Measured portions 60 and 66 unimproved (the former adjoining water reserve 454), and included in forest reserve 995, are also applied for by the lessees, and might, in my opinion, be surrendered without materially interfering with the said reserve, both being of small area.

Water reserve 547, parish of Shannon, is unimproved, and is neither used as a camping reserve nor required as such. It is completely hemmed in by conditional purchases, and on the other side of Deep Creek by station freehold land. The country consists of level swampy land, open gum forest, and good soil; might be surrendered to the lessees without prejudice to the public in satisfaction of a portion of their application. Portion 19, 142 acres.

Water reserve 549, parish of Shannon. The eastern part only of this reserve, viz., measured portion No. 45, is applied for by the lessees. The land is unimproved, of good quality, and timbered with gum, bloodwood, and apple. The whole reserve should, in my opinion, be revoked, as water reserve 464 affords ample access for water from the back country, both to Deep Creek on the north and Middle Creek on the south. It is not required, therefore, and there is no objection to measured portion No. 45 being surrendered to the lessees. Portion 45, 95 acres.

Reserve 593 in the same parish, and also unimproved, could be for the same reason surrendered without prejudice to the public interests. The country consists of open level forest timbered with gum, ironbark, bloodwood, and apple. The reserve is surrounded, with the exception of about 10 chains, by the lessees' freehold land.

Water reserve 393, also in the same parish, includes two very fine permanent water holes, in which there is good water when Middle Creek is dry. For this reason it should not only be retained, but extended northerly until it reaches the southern boundary of measured portion No. 30, thus securing access to these water holes from the back country.

Water reserve 131, parish of Wooroolgen, is unimproved. The northern half is included in the population area of Casino, and excluded from the leasehold area of the run. For these reasons it should be retained, but I see no objection to the surrender of the southern half, which is very nearly surrounded by the lessees' freehold land. The country is good open and slightly undulating forest land interspersed with swamps, and crossed near the southern end by the Serpentine Lagoon, which contains permanent water, but owing to its numerous swamps, and to the fact of the river running through it, the population area is sufficiently well watered without this lagoon. Portion 98 of 324½ acres; portion 99 of 77½ acres

Reserve 687, parish of Wooroolgen, consisting of measured portions 88, 89, 90, 91, 93, and 94, is included in the population area of the village of Casino, and excluded from the leasehold area of the run. These, in my opinion, are sufficient reasons for retaining it intact. It is true that it is much cut up by the station's freehold land, and it would be a great advantage to the public if the lessees would surrender this land, in conjunction with portion 17, in exchange for an equivalent area between the eastern boundary of portion No. 80, and the western boundary of portion No. 3. Lessees would lose nothing by the exchange, the land being of equal value, and they would be consolidating their freehold. Water

Water Reserve 128, parish of Coombell. The country to the south of this reserve being badly watered, the application for its revocation and surrender should not be entertained, on account of its frontage to Middle Creek.

Portion 82 of  
44 acres.

Water Reserve 493, parish of Coombell, is unimproved. The country is good, and slightly undulating, timbered chiefly with gum and apple, and contains a small swamp of permanent water at the southern end. Can be surrendered as being an unnecessary reserve, on account of a very large swamp of permanent water immediately to the south of, and partly included in measured portions 19, 20, and 21. Owing to the size and permanency of this swamp, when there is no water in Mongagarie Creek, I would recommend that a water reserve be gazetted, half a mile wide, to run south from the southern boundaries of the before-mentioned portions, to the north boundary of reserve 564, the north-west corner of the said reserve to be identical with the south-west corner of portion No. 21.

Portion 25 of  
62 acres.

Water Reserve 548, parish of Coombell, unimproved, includes measured portion No. 25, which is the only part of the reserve applied for. The country is exactly similar to that contained in water reserve 493, and the same reasons given for the surrender of that reserve apply with equal force to this one. I would therefore recommend the revocation of the same, and the surrender of portion No. 25.

Portion 31,  
85 acres.

Reserve 569, parish of Coombell, includes unimproved measured portion No. 31, which is the only part of the reserve applied for. It consists of good open, level, forest country, and can be surrendered without prejudice to the public interests. I may here mention that there is little or no traffic along the road shown on the southern side of the creek, the principal traffic being along the Busby Flat to Casino track, which runs approximately parallel to this portion of the creek, but about a mile to a mile and a half farther south, and will be crossed by the reserve proposed in lieu of Nos. 493 and 548.

Portion 51,  
118 acres.

Reserve 650, parish of Mongogarie, includes two small permanent water holes; is unimproved, and embraces open forest, undulating country. Owing to Charles M'Kee's conditional lease 85-21, not shown on the county map, embracing nearly all the land to the east and the close proximity of the reserve 568 on the north, and reserve 133 to the south, I see no reason why it should not be surrendered to the lessees, ample access to water from the back country still remaining.

I have, &c.,

W. G. WALKER,  
Surveyor.

To the Under Secretary for Lands, with my B.C. memorandum 88/7 herewith.—P. R. DONALDSON,  
District Surveyor, 19/1/87.

## No. 9.

### The District Surveyor, Grafton, to The Under Secretary for Lands.

(Occupation, 86-2,441 and 4,298—Land Board District, 86-181.)

Application of the lessees of Wooroowoolgen Pastoral Holding to surrender lands under section 75 of the Crown Lands Act of 1884, in lieu of others.

[No. 87-7.]

19 January, 1887.

It is submitted under the report of Mr. Surveyor Walker, No. 87-1, that as the land which is proposed to be surrendered, taken as whole, is better than that applied for, in exchange for it, that there is no objection to the application being granted, subject to such modifications as may be necessary from its being undesirable to alienate some of the reserves, and also parts of others, only which are embraced in the application, amounting in all to an area of about 1,573 acres, for which other lands will have to be substituted, or the area of the lands to be surrendered reduced to about 5,342 acres.

For the reasons given by Mr. Walker the whole of reserve, No. 904, should be retained, as well as reserves Nos. 454, 393, and 128.

As reserve No. 687 embraces measured portions which are within the population area of Casino, and, therefore, not within a pastoral holding, it is submitted that this land is not available for exchange under sub-section 2 of section 75, the suggestion of Mr. Surveyor Walker to give other lands also within the population area of Casino, for the portions in the reserve in question cannot, it is submitted, be entertained, there being apparently no provision in the Act for such action.

Water reserve, No. 277, may be revoked, subject to reservation of road on north boundary.

Water reserve, No. 391, may be partly revoked, making the eastern boundary extend from the north-west corner of portion 44 to the north-east corner of water reserve No. 668.

Water reserve No. 230 may be revoked, except 200 acres for camping, which area, I am of opinion, should be retained in preference to 100 acres, as proposed by Mr. Walker, in view of its being on the new line of road (which is only being opened) from Casino to Tenterfield, and likely to be of great future importance.

Water reserve No. 130 may be revoked, except that part between the north boundary line of Public School site and the creek.

Water reserve No. 131, that part of the reserve not within the population area, and excepting about 10 acres on each side of the lagoon with a road  $1\frac{1}{2}$  chain wide from population area may be revoked, from the population area to the lagoon the distance is only about 1 mile, whilst from the south-west corner to the river the distance is  $3\frac{1}{2}$  miles, and the swamps are not permanent in seasons of drought. The reservation of the small area at the lagoon is submitted to meet future requirements when the population area is subdivided and alienated.

Water reserve No. 493 may be revoked, but in survey a road should be provided for access to creek, crossing reserve on opposite side.

Subject to reservation, when measurement is made of the usual roads of access, &c., the other reserves applied for may be revoked, viz., Nos. 389, 515, 516, portions 60 and 66 (part of reserve 995); Nos. 547, 549, 593, 548, 650, and part of 569; the latter is not included in schedule, but is coloured on map, being portion 31 or 85 acres.

P. R. DONALDSON,  
District Surveyor.

NOTE.—

NOTE.—The proposed modifications will reduce the area in schedule B as follows, viz.:—Of reserve No. 904 by 87 acres, No. 454 by 230 acres, No. 393 by 65 acres, No. 128 by 320 acres, No. 687 by 343 acres, No. 277 by 25 acres, No. 391 by 60 acres, No. 230 by 200 acres, No. 131 by 8 acres, No. 131 by 230 acres, and No. 493 by 5 acres; total, 1,573 acres.

The area given in schedule is...	...	...	...	...	6,830 acres
Less the reserve not desirable to alienate, as above...	...	...	...	...	1,573 „
Balance	...	...	...	...	5,342 acres

P.R.D.

## No. 10.

## The Chief Draftsman to The Under Secretary for Lands.

Application for exchange of land on Woorooloolgen Holding.

15 February, 1887.

In view of the enclosed report by Surveyor Walker, and the recommendations of District-Surveyor Donaldson, it is submitted that the application by the lessees of Woorooloolgen Holding for certain lands under the 75th clause be refused as regards reserves Nos. 904, 454, 393, and 128, those reserves being required in the public interest for camping, access to water, &c.; and also as regards reserve 687, as of the portions comprising that reserve. Nos. 88 and 89 are wholly, and Nos. 90, 91, 93, and 94 for the greater part, within the population reserve of Casino, as per census of 1881, and therefore not within the leasehold area.

It is further submitted that the application be proceeded with as regards the remaining reserves, retaining about 200 acres of the frontage of reserve 230 to Shannon Brook for camping, about 50 acres of the frontage of reserve 130 to the same creek for water supply, and about 20 acres of reserve 131, adjoining the lagoon within that reserve for water supply, modifying the part of reserve 391, applied for so as to leave ample access to reserve No. 663, as indicated by the District Surveyor, and retaining any other areas and roads, which in the course of survey may be found necessary in the public interest.

It is also submitted that the measured and unmeasured portions applied for, which are reported to be generally of no more value than the lands offered for surrender, may be also granted in exchange.

Respecting Mr. Donaldson's remarks regarding the northern part of reserve 131, it is pointed out that the reserve, although partly within the population area of Casino, as proclaimed 20th March, 1885, is altogether outside the population reserve census of 1881, and is therefore within the leasehold area. Mr. Donaldson's objections to the whole of this reserve being granted (except the small part before referred to) will therefore be removed.

As only about 50 acres of reserve 391, notified for camping and water supply, are proposed to be granted, it may not be deemed necessary to refer to the Mines Department as to any objection in view of the surveyor's reports.

By the modifications above particularized, the area applied for will be reduced by about 1,448 acres, but as the exact area cannot be stated until after survey, it is submitted that the adjustment of the area to be surrendered be held over until after that survey has been made.

The value of improvements on the land offered for surrender is not given by applicants, but they are stated by them to consist of some boundary fencing and small yards. On the land applied for the only improvement of any consequence is a salt shed, value £10, on portion 7, parish of Bundock. It is submitted whether under these circumstances the question of improvements need be considered in connection with the application.

In connection with this report Mr. Walker has suggested the north extension of reserve 393, and the reservation of an area in parish of Coombell, between portions 21, 20, and reserve 564, for access to water from back lands. The district surveyor does not refer to this recommendation, and it is submitted whether the land, being within a leasehold area, there is any necessity to make the reservation.

C.J.S.

By these reports the original proposal for the exchange of lands on this holding is affected to the extent of about 1,450 acres—that is to say, the retention in the public interest is recommended of reserves for water or other purposes, amounting in all to the area mentioned. Unless the lessee is willing to accept other land in lieu of these reserves, it will be necessary for him to indicate what portions of the freehold land in the resumed area proposed to be surrendered should be excluded from the scheme. With regard to the new reservations proposed in the leasehold area, it will perhaps be sufficient to cause the maps of the District Surveyor's office to be noted, and in the event of the lease being resumed by the Crown at the end of the term, the reserves proposed can be notified. Although the inspecting surveyor reports that he has seen the freehold land on the resumed area proposed to be surrendered, I do not perceive that any proposition has been made for the reservation of any portion of it for public purposes. This point should not however be lost sight of.—W. Houston, 28/4/87. The Under Secretary.

The lessee may be communicated with in terms of the reports of the 15th February and 28th instant.—C.O., 29/4/87. Approved.—T.G., 29/4/87. W. and F. Fanning and G. Griffiths & Co., 2nd May, 1887.—H.L.T.

## No. 11.

## The Under Secretary for Lands to Messrs. W. and F. Fanning.

Gentlemen,

Department of Lands, Sydney, 2 May, 1887.

Referring to your application to surrender land in the resumed area of Woorooloolgen Holding, by way of exchange for other land within the leasehold area of that holding, I have the honor to inform you that, in view of reports from the officers of the local survey staff, the Minister has decided that such application cannot be acceded to without material alterations.

The great bulk of the land sought in exchange for that proposed to be surrendered is comprised within reservations notified for various public purposes, and considerable modifications of your proposals, as they affect these reservations, are deemed to be advisable in the interests of the public.

307—B

The

The modifications determined upon are illustrated on the accompanying lithograph plan, and are as follows, viz.:—Reserves Nos. 904, 451, 393, and 128 are wholly required for public use as camping places for access to water, &c., as are also the frontages of reserve 230 (also 200 acres), and reserve 130 (about 50 acres), to Shannon Creek. About 30 acres of reserve No. 131, adjoining the lagoon, are required for water supply, and a modification of reserve 391, in order to leave access to reserve 668, together with any other areas or roads which, in the course of survey, may be found necessary in the public interest.

As regards reserve 637, as of the portions comprised in that reserve, Nos. 88 and 89 are wholly, and Nos. 90, 91, 93, and 94 for the greater part within the population reserve of Casino, as per census of 1881, this land forms no part of the leasehold area, and therefore does not come within the scope of your application.

The extent to which these alterations affect your original proposal is estimated to be 1,450 acres. It will, therefore, be necessary, for you to indicate, if you desire to proceed with the application, what portion of the freehold land of a corresponding area, shall be excluded from further consideration, unless you are willing to accept other land within the leasehold area to adjust the difference; if so, any such proposition will be dealt with on its merits as if embodied in the original application.

I have, &c.,

CHARLES OLIVER,  
Under Secretary.

---

No. 12.

Messrs. Griffiths & Co. to The Under Secretary for Lands.

87-909, Occupation.

Sir,

Sydney, 28 May, 1887.

We have the honor of acknowledging the receipt of your favour of 2nd May, ratifying the exchange of land in the Wooroolgen Holding, and we confirm same.

As regards the 5,380 acres coloured blue in the lithograph attached to your letter, we trust that the necessary arrangements for transfer may be made at once, and we are agreeable that you should take any lands in our freeholds in Schedule A of the equivalent area to complete the same.

As regards the exchange of further areas we will adopt the suggestion contained in the last clause of your letter, and put in fresh Schedules for your consideration, with modifications in area, &c. These Schedules will be put before you at earliest possible date.

We must ask a reconsideration of the question of granting us reserve 454, which is almost surrounded by freehold and conditional purchases, and which is not required for water purposes, as there is plenty of water at the back and on Middle Creek. It is of especial importance to us as the only crossing-place for our cattle in the upper part of Shannon Brook, and connecting with our freeholds.

We have, &c.,

GRIFFITHS & CO.,

Agents for the proprietors of Wooroolgen Holding.

Memorandum.—Portion 131, parish Bundock, is not coloured in the lithograph sent to us, but not being objected to in any way, and being included in the 5,380 acres, we conclude that the omission in colouring is a mere oversight.—G. & Co.

No. 14.

The Under Secretary for Lands to Messrs. Griffiths & Co.

Gentlemen,

Department of Lands, Sydney, 26 July, 1887.

Wooroolgen

Adverting to your letter of the 28th May last, accepting, on behalf of the lessees of the holding named in the margin, the part area approved by Mr. Secretary Garrett in connection with their application to surrender land in the resumed area of the holding referred to by way of exchange for other land within the leasehold area, and stating that as regards the exchange of the remaining land surrendered by them a Schedule would be submitted substituting other land for that desired, but not granted, I have the honor to request that you will be good enough to transmit to this Department the Schedule in question, as no further action can be taken in the matter pending the receipt of same.

I have, &c.,

CHARLES OLIVER,  
Under Secretary.

---

No. 15.

## No. 15.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

87-5,424 Occupation, Woorooloolgen.

Sir,

Sydney, 27 July, 1887.

In reply to your communication of yesterday's date, we give on accompanying sheet a Schedule of further lands within the leasehold area that we wish to apply for, to complete the areas of lands in resumed areas offered in exchange to the full extent of 6,830 acres given in Schedule A.

At the same time we would point out that no reply is conveyed to our application for a reconsideration of the refusal to grant us reserve 454, and the further area applied for is affected to extent of 230 acres, being the area of said reserve which we hope, on reconsideration, we shall be allowed to obtain.

We have, &amp;c.,

GRIFFITHS &amp; Co.,

Agents for the Proprietors.

Forwarded to the District Surveyor at Grafton for consideration and report on the amended areas applied for herein, also for any further report he may wish to make on the advisableness or otherwise of retaining reserve 454, as applicant renews his previous request for this reserve.—C.J.S. (for Acting Surveyor-General), 29/7/87.

The District Surveyor at Grafton. Urgent. To Mr. Surveyor Walker for report as above.—P. R. DONALDSON, District Surveyor, 12/8/87. Reported upon by letter, 87-55, of 7th November.—W. G. WALKER, Surveyor.

## [Enclosure.]

Addition to Schedule B. Description of Lands applied for in exchange, Eastern Division. Woorooloolgen Holding, County Richmond.

Lands accepted in exchange, as per letter of the Under Secretary for Lands, on the 2nd May, 1887 (say) area 5,374 acres 3 roods. Total—5,374 acres 3 roods.

Lands further applied for :—

Parish of Busby—Reserve 586 ; part of reserve 565, being measured portion 23 ; area, 87 acres 2 roods.

Parish of Busby—Reserve No. 586, portion 20 ; area, 53 acres.

Parish of Busby—Reserve 586, portion 21 ; area, 42 acres.

Parish of Mongogorie, reserve 586.—Reserve 546 ; area, about 16 acres 3 roods.

Parish of Shannon.—Land lying west of portions 42-47 ; portion 72—513 acres 3 roods south of portions 39, 38, and 64. Portion 71—169 acres 2 roods north of portions 1, 2, 3, and reserve 593. Total, 882 acres 2 roods. Embracing the balance of reserve 549 (the measured portion 45 of said reserve being already granted in exchange), and as much of reserve 464 as is required to complete the full area of 6,830 acres originally applied for. Portion 73—Total, 573 acres.

Total—6,830 acres.\*

\*Shown on litho. by blue cross.

## No. 16.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

Woorooloolgen Exchanges.

Sir,

Sydney, 28 July, 1887.

As, according to letters already passed between the Department of Lands and ourselves, the exchange of 6,830 acres has been definitely arranged, and as 5,380 of the lands we are to receive have been definitely fixed, we request that you will obtain from the District Surveyor his report upon the 1,450 acres we propose as substitute for those refused on the leasehold area as soon as possible, drawing his special attention to the reserve 454, of which we ask reconsideration. His report originally recommended the retention by the Government of this reserve, on account of its embracing a waterhole. As, however, waterholes are numerous up there, and the average rainfall is 39·84 inches at Casino, we submit that public requirements hardly justifies the refusal of this piece of land, which is most important to the property as affording a crossing-place for stock, and as the Government have given the conditional purchasers all the creek frontages and numerous waterholes at that point.

We shall be obliged if you will give us the Minister's sanction to our ringbarking the 5,380 acres for which the exchanges are settled. The work, of course, to be done at our expense.

We hope that the Minister for Lands will include provision for further exchange in his new Land Bill.

We have, &amp;c.,

GRIFFITHS &amp; CO.,

Agents for the Proprietors.

This communication may be referred to the District Surveyor at Grafton, in connection with papers 87-8,521, Occupation. Instruction No. 247, forwarded by B.C. of 4th instant. With regard to permission required by Messrs. Griffiths & Co. to ringbark over the area for which the exchanges have been settled, the matter is submitted.—E.L., 6/8/87.

There is no practical objection to the lessees being allowed to ringbark the land, which is approved to grant them in exchange for the area to be surrendered, yet, by law, it is provided that permission to ringbark should be obtained in accordance with the provisions of the Act, but before this can be effected the exchanges will probably be completed.—C.O., 9/8/87.

As this application cannot be complied with without setting the law aside, it must be refused.—T.G., 12/8/87.

Inform as to ringbarking.—C.O., 12/8/87. Griffiths & Co.—H.L.T., 13/8/87. This communication may now be forwarded to the District Surveyor, in connection with other papers, 87-8,521, Occupation, transmitted by B.C. of 4th instant.—E.L., 15/8/87. There is no necessity to refer this paper to the District Surveyor. The papers with him contain full particulars in regard to the matter.—C.O., 15/8/87.

## No. 17.

The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen, Department of Lands, Sydney, 13 August, 1887.  
 Referring to your letter of the 29th ultimo, requesting permission to ringbark the 5,380 acres granted in exchange for land surrendered on Wooroolgen Holding, I am directed by the Secretary for Lands to inform you that as your request cannot be complied with without setting the law aside, it must be refused.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 18.

Mr. C. C. Griffiths to The Under Secretary for Lands.

Wooroolgen Exchange, 87-5,424, Occupation, and 87-909.

29 September, 1887.

WE are very anxious to hurry these exchanges on, and have done all we can do in writing the letters of 28th May and 27th and 28th July, since which latter dates we have heard nothing from the Department of Lands. Can you inform us what occasions the delay, and whether further reports from the District Surveyor have been received. Could not the cancellation of the various reserves already passed in exchange be proceeded with? Either my brother Neville or I would wait on you at any time you could find it convenient to see us.

Yours, &amp;c.,

C. CECIL GRIFFITHS.

The papers in this case were referred to the District Surveyor at Grafton for report on the 4th ultimo. The District Surveyor should perhaps be urged to expedite the necessary action to be taken by him. The cancellation of the reserves would not be advisable until the exchange has been completed.—E.L., 30/9/87. S.F.

Submission approved.—T.G., 6/10/87. District Surveyor and writer (as to position of papers) informed.—H.L.T., 10/10/87. Telegraph to the District Surveyor, and inquire when the report may be expected.—C.O., 21/10/87. Wire, 21/10/87.

Department of Lands. Wooroolgen exchange. Please state where the papers are, and if with the District Surveyor, when sent to him, and when he was last communicated with on the subject.—C.O., 21/10/87.

Papers under reference to District Surveyor on 4th September last.—E.L., 21/10/87.

## No. 19.

The Under Secretary for Lands to Mr. C. C. Griffiths.

Sir,

Department of Lands, Sydney, 10 October, 1887.

Referring to your letter of the 29th ultimo respecting the exchange of certain land in the Wooroolgen Holding, I have the honor to inform you that the matter is at present under reference to the District Surveyor, Grafton, who will be asked to expedite all necessary local action thereon.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 20.

The Under Secretary for Lands to The District Surveyor, Grafton.

[Urgent.]

Sir,

Department of Lands, Sydney, 10 October, 1887.

I have the honor to request that you will be good enough to expedite your action on papers numbered, Occupation 87-8,521, relating to exchange of land on Wooroolgen Holding forwarded to your address on 4th August, 1887.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

To Mr. Surveyor Walker, who is requested to give this matter immediate attention.—P.R.D., 13/10/87. Forwarded to the Under Secretary, 15/11/87. Instruction dealt with and returned under cover of letter No. 17-55, of 7th November.—W. G. WALKER, Surveyor, 26/12/87. The Under Secretary for Lands.—P. R. DONALDSON, District Surveyor, 3/1/88.

## No. 21.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

Wooroolgen, 292, Eastern Division.

Sir,

Sydney, 20 October, 1887.

As No. 40, parish of Shannon, county of Richmond, selected by Z. Beun on 29th July, 1884, was recommended by the Casino Land Board on the 9th August for forfeiture for non-residence, and his appeal against the Land Board's decision was dismissed yesterday, we have now the honor of requesting that that portion being within our leasehold may be included in our amended application for exchanges given in our letter of 27th July, 1887, and that the area (say) 202 acres (say) 2 roods 12 perches may be deducted from the further areas applied for in the parish of Shannon, under Schedule B.

We have, &amp;c.,

GRIFFITHS &amp; CO.,

Agents for the Proprietors.

Inform that the forfeiture has no effect until thirty days after notification in the *Government Gazette*, and therefore the land is not available for exchange as desired.—C.O., 21/10/87. Griffiths and Co.—H.L.T., 24/10/87.

Telegram from The District Surveyor, Grafton, to The Under Secretary for Lands.

24 October, 1887.

IN reply to telegram of 21st instant, Surveyor Walker, to whom the instructions were transferred, reports that he starts for Wooroooolgen this week to make inspection prior to report.

P. R. DONALDSON,  
District Surveyor.Submitted.—E.L., 26/10/87. Inform Messrs. Griffiths.—C.O., 29/10/87. C. C. Griffiths.—  
H.L.T., 3/11/87.

No. 24.

The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen,

Department of Lands, Sydney, 24 October, 1887.

In reply to your letter of the 20th instant, requesting that the portions of land noted in the margin be included in the amended application to surrender lands by way of exchange in connection with Wooroooolgen Holding, I have the honor to inform you that the forfeiture of the portions in question has no effect until thirty days after notification in the *Government Gazette*, and therefore the land is not available for exchange as desired.

Portion 40 ;  
parish Shannon,  
county Rich-  
mond ; selected  
by Z. Benn, 29th  
July, 1884.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

No. 25.

The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen;

Department of Lands, Sydney, 3 November, 1887.

In reply to your letter of the 18th ultimo, respecting the area of the holding named in the margin, I have the honor to inform you that the areas have been recalculated, and it is found that the estimate previously given of the leasehold area is correct, but the Crown lands available in the resumed portion are now estimated at 103,600 acres. This includes about 6,000 acres alleged to have been sold to Mr. Yabsley, in regard to which I have to point out that, as the private arrangement made between you and Mr. Yabsley was not communicated to or received the approval of this Department, it cannot now be recognized ; and in computing the areas the official boundaries must be taken, otherwise the Crown lands in the portion sold to Mr. Yabsley will not form part of any holding, as it does not appear that Mr. Yabsley is interested in any adjoining holding.

Wooroooolgen,  
No. 292, Eastern  
Division.

I may add that the matter of rent of the area in question must still be subject to a private arrangement between you and Mr. Yabsley.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

No. 26.

Mr. Surveyor Walker to The District Surveyor, Grafton.

[No. 87-55.]

Sir,

Survey Camp, Deep Creek, 7 November, 1887.

I have the honor to report upon the reserves applied for by the lessees of Wooroooolgen Run, in lieu of those refused, in accordance with instructions No. 25, of 12/8/87.

Part of reserve 565 being measured, portion 23, parish of Busby, fronts on to Mongogarie Creek, with the old, but now disused, Tenterfield Road running through it. Consists of open forest country without permanent water, and is nearly surrounded by station freehold land. The only improvements consist of the station fence running across it.

In view of the proximity of reserves 592, 596 and 566, it can be surrendered without detriment to the public interests.

Reserve 546, parish of Mongogarie. This reserve consists of similar country to the last mentioned, but has a good permanent lagoon upon it. However, in view of other numerous reserves in the locality, also with good permanent water, I consider it is not required, and might therefore be surrendered. There are no improvements upon it.

Reserve 549, parish of Shannon. The eastern portion of this reserve has already been granted to the applicants, as recommended in my first report, and there is not the slightest reason why the western portion should not also be granted. There are no improvements upon it, with the exception of one of the station fences crossing it.

Reserve

Reserve 461, parish of Shannon. When the vacant Crown lands lying to the east of this reserve have been surrendered as applied for, the whole of it can be revoked without detriment to the public interests. There are no improvements upon it, and it consists of open undulating forest country. The applicants have asked for a reconsideration of the refusal to grant them reserve 454, parish of Shannon.

I beg to state that I have again inspected this reserve, and after a careful consideration of the matter, I have no hesitation in saying that it should not be surrendered.

This reserve and 393 contain the only really permanent water for the back country in this parish, they should therefore be retained.

With regard as to whether any of the freehold land on the resumed area proposed to be surrendered should be reserved for public purposes, I beg to inform you that I have now made a special trip of inspection of most of the land in the parishes of Nandabah and Myrtle, where the largest batch of land is situated, and I am of opinion that ample provision was made in this respect before the land went to auction.

I may state also that I have consulted the manager of the station on this subject, and he is of the same opinion.

I have, &c.,

W. G. WALKER,

Surveyor.

Submitted under this report that there is no objection to the surrender of the additional lands applied for to make up the full area of 6,830 acres, viz., of the part of water reserve, No. 565, embracing portion 23, parish of Busby, of portions 20 and 21 of the same parish, of reserve 546, parish of Mongogarie, and of the land in the parish of Shannon, west of portions 42 to 47, south of 38, 39, and 64, north of 1, 2, 3, and reserve 593, embracing residue of reserve 549, and of so much of reserve 464 as is necessary to make the area of 6,830 acres. It would not be desirable to surrender reserve 454 as asked for in last paragraph of the letter, dated 27th July, 1887. The surveyor also reports that none of land proposed to be surrendered by the lessees is required to be reserved for any public purpose, ample provision having been made prior to alienation.—P. R. DONALDSON, District Surveyor, 11/11/87.

The Under Secretary for Lands. The Chief Draftsman.—E.L. 24/11/87.

## No. 27.

### The Surveyor-General to The Under Secretary for Lands.

#### Woorooloolgen Exchange Case.

5 December, 1887.

On papers enclosed the application of the lessees of Woorooloolgen Pastoral Holding for an exchange of lands under the 75th clause, was refused as regards an area of about 1,450 acres applied for, applicants at the same time being allowed the option of correspondingly reducing the area of land offered for surrender, or of substituting other land in lieu of that refused.

The District Surveyor's report on the substituted area is favourable to all but one item, viz., reserve 454 of 230 acres, which, although included in the refused area, applicants reapplied for. As this and reserve 393 contain the only really permanent water for the back country in the parish, the surveyor strongly recommends their retention. Station fencing is the only improvement.

It is submitted in view of this report that the substituted area be accepted, with the exception of reserve 454 referred to, and that the papers be now sent to the District Surveyor for survey.

As regards the last paragraph of minute of the 28th April last, the surveyor reports that ample reservations already exist, and that none of the portions surrendered are required for reservation.

C.J.S.

For approval.—S.F., 5/12/87.

The exchanges, as originally applied for, were in the main approved of by Mr. Secretary Copeland on the 30th August, 1886, and these now in question are slight amendments of the original application consequent on the decision referred to. The matter has been thoroughly reported upon by the District Surveyor, and there would appear to be no objection to effect being given to the exchange, with the exception of reserve 454, which is required for the purpose for which it was reserved.—C.O., 10/12/87.

Approved.—T.G., 12/12/87. Urgent. The Chief Draftsman for any action necessary.—E.L., 13/12/87.

Mr. Ballhausen,—Note plans of measured land approved to be granted in order that no other dealings may be made with such portions, then note this paper to the District Surveyor for measurement.—C.J.S., 14/12/87. Urgent.

Plans already noted.—O.W.B., 15/12/87.

Forwarded to the District Surveyor at Grafton for measurement when necessary, in accordance with Ministerial approval, the cost of survey to be defrayed by applicant, as already agreed. In forwarding the plans the total cost of survey should be stated, in order that applicant may be called upon to pay.—C.J.S. (for Acting Surveyor-General), 15/12/87.

The District Surveyor at Grafton,—Let instructions be at once prepared and issued for the survey of the unmeasured land in the leasehold area approved to be exchanged for that to be surrendered in the resumed area, the balance being made up out of Reserve No. 464. Very urgent.—P.R.D., 20/12/87.

Mr. Thornton.—J.B., 21/12/87. Instructions prepared.—R.T.T., 9/1/88. Issued to Mr. Barling.—R.T.T., 11/1/88.

Mr. Thornton,—The proposed extension to the reserves within the leasehold area suggested by Mr. Walker must be indicated in pencil on parish maps and noted for action in event of the leasehold becoming forfeited at any time. Plans of the portions proposed to be surrendered to the Crown should also be noted.—J.B., 11/1/88.

Plans and maps noted.—R.T.T. Occupation, 88-4,696, *re* proposed modification in surveys to Licensed-Surveyor Barling.—R.T.T., 23/5/88.

No. 28.

Mr. C. C. Griffiths to The Under Secretary for Lands.

Occupation, 87-11,146, Woorooloolgen Exchange.

Sir,

10, O'Connell-street.

Can you inform me what causes the delay in proceeding with these exchanges. Mr. Walker, under instructions from Mr. Donaldson, the District Surveyor, inspected the lands applied for at the end of October last. Has Mr. Donaldson's report been received, and cannot some further action be taken to expedite the matter?

Yours, &amp;c.,

C. CECIL GRIFFITHS.

See me with the papers.—C.O., 21/12/87. Mr. Landers,—87-13,620. All papers were forwarded to District Surveyor, Grafton, on the 16th instant.—J.H.N., 21/12/87.

The exchange was approved, with the exception of one reserve, which was stated to be objectionable in the first Ministerial decision. The papers were returned to the District Surveyor on the 16th instant, directing the necessary survey, the cost of which is to be borne by the applicants in accordance with their agreement.—C.J.S., 21/12/87.

Mr. Landers. Correspondence Branch inform Messrs. Griffiths & Co.—E.L., 21/12/87. C. C. Griffiths.—H.L.T., 21/12/87.

No. 29.

The Under Secretary for Lands to Mr. C. C. Griffiths.

Sir,

Department of Lands, Sydney, 21 December, 1887.

In reply to your letter inquiring the cause of the delay in proceeding with the Woorooloolgen exchanges, I have the honor to inform you that the papers in the case were on the 16th instant forwarded to the District Surveyor, who was directed to cause the necessary surveys to be made, the cost of which is to be borne by the applicants in accordance with their agreement.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

No. 30.

The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen,

Department of Lands, Sydney, 19 May, 1888.

I have the honor to inform you that your letter of the 18th instant, intimating that it has been agreed to adopt the suggestion that about 150 acres, the balance to complete the areas to be exchanged in the Woorooloolgen Holding be taken out of reserves 464, 549, parish of Shannon, and urging that the revocation of those reserves be expedited, has been referred to the District Surveyor at Grafton, in connection with the previous papers in his hands, and for consideration.

I have, &amp;c.,

STEPHEN FREEMAN

(For the Under Secretary).

No. 31.

Mr. Licensed-Surveyor Barling to The District Surveyor, Grafton.

[No. 88-12.]

Sir,

Casino, 15 June, 1888.

I have the honor to report on letter from lessees of the Woorooloolgen Pastoral Holding dated the 18th May, 1888, applying for permission to substitute certain lands in the parish of Shannon in exchange for land applied for in parish of Dyraaba, being measured portion 84 of 259 acres. Plan with my letter 88/11.

By a statement therein it would appear that it was by a suggestion of mine that this application was made. In this there must be some misunderstanding. I did suggest to the manager that it might be better to extend reserve 130, now portion 119, parish Bundock, from the creek to the Tenterfield Road, and take the same area from reserve 464, parish of Shannon. He pointed out this would sever some of their land, and would rather have the land measured, as shown on tracing with instructions.

There would be no objection to this application being granted, and I am now awaiting your decision before measuring the balance of land required to make up the total area of 3,561½ acres. If portion 84, Dyraaba, is given up, it would require from 30 to 40 acres to be measured from Crown lands adjoining reserve 464, parish of Shannon, which is sought for, to the north and adjoining portions 5 and 6; tracing herewith.

I have, &amp;c.,

RICHARD BARLING.

Letter and tracing herewith. Urgent.

As there is no objection to the alienation of the land as applied for and approved by the Minister, now measured as portion No. 84, parish of Dyraaba, of 259 acres, and it appears that the letter 88-4,686, Occupation, was only written to express willingness to accept a modification which was erroneously supposed to have been suggested, or was considered desirable by the surveyor, and in order to prevent delay, and as no alteration or modification appears to have been suggested or necessary, the measurement should be completed as soon as possible, in accordance with original instructions issued to Mr. Barling, who is requested to give the matter his early attention.—P. R. DONALDSON, District Surveyor, 20/6/88.

Received, 30/6/88.—R.B.

Returned with my letter dated 23/7/88.—R.B.

[Enclosure.]

[Enclosure.]

Wooroowoolgen Holding, No. , Eastern Division.

Dear Sir,

Sydney, 18 May, 1888.

The manager of this property advises us that Mr. Licensed-Surveyor Barling is just completing the survey of the last of the unsurveyed portions of the 6,830 acres which it has been formally agreed upon shall be given to the proprietors of Wooroowoolgen property on the leasehold area, in exchange for a similar area on the resumed or occupation area.

The station manager also informs us that to simplify the survey he agreed to adopt the suggestion that some 150 acres, the balance to complete the exact areas, shall be taken in the parish of Shannon, out of reserves 464-549, and adjoining unalienated Crown lands, in the place of certain small areas in the parish of Dyraba, county of Rous.

We beg to notify to you that such arrangement has our approval, and as it is evidently made at the suggestion of the surveyor, we presume it is likely to meet with the official sanction of your department; and so we take it the only remaining cause of delay in the formal exchange of titles is removed, and we shall be at liberty to improve the lands which we have agreed to take in exchange. May we hope that this matter will be expedited as much as possible by the publication of revocation of reserves in the *Gazette*?

Our titles and powers of attorney are ready for lodgment with the Crown Solicitor on behalf of your department.  
To the Under Secretary, Lands Department.

Yours, &amp;c.,

GRIFFITHS &amp; Co.

(Per G. N. GRIFFITHS), Agents for the Proprietors.

Where are the papers?—C.O., 18/5/88. Special. 87-13,620, Occupation, papers with District Surveyor, Grafton, 16/12/87. Referred to the District Surveyor, in connection with previous papers, and for consideration.—C.O., B.C., 19/1/88.

Inform Griffiths & Co.—H.L.T., 19/5/88. To Mr. Licensed-Surveyor Barling, who is requested to complete survey and transmit plans as soon as possible. There would appear to be no objection to what is proposed in this letter.—P. R. DONALDSON, District Surveyor, 29/5/88. Returned with my letter, 15th June, 88-12.—R. BARLING, Licensed Surveyor.

## No. 32.

## No. 33.

## Messrs. W. and F. Fanning to The Under Secretary for Lands.

87-13,954, Wooroowoolgen Land Exchange.

Sir,

10, O'Connell-street, 2 July, 1888.

Referring to your letter of 21st December, 1887, numbered as above, we now learn that the surveyor has completed the surveys of the balances of lands required to make up the 6,830 acres in the leasehold area of the Wooroowoolgen Holding, which have formally been agreed to by your Department to be given in exchange for the 6,830 acres which we (as per letter and schedule A of 16th June, 1886) have formally agreed to surrender to the Government.

We have now to notify to you that we are prepared to at once hand you deeds for the said 6,830 acres of surrendered lands, and to sign any necessary documents for revoking or cancellation of said grants on your handing us a formal letter from your Department, notifying that lands in the leasehold area, granted in exchange as per schedules to be attached to such letter, will be conveyed to us with as little delay as possible.

Such a letter will enable us to at once take possession of the lands we have agreed to accept in exchange for the lands surrendered, and will enable us to improve and fence them, thus avoiding the delay that the issue of grants, &c., must entail.

At present we are impeded in our business arrangements by the delays in the official announcement of our rights to the lands we have been granted in exchange. Also as regards the lands we have surrendered, we are in a false position, for claims have been made on us as to fencing of same by parties who have acquired the ownership or right of occupation to adjoining lands as conditional purchases or conditional leases.

We might also point out that the course we now propose for your adoption is likely to conduce to the advantage of those who have made or are likely to make selections in or around the lands we have surrendered, as they will be thus able to consolidate their properties. Possibly, also, the notification that the surrendered lands were open to selection may give an impetus to settlement.

We have, &amp;c.,

W. AND F. FANNING

(By their Agents, Griffiths &amp; Co.).

Submitted.—E.L., 4/7/88. Telegraph to the District Surveyor, and inquire when the case can be transmitted to head-quarters for final action. An early reply should be made.—C.O., 6/7/88. Wire, 6/7/88. Have made inquiries and find that reply has not yet reached at Records.—E.D., 9/7/88. Mr. Thompson.

 Land applied for Water Reserve, 593; parish Shannon; total length of boundaries,  $2\frac{1}{2}$  miles; not marked, 16 chains; river frontage, 90 chains; new corners, 1; old corners, 2; approximate cost of survey, £6 10s.  
 Sundries such as reserved roads, connections, &c., (say) £10.  
 Total approximate cost of survey, £119 17s. 6d.  
 Total length unmeasured, 687 chains.  
 Total length river frontage, 182 chains.  
 Total length common to other portions, 2,651 chains.

## No. 39.

## Office Memorandum.

(Papers—No. of Land Board District, 88-3,508.)

District Survey Office, Grafton, 26 July, 1888.

[Urgent.]

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portion 73, parish of Shannon, county of Richmond, transmitted by Mr. Barling's letter, No. 88-22 of 23rd July. Instructions issued to Mr. Barling on 9th January, No. 1, and on which Mr. Barling's report in explanation is requested.

*Subject.*—The area of the above portion is found by computation to contain 579 acres *ex* roads, which is  $6\frac{1}{2}$  acres in excess of the balance required. The instructions were to measure a total area of  $3,561\frac{1}{4}$  acres. Upon checking the measurements as they were received, alterations were made in the following portions:—

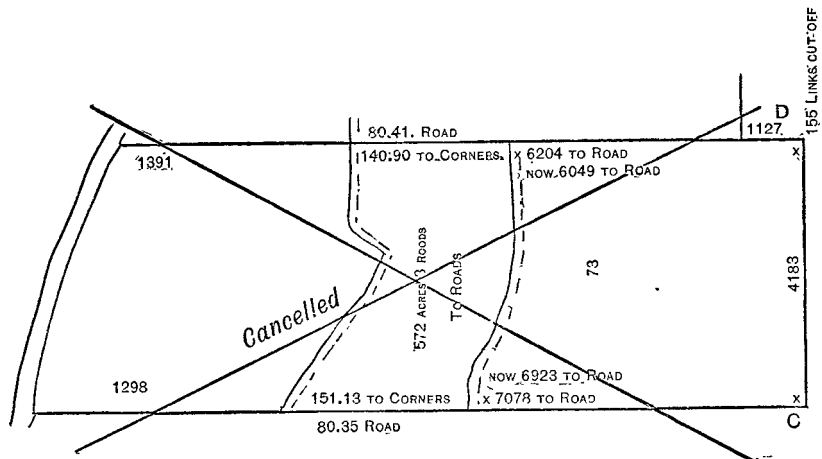

- 114, Bundock, by Mr. Barling, 360 acres; by office,  $361\frac{1}{4}$  acres.
- 115, Bundock, by Mr. Barling,  $231\frac{1}{4}$  acres; by office, 231 acres.
- 118, Bundock, by Mr. Barling,  $109\frac{1}{4}$  acres; by office,  $110\frac{1}{4}$  acres.
- 119, Bundock, by Mr. Barling, 59 acres; by office,  $59\frac{1}{2}$  acres.
- 98, Wooroolgen, by Mr. Barling, 325 acres; by office,  $324\frac{1}{4}$  acres.
- 51, Mongogarie, by Mr. Barling,  $117\frac{1}{2}$  acres; by office, 118 acres.
- 52, Mongogarie, by Mr. Barling, 17 acres; by office,  $16\frac{3}{4}$  acres.
- 72, Shannon, by Mr. Barling,  $513\frac{1}{2}$  acres; by office,  $513\frac{3}{4}$  acres.

Total by Mr. Barling,  $1,732\frac{1}{2}$  acres; total by office,  $1,734\frac{3}{4}$  acres.

This area,  $1,734\frac{3}{4}$  acres, together with the areas of the remaining portions not altered, viz.:  $1,253\frac{3}{4}$  acres gives a total of  $2,988\frac{1}{2}$  acres, or 572 acres short of the balance required.

To avoid further delay the plan has been amended by altering the lengths of the east and west boundaries, as per sketch below, and will be approved and forwarded to head office with the other plans; and Mr. Barling is requested, therefore, to effect this amendment on the ground as speedily as possible, and forward particulars of the new corners C and D. Mr. Barling's attention is invited to the inferior drawing of the plan, which can only be overlooked on account of the special urgency of this case. It is a matter of importance that this amendment be effected before the issue of deed. Mr. Barling will be so good as to forward the required information without delay.

I have, &c.,  
 P. R. DONALDSON,  
 District Surveyor.

Received,

Received, 31/7/88.—R.B.

*Report*:—The amendment of the portion was made on the ground as shown above. Reference to new corners herewith: C 135° 00', spotted gum, 18 links, 73 over broad arrow. D 248° 00', dead tree, 22 links, 73 over broad arrow. Date of survey of amendment, 1/8/88. The drawing of plan was rather hurried. This will not occur again.—RICHARD BARLING, 2/8/88.

Mr. Callachor for necessary amendment of plan and transmission to Surveyor-General.—P.R.D., 4/8/88. Mr. Nowell. For immediate action so that it may be sent by the next Sydney mail.—T.F.C., 6/8/88. Now forwarded to head office, to be placed with papers Land Board District, 88-3,508.—T.F.C. (for District Surveyor), 7/8/88.

## No. 40.

### The District Surveyor, Grafton, to The Under Secretary for Lands.

[88-100.]

#### Wooroowoolgen Holding.—Exchange Case.

31 July, 1888.

THE enclosed reports enumerated in the margin, transmitting plans of surveys of lands within the leasehold area of the Wooroowoolgen Pastoral Holding, are herewith forwarded to the Under Secretary for Lands, with my report of this date on each respective case. These lands have been applied for, as set forth in Schedule B and Additional Schedule B, in conjunction with previously measured portions by the lessees of that holding by way of exchange, under the provisions of the 75th section of Act of 1834, and complete the area applied for, viz., 6,830 acres.

The surveyor reports that he made a special trip of inspection of most of the lands proposed to be surrendered, and he is of opinion that none of it is required for public purposes, ample provision having been made prior to alienation.

The total value of improvements effected on these newly measured lands is £43, viz., ring-barking, £24; and fencing £19. Applicants state that the improvements existing on the land offered for surrender consist of some boundary fencing and some small yards, but do not give the value.

In accordance with Surveyor-General's instructions of 15th December, 1887, I herewith forward a schedule of accounts rendered by the surveyor and recommended for payments, showing the total cost of survey to be £204 17s. 2d. This, of course, is subject to any adjustment that may be necessary on examination in Account Branch. I may also point out that this cost does not include the cost of inspection by surveyor necessary to enable him to furnish the reports upon this application.

All necessary notations as regards the exchange and new reservations in the leasehold area, &c., have been made on the plans and maps of this office.

I have, &c.,  
P. R. DONALDSON,  
District Surveyor.

Marginal reference on above. Land Board District. 88-2,928, 2,929, 2,930, 2,931, 2,932, 2,933, 2,934, 2,990, 2,991, 3,300, 3,301, 3,302, 3,303, 3,508.

Messrs. Griffiths & Co. were informed on the 8th October, 1886, that the estimated cost of survey in connection with the exchange would be about £120. On the 12th of that month they agreed to pay that sum. From this report the survey has cost £204 17s. 2½d. Messrs. Griffiths may be called on for that amount before proceeding with the matter.—E.L., 8/8/88.

Yes.—C.O., 8/8/88.

Mr. Ballhausen, Charting Branch. Original plans should be chartered (as usual by contract) then see if all action is complete. The descriptions for withdrawal from leasehold area are superfluous. Reserves not now required should be cancelled. Total amount to be paid by lessees should be checked. The case should be dealt with at an early date.—E.S., 9/8/88.

The Chief Draftsman,—The portions have now all been charted on our parish maps. The total areas to be surrendered and to be alienated in exchange exactly balance. The unnecessary descriptions have been cancelled, and in other instances when necessary descriptions for revocation, &c., of reserves have now been enclosed. The cost of survey as per enclosed schedule has been £204 15s. 11d., but this does not include the cost of two reports by Surveyor Walker, the exact amount of which cannot be stated at present, owing to the journals being in the District Office.—O.W.B., 27/8/88.

The Chief Draftsman,—Twenty-six descriptions for revocation, notification, &c., of reserves enclosed. Gazetting of which should await receipt of deeds, approval of exchange, &c., &c., Wooroowoolgen Exchange Case.

The cost of this survey has been £204 16s. Cost of the preliminary field inspection by Surveyor Walker, £18 18s. The total amount which applicants should be asked to pay is therefore £223 14s. They should also be requested to forward the deeds of the portions proposed to be surrendered.—C. J. SAUNDERS, 28/8/88.

The Under Secretary. Yes.—C.O., 29/8/88. Griffiths & Co. and Treasury, 30/8/88. The lessees have been supplied with tracings of the portions to be granted to them, *vide* Inquiry Branch form, 15,062.—O.W.B., 2/10/88.

Licensed-Surveyor Richard Barling.

P. R. DONALDSON,  
District Surveyor, 31/7/88.

Accounts 88-8 to 15 have been paid ; 17 to 21 are going on for payment.—R.B., 27/8/88.

[No. 88-14.]

(Occupation, 87-13,620.)

Casino, 15 June, 1888.

Sir,  
I have the honor to transmit the plan of an area of 53½ acres of land numbered 205, in the parish of Queebun, county of Rous, applied for by William and Frederick Fanning, lessees of the Wooroooolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 16th April, 1888, in accordance with instructions No. 88-1, dated 9th January, 1888. Improvements, nil. There is no objection to this portion being granted to applicants. The land is suitable for grazing purposes only, being well-grassed forest country.

I have, &c.,  
RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-13, £7 0s. 7d. Plan and tracings herewith.—Mr. Burt, for charting, &c.—P.R.D., 18/6/88. Mr. Turner, to pass advance account and deal with case.—J.B., 18/6/88. Advance account forwarded to Under Secretary.—T.H.C., 19/6/88. Memorandum directing Mr. Barling to renumber the portion, the parish number having been used.—J.R.T., 20/6/88. Checked and charted.—J. R. TURNER, 9/7/88. Tracing to Land Agent.—J R.T., 30/7/88.

This measurement portion 205, of 53½ acres forms part of water reserve No. 515, notified 4th August, 1879, and is within the leasehold area of Wooroooolgen Pastoral Holding. This reserve embraces also measured portion 129 of 60 acres, and it has been approved by Mr. Secretary Copeland on papers 86-2,441, Occupation, to give these lands to the lessees of the holding, by way of exchange for an equal area in the resumed area. Herewith I forward descriptions for the revocation of that reserve, and for the withdrawal of this area of 53½ acres represented on this plan from the leasehold. There are no improvements. The plan has been forwarded to the Surveyor-General this date.—P. R. DONALDSON, District Surveyor, 30/7/88. The Under Secretary for Lands.

Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

[No. 88-13.]

(Occupation, 87-13,620.)

Casino, 15 June, 1888.

Sir,  
I have the honor to transmit herewith the plan of an area of 133 acres, portion 117, in the parish of Bundock, and county of Richmond, applied for by William and Frederick Fanning, lessees of Wooroooolgen Pastoral Holding, under the 75th section of Crown Lands Act of 1884, measured by me on the 15th of April, 1888, in accordance with instructions No. 88-1, dated 9th January, 1888.

Improvements valued at £2; wire fencing erected by lessees of run. There is no objection to this being granted to applicant. This land is suitable for grazing purposes, being well grassed forest ground.

Adjoining portions 74 to 78 were all measured with chain longer than standard, which makes this portion appear longer than originals.

I have, &c.,  
RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-12, £13 12s. 6d. Plans and tracings herewith. Mr. Burt, for charting, &c.—P.R.D., 18/6/88. Mr. Turner, to pass advance account and chart.—J.B., 18/6/88. Advance account forwarded to Under Secretary.—T.F.C., 19/6/88. Tracing to Crown Lands Agent.—J.R.T., 23/6/88. Checked and charted.—J. R. TURNER, 6/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

The area defined as portion 117 of 133 acres, forms part of 6,830 acres within the leasehold area of Wooroooolgen Pastoral Holding, which Mr. Secretary Copeland has approved (*vide* 86-2,441, Occupation), being given to the lessees of that holding by way of exchange for an equal area in the resumed area. This portion is also within water reserve No. 277, notified 22nd August, 1876, and herewith I forward the necessary descriptions for the cancellation of this reserve and the withdrawal of the area measured from the leasehold. There are improvements, value £2, viz., wire fencing, erected by the lessees. The plan has been forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

No. 88-10.]

(Occupation, 87-13,620.)

Casino, 15 June, 1888.

Sir,  
I have the honor to transmit the plan of an area of 361 acres of land numbered 114, in the parish of Bundock, county of Richmond, applied for by William and Frederick Fanning, lessees of the Wooroooolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 4th April, 1888, in accordance with instruction No. 88-1, dated 9th January, 1888.

Improvements, ringbarked timber, £12, made by lessees. There are no objections to this land being granted to applicants. The land is only suited for grazing purposes, being well-grassed forest ridges.

Adjoining portions 21 to 25 were all measured with chain longer than standard, which makes the chaining of this portion appear longer than the original.

I have, &c.,  
RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-10, £12 6s. 2d. Plan and tracings herewith. Mr. Burt for charting, &c.—P. R. DONALDSON, District Surveyor, 18/6/88. Mr. Turner, to pass advance account and chart.—J. B., 18/6/88. Advance account forwarded to Under Secretary.—T.F.C., 19/6/88. Checked and charted.—J. R. TURNER, 6/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

The

The area defined as portion 114 of 361 acres, is part of 6,830 acres within the leasehold area of Wooroolgen Pastoral Holding, and which land Mr. Secretary Copeland, by approval on papers 86-2,441, Occupation, sanctioned being offered the lessees of that holding by way of exchange for an equal area in the resumed area, and enclosed I forward the necessary description for the withdrawal of that land from the leasehold. Applicants have effected improvements, viz., ringbarking, value £12. The plan has been forwarded to the Surveyor-General, this date.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-8.]

(Occupation, 87-13,620.)

Sir,

Casino, 15 June, 1888.

I have the honor to transmit herewith the plan of an area of 48 acres 1 rood, numbered 81, in the parish of Bundock, county of Richmond, applied for by William and Frederick Fanning, lessees of the Wooroolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 27th March, 1888, in accordance with instructions, No. 88-1, dated the 9th January, 1888.

Improvements, nil. There seems no objection to this portion being granted to applicants. The portion was partly marked on the ground, and numbered 81 by me when surveying adjoining portion. No plan sent.

I have, &amp;c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-8, £4 19s. 9d. Plan and tracings herewith. Mr. Burt, for charting, &c.—P.R.D., 16/6/88. Mr. Nowell, to pass advance account and chart.—J.B., 18/6/88. Advance account, No. 88-8, passed 19th June, 1888.—T.F.C. Tracing to Land Agent, 20/6/88. Checked and chartered.—F. B. NOWELL, 20/6/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

The area defined as 81 of portion 48½ acres forms part of 6,830 acres, within the leasehold area of Wooroolgen Pastoral Holding, which Mr. Secretary Copeland, by approval on 86-2,441, Occupation, sanctioned, being given to the lessees of that holding by way of exchange, under the provisions of the 75th section of the Crown Lands Act of 1884, and herewith I forward the necessary description for the withdrawal of this portion 81 from the leasehold. There are no improvements. The plan has been forwarded to the Surveyor-General this date.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-7.]

(Occupation, 87-13,620.)

Sir,

Casino, 15 June, 1888.

I have the honor to transmit herewith the plan of an area of 54½ acres, numbered 206, in the parish of Queebun, county of Rous, applied for by William and Frederick Fanning, lessees of the Wooroolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 16th April, 1888, in accordance with instructions, No. 88-1, dated the 9th January, 1888.

The improvements on this portion consists of a two-rail fence, which I value at £10, erected by lessees of this and adjoining run. There would seem to be no objections to this portion being granted to applicants. The portion is only suitable for grazing purposes comprising poor forest sandstone ridges.

I have, &amp;c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher, 88-7, £5 19s. 2d. Plan and tracing herewith. Mr. Burt, for charting, &c.—P.R.D., 18/6/88. Mr. Turner, to pass advance account and chart.—J.B., 18/6/88. Advance account forwarded to Under Secretary.—T.F.C., 19/6/88. Memorandum directing Mr. Barling to renumber the portion, the parish No. having been used.—J.R.T., 20/6/88. Tracing to Land Agent, 30/7/88. Checked and charted.—J. R. TURNER, 9/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

This measurement portion, 206 of 54½ acres, is part of 6,830 acres, within the leasehold area of Wooroolgen Pastoral Holding, which by Ministerial authority of 30th August, 1886, on papers 86-2,441, Occupation, it was approved to be given the lessees of the holding by way of exchange for an equal area in the resumed area. The surveyor reports that the applicants have effected improvements, value £10. Herewith I forward the necessary description for the withdrawal of this area from the leasehold. The plan forwarded to Surveyor-General this date. Tracing for Land Agent at Casino is enclosed.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[Papers, No. 88-2,932.]

Wooroolgen Exchange Case.

District Survey Office, 20 June, 1888.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portion 194, parish of Queebun, county of Rous, transmitted by Mr. Licensed-Surveyor Barling's letter No. 88-7, of 15th June, and on which Mr. Barling's report in explanation is requested.

Subject :—Parish No. 194 having been previously used in the parish of Queebun, it will be necessary to renumber the portion.—P. R. DONALDSON, District Surveyor, 20/6/88. Received.—R.B., 27/6/88.

Report :—Portion formerly numbered 194 now altered to 206 on the ground.—RICHARD BARLING, Licensed Surveyor, 3/8/88.

Mr. Callachor.—P.R.D., 4/8/88. Mr. Turner.—6/8/88. Certified tracing noted accordingly.—J.R.T., 16/8/88. Memorandum to Surveyor-General to note on plan.—J.R.T., 16/8/88. Forwarded to the Under Secretary to place with papers 88-2,932. Land Board district noted to head office, 31/7/88.—T.F.C. (for District Surveyor), 16/8/88.

Sir,

District Survey Office, Grafton, 9 June, 1888.

I beg to invite your attention to my instructions of the 9th day of January, No. 88-1, whereby you were directed to measure 3,561½ acres, Wooroolgen, and I have to request that you will report on this memorandum when the plan may be expected.

I am, &amp;c.,

P. R. DONALDSON,

District Surveyor.

Mr. Licensed-Surveyor Barling.

A portion of the plans sent with my letters 88-7 to 14, 15/6/88, herewith; the remainder I hope to send at end of month.—R. BARLING, Licensed Surveyor, 15/6/88. Place with papers, satisfactory.—P.R.D., 18/6/88.

[No. 88-11.]

(Occupation 87-13,620.)

Sir,

Casino, 15 June, 1888.

I have the honor to transmit herewith the plan of an area of 259 acres of land, numbered 84, in the parish of Dyrnaba, county of Rous, applied for by William and Frederick Fanning, under the 75th section of the Crown Lands Act of 1884, measured by me on the 14th of April, 1888, in accordance with instructions No. 88-1, dated the 9th January, 1888. Improvements, ringbarked timber, £12, made by lessees. Since survey of this the lessees have applied for other lands situated in reserve 464 and adjoining Crown lands, in place of this portion measured. There would be no objection to the exchange, the land being equally available and of much the same description, being forest ridges suitable for grazing only.

I have, &amp;c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher.

Voucher 88-11, £14 19s. 3d. Plan and tracings herewith. Mr. Burt, for charting.—P.R.D., 20/6/88. Mr. Turner, to pass advance account and chart.—J.B., 20/6/88. Advance account forwarded to Under Secretary.—T.F.C., 22/6/88. Checked and charted.—J. R. TURNER, 6/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88. Tracing to Crown Lands agent.—J.R.T., 31/7/88.

This measurement portion, 84, of 259 acres, is part of 6,830 acres within the leasehold area of Wooroolgen Pastoral Holding, which, by ministerial authority of 30/8/86, on papers 86-2,441, Occupation, it was approved to be given the lessees of that run by way of exchange for an equal area in the resumed area. The surveyor reports that the applicants have effected improvements value £12, being ringbarking. About 53 acres of this land are within conditional reserve 391, and herewith I forward the necessary description for the revocation of that part of the reserve, and also description for the withdrawal of the whole area from the leasehold, also tracing for the land agent, Casino. This plan has been forwarded to the Surveyor-General by memorandum of this date.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-9.]

(Occupation, 87-13,620.)

Casino, 15 June, 1888.

Sir,  
I have the honor to transmit herewith a plan of an area of 168 acres 1 rood, being portions numbered 118 and 119 in the parish of Bundock, county of Richmond, applied for by William and Frederick Fanning, lessees of the Wooroolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 11th April, 1888, in accordance with instructions No. 88-1, dated the 9th January, 1888. Improvements nil. The road from Casino to Tenterfield, as now used and being formed by the Roads Department, will cross the land as shown on plan so measured in two portions, leaving the road 2 chains wide, the same as part to be opened lately surveyed. There is no objection to this land being granted to applicants. The land is well suited for grazing purposes, being well-grassed forest ridges.

I have, &c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-9, £18 16s. 8d. Plan and tracings herewith. Mr. Burt, for charting, &c.—P.R.D., 18/6/88. Mr. Nowell, to pass advance account and chart.—J.B., 18/6/88. Advance account, 88-9, passed 19th June, 1888.—T.F.C., 20/6/88. Tracing to Land Agent. Checked and charted.—F. B. NOWELL, 20/6/88. Tracings and descriptions prepared for the revocation of reserves, &c.—F.B.N., 23/6/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

Portions 118 and 119, of 110½ acres and 59½ acres respectively, embrace water reserve No. 130, north extension notified 9th February, 1880, and part of water reserve No. 130, notified 11th March, 1868, and form part of 6,830 acres within the leasehold area of Wooroolgen pastoral holding, which Mr. Secretary Copeland (*vide* approval on 86-2,441, Occupation) has sanctioned being given to the lessees by way of exchange, under the 75th section of the Act, 1884, and enclosed I forward the necessary descriptions for the revocation of water reserve 130, north extension, and for so much of water reserve 130 as is embraced in these portions; also description for the withdrawal of these lands from the leasehold. There are no improvements. The plan forwarded to Surveyor-General this date.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-16.]

(Occupation, 87-13,620.)

Casino, 19 June, 1888.

Sir,  
I have the honor to transmit herewith a plan of two portions of land, containing 324½ acres and 77½ acres, numbered 98 and 99, in the parish of Wooroolgen, county of Richmond, applied for by William and Frederick Fanning, lessees of Wooroolgen Pastoral Holding under the 75th section of the Crown Lands Act of 1884, measured by me on the 24th March, 1883, in accordance with instructions No. 88-1, dated the 9th January, 1888. Improvements nil. There seems no objection to this land being granted to applicants. The land is chiefly suited for grazing purposes, being well-grassed forest ground. In the chaining some of the old adjoining portions were measured with a chain longer than standard, which make the chainage of these portions longer than the originals.

I have, &c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-15, £25 18s. 8d. Plan and tracings herewith. Mr. Burt, for charting, &c.—P.R.D., 20/6/88. Mr. Turner, to pass advance account and chart.—J.B., 29/6/88. Advance account forwarded to Under Secretary.—T.F.C., 22/6/88. Checked and charted.—J. R. TURNER, 6/7/88. Tracing to Land Agent, 31/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

These portions, Nos. 98 and 99, are embraced within water reserve 131, notified 11th March, 1868, and form part of 6,830 acres, within the leasehold area of Wooroolgen Pastoral Holding. By decision of Mr. Secretary Copeland these lands are to be offered to the lessees of that holding by way of exchange, under the provisions of the 75th section of the Act 1884. Herewith I forward the necessary descriptions for the cancellation of Reserve No. 131 and the withdrawal of the portions from the leasehold. I also recommend that an area of about 43 acres of this reserve, after cancellation, be notified as reserved from lease for camping purposes. Sketch and description herewith. There are no improvements. The plan has been forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-15.]

(Occupation, 87-13,620.)

Casino, 19 June, 1888.

Sir,  
I have the honor to transmit herewith a plan of three portions, containing 118 acres, 231 acres, and 142½ acres of land, and numbered 98, 115, and 116, in the parish of Bundock, county of Richmond, applied for by William and Frederick Fanning, lessees of Wooroolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 6th April, 1888, in accordance with instructions 18-1, dated 9th January, 1888, and 88-3, dated the 23rd January, 1888.

Improvements, valued at £7, being wire fence made by lessees on portion 116, the other portions, nil. There seems to be no objection to this land being granted to applicants. The land is chiefly suitable for grazing purposes, being well-grassed forest country. The chainings of adjoining portions, 57, 58, 64, and 74, I find have been all measured with a chain longer than standard, which makes the chainage of these portions longer than shown on originals.

I have, &c.,

RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 18-14, £25 9s. 7d. Plan and tracings, also instruction No. 3 herewith. Mr. Burt.—P.R.D., 20/6/88. Mr. Nowell, to pass advance account and chart.—J.B., 20/6/88. Advance account No. 88-14, passed 22nd June, 1888.—T.F.C. Memorandum to Mr. Barling relative to corners E and I—that is, the north-west corners of portions 57 and 58, do not agree with originals.—F.N.B. Replied to 4th July, 1888, 22/6/88. Tracing to Land Agent, 22/6/88. Checked and charted.—F. B. NOWELL, 22/6/88. Tracings and descriptions prepared for the revocation of reserves, &c.—F.B.N., 23/6/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

Portion 98, of 118 acres, embraces reserve 516, notified 4th August, 1879, and portions 115 and 116, of 231 acres and 142½ acres respectively, form part of water reserve 230, notified 23rd April, 1875. By Ministerial authority on papers 86-2,441, Occupation, it has been approved to give these lands, which are also within the leasehold area of Wooroolgen pastoral holding, to the lessees by way of exchange, under the 75th section of the Act of 1884, and herewith I enclose the necessary descriptions for the revocations of those reserves, and for the withdrawal of the areas within the measured portions on the leasehold. I also recommend that the unalienated portion of water reserve 230, about 190 acres, after its cancellation, be proclaimed as reserved from lease and as for sale for camping purposes. Description herewith. Improvements have been effected by the lessees on portion 116, viz., wire fence, value £7. On the other portions there are no improvements. The plan has been forwarded to the Surveyor-General by memorandum of this date.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

Papers No., Land Board District 88-2,991.

District Survey Office, Grafton, 22 June, 1888.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portions 98, 115, and 116, parish of Bundock, county of Richmond, transmitted by Mr. Barling's letter No. 88-15, of 19th June. Instructions issued to Mr. Barling, and on which Mr. Licensed-Surveyor Barling's report in explanation is requested.

*Subject* :—The reference to the north-west corner of portion 57 and the north-west corner of portion 58 do not agree with originals. Following shows the difference :—

353° 15', gum, 209 links, by portion 57.  
253° 15', gum, 209 links, by portion 115.  
17° 00', apple, 8 links, by portion 58.  
170° 00', apple, 8 links, by portion 98.

P. R. DONALDSON,  
District Surveyor,  
22/6/88.

Received.—R.B., 27/6/88.

*Report* :—The references given on originals are correct, viz. :—  
353° 15', gum, 209 links, and  
17° 00', apple, 8 links.

RICHARD BARLING,  
Licensed Surveyor,  
30/6/88.

Mr. Burt.—P.R.D., 4/7/88. Mr. Nowell, 4/7/88. Plan and tracing altered.—F.B.N., 5/7/88.

Sir,

Wooroowoolgen, Casino, 19 January, 1888.

A few days ago I saw Mr. Licensed-Surveyor Barling, who informed me that he had received instructions to measure certain reserves on Wooroowoolgen. He showed me the tracings forwarded to him, and I observed that a vacant bit of land is left between reserve 230 and reserve 277, in the parish of Bundock. When our applications for these lands were made we were under the impression that the two reserves met, and that there was no vacant land between them, and so we expected to get all the land except that part recommended by you as a camping reserve, at the south end of reserve 230. The piece of land to which I refer is entirely surrounded by our lands, and, therefore, I would beg that Mr. Barling be instructed to survey it with the rest, so that we may have an opportunity of acquiring it along with the other lands in the application.

Yours, &c.,  
W. AND F. FANNING.

To the District Surveyor, Grafton.

Forwarded to Licensed-Surveyor R. Barling for measurement with form F, instructions of the 11th instant. Under that instruction Mr. Barling was directed to measure water reserve 230, according to the design shown by red hatching on tracing herewith. The proposed measurement may now extend northerly, to embrace the vacant land between water reserve 230 and water reserve 277, and take the form shown by red tint; the additional area embraced to be deducted from the final measurement, as provided under the instructions already issued.—P. R. DONALDSON, District Surveyor, 23/1/88.

No. 88-3. Mr. Licensed-Surveyor Barling.—The dividing line between this and the measurement of water reserve 277 may be formed by producing the western boundary of portion 78 due north.—P. R. DONALDSON, District Surveyor, 23/1/88.

No. 88-3. Returned with my letter and plan, dated 19th June, 88-15.—R. BARLING, Licensed Surveyor.

[No. 88-20.]

(Occupation 87-13,620.)

Sir,

Casino, 6 July, 1888.

I have the honor to transmit herewith the plan of an area of 16½ acres, numbered 52, in the parish of Mongogarie, county of Richmond, formerly reserve 546, notified 8th March, 1880, applied for by William and Frederick Fanning, lessees of the Wooroowoolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 23rd May, 1888, in accordance with instructions 88-1, dated the 9th January, 1888; improvements, nil. There is no objection to this being granted to applicants. The land is sandy forest ridges, only suitable for grazing purposes.

I have, &c.,  
RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-19—£5 3s. 5d. Plan and tracings herewith. Urgent. Mr. Burt, for charting.—P.R.D., 11/7/88. Mr. McMahon,—Enter to Mr. Nowell, who will pass advance account and chart.—J.B. Advance account No. 88-19, passed.—T.F.C., 16/7/88. Checked, and charted tracing and description for revocation of reserve 546 prepared.—F. B. NOWELL, 18/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

Tracing to Land Agent at Casino.—F.B.N., 31/7/88. The area defined as portion 52, of 16½ acres, embraces water reserve No. 546, notified 8th March, 1880, within the leasehold area of Wooroowoolgen Pastoral Holding, and forms part of 6,830 acres, which Mr. Secretary Copeland has decided may be given the lessees of that holding by way of exchange, under the 75th section of the Act of 1884. Herewith I forward the necessary descriptions for the revocation of that reserve, and the withdrawal of the area measured from the leasehold. There are no improvements. The plan has been forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-21.]

Sir,

(Occupation, 87-13,620.)

Casino, 6 July, 1888.

I have the honor to transmit herewith the plan of three portions of land containing 154,169½ and 513½ acres, numbered 70, 71, and 72, in the parish of Shannon, county of Richmond. Portion 70, formerly reserve No. 593, notified 8th March, 1880, applied for by William and Frederick Fanning, lessees of Wooroowoolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884. Measured by me on the 19th May, 1888, in accordance with instructions 88-1, dated the 9th January, 1888. Improvements, nil. There is no objection to this land being granted to applicants. The land consists of well-grassed forest ridges, chiefly suitable for grazing purposes.

I have, &c.,  
RICHARD BARLING.

The District Surveyor, Grafton.

Voucher 88-20. £33 17s. 5d. Urgent. Mr. Burt, for charting.—P.R.D., 11/7/88. Plan and tracing herewith. Mr. Nowell, to pass advance account and chart.—J.B., 11/7/88. Telegram to Mr. Barling, to forward calculations of portion 70 misclose.—F.B.N., 13/7/88. Advance account No. 88-20 passed.—T.F.C., 16/7/88. Memorandum received with calculations, and now enclosed.—F.B.N., 23/7/88.

Checked and charted. Description and tracing prepared for the revocation of reserve 549.—F. B. NOWELL, 24/7/88. Telegram to Mr. Barling, to explain discrepancy of 1 chain into boundaries of portions 71, 72, and 64 with reserve 464. Reply by wire.—F.B.N., 26/7/88. Replied to error in reserve, 27/7/88. Tracing to Land Agent, 31/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

The areas defined as portions 70 of 154 acres, 71 of 169½ acres, and portion 72 of 513½ acres, form part of 6,830 acres within the leasehold area of Wooroowoolgen Pastoral Holding, approved to be given the lessees of that holding by way of exchange, under the 75th section of the Act of 1884. Portion 70 is within reserve 593, notified 8th March, 1880, and  
portion.

portion 72 is partly embraced within reserve 549, notified 8th March, 1880. As portion 45 of 90 acres, the balance of this latter reserve is also to be given under the same provisions, I enclose descriptions for the revocation of both reserves, and also descriptions for the withdrawal of the measured portions from the leasehold. There are no improvements. The plan has been forwarded to the Surveyor General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

Telegram from Casino Station, addressed to the District Surveyor, Grafton.

Error occurs in reserve four six four (464). Letter by mail,

27 July, 1888.

Mr. Burt.—P.R.D., 27/7/88,

RICHARD BURLING,  
Licensed Surveyor.

Memorandum.—Calculation of portion 70, parish of Shannon, sent with my letter dated 6th July, 88-21.

Sir,

Casino, 20 July, 1888.

In reply to telegram dated 13th July, 1888, I beg to forward calculation of portion 70, which I make close, as shown herewith:—

Mr. Burt, very urgent.—P. R. DONALDSON, District Surveyor, 23/7/88.  
3 was given on plan as 1,000. Portion now closes.—F.B.N., 24/7/88.

Plan noted. The length of line No.

[No. 88-19.]

(Occupation, 87-13,620.)

Sir,

Casino, 6 July, 1888.

I have the honor to transmit herewith a plan of an area of 118 acres, numbered 51, in the parish of Mongogarie, county of Richmond, formerly reserve 650, notified 23rd August, 1880, applied for by William and Frederick Fanning, lessees of Wooroooolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 23rd May, 1888, in accordance with instructions on 88-1, dated 9th January, 1888. Improvements, nil. There is no objection to this land being granted to applicants. The land is chiefly suitable for grazing purposes, being sandy forest ridges.

The District Surveyor, Grafton.

I have, &c.,  
RICHARD BURLING.

Voucher 88-18. £6 9s. 11d. Mr. Burt, for charting.—P.R.D., 11/7/88. Plan and tracings herewith. Mr. Nowell, to pass advance account and chart.—J.B., 11/7/88. Advance account No. 88-18 passed.—T.F.C., 16/7/88. Checked and charted description and tracing prepared for revocation of reserve 650.—F. B. NOWELL, 18/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88. Tracing to Land Agent.—F.B.N., 31/7/88.

The area defined as portion 51 of 118 acres is within reserve 650, notified 23rd August, 1880, and is part of 6,830 acres within the leasehold area of Wooroooolgen Pastoral Holding, which, by decision of Mr. Secretary Copeland, of 30th August, 1886, it has been approved, shall be offered the lessees of that holding by way of exchange for an equal area in the resumed area. Herewith I forward the necessary descriptions for the cancellation of that reserve and for the withdrawal of the portion No. 51 from the lease. There are no improvements. The plan has been forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-18.]

(Occupation, 87-13,620.)

Sir,

Casino, 6 July, 1888.

I have the honor to transmit herewith a plan of an area of 44 acres of land, numbered 82, in the parish of Coombell, county of Richmond, formerly reserve 493, notified 21st April, 1879, applied for by William and Frederick Fanning, lessees of Wooroooolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 16th May, 1888, in accordance with instructions No. 88-1, dated the 9th January, 1888. Improvements, nil. There is no objection to this land being granted to applicants. The land is chiefly suitable for grazing purposes, being well-grassed forest country and swampy flats.

The District Surveyor, Grafton.

I have, &c.,  
RICHARD BURLING.

Voucher 88-17. £7 4s. 1d. Plan and tracing herewith. Mr. Burt, for charting.—P.R.D., 11/7/88. Mr. Nowell, to pass advance account and chart.—J.B., 11/7/88. Urgent.—Advance account No. 88-17 passed 16th July, 1888.—T.F.C. Checked and charted tracing, and description prepared for revocation of reserve 493.—F. B. NOWELL, 18/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88. Tracing to Land Agent, 31/7/88.

The area defined as portion 82 of 44 acres embraces reserve 493, notified 21st April, 1879, within the Wooroooolgen Pastoral Holding, and forms part of 6,830 acres, which it has been decided by Ministerial authority, on 86-2,441, Occupation, to offer the lesses of that holding, by way of exchange under the 75th section of the Act of 1884. Herewith I forward the necessary descriptions for revocation of that reserve, and the withdrawal of the area measured from the leasehold. There are no improvements. The plan has been forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

[No. 88-2.]

[No. 88-22.]

(Occupation, 87-13,620.)

Sir,

Casino, 23 July, 1888.

I have the honor to transmit herewith the plan of an area of 575 acres, numbered 73, parish of Shannon, county of Richmond, being part of reserve 464, notified 10th March, 1879, being the balance of land applied for by William and Frederick Fanning, lessees of Wooroooolgen Pastoral Holding, under the 75th section of the Crown Lands Act of 1884, measured by me on the 23rd July, 1883, in accordance with instructions, No. 88-1, dated the 9th January, 1888. Improvements, nil. There is no objection to this land being granted to applicants. The land comprises well grassed forest ridges, chiefly suitable for grazing purposes.

The District Surveyor, Grafton.

I have, &amp;c.,

RICHARD BARLING.

Voucher 83-21, £18 13s. 10l. Plan and instruction No. 1 herewith. No tracing sent; could same be made in office?—R.B. Very urgent. Mr. Burt, for charting, &c.; the tracing to be made in this office.—P.R.D., 25/7/88. The plan is very rough, and far from up to the standard, but considering the urgency of the case, it may be accepted in this instance, but Mr. Barling's attention should certainly be called to it.—P.R.D., 25/7/88. Mr. Nowell.—J.B., 25/7/88. Area 6½ acres in excess.—F.B.N., 27/7/88.

Although survey requires amendment the alteration may be made on plan, and the case dealt with, to avoid further delay. The plan can be retained until the surveyor's report is obtained, showing the amendment as effected.—P. R. DONALDSON, District Surveyor, 27/7/88.

Memorandum to Mr. Barling to amend survey of portion 73 to contain 573 acres by cutting off from the north boundary plan amended in the office, and Mr. Barling to forward particulars of amendment.—F.B.N., 27/7/88. Advance account, No. 88-1, passed 27th July, 1888.—F.B.N. Description and two tracings prepared for revocation of part of reserve 464 checked and charted.—F. B. NOWELL, 27/7/88. Survey approved.—P. R. DONALDSON, District Surveyor, 31/7/88.

This portion, No. 73 of 573 acres, forms part of water reserve 464, notified 10th March, 1879, within the leasehold area of Wooroooolgen Pastoral Holding, and has been measured to complete the full area of 6,830 acres, applied for by the lessees of that holding under the 75th section of the Act of 1884. This application was approved by Mr. Secretary Cope-land by minute of 30th August, 1886, on papers 86-2,441, Occupation. Herewith I forward necessary descriptions for the revocation of that part of the reserve affected by this measurement, and for its withdrawal from the leasehold. There are no improvements. An amendment has been found necessary in this survey, but to prevent any further delay a tracing has been prepared and enclosed herewith, marked "A," which will accord with the amendment, and when this has been carried out, which will be in the course of a few days, the plan will be forwarded to the Surveyor-General.—P. R. DONALDSON, District Surveyor, 31/7/88. The Under Secretary for Lands.

Telegram from Mr. R. Barling to The District Surveyor, Grafton.

REPLY telegram by post to-day, balance land, Wooroooolgen delayed. Plan next week.

Casino Station, 20 July, 1888.

RICHARD BARLING.

Telegraph to Barling *re* your telegram just received. If possible send plan of balance Wooroooolgen exchange by Tuesday's post. Very urgent.—P.R.D., 20/7/88. Telegram sent, 20/7/88.

[No. 87-13,620.]

Occupation No., 88-1. Memorandum of Instructions.

District Survey Office, Grafton, 9 January, 1888.

*Subject.*—Mr. Licensed-Surveyor R. Barling is requested, at his early convenience, to proceed with the measurement of the areas indicated by red tint on the fifteen tracings forwarded herewith. It is pointed out that these designs represent the unmeasured land within the leasehold area of the Wooroooolgen Pastoral Holding proposed to be granted to the lessees in fee simple in exchange for part of that surrendered to the Crown within the resumed area, the exchange being effected under the provisions of section 75 part 2, of the Land Act of 1884. The total area proposed to be surrendered by the lessees is 6,830 acres of the equivalent area proposed to be granted in exchange therefor. 3,268½ acres are already measured, leaving an area of 3,561½ acres still awaiting survey. That area is represented in the tracing referred to, and measurement according to the designs shown on tracings 1 to 14 may be effected forthwith; the final measurement should then be made to embrace the balance of area required to make up 3,561½ acres, and according to the design shown in tracing No. 15.

Particular care should be taken in these measurements, as, if any of the areas measured are found to be incorrect, it will necessitate a resurvey of the final measurement. Copies of the reserve descriptions are forwarded herewith, but the tracings illustrate generally the designs to be adopted. Close attention should, however, be given to the preservation of road intercommunication, care being taken that roads of access are left in the most suitable positions. In the case of tracing No. 12, a road 159 wide should be left along the east boundary, as indicated. The lagoon also should not be included.

In the case of No. 13, portion 98 has been adopted on the parish map for this area, although the survey apparently was never completed; that number should, therefore, be adopted on the ground. There seems to be nothing else requiring particular mention, except that parish numbers should be adopted for the whole of these measurements, and a separate plan and report, giving full particulars, &c., should be transmitted in each case. (The areas indicated on tracings 4 and 5 should be shown on one plan.) This instruction should meet with prompt attention.

P. R. DONALDSON,

Mr. Licensed-Surveyor Barling.

District Surveyor, 11 January, 1888.

Received, 14/1/88.—R.B. Reply. Returned with my letter of 23 July, 88-22. Plans sent with letter 88-7, 8, 9, 10, 11, 13, 14, 15, 16, 18, 19, 20, 21, and 22.—RICHARD BARLING, Licensed Surveyor, 23/7/88.

No. 41.

The District Surveyor, Grafton, to The Surveyor-General.

7 August, 1888.

REFERRING to my minute on papers, Land Board District, 88-3,508 of 31st July, 1888, to the Under Secretary, relating to the amendment of portion 73, parish of Shannon, county of Richmond, the plan being detained until such amendment was completed, I have now the honor to forward the plan (catalogued Reserve 1,155-1,744), showing the alterations effected by the Surveyor, also the memorandum of instructions, which should be placed with the papers above quoted.

THOMAS F. CALLACHOR

(For District Surveyor).

Wooroooolgen Exchange. Letter transmitting plan enclosed.—T.F.C., 7/8/88. Mr. Ball-housen,—Place with Wooroooolgen case.—C.J.S., 13/8/88. Done.

## No. 42.

## The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen,

Department of Lands, Sydney, 30 August, 1888.

Wooroowoolgen,  
No. 292, Eastern  
Division.

Referring to your application to surrender, by way of exchange, certain lands within the resumed area of the holding named in the margin, I have the honor to inform you that the cost of preliminary field inspection by Surveyor Walker, is £18 18s., and cost of survey is £204 16s., making a total of £223 14s., which should be paid into the Treasury at once, in order that the matter may be proceeded with.

I have to add that the deeds of grant for the land to be surrendered should be lodged at this office at your earliest attention.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 43.

## The Under Secretary for Lands to The Under Secretary for Finance and Trade.

Sir,

Department of Lands, Sydney, 30 August, 1888.

I have the honor to request that you will be good enough to receive, when tendered, the sum of £223 14s., cost of inspection and survey in connection with Messrs. Griffiths & Co.'s application to surrender, by way of exchange, certain lands within the resumed area of Wooroowoolgen Holding No. 292, Eastern Division, and to favour me with a report when such payment shall have been made.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 44.

## Messrs. Griffiths &amp; Co. the The Under Secretary for Lands.

(Occupation 88-7,118.)

Sir,

Sydney, 6 September, 1888.

Wooroowoolgan,  
No. 292,  
Eastern  
Division.

In reply to your letter of 30th August, numbered, as above, we now hand you herewith the deeds for the 6,830 acres of land in the resumed area of the holding named in the margin, which we have agreed to give in exchange for a like quantity of land in the leasehold area of said holding. We hand you herewith a Schedule of the deeds, which you will find is identical with the Schedules attached to our application of 16th June, 1886.

We must now ask you to give us (as per section 75, subsection 11 of the Lands Act of 1884) the assurance by way of exchange, together with the schedule and plan of the lands which we have agreed to accept for those now surrendered, to enable us to go into immediate possession.

As regards the survey fees you claim from us, we hand you herewith our cheques for £120 and £130 14s. making the £223 14s. claimed in all. At the same time we would point out to you that, according to your letter of the 6th September, 1886, and our reply of 12th October, 1886, the limit fixed for survey fees amounted to £120, and we respectfully submit that our cheque for £103 14s. should be returned to us.

Though no provision is made to that effect, we must ask that the deeds of the lands we are to receive in exchange shall be issued free of deed fees, and in the names of William Fanning and Frederick Fanning, or, if possible, in the name of Frederick Fanning only.

The power of attorney authorizing our Mr. Charles Cecil Griffiths to deal with the said lands has been exhibited, and an attested copy filed in the Lands Title Office, Sydney, No. 1,781, on 1st March, 1888.

We have, &amp;c.,

- GRIFFITHS &amp; CO.

Agents for the Proprietors.

Ninety-five deeds for portions named in Schedule received.—E.L., 6/9/88. Cheque, £120, ditto. £103 14s.; total £223 14s.—E.L., 6/9/88. Lodged in Treasury 7th September, 1888.—E.L., 7/9/88.

Mr. M'Kern,—Deeds forwarded for perusal.—E.L., 7/9/88.  
Mr. Landers,—William Fanning and Frederick Fanning are the registered proprietors as tenants in common of the lands comprised in the deeds referred to. Who were the run-holders at the date of application for the exchange herein?—F.M'K., 7/9/88.

The licensees at date of application for exchange (16th June, 1886) were G. R. Griffiths, William Fanning, and Frederick Fanning.—E.L., 14/9/88. Mr. M'Kern. Mr. Landers,—Returned at your verbal request.—F.M'K., 28/9/88.

The enclosed letter from Messrs. Griffiths & Co., forwarding deeds of land proposed to be exchanged, within the Wooroowoolgen Holding, and enclosing cheques amounting to £223 14s., desires that an assurance be given by which they can enter into possession of the land proposed to be granted in lieu of that surrendered, and that the sum of £103 14s. survey fee, being an amount above that which was first estimated to be returned. Also, that the deeds be issued free of deed fees, and in the names of William and Frederick Fanning, or if possible in the name of Frederick Fanning. Receipt of deeds and cheques may be acknowledged.—E.L., 10/9/88.

The department will offer no objection to possession being taken of the land, but no formal authority can be given to do so, except under deeds and in completing this action there will be no unnecessary delay. The request that the deed fees may be remitted will receive consideration. As to whether the deeds can be issued in the names desired is a matter for the Crown Solicitor to advise upon. A reference will be made to him.—C.O., 12/9/88.

Approved.—J.N.B., 12/9/88. Griffiths & Co. informed.—H.L.T., 13/9/88. The lessees have been supplied with tracings of the portions approved to be granted to them (*vide* Inquiry form No. 15,062)—O.W.B., 2/10/88.

The deeds of the lands proposed to be surrendered have been examined by Mr. M'Kern. I would mention before sending the case on for Executive Council approval that the license fee has been paid only at the rate recommended by the Board. Submitted as to whether the rent and license fee fixed by the Minister should not be paid in the first instance.—E.L., 15/10/88.

Inform that the matter must remain in abeyance until the amounts due for rent and license fee are paid.—C.O., 19/10/88. Griffiths & Co. informed.—H.L.T., 19/10/88.

### No. 45.

#### Messrs. Griffiths & Co. to The Under Secretary for Lands.

##### Wooroowoolgen Exchange.

Sir,

10, O'Connell-street, 6 September, 1888.

In connection with the land exchange in Wooroowoolgen Holding, 292, Eastern Division, we desire to have the deeds issued solely in the name of Frederick Fanning, of those lands which it has been agreed shall be given in the leasehold area, because Mr. William Fanning is recently dead, and Mr. Frederick Fanning is one of his executors, as well as a part owner of the property. As suggested by you to-day, Mr. Neville Griffiths interviewed Mr. Williams, the Crown Solicitor, to see how this case can be effected, and we are sending Mr. Williams a copy of the power of attorney we hold, so that he may devise a means of carrying this out if it be possible. We have therefore to request that you will refer to Mr. Williams before you direct the issue of the deeds of the 6,830 acres in the leasehold area.

We have, &c.,

GRIFFITHS & CO.,

Agents for the Proprietors.

Action taken on 88-8,623, Occupation.—E.L., 14/9/88,

## No. 46.

The Under Secretary for Finance and Trade to The Under Secretary for Lands.  
New South Wales.

[No. 26,698.]

RECEIVED from the Under Secretary for Lands the sum of £223 14s. sterling, being survey fee on exchange lands on Woorooloolgen Pastoral Holding, 292, Eastern Division, paid by Messrs. Griffiths & Co.

The Treasury, 7 September, 1888.

W. NEWCOMBE  
(*Pro* Treasurer.)

£223 14s. Entered.—D.T.

## No. 47.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

Department of Lands; Inquiry Branch; No. 15,062; name, Griffiths & Co.; address, 10, O'Connell-street. WILL you kindly supply a tracing of surveys of the 6,830 acres on Woorooloolgen, No. 292, Eastern Division, to be granted to W. and F. Fanning in exchange for the 6,830 acres surrendered by lodgment of deeds on 6th September, 1888.

See Occupation letter 88-8,623, of 13th September, 1888.

GRIFFITHS &amp; CO.

(Per G. N. GRIFFITHS),

Agents for W. and F. Fanning.

Mr. Freeman to see this. Approved.—S.F., 18/9/88. Chief Draughtsman. Mr. Ballhausen has the plans, and can supply all particulars. Mr. Shaw to make tracings, and return to me at an early date. Urgent.—C. J. SAUNDERS, 18/9/88.

The portions referred to are No. 84, parish of Dyraba; Nos. 206, 115, 117, 118, 119, 121, 123, 205, 129, parish of Queebun; Nos. 114, 7, 81, 103, 104, 106, 110, 113, 131, 146, 200, 118, 119, 115, 116, 117, 61, 98, Parish of Bundock; Nos. 71, 69, 82, 98, 99, parish of Woorooloolgen; Nos. 28, 34, 60, 66, 45, 19, 70, parish of Shannon; Nos. 9, 11, 29, 31, 72, 73, 74, 75, 25, 82, parish of Coombell; Nos. 27, 35, 40, 51, parish of Mongogarie; Nos. 23, 20, 21, parish of Busby; No. 52, parish of Mongogarie; Nos. 71, 72, and 73, parish of Shannon. All plans herewith. Some of these portions are within reserves. It would perhaps be advisable not to show these notations on the tracings now asked for, as it is intended that they (the reserves) should be all cancelled at an early date.—O.W.B., 18/9/88. Mr. Shaw.

Tracings herewith (thirty-eight).—M.S., 29/9/88. The Chief Draughtsman. Mr. Ballhausen,—Please check portions, and note original papers with fact that tracings have been supplied, then forward to Correspondence Branch for transmission to Mr. Griffiths—C.J.S., 1/10/88. The accompanying tracings include all the portions proposed to be granted to the lessees of Woorooloolgen Holding, under 75th clause, subsection 2. The original papers (Occupation, 88,8623) have been noted as directed.—O.W.B., 2/10/88. Correspondence Branch. Thirty-eight tracings forwarded, 4/10/88.—H.L.T.

## No. 48.

The Under Secretary for Lands to Messrs. W. and F. Manning.

Gentlemen,

Department of Lands, Sydney, 4 October, 1888.

In compliance with your request of the 18th ultimo, I have the honor to forward, under separate cover, tracings showing the land to be granted to you by way of exchange in connection with the Woorooloolgen Holding.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 49.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

[88-15,062 Inquiry No.]

Sir,

10, O'Connell-street, 5 October, 1888.

We have to acknowledge receipt of your favour of 4th instant, covering thirty-eight tracings of lands granted in exchanges for lands surrendered in connection with the Woorooloolgen Holding, No. 292, Eastern Division, and we find the tracings all in order.

We have, &amp;c.,

GRIFFITHS &amp; CO.,

Agents for the proprietors.

With other papers.—E.L., 31/10/88.

## No. 50.

Office Memorandum.

Extract from Miscellaneous 88-15,495.

\* \* \* \* \*

26 November, 1888.

IN the matter of the exchange of portions in the resumed area of Woorooloolgen Holding for similar area in leasehold half, Occupation, 88-13,620, forwarded under cover of my letter 88-100. It will be desirable that portion 22, of 102 acres, and 32, of 92 acres (parish Nandabah) should be reserved for water supply.

P. R. DONALDSON,

District Surveyor.

Occupation Branch,—Place with papers of Woorooloolgen exchange.—J. T. KEATING (*per* O.W.B.), 16/4/89,

No. 51.

29

No. 51.

Messrs. Griffiths &amp; Co. to The Under Secretary for Lands.

(Occupation, 88-82, 23.)

Sir,

Sydney, 30 November, 1888.

We have to acknowledge the receipt of your favour, of the 19th October, with respect to delay in issue of the deeds of the 6,830 acres, granted to us in exchange for a similar area surrendered. In your letter you state that "the matter must remain in abeyance until the amounts due for rent and license fee are paid." We have to point out that we have duly paid all rents and license fees as appraised by the Local Land Board, and that the question of the power of the Minister to enforce payment in excess of the Local Land Board's determination is *sub judice*, as the appeal in the case *Alison v. Burns* has gone to the Privy Council.

We fail to see that there is any connection between the matters of the rent question and the issue to us of deeds for the lands which the Government have formally contracted to give in exchange for the lands we surrendered, we having completed the contract, surrendered the deeds, and paid the survey fees demanded.

We have, therefore, the honor to reiterate the request contained in our letter, of 6th September, that the deeds required for the 6,830 acres may be issued to us without delay, as promised in your letter to us, of the 13th September.

We have, &amp;c.,

GRIFFITHS &amp; CO.,

Agents for the Proprietors.

Submitted. Attention is directed to memorandum by W.S., of 19th October last, on 88-8,623, Occupation.—E.L., 5/12/88. F.H.W.

To place the Crown and its tenant on equal terms in the matter, it appears necessary that the rents determined by the Minister should be paid, and not only that "appraised by the Local Land Board." Until that is done it does not appear advisable to part with the fee simple of the land proposed to be exchanged. If this view be correct there is no reason to modify the determination already arrived at. *Vide* 88-8,623, Occupation.—W.H., 7/12/88. S.F.

Approved.—J.N.B., 17/12/88. Inform Messrs. Griffiths & Co.—E.L., 18/12/88. Griffiths & Co. informed.—H.L.T., 21/12/88. Messrs. Griffiths & Co. may be reminded that the amounts called for have not been paid.—E.L., 9/2/89. Yes.—F.H.W. (for Under Secretary), 12/2/89. Cor. Br. Griffiths & Co. reminded, 18/2/89.

No. 52.

Question and Answer.

LEGISLATIVE ASSEMBLY, 6 DECEMBER, 1888.

WOOROOWOOLGEN RUN, RICHMOND RIVER.—MR. CROUCH (for Mr. Ewing) asked THE SECRETARY FOR LANDS,—When will the land now being returned to the Crown, in exchange on Wooroowoolgen Run, Richmond River, be open for selection?

MR. BRUNKER answered,—No date can be fixed at present. The matter is now in abeyance pending the consideration of a recent communication from the pastoral lessees.

Mr. Capper.—M.L., 7/12/88. Records for case, register and return.—W.H.C., 8/12/88. Mr. Landers to place with communication referred to in answer given by the Minister.—W.H.C., 8/1/89.

No. 53.

Office Memorandum.

(Extract Miscellaneous, 88-15,495).

THE recommendation may, it is submitted, be adopted except as regards portion 22 of 102 acres, and 32 of 92 acres which are freehold, the deeds of which have not yet been surrendered, although the exchange of these portions for other lands within the leasehold area of Wooroowoolgen Pastoral Holding has been approved.

As it would be necessary to time the formal surrender of the portions in order to provide against the proposed Reserves being defeated, Mr. M'Kern should see these papers, and act accordingly, the plans in the meantime to be noted.

Approved.—J.N.B., 11/12/88.

W.H.  
S.F.

Surrendered lands to be reserved—See 88-16,370, Miscellaneous. Plans noted.—O.W.B., 23/4/89.

No. 54.

The Under Secretary for Lands to Messrs. Griffiths &amp; Co.

Gentlemen,

Department of Lands, Sydney 21 December, 1888.

Referring to your letter of the 30th ultimo, urging the issue of the deeds of grant for the 6,830 areas of land granted to you in exchange for a similar area surrendered in connection with the holding named in the margin, I have the honor to inform you that after carefully considering the facts of the case, the Secretary for Lands is of opinion that there is no reason to modify the determination already arrived at.

Wooroowoolgen.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

No. 55.

No. 55.

## Office Memorandum.

Gentlemen,

Department of Lands, Sydney, 11 March, 1889.

In reply to your letter of the 19th ultimo, I have the honor to inform you that your communication of the 30th November last, was replied to in explicit terms on the 20th December last, and until the terms of that reply be complied with, no further action can be taken in the proposed exchange.

I have, &amp;c.,

H. CURRY

(For the Under Secretary).

No. 59.

Mr. E. N. Griffiths to The Secretary for Lands.

Wooroowoolgen Holding, 292, Eastern Division, exchange of lands.

Dear Sir,

10, O'Connell-street, Sydney, 13 May, 1889.

I, as one of the representatives of the owners of Wooroowoolgen, ask you to look into this matter, about which I personally saw you last week. If you will call for the papers you will find as follows:—

1. Application to exchange 6,830 acres freehold, in terms of sub-section 2 of clause 75 of Land Act of 1884 was formally lodged on the 16th June, 1885.
2. Land Office reply, 86-2,441, of September 6, 1886, agreeing on conditions.
3. Owner's acceptance of conditions, and various letters about cost of survey, &c.
4. Land Office letter 87-909, of 2nd May, 1887, agreeing to exchange of 5,380 acres, and the balance under modification.
5. Owner's acceptance of modifications.
6. Land Office letter 87-5,424, about modifications.
7. Land Office letter 87-8,657, refusing permission to ringbark the 5,380 acres granted (part of the 6,830 acres exchanged).
8. Land Office letter 87-11,146, of 10/10/87, about expedition of exchanges.  
Land Office letter 17-11,802 of 3/11/87, about expedition of exchanges.  
Land Office letter, 87-13,954, of 21/12/87, about expedition of exchanges.
9. Land Office letter 88-4,686, of 19/5/88, about modification of lands to be exchanged.
10. Owner's letter of 2/7/88, asking formal completion of exchanges agreed to.
11. Land Office letter 88-6,004, of 9th July, 1888, saying only delay in completion of exchanges is surveyor's plan of last portion, and no delay will occur.
12. Land Office letter 88-7,118, of 30th August, 1888, calling upon owners to pay the survey fees, £223 14s., and to lodge deeds of surrendered lands.
13. Owners' letter 6/9/88, lodging deeds of 6,830 acres, surrendered with survey fees, £223 14s., and requesting formal authority to take possession.
14. Land Office letter 88-8,623, of 13th September, 1888, acknowledging receipt of deeds of 6,830 acres surrendered, and survey fees. Offers no objection to owners taking possession of lands. About deed fees, &c., &c.

15.

15. Lodgment of owners (by letter of G. N. Griffiths) to Crown Solicitor, on 14/9/88, of representatives of owners' power of attorney.
16. Owners' application, No. 15,062, of 18/9/88, for plans of lands to be granted in exchange for their 6,830 acres surrendered.
17. Land Office letter 88-15,062, of October 4th, 1888, forwarding tracings of lands to be granted.

The owners have gone into possession of the lands agreed to be granted in exchange for those surrendered, have ringbarked, fenced, and improved (several expensive dairies), and I now (for owners) ask that there may be no further delay on the part of the Government in carrying out its contract by issuing the deeds.

There are letters subsequent to October, 1888, with reference to excess rents, the owners having paid the Local Land Board's appraisements, and declining to pay the *fancy rents* put upon the property until the Privy Council has decided if these are legally imposed by a late Minister for Lands.

Yours, &c.,

E. N. GRIFFITHS.

The exchange of certain lands on Wooroowoolgen pastoral holding are held in abeyance pending the payment in full of the rent and license fee. The lessees have continued to pay the rent and license fee at the rates recommended by the Local Land Board, and dispute the power of the Minister to raise the rates. In the case of *Alison v. Burns*, when the Minister's power was disputed, the Supreme Court ruled that the Minister had such power. The plaintiff has appealed, and the case is now before the Privy Council.—E.L., 13/5/89.

Submitted, that the exchange be not proceeded with until all arrears be paid at the rate fixed by the Minister.—S.F., 13/5/89.

### No. 60.

Messrs. Griffiths & Co. to The Under Secretary for Lands.

(Occupation, 89-3,274.)

Sir,

10, O'Connell-street, 29 May, 1889.

Referring to your communication of 11th March, numbered as above, it has occurred to us that the difficulties in way of settlement of the exchange of lands may be got over by our undertaking to pay the excess rents now in dispute, pending the appeal to the Privy Council in the case of *Alison v. Burns* should such appeal be decided in favour of the Colonial Treasurer.

We, therefore now, on behalf of the owners of Wooroowoolgen Holding, and acting with their full authority, agree that in consideration of your taking the necessary steps to forward the completion of the land exchanges by issue of deeds for the 6,830 acres of land which your Department has agreed to give the owners of Wooroowoolgen in exchange for the 6,830 acres surrendered, &c., we will become responsible to your Department for the due payment of such sum as may be legally due and payable.

As we have gone into possession of the lands granted in exchange for those surrendered, and have erected dairies on the same, and as we have given up the deeds of the land surrendered, we are in an invidious position, the selectors now clamouring to have the surrendered lands thrown open on the resumed area which we have had to vacate.

We have, &c.,

GRIFFITHS & CO.,

Agents for the Proprietors.

In view of this guarantee it is submitted that the exchange be now carried out with all possible despatch.—S.F., 1/6/89. Approved.—J.N.B., 3/6/89.

### No. 61.

Minute for the Executive Council.

Department of Lands, Sydney, 25 June, 1889.

*Subject*:—Surrender by way of exchange of certain lands under the 75th section of the Crown Lands Act of 1884.

It is recommended to His Excellency the Governor and the Executive Council that the surrender of the land specified in the enclosed papers as being situated within the resumed area No. 222, Eastern Division, be accepted, and that an equal area in leasehold area No. 292 be granted in lieu thereof.

JAMES N. BRUNKER.

His Excellency the Governor and the Executive Council.

Papers 89-7,001, Occupation. The Executive Council advise that the surrender by way of exchange of the lands referred to be approved in terms of the Act specified.—ALEX. C. BUDGE, Clerk of the Council. Approved.—CARRINGTON, 27/6/89. Minute 89-38, 27/6/89. Confirmed, 4/7/89. Mr. M'Kern,—Attention is invited to approval on 88-15,495, Miscellaneous, when dealing with exchange.—E.L., 14/8/89.

Mr. Landers,—One of the registered proprietors of the lands to be surrendered is dead, and therefore the parties interested are not in a position to surrender until the representatives of the deceased have been registered proprietors by transmission. Messrs. Creagh and Williams (whom I have seen in the matter) are taking the necessary action to that end, and they will communicate with the Department when the parties are in a position to surrender.—F.M'K., 16/8/89.

## No. 1.

Mr. A. Stafford to The Colonial Treasurer.

Dear Sir,

Narrabri, 31 January, 1888.

Enclose please find post office order for £10, in payment of rent of special lease, now applied for to the Local Land Board at Tamworth.

Yours, &amp;c.,

ALBERT STAFFORD.

£10 Suspense Account, 3/2/88.

To be requested to furnish further particulars regarding this remittance, which has meanwhile been placed to Suspense Account. If intended (as it appears to be) for a deposit on application for special lease, the purpose for which it is required and the locality should be stated.—W.N., Revenue Branch, 3/2/88. Return.

Done.—M.B.

## No. 2.

Mr. A. Stafford to The Colonial Treasurer.

Sir,

Narrabri, 6 February, 1888.

Referring to yours No. 297 Misc., the £10 enclosed in my letter of 3rd instant was intended as a deposit on application for special lease of 320 acres, parish of Derrisdee, county of Nandewar, beginning at the south-west corner of George Carter's conditional purchase 76-72; thence by a line running east about 1¼ mile; thence by a line running south about three-quarters of a mile; thence west to the Namoi; and by that river to the point of commencement. Such lease is to be applied for, for irrigation works and purposes.

Yours, &amp;c.,

ALBERT STAFFORD.

The sum of £10 herein referred to was received and placed to Suspense Account on 3/2/88.—F.K., B.C., Treasury, 10/2/88. The Under Secretary for Lands.—C.H.C. 88-1,119 M. herewith.—W.N. F.K. (for Under Secretary). The Chairman, Local Land Board, Tamworth, B.C., February, 1888.

No. 3.

## No. 3.

Mr. W. D. Wright to The Chairman, Local Land Board, Tamworth.

Sir,

Narrabri, 7 February, 1888.

I have the honor to herewith enclose an application for a special lease of 320 acres of land for irrigation purposes, as agent for Mr. Albert Stafford.

In this case I would respectfully ask that, if possible, this case may be considered by the Land Board at the coming sitting this month. I may add that the land we are now applying for is not within any leasehold or resumed area, therefore I take it that no notices will be required to be sent, except to ourselves. Our reasons for wishing this case considered at once is that Mr. Stafford wishes to get to work at irrigation as soon as possible.

Yours, &c.,

W. DAVIS WRIGHT.

The land applied for is pencil marked on enclosed map.—W.D.W.

[Enclosures.]

Suspense Account, Narrabri, New South Wales.

(No. 3,141.)

The Treasury, 3 February, 1888.

RECEIVED from Albert Stafford the sum of £10 sterling, for deposit on application for special lease. Particulars not stated.

Awaiting disposal of application.

£10.

W. NEWCOMBE

(Pro Treasurer).

[Crown Lands Act of 1884—Part IV, sections 89, 90, or 92.]

Application for Special Lease.

