropolitan District Surveyor with my letter of 9th August, 1887/59.—Stephen E. Perdriau, Government Surveyor.

No. 3.

Mr. Government-Surveyor Perdriau to The Metropolitan District Surveyor.

Borough Council of Waverley complaining of trespass on reserve.

Sir, Waverley, 9 August, 1887.

In compliance with instructions (No. 87–1,952 on Misc. 87–9,658, dated 6th instant), I have to report that the grant of 10 acres to J. R. Hatfield, at Dixon's Bay, Bondi, parish of Alexandria, county of Cumberland, is now the property of Messrs Fletcher and Lachume.

2. The Royal Aquarium Company hold a twenty-one years lease of the portion of the grant shown on the accompanying tracing, said lease purporting to extend to the high-water mark of the Pacific Ocean and embrace the whole of the 100-feet reserve.

3.

3. Improvements of a very costly character are being effected by the Royal Aquarium Company. The engine-house, covering the pumping machinery, is wholly within the 100-feet reserve, and the galvanized iron fence on the boundaries is, of course, partly so. Also, from inspection (without measurements), I think that a stone sea-wall in front of a grass lawn is partly encroaching. The aquarium itself is probably only a few yards clear of the reserve.

4. The managing representatives of the Royal Aquarium Company are Messrs. Anderson and Taylor; address, No. 80, Waverley Road, Paddington.

I have, &c.,
STEPHEN E. PERDRIAU,
Government Surveyor.

P.S.—In order that proceedings be not taken unnecessarily, I should mention that the owners of the grant, Messrs. Fletcher and Lachaume, intend applying for a special lease of the 100-feet reserve. I have supplied them with the form and given them information how to proceed, and probably the application will be in the Department in a day or two.—S.E.P., 9/8/87. Misc. 87-9,658 and tracing herewith.—S.E.P., 9/8/87.

Report No. 2,062 of this date to the Under Secretary for Lands.—JOHN W. DEERING, 18/8/87.

No. 4.

Application by Mr. D. Fletcher for Special Lease.

[Crown Lands Act of 1884—Part IV, sections 89, 90, or 92.]

I HEREBY apply for a special lease, for the erection of buildings in connection with the Royal Aquarium, Bondi, and for conversion into a bathing place, landing place, and site for machinery in connection with aquarium purposes, of the land hereunder described, and for which I am willing to pay an annual rental of £10 for fifteen years. Enclosed is a receipt, showing that the sum of £10 has been paid to the Colonial Treasurer as a deposit towards cost of survey and report.

Dated at Sydney, this 11th day of August, 1887.

To the Local Land Board at Sydney. DAVID FLETCHER.

Description.

Land district of Sydney, county of Cumberland, parish of Alexandria, 2 acres 2 roods, about. The 100-feet reservation in grant to J. R. Hatfield's 10 acres, at Dixon's Bay, now my property.

The sum of £10 received and suspensed on the within account this day.—P. J. HOLDSWORTH, B.C., Treasury, 12/8/87. The District Surveyor, Sydney, for report.—C.W.T. (*pro* Chairman), 12/8/87. Report to the Chairman No. 2,061, of this date.—JOHN W. DEERING, 18/8/87.

Under the circumstances disclosed by the report of the District Surveyor, we concur with him in the opinion that this lease should not be granted, and we accordingly recommend that it be refused.—T. WARRE HARRIOTT (Chairman), FRED. A. FRANKLIN, HENRY EAGAR, Sydney, 3/9/87.

Submitted for refusal.—S.F., E.L., 12/9/87. Refused.—T.G., 15/9/87. D. Fletcher, Treasury, Chairman, Sydney and Cumberland Ranger informed, 19/9/87. Receipt No. 688,013, for £2 12s. 6d. expenses, forwarded.—W.B., 6/10/87.

No. 5.

Mr. Metropolitan District-Surveyor Deering to The Chairman Local Land Board, Sydney.

David Fletcher, applying for special lease of the 100-feet reservation, above high-water mark in the grant of 10 acres to J. R. Hatfield, at Dixon's Bay, Bondi, parish Alexandria, county Cumberland, No. 2,061.

18 August, 1887.

1. APPLICANT, who is the owner of Hatfield's grant, applies for a special lease of the 100-feet reservation above high-water mark, surrounding a picturesque bay, known as Dixon's Bay, and embracing part of "Fletcher's Glen."

2. Within this reservation an engine-house has been erected in connection with an aquarium beyond, but upon the granted land.

3. My opinion is that this application should be refused, because I fail to see why the public should be deprived of the enjoyment of this reserve and beach, except upon payment of an entrance fee to the aquarium.

4. Under date of 30th July last, the Borough Council of Waverley has protested against the encroachment upon this reserve ("Misc. 87, 9,658"), and in reporting upon the encroachment to the Under Secretary (Report No. 2,062, of 18th August, 1887), I have recommended that, provided that the public have free access to the reserve—to the whole of the 100 feet from high-water mark—there may be no necessity to disturb the engine-house and pumping machinery, which have been erected at considerable expense, until the time arrives for their removal.

But so far as the proposed special lease is concerned, my recommendation is a refusal:

JOHN W. DEERING,
Metropolitan District Surveyor.

Applicant to be charged £2 12s. 6d. cost of inspection, report, &c., against the £10 deposit.—J.W.D., 18/8/87. See report by Board, endorsed upon the within application.—C.W.T. (*pro* Chairman, L.L.B., Sydney), B.C., 3/9/87. The Under Secretary for Lands.

No. 6.

Mr. Metropolitan District-Surveyor Deering to The Under Secretary for Lands.

Borough Council of Waverley complaining of trespass upon Reserve at Dixon's Bay, Bondi, No. 2,062.

18 August, 1887.

1. THE reserve referred to is not a "public reserve," as stated by the Council, but the 100-feet reservation above high-water mark in the grant of 10 acres to J. R. Hatfield, and now the property of David Fletcher.

2. The greater part of these 10 acres has been leased for twenty-one years to the "Royal Aquarium Company," who have not only carried out improvements upon the granted land, but also within the 100-feet reserve; and upon which reserve an engine-house and pumping machinery have been erected. Tracing herewith.

3. A special lease of the 100-feet reservation has been applied for by David Fletcher (L.B. 87–35), but which in my report to the Chairman No. 2,061 of this date I have recommended for refusal. [Copy of my report and also the application herewith.] I fail to see why the public should be deprived of the enjoyment of this reserve and beach, except upon payment of an entrance fee to the aquarium.

4. But if the owner of the land and the lessees will covenant that the public shall have free access at all times to the whole of the 100-feet reserve, there may be no necessity to disturb for the present the engine-house and pumping machinery.

5. Keeping the public interest in view this is the only recommendation I can make: that the engine-house be suffered to remain for the present, but the fences at A B, and C D, must be removed.

JOHN W. DEERING,
Metropolitan and Coast District Surveyor.

The report of the Metropolitan District Surveyor submitted.—E.L., H.A., 26/8/87. S.F., 31/8/87. Submission of District Surveyor approved.—T.G., 9/8/87. Corr. Branch. Inform Council, Aquarium Company, and Cumberland Ranger.—H.A., 9/9/87. Council, Aquarium Company, and Cumberland Ranger, with tracings, informed.—H.L.T., 30/9/87.

No. 7.

Office Memorandum.

Department of Lands, Sydney, 21 September, 1887.

WILL Mr. Deering be good enough to furnish tracings for the Borough Council of Waverley, Aquarium Company, and Cumberland Ranger, with a view to the necessary letters being written.

H. L. THOMPSON.

---

* See Appendices.

Mr. Thompson, Correspondence Branch,—Three tracings* herewith as requested.—J.W.D., Metropolitan District Surveyor, 26/9/87.

Attention of the Council, the Company, and the Crown Lands Ranger should be drawn to the decision: that the fences at ends of reserve marked A B, C D, are to be removed.—JOHN W. DEERING, 26/9/87. See action on papers.

No. 8.

Mr. P. F. Richardson to The Secretary for Lands.

Sir, 1, Spring-street, Sydney, 6 October, 1887.

I have the honor, on behalf of the Royal Aquarium Co., to acknowledge receipt of your letter of 30th ultimo, requesting them to remove the fences at the ends of the 100-feet reserve on their property at Bondi, and I beg respectfully to urge you to suspend proceedings in the matter, pending further investigation.

For your information I may state that the Company has expended a large amount of money on their property, with a view to making the aquarium a source of instruction and entertainment for the public, and the Government, perceiving the usefulness of such an undertaking, have extended the tramline to the entrance; such being the case, I venture to surmise that they do not intend to give encouragement on the one hand, and to destroy the benefit thereby conferred on the other, by insisting upon opening up the frontage to the general public, which would entail utter ruin on the undertaking, by admitting trespassers of all sorts (more especially of the larrikin element) to the grounds of the Company, it being impossible to fence off the reserve in a satisfactory manner without destroying the whole character and beauty of the scene.

I beg further to point out that there has never been a right claimed by the public to use this reserve, and in fact the bay, by its natural formation, forms a complete *cul de sac*, surrounded by private property, on which the public would have to trespass before making use of the reserve in question.

Under the circumstances above stated, I have every confidence that you will see your way to give this application your most favourable consideration.

I have, &c.,
PHILIP F. RICHARDSON.

Stop all action in this matter for present, and then resubmit the papers.—T.G., 6/10/87. Mr. Landers.—S.F., 6/10/87. Wire to Cumberland Ranger, 7/10/87. Resubmitted.—E.L., 8/10/87. See memo. on separate paper, submitting the case for Mr. Sec. Garrett's consideration.—S.F., 8/10/87.

No. 9.

Office Memorandum.

Dixon's Bay Reserve, Bondi.

STRESS is laid on the enterprise of the Aquarium Company, and that is given as a reason why the Government should deprive the people of access to a reserve that up to now has been enjoyed, free of cost, by large numbers of all classes of the community.

The inferential argument that because the Government have extended the tram-line to the Aquarium, they should still further protect the owners, is certainly a novel one, and savours much of the oft-quoted proverb about gratitude being "a sense of favours to come."

The matter is of serious moment, especially to the poorer classes, whose rights, in common with those of others, are attempted to be infringed, and who, if the Company's wish be granted, will only have access to the reserve on payment of an entrance fee, or on sufferance.

Submitted that proceedings should be enforced for the removal of the obstructing fences, as decided by Mr. Secretary Garrett on 8th ultimo, *vide* papers 87-10,084 Occ.

S.F., 8/10/87.

Before dealing with this case Mr. Secretary Garrett wishes to have a sketch or tracing showing whether there is continuity of road access from the end of the reserve marked D G to the streets of the municipality in every-day use. Mr. Garrett also wishes to know whether Thompson and Andrew Streets are dedicated roads, and now in use.—S.F., 10/10/87. The Metropolitan District Surveyor.

After local investigation, and in reply to the minute of the Assistant Under Secretary of 10th instant, I have to report that there is a continuity of road of access, from the end of the reserve marked D C, to the streets of the municipality in every-day use. Thompson-street is however not yet formed, nor Andrew-street. Murray-street has just been aligned. All these streets lead from the municipality of Bondi. On the north side of Thompson-street, and between it and the north boundary of Barton's 7 acres 1 rood 28 perches (now subdivided), a width of 2 feet has been reserved in the subdivision, in which Thompson-street and Andrew-street are dedicated by the sale of the allotments. The sketch required is transmitted herewith, marked "B."—JOHN W. DEERING, 12/10/87. The Under Secretary.

Submitted.—See also the reservation of land required for public way or ways (*vide* copy of the original grant herewith).—S.F., 13/10/87.

The Aquarium Company had no right to act as it has done, without ever applying for permission to use the 100-feet reservation; nor can I improve their position by issuing a lease of the 100-feet for a fixed term. Permissive occupancy may be allowed, as in other special cases, and the reservation may continue to be used as it is now, until it is required by the public necessities of the State, for which purpose it was originally reserved in the grant. This view is endorsed by the Cabinet, to whom I have submitted the matter. Parties may be so informed.—T.G., 31/10/87.

Cumberland Ranger and Mr. Richardson informed.—H.L.T., 1/11/87.

No. 10.

The Council Clerk, Waverley, to The Under Secretary for Lands.

Sir, Borough of Waverley, Council Chambers, 9 April, 1888.

Adverting to your communication of 30th September, 1887 (No. Occupation 87-10,084), I have the honor to inform you that the following resolution has been passed by the Borough Council of Waverley:—

"That in the interests of the residents of Waverley, and of the general public, the Government be requested to cause the removal of the fences, which now preclude access to the reserve on the east side of J. H. Hatfield's grant, opposite Dixon's Bay, and to dedicate such reserve for the use of the public."

I have, &c.,
ROBERT T. ORR,
Council Clerk.

Permissive occupancy of the 100-feet reservation at this place was allowed to the Bondi Aquarium Company (*vide* Minister's minute of 31/10/87, 11,400 Occupation herewith.)—H.A., 11/4/88. Submitted.—E.L., 11/4/88. In connection with Mr. Secretary Garrett's decision of 31/10/87, on papers 87-11,400 herewith.—S.F., 16/4/88. C.O.

I am of opinion that the exigencies or real requirements or necessities of the public do not justify me in taking the extreme step of withdrawing the 100 feet (to take which the Crown has certainly the right) from the possession and control of the grantee.—T.G., 22/5/88.

Council Clerk, Waverley, so informed.—H.L.T., 31/5/88.

As from a paragraph in this morning's *Herald* it is probable the subject matter of these papers may be referred to in the Legislative Assembly, have these papers copied for presentation at once.—T.G., 27/6/88.

[Three plans.]

Sydney: Charles Potter, Government Printer.—1888.

1887.

(THIRD SESSION.)

NEW SOUTH WALES.

PUBLIC PARKS ACT OF 1884.

NOTIFICATION EXTINGUISHING PUBLIC HIGHWAY THROUGH ST. LEONARDS RECREATION RESERVE.

Presented to Parliament, pursuant to Act 48 Vic. No. 22

NEW SOUTH WALES, to wit. } Proclamation by His Excellency the Right Honorable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honorable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.)
CARRINGTON,
Governor.

WHEREAS by section seven of the "Public Parks Act of 1884," 48 Vic. No. 22, it is enacted that it shall be lawful for the Governor, by notification in the *Gazette*, to declare that any public highway or thoroughfare, public or private, or right-of-way, on, over, or affecting any land then or thereafter dedicated as a public park or place of public recreation, convenience, health, or enjoyment shall be extinguished; and whereas the land hereinafter described is a public highway affecting certain land at St. Leonards, in the county of Cumberland, and parish of Willoughby, which has been dedicated under the said Act as a Reserve for Public Recreation; and whereas it is desirable that the said public highway hereinafter described shall be extinguished: Now, therefore, I, CHARLES ROBERT, BARON CARRINGTON, the Governor aforesaid, with the advice of the Executive Council, do hereby, by this notification declare that that part, as hereinafter described, of a public highway, which affects the St. Leonards recreation reserve, shall be extinguished, and that the land so described shall be incorporated in the said reserve, that is to say:—

County of Cumberland, parish of Willoughby, and Borough of St. Leonards, area 3 acres 3 roods 24 perches, being that part of Walker-street which is situated between the northern building line of Ridge-street and the southern building line of Falcon-street, a distance of 2,100 links, and that part of Carlow-street which is situated between the eastern building line of Miller-street and the western building line of Alfred-street, a distance of 1,900 links.

Given under my Hand and Seal, at Government House, Sydney, this eighth day of July, in the year of our Lord one thousand eight hundred and eighty-seven, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,
FRANCIS ABIGAIL.

GOD SAVE THE QUEEN!

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CENTENNIAL PARK.

(PETITION FROM CERTAIN RESIDENTS OF WOOLLAHRA FOR ERECTION OF GATEWAY INTO.)

Received by the Legislative Assembly, 12 *June*, 1888.

To the Legislative Assembly of New South Wales, in Parliament assembled.

The Humble Petition of the undersigned residents of Woollahra and neighbourhood,—

RESPECTFULLY SHOWETH:—

Firstly, that a large population exists in and around Moncur-street, Woollahra, and in the streets connecting therewith, and

Secondly, that the placing of a gateway at the top of Moncur-street giving access to the Centennial Park would prove a great public convenience.

Your Petitioners therefore pray that your Honorable House will take the foregoing facts into your favourable consideration, and grant them such relief as the circumstances permit.

And your Petitioners, as in duty bound, will ever pray.

[*Here follow* 134 *signatures.*]

[3*d*] 920—

1887.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

NATIONAL PARK.

(PARTICULARS RESPECTING WILLIAM ROSS—LATE OVERSEER AT.)

[*Laid upon the Table of this House, in answer to Question No.* 4 *of* 6 *October,* 1887.]

Question:—

MR. WALKER *asked* THE COLONIAL SECRETARY,—

(1.) Has William Ross, late overseer at the National Park, been discharged, and on what ground?
(2.) Was it for informing against some of the officers in charge at the National Park?
(3.) When he was discharged were six others discharged with him?
(4.) After he was discharged were two of his men retained and three others engaged on the gang from which he was removed?
(5.) Has he ever made any complaints against Springall; and, if so, what is the nature of the complaints?

Answer:—

(1.) Yes. In consequence of a large reduction in the number of men employed, a corresponding decrease in the number of overseers and gangers was made, Ross being included in the list.
(2.) No.
(3.) Ross and thirteen others were discharged for the reason given in No. 1.
(4.) Two overseers out of the fourteen discharged were subsequently re-employed on other works, at a reduction in their pay of 2s. per day.
(5.) In a threatening and impertinent letter, addressed to the Casual Labour Board, Ross mentions that he thought Mr. Springall was more to blame than an overseer who had been previously discharged for neglect of duty, and unless the Board re-employed him (Ross), he was advised at a Protectionist meeting to get Messrs. Walker and O'Sullivan, M's.P., to bring his case before the House.

1887.
(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

FIELD OF MARS COMMON.

(RETURN IN REFERENCE TO TRESPASSERS ON.)

Ordered by the Legislative Assembly to be printed, 27 October, 1887.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 7th July, 1887, That there be laid upon the Table of this House,—

"A Return showing the number of persons who are trespassers on the "Field of Mars Common, the area of land occupied by each of them, the "nature of the improvements and value of the same, the length of time "the present occupiers have resided thereon, and the names of the previous "holders from whom the present occupants obtained possession, together "with any other information that will tend to make the Return complete."

(Mr. Frank Farnell.)

TRESPASSERS ON FIELD OF MARS COMMON.

1. CHARLES HOPKINS.
2. SAMUEL SMALL.
3. JAMES JESSUP.
4. CHARLES BARKER.
5. JANE BEEDAM.
6. STEPHEN ROURKE, senior.
7. GEORGE BAKER (formerly HENRY HATTON).
8. THOMAS JENKINS, senior.
9. JOHN HUGHES (formerly HENRY HUGHES).
10. EDWARD TUNBRIDGE.
11. MRS. JOSIAH RUSSELL (now MRS. LOUIS DUPONT).

No. 1.

Name of occupant:—Charles Hopkins.
Length of occupation:—About twenty-nine years.
Area:—4½ acres, now enclosed and occupied, about 2¼ acres of which are cultivated.
Nature of improvements, cultivation, viz.:—Under fruit trees—Oranges, mandarins, peaches, quinces, etc.; clearing. Buildings—Dwelling-house, 24 ft. x 12 ft., slabs, with bark roof, earthen floor (in bad state of repair). Store-room—Slabs, with bark roof and earth floor, 11 ft. x 8 ft. Stable and cart-shed—27 ft. x 13 ft., sapling slab and bark roof; pig-stye. Fencing—About 70 rods.
Value of improvements:—Cultivation, including value of fruit trees, 2¼ acres, at £40 = £90; clearing 2¼ acres at £10 = £22 10s. Buildings—Dwelling-house, £10; cart-shed and stable, £10; pig-stye, £1; store, £5; well, £3; = £29. Fencing—70 rods at 4s., = £14. Total, £155 10s.
General remarks:—When surveyed by Mr. Surveyor Galloway in 1847 this portion was found to be an encroachment on the Field of Mars Common. Prior to that time it was claimed by the late James Devlin, senr., as forming part of William Kent's grant of 470 acres, and was let by Mr. Devlin to William Kittley on a clearing lease, who sold his interest to one Floyd, whose widow the present lessee married. The area then given as leased was 10 acres, but that area was never occupied. Part of the area occupied was taken for railway purposes, and occupant informed me that he received from the Government the sum of £62 10s. as compensation for improvements that were thereby removed, consisting of grape-vines and fruit-trees. One side of the land is fenced by railway fence, which has not been included in valuation of improvements.

JAS. M'KEOWN,
Cumberland Ranger.

206—

No. 2.

[805 copies—Approximate Cost of Printing (labour and material), £3 3s. 6d.]

No. 2.

Name of occupant:—Samuel Small.

Length of occupation:—About forty years. Paid rent to Trustees of Common prior to obtaining permission to occupy on sufferance from the Government in 1875, from which time to 1882, when permission to occupy was withdrawn, he paid to the Crown a rental of £2 10s. per annum.

Area:—About 3¾ acres (under cultivation of fruit trees).

Nature of improvements:—Cultivation—Fruit trees in poor and neglected condition, consisting of pears, peaches, apples, &c. Buildings—Dwelling-house, 22½ ft. x 10½ ft., hardwood, slab sides, brick on stone, chimney, iron roof; divided into two rooms (new). House—24 ft. x 12 ft. divided into two rooms; earth floor, bark roof (old and decayed). Store-room—11 ft. x 8 ft., bark roof and slab sides, and earth floor. Stable—27 ft. x 13 ft., slab sides and sapling rafters, and bark roof. Pig-stye; well; fencing, about 60 rods split rails.

Value of improvements:—Cultivation, including value of fruit trees, &c., 3¾ acres at £15, = £56 5s. Buildings—Dwelling-house, £30; house (old), £10; store-room, £5; stable, £10; pig-stye, £1; well, £3; = £59. Fencing—60 rods at 4s. = £12. Total, £127 5s.

General remarks:—Portion of the area formerly occupied by Small has been taken for a road when Common was subdivided. The place is very much neglected, the occupant being too old (83 years of age) to properly care for it. Mrs. Small is 77 next March. They are themselves feeble, and do not seem in a position to employ labour.

I have enclosed sketch, showing (tinted pink) the position of the area occupied.

JAS. M'KEOWN,
Cumberland Ranger.

No. 3.

Name of occupant:—James Jessop.

Length of occupation:—About twenty-one years. No papers extant to show whether rent was paid to Trustees of Common prior to Government sanction being given for the occupation in 1875, from which year he paid £2 10s. per annum to the Crown until permission to occupy was withdrawn in 1882.

Area:—4¾ acres cleared, and about 5 acres of enclosed bush land.

Nature of improvements, cultivation—2½ acres under fruit trees of various kinds, viz.:—Oranges, mandarins, quinces, peaches, plums, apricots, &c. Clearing—2¼ acres, of which 1 acre is under green stuff. Buildings—Dwelling-house, 27 ft. x 21 ft., divided into four rooms, slab walls, iron roof. House—Divided into four rooms, slab walls, iron roof. Cart-shed—11 ft. x 8 ft., slab walls, and iron roof. Stable—27 ft. x 11 ft., slab walls, and bark roof. Pigeon-house—Of boards and wire, covered with iron. Pig-styes (two)—Round timber, roofed with bark.

Value of improvements:—Cultivation, including value of fruit trees, and clearing 4¾ acres, £125. Buildings—Dwelling-house, £40; do., £50; cart-shed, stable, and hay-shed, £15; pigeon-house, two pig-styes, £3; = £108. Fencing, £20. Total, £253.

JAS. M'KEOWN,
Cumberland Ranger.

No. 4.

Name of occupant:—Charles Barker.

Length of occupation:—Has been held by this family for about forty-five years. For the last nineteen years by the present occupant.

Area:—About 9 acres, enclosed.

Nature of improvements:—Clearing, about 1 acre. Slab hut, with bark roof. Shed, small roof of iron. Fencing, old and dilapidated, 78 rods.

Value of improvements:—Clearing, £10; slab hut, £10; sheds, £5. Fencing—78 rods at 2s. 6d., = £9 15s. Total, £34 15s.

General remarks:—Occupant is a labouring man, with a large family dependent upon him, and therefore appears to have no time to cultivate the land, nor sufficient means to employ labour. The buildings and fencing are in an advanced state of decay, and much dilapidated. Area occupied is shown tinted pink on enclosed sketch.

JAS. M'KEOWN,
Cumberland Ranger.

No. 5.

Name of occupant:—Jane Beedam.

Length of occupation:—About twenty years. Paid rent to Trustees of Common prior to Government granting sufferance occupation in 1875, from which year to 1882 she paid £2 10s. per annum to the Crown. In 1882 got notice to quit.

Area:—About 9¼ acres enclosed, of which about 5 acres are cultivated.

Nature of improvements:—Cultivation, fruit trees, viz.—Oranges, Lisbon lemons, citrons, mandarins, pears, peaches, apples, quinces, plums, etc. Buildings—Dwelling, divided into four rooms, built of slabs and iron roof, with pine ceiling and slab chimney. Fowl-house—10 ft. x 10 ft. (about), slabs and bark roof. Cart-shed—26 ft. x 12 ft., iron roof and slab sides. Fowl-house—25 ft. x 12 ft., partly walled with palings and wire, roofed with tin. Pig-stye—Of round bush timber. Tank—8 ft. deep, 12 ft. square, covered with slabs. Fencing—About 200 rods, three-railed, split timber.

Value of improvements:—Cultivation, including value of fruit trees, £50 per acre, = £250. Buildings—Dwelling-house, £30; cart-shed, £15; fowl-house (large), £3; fowl-house (small), £1 10s.; pig-stye, £1; = £50 10s. Tank—£2. Fencing—About 200 rods at 4s., = £40. Total, £342 10s.

General remarks:—This land has been well tended, all the fruit trees being in a healthy and flourishing condition, and the quality of the fruit is good. Fencing is in fairly good condition, portion of it being almost new. The sketch enclosed the position of the cultivated area by pink tint; the remainder is bush land not cleared, and used as a run for a horse.

JAS. M'KEOWN,
Cumberland Ranger.

No. 6.

No. 6.

Name of occupant:—Stephen Rourke, senior.

Length of occupation:—About forty years; twenty-eight years prior to obtaining permission from Government in 1875, during part of which time he paid rent—£2 10s. per annum—to the Trustees of the Common. Paid same amount to Government from that year to 1882, when permission to occupy was withdrawn, and notice to quit given.

Area:—About 13 acres (including road that has been surveyed when Common was recently subdivided).

Nature of improvements, viz.:—Clearing, 13 acres. Cultivation—About 1½ acre under strawberries and vegetables; about thirty fruit trees scattered about within portion tinted blue on enclosed sketch. Buildings—No. 1, 30 ft. × 12 ft., bark roof, stone end and chimney, divided into two rooms; No. 2, 30 ft. × 12 ft., divided into three rooms, roofed with bark, and walled with Hobart Town palings (neither in good state of repair); No. 3, open shed, 18 ft. × 11 ft., saplings and bark; No. 4, cow-shed, 11 ft. × 10 ft., sapling sides, bark roof (neither in good state of repair); No. 5, stable of four stalls, covered with bark, split saplings, and slabs (30 ft. × 13 ft.); No. 6, hut, 27 ft. × 11 ft, divided into two rooms, walled with Hobart Town palings, bark roof (not in good state of repair); No. 7, shed, 27 ft. × 20 ft., partly walled with slabs, bark roof; No. 8, small hut, with brick chimney, walled with slabs; No. 9, dwelling-house, 24 ft. × 21 ft., slab walls, with bark and iron roof, divided into four rooms, brick chimney. Fencing—About 350 rods, all over and round paddocks.

Value of improvements:—Cultivation, including fruit trees, £10; clearing, £10 per acre = £130. Buildings—No. 1, £20; No. 2, £15; No. 3, £3; No. 4, £2; No. 5, £12; No. 6, £10; No. 7, £5; No. 8, £5; No. 9, £25; = £97. Fencing—35 rods at 4s., £70. Total, £307.

General remarks:—The whole of this area has been under successive crops of hay, but owing to the action of the Government in withdrawing permission to occupy, Rourke has since refrained from growing this, and the most of the land is now used as grass paddocks. In the subdivision of the Field of Mars Common a road has been surveyed through the portion occupied, as shown on enclosed sketch. This road cuts through the most valuable building on the land, and forms part of the portion so long occupied by Rourke.

JAS. M'KEOWN,
Cumberland Ranger.

No. 7.

Name of occupant:—George Baker (formerly Henry Hatton).

Length of occupation:—Between six and seven years by present occupant. Originally held under sufferance occupation by Charles Reynolds from 1872; Henry Hatton afterwards came into possession in 1873, and continued in occupation until purchased by Baker for £60. Rent was paid to Government by each occupier. Reynolds occupied land for about thirty years, and paid rent to Trustees prior to 1872 at the rate of £2 10s. per annum.

Area:—About 7 acres enclosed, 4¼ of which are under cultivation (fruit trees and strawberries).

Nature of improvements:—Cultivation, consisting of fruit trees of choice quality, viz., lemons (Lisbon), peaches, apples, pears, quinces, nectarines, plums, apricots, &c., and also strawberries. Dwelling-house—27 ft. x 7 ft., divided into four rooms, built of stone, covered with iron; bed-room, 8 ft. x 7 ft., all of iron; kitchen, 12 ft. x 10 ft., of upright boards, with iron roof, and floor of hardwood; bake-house, 8 ft. x 6 ft., built of iron. Fencing—About 40 rods, consisting of three-railed saplings.

Value of improvements:—Cultivation, including clearing, trees, labour, &c., £50 per acre, = £212 10s.; main building, £160; bed-room (iron), £12; kitchen, £10; bake-house, £3; = £185. Fencing, £2 10s. Total, £400.

General remarks:—The fencing is in a bad state of repair; a range of rocks forms a considerable portion of the boundary. Occupant states that he clears about £ per annum from the fruit grown, which are of a choice variety. Appended hereto is a sketch giving particulars, and showing (tinted pink) the area under cultivation approximately.

JAS. M'KEOWN,
Cumberland Ranger.

No. 8.

Name of occupant:—Thomas Jenkins, sen.

Length of occupation:—Has been occupied by the family for upwards of fifty years. Rent, £2 10s. per annum, was paid to Trustees prior to being allowed to occupy by the Government in 1873. First occupied by Wm. Maher until 1856, then by Mrs. Maher until her death on 22nd May, 1876, when the sufferance occupation was transferred to her grandson, Thos. Jenkins, the present occupant. Rent was accepted until 1882 by the Crown, when notice to quit was served, to vacate by 31st December, 1882. No rent has been since paid.

Area:—About 5¾ acres, all under cultivation.

Nature of improvements:—Cultivation—Choice kinds of fruit trees, apples, peaches, pears, quinces, nectarines, &c. Building—20 ft. x 10 ft., walled with iron, with iron roof, stone chimney. Shed—12 ft. x 10 ft., walled with boards (pine), and roof of Hobart Town palings. Fencing—9 rods only.

Value of improvements:—Cultivation, including fruit trees, clearing, &c., £50 per acre = £287 10s. Building, £20; building, £10; = £30. Fencing, about £2. Total, £319 10s.

General remarks:—This site is highly adaptable to the purpose of cultivating fruit, having the advantages over the neighbouring higher land of shelter and good soil. In fact for this particular purpose these sites are not to be equalled on any other part of the Field of Mars Common. With the exception of the southern end this land is bounded by natural features, viz., the Lane Cove River on the east, and a high range of rocks on the west, thus necessitating only a small amount of fencing. Herewith is a sketch showing particulars. The area tinted pink is under cultivation.

JAS. M'KEOWN,
Cumberland Ranger.

No. 9.

Name of occupant:—John Hughes (formerly Henry Hughes).

Length of occupation:—Family have been in occupation for about thirty-nine years. Paid rent to Trustees of Common before obtaining sanction from Government, when rent was paid to Crown of £2 10s. per annum until 31st December, 1882, when notice was given to quit.

Area:—About 3¾ acres, all under cultivation.

Nature of improvements—Cultivation—Various choice fruits, viz.:-Oranges, lisbons, mandarins, peaches, pears, quinces, apricots, apples, grapes, plums, and strawberries. Most of this area has been trenched from 18 inches upwards in depth. Building (main)—26 ft. x 12 ft., of four rooms, part stone, with brick chimney; external upright, 1 in. hardwood boards; internal partition walls, 1 in. pine boards; floored with hardwood, and iron roof. Fruit-shed—16 ft. x 10 ft., paling wall and bark roof. Room—8 ft. x 6 ft., iron roof. Fencing—About 20 rods, saplings only.

Value of improvements—Cultivation, including value of fruit trees, &c., £100 per acre = £375. Building (main)—£150; do., £12; do., £4; = £166. Fencing—£1 10s. Total, £542 10s.

General remarks:—The improvements on this portion are superior to any of the other occupations, and appear to have received more care and attention. The position and quality of the soil render this portion highly suitable for cultivation, as may be proved by the amounts realized by the occupant for the fruit raised, viz., about 2,700 quarts of strawberries, were raised last season, and about £300 was realized by fruit grown. The portion is naturally bounded by the river on one side, and a high range of rocks on the other. I have enclosed a sketch herewith, showing position of the land and other particulars.

JAS. M'KEOWN,
Cumberland Ranger.

No. 10.

Name of occupant:—Edward Tunbridge (formerly Mrs. Jane Baker, his mother-in-law).

Length of occupation:—Occupied by family for about thirty-six years, but by Tunbridge himself for twenty-five years. Paid rent to Trustees prior to being permitted to occupy by Government in 1872; permission withdrawn in 1882, up to which time £2 10s. per annum was paid for rent.

Area:—About 3 acres; under cultivation.

Nature of improvements —Cultivation, consisting of fruit trees, strawberries, viz., peaches, oranges, pears, apples, mandarins, quinces; about 1 acre under strawberries. Building—12 ft. x 10 ft. 6 in., slabs, covered with iron and floored with pine, slab chimney (new); shed for packing fruit, 18 ft. x 13 ft. 6 in, of slabs, with paling roof; not in good state of repair.

Value of improvements:—Cultivation, including value of fruit trees, &c, £30 per acre = £90; building, £20; shed, £5. Total, £115.

General remarks:—The improvements on this portion were originally equal in quality to the others, but owing to the uncertainty of his tenure the occupant, on receiving notice to quit from the Government in 1882, allowed the place to fall into disrepair and neglect; the fences being broken cattle have entered the land, and, to some extent, destroyed the fruit trees. The old dwelling, of which I have given no account under nature or value of improvements, gradually decayed, and has been apparently pulled down and removed. Occupant having a large family dependent upon him has been obliged, from the uncertainty of the action of the Government in these cases, to, in a measure, abandon this land and start a fresh orchard at North Ryde, in order that if the land was resumed by the Government without compensation he would not be wholly destitute, for it was on the product of this land that he and his family subsisted. His son and a labourer are at present at work on the land, tending the fruit trees and strawberry plants. They reside on the land.

The portions tinted pink on the sketch herewith are those under cultivation.

JAS. M'KEOWN,
Cumberland Ranger.

No. 11.

Name of occupant:—Mrs. Josiah Russell (now Mrs. Louis Dupont), married within the last four months.

Length of occupation:—Land has been occupied for about fifteen years. In the first instance by a man named Swasher (?), but for a short time only. It does not appear that he paid rent to the Trustees of the Common. Russell, upon entering in occupation, gave Swasher £6 for his improvements, but these have since decayed and been removed and replaced by Russell before his death. Rent has been paid by the Russells from 1875, when Government gave permission to occupy under sufferance, to 1882, when such permission was withdrawn.

Area:—About 3 acres, not enclosed, fence (sapling) having decayed.

Nature of improvements:—Clearing, about 1½ acre. Building—15 ft. x 12 ft., bark hut with stone floor.

Value of improvements:—Clearing, £10 per acre, £15; hut, £6. Total, £21.

General remarks:—This land was once under cultivation, but has been wholly neglected. The fencing having fallen down from decay the cattle have destroyed what fruit trees once grew.

JAS. M'KEOWN,
Cumberland Ranger

Sydney: Charles Potter, Government Printer.—1887.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

FIELD OF MARS COMMON.

(AMOUNT OF SALES EFFECTED.)

Ordered by the Legislative Assembly to be printed, 8 *May*, 1888.

RETURN in completion to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 29th April, 1887, That there be laid upon the Table of this House, a Return showing,—

"(1.) * * * * * * * *

"(2.) The cost of survey and subdivision of the Field of Mars Common.

"* * * *

"(3.) The amount of sales of the Field of Mars Common effected up to this "time, and an estimate of the value of the unsold portions of the "Common."

(*Mr. McCulloch.*)

8. IRON COVE AND PARRAMATTA RIVER BRIDGES—FIELD OF MARS COMMON:—The Order of the Day having been read for the adjourned Debate, on the motion of *Mr. Barbour*, on behalf of Mr. McCulloch, "That there be laid upon the Table of this House a Return showing,—
"(2.) The cost of survey and subdivision of the Field of Mars Common.
"(3.) The amount of sales of the Field of Mars Common effected up to this time, and an estimate "of the value of the unsold portions of the Common,"—
Debate ensued.
Question put and passed.

2. As nearly as can be ascertained the cost of survey and subdivision has been £3,793 12s. 6d., which includes town and suburban lands.

The cost of clearing and forming roads and streets, and removing scrub, has been £11,601. This expenditure should be regarded as relief work.

3. The area sold is 697 acres 1 rood 7 perches, the sum realized being £70,295 18s. 1d. The remaining unsold part is estimated to be worth about £200,000.

COMMONS ACTS, 1873-1886.

(REGULATIONS.)

Presented to Parliament pursuant to Acts.

Department of Mines, Stock Branch,
Sydney, 14 July, 1887.

THE COMMONS ACTS, 1873-1886.

THE following Regulations made by His Excellency the Governor, with the advice of the Executive Council, in accordance with the provisions of the abovenamed Acts, are hereby published for general information.

FRANCIS ABIGAIL.

Fees for extended Pasturage on Common.

1. The Trustees of any Common who shall allow the right of extended pasturage to any animals actually in use by *bona fide* carriers, teamsters, travellers, or drovers for carriage, riding, or driving, on such Common, may demand and receive from the owners or persons in charge of such animals, fees for such pasturage at rates not exceeding those specified in Form 3 hereto.

2. The Trustees of any Common who shall allow any travelling stock to be depastured on such Common, may demand and receive from the drover or person in charge of such stock, fees for such pasturage, at rates not exceeding those specified in Form 3 hereto for that description of stock.

3. All such fees shall be appropriated for the improvement of the Common on which such extended pasturage or the pasturage of travelling stock shall have been allowed.

FORM 3.

Commons Act, 1873-1886.

LIMIT of fees chargeable by Trustees for extended pasturage and for the pasturage of travelling stock.

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

SYDNEY WATER SUPPLY.

(REPORT ON THE PROSPECT DAM BY MESSRS. BISHOP, BENNETT, AND WHITTON, C.E.'S.)

Ordered by the Legislative Assembly to be printed, 20 *June*, 1888.

F. A. Bishop, Esq., C.E., to The Secretary for Public Works.

Sir, 130 Phillip-street, Sydney, 16 June, 1888.

Being honored with your instructions to examine and report upon the present condition of the Prospect Dam, I beg herewith to foreshadow my final conclusions by saying briefly that I have most carefully and diligently applied myself to the task of acquiring information ranging from the smallest details to matters appearing most important.

To the puddle trench I have given especial attention, endeavouring to acquaint myself with all the facts to be obtained in connection with its excavation, with the character of its bottom, and with its contents when refilled. I have also most carefully examined the quality of the material entering the embankment, the method of construction, and the supervision under which the work had been done.

I saw no disposition on the part of any of the officers in charge of the dam to conceal anything. All must have evinced most lively interest in the work; for the thoroughness of the construction of the dam attests their care. I could not find anything to cause in my mind distrust as to the integrity of the embankment. I believe that it will prove entirely stable.

The subsidence lately noticed is measurably inherent in structures of the kind and of such magnitude. All of the movements, in my opinion, can be accounted for. This pile of earthy matter requires time for complete adjustment of its atoms, when it will rest. It is not a confused heap of rubbish hastily thrown together, but composed of suitable materials intelligently placed.

Believe me, Sir, the Prospect embankment is amply able to support the burden appropriated to it.

I have, &c.,

F. A. BISHOP, C.E.

F. A. Bishop, Esq., C.E., to The Secretary for Public Works.

Sir, 130, Phillip-street, Sydney, 16 June, 1888.

I have the honor, in pursuance of your instructions of the 2nd instant, to forward to you a report *ad interim* on the condition of the Prospect Dam, to assure you of its perfect stability.

Upon the termination of my duties in the Commission, to which you have been pleased to appoint me—they appearing to be matters of great urgency—I shall hasten to condense and arrange the volume of data which I have obtained relating to said embankment, and at the earliest moment will lay my conclusions before you.

I have, &c.,

F. A. BISHOP, C.E.

REPORT ON SLIP AND SUBSIDENCE, PROSPECT DAM.

IN accordance with previous instructions, I accompanied Messrs. Whitton and Moriarty to inspect the Prospect Dam on the 24th May.

Attention had been drawn to two defects:—That a narrow opening in few places exceeding an inch along the top of dam on inner face of puddle trench. Second,—the slip between 51 and 55 chains at a point where the finished height of dam will be 34 feet.

On the 8th June I had another opportunity of examining this work when accompanying the new Board on their inspection. It was then found that the crack along the central deepest part of the dam had developed into a sudden settlement of the puddle, amounting to 10 inches. On the preceding Saturday the slip at 51 and 55 chains—though very slightly moving—had only sunk 7 inches, and moved forward 9 inches at the maximum point, but had not extended on either side.

At the crack in central part of dam a trench 8 to 10 feet deep had been excavated, exposing the material of which the inner slope of dam was composed—which proved to be a compacted mass of mixed clays of a superior character, which stood perfectly upright and stiff. The

The sinking had been caused by the consolidation of the puddle at that part, varying from 100 to 150 feet deep. There was no movement whatever in the material of inner slope; the line of water surface and contractor's railway was perfectly straight to the bulge at 51 chains, and no indication whatever of any subsidence beyond that of the puddle in trench, which may reasonably be expected and which was provided for by a margin of 5 per cent. in the height of filling, the irregular settlement of slope and puddle being the only cause of the apparent defect.

The slip from 51 to 54 chains consisted of a subsidence of the inner slope and puddle, amounting in all to 5½ feet at 54 chains, and decreasing to 3·4 at 53 and 1·11 at 55, with a projection or sliding out of the foot of slope amounting to a maximum of 3½ feet at 54 chains.

Having inspected the bank here both in front and rear on both of my visits, and on the first visit having examined the weep from the drain in outer slope of dam, which was very small in quantity and perfectly clear and free from suspended clay, it was evident that there was not the slightest injurious percolation at any point of the dam.

The Resident Engineer, Mr. Ryan, informed me that near the 51st chain the puddle-trench was deeper and not brought up so quickly as inner or outer slopes of dam, that to keep the trench dry when being filled. During the wet season of last year the contractor was obliged to dam back the rain which, for some time, lay in a pool on the surface of inner dam, this water soaked in and made the filling soft at this place and level, and the subsequent filling above put on in dry weather became a coherent solid mass and like a stone thrown into soft clay sunk into the substrata pushing out the toe of the slope, and allowing the puddle in its plastic state to follow the movement, however, both filling and puddle appear now to have attained a permanent position as all perceptible movement has ceased.

This settlement of the inner slope, which has not occurred elsewhere, is thus fully accounted for, and leads to the conclusion that the settlement was purely local, and could not in any way be attributed to the failure of the foundation of dam, as has been asserted.

I am therefore of opinion that the dam is perfectly safe. The material of which it is composed is admitted by all to be of the very best description. Its width at the present water level is 118 feet, and at the proposed maximum level will be 63 feet. No injury below the water surface is ascertainable.

The accident is not an unusual one, indeed, on railway banks is looked for as a matter of course, and in this case been provided for by an allowance of 5 per cent., the unequal settlement is due to the difference in height between the puddle wall and the ordinary filling, amounting in some cases to over 60 feet.

Mr. Moriarty explained that it was his intention to allow the water to rise very gradually to fill up carefully the sinking of puddle-trench and inner slopes in thin layers as rapidly as could be safely done, so as if possible to get a top convexity on the dam before wet weather. I think with these precautions, though much unequal settlement may occur, that the dam will, within a reasonable time, attain a state of permanent stability, and that until then possibility of danger will be averted by careful watching and by retaining the water at its present level.

WILLIAM C. BENNETT,
M.I.C.E.

Minute by The Engineer-in-Chief to The Secretary for Public Works.

Department of Public Works, Railway Branch,
Engineer-in-Chief's Office, Sydney, 18 June, 1888.

Subject:—"Subsidence in Prospect Dam."

In attention to the instructions of the Minister, contained in a communication dated 7th May last, I have the honor to report that on the 24th ultimo I inspected, in company with Messrs. Moriarty and Bennett, the embankment of the Prospect Dam.

The object of our visit was to ascertain, as far as practicable, if the reported settlement in the embankment was at all likely to affect the permanent stability of the reservoir.

The works generally were examined, but our attention was specially directed to a portion of the embankment on the south side of the reservoir where a settlement had taken place of the slope of the bank on the inside, and including the puddle trench.

When attention was first publicly called to this settlement as being considerably more than had taken place in any other part of the embankment, it was perfectly clear that as the bank throughout had been formed with similar material, some special circumstance must have occurred at this particular place which would account for the extra depression in the embankment.

The length of this settlement was 368 feet, and the greatest depth to which the bank sank was 5·64 feet, at 54 chains.

It is reported by Mr. Ryan, the Resident Engineer, that during the "construction, and for some months of the early part of last year this portion of the embankment was, by a long way, the most extensively flooded, and was usually covered by a large sheet of water after each rainfall."

This may be, and probably is, the cause of the extra sinkage to the embankment at this particular place. The lower part of the bank and the puddle trench having become saturated with water, the weight of the embankment has forced the inside slope outwards, and disturbed the stone pitching on the northern face of embankment.

The first subsidence took place when the bank was within 2·35 feet of the finished top, on the 22nd April last, and the total subsidence up to the present time has been 5·64 feet, the total lateral movement of the inner slope being 3·5 feet. Since the 6th June both these movements have ceased, but further disturbance will, no doubt, take place.

The puddle wall at the bottom of the trench is 11 feet in thickness; at the surface of the original ground, and at a height of 34 feet, the thickness is 16·31 feet; and at the top, 57 feet from the bottom, the thickness is 8·95 feet, which is quite sufficient for the purpose intended.

I see nothing in the subsidence of the puddle wall or in the lateral movement of the inner slope of the embankment to raise the slightest doubt as to the perfect stability of this portion of the reservoir.

JOHN WHITTON.

Sydney: Charles Potter, Government Printer.—1888.

[3d.]

1887-8.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

WATER SUPPLY, SYDNEY AND SUBURBS.

(INFORMATION RESPECTING.)

Ordered by the Legislative Assembly to be printed, 23 *July*, 1888.

[*Return prepared in fulfilment of a promise made by the Honorable the Secretary for Public Works in reply to a question Mr. Withers, M.P., dated 13th July*, 1888.]

QUESTIONS.

(1.) How many distributing reservoirs (or distributing and storage combined) are proposed for supply of Sydney and suburbs?
(2.) Where are they situated and at what height?
(3.) What is the capacity of each?
(4.) What is the amount expected to be available for daily supply from each, either for other reservoirs or for direct distribution?
(5.) How is each to be supplied—by gravitation or pumping?
(6.) If by gravitation, what is the maximum capability of supply-pipes?
(7.) If by pumping, from where, what height to be lifted, and maximum capability of pump and connections?

ANSWERS.

WATER SUPPLY OF SYDNEY AND SUBURBS.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

KENNY HILL RESERVOIR SCHEME.

(REPORT OF BOARD APPOINTED TO INQUIRE INTO.)

Ordered by the Legislative Assembly to be printed, 27 *June*, 1888.

THE following gentlemen were appointed a Commission to inquire into and report upon the proposals made by Mr. Gipps to form a High-level Service Reservoir at Kenny Hill :—

F. A. BISHOP, ESQ., C.E.
E. E. SAWYER, ESQ., M.A., M.I.C.E
R. L. MESTAYER, ESQ., A.M.I.C.E.

FRIDAY, 15 *JUNE*, 1888.

THE Commissioners met about 3 p.m. in office of Under Secretary for Public Works. They were then received by Mr. Secretary Sutherland, who handed to them the plans, letter, and estimate which he had received from Mr. Gipps, and requested that a report might be sent to him at as early a date as possible.

Upon returning to the Under Secretary's office, Mr. Bishop was elected Chairman.

The following letter was received from the Under Secretary :—

Gentlemen, Department of Public Works, Sydney, 14 June, 1888.

A proposition having been made by Mr. F. B. Gipps, C.E., to substitute a high-level scheme for the supply of water to the Woollahra Reservoir, in lieu of works at Potts' Hill proposed by the Engineer-in-Chief for Harbours and Rivers, Mr. Secretary Sutherland promised an influential deputation which waited upon him in reference to the matter that he would have the proposal of Mr. Gipps investigated by a Board of competent engineers.

I am therefore to ask whether you are prepared to undertake such investigation. Mr. Sutherland desires the proposal considered—

1. As to its feasibility or otherwise.
2. As to its desirability or otherwise.
3. As to its probable cost.
4. Whether in the event of its being carried out it will render unnecessary the construction of the Potts' Hill Reservoir.

Tenders for this latter work are to be received on the 27th instant, the Minister will be glad therefore, if before that date, if possible, he be furnished with a preliminary report as to whether the scheme of Mr. Gipps presents features which show that it is worthy of a more extended examination.

Mr. Gipps has reduced his proposal to writing, and has also illustrated it with certain plans; these documents will be laid before you, and Mr. Gipps will also be prepared to attend himself and further explain his views.

Mr. Moriarty has also been requested to attend, and give all necessary information which you may require from him to enable you to judge as to the relative merits of the two proposals.

I am to add that the election of your Chairman will be left to the discretion of the members of the Board.

An early answer will oblige, as Mr. Sutherland wishes the inquiry to be entered upon, and concluded, with as little delay as possible.

I have, &c.,
J. BARLING,
Under Secretary.

P.S.—Plans marked "A," "B," "C," and "D," herewith, also Mr. Gipps' letter of the 9th instant, giving particulars of his scheme.

Report of Commission.

To the Honorable John Sutherland, M.L.A., Secretary for Public Works, Sydney.

Sydney, 26 June, 1888.

Sir,

We, the members of the Commission appointed by you, in reply to the questions submitted to us in the letter of the Under Secretary under date of the 14th June, have now the honor to submit the following replies:—

I.—(1.) As to whether the Kenny Hill Scheme, proposed by Mr. Gipps, is feasible or otherwise?

We are of opinion that the proposed Kenny Hill Scheme in its present form is not feasible, but that it might be amended so as to work satisfactorily.

We propose next to reply to the third question in your letter of instructions, seeing that it has an important bearing upon the "desirability" to be dealt with in the reply to your second query.

(2.) As to its probable cost?

We estimate the probable cost of the Kenny Hill Scheme at not less than £300,000.

(3.) As to its desirability or otherwise?

We consider that this question practically resolves itself into a comparison between the cost of gravitation supply to Woollahra Reservoir, and pumping from Crown-street into Woollahra Reservoir. The former we estimate at £300,000—the latter at the outside, £214,000. This being the case we are of opinion that it is not desirable to carry out the Kenny Hill Scheme.

(4.) Whether, in the event of its being carried out, it will render unnecessary the construction of the Potts' Hill Reservoir?

We are of opinion that the Potts' Hill Reservoir would be required in the event of the Kenny Hill scheme being carried out.

The facts laid before us are clear and conclusive, and these replies express our several individual opinions, which in each case coincide.

II. *Kenny Hill Scheme.*—Taking this from its commencement, we first deal with the reservoir, and are prepared to accept Mr. Gipps' estimate of 285,000,000 gallons as its storage capacity, as well as a pipe delivery of 8,000,000 gallons per day of twenty-four hours. This, however, is the maximum supply attainable, as gaugings of the river show that during 1868-9 there was a period of fifty consecutive days during which the flow averaged only 2,500,000 gallons per day. Taking for granted that the whole of this supply is available, and that the Kenny Hill Reservoir would be full at the commencement of the dry period, there would, at the end of the fifty days, have been only 10,000,000 gallons left in the reservoir. Duplication of this scheme, or the supplying of any increased demand from this source, is therefore out of the question.

We are of opinion that the proposal to do without stop-valves on such a length of pipe is undesirable and unsafe, for the following amongst other reasons:—

In the event of any breach occurring in the main, nearly the whole of the water contained in it would be wasted, and also since some time would necessarily elapse before the outlet valve in the tail bay could be closed, more or less of the water stored in the reservoir would also be wasted. Such an occurrence could not take place without causing serious inconvenience, much probable loss to residents in the low-lying lands; even loss of life might ensue.

Besides this, if at any time it were necessary to effect repairs to any portion of the main, or to take off a branch for a subsidiary supply, the introduction of valves would minimise the inconvenience caused by an interruption of the supply, the only time lost in addition to that of effecting the repairs, &c., being that required to empty and recharge the length of main between two valves. The introduction of these valves would be a further reason for having all the longitudinal joints of the conduit double riveted, which, however, we deem to be necessary in any case.

It is claimed for the Kenny Hill scheme that it will give a daily supply of 8,000,000 gallons at a level of 282 feet above S.H.W.; but it is an established fact in supplying towns with water that one-half the daily supply is consumed in six hours, and the pipe must therefore either (*a*) be capable of supplying the water at that rate, or (*b*) there must be storage capacity at the above level to contain at least one day's supply.

The capacity of the 38-inch pipe from Kenny Hill is 8,000,000 gallons in twenty-four hours, or 2,000,000 in six hours, which, from the above rule, corresponds to a daily supply of only 4,000,000 gallons, unless the capacity of the Woollahra Reservoir can be increased to receive 8,000,000 gallons.

It appears from the evidence given that the reservoir cannot practicably be increased to more than double its present capacity (1,000,000 gallons), therefore the surplus water would have to be stored elsewhere, the nearest available spot being 57 feet below the present reservoir, and the advantage claimed for the Kenny Hill scheme on account of the higher level at which the water would be delivered must be proportionately reduced.

III. *Mr. Gipps's Estimate.*—Although Mr. Gipps states that he is prepared to enter into a bond with the Government to construct the works for the amount in his estimate, the plans and estimates submitted to us are not, in our opinion, such as would justify a contract being entered into. The scheme would have to be examined in detail, surveys made, and contract plans and estimates prepared. There can be no doubt that it would cost the sum put down by Mr. Gipps, but further additions, such as previously pointed out, would be necessary, besides others which might appear on further investigation.

Amongst other items to be added, for which estimates are wanting or insufficient, are the screening-tank and foregate. The depth of the puddle-trench could not be decided upon without further investigation, and the cost could not be less than Mr. Gipps's estimate, and might come to £4,000 more. The inlet and stop valves and the double riveting would probably add £10,000, and the new reservoir at Woollahra, according to Mr. Jones's estimate, might come to £20,000.

As to the sum put down for pipes it is in our opinion very low. Checked by recent rates paid by the Government, this item would necessitate a very large increase—perhaps not less than £50,000.

We do not therefore consider that these modifications and additions are provided against, even with a total estimated cost for the work of £300,000.

IV. *Comparative Cost.*—The average cost of pumping 1,000,000 gallons 100 feet is in England, as shown in Mr. Moriarty's evidence, £1 2s. The cost of doing so in America, where the wages and the cost and quality of coal assimilate more to this Colony, is £2 6s. It should not cost more than this, but for purposes of calculation we propose taking it at £2 10s., or 6d. for raising 1,000,000 gallons 1 foot.

In practice the supply of 8,000,000 gallons per day of twenty-four hours, delivered into Woollahra Reservoir would not be continuously drawn upon, and therefore 2,000,000 gallons would have to be stored in the proposed new reservoir 57 feet lower, so that the pumping required from Crown-street to yield an equal supply would be 6,000,000 gallons, 141 feet, and 2,000,000 gallons, 84 feet, at a cost of £9,252 per annum. This capitalised, at twenty years purchase, would represent a sum of £185,000.

To this must be added the cost of a second pump at Crown-street which, according to Mr. Jones, might be saved, if the Kenny Hill scheme were carried out, amounting to £8,000; thus the total cost of pumping the outside quantity derivable from Kenny Hill would be £193,000.

Supposing the whole of the 8,000,000 gallons was pumped into Woollahra, 141 feet, the cost would amount to £214,000.

This outside quantity will not be required for some years, as at present the consumption only amounts to 3,000,000 gallons per day. Until it is required, the cost of pumping would be proportionately less.

V. *Potts Hill Reservoir.*—The object of the Potts Hill reservoir is to afford a daily supply of at least 10,000,000 gallons to the Western Suburbs and North Shore, quite independently of any supply to the city by means of Crown-street Reservoir. [*See Appendix B.*]

The Kenny Hill scheme is intended to afford a city supply of 8,000,000 gallons per day of twenty-four hours to the higher level at Woollahra.

As the delivering capacity of the Kenny Hill scheme (8,000,000 gallons) is less than the daily quantity required from Potts' Hill Reservoir (10,000,000 gallons), it could not fulfil the purposes of the Potts Hill reservoir alone, much less could it give in addition any supply to the city at Woollahra.

There is a small limited area in Burwood and its neighbourhood which is above the level at which it can be supplied by the present service. This, Mr. Jones estimates, can be dealt with by a small pumping scheme at Petersham Reservoir, the cost of working which would amount to £400 per annum. If this were drawn off from the Kenny Hill pipe it would only mean so much less delivered at Woollahra, and the saving effected on this pumping expenditure would of course have to be discounted from the cost of pumping that same amount at Crown-street.

VI. *Advantages claimed by Mr. Gipps.*—As to the advantages claimed by Mr. Gipps for the Kenny Hill proposal over the Potts' Hill Reservoir it is self-evident that such cannot exist. Were the whole supply from Kenny Hill drawn off for the western suburbs and North Shore, and not any of it allowed to go into Sydney, it could not even then meet the demand for which the Potts' Hill Reservoir makes provision.

Supposing however the whole supply to be brought into Sydney, we would make the following remarks as to the advantages claimed by Mr. Gipps for Kenny Hill on their own merits, without any reference to the Potts' Hill Reservoir, which provides for totally different requirements.

(*a.*) It conserves a large supply of water otherwise running to waste.

This cannot be considered to be the case, as the Kenny Hill Reservoir is not supplied from an independent source, and in lengthened periods of drought it would only be robbing the Prospect Reservoir of its supply.

(*b.*) It takes the water at a point where it has been but little liable to contamination.

The Commission has no instructions to investigate as to the contamination which it is inferred takes place in the present supply, but the published analyses put in show that such contamination exists only to such a slight extent as to make it immaterial.

(*c.*) It duplicates the present supply of the city and suburbs, which is an important factor in its favour on account of the complicated character of the present works.

This cannot be considered as being strictly the case. The present supply to the City is 20,000,000 gallons; that proposed from Kenny Hill is 8,000,000 gallons taken from the same original source. There does not appear to be any "complicated character" in the present scheme. Potts' Hill balance reservoir will have a reserve supply of 100,000,000 gallons in case anything should occur to the 6-feet pipes or canal between it and the Prospect Reservoir. The supply from this point can be duplicated in the strict sense by a second 48-inch pipe, giving double the present supply, and which it is understood is about to be laid.

(*d.*) That it would stimulate industries by a high-pressure service.

The service would in any case be supplied from the Woollahra Reservoir, and whether it is provided by gravitation from Kenny Hill or by pumping from Crown-street is a matter of indifference to the consumer. It has been shown that the gravitation supply from Kenny Hill into Woollahra would be the more costly, and therefore a higher charge would have to be made if the water were procured from the first named source.

(*e.*) Its value for fire extinction can hardly be estimated.

This is met by the former consideration. The water for this or any other purpose is drawn from a reservoir, and whether the water is pumped into the same or reaches it by gravitation makes no difference.

VII. General Remarks.—As there appears to be some misapprehension with regard to high and low pressures, it should be understood that these are relative terms, and that the difference between Crown-street and Woollahra Reservoirs of 141 feet does not constitute the latter a high pressure with regard to the former. This difference would only give a pressure of 61lb. per square inch, and for industrial and mechanical purposes would practically be useless. Following the calculation made by Mr. Gipps, and making a deduction of 89 feet from the sea-level, the total pressure from Woollahra Reservoir would only be 83lb. per square inch—which would be of little or no value for industrial purposes.

A deduction should be made of from 30 to 40 per cent. from this theoretical effect in estimating the value of the water-pressure for motors. With regard to lifts, Mr. Jones shows clearly that the Woollahra pressure is insufficient to give satisfaction in working.

The following extract from a report made by Colonel Mendel, of the United States Engineer Corps—a distinguished authority in America on hydraulics—cannot be too carefully considered in comparing gravitation with pumping schemes :—

> "It is sometimes asserted that a gravitation system is in itself to be preferred to a pumping system. The choice between them, must, however, be held to rest upon their relative economy. It is a sound proposition that, other things being equal, the cheapest is the best for the interests of the community. To the people it makes little difference whether the water rates go to pay for coal or for interest, but they are very much concerned in the amount of these water rates."

It would appear from Mr. Gipps' statement concerning the general use of water for motive power in San Francisco that he has somewhat misapprehended the present facts. Some years ago, when "lifts" were becoming common, many were driven directly by water from the street mains, but this was soon found to be too expensive, the price of water being 30d. per 1,000 imperial gallons. The method afterwards employed for hydraulic lifts was to use the same water repeatedly for ram purposes, by raising it to a tank at the top of the building by steam or gas power, and this reservoir gave the pressure required by force of gravity. After use the water was again returned to the tank by the power mentioned ; or the water is directly forced by steam-power into an accumulator or equivalent device, for the purpose sought; but in no other way, it is believed, is water used for motive power.

Without denying that a high pressure service possesses certain advantages, a city supply suitable both for domestic and also for purely mechanical purposes cannot under the present conditions of Sydney be obtained.

By increasing the 1,000 gallons per hour—stated in the evidence—per horse-power, 30 per cent., for inefficiency of motor, that quantity becomes 1,300 gallons, or 10,400 gallons for a day of eight hours for 1,000 horse-power, which will not be an excessive estimate for the power requirements of a large city, the consumption daily for working days would be 10,400,000 gallons, or a supply for 41,600 families of five persons, each member consuming 50 gallons per day of twenty-four hours. To carry out such a scheme within reasonable expenditure a city must be exceptionally situated in the matter of convenience to source of supply.

Mr. Gipps in his statement made to the Commissioners on Monday the 25th instant, said that Mr. N. Selfe, in a paper read before the Royal Society of New South Wales, had estimated the value of a 100-foot head above Crown-street at £927,000. Mr. Selfe did not give the Commission any evidence as to this, nor have we any information as to the data upon which this estimate is based ; but it must again be pointed out that the Woollahra Reservoir being the source from which this would be derived, it makes no difference to the calculations whether the water obtained thence is supplied by pumping from Crown-street, or by gravitation from Kenny Hill—the cheapest method being the best.

With regard to the 6-foot pipe-line which, Mr. Gipps considers "offers a factor of danger," the Commission inspected this carefully in the company of Mr. Gipps. No movement whatever was observed in the lead packing, nor was it likely to have taken place from the time the water was turned on. The temperature of such a volume of flowing water would be practically uniform, and would not vary sufficiently to cause any deleterious effect.

Mr. Gipps deserves grateful recognition for putting forward his present proposal, which is one well worthy of a *primâ facie* consideration such as it has now received, but with regard to the Minister's desire to know "whether the scheme of Mr. Gipps presents features which show that it is worthy of a more extended examination," we have the following to remark :—

Were the source of supply totally different from the present one, and the supply itself unlimited, or sufficiently ample to allow of extension or duplication, it might be well worth while to spend the much larger sum in carrying out such a scheme. These two vital points are, however, wanting; and considering the great additional cost required, which in our estimates it has been our endeavour to minimise as much as possible, we are of opinion that further investigation would only establish a greater difference than the one we have shown, without any corresponding advantages.

We have the honor to be,
Sir,
Your obedient servants,
F. A. BISHOP, C.E., Chairman.
E. E. SAWYER, M.A., M.I.C.E.
R. L. MESTAYER, A.M.I.C.E.

MINUTES OF CORRESPONDENCE AND EVIDENCE.

SATURDAY, 16 *JUNE*, 1888.

The letter of instructions received from the Under Secretary was read and considered, and the following reply prepared and forwarded:—

Sir, Department of Public Works, Sydney, 16 June, 1888.

We have the honor to acknowledge the receipt of your letter of the 14th instant, informing us that Mr. Secretary Sutherland had appointed us a Commission to inquire into the proposals made by Mr. Gipps regarding a reservoir at Kenny Hill, and its connection with the Sydney Water Supply at Woollahra, and inquiring whether we are prepared to undertake the investigation.

In reply to your inquiry we have the honor to state that we are prepared to undertake such investigation, and will, in accordance with the Minister's desire, submit a report thereon at the earliest possible date.

The plans marked A, B, C, D, together with Mr. Gipps' letter of 9th instant, and accompanying estimate referred to in the postscript to your letter, have been duly received by us.

We have, &c.,
F. A. BISHOP.
R. L. MESTAYER.
ERNEST E. SAWYER.

Mr. Gipps' proposition to the Secretary for Public Works as follows was read, and the plans and estimate submitted by him were examined:—

Sir, 61, Castlereagh-street, Sydney, 9 June, 1888.

I have the honor herewith to hand you particulars of the Kenny Hill Scheme, suggested by me in place of Potts' Hill Reservoir.

The site of the reservoir is situated at Kenny Hill, about 19½ miles on present line of canal. The reservoir is estimated to impound 250,000,000 gallons of water at an elevation of 340 feet at base above high-water mark, Sydney.

The length of dam is 1,430 feet; the maximum height 38 feet. An outlet tunnel 800 yards long leads the water supply to the Campbelltown side of the range, whence it is conveyed by a 38-inch wrought-iron pipe to the Woollahra Reservoir in the direction and course on plan.

The whole cost of the work is estimated at £244,059.

I have, &c.,
FRED. B. GIPPS, C.E.

To the Hon. the Minister for Works.

The following letter was sent to Mr. Moriarty, C.E., Engineer of Harbours and Rivers:—

Sir, Sydney, 16 June, 1888.

We have been directed by Mr. Secretary Sutherland to investigate and report upon Mr. Gipps' proposal to substitute a reservoir at Kenny Hill for the one proposed by you at Potts' Hill, and its advantages or otherwise, as regards the supply of water to Sydney.

In the letter of instructions, which we have received, we are informed that you have been instructed to supply us with any information you may have, bearing on the schemes in question, which would assist us in judging of the relative merits of the two proposals.

Mr. Gipps has submitted a general plan of the district, a plan of the proposed reservoir at Kenny Hill, a section of the pipe line, from Kenny Hill Reservoir to the Woollahra Reservoir, and details of outlet tunnel.

We should be glad to receive from you any plans you may have of the site of the proposed reservoir at Kenny Hill, details of borings and sections, or any other particulars of levels of country between Kenny Hill and Woollahra Reservoir, and any estimate you may have of this work, also plans, sections, and estimates of the Potts' Hill Reservoir, and its connection with the Sydney Water Supply.

We have, &c.,
F. A. BISHOP.
R. L. MESTAYER.
ERNEST E. SAWYER.

E. O. Moriarty, Esq.,
Engineer-in-Chief for Harbours and Rivers.

Plans, sections, and estimates of Potts' Hill Reservoir, sections along line of proposed works, plan of areas supplied by the Potts' Hill Reservoir, plans of the district adjacent to the proposed reservoir at Potts' Hill and Kenny Hill, and particulars of sinkings on site of proposed dam at Kenny Hill, were received from Mr. Moriarty.

[Commission adjourned to 10 a.m., Monday, 18th instant.]

MONDAY, 18 *JUNE*, 1888.

Mr. F. B. Gipps examined:—

1. *Chairman.*] We shall be glad to receive any information from you in reference to your proposals for a reservoir at Kenny Hill connected by a pipe-line with the Woollahra Reservoir in connection with the Sydney water supply?

It would be better perhaps if I first give you a general explanation of the scheme. I propose to construct the intake from the canal into the reservoir at a point about 19 miles from the mouth of the tunnel in the Nepean River. For a large portion of the distance the conduit would be covered, running through from 6 to 7 miles of tunnels; for the rest of the distance it would chiefly flow through sandstone cutting. The point from the canal to the reservoir is in a shallow cutting, so that the water could be let off into the reservoir without any difficulty. The area of the watershed around the reservoir is about 300 acres. It is formed by the divide of the Nepean and George's Rivers and a long lateral spur therefrom. It is generally well wooded, and has steep slopes to the site of the dam. The area of the reservoir as proposed is 70½ acres; its estimated storage capacity, 285 million gallons. The site is particularly well suited for its purpose, the largest portion of it being a broad deep basin. Its bottom is a deep

clay

clay bed, perfectly impervious to water. The length of the dam I propose is 1,430 feet, its maximum height is 38 feet, its water-level is 35 feet. Its eastern extremity abuts on the slope about 60 or 70 feet from the line of the present canal. Its western extremity abuts at the end of the spur before referred to. With regard to the material for forming the dam, there is plenty in the spoil banks which have been thrown up from the cutting of the canal, and in the above spur. For the puddle there is an unlimited quantity of clay in the neighbourhood. The stone pitching would have to be obtained from a distance. The selected material could be got in the neighbourhood from the sandstone spoil from the tunnel. With regard to the bywash, I propose simply to place a syphon-pipe, 2 feet in diameter, running along and over the western end of the dam at water-level. This would be capable of discharging 50 cubic feet per second. The outlet tunnel is 800 yards long, and pierces the divide on to the George's River or Campbelltown side. The excavation is in medium tough sandstone. I propose to line the tunnel with 18 inches concrete and 6 inches of puddle. At the tail bay end of the tunnel I have made provision specially for Campbelltown supply, independent of the delivery by the 38-inch pipe to Sydney. The pipe-line to consist of 38-inch steel pipes. It follows main roads most of the distance, has no rivers to cross, and no steep grades to climb, and will not be subject to any ram or hydrostatic pressure, and at any point is far below the hydraulic grade line. It flows direct into the Woollahra Reservoir, and the duty of its delivery is estimated at 8,400,000 gallons per twenty-four hours by Darcy's formula, and by Fanning's formula it is equal to 9,100,000 gallons. The thickness of this pipe varies according to pressure; it is $\frac{1}{4}$ inch thick for 14 miles, and $\frac{9}{16}$ inch thick for 20 miles. I propose no stop-valves; air-valves to be provided according to requirements. The pipes would be built in 19 feet 6 inch lengths in the workshops, and would be buried $2\frac{1}{2}$ feet beneath the surface of the ground, and where exposed would be covered with roofing to protect the pipes from the sun's rays.

2. What have you to say as to the advisability of the scheme?

First,—it will conserve a large supply of water otherwise running to waste, thus increasing the value of the present conduit. It would draw off the water of the canal at a point where it has been but little liable to contamination from the shale through which it passes after leaving the Kenny Hill site. Secondly,—it duplicates the present supply to Sydney and Suburbs, as recommended by Mr. Clark, which is an important factor in its favour, on account of the complicated character of the present works. Thirdly,—because it would supply the higher portions of Sydney by gravitation, rendering steam-pumping machinery unnecessary. I propose to use a 10-feet head from the Woollahra Reservoir for the purpose of supplying the Waverley Reservoir by means of a turbine. Every 1,000 gallons per hour will give 1 h.p. at 89 feet above high-water mark at Sydney, and this serves to show that my scheme would stimulate industries of every kind, and that at a rate of 5d. per h.p. per hour—which, I believe, is the smallest charge made in Europe for supply of this kind—it would realize a very large revenue. Its value also for the purpose of fire extinction can hardly be estimated.

Mr. Gipps desired that the previous estimates furnished by him, amounting to £244,059, might be cancelled in favour of those he now submitted, amounting to £258,855, and stated that he was prepared to enter into a bond with the Government to construct the works for the amount of his estimate.

3. What do you consider are the advantages of the scheme as compared with the Potts' Hill Reservoir scheme?

I presume the question to be considered is on what ground is the Potts' Hill Reservoir necessary. In the first place, it must be remembered that Potts' Hill itself is only 10 miles from Prospect Reservoir. It is only 5 miles distant from the end of the canal—which, in itself, will store 50,000,000 gallons of water; and as the canal itself seems to offer all facilities for the delivery of water, I can only conclude that the Potts' Hill Reservoir is necessary on account of the 6-feet wrought-iron pipe-line. That this itself offers a certain factor of danger is apparent to any professional man, as it has no compensating joints, and is exposed for its whole distance of 5 miles to the varied temperature of sun and shade, and, considering that this variation of temperature is at times 60 degrees, and that the length of iron has been proved to increase a 5,000th part of an inch a yard for every 20 degrees of temperature, the movement of this long pipe-line must be considerable, and must eventually cause considerable leakage, as the lead packing will splay at the joints. I cannot imagine the requirements of this reservoir in any other light. In the consideration that it is necessary for storage purposes solely, I will compare the two schemes: The Potts' Hill Reservoir is estimated to store 100,000,000 gallons of water at a cost of £120,000, whereas the Kenny Hill Reservoir will store 285,000,000 gallons at a cost of £260,000. The value of the Kenny Hill scheme, as reckoned by Mr. Clark's estimate (page 21), where £44,000 represents the capital sum to lift $1\frac{1}{2}$ million gallons above Crown-street, is proportionately £304,000 for 8,000,000 gallons supplied to Woollahra Reservoir from Crown-street. Whereas the proposed Potts' Hill Reservoir will actually necessitate a loss of head in the present system of supply, the Kenny Hill Reservoir would actually increase this head by nearly 200 feet.

4. What districts do you propose to supply by your scheme?

The Kenny Hill Reservoir would supply Campbelltown, and all stations between Campbelltown and Liverpool, Bankstown (which is considerably above the level of Potts' Hill), Ashfield, Burwood, Canterbury, Hurstville, Kogarah, North Shore, and Manly, besides all the higher suburbs of Sydney.

Mr. E. O. Moriarty, Engineer-in-Chief for Harbours and Rivers, examined:—

5. *Mr. Sawyer.*] What is the object of the proposed reservoir at Potts' Hill?

As you are aware, it is customary to have distributing reservoirs near all large towns, in case of anything going wrong, and if any accident should happen to the 6-feet pipe-line we should have ten days' supply in this reservoir. The intention is to supply the whole of the western suburbs and the North Shore districts from this source.

6. Is Potts' Hill intended to be a distributing reservoir for the whole of the Sydney and suburbs, or only for the western suburbs and North Shore?

Both.

7. Do you know the quantity of water that is pumped from Crown-street into the Woollahra Reservoir?

20 million gallons per week, I believe.

8. And the quantity pumped from Woollahra into the Waverley Reservoir?
1½ million gallons per week.
9. Can you give us an idea of the cost of pumping the water from Crown-street to Woollahra?
The average cost of pumping at the principal English waterworks, as given in the following statement (*See* Statement A), is £1 2s. for lifting one million gallons 100 feet, and multiplying this by 3 on account of the greater cost of labour, &c., in the Colony, and taking into account the height of 141 feet between the two places, would give as a result the sum of £3 6s. per million gallons as the cost of pumping from Crown-street into Woollahra.