I HEREBY apply for a special lease for irrigation works purposes of the land hereunder described, and for which I am willing to pay an annual rental of £10. Enclosed is a receipt showing that the sum of £10 has been paid to the Colonial Treasurer as a deposit towards cost of survey and report.

Dated at Narrabri, this 2nd day of February, 1888.

ALBERT STAFFORD.

To the Local Land Board at Narrabri.

Description.

Land District of Narrabri, county of Nandewar, parish of Therribry, 320 acres : Beginning at the south-west corner of George Carter's conditional purchase 76-72; thence by a line running east about  $1\frac{1}{4}$  mile; thence by a line running south about three-quarters of a mile; thence west to the Namoi River; and by that river, to the point of commencement.

N. 958-1,774, portion No. 52, of 10 acres, parish of Therribry, county of Nandewar. Note special lease register.—JNO. M'DONALD, 10/2/88. District Surveyor for report. Chairman, 10/2/88. Notice to applicant and Mr. Wright. Case will be heard at Narrabri on 20th instant, 10/2/88. Report 88-87.—A.D., 14/2/88.

## No. 4.

Mr. District-Surveyor Dewhurst to The Chairman, Local Land Board, Tamworth.

Sir,

District Survey Office, Tamworth, 14 February, 1888.

With reference to an application made by Albert Stafford for a special lease of reserve No. 7 from sale, and 52 from lease for irrigation purposes, I regret having to report that it does not appear desirable to entertain his request at present, on the following grounds:—

1st. That it has been reserved from lease for the service of travellers, and as a general watering place.

2nd. That it has been recommended as a reserve for travelling stock, and will be required for that purpose till Terriara bridge is re-built.

It is my pleasing duty to add that a sum of £2,000 has been recommended and placed on the Estimates for the bridge referred to, and on its completion the case now under review may appear under a more favourable aspect.

I have, &c.,

A. DEWHUST.

Applicant and Mr. Wright informed, 10/2/88.

Messrs. Stafford and Wright appeared in the Court-house. The Narrabri Board recommend that a special lease be granted of the land applied for, at an annual rental of £16 for a period of fifteen years. Two of the Board members have been acquainted with this reserve for the past fifteen years, and they are in a position to say that it is not necessary for the travelling public.—JNO. M'DONALD, Chairman, Narrabri, 20/2/88.

District Surveyor to note, 23/2/88. Noted.—W. H. HALL, 24/2/88. The Chairman. The Under Secretary. The law only provides for leasing land for irrigation works. This application is for lease of land to be irrigated. If applicant will accept a lease of say 10 acres, upon which to erect irrigation works, he may have it.—T.G., 28/2/88. Mr. Stafford and Hon. J. Inglis.—H.L.T., 28/2/88. End of Manl. special.

[Enclosure.]

This deponent, *Albert Stafford*, of Narrabri, in the Colony of New South Wales, merchant, being duly sworn, maketh oath, and saith as follows (*By Mr. Wright, Agent*):—I am the applicant for 320 acres special lease now under inquiry; I require the lease for irrigation purposes; from the travelling stock reserve to the reserve I apply for access is gained by a 1-chain road; the only access is by 1-chain roads: I have twelve months experience in this place; I have never seen any travellers, with or without stock, use this reserve 206; the travelling stock reserve has also another large river frontage; the roads are not fenced at all; they go through the paddock; not fenced on either side; the travelling stock reserve has a large water frontage not far off this reserve; the travelling stock reserve has a connection with the river by a 1-chain road south about a couple of miles.

ALBERT STAFFORD.

Sworn by this deponent, Albert Stafford, on this 20th }  
February, 1888, at Narrabri, before us,—

JNO. M'DONALD, Chairman.  
C. A. ROSS, } Members of this Board.  
J. RIDDLE, }

Called

Called by applicant :—

THIS deponent, *Arthur Copeman*, of Narrabri, in the Colony of New South Wales, Stock Inspector, being duly sworn, maketh oath, and saith as follows :—I was until recently Stock Inspector for the Narrabri Sheep District *By Mr. Wright* :—I know the water reserve in question ; I was for twelve years Stock Inspector here ; I have never known this reserve to be used by travelling stock or the travelling public ; I do not think the reserve will be required by travelling stock ; it is rarely that stock travel on that side of the river ; and if the stock route be made from Boggabri to Barraba, direct east, it will not touch this place, and a stock route from Narrabri to Barraba will keep to the north, and not come near this reserve ; the access from the travelling stock reserve is by a 1-chain road, which is not sufficient for stock ; I do not think it would be necessary for stock going up the river to come on to this reserve to the river ; there is sufficient water on travelling stock reserves 1,056 and 1,530 without going on to this reserve ; I do not think water reserve No. 206 is required by the travelling public ; between portions 16 and 20 is a 1-chain road from the travelling stock reserve to the river ; it is only a short road ; a short distance south of this last-named road is a large river frontage ; I do not think the reserve 206 will be wanted, even if the Tarriara bridge be not reconstructed ; except in case of flood, stock will not travel this road ; there are sufficient feeding grounds and watering places without it.

ARTHUR P. COPEMAN.

Sworn by this deponent, Arthur P. Copeman, on this 20th }  
February, 1888, at Narrabri, before us,—

JNO. M'DONALD, Chairman,  
C. A. ROSS, } Members of the Board.  
J. RIDDLE, }

Called by applicant :—

THIS deponent, *Samuel Goldman*, of Boggabri, in the Colony of New South Wales, selector, being duly sworn, maketh oath, and saith as follows (*By Mr. Wright*) :—I lived on Maule's Creek for about twenty years ; I know there is a reserve at water reserve 206 ; there is a stock route there ; I have never known any one go there except a man on horseback camping there ; have not known any travelling stock to use it ; I do not think that the water reserve 206 is necessary for travelling stock ; it does not join the travelling stock reserve, except by a 1-chain road, but the road is not fenced off.

SAMUEL GOLDMAN.

### No. 5.

The Honorable J. Inglis, M.P. to The Under Secretary for Lands.

Dear Mr. Oliver,

22 February, 1888.

I must trouble you again, but hope your good nature is equal to the strain.

*Re* Albert Stafford, Narrabri, he writes :—When in Sydney last you kindly introduced me to the Under Secretary for Lands, *re* a reserve I wished cancelled. He advised me to apply to the Local Land Board ; I therefore applied for 320 acres as a special lease for irrigation purposes, and this was granted me to day (20th), by the Land Board, and now all I want is the confirmation of the Minister. Stafford can do nothing till the land is *Gazetted*. He has an engine and plant under offer for a week, and is very anxious to know whether he can close with the offer or not. Can I wire him that there is no doubt the lease will be approved of, and will you kindly oblige me by noting the case and putting it through as quickly as possible, and I will be much obliged.

Yours, &c.,

JAS. INGLIS.

What has been done in this matter.—C.O., 23/3/88. Mr. De Low. The special lease papers have not yet been received from the Board.—E.L., 23/2/88. Telegraph and inquire if an application has been received, and if so, what action has been taken.—C.O., 23/2/88. Ask for reply to-day. Wire, 23/2/88. 508.

### No. 6.

Telegram from The Under Secretary for Lands to The Chairman, Local Land Board, Tamworth.

Tamworth, 23 February, 1888.

PLEASE state if special lease application has been received from Albert Stafford for irrigation purposes, if so, what action has been taken. Reply to-day.

CHARLES OLIVER,  
Under Secretary.

### No. 7.

Telegram from The Chairman, Land Board, Tamworth to The Under Secretary for Lands.

Sydney, 23 February, 1888.

BOARD recommend Albert Stafford be granted special lease for irrigation purposes for fifteen years, £16 per annum—papers first post.

WM. ARDILL,  
Tamworth Board.

### No. 8.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 28 February, 1888.

With reference to your special lease application noted in the margin, which formed the subject of inquiry before the Local Land Board at Narrabri, on the 20th instant, I am directed by the Secretary for Lands to inform you that although the Board's report is favourable the law only provides for leasing land for irrigation works, and that if you will accept a lease, of say 10 acres, upon which to erect such works, it will be granted.

I have, &c.,

CHARLES OLIVER,  
Under Secretary.

Special lease,  
88-1, for  
irrigation  
purposes, of 320  
acres, parish  
Therribry,  
county  
Nandewar.

No. 9.

## No. 9.

The Under Secretary for Lands to The Hon. Jas. Inglis, M.P.

Sir,

Department of Lands, Sydney, 28 February, 1888.

In reply to your letter of the 22nd instant, respecting the special lease application noted in the margin, I am directed by the Secretary for Lands to inform you that, although the Local Land Board's report is favourable, the law only provides for leasing land for irrigation works, whereas Mr. Stafford's application is for land to be irrigated.

I may add that Mr. Stafford has this day been so advised; also that if he will accept a lease of (say) 10 acres, upon which to erect irrigation works, it will be granted.

Special lease, 88-1, for irrigation purposes, of 320 acres, parish Therribry, county Nandewar, by Albert Stafford, Narrabri.

I have, &c.,  
CHARLES OLIVER,  
Under Secretary.

## No. 10.

Mr. A. Stafford to The Hon. Jas. Inglis, M.P.

My dear Mr. Inglis,

Narrabri, 12 March, 1888.

Thanks for your letter *re* land. I made a further inspection of the ground since, and find that I can do with 10 acres, provided it is given me so that I can run a drain to carry the water across on to my own land. Having purchased the necessary machinery I am anxious to make use of it, and as I cannot get a lease of the land I wanted, which is naturally suited for the purpose, I must accept the 10 acres offered, provided it is given me so that I can run the water on to my land adjoining. Of course it would be quite useless me erecting machinery, at very great expense, to irrigate 10 acres only. I enclose a map and description of the piece I would like—in fact it is the only piece I can erect the pumping machinery upon, as most of the other land is flooded in a wet season. Under the circumstances I think I am not too well treated, considering the Land Board recommended me 320 acres, and on the strength of that I made arrangements for beginning the work and purchased machinery. Fortunately I had not so far run the risk of prosecution by taking possession of the land.

The portion of land where the piece applied for joins the river is the highest piece on the river, and this is what I require to throw the water on to my land, it slopes away from this gradually to the piece I want to irrigate.

I am sorry to trouble you so much in the matter, but as you have so kindly taken the matter in hand, I have no doubt you will see it through for me.

I shall be glad to have it forwarded as soon as possible, if I am not troubling you too much.

Yours, &c.,  
ALBERT STAFFORD.

P.S.—Will you let me know as soon as possible if you are successful.

My dear Mr. Oliver.—This is nearly the last occasion on which I will have to trouble you with Mr. Stafford's affairs. He is an ingenious, persevering fellow—the right stamp of settler, and deserves success. I hope this application can be granted, and will take it kind if you will let me know.—Yours, &c., J. INGLIS.

Submitted.—C.O., 13/3/88.

The lease for the reduced area of 10 acres may issue, but in measuring it, care must be taken that it does not interfere with the site of, or approaches to, the proposed bridge, referred to in the District Surveyor's report herewith.—T.G., 13/3/88.

Correspondence Branch,—Inform Mr. Inglis. Mr. Inglis, 21/3/88.

Urgent. Forwarded to the District Surveyor for measurement of area proposed to be leased in accordance with Ministerial decision of 16th instant. State cost.—S.F. (for Under Secretary), B.C., 26/3/88.

Mr. Licensed-Surveyor Loder for measurement accordingly.—W. H. HALL (*pro* District Surveyor), 28/3/88. Returned to the District Surveyor for re-issue to Mr. Licensed-Surveyor Rigaut, who has promised to carry out the work, as he has very little in hand.—GEORGE LODER, 9/6/88. Would Mr. Hall enclose rough sketch No. 14, parish Therribry, for Mr. Rigaut.—G.L. Transferred to Mr. Licensed-Surveyor Rigaut, whose attention is invited to memo. dated 3rd May, respecting access road.—W. H. HALL (*pro* District Surveyor), 11/6/88. District Surveyor's Office, Tamworth, 15/6/88.—Instruction No. 20. Returned in letter No. 88-25, dated 1st August, 1888.—P. RIGAUT.

## [Enclosure.]

DESCRIPTION of 10 acres, applied for as a special lease for irrigation works, parish of Therribry, county of Nandewar, by Albert Stafford.

Portion of water reserve No. 206: Commencing at a point about 25 chains west from the south-east corner of George Carter's conditional purchase 75-62, and from this point directly south to the Namoi River, this line to form the east boundary of the portion applied for, and to be of sufficient width to include 10 acres. The portion applied for is between the red lines on map attached.

## No. 11.

The Under Secretary for Lands to The Honorable Jas. Inglis, M.P.

Sir,

Department of Lands, Sydney, 21 March, 1888.

In reply to the letter of the 12th instant, presented by you from Mr. Albert Stafford, requesting that his application for a special lease for irrigation works in the parish of Therribry, county of Nandewar, be proceeded with for 10 acres, I have the honor to inform you that the Secretary for Lands has approved of the lease issuing for that area, viz., 10 acres, but has directed that in measuring the land care will be taken that it does not interfere with the site of, or approaches to, the proposed bridge over the Namoi River.

I have, &c.,  
CHARLES OLIVER,  
Under Secretary.

No. 12.

## No. 12.

Mr. W. F. Jaques to The Secretary for Lands.

Sir,

Therribry, via Boggabri, 17 April, 1888.

I hereby make application for return to lease of reserve from lease No. 52, of 9th March, 1858, Land District of Narrabri, parish of Therribry, or such portion of it as is contained within the boundary of pastoral lease No. 97, as shown in plan herewith.

I submit the following grounds in support of the application:—

1. The reserve is identical with reserve No. 7 from sale.
2. That portion of it which is on Maule's Creek, 214 acres, forms part of a travelling stock reserve.
3. Returning this portion to lease would not interfere with the travelling stock reserve.
4. The portion on the Namoi River, 305 acres, is portion of water reserve No. 206, of 10th April, 1867.
5. Experience has shown that travelling stock do not use this water reserve, as it is in a rather inaccessible position, being some distance from the road, with only a narrow lane between purchased land leading to it.
6. At present no revenue is derived from it, and I am willing to pay rent for it.
7. As it is the only access to permanent water for the Crown lands of the lease, it should belong to the leasehold.
8. Should it ever be required for public purposes it could, if now returned to lease, be withdrawn when required. Meanwhile a rent would be received for it.
9. The land referred to lies within the boundaries of the pastoral holding.

Leaving these facts to your consideration, I feel sure that you will approve of this application.

I have, &c.,

W. F. JAQUES,

As Agent for The Corporation of the Bank of Australasia.

Referred for the report of the District Surveyor at Tamworth.—S.F., B.C., 25/4/88. Report, 88-70.—A. DEWHURST, District Surveyor, 3/5/88.

## No. 13.

Mr. District-Surveyor Dewhurst to Mr. Licensed-Surveyor Loder.

District Survey Office, 3 May, 1888.

THE following is forwarded for the information of Mr. Licensed-Surveyor Loder:—

In connection with instruction No. 15 of 28th March, 1888, A. Stafford's special lease of 10 acres, parish of Therribry, county of Nandewar, Mr. Loder is directed to leave a chain road of access over suitable ground from the road surveyed by Licensed-Surveyor Anderson to the remaining portion of the reserve fronting the Namoi River.

A. DEWHURST,  
District Surveyor.

## No. 14.

Mr. District-Surveyor Dewhurst to The Under Secretary for Lands.

(No. 88-70.)

Sir,

District Survey Office, Tamworth, 3 May, 1888.

With reference to an application made by W. F. Jaques, for the Bank of Australasia, that reserve No. 52, of the 9th March, 1858, be returned to the lease, I have the honor to report that, under existing circumstances, such a course appears desirable.

I may, however, point out that a special lease of 10 acres has been approved along the eastern boundary of this reserve in favour of A. Stafford, which has been sent on for measurement.

I enclose a tracing showing the reserve referred to, and apparently the area approved as a special lease.

I have, &c.,

A. DEWHURST,

District Surveyor.

Submitted as to the advisableness of cancellation of the reserve from lease with a view to its being leased, exclusive of that area of 10 acres granted as a special lease.—E.L., 19/5/88.

Submitted that so much of the reserve from lease as is not included within the boundaries of the special lease be cancelled from reservation, and added to the pastoral holding within which it may be situate.—S.F., 31/5/88.

Approved.—T.G., 31/5/88. Misc. Branch. Mr. McLean,—Please supply description.—J.O'D., (pro R. H. De Low), 7/6/88. Mr. Ballhausen,—Description now enclosed.—C.W.F. (for R.M.), 29/6/88. Mr. De Low,—Executive Council minute.

## [Enclosure.]

Reserve from lease cancelled.

It is hereby notified for general information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to direct that, from and after the above date, the reserve from lease particularised in schedule hereunto appended shall be cancelled.

Central Division, land district of Narrabri, within the boundaries of the leasehold area of Therribri pastoral holding, No. 97, notified 11th July, 1885.

Part of reserve No. 52 from lease, county of Nandewar, parish of Therribry, area about 1,000 acres. That part of the reserve mentioned, notified 9th March, 1858, within the following boundaries: Commencing on the right bank of the Namoi River, at the north-west corner of portion 14; and bounded thence by a north boundary of that portion bearing easterly, and by a western boundary of that portion and the east boundary of reserve 52 from lease northerly to Maule's Creek; thence by the left bank of that creek downwards, and the right bank of the Namoi River upwards, to the point of commencement, but exclusive of A. Stafford's special lease of 10 acres for irrigation works.

Note.—Part of this area is included in G. Carter's conditional purchase portion 19, Occ. 88-4,143.

No. 15.

## No. 15.

## Office Memorandum.

APPLICATION was made by Stafford for 320 acres, and lease for that area was recommended by Land Board. The Minister, however, decided that a lease for irrigation could not be legally granted, but approved of an area of 10 acres being granted for irrigation works, such area to be measured in such a position as not to interfere with the approach to the bridge in the locality. The papers in the case 88-2,692 Occ. have been forwarded to the District Surveyor, Tamworth, for measurement on 26th March, 1888, and records show that they have not been since returned. Mr. Stafford now wishes that the area be increased to the maximum area of 320 acres or 100 acres, and states that the land has not been surveyed.

Telegram to the District Surveyor, and inquire when survey will be effected.

C.O., 11/6/88.

Wire, 11/6/88. 1,214. 88-2,692, Papers still with the District Surveyor.—W.W., 15/8/88.

## No. 16.

Telegram from the Under Secretary for Lands to The District Surveyor, Tamworth.

Tamworth, 11 June, 1888.

PLEASE state when survey of A. Stafford's special lease for irrigation works will be effected. Papers 88-2692 Occ. to you 26 March last.

C. OLIVER,  
Under Secretary.

## No. 17.

Telegram from The District Surveyor, Tamworth to The Under Secretary for Lands.

Sydney, 12 June, 1888.

Re Stafford's special lease. Instruction transferred to Surveyor Rigaut. Will instruct him as urgent, and transmit papers within a week after receipt.

W. H. HALL  
(Pro District Surveyor).

## No. 18.

The District Surveyor, Tamworth to Mr. Licensed-Surveyor Rigaut.

Sir,

Narrabri, 15 June, 1888.

As the case enclosed has been the subject of a telegram from the Under Secretary for Lands, Mr. Rigaut is requested to make a special effort to have the survey carried out as speedily as possible.

W. H. HALL  
(Pro District Surveyor).

## No. 19.

## Executive Council Minute.

Department of Lands, Sydney, 16 July, 1888.

Recommending the cancellation of reserves from lease.

It is recommended to His Excellency the Governor and the Executive Council that the temporary reservation from lease of the portions of land within described and particularised in the annexed schedule, be now cancelled under the provisions of the 39th section of the Crown Lands Act of 1889.

HENRY PARKES.

## Schedule.

Registration No. Occ. 88-4,143; No. of reserve, part of 52; county of Nandewar; parish of Therribry; area to be cancelled, about 1,000 acres; date of notification of reserve, 9th March, 1858.

The Executive Council advise that the recommendation herein set forth be approved, and the necessary notices issued.—ALEX. C. BUDGE, Clerk of the Council. Minute 88-33, 17/7/88.—Approved.—17/7/88, CARRINGTON. Confirmed.—23/7/88. Executive Council Minute Gazetted, and Land Agent informed.—18/8/88. Inform applicant.—J.O.D., pro R. H. DE LOW., 20/8/88. Correspondence Branch. W. F. JAQUES, Agent, Bank of Australasia, 23/8/8.

## No. 20.

Mr. Licensed-Surveyor Rigaut to The District Surveyor, Tamworth.

Sir,

Narrabri, 1 August, 1888.

I have the honor to transmit herewith the plan of a portion of land containing 10 acres, within the Therribry Run, numbered 52, in the parish of Therribry, in the county of Nandewar, applied for as an irrigation lease by Albert Stafford, and measured by me on the 19th day of June, 1888, in compliance with instructions No. 20, dated 15 June, 1888, issued by the District Surveyor at Tamworth.

There are no improvements on the land. All to the north of the swamp is flooded country, but between the swamp and river the land is high and dry. Soil gravelly, and timbered with box, gum, and apple.

I have, &c.,

P. RIGAUT.  
Examined,

Examined, and charted on parish map.—R. P. SMITH, 21/8/88. Plan approved.—A. DEWHURST, 21 August, 1888. Dealt with in District Survey Office. \*Tracings and descriptions for the revocation of the area from reserve 7 from sale. Water reserve 206 from sale and reserve 52 from lease; and the notification of the area as a reserve from sale and lease for special lease. Enclosed the cost of surveys, £6 6s. 7d. These papers should now be forwarded to the Under Secretary for further necessary action.—A. DEWHURST, District Surveyor, 21/8/88.

[Enclosures.]

REVOCATION OF TEMPORARY RESERVE.

Central division, land district of Narrabri, within the leasehold area of Therribry holding No. 97, notified 11th July, 1882.

\*Appendix B County of Nandewar, parish of Therribry, area 10½ acres. That part of reserve 7 from sale, notified 24th December, 1861, included within the boundaries of measured portion No. 52, shown on \*plan catalogued N. 958-1,774. District Survey Office, Tamworth.

REVOCATION OF TEMPORARY RESERVE.

Central division, land district of Narrabri, within the leasehold area of Therribry holding No. 97, notified 11th July, 1885.

\*Appendix C. County of Nandewar, parish of Therribry, area 10½ acres. That part of water reserve No. 206, notified 10th April, 1867, included within the boundaries of measured portion No. 52, shown on \*plan catalogued N. 958-1,1774. District Survey Office, Tamworth.

REVOCATION OF TEMPORARY RESERVE.

Central division, land district of Narrabri, within the leasehold area of Therribry holding No. 97, notified 11th July, 1885.

\*Appendix D. County of Nandewar, parish of Therribry, area 10½ acres. R.P.S., 20th August, 1888. G.A.D., 20th August, 1888.

RESERVE FROM SALE AND LEASE FOR SPECIAL LEASE.

Central division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

\*Appendix E. County of Nandewar, parish of Therribry, containing an area of about 10½ acres. The Crown lands within the following boundaries:—Measured portion No. 52, shown on \*plan catalogued N. 958-1,774. District Survey Office, Tamworth.

No. 21.

Messrs. Hassall and Dowel to The Under Secretary for Lands.

Dear Sir,

Post Office Chambers, Pitt-street, Sydney, 14 August, 1888.

We have the honor to invite your attention to the application made on the 20th February last, by Mr. Albert Stafford, for a special lease of 320 acres in the parish of Durrisdee, county of Nandewar, Land District of Narrabri, under the 90th section of the Act, for irrigation purposes.

The application was approved by the Board, and a lease granted for the full area applied for, at an annual rental of £16 for a period of fifteen years, subject to the approval of the Minister, but when submitted to him he would only grant a lease of 10 acres, giving as a reason that the Act only provides for leasing land for irrigation works, and not for land to be irrigated.

This reasoning is surely contrary to the spirit of the Act, as under section 90 the Act allows 320 acres for irrigation works, an area that no one could possibly use for that purpose alone; and, again, the 92nd section provides for areas 2 chains wide for works only, so that it was evidently the intention under the Act to grant the larger areas for irrigation, whether for the purpose of erecting works or for cultivation.

The area applied for is portion of water reserve No. 206, which was reserved in 1858, thirty years ago, and has never been in the leasehold of any station at any time, consequently no injury could be inflicted upon anyone by granting the lease to the present applicant, Mr. Stafford, who accepted a lease of 10 acres 2 chains in width and about 60 chains in depth, thinking that he could erect works thereon and irrigate his land adjoining, but since survey finds it would be impossible to do so, except at great expense, as the water would have to be forced up hill for a considerable distance.

If the lease as originally recommended by the Board can be granted, it is Mr. Stafford's intention to irrigate the whole of the land, and I need not point out how desirable it is in the interests of humanity that such enterprises should be encouraged as much as possible in the dry belts of country in the interior, and it would certainly be good policy for any administration to assist instead of retarding such objects.

On the accompanying map the red lines show the position of the 10-acre lease already granted, and the red dotted lines show the land originally applied for, whilst the blue lines show the land owned by the applicant, the whole showing that the lease applied for is the only land near to permanent water, and that it is also surrounded by other properties, thereby preventing any access to it, without special provision being made for that purpose.

We, therefore, with every confidence, ask that Mr. Stafford's application may be favourably considered, and the lease granted for the purpose applied for, taking into consideration all the circumstances of the case.

We are, &c.,

HASSALL & DOWEL.

Urgent; submit with papers please—S.F., 14/8/88.

It is urged that the whole area applied for (320 acres) may be granted for the purpose of irrigation. This purpose is now being declared a purpose under the Act. A lease of 10 acres has already been approved for irrigation works, and the papers are with the District Surveyor for survey.—E.L., 15/8/88.

Remind the District Surveyor.—S.F., 15/8/88. District Surveyor, Tamworth, 16/8/88.

## No. 22.

The Under Secretary for Lands to The District Surveyor, Tamworth.

Sir,

Department of Lands, Sydney, 16 August, 1888.

I have the honor to request that you will be good enough to expedite your action on papers numbered 88-2,692 Occupation, relating to A. Stafford's special lease application for irrigation purposes, parish Durrisdee, county Nandewar, forwarded to your address on the 25th March, 1888.

I have, &c.,

F. H. WILSON

(For the Under Secretary).

Mr. Ranclaud,—To enter to Mr. Smith for immediate action.—W.H.H., 18/8/88. The case referred to has this day been transmitted to the head office for further necessary action, the papers being registered L.B. 88-4,685.—A. DEWHURST, District Surveyor, 20/8/88.

## No. 23.

The Under Secretary for Lands to Mr. W. F. Jaques.

Sir,

Department of Lands, Sydney, 23 August, 1888.

With reference to your letter of the 17th April last, applying for the cancellation of reserve from lease No. 52, parish of Therribry, county of Nandewar, or of such of it as is contained within the boundaries of Therribry pastoral holding, lease No. 97, I have the honor to invite your attention to notice in the *Government Gazette* of the 18th instant, cancelling 1,000 acres of the reserve lying within the holding in question.

I have, &c.,

F. H. WILSON

(For the Under Secretary).

## No. 24.

Mr. A. Stafford to The Honorable Jas. Inglis, M.P.

SPECIAL lease for irrigation granted by the Land Board, Narrabri, in February last, of 320 acres, parish of Durrisdee, county of Nandewar. This area was reduced by the Minister from 320 acres to 10 acres, on the ground that under the 90th section the Act only allowed areas of 320 acres for irrigation works, and not to be irrigated.

In reply to this it is my intention to erect all the necessary works and irrigate the balance of the land applied for. It would be impossible to erect works only on the whole of 320 acres, consequently it could not have been intended by the Act to grant such large areas for works only.

The 10 acres which were granted to me cut off the balance of the amount of the area applied for from the reserve, and consequently it is almost useless to the lessee of the run upon whose leasehold area it is.

I beg to apply for the extension by the Minister of my lease, on the following grounds:—

1. That Mr. Garrett informed me that he would not dispose of in any way the part applied for by me, unless by annual lease, and it is now thrown into the leasehold area.
2. That the land applied for has been a reserve for population purposes since 1858, and should never have been included in the lease.
3. That the Land Board granted me a lease of the land for fifteen years at 1s. per acre, and the stations are paying 2d. per acre.
4. That I intend irrigating as much as it is possible to do of the area applied for, and the land should be granted me for such a purpose.
5. That the frontage to the Namoi River is not required by the run, as they have now 6 miles frontage adjoining this. In fact, it is out of the way for stock to go over this portion unless driven over my special lease.

ALBERT STAFFORD.

Attached to foregoing:

Dear Oliver,—

30 August, 1888.

I will be glad if you will look into this again. It seems to me the application of Mr. Stafford is a reasonable one, and in the interest both of revenue and settlement.

I hope the application can be favourably entertained.

Yours, &c.,

JAS. INGLIS.

Urgent.—Papers.—C.O., 31/8/88.

Herewith. See enclosed submission.—E.L., 31/8/88.

[Enclosure.]

Office Memorandum.

THE papers in this case are now returned from the District Surveyor, who has had measured 10 acres in satisfaction of Mr. Stafford's application.

This area was approved to be granted for "irrigation works," irrigation not being at the time a purpose under the 90th section.

Applicant now seeks to obtain the full area applied for, about 320 acres, for the purpose of irrigating the land. His request is fully set out in the letter of 14th instant, Oct. 88-7,401 herewith, submitted for consideration.

E.L., 31/8/88.

Since Mr. Secretary Garrett gave his decisions in this case "irrigation" has been, in accordance with the provisions of section 90 of the Crown Lands Act of 1884, declared a purpose under that section, and therefore the difficulty which originally stood in the way of the lease has been removed. The District Surveyor, in his report of the 14th February last, states that it did not appear desirable to entertain the application at present, the reasons apparently being probable requirements for an approach to a bridge which might be erected. The Local Board, however, recommended that the lease should be granted for fifteen years at a rental of £16 per annum, and added:—"Two of the Board members have been acquainted with this reserve for the past fifteen years, and they are in a position to say that it is not necessary for the travelling

travelling public." In view of the fact that the application is now one which comes within the provisions of the law, and of the desirability of encouraging irrigation, it is submitted that the case should be reopened with a view to the application being granted as proposed by the Board, with the condition that any portion of the area which may during the currency of the lease be required for public purposes may be resumed without compensation.—C.O., 31/8/88.

Approved.—H.P., 3/9/88. Honorable J. Inglis, M.P., informed.—H.L.T., 4/9/88. Forwarded for measurement, &c., of area now approved to be leased.—S.F. (for Under Secretary), B.C., 10/9/88. The District Surveyor, Tamworth. Mr. Licensed Surveyor Loder for measurement accordingly, the 10 acres to be obliterated and access to the Namoi River of at least 10 chains being left on the southern side.—A. DEWHURST, District Surveyor, 13/9/88. Returned to District Surveyor by request, as per telegram.—GEORGE LODER, 26/9/88.

---

No. 25.

The Under Secretary for Lands to The Hon. Jas. Inglis, M.P.

Sir,

Department of Lands, Sydney, 4 September, 1888.

Referring to the letter presented by you from Mr. A. Stafford, applying for a reconsideration of his application for a special lease for irrigation works of 320 acres in the parish of Therribry, county of Nandewar, I have the honor to inform you that in view of the fact that irrigation has been declared a purpose under the provisions of section 90 of the Crown Lands Act of 1884, and as it is considered desirable to encourage irrigation, the Secretary for Lands has approved of the case being reopened in order that the application may be granted as proposed by the Local Land Board, with the condition that any portion of the area which may during the currency of the lease be required for public purposes, may be resumed without compensation.

I have, &c.,

CHARLES OLIVER,

Under Secretary.

---

No. 26.

Mr. A. Stafford to The Chairman, Land Board, Tamworth.

Sir,

Narrabri, 25 September, 1888.

As there is likely to be some unpleasantness in connection with my irrigation lease of 320 acres, parish of Therribry, county of Nandewar, I would like to urge upon you the necessity for having my land measured at once. Mr. Loder informed me about a week since that he had instructions to measure the land granted me by the Minister, and stated that he would not be able to do so for some weeks.

The lessee of the run adjoining does not seem to have been informed that the land has been granted to me, and consequently it might save a lot of trouble if the land was measured at once.

Trusting that you will give instructions for this to be done immediately.

Yours, &c.,

ALBERT STAFFORD.

No. 30.

Mr. W. F. Jaques to the Secretary for Lands.

Sir,

Cape's Chambers, Bond-street, Sydney, 27 September, 1888.

On inquiry, I learn from your Department that an application made by A. Stafford for special lease for irrigation of 320 acres, parish Therribry, county Nandewar, was approved by the Minister for Lands on the 11th instant.

As the land applied for is part of the pastoral holding No. 97, occupied by me, I respectfully submit to you my strong protest against its being taken from the lease for such purpose, as being contrary to the Land Act of 1884, and in no way contemplated by the Act. Although land can be taken from a leasehold

## 11

leasehold for public purposes, the purpose for which this application is made cannot be deemed a public purpose under the Act. If granted, it would, in fact, not be a resumption by the Government for a public purpose at all, but merely a permission to a private individual to occupy lands for his own benefit, to the detriment of the pastoral lessee.

It would establish a dangerous precedent if lands could be taken from a pastoral lease for such a purpose, as it would interfere with the fixity of tenure promised to pastoral lessees under the Act.

In this case there are other strong objections to the granting of Stafford's application. The land applied for is the only access to permanent water for the Crown lands of the pastoral holding.

It may be contended that as I am the holder of the purchased lands on the frontage of the holding I am not dependent on the access to water referred to, but you will readily see what the position of the Crown lands would be if deprived of that access to water in the event of my giving up the lease.

When the Land Board recommended Stafford's former application (at which time 10 acres were granted to him) the land was reserved from lease, but the reserve was gazetted as returned to lease (cancelled) on the 18th of August last. The Board also overlooked the fact that the land was required for access to water.

Trusting that the matter will receive your early and favourable consideration, and that you will take steps to prevent Stafford's application being further proceeded with.

I am, &c.,

W. F. JAQUES,  
Agent for the Bank of Australasia.

Submitted.—E.L., 29/9/88. Immediate. Does the land referred to form part of the leasehold area as herein stated.—C.O., 1/10/88. The reserve from lease was cancelled on 18th August last, and would therefore become part of the leasehold area.—E.L., 1/10/88. Submitted. The fact of the land having become part of the leasehold area was overlooked when the submission of the 31st August was made.—C.O., 1/10/88.

The portion of land applied for being within a leasehold area Mr. Stafford's application cannot be granted. It appears from the plan that it affords the only means of access to water from a large area of Crown lands, and however desirable it may be to assist a system of irrigation, the circumstances disclosed in this case do not justify the granting of the application.—J.N.B., 1/10/88.

Inform all persons interested.—S.F., 26/10/88.

PAPERS relating Stafford's special lease, parish Therribry, county Nandewar, land district Narrabri, will be forwarded to-day's mail.

W. H. HALL

(Pro District Surveyor).

Please say if papers are now received.—H.L.T., 29/9/88. Yes, herewith.—J.A.R., 29/9/88.

## No. 32.

The District Surveyor, Tamworth to The Under Secretary for Lands.

Sir,

District Survey Office, Tamworth, 28 September, 1888.

In compliance with your telegram of the 26th instant, I have the honor to forward herewith the papers referring to A. Stafford's special lease in the parish of Therribry, county of Nandewar, land District of Narrabri.

I have, &c.,

A. DEWHURST,

District Surveyor.

[Urgent.]

The papers in this case, A. Stafford's special lease application, are now returned as directed by the Under Secretary on Memo. of the 26th September, 1888, herewith. Submitted.—E.L., 29/9/88.

[Enclosure.]

Office Memorandum.

Stafford's special lease papers, 88-8,268.—Ministerial approval of full area of lease, 320 acres, being granted.—District Surveyor, Tamworth, for survey, 10th September, 1888. Telegraph for the return of the papers at once.

Wire, 26/9/88. 2081.

C.O., 26/9/88.

## No. 33.

Office Memorandum.

On the approval by Mr. Secretary Garrett of a lease of 10 acres being granted to Mr. Stafford for irrigation works, a survey of that area was effected at a cost of £6 6s. 5d. which has already been paid from the deposit.

As it has now been determined to refuse the lease, it is submitted whether the applicant should be called upon to bear this expense.

E.L., 2/10/88.

Apparently not.—C.O., 3/10/88. No.—J.N.B., 3/10/88. Will the Accountant be good enough to cause the amount paid to be refunded from Licensed Surveys Fund.—E.L., 4/10/88.

Mr. Cohen.—Prepare a voucher in name of Albert Stafford, and charge same against Licensed Surveys. The voucher must give full particulars for audit purposes.—V.C., 9/10/88. Mr. Miller. Mr. Gregory.—D.M., 9/10/88.

[Enclosure.]

## [Enclosure.]

New South Wales—Pay Voucher.

Head of Service, Survey of Lands—Payable from vote of £254,093, item No. 289 of Appropriation Act of 1889.—Contingent expenses, Department of Lands; sub-head of estimate, Licensed Surveyors.

CANCELLED.	Date of period of Supply or Service.		Amount.
	1888.	Claimant—Albert Stafford.	
	October .....	To refund of amount of cost of survey charged on 20th September, 1888, against his deposit of £10 on special lease lodged 3rd February, 1888. Mr. Secretary Brunner on refusing to grant application, determined that the amount deposited should be refunded. <i>Vide</i> Occ. 88-9,381 .....	£ s. d. 6 6 5
		Total .....	6 6 5

I certify that the amount charged in this voucher as to computations, castings, and rates is correct; that the service has been faithfully performed, and that the expenditure is duly authorised in terms of the Audit Act.

STEPHEN FREEMAN,  
Head of the Department.

## No. 34.

## Mr. A. Stafford to The Secretary for Lands.

Sir,

Narrabri, 10 October, 1888.

I beg most respectfully to call your attention to my letter, dated 30th August last, stating my reasons why my special lease of 10 acres, county of Nandewar, parish Therribry, should be increased to the area originally applied for, and recommended to be granted by the Local Land Board.

In reply to that letter, I have in my possession a communication from the Under Secretary for Lands, stating that the Minister had approved of my lease being increased to 320 acres. On receipt of this letter, I immediately employed men to clear the land ready for cultivation, being anxious to take advantage of the very dry weather to burn off the timber, and I have now contracted with several persons to clear the land in readiness for ploughing. About three weeks since, Mr. Loder, the surveyor for the district, informed me he had received his instructions to measure 320 acres, and obliterate the 10 acres already measured, and he showed me the lease of 320 acres, signed by the Minister. Feeling sure that the land had been then leased, I made a contract for the supply of an engine and rotary pump, so that no time would be lost in proceeding with irrigating the land.

I would most respectfully point out, that if the lease be not granted to me, I shall be put to serious loss, having to purchase an engine and pump, which will be useless to me, and having cleared (and entered into contracts to clear) the land, and having already erected a fence on it. All this has been gone on with by me, feeling fully convinced that the land had been leased to me.

I would also point out to you that the portion of land applied for, was, at the time my application was made, a reserve, and had been such for thirty years, and that during that time no rent had been paid for the land; it was not thrown into the leasehold of the Therribry Run till August last, and therefore cannot affect the leasehold area in any way. From the position of this portion, it will be easily seen that it does not affect the water supply for the station in any way; that stock will have no greater distance to travel to water, if deprived of this small portion; and it does not affect the working of the run in any way by losing this.

I would also point out to you that my property adjoins this, having an area of about 1,500 acres; has only 1 chain of river frontage, and this is flooded, even when the river has a slight fresh; no other land, excepting the portion applied for is obtainable for irrigation, either to lease or purchase, and I would most respectfully urge upon you the necessity of encouraging irrigation in a climate like ours; even during the past six months I have had considerable loss, not being able to provide for my stock on a small area without the aid of irrigation.

Before rejecting my application, or cancelling my promised lease, I most respectfully suggest that you send a competent man to examine the land and advise you as to its suitability, and I undertake to bear the expense of inspection, if the land would be granted to me, should the report be favourable.

If you deem this course unnecessary, I would respectfully urge that you have the matter reinvestigated by the Local Land Board, and leave it to it to decide as to the advisability of granting my lease, or as to the injury the lessee of the run may incur by granting me the irrigation lease of 320 acres.

I would also like to inform you that in case the land is leased to me, it is my intention to use it as a dairy farm in addition to other agricultural purposes; this is a business which is very much neglected in this district (which is almost purely a pastoral one), so few portions of land are available for the purpose.

I have at present fifty cows with young calves, and fifty additional cows in readiness to keep up a supply of young calves, so as to successfully carry out my project; these have been secured by me at great expense and trouble, great difficulty being encountered in buying suitable animals. I have also purchased a "cream separator," and necessary gear to commence operations at once, being confident that my lease had been granted; if refused the land, I shall have to dispose of the whole of my plant, and most of my stock, as it is useless to endeavour to carry out a dairy farm with such uncertain seasons as we have in this part of the country, and the district will be deprived of an industry which should be encouraged. Not knowing what statements have been made to you as to the advisability of not granting me a lease, I cannot reply to them; but I only want to get justice, and for the matter to be heard on both sides by you, and I am convinced that no one can put the land to a better use than I can, having the means and the inclination to carry out the purpose for which the land is applied for, and surely it is better in the interests of the public to rent the land at 1s. per acre than at 1½d., and to irrigate and feed some hundreds of stock, rather than feed a few sheep upon it.

Feeling sure that I can leave my case entirely in your hands, and that I shall receive the consideration I desire at your hands.

I have, &amp;c.,

ALBERT STAFFORD.

Submitted,—

13

Submitted,—Mr. Stafford urges a reconsideration of his case, and advances several reasons in support thereof. He states that making certain of the lease, on its approval having been notified to him, he has gone to much expense, and entered into large contracts on that account. He also points out the fact that the land was reserved from lease until August last, and therefore the granting of the lease to him could not affect the working of the leasehold area, in which it is now embraced.—E.L., 15/10/88.

No. 35.

Mr. A. Stafford to The Secretary for Lands.

Sir,

Narrabri, 22 October, 1888.

I have the honor to ask your attention to my letter of a few weeks ago, which was presented to you by the Honorable J. Inglis, who informed me that you would give my letter your careful consideration and immediate attention.

I may point out that I am placed in a very unenviable position pending a settlement of this case, as the lessee of the adjoining run has issued a writ against me for damages laid at £500 for trespass upon the very land which has been granted to me as an irrigation lease.

I would most respectfully urge upon you the immediate necessity for a settlement of this case before going into the Supreme Court over such a simple matter, which can easily be decided by you, and thus avoid all expensive litigation. I am quite willing to submit to your decision as to the justice of my claim upon the land now in dispute, but would urge upon you the necessity of an immediate settlement for the reasons before-mentioned.

I have, &amp;c.,

ALBERT STAFFORD.

No. 36.

Mr. A. Stafford to The Secretary for Lands.

Dear Sir,

Narrabri, 22 October, 1888.

I take the liberty of writing you privately, although not known to you personally, to ask you to confer a favor upon me by giving your decision as regards my special lease, county of Nandewar, parish of Therribri.

I do not intend to say one word in this letter as to the justice of my claim, but simply to point out to you the position in which I stand pending your decision.

Having felt sure that the land had been granted to me, I have been using it, and have had men working upon it, and yesterday I was served with a writ for £500 by Mr. Jacques for trespass. This is certainly very hard upon me, as the land in question is not worth going into the Supreme Court over, and, if I did trespass, it was certainly thinking the land was actually granted to me.

I have written you officially to-day with reference to the urgency of my case, and now do so privately to explain the position in which I stand in reference to the land.

May I ask you to protect me from a Supreme Court action, in case you cannot give an immediate decision, by writing me such a letter that I can come to terms with Mr. Jacques, pending such decision being given, as I do not want to waste money in useless litigation.

It is now some weeks since the papers were withdrawn from the surveyor, who had instructions to measure my special lease, and I have been left in doubt as to my position with regard to the land. I endeavoured to arrange with Mr. Jacques to hold the matter over till your decision was given, but his answer was the issuing of a writ against me. Would I be asking too much by asking you to wire me (collect) your decision, so that I may take such steps as are necessary to avoid a Supreme Court action.

Yours, &amp;c.,

ALBERT STAFFORD.

On reconsideration of this case I find that the law does permit the granting of special leases within leasehold areas, and, therefore, that one of the reasons given in my former minute for refusing this application is hardly tenable; and, as a lease was in the first instance promised to Stafford, and 10 acres appear to be sufficient to enable him to connect his present holding with the river for the purposes of irrigation, he may have a lease of that area in the form already designed; the rental to be considered by the Land Board. Inform parties to-day.—J.N.B., 27/10/88.

Mr. Stafford and Mr. Jacques informed, 27/10/88.

[Enclosure.]

Dear Mr. Brunker,

Maitland, 27 August, 1888.

By this note please allow us to introduce Mr. Albert Stafford, of Narrabri, a valued constituent of ours. He will explain the reason that he seeks an interview, and we hope that it may lead to a satisfactory issue.

J. N. Brunker, Esq.

Yours, &amp;c.,

E. P. CAPPER &amp; SONS.

This was given me by Mr. Capper on the above date, when I intended waiting upon you with reference to my special lease, but you were in Newcastle at the time, and consequently I could not deliver it to you. I now take the liberty of handing it to you as an excuse for writing you.—A. STAFFORD.

No. 37.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 27 October, 1888.

Referring to your letter of the 22nd instant, respecting your special lease application quoted in the margin, I am directed by the Secretary for Lands to inform you that the law permits the granting of special leases within the leasehold areas of pastoral holdings, and, as 10 acres appear to be sufficient to enable you to connect your present holding with the river for the purposes of irrigation, he has approved of a special lease of that area in the form already designed being granted to you. The question of rental to be the subject of consideration by the Local Land Board.

I have, &amp;c.,

STEPHEN FREEMAN,  
Under Secretary.

No. 38.

Narrabri; S.L.  
No. 88-1; 2nd  
February, 1888;

irrigation pur-  
poses.

## No. 38.

The Under Secretary for Lands to Mr. W. F. Jaques.

Sir,

Department of Lands, Sydney, 27 October, 1888.

Narrabri; S.L.  
88-1; 2 February,  
1888; 10  
acres; parish  
Therribry;  
Nandewar; A.  
Stafford.

With reference to your letter, of the 27th ultimo, protesting against the granting of the special lease applied for by Mr. Albert Stafford, on the ground that the land was within the leasehold area of a pastoral holding, I am directed by the Secretary for Lands to inform you that the law permits of the granting of special leases within leasehold areas of pastoral holdings, and that he has approved of a special lease of 10 acres in the form already designed, being granted to Mr. Stafford for irrigation purposes, that area being apparently sufficient to connect his holding with the river.

I have, &amp;c.,

STEPHEN FREEMAN,  
Under Secretary.

## No. 39.

Mr. A. Stafford to The Secretary for Lands.

Sir,

Narrabri, 29 October, 1888.

I am in receipt of yours of the 27th instant, 88-19,381, stating that 10 acres of land would be granted to me as a special lease for irrigation. Owing to the many changes in your Department, you have doubtless overlooked your letter of the 23rd March, 1888, 88-2,692, which granted me 10 acres, and also my letter stating that after the lease was measured I found I could not make use of it, and I then applied for an extension of my lease to the area (320 acres), as granted by the Local Land Board; this was granted me by your letter, dated 4th September, 88-7,331. Instructions were also sent to the local surveyor a few days later to eliminate my first lease, and to measure in its place the 320 acres then granted; this is what I most respectfully ask you to do, as I am prepared to go on with the work of irrigation at once.

I may add in reply to your letter of 27th October, 88-19,381, that the 10 acres measured is not sufficient to enable me to connect my land adjoining for the purpose of irrigating it, as the 10 acres is only 2 chains wide, and it runs through a lagoon, the water in which is 6 feet deep where the measured portion crosses it, therefore it is impossible to connect the land in such a way as to make use of it.

I most respectfully urge upon you the necessity of having my special lease of 320 acres measured at once, so that I may hurry forward the work of irrigation, which is needed so badly at the present time.

I have, &amp;c.,

ALBERT STAFFORD.

In reply to letter of 27th October, stating that the Minister had, on reconsidering the matter, approved of a lease of 10 acres being granted to Mr. Stafford, he now states that this area would be insufficient, and as measured would be of no use as a connection between his land and the river. He therefore urges that the whole area applied for, 320 acres, be granted to him.—T.G., 2/4/81. F.H.W.—Submitted.

Office Memorandum.

Department of Lands Inquiry Branch, No. 14,650.

T. H. Hassall, M.P., Post Office Chambers, Pitt-street.

31 October, 1888.

*Re* Albert Stafford's application for special lease of 320 acres for irrigation purposes, Land District of Narrabri.

How does this matter stand; having heard application was granted, but since revoked?

On a reconsideration of the matter it has been decided to grant Mr. Stafford a lease of 10 acres.—H.A., 31/10/88.

## No. 41.

Mr. A. Stafford to the Secretary for Lands.

Sir,

Narrabri, 5 November, 1888.

Referring to my letter, dated a few days back, to which I have received no reply, I beg most respectfully to urge upon you the immediate necessity of measuring my extended special lease, county Nandewar, parish Therribry, of 320 acres. Owing to the very dry season I intend at once to irrigate as much as possible while the weather keeps as it is at present. Trusting that you will give the matter your early attention.

I have, &amp;c.,

ALBERT STAFFORD.

Mr. Stafford urges that early attention may be given to his previous letter, Occ. 88-10,624, submitted on 3rd instant.—T.G., 7/11/88. Submit copy of recent letter to Stafford in this case.—S.F., 7/11/88. Copy of letter herewith of 27th ultimo, papers No. 88-10,624 Occ. not received here.—H.L.T., 7/11/88.

Mr. Stafford was informed on 27th ultimo of the last decision in this case, *vide* copy of letter enclosed. Mr. Dowel, M.P., I understand, proposes to see Mr. Secretary Bruncker, for the purpose of representing the case from Stafford's point of view.—S.F., 7/11/88.

No. 42.

No. 42.

T. H. Hassall, Esq., M.P. to The Under Secretary for Lands.

8 Post Office Chambers, Sydney, 5 November, 1888.

*Re* Albert Stafford's application for 320 acres, irrigation purposes, Land District of Narrabri.

On the 2nd February of this year Mr. Stafford applied for 320 acres of land, county of Nandewar, parish of Therribry, being portion of reserve from sale and lease (No. 7), under section 90, as an irrigation lease. The Local Land Board recommended that it should be granted at a rental of £16 per annum for 15 years. Mr. Garrett, who was then Minister for Lands, granted only 10 acres. During the month of July last, the balance of the reserve, excepting the 10 acres granted to Stafford, was cancelled. About the end of August Stafford applied for a reconsideration of the Minister's decision, and the lease was extended to 320 acres,—copy of notification attached herewith. About the middle of September, Mr. Loder, surveyor, called upon Mr. Stafford, and informed him that he had received instructions to eliminate the 10-acre portion and make it into a 320-acre block, and he showed Mr. Stafford the lease or documents relating to the matter, signed by Sir Henry Parkes. Mr. Stafford then fenced the land, and commenced clearing it, &c.; and shortly after Mr. Jaques, the lessee of the run, informed him that he was trespassing upon his land, seized his stock, and issued a writ for £500 for damages for trespass upon the piece of land that Mr. Stafford was under the impression had been granted to him. In reply to a letter sent by Mr. Stafford to the Department letter marked number 2 was received, totally ignoring the fact that 320 acres had been granted to him by Sir Henry Parkes, the Acting Minister for Lands. The 10-acre lease is no good for Mr. Stafford's purpose. Mr. Stafford desires to point out that it would cost a very much larger sum to carry the water over a lagoon (which, at the present time, has six feet of water in it) on to his land than it would be to irrigate at least half the land applied for. The Department appears to think that Mr. Stafford can run the water along the 10-acre lease to cross the lagoon referred to, but Mr. Stafford considers it impracticable, both on the score of cost and the works being liable to be washed away and destroyed by floods.

Mr. Stafford is quite willing to have the correctness of these statements investigated by the Local Land Board or any competent person.

T. H. HASSALL.

This is a statement of the facts in the case of A. Stafford's application for special lease for irrigation, and a protest against the area being confined to 10 acres, which it is stated would not allow of the purpose of the lease being carried out. Submitted, in connection with Occ. 88-10,624; a similar communication submitted on the 3rd instant.—T.G., 6/11/88.

[Enclosure.]

Sir,

Sydney, 4 September, 1888.

Referring to the letter presented by you from Mr. A. Stafford, applying for a reconsideration of his application for a special lease for irrigation works of 320 acres, in the parish of Therribry, county of Nandewar, I have the honor to inform you that in view of the fact that irrigation has been declared a purpose under the provisions of section 90 of the Crown Lands Act of 1884, and as it is considered desirable to encourage irrigation, the Secretary for Lands has approved of the case being reopened, in order that the application may be granted, as proposed by the Local Land Board, with the condition that any portions of the area, which may during the currency of the lease be required for public purposes, may be resumed without compensation.

CHARLES OLIVER.

[Sub-Enclosure.]

Sir,

Sydney, 27 October, 1888.

Referring to your letter of the 22nd instant, respecting your special lease application quoted in the margin, I am directed by the Secretary for Lands to inform you that the law permits the granting of special leases within the leasehold areas of pastoral holdings, and as 10 acres appear to be sufficient to enable you to connect your present holding with the river for the purposes of irrigation, he has approved of a special lease of that area in the form already described being granted to you. The question of rental to be the subject of consideration by the Local Land Board.

No. 43.

Mr. A. Stafford to The Hon. J. Inglis, M.P.

Dear Mr. Inglis,

Narrabri, 5 November, 1888.

I wrote you some weeks ago, asking you if you could get me a copy of my lease for irrigation. I am now in a fix, unless I can get this, having been served with a writ for £500 for trespass action. Will you kindly advise me my best course to take.

Apologising for so troubling you, but you know best by exact position.

Yours, &amp;c.,

ALBERT STAFFORD.

Dear Brunker,—I will take it as a personal favour if you spare a few of your valuable moments to the settlement of this hard case. Stafford has, I think, been a victim. He undoubtedly got the promise of the lease. His venture in the land is praiseworthy, and would do a vast deal more for the State and for the public than any use the squatter can put it to; and now, because he trusted to a promise given by the Department, he stands a fair show of being ruined. Put the poor fellow out of his suspense one way or another. The Local Land Board have reported in his favour; and his occupation of the land under the reasonable conditions imposed by C. Oliver would bring you in more revenue, and do more to start paying industries in the locality than any course of action in the interest of the runholder.—Yours, J.I. Let me know what I am to write him.

Send copy of last letter to Stafford to Mr. Inglis.—J.N.B., 8/11/88. Hon. J. Inglis, M.P., with copy of letter of 27th October, 1888, to Mr. Stafford.—H.L.T., 8/11/88.

## No. 45.

Mr. W. F. Jaques to The Secretary for Lands.

Sir,

Cape's Chambers, Bond-street, Sydney, 14 November, 1888.  
Again referring to the matter of Stafford's application for special lease, I beg to point out to you the unsatisfactory position I am placed in.

Stafford still claims that he has a right to the 320 acres. I wrote to him to the effect that I had had a notification from your Department, that only the original 10 acres had been granted to him. He replies, under date 10th instant:—"If the facts in connection with my special lease are as you state, I should have no ground whatever for claiming 320 acres, but if the Lands Department tell you that my application for the area mentioned was refused, they state what is not correct, and what I have documents in my possession to contradict."

Stafford having taken down his dividing fence, has had a large number of cattle and horses continually trespassing on the land in question, effectually preventing my using it for my ewes and lambs, and he claims that he has a title to it.

Of course, I feel assured by the notification to me from your Department, as well as by your personal statement to me, that only 10 acres has been granted to him, and I can, no doubt, make good my position by law.

Still Stafford asserts in his letter that if the statement is made by your Department that his application for 320 acres has been refused, such statement is untrue.

Your notification to me that only the 10 acres as originally designed was granted to him certainly implies this, and I would request that official notification be sent to him by your Department, informing him that his application for the 320 acres has been refused, so that he may no longer be under a misapprehension.

I feel sure that you will readily see why this request should be acceded to and notification of refusal sent to Stafford without delay, as it is a matter of serious loss to me my not being able to use the land just at this time.

I remain, &amp;c.,

W. F. JAQUES,

As Agent for the Bank of Australasia.

Very urgent,—Has not Mr. Stafford been informed that his application for 320 acres is refused, and that he is to get 10 acres only.—S.F., 14/11/88.

Mr. Stafford was so informed on the 27th ultimo, but since then letters have been received, protesting against his area, and urging that the whole area applied for be allowed, as that recommended would be of no use. Papers Occ. 88-10,779 were submitted on 7th instant.—T.G., 14/11/88.

## No. 46.

## Office Memorandum.

A. Stafford's application for special lease for irrigation, 320 acres.

THE Local Land Board recommended that a lease of 320 acres be granted to A. Stafford for irrigation purposes. "Irrigation" not then being a purpose under the Act a lease of 10 acres was approved to be granted for "irrigation works." Subsequently "irrigation" was proclaimed a purpose, and a lease of 320 acres was approved of, and applicant, through Hon. J. Inglis, informed.

In the meantime application had been made, in the interest of the pastoral lessee, to have the reserve cancelled, and included in the pastoral lease. This was carried out with the exception of that portion of 10 acres first approved of.

When this was brought under the notice of the Minister he refused the special lease application, not being then aware that the law provided for the withdrawal of an area from pastoral lease for special lease.

Upon further representations, and becoming aware that an area embraced in a pastoral lease might be granted as a special lease, the Minister, upon a reconsideration of the matter, decided that the area first approved of might be granted.

Stafford

Stafford has since urged that the full area be granted to him, as that approved (10 acres) would be altogether useless for the purpose for which the land is required. He sets forth other cogent reasons why the lease should be granted to him in its entirety.

The matter has not yet been before the Executive Council.

This is a statement of the facts of the case as near as I can recollect without the papers.

H. A.,

15/11/88.

Papers 88-10,624 submitted on 3rd instant.—T.G., 15/11/88. Papers now herewith.—T.G., S.F., 16/11/88.

#### No. 47.

Mr. A. Stafford to The Secretary for Lands.

Dear Sir,

Narrabri, 19 November, 1888.

Referring to my letter of a few days back I again most respectfully urge upon you the immediate necessity for causing my special lease of 320 acres to be measured, as an action for trespass is to be decided in the Supreme Court in a few days. I am anxious to know if it is your intention to have my lease measured, or do you intend to cancel it. I understand that it has been represented to you that I do not intend irrigating the land, but intend feeding cattle upon it. Such is not the case, and having been informed that the land had been granted me on or about the 1st of September, I immediately advertised for men, and began clearing it ready for cultivation. Had the land been measured then, I should now have had a good portion under irrigation. I am still prepared to commence operations if you will cause my lease to be measured at once. In your last communication you mention that it appears that the 10 acres first granted me is sufficient for me to irrigate my land adjoining. This is not the case, as a deep lagoon runs between the river and my land, and the only water in the lagoon now (which is nearly dry), although a mile in length, is where the 10-acre lease crosses it, thus showing that it is impossible for me to run water over it, even if I attempted it. In case you doubt this statement, I am prepared to prove it by sworn testimony.

It appears strange that the lessee of Therribry Run should oppose me in getting this small portion of river frontage, when he holds at least 6 or 7 miles of frontage adjoining, and being deprived of this cannot interfere in any way with the working of the run.

It is stated by the Government that they intend encouraging irrigation, but if they do not grant river frontages how is it possible to obtain water with which to irrigate? And as the reserve I applied for never was included in Therribry holding how can it injure the lessee if a small portion of such lease is granted me.

I beg most respectfully to ask your consideration, as I have been put to a great deal of expense over the matter, and am now prepared to commence to irrigate at once.

Yours, &c.,

ALBERT STAFFORD.

Mr. Stafford herein further urges that the whole area applied for be granted to him. Submitted in connection with previous submission with 88-10,933.—E.L. (S.F.), 4/12/88.

#### No. 48.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 15 December, 1888.

Will you please inform me if it is your intention to have measured my special lease of 320 acres, county of Nandewar, parish of Therribry. I was officially informed that this land was granted me in September last, and no steps have been taken since the papers were withdrawn from the surveyor to have this measured. I have paid the rent fixed by the Local Land Board, and now wish to know the boundaries of the land, so that I may use it for the purpose for which it was granted.

I have, &c.,

ALBERT STAFFORD.

Mr. Stafford herein desires to have 320 acres measured in satisfaction of his application for special lease. The case is fully set out in minute of 15/11/88, covering Occp. 89-10,933.—E.L., 27/12/88.

#### No. 49.

Mr. W. F. Jaques to The Secretary for Lands.

Sir,

Cape's Chambers, Bond-street, Sydney, 29 December, 1888.

In reference to Stafford's application for special lease 88-11,993 Occupn., I beg to submit the following reasons why the decision already arrived at should be adhered to.

1. The land was reserved from lease for travelling stock as far back as 1858, at which time other Crown lands were available as access to water for the Crown lands at the back.
2. The Crown lands on the river were subsequently selected in such a way that the reserve became of no use to travelling stock, but of great value for access to water for the Crown lands at the back, being the only access to permanent water.
3. The present occupant of the lease had considered the land in question part of his holding. It had always been used by him and his predecessors, and rent had been charged on that basis. On finding it was a reserve from lease he applied to have it returned to lease. This application was granted, and cancellation of reserve was gazetted on 18th August, 1888.
4. Previous to this Stafford had been promised a special lease of 10 acres of the reserve, and he then wrote to the Lands Department, expressing himself satisfied therewith, as it would, he stated, enable him to irrigate his adjoining land. It is more than probable that Stafford at this time considered the position of the 10 acres promised to him was such that by fencing one side of it he would enclose and be able to use the whole of the reserve without paying for it, and that he did not really want it for irrigation but for grazing. His letter, expressing himself satisfied with 10 acres, to my mind, implies this.

5.

5. The return of the land to lease altered this aspect of the matter, and Stafford then renewed his application for extended area.
  6. The Land Board had originally recommended granting the whole area, under the impression that it was vacant and unused land, and it was not pointed out to the Board how valuable the land was to the leasehold, in conjunction with the large area of Crown lands at the back. This can be proved on reference to the Chairman of the Board.
  7. The land applied for is the only access to permanent water for the Crown lands of the leasehold.
  8. Stafford can irrigate his own land by means, not only of the 10 acres granted to him, but also directly from the river, where his own land adjoins the river at the junction of Maule's Creek.
- I might add, and I feel sure you will agree, that it is undesirable to interfere with the tenure of a lease except in cases of necessity or public exigency, and especially in a case like this, where the land is the only frontage to permanent water for the whole of the Crown lands.

I have, &c.,  
W. F. JAQUES.

Submitted the matter has been fully set out on enclosed papers.—E.L. S.F., 4/1/89. Nothing disclosed in these papers induces me to change my previous decisions.—J.N.B., 9/1/89. Cor. Beh.,—Inform parties concerned.—H.A., 10/1/89. W. F. Jaques informed, 18/1/89. Cor. Beh.,—Stafford has not been informed.—H.A., 21/1/89. A. Stafford informed, 24/1/89.

#### No. 52.

#### Office Memorandum.

*Precis re* dispute between A. Stafford and W. F. Jaques as to claim of lease of reserve 52.

ON the 2nd February, 1888, Albert Stafford made application for a special lease of 320 acres, being portion of reserve No. 52 from lease, parish Therribry, county of Nandewar, for the purpose of irrigation. Upon this the District Surveyor reports that it did not then appear desirable to entertain the application, as the land had been reserved from lease for the service of travellers and as a general watering-place; and as it had been recommended as a reserve for travelling stock, and would be required for that purpose until the Tarriaro bridge was rebuilt; also adding that on completion of the bridge the matter might appear under a more favourable aspect.

The matter came before the Land Board on 20th February, 1888. It was elicited from the evidence of Mr. Stock-Inspector A. Copeman that the reserve was not used by nor required for travelling stock, and that it would not be wanted, even if the aforesaid bridge was not reconstructed.

Two members of the Board were also acquainted with the reserve for fifteen years, and were of opinion that it was not necessary for the travelling public.

It was therefore recommended that a special lease should be granted of the land applied for at an annual rental of £16 for fifteen years.

Upon this recommendation Mr. Secretary Garrett, on the 23rd February, decided as follows:—

“The law only provides for irrigation works. This application is for lease of land to be irrigated. If applicant will accept a lease of (say) 10 acres, upon which to erect irrigation works, he may have it.”

Mr. Stafford was so informed on same date, and replied that he would make that area do if measured so as to connect his land with the river.

It was then decided (16/3/88) that a lease of this area (10 acres) might issue, and the papers were therefore forwarded to the District Surveyor for measurement of such.

On the 17th April, 1888, Mr. W. F. Jaques, as agent for the Bank of Australasia, made application to have this reserve from lease revoked, with a view to its reverting to the leasehold area of Therribri holding, No. 97, Central Division.

The District Surveyor reported that such a course appeared desirable, at the same time pointing out that 10 acres of the area had been approved to be granted to Stafford.

It was then approved on the 31st May, that the reserve, excluding special lease, be cancelled, and added to the pastoral lease,

Executive sanction to this was given on 23rd July, 1888.

Stafford

Stafford afterwards urged that a lease of the full area applied for be granted to him.

"Irrigation" had in the meantime been declared a purpose under section 90, and therefore the application came within the provisions of the law, and it was submitted that for this reason, and on account of the desirability of encouraging irrigation, the case should be reopened, with a view to the application being granted, as proposed by the Board, with the condition that any portion of the area which may during the currency of the lease be required for public purposes may be resumed without compensation.

This was approved by Sir Henry Parkes, then Acting Minister for Lands; and Mr. Stafford, through Hon. J. Inglis, informed on the 4th September, 1888.

District Surveyor was instructed to measure the 320 acres, but papers were recalled before such was effected, upon representations made by Mr. Jaques.

Mr. Bruncker then ruled that, as the land formed part of a leasehold area, it could not be granted; but, finding afterwards that the law did permit the granting of special leases within leasehold areas, withdrew his decision, and approved of 10 acres being granted, on 27th October, 1888, on which date Stafford was informed (copy letter herewith). Since then representations made by both parties have kept this decision from being acted upon.

Mr. Jaques represents that this is the only access to water from the Crown lands at the back, but it may be pointed out that all the adjoining conditional purchases and fronting the Namoi River are in the hands of the Bank of Australasia, which is the present lessee of Therribry holding.

Mr. Stafford urges the measurement of the full area applied for, protesting that 10 acres, as recommended, would not permit of the purpose for which the lease is desired being carried out.

E.L., 4/2/89.

I have carefully looked through this case, and find Mr. Stafford has only a small area, whilst the owner of the run has a very large area and long water frontage. Mr. Stafford is farming, and desirous of carrying on more extensive irrigation works; he represents he cannot do this without obtaining a lease of this land. I therefore approve of the lease being granted upon the terms named, but also containing a provision that if the land is not *bonâ fide* used for irrigation purposes to the satisfaction of the Minister the lease will be cancelled.—W.J.L., 4/2/89.

Cor. Branch. To inform Mr. Stafford and also Mr. Jaques.—E.L., 7/2/89. Mr. Jaques and Mr. Stafford informed, 9/2/89. Misc. Branch. For withdrawal of land 320 acres from pastoral lease for special lease.—H.A., for E.L., 11/2/89.

[Enclosure]

(Occupation, 88-9,381.)

Sir,

Referring to your letter of the 22nd instant respecting your special lease application quoted in the margin, I am directed by the Secretary for Lands to inform you that the law permits the granting of special leases within the leasehold areas of pastoral holdings; and as 10 acres appear to be sufficient to enable you to connect your present holding with the river for the purposes of irrigation, he has approved of a special lease of that area, in the form already designed, being granted to you.

The question of rental to be the subject of consideration by the Local Land Board.

I have &c.,

STEPHEN FREEMAN,

Under Secretary.

No. 57.

J. P. Abbott, Esq., M.P. to The Secretary for Lands.

Sir,

Wentworth Court, Sydney, 13 February, 1889.

I have the honor to call your attention to a letter dated the 9th instant, No. 89-2,500, addressed to Mr. W. F. Jaques, in reference to your determination to grant a special lease to Albert Stafford, of land at present forming part of the leasehold area of Therribry pastoral holding.

In doing so, I desire to review the facts of the case shortly. They are as follows:—

The land applied for was formerly reserve from lease, having been reserved as far back as 1858.

At that time other Crown lands were available as access to water for the Crown lands at the back; but, subsequently, the frontage was selected in such a way that the reserve became of no use for travelling stock, for which it was originally intended, but became of great value for access to water to the Crown lands at the back, being the only access to permanent water for the lessee of the run. The present occupant of the pastoral holding had considered the land in question part thereof. It had always been used by him and his predecessors as such, and rent had been charged on that basis. On finding it was a reserve from lease he applied to have it returned to lease. This application was granted, and cancellation of the reserve was gazetted on the 18th August, 1888.

This cancellation had the effect of making the reserve a portion of the leasehold area. (See subsection 8 of section 78.)

Previous to this cancellation Stafford had applied for 320 acres of, and had been promised a special lease of 10 acres of, the reserve. When this promise was made he then wrote to the Lands Department, expressing himself satisfied therewith, as he said it would enable him to irrigate his adjoining land.

After the land had become part of the lease Stafford made a further application for an extension of his special lease to 320 acres. This came under the consideration of Sir Henry Parkes (while acting as temporary Minister for Lands), who approved of the matter being reopened with a view to granting the extended area. But this was done under the impression that the land was still reserved from lease, as the Under Secretary (Mr. Oliver) had overlooked the fact that the land had become part of the pastoral lease.

It was done also under a wrong impression as to the approval of the Land Board; as when the Land Board approved of the first application the land was not in the pastoral lease, and the Board were under the impression that it was vacant land unavailable for travelling stock, and overlooked its great value as a frontage to the Crown lands of the pastoral holding to which it gave the only access to permanent water.

When the matter came before the late Secretary for Lands (Mr. Brunker), he said that while recognizing the desirability of encouraging irrigation, in this case the application should not be granted, as the frontage was evidently required in conjunction with the other Crown lands within the pastoral holding, and he could say so from his personal knowledge of the place. A minute was written by him somewhat to that effect.

It was shown also that the applicant Stafford had plenty of land just as suitable for his purpose, adjoining the land applied for, and connected with the river, not only by the 10 acres granted to him, but also at one corner, where his land runs down to the river.

I would submit that, under the circumstances, as Stafford has other land suitably situated for his purpose, this land should not be resumed from a pastoral holding for such purpose.

The land having been returned to the lease is part of the holding, and it would be an undesirable precedent to resume it for any but a *bonâ fide* public purpose.

It would be contrary to the spirit of the Act—destroying all security of tenure.

The pastoral lessee has in this case spent some thousands of pounds in developing the Crown lands upon his holding, and he finds now that his only access to permanent water is to be taken from him, reducing very materially the value of his property, and yet he has no means now of obtaining a reduction in the rate of the rental. It is not a matter of the mere area resumed, but of the deterioration of the rest. It must be a case of great hardship and loss to the pastoral tenant, while to the applicant for irrigation lease the refusal of his application might be a disappointment, but nothing more, as he has his own adjoining lands suitable for irrigation, as shown by his own letter expressing himself satisfied with the first 10 acres granted to him.

I would also point out that the course proposed to be taken is illegal, and the adoption of it can only involve Mr. Stafford in litigation, which he, and not the Crown, will have to bear.

I have, &amp;c.,

J. P. ABBOTT.

Submitted.

Submitted. This is a protest by Mr. J. P. Albott on behalf of W. F. Jaques against the decision arrived at by the Minister on 4th inst.—E.L., 16/2/89.

I do not think Stafford was ever satisfied with the 10 acres offered to him. As to the lessee of the run not having access to water, I understand he has about 7 miles frontage to the river purchased. I do not see any reason to alter my former decision.—W.J.L., 18/2/89:

J. P. Abbott informed, February, 1889.

The lease to Mr. Stafford is not to extend beyond the boundary of the portion of reserve No. 52, which was originally excluded from the run, and the portion outside the double red line on the accompanying plan will be excluded from Mr. Stafford's lease.—W.J.L., 19/2/89.

Description for the reservation from lease enclosed.—R.M. (for J.T.K.), 19/2/89. Mr. Abbott informed, 21/2/89.

[Enclosure.]

RESERVE FROM LEASE FOR IRRIGATION.

His Excellency the Governor, with the advice of the Executive Council, directs it to be notified that, in pursuance of the provisions of the 108th section of the "Crown Lands Act of 1884," the land specified in the Schedule appended hereto shall be withdrawn from lease for irrigation, and is hereby withdrawn accordingly.

CENTRAL DIVISION.

Land District of Narrabri, within the boundaries of the leasehold area of Therribry pastoral holding No. 97, notified 11th July, 1885, No. 8,716. County of Nandewar, parish of Therribri, containing an area of 320 acres. The Crown Lands within the following boundaries: Commencing near the junction of Maule's Creek with the Namoi River, at the south-west corner of George Carter's conditional purchase, portion 19 of 492 acres, excluding road; and bounded thence by part of the south boundary of that portion bearing east to a point due north from the western extremity of the northernmost boundary of portion 14 of 320 acres; thence by a line south about 40 chains; thence by a line west to the Namoi River; and by that river downwards, to the point of commencement.

The Under Secretary for Lands to T. H. Hassall, Esq., M.P.

Sir,

Department of Lands, Sydney, 15 February, 1889.

Referring to your telegram of the 12th instant urging action in connection with Stafford's Special lease: 320 acres, parish Therribry, county Nandewar; A. Stafford.

I am to add that a telegram addressed to you, Royal Hotel, Bourke, to the above effect, has been reported undelivered, owing to your having left for Sydney.

I have, &c.,

H. CURRY

(For the Under Secretary).

No. 59.

T. H. Hassall, Esq., M.P. to The Secretary for Lands.

Dear Sir,

8, Post Office Chambers, Pitt-street, Sydney, 18 February, 1889.

I have the honor to invite your attention to the enclosed letter from Mr. Albert Stafford, and, as the matter is of urgent importance to him, beg that it may receive your early and favourable consideration.

I am, &c.,

T. H. HASSALL.

Let the lease be prepared in terms of my previous minute.—W.J.L., 18/2/89.

[Enclosure.]

Dear Sir,

Narrabri, 15 November, 1889.

I wired you this morning asking if my lease had been put through by the Executive Council.

I find the regulations of the Land Act states that all that makes it necessary to complete the lease is, *That the intention to grant the lease will be notified in the "Gazette,"* regulation 162.

Will you please see Mr. Lyne and urge upon him to have the lease gazetted at once, as I am anxious to get the land ready for irrigation, and I want to take advantage of the dry weather to burn the timber off; and at the same time you might ask him to send the papers (which are all ready) to the District Surveyor for measurement, with instructions to have the lease measured at once. The papers are all in the Lands Office in Sydney, having been returned by the Surveyor from here.

I left the matter in your hands, feeling sure that you would have it put through this week at latest, and I hope I shall not be disappointed, as I depended so entirely upon you; all I want is a right to take possession of the land at once.

Will you kindly wire me on receipt of this, or as soon as you have seen Mr. Lyne, to let me know when the matter will be settled.

Yours, &c.,

A. STAFFORD.

No. 60.

Mr. A. Stafford to The Secretary for Lands.

Sir,

## No. 65.

## Executive Council Minute.

Lease for a special purpose.

Department of Lands, Sydney, 4 March, 1889.

It is recommended to His Excellency the Governor and the Executive Council, that a lease of about 320 acres of land at parish of Therribri, county Nandewar, be granted to Mr. Albert Stafford, for the purpose of irrigation, from 4th February, 1889, to 3rd February, 1904, at a rental of £16 per annum, under the provisions of the 90th clause of the Crown Lands Act of 1884.

The lease not to confer any right to purchase the land in virtue of improvements or otherwise.

Any portion of the area that may be required during the currency of the lease for public purposes may be resumed without compensation.

If the land is not used *bonâ fide* for irrigation purposes to the satisfaction of the Minister for Lands, the lease will be cancelled.

WILLIAM JOHN LYNE.

The Executive Council advise that a special lease of the land referred to be issued upon the terms and for the purpose specified.—ALEX. C. BUDGE, Clerk of the Council. Min. 89-17, 5/3/89. Confirmed, 8/3/89. Approved.—CARRINGTON, 5/3/89.

Registration number, Occ. 89-3,078; 320 acres; reserve, No. 8,716; county of Nandewar, parish of Therribri; purpose of reservation, for irrigation. Gazetted, 8/3/89.

Occupation authorised. Chairman, Tamworth, and Crown Land Bailiff, Narrabri, informed, 5/4/89. District Surveyor asked to state whether he deems survey necessary.

## No. 66.

## Office Memorandum.

Occ. 89-3,078 not enclosed. Slips are enclosed for charting reserve 8,716, notified 23/2/89, papers not being available.

Mr. Keating.

W.H.H. (for R.H.D.), 5/3/89.

Charted on parish map; book noted.—T.P., 20/3/89. Examined.—R.M., 22/3/89. Dealt with in Misc. Charting Branch. May now be placed with the papers quoted.—R.M. (for J.T.K.) Mr. Landers,—Please place with the papers quoted.—J.O.D. (*pro* R. H. DeLow), 30/3/89. 89-3,969.

## [Enclosures.]

## REVOCATION OF TEMPORARY RESERVE.

Central Division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

No. 8,716 from lease, notified 23rd February, 1889. County of Nandewar, parish of Therribri, containing an area of 320 acres. The Crown Lands within the following boundaries: Commencing near the junction of Maule Creek with the Namoi River, at the south-west corner of George Carter's conditional purchase, portion 19, of 492 acres, exclusive of road; and bounded thence by part of the south boundary of that portion bearing east to a point due north from the western extremity of the northernmost boundary of portion 14 of 320 acres; thence by a line south about 40 chains; thence by a line west to the Namoi River; and by that river downwards, to the point of commencement.

Reserve No. from lease, for special lease, notified this day, is in lieu of the above,

## REVOCATION OF TEMPORARY RESERVE.

Central Division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

Water reserve No. 206 extension, notified 28th April, 1884. County of Nandewar, parish of Therribri, Therribri Run, area 3 acres. The Crown Lands within the following boundaries: Commencing on the right bank of the Namoi River at the south-east corner of portion No. 53 of 3 acres; bounded thence by the east, north, and west boundaries of that portion bearing north, west, and south to the right bank of the Namoi River aforesaid; and thence by that river upwards, to the point of commencement.

Reserve No. from sale, for special lease, notified this day, includes the above.

## RESERVE FROM LEASE FOR SPECIAL LEASE.

Central Division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

County of Nandewar, parish of Therribri, containing an area of 320 acres. The Crown lands within the boundaries of portion numbered S.L. 88-1, shown on plan catalogued Ms. 97 Th., reserved from sale for special lease as No. notified this day.

The above is in lieu of reserve No. 8,716 from lease, cancelled this day.

## REVOCATION OF TEMPORARY RESERVE.

Central Division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

Part of reserve No. 206, county of Nandewar, parish of Therribri, area 320 acres. That part of water reserve No. 206 from sale, notified 10th April, 1867, included within the boundaries of measured portion No. Special Lease 88-1, shown on plan catalogued Ms. 97, Tamworth.

District Survey Office, Tamworth. Reserve No. from sale, for special lease, notified this day, includes the above.

## REVOCATION OF TEMPORARY RESERVE.

Central Division, land district of Narrabri, within the leasehold area of Therribri holding No. 97, notified 11th July, 1885.

Part of reserve No. 7, county of Nandewar, parish of Therribri, area 320 acres. That part of reserve No. 7 from sale, notified 24th December, 1861, included within the boundaries of measured portion No. Special Lease 88-1, shown on plan catalogued Ms. 97, Tamworth.

District Survey Office, Tamworth. Reserve No. from sale, for special lease, notified this day, includes the above.

RESERVE

## RESERVE FROM SALE FOR SPECIAL LEASE.

No. . County of Nandewar, parish of Therribry, containing an area of 320 acres. The Crown Lands within the boundaries of portion numbered Special Lease 88-1, shown on plan catalogued Ms. 97, Tamworth, reserved from lease for special lease as No. , notified this day. The above includes parts of reserves Nos. 7 and 206, and reserve 206 extension, cancelled this day.

## No. 67.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 7 March, 1889.

Replying to yours of 5th instant, Occ. 89-3,425, I beg to inform you that the £6, being the balance of the £16 for the first year's rent of my special lease, was paid into the Treasury some three months ago. Will you please say if I am to pay in another £10 in addition to this amount, or if this will be sufficient until the charges against the deposit of £10 are ascertained.

Yours faithfully,

ALBERT STAFFORD.

Mr. Stafford may be informed that his deposit cannot be disposed of until after the charges incurred against it are ascertained. The whole amount of rent called for must therefore be paid, and when the expenses incurred against his deposit are deducted, the balance, if any, will be refunded.—E.L., 20/3/89.

Yes.—F.H.W. (*pro* Under Secretary), 20/3/89. Corr. Branch. Mr. Stafford informed, 29/3/89.

## No. 68.

## Gazette Notice.

Department of Lands, Sydney, 8th March, 1889.

## LEASE GRANTED FOR A SPECIAL PURPOSE.

It is hereby notified, for general information, that the undermentioned person has been permitted to lease the land specified in the annexed schedule, under the 90th section of the Crown Lands Act of 1884.

The rent for each year must be paid in advance on or before the 31st December of the year preceding, otherwise penalties for late payment will be incurred, and the lease will be liable to forfeiture.

WILLIAM JOHN LYNE.

If the land is not used <i>bona fide</i> for irrigation purposes, to the satisfaction of the Minister for Lands, the lease will be cancelled.

## No. 69.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 19 March, 1889.

Referring to your letter of the 18th ultimo, I have the honor to inform you that a special lease of 320 acres, in the parish of Therribry, county of Nandewar, was, on the 9th instant, gazetted as granted to you, and that as soon as you pay the rent called for you may take possession of the land.

I have, &c.,

H. CURRY

(For the Under Secretary).

## No. 70.

The Under Secretary for Finance and Trade to The Under Secretary for Lands.

## Special Lease.

Sir,

The Treasury, New South Wales, 27 March, 1889.

I have the honor to inform you that the sum of £16 was paid into this office on the 26th instant, being rent during 3rd February, 1889 to 2nd February, 1890, of the special lease mentioned in the margin.

I have, &c.,

W. NEWCOMBE

(For the Under Secretary).

Lessee, Albert Stafford; lease of 320 acres of land for irrigation; parish Therribri, county of Nandewar.

## No. 71.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 29 March, 1889.

In reply to your letter of the 7th instant, I have the honor to inform you that the deposit paid with your special lease application of 320 acres, in the parish of Therribry county of Nandewar, cannot be disposed of until after the charges incurred against it are ascertained.

I am to add that the whole amount of rent called for must therefore be paid, and when the expenses incurred against the deposit in question are deducted, the balance, if any, will be refunded.

I have, &amp;c.,

W. H. CAPPER

(For the Under Secretary).

## No. 72.

The Under Secretary for Lands to The Chairman, Local Land Board, Tamworth.

Sir,

Department of Lands, Sydney, 5 April, 1889.

I have the honor to inform you that the special lease noted in the margin, and recommended to be granted by the Local Land Board at Narrabri, has been approved of by the Executive Council.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

To be noted by the District Surveyor, who will please state whether he considers a survey of the land necessary. Note Register, then to District Surveyor.—See above. Noted, 10/4/89.—W.A.,

10/4/89. As the lease is only for five years, measurement does not seem necessary, the land being to a great extent defined by previous surveys.—A.D., 10/4/89. Forwarded to head office, with reply from

District Surveyor.—J. McDONALD, Chairman, 16/4/89. Misc. Charting Branch,—For notation of lease on the office maps.—H.A. (for E.L.), 1/5/89. Mr. Keating,—Special lease noted on parish map.—

F.J., 31/5/89. Examined.—R.M., 31/5/89. The necessary notations having been made on map

in this office, these papers are herewith returned as requested on S9-6,811 Occ.—R.M. (for J.T.K.), 31/5/89. Mr. Landers, Occupation Branch.

L.B. No. special lease 88-1, Narrabri; lease No. 369; lessee, Albert Stafford; locality, parish Therribri, county of Nandewar; purpose, irrigation; area, 320 acres; term, 4th February, 1889 to 3rd February, 1904; rent, £16.

## No. 73.

Messrs. Stephen, Jaques, &amp; Stephen to The Under Secretary for Finance and Trade.

Sir,

12 and 14 O'Connell-street, Sydney, 13 May, 1889.

We have the honor to tender herewith on behalf of William Francis Jaques, of Therribry Station, near Boggabri, the sum of £3 2s. 6d. in cash, being the amount of rental payable for the current year, in respect of the undermentioned piece of land which our client claims fall into his leasehold area immediately on the cancellation of the undermentioned reserve of which it formed part:—

That portion of reserve from lease No. 52, in the county of Nandewar, parish of Therribry, which was cancelled on the 18th August, 1888, and thereby returned to William Francis Jaques, leasehold area about 1,000 acres, excepting thereout G. Carter's conditional purchase 75-62, containing about 500 acres. Portion in respect of which rent is tendered, 500 acres, at 1½d. per acre, £3 2s. 6d.

The land above referred to or portion thereof, has been alienated by the Crown to one Albert Stafford, as our client is advised illegally.

We have, &amp;c.,

STEPHEN, JAQUES, &amp; STEPHEN.

Mr. Ross. Not tendered to me.—G.E., 14/5/89. Informed.—C., M.R.

## No. 74.

Messrs. Stephen, Jaques, &amp; Stephen to The Under Secretary for Finance and Trade.

Sir,

12 and 14 O'Connell-street, Sydney, 17th May, 1889.

In reply to your letter of the 16th instant, we have the honor to inform you that the sum of £3 2s. 6d. in cash was formally tendered by us over the counter down stairs at your Department, where the letter was opened and the money refused.

We have, &amp;c.,

STEPHEN, JAQUES, &amp; STEPHEN.

£3 2s. 6d. was tendered as stated, but as there was no such amount required on leasehold area referred to, according to Treasury Registers, amount was not accepted. Forwarded to the Under Secretary for Lands.—G.E., B.C. Treasury, 20/5/89.

## No. 75.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 20 May, 1889.

I have the honor to bring under your notice the fact that the land granted me as a special lease, county of Nandewar, parish of Therribri, 320 acres, has not yet been measured, although granted me from the 4th February last.

I beg to urge upon you the necessity that this lease should be measured at once, as it is impossible for me to fully carry out the conditions till the boundaries are defined.

Yours, &amp;c.,

ALBERT STAFFORD.

Mr.

Mr. Stafford may be informed that so far as the Department is concerned no survey of the land is necessary, as the land has to a great extent been defined by previous surveys. However, if writer particularly desires the boundaries of his lease to be defined, perhaps on his undertaking to bear the cost thereof, instructions for the work may issue.—E.L., 5/6/89.

Submitted.—F.H.W., 6/6/89. Approved.—J.N.B., 7/6/89. Mr. Stafford informed.—19/6/89.

## No. 76.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 19 June, 1889.

S. lease No. 369; 320 acres; parish Therribry county Nandewar, for irrigation purposes.

With reference to your letter of the 20th ultimo, urging that the area held by you under the special lease quoted in the margin should be surveyed, I am directed by the Secretary for Lands to inform you that, so far as the Department is concerned, no survey of the land is necessary, as the area has to a great extent been defined by previous surveys.

I am to add that if you particularly desire the boundaries of your lease to be defined, on your undertaking to bear the cost thereof, instructions for the work will issue.

I have, &amp;c.,

W. H. CAPPER

(For the Under Secretary).

## No. 77.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 20 June, 1889.

I again beg to call your attention to my letters of several dates, urging that my special lease of 320 acres for irrigation, county of Nandewar, parish of Therribry, be measured at once.

The lease began on 4th February last, and I paid the first year's rent in before that date, and as the District Surveyor has been measuring land all round this portion, and is now working near it, I respectfully urge that instructions be forwarded at once to the surveyor to measure my land.

I may mention that no notice seems to be taken of my repeated applications to have it measured, and unless this is done, I cannot carry out the conditions of my lease.

Leaving the matter to your consideration.

I am, &amp;c.,

ALBERT STAFFORD.

## No. 78.

Mr. A. Stafford to The Chairman, Land Board, Tamworth.

Sir,

Narrabri, 21 June, 1889.

Will you be good enough to forward me a sketch of my special lease of 320 acres, county of Nandewar, parish of Therribry, as I am informed by the Under Secretary for Lands that it is not necessary that it should be measured.

Will you also inform me if the 10-acre lease granted me first has been cancelled; and, if so, when, and what has become of that portion of land? Is it returned to the leasehold of the run?

May I ask you to give me this information by return of post, as I am defending an action for trespass on this lease.

Yours, &amp;c.,

ALBERT STAFFORD.

Special lease, 88-1, Narrabri, A. Stafford, 320 acres. District Surveyor, for necessary action.—W.A., 24/6/89. The Chairman.—The applicant should probably be advised to apply to the Under Secretary for the desired information.—FRED. POATE, District Surveyor, 24/6/89. Inform. Forwarded to the Under Secretary for necessary action on this letter.—W. ARDILL (*pro* Chairman), Tamworth, 24/6/89. Informed, 24/6/89.

Mr. Stafford may, it is submitted, be supplied with a description of the land leased to him, and also a tracing furnished, showing the lease; and may be informed that the lease of 320 acres was granted in lieu of that for 10 acres previously approved.—E.L., 9/7/89. F.H.W.

S.F., 11/7/89. Approved.—J.N.B., 12/7/89. Corresponding Branch, special, 15/7/89. Mr. Stafford informed tracing and description sent, with lease papers 369, 16/7/89.

## No. 79.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 21 June, 1889.

With reference to your letter of the 19th instant, No. 89-6,811, Occp., stating that a survey of my special lease of 320 acres is unnecessary, I presume that the land has been granted me, as applied for by me to the Local Land Board, that is to say, that the boundaries are as follows:—Commencing at the south-west corner of George Carter's conditional purchase of 492 acres, running east to the intersection of reserve 7 from sale and 52 from lease; thence along the east boundary of that reserve running south to the Namoi River; thence along that river downward to the point of commencement. Please inform me if I am to consider the land contained within these boundaries as my special lease of 320 acres.

I have, &amp;c.,

A. STAFFORD.

27

No. 80.

## Office Memorandum.

THE land referred to on this paper, reserve from lease No. 52, reverted to Therribry holding, by reason of the cancellation of the reserve on 18th August, 1888. 320 acres of it was, however, withdrawn from lease for irrigation on 23rd February, 1889, and granted to Mr. A. Stafford for a special lease for that purpose.

The lessee of the pastoral holding now tenders to the Treasury the sum of £3 2s. 6d., as rent for the area contained in the reserve, contending that the lease granted to Stafford was illegal.

The amount was refused by the Treasury.

Submitted that Mr. Jaques be informed that the special lease granted to Mr. Stafford is considered perfectly legal, and, therefore, the area embraced by that special lease is not included in, nor does it form part of his leasehold area.

S.F., 3/7/89. Approved.—J.N.B., 4/7/89. Corresponding Branch,—Inform special.—H.A., 4/7/89. E.L., 22/6/89. Stephen, Jaques, and Stephen informed.—H.L.T., 4/7/89.

No. 81.

Telegram from The Chairman, Land Board, Tamworth to Mr. A. Stafford.

24 June, 1889.

YOUR letter forwarded to Under Secretary for him to supply information.

WM. ARDILL,  
Tamworth Board Office.

No. 82.

Mr. A. Stafford to The Under Secretary for Lands.

Sir,

Narrabri, 30 June, 1889.

I have the honor to invite your attention to the following facts. In February, 1888, I applied for a special lease, county of Nandewar, parish of Therribri, and paid into the Treasury, £10. In October of the same year I paid £6 into the Treasury, being the balance of one year's rent on this special lease, but as the lease was dated 4th February, 1889, I was again instructed to pay another £16 into the Treasury as rent, which I did in the same month. I beg respectfully to apply for a refund of the first amount of £16, which is not now required, as I have paid into the Treasury two amounts as rent for the same time.

I trust you will look into the matter, and refund me the £16 overpaid.

I have, &c.,  
ALBERT STAFFORD.

Forwarded to the Treasury for refund if rent has twice been paid as stated. The Under Secretary for Finance and Trade.—F.H.W. (for the Under Secretary), B.C., 1/7/89.

The sum of £6 6s. lodged to suspense account on 27th November, 1888, is available for refund, and £3 13s. 7d. remains undisposed of out of the £10 deposit, the charges against which were stated in your letter of 5th March, 1889, to be as yet unascertainable. Will the Under Secretary for Lands be good enough to say whether this may now be refunded in addition to the £6 6s.—G.E., B.C., Treasury, 9/7/89. The Under Secretary for Lands.

No. 83.

The Under Secretary for Lands to Messrs. Stephen, Jaques, and Stephen.

Gentlemen,

Department of Lands, Sydney, 4 July, 1889.

Referring to your letter of the 17th May last, addressed to the Under Secretary for Finance and Trade, respecting the refusal of a sum of money tendered on behalf of Mr. William Francis Jaques, of Therribry, as rental of certain lands within reserve from lease No. 52, in the parish of Therribry, county of Nandewar, I am directed by the Secretary for Lands to inform you that the special lease of the land in question granted to Mr. Stafford is considered perfectly legal, and, therefore, the area is not included, nor does it form part of Mr. Jaques' leasehold.

I have, &c.,  
H. CURRY  
(For the Under Secretary).

No. 84.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 16 July, 1889.

With reference to your letter of the ultimo, addressed to the Chairman, Local Land Board, Tamworth, I am directed by the Secretary for Lands to forward herewith a description of the 320 acres of land, parish of Therribry, county of Nandewar, specially leased to you for irrigation purposes, and a tracing showing the lease.

I am to add that the lease of 320 acres was granted in lieu of that for 10 acres previously approved.

I have, &c.,  
H. CURRY  
(For the Under Secretary).

No. 85.

No. 85.

Mr. A. Stafford to The Chairman, Land Board, Tamworth.

Sir,

Narrabri, 16 July, 1889.

I am in receipt of your wire of even date, replying to my inquiry as to measurement of my special lease, parish of Therribry. Upon turning up the *Gazette*, I find that the portions withdrawn from lease for the purpose covers the land within lines in black ink in sketch attached, but according to the measurement on the map there will only be about 309 acres. As my original lease of 10 acres was not included in the leasehold, I presume that the present lease of 320 includes that of 10 acres as measured, and this will not exceed the 320 acres granted.

I would respectfully suggest that my 320 acres be measured as per lines in sketch as dotted in, as this would allow me to have access to the water for erecting pumping plant on, and would still leave plenty of water frontage on the balance of reserve, and this should not exceed 320 acres.

In any case I have to call your attention to the fact that my lease of 10 acres was extended to 320, so that all the land granted me in the original 10 acres must still be included in the 320 acres, but as the 10 acres was never returned to the leasehold, it was necessary to resume it. I shall be glad if you can forward me by return a sketch, as it is proposed to increase my lease.

Yours, &amp;c.,

ALBERT STAFFORD.

With reference to payment for measuring this lease, I may state that I paid £10 into the Treasury when I applied for it. This is being held to pay for survey. Will it be necessary for me to pay again. If so, I shall gladly do so, as I am anxious to have the land measured at once, as I have been paying rent since February last and cannot occupy the land on account of not knowing the boundaries.

County of Nandewar, parish of Therribri. Dark line denotes boundary (about) as withdrawn from lease; dotted line denotes boundary suggested by me.

District Surveyor, for report as to form proposed.—W.A., 18/7/89. The Chairman. Before reporting on this case, I should like to have the previous papers.—FRED. POATE, 18/7/89. Forwarded to head office for former papers of lease 88-1, Narrabri.—J. M. McDONALD, Chairman, Tamworth, 22/7/89. Inform A. Stafford.—M., 22/7/89.

Submitted that Mr. Stafford's lease be measured as desired by him. There is a sum of £9 19s. 7d. at present lying to his credit at the Treasury, action towards refund of which was being taken, but perhaps this should be retained towards payment of cost of survey. Submitted.—E.L., 24/7/89. F.H.W. S.F.

Approved.—J.N.B., 26/7/89. Correspondence Branch,—Inform Mr. Stafford. Special.—H.A., 26/7/89. Mr. Stafford informed.—H.L.T., 27/7/89. District Surveyor, Tamworth.—F.H.W. (for the Under Secretary), B.C., 30/7/89. Instructions for measurement (on Form F) issued this day to Mr. Licensed-Surveyor Loder. May await receipt of plan and report.—J.T.K. (for District Surveyor), 9/8/89.

No. 86.

## No. 86.

Mr. A. Stafford to The Chairman, Land Board, Tamworth.

Dear Sir,

Narrabri, 17 July, 1889.

Since writing you yesterday *re* my special lease of 320 acres, my barrister has wired me that it is absolutely necessary that the land should be measured at once to show the exact boundary on a plan to be sent to him. Under these circumstances I should take it as a great favour if you could send a licensed surveyor to measure it, and I shall be glad to pay for this being done.

There is no licensed surveyor in or near Narrabri at present that we can get to measure it. If you can send a surveyor I can either meet him at Boggabri or Narrabri, and drive him to the place and back again, so that it need not take more than one day from here, that is to say, if a gentleman can come by train one day he can return the following day.

Apologising for so troubling you on this matter, but it is so important that I feel sure you will assist me if possible.

Yours, &amp;c.,

ALBERT STAFFORD.

L.B. 89-3,485. Former letter with District Surveyor.—W.A., 19/7/89.

## No. 87.

The Chairman, Land Board, Tamworth to Mr. A. Stafford.

(L.B. 89-3,485.)

Sir,

Local Land Board Office, Tamworth, 22 July, 1889.

With reference to your letter of 16th and 17th instant, requesting measurement of your special lease noted in the margin, I am directed by the Chairman to inform you that your letters have been referred to the District Surveyor, and he reports that he would like to have the previous papers relating to the matter; I have therefore forwarded your communications to the Head Office, with a request to transmit here the former papers of the lease for attention.

I have, &amp;c.,

WM. ARDILL,

Clerk in charge.

## No. 88.

T. H. Hassall, Esq., M.P. to The Secretary for Lands.

Dear Sir,

Parliament House, New South Wales, 22 July, 1889.

I have the honor to invite your attention to the following statements made by Mr. Albert Stafford, with respect to his application for special lease, by which he appears to be receiving rather rough treatment. Some time ago, the lessee, Mr. Jaques, entered an action against him for trespass, damages, £500; and to save time, trouble, and expense, Stafford paid £10 into Court, which was accepted, and the action quashed; but now another claim is made for £2,000, which Stafford says can go on as far as he is concerned. He also states that he has made repeated applications that the lease should be surveyed, having lodged £16 with the Department some months ago for that purpose, but has been told that a survey is not necessary, and that it will not be measured.

He then wrote to the Tamworth Office for a sketch of the lease, but was told they could not supply any information, and that his letter was forwarded to the Under Secretary for reply. When applying for a refund of the £16 lodged for survey, he was informed that it was kept in hand to pay for survey, and complains that, although the Department retains his money, they will not survey the land. Upon going to the Local Land Office, he discovered that Surveyor Dewhurst had pencilled the lease in a far different way to the one applied for, the object apparently being to cut off access to the river, and throw the lease into low-lying and swampy ground, where it would be impossible to erect machinery to carry out the work of irrigation.

Stafford states the land is ready to plough, if he was sure of his boundaries.

The *Gazette*, of 23rd February, resuming the land, gives one side line, and then goes on to say about 40 chains south; thence west to Namoi River.

When Stafford's application was granted, the letter conveying the information distinctly stated that it was granted as recommended by the Land Board, which is the way it has been occupied, and the way Stafford desires it to be measured.

Trusting that as the lease was granted to the applicant, he may receive fair play and justice at your hands.

I am, &amp;c.,

T. H. HASSALL.

## No. 89.

The Under Secretary for Lands to Mr. A. Stafford.

Sir,

Department of Lands, Sydney, 27 July, 1889.

In reply to your letter of the 16th instant, relative to your special lease noted in the margin, I am directed by the Minister for Lands to inform you that the lease in question will be measured as desired by you, and the amount (£9 19s. 7d.) at present lying to your credit at the Treasury retained towards payment of such survey.

I have, &amp;c.,

H. CURRY

(For the Under Secretary).

Narrabri;  
S.L. 88-1; 320  
acres for irri-  
gation, parish  
Therribri,  
county Nande-  
war.

No. 90.

## No. 90.

Mr. A. Stafford to The Chairman, Land Board, Tamworth.

Dear Sir,

Narrabri, 3 August, 1889.

I am in receipt of yours, stating that on payment by me of cost, my special lease of 320 acres, county Nandewar, parish Therribry will be measured. I am quite willing to pay the cost, and the Treasury holds £16 of my money, from which the amount can be deducted.

Since writing to you last, I have received a sketch from the Lands Department, Sydney, showing boundary of the land granted to me as a special lease, and if by former survey, this is found to contain exactly the 320 acres granted to me, there will be no need to measure it again; but I fail to see, unless a survey is made that an accurate estimate can be given of the land granted to me, consequently I must urge upon you the immediate necessity for measurement of my lease.

Yours, &amp;c.,

ALBERT STAFFORD.

Special lease 88-1; Narrabri; A. Stafford. Inform that instructions were sent to Licensed-Surveyor Loder, on 9th August, to measure the land in question.—W.A., 12/8/89. Writer informed, 15/8/89.

## No. 91.

The District Surveyor, Tamworth to Mr. Licensed-Surveyor Loder.

(Papers No. 89-3,485 L.B.)

District Surveyor's Office, Tamworth, 9 August, 1889.

MR. LICENSED SURVEYOR LODER is requested at his early convenience to measure 320 acres, parish of Therribry, county of Nandewar, in satisfaction of Albert Stafford's special lease No. 88-1, in the position indicated by red edging on accompanying tracing.\* The measurement not to embrace any of the river frontage above the present south-east corner of portion 52, and not to exceed 320 acres, nor to extend east beyond a line north from the north-west corner of portion 14.

The corners of the portion should be marked sl. 88-1, and the marking of portions 52 of 10 acres, and 53 of 3 acres obliterated on the ground.

FRED. POATE,

District Surveyor.

Returned. This instruction is intended for Mr. Licensed-Surveyor Loder.—P. RIGAUT, 30/8/89. Transferred.—A.B.R., 5/9/89. Returned for reissue.—GEORGE LODER, 25/9/89. Mr. Licensed-Surveyor Manners for action.—FRED. POATE, District Surveyor, 30/9/89. District Surveyor's Office, Tamworth.—Instruction No. 84, 1/10/89. Replied to by my letter, No. 112, of the 16th December, 1889.—JOHN MANNERS, Licensed Surveyor.

## No. 92.

The Chairman, Land Board, Tamworth to Mr. A. Stafford.

Sir,

Land Board Office, Tamworth, 15 August, 1889.

With reference to your letter, dated 3rd instant, asking that your special lease, noted in the margin, may be measured, I have the honor to inform you that instructions to measure the land in question were sent to Mr. Licensed-Surveyor Loder on 9th instant.

I have, &amp;c.,

JNO. M'DONALD,

Chairman.

## No. 93.

Mr. J. M. M'Donald to The Chairman, Land Board, Tamworth.

Dear Sir,

Narrabri, 18 October, 1889.

Re Stafford's special lease. I should be glad to know if instructions for the survey of this special lease have been forwarded to any licensed surveyor. I understand that Mr. Surveyor Loder returned the instructions, being unable to carry out the survey owing to pressure of work.

I am informed that Mr. Surveyor Davidson is now in the locality, and would be able to survey the land immediately.

As a Supreme Court action is pending for trespass committed on this and adjoining lands it would be only fair to have the survey made at once, so as to let Mr. Stafford know exactly what are the boundaries of his land.

Yours, &amp;c.,

JOHN M. M'DONALD.

Get papers.—W.A., 21/10. Papers herewith. District Surveyor, to say how the instructions are held now.—W.A., 21/10/89. Instructions transferred to Licensed-Surveyor Manner, 1st October, 1889. May perhaps be informed that Mr. Licensed-Surveyor John Manners, of Tamworth, has been instructed to survey the land.—M. A. MACLEAN (*pro* District Surveyor), 2/11/89. The Chairman. Inform.—J.M'D., Chairman, 2/12/82. J. M. M'Donald informed, 4/11/89.

## No. 94.

The Chairman, Land Board, Tamworth to Mr. J. M. M'Donald.

(L.B. 89-5,388.)

Sir,

Local Land Board Office, Tamworth, 4 November, 1889.

In reference to your letter of 18th ultimo, relative to survey of the special lease noted in the margin, I am directed by the Chairman to inform you that the District Surveyor reports that Mr. Licensed-Surveyor Manners has been instructed to measure the land in question.

I have, &amp;c.,

WM. ARDILL,

Clerk in charge.

No. 95.

Appendix F.

Narrabri ;  
special lease  
88-1, 320 acres ;  
Albert Stafford.

Narrabri ;  
special lease,  
88 1; A. Staf-  
ford.

## No. 95.

Mr. Licensed-Surveyor J. Manners to The District Surveyor, Tamworth.

(No. 89-112.)

Sir,

16 December, 1889.

I have the honor to transmit herewith the plan\* of an area of 320 acres, numbered S.L. 88-1, in the parish of Therribry, county of Nandewar, which I have measured for special lease No. 88-1 of the Narrabri Land District, applied for by Albert Stafford. \*Appendix G.

This survey has been effected in accordance with instructions No. 84, dated 1st October, 1889, issued by the District Surveyor, Tamworth.

Rental and capital value.—After careful consideration I am of the opinion that the annual value of the land applied for is 6d. per acre, and the capital value of the same is £4 per acre.

I have also the honor to furnish the following information as to—

1. Proximity to railway and township: About 5 miles from Baan Baa.
2. Objections to the lease on the ground of mining occupation or otherwise: Nil.
3. Character of soil: Very good.
4. Grazing capabilities: Very good; 1 acre to 1 sheep.
5. Agricultural capabilities: Very good.
6. Nature of timber: Box and gum.
7. Whether densely or thinly timbered: Lightly.
8. The extent of scrub land: Nil.
9. Whether any of the scrub or brushwood growth is suitable for feeding stock in time of drought: No.
10. The approximate proportion of plain, open forest, thickly timbered, and scrub country: All open forest.
11. Improvements, their value, nature, date of erection, and ownership at date of application: Ring-barking, £16; fencing, £24.

In addition to the above I may state that there is permanent water in the river, and that, owing to the late wet weather, there was a lot of water in the swamp.

I have, &c.,

JOHN MANNERS.

Advance of account 89-110, £8 16s. 4d. passed, 20/12/89.—A.M. Account 90-34, 15s. 9d., for obliteration of portions 52 and 53, passed, 30/4/90.—A.M. Examined and charted on parish map.—R. P. SMITH, 10/1/90. Dealt with in District Survey Office. Plan approved (A.M.), 30/4/90.

May now be forwarded to the Chairman of the Land Board, for appraisalment of rent, &c. It is pointed out that £9 19s. 7d. is on hand for payment of survey fee, the actual cost of which was £8 16s. 4d. Submitted.—M. A. MACLEAN, 31/5/90. The District Surveyor, Tamworth.

Rent account passed.—A.M., 17/6/90. I see by public papers that the Supreme Court have given a decision which bears upon this case.—M. A. MACLEAN, Acting Chief Draftsman, 6/7/90. The District Surveyor. Forwarded to the Under Secretary for Lands, as requested by memo. received to-day.—M. A. MACLEAN (*pro* District Surveyor), 7/7/90.

## Office Memorandum.

*Re Jaques v. Stafford.*

A CASE in which the decision of the Full Court reverses the action of this Department in granting a special lease to the defendant of 320 acres for irrigation purposes while the land was held under pastoral lease by the plaintiff (*vide Daily Telegraph* of 6/6/90).

It is submitted that the papers Occ. 89-8,853, forwarded to the District Surveyor at Tamworth, 20/7/89, be recalled.

Mr. De Low.

J.P.M., 6/6/90.

Yes.—R.H.D. (for Under Secretary), 6/6/90. Register. Received, 6/6/90. The District Surveyor, Tamworth, 6/6/90.

## No. 97.

The Under Secretary for Lands to The District Surveyor, Tamworth.

Sir,

I have the honor to request that you will be good enough to return to this Department as soon as possible papers Occ. 89-8,853 relating to special lease of 320 acres by Stafford, which were forwarded to you on the 20th July, 1889.

I have, &c.,

WM. HOUSTON,

Under Secretary

(*Per* R.H.D.).

Special. Papers herewith, as requested.—M. A. MACLEAN (*pro* District Surveyor), 7/6/90.

Extract from *Daily Telegraph*, 6 June, 1890.

## RIGHTS OF PASTORAL TENANTS.—DECISION BY THE FULL COURT.

## THE CHIEF JUSTICE ON THE LAND ACTS.

SOME points of very considerable importance were decided in the Full Court yesterday in a matter which came before it in the form of a special case. The action was one for trespass, brought by the plaintiff, William Francis Jaques, against the defendant, Albert Stafford, on 14th May, 1889, to recover damages from the defendant. The plaintiff for a number of years had been the pastoral tenant of a station or run named Therribri, in the district of Narrabri. Before the passing of the Crown Lands Act of 1884, the plaintiff, under section 4 of that Act, caused the station to be divided into two parts, and obtained a pastoral lease of the leasehold area, which was duly notified on 11th July, 1885. Within the boundaries of this leasehold area was a piece of land known as reserve No. 52, which had been reserved from lease by a notification in the *Government Gazette* of 9th March, 1888. On 18th August, 1888, by notification in the *Gazette*, the reserve from lease was cancelled. Since the date of the cancellation the lands mentioned had been in the possession of the plaintiff, and used by him continuously until his possession was interfered with by the defendant. On 3rd December, 1887, by notification in the *Gazette* again, it was declared that "special lease" should be a public purpose within the meaning of subsection 7 of section 78 of the Act. By a later notification in the *Gazette* of 21st August, 1888, "irrigation" was declared to be a purpose for special lease under section 90 of the same Act. Prior to 23rd February, 1889, the defendant made application under section 90 of the Act for special lease to him of 320 acres of land for irrigation, the land forming part of what was formerly known as reserve 52, and being the land in respect of which the trespass was alleged. A *Gazette* notice of 23rd February, 1889, declared that, in pursuance of section 108 of the Act, certain land specified in an attached Schedule, and being the 320 acres in question, was withdrawn from lease for irrigation. A lease of the 320 acres for irrigation was, however, granted to the defendant, and notified in the *Gazette* of 8th March, 1889. Since the granting of the lease the defendant had entered upon and made use of the lands, and had prevented the plaintiff from possessing or making use of them. It was in respect of this entering upon and making use of the lands that the plaintiff sought damages for trespass from the defendant. Plaintiff contended that the lease to the defendant was invalid upon the grounds among others that the lands formed part of plaintiff's pastoral holding and leasehold area, and were never duly withdrawn from lease; that if the land could legally be withdrawn from lease under section 78, "irrigation" was never declared a public purpose under that section; that the notification of 3rd December, 1887, was invalid, and "special lease" could not be a public purpose within the section; that nothing had been done to deprive the plaintiff of his rights as pastoral tenant, and that irrigation was never declared to be a public purpose under section 108. On the other hand, the defendant contended the contrary, and alleged that the lease was valid. If the Court should be of opinion that the lease was valid, judgment, it was agreed, should be given for defendant, with costs; whereas, if it should be of opinion that the lease was invalid, judgment was to be given for the plaintiff, with such sum as damages as might be afterwards assessed by arbitration. The arbitrator was to be Mr. William Pirie, of Terrario.

Mr. Salomons, Q.C., and Mr. C. B. Stephen, were for the plaintiff, and Mr. O'Connor and Mr. Pring for the defendant.

The Chief Justice, in giving judgment, said that he hoped it would be clearly understood that in any observations he made he expressly excluded the Land Act of 1889, for no question arising under that Act came then before the Court. He could only trust that it might be found that if any cases should arise under the Act the statute would be so clear in its language as to convey the intention of the Legislature, and clearer than any of the Land Acts which had yet come before the Court. It was impossible for any bench, no matter how it was constituted, to be certain that in any points which were raised under the Land Act of 1884, or indeed, under any of the Land Acts that it was absolutely correct. And although he was about to announce what his decision was in this matter, yet he was not certain that he was giving an absolutely correct decision, that was to say giving the intention or expressing the intention which the Legislature had in passing the law. Nor could he be in any way certain that the decision at which he had arrived on this matter would be upheld should the case go before the Privy Council. That very able, very distinguished, and very learned body might, as it generally did, take a different view of the Land Acts of the colony from that which was taken by the judges who, from time to time, had to consider these Acts of Parliament here, but they had to do the best they could looking at the Act, looking at the imperfect material caused by the phraseology of the Act, find out the intention of the Legislature as expressed in its wording. The argument on behalf of the plaintiff, who was represented by Mr. Salomons, appeared to be this: That the words "Crown lands" in section 90 of the Act, did not come within the definition of Crown lands as applied in section 4, but that they came within the excepting clause of that section; that was that the context necessarily required a different meaning of the expression "Crown lands." "Crown lands" were defined by the section to mean lands vested in Her Majesty, and not permanently dedicated to any public purpose or granted or controlled, to be granted in fee simple. It was quite clear that Crown lands which had been leased did not fall within the definition, and that if they were bound by that definition pastoral lands were Crown lands within the meaning of section 90. But there were the words "unless the context requires a different meaning." By "context" he took to mean the whole Act of Parliament, not the words following just after or the words going just before, but the Act itself. His opinion of this Act of Parliament itself was that it did not require him to give a different construction to the words "Crown lands" than they would receive if he had been confined to the definition in section 4. What was to be gathered from this Act of Parliament as to the intentions of the Legislature with regard to these pastoral leases? He did not go outside the Act; he abstained from making use of any knowledge which he might have gained from reading the debates as to what was going on in the Legislature, but he looked within the four corners of the statute itself. And what did he find? He found in the first instance, before the Act was passed, that there were lessees of Crown lands, and that a certain number of these persons were liable to have a certain portion of the land taken from them on every Thursday, the local land office day, and that there were certain provisions included in the Act by which those persons were required in the first instance to send to the Minister a plan dividing their Crown lands

lands into two portions. The Minister could approve or alter it, but finally it came about that every run in the Colony was divided into two portions, one of which was known as the resumed area, over which he would have an occupation license, but which could be taken from him by way of conditional lease and conditional purchase. But the other portion was called the pastoral area; and of that the lessees had a lease, some for fifteen years, others for ten years, and others again for five years—according to the portion of the Colony in which they were situated. It was evident that the Legislature, seeing the evils which were promoted under the former system of leasing lands, were desirous of giving to the pastoral lessee a certain portion of his run where he would be free from interference during the term of his lease. That being the intention of the Legislature, as evidenced by the passing of that Act of Parliament, they were now asked to say that although that was the intention of the Legislature, still under this particular section the lessee was to have a portion of his run taken from him, not for public purposes but for the benefit of private individuals. It appeared here that 320 acres were taken from him, not for public purposes, however, but for the benefit of a private individual. And that area could be taken at any time by the Governor, who was of course in this case the Ministry, and the Ministry of course being the Minister for Lands. Indeed, by this Act of Parliament the Minister had dominant control. He was the court of final appeal—he was speaking of the 1884 Act—he could determine everything. He was absolute. Thus it came to this, that at the same time the Legislature manifestly intended that the pastoral lessee should have his lease entirely free from interruption from the time specified, and with a liability to pay an increased rental, he should yet be open at the beck of the Minister to this very grave interference with his rights by the Minister granting any number that he might think fit of these leases to private individuals, and for a term exceeding that for which the lessee himself had the land. If they looked at the other sections of the Act they would find by section 86 that the Minister, on the recommendation of the Local Land Board, could declare certain lands scrub lands. Now, did Crown lands there mean lands under pastoral lease? It is quite clear that they did not. Succeeding sections provided that the Minister might lease these scrub lands in certain areas. But could the Minister declare that a pastoral lease, which contained a large area, may be of scrub lands, could he declare those Crown lands to be scrub lands and immediately lease them to some other person and deprive the lessee of his just rights? It was quite clear from section 88 of the Act that he could not do anything of the kind. Under that section, if lands were under pastoral lease containing scrub lands the lessee had the right to apply to have that portion of his lease resumed by the Crown, and he then had a pre-emptive right to have a lease made to him of the scrub lands. In the three sections 86 to 88 “Crown lands” could not mean Crown lands as defined in section 4. So he thought that the same construction should be given to the words “Crown lands” in section 90. He had already pointed out that the policy of the Act, if it was gathered from its wording, although it was to give pastoral lessees tenure for a certain time, yet it was to open up and disturb that tenure. By section 78, under which pastoral leases were created, if the land was required for public purposes, the Governor-in-Council had power to withdraw the land from the lease for that purpose. But the pastoral lessee was then entitled to compensation, and he was also entitled to compensation for any improvements which might be upon the land so withdrawn. Under section 90, if the land was taken from him to the extent of 320 acres, not for public purposes but for private individuals who might want it only to work a limekiln or build an inn, or irrigate a farm to his advantage, the lessee was to have no compensation. And if there should be on the 320 acres any improvements the lessee was to lose them also, for there was no provision for compensation at all. Then, again, to judge from an Act of a later date, by the Act of 1889, there seemed to be a very fair provision that where land was taken out of the lease for some special purpose the old lessee should have a certain time within which to remove his stock from the land, and the new lessee could not impound his stock during that time. They could not look to the Act of 1889 to construe what the intentions of the Legislature were when it passed the Act of 1884. But it afforded a very strong argument as to what the policy was, and it afforded an argument also in favour of the position the Court was now taking up—that if the Legislature had intended to override one lease by another it would have introduced into this or some other section a provision which would have the effect of preventing the clashing of the interests of the two tenants under the Crown. It would have provided in some special way or other that the former tenant should have compensation for improvements or some time in which to leave the land. That being so, they might fairly come to the conclusion that the Legislature did not intend that the Crown lands here should cover lands held under pastoral lease. On the other hand, he recognised the very strong arguments of Mr. Pring that the construction which the Court now gave to the Act might be said to lay up those lands and prevent persons who would work them for the public benefit from getting at them, and that all the things mentioned in section 90 were of a public nature, although they were done for private individuals, such as the construction of wharves and dams and similar works. No doubt that was a very strong argument in Mr. Pring's favour. But, at the same time, giving every consideration to that argument, he did not feel that it at all counterbalanced the more powerful contention which had arisen. Therefore, on the whole of the case, giving the section the best consideration, he had come to the conclusion that the words “Crown lands” in section 90 did not include lands which were held under pastoral lease. He could only give the best construction that he could. He was not certain that he was right; he never had felt certain in giving decisions under this Act of Parliament that he was giving decisions which were absolutely correct. All that they (their Honors) had to do was to give the best interpretation they could, and arrive as well as they could at the intentions of the Legislature as they were expressed in the Act of Parliament. The verdict would be for the plaintiff, and damages would be assessed as stated in the special case.

Mr. Justice Stephen concurred. These Acts were simply a series of puzzles, much more suited to the ingenuity of those who could unravel enigmas than to persons like themselves. The lessee, it seemed to him, had an indefeasible right to his lease for a term of years, and if he came within section 78 he had the right of renewal at the end of the time. If there was power to do something destructive of that principle there would, it might be assumed, be something definite stated in the Act upon the point.

Mr. Justice Foster also concurred. The interpretation of the Act could be given only with very grave doubt. The Legislature had left its intentions in the most uncertain state.

Verdict to go for the plaintiff, with damages, to be assessed by the arbitrator, as agreed upon.

No. 99.

Mr. A. Stafford to The Colonial Treasurer.

Dear Sir,

Narrabri, 9 June, 1890.

At the risk of being considered a nuisance by you, I venture to bring the following facts under your notice, and to ask your advice and assistance.

I am the defendant in the action case heard in the Supreme Court, on Thursday last (which you have no doubt seen reported in the papers "Jaques v. Stafford"). The facts of the case are: That I obtained a "special lease" for irrigation from the Government; in 1888 I applied for it, and it was granted in the manner laid down by the Act. I obtained this lease for fifteen years, and paid the first years rent, whereupon I received from the Minister authority to occupy this land. I took possession and began making improvements, and after I had spent a considerable sum upon it, the lessee of the run (on which the special lease was situate) actioned me for trespass. I defended the case, relying on my title obtained from the Minister, with the result that the Supreme Court gave a verdict for plaintiff, by which I lose the land and all improvements upon it, and also the money spent in defending the case.

I now venture to ask your advice as to whether the Government will compensate me for the loss through their failure to complete their agreement to lease the land for fifteen years. I am only asking for the actual amount expended by me in maintaining my title to the land, and what I have actually expended on the improvements.

If you think advisable will you place my case before the Minister for Lands, as I think I am justly entitled to compensation, or if you advise I will personally wait on the Minister to ask his attention to this matter. Trusting that you will afford me your assistance and advice in this very serious matter for me.

I am, &amp;c.,

ALBERT STAFFORD.

The Under Secretary for Lands.—The Treasury, B.C., 10/6/90. The Minister for Lands,—I should be glad if my honorable colleague would consider this matter.—W.M., 18/6/90. Mr. Ross,—Please inform for Under Secretary.—F.K., 18/6/90. Done.—19/6/90. M. R.—The Under Secretary for Lands.—The Treasury, B.C., 19/6/90.

## No. 1.

## Application by James Maher.

[C.P. No. 215 of 1887.]

Crown Lands Act of 1884—(Part III, section 26).

Application for conditional purchase.

To the Land Agent at Burrowa.

Coppabella, Bookham, 22 December, 1887.

I HEREBY apply for 540 acres of Crown lands as an original conditional purchase, and I tender the sum of £54, being a deposit of 2s. per acre thereon. A description of the land applied for is on the back hereof, and the prescribed declaration is attached hereto. The land applied for is improved. The nature and position of the improvements are as follows:—Tank on western end of portion 62.

Disallowed 23rd  
July, 1889.

## Description of the land applied for.

Eastern division, county of Harden, parish of Coppabella, 540 acres: commencing at the south-east corner of portion 198 of 100 acres; and bounded thence by lines running in a north-easterly direction along the boundary line of leasehold area 290 to a point; thence north to south-east corner of portion 62; thence west along southern boundary of said portion to western side of road from Reedy Creek to Binalong; thence along the road in a northerly direction to where it joins the northern boundary of portion 62; thence west along southern boundaries of portions 61 and 95, to a point on the eastern boundary of portion 80; thence south to north boundary of conditional purchase 87-32; thence east along said north boundary and part of northern boundaries of portions 94 and 198; thence south along eastern boundary of portion 198 to point of commencement.

JAMES MAHER.

Present and all previous holding of the same series.  
Conditional purchase—  
L. A. No., 215.  
Date of application, 1887.  
540 acres.

This is the application marked A referred to in the annexed declaration of James Maher, made before me at Burrowa, this 22nd December, 1887.

G. S. RIDLEY, J.P., &amp;c.,

A Commissioner for Affidavits.

This application (together with the deposit of £54) was lodged with me by James Maher, this 22nd day of December, 1887, at 15 minutes past 10 of the clock forenoon.

G. S. RIDLEY,

Land Agent at Burrowa.

Plan H 5,285-1,716, county of Harden, parish Coppabella, portion 224, of 537 acres.

[Enclosure.]

[C.P. No. 215 of 1887.]

Crown Lands Act of 1884—(Part III, sections 24, 26, 42, and 47).

Declaration by applicant for a conditional purchase to accompany application.

I, JAMES MAHER, of Coppabella, Bookham, farmer, do hereby solemnly declare and affirm that I am the applicant for the conditional purchase, as described in the application hereto annexed and marked A, and that the several answers to the questions in the Schedule hereto are true and correct. And I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

JAMES MAHER.

Made before me at Burrowa, this 22nd }  
day of December, 1887,

G. S. RIDLEY, a Commissioner for Affidavits.

[C.P. No. 215 of 1887.]

Crown Lands Act of 1884—(Part III, sections 24, 26, and 47).

## Schedule.

1. What is your name? James Maher.
2. What is your age? Forty-one.
3. State year and date of birth? 12th July, 1846.
4. Are you married, single, or a widower? Married.
5. Where have you resided for the past two years? and have you during that period borne any name or names other than your present names—and if so, what? No; at Doppabella.
6. Have you been in the employment of any person during the last two years? If so, state of whom. No.
7. Do you intend using the land now applied for solely for your own use and benefit? Yes.
8. Have you entered into any agreement or arrangement, by which any person other than yourself can acquire any interest in the land you apply for? No.
9. Is there any understanding between you and any person in reference to the land applied for that will tend to defeat or evade the provisions of the Crown Lands Act of 1884? No.
10. Are you under any obligation that will prevent you from fulfilling the law in regard to the land you apply for? No.
11. Do you hold any land from the Crown requiring residence at the present time? No.

12. Do you hold any conditional purchases or conditional leases? If so, state the land district in which they are situated, and the respective dates of taking up the same.—Yes; conditional purchase 87-305, selected 19th December, 1882, and additional thereto.

13. Do you already hold a conditional purchase, without conditions of residence, under the Crown Lands Act of 1884? No.

14. Have you at any time made any conditional purchase of any kind under the Crown Lands Act of 1884, or any of the repealed Acts? Yes; see answer to No. 12.

15. If you hold conditional purchases, are they mortgaged or encumbered in any way, and if so, to whom? Yes, to the Bank of New South Wales.

16. Do you understand the conditions of residence and fencing required by the Crown Lands Act of 1884? Yes.

JAMES MAHER,  
Coppabella, Bookham.

Signature of Attesting Witness—

G. S. RIDLEY, a Commissioner for Affidavits.

## No. 2.

### Application by J. Maher.

Form 3.

[C.P. No. 9 of 1888.]

Crown Lands Act of 1884—(Part III, section 42).

Application for conditional purchase.

To the Land Agent at Burrowa.

Coppabella, Bookham, 19 January, 1888.

I HEREBY apply for 100 acres of Crown lands as an additional conditional purchase, and I tender the sum of £10, being a deposit of 2s. per acre thereon. A description of the land applied for is on the back hereof, and the prescribed declaration is attached hereto. The land applied for is not improved. The nature and position of the improvements are as follows:—

Cancelled,  
20/11/88.

Description of the land applied for.

Eastern Division, county of Harden, parish of Coppabella, 100 acres, being forfeited conditional purchase 84-192, and known as measured portion 198, Coppabella (see *Government Gazette*, 14th December, 1887).

19 January, 1888.

JAMES MAHER.

Present and all previous holding of the same series.

Conditional purchases—

## No. 3.

## The Surveyor-General to The District Surveyor at Goulburn.

[Very urgent.]

WITH reference to your memo. requesting that all information available be supplied to you, regarding the land edged pink on accompanying tracing, and to which a reply was sent from this office, I have now to request that you will kindly inform me as to what information has been obtained by you.

I understand that some question had arisen as to whether the land was within the leasehold area of Coppabella or resumed area of Cumbamurra Holdings.

C. J. SAUNDERS  
(For Surveyor-General).

The matter referred to was submitted to the Local Land Board for consideration, in connection with conditional purchase 87-171, and conditional lease 87-112, Burrowa. In submitting these papers, it was suggested that the opportunity should be availed of to establish the northern and eastern limits of leasehold area 290, and at the same time southern limit of resumed area No. 227, of Cumbamurra Holding. The official papers have not yet been returned to me, but from inquiries made at the Board's office, it has been ascertained that the conditional purchase and conditional lease referred to were disallowed at applicant's request, and the Court then deemed it unnecessary to take any action in regard to establishing the run boundary. At present, therefore, I am unable to afford any information, but Mr. Licensed-Surveyor Belcher is, in about a week, going to the locality, and I propose instructing him to collect such information as will definitely settle the matter.—J. L. TRITTON, Acting District Surveyor, 25/2/88. The Surveyor-General.

Has Mr. Belcher supplied the information referred to?—A.B.M. (for Chief Draftsman). The Acting District Surveyor, Goulburn.

Not yet; but he was in town last week, and told me that one lessee had agreed to a boundary, and he thought the other would also agree. The latter party, however, resided in some other part of the Colony, but a reply was early expected. As soon as it reaches this office, it will be sent on to Sydney.—J. L. TRITTON, Acting District Surveyor, 23/3/88.

Mr. M'Ninn,—What action is pending this reply?—C.J.S., 26/3/88.

The new parish map of Coppabella has been sent to this branch to have the holdings charted. It cannot be stated whether the country edged pink on enclosed tracing forms part of the leasehold area of Coppabella, or the resumed area of Cumbamurra Holdings.—A.B.M., 27/3/88.

The Chief Draftsman,—Let me see the map.—C.J.S., 29/3/88.

## No. 4.

## The Acting District Surveyor, Goulburn, to Mr. Licensed-Surveyor Belcher.

District Surveyor's Office, Goulburn, 1 March, 1888.

MR. LICENSED-SURVEYOR BELCHER is requested, at his early convenience, to report upon the apparent encroachment of leasehold area No. 290 upon the resumed area No. 227.

As Mr. Belcher is about to carry out some instructions in the parish of Coppabella, in the county of Harden, I would desire that advantage should be taken of this visit to interview the lessees of Cumbamurra and Coppabella Pastoral Holdings, and an endeavour made to obtain their consent in writing to the adoption of a common line for the division of the areas referred to.

A lithograph showing the various boundaries is forwarded herewith; as is also an extract from report to Land Board, on Silas Cross' conditional purchase 87-171, and conditional lease 87-112 (now disallowed at applicant's request).

J. L. TRITTON,  
Acting District Surveyor.

The required information is now returned herewith. The lessees have signed the accompanying lithograph, and agreed upon a common boundary as shown by yellow band.

This extract was not sent to me with this memo.

28 March, 1888.

S. H. BELCHER.

## No. 5.

## The Acting District Surveyor, Goulburn, to The Under Secretary for Lands.

29 March, 1888.

IN connection with previous correspondence, I now do myself the honor to forward herewith copy of a report to the Local Land Board, on conditional purchase, 87-171, and conditional lease 87-112, Burrowa, by Silas Cross, which I understand have been disallowed at applicant's request, also a memorandum to Mr. Licensed-Surveyor Belcher and a lithograph of the parish map of Coppabella, on which a boundary line, to which the lessees have assented in writing on the face of the plan, is shown by yellow edging. In regard to the latter part of my memorandum to the Board, it appeared from inquiry at the Board's office that, as the conditional purchase and conditional lease of Silas Cross were disallowed, no steps were taken towards establishing the limit of resumed area 227, and therefore I asked Mr. Belcher to see the lessees whose agreement to a definite boundary is now secured.

I have the honor to recommend adoption of that boundary as soon as practicable, in order that applications for land adjoining it may be readily dealt with.

J. L. TRITTON,  
Acting District Surveyor.

Mr. Williams,—Send this to Chief Draftsman.—E.L., 5/4/88.

[Enclosure.]

## [Enclosure.]

Conditional purchase, 87-171; conditional lease, 87-112, Burrowa; county of Harden, parish of Coppabella.

Conditional purchase, 87-171 is an application for land, which apparently falls within leasehold area, No. 290, forming western part of Coppabella holding, and should probably be disallowed.

Conditional lease, 87-112, being dependent upon conditional purchase, 87-171, should probably also be disallowed.

In dealing with these cases a doubt arose as to whether the boundaries of leasehold area No. 290 were correctly charted on the parish maps, and further information was sought from the Under Secretary, whose reply indicated that they are only shown approximately, but it is stated that on the plan submitted for division of Coppabella Holding, the boundary was shown where indicated by red hatched lines on lithograph herewith, and that a description of Coppabella Run, dated 1851, mentions the creek as the northern boundary, but that it is not reliable (*vide* Occ. 87-13,575 herewith). Advantage might be taken of this opportunity to establish the northern and eastern limit of leasehold area 290, and at the same time the southern limit of resumed area No. 227, of Cumbamurra Holding, which is indicated on lithograph by red edging.

Perhaps this would be arrived at by a mutual arrangement between the parties interested, having due regard to the public interest.

The Chairman.

J. L. TRITTON,  
Acting District Surveyor.

In the event of that part of the boundary agreed on by both lessees between Cumbamurra and Coppabella Holdings (coloured yellow on accompanying lithograph) being adopted, would the district surveyor report as to what effect it would have on part of conditional purchase 87-171, and part of conditional purchase, 87-215, parish of Coppabella, county Harden, which would both be in the leasehold area of Coppabella Holding.—A.B.M. (for Chief Draftsman). The District Surveyor, Goulburn.

## No. 6.

Memo. from The Acting District Surveyor, Goulburn, to The Chief Draftsman.

29 March, 1888.

I HAVE been directed by the District Surveyor to inform you that a lithograph of the map of Coppabella, on which is endorsed the joint agreement of the lessees of Coppabella and Cumbamurra Pastoral Holdings to a common boundary, has this day been forwarded to the Under Secretary for Lands under cover of memorandum of even date.

ARTHUR A. BADCOCK.

Look up papers please; this is the matter we had in hand recently, when Mr. Acting-District Surveyor Tritton was in town.—C.J.S., 3/4/88.

## No. 7.

The Acting District Surveyor, Goulburn, to The Chairman, Land Board, Goulburn.

9 May, 1888.

CONDITIONAL purchase, 87-215, for 540 acres, 26th section, dated 22nd December; additional conditional purchase, 88-9, for 100 acres; conditional lease, 88-8, for 640 acres, 19th January, by James Maher, Burrowa Land District, county of Harden, parish of Coppabella.

Conditional purchase, 87-215.—This is an application for that part of portion 62, westward of the road from Coppabella to Binalong, and the unmeasured land to the west and south, as delineated on the accompanying tracing by red tint. Portion 62 was formerly held under conditional purchase 76-149, by John Gilhooley, which was forfeited by *Gazette* notice on the 9th August, 1881, and is vacant Crown land. I am not aware of any objection to entertaining this application, provided it be held to fall within resumed area No. 227, subject to payment of necessary subdivision fee.

Additional conditional purchase, 88-9.—This application is for measured portion 198, which was held under conditional purchase 84-192, by Owen McCarthy, and declared forfeited by *Gazette* notice, 14th December, 1887. The portion is now vacant Crown land. It adjoins the previous holding, but provisional approval will depend upon the action taken with regard to conditional purchase 87-215.

Conditional lease 88-8 is for land to the east of conditional purchase 87-215, and to the south and west of Silas Cross' conditional purchase, 87-171, and conditional lease, 87-112, as indicated by blue broken lines. This description divides the lease into two parts, the larger portion falling wholly within leasehold area 290; and therefore only about 100 acres, being the southern part of portion 62, are available under the application. As part of portion 62 was held under conditional purchase 87-171 by Silas Cross of prior date, disallowed at Court held 16th February, 1888, I presume the present applicant should not be called upon to pay the subdivision fee entailed thereby. This will not exempt applicant from payment of the requisite subdivision fee with regard to his conditional purchase 87-215.

In connection with the application of Silas Cross a difficulty arose in regard to defining the limits of leasehold area No. 290 and resumed area No. 227; and, a boundary not having been established owing to the withdrawal of the conditional purchase and conditional lease, the matter was referred to Mr. Licensed-Surveyor Belcher, who, when in the locality, interviewed the managers of Cumbamurra and Coppabella Holdings, and obtained the owners' consent in writing to a definite boundary, as shown on lithograph herewith by yellow edging. If that boundary be adopted, both conditional purchases and conditional lease would fall into leasehold area 290, and it is now submitted whether this should be done, and the applications disallowed, or whether, in view of the condition of the maps at date of application, the boundary should be further modified so as to exclude them from the leasehold area referred to.

Perhaps a further modification, as shown by black band, might be effected.

J. L. TRITTON,  
Acting District Surveyor.

Applicant notified, 5/6/88. Court, Binalong, 20/6/88. The District Surveyor to note.—W.S., 27/8/88. Noted.—AN. B.

## No. 8.

## The Acting District Surveyor, Goulburn, to The Under Secretary for Lands.

9 May, 1889.

Lithograph  
herewith.

WITH reference further to that part of the boundary between leasehold area 290 and resumed area 227, in the parish of Coppabella, and the limits agreed upon by the lessees of Cumbamurra and Coppabella Holdings, the question as to the position of the boundary of leasehold area 290 has been resubmitted to the Land Board in connection with conditional purchases 87-215 and 88-9, and conditional lease 88-8, by James Maher, which, according to the limits agreed upon, as above mentioned, fall within leasehold area 290; and it has been suggested whether a further modification more in accord with the limits shown on maps might be effected, as indicated by black band, to allow of the confirmation of part of the applications. The settlement of the boundary should therefore, I presume, await the decision of the Board.

J. L. TRITTON,

Acting District Surveyor.

The Chief Draftsman.—E.L., 14/5/88. Mr. M'Minn.—C.J.S., 14/5/88. Reminder sent to District Surveyor, 23/7/88. Reminder sent to District Surveyor, 1/10/88. Memo. sent to District Surveyor, 9/1/89.

## No. 9.

## Decision of the Local Land Board at Binalong.

Crown Lands Act of 1884—(Part II, section 14, Subsection 4).

New South Wales, }  
to wit. }

WHEREAS on the 20th day of June, 1888, it became a matter for investigation before us, the applications of James Maher for the conditional purchase of 540 acres and 100 acres, Nos. 87-215 and 88-9, and for a conditional lease of 640 acres, No. 88-88.

The applicant appeared.

And having taken evidence and inquired into the said matter, a report from the Acting District Surveyor was taken into consideration, in which it was stated that the conditional purchases applied for were of the part of measured portion 62, parish of Coppabella, westward of the road from Coppabella to Binalong, and unmeasured land to the west and south, and measured portion 198, and the lease of land to the east of that first mentioned, and to the south and west of Silas Cross' application Nos. conditional purchase 87-171 and conditional lease 87-112, thus being divided into two parts, the larger falling wholly within leasehold area No. 290, and leaving only about 100 acres available, being the southern part of portion 62. It was further pointed out that in connection with previous applications a difficulty had arisen in defining the respective limits of the leasehold area No. 290 and resumed area No. 227, which it had been proposed to arrange by accepting a definite boundary agreed to by the respective owners, and shown upon an accompanying lithograph by yellow edging.

Having deliberated, the Board decided to return the first-mentioned application to the District Surveyor for measurement, and approved of the proposed subdivision of portion 62.

The Board further expressed a desire to have before them the documents or correspondence relating to the arrangement of boundaries between the lessees of the leasehold and resumed areas aforementioned, observing that any arrangement affecting the former would be of no effect unless duly ratified by the Minister.

The application for a conditional lease in so far as it clearly encroached upon the leasehold area (irrespective of the arrangement referred to), as shown by the parish maps, was disallowed, the area of 640 acres being thus reduced to 100 acres.

The further consideration of the application for portion 198 was deferred, pending disposal of the question as to the boundaries.

Given under our hands at the office of the Local Land Board, at Binalong, in the Colony of New South Wales, this 20th day of June, 1888.

A. O. MORIARTY,  
Chairman.  
WILLM. J. E. WOTTON,  
Member.

[Enclosure.]

THIS deponent, *James Maher*, of Bookham, in the Colony of New South Wales, grazier, being duly sworn, saith:—I am the applicant for 540 acres, measured as portion 224 of 537 acres; I know a dam or tank on that portion; I have known it for the last nine or ten years; it was in existence before 1881; it has not been altered in any way since then; the cost of it was £45; the fencing (six-wire), some of it inside the line and some outside, has been on the land about thirteen or fourteen years; the fencing on the land I value at £15 per mile; the posts are rotten and the wire will not stand straining again; the brush fence was not on the land in 1881; it has been there about four or five years; I consider it valueless.

Sworn by James Maher, at Binalong, this }  
20th November, 1888, before us,— }

JAMES MAHER.

A. O. MORIARTY, Chairman.  
WILLM. J. E. WOTTON, } Members.  
A. B. PATERSON, }

## No. 10.

## Mr. A. T. Wilshire to The Chairman, Land Board, Goulburn.

Sir,

Coppabella, Bookham, 28 August, 1888.

I am instructed by the owner of this property to inform the Board that he claims the improvements upon the land recently selected by James Maher. Said improvements consist of 1 mile 1 chain six-wire fencing, £30; tank, value £90; and to request that payment for such improvements be made to me by the incoming selector, with concurrence of the Board.

I have, &amp;c.,

A. T. WILSHIRE.

Put with case when ready for Court action.—J.G.B.

No. 11.

## No. 11.

Mr. Licensed-Surveyor S. H. Belcher to The District, Surveyor;

Sir,

Camp Reed's Flat, 4 September, 1888.

I have the honor to transmit herewith the plan of one portion of land containing 537 acres, numbered 224, in the parish of Coppabella, in the county of Harden, conditionally purchased by James Maher under the 26th section of the Crown Lands Act of 1884, measured by me on 13 August, 1888, in accordance with instructions No. 88-95, dated 28 July, 1888.

This portion embraces some very rough and rocky country, adapted for grazing only. It is timbered with box chiefly, and a little oak. The soil is of a very strong and rocky nature. The improvements consist of tank, worth about £50; six-wire fencing, worth about £30; and brush fencing, worth about £2; the property of the lessee, excepting the brush fence.

The southern boundary has been run approximately, as shown on tracing with instructions. There is no sign of any marked line anywhere near.

The lessee informed me after survey that a boundary was run by one of the Commissioners, where the wire fence is, and that that fence is the northern boundary of the run. I may state, however, that he had previously accepted a boundary by mutual consent with the lessee of Cumbamura run, and is anxious to know which is to be the boundary of the leasehold area.

The western boundary of portion 62 has been obliterated.

I have, &amp;c.,

STUART H. BELCHER,

Licensed Surveyor.

Plan H. 5,285, 1,716 approved.—J.L.T., Acting District Surveyor, 10/10/88.

Tracing herewith for Inspector.—Portion 224, of 537 acres, has been measured of the form approved at Court held 20th June, 1888, the northern boundary of leasehold area 290 has been fixed approximately from the position shown on parish map; and the area available for the conditional purchase is thus found to be deficient by 3 acres of the quantity specified. There are improvements consisting of tank, valued by the surveyor at £50; wire fencing, £30; and brush fencing, £2; total, £82; of which only the tank is specified in the application, and perhaps this might be held to invalidate the application (*vide* decision in case of Patrick J. Kelly in the Appeal Court, Vol. 1, Part VIII of Reports). A letter, 88-3,895, L.B., is enclosed on behalf of the lessee of Coppabella Holding, claiming the improvements upon the land, and asking the concurrence of the Board in payment being made to him by the selector of the amount of the improvements. By the lessee the tank is valued at £90 and the fencing at £30, total £120. The question of the boundary of the leasehold area referred to by the surveyor has been submitted under separate cover on 88-2,024, L.B., and subject to a decision on that point, and on the matter of improvements. I am not aware of any objection to confirmation of the conditional purchase desired for the reduced area.—J. L. TRITTON, Acting District Surveyor, 10/10/88. The Chairman.

Applicant notified, 5/11/88. Court Binalong, 20/11/88. Partly heard. Adjourned to next sitting for the Minister's decision as to the boundary referred to on 88-2,024, and for notice to lessee as to the improvements.—A.O.M., W.J.E.W. Court Binalong, 18/6/89. Applicant notified, 3/6/89. Next sitting.—A.O.M., F.W.H. Court, Binalong, 23/6/89. Applicant notified, 8/7/89. Adjourned to Burrowa, 24th instant.—A.O.M., F.W.H., W.B. Disallowed, as falling in the leasehold area No. 290.—A.O.M., F.W.H., W.B. Applicant (refund order, £54), Crown Land Agent, and Treasury, informed, 26/6/89. Register noted.—COL. E.B. The District Surveyor, 5/9/89. Noted.—AN. B. Notation removed from map. Plan noted.—H.N., 24/9/89. W. D. ARMSTRONG (*pro* District Surveyor), 30/9/89.

## No. 12.

The Acting District Surveyor, Goulburn, to The Chairman, Land Board, Goulburn.

Additional Conditional Purchase 88-9 for 100 acres, by James Maher, dated 19th January.

Burrowa Land District, county of Harden, parish of Coppabella.

THIS application came before the Board at Court held 20th June, 1888, and was deferred pending disposal of the question as to the boundaries between leasehold area 290 and resumed area 227, the Board expressing a wish to have before them the documents relating to the agreement between the lessees as to the position of the respective boundaries.

It is now pointed out that under similar cases recently heard before the Appeal Court, it would seem that the additional conditional purchase 88-9 should be disallowed, as the original conditional purchase has not yet been confirmed, and as the land has been notified as reserve 5,566, it will not again be available.

With regard to the question of the run boundaries, the agreement to the proposed modification indicated by yellow edging on lithograph, and referred to in my submission of 9th May last was signed by the lessee of resumed area 227, on the one hand, and by the attorney for the lessees of leasehold area 290 on the other, in the form of foot-note on the face of the lithograph; and it is now ascertained from Mr. L.-S. Belcher's report on the measurement of portion 224 (88-4,072 L.B.) that no marks whatever of the original boundaries of the run could be traced, but that after survey, it was stated by the lessee (presumably of resumed area 227) that a boundary had been run by one of the Commissioners where the wire fence is shown, as the northern boundary of leasehold area 290.

J. L. TRITTON,

Acting District Surveyor.

10 October, 1888.

Applicant notified, 5/11/88. Court Binalong, 20/11/88. Conditional purchase 88-9 disallowed.—A.O.M., A.B.P. Applicant (refund order £10), Crown Land Agent and Treasury informed, 29/11/88. The Board decided to submit this report as to the boundary for the Minister's pleasure.—A.O.M., A.B.P. The Under Secretary for Lands.—B.C., 10/12/88. Mr. Landers.—F.H.W., 10/1/89. Mr. M'Mian,—In connection with 88-4,389 Occ.—E.L., 15/1/89.

## No. 13.

The Chairman, Land Board, Goulburn, to The Under Secretary for Finance and Trade.

Conditional Purchase, Revenue Refunded.

Sir,

Local Land Board Office, Goulburn, 20 November, 1888.

Burrowa; James  
Maher; date of  
application, 19th  
January, 1888;  
area applied for,  
100 acres;  
amount of re-  
fund, £10.

I have the honor to request that you will be good enough to refund to Mr. James Maher, of Coppabella, Bookham, the sum of £10, being deposit paid in connection with the conditional purchase specified in the margin, the same having been disallowed.

I have, &c.,

A. O. MORIARTY,  
Chairman.

## No. 14.

The Chairman, Land Board, Goulburn, to Mr. J. Maher.

Conditional Purchase.

Sir,

Local Land Board Office, Goulburn, 20 November, 1888.

Burrowa; James  
Maher; date of  
application, 19th  
January, 1888;  
area applied for,  
100 acres;  
amount of re-  
fund, £10.

I have the honor to inform you that the conditional purchase applied for by you, as per margin, has been disallowed, the original conditional purchase not having been confirmed.

2. The deposit paid thereon, amounting to £10, will be refunded to you by the Colonial Treasurer on application, or will be paid into any Bank you desire, by filling up the order at foot hereof, and forwarding the same, together with this communication, to the Under Secretary for Finance and Trade, Sydney.

3. It is pointed out that your signature to such order must be witnessed by a magistrate, clergyman, or clerk of Petty Sessions.

I have, &c.,

A. O. MORIARTY,  
Chairman.

## No. 15.

The Chairman Land Board, Goulburn, to The Crown Land Agent, Burrowa.

Sir,

Local Land Board Office, Goulburn, 20 November, 1888.

Conditional  
purchase 88-9,  
deposit paid £10.

I have the honor to inform you that the application made by James Maher on the 19th January, 1888, for the conditional purchase of 100 acres of land has been disallowed, original conditional purchase not having been confirmed.

A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &c.,

A. O. MORIARTY,  
Chairman.

## No. 16.

Mr. A. T. Wilshire to The Secretary for Lands.

Sir,

Coppabella, Bookam.

James Maher;  
conditional  
purchase 87-215,  
portion 224,  
537 acres;  
parish  
Coppabella;  
C.L. 88-8;  
225,100 acres.

The selections applied for indicated in the margin, and now under consideration by the Binalong Land Court. I would respectfully submit that the north boundary of the leasehold area of the Coppabella Run was defined and fenced prior to the division under the existing Crown Land Act. Also that the above-mentioned application is for land situated within boundaries of leasehold and consequently ineligible for selection. My statement will, I think, be confirmed by Mr. Surveyor Belcher, of the Goulburn Survey Office, to whom I pointed out the boundaries between Coppabella and Cumbamurra Runs. But so that no mistake might arise an amended accurate boundary was mutually agreed upon by the several lessees, which, as it runs chiefly upon accurate survey lines easily identified and closely approximates the boundaries as originally described by Mr. Commissioner Palmer, was deemed best.

I have, &c.,

A. T. WILSHIRE  
(*Pro* Commercial Banking Company).

Conditional lease application 88-8 made by James Maher at Burrowa has not been gazetted yet. Please attach papers if received from Land Board, and forward to Mr. Williams.—A.A.M., 3/12/88. Mr. Croft.—Papers have not been received from Land Board to date.—S.B., 4/12/88. Mr. Williams. Referred to the Chairman of the Land Board, Goulburn.—F.W. (*pro* Under Secretary), B.C., Lands, 12/12/88.

Forwarded to the Under Secretary for Lands in connection with L.B. 88-2,024 with 88-4,641, submitted on the 21st December, as to this matter of boundary. Maher's cases quoted in margin of this letter are awaiting decision on this point.—JNO. G. BLAXLAND (for the Chairman), 22/2/89. Land Board Office, Goulburn.

The boundary approved of on 90-243 Occ. will cause Maher's conditional purchase to be disallowed. Papers should now be returned to the Board.—E.L., 19/2/90. Mr. Capper Conditional Sales Branch. Mr. Yorke.—How does the original conditional purchase stand and please quote papers.—W.H.C., 4/3/90. Original conditional purchase 87-215. Disallowed, 23/7/90. Papers 89-2,025 Cor.—F.G., 7/3/90.

No further action in Conditional Sale Branch. Lease Branch.—A.S., 6/5/90. Conditional lease 88-8 disallowed, 23/7/89, as conditional purchase was disallowed.—F.W., 9/5/90. The Chairman of the Land Board, Goulburn.—F.W. (*pro* Under Secretary), B.C., Lands, 9/5/90.

No. 17:

## No. 17.

Mr. J. Maher to The Under Secretary for Lands.

Sir,

Sydney, 4 December, 1888.

I hereby authorize my agent, Mr. James Carroll, of Wentworth House, Sydney, to act for me in the matter of my disputed selection and lease, noted hereunder, and I request that you will please address all correspondence relating thereto to his care.

Yours, &amp;c.,

JAMES MAHER.

District, Burrowa; areas, 540 acres and 100 acres; C.L. 640 acres; name, James Maher; date, 22nd December, 1887, and 19th January, 1888; No. conditional purchase, 87; additional conditional purchase, 88-9; papers, 88-4,389 Occ.

## No. 18.

The Surveyor-General to The District Surveyor, Goulburn.

[Very urgent.]

9 January, 1882.

WOULD the District Surveyor be good enough to state if any settlement has been arrived at between the lessees and the Board, *re* holding boundary between the resumed area of Cumbamurra and leasehold area of Coppabella.

The publishing of the parish map of Coppabella still remains in abeyance, pending some decision in the matter.

A. B. M'INN

(For Surveyor-General).

The difficulty in regard to the position of the boundary referred to was submitted to the Land Board, in connection with conditional purchase 87-215, Burrowa. Upon inquiry to-day at the Chairman's Office, I was informed that the matter had been referred to the Minister, and was sent to the Under Secretary on the 11th ultimo (papers L.B. 88-4,641, Goulburn).—J. L. TRITTON, Acting District Surveyor, 10/1/89.

Mr. M'Inn.—C.J.S., 11/1/89.

## No. 19.

Office Memorandum.

*Re* holding boundary between resumed area No. 227, and leasehold area No. 290.

At the time of division an overlap occurred between the resumed area of Cumbamurra No. 227, and leasehold area of Coppabella No. 290, and there being absolutely no evidence of any value as to the true position of the common boundary, and the overlap not being due, as far as could be ascertained, to any dispute, but merely to ignorance of the true position, it was thought advisable to adopt the boundary shown by brown edging from A to B for the time being. [*See litho. marked C.*]

Since then the case has been reopened owing to the application for certain conditional purchases and conditional leases, and Mr. Licensed-Surveyor Belcher obtained the written consent of both the lessees interested to the adoption of the boundary shown by yellow band on litho. before mentioned, it being understood of course, as pointed out by the Board, that the Minister's sanction was necessary to the final adoption of such boundary; the Board, however, make no recommendation in the matter, but have submitted the case for Ministerial decision, and after consideration, I think that it would not be altogether advisable to accept the boundary shown by yellow band, without the modification suggested by the District Surveyor shown by black band.

In the first place it cannot be said that the evidence available supports any one boundary now suggested; and therefore I think that a boundary should be decided upon that will be, as far as possible, agreeable to all parties concerned, and in this instance the pastoral lessees are not alone interested; but any decision of the boundary will be of considerable moment to applicants for conditional purchases and conditional leases, whose applications have no doubt been made in good faith.

It appears to me that the boundary agreed upon by the lessees with the modifications suggested by the District Surveyor is one that commends itself for adoption, and I would suggest that the Minister's sanction be given to that boundary, and the lessees be informed accordingly.

A.B.M.

16 January, 1889.

The Chief Draftsman,—As the consent of the lessees was obtained to adoption of the boundary shown by yellow band on litho., it seems desirable that their concurrence should also be sought to the proposed modification of that boundary, which has been suggested, with a view to permit of Maher's conditional purchase and conditional lease being regarded as on resumed area. If the lessees agree to this amendment of their former agreement, then there does not appear to be any objection to the Minister approving of the boundary as so amended; some special steps should be taken to communicate with the lessees at once, in order that the action on Maher's applications may not be delayed any longer than necessary.—C.J.S. (for Surveyor General), 21/1/89.

The Under Secretary,—Submitted for approval. In communicating with the lessees, a tracing should be forwarded, showing the proposed remodification.—S.F., (*per* W.H.), 22/1/89. Approved.—W.J.L., 18/2/89. Mr. M'Inn. Mr. Landers,—Two tracings herewith for lessees.—A.B.M., 26/2/89. S. K. Salting, care of Du Faur and Gerard, Cumbamurra, and Manager, Commercial Banking Company, Coppabella, asked, and tracing sent, 9/3/89.

## No. 20.

The Under Secretary for Lands to Mr. S. K. Salting.

Sir,

Department of Lands, Sydney, 9 March, 1889.

Referring to the agreement entered into by you, locating the boundary between the resumed area of Cumbamurra Holding and the leasehold area of Coppabella Holding in the position shown by blue band on the enclosed tracing, I have the honor, by direction of the Secretary for Lands, to ask whether, with a view of bringing James Maher's conditional purchase and conditional lease within the resumed area, you will consent to such boundary being modified as indicated by red band upon tracing.

I have, &amp;c.,

H. CURRY

(For the Under Secretary).

Tracing.

## No. 21.

The Under Secretary for Lands to The Manager of the Commercial Banking Company of Sydney.

[Urgent.]

Sir,

Department of Lands, Sydney, 9 March, 1889.

Referring to the agreement entered into by you, locating the boundary between the resumed area of Cumbamurra Holding and the leasehold area of Coppabella Holding, in the position shown by blue band on the enclosed tracing, I have the honor, by direction of the Secretary for Lands, to ask whether, with a view of bringing James Maher's conditional purchase and conditional lease within the resumed area, you will consent to such boundary being modified as indicated by red band upon tracing.

I have, &amp;c.,

H. CURRY

(For the Under Secretary).

Tracing.

## No. 22.

The Manager of the Commercial Banking Company of Sydney to The Under Secretary for Lands.

Commercial Banking Company of Sydney, Sydney, 19 March, 1889.

I have the honor to acknowledge receipt of your letter, 89-3,230, of 9th instant, and in reply, to state that our constituent, Mr. Thomas Broughton, objects to the modification of the boundary as shown on the tracing you enclose, as there would be a loss of fencing, or expense in moving same; also a loss of land and of a tank. We concur in this objection.

I have, &amp;c.,

T. A. DIBBS,

General Manager.

Mr. M'Minn,—E.L., 23/3/89.

## No. 23.

## Office Memorandum.

Boundary between Coppabella and Cumbamurra Holdings.

THE lessee of the leasehold area of Coppabella Holding objects to the modification proposed by the District Surveyor, which was suggested with a view to permit Maher's conditional purchase 87-215, and conditional lease 88-8, being regarded as on a resumed area, the more especially since the applications were made in good faith and according to office maps comprised land which was supposed to be available.

Mr. Licensed-Surveyor Belcher reports that no marks whatever of the original boundaries of the runs could be traced, but that, after survey, it was stated by the lessee that a boundary had been run by one of the Commissioners where the wire fence is shown on the enclosed lithograph.

Under the circumstances, as it appears a matter of doubt whether the Minister possesses the power of determining the boundary, I think it would be advisable to accept the line to which both lessees have agreed, as no serious objection can be urged against it, except that it would render the refusal of the conditional purchase and conditional lease above mentioned necessary, but the adoption of this line will be dependant upon the lessees of Coppabella paying rent from date of division for about 1,000 acres of vacant Crown lands lying to the south of the line agreed to, and upon which a refund will have to be made to the lessee of Cumbamurra, who has hitherto paid rent for it.

A.B.M.

11th April, 1889.

The lessees of Coppabella Holding having declined to agree to the adoption of the boundary shown by black band on litho., there seems to be no course open other than to recommend for the approval of the Minister, the boundary shown by yellow band which has already been consented to by both lessees interested. Before finally adopting this boundary, however, seeing that it involves the disallowance of Maher's conditional purchase and conditional lease, the lessees of Coppabella might be informed that their refusal to consent to the boundary suggested involves the addition of about 1,000 acres to their leasehold upon which arrears of rents from date of division will be due, and they might be asked to state if they still adhere to their determination under these circumstances.—C. J. SAUNDERS, 12/4/89. The Under Secretary.

The position of this case appears to be whether or not the Minister will concur in the proposed common boundary for the Coppabella and Cumbamurra Pastoral Holdings, submitted for his consideration by the Burrova Land Board. The boundary is arrived at apparently from investigation by the Local Survey Staff, leading up to an agreement between the adjoining run holders, the effect of which, if adopted, would be fatal to the application of one James Maher for a conditional purchase. It is hardly necessary to point out that the agreement is valueless unless confirmed by the Minister, and it is a matter for consideration whether there is sufficient conclusive evidence to justify a confirmation. Attention may be invited to the letter herewith—the signature to which is illegible—written on behalf of the Commercial

Banking

## 11

Banking Company, affirming that the north boundary of the Coppabella Holding is defined by a fenced line, alleged to have been in existence prior to the division of the run, and to the reports of Mr. Acting-District Surveyor Tritton. These documents appear to contain the only evidence before the Board at the time of its recommendation of December last. Further information is contained in the minute submitted by the officer in charge of the Occupation Branch, which, however, is far from conclusive.—W.H., 8/5/89. Submitted.

The evidence appears to be insufficient to determine the boundary; I therefore request the Board to make full inquiry and take such evidence as will assist me in determining the matter. Maher, the conditional purchaser, should receive notice of proposed inquiry.—J N.B., 10/5/89.

The Chairman, Goulburn.—F.H.W. (for Under Secretary), B.C., 17/5/89. Court, Binalong, 18/6/89. The Commercial Bank, care of T. Broughton, Bookham; Messrs. Salting Bros., Cunningham, notified and warned, 3/6/89. James Maher notified, 3/6/89. No appearance on the part of lessees. James Maher appeared. The Board adjourned the matter to their next sitting; lessees to be in the meantime warned that it will then be dealt with whether they are represented or not.—A.O.M., F.W.H., 23/7/89. Court, Binalong. The Commercial Bank, care of T. Broughton, Bookham. Messrs. Salting Brothers notified and warned as above, 8/7/89. James Maher notified, 8/7/89.

## No. 24.

Mr. J. Carroll to The Chairman, Land Board, Goulburn.

Sir, 15, Church Hill, Sydney, 30 April, 1889.

In view of the disputed dividing line of Coppabella Pastoral Holding, I have the honor to request that the description of my client's conditional purchases application, quoted in the margin, may be amended, or the area applied for slightly reduced, so as to exclude the leasehold entirely.

As only about 2 or 3 acres of my client's area as applied for are unavailable, providing the present dividing line be finally adopted, the course above suggested will, I trust, commend itself as the most ready and practical way out of the difficulty.

The great delay in dealing with my client's application causes him considerable loss and inconvenience. Will you please hasten remaining action?

I have, &c.,

JAMES CARROLL,

Agent.

Informed of state of case, 28/5/89.

## No. 28.

The Chairman, Land Board, Goulburn, to Mr. J. Maher.

New South Wales, } Notice to appear at Local Land Board.  
to wit. }

You are hereby notified to attend at the Court-house, at Binalong, on the 18th day of June, 1889, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Goulburn, this 3rd day of June, 1889,—

A. O. MORIARTY,  
Chairman.

Matter for investigation.

Your application for a conditional purchase, No. 87-215, of 540 acres, and conditional lease, No. 88-8 of 100 acres; also the determination of a common boundary between Coppabella leasehold area No. 290, and Cumbamurra resumed area No. 227.

## No. 29.

Messrs. Du Faur and Gerard to The Under Secretary for Lands.

Sir,

Exchange, Sydney, 20 June, 1889.

Referring to your letter of 19th March, having reference to a proposed modification of part of the southern boundary of the resumed area noted in margin, adjoining the leasehold area of Coppabella, we have the honor to inform you that Mr. S. K. Salting, of Cumbamurra, is desirous that, at any rate for the present, the present boundary as agreed to and approved may remain unaltered.

We have, &c.,  
DU FAUR AND GERARD,  
(Per H. O'C.)Mr. M'Minn.—E.L., 29/6/89. This letter had better be forwarded to the Chairman at Goulburn to be placed with papers 89-6,278, Min.—A.B.M., 4/7/89. Mr. Landers. The Chairman, Goulburn.—F.H.W. (for Under Secretary), B.C., 5/7/89. Court, Binalong, 23/7/89. The Commercial Bank, care of T. Broughton, Bookham, notified and warned, 8/7/89 (*vide* minute, 19/6/89). Messrs. Salting Bros., James Maher notified, 8/7/89. Part heard; adjourned to Burrowa to-morrow.—A.O.M., F.W.H., W.B., 23/7/89.

After careful examination the Board find the common boundary between leasehold area 240 and resumed area 227 to have been substantially in accordance with the yellow line, shown on plan marked "C," and decided to recommend its adoption by the Minister, the minute accordingly detailing the case as explained formally.—A.O.M., F.W.H., W.B.}

## No. 30.

The Chairman, Land Board, Goulburn, to Messrs. Salting Bros.

New South Wales, } Notice to appear at Local Land Board.  
to wit. }

You are hereby notified to attend at the Court-house, at Binalong, on the 23rd day of July, 1889, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Goulburn, this 8th day of July, 1889,—

A. O. MORIARTY,  
Chairman.

Matter for investigation.

As to the determination of a common boundary between Coppabella leasehold area No. 290, and Cumbamurra resumed area No. 227, postponed from last sittings for your attendance, and you are hereby warned that the matter will be dealt with, whether you are represented or not.

## No. 31.

The Chairman, Land Board, Goulburn, to Mr. J. Maher.

New South Wales, } Notice to appear at Local Land Board.  
to wit. }

You are hereby notified to attend at the Court-house, at Binalong, on the 23rd day of July, 1889, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Goulburn, this 8th day of July, 1889,—

A. O. MORIARTY,  
Chairman.

Matter for investigation.

Your applications for a conditional purchase, No. 87-215, of 540 acres, and conditional lease No. 88-8, of 100 acres, also the determination of a common boundary between Coppabella leasehold area No. 290, and Cumbamurra resumed area No. 227. Postponed from last sittings.

13

No. 32.

The Chairman, Land Board, Goulburn, to The Manager of the Commercial Banking Company of Sydney.

New South Wales, }  
to wit. } Notice to appear at Local Land Board.

You are hereby notified to attend at the Court-house at Binalong, on the 23rd day of July, 1889, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Goulburn, this 8th day of July, 1889,—

A. O. MORIARTY,  
Chairman.

Matter for investigation.

As to the determination of a common boundary between Coppabella leasehold area No. 290 and Cumbamurra resumed area No. 227.

Postponed from last sittings for your attendance, and you are hereby warned that the matter will be dealt with, whether you are represented or not.

No. 33.

Decision of the Local Land Board at Binalong.

New South Wales, }  
to wit. }

WHEREAS on the 23rd day of July, 1889, it became a matter for investigation before us the boundary between the leasehold area of Coppabella No. 290, and the resumed area of Cumbamurra No. 227.

Reverting to the proceedings on the 20th November, 1888, the original official documents and correspondence herein, with illustrative maps and reports, were now resubmitted, by direction of the Minister, who had requested the Board to make full inquiry, and take such evidence as would assist him in determining the matter.

Notice of this inquiry had been given for the 18th June, when, there having been no appearance on the part of the respective lessees, it was adjourned to the present date.

Austin Thomas Wilshire now appeared as the holder of Coppabella Run, subject to a mortgage to the Commercial Bank.

There was no appearance on the part of the holders of Cumbamurra, Messrs. George and Severin Salting.

James Maher, who had applied for a conditional purchase and lease of part of the land in question, appeared with his solicitor, Mr. Brennan.

The evidence of the following witnesses was taken—David Nicholson and Austin Thomas Wilshire.

Mr. Brennan was invited to suggest any question to be put to the witnesses after their examination, or to call further evidence. No questions were asked, or further evidence called, but Mr. Brennan was heard on the part of James Maher.

Before arriving at a decision the Board expressed a desire to inspect the maps supplied to the Land Agent at Burrowa, and adjourned the inquiry to Burrowa, where its consideration was on the following day resumed, James Maher being present.

The Board found that an overlap had been shown by the plans submitted in accordance with the Act of 1884, but that no determination thereof by the authority of the Minister had been arrived at prior to the division of the pastoral holdings being notified.

After careful examination they now found the common boundary between the Coppabella and Cumbamurra Runs to have been substantially in accordance with the yellow line shown upon the plan marked C, appended to the District Surveyor's report, and already signed and agreed to on the part of the respective holders, and they decided to respectfully recommend to the Minister that such boundary should be recognised and adopted as the boundary between the leasehold area of Coppabella No. 290, and the resumed area of Cumbamurra No. 227.

A. O. MORIARTY,  
Chairman.

F. W. HUME,  
Member of the Land Board.

[Enclosure.]

This deponent, *David Nicholson*, of Coppabella, in the Colony of New South Wales, boundary rider, being duly sworn, saith:—I have been residing at Coppabella for about twenty years, and know the boundary between it and Cumbamurra; I could find it, I suppose; I have known it for seventeen or eighteen years; I never heard of its being disputed; sheep have been shepherded on Coppabella; the shepherds worked by that boundary; the fence is pretty nearly on the boundary; it is off it in some places; I think the fence has been up for ten years, and I never heard of any other boundary which runs from M'Gally's run along the Barren Range to Heydon's Flat, thence to the Round Hill, from the Round Hill to a peg on the Jugiong Creek below the junction of Cunningham Creek.

*By the Board:* Between Heydon's Flat and the Round Hill the boundary runs through broken ranges following the watershed, the northern waters being on Cumbamurra and the southern on Coppabella runs; from the Round Hill to the peg on Jugiong Creek the boundary is the same watershed; the fence runs from M'Gally's Run to Heydon's Flat; it is a give and take line generally following the watershed not more than half a mile from it at any part.

Sworn before us at Binalong, this 23rd July, 1889,—

DAVID NICHOLSON.

A. O. MORIARTY,  
Chairman.

FRED. W. HUME,  
WILLIAM BROUGHTON,  
Members of Land Board.

THIS

THIS deponent, *Austin Thomas Wilshire*, of Coppabella, in the Colony of New South Wales, grazier, being duly sworn, saith:—I am the present holder of Coppabella Run, subject to a mortgage to the Commercial Bank; I have heard the evidence of David Nicholson; I have held the run for about nine years; when I purchased it the boundaries were pointed out to me, and I went over them when taking delivery; the northern boundary pointed out to me was that described by Nicholson, commencing at the point marked B on the map marked C now produced; the Round Hill is the hill shown on the map lying between reserve 5,566, portion 138, and Dargin's portion of 500 acres, a little south of the yellow line; this was the boundary shown on the plan submitted when the lease was applied for under the present law; the yellow line is nearly the same as the fenced boundary, but has been made to follow the lines of selected and measured portions.

Sworn before us at Binalong, this 23rd July, 1889,—

A. T. WILSHIRE.

A. O. MORIARTY,  
Chairman.

FRED. W. HUME,  
WILLIAM BROUGHTON,  
Members of Land Board.

The Chief Draftsman.—E.L., 3/9/89. Mr. M'Minn.—C.J.S., 3/9/89. Suggested that the line recommended by the Board as the boundary between Coppabella and Cumbamurra Holdings by adopted.—A.B.M., 5/9/89.

Submitted in connection with my previous memo. on Occ. 89-6,278 enclosed, which suggested that before arriving at a final decision the lessees of Coppabella are prepared to pay up the arrears of rent involved in the acceptance of the boundary agreed upon.—C.J.S. 6/9/89.

F.H.W.—S.F., 18/9/89. Approved.—J.N.B., 30/9/89.

### No. 34.

The Chairman, Land Board, Goulburn, to Mr. J. Maher.

Conditional Purchase.

Sir,

Local Land Board Office, Goulburn, 26 July, 1889.

I have the honor to inform you that the conditional purchase applied for by you, as per margin, has been disallowed, being within leasehold area 290.

2. The deposit paid thereon, amounting to £54, will be refunded to you by the Colonial Treasurer on application, or will be paid into any Bank you desire by filling up the order at foot hereof, and forwarding the same, together with this communication, to the Under Secretary for Finance and Trade, Sydney.

3. It is pointed out that your signature to such order must be witnessed by a magistrate, clergyman, or clerk of Petty Sessions.

I have, &c.,

A. O. MORIARTY,  
Chairman.

Burrowa; James Maher; date of application, 22nd December, 1887; area applied for, 540 acres; amount of refund, £54.

### No. 35.

The Chairman, Land Board, Goulburn, to The Under Secretary for Finance and Trade.

(No. 85-215.)

Conditional Purchase—Revenue Refunded.

Sir,

Local Land Board Office, Goulburn, 26 July, 1889.

I have the honor to request that you will be good enough to refund to Mr. James Maher, of Coppabella, Bookham, the sum of £54, being deposit paid in connection with the conditional purchase specified in the margin, the same having been disallowed.

I have, &c.,

A. O. MORIARTY,  
Chairman.

Burrowa; James Maher; date of application, 22nd December, 1887; area applied for, 540 acres; amount of refund, £54.

### No. 36.

The Chairman, Land Board, Goulburn, to The Crown Land Agent, Burrowa.

Sir,

Local Land Board Office, Goulburn, 26 July, 1889.

I have the honor to inform you that the application made by James Maher on the 22nd December, 1887, for the conditional purchase of 540 acres of land has been disallowed being within leasehold area No. 290.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &c.,

A. O. MORIARTY,  
Chairman.

Conditional purchase No. 85-215; deposit paid, £54.

### No. 37.

Office Memorandum.

(89-10,435 Occ.)

WILL Mr. M'Minn please state what area will be added to the leasehold of Coppabella No. 290, Eastern Division, if the line recommended by the Board is adopted.

E.L., 2/10/89.

650 acres of Crown land will be added to the leasehold area of Coppabella.—G.H.K. (*pro* A.B.M.), 8/10/89.

Mr. Landers.—The lessee of Coppabella No. 290, Eastern Division, may be asked to state if the boundary between that holding and Cumbamurra No. 227 be adopted, as recommended by the Board, whether he is willing to pay rent on the 650 acres to be added to his leasehold from date of division.—E.L., 11/10/89.

For approval.—F.H.W., S.F., 14/10/89. Approved.—J.N.B., 16/10/89. Mr. M'Minn,—Please have illustrative tracing prepared.—E.L., 23/10/89. Tracing herewith.—A.B.M., 4/11/89. Correspondence Branch,—To inform and forward tracing.—E.L., 4/11/89. General Manager Commercial Banking Company, with tracing, 7/11/89.

15

## No. 38.

## The Under Secretary for Lands to The Manager of the Commercial Banking Company of Sydney.

Sir,

Department of Lands, Sydney, 7 November, 1889.

Referring to previous correspondence, I have the honor to forward herewith a sketch showing part of the boundary between the holdings noted in the margin, and to request that you will be good enough to state in the event of the boundary as recommended by the Local Land Board, and indicated on tracing, being adopted, whether the bank is willing to pay rent on the 650 acres to be added to the leasehold area of Coppabella Holding from date of division.

Coppabella,  
No. 290, Cumbamurra, No. 227,  
Eastern  
Division.

I have, &amp;c.,

W. H. CAPPER

(For the Under Secretary).

## No. 39.

## The Manager of the Commercial Banking Company of Sydney to The Under Secretary for Lands.

Sir,

Commercial Banking Company of Sydney, Sydney, 3 January, 1890.

I have to acknowledge receipt of your letter 89 Occ. 12,664, dated 7th November, 1889.

We return tracing sent.

We concur with the owner of Coppabella Run (Mr. Thos. Broughton) in the alteration of the boundary, provided rent commences from date of confirmation of the additional leasehold area.

Yours, &amp;c.,

WM. R. SAYERS

(Pro General Manager).

Mr. M'Minn,—E.L., 16/1/90.

This is not an acceptance of the terms proposed by the Department, which, if the present proposal were adopted, would lose rent on 650 acres for about four years and two months. Submitted for instructions as to the course to be pursued.—A.B.M., 20/1/90.

The Chief Draftsman,—If the land is to be added to the estimated area and lease, and Maher's conditional purchase and conditional lease are to be disallowed on account of their encroachment on the leasehold, it seems only reasonable that rent from date of division should be paid.—C.J.S., 21/1/90. It may perhaps be observed that Maher's case has not yet been finally disposed of.—F.H.W., 24/1/90.

The recommendation of the Local Land Board is now submitted for the consideration of the Secretary for Lands. It will be observed that the Board find the common boundary of Coppabella and Cumbamurra Runs to be substantially that indicated by yellow lines on the plan marked "C." The adoption of this line, which in the circumstances appears inevitable involve the disallowance of J. Maher's conditional purchase 87-213, which has apparently been in abeyance pending the settlement of the question of the boundary of the pastoral lease.—W.H., 29/1/90. Approved.—J.N.B., 31/1/90.

The boundary having now been determined apart from the conditions sought to be imposed by the lessee of Coppabella, the amount of rental (£53 11s. 4d.) due by him on the additional area now found to have been within his holding at the date of division has been calculated and should therefore be demanded. The conditional purchase paper herewith should be detached and forwarded to the Chairman for formal disallowance of conditional purchase.—A.B.M., 8/2/90.

Mr. Landers. Papers separated.—E.L. The District Surveyor at Goulburn for noting them; to be returned.—F.H.W. (for Under Secretary), B.C., 21/2/90. Office maps noted.—E.G.L., 24/2/90. The Under Secretary.—W. D. ARMSTRONG (pro District Surveyor). Mr. M'Minn,—Place with Coppabella papers.—E.L., 26/2/90.

## No. 40.

## The Acting District Surveyor, Goulburn, to The Under Secretary for Lands.

16 January, 1890.

*Re* boundary between leasehold area 290 and resumed area 227.

A SECOND edition of the parish map of Coppabella, county Harden, has just been issued, but it is observed that the common boundary between the holdings referred to above has not been shown thereon.

Will you kindly inform me whether the recommendation to adopt a line following the southern boundaries of portions 52, 49, 51 pt., 66 then 95, 61, and 63 as the common limits of these holdings has been approved.

I have, &amp;c.,

W. D. ARMSTRONG

(For the District Surveyor).

Chief Draftsman.—T.G., 31/1/90. Mr. M'Minn.—C.J.S., 3/2/90. The boundary, as recommended by the Board, has received Ministerial approval, 31/1/90 (Occ. 90-243)—C.J.S. (for the Under Secretary), 6/2/90. The District Surveyor, Goulburn,—The papers in connection with Maher's case will be separated and returned to the Chairman. Mr. Landers,—See if the papers are with the Chairman.—W.D.A., 7/2/90.

It is requested that the portion of the common boundary between leasehold area 290 and resumed area 227 should be shown on the accompanying lithograph, in order that the district office maps may be noted accordingly.—W. D. ARMSTRONG (for the District Surveyor), 18/2/90.

No. 41.

## No. 41.

The Under Secretary for Lands to Mr. J. Carroll.

Sir,

Department of Lands, Sydney, 4 March, 1890.

Adverting to your letter of the 9th May last, I have the honor to inform you that the boundary between Coppabella and Cumbamurra Holdings now adopted will cause the conditional purchase application noted in the margin to be within the leasehold area.

I have, &amp;c.,

W. H. CAPPER

(For the Under Secretary).

Burrowa;  
O.P., 87-215;  
James Maher.

## No. 42.

The Under Secretary for Lands to The Under Secretary for Finance and Trade.

Sir,

Department of Lands, Sydney, 14 April, 1890.

I have the honor to inform you that investigation shows the area available for lease to be increased by 920 acres, and the lessee has been requested to pay into the Treasury the sum of £53 11s. 4d., being rent on that area for the years shown in the annexed statement.

I have to add that the annual rent has been increased to £64 17s. 1d., and the area available for lease to 4,447 acres.

I have, &amp;c.,

WM. HOUSTON,

Under Secretary

(Per R. H. DeLow).

## No. 44.

The Manager of the Commercial Banking Company of Sydney to The Under Secretary for Lands.

Sir,

Commercial Banking Company of Sydney, Sydney, 17 April, 1890.

I have the honor to acknowledge receipt of your letter Occ. 90-4, 189, dated 14th instant, claiming £53 11s. 4d., adjusted rent for Coppabella for years 1885-86, 1886-87, 1887-88, 1888-89, 1889-90.

Mr. Thomas Broughton, the owner, points out that he has only enjoyed the extra land for about twelve months, and therefore we now apply for another adjustment of the amount, and in support of our contention we send the following copy of our letter to you of 3/1/90:—

"I have to acknowledge receipt of your letter 89 Occ. 12,664, dated 7th November, 1889. We return tracing sent. We concur with the owner of Coppabella Run (Mr. Thos. Broughton) in the alteration of the boundary, provided rent commences from date of confirmation of the additional leasehold area."

I have, &amp;c.,

W. R. SAYERS

(Pro General Manager).

When

When the boundary agreed to by the lessees, and recommended by the Local Land Board was submitted for consideration, it was pointed out that if the land in dispute was added to the leasehold area Maher's conditional purchase and conditional lease would be disallowed, and therefore it was only reasonable that rent should be charged from date of division. If it had been decided that the alteration in the boundary should date from the confirmation of the agreement by the Minister, then it would appear that the Department could have confirmed Maher's application for land in question. If considered advisable, the District Surveyor might be asked to report whether Maher has occupied the land to the detriment of the pastoral tenant, who states that he has only enjoyed it for about twelve months.—A.B.M., 3/6/90.

Submitted for approval.—C.J.S., 4/6/90. The Under Secretary,—Above recommendation submitted for approval.—E.L., 6/6/90. Submitted that rent be charged from date of division of the run.—R.H.D., 9/6/90. F.H.W., 26/6/90. For approval.—W.H., 26/6/90. Approved.—J.N.B., 27/6/90. Inform.—E.L., 27/6/90. Received, 28/6/90. The Manager of the Commercial Banking Company, 5/7/90. Mr. M'Minn, with Coppabella papers.—E.L., 5/7/90.

No. 45.

Telegram from The Under Secretary for Lands to The Chairman, Land Board,  
Goulburn.

27 June, 1890.

PLEASE furnish immediately all papers *re* James Maher's conditional purchase, two hundred and sixteen of eighty-seven; twenty-second December, eighty-seven; five hundred and thirty-seven acres, Burrowa; with any remarks you desire to make.

WM. HOUSTON,

Under Secretary for Lands.

Papers herewith, with the exception of those relating to the boundary between Coppabella and Cumbamurra Holdings, forwarded on the 21st August, 1889. I do not wish to offer any remarks on subjects dealt with by this Board in open Court under the law, and as to which the proper procedure for any person dissatisfied therewith is duly provided for.—A.O.M., B.C., 27/6/90. The Under Secretary for Lands.

The land was again applied for by same person, 28th November, 1889, and again disallowed for same reason on 15th May last.—J. G. BLAXLAND.

CONDITIONAL PURCHASES OF J. SMITH, J. M. D. SULLIVAN, AND A. CAMPBELL,  
LAND DISTRICT OF LISMORE.

No. 1.

Application by A. Campbell.

D.

[Alienation Act, sections 13, 14, and 19.]  
No. 180 of 1878.

District of Richmond River.

Application by Archibald Campbell for the conditional purchase, without competition, of 150 acres unimproved Crown Land, under section No. 13.

Received by me, with a deposit of £37 10s., this 25th day of April, 1878, at 11:20 o'clock,—  
M. M. CAMPBELL,

Agent for the sale of Crown Lands at Casino.

Sir,

25 April, 1878.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 150 acres; and I herewith tender the sum of £37 10s., being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,  
ARCHIBALD CAMPBELL,

Lismore.

To the Agent for the sale of Crown Lands at Casino.

Description.

County of Rous, parish of Tunstall, 150 acres, situated on the right bank of Jiggi Creek, joining the north boundary of Ernest Shybel's conditional purchase of 200 acres, made on the 18th April, 1878.

R. 4,327-1,759, portion 89, 150 acres.—Forfeited, *Gazette*, 31/12/83. Revoked, *vide* 84-35,609, Dep., December, 1884. Replied to by my plan and letter of 2nd May, No. 79-77.—F. VERDON HUNTER.

No. 2.

Application by A. Campbell.

G.

[Alienation Act, sections 21 and 22.]  
No. 112 of 1879.

Casino.

Application by Archibald Campbell for the conditional purchase, without competition, of 40 acres unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £10, this 20th day of March, 1879, at 10 o'clock,—  
M. M. CAMPBELL,

Agent for the sale of Crown Lands at Casino.

Sir,

20 March, 1879.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 40 acres, which adjoins my conditional purchase or freehold property of 150 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £10, being a deposit at the rate of five shillings per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase or freehold of 150 acres.

I am, &c.,  
ARCHD. CAMPBELL,  
Tunstall, Lismore.

To the Agent for the sale of Crown Lands, at Casino.

Description.

County of Rous, parish of Tunstall, 40 acres, adjoining part of the south boundary of my conditional purchase, 25th April, 1878, and west of Shybill's conditional purchase of 18th April, 1878, in a square block.

First conditional purchase 78-180. Mr. Licensed-Surveyor Hunter to measure if unobjectionable if first conditional purchase is satisfactory.—W. M. M. (*pro*. Surveyor General), 7/4/79. B.C., 19/4/79. Mr. Licensed-Surveyor Keley, 17/8/79.—F. VERDON HUNTER. Returned with my letter of this date, 80-3.—F. B. KELEY, 2/2/80. R. 3,259-1,759. Portion 104. Forfeited, *Gazette*, 31/12/83. Revoked, *vide* 84-35,609, Dep.

No. 3.

Mr. Licensed-Surveyor F. V. Hunter to The Surveyor-General.

(No. 79-77.)

Sir,

Gunderimba, 2 May, 1879.

I have the honor to transmit herewith the plan\* of one portion of land containing 150 acres, numbered 89, in the parish of Tunstall, county of Rous, applied for by Archibald Campbell under 13th section of the Crown Lands Alienation Act of 1861. Surveyed in accordance with instructions dated the 20th September, 1878, B.C. No. 204.

Applicant is resident, and has made improvements to the value of £2 sterling.

I have, &c.,  
F. VERDON HUNTER.

## Application by A. Campbell.

E. [Alienation Act, section 21 and 22.]  
No. 79-196.

Casino.

Application by Archibald Campbell for the conditional purchase, without competition, of 100 acres unimproved Crown Land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £25, this 12th day of June, 1879, at 10 o'clock.

M. M. CAMPBELL,  
Agent for the Sale of Crown Lands at Casino.

Sir,

Casino, 12 June, 1879.

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase. Acres.
180	Apl., 1878.	150
112	Mar., 1879.	40
196	June, 1879.	100
Total area .....		290

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 100 acres, which adjoins my conditional purchase or freehold property of 150 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £25, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the second selection made by me in virtue of my conditional purchase or freehold of 150 acres. I am, &c.,

ARCHD. CAMPBELL,  
Lismore.

To the Agent for the Sale of Crown Lands at Casino.

## Description.

County of Rous, parish of Tunstall, 100 acres; starting at the north-east corner of my conditional purchase of April, 1878; then along Jiggi Creek to the crossing and the south-east corner of Oestreich's conditional purchase of 5th June, 1879; then west; then south; and then east to starting point.

First conditional purchase 78-180; plan and application 79-20,620; Hunter.

Mr. Licensed-Surveyor Hunter, if first conditional purchase is satisfactory; to measure, if unobjectionable. I cannot identify the position of this conditional purchase, as portions 87 and 89 are not yet charted on county map.—J.P.G. (for Surveyor-General), 25/6/78.

B.C., 30/7/79. No. 220. Mr. Licensed-Surveyor Keley.—F. VERDON HUNTER, 17/8/79. Return with my letter of this date, No. 80-16; portion 96; R. 3,260-1,759.—J. B. KELEY, 18 February. Forfeited, *Gazette*, 31st December, 1883. Forfeiture reversed, *vide* C.S. 81-35,609 D. Declared void, *vide* C.S. 87-34,298 D.

## No. 5.

## Mr. Licensed-Surveyor Keley to The Surveyor-General.

Sir,

Lismore, 2 February, 1880.

I have the honor to transmit herewith the plan of one portion of land, containing 40 acres, No. 104, in the parish of Tunstall, county of Rous, applied for by Archibald Campbell, under the 21st section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated the 19th April, 1879, No. 120, to Licensed-Surveyor Hunter.

This portion is dense brush and broken forest for the most part. Improvements, nil; date of survey, 19th November, 1879.

I have, &c.,  
JOSEPH B. KELEY.

R. 1,820-1,759; No. 79-120, to Licensed-Surveyor Hunter, and plan herewith. Dependent on first conditional purchase.—T.H.L., 13/5/80. Catalogue noted. Mr. Underwood. Description prepared.—W.J.N., 21/7/80.

## [Enclosure.]

## Description.

Conditional purchase 79-196, Casino, 100 acres, county of Rous, parish of Tunstall, portion 96: Commencing on the right bank of Jiggi Creek, at the eastern end of the northern boundary-line of portion 89 of 150 acres; and bounded thence on the south by that boundary-line and its westerly continuation in all bearing west 63 chains 30 links; on the west by a line bearing north 16 chains 67 links; on the north by part of the southern boundary of portion 101 of 150 acres bearing east 55 chains and 88 links to Jiggi Creek; and on the north-east and east by that creek downwards, to the point of commencement.

Exclusively of a road 1 chain wide passing through this land in a north-westerly direction, the area of which has been deducted from the total area.

## No. 6.

## Mr. Licensed-Surveyor Keley to The Surveyor-General.

Sir,

Lismore, 18 February, 1880.

I have the honor to transmit herewith the plan\* of one portion of land, containing 100 acres, Appendix B No. 96, in the parish of Tunstall, county of Rous, applied for by Archibald Campbell, under the 21st section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated the 30th July (to Mr. Hunter), No. 79-220.

This portion comprises forest and brush land, and is well adapted for grazing and agricultural purposes.

There are no improvements; date of survey, 20th November, 1879.

I have, &c.,  
JOSEPH B. KELEY.  
No.

No. 79-220, to Mr. Hunter, and plan herewith; R. 1,841-1,759; memo. as to continued width of road.—J.K., 3/6/80. Returned.—C.B.K., 21/6/80. Referred to District Surveyor for report.—C.B.K., 24/6/80. Report now herewith.—C.B.K., 15/9/80.

Appendix C.

Deputy Surveyor-General.—The survey in this case is not according to description, which could not be adhered to, without departing from the regulations, as regards depth. Submitted in connection with 80-10,095 C.S., transmitting plan\* of Oestreich's conditional purchase of 5th June, 1879, referred to in description.—J.F.G. 29/9/80.

May be received as in accordance with regulations.—ROBERT D. FITZGERALD, 24/11/80. Dependent on first conditional purchase.—J.P., 7/1/81. Tracing herewith.—W.H.M'L., 17/2/81, 80-10,094, C.P.; portion 96, parish of Tunstall, county of Rous.

Applicant applies for a re-survey, objecting to the present measurements; awaits papers, 80-10,095, C.S. Referred to Commissioner Bolding, 17th June, 1881. Inquire for 17th October, 1881; 7th November, 1881; 14th November, 1881; 21st December, 1881; 21 January, 1882; 6th March, 1882; 17th April, 1882; 20 May, 1882.—W.H.

## No. 7.

## Office Memorandum.

(Papers No. 80-10,094, C.S.)

Charting Branch.

3 June, 1880.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portion 96, parish of Turnstall, county of Rous, transmitted by Mr. Licensed-Surveyor J. B. Keley, letter No. 80-16, of 18th February, and on which Mr. Licensed-Surveyor J. B. Keley's report in explanation is requested.

Subject.	Report.
<p>THE road through portion 89 being 150 links wide, Mr. Keley will be good enough to explain why the same width was not preserved through portions 96, 101, and 102?</p> <p style="text-align: right;">P.F.A., 4th June.</p> <p>Should not this be referred to Mr. District Surveyor Donaldson in view of the nature of the ground through which the road passes as to whether the answer to above memo. can be accepted as satisfactory?</p> <p style="text-align: right;">P.F.A., 26th June.</p>	<p>Roads 1 chain wide are the usual widths of roads of access. This width is only extended when the nature of the ground renders it desirable. In portions 96, 101, and 102, a road 1 chain wide is ample for all requirements.—J. B. KELEY, 14th June, 1880.</p> <p>I think Mr. Keley's reply may be accepted as satisfactory. I have examined this road and think the width left by Mr. Keley is sufficient.—P. R. DONALDSON, 4th September, 1880.</p>

## No. 8.

## Declaration by A. Campbell.

(C.P. No. 78-180.)

D.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, ARCHIBALD CAMPBELL, of Lismore, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of house, fencing, and ringbarking, and to the value of £100 have been made on such land; and I declare further, that the said land has been the *bona fide* residence continuously of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the abovenamed holders until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extrajudicial oaths and affidavits."

ARCHIBALD CAMPBELL.

Taken and declared, at Lismore, this 4th }  
day of May, 1881, before me,— }

PHILIP F. RICHARDSON, Commissioner for Affidavits.

## Description.

County of Rous, parish of Turnstall, 150 acres, being conditional purchase No. 180, of 1878, in the district of Casino, now Lismore, made on the 25th April, 1878.

Instalment credited at Treasury, 18/5/81, £7 10s. Declaration correct in form, 23/8/81. Inspector Trollope, 8/10/81. Balance and deed fee paid, *vide* 86-5,235 Dep. Mr. M'Kern for deed. Deed prepared, 16/ /89.

No. 9.

## No. 9.

H. H. Brown &amp; Co. to The Chief Commissioner for Lands.

Sir,

21 Exchange Buildings, Pitt-street, 10 June, 1881.

On behalf of our client, Mr. Archibald Campbell, we have the honor to inform you that by conditional purchase 79-196 Casino, he applied for 60 acres of land, but the survey has not been made in accordance with the application, in fact, as measured it is of no service to him, as it embraces little or nothing but scrub and broken lands. We have therefore to request that you will be pleased to instruct a fresh survey to be made of the land as applied for.

Casino; C.P.  
79-196; A.  
Campbell;  
parish Tun-  
stall, county  
Rous, papers  
80-10,094.

Trusting this matter may have your most careful consideration,

We have, &amp;c.,

H. H. BROWN &amp; CO.

This letter is now submitted for your consideration, in connection with your previous decision on 80-10,094 C.S. enclosed and papers 80-10,095 C.S., which these papers have been a long time awaiting.—J.F.G., 29/5/82.

As this application is under the 21st clause it could not be made to adjoin the crossing without departing altogether from the regulations. It is therefore recommended that no alteration be made in this survey.—ROBT. D. FITZGERALD, 19/6/82.

Approved.—JOHN R. Dealt with in Charting Branch. The writer of this letter should probably be informed of the decision in this case.—J.F.G. (for Surveyor General), 27/7/82. Description prepared.—W.J.N. 15/8/82. H. H. Brown & Co. informed, 2/9/82. Mr. Ardell.—End of October then get declaration.—W.A., 5/9/82. \*Herewith.

\* Appendix D.

## No. 10.

Mr. Inspector F. Trollope to The Chief Commissioner.

Report respecting the selection of Archibald Campbell, made at Lismore on 25th April, 1878.

Sir,

Grafton, 23 December, 1881.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 2nd November, 1881, and that I found the selector then not resident upon his selection.

C.P. 78-180,  
section 13

The land which consists of open forest ridges and plains, and comprises 150 acres, is occupied and used by selector as pasture, and the selector, who follows the avocation of grazier had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Hut	...	...	...	...	...	...	...	...	...	£20
20 chains fence at 3s. per rod	...	...	...	...	...	...	...	...	...	20
Total	...	...	...	...	...	...	...	...	...	£40

From the appearance of the land and the circumstances stated in the following remarks, I am doubtful if the selector has been continuously resident upon the selection.

It would have been better if this case had been sent for inspection before the declaration was made. Nobody now lives here.

This place shows very little sign of any past residence.

I have, &amp;c.,

FRED. TROLLOPE,

Inspector of Conditional Purchases.

[Enclosure.]

Description.

Forty acres, county of Rous, parish of Tunstall, portion 104 : Commencing at the north western corner of portion 87 of 237 acres ; and bounded thence on the east by part of the western boundary of that portion bearing south 20 chains ; on the south by a line bearing west 20 chains ; on the west by a line bearing north 20 chains ; and on the north by a line dividing it from part of portion 89 of 150 acres bearing east 20 chains, to the point of commencement.

Referred, 80-1,081. Plan, 79-20,620. Declaration, 81-20,581. Noted, 31/1/82. Inspected seven months after three years ; selection, 13 : area, 150 acres ; improvements, £40 ; residence very doubtful under this report.—W.B. (for Commissioner), 28/2/82.

— Included in *Gazette* of 25/5/82. Archibald Campbell, 82. B.C., 1/6/82. Commissioner Burns.

## No. 11.

Application by A. Campbell.

E.

[Alienation Act, sections 21 and 22.]

Application by Archibald Campbell, of full age, for the conditional purchase without competition of 50 acres, unimproved Crown Land under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £12 10s., this 29th day of June, 1882, at 11.10 o'clock,—

A. BENEST,

Agent for the sale of Crown Lands at Lismore.

Sir,

Land Agent's Number.	Dates of previous Conditional Purchases.	Area of each Conditional Purchase. Acres.
89-180	25 April, 1878	150
104-112	20 Mar., 1879	40
96-196	12 June, 1879	100
201-435	29 June, 1882	50
Total area . . . . .		340

Sir,

Lismore, 29 June, 1882.

I am desirous of purchasing without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 50 acres, which adjoins my conditional purchase property of 150 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £12 10s., being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply.

This is the third selection made by me in virtue of my conditional purchase of 150 acres.

I am, &amp;c.,

ARCHIBALD CAMPBELL,

Lismore.

To the Agent for the Sale of Crown Lands at Lismore.

(By his Agent F. H. GERARD, Tunstall.)

Description.

County of Rous, parish of Tunstall, 50 acres. Starting from the south-west corner of my additional conditional purchase of 40 acres, portion No. 104; thence west 20 chains; thence north; thence east and south to starting point.

Subject to approval. Original conditional purchase under inquiry.—A.B.

First conditional purchase, 78-180. R. 1,608, 1,759, 13th section. Mr. Licensed-Surveyor Garvan if first conditional purchase is satisfactory to survey if unobjectionable.—F.H.L. (for Surveyor General), 31/7/82. Nature of instructions, conditional purchase, Geographical Division No. 7, instructions No. 27. Copy of conditional purchase application to Mr. Licensed-Surveyor Garvan for measurement.—F.H.L., 31/7/82. Portion 201, 50 acres, parish of Tunstall. Catalogue No. R. 2,743,-1,759.

No. 14.

The Chief Commissioner to H. H. Brown & Co.

Gentlemen,

Conditional Sales Division, Department of Lands,  
Sydney, 2 September, 1882.

With reference to your letter of the 10th June last, requesting that a fresh survey of the conditional purchase noted in the margin may be made as applied for, I am directed to inform you that, as the application is under the 21st clause, it could not be made to adjoin the crossing without departing altogether from the regulations, and the Minister for Lands has decided that no alternative can be made in the survey.

I have, &c.,

WM. BLACKMAN  
(For the Chief Commissioner).

Casino, C.P.  
79-196, 100 acres,  
Archd. Campbell,  
12 June, 1879.

No. 15.

Mr. Licensed-Surveyor Garvan to The Surveyor-General.

Sir,

Lismore, 30 December, 1882.

I have the honor to transmit herewith the plan\* of one portion of land containing 50 acres, numbered 201, in the parish of Tunstall, county of Rous, applied for by A. Campbell, under the 21st section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated the 31st July, 1882, No. 82-27. \* Appendix F.

Improvements, none; date of survey, 9th November, 1882.

I have, &c.,

C. F. GARVAN.

R. 2,743-1,759. I recommend the acceptance of this survey; to have measured in a square block, as applied for, would have left a narrow strip of land between this portion and portion 153, and also between this and the road, which would have been objectionable.—P. R. DONALDSON, District Surveyor, 17/1/83.

Memo. to Surveyor, *re* non-closing, 27/7/83. Replied, 17/9/83. Examined and charted.—F.G.S., 21/9/83. Send an information form, drawing his attention to the omission of water-course on the plan, although shown on adjoining portion.—T.H.L., 11/10/83. Dependent on first conditional purchase.—T.H.L., 11/10/83. Reply of Mr. Garvan is submitted, relative to the chainage of south boundary of portion 104, 12 links deficient.—T.H.L., 11/10/83. Mr. Twynam. Referred to the District Surveyor for investigation and report.—F.G.L., 22/10/83. Copy of original memo. to District Surveyor, requesting early action.—F.G.L., 20/5/84. Reply received, stating that report may be expected at an early date.—F.G.L., 30/6/84. Check survey and report received, 8/8/84, and dealt with; *see* papers of R. 3,249-1,759. If this additional conditional purchase should again become Crown land for auction sale, whenever those sales are again resumed.—J. H. LEWIS, 29/1/87. Mr. District-Surveyor Donaldson. Forwarded for notation of action, *re* conditional purchase. When Campbell's claim is settled; *see* C.S. 86-32,578 Dep., noted to Land Board (*see* cover).—R. SHELTON (for the Surveyor-General), 28/1/87.

(Papers No. C.S. 83,831 Sur.)

Charting Branch.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of portion 201, parish of Tunstall, county of Rous, transmitted by Mr. Licensed-Surveyor Garvan's letter No. 105, of 30th December, 1882, and on which Mr. Licensed-Surveyor Garvan's report in explanation is requested.

Subject.	Report.				
The length of the southern boundary of portion 104 and the length and bearing of the northern boundary of portion 153 do not agree with those given on the plan of above portion 201. Attention is directed to paragraph 165 of Regulations of 1882 for Licensed Surveyors, 82. The survey of the above portion does not close.	Close of portion.

Sir,

13 September, 1883.

I am desirous of purchasing without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 40 acres, which adjoins my conditional purchase property of 150 acres, upon which I have resided for three years, and I herewith tender the sum of £10, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the fourth selection made by me in virtue of my conditional purchase of 150 acres.

I am, &c.,

ARCHIBALD CAMPBELL,

Lismore.

Description.

To the Agent for the Sale of Crown Lands at Lismore.

## 11

## Description.

County of Rous, parish of Tunstall, 40 acres: Starting from the north-west corner of my additional conditional purchase portion No. 96; thence west 20 chains; thence south 20 chains; thence east and north to starting-point.

One conditional purchase, 78-180, R. 1,608-1,759. Copy of conditional purchase application to Mr. Licensed-Surveyor Garvan for measurement.—JNO. J. C., 27/9/83. Noted, 29/9/83. Mr. Licensed-Surveyor Garvan, if first conditional purchase is satisfactory, to survey, if unobjectionable.—JNO. J. CALLACHOR (for Surveyor-General), 27/9/83. First Clerk, Surveyor-General's Office, 27/9/83. Nature of instructions:—Conditional Purchase, Geographical Division, No. 7, Instruction No. 103. Mr. Licensed-Surveyor Somerville.—C. F. GARVAN, 21/1/84. Returned measured, with plan letter dated 26th February, 1884.—RICHD. N. SOMERVILLE.

## No. 18.

## Mr. Commissioner Bolding to The Chief Commissioner.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the Lands Acts Amendment Act of 1875, held by me in pursuance of the reference notified in the *Gazette* of the 25th May, 1882, in the matter of the above-described conditional purchase.

The claimant, having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz.:—He states that he passed two or three nights every week on this selection for the three years, excepting when occasionally in Sydney, but he sometimes stayed at his mother's, where his business was chiefly. He values improvements worth £140 on these 150 acres. Licensed Surveyor reports residence, March, 1879, but Inspector Trollope valued them in November, 1881, at £40 only, three and a half years after selection, when there was little evidence of past residence.

I have, therefore, to report that I find such conditions not to have been fulfilled, and to recommend that this conditional purchase be forfeited.

I have, &c.,

H. J. BOLDING,  
Commissioner.

78-180. Noted, 5/12/83.

The residence of the claimant, as described by himself, does not appear to me to have been such as the law contemplates, and I feel bound to concur in the Commissioner's recommendation of forfeiture.—A.O.M., 14/12/83. J.S.F.

Applicant informed, December, 1883. Forfeited, *Gazette*, 31/12/83.

## [Enclosure.]

Archibald Campbell, sworn, states:—I selected on 25th April, 1878, 150 acres, county Rous, parish Tunstall, for which I made the declaration I now see; I went to live there within three months after selecting, in a hut, a small one of bark, and lived in it until I had put up a better one, which is now standing, and I have lived in this better one every week for two or three nights until I made my declaration, excepting on occasional visits to Sydney, when I have been absent a month or six weeks; I am not married, and I had no other home of my own, but I sometimes stayed at my mother's, where my business is chiefly attending to station work, and her house is 4 or 5 miles from my selection; I had men working at my selection, and they sometimes did the cooking for me; they did not occupy the hut, but lived in their tents; my improvements when I made my declaration were—House, worth £30; scrub-clearing 20 acres, at 50s. per acre, £50; fencing, 150 acres, 2-rail, 431 panels, at 2s. 6d. per panel, £53 17s. 6d.; and dams, £7.

No. 21.

J. A. Martin to The Secretary for Lands.

Sir,

Land Agency Office, 17, Macquarie-place, Sydney, 3 January, 1884.

Under instructions from Mr. Archibald Campbell, I have the honor to request that you will grant a re-inquiry, so as to enable my client to produce further evidence to prove that the conditions of the law were carried out upon the conditional purchases specified in the margin.

I have, &c.,

JOHN A. MARTIN,

Agent for Mr. Campbell.

Papers.—W.B., 4/1. 84-30,496 D. Commissioner Bolding reporting on conditional purchases, 78-180. Mr. Capper, 8/12/83. Chief Commissioner, 13/12/83. Despatched, 20/12/83. No claim for further consideration.—W.B. (for Chief Commissioner), 5/1/84. Approved.—J.S.F., 16/1/84. Mr. F.—W.B., 16/1/84.

The enclosed statutory declarations have now been handed in. They do not carry the case much further than the claimant's own evidence, but as he requests an opportunity of bringing forward further evidence in support of his claim, I am not prepared to recommend that the request should be refused, but this is without prejudice to the existing forfeiture in the meantime.—A.O.M., 17/1/84.

Approved.—J.S.F., 1/2/84. Mr. Capper.—W.B., 6/2/84. Commissioner Bolding (M) with papers. John A. Martin informed, 18/2/84. To be returned.

No. 22.

The Chief Commissioner to Mr. Commissioner Bolding.

Sir,

Department of Lands, Sydney, 18 February, 1884.

I have the honor, by direction of the Minister for Lands, to retransmit to you the accompanying documents relative to the conditional purchase of 150 acres, made by Archibald Campbell, at Casino, on the 25th April, 1878, and to instruct you to be good enough to institute a further inquiry in the case, and afford the claimant an opportunity of bringing forward further evidence in support of his claim.

I have, &c.,

WM. BLACKMAN

(For the Chief Commissioner).

Received 20 February, 1884. Papers sent under separate cover.

No. 23.

Mr. Licensed-Surveyor Somerville to The Surveyor-General.

Sir,

Lismore, 26 February, 1884.

I have the honor to transmit herewith the plan\* of one portion of land containing 40 acres, numbered 231, in the parish of Tunstall, in the county of Rous, conditionally purchased by Archibald Campbell, under the 21st section of Crown Lands Alienation Act, measured by me on 4th, 5th, and 6th February, 1884, in accordance with instructions No. 83-103, dated 27th September, 1883, issued to Mr. L.-S. Garvan. Applicant has, I believe, completed his residence on original conditional purchase. Improvements, nil. This survey, although not in exact correspondence with description, forms a more suitable design, and has the applicant's approval. I am aware of the somewhat large discrepancies in chainage with previous surveys, and have consequently carefully rechecked the whole of my lines, which I believe to be as nearly correct as the nature of the country will allow. The proposed road on the south-west is a continuation of that passing between portions 200 and 201, and is a very suitable site.

I have, &c.,

RICHD. N. SOMERVILLE,

Licensed Surveyor.

I have instructed Mr. Surveyor Ewing to make a check survey of this and the adjoining portions.—P. R. DONALDSON, District Surveyor, 7/3/84. R. 3,130-1,759 examined and charted.—F. G. LENDER, 8/4/84. Dealt with in Charting Branch.—A.G., 23/4/84. Catalogue No. noted. May be put away, 15/5/84. Geographical Division No. 7, 13/8/84. Forwarded to the Chairman, Local Land Board, Grafton, as requested in his letter of 27th January, 1886.—F.H.W. (for the Under Secretary), B.C., 30/4/86. The Chairman, Local Land Board, Grafton. Inspector West, with copy of conditional purchase, no tracings being with papers, 9/6/86.

No. 24.

Casino, now Lismore. C.P. 78-180, A.C.P. 79-112, A.C.P. 79-196, A.C.P. 82-485, and A.C.P. 83-263, 150, 40, 100, 50, and 40 acres respectively. Papers 83-30,496.

Lismore.

To the Agent for the Sale of Crown Lands at Lismore.

## Description.

County of Rous, parish of Tenstall, 70 acres, starting from the south-east corner of portion No. 96, of 100 acres; thence west, thence south, thence east to Jiggi Creek, upwards to starting-point, being part of Archibald Campbell's forfeited conditional purchase 78-180 of 150 acres.

This conditional purchase forms portion of A. Campbell's conditional purchase, which was forfeited, but it appears a rehearing of the case has been allowed. I have warned applicant how the case stands, and he appears satisfied, and this application is accepted subject to the approval of the Minister for Lands.—A. BENEST, Crown Lands Agent, 20/3/84.

Subdivision fee of £3 15s. forwarded to the Treasury.—A.B., Crown Lands Agent, 25/3/84. Conditional Sales Branch.—For particulars of A. Campbell's conditional purchase 78-180, of Lismore.—R. J. MALCOLM, 23/4/84. Conditional purchase 78-180, 150 acres R. 1,608-1,759. 83-30,496 Commissioner report. Forfeited 31st December, 1883.—W.S., 26/4/84. Portion 214 of 70 acres, parish of Tunstall. Catalogue R. 3,878-1,759. Void; *vide* 87-11,182. Dep., April, 1887.

Mr. Licensed-Surveyor Garvan,—For measurement, if unobjectionable, of the land applied for, provided such land is not sufficiently improved to bar conditional purchase. Subdivision in the form applied for having been approved by the Secretary for Lands.—J.J.C. (for Surveyor-General), 5/8/84. First Clerk, Surveyor-General's Office.—6/8/84. Mr. Licensed-Surveyor Somerville.—C. T. GARVAN, 22/8/84. Dealt with under survey and letter 84-47, dated 28th November, 1884.—RICH. N. SOMERVILLE, Licensed Surveyor.

No. 25.

## The Under Secretary for Finance and Trade to The Chief Commissioner.

Subdivision fee.—Conditional Purchase.

Sir,

The Treasury, New South Wales, 7 April, 1884.

I have the honor to inform you that the sum of £3 15s., being estimated cost of subdivision of a measured portion under clause 10 of the Regulations under the Lands Acts Further Amendment Act of 1880, part 1, chap. 2, to allow of the conditional purchase mentioned below, was credited on the 29th March, 1884:—District, Lismore; name, James Smith; area, 70 acres; date of selection, 20th March, 1884.

I have, &amp;c.,

WM. NEWCOMBE

(For the Under Secretary).

Geographical Division, No. 7. Mr. Callachor. Application to Charting Branch.—31/3/84. Noted.—21/4/84.

No 26.

## Mr. J. Smith to The Secretary for Lands.

Sir,

Lismore, 24 June, 1884.

I have the honor to request that you will be good enough to send me information with regard to 75 acres of land selected by me, in Lismore, on the 20th March, 1884.

The survey has not been made, and I am desirous of improving the land, but am not in a position to commence the same until satisfied that I may safely do so.

Any information you can give with regard to the land, or if you can cause the survey to be made at once, I will feel ever grateful.

I have, &amp;c.,

JAMES SMITH,

Care of R. N. Somerville, Esq.,

Lismore.

Geographical Division, No. 7. Mr. Callachor. Application to Charting Branch.—31/3/84. Subdivision fee, 84-9,192. Dep. Noted.—30/6/84.

No. 27.

## No. 27.

## Mr. Surveyor Ewing to The Surveyor-General.

[No. 8,438.]

Sir,

Lismore, 30 June, 1884.

\*Appendix H.

I have the honor to transmit herewith the plan\* of one portion of land containing 40 acres, numbered 104, in the parish of Tunstall, county of Rous, applied for by Archibald Campbell under the 21st section of the Crown Lands Alienation Act of 1861, and surveyed (amended) in accordance with instructions dated the 22nd October, 1883, No. 83-273. Improvements—felling, £12; fencing on boundary, £10; total, £22.

I found, after inspection, it necessary to alter this portion, it being short in area as originally measured, and have done so with as little interference as possible with adjoining measurements.

Ridges are very rough, and covered in places with dense brush.

I have, &amp;c.,

THOS. T. EWING.

See my memo. on Mr. Ewing's letter, 84-83.—P. R. DONALDSON, District Surveyor, 19/7/84. R. 3,259-1,759. Examined and charted, 31/12/84.—F. G. LENDER. Geographical Division No. 7. Secretary and Cashier.

## No. 28.

## Mr. Surveyor Ewing to The Surveyor-General.

[No. 84-44.]

Sir,

Lismore, 30 June, 1884.

\*Appendix I.

I have the honor herewith to transmit plan\* of one portion of land containing 102 acres, numbered 96, in the parish of Tunstall, county of Rous, applied for by Archibald Campbell under 21st section of Crown Lands Act of 1861, and amended in accordance with general instructions.

Amended survey was necessary (in accordance with instructions issued), for on examination of survey serious errors were exposed.

The western portion of this measurement is broken and partly covered with brush; the remainder is composed of fair ridges and flat.

Improvements—fence, £23.

I have, &amp;c.,

THOS. T. EWING.

I moved road a little further west to avoid some low ground, bringing it a short distance along line of portion. See my letter on Mr. Surveyor Ewing's letter, 84-43.—P. R. DONALDSON, 19/7/84. C.

[Alienation Act, Sections 13, 14, and 19.]

Application for the conditional purchase, without competition, of unimproved Crown land.

District of Lismore, No. 127 of 1884.