10. If the Chatswood Reservoir were lowered a little, would it not still practically supply the requirements of the North Shore District?
No; because there is a large plateau to be supplied at that height.
11. Could the Potts' Hill Reservoir be done away with and the Ryde pumping station supplied direct from the 6-feet pipe?
No; it would be undesirable to pump direct from the pipes, and therefore the Potts' Hill Reservoir would be still necessary.
12. *Mr. Bishop.*] Did the Potts' Hill Reservoir form part of the original scheme.
Yes; it is shown on the plans.
13. Could Campbelltown and Liverpool be supplied from the proposed Potts' Hill Reservoir?
It is intended to supply these places from the present canal.
14. Is it intended to supply the higher portions of Ashfield, Burwood, Canterbury, Hurstville, and Kogarah from Potts' Hill?
All these places are intended to be supplied by pipes direct from the present scheme, which in fact commands the whole of the country except the higher portions above Crown-street.
15. *Mr. Mestayer.*] Do you anticipate any expansion of the 6-feet pipes laid into the Potts' Hill Reservoir from the effects of the sun?
No; the pipes being generally full of water, the sun would have practically no effect upon them. I would further say, with regard to a high-pressure service supply, that the Woollahra Reservoir will only hold 1,000,000 gallons, and is situated at the top of a hill. If 8,000,000 gallons were required per diem from that reservoir, the capacity would have to be increased to 4,000,000 gallons, or the pipe capacity to 16,000,000 gallons per twenty-four hours.
16. Mr. Gipps laid great stress upon the fact of his scheme duplicating the supply, as was recommended by Mr. Clark?
By the Potts' Hill scheme the supply can be duplicated in 11 miles, and at a less cost than by the Kenny Hill scheme. The present scheme is capable of delivering 50,000,000 gallons per day at Potts' Hill, and the 4-feet pipe will deliver 20,000,000 gallons per day as far as Petersham. It delivers 2,000,000 gallons into Petersham, and carries the balance of 18,000,000 gallons to Crown-street. This can be duplicated by a second 4-feet pipe-line, as was proposed by Mr. Clark.
17. *Mr. Bishop.*] Have you made any trial shafts at the site of the reservoir proposed by Mr. Gipps?
Yes.
18. *Mr. Sawyer.*] Mr. Gipps claims that by his proposal the water would be drawn off before it could become contaminated by the soil through which it passes.
The whole of the canal is pitched with sandstone, and therefore no contamination can possibly take place from the soil. I may state that the water has been recently analysed, and has been found to be exceptionally pure.
19. Have you anything to say in reference to the question as to whether the so-called high-pressure service from Woollahra reservoir would be likely to stimulate industries by making power cheap and available?
It has been found in practice that very high pressure is required for this purpose to work economically—at Newcastle the hydraulic cranes are worked at a pressure of 700 lb. or 1,617 feet—and the difference between the two reservoirs, Woollahra and Crown-street, would not give the required pressure, the pressure from Woollahra being only 282 feet.
20. *Mr. Mestayer.*] Do any means at present exist for making use of the pressure from the Waverley Reservoir for the extinction of fires occurring in the lower parts of the city?
No; but I have before recommended that such a connection should be made, but it has not yet, I believe, been carried out.

TUESDAY, 19 *JUNE*, 1888.

Mr. J. Trevor Jones, Engineer to the Metropolitan Water and Sewerage Board, was called in and examined:—

21. *In reply to Mr. Mestayer.*] I am acquainted with the scheme, as proposed, from Potts' Hill. It will not, from want of elevation, supply the whole of the western suburbs thoroughly, but very nearly.
21A. Can you give the Commission any idea of the area or of the number of houses which cannot be supplied?

I cannot from memory give either the area or number of houses unsupplied, but I some time ago estimated that very few people could not be supplied. The Potts' Hill scheme passes through the heart of Petersham, Ashfield, and Burwood.

22. In estimating this scheme, have you made any estimate of the annual cost of supplying this high-level district?

I have estimated that a very small engine would be required, and the cost would not be more than £400 per annum, not including first cost of the engine, boilers, house, pipes, &c. This price does not include anything but the actual cost of engine-driver, fuel, oil, &c.

23. Can you give any information as to the quantity of water supplied from Crown-street reservoir to Paddington, Woollahra, and Waverley?

They are supplied separately. We pump 2,500,000 gallons per day to Paddington, and 1,000,000 gallons to Woollahra, of which one-third is again pumped from Woollahra to Waverley, 25,000,000 gallons to Paddington and Woollahra per week, in summer. We are contemplating reducing the cost of pumping by the adoption of modern machinery. At the present time it costs about £6 per million gallons pumped to Paddington and Woollahra, in the proportion of 1 to Woollahra to 2½ to Paddington. I think, however, we shall come down to £2 5s. per million, raised 150 feet high. Mr. Clark estimates it at about this amount, and I think we will ultimately be able to do it for this sum.

24. *Mr. Sawyer.*] You are going to get new pumps, are you not?

Yes, because the present engines were never designed to perform the amount of work they are now forced to do to meet the increased requirements.

25. Are the new pumps ordered yet?

A cablegram has been submitted by the Board to the Cabinet, but I do not know whether it has been sent. These engines are worn out, and I have been four years trying to obtain new engines. The new engines are to be of the highest type for economy. It is estimated that they will give a duty of 120,000,000 foot pounds per 112 lb. of good coal. We are counting on getting 90,000,000 from the Worthington type. The best proofs we have of the value of these engines are that Messrs. Simpson & Co. have abandoned the old type of pumping engines, and are now building the Worthington type.

26. Supposing that the Kenny Hill scheme were adopted, would your new engines be required if the water were put into Woollahra direct?

No; there would be no necessity for them if the capacity of the Kenny Hill Reservoir be sufficient to last over a long drought; only a small pump would be required at Woollahra. I have allowed about £12,000 roughly for one pair of engines, boilers, &c., including duplicating the engines immediately. I consider a new engine absolutely necessary now, seeing that it would take some two years to bring the Kenny Hill scheme into use. If the Kenny Hill scheme were adopted, I would advise the cancelling of the order for one new engine, but at the present time we must have a temporary engine to supply water during the coming summer.

27. *Mr. Mestayer.*] Will the present engine at Woollahra be sufficient to supply Waverley in the future?

No; but for two years it will be adequate.

In answer to several questions the following replies were made:—The Botany engines are at present idle. I think the Worthington pump would do the same amount of work at about one-quarter the expense in coal. We cannot use one of the Botany engines to raise water to Woollahra, but if the engine which raises water to Paddington were disabled the Botany engines could be utilized to perform its work partially. If the Crown-street engines broke down, we would not have any substitute, so far as Woollahra is concerned. If the Kenny Hill scheme were adopted, there would be no necessity for any pumping except to Waverley and to North Shore—that is to say, if the storage is sufficiently capacious to last through a year's drought. I am afraid that Botany and Crown-street engines both may break down, as they are old and overworked. I want new engines that I can depend on, as it is impossible to depend on the present engines. We have only one rising main now, and one engine is idle, while the other is working. A duplicate main is on its way from England. If the engines were new they could, if required (when the duplicate main is laid), work for twenty-four hours. The cranks of the Crown-street engines are cracked, and strapped with iron straps, and they may stand for a length of time, but again they may go at any time. The Blake pump at Crown-street is nearly constantly out of order. I think I am allowing ample when I say £400 per year for pumping expenses for the small area in the western suburbs, *i.e.*, Ashfield, Petersham, and Burwood.

28. *Chairman.*] It has been stated that the engines do not work up to nearly their full power,—is that so?

They are working far above their capacity—that is, they are working at a velocity much greater than they were designed for. When the new rising main is laid they will be working within their capacity; but, as I said, these engines are not sound, and might give way at any time.

29. *Mr. Sawyer.*] If one pump will cost £8,000, and with the second, £12,000, would not there be a direct saving of £4,000 if the Kenny Hill scheme were adopted?

Yes. I have adopted Mr. Darley's recommendation of a 250-horse power engine, but if Kenny Hill scheme were adopted a 150-horse power engine would be sufficient for the purpose. In this case I would only want a small room for a covering. If I got the Kenny Hill scheme within two years I could save £8,000, as I could obtain a small engine to do the work of next summer as a temporary arrangement. Mr. Darley estimates 5,000,000 gallons will be required in five years, and I estimated 6,000,000 gallons. I must say that all the above statements about saving are made on the assumption that the Kenny Hill scheme is a thorough success in quantity and every other respect.

30. *Mr. Mestayer.*] Have you made any estimate of the probable population in five or ten years?

I asked a friend of mine to estimate for me, and my calculation was based on this estimate. Mr. Darley, no doubt, had the present Government Statistician to get this information from, and made his estimate accordingly.

In reply to Mr. Mestayer.] There are means at present to connect the different zones of pressure under the present system, but not general and complete. The system was designed some twenty-five years ago. The way we do now is by shutting valves in a particular district and letting in water from the high-level main in one or two places. The districts can only be isolated by shutting a series of valves.

In reply to the Chairman.] The present arrangements are pretty fair, considering the piecemeal way they were put down so many years ago. The city is liberally supplied at present, so far as low-level or Crown-street water is concerned, by a cordon of capacious mains half round the city. I have not completed my design for want of pipes. There are not many complaints from consumers.

31. *In reply to Mr. Sawyer.*] I am afraid to run the high-level supply into the present pipes. In the case of fire I would not like to run the risk of doing so until I had made very careful trials of the main and house services myself, and I have not had the time to do so as yet. I am afraid of the plumbing of the old days giving way in the joints under the floors of houses. If I have to put on the high-level supply for a day or two and shut off the lower one for repairs, I get complaints that the pressure is too great, cups, jugs, &c., being blown out of the holders' hands. The Botany engines are kept as a reserve in case of damage or break-down of the present system.

In reply to Mr. Mestayer.] I know the ground of the Kenny Hill scheme. I know nothing about the character of the ground The water is only brackish after it has been stagnating in the sun; but the volume of water in a reservoir would be so great as to render this unobjectionable. There the soil is of the same quality as at Prospect.

32. *Mr. Mestayer.*] Can the storage at Woollahra be increased?

We might have a reservoir on the Centennial Park, where I had intended to have it before the park was taken over from the City Council. I had made an estimate of £20,000 for a 20,000,000-gallon reservoir at the park. I think it is necessary to have a balance reservoir for the 6-feet pipe; and if so, there is still greater necessity for one in the case of a 38-inch diameter pipe, in order that its contents may run night and day uninterruptedly.

33. *Mr. Sawyer.*] If the Kenny Hill scheme be carried out will, in your opinion, the Potts' Hill reservoir still be required?

Some balance reservoir will be necessary, because Mr. Gipps's calculations are based on an open pipe continually flowing; therefore there must be a reservoir capable of receiving the flow when the consumption does not absorb it. The supply from Potts' Hill will not be a sufficient city supply for a length of time unless a duplicate main be laid from Potts' Hill, because of gardens and the noxious trades requiring water —that is, the slaughter-houses, bone mills, &c., on the Holt-Sutherland Estate, are to be supplied from it, as well as a large extent of new surburbs.

34. *In reply to Mr. Mestayer.*] The scheme was, I believe, originally intended to cover all these purposes. There was a proviso, I am informed, for a reservoir about Kenny Hill, in Mr. Moriarty's scheme, to be applied to irrigation, as a supplement, if it were wanted. In the original scheme Narellan was fixed on to form the supply for irrigation. About one-fourth of the daily supply of water is drawn between 10 o'clock at night and 5·30 o'clock in the morning. This, I ascertained, some years ago. There is a very considerable consumption during the night. The high houses, such as the "Crown and Anchor Hotel," fill up their tanks at night because there is not sufficient pressure during the day. Other places, such as factories and mills, do likewise; and there is also leakage during the night from defective fittings and careless consumers.

35. *In reply to the Chairman.*] I have no estimate of the cost of connecting the different zones in case of fire. I think the present system when complete is an excellent one for an equable distribution, for the reason that we can divide it into zones of various levels.

The Commission then deliberated for a length of time, and adjourned to 7·55 a.m. on Wednesday, when a special train would convey them to view the reservoirs, &c., alluded to in the inquiry.

WEDNESDAY, 20 *JUNE*, 1888.

THE members of the Commission met as per appointment at the Redfern Railway Station at 7·55 a.m. They were accompanied by Mr. Keele, of the Public Works Department, and Mr. Gipps, C.E.

On arrival at Campbelltown the party were driven to the proposed site of the Kenny Hill dam, and were shown the shaft which had been sunk.

Mr. Keele stated that there was only one shaft sunk here. The Commission proceeded to Guildford, inspected the line of pipes from Dog Trap Road to Potts' Hill, and the site of the Potts' Hill Reservoir.

THURSDAY, 21 *JUNE*, 1888.

Mr. J. T. Jones was further examined:—

36. *Chairman.*] With regard to the matter of power for hydraulic lifts, what is your opinion?

I am of opinion that it is no use relying upon the Woollahra Reservoir for power, and will illustrate my views by one street in Sydney. Assuming that a 9-in. pipe supplied from the Woollahra Reservoir runs through this street, which is say, only 5 chains in length, there are four places which have lifts worked by 6-in. rams. If these four places should happen to be using their lifts at the same time the pipes will be exhausted. Their ground-floors are 60 or 70 feet above high-water mark, and the higher parts of the building are another 60 feet high.

How much more will this be the case if several houses in various directions have lifts? The fluctuations of water would completely destroy the domestic supply. For fire purposes it would be extremely useful. In Melbourne, where there is a pressure of 300 feet, lifts have had to be given up one after the other on account of the fluctuations and precariousness of the water. I do not think anything under 700 lb. per square inch would be found useful. With a smaller pressure the lifts, as they come to the top, commence to crawl, and in some cases fail to go to the full height.

37. *Mr. Sawyer.*] Do you consider that 2,000,000 gallons would be the limit of the possible increase of Woollahra Reservoir?

Yes; it would be impracticable to increase the capacity of this reservoir except at a large cost and interference with the Centennial Park.

38. *Mr. Mestayer.*] In your evidence you stated that one-quarter of the daily supply was used between 10 p.m. and 5 a.m. Do you consider that there is any peculiarity in the conditions of the Sydney water consumption that would justify a departure from the standing rule that one-half of the daily consumption should be delivered in six hours?
My experience seven or eight years ago was that one-quarter the supply was drawn off during the hours mentioned; but I consider the rule you state an excellent one, and at present there is nothing peculiar in the requirements of Sydney to justify any departure from this rule. My former answer referred to the general condition; but in hot weather the rule you have just quoted would be applicable.

Mr. Gipps was called and re-examined:—

39. *Chairman.*] In regard to the character of the steel you propose to use, what is its tensile strength?
32 tons, or 71,000 lb. per square inch—my factor of safety being nearly 8 for the class of steel I would use. I prefer 8 because I allow for rusting. The cost of steel is placed at £9 per ton, because I find from positive offers that it can be done for this amount. This figure is an actual tender price from a large firm of manufacturers. I would use single riveting both for the butt and the lap joints.
40. *Mr. Mestayer.*] Would you use single rivets for the horizontal and circumferential joints?
Yes, because I consider single riveting as sufficient for the purpose, and if I used double riveting for the joints and butts I should have to increase the width of the straps and of the laps.
41. *Chairman.*] What per cent. do you allow for reduction in strength by riveting?
The reduction I estimate is as 70 to 50.
42. *Mr. Mestayer.*] What is the maximum head at Cabramatta Creek?
323 feet. The outlet of the pipe will be always open at the Woollahra Reservoir, so that the pressure will always be hydraulic pressure.
43. How do you propose to deal with the surplus water at Woollahra, when it is stated that the Woollahra Reservoir only holds 1,000,000 gallons, and can practically only be increased to 2,000,000 gallons?
Paddington Reservoir can be constantly supplied and also the North Shore. I have made no provision for the delivery service from Woollahra to the Suburbs.

FRIDAY, 22 *JUNE*, 1888.

Mr. Withers, M.L.A., Chairman of the Citizens' Committee for the Kenny Hill scheme, waited upon the Commission, and requested that Mr. Norman Selfe might attend to give evidence in favour of the Kenny Hill scheme. This was agreed to, and Mr. Withers undertook to see Mr. Selfe and arrange for his attendance.

Mr. Selfe attended, but was not prepared to give evidence on any point except the advantage of a high level as opposed to a low level service; and expressed himself as being in favour of any proposal which would give that advantage at the least cost.

As this was a point upon which the Commission considered there could be no difference of opinion, Mr. Selfe's evidence was, at his own request, not formally reported.

The Commission, after further consideration of the evidence, proceeded to draw up replies to the questions submitted by the Honorable the Secretary for Public Works, and at 5·30 p.m. adjourned till Monday at 10 a.m. in order to receive the proof sheets from the printer.

MONDAY, 25 *JUNE*, 1888.

The Commission met, and Mr. Gipps was permitted to make further remarks concerning his proposals as follows:—

1st. With respect to the puddle trench on the Kenny Hill site—

It was estimated by the Engineer-in-Chief for Harbours and Rivers that because a certain drainage in the shales was exposed by a shaft on the line of Kenny Hill dam, at a depth of 28 feet, consequently it was necessary to sink a trench 40 feet to effectually seal the so-called spring.

I contend that this is unnecessary, owing to the thick bed of impermeable clay overlying the shales. This clay is shown in a section of the shaft to consist of a layer of clay 6 feet 5 inches thick, followed by a layer 8 feet 11 inches thick of yellow clay and ironstone gravel, mixed with small stones.

During the sinking of the shaft I selected one of the most gravelly specimens of this clay, and careful testing gave the following results:—Stiff clay, 5 parts; gravel, 1·5 parts—which really proves that it is a most excellent material for the resistance of water percolation.

As instances of dams of considerable magnitude which have been founded on the same material, I would give the Yan Yean, Melbourne water works, which is 3,159 feet long and 31 feet high, abutting on schist banks at a steep incline, has a puddle trench of only 10 feet. The boring through the bed of the reservoir gave as follows: 1·5 feet surface soil and 8 feet of yellow clay varied by gravelly clay.

The Big Hill dam, at Sandhurst, Victoria, is 1,050 feet long and 30 feet high, abutting on schists at a high angle; the puddle-trench is only 6 feet deep in clay.

The Cumming dam, in Madras, India, which is 102 feet high, on a clay bed, has no puddle-trench whatever.

Fanning gives an example of an American dam, 50 feet high, with a puddle-trench sunk 23·8 feet through layers of gravel and sand, quick-sand, coarse sand, and sandy clay, finally bottoming in 2 feet of gravelly clay, on which the puddle-wall is constructed.

Humber's work on hydraulics notices several dams in similar positions with only shallow puddle-trenches.

The Bideford dam, which is perhaps the most applicable in this instance, as most resembling the Kenny Hill basin, has a puddle-trench of only 7 feet deep. The maximum height of the dam is 50 feet. It is over 450 feet long, and was constructed at a cost of £3,639.

Such

Such testimony justifies me in estimating that 10 feet depth of trench is quite sufficient for the purposes intended in the construction of the Kenny Hill dam.

2ndly.—Height of dam above high-water mark.

Both Humber and Fanning, who may be considered the leading authorities on hydraulics, concur that 3·03 feet above water level is sufficient for over-covering wave action for a fetch of 1½ mile, which opinions have been proved correct by actual experience. Therefore I consider that my allowance of 3 feet is sufficient.

3rdly.—With regard to a high-pressure in Sydney.

In reference to this I beg to draw your attention to the paper read by Mr. N. Selfe, in March, 1879, before Royal Society of Sydney, copies of which may be seen in the *Daily Telegraph* and *Sydney Morning Herald*, of that date in which he estimates the value of 100 feet head above Crown-street reservoir at £927,000.

The Board of Commissioners appointed to inquire into the London supply, report that it is difficult to exaggerate the importance of high pressure, as on the adequate provision for the extinction of fire depends the preservation of the largest aggregate of wealth in the world.

They estimate that the mere money value of property which would be protected from fire by the high head of water would be £2,700,000,000 sterling.

Sir Wm. Armstrong, Messrs. Fanning, A. T. Ross, Professor Anderson, Colonel Mendel, hydraulic engineer, California, and Mr. Bateman, past President of the Institute of Engineers, all concur in the very great importance of a high-pressure scheme in large cities.

Colonel Mendel, in his paper read before the Franklin Institute, says that the value of a high-pressure is incalculable.

In San Francisco they use water as a power in every instance where it can be applied.

Mr. Bateman in his evidence before the London Water Commission, says that in all works in which he had been engaged as engineer he had adopted the high-pressure supply, and thus had done away with the use of fire-engines. I consider that a 200 feet level would do away with fire-engines altogether.

Mr. Gipps suggests that for the purpose of distribution to districts outside of Sydney, such as Ryde, and places between Rookwood and Sydney, and places on the Southern Line, that an open service reservoir holding 8,000,000 gallons might be constructed at Bankstown.

The supply pipes might deliver a portion of their delivery into this reservoir at night time, so that it would not in any way interfere with the pressure required at Woollahra in the day time.

44. *Mr. Mestayer.*] Do you propose to alter the size of your pipes, as the supply at Woollahra would consequently be reduced from 8,000,000 to 6,000,000 gallons?

I do not propose to alter the size of my pipes. The 2,000,000 gallons is not required at present. The supply would, of course, be somewhat reduced, but when the time arrives for this being required it would be very easy to duplicate the pipes from Kenny Hill. This is put forward simply as a suggestion. No provision has been made in the present scheme for it.

APPENDIX A.

AMENDED ESTIMATE submitted by Mr. Gipps, 18/6/88.

Estimate of Dam at Kenny Hill—length, 1,430 ft.; extreme height, 38 ft.; maximum water level, 35 ft.

Earthwork, 72,768 c. yds. at 1s. 6d. per c. yd.	= £5,458
Puddle wall in centre, 6,446 c. yds. at 3s. per c. yd.	967
Selected material, 20,186 c. yds. at 3s. per c. yd.	3,028
Puddle in trench, 2,380 c. yds. at 3s. per c. yd.	357
Excavation of trench, 2,380 c. yds. at 3s. per c. yd.	357
Puddle on inner slope, 6,354 c. yds. at 3s. per c. yd.	953
Selected material, 3,177 c. yds. at 3s. per c. yd.	477
Pitching best sandstone, 12,690 sq. yds. at 10s. per sq. yd.	6,345
Total	£17,942

Outlet or draw-off tunnel.

Length, 800 yards; inner diameter, 4 feet; fall, 2 feet.

Excavation of tunnel, 8 feet diameter, 4,468 cub. yards, at £1 per cub. yard	4,468
Puddle lining, 6 inches thick, 1,047 cub. yards, at 10s. per cub. yard	524
Concrete lining, 18 inches thick, 2,303·8 cub. yards, at 40s.	4,607
Masonry in forebay of tunnel, 500 square yards, at 80s.	2,000
Masonry in tailbay of tunnel, 250 square yards, at 80s.	1,000
Screen and castings, &c.	2,000
	£14,599

ABSTRACT of Total Estimate for Construction of Kenny Hill Scheme.

Pipe line, 34 miles; 38-inch steel pipe to Woollahra Reservoir	£195,723
Dam	18,000
Outlet tunnel	14,600
Syphon pipe for waste weir, 2 feet diameter	500
Draw off from canal	1,500
Land—clearing and fencing at £10 per acre	5,000
Total	£235,323
10 per cent. for surveying and contingencies	23,532
Total cost...	£258,855

ESTIMATE

ESTIMATE for Making and Laying Wrought-iron Pipes from Kenny Hill to Woollahra Reservoir.

Location	Length.		Diameter of Pipe in inches.	Thickness of Pipe in inches.	Steel.				Rivets, ⅜″-thick, 1½″-pitch.		Manufacturing, testing, and coating, at £8 per ton of pipe.	Excavating trench, joint holes, laying, ramming, and filling, 2s. 6d. per foot.	Man-holes, blow-off, gates, air-valves, at £200 per mile.	Distribution of pipes, cartage, loading, unloading, at £1 per ton.	Mechanical work of pipe in Trench riveting, painting, handling, at 3s. per foot.	Total Cost.
					Weight of Pipe in tons.	Weight of Straps in tons.	Total Weight in tons.	Cost at £9 per ton.	Weight in tons.	Cost at £16 per ton.						
	Miles	Feet.														
Kenny Hill to Woollahra	20	105,600	38	$\frac{3}{16}$	3822·3	103	7491·4	£ 67,423	325·5	£ 520	£ 59,107	£ 32,440	£ 6,800	£ 7,817	£ 26,928	£ 195,72
	14	73,920	38	¼	3566·1											

NOTE.—Pipes made up in shop in 19 ft. 6 in. lengths with 1½-inch lap. Butt jointed at ends and strapped inside with strap 4 inches wide. The whole length single riveted.

APPENDIX B.

SYDNEY WATER SUPPLY.

[*Statement put in by Mr. E. O. Moriarty, C.E.*]

MEMO. showing the quantity of water proposed to be drawn from the New Distributing Reservoir at Potts' Hill.

	Million gallons per day.
For Homebush, Concord, Five Dock, and Burwood	5
For North Shore and adjacent Districts	3
For Eastern Suburbs, viz.:—Arncliffe, Rockdale, Kogarah, Hurstville, Canterbury, Peakhurst, Kingsgrove, and Tempe ... ... approximate	5
Total quantity daily	13

APPENDIX C.

LETTER FROM MR. GIPPS.

Sir, 61, Castlereagh-street, Sydney, 25 June, 1888.

I have to inform you that, in accordance with your request, I interviewed Mr. Norman Selfe, M.I.C.E., this morning, and understood from him that he would attend your meeting at once, but when I met him this evening he informed me that urgent business had prevented his attendance on you, and consequently I enclose his paper on the advantages of high pressure to Sydney, referred to by me.

As I have, for the first time, been apprised, both by Mr. Selfe and Mr. Trevor Jones, Engineer of the Water and Sewage Board, that your Commission is investigating the relative cost of pumping 8,000,000 gallons from Crown-street Reservoir to Woollahra Reservoir, and of delivering it by my proposed pipe line from Kenny Hill; and as it appears in contemplation to pump nearly the whole Sydney supply to the Paddington Reservoir,—in order to further your inquiry, I take the opportunity of drawing your attention to the pumping estimates of Mr. W. Clarke, M.I.C.E., in his Report on the Sydney Water Supply, 1877, and of Mr. Moriarty, Engineer-in-Chief of Harbours and Rivers, in his Report to the Royal Commission on Sydney Water Supply, 1869.

Mr. Clarke, in page 21 of his Report, estimates the cost of pumping 1,500,000 gallons 108 feet high at £1,750 per annum, which is equivalent to a charge of £2 19s. 2d. on every million gallons raised 100 feet, independent of the cost of pumps, buildings, boilers, &c.

Mr. Moriarty, in his Report (page 162) estimates the cost of supplying Crown-street and Paddington Reservoirs with 12,000,000 gallons from the Nepean River (8,000,000 to the former and 4,000,000 to the latter reservoir) at £26,328 per annum, which is equivalent to a charge of £2 17s. 7d. per million gallons raised 100 feet, irrespective of £48,000 for buildings, pumps, &c.

He refers to this project as follows:—"It would, of course, be open to all the objections as to liability to accidents of machinery and the heavy annual expenses common to all pumping schemes. The first cost of machinery and piping, &c., will be seen to exceed the estimated cost of bringing down the water by gravitation from higher points on the river, in addition to which would be the large annual expenses of working, repairs to machinery, labour, &c., which are not required in a gravitation scheme. In the estimate I have not allowed anything for present engines and pumping plant, inasmuch as they are likely to be required in connection with the sewage works."

On comparing the above estimates, it will be seen that Mr. Moriarty's price for pumping is somewhat lower than Mr. Clarke's, and Mr. Trevor Jones considers both excessive, but as he informed me that the present cost of pumping is £6 per million gallons, it would certainly be injudicious to reduce Mr. Moriarty's estimate. In order however to place pumping in the most favourable light, I will suppose that his estimate can be reduced to £2 10s. per million gallons raised 100 feet; even then, after deducting the estimate of Potts' Hill Reservoir from the estimate of Kenny Hill Reservoir, the cost of delivering 8,000,000

8,000,000 gallons per diem to the Woollahra Reservoir by the pipe line from the latter would be far less than pumping such supply from Crown-street. At a charge of 4 per cent. on £150,000, the balance cost of the Kenny Hill scheme (with provision for Bankstown Reservoir), the cost of delivering 8,000,000 gallons to Woollahra would be £6,000 per annum, equivalent to £1 8s. 4d. per million gallons raised 100 feet, whereas the cost of pumping the same quantity at £2 10s. per million gallons raised 100 feet, would be £10,220, irrespective of cost of pumps, buildings, boilers, &c.

If within eleven years of the issue of Mr. Clarke's report it is considered necessary to raise nearly the whole water supply from Crown-street to Paddington, is it not probable, owing to the lofty buildings in course of construction in the higher parts of the city, that in another ten years it may be required to raise a similar quantity to Woollahra?

Mr. Moriarty has drawn especial attention to the constant dangers of pumping machinery from accident under ordinary circumstances, but this would be largely increased in case of a bombardment of the city, when the high pumping buildings would offer a special mark for the enemy's cannon. The advantage of a buried pipe line keeping up a constant pressure at the hydrants would then be incalculable in preventing fire and saving property.

On further consideration I have concluded to add £10,000 to my estimate for an open relieving and distributing reservoir at Bankstown. Its diameter would be 300 feet; depth of water, 18 feet; depth of wall, 20 feet; storage capacity, 8,000,000 gallons. Formed half in cutting half in embankment. In case of any break in the pipes it would supply Paddington Reservoir, whilst it would command all the eastern and western suburbs and most of the North Shore.

I have, &c.,
FREDK. B. GIPPS.

To the Chairman of the Sydney Water Supply Commission, &c., &c., &c.

Note on the above letter.

26 June, 1888.

THIS letter was received on the afternoon of the day the Report was concluded, but before the same was signed. It was carefully considered, but no reason found by any of the undersigned for making any alteration in the Report.

It so happens that the figure of £2 10s., for pumping one million gallons 100 feet, suggested by Mr. Gipps in his letter, is the very one adopted as a basis for calculation in the report.

F. A. BISHOP.
R. L. MESTAYER.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

KENNY HILL AND POTTS' HILL RESERVOIR SCHEMES.

(APPENDIX TO REPORT OF THE BOARD APPOINTED TO INQUIRE INTO THE RESPECTIVE MERITS OF, &c.)

Laid upon the Table on the 10*th July*, 1888, *and ordered to be printed as an Appendix to Return respecting Kenny Hill and Potts' Hill Reservoir schemes.*

APPENDIX to the Report of the Board appointed to enquire into the respective merits of the Kenny Hill and Potts' Hill Reservoir Schemes; also, a copy of a letter received from Mr. F. B. Gipps, C.E., dated 5th July, 1888.

F. B. Gipps, Esq., C.E., to The Secretary for Public Works.

Sir,

61, Castlereagh-street, Sydney, 5 July, 1888.

I have the honor to draw your attention to the plans I handed to you in connection with the recent enquiry into the respective merits of the Kenny Hill and Potts' Hill Reservoir schemes, and which have been laid by you on the Table of the House of Assembly. As these plans are unfinished, and were only intended to give a rough sketch of the direction and grade of the pipe line, and of the several works connected with the scheme, not even having been signed by me as a voucher for their correctness, I should be obliged if you would lay this explanation of their character on the Table of the House in order, if possible, that it may be printed and attached to the plans.

I have, &c.,
FREDK. B. GIPPS, C.E.

Submitted.—J.B., 6/7/88. I have no objection; lay copy of paper on Table.—JOHN SUTHERLAND, 6/7/88.

1887.

(THIRD SESSION.)

NEW SOUTH WALES.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(NOTIFICATION OF RESUMPTION OF LAND FOR WATER SUPPLY WORKS, LISMORE.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) CARRINGTON, *Governor.*

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the carrying out of certain works for and in connection with the supply of water to the town of Lismore, for and towards the completion of which said works public funds are available under the provisions of the "Appropriation Act of 1886;" and whereas the land hereinafter described is required for the construction of the said works: Now I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do by this notification published in the Gazette and in a newspaper, that is to say, in the Lismore Star," circulated in the Police District wherein the said land is situated, declare that the land hereinafter described has been resumed for the public purposes hereinafter mentioned, that is to say, for and in connection with the supply of water to the said town of Lismore, to the intent that upon the publication of this notification in the Gazette, the legal estate in the said land shall forthwith be vested in the Minister for Public Works and his successors, on behalf of Her Majesty, for the purposes of the said last-mentioned Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estate, interest, contracts, charges, rates, rights-of-way, or other easements whatsoever; and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act. And I declare that the following is the description of the land hereinbefore referred to, that is to say:—

All that piece or parcel of land situated in the parish of Lismore, county of Rous, and Colony of New South Wales, being part of suburban portion No. 118 of 3 acres 1 rood and 22 perches originally granted to Samuel Gibson, registered volume 411, folio 13: Commencing on the northern side of Wilson-street, at the south-eastern corner of suburban portion No. 117; and bounded thence on the west by suburban portion No. 117 bearing west 62 degrees north 5 chains 90 links to Wilson's Creek; thence on the north by that creek bearing north-easterly about 2 chains 40 links; thence on the east by other part of the said suburban lot 118 bearing south 28 degrees east about 6 chains 70 links to Wilson-street; thence on the south by Wilson-street bearing south 62 degrees west 2 chains 27 links, to the point of commencement,—and containing 1 acre 1 rood and 29 perches or thereabouts, and said to be in the possession and occupation of Thomas Borton.

In witness whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this eleventh day of August, in the year of our Lord one thousand eight hundred and eighty-seven, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,

JOHN SUTHERLAND.

GOD SAVE THE QUEEN!

(THIRD SESSION.)

NEW SOUTH WALES.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(NOTIFICATION OF RESUMPTION FOR WATER SUPPLY, WESTERN SUBURBS AND DISTRICTS NORTH OF PARRAMATTA RIVER.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) CARRINGTON, *Governor.*

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the carrying out of certain works for and in connection with the supply of water to the western suburbs of Sydney and districts north of the Parramatta River, for and towards the completion of which said works public funds are available under the provisions of the "Appropriation Act of 1887," and whereas the lands hereinafter described are required for the construction of the said works: Now, I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification published in the Gazette and in a newspaper, that is to say, in the "Sydney Morning Herald," circulated in the Police District wherein the said lands are situated, declare that the lands hereinafter described have been resumed for the public purposes hereinafter mentioned, that is to say, for and in connection with the supply of water to the said western suburbs of Sydney and districts north of the Parramatta River, to the intent that upon the publication of this notification in the Gazette, the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors, on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estate, interests, contracts, charges, rates, rights-of-way, or other easements whatsoever, and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act: And I declare that the following is a description of the lands hereinbefore referred to, that is to say:—

All that piece or parcel of land situated in the parish of Hunter's Hill, county of Cumberland and Colony of New South Wales, being part of a grant of 100 acres to William Kent, contained in certificate of title No. 237, vol. 834: Commencing on the eastern boundary of the land occupied by the Homebush to Waratah Railway, at a point bearing north 6 degrees 13 minutes east and distant 13 chains 44 links from the south-east corner of the said grant; and bounded thence on the west by the said railway land, being a curved line bearing northerly to the road from Parramatta to Ryde; thence on the north by that road bearing south 81 degrees 59 minutes east 2 chains 26 links, south 73 degrees 32 minutes east 3 chains 77 links, and south 66 degrees 21 minutes east 1 chain 91 links; thence on the east by other part of the said grant, being a line parallel to the eastern boundary of the grant, and bearing south 30 degrees 15 minutes west 12 chains 12 links, to the point of commencement,—containing 5 acres and 39 perches or thereabouts, and said to be in the possession and occupation of George Blaxland.

All that piece or parcel of land situated in the village of Ryde, parish of Hunter's Hill, county of Cumberland and Colony of New South Wales, being part of a grant of 30 acres to William, alias Francis, Jones: Commencing at a point on the eastern side of an unnamed street 40 feet wide, at the back of St. Anne's Church, distant northerly 1 chain 22 links from its intersection with the northern side of Glebe-street; and bounded thence on the west by the said unnamed street bearing northerly, 1 chain 82 links to Church-street; thence on the north by Church-street bearing easterly 3 chains; thence on the east by other part of the said grant bearing southerly 1 chain 82 links parallel to the unnamed street aforesaid; thence on the south by other part of the said grant bearing westerly parallel to Church-street 3 chains, to the point of commencement,—containing 2 roods and $7\frac{3}{10}$ perches or thereabouts, and said to be in the possession and occupation of trustees for the Church of England.

All that piece or parcel of land situate in the parish of Willoughby, county of Cumberland, and Colony of New South Wales, being part of a grant to — Palmer: Commencing on the southern side of the Mowbray Road, at a point distant north-easterly 10 feet 6 inches from the intersection of the said southern side of the Mowbray Road with the eastern side of the Lane Cove Road; and bounded thence on the north-west by the Mowbray Road bearing north-easterly 300 feet; thence on the north-east and south-east by other parts of the said grant bearing as follows: South-easterly, parallel to the south-western side of the grant, 500 feet; thence south-westerly, parallel to the Mowbray Road, 280 feet; thence again south-easterly, parallel to the south-western side of the grant, 158 feet 3 inches; thence again south-westerly, parallel to the Mowbray Road, 20 feet; thence on the south-west by the end of a road 66 feet wide and section 3 of a subdivision called "Chatswood" east, bearing north-westerly 658 feet 3 inches to the point of commencement,—containing 3 acres 2 roods $2\frac{1}{2}$ perches or thereabouts, and said to be in the possession and occupation of Messrs. Stuart and Harnet.

In witness whereof I have hereunto set my hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this fifth day of November, in the year of our Lord one thousand eight hundred and eighty-seven, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,
JOHN SUTHERLAND.

GOD SAVE THE QUEEN!

1887–8.

NEW SOUTH WALES.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTION OF LAND FOR WATER SUPPLY WORKS FOR THE TOWN OF ORANGE.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) CARRINGTON, *Governor.*

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the carrying out of certain works for and in connection with the supply of water to the town of Orange, for and towards the completion of which said works public funds are available under the provisions of the "Appropriation Act of 1886;" and whereas the lands hereinafter described are required for the construction of the said works: Now, I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do by this notification, published in the Gazette, and in a newspaper, that is to say, in the "Orange Advocate," circulated in the Police District wherein the said lands are situated, declare that the lands hereinafter described have been resumed for the public purposes hereinafter mentioned, that is to say, for and in connection with the supply of water to the said town of Orange, to the intent that, upon the publication of this notification in the Gazette, the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors, on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estates, interest, contracts, charges, rates, rights-of-way, or other easements whatsoever; and to the intent, further, that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act. And I declare that the following are the descriptions of the lands hereinbefore referred to, that is to say:—

1st. All that allotment or parcel of land situated in the parish of Beneree, county of Bathurst, portion 243: Commencing on the right bank of Gosling Creek, at the north-western corner of portion 116 of 50 acres; and bounded thence on the east by the western boundary of that portion bearing south 1 degree 12 minutes east 18 chains 50 links; on the south by part of the northern boundary of portion 127 of 40 acres bearing west 15 minutes north 20 chains; again on the east by part of the western boundary of that portion bearing south 17 chains and 72 links; again on the south by a road 1 chain wide dividing it partly from part of portion 182 of 100 acres bearing west 24 minutes north 5 chains 71 links to the road from Carcoar to Orange; on the west by that road bearing north 9 degrees east 4 chains 68 links, north 5 degrees west 7 chains 19 links, north 13 degrees 15 minutes west 12 chains 85 links; and thence north 11 degrees 45 minutes east 2 chains 99 links to Gosling Creek; and on the north-west by that creek downwards, to the point of commencement,—containing 50 acres or thereabouts, being the land contained in certificate of title registered vol. CLXXIV, fol. 137, and said to be in the possession and occupation of John Munro.

2nd. All that piece or parcel of land situated in the parish of Beneree, at Gosling Creek, county of Bathurst, part of portion CXVI; as also part of the land embraced in certificate of title registered vol. CVII, folio 67: Commencing on the right bank of Gosling Creek, at the north-western corner of the said portion CXVI; and bounded thence on the west by portion 243 bearing south 18 chains 50 links to a reserved road 1 chain wide dividing it from portion 277 of 40 acres; thence on the south by the said reserved road bearing east 7 chains 12 links; thence on the east by other part of the said portion CXVI bearing north and parallel to the first-described line to the right bank of Gosling Creek; thence by that creek upwards, to the point of commencement,—containing 16 acres or thereabouts, and said to be in the possession and occupation of John Munro.

In witness whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this sixteenth day of July, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-second year of Her Majesty's Reign.

By His Excellency's Command,

JOHN SUTHERLAND.

GOD SAVE THE QUEEN!

NEW SOUTH WALES.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTION OF LAND IN THE PARISH OF ALEXANDRIA, COUNTY OF CUMBERLAND, FOR SYDNEY SEWERAGE WORKS.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.)
CARRINGTON,
Governor.

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the carrying out of certain works for and in connection with the sewerage of the City of Sydney and its suburbs, in the said Colony, for and towards the completion of which said works public funds are available under the provisions of the Loans Vote 50 Vic. No. 28; and whereas the lands hereinafter described are required for the construction of the said works: Now I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification published in the Gazette and in a newspaper, that is to say, in the "Sydney Morning Herald," circulated in the Police District wherein the said lands are situated, declare that the land hereinafter described has been resumed for the public purposes hereinafter mentioned, that is to say, for and in connection with the sewerage of the said City of Sydney and its suburbs, to the intent that upon the publication of this notification in the Gazette, the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors on behalf of Her Majesty for the purpose of the said last-mentioned Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estate, interests, contracts, charges, rates, rights-of-way or other easements whatsoever, and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act: And I declare that the following is the description of the lands hereinbefore referred to, that is to say:—

All that piece or parcel of land containing by admeasurement ten perches and three-fourths of a perch, situate in the parish of Alexandria, county of Cumberland, and Colony of New South Wales, and being lots numbered two hundred and twenty-three and two hundred and twenty-four on a plan of Begg's subdivision of a part of the Underwood Estate, Paddington, deposited in the Lands Titles Office, Sydney, and numbered A. 1,783: Commencing at a point on the north-east boundary of Harris-street, distant four hundred and seventy-nine feet six inches, and bearing south 60° 10′ east from the north-east intersection of Soudan-street with Harris-street; and bounded on or towards the north-west by the south-east boundary of lot numbered 225 in the said subdivision, being a line bearing north 29° 50′ east for a distance of one hundred and three feet eight inches; on or towards the north-east by the south-west boundary of a Municipal reserve, being a line bearing south 44° 56′ east for a distance of thirty-one feet one inch; on or towards the south-east by the north-west boundary of lot numbered 222 in the said subdivision, being a line bearing south 29° 50′ west for a distance of ninety-five feet six inches; and on or towards the south-west by the north-east boundary of Harris-street, being a line bearing north 60° 10′ west for a distance of thirty feet to the point of commencement, and said to be the property of Ebenezer Vickery and others.

In witness whereof, I have hereunto set my Hand and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this twelfth day of July, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-second year of Her Majesty's Reign.

By His Excellency's Command,

(THIRD SESSION.)

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT.

(NOTIFICATION AUTHORIZING CONSTRUCTION OF WATER SUPPLY WORKS, BALRANALD.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14.

Department of Public Works, Sydney, 9 July, 1887.

NOTICE is hereby given that His Excellency the Governor, with the advice of the Executive Council, has been pleased, under the powers conferred upon him in that behalf by the 124th section of the Country Towns Water and Sewerage Act of 1880, 44 Vic. No. 14, to authorize the construction, under the direction of the Minister of Public Works, of the necessary works for water supply for the town of Balranald, at the request and pursuant to the resolution of the Municipal Council of the said town of Balranald, copy of which resolution is appended hereto for general information.

Dated at Sydney this 9th day of July, 1887.

JOHN SUTHERLAND,
Minister for Works.

COPY of Resolution submitted to and passed by the Council of the Municipal District of Balranald, at a meeting of the Council thereof, held on the 23rd day of May, A.D. 1887:—

Present:

His Worship the Mayor (in the Chair)
and
Aldermen Boynton, Grinham, Simmonds, and Barlow.

Moved by Alderman Boynton, seconded by Alderman Grinham, and carried,—"That the Council of the Municipality of Balranald, having taken into consideration the question of water supply for the town of Balranald, do hereby request His Excellency the Governor, with the advice of the Executive Council, to take all such steps and cause such works to be executed as may be necessary to provide a water supply for the town of Balranald; and the said Council, on behalf of the Municipality of Balranald, hereby agree to do and undertake all the liabilities and obligations mentioned in section 125 of the Act 44 Vic. No. 14; and it is hereby expressly agreed that such liability is accepted for the total amount to be expended on such works whatever such amount may be."

W. O. CLOSE,
Mayor.

1887–8.

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT.

(NOTIFICATION OF THE COMPLETION OF THE WATER SUPPLY WORKS FOR THE TOWN OF BOURKE.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14,

BOURKE WATER-WORKS.

In pursuance with the provisions of the Country Towns Water and Sewerage Act 44 Vic. No. 14, section 125, I, John Sutherland, the Minister for Public Works of the Colony of New South Wales, have the honor to report, for the information of His Excellency the Governor and Executive Council, that the works for the supply of water for the Borough of Bourke, in the said Colony, which, under the provisions of the before-recited Act, and at the request of the Council thereof, have been constructed under the direction of the Minister for Public Works of the said Colony, have been completed.

Given under my hand, this twenty-first day of April, 1888.

JOHN SUTHERLAND.

Copy of Resolution submitted to and passed by the Council of the Municipal District of Bourke, at a meeting of the Council thereof, held on the 28th day of June, A.D. 1886 :—

Present: His Worship the Mayor (in the Chair), and Aldermen Biddulph, Donohoe, Huggins, Bloxham, Daniell, Colless, and Gray.

Moved by Alderman Huggins, seconded by Alderman Gray, and carried unanimously :—"That the Council of the Municipality of Bourke having taken into consideration the question of water supply for the Town of Bourke, do hereby request His Excellency the Governor, with the advice of the Executive Council, to take all such steps and cause such works to be executed as may be necessary to provide a water supply for the Town of Bourke, and the said Council, on behalf of the Municipality of Bourke, hereby agree to do and undertake all the liabilities and obligations mentioned in section 125 of the Act 44 Vic. No. 14, and it is hereby expressly agreed that such liability is accepted for the total amount to be expended on such works, whatever such amount may be."

J. T. READFORD,
Mayor.

NOTIFICATION OF COMPLETION OF WATER-WORKS FOR THE BOROUGH OF BOURKE, UNDER 44 VICTORIA No. 14.

New South Wales, to wit. } Proclamation by His Excellency The Right Honourable Charles Robert, Baron Carrington, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) Alfred Stephen, *Lieutenant-Governor, by Deputation from the Governor.*

Whereas I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, having duly sanctioned the carrying out of certain works for and in connection with the supply of water to the Borough of Bourke, in the said Colony, for and towards the completion of which said works public funds were provided by Parliament; and whereas the said works have been reported to me as complete by the Minister for Works, in accordance with the provisions of the 125th section of the before-recited Act: Now, I, the Governor aforesaid, with the advice of the Executive Council, hereby declare by this notification that such works are complete, to the intent that the Council of the said Borough of Bourke within and for the purposes of which the said works have been constructed, shall take over the same, and the administration and management thereof, upon the terms and conditions prescribed by the before-recited Act.

In witness whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this eleventh day of May, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,
JOHN SUTHERLAND.

GOD SAVE THE QUEEN!

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT.

(NOTIFICATION OF THE COMPLETION OF THE WATER SUPPLY WORKS FOR THE TOWN OF WENTWORTH.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14.

WENTWORTH WATER-WORKS.

In accordance with the provisions of the Country Towns Water and Sewerage Act 44 Vic. No. 14, section 125, I, John Sutherland, the Minister for Public Works of the Colony of New South Wales, have the honor to report, for the information of His Excellency the Governor and Executive Council, that the works for the supply of water for the Borough of Wentworth, in the said Colony, which, under the provisions of the before-recited Act, and at the request of the Council thereof, have been constructed under the direction of the Minister for Public Works of the said Colony, have been completed.

Given under my hand, this twenty-first day of April, 1888.

JOHN SUTHERLAND.

Copy of a resolution submitted to and passed by the Council of the Municipality of Wentworth, at the regular meeting of the Council, held on the tenth (10th) day of February, 1885:—

"That the Council of the Municipality of Wentworth, having taken into consideration the question of a Water Supply for the Town of Wentworth, do hereby respectfully request that His Excellency the Governor, with the advice of the Executive Council, will be pleased to take such steps and cause all such works to be executed as may be necessary to provide a Water Supply for the said Town of Wentworth, and the said Council, on behalf of the Municipality of Wentworth, do hereby agree to undertake all the liabilities and obligations mentioned in section 125 of the Act 44 Victoria No. 14, and it is hereby expressly agreed that such liability is accepted by the said Council for the total amount expended on such works, whatever that amount may be."

W. J. HOLDING,
Mayor.

Council Chambers, Wentworth,
11th February, 1885.

NOTIFICATION OF COMPLETION OF WATER-WORKS FOR THE BOROUGH OF WENTWORTH, UNDER 44 VICTORIA No. 14.

New South Wales, to wit. (L.S.) Alfred Stephen, *Lieutenant-Governor, by Deputation from the Governor.*

Proclamation by His Excellency The Right Honourable Charles Robert, Baron Carrington, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

Whereas I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, having duly sanctioned the carrying out of certain works for and in connection with the supply of water to the Borough of Wentworth, in the said Colony, for and towards the completion of which said works public funds were provided by Parliament; and whereas the said works have been reported to me as complete by the Minister for Works, in accordance with the provisions of the 125th section of the before-recited Act: Now I, the Governor aforesaid, with the advice of the Executive Council, hereby declare by this notification that such works are complete, to the intent that the Council of the said Borough of Wentworth, within and for the purposes of which the said works have been constructed, shall take over the same, and the administration and management thereof, upon the terms and conditions prescribed by the before-recited Act.

In witness whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this eleventh day of May, in the year of our Lord one thousand eight hundred and eighty-eight, and in the fifty-first year of Her Majesty's Reign.

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT OF 1880.

(BOROUGH OF WAGGA WAGGA—BY-LAWS.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14, sec. 13.

Colonial Secretary's Office, Sydney, 19th September, 1887.

THE following By-laws, made by the Council of the Borough of Wagga Wagga, under the "Country Towns Water and Sewerage Act of 1880," for the regulation and management of the Water Supply for that Municipality, having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the provisions of the above-cited Act.

HENRY PARKES.

BOROUGH OF WAGGA WAGGA.

BY-LAWS FOR THE REGULATION AND MANAGEMENT OF WATER SUPPLY.

THE Council of the Borough of Wagga Wagga, subject to and in exercise and execution of the powers and authorities conferred on such Council by the "Country Towns Water and Sewerage Act of 1880," make the following By-laws:—

1. No person shall be supplied with water by measure until he shall have signed a contract with the said Council in the form or to the effect contained in the Schedule hereto.

2. The following charges are those which owners and occupiers of land and tenements or other persons shall pay in respect of water supplied by the said Council by measure, that is to say, for water supplied (except in cases hereinafter mentioned or in cases of special agreement with the said Council), at the rate of 2s. per thousand gallons.

3. The minium quantity of water to be charged for, where water is supplied by measure, shall be, if for domestic and other than domestic purposes, the quantity of which the charge at 2s. per thousand gallons would be equal to the amount of the assessed rate which would be payable for lands, tenements, or premises so supplied if supplied otherwise than by measure, and if for other than domestic purposes only, 25,000 gallons per quarter.

4. A supply of water for domestic purposes shall not include a supply of water for livery or carriers' stables, or a supply for any manufacturing purposes, or for irrigation, or for water power, or for fountains or for any ornamental purposes, and the supply of water for other than domestic purposes solely shall in all cases be by measure.

5. For water supplied for horse troughs 20s. per annum for each trough; and for steam-boilers, 20s. per annum for each horse-power of such steam-boiler; for water-carts, supplied from stand pipes, 1s. per load of 500 gallons or less.

6. For water supplied temporarily to buildings in course of progress, 30s. per centum on the amount of contract price for stonework, brickwork, and plastering, or the said Council may require a meter to be fixed and make the ordinary charge fixed for water supplied by measure, or may make a special agreement in respect of the charge for such water.

7. Water required for market gardens, nurseries cultivated for trade or for purely agricultural purposes, and cricket and bowling clubs and public baths, may be supplied by measure at the rate of 1s. per thousand gallons.

8. Water supplied to hospitals or other charitable institutions for all purposes shall be at the rate of 6d. per thousand gallons.

9. For water supplied to any lands, tenements, or premises not before specified and not chargeable with or paying borough rates, shall be supplied by measure at the rate of 2s. per thousand gallons, or by special agreement with the said Council.

10. No person shall use a hose attached to any tap or pipe used for the purpose of supplying the water of the said Council for domestic purposes to any tenement or premises for watering any garden, or for any other purpose whatsoever, unless where a water-meter is fixed and the water supplied by measure, and any person offending against this By-law shall be liable to a penalty not exceeding £5, except in cases of fire.

11. No screw-tap shall be placed on any garden or yard at the outside of any tenement or premises supplied with water of the said Council to which a hose could be attached, unless a water-meter is fixed and the water supplied by measure, and any person offending against this By-law shall be liable to a penalty not exceeding £5 for each offence: Provided that this By-law be not enforced before the first of October next.

12. No meter shall be allowed to be affixed unless the dial of the same is capable of registering 1,000,000 gallons, except by special consent in writing of the said Council.

13. If any meter shall cease registering or be reported as out of repair or registering inaccurately, the said Council shall estimate the charge for water consumed during the period such meter was not in working order and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter or during the corresponding period of the previous year, or the said Council may insert a check meter on the service-pipe.

14. The following rates and charges are those which the owners and occupiers of lands and tenements shall pay in respect of lands and tenements to be supplied with water by the said Council for domestic purposes other than by measure:—

(1) On every house or tenement of £10 assessed annual valuation by the said Borough or under, 10s. per annum. (2) On every house or tenement above the annual assessed value of £10 a rate of 1s. for each £ sterling on the amount of the annual assessed valuation by the said Borough. (3) Unimproved town lots and suburban lands shall be charged a minimum rate of 2s. 6d. per lot up to £50 annual assessed capital valuation by said Borough, and all in excess of this £5 per centum on said annual assessed capital valuation.

15. Before any person shall affix any service-pipe to any pipe of the said Council, or alter, repair, or in any manner interfere with any pipe of the said Council, or any service-pipe, cock, or fitting connected with the pipes of the said Council, he shall obtain from the said Council a license in that behalf to execute such works; and any unlicensed person affixing, altering, repairing, or in any manner interfering with such pipe, service-pipe, cock, or fitting as aforesaid, shall be liable to a penalty not exceeding £10.

16. Before any such license shall be granted by the said Council, the person applying for the same shall satisfy the said Council that he is a competent plumber.

17. Any person, whether licensed as aforesaid or not, who shall offend by opening any ground so as to uncover any pipe or pipes the property of the said Council without giving two days' notice to the said Council of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the said Council, without the permission in writing of the said Council being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine the property of the said Council, shall be liable for each such offence to a penalty not exceeding £20.

18. Any person, whether licensed as aforesaid or not, who shall lay pipe to communicate with the pipes of the said Council without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of of the said Council, or who shall make such communication except under the superintendence and according to the directions of some officer of the said Council, or shall lay any leaden or other pipe to communicate with the pipe of the said Council of a strength and material not sanctioned by the said Council, shall be liable for each such offence to a penalty not exceeding £5; and in the event of continuing the offence, to a further penalty of £2 for each day after the notice of the offence from the said Council.

19. Lead piping of the following weights:—

Diameter of Pipe.	Weight of Pipe per yard.
⅜in.	5lb.
½in.	6lb.
⅝in.	7½lb.
¾in.	9lb.
1 in.	12lb.
1¼in.	16lb.
1½in.	20lb.

And galvanized iron-piping of approved quality only will be allowed for external and internal services. Ordinary connections with mains must be made with proper ferrules, to which, for iron service, a length of not less than 3 feet of lead pipe must be attached. One service-pipe only to each tenement will be permitted, and for houses rated at £20 per annum and under, the bore of such service-pipe must not exceed ¾in. Also that patent high pressure stop-cocks according to sample, be placed on main and on alignment in a box easy of access.

20. If any person shall neglect to repair any service-pipe conveying water from the pipes of the said Council into the premises of such person, after having received notice from any officer of the said Council that such service-pipe requires repairing, the said Council may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise, as to the said Council may seem fit, until the necessary repairs shall have been effected. The service-pipes from the main being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier (if any) and if none, the owner shall in every instance in which any damage shall be caused by reason of such service-pipe being leaky, or otherwise out of repair, or broken, be liable to a penalty not exceeding £5, and shall be liable to pay the expense incurred by the Council in stopping the flow of water; and in the event of continuing the offence, to a further penalty of £2 for each day after notice of the offence from the said Council.

21. Any person supplied with water by the said Council who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding £5, and in the event of continuing the offence, to a further penalty of £2 for each day after notice of the offence from the said Council.

22. Any person, whether licensed as aforesaid or not, connecting any service-pipe, or branch service-pipe, with any steam-boiler for the purpose of supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter shall be liable to a penalty not exceeding £5; and in the event of continuing the offence, to a further penalty of £2 for each day after notice of the offence from the said Council.

23. Any person receiving water from the said Council who shall take or carry away any such water from his premises, or who shall allow any person to take or carry away any such water, or who shall sell the same to any other person, shall be liable to a penalty not exceeding £5.

24. Any person not having agreed to be supplied with water by the said Council, or who shall take or carry away any water from any drinking tap, through a private or public service-pipe, shall be liable to a penalty not exceeding £5.

25. All charges for water supplied by measure or under special agreement shall be paid on the first days of January, April, July, and October in each year, or as may be agreed on by the said Council.

26. No main or pipe of the Council shall be tapped except by the authorized officer of the Council, and a charge of 5s. shall be paid in advance for each tapping.

27. Any person obstructing, hindering, or interfering in any manner with any inspector, turncock, engineer, or workman of any description, or any officer of the Council, in the execution of any duty, shall be liable to a penalty not exceeding £10.

28. In the construction of these By-laws the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole, and the words "said Council" shall mean the Council of the Borough of Wagga Wagga.

29. A test shall be put on all service-pipes laid from the mains, at about 100lb. pressure, so that all plumbers' work before being covered be thoroughly tested. This to be done by force or suction pump by a competent person appointed by the Council.

The foregoing By-laws were made and passed by the Borough Council of Wagga Wagga, and the seal of the said Council was hereunto affixed the 30th day of June, 1887.

(L.S.) HY. BERKELEY FITZHARDINGE,
Mayor.

J. HAWKES, Council Clerk.

THE SCHEDULE HEREINBEFORE REFERRED TO.

MEMORANDUM of Agreement this day of 188, between of Wagga Wagga, of the one part and the Borough of Wagga Wagga of the other part, whereby the said agrees to take water by measure supplied by the said Borough at the rate of per 1,000 gallons, to be used in or upon the land tenements or premises in the occupation of the said situated in street, and such water shall be used for the purposes of only, and the said agrees to pay the said Borough for the water so supplied on the first days of January, April, July and October, in each year; and the said Council agrees to supply such water at the rate aforesaid, provided always and it is hereby agreed that the said Borough shall not be liable to any penalty or damages for not supplying such water if the want of such supply arises from drought or other unavoidable cause or accident; and the said Borough may terminate this agreement at any time by giving the said three weeks' notice in writing to that effect. As witness the hands of the parties and Common Seal of the said Borough hereto.

Given under our Common Seal, this day of , 188 .

Sydney: Charles Potter, Government Printer.—1887

(THIRD SESSION.)

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT OF 1880.

(BOROUGH OF BATHURST—AMENDED BY-LAWS.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14, sec. 13.

Colonial Secretary's Office, Sydney, 17th September, 1887.

THE following amended By-laws, made by the Council of the Borough of Bathurst under the "Country Towns Water and Sewage Act of 1880," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the provisions of the above-cited Act.

HENRY PARKES.

BOROUGH OF BATHURST.—BY-LAWS.

AMENDED By-laws, made in pursuance of the powers contained in the "Country Towns Water and Sewerage Act," 44 Vic. No. 14, section 13, for the supply and distribution of water, and determining the rate or charges to be made therefor.

1. The rate to be paid in respect of lands and tenements to be supplied with water for domestic purposes, otherwise than by meter, or in respect of lands and tenements distant not more than fifty yards from any main constructed by or vested in the Council, shall be, and it is hereby fixed at, one shilling in the pound on the value of such lands and tenements as assessed in each year for the purpose of the ordinary Municipal rates, the payments to be made in advance in two equal payments, on the first day of January and the first day of July in each year, but the minimum payment shall be ten shillings per annum.

2. In the case of any lands or tenements becoming liable to be rated for water during the currency of a half-year, the rate shall be immediately payable, but so much thereof only as is proportionate to the unexpired portion of the half-year.

3. The bore of any service pipe shall not exceed three-quarters of an inch, unless with the consent of the Council, in which case the rate to be paid shall be fixed by special agreement between the Borough Council and the owner or occupier requiring such pipe; and any such agreement shall be binding upon any subsequent owner or occupier so long as the said service pipe is in use.

4. The charge for water to be supplied by meter to any lands or tenements for domestic purposes, as defined as aforesaid, shall be at the rate of one shilling per thousand gallons, but the minimum payment in respect of any house, land, or tenements for which a meter is supplied shall be equal to one hundred per cent. on the rates chargeable under By-law 1.

5. The charge for water supplied by meter for irrigation, gardens, nurseries, private fountains, or other purposes of a like nature, and not otherwise herein provided for, shall be at the rate of one shilling per thousand gallons.

6. The charge for water supplied by meter for steam-boiler purposes, or for manufacturing or other similar purposes, shall be one shilling per thousand gallons, and the minimum quantity chargeable in such cases shall be equal to seventy-five per cent. on the rates chargeable under By-law 1.

7. The charge for water supplied by meter to any cricket, racing, or bowling club, or any club or institution of a similar nature, shall be at the rate of one shilling per thousand gallons.

8. Where water is required for a temporary supply during the erection of new buildings, the charge shall (if no meter be used), be ten shillings per cent. on the amount of the contract work for stonework, brickwork, or plastering, or if a meter be fixed, the charge shall be at the rate of one shilling per thousand gallons.

9. The charge for all buildings or institutions of a public or semi-public nature, not coming within the exceptions in section 35, shall be at the rate of one shilling per thousand gallons.

10. The charge for water supplied for public baths or wash-houses, not coming within the exceptions in section 35, shall be at the rate of sixpence per thousand gallons, and the minimum quantity to be charged for shall be equal to one hundred per cent. on the rates chargeable under By-law 1.

11. The Borough Council may, in any case, insist upon water being supplied by meter.

12. All accounts for water supplied per meter, or under special agreement, shall be paid monthly.

Made and passed by the Council of the Borough of Bathurst, this fourteenth day of July, in the year of our Lord one thousand eight hundred and eighty-seven.

(L.S.) THOS. A. MACHATTIE,
Mayor.

DANIEL WILLIAMSON,
Council Clerk.

1887–8.

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT OF 1880.

(MUNICIPAL DISTRICT OF FORBES—BY-LAWS.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14, sec. 13.

Colonial Secretary's Office,
Sydney, 24th March, 1888.

FORBES MUNICIPALITY.—BY-LAWS.

THE following By-laws made by the Council of the Municipal District of Forbes, under the "Country Towns Water and Sewerage Act of 1880," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

MUNICIPAL DISTRICT OF FORBES.

ADDITIONAL By-laws for fixing the charges for the supply of water by measure, the minimum quantity to be so charged for, and the manner in which payments are to be made.

The charges for the supply of water from the Forbes Water Supply Works, and the minimum quantity of water to be so charged for, shall from the date of the gazetting of these By-laws, be as follows:—

1. To vegetable gardens, orchards, and other lands under crop, public baths, wool-scouring establishments, and for all purposes by which the quantity of water to be used is likely to exceed 100,000 gallons per annum, the charge shall be (unless otherwise agreed upon) at the rate of two shillings per 1,000 gallons, and the minimum quantity of water to be charged for shall be at the rate of 100,000 gallons per annum.

2. To breweries, ærated water and cordial manufactories, soap and candle factories, recreation, pleasure, or show grounds, livery stables other than hotel stables, steam-power saw mills, laundries, and for all purposes by which the quantity of water required is likely to exceed 50,000 gallons, but be less than 100,000 gallons per annum, the charge shall be (unless otherwise agreed upon) at the rate of three shillings per 1,000 gallons, and the minimum quantity of water to be charged for shall be at the rate of 50,000 gallons per annum.

3. To hotel premises, where required for general purposes, including stable use, the charge shall (unless otherwise agreed upon) be at the rate of three shillings and sixpence per 1,000 gallons, and the minimum quantity of water to be so charged for shall be at the rate of 50,000 gallons per annum.

4. To hotels and large schools, where the water is required for household use only, and where the service pipe does not connect with any pipe used for other than household purposes, the charge for the supply of such water shall be (unless otherwise agreed upon) at the rate of four shillings per 1,000 gallons, and the minimum quantity of water to be so charged for shall be at the rate of 40,000 gallons per annum.

5. To private premises for domestic use, the charge shall be (unless otherwise agreed upon) at the rate of four shillings per 1,000 gallons, and the minimum quantity of water to be so charged for shall be at the rate of 12,000 gallons per annum.

6. The charges for the supply of water by measure shall, up to the quarterly proportion of the minimum quantity be payable quarterly in advance, and any water beyond that quantity which at the end of the quarter the meter indicates has been used, shall be paid for upon demand after the examination of the meter by the Council's officer.

7. Water By-laws Nos. 5, 7, 11, and 14, are hereby repealed.

Passed by the Council of the Municipal District of Forbes, under the provisions of the "Country Towns Water and Sewerage Act of 1880," this 10th day of November, 1887.

Signed, and the corporate seal affixed, in my presence,—

(L.S.) J. B. HUTCHINSON,
Mayor.

T. A. CROWE,
Council Clerk.

Forbes, 3rd December, 1887.

1887-8.

NEW SOUTH WALES.

COUNTRY TOWNS WATER AND SEWERAGE ACT OF 1880.

(MUNICIPAL DISTRICT OF WENTWORTH—BY-LAWS.)

Presented to Parliament, pursuant to Act 44 Vic. No. 14, sec. 13.

Colonial Secretary's Office,
Sydney, 28th May, 1888.

WENTWORTH MUNICIPALITY.—BY-LAWS.

THE following By-laws relating to the management and regulation of Water Supply, made by the Council of the Municipa District of Wentworth, under the power conferred by the "Country Towns Water and Sewerage Act of 1880," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

MUNICIPAL DISTRICT OF WENTWORTH.

BY-LAWS for the Regulation and Management of Water Supply.

THE Council of the Municipal District of Wentworth, subject to and in exercise and execution of the powers and authorities conferred on such Council by the "Country Towns Water and Sewerage Act of 1880," make the following By-laws:—

1. No person shall be supplied with water by measure until he shall have signed a contract with the said Council in the form or to the effect contained in the Schedule hereto.

2. The following charges are those which owners and occupiers of land and tenements, or other persons shall pay in respect of water supplied by the said Council by measure, that is to say, for water supplied (except in cases hereinafter mentioned, or in cases of special agreement with the said Council), at the rate of 1s. 6d. per thousand gallons.

3. The minimum quantity of water to be charged for where water is supplied by measure shall be, if for domestic and other than domestic purposes, the quantity of which the charge at 1s. 6d. per thousand gallons would be equal to [the amount of the assessed rate which would be payable for lands, tenements, or premises so supplied if supplied otherwise than by measure, and if for other than domestic purposes only 25,000 gallons per quarter.

4. A supply of water for domestic purposes shall not include a supply of water for livery or carriers' stables, or a supply for any manufacturing purposes, or for irrigation, or for water power, or for fountains, or for any ornamental purposes; and the supply of water for other than domestic purposes solely shall in all cases be by measure.

5. For water supplied for horse troughs, 20s. per annum for each trough; and for steam-boilers, 20s. per annum for each horse power of such steam-boiler; for water-carts supplied from stand-pipes, 6d. per load of 500 gallons or less.

6. For water supplied temporarily to buildings in course of progress, 20s. per centum on the amount of contract price for stonework, brickwork, and plastering, or the said Council may require a meter to be fixed and make the ordinary charge fixed for water supplied by measure, or may make a special agreement in respect of the charge for such water.

7. Water required for market gardens, nurseries cultivated for trade, or for purely agricultural purposes, and cricket and bowling clubs, and public baths may be supplied by measure at the rate of 1s. per 1,000 gallons, or by special agreement with the Council.

8. Water supplied to hospitals or other charitable institutions for all purposes shall be at the rate of 6d. per 1,000 gallons, or by special agreement with the Council.

9. For water supplied to any lands, tenements, or premises not before specified and not chargeable with or paying Municipal rates shall be supplied by measure at the rate of 1s. 6d. per 1,000 gallons, or by special agreement with the Council.

10. No person shall use a hose attached to any tap or pipe used for the purpose of supplying the water of the said Council for domestic purposes to any tenement or premises for watering any garden, or for any other purpose whatsoever (unless by special arrangement with the Council, or the water be supplied by measure), and any person offending againt this By-law shall be liable to a penalty not exceeding £5, except in cases of fire.

11. No screw-tap shall be placed on any garden or yard at the outside of any tenement or premises supplied with water of the said Council, to which a hose could be attached, unless by special arrangement with the Council, and any person offending against this By-law shall be liable to a penalty not exceeding £5 for each offence: Provided that this By-law be not enforced before the first day of May next.

12. No meter shall be allowed to be affixed unless the dial of the same is capable of registering 1,000,000 gallons, except by special consent in writing of the said Council.

13. If any meter when used shall cease registering, or be reported as out of repair, or registering inaccurately, the said Council shall estimate the charge for water consumed during the period such meter was not in working order and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter or during the corresponding period of the previous year, or the said Council may insert a check meter on the service pipe.

14. The following rates and charges are those which the owners and occupiers of lands and tenements shall pay in respect of lands and tenements to be supplied with water by the said Council for domestic purposes other than by measure:—

1. On every house or tenement of £10 assessed annual valuation by the said Council or under, 10s. per annum.
2. On every house or tenement above the annual assessed value of £10, a rate of 1s. for each pound sterling on the amount of the annual assessed valuation by the said Council.
3. Unimproved town lots and suburban lands shall be charged a minimum rate of 2s. 6d. per lot up to £50 annual assessed capital valuation by said Council, and all in excess of this £5 per centum on said annual assessed capital valuation.

15. Before any person shall affix any service pipe to any pipe of the said Council, or alter, repair, or in any manner interfere with any pipe of the said Council, or any service pipe, cock, or fitting connected with the pipes of the said Council, he shall obtain from the said Council a license in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with such pipe, service pipe, cock, or fitting as aforesaid, shall be liable to a penalty not exceeding £10.

16. Before any such license shall be granted by the said Council the person applying for the same shall satisfy the said Council that he is a competent person

17. Any person, whether licensed as aforesaid or not, who shall offend by opening any ground so as to uncover any pipe or pipes, the property of the said Council, without giving notice to the said Council of his intention so to do, or who shall in any way tamper with or alter any pipe, the property of the said Council, without the permission of the said Council in writing being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine the property of the said Council, shall be liable for each such offence to a penalty not exceeding £20.

18. Any person, whether licensed as aforesaid or not, who shall lay pipe to communicate with the pipes of the said Council without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the said Council, or who shall make such communication except under the superintendence and according to the directions of some officer of the said Council, or shall lay any leaden or other pipe to communicate with the pipe of the said Council of a strength and material not sanctioned by the said Council, shall be liable for each such offence to a penalty not exceeding £5, and in the event of continuing the offence to a further penalty of £2 for each day after the notice of the offence from the said Council.

19. Lead pipes of the following weights:—

Diameter of Pipe.	Weight of Pipe per Yard.
$\frac{3}{8}$ in.	5 lb.
$\frac{1}{2}$,,	6 ,,
$\frac{5}{8}$,,	7½ ,,
$\frac{3}{4}$,,	9 ,,
1 ,,	12 ,,
1¼ ,,	16 ,,
1½ ,,	20 ,,

and galvanized iron piping of approved quality only will be allowed for external and internal services. Ordinary connections with mains must be made with proper ferrules, to which, for iron service, a length of not less than 3 feet of lead pipe must be attached. One service pipe only to each tenement will be permitted, and for houses rated at £20 per annum and under, the bore of such service pipe must not exceed ¾ in.; also, that patent high-pressure stop-cocks, according to sample, be placed on main and on alignment in a box easy of access.

20. If any person shall neglect to repair any service-pipe conveying water from the pipes of the said Council into the premises of such person after having received notice from any officer of the said Council that such service pipe requires repairing, the said Council may stop the water from flowing into such premises either by cutting off the service pipe or otherwise as to the said Council may seem fit until the necessary repairs shall have been effected. The service pipes from the main being the property of the owners or occupiers of the tenements supplied by such service pipes, the occupier (if any), and if none, the owner, shall in every instance in which any damage shall be caused by reason of such service pipe being leaky or otherwise out of repair or broken, be liable to a penalty not exceeding £5, and shall be liable to pay the expense incurred by the Council in stopping the flow of water, and in the event of continuing the offence to a further penalty of £2 for each day after notice of the offence from the said Council.

21. Any person supplied with water by the said Council who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding five pounds; and in the event of continuing the offence, to a further penalty of two pounds for each day after notice of the offence from the said Council.

22. Any person, whether licensed as aforesaid or not, connecting any service pipe or branch service pipe with any steam-boiler, for the purpose of supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be liable to a penalty not exceeding five pounds; and in the event of continuing the offence, to a further penalty of two pounds for each day after notice of the offence from the said Council.

23. Any person receiving water from the said Council who shall take or carry away any such water from his premises, or who shall allow any person to take or carry away any such water, or who shall sell the same to any other person, shall be liable to a penalty not exceeding five pounds.

24. Any person not having agreed to be supplied with water by the said Council, or who shall take or carry away any water from any drinking-tap through a public or private service pipe, shall be liable to a penalty not exceeding five pounds.

25. All charges for water supplied by measure or under special agreement shall be paid on the first day of February and the first day of November in each year, or as may be agreed on by the said Council.

26. No main or pipe of the Council shall be tapped except by the authorized officer of the Council, and a charge of 5s. shall be paid in advance for each tapping.

27. Any person obstructing, hindering, or interfering in any manner with any inspector, turncock, engineer, or workman of any description, or any officer of the Council, in the execution of any duty, shall be liable to a penalty not exceeding ten pounds.

28. In the construction of these By-laws, the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole; and the words "said Council" shall mean the Council of the Municipal District of Wentworth.

29. A test shall be put on all service-pipes laid from the mains at about 100 lb. pressure, so that all plumber's work, before being covered, be thoroughly tested. This to be done by force or suction pipe by a competent person appointed by the Council.

THE SCHEDULE HEREINBEFORE REFERRED TO.

Memorandum of agreement this day 18 , between , of Wentworth, of the one part, and the Municipal District of Wentworth of the other part, whereby the said agrees to take water by measure supplied by the Council of the said Municipal District of Wentworth at the rate of per 1,000 gallons, to be used in or upon the land, tenements, or premises in the occupation of the said , situated in -street, and such water shall be used for the purposes of only, and the said agrees to pay to the said Council for the water so supplied on in each year; and the said Council agrees to supply such water at the rate aforesaid: Provided always, and it is hereby agreed, that the said Municipal District shall not be liable to any penalty or damages for not supplying such water if the want of such supply arises from drought or other unavoidable cause or accident; and the said Council may terminate this agreement at any time by giving the said weeks' notice in writing to that effect.

Given under our Common Seal this day , 18 .

Made and passed by the Municipal Council of Wentworth, and the Common Seal of the said Council, by resolution, was ordered to be affixed hereto, at a special meeting held by the said Council on the twenty-eighth day of February, in the year of our Lord one thousand eight hundred and eighty-eight.

(L.S.) J. O. EDWARDS,
Mayor.

NEW SOUTH WALES.

SEWERAGE AND DRAINAGE OF THE WESTERN SUBURBS.

(REPORT OF MR. GEORGE H. STAYTON, M. INST. C.E., ON.

Presented to Parliament by Command.

Department of Public Works, Roads Branch, 30 January, 1888.

DRAINAGE OF WESTERN SUBURBS.

I FORWARD to the Honorable the Secretary for Public Works Mr. Stayton's report on the drainage of the Western Suburbs. He has conferred with me from time to time, and I have studied the case sufficiently to enable me to concur in all his recommendations. I would suggest that the report be distributed amongst the Municipal Councils and the press for discussion before taking any definite action on it.

W.C.B.

Under Secretary, B.C. Submitted; and I would suggest that this report of Mr. Bennett form the first page of the printed matter.—J.R., 30/1/88. Approved; and distribute copies of this report as suggested; send also copies to the press. No time should be lost; the matter is one of the utmost importance.—J. SUTHERLAND, 31/1/88.

Report on a System of Sewerage for the Western Suburbs of the City of Sydney.

WITH a view to the preparation of a comprehensive system of sewerage and drainage, my best consideration has been given to the sanitary conditions and requirements of the western suburbs of the City of Sydney, and I now have the honor to submit the following observations and recommendations thereon.

Extent of western suburbs.

The boundaries of the district comprised within the scope of the inquiry may be briefly described as extending from the city boundary to Botany on the east, along Cook's River to Liverpool road on the south, through Strathfield on the west, and along Parramatta River on the north. This area contains about 31 square miles, and it includes the Boroughs of Alexandria, Ashfield, Balmain, Burwood, Camperdown, Darlington, Glebe, Macdonaldtown, Marrickville, Newtown, Petersham, Redfern, and Waterloo, together with the Municipal Districts of Canterbury, Concord, Five Dock, Leichhardt, St. Peters, and Strathfield.

Extraordinary provision of streets.

In comparison with large cities in other parts of the world, the suburbs of Sydney present a somewhat peculiar feature, and one which must have an important bearing on the cost per head of population for the execution of sanitary works. I refer to the extraordinary provision of streets and roads, as formed or laid out for building purposes. In the City of Sydney the proportion may be taken on the existing population as 1 mile for 1,380 persons; for the city and suburbs generally (which contain 1,032 miles, and an estimated population of 350,000 persons) the proportion is 1 mile for 339 persons; but for the western suburbs it is 1 mile for 254 persons. By way of illustration it may be mentioned that about four years since the population per mile for large cities and suburbs in America varied from 500 to 3,640; in London it is about 2,000, and in Paris 4,000. These figures prove that the provision is largely in excess of ordinary requirements, and if the streets of the western suburbs alone were built upon to the same extent as London and its suburbs, over a million persons could occupy the area without overcrowding.

Increase of population.

The population of the metropolitan suburban area may be said to have increased by leaps and bounds during the last ten years; inasmuch as it has increased from 83,000 to 200,000 persons, or 141 per cent. The Metropolitan Suburban District includes the eastern suburbs of Paddington, Woollahra, Waverley, and Randwick; also St. Leonards, East St. Leonards, and Victoria at North Shore; none of which are considered in connection with the subject of this report, as they do not form part of the western area. Reference is made on page 9 to the still greater rate of increase which is taking place in the western suburbs, viz.—100 per cent. since the year 1881, or at a rate equivalent to 166 per cent. for ten years. In certain Municipalities the population is somewhat dense, whilst in others, where the houses are much scattered, it is obviously small. The latter conditions however will very shortly disappear, in consequence of the rapid nature of the further developments which are taking place, and of the extent of the building operations now in progress. It may therefore be reasonably anticipated that the population will continue to increase in a very marked manner.

Preliminary work.

The foregoing remarks and figures may serve to show that the question under consideration is one of some magnitude. From the extent of the area it will be readily understood that a considerable amount of time has necessarily been expended in making a close personal investigation throughout the district. Without such examination it was of course impossible to acquire a thorough knowledge of the several areas, or of the conditions and requirements of the various localities, which information was absolutely necessary prior to devising the measures hereinafter referred to.

The

Sanitary condition of suburbs.

The existing sanitary condition of the western suburbs is most unsatisfactory, and owing to the want of efficient sewerage and drainage, great inconveniences and nuisances are occasioned. The inquiries show that glaring sanitary defects exist in nearly every Municipality. It is the old tale of impure air and water resulting from defective drainage, and it is doubtless owing to the favorable climatic conditions of the Colony that the existing mortality from preventable disease is not greater, especially as the evils are becoming aggravated by additional surface drainage, owing to the increase in the population.

Mode of laying out new streets.

The mode in which land is subdivided and laid out for building purposes without due regard to proper levels or drainage, and in which dwelling-houses are erected thereon, is a question which materially affects suburban sanitation. The existing laws do not apparently provide regulations governing the laying out of new roads and streets and the erection of dwelling-houses, requirements which are urgently needed. Neither is there any power to restrain persons from building on low-lying areas or unhealthy sites; therefore, in the absence of proper drainage, the soil is liable to become charged with filth and fever-poison, and such premises are not only a source of danger to the health of the occupants, but to the locality generally. The present system ought to be emphatically condemned, as without doubt "fever-beds" and "rookeries" are being created in certain localities, which will not only cause endless trouble hereafter, but will be most difficult and expensive to deal with.

Building on low-lying land.

It may not perhaps be desirable to allude to any particular premises, but it must be obvious that during the course of the inspection of the suburbs my attention was naturally drawn to the existence of dwelling-houses in positions utterly unfitted for human habitation and quite contrary to all modern sanitary laws and requirements. In Marrickville, Leichhardt, and elsewhere, premises have been erected on most unsuitable sites, the level of which in some instances is scarcely above high-water mark, and where effectual drainage is out of the question, unless a large outlay is incurred at the public cost. In Marrickville Valley, drastic measures will be required to remedy the evil, and until these can be accomplished, it would certainly be for the public good to prohibit by law the further erection of dwelling-houses below a certain prescribed level, both in that and other unsuitable parts of the suburbs. The question may hereafter be raised whether portions of the lowest areas should be resumed and any specially objectionable dwellings be demolished.

Regulations for new streets and buildings.

Under the provisions of the Public Health and other Acts in England, every person who intends to lay out or form a new street is required to submit plans and sections thereof to, and receive the approval of, the authorised sanitary authority; and no dwelling-house or building can be erected without a similar application and approval. I am acquainted with several instances where the attempted creation of insanitary areas was thus frustrated by the action of the sanitary authority. It is not only important that the erection and drainage of all premises should be governed by efficient sanitary regulations, but, previous to any dwelling-house being occupied, its proper completion should be duly certified. In New York, the health authorities are even more stringent in their regulations, and any violations thereof are dealt with in a very summary manner—*e.g.*, only four or five months ago, both the owner and the builder of certain new houses were "arrested" and convicted for improper work. Considering the immense importance of efficient sanitation, it may not perhaps be a matter of surprise to find persons representing it as absolutely criminal that the creation of future plague spots should be permitted, more especially when stringent quarantine regulations for the prevention of other diseases are in operation.

Rates of Mortality.

According to the Statistical Register, it appears that prior to 1885 the yearly death-rate of the entire suburban district (which includes North Shore) was less than that of the City of Sydney, but subsequently it has invariably exceeded it; the deaths for the year 1886 being 21·04 per thousand for the suburbs and 17·06 for the city. The death-rate per thousand of children under 5 years of age in the suburbs has exceeded that of the city since 1880, the figures in 1886 having been 74·58 for the former and 60·91 for the latter. These facts clearly indicate a considerable waste of human life from preventable diseases, independently of debilitating sickness, and represent a serious money loss to the community; they are therefore

fore highly significant of the necessity for improved sanitation. The mean suburban death-rate from 1884 to 1886 has exceeded 21 per thousand per annum, but it may be confidently asserted that efficient sanitation would reduce such rate to at least 15 or 16 per thousand; in fact, a higher death-rate ought to be regarded as unsatisfactory. Irrespective of deaths from other preventable diseases, the following fatal cases of typhoid fever have been recorded in the suburbs of Sydney since 1882, viz. :—

1882.	1883.	1884.	1885.	1886.	1887.
71	93	109	130	229	164

Beneficial results of sanitary works.

The ultimate object of sanitary science is the health and convenience of communities, and the reduction of the death-rate. The sanitary improvements carried out in England during the last fifty years (although much yet remains to be done) have been greater than in any other country, and the death-rate has been so much reduced that it is now 3 per cent. less than France, 6 per cent. less than Germany, 8 per cent. less than Italy, and 11 per cent. less than Austria. Since the completion of the London main drainage, the improvement in the death-rate of that city has been continuous, the annual saving of life being no less than 16,000 persons. Sanitation has very materially lessened the mortality from typhoid fever, inasmuch as official returns show a reduction from 10·8 to 1·8 per 10,000 of the population in some instances, whilst the deaths from typhoid fever, in England generally, which from 1861 to 1870 were at the rate of 19,000 per annum, fell to 7,000 per annum during the ten years ending 1880. An efficient system of sewerage lowers the subsoil water-level, and has a material effect on the healthiness of a low-lying locality; a result which has been specially well marked by a decrease in the number of deaths from phthisis.

Pure air essential.

Pure air is essential to healthy existence, and in populous towns and their suburbs it is absolutely necessary to adopt measures for its preservation. The whole of the filth which is produced, of whatever kind, should be removed at once and completely before decomposition can take place. A comprehensive system of sewerage not only provides for the effectual removal of the fæcal matter and urine, but removes the water supply after it has done its duty and become filthy.

Disposal of liquid refuse.

The method which prevails throughout the greater part of the suburbs for getting rid of household slop-waters and other liquid refuse, is to allow it to flow into the surface channels at the sides of the streets, from which it eventually finds an outlet in the natural watercourses. Even where open channels have been formed, the sight and smell are very offensive; but where the channels are unformed and the surface inclination is slight, the nuisance is greatly intensified, especially in hot seasons, as the filth becomes stagnant and highly offensive. It is obvious that the many miles of these gutters which are in existence must cause the air to become so polluted as to be detrimental to the public health.

Existing drains.

Several of the Municipal Councils have expended considerable sums of money from time to time in the construction of drains and culverts in various streets, for the removal of refuse water from the surface channels. The adoption of these measures may have afforded relief in the immediate vicinity, but the nuisance has only been removed to an adjacent watercourse or creek. Although these works cannot be otherwise regarded than as temporary expedients for the removal of liquid refuse, they may, however, be hereafter utilized with advantage for the removal of surface waters during rainfall.

Pollution of watercourses and creeks.

It is obvious that under such a system the watercourses and creeks become fouled with liquid sewage; and owing to their imperfect condition and to the number of holes and places of deposit which they contain, most offensive smells are frequently given off. In a hot climate especially, this cannot be otherwise than dangerous to public health. As the outlet of the various creeks is either in the Parramatta River or Cook's River, the offensive matter must eventually be discharged into the harbour or into Botany Bay, and it is evident that these waters are becoming more and more polluted. The foregoing remarks refer particularly to Orphans' School, Johnstone's,

Johnstone's, White's, and Long Cove Creeks, on the north side, and to Shea's and Marrickville creeks, on the south side; but it is only a matter of time for the water-courses which discharge into Iron Cove Creek, Hen and Chicken Bay and Homebush Creek on the north, and from Canterbury and Strathfield into Cook's River on the south, to become similarly fouled, and unless efficient measures are taken this will most assuredly result.

Recently constructed sewers.

The only portion of the western suburbs which possesses recently constructed sewers in active operation is Darlington and part of Redfern. In this instance the sewers were constructed by the department, and form branches of the Prince Alfred Hospital sewer.

Areas omitted.

A brief inspection of the condition and requirements of certain portions of the area described on the first page, showed that no immediate necessity existed for the construction of sewers throughout Dobroyd, Five Dock, and Concord. The greater part of these districts consists of bush or partially-cleared land, the houses being much scattered. The Alexandria swamps and adjacent low-lying lands are also excluded, as from the nature of the conditions which exist, building operations will doubtless be greatly restricted upon sites so extremely unsuitable. The parts thus excluded from further consideration cover an area of about 9 square miles.

Plan and levels.

The only available map of the western suburbs when the question first came before me, was the map of Sydney and suburbs which accompanied the Sewage and Health Board's Reports in 1877. Although the map is a compilation and consists merely of a skeleton plan showing the outlines of certain streets as they then existed, and does not extend further westward than Ashfield and Five Dock, yet it has been of great service as a foundation to work upon in preparing a revised and extended plan.

New map and levels.

The preparation of a plan showing the whole of the existing and proposed streets and the areas built upon, together with the ridges, creeks, and water-courses, and taking the levels thereof, has occupied several months, during which about 600 miles of streets have been inspected and partially surveyed, and a great number of levels taken. Levels had been taken from time to time by departmental officers between 1881 and 1885, at Marrickville, St. Peters, Redfern, Newtown, Camperdown, and Petersham, and they were of much service, but it should be noticed that they did not extend beyond Petersham or Marrickville. The new map is a compilation from various Government surveys and municipal maps. It is drawn to a scale of 20 chains to the inch, and shows approximately the position of the houses and buildings; it also shows the intended reclamations and other improvements at Cook's River. It is certainly the best map extant for the purpose of this report, but prior to the preparation of working plans and sections, detail surveys, such as are already in progress under the Surveyor-General's Department for Sydney and Suburbs, and plans drawn to a scale of 40 feet to an inch will be necessary.

Physical conditions.

The physical conditions of the district present peculiar features, and although favorable for the discharge of rainfall and stormwaters from the surface, they render the drainage question unusually difficult to determine. A reference to the map shows that very nearly the whole area consists of ridges and valleys. Some of the slopes present considerable declivities; whilst other parts, such as the Glebe, Annandale, Leichhardt, and Balmain, extend towards the Parramatta River and are nearly surrounded by bays and coves.

Ridges.

Commencing at Redfern, near the City boundary, the main ridge which separates the northern and southern watersheds passes westward along the north side of the railway works at Eveleigh; thence along or near to Newtown Road, Enmore Road Stanmore Road, and Canterbury New Road, to the south end of Queen-street, Ashfield. After crossing the latter it continues parallel to it on the west side; thence along Goodlet-street, crosses George's River Road near Brighton Avenue, and passes on to the Liverpool Road at its junction with Burwood Road. At Emu-street it leaves Liverpool Road and passes across Redmyre Road and Homebush Road and continues further westward on the south sides of Busby Hill, and Albert-street, Strathfield. The northern watershed discharges into Parramatta River and the southern into Cook's River. There are six principal spurs on the north side, and they extend through the Glebe; Camperdown; Petersham, Leichhardt, and Balmain; Ashfield and Dobroyd; Burwood and Five Dock; and Burwood and Concord. On the south side there are three, viz., through Newtown and St. Peters;

from the west end of Marrickville Road to the Warren, at Tempe, and along the west end of Liverpool Road. The height of the main ridge averages about 120 feet above high-water-mark, but at the summit, which is at Seaview-street, Ashfield, the surface level is 175 feet. In several instances the levels of portions of the various spurs exceed 100 feet in height.

Creeks, watercourses, and flats.

Most of the creeks and watercourses possess good natural inclinations, but the flats which call for special observation are at Marrickville and Shea's Creek. Marrickville valley is practically at a level of 1 foot only above high-water-mark for a distance of over a mile north of Cook's River, whilst considerable portions of the area are at least a foot below high-water-mark. During the heavy rains in April last no less than 141 acres were under water, and a number of dwelling-houses were flooded; the greatest depth of water, as measured at the time, being about 3 feet 6 inches. The land adjacent to Shea's Creek, between Ricketty-street and Cook's River, is at a similar level to Marrickville valley, and is inundated at high spring tides. About 53 acres of a building estate near Undercliff Bridge, Cook's River, were also flooded.

Proposals for Sewerage.

I have perused the correspondence, reports, and minutes relating to the question, together with the statements of various deputations to the Government thereon, but there is no evidence whatever that any proposal for the drainage of the Western Suburbs has hitherto been definitely formulated. The northern and southern drainage systems for the City of Sydney, as devised and constructed by the Department, are intended however to receive the sewage from a limited portion of the suburbs. The position of these sewers is shown on the plan by black lines.

Northern system.

The northern outfall sewer is about to be extended to George-street West, terminating at the City boundary at Newtown Road; at which point its dimensions will be 45″ in diameter and the invert level 28·68 feet above datum. This will permit the construction of a main sewer and sub-mains to drain the Glebe, the northern part of Leichhardt, and Balmain, an area (exclusive of reserves, &c.) amounting to 1,641 acres. A branch sewer to the Prince Alfred Hospital has already been constructed; its terminating dimensions are 4′ × 3′ and level 53 feet above datum. As explained on page 4, the Borough of Darlington and a part of Redfern, comprising an area of 120 acres, are drained into this system, and the proposed extensions westward of the hospital will receive the drainage from certain parts of Camperdown, Newtown, and Petersham. The total area draining into the Prince Alfred Hospital sewer will thus amount to 443 acres.

Southern system.

The southern outfall sewer is 5′ 6″ in diameter, and on the western side of Botany Road its invert-level is about 26 feet above datum. This system will receive the sewage from a portion of the City and from parts of Redfern and Waterloo (an area of 583 acres), and the construction of a branch sewer across Shea's Creek, Alexandria, will further provide for the drainage of 329 acres, being portions of Alexandria, Macdonaldtown, and Newtown.

Various methods of sewerage.

The various methods which have been devised for the sewerage of towns may be briefly described as—

(*a*) The "combined" system, by which all sewage, surface water, and subsoil waters are carried off in the same sewer.

(*b*) The "partially-separate" system, by which all sewage and a limited portion of surface water are so removed.

(*c*) The "absolutely separate" system, which involves separate sewers for sewage, for surface water, and for subsoil water.

(*d*) The "Liernur" pneumatic system, by which sewage is removed by exhausting the air in specially constructed sewers and drains; the collected matter being subsequently conveyed to works, where it is converted by evaporation into dry manure.

(*e*) The "Shone" pneumatic-ejector system, by which sewage is collected in receivers and ejected by compressed air, forced into cast-iron main pipes, and delivered to the outlet provided at a higher level.

Various dry systems of collecting and intercepting excrementitious matters (all of which, however, necessitate some system of sewers to carry off liquid refuse), such as earth-closets, "Goux" closets, and "Rochdale" pails, have been adopted in towns to a limited extent; but none of the dry systems can be considered suitable for large communities.

communities. The collection and disposal of large masses of excrement is very troublesome, and often creates much unpleasantness. In fact I can testify that the whole process of collection and removal under the "pail system," as carried out on a large scale at Nottingham (where nearly 30,000 of these closets are in use) is so offensive, that it would never be tolerated in the western suburbs of Sydney. Indeed the Medical Officer of Health for Nottingham has stated "that he did not regard the pail or tub system as perfect; but on the contrary most decidedly gave the preference to properly constructed and well ventilated water-closets, as being free from all danger." At the best, the so-called dry systems are but inferior substitutes for water carriage, which, if efficiently constructed throughout, is the cleanest and most convenient of all. Moreover, it has already been adopted for a part of the district in question, and the desirability of its extension throughout the area is obvious.

Joint sewerage scheme recommended.

From a careful study of the question of the best mode of draining those portions of the district which must necessarily be excluded from the before-mentioned existing systems, I am fully convinced that any proposal which fails to embrace a joint sewerage scheme for the entire area, is undesirable. The various municipal boundaries are not concurrent with the natural watersheds, and even if they were, purely local systems for each borough would be found both difficult and expensive. I have therefore no hesitation in recommending as the most practical, efficient, and economical remedy, a comprehensive scheme upon the "partially-separate" system.

Position of Outfall.

The next question which arises has reference to the best available position for the outfall and the method of disposal to be adopted, and from the following remarks it will be observed that consideration has been given to the possibility of utilizing the existing sewer outfalls, to conveying the sewage to the sea or various rivers, to the establishment of local systems of treatment, and to the adoption of a sewage farm at Rookwood or Botany.

Existing outfalls.

The main outfall sewer of the northern system (*vide* page 5) discharges into the sea at Bondi, but the sewage of the southern system will be removed by the outfall sewer which discharges at the intended sewage farm at Webb's Grant, Botany Bay. Neither the dimensions nor the levels of the above outfall sewers would permit of the remainder of the area being drained into them by gravitation, and to convey the sewage to any other point on the coast south of Ben Buckler, would necessitate the construction of an outfall sewer of great length and the erection of powerful pumping engines, involving a great outlay and large annual cost.

River outfalls.

The remarks on page 4 show that the greater part of the area to be sewered falls towards Parramatta River and the remainder towards Cook's River. Although the former is a tidal river, it contains numerous bays and coves, in several of which mud flats of considerable extent are exposed at low water; moreover, it is so situated at the head of Sydney Harbour, that any proposal to utilize its bays or heads as outlets for the discharge of sewage, without treatment, ought not to be entertained for one moment. Such a system would unquestionably create serious pollution of the waters, and much inconvenience would be caused by the silting up which would ensue. In the case of Cook's River, which discharges at the head of Botany Bay, the objections are even stronger, inasmuch as above the dam at St. Peters there is little or no current, in fact the velocity in dry seasons is practically *nil*. George's River, to which the sewage of a great part of the area could be conveyed by gravitation, is nearly 6 miles further south. It discharges a large volume of water into Botany Bay on the ebb-tide, and having a catchment area of 375 square miles, its discharge after rainfall is very great. Notwithstanding these advantages it cannot be deemed suitable as an outfall for the discharge of a large quantity of crude sewage.

Local systems undesirable.

The objections to the discharge of crude sewage in the before-mentioned rivers are insuperable, and it does not appear that suitable sites can be procured on the south side of Parramatta River for the adoption of local systems of treatment, such as precipitation and filtration. Even if practicable, however, such systems would certainly be opento serious objection, and apart from this, they would necessitate considerable extra expense in separate management.

As

Sewage farm at Rookwood.

A suggestion was recently made that the sewage from the greater portion of the Western Suburbs might be conveyed to the model farm at Rookwood, and there be utilized by irrigation. I have considered the proposal and have made a preliminary investigation of its merits, with the view to the preparation of an approximate estimate of the cost. The primary objection to the scheme is the great outlay it would entail in the construction of works and erection of machinery, also in the acquisition and preparation of a large area of land, amounting eventually to 2,000 acres. Moreover, as the summit of the farm is about 160 feet above sea level, it is obvious that the cost of transmitting the sewage to the requisite altitude by steam power would be a very serious matter. The scheme would necessitate the reversal of the Western system hereinafter described, and its execution, including the capitalised cost of pumping, would involve an outlay of £1,222,000. This amount is £550,209 in excess of the estimated cost of the intended Western system (*vide* p. 25), and it would involve an additional annual charge, to cover interest and repayment of principal, amounting to £24,000. The cost of pumping would be proportionately greater as the population increased, the estimate being based on a prospective population of 100,000 persons. The strongest point in favor of the proposal is that the levels of the main sewer would be sufficiently low to enable the intended gravitation area to be increased, but I am decidedly of opinion that the adoption of such a scheme is undesirable.

Sewage farm at Botany.

The fact that the establishment of a sewage farm at Botany had already been determined upon for the Southern system was naturally a strong inducement to consider whether a sufficient area would be available for the purification of the sewage from the Western system, and if not, whether additional land could be procured and rendered suitable for the purpose. The area of Webb's Grant is 309 acres; of this, however, about 270 acres only are at present available for the purpose of sewage farming; an area clearly insufficient for the Southern and Western systems combined. The resumption of about 250 acres of unused land to the south and west of Webb's Grant is practicable, and its immediate acquisition is highly desirable. Of the additional area it is probable that 100 acres could easily be made available, and the remainder would need to be filled up and levelled as hereafter found requisite.

Botany site recommended.

The nature of the soil and the situation of the land render the Botany site admirably fitted for the utilization and purification of sewage. The former consists of a free sandy soil and open subsoil and for the greater part of the area the surface level is at least 8 feet or 9 feet above the sea. The site is not only compact in itself, but is also sufficiently removed from buildings and population to enable it to be used in the manner proposed, without risk of reasonable objections being raised; it also has extensive water frontages and convenient access could be provided. Under these circumstances I feel convinced that it would not be possible to provide a better position for the outfall and for the efficient and economical purification and disposal of the sewage of the Western area. Certainly there is none within reasonable distance, nor any which can be so confidently recommended.

Proposed Scheme.

Northern, Southern, and Western systems.

The drainage area of the proposed scheme comprises nearly 22 square miles, and the sewerage thereof can be best effected by the adoption of three systems, hereinafter referred to as the Northern, Southern, and Western systems respectively. The Northern and Southern suburban systems will embrace an area of nearly 5 square miles, and they will be drained into the existing systems which discharge at Bondi and Webb's Grant. The Western area, embracing nearly 17 square miles, will be drained by an entirely new system discharging at Botany.

Drainage area.

The total area of the district included in the scheme contains 14,077 acres; from this, however, must be deducted the area of the public parks, reserves, and cemeteries therein, amounting to 449 acres; consequently the net drainage area is 13,628 acres. The latter is more or less built upon or laid out for building purposes, and as doubtless the whole will eventually require drainage, provision should be made for it in the scheme. Although it is essential that the capacity of the main sewer and submains shall be devised to meet the future requirements of the entire area, it may not become necessary to construct sewers in every street within that area until a considerable period has elapsed.

The

The various systems into which the drainage area is subdivided are as follows, viz. :—

No.	Municipality.	Color on plan.	Area in acres.	Total area of each system in acres.
	NORTHERN SYSTEM.			
1	Glebe, Leichhardt, and Balmain	Purple ...	1,641	
2	Newtown, Camperdown, and Petersham	Neutral tint ...	323	
3	Darlington and Redfern	Dark brown ...	120	
				2,084
	SOUTHERN SYSTEM.			
4	City (part of), Redfern, and Waterloo	Light brown ...	583	
5	Alexandria, Macdonaldtown, and Newtown	Green ...	329	
				912
	WESTERN SYSTEM.			
6	Marrickville, Petersham, Newtown, and Leichhardt ...	Light yellow ...	1,477	
7	Marrickville, St. Peter's, Macdonaldtown, and Alexandria..	Dark yellow ...	1,180	
8	Marrickville, Ashfield, Petersham, and Leichhardt ...	Red	2,005	
9	Ashfield, Burwood, Strathfield, Concord, and Five Dock ...	Blue	4,100	
10	Canterbury and Southern slopes	Light blue ...	1,870	
				10,632
	Total...			13,628

At the commencement of the past year the drainage area contained about 32,704 houses, and an estimated population of 154,000 persons; but in order to determine the prospective population, the circumstances relating to each municipality have been separately considered. The existing number of persons per acre varies very materially, *e.g.* :— Population.

In Ashfield there are 4·48 persons per acre.
„ Burwood „ 4·79 „ „
„ Marrickville „ 5·66 „ „
„ Leichhardt „ 7·80 „ „
„ Petersham „ 10·63 „ „
„ Balmain „ 26·37 „ „
„ Glebe „ 34·83 „ „
„ Newtown „ 36·03 „ „

The prospective rate per acre for the entire area has been determined in accordance with the conditions peculiar to each district, that is to say—In Redfern, Darlington, Camperdown, and other well populated parts near the city, it is taken at 47 or 45 persons; and in Glebe, Leichhardt, and Balmain, the average is 42 persons. In Marrickville, Petersham, and other districts colored yellow on plan, it is 40; in Ashfield and those parts coloured red, it is 33; and in Burwood, Strathfield, Concord, Canterbury, and other outlying places where coloured blue, it is taken at an average of 30 persons per acre. It may be recollected that the prospective rate allowed for the City of Sydney was 47 persons, but for the eastern outlying districts it was 31 only. The following table shows that the average number of persons for the entire drainage area is estimated at 35·41 per acre, and that the total prospective population for which provision is made in the scheme, amounts to 482,608 persons, or nearly three times the number of the existing population :—

System.	Area in acres.	Average number of persons per acre.	Total prospective population.
Northern	2,084	42·637	88,857
Southern	912	46·28	42,206
Western	10,632	33·065	351,545
Total	13,628	35·41	482,608

The

The growth of the Western Suburbs has been enormous. According to the Census returns, the population contained within the area which constitutes the nineteen boroughs or municipal districts referred to on the first page, was 41,716 in 1871, and 82,273 in 1881; but it is estimated that at the present time the numbers have increased to 164,103. At this rate of increase it may be fairly assumed that the total prospective population of 482,608 will be realized in the course of eighteen or twenty years.

Sewage. The quantity of fouled-water to be removed by the sewers, even from the existing population, amounts to a considerable volume. It will, however, be largely increased so soon as the new water supply works have been completed and brought into operation throughout the area.

The Sydney intercepting sewers provide for the removal of a daily consumption of 72 gallons per head, and although this may appear to be a liberal allowance for domestic purposes in the suburbs, it is no doubt desirable to make provision in the proposed sewers for carrying off an equally large volume of water, the consumption during the hot season of the year being especially great. At Adelaide the sewers were designed to carry off 50 gallons per head per diem, but this quantity is exceeded in the summer. The sewers are intended not only for the removal of fæcal matter from water-closets, but for all kinds of liquid refuse, such as domestic slops and urine, together with the waste-water from baths, sculleries, wash-houses, stables, dairies, and other premises.

Careful observations and experience have proved that sewage is not discharged into the sewers at an uniform rate throughout the period of twenty-four hours; but in order to provide for the removal of the maximum quantity of sewage likely to enter the sewers, provision is made in their capacity for one-half the quantity to pass off in six hours, or at the rate of 1 cubic foot per head per hour. On washing days and in very hot weather this quantity will doubtless be exceeded. The estimated maximum sewage discharge for the whole area, on a prospective population of 482,608 persons, amounts to 8,044 cubic feet per minute.

Rainfall. The provision to be made for the rainfall to be carried off by the sewers is a question of much importance, demanding special consideration. The extent of the area to be dealt with, and the quantity of rain which sometimes falls in a short period, renders it somewhat difficult to determine. In London and nearly all the principal cities and towns in England, the sewers and stormwater overflows are sufficient in capacity to carry off the ordinary rainfall from the streets, roofs, paved yards, and other surfaces; but in order to similarly remove the semi-tropical rains which from time to time are recorded in and near Sydney, the dimensions of the sewers would require to be very large, and the cost of construction, even if financially possible, would be enormously increased. From a sanitary point of view such sewers are extremely undesirable, because the maximum sewage or dry-weather flow would scarcely be sufficient to ensure a self-cleansing velocity, and the increased internal surface which would thus be exposed would greatly facilitate the formation of sewer gases.

Catchment area for rainfall. The principal points to be determined are those relating to catchment area and depth of rainfall. For the City of Sydney and Redfern, the late Mr. Clarke, M.Inst.C.E., recommended an allowance of 40 per cent. of the entire drainage area, as the proportion of roof and paved-yard surfaces forming the rainfall catchment. The rule adopted for town areas in England by Mr. T. Hawksley (one of the foremost hydraulic engineers in the world) is to allow *one* square of roofing and *one* square of paved yard as the contributing area of each head of the population; which, if applied to the City and Redfern at the rate of 47 persons per acre ($\frac{47 \times 200}{9} = 1{,}044$ square yards), would amount to 21·58 per cent. of the entire area. I am of opinion that it is preferable to determine the catchment area in this manner by the ratio of population per acre, instead of assuming a certain percentage of the whole area. The prospective population of the Western Suburbs is estimated to range from 30 to 47 persons per acre.

Doubtless the dwelling-houses in the suburbs of Sydney present a greater superficial area of roof surface per head of population than that allowed for English towns, in consequence of so many of the houses consisting of "cottage" or ground-floor residences; but to allow for the interception of more than 100 feet of roof surface per head would necessitate the construction of larger sewers than are desirable. The sewers of Adelaide were designed to carry off all the rainfall from roofs,

paved

paved yards, and courts, but during recent heavy rains they were said to be incapable of discharging the quantity of rainfall which had found its way into them, showing that the water allowed ingress was greatly in excess of the quantity intended. It is obvious therefore, that the greatest precautions will be necessary in dealing with the quantity of rainfall to be admitted into the sewers. A further and by no means unimportant reason may be urged in favor of restricting the admission of rainfall, viz., that excessive dilution of sewage greatly depreciates its value as a fertilizer. The estimated quantity of sewage per head to be admitted to the sewers is much greater than the usual allowance, therefore all additions of rainwater will still further depreciate the market value of the sewage when applied to land at the sewage farm.

The catchment area allowed for in the Southern and Western schemes is 200 feet superficial per head of population, that is to say, 100 feet for paved yards and 100 feet for roofed surfaces. Rainfall from paved yards is invariably more or less foul, it should therefore be admitted to the sewers; in fact it would materially help to scour out the house drains. With respect to rainwater from roofs, I think that the allowance of 100 feet superficial is the utmost provision that should be made; in which case it will doubtless be necessary, wherever practicable, but especially in the case of the low-level systems, to conduct the water which falls upon the front part of the houses to the street channels, from whence it would flow into storm-water drains or culverts, and be discharged into natural water-courses. All surface water from roads and streets should be likewise conducted to storm-water culverts and channels, and be absolutely excluded from the sewers. The estimated prospective population per acre for the Western and Southern areas is 34·11 persons ($\frac{393,751}{11,544} = 34{\cdot}11$) and the before-mentioned allowance of roof surface per head, is equivalent to 15·66 per cent. of the entire area.

In the case of the Northern area, it will be absolutely necessary to further restrict the admission of rainfall into the sewers. The main sewer in George-street West, at the point where the Prince Alfred Hospital branch sewer joins, is designed to carry 2,103 cubic feet per minute when flowing $\frac{3}{4}$ full, or 2,469 cubic feet if flowing quite full; it would, however, carry more than that quantity under a temporary additional head without creating inconvenience, but it would not be desirable to allow a much greater internal pressure. Fortunately there are great facilities for the natural discharge of rainfall at Glebe, Leichhardt, Balmain, and Camperdown, therefore the whole of the water falling upon roofs should be excluded from the sewers, and be made to discharge into street channels. The catchment area allowed in this system (100 feet superficial per head) is intended to provide for backyards only, and, if calculated at the prospective average of 42·64 persons per acre, is equivalent to nearly 10 °/₀ of the entire area.

Depth of rainfall.

The depth of rainfall intended to be removed by the main intercepting sewers of Sydney is calculated at $1\frac{1}{4}$ inch per diem for the Northern catchment area, and 3 inches for the Southern. The former amounts to a discharge of 1·26 cubic feet, and the latter to 3·02 cubic feet per minute per acre for the entire area. The calculations for the present scheme are based on a rainfall measuring 2 inches in depth during twenty-four hours, and although the official returns show that the rainfall in the suburbs of Sydney sometimes falls at a heavier rate for shorter periods, in all probability it would not frequently occur during the actual period of maximum sewage flow. The foregoing allowance for the Sydney Northern area is equivalent to $\frac{1}{2}$-inch in depth if distributed uniformly over the entire area, but for the Southern area it equals $1\frac{1}{5}$ inch over all. The present scheme provides for an average of ·313 inch in depth for the Southern and Western suburban systems, the discharge from which amounts to ·79 cubic feet per acre per minute. The restricted catchment area in the Northern suburban system will reduce the discharge therefrom to ·49 cubic feet per acre per minute. The following table of areas and discharges shows that whereas the total maximum sewage flow amounts to 8,044 cubic feet per minute, the quantity of rainfall proposed to be carried off in addition thereto, is 10,143 cubic feet per minute. If, however, 40 °/₀ of the entire rainfall were removed by the sewers, the resultant discharge of rainfall only would be no less than 27,483 cubic feet per minute.

Volume of sewage and rainfall.

The various details explanatory of the volume of sewage and rainfall from each of the ten areas, are given in tabulated form in the appendix to this report, and it

it is therein shown that the resultant flow of sewage and rainfall combined will furnish discharges in cubic feet per minute as follows, viz. :—

System.	Prospective Population.	Area in Acres.	Rainfall per Acre.	Volume of Sewage.	Volume of Rainfall.	Combined Maximum Discharge.
			Cubic feet per minute.			
Northern	88,857	2,084	·4935	1,481	1,028	2,509
Southern	42,206	912	1·071	704	977	1,681
Western	351,545	10,632	·7654	5,859	8,138	13,997
Total	482,608	13,628	.....	8,044	10,143	18,187

Proposed Sewers.

Advantage of gravity sewers.

The primary object to be attained in devising the proposed scheme is to provide for the removal of as much of the sewage as practicable by gravitation, or in other words to reduce the amount of pumping to a minimum. Nearly 29 % of the entire drainage area, however, is too low to admit of the former system, and low-level sewers and branches will be necessary at Marrickville and other places. These sewers will require to be emptied by means of pumping machinery or other mechanical power, the sewage being discharged into and carried off by the gravitating sewers.

The proposed sewers are designed to carry off the foregoing combined quantities when flowing about $\frac{3}{4}$ full, but should a heavier rate of rainfall occur during the six hours of maximum sewage flow, the excess of stormwater would be carried off by overflow-weirs, which would act as safety-valves in case of sudden emergency. It must be borne in mind that the capacity of the sewers is such, that several years must necessarily elapse before the actual catchment area would become so great as to cause over-charging or backflooding. This, however, could always be prevented by making sufficient stormwater overflows, or by providing relief sewers hereafter, as may be found necessary. The small quantity of sewage contained in stormwaters so discharged into natural water-courses, would be so greatly diluted as to be rendered perfectly unobjectionable. During the night and at other periods of minimum flow, the sewers would be available for a much larger quantity of stormwater.

Tunnelling.

It will be observed that the greater part of the proposed intercepting sewers and sub-mains is intended to be in tunnel, in fact a specially close study of the topographical features of the district was not required to show that a considerable amount of tunnelling must necessarily be resorted to in their construction. Experience tends to prove that the cost of executing such sewers in tunnel, through ordinary sandstone or shale formations, is not greater than for moderately deep open cuttings, and it is obvious that much public inconvenience is saved from the fact that streets do not need to be closed to traffic for considerable periods, and that carriage-way surfaces are only slightly interfered with during the construction of the works.

Plan and sections.

The plan and sections which accompany this report show the position, dimensions, and levels of the proposed sewers and works. The situations and points of termination of the various sewers and sub-mains have been determined with a view to facilitating the construction of the necessary subsidiary sewers hereafter, and securing as large a gravitating area as practicable. The plan illustrates the drainage areas and extent of the various systems, the position of the proposed sewers being indicated by red lines, but it is possible that further investigation may render it desirable to make certain minor modifications. Without entering into the detail requirements of an efficient sewerage system, it may perhaps be mentioned that the present system is designed with a view to the sewers being laid in straight lines as far as practicable, and at a sufficient depth to drain the lowest part of the adjacent premises. The main intercepting sewers are oviform, with the narrow part

at

at the bottom; this form giving the greatest hydraulic mean depth and consequently the greatest velocity or scouring power during the periods of minimum dry-weather flow. The areas and gradients, together with steps at the intersections, are so regulated as to ensure self-cleansing, and to carry off effectively the maximum quantity of sewage and rainfall. Due provision is made by shafts for inspection and ventilation, also for stormwater overflows, for automatic flushing tanks or chambers, and for air-flaps.

NORTHERN SYSTEM.

Route and length.

The main intercepting sewer for the Glebe, Leichhardt, and Balmain portion of the Northern system, colored purple on plan and referred to on page 8, commences at the intersection of George-street West and Newtown Road, at a level of 28·68 feet above high-water-mark, and after passing through the Glebe and across Johnstone's Creek, it enters Leichhardt at the east end of Piper-street, through which it is continued to and across White's Creek. On the west of White-street its direction is changed, and it passes across Brenan's Estate and enters Balmain at Foucart-street, on the west side of Brockley-street. The sewer is continued through Evans-street to Reynolds-street; it then crosses Montague-street, Palmer-street, and Booth-street, and enters Darling-street opposite Elwin-street. It continues through Darling-street to a point north of Johnson-street, where it terminates at a level of 53·54 feet. The total length of the northern main sewer is 4 miles 520 yards, and with the exception of inverted syphons at Johnstone's and White's Creeks, and at the valley at the north end of Darling-street, the sewer will be practically in tunnel throughout. Twelve branch intercepting sewers or sub-mains are intended to be constructed at the Glebe, Leichhardt, and Balmain, as shown on plan. The total length of these sewers is 5 miles 513 yards, the greater part of which will be in tunnel.

Dimensions and inclination.

The main sewer for a distance of 700 yards from its commencement is intended to be of oviform section, the dimensions being 5 feet by 4 feet. A sewer of this size is necessary to carry the estimated maximum discharge of 1,947 cubic feet per minute when flowing three-quarters full, but as the intended 45-in. syphon in George-street West will only carry off 1,600 cubic feet per minute at the ordinary rate of flow, provision must be made at the inlet for the discharge during heavy rainfall of at least 400 cubic feet per minute by means of a storm-water overflow. The foregoing circumstances, however, will render it possible to secure an additional temporary head of 9 inches for the purpose of flushing the syphon whenever necessary, which will be decidedly advantageous. At the Glebe Point branch sewer the size is reduced to 4 feet 9 inches by 3 feet 9 inches, and the dimensions are further decreased at the various branches until at the intersection of Darling-street and Ann-street, Balmain, the size is 4 feet 2 inches by 2 feet 6 inches. North of the latter it consists of 15 in. and 12 in. pipes. The parts of the sewer in tunnel are intended to be lined with concrete and faced with cement. The inverted syphon at Johnstone's Creek will consist of wrought-iron pipes, 42 inches in diameter, carried across the flat on masonry piers at a height of 12 feet above the surface for a distance of 600 feet. The syphon at White's Creek is 40 inches in diameter, and could be so arranged as to form part of the proposed bridge at Piper-street, Leichhardt. With respect, however, to the 12 in. iron pipe syphon and pipe sewer beyond it at the north end of Darling-street, Balmain, it may perhaps be found desirable to postpone the construction of the portion of the main sewer north of St. John-street, or to omit it entirely, with a view to that part of the district, both high and low level, being dealt with by pumping the sewage into the intercepting sewer. The inclination of the main sewer for a length of 5,466 yards from its commencement is 1 in 1,509, or at the rate of 3 feet 6 inches per mile, while the intervening syphons have a fall of 1 in 1,200. From Reynolds-street to Ann-street, Balmain, the inclination is 1 in 800, north of which it is 1 in 500 and 1 in 450, the syphon being 1 in 400. The levels of the sewers have been so regulated and adjusted at each branch that an uniform flow-line will be secured, and the velocity, which, at the estimated maximum flow in the 5 feet by 4 feet sewer is calculated at 165 feet per minute, will gradually decrease to 141 feet per minute in the 4 feet 2 inches by 2 feet 6 inches sewer.

The drainage area of this portion of the Northern system is 1,641 acres, of which about 1,000 acres can be drained by gravitation into the before-mentioned sewers. The remainder of the area consists of houses on the water frontages, and of various

various parts of the district which are below the contour level, and its drainage may necessitate the adoption of the special means hereinafter described for raising the sewage to the required height. The extent of the gravitating area is shown on the plan by green dotted lines.

Callan Park Asylum.

The Callan Park Lunatic Asylum at Leichhardt contains an area of about 100 acres. The premises are fitted with a large number of water-closets, and for the drainage thereof and the removal of liquid refuse of all kinds, a complete system of sewerage and drainage has been provided. The maximum dry-weather volume discharged into the waters of Long Cove from the outfall sewer at all states of the tide, is about 13,000 cubic feet per diem. It may perhaps be mentioned that part of the liquid sewage is utilized by irrigating the vegetable garden in dry weather, but the arrangements, however, are somewhat crude. The proposed main sewer at Balmain will permit of the interception of the greater part of the dry-weather or sewage flow from the asylum, should it be deemed desirable.

Extension of Prince Alfred Hospital branch sewer.

The Prince Alfred Hospital branch sewer is proposed to be extended through Camperdown to the north end of Liberty-street, Petersham, a distance of 1 mile 140 yards. Commencing by a junction with the existing sewer, about 4 chains to the east of the hospital, at a level of 50·5 feet, it passes into and along the lane on the north side of the hospital; thence in tunnel under the ridge at Missenden Road, and through Grose-street; across Church-street; thence continuing in a westerly direction under Australia-street and the ridge at St. Mary-street to the north end of Kingston Road, through which it passes to the south end; terminating at Liberty-street, at a level of 58·36 feet. From the junction with the existing sewer to the north end of Kingston Road, a distance of 1,400 yards, the sewer is 4 feet by 2 feet 8 inches of new oval form; the rate of inclination from the commencement to Church-street being 1 in 1,150, and from Church-street to Kingston Road 1 in 1,000. The remainder of the sewer will consist of 21 inch and 18 inch pipes, laid at inclinations of 1 in 650 and 1 in 600 respectively. The area is shown by a neutral-tint color on plan; it amounts to 323 acres, inclusive of the University, and its drainage can be entirely effected by gravitation. As previously explained, the Borough of Darlington and a part of Redfern, colored dark brown on plan, and comprising 120 acres, are already provided with efficient main sewers.

Southern System.

The southern outfall sewer referred to on page 5, together with the Bourke-street sewer, will provide for the drainage of Waterloo, for the greater part of Redfern, and for the southern slopes of the city. In this case a separate scheme is nearly perfected by the Department for the construction of the necessary subsidiary sewers and for connecting the house-drains; consequently no further reference to this portion of the area need be made, beyond mentioning the fact that it contains 583 acres, and is tinted light brown on plan.

Macdonaldtown branch sewer.

For the drainage of the district lying to the south of the ridge at Newtown Road, and between Rosehill-street, Alexandria, Macdonaldtown Park, and Erskineville-street, Newtown (colored green, and containing an area of 329 acres), it is proposed to construct a branch from the southern outfall sewer, opposite Reserve-street on the Waterloo Estate. The most practical route is across Shae's Creek Swamp and Creek to Harley-street, Alexandria, continuing across Mitchell Road and the Park, thence *viâ* Park-street and Henderson Road, under the Illawarra Railway at Erskineville to Burren-street, and terminating at Wilson-street, Newtown; a distance of 1 mile 780 yards. The prospective maximum discharge from the area is 590 cubic feet per minute, and a sewer of circular form will best meet the requirements of construction and level across the swamp, where, for a length of 400 yards, it is proposed to be carried as an aqueduct on masonry or concrete piers, the maximum height of the iron pipe being about 12 feet above the surface. The commencing level is 25·95 feet above high-water-mark, and at the termination at Newtown it is 78·48 feet. From the southern outfall to Mitchell Road, a distance of 1,100 yards, the sewer is 30 inches in diameter and the inclination 1 in 1,000; the fall then increases to 1 in 600 and 1 in 200. The variation of level between the south end of Burren-street and Wilson-street is about 42 feet, but, by breaking the fall of the sewer into four steps of 3 feet each, an inclination of 1 in 50 is obtained. On the west side of Mitchell Road the sewer consists of 21-inch and 15-inch pipes, except

in

in Burren-street, where, owing to the beforementioned fall of 1 in 50, a sewer 9 inches in diameter is ample. The maximum depth of flow in the 30-inch circular sewer is 1·8 feet, the corresponding velocity being 154 feet per minute; in the 21-inch and 15-inch sewers the velocity is 165 feet and 239 feet respectively, but in the 9-inch it is no less than 375 feet per minute when flowing half full. With the exception of the aqueduct and embankment at each end, the sewer will be in open cutting at a moderate depth. The only proposed alteration in the surface level consists in slightly raising the old Bourke-street Road at the sewer crossing

Sub-mains.

A branch sewer or submain is intended to be constructed in Mitchell Road extending to Henderson Road, a distance of 730 yards. The sewer consists of 24-inch, 21-inch, and 18-inch pipes, laid at inclinations of 1 in 800 and 1 in 500, the terminating level being 33·98 feet above datum. These levels will permit the interception of the dry-weather flow from the sewer recently constructed by the department in Alexander-street, Alexandria. This sewer temporarily discharges into the watercourse, which is thus rendered very offensive in hot weather. A further branch sewer is shown along Buckland-street for a distance of 500 yards; it consists of 9-inch pipes laid at an inclination of 1 in 250, the level at the upper end being 38·50 feet. The reason for devising these branch sewers to fall towards Mitchell Road is to ensure a greater dry-weather flow and more satisfactory velocity through the aqueduct, the levels not permitting a greater inclination than 1 in 1,000.

Western System.

Outfall sewer.

Notwithstanding that the only available routes for the outfall sewer of the Western System (referred to on page 7) between Webb's Grant and the north side of Cook's River are confined within narrow limits, the question of the best position required much consideration. The main points to be determined were how best to ensure, consistently with efficiency, the highest practicable level at the outfall on the one hand, and on the other, the lowest in the penstock chamber at the termination. Also that the direction and levels of the sewer should ensure a minimum amount of interference with public roads and private property, that no interference whatever should be made with the navigation of Cook's River, and that the sewer should pass under the Illawarra Railway at the least objectionable point.

From the physical nature of the locality, the foregoing conditions practically prohibit the adoption of a direct route, and render it desirable that Cook's River should be crossed at a point to the west of Marrickville Valley; in fact, the only alternative would be to cross it by means of an inverted syphon below the dam. From the nature of the works to be constructed this would be a very costly undertaking, and the route would further necessitate an embankment or aqueduct across the intended reclamation works on the north side of the river. Moreover, it would either be necessary to cross Marrickville Valley by a syphon or aqueduct of considerable length, or to make a dêtour on the north side. Either method would result in the invert level at the extremity of the various main sewers being so much raised, as to materially decrease the extent of the gravitating system in the outlying portions of the suburbs.

Route.

The proposed outfall sewer commences at Webb's grant at a spot about 20 chains east of Muddy Creek, and after passing through the additional land proposed to be resumed, the route selected would enable the sewer to pass under the two main roads and the Illawarra Railway at Tempe in tunnel, across Wolli Creek, through Unwin's Hill in tunnel, across Cook's River opposite the west side of Mansion-street, Marrickville, and in tunnel under the high ground on the west side of the "Warren," terminating in a penstock chamber at the junction of the intercepting sewers in Premier-street, the length being 2 miles 380 yards. It is apparent that the outfall sewer will be a work of special construction, and that, like some of the London main sewers, some parts of it will be raised above the level of the surface in an embankment; whilst in others it will be carried by aqueducts over creeks, swamps, and flats. At the crossing of Cook's River, the level of the bottom of the sewer will be at least 14 feet above high-water-mark, thus affording an increased headway of 5 or 6 feet, as compared with the Illawarra Railway Bridge.

Levels.

The importance of embracing as large a gravitating area as possible has already been mentioned, consequently each extra foot in height at the head of the outfall sewer is an important factor. The invert level at the outfall is fixed at 9 feet

feet above datum, a height which will practically command filtration through at least 6 feet of earth, at any portion of the western part of the sewage farm. The distance from the outfall to the penstock chamber at Premier-street is 11,700 feet, and as the intended inclination is 1 in 1,700, the invert at the intercepting chamber will therefore be 15·88 feet above datum. The inclination is equivalent to a fall of 3·11 feet per mile.

Form and dimensions.

The most suitable form of sewer is circular, it combines the greatest strength and capacity with the smallest amount of brickwork; but from the following remarks it will be seen that it is most undesirable that the outfall should consist of one large sewer only. The dimensions of a sewer capable of discharging the estimated maximum flow of 13·997 cubic feet per minute, when running full, would require to be 9 feet in diameter, but as the flow-line in the largest intercepting sewer at the penstock chamber would only be 5·12 feet above the invert, it is obvious that a step of nearly 4 feet would have to be provided, a loss of level which would most seriously restrict the gravitation area. Notwithstanding that the construction of an outfall sewer of smaller dimensions in triplicate may involve a greater outlay, yet the advantages to be gained thereby are highly important. Three sewers, each 6 feet in diameter and flowing about 4 feet 9 inches deep, would not only furnish the required discharging capacity, but would obviate any loss of level by the step previously alluded to. This form of outfall would enable the intercepting sewers to be continued to Petersham, Leichhardt, Ashfield, Burwood, and Strathfield, and permit the extension of the high-level system in various districts, which would otherwise be impracticable. Further, by adopting three smaller sewers instead of a single one of larger dimensions, the crown would be about 3 feet lower, therefore greater lateral stability would be ensured where it passes above ground as an aqueduct.

Inclination, &c.

The discharging capacity of a sewer 6 feet in diameter is sufficient to enable the sewage of the existing population of the drainage area to be carried off by one only of the three intended sewers; it would however be advisable to construct the outfall in duplicate. This would enable internal examination or repairs to be carried on and would also provide for sudden emergencies and future requirements. Storm-water overflows would be provided and the works would be so arranged that the third sewer could be added whenever necessary. Another advantage may be mentioned, viz., that, inasmuch as the sewage from the existing population is relatively small in comparison with the prospective discharge, a much better velocity would be secured by conveying it through a smaller sewer for the time being. At an inclination of 1 in 1,700, each sewer will have a velocity of 189 feet per minute when flowing at a depth of 4·75 feet. The outfall sewer being a main carrier and not an intercepting sewer, the flow will be uniform throughout its length, consequently the probability of deposits taking place therein is very small, even during the period of minimum flow. Although the proposed gradient is flatter than the one adopted for the northern outfall sewer at Sydney, viz., 1 in 1,509, I have no hesitation in recommending it, having had practical experience of the working of circular sewers of similar dimensions in London, with inclinations of 1 in 1,751 and 1 in 1,915 respectively.

Intercepting sewers.

For the effectual drainage of the Western area, it will be necessary to provide for the construction of four intercepting sewers, as follows, all of which will commence at the before-mentioned penstock chamber, viz.:—

Eastern (1).—An intercepting sewer and branches, which will provide for the eastern area colored yellow on plan, and will take the drainage of Marrickville and St. Peters, also parts of Newtown, Macdonaldtown, Alexandria, Petersham, Leichhardt, and Camperdown. The total drainage area is 2,657 acres, of which 1,477 acres are upon the gravitation principle, whilst the remainder (1,180 acres) comprises the low-lying parts of Marrickville, St. Peters, Newtown, Macdonaldtown, and Alexandria, which will be embraced in a low-level system. The latter sewers are shown by blue lines on plan.

High-level system.

The high-level sewer commences at the penstock chamber, at a height of 16·13 feet; its route is along Illawarra Road and across Addison Road, Stanmore Road, and Parramatta Road; thence along Ferris-street and Alfred-street to Booth-street, Leichhardt, a distance of 2 miles 1,590 yards, its terminating level being 32·09 feet above datum. The estimated maximum discharge from the 2,657 acres is 4,231 cubic feet per minute, of which 2,352 cubic feet is from the high-level system. The inclination of the main sewer is in 1 in 1,509 for a distance of 4,240 yards, and 1 in 1,000 for 590 yards, the remainder being 1 in 700. The dimensions to the outlet of the low-level delivery main, which is at a distance of 720 yards from the

the intercepting chamber, are 6 ft. 6 in. × 5 ft. 6 in.; the size is then reduced to 5 ft. 2 in. × 4 ft. 2 in., and is afterwards decreased at the various points of interception until it becomes 4 ft. 0 in. × 2 ft. 8 in., the termination at Leichhardt consisting of 18-inch pipes. The maximum velocities vary from 193 feet to 135 feet per minute. Except at the three depressions in Illawarra Road and at Alfred-street, Leichhardt, the sewer will be in tunnel, the greatest depth of shaft being 78 feet at Petersham. The crossing of the valley at Sydenham Road is intended to be effected by means of an inverted-syphon 870 feet in length, the inclination of which is 1 in 737. An iron pipe 33 inches in diameter will ensure a velocity of 183 feet per minute, and it will be sufficient in capacity to discharge the maximum flow from considerably more than the existing population; but should it hereafter be found necessary to increase the provision, a second pipe could be added. The syphon is so devised that for the purpose of examination or repair, its contents could be temporarily drawn off into the low-level sewer.

Sub-mains.

The first of the branch-intercepting sewers shown on plan is on the southern side of the main ridge, the second one being at Leichhardt, north of Parramatta Road. The former commences at and passes along Addison Road, it then crosses Enmore Road and continues under the ridge in tunnel to Edgeware Road, thence through Camden-street and in tunnel under Cook's River Road to within a short distance of the south end of Toogood-street, Macdonaldtown. The length of this sewer is 1 mile 190 yards, the invert level at its termination being 34·71 feet above datum. The size of the sewer in open cutting is 24 inches and 21 inches in diameter, but where it passes under the ridges at Enmore and Cook's River Road in tunnel, the dimensions are increased to 4 ft. 0 in. × 2 ft. 8 in. The inclinations vary from 1 in 900 to 1 in 500. At the lowest places in Addison Road and Camden-street it will doubtless be advantageous to substitute iron for stoneware pipes for short distances. The northern branch consists of a 4 ft. 0 in. × 2 ft. 8 in. sewer, 1,670 yards in length; it commences at Albion-street, through which it passes to Johnstone's Creek, thence to Pyrmont Bridge Road, Camperdown, continuing under Booth-street and the ridge in tunnel, and terminating near the Orphan School Creek in the Old Parramatta Road, Glebe, at a level of 36·11 feet above datum. A short branch consisting of 12-inch pipes is also shown in Susan-street, extending to Booth-street, Annandale, a distance of 570 yards, the terminating level being 35·16 feet above datum. It is possible however that on closer examination it may be found desirable to carry the sewer along Nelson-street for a part of the distance, the levels being more suitable.

Low-level system.

The low-level system will necessitate the erection of a pumping station in Marrickville Valley, the site selected as the most convenient being in the vicinity of Meeks' Road, adjacent to the proposed Liverpool loop-line, and it is probable that the best position for the delivery-main, which would discharge into the eastern intercepting sewer in Illawarra Road, would be alongside such railway. The invert of the low-level sewer at the pumping station is 7 feet below datum, and at the upper end at Macdonaldtown, on the eastern side, it is 10·74 feet above. The levels at the extremities of the branch sewers are 5·95 feet above datum at South-street, St. Peters; 6·87 feet at the south end of Harber-street, and 11·56 feet at the south end of Mitchell Road, Alexandria. On the western side the level of the invert at the south end of Meeks' Road is 0·31 feet below datum, at the intersection of Meeks' Road and Sydenham Road it is 1·61 feet below datum, terminating at a level of 6·69 feet above datum at the intersection of Victoria and Cook's Roads, Marrickville. The low-level main sewer on the eastern side would pass under the Illawarra Railway, along Bridge-street, Unwin's Bridge Road, and May-street, crossing under Cook's River Road, Mitchell Road, and the railway, thence to Devine-street, terminating at Macdonald-street, Macdonaldtown. The length of the low-level main sewers on the eastern side of the pumping station is 4,170 yards, and on the western 1,560 yards, amounting to 3 miles 450 yards in all. The prospective maximum discharge is 1,389 cubic feet per minute from the eastern section, and 490 cubic feet from the western, making a total of 1,879 cubic feet per minute to be pumped into the high-level sewer. The inclinations vary from 1 in 1,509 and 1 in 1,200, to 1 in 300 at the upper end. The largest sewer is 4 ft. 6 in. × 3 ft. 6 in., oviform in section, the dimensions being reduced by the several steps to 4 ft. 0 in. × 2 ft. 8 in. and from 21 inch to 12-inch pipes; the maximum velocities varying from 154 feet to 172 feet per minute. About 1,460

 yards

yards in length would probably be in open cutting, the remainder being in tunnel at a moderate depth, the deepest shaft being 38 feet in May-street. Due allowance is made in the estimates for increased cost in providing sub-ducts and additional concrete under and around the sewers, owing to unsound foundations and to the probable existence of sub-soil waters. The sub-main to St. Peters is a 4 ft. 0 in. × 2 ft. 8 in. sewer in tunnel, its inclination 1 in 500, and length 700 yards. The Campbell-street sub-main is also partly in tunnel and the remainder consists of 12-inch pipes, the total length being 1,000 yards. The branch to Mitchell Road is an 18-inch pipe sewer, 534 yards in length, laid at an inclination of 1 in 550, and the length of the 12-inch pipe-sewer at the south end of Meeks' Road is 600 yards.

Pumping engines.

In determining the measures to be adopted for raising the sewage from the low-level system into the high-level sewer, a lift of 34 feet, it is necessary to consider both existing and prospective conditions. The low-level area contains 1,180 acres, and at the prospective rate of 40 persons per acre, the estimated future population is 47,200 persons, whereas the existing population does not probably exceed 12,000 persons. To provide steam-power for raising the combined maximum flow of 1,879 cubic feet per minute direct from the sewers, without storage, would necessitate pumping engines equivalent to 120 horse-power; but it is only intended in the first instance to provide for a population of 15,000 persons, in which case the maximum discharge would be 597 cubic feet, or 3,731 gallons per minute; consequently an engine of 38 horse-power would be sufficient to perform the actual duty required. The maximum dry weather or sewage flow would not exceed 250 cubic feet per minute, the additional quantity being the limited amount of rainfall intended to be carried off from back yards. The combined quantity to be raised per annum is as follows, viz.:—

		Gallons
Sewage ...	... ... 15,000 population × 50 gallons × 365 days =	273,750,000
Rainfall ...	15,000 population × 200 sq. ft. × 4⅛ ft. × 6·25 gallons =	78,125,000
	Total ...	351,875,000

Type of engine.

The engines generally adopted for the purpose of raising sewage, were until quite recently, compound, condensing, rotative beam-engines, or compound, vertical, direct-acting engines. This type of engine however is much more costly than the "Worthington" pumping engine, which is now being largely used and which is recommended in the present scheme. The "Worthington" engines will give a duty of 100,000,000 foot-lbs. per cwt. of coal, and the class of pump best fitted for the requirements at Marrickville is the "direct-acting low-service steam pump," which is not only economical in first cost, but saves a very considerable outlay in the expense of foundations and buildings. Duplicate engines, each capable of raising 4,000 gallons per minute will be necessary, and it is estimated that the adoption of "Worthington" engines will ensure a saving of £5,000 on the existing requirements.

Northern (2).—A branch intercepting sewer, which will provide for the area colored red, amounting to 2,005 acres, and comprising the western parts of Marrickville, Petersham, and Leichhardt. A sub-main at Summer Hill will take the drainage of the eastern portion of Ashfield, and its capacity will be sufficient to include Dobroyd, should that district hereafter require drainage. The main sewer commences at Premier-street, at a level of 16·88 feet above datum; and after passing under Warren Road, Livingstone Road, and Marrickville Road, it enters Wardell's Road, through which it continues and passes under the main ridge at Canterbury New Road and under the railway to Canterbury Old Road, Petersham. After crossing Parramatta Road, and passing along Flood-street, Allen-street, James-street, and Mary-street, Leichhardt, it terminates at Church-street at a level of 38·71 feet. The total distance is 3 miles 960 yards, and, with the slight exceptions hereafter referred to, the sewer will be entirely in tunnel, the deepest shaft being 58 feet at Frazer Road, Petersham. The levels of those parts of the area which front Long Cove and Iron Creek, together with a strip on each side of Long Cove Creek, as shown by dotted lines and containing an area of about 490 acres, are too low to permit of drainage by gravitation; therefore these places will probably have to be provided for hereafter in conjunction with low-level areas on adjacent systems.

Dimensions, inclination, &c.

The prospective maximum discharge from the above area is 2,635 cubic feet per minute. The inclination of the sewer is 1 in 1,509 for 2,740 yards from the commencement; it is subsequently increased at various points from 1 in 1,200 to 1 in

in 800, the fall at the upper end of Leichhardt being 1 in 600. The dimensions vary from 5 ft. 6 in. × 4 ft. 6 in. to 4 ft. 0 in. × 2 ft. 8 in., and the maximum velocities from 175 to 140 feet per minute. The portions of the sewer in open cutting occur at and near the crossings of Parramatta Road and Lord-street, and in James-street, Leichhardt, and at Lord-street it is intended to slightly raise the level of the surface. The branch sewer or sub-main from Frazer Road, Petersham, to Parramatta Road, Ashfield, is 1 mile 310 yards in length, the terminating level being 32·75 feet above datum. The route selected passes under Denison Road, Victoria-street, and Canterbury Old Road, at Petersham; across Long Cove Creek, and along Smith-street and Fleet-street, at Summer Hill; thence under the railway and across Grosvenor, Crescent and Bogan-street, to the intersection of Sloane-street and Kensington Road; thence to and along Parramatta Road to the watercourse near Ormond-street, Ashfield. The inclination varies from 1 in 1,509 to 1 in 500, and the size of sewer decreases from 4 ft. 4 in. × 3 ft. 4 in. to 4 ft. 0 in. × 2 ft. 8 in., nearly all of which is in tunnel; the only special work of importance being at the crossing of Long Cove Creek, where iron pipes will require to be used.

Route.

Western (3).—An intercepting sewer, extending to Strathfield. Its length is 5 miles 240 yards; and, aided by three branch-sewers on the north side, it will provide for an area of 4,100 acres. This area is shown by the blue color on plan, and includes the western part of Ashfield and a portion of Enfield, also the Borough of Burwood, the south portions of Five Dock and Concord, and so much of Strathfield as lies south of Parramatta Road, east of the ridge beyond Homebush Railway Station, and north of the main ridge described on page 4. The main sewer commences at a level of 15·88 feet above datum; and, after passing in tunnel under the ridge at Livingstone Road, it enters Terrace Road and continues in a direct line therefrom in tunnel under the main ridge and various spurs, to the intersection of Alt-street and Albert Parade, Ashfield. It then proceeds in a westerly direction, *via* Albert Parade, across Croydon Road, Young-street and Cheltenham Road to the intersection of Shaftesbury Road and Victoria-street, Burwood, and passing through Victoria-street, under Riverview-street and Driver's Road, and across Redmyre Road, it continues along Redfern-street to Homebush Road, Strathfield, where it terminates at a level of 36·76 feet above datum. The area between the main ridge and the proposed sewer, together with the higher parts on the north side thereof, can be drained by gravitation; but the lower parts of the area in the vicinity of Iron Cove Creek at Croydon; of the water-courses which drain into Hen and Chicken Bay at Burwood, Five Dock, and Concord; and of the water-courses leading to Homebush Creek at Strathfield, as shown by dotted lines on plan and containing a total area of about 1,100 acres, will not permit of that system, but will have to be specially provided for hereafter, in connection with other low-level areas.

The prospective maximum discharge from the above area is estimated at 4,897 cubic feet per minute, and the inclination of the sewer being 1 in 1,509, its dimensions at the commencement require to be 6 ft. 10 in. × 5 ft. 10 in. The size will be reduced at the various points of interception, until, at the termination at Strathfield it is 3 ft. 9 in. × 2 ft. 6 in. The inclination of 3 feet 6 inches per mile extends to Redmyre Road, Strathfield, at which point the level of the invert is 34·37 feet above datum, but westward thereof the fall is 1 in 1,200. The maximum velocity of the 6 ft. 10 in. × 5 ft. 10 in. sewer is calculated at 198 feet per minute, decreasing to 146 feet per minute in the smallest sewer. With the exception of short lengths in open cutting at Terrace Road, Marrickville; at Etonville Parade, Croydon; at Burwood Road, Burwood; and at Redfern-street, Strathfield, the sewer will be in tunnel, the deepest shaft being 102 feet at Ashfield. The construction throughout will be simple, and will only interfere with the surface at the beforementioned depressions, at which points the levels thereof will require to be slightly raised, the watercourses deepened and a special form of covering provided; all of which, however, are mere matters of detail.

Dimensions and inclination.

The three branch sewers or sub-mains will provide for the drainage of parts of Ashfield, Croydon, Five Dock, Burwood, and Concord. The sub-main at Ashfield commences by a junction with the main intercepting sewer at the intersection of Alt-street and Albert Parade, and passes along Alt-street in tunnel to Parramatta Road, the terminating level being 35·09 feet above datum. The dimensions of the sewer are 4 ft. 0 in. × 2 ft. 8 in., and the length is 900 yards. The sub-main for the southern portion of Five Dock branches off from the main sewer at Young-street, Croydon;

Sub-mains.

Croydon; it then passes along Young-street, crosses Queen-street and Lang-street, and enters Church-street; thence under Bay-street, across to Parramatta Road, and along Cross-street to King's Road, Five Dock; a total distance of 1 mile 130 yards, of which about two-thirds will be in tunnel. The size of the sewer is 4 ft. 0 in. × 2 ft. 8 in., and the invert level at the termination is 40·21 feet. The Concord sub-main commences by a junction with the main intercepting sewer at Wentworth Road, Burwood; it then passes along Wentworth Road in tunnel, and crosses Parramatta Road; passes along Broughton-street, across Gipps-street, and terminates at the intersection of Crane-street and Major's Bay Road, Concord. For a length of 970 yards the internal dimensions are 4 ft. 0 in. × 2 ft. 8 in.; the size is then reduced to a 21-inch pipe. The total length is 1,640 yards, and the invert level at Crane-street is 44·67 feet above datum.

Route, dimensions, &c.

Branch to Canterbury (4).—A sewer for the future drainage of the district, colored light blue on plan, containing an area of 1,870 acres, a prospective maximum discharge of 2,234 cubic feet per minute, and comprising the portion of Canterbury on the north side of Cook's River, together with Enfield and the part of Strathfield south of the main ridge. Cook's River, from Marrickville to Liverpool Road, forms the southern boundary, and the main ridge the northern. Although it may not be imperatively necessary to construct this sewer at the present time, it is desirable to make provision for it in the general scheme, in consequence of the fact that the population of Canterbury and Enfield is rapidly increasing. The position of the proposed main intercepting sewer—a considerable part of which would be in tunnel—is shown by red dotted lines; and, as the portion between the penstock chamber at Premier-street and the bend in Terrace Road would be parallel to the intended western main sewer, it would doubtless be advantageous and economical to construct such length in connection with the latter. For the reasons expressed on page 15, with reference to the dimensions of the main outfall sewer, it would be extremely undesirable to provide a larger single sewer in preference to a double one as proposed. The commencing level is 17·13 feet above datum, and at the termination at Homebush, a distance of 5 miles 250 yards, it is 44·63 feet. The route west of Terrace Road, Marrickville, is across Garnet-street, Canterbury Old Road, Holden-street, King-street, Croydon Avenue, George's River Road, and Burwood Road; along part of Church Road and Dean-street, Enfield, and thence northward along Homebush Road to the watercourse near Fairhome-street, Strathfield. The inclination of the sewer varies from 1 in 1,509 at Marrickville to 1 in 500 at Strathfield, and the dimensions from 5 ft. 2 in. × 4 ft. 2 in. to 4 ft. 0 in. × 2 ft. 8 in.

Length of proposed Sewers.

The total length of sewers comprised in the foregoing systems and included in the present scheme, exclusive of the proposed main sewer for the future drainage of Canterbury, Enfield, and other districts, is 37 miles 967 yards, as will be seen by the following summary, viz.:—

System.	Mains.		Sub-mains.		Total.

Low-level

Low-level Areas.

Description of low-level areas.

It has already been explained that, in addition to the low-level system at Marrickville, certain low-lying parts of the western suburbs are below the gravitation level. About one-fifth of the remainder of the drainage area will thus be excluded from the gravitation system; and although at the present time there may not be any absolute necessity for the construction of sewers therein, it was necessary that the future provision for those areas should receive full consideration. There are twenty-two low-level areas in all—viz., two at the Glebe, three at Leichhardt, ten at Balmain, one at Ashfield, one at Fivedock, two at Burwood, one at Concord, and two at Strathfield. The low-level area at the foot of the eastern slope of the Glebe would no doubt be dealt with at Blackwattle Cove, in connection with the City system of sewerage. In devising the main sewers and sub-mains, provision has been made in their capacity for the removal of the sewage from the whole of the low-level areas; but in the majority of those instances the existing conditions do not demand the immediate construction of sewers, therefore no provision has been made for the same in the present estimate. Doubtless the first areas to be dealt with will be at the Glebe, Leichhardt, and Balmain; and, as the population increases in the western districts, it will hereafter become necessary to make further provision from time to time. It would, however, in my opinion, be prudent to postpone the further consideration of any such works until the gravitating sewers are complete and in operation, as under those conditions the actual requirements of each area could be better ascertained. It is considered that the actual volume of sewage to be dealt with below the gravitating level will not only be relatively small, but, when diluted, its discharge into deep water would be inoffensive; and as portions of some of the areas front the Parramatta River, it is quite possible that under proper arrangements the drainage from the several houses thereon might be so conducted as to discharge below low-water mark, and thus obviate considerable expense in the construction of sewers in extreme cases.

The "Shone" system.

One of the most efficient and economical modes of dealing with the several areas which are situate below the gravitation level would doubtless be by the adoption of the "Shone pneumatic-ejector system," which is a most valuable adjunct to a sewerage system where various parts of the drainage area are too low for gravitation, or too small in area and not sufficiently compact for an ordinary low-level system, involving pumping. Without entering into a detailed description of the machinery and apparatus, the principle of the system may be explained in a few words. In each area, ordinary stoneware pipe sewers would be laid in the streets for conveying the sewage by gravitation to an iron receiver, fixed at the lowest convenient part of the area to be drained. The sewage would then pass into an ejector, made of cast-iron and placed in an underground brick chamber. The ejectors are made to contain from 500 to 1,000 gallons each, and are fixed in groups of two, three, or four, according to local requirements. Immediately one is filled with sewage, an automatic arrangement admits compressed air into the cylinder, thus expelling the contents and forcing the sewage through an iron sewage-main into the nearest gravitating sewer. The system has been in operation for some time at Eastbourne and Southampton, where it has given great satisfaction, and it has recently been adopted in several other towns in England. A station for air-compressing machinery at the south end of Balmain would supply compressed air through cast-iron mains to ejectors at Balmain, Leichhardt, and the west side of the Glebe, and it is probable that a station in the vicinity of Hen and Chicken Bay at Burwood, would serve for the remaining ejectors.

Sewage disposal.

Methods of disposal.

Sewage is an uninteresting subject to many persons, but there is no greater problem than how to dispose of it effectually. The methods of treatment generally adopted for cities and towns were referred to in the recent report on the North Shore Sewerage and in various departmental reports, and the latest information from England shows that very little modification has since taken place. In London the Metropolitan Board of Works are now expending about £750,000 in the construction of tanks and other works for the precipitation process, in order to improve the condition of the River Thames at the main outfalls. At Portsmouth £120,000 has just been expended in the erection of additional pumping engines and in the construction of large storage tanks at the outfall, which will enable 4½ million gallons

of

of crude sewage to be discharged into the sea, within one hour from the commencement of each ebb-tide. In other important sanitary works, where irrigation is inadmissible, precipitation (*i.e.*, chemical treatment) and earth filtration appear to have been largely adopted.