Application by James M'Dowell Sullivan for the conditional purchase, without competition, of 80 acres unimproved Crown land.

Received by me, with a deposit of £20, this 10th day of July, 1884, at 10.15 o'clock,—

A. BENEST,

Agent for the Sale of Crown Lands at Lismore.

Sir,

10 July, 1884

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 80 acres; and I herewith tender the sum of £20, being a deposit at the rate of 5s. per acre on the area for which I apply. I am of full age and have never selected.

I am, &amp;c.,

JAMES M'DOWELL SULLIVAN,

Lismore.

To the Agent for the Sale of Crown Lands at Lismore.

Description.

County of Rous, parish of Tunstall, 80 acres, being the balance of vacant land in portion 89, to the south of and adjoining J. Smith's conditional purchase 84-47, and fronting Jiggi Creek.

"Memo" attached to this application subject to approval.—A.B., 10/7/84. Void, *vide* 87-11, 182 Dep., April, 1887, portion 89, R. 4,289-1,759, 73 acres 3 roods.

No. 31A.

Office Memorandum.

Conditional purchase 84-127, 80 acres, James M'Dowell Sullivan, 10th July; conditional purchase 84-130, 60 acres, Nathaniel Gordon, 10th July; county of Rous, parish Tunstall.

THE applications for land herewith embrace portions of forfeited conditional purchases of Archibald Campbell upon which a rehearing has been sanctioned and now being held here, viz., conditional purchases 78-180 and 79-196. Applicants have been both warned of this circumstance, and are willing to abide the result.

These applications might perhaps be placed with conditional purchases 84-47, James Smith, and 84-55, H. E. Reis, which also embrace portions of the same conditional purchases above named.

A. BENEST,

Crown Lands Agent, Lismore,

10/7/84.

The Chief Commissioner, Lands Department.

Not herewith when registered.—J.P.M. Herewith, 23/7/84. Records.—Submit with Commissioner's report after rehearing of A. Campbell's case.—E.B., 20/7/84.

Mr. Commissioner Bolding held Courts of Inquiry at Lismore on the 10th, 11th, and 12th ultimo, but no particulars of the cases heard have yet been received in the office. It might be stated that his last circuit commenced on the 19th June and terminated on the 29th July, but no reports have been furnished.—W.H.C., 16/8/84. The Chief Commissioner.

Mr. Bolding is preparing his reports.—A.O.M., 3/9/84.

No. 32.

Mr. Commissioner Bolding to The Chief Commissioner.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the Lands Act Amendment Act of 1875, held by me in pursuance of the reference notified in the *Gazette* of the 25th May, 1882, in the matter of the above-described conditional purchase.

The claimant, having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz.:—He corrects his former evidence by stating that his residence was continuous for weeks together, excepting for two or three nights weekly, and he was considerably more frequently sleeping on his selection than elsewhere, but paid occasional visits to Sydney.

The witness Funnell states he was sleeping in the house constantly for two years and off and on in the third year, and the selector was nearly always there night after night.

J. Josephson states he knew the selector to be living there for eighteen months, and he was occasionally there afterwards and saw the selector there.

Wm. Graham states that he lived in the same hut with selector for two years. He usually slept there then, and he has seen him there subsequently. It was his only home, and Felix Tonkin gives similar evidence.

There are also the affidavits, not statutory declarations, of R. Graham, D. Hanan, F. Schroder, and W. Graham, all with some evidence of the selector's residence for shorter periods, which may be truthful probably, but they are all highly illegal, being voluntary affidavits, and prohibited by the Statutory

Declarations

Declarations Act. The several Magistrates are liable to prosecution for misdemeanours, and I have requested the Police Magistrate to call their attention to the irregularity.

I have therefore to report that I find such conditions perhaps to have been fulfilled, and to recommend that this conditional purchase be for special consideration.

I have, &c.,

H. J. BOLDING,  
Commissioner.

NOTE.—By Mr. A. Martin's letter of 3rd January, 1884, 84-53, there appears to be additional selections, making total area 380 acres. The declarations are not all due, and improvements on 150 acres, 13th section, were valued in November, 1881, by Inspector, £40 only, and in selector's former evidence at £140.

The aspect of the case does not appear to me to be materially altered, and I do not see any ground for recommending remission of the existing forfeiture.—A.O.M., 4/10/84. Approved.—J.S.F., 3/11/84. Mr. F., 4/11/84. J. A. Martin (M.) and A. Campbell, 13/11/84. Mr. Wiseman as to conditional purchases 84-127 and 130, then to Charting Branch.

[Enclosure.]

Archibald Campbell.

Mr. Alingham: Archibald Campbell, sworn, states:—I gave evidence at the inquiry on 2nd October, 1883, and now I hear it read; it is true, but I desire further to state that I intended to describe my residence as being continuous for weeks together, excepting for two or three nights weekly, when absent at the station, and during the occasional visits at Sydney, as before stated, and it was my only home all three years; I passed the greater number of nights considerably sleeping in my house on my selection.

Taken and sworn, at Lismore, this 11th July, 1884, }  
before me,—

ARCHIBALD CAMPBELL.

H. J. BOLDING, Commissioner.

Joseph Funnell, sworn, states:—I know Archibald Campbell's selection on Jiggi Creek, 150 acres; in 1878, when he selected it, I was working for him then as a bullock-driver on and near the selection; he was living on the selection constantly, sleeping there night after night; I slept in the same house with him; there were two rooms; there was the usual furniture for a single man in it, and three beds in it; I was there for two years constantly, sleeping in that house, and on and off for the third year, and he was nearly always there night after night; I was working on the selection most part of the time for him.

Taken and sworn at Lismore, this 11th July, 1884, }  
before me,—

his  
JOSEPH x FUNNELL.  
mark.

H. J. BOLDING, Commissioner.

John Josephson, sworn, states:—I know Archibald Campbell's selection on Jiggi Creek; I knew it in 1878 and until 1881; I was working for him on the selection, and lived on it about eighteen months; he was living there too, and slept in the hut and had his food there; sometimes he cooked it, and sometimes we cooked it for him; the last witness was there; he, i.e., selector, made it his home all the time; he was sometimes away for two or three days, but sometimes stayed there three or four weeks without leaving it; this was so for the eighteen months I was there, and I also was there off and on, and saw him there then afterwards for the three years.

Taken and sworn at Lismore, this 11th July, 1884, }  
before me,—

JOHN JOSEPHSON.

H. J. BOLDING, Commissioner.

William Graham, sworn, states:—I hear my affidavit read, dated 12th January, 1884; it is true; I worked for him (Archibald Campbell) just before he selected; it was on this selection the huts were put up about two months after selecting; he lived in one of the huts on it, and I lived in the same hut with him for two years; he usually slept there for that time, and made it his only home; I have seen him there after I left.

Taken and sworn at Lismore, this 11th July, 1884, }  
before me,—

WILLIAM GRAHAM.

H. J. BOLDING, Commissioner.

Felix Tonkin, sworn, states:—I know Archibald Campbell's selection, and knew it when he selected it, and for more than two years afterwards; I had a selection about 1½ mile from it; I went past it every week, and always saw him there; he made it his home continuously for three years.

Taken and sworn at Lismore, this 11th July, 1884, }  
before me,—

FELIX TONKIN.

H. J. BOLDING, Commissioner.

Robinson Graham, being duly sworn, states:—I reside at Jiggi Creek, near Lismore, in the Colony of New South Wales; I know Archibald Campbell's selection of 150 acres, situate on Jiggi Creek, in the county of Rous, parish of Tunstall; I have acted as agent for the said Archibald Campbell, and paid away the sum of £37 10s on his account for expenses, incurred in fencing his land, the fence being a good substantial two-rail fence, and was approved of by me; I have seen the said Archibald Campbell residing on his said selection on numerous occasions and at all hours.

Sworn before me at Lismore, this 12th day }  
of January, 1884,—

ROBINSON GRAHAM.

WM. CARSON, J.P.

Denis Hanan, now residing at Tunstall, near Lismore, in the Colony of New South Wales, overseer, states:—That for a considerable length of time I was engaged by Archibald Campbell to superintend the working of pine on his selection of 150 acres, situate on Jiggi Creek, in the county of Rous, parish of Tunstall, and also in planting maize on a quantity of land which Archibald Campbell had felled and cleared, and during the time I was so engaged, which was of some months' duration, the said Archibald Campbell resided on this selection continuously.

Sworn before me at Lismore, this 12th day }  
of January, 1884,—

DENIS HANAN.

JAMES BARRIE, J.P.

Frederick Schroder, residing at Hanging Rock Creek, near Lismore, in the Colony of New South Wales, labourer, states:—I was engaged for a considerable time in fencing on Archibald Campbell's selection of 150 acres, which is situated on Jiggi Creek, in the county Rous, parish Tunstall, and the sum of £45 was paid to me for the said fencing by Robinson Graham, who was acting as agent for the said Archibald Campbell, and during the time I was engaged in fencing, I saw the said Archibald Campbell, resident on the selection, on a great many occasions.

Sworn before me, at Lismore, this 12th day }  
of January, A.D. 1884,—

F. SCHRODER.

GEORGE LARKIN, J.P.

William

17

*William Graham*, residing at Jiggi, near Lismore, in the Colony of New South Wales, states:—I had a selection near Archibald Campbell's selection of 150 acres, parish Tunstall, situated on Jiggi Creek, while I was engaged on my conditional purchase; I have seen the said Archibald Campbell residing on his selection of 150 acres, for many months engaged in improving his conditional purchase; I know that he had a lot of fencing, clearing, building, on his conditional purchase, to the value of over £150, before making his declaration at the end of the three years.

WILLIAM GRAHAM.

Sworn before me, at Lismore, this 12th day  
of January, A.D. 1884,—

GEORGE LARKIN, J.P.

See report of Inspector Trollope as to improvements in November, 1881.—W.B.

No. 33.

Mr. A. Campbell to The Secretary for Lands.

Sir,

Jiggi Creek, 21 July, 1884.

At the late land inquiry held at Lismore, Richmond River, before Commissioner Bolding, I had a selection of 150 acres on Jiggi Creek before the inquiry. I omitted to state in my evidence that when Inspector Trollope inspected my conditional purchase in November, 1881, I held another incomplete selection that I selected on 5th May, 1881, six months before the Inspector looked at my old conditional purchase of 150 acres, about 10 miles from my now incomplete conditional purchase. Hoping you take this into consideration, and I will be ever thankful.

I have, &amp;c.,

ARCHIBALD CAMPBELL.

Geographical Division No. 7; Conditional purchase, 78-180, 83-30,496, Commissioner's report. Forfeited 31st December, 1883. Conditional purchase, 81-23. Void, *vide* application. Refund, 10/8/81. Noted, 29/7/84. No report from Commissioner Bolding.—F.S.M., 4/8/84. Papers, 84-59, Cor., noted to.—H.W. Commissioner Bolding, 18/2/84. Records,—Place with Commissioner's report.—E.B., 11/8/84. This letter should perhaps be sent to Mr. Commissioner Bolding, in reference to previous papers in the case, and writer informed.—C.N., 28/8/84. Yes.—W.B., 29/8/84. A. Campbell (*m*), 12/9/84. Mr. Capper—Special. Mr. M'Guanno,—To communicate with Commissioner. Commissioner Bolding (*m*), 23/9/84. To be returned.

No. 34.

The Chief Commissioner to Mr. J. Smith.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 19 August, 1884.

In reference to your conditional purchase, noted in the margin, I have to inform you that instructions have been issued to Mr. Licensed-Surveyor Garvan for the measurement of the area applied for under your selection in question, provided the land is not sufficiently improved to bar conditional purchase.

Lismore, C.P.  
84-47, 70 acres;  
20 March, 1884.

I have, &amp;c.,

WM. BLACKMAN

(For the Chief Commissioner).

No. 35.

Mr. Inspector F. Trollope to The Chief Commissioner.

Respecting the selection of Archibald Campbell, made at Lismore on 20 March, 1879.

Sir,

Sydney, 26 August, 1884.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 19th April, 1884, and that I found the selector then not resident upon his selection.

C.P. 79-106, 112;  
section 21;  
portions 104 and  
96; parish  
Tunstall

The land, which consists of forest and brush, and comprises forty 100 acres, is occupied and used by selector as pasture, and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz:—

Ninety-six.—Nil. 104—8 acres brush fell at £2—£16. Line B.C., fenced at 5s.; but belonging to adjoining portion 89. Two lines of 96 fenced, but belonging to adjoining conditional purchase, portion 101. These do not belong to this selector.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

I have, &amp;c.,

FRED. TROLLOPE,

Inspector of Conditional Purchases.

Referred, 25/7/83. Forfeited, 31/12/83. Declaration, 82-25,659; plan and application, 80-7,636; first conditional purchase, 78-180. Forfeited, 31/12/83. Trollope's report, 81-58,973—£40. Noted, 12/11/84.

No. 36.

The Chief Commissioner to Mr. A. Campbell.

Sir,

Conditional Sales Division Department of Lands, Sydney, 12 September, 1884.

With reference to your letter of 21st July last with regard to the inquiry by Commissioner Bolding, respecting the fulfilment of conditions of the Act on the conditional purchase noted in the margin. I have to inform you that your letter is about to be forwarded to Mr. Bolding whose report has not yet been received.

Lismore  
C.P. 78-180,  
150 acres  
forfeited,  
31/12/83.

I have, &amp;c.,

WM. BLACKMAN

(For the Chief Commissioner).

## No. 37.

## The Chief Commissioner to Mr. Commissioner Bolding.

Sir, Conditional Sales Division Department of Lands, Sydney, 23 September, 1884.

I have the honor to forward for your information a letter from Archibald Campbell, having reference to recent inquiry at Lismore into his conditional purchase. The papers in connection with the case were forwarded to you on the 18th February last under the conditional sales, No. 84-59 Cor. to which you will be good enough to attach this document.

I have, &c.,

WM. BLACKMAN

(For Chief Commissioner).

My report in this case with all papers was posted 18th instant.—H.J.B., Commissioner, 26/9/84.

It may be added that the inquiry was on 150 acres selected 25th April, 1878, and this further conditional purchase in 1881 is stated to be of 5th May, 1881, and therefore ten days beyond the three years required for the 1878 selection.—H.J.B., Commissioner.

84-26,453 Dep., Commissioner Bolding's report noted to the Chief Commissioner, 22/9/84. Commissioner report herewith.—Z.M., 8/10/84. See memo. dated 4th October, 1884 enclosed. Commissioners report. The Chief Commissioner, 8/10/84. Mr. Wiseman.—Then Charting Branch as to conditional purchases, 84-127 and 84-130. Noted, 19/11/84. I think this is a case in which I can recommend the remission of the forfeiture.—J.S.F., 20/11/84. Mr. Fitzpatrick, 21/11/84.

## No. 38.

## Mr. J. McD. Sullivan to The Secretary for Lands.

Sir, Goonellebah, Lismore, Richmond River, 24 September, 1884.

I have the honor respectfully to lay my case before you, and request that you will be pleased to let me know whether I may take possession of the land hereunder specified, which was selected by me at the Lands Office, Lismore, or cause my money to be returned to enable me to select in another locality.

1. The land as per sketch was selected by Archibald Campbell on 25th April, 1878, it was afterwards declared forfeited and thrown open for re-selection.

2. Upon the 10th July, 1884, I selected at the Lismore Land Office 80 acres out of said portion (No. 89).

3. During the latter part of July, an inquiry was held at Lismore before the Commissioner, the same land being again up for re-inquiry the result of which has not yet been made known.

4. As I am very desirous of settling down, and the time allowed before I have to take up my residence upon the land being nearly expired, I respectfully ask that you will let me have the required information.

I have, &c.,

JAMES McDOWELL SULLIVAN.

## No. 39.

## Mr. N. Gordon to The Secretary for Lands.

Sir, Goonellebah, Lismore, Richmond River, 24 September, 1884.

I have the honor respectfully to lay my case before you, and request that you will be pleased to let me know whether I may take possession of the land hereunder specified, which was selected by me at the Lands Office, Lismore, or cause my money to be returned, to enable me to select in another locality.

1. The land, as per sketch, was selected by Archibald Campbell on 12th June, 1879, as an additional. It was afterwards declared forfeited, and thrown open for re-selection.

2. Upon the 10th July, 1884, I selected, at the Lands Office, Lismore, 60 acres out of said portion (No. 96).

3. During the latter part of July an inquiry was held at Lismore before the Commissioner, the same land being again up for re-inquiry, the result of which has not been made known.

4. As I am very desirous of settling down, and the time allowed before I have to take up my residence upon the land being nearly expired, I respectfully ask that you will let me have the required information.

I have, &c.,

N. GORDON.

## No. 40.

## Mr. Licensed-Surveyor Somerville to The Surveyor-General.

Sir, Lismore, 15 October, 1884.

I have the honor to request that you will forward to me instructions to measure conditional purchase 84-127, Lismore, James McDowell Sullivan who on 10th July, 1884, selected 80 acres under the 13th section, being the balance of vacant land in portion 89 to the south of and adjoining J. Smith's conditional purchase 84-47, because in surveying Smith's conditional purchase under instructions 84-75, 5th August, to Licensed-Surveyor Garvan, I have almost surveyed Sullivan's, and I would prefer sending both plans in together, especially as I found it desirable to make a slight alteration in the reserve road.

I have, &c.,

RICHD. N. SOMERVILLE,

Licensed Surveyor.

Conditional Sales Branch,—Please attach 84-19,021 Dep.—Jno. J.C., 31/10/84.

19

No. 41.

The Chief Commissioner to Mr. J. A. Martin.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 13 November, 1884.

In reference to the re-inquiry held at Lismore on the 11th July last by Mr. Commissioner Bolding respecting the conditional purchase noted in the margin, which was declared forfeited on 31st December last, I am directed by the Minister for Lands to inform you that the aspect of the case by such re-inquiry does not appear to him to be materially altered, and that he does not see any ground for remission of the existing forfeiture.

I have, &amp;c.,

WM. BLACKMAN

(For the Chief Commissioner).

No. 42.

The Chief Commissioner to Mr. A. Campbell.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 13 November, 1884.

In reference to my letter of 12th September last, informing you of the reference of your communication of 21st July, regarding your conditional purchase noted in the margin to Mr. Commissioner Bolding, I am now directed by the Minister for Lands to inform you that the aspect of the case does not appear to him to be materially altered by the Commissioner's report of re-inquiry, and he does not see any ground for remission of the existing forfeiture.

I have, &amp;c.,

WM. BLACKMAN

No. 43.

Application by Mr. D. Hanan.

Application for the conditional purchase, without competition, of unimproved Crown Land.

C. [Alienation Act, sections 13, 14, and 19.]

District of Lismore.

No. 193, of 1884.

Application by Denis Hanan for the conditional purchase, without competition, of 40 acres unimproved Crown Land.

Received by me, with a deposit of £10, this thirteenth day of November, 1884, at 10 o'clock.

A. BENEST,

Agent for the sale of Crown Lands at Lismore.

Sir,

13 November, 1884.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 40 acres; and I herewith tender the sum of £10, being a deposit at the rate of 5s. per acre on the area for which I apply. I am of full age, and have never selected under the Lands Act Amendment Act of 1880.

I am, &amp;c.,

DENIS HANAN,

Lismore.

To the Agent for the Sale of Crown Lands at Lismore.

Description.

County of Rous, parish of Tunstall, 40 acres; being measured portion No. 104, to the south of adjoining portion No. 89.

Application accepted, subject to the approval of the Secretary for Lands. The land applied for forms a portion of A. Campbell's forfeited conditional purchase, viz., 79-112, 40 acres. Applicant warned.

—A. BENEST, Crown Land Agent, 13/11/84.

84-25,191 D. forfeited, 31/12/85. Void, vide 85-33,699 D, January, 1886.

No. 44.

Mr. Licensed-Surveyor Somerville to The Surveyor General.

Sir,

Lismore, 28 November, 1884.

I have the honor to transmit herewith the\* plan of one portion of land containing 70 acres, numbered 214 in the parish of Tunstall, in the county of Rous, conditionally purchased by James Smith under the 13th section of Crown Lands Alienation Act, measured by me on 8th October, 1884 in accordance with instructions No. 84-75, dated 5th August, to Mr. Licensed-Surveyor Garvan. Improvements, humpy formed of slabs thrown together. Applicant non-resident so far as I am aware.

In surveying this portion I have altered the road at the wish of several residents, slightly more to the west, that it may be on firmer ground, and I have written for instructions to measure Sullivan's conditional purchase 84-127, 10th July, 1884, by my letter to Surveyor General 84-35, 15th October, as I think it desirable to continue this alteration, and also to have a road between portions 89 and 214, to give access to the vacant land at the back, to which there is at present none.

In measuring 215, the new number, I have given to the southern division of original portion No. 96, I will alter the southern end of the one-chain road left Mr. Surveyor Ewing in his amended survey of that portion, so that the chain and chain and a half may run into one another in the manner indicated on the plan.

I have, &amp;c.,

R. N. SOMERVILLE,

Licensed Surveyor.

R. 3,878-1,759 cancelled by R. 432-1,759. Geographical Division No. 7. Original herewith for charting.—J.J.C., 24/6/85. Mr. District Surveyor. For action in accordance with recent Ministerial decision *re* cases under repealed Acts. Plan and adjoining originals herewith, see cover.—R. SHELTON, for Surveyor General. 28/1/87.

No. 45.

## No. 49.

Mr. J. Smith to The Secretary for Lands.

Sir,

Lismore, Richmond River, 1 January, 1885.

I beg to bring under your notice that I selected a forfeited conditional purchase of Archibald Campbell's 84-47, on the 20th March, 1884. In letter 84-5,824, of 19th August, 1884, from the Department, instructions were said to be issued to have ground surveyed. The ground was surveyed by Mr. Licensed-Surveyor R. N. Somerville. I have since been annoyed by the original selector, Campbell. He had men up that I have employed, for trespass, at the police court here. Case was dismissed by the Bench. Failing that, he has now taken, through one of our local lawyers, action against me in the Supreme Court, Sydney, for trespass. Would the Honorable the Minister protect me in my holding? It comes very hard on me to have a Supreme Court action pending against me, after having taken the land up under the prescribed rules. Money paid at the land office here, ground surveyed and approved of, and now threatened with a Supreme Court action for trespass. I pray for the protection of the Honorable the Minister for Lands.

I have, &c.,  
his  
JAMES + SMITH,  
mark.

For self and,  
JAMES McDOWELL SULLIVAN.

Address:—Jiggi Creek, Lismore.

C.S. Branch. The writer should perhaps be informed of the Ministerial decision of 4th instant, on 85-3,178 Cor. enclosed. This conditional purchase application 84,127 is for part of Campbell's forfeited conditional purchase 78,180. These papers perhaps should be returned to this division for action in connection with 85-160 Sur.—Jno. J.C., 24/6/85.

Mr. J. Smith informed, 9/7/85. C. Branch for Mr. Wilkinson.

## No. 50.

## Office Memorandum.

Charting Branch No.

Papers No. 84-35,609 Dep. Survey was effected 8th October, 1884, and plan, &c., forwarded with my letter, 84-47, 28th November. I respectfully request that final instructions will speak definitely concerning the reserved road whether it is to remain in its former position or not, it will be seen from my plan I considered it advisable to alter its position.

RICH. N. SOMERVILLE,  
Licensed Surveyor.

25th February, 1885.

The following is forwarded for the information of Mr. Licensed-Surveyor Garvan:—

Mr. Garvan is requested not to proceed with the surveys of any of the lands referred to in the undermentioned applications pending definite instructions as the remission of forfeiture of portion 89, Archibald Campbell's conditional purchase has been approved, and the case is under consideration.

JNO. J. CALLACHOR,  
For Surveyor-General.

## No. 51.

## Office Memorandum.

Geographical Division No. 7.—23/1/85.

Registration No. of outside papers, C.S. 88-160 Sur.; name of Surveyor, R. N. Somerville; county of Rous, parish of Tunstall; portion 214; to Mr. Draftsman F. G. Sender; issued, 8/4/86; concise statement of cause of detention, also an account of the steps taken to forward the case, and the date and result of the efforts used to that end:—

To await action on Campbell's case (85-33,699 Dep.), Land Board, Grafton.—F.G.L., 6/2/86. Inquired for, 9/4/86.

Action on this case is dependent on final action with regard to conflicting claim by A. Campbell in virtue of his conditional purchase 78-180, which embrace portion 89, as originally measured. Papers 86-32,578 Dep. noted to Land Board, Grafton, 14/10/86. Undealt with plan, R. 3,878-1,759, and original plan R. 1,608-1,739 and 3,259-1,759 enclosed.—R.S.

For Mr. District-Surveyor Donaldson, 28/1/87. Received in District Survey Office, Grafton, 10/2/87. The Chief Draftsman.—P.R.D., 10,2/87. Mr. Butler.—Obtain papers 86-32,578.—R.P., 19/2/87. Papers with me.—F.B.N., 8/6/87. Mr. Nowell.—J.B., 8/6/87. To await decision on papers C.S. 87-14,668 Dep., relating to Campbell's, Sullivan's, Smith's, Reis, and Gordon's conditional purchase submitted to the Under Secretary for Lands.—F.B.N., 24/6/87. Papers forwarded as requested by memo. of 30th June, 1877.—J.B. (*pro* District Surveyor), 6/7/87. The Under Secretary for Lands.

No. 52.

## No. 52.

## The Surveyor-General to The Under Secretary for Lands.

Conditional purchase 84-55, H. E. Reis ; conditional purchase, 84-47, James Smith ; conditional purchase 84-127, J. Sullivan ; conditional purchase 84-130, Nat. Gordon.

84-35,609 Dep.—By *Gazette* notice of 31st December, 1883, Archibald Campbell's conditional purchases, portions 89, 96, 231, 104, and 201 were declared forfeited, and on the 9th December, 1884, the remission of such forfeiture was approved by the Governor in Council.

Between the date of forfeiture and the date of remission of forfeiture conditional purchases 84-55 and 84-130 have been made for portion 96, and conditional purchases 84-47 and 84-127 for portion 89.

It is therefore submitted whether those conditional purchases should not stand on their merits, being lodged prior to the remission of the forfeiture.

ROBT. D. FITZGERALD  
(For Surveyor-General).

13th February, 1885.

Submitted.—C.O., 23/2/85.

When the forfeiture of A. Campbell's conditional purchase was reversed it was not known to me that the land had been selected by other persons, consequently the reversal of the forfeiture will not under the fact reinstate the selections, therefore the conditional purchases of the other persons on this ground must be upheld, provided there are no other exceptions or exemptions under the law.—J.S.F., 13/3/85.

[Enclosure.]

Office Memorandum.

THE enclosed cases should await action on 84-35,609, Executive Council minute *re* reversal of Archibald Campbell's conditional purchase.

It has been submitted by the Deputy Surveyor-General's memo. of the 13th February, 1885, that the four conditional purchases lodged between date of forfeiture and date of remission of forfeiture stand on their merits.

J. J. F.,  
13th February, 1885.

## Mr. D. Hanan to The Secretary for Lands.

Sir,

Lismore, 6th March, 1885.

I have to request that you will be kind enough to remit me the money which I paid on 40 acres of land, viz., £10. The ground was some time ago selected by A. Campbell, but forfeited, and then I selected it, but A. Campbell got a fresh inquiry, and the forfeiture being reversed, I lose the ground, and beg that you will be good enough to remit me the amount, £10, at your earliest convenience.

I have, &c.,

DENIS HANAN.

40 acres, selected originally by A. Campbell, situate on Jiggi Creek, on the south-west of Sullivan's conditional purchase.

## No. 54.

## Messrs. Cope and King to The Under Secretary for Lands.

Sir,

139, Pitt-street, Sydney, 18 March, 1885.

We have the honor to request that you will allow us to have copies of all papers in this matter on behalf of the original selector.

We have, &c.,

COPE AND KING.

Minutes on foregoing may be copied after office hours at applicant's expense.—F.H.W., 26/3/85. Copies may be prepared at the expense of the applicants.—C.O., 26/3/85. Messrs. Cope and King informed.—26/3/85. Inform Cope and King that copies have been prepared at a cost of £2 9s. 6d., including 7s. 6d. for a tracing.—S.F., 9/4/85. Cope and King accordingly.—9/4/85. Communicate decision of the 13th March.—J.S.F., 30/4/85. Mr. Campbell, care of J. A. Martin informed.—V.C., 2/5/85. ## No. 55.

## Mr. D. Hanan to The Secretary for Lands.

Sir,

Lismore, 21 March, 1885.

Some three months ago I selected a portion of land at the Lismore Land Office ; it was part of a forfeited selection of Archibald Campbell. Since I heard that the land has been given back to Campbell, I selected under protest, so if such is the case would you kindly remit me my money as soon as possible, as I am at a stand still. Kindly let me know at once.

I have, &c.,

DENIS HANAN.

The land was selected in the Lismore Land Office, Richmond River ; it is in the parish of Tunstall, county of Rous. I wish to have the thing settled, as I intend to select a larger portion when the land office is open again. I think there are sufficient improvements on my piece to debar selection, as I am told I cannot hold it. There are improvements to the value of £1 per acre, which there is considerably over on my piece.—DENIS HANAN, Lismore, Richmond River.

Application to Charting Branch.—10/12/84. Geographical division, No. 5, noted.—10/4/85. Charting Branch.—14/4/85. Geographical division, No. 5, 14/4/85.

Messrs. Cope and King to The Under Secretary for Lands.

Sir,

139, Pitt-street, 2 April, 1885.

In answer to your letter of March, ultimo, intimating that certain papers in the matter of Campbell's conditional purchase would be copied for us, provided we were willing to pay cost of same, we beg to inform you that we will pay the necessary sum on completion of the copy.

We are, &amp;c.,

COPE AND KING

(Per T.H.B.)

To be placed with previous papers.—S.F., 2/4/85.

No. 58.

The Under Secretary for Lands to Mr. A. Campbell.

Sir,

Department of Lands, Sydney, 2 May, 1885.

Referring to the conditional purchases made by Mr. Archibald Campbell, as per margin, the forfeiture of which was reversed, I am directed by the Secretary for Lands to apprise you that when the reversal took place it was unknown to him that the land had been selected by other persons during the interval that had elapsed between the date of forfeiture and the reversal thereof, consequently the reversal will not under the facts reinstate your selections, and the selections made by the other persons must be upheld, unless there are other exemptions or exceptions to them under the law.

I have, &amp;c.,

CHARLES OLIVER,

Under Secretary.

No. 59.

Mr. J. A. Martin to The Secretary for Lands.

Sir,

Land Agency Office, 248, George-street, Sydney, 12 May, 1885.

In reply to your communication of 2nd instant, relative to the conditional purchases of Mr. A. Campbell, as per margin, the receipt of which caused me considerable surprise, as you a short time back, when Mr. Campbell and myself did ourselves the honor of interviewing you, decided in view of all the circumstances of the case, to void the applications by Sullivan, Reis, Smith, and Gordon, and to vest the land in Campbell, who returned, believing your decision would be carried out, and prevented proceedings that he was about to take against these men, and now beg to ask whether your letter referred to is to be taken as your final decision in this matter, because there is no doubt in my mind that the men referred to are trespassers, and that the land in question is the legal property of my client, who will, to protect himself, be compelled to enter an action at law against his opponents if you decide not to void the adverse applications referred to.

A reply at your earliest convenience will greatly oblige.

I have, &amp;c.,

JOHN A. MARTIN,

Agent for Mr. A. Campbell.

This is a protest against decision of 13th March, 1885 (*vide* 85-1,412), Survey. The survey minute upon which paper shows the state of the case.—Ed. BROWN, 22/5/85. Submitted.—F.H.W., 23/5/85. Submitted. There would appear to be no other course open than that by the Minister directed to be taken, which may be intimated as the final decision.—C.O., 2/6/85. Approved.—F.A.W., 4/6/85. Mr. John A. Martin informed, 18/6/85. Submitted that the conditional purchases of A. Campbell should be re-gazetted forfeited.—H.W., 15/7/85. F.H.W., 22/7/85. Again recommended for forfeiture.—F.H.W., 31/7/85.

No. 60.

Mr. D. Hanan to The Under Secretary for Lands.

Dear Sir,

Lismore, 10 June, 1885.

I selected a piece of land in Lismore in November, 1884, and have since heard the land stands good in the name of A. Campbell. It was portion of a forfeited conditional purchase of A. Campbell. I selected the land under protest, and it is currently reported the forfeiture has been reversed, and the land stands good in the name of Campbell. I wish you would send me my money at once. The land was taken up in the Lismore Land Office in November, 1884, by me. I am quite willing to give up claim to my conditional purchase as soon as I get my deposit money back, which is £10. I selected 40 acres. By letting me know at once you will oblige.

Yours, &amp;c.,

DENIS HANAN.

## No. 61.

## Mr. A. Campbell to The Under Secretary for Lands.

Dear Sir,

Lismore, 29 June, 1885.

I have a selection of 150 acres, selected on the 25th April, 1878; some time ago it was declared void through an error. I immediately saw the Minister for Lands, and he at once reversed the forfeiture. During this time it was selected in different portions, under protest, by J. Smith, J. Sullivan, H. Reis, and N. Gordon, on the 9th April, 1885. The whole of the selections were declared void, and the Minister told me that refund vouchers would be immediately issued, which has not yet been done, as one of the selectors told me he would be satisfied if he got his money returned. I am sorry to trouble you, but they are a little annoyance to me. I have, since the forfeiture has been reversed, paid interest twice on the conditional purchase.

Hoping I may hear from you shortly.

I have, &amp;c.,

ARCHIBALD CAMPBELL.

The land was selected in the Richmond River District, at the Lismore Land Office.

## No. 62.

## Declaration by Mr. A. Campbell.

D.

[Alienation Act.]

C.P. No. 82-485.

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, ARCHIBALD CAMPBELL, of Lismore, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described; and that improvements consisting of house, fencing, falling, clearing, and to the value of £250, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Lismore, this 1st }  
day of July, 1885, before me,— }

ARCHIBALD CAMPBELL.

ANTY. BENEST, J.P.,  
Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall; 50 acres at Lismore, being conditional purchase No. 485 of 1882, in the district of Lismore, made on the 29th June, 1882.

Plan 83-831, original conditional purchase 78-180; 84-35,609 Dep. Examined and entered in conditional purchase register, C.C., 28/7/85. H.R., 30/7/85.

CHARLES OLIVER,

Under Secretary for Lands.

## No. 65.

## Telegram from The Surveyor-General to The District Surveyor, Grafton.

4 September, 1885.

ADDITIONAL conditional purchase 83, Lismore stands good at present in conditional purchase register, but the first conditional purchase of series 78-180, which was declared forfeited, and forfeiture revoked, has again been declared forfeited by Ministerial decision 85-1,412, Survey, which will, therefore, of necessity implicate additional conditional purchase 83-260. This portion, 96, Tunstall, was originally held by A. Campbell, under additional conditional purchase 79-196, which was forfeited as above, and now stands under conditional purchase 84-130, Nat. Gordon, and conditional purchase 84-55, H. E. Reiss.

THOMAS EVANS

## No. 66.

Mr. District-Surveyor Donaldson to The Chairman, Land Board, Grafton.

Sir,

District Survey Office, Grafton, 5 September, 1885.

I have the honor to request that the papers in the cases of the following conditional purchases may be obtained from the Department of Lands, Sydney, in order to enable me to furnish report upon Nathaniel Gordon's application, No. 85-5, Lismore, for a conditional purchase of 40 acres:—

Conditional purchase 83-263, Lismore.

" " 78-180, "

" " 79-196, "

" " 84-130, "

and papers 84-1,412, Survey, with which some of the papers connected with the above conditional purchases may be placed.

I have, &amp;c.,

P. R. DONALDSON,

District Surveyor.

Telegram, 14/10/85. Asked for, 15/9/85.

## No. 67.

The Chairman, Land Board, Grafton, to The Under Secretary for Lands.

Sir,

Local Land Board Office, Grafton, 15 September, 1885.

I have the honor to request that I may be furnished with the papers connected with the undermentioned conditional purchases, in order that the District Surveyor may be enabled to report on conditional purchase 85-5, Nathaniel Gordon, selected at Lismore 6th August, 1885:—

Conditional purchase 83-263, Lismore.

" " 78-180, "

" " 79-196, "

" " 84-130, "

and papers 84-1,412, Survey.

I have, &amp;c.,

JOHN WISEMAN

(For Chairman).

No. 85-6,758, Survey, is an Office memo., Deputy-Surveyor General, *re* conditional purchases of Campbell, Hanna Smith, and Sullivan, at Lismore.—J.P.M.

## No. 68.

Mr. J. W. Pidgeon to The Under Secretary for Lands.

Sir,

9, Macquarie-place, Sydney, 1 October, 1885.

Under instructions from my client, Mr. A. Campbell, I have the honor to request that you will declare the conditional purchase of J. Smith and J. Sullivan's conditional purchases 84-127 and 84-47, Lismore, void, on the following grounds:—

My client's conditional purchase 78-180, Richmond River, was forfeited by *Gazette* notice, 31st December, 1883, and the forfeiture revoked 20th December, 1884.

In the interim between the said forfeiture and revocation thereof, Sullivan and Smith selected portion of the aforesaid conditional purchase 78-180, Richmond River.

On reference to Inspector Trollope's report, of date 22nd November, 1881, you will find that the improvements on conditional purchase 78-180 were valued at £40, and again, when the case came on for hearing at the Commissioner's Court, 2nd October, 1883, the improvements were proved to be of the value of £140 17s. 6d. Under the above circumstances, the measured portion embraced by conditional purchase 78-180, being improved to the value of £40 and over, the selections by Smith and Sullivan are illegal, and I therefore request that you will declare the said selections void, and uphold your decision given 20th December, 1884, in favour of my client, and allow the said conditional purchase 78-180 to remain intact.

I have, &amp;c.,

J. W. PIDGEON.

## No. 69.

Mr. D. Hanan to The Under Secretary for Lands.

Dear Sir,

Lismore, 10 October, 1885.

I wrote you some time ago for a refund of £10.

I selected a portion of a forfeited selection of A. Campbell's, taken up on the 25th April, 1878, of 150 acres, and his forfeiture was afterwards reversed. I wish you would forward me a cheque by return post, and oblige.

Yours, &amp;c.,

DENIS HANAN.

## No. 70.

Telegram from The Chairman, Land Board, Grafton, to The Under Secretary for Lands.

14 October, 1885.

The papers applied for by my letter of 15th ultimo are urgently required by the District Surveyor. Please forward.

JOHN WISEMAN

(For the Chairman).

Mr. M'Guanne,—Are the papers required now available?—W.H.C., 2/12/85.

## No. 71.

Mr. D. Hanan to The Secretary for Lands.

Lismore, 18 October, 1885.

Appendix

I wrote to you some time ago for a refund of £10. I selected a portion of a\* forfeited selection of Archibald Campbell, selected on 25th April, 1878, of 150 acres, and his forfeiture was afterwards reversed. I have now been several months waiting for a refund, and wrote you three times. I wish you would forward me a cheque by return of post, and oblige.

Yours, &amp;c.,

DENIS HANAN.

Have applications for refunds been made by J. Smith and J. Sullivan?—C.O., 23/10/85. There is no record of such applications having been made.—J.P.M., 23/10/85. The Under Secretary.

## No. 72.

The Surveyor-General to The Under Secretary for Lands.

21 October, 1885.

Conditional purchase 78-180, A. Campbell, Lismore; conditional purchase 84-193, D. Hanan, Lismore; conditional purchase 84-47, J. Smith, Lismore; conditional purchase 84-127, J. Sullivan, Lismore.

CONDITIONAL purchase 84-193, of 13th November, by D. Hanan, is for measured portion 104, parish of Tunstall, county of Rous, formerly additional conditional purchase 79-112, which, together with his other conditional purchases of the series, was forfeited on 31st December, 1883, and revoked on 20th December, 1884, but forfeiture was upheld, *vide* 85-1,412 Survey, as the first conditional purchase 78-180 was selected by J. Smith, conditional purchase 84-47, and J. Sullivan, conditional purchase 84-127, and between the dates of forfeiture and reversal of same.

Hanan applied for a refund on the grounds that he had been informed that the land stood in the name of Campbell, but as his conditional purchase 84-193 was applied for on 13th November, 1884—that is, between the dates of forfeiture and remission of same of Campbell's conditional purchases, it stands good provided there were not improvements of sufficient value on the land at date of conditional purchase to bar selection.

It is submitted that Hanan should be so informed.

Attention is also invited to letter by Cope and King (85-2,233 Corr.) enclosed.

Since writing the foregoing, the enclosed letter has been received from Campbell's Agent, protesting against Smith's and Sullivan's conditional purchases 84-47 and 84-127 respectively, on the grounds that portion 89 embraced by those conditional purchases is improved to the value of £140 7s. 6d.

On the 23rd December, 1881, Mr. Inspector Trollope valued the improvements on this portion 89 at £40, *viz.*, hut £20, and 20 chains of fencing at £20.

On the 2nd October, 1883, *vide* 83-30,493, Dep. enclosure, Campbell on oath states the improvements are worth £140 17s. 6d., *viz.*, house £30, scrub clearing £50, fencing £53 17s. 6d., and dams £7.

Smith's conditional purchase 84-47, for the north part of portion 89 has been provisionally measured as portion 214 of 70 acres by Mr. L. S. Somerville, who reported no improvements on that area; so that they must exist upon the southern part of portion 89, selected by J. Sullivan under conditional purchase 84-127.

It is therefore submitted whether Smith's conditional purchase 84-47 should not stand and Sullivan's conditional purchase 84-127 be declared void, or whether, in view of applicant's sworn evidence, that the improvements are worth £140 17s. 6d., both conditional purchases, 84-47 and 127, should not be declared void. If the latter course be adopted, perhaps the remission of forfeiture of conditional purchase 78-80 by A. Campbell may be allowed, or possibly a reference might be made to the Local Board as to value of improvements.

ROBT. D. FITZGERALD

(For Surveyor-General).

## No. 73.

The District Surveyor, Grafton, to The Chairman, Local Land Board.

Sir,

District Survey Office, Grafton, 27 October, 1885.

I have the honor to invite your attention to my letter of 5th September, 1885, asking that the papers in connection with conditional purchase 85-5, Lismore, may be procured from Sydney, and to request that the matter may be expedited as much as possible.

I have, &amp;c.,

P. R. DONALDSON,

District Surveyor.

Received in District Survey Office, Grafton, 25/2/86. Mr. Thornton.—H.P., 25/2/86. N. Gordon's case.

Department of Lands, Sydney, 9 January, 1886.

	Amount to be refunded.
For the following refund, viz.:—C.S. No. 85-33,699D; C.P. No. 84-193.	
Land office at Lismore; date of selection, 13th day of November, 1884; deposit paid on 40 acres .....	£ s. d. 10 0 0
Selection void to the extent of 40 acres; at applicant's request, as, at date of application, the land applied for was embraced on Archibald Campbell's prior conditional purchase 79-112. ...	
Deposit to be refunded on 40 acres .....	£ 10 0 0

No. 79.

The District Surveyor, Grafton, to The Chairman, Local Land Board.

District Survey Office, Grafton, 13 January, 1886.

I WOULD desire to draw your attention to the fact that conditional purchase application 85-5, Lismore, has not yet been dealt with, owing to the want of certain papers. These were asked for on the 5th September last, since which date several reminders have been forwarded. The papers, however, have not yet come to hand. The above application was made on the 6th August, 1885.

P. R. DONALDSON,  
13/1/86.

Despatched from District Survey Office, Grafton, 15/1/86. Have papers been received yet?—  
J.W., 23/1/86. Mr. A. Blackman. Not yet.—A.B. Asked for on 15/9 and 14/10/85. The Under  
Secretary, 27/1/86. The Chief Draftsman. Received in District Survey Office, Grafton, 28/1/86.

No. 80.

Telegram from The Surveyor-General to The District Surveyor, Grafton.

29 January, 1886.

CONDITIONAL purchase 83-263, Lismore, stands good in the name of A. Campbell. No information can at present be given with reference to portion 96, parish Tunstall, as the papers are with the Minister. The case will be looked up again in a few days.

JOHN F. LANDERS  
(For Surveyor-General).

Received in District Survey Office, Grafton, 30/1/86. Mr. Packer.—P.R.D., 30/1/86.

No. 81.

The Under Secretary for Finance and Trade to The Under Secretary for Lands.

(C.P. 78-180, Casino.)

Conditional purchases.

Sir, The Treasury, New South Wales, 20 February, 1886.

I have the honor to inform you that the balance of purchase money due on the selection mentioned in the margin was credited to Revenue on 19th February, 1886.

I have, &c.,  
W. NEWCOMBE  
(For the Under Secretary).

Archibald Campbell, Lismore; area, 150 acres; selected on 25th April, 1878; £112 10s. balance; £1 deed fee; total, £113 10s.

No. 82.

Mr. A. Campbell to The Registrar-General.

Sir,

I have to request that you will be good enough to forward to Messrs. Shorter and Stocks, solicitors, Lismore, or deliver to their agent, Mr. T. A. Shorter, solicitor, the deed of grant of land purchased by me at the Land Office, Lismore, and described in the schedule hereunder.

I have, &c.,  
ARCHIBALD CAMPBELL.

Witness to Signature,—JAMES BARRIE, J.P.

Schedule above referred to.

Date of Sale.	How sold.	Date of Payment of Purchase Money.	Town or Parish, &c.	County.	No. of Lot or Portion.	Area.
April 25, 1878.....	Conditional purchase	8/2/86.	Tunstall .....	Rous .....	78-180.	acres. 150

Register Book Vol., Folio.

N.B.—The deeds of all lands purchased prior to the 1st January, 1863, may be obtained at the Surveyor-General's Office.

The assurance fee of ½d. in the £ on the purchase money must be remitted by postage stamps or by money order with this application, unless previously paid to the Land Agent at time of sale.

All grants purchased since July, 1880, are liable to stamp duty, which must be remitted with the assurance fee.

[Enclosure.]

This receipt should be produced when next payment tendered.

NEW SOUTH WALES.  
(Receipt B.)  
Conditional purchases.

## No. 83.

Mr. Inspector West to The Chairman, Land Board, Grafton.

C.P. 84-47, section 13, portion 89, parish Tunstall.

Report by George W. West, Inspector of Conditional Purchases, respecting the selection of James Smith, made at Lismore on 20th March, 1884.

Sir,

Lismore, 28 February, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 27th February, 1886, and that I found the selector then resident upon his selection.

The land, which consists of forest and scrub, and comprises 70 acres, is occupied and used by selector as a home, and the selector, who follows the avocation of labourer, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

	£	s.	d.
Improvements at date of selection ... ..			Nil.
Since selection—			
House, 21 x 12, split slabs, two rooms, floored, shingle roof, and verandah ... ..	25	0	0
Gully ... ..	1	0	0
9 rods three-rail fence, at 6s. ... ..	2	14	0
Ringling ... ..	3	0	0
158 rods top-rail and two-barb wire, at 3s. ... ..	23	14	0
20 rods two-barb wire, at 2s. ... ..	2	0	0
4 acres felled and running fire, at £3 ... ..	12	0	0
6 acres felled, at £2 ... ..	12	0	0
	£81	8	0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

I met selector on the road to Lismore on business, his wife and family living here, and have no other home. Selector works out most of his time.

I have, &amp;c.,

GEORGE W. WEST,

Inspector of Conditional Purchases.

## No. 84.

Mr. Inspector West to The Chairman, Land Board, Grafton.

C.P. 84-127, section 13, portion 89, Tunstall.

Report by George W. West, Inspector of Conditional Purchases, respecting the selection of J. M. Sullivan, made at Lismore on 10th July, 1884.

Sir,

Lismore, 28 February, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 27th February, 1886, and that I found the selector's wife then resident upon selection.

The land, which consists of forest and scrub, and comprises 80 acres, is occupied and used by selector as a home, and the selector, who follows the avocation of labourer, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

	£	s.	d.
House, 18 x 12, split slabs, two rooms, slabbed, shingle roof ...	20	0	0
At time of selection ... ..	20	0	0
Improvements since selection—			
Skillion ... ..	10	0	0
Fowl-house and pig-stye ... ..	1	10	0
24 rods of two-rail fence, at 4s. ... ..	4	16	0
5 acres felled, partly burned, at £5 ... ..	25	0	0
5 acres felled, at £2 ... ..	10	0	0
Ringling ... ..	2	0	0
	£53	6	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

At the time of my visit selector was working on the Tweed, but his wife and family were living here, and she stated he returned every week, and had no other home. I noticed some fencing laid on the ground, but not erected. About 30 chains of two-rail fence on the line between Sullivan and Armstrong, but claimed, and I believe erected, by Armstrong.

I have, &amp;c.,

GEORGE W. WEST,

Inspector of Conditional Purchases.

## No. 85.

Mr. Inspector West to The Chairman, Land Board, Grafton.

C.P. 83-263, section 21, portion 231, parish Tunstall.

Report by George W. West, Inspector of Conditional Purchases, respecting the selection of Archibald Campbell, made at Lismore on 13th September, 1883.

Sir,

Lismore, 9 August, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 29th July, 1886, and that I found the selector then not resident upon selection.

The land, which consists of scrub, and comprises 40 acres, is not occupied and used by and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Improvement, nil.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

The original conditional purchase of this selection was forfeited, and since selected by Sullivan.

I have, &amp;c.,

GEORGE W. WEST,

Inspector of Conditional Purchases.

## No. 86.

The Surveyor-General to The Under Secretary for Lands

Geographical Division No. 7.

17 September, 1886.

THE papers quoted below are noted to the Land Board, Grafton, 6th February, 1886.

It is requested that the Chairman be asked to return papers to Head Office as soon as action is complete, as several charting cases are delayed in this division, awaiting the papers.

Papers S5-33,699 Dep., *re* Campbell's conditional purchase at Lismore.

J. J. FINN

(For Surveyor-General).

For approval.—F.H.W., 30/9/86. S.F. Approved.—H.C., 1/10/86. Should not the Land Board be requested to return papers to Charting Branch in view of Ministerial decision?—J. J. FINN, 20/10/86. Conditional Sales Branch. Conditional Sales Branch, 23 and 28. Put by after notation, and let this await return.—J.P.M., 13/12/86.

## No. 87.

Decision of the Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

New South Wales, }  
to wit. }

Decision of Local Land Board.

WHEREAS on the 20th day of September, 1886, it became a matter for investigation before us whether the lands applied for by Nathaniel Gordon, James Smith, and James M'D. Sullivan, were sufficiently improved to bar selection at the date of the respective applications, viz., on the 10th July, 1884, 20th March, 1884, and on the 10th July, 1884; and having taken evidence and inquired into the said matter, we find that Archibald Campbell has no claim whatever to be considered the owner of any improvements on portion 89, except a hut and fencing on the southern line, the value of which, hut £15, fencing £30 12s., was £45 12s., an amount sufficient to bar the selections of Smith and Sullivan, and no claim to any improvements on portion 96 except fencing on the north line worth £20, an amount not sufficient to bar the selection of N. Gordon; that is assuming the fencing was, as Campbell swore, his own and paid for by him, and not shared with his neighbours, and the Board desires to emphatically record its conviction that Archibald Campbell never had on portions 89 and 96 anything like the amount of improvements required by the law, and it is not deserving of any consideration.

Given under our hands, at the office of the Local Land Board, at Court-house, Lismore, in the Colony of New South Wales, this 21st day of September, 1886.

WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members.  
S. GARRARD, }

[Enclosure.]

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 1).

New South Wales, }  
to wit. }

Caption to Deposition of Witnesses.

THE examination of Archibald Campbell, of Tunstall, in the Colony of New South Wales, grazier; Edmund H. Tipper, of Jiggi; Frederick Schroder, of Pine Creek; Robinson Graham, of Jiggi; Richard N. Somerville, of Lismore; George W. West, of Lismore; Nathaniel Gordon, James M'D. Sullivan, of Tunstall; James Smith, of Tunstall; and Archibald Campbell, of Tunstall, in the said Colony.

WHEREAS it has been alleged that the lands applied for by Nathaniel Gordon, James Smith, James D. Sullivan were sufficiently improved to bar selection at date of their respective applications, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr.

Mr. E. W. Allingham, Solicitor, appeared for A. Campbell.

THIS deponent *Archibald Campbell* of Hanging Rock Creek, in the Colony of New South Wales, grazier, being duly sworn, maketh oath and saith as follows:—I selected 150 acres on the Parish of Tunstall on the 25th April, 1878, and subsequently measured as portion No. 89; I commenced to put fencing on it seven or eight months after selecting; I first put up a slab house of two rooms with shingle roof, which cost me about £30 or £35; it was my dwelling-house upon the selection; (evidence taken at an inquiry before Commissioner Bolding here put in, and read to applicant and admitted to be correct); I had a small hut previously which cost about a couple of pounds; on the 2nd of October, 1883, I had 20 acres of clearing and burning off, and 153 rods of fencing, which I value at 5s. a rod; I also made a dam on the land in a small gully since selected by Sullivan, it was worth £7; that is all the improvements on the 150 acres; the land was forfeited by the Minister, and subsequently reversed, subject to approval; between the time of forfeiture, and the date of the reversal it was selected by Sullivan and Smith, I took up portion 96 of 100 acres on the 12th June, 1879, as an additional to portion 89; I put 110 rods of fencing on it, before I made the declaration; I value the fencing at 5s. a rod; the 110 rods of fencing was on the northern line between my land and Ostreich's land; I value the clearing and burning off on portion 89 at £5; I value the clearing and burning off on portion 96 at £15; that is all the improvements on portion 96; this portion was also forfeited and then reversed, and since selected by Gordon; there was 58 rods of fencing at 5s. a rod, and about 20 acres of scrub fell on portion 104; I value the falling at £2 an acre; I put up a hut now worth £2; I did not put it in when giving my evidence before Commissioner Bolding.

Sworn by this deponent, Archibald Campbell, on this 20th day } ARCHIBALD CAMPBELL.  
of September, 1886, at Lismore, before us,—  
WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent *Edmund Henry Tipper*, of Jiggi, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows:—

*By Mr. Allingham*:—I know Campbell's 150 acres, portion 89, in the parish of Tunstall, subsequently selected by Smith and Sullivan; I also know portion 96, I knew them before they were selected; I knew perfectly well what improvements were on them before they selected them; on the 150 acres there was 153 rods of 2-rail fencing which I value at 5s. a rod; there is 110 rods of fencing between Gordon and Ostreich's; I counted it and helped to draw it; there is a house on the 150 acres, built of slabs with shingle roof worth about £30, when Smith and Sullivan selected; on portion 96 there is some clearing, but I cannot say what it is worth; there is only the house and fencing on portion 89 so far as I know.

E. H. TIPPER.

When Smith and Sullivan selected, the fence Schroder erected was as good as new.

Sworn by this deponent, Edward H. Tipper, on this 20th day } E. H. TIPPER.  
of September, 1886, at Lismore, before us,—  
WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *Frederick Schroder*, of Pine Creek, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows:—I know portions 89 and 96 in the parish of Tunstall; I put the fencing on them; I commenced the fencing in November, 1880, and finished it in March, 1881; I split the stuff and put it up; I have never been there since.

*By Board*: I have not seen the fence since Smith and Sullivan selected it; I got 3s. 6d. a rod for splitting and erecting it; I got the timber on the selection, but it was drawn through the scrub.

Sworn by this deponent, Frederick Schroder, on this 20th day } F. SCHRODER.  
of September, 1886, at Lismore, before us,—  
WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *Robinson Graham*, of Jiggi, in the Colony of New South Wales, farmer, being duly sworn, maketh oath, and saith as follows:—

*By Mr. Allingham*: I know portions 89 and 96, in the parish of Tunstall, taken up by Archibald Campbell; I remember about the time Smith and Gordon selected it; on portion 89 there was 153 rods of fencing, which I value at 5s. a rod; I saw it last Saturday; it was in fairly good order, with the exception of a few panels down; I saw it before Sullivan took it up, and immediately afterwards and it was in good repair; there was a house on it which I valued at £30 at that time; I believe there was some clearing done; I saw some men working there; I cannot say how much; I believe there was a dam there, but I cannot swear it; there was 110 rods of fencing on portion 96 when Gordon selected it; I saw it immediately before and immediately after it was selected; I know who erected the fencing; it was done at Campbell's expense; it was in good repair when Gordon selected it; about half a dozen has been burnt since Gordon selected; the same men were working on the ground burning off logs.

*By Board*: To my knowledge there was no scrub burnt.

Sworn by this deponent, Robinson Graham, on this 20th day } ROBINSON GRAHAM.  
of September, 1886, at Lismore, before us,—  
WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *Richard Somerville*, of Lismore, in the Colony of New South Wales, licensed surveyor, being duly sworn, maketh oath, and saith as follows:—

*By Board*: I know the lands comprised in Archibald Campbell's forfeited selections; it is about two years since I divided portions 89 and 96; I dealt with only a part of portion 89, that is the part Smith selected; I did not notice any improvements on Smith's portion; there was a fence on the southern boundary of Sullivan's portion, about 40 or 50 chains; I should say it was worth 15s. a chain; it is a two-rail, and in good repair; there was a hut there, which had been recently repaired; I measured the land about six months after Sullivan took it up; I should say the hut was worth £15; I believe there was some burning and falling there.

*By Mr. Allingham*: I should not estimate the value of the hut at £30 or near £30 when I saw it; I saw the hut some few months after Sullivan took it up; I did not examine the hut thoroughly with a view of estimating the value of it; it was a very loose kind of inspection I made of the hut; some part of the land appeared to have been cleared at some time; I went down the frontage creek.

*By Board*: I did not notice a dam there; I can say very little about the clearing.

Sworn by this deponent, Richard N. Somerville, on this 20th day } RICHD. N. SOMERVILLE.  
of September, 1886, at Lismore, before us,—  
WM. BLACKMAN, Chairman.

S. GARRARD, }

THIS deponent, *George Wolfe West*, of Lismore, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, maketh oath, and saith as follows :—

*By Board* : I know James Smith's selection now under consideration ; I first inspected it on the 27th February, 1886 ; he was residing there with his wife and family ; I found the following improvements :—House, 21 x 12, split slabs ; two rooms, floored, shingle roof, and verandah, valued at £25 ; gully, £1 ; 9 rods of three-rail fence, valued at 6s. a rod ; ringbarking, £3 ; 158 rods top rail and two barbed-wire fence, £23 14s. ; 20 rods two-wire fence, £2 ; 4 acres felled and running fire, £12 ; 6 acres felled, £12 ; total value of improvements, £81 8s. ; I also inspected Sullivan's selection on the same date, and found the following improvements :—House, £20 ; skillion, £10 ; 24 rods of two-rail fence, £4 16s. ; 5 acres felled and partly burnt at £5 an acre ; 5 acres felled, at £2 per acre ; and ringbarking, £2 ; I noticed a fence on the southern line, between Schroder and Campbell ; I allowed nothing for it because I was told Armstrong claimed it.

*By Mr. Allingham* : I did not see Sullivan or Smith on the land ; I cannot say who told me the fence belonged to Armstrong ; I think Smith was one who told me ; Sullivan was living in the house I valued at £20 ; there was a good deal of forest there ; I did not take it as old clearing ; I valued the fence on the southern boundary at about 4s. a rod ; I saw no trace of a dam on the land.

Sworn by this deponent, George W. West, on this 20th day }  
of September, 1886, at Lismore, before us,—

GEORGE W. WEST.

WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *Nathaniel Gordon*, of Tunstall, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows :—I applied for 40 acres in August, 1885 ; I took up 60 acres, portion of Campbell's forfeited selection, on the 10th July, 1884 ; I did not receive a letter from the Minister, allowing me to take the land ; there were no improvements on the land except a fence between me and Osterreich part of the way ; the fencing goes along the whole of the north line with the exception of 10 or 12 chains ; I cannot say the value of it ; part of it was burnt down and in bad repair when I took it up ; it was burnt down in patches, and some of it is down now ; not knowing that I was going to be examined to-day I cannot say exactly how much ; some of it is down now ; the fence was partly burnt down when I took it up in 1884 ; I know Osterreich ; he said he put the fence between them ; there were no other improvements on the land whatever besides the fencing when I took it up ; there was no clearing on it ; some of it is forest and some scrub ; there was no clearing done by labour.

*By Mr. Allingham* : Mr. Benest was Land Agent when I took up this land ; he did not warn me that I could not get the land ; I inspected the land before I applied for it ; I did not know the fence was on it ; I saw a two-rail fence there ; the first time I saw the fence there was several rods of it burnt ; I have repaired some of it ; I cannot say how many rods were burnt ; I will swear the land, or no part of it, had been cleared when I went there ; I was living about Lismore when I took the land up ; I was never at Tunstall before taking up the land ; Osterreich told me after I selected that he put up the dividing fence.

*By Board* : I cleared some land there myself—25 acres—and burnt some off.

Sworn by this deponent, Nathaniel Gordon, on this 20th day }  
of September, 1886, at Lismore, before us,—

NATHANIEL GORDON.

WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *James M. Sullivan*, of Jiggi, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows :—I have heard Mr. West's statement as to the value of improvements on the land ; the statement made by him is true ; there was no clearing done on the land when I took it up, not so much as a tree ringbarked ; I did the whole of the clearing on the land ; the whole of the ringbarking was done by me ; there was no door or window in the hut when I went there, and the slabs were wide apart, and no flooring ; I had to put in new flooring, two new doors, and shutters ; I also put up a skillion room ; I could not put a valuation on the hut at the time I selected it ; it was not worth £5 ; it would be dear at £5 ; I put my fencing right across the land ; there was a fence on the southern boundary of the land, worth about 3s. 6d. a rod.

*Examined by Mr. Allingham* : Mr. Benest was Land Agent when I applied for it ; he did not warn me against selecting it ; I went to look at the land before selecting it, and saw the hut there ; it was about 20 feet long, and might have been 12 feet wide ; it was all in one ; there were a few slabs down for floor, and only a portion of a roof ; I am living in it now with my wife and six children ; I have been living there since a few weeks after selecting ; I cannot say how much fencing is in the fence on the southern boundary ; it was not a good fence when I first saw it ; it might have been worth 3s. 6d. a rod ; I will swear positively there was no clearing done before I went there ; I did not see a dam on the land or any sign of one ; I saw a sign of a dam on Armstrong's land ; I found no trace of a dam on my land.

Sworn by this deponent, James M. Sullivan, on this 20th day }  
of September, 1886, at Lismore, before us,—

JAMES M'DOWELL SULLIVAN.

WM. BLACKMAN, Chairman.  
DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *James Smith*, of Jiggi, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows :—

*By Board* : I know Archibald Campbell's selection of 150 acres ; that was divided between myself and Sullivan ; I know of no improvements on the land, except an old humpy and a fence on Sullivan's southern boundary ; I was over the land when I took it up ; Sullivan has cleared some of the land and burnt it off since he took it up ; so far as I know the whole of it was done by Sullivan ; I did not see any clearing or burning off on his land prior to his taking it up ; I am sure there was no other clearing or burning done except what Sullivan did ; I know nothing about the fence ; I could not put any valuation on it ; I should think the hut would be worth £10 or £15 ; I saw it when Sullivan took it up ; it was a slab hut in very rough repair ; he had put a door and shutters in it ; I know Sullivan repaired it since ; he put a floor in it and fixed the slabs ; I know the land Gordon took up ; there were no improvements on it when he took it up, except the fence ; but whether Campbell claims it or not I do not know ; Gordon did all the clearing and burning off that is on the land ; I never saw a dam on Sullivan's land ; I don't think there could be a dam there without my knowledge, as I have been over the land very often during the last five years ; I was engaged with Mr. Somerville, the surveyor, in measuring the lines.

*By Mr. Allingham* : At the time I selected the land I was engaged by Surveyor Sommerville ; it was not through running the lines with him that I knew the land was open to selection ; I never told any one before coming into the Court-house to-day that I knew this land by running the line with the surveyor ; I had a look at the fence on the southern boundary ; I cannot say what repair it was in ; I do not know what quantity of fencing was there ; it was a two-rail fence ; the hut was worth £10 or £15 when Sullivan took it up ; he has been living in it ever since with his wife and six children ; I never saw a dam on the land ; I will swear all the clearing on the land was done by Sullivan ; I will swear there was no clearing done before Sullivan took it up ; I was living up there with Mr. Olley about five months ; I am prepared to swear there was no clearing done on the 150 acres by the Campbells ; I did not get permission from the Minister to select the land before I selected it ; my selection and Sullivan's were cut out of one measured portion ; I saw a fence on portion 96 ; I cannot say what it is worth ; I am prepared to swear Campbell did no clearing on Gordon's land.

Sworn by this deponent, James Smith, on this 20th day }

DUNCAN M'DONALD, } Members of Board.  
S. GARRARD, }

THIS deponent, *Archibald Campbell*, of Jiggi, in the Colony of New South Wales, grazier, being duly sworn, maketh oath and saith as follows:—I know the selection taken up by Hanan, portion 104, on which he got his refund; there are 20 acres of scrub fell, which I value at £2 an acre, and 58 rod of fencing, at 5s. a rod—£18; I also know portion 201 of 50 acres, taken up on 29th June, 1882; there are no improvements on it.

Sworn by this deponent, Archibald Campbell, on this 20th day }  
of September, 1886, at Lismore, before us, — } ARCHIBALD CAMPBELL.  
Wm. BLACKMAN, Chairman, }  
DONALD M'DONALD, } Members of the Board.  
S. GARRARD, }

N.B.—It may be stated by way of explanation that as Campbell declared that Gordon's land was also improved at date of selection, it was considered necessary to include his case in the inquiry. Of course the hut and fencing, as indicated, were on portions 96 and 89 at the date of selection by Smith, Sullivan, and Gordon.—Wm. B., Chairman.

### No. 88.

J. Barrie, Esq. to The Secretary for Lands.

Sir,

Lismore, 27 September, 1886.

I have the honor to address you on a subject which will I feel assured commend itself to your best consideration and attention, and at the same time excuse my intrusion on your valuable time. At the recent Land Court held here, the Board had to inquire whether the improvements on the conditional purchases of one Sullivan, Smith, and Gordon were improved at date of selection, or rather application, so as to bar selection, and after a careful and impartial trial, the Board, on the evidence adduced, decided that the conditional purchase of Gordon was not improved, but that those of Smith and Sullivan were sufficiently improved to render them illegal. Now Smith and Sullivan do not question the ruling of the Board upon the evidence before it; but on their behalf, I assure you they attended the Court entirely ignorant of the allegations they would have to meet on the part of Mr. Archibald Campbell, who had previously claimed the land, and that had they known anything like as much of the case at the beginning of the inquiry as they did at the close, or shortly afterwards, they would have been prepared with any amount of evidence to show that Mr. Archibald Campbell's statements as to his claim to the improvements and their value were altogether untrue, and they were still more ignorant of what they should bring before the Court, as they fully relied on a letter, dated the 9th July (S5-3,178), sent to Smith by the Under Secretary, approving of his application to select, and informing him it was decided not to disturb the forfeiture of Mr. A. Campbell's selection.

As the homes and the labour of years of these two men are at stake in this matter, I confidently appeal to your sense of justice, and feel convinced you will not refuse two such industrious men, as I have every reason to believe they both are, all they seek, and that is another opportunity of bringing their case fully before the Board, in whose fairness and impartiality they assure me they have entire confidence, and by whose finding they are willing to be bound.

Under all the circumstances, I trust you will kindly remit the papers in the case to the Chairman of the Board, in order that the reinquiry may be held at the earliest moment the engagements of that gentleman will permit.

I have, &c.,

JAMES BARRIE.

Mr. Barrie handed me this letter with a request I would urge that the papers should be returned to the Board for reinquiry. I forward it without any remark other than this, that coming from such a man as Mr. Barrie, the letter is very serious. Should the reinquiry be authorised, I request the papers may be forwarded to me by return of post, in order that I may make immediate arrangements, as I shall have to leave for Casino in a few days.—Wm. BLACKMAN, Chairman, 5/10/86. The Under Secretary for Lands.

### No. 89.

Telegram from The Chairman, Land Board, Grafton, to The Under Secretary for Lands.

2 October, 1886.

PLEASE do not take any action in *re* case of Archibald Campbell and Smith and Sullivan, dealt with by the Board at the late Lismore Court, and forwarded to you awaiting an important letter on the subject from Mr. James Barrie, J.P., Ex-Mayor. I return to Grafton on Tuesday.

WM. BLACKMAN,  
Chairman.

### No. 90.

Telegram from The Chairman, Land Board, Grafton, to The Under Secretary for Lands.

12 October, 1886.

PLEASE return to me by to-night's steamer to Grafton, case of Archibald Campbell *versus* Smith and Sullivan, sent to you from Lismore, if the Minister grant a rehearing.

WM. BLACKMAN,  
Chairman.

Special, 86-31,505, Dep. Submitted to the Under Secretary, 5/10/86.—J.P.M., 8/10/86. The Assistant Under Secretary. Mr. Capper.—S.F., 12/10/86. Urgent.—Records for papers.—W.H.C., 13/10/86. Submitted that in view of the Chairman's communication, the case be returned to the Local Board for rehearing, the matter having been insufficiently considered.—S.F., 13/10/86. Approved.—H.C., 14/10/86. For next Court at Lismore.—Wm. BLACKMAN, Chairman, 12/11/86. Mr. Wiseman.

## No. 91.

## Inspector West to The Under Secretary for Lands.

C.P. 79-112, section 21, portion 104, parish Tunstall.

Report respecting the selection of Archibald Campbell, made at Lismore, on 20th March, 1879.

Sir,

Lismore, 5 November, 1886.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 14th October, 1886, and that I found the selector then resident upon selection.

The land, which consists of scrub, forest, and jungle, and comprises 40 acres, is occupied and used by \_\_\_\_\_; and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

	£	s.	d.
5 acres felled, burned, and partly under crop, £4 ... ..	20	0	0
5 acres felled and run, £2... ..	10	0	0
38 rod 2-rail fence, half line between selector and Armstrong 4s. ... ..	5	15	0
	£35 15 0		

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

The felling on this selection was very light and only jungle; all large trees still standing. Part of the 5 acres are under crop of potatoes, put in by Sullivan.

I have, &amp;c.,

GEORGE W. WEST,

Inspector of Conditional Purchases.

Notice forms prepared for Smith, Sullivan, Gordon, and Campbell; also decision and caption forms, 20/11/86. Notices sent January, 1887.

## No. 92.

## The Surveyor-General to The Under Secretary for Lands.

Geographical Division No. 7, 7th December, 1886.

It is requested that the Chairman of the Land Board at Grafton may be asked to return papers 86-32,578 Dep., noted to him 14th October, 1886, to this office, in order that five cases now delayed in Charting Branch may be dealt with.

Papers required refer to Archibald Campbell's conditional purchase 78-170, Lismore, and the cases delayed are measurements for subsequent applications for same land as embraced by conditional purchase 78-170.

R.S., 7 December, 1886.

The above minute is submitted for the consideration of the Under Secretary for Lands, five charting cases being delayed for the required papers.

J. W. ELLIS

(For Surveyor-General).

10th December, 1886.

Chairman, Grafton, asked to return papers, 86-32,578 Dep., 16/12/86, Conditional Sales Branch. Not yet returned.—C.W.P. (*per* J.P.M.), 30/12/86.

## No. 93.

## Declaration by A. Campbell.

C.P. No. 83-263.

D.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, ARCHIBALD CAMPBELL, of Lismore, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of building, felling, clearing, and fencing, and to the value of £200, have been made on such land, in conjunction with my original conditional purchase; and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits.

ARCHIBALD CAMPBELL.

Taken and declared at Lismore, this 13th day }  
of December, 1886, before me,— }

PROSPER DE MESTRE, Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall, 40 acres, at Tunstall, being conditional purchase No. 263, of 1883, in the district of Lismore, made on the 13th September, 1883.

84-35,609 Dep., first conditional purchase, 78-180; balance, 86-5,235 Dep. Examined and entered.—C.C., 30/12/86. Instalment received at the Land Office, Lismore.—H.R., 13/12/86.

No. 94.

The Under Secretary for Lands to The Chairman, Land Board, Grafton.

Sir,

Department of Lands, Sydney, 16 December, 1886.

I have the honor to request that you will be good enough to return to this Department, as early as practicable, all papers in connection with the conditional purchase noted in the margin, which were forwarded to you on the 14th October, 1886.

I have, &amp;c.,

STEPHEN FREEMAN

(For the Under Secretary).

Inform that the Minister for Lands has authorised a rehearing, which will take place at the earliest moment.—W.M. BLACKMAN, Chairman, 3/1/87. Inform. Under Secretary informed, 4/1/87. Notices issued to N. Gordon, J. M'D. Sullivan, Jas. Smith, and A. Campbell to attend Court on 15th February, 1887, by registered letter.—W.S., 15/1/87.

Papers 86-32,578, Dept., C.P. No. 78-170, made by A. Campbell, at Lismore.

No. 95.

The Chairman, Land Board, Grafton, to The Under Secretary for Lands.

Sir,

Local Land Board Office, Grafton, 4 January, 1887.

With reference to your communication of the 16th December last, requesting the return of all papers in connection with the conditional purchases noted in the margin, I have the honor to inform you that the Minister for Lands has authorised a rehearing of the case, and which will be heard at the earliest moment.

I have, &amp;c.,

JOHN WISEMAN

(For Chairman).

86-32,578 to Land Board, Grafton, for rehearing, 14/10/86.—F.H., 13/1/87. Correspondence Branch,—Please supply a copy of letter of 16th December last, referred to herein.—W.H.C., 15/1/87. May be seen by Survey Branch.—W.H.C., 10/3/87. Seen.—J. J. FINN, 14/3/87.

86-32,578, Dept. C.P. 78-170; A. Campbell, Lismore.

No. 96.

Office Memorandum.

Geographical division No. 7, 27th January, 1887.

Registration No. of outside papers, C.S. 84-6,590, Sur.; name of surveyor, T. Ewing; county of Rous; parish of Tunstall; portions 96 and 104; to Mr. Draftsman Lender; transferred to Land Board District of Grafton, land district of Lismore.

Concise statement of cause of detention, also an account of the steps taken to forward the case, and the date and result of the efforts used to that end.

The plans in these cases have been approved, but action on the conditional purchase applications is incomplete, pending final action on papers C.S. 86-32,578 Dept. Papers C.S. 85-160 Sur., C.S. 85-1,392 Sur., and C.S. 83-831 Sur., forwarded to District Surveyor under separate covers, are also dependent on final action on papers C.S. 86-32,578 Dept., noted to Land Board Grafton, 14/10/86.

Original plans R. 3,259 and R. 3,260-1,759 to District Surveyor under cover of papers C.S. 85-160 and 85-1,392, Sur.—R.S. For Mr. District-Surveyor Donaldson, 28/1/87. Received in District Survey Office, Grafton, 10/2/87, No. 54. The Chief Draftsman.—P.R.D., 10/2/87. Mr. Newell.

No. 97.

Office Memorandum.

Geographical division No. 7, 27th January, 1887.

Registration No. of outside papers, C.S. 85-1,392, Sur.; name of surveyor, R. N. Somerville; county of Rous; parish of Tunstall; portion 215; to Mr. Draftsman Lender; issued 8/4/86; transferred to Land Board District of Grafton, land district of Lismore.

Concise statement of cause of detention, also an account of the steps taken to forward the case, and the date and result of the efforts used to that end.

Action on this case is dependent on final action with regard to conflicting claim by A. Campbell in virtue of his additional conditional purchase 79-196, which embraced portion 96, as originally measured; papers 86-32,578 Dept., relating to Campbell's claim are noted to Land Board, Grafton, 14/10/86. Undealt with plan R. 3,649-1,759 and original plans R. 3,130 and 3,260-1,759 enclosed.—R.S.

For Mr. District-Surveyor Donaldson, 28/1/87, No. 53. Received in District Survey Office, Grafton, 10/2/87. The Chief Draftsman.—P.R.D., 10/2/87. Mr. Newell. L.B.D. 87-4,182 placed herewith.—F.B.N., 22/9/87.

No. 98.

Office Memorandum.

Geographical division No. 7, 27th January, 1887.

Registration No. of outside papers, 83-831 Sur.; name of surveyor, C. F. Garvan; county of Rous; parish of Tunstall; portion 201; to Mr. Draftsman Lender; transferred to Land Board District of Grafton, land district of Lismore.

Concise statement of cause of detention, also an account of the steps taken to forward the case, and the date and result of the efforts used to that end.

Plan in this case has been approved. Action on conditional purchase incomplete, pending final action on papers C.S. 86-32,578, Dept., noted to Land Board, Grafton, 14/10/86; see also papers C.S. 84-6,590 Sur. Original plan R. 2,743-1,759 enclosed.—R.S.

No. 99.

The Under Secretary for Lands to The Chairman, Land Board, Grafton.  
(C.S. 86-40,645 D, Lismore District.)

28 February, 1887.

C.P. No. 78-180 ; sec. 13 ; 150 acres ; stands good. C.P. No. 79-112 ; sec. 21 ; 40 acres ; stands good.  
C.P. No. 196 ; sec. 21 ; 100 acres ; stands good. C.P. 82-485 ; sec. 21 ; 50 acres ; stands good.  
C.P. No. 83-263 ; sec. 21 ; 40 acres ; for verification.

Name of applicant and alienee:—Archibald Campbell.

DECLARATION upon additional conditional purchase 83-263 requires verification. All papers in connection with the case are therefore referred to the Chairman of the Local Land Board, Grafton, 14th October, 1886, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report, when furnished by the Inspector, shows that the improvements are not sufficient on additional conditional purchase 83-263, or that there is not a surplus from those on the original conditional purchase, and intermediate conditional purchases of this series to cover the deficiency, an investigation by the Local Land Board may be instituted, subject to the provisions of the 20th section of the Crown Lands Act of 1884.—C.C., 24/2/87.

The above recommendation approved by the Minister for Lands, *vide* 87-5,891 D.

Telegram from T. Bawden, Esq., to The Under Secretary for Lands.

Grafton, 28 April, 1887.

*Re* land forty seven of eighty-five, declared void as per your wire of yesterday, please take warning not to issue certificate of conformity in respect of said land to Archibald Campbell, it being my intention to proceed with complaint under subsection three, clause thirteen.

T. BAWDEN,

Agent for James Smith.

Mr. Yorke,—I would like to see the papers before the voucher issues.—W.H.C., 28/4/87. Voucher has been issued some days, and papers resubmitted.—J.R.Y., 28/4/87. Mr. Capper.

No. 116.

## No. 116.

T. Bawden, Esq., to The Under Secretary for Lands.

Sir,

Grafton, 30 April, 1887.

Referring to James Smith's telegram, dated 22nd April, *re* conditional purchase 84-47, Lismore, my telegram of the 25th April, and your reply, dated 27 April, in which you intimate that the conditional purchase in question, A. Campbell's, had been declared void, I now do myself the honor to submit that the purport of James Smith's telegram above referred to, must have been misunderstood, as your reply of the 27th is scarcely an answer to his request, or to my question. This may have arisen through a confusion as to the numbers of the respective conditional purchases involved.

Upon receipt of yours of the 27th I wired you as follows:—"Re land 47 of 84, declared void as per your wire of yesterday, please take warning not to issue certificate of conformity in respect of said land to Archibald Campbell, it being my intention to proceed with complaint under subsection 3, clause 13.—T. BAWDEN, agent for James Smith."

I now desire to explain more fully, in the absence of the papers for reference, the circumstances that led up to this correspondence, and to the proposed further action.

It appears that Archibald Campbell made a conditional purchase on 25th April, 1873, 78-180. This conditional purchase was declared forfeited on 31st December, 1883.

While the land was under forfeiture, that is to say, on the 20th March, 1884, James Smith made a conditional purchase of a portion of it, conditional purchase 84-47. Subsequently, while the land was still under forfeiture, J. M. Sullivan conditionally purchased, 10th July, 1884, conditional purchase 84-127, the residue of the land comprised in Campbell's forfeited conditional purchase 78-180. Smith and Sullivan respectively went into occupation; and upon the strength, as I am informed, of an official communication to the effect that the forfeiture in respect to conditional purchase 78-180 had not been rescinded, proceeded with their improvements, which are now, as I believe, of a substantial and valuable nature. Smith and Sullivan were left in undisturbed possession until on or about the 20th September, 1886, when conditional purchase 84-47 and 84-127 came before the Local Land Board for inquiry. At that inquiry Smith and Sullivan assert that they were taken by surprise by evidence submitted in Campbell's interest in respect to the improvements upon the land at the time conditional purchases 47 and 127 were made. Subsequent to the inquiry referred to, and upon a recent date, Smith and Sullivan have been informed that a decision has been arrived at in favour of Campbell, and conditional purchases 84-47 and 84-127 have been declared void.

Smith and Sullivan are now, I am informed, prepared with evidence which will entirely prove the unreliable nature of that previously submitted in Campbell's interest.

The object of this correspondence is to obtain a rehearing of the whole matter, for which purpose a complaint against Campbell under subsection 2, clause 13, Land Act, 1884, will be lodged. It was for the purpose of enabling this course to be followed by delaying the issue to Campbell, who, it is reported, was to have conditional purchase 78-180 reinstated if a certificate of the completion of conditions that Smith's telegram of the 22nd April and mine of the 28th April were sent you.

What I now desire to urge is that no further action shall be taken in the direction of confirming or reinstating conditional purchase 78-180, until the rehearing referred to has taken place, and that such rehearing may be as early as possible.

I may add that I am informed the very strongest evidence will be forthcoming, showing that the improvements upon the land at the time Smith and Sullivan made their conditional purchases were not as represented in Campbell's interest at the Court of Inquiry before the Local Land Board.

I would also ask in the interests of justice towards Smith and Sullivan, for whom I am acting, that all the papers connected with conditional purchases 78-180, 84-47, 84-127 may be forwarded to the Local Land Board Office, Grafton, and that I may have permission to inspect same for the purpose of preparing our case.

Requesting that this matter may receive your early and most favourable attention,  
I have, &c.,

T. BAWDEN.

## No. 117.

Declaration by J. Smith.

(C.P. No. 84-47.)

D.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, JAMES SMITH, of Lismore, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of building, clearing, falling, and fencing and to the value of £200 have been made on such land; and I declare further, that the said land has been the *bonâ fide* residence continuously of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the above-named holders, until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof, and for the suppression of voluntary and extrajudicial oaths and affidavits."

Taken and declared, at Lismore, this 3rd }  
day of May, 1887, before me,— }

JAMES SMITH.

PROSPER DE MESTRE, J.P.,

Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall, 70 acres, at Tunstall, being conditional purchase No. 47 of 1884, in the District of Lismore, made on the 20th March, 1884.

Conditional

Conditional purchase void, *vide* S7-11,182 D., noted 21/5/87; instalment received at Land Office, Lismore, 3/5/87; examined and entered.—F.G., 21/5/87.

Mr. Smith warned that the conditional purchase referred to in the annexed declaration has been proclaimed void, but he insisted upon making same, and paying instalment.—P.DeM., Crown Lands Agent, Lismore, 3/5/87. The Under Secretary for Lands, Department of Lands, Sydney.

Papers in this case S7-14,668 D., are noted to District Surveyor, Grafton, 27/5/87, as applied for by letter of 20th instant; also 85-160, Sur., noted to District-Surveyor Donaldson, 4/2/87.—A.J.L. (*pro* J.P.M.), 31/5/87.

Mr. Capper,—The papers may, it is submitted, be recalled, with a view to a communication being sent to the declarant in regard to the state of the case.—W.H.C., 22/6/87. F.H.W., S.F., 24/6/87. Approved.—F.G., 25/6/87.

### No. 118.

T. T. Ewing, Esq., M.P., to The Under Secretary for Lands.

Sir, Parliament House, 8 May, 1887.  
As I explained in interview, I should be glad if you would send me a letter for applicant, fully setting out case.  
Yours, &c,  
THOS. EWING.

### No. 119.

#### Office Memorandum.

THE Assistant Under Secretary expressed his surprise at the enclosed letter and voucher being sent out of the office with such meagre information regarding the reason of voidance, and directs that the voucher be completed and a manuscript letter written giving details *re* voidance.

It would be as well if all the clerks noted the desire of the Assistant Under Secretary that they should be as explicit in their memos., minutes, and notes as practicable.

W.H.C.,  
10/5/87.

Mr. Yorke,—To be noted.—J.R.Y., 10/5/87, Noted.—F.G., 10/5/87; H.R., 10/5/87; C.C., 10/5/87; T.G., 10/5/87; J.M., 10/5/87; C.C., 10/5/87; H.C. Letter and voucher also dated, Correspondence Branch for manuscript letter.—J.R.Y., 10/5/87. Thos. Ewing, with refund order for £17 10s., and printed letter to J. Smith, *re* conditional purchase, 84-47, Lismore.—H.L.T., 11/5/87 Mr. Yorke.

### No. 120.

The Under Secretary for Lands to T. T. Ewing, Esq., M.P.

Sir, Department of Lands, Sydney, 11 May, 1887.

With reference to your recent interview, relative to the voiding of the conditional purchase noted in the margin, I am to inform you that the question sent to the Land Board for report was as to whether the conditional purchases of Smith, 84-47, and Sullivan, 84-127 (being for 70 and 80 acres respectively of portion 89 of 150 acres) were sufficiently improved at date of application to bar selection. The Board held two inquiries, and report that the only improvements on portion 89, which could belong to Archibald Campbell, the former selector of the land, were a hut worth £15, and a dividing fence on the southern line of the portion worth £30 12s.—in all £45 12s. The Board, however, submitted the case to the Minister for Lands, who decided that portion 89 was sufficiently improved to bar selection, and that the conditional purchases of Smith and Sullivan, should be declared void.

I have, &c.,  
STEPHEN FREEMAN  
(For the Under Secretary).

[Enclosures.]

(C.P. No. 84-47; C.S. No. S7-11,182, Dep.)

Sir, Department of Lands, Sydney, 15 April, 1887.

I desire to inform you that the application made by you at Lismore, on the 20th March, 1884, for the conditional purchase of 70 acres of land, is void, as the land applied for is sufficiently improved to bar selection.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &c.,  
F. H. WILSON  
(For the Under Secretary).

Mr. James Smith, Lismore, care of T. T. Ewing, Esq., M.P.

#### NEW SOUTH WALES.

Conditional purchase—Revenue refunded.

Dr. to James Smith.

£17 10s.

## No. 121.

T. Bawden, Esq., to The Under Secretary for Lands.

Sir,

Grafton, 4 June, 1887.

I do myself the honor to request that I may be favoured with a reply to my letter of the 30th April last, respecting conditional purchases 84-47, 78-180, and 84-127, Lismore; and also that I may be informed if my request that the papers connected therewith should be forwarded to the Local Land Board Office, Grafton, in order that I might inspect the same, can be complied with.

I may again mention that Smith and Sullivan (84-47 and 84-127) are desirous of lodging a complaint against Campbell (78-180); but are delayed in doing so, pending a reply to my letter of the 30th April, and the granting me an opportunity of inspecting the papers.

Requesting that this matter may receive your very earliest attention.

I have, &c.,  
T. BAWDEN.

## No. 122.

Office Memorandum.

9 June, 1887.

PAPERS C.S. 86-9,814 Dep., 86-10,204 Dep., 86-18,190 Dep., have been removed from here, as they have reference to another series of Campbell's conditional purchases in the Casino Land District, parish of Bonabeo, county of Rous.

This should be noted in Sydney and the necessary alterations made in the registers.

The above quoted papers have been placed with C.S. 86-22,730, Dep. only.

J. BURT  
(*pro* District Surveyor).

Mr. Gibson,—Please obtain above quoted papers as soon as practicable, if in Head Office.—W.H.C., 20/10/87. I have made a search for this paper, but cannot find it.—T.D., 21/10/87.

## No. 123.

The District Surveyor, Grafton, to The Under Secretary for Lands.

24 June, 1887.

Respecting the following conditional purchases in the Land District of Lismore:—C.P. 78-180, of 25th April, for 150 acres; C.P. 79-112, of 20th March, for 40 acres; C.P. 79-196, of 12th June, for 102 acres; C.P. 82-485, 29th June, for 50 acres; C.P. 83-263, of 13th September, for 40 acres—A. Campbell; C.P. 84-47, of 20th March, for 70 acres, James Smith; C.P. 84-127, of 10th July, for 80 acres, J. M'D. Sullivan; C.P. 84-55, of 27th March, for 40 acres, H. E. Reis; C.P. 84-130, of 10th July, 60 acres, N. Gordon; C.P. 84-193, of 13th November, for 40 acres, D. Hanan.

As the papers in connection with the above-mentioned conditional purchases were forwarded on my application before any decision was given respecting Mr. Bawden's request (C.S. 87-2,312 Cor.) for a further inquiry into the merits of the several conditional purchase applications, they are now returned, in order that he may be informed if any further steps are to be taken with reference to his letter on behalf of Smith and Sullivan.

Advantage has been taken of the opportunity to revise the case, to set forth the course of action proposed to be adopted in this office, and to obtain approval thereof.

Two inquiries having already been held on conditional purchase 78-180 and conditional purchase 84-47, J. Smith, and 84-127, J. M. Sullivan (the two conflicting applications), it is presumed the further investigation sought by Mr. Bawden on behalf of his clients will be declined, and consequently the voidance of conditional purchases 84-47 and 84-127, and the reinstatement of Campbell's conditional purchase will stand good (C.S. 87-11,182 Dep.)

In the subdivision of portion 89, to satisfy the claim of Smith and Sullivan (the instructions for which had been issued prior to reinstatement of conditional purchase 78-180), the surveyor (Mr. Somerville) has deviated from the road reserved in the original survey of portion 89, in order to secure firmer ground, and has requested that instructions should be issued for the continuation of the survey of the line of road selected by him to the southern boundary of portion 89.

The reinstatement of conditional purchase 78-180, will necessitate the cancellation of the survey of portion 214; but as it is advisable that the road should traverse the land best adapted to traffic, I would recommend that the subdivision effected by Mr. Somerville be adopted, the road continued as he advises, and that the conditional purchase 78-180 be located upon these two portions (Nos. 89 and 214), provided the approval of the original survey of portion 89 (dated 8th March, 1880) does not present an insuperable objection, thus avoiding the expense of obliterating the survey of portion No. 214, in addition to which the areas (80 and 70 acres) would be more suitable for selection in the event of forfeiture of conditional purchase 78-180.

The forfeiture (dated 31st December, 1883) of conditional purchases 79-196 and 83-263, should, I presume, be upheld, and action on Reis and Gordon's application, Nos. 84-55 and 84-130, be proceeded with.

Attention is invited to memo. dated 18th April, 1887, on C.S. 87-16,165 Dep., with reference to refund of deposit paid on additional conditional purchase 83-263.

The amended tracing marked A shows the subdivision of portions 89 and 96 effected by Mr. Somerville. Portions 214 and 89 are the portions proposed to be approved for conditional purchase 78-180 if no legal objection exists to such a course.

Attention is further directed to the enclosed slip, dated 9th June, 1887, with reference to the removal of certain papers in order that they might be placed with C.S. 86-22,730 Dep., the case to which they refer.

As several cases are dependent upon this decision, I would respectfully request that the matter may meet with early attention.

P. R. DONALDSON,  
District Surveyor.

Tracing herewith, marked A. Submitted.—F.H.W. (for Under Secretary), 2/7/87.

Appendix O.

## No. 124.

The Under Secretary for Lands to The District Surveyor, Grafton.

Sir, Department of Lands, Sydney, 30 June, 1887.

Papers, Nos.  
87-14,668 D.  
and 85-160 Sur.,  
C.P. No. 84-47,  
made by James  
Smith, at  
Lismore

I have the honor to request that you will be good enough to return to this Department, as early as practicable, all papers in connection with the conditional purchase noted in the margin which were forwarded to you on the 27th ultimo and 4th February, 1887, respectively.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

The Chief Draftsman.—P.R.D., 5/7/87. Mr. Buller,—85-160 Sur. transferred to Mr. Nowel.—F.B., 6/7/87. C.S. 85-160 Sur. herewith. C.S. 87-14,668 D., referred to above, was forwarded to the Under Secretary for Lands, 24th June, 1887.—F.B.N., 6/7/87. The Under Secretary for Lands.—J.B. (*pro* District Surveyor), 6/7/87.

## No. 125.

Messrs. Allingham and Judge to The Under Secretary for Lands.

Sir, Lismore, 8 July, 1887.

We are instructed by Mr. Archibald Campbell to write to you as to the cause of the delay in the issuing of the Crown grants to the land noted at the foot hereof. The land was paid for as far back as 8th February, 1886, and although the land has been in dispute, the Land Board decided in favour of the applicant, and that decision has been confirmed by the Minister for Lands.

We shall be glad if you will order that the grants for these lands may be ordered to issue at once, as important legal measures are delayed in consequence of the non-receipt of them.

We have, &amp;c.,

ALLINGHAM AND JUDGE,

Conditional purchase No. 180, 25th April, 1878, 150 acres, parish Tunstall.

## No. 126.

T. Bawden, Esq., to The Under Secretary for Lands.

Sir, Grafton, 25 July, 1887.

I do myself the honor to invite your attention to the fact that I have not yet received any reply to my letter of the 4th June last *re* conditional purchases 84-47 and 84-120, Lismore. I may add that the delay is retarding the action which Messrs. Smith and Sullivan are desirous of taking to maintain their rights in respect to the land embraced within the conditional purchases above referred to.

Requesting the favour of your early attention,

I have, &amp;c.,

T. BAWDEN.

## No. 127.

## Office Memorandum.

1. A. Campbell, Lismore:—Conditional purchase 78-180, 13th section, 150 acres, portion 89; additional conditional purchase 79-112, 21st section, 40 acres, portion 104; additional conditional purchase 79-196, 21st section, 100 acres, portion 96; additional conditional purchase 82-485, 21st section, 50 acres, portion 201; additional conditional purchase 83-263, 21st section, 40 acres, portion 231.
2. Jas. Smith:—Conditional purchase 84-47, 13th section, 70 acres, portion 214, subdivision of portion 89. J. M'D. Sullivan:—Conditional purchase 84-127, 13th section, 80 acres, portion 89. H. E. Reis:—Conditional purchase 84-55, 13th section, 40 acres, portion 215, subdivision of portion 96. N. Gordon:—Conditional purchase 84-130, 13th section, 60 acres, portion 96. D. Hanan:—Conditional purchase 84-193, 13th section, 40 acres, portion 104. N. Gordon:—Conditional purchase 85-5, 42nd section, 40 acres, portion 231.

THE facts of this case are set out on papers 85-33,699 Dep. and 87-11,182 D. herewith. The following is now the position of the case:—

The forfeiture of A. Campbell's conditional purchases, as shown in No. 1 Schedule above, was revoked on 16th December, 1884. In the meantime, however, *i.e.*, between notification of forfeiture and reversal thereof, conflicting interests had arisen, as shown in Schedule No. 2. Conditional purchase 84-193 (portion 104) was declared void at applicant's request on 9th January, 1886, and upon inquiry by the Land Board it was found that portion 89 was sufficiently improved to bar selection, and conditional purchases 84-47 and 127, which embraced that portion, were therefore declared void. As the reason for voidance shows that these conditional purchases were void *ab initio*, it will be seen that the objections to the reversal of forfeiture of conditional purchases 78-180 and 79-112 have been removed, and that they, together with conditional purchase 82-485, which was not reselected, will now stand good.

The case is different, however, as regards conditional purchases 79-196 (portion 96) and 83-263 (portion 231), the former of which was re-selected by conditional purchases 84-55 and 130, and the latter by additional conditional purchase 85-5.

The Land Board held an inquiry with regard to conditional purchases 84-55 and 130, and decided that the portion (96) embraced by them was not sufficiently improved to bar selection. It is submitted that those conditional purchases stand good, and conditional purchase 79-196 declared void.

Conditional purchase 83-263 will then be separated from the series, and it has also, as already stated, been re-selected under the Act of 1884, as additional conditional purchase 85-5, in virtue of original conditional purchase 84-130, portion 96. It is therefore submitted that conditional purchase 83-263 (portion 231) be also declared void, and a refund issued.

It is also submitted that Mr. Bawden be informed, in answer to his letters of 6th May last (87-2,312 Cor.) and 4th June last, that the question of void conditional purchases 84-47 and 127 cannot be re-opened,

reopened, as the cases were fully investigated by the Local Land Board, and two inquiries were held in connection therewith, at which it was found that the portion embraced by those conditional purchases was sufficiently improved to bar selection.

W.H.C.

F.H.W., 30/8/87. S.F. For approval.—S.F., 3/9/87. Approved.—T.G., 6/9/87. Mr. Bawden informed, 13/9/87. Applicant, care of Duguid & Co., refund orders. Agent, Treasury, Chairman, and District Surveyor informed conditional purchases 79-196 and 83-263, Lismore, void, 23/9/87. Noted. Charting Branch.—Please give date of approval of plans of measurement of portion 89-104 and 201.—W.H.C., 20/10/87. Plans R. 1,608-1,759, R. 3,259, and R. 2,743, which should show the above portions in parish Tunstall, county Rous, are recorded to the District Office, Grafton.—B.W.T. (for J. T. Keating), 20/10/87. Mr. Capper.

Sir, Department of Lands, Conditional Sales Division, Sydney, 23 September, 1887.

Lismore; Archibald Campbell; date of selection, 12/6/79; area, 100 acres. Deposit, £25.

I have to inform you that the conditional purchase noted in the margin being void, as the land had been re-selected prior to date of revocation of forfeiture by conditional purchases 84-55 by H. E. Reich and 84-130, N. Gordon, you will be good enough to refund to the selector the sum of £25, being the deposit money paid thereon.

2. I am to add that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## No. 134.

The Under Secretary for Lands to The Land Agent, Lismore.

(C.P. No. 79-196; C.S. No. 87-34,298 D.)

Sir, Department of Lands, Conditional Sales Division, Sydney, 23 September, 1887.

I desire to inform you that the application of Archibald Campbell on the 12th of June, 1879, for the conditional purchase of 100 acres of land is void, as the land had been re-selected prior to date of revocation of forfeiture by conditional purchases 84-55 by H. E. Reich and 84-130, N. Gordon.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &amp;c.,

F. H. WILSON

(For the Under Secretary).

## Declaration by Mr. J. M'D. Sullivan.

(C.P. No. 84-127.)

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES M'DOWELL SULLIVAN, of Lismore, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of building, falling, clearing, fencing, &c., and to the value of £250, have been made on such land; and I declare further that the said land has been the *bona-fide* residence, continuously, of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the above-named holders, until after the residence thereon of such holder for a period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Lismore, this 29th day }  
of September, 1887, before me,— }

JAMES M'DOWELL SULLIVAN.

PROSPER DE MESTRE,  
Commissioner for Affidavits.

## Description.

County of Rous, parish of Tunstall, 80 acres, at Tunstall, being conditional purchase No. 127, of 1884, in the district of Lismore, made on the 10th July, 1887.

Instalment received, Lands Office, Lismore, 29th September, 1887.

This declaration, together with instalment, has been accepted by me under protest, the land therein referred to being void (*vide* C.S. 87-11,182 Dep.)—P. DE M., Crown Land Agent, Lismore, 29/9/87. The Under Secretary, Department of Lands, Sydney.

## No. 142.

## Mr. J. Smith to The Secretary for Mines.

Sir,

Jiggi, 29 September, 1887.

I with confidence enclose to you a statement of my case, together with the dates and particulars relative to it since I came into possession of my holding here. I took up 70 acres conditionally on 20th March, 1884, which land was forfeited on Archibald Campbell 31st December, 1882. Campbell got two inquiries on it and the forfeiture was never disturbed. In the month of July I wrote to know if my land was going to be measured, as I was going to reside on it, and I got a reply from the Chief Commissioner stating that it was. I should state here that this land was gazetted forfeited, 31st December, 1882. I selected subject to approval, and on 31st January, 1885, I wrote to know if I was approved of, and in reply I received from the Minister for Lands, signed by Charles Oliver, Under Secretary, stating that I was. On the faith of that letter from the Minister for Lands I proceeded with my improvements—building house, fencing it all round, scrub falling, ploughing, and burning off, planting fruit trees—in all, it cost me £246 15s. After two years, Mr. West, Land Inspector, came and inspected my premises and improvements, and after two years and two months I was summoned to the Land Court as to whether there was sufficient improvements on it at the date of my selecting it to bar selection. The finding of the Land Court was not announced here, but was left for the Minister for Lands, who, I am privately informed, has given his decision that there was improvements on it at the time to bar selection, although they directed their officer, Mr. Somerville, to measure this portion if the improvements were not on it to bar selection. Mr. Somerville measured it off for me, knowing there was not sufficient, or believing there was not sufficient, improvements at the time. If he saw there was, why did he measure it and cause all this trouble and expense this last three years and more? And on the 9th July, 1885, the Minister for Lands approved of my selecting, and signed by Charles Oliver, Under Secretary.

Now, Sir, might I most respectfully request that you would be good enough to lay this case, together with the facts, before Mr. Garrett, Minister for Lands, who I trust will take the trouble in sifting this, and facts relating to it since 31st December, 1882—the time it was declared forfeited on Archibald Campbell.

I have, &amp;c.,

JAMES SMITH,

Jiggi, Lismore, Richmond River.

P.S.—I enclose copies of letters received from officials in the several Government Offices to strengthen my case.—J.S.

## [Enclosures.]

## No. 150.

The District Surveyor, Grafton, to The Under Secretary for Lands.

15 October, 1887.

PAPERS C.S. 84-6,590 Survey are returned herewith, as requested by telegram enclosed. I also forward C.S. 83-831, 85-1,392 Survey, C.S. 87-23,281 Dep., as they are all dependent upon the action taken upon C.S. 87-14,668 Dep., under cover of my submission to the Under Secretary for Lands, dated 24th June, 1887.

At the same time, I have to respectfully request that all the papers in connection with these cases may be returned to me after completion of action at Head Office, in order that the case may be dealt with in the District Survey Office.

P. R. DONALDSON.

## No. 151.

Declaration by Mr. A. Campbell.

(C.P. No. 79-112.)

D.

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, ARCHIBALD CAMPBELL, of Lismore, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of scrubbing, clearing, and fencing, and to the value of £50, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Sydney, this 19th day }  
of October, 1887, before me,—

ARCHIBALD CAMPBELL.

PHILLIP F. RICHARDSON, J.P.,  
Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall, 40 acres, at Lismore, being conditional purchase No. 79-112, of 1879, in the district of Lismore, made on the 20th March, 1879.

First conditional purchase, 78-180. Examined and entered.—T.G., 19/10/87. J.R.Y.

## No. 152.

Office Memorandum.

21 October, 1887.

Conditional purchase 78-180, 13th section, 150 acres, portion 89, date of survey 8th March, 1880; conditional purchase 79-112, 21st section, 40 acres, portion 104; conditional purchase 79-196, 21st section, 100 acres, portion 96, declared void 23rd September, 1887; conditional purchase 82-485, 21st section, 50 acres, portion 201; conditional purchase 83-263, 21st section, 40 acres, portion 231, declared void 23rd September, 1887.

THE conditional purchases were declared forfeited on the 31st December, 1883, upon a report of an inquiry by Mr. Commissioner Bolding; but upon the 1st February, 1884, authority was given by Mr. Secretary Farnell for a fresh inquiry, so that Campbell might have an opportunity of bringing forward further evidence in support of his claim, but without prejudice to the existing forfeiture in the meantime. The fresh inquiry was held on the 11th July, 1884, and the Commissioner submitted the case for special consideration.

Mr. Secretary Farnell dealt with the case upon the 3rd November, 1884, and decided that it did not appear to be materially altered by the fresh evidence, and that there was no ground for remitting the existing forfeiture.

On the 20th of the same month, however, Mr. Secretary Farnell minuted the papers to the effect that he thought it was a case which he could recommend the reversal of the forfeiture.

In view of this, the Executive Council reversed the forfeiture upon the 9th December, 1884, confirming it on the 16th of the same month; but, prior to the reversal of the forfeiture, conflicting interests had arisen by applications to select the same land by J. Smith and J. M'D. Sullivan, H. E. Reis, N. Gordon, D. Hanan, and W. Gordon, and upon the 13th March, 1885, Mr. Secretary Farnell remarked that

that when the forfeiture of A. Campbell's conditional purchase was reversed, it was not known to him that the land had been selected by other persons, consequently the reversal of the forfeiture will not, under the fact, reinstate the selection, therefore the conditional purchases of the other persons, on this ground, must be upheld, provided there are no other exceptions or exemptions under the law. This was communicated to Mr. Campbell, care of J. A. Martin, on the 2nd May, 1885, under direct instructions from the Minister. It now became necessary to consider the claims of those recent applicants, whose interests were affected by the reversal of the forfeiture. The authority for this, however, is not with these papers, so, upon the 20th September, 1886, an inquiry by the Lismore Board was instituted to ascertain whether the land applied for by N. Gordon, J. Smith, and J. M'D. Sullivan was sufficiently improved to bar selection at date of their respective applications. In view of the evidence taken at this Court, the Board reported that Archibald Campbell had no claim whatever to be considered the owner of any improvements on portion 89, except a hut and fencing on the southern line, the value of which (fencing, £30 12s., and hut, £15) was £45 12s., an amount sufficient to bar the selections of Smith and Sullivan, and no claim to any improvements on portion 96, except fencing on the north line worth £20, an amount not sufficient to bar selection of N. Gordon, that is, assuming the fencing was, as Campbell swore, his own, and paid for by him, and not shared by his neighbours; and the Board desired emphatically to record its conviction that Archibald Campbell never had on portions 89 and 96 anything like the amount of improvements required by the law, and is not deserving of any consideration. This report was not acted upon, as, in view of a telegram of the 12th October, 1886, from the Chairman, the papers were retransmitted to him for rehearing, the matter having been insufficiently considered. The reinvestigation was held on the 15th February last. The Board reported that the value of the improvements at £45 12s. was not disturbed in any way; but a material point in the case, which was clearly brought out by the inquiry, was submitted, *i.e.*, as to the ownership of the boundary-fence between portions 89 and 87. Mr. Secretary Garrett, upon the 30th March last, decided the point in favour of Mr. Campbell.

The following adjustment has been made:—Conditional purchase 84-193, portion 104, by D. Hanan, was declared void on the 9th January, 1885, at applicant's request. Conditional purchase 84-47, portion 214, by James Smith, was declared void on the 15th April last, on account of improvements. Conditional purchase 84-127, portion 89, by J. M'D. Sullivan, was declared void on the 15th April last, on account of improvements. Additional conditional purchase 79-196, portion 96, by A. Campbell, declared void on the 23rd September last, as it was applied for after forfeiture by H. E. Reis, under conditional purchase 84-55. Additional conditional purchase 83-263, portion 231, by A. Campbell, declared void on the 23rd September last, as it was improved and applied for after forfeiture by N. Gordon, under additional conditional purchase 85-5.

It will thus be seen that conditional purchase 78-180, additional conditional purchase 79-112, and additional conditional purchase 82-485, by A. Campbell, now stand good, and the issue of the certificate is urged.

In view of the recommendation by Mr. Secretary Farnell of the 20th November, 1884, for the reversal of the forfeiture, it might be assumed he was at the time satisfied that the conditions had been complied with, and that Campbell's claim to that land, free from conflicting interests, was good. The evidence in favour of the due fulfilment of the conditions of residence and improvements by the selector is not, however, strong, nor is it free from doubt; but it would appear that Mr. Secretary Farnell's decision referred to pledges the Department in favour of Campbell's conditional purchases, now standing in his name; if this be so, there is no reason why the declarations upon conditional purchases 78-180, 79-112, and 82-485 may not pass; but if Mr. Secretary Farnell's decision is not a sufficient basis to justify such action, it will be necessary to bring corroborative evidence that the conditions of improvements have been fulfilled, and if not fulfilled, to grant extension of time in those instances where it can be done. Dates of survey cannot now be given, as the plans are with the District Surveyor.

Recent protests by Smith and Sullivan have not yet been considered.

W.H.C.

Whatever decision may be arrived at in this case, it would not appear that, in view of the Board's report, the opposing parties have any right to be considered as regards the land comprised by conditional purchases 78-180, 79-112, and 82-485. It will be for the Minister to determine whether Mr. Secretary Farnell's decision, as approved by the Executive Council, is in effect an acknowledgment on behalf of the Crown that the conditions of the law are duly complied with by Campbell.—S.F., 21/10/87.

As the Executive Council did, on the recommendation of the Minister, reverse the forfeiture of conditional purchases 78-180, 79-112, and 82-485, and so led Campbell to believe his claims stood good at that time, and as subsequent contentions as to Campbell's claim to these conditional purchases may have interfered with his improvement of them, an extension of three months may be given him to complete the improvements to the value required by law. At the expiry of that period, if the report of Inspector is favourable, certificate may issue.—T.G., 21/10/87.

Inform Brett and Coghlan.—S.F., 21/10/87. Brett and Coghlan informed, 24/10/87.

### No. 153.

The Under Secretary for Lands to Messrs. Brett and Coghlan.

Gentlemen,

Department of Lands, Sydney, 24 October, 1887.

Referring to the conditional purchases noted in the margin, I am to inform you that as the Executive Council did, on the recommendation of the Minister, reverse the forfeiture of the conditional purchases in question, and so led Mr. Campbell to believe his claim stood good at that time, and as subsequent contentions as to Mr. Campbell's claim to these purchases may have interfered with his improvement of them, Mr. Secretary Garrett has decided that an extension of three months may be given him to complete the improvements to the value required by law, and that at the expiry of that period, if the report of the Inspector is favourable, certificates of conformity will issue.

I have, &c.,

F. H. WILSON

(For the Under Secretary).

## No. 154.

## Office Memorandum.

(C.S. 87-50,103D.)

Lismore District.

C.P. No., 78-180; section, 13; area, 150 acres; date, 25th April, 1878. C.P. No., 79-112; section, 21; area, 40 acres; date, 20th March, 1879. C.P. No., 82-485; section, 21; area, 50 acres; date, 29th June, 1882; name of applicant, Archibald Campbell.

THE above-described conditional and additional conditional purchases require inspection. All papers in connection with the case are therefore referred to the Chairman of the Local Land Board, Grafton, with a view to the necessary instructions being issued to the Inspector of Conditional Purchases at an early date.

If the report, when furnished by the Inspector, shows that the conditions of the Act under which the conditional purchases were made have not been carried out, an investigation by the Local Land Board may be instituted, subject to the provisions of section 20 of the Crown Lands Act of 1884.

J.R.Y.

The above recommendation approved by the Minister for Lands; *vide* 87-52,363 Dep.

F.H.W.

(For the Under Secretary),

17/11/87.

The Chairman, Local Land Board, Grafton, B.C. Inspector West, 19/12/87.

## No. 155.

## Office Memorandum.

[Urgent.]

WILL the District Surveyor be so good as to show on the accompanying tracing additional conditional purchases 79-112 and 82-485, made in virtue of conditional purchase 78-180, Lismore.

B.S.L.

(For Chairman),

19/12/87.

The District Surveyor.

Additional conditional purchases 79-112 and 82-485 are now shown by red hatched lines on the attached tracing.—J.B. (*pro* District Surveyor), 19/12/87. The Chairman.

## No. 156.

## Office Memorandum.

FOR confirmation, being a subdivision of portion 96, proved to have been unimproved at date of application.

The amount of litigation that has ensued does not appear to have interfered with the fulfilment of conditions in this case. Declaration herewith (*vide* 87-4,182 L.B.) should perhaps be sent to Inspector West for report at once.

The Minister has decided to allow these conditional purchases to stand good for the present. The applicant has been granted three months from 21st October last (*vide* 87-50,103 Dep.) to complete the improvements necessary to admit of the series being finally approved; and these improvements, if not completed within that time, will, presumably, render the conditional purchases liable to forfeiture.

These conditional purchases were declared void, as they embrace land held under conditional purchase 78-180, viz., portion 89. As that conditional purchase, together with the series, appears to be entirely dependent upon the fulfilment of the improvement condition as already referred to, these conditional purchases (84-47 and 84-127) should not, perhaps, be lost sight of, as, in the event of Campbell's conditional purchases being again forfeited, the restitution of Smith and Sullivan's conditional purchases would probably be recommended and approved of.

Conditional purchase 85-5., N. Gordon; conditional purchase 84-55, H. E. Reiss; papers detached and noted to await report of Inspector, case being now independent of conditional purchases 78-180, &c.; C.P. 78-180, portion 89; C.P. 79-112, portion 104; C.P. 82-485, portion 201, A. Campbell.—20/12/87. Inspector West.—20/12/87. Report herewith (*vide* 88-831).—A.A.B., 8/2/88. Conditional purchases 84-47 and 84-127, J. Smith and J. Sullivan. C.P. 84-55 referred to Inspector West for report.—A.B., 10/1/88. To await report.

## No. 157.

## Mr. Inspector West to The Chairman, Land Board, Grafton.

Report respecting the selection of Archibald Campbell, made at Lismore, on 25th April, 1878.

Lismore, 4 February, 1888.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 23rd January, 1888, and that I found the selector then resident upon selection.

The land, which consists of forest and scrub, and comprises 150 acres, is not occupied and used by selector now; and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements

improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Improvements on this conditional purchase, date of last inspection,		£	s.	d.
27th February, 1886 ... ..		134	14	0
Improvements since—				
House... ..		50	0	0
Bark shed and pig-paddock...		4	0	0
Kitchen and barn ... ..		26	0	0
Garden and ringing ... ..		2	0	0
8 acres felled, part run and part under corn, at £3		24	0	0
1 acre light felling, at 30s. ... ..		1	10	0
82 chains three-barb wire fence, at 12s. ... ..		49	4	0
29 rods top-rail and two wires on nails, at 3s. ... ..		4	7	0
74 rods two-rail fence, at 5s. ... ..		18	10	0
14 rods two-rail and cap, at 8s. ... ..		5	12	0
290 rods two-rail fence (light), at 4s. ... ..		58	0	0
Cultivation ... ..		20	0	0
		<hr/>		
		£397	17	0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

I found Smith, Sullivan, and their families living on this conditional purchase, and they have put all the extra improvements on since my last visit, except about 1 acre light felling, which Mr. Campbell had done lately.

I have, &c.,

GEORGE W. WEST,  
Inspector of Conditional Purchases.

No. 158.

Mr. Inspector West to The Chairman,<sup>1</sup> Land Board, Grafton.

Report respecting the selection of Archibald Campbell, made at Lismore, on 20th March, 1879.

Sir,

Lismore, 4 February, 1888.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 23rd January, 1888, and that I found the selector then resident upon selection. The land, which consists of scrub, and comprises 40 acres, is occupied and used by the selector, who follows the avocation of grazier, and had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

		£	s.	d.
56 rods two-rail fence, at 4s....	... ..	11	4	0
15 acres felled and run, at £2 ... ..		30	0	0
5 acres partly burned and has been under crop, at £4 ... ..		20	0	0
		<hr/>		
		£61	4	0

Additional conditional purchase 82-485, portion 201, section 21,  
50 acres, on the 29th June, 1884:—25 acres, partly felled,  
and part run, at £2 ... .. 50 0 0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection.

Remarks.

The felling on additional conditional purchase 82-485 has been done quite recently by Mr. Campbell, also most of the felling on additional conditional purchase 79-112.

I have, &c.,

GEORGE W. WEST,  
Inspector of Conditional Purchases.

No. 159.

Messrs. Smith and Sullivan to The Land Agent, Lismore.

[Crown Lands Act of 1884—Part 2, section 14, sub-section 5.]

Notice of prosecution of complaint before Local Land Board.

WE hereby notify to you, as Land Agent at Lismore, that we are desirous of prosecuting a complaint before the Local Land Board, for that the provisions of the law have not been fulfilled as regards the conditional purchase, at Lismore, of 150 acres of land, county of Rous, parish of Tunstall, alleged to have been made by Archibald Campbell, under the provisions of the Crown Lands Alienation Act of 1861, and the Lands Amendment Act of 1875, and the regulations thereunder respectively, at Lismore, on or about the 25th day of April, 1878 (conditional purchase No. 78-180), the said land has been purchased by the said Archibald Campbell in violation of the said Acts and Regulations in the following particular, viz. :— That the improvements required by law were made on the land referred to, and that the declarations and allegations

allegations made to that effect by the said Archibald Campbell are wilful misrepresentations of the facts, and we hereby deposit the sum of £10 as security for any costs which may be awarded against us by such Board.

Given under our hands, at Lismore, this 17th day of February, 1888,—

JAMES M'DOWELL SULLIVAN.  
JAMES SMITH.

Received the sum of £10 above mentioned,—

PROSPER DE MESTRE, Land Agent at Lismore.

Statutory Declaration by a person desirous of prosecuting a complaint before the Local Land Board.  
New South Wales, } [Crown Lands Act of 1884—Part 2, section 14, sub-section 5.]  
to wit. }

WE, James M'Dowell Sullivan and James Smith, of Lismore, in the Colony of New South Wales, farmers, do hereby solemnly declare and affirm that we are desirous of prosecuting a complaint before the Local Land Board, and that the notice on the other side hereof correctly sets out the grounds of such complaint; and we make this solemn declaration as to the matters aforesaid according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

JAMES M'DOWELL SULLIVAN.  
JAMES SMITH.

Made and signed by the declarants, at Lismore, this }  
17th day of February, 1888, before me,— }

JAMES BARRIE, J.P.

#### No. 160.

#### Protest from Mr. E. W. Allingham.

I BEG, on behalf of the said Archibald Campbell, to protest against the Board entering into the inquiry *re* complaint of James Smith and James M'Dowell Sullivan, dated the 17th day of February, 1888, on these grounds:—

1. That the Minister has already decided in favour of Archibald Campbell.
2. That the Minister has allowed the said Archibald Campbell time for making his improvements, which improvements were on the land within the prescribed time.

E. W. ALLINGHAM,  
Solicitor to Archibald Campbell.

#### No. 161.

#### J. Barrie, Esq., to The Under Secretary for Lands.

Sir, .

Lismore, 17 February, 1888.

I have the honor to inform you, as agent for James M'D. Sullivan and James Smith, that they have this day lodged with the Land Agent, Lismore, under Form 64, notice of prosecution of complaint before the Local Land Board against Archibald Campbell in respect of conditional purchase No. 78-180, county of Ross, parish of Tunstall, for that the provisions of the law have not been fulfilled as regards the said conditional purchase by the said Archibald Campbell, on the ground that the improvements required by law were never on the land referred to, and that the allegations and declarations made to that effect by said Archibald Campbell are wilful misrepresentations of the facts.

I have further to warn you against the issue of any certificate or title from the Crown in respect to the said land or conditional purchase to the said Archibald Campbell until the complaint shall have been heard by the said Board.

I have, &c.,  
JAMES BARRIE.

#### No. 162.

#### Telegram from Messrs. Smith and Sullivan to The Chairman, Land Board, Grafton.

17 February, 1888.

NOTICE of complaint, with £10 deposit, has been lodged with Land Agent, Lismore, against A. Campbell's selection, parish Tunstall, No. 78-180, by the undersigned.

JAMES M'DOWELL SULLIVAN.  
JAMES SMITH, JUN.

For telegram,—Have received a telegram from Smith and Sullivan, informing me that they lodged a complaint and £10 with Land Agent, Lismore, against Archibald Campbell's selection, parish of Tunstall, No. 78-180. Papers 88-831 sent down on 17th February, 1881.—W.M. BLACKMAN, Chairman, 20/2/88.

Mr. L.—Telegram to Under Secretary for Lands in terms of above.—B. S. LEVICK, 20/2/88, Forwarded to the Under Secretary; to be placed with the papers in the case.—B.S.L. (for the Chairman), B.C., 20/2/88.

improved to bar selection, and as they were therefore void *ab initio* the reversal of forfeiture of conditional purchase 78-180 was given effect to.

On 21st October last, Mr. Secretary Garrett gave the following decision:—"As the Executive Council did on the recommendation of the Minister at that time reverse the forfeiture of conditional purchases 78-180, 79-112, and 82-485, and so led Campbell to believe his claim stood good at that time, and as subsequent contentions as to Campbell's claim to these conditional purchases may have interfered with his improvement of them, an extension of three months may be given him to complete the improvements to the value required. At the expiry of that period, if the report of inspection is favourable, certificates may issue.

Messrs. Brett and Coghlan were informed in terms of this decision, and the case was referred to the Land Board on 17th November last. Inspector West visited the land on 23rd ultimo, and reported as follows:—"Improvements, £397 17s.; portion 89. I found Smith, Sullivan, and their families living on this conditional purchase, and they have put all the extra improvements on since my last visit, except about 1 acre light felling, which Mr. Campbell had done lately." With regard to additional conditional purchases 79-112 and 82-485, he reported improvements £61 4s. and £50 respectively, and the felling on additional conditional 84-485 has been done quite recently by Mr. Campbell; also most of the felling on additional conditional purchase 79-112.

A notice of prosecution of complaint, together with the sum of £10, has now been lodged by J. M. Sullivan and Jas. Smith, that the provisions of the law have not been fulfilled as regards conditional purchase 78-180.

It is therefore submitted, in view of this complaint, that the case be referred to the Chairman of the Land Board, Grafton, for inquiry, subject to the provisions of the 20th section of the Crown Lands Act of 1884.

F.H.W.—S.F., 1/3/88. Approved.—T.G., 2/3/88.

W.H.C., 28/2/88.

### No. 166.

#### Mr. Licensed-Surveyor Somerville to The District Surveyor.

Sir,

Lismore, 21 April, 1888.

\*Appendix P.

I have the honor to transmit herewith the plan\* of one portion of land containing 73 acres, numbered 89, in the parish of Tunstall, in the county of Rous, conditionally purchased by James M'Dowell Sullivan under the 13th section of the Crown Lands Alienation Act of 1861, measured by me on 13th April, 1888, in accordance with instructions No. 88-6, dated February 22nd.

This survey was virtually completed some years ago, as the ordinary course of making the plan in the office could not be carried out, owing to the differences with previous surveys and the necessary alterations in roads, but plan, &c., were not forwarded in consequence of subsequent information. Sullivan is resident with his wife and family.

Sullivan's improvements consist of:—Dwelling, £55; fencing and yards, including half-dividing fence on north boundary, and excluding fence across road between portions, £62; cultivation and garden, £12; scrub-felling and ringbarking, £40; shed and improvements to old hut, £6. Total, £175.

Original selector's improvements consist of:—Half-dividing fence along south boundary, £13; old clearing—difficult to estimate—say £3; old hut (without Sullivan's improvements to it), £11 10s.; Total, £27 10s.

I have, &c.,

RICHD. N. SOMERVILLE,

Licensed Surveyor.

R. 4,289-1,759 cancelled by R. 4,327-1,759.—MR. BURT, P.R.D., 15/5/88. Mr. Newell.—T.F.C., 16/5/88. To await decision of Local Land Board on papers C.S. 88-7,023 Dep. having reference to Campbell's conditional purchase 78-180.—J.B., 16/5/88. Plan of portion 89 forwarded to Surveyor-General with explanatory memo.—F.B.N., 13/3/89. Por. 89 provisionally catalogued. R. 4,287-1,759.

### No. 167.

#### Messrs. Brett and Coghlan to The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 26 June, 1888.

With reference to the conditional purchases noted in the margin, we beg to point out that the papers relative to same are with the Local Land Board, Grafton, since 7th March last.

We have therefore the honor to ask that you will cause some action to be taken with a view of having the matter dealt with as early as possible. We have, &c.,

BRETT AND COGHLAN.

Papers 88-8,397 Dep. noted. B.C. Land Board, Grafton, 7/3/88 (20th section).—J.P.M., 10/7/88. The Chairman may be urged to hasten local action and return the papers of the conditional purchases quoted as early as possible, and writer informed of action taken.—F.B.S., 23/7/88. W.H.C., 25/7/88. Yes.—F.H.W. (for the Under Secretary). Chairman, Grafton. Messrs. Brett and Coghlan.—H.L.T., 28/7/88.

### No. 168.

#### The Under Secretary for Lands to Messrs. Brett and Coghlan.

Gentlemen,

Department of Lands, Sydney, 28 June, 1888.

Referring to your letter of 26th ultimo, I have the honor to inform you that the papers relating to the conditional purchases noted in the margin have been referred to the Local Land Board at Grafton, who have been asked to expedite action.

I have, &c.,

F. H. WILSON

(For the Under Secretary).

Decision of the Local Land Board, Lismore.

[Crown Lands Act of 1884—Part II, section 14, sub-section 4.]

New South Wales, }  
to wit. }  
Decision of Local Land Board.

WHEREAS, on the 15th day of October, 1888, it became a matter for investigation before us whether the complaint lodged by James M'Dowell Sullivan and James Smith, that the provisions of the law have not been fulfilled as regards the conditional purchase of 150 acres selected at Casino (now Lismore) by Archibald Campbell, on the 25th April, 1878, after taking evidence and considering the same, the Board find that the conditions as to improvements have not been fulfilled, and therefore recommend forfeiture.

Given under our hands, at the Court-house, at Lismore, in the Colony of New South Wales, this 15th day of October, 1888,—

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member.

Form 64.

The Crown Lands Act of 1884—(Part II, section 14, sub-section 5.)

Notice of prosecution of complaint before Local Land Board.

WE hereby notify to you as Land Agent at Lismore that we are desirous of prosecuting a complaint before the Local Land Board for that the provisions of the law have not been fulfilled as regards the conditional purchase at Lismore of 150 acres of land, county of Rous, parish of Tunstall, alleged to have been made by Archibald Campbell, under the provisions of the Crown Lands Alienation Act of 1861, and the Lands Amendment Act of 1875, and the regulations thereunder respectively, at Lismore, on or about the 25th day of April, 1878 (conditional purchase No. 78-180). The said land has been purchased by the said Archibald Campbell, in violation of the said Acts and Regulations, in the following particular, viz., that the improvements required by law were made on the land referred to, and that the declarations and allegations made to that effect by the said Archibald Campbell are wilful misrepresentations of the facts; and we herewith deposit the sum of £10 as security for any costs which may be awarded against us by such Board.

Given under our hands, at Lismore, this 17th day of February, 1888,—

JAMES M'DOWELL SULLIVAN.  
JAMES SMITH.

To the Land Agent at Lismore,—Received the sum of £10, abovementioned.—PROSPER DE MESTRE, Land Agent at Lismore, 17/2/88.

Crown Lands Act of 1884—(Part II, section 14, sub-sections 2 and 9.)

Summons of a Witness.

New South Wales, }  
to wit. }

To Fred. A. Trollope, Esq., of Grafton,—

WHEREAS in a certain matter wherein James Smith and James M'Dowell Sullivan complain that the provisions of the law have not been fulfilled in regard to conditional purchase of Archibald Campbell 78-180, under the 14th section of the Crown Lands Act 48 Victoria No. 18, it hath been made to appear that you are likely to give material evidence touching the said matter. These are, therefore, in Her Majesty's name, to command you to be and appear on Saturday, the thirteenth day of October instant, at ten of the clock in the forenoon, at Court-house at Lismore, and then and there give such evidence and testify to what you may know concerning the matter, and produce all books, papers, deeds, and documents, particularly— which may be in your possession or under your control, having any reference to the matter under investigation, and so attend from day to day till the said matter be disposed of.

Given under my hand at Grafton, this 10th day of September, 1888,—

S. GARRARD,  
Member of the Local Land Board.

Place with papers of conditional purchase 78-180, Archibald Campbell.—F.T., 16/10/88.

*James Smith*, sworn, saith:—I am a farmer, living at Jiggi; I selected part of portion S9, a forfeited conditional purchase at the time I made my application; it was accepted subject to approval; I afterwards wrote to the Department to have my selection surveyed; the Government Surveyor measured the land; I afterwards got another letter, dated 19th July, 1885, from the Minister, stating that they would not disturb the forfeiture of Campbell's original conditional purchase, and that they had approved of my application; when I selected the land there was a hut; it was in a bad state; some slabs were out of the hut, and there were neither doors nor windows in it; and there were slabs out of the floor of the hut; the value of the hut in the state it was at that time was £5 at the very most; there was a fence on the south boundary between (something over 20 chains) Schiebel's and this portion S9; at the time I selected I valued the fencing at 2s. 6d. a rod—that was in the state it was in; a wire fence would cost about 3s. a rod; there were no more improvements of any description on the land at the time; the fencing that was up was a boundary-line between Schiebel and portion S9; the selection I refer to as Schiebel's now belongs to Armstrong; I selected 70 acres, and Sullivan the other 80 acres; the hut and fencing were on the portion that Sullivan selected.

Cross-examined by *Mr. Allingham*, solicitor for Campbell:—I gave evidence before the Land Court on 20th September, 1886, before Mr. Blackman, Mr. M'Donald, and Mr. Garrard; there is not much difference in my memory than then; I should think the hut would be worth about £10 or £15 (I remember saying this) on the 20th of September, 1886; I said that the hut was £10 or £15 when Sullivan took it up; I swear that I said that it had been recently repaired by Sullivan; I swear now that the hut was worth £5; it was a slab hut; and I say now, although I said in 1886 that it was worth £10 or £15, I say now that it is only worth £5; I had been talking to Sullivan about this; he did not tell me what  
he

he swore at the last inquiry; I did not measure the fencing on the southern boundary; I do not know how many chains; it is a two-rail fence; timber not hard to get there; have to draw it 200 yards in level country; I knew there was good splitting timber within 200 yards of fence; there might have been a little over 20 chains of fencing; I do not know how long it has been up; I saw no clearing before I took it up; so if Campbell says he had 20 acres burnt and cleared off this is untrue; Campbell never did at the time I took the land up; never burnt and cleared 20 acres; I value the fence at now 2s. 6d. a rod; at the last inquiry I could not put any valuation on the fencing; now I value it at 2s. 6d. a rod; all this has been gone over before; I think I have given evidence twice before; this is the third time; I have not heard that the decision of the Minister was against me; I got no letter or telegram from the Minister to say that the forfeiture of Mr. Campbell's conditional purchase was reversed, or from the Land Board at Grafton; and I never got any notice to accept a refund of my money; I know Sullivan is living there; there was never a letter addressed to me Smith and Sullivan; why I lodged the complaint, I was advised to do it; I have sworn that I never had any intimation from the Government that it had gone against me; I am living on the land now; I saw the remains of a dam on Mr. Armstrong's selection; there never was a dam on the 150 acres; I get my living by farming; I am not a carpenter; I have built houses; I decline to answer that Mr. Barry gave me the £10 to lodge this complaint; I know the southern end; I'll swear that Campbell never had a fence between me and Sullivan when I selected; I remember the Court; 20th September, 1886—Did not Mr. Blackman see Smith in connection with this case before he took his seat on this Board?

Question dis-  
allowed by the  
Board.

*Re-examined by the Board.*—Mr. Barry never gave me the £10 to lodge the complaint; since I took up the land I have always lived on it; when I swore at the inquiry on 20th September, 1886, that the hut was worth £10 or £15, I meant after Sullivan repaired it.

JAMES SMITH.

Sworn before us, at Lismore, this 13th day }  
of October, 1888,—

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*James McDowell Sullivan*, sworn, saith:—I am a farmer living at Jiggi; I am one of the complainants in this case; I selected 80 acres, portion of forfeited selection of Archibald Campbell (part of the 150 acres disputed); I selected the land 10th July, 1884; at the time I selected the land there was a hut on it, and dividing fence between the portion 89, Sheiber's selection (now Armstrong's); Smith had selected before me; I saw the place at the time he selected; at the time Smith selected I wouldn't value the hut at anything; it might be worth £5, but I wouldn't give it if I wanted to take it away; I value the fence at 3s. to 3s. 3d., when new, and it was greatly broken down; I think it was worth about half the cost price; there was no floor in the hut, no doors, no chimney, and in a ruined state; I am speaking now in 1884; to the best of my opinion to about 20 to 30 chains of fencing; this selection of Campbell's had been gazetted forfeited before I took it up.

*Cross-examined by Mr. Allingham.*—I gave evidence 20th September, 1886; couldn't say if I heard Mr. Somerville give his evidence; I never told Smith I valued the hut at £5; I saw no clearing done there; I knew it in 1884; I am prepared to swear that Campbell never fell an acre, nor ringbarked a tree while it was a piece of land; I might have lived on it nine months; I couldn't say how many children I have got; I have six children at home; I was living on it with my wife and children; it might be six or eight months since I left it; I believe there were from 20 to 30 chains on the southern boundary; I will not swear that there were 40 chains there; I never got any instructions from the Government that the case had gone against me; Mr. Barry is not helping me whatsoever; I swear that the improvements were never on the ground referred to in complaint, and that the declarations and allegations made by Archibald Campbell are wilful misrepresentations of the facts; there never was a dam on portion 89; this hut would cost when new; I am not a carpenter; I am something; I didn't see it when new; I can't say; when I went to live in the hut I repaired it; I put doors and windows in it, slabs in where slabs were gone, floored it, put a partition across it, and made a fire-place, and put an addition to the end of it, put shingles on it; in fact, I made it almost new.

JAMES McDOWELL SULLIVAN.

Sworn before us, at Lismore, this 13th day }  
of October, 1888,—

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*James Oestreich*, sworn, saith:—I am a farmer, living at Jiggi, on a portion which was formerly selected by myself, portion 101; this land adjoins the Campbells' selections, now under complaint; I believe I lived there since 1879, on and off; I know the land, portion 89, which Smith and Sullivan took up; I think I remember the time they selected; at the time Smith took up the land I knew there were some improvements on the land; there was an old hut on the selection; when he took it up there was some fencing on the dividing line betwixt his and Armstrong's, formerly Schiebel's; I consider the value of the hut the time selector took it up; the hut was out of repair; there were slabs laying down in different places; fire-place broken down; there was a doorway, but no door; there were windows, but no glass or shutters; the value of the hut at the time Smith selected was worth about £7; this is what I would give for it; I saw Armstrong and a man named Fred. Schroder erect the fencing; it was a boundary fence of Armstrong's; the portion I live on adjoins Archibald Campbell's; the fence was broken down in dozens of places; I value the fence at the state it was in at 2s. a rod; as near as I could guess there might have been about 20 chains standing; in '79 I took the land up; I never saw Campbell put any improvements on the land; I lived alongside this selection; I never saw Campbell on the selection; I used to cross it every week twice; I never saw any burning or clearing done there; I never saw any other improvements on the land.

*Cross-examined by Mr. Allingham.*—I have no down on the Campbells; not the least in the world; positive they never sued me for money; they did not write the letter to me; I paid up like a man; I knew the land in 1881; when the declaration was made; the hut was worth £10 in 1881; £10 would be quite enough for it; the fence was worth in 1881; I could not say if it was worth 3s.; I consider the fence worth 2s. 9d. when put up, drawing included; might have to take the fence to draw about 300 yards; there was never a dam on the land, and no clearing; I never saw any clearing; I am not quite certain about clearing.

*Re-examined by Mr. Simmons.*—Armstrong and Fred. Schroder erected the fencing; I never heard before Smith and Sullivan took it up of any clearing being done; there was never any burning off, and no men working on it.

*Cross-examined by the Board.*—I could not say how much fencing there was on the land; I adjoin this land on the one side.

*Re-examined by Mr. Simmons.*—There were four of the Armstrongs and one Fred. Schroder working there.  
Sworn before us at Lismore, this 13th day }  
of October, 1888,—

JOHN OESTREICH.

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*George Oestreich*, sworn, saith: I am a farmer, living at Rose Hill; I formerly lived on portion 101; I made this selection 5th June, 1879, conditional purchase 79-190; I lived on the selection for some years; I know the selection of Campbell's, which was forfeited (portion 89); shortly after he selected I saw a hut on it; I valued the hut at £7 or £8; when Smith and Sullivan took up the land, shortly after Campbell selected, they put up a hut; this is the same hut that was on the ground when Smith and Sullivan took it up; it was pretty well wrecked about when Smith and Sullivan took it up; in 1881 the house was not habitable; I saw the place often; I used to go two or three times a week to my own place; I lived in my place, and my father lived with me; this place adjoins Campbell's; I never saw Campbell put up any other improvements; I saw the Armstrongs and another man putting up a fence on the boundary-line between Armstrong and Campbell's—the selection I call Armstrong's formerly Schroder's; I never saw anyone make any improvements on the land; no ringbarking done on the 150 acres; the only improvements I ever saw Campbell put on the land was the hut; at the time Smith and Sullivan selected the fencing was worth 2s. 9d. a rod; in 1881 I cannot say; I never valued it at more than 2s. 9d. a rod; I never saw a dam on the land.

*Cross-examined by Mr. Allingham.*—I have not been talking to my father about this matter; I may have mentioned it; my father never talked about it; we have only referred to it; I have spoken to Smith about it; I valued the fencing myself;

myself; I came here by subpoena; I have no down on the Campbells; they have sued me for money; I did not take up part of the forfeited land of Campbell's; when Smith and Sullivan took it up the hut was worth £7; it would not be worth much more in 1881; it was never worth £10; a slab hut; I never measured it; I do not know the dimensions of it; it had a shingle roof; there was from 20 to 30 chains of two-rail fence; I think splitting, putting up, and drawing worth 2s. 9d. a rod; I never saw any clearing; I will swear there was never any clearing done by anyone; I did not give evidence at the last Court.

Sworn before us, at Lismore, this 13th day }  
of October, 1888,—

GEORGE OESTREICH.

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*By Mr. Simmons: Jacob Grisinger, sworn, saith: I am a farmer, living at Bongabut Plain; I know the selection Campbell had that was forfeited (portion 89); I knew the place before ever he selected; I live near to it; at the time Campbell selected I lived near to it; I have been living there these last eighteen years; during the time Campbell had it I never saw him put any improvements on the land; I saw some fencing on the dividing line between him and Campbell; but I cannot say who put it up; I believe Campbell put the hut up; it was a slab hut; in 1881 the hut would be worth £10 or £11; there were a few slabs on the floor; no door to it; in 1881 the fence was in a good state, and worth about 2s. 9d. new; I have had similar fence put up, and have never given more than 2s. 9d. for fencing of that description; I know it was between Armstrong and Campbell; I never saw any other improvements except the hut on that portion; there was no clearing or falling.*

*Cross-examined by Mr. Allingham: This hut might be worth £10 or £11; it is a two-rail fence; it was badly put up and very light stuff; this fence would be worth about 3s. a rod; I never saw any clearing or falling on portion 89; I used to go by there drawing timber; I never measured the fencing nor the hut.*

Sworn before us, at Lismore, this 13th day }  
of October, 1888,—

JACOB GRISINGER.

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*Alfred Olley, sworn, saith: I am a farmer living at Jiggi.*

*By Mr. Simmons:—I know the complainants in the case and Mr. Campbell, and I know the selection of Campbell, which was forfeited and selected by Smith and Sullivan; I lived close to this portion 89, about 2 miles; I used to see it often, every time I passed that way; the track was that way; the road went through it; I have known the selection since Campbell selected it, and before; I have seen the improvements on the ground by Campbell—fencing and a house; the fence divided Armstrong and Campbell; about 40 chains; I could not say whom the fence was put up by; it was an old hut; the hut was erected soon after Campbell selected; I have seen people there; I saw a man working there for Mr. Campbell; in 1881 the hut was very rough, the doors were all down and dilapidated; it was never looked after; it was a good fence when put up; the timber was split on the ground, and a very little drawing; could get a new fence put up of that description for 3s. 3d. a rod; I never saw any other improvements on the land and no ringbarking and burning off; I will swear that there was no ringbarking done by Campbell and his men; I was never brought up for taking other men's timber; I know a man named Stead; there was a full line of fencing; it looked to me like 40 chains; it was put up about that time; I saw the fence going up; I could not tell you the date—about 1881; I never measured the house; about 18 feet I think; shingle roof; I only saw a man working in the house for Campbell; I have a selection up that way fulfilled.*

*By the Board:—I value the hut about £8.*

Sworn before us, at Lismore, this 13th day }  
of October, 1888,—

ALFRED OLLEY.

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of Board.

*Frederick James Anthony Trollope, sworn, saith:—I am Acting Chairman of the Land Board, formerly Conditional Purchase Inspector in this district; I inspected conditional purchase 78-180 on 22nd November, 1881; this was after the residence period had expired (over six months after); I found a hut and 20 chains of fencing; the hut had been worth £20 when new and 20 chains of fencing, which I valued at 5s. a rod when new; I think the fencing was on part of the south line of the conditional purchase; these were the only improvements on the land at that time; I valued the fence at 5s. a rod when new, but as a matter of fact the land being open land it could have been done for a less amount.*

*Cross-examined by Mr. Allingham:—The hut was still a good hut; it was worth £20 when put up; I ascertained the measurement of the fence (the fence which is shown on tracing); if 40 chains were there I allowed Campbell a half of it; I only allowed him for 20 chains of fencing; there were not 50 chains on the dividing line; there were not more than 20 chains in upon the land, or 40 chains of fencing on the dividing line; there was no clearing on the land and no dam on the land; Campbell was, I think, not with me when I made this inspection; I cannot say if Campbell told me he put up this fence; it has been the custom of the Department to grant an extension of time to complete improvements; I think that the land being frontage to Jiggi Creek, and being south and bounding measured portion 89, was a selection at the time I inspected; I see by reference to parish map that there was a selection beside it south of measured portion 89; I enclose letter, dated 24th October, 1887, tendered by Mr. Allingham, solicitor; I tender a letter from the Under Secretary for Lands, addressed to Messrs. Brett and Coghlan, agents for Mr. Archibald Campbell, the conditional purchaser, in which Mr. Secretary Garrett states that he should have an extension of three months to complete the improvements as to the value required by law, and at the expiry of that period if the report of the Inspector is favourable the certificate of conformity will issue. [This letter was refused as evidence by the Board.]*

Sworn before us, at Lismore, this 15th day }  
of October, 1888,—

FRED. TROLLOPE.

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of the Board.

*Inspector G. W. West, sworn, saith:—I am a Conditional Purchase Inspector, living at Lismore.*

*By Mr. Allingham:—I visited this selection of Archibald Campbell's on 23rd January, 1888. [Mr. Allingham tendered evidence by Mr. Inspector West as to improvements on this series of conditional purchases in pursuance of a letter from the Department, 24th October, 1887; Mr. Simmons objected to this evidence, and the Board rejected the evidence; Mr. Allingham tendered similar evidence by Archibald Campbell; Mr. Simmons again objected; the Board upheld the objection; Mr. Allingham here tendered written protest against the Board dealing with the case; Mr. Simmons objected to protest being received at this stage; Mr. Allingham here tendered the depositions taken 20th September, 1886, in case *re Campbell v. Sullivan and Smith*; Mr. Simmons objects to these being received; the Board ruled objection was good, and refused to receive depositions as evidence.]*

Sworn before us, at Lismore, this 15th day }  
of October, 1888,—

D. M'DONALD, Acting Chairman.  
S. GARRARD, Member of the Board.

## No. 174.

Messrs. Smith and Sullivan to The Under Secretary for Lands.

Sir,

Jiggi, 15 October, 1888.

We beg to inform you that the complaint lodged by us against Archibald Campbell's conditional purchase No. 78-180, was heard by the Board to-day in Lismore, and the decision given in our favour, the Board holding that the improvements were not on the land according to the declaration made by Archibald Campbell.

We

We have been to great expense over these inquiries, and we do trust, now that a final decision has been given, that you will be pleased to give us certificates of conformity for our selections, being conditional purchases portions 89 and 214, which formerly was forfeited conditional purchase No. 180.

Hoping you will reply to the letter as early as possible, as these are our homes, and our wives and families are depending upon it, having spent all our time and money upon them.

We have, &c.,  
JAMES M'D. SULLIVAN.  
JAMES SMITH.

C.P. 78-180, Lismore, 88-7,023 D., 88-3,346 Cor., A. Campbell; C.P. 84-47, Lismore, 87-11,182 D., 87-4,986, Cor., Jas. Smith; C.P. 84-127, Lismore, 87-11,182 D., 87-4,986 Cor., J. M'D. Sullivan. Papers 88-7,023 Dep., noted. Land Board, Grafton, B.C., 11/8/88. Returned.—S.A.J. (*pro* J.P.M.), 29/10/88.

Mr. Capper,—1. The writers may be informed that on return of the papers from the Land Office the case will receive attention. 2. The Chairman might be asked to return the papers if action is completed in Board Office.—W.H.C., 31/10/88.

Yes.—F.H.W. (for the Under Secretary), 1/11/88. J. Smith and J. Sullivan informed and Chairman asked, 7/11/88.

No. 175.

Messrs. Allingham and Somerville to The Chairman, Land Board, Grafton.

*In re* Archibald Campbell's conditional purchase No. 78-180, parish of Tunstall, county of Rous.

Sir, Lismore, 6 November, 1888.

Herewith we send you notice of appeal to the Minister against the decision of the Local Land Board in respect of this selection.

We enclose Post Office order for £10, the amount of deposit.  
Kindly furnish us with a copy of the depositions in this matter.

We have, &c.,  
ALLINGHAM AND SOMERVILLE.

Mr. Sturrock,—These may be supplied at the usual charge.—F.T., 8/11/88.

No. 176.

The Under Secretary for Lands to Messrs. Smith and Sullivan.

Gentlemen, Department of Lands, Sydney, 7 November, 1888.

With reference to your letter of the 15th ultimo, respecting the conditional purchases noted in the margin, I have the honor to inform you that the papers in the case are at present under reference to the Chairman, Local Land Board, Grafton, upon return of which the case will receive attention.

I have, &c.,  
H. CURRY  
(For the Under Secretary).

Lismore: C.P. 78-180; C.P. 84-47; C.P. 84-127.

No. 177.

The Under Secretary for Lands to The Chairman, Land Board, Grafton.

Sir, Department of Lands, Sydney, 7 November, 1888.

I have the honor to request that you will be good enough to return to this Department, as early as practicable, all papers in connection with the conditional purchases noted in the margin which were forwarded to you on 11th August, 1888, if action has been completed in Board Office.

I have, &c.,  
H. CURRY  
(For the Under Secretary).

Papers No. 88-7,023 Dep. C.P. Nos. 78-180, 84-47, and 84-127, made by A. Campbell, J. Smith, and J. M'D. Sullivan, at Lismore.

No. 178.

Mr. A. Campbell to The Acting Chairman, Land Board, Grafton.

Crown Lands Act of 1884 (Part II, Section 17).

Notice of appeal to the Minister from decision of Local Land Board to be lodged with the Chairman. New South Wales, }  
to wit.

WHEREAS on the 13th and 15th days of October, 1888, a certain matter wherein a complaint lodged by James M'Dowell Sullivan and James Smith that the provisions of the law had not been fulfilled on conditional purchase No. 78-180, of 150 acres, county of Rous, parish of Tunstall, selected by me at Lismore on the 25th April, 1878, and in particular that the improvements required by the law were never on the said land, came before the Local Land Board at Lismore, in the Colony of New South Wales, for adjudication, I being a party to such proceeding, and the said Board, after having inquired into the premises, decided that the conditions as to improvements had not been fulfilled, and therefore recommended forfeiture.

And whereas I am dissatisfied with such decision and intend to appeal therefrom to the Minister. These are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal, and the grounds of such appeal are annexed.

ARCHIBALD CAMPBELL,  
Tunstall.

Received the sum of £10 referred to above.

FRED. TROLLOPE,  
Acting Chairman.  
Grounds

Grafton, 8th November, 1888.

## Grounds of Appeal.

1. That the adjudication within referred to was against evidence and the weight of evidence.
2. That the Board wrongly rejected the evidence of Mr. Conditional Purchase Inspector West and the appellant, that improvements were put on the land in pursuance of the Minister's letter of the 24th October, 1887, to the appellant's agents, Messrs. Brett and Coghlan, the said letter, and Mr. Inspector West's report as to the improvements sanctioned by such letter.

## No. 179.

Mr. N. J. Simmons to The Under Secretary for Lands.

Sir,

Lismore, 13 November, 1888.

I am instructed by Mr. James Smith, of Jiggi Creek, to apply to you for a refund of the sum of £10, deposited with the Chairman of the Local Land Board, as security for the costs of an appeal from the decision of the said Board in reference to conditional purchase No. 180, of 1878, of 150 acres, county of Rous, parish of Tunstall, selected by Archibald Campbell at Lismore, of the 25th April, 1878, and which was decided in my client's favour on the 15th October last.

Yours, &amp;c.,

NATHAN J. SIMMONS.

## No. 180.

Telegram from Mr. N. J. Simmons to The Under Secretary for Lands.

Lismore, 14 November, 1888.

*Re* Archibald Campbell's appeal, conditional purchase 78-180. Is this appeal set down for hearing yet; if so, when?

NATHAN J. SIMMONS,

Solicitor.

Urgent. Mr. Wilson.—S.F., 14/11/88. No appeal yet received at head quarters.—F.H.W., (for Under Secretary), 15/11/88. Wire, 15/11/88.

## No. 181.

Telegram from The Under Secretary for Lands to Mr. N. J. Simmons.

Sydney, 15 November, 1888.

In reply to your yesterday's wire, *re* A. Campbell's appeal, no appeal yet received at head quarters.

STEPHEN FREEMAN,

Under Secretary.

## No. 182.

Messrs. Brett and Coghlan to The Chairman, Land Board, Grafton.

Sir,

Macquarie-place, Sydney, 24 November, 1888.

We have ascertained that the papers in the cases noted in the margin were referred to your Board on the 11th August last, and as we are desirous of procuring certificates of conformity as early as possible. We shall esteem it a very great favour if you would inform us when the cases are to be dealt with.

We have, &amp;c.,

BRETT AND COGHLAN.

Mr. Hall,—For papers please.—A.B., 26/10/88. Papers 88-5,859, Under Secretary, 10/11/88. R.P.H., 27/11/88. Inform the writers.—A.B., 27/11/88. Informed.—A.B., 27/11/88. The Under Secretary for Lands.—A. Boor (*pro* Acting Chairman), B.C., Grafton, 27/11/88

## No. 183.

The Chairman, Land Board, Grafton, to Messrs. Brett and Coghlan.

Gentlemen,

Local Land Board Office, Grafton, 27 November, 1888.

Adverting to your letter of 24th instant, *re* the cases noted in the margin, I have the honor to inform you the papers were, on the 10th instant, forwarded to the Under Secretary for Lands under number L.B.D., 88-5,859.

I have, &amp;c.,

A. BOOT

(*Pro* Acting Chairman).

## No. 184.

Office Memorandum.

28 November, 1888.

APPEAL by Archibald Campbell against the proposed forfeiture of his conditional purchase 78-180, Lismore. The case is stated on C.S., 88-8,397 D. F.H.W.

Appellant, care of Allingham and Somerville, and Smith and Sullivan, care of N. J. Simmons (Lismore), informed that Appeal Court will be held on 17th instant.—F.H.W., 1/12/88.

No. 185.

## No. 185.

## Office Memorandum.

11 December, 1888.

On 25th April, 1878, Archibald Campbell selected 150 acres (portion 89), under 13th section, at Lismore, conditional purchase 78-180. By conditional purchase 79-112, he selected 40 acres (portion 104), in virtue of original conditional purchase 78-180; on 12th June, 1879, he selected 100 acres (portion 96), in virtue of original conditional purchase 78-180.

THE above conditional purchases were declared forfeited on 31st December, 1883. The forfeiture was revoked on 20th December, 1884.

On 20th March, 1884, by conditional purchase 84-47, James Smith selected 70 acres of portion 89, and on 10th July, 1884, James D. Sullivan selected, by conditional purchase 84-127, the remaining 80 acres of portion 89 (forfeited conditional purchase 78-180).

On 13th November, 1884, by conditional purchase 84-193, Denis Hanan applied for portion 104 (forfeited conditional purchase 79-112).

On 27th March, 1884, by conditional purchase 84-55, H. E. Reiss applied for 40 acres of portion 96, and on 10th July, 1884, by conditional purchase 84-130, Nathaniel Gordon applied for the remaining 60 acres of portion 96 (forfeited conditional purchase 79-196).

It was submitted on 13th February, 1885, as to whether conditional purchases 84-47, 84-55, 84-127, and 84-130 should stand on their merits, being lodged prior to the remission of forfeiture.

Upon this the Minister decided as follows, 13th March, 1885:—"When the forfeiture of A. Campbell's conditional purchase was reversed, it was not known to me that the land had been selected by other persons, consequently the reversal of forfeiture will not, under the fact, reinstate the selection, therefore the conditional purchases of the other persons on this ground must be upheld, provided there are no other exceptions or exemptions under the law." Mr. Campbell, care of J. A. Martin, was informed to the above effect, 2nd May, 1885.

A letter is enclosed (85-7,255c) from Mr. J. W. Pidgeon, as agent for A. Campbell, asking that conditional purchases 84-47, and 84-127 be declared void on the grounds that there were improvements at date of conditional purchase sufficient to bar selection.

W. H. C.

The Surveyor-General's memo. of 21st October also explains the case. This case is considerably involved. Perhaps Hanan's conditional purchase may be declared void as desired by him, and a reference made to the Local Land Board as to whether the lands embraced in the conditional purchases of Smith and Sullivan were sufficiently improved at date of conditional purchase to bar selection.—C.O., 14/12/85. Approved.—J.P.A., 15/12/85. Mr. Way.—30/12/85. Applicant refund order. Agent and Treasury. Conditional purchase 84-193 void, 9th January, 1886. Mr. Pidgeon informed, 9th January, 1886. Mr. Rich.—Noted 14th January, 1886.—C.C. Charting Branch. Inspector West for report on conditional purchases 84-47 and 127, Lismore.—23/2/86.

## No. 186.

Mr. N. J. Simmons to The Chairman, Land Board, Grafton.

*Re* Smith and Sullivan's complaint against Archibald Campbell.

Dear Sir,

Lismore, 14 December, 1888.

I am instructed by Messrs. Smith and Sullivan to apply for the refund of amount lodged by them on making complaint, and shall feel obliged if you will forward it to me at Lismore.

Yours, &amp;c.,

NATHAN J. SIMMONS.

Mr. Hall,—Papers please.—A.B., 17/12/88. Papers in the case are noted to the Under Secretary, 10/11/88.—R.P.H., 18/12/88. Inform the writer in terms of above, and steps will immediately be taken on return of papers to carry his wishes if ripe for that action.—A.B., 18/12/88. Informed.—A.B., 18/12/88.

## No. 187.

## Decision of Minister.

Crown Lands Act of 1884—(Part II, Section 18).

Decision of Minister on a case of appeal from Local Land Board.

New South Wales }  
to wit. }

WHEREAS on the 15th day of October, 1888, a certain matter wherein the fulfilment of the conditions of improvement by Archibald Campbell on his conditional purchase 78-180, Lismore, came on for investigation and adjudication before the Local Land Board at Lismore, Colony of New South Wales, and the said Board decided to forfeit such conditional purchase, and Archibald Campbell, one of the parties thereto, appealed from such decision to the Minister, and the said matter having this 17th day of December, 1888, come before me, James N. Brunker, on appeal, I, being the Minister charged with the administration of the Crown Lands Act of 1884, having heard the said appeal in open Court, do hereby decide as follows:—I adhere to the decision given by Mr. Secretary Garrett in this case, and, as the improvements required by such decision were completed within the time therein specified,

I sustain the appeal, direct the certificate to issue, and order the deposit lodged with the appeal to be refunded.

Given under my hand at the Department of Lands, }  
Sydney, this 17th day of December, 1888. }

JAMES N. BRUNKER,  
Minister.

[Enclosure.]

## [Enclosure.]

Archibald Campbell—case No. 16, Appeal Court, 17th December, 1888—Mr. Allingham for appellant, Mr. N. J. Simmons for respondents, Smith and Sullivan.

Appeal by Archibald Campbell against the proposed forfeiture of his conditional purchase, No. 78-180, Lismore.

17 December, 1888.

In this case it appeared that this conditional purchase, with its additional, was forfeited on the 31st December, 1883, and the forfeiture reversed on December 16, 1884; that conflicting interests had arisen between the forfeiture and the reversal by the conditional purchase of the land by J. M. Sullivan and J. Smith, but owing to the land being sufficiently improved to bar selection their conditional purchases were declared void; and that the improvements were not sufficient to fulfil the conditions of the law. On the case being submitted to the Minister, Mr. Secretary Garrett decided on the 21st October, 1887, that "as the Executive Council did, on the recommendation of the Minister, at that time reverse the forfeiture of conditional purchase 78-180, 79-112, and 82-485, and so led Campbell to believe that his claim stood good at that time, and as subsequent contentions, as to Campbell's claim to these conditional purchases may have interfered with his improvements of them, an extension of three months may be given him to complete his improvements to the value required. At the expiration of that period, if the report of the inspector is favourable, certificates may issue."

On the 17th February, 1888, Smith and Sullivan lodged a complaint against Campbell for not having fulfilled the conditions of improvements within the time prescribed by law, and when the case came on for hearing the Board ignored Mr. Secretary Garrett's decision, refused to take the evidence of the Conditional Purchase Inspector as to the value of the improvements on the land, in compliance with such decision, and approved of the forfeiture of the conditional purchase.

Mr. Allingham produced a letter, acquainting Campbell of Mr. Secretary Garrett's decision before mentioned, stated that such letter led appellant to make improvements, that the Inspector reported favourably upon such improvements, thought the Minister could not go behind that letter, and contended that as Mr. Secretary Garrett's decision had been carried out Campbell's conditional purchase should pass.

Mr. Simmons urged to the contrary. The complaint made was that Campbell made a false declaration on the 4th May, 1881, as to the value of the improvements on the land. He quoted the valuation of Mr. Trollope of the improvements as not being worth £40, and also the evidence of Smith, Estridge, Geo. Estridge, &c., as to the value of the improvements. He contended that the Board were perfectly correct in their action. All they had to do was to ascertain whether Campbell made a false declaration. He thought the evidence had proved that his clients were justified in lodging their complaints. That it was a clear case of false declaration, and the appeal should be dismissed.

The Minister quoted the decision of Mr. Secretary Farnell in 1884, and said that Mr. Garrett had, on the 21st October, 1887, decided that three months extension to complete improvements should be given Campbell. It appeared Campbell had completed the improvements, doubtless on the faith of that decision. He sustained the appeal, directed that the certificates issue, and ordered the deposit lodged with the appeal to be refunded.

WALTER D. BINGLE,  
Shorthand-writer.

Archibald Campbell, appellant. District, Lismore. Department of Lands. Proceedings of Court of Appeal held by the Honorable James N. Bruncker, Minister for Lands, Sydney, 17 December, 1888.

Deposit on appeal refunded to Allingham and Somerville, solicitors, Lismore, by cheque No. 414, to Land Agent, Lismore, on 7th January, 1889.—B. S. LEVICK, 7/1/89. Mr. Boot. The Under Secretary for Lands.—A. BOOR (*pro* Acting Chairman), B.C., Grafton, 7/1/89.

In giving their decision in this case the Local Board made no order as to disposal of deposit of £10 paid to enable Sullivan and Smith to institute inquiry. As their decision was given in support of the complaint of Sullivan and Smith, it seems only feasible that that decision should carry with it the right to refund of the deposit mentioned. It is therefore submitted that such deposit be refunded. (I did not sit on this case and have no authority to act). Submitted refund issue from Head Office.—F. TROLLOPE, 7/1/89. The Under Secretary for Lands.

Under the 30th clause of the Act of 1884 it would appear that the Land Board only have power to make an order as to the deposit lodged with a caveat, and the papers should be returned for that purpose.—F. H. W., 30/1/89.

The deposit should be refunded under the provisions of sub-section V of section 14, the case being one of complaint by a "person not authorised." The Land Board, it is observed, is the proper authority to issue the refund order.—W. H., 31/1/89.

Submitted.—S.F. Approved.—J.N.B., 21/6/89.

## No. 188.

The Chairman, Land Board, Grafton, to Mr. N. J. Simmons.

Sir,

Local Land Board, Grafton, 18 December, 1888.

Adverting to your letter of the 14th instant, asking on behalf of Messrs. Smith and Sullivan for refund of amount lodged with complaint in case *re* Smith and Sullivan against Campbell, I have the honor to apprise you that the papers are with the Under Secretary for Lands, and immediately on their return steps will be taken to carry out your request, if ripe for that action.

I have, &c.,

A. BOOT

(*Pro* Acting Chairman).

## No. 189A.

Mr. E. W. Allingham to The Under Secretary for Lands.

Sir,

32A, York-street, Sydney, 20 December, 1888.

Referring to the conditional purchase noted in the margin, and which has been passed in favour of Mr. A. Campbell by the Minister of Lands on appeal on the 17th instant, I beg, on behalf of Mr. Campbell, to request that the Crown grants for the conditional purchase in question may be issued at once. The land was paid for as far back as the year 1886, and it is of the utmost importance that the grant may issue.

I have, &c.,

E. W. ALLINGHAM.

Conditional purchase 78-180, Lismore.

## No. 189B.

The Acting Clerk-in-Charge to The Land Agent, Lismore.

Sir,

Land Board Office, Grafton, 7 January, 1889.

I have the honor to forward herewith three cheques as per margin, in favour of Archibald Campbell, James Kennedy, and Emanuel Davis, respectively, being the refund of deposits on appeal in connection with the conditional purchases quoted hereon, and to request that you will be so good as to pay over to Messrs. Allingham and Somerville the cheques referred to.

I have, &amp;c.,

A. BOOT,

Acting Clerk-in-Charge.

Lismore; A. Campbell; C.P. 78-180, 150 acres, 25/4/78. C.P. 83-63, 100 acres, 12/4/83; James Kennedy; C.P. 83-327, 80 acres, 29/11/83; Emanuel Davis. Cheque 412, James Kennedy; cheque 413, Emanuel Davis; cheque 414, A. Campbell. £10 each.

## No. 190.

Messrs. Sly and Hamilton to The Under Secretary for Lands.

*Re grants to A. Campbell,*

Dear Sir,

32A, York-street, Sydney, 11 February, 1889.

Will you kindly inform us whether the grants to Archibald Campbell of the following lands are ready for issue:—150 acres, selected 25th April, 1875, No. 78-180; 40 acres, selected 20th March, 1879, No. 79-112; 100 acres, selected 12th June, 1879, No. 79-196.

It is now some time since the Appeal Court decided in Mr. Campbell's favour, and it is extremely important that the grants should issue as soon as possible in as much as parts of the land are now in the possession of persons other than Mr. Campbell, and it will be necessary for that gentleman, before proceeding in the matter, to have the grants standing in his name.

We shall be obliged, moreover, if you will see that delay in the issue of one grant (though any delay seems now inexplicable) does not delay the issue of the others.

Yours, &amp;c.,

SLY AND HAMILTON

*(per H.H.R.)*

See submission, dated 31st ultimo, upon 89-1,064, Dep., enclosed.—W.H.C., 21/2/89.

The parties are pressing for the issue of the deed, the Minister having approved in the Appeal Court, of the certificate issuing on conditional purchase 78-180, it is submitted that, as the balance of purchase money has been paid, the deed be now issued; the question of refund of deposit lodged with caveat to be hereafter dealt with.—F.H.W., 2/3/89.

The deed should issue with the least possible delay.—S.F., 5/3/89. Mr. M'Kern.

## No. 191.

Mr. A. Campbell to The Under Secretary for Lands.

Dear Sir,

Lismore, 12 February, 1889.

I had a case before the last Appeal Court before J. N. Brunker, Esq., and his decision was that he would sustain the appeal, and ordered the certificate to be issued to me at once. I, Archibald Campbell, appealed from the Land Board at Lismore. The date of my selection is 1st June, 1878. It came before the Minister on the 17th December, 1888. I have since disposed of the land, so I wish you would send me the certificate as soon as possible. I saw Mr. Wilson when I attended the Appeal Court, and he told me the certificate would be issued to me in January. The papers had to go to Grafton to have my refund sent back to me. By doing so you will greatly oblige,

Yours, &amp;c.,

ARCHIBALD CAMPBELL.

## No. 192.

The District Surveyor, Grafton, to The Under Secretary for Lands.

Memo.

13 February, 1889.

It is requested that the papers in connection with Archibald Campbell's conditional purchase 78-180, Lismore Land District (L.B.D. 88-7,045, Grafton) be forwarded as soon as possible, in order that the necessary action in regard to the plans may be completed.

J. BURT

*(Pro District Surveyor).*

## No. 193.

Mr. N. J. Simmons to The Chairman, Land Board, Grafton.

Sir,

Lismore, 19 February, 1889.

*Re* refund of Smith and Sullivan's deposit of £10, I have the honor to inform you that I am in receipt of a communication from the Treasury herein as follows:—

"I have the honor to acknowledge receipt of your letter of 1st instant, and to state, in reply, that the Grafton Land Board has not yet authorised this Department to refund the amount applied for."

Kindly give the necessary authority and oblige.

Yours, &amp;c.,

NATHAN J. SIMMONS.

Mr. Edwards,—Where are the papers in this case.—A.B., 11/3/89. 88-7,045, Under Secretary, 7th January, 1889.—J.E., 11/3/89. The Under Secretary.—A. Boot *(pro* Acting Chairman), B.C., Grafton, 11/3/89. Cannot trace papers in Conditional Sales Records.—J.P.M. *(per* F.B.) Mr. Capper.

No. 194.

## No. 194.

Messrs. Brett and Coghlan to The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 26 February, 1889.

We have the honor to ask that you will cause a certificate of conformity to be issued for the conditional purchase, noted in the margin, with as little delay as possible.

We have, &amp;c.,

BRETT AND COGHLAN

(Per J.H.M.)

Conditional purchase 78-180, Casino, now Lismore. Balance has been paid, and deed will shortly be prepared. In such cases certificates are not issued.

## No. 195.

Messrs. Brett and Coghlan to The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 26 February, 1889.

We have the honor to ask that you will cause a certificate of conformity to be issued for the conditional purchase, noted in the margin, with as little delay as possible.

We have, &amp;c.,

BRETT AND COGHLAN

(Per J.H.M.)

Conditional purchase 79-112, Casino (now Lismore) ; 88-6,948 West's report. Certificate not yet issued. Noted, 28/2/89.

## No. 196.

Telegram from The Surveyor-General to The District Surveyor, Grafton.

Sydney, 5 March, 1889.

PLEASE return plan R. 1,608-1,759, as it is urgently required.

E. J. BRISCOE

(For the Acting Surveyor-General).

## No. 197.

Telegram from The Surveyor-General to The District Surveyor, Grafton.

Sydney, 13 March, 1889.

PLEASE return as soon as possible plan R. 3,878-1,759.

E. J. BRISCOE

(For the Acting Surveyor-General).

## No. 198.

The District Surveyor, Grafton, to The Surveyor-General.

13 March, 1889.

R. 3,878-1,759 & It will be observed that the enclosed plan R. 3,878-1,759 (which is returned as requested by telegram of portion 89, this date) has not been approved, being still under reference in connection with conflicting applications parish Tunstall, by Campbell, Sullivan, and Smith. herewith.

The Minister for Lands decided to allow Campbell (the original holder of portion 89 conditional purchase 78-180) three months to complete improvements required by law. The case subsequently came before the Land Board, and forfeiture of the conditional purchase was recommended.

Mr. Surveyor Somerville, in subdividing portion 89, in satisfaction of Smith's application now measured as portion 214, altered the position of the reserved road to secure firmer ground (and it was deemed advisable to continue the deviation through the remainder of portion 89. In view of the forfeiture of Campbell's conditional purchase having been recommended, Mr. Somerville was instructed to carry out the alteration which has now been effected, and an amended plan forwarded numbered as portion 89, and containing only 73 acres, ex road.

Campbell appealed against the decision of the Board, and although no official intimation has yet been received, I believe the Minister sustained the appeal.

I would suggest that if conditional purchase 78-180 is to be upheld it should be located on portions 89 and 214 as resurveyed by Mr. Somerville, and the area reduced to 143 acres, ex road.

The reduction in area is caused by the reservation of a road along south boundary of portion 214 to afford access from the back country to the road to Lismore running through these portions.

Should this suggestion be approved, the plan of amended survey of portion 89 (which is forwarded herewith) can be catalogued R. 4,289-1,759.

P. R. DONALDSON,

District Surveyor.

No. 89-9.

Deeds Branch.—Why are these plans required? They are not yet approved.—C.J.S., 16/3/89. Mr. M'Kern. Mr. Shepherd.—F. M'K., 18/3/89. C.S. 89-4,249, Dep.—Surveyor-General, 20/3/89. Note plans to Charting Branch to await result of Acting Surveyor-General's submission recommending re-survey.—C.J.S., 21/3/89.

## No. 199.

## The Surveyor-General to The Under Secretary for Lands.

Conditional purchase 78-180, Lismore, 150 acres, by Archibald Campbell.

21 March, 1889.

THE Minister has formally approved, in the Appeal Court, of the certificate issuing in respect of conditional purchase 78-180 of 150 acres. The balance of purchase-money has been paid, and the parties concerned are pressing for issue of deed. The amended survey (under a former decision now reversed) comprised two portions which together contain 143 $\frac{3}{4}$  acres. Of course it is very desirable that the conditional purchase be measured to contain the full area, so that there may be no further difficulties in disposing of this protracted case (in which it appears other parties are now concerned); and, therefore, I think there should be re-survey with all possible despatch, to contain the full area exclusive of necessary roads. Such re-survey of this conditional purchase should not prevent issue of deeds for the other portions of this series of conditional purchase as desired (C.S. 89-542).

I may add that the original survey appears to have been deficient in area, and also that the plans of the later amended surveys have not been approved.

Approval of the course above suggested is sought.

E. TWYNAM.

For approval.—F.H.W. S.F., 22/3/89. Approved.—J.N.B., 23/3/89. Instructions to effect survey in accordance with this decision issued to District Surveyor at Grafton this day on copy hereof. Now to Deeds Branch for any action necessary with regard to other portions.—J.T.K., 29/3/89. Mr. M'Kern,—Final certificates on conditional purchases 79-112 and 82-485 sent to A. Campbell, care of Brett and Coghlan, 30/4/89. 78-180 for deed on receipt of amended survey. Has amended survey been received?—C.W.P. (*pro* J.P.M.), 4/6/89. Miscellaneous Charting Branch. Mr. Hurlihey,—Please ascertain.—J.T.K., 7/6/89. Survey not yet received.—J.T.K., 10/6/89.

## Mr. N. J. Simmons to The Chairman, Land Board, Grafton.

*Re* refund to Smith and Sullivan, deposit of £10.

Dear Sir,

22 March, 1889.

Referring to my letter to you herein of the 19th ultimo, I have the honor to request you to kindly inform me if the necessary authority to refund the deposit has been forwarded to the Treasury.

I have, &amp;c.,

NATHAN J. SIMMONS.

In this case the decision given by the Board entitled Smith and Sullivan to a refund of the application; but an appeal was lodged against the decision of the Board, and the appeal was sustained. Unless the Minister has made a contrary order, will the Under Secretary be good enough to have the necessary refund forwarded to the applicants, if this has not already been done.—F.T., Acting Chairman, Grafton, 29/3/89. The Under Secretary for Lands.

Mr. Simmons informed.—W.S., 29/3/89. B.C., 29/3/89.

## No. 201.

## Declaration by Mr. J. Smith.

(C.P. No. 84-47.)

D,

[Alienation Act.]

Final Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES SMITH, of Lismore, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of house, fencing, felling, stumping, clearing, &c., and to the value of £314, have been made on such land; and I declare further, that the said land has been the *bona-fide* residence, continuously, of myself, from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Lismore, this 25th }  
day of March, 1889, before me,— }

JAMES SMITH.

CHAS. H. GALE, Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall, 70 acres, being conditional purchase No. 47, of 1884, in the district of Lismore, made on the 20th March, 1884.

Final declaration received under protest, this conditional purchase being void according to the register.—C.W.C., 25/3/89.

## No. 202.

Telegram from The Under Secretary for Lands to The District Surveyor, Grafton.

8 April, 1889.

IN reply to your wire, 4th instant, Hanan's conditional purchase 84-93, Lismore, declared void 9 January, 1886, at applicant's request, as at date of application land embraced in A. Campbell's conditional purchase 79-112. Papers 88-7,023 Dep., to Chairman, 14th August last.

STEPHEN FREEMAN,

Under Secretary.

## No. 207.

Mr. Surveyor Somerville to The District Surveyor, Grafton.

Sir,

Lismore, 25 April, 1889.

I have the honor to transmit herewith the plan of one portion of land, containing 150 acres, numbered 89, in the parish of Tunstall, in the county of Rous, conditionally purchased by Archibald Campbell, under the 13th clause of the Crown Lands Alienation Act of 1861, re-measured by me on the 24th April, 1889, in accordance with instructions No. 89-14, April 5th. I

I have made up the deficient area out of reserve 14, as directed; have obliterated old marking not utilized; and have altered the road giving access to reserve 14 into a much better position, now that portion has reverted to one owner.

The improvements I estimate as follows:—

Archibald Campbell—Hut, £11; clearing, £3; half dividing fence on southern boundary, £11; total, £25.

James Smith—Hut, £28; kitchen, £14; barn and pig-stye, £12; ringbarking, £2; scrub-falling and burning off, £30; grubbing and burning off  $7\frac{1}{2}$  acres, £22; cultivation, including fruit trees, but exclusive of growing crops, £30; fencing (inclusive of half dividing fence along north boundary and from C to creek), £90. All fencing wire used is barbed, and all fences erected prior to 1887. Total, £228.

James M'Dowell Sullivan—House, £60; shed and improvements to hut, £5; cultivation (exclusive of growing crops), £20; scrub-falling, ringbarking, grubbing, and burning off, £60; fencing and yards (including half dividing fence from C to the creek, and excluding fence across reserved road), £60; total, £205. Sum total, £458.

Smith and Sullivan are residing on the land.

I have, &c.,  
ROBERT N. SOMERVILLE,  
Temporary Salaried Surveyor.

R. 4,327-1,759, the Chief Draftsman.—P.R.D., 10/6/89. Mr. Newell,—Enter plan in catalogue book, so that the case may be dealt with at Head Office.—J.B. Plan catalogued, R. 4,327-1,759.—F.B.N., 12/6/89. Plan approved.—J. T. KEATING (for Acting Surveyor-General), 10/9/89.

The remeasurement of conditional purchase 78-180 has now been effected, and as all the papers connected with the case are in Sydney, the plan is forwarded under separate cover, in order that the necessary examination and approval may take place as soon as possible. It has been provisionally catalogued R 4,327-1,759, and I would request that a certified copy of the plan may be forwarded to this office after it has been approved. The following plans, which will be required in connection with this case, are also forwarded, viz.: R 1,739-, 2,743-, 3,130-, 3,260-, 3,649-1,759. It may be pointed out that plan of portion No. 215 (catalogued R 3,649-1,759), has not yet been approved. Licensed Surveyor Somerville's letter, No. 88-23, forwarding plan of sub-division of portion 89, representing J. M'Dowell Sullivan's conditional purchase No. 84-127, is also enclosed.—P. R. DONALDSON, District Surveyor, 11/6/89.

The Surveyor-General,—Records. Please attach papers 88-7,023 Dep. (papers of conditional purchase 78-1,801), and forward to Miscellaneous Charting Branch.—W.H.C., 28/6/89. 89-2,445 Correspondence, noted to the Local Land Board, Grafton, 26th June, 1889, for action.—J.P.M. (*pro* C.W.P.), 29/6/89. Mr. Capper,—Memo. to Chairman, Land Board, Grafton, for papers.—F.A.R., 6/8/89. Memo. to Licensed Surveyor Somerville *re* cover G.—F.A.R., 9/8/89. Returned, 20/8/90.

[Enclosure.]

C.P. 78-180, Lismore, 150 acres, by Archibald Campbell.

21 March, 1889.

THE Minister has formally approved, in the Appeal Court, of the certificate issuing in respect of conditional purchase 78-180 of 150 acres. The balance of purchase money has been paid, and the parties concerned are pressing for issue of deed.

The amended survey (under a former decision now reversed) comprises two portions which together contain 143½ acres. Of course it is very desirable that the conditional purchase be measured to contain the full area, so that there may be no further difficulties in disposing of this protracted case (in which it appears other parties are now concerned); and, therefore, I think there should be re-survey with all possible despatch to contain the full area exclusive of necessary roads.

Such re-survey of this conditional purchase should not prevent issue of deed for the other portions of this series of conditional purchase as desired (C.S. 89-542).

I may add that the original survey appears to have been deficient in area, and also that the plans of the later amended surveys have not been approved.

Approval of the course above suggested is sought.  
The Under Secretary.

E. TWYNAM.

For approval.—F.H.W., 22/3/89. S.F. Approved.—J.N.B., 23/3/89. Forwarded to the District Surveyor at Grafton, who will be good enough to cause measurement to be effected in accordance with this decision.—E. TWYNAM, Acting Surveyor General, 29/3/89. 1 April, No. 35. Received in District Survey Office, Grafton, 4/4/89.

Forwarded to Mr. Surveyor Somerville, to effect a re-survey of portion 89, parish of Tunstall, with all possible despatch, to contain the original area applied for under conditional purchase 78-180, viz., 150 acres. All necessary roads to be reserved in the most suitable positions; and any old marking not utilized in amended survey to be obliterated. Any deficiency in area to be made up out of reserve No. 14, notified 29th July, 1885, on the western boundary. The number 214 should be obliterated from the corner trees, as that survey, together with the amended survey of portion 89, will be cancelled. The reserved road 150 links wide should be retained in the position already marked by Mr. Somerville, and the reserved road 100 links wide, forming part of the north boundary of portion 89 (as amended), should also be retained in reinstating portion 89.—J.B.

Tracings of portions 214 and 89 herewith (to be returned).—P. R. DONALDSON, District Surveyor, 5/4/89. No. 89-14. Dealt with by survey under letter No. 89-11.—RICHD. N. SOMERVILLE, Temporary Salaried Surveyor. Dealt with in Charting Branch; now for preparation of deed.—J.T.K., 10/9/89. Mr. M'Kern.

No. 208.

The Under Secretary for Lands to Mr. A. Campbell.

(89-8,129 Dep.)

Sir,

Department of Lands, Sydney, 30 April, 1889.

The declaration made by you, at Sydney, on the 19th October, 1887, with reference to the additional conditional purchase described at foot hereof, having been furnished, and it having been reported that an instalment of the balance of purchase money has been duly paid, I am now directed by the Minister for Lands to notify to you that he is satisfied, after due inquiry, that the conditions prescribed by law have been completed in respect of the said purchase.

The

The deed of grant may be obtained at any time hereafter by payment of the balance of the purchase money, with the interest, if any, then due; but if the necessary payment of interest or instalments be not made as prescribed, the conditional purchase will be liable to forfeiture, and the necessary steps will be taken with a view to the notification of such forfeiture.

I have, &c.,  
STEPHEN FREEMAN,  
Under Secretary.

Additional conditional purchase, No. 79-112; section, 21; district, Casino, now Lismore; date, 20th March, 1879; county, Rous; parish, Tunstall; No. of portion, 96; area, 40 acres; original applicant, present holder—Archibald Campbell.

### No. 209.

The Under Secretary for Lands to Mr. A. Campbell.

(C.S. 89-8,129.)

Sir,

Department of Lands, Sydney, 30 April, 1889.

The declaration made by you, at Lismore, on the 1st July, 1885, with reference to the additional conditional purchase described at foot hereof, having been furnished, and it having been reported that an instalment of the balance of purchase money has been duly paid, I am now directed by the Minister for Lands to notify to you that he is satisfied, after due inquiry, that the conditions prescribed by law have been completed in respect of the said purchase.

The deed of grant may be obtained at any time hereafter by payment of the balance of the purchase money, with the interest, if any, then due; but if the necessary payment of interest or instalments be not made as prescribed, the conditional purchase will be liable to forfeiture, and the necessary steps will be taken with a view to the notification of such forfeiture.

I have, &c.,  
STEPHEN FREEMAN,  
Under Secretary.

Additional conditional purchase No. 82-485; section, 21; district, Lismore; date, 29 June, 1882; county, Rous; parish, Tunstall; No. of portion, 201; area, 50 acres; original applicant, present holder—Archibald Campbell.

### No. 210.

Mr. N. J. Simmons to The Under Secretary for Lands.

*Re* Smith and Sullivan's deposit.

Sir,

Lismore, 2 May, 1889.

I have the honor to inform you that I am in receipt of a communication from the Treasury, informing me that "the necessary refund authority has not yet been received from the Lands Department."

I shall feel obliged if you will kindly give this matter your immediate attention, and have the necessary authority sent to the Treasury at once.

I am, &c.,  
NATHAN J. SIMMONS.

See decision upon 89-1,064, Dep. Forward to Chairman of the Grafton Land Board for action indicated. Papers should then be returned to this Department.—W.H.C. (*pro* Under Secretary), 26/6/89. The communication from the Treasury refers to complainant's deposit of £10, received 24/2/88, lodged by Smith and Sullivan *v.* A. Campbell, conditional purchase 78-180. The usual authority for refund by the Local Land Board has not yet been received.

### No. 211.

The Under Secretary for Lands to Mr. J. Smith.

Sir,

Department of Lands, Sydney, 7 June, 1889.

Referring to your letter of 1st April last, I have the honor to inform you that the papers relating to the conditional purchase noted in the margin have been referred to the Local Land Board at Grafton, to whom your communication has been forwarded. I am to add that the conditional purchase in question stands void.

I have, &c.,  
W. H. CAPPER  
(For the Under Secretary).

C.P. 84-47,  
Lismore.

### No. 212.

Office Memorandum.

Department of Lands, 25 June, 1890.

R. 1,730-1,750,  
R. 2,743-1,750,  
R. 3,130-1,750,  
R. 3,260-1,750,  
R. 3,649-1,750,  
R. 4,327-1,750.

THE plans noted in the margin were a few days ago received in this office from Grafton, and it is noticed that R. 3,649- and 4,327-1,750, have not yet been approved. They are therefore returned herewith, in order that all necessary action may be taken and plans approved.

The District Surveyor, Grafton.

C.J.S.  
(For Under Secretary).

These plans have evidently been returned to me under a misapprehension. The papers connected with conditional purchase 78-180 and its additional, together with the papers relating to the conflicting conditional purchases by Reis, Gordon, Sullivan, and Smith are, it is supposed, with the Surveyor-General; for, by his directions, portion 89, Tunstall, was re-surveyed by Mr. Somerville on the 24th April last.

last. In view of the urgency of the case, and as the plan of the original survey, catalogued R. 1,608, and the unapproved plan of the subdivision, catalogued R. 3,878, were returned to the Surveyor-General, in reply to his telegrams of the 5th and 13th March, 1889, it was considered expedient, in order to facilitate completion of action on this protracted case, to supply a catalogue number for the amended survey of portion 89, as it is evidently the Surveyor-General's intention to approve of the plan himself; hence the pencil notation on back of R. 4,327-1,759. If it is now intended that the plans are to be approved by me, I would request that all the previous papers relating to the case, together with the plans, both approved and unapproved, now with the Surveyor-General be returned to me as soon as possible. Pending further communications, the plans specified in the margin have been returned.—J.B. (*per* District Surveyor), 2/7/89. The Surveyor-General.

Mr. Keating.—C.J.S., 5/7/89. See my memo. of this date and circular envelope.

The papers in this case, viz., C.S. 89-2,445, Correspondence, were forwarded to the Chairman of Land Board at Grafton on 25th June last, and I rather think the plans were forwarded to the District Surveyor for completion of action in connection therewith. No doubt the papers will reach him in due course.—J.T.K., 8/7/89. The Chief Draftsman.

---

No. 213.

Messrs. Brett and Coghlan to The Chairman, Land Board, Grafton.

Sir,

19, Macquarie-place, 12 July, 1889.

We learn that the papers connected with the case noted in the margin were sent to your Board on the 25th June last. May we therefore ask when it is proposed to deal with the matter.

Lismore,  
C.P. 78-180,  
A. Campbell,  
89-2,445 C.S.

We have, &c.,

BRETT AND COGHLAN.

Messrs. Brett and Coghlan informed that the papers, L.B.D. 89-4,058, were returned to the Head Office on 6th August, 1889.—B.S.L., 6/8/89.

---

No. 214.

Declaration by Mr. J. M'D. Sullivan.

(C.P. No. 84-127.)

D.

[Alienation Act.]

Final Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES M'DOWELL SULLIVAN, of Jiggi, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of houses, yards, fencing, clearing, grass, &c., and to the value of £450, have been made on such land; and I declare further that the said land has been the *bona-fide* residence continuously of myself from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in the various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

JAMES M'DOWELL SULLIVAN.

Taken and declared, at Lismore, this 15th day }  
of July, 1889, before me,—

CHAS. H. GALE, Commissioner for Affidavits.

Description.

County of Rous, parish of Tunstall, 80 acres, at Lismore, being conditional purchase No. 127 of 1884, in the district of Lismore, made on the 10th July, 1884.

Void, *vide* 87-11,182 Dep., 89-2,445 Cor. Noted 8/8/89. Final declaration.—C.H.C., 15/7/89. Received under protest, the conditional purchase standing void in Register.—C.H.C., 15/7/89.

---

No. 215.

Mr. J. Smith to The Chairman, Land Board, Grafton.

Dear Sir,

Jiggi Creek, 15 July, 1889.

I write you to know if the £10 lodged by myself and James Sullivan in the complaint against A. Campbell, and heard at Lismore in the month of October, 1888, by the Local Land Board, has been refunded, as ordered by the Board, and, if so, by whom has it been drawn, as no one was ever instructed by us to draw the same? You would oblige us by sending forms to apply for the same.

I have, &c.,

JAMES SMITH.

Send refund order to Smith and Sullivan, also notice to Treasury. Inform Mr. Simmons that we have a letter from one of the parties, Mr. Smith, objecting to payment to anybody else. Order has, therefore, been sent to Smith and Sullivan.—F.T., 2/8/89.

Order for refund of £10 issued to Smith and Sullivan, and Treasury informed.—W.S., 5/8/89. N. Simmons also informed refund order issued to Smith and Sullivan.—W.S., 5/8/89. Action as to refund of deposit lodged with complaint by Smith and Sullivan having now been completed in this office, the papers are returned to Head Office.—B.S.L. (*pro* Acting Chairman), Land Board Office, B.C., 6/8/89. The Under Secretary for Lands, Sydney.

[Enclosure.]

(Country lot, R. 4,327-1,759; A Campbell; 89-925.)

Description.

Deed prepared, 16/9/89. CONDITIONAL purchase 78-180, 150 acres, county of Rous, parish of Tunstall, portion 89. Commencing on the right bank of Jiggi Creek, at the south-eastern corner of portion 215 of 40 acres; and bounded thence on the north by part of the southern boundary of that portion bearing westerly 24 chains 42 links; on the west by a line bearing southerly 25 chains 85 links; on the south by a line bearing easterly 2 chains 60 links; thence by the northern boundary of portion 104 of 40 acres, bearing easterly 20 chains 51 links; and thence by the northern boundary of portion 87 of 237 acres, bearing easterly

easterly 40 chains 54 links to the aforesaid creek, and on all other sides by that creek upwards to the point of commencement.—Exclusively of the road 1 chain 50 links wide, from Jiggi to Lismore, passing through this land in south-easterly and easterly and thence again in a south-easterly direction, and of a road 1 chain wide from that road in a westerly direction, the areas of which have been deducted from the total area.

Archibald Campbell of Lismore, 13th, £150. Description prepared. Examined.—W.J.N., 16/9/89.

No. 220.

Mr. J. Smith to The Secretary for Lands.

Sir,

Jiggi Creek, near Lismore, 28 March, 1890.

I have the honor to communicate with you in reference to my conditional purchase of 20th March, 1884, which was selected by me at the Lands Office, Lismore, and approved by the Minister for Lands, whose approval I received in July, 1885, as there was not any improvements of any description on the land to bar selection at the time I selected the same, which was proved by the evidence of Mr. Trollope at the last inquiry by the Local Land Board, Mr. Trollope being Inspector of Conditional Purchases at that time. When I received the letter of approval from the Minister for Lands I put on improvements to over the value of £321, and resided on the land, and the improvements have been inspected by Mr. Inspector West, and now I have received a writ of ejectment from Mr. Archibald Campbell to give him possession of the land, and I do not recognise him as having any hold of the same, as the land was declared forfeited on Campbell by the Government in the *Gazette*, and I conditionally purchased the land from the Government.

I appeal to you for assistance, as I have a wife and four children residing on the land, which is my home, and I think it would be a great injustice to take the land away from me and give it to Mr. Campbell, unless I am fully compensated for my loss, and I beg of you to see that I have justice done me—either that I am allowed to retain possession of the land, or that I receive full compensation for the same.

I shall feel much obliged if you will kindly reply by return post,

I have, &c.,

JAMES SMITH.

Conditional purchase 84-47 was declared void, and writer informed on 15th April, 1887, as the land therein described, was, at date of selection, sufficiently improved to bar conditional purchase. Mr. Smith might be referred to that letter.—W.H.C., 26/4/90.

Yes.—F.H.W. (for Under Secretary), 28/4/90. J. Smith informed, 30/4/90.

No. 221.

The Under Secretary for Lands to Mr. J. Smith.

Sir,

Department of Lands, Sydney, 30th April, 1890.

In reply to your letter of the 28th ultimo, I have the honor to inform you that the conditional purchase noted in the margin was declared void, as the land applied for was, at the date of selection, sufficiently improved to bar conditional purchase, and that you were so advised on the 15th April, 1887.

Lismore,  
C.P. 84-47,  
20th March, 1884,  
70 acres,  
James Smith.

I have, &c.,

WM. HOUSTON,

Under Secretary,

(per W.H.C.)

No. 222.

Messrs. A. Lakeman and J. Perry, Ms.P., to The Secretary for Lands.

Sir,

Parliament House, 26 July, 1890.

Having gone through the papers in the case of James Smith and also Sullivan's papers, for which Mr. Nicoll has motion for production, we find that the original conditional purchase by A. Campbell was gazetted forfeited; that Smith and Sullivan selected portions of forfeited conditional purchase; that the portions applied for by them was ordered to be, and were surveyed for them by Department; that they were put in possession by the Crown.

That they have improved their selections, and were called upon by Department to make the usual declaration at the end of three years.

That the case for Campbell was re-opened, and that Smith and Sullivan, after three years' residence, were dispossessed on the ground that the land originally conditionally purchased by Campbell had improvements which would bar selection.

That Smith and Sullivan made all necessary inquiries, and were satisfied that they were in legal possession of land for over three years.

That these men have now lost all their improvements, besides time, &c., and are entitled to compensation from Crown.

We, therefore, trust that the Minister will see his way to compensate Smith and Sullivan for their loss.

These men have been ejected by Campbell, and, being married men with families, have suffered great hardship.

We have, &c.,

ALLEN LAKEMAN.  
JOHN PERRY.

**CALAGHAN'S CONDITIONAL PURCHASES, BRAIDWOOD AND QUEANBEYAN.**

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly appointed on the 9th September, 1890, “with power to send for persons and papers, to inquire into and report upon all the circumstances connected with Calaghan’s Conditional Purchase, 81–51, Braidwood, and 83–246 and 84–30, Queanbeyan, recommended for forfeiture,”—have agreed to the following Report:—

Your Committee having examined the witnesses named in the list\* \*See list, page 4. (whose evidence will be found appended hereto), find as follows:—

That it is satisfactorily proved that Calaghan was a *bona fide* resident upon his conditional purchase, and is entitled to get the land in question; and that he had justifiable reasons for leaving his wife and children to reside elsewhere.

Your Committee recommend Calaghan’s case to the favourable consideration of your Honorable House.

No. 3 Committee Room,

Sydney, 30th October, 1890.

E. J. BALL,

Chairman.

## PROCEEDINGS OF THE COMMITTEE.

---

THURSDAY, 18 SEPTEMBER, 1890.

MEMBERS PRESENT:—

Mr. Ball, | Mr. Joseph Abbott,  
Dr. Ross.

Mr. Ball called to the Chair.

Entry from Votes and Proceedings appointing the Committee *read* by the Clerk.  
Committee deliberated.*Ordered*,—That the Under Secretary for Lands be summoned to give evidence next meeting.[Adjourned to Thursday, 25 September, at *Ten* o'clock.]

---

THURSDAY, 25 SEPTEMBER, 1890.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

CALAGHAN'S CONDITIONAL PURCHASES,  
BRAIDWOOD AND QUEANBEYAN.

THURSDAY, 25 SEPTEMBER, 1890.

Present:—

MR. E. J. BALL, | MR. JOSEPH ABBOTT,  
MR. RYRIE.

E. J. BALL, ESQ., IN THE CHAIR.

Alfred Salwey called in, sworn, and examined:—

1. *Chairman.*] What are you? I am head of the Conditional Sales Branch of the Lands Department.
2. Do you produce papers in reference to Calaghan's conditional purchases—papers 81-51, Braidwood; 83-246, Queanbeyan; 84-30, Queanbeyan? Yes, I produce those papers. The case will rest entirely on the first conditional purchase.
3. Will you give us a history of the case? I have a short statement of the case here. The conditional purchase was selected on the 8th September, 1881. Mr. Licensed-Surveyor Nash, who measured it in September, 1883, reported the selector non-resident; but Mr. Inspector Harrison, in September, 1885, found the selector then resident. On the 13th May, 1887, the Local Land Board had, on inquiry, recommended the forfeiture of the selection, on the ground that the selector's family home, he being a married man, was at another place. This recommendation was approved by Mr. Secretary Garrett on the 6th August, 1887. On the representation of Messrs. Holmes, Brown, and Company, land agents, Sydney, Mr. Garrett referred the case back to the Board for rehearing. The Local Land Board, on the 27th May, 1888, again heard the case, and found no ground for altering their decision of the 13th May, 1887, at the same time observing that in two other similar cases—those of F. Mason and John Wallace—the forfeiture recommended by the Board had not been enforced. The recommendation of the Board as to the forfeiture was approved by Sir Henry Parkes as Acting Minister for Lands, who was of opinion that the case was not exactly similar to the cases of Mason and Wallace.
4. Are you in possession of the evidence taken by the Board? Yes.
5. *Mr. Abbott.*] The Board recommended this forfeiture? Yes.
6. The matter was then referred to the Minister? Of course, all decisions of Land Boards are sent to the Minister.
7. The Minister upheld the forfeiture? Yes.
8. I understand that the case was referred back to the Board at the request of Messrs. Holmes, Brown, and Company? Yes; for rehearing.
9. They reheard the case, then this evidence came out? Yes.
10. Are you aware that on that second hearing the Board recommended that, inasmuch as the forfeiture of two other conditional purchases, Wallace's and Mason's, recommended by the Board, had not been upheld by the Minister, who refused to act upon the Board's recommendation, the Board considered that Calaghan should be allowed his conditional purchase? No; it was just the contrary; they upheld the forfeiture.

Mr.  
A. Salwey.  
25 Sept., 1890.

Mr.  
A. Salwey.  
25 Sept., 1890.

11. Are you in possession of the evidence given by Calaghan before the Board, explaining the reason of his wife and children residing in a separate place? I can give you the evidence of Calaghan, from which you can draw your own inferences.

12. *Chairman.*] Will you read that evidence? Yes; it is as follows:—

THIS deponent, *James Calaghan*, of Tarago, in the Colony of New South Wales, selector, being duly sworn, saith:—I am the owner of portion 294, taken up in September, 1881; I went to live there before three months, and lived on it till the time was up on the 8th September last, and after that I had another place between 2 and 3 miles away; I used to go there sometimes; I lived on the selection; I am a married man; I have a family of four; they lived on the other place; I was living on the other place when I took up this land; when I left this place I went to the other place; I am living on another selection now; my family are living on the old place still; I have cleared about 26 acres since October, 1885, worth about £2 per acre; there was a school close to the old place, and the children used to go to it; I had a man working with me on the selection who used to live with me; there was no school near the selection.

That is the whole of Calaghan's evidence.

13. *Mr. Abbott.*] Do you know what witnesses were examined before the Board at the second hearing? Yes. The witnesses were John Brunton, R. Cowley Cooper, and Nathaniel Powell.

14. Will you produce their evidence? Yes, I hand in a copy of it. [*See Appendix A.*]

15. Can you give us the exact terms in which the Board declined to reverse their decision on the second appeal? Yes; the Board's decision was as follows:—"We, after full consideration, see no ground for altering the decision arrived at by us on a former occasion, as set forth in our minute bearing date 7th July, 1887. At the same time we have heard that in other cases which occurred at the same time, and the features of which were similar, the forfeiture of the land as recommended by us had not ultimately been enforced." The cases of F. Mason and John Wallace are those referred to.

16. In the case of Wallace's selection, does the information in the hands of the Department show that the circumstances were similar? I can only say that Sir Henry Parkes approved of the forfeiture in this case. They are somewhat similar.

17. Is there anything within your knowledge, the circumstances in both cases being similar, why the forfeiture was not insisted on in Wallace's case as well as in Calaghan's? All I can say is, that different Ministers dealt with the cases, and one Minister did not think the same as the other.

18. *Mr. Ryrie.*] Are you aware, in the district in which you were residing, of any similar case where a recommendation of the forfeiture of a selection has been made by the same Board on two occasions, and the Ministers granted the selection afterwards? I am not.

19. *Chairman.*] Do you know whether Calaghan's selection has actually been forfeited and gazetted as forfeited? It has not been gazetted as forfeited.

20. *Mr. Abbott.*] Was there any evidence produced before the Board rebutting Calaghan's, Powell's, Brunton's, and Cooper's evidence? There was not.

21. There was no rebutting evidence? No.

22. Are you aware if the Board gave any reasons for forfeiting the selection? I will read the decision of the Board:—"The selector's family home, he being a married man, during the period of his alleged residence on the land here in question, was at another place. We were of opinion that he was not a *bona fide* resident upon the conditionally purchased land, and we decided to recommend that it should be forfeited."

23. That is the first decision? Yes.

24. In the second decision they upheld that? Yes.

25. Did they make any reference in the second decision to the fact that the Minister had not treated similar cases in the same manner in which they treated Calaghan's case? Yes.

26. What is the nature of their reference? That is given in the decision that I have read.

27. Can you procure the evidence given by Thomas Evans in Calaghan's case? Yes; Thomas Evans' evidence is as follows:—

THIS deponent, *Thomas Evans*, of Tarago, in the Colony of New South Wales, boundary rider, being duly sworn, saith:—I have seen Calaghan on his selection often; I lived within a mile of him till September, 1885, and saw him often; I have stopped with him on the selection; I have never known him to live anywhere else, unless when he was away working; I do not know of any other land of his; I never saw his wife; I believe I have seen some of his children; I never saw his wife or children living on this selection; he was wire-fencing part of the time; he got his living by stacking timber and wire-fencing; I saw a few of the Cooper's sheep on it sometimes; he had his horses and working bullocks on it; he never cultivated it; he had his cattle on it sometimes and his working bullocks.

Sworn at Braidwood, this 13th May, 1887, before us,—

A. O. MORTARTY, Chairman.  
JAS. ALDCORN,  
J. W. BUNN.

THOMAS EVANS.

THURSDAY, 16 OCTOBER, 1890.

Present:

MR. BALL,  
MR. COLLS,

MR. JOSEPH ABBOTT,  
MR. RYRIE.

E. J. BALL, ESQ., IN THE CHAIR.

James Calaghan called in, sworn, and examined:—

Mr.  
J. Calaghan.  
16 Oct., 1890.

28. *Chairman.*] What are you? A contractor and farmer.

29. Do you know the selections No. 81-51, Braidwood, and 83-246 and 84-30 Queanbeyan? Yes.

30. At the time when you took up those selections had you any other land? Yes.

31. Upon which of the selections were you residing when you selected this land? I was living on 200 acres which I had selected some time before.

32. After selecting the land in question did you erect a house upon any of the allotments? Yes.

33. What kind of building did you put up? It was slabs and an iron roof.

34. Did you reside any considerable time on the selection where you erected the residence? Yes.

35. How long after that did you go to reside there? I went there shortly after I selected the land—within a month.

36. Did you reside there continuously? Yes.

37. Had you any other residence in any other place? No.

38. Did your wife and family reside with you at that particular place? No, not on the selection. They used to come there sometimes.
39. Why did your wife and family not reside with you on this selection? Because there was a public school near the old place and the children were going to school. The school was within half a mile of the old place, but was not within two miles of the selection on which I was residing. It would be only on very fine days that the children could go to school from where the selection was—it was simply bush country without any roads.
40. If your children had lived on the selection with you they would have had to pass through the thick scrub and to travel 4 or 5 miles a day? Yes; the distance to the school and back would be about 5 miles.
41. *Mr. Ryrie.*] What would be the age of your youngest child? The ages of the children were from about 7 to 11 years.
42. *Mr. Abbott.*] Were they boys or girls? There were two girls and one boy.
43. *Chairman.*] What was your intention as to making your residence stationary after your children were educated? I intended to build a bigger house on the selection but the railway cut off one of the best corners, and another man selected a large piece of it.
44. Did you get compensation? No, I did not get the land. I think that the railway was measured there before I selected the land.
45. About what time did you live on the land? I lived over five years on it.
46. *Mr. Joseph Abbott.*] You said that you intended to build a house there, but the railway coming through it made you less anxious to do that? Yes.
47. Were there any other reasons why you were unable to build a house? There were. I borrowed money on the improvements.
48. I suppose you would have required more money before you could have put up a building to live in? Yes.
49. In the meantime what was your position—were you in a position to pay off the money you had borrowed? Not at the time.
50. I understand from you then, that owing to the railway going through the land, and your not having enough money available, you determined to sell the property? Yes, I thought I had better do so as the best of the land was taken.
51. To whom did you sell? To Mr. Cooper.
52. *Mr. Ryrie.*] I suppose that as a contractor you would frequently be away from the selection on business? Yes.
53. You say that you resided five years—that was not continuously but off and on? Yes.
54. *Mr. Colls.*] Are you a road contractor? No, I contract for fencing.
55. *Mr. Abbott.*] That house on the selection was your home? Yes.
56. *Mr. Colls.*] Were you at your dwelling when the inspector called there? Yes.
57. What improvements did you make besides building the hut? I ringbarked and cleared the land.
58. What quantity did you clear? 26 acres.
59. And what area did you ringbark? The whole of it except a few hills that were not worth ringbarking.
60. Did you make any dams on the property? Yes, one—sufficient to hold water at any time. The inspector saw the dam.
61. *Mr. Ryrie.*] The inspector never gave evidence against you? No.
62. *Mr. Abbott.*] On what ground did you understand the Board to recommend the forfeiture of your selection? Because my wife and family did not reside on it.
63. Which they learnt from your evidence? Yes.
64. Not from the inspector? Not from the inspector.
65. Did the Board give you an opportunity of explaining, as you have explained the matter to us or did they recommend the forfeiture merely because you did not reside there? That is all they asked.
66. And you did not explain the matter? Not as fully as I have done now.
67. *Mr. Colls.*] Had you a lawyer at the hearing of the case? I had not the first time, but I had on the second occasion.

Mr.  
J. Calaghan.  
16 Oct., 1890.

Robert Cowley Cooper, called in, sworn, and examined:—

68. *Chairman.*] Where do you reside? At Willaroo, Tarrago.
69. Do you know the matter of this investigation in reference to certain selections, Calaghan's conditional purchases, 81-51, 83-246, 84-30, recommended for forfeiture? Yes.
70. Can you state to the Committee what you know of Calaghan's residence on his selection? Yes.
71. How long did he reside on it? I saw him on the selection very often—in fact I have had lunch with him there. My business took me across there at least once or twice a month, and I always found Calaghan there.
72. According to you it was his legitimate residence? Yes.
73. Do you know whether he had any other residence? Yes, he had.
74. About what distance away? Three or 4 miles from that selection, that was where his family resided.
75. From your own knowledge, can you state to the Committee the reason why he lived in one place and his wife in another? I know what he told me. He told me that he did not take his wife to the selection because the school was nearer to the place where his wife resided.
76. Can you state the condition of the roads between the two places and the school? Yes; there is a main road from the place where his wife resided, but between the selection on which Calaghan lived and the school, it was all wild bush.
77. *Mr. Abbott.*] Would it have been a very difficult matter for children to have travelled from the selection on which Calaghan resided to the school? Yes; a very difficult matter.
78. Almost impracticable? Yes.
79. Have you any interest in the selection? None, beyond having lent the selector some money upon them.
80. *Mr. Ryrie.*] Are they still in Calaghan's name? No; they have been transferred to me.
81. *Mr. Abbott.*] You bought them? Yes.

Mr.  
R. C. Cooper.  
16 Oct., 1890.

- Mr. R. C. Cooper. 16 Oct., 1890.
82. What was your object in buying them; did he offer them to you? Yes; he borrowed money from me for improvements, and found that he could not make it pay, then he sold them to me.
83. I suppose that in the district as a contractor, he was a very useful man? Yes.
84. *Mr. Colls.*] Of course he had completed his term of residence? Yes.
85. Have you any idea how long Calaghan resided on the selection? Yes; five years.
86. I suppose that no question was raised as to his *bona fide* until the decision of the Board was given? None whatever.
87. He has made a great deal of improvements, has he not? Yes. He has rung the trees and fenced the land.
88. Has he cultivated? No; there is no cultivable land on it—that is why he sold. It is perfect scrub. He did not get what he originally selected. The best part of the land was taken for a railway, and by another selector.
89. How many acres are there in the selection? Six hundred and forty acres altogether.
90. *Mr. Abbott.*] The land not being cultivable he could not get a living on it? No.
91. What was the general character of Calaghan in the district? That of a good hard-working, honest, sober man.
92. *Mr. Colls.*] How long have you known him? Over thirty years.
93. And he has borne a good character all the time? He has borne a splendid character all the time.
94. Are you aware that Calaghan's children are very young? Yes; I do not think that the eldest was more than twelve when he was living on the selection.
95. They would not be capable of travelling 4 miles to school? Not at all.
96. *Mr. Abbott.*] In his evidence before the Board, Thomas Evans says that Calaghan got his living by stacking timber and putting up wire fencing. He also says, "I saw a few of Cooper's sheep on Calaghan's selection." Can you explain how it was that your sheep were on the selection before Calaghan sold it to you? My sheep used to run on the land before it was fenced in. I had land adjoining the selection. When the land was fenced, my sheep did not run over it.
97. *Chairman.*] The sheep were trespassing? They were.
98. Before Calaghan offered to sell to you, did he not fence off your boundary to keep the sheep out? Yes.
99. Did you bear any of the expense? No, he did it all himself. My adjoining land was only leased from the Crown.
100. How long before you purchased the selection did he fence in the land? It must have been some months.

## APPENDIX.

## [To the Evidence of Alfred Salwey.]

THIS deponent, *John Brunton*, of the New Line, in the Colony of New South Wales, labourer, being duly sworn, saith as follows:—I have been living on the New Line for the last seven or eight years; I know and have worked on Calaghan's selection of 244 acres, and remember the time that he took it up; I worked for about three months on it this time two years; I used to sleep on the selection; Calaghan slept there while I was there; I have been backwards and forwards to this selection before and since that; I know where Calaghan's wife and family lived; there was a school about  $\frac{1}{2}$  of a mile from there; the school was about 3 miles from the selection now in question; some of Calaghan's family used to visit him; when I was at the selection Calaghan was always there.

*By Board*:—I have seen him where his wife lived; he never lived there, the other was his home; before he took up the selection he lived with his wife and children at the place where they lived; he has been living for the last three months on another selection; Calaghan takes contracts for ringing, wood-stacking, and fencing; I have not known him to be in anybody's hired service; I have seen stock on the land—sheep and cattle—the sheep were Graham's, the cattle Carney's; there were a team of bullocks of Calaghan's, and some cattle and horses besides; there were also some of Mr. Powell's cattle there; also horses of Butler's and some sheep of Mr. Cooper's.

Sworn before us, at Braidwood, this 27th March, 1888,—

JAS. ALDCORN,  
J. W. BUNN.

his  
JOHN × BRUNTON.  
mark.

THIS deponent, *Robert Cowley Cooper*, of Willeroo, in the Colony of New South Wales, grazier, being duly sworn, saith as follows:—I know the conditional purchase of Calaghan, now under inquiry, since September, 1881; I have been very often on the land; there was a slab hut, with zinc roof, containing two rooms; on the occasions of my being on the land I found Calaghan there, either at the hut or working about somewhere; I used always to have my dinner at the hut every time I went out, and that was very often; he had cooking utensils, and there was always bed and bedding; the place presented the appearance of a dwelling; I have not seen the selector's wife and family on the selection; they lived some distance away; Calaghan has been married about twenty years.

*By Board*:—He was employed by me as a contractor, but never as a hired servant; the land is now my property; I purchased it some time after completion of the conditions.

R. C. COOPER,

Sworn before us, at Braidwood, this 27th March, 1888,—

A. O. MORIARTY, Chairman.  
JAS. ALDCORN,  
J. W. BUNN.

THIS deponent, *Nathaniel Powell*, of Bungendore, in the Colony of New South Wales, grazier, being duly sworn, saith as follows:—I know the selection of Calaghan's of 244 acres on the New Line, I had some cattle running there, and was three or four times at the selection during the winter of 1883; I saw Calaghan there three times; there were, I think, two bunks in the place, with cooking utensils; I had some dinner there once; I have, on two or three other occasions, when passing by in the train, both before and since, seen Calaghan at the selection; you could see from the appearance of the place that it had been always inhabited.

N. POWELL.

Sworn before us, at Braidwood, this 27th March, 1888,—

A. O. MORIARTY, Chairman.  
JAS. ALDCORN,  
J. W. BUNN.

THIS

THIS deponent, *Thomas Evans*, of Tarago, in the Colony of New South Wales, boundary rider, being duly sworn, saith :— I have seen Calaghan on his selection often ; I lived within a mile of him till September, 1885, and saw him often ; I have stopped with him on the selection ; I have never known him to live anywhere else unless when he was away working ; I do not know of any other land of his ; I never saw his wife ; I believe I have seen some of his children ; I never saw his wife or children living on the selection ; he was wire fencing part of the time ; he got his living by stacking timber and wire fencing ; I saw a few of Mr. Cooper's sheep on it sometimes ; he had his horses and working bullocks on it ; he never cultivated it ; he had his cattle on it sometimes, and his working bullocks.

THOMAS EVANS.

Sworn before us, at Braidwood, this 13th May, 1887,—

A. O. MORIARTY, Chairman.  
JAS. ALDCORN,  
J. W. BUNN.

THIS deponent, *James Calaghan*, of Tarago, in the Colony of New South Wales, selector, being duly sworn, saith :— I am the holder of portion 294 taken up in September, 1881 ; I went to live there before three months, and lived on it till the time was up on the 8th September last, and after that ; I had another place between 2 and 3 miles away ; I used to go there sometimes ; I lived on the selection ; I am a married man ; I have a family of four, they lived on the other place ; I was living on the other place when I took up this land ; when I left this place I went to the other place ; I am living on another selection now my family are living on the old place still ; I have cleared about twenty-six acres since October, 1885, worth about £2 per acre ; there was a school close to the old place, and the children used to go to it ; I had a man working with me on the selection who used to live with me ; there was no school near the selection.

JAMES CALAGHAN.

Sworn before us, at Braidwood, this 13th May, 1887,—

A. O. MORIARTY, Chairman.  
JAS. ALDCORN,  
J. W. BUNN.

CONDITIONAL PURCHASES OF C. H. THATCHER, FORBES LAND DISTRICT.

---

## REPORT.

---

THE SELECT COMMITTEE of the Legislative Assembly, appointed on 30th April, 1890, “with power to send for persons and papers to inquire into and report upon the circumstances surrounding the forfeiture of the conditional purchases of C. H. Thatcher, in the Forbes Land District,” and to whom was referred “the Minutes of Proceedings of, and Evidence taken before, the Select Committee on this subject during the Second Session of 1889,” have agreed to the following Report:—

Your Committee having carefully considered the evidence referred, which is appended hereto, find as follows:—

- (1.) That Charles H. Thatcher applied for a conditional purchase of 100 acres, in the Forbes district, on 1st April, 1880, also  $147\frac{3}{4}$  acres on 12th August, and 40 acres on 14th April, 1881, and 40 acres on 21st April; making a total of  $327\frac{3}{4}$  acres.
- (2.) That these selections formed the subject of an inquiry by the Land Board, at Forbes, on 16th March, 1885, and were recommended for forfeiture, which forfeiture was subsequently gazetted.
- (3.) That the conditions of residence were carried out by the selector, when not employed elsewhere travelling stock or shearing, and that sufficient improvements were effected.
- (4.) That, on an investigation of the case, on the 24th March, 1886, Mr. Copeland, then Minister for Lands, made a minute on the papers to the effect that the land had been improperly forfeited, and that the forfeiture should be reversed, that in consequence of conflicting interests having arisen he cancelled that minute upon the same date.
- (5.) That, on the 4th March, 1886, in the meantime the land under consideration was selected by one Mary Zilka Walker.
- (6.) That subsequently Mary Zilka Walker’s claim lapsed through forfeiture of said land, and Charles Edward Thatcher, father of the claimant, became the lessee of the run.
- (7.) That the claimant has never abandoned possession, and that all instalments on the land have been regularly paid by him, such payments have, however, been received since notification of forfeiture under protest by being placed to Suspense Account.