Adelaide Sewage Farm.

The Adelaide Sewage Farm is 470 acres in extent, it is worked upon the broad irrigation principle, combined in the winter months with intermittent-downward filtration. The expenditure for land and works has amounted to £65,000. The experience of colonial sewage farming at Adelaide is valuable, for on the one hand it has shown that about £10,000 might probably have been saved by the non-erection of buildings for dairy purposes which are no longer used, irrespective of a considerable sum for levelling land, which might have been saved by the use of modern appliances. On the other hand, however, it shows that liquid sewage is an especially valuable fertilizer in a hot climate, and that under good management, a substantial income can eventually be derived from grazing and fattening stock and from the growth and sale of root crops, fodder, plants, fruit, and vegetables. During the first two or three years operations, the farm did not pay working expenses, but a recent return indicated a profit of £700 on the operations of the previous half-year.

Various systems of treatment.

The report of the Sewage and Health Board in 1876 renders it unnecessary to enter into details of the various systems of sewage disposal or treatment, but they may be recapitulated as follows, viz. :—

1. By discharge into the sea or into a tidal estuary or river, without treatment.
2. On land, by irrigation.
3. On land, by intermittent-downward filtration.
4. By chemical treatment.

Advantages of irrigation.

It would be undoubtedly misleading to assert that any one special system of disposal is the best for adoption—everything depends upon local conditions, or, in other words, every place must be dependent upon its own physical circumstances and requirements. Irrigation is not the universal mode of sewage purification, but where favorable conditions exist, it is the cheapest and most efficient process, especially where sewage can be delivered by gravitation. The conditions essential to efficiency and financial success necessitate,—

(*a*) Suitable soil of a sufficient depth ;
(*b*) Sufficient area of land ;
(*c*) Straining the sewage ;
(*d*) An artificial filter as a stand-by for use in wet seasons.

A warm climate suits irrigation, and so far as the available area of land will allow, the process could be economically carried on at Botany in the manner hereinafter pointed out. It is essential to the success of sewage farming, when conducted under sanitary obligations, that is to say, jointly for the production of remunerative crops and for the complete purification of the sewage, that the area to be employed shall be sufficiently large to enable the cultivation to be frequently varied, and to prevent the land from becoming either drowned with water or overgorged with excretal and other organic matters.

Various allowances for land.

Mr. Hawksley states "that in the moist climate of England, 6,000 tons per acre per annum is the desirable limit for broad irrigation on land of average suitability." This is equivalent to 60 inches in depth. Sir Robert Rawlinson, however, states "that 12,000 tons is not too great a volume to be used on well-prepared land without swamping it, if the sewage is equally and evenly distributed." Professor Robinson states "that open porous land, drained to a depth of 6 feet, will take the sewage of 600 or 700 persons per acre per annum, but there must be an artificial filter for use in wet seasons." Other authorities state that a less depth than 6 feet will suffice to purify the effluent, after chemical treatment or precipitation. Professor Tidy recommends a combination of "precipitation and irrigation" as a sound process to adopt. It is, of course, well understood that whereas chemicals will clarify sewage, earth alone will absolutely purify it and render it unobjectionable.

Volume of sewage and rainwater to be treated.

The combined volume of sewage and rainwater to be discharged at the sewage farm from the southern and western outfall sewers, will eventually assume large proportions. It is obvious that the sewage flow will vary throughout the year in proportion to the increase in the consumption of water during hot summer days, and to the decrease during the winter months. The range affects the quantity consumed

consumed very materially; for instance, for a population of 100,000 persons at the summer rate of 72 gallons per head, the daily volume would amount to 32,140 tons; at the mean rate of 50 gallons, to 22,320 tons; and at the winter rate of 25 gallons, to 11,160 tons. The rainfall catchment area being calculated at 200 square feet per head of population, a rainfall of 2 inches in twenty-four hours from a similar population would give the following results, viz. :—$\frac{100{,}000 \times 200 \times \frac{1}{12}}{35{\cdot}84 \text{ c. ft.}} = 93{,}006$ tons per day. It is therefore apparent that for a population of 100,000 persons, the volume will vary from a minimum dry-weather flow of 11,160 tons per day, to a maximum flow of sewage (taken at the mean rate) and rainfall combined, amounting to 115,326 tons per day.

Annual volume.

Assuming the commencing population at 100,000 persons, the volume of sewage and rainfall combined (the former being calculated at 50 gallons, or ·2232 tons per head per day throughout the year, and the latter based upon an annual rainfall of 50 inches) would amount to the following quantity per annum, viz. :—

		Popn. Gals. Days.		Tons
Sewage	... ...	$\frac{100{,}000 \times 50 \times 365}{224 \text{ gallons.}}$	=	8,147,321
Rainfall	... ...	$\frac{100{,}000 \times 200 \times 4\frac{1}{2}}{35{\cdot}84 \text{ cubic feet.}}$	=	2,325,149
	Total			10,472,470

or at the rate of 104·72 tons per head per annum. From these figures it is a simple matter of calculation to determine the annual volume to be dealt with as the population draining into the sewers increases; *e.g.*, the quantity would amount to 20,944,940 tons per annum for a population of 200,000 persons, whereas for the entire prospective population of the southern and western areas, as described on page 8, it would amount to 41,235,454 tons.

Arrangement of Sewage Farm and Outfall Works.

Mode of application to land.

The various volumes requiring to be utilized and purified having been described, the best mode of applying the sewage to the land, after it has been strained, will consist in the combined processes of irrigation and intermittent-downward filtration. Although the area of land at present available for this system of treatment is sufficient for a population of over 200,000 persons, it will probably be unnecessary to provide for more than half that number in the first instance. As the population further increases, it will become necessary to enlarge the effective area from time to time, and to adopt the process of "precipitation" for a portion of the additional sewage, the effluent being subjected to æration and earth filtration, or further chemical treatment. With a total area of 550 acres it will thus be practicable to utilize and purify the sewage and rainwater from a population of about half-a-million persons.

Provision for tanks and destructor.

It will be desirable to so arrange the outlet works that the contemplated "precipitation" tanks can be added whenever deemed necessary. Sewage should not be unnecessarily exposed before its application to land, and although it may materially add to the cost of construction, it will doubtless be found desirable to cover the tanks and main carriers. The results obtained will justify the extra outlay. It may possibly be deemed advantageous on sanitary grounds to establish a "Destructor" on the farm for the disposal of household and other refuse. If so, steam-power might thus be obtained for the purpose of pumping water or sewage, or for working machinery; moreover, noxious gases from tanks could be drawn off and consumed by the furnaces or be carried away by the chimney-shaft. Convenient access to the farm from each end should also be provided.

Preparation of areas.

The work of draining, forming, and preparing the effective area which will eventually be required in addition to the 370 acres referred to on p. 7, could be gradually proceeded with. A considerable quantity of superfluous material could be removed from the higher parts and levelled where required, and other parts could be filled in by the deposit of dredged material. These operations could be greatly facilitated by the use of water and suitable appliances. The solids extracted from crude sewage, after being deodorised, together with sludge from the precipitation tanks, could also be dug in and covered up with earth; thus, the swampy area would gradually be reclaimed and the level brought up to the requisite height above high-water. An effective area for the purification of a precipitation effluent, need not necessarily have its surface more than 5 feet above high-water-mark spring tides.

The

Annual allowance per acre.

The volume to be delivered at the sewage farm is apparently very great in proportion to the area of the land, but, under all the circumstances, I have no doubt whatever that the latter is capable of effectually purifying the sewage. The soil, which at present is uncultivated, is of an extremely porous nature and its surface is well above high-water-mark; it is therefore scarcely possible to place a limit on its powers of absorption. It will certainly purify an exceptionally large quantity for the first few years, and under the favorable climatic conditions which exist, provided the crude sewage be first strained, an allowance of 18,000 tons per acre per annum for broad irrigation, and from 1,600 to 2,000 tons per acre per day for intermittent-downward filtration will be within a safe limit.

Filtration allowance.

The irrigation allowance is equivalent to 178 inches in depth, and 186·4 persons per acre. Broad irrigation alone would require an area of 582 acres for each 100,000 population, irrespective of a small filtration area in reserve; and as so extensive an area is impracticable, the advantage of a combined system is obvious. A daily allowance of 1,600 tons per acre of filtration area on 120 days is equivalent to 1,833 persons per acre per annum. The allowance under this process in England varies from 1,000 to 2,000 persons and upwards per acre, consequently it may be safely assumed that the proposed filter at Botany will easily provide for the before-mentioned number. A well-formed filtration area 6 feet deep, will pass 2,000 tons per acre per day intermittently with facility; in fact, the filter at Adelaide is designed to purify sewage at the rate of about 3,000 tons per acre per diem.

Capacity of filters.

If a volume of sewage amounting to 22,320 tons (the estimated mean dry-weather flow from a population of 100,000 persons, *vide* page 22) were delivered upon a filtration area of 34 acres in one day it would cover the whole area to a depth of $6\frac{1}{2}$ inches ($\frac{22,320}{34 \times 101} = 6\frac{1}{2}$), or at the rate of 656 tons per acre; but if rainfall to the before-mentioned depth of 2 inches in twenty-four hours (93,006 tons) passed into the sewers in addition, the depth would be increased 33·6 inches, and the rate per acre would amount to 3,392 tons. In practice, however, it would scarcely ever be found necessary to discharge the entire volume on the filtration area, because some portion of the irrigation area would be available. Moreover, as the rainfall throughout the entire area of the Western Suburbs would only amount to or exceed 2 inches in twenty-four hours upon very few days per annum, it may be taken for granted that the capacity of the filters would seldom be tried to such an extent.

Area to be first prepared.

The existing population of the area to be drained into the southern and western outfalls is estimated at 100,000 persons, and in the appropriation and laying out of the sewage farm, provision should be made for at least that number of persons. The quantity of sewage and rainwater to be treated would thus amount to nearly $10\frac{1}{2}$ million tons per annum (*vide* page 22), and for its effective disposal, 254 acres of land would require to be cleared, levelled, and prepared in paddocks for broad irrigation and intermittent-downward filtration, in the following manner, viz.:—

	Acres.		Tons.		Days.		Tons per annum.
For irrigation	220	×	18,000		...	=	3,960,000
„ filtration	34	×	1,600	×	120	=	6,528,000
Total							10,488,000

Additional areas.

In order to show the extent of the progressive areas and necessary future arrangements to meet the requirements of the constantly increasing population draining into the systems, the following figures are given, viz.:—

For a population of 200,000 persons,—

	Acres.		Tons.		Days.		Tons.
Irrigation area	300	×	18,000		...	=	5,400,000
Filtration „	73	×	1,800	×	120	=	15,552,000
Total							20,952,000

For a population of 393,751 persons,—

	Acres.		Tons.		Days.		Tons.
Irrigation area	350	×	18,000		...	=	6,300,000
Filtration „	100	×	1,800	×	120	=	21,600,000
Additional filtration area for precipitant effluent ...	50	×	2,250	×	120	=	13,500,000
Total							41,400,000

The

The proposed system can be confidently recommended as the one likely to secure the best results. Under special, experienced, and efficient management, there should be not only a good remunerative prospect, but an absence of any grounds whatever for reasonable complaint of nuisance or smell arising from the process, or from the discharge of the purified effluent. The latter would be removed by deep drainage, and be conducted to and discharged in deep water.

Subsidiary Sewers and House-drains.

Subsidiary sewers.

It is obvious that the scheme now submitted provides only for the main sewerage of the western suburbs; it does not therefore include the construction of subsidiary sewers, although in several instances the depth of the main sewers and sub-mains will be sufficiently moderate to permit the adjacent houses and premises to be connected. The position of the main and branch sewers has been devised to facilitate the construction of the subsidiary sewers in such a manner as to avoid all unnecessary depths and expense. The back streets and lanes will permit back-drainage to be conveniently adopted in numerous instances, and the cost of constructing a sewer in the street (or for the greater part thereof) together with increased lengths of private drains, may thus be avoided. In several instances sewers will probably cross private lands, in which cases the works will have to be carried out by arrangement, or under the compulsory powers usually provided to meet such emergencies.

Construction.

The construction and ventilation of the subsidiary sewers is a matter which will hereafter demand special consideration. The greatest care and attention will also be required in constructing sewers and drains, especially in the low-lying parts, to ensure their being perfectly watertight and capable of excluding subsoil waters. The importance of works of sewerage, when considered in reference to the health of the district, makes it desirable that the most perfect works, including the latest improvements in construction, should be adopted. To ensure the sewers being under perfect control and easily examined at any time without breaking up the ground, the chief requisite is the construction of all those which cannot be entered, as far as possible, in perfectly straight lines; man-holes or lamp-holes being provided at every lateral point of deviation, and ventilators at every vertical deviation.

Ventilation.

Sir Robert Rawlinson, C.B., whose experience in sanitary engineering exceeds that of any other engineer, says:—"Better be without sewers and drains than have them unventilated." Efficient ventilation cannot be fully secured unless the sewers and drains are constructed with special reference thereto, and it is highly important that ample provision be made for frequent changes of the atmosphere in the sewers, and for the escape of sewer gases in such a manner that no nuisance will be created, and all danger to public health will be avoided. At the changes of gradient in the main sewers, and at each junction or branch in the lateral sewers, a few inches should be taken at the bottom of the shafts or man-holes to form a step, in order to break the sewer into lengths. Air-flaps should be provided at each break for the purpose of preventing the sewer gas from traversing the whole length of the sewer and escaping at the summit, and for ensuring its escape up the shafts. Fresh air will be admitted into the sewers by certain shafts, and polluted air allowed to escape by others. The outlets at the top of the "upcast" shafts will be extended in such a manner that the gases will be discharged into the open air at a level considerably above the street surfaces.

House-drainage.

The work of house-drainage has been forcibly described as the "crowning-point" of a system of sewerage, and unless it is efficiently carried out under proper regulations and superintendence, not only is the advantage to health and comfort of a good system lost or minimized, but a positive source of evil and expense is established. Prior to commencing the house-drainage works in connection with the proposed sewers, no effort should be spared to ensure the due framing and passing of modern regulations in reference to house-drainage. "Disconnection" or "isolation and ventilation" is a subject even now not so fully understood and practised as it should be, therefore the regulations must provide for the insertion of a disconnecting "trap" or "chamber" in each instance, together with ventilation to the open air by vertical pipes carried well above the tops of adjacent buildings. Effectual sewer ventilation will thus be ensured, and the only "open" gratings in the middle of the streets, will be those intended to act as fresh air inlet or "downcast" shafts.

Cost of Proposed Works.

The entire sewerage scheme, as hereinbefore described, comprises a total length of 37 miles 967 yards of sewers, 42 automatic flushing chambers, and 351 shafts, manholes, and ventilators; and the estimated cost thereof, together with the execution of the undermentioned works, and including land and compensation, is as follows, viz.:—

	£	£
Northern System—Main sewer	75,518	
Sub-mains	70,376	
Camperdown branch...	12,454	
		158,348
Southern System—Main sewer	10,289	
Sub-mains	2,856	
		13,145
Western System—Outfall sewer	190,557	
Eastern high-level main sewer	56,690	
„ sub-mains	27,530	
„ low-level main sewers	62,076	
„ „ sub-mains	16,217	
Northern main sewer...	65,776	
„ sub-mains	20,434	
Western main sewer	133,001	
„ sub-mains	29,930	
		602,211
Marrickville pumping station (including duplicate engines, boilers, penstocks, buildings, &c., complete)		11,000
Outfall works (including additional land and laying out first section of sewage farm)		45,600
Total		£830,304

Note.—Should it be decided to make provision for the first section (1,620 yards in length) of the Canterbury branch main-sewer as explained on p. 19, the sum of £20,741 should be added to the above estimate.

Comparative cost per head of population.

The above expenditure upon the proposed system of main sewerage, inclusive of the outfall and other works, represents an outlay of nearly £2 per head upon the prospective population of the western suburbs. This is apparently a large sum, therefore a few remarks upon the cost of sewerage works elsewhere may not be uninteresting. The only colonial work of importance executed to which reference can be made is the Adelaide sewerage system, and its cost furnishes certain data as to the probable outlay for sewerage works in the Colonies, when carried out under favorable conditions. The total expenditure has amounted to £360,000, which is at the rate of £3 per head on the estimated future population. In European and American cities a remarkable variation has been experienced in the cost of sewerage and drainage works. London contains some 2,400 miles of sewers, and the cost of the main and subsidiary sewers, together with pumping machinery, storm-water relief-sewers and outfall works, has amounted to over £2 per head. In a large number of English towns the cost varied from under £1 to over £4 per head, whilst in some of the more recent sewerage works, such as Reading, Oxford, and Portsmouth, the cost was about £2 2s., £2 10s., and £3 per head respectively. The recently constructed sewerage works and sewage farm at Berlin have cost £2 5s. per head, whilst the sewerage of Hamburg, Dantzic, Frankfort, and other continental cities, has cost from £1 8s. to £3 15s. per head. In American cities the cost has ranged from £1 to £5 per head.

Comparative prices.

The higher rates for labor and materials in Sydney as compared with English prices, obviously increase the cost of sanitary works; *e.g.*, the contract rates for cement concrete for sewers in tunnel is about 26s. 6d. per yard cube in England, but in Sydney it is 65s., whilst for ordinary cement concrete the respective prices are 14s. and 45s. per yard cube. Brickwork in cement in sewers costs 39s. per yard cube in London, against 85s. in Sydney. The most recent sewerage works which involved a large amount of tunnelling in rock, were executed at Torquay a few years since, where an outfall sewer 7 feet in diameter and 9,000 feet long was constructed, the deepest shaft being 205 feet. The actual cost of driving the more difficult portion of the tunnel, including shafts, was £2 17s. per foot lineal, whereas the execution of the same quantity of work calculated at the Sydney prices, would amount to £5 11s. per foot. The cost of the sewer complete for the entire length averaged less than £3 per foot lineal, against £8 11s. at the Sydney rates. It should

should be mentioned that the removal of the rock was effected by means of the "Ingersoll" rock-drill and "Sturgeon's" high-speed air compressor, and engineers of the highest eminence assert that this enabled the work to be carried on at three times the speed as compared with hand labour; indeed, Sir John Coode stated that "foot for foot of length of holes drilled, the work would be done at one-half the cost." It was however actually found at Torquay, that three holes were drilled by the rock-drill for one hole bored by two first-rate miners.

Annual Cost.

Terms of payment.

Should the works be carried out under the provisions of the Metropolitan Water and Sewerage Act, (43 Vict., No. 32), the annual payment to repay principal and interest at 4 per cent. per annum, would amount to 6 per cent. on the sum expended for a period of *twenty-eight* years. In England, under the provisions of the Public Health Act of 1875, the Local Government Board sanction loans for the execution of water and sewerage works, not only at a low rate of interest but for a period of *sixty* years; it being deemed just and equitable that a succeeding generation should contribute towards the cost of permanently beneficial works. By extending the period to sixty years in this Colony, the annual payment would be reduced from 6 per cent. to 4·42 per cent.—a result obviously advantageous.

Ratable value of property.

According to particulars recently ascertained from the various Council Clerks and from other sources, it appear that at the commencement of the past year, the annual ratable value of the nineteen Boroughs and Municipalities which constitute the area included in the scheme, amounted to £1,460,000. During the two previous years the ratable value of the whole of the suburban area increased no less than 35 per cent., and it may be reasonably assumed that the subsequent increase in the western portion has at least maintained a similar rate. Under these circumstances, the ratable value will probably amount to at least £2,000,000 at the end of 1889, in which case a rate of 1d. in the £ throughout the area to be sewered, would produce about £8,300.

Annual cost.

The annual cost of management and maintenance of the sewers and works, including pumping at Marrickville, also office and incidental expenses, is estimated at £5,650. It is anticipated that the working expenses in connection with the Sewage Farm will scarcely be counterbalanced by the receipts during the first two or three years, but the subsequent operations should undoubtedly result in substantial profits, which would go towards reducing the annual cost. The charges for interest and repayment on the outlay of £830,304 if taken at 6 per cent. would amount to £49,818, but if taken at 4·42 per cent. they would not exceed £36,699. The annual cost of the scheme may therefore be summarised as follows, viz.:—

	For repayment in 28 years.	For repayment in 60 years.
	£	£
Interest and repayment	49,818	36,699
Working expenses	5,650	5,650
Total	55,468	42,349

The balance in favor of the extended period for repayment of loan therefore amounts to £13,119 per annum, and the effect would be to reduce the amount of the drainage rate from 6·68d to 5·12d in the £ per annum.

Money Value of Sanitation.

It will no doubt be asserted that the scheme will entail a heavy charge upon the community, and a question may arise as to the advantages to be derived from the outlay, and also what is the probable value of human life saved and sickness prevented by efficient sanitation? In the first place it may be answered that greater cleanliness is obtained, and that purer air, and increased comfort and convenience are ensured; and secondly, that where sanitary measures have been properly carried out, experience has proved, that in the course of comparatively few years the money value of lives saved and sickness averted has exceeded the full cost of the works executed.

It is well known that for every death from preventable disease there are at least twenty cases of serious sickness. Leading authorities assert that six-tenths of such deaths are those of persons over twenty years of age, and that one-tenth of that number are probably infirm. Life is priceless, therefore it is exceedingly difficult to estimate its money value; but there can be little question that the labor value of each life saved in the suburbs, in addition to the cost of maintenance, would average at least £50 per annum. The funeral, nursing, and other expenses in each fatal case would probably average £10; and the value of the labor in each case of sickness prevented, together with medical and other expenses, would no doubt average £2. Applying these figures to the existing population only of the western suburbs (164,000), that is without any allowance for the increase of population constantly going on, and assuming that the death-rate of 21 per 1,000 (see page 3) should be reduced to 16 per 1,000, it will be found that there are no less than (164 × 5) 820 deaths per annum from preventable disease, and that the annual money loss to the community, which may be stated as follows, amounts to more than the annual cost of the entire sewerage scheme, viz. :—

Lives saved—Value of labor, 443 cases	@ £50 =	£22,150
Funeral and other expenses saved, 820	@ £10 =	8,200
Sickness prevented—820 × 20 = 16,400 cases	@ £2 =	32,800
Total		£63,150

Storm-water Drainage.

A sewerage scheme alone will certainly not meet the whole of the sanitary requirements of the western suburbs. The frequent floods at Marrickville Valley and the removal of storm-waters generally is a question which must necessarily be dealt with; and although no sum is included in the foregoing estimate for sewers and other works, the following remarks will show that the subject has received careful investigation, that it has been fully considered, and that the execution of certain works is absolutely necessary.

Drainage of Marrickville Valley.

Extent of recent floods.

The flooding of Marrickville Valley after heavy rainfall has already been referred to on the second and fourth pages; it is, however, a matter requiring special consideration. In June, 1885, and in the months of April and May last, the area under water extended for more than a mile in length and from 150 yards to 630 yards in width on the north side of Cook's River; the thoroughfares inundated being the low-lying parts of Marrickville and Sydenham Roads, Fitzroy-street, Meeks Road, Saywell-street, and Renwick-street, at which places the level of the surface is either below ordinary high-water-mark, or only slightly above it. The levels of the flood in April were taken, and prove that the waters rose considerably above high-water-mark. The ordinary level of Cook's River opposite Marrickville Creek is from 2 to 3 feet below high-water-mark, but on the above occasion it rose to 1 foot above. At Premier-street foot-bridge the level was 1·03 feet; at Renwick-street, 1·40 feet; at the Reserve on the south side of Marrickville Road, 1·75 feet; at Marrickville Road, 2·37 feet; and at Sydenham Road, 2·68 and 2·92 feet. In Fitzroy-street the level was about 2·34 feet; but at the store in Marrickville Road, the waters headed up to 3·84 feet; and at the tramway crossing at the corner of Victoria and Sydenham Roads to 5·37 feet above datum. A number of houses, principally cottage residences, were flooded, and it is obvious that inundations of this character not only cause public inconvenience and damage to private property, but the after effects must be very prejudicial to the health of the inhabitants.

Watershed.

The approximate area of the Marrickville watershed draining into Cook's River is 1,712 acres, or nearly 3 square miles, therefore the volume of surface-water to be carried off during continuous heavy rainfall obviously assumes large proportions. The existing conditions do not afford sufficient facility for the discharge of flood-waters. The channel is by no means straight, clear, or uniform in its course; the levels of the bottom are irregular, and at the several streets which have been formed over it, insufficient openings have been left for the passage of storm-waters. Apart however from these defects, the physical conditions of the locality are such, that flooding must inevitably occur during periods of continuous rainfall, unless an efficient remedy is afforded.

The

The works recommended to be carried out are estimated to cost £20,000, and they consist in— Works recommended.

(1.) Cutting and embanking a main channel of sufficient capacity to effectually carry off all storm-waters from the valley, both at high-water and when Cook's River is in flood.

(2.) Raising the levels of the low-lying streets to a prescribed height above flood-level, and increasing the facilities for the discharge of storm-waters at the various bridges, also at the intersection of Victoria and Sydenham Roads.

To give effect to the above recommendations legislation would doubtless be necessary, which should also extend to the whole area, it being made compulsory that the ground-floor level of existing houses and the land on which the premises are erected shall be raised above flood-level; also, that no further building operations be permitted until the sites of the intended buildings have been filled up to an approved height. The suggested future level for the south end is 2 feet above datum at Premier-street, gradually rising to 4 feet at Sydenham Road. The levels of the remainder of the low-lying area could be raised from time to time, and if the proposed Liverpool loop-line is carried out, an excellent opportunity might be afforded for the supply of material for that purpose. I think that the foregoing provisions would, in a measure, equalise the cost between the ratepayers generally on the one hand, and the owners of land and property in the flat on the other.

To afford a really effective remedy it is necessary to provide for carrying off heavy as well as continuous rainfalls under adverse conditions. It is not an uncommon occurrence for rainfall in the district in question to amount to 1 inch per hour, which depth over the entire area would equal 103,576 cubic feet per minute. Under certain conditions the actual quantity flowing off the surface would be materially less on account of evaporation and soakage, but taking into consideration the geological formation of the area and the impervious nature of a large portion of its surface, I think that an allowance of 75 per cent. of 1 inch per hour during continuous rainfall, is not too liberal a provision to ensure safety from flooding. This would represent 45 cubic feet per acre per minute, or 77,040 cubic feet from the entire area, a small portion only of which would be carried away by the sewers.

To discharge about 75,000 cubic feet per minute into Cook's River at flood-level, allowing a fall at the rate of 24 inches per mile below Sydenham Road, would necessitate a channel flowing 5 feet deep and of an average width of 50 feet at the northern end, gradually increasing to 66 feet wide south of Renwick-street. Obviously the width of the channel could be decreased by adopting a deeper section, but as the bottom would be below the level of Cook's River, the water in it would undoubtedly become stagnant in dry seasons; which, considering the nature of the water flowing into it, might prove extremely objectionable from a sanitary point of view.

I have considered the desirability of recommending alternative measures, such, for instance, as the resumption of the flooded area, the demolition of the houses thereon, and the conversion of the site into a park or reserve; also making a smaller cutting and providing pumping power for flood-waters; also making a direct channel for storm-waters to Cook's River below the dam, or a tunnel under the ridge at St. Peters to Shea's Creek, but on examination, neither of these proposals commends itself financially or otherwise.

Creeks and Watercourses generally.

The necessity for utilising the existing creeks for the removal of rainfall has already been strongly urged. Natural streams or watercourses should not be arched over to form sewers, but should be improved, regulated, and lined in accordance with local requirements, in order to more readily remove surface water and extreme falls of rain. Owing to its impurity, the surface water from streets during slight rains will pollute natural watercourses, but during heavy rainfall it will flow off comparatively pure. A great portion of the silt from street surfaces carried off during storms could be prevented from flowing into the Parramatta River, but even if some did so, it could be easily and inexpensively removed by dredging. Certain works

works which have recently been carried out in parts of Johnstone's and White's Creeks at Leichhardt will facilitate the discharge of storm-waters in that locality, but it will doubtless become necessary to deal effectively with the entire length of those creeks in the course of a short time, together with parts of Orphan's School, Long Cove, Iron Cove, and Shea's Creeks. It may also be desirable to consider whether the resumptions of portions of the creeks, and reclamations in the vicinity of their outlets, would not be a prudent course to adopt.

GEORGE H. STAYTON,
M. INST. C.E.

Department of Public Works,
Sewerage Branch, Sydney,
January 10th, 1888.

APPENDIX.

TABLE A.

NORTHERN SYSTEM.—Drainage areas and discharges—the maximum sewage-flow being calculated at one cubic foot per head per hour.

District.	Area in acres.	Number of persons per acre.	Total prospective population	Rainfall per acre.	Volume of sewage.	Volume of rainfall.	Combined maximum discharge.
				Cubic feet per minute.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

SYDNEY SEWERAGE.

(CONTRACT FOR LAYING CAST-IRON SYPHON, GEORGE-STREET WEST.)

Ordered by the Legislative Assembly to be printed, 17 *July*, 1888.

[*Return prepared in fulfilment of a promise made by the Honorable the Secretary for Public Works in answer to a Question by Mr. Sydney Smith, M.P., 17th instant.*]

QUESTION.

1. Who is the contractor for laying the cast-iron syphon in George-street West, and what is the amount of his tender?
2. Did the contractor represent to the Department that he had made a mistake in making up his tender, and request to be allowed to amend same by increasing the amount?
3. What decision did he arrive at in regard to the matter?
4. Has he any objection to lay the papers in the case upon the Table of the House?

ANSWER.

LIST of tenders received for laying cast-iron syphon, George-street West (Contract No. 35), Sydney Sewerage:—Number of tenders received, 5; amount of lowest tender, £2,673 2s. 9d.; name of lowest tenderer, John Ahearn; vote, Sewerage Loan Vote.

D. C. M'LACHLAN,
Secretary to Tender Board.

30/5/88.

J. BARLING,
For President of Tender Board.

Sir, Department of Public Works, Sydney, 30 May, 1888.

The tenders, five in number, for the work specified in the margin, are referred to you for report, and you will have the goodness, as early as possible, to return them to me direct, for submission to the Minister.

I have, &c.,

The Commissioner for Roads.

Estimated cost, £4,911 16s. 2d.
Loans Vote, 50 Vic., No. 28, £250,000.
Amount of tender, £2,673 2s. 9d.
Laying cast-iron syphon, George-street West (Contract No. 35), Sydney Sewerage.—W.C.B., 31/5/88. Mr. Baggé.
No 1. O. M'Master, £4,563 10s.
2. J. Ahearn, £2,673 2s. 9d.
3 Gummow & Gillan, £3,825.
4. D. G. Snodgrass, £5,450
5 G. & C. Hoskins, £5,320 6d.

I recommend acceptance of the lowest tender, that of John Ahearn.—W.C.B., 31/5/88. Under Secretary, B.C. Have we not received a communication from Mr. Ahearn regarding his tenders, if so, it should have been submitted with these papers.—D.C.M'L., 1/6/88. Records. Letter herewith, since received. J. Ahearn's tender and deposit receipt forwarded to Under Secretary.—F.C.P., 4/7/88. Deposit receipt, No. 35,959, on Commercial Bank.

The

The Hon. the Minister for Public Works,—

Sir, Burwood, 31 May, 1888.

As President of the Tender Board, I have to ask you to allow me to amend my tender for the construction of a syphon-pipe in Parramatta-street, in connection with the Sydney Sewerage.

In making out my tender I entirely omitted to take into consideration the fact that in returning and filling in the excavated material to the trench, I would also have to make good the concreting and wood-blocking of the roadway displaced in the excavation. The amount charged in my tender for the whole of this work is only £253 14s. 6d., whereas the cost of relaying the concrete and wood blocks alone amount to net cost, £471, or £1 per yard to the yard forward. This clearly proves that through negligence or carelessness I entirely forgot to include this charge to the item covering it.

This being so, I have respectfully, and I must say, regretfully, to ask you to amend my tender by the addition of the amount stated, £471, to the total of my tender.

I have been contracting for Public Works for the past twenty-five years, and up to this occasion have never had to ask a concession for error or mistake, and I think if you can satisfy yourself that my application is *bona fide* you will look favourably upon this application.

During the time I have been contracting under your Department my sole endeavour has been to give satisfaction and carry out my work, irrespective of pecuniary results, to the entire satisfaction of the engineer of the various branches of the service, and I feel that I will now be believed when I say that this application arises purely from an error committed through my own carelessness.

I am, &c.,

JOHN AHEARN.

B.C., Roads, for report.—J.B., 31/5/88. Mr. Baggé see me with specifications.—W.C.B., 1/6/88.

No doubt Mr. Ahearn has omitted to allow for the relaying of the wood-paving, so that if this can be taken into consideration on his behalf, it should be clearly understood what amount of allowance the contractor expects, because £471 at £1 per square yard means 471 yards, whereas about 1,200 square yards may have to be relaid. The contractor might be asked if the lump sum of £471 at the end of the contract will satisfy him, or if he asks for £1 per square yard at the end of the contract.—C. H. Ohlfsen Bagge, 1/6/88. The Engineer in Chief of Sewerage, &c.

All Mr. Ahearn states as to his conduct as a contractor is correct; the wood-paving is clearly set forth in clauses 38 and 39 of specification referred to in item 3 of the schedule. Mr. Ahearn's rate now tendered is low and with the addition of £471 his tender will be £681 less than the lowest, so I advise acceptance with the addition.—W.C.B., 1/6/88. Under Secretary, B.C. Submitted.

I can endorse all Mr. Bennett says as to Mr. Ahearn being one of the best contractors of the Department, and from what I know of him I feel sure the explanation he gives can be taken as *bona fide*. It must also be borne in mind that should the Minister decide to call for fresh tenders it will probably result in a loss to the Department of at least £681. It is difficult to see, however, what other course we can take under the 13th regulation, than to declare the deposit forfeited and call for fresh tenders. I may mention however that we have not yet accepted the tender, perhaps under the very peculiar circumstances of the case a middle course may be adopted, viz.:—To offer Mr. Ahearn the contract at £3,094 2s. 9d. which means inflicting a penalty of £50 for the mistake. I have however very great doubts as to the best course to pursue.—J.B., 12/6/88.

I regret very much that I cannot approve either of Mr. Bennett's recommendation or the modified one of the Under Secretary, especially as I am aware that Mr. Ahearn deserves all that has been said as to the high character he bears as a contractor. But it is most important, in the general public interests, no matter what the subordinate consequences may be, that I should administer the regulations with the most inflexible impartiality. Mr. Ahearn must therefore be informed that if he throw up the contract the regulations must take their course, much as I regret their incidence in this particular case.—John Sutherland, 12/6/88.

Inform Mr. Ahearn, and then forward to Roads.—J.B., 13/6/88. Mr. J. Ahearn, 13/6/88.

Sir, Department of Public Works, Sydney, 13 June, 1888.

Referring to your letter of the 31st ultimo requesting to be allowed to amend your tender for construction of a syphon-pipe in George-street West, in connection with Sydney sewerage by the addition of a sum of £471, I am directed to inform you that the Secretary for Public Works after a careful consideration of the circumstances of the case is unable to authorize a compliance with your request.

I am further to inform you that should you refuse to proceed with the contract, the regulation must be enforced and your deposit forfeited.

I have, &c.,

J. BARLING,

Under Secretary.

Mr. John Ahearn, Contractor, Burwood.

B.C., Roads,—J.B., 13/6/88. Must now await Mr. Ahearn's reply.—W.C.B., 19/6/88. I wait instructions; Ahearn has, I believe, not replied; the work should not be delayed.—W.C.B., 20/6/88. Under Secretary, B.C.

The Under Secretary for Public Works,—

Sir, Burwood, 16 June, 1888.

Although I regret the decision arrived at in the matter of my application that I should be allowed to amend my tender for the syphon in George-street West, I have no intention of abandoning or declining to take up the contract. When I am notified that my tender is accepted I will at once make a start with the work.

I have, &c.,

JOHN AHEARN.

Submitted.—J.B., 20/6/88. Accept the contract and inform Mr. Ahearn that his conduct in this matter is just such as I should have expected from a contractor of his high character.—John Sutherland, 21/6/88.

Accept.—J.B., 21/6/88. John Ahearn, Esq.; letter and acceptance, and general.—26/6/88. Roads.—J.B., B.C., 26/6/88.

Sir,

Sir, Department of Public Works, Sydney, 26 June, 1888.

With reference to your letter of the 16th instant, respecting the construction of syphon-pipe in George-street West, and stating that you are prepared to take up the contract upon your being notified that your tender is accepted, I am directed by the Secretary for Public Works to enclose herewith an official acceptance of the tender referred to, and at the same time to convey to you an expression of his appreciation of your conduct in taking up the contract, and to say that your action in this matter is just what he expected from a contractor of your high character. I have, &c.,

J. BARLING,
Under Secretary.

John Ahearn, Esq., Burwood.

88–4,081. Department of Public Works, Sydney, 26 June, 1888.

Sir,

Your tender, dated the 30th ultimo, having been accepted for "Laying cast-iron syphon, in George-street West, contract No. 35. Sydney Sewerage Works," for the sum of £2,673 2s. 9d., I am directed to refer you to the Commissioner for Roads for further information, and for the purpose of signing the necessary bond for the due observance of your contract.

I am, &c.,
J. BARLING,
Under Secretary.

John Ahearn, Esq., Burwood.

REGULATIONS for the conduct of Tendering under the Department of Public Works.

1. The Tender Board shall meet every Wednesday, at 11 a.m., unless otherwise arranged.
2. Three members of the Board to form a quorum.
3. In no case shall tenders be opened except in the presence of a quorum of the Board.
4. No tender shall be considered which shall have been received after the tender-box has been publicly opened, unless there are circumstances which, in the opinion of the Board, render it desirable that it should be received.
5. Each member of the Board must attend personally, but in the event of circumstances precluding his attendance at any time, the authority of the President must be obtained for another representative from the same Department to act in his place.
6. The tender-box shall be secured with two locks, each lock to have wards diverse from the other, one key to be in the possessien of the Under Secretary and the other in that of another member of the Board who shall be selected by the President.
7. It shall be the duty of the President, or in his absence the Vice-President, as soon as the tenders shall have been opened and the necessary particulars ascertained, to publicly announce the full result of the tendering.
8. The Secretary shall, as soon as practicable after the Board has adjourned, exhibit in a conspicuous position in the Public Works Office a full statement of the tenders received, showing the work, the name of the tenderer, and the amount of each tender.
9. All envelopes containing tenders must be addressed to the President of the Board, and have legibly endorsed upon them the name of the work for which the tender is submitted.
10. Every tender must, as a guarantee of good faith, be accompanied by a preliminary deposit, calculated according to the following scale, viz.:—

For amounts of £300 and up to £500	£5 0 0
For amounts exceeding £500 and not exceeding £1,000...	£10 0 0

For all sums over £1,000, 1 per cent. on the amount of tender up to a maximum deposit of £500. Such deposit to be in the form of a Treasury deposit receipt, or a cheque in favour of the President of the Board, endorsed by the Manager of the Bank upon which it is drawn.

11. All deposits, with the exception of that of the lowest tenderer, when practicable, will be returned by the secretary to the person entitled thereto, immediately after the Board shall have adjourned, and the deposit made by the successful tenderer shall be returned to him on his executing the bond for the fulfilment of the contract.
12. Any tender which may be received without such preliminary deposit shall, unless otherwise directed by the Board, be deemed to be informal, and rejected accordingly.
13. In the event of any tenderer failing to take up his tender, complete the bond, and proceed with the contract, within the time specified, all moneys deposited by him on account of such contract shall be absolutely forfeited to the Crown, and shall be paid to the Consolidated Revenue of the Colony.
14. Whenever a tenderer shall fail to proceed with a contract as aforesaid, fresh tenders shall be invited at short notice for the work, but the tenderer, by whose fault such a course has been rendered necessary, shall be excluded from the competition, and from any competition for other works, at the pleasure of the President.
15. The Board shall not be bound to accept the lowest or any tender.
16. No tender will be accepted until the Head of the Branch under whose directions the work is to be carried out, has reported upon the whole of the tenders received.
17. In the event of any contract being tendered for at a schedule of rates, the approximate quantities as given of each item must be worked out and a total sum shown.
18. The Board-room shall be open for the admission of the public while the tenders are being opened and declared.

Sydney: Charles Potter, Government Printer.—1888.

(THIRD SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

ADDITIONAL ROAD VOTE.

(PARTICULARS OF EXPENDITURE.)

Ordered by the Legislative Assembly to be printed, 21 September, 1887.

LEGISLATIVE ASSEMBLY.

Question,—

7. MR. MOORE *to ask* THE SECRETARY FOR PUBLIC WORKS,—Will he have any objection to lay upon the Table a Return showing how the Additional Vote of £100,000 for roads has been distributed?

Answer,—

The vote of £100,000 on the Estimates for 1887, in addition to the votes for 1887, has been divided as follows, viz.:—20 per cent. on the following, subdivided according to the amounts of individual votes:—

	Vote for 1887.	20 per cent. appropriated from vote of £100,000.
	£	£
Main roads under Department	47,490	9,498
„ „ Municipalities	20,933	4,187
Minor roads under Department (per schedule)	310,000	62,000
„ „ Trustees	30,000	6,000
	£408,423	£81,685

This appropriated £81,685 of the £100,000 vote, leaving a balance of £18,315, which has been distributed as per the accompanying statement.

LIST of amounts appropriated from additional vote of £100,000 on Estimates for 1887, as per ministerial approval of 13th August, 1887.

Work.	Amount.	Work.	Amount.
	£		£

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

AUBURN PARK ROAD TRUST.

(PAPERS, &c., RESPECTING.)

Ordered by the Legislative Assembly to be printed, 20 *March*, 1888.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 30th November, 1887, That there be laid upon the Table of this House,—

"Copies of all papers, together with minutes thereon, in connection with "the Auburn Park Road Trust."

(*Mr. Frank Farnell.*)

Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

IT is reported that this road has been very much cut up by the traffic in connection with Hudson's Water Supply Works. I therefore recommend that Messrs. Chas. Bent, J. H. Decent, and L. H. Delarue be appointed trustees, and the money, which is on shedule for current year, be issued to them to put the road in order.

Under Secretary, B.C. W.C.B., 17/3/86.

Submitted.—J.R., 18/3/86. Approved.—W.J.L., 26/3/86. Vote for '86 issued, to be placed in the L.C. Bank, 30/3/86.

Department of Public Works, Roads under Trustees,
Sydney, 30 March, 1886.

Sir,

I am directed by the Secretary for Public Works to request that you will be good enough to cause the sum of £75 to be placed to the credit of Messrs. J. H. Decent, Chas Bent, and L. H. Delarue, in the London Chartered Bank, for repairs to the road from the Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

2. This expense will be charged against the vote for Minor Roads under Trustees, 1886.

I have, &c.,
JOHN RAE,
Under Secretary.

The Under Secretary for Finance and Trade.

Department of Public Works, Roads under Trustees,
Sydney, 30 March, 1886.

Gentlemen,

I am directed by the Secretary for Public Works to apprise you that the Under Secretary for Finance and Trade has been requested to cause the sum of £75 to be placed to your credit in the London Chartered Bank for repairs to the road from Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

2. You will be duly advised by the *Treasury Department* when the credit has been completed at the Bank, and you will be supplied with the necessary forms, cheque-book, &c., on application.

3. In order to avoid the frequent correspondence and reference of accounts back to Trustees, *special attention* is directed to the necessity of supplying *full particulars* in the Statement of Payments as to the locality and nature of work, and also *dimensions, &c.* 4.

602—A

[805 copies—Approximate Cost of Printing (labour and material), £8 12s. 3d.]

4. Statement of Payments *must* be sent by Trustees *direct* to the Commissioner for Roads to be checked; they will then be forwarded on in due course to the Audit Office.

5. This grant will be allowed to remain to the credit of your Trust until the 31st December next, after which date the unexpended balance will be written off, except in cases where contracts have been entered into which cannot be completed by that date, when credit will be kept open until the 31st March following, for which special authority must be obtained from this Department not later than the middle of December. In no case will an unexpended balance be allowed to remain in the bank later than the end of next year.

6. No further moneys will be placed at the disposal of Trustees on account of this work, until vouchers in adjustment of the above amount have been received and passed at this Office.

7. It is particularly requested that, in the expenditure of this sum, the Trustees will adhere as closely as possible to the terms of the Circular of Instructions issued for their guidance, copy of which is enclosed.

I have, &c.,
JOHN RAE,
Under Secretary.

Messrs. J. H. Decent, Chas. Bent, L. H. Delarue, Auburn.

Memorandum from Mr. J. H. Decent to The Commissioner for Roads, Sydney.

Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

Sir, 5 June, 1886.

The writer, Messrs. Bent and Delarue, waited on you some three months back, *re* the state of our roads between Rookwood and Auburn Park, when you promised us they should be immediately attended to, and gave orders to that effect in our presence. Up to the present nothing whatever has been done save one man near Rookwood, a few weeks back, spreading a few stones on it; it is now in a sad state, almost impassable and dangerous to travel on. Trusting the same has not been overlooked by you.

I am, &c.,
J. H. DECENT.

The Treasury was asked on the 30th March last to issue £75, the vote of 1886, to Messrs. Decent, Bent, and Delarue.—C.B.A., 8/6/86. It appears, on inquiring at the Treasury, that the amount in question was paid into the London Chartered Bank on the 9th April last.—C.B.A., 8/6/86. Inform at once.—W.C.B., 9/6/86. Mr. Decent informed, 15/6/86.

Sir, 15 June, 1886.

In reply to your letter of the 5th instant, I have to inform you that the sum of £75, voted for road from Auburn and Bankstown Road, *via* Auburn Park, to Main South Road, was placed to the credit of trustees (Messrs. J. H. Decent, Chas. Bent, and L. H. Delarue) in the London Chartered Bank on the 17th April last, and letters to that effect addressed to them both from this and the Treasury Department. You are therefore at liberty to proceed at once with the expenditure of that amount. Copies of the previous correspondence from this Department is enclosed herewith.

I have, &c.,
WILLIAM C. BENNETT,
Commissioner and Engineer for Roads and Bridges.

J. H. Decent, Esq., Leaton Grove, Auburn Park, near Rookwood.

Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

27 August, 1886.

Mr. Bull, M.P., has called with reference to the appointment of trustees for the above road, stating that a suggestion had been made by Mr. Alban Gee that Messrs. Robt. Ritchie, John Burt, and himself should be appointed trustees for the road. Mr. Bull was informed of the action already taken in the matter, and asked that he might be written to on the subject.

C.B.A.

Mr. Airy,—Increase first road to 5 miles, and put second on 1½ miles 3rd class.—W.C.B., 21/2/86. Mr. N. G. Bull, M.P., informed, 27/8/86.

Sir, 27 August, 1886.

Referring to your personal inquiries on the subject of the appointment of trustees for the road from the Auburn and Bankstown Road, *via* Auburn Park, to Main South Road, I have the honor to inform you that the money (£75) voted for this road was issued to Messrs. Chas. Bent, J. H. Decent, and L. H. Delarue on the 9th April last for expenditure.

I may state that Mr. Gee was informed to this effect by letter from this Department on the 21st ultimo.

I have, &c.,
W. C. BENNETT.

N. G. Bull, Esq., M.P.

Sir, Auburn, 31 August, 1886.

I am instructed by the Auburn Progress Committee to ask that information be afforded them as to whether Auburn Road, from Railway Station running south to Water-street, is at present under trust, and, if so, will you kindly furnish names of trustees.

I have, &c.,
GEORGE MENZIES,
Hon. Sec., A. P. Committee.

Mr. W. Bennett, Commissioner for Roads.

Inform

Inform that the only known road from Auburn rail south is in charge of trustees, as above.—W.C.B., 2/9/86. Acknowledged and informed, 2/9/86.

Mr. Bull, M.P., with Mr. Decent, called to point out that the trust in which Mr. Decent, Mr. Bent, and Mr. Delarue, now 2½ miles, should be extended to Rookwood Station. Mr. Miller thinks it should be all 5 miles third-class; and it was also pointed out that from junction with the above road to Auburn Station should be a separate trust, about 1¾ miles, which appears to be the road Mr. Gee is interested in.—W.C.B., 29/11/86.

Department of Public Works, Roads under Trustees,

Sir, Sydney, 2 September, 1886.

I have to acknowledge the receipt of your letter of the 31st ultimo on the subject noted hereunder, and to inform you that the only road running in the direction indicated by you is that from the Auburn and Bankstown Road, *via* Auburn Park, to the Main South Road, for which Messrs. Charles Bent, J. H. Decent, and L. H. Delarue are trustees.

I have, &c.,

CHAS. B. AIREY

Mr. Geo. Menzies, Auburn. (for Commissioner for Roads.)

Subject:—Asking whether the road from Auburn Railway Station running south to Water-street is under trust, and, if so, to be furnished with the trustees' names.

N. G. Bull, Esq., M.P., Liverpool.—

Sir, Leaton Grove, Auburn Park, 21 December, 1886.

In response to your instructions to Mr. Bent yesterday, I called upon Mr. Airey to-day *re* the road question, but from what I could gather from him it appears to me that if our trust is to extend the 5 miles instead of 2½, as before provided, we only get £125 for the whole distance, viz., from Main South Road at Upper Bankstown, *via* Auburn Park, to Rookwood; we are infinitely in a worse position than with £75 for the 2½ miles, as before. If, however, you can arrange to get the whole distance classed as a second-class road instead of a third, with a special grant for that portion marked red on the plan, possibly it might be of some service to us, although the latter (that is, that portion from Rookwood to Powell's) is positively dangerous to travel on after dark, the road never having been formed at all. I shall be glad to arrange to meet Mr. Miller any time he may appoint, and drive him over same, when he will be in a position to send his report thereon. Further, I think it would be advisable, if the trust is extended, that there should be five trustees instead of three, and would recommend Mr. B. Gormley and Mr. Slee, or Mr. Towers, of the Ranch, be added to the trust.

I have, &c.,

JOS. H. DECENT.

The class of this road cannot be increased in these times of retrenchment; if the people using it are so numerous they should form a municipality or subscribe; in either case the Government will supplement amount.—W.C.B., 23/12/86. Inform Mr. Bull. Informed, 4/1/87.

Sir, 4 January, 1887.

Referring to the letter presented by you on the 23rd instant in conjunction with Mr. J. H. Decent, requesting that the road from the Main South Road at Upper Bankstown, *via* Auburn Park, to Rookwood, may be increased in classification, and a special grant given for the portion between the Auburn and Rookwood Roads, I have the honor to inform you that, as it is intended rather to reduce than to increase the Estimates for 1887, it is not possible to recommend an additional sum for the road in question. I should state that if the residents and others using the road are as numerous as pointed out it would be advisable for them to incorporate or else subscribe amongst themselves a certain sum towards the maintenance of the line referred to, in either of which cases the Department would supplement the amount thus obtained.

I have, &c.,

N. G. Bull, Esq., M.P. WILLIAM C. BENNETT.

Extract from letter from A. H. McCulloch, M.P., dated 17/2/87.

I HAVE the honor to direct your attention to the dangerous state of the roads from (1) * * * * (2) Rookwood to Auburn Heights. I feel sure that if you have a report upon these two roads you will at once order their repair.

Extract from Mr. Miller's report.

THE road referred to is on Schedule and under trustees. About ¾ of a mile has been metalled by the Department, which should be continued by the trustees at the west end at the brick-yards.—H.M., 3/3/87.

The Hon. The Minister for Public Works.—

Sir, Leaton Grove, Auburn Park, 6 June, 1887.

We are rather surprised and aggrieved that up to the present nothing has been done in reply to the deputation consisting of myself, Messrs. Holdsworth, Slee, and others that waited on you some few weeks back with regard to the state of the roads between Rookwood and Bankstown, *via* Auburn Park Road. A few months previous to waiting on you a deputation introduced by N. Bull, Esq., then M.P. for the district, interviewed Mr. Bennett upon the same subject, when we were led to understand that, owing to the retrenchment in all the Departments, that, although he could not hold out any inducement of a further sum being placed on the Estimates for this purpose, in all probability our trust might be increased from 3 to 5 and extended to Rookwood, and placed as a second-class road, giving us £125 instead of £75. To our chagrin, however, the day before yesterday we got notice from your Department of the liberal sum of £75 being placed to our credit again, requesting us to spend it as soon

soon as possible, in order to absorb some of the unemployed. We would respectfully ask how many of the unemployed do you think this munificent sum is likely to absorb, or how many chains out of 5 miles of road, that we and others have to travel over twice every day of our lives, this will put in repair. We scarcely think we are receiving fair treatment, considering the special advantages (as I pointed out in the *Daily Telegraph* in their issue of the 6th instant) that offer by way of a good quarry of stone in the centre of all these roads. We see no reason why fifty or a hundred of the unemployed might not be put on at once, and thereby render a real service to the whole district, and at a comparatively small outlay to the Government. Trusting the same will receive your earnest consideration,

We have, &c.,

JOS. H. DECENT, CHAS. BENT,
L. H. DELARUE, EMILE DELARUE,
JOSEPH ABRAHAMS, JOHN WEIR.

P.S.—The signatures attached are all of Rookwood, 500 of which might be easily obtained had I the time to go round for them.

Will Mr. Airey please report more particularly on my minute 29/11/86 herewith.—W.C.B., 18/8/87.

The full length of road was always shown on schedule, but it was until current year wrongly named. It is third class, and receives £75 a year. Trustees have always maintained that the amount is insufficient, as they think road should be metalled throughout. A part of it near Rookwood Road was metalled by Mr. Miller two or three years ago. The 2 miles running to Auburn Station from above road has been provided for at the same rate—£15 a mile.—C.B.A., 27/6/87.

Upper Bankstown, *via* Auburn Park, to Rookwood Road.

1 July, 1887.

THE road formerly metalled by Mr. Miller on road from Rookwood Road to Upper Bankstown has been improperly done. £900 has been expended on it, and there is now very little trace of the work done—no forming, no ballasting, and that the metal is very narrow. With reference to the remainder of road, Mr. Decent considers it would take £500 to put it in order. He was informed that the unemployed could not be given, but that some consideration of the other matter will be given. Between brick-yards and Queen's Park is the worst part of the road.

The Commissioner wishes Mr. Miller to visit this road and see him in office on Monday next.—C.B.A., 1/7/87. Memo. sent to Mr. Miller.—1/7/87.

---

1 July, 1887.

MEMO.—The Commissioner wishes Mr. Miller to visit and report fully on the above road, as to its condition and amount necessary to put it in repair, and to bring the report to office and see Commissioner with it personally on Monday next.

Mr. Miller. CHAS. B. AIREY.

---

2 July, 1887.

Sir,

I inspected the road referred to in annexed letter to-day. The road is metalled with blue metal from the Rookwood Road to the brick-yards, a distance of 1,100 yards, which cost £816; from thence to where the water-pipes cross the road is in bad condition, not having been formed. The distance is about 1¼ miles, or 100 chains, and will cost 11s. per chain to form 30 feet wide—£55. Three small timber culverts are required, and will cost £15 each—£45; total, £100. From the pipe line *via* Auburn Park, requires nothing done, having been well attended to by the trustees, who live adjacent to it. The trustees have £75, but are expending it adjacent to their own residences and where not required. They are forming the road an unusual width of about 42 feet, and absolutely making it worse than before. The metalled road referred to requires a man on it to fill in the ruts, nothing having been done to it since first made, having been transferred to trustees, and although they complain of it, they have not taken the trouble to spread the maintenance metal now lying on the sides of the road.

I have, &c.,
H. MILLER.

Mr. Airey,—Note £500 for consideration on lists.

Dear Sir. Commercial Union Chambers, 75, Pitt-street, Sydney, 25 July, 1887.

Will you do me the honor to receive on Friday a deputation from Rookwood wishing to see you with "reference to a road from Rookwood to Bankstown, *via* Auburn Park Road." The time most convenient to you will suit them.

Truly yours,
V. PARKES.

The Honorable The Minister for Works.

Friday, 29th, at 12·30. Inform.—J.R., 25/7/87. Informed, 26/7/87. Mr. Airey,—Has not this been arranged—is it not Mr. Decent's case?—W.C.B., 26/7/87.

Sir, Department of Public Works, Sydney, 26 July, 1887.

In reply to your letter of the 25th instant, I am directed to inform you that the Secretary for Public Works will receive the deputation, not to exceed six in number, from persons interested on the subject of "Road from Rookwood, *via* Auburn Park Road, to Bankstown," on Friday, 29th instant, at 12·30 p.m.

I have, &c.,
JOHN RAE.

V. Parkes, Esq., M.P.

Sir,

Sir, 121, Pitt-street, Sydney, 26 July, 1887.

I have the honor to request that a sufficient sum may be allotted for the purpose of metalling a further portion of the Rookwood and Bankstown Road. The extension of the metal for another one and a-half or two miles would, I am informed, get over the worst part of the road. I may say that I have seen a very large number of the roads in the County of Cumberland, and although many of them are in a very deplorable state, I think that this is the worst of all, and requires most urgent attention.

I have, &c.,
A. H. McCULLOCH.

The Commissioner for Roads.

Mr. Airey,—Is not this Mr. Decent's road? See me with papers when Mr. Miller is here to-morrow morning.—W.C.B., 27/7/87. £500 has been noted for consideration.—C.B.A., 27/7/87.

Mr. Decent, one of the trustees of above road, has on several occasions complained of the small amount annually granted for this road, and on the 1st instant called with a Mr. Tower, a resident, to ask that £500 might be made available to thoroughly repair the road, which they represented was almost impassable in daylight, and quite so after dark. The worst part of the road was said to be between the brick-yards and Queen's Park. At the same time Mr. Decent stated that the portion of Kerr's Road, metalled some years ago by Mr. Miller, was improperly done. The money issued to the trustees for this and last year appears to have been spent on the Bankstown end of the road, where the trustees live—not one shilling having been laid out at the Rookwood end. The money was granted for five miles of road at 3rd class rate (£15 a mile).—C.B.A., 28/7/87.

I recommend that the £500 be given on condition that the road be handed over to the charge of the Department—the grant is too large to be expended by trustees.—W.C.B., 28/7/87.

Deputation.—V. Parkes, M.P., Road Rookwood to Bankstown, *via* Auburn Park Road—29th instant, at 12·30 a.m.

28 July, 1887.

THE road appears to be in bad order—it is now in the hands of trustees. Mr. Bennett recommends that £500 be granted to repair the road, provided it is handed over to the Department. £75 per year has been voted for this road (5 miles), but the whole of the money appears to have been spent on the part of the road near where the trustees live.

Mr. McCulloch, M.P., with Messrs. Bent, Decent, and Delarue waited upon me to-day with reference to this road. They complained that it is in a very bad condition, and in places is impassable. They point out that their original appointment was simply from the Liverpool Road to the main South Road; but recently they had been told their trust extended to Rookwood, and they point out that the amount allowed is totally insufficient for the repair of such a length of road. If no alteration is made, they will resign the trust.

They had waited upon me previously, and the outcome of the deputation was a report they received sent in by Mr. Miller. They believed the report inaccurate, and had obtained a private survey—the report of which is enclosed. They condemn with the private report the bridge over the water-pipes, which meets the road on an angle, and is much above it. They recommend, if the trust is to be continued, a larger subsidy; the appointment of two additional trustees for the Rookwood end; and the road to be at once put in fair order. They expect it can be done at a cost of £300 or £400. I informed them that I would confer with Mr. Bennett, and see what could be done in the matter. I was unaware of any source from which I could get money at the present time.

[Extract from *Sydney Morning Herald*, 30 July, 1887.]

Rookwood to Bankstown Road.

A DEPUTATION from the trustees of the Rookwood to Upper Bankstown Road, *via* Auburn Park, was introduced to the Minister for Works yesterday morning by Mr. McCulloch, M.L.A. The members of the deputation pointed out the bad state which the road was in, and stated that as they were not satisfied with the report of the Departmental officer on the road, they had had a private report prepared by a competent officer as well as a plan* of the road, which they submitted to the Minister. They requested that, as the area over which their trust extended had been increased, two additional trustees should be appointed, and an additional grant should be made for the maintenance of the road. Mr. Sutherland said that he had no doubt that the road was in a bad state, and promised to look into the matter and see what could be done.

*See Appendix

Hon. Sir, Leaton Grove, Auburn Park, Rookwood, 30 August, 1887.

We feel sorely disappointed at not having received any reply from you e'er this *re* the matter of our road between Rookwood and Upper Bankstown, *via* Auburn Park Road, it being now over a month since our deputation waited on you, leaving with you plans and exhaustive report by John H. Cardew, Esq., showing what was absolutely required, and by which you must have seen we have good cause for complaint. We need scarcely inform you it is now in a woeful state, and unless something is done *at once* it will be impossible to travel. Considering your Government have been chiefly instrumental in making it as bad as it is by carting all their plant and material over it during the wet weather for their main water supply, we trust you will see we have good grounds for reasonable compensation. Hoping you will favour us with a reply at your earliest convenience as to what we may expect, and kindly let us have the report and plans back again as soon as you are done with them.

We have, &c.,
JOS. H. DECENT,
CHARLES BENT,
EMILE DELARUE.

Hon. John Sutherland, Minister for Works, Sydney.

The report referred to by Mr. Cardew has not, I think, been sent to me. £500 was given for this road on the recommendation and urgent personal representations of these gentlemen; it has since, at Mr. McCulloch, M.P.'s, instance been divided between this and the direct road, and Mr. Miller is now expending.—W.C.B., 5/9/87. Under Secretary, B.C.

Gentlemen,

Gentlemen, 14 September, 1887.

In reply to your letter of the 30th ultimo, respecting the road from Rookwood, *via* Auburn Park, to Upper Bankstown, I am directed to inform you that the sum of £250 for expenditure on the road in question has been placed at the disposal of the Local Roads officer, and that work is now in progress.

I have, &c.,
JOHN RAE,
Under Secretary.

Messrs. J. H. Decent, Chas. Bent, L. H. Delarue,
Leaton Grove, Rookwood.

Report on Road from Rookwood Station to Bankstown.—The Trustees of the Auburn and Bankstown Road, *via* Auburn Park, to Main South Road.

Sir, Leaton Grove, Auburn Park, Rookwood, 19 September, 1887.

We have to acknowledge the receipt of yours bearing date the 14th instant, informing us £250 has been placed to the credit of the Roads officer for the repair of our roads to Upper Bankstown, for which we are much obliged.

We would respectfully inform you, however, that up to the present we regret to state we have seen no sign of the progress being made you mention.

We have, &c.,
J. H. DECENT.

P.S.—Plans and report by Mr. Surveyor Cardew have not yet been returned; we would feel obliged if you would let us have them.

The Secretary Public Works.

Mr. Miller to be reminded. I do not know what plans and reports by Mr. Cardew are referred to.—W.C.B., 23/9/87. Memo. to Mr. Miller.—26/9/87. The report and tracing referred to herein are enclosed, and might be returned to Mr. Decent.—C.B.A., 12/10/87. Plans, tracing, and report returned, 24/10/87.

Sir, Leaton Grove, Auburn Park, Rookwood, 14 December, 1887.

In compliance with the printed circular of instructions from your Department, bearing date 2nd June last, we have the honor to inform you, owing to contracts we have in hand not being completed, and which, we are of an opinion, under the most favourable circumstances, cannot be before the middle of next month, which delay we may mention has arisen from two causes—first, in waiting for instructions from the Department as to what course would be taken as regards the trust, and next the unpropitious state of the weather till very recently. We would therefore respectfully request you will do us the favour by keeping the account open as provided for in the said circular.

We have, &c.,
JOSEPH H. DECENT,
CHARLES BENT,
L. H. DELARUE,
Trustees, Auburn Park Road Trust.

John Rae, Esq., Under Secretary for Public Works.

Grant.—C.B.A., 21/12/87. Granted, and Auditor-General informed, 21/12/87.

Sir, Colonial Secretary's Office, Sydney, 1 December, 1887.

I am directed by the Colonial Secretary to transmit to you herewith a copy of an order of the Legislative Assembly for certain information respecting Auburn Park Road Trust, and to request that you will bring the same under the notice of the Secretary for Public Works.

I have, &c.,
CRITCHETT WALKER,
Principal Under Secretary.

The Under Secretary for Public Works.

---

5. Auburn Park Road Trust (Formal Motion) :—Mr. Frank Farnell moved, pursuant to notice, That there be laid upon the Table of this House copies of all papers, together with minutes thereon, in connection with the Auburn Park Road Trust.
Question put and passed.

[One plan.]

Sydney: Charles Potter, Government Printer.—1888.

No. 1.

R. B. Smith, Esq., M.P., to The Secretary for Mines.

Sir, Legislative Assembly, 21 August, 1880.

I beg to forward you enclosed the petition from the residents of Glenthorne, Manning River, and to request that you cause attention and favourable consideration to be given to the prayer of the petitioners as early as possible.

I have, &c.,
R. BURDETT SMITH.

Acknowledge and then forward to the Surveyor-General.—H.W., 24/8/80. R. B. Smith, M.P., 25/8/80. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 25/8/80. Mr. District-Surveyor Greaves for report.—ROBT. D. FITZGERALD, 7/9/80. Mr. Licensed-Surveyor Hall will be good enough to report, furnishing sketch if necessary.—W.A.B.G., 14/9/80. Replied to by No. 80-100.—J. HALL.

[*Enclosure.*]

To the Honorable the Minister for Lands,— Glenthorne, Manning River, 10 August, 1880.

The petition of the undersigned residents of Glenthorne and neighbourhood respectfully showeth,—

That your petitioners are put to great loss of time and much inconvenience through the want of a road from Glenthorne to the Government road leading from the Taree Ferry to the Bohnock Road.

That in order to reach said road your petitioners have to trespass through private property, or, otherwise, make a lengthy detour to reach a Government road, which again leads to the Ferry Road.

That your petitioners pray you will take such steps as will remove the inconvenience complained of, by causing a road to be opened connecting Glenthorne with the Ferry Road.

And your petitioners, as in duty bound, will ever pray.

W. THOMPSON.
F. CROFTON.
ROBT. FINIGAN.

[Here follow sixty-two other signatures.]

Would the Honorable the Minister for Mines be pleased to cause early attention to be given to the representations contained in this petition.—R. BURDETT SMITH, Member for the Hastings, 21 August, 1880.

No. 2.

R. B. Smith, Esq., M.P., to The Secretary for Mines.

Sir, Legislative Assembly, 31 August, 1880.

See Appendix No. 1.

I beg to forward the enclosed petition, at the request of the petitioners, and to ask you to give the same attention and consideration.

I have, &c.,
R. BURDETT SMITH.

Acknowledge receipt and forward to the Surveyor-General.—G.E.H. (for Under Secretary), B.C., 3/9/80. R. B. Smith, M.P., informed, 4/9/80. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 4/9/80. Mr. D.-S. Greaves, in connection with instructions (memo. upon Roads 80-3,207) sent on 9 Sept., 1880.—ROBT. D. FITZGERALD (for Sur.-Gen.), 16/10/80. Mr. Hall should see this in connection with his report.—W. A. B. GREAVES, 27/10/80. My report and sketch of this road were forwarded 22/10/80.—JOHN HALL, 5/11/80. Mr. Stopps, 11/11/80. May await return of 80-4,024, sent to L.-S. Hall for more complete report.—A.J.S., 18/11/80.

[*Enclosure.*]

Purfleet, Taree, Manning River, 14 August, 1880.

To the Honorable the Minister for Lands,—

The petition of the undersigned residents of Purfleet and others respectfully showeth :—

That your petitioners have learned that a petition has been or is about to be forwarded to you praying that a Government road may be opened between Glenthorne and the Taree Ferry Road.

That your petitioners respectfully oppose the opening of the said road, on the following grounds :—

1. The road is not required by the petitioners, seeing there already exists a Government road from Glenthorne to the Tinonee and Bohnock road and the Taree Ferry Road leads into the said road.
2. The parties asking for said road have, in addition to the above Government roads, river frontages.
3. The opening of the road asked for would seriously interfere with and damage the properties of several of your petitioners.

We therefore respectfully beg you will be pleased to take a favourable view of these premises, and not cause the road applied for to be opened.

And your petitioners, as in duty bound, will ever pray.

D. M'LENNAN, farmer, Purfleet.
NEIL CAMPBELL, farmer, Purfleet.
JAMES MELVEN, farmer, Purfleet.

[Here follow twenty-five other signatures.]

Presented, at the request of the petitioners, by R. Burdett Smith, Member for the Hastings, 31 August, 1880.

No. 3.

Mr. Licensed-Surveyor Hall to The Surveyor-General.

Sir, Wingham, 22 October, 1880.

In compliance with your instructions, dated 7 September, 1880, No. 143, D.S., requesting me to report on the above road, from Glenthorne to Taree Ferry, I have the honor to state that I met several of the parties interested in the road, who proceeded with me, and pointed out the track, shown by a dotted pink line on accompanying sketch. This track passes along a high bank, with low ground on either side, and is the only high ground on those farms, upon which all the houses, barns, and yards, &c., are built; and all the settlers would strongly object to a public road so close to their dwellings. This is the track generally used by the settlers of Glenthorne, until very recently, when they were stopped by D. M'Lennan, at the farm nearest the punt. None of the settlers would object to the road being taken about 150 yards to the south of their buildings, but I could not recommend it, the ground being low, and could not be travelled in very wet weather.

We then proceeded over the road shown by a pink band, and found it to be very suitable for such. I then saw the different owners of the land, and found all willing except P. Muscio and D. M'Lennan. The former I did not see, as he lives on the Hastings River, but his brother, who lives on the adjoining farm, thought that he would not have any objection. Mr. M'Lennan objects strongly to the road being taken anywhere through his farm. The road, as shown on tracing, would pass about 70 to 80 yards from his house, but would not do him much injury, as the front part of his farm is laid down in grass.

As you will see by tracing, the roads coloured brown are the only ones that can be used by the settlers of Glenthorne to get to the Ferry, a distance of about 4 miles, whereas, by proposed road, it is only about 1 mile.

The traffic on this road is purely local, and would be principally used by horse and foot traffic. I should therefore recommend that the road be surveyed and proclaimed, not more than 50 links wide, the land all being in cultivation, except M'Lennan's, and that width would be quite sufficient for all purposes required.

I have, &c.,
JOHN HALL.

The Surveyor-General.—W.A.B.G., 27/10/80. Mr. Licensed-Surveyor Hall is informed that the road suggested by him would not be tenable if Mr. M'Lennan objected to it, as in all probability he would do. Perhaps Mr. L.-S. Hall might be able to suggest some other course.—Robt. D. Fitzgerald (for Surveyor-General), 11/11/88. Replied to by No. 81-6.—John Hall.

No. 4.

Mr. Licensed-Surveyor Hall to The Surveyor-General.

Sir, Wingham, 1 January, 1881.

In accordance with your instructions, dated 11th November, No. 80–64, requesting a further report on the above road, I have the honor to state that I again proceeded over the road with both parties interested for and against, and found that no other road would be suitable except the one recommended in my former report, and shown on tracing by a pink band. Mr. M'Lennan, on seeing the great necessity for a road, declared himself willing to give the land, provided the road should be fenced off with a good substantial three-rail fence, also the other owners of the land through which the road would pass expect it to be fenced off, otherwise they would object to it.

I spoke to the petitioners about the great expense of a double line of fencing, and told them it was nothing but fair that they should fence one side of the road throughout, as it was solely to their own benefit, which they are willing to do if Government would fence the other half, and which I promised should be done, subject to your approval.

Date of inspection, 30th December, 1880.

I have, &c.,
JOHN HALL.

The Surveyor-General.—W.A.B.G., 5/1/1881.

Mr. Licensed-Surveyor Hall is requested to state whether the farms through which the road would pass are severally fenced, and what will be the cost approximately of fencing one side, and also whether the cost would be justified by the importance of the road.—A. J. Stopps (for Surveyor-General), 3/5/81.

Replied to by No. 81–53.—J. Hall.

No. 5.

Mr. Licensed-Surveyor Hall to The Surveyor-General.

Sir, Wingham, 31 May, 1881.

In accordance with your instructions, dated 3rd of May, No. 81–43, requesting a report as to the cost of fencing, and importance of road from Glenthorne to Taree Ferry, I have the honor to state that the farms through which it would pass are not severally fenced, but only on the east boundary of Butt's land, between B. Muscio and M'Kay, and between M'Kay and D. M'Lennan, also on M'Lennan's western boundary, shown on tracing. Cubba Creek and the river act as fences to the north and south boundaries.

The cost approximately of fencing one side with a three-rail fence would be about £70.

The road would be of great importance to all the farmers below M'Lennan's, and I believe the outlay would be quite justified by the importance thereof.

I have, &c.,
JOHN HALL.

The Surveyor-General.—W. A. B. Greaves, 9/6/81. Mr. District-Surveyor Greaves for survey.—A. J. Stopps (for Surveyor-General), 28/6/81. Mr. Licensed-Surveyor Hall to measure.—W. A. B. Greaves, 1/7/81. Replied to by No. 81–91.—J. Hall.

No. 6.

No. 6.

Messrs. Muscio and M'Kay to The Secretary for Mines.

Sir, Purfleet, Manning River, 27 August, 1881.

We, the undersigned, are compelled to protest against the giving of a road half a chain wide across our lands on Purfleet, which road has been surveyed by the Government Surveyor, Mr. John Hall, on the 26th instant; but are willing to give a right of road across our lands. We, the undersigned, are authorized to state that Messrs. Henry Butt and Bernard Muscio will also give the parties that want the said road a guarantee of right of road across their lands, and the majority of those that want the said road would be satisfied with a right of road on the line lately surveyed by Mr. Hall. Hoping the above will meet with your favorable consideration,—

We have, &c.,
PETER MUSCIO.
JOHN M'KAY.

This is entirely a question for the consideration of the Surveyor-General. Papers should be sent him.—F.W., 31/8/81. Under Secretary, B.C. Under Secretary for Mines.—J.R., 2/9/81. The Surveyor General.—G.E H. (for the Under Secretary), B.C., 5/9/81. The plan of the survey of this road has been received, which will be sent on for proclamation; this objection will be fully considered at the proper stage.—A. J. STOPPS (for Surveyor-General), 17/11/81. Inform.—H.W., 21/11/81. Informed, 24/11/81. The Surveyor-General.—T.C.B. (for Under Secretary), B.C., 25/11/81.

No. 7.

Office Memorandum.

Roads Branch.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of road, parish of Tinonee, county of Gloucester, transmitted by Mr. Licensed-Surveyor Hall, letter No. 91, of 30th September, 1881, and on which Mr. Hall's report in explanation is requested. Tracing attached.*

* See Appendix No. 2.

Subject.	Report.
Mr. Hall is requested to explain why the road from Glenthorne to Taree Ferry was surveyed so as to pass southward of D. M'Lennan's house, instead of the road recommended through the said D. M'Lennan's land, along the bank of the Manning River. Both roads are shown upon the accompanying tracing. A. J. STOPPS (For Surveyor-General), 10 May, 1882.	When measuring the road, Mr. M'Lennan came to me, and asked if I could deviate the road from where I had recommended, for he thought, if it was to be surveyed, it would be much less injurious to him at the back of the house and divide the land more equally into paddocks, and as it was higher ground, and would make a better road, I measured accordingly. JOHN HALL, 20 May, 1882.

No. 8.

Mr. Licensed-Surveyor Hall to The Surveyor-General.

Sir, Wingham, 30 September, 1881.

In compliance with your instructions, dated 28th June, 1881, No. 131 D.S., I have the honor to forward you plan and book of reference of road from Glenthorne to the Taree Ferry, on the Manning River, parish of Tinonee, county of Gloucester.

Date of survey—25th August, 1881.

I have, &c.,
JOHN HALL.

No. 81-56-2 Roads. Plan herewith. The Surveyor-General.—W. A. B. GREAVES, 12/10/81.

[*Enclosure.*]

EXTRACT from deed of grant to Wm. Caswell, of 1,280 acres, situated on the south bank of the Manning River, parish unnamed, county of Gloucester, dated 11th August, 1841. (*Vide* vol. B 5, folio 58, at the office of the Registrar-General).

And we do hereby reserve unto us, our heirs and successors, all such parts and so much of the said land as may hereafter be required for a public way, or public ways, in, over, and through the same, to be set out by the Governor for the time being of our said territory, or some person by him authorized in that behalf.

G.O., 10 May, 1882.

No. 9.

The Under Secretary for Mines to Messrs. Muscio and M'Kay.

Gentlemen, Department of Mines, Sydney, 24 November, 1881.

With reference to your letter of the 27th August last, protesting against road through your lands at Purfleet, I have the honor to inform you that the plan of survey of the road has been received, and the road will be sent on for proclamation, after which time your objection, with any others that may be received, will be fully considered.

I have, &c.,
HARRIE WOOD,
Under Secretary.

No. 10.

Minute for the Executive Council.

Preliminary Notification of Road.

Department of Mines, Sydney, 17 October, 1882.

THE authority of His Excellency the Governor and the Executive Council is sought for the opening of the undermentioned line of road, as shown by the accompanying plan and book of reference, in accordance with the provisions of the Act, 4th Wm. 4, No. 11, viz.:—Part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, parish Tinonee, county Gloucester.

ARTHUR RENWICK.

His Excellency the Governor and the Executive Council.

The Executive Council advise that the intended formation of the portion of road referred to be notified in the manner prescribed by the Act, 4th William IV, No. 11.—ALEX C. BUDGE, Clerk of the Council.

Minute, 82–49, 24/10/82. Confirmed, 31/10/82. Approved.—A.L., 24/10/82. Bench Taree, forwarding plan, &c., 15/11/82. Notified 21st November, 1882, folio 6,175.—C.X.C., 23/11/82. Advertised, 23/11/82. In a month.

[*Enclosure.*]

The accompanying plan and book of reference of part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, parish of Tinonee, county of Gloucester, are forwarded, with the view to the opening of the line as a parish road, under the Act of Council, 4 William IV, No. XI. Tracing herewith for Police Office at Taree.

A. J. STOPPS
(For Surveyor-General.)

B.C., 11 October, 1882.
The Under Secretary for Mines.

Gazette Notice.

PRELIMINARY NOTIFICATION OF PARISH ROADS.

Department of Mines, Sydney, 21 November, 1882.

HIS Excellency the Governor, with the advice of the Executive Council, having deemed it expedient to open and make the several parish roads mentioned in the Schedule appended hereto, to be maintained at the expense of the parishes through which they pass: Notice is hereby given, that in accordance with the provisions of the Act, 4th William IV, No. 11, Plans and Books of Reference, showing the intended lines of the roads in question, are now deposited at the office of the Surveyor-General, in Sydney, and at the Police Offices mentioned.

It is requested that any well-grounded objections that may exist to the formation of the roads in question may be transmitted in writing to the Clerk of the Executive Council within one month from this date.

By His Excellency's Command,
ARTHUR RENWICK.

No. 11.

No. 11.

The Under Secretary for Mines to The Bench of Magistrates, Taree.

Gentlemen, Department of Lands, Sydney, 15 November, 1882.

I have the honor to forward for deposit in the Police Office at Taree for public inspection and information, copies of Plan and Book of Reference of a road which is about to be opened as a parish road, under the Act of Council, 4th William IV, No. 11, and resumed under 110 sec. Act 48 Vic. No. 18, viz. :— Part of the road from Glenthorne to Taree Ferry, within W. Caswell's 1,280 acres, parish Tinonee, county Gloucester.

You will be good enough to advise this Department as to whether the Plan and Book of Reference have been duly exhibited for public inspection.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 12.

Memo. from the Bench of Magistrates, Taree, to The Under Secretary for Mines.

Court House, Taree, 20 November, 1882.

Mines, No. 82-3,698.

THE Plan and Book of Reference, as per number in margin and description, have been duly received for exhibition as required by law.

Description of Road :

Part of the road from Glenthorne to Taree Ferry, within W. Caswell's 1,280 acres, parish Tinonee, county Gloucester.

J. A. CREAGH, J.P.
(For the Bench).

No. 13.

The Under Secretary for Mines to The Clerk of the Executive Council.

Sir, Department of Lands, Sydney, 23 November, 1882.

In drawing your attention to the notice in the *Government Gazette* of the 21st instant, respecting the intended formation of a parish road, viz., part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, parish Tinonee, county Gloucester, I am directed to request that you will have the goodness, at the end of one month from the date thereof, to inform me whether any objections have been received by you in respect of the said road in pursuance of the notice alluded to.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 14.

The Bench of Magistrates, Taree, to The Under Secretary for Mines.

Court House, Taree, 2 January, 1883.

Mines, No. 82-3,698.

THE Plan and Book of Reference, as per number in margin and description, have been duly exhibited for forty days, as required by law.

Description of Road :

Part of the Road from Glenthorne to Taree Ferry, within W. Caswell's 1,280 acres, parish Tinonee, county of Gloucester.

J. A. CREAGH, J.P.
(For the Bench.)

No. 15.

The Clerk of the Executive Council to The Under Secretary for Mines.

Sir, Executive Council Office, 30 January, 1883.

Part of the road from Glenthorne to Taree Ferry, within Wm. Caswell's 1,280 acres, parish Tinonee, county of Gloucester.

Referring to your letter of the 23rd November last, I do myself the honor to inform you that no objection has been lodged with me to the formation of the proposed parish road noted in the margin.

I have, &c.,
ALEX. C. BUDGE,
Clerk of the Council.

The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 31/1/83.

This road was laid out on the understanding that the landowners whose property the road would pass through would waive their objection ; but, since then, objection has again been urged, as the road would only afford more convenient access to the Ferry for a few persons, and as most of the owners are willing to give a right-of-way to those requiring the road, so long as it is not made a public road, it appears to be a case more fitting a private arrangement, confirmation cannot therefore be recommended. The road would pass within the proscribed distance of M'Lennan's house.—A. J. STOPPS (for Surveyor-General), 21/6/83.

R. B. Smith, M.P., informed, 30/6/83. Submitted.—G.E.H. (for Under Secretary), B.C., 23/6/83. Approved.—J. P. ABBOTT, 27/6/83. The Surveyor-General.—G.E.H. (for Under Secretary), 2/7/83. Records.—H.W., 3/7/83.

No. 16.

No. 16.

The Under Secretary for Mines to R. B. Smith, Esq., M.P.

Sir, Department of Mines, Sydney, 30 June, 1883.

With reference to the petition of certain residents of Glenthorne (presented by you) for a road from Glenthorne to the Taree Ferry, I am directed by the Secretary for Mines to inform you that the road in question was laid out on the understanding that the landowners, whose property the road would pass through, would waive their objection, but since then objection has again been urged, as the road would afford more convenient access to the ferry for a few persons, and as most of the owners are willing to give a right-of-way to those requiring the road, so long as it is not made a public road, it appears to be a case more fitting a private arrangement, besides which the road would pass within the proscribed distance of Mr. M'Lennan's house. Therefore the confirmation of the road cannot be granted.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary.)

No. 17.

Mr. J. Robinson to The Secretary for Mines.

Sir, Glenthorne, *via* Taree, Manning River, 28 August, 1884.

At a public meeting of the inhabitants of the Glenthorne district, held about the end of 1881, and presided over by T. W. Dugdale, Esq., J.P., it was unanimously resolved to ask the Minister to open a public road from Glenthorne to the Taree Ferry, as no Government road or right-of-way existed, except by making a detour round the farms lying between Glenthorne and the Government road to Taree, a distance of at least 4 miles, while the road asked for would be less than 1 mile in length. The resolutions were duly forwarded to the Minister, and Mr. Licensed-Surveyor Hall subsequently visited the locality and measured a road. That road would fully meet the requirements of the case; but up to the present time it does not appear that any steps have been taken to have it proclaimed. See Appendix No 3.

I have the honor, therefore, very respectfully to ask your kind attention to the matter, and to urge upon you the necessity that exists for the opening of the road marked out by Mr. Surveyor Hall without further delay.

I have, &c.,
JAMES ROBINSON
(For Hon Sec.)

Acknowledged.—G.E.H. (for Under Secretary.), 11/9/84. Acknowledged, 12/9/84. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 13/9/84. See minute on 81-56/12, S.-G.O.—A.J.S. (for Surveyor-General), 3/11/84.

No. 18.

J. H. Young and C. J. Roberts, Esqs., M's.P., to The Secretary for Mines.

Dear Sir, Sydney, 19 September, 1884.

We have the honor to enclose herewith a letter from J. Robinson, jun., of Glenthorne, Manning River, in which he requests us to urge on you the necessity of the proclamation and opening of a road, which has some time since been surveyed and reported on, connecting the Glenthorne neighbourhood with the Taree Ferry Road.

We shall be glad if you will take the necessary action as soon as possible.

Yours, &c.,
J. H. YOUNG.
C. J. ROBERTS.

Acknowledged.—G.E.H. (for U.S.), 20/9/84. J. H. Young, M.P., and C. J. Roberts, C.M.G., M.P., informed, 23/9/84. The Surveyor-General.—T.C.B. (for Under Secretary), B.C., 24/9/84.

As nothing has arisen to justify a recommendation of any departure from the decision arrived at in this case, probably Mr. J. H. Young, M.P., and Mr. C. J. Roberts, M.P., should be informed of that decision. (*Vide* paper herein, 81-56/9, S.G.O., 83-306, Mines.)—A. J. Stopps (for Surveyor-General), 3/11/84.

Submitted.—G.E.H. (for Under Secretary), 6/11/84. Approved.—J. P. Abbott, 6/11/84. J. H. Young, M.P., and C. J. Roberts, M.P., informed, 7/11/84. J. H. Young, M.P., semi-officially written to, 16/2/85. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 15/1/85. Will the Surveyor-General favour me with the objections referred to in his minute of 21 June, 1883, on 83-306.—H.W., B.C., 24/2/85.

The objection referred to is that of Peter Muscio and John M'Kay. (*Vide* paper registered, S.-G.O., 81-56/4, Mines 81-2,639.)—A. J. Stopps (for Surveyor-General), 26/2/85.

The minute of the Surveyor-General on 83-306 refers to objections made since the proclamation, and, it appears to me, the Ministerial decision rests mainly, if not entirely, upon that reference. The answer of the Surveyor-General on the other side hereof is to the effect that no objection has been lodged since 81-2,639. In other words no objection has been sent in in response to proclamation inviting objections. Will the Surveyor-General be pleased to say if I am correct in the foregoing statement, because, if I am, it will be my duty to ask the Minister to reconsider the matter. The Surveyor-General B.C.—H.W., 27/2/85.

The Under Secretary for Mines is not quite correct in his statement of the case. The objection referred to in the Surveyor-General's minute was stated by him to have been made since the road had been laid out, not since it had been proclaimed. No objection was lodged subsequent to proclamation, probably because, when Muscio and M'Kay made their objection immediately after the road had been surveyed, they were informed that the road would be sent on for proclamation, but their objection would be fully considered at the proper stage. In accordance with this promise, at the proper stage, namely, after preliminary notification of the road, their objection was for the first time considered, though it had been

been received before gazettal; and it was then also pointed out, the road had been laid out on the understanding that the owners of property would waive their objection (Muscio and M'Kay are both owners of land traversed by the road). The road, moreover, passes within the proscribed distance of M'Lennan's house; without his consent the road cannot be legally established, as the conformation of the land prevents any deviation being possible that shall be beyond the proscribed distance.—A. J. STOPPS (for Surveyor-General), 3/3/85.

Muscio and M'Kay may be asked if they have waived their objection, and M'Lennan may be asked if he consents to the road being opened.—H.W., 5/3/85. P. Muscio, J. M'Kay, and D. M'Lennan informed, 6/3/85.

[*Enclosure.*]

To J. H. Young, Esq., M.P., Sydney,—

Sir, Glenthorne, *via* Taree, 2 September, 1884.

About the end of the year 1881 a petition from the residents of the Glenthorne district was forwarded to the Minister, praying that a road might be opened to connect Glenthorne with the Taree Ferry Road.

Mr. Surveyor Hall was instructed to survey and report upon it.

The road was surveyed and reported upon by that officer, and there it has stood ever since.

I would respectfully ask you, in connection with C. J. Roberts, Esq., C.M.G., M.P., to urge upon the Ministry the necessity of at once having the road proclaimed and opened, as we have no Government road or right-of-way, except by making a detour of about 4 miles over an almost impassable road.

I have, &c.,
J. ROBINSON, JUN.

No. 19.

The Under Secretary for Mines to J. H. Young and C. J. Roberts, Esqs., M's.P.

Gentlemen, Department of Mines, Sydney, 23 September, 1884.

I have the honor to acknowledge the receipt of a letter from Mr. J. Robinson, jun. (presented by you), applying for the opening of a road to connect Glenthorne with the Taree Ferry Road, and to inform you that the matter shall receive immediate attention.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 20.

The Under Secretary for Mines to J. H. Young and C. J. Roberts, Esqs., M's.P.

Gentlemen, Department of Mines, Sydney, 11 November, 1884.

With reference to your letter of the 19th September last, forwarding a letter from Mr. J. Robinson, jun., of Glenthorne, requesting that the part of the road from Glenthorne to Taree Ferry may be opened, I am directed by the Secretary for Mines to inform you that the road in question was laid out on the understanding that the landowners whose property the road would pass through would waive their objection, but since then objection has been again urged, as the road would only afford more convenient access to the Ferry for a few persons, and as most of the owners are willing to give a right-of-way to those requiring the road so long as it is not made a public road, it appears to be a case more fitting a private arrangement. Confirmation cannot therefore be granted.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 21.

The Under Secretary for Mines to J. H. Young, Esq., M.P.

Dear Sir, Department of Mines, Sydney, 16 February, 1885.

With reference to the road referred to in the letter of Mr. J. Robinson, of 20th ultimo (returned herewith), I beg to inform you that the papers in the case are now in this office should you desire to call and see them.

I am, &c,
GERARD E. HERRING
(For the Under Secretary).

No. 22.

The Under Secretary for Mines to Mr. J. M'Kay.

Sir, Department of Mines, Sydney, 6 March, 1885.

With reference to the proposed opening of part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, I have the honor to request you to state whether you have waived your objection to the opening of the road in question.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 23.

The Under Secretary for Mines to Mr. D. M'Lennan.

Sir, Department of Mines, Sydney, 6 March, 1885.

With reference to the proposed opening of part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, I have the honor to request you to state whether you consent to the opening of the road as preliminarily notified in the *Government Gazette* of the 21st November, 1882, folio 6175.

I have, &c,
GERARD E. HERRING
(For the Under Secretary).

No. 24.

No. 24.

The Under Secretary for Mines to Mr. P. Muscio.

Sir, Department of Mines, Sydney, 6 March, 1885.

With reference to the proposed opening of part of the road from Glenthorne to Taree Ferry, within William Caswell's 1,280 acres, I have the honor to request you to state whether you have waived your objection to the opening of the road in question.

I have, &c.,
GERARD E. HERRING
(For the Surveyor-General).

No. 25.

Mr. D. M'Lennan to The Under Secretary for Mines.

Dear Sir, Purfleet, 12 March, 1885.

I received yours, dated 6 March, and in reply, I have never promised to give a road through my land to Glenthorne, as it is altogether unnecessary, as there are only two or three families, and their land faces the river and butts on to the Government road at the back, so that they are in no way hemmed in. The Government have already taken a good slice of my land for a Government road, and the road in question would entirely ruin my farm, and it is very unjust of them to try and force a road, as they have never been interfered with.

I have, &c.,
DONALD M'LENNAN.

No. 26.

Mr. P. Muscio to The Secretary for Mines.

Honorable Sir, Purfleet, 14 March, 1885.

In reply to yours of the 6th instant, and numbered 84-1,056, Roads, I object to the proposed road for several reasons. In the first place, it divides a paddock of about 15 acres of good maize land into two pieces, and in such a way as it would make it difficult to till the land. Secondly, it is now enclosed securely for pigs; they run there as soon as the crop is taken off; the road would upset all that. Thirdly, I would have to keep the fences on each side of said road in repair, and renew them when they are worn out. Fourthly, I would have to cross two fences to work a small bit or land beyond the said road; and fifthly, the road will soon be covered with Scotch thistles, as there cannot be traffic sufficient to keep the road clean from weeds of a bad nature; and lastly, a road across that piece or paddock of land would very much reduce its value and its present usefulness to me.

I beg to state that there are, and always were, two roads to Taree Ferry—one on the boundary between Purfleet estate and Glenthorne, right out into the public road, and the other across every private farm on that part of Purfleet, that a road is asked for, and they have used and are still using it whenever the require it, and that is not often, as they all have good boats, without exception. I also state that all the landowners across Purfleet object to the said road. I do not know why they have not all been written to by your Department as well as myself; and lastly, the proposed road is not essentially required. Some people do not care how much trouble they give to anyone, and would make Purfleet all into roads. I hope my objection will appear reasonable to you, and I beg your serious consideration.

I have, &c.,
P. MUSCIO.

Mr. J. Mackay to The Secretary for Mines.

Sir, Purfleet, Manning River, 17 March, 1885.

I received your letter No. 84-1,056 R.

I have the honor to inform you that I have given the Glenthorne people a cart road across my farm already. If that does not suit the Glenthorne people, I will not give any more land, for I do not want a Government road through my farm.

I am, &c.,
JOHN MACKAY.

Inform Mr. Young, M.P., of the action taken and the results.—H.W., 24/3/85. J. H. Young, M.P., and C. J. Roberts, M.P., informed, 24/3/85. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 24/3/85.

There appears to be no further action for the Surveyor-General to take; papers may be put away. —A. J. Stopps, 27/3/85.

No. 28.

The Under Secretary for Mines to J. H. Young and C. J. Roberts, Esqs., M's.P.

Gentlemen, Department of Mines, Sydney, 24th March, 1885.

With reference to the matter of the proclamation of a road to connect Glenthorne with the Taree Ferry Road, I have the honor to inform you that Messrs. P. Muscio, John M'Kay, and D. M'Lennan, have been communicated with on the subject, and have sent in their written objections to the road being taken through their properties.

I am, &c.,
GERARD E. HERRING
(For Under Secretary).

No. 29.

J. H. Young, Esq., M.P., to The Secretary for Mines.

Sir, Sydney, 8 April, 1885.

I have the honor to enclose herewith a petition signed by a number of those interested, asking that the road applied for and reported on some time ago, connecting Glenthorne with the Taree Ferry Road, may be opened and proclaimed.

I am aware that there is a difficulty in opening this road in a straight line, as it would go too close to one of the homesteads; but I am informed that Mr. Hall, licensed surveyor, suggested an alternative road, if the proprietor in question objected, and seeing that so many of the residents are anxious to have the road opened, I trust you may see your way to sanction it.

I have, &c.,
J. H. YOUNG.

Acknowledge, 9 April, 1885.—G.E.H. (for Under Secretary). J. H. Young, M.P., informed, 10 April, 1885.—G.E.H. (for Under Secretary).

The writer appears to have been misinformed on the subject. The surveyor's reports are to the effect that no road other than the one in question (which has been refused) would be suitable; that it passes along a high bank with low ground on both sides; that it is the only high ground on the farms, upon which all the houses, farm-yards, &c., are built; that all the settlers would strongly object to a public road so close to their dwellings, but would not object to a road being opened through their lands 150 yards south of their dwellings, but the surveyor could not recommend it, the ground being low, and a road there could not be travelled in very wet weather. Probably applicant might be so informed.—A. J. STOPPS (for Surveyor-General), 6th June, 1885.

Submitted.—G.E.H. (for Under Secretary), 9/8/85. Approved.—J.A., 12/6/85. J. H. Young, M.P., informed, 17th June, 1885. The Surveyor-General, B.C., 17th June, 1885.—G.E.H. (for Under Secretary).

[*Enclosure.*]

To the Honorable the Minister for Mines,—

The petition of the undersigned residents of Glenthorne and neighbourhood humbly showeth,—

1st. That in the year 1881 a petition was presented by us praying that a road might be opened to connect Glenthorne with the Taree Ferry Road.

2nd. That Mr. Surveyor Hall surveyed and reported upon it favourably.

3rd. That until the present time the road has not been opened for traffic nor proclaimed.

4th. That the locality of Glenthorne contains a large number of inhabitants, who, to go to Taree, the nearest Post town, have to make a detour of about 4 miles over a very bad right-of-way.

5th. That the opening of the road is urgently needed, and would be of great convenience to your petitioners.

Your petitioners therefore pray that you will give this petition your favourable consideration, and grant to your petitioners such relief as may in your discretion appear desirable.

And your petitioners will ever pray.

JAMES TROTTER, Glenthorne.
WILLIAM WATT.
R. BELFORD, Glenthorne.

[Here follow forty-four other signatures.]

No. 30.

The Under Secretary for Mines to J. H. Young, Esq., M.P.

Sir, Department of Mines, Sydney, 10 April, 1885.

I have the honor to acknowledge the receipt of your letter of the 8th instant, forwarding a petition from certain residents of Glenthorne for the opening of a road from Glenthorne to the Taree Ferry Road, and to inform you that the matter shall receive immediate attention.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 31.

The Under Secretary for Mines to J. H. Young, Esq., M.P.

Sir, Department of Mines, Sydney, 17 June, 1885.

With reference to your letter of the 8th April last, forwarding a petition for the opening of the road to connect Glenthorne with the Taree Ferry Road, and stating that you were apprised that Mr. Licensed-Surveyor Hall suggested an alternative road, if the one reported upon was objected to as being too close to a dwelling-house, I am directed by the Secretary for Mines to inform you that the surveyor's reports are to the effect that no road, other than the one which has been refused, would be suitable; that it passes along a high bank with low ground on both sides; that it is the only high ground on the farms, upon which all the houses, farm-yards, &c., are built; that all the settlers would strongly object to a public road so close to their dwellings, but would not object to a road being opened through their land 150 yards south of their dwellings, but the surveyor could not recommend it, the ground being low, and a road there could not be travelled in very wet weather.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 32.

Petition.

To the Honorable the Minister for Mines, Sydney,—

The humble petition of the undersigned residents of Glenthorne and Purfleet and others respectfully showeth:—

That the residents (thirteen families) upon J. Corlette's grant of 647 acres, now known as Glenthorne, on the right bank of the Manning River, county of Gloucester, are entirely without any mode of egress or ingress, except through private property, the said grant being bounded on the south by J. R. Brennan's 1,555 acres, on the west by W. Caswell's 1,280 acres, and on the east by J. R. Brennan's 1,005 acres, through or along the boundaries of which no public or reserved road exists, and that the residents (eight families) upon the eastern portion of said W. Caswell's 1,280 acres, now known as Purfleet, are in a like position. See Appendix No 4.

That Taree is the nearest town, and the place where the business of the aforesaid residents is principally conducted, and that to reach Taree, which in a direct line is distant less than 1 mile, the aforesaid residents have now to go a large part of the way through private property, and traverse a distance of 3 miles and 36 chains, to their serious loss and inconvenience, as also of those visiting the locality for business or other purposes.

That upon the said Corlette's grant there is a road forming three sides of a square, as shown upon accompanying plan, which the owners of the land through which the said road passes have dedicated, and which they are desirous of having proclaimed a public road; and that a public road passes through said Caswell's 1,280 acres, from the Tinonee and Bohnock Road to the Taree Ferry.

That a road to connect the said road on Corlette's grant with the said public road through Caswell's 1,280 acres, as indicated by the red lines upon the accompanying plan, is urgently required by the said residents, and that the length of the said road is about 68 chains.

Your Petitioners, therefore, pray that you will be pleased to take into your consideration the foregoing facts, and cause a public road to be opened from the western boundary of said Corlette's grant, at a point near where is situated the Wesleyan Church, through part of Caswell's 1,280 acres connecting the said road upon Corlette's grant with the public road from the Tinonee and Bohnock road to the Taree Ferry.

And your petitioners, as in duty bound, will ever pray.

JOHN TROTTER.
JAMES TROTTER,
ROBERT BELFORD,
} Glenthorne.

[*Here follow forty-one other signatures.*]

For report. I think the best road that can be got should be given, as clearly a road is required.—J. P. Abbott, 25/9/85. Acknowledge, 28/9/85. Acknowledged.—G.E.H., 28/9/85. The Surveyor-General.—G.E.H. (for U.S.), B.C., 28/9/85.

The road herein referred to has been surveyed and preliminarily notified, but as it passes within the prescribed distance of D. M'Lellan's dwelling-house, and cannot be deviated; and as, moreover, the owners of the land through which it passes strongly object to its establishment as a public road, although quite willing to allow the persons interested a right-of-way, it has been decided not to confirm it. (*Vide* Roads S.-G.O., 81-56/9, 81-56/12, 81-56/17, herewith.) The circumstances of the case do not appear to have altered in the least, or to justify the recommendation of a departure from previous decisions.—A. J. Stopps (for Surveyor-General), 29/10/85.

Submitted.—G.E.H. (for U.S.), 31/10/85. Approved.—J. P. Abbott, 31/10/85. J. Trotter, R. Belford, J. Ladd, and others informed, 4/11/85. The Surveyor-General.—G.E.H. (for U.S.), B.C., 5/11/85.

No. 33.

The Under Secretary for Mines to Messrs. J. Trotter, R. Belford, J. Ladd, and others.

Gentlemen, Department of Mines, Sydney, 4 November, 1885.

With reference to your petition for a road from the western boundary of Corlette's grant, near the Wesleyan Church, through part of Caswell's 1,280 acres, to connect with the Tinonee and Bohnock Road to the Taree Ferry, I am directed to inform you that the road referred to has been surveyed and preliminarily notified, but as it passes within the proscribed distance of D. M'Lennan's dwelling-house, and cannot be deviated, and as the owners of the land through which it passes strongly object to its establishment as a public road, although quite willing to allow the persons interested a right-of-way, it has been decided not to confirm it.

I have, &c.,
GERARD E. HERRING
(For the Under Secretary).

No. 34.

Messrs. J. H. Young and C. J. Roberts, Esqs., M's.P., to The Secretary for Mines.

Sir, Sydney, 2 July, 1886.

We have the honor again to bring under your notice the necessity of opening a public road from the western boundary of Corlette's grant, near the Wesleyan Chapel, through part of Caswell's 1,280 acres, to connect with the Tinonee and Bohnock Road to the Taree Ferry.

Your last letter on the subject was dated 4th November last, and is numbered 85-2,978 Roads, and in it you stated that the road would pass within the proscribed distance of D. M'Lennan's dwelling-house, and cannot be deviated.

We

We are now informed that Mr. D. M'Lennan will make no objection to its going close to his dwelling-house, and are requested to urge its being confirmed, as, though some of the local landowners are willing to allow a right-of-road, others object, and those who travel over it are thus liable to be treated as trespassers or stopped.

We are, &c.,

J. H. YOUNG.
CHARLES J. ROBERTS.

Acknowledge.—G.E.H., 5/7/86. J. H. Young and C. J. Roberts, M's.P., 5/7/86. The Surveyor-General.—G.E.H. (for the U.S.), B.C., 5/7/86.

It is recommended that Messrs. Young and Roberts, M's.P., be informed that upon their obtaining Mr. M'Lennan's written consent to allow the road as surveyed to be taken through his land, the necessary action towards confirmation and opening of such road, will be taken.—A. J. STOPPS (for Surveyor-General), 15/7/86. Approved.—H.W., 20/7/86. J. H. Young, M.P., C. J. Roberts, M.P., informed, 22/7/86. Remind, 29/10/86. J. H. Young and C. J. Roberts, M's.P., reminded, 8/11/86.

We are informed, however, and we believe some surveyors' reports, already in your Department will show that there can be found an equally good and convenient road a little further back from the river bank, and we have the honor to request that this road may be opened for the use of the applicants.

Yours, &c.,
J. H. YOUNG.
CHARLES J. ROBERTS.

Acknowledge.—G.E.H., 13/11/86. Acknowledged, 13/11/86. The Surveyor-General.—G.E.H. (for Under Secretary), B.C., 13/11/86.

The misconception as to the surveyor's report, suggesting another road as practicable, has been reported upon by the Surveyor-General. (*Vide* S.-G.O., 81-56/17 Roads, Mines, 85-1,225.) As nothing further can be done towards opening a road, papers may be put away.—A. J. STOPPS, 30/11/86. Records.

No. 39.

C. J. Roberts and J. H. Young, Esqs., M's.P., to The Secretary for Lands.

Sir, Sydney, 31 December, 1887.

We have the honor to enclose herewith a petition, asking that a public road may be opened through the Purfleet estate, as shown by the accompanying plan,* and we shall be glad if the request of the petitioners can be granted. *See Appendix No. 5.

There have been several other petitions and much correspondence on this subject before, all showing that the road would be a very great convenience to many.

Yours, &c.,
CHARLES J. ROBERTS.
J. H. YOUNG.

Inform Mr. Young, M.P., that the papers, petitions, &c., have been forwarded to the Lands Department, who now deals with all such matters.—F.A., 5/1/88. Informed, 6/1/88. The Under Secretary, Department of Lands.—G.E.H. (for Under Secretary), B.C., 6/1/88.

This road has been surveyed and preliminarily notified, but cannot be confirmed, because it passes within the forbidden distance of Mr. D. M'Lennan's dwelling-house, and is objected to by him and other owners, nor can it be deviated on account of the nature of the ground. The people interested are, however, allowed to travel on sufferance, the owners merely objecting to the legal establishment of the road as a public road, so that the hardship of the people is not a very serious one. (See decisions on Roads, 81 56–9, 12–17–19, herewith.) It is recommended that Messrs. Roberts and Young, M's.P., be informed accordingly.—A. J. Stopps (for Surveyor-General), 25/2/88. The Under Secretary for Lands.

Submitted.—S.F., 27/2/88. Submission approved.—T.G., 27/2/88. The Hon. C. J. Roberts, Esq., C.M.G., M.P., the Hon. J. H. Young, Esq., M.P., informed, 1/3/88.

[*Enclosure.*]

To the Honorable The Minister for Mines, Sydney,— Glenthorne, 19 December, 1887.

The Petition of the undersigned residents of Purfleet and Glenthorne respectfully showeth :—

1st. That there are no public roads through Purfleet and Glenthorne, except the Taree to Forster and Redbank Road, and therefore they are unable to send their children to school, or their produce to market, without trespassing upon their neighbour's land.

2nd. That Mr. Inspector Willis has, on behalf of the Public Instruction Department, approved of a site for a public school at Purfleet, but he states that unless a road is proclaimed, his Department cannot build a school upon the land.

3rd. That some years ago Mr. Licensed-Surveyor Hall, by direction of the Survey Office, measured a road half a chain wide through Purfleet, but the road in question has not yet been resumed.

4th. That the attached is a tracing of Purfleet and Glenthorne, and shows the road measured by Mr. Hall, proposed site for public school, wharf, number of inhabitants, &c.

5th. That the road, as measured by Mr. Hall, or another in lieu thereof, is urgently required by your Petitioners. And trusting that you will cause immediate steps for its resumption to be taken, your Petitioners, as in duty bound, will ever pray.

T. D. TROTTER, Glenthorne.
JOHN ROBINSON, Glenthorne.
JOHN LADD, Glenthorne.

[*And* 14 *others.*]

No. 40.

The Under Secretary for Lands to C. J. Roberts and J. H. Young, Esqs., M's.P.

Gentlemen, Department of Lands, 1 March, 1888.

With reference to the petition of certain residents of Purfleet and Glenthorne (presented by you) for the opening of a road through the Purfleet estate, I am directed by the Secretary for Lands to inform you that the road in question has been surveyed and preliminarily notified, but cannot be confirmed, because it passes within the prescribed distance of Mr. D. M'Lennan's dwelling-house, and is objected to by him and other owners, nor can it be deviated on account of the nature of the ground.

The people interested are, however, allowed to travel on sufferance, the owner merely objecting to the legal establishment of the road as a public road, so that the hardship of the people is not a very serious one.

I have, &c.,
STEPHEN FREEMAN
(For the Under Secretary).

No. 41.

C. J. Roberts and J. H. Young, Esqs., M's.P., to The Secretary for Lands.

Sir, Sydney, 3 May, 1888.

We have been requested to again make application that a road may be opened through the properties known as Glenthorne and Purfleet, on the Manning River. The many letters and petitions already sent in on the subject sufficiently show that it is urgently required, and we are assured by those interested that a suitable road is available outside the proscribed distance from the homestead of those gentlemen who protest against its being taken along the bank of the river.

We are, &c.,
CHARLES J. ROBERTS.
J. H. YOUNG.

No. 42.

Memo. from The Surveyor-General to The Under Secretary for Lands.

Part of Road, Glenthorne to Taree Ferry.

12 May, 1888.

FROM reports received it appears that the traffic on the proposed road would be purely local, and not of a character that would justify the opening of it under 4th William IV., No. 11.

In 1881, it was surveyed 50 links wide, on the understanding that the landowners would waive their objections; but that proved not to be the case, and objections were urged, consequently the Crown declined to open the road, and has refused to do so on each subsequent revival of application.

In addition to the fact that the road is not, and can never be, of general public importance, is the fatal one that the road is within the proscribed distance of Mr. M'Lennan's house, and the owner of the land objects. Moreover, it has been reported that the conformation of the land will not permit of a deviation being adopted that shall be beyond the proscribed distance.

Application has again been made for a road by Mr. J. H. Young, M.P., and Mr. C. J. Roberts, M.P., and again they state that they are assured that a suitable road is available outside the proscribed distance of the homesteads of those persons who protest against the opening of the surveyed road.

In view of all the circumstances, it is submitted for direction whether any further report of a surveyor be obtained.

A. J. STOPPS
(For Surveyor-General).

A further report may, perhaps, be obtained.—S.F., 17/5/88. Approved.—T.G., 18/5/88. The Hon. C. J. Roberts, C.M.G., M.P., informed, and the Hon. J. H. Young, M.P., informed.—21/5/88.

No. 43.

The Under Secretary for Lands to C. J. Roberts and J. H. Young, Esqs., M's.P.

Gentlemen, Department of Lands, Sydney, 21 May, 1888.

With reference to your letter of the 3rd instant, again applying for the opening of a road through the properties known as Glenthorne and Purfleet, on the Manning River, I am directed to inform you that the Secretary for Lands has approved of a further report being obtained from the surveyor.

I have, &c.,
STEPHEN FREEMAN
(For the Under Secretary).

No. 1.

T. H. H. Goodwin Esq., M.P., to The Commissioner for Roads.

Sir, Legislative Assembly, Sydney, 17 September, 1887.

I beg to point out to you that through the recent heavy rains the crossing on the Namoi River, between Carroll and Tulcumbah, has been rendered almost impassable.

May I suggest Mr. Road-Superintendent Cox be asked to report on this matter with a view of remedying the dangerous state of the crossing that at present exists.

I have, &c.,

THOMAS H. H. GOODWIN.

Roads.—J.R., B.C., 20/9/87. Mr. Cox, please report.—W.B., 21/9/87. With flood heights here there is no place where a very small bridge would span the river.—W.B., 21/9/87. For inquiry, 19/9/87. Received, 25/11/87. H.H.C., 28/11/87. Report sent in on this subject on 10/11/87. Resubmit report.—W.B., 29/11/87. Records, 29/11/87. To be resubmitted when papers are returned from Survey Department, 2/1/88.

[830 copies—Approximate cost of printing (labour and material), £14 19s. 10d.

No. 2.

H. Levien, Esq., M.P., to The Commissioner for Roads.

Sydney, 22 September, 1887.

Sir,

Re state of road Gunnedah to Tulcumbah.
Re state of road near Carroll, near the river.

I have the honor to enclose you a letter received by me from Mr. Irving Winter, with reference to the two portions of road mentioned in the margin, and I desire that you would kindly have something done in these matters. Hoping to have a favourable reply.

Yours, &c.,
HENRY LEVIEN.

Acknowledge receipt. Mr. Cox, for report. W.B., 23/9/87. Mr. Cox, B.C.—Acknowledge, 23/9/87. Report herewith.—H.D.C., 10/11/87.

[*Enclosure.*]

Tulcumbah, Carroll, 11 September, 1887.

Sir,

Will you kindly draw the attention of the Under Secretary for Roads and Bridges to the condition of roads between here and Gunnedah. The road on this side of the river (the right bank) at a point distant about 10 miles from here is in a very bad state, being boggy and very much cut up. As this particular spot is in a lane it is impossible to avoid the bad road, which has been under water for some months past. This road is used by the residents of this side of the Namoi, in conjunction with the Gunnedah bridge, in the time of floods, and when the river is uncrossable.

I would also call your attention to the crossing at the river on the (Carroll Road) other road which has been so much washed away, and has become so deep that it is impossible to cross even at low water level.

This road is very much used by the residents of this district, and is a shorter route to Gunnedah than the one mentioned above. There is always a great deal of traffic on both roads, and by speaking in favour of their improvement you will confer a great favour on

Yours, &c.,
IRVING WINTER.

R. H. Levien, Esq., M.P., Elizabeth-st., Sydney.

Telegram from Mr. Road-Superintendent Cox to The Commissioner for Roads.

Gunnedah, 10 November.

WILL write report to-night and send it to-morrow's mail. A good road can be had over the lowest gap with an expenditure of £1,000, which will shorten the distance some 6 or 7 miles, and save the crossing of river at Carroll's by bringing road out at Cohen Bridge. I would have sent in report before only I have been twice to Normanstone Well since visiting with Mr. Winter.

HARLEY D. COX,
Road Superintendent.

Are there any papers? Mr. Cox, send copy of this message to Mr. Goodwin.

No. 4.

Mr. Road-Superintendent Cox to The Commissioner for Roads.

Gunnedah, 10 November, 1887.

ON the 4th I drove out from here to Tulcumbah, crossing the Namoi River where marked "present crossing" in red, and find that it is, as Mr. Winter says in his letter, very deep, although down to summer-level. My trap is unusually high, and the water was up to within an inch or so of the floor. On the next day I went out on road towards Gunnedah, over Lowe's Gap, and find there is no difficulty in the way of making a road over it; of course it will require side-cutting, and I should say £1,000 to £1,500 would make a road over it. I have marked it approximately in red. From the gap the road could be brought on to reserve No. 113; then down that to the road left between portions 203, 233, and 44, 45, 46, 47, and 232, parish of Weetalibah, county of Nandewar, or to the road nearer the river, between portions 128, 129, and 125, 126, 127, 231, same parish. Both these roads are included in an application of Mr. Wills Allen's to buy roads as marked in blue. I would ask that caveat be lodged against these two roads being purchased until the direction of this road is decided; have marked the road used *via* Carroll in blue so the Commissioner will see the great saving in distance as well as doing away with the necessity of a bridge at this at present nasty crossing. There are some farmers living on Tulcumbah side of river, viz., Lydd, O'Brien, Kelly, and others who cannot get out when river is flooded, except by following almost round the river to the bridge, which road is almost as long as going round by Carroll, and on this road I believe there is a very bad lane. When speaking of this road in head office the Commissioner spoke of a bridge over the river; it would cost as much to put a bridge as the one in Gunnedah; the good place for a bridge the Commissioner mentioned must I think have been at the junction of the Namoi and Peel, some distance further up the river, but this would not serve the purpose as there would then be the Peel to cross. If a bridge is at any time to be built in this locality if built over the Namoi here, and this road is made into Gunnedah, the settlers between the two rivers would have no difficulty in getting to the railway at Gunnedah whether the river was in flood or not, and at this point both banks of river are above flood level and the river is not very wide. If this road over Lowe's Gap is decided on I would recommend that where possible it be left 3 or 5 chains wide.

Not one of these men would travel Howe's Gap Road if £20,000 were laid out on it. I have their personal assurance of this.—A.D.
See my map and distances quoted in report and on plan.—A.D.

HARLEY D. COX,
Road Superintendent.

Plan under separate cover.—H.D.C.

This road will save one if not two expensive bridges. I would advise an outlay on it, but it is best in the first instance to send papers on to Lands to prevent alienation of roads specified to Mr. Wills Allen; it is a very urgent matter.—W.B., 12/11/87.

Under Secretary, B.C. Forward to Lands.—J.L., 16/11/87. Under Secretary for Lands, B.C.—J.R., 16/11/87. Urgent. Mr. Dewhurst is requested to report as to the necessity for this road in the interests of the public.—A. J. STOPPS (for Surveyor-General), 28/11/87. A. Dewhurst, Esq., District Surveyor. Reported on February 3rd, 1888/21.—A. DEWHURST.

No. 7.

Office Memorandum.

Sydney, 31 January, 1888.

Subject:—Road Gunnedah to Tulcumbah.

THE above-mentioned papers were sent to Mr. District-Surveyor Dewhurst on 30/11/87 for report.

Will the Under Secretary for Lands be good enough to expedite their return as they are urgently required by this Department.

For Commissioner,
P. H. FLYNN,
Chief Clerk.

The Under Secretary for Works, for transmission to Lands, B.C. B.C., Under Secretary for Lands.—J.R., 1/2/88.

No. 8.

Mr. District-Surveyor Dewhurst to The Under Secretary for Lands.

Sir, District Survey Office, Tamworth, 3 February, 1888.

On representations made by the Road Superintendent, Gunnedah, 28th December, 1887, I have been directed to report whether in the public interest it is desirable to survey and open a road through Howe's Gap, in the parish of Gunnenbene, county of Nandewar, with a view to the further expenditure of a very large sum of public money to make it fit for vehicular traffic. Appendices A. B.

Before offering my opinion in this matter it seems desirable briefly to review the correspondence relating to roads of access in this parish, more particularly the determination of the Commissioner arising out of the reports of his local officer.

In the first instance Mr. Winter, of Tulcumbah, writes to Mr. Levien, M.P., directing his attention to the bad state of the existing road from Gunnenbene to Gunnedah, also to the deepening of the Carroll crossing, which is a serious inconvenience to adjacent residents.

This letter Mr. Levien encloses to the Engineer for Roads (in Chief), requesting "he will kindly have something done in the matter," on which Mr. Road-Superintendent Cox is ordered to report on the subject complained of.

The latter proceeds to Tulcumbah, then telegraphs his Chief as follows:—"A good road can be got over Howe's lowest gap with an expenditure of £1,000 which will shorten the distance some 6 or 7 miles and save the crossing of river at Carroll."

And he finally transmits a report, *not* that he has inspected the road complained of by Mr. Winter with a view to its improvement, but *that he has discovered a new* track *so direct* that with an expenditure of from £1,000 to £1,500 about one-third of the distance now travelled by what would at first sight appear to be a large number of persons would be saved.

The Commissioner, naturally pleased with this intelligence, at once adds a minute to the effect that this line will save the erection of costly bridges, advises an outlay on it, and opposes the sale of roads applied for by Mr. Wills Allen, which I am responsible for reporting useless.

The matter is then referred to the Department in which I have the honor to be employed, and submitted to me for report as to *the necessity* for this road just discovered by Mr. Cox, in *the interests of the public* explained by my leading paragraph.

In compliance with my instructions I have now the honor to state without the slightest hesitation that public interests would not be served by the opening of this alternative route from Gunnenbene to Gunnedah, although Mr. Winter assures me it would be a great convenience *to him*. As

As in the matter of roads in this district (with which no person living can be as familiar as myself) my opinion has been so little respected that large sums of money are being expended where I am satisfied none should be laid out, it seems positively incumbent on me to give some out of the many reasons which attend my judgment in this case.

In the first place I am reluctantly compelled to deny the extraordinary statement that a road through Howe's Gap will save the residents of Gunnenbene 6 or 7 miles travelling between their homes and Gunnedah (about one-third of the distance at present traversed).

Secondly,—That the expenditure of £1,000, or the larger estimate of £1,500, would make this road fit for vehicular traffic.

Thirdly,—That the public require the road or would use it if constructed and maintained at any cost whatever to the country.

Fourthly,—That if made and opened for traffic it would in the least possible degree affect public requirements, present or future, for a bridge or bridges across the rivers Namoi or Peel, above Gunnedah.

In proof of my first I most respectfully draw your kind attention to the enclosed illustrative tracing, or even Mr. Cox's plan, which itself contradicts his assertion.

Of my second,—The nature of the country between Gunnenbene and Gunnedah, *via* Howe's Gap, with which I have, of course, been acquainted for years, and carefully traversed a few days ago.

Of my third,—Statements and protests against this road made by the very persons Mr. Cox states are favourable to its opening, and with two exceptions repeated by every settler in the vicinity.

Of the fourth,—That a road *via* Howe's Gap, even if it could be utilised, does not affect the questions which should arise in consideration as to the necessity, present or future, of erecting bridges across the rivers Peel and Namoi.

Little further need be added to the information I have carefully noted down on the enclosed tracing, although I am ready if called on to describe most minutely the difficult, heavy, and *treacherous* country which this road approved by the Commissioner must traverse.

Again, I can produce the leaves of my note-book and letters, showing in every case the words used by each settler, deprecating an expenditure so opposed to their interests and so useless.

As to the question of bridges, about which, judging from Mr. Cox's letter, there seems to be the greatest confusion, it is a subject requiring careful investigation and *calm consideration*, touching, as it does, the public purse and so many interests, that if not cautiously dealt with may result in another exhibition, such as the iron structure in the vicinity of Boggabri.

See tracing. Although outside of the report I am called on to make, I venture to add, in the interests of the settlers with whom I have been in communication, a recommendation that a sum of not less than £200 be devoted to the improvement of the present road on the north side of the river from Gunnenbene to

See tracing. Gunnedah, rounding the point of Cow Mountains, at portions 10 and 15, parish of Boorobil, and at the low-lying place on the same, which is about 1 chain wide between portions 22 and 27.

If this is done public requirements in that direction will be met, and Mr. Winters' most reasonable request, which Mr. Cox seems to have absolutely overlooked, will meet with a favorable response.

I have, &c.,
A. DEWHURST.

The District Surveyor reports unhesitatingly that the public interests would not be served if the suggested road via Howe's Gap were opened. The report is forwarded for the information of the Commissioner and Engineer of Roads without loss of time, but the illustrative tracing referred to herein has not been received and the District Surveyor has been asked by telegram to send it.—A. J. STOPPS (for Surveyor-General), 9/2/88. The Commissioner and Engineer of Roads.

Litho. and tracing herewith received since above minute was written. Telegram withdrawn. Copy of litho. with map.—W.B., 5/3/88.

No. 9.

J. P. Abbott, Esq., M.P., to The Commissioner for Roads.

Sir, 6 & 7 Wentworth Court, Sydney, 17 February, 1888.

I have the honor to enclose to you a petition from some of the residents of the neighbourhood against the opening of a road from Gunnenbene via Tulcumbah to Gunnedah.

I have also to urge that the bridge suggested should be erected, as it could I am assured be done cheaply, and there is no doubt it would be a very great advantage.

I have, &c.,
J. P. ABBOTT.

[Petition signed by J. G. Dight and others.]

Acknowledge receipt; state that a special officer will be sent to report.—W.B., 20/2/88. Acknowledged, 21/2/88. Resubmit, 21/2/88.

[*Enclosures.*]

To the Honorable the Minister for Lands.

The Petition of the Inhabitants of Carroll, Gunenbene, and the surrounding Districts,—

HUMBLY SHOWETH,—

That it has come to their knowledge that some persons are desirous that the new road should be formed from Gunenbene and Tulcumba to Gunnedah via Howe's Gap, and that a petition hath been presented to your honourable self requesting the formation of such road.

That your Petitioners humbly beg to state that should such a road be formed it would be highly detrimental to their interests, and further, that the proposed new road would be very costly in construction, the Mountain Gap called (as beforementioned) Howe's Gap having to be cut through and road formed.

Your Petitioners would respectfully suggest that instead of the costly work of forming the aforesaid new road (which will benefit very few) the present road from Gunenbene to Gunnedah on the northern bank of the river Namoi be repaired where required. The cost of such repair will be very trifling as compared to the outlay which would be necessary to the road through the beforementioned Howe's Gap, and also that the road from Gunenbene crossing to Gunnedah via Carroll be put in thorough repair.

And

And further, your Petitioners would humbly petition that you would cause a bridge to be erected over the Peel River on the present stock route, as a large traffic passes that way and the public are greatly inconvenienced by the want of such bridge.

And your Petitioners will, as in duty bound, ever pray, &c.

JAMES G. DIGHT, Grazier, Carroll.
C. H. DIGHT, Grazier, Clifton, near Carroll.
WILLIAM TURNER, Resident, Carroll.

[Here follow thirty-one signatures.]

Presented by J. P. Abbott, Esq., M.L.A., 16/2/88.

Road Gunnedah to Tulcumba.

I HAVE visited this road, and find that Mr. Cox's statement that a practicable road at easy grades can be made over Howe's Gap is true, and as the sidling is not heavy, and loose stones only, I believe Mr. Cox's estimate of £1,500 to be not far out to open the road over it.

Mr. Cox, when stating the distance to be saved, was unaware that the line marked blue on Mr. Dewhurst's map had been opened, and believed the old one by the river bends was the only one available. It is evident that the new line (blue) between Perrett's portion 151 and Dight's portion 20 has only quite recently been in use. The saving in distance by road over Howe's Gap is therefore, under these circumstances, not nearly so great as Mr. Cox thought it would be.

As this road is only used by the Tulcumbah settlers during flood-season I cannot recommend the adoption of the new road over Howe's Gap, as I do not think the saving of 2 miles warrants the expenditure of even £1,500. There are also settlers along the existing blue line, whose every-day road it is, who would derive no benefit from the deviation.

In fair weather the Tulcumbah settlers have an excellent road *via* Carroll's that, as long as the river was crossable, they would certainly never desert for a road over Howe's Gap.

The river crossing has filled in again considerably since Mr. Winter complained of its condition. Mr. Cox informs me at that time in clear water it was 3 ft. 4 in. deep as measured on the wheels of his trap yesterday ; it was in fresh, the water running turbid when it was only up to the girths of small horses, or 2 ft. 6 in. deep.

The approaches cut down by Mr. Winter by means of a grant issued to him are very good, and creditably done, and I can see nothing further required at this point, Mr. Cox having arranged for approaches being kept good. As I cannot recommend the adoption of the gap deviation I think something should be done to the worst places on the blue line, viz., the sidling round the foot of the Cow Mountain, and a boggy length in the lane which, although only a chain or two in extent, is evidently almost impassable in winter. I recommend that a grant of £250 be given to Mr. Cox to remedy.

F. WELLS,
Assistant Engineer Roads.

The Commissioner for Roads, 15/3/88.

Will Commissioner Wells please report if the objection to the purchase of road by Mr. Wills Allen can be withdrawn.—W.B., 20/3/88.

I see nothing in the papers to show what roads Mr. Wills Allen wishes to purchase. As long as the line in blue on map is left open all the requirements of this Department will be met. I think, however, in this country it would be advisable to leave such a road 3 chains in width. The question otherwise rests with the Lands Department and Stock Branch.—F.W., 20/3/88.

I now send papers for transmission to Lands.—W.B., 21/3/88. Under Secretary, B.C.

No. 10.

Office Memorandum.

Roads, Sydney, 21 February, 1888.

Road Gunnedah to Tulcumba.

MR. ALFRED BACON called at this office to urge that immediate steps be taken for the formation of road, Gunnedah to Tulcumba, as the river is up, and it is impossible for stock to pass through.

The Commissioner for Roads. W.B., 21/2/88.

No. 1.

Mr. A. Bathgate to A. Stokes, Esq., M.P.

Dear Sir, Forbes, 8 August, 1887.

Being the contractor for No. 2 Southern Cross to Eugowra, Orange Road, I have been delayed in completing same by reason of five weeks rain and floods, during which time it was impossible to do any carting whatever, as the road where the metal was to be placed was under water. Under these circumstances I applied to the local Superintendent for an extension of time, say two months, and received an answer of not a single day.

I enclose a memo. received from local Road Superintendent with reference to my employing a man named Reid to do breaking for me. It appears that the Road Superintendent and Reid had some difference, whilst he was in another contractor's employ, and hence he tried to prevent my employing Reid to do any work, although I found him a competent workman, and well able to do his work. This I consider most tyrannical conduct on the part of Mr. Adams, which I wish you to bring under the notice of the Roads Department, as well as the question of an extension of time, and I think you will infer from this notice that the local Superintendent will approach any metal of mine with a prejudiced and made up mind.

Please return Mr. Adams' notice, as I may have further use for it.

I remain, &c,,

ALEXANDER BATHGATE.

No. 2.

Minute by The Commissioner for Roads.

As to Bathgate's complaint.

Sydney, 12 August, 1887.

Mr. Stokes, M.P., has called to this office and left the accompanying letter from one of Mr. Adams' contractors, to this effect :—

Roads Office, Forbes, 6 August, 1887.

You are cautioned against employing Reid as stone-breaker. If your metal is not the soundest and best procurable within specified distance, *mark the consequence.*"

It is a wrong way to write to these men, and leads to the conclusion expressed. Mr. Adams should have pointed out the reason for not allowing this man on the work—that he had disobeyed orders, or did bad work. Now he had better not press Bathgate, but get him to finish his work. Mr. Adams' own note, which I saw, will strengthen this man's allegations. I know them to be fabrications, but we have too much to do to have all this friction.

Mr. Stokes states that on another occasion Mr. Adams ordered a man out of his office that had come 10 miles in to see him.

Mr. Adams, as I have before said, is a good officer, but he must deal more quietly, though not a whit less firmly, with these men.

W.C.B., 12/8/87.

Mr. Adams.—B.C., 13/8/87. Report on Bathgate's contract herewith. The man whom I was obliged to order out of the office is one of the most offensive and troublesome contractors I have to deal with. His business was transacted when ordered out.—A. A., 19/8/87. Telegraph Mr. Adams to order Bathgate to square up, and measure his work, and take any measures necessary for prompt supply.—W.C.B., 22/8/87. Telegram sent.—22/8/87. Send copy of Mr. Adams' letter and this memo. to Mr. Stokes, and inform him that he has been ordered to wind up Bathgate's work, and take other steps to get material for road.—W.C.B., 22/8/87. Mr. Stokes, M.P., informed.

No. 3.

Mr. Road-Superintendent Adams to The Commissioner for Roads.

Report on Bathgate's Complaint.

Roads Office, Forbes, 19 August, 1887.

It was on my return from the Southern Cross, after inspecting some of the stone coming from the hands of this man Reid, that I gave expression to the note of which Contractor Bathgate complains.

I was prompted to do so in consequence of finding the stone which Reid had broken for Contractor Smith composed of a large percentage of quarry grit and rubbish, with ballast of turnip size in the body of the heaps.

On a former occasion Bathgate was warned against employing this man, and for reasons then explained. He took no notice of this advice, but went straight off and employed him. It will be seen therefore that the memo. in question was written purely in the interest of the contractor, and which he has apparently failed to see. I therefore beg to submit that, in the face of the foregoing, it is a matter of indifference to us what the contractor does with it.

Apart from this cause altogether, did Bathgate abandon the work?

He did not even refer to the note when last at this office, nor yet of detention by flood, which he knew would be at once contradicted, but came demanding an extension of time, which, in justice to other men, was declined.

It was my instructions to insist on the employment of "full numbers."

This man did not hurry himself, and the half of his contract time had expired before a single stone was broken at Eugowra. He wrought a week after the expiration of specified time, nevertheless half the stone is not out. Both the maintenance men have been calling out time after time for stone, with which to carry on repairs, and if material is not in supply for their use, my power over them evaporates for the time being.

The wool season is about to set in, and, if Bathgate's time is extended, it will be three months before any stone is available for repairs, and not an ounce in supply. If this extension is granted I am convinced that we shall have similar applications from other quarters, and an example of one should be a lesson to all.

Did these circumstances not prevail, I should have allowed Bathgate some consideration, and now, since the Commissioner has heard both sides of the question, I think he will see sufficient cause to justify my action.

In conclusion I would take the liberty of suggesting that Bathgate be asked to square up what stone he has out, have it measured, and close with him at once. We could then have this material to keep up the road in the meantime, and let fresh contract for remainder when required.

ALEX. ADAMS,
Superintendent of Roads.

No. 4.

Telegram from The Commissioner for Roads to Mr. Road-Superintendent Adams.

Sydney, 22 August, 1887.

Order Bathgate to square up, and measure his work, and take any measures necessary for prompt supply.

P. H. FLYNN
(For Commissioner).

No. 5.

The Commissioner for Roads to A. Stokes, Esq., M.P.

Department of Public Works, Office of Commissioner
and Engineer for Roads, Sydney, 30 August, 1887.

Sir,

With reference to Mr. Bathgate's letter presented by you, complaining of not being allowed an extension of time for performance of his contract, &c., I have to enclose a copy of a memorandum addressed to Mr. Adams by me, and also a copy of his report on the subject, and to inform you that Mr. Adams has been ordered to wind up Bathgate's work and take other steps to get material for road.

I have, &c.,
P. H. FLYNN
(For Commissioner and Engineer for Roads).

No. 6.

Extracts.

Extracts from monthly reports *re* works in Forbes district. (A. Adams, Road Superintendent).

A. Bathgate, contractor.—2q Orange to Forbes.—800 cubic yards metal.—Bond signed, 14/5/87.—Work to be completed in four months.

Report for May.—Maintenance contract for this year in hand, and progressing satisfactorily.

Report for July.—Contract 2 for supply of metal (2½-inch) for maintenance will be completed well within contract time. Bathgate, who has the latter contract, has had some little trouble with the breakers, the greater number of whom struck the other day for higher wages.

Commissioner's Minute:—I hope they did not get it. *Mr. Adams*:—No.

No. 7.

No. 7.

Mr. E. Leader to The Secretary for Public Works.

Sir, Forbes, 16 August, 1887.

I beg leave most respectfully to solicit the favour of an extension of time for the completion of a contract entered into by me for the supply and spreading of 750 yards of road metal for maintenance on the road from Orange to Forbes as per margin.

Section 1; road Orange to Forbes, between Murga and Toogong.

The circumstances which have forced me to make the somewhat unusual application, directly to yourself, are as follows:—

On the 7th of May last my tender for the contract alluded to, was accepted by Mr. Adams, the Superintendent for the district, and, although I was aware that the contract contained a proviso that the work should be completed in three months, yet I believed that as the weather had been for some time broken and unfavourable, the chances were for a change for the better, and I therefore signed the contract, remarking at the time that if the weather permitted I should be able to finish the contract within the specified time.

Since that time, contrary to my expectations, the weather has been unprecedentedly and continuously wet. The quarries from which I got my supply of stone have been repeatedly flooded out, and were often bailed out, only to be refilled within a few days, and as a consequence my time has expired, and I have only been able to supply on the road about 450 loads of the metal.

I have made respectful applications to Mr. Adams (who is well aware that all I have stated above is sober and unvarnished truth) for an extension of time to enable me to complete the work, buthe admits of no excuse, and absolutely refuses to grant one single day's extension of time, and has declared his intention to place men on my contract to finish it at my expense.

This course, if pursued, means absolute ruin to me, as I have a wife and six children dependent upon me for support.

I therefore humbly pray, honourable Sir, that you will take my case in this matter into merciful and just consideration, and grant me a reasonable extension of time, more especially considering that the weather is just now becoming more favourable for the rapid completion of the work.

I have, &c.,

Witness—W. THOMAS, J.P. EUGENE LEADER.

[Presented by A. Stokes, M.P., August 18th, 1887.]

No. 8.

The Mayor and others of Forbes to A. Stokes, Esq., M.P.

In support of Leader's request for an extension of time.

Dear Sir, Forbes, 16 August, 1887.

We, the undersigned residents of Forbes, respectfully request that you will kindly present the accompanying letter, a memorial from Eugene Leader, to the Minister for Works, and support the prayer contained therein, as we believe it will be a case of peculiar hardship, if the arbitrary determination of the Superintendent is carried out.

G. F. HUTCHINSON, J.P., Mayor.
JAMES MURPHY.
LAWRENCE KIRBY.
JOHN F. ARMSTRONG.
W. R. STONE, J.P.

I know that the roads have been covered with water, occasionally during the winter, and that of necessity it must have retarded completion of road contracts referred to.—A. STOKES, 18th August, 1887.

Mr. Bennett for immediate report.—J.S., 23/8/87. Acknowledged.—24/8/87.

No. 9.

Telegram from Mr. E. Leader to A. Stokes, Esq., M.P.

Eugowra, 23 August, 1887.

RECEIVED notice, Superintendent, cancellation my contract. Interview Commissioner for postponement for explanation.

E. LEADER.

Let me see Mr. Bennett about this at once.—J.S. Telegram sent Mr. Adams.—W.C.B., 24/8/87.

Resubmit with reply.

Telegram from The Commissioner for Roads to Mr. Road-Superintendent Adams.

Sydney, 24 August, 1887.

EUGENE LEADER applies through Mr. Stokes for extension of time. Minister wishes you to report to this office before taking any penal steps.

WILLIAM C. BENNETT.

No. 10.

Telegram from Mr. Road-Superintendent Adams to The Commissioner for Roads.

Forbes, 27 August, 1887.

OFFICE closed since Monday. Will report at once on Leader's contract for maintenance metal, Orange Road. Have just returned from inspecting and measuring same.

Put with papers.—W.C.B., 27/8/87.

No. 11.

No. 11.

Mr. Road-Superintendent Adams to The Commissioner and Engineer-in-Chief.

Roads Office, Forbes, 29 August, 1887.

On Tuesday last, the 23rd instant, Leader was advised of the cancellation of his contract, and also of my intention to inspect and measure same towards the end of week.

This has since been done, and with the result that all the heaps (twenty-four) will, with the exception of six, require to be reduced in gauge.

A large percentage of stone in each heap exceeds a 3½-inch gauge, not to speak of a 2½-inch.

In May last the quarry was visited where a portion of this stone was obtained. It was then seen that Leader's breakers were getting an inferior quality, which I afterwards informed him would not be accepted. I observe now that this same stone, or stone of a similar, if not a more inferior quality, has been carted on to the road, west from Murga, and squared in three heaps, which I declined to measure. All the other heaps were measured, but on the understanding that the stone be reduced in size. I should not have taped the stone at all, but for the urgent need of its application to the road. The maintenance men's time is, to a great extent, wasted for the want of material to use where required, and the present is the proper season to have it applied, in order that the moisture may assist in its consolidation prior to the inset of the dry weather.

On the Murga cuttings and on Whipstick Hill, the centre of the road, for want of material to keep it up, has, on account of the wheel-ruts, already become the water-table, and from this cause the rocks on the cuttings now protrude above the general surface to such an extent as to make it very irregular and unpleasant to travel on.

Considering that this contractor and his sureties undertook to have this work completed three weeks ago, that his stone, part of which has been condemned, has to be rebroken, carted out, and spread by him, not to speak of the demand for the material, it is thought he has already been very leniently dealt with. If, however, an extension of time be granted, I would respectfully suggest that it be limited exclusively to the time required to rebreak and apply the stone he has out, and to remove from the road that which has been condemned. He will then have exceeded his contract time by at least six weeks.

ALEX. ADAMS,
Superintendent of Roads.

No. 12.

Telegram from Mr. Road-Superintendent Adams to The Commissioner for Roads.

30 August, 1887.

Being away, I did not get wire of the 24th, *re* Leader's contract on Orange Road, until the 27th. Proceedings were taken on the 23rd. Report will be in the Commissioner's hands to-morrow. Contractor keeps his men at work.

Put with other papers.—W.C.B., 30/8/87.

No. 13.

Extracts.

Extracts from monthly reports on works in Forbes District—(A. Adams, Road Superintendent).

E. Leader—1Q Orange to Forbes—750 cubic yards metal—Bond signed, 7/5/87—Work to be completed in three months.

Report for May.—Maintenance contract for this year in hand and progressing satisfactorily. In Murga quarry couple of men were busy spawling a lot of rubbish and passing over the harder stone. Contractor informed of my intention to condemn it if carted on to road for measurement.

Commissioner :—Quite right.

Report for July.—Contract 1, for supply of 2¼-inch stone for maintenance, will be completed well within contract time.

No. 14.

Telegram from A. Stokes, Esq., M.P., to The Commissioner for Roads.

Forbes, 2 August, 1887.

Flooded state of roads prevents Contractor Leonard completing contract within specified time. Apparently working hard, and wants one month extension from date, for which he has applied.

A. STOKES.

Telegram from J. Leonard to The Commissioner for Roads.

Forbes, 2 August, 1887.

Am contractor for 9p contract Orange to Forbes road. Owing to overflowing of Lachlan River prevented completing to time. Superintendent putting other men on at my expense. My application for extension of time declined. Eight horses, six drays constantly ready. Kindly grant extension for one month, to enable me to complete contract. Reply.

J. LEONARD.

Previous papers.—W.C.B., 2/8/87.

No. 15.

No. 15.

Extracts.

Extracts from monthly report on works in Forbes District (A. Adams, Road Superintendent), *re* Leonard's contract.

J. Leonard, 9D, Orange to Forbes—Bond signed 19/7/86—Work to be completed in three months. REPORT for January, 1887.—Contracts near Southern Cross about half-finished. According to specification these works should be complete now. Contractors have been detained time after time in consequence of the wet season.

Commissioner's minute :—Must allow time. *Mr. Adams* :—Noted.

Report for May.—Leonard and Smith have taken advantage of the fine weather in carting out stone for 9 and 10D of last year. Part of stone for both contracts had to be rebroken. They promise to have metal ready for taping within a fortnight if weather keeps up.

Report for June.—Two contractors for work at Southern Cross have not finished yet. It is ten months since they engaged to complete within three. I think this is bad enough. Other contractors take example from it.

Commissioner's minute :—Forfeit and finish at their risk.

Mr. Adams :—Have informed them it is my intention to do so after the end of this month.

Report for July, dated 3/8/87.—Last year's contracts Nos. 9 and 10, near Southern Cross, have now been in hand over a year. It was no use trying to rouse these men to push on the work. Apparently the work was undertaken by them with the object of having a year's occupation. It is only a few days since a couple of ladies had a narrow escape from death in passing close to one of these works. Due notice was given both Smith and Leonard that after the 31st July both works would be completed at their risk and cost. Yesterday nine hands were sent out with this object, who returned in the evening to inform me that Smith used threatening language. I presume they are not entitled to payment. Another contingent will be sent out to-morrow. The action taken by the Department in these two cases will have a wholesome effect in giving a great impetus to the progress of the various works in hand.

Commissioner's minute—Get men to summon him. Mr. Adams :—Advised men to take action.

Commissioner's minute :—The contracts should be formally cancelled. I forward cancellation.

Mr. Adams :—It was thought paramount to cancellation to undertake completion of work.

The Commissioner for Roads to A. Stokes, Esq., M.P.

Sir, Department of Public Works, Office of Commissioner and Engineer for Roads, Sydney 10 August, 1887.

With reference to your telegram of the 2nd instant, respecting Leonard's contract—road, Orange to Forbes, I have to forward herewith for your information, copy of *extract from Mr. Adams' report, dated 3rd instant, on the subject.

I have, &c.,
WILLIAM C. BENNETT,
Commissioner and Engineer for Roads.

* Extract referred to, is extract from Mr. Adams' report for July. (*See* in previous papers.)

No. 19.

No. 19.
Mr. J. Leonard to The Secretary for Public Works.

Dear Sir,

Forbes, 24 August, 1887.

In consequence of the floods which have taken place in the Lachlan River, I have not been able to go on with my contract situated about 10 miles from Forbes on the Orange Road. The ground has been in such a state, that I could not possibly get on to the work with horses and drays. Since I started at the contract, I have had seven drays and nine horses with men on the ground, but could not get to work in consequence of the roads being so bad. I applied to the local Road Superintendent, Mr. Adams, for extension of time, which he refused; I also telegraphed to Mr. Bennett, Commissioner of Roads, but I have received no reply, and now I beg to state that Mr. Adams has employed men, horses, and drays to finish my work, which I am still working at, and the price he is paying them for the amount of work they are doing, will cost about three times the amount of tender price. I am now drawing blinding for the road, which I never agreed to. I agreed with Mr. Morton verbally, to blind with material from the side of the road, and Mr. Adams compels me to draw the blinding over 4 miles, which will cost over £200; in consequence of these circumstances, I beg to apply for one month extension of time to finish the contract. I have eight drays and ten horses on the work at present.

I remain, &c.,

JOHN LEONARD.

Acknowledged.—26/8/87. For inquiry.—26/8/87. Roads.—J.R., B.C., 27/8/87. Previous papers.—W.C.B., 29/8/87. 87-11,931, *re* Leonard's contract herewith.

No. 20.
A Stokes, Esq., M.P., to The Secretary for Public Works.

Sir,

Sydney, 25 August, 1887.

I have the honor to bring under your notice the following facts, from which it will be seen that I am justified in bringing them under your notice:—

There are four (two A.A.) road contractors engaged between Forbes and Eugowra, who from circumstances over which they have no control, have failed to complete their contract within time specified in their respective contracts, in consequence of which, Mr. Adams, the Road Inspector, has cancelled their contracts in some cases, and threatened cancellation in others, and in a most arbitrary way in one case, sent out men from Forbes to complete the contract by day wages, to the utter ruination of the contractor, all of whom are honest men with large families depending upon them for support.

I desire to point out that the contractors referred to have given their undivided attention to the contracts in question, and from my own knowledge, the excessive rains rendered road work impossible for successive days, upon several occasions.

In the margin, I give contractar's names, of whom I have known three for many years, as hard-working honest men, and I sincerely trust that with your great practical knowledge and laudable desire to show fair play, and no favour, that you will at once grant the contractors sufficient time to complete the work, having regard to the nature and circumstances which have caused inevitable delay.

Contractors referred to—Smith, Leonard Leader, and Bathgate.

Mr. Adams having arrogated to himself the functions of a Minister, by dealing with matters beyond his province, has doubtless arrested your attention, and will in due course receive the reward of his tyrannical proceedings.

I have, &c.,

A. STOKES, M.P.

Acknowledged.—25/8/87. Roads.—B.C., 26/8/87. For immediate report.—J.R. Telegram sent Mr. Adams on the 24th to suspend action. Resubmit with his report when to hand.—W.C.B., 29/8/87.

No. 21.
Mr. J. Leonard to Mr. Road-Superintendent Morton.

Dear Sir,

Forbes, 19 August, 1887.

I am now writing to you, hoping you will kindly let me know and give me an acknowledgment of contract work, Orange to Forbes Road, 9P.

1st. Do you recollect that I asked you what kind of blinding was required for the road, and you said the usual blinding.

2nd. There was no distance mentioned in specifications as to carting blinding, nor no particular quality of blinding mentioned, with the exception of sand for stone causeways.

3rd. Now Mr. Adams has compelled me to draw gravel over four miles, which will cost as much as metal.

There has been an indignation meeting held here in Forbes, as to Mr. Adams' conduct towards contractors. The result of meeting was, he shall either be removed or dismissed from the position which he now holds.

The usual blinding has been approved of on new road, and gravelled after a certain amount of traffic had passed.

I would wish, Mr. Morton, for an answer immediately, as I am all upset about my work through Mr. Adams' beautiful conduct. By attending to this for me, you will greatly oblige.

Hoping you are well,

I am, &c.,

JOHN LEONARD,

Contractor.

Leonard informed this day that I could not interfere in the matter, and that it would have to be brought before Head Office.—O.G.M., 7/9/87. I herewith attach a letter received by me from Contractor J. Leonard, in the Forbes district, with reference to contract I let him on the road Orange to Forbes, before I left that district. I replied to the effect that I could not interfere in the matter, as the inspecting officer was alone responsible. The letter also reflects on Mr. Adams somewhat severely, and I now forward it on to the Commissioner. This man had written to me before with regard to other contracts, but not in the language he uses on this occasion.—O. G. MORTON, 9/9/87. The Commissioner for Roads, Sydney.

No. 22.

No. 22.

Mr. J. Leonard to R. M. Vaughn, Esq., M.P.

Dear Sir, Forbes, 24 August, 1887.

I beg to state to you that I have applied to the local Road Superintendent, Mr. Adams, here for an extension of time to finish my contract, situated between Forbes and the Southern Cross on the Orange Road. In consequence of the overflow of the Lachlan, and bad state of roads, I could not possibly go on with my contract. I have had horses and drays on the ground the whole of the time, but could not get carting, which I can clearly prove that it was impossible for horses to work the state that the ground has been in. I telegraphed to Mr. Bennett, Commissioner of Roads, but received no reply. I have now written to the Minister for Works, asking for one month's extension of time, which I hope you will have the goodness of seeing into at once, as Mr. Adams has now put men and horses on to my work, which will put me to a lot of expense, which can be done without, if I get the month's time. When I tendered for the work, I agreed verbally with Mr. Morton to blind from the side of road, which is usually done, but Mr. Adams is making me cart the blinding over 4 miles, which will cost me over £200 extra by drawing it myself, and if Mr. Adams draws it with his men and horses, it will cost twice that amount at the rate they are working at present. I beg to state that Mr. Adams, since he came here, has put me to all the trouble he possibly could, and used all his power against me, so I cannot expect justice from him. When I finish my work, I wish to ask you if Mr. Adams does not pass my work, can I get a practical man to judge the work for me.

I remain, &c.,
JOHN LEONARD.

Please address John Leonard, Forbes, care of Chas. Proet.

Dear Sir,

We shall feel personally obliged if you will assist the Contractor Leonard in obtaining redress for his grievances, which we know are genuine. A public meeting is being convened for Monday next to consider the arbitrary and oppressive conduct of the Road Superintendent.

Yours, &c.,
JAMES MURPHY.
J. D. HUTCHINSON.

No. 23.

R. W. Vaughn, Esq., M.P., to The Commissioner for Roads.

Sir, Grenfell, 29 August, 1887.

I beg to forward herewith a letter I have received respecting the conduct of Mr. Adams, Road Superintendent, Forbes. I have no knowledge of the facts of the case, except the statements in the enclosed letter, and an advertisement in the *Forbes Times*, which I enclose for your information.

I know many of the persons signing the requisition are very respectable persons, and would not ask for an investigation into the matter if they did not think an injustice had been done.

Trusting you will at once cause an investigation into the truth of the contractor's statement, and have justice done.

I have, &c.,
R. M. VAUGHN.

Mr. Flynn,—Acknowledge receipt. Get all the papers in this case together; also, copies of my telegrams to Mr. Adams, and extracts relating to these works from his journals.—W.C.B., 31/8/87

[*Enclosure.*]
[EXTRACT from *Forbes Times.*]

To His Worship the Mayor of Forbes,—

Sir,

We, the undersigned ratepayers and others, hereby request that you will convene a public meeting to take into consideration the arbitrary and oppressive conduct of the local Road Superintendent towards the contractors and working men under his control, and to take such measures as shall be deemed advisable to remedy the grievances under which they labour.