Your Committee, taking all the circumstances into consideration, are of opinion that the case of Charles Henry Thatcher is entitled to the favourable consideration of the Government.

G. H. GREENE,  
Chairman.

(SECOND SESSION.)

## PROCEEDINGS OF THE COMMITTEE.

TUESDAY, 10 DECEMBER, 1889.

MEMBERS PRESENT:—

Mr. Greene,		Mr. Lyne,
Mr. Inglis,		Mr. Cooke,
	Mr. Stokes.	

Mr. Greene called to the Chair.

Entry from Votes and Proceedings appointing the Committee, *read* by the Clerk.

Committee deliberated.

*Ordered*,—That C. E. Thatcher and the Under Secretary for Lands be summoned to give evidence next Meeting.

[Adjourned to Thursday next, at *half-past Eleven* o'clock.]

THURSDAY, 12 DECEMBER, 1889.

MEMBERS PRESENT:—

Mr. Greene in the Chair.

Mr. Inglis,		Mr. Bowman,
Mr. Cooke,		Mr. Bruncker.

William Henry Capper (*Chief Clerk, Conditional Sales Branch, Lands Department*), called in, sworn, and examined.

Witness *produced* the papers in the case of the Conditional Purchases of C. H. Thatcher, and *handed in* a copy of the evidence taken before the Land Board Inquiry. (*See Appendix.*)

Witness withdrew.

Charles Edward Thatcher called in, sworn, and examined.

Witness withdrew.

*Ordered*,—That C. H. Thatcher be summoned to give evidence next meeting.

[Adjourned until Wednesday next, at *half-past Eleven* o'clock.]

WEDNESDAY, 18 DECEMBER, 1889.

MEMBERS PRESENT:—

Mr. Greene, | Mr. Stokes.

In the absence of a quorum the meeting called for this day lapsed.

THURSDAY, 19 DECEMBER, 1889.

MEMBERS PRESENT:—

Mr. Greene in the Chair.

Mr. Bowman, | Mr. Stokes.

Charles Henry Thatcher called in, sworn, and examined.

Witness withdrew.

Charles Edward Thatcher called in and further examined.

Witness withdrew.

Adjourned.

NOTE.—In consequence of the prerogation of Parliament no further meeting of the Committee was held.

1890.

## PROCEEDINGS OF THE COMMITTEE.

WEDNESDAY, 9 JULY, 1890.

MEMBERS PRESENT:—

Mr. Greene, | Mr. Gormly,  
Mr. J. P. Abbott.

Mr. Greene called to the Chair.

Entry from Votes and Proceedings, appointing the Committee and referring "Minutes of Proceedings of, and Evidence taken before, the Select Committee on this subject, during the Second Session of 1889, together with appendix," read by the clerk.

Papers *referred* before the Committee.

Committee deliberated.

[Adjourned till to-morrow, at *half-past Ten* o'clock.]

THURSDAY, 10 JULY, 1890.

MEMBERS PRESENT:—

Mr. Greene in the Chair.

Mr. Cooke, | Mr. J. P. Abbott.

Committee deliberated.

[Adjourned till Wednesday, 6 August, at *Ten* o'clock.]

WEDNESDAY, 6 AUGUST, 1890.

MEMBERS PRESENT:—

None.

In the absence of a quorum, the meeting called for this day lapsed.

THURSDAY, 14 AUGUST, 1890.

MEMBERS PRESENT:—

None.

In the absence of a quorum, the meeting called for this day lapsed.

WEDNESDAY, 27 AUGUST, 1890.

MEMBERS PRESENT:—

Mr. Greene, in the Chair.

Mr. Brunker, | Mr. Stokes,  
Mr. Inglis.

Draft Report submitted by Chairman, and certain amendments submitted by Mr. Brunker having been adopted,—

Same read and *agreed* to.

Chairman to report to the House.

1889.

(SECOND SESSION.)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

CONDITIONAL PURCHASES OF C. H. THATCHER,  
FORBES LAND DISTRICT.

WEDNESDAY, 12 DECEMBER, 1889.

Present:—

MR. BOWMAN,  
MR. COOKE,MR. INGLIS,  
MR. GREENE.

GEORGE HENRY GREENE, ESQ., IN THE CHAIR.

William Henry Capper called in, sworn, and examined:—

1. *Chairman.*] You are the clerk in charge of the Conditional Sales Branch of the Lands Department? Mr. W. H.  
Capper.

Yes.

2. Are you aware of the circumstances surrounding the forfeiture of the selection under consideration? 12 Dec., 1889.

Yes; I produce all the papers in connection with the case.

3. Will you inform the Committee of the salient features in the case? Charles H. Thatcher applied for a conditional purchase, under section 14 of the Act of 1861, on 1st April, 1880, and he applied for three additional in virtue thereof on subsequent dates. In due course the local inspector was instructed to report on the case, and he visited the land in question on 1st April, 1882, and reported the selector resident. He again visited the selection on 5th March, 1884, and reported the selector non-resident, with the following comments:—"From the appearance of the land and the circumstances stated in the following remarks:—"I am of opinion that the selector has not been continuously resident on the selection, as I have frequently passed this conditional purchase during the years wherein the conditions should have been fulfilled and never once saw the selector there. The hut being locked I was not able to see what was inside the place beyond looking through cracks. I therefore think this is a case for a court of inquiry where the selector may prove to the Commissioner that he has performed the conditions of residence." In view of this report the case was authorized for inquiry before the Commissioner on 22 September, 1884. The Act of 1884 coming into operation on 1 January, 1885, the case then was referred to the Board.

4. *Mr. Inglis.*] It had not been dealt with between September and January by the Commissioner? No. The case went before the Land Board under section 13 of the new Act. The case came before the Local Land Board at Forbes, on 16 March, 1885; the witnesses examined at that court were the Inspector of Conditional Leases, Charles Henry Thatcher, Charles Edward Thatcher, W. O'Connor, and Thomas Leslie, and on the evidence given the Board found as follows:—"That the selector has not satisfactorily carried out the residence conditions, that including the timber fallen and remaining on the ground, which we do not consider an improvement but rather the reverse, and the fence erected prior to the selection to which he can claim no right whatever, he has not the required amount of improvements on it, and we recommend it to be forfeited."

5.

- Mr. W. H. Capper.  
12 Dec., 1889
5. *Mr. Chairman.*] When was the award given—was it given in public by the Board? No, there was no necessity. It is not a decision. The matter was sent to the Board under section 13, not for decision, but for report to the Minister, and they so reported. Had it been a selection under the Act of 1884 it would have been different; the Board would have decided the conditional purchase to be forfeited. The matter was submitted by the Under Secretary to the Minister in these words:—"It appears to be a case for forfeiture, as recommended by the Board. The selector resided about half the time." It was approved by Mr. Secretary Farnell for forfeiture on 27 August, 1885. The conditional purchase was duly declared forfeited, and various protests against the forfeiture appeared, and exception was taken to the fact that the Chairman did not announce—I think they say "their decision," though it was not a decision—their recommendation in open Court. As a matter of fact it was not absolutely necessary that he should. When a case comes before a Board under the Act of 1884 for decision it naturally follows that the decision should be given in open court, so that the parties may know exactly what the decision is, and have an opportunity of appealing within a certain period; but that of course does not affect this case.
6. Under the section under which the case was treated there was no occasion to appeal within any specific time? No.
7. So that really the power of appeal was not lost to the applicant by reason of the Board not making their recommendation public? Certainly not. It was really an advantage to the party, because I think the papers will show that he has been appealing ever since. Had it been under section 20 of the Act of 1884 he could have appealed only within twenty-eight days after the decision was given.
8. Are you aware whether any new interests have been acquired in the land since the forfeiture took place? Yes; an application was made by Mary Zilka Walker, and it was duly confirmed; but the selection was ultimately forfeited for non-fulfilment of the fencing conditions.
9. Are there any hostile interests at present clashing in Mr. Thatcher's application—the land is not held by anyone? No; the land at present is reserved.
10. So that, practically, there is no departmental or other difficulty in dealing with the case on its merits? No; but the fact of the selection having been declared forfeited for non-fulfilment of conditions is the great obstacle to its being resuscitated.
11. *Mr. Inglis.*] Why is it being held in reserve—as what reserve? It was reserved because the land was within the leasehold area, and in view of the decision given in the case of *Edols v. Tearle*, that all forfeited selections within leasehold areas became Crown lands open to selection. It was anticipated directly after that decision was given, that, of course, the Land law would be amended so as to give the whole of the Crown lands within the leasehold area to the lessee of the run, and, of course, to prevent selectors coming in and taking up forfeited conditional purchases. There was no other means of treating this land until the new Act was passed but by reserving it, pending legislation.
12. *Chairman.*] This selection is practically in the same position as all forfeited selections within leasehold areas? Exactly; directly the reserve is revoked it will fall into the leasehold area and become part of it.
13. *Mr. Inglis.*] It will not become open to selection? No; of course in due course the lessee will be called upon to pay rent for it from the time it fell into the leasehold area.
14. Was it not the spirit of the Act that it should be open to selection? The Privy Council decided that these forfeited selections did not form part of the leasehold areas. I may say that ever since the forfeiture took place Mr. Thatcher has been in communication with the department endeavouring, of course, to bring about a reversal of the forfeiture.
15. On what grounds? He contends that the conditions were fulfilled. I will supply a copy of the evidence given before the Land Board. [*See Appendix.*]

Mr. Charles Edward Thatcher called in, sworn, and examined:—

- Mr. C. E. Thatcher.  
12 Dec., 1889.
16. *Chairman.*] You are the applicant's father in this case? Yes.
17. Will you be good enough to give a succinct statement of his case? I will commence with the reference of the case to the Land Board; my evidence on that occasion will be found on the papers that Mr. Capper is going to furnish. When the case was called on by the Board my son asked that I might be allowed to conduct it for him, but the Chairman objected saying that there was no occasion for me to conduct the case; that my son would have to do so himself. And as my son was a young man and had never had any thing to do with business of this kind before, it threw him back greatly in the inquiry. That is one of the points we are now working on, and I have in my hand a newspaper report of a parallel case where a man was allowed to be represented by an agent. Our next point is that the Board did not give their verdict in open court, and that my son was therefore unable to appeal. The matter passed over for some months when I met a Member of the Board, and he asked me how my son's case was getting on. I told him I thought it was perfectly safe, that I had heard that they had given no decision, and that I believed they were perfectly content with his residence and the improvements.
18. When did you first become aware that the selection was forfeited? This gentleman advised me to write to an agent in Sydney and find out what was being done. I wrote to Mr. Cummings, a son-in-law of Mr. Farnell, and he wrote back telling me that his fee was 5 guineas, and the very day he received my letter a paper came from the department to say that the selection was about to be forfeited for non-residence. I sent the fee and I took no further interest in it, until I heard nothing from the agent who it seemed to me did nothing. I saw it gazetted as forfeited. I came to Sydney to see the Minister; I saw Mr. Abbott as he was going into the Land Court, and he said he would see me at half past 2 o'clock that afternoon: but at that hour the Ministry resigned and nothing could be done then. I went home again and I stated the case then to the new Minister, Mr. Copeland. Business afterwards bringing me to Sydney, I was introduced to Mr. Copeland, and he handed me a minute he had written on the papers to the effect that he considered my son's residence was perfectly good, that on account of him being away droving sheep at times he could not always be there to meet the Inspector, and that the improvements which were disallowed by the Board should be allowed.
19. *Mr Cooke.*] Have you a copy of the minute? I think the papers are here.
20. *Mr. Inglis.*] It is to the effect that the improvements disallowed by the Board were sufficient and should have been allowed? Yes; it was for falling timber and partly burning it off, the weather set in bad and we could not burn it off, and for a fence erected on the land before my son selected. The land he selected was his prelease for which he was paying rent.

21. Have you seen the minute yourself? Yes. In the mean time it had been reselected by Miss Walker, a niece of the lessee of the run at the time. I explained this matter to Mr. Copeland, and he thereupon said "where there are conflicting claims I should have to reverse these minutes;" and I believe two days afterwards he did so.
22. On this ground? On the ground of a conflicting claim. However there is no conflicting claim now. Myson has kept possession of the land ever since; he has paid the rent and the instalments, and I have the receipts with me.
23. Have they been accepted? Yes, "awaiting reversal of forfeiture." They have led me to believe that they were still dealing with the case.
24. You do not know of any other Ministerial action that was taken in response to any direct appeal of yourself? No.
25. That is the last of it that you know as far as Ministerial action is concerned? Yes.
26. *Chairman.*] Have you had any notification from the present Minister that the forfeiture must stand good? I made a fresh claim; I called on Mr. Brunker just after he assumed office; The Under Secretary was present, but these papers could not be found anywhere. They asked me to see the Chairman of the Land Board at Forbes, and ask him to try and find the papers. The Board could not find the papers and told me that they must be in Sydney; I came to Sydney again and saw the Minister and the Under Secretary and they told me then to get a statutory declaration made by my son, one by Mr. Leslie, a witness in the case, and one by myself, and to hand them in with a letter from myself so that they might deal with the case. I got all these things done and went into the Under Secretary's office, and Mr. Freeman said, "It is strange, Mr. Thatcher; we found those papers, and I only dealt with your case yesterday."
27. *Mr. Inglis.*] What date was that? I think it must be about three months ago. I then waited on the Minister, Mr. Freeman being present, and they seemed to consider that my son was justly entitled to the land, that these conflicting claims might still arise, and that they would have to compensate Miss Walker if they gave the land to my son. That seemed to be the stumbling block.
28. Had Miss Walker's claim lapsed or had it been recognised in any way to your knowledge? It was at first, but when it came in for her declaration to be made the selection was forfeited for non-improvements. She was only a dummy for the lessee of the run.
29. *Chairman.*] As a matter of fact her selection has been forfeited? Yes; for not fencing. Mr. Freeman seemed to think that if he acknowledged my son's claim Miss Walker could then come in for compensation from the Government on the ground that they were not justified in selling her the land at the time. That seems to be the stumbling block as far as I can see through the matter.
30. *Mr. Cooke.*] Who is the lessee of the run? It still stands in my name. I was not the lessee at the time.
31. You are the lessee now? I may state that I have sold the run, but it still stands in my name. There will be no objections made as far as the ownership of the run is concerned.
32. What about Miss Walker? I do not know what became of Miss Walker. Her claim has lapsed, I consider, on account of the forfeiture of the selection. Mr. Capper did not state on what authority the Board was not justified in giving their decision in open court; this is the first I have heard of the matter, I do not know whether or not a case has cropped up in the Supreme Court, or any Court of law to justify him in what he said. In all the other cases the decision was given in open Court, and I believe there is a letter which Mr. Capper can produce from a member of the Board, which will prove that it was not done in this case through an oversight. I was dealing in sheep at the time, and my son was away a lot from home in buying sheep and taking delivery of them. The evidence did not come out properly at the inquiry before the Board through my not being able to conduct the case for him, though Miss Walker had the lessee and a lawyer to represent her interests.

Mr. C. E. Thatcher.  
12 Dec., 1889.

THURSDAY, 19 DECEMBER, 1889.

Present:—

MR. BOWMAN, | MR. GREENE,  
MR. STOKES.

GEORGE HENRY GREENE, Esq., IN THE CHAIR.

Charles Henry Thatcher, Esq., called in, sworn, and examined:—

33. *Chairman.*] Are you the person who took up the selection which is now under consideration? Yes.
34. Do you remember the occasion on which this case was brought before the Local Land Board? Yes.
35. When? I do not recollect the date; but I believe it was in 1885.
36. When was the selection taken up? On the 1st April, 1880.
37. Were you represented by an agent before the Local Land Board? No.
38. You made application to be represented by an agent? Yes.
39. Was it refused or granted? It was refused.
40. Who was the chairman? Mr. Cropper.
41. And who were the members of the Board? Mr. Sharp and Mr. Hutchinson.
42. Was any decision given in open Court? No.
43. I presume that you gave evidence with reference to your residence and improvements? Yes.
44. With regard to the improvements, can you make any statement? I can give you my idea of the value of the whole of the improvements.
45. First of all, when did you go to reside on the selection? Within three months from the date of taking up the selection.
46. Was your residence then a continuous residence, within the meaning of the Act, from that date until the expiration of the time? It was, though I had been away from it occasionally.
47. But it was distinctly your *bonâ fide* residence? It was.
48. And you were absent from the land simply when it was necessary for you to attend to special work? Yes.
49. You had no other permanent residence during the three years? None.
50. If I do not make a mistake, under that Act you had to reside for only three years? Yes.

C. H. Thatcher, Esq.  
19 Dec., 1889.

- C. H. Thatcher, Esq. 51. So that your residence proper would be terminated on the 1st April, 1883? Yes.
- 19 Dec., 1889. 52. During the period of your residence did you ever meet Mr. Page, the inspector of conditional purchases? On one occasion.
53. Now, will you give a detailed statement of the improvements and the value which you attach to each improvement? A house, valued at £15; it was constructed with weatherboards and roofed with iron.
54. How many rooms? Only one.
55. Were there any outbuildings? None.
56. What other improvements? Nineteen acres of clearing.
57. Was it cleared for the plough? No. All the standing timber was felled and burned off.
58. What value do you assign to that? £3 per acre, making a total of £57 for the clearing.
59. *Mr. Bowman.*] You did not stump it, though? No; the stumps were left standing, the trees were felled, and all the underwood burned off.
60. *Chairman.*] What other improvements? Twenty-one and a half acres of felled timber, which had not been burned off. I allowed 25s. per acre for falling, making a total of £26 7s. 6d. Then there were 203 acres of ringbarking, at 1s. 3d. per acre, £12 18s. 9d.; 35 acres of scrubbing, at 1s. 6d. per acre, £3 15s.
61. Did the scrubbing consist of grubbing up small saplings and bushes? Cutting all the fine scrub. Then there were 35 chains 54 links of five-wire fencing, at £40 per mile.
62. Was the fencing erected by yourself, or had it been erected on the ground previously? It was on the ground at the time I selected. Thirteen chains 75 links of five-wire fencing and cap—a fine cap, twitched on with wire—at £50 per mile.
63. Was the fence on the ground when you selected? That also was on the ground.
64. Who was the original owner of this fencing, which was on the ground when you selected? I was; it was my pre-lease, and I selected it.
65. So that the fencing, though on the ground when you selected, was in reality your own property? Yes.
66. What other improvements? Six and a half chains of four-wire fencing—they were very long panels, being 16-foot panels with two battens—at £2 8s. 9d. per mile. Then there was a 40-acre paddock.
67. Were all these improvements on one block? No, on two. The first one I selected was 100 acres, and shortly afterwards I took an “additional” of 127 acres.
68. And it is on these two blocks that the improvements are which you have just mentioned? Yes.
69. Now, with regard to the 40-acre “additional” which was taken up? Forty acres of ringbarking at 1s. 3d. per acre, £2 10s.; 40 acres of scrubbing and packing at 2s. 6d. per acre, £5; 9 chains 34 links of 5-wire fencing at £40 a mile, £4 12s. 6d.
70. Were these improvements all effected before the termination of the three years? Yes, I believe some of them were put on within the three months grace.
71. But all within the three years and three months? Yes.
72. *Mr. Stokes.*] Did you appeal against the decision of the Land Board? No.
73. Why not? I never had the right to appeal, the Board did not give their verdict in open court, therefore I did not know their decision.
74. What witnesses had you at Forbes to give evidence in support of these improvements? Mr. Thomas Leslie and a man named William O’Connell, whom I had working on the place with me.
75. They swore that the improvements which you have enumerated were on the ground? Leslie went into the improvements, I think O’Connell was only to prove residence.
76. *Mr. Bowman.*] Are you living on the selection now? No.
77. *Mr. Stokes.*] You continued to reside on the selection until the end of the term? Yes. I do not know whether I gave you the whole of these improvements, but my valuation of the improvements is £156 9s. 4d.
78. What was the total area of the selections? Two hundred and eighty-seven acres. There is another 40-acre block which has not been dealt with yet.
79. *Chairman.*] Does your evidence refer simply to the improvements on the 287 acres? Yes.
80. *Mr. Stokes.*] You say that the fencing which was on the ground at the time you selected formed part of the fence of the pre-lease? Yes.
81. Did you hold the whole of the land under pre-lease before you selected? Yes, through another block of land which I had.
82. *Chairman.*] To whom did the fencing on the pre-lease belong originally;—did you put it up yourself? The fencing was arranged between me and the adjoining parties; they put the fences up.
83. You acquired a right to the fencing by purchase? Yes.
84. Were these fences boundary fences between you and your neighbour? Well, they were not all standing on the boundaries. Some of them stand in on my land a good deal. I think they all stand in on my side, except as regards a short piece of the four-wire fence.
85. I presume you would have only a half interest in these fences? No, the owner of these fences stood them on my land.
86. *Mr. Bowman.*] You paid for only half the fencing? You see I did not take all the leased land which we had arranged. This fencing was erected on the land which I held as a pre-lease.
87. *Chairman.*] What we want to arrive at is this: What interest did you acquire in this fencing? I believe all this fencing was mine. My father used generally to do the fencing business, and arrange about it. I daresay he can explain it, if you wish, better than I can do.
88. *Mr. Bowman.*] Did your neighbour put this fencing up? Yes.
89. You paid half and he paid half? Yes.
90. *Mr. Stokes.*] You arranged for one half the fence before you selected the land? Yes, my father used always to arrange about the fencing at that time.
91. Who is the owner of the other portion of the fence? I think Mr. Pearson, the lessee of the run at that time, owns it.
92. At the time you selected that land it formed no part of Wongagong Run at all, because you held it under pre-lease? Yes.
93. You were really selecting your own land? Yes.
94. By the time the decision was given the Land Act of 1884 had come into operation, and then this selected piece of land formed part of the leasehold area—it is on the leasehold portion of the run, and therefore could not be selected? Yes.

95. It was reselected by Miss Walker? Yes.

96. Do you know, as a fact, that her selection has been cancelled? It has.

97. The selection now forms part of the leasehold area, and is held under the new conditions of the law? Yes; I fancy it is at present a timber reserve, but still in the leasehold area.

C. H.  
Thatcher, Esq.  
19 Dec., 1889.

Charles Edward Thatcher recalled and further examined:—

98. *Chairman.*] Can you give any information with regard to the fencing on the prelease? It was at first my prelease. The lessee of the run, Mr. Pearson, held a prelease adjoining it, and without any leave from me he went and erected this fence on my prelease, which I afterwards transferred to my son. He gave me to understand that I was quite welcome to the fence. We put it there simply to keep the sheep back, and the land on the opposite side all belongs to me and my son.

Mr. C. E.  
Thatcher.  
19 Dec., 1889.

99. So that the fence was between you and your son? Yes.

100. No one had any claim against it? No.

101. It has not been made use of as an improvement on any other land? No.

102. It is not being allowed for twice over? No; it stood some distance in. Here is an old rough tracing which shows how the fence went.

103. There was no dispute as to the ownership of the fence between you and Mr. Pearson? Never.

## CONDITIONAL PURCHASES OF C. H. THATCHER, FORBES LAND DISTRICT.

### APPENDIX.

[To Evidence of W. H. Capper.]

*Inspector Page*, on oath states:—On the 1st April, 1882, I first examined the selection of Charles Henry Thatcher, now under inquiry; selector was resident; as far as I could see the place was supplied with the necessary bedding and cooking utensils; on the 5th March, 1884, I again visited it; selector was not there at that time, and the hut was locked the same as before; I could not on this occasion see into the hut; there was an appearance of traffic about the place; I have seen selector at his father's place, about a mile away, on two or three occasions; in my report I have valued about 17½ acres clearing too much.

Sworn by this deponent, Joseph Cope Page, on this }  
16th day of March, 1885, at Forbes, before us.— }

JOSEPH C. PAGE.

CHARLES CROPPER, Chairman.  
ERNEST A. L. SHARP, Member.  
G. F. HUTCHINSON, Member.

*Charles Henry Thatcher*, on oath, states:—I am the selector of the portion of land now under inquiry; within three months of selecting I went to reside on the selection in a weatherboard house; I am a single man, and resided on the selection except when travelling with stock or at shearing time; when I was away the place was shut up; during the three years I have been to Sydney about four times with stock; I was away about a month on each of these occasions; at each shearing time I was away about three weeks; I have been absent on other occasions during the three years; I have lived about as much on the selection as away from it; when travelling stock it has been on my father's business; my father lived about 2 miles from my place; I made my own place my usual residence; at times I have stayed at my father's place two weeks at a time; there was no permanent water on the selection; I used to draw it from a place 2 miles away; I helped to put on some of the improvements; the improvements on the land are:—

	£	s.	d.
House .....	15	0	0
19 acres felled timber, and cleared, £3 an acre .....	57	0	0
50 acres scrub-cutting, 1s. 6d. an acre .....	3	15	0
207 acres ring-barking, 1s. 3d. an acre .....	12	18	9
11 chains 4-wire fencing, 12s. 6d. a chain .....	6	17	6
	£95	11	3

Two and a half acres timber fallen, 66 chains wire fencing (40 chains 5-wire, and 26 chains 5-wire and cap); this fencing was on the ground when I selected it; it was never claimed, and I have not paid for it; the land selected was a portion of my own pre-lease.

C. H. THATCHER.

Sworn by this deponent, Charles Henry Thatcher, on this }  
16th day of March, 1885, at Forbes, before us.— }

CHARLES CROPPER, Chairman.  
ERNEST A. L. SHARP, Member.  
G. F. HUTCHINSON, Member.

*Charles Edward Thatcher*, on oath, states:—I have heard the evidence given by my son, the claimant of the selection under inquiry; the land selected was portion of a pre-lease held by me and afterwards by my son; during the time I held the pre-lease I made an arrangement with the lessee of the run to run a fence near the west boundary of the selection in question; there was no agreement by which I was to become the owner of the fence; I paid no part of the cost; there was another piece of 13 chains on the northern boundary which I bought from Elliott, and I allowed to be considered as part of my son's improvements.

C. E. THATCHER.

Sworn by this deponent, Charles Edward Thatcher, on this }  
16th day of March, 1885, at Forbes, before us.— }

CHARLES CROPPER, Chairman.  
ERNEST A. L. SHARP, Member.  
G. F. HUTCHINSON, Member.

*William M'Connell*, on oath, states :—I know the selection of Charles Henry Thatcher, now under inquiry ; I first saw him resident in the year 1883 ; I think in the latter end of the year ; he was residing in a weatherboard house ; I was inside the hut ; I was working there about five or six weeks, and he was there every night ; I have not been there since.

Sworn by this deponent, William M'Connell, on this 16th day }  
of March, 1885, at Forbes, before us,—

CHARLES CROPPER, Chairman.  
ERNEST A. L. SHARP, Member.  
G. F. HUTCHINSON, Member.

WILLIAM McCONNELL.

*Thomas Leslie*, on oath, states :—I know the selection of Charles Henry Thatcher, now under inquiry ; I have seen selector resident on the selection about three years ago ; I have passed the place about ten or eleven times a year, and have seen him there on about half those occasions ; once during 1883 I called at his hut late at night and he was in bed as I knew by his answering voice ; I have seen him at his father's place about as often as I have at his own ; I was as likely to find him at one place as at the other.

*By Claimant* :—I know you are engaged looking after stock on your father's place.

THOS. LESLIE.

Sworn by this deponent, Thomas Leslie, on this 16th day }  
of March, 1885, at Forbes, before us,—

CHARLES CROPPER, Chairman.  
ERNEST A. L. SHARP, Member.  
G. F. HUTCHINSON, Member.

VOTES No. 58. TUESDAY, 9 SEPTEMBER, 1890.

5. ELIZABETH ANN CARTWRIGHT'S ADDITIONAL CONDITIONAL PURCHASES :—Mr. Ball moved, pursuant to Notice,—
- (1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon all the circumstances connected with Elizabeth Ann Cartwright's additional conditional purchases, 72-7,712 and 74-12,569, and 75-171, Windellama, near Goulburn.
- (2.) That such Committee consist of Mr. Brunker, Mr. Barbour, Mr. Cooke, Dr. Ross, Mr. Gormly, Mr. Lakeman, and the Mover.
- Debate ensued.
- Question put and passed.
- 

VOTES No. 72. THURSDAY, 9 OCTOBER, 1890.

5. ELIZABETH ANN CARTWRIGHT'S ADDITIONAL CONDITIONAL PURCHASES :—
- (1.) Mr. Ball presented a Petition from Edward Rolfe, residing at Nerriga, praying that he may be heard personally or by counsel or attorney before the Select Committee appointed to inquire into and report upon Elizabeth Ann Cartwright's Additional Conditional Purchases.
- Petition received.
- (2.) Mr. Ball (*by consent*) moved, without Notice, That the prayer of the Petitioner be granted.
- Question put and passed.
- 

VOTES No. 83. THURSDAY, 6 NOVEMBER, 1890.

9. ELIZABETH ANN CARTWRIGHT'S ADDITIONAL CONDITIONAL PURCHASES :—Mr. Ball, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee, for whose consideration and Report this subject was referred on 9th September, 1890.
- Ordered to be printed.

**ELIZABETH ANN CARTWRIGHT'S ADDITIONAL CONDITIONAL PURCHASES.**

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly appointed on the 9th September, 1890, “*with power to send for persons and papers, to inquire into and report upon all the circumstances connected with Elizabeth Ann Cartwright's Additional Conditional Purchases, 72-7,712 and 74-12,569 and 75-171, Windellama, near Goulburn,*” —have agreed to the following Report:—

Your Committee having examined the witnesses named in the list\* \*See list p 4 (whose evidence will be found appended hereto), find:—

That Elizabeth Ann Cartwright, widow, took up certain Additional Conditional Purchases, numbered 72-7,712, 74-12,569, and 75-171, by virtue of an Original Conditional Purchase, No. 68-926, taken up by Thomas Charles Cartwright, and transferred by him on the 17th July, 1871, to Elizabeth Ann Cartwright. The officers of the Lands Department are of opinion that the Elizabeth Ann Cartwright who took up the Additional Conditional Purchases is identical with the proprietor of the Original Conditional Purchase, No. 68-926.

That no evidence has been adduced which would warrant your Committee in believing that the contention of the Lands Department is erroneous.

E. J. BALL,  
Chairman.

No. 3 Committee Room,  
Sydney, 6 November, 1890.

## PROCEEDINGS OF THE COMMITTEE.

THURSDAY, 18 SEPTEMBER, 1890.

MEMBERS PRESENT:—

Mr. Ball, | Mr. Barbour,  
Dr. Ross.

Mr. Ball called to the Chair.

Entry from Votes and Proceedings appointing the Committee, *read* by the Clerk.  
Committee deliberated.

*Ordered*,—That the Under Secretary for Lands be summoned to give evidence next meeting.  
[Adjourned to Thursday next, at a *Quarter to Two* o'clock.]

THURSDAY, 25 SEPTEMBER, 1890.

MEMBERS PRESENT:—

Mr. Ball in the Chair.  
Mr. Lakeman, | Mr. Barbour,  
Mr. Gormly.

The Chairman read a letter from Augustine M. Betts, solicitor for Edward Rolfe, asking for leave to give evidence before the Committee.

Richard John Yorke (*Clerk, Lands Department*) called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

*Ordered*,—That the Under Secretary for Lands be summoned to produce “transfer to E. A. Cartwright,” and Elizabeth Ann Moore (late Cartwright) be summoned to give evidence next meeting.  
[Adjourned to Thursday, 9 October, at a *Quarter to Two* o'clock.]

THURSDAY, 9 OCTOBER, 1890.

MEMBER PRESENT:—

Mr. Ball.

In the absence of a quorum, the meeting called for this day lapsed.

TUESDAY, 14 OCTOBER, 1890.

MEMBERS PRESENT:—

Mr. Ball in the Chair.  
Mr. Lakeman, | Mr. Gormly.

Entry from Votes and Proceedings, granting leave to Mr. Edward Rolfe, of Nerriga, to be represented by Counsel or Attorney, *read* by the Clerk.

Present:—Mr. Augustine M. Betts (*Solicitor for Mr. Edward Rolfe*).

Elizabeth Ann Moore called in, sworn, and examined.

Cross-examined by Mr. Betts.

Witness withdrew.

John Richard Yorke called in, and further examined.

Cross-examined by Mr. Betts.

Witness withdrew.

Edward Rolfe called in, sworn, and examined.

Witness *produced* deed of grant of conditional purchase No. 72-7,712; also certificates of conformity of conditional purchases 74-12,569 and 75-171.

Mr. Betts addressed the Committee, and withdrew.

Committee deliberated.

Chairman to prepare Draft Report for next meeting.

[Adjourned to Tuesday, 4 November, at a *Quarter to Two* o'clock.]

TUESDAY, 4 NOVEMBER, 1890.

MEMBER PRESENT:—

Mr. Ball.

In the absence of a quorum, the meeting called for this day lapsed.

THURSDAY, 6 NOVEMBER, 1890.

MEMBERS PRESENT:—

Mr. Ball in the Chair.  
Mr. Lakeman, | Mr. Barbour  
Dr. Ross.

Chairman submitted Draft Report.

Same read and agreed to.

Chairman to report to the House.

LEGISLATIVE ASSEMBLY,  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

ELIZABETH ANN CARTWRIGHT'S ADDITIONAL  
CONDITIONAL PURCHASES.

THURSDAY, 25 SEPTEMBER, 1890.

Present:—

MR. BARBOUR,  
MR. GORMLY,

MR. BALL,  
MR. LAKEMAN.

E. J. BALL, Esq., IN THE CHAIR.

Mr. John Richard Yorke called in, sworn, and examined:—

1. *Chairman.*] You are in a position to produce documents from the Department of Lands with reference to the additional conditional purchases Nos. 72-7,712, 74-12,569, and 75-171 of Elizabeth Ann Cartwright? Yes. The first application by Elizabeth Ann Cartwright is made through an agent, George Martyr, on 5th December, 1872, and was for 40 acres. That is No. 72-7,712. Then the next is 74-12,569. The application is made through the same agent on the 29th October, 1874, and the area was 40 acres. Then as regards the third, 75-171, application was made through the same agent on the 10th June, 1875, for 50 acres.

2. Can you tell us anything about the original conditional purchase? The original conditional purchase was transferred and stood in the name of Elizabeth Ann Cartwright, that is, at the dates of the applications for the additional conditional purchases.

3. By whom was the original conditional purchase made, and what was the date of it? It is No. 68-926, and was taken up by Thomas Charles Cartwright, through his agent, George Martyr, on the 23rd April, 1868. The area was 40 acres. It was transferred by Thomas Charles Cartwright to Elizabeth Ann Cartwright, on the 17th July, 1871. The Committee will see that on the dates of the additional conditional purchase applications the original conditional purchase stood in the name of Elizabeth Ann Cartwright.

4. *Mr. Barbour.*] Is the Department aware of any discrepancy between the owner of the original conditional purchase and the owner of the additional conditional purchases? No. So far as the Department is concerned, we were under the impression that the Elizabeth Ann Cartwright who held the original conditional purchase was the same person who had made the additional conditional purchases. We received at a comparatively recent date a statement by a solicitor to the effect that the two persons were not identical.

5. *Mr. Gormly.*] Do the applications for the additional conditional purchases state whether the applicant is a spinster or a widow? The applicant is described as a widow. In the application for the first additional purchase the applicant uses these words, "which adjoins a conditional purchase of 40 acres made

on

Mr. J. R.  
Yorke.  
25 Sept., 1890.

Mr. J. R.  
Yorke.  
25 Sept., 1890.

on the 23rd April, 1868, by Thomas Charles Cartwright, and subsequently alienated to me." In the case of the second application the applicant says "which adjoins my conditional purchase of 40 acres." Of course at that date it stood in her name. In the third application the applicant says again "which adjoins my conditional purchase." The original conditional purchase and the additional conditional purchases were taken up by one and the same agent.

6. *Mr. Lakeman.*] Are the certificates issued for the additional conditional purchases? Deeds have issued for the original conditional purchase, and for the first additional conditional purchase, and certificates have issued for the second and third additional conditional purchase.

7. Then they are all complete? Yes.

8. *Chairman.*] When was the certificate issued in the case of the third additional conditional purchase? On the 3rd February, 1880.

9. *Mr. Lakeman.*] Has the Department taken any steps consequent upon the communication of the solicitor to whom you have referred with regard to the disputed ownership? I find that a letter was received from Mr. Harold O'Brien, on 2nd September, 1889, in which he asks that an inquiry might be made in order to expose a glaring fraud, and with a view to the additional conditional purchases being forfeited. Of course when the Department received that letter the certificates had issued in the case of the two last additional conditional purchases and the deeds in the case of the first additional conditional purchase and the original conditional purchase. The Department replied to Mr. O'Brien's letter in these terms:—

Sir,—Referring to your letter of 2nd September last, respecting the conditional purchases noted in the margin, I am directed by the Secretary for Lands to inform you that there is nothing in the papers to show that the Elizabeth Ann Cartwright, to whom conditional purchase 68-926 was transferred on 17th July, 1871, is not identical with the person who made the additional conditional purchases in virtue of the cof, and the case is not such an one that should at this stage be investigated by the Department.

Mr. O'Brien wrote another letter under date of 7th November, acknowledging the receipt of the letter I have just read, which was dated November 5th, and repeating his request for an inquiry. I cannot find that any reply to his second letter was sent to Mr. O'Brien, but in reply thereto the late Wm. Teece, M.P. (who appears to have acted on Mr. O'Brien's behalf), was informed by letter, dated 21 January last, that the Crown could not interfere in the matter, certificates of conformity having issued, and nothing appearing in the documents that would indicate that the selector of the additional conditional purchases is not identical with the E. A. Cartwright's who held the original purchase.

TUESDAY, 14 OCTOBER, 1890.

Present:—

MR. BALL, | MR. GORMLY,  
MR. LAKEMAN.

E. J. BALL, ESQ., IN THE CHAIR.

Mr. A. M. Betts, Solicitor, appeared on behalf of Edward Rolfe.

Elizabeth Ann Moore called in, sworn, and examined:—

Elizabeth Ann  
Moore.  
14 Oct., 1890.

10. *Chairman.*] Your maiden name was Cartwright? Yes.
11. Are you the owner of conditional purchase No. 68-926 in the parish of Yaralaw? Yes.
12. How long has it been in your possession? It was transferred to me in 1870, I think.
13. And you have held possession ever since? Yes.
14. By whom was it transferred to you? By my brother, Thomas Charles Cartwright.
15. *Mr. Lakeman.*] As a matter of fact, the date of the transfer was July, 1871? Somewhere about that.
16. *Chairman.*] Have you at any time since that date taken up any additional conditional purchases adjoining the land? No.
17. Did you authorise any other person to take any up? No.
18. Do you know of your own knowledge whether there are any improvements on the additional conditional purchases adjoining your land? Nothing to speak of.
19. Are there the improvements required by the law? No.
20. Do you know who took up the additional conditional purchases adjoining your land? Yes; my aunt—Elizabeth Ann Cartwright.
21. They were not taken up in your interest at all? No.
22. Do you know anything further of the matter? Well, I knew nothing about these additional conditional purchases until lately.
23. And you are sure at the present time that you have no interest in them? None whatever.
24. You have never had any? No.
25. You swear that you are the Elizabeth Ann Cartwright to whom Thomas Charles Cartwright transferred the original selection? Yes.
26. You are sure it was not transferred to your aunt? Yes.
27. *Mr. Betts.*] When did you first know of this transfer to you? At the time it was made.
28. Where were you living then? On the property.
29. With whom? With Mrs. E. A. Cartwright, senior.
30. What was your age then? I was between 16 and 17.
31. Were you present when T. C. Cartwright signed the transfer? Yes.
32. Where was it? At Goulburn.
33. Was your aunt present? Yes.
34. Your aunt was living on this particular property at the time? No.
35. Did you pay Thomas Charles Cartwright any money? No.
36. Did not your aunt find whatever money was found for Thomas Charles Cartwright to take up the land and for the improvements? She found my part in the first instance, but I know nothing about anything further.
37. She found the money for the improvements and for the taking up of the land? Yes.

38. As a matter of fact, did not Thomas Charles Cartwright take up the land for your aunt? No. My Elizabeth Ann aunt found money to select the land and to improve it, because I had not had it in my power to do so. I repaid her for everything years afterwards. She advanced me money to improve the land. Elizabeth Ann Moore.  
14 Oct., 1890.
39. How many years afterwards? About two years after the transfer I gave her a part payment.
40. When was the residue paid? Somewhere about two years after that.
41. Has not your aunt Elizabeth Ann Cartwright lived on the land from the time it was taken up until the present time? From the time it was transferred.
42. Did she not live on it before? No.
43. But from the time of the transfer to you she has lived on it? Yes.
44. Do we understand that she went to live on the land just after the transfer? Yes.
45. Were not the additional conditional purchases fenced in? They were fenced round. The boundaries of the purchases were never really fenced, but there was a fence enclosing them and other properties.
46. But was there not clearing and ringing, gathering up the timber, and things of that kind done on the land? No; nothing of the kind.
47. Not at any time? No.

Mr. John Richard Yorke recalled and further examined:—

48. *Mr. Lakeman.*] Can you produce the original transfer from Thomas John Cartwright to Elizabeth Ann Cartwright? Yes. Mr. J. R. Yorke.  
14 Oct., 1890.
49. There is nothing on the paper to show that the transferee was a spinster or widow? Nothing. There is nothing on the paper to show that, but as I have already pointed out the applications for the additional conditional purchases were made by Elizabeth Ann Cartwright, a widow. In one of her applications she described the original conditional purchase as belonging to her. The department assumed that Elizabeth Ann Cartwright, widow, was the alienee referred to in the transfer.
50. If a conditional purchase is transferred to a minor is it not necessary to specify the fact that the transferee is a minor? That was not the case at the time this transfer was made.
51. Who made the declaration with regard to the original conditional purchase? Thomas Charles Cartwright, at the end of 1871, three months over the three years.
52. Is there no declaration by any one afterwards? Not on that conditional purchase.
53. *Mr. Betts.*] Can you produce the first declaration on the first additional conditional purchase? Yes.
54. Does not that declaration show that improvements were said to have been made by Elizabeth Ann Cartwright on the additional conditional purchase to the amount of £40? The declaration was to that effect.

Mr. Edward Rolfe called in, sworn, and examined:—

55. *Mr. Betts.*] You reside at Nerriga? Yes. Mr. E. Rolfe.  
14 Oct., 1890.
56. You are a farmer and grazier? Yes.
57. And you are the owner of the three additional conditional purchases referred to in this matter as trustee under the will of your mother, the late Frances Rolfe? Yes.
58. That is to say, additional conditional purchases Nos. 72-7,712, 74-12,569, and 75-171? I am.
59. These selections were transferred by Mrs. Cartwright, senr., to your mother? Yes.
60. Taking the additional conditional purchases in their order—is the balance of the purchase money paid on the first? Yes.
61. Can you produce the receipt? No; but I can produce the deeds. [*Grant from the Crown to Frances Rolfe produced.*]
62. The purchase money was paid in full how many years ago? I could not say.
63. At all events the grant was issued on the 10th September, 1886? Yes.
64. Then as regards the next additional conditional purchase—is that paid for? Yes.
65. Have you the receipt? I produce the receipt for the balance of the purchase money; it is dated 8th July, 1889.
66. Do you produce the certificate of conformity in respect of all three additional selections? Yes.
67. They are all issued to Mrs. E. A. Cartwright? Yes.
68. When did your mother die? On the 11th April, 1888.
69. She and Mrs. E. A. Cartwright were sisters, were they not? Yes.
70. Since your mother's death upon what terms have you been with your aunt; have you had any disagreement? No.
71. Has there been no unpleasantness between you and your aunt? Well, nothing to speak of.
72. Until after your mother's death did you hear anything about a claim to this land by Mrs. Moore? No.
73. *Mr. Lakeman.*] Has Mrs. Moore made any claim on you? No.
74. Did you not know that this inquiry was going to take place? Only from the notice I received.
75. Did it not come to your ears that any persons were going to take steps to take the land away from you? Not until I received a notice of the appointment of this Select Committee.
76. Who sent you that? I cannot say—there is no name attached to the paper.
77. You never heard a word about any dispute before that? No.
78. *Mr. Gormly.*] Do you set up any claim to the original conditional purchase? No.
79. *Mr. Betts.*] It was your mother who paid the balance of the purchase moneys? On the first additional.
80. Who paid the balance on the second additional? I did, since her death.
81. Has the third been paid yet? No.
82. *Chairman.*] How do you know that your mother paid the first? Because I gave her a part of the money to pay it with, when she went into Goulburn.
83. But how do you know she actually paid it? I only know from the deeds—that is all.
84. You do not know of your own knowledge? No.

1890.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

ELIZABETH ANN CARTWRIGHT'S ADDITIONAL CON-  
DITIONAL PURCHASES.

(PETITION FROM EDWARD ROLFE, OF NERRIGA, PRAYING TO BE HEARD BY COUNSEL OR  
ATTORNEY BEFORE SELECT COMMITTEE.)

*Received by the Legislative Assembly, 9 October, 1890.*

To the Honorable the Speaker and the Members of the Legislative Assembly of the Colony of  
New South Wales.

The Petition of Edward Rolfe, residing at Nerriga, in the Colony of New South Wales,—

HUMBLY SHEWETH :—

1. That, on the ninth day of September last, your Honorable House appointed a Select Committee, with power to send for persons and papers, to inquire into and report upon all the circumstances connected with Elizabeth Ann Cartwright's Conditional Purchases, situate at Windellima, near Goulburn.

2. That your Petitioner, as the Trustee of Francis Rolfe deceased, is the present owner of the Conditional Purchases above referred to, and is directly interested in the result of the proposed inquiry.

Your Petitioner, therefore, humbly prayeth that your Petitioner may be heard personally or by Counsel or Attorney before the Select Committee of this Honorable House appointed to inquire into and report on the said matter.

And your Petitioner, as in duty bound, will ever pray.

EDWARD ROLFE.

FORFEITURE OF HENRY CROWE'S CONDITIONAL PURCHASE, COUNTY OF  
HARDEN.

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly appointed on the 4th November, 1890, "*with power to send for persons and papers, to inquire into and report upon all the circumstances connected with the forfeiture of Henry Crowe's Conditional Purchase No. 81-326, and Additional Conditional Purchases, county Harden, parish Gobarrolong, forfeited for non-residence, 31st October, 1888,*"—have agreed to the following Report:—

Your Committee having examined the witnesses named in the list\* \*See list page 4. (whose evidence will be found appended hereto), find as follows:—

That according to the evidence of such witnesses, it has been satisfactorily proved that Crowe was a *bona fide* resident upon his Conditional Purchase, and is entitled to be allowed the land in question.

Therefore your Committee recommend Crowe's case to the favourable consideration of your Honorable House.

JNO. F. BARNES,  
Chairman.

No. 3 Committee Room,  
Sydney, 12 December, 1890.

---

PROCEEDINGS OF THE COMMITTEE.

THURSDAY, 6 NOVEMBER, 1890.

MEMBERS PRESENT:—

Mr. Barnes, | Mr. Gormly,  
Mr. Colls.

Mr. Barnes called to the Chair.

Entry from Votes and Proceedings appointing the Committee, *read* by the Clerk.

Reassembling of the Committee to be arranged by the Chairman.

[Adjourned.]

TUESDAY, 2 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Barnes in the Chair.

Mr. Gormly, | Mr. Barbour,  
Mr. Jones.

Committee deliberated.

Alfred Salwey (*Head of the Conditional Sales Branch, Lands Department*) called in, sworn, and examined.

Witness handed in certain documents, which were ordered to be appended. [*See Appendix A.*]

Witness withdrew.

Henry Crowe called in, sworn, and examined.

John Waldrone Coggin called in, sworn, and examined.

William Hawkins called in, sworn, and examined.

Room cleared.

Committee deliberated.

Reassembling of the Committee to be arranged by the Chairman.

[Adjourned.]

TUESDAY, 9 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Barnes, | Mr. Gormly.

In the absence of a quorum, the meeting called for this day lapsed.

FRIDAY, 12 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Barnes in the Chair.

Mr. Colls, | Mr. Jones.

Chairman submitted Draft Report.

Same read, amended, and agreed to.

Chairman to report to the House.

LIST OF WITNESSES.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

FORFEITURE OF HENRY CROWE'S CONDITIONAL  
PURCHASE, COUNTY OF HARDEN.

TUESDAY, 2 DECEMBER, 1890.

Present:—

MR. BARNES,

MR. GORMLY.

MR. JONES,

J. F. BARNES, ESQ., IN THE CHAIR.

Mr. Alfred Salwey called in, sworn, and examined:—

1. *Chairman.*] What are you? I am head of the Conditional Sales Branch, Department of Lands.
2. You hand in the papers in the case of Henry Crowe's forfeited selection? Yes. [*See Appendix A.*]
3. Will you state to the Committee how this case at present stands? The selection is forfeited.
4. The whole of the conditional purchases? Yes.
5. *Mr. Gormly.*] Has it been declared forfeited by *Gazette* notice? Yes; it was gazetted on 31st October, 1888, the land being then in leasehold. The area was resumed pending legislation.
6. *Mr. Jones.*] Has the land been dealt with in any way since? No, it was merely reserved for sale.
7. Have you the decision of the Lands Board recommending the forfeiture? Yes; the Board say—

Mr.  
A. Salwey.  
2 Dec., 1890.

Having taken evidence and inquired into the matter we find that the condition of residence has not been fulfilled, and we therefore recommend that the conditional purchase be declared forfeited. 5th November, 1887.

Mr. Crowe appealed against that decision on the 30th November, 1887.

8. What was the decision of the Appeal Court? The question came before Mr. Garrett, the Minister, on the 5th March, 1888, and he dismissed the appeal, and ordered that the deposit lodged with the appeal be refunded.

9. *Chairman.*] Have you got Mr. Cumming's papers? Yes.

10. *Mr. Jones.*] Can you show from the papers at what date the residence condition was supposed to have been complied with? The original conditional purchase was taken up on the 7th July, 1881, therefore the term of residence expired on the 6th July, 1886.

11. That was forfeited first? Yes, but there was no inquiry into the others; they followed as a matter of course.

12. What time elapsed before Mr. Cumming reported after that date? He inspected the conditional purchase on the 9th January, 1885; that was his first report.

13. That was before the term of residence expired? Yes.

14. What did he report? He reported as follows:—

From the appearance of the land and what is stated in the following remarks I am of opinion that the selector has not been continuously resident upon the selection. The selector is the son of James Crowe, the lessee of the Gobarralong Run. I had several portions to inspect in the neighbourhood before arriving at this one, and I am of opinion that Crowe, hearing of my arrival in the neighbourhood, rode up to the selection and made preparations for my visit by clearing grass away from the door-way and watering the floor of the hut. The only provisions in the hut were a few slices of bread and butter, and a few ounces of tea and sugar, which he had brought for his lunch that day. I will visit the selection again later on, and report further as to the condition of residence.

15. When was his next visit after that? His next visit was on the 15th March, 1886, that also was before the expiration of the term of residence. He says then—

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. I found a labourer named William Hawkins living in the hut; he said that Crowe usually lived there with him, but was then away at his father's head station, Gobarralong, and had only been absent from the selection a few days. The hut contained two beds. Crowe is a young single man, and lives the greater part of his time at his father's homestead, about 4 miles from the selection.

16. When was the next inspection? The next inspection was on the 11th January, 1887. That was the third inspection. In his report on that occasion he says—

From the appearance of the land and circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon his selection. The selector is a young unmarried man, the son of James Crowe, lessee of Gobarralong Run. The hut which he used as a selector's residence is now abandoned.

That was in January, 1887, six months after the expiration of the term for residence.

17.

Mr.  
A. Salwey.  
2 Dec., 1890.

17. *Mr. Jones.*] Did Hawkins give any evidence before the Court? No, only the two Crowes and the inspector.
18. *Chairman.*] Do you hand in the evidence given by Cumming, the inspector, James Crowe, and Henry Crowe before the Land Board at Gundagai on the 5th November, 1887? I do. [*See Appendix A.*]
19. *Mr. Jones.*] Was any fresh evidence taken before the Minister on appeal? No.
20. *Chairman.*] Are there some affidavits from Coggin and Hawkins? Yes; the affidavits are here, but they do not appear to have been dealt with by the Minister in any way as far as the paper show.
21. *Mr. Gormly.*] Still, they are papers affecting the case? Yes, but a declaration has no weight before the Minister sitting in the Appeal Court. Fresh evidence could be adduced, but a declaration could not be accepted.
22. Is there any other matter in connection with the papers that you would think it necessary to put before the Committee? No, I think you have everything that is necessary, as far as the Department is concerned.
23. *Mr. Jones.*] Has the case ever been brought before the Minister since Mr. Garrett gave his decision? No further action was taken at all until the appointment of this Committee.
24. What was done with the land when it was forfeited? It was reserved.
25. Have you the notification? Yes; it was reserved on the 1st December, 1888, and gazetted on that date.
26. What are the numbers? Reserves 8,017 and 8,018.
27. As what? They were reserves from sale pending legislation.
28. That notification is good yet? Yes.

Mr. Henry Crowe called, sworn, and examined:—

Mr.  
H. Crowe.  
8 Dec., 1890.

29. *Chairman.*] You were an applicant for certain portions of land in the Gundagai district in 1881? Yes.
30. Since which those portions have been forfeited? Yes, in 1888, in October, I think.
31. Forfeited for supposed non-residence? Yes.
32. I suppose you have seen the evidence given before the Local Land Board by Mr. Cumming? I have seen a copy of it.
33. Do you consider that he stated anything like the facts of the case? I consider that it is a very unfair report. He credited me with saying things which I never did say. The day before the inquiry he told my father that he considered that I had done very fair residence, that in fact I was not supposed to be always on the selection. This led me to believe that the thing would not be pressed against me, that passing the matter through the Court was only a matter of form, therefore I did not engage a solicitor, nor call witnesses.
34. You went into Gundagai intending to call no witnesses? I did not intend to call any, but I called my father when I heard Mr. Cumming's evidence.
35. In one portion of his evidence he lays great stress on the fact that he found in a paddock adjacent to your house a horse sweating? Yes, I had been riding through the paddocks that morning. I cannot recollect whether the horse was sweating more than usual, but horses generally sweat when we ride after stock.
36. On the first occasion when Mr. Cumming visited your place were you at the house? I was on the selection but not at the house; I was cutting timber; the man who showed Mr. Cumming the way told me I was required at the house.
37. Was that on the occasion when the horse was sweating? Yes, the first occasion of his visit.
38. You were away some distance cutting timber? Yes, cutting scrub.
39. *Mr. Gormly.*] Did you reside on the selection within three months after the time when you made application for the land? Yes, less than three months.
40. Did you continuously reside on the land during the five years? Yes, up to the day previous to the inquiry I lived on it.
41. *Mr. Jones.*] You say that you did not bring witnesses to the inquiry? I did not.
42. Was that on account of Mr. Cumming leading you to believe that you had fulfilled the condition of residence? I naturally concluded that I had done all that was necessary. It was shearing time when the inquiry was held, and I thought it would be unnecessary trouble to call witnesses. One of my principal witnesses was a neighbour who is himself a sheep-owner.
43. Did he say anything to lead you to suppose that you had complied with the condition of residence? The words he used were, "I have reported on the selection; I think he has done as good residence as most bachelors; they are not supposed to be always on their selections."
44. He states that on his first visit to your selection he believes that you rode out there with the intention of making him believe that it was your residence, that you cleared the grass away from the door, and that the only rations he found in the hut were a couple of slices of bread and butter, and a couple of ounces of tea? I had not much food in the place at the time. It was Christmas and I used to be away a great deal at races and sports. At that time I had not the supply in which I usually kept. Mr. Cumming's evidence will show that on his second visit I had a regular supply.
45. He states that you being a single man you resided most of your time at your father's place? No, Mr. Cumming had been at my father's place several times, and I asked him if he had ever seen the ground and he said that he had not.
46. You say that you continually resided on the selection not at your father's place? Yes.
47. *Chairman.*] How was it when you appealed to the Minister that you did not send your witnesses to Sydney? I left it entirely to my solicitor.
48. And he said that an affidavit would do as well? Yes; my own idea was that further evidence was not admitted at those inquiries.
49. *Mr. Jones.*] Not having produced the evidence that you had intended to produce before the Land Board, was it your object in appealing to produce fresh evidence at the Appeal Court? I wished to have it reheard or the decision reversed.
50. You wish the Court to hear the evidence that you did not have taken at the Land Board? Yes.
51. Have you that evidence here to-day? I have two witnesses here; I failed to find a very material witness; he has left the district.
52. You have two out of the three that you intended to produce at the Land Court at Gundagai? Yes; I believe that the third one will be in the vicinity shortly; he is a shearer and away at present. With regard to my taking the grass away from the door I have not the least recollection of having done it; I don't think that I did it.

Mr.

## ON FORFEITURE OF HENRY CROWE'S CONDITIONAL PURCHASE.

Mr. John Walrone Coggin called in, sworn, and examined :—

53. *Chairman.*] You reside near Mr. Crowe's forfeited selection, I believe? Yes.  
 54. You were living there before Mr. Crowe took up the selection? Yes.  
 55. Do you reside there still? Yes.  
 56. You were there all the time Crowe was residing there? Yes; I have since shifted a mile further off.  
 57. As far as you know, Mr. Crowe resided on the selection during that five years? Yes; I reckon that he resided on it.  
 58. Have you seen him there very often? Yes, very often. He used to come over to my place after tea and stay until 8 or 9 o'clock at night, and then return.  
 59. I suppose you sometimes went to see him? Yes; I have been to his place several times.  
 60. I suppose that his place was a regular bachelor's dwelling? Yes.  
 61. And you believe conscientiously that he did reside on it? I am quite sure that he lived on it.  
 62. *Mr. Gormly.*] Are you of opinion that Mr. Crowe made it his home? I believe he did, because, when sheep-mustering, I used to go there and found him working on the selection.  
 63. *Chairman.*] Mr. Cumming said in one part of his evidence that he did not recollect if there was a chimney in the hut? There was. I have had tea there.  
 64. *Mr. Jones.*] When you say that it was his home do you mean that it was his continual residence? Yes, whilst he was working there. He used to come over pretty regularly.  
 65. I suppose you are aware that Mr. Cumming said that he considered he made his home at his father's? Yes.  
 66. *Chairman.*] You do not consider that to be a fact? No; I used to go and get my sheep from his yard, and he was generally there.  
 67. *Mr. Jones.*] Were you prepared to give this evidence before the Land Board if called upon? I was.  
 68. And before the Appeal Court, if called upon? Yes.  
 69. *Chairman.*] Of course you have no interest whatever in the selection? Not the slightest. It is rather doing me injury than good; it shuts me in.

Mr.  
J. W. Coggin.  
8 Dec., 1890.

Mr. William Hawkins called in, sworn, and examined :—

70. *Chairman.*] You know Mr. Crowe's selection that has been supposed to be forfeited? Yes.  
 71. You were living on the selection for some time were you not? I was working on it off and on.  
 72. At the time when you were living on it was Mr. Crowe continually residing there? Yes.  
 73. Always? Yes.  
 74. On one occasion you went with Mr. Cumming, the Inspector, did you not? Yes.  
 75. That was on the occasion Mr. Cumming referred to when the horse was in a sweaty state? Yes.  
 76. Do you know that at that time Mr. Henry Crowe was residing on the selection? I think he was on the selection that day.  
 77. Do you think he was residing there previous to that? I believe he was.  
 78. Were you ever at the selection without seeing him there? I have been there without seeing him there when he was away on business.  
 79. But still that was his residence? Yes.  
 80. And you believe Mr. Crowe resided on the selection and made it his home during the five years? Yes.  
 81. *Mr. Gormly.*] You said you resided on the selection? I was working on it with him.  
 82. Can you tell us the date on which you went to reside on the selection? I cannot.  
 83. What length of time were you residing there? Sometimes I would be there two or three months at a time.  
 84. Then how many times have you resided there? I think I resided about two years on the selection off and on.  
 85. You don't recollect the exact dates? No.  
 86. Nor the year? No.  
 87. During those two years was Mr. Crowe continuously residing on the selection? Yes.  
 88. *Chairman.*] Were you in the habit of being away a few days? I used to be away three or four months at a time.  
 89. *Mr. Gormly.*] Did Crowe reside in the same house that you resided in? Yes.  
 90. *Mr. Jones.*] Do you remember Mr. Cumming coming to the hut, finding you in it, and asking where Mr. Crowe was? He came to me when I was ringbarking on the selection about 200 yards away one day.  
 91. Do you remember when that was? I do not know the date.  
 92. Can you remember how long before that you went to work on the selection for the first time for Mr. Crowe? No.  
 93. How long before that was it that Mr. Cumming saw you 100 yards from the hut? I don't know; I had been working on it a good while before that. I did a lot of ringing and fencing on it.  
 94. I want to know how long before that you started working on the selection and resided on it? I could not say.  
 95. Was it a week before you started working? More than that, I believe.  
 96. Was it a month? Yes, or may be more.  
 97. Was it a year? I cannot say.  
 98. *Chairman.*] I suppose you used to work for Crowe, then go away and get another job, and when you were wanted come back again? Yes.  
 99. How long after that visit of Mr. Cumming did you remain working for Mr. Crowe? I think I worked on the selection about six months.  
 100. And during that six months was Mr. Crowe residing there? Yes, he was there a good part of the time.  
 101. Continually? Yes.  
 102. Unless he went away on other business? Yes.  
 103. *Chairman.*] You cannot read or write, can you? I cannot.  
 104. *Mr. Jones.*] Have you ever seen Edward Brotherton on the selection? Yes.  
 105. Was he working on the selection with you? Yes, he was working there about five months.  
 106. And Mr. Crowe was residing there whilst he was working with you? Yes.

Mr.  
W. Hawkins.  
8 Dec., 1890.

**FORFEITURE OF HENRY CROWE'S CONDITIONAL PURCHASE, COUNTY OF  
HARDEN.**

APPENDIX.

[To Evidence of A. Salwey.]

A.

*Victor Cumming*, of Gundagai, Inspector of Conditional Purchases, on oath, saith: On 9th January, 1885, I inspected Conditional Purchase 81-326, of 419½ acres, made by Henry Crowe, at Gundagai; the selector was present on the selection at the time; he is a son of Mr. Crowe, at Gobarrolong station, upon which the selection is situated; the homestead is distant about 5 miles from the selection: when I got to the selection I found selector at the hut, the grass was freshly cleared away from the doorway, and the floor of the hut had been freshly sprinkled with water; the selector's horse was in a small paddock near the hut, sweating very much as if he had just been ridden; the only provisions the selector had in the hut were two slices of bread and butter and a few ounces of tea and sugar, which he had brought with him that day; the place had not the appearance of being continuously occupied; I again visited the selection on 15th March, 1886; selector was not resident on that occasion; I found a labourer named William Hawkins living in the hut, which contained two beds; it bore the appearance of being occupied for some time; both beds appeared to be occupied; the selector was a young unmarried man at the time of my visit.

*By the Board*: At the time of my first visit the hut contained a safe, it being a bag stretched on a frame; there was also a bunk with bed; it appeared as if it had just been arranged; the hut appeared to me to have been got ready for my visit; I believe there was a heap of ashes thrown outside; I cannot say if there was a chimney to the hut; there was a paddock of about 5 or 6 acres enclosed with a brush fence; the horse was in this paddock; I only saw the applicant at the selection on the occasion of my first visit; I never saw him afterwards.

*By Mr. Crowe*: You were at the hut; you might have come from cutting scrub at the time; I was at Gobarrolong the date I visited your selection the first time; I have been there once since; I have been past Gobarrolong many times, but never saw you there; the grass appeared to have been very recently cut away from about the door.

*By the Board*: The horse was turned out at the time of my visit; it was sweating very much; before visiting the selection I had been to Gobarrolong and showed Mr. Crowe, senior, the tracings of the different selections of his family that I had to inspect; he accompanied me and showed me the different selections on the way; I inspected the different selections on my way from Gobarrolong to the selection under inquiry; from the appearance of the horse when I arrived at the selection I was under the impression that selector had ridden very hard to get there before me to get the place ready; in regard to the provisions selector told me he only brought sufficient to do him the day.

*Cross-examined by Mr. Crowe*: You told me you had only brought provisions sufficient for the time.

Sworn by this deponent, Victor Cumming, at Gundagai, }  
the 5th day of November, 1887, before us, —

VICTOR CUMMING.

F. W. WATT, J.P., Chairman.

L. A. FOSBERY, J.P., Member of the L. L. Board.

*James Crowe*, grazier, of Gobarrolong, on oath saith:—I know that my son, Henry Crowe, went to reside on his selection within three months of the date of taking it up; he spent the greater portion of his time on the selection; he spent more than half his time on the selection; he used to assist me at shearing time; the greater part of the improvements on the selection he did himself; it will give an idea that he was there a good deal, as it was fully improved.

*By Mr. Cumming*: The selection is about 5 miles from my head station; I remember the morning of your inspection; I remember you calling first at my house at Gobarrolong; I did not see the selector that morning at my place; selector used to come to my place occasionally, and work for me at shearing times; he often used to come there on Saturday night and stay all day on Sunday; he did not stay for any length of time at my house; he used to stay at the woolshed during shearing times; he only stayed at my place other than the times I have already mentioned; when he was working at an additional selection of a different series to the selection under inquiry he was working at that selection six or seven weeks, and during that time stayed at my place; he might be away from the selection three months in all during the year, not more.

*By the Board*: A man was working with him at different times for nearly two years; he used to cook for the selector; the man's name is William Hawkins; he is in the neighbourhood; he is close to Gundagai; at other times selector used to cook his meals; he had another man who is now dead working for him; he did not spend a large proportion of his time at my place; I should say he would be away from his selection about three months in all during the year; the longest time he would at any time be away from the selection was at shearing time; he would then be away six or seven weeks; the shearing would take place about October; during the whole time of residence selector was never away from the neighbourhood of the selection and the station; I do not remember the month that Mr. Cumming first visited the land; I was not shearing at that time.

Sworn by this deponent, James Crowe, at Gundagai, }  
the 5th day of November, 1887, before us, —

JAMES CROWE.

F. W. WATT, J.P., Chairman.

L. A. FOSBERY, Member of the L. L. Board.

*Henry Crowe*, of Gobarrolong, farmer, on oath, states:—I selected the land under inquiry on the 7th July, 1881, and went to reside on it within three months of the date of taking it up; I first built a temporary hut, and afterwards a slab hut with iron roof, which was there at the time of Mr. Cumming's first inspection; it had only been recently built at the date of Mr. Cumming's visit; it contained a fireplace and cooking utensils; I have no recollection of having chipped the grass from about the door on that day; I was absent sometimes from the selection at my brother's place, at the woolshed; I was away sometimes improving additional selections to a different series of the selection now under inquiry; I had also a temporary hut on the first additional of 174 acres to the selection under inquiry; I had occasion to be absent at the woolshed in consequence of my sheep being shorn there, and I having to be in attendance to look after them.

*By Mr. Cumming*: At the time of your inspection in March, when Hawkins was at the selection, I was working on another selection, and staying at Gobarrolong; I had been absent about three or four days at the date of your visit; I may have spent a couple of months during each year at Gobarrolong; I had stock running at the old selections, and I had to attend to them; I spent part of my time at my brother's place, adjoining the woolshed; I might have spent a month or more at different places besides Gobarrolong during the year; at the time of your first visit I was living in the hut; I cannot say how long I was living there; the hut had only just been finished; the day you were there I had been to Gobarrolong to see my brother, who had just come home from school; I came to the selection early that morning; I cannot say whether I saw my father that morning; my father did not send or convey any message to me to the effect that you were in the neighbourhood; I cannot say how long I had been at Gobarrolong on that occasion.

*By the Board*: I used to get my rations from my father twice a week; the provisions that I had there at the time of Mr. Cumming's visit was all that remained.

HENRY CROWE.

Sworn by the deponent, Henry Crowe, at Gundagai.

## M'ILVEEN AND CLIFT'S CONDITIONAL PURCHASES.

## REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on 1st July, 1890, "with power to send for persons and papers, to inquire into and report upon the conditional and additional purchases of William M'Ilveen and Messrs. Clift Brothers," situate in the Parishes of Howe's Hill and Brothers, County of Pottinger, and to whom was referred "the Progress Report and Minutes of Evidence on the same subject, brought up on the 29th October, 1884," have agreed to the following Report:—

Your Committee, having examined the witnesses named in the list,\* \* See list, page 5. and carefully considered the Progress Report and Minutes of Evidence referred to them, find as follows:—

1. On the 30th April, 1874, the two brothers M'Ilveen selected at Tamworth each 320 acres, situated in the County of Pottinger, Parishes of Howe's Hill and Brothers.

2. After twenty-eight months, on the 15th August, 1876, their positions were fixed by the Minister as per green edging on enclosure C, the descriptions being deemed indefinite. However, the location of Alexander M'Ilveen's land along the *whole* of the northern boundary of his brother's is scarcely in accord with the description, which states "adjoining *part* of William M'Ilveen's conditional purchase," or with the evidence expressed in William M'Ilveen's letter of 26th November, 1874 (enclosure No. 12, last line but one), and Mr. Surveyor Higgins' two reports (enclosure No. 17, first paragraph, and No. 33, last two lines of second paragraph), and the position of the improvements.

3. This Ministerial decision was made twelve months after the law of 1875, enabling a selector to take up 640 acres, came into force, and eleven months before William M'Ilveen took up his additional conditional purchase of 320 acres, the subject of the present difference between him and the Lands Department.

4. So recently as 17th June, 1881 (*see* top of page 60, 83/4—Return to Order), Mr. Fitzgerald, Deputy Surveyor-General, raises the question whether the additional conditional purchase be maintained or not, but Mr. Secretary Farnell did not decide.

5. The effect of this Ministerial decision left no connection between William M'Ilveen's conditional purchase and additional conditional purchase; the land has been alienated to the Messrs. Clift Bros. M'Ilveen seems to have had injustice done to him; and your Committee recommend the case for the favourable consideration of the Government.

E. W. TURNER,  
Chairman.

No. 3 Committee Room,  
Sydney, 10th September, 1890.

PROCEEDINGS OF THE COMMITTEE.

TUESDAY, 8 JULY, 1890.

MEMBERS PRESENT :—

None.

In the absence of a quorum the meeting called for this day lapsed.

WEDNESDAY, 9 JULY, 1890.

MEMBERS PRESENT :—

Mr. Turner,		Mr. Garrard,
Mr. Hawken,		Mr. Chanter.

Mr. Turner called to the Chair.

Entry from Votes and Proceedings appointing the Committee *read* by the Clerk.

Committee deliberated.

Ordered :—That the Under Secretary for Lands be summoned to give evidence next meeting.  
[Adjourned to Wednesday, 16th July, at *Two o'clock*.]

WEDNESDAY, 16 JULY, 1890.

MEMBERS PRESENT :—

Mr. Ewing.

In the absence of a quorum the meeting called for this day lapsed.

THURSDAY, 24 JULY, 1890.

MEMBERS PRESENT :—

Mr. Turner in the Chair.

Mr. Hawken,		Mr. Chanter.
-------------	--	--------------

Alfred Salwey, Esq. (*Head of Conditional Sales Branch, Lands Department*), called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

Ordered :—That the Under Secretary for Lands be summoned to give evidence next meeting.  
[Adjourned to Tuesday next, at *Two o'clock*.]

TUESDAY, 29 JULY, 1890.

MEMBERS PRESENT :—

Mr. Turner.

In the absence of a quorum the meeting called for this day lapsed.

THURSDAY, 31 JULY, 1890.

MEMBERS PRESENT :—

Mr. Turner in the Chair.

Mr. Ewing,		Mr. Barbour,
		Mr. Hawken.

Alfred Salwey, Esq. (*Head of Conditional Sales Branch, Lands Department*), called in and further examined.

Witness withdrew.

Charles James Saunders (*Chief Draftsman, Lands Department*), called in, sworn, and examined.

Witness withdrew.

Committee deliberated, and requested the Chairman to prepare a Draft Report for next meeting.  
[Adjourned to Wednesday, 20 August, 1890.]

WEDNESDAY, 20 AUGUST, 1890.

MEMBERS PRESENT :—

None.

In the absence of a quorum the meeting called for this day lapsed.

TUESDAY,

## 5

*TUESDAY, 26 AUGUST, 1890.*

MEMBERS PRESENT:—

Mr. Turner.

In the absence of a quorum the meeting called for this day lapsed.

*WEDNESDAY, 10 SEPTEMBER, 1890.*

MEMBERS PRESENT:—

Mr. Turner in the Chair.

Mr. Barbour,		Mr. Ewing,
Mr. Hawken,		Mr. Chanter.

Chairman submitted Draft Report.  
Same read, amended, and agreed to.  
Chairman to report to the House.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

M'ILVEEN AND CLIFT'S CONDITIONAL PURCHASES.

WEDNESDAY, 24 JULY, 1890.

Present:—

MR. CHANTER, | MR. HAWKEN,  
MR. TURNER.

E. W. TURNER, ESQ., IN THE CHAIR.

Alfred Salwey called in, sworn, and examined:—

1. *Chairman.*] What is your position in the Department? I am head of the Conditional Sales Branch of the Lands Department. A. Salwey.
2. Have you the papers in M'Ilveen's case? Yes, I have. 24 July, 1890.
3. Have you any *précis* in the papers 76-13,347 alienation? Yes, I have.
4. Is there any *précis* on that in which the Minister made his decision? Yes.
5. Have you Alexander M'Ilveen's original application? Yes.
6. Will you read the description? It is as follows:—"County of Pottinger, parish of Howe's Hill, 320 acres, on Trinkey Downs, north of and adjoining part of William M'Ilveen's conditional purchase of 320 acres made this day."
7. Can you account for the Minister locating one brother along the whole of the northern boundary of the other in this case? No, I cannot.
8. Can you produce Mr. Garrett's decision locating one brother along the whole of the boundary of the other? I produce a copy of it.\*
9. What has become of the original? I cannot say what has become of the original.
10. Kindly read the copy? It is as follows:—"In view of the further report of the surveyor, it appears that Alexander M'Ilveen's conditional purchase 74-4,927 is entitled to the land shown by red edging on the accompanying tracing, in which case the subsequent conditional purchases of Michael Macnamara, 74-5,129, and Charles Collins' conditional purchase 74-5,127 should be declared void.—(Signed) R. D. Fitzgerald." That is approved by the Minister.
11. What is the date? 15/8/76.
12. Can you produce the surveyor's report referred to in Mr. Garrett's minute? Yes, I produce it.
13. Is there anything in that letter bearing on the question of the two brothers adjoining along the whole boundary? As far as I can see, there is not.
14. Does the surveyor's report, as approved by Mr. Garrett in Mr. Garrett's minute, definitely fix the position of Alexander M'Ilveen? I cannot say.
15. By a Ministerial decision William M'Ilveen was put in possession of portion 48 by his first conditional purchase? Yes.
16. Will you read the description of the first additional? It is as follows:—"County of Pottinger, parish of Brothers; area; 162 acres 3 roods; being measured portions 129, 130, and 134, in the said parish, and advertised for sale on 1st August, 1877."

\* NOTE (on revision) :—At the second meeting of the Committee the original decision of the Minister was produced.

THURSDAY,

THURSDAY, 31 JULY, 1890.

Present:—

MR. BARBOUR,	MR. EWING,
MR. HAWKEN,	MR. TURNER.

E. W. TURNER, Esq., IN THE CHAIR.

Alfred Salwey recalled and further examined:—

- A. Salwey.  
31 July, 1890.
17. *Chairman.*] You have here all the papers in this case? Yes.
18. Did not the Minister accept the survey of both conditional purchases as per blue and brown colour on enclosure C? No.
19. Can you account for the Minister compelling these brothers to adjoin along the whole boundary, contrary to the description? All I can say is that there really was no description at all, and the Minister, under the 14th section of the Act of 1875, fixed the position as shown on the tracing.

Charles James Saunders called in, sworn, and examined:—

- J. Saunders.  
31 July, 1890.
20. *Chairman.*] What position do you occupy in the Lands Department? Chief Draftsman.
21. Did not the Minister accept the survey of both conditional purchases, as per blue and brown colour on enclosure C, Return to Order 82-4? The Minister approved of the blue form—that is, William M'Ilveen's; but he never actually approved of the brown form for Alexander M'Ilveen.
22. Did not the Minister approve of that report of the surveyor? He never went further than approving of the blue.
23. Did not the Minister approve generally of the suggestions of the surveyor? I do not think that he ever fell in with the surveyor's suggestions as far as the brown is concerned. Perhaps I might explain the circumstances of the case. You will understand that the applications as originally made were for ground in an indefinite position. Mr. Higgins reported first of all that there was no available land. On that the conditional purchases were declared void. Subsequently Mr. Higgins made a second report, and said the land was really available. The Minister thereupon reversed the first voidance, and located the conditional purchase as shown by the green lines. The Minister's location was of course on account of the very indefinite nature of the descriptions.
24. The voiding of the conditional purchase on account of Mr. Higgins' first report will not prejudice the application? Not at all. That voidance was reversed as soon as the Minister found that there was available land, but in the meantime these two portions Nos. 22 and 23 had gone otherwise, and that is the reason of the addition of this area to the north, above the area originally applied for. That brings him up to the green line, and that is the Minister's location. Instructions for survey went out, but the surveyor, instead of carrying out the Minister's directions, tried to convenience the selector by adding some improvements, so he cut an area off Alex. M'Ilveen's land (brown), and added a piece on to William M'Ilveen's, bringing William M'Ilveen's land into the shape now shown by the blue tint, which accounts for William M'Ilveen having that peculiarly-shaped block. The Minister had told the surveyor to measure according to the green. It should be noticed here that if the surveyor had strictly carried out the Minister's instructions William M'Ilveen would never have had a chance of adjoining his additional conditional purchase. In the meantime Alexander M'Ilveen's papers were lost, and so the Minister gave a decision only so far as the blue area is concerned.
25. Do the papers substantiate what you say in that respect? Yes; I have gone very carefully into the case, it being a very complicated matter.
26. You say the Minister's decision does not affect anything but the blue area? Not up to this stage.
27. Is there any other reason amongst the papers for the rejection of the brown-coloured survey except the decision that both conditional purchases must adjoin along the whole boundary? Simply the reason that the descriptions were indefinite, and had already been located by Mr. Garrett's decision, including the present portion No. 134, in Alexander M'Ilveen's.
28. Was the 80-chain limit usually enforced previously to July, 1881? Yes, it was usually enforced.
29. *Mr. Ewing.*] But in special cases you did not adhere to it? No, we did not, and the surveyors were allowed a good deal of latitude.
30. *Chairman.*] If the Minister had made no decision about this the additional conditional purchase would not have adjoined, but circumstances have arisen under which the additional conditional purchase could have adjoined the conditional purchase were it not for the Minister's decision? Yes; but seeing that the Minister had fixed Alexander M'Ilveen's holding, I do not see very well how he could go behind that. The Minister having located these indefinite conditional purchases, went on in good faith selling the adjoining land. If it had not been for Mr. Goodwin's action in giving William M'Ilveen that land to the north, he would never have had any chance of adjoining the additional conditional purchase.
31. The land sale was after the date of the additional conditional purchase? But the Minister had fixed William Ilveen down to the green line before he applied for the additional conditional purchase. At the time he applied for the additional conditional purchase it was void, because it did not adjoin his original. The surveyor altered the shape of the original, and that was what implicated the Department.
32. Everything would be regular, as far as William M'Ilveen goes, but for the Minister's decision? I should rather say that everything would have been regular but for the surveyor's intervention.
33. *Mr. Barbour.*] Was the surveyor's plan approved of by the Minister? Yes, of the blue. The matter having been represented, the Minister agreed to the modification by the surveyor as far as the blue was concerned.
34. *Mr. Hawken.*] Does not the claim of M'Ilveen, if he has any, accrue before any action of Goodwin? No; I think he had not any claim before Goodwin's action.
35. Could he possibly make his claim afterwards? No, I do not think so. I do not think he has any claim whatever. I think the Department has always been making concessions to him.
36. *Chairman.*] Could not the Minister have located the first conditional purchase from the north? He might have done so, but he has not done so. Even at the present time the Minister might step in and try to rectify the thing, but that would only be in the absence of conflicting interests.
37. *Mr. Ewing.*] And it is not possible now—the land is gone? Yes, it is gone.
38. *Chairman.*] When I reported on the question, I suggested that the man should join through a 1-chain road—why could that not be done? It is not considered as joining. You cannot join through a road alone. There must be some slight overlapping of the boundaries themselves.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE  
LEGISLATIVE ASSEMBLY.

VOTES NO. 16. TUESDAY, 3 JUNE, 1890.

13. RYANS' CONDITIONAL PURCHASES AT WAGGA WAGGA:—Mr. Gormly moved, pursuant to Notice,—
- (1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon the cases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan, selectors in Wagga Wagga Land District.
- (2.) That such Committee consist of Mr. Bruncker, Mr. John Wilkinson, Mr. Jones, Mr. Lakeman, Mr. Stevenson, Mr. Greene, Mr. Turner, Mr. Plumb, Mr. Hawthorne, and the Mover.
- (3.) That all papers in such cases, laid on the Table of this House, and ordered to be printed, on 16th January, 1884, together with the Report of Select Committee, appointed 28th November, 1883, and Minutes of Evidence, taken before such Committee, brought up 9th April, 1884, and adopted 21st May, same year, be referred to such Committee.

Question put.

The House divided.

Ayes, 23.

<p>Mr. Fletcher, Mr. Willis, Mr. Melville, Mr. Chanter, Mr. Stevenson, Mr. Levien, Mr. Gormly, Mr. Lakeman, Mr. Cruickshank, Mr. Turner, Mr. Nicoll, Mr. Dawson, Mr. Cass,</p>	<p>Mr. Holboroff, Mr. Dalton, Mr. Ball, Mr. Miller, Mr. Dickens, Mr. Jones, Dr. Ross, Mr. Frank Farnell.  <i>Tellers,</i> Mr. Crick, Mr. O'Sullivan.</p>
--	--

Noes, 18.

<p>Mr. O'Connor, Mr. Gould, Mr. Bruncker, Mr. Sydney Smith, Mr. McMillan, Mr. Hutchison (<i>Canterbury</i>), Mr. Wilshire, Mr. Burns, Mr. Waddell, Mr. Lee, Mr. Cooke, Mr. Teece,</p>	<p>Mr. Wheeler, Mr. King, Mr. Curley, Mr. Garrard, <i>Tellers,</i> Mr. Playfair, Mr. Vivian.</p>
---	--

And so it was resolved in the affirmative.

VOTES NO. 52. TUESDAY, 26 AUGUST, 1890.

5. RYAN'S CONDITIONAL PURCHASES AT WAGGA WAGGA:—Mr. Gormly, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee, for whose consideration and Report this subject was referred on 3rd June, 1890, together with Appendix.  
Ordered to be printed.

RYAN'S CONDITIONAL PURCHASES AT WAGGA WAGGA.

**REPORT.**

THE SELECT COMMITTEE of the Legislative Assembly, appointed on 3rd June, 1890, "with power to send for persons and papers to inquire into and report upon the cases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan, selectors in Wagga Wagga Land District," and to whom was referred "all papers in such cases, laid on the Table of the House and ordered to be printed on 16th January, 1884, together with the Report of Select Committee, appointed 28th November, 1883, and Minutes of Evidence taken before such Committee, brought up 9th April, 1884, and adopted 21st May, same year," have agreed to the following Report:—

Your Committee having considered the report of a former Committee on these cases, and the evidence, papers, and appendices referred to them, and having examined the witnesses named in the list\*, find as follows:—

\* See list, p. 5.

1. That a writ was issued by John Flavelle, the lessee of the run, on which Ryan's selections were situated, against Thomas Ryan, claiming £1,000 damages for trespass.
2. That an action was brought by Anastasia Ryan against John Flavelle, claiming £2,000 damages for trespass. Both cases were tried at Wagga Wagga on 1st April, 1886, and a verdict was given in favour of Flavelle in both cases.
3. That the cases were decided against the Ryans for the following reasons:—
  - (1.) That District-Surveyor Bolton, who was called to give evidence, was not prepared to fix the position of railway reserve No. 218A, although he had reported to the Surveyor-General, on 27th June, 1882, that he had fixed the position of the railway trial line from which reserve No. 218A is described.
  - (2.) That Mr. Licensed-Surveyor Lipscombe, who, on behalf of Flavelle, made a survey for the purpose of fixing the position of Ryans' selections in regard to the railway reserve, gave evidence at the trial between Flavelle and Ryan. This evidence fixed the selections about a quarter of a mile further on the reserve than they were supposed to be by the Survey Department.
  - (3.) That the Court accepted Mr. Lipscombe's evidence in regard to the situation of Ryan's selections and the Railway Reserve.
  - (4.) That Lipscombe's survey put Ryan's in a much worse position than the surveys made by the Survey Department.
  - (5.) That a letter, No. 46, 21st April, 1883, addressed to Miss Anastasia Ryan, and signed A. O. Moriarty, Chief Commissioner, was not accepted as evidence, the Judge ruling that the Minister's signature was necessary to such a letter.
  - (6.) That the want of the Minister's signature to this letter prevented Anastasia Ryan proving a title to the land she had selected.

4. Your Committee find that a new trial was applied for in Miss Ryan's case that reserved judgment was delivered. (*See Appendix A.*) The following words are reported as part of the judgment :—

We cannot close our judgment in this case without pointing out that all this annoyance to which the plaintiff had been subjected, as well as all this expensive litigation, has arisen from the grossest departmental blunders. That even now no two surveyors appear to be agreed—first, whether a reserve exists in the locality at all, or if it does, where its boundaries are. No doubt the reserve was intended to preserve the land contiguous to the railway, but we are unable to gather from the evidence whether such contiguous land ever has been reserved; if not, the matter should be at once attended to, otherwise fresh victims to the administration of the land law will undoubtedly arise.

5. That although only a part of the selections were supposed to be on the Railway Reserve, yet the Minister for Lands had the whole of the land embraced in the selection placed on the schedule of a Validation Bill which was passed into law on 23rd July, 1888, showing that the Lands Department were still uncertain as to what part of the selections were on the reserve.

6. That the verdict against Thomas Ryan was for £143 9s. 6d., and costs were allowed at £451 13s. 5d., and judgment finally signed for £601 8s., and besides this £400 was paid by Ryan to Messrs. Garland and Anderson, his solicitors.

7. That the cost of the two actions was about £1,000, and that the amount was paid by Thomas Ryan.

8. That Thomas Ryan, Ellen Ryan, and Anastasia Ryan, were unable to profitably and peaceably use the lands selected until the Validation Bill was passed on 23rd July, 1888.

9. That Thomas Ryan was put to considerable expense and trouble in going to and from Sydney and his selection, a distance of 334 miles, while endeavouring to get the Lands Department to give him a good title to the land selected by his daughters and himself. And there is no doubt that it was through the *lâches* of the Department they were put to all this inconvenience and expense.

10. And your Committee therefore recommend the cases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan, to the favourable consideration of the Government.

JAMES GORMLY,  
Chairman.

No. 2 Committee Room,  
Sydney, 26 August, 1890.

1890.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

RYAN'S CONDITIONAL PURCHASES AT WAGGA WAGGA.

WEDNESDAY, 2 JULY, 1890.

Present:—

MR. GORMLY, MR. PLUMB,  
MR. TURNER, MR. STEVENSON,  
MR. JOHN WILKINSON.

J. GORMLY, ESQ., IN THE CHAIR.

Mr. Thos. Ryan called in, sworn, and examined:—

1. *Chairman.*] Are you the father of Ellen and Anastasia Ryan? Yes.
2. Do you know these papers which I produce? Yes; they are the report of a Select Committee appointed to inquire into this case in the Session 1883-4.
3. Are you the person mentioned in these papers as Thomas Ryan? Yes.
4. Were you sued for trespass with reference to the land selected by you and your daughters, which is referred to in this report? Yes.
5. By whom were you sued? By John Flavelle, the owner of Berembed Station.
6. Were those selections situated on that run? Yes.
7. Did the owner of the run dispute your title to the land which you had applied for? Yes, through his manager.
8. Was a portion of those selections situated on a reserve? Yes.
9. Therefore you could not obtain all the land you applied for? Yes.
10. Was it then contended that because a portion of the land which you had applied for could not be obtained the whole application was bad? Yes, at one time.
11. Was that the cause of the lessee of the run bringing the action against you for trespass? Yes.
12. Had you an interview with the Minister for Lands with regard to your title being disputed? Yes, several interviews.
13. Did the Minister give you a letter, in accordance with the 14th section of the Land Act of 1861, allowing you to hold a lesser portion than you had applied for? My daughter Anastasia received such a letter.
14. Were you her guardian? Yes, and her agent.
15. Did you see the original of the letter I now produce, marked No. 46, on page 18 of the Return to Order? Yes.
16. Was that sent to you by the Minister? Yes, through the post.
17. Was that letter produced at the trial of the cases at Wagga Wagga, on 1st April, 1886, of *Flavelle v. Ryan*, and *Anastasia Ryan v. Flavelle*? The letter in writing was not produced, but the letter as printed was produced. The letter is signed by Mr. Moriarty, the Chief Commissioner of Crown Lands.
18. Did the Judge rule that that letter was of no value, because it was not signed by the Minister? Yes.
19. Did he state that the law provided that that letter should be signed by the Minister? He did not acknowledge the signature at all. He said the Minister had power to give that letter, but he should sign it. Through that letter and Mr. Bolton, the district surveyor, we lost the case altogether.

Mr. T. Ryan.  
2 July, 1890.

- Mr. T. Ryan. 20. Was the letter addressed to Miss Anastasia Ryan? Yes.
21. Was a verdict given against her in the case which she brought against Flavelle? Yes.
- 2 July, 1890. 22. Because Anastasia Ryan could not prove her claim to the land? Yes.
23. When you made application for this land, did Mr. Bolton, the district surveyor, draw a pencil-line across the parish map and inform you that all the land on one side of that pencil-mark was available for selection? Yes.
24. Did he give evidence in the case at Wagga Wagga? He was put in the box.
25. Was he then prepared to swear that the pencil-line which he drew across the map was correct? He would not swear that it was correct.
26. Was another surveyor, named Lipscombe, called to give evidence? Yes; he is a licensed surveyor.
27. Did he make a survey from the railway line for the purpose of defining the positions of those selections? Yes; he swore he made a survey.
28. Did this survey of Mr. Lipscombe's correspond with the survey made by Mr. Bolton, the district surveyor? No; they differed.
29. Did Mr. Lipscombe swear that Mr. Bolton's survey was incorrect? He swore that the district surveyor's line was not correct, and that his own survey was correct. Mr. Lipscombe proved that Anastasia Ryan had not 52 acres outside the reserve.
30. Mr. Bolton was not prepared to swear that the survey made by the Lands Department, by himself, and his officers, was correct? He would not swear that it was correct.
31. Was Mr. Lipscombe employed by the lessee of the run? Yes.
32. Which survey was accepted by the Court? Mr. Lipscombe's.
33. Was Mr. Lipscombe employed by the lessee to make a special survey for the purpose of defining the situation of those selections? Yes, to put before the Court.
34. And the Court would not recognize the survey made by the Survey Department? Yes. Mr. Bolton would not swear that his survey was correct, and the Judge stated he would give him no credit for the survey.
35. Were those the two reasons why the verdict was given in favour of Flavelle? Yes; in my own case as well as in the case of my daughter.
36. Have you a letter that was written to you by Mr. Copeland, the Minister for Lands? Yes.
37. When you found that the letter No. 46 was ruled by the Court to be of no value because it was not signed by the Minister, did you go to Sydney and get a letter from Mr. Copeland, the Minister for Lands? Yes, that letter is as follows:—

1886.

I HEREBY notify to Anastasia Ryan that the description endorsed hereon is that finally approved by me of the land as conditionally purchased by Anastasia Ryan at Wagga Wagga on 8th December, 1881, particulars whereof are herein set forth. This notification is issued to the said Anastasia Ryan in accordance with the provisions of the 14th clause of the Lands Acts Amendment Act, 1875, and subject to the fulfilment by her of the several conditions of her said purchase.

HENRY COPELAND,  
Minister for Lands.

38. Why did you get that letter? Because the other letter would not be recognized in law. Mr. Copeland gave us this letter to make the selection of 502 acres good from the date of the letter. He said that would prevent further actions for trespass.
39. Did the Minister issue this letter because the letter for the same purpose issued by a previous Minister was not signed by the Minister? Yes.
40. What is this which I hand to you? The Crown Lands Validating Act, 23rd July, 1888.
41. In Schedule A of that Bill are certain lands validated in the name of Thomas Ryan, Ellen Ryan, and Anastasia Ryan? Yes; 540 acres in the name of Thomas Ryan, 640 acres in the name of Ellen Ryan, and 502 acres 1 rood in the name of Anastasia Ryan.
42. Was the whole of the 540 acres in the name of Thomas Ryan on the reserve? No.
43. Still it was all validated under this Act? Yes.
44. What quantity of land was on the reserve? All of it except 73 acres.
45. What quantity of Ellen Ryan's land was on the reserve? About half.
46. Yet the whole of it was validated? Yes.
47. What quantity of Anastasia's land was on the reserve? According to the district surveyor none of it was on the reserve.
48. Still it was all validated? Yes.
49. Was this land which was not on the reserve validated because the Survey Department was unable to define the reserve? Yes; there was no certainty as to the boundary of the reserve.
50. Do you know if the Survey Department know the boundaries of the reserve at present? They are not yet able to prove them.
51. How long have they been trying to find this reserve? About nine years.
52. When you first applied for this land was it surveyed land? Yes.
53. Was it surveyed and marked in the usual way? Yes, on the ground, but not on the maps in Wagga Wagga.
54. If in the first instance when you applied for this land the district surveyor had been able to define the positions of the land, would you have been able to go into peaceful possession? Yes; it was not worth taking up, but seeing that it was surveyed I thought I could fence it and make it good land sooner than if I took up unsurveyed land.
55. When you first went on the land did any person in charge of the station see you? Yes.
56. What did he tell you with reference to your occupation? He said nothing about it.
57. Did he ever tell you that he did not recognize your claim to any of the land? After I was there a long time I received a letter from the Government telling us that we were on a reserve. That was six or eight months after we went there.
58. Did the lessee of the run ever tell you that he did not recognize your application for this land in any way? He did after I got this letter. He said I was a trespasser, and that he did not acknowledge me on this land. I served him with a notice to fence, and he said he did not acknowledge me at all.
59. How many years were you in possession of this land before you were allowed to occupy it without interference? I could not occupy it safely until we got the Validating Bill.
60. When did you first apply for the land? In 1881, and the Bill was passed in 1888.
61. Mr. Turner.] Did Mr. Bolton make a survey of the ground? He had it done by a surveyor under him, and he came personally and went over the ground with a chain. I was at one end of the chain, while he measured from the railway to the old survey, where I supposed my boundary was. He stated then

then that I was entitled to more land even than what we had, and he gave us more. In my selection there were only 55 acres outside the reserve; but Mr. Bolton, when he surveyed it the second time, gave me 73½ acres, or 73¼ acres. Mr. T. Ryan.  
2 July, 1890.

62. Was Mr. Bolton the district surveyor when he did this? Yes.
63. Is there a difference between Mr. Lipscombe's survey on the ground and Mr. Bolton's? Yes.
64. How far apart are the lines? There would be, I believe, a difference of about 14 chains.
65. *Chairman.*] Did another surveyor under the department survey the land? Yes, Mr. Bray.
66. Was he a staff surveyor? Yes.
67. Did Mr. Garland, a licensed surveyor, survey the land? Yes, he surveyed it first, and Mr. Bolton came and drew another plan for Mr. Bray to go by.
68. Did Mr. District-Surveyor Bolton take a great deal of trouble, at various times, to get an accurate starting-point? I believe he did his best.
69. Was he trying for years to do it? Yes, during the whole time, until the case came on.
70. Had you to pay the law costs of those two actions? Yes.
71. What was the amount of the damages which the Court awarded against you in the action John Flavelle v. Thomas Ryan? There was a verdict given for £143 damages, with costs. The cash I paid away, including the £143 damages, amounted to £800.
72. For how many years were you prevented from going into peaceable possession of the land? Seven years. When the land was surveyed a third time I put up a six-wire fence; but the manager of the run sent his men to cut down the fence.
73. Did his sheep eat your crop? Yes, everything we had, and our sheep and stock perished.
74. Did you endeavour to carry on agriculture after you took up the land? Yes; I entered into a contract, and intended to raise a crop. I had to pay the man for the contract, and I could only clear 40 acres.
75. Since you got possession of the land have you gone into agriculture? Yes, and I am still clearing some of the land.
76. Is your land well suited for growing wheat? Yes; I have got as much as 27 bushels to the acre. I brought machinery with me from the Albury district, but the machinery and horses were idle for years.
77. Were you prevented from making a comfortable dwelling for yourself and your family, besides the other losses which you sustained? Yes; we had to put up fair dwellings to comply with the improvement conditions. On the whole of the selections I had laid out about £900, and all those improvements were on the ground when Mr. Bolton came to value them; but he only valued them at £560.
78. Since the Validation Bill was passed have you occupied your land profitably? Yes.
79. Can you make a fair profit? I could make about £1,000 a year out of my own land and the girls' land. Anastasia was not able to pay the expenses of the actions, which amounted to £800, so I bought her land from her.

Mr. Charles Richard Walsh called in, sworn, and examined:—

80. *Chairman.*] What position do you hold? Chief Clerk in the Supreme Court.
81. Is this printed matter which I hand to you the decision of the Full Court in the matter of an application for a new trial in the case of Ryan v. Flavelle? Yes, I believe so. I did not see the written judgment of the Court; that belongs to the Judges themselves. This appears to be the judgment delivered by the Chief Justice, published in *Weekly Notes*. It is bound up in a volume in the Prothonotary's office, and would be taken to be a copy of the judgment of the Court for all purposes. [*See Appendix A.*]
82. *Mr. Wilkinson.*] Was a writ issued in the action John Flavelle v. Thomas Ryan, on 15th May, 1885? Yes.
83. In which the plaintiff claimed £1,000 damages for trespass? Yes; on lots 94 to 100, and 117 to 119.
84. Also on portions R. 963 and R. 1,755, notified 18th August, 1879? Yes.
85. Was this action tried at Wagga Wagga before Mr. Justice Faucett on 1st April, 1886? Yes.
86. Was a verdict returned for the plaintiff, Flavelle? Yes, for £143 9s. 6d.
87. Were the costs afterwards taxed, and allowed at the sum of £451 13s. 5d., and was judgment finally signed for a total of £601 8s.? Yes.
88. Was another action brought in which Anastasia Ryan was plaintiff and John Flavelle defendant, the writ being issued on 21st August, 1885, in which the plaintiff claimed £2,000 damages for trespass? Yes, for trespass on the following land:—Lots 147 and 148, conditionally purchased on 18th December, 1881; and lot 149, additionally conditionally purchased on the 21st August, 1884.
89. Was the case tried before Judge Faucett, at Wagga Wagga, on 1st April, 1886, and a verdict returned for the defendant? Yes. A memorandum for a new trial was filed on 16th April, 1886; a *rule nisi* was granted by the Court on 3rd May, 1886—one of the grounds being improper rejection of evidence. The *rule nisi* was made absolute on 27th February, 1888, setting aside the verdict and granting a new trial, making the costs of the application payable by the defendant; also directing that the costs of the first trial should abide the event. Then the costs of that application for a new trial were taxed, and allowed at £73 18s. 8d.
90. *Chairman.*] Did the new trial take place? No. I find amongst the papers a memorandum signed by the solicitors of both parties on 12th October, 1888, that the case had been settled. The judgment with regard to this case is reported in the *Weekly Notes*, vol. 4, page 181. [*See Appendix A.*]

Mr. John Francis Pike called in, sworn, and examined:—

91. *Chairman.*] Were you engaged in the Lands Department in May and April, 1886? Yes.
92. Did you attend the Court at Wagga Wagga when the case Flavelle v. Ryan was tried? Yes.
93. Did you produce documents in that case? Plans and papers and certain letters defining what land had been left to the Ryans. Mr.  
J. F. Pike.  
2 July, 1890.
94. Were you in Court when Mr. Bolton, the district surveyor, gave his evidence? Yes.
95. Was he prepared to give evidence defining the position of the lands selected by Thomas Ryan, Ellen Ryan, and Anastasia Ryan? No, he was not. He made a report to the department first stating where this reserve boundary was, but he could not substantiate it in Court.
96. Did you hear Mr. Lipscombe give evidence? Yes; he gave evidence with regard to the survey made by him just before the trial. 97.

Mr.  
J. F. Pike.  
2 July, 1890.

97. Was Mr. Lipscombe's evidence with regard to the position of this land different to the position given by the Survey Department? Yes.
98. What was the nature of the difference? About a quarter of a mile lower down, I think.
99. Did Mr. Lipscombe state in his evidence that he was prepared to show the position of this land with regard to the reserve? Yes, he had been over it, and had surveyed it.
100. Did the Court accept Mr. Lipscombe's evidence as defining the exact position of this land? Mr. Bolton could not swear to it. Mr. Lipscombe did, and they took his evidence. The same reserve ran through both cases which were tried, and the two cases were tried together.
101. By whom was Mr. Lipscombe employed to make the survey? By the lessee of the run.
102. And was Mr. Bolton the district surveyor who made the survey on behalf of the Survey Department? Yes.
103. And the district surveyor was not prepared to swear that the survey made by an officer of his department was the correct one? He was not prepared to swear it as regards the reserve.
104. *Mr. Wilkinson.*] He could not define the proper boundary of the reserve? Yes.
105. *Chairman.*] Mr. Lipscombe, who was employed by the lessee of the run, said he was prepared to define the boundary of the reserve, and gave evidence to that effect? Yes; he defined it in a different way to Mr. Bolton. He used a different basis. His evidence was against Ryan. It put more of the reserve on to the selection.
106. Do you remember the letter No. 46, 1883-4, being produced at the trial? Yes.
107. Was it put in evidence? The Judge would not allow it to be put in evidence because it was not signed by the Minister. He said that a clause in the Land Act gave the Minister power to do certain things, and the Minister must do them. Because the letter did not appear to be signed by the Minister he would not allow it to be used as evidence.
108. Was that letter which would not be allowed in evidence sent to Anastasia Ryan for the purpose of complying with the conditions of the 14th section of the Land Act? No; it was sent to comply with a usage of the department.
109. But it was not signed by the Minister? No; it was signed by Mr. Moriarty, the Chief Commissioner.
110. What did the Judge say? He said that if the Ryans could produce a letter signed by the Minister, with an acceptance, he would accept that as evidence of boundary.
111. That is, that it had the sanction of the Minister? Yes; if we could prove how it was cut down to 502 acres it would be all right; but I could not prove it. Mr. Bolton would not say that it was not a reserve.
112. *Mr. Turner.*] Can you tell me why it is that such a long delay took place in fixing the boundaries of the reserve—a delay of seven years? We had not to fix the boundary of the reserve at first until those selections came in in 1881. The description was very indefinite.
113. Does it start from the centre of the railway line, or from where? It is a very indefinite description, and that is what has caused all the trouble. I do not think we could ever fix it exactly from the description. Mr. Bolton went on the ground, and found a line marked through the bush, but when asked in Court to connect it with this plan he could not.
114. Were there not several plans in Court? Yes. The reserve plan was only an old plan, on the scale of 2 miles to the inch, with no connections to any portion.
115. Was there not a survey made by the Railway Department? It was only the trial survey that Mr. Bolton made the survey from.
116. Do not the railway surveyors supply a plan of the trial survey? Yes; but that was burnt in the Garden Palace. That trial survey, as shown in the reserves plan, was never connected to anything.
117. Still, any surveyor could trace it on the ground from the plan? Mr. Bolton traced the line, but he would not say it was the line mentioned in the reserve description, which is the basis of the reserve.
118. How many lines were surveyed for this railway? Mr. Bolton said there were two or three, but only one had been found on the ground.
119. *Chairman.*] Did Mr. Bray make a survey? Yes; he measured it. Everyone can find a line in the bush right through which they said was the trial survey; but they would not swear to it as identifying the reserve. It was simply mentioned in the reserve description.
120. *Mr. Wilkinson.*] How did Mr. Lipscombe fix it? He got the rough plan and made a plot, and scaled from it. He went on the ground just to identify it, and then he came and swore to the reserve.
121. *Mr. Turner.*] Did Mr. Lipscombe ever find a trial survey on the ground? He did not want that. He only went by the plan, and the Judge seemed to think that the plan was the thing. That was what he held, and that upset it all. We did find the line on the ground, but when they wanted to make Mr. Bolton swear to it he could not do so. The description contained in the papers before the Committee is the only one. It was proclaimed on 26th November, 1878. Mr. Bolton made a report to the department, which is given on page 11 of the papers.
122. Why did not the Lands Department try to get hold of the railway surveyor who made the trial surveys? We had Mr. District-Surveyor Bolton's report, and we thought that was quite sufficient.
123. The department went on Mr. Bolton's report, which he could not substantiate on oath? Yes.
124. *Mr. Stevenson.*] Do you wish the Committee to understand that Mr. Bolton could not make this accurate survey simply because the plan was burnt in the Garden Palace fire? No.
125. Can you give us any reason why he was not able to swear to his survey? He swore that he found the line through the bush, but he would not swear that it was the same line as was referred to in the description. I do not think he had any means of connecting it.
126. *Chairman.*] Did Mr. Bolton ever give it as a reason why he could not swear to the survey that the plans of the railway survey were burnt? No.
127. You being the officer who was sent to Wagga Wagga in charge of these papers, are you in a position to say whether or not the Surveyor-General was satisfied that Mr. Bolton, as district surveyor, knew the position of those selections before you went to Wagga Wagga? We were satisfied that he did know it.
128. You had no reason to doubt it until the verdict was given against Ryan? Yes. When I came back to Sydney I suggested that the selection ought to be validated, so as to stop further actions, and the higher authorities thought that would be the best course to pursue.
129. Are you still in the department? Yes.