We have, &c.,

James Murphy,	W. Larkin,
John Leonard,	W. R. Stone,
Robert Muir,	B. White,
Chas. Rowley,	Gd. Thompson,
A. A. Mylecharane,	John H. Feehily,
P. Donovan,	Wm. Gilbody.

and 48 others.

To Messrs. Jas. Murphy, J. Leonard, R. Muir, and other persons signing the requisition,—

Gentlemen,

In accordance with the above requisition, I hereby convene a public meeting to be holden at Mr. Ward's Assembly Room, on Monday, 29th August, 1887, at 7·30 p.m. sharp, for the purpose of taking into consideration the above question.

G. F. HUTCHINSON,
Mayor.

No. 24.

Telegram from Messrs. Stokes & Cooke, M's.P., Forbes, to The Secretary for Public Works.

29 August, 1887.

THE Mayor convene meeting this evening in denunciation of Adams' arbitrary conduct, previously brought under your notice; kindly wire. If action taken, very important.

STOKES & COOKE, M's.P.

Mr. Bennett to say what is done.—J.S. Roads.—J.R., B.C., 29/8/87.

Letter drawing attention to Mr. Adams' conduct has only reached me with this, he has already, on the 24th, been instructed to suspend action and report. I will telegraph again not to cancel any contracts without authority.—W.C.B., 29/8/87. Under Secretary, B.C.

Informed by Minister.—29/8/87. Roads.—J.R., B.C., 30/8/87.

No. 29.

Telegram from The Commissioner for Roads to Mr. Road-Superintendent Adams.

30 August, 1887.

IT is stated to Minister you have ignored instructions, and continue to employ day-men. You must not continue this. At once cease all operations on these disputed contracts.

WILLIAM C. BENNETT.

No. 30.

Telegram from Mr. Road-Superintendent Adams to The Commissioner for Roads.

31 August, 1887.

WORK on disputed contracts, Orange road, stopped, will be in Sydney to-morrow night.

ALEX. ADAMS,
Superintendent of Roads.

Mr. Selkirk,—Let me have papers.—W.C.B., 1/9/87. Papers submitted.—1/9/87.

No. 31.

Minute by The Commissioner for Roads.

Commissioner's for Roads Report as to Mr. Adam's conduct.

Department of Public Works, Sydney, 2 September, 1887.

Mr. Adams has arrived in Sydney according to the Minister's instructions, and has stopped all work on these contracts.

In sending day-men to finish the first failure, that of Leonard's, Mr. Adams misunderstood my instructions or meaning and sent day-men. I append my instructions—"Give notice and put on hands, and let a portion of the work." He was unable to let, and sent out men at the current rates.

On a previous paper I stated that I considered Mr. Adams had only done his duty, I think so still. The animus against him is not shared by the better class of people. It has been Mr. Adams' unpleasant duty to stop all outlay from road votes within Municipal limits; this has made enemies for him amongst the townspeople. I will respectfully draw the attention of the Minister to the description of this road in yesterday's *Daily Telegraph* (copy herewith), which shows the necessity for strong measures on the part of the officer in charge.

I think Mr. Adams has all the requisites of a most reliable officer, a thorough knowledge of his work, and would point out that Mr. Morton, his predecessor, was removed on very slight grounds of the same sort. I append the papers.

I recommend that Mr. Adams be advised to enforce the reforms being introduced by him a little more gradually, that he return at once to his district, that Leonard's case be settled by measuring up the metal and paying for same, less a deduction for quality, and gauge to be fixed by Mr. Scarr, the Road Superintendent from Orange.

It is to be recollected that this metal, for want of which the road is in the state described in extract, was contracted for fourteen months ago, to be delivered within three months. I am therefore not surprised at the Road Officer taking strong measures.

In Bathgate's contract four month in hand, undertaken to be completed in that time, and only quarter of the work done, and the stone inferior, with really good metalled road, being destroyed for want of material, I think the best course will be to do the same; pay him with a valuation of percentage to be deducted.

In Eugene Leader's case, Mr. Adams has already recommended an extension of six weeks, but that he must break what he has supplied over again, subject to Mr. Scarr's decision.

This feeling against Mr. Adams has been got up by contractors and others whom he has offended in the execution of his duty, and any action in the way of censure or disapproval will only weaken his control; indeed, I think much of the proceeding against him has arisen from the action in the case of his predecessor.

I would point out that if the roads continue bad, these people will be the first to cry out, and it will be impossible to blame the officer.

WILLIAM C. BENNETT.

Under Secretary, B.C. Submitted.—J.R., 3/9/87.

No. 32.

Memo. by The Commissioner for Roads.

Mr. Scarr will be required to visit the road, Borenore to Forbes, to settle some disputes between Mr. Adams and Contractors Leonard, Smith, Eugene Leader, and Bathgate.

The papers will be sent to Mr. Adams, and he will be in Forbes on Wednesday. Will Mr. Scarr visit as soon as possible after that? Wire to Mr. Adams.

W. C. B., 3/9/87.

No. 33.

Mr. Road-Superintendent Adams to The Commissioner for Roads.

Forbes, 10 September, 1887.

The attached six letters are from the maintenance men on the Orange to Forbes road. The writing underlined shows forth the urgency for the completion of Leader's and Bathgate's contracts for 2½-in. maintenance metal. I think it will be seen from them that the action taken in these two cases is amply justified. May I request that these be put with other papers on the subject.

ALEX. ADAMS,
Superintendent of Roads.

The Commissioner, B.C.

[*Enclosures.*]

Alex. Adams, Esq.,—

Sir,

The Sand Hills, 22 June, 1887.

In reference to burs, I have cut and burned all in Droubalgie Lane, except small parcels in some places, which are not any harm. If it were dry weather, I could finish them all in one day. I have felled timber as per instructions.

I will be on the Southern Cross piece for the week, it being cut deep since the late rain.

All that I can do is to fork metal from the slopes to fill the ruts, and there is not much of that to get; all the traffic is on that part of the road, and now is the time the metal should be put out. Bathgate has got a good deal of stone drawn out, but that is in blast, and they have no breakers on. I am afraid that the road will cut up very much before I get it.

Smith is breaking his metal over and forking.

Leonard is not doing anything.

MICHAEL DOYLE.

Mr.

Mr. Alex. Adams,—

Sir, The Sand Hills, 29 June, 1887.

I received cheques, with thanks.

In reference to roads, the water has been over in several places, and has made them very bad; I require metal at Southern Cross at once. Bathgate has got two heaps of broken metal down. If you will permit me to take from the centre of heaps, it will enable me to keep up the roads. Since the late rain, the road at Southern Cross has given way in the crown for want of metal. I trust that you will advise me on this at once, as it is important. None of the contractors are drawing out metal, as the roads are so bad.

M. DOYLE.

P.S.—I delivered cheque and voucher to Peter Doyle, and never saw it until now; I would not have let it go signed to you in that way. I have appealed to Bathgate on several occasions to draw metal to swamp on reserve, and he seems not to care about doing so. You will have to take the matter in hands, as it will be impassable before long.

M. DOYLE.

Murga, 8 July, 1887.

As my attention is required at so many places at the same time, springs have broken out all along the cuttings, and no water-tables to carry water off. I am trying hard to remedy the evil. I have been to Whip Stick Gully and put some boughs in the creek; it was running too strong to finish it; as soon as it stops running, I will be there again. I will go to Toogong as soon as possible. The wet weather and heavy traffic are cutting the road up very much on my length, and the very place where the maintenance metal is most wanted, it is all used up.

More maintenance metal is urgently wanted in some places, I am putting big stones along water course in cuttings to keep traffic out of it. I have to raise the water in places 4 inches above the road. Am I justified in laying stone for that purpose?

BERNARD STRAIN,
Maintenance Man.

Mr. A. Adams,—

Sir, Eugowra, 25 July, 1887.

Enclosed, please find voucher duly signed. With reference to road being in bad order, as reported to you, I may inform you that I have no metal for road that is in any way bad at the present time. The worst piece I have got is Dirkin's metal west end of Eugowra. I have also done Brown's culvert up as you directed. Brown's culvert is the section next to Boon's culverts; this place I cannot do much to until the metal comes. The contractor has drawn about 50 yards stone. I got him to put it alongside of Dirkin's metal, this being the worst place.

I wish to know can I take the centre out of the heaps at once and put it on the road?

THOMAS RUSHTON.

Mr. A. Adams,—

Dear Sir, Eugowra, 13 August, 1887.

Yours duly to hand. In reference to Bathgate, the men are all knocked off, and no one is at work. He has got about 130 yards on the road ready for measurement, and he has stated that he would give the contract up, unless he could get the contract time extended, and furthermore, he, in conjunction with others, is trying to get you removed, and I am given to understand that Leader will ask for extension of time also.

THOMAS RUSHTON.

Mr. Alex. Adams,—

Sir, The Sand Hills, 9 September, 1887.

The water is over the road here this morning, but it will not impede my work, as I am on the hill. I trust that you will arrange about metal at the Southern Cross and at the swamp on reserve, as both those places cannot be kept any longer without metal.

M. DOYLE,
Maintenance Man.

No. 34.

Mr. Road-Superintendent Adams to The Commissioner for Roads and Bridges.

Memo. Roads Office, Forbes, 10 September, 1887.

I find that it will be necessary for me to see the papers in reference to the disputed contracts on the Orange to Forbes road, before I can report thereon. I believe there are papers amongst them which I have not seen and which require sifting.

ALEX. ADAMS,
Superintendent of Roads.

Mr. Flynn,—These papers are, I think, with the Under Secretary. Ask for them.—W.C.B., 12/9/87. Papers herewith.—13/9/87. Papers now sent Mr. Adams to be returned at once, they have not yet been dealt with by the Minister.—W.C.B., 13/9/87. Mr. Adams, B.C. Sent on to Mr. Scarr, at Orange, to see and return.—A.A., 17/9/87. Now to head office with reports in each case.—PERCY SCARR, 20/9/87.

No. 35.

Report by Mr. Road-Superintendent Scarr.

Leader's Contract 1Q.

Roads Office, Orange, 19 September, 1887.

THIS contract is for 750 cubic yards of 2½-in. gauge metal at various places between Long's Corner and Carrara Creek; contract time, three months. The bond was signed on 7th May, 1887.

On 25th August, 257 cubic yards were measured by Mr. Adams—one-third only of the contract quantity—eighteen days after the expiry of the contract time.

This is all the work done; no other stone has been drawn out.

On examination I find that a large proportion of this metal is over gauge, in some heaps fully 50 per cent. is at least 3-in. gauge and over. I examined the heaps with Mr. Adams' note-book in my hand, and quite concur with the memo. made opposite each heap.

The heaps (three in number) condemned are very dirty, and although some of the stone is good, it is so mixed with bad as to be inseparable.

In other heaps is a considerable quantity of dirt and quarry rubbish.

I consider that for quality and gauge a deduction of 15 per cent. should be made, and the man be paid thus:—

269⅓ cubic yards, at 6s. 11d. per cubic yard			£93 2 11
Less 15 per cent., say	£13 2 11		
Less for spreading on road, 269⅓ at 9d.	10 2 0		
		23 4 11	
		£69 18 0	

A contract should be let for the balance of the metal yet unsupplied at once, as the metalled lengths are being destroyed for want of it; but I cannot advise that Leader be allowed to proceed with his contract any further.

PERCY SCARR,
Road Superintendent.

Copy to Mr. Adams this day and resubmit.—W.C.B., 21/9/87. Copy sent.—21/9/87.

No. 36.

Report by Mr. Road-Superintendent Scarr.

Bathgate's Contract 2Q.

Roads Office, Orange, 19 September, 1887.

THIS contract was signed on 14th May, 1887, and at the time of cancellation of this contract, on 23rd August, over three months, there was only 118 cubic yards out of the 800 provided for in the contract ready for measurement. This was measured by Mr. Adams on 26 August. There was at this time about 120 cubic yards broken but not squared up for measurement. So that in three months out of the four named for the completion of the contract only one-fourth of the specified quantity was provided. The only other stone drawn out being (say) 60 cubic yards not broken.

The whole of the stone provided is of very indifferent quality, for which there is no reasonable excuse, for both at Eugowra and at the Plains station quarries there is excellent stone, none of which has been drawn out.

The gauge of the stone broken is excessive. I consider that in this case a deduction of 10 per cent. should be made for gauge and 10 per cent. for bad quality; total, 20 per cent. upon all broken stone.

The value of the unbroken stone estimated to be 60 cubic yards, I put at 3s. per cubic yard, as it lies now by the road side.

As Bathgate has refused to square up the broken stone for measurement, Mr. Adams will have this done by other parties, and then measure and submit a statement of account.

My valuation then is as follows:—

1st. Stone measured at Eugowra at 6s. 6d. per cubic yard (schedule price), less 9d. per cubic yard for spreading and 20 per cent. for gauge and quality.

2nd. At Southern Cross (unmeasured), at 6s. 9d. per cubic yard (schedule price), less cost of squaring and 9d. per cubic yard for spreading, and 20 per cent. for bad quality and gauge.

3rd. Unbroken stone, as it now lies by the road side, at 3s. per cubic yard.

This will be, in my opinion, a fair and lenient settlement of the matter.

PERCY SCARR,
Road Superintendent.

Copy to Mr. Adams and resubmit.—W.C.B., 21/9/87. Copy sent.—21/9/87.

No. 37.

Telegram from The Mayor of Forbes to The Secretary for Public Works.

19 September, 1887.

KINDLY instruct Road-Superintendent Adams to defer any immediate action regarding Leonard's contract. Strong deputation going down on matter. Experts have examined work, and consider Leonard very badly used. Contractors eight drays stopped, and five from Smith's incomplete contract put on by Superintendent to complete work. Leonard could have finished this week.

G. F. HUTCHINSON,
Mayor.

Minister would like immediate report.—19/9/87. Roads.—J.R., B.C., 19/9/87. Telegraph to Mr. Scarr to report at once what he has done.—W.C.B., 19/9/87. Sent; resubmit.

No. 38.

Telegram from The Chief Clerk, Roads Department, to Mr. Road-Superintendent Scarr.

19 September, 1887.

PLEASE report at once what you have done in Leonard's matter.

P. H. FLYNN.

No. 39.

Telegram from Mr. Road-Superintendent Scarr to The Commissioner for Roads.

20 September, 1887.

I ONLY received papers *re* Leonard last evening on my return from the field, too late to forward report, which goes by to-night's mail. I fully support Mr. Adams, and propose deduction of 10 per cent. on 3-inch metal and 15 per cent. on 2½. Reports on other cases by post.

PERCY SCARR,
Road Superintendent.

No. 40.

Report by Mr. Road-Superintendent Scarr.

John Leonard's Contract 9P, Road Orange to Forbes, between Forbes and Southern Cross, at the "Sand Hills."

Roads Office, Orange, 19 September, 1887.

THIS contract was for 900 lineal yards of formation, 3-inch metal and blinding, two stone causeways and 250 cubic yards 2½-inch maintenance metal.

The work done according to Mr. Adams' field-book, is as follows :—

Formation, 905 lineal yards.
3-inch metal—822½ cubic yards.
2 stone causeways.

On the day I inspected the work Mr. Adams also measured a quantity of maintenance metal, 2½-in. gauge, the quantity of which he will supply in the final voucher.

Of the 822½ cubic yards 3-inch metal spread on the construction, 610 cubic yards were to be paid for at 3d. per cubic yard less than schedule rate (as per agreement in writing, which Mr. Adams holds), because of the contractor being permitted to stack the metal on the formation.

The quality of this metal (3-inch) is good, and there has been no dispute on that point, but the gauge is excessive, the greater part of it being full 4-in. gauge.

I consider that a deduction of 10 per cent. should be made from schedule rates on this account.

As regards the 2½-in. maintenance metal, I found the quality far inferior to that on the formation, *i.e.*, the 3-in. metal. I asked Leonard why he did not supply for the maintenance similar metal, as to quality, to that in the formation. He asserted that no more of the same kind was procurable, but as a quantity of similar stone has since been supplied on another job, not far distant, there can be no doubt of this being untrue, The maintenance man states there is abundance of the stone to be had.

There is a large quantity of dirt chips and quarry grit in this maintenance metal.

The gauge is also excessive, which, considering that the stone is so easily broken, is inexcusable.

I think a deduction of 15 per cent. should be made on this 2½-in. metal from the schedule rate.

In fixing this deduction I am, perhaps, too lenient to the contractor.

The men employed by Mr. Adams have blinded about 18 lineal yards of the road, and a considerable length has been blinded by Leonard.

A quantity of metal has been broken by Mr. Adams's men in the quarry. This should be carted out by them, or by task, and credited to the contract, the cost of it being debited against it.

Tenders might then be called for the completion of the blinding, and the supply of the balance of the 2½-in maintenance metal.

These quantities Mr. Adams will give. The contract, however, might be closed up, without waiting for the completion of this blinding and maintenance metal.

The Commissioner, in his telegram to me at Forbes, directed me to state my opinion as to whether Mr. Adams had been exacting in his demands.

I certainly do not think so. He has asked nothing beyond what is required by a fair and reasonable reading of the specification ; and I am sure no unprejudiced and disinterested person, looking at the style of the work turned out by Leonard, Bathgate, and Leader, with whom alone I have at present to deal, would say anything else.

In fact I am clearly of opinion that had Mr. Adams passed the work he would have done less than his duty.

I may be permitted also to express my opinion that these disputes are the immediate fruit of the action taken in the case of Mr. Adams's predecessor.

In which case, so successful an appeal was made to outside and influential support, as to induce these men to combine to resist the legitimate authority of the Superintendent in these present cases, with the full expectation of receiving similar support. To which end the feeling against Mr. Adams has been fomented by these men and those interested in them.

Mr. Adams undoubtedly is an efficient officer, and has been determined to do his duty, regardless of consequences to himself, so that he is deserving of every support the Commissioner can afford him. He is, in my opinion, worthy to be placed in a more important charge than that of the Forbes district. Any little abruptness of manner Mr. Adams may have betrayed may be very well excused, considering the provocation he has received at the hands of these men.

As to other circumstances in connection with these disputes, and the asserted dissatisfaction of the general public, the real truth of the matter has been so clearly and correctly grasped by the Commissioner, and set forth in his minute of the 2nd instant to the Honorable the Minister for Public Works, that there would be nothing left to say, even if it were my duty to go into the question.

PERCY SCARR,
Road Superintendent.

I forward this report of Mr. Scarr for the information of the Honorable Secretary for Public Works, with a recent telegram from Mr. Adams ; also the message from the Mayor of Forbes. I think Mr. Adams should be supported ; indeed, if an officer is to be kept in the district at all, he should not be exposed to the lawless proceedings described in his last message. I have instructed him to withdraw all action, when force is used, and allow this contractor to go to law, by refusing to certify. I shall be unable to certify further vouchers for him.—W.C.B., 22/9/87. Under Secretary, B.C.

No. 41.

No. 41.
Telegram from Mr. Road-Superintendent Adams to The Commissioner for Roads.

20 September, 1887.

Mr. Scarr advised Leonard to leave off work; this he then did, and came into town. He has started again this morning in defiance of my orders, also with eight horses and carts. He spent all day yesterday in conference with Hutchinson, Murphy, and party, who were out on these works Sunday last measuring and inspecting stone, and otherwise interfering in our business. Please wire instructions.

ALEX. ADAMS,
Superintendent of Roads.

I asked yesterday, on a telegram to the Minister, for previous papers. Let me have any papers from Mr. Scarr on this this morning. Telegram sent Mr. Adams. Mr. Flynn,—Send copies of Mr. Scarr's memos. on contracts to Mr. Adams, and resubmit.—W.C.B., 21/9/87.

No. 42.
Telegram from The Commissioner for Roads to Mr. Road-Superintendent Adams.

21 September, 1887.

Carry out Mr. Scarr's instructions. If these men interfere with you, simply write to state that no return will be made other than decided by Mr. Scarr, and that such questions cannot be decided by you, but by the proper legal tribunal.

WILLIAM C. BENNETT.

No. 43.
H. H. Cooke, Esq., M.P., to The Secretary for Public Works.

Dear Sir, 21 September, 1887.

On my arrival in the city this morning, I found the enclosed telegram awaiting me. It has reference to the complaints against Mr. Road-Superintendent Adams, at Forbes.

I do think that there will be no peace, while that officer remains in the district.

Will you be good enough to take steps to comply with the request of the Mayor of Forbes, and give me your reply at the Assembly during the day, that I may communicate with the Forbes people.

Yours, &c.,
HENRY H. COOKE, M.L.A.

[*Enclosure.*]

19 September, 1887.

Six gentlemen inspected Leonard's contract find work excellently done; Scarr and Adams have instructed Leonard stop work, and have put on other men; telegraphed Ministers this morning have work done by Adams stopped, pending deputation; interview this week; Leonard can finish this week, if allowed to work; see same is done.

G. F. HUTCHINSON,
Mayor.

Mr. Bennett for report as soon as possible.—J.S., B.C., 22/9/87. I have nothing to add to the minute on Mr. Scarr's report, and the telegram that the work was being proceeded with by force sent down yesterday.—W.C.B., 23/9/87. Under Secretary, B.C. Submitted.—J.R., 23/9/87.

No. 44.
The Rev. J. H. Craig to The Secretary for Public Works.

Sir, The Manse, Forbes, 22 September, 1887.

I consider it my duty to call your attention to the treatment which an officer in the Roads Department is receiving from some of the townspeople of Forbes. Mr. Adams, your Superintendent, has been, in my opinion, most careful in his duties, requiring the contractors to execute their work (1) faithfully, (2) according to contract, and (3) within the specified time. The contractors have not been allowed to do as they pleased, several townspeople with whom the contractors have had business transactions, and from whom they had borrowed money, cannot be paid because these contractors' contracts have been cancelled for non-fulfilment of conditions.

The town Council has an animus against Mr. Adams, because, in accordance with departmental usage, he has refused to recommend that money intended for extra municipal work should be spent on intra municipal work. These three sections of the community have verbally vilified Mr. Adams, have inserted letters and articles against him, or have had them inserted in the local papers, and by requisition, a town's meeting was held to discuss his conduct. The ordinary epithets applied to him, in the papers and at the meeting, were "harsh," "tyrannical," "arbitrary," and "oppressive."

By the regulations of the Civil Service, he is not at liberty to publicly explain and justify his acts. The circumstantial statements in the Press, and at the meeting stagger many of townspeople who desire to have the other side of the question. They look to the Roads Department for this very needful explanation and justification. The Department ought to uphold any officer who is conscientious. The fair minded people in the town had not the needful rebutting evidence, otherwise they would have publicly defended Mr. Adams at the town's meeting.

In addition to respectfully asking that you defend your officer, may I suggest that all official papers in this case be laid on the Table of the Assembly, so that the public generally, and the Forbes townspeople especially, may have official knowledge of the Department's actions and intentions.

I testify to my personal appreciation of Mr. Adams' honesty, veracity, and faithfulness to duty. If the three sections above referred to succeed in obtaining Mr. Adams' removal, the Department will find the retrenchment policy of your Government retarded by uncalled for expenses incurred in this district. Wasteful expenditure by untrustworthy officials discredits any Department.

Yours obediently,
JON. H. CRAIG.

I agree with every word that is here set forth. I have already expressed my opinion of Mr. Adams to the Minister. I think copies of all papers should be sent to this gentleman.—W.C.B., 24/9/87.

No. 45.

Mr. E. Leader to A. Stokes, Esq., M.P., and Messrs. Hutchinson and Murphy.

Gentlemen, Eugowra, 26 September, 1887.

I take this opportunity of supplying you with the full information respecting my work.

I signed for Contract No. 1, Orange to Forbes, on the 7th day of May. I started work at once with six men. During my contract time (three months), the rain registered at Eugowra was as follows:—May, 1 inch 39 points; June, 2·91; July, 2·39, making a total of 6 inches 69 points during those three months, the record shows that there were thirty days of rain.

It was impossible to work during this time. When my time was nearly up, and I found that I was unable to complete the work within the specified time, I applied personally to the Superintendent for an extension of time.

His reply was, he would not grant one day. On the 23rd August, he sent me a telegram, stating that my contract was cancelled. He then came and measured my metal supplied, and up to this he has not furnished me with a statement of the measurement.

He directed the maintenance man at Murga not to allow any person to interfere or remove any of the metal while he was in Sydney.

Adams has now called for tenders to close to-morrow, 27th instant, for the carting out of Bathgate's metal, also mine, about 550 cubic yards.

Time to complete this work, two weeks, that is impossible, a penalty of £5 per week will be levied upon each section that will remain incomplete after the expiration of the time allowed.

This means 25 per cent. as addition to meet fines by any person tendering.

I may add that I read the specifications of work he is inviting tenders for, and I was surprised at the short time he is allowing. One is 7 miles of clearing 66 feet wide, seven weeks' time to complete work, this means £50 per mile, double what it could be done for if reasonable time was given.

His method is detrimental to our district as twice the money will be spent upon the same extent of work, and will not be done any better.

Yours, &c.,

EUGENE LEADER.

Roads.—J.R., B.C., 12/10/87.

No. 46.

Minutes by The Secretary for Public Works.

Re Deputation as to Road Contractors, with fourteen enclosures.

Mr. H. Taylor, M.P., introduced a deputation to me this afternoon, consisting of Aldermen Hutchison, Murphy, Muir, and Stephens, of Forbes, relative to the action taken by Mr. Adams, Road Superintendent, in connection with the road contractors in the district.

They referred more particularly to Messrs. Bathgate, Leonard, Leader. With regard to Leonard's case, that contractor had simply received a notice to say his contract was cancelled. No reason was given. A committee of the townspeople had inspected the contract, and they judged that the work was satisfactorily done, the metalling being excellent, and the blinding had been carried from a distance of 4 or 5 miles. Leonard had eight drays and ten horses engaged, but Mr. Adams only put on five drays to take up the work, which was to be done at Leonard's expense. Leonard remained idle for a little time, and then, acting under advice, finished it in conjunction with the Department. Mr. Scarr had reported on Leonard's contract. They had, however, inspected some work done in Mr. Scarr's district, some 9 miles out of Orange, and found quite as much "small stuff" there as in Leonard's work. With regard to the blinding, it was said the contract was taken under Mr. Morton, who always allowed the blinding to be taken from the sides of the road. Mr. Adams' direction that the stuff should be carted 4 or 5 miles caused expense that was not seen when the contract was taken. When Mr. Scarr came and examined the metal there was only one heap that could be called dirty.

When Mr. Adams cancelled the contract, he put on men at 7s. per day stone-breaking, some of whom could not break 4 yards a week, and the men being paid day wages did not expedite work, and the same could be said of the carters, who did not do half the same amount of work for the Government as the carters under Leonard. One man, "Jim, the Londoner" (stone-breaker), was not worth 1s. 6d. per day. Leonard again had stored his metal by the road side, prior to laying, but for this he was charged 3d. per yard, and they considered it an extortion. Leader, of Cowra, had also his contract cancelled, presumably on account of delay, and this was due to the bad weather preventing access to the quarries; in fact the exceptionally bad season had affected the whole of the contractors, and they should have had consideration instead of being treated arbitrarily, as Mr. Adams had treated them. They considered Mr. Adams had exceeded his duty and acted harshly. They were competent to judge of the work done, and thought the contractors had done well. The district had no confidence in Mr. Adams, and asked for his removal. It was said he had been removed from Mudgee because he gave no satisfaction there. Written statements enclosed were handed in.

In connection with this, is might be added that Mr. Murphy stated that if the Department did not remove Mr. Adams they (the people) would remove him. I informed Mr. Murphy I would allow no man to talk in that way in my presence.

I informed them that I was fully cognizant of this matter, having had Mr. Bennett and Mr. Adams before me, and I had learned that some of these contracts had been in hand fourteen or sixteen months. They could not say the weather had been bad all this time, and it was an unjustifiable time to keep our highways unrepaired. It might be a small thing to them, but it was a great deal to me to sit here and hear daily complaints of the bad state of our roads, and when I found this due to dilatory contractors, I was only doing my duty in dealing severely with them. I had fully examined Mr. Adams in the matter, and had sent him back to his district, telling him to give every consideration to the contractors consistent with his duty. I had had one of the Members for the district with me, and, with one exception, he had, after hearing the explanation, approved of the action taken, and I had had dozens of letters in favour of the Department, and it was said he was persecuted by men who wished to get rid of their contracts. I advised Mr. Adams how to act, and had given him a proper caution as to his dealings with the public. I could give no promise to remove him, and it seemed to me if he were a bad man he should not be removed to another district, but from the Service.

I should like report on any new matter introduced.

JOHN SUTHERLAND.

Memo. by M. Doyle, maintenance man.

WORK done on Leonard's contract by Road Superintendent. 25–16 0.

M. DOYLE.

(B.)

Re short quantity of metal.

Roads Office, Forbes, 22 July, 1887.

YOUR metal measures some 70 odd yards short of specified quantity. These you will require to make up in the 2½ inch metal, that is to say, you will have to supply that quantity extra.

There is good quartz material for blinding within 2½ miles of your work which please make use of.

ALEX. ADAMS.

J. Leonard.

(C.)

Testifying as to bad state of road.

Sand Hills, 27 August, 1887.

BEING a boundary rider on Yamma for the last seven years do hereby certify that during that period I have not seen the roads in such bad state as they have been for the last twelve months past, the floods making it impossible for Contractor Leonard to work with his drays on the road on which he had to travel, as I could scarcely go on horseback, I having to go on his road every day. And I here state that it was impossible for Leonard to tip his metal on the road side, as it has been full of holes and water all the time. And I also state that he always had his horses and drays on the ground ready to work whenever he was able, as I live only 200 yards from his camp.

ARTHUR O'MALLEY.

(D.)

Leonard to do no further work.

15 September, 1887.

REFERRING to your contract, 9 P., road Orange to Forbes, you will, from and after this date, do no further work upon it.

PERCY SCARR,
Road Superintendent.

John Leonard, Contractor.

(E.)

John Leonard certifying that he worked whenever it was possible.

I, JOHN LEONARD, hereby certify, with signatures attached, that I worked at my contract (Forbes to Orange road, about 9 miles from Forbes) whenever it was possible to do so. The work that I am now doing has been covered with water three times from the Lachlan River, and portions of the road were in such a bad state that horses could not travel on them. Since I commenced this work I have had from six to eight drays always ready to go on with the work whenever the condition of the roads would allow me. I have now eight drays and nine horses drawing gravel 4 miles, which I never contracted for. The Road Superintendent has compelled me to do so, and, not being satisfied with that, he has put on horses and drays which will cost me at least twice the amount I am receiving, that is at rate of work they are doing at present.

W. J. CORBETT.
J. O'MALLEY.
And 23 others.

To the Mayor and Aldermen of Forbes.

(F.)

Statutory Declaration *re* measurement of John Leonard's metal.

I, JAMES LEONARD, of Forbes, labourer, do solemnly and sincerely declare that I was present when Mr. Adams, Road Superintendent, came out about two months ago to measure Mr. Leonard's contract on the Orange Road. Mr. Leonard did not like the way he was measuring, and asked him to measure in different places, when Mr. Adams said, "There is no occasion, it is going yard for yard." Mr. Leonard said if that was the case he was satisfied. Mr. Adams then told him to go on spreading the metal. And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute Declarations in lieu thereof for the suppression of voluntary and extra-judicial Oaths and Affidavits."

JAMES LEONARD.

Made and signed before me at Forbes, this 21st day of September, 1887,—
CHAS. F. BAKER, J.P.

(G.)

Statutory Declaration, *re* measurement of John Leonard's metal.

I, MATTHEW HAYES, of Forbes, labourer, do solemnly and sincerely declare that I was present when Mr. Adams, Road Superintendent, came out about two months ago to measure metal on Mr. Leonard's contract on the Orange Road. Mr. Leonard did not like the way he was measuring, and asked him to measure in different places, when Mr. Adams said, "There is no occasion, it is going yard for yard." Mr. Leonard said if that was the case he was satisfied. Mr. Adams then told him to go on spreading the metal. And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute Declarations in lieu thereof, and for the suppression of voluntary and extra-judicial Oaths and Affidavits."

Made and signed before me, at Forbes, this 21st day of September, 1887, the same having been previously read over and explained to him, and he appearing to thoroughly understand the same,—

CHAS. F. BAKER, J.P.

(H.)

Statutory Declaration, *re* his contract.

I, JOHN LEONARD, of Forbes, contractor, do solemnly and sincerely declare that since I started on my contract No. 9 P, road Orange to Forbes, I have always had on the ground, men, horses, and drays, to carry out the work whenever the state of the roads and weather permitted. Since I started, the Lachlan River has overflowed five times, and for over twelve months, the weather has been exceptionally wet, so that for weeks at a time I have been unable to draw metal. Mr. Morton

the

the previous Road Superintendent gave me permission to stack the metal on the forming as the sides of the roadway were all mud and slush, but Mr. Adams is deducting 3d. per yard for this, although I had permission before he came. About two months ago, Mr. Adams came out to measure my metal. I did not think that he was measuring fairly and I asked him to measure the strong as well as the weak places. He told me that he would measure where he liked, but that it made no difference as it was going yard for yard. He then ordered me to proceed with the spreading, which I did. About four days afterwards he sent me his measurements telling me that I was 70 yards short, and that I was to get it at once. I was confident that I had my measurement, but when I got his letter, I had only one heap not interfered with, and I got a competent person to measure this for me and he made it 24 yards, which was the amount that I had paid for, but Mr. Adams had only made it 16·8 cubic yards.

Just after Mr. Adams came to Forbes, I went to his office to inquire about some money that was due to me. He told me that there was nothing due to me, and that I came there telling lies and ordered me out of his office. Since then he has paid me a portion of the money I then claimed, proving that I was in the right. I have had occasion to call at Mr. Adam's office on matters connected with my contract, and he has always treated me most uncivilly.

Mr. Scarr drove out one day with Mr. Adams, without any notice, asked me a few questions to which I replied, Mr. Adams also replying in contradiction to me. I had no opportunity of producing any witnesses and practically no investigation into our grievances took place. Next day, I received a letter from Mr. Scarr instructing me to knock off all work and Mr. Adams has placed inferior men upon my contract to complete it at my expense, whereby I am liable to incur heavy loss. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute Declarations in lieu thereof, and for the suppression of voluntary and extra-judicial Oaths and Affidavits.

JOHN LEONARD.

Made and signed before me at Forbes, this twenty-fourth day of September, 1887,—

CHAS. F. BAKER, J.P.

(I.)

Memo. Roads Office, Forbes, 15 August, 1887.

Your metal (2½ inch) must be ready for measurement early next week, if not, the penal clauses will be enforced. I have to point out that the time specified (three months) ended on the 7th instant.

ALEX. ADAMS,
Superintendent of Roads.

Mr. E. Leader, Eugowra.

(J.)

As to Leader's Contract.

To His Worship the Mayor of Forbes,—

Sir,

I beg to submit to you a statement of the arbitrary conduct of Mr. A. Adams, Road Superintendent towards me as a contractor. I signed for contract No. 1, Orange to Forbes, on 7th day of May, 1887. During the time that I was to complete my work, namely, three months, there were six weeks that I was unable to perform any work on the contract. I then applied to him for an extension of time, and his reply was that he would allow none, and he would take no excuse, as he must have the work done. I received from him in the office a memo. (attached). He then came and measured some of the metal; there were nine heaps of metal came out of the one quarry, and he condemned three heaps, about 40 cubic yards, and measured the remaining six heaps. This metal is taken out of a quarry that has been used for years, and is admitted by competent judges to be good road metal. I supplied him with a sample before I signed the contract, and he approved of it. I asked him to oblige me with the total of each heap separately, as many heaps are broken by different men, and each man would require a statement of his work. His reply was that it was not a usual thing to do, or words to that effect. I contend that if I were granted six weeks as an extension I could complete the work (if fine weather). All that I would have to contend against then would be the prejudiced mind of the Superintendent. The men have now broken up the camps, and his character has become so public that it will be difficult to obtain men to perform the work.

EUGENE LEADER.

(K.)

Cautioning Bathgate.

Roads Office, Forbes, 6 August, 1887.

YOU were cautioned against employing Reid, stone-breaker. If your metal is not the hardest and best procurable within specified distance, mark the consequence.

ALEX. ADAMS,
Superintendent of Roads.

Mr. Bathgate, North Hill, Forbes.

(L.)

Complaining of conduct of Mr. Adams.

Forbes, 23 August, 1887.

To His Worship the Mayor, Municipal District of Forbes,—

Sir,

I beg leave to bring under your notice the conduct of the local Road Superintendent, Mr. Adams, which I consider cruel and unjust. About three months ago I was the successful tenderer for procuring, breaking, and carting of 800 yards of road metal, to be used at Southern Cross and Eugowra. Before starting work Mr. Adams cautioned me against employing a certain man, Frederick Reid, in connection with my contract; the reason for this peremptory order was that Reid had given him impudence while working on a previous contract, and considering that Mr. Adams had no authority to dictate what labourers I should employ, providing I performed my contract in a satisfactory manner, I gave work to Reid. Reid is a competent workman, with a good character, struggling to support a family. Some time after commencing work, and when a considerable portion had been done, Mr. Adams inspected my work and made no objection, but as soon as he learned that Reid was working for me he sent word to me, through a road man, Mr. Doyle, that if there was the slightest fault discernable in my metal he would condemn the whole lot. Subsequently Mr. Adams sent me a letter reminding me that I had disregarded his orders against employing Reid, and promising to visit all the consequences of his displeasure upon me. I then came and saw Mr. Adams with reference to the matter. I told him that I had learned from Reid that his family was in want of food, and that I had employed Reid for the sake of his family. The answer I got was "charity begins at home," and he gave me to understand that I had no right to employ Reid contrary to his sweet will. I then asked him for an extension of time, that on account of the wet weather and floods it would be impossible for me to finish the contract in specified time. He said he would not give me a day. I then sent a written application through the post on the 18th for an extension of time. He replied to same by letter on the 23rd, after a delay of five days, to the effect that my contract had been cancelled, and that I had to the end of the present month to break and square up for measurement all the metal I had carted out. He gave me no reason why my contract was cancelled nearly one month before the time stated on the copy of specification, which I can produce, and I firmly believe the reason that I could not get men was through the arbitrary, cruel, and unjust conduct of Mr. Adams towards me.

I am, &c.,

ALEX. BATHGATE,
North Hill, Forbes.

(M.)

Resolution of Public Meeting.

Moved by MR. F. COSTIN, seconded by MR. J. MURPHY

That, in the opinion of this meeting, the conduct of the Road Superintendent, Mr. Adams, has been uniformly harsh, tyrannical, arbitrary and oppressive to contractors and others under his control, and that immediate steps should be taken to have him removed from the district.

(N.)

Resolution of Public Meeting.

Moved by MR. GEORGE HUNT, seconded by MR. WILLIS.

That a copy of the foregoing resolution be transmitted to the Minister for Works, through the senior Member for Forbes, and that a sub-committee consisting of the following gentlemen, Messrs. Baker, Stone, Murphy, and Costin be appointed to prepare a full statement for the information of the Minister.

No. 47.

A. Stokes, Esq., M.P., to The Secretary for Public Works.

Sir, Sydney, 6 October, 1887.

I have the honor to again bring under your notice the very pressing necessity of removing Mr. Road-Inspector Adams from the Forbes district.

The justification for this course has been frequently brought under your notice during the past two months, and more prominently on Tuesday last by the Mayor and two of the aldermen of Forbes, who were actuated by the best of motives in laying before you the whole facts of the case, to which I respectfully add that, from my own knowledge, Mr. Adams' conduct has been arbitrary and arrogant, entirely wanting in tact, and devoid of conciliation, in the absence of which ill-will is engendered and the public interest suffer.

I yield to no one in my desire to see our road works pushed forward with all speed, but emphatically denounce as a species of tyranny the action of a public officer who ruthlessly cancels the contracts of honest hard working men from circumstances over which they have no control. No one should know better than Mr. Adams that the past winter has been exceptionally severe, with abnormal rains, thus rendering road work almost impossible, hence it is that contractors have been compelled to seek for an extension of time.

I enclose a copy of one of Mr. Bathgate's applications for an extension of time, dated August 18th, and marked A, in which it will be seen that it is respectfully worded, and a valid case or claims for extension made out.

I also enclose Mr. Adams' reply, marked B, and dated on the 23rd August, upon which I need not here comment. Suffice to say that it is a fair specimen of Mr. Adams' despotism and bad taste.

I also enclose a copy of Mr. Adams' letter to Bathgate, dated on the 6th August, and marked C. This trick at coercion is unworthy of a public officer, and his effort at explanation is as culpable as the charge. This man Reid has been known to me for some time as an honest, blunt working man, in support of which I enclose a letter from his last employer, Mr. John Whitmill, than whom a more reliable man does not exist. This letter is dated August 22nd, and marked D.

Bathgate declines to dismiss a man whom he knew to be suitable as an employé. Mr. Adams taking umbrage at this sent the note herewith, marked C, and true to his implied promise, cancelled Bathgate's contract on the 23rd August, thus leaving him utterly ruined.

I have not received a reply to my request for a copy of the contracts, showing dates, &c., and in the meantime can only assume that I have been correctly informed as to the fact of Bathgate's contract being cancelled before the time expired for its completion.

I will not trouble you with a detailed reference to other cases, including Cashman's and Lawder's, neither will I refer to Leonard's case, the particulars of which I had the honor to lay before you personally when you expressed your surprise at Mr. Adam's conduct and promised to see justice done.

At a public meeting held in Forbes last month resolutions were carried and amongst the salient reasons urged in support of them were the indisputable facts undermentioned:—

1. In view of Mr. Adams' recent conduct in cancelling road contracts, upon the completion of which the employés depended upon being paid their wages, the contractors could not now procure labour upon former conditions, and as a consequence all confidence between the employer and employé were lost, and, as a penalty, the country would be mulct in an increase of 20 per cent. additional cost for road construction in the Forbes district under Mr. Adams.

2. The storekeepers will not trust the contractors for the reasons above-mentioned, and responsible men decline to become sureties for contractors, and a want of confidence is manifest upon every hand amongst the working men who usually adopt road-making for a livelihood.

I, therefore, with a full knowledge of the facts referred to, respectfully urge them for your early consideration, feeling sure that the removal of Mr. Adams from the Forbes district would be conducive to the public interest, and restore confidence amongst a class whose lot it is to earn their living by the sweat of their brow, and at the same time terminate an unpleasant correspondence disagreeable alike to Members and Minister.

I have, &c.,
A. STOKES.

I think Mr. Stokes might be informed arrangements will be made to remove Mr. Adams as soon as the exigencies of the Service will permit.—W.C.B., 19/10/87. Under Secretary, B.C. Submitted.—J.R., 21/10/87. Approved.—J.S., 22/10/87. Inform Mr. Stokes, M.P.—J.R. A. Stokes, Esq., M.P.—24/10/87.

[*Enclosures.*]

[*Enclosures.*]

(A.)

For extension of time.

Sir, 18 August, 1887.

I beg leave most respectfully to apply to you for an extension of time for the completion of my contract for the supply of road metal as per margin.

Orange to Forbes—Road contract No. 2, from Eugowra Rocks to Doyle's Paddock, near Swamp—800 cubic yards.

I am compelled to make this application on account of the continuous and almost unprecedented wet weather and floods which have prevailed for the last two months over nearly the whole extent of the area included in my contract rendering work impossible. Trusting that, under these adverse circumstances, you will give this application favourable consideration.

I am, &c.,
ALEX. BATHGATE.

Alex. Adams, Esq., Road Superintendent, Forbes.

(B.)

Reply to foregoing.

Sir, Roads Office, Forbes, 23 August, 1887.

In reply to your letter asking for extension of time, I have to state that your contract has been cancelled, and that you have to the end of the present month to break and square for measurement all the stone which you have already carted out. Please see that the interior of the heaps are broken to the proper gauge.

Yours truly,
ALEX. ADAMS,
Superintendent of Roads.

Mr. A. Bathgate, North Hill, Forbes.

(C.)

Re metal.

Roads Office, Forbes, 6 August, 1887.

You were cautioned against Reid as stone-breaker. If your metal is not the hardest and best procurable, and within specified distance, mark the consequence.

ALEX. ADAMS,
Superintendent of Roads.

Mr. Bathgate, North Hill, Forbes.

(D.)

Testifying as to Reid's industry, &c.

Back Droubalgie, 22 August, 1887.

This is to certify that I have known F. Reid for about five years, part of which time he has been in my employ, and that, while in my employ, he was always respectful and industrious. I would at any time take him into my employ again.

J. L. WHITMILL.

No. 48.

The Under Secretary for Public Works to A. Stokes, Esq., M.P.

Sir, Department of Public Works, 24 October, 1887.

In reply to your letter of the 6th instant, again urging that Mr. Road-Superintendent Adams be removed from the Forbes district, I am directed to inform you that, as soon as the exigencies of the Public Service will permit, Mr. Adams will be transferred to another district.

I have, &c.,
JOHN RAE.

No. 49.

A. Stokes, Esq., M.P., to The Secretary for Public Works.

Sir, Sydney, 10 October, 1887.

I do myself the honor to bring under your notice the following facts and particulars:—

1st. When the deputation from Forbes waited upon you last week, in reference to the conduct of Mr. Road-Inspector Adams, the Mayor pointed out the fact of Bathgate's contract being cancelled before the expiration of the time specified in the contract, to which you replied that on receipt of evidence of such arbitrary conduct that you would deal with him in a proper manner.

The contract referred to has been forwarded to me in support of the allegation then made, from which, with "Bathgate's" letter, it will be seen that the contract was signed on the 14th May, 1887, allowing four months for completion, which would expire on the 14th September, 1887, and the letter of cancellation bears date 23rd August, 1887, twenty-two days before the time specified in the contract.

This letter of cancellation is in the hands of the Honorable Minister, which with others, marked A, B, C, and D, were forwarded by me on the 6th instant, to which I respectfully call the Minister's attention, a perusal of which will suffice to show as to whether Mr. Adams was actuated by animus or public duty in his dealings with Bathgate.

I have, &c.,
A. STOKES.

Acknowledged.—13/10/87. Roads.—B.C., 13/10/87. Contract for maintenance road. Metal very bad, three-quarters of the time expired, little more than one-eighth of the work done; Mr. Adams was bound to advise cancellation.—W.C.B., 19/10/87. Under Secretary, B.C. Submitted.—J.R., 21/10/87. Inform Mr. Stokes.—J.S., 22/10/87. A. Stokes, Esq., M.P. Written.—31/10/87. Roads.—J.R., B.C., 31/10/87.

No. 50.

The Under Secretary for Public Works to A. Stokes, Esq., M.P.

Sir, Department of Public Works, Sydney, 31 October, 1887.

In reply to your letter of the 10th instant, with respect to the cancelling of Bathgate's contract for the supply of road metal in the Forbes District, I am directed to inform you that as the metal supplied was of inferior quality, and only about an eighth of the work completed, although three quarters of the contract time had elapsed, Mr. Road-Superintendent Adams acted in strict accordance with his duty in recommending that the contract should be cancelled.

I have, &c.,
JOHN RAE.

No. 51.

No. 51.

Report by Mr. Road-Superintendent Adams.

Re disputed Contracts Nos. 9P. and 10P., near Southern Cross.—Road Orange to Forbes.

Roads Office, Forbes, 10 October, 1887.

In addition to reports enumerating the circumstances attending the action taken in the cases of Contractors Leader and Bathgate, I have the following particulars to furnish in connection with the more glaring cases of Leonard and Smith, near the Southern Cross.

Fifteen months ago these two men with their sureties engaged to carry out and complete these works within three months. It was not until nine months after the lapse of their specified time that day-labourers were sent out, and that after giving them due notice of intention to do so. Now it is stated that these men gave their undivided attention to these works. Of my own knowledge, Leonard has wrought on his farm at the Tichbourne when the weather was fine, and has also been employed at house building.

Smith seldom if ever had more than the one or two hands employed instead of fifteen or twenty, and has also been absent for long periods from the work.

The Lachlan River has been in flood at various times during the winter, I admit, but this should in only a slight degree affect the progress of these works, as the water recedes generally within three or four days. The quarry is high and dry, and is never affected by flood water, hence it was possible to continue working without intermission.

When Smith's stone was inspected the interior of the heaps were found to be composed of unbroken ballast 8 inch and 9 inch in size, and the $2\frac{1}{2}$-inch stone, here and there, made up of quarry grit, clay, and other rubbish. By these fraudulent means Smith deceived me, and obtained a much higher advance than the money value of the work done, leaving a balance insufficient to complete the work in accordance with specification. Smith cleared from the district a few days after.

Leonard's 3-inch stone was measured on the understanding that all stone over gauge be knapped. This he afterwards declined to do, but spread the stone and started to cover with blinding, the proper quality he declined to supply on my authority. This man has also ignored all instructions from the officers of this Department, and has emphatically declined various times to relinquish work until finished.

When men with horses and carts were sent out on the Commissioner's authority to "forfeit and finish at their risk," they were met by Smith and Leonard, who used threatening language and intimidation, so that these men immediately returned, and it was only with the greatest difficulty after that the Commissioner's instructions were put into practice.

It is also a fact that Leonard made use of the expression personally to myself, "If you send out men on my work you may risk the result." Smith avers, "We will meet again." Withal these have been described as honest and hard-working men, &c.

It has been represented that the public meeting called to discuss my actions was attended by the better class of people. This is absolutely false. It is generally considered as having been a disgraceful and disorderly gathering. The few respectable people signing the requisition did so in order to hear both sides of the question, which unfortunately they did not, as the speakers were, with one exception, men that I have offended either directly or indirectly in the unflinching execution of my onerous duties.

Mr. Mayor Hutchinson (Chairman of the meeting), in May last, expressed himself, at a meeting of the local Council, in favour of thrashing me, and getting up a petition to have me removed, simply because I declined, in compliance with my instructions, to expend public money within municipal limits. He, in conjunction with others, have incited and continued to animate these contractors, and have been specially instrumental in rousing this indignation.

In my intercourse with contractors and others, both in office and field, they are treated as men and men only, and that with the utmost firmness.

I have only to add that any action taken by me in these cases is based on the authority of the Commissioner and Engineer-in-Chief. I think it will be clear that I have not exceeded the limits of that authority, and my instructions have all been duly honored.

ALEX. ADAMS,
Superintendent of Roads, &c.

Put with previous papers. No necessity for further action.—W.C.B., 12/10/87.

No. 52.

Question.

Legislative Assembly—Tuesday, 11 October, 1887.

(16.) Forbes and Eugowra Road :—

Mr. Stokes asked the Secretary for Public Works,—

(1.) How many tenders were received by Mr. Road-Inspector Adams for the spreading of road metal on the Forbes and Eugowra road, in completion of the cancelled contracts of Messrs. Bathgate and Leader, Nos. 1 and 2 respectively?

(2.) The names of successful tenderers, and contract price?

(3.) The time stipulated for completion of same?

Mr. Sutherland answered,—

(1.) Three tenders were received for carting out and spreading metal in completion of Bathgate's and Leader's contracts.

(2.) George Doyle; price, 1s. per cubic yard.

(3.) Two weeks.

No. 53.

Question.

LEGISLATIVE ASSEMBLY—TUESDAY, 11 OCTOBER, 1887.

(17.) MR. LEONARD, ROAD CONTRACTOR:—

MR. STOKES asked the Secretary for Public Works:—In view of the action of Mr. Road-Inspector Adams, of Forbes, in cancelling the contract of Mr. Leonard, and completing the same at the contractor's risk, will he cause inquiries to me made, with a view to the granting of compensation to Mr. Leonard for losses thus sustained?

MR. SUTHERLAND answered:—I find that the bond in this contract (value £505) was signed on the 19th July, 1886, the work to be completed in three months. The contract was cancelled 1st August, 1887. The Contractor Leonard has justly forfeited his right to receive any money accruing under his contract, but inquiry will be made on completion of the work if there will be any surplus over payments made and cost of completion, and a decision will then be arrived at.

No. 54.

Mr. J. Fraser *re* complaint against Mr. Adams.

Sir, Forbes, 25 October, 1887.

I am glad to see that you have thought fit to retain Mr. Adams, our respected Road Superintendent, in this district. He is the man we should have had in this district years ago. We should have had better roads. I am glad to see that he has taken the stand he has done, and I hope through his management we shall have contractors who will perform the works contracted for. It has never been done to my knowledge before, now twenty-six years of which I have been a resident of Forbes. We will now have good roads. I know most of the contractors, and every mile of road for a radius of 100 miles around Forbes, and I never saw better work being done than under the present manager.

I hope Mr. Adams will long be with us, so say the travelling public.

Yours, &c.,
JAMES FRASER.

Acknowledge receipt, put with Mr. Adams' papers.—W.C.B., 28/10/87. Acknowledged, 28/10/87.

No. 55.

A. Stokes, Esq., M.P., to The Secretary for Public Works.

Sir, Legislative Assembly, Sydney, 26 October, 1887.

I have the honor to forward herewith two letters, one from the Contractor Bathgate, and one from Road-Inspector Adams to Commissioner for Roads. Without comment I forward them for your perusal with the additional fact that Bathgate's veracity is well known and accepted in the Forbes district, where he has resided for many years and regarded as a sober, honest, and industrious man.

I have, &c.,
A. STOKES, M.P.

[*Enclosures.*]

Report on paper 87-12,033 in *re* Bathgate, contractor.

Roads Office, Forbes, 19 August, 1887.

IT was on my return from the Southern Cross after inspecting some of the stone just coming from the hands of this man Reid, that I gave expression to the note of which contractor Bathgate complains. I was prompted to do so in consequence of finding the stone which Reid had broken for contractor Smith composed of a large percentage of quarry grit and rubbish, with ballast of turnip size in the body of the heaps. On a former occasion Bathgate was warned against employing this man, and for reasons then explained. He took no notice of this advice, but went straight off and employed him. It will be seen, therefore, that the memo. in question was written purely in the interest of the contractor, and which he has apparently failed to see. I therefore beg to submit, that in face of the foregoing it is a matter of indifference to us what the contractor does with it. Apart from this cause altogether, did Bathgate abandon the work? He did not even refer to the note when last at this office, nor yet of detention by flood, which he knew would at once be contradicted, but came demanding an extension of time, which, in justice to other men, was declined. It was my instructions to insist on the employment of "full numbers." This man did not hurry himself, and half of his contract time had expired before a single stone was broken at Eugowra. He wrought a week after the expiration of the specified time, nevertheless, half the stone is not out. Both the maintenance men have been calling out time after time for stone with which to carry on repairs, and if material is not in supply for their use, my power over them evaporates for the time being. The wool season is about to set in, and if Bathgate's time is extended it will be three months before any stone is available for repairs, and not an ounce in supply. If this extension is granted, I am convinced that we shall have similar applications from other quarters, and an example of one should be a lesson to all. Did these circumstances not prevail I should have allowed Bathgate some consideration, and now since the Commissioner has both sides of the question, I think he will see sufficient cause to justify my action.

In conclusion, I would take the liberty of suggesting that Bathgate be asked to square up what stone he has out, have it measured, and close with him at once. We could then have this material to keep up the road in the meantime, and let fresh contract for remainder when required.

ALEX. ADAMS,
Superintendent of Roads.

The Commissioner for Roads and Bridges, Sydney.

Mr. Bathgate's letter to the *Forbes Times*, in contradiction to the adjoining letter, which appeared in the Forbes paper on 14th October.

To the Editor of the Forbes Times.

Sir,—Will you allow me, through the medium of your paper, to refer to a report of Mr. Road-Superintendent Adams which appeared in the *Gazette* last week. Mr. Adams says, that after being warned against employing the man Reid, I went straight away and employed him. The statement is not true, for it was nearly five weeks afterwards that I took Reid on. Mr. Adams says, "Apart from this cause altogether, did Bathgate abandon the work?" I say that I did not, until in answer to an application for an extension of time, I was informed that my contract had been cancelled. Mr. Adams says

says that I "demanded" an extension of time. I asked for it respectfully on the ground of wet weather and floods, and those I should think would be good and sufficient reasons for allowing it. He also says, "Bathgate did not hurry himself, and half his contract time had expired before a single stone was broken at Eugowra." As a matter of fact I had four men employed breaking stone at Eugowra within three weeks of my signing the contract. He says that I wrought a week after the expiration of my specified time. I did no such thing; my specified time was the 14th September, but my contract was cancelled on the 23rd of August. Some time near the end of July, I informed Mr. Adams that I had about 130 yards of stone ready for measurement at Eugowra, and that the stone-breaker wanted money. To this he said, "Do you think the Government keeps me here to measure metal like that. Get it all out and I will inspect your metal." I have been informed that, while I was away in Forbes, four loads of inferior metal were brought from the Plain station quarry and put on the road at the Southern Cross. Mr. Scarr passed two heaps, but did not get out of his buggy until he came to where the four loads of inferior stone had been laid. I told Mr. Adams that I had not carted that metal there. He denied having authorized any one to put it there; but said perhaps Leonard had done so. I can prove who put it there when I am requested to do so.

It is very evident that my metal was approached with a made up mind.

All I wish is that the truth may be known, and that justice may be done. Hoping, Mr. Editor, that you will insert the above, as the matter has been made so public,

I am, &c.,
ALEXANDER BATHGATE,
Contractor.

N.B.—If Mr. Adams had said that he would measure my metal when asked to do so, I could have had 300 yards ready for him within a week.

Acknowledged.—28/10/87. Roads.—B.C., 29/10/87. Mr. Adams for a reply to Bathgate's letter at once.—W.C.B., 2/11/87.

No. 56.

Report by Mr. Road-Superintendent Adams on Contractor Bathgate's letter.

Roads Office, Forbes, 5 November, 1887.

In reply to Bathgate's letter appearing in the local *Times* paper, of the 14th ultimo, I have to state in reference to Reid, the stone-breaker, that if Bathgate did not employ him straight off, he did so as soon as it was possible, and that contrary to my instructions.

Before Bathgate was asked to square his stone for measurement on the 23rd August, he had left the work some time, and on receipt of this he declined either to square for measurement or to have anything whatever to do with the stone. At this time he was a conspicuous object about the local public-house corners.

A few days after his entering into this contract, his partner (Corbett) withdrew his interest on the score of having no surety for the recovery of his share of the contract money. They came to this office to see if any compromise could be arranged, failing which they parted, and as half his strength was gone, this, together with the stone-breakers' strike and detention by flood were put as arguments in favour of an extension of time.

He would not give stone-breakers a price to enable them to procure the proper quality of stone, hence he could not get them to work, fearing it would be condemned. Neither the quarries nor the country for miles around are affected by flood. How then could he be detained by flood?

On the 21st July, nine weeks after entering upon the contract, his attention was drawn to the fact that he had no stone carted out at Eugowra. He was then informed of my intention to put on men and horses if contract was not completed within time.

At the time, authority was received to order Bathgate to square up and take what steps were necessary for prompt supply; he should have had the stone almost all ready for measurement, as his contract bound him to cart it out and apply it afterwards, but what do we find? Of the 800 cubic yards, which he undertook to supply in four months, we find at the end of three that he has only 118 yards ready for measurement. Now, it must be patent to any right thinking man that this contractor had not the least intentions of fulfilling the conditions of his contract.

About the end of July he states that he called at this office to inform me that he had 130 cubic yards of stone ready for measurement, and that the stone-breakers wanted payment. He was then told that no measurement would be made until all the stone was out. Why did he not give these poor men a few pounds of the advance, which he himself had received two weeks before, not on his own work, but on theirs? He informed Mr. Scarr and myself that "all the money he received he paid away to the stone-breakers, &c." Since that time, however, a number of these men have called at this office in despair and stating that Bathgate had declined to settle up with them. It may here be mentioned too that I recommended one of these men to Bathgate, who informed me a few days ago that when he saw the stone Bathgate asked him to break he passed a remark as to its inferior quality, whereupon Bathgate replied that if the "Superintendent" did not take the stone he, with a few others, would see the reason why.

The few loads of stone he refers to at the Southern Cross were carted out by a man sent by me to do so, and is identical in quality with that supplied by himself and which he describes in his letter as inferior.

Anent Bathgate's last statement as to having approached his work "with a made up mind," I have only to remark that such an expression in itself speaks volumes for the character of its author.

ALEX. ADAMS,
Superintendent of Roads, &c.

The above report, and Mr. Stokes' letter herewith, as to "Bathgate's veracity, &c., &c.," might be compared.

Put with papers.—W.C.B., 7/11/87.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

WHALING ROAD, NORTH SHORE.

(PETITION TO BE HEARD BY COUNSEL BEFORE SELECT COMMITTEE ON—DIRECTORS OF NORTH SHORE GAS COMPANY.)

Received by the Legislative Assembly, 23 *February*, 1888.

To the Honorable the Speaker and the Honorable Members of the Legislative Assembly of the Colony of New South Wales, in Parliament assembled.

The humble Petition of the undersigned Directors of the North Shore Gas Company (Limited), whose registered office is situate at St. Leonards, in the Colony of New South Wales,—

SHOWETH :—

1. That a Select Committee has been appointed by your Honorable House to inquire into and report upon a certain road called the Whaling Road, at St. Leonards.

2. That your Petitioners, as Directors of the said North Shore Gas Company, are in possession, on behalf of the said Company, of and claim to be entitled to portions of the land alleged to be included in the said Whaling Road, and are otherwise interested in the subject matter of the inquiry referred to the said Select Committee.

Your Petitioners therefore humbly pray that they may be heard by counsel, attorney, or agent, before the Select Committee, upon the said inquiry, with liberty to adduce such evidence as they may be advised in support of their aforesaid rights and claims in respect of the said land, and otherwise in support of this Petition.

And your Petitioners, as in duty bound, will ever pray, &c.

Dated this twenty-third day of February, one thousand eight hundred and eighty-eight.

(THIRD SESSION.)

NEW SOUTH WALES.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTION OF LAND FOR ROAD TO CONNECT OLD SOUTH HEAD ROAD WITH FORTS AT BONDI.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA No. 16.

NEW SOUTH WALES, to wit. } By His Excellency The Right Honourable CHARLES ROBERT, BARON CARRINGTON, a Member of Her Majesty's Most Honourable Privy Council, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

(L.S.) CARRINGTON, *Governor.*

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the carrying out of certain works for and in connection with the construction of a Military Road to connect the Old South Head Road with the proposed Forts near Bondi, in the said Colony, for and towards the completion of which said works public funds are available under the provisions of the Act 51 Victoria No. 14, "Appropriation Act of 1887"; and whereas the lands hereinafter described are required for the construction of the said works: Now, I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification, published in the Gazette, and in a newspaper, that is to say, in the "Sydney Morning Herald," circulated in the Police District wherein the said lands are situated, declare that the land hereinafter described has been resumed for the public purposes hereinafter mentioned, that is to say, for and in connection with the construction of a Military Road to connect the Old South Head Road with the proposed Forts near Bondi, to the intent that, upon the publication of this notification in the Gazette, the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors, on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estate, interests, contracts, charges, rates, rights-of-way, or other easements whatsoever; and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act: And I declare that the following is the description of the lands hereinbefore referred to, that is to say:—

All that piece or parcel of land situate at Bondi, in the parish of Alexandria, county of Cumberland, being a strip of land along the main sewer line, 50 feet on each side thereof, or 100 feet wide in all: Commencing at the south-west corner, which is a point on the eastern building-line of the Old South Head Road, and bearing 31 degrees 12 minutes 86·8 links and 93 degrees 44 minutes 20·5 links from an alignment post thereon; bounded on the south by a line bearing 93 degrees 44 minutes 8,210 links to the shores of the Pacific Ocean; thence on the east by the Pacific Ocean in a northerly direction 151·5 links; thence on the north by a line bearing 273 degrees 44 minutes 8,132½ links to the Old South Head Road; and thence on the west by that road bearing 211 degrees 12 minutes 136½ links, to the point of commencement,—containing 12 acres 1 rood 20¾ perches, inclusive of roads, and said to be the property of the Sydney Syndicate, S. Freidman, J. Robinson, —Holdsworth, F. O'Brien, sen., F. O'Brien, jun., H. Heron, L. J. Ebsworth, H. Whitlock, S. Fehrenbach, and others at present unknown.

In witness whereof, I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this ninth day of August, in the year of our Lord one thousand eight hundred and eighty-seven, and in the fifty-first year of Her Majesty's Reign.

By His Excellency's Command,

JOHN SUTHERLAND.

GOD SAVE THE QUEEN!

1887.

No. 1.

The Secretary, Shire of Benalla, to The Chief Secretary, Sydney.

Sir, Council Chamber, Benalla, 20 August, 1877.

I have the honor, by direction of the Council of the Shire of Benalla, to communicate with your Government to ascertain if your Government be willing to co-operate with the Benalla Shire in erecting a bridge over the river Murray, at Yarawonga, which is much needed there, and if arrangements can be come to as to the share of the expense to be borne by each, and as to the work of erection generally. Roads,—77-4,702.

I have, &c.,
W. L. MARTYR,
Secretary.

Acknowledged, 21/8/77. The Under Secretary for Public Works.—H.H., B.C., 21/8/77. Roads for report.—J.R., B.C., 23/8/77. Mr. Dooner for full report.—W.C.B., 25/8/77. Reported.—P. DOONER, 6/9/77.

No. 2.

Report by Assistant-Engineer Dooner.

Sir, Albury, 5 September, 1877.

I have to report, in accordance with your minute of the 25th of August, 1877, on the annexed letter from the Benalla Shire Council, inviting co-operation of the Government of New South Wales in erecting a bridge over the Murray River, between Mulwala and Yarrawonga.

Mulwala is a township on the Murray, about 25 miles below Corowa, and it is the least progressive of any town in this district.

Yarrawonga is a thriving town on the Victorian bank of the river, and opposite to Mulwala.

The Murray River and its banks at this place is not unlike the site suggested for a bridge at Howlong, except that the high bank is on the New South Wales side, and the flat and flooded ground is on the Victorian side. The total cost of a bridge would be about the same as at Howlong. At present there is a good punt on the river, licensed by the New South Wales Government.

Benalla is the nearest station on the Victorian North-eastern Railway, in the direction of Melbourne, and distant from Mulwala 40 miles. (*See* sketch).

With respect to the traffic between Mulwala and Yarrawonga, the Officer of Customs at Corowa has informed me that it is of no great extent. It is not considered necessary to station an officer of the Customs Department there, as it is not a port of entry. I have also made inquiries respecting the general traffic crossing at Mulwala into Victoria. In 1875, 220 bales of wool and a few thousand feet of timber were forwarded by steamer to Echuca. No other record kept. No records for 1876. Appendix A.

The country on the New South Wales side of the Murray, from Corowa to Boomanoomana (15 miles from Mulwala), and for, I think, nearly 5 miles back from the river, is all alienated (*see* map of counties Hume and Denison), and, with the exception of perhaps a score of village farmers, the land is used for pastoral purposes about Mulwala. I mention this to show that the population on the New South Wales side to be accommodated is small.

The

The wool produced in the Mulwala district is sent down the river from Boomanoomana, Tocumwal, and from Corowa, *via* the Victorian North-eastern Railway, at the Springs Station. Stock is principally crossed at Corowa, but, from such information as I could glean, it is estimated that, if there was a bridge at Mulwala, the wool crossings from the neighbouring stations would be at least 5,000 bales per annum, and some of the general traffic now crossing at Corowa would cross at Mulwala—in fact, a new line of traffic would be opened, as it is the more direct route to Melbourne. It is possible that a bridge at Mulwala may induce Victorian farmers to settle on the New South Wales side, either by selecting some of the country back from the river, or by leasing the fine land on the river front, now used for pastoral purposes; but, in the present state of settlement, I do not think a bridge at Mulwala to be urgently required.

I have, &c.,
P. DOONER.

I do not think the proposal should be entertained. There was last year a proposal for a bridge at Howlong over the Murray, which I recommended should not be granted, as it was not required until our farmers could take their produce into Victoria without duty. I have long since pointed out that the entire question of punts and bridges over the Murray should be taken into the joint consideration of both colonies. A large revenue has hitherto been lost to both for want of co-operation as to the punts. There can be no question but that bridges are required over the Murray between Corowa and Echuca, but I think the sites should be determined by a consideration of the entire question, and not in a partial way.—W.C.B., 10/9/77. Under Secretary, B.C.

Inform matter under consideration with reference to best site.—J.R., 14/9/77. Benalla Shire Council informed, 17/9/77. Roads.—J.R., B.C., 17/9/77. Resubmit with Howlong Bridge papers when they are being dealt with.—W.C.B., 19/9/77. Submitted.—26/10/77. Put with Howlong Bridge papers.—W.C.B., 27/10/77.

No. 3.

Map showing Victorian Railways. (*Vide* Appendix A.)

No. 4.

The Under Secretary for Public Works to The Secretary, Benalla Shire Council, Victoria.

Sir, Department of Public Works, Sydney, 17 September, 1877.

Referring to your letter of the 20th ultimo, requesting the co-operation of the Government of this Colony in the construction of a bridge over the Murray River, between Yarrawonga and Mulwala, I am directed to inform you that the matter is under consideration with reference to the best site.

I have, &c.,
JOHN RAE,
Under Secretary.

No. 5.

The Secretary, Benalla Shire Council, to The Chief Secretary, Sydney.

Sir Council Chambers, Benalla, 15 December, 1877.

I have the honor to again address you, and to refer to yours of 17th September last, relative to the construction of a bridge over the Murray River, between Yarrawonga and Mulwala, and respectfully to inquire if your Government have taken the matter into consideration yet.

I have, &c.,
W. L. MARTYR,
Secretary.

The Under-Secretary for Public Works.—H.H., B.C., 18/12/77. Roads.—G.H. (for U.S.), B.C., 22/12/77. Previous papers.—W.C.B., 24/12/77. Mr. Dooner for report; he need not make section. —W.C.B., 25/2/77. I have to refer you to my report dated 5th September, 1877. I herewith send a duplicate report from my notes.—P. DOONER, 28/2/78.

No. 6.

Memo. from The Secretary, Yarrawonga Shire Council (*per* J. Leary, Esq., M.P.), to The Secretary for Public Works.

Council Chambers, Yarrawonga, 21 January, 1879.

1st. Will you furnish me with a Government plan of the parish or township of Mulwala, showing the roads that debouch or abut on the river Murray, with the site delineated thereon of any wharf or place where the present punt is authorized to ply for hire; also whether the river frontages there have been alienated by fee-simple, or in any other manner from the Crown.

2nd. As to the terms, if any, which give the present punt-owner (Joseph Halburd) the privilege of keeping a punt for hire; if a license—its nature and duration, and how terminable, the conditions as to tariff of charges for the use thereof, and the times when it may be used by the public.

3rd. Would the Government be willing to fix a scale of charges for the punt, to be kept exhibited by the punt-man, and to place the same under municipal or official control locally.

4th. Would the Government afford facilities for the establishment of a punt by the Council of this Shire under a tariff and regulations to be framed.

5th.

5th. Would the Government afford facilities for the obtaining an Act of Incorporation by the Legislature of New South Wales for a Joint Stock Company for constructing a bridge, and levying tolls thereon, as in the case of the Corowa and Wahgunyah Bridge.

6th. Is there any Companies Statute or other law under which such a Company could be established in New South Wales.

JOHN C. CAFFIN,
Secretary.

I should feel favoured with your early attention to within. I am not personally acquainted with the writer of same, but as it has been sent from the Council, &c., I deem it only courtesy to obtain, if possible, this information.—JOSEPH LEARY, 30/1/79.

Acknowledged, 1/2/79. Roads.—J.R., 1/2/79. Will Mr. Eames have the necessary inquiries made in the first instance, and a lithograph or tracing obtained.—W.C.B., 4/2/79. Mr. M'Manus for tracing or lithograph. Lithograph herewith.—H.M'M., 6/2/79.

Mr. Harriott states that Halburd has no authority from Occupation Branch of Crown Lands to run a punt. A complaint respecting this man was received the other day, and is now being dealt with. The other queries cannot be answered by him.—J.S.W., 7/2/79.

Tracing of the town of Mulwala sent herewith.—H.M'M., 12/2/79.

No. 7.

The Secretary, Yarrawonga Shire Council (*per* J. Leary, Esq., M.P.), to The Secretary for Public Works.

Dear Sir, Council Chambers, Yarrawonga, 21 January, 1879.

I have the honor to bring under your notice a desire entertained by the inhabitants of this Shire and of the Council for increased facilities for intercourse with the inhabitants of the Colony of New South Wales dwelling to the north of the Murray, towards Jerilderie.

Nature has provided easy access to the river Murray, both at Mulwala and here, together with a good site and approaches for a bridge, nowhere equalled between Corowa and Echuca.

Advantage has been taken by private enterprise to establish a punt here, but the experience at present shows that this has become a monopoly, worked without regard to regularity or consistency of tariff, and tending to retard and discourage those relations of social and commercial intercourse which it is desired and desirable shall be fostered and encouraged.

It is the earnest wish of the inhabitants that a bridge shall be constructed across the Murray at this point, and they have received the assurance that the Government of Victoria will liberally contribute towards the erection of one.

I have therefore the honor to request that you would be so good as to lay this matter before the Government of New South Wales, and urge upon them the necessity of an early inquiry into the wants of the inhabitants of your Colony in regard to this matter, and also as to the feasibility and the cost of the undertaking.

I have also the honor to request that you will be good enough to inquire and furnish me with information to the queries on the accompanying memorandum to this letter.

This paper not to records.—J.S.W., 4/2/79. Since received 79-735.

I shall be happy if you will operate with Geo. Day, Esq., M.P., who has been communicated with in terms of this letter, and to hear that the proposal has received favourable consideration by the Government of New South Wales.

I have, &c.,
JNO. C. CAFFIN,
Secretary.

I shall feel favoured with your early attention to within, and a reply to same at your earliest convenience.—JOSEPH LEARY. Acknowledged, 3/2/79. Roads.—J.R., B.C., 3/2/79. Resubmit with paper as to punt received yesterday, and inquire as to paper noted on back by Mr. Whitney as missing.—W.C.B., 5/2/79.

No. 8.

Minute by The Commissioner for Roads.

WITH reference to the application for a bridge, Mr. Dooner's report herewith does not recommend its construction. I concur with him in thinking it is not required.

I forward herewith tracing from the map of Mulwala, and also lithograph of the county showing the information asked for.

The present lessee has no authority to run a punt, except a license from the Customs, which can be withdrawn at any time. There are no conditions as to tariff or charges. The Government cannot fix charges or tolls, as there is a resolution of the Assembly prohibiting.

I cannot see how the Government can give any control in this case. The Murray River is in New South Wales, but we cannot, without the co-operation of Victoria, give a right to land on the opposite side. I have frequently pointed out the loss and inconvenience to the public, arising out of the want of unity of action with reference to punts and bridges over the Murray, and suggested that some steps should be taken to have an arrangement with the Victorian Government on the question generally.

Giving a charter to a Joint Stock Company would get over much of the difficulty; but much trouble has arisen, as at Wagga and Richmond, in such cases, and if given it should only be on condition that the Government could resume the bridge at cost price after (say) ten years, and at an annually decreasing rate each year after that period.

W.C.B., 26/2/79.

Under Secretary, B.C.

Inform.—J.L., 7/3/79. J. Leary, Esq., M.P., informed, 20/3/79. Roads.—J.R., B.C., 20/3/79. File, 21/3/79.

No. 9.

No. 9.

The Under Secretary for Public Works to J. Leary, Esq., M.P.

Sir, Department of Public Works, Sydney, 20 March, 1879.

Referring to memorandum, dated the 21st January last, from the Secretary to the Shire Council of Yarrawonga, forwarded by you on the 30th, upon the subject of ferry and proposed bridge over the Murray River at Mulwala, I have the honor to transmit herein a tracing from the map of Mulwala, and a lithograph of the county, as requested, and to inform you that Mr. Halburd has no other authority to ply a punt than a license from the Customs authorities, which can be withdrawn at any time, there being no conditions or stipulations as to tolls, &c., to be charged, and under a resolution of the Legislative Assembly of this Colony in favour of abolition of tolls, the Government are unable at present to fix any dues for ferries. Although the river Murray is in New South Wales this Government alone cannot exercise any effective control over ferries across that river, as they have no power to concede a right to land on the Victorian side. With reference to the question of giving a charter to a Joint Stock Company to erect a bridge, in addition to the inability to give a right to land on the south bank, so many other difficulties have arisen in similar cases at Wagga, Corowa, and Richmond, so that any future Act of Incorporation must contain much larger powers to resume, and define the price at which the bridge can be taken over by the Government.

I have, &c.,
JOHN RAE,
Under Secretary.

No. 10.

Petition for Erection of Bridge.

George Day, Esq., M.P. Mulwala, 21 July, 1879.

Dear Sir,

At a numerously attended public meeting held at Mulwala some time since it was resolved that the inhabitants of this neighbourhood should petition the Government to join the Government of Victoria in erecting a bridge at this crossing-place. The petition has now been extensively signed, and I have been requested to send it to you for presentation to the Government. Therefore, on behalf of the meeting, I would thank you very much to see it forwarded to its destination as soon as possible, and should like it to reach His Excellency Sir Alfred Stephen before his term of office expires. As you are doubtless aware, this is one of the oldest crossing-places on the Murray, and very little Government money has been expended in the neighbourhood, whilst the revenue derived from it has been very large.

I trust you will, on behalf of the residents here, press upon the Government the importance of this work, and that you will use your influence as Member of Parliament for the district to urge upon the Government of New South Wales the propriety of joining the Government of Victoria in the construction of this bridge. By so doing you will confer a great favour on the residents of this part of your district.

I should like to have been able to send this in before you left Sydney, as I presume it is probable you may not return there till Parliament re-assembles; if, therefore, you would kindly take the trouble to forward it you would greatly oblige.

Yours, &c.,
ALEXANDER SLOANE.

In compliance with the request contained in Mr. Sloane's letter, I now forward the petition to you.—GEO. DAY. His Excellency Sir Alfred Stephen, K.C.M.G., Sydney. Colonial Secretary.—A.S., 28/7/79. Submitted, 28/7/79. Secretary for Public Works. Perhaps Mr. Lackey will obtain a report from the proper officer on this application, and the expediency of the executing the work proposed.—H.P., 28/8/79. The Under Secretary for Public Works.—C.W., B.C., 29/7/79. Roads.—G.H., B.C., 4/9/79. See minute on papers herewith.—W.C.B., 18/10/79.

No. 11.

Petition in favour of Erection of Bridge.

(Referred to in foregoing letter.)

To His Excellency Sir Alfred Stephen, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, and a Companion of the Most Honorable Order of the Bath, Lieutenant-Governor of New South Wales, and to Her Majesty's Ministers of the Colony of New South Wales, in Council assembled.

May it please your Excellency,—

The Petition of the undersigned subjects of Her Majesty, in the Colony of New South Wales, residents in the counties of Denison, Hume, Urana, and district towards Jerilderie and the Billabong, humbly showeth:—

That your Petitioners have great and growing interests in trade and agriculture with the portion of the Colony of Victoria lying southward of Mulwala, towards Wangaratta, Benalla, and Yarrawonga, which necessitate an easier and more efficient mode of communication between the two colonies.

That the means of communication between the two colonies here is inadequate.

That a natural highway approaches the river Murray on each bank at Yarrawonga, with a site for a bridge superior to that at any other place on the river between Albury and Echuca.

That the extensive character of the agricultural settlement, and the importance of the towns in each Colony which would be benefited by an improved mode of communication, warrant the means which your Petitioners desire.

Your Petitioners therefore earnestly pray that your Excellency will be pleased to urge upon the Government of Victoria the necessity of a bridge over the Murray, at Yarrawonga and Mulwala, and to co-operate with them in its construction at an early date.

And your Petitioners, as in duty bound, will ever pray, &c.

[*Here follow* 117 *signatures.*]

No. 12.

The Secretary, Yarrawonga Shire Council (*per* G. Day, Esq., M.P.), to The Superintendent of Roads and Bridges.

Dear Sir, Council Chambers, Yarrawonga, 18 August, 1879.

I had the pleasure of handing to Mr. A. Sloane, J.P., of Mulwala, last month, a petition from residents in the district of Hume, New South Wales, and also one from residents of Victoria, in this Shire and district, praying for the construction of a bridge over the Murray here. About the same time a similar petition, signed by 420 persons, was presented to the Government of Victoria, through the Honorable the Minister of Public Works. I am happy to say with regard to the latter that the Minister gave an assurance, that the Government of Victoria would contribute half the cost of the work, if the Government of New South Wales would contribute the other half.

On behalf of the joint Committee of residents of New South Wales and Victoria, representing the petitioners, I have the honor to request that you will please see the Secretary for Public Works and ascertain if his Department is willing to place a sum on the Estimates in the next financial year for this work, and also urge upon the members of the Government to undertake this work, as one of national importance, which will benefit the petitioning districts and the Colonies generally, by drawing closer the bonds of social and commercial intercourse, and casting down the barrier which now impedes the attainment of this object.

Also that you will please get the Government (Public Works Department) to send an officer to report upon the cost and feasibility of the work.

With reference to this matter, I am requested to ask you to get the Minister (Secretary for Public Works) to renew the license granted to J. W. Coghill for a punt, as it is felt that the only cure at present for the evils of which the Yarrawonga Shire Council have previously complained, and to which the traffic is subject, consists in supporting the new enterprise to be conducted under the control of his Department.

I have, &c.,
JNO. C. CAFFIN,
Secretary.

In June last I forwarded the petition referred to in this letter to the Works Department, or to His Excellency the Lieutenant-Governor, and no answer has been received. Will you therefore kindly look the matter up, and send me an answer, and you will much oblige me if you will give this letter your favourable consideration at the same time.—G.D., 26/8/79.

Acknowledged, 8/9/79. Roads.—G.H., B.C., 8/9/79. See minute herewith.—W.C.B., 18/10/79.

No. 13.

Minute by The Commissioner for Roads.

Sydney, 12 September, 1879.

With respect to the application from the Shire Councils of Yarrawonga and Benalla, Victoria, and from the residents of Mulwala, New South Wales, herewith, I have to refer to my report of the 26th February, though I do not therein recommend the construction of the bridge.

I would wish to add that I consider this a more important crossing to bridge than that at Howlong, which is between the Albury and Corowa or Wahgunyah Bridges. The bridges would cost about £10,000 each, and both will at no distant date become necessary, but the consent of New South Wales to their construction, should I think, hinge on the determination as to railway extension to Urana, which it would be to the advantage of New South Wales to have open before the construction of these bridges. The case might be considered with that of the purchase of the Wahgunyah Bridge.—W.C.B., 18/10/79. Under Secretary, B.C.

Forward to the Colonial Secretary.—J.L., 23/10/79. Principal Under Secretary.—G.H., B.C., 23/10/79. Returned.—C.S.O., 25/10/79. Submitted, 8/11/79.

No. 14.

The Secretary, Yarrawonga Shire Council (*per* J. Leary, Esq., M.P.), to The Secretary for Public Works.

Dear Sir, Council Chambers, Yarrawong, 14 February, 1880.

I have the honor, by direction, to again bring under your notice the subject of erecting a bridge over the river Murray here, with a view to afford increased facilities for intercourse between the two Colonies. In view of the difficulty of bringing the two Governments to co-operate in the construction of a public bridge, it has been determined by the inhabitants of this locality to promote the building of a bridge by a Company. I am directed to ask you to advise the promoters the best way to proceed in getting an Act of Incorporation through the New South Wales Parliament—whether the Government or yourself, or any other Member of the House, would take charge of the Bill in the House; by whom, and at what cost, the promoters could get a Bill drafted after the model of the Wahgunyah Murray Bridge Act, which would be considered by the Committee in the first place, and forwarded in manuscript to you, and what would be the approximate cost of the preliminary work of floating the undertaking.

This is a work so much desiderated in this part of the two colonies that I am sure you would earn the esteem of many people if you will forward this matter to the utmost of your ability, and advise me concerning those gentlemen in Parliament whom the promoters might interest in the movement by writing to them.

Your early reply will be esteemed.

I have, &c.,
JNO. C. CAFFIN,
Secretary.

The Honorable the Minister for Works.—Joseph Leary, Stephen Court, 4/3/80. Acknowledged, 10/3/80. The Principal Under Secretary, in reference to previous papers.—G.H., B.C., 10/3/80.

No. 15.

No. 15.

The Secretary, Yarrawonga Shire Council (*per* W. Clarke, Esq., M.P.), to The Under Secretary for Lands.

Sir, Council Chambers, Yarrawonga, 26 April, 1882.

Appendix B I have the honor to request that the area of land delineated and marked in pink colour on the accompanying tracing, being allotment 210, in the parish of Mulwala, may be resumed as a site for a bridge which it is projected to erect across the Murray River at this place.

I have, &c.,
JNO. C. CAFFIN,
Secretary.

Presented by William Clarke, M.P., 4/5/82.

I am informed that this application is made in connection with a bridge which it will be sought to erect by Parliamentary sanction.—C.O., 4/5/82. Special.—For report of Survey office.—J.D. (*pro* F. H. Wilson), 5/5/82. Mr. G. Lewis.

The land referred to is included within the boundaries of the Murray River Forest Reserve No. 1,793. It will not be necessary, therefore, to make any further reservation until a report has been obtained from the Department of Public Works upon its eligibility as a site for a bridge, should it ever be determined to carry out such a work.—G.L., 12/5/82.

Submitted that writer be informed that the land referred to is included in the forest reserve, &c. —F.H.W., 16/5/82. Yes, but a note should be made on the plan of this application, so as the question may be considered should the timber reserve be revoked.—C.O., 18/5/82. Writer informed, 20/5/82. Mr. G. Lewis, 20/5/82. Mr. Middleton, 25/5/82. Plan noted accordingly. Mr. Wilson, for reference to the Department of Public Works.—G. Lewis, 29/5/82. In reference to Works Department intended.—J.D., 31/5/82. I think so.—F.H.W., 31/5/82. The Under Secretary for Public Works.—C.O., B.C., 2/6/82. Roads.—J.R., B.C., 6/6/82. Previous papers.—W.C.B., 9/6/82. Ask for lithograph referred to.—W.C.B., 10/6/82. Lithograph submitted, 18/6/82. Mr. Duffy,—

Appendix C Please mark on lithograph best site, as far as you can judge by inspection. If in Mr. Cronin's district, send papers to him.—W.C.B., 23/6/82. Mr. Duffy, B.C.

Nos. 16 & 17.

Tracing showing portions 270 & 271, the parish of Mulwala. (*Vide* Appendix B.)
Lithograph of parish of Mulwala. (*Vide* Appendix C.)

No. 18.

Memo. from Mr. Road-Superintendent Duffy *re* site for Bridge.

Herewith I return papers and lithograph plan referring to the proposed bridge by the Mulwala and Yarrawonga Bridge Company over the Murray River, at Mulwala.

The only suitable site for a bridge to connect these two villages is at the present punt-crossing, marked by red line on the lithograph map.

The red band shows the main street to the punt, the dotted line the track to the punt through reserve, which runs along the edge of high land surrounding Mulwala lagoon.

JAMES J. DUFFY.

29 June, 1882.

Mr. Duffy does not deal with the question referred to him, as to whether the allotment shown in red should be specially reserved or not. I think it should, but at the same time I should record the opinion that it is not advisable to allow any Company to construct a bridge.—W.C.B., B.C., 1/7/82. Mr. Duffy.

No. 19.

Further Report by Mr. Road-Superintendent Duffy.

The allotment No. 210, coloured red, is a portion of the Murray River State forest, and is reserved from sale, unless thrown open by *Gazette* notice, and I do not consider any action necessary. The proposed Company will have to get an Act of Parliament before they can build, which, I understand, they intend to apply for next session.

If there was any danger of this piece of land being sold, it could be specially reserved, not alone for the timber, but as an approach to a future bridge.

J.J.D., 4/7/82.

I think a special reserve should be made.—W.C.B., B.C., 6/7/82. Under Secretary. Under Secretary for Lands.—J.R., B.C., 10/7/82. Submitted that the special reservation of the land for future bridge requirements may perhaps be made.—F.H.W., 14/7/82. C.O., 21/7/82. Approved.—22/7/82. Mr. G. Lewis for description.—J.D., 24/7/82. Description prepared.—T.P., 28/7/82. In accordance with Ministerial approval, a description of reservation of portion No. 210, parish of Mulwala, county of Denison, is now enclosed.—G. Lewis, 14/8/82. For Executive Council minute.—J.D., 16/8/82. Executive Council minute. Land Agent informed, 4/9/82. Charted, traced, plan noted, &c.—T.P., 12/9/82. Examined.—G.B., 12/9/82.

No. 20.

No. 20.
Government Gazette Notice.

Reserve from sale for future bridge requirements.

Department of Lands, Sydney, 4 September, 1882.

His Excellency the Governor, with the advice of the Executive Council, directs it to be notified that, in pursuance of the provisions of the 4th section of the Crown Lands Alienation Act of 1861, the land specified in the schedule hereto shall be reserved from sale for future bridge requirements.

JOHN ROBERTSON.

Murrumbidgee District.

No. 3,007. County of Denison, parish of Mulwala, Mulwala Run, area 3 roods 13 perches. The Crown Lands within the following boundaries: Commencing on the right bank of the Murray River at the eastern extremity of the north-eastern boundary of portion No. 270 of 3 roods 23 perches; bounded thence on the south-west by that north-eastern boundary bearing north 81 degrees 12 minutes west 1 chain 47 links; thence on the west by a line partly forming the east boundary of the portion mentioned bearing north in all 4 chains 17 links; thence on the north by a line bearing east 2 chains; thence on the east by a line bearing south 3 chains to the Murray River; and thence by that river downward, to the point of commencement,—being portion No. 210, as shown on plan catalogued D 125.—1,798 Surveyor-General's Office.

[Ms. 82-10,434]

No. 21.
Office Memo. as to reservation of land.

A tracing is enclosed showing reserve No. 3,007, notified 4th September, 1882.

County of Denison, parish of Mulwala, for the information of the Crown Lands Agent at Corowa.

G. LEWIS,

(For the Surveyor-General).

The Under Secretary for Lands.—B.C., 14 September, 1882. Dealt with in Reserve Branch. The Department of Public Works should probably be informed of this action. The Land Agent, with tracing, 19/9/82. Forwarded for the information of Public Works Department.—F.H.W. The Under Secretary for Public Works.—C.O., B.C., 21 September, 1882. Roads.—J.R., B.C., 22/9/82. Mr. Wells (for Mr. Duffy).—W.C.B., 23/9/82. Noted.—J.J.D., 17/10/82. File.—W.C.B., 18/10/82.

No. 22.
L. Levin, Esq., M.P., to The Secretary for Public Works.

Sir, Corowa, 21 July, 1883.

I have the honor to forward a prospectus of the Yarrawonga and Mulwala Bridge Company, who wish to apply to Parliament next session and get a Bill passed to enable them to construct a bridge across the river Murray at Mulwala.

Before proceeding further in the matter the directors wish me to arrange an interview with you when it would be convenient for you to receive a deputation.

The object of the deputation is to ascertain from you whether, "in the event of a Bill being introduced to Parliament, the Government will support the measure, or whether you are opposed to a private Company building a bridge as intended."

A great deal of time might be saved to you and expense to the promoters if you would kindly favour me with an early reply as to what steps the Government will take when such a measure is introduced, and dispense with the deputation; or, if you wish to hear their own views personally, kindly state when most convenient.

I have, &c.,

L. LEVIN.

Replied to 30/7/83. Will the Commissioner for Railways let me know what Victorian railway line, if any, is near this place.—F.A.W., 27/7/83. Railways.—J.R., B.C., 1/8/83.

The Victorian line to Wahgunyah is about 30 miles to the east of Yarrawonga. A line to Yarrawonga was proposed in the Victorian Railway Bill of 1882, and according to the prospectus this line is now under construction.—H.M'L., 3/8/83.

I do not think it would be in the interests of New South Wales to advocate the construction of this bridge, nor indeed in the interests of the promoters, even if they have Victorian aspirations, because our line to Jerilderie must take a large portion of the traffic, and the balance will not pay interest upon their outlay.—Ch.A.G., 3/8/83.

Noted. I have written Mr. Levin.—F.A.W., 6/8/83.

No. 23.
The Secretary for Public Works to L. Levin, Esq., M.P.

Sir, Department of Public Works, Sydney, 31 July, 1883.

In reply to your letter of the 21st instant, I have the honor to inform you that I shall be happy to receive a deputation from the promoters of the proposed bridge between Yarrawonga and Mulwala, on any Friday that may be suited to them, provided that I am previously informed of it.

I am not prepared to give you an answer as to whether the Government would or would not oppose a Bill introduced by a private Company for building such a bridge. Personally I am opposed to such privileges being granted, because, in our past experience, it has always been found that these bridges have eventually to be acquired by the Government, and are much more costly in that way than if they were built in the first instance by the Department.

I have, &c.,

F. A. WRIGHT,

Secretary for Public Works.

No. 24.

Prospectus of the Yarrawonga and Mulwala Murray Bridge Company.

To be incorporated by special Act of the Parliament of New South Wales, with limited liability.

Capital, £12,000, in 12,000 shares of £1 each. Payable, 2s. 6d. per share on application, and 2s. 6d. per share on allotment. Further calls not to exceed 2s. 6d. per share. One month's notice to be given of each call.

It is not anticipated that more than 10s. per share will be called up, as the present intention is to issue debentures for any further sum required.

Provisional Directors.

Alexander Sloane, Esq., J.P., Mulwala.

H. T. Whitty, Esq., Turramia.
E. Townsend, Esq., Nangunia.
E. H. Creed, Esq., Mulwala.
H. F. H. Budd, Esq., Lallalte.
John Allison, Esq., Yarrawonga.

Solicitors—Messrs. Malleson, England, & Stewart, Queen-street, Melbourne.
Bankers—The National Bank of Australasia.
Secretary—Mr. J. C. Caffin, Belmore-street, Yarrawonga.
Brokers—Messrs. J. A. S. Clarke & Co., 20, Temple Court, Melbourne and Yarrawonga.

Objects—This Company is being formed for the purpose of constructing a bridge across the river Murray, between the towns of Yarrawonga, in Victoria, and Mulwala, in New South Wales, to acquire lands in the two colonies necessary thereto, and to secure legislative action to control and levy tolls thereon.

Site—The site of the proposed bridge has been a high road from New South Wales to Victoria for the past thirty-six years, and is far superior to any site between Albury and Echuca, owing to its natural advantages, and the comparative cheapness of a bridge at this place, the banks of the river being confined and free from the extensive lagoons which are so characteristic along the course of the Murray, and there being an abundance of red gum growing adjacent, this description of timber being admirably suited for the construction of bridges. The site is one that must commend itself to those acquainted with that part of the country, and a bridge erected there will command a traffic (if not superior) second to none other across the Murray. On the Victorian side is situated the rising agricultural town of Yarrawonga, being the principal town in the Shire of that name, its population being daily augmented. The Shire contains an area of 814 square miles, with a population by last Census of 6,100 persons, now estimated at nearly 10,000, and this settlement has taken place entirely within the last few years. The district has proved itself the finest wheat-producing one in Victoria. On the New South Wales side is the town of Mulwala, and the county of Denison, and this is occupied by a number of prosperous squatters and settlers. The produce from 750,000 acres, and the wool from 1,000,000 sheep, with the trade and traffic from that part of Riverina up to the Yanko, including the towns of Jerilderie, Urana, Conargo, &c., would of necessity be directed across this bridge. As a further reason why this site of all others is most suitable as a crossing-place is that the Victorian Government is now constructing a line of railway to Yarrawonga, which will materially help to develop the resources of the districts on each side of the river, and promote profitable interchange between the people, giving traffic to the bridge, and thus swelling the dividends of the Company.

Prospects.—The capital of the Company will be found ample for the purposes required, and shareholders may look forward to very handsome dividends. The success that has attended the proprietors of the Wahgunyah Murray Bridge Company serves as a guide in calculating probable results. The capital of this Company was paid up to £8,000, their bridge (being erected in 1861, when cost of labour, &c., was much dearer) supplying a district then but sparsely settled, and in every way inferior to the one the Company will command, has, notwithstanding, paid dividends to its shareholders, ranging from 17 to 25 per cent. per annum, the profits being for the year ending 1865 £823 15s. 4d., while the year ending 1880 netted £1,627 11s. 10d., an increase of over 100 per cent. on the profits. This bridge has lately been purchased by the Government for its cost, with 10 per cent. added. The Company now being formed will, it is confidently anticipated, net considerably more than the above figures. As an earnest of the *bonâ fide* of the Company, 4,000 shares, or one-third of the capital, have been subscribed for locally at the invitation of the projectors, and many more will undoubtedly be placed in the districts. As soon as 8,000 shares are disposed of it is proposed to call the first general meeting of shareholders, for the purpose of electing Directors, &c.

Management.—The operations of the Company will be controlled by a Board of Directors, to be elected for such time and upon such terms as may be decided upon by the first meeting of shareholders, the Provisional Directors in the meantime having consented to take the management. Applications for shares to be sent to Messrs. J. A. S. Clarke & Co. not later than . In the event of the Company not being floated, all deposits will be returned in full to applicants.

No. 25.

L. Levin, Esq., M.P., to The Secretary for Public Works.

Sir, Corowa, 21 September, 1883.

Under separate cover I have the honor to forward a draft copy of the "Yarrawonga and Mulwala Murray Bridge Company's Bill," which they intend presenting to Parliament next Session, and to obtain the sanction of the Legislature to erect a bridge over the Murray River, but before incurring any

any further expense the Provisional Directors are anxious to have an interview with you, if possible, on the 5th October next, their object being to ascertain of you how far the Government is prepared to support the Bill before Parliament, and to consult you as to any amendments you wish to make before the Bill is presented.

The Company is to be registered under the Company's Statute 37 Vic., No. 19.

The most important provisions in the Bill to which I could direct your attention, are—Clause 2 provides a large amount of capital shall be subscribed before commencing work; clause 4 and schedule of tolls; clause 24 provides for the purchase by the Government, when and under what terms. But should it be your intention, on behalf of the Government, to oppose the passing of this Bill to a private Company, then it is the intention of the deputation to ask you to construct the bridge. I believe the Victorian Government have promised to join the New South Wales Government in paying half the cost for the construction of the bridge, and the shareholders are willing to give the Government all the information they have already obtained, if the Government prefer to undertake the work.

Will you therefore kindly inform me if the day, viz., 5th October, will be convenient for you to receive a deputation from the Company, and at what hour.

I have, &c.,
L. LEVIN.

No. 26.

Draft Bill of the Yarrawonga and Mulwala Murray Bridge Company (Limited).

A BILL intituled an Act to enable an incorporated Company styled "The Yarrawonga and Mulwala Murray Bridge Company (Limited)" registered under "The Company's Statute 1874"—37 Vic. No. 19 to erect and maintain a Bridge over the Murray River at the end of Belmore-street in the town of Yarrawonga and to take toll there and for other purposes.

Preamble. WHEREAS the construction of a bridge over the Murray River at the northern end or termination of Belmore-street Yarrawonga in the Colony of Victoria to connect the said town with Mulwala on the New South Wales side of the river and the overland road to Sydney will be of great advantage to the public generally and it is therefore advisable to grant encouragement to such persons as may be willing to make and maintain such bridge being a Company registered as of limited liability under the Act 37 Vic. No. 19 by granting to them power to erect and maintain such bridge and to take toll there and for other purposes Be it therefore enacted by &c. &c. &c.

1. That the said Company shall have power to make construct complete and maintain the bridge and other works by this Act authorized to be made and executed.

2. As soon as one half (or six thousand shares) of the capital stock of the said Company shall have been actually subscribed and the sum of one thousand five hundred pounds sterling paid up it shall be lawful for the said Company and they are hereby authorized and empowered to make and construct a bridge over the river Murray at and from the northern end of Belmore-street Yarrawonga aforesaid to and upon the land being Crown land on the New South Wales side of the river at the spot named in the preamble to this Act being situate immediately above the present punt road and in the river frontage abutting on allotment 201 in the parish of Mulwala.

3. For the purposes and subject to the provisions of this Act it shall be lawful for the said Company their successors agents and workmen and all other persons by them authorized and they are hereby empowered to make form and set out a proper commodious and convenient road and approach to the said bridge the road to be three chains wide and the approach to be from the present terminus and meeting of the two lines of Government surveyed road each two chains wide and also upon obtaining the necessary consent and authority in that behalf through and along the aforesaid line or direction to dig and make proper foundations in the said river or on the banks thereof and to cut remove carry away and use any earth gravel stone timber or any other material or things which may be dug or obtained therein or otherwise in execution of the powers of this Act and which may be proper and necessary for making maintaining altering repairing or using any such bridge and the course or channel of the river and making such proper embankment way and approaches thereto as may be required or which may obstruct the making maintaining altering repairing or using the same respectively according to the true intent and meaning of this Act Provided that a due regard be paid by the Company to the interests of those engaged now or hereafter in the navigation of the river Murray that is to say that a specified height of not less than fifteen feet be preserved from the highest known flood-water level to the crown of the centre of the bridge and moreover that all impediments or obstructions to the navigation of the river at this spot be removed after completion of the bridge.

Tolls allowed. 4. In consideration of the great charges and expenses which the said Company must necessarily incur and sustain in making and maintaining the said bridge and other the works hereby authorized to be made it shall be lawful for the said Company upon the completion thereof from time to time and at all times hereafter to ask demand take recover and receive at a toll-bar or gate to be erected on or at the said bridge the tolls to be hereinafter determined by the Directors of the said Company Provided such tolls shall in no case exceed the tolls specified in the Schedule C annexed to this Act and no higher tolls shall be charged demanded or received than such as are specified in the said schedule for each and every person animal cart carriage dray waggon and other vehicle which shall pass over such bridge.

Toll-bar and house and collectors. 5. It shall be lawful for the said Company to erect and make a toll bar or gate at upon or near to such part of the said bridge as to the Company shall seem expedient and to collect and receive the tolls thereat and to nominate some fit and proper person to attend to the said toll bar or gate to collect and receive the tolls thereat. Provided that at the expiration of this Act the said bridge toll-house land and appurtenances shall be and thenceforth deemed to be public property and vested in the Crown accordingly.

Exemption from tolls. 6. Tolls shall not be demandable or taken by virtue of this Act for any horses or carriages of or belonging to the Governor-General of New South Wales for the time being or to any other person in actual attendance upon him or for or in respect of any horse beast carriage or other vehicle carrying the

Post

Post Office mails Nor for any officers or soldiers of Her Majesty's Forces or of any corps of volunteers being in proper staff regimental or military uniform dress or undress, nor from any policeman or constable carrying his staff of office or in his proper dress in respect of themselves or their horses nor of any carriages or horses belonging to Her Majesty or employed in her service when conveying persons baggage arms or ammunition or returning therefrom nor from any person or persons horse beast carriage or other vehicle employed in the repair of the public roads or bridges while engaged in carrying on such repairs or drawing materials for the same.

Tolls may be let.

7. It shall be lawful for the said Company to demise and to farm let the tolls demandable under and by virtue of this Act at or upon the said bridge and the lessee or lessees shall have the same powers of demanding collecting and taking the said tolls as are hereby given to the said Company.

Lessee may appoint collector.

8. The said lessee or lessees during such time as the said tolls shall be so leased to them as aforesaid shall and may nominate and appoint such other person or persons as he she or they may think necessary to collect demand and take the tolls so demised leased and farmed and such person or persons so appointed as aforesaid shall and may use all means and methods for the recovery thereof in case of non-payment as the said Company and such lessee or lessees might or could do under or by virtue of this Act.

Remedy against lessee.

9. In case the toll demandable at or on the said bridge shall be demised by the said Company to any person or persons and the lessee or lessees shall neglect or refuse to perform the conditions on which the same shall be let or in case the rent or rents agreed to be paid by such lessee or lessees or any part thereof shall be in arrear for the space of ten days next after the day on which the same ought to be paid or the term for which such lessee or lessees held the same shall in any manner become void or have expired and the lessee or lessees neglect or refuse to deliver up possession to the said Company it shall or may be lawful for any Justice of the Peace upon complaint made upon oath by or on behalf of the Directors of the said Company by warrant under his hand and seal to order a constable or other peace officer with such assistance as may be necessary to enter upon and take possession of the said bridge and the toll-house at or thereon and all appurtenances thereto belonging and to remove and put out such lessee or lessees and the collector keeper servants or other person or persons who shall be found thereon together with his or her or their goods from the possession thereof and from the collection of the tolls thereof and the lease contract or agreement for the same shall thenceforth cease and determine and be utterly void to all intents and purposes except as to the conditions or agreements contained therein on the lessee's part or behalf and which shall or may have been broken and the same toll and toll-house may be given let or demised to any other person or persons and may in the meantime be collected by the said Company their servants or agents in that behalf.

Table of tolls with name of collector.

10. The said Company are hereby required and the lessee or lessees of the said tolls shall and are hereby required during the whole time that he or they shall take or continue to be the lessee or lessees of the said tolls to put up or cause to be put up and continued in some conspicuous place at or near the toll-gate or at or upon the toll-house or at or on the said bridge a table in distinct legible black letters on a board with a white ground containing at the top thereof the name of the bridge and also a list of the tolls payable at the said bridge distinguishing severally the amount of tolls and the different sorts of cattle beasts carriages or other vehicles for which they are severally to be paid when there shall be any variation therein and the said Company and the said lessee or lessees during the whole time that he or they shall continue to take or to be the lessee or the lessees of the said tolls shall place in some conspicuous place near to such board the christian and surname of the Collector or keeper of the said tolls who shall be on duty for the time being and shall continue the same during the whole time such collector or keeper of the said tolls shall be on duty and shall change the same in every change that may take place in such collector or keeper on duty to the names of the collector or keeper that may succeed as often as any such change may take place and if the said Company while they shall take the said tolls or their lessee or lessees shall refuse or neglect to put up such table of tolls as aforesaid or to cause the name or names of the said collector or keeper of such tolls for the time being to be put up as aforesaid or if the collector or keeper of such tolls be not in attendance at all times by day and by night at the place at which he is stationed or ought to be or shall demand or take a greater toll from any person than he is hereby authorized to do or shall refuse to permit and suffer any person to read or shall in any manner hinder or prevent any person or persons from reading the inscription on the said boards or the name or names so fixed up as aforesaid or shall refuse to tell his Christian name or surname to any person or persons who on paying the said tolls shall demand to know the same or any of them or upon the legal toll being tendered or paid shall unnecessarily detain or wilfully obstruct hinder or delay any passenger or passengers from going through the toll-gate at or upon the said bridge then and in each and every such case the said collector or collectors of the said tolls shall forfeit and pay for every such offence any sum not exceeding forty shillings to be recovered and applied as hereinafter mentioned.

No passing without payment of tolls.

11. If any person liable to the payment of the said tolls under this Act shall after demand neglect or refuse to pay the same or any part thereof it shall be lawful for the person having right or authority at the time to collect the same to prevent such person or persons from passing through the said toll-gate and to shut close and fasten the same and keep and continue the same closed and fastened until the said toll be paid.

Cattle &c. counted.

12. All cattle horses sheep and other beasts for which toll is demandable and payable under this Act shall be counted by the lessee or collectors of tolls or keeper of the said gate under this Act before such cattle horses sheep or other beasts shall pass over the said bridge.

Penalty on passing without paying toll.

13. If any person or persons shall resist or make forcible opposition against or shall assault any person or persons having right or authority to collect the said tolls in the execution of their duty or shall pass through the toll-gate at or on the said bridge or shall drive or cause to be driven any cattle horse sheep or other beast for which toll shall be payable through the said toll-gate without paying on demand the legal toll to which he or they is or are liable every such person shall for every such offence forfeit and pay a sum not exceeding five pounds to be recovered and applied as hereinafter mentioned.

Misconduct of lessee or collector.

14. If any lessee or collector of tolls under this Act or any keeper of a gate on the said bridge shall upon the said legal toll being tendered or paid unnecessarily or for any unreasonable time detain or wilfully obstruct hinder or delay any passenger or passengers or his or their horses beasts or carriages carts or other vehicles from passing over the said bridge or if such lessee or such collector of tolls or keeper of any gate on the said bridge shall make use of any uncivil scurrilous threatening or abusive language

language or behaviour to any travellers or passengers over the said bridge then and in each and every such case the said lessee or collector of tolls or keeper of a gate on the said bridge shall forfeit and pay for every such offence any sum not exceeding five pounds to be recovered and applied as hereinafter directed.

Destroying or injuring bridge a felony.

15. If any person or persons shall unlawfully and maliciously pull down or in any way destroy or do injury with intent and so as thereby to render such bridge or any part thereof dangerous and impassable every such offender shall be deemed guilty of felony and being convicted thereof in any Court of competent jurisdiction shall be liable to be imprisoned or kept to hard labour on the roads or other public works of the Colony for such term not exceeding three years as the said Court shall think fit.

Injuring toll-gate or any part of bridge.

16. If any person or persons whosoever shall wilfully or maliciously injure pull down cut down pluck up throw down break level or otherwise damage demolish or destroy any toll-gate chain post or rail bar wall or other fence or fences lamp or lamps belonging to the toll-gate at or upon the said bridge or table of tolls put up thereat or any part of the said bridge then and in each and every such case the person so offending shall forfeit and pay for every such offence a sum not exceeding ten pounds over and above the damage occasioned thereby to be recovered and applied as hereinafter mentioned.

Summary adjudication.

17. It shall be lawful for any two or more Justices of the Peace to hear and determine in a summary way all offences committed against the true intent and meaning of this Act (except in cases of felony hereinbefore mentioned) and for that purpose to summon before him or them any party or parties accused of being an offender or offenders against the same and in case the party accused shall not appear on such summons or offer reasonable excuse for his default then and in every such case any such Justice or Justices is or are hereby authorised and required to proceed and make enquiry touching the matters complained of and to examine any witness or witnesses who shall be offered on either side on oath which oath every such Justice is hereby authorised to administer and after hearing the parties who shall appear and the witnesses offered on either side such Justices shall convict or acquit the party or parties accused and if the penalty or money forfeited or directed to be paid and the charges thereon be not paid forthwith by warrant under his or their hand and seal or hands and seals commit every such offender or offenders to the common gaols of the said Colony for any period not exceeding three months Provided always that no person or persons shall be convicted of any offence or offences contrary to the provisions of this Act in a summary way as aforesaid after the expiration of three months from the time when any such offence or offences shall have been committed.

Application of penalties.

18. One moiety of all penalties or sums of money recovered under this Act shall be paid to the informer and the other moiety to Her Majesty Her heirs and successors for the public uses of the Colony and for the support of the Government thereof.

Want of form cured.

19. No summary conviction under this Act shall be quashed for want of form or be removed or removable by writ of *certiorari* or otherwise into the Supreme Court and no warrant and commitment shall be held void by reason of any defect therein provided that it be therein alleged that the party has been convicted and that there be a good and valid conviction to sustain the same.

Borrowing on mortgage.

20. In case it shall at any time be thought expedient by the said Company to raise any sum or sums of money by way of loan it shall be lawful for the said Company by any order of any general meeting of the said Company to borrow and take up at interest in addition to the money which the said Company are authorised by the fifth clause of this Act to receive in advance from the shareholders any such sum as to them shall seem meet and convenient not exceeding at any time one half the amount of the capital of the said Company and the said Company after an order shall have been made for that purpose by any general meeting are hereby authorised and empowered to assign the property of the said Company and the rates arising and to arise by virtue of this Act or any part thereof (the costs and charges of assigning the same to be paid out of the same rates) as a security for any such sum of money to be borrowed as aforesaid to such person debenture-holder or to his trustee or assigns as shall advance the same all which said mortgages and assignments shall be made under the Common Seal of the said Company and in the words or to the effect set forth in the schedule A of this Act annexed And all and every the person or persons debenture-holder or otherwise to whom such mortgage or assignment shall be made shall be equally entitled one with the other to his or her or their proportion or proportions of the said rates and premises according to the respective sums in such mortgages or assignments mentioned to be advanced or secured by such debentures without any preference by reason of the priority of date of any such mortgage or assignment or debenture for any amount whatsoever and an entry or memorial of every such mortgage or assignment or debenture containing the number and date thereof and the name or names of the person or persons with the proper additions to whom the same shall have been made or issued and of the sum borrowed together with the rate of interest to be paid thereon shall within seven days next after the date thereof be entered in a book or books to be kept by the Secretary or other proper officers of the said Company which said book or books shall and may be perused at all reasonable times by any of the proprietors mortgagees debenture-holders or creditors of the said Company or other person interested therein without fee or reward and every person to whom any such mortgage or assignment shall have been made or debenture issued as aforesaid or who shall be entitled to the money due thereon shall and may from time to time transfer his right and interest therein to any person whomsoever which transfer shall or may be endorsed in the words or to the effect set forth in the Schedule B to this Act annexed And every such transfer shall within fourteen days after the date thereof be produced to the Secretary of the said Company who shall cause an entry or memorial thereof to be made in the same manner as the original mortgage or assignment for which the said Secretary shall be paid such sum as the Company shall appoint not exceeding five shillings and after such entry made every transfer shall entitle such assignee his executors administrators and assigns to the full benefit thereof and payment thereon and it shall not be in the power of any person who shall have made such transfer to make void release or discharge the same or any sum of money therein due or thereby secured or any part thereof.

Interest on mortgage.

21. The interest of the money which shall be raised by mortgage or on debentures as aforesaid shall be paid half-yearly to the several persons entitled thereto in preference to any interest or dividends due or payable by virtue of this Act to the said shareholders or any of them.

Mortgagee not to vote.

22. No person to whom any such mortgage or assignment shall be made or transferred nor the holder or transferee of any debenture as aforesaid shall be deemed a proprietor of any share or shall be capable of acting or voting by virtue of such assignment either as principal or by letter of authority to any agent at any meeting of the said Company for or on account of his having lent or advanced any sum of money on the credit of any mortgage or assignment,

New mortgage.

23. In case the said Company shall raise any sum or sums of money by mortgage and shall afterwards be required or desirous to pay off and shall pay off all or any part of the principal sum secured by such mortgages or any of them then and in every such case it shall be lawful for the said Company and they are hereby authorised and empowered immediately or at any time or times thereafter again to raise in lieu of the principal money so paid off or to be paid off by them so much and such sums of money as they shall from time to time have paid off or be required and desirous to pay off to the holder of such mortgages or any of them or any part thereof and so from time to time as often as the same shall happen but so nevertheless that the mortgage debts of the said Company shall not in any event exceed one-half of the amount of the capital of the said Company.

Purchase of the bridge by the Government.

24. It shall be lawful for the Governor of the said Colony for the time being with the advice of the Executive Council thereof at any time after the expiration of ten years from the completion of the said bridge to purchase the same with all its appurtenances in the name and on behalf of Her Majesty or her successors upon giving to the said Company six calendar months' notice in writing of their intention so to do and upon payment to the said Company of a sum equal to the whole sum expended in erecting and completing the said bridge and its appurtenances together with a premium thereon of ten per cent. Provided always that the said Company shall within one calendar month after the completion of the said bridge file in the office of the Chief Secretary of the said Colony a true and faithful account in detail of all costs and expenses occasioned by and incident to the erection of the said bridge and verified by the declaration of the Chairman of the said Company and that the amount of such costs and expenses shall be the sum upon which the said premium shall be estimated Provided also that at any time during the continuance of the said term of ten years if it be considered expedient and a general meeting of the said Company shall have authorised the same it shall be lawful for the said Company to sell and dispose of the said bridge and its appurtenances and to assign the interests of the said Company in the same to Her Majesty and her successors upon such other terms as may in such case be agreed upon between the said Company and the Governor of the said Colony for the time being and that upon the completion of such sale the right of the said Company to demand and take tolls and their liability to keep and maintain the said bridge in repair under this Act shall cease and determine.

False declaration.

25. If any person shall wilfully make any false statement as to any material particular in any declaration made and subscribed by him under the provisions of this Act he shall be deemed guilty of a misdemeanour and be punished accordingly.

Rules of interpretation

26. When in this Act any word is used importing the singular number or masculine gender only the same shall be understood also to include several matters several persons and females as well as males and when the word "lands" is used the same shall be understood to include tenements and hereditaments and when the word "corporation" is used the same shall be understood of any body politic corporate or collegiate civil or ecclesiastical aggregate or sole and when the word "bridge" is used the same shall be understood to mean and comprehend every road constructed by the Company unless in any of the cases aforesaid it shall be otherwise specially provided or there be something in the subject or context repugnant to such construction and the word "prescribed" shall be construed to refer to any matter prescribed or provided for by this Act and the expression "the undertaking" shall mean the construction of a bridge over the River Murray at the end of Belmore-street Yarrawonga Victoria to the Mulwala reserve aforesaid and any other works by this Act authorised to be constructed or executed and the expression "director" and the expression "shareholder" shall mean director and shareholder respectively of the aforesaid Company and the expression "Company" shall mean the aforesaid Yarrawonga and Mulwala Murray Bridge Company (Limited).

Dissolution of corporation after ninety-nine years.

27. At any time after the expiration of ninety-nine years from the passing of this Act it shall be lawful for the Governor for the time being of the said Colony with the advice of the Executive Council thereof by advertisement in the *Government Gazette* of the said Colony to dissolve and determine the said corporation of the Yarrawonga and Mulwala Murray Bridge Company (Limited) and thereupon the said corporation shall *ipso facto* be dissolved and cease.

SCHEDULE C.

Table of Tolls.

For every such beast	0	6
For every such cart dray or waggon carrying more than one ton and a half drawn by one or more horse or other beast per wheel	1	0
For every such beast	0	6

No second toll to be payable on going and returning within 24 hours.

No. 27.

Minute by The Secretary for Public Works.

Reply to Deputation—Proposed Bridge between Mulwala and Yarrawonga.

A deputation, accompanied by Messrs. Day, Levin, Lyne, and Barbour, Ms.P., waited upon me to-day, to bring under notice the urgent necessity that existed for the erection of a bridge over the Murray, between Mulwala and Yarrawonga. The matter has, on several occasions, been brought under notice.

It

It was stated that a Company had been formed to carry out the work, a draft Bill had been prepared, and it was intended to submit it for the approval of Parliament. The deputation asked that the Government would support this Bill and allow the private company to build the bridge; or, if not, that the Government of this Colony would join with the Government of Victoria in providing the funds necessary for the work. The Victorian Government had expressed its willingness to bear half the cost.

I said I had to apologise for my apparent neglect in dealing with this matter, but the reason was that a question of policy was involved, and I could not decide it without consulting my colleagues.

I had had the papers ready for every Cabinet meeting since I had received them, but owing to the time occupied in dealing with the Land Bill and other important measures, I had not been able to bring the case forward, but I promised to do so on the earliest possible date.

Personally, I do not approve of private companies being allowed to construct bridges between important centres, the bridges had ultimately to be taken over by the Government, and in the long run the Government had a great deal of trouble in the matter, and had to pay extreme prices for the bridges.

If this bridge were necessary, I thought it should be built at the joint expense of the two Colonies.

Some importance was attached by some gentlemen to the ultimate result the construction of the bridge would have upon the trade of the Colony, but I did not attach much importance to this as I thought every facility should be given to the people of Riverina to enable them to trade.

Upon looking over the draft Bill I found the schedule of charges very high, the deputation stated they were much lower than now paid by ferry, and they promised that in the event of the Government constructing the bridge there would be no objection to the same scale of charges being adhered to.

I promised to look through the previous papers, petitions, &c., and submit the matter to my colleagues. F.A.W., 10/10/83.

The Petition was forwarded to Cabinet at Mr. Wright's request.—J.R., 11/10/83.

Inform members for district that this matter was submitted to Cabinet, and the Government cannot approve of bridge being built by private company, and must oppose any Bill brought in for such a purpose, but that an officer will be sent to report upon the proposed bridge with a view to Government taking action.—F.A.W., 17/10/83.

The members informed, 17/10/83. Roads.—J.R., B.C., 17/10/83. Plans are referred to, it is desirable they should be sent herewith.—W.C.B., 20/10/83. Mr. Wells had better select site here, and get a survey of it made either by Mr. Cronin or Mr. Baylis, one of whom should accompany him to the site.—W.C.B., 23/10/83. Mr. Wells to go at the end of the week.—W.C.B., 29/10/83. Report herewith.—F.W., 18/2/84.

No. 28.

The Under Secretary for Public Works to Messrs. G. Day, L. Levin, W. J. Lyne, and R. Barbour, Esq., Ms.P.

Gentlemen, Department of Public Works, Sydney, 17 October, 1883.

Referring to the interview of the gentlemen forming the deputation which waited upon the Secretary for Public Works, to solicit permission to introduce into Parliament a Bill for the formation of a Company for the purpose of erecting a bridge over the Murray River, at Mulwala, and to request the support of the Government to the measure, I am directed to inform you that having submitted the matter to the Cabinet, the carrying out of such a work by a private company cannot be sanctioned, nor can the Government support the proposed Bill, if introduced into Parliament.

I am to add, however, that an officer will be sent to report on the necessity for a bridge at the site referred to, with a view to the Government taking action if necessary.

I have, &c.,
JOHN RAE,
Under Secretary.

No. 29.

Deputation.

To the Honorable F. A. Wright, Minister of Public Works, Sydney.

Sir,

Messrs. Reilly, Murchison, and I are sent as a deputation from Mulwala and neighbourhood to bring before your notice as Minister of Public Works, the urgent necessity existing for a bridge being erected on the Murray River at the crossing between the towns of Mulwala and Yarrawonga.

It is a work that has long been required, and efforts have been made by the residents on the border at intervals of some years to induce the Government to construct a bridge.

Four years ago a petition was got up and signed unanimously by the residents on both sides of the river, by those on the Victorian side to their Government, and by those on this side to our Government, but as yet without result, though the Victorian Government then and since, expressed their willingness to pay half the expense, I believe the petition is still in existence.

The population on both sides who are to be benefited by the bridge has greatly increased within the last few years, and the tedious and primitive mode of transit which has been in operation here for the last thirty-three years is found altogether inadequate for the present traffic.

The inconvenience has become so irksome, and our previous efforts not having succeeded, the border residents have now formed a Company to construct a bridge at their own cost, and thus relieve the Government from any outlay in the matter, and we are deputed by this Company to come to you as Minister for Public Works to request (and we do so in the most respectful manner) that the present Government would give their support in Parliament to a Bill granting the necessary powers to the Company, in accordance with the draft proposals, we have now the honor to submit to you.

The Government you will observe have the right to take over the bridge at any time within ten years, the schedule of tolls to be levied is specified, and though they may be lowered the Company have no power to increase them, so that there can be no possibility of the Company abusing its privileges by charging too high rates, and in other respects the provisions of the Bill will be found fair and just.

The

The Company have already gone to a good deal of expense, examining the ground, boring, preparing plans, getting estimates, &c., and about half the capital is already subscribed, in fact the matter is so far forward that all that remains to be done is to obtain the sanction of Parliament in order to begin the work. We do not make any unreasonable request, seeing we only ask the Government for permission to do this necessary work at our own expense.

The members of our district in Parliament, Messrs. Lyne and Levin, and our former member, Mr. Day, the present member for Albury, and also the members for the Murray, Messrs. Wilson and Barbour, are all well aware of the urgency of the work, and have willingly and kindly consented to do all in their power to assist in getting this Bill passed.

Mulwala, I may point out, is one of the oldest crossing places on the Murray, next in priority, I believe, to Albury and Moama.

There is no bridge nearer than Corowa, a distance of 30 miles up the river by land and over 60 by water, whilst the nearest bridge down the river is at Moama, 100 miles by land and over 200 by water.

I will not take up your valuable time by needless talk, the action of the Company is amply sufficient to show the importance of, and necessity for the work, as well as the earnestness of the inhabitants in the matter.

The plans, estimate of cost, and other papers bearing on the subject we have here for your perusal. We now seek to press the matter on your serious consideration, and trust that the Government will favourably receive our request and grant what we are asking.

Should there be any unforeseen objections to our getting the Company, we would respectfully urge upon the Ministry to communicate with the Victorian Government with the view of having the bridge built at the joint expense of the two Colonies, which alternative, if conceded, I need hardly say would be entirely satisfactory to the local residents, provided the work was commenced with as little delay as possible, and as they are particularly anxious that there should be no unnecessary delay, we would esteem it as a great favour if you could possibly grant us an answer before the deputation leaves Sydney.

On their behalf, and that of the Bridge Company, I beg to thank you for allowing us this interview.

No. 30.

W. J. Lyne, Esq., M.P., to The Secretary for Public Works.

Sir, 27 January, 1884.

I beg to urge that an officer be sent from the Works Department to inspect upon the proposal to erect a bridge over the Murray, at Yarrawonga and Mulwala.

A promise was made to a deputation, in October last, that this would be done.

Yours, &c.,

WILLIAM JOHN LYNE.

Mr. Bennett will please carry out, and inform Mr. Lyne, M.P.—F.A.W., 28/1/84. Roads.—J.R., B.C., 30/1/84. Mr. Wells, particularly as to navigation.—W.C.B., 30/1/84. Report herewith.—F.W., 18/2/84.

No. 31.

Report by Mr. Assistant-Engineer Wells.

Proposed Bridge.

Sydney, 18 February, 1884.

ACCORDING to instructions I visited Mulwala to select site for bridge there. I met there several of the residents of Yarrawonga and Mulwala, many of whom had been interested in the preliminaries for forming a private company to bridge the river at this point. With the single exception of Mr. Halburd, whose lucrative ferry would be done away with, all were unanimous in their desire for a bridge, even if toll were charged. The site was not difficult to select, although I differ from the design proposed by the Company. I think the bridge should be built square across the stream, and not on the skew as proposed by their engineer, shortening the main bridge by about 100 feet or more. On the plans, which are handed herewith, I sketch in pencil the alternative lines I should adopt. I believe it was the opposition of Mr. Halburd, and his refusal to part with a portion of his purchased property on the Mulwala side, that induced Mr. Merrett to lay out the bridge as he shows it.

This consideration weighs as little or nothing with us, as the land can be resumed at small cost, and if it is decided to erect a bridge here I think resumption should take place as soon as possible after, as Halburd might endeavour, by building or other work, to claim high for improvements, which at present do not exist. Mr. Baylis appears to have not yet had sufficient experience to make the complete survey required for such a bridge, so I telegraphed Mr. Cronin to meet me, but owing to his absence from home the telegram reached him too late. Mr. Duffy, who was with me, is fully acquainted with my views as to site, in which he concurs, and I think might be instructed to make the survey, as it is so far out of Mr. Cronin's district. To fix the line properly, contour levels, at bank level, half flood, and flood should be taken and traversed on the Mulwala or governing bank. Lower down the river, in the Yarrawonga township, crossing through police paddock, a bridge site has been surveyed by the Railway Department of Victoria. It would require, I believe, a longer bridge, and the high bank being then on the Victorian side the flooded bank is transferred to New South Wales. I do not think, however, it is so low as the flat on present proposed site, but still it would make our approach awkward and costly.

Possibly it would be well to ask the Victorian Government for tracings of their survey. At the site I should select, between pencilled lines on drawing, a good bridge on cylinders might be built for £8,000, exclusive of approaches, which on New South Wales side would not be heavy. Headway to equal that at Wahgunyah would be ample; indeed navigation has nearly ceased so high up the Murray, the railway affording greater facilities. The settlement around the township, indeed all through the shire of Yarrawonga, as shown by the map herewith, is surprising, being all cultivated and paddocked farms. The town itself is large and thriving, with a population of over 1,000, I am informed, and can well believe. Our township of Mulwala is gradually increasing, but at nothing like the rate of its neighbour.

All

All the Murray River country for some distance back being in the hands of large proprietors, some 14 or 15 miles back there is very extensive agricultural settlement, which has changed materially the aspect of affairs *re* necessity for a bridge since Mr. Dooner reported some seven years ago, when the question was first agitated. The advent of the railway from St. James to Yarrawonga may be expected in a year or two, which will further materially increase the traffic, which is even now so considerable that Halburd is building a punt 110 feet long to accommodate it. He will, however, not cross anything after sundown, and the ferry is regarded as extremely unsatisfactory. I consider its distance from Corowa 27 miles, and the above premises warrant the erection of a bridge jointly by the two Governments.

I have, &c.,
F. WELLS,
Assistant Engineer, Roads.

I concur with Mr. Wells in thinking change of site desirable. I do not concur with him in thinking that provision need not be made for navigation. The inconvenience of having these works in the hands of a company is evident from the Government having had to purchase the bridges at Corowa and Wagga Wagga. I would advise an iron bridge, with steel lifting span. It will be found much the cheapest in the long run.—W.C.B., 3/3/84. Under Secretary, B.C.

Submitted, 3/3/84.—J.R. As there is no money voted for this work, Mr. Bennett had better supply estimate of the cost of bridge he recommends.—F.A.W., 4/3/84. Roads.—J.R., B.C., 4/3/84. Mr. Daniells.—W.C.B., 5/3/84. Estimate herewith.—J.H.D., 20/3/84.

No. 32.

Estimate of cost by Mr. Assistant-Engineer Daniells.

Proposed Bridge over Murray River, between Mulwala and Yarrawonga.

ESTIMATE of approximate cost of an iron bridge, with steel lift span, for navigation, centre opening being 49′ 10¾″ in the clear, and four side spans, two of 92′, and two of 30′ between centre of cylinders :—

	£	s.	d.
Steel in lift span and machinery, 9 tons at £33	297	0	0
Wrought iron girders, towers, cylinder bracing, 147 tons at £18 ...	2,646	0	0
Wrought iron machinery and bolts, 6 tons at £25	150	0	0
Cast iron cylinders and machinery, 130 tons at £11	1,430	0	0
Fixing 162 tons wrought iron and steel, at £9	1,458	0	0
Sink and concreting cylinders 390′, at £9	3,510	0	0
Tar metal, 60 cubic yards at £2	120	0	0
Painting	160	0	0
Tarring	90	0	0
Carriage to Albury of 292 tons, at £6 4s. 4d.	1,815	5	4
	£11,676	5	4

J.H.D., 10/3/84.

No. 33.

L. Levin Esq., M.P., to The Secretary for Public Works.

Sir, Legislative Assembly, Sydney, 9 July, 1884.

I am requested by the inhabitants of the district of Mulwala to ascertain whether any decision has been arrived at yet in reference to the construction of the bridge over the Murray River at Mulwala. A reply to a memorial and personal interview was promised me some time ago by Mr. Wright.

From personal observation I can state that the work is a necessary one, and the Victorian Government have already admitted the necessity of building a bridge at that place by promising to pay half the cost of construction.

Although there is a punt at that crossing it is almost useless, if not dangerous, for traffic; and if the Government would pass a Bill the people in the district think the place of such importance that a Company was already formed to build the bridge by private enterprise, and they went to considerable expense in having soundings taken and plans and specifications prepared, all of which have been placed at your disposal, and are now in the Department.

The people of that district simply ask the Government whether they are prepared to pay half the cost of construction of a bridge of which the Victorian Government have promised the other half, or allow a private Company to undertake the work.

Requesting your early reply,

I have, &c.,
L. LEVIN.

Roads.—J.R., B.C., 14/7/84.

Will Mr. Smyth please examine the site of bridge shown on tracing herewith, and state if a better site is not procurable. The fixed point is the end of street on Victorian side, but I think one bold line crossing the river obliquely in the shortest way will be the best and cheapest. The nature of the bottom should be looked to, if there is water, good holding ground for piles, or if rock shows above the water it is good, but everything should yield to a good straight short line not too oblique.—W.C.B., 23/7/84.

Mr. Smyth, with tracings, to be given by Mr. Daniells. Tracing herewith.—J.H.D., 25/7/84. Report herewith.—E.C.B.S., 3/9/84. The Commissioner for Roads, Sydney.

No. 34.

Mr. J. C. Caffin to The Under Secretary for Public Works.

Sir, Mulwala, 29 August, 1884.

Adverting to previous correspondence and to the visit of Colonel Wells to this place sometime back with reference to the proposed construction of a bridge over the Murray between this place and Yarrawonga, the Honorable the Minister having happily recovered from his recent severe indisposition, I have the honor to request that a consideration of the question of erecting the proposed bridge may be resumed, and also that negotiations may be opened with the Government of Victoria with a view to its early accomplishment.

The views of the urgency of the proposed work laid before you by a deputation from this place last November are still urged, the necessity for a bridge being daily more apparent.

I have, &c.,
JNO. C. CAFFIN,
Secretary to Bridge Committee.

No. 35.

Mr. Road-Superintendent Smyth to The Commissioner for Roads.

Sir, Roads Office, Albury, 3 September, 1884.

I have the honor to inform you that while at Mulwala, I inspected the banks of the Murray, with reference to the construction of the proposed bridge, connecting Mulwala to Yarrawonga. Being much pressed for time, my presence being required in Albury, I am not able to report very fully on the matter; but I propose returning to Mulwala shortly, when I have arranged to meet the Secretary of the Bridge Committee with whom I will make a minute inspection of the various sites proposed, and from whom I can obtain the necessary information about the bed of the river at the several points.

The only suitable place for the bridge appears to be that at the present punt crossing; this site was selected also by the engineer to the proposed Bridge Company, but I think the bridge might be taken across at right angles to the river, thereby considerably shortening the length. On the New South Wales side the approach to the bridge would be on land, not subject to inundation, but on the Victorian side from the river bank to Yarrawonga the land is low, and is liable to be flooded to a depth of several feet, which will necessitate extensive approach works.

At this site a reef of soft slate runs diagonally across the Murray; but it is very narrow, and the bottom, from what I could learn, consists mostly of a very soft mud to a great depth.

In the event of the bridge being erected at this point, the present improvements to the road from Mulwala to the punt would be utilized; and an excellent road could be constructed from Mulwala to the bridge at a very small expense, when the present work is completed, which consits in cutting through the sandhills, about 12 chains from the Murray.

I have, &c.,
E. C. BOWYER SMYTH.

The saving of the road now being made is of no consequence; I am anxious to get the best line for bridge if possible, at right angles with stream; if the bridge is to be skew at all it may have a good obliquity. Matters of depth of cylinders are not of importance, the great thing is to meet the avenues of traffic as nearly as possible, consistent with having bridge as short as possible, and of course as cheap.—W.C.B., 5/9/84.

Mr. Smyth, B.C.

No. 36.

L. Levin, Esq., M.P., to The Secretary for Public Works.

Sir, Legislative Assembly, Sydney, 3 September, 1884.

I have the honor to forward a letter from the Secretary of the Mulwala Bridge Company, wishing to know whether any further decision has been arrived at yet in reference to the bridge over the Murray at Mulwala, would you therefore kindly inform me how the matter stands.

I have, &c.,
L. LEVIN.

Inform nothing further has been done in the matter, and that consideration will be given when Estimates for 1885 are being prepared.—F.A.W., 5/9/84. Mr. Levin, M.P., informed accordingly,—5/9/84. Roads.—J.R., B.C., 6/9/84. Resubmit with Mr. Smyth's reports.—W.C.B., 8/9/84.

No. 37.

Mr. J. C. Caffin to L. Levin, Esq., M.P.

Dear Sir, Yarrowonga, 29 August, 1884.

The Honorable F. A. Wright having happily recovered from his recent severe illness and resumed duty, may I ask you to kindly see him regarding our proposed bridge over the Murray at Mulwala.

Colonel Wells' report having been favourable, it should be possible to advance the project a stage and to secure co-operation from Victoria.

Yours, &c.,
JNO. C. CAFFIN.

No. 38.

No. 38.
The Under Secretary for Public Works to L. Levin, Esq., M.P.

Sir, Department of Public Works, Sydney, 5 September, 1884.

I am directed to acknowledge the receipt of your letter of the 3rd instant, forwarding a communication from Mr. J. C. Caffin respecting the bridge over the Murray River at Mulwala, and to inform you that nothing further has been done in the matter, which will be taken into consideration when the Estimates for 1885 are being prepared.

I have, &c.,
JOHN RAE.

No. 39.
Mr. J. Sharpe to The Secretary for Public Works.

Sir, Berrigan, via Corowa, 25 October, 1884.

I have the honor to inform you that at a numerously attended meeting of selectors, held at this place a few days ago, it was unanimously resolved that the Government be petitioned to erect a bridge over the Murray River at Mulwala, in accordance with a promise given to a deputation which waited upon you about 12th October last year.

There is a petition going round for signature which will be forwarded as soon as possible.

I beg, therefore, as Chairman of the meeting, to request that you would be good enough to grant the request of the meeting and make provision for carrying out the work by placing the necessary sum of money on the Estimates for 1884 and 5.

I have, &c.,
JAMES SHARPE,
Chairman.

Acknowledge, and inform matter is still under consideration.—F.A.W., 28/10/84. Acknowledged, 28/10/84. Roads.—J.R., B.C., 30/10/84. Will Mr. Smyth report and return papers.—W.C.B., 4/11/84. Mr. Smyth, B.C. Report and papers herewith.—E.C.B.S., 6/11/84.

No. 40.
Mr. Road-Superintendent Smyth to The Commissioner for Roads.

Sir, Roads Office, Albury, 6 November, 1884.

I return herewith the papers relating to the proposed Mulwala bridge. I reported on this work on 3rd September, and verbally to yourself on 6 October, after a second visit to the various sites. On this occasion you instructed me to have a section taken across the river Murray at right-angles. I intend to send Mr. Hay down to do this work on the first opportunity; but with thirty-six contracts going on, and several more to be advertised for to-day, I find it hard to spare him. I should like, if possible, to defer this matter for a short time, as a week must be spent in doing the work, and Mulwalla is 65 miles off. He will require a theodolite for the work, and we have not one in the office. Can one be supplied to me? I will endeavour to get the work done at the end of this month, if that will be soon enough.

I have, &c.,
E. C. BOWYER SMYTH.

Mr. Smyth,—See me with list of instruments.—W.C.B., 7/11/84. A 6-inch transit theodolite sent to Mr. Smyth 6/12/84. This was obtained from Mr. Bolton, and repaired at Tornaghi's.—W.A.S., 15/11/84.

No. 41.
Petition from Residents of Mulwala.

[Presented by Robert Barbour, M.P.]

The Petition of the undersigned residents in and about Mulwala, Nangunia, Berrigan, Turramia, Boomanoomana, &c., in the Colony of New South Wales, county of Denison, humbly prayeth,—

That you will be pleased to consider the great necessity that exists for the erection of a bridge over the Murray River at Mulwala.

Your Petitioners addressed you by Petition four years ago, and last year laid their claim before you by a deputation which waited upon you; and your petitioners, being more and more impressed with the urgency of their claim, now pray that you will be pleased to provide for carrying out the work as speedily as may be, and your Petitioners, as in duty bound, will ever pray.

E. TOWNSEND, J.P., Nangunia, Corowa,
JAMES SHARPE, Lalalta,
W. F. H. BUDD, J.P., Lalalta,
and about 75 other residents.

To the Honorable the Minister for Public Works, Sydney.

Acknowledge, and inform that the matter is under consideration.—F.A.W., 13/11/84. Acknowledged, 13/11/84. Roads—J.R., B C., 14/11/84. Telegraph Smyth, to know when section last asked for will be in.—W.C.B., 11/4/85. Telegram sent, 11/4/85.

No. 42.
Memo. by Mr. Assistant Engineer M'Donald.

Mulwala Bridge over the Murray River.

WILL Mr. Smyth, as soon as possible, have a section taken and plotted to ½-inch scale on line marked blue on attached plan.

JOHN A. M'DONALD,
Assistant Engineer, 18/2/85.

Mr. Smyth,—Section and report herewith —E.C.B.S., 10/4/85.

No. 43.

Mr. Road-Superintendent Smyth to The Commissioner for Roads.

Sir,

Roads Office, Albury, 10 April, 1885.

I have the honor to forward plan and section of proposed line of bridge at Mulwala, over the River Murray.

Mr. Merritt's pegs on the Victorian side are still in the ground, but there is no sign of them on the New South Wales bank; I have, therefore, taken the section, starting from his peg on the Victorian side, as nearly as I could judge on the line indicated by Mr. M'Donald, and have shown the direction it makes with the stream on the small plan. Mr. Merritt's plan appears to be out in many particulars, and I considered it best to continue the section on the New South Wales side, to join the road lately constructed through the sandhills. In time of high flood the water on this side is all backwater, and no openings need be left in the approaches; and at a small additional expense the present road might be utilized, whereas by continuing in the line of the bridge some very heavy cuttings, through sandhills, would be needed.

The existing road is almost the shortest line possible between Mulwala and the bridge site.

I have, &c.,

E. C. BOWYER SMYTH.

Papers to Mr. M'Donald. Register this and send it on.—W.C.B., 15/4/85.

No. 44.

Minute by The Secretary for Public Works.

Department of Public Works, Sydney, 7 May, 1885.

When at Corowa on Tuesday, the 4th instant, a deputation from Mulwala was introduced to me by Mr. Lyne. They asked that the question of the construction of a bridge at Mulwala might be reconsidered, offering as before either to construct the bridge themselves, or expressing their willingness to pay the tolls they proposed to impose, should the bridge be provided at the joint expense of the Governments of New South Wales and Victoria.

I informed them that they could at once dismiss from their minds any idea of the Government allowing the bridge to be undertaken by a private company, our experience of private bridges had been so unfavourable; that where the Government deemed one of any importance necessary, we would be prepared to take action rather than allow the work to be undertaken privately. When they previously waited upon me concerning the same question, I submitted the matter to my colleagues, but they were adverse to the proposal. I promised to look up the papers again, and ask an officer of the Roads Department to examine locality and report upon the whole question. Should the report justify me, I promised to again bring the matter before my colleagues, and ask their opinion as to the advisability or otherwise of authorizing the work.

It was mentioned that the Victorian Government were constructing a railway to Yarrawonga, a town on the opposite bank of the river to Mulwala, and they no doubt would gladly join New South Wales in sharing the cost of the work.

F. A. WRIGHT.

7/5/85.

Roads.—J.R., B.C., 8/5/85. Mr. Flynn, let me have these papers to take home with me, they may be in Mr. M'Donald's room.—W.C.B., 9/5/85. Papers herewith.—9/5/85.

No. 45.

Telegram from The Commissioner for Roads to Mr. Road-Superintendent Smyth.

Sydney, 20 May, 1885.

You have not replied to paragraph two of printed instructions referring to Estimates for 1886. Please attend to it at once.

JNO. COLLMAN,
(For Commissioner for Roads.)

No. 46.

Memo. from Mr. Road-Superintendent Smyth.

Roads Office, Albury, 22 May, 1885.

In reply to the annexed telegram I beg to submit the following information:—A sum of £4,500 was voted for the bridge and approaches at Howlong; out of this amount, unless the Victorian Government are to pay half its cost, £3,070 will be absorbed by the bridge, leaving only £1,430 for the approaches, for which at least £3,000 will be required. Should it be decided to construct the Mulwala Bridge, money will be required for that purpose; I cannot estimate the sum required as I do not know the type of bridge proposed by the Commissioner.

E. C. BOWYER SMYTH.

This must be looked to for Estimates. Mr. Flynn put the name down.—W.C.B., 23/5/87. Noted.—P.H.F.

No. 47.

W. J. Lyne, Esq., M.P., to The Secretary for Public Works.

Sir, Albury, 30 June, 1885.

I beg to call your attention to the enclosed report of a meeting held at Mulwala, on the subject of the bridge over the Murray between that place and Yarrawonga. See No. 52.

The matter has been so often before you that you are quite conversant with all the particulars, and I would strongly urge that a sum be placed on the Estimates sufficient to pay half the cost of constructing the bridge, as the Victorian Government have consented to pay the other half, and with the approaches theirs will be much the largest proportion. Trusting this to your full consideration.

I am, &c.,
WILLIAM JOHN LYNE.

No. 48.

Mr. Sloane to The Secretary for Public Works.

Dear Sir, Mulwala, 30 June, 1885.

A large and enthusiastic public meeting was held here on Tuesday, the 16th instant, with the view of pressing upon the Government the necessity of placing on the Estimates for 1885, half the sum required for the construction of the Mulwala bridge.

The residents have waited many years for this important work, and they consider the time has now come when it should be proceeded with, and that they may with justice and confidence ask the Government for this much needed boon. Instead of taking up your valuable time sending any more deputations or petitions in connection therewith, it was resolved that extracts from the report of the meeting be forwarded to the members of the Ministry and the Members of Parliament for this and neighbouring districts to fully acquaint them with our position at present. And as requested by the meeting, I have now the honor of sending you a written copy of the proceedings, and a printed* report of same (from the *Albury Banner*) for more convenient perusal; also a notice* of the meeting from the *Sydney Morning Herald*. Should this be considered a somewhat unusual course it must be attributed to the earnestness of the inhabitants here in this matter, as they wish to approach you, and each member of the Government with the greatest respect and esteem. *See 52 for extracts.

I am, &c.,
ALEXANDER SLOANE,
Chairman of the Meeting.

I have acknowledged; place with other papers.—F.A.W., 4/7/85. Roads.—J.R., B.C., 6/7/85. Resubmit with papers.—W.C.B., 6/7/85.

No. 49.

Mr. A. Sloane to The Honorable William Bede Dalley, Q.C., Attorney-General.

Sir, Mulwala, 30 June, 1885.

I have been requested by a large and enthusiastic public meeting of the inhabitants of this district, held here on the 16th instant, in reference to the Mulwala bridge, to send you an extract of the proceedings taken from the *Sydney Morning Herald*, of 22nd instant, which I have now the honor to enclose for your perusal. See 52 for extract.

The reasons for this are more fully explained in my letter to the Honorable the Minister for Public Works.

Apologising for thus trespassing on your valuable time,

I have, &c.,
ALEXANDER SLOANE,
Chairman of the Meeting.

Acknowledged, 7/7/85. The Under Secretary for Works.—W.W.S., B.C., 7/7/85. Roads.—J.R., B.C., 9/7/85.

No. 50.

Mr. A. Sloane to The Hon. Sir A. Stuart, Premier.

Sir, Mulwala, 30 June, 1885.

I have been requested by a large and enthusiastic public meeting of the inhabitants of this district, held here on the 16th instant, in reference to the Mulwala bridge, to send you an* extract of the proceedings, taken from the *Sydney Morning Herald*, of 22nd instant, which I have now the honor to enclose for your perusal. *See 52 for extract.

The reasons for this are more fully explained in my letter to the Honorable the Minister for Public Works.

Apologising for thus trespassing on your valuable time.

I have, &c.,
ALEXANDER SLOANE.
Chairman of the Meeting.

The Secretary for Public Works.—A.S., 8/9/85. The Under Secretary for Public Works.—J.B (for P.U.S.)., B.C. Roads.—J.R., B.C., 16/7/85.

No. 51.

No. 51.

Mr. A. Sloane to W. J. Lyne, Esq., M.P.

Dear Sir, Mulwala, 30 June, 1885.

A large and enthusiastic meeting was held here on the 16th instant as to getting the Government to place upon the Estimates for 1885, half the money required to build the Mulwala bridge, and, by the desire of the meeting, I send you herewith a report of the proceedings, taken from the *Albury Banner*, also a leading article from the same journal in favour of the bridge, and a notice of the meeting from the *Sydney Morning Herald*, for your perusal.

See 52 for extract.

I would call your special attention to the following resolution:—"It was proposed by Mr. Dunn, seconded by Mr. Leggo, and carried unanimously,—That, on the assembling of Parliament, the senior member for the Hume, Mr. Lyne, be asked to call for a return of the sums received from the county of Denison during the last fifteen years from land sales, deposits, interests, and instalments on conditional purchases, rents of runs, leases, licenses, and other sources, and of the money expended in the said county for the same period; and be further requested to continue his valuable exertions on our behalf until the Mulwala bridge is sanctioned."

I enclose copy of a letter sent to the Honorable the Minister for Works. I have also sent notice of the proceedings of the meeting, taken from the *Sydney Morning Herald*, to each Member of the Ministry.

Thanking you on behalf of the inhabitants here for your valuable services to them in the past, and hoping you will continue to use your influence with the Government till this, to them, important work is accomplished.

I am, &c.,
ALEXANDER SLOANE.

The Under Secretary for Public Works.—J.B. (for P.U.S.), B.C., 31/7/85. Roads.—J.R., B.C., 6/8/85. £5,000 placed on Estimates.—W.C.B., 10/9/85.

No. 52.

Extract.

From the *Sydney Morning Herald*, 22 June, 1885.

THE MULWALA AND YARRAWONGA BRIDGE.

ON Tuesday afternoon the 15th instant (we learn from a local journal) an influential and enthusiastic public meeting was held at Mulwala, in connection with the proposed bridge. The special object was to secure the inclusion in the next Estimates of provision for a much-required bridge over the River Murray, between the township of Mulwala, on the New South Wales side, and the township of Yarrawonga, in Victoria. Squatters, selectors, and other residents within a radius of 30 miles, were present, despite inclement weather, and much enthusiasm appears to have been evinced in the proceedings. The principal speakers were—Mr. Alex. Sloane, J.P., chairman; Messrs. Alfred Hay, Boomoonamana; M'Geoch, Patrick Dunn, Legge, K. Murchison, Sharpe, Ewins, John Bromley, Richards, J. M'Namara, J. Sloane, and others. The following resolutions were unanimously carried, viz.:—"That the members for the Hume be requested to use their influence in urging the Government of New South Wales to place on the Estimates for 1885 half the sum required for the erection of the bridge over the Murray, between Mulwala and Yarrawonga" "That on the re-assembling of Parliament the senior member for the Hume, Mr. Lyne, be asked to call for a return of the revenue received from the county of Denison during the last fifteen years, from land sales, deposits, interests, and instalments on conditional purchases, rents of runs, and leases, licenses, and other sources, and of the money expended on the said county for the same period; and that he be further requested to continue his valuable exertions on our behalf until the Mulwala bridge is sanctioned by the Government." It was also resolved that the proceedings be published in Sydney, and that extracts of the speeches be supplied to each member of the Ministry and the members for the Hume and adjoining electorates. The chairman's address set forth clearly the facts in connection with the agitation. It had been commenced about seven years ago, and in 1879 the inhabitants on either side of the river unanimously petitioned their respective Governments. Victoria expressed its willingness to contribute half the cost, and the Mulwala petition was endorsed with very favourable minutes by their Minister. After waiting for two years they resolved to build the bridge at their own expense; a company was organised, shares were taken up, and much trouble and expense was gone to in examining the ground, boring, employing competent engineers to prepare plans, obtaining estimates, &c. To secure, if possible, the necessary enabling bill, a deputation was sent to Sydney; but the Government declined to allow the construction of a private bridge, so that the mission fell through. The deputation, therefore, finding they could not succeed, urged upon the Minister to join the Victorian Government in erecting the bridge at the joint expense of the two Colonies; and in order to prove the importance and necessity of the work, also the earnestness of the inhabitants in the matter, and to give the Government no possible excuse for non-compliance, they offered, on behalf of the residents, to pay the same tolls to the Government bridge that were intended to be levied by the private company. The Minister (the Hon. F. A. Wright), received them very courteously, but seemed to view the matter as one of almost national importance (quite erroneously, the deputation urge, as it was a question solely of facilitating the necessary traffic to the border residents on both sides), and was candid enough to say "he doubted if it would be wise to erect a bridge to divert the traffic from this Colony to the extension of the Victorian railway, then in progress. At the same time he was in favour of affording every facility to the people of transacting their business in whichever market might be most profitable for them; but it was a matter upon which he must consult his colleagues, and that he would have the papers submitted to the Cabinet as soon as the Land Bill and other important measures were settled." An engineer (Colonel Wells) was sent to inspect the site, and reported very favourably, recommending the bridge. Mr. Bowyer-Smyth, road superintendent, examined the site, and there the matter rested until Mr. Wright's recent visit to Corowa, in May. A wish still existed to erect the bridge at private cost, if necessary, and it was pointed out that no bridge existed between Corowa and Moama, a distance of 130 miles by land and nearly 300 by stream, of the

the largest river in Australia, in one of its most populous parts. A punt had been in existence thereabouts for thirty-six years, and it was strongly urged that were a return compiled of revenue received from the county of Denison during the last fifteen years, from land sales, deposits, and conditional purchases, interest, instalments on same, rents of runs, leases, licenses, and other sources, and of money expended, it would be found that the request was altogether reasonable. A sub-committee was appointed to deal with the business of the meeting, and an unanimous effort was determined upon.