130. Do you know of any officer in the Survey Department who is now able to define the position of this reserve? We could define it according to our own ideas, but not to please the Court. It could never be defined properly to please the Court.

Mr.  
J. F. Pike.  
2 July, 1890.

131. *Mr. Wilkinson.*] Was Mr. Lipscombe's location of the reserve accepted by the Court as correct? Yes.

132. And in consequence of that did Ryan lose the case? Only Anastasia Ryan did. The Judge probably took Lipscombe's way of reckoning it up as correct. The department always had defined the reserve. It was owing to the faulty description in the first instance that we could not define it to the satisfaction of the Court. If the plan had been left out it would have been all right.

THURSDAY, 3 JULY, 1890.

Present:—

MR. GREENE,  
MR. JONES,  
MR. LAKEMAN,

MR. PLUMB,  
MR. TURNER,  
MR. J. WILKINSON.

J. GORMLY, ESQ., IN THE CHAIR.

Mr. Thomas Ryan recalled and further examined:—

133. *Chairman.*] You were asked yesterday to give evidence with regard to what you considered to be your losses in connection with the case in which you were sued for trespass by John Flavelle, and in the case in which your daughter Anastasia brought a cross-action against the same person. Did you say that your law expenses and the verdict which was entered against you amounted to about £1,000? Yes.

Mr. T. Ryan.  
3 July, 1890.

134. Do you want to amend that statement? No; it is correct.

135. Have you got any bill of costs to put before the Committee? I had one which I made out according to what I said yesterday.

136. Have you got the bill of costs? No.

137. Have you got a copy of it? No.

138. Who was the solicitor for the plaintiff in the case of John Flavelle against Thomas Ryan? Mr. Fitzhardinge.

139. Did you receive a bill of costs from him? Yes.

140. Is that in evidence? Yes.

141. Who were your solicitors? Garland and Anderson.

142. What was the bill of costs from that firm? About £400.

143. Was that for the two actions? Yes, my costs.

144. How much was the verdict? £143.

145. *Mr. Lakeman.*] What was the bill made out by Mr. Fitzhardinge? I think I paid him altogether about £500. I have some of the bills here with me. The one I produce is a true copy of the account I received from the solicitors.

146. According to this bill you paid £439 7s. 5d.? Yes. I paid £490 to them altogether. It came from Garland and Anderson to me. I paid £50 to bring Mr. Brown from Beechworth. I had to give a cheque for £50 to Mr. Anderson before he would telegraph to retain counsel.

147. Was that in excess of this amount in the bill? Yes.

148. This purports to be the bill rendered by Mr. Fitzhardinge, the plaintiff's attorney, to you. Was not the £50 you now speak of paid as a fee to your own counsel? Yes. I cannot remember exactly how it is, but I am sure I will be able to find it out.

149. Was there any money paid to Mr. Fitzhardinge beyond £439 7s. 5d.? I cannot say.

150. *Mr. Wilkinson.*] Did your own costs amount to £400? Yes.

151. Had you to pay away £1,000, including all costs? Yes. There was a great deal of money paid away which I have not any account for.

152. *Chairman.*] You stated to the Committee yesterday that from the time you applied for your land until the time when the Validating Bill was passed you were unable to use your land, so that you were deprived of the use of it for about seven years? Yes.

153. The Committee wish to ascertain exactly what your losses were through your being unable to use your land? Instead of merely saying that I could make a gross amount of £1,000 a year from the land, I have put down a statement of the rent which I refused for the land. I was offered 4s. an acre if I would lease the land. There is a total area of 2,250 acres, including my conditional lease, so that that would show a loss of £3,150 for seven years.

154. *Mr. Turner.*] Have you any proof of having had such an offer? I could get the evidence of the agent to whom the offer was made.

155. Was not that for one year when grass was scarce? My next neighbour got a rent of 4s. an acre for his land. I have three good wells on my land, and there is very good grass there.

156. *Mr. Wilkinson.*] You are now claiming the loss of grass on a total area of 2,250 acres;—did you apply for that amount of land in the first instance? I have a conditional lease as well.

157. Was not the action brought about 55 acres only? No.

158. Now many acres were in dispute? Mr. Devlin sued for trespass on the whole of our land. He claimed that we had no right to be there at all, on any part of the land.

159. Did you apply for the conditional lease when you took up your selection in December, 1881? I applied for it within the ninety days allowed by the Act of 1884. I put in an application for the lease, but Mr. Copeland held it back because he held that we had no right to the land until we got the Validating Bill.

160. *Mr. Lakeman.*] Did you get the conditional lease after the selection was validated? Yes.

161. What do you consider the other conditional purchases were worth per acre per year? 4s. per acre.

162. *Mr. Turner.*] During average years? Yes.

163. *Mr. Jones.*] Was your conditional purchase supposed to be on a railway reserve? Yes.

- Mr. T. Ryan. 164. How long were you in possession before that was found out? About six months.
- 3 July, 1890. 165. Was the railway reserve under lease to the lessee of the run on which you selected? Yes.
166. Was there a difficulty about your conditional purchase which was validated by Parliament? Yes.
167. Are you in possession of the land now? Yes.
168. What was the value of the improvements on the land when it was found to be on a reserve? About £900.
169. *Mr. Greene.*] What is the nature of the country where your land is? White box, bull oak, and yarran.
170. When you selected the land, was there any natural water on the ground? No.
171. Did you ringbark the country? It had been ringbarked by the station-owner when I went there.
172. Do you claim 4s. an acre as the grazing value of the land from the first time you went there? My time was spent there, and that should be taken into consideration, as well as the value of the land.
173. Is it not a fact that land will not improve to its full value for grazing purposes until some time after it is ringbarked. It all depends upon circumstances. If the timber is killed right off the grazing will improve in the coming spring after it is ringbarked.
174. What number of sheep would 1,682 acres of that land carry? I never had enough stock on the land until last year, and 150 acres carried 2,000 sheep after they were shorn. I put them on that land when they were shorn in the last week of September, and that number of acres carried 2,000 sheep until Christmas.
175. What would the land carry, one year with another, all the year round? I have not tried it so as to be able to say, but for the last two years the land would carry 2,000.
176. What will the surrounding country carry, one year with another? I cannot say, because my land is surrounded by the station. A neighbour of mine has 2,000 acres, and she shored 2,400 sheep last year, besides keeping horses and cattle. She made over £700 from her sheep during the present season.
177. Can you not say definitely what number of sheep your land would carry all the year round, taking one year with another? About 3,000.
178. *Mr. Jones.*] How do you arrive at this value of 4s. per acre per annum? I was offered that rent for it for a six years' lease.
179. Has the land a frontage to the river? No; it is very close to the river; it adjoins a travelling stock reserve.
180. *Mr. Wilkinson.*] When did the action at law take place? 1886.
181. Had you not possession of the land all the time? I was on the land, but the lessee let in his sheep, and all mine were starved.
182. After the action was brought in 1886, did you not settle the case? When the action was brought my solicitor told me that the best thing I could do was to pull down the fence myself and let the lessee use the land, because the losses I would sustain through actions being brought would be more than any profit I could make for my stock.
183. When did you settle the action? About two years ago.
184. *Mr. Jones.*] Having settled the losses between yourself and the lessee, and having had the land validated, what further claim did you think you had against the Government? The money paid out of my pocket.
185. Was not that included in the settlement between yourself and the lessee? No; the lessee only settled for himself.
186. *Mr. Turner.*] You say the squatter cut down the fence;—did you see him do it yourself? No; but the man who was erecting the fence for me saw it done. When I came back from Narandera the contractor who was erecting the fence told me that it was cut down.
187. Whose fence was it? My own.
188. Could you have driven off the squatter's sheep? Yes, I could.
189. He would not have interfered with you if you drove off the sheep? Yes; he could sue me for damages. I was afraid of that.
190. Were you afraid to drive his sheep off your own land? Yes, through not having a right to the land. My solicitor informed me that Mr. Stephen, in Sydney, advised that Mr. Flavell's right was better than mine.
191. During the seven years did you not use the land at all? I lived on the land all the time, and I put stock on it, but through the squatter's sheep coming in it would have paid me much better if I had never put any stock on the land.
192. By using it for grazing purposes you lost by it? Yes.
193. *Chairman.*] Did your stock die through the lessee's stock eating off the grass? Yes; he had 40,000 sheep there some years, and if that mob came in in one night they would clear off all the grass.
194. *Mr. Wilkinson.*] As a matter of fact you say you did lose through the squatter's stock? Yes. I told Mr. Devlin I would leave the improvements and everything to him if he would give me £500. That was when I found I could not get a right to the land. That was after I had laid out £900.
195. *Mr. Turner.*] Did the squatter's sheep wander on to your land, or were they driven on to your land? They wandered on to it, because there was nothing to keep them out.
196. *Mr. Lakeman.*] You took up the land in December, 1881, and how long after that did you fence it? I went there on Christmas Day, and on the following day I let a fencing contract, and they started to fence at once.
197. When was it finished? I cannot exactly say.
198. *Mr. Jones.*] Was it after you offered to take £500 that you had the place fenced in? Some of it was fenced in then, but not all.
199. What did the validating of your land make it worth per acre? I had it in the market, and I offered it at £3 an acre.
200. The fact of its being validated made it worth £3 an acre to you? Yes.
201. *Chairman.*] You stated that you commenced fencing immediately after Christmas Day;—did you ever complete the fence? Yes.
202. How long did it take from Christmas until you completed the fencing? I had it all fenced in in about two years, except the piece that Devlin claimed.
203. Had you the land enclosed within two years? Yes, except a small piece consisting of 130 acres, which was in dispute. 204.

204. *Mr. Wilkinson.*] Did you make any paddocks? I made eight paddocks within two years.
205. *Chairman.*] Had you any paddock enclosed within twelve months after taking up the land? Yes; Mr. T. Ryan.  
8 July, 1890.  
within seven months I had about 200 acres enclosed.
206. How much land had you enclosed within twelve months? I let 7 miles of fencing, and that was completed within about twelve months. If I had not got a letter from the department stating that I had no right to the land I would have had the whole of it fenced within twelve months. When I received that letter it kept me from laying out money.
207. *Mr. Turner.*] I think I am expressing the opinion of the Committee when I say I think your estimate of 4s. per acre per annum is exorbitant? I can get the evidence of the agent through whom the offer was made—that is, Mr. Mair, of Gundagai. The person who made the offer was willing to pay twelve months' rent in advance, and he was willing to pay that rent during a lease of six years, and he offered to take my stock at a valuation.

## RYAN'S CONDITIONAL PURCHASES AT WAGGA WAGGA.

### APPENDIX A.

[To evidence of *Mr. C. R. Walsh.*]

In Banco.

RYAN v. FLAVELLE.

May 4.

*Crown Lands Act, 1875 (39 Vic. No. 13), s. 13—Selection of measured portion—Reserve—Error in survey—Question for jury—Where part of land selected is not available the selector may elect to hold the part available, if over 40 acres.*

New trial motion.

Donovan, for the plaintiff, in support of the rule.

The Attorney-General (Simpson, Q.C.) and Heydon, for the defendant, showed cause.

Arguments were heard on February 27 and 29, when the Court (the Chief Justice, Owen and Foster, JJ.) reserved judgment.

On May 4 the judgment of the Court was delivered by the Chief Justice: This action was tried before His Honor Mr. Justice Faucett, at Wagga Wagga, in April, 1886. It was an action by a conditional purchaser against a Crown lessee for trespass upon her conditionally-purchased land. The defendant pleaded his Crown lease, and the plaintiff replied that she had made a conditional purchase of 502 acres, and, subsequently, while the conditional purchase was in full force, she had made an additional conditional purchase, under the 21st section of the Crown Lands Act of 1861, of 138 acres adjoining the 502 acres, the two portions not exceeding in the whole 640 acres. Upon this pleading issue was joined. It appeared that on the 8th of December, 1881, the plaintiff had applied for 640 acres of land under the following description:—"Parish of Burrumbeet, 640 acres, being measured portions 132 and 133." It turned out that at this date, although these lands have been in fact surveyed and measured, the measurements had not been approved of as required by the 39th Vic. No. 13, section 13. It appeared that on the 26th of November, 1878, a reserve was proclaimed of all the Crown lands within 1 mile on each side of the centre line of the proposed railway from Junee to Narrandera, as shown on a certain plan in the Surveyor-General's office. Whether it was that the course of the railway was subsequently altered, or that the surveyor mistook his instructions, the fact remains that the reserve to the south of the railway, which was by the proclamation extended for 1 mile from its centre line, commenced at about three-quarters of a mile from this centre line, and then extended 1 mile to the south, so that this southern boundary of the reserve, which was intended to be 1 mile from the centre line of the railway, found itself in the air, and a mile and three-quarters from such centre line. After this reserve had been thus proclaimed and laid out, another surveyor came upon the scene and commenced to survey and lay off measured portions, upon the faith that the reserve went up to the centre line of the railway; and he laid off two measured portions, Nos. 132 and 133, of 520 acres each, and these were the portions applied for by the plaintiff. According to one surveyor, 344 acres of these 640 acres were upon the reserve, thus only leaving 296 acres available for conditional purchase. According to another surveyor, only 138 acres were on the reserve, thus leaving 502 acres available for selection. This latter appears to have been the first impression of the Department of Lands, for the plaintiff is allowed to hold, and does hold, these 502 acres as under his original application. The mistake about the reserve being discovered, the plaintiff applies for the 138 acres, which the first surveyor thought was in the reserve as an additional conditional purchase, and this is what is stated in the plaintiff's replication, so that looking at the replication it must be taken that the plaintiff, in place of 640 acres she applied for, was willing to take 502 acres, part thereof; and then, thinking the 138 which she had at first applied for as part of the 640 acres, and which was not then available, had become available, she applied for this as an additional conditional purchase. It is therefore evident that the evidence left in doubt whether any of the plaintiff's land fell within the reserve, or, if some portion did, then what portion? The Department of Lands appears to have thought that at least 502 acres were open to conditional purchase, and so informed the plaintiff, who occupied the 502 acres until the trespasses complained of. At the trial his Honor, apparently relying upon the evidence of one of the surveyors (Mr. Lipscombe), thought it clearly appeared that a large portion of the 640 acres was upon the reserve; that, in fact, only 296 acres were outside the reserve, and there being no evidence of any application for this specific 296 acres, nor of any contract between the plaintiff and the Crown to take such smaller portion, considered that the plaintiff had shown no title to the 296 acres, and directed a verdict for the defendant. No question as to where the reserve actually was was left to the jury, or as to whether 502 acres or 296 acres of the 640 were outside of it. And we gather from a note of his Honor, at folio 110 of his note-book, that if in fact 502 acres were outside the reserve, then he would have considered that title was shown to this 502 acres. But acting upon the evidence of Mr. Lipscombe, he thought the 296 acres stood upon a different footing, that this 296 acres had never come within the contemplation of the Department of Lands, and he therefore in effect directed a verdict for the defendant. There appears to have been ample evidence of trespass upon the land in possession of the plaintiff, whether this be taken as 640, 502, or 296 acres. It has been, however, argued by the Attorney-General and Mr. Heydon, counsel for the defendant, and the plaintiff having applied for 640 acres of land, and it afterwards appearing that some portion of this land was upon a reserve, the plaintiff could not obtain a title to any portion of this land; that, in fact, the whole conditional purchase is voided by the fact of a portion of the land applied for not being available for conditional purchase. We are of opinion that this is not the law. On the contrary, if a conditional purchaser applies for 640 acres of land, and it appears that some portion of such 640 acres is not available, then the conditional purchaser has a right to elect to hold such part as is available, unless such part be less than 40 acres, but if over 40 acres the conditional purchaser may hold it as his conditional purchase, if he sees fit. By the 12th section of the 39 Vic. No. 13, if the land has not been surveyed at the time of purchase, "temporary boundaries" are to be determined by the conditional purchaser. If the Government do not survey within twelve months, that is, fix permanent boundaries, the purchaser may withdraw his application, or he may have the land surveyed by any licensed surveyor authorized by the Minister. Again, by the 13th section of the same Act, the Minister has the power of modifying the boundaries of any conditional purchase. In *Emery v. Barclay* (8 S.C.R. 374) it was held that the "temporary boundaries" were neither binding upon the Crown nor upon the conditional purchaser. It appears to us to follow from this, and from the power of the Minister to modify boundaries, that the actual piece of land applied for, the conditional purchaser may not get in its entirety, as applied for; the Minister may so modify the boundaries as to render this impossible, and it cannot be that if by a necessary modification of the boundaries there turns out to be 639 acres only available in place of 640 acres, that the application for the 640 acres goes for nothing

nothing, and that there must be a fresh application for the 639; and this, although at the date of modification the conditional purchaser may have been residing for a whole year upon the land, and may have placed extensive improvements upon it, which improvements, if a new application be necessary, must all revert to the Crown, improvements, also, which may have the effect of precluding any fresh application being made for the land. We are therefore of opinion that it is open for a conditional purchaser who has applied for 640 acres to elect to take such portion of this 640 acres, not being less than 40 acres, as may appear to be available for conditional purchase. This decision in no way conflicts with that of *Heinz v. Walker* (6 N.S.W. L.R. 166). There it was held that when a conditional purchase is made of a measured portion, part of which is within a reserve, the conditional purchase is bad. In that case, however, the measured portion was one which had been approved of by the Surveyor-General under the 15th section of the 39 Vic. No. 13, and there had been no application to subdivide. Here the portions, though in fact measured, do not fall within the provisions of that section. We are of opinion, therefore, that this case should have been left to the jury, and that there must be a new trial. We cannot close our judgment in this case without pointing out that all this annoyance to which the plaintiff had been subjected, as well as all this expensive litigation, has arisen from the grossest departmental blunders. That even now no two surveyors appear to be agreed—first, whether a reserve exists in the locality at all, or if it does, where its boundaries are. No doubt the reserve was intended to preserve the land contiguous to the railway, but we are unable to gather from the evidence whether such contiguous land ever has been reserved; if not, the matter should be at once attended to, otherwise fresh victims to the administration of the land law will undoubtedly arise. The costs of the former trial to abide the event. The costs of this motion to be paid by the defendant.

*Rule absolute.*

Attorneys for plaintiff: Cape and Kent.

Attorney for defendant: M. A. H. Fitzhardinge.

VOTES No. 89. TUESDAY, 18 NOVEMBER, 1890.

4. RYANS' CONDITIONAL PURCHASES AT WAGGA WAGGA:—Mr. Gormly moved, pursuant to Notice, That the Report from the Select Committee, on "Ryans' Conditional Purchases at Wagga Wagga," brought up on 26th August, 1890, be "now adopted."
- Mr. Brunker moved, That the Question be amended by the omission of the words "now adopted," with a view to the insertion in their place of the words "referred back to the Select Committee for further inquiry and report."
- Question proposed,—That the words proposed to be omitted stand part of the Question.
- Debate ensued.
- Question,—That the words proposed to be omitted stand part of the Question,—put and negatived.
- Question,—That the words proposed to be inserted in the place of the words omitted be so inserted,—put and passed.
- Question then,—That the Report from the Select Committee on "Ryans' Conditional Purchases at Wagga Wagga," brought up on 26th August, 1890, be referred back to the Select Committee for further inquiry and report,—put and passed.
- 

VOTES No. 110. THURSDAY, 18 DECEMBER, 1890.

8. RYANS' CONDITIONAL PURCHASES AT WAGGA WAGGA:—Mr. Gormly, as Chairman, brought up the Second Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose further consideration and Report this subject was referred back on 18th November, 1890; together with Appendices.
- Ordered to be printed.

 REPORT.
 

---

THE SELECT COMMITTEE of the Legislative Assembly, appointed on 3rd June, 1890, "with power to send for persons and papers to inquire into and report upon the cases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan, selectors in Wagga Wagga Land District," and to whom was referred "all papers in such cases, laid on the Table of the House and ordered to be printed on the 16th January, 1884, together with the Report of Select Committee, appointed 28th November, 1883, and Minutes of Evidence taken before such Committee, brought up 9th April, 1884, and adopted 21st May, same year," and to whom was referred back on 18th November, 1890, for further inquiry and report, "the Report from Select Committee on Ryans' Conditional Purchases at Wagga Wagga," brought up on 26th August, 1890, have agreed to the following Report:—

1. That your Committee see no cause to alter the Report brought up on 26th August, but further find—

- (1.) That after a new trial had been granted in the case of Anastasia Ryan, John Flavelle, who was plaintiff in the action in the Supreme Court with Thomas Ryan, and defendant in the case with Anastasia Ryan, paid to Thomas Ryan, Ellen Ryan, and Anastasia Ryan, the sum of £1,000 as compensation for trespass that had taken place by the stock of Uarah Run, on the selections of Thomas Ryan, Ellen Ryan, and Anastasia Ryan.
- (2.) That Thomas Ryan sent or caused to be sent a letter signed "T. Ryan," and addressed to Mr. Lakeman, a member of this Committee, which letter is appended to the Report, and your Committee are of the opinion that the forwarding of such letter was a gross impropriety.
- (3.) That your Committee are still of the opinion that the cases of Thomas Ryan, Ellen Ryan, and Anastasia Ryan, are deserving of the favourable consideration of the Government.

JAMES GORMLY,  
Chairman.

No. 2 Committee Room,  
Sydney; 17 December, 1890.]

## PROCEEDINGS OF THE COMMITTEE.

---

 WEDNESDAY, 3 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Gormly in the Chair.

Mr. Stevenson,		Mr. Brunker,
Mr. Greene,		Mr. Copland.

Entry from Votes and Proceedings, referring the "Report brought up on 26th August, 1890," back to the Committee for further inquiry and report, *read* by the Clerk.

John Francis Pike called in, sworn, and examined.

Witness withdrew.

Thomas Ryan called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

Reassembling of the Committee to be arranged by the Chairman.

(Adjourned.)

---

 FRIDAY, 5 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Gormly in the Chair.

Mr. Lakeman,		Mr. Stevenson,
Mr. Hayes,		Mr. Plumb.

Allen Lakeman, Esq., M.P. (a Member of the Committee), sworn and examined in his place.

Witness handed in a letter from T. Ryan, reflecting upon his (Mr. Lakeman's) position as a Member of the Committee, and at his request, read by the Clerk. (*See Appendix A.*)

Thomas Ryan called in and further examined. Witness handed in memo. of losses sustained by him through being deprived of the use of his land. (*See Appendix D.*)

Chairman here left the Chair.

Mr. Stevenson called to the Chair *pro tem.*James Gormly, Esq., M.P. (*Chairman of the Committee*), sworn and examined.Witness handed in a letter written by himself to Thomas Ryan. (*See Appendices B, C, & D.*)

Chairman then resumed the Chair.

Committee deliberated.

Reassembling of the Committee to be arranged by the Chairman.

(Adjourned.)

---

 WEDNESDAY, 17 DECEMBER, 1890.

MEMBERS PRESENT:—

Mr. Gormly in the Chair.

Mr. Stevenson,		Mr. Jones.
----------------	--	------------

Chairman submitted Draft Report.

Same *read*, amended, and *agreed to*.

Chairman to report to the House.

## MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

## RYANS' CONDITIONAL PURCHASES AT WAGGA WAGGA.

WEDNESDAY, 3 DECEMBER, 1890.

Present:—

MR. BRUNKER,  
MR. GREEN,

MR. COPELAND.

MR. GORMLY,  
MR. STEVENSON,

J. GORMLY, ESQ., IN THE CHAIR.

John Francis Pike called in, sworn, and examined:—

1. *Mr. Bruncker.*] What is your position in the Department? Draughtsman in the Survey Office.
2. You know something of these cases concerning the Ryan family? Yes; I have been connected with them in the Courts that the cases have been in, as well as before the Select Committee.
3. When you were last examined at Court you then produced all the documents in possession of the Lands Department with regard to this case? Yes.
4. And the plans and papers defining the land? Yes.
5. Since that time have you heard anything with regard to the settlement of these cases? While before the Select Committee on a previous occasion I heard Mr. Walsh state, respecting Anastasia Ryan's case, in which a new trial was allowed, that it had never taken place, and that the case had been settled.
6. *Mr. Stevenson.*] Who is Mr. Walsh? A clerk in the Supreme Court.
7. *Mr. Bruncker.*] What action did you take upon hearing that statement? I thought I would ascertain how the case had been settled, and went to see Mr. Fitzhardinge in connection with it.
8. Did you go of your own accord? Yes.
9. Did you consult the Under Secretary? No; I thought I would find out, for my own personal information, how the case was settled.
10. What was the result of the interview with Mr. Fitzhardinge? I learned that Ryan was paid £1,000 in settlement of the case. I thought, therefore, that Anastasia Ryan had virtually won her case. I thought this was important information, which might have an effect on the report of the Select Committee, so I referred the matter to head-quarters—to the Under Secretary—with a view to evidence being called. Shortly after that I was asked to make up some questions to elicit this information before the Committee. Mr. Fitzhardinge was to be called within a fortnight afterwards. I heard that the questions had gone astray somewhere in the office. In consequence of that the intention was not carried out. I was asked to furnish another set of questions, and did so; but three days later I heard that it was too late to call any more evidence, as the report of the Committee had been brought up. I then heard that the Under Secretary wished to have this information in a documentary form from Mr. Fitzhardinge, for the information of the Minister. Accordingly, I applied to Mr. Fitzhardinge for it, in order to send it to the Under Secretary, and he promised to furnish it in two or three days. Mr. Fitzhardinge had to go to the country, and did not think the information was wanted in a hurry, because it was not likely that the report would be brought up for some time. After three weeks had elapsed, Mr. Fitzhardinge furnished the documents.
11. Are those the documents [*documents produced*]? Yes, those are the documents; I handed them to Mr. Capper.

Mr.  
J. F. Pike.  
3 Dec., 1890.

Mr.  
J. F. Pike.  
3 Dec., 1890.

12. Those papers were not in the possession of the Department at the time you gave evidence? No; on the 26th September they first came into the possession of the Department. I was not aware of their existence when I gave evidence.
13. These documents, then, were not received into the Department until the 26th September? No; they were not.
14. And your examination took place in July? Yes; on the 2nd of July.
15. Do you know that Ellen Ryan, of Narrandera, made an application for a conditional purchase on the 8th December, 1881? Yes.
16. And did she furnish a description of the land at the same time? Yes.
17. Have you any knowledge how that description was prepared? I have read in the evidence how it was prepared; that Mr. Ryan came in to see Mr. Bolton, the district surveyor, and pointed out what land he intended to take up for Ellen Ryan.
18. *Mr. Stevenson.*] You only know that from reading the evidence? Yes.
19. *Mr. Brunken.*] Can you tell the Committee if it is part of the duty of the district surveyor, or any officer of the Department, to prepare these descriptions on behalf of the conditional purchasers? No; it is not part of their duty. I think they are supposed to give the information that leads up to the preparation of these descriptions.
20. Can you tell the Committee whether it was notified to the selectors in this case within a very short time—and within what time after they made the conditional purchases—that there was only a certain portion of the land available? Within about three months. The letters were written from the office, but I do not know when Ryan got them.
21. Were they also notified not to proceed with any improvements on the land? Yes; by the lessee.
22. Do you know whether there was a refund order sent to them at the same time? The Department sent refund orders for the land that was not available.
23. They were told, I believe, at the time the refund orders were sent, that they might surrender the whole of the land? Yes; if they did not like to take the area that was left they might surrender the whole. [*The following documents were put in.*]

Ryan's Selection.

Sir,

86, Pitt-street, Sydney, September, 1890,

I have the honor to report as follows, for the information of the Honorable the Minister for Lands:—

1. I acted as solicitor for Mr. Flavelle in two cases tried at the Wagga Wagga Circuit in April, 1886, in which Thomas Ryan was the defendant in one and Anastasia Ryan the plaintiff in the other.
2. Mr. Flavelle obtained a verdict for £143 9s. 6d. damages for trespass against Thomas Ryan, and also obtained a verdict in the case of Anastasia Ryan.
3. Thomas Ryan paid the damages and costs awarded against him, amounting to £604 17s. 9d.
4. Anastasia Ryan applied to the Court for a new trial, which application was granted with costs against Mr. Flavelle. Such costs amounted to £73 18s. 8d., and have been paid by Mr. Flavelle.
5. The reason why a new trial was granted was because the Judge at the trial rejected evidence tendered on behalf of Anastasia Ryan to show that a reduction in the area of her original conditional purchase (which had been approved by the Minister for Lands and accepted by her) was signed by the Under Secretary for Lands instead of by the Minister.
6. The Court decided the Judge was in error. The Lands Department were therefore right.
7. The new trial did not take place.
8. Mr. Flavelle, to avoid any further trouble or litigation with the Ryans, agreed to give them £1,000 in full settlement of all and every demand they might have against him, and for all moneys expended by them in connection with the lawsuits with him.
9. I am of opinion that Anastasia Ryan would never have obtained a verdict against Mr. Flavelle, and that the amount paid by Mr. Flavelle was excessive.
10. Mr. Flavelle arranged the amount himself, as he could not afford the time to carry on the cases further.
11. Anastasia Ryan, by this settlement, virtually won her case.

Yours, &c.,

M. A. H. FITZHARDINGE.

The Honorable the Minister for Lands.

Statutory Declaration.

I, JOHN FLAVELLE, of Sydney, in the Colony of New South Wales, do hereby solemnly and sincerely declare as follows:— I was the plaintiff in an action in the Supreme Court of New South Wales, in which Thomas Ryan was defendant; and I was the defendant in an action in the same Court, in which Anastasia Ryan was the plaintiff. Both the said actions were settled by my paying to the said Thomas Ryan the sum of £1,000, as appears by the acknowledgment for that amount, an attested copy whereof is annexed hereto and marked "A."

And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Subscribed and declared, at Sydney, this 25th day of }  
September, 1889, before me,—

JOHN FLAVELLE.

M. A. H. FITZHARDINGE,

A Commissioner for Affidavits.

To John Flavelle, Esq., George-street, Sydney.

Dear Sir,

15 June, 1888.

We are willing to, and hereby accept from you the sum of one thousand pounds, in full satisfaction and discharge of all damages caused by trespass, or in any other way by your stock, or in any stock belonging to the Uarah Run, including the trespasses and damage caused thereby, the subject of an action by the undersigned, Anastasia Ryan, against you, in which action the Supreme Court lately granted a new trial. And we hereby release you from all liability in connection therewith, and also release you from the payment of your share of any dividing fences erected upon any of our selections on the boundaries between our selections and the run, or elsewhere. And in consideration of the said sum of one thousand pounds received by us, we hereby agree, in the event of your requiring us, or any of us, to do so, to execute a full and valid discharge and release of all manner of actions, causes of action, claims, and demands whatsoever, which any of us now have against you on any account whatever, or against the present mortgagees, since they have taken possession of the said run up to date.

THOMAS RYAN.  
ANASTASIA RYAN.  
ELLEN RYAN.

Witness—HENRY TINGCOMBE.

This is a true copy of the original, as examined by us this day.  
Dated, 24th September, A.D. 1890.

M. A. H. FITZHARDINGE,  
Solicitor.

R. DAVIES.

This is the attested copy acknowledgment, marked "A," referred to in the annexed affidavit of John Flavelle, taken before me, at Sydney, this 25th day of September, 1890.

M. A. H. FITZHARDINGE,  
A Commissioner for Affidavits.

Mr.

Mr. Thomas Ryan called in, sworn, and examined :—

Mr. T. Ryan.

3 Dec., 1890.

24. *Mr. Bruncker.*] You gave evidence on this case before? Yes.
25. Do you know when that was? I cannot exactly say when.
26. Was it during July this year? Yes; somewhere about that time.
27. Did you state all the facts then in connection with these conditional purchases? I answered all the questions that were put to me. I was told to answer only the questions that were put to me.
28. What I want to know is what evidence did you give? All the information I had at the time.
29. That is not answering the question fairly? I gave all the information I could, as far as my memory served me, in answer to the questions asked me.
30. You had some litigation with Mr. Flavelle with regard to the land in question? Yes; I had several lawsuits with Devlin and Flavelle.
31. Prior to giving your evidence before the Committee? Yes; some time prior to that.
32. How long? It might be one, two, or three years. Some of the lawsuits were tried eight years ago.
33. In connection with those lawsuits, and prior to giving evidence on the Select Committee in July last, did you make any statement in connection with Ellen Ryan or Anastasia Ryan? Yes; I made a statement about the lawsuit.
34. Were you aware of that when you were before the Committee? I was.
35. Did you give that information to the Committee? The question was not asked me.
36. And you did not think it worth while to give the Committee that information? I was told to answer only the questions put to me.
37. Will you state the nature of your claim against the Crown in connection with these conditional purchases—that is the object of having this inquiry;—in the event of your claim against the Crown being proved you expect substantial compensation? My claim is this: When I went on to the land I expected to have four full sections; but through a mistake of the Government and the surveyors I only got 55 acres instead of 640. We were placed in the position that our money was in the hands of the Crown, and we could not get it back in order to go and select elsewhere. Being a stranger in Sydney, I went to Albury and saw Mr. Lyne and Mr. Day, and told them how I was situated. Mr. Lyne said he thought we would be able to get the land. A portion of it had been surveyed as a reserve, and Mr. Lyne said to hold on to it as he thought it would not be required for a reserve, and that eventually we would be able to get it. At that time Mr. Farnell and Mr. Martin were land agents for Devlin the lessee, who was first cousin to Mr. Farnell—Martin was related to Mr. Farnell's daughter—and they took the case in hand when Devlin found we were on the run. Instead of leaving the reserve to be thrown open—it was then in Lewis' hands to be thrown open—they being the land agents, got it locked up, and kept it locked up. In that way they took all my land from me, after buildings had been erected on it and fencing contracts let for £900.
38. *Mr. Bruncker.*] You got notice to leave the land? Yes; after £900 had been laid out on it. I offered to leave it altogether for £500, but I could not get that money. All our money was sunk, and we could not go and select elsewhere, consequently we had to stop on the 55 acres. After a time that was taken from us, and thrown open for selection. Just about this time Sir John Robertson went out of office. If he had remained in office I believe we would have had everything to suit us. Mr. Farnell then became the Minister for Lands, Mr. Martin being a land agent at this time, and the land was taken from us altogether. It was forfeited.
39. *Mr. Greene.*] That was only your own land? Yes.
40. Had your daughters selections there? Yes.
41. And they were allowed to remain on the land that they had applied for? Yes. When Sir John Robertson was going out of office he left a memo. to the effect that Ellen Ryan was to get a full section under a Crown Lands Validating Bill; but it was not given to her for about seven years afterwards, although she was promised it at once. She was on the land for seven years, and had to pay rent for it to the Government, as well as to improve it and reside on it. The lessee had the benefit of the grass. His rights were better than Ellen Ryan's until the Validating Bill was passed.
42. She was promised the land, but in the meantime the lessee had the use of it? Yes; it was of no benefit to her until the Validating Bill became law. She could not interfere with the lessee's stock when they came upon the grounds.
43. She had no claim then, although the Government intended to validate her claim? Yes; that is so. When I heard of a Validating Bill for some selectors at Goulburn I came to Sydney and saw Mr. Farnell, the Secretary for Lands, in order to have our claim included in that Bill. He said, "If I put your claim in this Bill some of the Members in the House may object to it and upset the Bill." Either Mr. Loughnan or Mr. Day was with me at that time. I never went to see a Minister unless in the company of some Member or Members of Parliament. I saw Mr. Farnell later in connection with another Validating Bill, but he still objected to include our claim. I remarked to him that it was strange that a Government should aid rich companies, while my family was suffering, and without our land. When I saw that he was favouring the lessee, I said, "If you will not do something for us, Mr. Farnell, we will have to leave the land altogether." In answer to that, he said he would do something for us as soon as he could. However, we struggled on from day to day until he told me to fence in the land, and that the more work we did upon it the better it would be for us.
44. Who told you that? Mr. Farnell. He said the Crown would never interfere with us, and to go on fencing it. Meanwhile the fencing contract was suspended, but on that assurance I ordered the contractor to resume the work. Mr. Farnell told me I would get all the land if I could obtain the refund vouchers and send them to him.
45. The vouchers drawing the refunds? Yes. They were sent to Armstrong, the land agent, who accompanied me to the Lands Office once or twice. He kept them without ever letting me know that they were in his possession. I told Mr. Farnell that I had not received any of the vouchers for the purpose of drawing the deposits, and he said, "Either you or the land agent must have them." I said I had no land agent, and he replied that they had been sent to Armstrong. Eventually the Department found that Armstrong had them, and when I went to him he would not give them to me without I paid him 10 guineas. I told Mr. Farnell that Armstrong was not my agent; that I had withdrawn my affairs from him; and he said that I should have notified the Lands Department to that effect. In reply to that, I said that I did not instruct the Lands Department to send the vouchers to Armstrong at all, and further, that I had never given the Department notice that he was my agent. I paid the 10 guineas to Armstrong in the presence of Mr. Loughnan, who was with me.

- Mr. T. Ryan. 46. *Chairman.*] Are you aware that a great portion of the evidence you are giving is embraced in the evidence that was given by you on a former occasion? I cannot recall to mind what evidence I gave before. I cannot say whether or not I was allowed to make a full statement.
- 3 Dec., 1890. 47. *Mr. Brunker.*] You said just now that you had not been able to get the money from the Government by way of a refund? Yes; I said that we were not able to get all the money back.
48. Are you aware that Ellen Ryan's conditional purchase was only made on 8th December, 1881, and that up to 25th March, 1882, a refund voucher was sent to the Lands Office at Wagga Wagga referring to C.P. 81-664, ordering a refund of £121 5s.? Yes; I am aware of that; but up to that time we had laid out £900.
49. Within three months? Yes. You will find a letter among the correspondence from Mr. Bolton, valuing the improvements at £600.
50. Within three months you got that valuation? Yes; including the iron, timber, and wire for fencing that was already on the ground. Bolton valued the improvements at either £560 or £660, irrespective of the unused materials on the ground.
51. You went on with the improvements, notwithstanding that you were notified that the land was not available? I endeavoured to stop the contractors from going on, but they would not knock off. Contracts were taken for so many miles of fencing, and they would not stop the work unless I paid for the full amount of the contract.
52. Did you have notice of this refund? We could not get our money.
53. You said that the vouchers were sent to Armstrong, and that he was not your agent then? I had withdrawn my business from him; he was not my agent at that time.
54. Nearly twelve months afterwards you received this letter from him, Armstrong:—

Dear Sir,

Berrembed, 30 September, 1882.

I received your letter of 25th instant, in which your bill was to me enclosed for the sum of 10 guineas. I think it is a rather a long one, as my case is nothing better now than when I put it in your hands, and promised at that time to have it done within a fortnight. I am satisfied that you have worked hard, although, as there is no good done for me, therefore I hope you will reduce your bill to about half, which will enable me to send you a cheque for the amount by next mail. If things were done as you promised me when we last met I would not dispute your bill not at double the charge. Hoping you will take this into consideration, and send in a more reasonable one in the next. You will oblige by sending a speedy answer to this note, as I am thinking to have a look over at Queensland, and I would like to have this settled before I go.

I remain, &c.,

THOMAS RYAN.

Do you remember writing that? Yes.

55. It was nearly twelve months afterwards? Yes; that is another voucher—not the voucher in dispute.
56. That is not referring to a voucher at all, it is referring to your connection with Armstrong as your agent;—you had a refund voucher sent to you in March, nearly nine months afterwards? He had none of my vouchers at that time.
57. Are you prepared to say that you did not receive the vouchers yourself? Not in March. The Crown sent letters, stating that we could draw a portion of our money, but then our letters showed we had a great deal laid out. We could not get a refund of £900.
58. You say you could get no satisfaction while Sir John Robertson was in office? He was not in office when I came down, but he stated that Ellen Ryan would get the land in consequence of the improvements made on it.
59. I understood you to say that the lessee occupied the land that was taken up by Ellen Ryan? Yes; his sheep were on it.
60. On the 27th of September, 1882, this notification appeared in the *Government Gazette*:—

Reserve from Lease for the purpose of Sale.

Department of Lands, Sydney, 27 September, 1882.

It is hereby notified for general information that His Excellency the Governor, with the advice of the Executive Council, has been pleased to withdraw from lease for the purpose of sale the portion of land hereinafter described.

JOHN ROBERTSON.

Were you aware of that? Yes; we were quite aware of that. I went and fenced the land then, and that is how Devlin got an action against us—we fenced the land and kept his sheep off.

61. The land was withdrawn from lease in September, 1882? Yes.
62. *Chairman.*] Did Devlin, the manager of the station on which this selection is situated, lay claim to the land, and continue to claim it, after the appearance of that *Gazette* notice? Yes; he claimed it all the time and used it.

FRIDAY, 5 DECEMBER, 1890.

Present:—

MR. BRUNKER,		MR. GREEN,
MR. LAKEMAN,		MR. HAYES,
MR. PLUMB,		MR. STEVENSON,
MR. TURNER.		

J. GORMLY, ESQ., IN THE CHAIR.

Mr. Thomas Ryan recalled and further examined:—

- Mr. T. Ryan. 63. *Chairman.*] You have heard a letter read before the Committee? Yes. [*Appendix A.*]
- 5 Dec., 1890. 64. Did you send that letter to Mr. Lakeman, or did you cause it to be sent to him at all? I think it is only fair, sir, that Mr. Lakeman should prove who sent that letter to him, and whether or not I sent it.
65. I am asking you a question; kindly answer it? I hope the gentlemen on this Committee will see that I get fair play.
66. I want to know for the information of the Committee whether or not that letter was sent by you or if it is a forgery. It is addressed to A. Lakeman, Esquire, M.L.A., for Balrauld, and dated 26th November, 1890. It bears no address but is signed T. Ryan? I know nothing about that letter. A friend of mine told me that a letter would be sent to Mr. Lakeman. That is all I know about it.

Mr.

Mr. James Gormly sworn and examined :—

67. *Mr. Stevenson (acting Chairman).*] The letters produced by you are in the same handwriting as the letters you have been accustomed to receive from Thomas Ryan? Yes; I have received a number of letters at various times during the last five years from Thomas Ryan, and I know that a number of those letters are in the same handwriting as the letters I now produce. [*Appendices B, C.*] Mr. J. Gormly.  
5 Dec., 1890.
68. Are they in the handwriting of Thomas Ryan, or are they supposed to be in the handwriting of his daughter? I do not know whose handwriting it is, but it is the same handwriting as the letters that have always reached me from Thomas Ryan. I always accepted them as his letters.
69. *Mr. Turner (to witness).*] Is the letter you have written to Mr. Gormly in your handwriting? Yes; I acknowledge that, but I do not acknowledge the one that Mr. Lakeman received.

*Mr. Gormly resumed the Chair.*

70. *Chairman.*] You deny sending that letter to Mr. Lakeman? I do.
71. Do you deny that you had any knowledge of its being sent to him? I heard that a letter was to Mr. T. Ryan. be sent to him—that it was to be sent to him, or that it was actually sent to him, something to that effect—I have no knowledge that the letter was sent. A friend of mine told me that he would send a letter to Mr. Lakeman because of the way he spoke against us in the House. 5 Dec., 1890.
72. Look at that letter it is dated 26th November; is that your letter to me? Yes; it is.
73. You say you have no knowledge of that other letter being sent to Mr. Lakeman? Yes.
74. You have a recollection of sending me two letters since the report of the Select Committee was before Parliament? I cannot say how many I sent you. I think I sent you two letters.
75. Did you send me a letter containing this statement;—

As I stated to you before, John Andrews is the cause of sending in the copy of the agreement between me and Mr. Flaville; he is backed up by Mr. Fitzhardinge, the lessee's solicitor, and also by Mr. Lakeman. A friend of mine has written a hard letter to Mr. Lakeman to-day. I have been informed that they stated in the letter that he showed bad breeding in backing up the lessee and his solicitor against us. I believe they have given him some hard hits that I can explain to you. If he is a friend of the lessee, and wishes to take part with them, he had no right to go on the Committee, but I suppose he was the only man Andrews thought a few pounds would buy over.

Did you send me the letter containing that paragraph? I cannot say. I know I wrote something of the kind.

76. I ask you after hearing the extracts read if you still adhere to the statement that you have no knowledge of the letter being sent to Mr. Lakeman? I did not make that statement. I said I heard that such a letter was either sent to Mr. Lakeman or would be sent to him by a friend of mine. That is what a party told me. I had no intention of writing to him, but the party I allude to said he would write to him.

77. Do you deny writing that letter to Mr. Lakeman? I do deny it.

78. *Mr. Turner.*] Is that letter written to Mr. Gormly in your handwriting? No; it is in my daughter's handwriting.

79. Do you acknowledge sending that letter? Yes.

80. *Chairman.*] Do you remember putting these words in a letter to me :—

And if I was a squatter instead of a selector Mr. Brunker would pay us compensation for the loss we suffered.

It is dated November, 1890? Yes; all Governments pay the squatters.

81. *Mr. Brunker.*] You can read, I suppose? Yes.

82. Take this letter—it is dated November, and addressed to Mr. Gormly? I do not recollect the date. I acknowledge the letter.

83. It is in your daughter's handwriting? Yes.

84. I suppose it was written at your dictation? Yes.

85. And sent by you? Yes; I believe it was.

86. Is that your signature attached to it? I believe it is.

87. *Mr. Stevenson.*] Do you deny sending that letter to Mr. Lakeman? Yes.

88. You admit that you knew a letter was to be sent to him? I heard that one would be sent.

89. Have you any objection to give the name of the person who was going to send that letter? I have; I do not think it is right for me to repeat what other people tell me.

90. It shows you had a knowledge of the letter? Yes; but I do not think I have any right to implicate any other party. I have no doubt the person who wrote it will acknowledge it.

91. You know who the person is, then? I will not bring anyone else into the matter.

92. *Chairman.*] Was this letter to Mr. Lakeman written at your dictation? No; it was not.

93. *Mr. Brunker.*] Was it written with your knowledge? No.

94. *Chairman.*] This letter purports to be a letter signed by Thomas Ryan, and the writer of it evidently had a very intimate knowledge of the facts of this case—so intimate, indeed, that it might be fairly presumed, if you did not write it that it is a forgery; therefore, the Committee wish the information as to whether or not it was really signed by you or at your request. Otherwise it is a forgery? You might be able to find out who the writer of it is. I stated before that he told me there would be a letter sent.

95. *Mr. Stevenson.*] You are doing your case a lot of harm. You know who sent the letter, and you will not tell the Committee? I do not want to bring any other person into the case. I have no business to say what any person told me. I have acknowledged the letter that I sent to Mr. Gormly.

96. You will not give the name of the person who wrote the letter to Mr. Lakeman? I do not care to bring him into it.

97. *Mr. Lakeman.*] Your name is attached to the letter? Yes; I can see that. He said to me—

98. It is not a "he" at all, it is a woman who wrote it? I can swear that the person who wrote the letter to Mr. Gormly, never wrote a line of the letter to Mr. Lakeman.

99. The paper is the same in both letters, and the ink is the same. There is no doubt that it came from your place? If it came from my place or from the Ryans I would not deny it.

100. *Chairman.*] What was your reason for making a serious charge of corruption against a member of the Committee, it really amounts to a charge of corruption? If you will read the speech that Mr. Lakeman made in the House on our case, I will explain the reason.

101. Answer my question "yes" or "no"? That is the reason. The lessee sent a letter to Mr. Brunker against me.

102. I want to know the reason that you made such a serious charge against a Member of the Legislative Assembly who is deputed to take evidence and report on your case. You accuse him of acting

Mr. T. Ryan. unfairly through corrupt motives. It is a charge of corruption conveyed by letter to the Chairman of the Committee? My reason for stating that in the letter to you was because a copy of an agreement was sent in to the Department from Flavelle.

5 Dec., 1890.

103. Answer my question if you have any evidence to give? I am endeavouring to explain to you and you will not let me speak. My reason was that I saw a copy of the letter from Flavelle that went through Fitzhardinge, who was the cause of ruining us. It was the pair of them that ruined us, and I saw that Mr. Lakeman was the only Member of the House who spoke against us. Knowing that he was a stock and station agent, and I suspected him of also being a land agent, I concluded that he took the part of Andrews who told me that he had sent a copy of the letter to Mr. Brunker, and was sorry that I demanded of him half the cost of fencing in the land. That was since Andrews bought the place. Andrews said to me, "if you did not sue me for that money a copy of the letter would not have been sent to Mr. Brunker." He added, "in consequence of that suit I will stop Mr. Brunker from giving you so many thousands," and I said, "I hope you do not possess that influence with Mr. Brunker, and that you will not do me any injustice." That is the reason I accused Mr. Lakeman in the letter to Mr. Gormly.

104. And that was the reason you accused Mr. Lakeman of corrupt motives? Yes; I thought he was a land agent, and I saw that he was the only person who went against us. I suspected him, and I put in the letter what I suspected him of.

105. *Mr. Brunker.*] What is there in Mr. Lakeman's speech in the House that you object to? If it is read to me, I will tell you.

106. Mr. Lakeman said this:—

As one of the Select Committee sitting on the case, I may state that the facts mentioned by the Minister have taken me by surprise. I had not the slightest idea that Ryan had received a shilling in the shape of compensation or in any other form. I do feel that Ryan is not informing the Committee of the amount received by him from Flavelle, has not acted fairly towards the Committee.

What is there in that that you object to? That is one of the points that induced me to accuse him.

107. What do you accuse Mr. Lakeman of? That I was not treated fairly by the Committee.

108. You have admitted receiving £1,000 by way of compensation from Flavelle, and on your oath will you say that you treated the Committee fairly in not giving that information? When I was sworn I was told that I should only answer the questions that were put to me, and I was not asked any question about it.

109. Answer my question, on your oath. Having received £1,000 from Flavelle, as compensation, do you consider that you fairly treated the Committee appointed by the Legislative Assembly, to inquire into your case in suppressing that information? It is my opinion that I did treat the Committee fairly.

110. Then Mr. Lakeman in his speech goes on to say:—

The Minister is perfectly right in wishing that the matter should be referred back to the Committee.

Do you object to that? No, I agree with that.

111. The speech continues thus:—

There is no doubt that the Ryans have had a hardship imposed upon them, and that the squatter tried to drive them off the run, and almost succeeded.

You do not object to that? No, I do not object to that.

112. Then Mr. Lakeman goes on to say:—

What I wish the House to understand, however, is that as a member of the Committee who agreed to a report I had not the slightest idea that Ryan had received a shilling from Flavelle.

Have you any reason to suppose that Mr. Lakeman was aware, prior to the papers being laid on the Table of the House by me, that you received that sum? I cannot say; I expected that everyone knew that I had effected a settlement.

113. Do you think after Mr. Lakeman's statement in the House that he had any knowledge prior to it that you had received £1,000? I expected he did; it was not a private matter, it was public in every way. I thought that Mr. J. F. Pike was also aware of it, and that many Members of the House knew about it.

114. *Mr. Lakeman.*] You purposely kept that information back from all of us? No, I did not; I acknowledged it to everybody.

115. You carefully kept back the fact about the £1,000? I did not; if the question had been asked me I would have answered it.

116. *Chairman.*] You must have known that the Committee had no knowledge of the matter? I did not.

117. *Mr. Brunker.*] It is an absolute fact that you received the £1,000? Yes.

118. There was a contract made? Yes.

119. It was signed by you, Anastasia, and Ellen Ryan? Yes, but it was for fencing and damages done to our fence.

120. It is for what is stated in the contract, I suppose? I did not care what they stated so long as I got a settlement; I was not able to follow the law up any further.

121. When were these selections taken up? In 1881.

122. And in March, 1882, you were informed that the land was not available? I believe I was.

123. That was between the time you took up the selections in December, 1881, and March, 1882? I believe it was.

124. Then in March, 1882, you were offered a refund of your money? Yes.

125. You refused to accept it? It was not enough: it would not pay for the improvements.

126. You refused to accept the refund? Yes.

127. From the time you took up the land until it was validated you occupied it? Yes.

128. You occupied it after it was validated? Yes.

129. I notice by your evidence, given before, that you had 1,682 acres, and that you said you never had enough stock on the land until last year, and that 150 acres carried 2,000 sheep after they were shorn;—that is your sworn evidence, do you confirm that now? I do. 150 acres carried about 2,000 sheep.

130. How long did the 150 acres carry them? From the beginning of the shearing until they were all shorn.

131. How long would that be? It would be from about October until Christmas.

132. I notice also in your evidence that you say you were offered 4s. an acre per annum for the land, you would lease it? Yes, that is so.

Mr. T. Ryan.  
5 Dec., 1890.

133. Is that true? Yes; I can prove it by witnesses.

134. What, 4s. per acre per annum? Yes.

135. Who made you that offer? I forget his name just now. It was made through George, Mayor of Gundagai.

136. Have you had any interference from anybody since the conditional purchases were validated? Yes. I think there is a letter among the correspondence showing that the Commercial Bank defied me to drive sheep off the land.

137. I suppose you did not take notice of that? I had to.

138. What action did you take? I threatened to sue the bank for keeping the sheep there.

139. *Mr. Stevenson.*] Do you remember how many thousands you said you lost when you gave your evidence first, through not having the land? As I said before, considering the rent that I refused for the land and the offer of 4s. an acre if I would lease it, it shows a loss of 3,000 odd for seven years.

140. When you thought it necessary to let the Committee know about the law costs, how was it that you did not think it necessary to tell them that you had received £1,000 compensation, in settlement of the case. What was your object in keeping it back from the Committee? The question was not put to me, and I suppose I forgot to tell them.

141. How could we ask you a question about a matter of which we had no knowledge? I thought all the papers were before you and you would ask me all those questions.

142. *Mr. Lakeman.*] When you were examined in the first instance you gave this evidence,—

Did Mr. District-Surveyor Bolton take a great deal of trouble at various times to get an accurate starting point? I believe he did his best.

Was he trying for years to do it? Yes, during the whole time until the case came on.

Had you to pay the law costs of those two actions? Yes.

Was that the amount of the damages which the Court awarded against you in the action "John Flavell v. Thomas Ryan"? There was a verdict given for £143 damages with costs. The cash I paid away, including the £143 damages, amounted to £800.

Do you remember that? Yes.

143. Well surely when you were on that subject you could not have forgotten that you had received £1,000? Well it appears I did forget it.

144. *Mr. Brunker.*] Do you know that after the administration of Sir John Robertson this land was withdrawn from lease? Only Ellen's portion. Neither Anastasia's portion nor mine was withdrawn. That was in 1882.

145. *Chairman.*] You have placed a statement before the Committee, or rather a memo. of losses that you sustained in consequence of the Government depriving you of the land for the period of about seven years—an area of 2,250 acres in the parish of Berrembed [*Appendix D*]. The amount you say there is £4,037? Yes.

146. Is that a correct statement of the losses you have sustained? Yes, as nearly as I can bring them out.

147. *Mr. Stevenson.*] Did the offer of 4s. per acre per annum you had extend over a period of seven years? No; it was for six years.

148. *Mr. Brunker.*] How many sheep were on the land during that time? I cannot say, but I know I never had enough stock on the land.

149. What sort of land is it? It is a red soil in quality.

150. *Mr. Turner.*] I want to ask you if you know who wrote the letter to Mr. Lakeman; you evidently know who wrote it? I do not know.

151. Are you in a position to swear that none of your family wrote it? It was not written by any of my family with my knowledge. I have already stated all I know about it.

152. Will you swear it was not written by any member of your family? It was not written with my knowledge by any member of my family.

153. If a man forged your name surely you would take steps against him? I will try and find out who did it.

154. Why not give us all the information now? I would be glad to, but, as I said before, if a friend tells you anything, you do not wish to divulge it.

155. Then your refuse to answer the question; can't you tell us whom you suspect? I can only tell you that a party said to me that a letter would be sent, or something like that.

156. You refuse to answer as to the person whom you suspect? I do not want to get anyone into a scrape.

157. In your own interests can you account for the peculiar similarity in the letters to Mr. Gormly and Mr. Lakeman—I mean the letter written to Mr. Lakeman bearing your signature, and the letter to Mr. Gormly; there are similar expressions, such as "bad breeding," in both letters; can you explain how that similar wording occurs? I can only explain it in this way: I suppose that a few neighbours when they gather together talk about certain things, and repeat the words they have heard, that is to say, you might take a word from me, and I might take a word from you. There might have been four or five together when I was speaking about the matter, and perhaps one of them who was present wrote it.

158. *Mr. Brunker.*] You have stated that you have suffered a loss from 1882 up to the present time; when were the conditional leases taken up? I believe they were taken up in 1884.

159. You must know that the leases did not come into operation till 1885? I cannot tell you when they came into operation.

160. How can you make a claim for compensation between 1882 and 1885? I do not know when the leases came into operation.

## RYANS' CONDITIONAL PURCHASES AT WAGGA WAGGA.

### APPENDIX.

[*Handed in by Allen Lakeman, Esq., M.L.A.*]

A.

26 November, 1890.

Sir,

I was taken with surprise when I read your speech in the House the other night when Mr. Gormly rose to move that the report of the Select Committee in Ryans' case would be adopted. He made a good and able speech in our favour, but finding a letter in against us from the lessee, who strove to bring us to ruin, and also his solicitor, Mr. Fitzhardinge, backed up by your argument, in which you endeavour to make me out a thief or a swindler. I consider it shows bad breeding of a man who has put up to be a Member of Parliament. You being one of the first men whom I picked out for Mr. Gormly to have on his Committee if it was in his power. Some of my friends in Balranald and Hay had stated to me, some time ago, they had a good man in you, but, at my next opportunity, I will be able to show them that they have betrayed me in praising up a man whom they knew very little of, excepting his blow at elections. It is an old saying, "Try your friend before you want him." I want nothing from you but justice and fair play, and that, it appears, you are not inclined to give. I often heard if you want a Member of Parliament to do anything for you you have to put your hand in your pocket. I have not done this for you, but it appears strongly to me and my friends here that the other side have, or you would not back up the lessee's and his solicitor's letters in the House as you have for nothing.

But Mr. Reid, M.L.A., although he was not on my Committee at all, or never knew me, he seems to take my part fairly, seeing that you were going too far in abusing me for not giving details, which I consider have nothing to do with the loss we sustained through the Government. Mr. Stevenson and Mr. Lyne also took part with our side. I was glad to see you had only yourself, the lessee, and the solicitor to go against me. Every gentleman that reads the public papers, both in the House and out of the House, knows well, and have stated to me, that there was no selector's ever treated as bad as we were by the Farnell Government. We been done out of our land. I reckon entirely for about seven years all my land being taken from me and given to Arthur A. Devlin to select, who was a first cousin of the Minister's; our fences chopped down; timber and everything else destroyed for to punish us; pulled into small Courts and big Courts for driving over our own land; compelled to pay interest, and to improve in accordance with the Act; and no return or interest for this for seven years.

Now, sir, if you have a drop of honest blood in you, could you stand up in the House and say in the presence of gentlemen who were inclined to do justice, and who have argued the point against you, that we are not entitled to any compensation from the Government, because we got £1,000 as compensation from the lessee, not in behalf of the Government, but in behalf of the cruelty and injuries we had suffered through his manager and boundary-riders through the Government leading us astray in the boundaries of our selections.

I could see from the start, when I gave my evidence in the Committee room before you, that you were a bitter pill against me. You asked me when did I put the last panel of fence up on our land. You also stated, when I replied, that I had no right to compensation until I had the last panel of fence up.

Now, to start with, your statement there was false and not true. If my title was good from the Crown, we had the same right as the lessee to use the land without putting a stick of fence at all on it, if it suited us. But I started to fence the land at once, but through not having a title the lessee chopped our fence down as it was put up. This was the fault of the Government and their officials, and not mine, that the place was not fenced at once; and still you stand up in the House and say as much as we are not entitled to compensation, because the lessee paid us for the damage he done to our property. Now, sir, ask yourself one question: If the Government kept you out of about 2,000 acres of land for seven years, kept you paying land agents and running up and down to Sydney for seven years fighting for your rights, which you should get without any of this trouble, compel you to pay rent on your land, and also to improve it, but give power to others to eat your grass and also your crop, pay lawsuits, would a thousand pounds pay you for all this trouble? If you speak fairly, five thousand would not pay you.

Now, sir, I will have to conclude by asking you, as you are not inclined to do justice to us, to withdraw from the Committee, if it is in your power, and not to take part with the lessee and his solicitor in depriving us of our rights, otherwise you will put me to the trouble of travelling at the next election, when I will be able to show your friends and mine in Balranald and Hay whether you are fit for Parliament or not in the way you have backed up the lessee and his solicitor in depriving us of our just rights. I could show your voice in clear print backing up their letters, although Mr. Fitzhardinge, being against us, in his letter he stated it was not on his advice Flavelle paid the money, and it was his opinion if it was let into Court that Anastasia Ryan would never have obtained a verdict against Mr. Flavelle. This was my opinion also, therefore I took the thousand pounds, instead of losing another thousand in law and suing the Government for all.

I have not slept a wink all night, but thinking how I was led astray in putting a traitor like you on our Committee. Hoping it will come to my turn to return you the compliment before I die for your kindness,

T. RYAN.

A. Lakeman, Esq., M.L.A.

[*To evidence of James Gormly, Esq., M.L.A.*]

B.

Dear Sir,

Grong Grong, November, 1890.

I received the *Sydney Morning Herald* from you, which shows me your able speech in the House in the adopting of the report of the Select Committee in our case. I was also glad to see that my old friend, Mr. Lyne, was not behind in taking part with you; but I don't understand Mr. Lakeman; he seems to be entirely against you or me. I can see I made a bad pick when I requested of you to put him on the Select Committee. He was the only man on the Select Committee, when I was giving my evidence, that strove to bring in false representations against me. He came out strong when I gave my evidence before the Committee, stating that I had no right to compensation until I would have the last panel of fence up.

Now, sir, you know that that statement of Mr. Lakeman is entirely untrue. We selected under the old Land Act in 1881, which gave us a right to use the land from the date of application if the Government gave us a title. Mr. Lakeman making such statements as this before the Committee, which was not in accordance with the Act, together with his sayings against you on Tuesday night, shows me that he is against us, and not inclined to do justice as I expected he would be. He seems to be the only man on the Select Committee who tries to make things look worse. Mr. Dibbs seems to give everything the deaf ear, excepting when he fights for position. He don't seem to take any part in our case at all, although whenever I meet him he seems very friendly. I think the Minister is wrong in interfering between the settlement with me and the lessee. I am not looking to the Government for the loss I suffered through the lessee; I am looking to them for the loss I sustained through the neglect of the Government and their officials. I enclose to you a few words as regards to the settlement between me and the lessee. It might assist you in placing it before the gentlemen on the Committee if you have not gone through with it before this.

Surely the Government have done enough on us to bring us to ruin by keeping our land from us about seven years and compelling us to pay interest on the same during that time, as well as to improve without taking part in the lessee's action against us. If Mr. Farnell was in office I would not wonder at him bringing in the amendment, for he had worked a bigger swindle even than that when he took all my land from me and gave it to Arthur Devlin to select until Mr. Copeland got in power. When he saw the wrong done on me he took the land again from Devlin and gave it back to me.

This

This alone ought to be enough to show the Committee, together with the decision of the Full Court, that Mr. Brunker is wrong in bringing in his amendment against the report of the Committee. When we came here Devlin sent his men in on Anastasia's land, chopped down pine which was very valuable to us, put up brush fences to suit himself in on the portions of our land which was not in reserve. Also I having a contract let for clearing for cultivation, he put up a brush fence through the middle of the place which I had left for clearing, blocking my men of working and depriving us of putting on our improvements where it ought to be put, and will have to shift the most of all our improvements again, such as building and fencing, also eating our crop as well as the grass, and defied us to interfere with his sheep, chopping down wire fences, and done everything to suit him on our land up to the time the Full Court gave the decision in our favour.

Mr. Lakeman is a man of property. I would like to see how he would agree with the Government to do him out of his land for seven years and give it to the lessee. I am sure he would look for compensation as well as we have. As Mr. Brunker got a copy of the settlement between us and Flavelle, if he is a gentleman who is inclined to do justice, he will also get a copy of the mortgage to the Commercial Bank and put both before the Committee together. This will show you that we had no right to our land during the time that we claim compensation. We kept possession as to carry out residence and paid the interest, expecting from day to day we would get the Validating Bill. If I only knew that they would keep the Validating Bill back from us so long I would clear out years ago, and leave the land and all our improvements after us to the lessee. A few days before the Full Court decided in our favour the bank sent me a threatening letter, cautioning me against interfering with their sheep, or they would take action against us, stating that our land was in their mortgage from Devlin. When the Full Court decided the case in our favour I went down to Sydney and demanded a settlement from the bank for the loss we sustained through their sheep eating all our grass and our sheep perishing. I also gave a bill to Mr. Flavelle for fencing erected on the boundary between our land and his, which he failed to do with us. The Manager of the bank, Mr. Gaden, stated he did not want to have any contrariness with me, stating he would go down and introduce me to Mr. Flavelle and have a settlement, which was better than law. I went with him, and he made the settlement between us and got a cheque for me of £1,000 in settlement of everything which was between me and Flavelle and also the bank—that is to say, about 5 miles of fencing done, fence cut down and destroyed by the lessee's men, crop eaten and destroyed for five or six years by lessee's sheep, and on conditions that we would have no more lawsuits for any damage done up to date. On the above grounds we got the cheque for £1,000, but if I thought the Government would not recompense us for the loss of our land until they give us a right, I should not take £5,000. Surely Mr. Brunker does not expect, if the Government does us out of our land, that we could let the lessee or the rest of our neighbours destroy all our property, and do with us as they like without bringing them before the justice of the law, or having a mutual settlement, which I am sure have no interference with the wrongs the Government have done on us, or with the report brought up by your Select Committee. I am sure you are able to put this clearer, even before your Committee, than I have stated to you, which will no doubt show the gentlemen on the Select Committee that their report in our favour is only doing justice to us; and if I was a squatter instead of a selector, Mr. Brunker would pay us compensation for the loss we suffered through their neglect without putting on a Select Committee at all—same as other Ministers have done. I see by the public papers where they have paid several people for shifting improvements through the cause of the surveyors not running proper boundaries—Mr. Mates, of Tarcutta, included. John Halbish and several others also paying law expenses for several parties without any Committee or inquiries. Although those parties never were done out of their land at all, we are done out of our land, as well as having to shift improvements, and it appears they want to beat us in all, but I still have good confidence in all our Committee, excepting Mr. Lakeman. The voice of one won't be much among the many gentlemen who, I am sure, will see justice for us; if we fail to get a fair compensation from the Government, each of us intend to sue the Government, so that if we won't benefit by it the lawyers will. I would like if you would let Mr. Wilkinson, of Albury, have a look at this note, for I am sure he is a gentleman who will assist you in this action, as well as Mr. Lyne, or any other Member of the Committee you may think fit. You will excuse me for this long explanation.

Your, &c.,  
THOMAS RYAN.

J. Gormly, Esq., M.L.A.

The following is a true copy of a letter from Mr. Todhunter, who was Manager on this run for the Commercial Bank, and which will show you that between Flavelle, Devlin, and the bank, they kept us out of our land until we got the Validating Bill to give us a right to keep their stock off. If your Committee won't give credit to this copy, I will send you the original of it. I think the following letter will show you that the compensation we got from the lessee has nothing to do with the action of the Government, and he would not give us the cheque mentioned if they did not consider they were indebted to us, which should have nothing to do with the action of the Government.

Sir,

I am desired to give you notice that the land you have seized the sheep on, is not your land or your daughters, and you will be held responsible for any loss or damage which may arise from your illegal seizure of sheep. I am also to inform you, that in erecting a temporary fence to save the sheep been knocked about and damaged by you, the lessees of the run in no way admit your right to the land in question, and I notify you not to trespass on it with stock or otherwise.

“Uarah,” 24 April, 1888.  
JAMES TODHUNTER

(Pro The Commercial Bank of Sydney).

Mr. Ryan.

### C.

Dear Sir,

Parliament House, 29 November, 1890.

I am in receipt of your two letters, and return them, as I must decline to receive letters commenting on the action taken by any member of the Select Committee. Mr. Lakeman has taken great trouble, as a member of the Committee, to have a report framed that would be the means of having justice done to your daughters and yourself. When the draft report was before the Committee for adoption, Mr. Lakeman moved an amendment, which was accepted, and made the report more favourable to your interests.

I consider your letters a gross slander on the character of Mr. Lakeman, and must decline to receive letters from you again on this subject.

Should you wish to have any further evidence placed before the Committee, kindly make it known to the Clerk of Select Committees, Legislative Assembly.

Yours, &c.,

JAMES GORMLY.

[To evidence of Thomas Ryan.]

### D.

MEMO. of losses incurred by Thomas Ryan, in consequence of the New South Wales Government depriving him, for a period of seven years, more or less, of the use of 2,250 acres, more or less, of land situate in the parish of Berembed, county of Bourke, New South Wales:—

Rent of 2,250 acres of land, at 4s. per acre per annum, £450, for seven years .....	£3,150
(To this amount should be added interest.)	
Twenty-nine visits to Sydney (railway fares), £3 .....	87
(In addition to this, each visit cost about £7 hotel expenses.)	
Law costs .....	800
	£4,037

1890.

CLAIM OF MR. E. K. CRACE TO CROWN LAND ADJOINING GUNGAHLEEN  
ESTATE.

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 24th June, 1890, "*with power to send for persons and papers, to inquire into and report upon the claim (if any) of Mr. E. K. Crace to a piece of Crown land adjoining the Gungahleen Estate, Gininderra, near Queanbeyan,*" have agreed to the following Report:—

Your Committee, having examined witnesses from the Land Titles Office and the Lands Department, and inspected the deed of grant, the plan of original survey, and other documents bearing upon the subject, find,—

That there is undoubtedly an excess area of  $305\frac{1}{2}$  acres in the grant of 728 acres to J. T. Morrisett, now the property of Mr. E. K. Crace, who claims the excess area as being within the boundaries of the said grant; and they therefore recommend that the  $305\frac{1}{2}$  acres referred to should be resumed by the Government, in accordance with powers provided by law.

E. W. O'SULLIVAN,  
Chairman.

No. 3 Committee Room,  
Sydney, 14 October, 1890.

---

PROCEEDINGS OF THE COMMITTEE.

THURSDAY, 3 JULY, 1890.

MEMBERS PRESENT :—

Mr. O'Sullivan, | Mr. Walker.

In the absence of a quorum, the meeting called for this day lapsed.

TUESDAY, 8 JULY, 1890.

MEMBERS PRESENT :—

Mr. O'Sullivan, | Mr. Turner,  
Mr. William Stephen.

Mr. O'Sullivan called to the Chair.

Entry from Votes and Proceedings appointing the Committee, *read* by the Clerk.

Committee deliberated.

*Ordered*,—That the Under Secretary for Lands, and the Chief Clerk, Land Titles Office, be summoned to give evidence next meeting.

[Adjourned till Tuesday next, at *Twelve* o'clock.]

TUESDAY, 15 JULY, 1890.

MEMBER PRESENT :—

Mr. Walker.

In the absence of a quorum the meeting called for this day lapsed.

THURSDAY, 17 JULY, 1890.

MEMBER PRESENT :—

Mr. Walker.

In the absence of a quorum the meeting called for this day lapsed.

THURSDAY, 31 JULY, 1890.

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

Mr. Walker, | Mr. Turner.

William Frederick August Kloster (*Draftsman, Land Titles Office*) called in, sworn, and examined.

Witness *produced* a map of the land in question.

Witness withdrew.

Edward Arnold Bronsdon (*Clerk, Miscellaneous Service Branch, Lands Department*) called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

[Adjourned to Wednesday next, at *Twelve* o'clock.]

WEDNESDAY, 6 AUGUST, 1890.

MEMBER PRESENT :—

Mr. Walker.

In the absence of a quorum the meeting called for this day lapsed.

TUESDAY, 12 AUGUST, 1890.

MEMBER PRESENT :—

Mr. Walker.

In the absence of a quorum the meeting called for this day lapsed.

WEDNESDAY, 13 AUGUST, 1890.

MEMBER PRESENT :—

Mr. O'Sullivan.

In the absence of a quorum the meeting called for this day lapsed.

TUESDAY,

*TUESDAY, 19 AUGUST, 1890.*

MEMBERS PRESENT :—

None.

In the absence of a quorum the meeting called for this day lapsed.

*TUESDAY, 26 AUGUST, 1890.*

MEMBERS PRESENT :—

Mr. O'Sullivan, | Mr. Walker.

In the absence of a quorum the meeting called for this day lapsed.

*THURSDAY, 28 AUGUST, 1890.*

MEMBER PRESENT :—

Mr. O'Sullivan.

In the absence of a quorum, the meeting called for this day lapsed.

*TUESDAY, 2 SEPTEMBER, 1890.*

MEMBER PRESENT :—

Mr. O'Sullivan.

In the absence of a quorum the meeting called for this day lapsed.

*TUESDAY, 9 SEPTEMBER, 1890.*

MEMBER PRESENT :—

Mr. O'Sullivan.

In the absence of a quorum the meeting called for this day lapsed.

*THURSDAY, 11 SEPTEMBER, 1890.*

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

Mr. Turner, | Mr. Walker.

Committee deliberated and adjourned until two p.m. this day.

Edward Arnold Bronsdon called in and further examined.

Witness *produced* extracts from the report of Mr. Surveyor Smith, also original plan of survey made by Mr. Surveyor Hoddle, and *handed in* a copy of the plan. (*See Appendix.*)

Witness withdrew.

Committee deliberated, and requested the Chairman to prepare a Draft Report for next meeting.

[Adjourned to Thursday, 25 September at *half-past Two* o'clock.]

*THURSDAY, 25 SEPTEMBER, 1890.*

MEMBERS PRESENT :—

None.

In the absence of a quorum the meeting called for this day lapsed.

*TUESDAY, 14 OCTOBER, 1890.*

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE CLAIM OF

MR. E. K. CRACE, TO CROWN LAND ADJOINING  
GUNGAHLEEN ESTATE.

THURSDAY, 31 JULY, 1890.

Present:—

MR. O'SULLIVAN, | MR. TURNER,  
MR. WALKER.

E. W. O'SULLIVAN, ESQ., IN THE CHAIR.

Mr. William Frederick August Kloster called in, sworn, and examined:—

1. *Chairman.*] What position do you hold? I am a draftsman in the Land Titles Office.
2. Have you any knowledge as to the granting of a title to Mr. E. K. Crace, of Gungahleen, for some 200 acres of land? The only thing I have noticed is with reference to the 728 acres. I have not gone into the case. Mr. Pearson, the Principal Draftsman, instructed me to ascertain the particulars. I have nothing to do with the matter of the title.
3. It is contended that an excess area of 200 acres has been included in the property for which Mr. Crace has obtained a title? From a rough calculation, I make the excess area 305½ acres in the 728-acre grant without going into any other grants.
4. Do you produce a map showing the area in question? I do.
5. *Mr. T. Walker.*] Are you able to say by examining the map how that excess was granted? I can only give evidence about the plan.
6. The plan clearly shows the excess area? It does not show it; I have marked it on the plan.
7. How did you ascertain the excess area—have you any plan in existence showing it? There is the parish map, issued by the Surveyor-General.
8. Looking at the parish map which you produce, which would be the grant to Mr. Crace? The grant as laid down by the Surveyor-General's Department comes up to the upper boundary. That is what they call the 728-acre grant, but in reality it is over 1,000 acres.
9. *Mr. Turner.*] By the map? Yes.
10. *Mr. T. Walker.*] Taking the map as it is, although it states here in figures that there are 728 acres in the block, yet according to scale it is over 1,000 acres? Yes.
11. *Mr. Turner.*] Do you calculate by scaling or figures? In the absence of the lengths you have to use the scale to find the lengths. No lengths are shown on parish maps. The areas they give are generally the areas as shown on the grants.
12. *Mr. T. Walker.*] They do not concern themselves with exact measurements? They never have a resurvey. They can only show the area already granted.
13. *Mr. Turner.*] The figures in pencil are put on from scaling. They were put on by me from the grant. The lengths given in the grant give an exact area of 728 acres; but taking the boundaries as defined by the Surveyor-General's Office, I find that it contains over 1,000 acres.

Mr. W. F. A.  
Kloster.  
31 July, 1890.

- Mr. W. F. A. 14. *Mr. T. Walker.*] The grant includes more land than it should by about 30 or 35 chains? Yes.  
 Kloster.  
 31 July, 1890
15. From your experience have you found that such mistakes are common? In some cases a greater excess has appeared than in this grant. In smaller areas I have found that the proportion of excess is greater.
16. *Chairman.*] Are you aware that the block was originally surveyed by Mr. Hoddle as 728 acres? I cannot say anything as to the survey, I can only go by the grant.
17. Is there any indication that the grant is based upon the survey? In all cases the deeds are prepared from the surveyor's plans.
18. If this was originally surveyed by Mr. Hoddle, for Mr. Morrisset, as 728 acres, the grant should have been issued for 728 acres? It is issued for that area.
19. Yet by measurement you find it to be 305½ acres in excess, or very nearly one half the area of the original survey? Yes.
20. Have you gone over the papers? I have gone through the papers relating to this particular grant.
21. Do you know the history of the case? No, but here are the papers. When a person applies to bring land under the Act, and it is found that it is likely to encroach upon Crown land, the office invariably send a notice to the Surveyor-General, whose department sees that the boundaries are approximately correct, or are in accordance with the surveyor's plan. In this case a notice was sent to the Surveyor-General, and the following information was sent back:—"Application for certificate of title under the Real Property Act by E. K. Crace. This claim covers a certain grant of land, viz., J. T. Morisset's 728 acres which has been shown to be very faulty in respect of description and measurement, and concerning which there was very careful investigation several years ago in connection with an application for conditional purchase, when it was decided that the Crown would not interfere to disturb possession by the proprietor who is the present claimant. With regard to the other grants covered by this claim, I am not aware of any objection on public grounds to confirmation of the title as desired; but in view of the third paragraph of the Registrar General's letter, I think his attention might be directed to the opening of a road under the Parish Roads Act, which I have caused to be indicated by red band on his tracing herewith, and to the resumption of 2 acres for public school purposes as indicated by green tint therein."
22. By whom is that signed? By Mr. Twynam, the Acting Surveyor-General, on the 13th August, 1887.
23. Are you aware that Mr. Adams, Surveyor-General, gave his opinion that this was Crown land? There is further evidence supplied—which was no doubt written by Mr. Furber—to the Surveyor-General, as follows:—"The application of E. K. Crace is for lands, including, among other grants, one of 728 acres to J. T. Morisset, being a purchase by him in 1835 at auction at the rate of 5s. per acre. Correspondence of a voluminous nature took place some seven years back in connection with an alleged excess of area in this grant, the area held under the grant being 1,015 acres, nearly 300 acres too much. Upon that discussion of the matter it was decided by three different Secretaries for Lands—the last being Mr. Secretary Farnell in 1883—that the Crown should not interfere to disturb the possession by the present applicant. Mr. Secretary Hoskins went further and gave his opinion that this meant an abandonment of all claim by the Crown. In view of the above facts, no objection can, at this date, be entered against Mr. Crace making good his title, although it is perhaps now to be considered whether, as only 728 acres were paid for, the Crown is not entitled to payment for the balance area at the same rate—5s. per acre. Possibly this may not be thought advisable, having in view the fifty years' possession by the grantee and his alienees. Caveat should, however, be entered on the ground that the land applied to be brought under the Real Property Act includes an area of 2 acres, resumed on the 14th January, 1885, by the Department of Public Instruction for a public school site at 'Stone Hut,' at the south-west corner of J. T. Morisset's 640 acres, shown by me in green on the tracing herewith. Caveat should also be lodged on the ground that a road extending from the Queanbeyan Road north-easterly through Morisset's 640 acres to the south-east corner of William Davis's 303 acres, and thence northerly and north-westerly to the north-west corner of William Davis's 618 acres, is not excluded from the land certificate of title to which is applied for. This road I have shown on the tracing herewith by red lines. It was confirmed by *Gazette* notice of 12th November, 1884, and it was in lieu thereof that Mr. Crace was allowed to purchase as unnecessary the road shown in blue running along the west boundaries of the three portions just mentioned. It is necessary for me to inform you that upon inquiry to day at the Registrar General's Office I find that declaration of service of this notice not having been yet lodged there. At least fourteen days from now will be allowed for entering caveat."
24. What period must elapse to enable a person to hold land against the Crown? No period will enable a person to hold any Crown land. No person can become the possessor of Crown lands.
25. *Mr. T. Walker.*] Is not that a matter of legal dispute;—do not some persons contend that sixty years' occupation will establish a claim? I do not think that they will grant Crown land to any one on a possessory title.
26. *Chairman.*] Why is this reference made to a fifty years' tenure? I believe it relates to the occupation of the 728 acres.
27. According to your belief no length of time would entitle this person to hold the excess area against the Crown? It all depends. If the boundaries are shown marked on the ground clearly, and can be defined and followed out by another surveyor, of course the area would be ignored, and also the lengths. The point is to identify the original corners of the portion.
28. Are you aware that this matter came before the Court of Claims? No.
29. Have you any record to that effect among your papers? Not that I have seen. I believe that there is some considerable doubt about an adjoining holding to the north. There was a letter sent by Mr. Crick to the Registrar-General, informing him that Mr. Rofe, the gentleman on the north, claims a title to land adjoining this, and which forms part of these 728 acres.
30. *Mr. T. Walker.*] Not part of the 728 acres, but part of the 305 acres in excess? Yes.
31. *Chairman.*] Who applied to have the excess area brought under the Real Property Act? The applicant was E. K. Crace, of Gungahleen, in the Colony of New South Wales, who directed that the certificate should be issued to himself, and the application was lodged by Norton, Smith, & Co.
32. Did the application come to you with the knowledge of the Minister for Lands of the day? The Minister for Lands would not be informed at all of an application being deposited in the office.
33. Would he not be consulted before you granted a title? An application goes right through the office routine.

routine. First of all it goes to the Principal Draftsman, who sees that all the deeds are deposited, then to the Examiners of Titles, who ascertain whether they are correct, and if they find everything correct they send it on to the Board of Commissioners, who approve of it and specify the number of days in which caveat may be lodged. Where it is found that land applied for abuts on Crown land, or that perhaps roads are not shown in the applicant's plan, a notice is sent to the Surveyor-General, who looks into the matter.

Mr. W. F. A.  
Kloster.  
31 July, 1890.

34. Who are the examiners who investigated this application? Messrs. H. D. Maddock and A. Parry Long. It was also investigated by Mr. Plomley, but he has since retired.

35. Did it go through the ordinary routine of the department? Yes.

36. And with the full knowledge that it contained an excess area of 305 acres, a title was recommended? They knew that there was an excess, but not the exact quantity of the excess.

37. Were they fully aware of the circumstances of the whole case? They were quite satisfied on the papers supplied by the Surveyor-General to allow it to go on.

38. Amongst these papers was there not the opinion of Mr. Adams, Surveyor-General, that it was Crown land? No; I saw nothing to that effect in the papers.

39. No decision of the Court of Claims to the effect that the land could not be obtained by Crace? I did not see anything in the papers to that effect.

40. How long has the title been granted? It was passed by the Examiners, and passed by the Board on the 8th June, 1887. It was first of all deposited in the office on the 29th November, 1882.

41. Does it take five years to put a deed like that through the department? It all depends upon the title. There may be some defects in the title.

42. There appear to be a lot of defects in this title, or else it would not have taken so long to go through? I do not know whether it relates to the 728 acres or to other blocks forming part of this application.

43. What is the ordinary time taken to put a title through which would appear to be a valid one? I could not say.

44. Can you give me an approximate idea? I could not say. I have nothing to do with that matter.

45. In 1882, when they applied for a title, it was not granted? No.

46. There was some objection offered then? Some objection was raised to the wording in some subsequent deeds.

47. There was also the opinion of the Surveyor-General of the day that it was Crown land? I do not think that was taken into consideration at the time.

48. Would this deed have to go back for endorsement by the Minister for Lands? As soon as land is granted from the Crown the Minister has nothing further to do with the deeds. They are dealt with by the Land Titles Office.

49. Does it not go on to your office with his approbation or endorsement? No; if he has any objection at all against the issue of the title he forwards a caveat to that effect, and the applicant is informed that such action has been taken.

50. No objection appears to have been lodged in 1887 by the Minister for Lands? Not by the Surveyor-General, except as to the road and the site for the school which has been satisfied since.

51. *Mr. T. Walker.*] If as you say, a case of this kind occurs frequently, what has generally been the action of the Crown; has a resurvey been made and the grant been altered to the proper area and no more? No.

52. Or have there been any changes made so as to take in the excess area? They generally act on a decision of the Supreme Court, in which they state that the area of the land is to be taken as shown by its metes and bounds.

53. The deed does not give all the boundaries; if the boundaries include 1,000 acres more than should be included they give a grant for only 728 acres? The Survey Department give the deed for what the surveyor marks out himself; the survey is checked, as a rule, in the Surveyor-General's Department, and according to that survey they issue the deed.

54. Has any case occurred within your knowledge of the Crown having secured from the supposed owner of land the amount of excess in the survey? Not that I know of. I have seen several cases go through the office in which there have been excess areas, but they have taken no action at all.

55. It is the invariable rule that no action is taken unless an action is started in the Supreme Court by parties interested? Yes.

56. In this case you are not aware that there has been any such action? I know of none.

57. *Mr. Turner.*] Have you the deeds of this land? Yes. This is the description which is given in the Crown grant:—"First portion containing 728 acres, situated in the county of Murray, parish unnamed, near Gunninginderry, and bounded on the east by the first section line east of G. T. Palmer's northern portion, being a purchase of 640 acres, north 115 chains: Commencing at the south-east corner on the north by a section line west 80 chains; on the west by a section line south 35 chains, to the northern boundary of G. T. Palmer's said 640 acres; thence by lines east 24 chains and south 80 chains; and on the south by part of G. T. Palmer's eastern portion, being a purchase of 640 acres, east 56 chains to the south-east corner aforesaid, being the land sold as lot 69 in pursuance of the advertisement of 9th November, 1835."

58. Is there any reason to fix either of these lines as a sectional line? These are generally marked on the ground.

59. What constitutes the sectional line in this case? In the early days I believe the practice was to mark the sectional lines running east and west, and then to fit any blocks within those lines. They called them all sectional lines in the early grants up to a certain date.

60. Have you the original plan from which that deed was prepared? No; it would be in the Surveyor-General's Office.

61. Of course you do not know whether the corners are fixed by reference to trees or not? I could not say.

62. Is it not usual to put "more or less" in these descriptions in the lengths? No. It generally says on the top, "acres, be the same more or less, situated in the county or parish."

63. The chainage is not "more or less," as expressed in the deed? No; though in some of the early plans the surveyor puts "more or less" in the lengths in his plans.

- Mr. W. F. A. Kloster.  
31 July, 1890.
64. *Mr. T. Walker.*] Is it likely that the exact measurements are given in the original survey? Some surveyors have left well-defined marks, by which one can follow out their work; others have run over it in a careless manner. I know nothing at all as to the marks in this instance. The office is usually guided by the surveyor, who is a man licensed under the Real Property Act, and is supposed to be a first class man.
65. *Mr. Turner.*] The deed fixes the land to an inch? Yes, but it may not fix it on the ground. Surveyors go by the marks on the ground.
66. *Chairman.*] As a matter of fact, it was resurveyed? Yes, to bring the land under the Real Property Act. The surveyor made a resurvey of the outer boundaries of the area applied for, but not of this particular block of 728 acres.
67. *Mr. Turner.*] Is there any doubt on the ground as to the position of George Palmer's portion? I do not think so.
68. The south-east corner of Palmer's portion 60 is fixed, beyond doubt, on the ground? As far as this survey shows, it is.
69. What is the meaning of the qualification "as far as this survey shows;"—is not this survey final? I could not say. The surveyor is the only person who can state that definitely.
70. *Chairman.*] Who surveyed it? Messrs. Atchison and Schleicher, of Pitt-street.
71. *Mr. Turner.*] I suppose you would qualify your reply about these corners in the same way? Yes; I can state nothing as a surveyor.
72. As far as the plan shows, the corners of Palmer's sections are determined and fixed on the ground? Yes.
73. Then by the deed, this piece of land—Morrisset's 728 acres—commences from Palmer's boundary? Yes.
74. The surveyor, in fixing portion reserve 13, has defined the eastern boundary of the 728 acres, and the northern boundary is, as it is shown in pencil on the parish lithograph? Yes.
75. In the same way it is shown in pencil that it comes to the north-east corner of portion 60? A little below it.
76. *Chairman.*] These boundaries exclude the excess area? The boundaries in pencil do.
77. *Mr. T. Walker.*] Is there anything in the deed to take you to the north of the boundary line which you have drawn in pencil? They have gone by the occupation. When land is fixed, the surveyor as a rule, points out the boundaries to the occupier, and he fences in accordingly.
78. The deed was not granted on the survey, but on the occupation? It was granted on the survey, although the surveyor may have made an error, and shown him the wrong boundaries.

Mr. Edward Arnold Bronsdon called in, sworn, and examined:—

- Mr. E. A. Bronsdon.  
31 July, 1890.
79. *Chairman.*] What position do you hold in the Lands Department? I have charge of the Auction and Miscellaneous Sales Branch.
80. Did the matter referred to the Committee come under your jurisdiction? I have only occupied that position for about three months. The papers came before me to be copied for the House.
81. Did you find all the papers there? Well, I don't know. I did not notice that any papers were missing; in fact, there are so many papers connected with the case that one could hardly be expected to know that.
82. As a matter of fact, did anyone in the office miss any of the papers? No; not to my knowledge.
83. Can you thoroughly understand the case from the papers which you have there? I think so.
84. Is there a link wanting at all? Not that I recollect.
85. The papers have been printed, have they not? Yes; here is a copy. I should explain that although the matter came before me in order to prepare the return, I did not have to examine each paper as it was copied. I have, however, gone through the papers with a view to giving evidence.
86. Upon what points can you give evidence? I may state that there have been three decisions given by various Ministers, declining to oust Mr. Crace from the land; there is also a plan showing that Mr. Smith, a staff surveyor, retraced, as far as he could, the lines surveyed by the original surveyor, Mr. Hoddle.
87. Does Mr. Smith's retracing correspond with the description in the grant which you have just read? No.
88. In what respect does it vary? According to Mr. Smith's retracing the northern boundary of the 728 acres is measured as a westerly prolongation of the southern boundary of Palmer's most northern 640-acre block.
89. Starting from that westerly prolongation, how far does Mr. Smith's retracing go? He goes right round the block as far as he can determine it. But in the case of this southern boundary you will notice that he could not find the marked trees. He found a tree at the western extremity. Of course trees are blazed along the lines, but he could not find those trees.
90. That corner would be the southern boundary of Hoddle's original survey? Yes.
91. The excess area in dispute starts from the southern boundary of Hoddle's survey, and Smith's retracing does it not? It just depends upon where the excess area is. You will see that this survey does not agree with the deed, as far as the deed can be interpreted.
92. Although it does not agree with the deed there are indications there of the survey made by Hoddle, and the retracing by Smith? Yes.
93. Then the survey mark would indicate that this was the end of the 728 acres according to Hoddle's survey? Yes.
94. There are 305½ acres outside that claimed by Mr. Crace as a portion of the 728 acres? Yes; but I must explain that a part of that is actually included by the deed.
95. *Mr. Turner.*] Have you Mr. Hoddle's plan? I have not the original plan, but it can be produced, if required. But here is a diagram which accompanied a *précis* that was prepared with the view of getting the Attorney General's opinion upon the question.
96. *Chairman.*] From reading the deed, which, in your opinion, would be the excess area? Taking the deed, I should say that the northern portion was the excess area.
97. And taking the survey? Taking the survey, it leaves out two pieces here. The deed does not really agree with the survey as marked on the ground.

98. *Mr. Turner.*] When there is a difference between the survey and the deed, which takes precedence in law? I can hardly answer a question as to the law of the case, but answering the question as an officer of the department I should say that the deed would take precedence.

Mr. E. A.  
Bronsdon.

31 July, 1890.

99. Was the deed prepared from the surveyor's plan? Yes.

100. Or from any diagram? It is customary to prepare it from the plan. The papers do not show that that was actually the case, but that is the practice.

101. You cannot say that the deed was not prepared from a diagram or from the parish map? I cannot say that it was not, but it is not the practice to do so. The practice is to prepare the description direct from the plan, and the plan is used, too, in preparing the diagram on the deed.

102. *Mr. T. Walker.*] Can you account for the difference between the deed and the survey? The deed agrees with the plan, but the plan does not agree with the marking on the ground. The surveyor shows the 728 acres in the same position (coming in) as the deed describes (shows) it. As far as Mr. Smith could gather from an investigation of Mr. Hoddle's field-books, and from visiting the ground and retracing the lines, and taking these observations it seems that Mr. Hoddle had measured three 640-acre blocks, as shown by blue lines on Mr. Smith's sketch, and then he appears to have altered his survey so as to fix the boundaries in a different position, as shown by the red edging, the most northern boundary being about 37 chains further to the south.

THURSDAY, 12 SEPTEMBER, 1890.

Present:—

MR. TURNER.

MR. T. WALKER.

E. W. O'SULLIVAN, ESQ., IN THE CHAIR.

Edward Arnold Bronsdon recalled and further examined:—

103. *Chairman.*] Will you read to the committee the report made by Surveyor Smith to the Registrar-General at page 21 of the papers in this case? Yes. [*Report read.*]

Mr. E. A.  
Bronsdon.

104. Having made a careful study of the case are you of opinion that Surveyor Smith has correctly explained the error made by Mr. Hoddle? Yes.

12 Sept., 1890.

105. Do you hold the opinion that the land between the northern boundary as shown on the original plan, and the northern boundary as marked by Mr. Hoddle is still Crown land? Yes, I think it is Crown land.

106. Do you produce the original survey made by Mr. Robert Hoddle in 1835? I produce a plan of it, and hand in a copy. [*Vide Appendix A.*]

107. From this plan it is clear that the land to the north now included in the land conveyed to Mr. Crace, was outside the original survey made by Mr. Hoddle? How do you mean "conveyed";—it was not included in the grant?

108. It has been conveyed since in a certificate of title? I have no knowledge of a certificate of title.

109. This plan shows that the excess area conveyed by the certificate of title to Mr. Crace is outside the original survey made by Mr. Hoddle? It shows that there is an excess area of 312 acres outside the land shown on the plan, and described in the deed of grant.

110. Therefore the original plan may be taken as *prima facie* evidence that the excess area still remains Crown lands? Yes.

111. *Mr. Turner.*] From Mr. Smith's report it is evident that Mr. Hoddle's original survey left the excess area to the south? It left it in two pieces, namely a piece of 93 acres to the west, and a piece of 194 acres to the south.

112. By Mr. Smith's report there is evidently a difference between the survey and the plan and deed? The plan and deed agree, and they both differ for the survey.

113. *Mr. T. Walker.*] Then according to the survey the excess area is not to the north, but to the south and west? Yes.

114. And the deed of grant and original plan make the excess area to the north? Yes.

115. It is the northern portion in excess which you say is yet Crown land? Yes.

116. *Mr. Turner.*] All the evidence shows that there is an excess area? —

117. *Chairman.*] The deed and plan show conclusively that the excess area is now to the north? Yes.

118. And that is the land in dispute? Yes.

119. As the facts indicate so plainly that this excess area is to the north of the grant to Mr. Morrisset, how came it that a certificate of title was granted for that land? That is a question for the Registrar-General's Department. The papers do not show that a certificate has been issued.

[Plan.]

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**CROWN LANDS.**

(CORRESPONDENCE IN CONNECTION WITH THE CLAIM OF MR. E. K. CRACE TO LAND ADJOINING  
GUNGAHLEEN ESTATE.)

*Ordered by the Legislative Assembly to be printed, 24 June, 1890.*

SCHEDULE.

NO.	PAGE.
1. Licensed-Surveyor Thompson to The Surveyor-General, with minute and enclosure. 29 June, 1861 .....	2
2. The same to the same, with enclosure. 31 July, 1861 .....	2
2A. Office memorandum, with enclosures. 3 October, 1861 .....	2
3. The same, with minutes. 25 September, 1868 .....	3
4. The Chief Draftsman to District-Surveyor Twynam. 6 October, 1868 .....	3
5. Licensed-Surveyor Thompson to the Surveyor-General, with minutes and enclosures. (6 sketches.) 25 May, 1869 .....	4
6. Office memorandum, with minutes. 7 June, 1869 .....	4
7. The Surveyor-General to the Under Secretary for Lands, with minute. 10 August, 1869 .....	5
8. Application by John Ryan, for 300 acres of unimproved Crown Land. 8 January, 1880 .....	5
9. E. K. Crace to the Chief Commissioner, with minutes and enclosure. 10 January, 1880 .....	5
9A. The same to the same, with minutes and enclosure. 9 February, 1880 .....	6
10. Chief Commissioner to E. K. Crace. 26 February, 1880 .....	6
11. Molyneux and Hodgkinson to the Under Secretary for Lands, with minute. 10 March, 1880 .....	7
12. The Chief Commissioner to J. Ryan, with enclosures. 7 April, 1880 .....	7
13. The same to the Land Agent, at Queanbeyan. 7 April, 1880 .....	7
14. The same to the Under Secretary for Finance and Trade. 7 April, 1880 .....	8
15. The same to E. K. Crace. 7 April, 1880 .....	8
16. Messrs. Blomfield and Dickson to the Chief Commissioner, with minutes. 4 May, 1880 .....	8
17. Messrs. Molyneux and Hodgkinson to the Chief Commissioner, with minute. 12 May, 1880 .....	9
18. The Surveyor-General to the Under Secretary for Lands, with minutes. 8 June, 1880 .....	9
19. Licensed-Surveyor Hodgkinson to the Under Secretary for Lands, with minute. 23 June, 1880 .....	10
20. The Surveyor-General to District-Surveyor Twynam, with minutes and enclosures. 2 July, 1880 .....	10
21. The Under Secretary for Lands to the Secretary for Court of Claims, with enclosure. 9 July, 1880 .....	11
22. Gazette Notice, Court of Claims. 23 July, 1880 .....	12
23. Licensed-Surveyor Deighton to the Surveyor-General, with minutes and enclosure. 13 August, 1880 .....	12
24. E. K. Crace to the Surveyor-General, with minutes. 16 August, 1880 .....	13
25. Licensed-Surveyor Thompson to the Surveyor-General, with minutes. 25 August, 1880 .....	13
26. The Chief Draftsman to the Surveyor-General, with minutes. 3 September, 1880 .....	14
27. Hy. J. Withers to the Secretary for the Court of Claims, with enclosure. 7 September, 1880 .....	14
28. The Secretary for the Court of Claims to Messrs. Blomfield and Dickson. 9 September, 1880 .....	14
29. J. B. Thompson, Esq., M.P., to the Secretary for Lands, with minutes. 25 September, 1880 .....	15
30. The Secretary for the Court of Claims to Messrs. Norton and Smith. 6 October, 1880 .....	15
31. Application by William Boyd for the purchase of 60 acres of unimproved Crown Lands. 7 October, 1880 .....	15

No. 1.

Mr. Licensed-Surveyor Thompson to The Surveyor-General.

Sir, Camp, Ginninderra, 29 June, 1861.

\* Appendix A. In compliance with the instructions contained in your circular of the 28th August, 1857, No. 57,982, I have the honor to transmit a plan\* of three portions of land near Ginninderra, county of Murray, applied for by Wm. Davis and Robert Maloney, whose post-town is Ginninderra.

2. The lagoon on portion 1 is very shallow, and chiefly formed by artificial means.

I have, &c.,

J. B. THOMPSON,

Licensed Surveyor.

Mr. Thompson is reminded that under existing laws portions exceeding 640 acres in area cannot be brought to auction sale, and is requested to subdivide the two large portions accordingly.—A.G.M., B.C., 16/7/61.

No. 2.

Mr. Licensed-Surveyor Thompson to The Surveyor-General.

Sir, Bungendore, 31 July, 1861.

† Appendix B. In compliance with the instructions contained in your circular of the 28th August, 1857, No. 57,982, and in your B.C. letter of the 16th July, 1861, No. 61,939, I have the honor to transmit a plan† of five portions of land near Ginninderra, county of Murray, applied for by William Davis and Robert Maloney, whose post-town is Ginninderra.

I have, &c.,

J. B. THOMPSON,

Licensed Surveyor.

Queanbeyan. Schedule dated 2nd October, 1861.

---

No. 2A.

Office Memorandum.

MEMORANDUM of subjects requiring explanation or completion in connection with the survey and plan of five portions near Ginninderra, county of Murray, transmitted by Mr. Licensed-Surveyor Thompson, letter No. 61-49, of 31st July, 1861, and on which Mr. Thompson's report in explanation is requested.

Subject.	Report.
<p>According to the originals of the adjoining portions, the position of G. T. Palmer's 640 acres is south of that shown on the above plan,‡ as will appear from the accompanying tracing.</p> <p style="text-align: right;">G.M.</p> <p>B.C., 3/10/61. 61-1,362.</p>	<p>The portion of G. T. Palmer's 640 acres, as shown in the originals, is incorrect. On a former occasion I chained the western boundary, and fixed the south-west corner of this land, which corner is also the south-east corner of A. Rolfe's 320 acres; and during the present survey I chained the southern boundary to make myself certain of its position, which is as laid down on my plan.</p> <p>I connected the portion of 618 acres measured by me with G. T. B. THOMPSON, Licensed Surveyor.</p> <p>Camp, Fairy Meadow, near Boro, 9 October, 1861.</p>

‡ Appendix C.

## [Enclosures.]

## DESCRIPTION.

G. T. Palmer, 640 acres, 28th January, 1836.

BOUNDED on the south by a section line which forms the northern boundary of a measured portion of 728 acres, applied for to purchase by J. T. Morrissett, east 80 chains. Commencing at the north-east corner of the said 728 acres; on the east by a section line north 80 chains; on the north by a section line west 80 chains; on the west by a section line south 80 chains, to the north-east corner of the 728 acres aforesaid.

## DESCRIPTION.

A. Rolfe, 320 acres, 1st March, 1858, purchase.

COMMENCING at the south-west corner of G. T. Palmer's 640 acres, and bounded on the south by a line dividing it from part of J. T. Morrissett's 720 acres, bearing west 40 chains; on the west by a line bearing north 80 chains; on the north by a line bearing east 40 chains; and on the east by the west boundary of the aforesaid G. T. Palmer's 640 acres, being a line bearing south 80 chains to the south-west corner thereof as aforesaid.

## No. 3.

## Office Memo.

Lands Department.

Form F.

P.D. 30 June, 1868.

MEMORANDUM of instructions, case 1,518, exhibit E, produced 7th October, 1880, on behalf of claimant.—

W. G. PENNINGTON, Secretary.

Subject.	Reply.
<p>Mr. District-Surveyor Twynam is requested, at his early convenience, to report upon the true position of Florence M'Auliffe's 62½ acres conditional purchase with regard to Palmer's and Morrissett's lands, tracings of which are attached hereto.</p> <p>On the back of this paper Mr. Twynam will find a copy of memo. sent to Mr. Licensed-Surveyor J. B. Thompson, together with his reply.</p> <p style="text-align: right;">P. F. ADAMS.</p> <p>3 July. No. 68-94.</p>	<p>I have measured the connection shown by the diagram below, which proves the correctness of the position of M'Auliffe's 62½ acres, as shown by Mr. Haughton and Mr. Thompson respectively.</p> <p>The Ginninderra section can be identified by the Ginninderra and Head Station. I cannot assign any for the discrepancy between and the subsequent survey.</p> <p style="text-align: right;">EDWARD TWYNAM, District Surveyor.</p> <p>Yass, 25 September, 1863.</p>
<p>Florence M'Auliffe's 62½ acres, 65-20,418.—P.D., 9/5/67.</p> <p>G. T. Palmer's 640 acres, connected by Mr. Thompson with the above measurement, appears to come half a mile further south from the south extremity of the southern portion of the west boundary of J. T. Morrissett's 728 acres than it should. Mr. Thompson to afford an early explanation.</p> <p style="text-align: right;">W.R.D.</p> <p>9 May, 1867.</p>	<p>I have carefully re-examined this connection, and found it correct as between the north-west corner of J. T. Morrissett's 728 acres and the north-east corner of F. M'Auliffe's 62½ acres conditional purchase. I found the north-west corner of J. T. Morrissett's 728 acres and the northern boundary of G. T. Palmer's 640 acres beyond a doubt, but the western boundary marks of the former cannot now be found, and I was thus compelled to connect with the corner before of which I was certain.</p> <p style="text-align: right;">J. B. THOMPSON, Licensed Surveyor.</p> <p>Queanbeyan, 2 June, 1868.</p>

## No. 4.

## The Chief Draftsman to Mr. District-Surveyor Twynam.

Case No. 1,518, exhibit G. produced on behalf of claimant.—W. G. PENNINGTON, Secretary.  
Memo. for Chief Draftsman, 68-9,453.

## [Urgent.]

THERE appears to be a discrepancy existing with regard to the position of J. T. Morrissett's 728 acres and John Burke's 160 acres and F. M'Auliffe's 62½ acres, as shown per annexed tracing.

J. T. Morrissett's portion would contain, by the position of the above-mentioned two portions, an area of about 1,025 acres, or else there must be a piece of Crown land containing an area of about 297 acres.

Description

Description of J. T. Morrissett's 728 acres:—Bounded on the east by the first section line east of J. T. Palmer's northern portion, being a purchase of 640 acres, north 115 chains, commencing at the south-east corner; on the north by a section line west 80 chains; on the west by a section line south 35 chains to the northern boundary of G. T. Palmer's said 640 acres; thence by lines east 24 chains and south 80 chains; and on the south by part of G. T. Palmer's eastern portion, being a purchase of 640 acres, east 56 chains, to the south-east corner aforesaid.