From *The Albury Banner*, 26 June 1885.

THE MULWALA AND YARRAWONGA BRIDGE.—ENTHUSIASTIC PUBLIC MEETING.

A PUBLIC meeting, infused with much enthusiasm, and attended by a large number of squatters and selectors, was held at Mulwala on Tuesday afternoon, the 15th instant. The object was to secure the inclusion in the New South Wales estimates for the coming financial year, of the much-required bridge over the River Murray, between the township of Mulwala on the New South Wales side, and the township of Yarrawonga on the Victorian side. As evidencing the urgency of the work, squatters and selectors residing in Riverina, within a radius of 30 miles, put in an appearance, notwithstanding that the weather was most inclement—rain falling heavily all day.

Mr. Alexander Sloane, J.P., was voted to the chair, and on rising to speak was greeted with applause. Mr. Sloane said: I am astonished to find such a numerous gathering here to-day, considering the most unpropitious state of the weather. But it goes to show how thoroughly in accord the residents of this portion of Riverina are in the matter of the bridge. This meeting—which I consider the most important ever held in Mulwala, except the one at which the private bridge was initiated—has been called together to take further steps towards getting the Government of New South Wales to put upon the estimates for this year the amount required for the erection of a bridge across the River Murray, between Mulwala and Yarrawonga. A great deal has already been said and done, and numerous meetings held at intervals during a long period, in reference to this matter. We commenced the agitation in earnest about seven years ago, and in 1879 the inhabitants on both sides of the river unanimously petitioned their respective Governments on the subject. The Victorian Government expressed their willingness to contribute half the cost, and our Mulwala petition can, I believe, still be found stowed away in one of the Sydney offices, with most favourable minutes upon it by the then Minister, but nothing more was heard of it; so after waiting patiently for over two years, we resolved to build the bridge at our own expense, without asking the Government for one penny of subsidy. As is well known, we organised a company, got the shares readily taken up, went to great trouble and cost in examining the ground, boring, employing competent engineers to prepare the necessary plans, getting estimates, &c., and had everything ready to call at once for tenders; but before doing so, we had to get an Enabling Bill passed by Parliament, so a deputation consisting of Messrs. Reilly and Murchison and myself, were sent to Sydney to obtain the sanction of the Government to let the bill be introduced; but they declined to allow us to build a private bridge, so that our mission fell through, and all the time and trouble expended by the company resulted in nothing but a large balance to the debit of the shareholders. The deputation, therefore, finding they could not succeed in getting their request granted, urged upon the Minister to join the Victorian Government in erecting the bridge at the joint expense of the two colonies; and in order to prove the importance and necessity of the work, also the earnestness of the inhabitants in the matter, and to give the Government no possible excuse for non-compliance, they offered, on behalf of the residents, to pay the same tolls to the Government bridge that were intended to be levied by the private company. The deputation were greatly assisted by our own members, Messrs. Lyne and Levin, the members for the Murray, Messrs. Wilson and Barbour, and Mr. Day, member for Albury, who took the utmost interest in our success, taking a great amount of trouble, and promising to do all in their power to push the matter on. Mr. Herbert Brown and other members of Parliament also expressed their willingness to help us. The Minister—the Hon. F. A. Wright—received us very courteously, but seemed to view the matter as one of almost national importance (quite erroneously, as it is a question solely of facilitating the necessary traffic of the border residents on both sides), and was candid enough to say "he doubted if it would be wise to erect a bridge to divert the traffic from this colony to the extension of the Victorian railway then in progress; at the same time he was in favor of affording every facility to the people of transacting their business in whichever market might be most profitable for them, but it was a matter upon which he must consult his colleagues; that he would have the papers submitted to the Cabinet as soon as the Land Bill and other important measures were settled." He also promised to send a Government engineer to inspect and report upon the site, and although no definite promise could be got that the money would be put upon the 1884 estimates, still the deputation left Sydney fully satisfied that the bridge was certain and would be built at no very distant date. After considerable delay the engineer, Colonel Wells, arrived, inspected the site, and sent in a very favorable report, as I believe, recommending the bridge. Since then Mr. Bowyer-Smyth, road superintendent, has examined the place, and there matters rested till Mr. Wright's ministerial visit to Corowa on 5th May last. It was expected he would have honored Mulwala by visiting us at that time, accompanied by our member, Mr. Lyne, and thus have been able to judge for himself; but his time would not permit, so another deputation from this district waited upon him at Corowa, when he said:—"He had a perfect recollection of past efforts to induce him to look at the matter in its most favourable aspect, and he agreed with the speakers that the demand for increased facility for communication at this part of the Murray River was urgent. On the last occasion he had simply laid the matter before his colleagues without recommendation, but now he would encourage us so far in that he would send down an engineer—a competent man—who would inquire into the necessity of the structure as well as calculate the cost; and if his report was favourable he promised the deputation that he would again lay the matter before his colleagues, and support it by recommendations based upon the engineer's report." Now the Minister must have forgotten that he had already fulfilled that part of his promise referring to the engineer, because over a year ago a competent gentleman came from Sydney, and, as I have said, made the necessary inspection and inquiries, and reported favorably, and if he did not go into the calculation of cost, I presume this can be done in Sydney by those skilled in such matters from the details of Colonel Wells's report. Therefore the inhabitants here contend that all necessary preliminary steps have been taken, and we again meet to urge the Government to put half of the money required to build the bridge on this year's estimates, and have the work completed without further delay. We are still

still willing and anxious to erect the private bridge at our own cost, and on any reasonable terms the Government may propose as to resumption; so we are not asking them to do for us what we are not prepared to do for ourselves. They cannot then, with reason, longer refuse to join Victoria in this most urgent and necessary work. There is no bridge between Corowa and Moama, a distance of 130 miles by land, and nearly 300 by stream of the largest river in Australia, in one of its most populous parts, and the inhabitants not allowed to build one for themselves. I wonder what the people of Cumberland would think if they were treated similarly! Not that we are so inconsiderate as to expect, or claim an expenditure like theirs; but I do not see that because we happen to reside nearly 400 miles from the metropolis that our revenue, which is large, should be rigidly collected, and our wants, which are small, should be entirely ignored. In fact, during the thirty-six years since the punt was established at this crossing, this is the first favour of any consequence we have asked from our Government. If the Minister would get a return compiled of the revenue received from the county of Denison during the last fifteen years from land sales, deposits on conditional purchases, interest, instalments on same, rents of runs, leases, licenses, and other sources, and of the money expended in the said county for the same period, they would see, in contrasting the two, that we are asking a very small thing indeed, and would themselves agree with us that we are fully entitled to it. I therefore feel convinced that if there is justice to be got in Sydney, which I am certain there is, that our efforts this time to get the Mulwala and Yarrawonga bridge speedily commenced will be crowned with success. (Loud applause). I will now call upon Mr. Alfred Hay to move the first motion.

Mr. Alfred Hay, Boomanoomana, moved—

That the members for the Hume be requested to use their influence in urging the Government of New South Wales to place on the Estimates for 1885 half the sum required for the erection of the bridge over the Murray between Mulwala and Yarrawonga.

Seconded by Mr. M'Geoch, and carried unanimously.

Mr. Patrick Dunn moved a further motion—

That on the reassembling of Parliament the senior member for the Hume, Mr. Lyne, be asked to call for a return of the revenue received from the County of Denison, during the last fifteen years, from land sales, deposits, interests, and instalments on conditional purchases, rents of runs and leases, licenses, and other sources, and of the money expended on the said county for the same period; and be further requested to continue his valuable exertions on our behalf until the Mulwala Bridge is sanctioned by the Government.

Seconded by Mr. Leggo, and carried unanimously.

Mr. K. Murchison moved—

That a report of this meeting be forwarded to the *Sydney Morning Herald*, with a request that it be published; and that extracts be sent to each member of the Ministry, and the members of Parliament for the Hume and adjoining electorates.

Seconded by Mr. Sharpe, and carried unanimously.

Mr. Ewins urged continuous agitation, and suggested the advisability of adopting a system by which the question could be kept in constant motion.

Mr. Sloane said it was highly essential that such steps should be taken, so that the matter might not be permitted to flag.

Mr. John Bromley heartily concurred. If necessary, he would be in favour of a petition, which he was sure would be signed by every man in the county of Denison and far beyond it.

Mr. Sloane apologised for the absence of the Hon. Charles Young, of Bull Plain, who expressed his sincere regret at his inability to attend; but stated that the movement had his hearty sympathy and support.

Mr. Leggo moved that the minutes of the meeting be forwarded to the Hon. Charles Young, and that he be asked to use his influence with the Government of New South Wales in the matter of the bridge.

Seconded by Mr. K. Murchison.

Mr. Richards moved an amendment:—"That a sub-committee be appointed to deal with the business of the meeting, consisting of the following names:—Messrs. A. Sloane, K. Murchison, Patrick Dunn, R. Leggo, J. J. Reilly, G. M'Geoch, and (by request) himself; and that Mr. A. Ewins be elected honorary secretary."

Mr. Leggo withdrew his motion, and Mr. J. M'Namara seconded Mr. Richard's motion, which was carried.

Mr. Sharpe spoke in favour of a deputation waiting upon the Ministers at Jerilderie, on the occasion of the opening of the railway at that place.

Mr. James Sloane thought such a step inadvisable.

Mr. Alex. Sloane said deputations had been sent and had done a great deal of good; but he did not think them necessary now, as their wants were fully understood.

Mr. Murchison was of the same opinion.

Mr. M'Geoch moved that a report of the meeting in manuscript be sent to the Minister direct, signed by the Chairman.

Seconded by Mr. Ewins, and carried.

Mr. Leggo moved a hearty vote of thanks to Mr. Sloane, and the meeting then terminated.

No. 53.

W. J. Lyne, Esq., M.P., to The Secretary for Public Works.

Dear Sir, Sydney, 17 September, 1885.

I beg to enclose a letter from the Mulwala Progress Committee alleging that the pun. charges are excessive, and praying that a free punt be established at that part of the river.

If it be possible to comply with the wishes of the committee in this matter I shall be obliged.

Yours, &c.,

WILLIAM JOHN LYNE.

Roads.—

Roads.—J.R., B.C., 23/9/85. Previous papers. I think this punt is in Victorian hands. Resubmit with bridge papers.—W.B.C., 25/9/85.

A sum is on Estimates for bridge here. I think no action can be taken about punt, as it involves the intercolonial question of the right to the river. See 87-1,241 herewith.—W.C.B., 30/9/85. Under Secretary, B.C.

Submitted.—J.R., 2/10/85. Inform.—F.A.W., 3/10/85. W. J. Lyne, Esq., M.P., written to, 6/10/85. Roads.—J.R., B.C., 6/10/85.

No. 54.

The Progress Committee, Mulwala, to W. J. Lyne, Esq., M.P.

Dear Sir, Mulwala, 7 September, 1885.

I am directed by the Mulwala Progress Committee to request that you will bring under the notice of the Honorable the Minister for Works and impress on him the necessity of establishing a free punt across the Murray at Mulwala pending the erection of the bridge.

This could be accomplished with very little expense, as the punt now plying could be purchased at a trifling cost. There would then be only the salary of a suitable person to consider.

The Committee desire further to bring under the notice of the Minister the now notorious facts that the charges are almost unbearable and press heavily on the residents of Mulwala and others out back, inasmuch as they are exorbitant and require remedying with as little delay as possible. For instance, should a resident of Mulwala have occasion to cross the Murray and bring his family (say six) with him he has not only to pay 2s. 6d. for the crossing of the vehicle, but is also compelled to pay 6d. each for every member of his family. This is a crying evil and requires abolishing at once. Again should a resident of Mulwala have business transactions in Yarrawonga, which would necessarily detain him until 9·5 p.m., the consequence is that such resident would have to pay double fare. The Committee therefore are desirous of ascertaining if it is legal for the licensee of the punt to frame such exorbitant charges to the detriment of the general public.

The Committee earnestly desire that you will use your best endeavours by impressing on the Minister the necessity of complying with its request, as it is not only based on justice but is approved by the community at large.

We, the undersigned, President and Vice-President of the Mulwala Progress Committee, do hereby certify as to the truth of the above.

JOHN ALLISON, President.
A. WILLIAMSON, Vice-President.
C. A. HOWARD, Hon. Secretary.

Roads for report.—F.A.W., 22/9/85.

No. 55.

The Sub-Committee, Mulwala, to Sir A. Stuart, Esq., M.P., Premier.

Sir, Mulwala, 21 September, 1885.

As a sub-committee appointed to carry out the business of the public meeting held here in June, regarding the bridge between Mulwala and Yarrawonga on the River Murray, we have the honor to state, that we deem it desirable to bring this important matter directly before you as head of the Government, and would most respectfully ask you to give the subject your careful consideration.

The inhabitants of this part of the Colony, having already done everything that can be done in the way of holding public meetings, sending petitions and deputations to Sydney, &c., also forming—at great cost to themselves—a private company to build the bridge (the shares of which were readily subscribed for), now take the liberty to address you; and that you may be personally, thoroughly informed, as to what has been done in order to get this bridge built, we enclose for your perusal printed extracts detailing the steps that have been taken in the past, as we feel satisfied when you are fully acquainted with all the particulars, you will see the urgency and reasonableness of the request made,—"That half the sum required for the erection of this necessary work be placed on the Estimates for 1885."

In the hope of receiving from you a favourable reply, and without wishing to trespass longer on your valuable time,

We have, &c.,

Alexander Sloane, Chairman,	A. Ewing,
Patrick Dunn,	Robert M'Geoch,
Richard Leggo,	John Mitchell,
John J. Reilly,	H. B. Richards.

No. 56.

The Under Secretary for Public Works to W. J. Lyne, Esq., M.P.

Sir, Department of Public Works, Sydney, 6 October, 1885.

In reply to your letter of the 17th ultimo, urging the establishment of a free punt at Mulwala River, I am directed to inform you that no action can be taken in respect to a punt at this place, as it involves the international question of the right to the river.

I am to add, that provision has been noted for a bridge, to be considered when the Estimates for next year are in course of preparation.

I have, &c.,
JOHN RAE.

No. 57.
The Secretary, Mulwala Progress Committee, to J. Hayes, Esq., M.P.

Dear Sir, Mulwala, 2 November, 1885.

I am directed by the Members of the Mulwala Progress Committee to convey to you their hearty congratulations on your successful return to Parliament as Member for the Hume. At the same time they cannot but express their disappointment in your not visiting this part of the Electorate, where many of your staunchest supporters were prepared to accord you a hearty welcome, and at the same time to make you acquainted with the requirements of the town and district.

The Committee would have expressed its satisfaction on your return ere this, were it not for the fact that this is its first regular meeting since the elections. The Committee, therefore, invite your kind co-operation in all matters pertaining to the welfare of the town and district, having implicit confidence in your integrity and uprightness, both as a gentleman and citizen. Under these circumstances, therefore, I am directed to bring under your notice the necessity of keeping in view the erection of the bridge across the Murray at Mulwala, and that the sum of £5,000, sanctioned by the previous Minister for Works, towards its erection, be still retained on the Estimates for 1886, as a similar sum was voted last year by the Victorian Government for a like purpose, which sum is now lying idle in the Melbourne Treasury pending the action of the New South Wales Government.

Secondly.—The Committee further direct me to bring under your notice the fact that the sum of £2,000 was voted last year for the erection of a Court-house at Mulwala. Although tenders were called on two occasions, and sent in, yet up to the present no action has been taken in the matter, and no satisfactory answer has been received. Will you be so good as to ascertain the cause of this useless delay.

Thirdly.—The wretched state of our main street calls aloud for the action of the Minister for Works. The Committee need not point out its deplorable state, as the present Minister, W. J. Lyne, Esq., is cognizant of the fact, having been driven through on two occasions during his visit to this part of the Electorate on the 15th October last.

Finally.—The Committee confidently trust that as these three most important works are in the immediate jurisdiction of the present Minister, you will be pleased to see that the Court-house be erected with as little delay as possible, and that the formation and metalling of our main street is a necessity that brooks no delay, and at a subsequent period the construction of the bridge across the Murray at Mulwala.

I am, &c.,
C. A. HOWARD,
Secretary, Mulwala Progress Committee.

What is delaying the erection of the Court-house at Mulwala?—W.J.L., 12/11/85. Are there any papers in reference to the roads?—W.J.L., 12/11/85. Acknowledged, 13/11/85. Roads.—J.R., B.C., 14/11/85. Previous papers, Mulwala-street.—W.C.B., 16/11/85.

No. 58.
Petition.

To the Honorable William John Lyne, Minister for Public Works, Sydney,—

Sir, 26 April, 1886.

We, the undersigned, as the Committee appointed by the residents of this district and neighbourhood, to carry on the business of the public meetings regarding the Mulwala and Yarrawonga bridge, assembled here this day, respectfully wish to bring under your notice the great delay that has taken place in carrying out this important and necessary work. We are quite aware that this has been caused to a great extent, if not solely, by the numerous political changes during the past eight months, which is also the reason we have refrained from writing on the subject sooner.

But now, when happily a more settled state of things exists, and a Government is in office which we hope will long retain the confidence of the country, we beg once more to bring this subject prominently before you.

It is quite unnecessary to recapitulate all the steps taken during the past eight years, by petitions, deputations, correspondence, &c., to get this boon granted, these being all well known to you as a Member of Parliament for the Hume during so long a time. You will recollect also that three years ago the people here formed a company (the shares of which were readily taken up) to erect the bridge at their own cost, and when all ready to begin the work the Government declined to allow the construction of a private bridge, so that after a great deal of trouble and expense had been incurred the Company had to be disbanded and the balance of the money returned to the shareholders. We would now merely remind you that the amount required for half the cost of the structure was placed on the Estimates about the end of September, 1885, by your predecessor in the Stuart Government, the Honorable F. A. Wright, who was fully convinced of the absolute necessity of the work. Since then we have not heard anything more on the subject, and now write again to bring the matter under your notice as Minister for Public Works.

We would call your attention to the fact that the railway to Yarrawonga is to be opened on Wednesday, the 5th May, and as this will have the effect of greatly increasing the traffic on both sides of the border, we would point out to you that the want of this bridge will put great impediments in the way of such traffic and cause immense inconvenience to the people in this and the surrounding districts.

With the greatest confidence, therefore, in the justice of our claim, which has long since been acknowledged by the Government, we would most respectfully and earnestly urge upon you to call for tenders for this much required bridge with as little delay as the convenience of the Department will allow.

We have, &c.,
ALEXANDER SLOANE, Chairman.
A. EWINS.
JAMES EVEREST.
ALEX. CAMERON.

[*Here follow* 19 *signatures.*]

The amount to be submitted for consideration upon additional Estimates.—W.J.L., 30/4/86. Acknowledged, 3/5/86. Roads.—J.R., B.C., 3/5/86.

No. 59.

No. 59.

Memo. from Mr. Assistant-Engineer M'Donald.

Roads and Bridges, 2 June, 1886.

WILL Mr. Smyth please say whether the approach to Mulwala Bridge can be taken along line marked brown on attached tracing, and, if so, will he have section made to connect to section also herewith forwarded by him 10th April, 1885. Should he be able to point out a better line for this bridge he will please do so in his reply.

JOHN A. M'DONALD,
Assistant Engineer.

Mr. M'Donald,—See me on this. I would like to have this bridge on Loan Estimates.—W.C.B., 19/7/86. Report and tracings herewith.—E.C.B.S.

Approximate Estimate.

	£
Main bridge	16,000
New South Wales approach	700
Victorian approach	2,000
Total	£18,700

Commissioner for Roads. J.A.M'D., 29/7/86.

I recommend that steel lift bridge be constructed here at the above estimated cost, and that £8,700 be provided on next Estimates, as the New South Wales moiety of river bridge with entire New South Wales approach.—W.C.B., B.C., 7/8/86. Under Secretary.

Submitted.—J.R., 10/8/86. This is altogether too extravagant. The river is about the same width as at Howlong, and the main bridge should not cost much more.—W.J.L., 17/8/86.

I submit the drawings. The Howlong bridge is not a lift and blocks navigation. In addition it is a perishable timber bridge. If the Minister so decides provision for a timber bridge can be made.—W.C.B., 19/8/86. Under Secretary, B.C.

The amounts will be for timber fixed bridge, one half, £1,700; or for iron main lift bridge, with timber approaches, one half, £13,100.—W.C.B., 29/9/86. Let £4,000 be put on Additional Estimates.—W.J.L., 27/9/86. Roads.—J.R., B.C., 28/9/86.

No. 60.

Mr. Road-Superintendent Smyth to The Commissioner for Roads.

Re Bridge at Mulwala.

Sir, Roads Office, Albury, 19 June, 1886.

On 3rd June I received instructions from Mr. J. M'Donald, Assistant Engineer, to have a section made along a new line on the Victorian bank, running from the proposed site of the Mulwala bridge to Yarrawonga township, being the line of approaches on the Victorian bank. I have the honor to request information as to whether this work is urgent, or whether it could be deferred till beginning of next month, as I have a great deal of work on hand, being the end of the quarter, and Mulwala being 65 miles distant, the work will keep me away from Albury some time. If I were to receive a wire to say that the matter was urgent I could start on Wednesday.

I have, &c.,
E. C. BOWYER SMYTH.

Mr. M'Donald,—See me.—W.C.B., 21/6/86. Defer till beginning of month.—W.C.B., 21/6/86. Mr. Smyth, B.C. Noted.—E.C.B.S., 28/6/86. The Commissioner for Roads. File.—W.C.B., 30/6/86.

No. 61.

The Premier of Victoria to The Premier of New South Wales.

Sir, Premier's Office, Melbourne, 28 June, 1886.

I beg to forward herewith for your consideration a copy of a communication written by direction of my colleague the Honorable the Commissioner of Public Works relative to the erection of a bridge over the Murray at Yarrawonga.

I shall be glad to learn at your convenience what steps your Government have taken in the matter.

I have, &c.,
D. GILLIES,
Premier.

No. 62.

The Secretary, Department of Public Works, Melbourne, to The Premier of Victoria.

Department of Public Works, Roads and Bridges Branch,

Sir, Melbourne, 24 June, 1886.

I have the honor, by direction of the Honorable the Commissioner of Public Works, to inform you that representations have been made by the residents of Yarrawonga, as to the necessity that exists for the erection of a bridge over the Murray at Yarrawonga, and it has also been stated that the Government of New South Wales has made provision for a moiety of the cost.

As no official communication has been received from New South Wales on the subject, Mr. Nimmo would be glad if you would cause inquiries to be made as to whether any steps have been taken by the New South Wales Government in the matter, and, if so, that particulars might be furnished for the information of this Colony.

I have, &c.,
CHARLES LE CREA,
Secretary.

No. 63.

No. 63.

The Secretary to The Premier to The Secretary for Public Works.

Sir, The Treasury, New South Wales, Sydney, 15 July, 1886.

I have the honor, by direction of the Honorable the Premier, to forward to you a copy of a letter received from the Premier of Victoria, enclosing one from the Honorable the Commissioner for Public Works of that Colony relative to the erection of a bridge over the Murray at Yarrawonga.

2. I am desired by Sir Patrick to ask that you will kindly enable him to reply to Mr. Gillies' letter at an early date.

I have, &c.,
R. SCARLETT,
Secretary to the Premier.

Inform the Treasury that it has been already approved of, that we shall bear one moiety of the cost of bridge, and the only question is whether the money shall come out of the general Estimates or be provided on Loan Votes. The estimated cost £5,000 was placed on the 1885 Estimates.—W.J.L., 17/7/86.

The Under Secretary for Finance and Trade.—J.R., B.C., 19/7/86. Mr. Scarlett.—G.E., 21/7/86. Submitted.—R.S., 22/7/86. Inform Mr. Gillies in terms of Mr. Lyne's minute, and place letters with estimate papers, 22/7/86. Done.—R.S., 22/7/86.

No. 64.

Mr. Road-Superintendent Smyth to The Commissioner for Roads.

Sir, Roads Office, Albury, 16 July, 1886.

I have the honor to return by this post tracings of plan and sections in connection with the proposed bridge over the Murray between Mulwala and Yarrawonga. I have shown on the sheet of sections the line of levels from Mr. Merrit's peg on the Victorian bank to the north end of Belmore-street, Yarrawonga. I was unable to follow exactly the line marked by Mr. M'Donald, as the ground is very heavily timbered. I forward a tracing showing the line as surveyed ; I also show on this tracing the line across the Murray to which my enlarged section corresponds, and a small portion of the river from actual survey. It appears from this that the line I have chosen would be as near as possible at right angles to the current, but if considered advisable the New South Wales end could be shifted somewhat more to the west. The line shown blue in tracing, supplied me from head office, I do not think would be feasible as it runs through a pile of buildings of Mr. Halburd, and then crosses some lofty sand-hills. I have marked a line A, B, on tracing (shown dotted red), which just clears the buildings in question. I may mention that the section across the Murray, forwarded by me, commenced from Mr. Derrit's peg on the Victorian bank, pointed out to me by the Secretary of the Bridge Committee, Yarrawonga.

I have, &c.,
E. C. BOWYER SMYTH.

Telegram from The Premier of Victoria to The Premier of New South Wales.

Melbourne, 5 August, 1886.

WHAT is amount that you are providing as half cost of bridge at Yarrawonga?

D. GILLIES, Premier.

Submitted.—R.S., 6/8/86.

Forwarded to the Honorable the Minister for Works by direction of the Honorable the Premier. Sir Patrick is desirous of affording the required information during to-day, Friday.—R. SCARLETT, Secretary to Premier, 6/8/86.

£5,000 was on last year's Estimates, and the same sum I propose to place on the Additional or Loan Estimates. Yarrawonga is the town on the Victorian side; Mulwala is the name of the one on the New South Wales side.—W.J.L., 6/8/86.

Inform.—P.A.J., 6/8/86. Done.—R.S., 6/8/86.

No. 67.

The Premier of Victoria to The Premier of New South Wales.

Sir, Premier's Office, Melbourne, 12 August, 1886.

I have the honor to acknowledge the receipt of your letter of the 6th instant, stating that a sum of £5,000 has been provided by your Government on the Estimates as the moiety of the cost of the Yarrawonga Bridge.

A like amount will be placed on the Supplementary Estimates of this Colony for the current financial year, as the moiety of Victoria towards the cost of the work.

I have, &c.,
D. GILLIES,
Premier.

Submitted. Perhaps a copy of this letter may be forwarded to the Minister for Works.—R.S., 14/8/86. Approved.—P.A.J., 14/8/86.

No. 68.

Mr. C. A. Howard to The Secretary for Public Works.

Dear Sir, Mulwala, 28 October, 1886.

At a meeting of the members of the Mulwala Progress Committee, held on the above date, it was, on the motion of Mr. G. Camplin, seconded by Mr. A. Aston, carried:—

"That the Secretary write to the Honorable the Minister for Works, requesting that tenders be called for the construction of the bridge with as little delay as possible."

Under these circumstances, therefore, I have the honor to request that you will be pleased to comply with the wish of the Committee at as early a date as the urgency of the case demands. The Committee tender you sincere thanks for your successful passage of the bridge vote.

I have, &c.,
C. A. HOWARD.

Now that the vote has been passed I would like the matter expedited.—W.J.L., 1/11/86. Acknowledged, 3/11/86. Roads, B.C., 4/11/86. Look up all drawings, and Mr. M'Donald see me on same.—W.C.B., 5/11/86. Papers and drawings herewith.—J.A.M'D., 8/11/86.

No. 69.

Memo. from The Secretary for Public Works.

Mulwala Bridge.

WHEN at Corowa some gentlemen from Mulwala waited upon me with reference to the question of bridge there, for which a sum of £5,000 was voted on our Estimates, being half the proposed cost. It was stated that the Victorian Government were waiting for plans to be prepared by this Government, and that they would pay their moiety of cost. I informed them that so far as I recollected the delay rested with the

Victorian

Victorian Government in delaying to reply to our inquiries as to the preparation of plans, but I would make inquiries so soon as I returned to Sydney. I promised further that no time would be lost in starting the work, and that the preliminary and necessary plans would be ready in a fortnight or three weeks.

I shall be glad if this matter has early attention.

W.J.L.

I would first like to see Mr. Bennett. Roads, B.C., 14/12/86. Information herewith.—W.C.B., 14/12/86.

No. 70.
Minute by The Commissioner for Roads.

In reference to Mulwala Bridge, the last action of the Minister was to put £5,000 on the Estimates for the New South Wales moiety of this work, as he considered the sum estimated by the Department too large, the bridge at Howlong having cost much less. I append drawings showing the comparative size of the rivers, by which it will be seen Howlong is a much less expensive site, and the bridge a fixed bridge.

See Appendices D and E.

The sum estimated for a steel and iron lift bridge over river, with iron approaches on both sides, was £35,800; for an iron and steel lift bridge over river, with timber approaches, was £26,200; a fixed iron bridge of the lightest safe description, with timber floor, will cost £10,000, the timber approaches to which would cost £10,200 on both sides. In my opinion a lift bridge is indispensable, as any person living on river could obtain a *mandamus* to remove a bridge obstructing the navigation. Howlong bridge is subject to this at any time; a lift bridge was there suggested, but the Minister of the day decided not to have one. The navigation of still more importance is at Mulwala, and the lift bridge proposed provides for navigation during floods, by any vessel able to pass under the fixed bridge at Echuca, and at much less cost. We have thus £10,000 to provide for a steel lift bridge in the centre of river, with fixed side-spans, which must be of timber. Drawing is now being got out, and will be ready to be forwarded in a week, showing outline.

In addition to the £10,000, New South Wales will have to provide £1,250 and Victoria £8,950, for timber approaches, on their respective sides.

W.C.B., 14/12/86.

Under Secretary, B.C.

Submitted.—J.R., 15/12/86.

There is no necessity for a lift bridge; an iron bridge well above the water is all that is necessary. If Victoria agrees to this, as I believe that Government will do, we have nothing to do with the approach on the Victorian side, and on our side the site selected is one of the best along the river, being a good sound bluff, so that the approach should cost very little. Have the plan prepared without the lift.—W.J.L., 17/12/86. Roads, B.C., 18/12/86.

No. 71.
Memo. by The Secretary for Public Works.

Minister would like to see Mulwala Bridge papers, and know what has been done further (this morning). H. M'L., 24/12/86.

Papers herewith.

Seen. Please let me know when the plans for a bridge such as I have described will be ready.—W.J.L., 24/12/86. Roads.—J.R., B.C., 29/12/86. Mr. M'Donald.—W.C.B., 29/12/86.

No. 72.
G. Graham, Esq., M.P. (Moira, Victoria), to The Hon. W. J. Lyne, M.P.

Dear Sir, 29 December, 1886.

I trust you will excuse me for writing to you at this time on a subject in which your constituents, as well as mine, are greatly interested. I refer to the bridge over the Murray at Yarrawonga. My colleague (Mr. Hall) and myself have done all in our power with Mr. Nimmo, the Minister of Public Works, in Victoria, to ensure the work being started this summer, and that gentleman assures us there will not be a moment lost on his part in proceeding with the Victorian approach, as soon as he has seen and approved of the plans, &c., which are being prepared by your Government; also, that the Victorian share of the cost of construction of bridge is ready at any moment.

I sincerely trust you will cause the plans to be prepared and submitted without further delay, as I need not point out to you the great and natural advantages that will accrue to the residents on both sides of the river by the early erection of the bridge. Apologising for troubling you at this time.

I remain, &c.,
GEORGE GRAHAM,
M.P. for Moira (Vic).

Acknowledge and forward to Mr. Bennett.—W.J.L., 4/1/87. Acknowledged, 5/1/87. Roads.—J.R., B.C.

No. 73.
Minute by The Secretary for Public Works.

Are the Mulwala Bridge plans ready yet?

W.J.L., 3/1/87.

Mr. Bennett.—J.R., 3/1/87. Mr. M'Donald,—When will those plans be ready?—W.C.B., 3/1/87. Elevation of the general design will be ready in one week.—J.A.M'D., 3/1/87. Commissioner for Roads. Under Secretary.—W.C.B., B.C., 3/1/87. Seen.—W.J.L., 5/1/87. Roads.—J.R., B.C., 3/1/87. Mr. M'Donald.—W.C.B., 5/1/87.

No. 74.

Telegram from Mr. Road-Superintendent Cronin to The Commissioner for Roads.

7 January, 1887.

Re inquiries by Mr. M'Donald, iron bridge Moama.—Highest known flood, 1870, is 20½ feet below bottom of girders of three main spans crossing river, from which inclined spans occur.

E. G. CRONIN.

No. 75.

Mr. Assistant-Engineer M'Donald's reduced estimate.

Reduced Estimate of Cost—Bridge over Murray River at Mulwala.

	£
1. An iron bridge over the main river with continuous girders 364 feet long, supported on four cylinder piers, as shown in red on sketch herewith. The deck to be 18 feet. The under side of girders to be 1 foot above flood. Cost, exclusive of railway carriage	10,000
2. A timber truss bridge over the main river with four spans, each 90 feet. The deck to be 18 feet wide. The under side of the trusses to be 1 foot above flood. Cost	4,000
3. Inclined approaches N. S. Wales side—approaches inclined 1 in 30—	
Four spans of 30 feet each, at £6	720
Earthwork	80
Total cost	£800
4. Inclined approaches, Victorian side—approaches inclined 1 in 30—	
Five spans of 30 feet each, at £6	900
Low-level bridge, six spans of 30 feet each, at £6	1,080
Earthwork	420
	£2,400

Either of the bridges Nos. 1 and 2 will obstruct the river traffic at Wahgunyah, and the inclined approaches will be liable to be washed away by floods. My original estimate also herewith.

Commissioner for Roads.

JOHN M'DONALD.

No. 76.

Mr. Assistant-Engineer M'Donald's estimate.

Mulwala Bridge.

11 January, 1887.

Design drawn in accordance with minute of Honorable the Minister for Public Works of 24th December, 1886, shown blue—

	£
364 feet iron bridge, 18 feet roadway	10,000
Carriage to site	3,500
Extra for increased height	1,000
Total main river	£14,500
N. S. Wales approach—	
268 feet bridge, at £6 10s.	1,742
Earthwork	120
Total...	£1,862
Victorian approaches—	
448 feet bridged, at £6 10s.	2,912
86 feet low-level, at £6	516
Earthwork	420
Total	£3,848
Summary—	
Main bridge...	14,500
N.S.W. approach	1,862
Victorian approach	3,848
Total cost	£20,210

Commissioner for Roads.

J.A.M'D.

No. 77.

No. 77.

Mr. Assistant-Engineer M'Donald's estimate.

Mulwala Bridge.

Design in red as submitted by Commissioner for Roads—	£
225 feet truss; at £11	2,475
Lift span complete, including carriage	4,000
Total	£6,475
New South Wales approach—	
Bridge 118 feet, at £6	708
Earthwork	80
Total	£788
Victorian approaches—	
Bridge 148 feet, at £6	888
Earthwork	420
Eighty-six low-level, at £6	516
Total	£1,824
Summary—	
Main bridge	£6,475
New South Wales approach	788
Victorian approach	1,824
Total	£9,087

Note.—If iron spans are used in place of the timber trusses above, the total cost will be increased by £5,500, bringing it up to £14,587.

Commissioner for Roads. J.A.M'D., 11/1/87.

No. 78.

The Premier of Victoria to The Premier of New South Wales.

Sir, Premier's Office, Melbourne, 11 January, 1887.

With reference to my letter of the 12th August, No. 3,089, relative to the contribution by this Government of the sum of £5,000, moiety of the cost of the Yarrawonga Bridge, I have now the honor to request that you will be so good as to cause me to be furnished with copies of the plans, &c., of the bridge as soon as they are ready, in order that steps may be taken to provide for the approaches on the Victorian side.

I have, &c.,
D. GILLIES,
Premier.

Submitted.—R.S., 13/1/87. Seen. I forward copy for submission to Secretary for Public Works.—P.A.J., 19/1/87. Copy forwarded accordingly.—R.S., 19/1/87.

No. 79.

The Progress Committee, Mulwala, to The Secretary for Public Works.

Sir, Mulwala, 14 January, 1887.

I have the honor to inform you that I am instructed by the Mulwala Progress Committee to remind you of a decided promise made by you to a deputation of this Committee at Corowa a *month* ago, viz., that a number of men would be put on *at once* to prepare plans and specifications for the erection of a bridge between here and Yarrawonga, and that the plans would be ready in two or three weeks, and that tenders would be called for the work as early as possible.

A very strong editorial article appeared in yesterday's issue of the *Yarrawonga Chronicle*, attributing neglect of this matter to your Department, and the public mind on both sides of the river is strongly exercised at the present time in regard to it.

I have, &c.,
JOHN MACKENZIE,
Secretary, Progress Committee.

Please inform of action recently taken, and have matter expedited as much as possible.—W.J.L., 19/1/87. Acknowledged, 20/1/87. Mr. M'Donald,—Proceed with drawings. Mr. Rae might inform as to action.—W.C.B., 22/1/87. Under Secretary. Noted.—J.A.M'D, 24/1/87. Inform what has been done.—J.R., 28/1/87. J. Mackenzie, Esq., 28/1/87. Roads.—J.R., B.C., 29/1/87.

No. 80.

Memo. by The Secretary for Public Works.

Will Mr. Bennett kindly let me have particulars as to progress made *re* Mulwala Bridge. I should like matter completed to-day.

W.J.L., 17/1/87.

Mr. Bennett.—J.R., B.C., 17/1/87.

No. 81.

Memo. by The Commissioner for Roads.

Mulwala Bridge.

I FORWARD drawing to contrast high-level bridge with lift bridge, showing the extra cost involved in the approaches. The lift bridge should, I think, have iron spans, not timber, as shown. It is decidedly the cheapest —good bridge—than can be used. It will take some time to make the contract drawings; it is necessary to be most careful in such details.

WILLIAM C. BENNETT, 17/1/87.

Submitted.—J.R., 17/1/87. Write to Victorian Government stating plans of bridge are ready, and send a tracing, and ask whether this Government shall carry out the work. Urgent.—W.J.L., 17/1/87. Tracing required.—J.R., 19/1/87. The Honorable the Commissioner for Public Works, Victoria, 19/1/87. Roads.—J.R., 27/1/87. File.—W.C.B.

No. 82.

The Under Secretary for Public Works, Sydney, to The Commissioner for Public Works, Melbourne.

Sir, Department of Public Works, Sydney, 19 January, 1887.

Referring to the question of the erection of the proposed bridge over the Murray River, at Mulwala, I am directed by the Secretary for Public Works to enclose herewith a tracing of the plans prepared by this Department for a high-level bridge, showing the extra cost involved in the approaches, and to request that you will have the goodness to inform me whether it is the desire of your Government that the Government of this Colony should carry out the work.

I have, &c.,
JOHN RAE,
Under Secretary.

No. 83.

The Secretary to the Premier to The Under Secretary for Public Works.

Sir, The Treasury, New South Wales, Sydney, 19 January, 1887.

I am directed by the Premier to forward, for submission to the Honorable the Secretary for Public Works, a copy of a letter received from the Premier of Victoria, asking to be furnished with copies of the plans, &c., of the Yarrawonga Bridge, as soon as they are ready.

I have, &c.,
R. SCARLETT,
Private Secretary to the Premier.

Roads.—J.R., B.C., 21/1/87. Outline plan has been sent.—W.C.B., 22/1/87. Under Secretary, B.C. Tracings of proposed bridge were forwarded to the Commissioner for Public Works, Victoria, on the 19th instant.—J.R., B.C., 27/1/87. Principal Under Secretary. Has any further communication been received from Victoria.—C.W., 11/2/87. See 87-1,735 herewith.

No. 84.

The Under Secretary for Public Works to J. Mackenzie, Esq.

Sir, Department of Public Works, Sydney, 28 January, 1887.

Referring to your letter of the 14th instant, respecting the erection of the proposed bridge over the Murray River, between Mulwala and Yarrawonga, I am directed to inform you that the necessary plans have been prepared, and the Victorian Government requested to intimate whether they desire the Government of this Colony to carry out the work.

I have, &c.,
JOHN RAE.

No. 85.

The Premier of Victoria to The Premier of New South Wales.

Sir, Premier's Office, Melbourne, 10 February, 1887.

With reference to a letter, dated 19th ultimo, from the Public Works Department of New South Wales, addressed to the Honorable the Commissioner of Public Works of this Colony, enclosing tracings of plans for the proposed bridge over the Murray River, at Mulwala, I have the honor to state, in reply to the inquiry contained in the letter in question, that it is desired by this Government that the work should be carried out by that of New South Wales.

I beg to point out, however, that the tracing forwarded with the letter above referred to is not sufficiently definite to enable any opinion to be formed as to the design for the bridge, and I shall be glad to learn, prior to the contract being let, further particulars with regard to the construction and width of the bridge. With this object, perhaps you will be so good as to furnish me with further plans, and a copy of the specifications.

I have, &c.,
D. GILLIES,
Premier.

Have a short *précis* made.—C.W., 17/2/87.

No. 86.

Précis—Mulwala-Yarrawonga Bridge.

THE Government of Victoria having been informed of the necessity for a bridge over the Murray to connect these towns, and that the Government of New South Wales had made provision for a moiety of the cost, wrote, on June 26th, 1886, inquiring what steps had been taken in the matter.

Mr. Lyne, in a minute dated July 17th, 1886, said, "It has been already approved that we shall bear our moiety of the cost, and the only question is whether the money shall come out of the General Estimates or be provided on Loan Votes. The estimated cost (£5,000) was placed on the 1885 Estimates."

To this came a telegram from Mr. Gillies asking "What is the amount you are providing as half cost?"

Mr. Lyne replied "£5,000 was on last year's Estimates, and the same sum I propose to place on the Additional or Loan Estimates."

The Premier of Victoria, on August 12th, 1886, intimated that a like amount would be placed on the Victorian Estimates for the current financial year as the moiety of Victoria.

This was followed by a request for plans of the bridge, in order that provision might be made for the approaches on the Victorian side, and tracings were forwarded on January 18th, 1887.

On February 10th, 1887, the Premier of Victoria wrote that the Victorian Government desired that the work should be carried out by New South Wales. The tracings, however, were not definite enough to enable an opinion to be formed as to the design of the bridge, and he should be glad to learn, prior to the contract being let, further particulars regarding its construction and width, as well as to receive the specifications and further plans. C.W.

These papers should perhaps be again referred to the Minister for Public Works.—C.W., 18/2/87. Approved.—H.P., 22/2/87. The Under Secretary for Public Works.—C.W., B.C., 22 February, 1887. Roads.—J.R., B.C., 25/2/87. Mr. M'Donald.—W.C.B., 28/2/87. General elevation, with cross-sections, herewith (one sheet). Detail drawings for tenders will be ready in about a month, when tenders can be invited.—J.A.M'D., 21/4/87. To be forwarded to the Government of Victoria.—W.C.B., 21/4/87. Under Secretary, B.C. The Principal Under Secretary.—J.R., B.C., 22/4/87. Returned.—C.S.O., 22 April, 1887. Forward by letter, 26/4/87. Letter to Honorable Duncan Gillies, 27/4/87.

No. 87.

The Premier of Victoria to The Premier of New South Wales.

Sir, Premier's Office, Melbourne, 15 March, 1887.

I have the honor to invite your attention to my letter of the 18th ultimo, asking to be furnished with further particulars in connection with the proposed bridge over the Murray River, at Mulwala.

I understand that the matter has now been arranged, and I shall be glad to receive the further information asked for at your earliest convenience, with a view to the work being commenced with the least possible delay.

Perhaps, at the same time, you will be so good as to cause me to be furnished with a tracing showing the position of the bridge as suggested by your Government.

I have, &c.,
D. GILLIES,
Premier.

Acknowledged, 21/3/87. Papers with 87-1,735. Works, 23 February. Refer to Works, 19/3/87. The Under Secretary for Public Works.—C.W., B.C., 21/3/87. Roads.—J.R., B.C., 22/3/87. Mr. M'Donald, urgent.—W.C.B., 23/3/87. The general elevation, with plan and cross-section, will be ready to forward within a fortnight. The detail drawings are in hand.—J.A.M'D., 28/3/87. All but the details can be forwarded in a fortnight.—W.C.B., 28/3/27. Under Secretary, B.C. The Principal Under Secretary.—J.R., B.C., 31/3/87. Inquire if they are now ready.—C.W., 5/4/87. It has been ascertained that the plan herein referred to will be completed by the end of the present week, the details later on.—A.A.D., 13/4/87. Await receipt.—C.W., 14/4/87. Papers and plan with 87-1,735. Submitted, 22 April. Forward, 4/5/87. Forwarded on 27 April (*vide* 87-2,255).

No. 88.

W. J. Lyne, Esq., M.P., to The Commissioner for Roads.

Dear Sir, 19 April, 1887.

Will you kindly let me know whether the Mulwala Bridge plans have yet been sent to Victoria, and when they are likely to be ready to go on with. My constituents in the lower end of the electorate are very anxious about it, and I should like to be able to give them some favourable information.

Yours, &c.,
WILLIAM JOHN LYNE.

Will Mr. M'Donald enable me to reply at once?—W.C.B., 20/4/87. The drawings for the Victorian Government can be forwarded to-morrow morning at latest.—J.A.M'D., 20/4/87. Mr. Lyne informed by Commissioner.—P.H.F., 20/4/87.

No. 89.

The Commissioner for Roads to W. J. Lyne, Esq., M.P.

Dear Sir, Sydney, 20 April, 1887.

The plans have not been ready to send to Melbourne until this day; they leave to-night. The remaining working plans and specifications will be ready to invite tenders in a fortnight,—most likely before a reply can be received from the Victorian Government.

Yours, &c.,
WILLIAM C. BENNETT.

No. 90.

The Colonial Secretary, Sydney, to The Honorable D. Gillies, Melbourne.

Sir, Colonial Secretary's Office, Sydney, 27 April, 1887.

I have the honor to forward you herewith a plan showing the general elevation, with cross-sections, of the proposed bridge to be erected over the River Murray, at Mulwala.

I have, &c.,
HENRY PARKES.

No. 91.

The Premier of Victoria to The Colonial Secretary, Sydney.

Sir, Premier's Office, Melbourne, 6 May, 1887.

I have the honor to acknowledge, with thanks, the receipt of the plan of the proposed bridge to be erected over the River Murray, at Mulwala, forwarded by your letter of the 27th ultimo, No. 1,735.

I have, &c.,
D. GILLIES,
Premier.

No. 92.

Mr. A. Sloane to The Commissioner for Roads.

Dear Sir, Mulwala, 10 May, 1887.

Re Mulwala Bridge, I am requested by the people here to inquire of you as to the completed plans of the Mulwala Bridge, and if they have yet been sent on to the Victorian Government.

When in Melbourne in February I called on Mr. Nimmo, in company with Mr. Lyne. He informed us that as only a skeleton side view of the bridge had reached him, he could do nothing as to inspecting the site, granting approval, &c., till he had the completed plans with full details.

Mr. Lyne assured him they would be sent from Sydney in a few weeks. Since then we have had such conflicting communications that I am asked to write for information direct to yourself.

On the 14th April Mr. Hayes wrote to the Secretary of the Progress Committee here, stating "plans of bridge have now been sent to the Victorian Government." Six days later (20th April), Mr. Lyne telegraphed "Plans of bridge leave to-night for Melbourne." On the 29th April, the Victorian Commissioner of Railways, with one of the Members for Moira, visited Yarrawonga, on railway business, and their Member told the residents there that Mr. Nimmo had not got the plans.

I would, therefore, take it as a great favour if you would kindly inform me if the plans have been sent to Melbourne, and, if not, when they will be forwarded.

I apologise for thus having to trouble you, but you can well understand the great impatience of the people here about this so much required and so long delayed bridge.

I am, &c.,
ALEXANDER SLOANE.

Mr. M'Donald, when were plans forwarded. Forwarded 21/4/87.—J.A.M'D. Could I not say we are in a position to invite tenders, and only await concurrence of Victorian Government?—W.C.B., 12/5/87. Tenders can be invited the middle of next week if we receive the specification from the Government Printer.—J.A.M'D., 13/5/87. Inform writer.—W.C.B., 13/5/87. A. Sloane, Esq., informed, 17/5/87.

No. 93.

The Premier of Victoria to The Colonial Secretary, Sydney.

Sir, Premier's Office, Melbourne, 13 May, 1887.

In continuation of my letter of the 6th instant, relative to the proposed bridge over the Murray River, at Mulwala, I have the honor to point out that the information respecting the proposed site of the bridge, asked for in my letter of the 15th March, has not yet been supplied, and as this information is most important in connection with the matter of the approach on the Victorian side, I shall be glad to receive the desired particulars as early as possible.

I shall also be obliged if you will be so good as to inform me whether it is intended to include in the contract the two timber bays shown on the plan at the New South Wales end of the bridge.

I have, &c.,
D. GILLIES,
Premier.

The attention of the Engineer-in-Chief for Roads and Bridges should perhaps be invited to this matter.—C.W. The Secretary for Public Works.—H.P., 19/5/87. Hon. Duncan Gillies informed, 19/5/87. The Under Secretary for Public Works.—C.W., B.C., 19/5/87. Roads.—J.R., B.C., 21/5/87.

No. 94.

The Commissioner for Roads to A. Sloane, Esq.

Department of Public Works,
Office of Commissioner and Engineer-in-Chief for Roads and Bridges, Sydney, 17 May, 1887.

Sir,

With reference to your letter of the 10th instant, respecting plans of Mulwala Bridge, I have to inform you that they were forwarded on the 21st April last to the Works Department for transmission to the Victorian Government, and tenders can be invited this week if specification is received from the Government Printer.

I have, &c.,
WILLIAM C. BENNETT,
Commissioner and Engineer for Roads.

No. 95.

Minute by Mr. Assistant Engineer M'Donald.

Memo. *re* Bridge.

Roads Department, 18 May, 1887.

In reference to the attached telegram which appeared in yesterday's *Sydney Morning Herald*, I beg to report that there has been no "dilly-dallying" in reference to the drawings for the proposed bridge over the Murray River between Mulwala and Yarrawonga. The site chosen for this bridge is the same as that selected by Merritt, and adopted by the Victorian Bridge Company in their prospectus, the only variation being that the present design will be square to the stream.

Several designs have been submitted for this bridge :—

1st. Three braced iron arches, each 120 feet, and iron piers.
2nd. Iron lift bridge 50 feet, and three iron spans each 108 feet.
3rd. Iron lift bridge and timber truss spans, each 75 feet.
4th. Continuous iron girders of three spans of 112, 140, and 112 feet respectively with iron cylinder piers.

The fourth design was approved by the late Minister for Public Works. The calculations and strain sheets were completed on March the 4th, 1887, and the detail drawings were then at once put in hand, and two draftsmen have been kept at them constantly since. The detail drawings are now all completed, excepting one, which will be finished in two days.

Blue copies are now being thrown off, and tenders can be invited as soon as the Victorian Government approve of the design.

Yours, &c.,
J. A. M'DONALD,
Assistant Engineer.

The Victorian Minister might be informed, and tracing forwarded.—W.C.B., 20/5/87. Under Secretary, B.C. Submitted.—J.R., 21/5/87. Approved.—J. Sutherland. Principal Under Secretary.—J.R., B.C., 25/5/87. The Victorian Government might be informed in terms of this minute, and the tracing forwarded as suggested by the Engineer for Roads.—C.W., 4/6/87. Yes.—H.P., 6/6/87. The Hon. Duncan Gillies informed, 8/6/87.

No. 96.

Extract from *Sydney Morning Herald* of Tuesday, 17th May, 1887.

Telegram referred to in minute of Assistant Engineer, dated 18th May, 1887.

THE BRIDGE OVER THE MURRAY AT YARRAWONGA.

[By Telegraph.]

Melbourne, Monday.

Regarding a bridge to be constructed over the River Murray, the cost of which is to be borne jointly by Victoria and New South Wales, Mr. Nimmo attributes the delay in starting the undertaking to the "dilly-dallying" of the Public Works Department of the latter Colony. The officers of that Department were entrusted with the preparation of plans, but a copy recently received did not contain the necessary particulars to enable Mr. Nimmo to sanction the commencement of the work. The difficulty is in regard to the exact site of the bridge. When a proposal is made by New South Wales Mr. Nimmo will visit the district, and if an acceptable site has been selected, no time will be lost in letting the contract.

No. 97.

The Principal Under Secretary, Sydney, to The Honorable D. Gillies, Melbourne.

Sir,

Colonial Secretary's Office, Sydney, 19 May, 1887.

I have the honor to acknowledge the receipt of your letter of the 13th instant, requesting particulars relative to the proposed bridge over the Murray, at Mulwala, and to inform you that your communication has been brought under the notice of the Secretary for Public Works.

I have, &c.,
CRITCHETT WALKER,
Principal Under Secretary.

No. 98.

Minute by The Commissioner for Roads, Sydney.

Mulwala Bridge Papers.

Sydney, 20 May, 1887.

A careful search has been made in this Department for the above papers, and they cannot be traced. The supposition is that they may be in the Minister's room. Will the Under Secretary be good enough to have search made.

W.C.B.

Under Secretary, B.C.

Papers are marked to Roads, 87-535.—Roads, B.C., 29/1/87.

No. 99.

No. 99.

Memo. by Mr. Assistant-Engineer M'Donald.

In reference to letter from The Premier of Victoria, dated 13th May, 1887.

25 May, 1887.

A TRACING showing site for this bridge was forwarded to the Honorable Secretary for Public Works on the 20th instant (87-6,513).

The site adopted by this Department is the same as that selected by Mr. Merritt, C.E., for the Yarrawonga-Mulwala Bridge Company, the only variation being that the new design is now placed square to the flow of the stream, whereas Mr. Merritt's design was on the skew. It was therefore thought unnecessary to forward a plan of the site with the general elevation.

The contract is arranged to include the supply and erection of main bridge only, the approaches to be let subsequently under separate contracts.

The two timber bays, shown on the general elevation at the New South Wales end of the bridge, are not intended to be included in the contract for main bridge, but are drawn to illustrate the design of timber approach that will be adopted by the New South Wales Government.

The approaches on the Victorian side have not been shown on general elevation, as it will be for that Government to decide whether they will run the approach out on the level at Yarrawonga or whether they will grade them down to ground level, and put a low-level bridge over the lagoon.

The working drawings and specifications are all completed, and duplicate copies of all will be ready on Monday next.

J. A. M'DONALD.

Under Secretary.—W.C.B., B.C., 31/5/87. Submitted.—J.R., 6/6/87. Where are the working drawings and specifications?—J.R., 6/6/87. Complete set of drawings and specifications herewith.—J.A.M'D., 7/6/87. Under Secretary, B.C. Forward to Chief Secretary.—J.S., 8/6/87. Principal Under Secretary.—J.R., B.C., 8/6/87. Forward.—C.W., 11/6/87. The Honorable Duncan Gillies, M.P., informed, 13/6/87.

No. 100.

The Colonial Secretary, Sydney, to The Honorable D. Gillies, Melbourne.

Sir, Colonial Secretary's Office, Sydney, 8 June, 1887.

With reference to the proposed bridge over the River Murray, at Yarrawonga, I have the honor to inform you that it appears that no delay has been occasioned by the Public Works Department of this Colony in commencing the erection of the bridge. The site chosen is that selected by Mr. Merritt, and adopted by the Victorian Bridge Company in their prospectus, the only variation being that the present design will be square to the stream.

2. Four designs have been submitted, viz.:—
   1. Three braced iron arches, each 120 feet, and iron piers.
   2. Iron lift bridge, 50 feet, and three iron spans, each 108 feet.
   3. Iron lift bridge, 50 feet, and timber truss spans, each 75 feet.
   4. Continuous iron girders of three spans of 112, 140, and 112 feet respectively, with iron cylinder piers.

The fourth of which has been approved by this Government, and tenders for the erection of the bridge will be invited as soon as your Government express their approval of the design.

3. A tracing of the proposed site of the bridge is forwarded herewith.

I have, &c.,
HENRY PARKES.

No. 101.

The Colonial Secretary, Sydney, to The Honorable D. Gillies, Melbourne.

Sir, Colonial Secretary's Office, Sydney, 13 June, 1887.

Referring to my letter of the 8th instant respecting the proposed bridge over the River Murray, at Yarrawonga, I have now the honor to transmit herewith a set of drawings and specifications of the bridge. Under separate cover.

I have, &c.,
HENRY PARKES.

No. 102.

The Premier of Victoria to The Colonial Secretary, Sydney.

Sir, Premier's Office, Melbourne, 15 June, 1887.

I have the honor to acknowledge the receipt of your letter of the 8th instant, No. 5,752, giving certain information as to the site and design approved by your Government for the bridge to be constructed over the River Murray, at Yarrawonga, and forwarding a tracing of the site proposed.

I beg to thank you for these particulars.

I have, &c.,
D. GILLIES,
Premier.

No. 103.

The Premier of Victoria to The Colonial Secretary, Sydney.

Sir, Premier's Office, Melbourne, 16 June, 1887.

I have the honor to acknowledge with thanks the receipt of the drawings and specifications of the proposed bridge at Yarrawonga, forwarded by your letter of the 13th instant, No. 5,314.

I have, &c.,
E. J. THOMAS,
(For the Premier).

No. 104.

No. 104.

The Secretary, Mulwala Progress Committee, to W. J. Lyne, Esq., M.P.

Sir, Mulwala, 20 June, 1887.

The Progress Committee wish me to ask you if you will be good enough to get the Secretary of Public Works, N.S.W., to point out to Mr. Nimmo, officially, the site that they have adopted for the proposed bridge. Mr. Nimmo has, with that genius for quibbling which has characterised him throughout all these protracted and obstructively vexatious negotiations, at last found a new excuse for delay, and we are told by the hood-winked Yarrawonga Members that, in consequence, New South Wales is responsible for the delay.

An influential deputation from Yarrawonga proceeds this week to Melbourne to interview Mr. Nimmo *re* the bridge. In the meantime, to afford Mr. Nimmo no excuse, kindly accede to request, and let it be accompanied by the stereotyped amount of red tape and official phraseology befitting the grandeur and dignity of the exalted position of the Honorable Mr. Nimmo.

I may just mention that the vote on the N.S.W. Estimates lapses in four months.

Yours, &c.,
JOHN MACKENZIE,
Secretary, Mulwala Progress Committee.

No. 105.

W. J. Lyne, Esq., M.P., to The Commissioner for Roads.

Dear Sir, 7, Norwich Chambers, 22 June, 1887.

Mr. Nimmo seems to be behaving in an extraordinary manner in reference to the site for the Mulwala-Yarrawonga Bridge, and to prevent any further quibbling on his part, I shall be glad if you will get an official communication sent to Mr. Nimmo as to the site for the bridge, and by furthering the matter on as much as possible you will much oblige me.

Yours, &c.,
WILLIAM JOHN LYNE.

Inform Mr. Lyne that Mr. Nimmo has already been informed the site was not fixed by New South Wales, but by the original promoters of the bridge, and their engineer, Mr. Merritt, from Victoria, that no objection has been stated as to the site, but if stated it can be dealt with.—W.C.B., 23/6/87. W. J. Lyne, Esq., M.P.—Written, 24/6/87.

No. 106.

The Commissioner for Roads to W. J. Lyne, Esq., M.P.

Sir, Roads Department, Sydney, 24 June, 1887.

With reference to your letter of the 22nd instant, forwarding communication from the Mulwala Progress Committee respecting the site of proposed bridge, I have to inform you that Mr. Nimmo has already been advised the site of bridge was not fixed by New South Wales, but by the original promoters, and their engineer Mr. Merritt, from Victoria. No objection has been stated as to the site, but if stated, it can be dealt with.

I have, &c.,
WILLIAM C. BENNETT,
Commissioner and Engineer for Roads.

P.S.—I see by the papers that Mr. Nimmo has approved of the designs when it is officially intimated, no time will be lost in inviting tenders.

No. 107.

J. Hayes, Esq., M.P., to The Under Secretary for Public Works.

Sir, Assembly, 23 June, 1887.

Mr. Nimmo, Minister for Public Works, Victoria, having stated that he has received no particulars from the New South Wales Department as to site for proposed bridge over the River Murray, at Mulwala, I shall be obliged if you inform me if this is correct.

Yours, &c.,
J. HAYES.

Roads.—J.R., B.C., 24/6/87. Plans, section, and general outline of bridge were sent on the 20th May, and the working drawings the 7th of June.—W.C.B., 28/6/87. Under Secretary, B.C. Submitted.—J.R., 6/7/87. Inform.—J.R., 6/7/87. J. Hayes, Esq., M.P., 6/7/87.

No. 108.

Advertisements.

TO BRIDGE MANUFACTURERS AND OTHERS.

(1st.)

Department of Public Works, Sydney, 8 July, 1887.

TENDERS are invited for the supply of ironwork and erection of an iron bridge over the Murray River, between Mulwala and Yarrawonga.

Tenders to comprise a bulk sum for supply and erection, separately, or one bulk sum for both contracts, at the option of the tenderer.

It is to be distinctly stated in tender whether it is proposed to manufacture the bridge in the Colonies, or to import it, and tenders may be sent in for Contract No. 1, giving alternative bulk sums for manufacture in the Colonies or for importation.

Plans and specifications may be seen at the office of the Commissioner for Roads, Sydney; at the Public Works Office, Melbourne; and at the Court-house, Mulwala.

Copies of plans and specifications can be obtained by depositing £5 with the Chief Clerk, Roads Department, Sydney; but copies so lent must be returned before 9th August, or the deposit will be forfeited.

Tenders (on the printed forms only) endorsed "*Tender for Mulwala Bridge*," to be sent in, addressed to the Under Secretary for Public Works, Sydney, not later than 11 a.m., on Tuesday, 9th August, 1887.

The lowest or any tender not necessarily accepted.

JOHN SUTHERLAND.

No. 127.

Minute Paper.

Subject :—Bridge over the Murray River, at Mulwala.

Department of Public Works, Sydney, 5 August, 1887.

AN agreement having been arrived at by the Colonies of New South Wales and Victoria for the construction of a bridge over the Murray River, between the towns of Mulwala and Yarrawonga, each Colony to bear a moiety of the cost, and the work to be carried out by the Government of New South Wales, plans have been prepared by this Department and approved by the Victorian authorities. Tenders have been invited for the work, to be opened on the 9th instant.

Provision to the extent of £5,000 was made on the Estimates for 1885.

The estimated cost of the work is £12,450.

No. 128.

Minute by The Secretary for Public Works.

Department of Public Works, Sydney, 5 August, 1887.

THE papers submitted do not seem to be all the papers connected with this bridge. As far as I can gather there was, first, a private company formed for the construction of this bridge ; that then New South Wales, without consulting Victoria, obtained a vote of £5,000 for one-half the estimated cost of bridge. It was not till some time afterwards that the concurrence of the Victorian Government was obtained.

I should like to have a full *précis* of the whole case, which should show who moved in the matter ; at whose suggestion, and by whose authority the amount of £5,000 was placed on the Estimates : whether the question of the effect which this bridge was likely to have in diverting to Victoria any portion of the trade of Riverina, which was being transacted by this Colony, received any consideration before the work was authorized.

JOHN SUTHERLAND.

Roads.—J.R., B.C., 9/8/87. Cheque returned this day.—P.H.F., 11/8/87. File.

No. 131.

Minute by The Commissioner for Roads to The Under Secretary for Public Works.

Précis of case.—Subject:—Mulwala Bridge.

Roads, 8 August, 1887.

THE papers in this case previous to those attached, have, unfortunately, been mislaid. They are in our books marked to Public Works, on 22/1/87, and since then the matter has frequently been dealt with in the Colonial Secretary's office, in whose books, however, all papers relating to the bridge, are noted as having been returned to Works Department, 2/8/87. A thorough search has been made here, and inquiries at Public Works, Treasury, and Colonial Secretary's offices, but the papers from 1877 to 1886, previous to those herewith, cannot be found.

As far back as August, 1877, the Municipal Council of the Shire of Benalla (Victoria), invited the co-operation of this Government towards erecting the bridge, and similar applications followed in February, 1879, from the Shire of Yarrawonga (Victoria), and in October, 1879, from the residents of the Hume District (Mr. Day, M.P.)

A private company then appears to have been formed, with the object of erecting this bridge, and in October, 1883, Mr. Levin, M.P., forwarded a draft copy of the proposed Yarrawonga and Mulwala Bridge Company's Bill, but the Commissioner for Roads disapproved strongly of these private bridges, and the plans forwarded were not considered suitable.

In 1884 there was much agitation for this bridge from Messrs. Lyne and Levin, M's.P., the Yarrawonga Shire Council, the residents of Mulwala, *per* Mr. Barbour, M.P., and others; and in 1885 the local officer at Albury advised that provision be made for the erection of the bridge. An amount of £5,000 appears to have been *noted* on 1885 Estimates, but it was not put on, and Mr. Secretary Lyne, in a minute, dated 6/8/86, included in papers herewith, states that he intended to place the same sum on Additional or Loan Estimates, which was done, and the amount was made available on Loan Estimates, 1886.

The question as to the effect which the erection of this bridge would have in diverting trade from New South Wales to Victoria was duly considered, and it was pointed out by Mr. Goodchap in a minute, included amongst the papers mislaid, that a certain amount of trade would be diverted from New South Wales, but Mr. Lyne considered that as the private company had not been allowed to construct the bridge its erection was incumbent upon the Government, and he, accordingly, made provision for the work.

Subsequent action is shown in minutes herewith.

WILLIAM C. BENNETT.

TENDERS for Yarrawonga Bridge not yet opened. Do you wish to withdraw yours? Time extended Tuesday next.

JOHN RAE,
Under Secretary.

No. 138.
Tenders.

Department of Public Works, Sydney, 16 August, 1887.

Sir,

Supply of iron work and erection of iron bridge over the Murray River, between Mulwala and Yarrawonga.

The tenders (ten in number) for the work, specified in the margin, are referred to you for report, and you will have the goodness, as early as possible, to return them to me direct for submission to the Minister.

I have, &c.,
JOHN RAE.

The Commissioner for Roads.

Mr. M'Donald.—W.C.B., 16/8/87.

ANALYSIS of tenders—Mulwala Bridge.

No. 10. James Souter	9,247 0 0	Imported	.. ..	

H. Reid's tender to import for £6,837 5s. 6d. is the lowest for contract I. David Munro's tender for £4,241 4s. 5d. is the lowest for contract II.

The total of the two contracts would therefore be £11,078 9s. 11d., the estimated cost being £12,450 5s. 9d.

H. Reid, however, appears to have omitted the item of carriage in his tender.

Commissioner for Roads. J.A.M'D., 17/8/87.

Which is the lowest for manufacture in the Colony?—W.C.B.

No. 139.

Minute by The Commissioner for Roads.

Subject:—Tenders, Mulwala Bridge.

Sydney, 17 August, 1887.

THE lowest tender for supply of ironwork delivered at Mulwala is from H. Reid for £6,837 5s. 6d., importing the ironwork.

The lowest tender for manufacture in the Colonies is from R. F. Ritchie, Auburn, near Parramatta. He is £1,344 5s. 6d. over Reid. As he will have to pay a large sum for railway freight to N. S. Wales his tender might be accepted *if any*; but to make the matter acceptable to Victoria they might be informed that their moiety of the extra charge will be remitted (£672).

This will secure the manufacture in Sydney, and bring cost of carriage as an accession to railway revenue.

The lowest tender for section II, erection, is deducted from Munro's tender; but I doubt if he will accept it without No. 1, for supply of ironwork. The next lowest, that of Reid for £1,400 more, or £5,649.

The amount voted for the N. S. Wales moiety is £5,000. The combined tenders, Ritchie and Munro, amount to £12,423, and Ritchie and Reid to £13,831, the half of which (£6,915) is £1,915 more than vote, so it is for the Minister to determine if any tender should be accepted.

Under Secretary, B.C. W.C.B., 17/8/87.

Submitted.—J.R., 17/8/87. Does this bridge provide for the navigation of the river?—J.S., 17/8/87. Not at high flood. My minute, copy attached, shows that I recommended a steel lift-bridge, as at Bourke and Balranald.—W.C.B., 17/8/87.

Copy of minute referred to above, dated 3 March, 1884:—"I concur with Mr. Wells in thinking change of site desirable. I do not concur with him in thinking that provision need not be made for navigation. The inconvenience of having these works in the hands of a company is evident, and the Government having had to purchase bridges (Corowa and Wagga), I would advise an iron bridge with steel lifting span. It will be found much the cheaper in the long run.—W.C.B., 3/3/84.

Memo., 17 August, 1887.

At the time the above minute was made the Government had purchased the Wagga bridge, then nearly worn out, at the cost price, and £1,500 added, money expended by the Government on approaches. The N.S.W. and Victorian Governments had also, about that time, to purchase the Wahgunyah or Corowa bridge on the same terms.—W.C.B.

31 August, 1887.

Re Mulwala and Yarrawonga Bridge. The Public Works Department state that action must be stayed, as sufficient funds are not available.

No. 145.

Extract from the *Corowa Free Press*, 12 August, 1887.

THE MULWALA-YARRAWONGA BRIDGE.

TENDERS for the construction of the Mulwala-Yarrawonga Bridge should have been opened on Monday last. At the last moment there was another hitch. The Victorian Secretary for Public Works telegraphed to the New South Wales authorities that the period for receiving tenders had been extended until the 16th instant, and there will, therefore, be another dreary wait before the result is known. The residents will probably accept this latest check with stony resignation. After years of waiting, as patient as profitless, an extra week does not seem so very much out of the way. The main thing, from their point of view, is that the sister Governments have got the length of calling tenders, and, whatever delay there may be in letting the contract, local opinion is complacently satisfied that the ultimate erection of the bridge is now a matter beyond question. There is a good deal of consolation in reflections of this nature. The unfortunate thing is that indulgence in them makes the shock of a disappointment all the more bitter; and even at the risk of ranking as prophets of evil, we confess that we do not share in the general feeling of security. This new difficulty, just when all difficulties seemed to have been successfully overcome, seems to us an evil omen for the erection of the bridge, or at all events, for the erection of the bridge contemplated in the plans. Plainly speaking, we expected something of the sort, and although the delay may be explained away in many directions, we shall not be surprised to find next Monday, instead of marking the successful completion of the bridge movement, only opening up a new period of suspense. Anyone who carefully studies the history of the agitation from its beginning, carefully marking the attitude of Victoria, especially through the developments of the last few months, must see that there are excellent reasons for our conclusion. Throughout the whole affair there was nothing more surprising than the rapidity with which the Victorian Minister of Works, after opposing objection after objection, sanctioned the plans, and gave orders for calling tenders. A week or so before he had declared that the expense of forming approaches on the Victorian side of the river was an insuperable barrier. A short period ensued, during which matters were at a dead-lock, and then the public were surprised by the announcement that the difficulty was over, and that the contract would be let without any further delay. The sudden acquiescence of the Victorian Minister is a fact which has never been explained, and which probably never will be, until it explains itself. The objection raised by Mr. Nimmo still holds good. The construction of a bridge on the present site will still subject Victoria to an expenditure variously estimated at from £10,000 to £20,000 for approaches. The southern Colony has yet made no sign of providing for these approaches; yet we find Mr. Nimmo blandly assenting to the bridge scheme, and, apparently, only anxious to get the new viaduct into hand as soon as possible. What does it all mean? Victorian politicians are not usually so indifferent to money matters as to lose £10,000 or £20,000 with no more protest than a shrug of the shoulders. Is Mr. Nimmo really in earnest, or has he given his assent to the plans as a convenient method of shelving an annoying question? Let us look at the cause of the whole trouble—the bridge itself—and see. Not so very long ago, Mr. Lyne, in the course of an explanation to his Mulwala constituents, remarked upon the difference between the estimates submitted to the Colonial Architect's Department and the completed plans. The officials were asked to prepare plans for a bridge costing £8,000, and they furnished drawings for one which would cost at least £20,000 to construct. And this discrepancy was, according to Mr. Lyne, the reason of all the delay. But, although the difference between the estimate and the drawings was supposed to have been rectified, we still find that, according to the tenders, the new bridge is to be of iron, and is estimated to cost £12,000. The sum actually voted by each Government is £4,000, so that, even accepting the Government estimate, there is a difference of £4,000 for which there is no provision whatever. When we know how the deficiency is to be made up we shall feel much more assured of the prospects of the bridge. We might perhaps not be so much disposed to cavil at the spectacle of two Governments calling tenders for a £12,000 bridge, with only £8,000 at their disposal, if we could believe that £12,000 would really cover the cost of construction; but practical men, who have seen the specifications, assure us that £20,000 is a much more likely figure than the sum named by the Government. The bridge is, in fact, utterly in excess of local requirements, so much so that its construction is extremely unlikely. The probable cause of the extension of time is because no tenders have been lodged, and in this case there is not much hope of any better result on Monday next. Contractors are not likely to tender for a bridge which they know could never be constructed

structed for the money. The question, therefore, is whether the joint Governments are likely to accept a tender in excess of the amount voted by Parliament, or whether they will issue instructions for the preparation of fresh plans. The latter certainly seems the more likely contingency, and in that case we are afraid that our prophecies will be realized, and that residents of the two towns interested will have to enter upon another season of hope deferred.

Put with papers; sufficient money not yet available.

No. 155.

Johnson & Co., to The Secretary for Public Works.

Dear Sir, Melbourne, 10 October, 1887.

We have to acknowledge receipt of yours of 6th instant, covering draft for our Mr. Wm. Johnson's deposit on Mulwala Bridge, and, in doing so, state that in our opinion the Government of any Colony should be quite equal to making up its mind to a definite line of action before it proceeds to call for tenders for works, and puts contractors to considerable expense in furnishing them with estimates. The whole affair has been irregular from the start, and it is quite fitting that its end should be the same. That any Government should retain contractors' moneys for such a length of time over such a trifling work, and then wind up by returning deposits without the slightest information or satisfaction of any kind is, we maintain, not only unbusiness like, but not commonly courteous. We beg to add our indignant protest to the many others which you have doubtless received, and remain,

Yours, &c.,
JOHNSON & CO.