6 October, 1868.

T.H.L.

Mr. District-Surveyor Twynam will be good enough still further to test this discrepancy by causing the measurement of Morrissett's and Palmer's east lines, or any other lines he may see to be necessary.—J.S.A. (for S.G.), 17/10/68. 148.

Mr. Licensed-Surveyor Thompson is instructed to define accurately the position of J. T. Morrissett's 728 acres. It appears to me desirable to start from the north-east corner of G. T. Palmer's 640 acres (the Ginninderra section), thence along its north boundary to the south-east corner of Morrissett's 728 acres, and along the east boundary of that land and its continuation to the south-east corner of A. Rolfe's 320 acres. Mr. Thompson is at liberty to exercise his discretion in making any other measurement.—E. TWYNAM, District Surveyor, Goulburn, 22/12/68.

### No. 5.

#### Mr. Licensed-Surveyor Thompson to The Surveyor-General.

Case No. 1,518; exhibit C; produced, 7 Oct., 1880, on behalf of claimant—W. G. PENNINGTON, Secretary.

Sir,

Queanbeyan, 25 May, 1869.

Papers and six tracings returned herewith. \*Appendix D, E, F, G, H, I.

In compliance with the instructions conveyed by your B.C. memo. No. 68-148, and by the direction of the District Surveyor, I have measured the eastern boundary of J. T. Morrissett's 728 acres, and I now transmit a sketch\* showing the length and relative position of that boundary to other adjacent alienated lands.

An account in triplicate for the above-mentioned service is enclosed herewith.

I have, &c.,

J. B. THOMPSON,

Licensed Surveyor.

P.S.—The inaccuracy in the position of the northern boundary of J. T. Morrissett's 728 acres, which should, and which in fact does, coincide with the westerly prolongation of the southern boundary of G. T. Palmer's 640 acres, was indicated on my plan transmitted with my letter, No. 61-39, of the 29th June.

Submitted.—E. TWYNAM, D.S., 7/4/69.

It appears from this plan and letter that a serious discrepancy exists in the area embraced by the lines of Jas. T. Morrissett's 728 acres as given by Mr. Hoddle. Mr. Licensed-Surveyor Thompson shows the length of the east boundary line to be 154.20 links, or 39.20 links in excess of Mr. Hoddle's survey, thereby showing that the area embraced in excess is more than 313 acres. As it is of so old a date, over thirty years, what shall now be done in this case? It does not interfere with F. M'Auliffe's conditional purchase, Cat. M. 16-1,956.—T.H.L., 24/5/69.

Mr. District-Surveyor Twynam is requested to report as to the occupation of the 313 acres in excess of Morrissett's 728 acres.—P.D., 29/5/69. 69-3,391 noted and catalogued.—P.D., 29/10/69.

### No. 6.

#### Office Memorandum.

MEMORANDUM of instructions; case No. 1,518; exhibit D; produced, 7th Oct., 1880, on behalf of claimants.—W. G. PENNINGTON, Secretary. To be returned with reply.

Subject,	Reply.
Mr. District-Surveyor Twynam is requested at his early convenience to report with regard to the letter and plan recently transmitted to this Department by Mr. Licensed-Surveyor Thompson of J. T. Morrissett's eastern boundary.	Mr. William Davis, of Ginninderra, is the owner and occupier of J. T. Morrissett's 728 acres, and the debateable land in question, about 313 acres, is now and has been for several years held by Mr. Wm. Davis, is not improved, and is used for pastoral purposes only.
Mr. Licensed-Surveyor Thompson and Mr. District-Surveyor Twynam both give that boundary as about 154 chains, and not 115, as mentioned on Mr. Hoddle's survey, and in accordance with which last a deed has been issued to the said J. T. Morrissett.	Should the deeds of grant of A. Rolfe's 320 acres or J. Burke's 160 acres have been issued, and should the lands thereby alienated be described as contiguous to J. T. Morrissett's 728 acres, then I submit that the surplus land (313 acres) cannot now be resumed.
Mr. District-Surveyor Twynam will thus see that an area of about 313 acres has not been included by that deed in Morrissett's 728 acres, and will now have the goodness to report as to whether it is under occupation by him (Morrissett), and how or in what manner it is being occupied, either by him or any of the adjoining proprietors.	E. TWYNAM, District Surveyor. Goulburn, 7th June, 1869.
J.S.A., (For Surveyor-General).	
28th May, 1869, No. 80.	

Rolfe's 320 acres has been described in his deed as bounded on the south by part of J. T. Morrissett's 720 acres; the deed for Burke's, now Rolfe's, 160 acres also appears to have been issued.—T.H.L., 17/6/69. Notwithstanding

Notwithstanding, it has been held by the Crown Law Officers, and the principle has been acted on, that this is not sufficient for the title, and in one such case the land has been resumed by the Crown. It is considered desirable to submit this case, but, before doing so, perhaps Mr. Twynam could say whether there is any reason to believe that the dimensions given by Mr. Hoddle on his plan were those marked by him on the ground, and that the section lines shown on his plan as conterminous with the north boundary of Morrissett's 728 acres were so shown in mistake.—J.S.A. (for S.G.), 25/6/69. No. 102. E. Twynam.

It is impossible for me to obtain the information desired (B.C. 69-102), nor can I in any manner account for the apparently erroneous survey. I can only state that both Mr. Thompson and myself have searched in the proper position for the north boundary of Morrissett's 728 acres and cannot find any trace of survey marks.—E. TWYNAM, District Surveyor, 15/7/69. Mr. Adams.—16/7/69. S.G.O.

### No. 7.

#### The Surveyor-General to The Under Secretary for Lands.

Case No. 1,518, exhibit B, produced on behalf of claimant, 7th October, 1880.—W. G. PENNINGTON, Secretary.

In the measurement of adjacent portions a serious discrepancy between the area and dimensions of J. T. Morrissett's 728 acres, in the county of Murray, as marked on the ground and occupied, and as shown on Mr. Hoddle's original plan, and described in the deed, has been brought to light.

The accompanying tracing is illustrative of this discrepancy, and shows by a red tint the area shown by Mr. Surveyor Hoddle's plan, and described in the deed, and by purple lines the actual area on the ground. The actual area as so marked is about 1,041 acres, or 313 acres in excess of the area shown in Mr. Hoddle's plan, and mentioned in the deed. As it cannot be discovered that this marking on the ground has been the result of inadvertence, it is not recommended that any steps be taken for the purpose of resuming the 313 acres in excess. The error originated with the surveyor, and as the occupier has had thirty years undisturbed possession, the question as to whether or not steps should be taken to eject him is submitted.

10 Aug., 1869.

P. F. ADAMS.

No action can be recommended.—W.F., B.C., 13/8/69. Surveyor-General. Mr. Lewis, for noting on original. Noted on plan. Catalogue and a tracing placed in sketch-book, showing excess of area, &c. Vol. 10, fol. 56.—T.H.L., 3/9/69.

### No. 8.

#### Application by John Ryan.

80-4.

G.

[Alienation Act—section 22.]

Application by John Ryan, farmer, Ginninderra, for the conditional purchase, without competition, of 300 acres (more or less) unimproved Crown land, under section 22 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £75, this 8th day of January, 1880, at 11 o'clock,—

O. WILLANS,

Agent for the Sale of Crown Lands at Queanbeyan.

Land Agent's Number.	Date of previous Conditional Purchases.	Area of each Conditional Purchase. Acres.
Freehold (if any) contains per deed.....		
4.....	Jan., 1880.....	320
		300
Total .....		620

Sir,

Queanbeyan, 8 January, 1880.

I am desirous of purchasing, without competition, under the 22nd section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 300 acres (more or less), which adjoins my conditional purchase or freehold property of 320 acres, upon which I am now residing, and I herewith tender the sum of £75, being a deposit at the rate of 5s. per acre on the area for which I apply.

A purchase after auction by A. Rolfe, on the 1st. March, 1858, now John Ryan.

This is the first selection made by me in virtue of my conditional purchase or freehold of 320 acres, I am, &c.,

JOHN RYAN,

Ginninderra.

To the Agent for the Sale of Crown Lands at Queanbeyan.

#### Description.

County of Murray, parish of Canberra, 300 acres (more or less): Bounded on the north by A. Rolfe's 160 acres and A. Rolfe's (now John Ryan's) 320 acres; on the east by portion G3 and part of portion 74, taken up by H. W. Palmer and C. R. Palmer respectively; on the south by Morrissett's 728 acres; and on the west by portions 61 and 81, Weetangra, taken up by F. M'Auliffe and G. Harcourt respectively. Through an error of compilation, and in the re-marking of a grant of G. Palmer, the area applied for does not appear on the maps as available for selection, although it does exist on the ground.

### No. 9.

#### Mr. E. K. Crace to The Chief Commissioner.

Sir,

Gungahleen, Ginninderra, 10 January, 1880.

I have the honor to draw your attention to an application made by John Ryan at the Lands Office, Queanbeyan, on the 8th instant, for a conditional purchase of 300 acres, in the parish of Canberra, county of Murray, under section 22 of the Lands Act.

The land applied for, I believe, forms a portion of a grant to J. T. Morrissett of 728 acres, the boundaries of which are duly described in the deed of grant of such 728 acres, which are in my possession.

I have the honor, therefore, respectfully to request that you will notify that the said John Ryan's application is illegal, and instruct the Government Land Agent at Queanbeyan to cancel the same.

I have, &c.,

EDWARD K. CRACE.

Alienation records, alienation paper 69-6,391 required.—F.W.R., 5/2/80. The case is under reference to Charting Branch. Inform, and return to Mr. Rutter.—A.O.M., 26/2/80. E. K. Crace, 26/2/80. Mr. Rutter.

No. 9A.

## No. 9A.

## Mr. E. K. Crace to The Chief Commissioner.

The Chief Commissioner of Conditional Sales, Sydney, Queanbeyan Land District,—

Sir,

Gungahleen, Ginninderra, 9 February, 1880.

M. 47 and 47a,  
743. Voiding  
noted.  
Appendix Plan  
J.

I have the honor herewith to refer to my letter to you of 10th January last, *re* John Ryan's application for a conditional purchase of 300 acres, from and to be taken out of the area granted by purchase on 1st March, 1846, to J. T. Morrissett, situate in the parish of Canberra, county of Murray.

I have now the honor to enclose my statutory declaration to the effect that I value the improvements upon the 300 acres applied for out of this freehold at £250.

I also respectfully request your attention to the following facts, *viz.* :—

- 1st. That the land in question was duly surveyed, and was included in the deed of grant to J. T. Morrissett, and has for the last thirty-four years been in possession of and has formed a part of this estate.
- 2nd. That twelve years ago the attention of the Government was drawn to the fact that there was an excess of area in the deed of grant of 728 acres to J. T. Morrissett, and that after inquiry the Government declined to interfere with the deed of grant wherein the boundaries were defined, or to take action to disturb the then holder of this estate.
- 3rd. That the portion of the grant applied for by John Ryan is considerably improved, *viz.*, by fencing, cultivation, three sheep-yards, huts, yards, clearing and ringbarking, and land also now under crop, and leased to a tenant, all of which I value at, at least, £250.
- 4th. That these improvements have been erected because security of tenure was certain.
- 5th. That the portion applied for by John Ryan is still freehold, and just as much as any other portion of the grant to J. T. Morrissett of 728 acres is a freehold also.

I have the honor to respectfully solicit that my rights under the deed of grant to Morrissett may be respected, and that John Ryan's application may be dealt with at your early convenience.

I have, &c.,

EDWARD K. CRACE.

For action as noted on minute enclosed; papers then for Charting Branch.—C.N., 24/2/80. Mr. Rutter. See action noted on C.S. 89-1,771.—H.A.F.

With respect to this letter and the conditional purchase in question of the area held in excess, attention is invited to the Secretary for Lands' (Forster) decision of the 13th April, 1869, on 69-6,391 Alienation (see tracing), and a decision is requested as to the action to be now taken.—ROBERT D. FITZGERALD (for the Surveyor-General), 8/3/80. F.W.R.

Chief Commissioner of Conditional Sales. Return with decision.

The fact that an area much in excess of that mentioned in the grant had been included in the measurement was brought under the notice of Mr. Secretary Forster in 1869, who declined to take any action in the matter (see his decision enclosed). I think that decision must be held to have operated as an abandonment of any claim to the excess of area, otherwise that was the time to have asserted a claim on the part of the Crown to the area in question, which certainly cannot be said to be included by the grant, the description of which is definite. Consistently therewith the selection recently made should, I think, be declared void. There is no reason that I know of why the present applicant should be encouraged to retain, or attempt to retain, land largely improved by the present possessor of it, whose boundary was marked to include it by the Government Surveyor forty-one years ago, and allowed to rest undisturbed (though questioned by the Survey Department eleven years ago). The cancellation of the selection will not deprive him of a right to appeal to the Supreme Court, should he be so advised, in support of his claim, while the recognition of it would not protect him from litigation on the part of the grantee.—A.O.M., 8/3/80.

I concur with the Chief Commissioner.—J.H., 18/3/80. E. K. Crace and John Ryan, care of Molyneux and Hodgkinson, informed, with refund voucher Agent and Treasury, 1/4/80. Voiding noted on plan.—H. P. RICH, 19/4/80.

## [Enclosure.]

I, EDWARD KENDALL CRACE, of Gungahleen, in the Colony of New South Wales, Esquire, do solemnly and sincerely declare that the improvements upon the 300 acres of land in the parish of Canberra, county of Murray, applied for by John Ryan, at Queanbeyan, on the 8th day of January last, as a conditional purchase under the Crown Lands Alienation Acts, belong to me, and are of the value of £250.

And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affirmations."

EDWARD K. CRACE.

Subscribed and declared at Queanbeyan, this 10th }  
day of February, A.D. 1880, before me,—

MARTIN BYRNE, J.P.

## No. 10.

## The Chief Commissioner to Mr. E. K. Crace.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 26 February, 1880.

C.P. 80-4 ;  
300 acres ;  
8 January, 1880 ;  
Queanbeyan.

With reference to your letter of the 9th instant, further respecting the matter of your protest against the conditional purchase of John Ryan, as per marginal note, as including part of the grant of 728 acres to J. T. Morrissett, and embracing valuable improvements erected by you, I am to inform you that the case is under reference to the Charting Branch of the Survey Office, and when a decision is come to you will be further communicated with on the subject.

I have, &c.,

WM. BLACKMAN

No. 11.

Molyneux and Hodgkinson to The Under Secretary for Lands.

Sir,

Queanbeyan, 10 March, 1880.

We are requested by Mr. John Ryan, of Ginninderra, to forward to you the enclosed explanatory tracing in connection with his application for 300 acres of land (particulars as per margin), and to point out that the mistake made as to the position of block E cannot possibly entitle the holder of block F to claim land not originally included in the survey of his block.

M. 47-743  
voiding noted.  
M. 47a, 743.

Mr. Government Surveyor Smith was for some time engaged on the survey of 60, 61, 81, &c., and it is respectfully suggested that he can throw valuable light on the matter if referred to.

We are, &amp;c.,

MOLYNEUX AND HODGKINSON,

Land Agents.

Application No. 4-80, John Ryan, 300 acres or more, section 22, 8 January, 1880, parish of Canberra, county of Murray.

Action in connection with the enclosed conditional purchase application has already been taken on 80-5,837 C.S., which should be placed herewith.—H. P. RICH, 28/4/80.

No. 12.

The Chief Commissioner to Mr. J. Ryan.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 7 April, 1880.

Referring to your conditional purchase application noted in the margin, which, it appears, is for an area said to be held in excess of that mentioned in the grant to Mr. J. T. Morrissett (now Crace), on the 1st March, 1846, I am directed by the Minister for Lands to inform you that there does not appear to be any reason why you should be allowed to retain land largely improved by the present possessor of it, whose boundary was marked to include it by the Government Surveyor forty-one years ago, and allowed to rest undisturbed eleven years ago.

C.P. 80-4;  
300 acres;  
8 January, 1880;  
Queanbeyan.  
Refund voucher.

Mr. Secretary Hoskins has therefore decided that your selection must be declared void, and the usual refund voucher is now enclosed, which will enable you to obtain a return of the deposit money paid.

I have, &amp;c.,

A. O. MORIARTY,

Chief Commissioner.

[Enclosures.]

NEW SOUTH WALES.

Conditional Purchase—Revenue Refunded.

Dr. to John Ryan.

Department of Lands, Sydney, 7 April, 1880.

	Amount to be refunded.		
	£	s.	d.
For the following refund, viz. :—C.S. No. 80-4 ; C.P. No. 80-5,837.			
Land Office at Queanbeyan ; date of selection, 8th day of January, 1880 ; deposit paid on 300 acres .....	75	0	0
Selection withdrawn or void to the extent of 300 acres, as the land is largely improved and held under a grant.			
Deposit to be refunded on 300 acres .....	75	0	0

(C.P. No. 80-4 ; C.S. No. 80-5,837.)

Sir,

I desire to inform you that the application made by you at Queanbeyan, on the 8th January, 1880, for the conditional purchase of 300 acres of land is void, as the land applied for is largely improved, and held under a grant.

Deposit paid £75

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &amp;c.,

WM. BLACKMAN

(For the Chief Commissioner).

Mr. Jno. Ryan, Mr. E. K. Crace, Gungahleen, Ginninderra.

No. 13.

The Chief Commissioner to The Land Agent, Queanbeyan.

(C.P. No. 80-4 ; C.S. No. 80-5,837.)

Sir,

Department of Lands, Sydney, 7 April, 1880.

I desire to inform you that the application of John Ryan, on the 8th January, 1880, for the conditional purchase of 300 acres of land is void, as the land is largely improved, and held under a grant.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &amp;c.,

W. BLACKMAN

(For the Chief Commissioner).

Conditional Purchase—Revenue Refunded.

(C.P. No. 80-4; C.S. No. 80-5,837.)

Sir,

Department of Lands, Conditional Sales Division, Sydney, 7 April, 1880.

I have to inform you that the conditional purchase noted in the margin being void, as the land applied for is largely improved, and held under a grant, you will be good enough to refund to the selector the sum of £75, being the deposit money paid thereon.

2. I am to add that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &amp;c.,

WM. BLACKMAN

(For the Chief Commissioner).

## No. 15.

## The Chief Commissioner to Mr. E. K. Crace.

Department of Lands, Conditional Sales Division, Sydney, 7 April, 1880.

Sir,

Adverting to the matter of your protest under date 9th February last, against the conditional purchase noted in the margin, as being for an area held by you under a grant to Mr. J. T. Morrissett, although stated to be in excess of that mentioned in the grant, and the same being considerably improved, I am directed to inform you that there does not appear to be any reason why the present applicant should be encouraged to retain, or attempt to retain, land largely improved by the present possessor of it, whose boundary was marked to include it by the Government Surveyor forty-one years ago, and allowed to rest undisturbed, although questioned by the Survey Department eleven years ago.

The Minister for Lands has therefore decided that Ryan's application must be declared void, to which effect he (Ryan) has been apprised.

I have, &amp;c.,

A. O. MORIARTY,

Chief Commissioner.

## No. 16.

## Messrs. Blomfield and Dickson to The Secretary for Lands.

Sir,

139, Pitt-street, 4 May, 1880.

We have been instructed by E. K. Crace, Esq., the proprietor of the Gungahleen Estate, Ginninderra, to draw your attention to the deed of grant issued to Mr. J. T. Morrissett, under date 1st March, 1841, and to apply to have the deed amended so as to embrace the full area under the description in said grant.

In support of this application we shall necessarily have to go fully into particulars connected with the case.

In the year 1835 Mr. Licensed-Surveyor Hoddle was instructed to make a survey of J. T. Morrissett's land, which he did, and furnished a plan on which he showed only 728 acres. Subsequently it was ascertained that a serious discrepancy existed as to the area embraced by the lines of J. T. Morrissett's land, as given by Mr. Licensed-Surveyor Hoddle.

Mr. Licensed-Surveyor Thompson showing the length of the eastern boundary lines to be 154 chains and 20 links, as against 115 chains shown by Mr. Surveyor Hoddle, or 39 chains 20 links in excess, making a difference in area of about 300 acres, more or less. Mr. District-Surveyor Twynam also gives the eastern boundary-line of Morrissett's land at about 154 chains, thus agreeing with Mr. Licensed-Surveyor Thompson. However, in the year 1841 a deed was issued to Mr. Morrissett for 728 acres only, instead of for 1,041 acres, the actual area as measured on the ground.

In the year 1869, the matter having been brought under notice, the Surveyor-General reported that an error had been made by the surveyor (Mr. Hoddle), and that as the occupier had then had undisturbed possession for thirty years it was for the Minister to say whether any steps should be taken to eject him. Mr. Forster, then Secretary for Lands, decided that no action for ejectment could be taken, after which nothing further is heard until on the 8th January, 1880, one John Ryan made a conditional purchase of a portion of the land claimed as Mr. Morrissett's property (now E. K. Crace's), and the latter at once took steps to have the selection of Ryan declared void, as the land was highly improved, and also held under a deed of grant, and on the 7th April, 1880, the selection of John Ryan was declared void, thereby again admitting that an error had been made in not including in the deed in the first instance the area as included in the measurement.

Under these circumstances, and in order that our client may be protected from further annoyance from persons believing that this 313 acres not now included in the deed issued to Mr. Morrissett is open to selection, we beg to apply that Mr. Crace, the present proprietor, be put into proper possession of his land by the Government—that is, the land which is clearly shown by the reports of Messrs. Thompson and Twynam, two very able and efficient officers of the Survey Department, to be within the measurement made by Mr. Licensed-Surveyor Hoddle, either by giving him a fresh deed for the balance of the area, or by an amendment of the original deed, under the Land Titles Act of 1838.

There can be no doubt that had Mr. Licensed-Surveyor Hoddle performed his duty in a satisfactory manner, or had the Survey Office at the time of preparing the description properly and carefully checked Mr. Hoddle's measurement, the error would have been discovered, and the proper area would have been given in the grant. Mr. Morrissett and subsequent purchasers, always believing that they were possessed of the larger area, and having had undisturbed possession of same for forty years, have gone on largely improving the land, and for the foregoing reasons we would respectfully request that you will, without further delay, take such steps in the matter as to place our client in proper legal possession of the full area embraced by the measurement of Mr. Licensed-Surveyor Hoddle, viz., 1,041 acres, more or less, and erroneously given in the deed of grant as 728 acres.

We have, &amp;c.,

BLOMFIELD AND DICKSON.

Urgent.

District,  
Queanbeyan;  
name, John  
Ryan; date of  
selection, 8th  
January, 1880;  
area, 300 acres;  
deposit, £75.

C.P. 80-4; 300  
acres;  
8th January,  
1880;  
Queanbeyan;  
John Ryan.

Urgent. The Under Secretary,—Please let me have an early report on this case.—J.H., 4/5/80.  
Mr. Wiseman.

80-3,383 Al.—By reference to the papers I find that the statements contained in the communication are substantially correct, viz., that the grantee, Mr. J. T. Morrissett, was entitled to the full area of land measured for him, viz., about 1,041 acres, and not 728 acres, as given in the description of his deed. I beg, therefore, to submit that the grant be surrendered to the Crown, and two fresh deeds prepared (the grant containing description of two separate pieces of land—728 acres and 640 acres), the one to contain the correct area measured for Mr. Morrissett, 1,041 acres, and the other to re-issue to that gentleman, giving the description as now contained therein.—J.W., 7/5/80.

The above will be the proper course to pursue, I believe, but as an error of description is involved it will be better to have the propriety of the proposed action confirmed by the Survey Department.—W.W.S., 10/5/80.

They being issued in same grant, fol. 68-239, Land Purchase.—J.W., 14/5/80. I concur with the Under Secretary that this case, and the suggestions embodied in the foregoing minute, should be referred to the Survey Branch for report.—J.H., 10/5/80. Mr. T. H. Lewis. The Chief Draftsman.—Very urgent.—J.W., 11/5/80.

80-3,383 Aln.—The land was advertised as lot 69 of sale at Sydney, on 9th December, 1835, containing 728 acres, at the upset price of 5s. per acre, and was purchased by Lieut.-Colonel J. T. Morrissett, who paid £182 in remission money, being at the upset price of 5s. per acre. The length of lines given by Mr. Huddle on his plan M. 47,743 agrees with the description contained in the deed, and those lengths give the area, 728 acres. But the marking of those lengths on the ground, shown by the recent surveys of the adjoining portion, gives the east and west boundaries an excess of about 39 chains, and the north and south boundaries the same as those given by Mr. Huddle, making the area 1,041 acres, about 313 acres in excess. Lieut.-Colonel Morrissett having paid for only 728 acres, in accordance with the area and description given, I cannot recommend the course proposed by the Under Secretary for Lands to be carried out, as I know of no precedent that would allow the Government to include so large an area in excess over that paid for to be included in a new deed. Neither do I think that the Land Titles Office would issue a certificate without the application went through the form prescribed under the Court of Claims. Pursuing any other course would open a wide door for similar applications to creep in and involve the Government hereafter in the necessity of appointing a Board of professional and non-professional officers to investigate the cases as they arise, and would require a Short Titles Act to make the decision legal, I presume. The 11th clause of the Lands Act of 1861 allows the Governor, with the advice of the Executive Council, the sale of Crown lands without competition, "in which buildings are erected on lands already granted may have extended over Crown land, or in any other cases of a like kind," but I do not see that this clause could be made applicable to this case, as applicants claim the land now in debate. Mr. ex-Minister Forster (69-6,391 Aln., 13th August, 1869) decided, "No action can be recommended"; see also the Chief Commissioner Conditional Sales memo. on 80-5,837 C.S., of 8th March, 1880. I beg to recommend that the case be either referred to the Court of Claims, or that a Short Titles Public Bill be hereafter passed to meet such cases.—THOMAS H. LEWIS, 14/5/80.

#### No. 17.

Messrs. Molyneux and Hodgkinson to The Chief Commissioner for Crown Lands.

Sir,

Queanbeyan, 12 May, 1880.

We are directed by Mr. John Ryan, of Ginninderra, to acknowledge the receipt of your letter (particulars as per margin), and to inform you that he regrets that he cannot consent to accept the decision therein set forth, on the following grounds:—

Letter dated 7th April; 1,580; C.S. 80-5,837; addressed to John Ryan, in reference to his C.P. 80-4, made 8 January, 1880.

1. That it is not at all clear that the land was ever included in the original measurement of Morrissett's 728 acres, but that, in later years, an old section line was mistaken for its northern boundary. On this point Mr. Ryan has already requested a careful investigation, as he does not consider that the hurried examination made by Mr. Twynam some eleven years ago was such as could satisfactorily clear up the matter.
2. Even if the land were actually included in the original measurement, the excess of chainage was far above the limit of error allowed, and such as would justify the Government in resuming the surplus area.
3. That, if the owner of the land has been in improper possession of the surplus area, the fact of his having placed improvements thereon means nothing, unless they are sufficient to bar selection.
4. That, as a matter of fact, at the date of selection the improvements on the ground were of very little value indeed.

Under the circumstances Mr. Ryan has determined to decline to accept the return of his deposit, and to institute legal proceedings, if necessary, against the Government to be put in possession of the area applied for by him.

We are, &c.,

MOLYNEUX AND HODGKINSON,  
Land Agents.

#### No. 18.

The Surveyor-General to The Under Secretary for Lands.

Surveyor-General's Office, Sydney, 8 June, 1880.

I THINK that some misapprehension has taken place with reference to this case.

Lieut.-Colonel Morrissett purchased 728 acres at auction, and received a deed for that area, which agrees with the original plan.

It appears, however, that his representatives have been occupying about 313 acres adjoining, which is stated to have formed a part of the original measurement.

Whether this was the case or not I am unable after such a lapse of time to say; but I am not prepared to admit that an error on the part of the surveyor, even if I was certain that it was one, could entitle an individual to an extension of 50 per cent. to his original purchase.

The land is still Crown land in my opinion.

It often happens that the measurements of old grants are excessive, and if there is evidence of bad chainage, or if by any other cause of that kind the owner has been led into occupation for many years of land not intended to be conveyed to him, it is not customary to take advantage thereof; in fact, almost all of the grants in the county of Cumberland are measured from 6 to 10 per cent. in excess of dimensions, and in such cases no attempt is made to recover the land; but in the case quoted the old plan clearly shows the land conveyed, and also that the surveyor, Mr. Hoddle, was fairly accurate in his work, and there is nothing to show that the 728 acres alienated was not a part of an originally measured portion of 1,041 acres, and the marking of the new boundary might through neglect have been omitted.

Under these circumstances I am scarcely prepared to give way.

Cases of this kind were formerly adjudicated by the Court of Claims, and if that tribunal is still in existence this case might be sent for decision.

The fact of conditional purchasers having been warned off the land, as not being Crown land, may constitute a claim to continued possession by the representatives of Morrissett.

P. F. ADAMS.

In making the proposition contained in my minute of the 10th ultimo I was guided by the statement that the grantee was really entitled to the area of 1,041 acres. The memoranda from the Survey Department place a different complexion on the case, and as there appears to be conflicting opinions as to the merits of the claim put forward by Messrs. Blomfield and Dickson on behalf of the present holder of the grant, it might be the best course, as suggested by the Surveyor-General, to refer the case to the Commissioners of the Court of Claims, with a request that they will investigate the same at the first opportunity practicable.—W.W.S., 12/6/80. Approved.—J.H., 14/6/80.

Mr. De Low,—Forward to the Court of Claims. Secretary to the Court of Claims, with papers; also Messrs. Blomfield and Dickson informed.—June, 1880.

### No. 19.

#### Mr. Licensed-Surveyor Hodgkinson to The Under Secretary for Lands.

Sir,

Sydney, 23 June, 1880.

Referring to the conditional purchase of John Ryan (particulars as per margin\*), and to a communication from Messrs. Molyneux and Hodgkinson dated 10th March last, suggesting the probable explanation of certain apparent discrepancies, and asking that the matter might be referred to the Local Surveyor for report, I have the honor to inform you that I have proved the accuracy of the theory therein set forth by discovering the original northern boundary of Morrissett's 728 acres in the position that it would occur according to the admeasurements described on the original survey.

I will be prepared at any time to point out the old marked line to any officer of the department that may be instructed to look into the matter.

I have, &c.,

PERCY C. HODGKINSON,  
Licensed Surveyor.

\* P.S.—The line occupies the position roughly indicated in the subjoined sketch.

Conditional purchase No. 80-11, by John Ryan, 300 acres or more, under section 22, made 8th January, 1880; parish of Canberra, county of Murray.

As Mr. Hodgkinson now states the original northern boundary of Morrissetts' 728 acres has been found, &c., the case should perhaps be again referred to the Survey Department in order that the statement may be investigated, especially as Mr. Hodgkinson, who it seems is a Licensed Surveyor, is prepared to point out the old marked line.—R.H.D., 23/6/80.

Yes, I think so.—J.G.B., 23/6/80. The Under Secretary. The Surveyor-General—W.W.S., 28/6/80. Send copy of Mr. Hodgkinson's letter to Mr. D. S. Twynam, who will be good enough to cause the statement of finding the old boundary to be verified on the ground.—P.F.A., 30/6/80. I am not prepared to advise proceedings to be stayed pending the verification of Mr. Hodgkinson's statement, the papers are therefore returned to Lands.—P.F.A., 30/6/80. District-Surveyor Twynam., 2/7/80—No. 282. The Under Secretary for Lands.—B.C., 2/7/80.

Mr. Hodgkinson informed 9th July, 1880; Messrs. Blomfield & Dickson that case is referred to Court of Claims, 9th July, 1880.

Copies of these letters are unobtainable

### No. 20.

#### The Surveyor-General to Mr. District-Surveyor Twynam.

[Urgent.]

Sir,

Surveyor-General's Office, Sydney, 2 July, 1880.

In forwarding to you herewith copy of a letter of 23rd ultimo from Mr. Licensed-Surveyor Hodgkinson to the Under Secretary for Lands, respecting a conditional purchase by John Ryan of 300 acres, in the parish of Canberra, county of Murray, I have to request that you will be good enough to cause the statement made by Mr. Hodgkinson of finding the old boundary to be verified on the ground.

I have, &c.,

P. F. ADAMS.

After inspection and identification of the old marked line, instructed Mr. Licensed-Surveyor Deighton to survey.—E.T., 30/7/80.

[Enclosures.]

[Enclosures.]

[Immediate.]

Sir,

Referring to the conditional purchase of John Ryan (particulars as per margin), and to a communication from Messrs. Molyneux & Hodgkinson, dated 10th March last, suggesting the probable explanation of certain apparent discrepancies, and asking that the matter might be referred to the local surveyor for report, I have the honor to inform you that I have now proved the accuracy of the theory therein set forth by discovering the original northern boundary of Morrissett's 728 acres in the position that it would occur according to the admeasurements described in the original survey. I will be prepared at any time to point out the old marked line to any officer of the department that may be instructed to look into the matter.

Sydney, 23 June, 1880.

I have, &amp;c.,

PERCY C. HODGKINSON,  
Licensed Surveyor.

C.P. No. 11-80,  
by John Ryan;  
300 acres or more  
under section 22;  
made 8th  
January, 1880;  
parish of  
Canberra;  
county of  
Murray.

The Under Secretary for Lands, Sydney.

P.S.—The line occupies the position roughly indicated in the subjoined sketch.

John Ryan's Conditional Purchase 80-4 at Queanbeyan.

29 July, 1880.

THE position of the north boundary of Morrissett's 728 acres has for some time been disputed; a line of marked trees easterly from a point about 1 chain northward of the common boundary of portions 60 and 61 has lately been discovered, and appears to be the boundary in question. For the information of the Surveyor-General in dealing with John Ryan's claim to the conditional purchase of the land northward of Morrissett's 728 acres, it is requisite to determine carefully the relative position of the old line of marked trees above mentioned; therefore, I would advise the tracing and measurement of a line east from the point above specified, carefully taking offsets to all the trees of the authenticity of which as surveyor's marks there can be no doubt—also the survey and valuation of such improvements as have been from time to time effected upon the land now claimed by Ryan, which comprises clear cultivated land and fencing, concerning which full particulars should be afforded. A plan should be drawn to the scale of 8 chains to an inch (with diagram if requisite), showing in detail the line of old marked trees, and also particulars of the boundaries of the adjacent alienated land effected by this conditional purchase.

Alienation  
80-4,841.

Mr. Licensed-Surveyor Deighton is instructed to act.

E. TWYNAM,  
District Surveyor.

Surveyed in accordance with instructions.

\* Plan and report with my letter of 13th August, 80-27.—ROBERT DEIGHTON, Licensed-Surveyor.

\* Appendix K

## No. 21.

## The Under Secretary for Lands to The Secretary for Court of Claims.

Case 1,518.

Sir,

Department of Lands, Sydney, 9 July, 1880.

I am directed to forward to you the enclosed letter, dated 4th May last, from Messrs. Blomfield and Dickson, in which those gentlemen request, on behalf of E. K. Crace, Esq., that a fresh deed of grant may be issued for the land noted in the margin, originally purchased at auction in the year 1835 by Lieutenant-Colonel T. J. Morrissett, as the deed now in existence only conveys 728 acres, while the successive holders thereunder have been in occupation of an area of about 1,041 acres, and I am to request that you will submit the case to the Court of Claims for investigation as to whether the application should be granted.

Sale at Sydney,  
9th December,  
1835; lot 69;  
728 acres.

2. I am also to transmit to you the accompanying papers in connection with the case, with which is a minute numbered 80-4,612 Aln., conveying the opinion of the Surveyor-General on the subject.

Papers, 80-4,612  
Aln. herewith.

I have, &amp;c.,

JNO. G. BLAXLAND,  
For Under Secretary.

[Enclosure.]

Sir,

139, Pitt-street, 4 May, 1880.

We have been instructed by E. K. Crace, Esq., the proprietor of the Gungahleen Estate, Ginninderra, to draw your attention to the deed of land issued to Mr. J. T. Morrissett, under date 1st March, 1841, and to apply to have the deed amended so as to embrace the full area under the description in said grant.

In support of this application we shall necessarily have to go fully into particulars connected with the case.

In the year 1835 Mr. Licensed-Surveyor Hoddle was instructed to make a survey of J. T. Morrissett's land, which he did, and furnished a plan on which he showed only 728 acres. Subsequently it was ascertained that a serious discrepancy existed as to the area embraced by the lines of J. T. Morrissett's land as given by Mr. Licensed-Surveyor Hoddle.

Mr. Licensed-Surveyor Thompson showing the length of the eastern boundary lines to be 154 chains and 20 links, as against 115 chains shown by Mr. Surveyor Hoddle, or 39 chains 20 links in excess, making a difference in area of about 300 acres, more or less. Mr. District-Surveyor Twynan also gives the eastern boundary line of Morrissett's land at about 154 chains, thus agreeing with Mr. Licensed-Surveyor Thompson. However, in the year 1841, a deed was issued to Mr. Morrissett for 728 acres only, instead of for 1,041 acres, the actual area as measured on the ground.

In the year 1869, the matter having been brought under notice, the Surveyor-General reported that an error had been made by the surveyor (Mr. Hoddle), and that as the occupier had then had undisturbed possession for thirty years it was for the Minister to say whether any steps should be taken to eject him. Mr. Forster, then Secretary for Lands, decided that no action for ejectment could be taken, after which nothing further is heard until on the 8th January, 1880, one John Ryan made a conditional purchase of a portion of the land claimed as Mr. Morrissett's property, now E. K. Crace's, and the latter at once took steps to have the selection of Ryan's declared void, as the land was highly improved, and also held under a deed of grant, and on the 17th April, 1880, the selection of John Ryan was declared void, thereby again admitting that an error had been made in not including in the deed in the first instance the area as included in the measurement.

Under these circumstances, and in order that our client may be protected from annoyance from persons believing that this 313 acres not now included in the deed issued to Mr. Morrissett is open to selection, we beg to apply that Mr. Crace, the present proprietor, be put into proper possession of his land by the Government—that is, the land which is clearly shown by the reports of Messrs. Thompson and Twynan, two very able and efficient officers of the Survey Department, to be within the measurement made by Mr. Licensed-Surveyor Hoddle, either by giving him a fresh deed for the balance of the area, or by an amendment of the original deed under the Land Titles Act of 1858.

There

There can be no doubt that had Mr. Licensed-Surveyor Hoddle performed his duty in a satisfactory manner, or had the Survey Office, at the time of preparing the description, properly and carefully checked Mr. Hoddle's measurement, the error would have been discovered, and the proper area would have been given on the grant. Mr. Morrissett, and subsequent purchasers, always believing that they were possessed of the larger area, and having had undisturbed possession of same for forty years, have gone on largely improving the land, and for the foregoing reasons we would respectfully request that you will without further delay take such steps in the matter as to place our client in proper legal possession of the full area embraced by the measurement of Mr. Licensed-Surveyor Hoddle, viz., 1,041 acres, more or less, and erroneously given in the deed of grant as 728 acres.

The Honorable the Secretary for Lands.

We have, &c.,  
BLOMFIELD & DICKSON.

No. 22.

Gazette Notice of Hearing.

(3,362.)

Court of Claims, 23 July, 1880.

NOTICE is hereby given that the following claim for a deed of grant will be ready for examination by the Commissioners appointed for that purpose under the Act of Council 5 William IV No. 21, at the expiration of two months from this date, before which day any caveat or counter claim must be entered at the office of the Commissioners, 69, Elizabeth-street, Sydney. Due notice will be given of the days appointed for hearing.

Case No. 1,518, Edward Kendall Crace, 312 acres, county of Murray, parish of Canberra, Colony of New South Wales: Commencing at a point distant about 115 chains northerly from the south-eastern corner of Lieutenant Morrissett's 728 acres, purchased at auction at Sydney on the 9th December, 1835, now E. K. Crace's; and bounded thence on the south by a line bearing west about 80 chains; on the west by a line bearing about 39 chains northerly; on the north by a line bearing easterly about 80 chains; and on the east by a line bearing southerly about 39 chains to the point of commencement.

This land is claimed as part of a grant to Colonel Morrissett. The land was not included in Colonel Morrissett's original grant, and it is alleged that it was not so included in consequence of an error in the original survey. The claimant alleges a title by forty years' possession.

By order of the Commissioners,  
W. G. PENNINGTON,  
Secretary.

No. 23.

Mr. Licensed-Surveyor Deighton to The Surveyor-General.

Sir,

Queanbeyan, 13 August, 1880.

I have the honor to transmit herewith the plan\* of 279 acres of disputed land, situated to the north of J. T. Morrissett's 728 acres, in the parish of Canberra, county of Murray, surveyed in accordance with instructions from Mr. District-Surveyor Twynam, dated 29th July, 1880.

In the survey of this land I have adopted the meridian of part of the west boundary of J. T. Morrissett's 728 acres, being also the east boundary of portion 60, F. M'Auliffe's 61 acres. At a point bearing 360° distant 103 links from the north-east corner of No. 60, I have fixed a stake in the ground, at the approximate position of the north-west corner of J. T. Morrissett's 728 acres. From thence I adopted the bearing north 89° 07' east, to find a fair line between several old marked trees, carefully taking offsets to all these trees which bear undoubted surveyors' marks, proceeding and cutting into many trees which, from their position, might have been marked. This line for about 34 chains I found to be fairly marked, sufficiently so to prove an undoubted surveyed line. From 34 chains marked to 72 chains on the line no marked trees could be found, although there are several very large trees near the line. These I cut into deep, and carefully, but could find no trace of any axe-mark. From 72 chains to 80.55 chains, the end of the line, I found three (3) old and half-rotten trees, two of them containing undoubted marks, one having doubtful marks, all near my line. I carefully traversed the boundaries of alienated lands adjoining the disputed ground on all sides. I have also traversed and inspected all the improvements, whether on the boundaries or within the land, estimating them at their present value as near as I could arrive at such. A diagram on the plan shows the position of the marked trees, and their distances, on the presumed north boundary of J. T. Morrissett's 728 acres.

Annexed is a schedule of the various improvements referred to above.

I have, &c.,  
ROBERT DEIGHTON,  
Licensed Surveyor.

Improvements on the disputed land (present value).

	£	s.	d.
42 acres of cleared land, at 25s. per acre	52	10	0
33 acres of ploughed land, at 30s. per acre (thoroughly stumped)	49	10	0
Stock-yard—4½ chains of post-and-rail fencing	3	0	0
67 chains of old paddock fencing of various ages and description	12	0	0
20 chains of substantial, nearly new, log fencing	10	0	0
50 chains of old log fencing on east and north boundaries, being Mr. Crace's share of the whole	9	7	0
Old sheep-yards	5	10	0
Total	£141	17	0

R.D.

After inspection on the ground, I requested Mr. Licensed-Surveyor Deighton to make a survey under the minute of instructions to him herewith, to determine the relative position of the line of old marked trees now represented as the north boundary of Morrissett's 728 acres. Of the authenticity of this old marked line of trees as a surveyor's marked boundary I have no doubt. I carefully examined all the trees between M'Auliffe's 60 acres and Ginninderra Creek, and without hesitation acknowledged them as constituting a marked boundary, previous to having some of them opened, when, after a considerable growth

\*Appendix L

growth of timber had been removed, the original axe-marks were plainly visible. Having regard to the date of survey of Morrissett's 728 acres (more than forty years ago), it was not to be expected that the original marks could readily be found, and hitherto they have escaped notice, although many years ago I searched for the marked line and could not identify it. Judging from the appearance of improvements upon the land affected by the question of this boundary claimed to be conditionally purchased by John Ryan, I am of opinion that Mr. Deighton has given a fair estimate of their value. I trust that Mr. Deighton's plan herewith affords all the particulars necessary to enable a decision to be arrived at in this case. Submitted.—E. TWYNAM, D.S., 16/8/80.

## No. 24.

Mr. E. K. Crace to The Surveyor-General.

Sir,

Gungahleen, Ginninderra, 6 August, 1880.

Document torn

I have to-day seen Mr. Surveyor Deighton inspecting and surveying a line surmised to exist inside of the boundary as hitherto accepted of Morrissett's grant of 728 acres. Some trees were pointed out to me by Mr. John Ryan, the applicant for any excess of area, as being marked many years ago (say forty-five years). To find those marks the trees had been cut nearly half through, but the marks, if any, were, to say the least, conjecturable, and, to my perhaps prejudiced eye, indefinable. It would be impossible, absolutely impossible, to declare them, if really existing, as Government survey marks.

I feel that I am not receiving fair play in the matter. Mr. Deighton, against whom I have not one word to say, and who no doubt is a most honorable Government officer, is, I am given to understand by the local papers, in business connected with a Mr. P. C. Hodgkinson, lately in the Survey Office, and who has throughout conducted this matter for Mr. J. Ryan.

Again, I do not think it right that the said John Ryan in question should be employed as he is now by this survey party to show the line he wishes to prove. The inquiry should be impartial, and made apart from all interested assistance.

While a thorough search is now being made for a marked line never hitherto recognized, or I may say known, no inquiry is made and no research for the marked line hitherto accepted as the boundary—during forty years—between Morrissett's 728 acres and Anthony Rolfe's 320 acres. If that surveyed marked line, accepted eighteen years ago, and again twelve years ago, by the then Ministers for Lands—when at both times it was disputed—is not the boundary line, what is it?

I think I am also subjected to unfair play and want of courtesy when my paddocks are entered, private roads used, and surveyors' horses grazed, without the least intimation being accorded.

I must apologize for thus trespassing upon your time. You, at least, I am aware, however desirous you may be to indicate the accuracy of surveys, will, at all events, only recognize any action that is fair and impartial.

I have, &amp;c.,

EDWARD K. CRACE.

Place with the surveyor's report on the fact of finding certain old marked trees.—P.F.A., 9/8/80. I think this should be sent to the Court of Claims along with other papers.—T.H.L., 27/9/80. F.H.A.

There is another paper, 80-8,030 Aln., in this case. It is marked "end of month." As this is a case of conflicting claim, and has been referred to the Court of Claims, perhaps both these papers had better be sent there.—R.H.D., 28/9/80.

Yes.—J.G.B., 28/9/80. To be put with the other papers (80-6,756 Aln.) in Crace and Morrissett's case now with Court of Claims.—JNO. G. BLAXLAND (for Under Secretary). Lands Department, 28/9/80. Secretary, Court of Claims.

## No. 25.

J. B. Thompson, Esq., M.P., to The Secretary for Lands.

Sir,

83, New Pitt-street, 25 August, 1880.

At a personal interview I had with you this day, in reference to a selection made by Ryan of some land claimed by Mr. Crace as part of an old grant, you kindly promised to consider whether an extension of Ryan's boundaries over the 80 chains could be permitted.

I now do myself the honor to inform you that Crace has been occupying this land for some years as being part of a grant of 728 acres. Ryan, knowing it to be vacant Crown land, made application under the 22nd clause for the same. The Survey Department reported that no land available existed, but Ryan, feeling certain that some did exist, employed a licensed surveyor to inspect the boundaries of the 728 acres grant. His report being sent to the Surveyor-General, that gentleman instructed Mr. District-Surveyor Twynam to report. His report is now in your department, and to the effect that the line existed, and that the land applied for by Ryan must be Crown lands.

Crace then applied to the Court of Claims for a grant of the land. Ryan protested, and succeeded in showing the Commissioners that the grant of 728 acres did not include this land, and they now advise your department that Mr. Crace did not make out a claim for the grant. As it is probable Mr. Crace will try the case before the Supreme Court, I shall be glad if you will place Ryan in a position to defend the action. Under a clause of the present Act you are, I believe, empowered to extend the boundaries of a selection beyond 80 chains should it appear advisable; in the present case I think it might, considering that Ryan has so far contested the case on behalf of the Government and shown that about 280 acres of land are vacant. Ryan at the present time has no legal right to the land, and should he win the case in the Supreme Court will then have to come to you and ask the same thing as I now do, viz., allow the boundaries to exceed the 80 chains, so as to include the land applied for by him as an additional conditional purchase, this area being the only unalienated land in the neighbourhood.

I have, &amp;c.,

J. B. THOMPSON.

Chief Commissioner of Conditional Sales. For Deputy Surveyor-General, for report.—J.H., 27/10/80.

In

In consideration of the present uncertainty as to what is and what is not Crown land in the locality referred to, the previous refusal of the Surveyor-General (80-44,082), and the fact that the conditional purchase was applied for prior to the passing of the Act of '80, and consequently to clause 8 of that Act which gives the power of extension, I cannot recommend that this request be complied with.—ROBERT D. FITZGERALD (for Surveyor-General), 29/10/80.

For the reasons stated on the paper 80-44,082 C.S., by the Surveyor-General, or rather which were approved by the Surveyor-General, I concur in the recommendation of Mr. Fitzgerald,—J.H., 30/10/80.

Inform.—H.B., 1/11/80. Mr. Thompson, M.P.—4/11/80. Charting Branch. 80-44,082 C.S. to be sent to surveyor should be placed with hereafter.

---

No. 26.

The Chief Draftsman to The Surveyor-General.

3 September, 1880.

MR. L.-S. DEIGHTON has now forwarded a letter and plan of 279 acres of disputed land, occupied by Edward Kendal Crace, and stating "that he found a fair line between several old marked trees, carefully taking offsets to all these trees, which have been undoubted surveyors' marks, &c." Mr. D.-S. Twynam, on the margin of letter, states, "Having regard to the date of Morrissett's 728 acres (more than forty years ago), was not to be expected that the original marks could readily be found, and hitherto they have escaped notice, although many years ago I searched for the marked line and could not identify it, &c." I trust that Mr. Deighton's plan herewith affords all "the particulars necessary to enable a decision to be arrived at in this case."

It is recommended that the letter 80-6,756 Aln. be forwarded (with the accompanying tracing marked A of Mr. Deighton's plan) to the Commissioners of the Court of Claims in the form of a caveat or counter claim before the 23rd instant, as it appears by the enclosed report, 80-6,756 C.S., to be Crown land. The other papers, 80-4,841, are with the Court of Claims.

THOMAS H. LEWIS.

Under Secretary for Lands in view of giving effect to Mr. Lewis's memo.—P.F.A.. 4/9/80. These papers may be forwarded to the Court of Claims.—C.O., 6/9/80. Yes, without delay, as the matter is urgent.—J.H., 7/9/80. The Secretary to the Commissioners of the Court of Claims.—CHARLES OLIVER (*pro* U.S.), B.C., Department of Lands, Sydney, 7/9/80. To be returned. Received by Secretary, 8/9/80.

---

No. 27.

Mr. H. J. Withers to The Secretary for Court of Claims.

*Re* Crace.

Sir,

83, New Pitt-street, Sydney, 7 September, 1880.

I do myself the honor of lodging this caveat, on behalf of John Ryan, against the claim made by Mr. Crace for a grant of certain land, on the ground "that it was included within the boundaries of Morrissett's 728 acres as surveyed, but omitted from the grant, owing to an error of description, and that, further, he has held adverse possession against the Crown for a period of over forty years."

John Ryan objects to issue of grant on grounds that he did make application, under the 22nd section of the Alienation Act, on the 8th day of January, 1880, as an additional conditional purchase for the said land, and that he can prove the area was never included within the boundaries of Morrissett's 728 acres as surveyed, which agrees with the description.

That adverse possession against the Crown gives no title, and that as being Government land he selected the area in accordance with the provisions of the law.

I have, &c.,

HENRY J. WITHERS.

Received, 7th September, 1880. Aln. 80-4,612 tracing marked A with above papers.

---

[Enclosure.]

DESCRIPTION of land claimed by E. K. Crace as part of his property disputed by John Ryan, or the Crown, containing about 312 acres.

County of Murray, parish of Canberra: Commencing at a point distant about 115 chains northerly from the south-eastern corner of Lieutenant-Colonel J. T. Morrissett's 728 acres, purchased at auction, at Sydney, on the 9th December, 1835, now E. K. Crace's; and bounded thence on the south by a line bearing west about 80 chains; on the west by a line bearing about 39 chains northerly; on the north by a line bearing easterly about 80 chains; and on the east by a line bearing southerly about 39 chains to the point of commencement.

15 July, 1880.

No. 29.

## No. 29.

J. B. Thompson, Esq., M.P., to The Secretary for Lands.

Dear Sir,

Queanbeyan, 25 September, 1880.

I beg to refer you to an interview I had with you respecting a conditional purchase application by John Ryan for 300 acres, near Ginninderra, county of Murray, supposed to form a part of J. T. Morrissett's 728 acres, and at which I requested you to decide the matter as to the ownership of the 300 acres referred to, and to withdraw it from the Court of Claims, to which it was then proposed to send it.

There appeared to be a difficulty at that time, arising from the circumstance that it was not certainly known at that time whether the land in dispute had been included by the original survey, as there was only a statement by the applicant (Ryan) that it had been excluded, and that the original boundary dividing it had been found. This statement being only *ex parte* was not thought sufficient to cause the question to be withheld from the Court of Claims. Since then, however, a survey has been made by Mr. Twynam, District Surveyor, and the original boundary found, showing that the 300 acres was never legally in the possession of the owner of Morrissett's land. Mr. Twynam's report, which is now in your office, furnishes data which, I submit, place the question in a new aspect, and will, I trust, enable you to decide upon the case without further delay, and without the tedious process of investigation by the Court of Claims.

Hoping you will have the goodness to further consider this matter, and should you still deem it necessary to continue the investigation by the Court, that you will see that Mr. Twynam's report is duly laid before it. I make this latter request, as I could not ascertain whether that report had been received upon making inquiry several times at your office.

Yours, &amp;c.,

J. B. THOMPSON.

All the papers in this case are at the Court of Claims, including Mr. Twynam's report. Mr. Thompson informed by letter that all papers are with the Commissioners, Court of Claims, in this case.—G.H.S., 97/9/80. Register and await report of Commissioners.

## No. 30.

The Secretary for the Court of Claims to Messrs. Norton and Smith.

Case No. 1,518—Claimant, Edward Kendall Crace; opponent, John Ryan.

Sir,

Office of Court of Claims, 69, Elizabeth-street, Sydney, 6 October, 1880.

The Commissioners will hold a Court at the office of the Master in Equity, Supreme Court, to-morrow (Thursday), the 7th instant, at 12 o'clock noon, for the hearing and determination of the above case.

I have, &amp;c.,

W. G. PENNINGTON,

Secretary.

## No. 31.

Application by Mr. William Boyd.

E.

[Alienation Act, sections 21 and 22.]

Application by William Boyd, of Ginninderra, farmer, for the conditional purchase, without competition, of 60 acres unimproved Crown land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £15, this 7th day of October, 1880, at 10 o'clock.

O. WILLANS,

Agent for the Sale of Crown Lands at Queanbeyan.

7 October, 1880.

Sir,

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 60 acres, which adjoins my conditional purchase of 40 acres, upon which I am now residing, and I herewith tender the sum of £15, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase of 40 acres.

I am, &amp;c.,

WILLIAM BOYD,

Ginninderra.

To the Agent for the Sale of Crown Lands at Queanbeyan.

Description.

County of Murray, parish of Canberra, 60 acres, on the western side of my 40 acres and William Gribble's 40 acres: Bounded on the north by Anthony Rolfe's 320 acres as far as the Ginninderra Creek; on the southern side bounded by T. Morrissett's 728 acres; and on the western side bounded by the Ginninderra Creek.

## No 32.

Mr. C. J. Ireland's Evidence before the Court of Claims.

Case No. 1,518.—Claimant, E. K. Crace.

Friday, the 8th day of October, A.D. 1880.—Before the President and Mr. Owen.

*Charles George Ireland*, trigonometrical draftsman, being duly sworn by the President, and examined by Mr. Smith, maketh oath, and saith as follows: I am trigonometrical draftsman in the Surveyor-General's Office, and am engaged at present in compiling the plan of the county of Murray; the plans produced to-day are the original plans affecting the land in question and the adjoining grants; the exhibit X Y is the official county map of Murray; it is gradually being cancelled as I prepare new parish

parish plans; the photo-lithograph marked X Z is taken from a tracing of the official county map of Murray; it is not an accurate plan, because the original county plan was not an accurate plan; Morrissett's grant of 728 acres is shown on X Y; it is bounded on the north by an extension of G. T. Palmer's 640 acres, marked as lot 3 on exhibit Q; I look upon exhibit X Z the photo-lithograph; the name of J. T. Morrissett, which is written upon exhibit X Y, is not written upon the photo-lithograph marked X Z; in the photo-lithograph the boundaries are not shown in the body of the plan, but by reference to diagram L the northern boundaries are not conterminous with the southern boundary of Rolfe's 160 acres; the southern boundary of Palmer's 640 acres is in the same straight line with the southern boundary of Rolfe's 160 acres and Rolfe's 320 acres on the map.

*Mr. Owen*: That is on the body of the map; the 728-acre block is not shown.

*Mr. Smith*: The diagram must have been prepared about 1876; in the original county plan the southern boundary of Palmer's 640 acres and Rolfe's 320 acres and 160 acres is one straight line, and forms the northern boundary-line of Morrissett's 728 acres; in compiling the county of Murray map in parish maps it has been found that the original compilation will not meet by about a mile, and by the road survey from Yass to Queanbeyan the error was found to exist in the part from Palmer's 640 acres, portion No. 1 on exhibit P, up to portion 10 in Ginninderra; the portions on the one side and the other had been assumed to be much nearer together than they are, and this has again been checked by another road survey, R 1,147—that is, from Palmer's 640 acres, exhibit P, to Palmer's 640 acres, exhibit Q.

*Mr. Owen*: The error there is about 40 chains; the old sectional lines were provisional, and subject to adjustment, and we only make use of them now for the purpose of obtaining their correctness.

*Mr. Smith*: In the new compilation I do not alter the position of Palmer's 640 acres, but put it where the surveyors indicate it upon the ground by road survey R 1,147; if Palmer's 640 acres was brought down to the position of the northern boundary of Morrissett's 728 acres it would overlap several conditional purchases, as shown on exhibit A 1; in diagram L on photo-lithograph X Z the northern boundary of Morrissett's 728 acres was shown as not conterminous with the southern boundary of Rolfe's 320 acres and 160 acres.

*Mr. Owen*: In exhibit N the eastern boundary of Morrissett's land is 115 chains, supposed to be by measurement and not computation only; the mistake made by Hoddle appears to be in making the northern boundary of Morrissett's land conterminous with the southern boundary of Rolfe's land; the eastern boundary must have been 115 chains, otherwise it would have given Morrissett an excess of area.

*Mr. Fitzhardinge*: It is quite possible that Palmer's 640 acres, No. 3, may be out of position.

*Mr. Smith*: Palmer's three 640-acre blocks, exhibit P, were surveyed by Mr. Hoddle in 1832; I have not the slightest doubt that Hoddle took up the correct line of his previous surveys; I cannot explain the dotted lines (apparently sectional lines) shown upon Hoddle's original survey; the first three grants to Palmer on exhibit P are not intended to agree with Hoddle's section lines.

*Mr. Wilkinson*: Taking the section line at the northern boundary of No. 4 to be correct, and the next section line north of that as being identical with Morrissett's northern boundary, would the eastern boundary 115 chains be correct? Yes; and consequently 154 chains would take it far north of the section line; in reference to the first map X Y I produced all the new portions are kept up to date; it is frequently that alterations are made in the map X Y; and the measurement of Morrissett's land on map X Y gives the eastern boundary rather less than 115 chains.

*Mr. Owen*: If Morrissett's 728 acres is in its right position with proper area according to the grant, there must be vacant land between it and Rolfe's land, as the land all round it is correctly surveyed and charted.

C. G. IRELAND.

ARTHUR T. HOLROYD,

President.

WM. OWEN.

### No. 33.

#### Mr. P. C. Hodgkinson's Evidence before the Court of Claims.

Case No. 1,518; Claimant, E. K. Crace.

Friday, the 8th day of October, 1880.—Before the President and Mr. Owen.

*Percy Clifford Hodgkinson* being duly sworn by the President and examined by Mr. Fitzhardinge, maketh oath and saith as follows:—I am a Licensed Surveyor residing at Queanbeyan; I am well acquainted with the land in dispute; I have inspected Mr. Hoddle's plan exhibit Q, which shows Morrissett's northern boundary to be identical with portion of a sectional line found by him on the ground to be 115 chains north of Morrissett's southern boundary; I have recently visited the ground and discovered a well-marked surveyor's line practically in the position shown by Mr. Hoddle as Morrissett's northern boundary.

Mr. District-Surveyor Twynam subsequently visited the ground with me, and I pointed out to him the marked trees; he ordered one or two trees upon the same line, which showed no visible marks, to be opened, and marks were then found, evidently made with an axe, and in the position usually adopted in marking survey lines; the line to all appearances has been marked very many years; I communicated with the Government, and certain action was taken.

*Mr. Smith*: My belief is that the most recently compiled plans in the Survey Office show Palmer's lot 3 exhibit Q some 35 chains too far north, and if it were brought down by this distance it would agree with the line found by me on the ground, and the section line shown by Mr. Hoddle; it would reconcile all discrepancies.

It would certainly overlap conditional purchases to the south, which have been surveyed at a comparatively recent date; it would not affect any surveys to the north; these would be vacant land, which, according to the latest compilations, is now included in Palmer's grant.

PERCY C. HODGKINSON.

ARTHUR T. HOLROYD,

President.

WM. OWEN.

[Enclosure].

## [Enclosure.]

Crace's Application.

In this matter we hereby consent to admit that the original grantee and those under him down to and including the applicants, Edward Kendall Crace, have had quiet and undisputed possession of the whole of the land at present in dispute since the first day of October, 1835, the date of Mr. Hoddle's original survey, and that Palmer's portion No. 3 on plan Q is occupied as portion of one estate with the grant to Morrissett and the grants to Palmer shown on exhibit P with other lands of large area constituting in the Ginninderra Estate.—Dated 8th October, 1880.

M. A. H. FITZHARDINGE,  
NORTON AND SMITH,  
Solicitors for E. K. Crace.

## No. 34.

## Report of Commissioners of Court of Claims.

New South Wales.

Report of the Commissioners appointed under the Act of Council of 5th William IV No. 21, hearing and examining claims to grants of land.

Case, No. 1,518; proposed grantee's name and address, none; claimant's name and address, Edward Kendall Crace; opponent's name and address, John Ryan; name of promisee, lessee, or purchaser, unknown; date of promise, lease, or purchase, unknown; by whom promised, leased, or of whom purchased, unknown.

## Description of the land.

312 acres, county of Murray, parish of Canberra, Colony of New South Wales: Commencing at a point distant about 115 chains northerly from the south-eastern corner of Lieutenant Morrissett's 728 acres, purchased at auction at Sydney, on the 9th December, 1835, now E. K. Crace's; and bounded thence on the south by a line bearing west about 80 chains; on the west by a line bearing about 39 chains northerly; on the north by a line bearing easterly about 80 chains; and on the east by a line bearing southerly about 39 chains to the point of commencement.

Date of determination, 11th October, 1880.

For payment of fees to Commissioners and Secretary, see Aln. 85-611.

## Report.

The Commissioners have the honor to report, for the information of His Excellency the Governor, as follows:—

The Commissioners have investigated this case, and examined the surveys, maps, and plans marked as exhibits herein, and taken the evidence of Mr. C. G. Ireland and Mr. P. C. Hodgkinson.

The Commissioners are of opinion that the application for a grant of 312 acres ought not to be complied with.

It is evident that the Crown never intended to give Colonel Morrissett more than 728 acres, and that area is included in the present grant. The eastern boundary line is fixed in Hoddle's survey, dated 18th October, 1835 (before the date of the sale to Colonel Morrissett), as 115 chains, which must have been measured so as to give 728 acres in the area of land surveyed. The difficulty in this case seems to have arisen from the fact that the northern boundary is incorrectly stated, but that boundary was evidently fixed from an old sectional line which, according to Mr. Ireland's evidence, was only provisional, and subject to adjustment. The area intended to be granted Colonel Morrissett must, in the opinion of the Commissioners, be determined by the number of acres stated to be comprised in the piece of land, and by the measurement of the boundary lines.

Tested in this way, the old grant is ———, and the applicant fails to make out any case for the issue of a new grant for the land claimed. The applicant is admitted to have had possession of this land for about forty years, and although this does not give any right against the Crown it is a matter the Government might take into consideration. The Commissioners, however, deem it proper to report only on the right of the applicant.

Dated this 11th day of October, A.D., 1880.

ARTHUR T. HOLROYD, President.  
WILLIAM OWEN.

The following documents put in on behalf of the claimant are herewith forwarded. Exhibits A and A1, and exhibits G to T inclusive. The official county map of Murray, and the photo-lithograph referred to in the depositions of C. G. Ireland, are now in his possession as official Government plans. The depositions of C. G. Ireland and P. C. Hodgkinson are also herewith forwarded.

## [Enclosure.]

80-44,082 C.S.

18 October, 1880.  
SURVEYOR-GENERAL,—Before any further action can be taken in this case it will I think be necessary for some experienced salaried surveyor (probably Mr. Surveyor Thos. Smith) to thoroughly investigate the locality with Hoddle's field-books and carefully-copied tracings therefrom in his hand as to the existence of marked lines of Palmer's 640 acres, adjoining J. Ryan's 320 acres (formerly A. Rolfe's), as the position of that 640 acres is I believe doubtful, and Weaver has I believe made a mistake in defining it, as explained personally. Plan Appendix M.

Kyan should not I think be put in any position which would render this conflict more complicated, as his additional conditional purchase is objectionable, as being with the freehold of a greater length than 80 chains in a southerly direction; and even if the additional conditional purchase were otherwise unobjectionable than as taking up improved land, it is hardly advisable to give the holder of a conditional purchase, which is illegal on more than one point, the benefit of the 8th section of the Act of 1880, in view of the probability of a contest being about to take place in the Supreme Court as to the validity of the additional conditional purchase. Approved.—P.F.A., 29/10/80.

It further appears that when the Government shall have ascertained where the vacant land is situated it must be resumed, if found to be held by Mr. Crace.

Mr. L. S. Deighton's account has been overlooked. In view of the District Surveyor's endorsement thereon, it should, I presume, be paid.

F.W.R.

I regret that Lands Alienation Records cannot find the papers transmitting Weaver's survey of A. Rolfe's 320 acres, defining Palmer's grant in 1856.—F.W.R. Mr. Deighton's account to be paid, and the plans and field-books referred to Mr. Smith for inquiry on the ground. Ask Mr. Smith to see me on the subject before he returns to his district. He is now on leave of absence.—P.F.A., 27/10/80.

## No. 35.

## Mr. H. J. Withers to The Chief Commissioner.

Sir,

83, New Pitt-street, 12 October, 1880.

As noted in margin, my client, Mr. Ryan, applied for a piece of land adjoining Morrissett's 728 acres at Ginninderra, county Murray. The application was declared void, as the land was then supposed by the Survey Department to form part of the 728 acres grant. The District Surveyor has since found the boundary of the grant, and states that the land applied for by my client does not form part of that grant. The Survey Department have now shown in their plans the land as vacant.

I do myself the honor to request that the voidance of Ryan's conditional purchase may be at once reversed, also that you will recommend the Honorable the Minister to allow the additional conditional purchase as applied for, there being no other available land adjoining the original purchase.

I have, &amp;c.,

HENRY J. WITHERS.

C.P. 80-4, 300 acres, 8th January, 1880, 22 section, Queanbeyan. Surveyor-General.—This is verbally represented as very urgent by Mr. Withers, who states that the other papers are with Mr. Oliver, of Lands.—F.W.R., 14/19/80. Perhaps the Under Secretary would kindly allow me the papers in this case.—P.F.A., 14/10/80. The case has now to be dealt with in the usual way. The Court of Claims' decision makes the excess Crown land.—P.F.A.

## No 36.

## Messrs. Norton and Smith to The Surveyor-General.

Sir,

12, Spring-street, Sydney, 21 October, 1880.

We have the honor to inform you in reference to the alleged errors in survey of Morrissett's 728 acres grant, now Mr. E. K. Crace's, situate at Canberra, in the county of Murray, that with the view of testing the title to the land in question our client, Mr. Crace, has brought an action against Mr. Ryan in the Supreme Court, who claims to have made a conditional purchase of the land.

We have therefore to request that no action may be taken by the Government in the matter which will involve them in a future claim for compensation until the action brought by our client against Mr. Ryan has been determined.

We observe that Mr. Edmund Rolfe, of Ginninderra, has also claimed to have taken up the land in question as a mineral lease, and a Mr. Boyd has also selected it as an additional conditional purchase.

We have already issued a writ against Mr. Rolfe for trespass for coming on the land and putting in pegs and cutting trenches thereon, and it is our client's intention to defend his title and possession by taking similar proceedings against all other trespassers upon the property.

We have, &amp;c.,

NORTON AND SMITH.

Records,—Former papers required. I think this case is now before the Court of Claims.—J.G.B., 26/10/80.

## No. 37.

## Messrs. Norton and Smith to The Secretary for Lands.

Sir,

12, Spring-street, Sydney, 21 October, 1880.

Morrissett's  
728 acres, parish  
Canberry,  
county Murray;  
E. K. Crace's,  
and rear John  
Ryan's A.C.P.

We have the honor, on behalf of our client, Mr. E. K. Crace, to call your attention to an additional conditional purchase attempted to have been made by one John Ryan, of Ginninderra, upon a portion of land which for the last forty-five years has been in the occupation of our client and his predecessors in title, and has been treated as forming the northern portion of a grant of 728 acres to Colonel Morrissett, which grant is located in the parish of Canberra, in the county of Murray.

As the matter is one involving questions as to the legal rights of the parties to the land in dispute, we have, with the view of arriving at a final conclusion, brought an action at the suit of Mr. Crace against Mr. Ryan for the purpose of trying the title to the land in question, which action is still pending.

We have accordingly to request that no action may be taken in your department to prejudice the rights of the parties pending the determination of a court of law.

We have, &amp;c.,

NORTON AND SMITH.

Void 80-5,837, as the land is largely improved and held under a grant. Refund, 7/4/80. 80-10,768, 80-17,974. Noted, 27/10/80. C.P. 80-4, John Ryan, Queanbeyan.

Mr. Landers,—Mr. Smith is not in town, I presume, as I have not seen him. Has his lease expired, and is he at work in his district? If so, perhaps the Surveyor-General should be referred to as to whether he is desirous of Mr. Smith coming down to see him in this matter.—F.W.R., 7/12/80.

First Clerk,—For Mr. Smith's present address please. Queanbeyan.—J.D. 8/12/80. Surveyor-General. Action to be taken at once, as this case should have been sent to Mr. Smith on the expiring of his leave.—P.F.A., 14/12/80. Urgent.

8th April, 1833, grant to G. T. Palmer; 8th April, 1833, grant to G. T. Palmer; 8th April, 1833, grant to G. T. Palmer; 28 January, 1836, grant to G. T. Palmer; 28th January, 1836, grant to G. T. Palmer; 1st March, 1841, grant to J. T. Morrissett; 6th May, 1843, re-lease Morrissett to Palmer; 22nd March, 1855, copy probate of will of G. T. Palmer; 18th June, 1873, re-lease G. T. Palmer and others to Wm. Davis; 3rd September, 1873, conveyance F. T. Humphery, Official Assigee, to G. T. Palmer; 11th October, 1873, G. T. Palmer to Wm. Davis, deed of confirmation; 1st December, 1873, conveyance Wm. Davis and deed to E. K. Crace; — 187 , re-lease R. Palmer and others to Wm. Davis. Received the above-mentioned deeds, &c., (thirteen) from Mr. Rutter, Surveyor-General's Office.—NORTON AND SMITH (per H. Moxley), 6/12/80.

No. 38.

Mr. R. Smith to The Surveyor-General.

Crace v. Ryan.

Dear Mr. Rutter,

12, Spring-street, Sydney, 13 November, 1880.  
 If you have finished with the various deeds produced before the Court of Claims, and the other papers and deeds left with yourself and Mr. Fitzgerald, I shall be glad if you will return them to me by the bearer, or fix a time when he can call and get them.

Yours, &amp;c.,

ROBT. SMITH.

A clerk from Mr. Smith's office called and obtained these deeds yesterday.—F.W.R., 7/12/80.

No. 39.

Messrs. Blomfield and Dickson to The Under Secretary for Lands.

Sir,

139, Pitt-street, Sydney, 10 December, 1880.

We have been instructed by Mr. Crace to protest against the conditional purchase noted in the margin, and to have same declared void, as the land is alienated, and also highly improved.

We therefore beg you will be pleased to grant this application without delay, and declare the conditional purchase void.

We have, &amp;c.,

BLOMFIELD AND DICKSON.

Charting Branch. Conditional purchase, 80-263, Queanbeyan, noted with 80-45,404 C.S., which is now with Mr. Burt.—G.L.M., 18/12/80.

Mr. Surveyor Smith accordingly, as directed by the Surveyor-General. But Mr. Dickson, of the firm of Messrs. Blomfield and Dickson, personally requests to be officially informed of the action of the Court of Claims at the same time. Boyd might be informed of the land being improved, and warned.—F. W. RUTTER (for the Surveyor-General), 21/12/80.

Papers handed to me by Mr. Blackman. Verbal instructions given to me by the Surveyor-General to investigate the case, and to effect surveys of all the adjoining grants to determine the position of any Crown lands within marked lines presumed to be boundaries of Morrissett's 728 acres. Plan and report, with four sketches, transmitted to the Surveyor-General by my letter dated 26th February, No. 81-11.—THOS. H. SMITH, Surveyor.

W. Boyd, C.P.  
80-263, 60 acres,  
Queanbeyan.

No. 40.

The Surveyor-General to The Under Secretary for Lands.

22 January, 1881.

SUBMITTED for the consideration of the Secretary for Lands:—That the defined area enumerated in the margin, and situate in the county of Murray, parish of Canberra, area about 194 acres, be reserved from sale under the provisions of the 4th clause of the Crown Lands Act, for travelling stock and other public purposes, as recommended by Mr. Surveyor Smith.

194 acres.

ROBT. D. FITZGERALD

(For Surveyor-General).

Very urgent. Approved.—J.H., 24/1/81. Executive Council minute, 22/1/81.

[Enclosure.]

For Gazette, 25th January, 1881.

Reserve from sale for travelling stock and other public purposes.

No. 98. County of Murray, parish of Canberra, area about 194 acres. The Crown Lands within the following boundaries: Commencing at the south-eastern corner of G. T. Palmer's most northern portion of 640 acres, parish Canberra; thence bounded on the west by part of the eastern boundary of that portion northerly about 36 chains; on the north by a southern boundary of J. T. Morrissett's portion of 728 acres, bearing easterly 54 chains; on the east by a line south about 36 chains; on the south by part of the northern boundary of G. T. Palmer's most eastern grant of 640 acres, parish of Canberra, bearing westerly to the point of commencement.

### No. 44.

#### Mr. E. K. Crace to The Secretary for Lands.

Sir, Gungahleen, Ginninderra, 5 February, 1881.

I have the honor most respectfully to protest against the reserve proclaimed in last week's *Gazette*.

The area proclaimed forms a portion of the grant of 723 acres to J. T. Morrissett, as shown by the boundaries definitely described in the said deed of grant, which, I think, bears date 1831.

The reserve now gazetted is calculated to seriously prejudice my title to the land held under this deed.

I humbly submit, therefore, that the reserve should be cancelled.

I have, &c.,

EDWARD K. CRACE.

Mr. Gordon,—Connect and place with previous papers.—G. LEWIS, 11/2/81.

### No. 45.

#### Mr. R. Smith to The Deputy Surveyor-General.

Dear Sir,

12, Spring-street, Sydney, 9 February, 1881.

I beg to return several of the exhibits which were produced in the Court of Claims in the case of Crace v. Ryan, and which, owing to having been marked as "Exhibits on behalf of the claimant," were accidentally taken by my clerk with the other exhibits produced by us.

I shall feel obliged if you will have the documents in question returned to the proper department to which they belong.

Yours, &c.,

ROBT. SMITH.

Mr. Ireland.—Will you kindly see me about this matter, together with any memoranda you may have retained of the papers which were taken by the Court, and marked as exhibits, of which these are some.—F.W.R., 9/2/81.

Mr. Rutter.—I do not know anything in this matter, as I did not produce any papers at Court, only plans, a note of which I gave to Mr. Rodd, which, I believe, have been returned.—C.G.I., 3/3/81.

### No. 46.

#### Office Memorandum.

\*Appendix N. A TRACING\* is enclosed showing by a green tint reserve No. 98, notified 25th January, 1881, county of Murray, parish of Canberra, for the information of the Crown Lands Agent at

G. LEWIS

(For the Surveyor-General).

The Under Secretary for Lands.—B.C., 22/2/81. After informing the Lands Agent, these papers may be returned to Reserve Branch.—G. LEWIS, 26/2/81. Land Agent with tracing.—26/2/81.

The within letter\* is now forwarded for consideration and report of Mr. Surveyor Smith.—G. LEWIS (*pro* Surveyor-General), 2/3/81, No. 13. Replied to by my report, dated 14th March, No. 81-16.—THOS. H. SMITH, Surveyor.

\* Copy of this letter is unobtainable.

## No. 47.

## Mr. Surveyor Smith to The Surveyor-General.

Sir,

Queanbeyan, 26 February, 1881.

In obedience to your verbal instruction to determine the existence of Crown lands within marked lines hitherto presumed to have been the boundaries of Morrissett's 728 acres, parish of Canberra, county of Murray, I have the honor to transmit herewith my plan of survey, and to inform you that vacant Crown lands exist in two places, viz., about 194 acres between the north boundary of G. T. Palmer's 640 acres, No. 3, and the most southerly boundary of J. T. Morrissett's 728 acres, and about 93 acres between the north boundary of Palmer's 640 acres, No. 1, and the southern boundary of Morrissett's 728, as shown on plan.

2. In starting work, I found that Palmer's three 640 acres were the first lands measured in the locality, and that Morrissett's adjoining 728 acres was measured some three years afterwards. It was therefore necessary first to accurately identify on the ground the boundaries of Palmer's three sections. By comparing an enclosed sketch, No. 2 (which is a plot to a small scale of my survey retracing the boundary lines) with sketch No. 1 (this also being a diagram to the same scale, showing all the information interpreted from the original field-notes), it will be readily seen from the coincidence of the numerous hill bearings, and the general agreement of the various cuts on boundary lines of tracks, creeks, edges of plains, and general features, that the marked lines found by me are without doubt the boundaries originally marked by Surveyor Hoddle.

3. For the same reasons, by comparing the information contained in sketches 3 and 4, there cannot exist any doubt that the marked lines now found and retraced are the boundary lines marked by Surveyor Hoddle of Morrissett's 728 acres and Palmer's 640 acres.

4. The positions of the boundary lines of Palmer's three sections, Morrissett's 728 acres, and Palmer's 640 acres, having thus been clearly defined and retraced on the ground, it is apparent (*vide* sketch No. 4) that Mr. Hoddle has, in the preparation of his plan of Morrissett's 728 acres, inadvertently introduced a clerical error by showing corner of Morrissett's 728 acres (*vide* A, sketch 4) to be identical with the north-east corner of Palmer's 640 acres, No. 1.

5. From what I can glean from the various circumstances of the case, Mr. Hoddle evidently measured the outside boundaries of the three sections, as shown by blue lines on sketch No. 1, and in running the line BC marked a corner tree at C. Finding that this design of measurement would embrace a considerable quantity of inferior land, he amended his design, and adopted the present form of measurement, shown, sketch 1, by red edging. Three years later Mr. Hoddle again visited the locality, for the purpose of measuring Morrissett's 728 acres, and in accepting a starting-point he commenced the survey from his previously-marked corner tree C, being under the impression that it was at the north-east corner of Palmer's 640 acres, No. 1, the general aspect of both localities being similarly rough and barren, and misleading after a three years' absence. This I conceive to be an exposition of the long unexplained, yet simple, source of error and confusion.

6. I have endeavoured to place the case before you in as simple a manner as possible, in order that the parties interested, if allowed to peruse this report, may be thoroughly satisfied, and that no further litigation may ensue. With this in view, I have attached four sketches—plots from Surveyor Hoddle's original field-notes, and plots to the same scale of my survey retracing the marked boundaries. These admit of more ready comparison, and avoid referring to my large plan, which, showing in detail position of marked trees, intersection of tracks, natural features, and other information, is necessarily crowded and intricate.

7. Mr. Surveyor Hoddle's field-notes of G. T. Palmer's three 640 acres would appear, at first sight, to be unintelligible and almost useless, but after carefully studying them I found an interpretation which subsequently proved to be exceptionally correct.

8. I would beg to report that immediately upon discovering the positions of the Crown lands I hastened to Queanbeyan, and wired a description of one of the areas for reservation, the notification of which duly appeared in the *Government Gazette* of the 25th January. My reasons for thus securing the land, firstly and most prominently, were for the purposes of a camping reserve for travelling stock, and, secondly, that in the event of this not being permitted the reservation would secure to the Minister the absolute power of dealing with the parting or otherwise disposal of the land on the merits of any claims or applications that might be made for it. I would, however, most strongly urge that this area be retained for the purposes of a camping reserve. It is a well-grassed piece of land, well adapted for the purposes of a halting-place for stock, embracing both sides of the road for a distance of about 50 chains, and although containing no permanent water, is only a little more than a quarter of a mile from the Ginninderra Creek, where stock could be watered at the crossing-place. I would also beg to point out that, with the exception of the Honeysuckle V.R., and this only a small area of about 270 acres, there is no vacant land available for a camping-ground for stock travelling from Queanbeyan—a distance of 14 miles—and that the road for this long stretch passes wholly through alienated lands, and mostly through fenced lanes. I therefore consider the finding of the present area of Crown land most fortunate and valuable, and I would again urge that it be retained for the purposes stated in the *Gazette* reservation notice, viz., for a travelling stock reserve and other public purposes.

9. The other area of Crown land, viz., 93 acres, mostly consists of barren land. I do not therefore think that it will be selected or otherwise sought after.

10. As a recent survey by Mr. Licensed-Surveyor Deighton, under the direction of Mr. District-Surveyor Twynam, places the northern boundary of Morrissett's 728 acres some 35 chains more to the south than I now prove it to exist, I must, as an explanation, distinctly report that the line of old marked trees found by Mr. Deighton stops at about 24 chains from corner Y (sketch 4), where an old corner-tree, hitherto unobserved, is to be found, and then turns to the south, instead of continuing in an easterly direction. I also examined each marked tree said to have been found on the easterly continuation, but found no marks whatever resembling old surveyors' marks.

11. For trigonometrical purposes I have taken advantage of connecting my traverse to Gunghaline Trigonometrical Station. I would, however, beg to point out that having found it necessary to retrace some 27 miles of old marked lines, I was compelled to make a rapid survey. The work should, however, prove to be within the limits of a fair standard.

I have, &amp;c.,

THOMAS H. SMITH,

Surveyor.

Roll

Roll Plan M. 3,733-1,956. Noted.—G. J. SKINNER, 21/8/85.

Mr. Surveyor Smith's report on the remeasurement of Morrissett's (now E. K. Crace's 728 acres) is submitted. On reference to paragraphs 4 and 5 it will be seen that Mr. Hoddle commenced his survey from an erroneous corner tree in the year 1835. Mr. Smith has retraced Mr. Hoddle's survey, with the aid of the original field-notes, resulting in the discovery of two vacant pieces of Crown land, as described in paragraph No. 1. From an inspection of the four small plans\* herewith it will be seen that the marked lines found by Mr. Smith are undoubtedly the boundary lines of Morrissett's 728 acres, as originally marked by Mr. Surveyor Hoddle. As the light of new and important evidence has been thrown upon the case perhaps it should be referred again to the Court of Claims.—P. F. ADAMS, B.C., 31/3/81. The Under Secretary for Lands.

\*Appendices  
O, P, Q, R.

One roll plan and four small plans herewith. What is the object of the proposed further reference to the Court of Claims?—C.O., 20/4/81. To give the Court the benefit of the new evidence.—P.F.A., 10th May. The Under Secretary for Lands. For continuation of case see Aln. 81-5,716.

#### No. 48.

#### Mr. Surveyor Smith to The Surveyor-General.

Sir,

Queanbeyan, 14 March, 1881.

In compliance with your instructions, dated 2nd March, No. 81-13, referring for my consideration and report Mr. Crace's letter protesting against a reserve of about 194 acres, proclaimed in the *Government Gazette* of the 25th January, the area being within the boundaries of J. T. Morrissett's 728 acres, parish of Canberra, I would respectfully beg to inform you that by a recent survey plan transmitted by my letter dated 26th February, No. 81-11, retracing, with the aid of the original field-notes, all the old boundaries in the locality, I have undoubtedly ascertained that the area now reversed is vacant land.

I would therefore respectfully submit that Mr. Crace's protest cannot be entertained.

I have, &c.,

THOMAS H. SMITH,

Surveyor.

Mr. Gordon, now for Charting Branch for investigation.—G.L., 6/4/81. Why sent to Charting Branch?—M.O'C.B., 26/4/81. Mr. Blake, for an examination of the survey made by Mr. Surveyor Smith.—G.L., 4/5/81.

#### No. 49.

#### *Précis.*

Morrissett, Crace, Ryan, and Boyd.

21 May, 1881.

IN October, 1835, Mr. Surveyor Hoddle surveyed a block of 728 acres of Crown land in the parish of Canberra, which, on the 9th December, 1835, was sold at auction at Sydney to Lieut.-Colonel T. J. Morrissett, who paid for and whose deed conveyed that area. The measurements on Mr. Hoddle's plan give by computation the same area. The land is now owned by Mr. E. K. Crace.

2. It appears, however, from Mr. Surveyor Smith's report of the 26th February last (81-10,660 C.S.) that Mr. Hoddle, when surveying the block, took for a starting-point a marked tree used by him some three years previously. This marked tree is situated about 37 chains to the north of the north-east corner of G. T. Palmer's block of 640 acres, which Mr. Hoddle had surveyed some few years before. In drawing his plan, however, he made the starting-point of the 728-acre block identical with the north-east corner of Palmer's 640 acres, and the southern boundaries of the 728 acres to be conterminous with parts of the northern boundaries of Palmer's two blocks of 640 acres each. On the maps this had the effect of showing the land too far south, whilst the deed of grant recites that the southern boundaries of Morrissett's 728 acres and the northern boundaries of Palmer's two blocks are conterminous.

3. The owners of the 728-acre block accepting the northern boundary of that section as marked on the ground by Mr. Hoddle (and which marking seems by Mr. Surveyor Smith to have been well defined), and also accepting the southern boundaries as mentioned in the deed, have for years past been in occupation of over 1,000 acres.

4. For years past the Survey Branch would seem to have had an idea, if not quite certain, that there was an excess of area in the land held as Morrissett's 728 acres, but seems also to have had a difficulty in adjusting the position of the land actually occupied with that delineated on Hoddle's plan and on the maps. In the later surveys of Rolfe's (now Ryan's) 320 acres and Rolfe's 160 acres the northern boundary of Morrissett's grant has been recognized, and held to be conterminous with the southern boundaries of those blocks, and to be the westerly prolongation of the southern boundary of another of Palmer's blocks of 640 acres, thus supporting the position taken up by the holders of the 728-acre block.

5. On the 8th January, 1880, John Ryan (the holder of Rolfe's 320 acres) applied under section 22 for 300 acres of the land occupied by E. K. Crace, the present owner of Morrissett's grant. This application was for the excess area which was assumed to be in the northern part of the holding. The application was on the 1st April, 1880, declared void, for being for improved land in Morrissett's grant. This latter reason was, however, disputed, and on the 23rd June, 1880, Mr. L.-S. Hodgkinson, acting on behalf of Ryan, alleged that he had found the original northern boundary of Morrissett's 728 acres, and which, it was alleged, proved that the land Ryan applied for was Crown land, and asked that a surveyor should be instructed to test the statements. Mr. Licensed-Surveyor Deighton was then deputed to do so, and on the 13th August, 1880, reported in effect that the boundary referred to by Hodgkinson was undoubtedly a surveyor's line, and was well defined for about 34 chains from west to east, but that afterwards it was lost, although there were large trees which could have been used had the line been continued eastward (Aln. 80-6,756, and tracing). By Mr. Staff-Surveyor Smith's report of the 26th February, 1881 (81-10,660 C.S.), this well-defined line for 34 chains was also identified, but was shown by him to be part of the southern boundary of Morrissett's grant, instead of the northern boundary, as alleged by Hodgkinson. Mr. Smith's report has the effect of sustaining the view that the land Ryan applied for is part of the 728 acres now held by Crace and at the same time of showing that the excess of area existed to the extent of 194 acres in the south and 93 acres in the west of the holding, both of which are Crown lands. It also discloses the fact that the description in Morrissett's grant is erroneous. 6.

6. When Crace found that he was holding more land than Morrissett's grant conveyed he applied to the Court of Claims for what may be called a supplementary grant, the issue of which, however, the Commissioners, by report dated 11th October, 1880, declined to recommend, for the following reasons:—

- (a) That the Crown intended to grant 728 acres only.
- (b) That that area is included in the grant.
- (c) That by Hoddle's measurements he surveyed to give 728 acres only.
- (d) That, although it was admitted that Crace had had possession of the excess for about forty years, it did not give any right as against the Crown. (Court of Claims case, 1,518; Aln., 80-8,593.)

7. On the 7th October, 1880, W. Boyd applied under section 21 for 60 acres of the land previously applied for by Ryan. Under Surveyor Smith's report, however, the application must be declared void (or cancelled) for being for land included in Morrissett's grant.

8. As regards the two vacant pieces of Crown land, the block of 194 acres, situated between the southern boundary of Morrissett's 728 acres and the northern boundary of one of Palmer's 640-acre blocks, was, on the 25th January, 1881, proclaimed as reserve 98 for travelling stock, &c.; the other, the 93-acre block, between portion 61, parish Ginninderra, and Morrissett's grant, and said by Surveyor Smith to be barren land and not likely to be taken up, remains to be dealt with; and, although it is surrounded by alienated land, and there seems to be no road of access, the 11th clause of the Act of 1861 would perhaps be scarcely applicable to give Crace the right to purchase, as the area is so large.

9. As mentioned in paragraph 6, the Court of Claims has disposed of the case on its merits—to the effect that the Crown had performed all that was required of it. There is no doubt that Mr. Crace has been for some time aware of that decision against him; and up to the present time he has not asked for a rehearing. The fact of the excess in the land occupied over the area granted being now found to be in the south and in the west, as opposed to the assumption that it was in the north, will, it is clear from the Commissioners' report, not affect the case in the slightest; and in the light of the Preamble and Clause 2 of the Court of Claims Act, 5 William IV No. 21, it is difficult to understand how the case can be referred back to that tribunal—the Commissioners being appointed to examine and report upon claims (to grants of land) in virtue and in performance of the promise of any Governor for the time being. Now, there was no promise in this case—the land was an absolute purchase at auction; and the reasonable inference is that the Court of Claims is not a Court of competent jurisdiction. Again, the Act creating that tribunal was passed as against and not for the Crown; and it is very doubtful whether the Crown can appear there as a claimant—besides, there is nothing to claim, the land in excess having been proved to be Crown land, as length of possession by a subject against the Crown gives no right.

10. It is suggested, therefore, that—

- (a) Boyd's conditional purchase 80-263 be cancelled, being for land included in Morrissett's Grant.
- (b) That Blomfield and Dickson, as agents for Crace, be officially informed of the decision of the Court of Claims.
- (c) That the deed of grant of the 728 acres (now Crace's) be recalled, and the description be amended.
- (d) That the disposal of the 93 acres be then considered.

R.H.D.

The suggestions are recommended for approval. There is no case for the Court of Claims. Should Mr. Crace not accept the proposition made, it will then be necessary to confine him strictly to the land described in the original deed of grant, which will have the effect of excluding the northern portion of the area now held by him, which is improved.—C.O., 1/6/81.

Approved.—H.P., 16/6/81. Urgent.—Conditional Sales Branch,—To refuse Boyd's conditional purchase 80-263, and return papers.—R.H.D. (pro J.G.B.), 17/6/81. W. Boyd refund order, Agent and Treasury informed.—30/6/81. \* Messrs. Blomfield and Dickson informed in accordance with terms of minute (with tracing).—J.R.L., 9/7/81. For Mr. Crace's reply see Aln. 81-7,243.

\* Copy of this letter is unobtainable.

No. 50.

The Chief Commissioner to Mr. W. Boyd.

(C.P. No. 80-263; C.S. No. 81-5,716 Aln.)

Sir,

Department of Lands, Sydney, 30 June, 1881.

I desire to inform you that the application made by you at Queanbeyan on the 7th October, 1880, for the conditional purchase of 60 acres of land is void, as the land applied for was previously taken up. Deposit paid £15.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &c.,

WM. BLACKMAN

(For the Chief Commissioner).

[Enclosure.]

[Special Payments Form No. 2.]

NEW SOUTH WALES.

Conditional Purchase—Revenue refunded.

Dr. to William Boyd.

Department of Lands, Sydney, 30 June, 1881.

		Amount to be refunded.		
		£	s.	d.
For the following refund, viz. :—C.S. No. 81-5,716 Aln.; C.P. No. 80-263.				
Land Office at Queanbeyan; date of selection, 7th day of October, 1880; deposit paid on 60 acres .....		15	0	0
Selection withdrawn or void to the extent of 60 acres, as the land applied for was previously taken up.		-		
Deposit to be refunded on 60 acres .....	£	15	0	0

## No. 51.

The Chief Commissioner to The Under Secretary for Finance and Trade.

Conditional purchase—Revenue refunded.

(C.P. No. 80-263 ; L.A. No. 81-5,716 Aln.)

Sir,

Department of Lands, Conditional Sales Division, Sydney, 30 June, 1881.

I have to inform you that the conditional purchase noted in the margin being void, as the land applied for was previously taken up, you will be good enough to refund to the selector the sum of £15, being the deposit money paid thereon.

2. I am to add that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &c.,

WM. BLACKMAN

(For the Chief Commissioner).

District, Queanbeyan ; name, William Boyd ; date of selection, 7th October, 1880 ; area, 60 acres ; deposit, £15.

## No. 52.

The Chief Commissioner to The Land Agent, Queanbeyan.

(C.P. No. 80-263 A ; C.S. No. 81-5,716 Aln.)

Sir,

Department of Lands, Sydney, 30 June, 1881.

I desire to inform you that the application of William Boyd, on the 7th October, 1880, for the conditional purchase of 60 acres of land is void, as the land applied for was previously taken up.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &c.,

WM. BLACKMAN

(For the Chief Commissioner).

## No. 53.

Messrs. Norton and Smith to The Under Secretary for Lands.

Sir,

12, Spring-street, Sydney, 20 July, 1881.

We have the honor by the instructions of Mr. E. K. Crace to acknowledge the receipt of your letter addressed to Messrs. Blomfield and Dickson, dated the 9th instant, No. 81-5,716 Alienation.

2. We are surprised that in the first paragraph of your communication any reliance should be placed upon the finding of the Court of Claims.

3. We presume that you are not aware that the application to the Court of Claims related solely to and dealt with 312 acres of land which are now admitted by your letter now under reply to be included in and form part of Morrissett's original grant.

4. Mr. Crace was, in fact, led to make that application to the Court of Claims through a mistake on the part of the Government surveyors in alleging that the 312 acres of land were not included in Colonel Morrissett's grant.

5. We should, moreover, mention that when, pending the inquiry before the Court of Claims, it was discovered by us that the Government surveyor had made a mistake as to these 312 acres of land (the sole subject matter of the reference to the Court of Claims), as they unquestionably belonged to Mr. Crace, we, by letter, addressed to the Commissioners, withdrew Mr. Crace's claim for any further deed of grant in relation thereto, and as the land then in question had been already granted the Court of Claims had really no jurisdiction or function in the matter.

6. With respect to the second paragraph of your communication we fear that it would be illegal for the Crown to issue any new deed of grant, as suggested by you ; and we submit that no additional grant is in fact required, inasmuch as the identity of the land comprised in the grant is now fixed, both by your letter and by recent surveys, beyond the possibility of doubt, and comprises by apt words the whole of the land in question, including the two portions referred to by you, and which you erroneously infer are not included in the grant.

7. On referring to the description in the deed of grant we find that the starting-point is defined and fixed as being at the point E, marked on the tracing sent by you, on the northern side line of G. F. Palmer's portion No. 3 ; thence the eastern boundary line is fixed as extending to the northern boundary line, the position of which is now admittedly fixed by recent survey as identical with the extension of the southern boundary line of G. F. Palmer's other portion of 640 acres, surveyed at the same time, and which is shown by a blue-ink line upon the sketch furnished by you in your communication now under reply.

This is strange. Messrs. Blomfield and Dickson urged that the case be sent. The surprise has, no doubt, arisen because Crace was unsuccessful.

The letter admits nothing of the kind ; Crace was the plaintiff, or rather the claimant, in the case (see report and Mr. Smith's note to Deputy Surveyor-General with these papers).

It has been conclusively proved that the northern part of the land occupied is not included in Morrissett's grant, the chainage of which gives only 728 acres, and the description is explicit.

It has been proved that Mr. Crace has no legal claim to the excess of area. There is nothing in the papers to show that Mr. Crace's claim was abandoned. It is questionable whether he could withdraw it.

The identity of the land mentioned in the grant is fixed now—that is true, but it is an absolute identity to the extent of 728 acres only, and not to over 1,000 acres. It was never inferred that the two portions were not in the land described in the grant. It was known that they were and are so included.

This is correct as regards the starting-point. The statement as to the eastern boundary is incorrect. The east boundary extends by grant 115 chains from the starting-point, whereas by occupation it is over 154 chains. The statement about the northern boundary is glaringly incorrect. The northern boundary, as given in the grant, has been undoubtedly fixed to be 39 chains further south than the southern boundary of Palmer's block of 640 acres.

8. The western boundary line of the grant is clearly identified as extending at right angles to the last-mentioned line, until it reaches the northern boundary line of G. F. Palmer's 640 acres, portion No. 1; and thence by the northern and eastern sides of that grant to G. F. Palmer's portion No. 3, already referred to; and thence by portion No. 3 to the commencing point, marked E, on your plan.

9. It accordingly follows that as the starting-point and all the side lines of the grant and their bearings are determined with the greatest accuracy it is not open to the Crown to say that the grant is void for uncertainty, or open to correction on any ground. No doubt it does appear on actual survey that the eastern and western side lines of the grant are somewhat longer and the area somewhat greater than described in the grant, but this is covered by the terms "more or less" used in the grant, and the excess of area is not greater than has occurred in many other surveys of the same date.

10. We presume that no steps would be taken to alter the grants in any case so as to prejudice Mr. Crace, but we would respectfully point out that he is a purchaser for valuable consideration, who has paid for the whole of the land, which has always been occupied as and is expressed to be comprised within the boundary lines of the grant irrespective of the area, and that at the time of his purchase the Surveyor-General, with the approval of the Minister, had, on the official charts and plans of the county of Murray, caused the whole of the land now in dispute to be charted as forming portion of J. T. Morrissett's original grant of 728 acres, and accordingly Mr. Crace was by the action of the Government led to purchase (and at a very high price) all the land in dispute, relying on representations set forth in the official Government charts of the Colony that the whole of this land was included within the original grant, and formed, with other land then purchased by Mr. Crace, one connected property.

11. It further appears, although many years ago, the Government discovered that the side lines were longer than expressed in the grant, yet, instead of then making the matter public, and taking action against the parties in possession, it was resolved by minute of the then Minister for Lands not to interfere with the occupation, and acting upon this resolution the Government charts were altered in such a way as practically to lead Mr. Crace and ourselves, as his solicitors, at the time of making his purchase into the idea that the grant comprised, as we think it does, the whole of the land charted as comprised in it.

12. Under these circumstances we confidently trust that as the language of Mr. Crace's grant comprises within its boundary-lines the whole of the land in question, and as such land has for many years been charted and represented by the Government, and allowed by them to be occupied, as if comprised in the grant, no steps would now be taken to interfere with Mr. Crace's title and possession as a *bona fide* purchaser for valuable consideration, who bought without notice of any error in the grant, even if it exists, and relying on the accuracy of the Government charts and official plans in the office of the Surveyor-General.

We have, &c.,

NORTON AND SMITH.

This letter, with its several misstatements, simply means that because Crace has been occupying 287 acres of Crown lands for years past he should be left to do so,—1st. Because Mr. Forster, when Minister for Lands, declined to take steps to confine Crace to the land mentioned in the grant; and, 2nd, because the maps and charts have now been proved to have for years past delineated wrongly the land conveyed in the deed of grant to Mr. Morrissett, the original holder. It seems to me, therefore, that the only course to adopt is to inform Mr. Crace, in accordance with Ministerial approval of 16/6/81 on Aln. 81-5,716, that unless within a month he accepts the proposition conveyed in Lands letter of 9th instant, immediate steps will be taken to confine him to the land mentioned and described in the deed of grant, and that the land between the northern boundary, as described in Morrissett's grant, and the southern boundaries of Rolfe's 160 acres and Rolfe's (now Ryan's) 320 acres will be dealt with in accordance with the Crown Lands Alienation Acts.—R.H.D., 25/7/81.

No. 54.

Messrs. Norton and Smith to The Under Secretary for Lands.

Sir,

12, Spring-street, Sydney, 8 August, 1881.

Referring to your letter, No. 81-5,716 Aln., addressed to Messrs. Blomfield and Dickson, and to our letter in reply of 16th ultimo, on behalf of Mr. E. K. Crace, we shall be glad to know if the Government propose taking any further steps in the matter.

We may state that although Mr. Crace considers that his legal position is unassailable, and although he has paid in full for the whole of the land, relying upon the accuracy of the official plans and surveys, yet, nevertheless, he would be prepared to meet the Crown in any fair spirit of concession, if after all that has transpired you should not be disposed to confirm the action taken by the former Minister for Lands as referred to in our letter.

We have, &c.,

NORTON AND SMITH.

This is correct, but only on the basis that the east boundary is 115 chains long from Palmer's block—115 chains being the length given the grant, and not 154, as occupied.

The Crown has not said the grant is void. The Crown simply says that Morrissett and his successors have been and are holding 287 acres more than the grant conveyed. The east and west side-lines are 33 per cent. longer. This is rather more than "somewhat," and it is too much to say that the formal phrase "more or less" in a grant is a warrant for holding 287 acres, equal to 39 per cent. of area granted.

It is difficult to see what the Surveyor-General or the Survey Department had to do with Crace's purchase. It was a private transaction. Where the boundaries are expressed in lengths, and the area given in accordance therewith, the theory here set up goes for nought. As for the maps, &c., showing the land occupied (1,040 acres) to be Morrissett's, it is simply observed that the Survey Department for years past were quite clear that the delineation was not correct, but were at a loss to account for the difference in the lengths of the east boundary as occupied and as given in the deed.

Just so, but still the fact remains that in the land occupied by Crace, there are 287 acres of Crown land, which of course any subject of the Crown has a right to deal with, in accordance with the Lands Act, Mr. Crace having no legal title to it.

The language in the grant comprises nothing of the kind; without the formal phrase "more or less," the language states 728 acres, and the lengths of the boundaries give that area, and that alone; besides, the grant recites the land was lot 69, under the advertisement of the 9th November, 1835, viz., 728 acres, and which Morrissett bought at auction at 5s. per acre.

No. 55.

## The Under Secretary for Lands to The Crown Solicitor.

[81-8047.]

Sir,

Department of Lands, Sydney, 20 September, 1881.

I have the honor to transmit herewith the papers in connection with a claim set up by Mr. E. K. Crace to an area of about 313 acres of land in the parish of Canberra, county of Murray, and to request the opinion of the Attorney-General on the points set forth in the accompanying *précis* of the case.

I have, &amp;c.,

CHARLES OLIVER,

Under Secretary.

[Enclosure.]

In the year 1835 a surveyed portion of land was sold by auction at 5s. per acre, as lot No. 69, to J. T. Morrissett, the area sold being 728 acres, situated in the county of Murray, parish of Canberra.

In 1869 it was found that the area which was occupied by the grantee (or his alienee) was over 1,000 acres, and attempts were made by the Survey Office to ascertain the surveyed boundaries of the 728 acres, as described in the deed of grant without success, as the only survey marks discovered on the ground were those which were adopted by the grantee in his occupation of the larger area. As, however, it was clear that the area occupied was in excess of that granted, the question was submitted to the Secretary for Lands (Mr. Forster) as to whether any steps should be taken to prevent the grantee from occupying the area in excess of that purchased by him. Mr. Forster wrote on August 13th, 1869, "No action can be recommended."

In 1880 the case was again brought under notice through one Ryan having applied to conditionally purchase part of the land included within the survey lines marked on the ground.

Ryan's application was declared void, on account of the land applied for being part of that included within the surveyed boundaries of Morrissett's grant, and also because the land contained some £200 worth of improvements; and in giving a decision upon the case, Mr. Hoskins endorsed an opinion expressed by the Chief Commissioner of Conditional Purchases to the effect that the decision of Mr. Forster operated as an abandonment of any claim to the excess of area.

The present holder of Morrissett's grant (Mr. E. K. Crace) applied to have the deed of grant amended so as to include the whole of the area that is within the surveyed boundaries.

The matter has now been thoroughly investigated, and the evidence now available gives full particulars and a complete history of the matter. The facts are: That the surveyor who surveyed the portion of land sold to Mr. Morrissett as lot 69 marked the lines on the ground in error so as to include 922 acres, and showed on the plan, which he forwarded to the Survey Office, only 728 acres, and the lengths of the lines given in the plan embrace only that area, and so the deed of grant mentions only that area, and the description in the deed of course accords with Mr. Hoddle's plan, and does not agree with the marking on the ground, especially in the matter of the lengths of the east and west boundaries, which are given in the deed as being 115 chains each, but as marked on the ground they are 154 chains each, and include 194 acres more than is included in the description of the deed of grant—making a total of 922 acres included in the marking on the ground.

There is, however, besides that, an area of 93 acres which the description of the deed of grant particularly includes, making the total area in question in this case 1,015 acres, but which is quite left out by the marking on the ground.

The description in the deed of grant is very definite, and accurately defines the position of an area of 728 acres, which Mr. Hoddle showed by his plan that he had included in his survey, whereas he had only included 635 acres of that land, and had included 287 acres of the other land to the north, making 922 acres within the surveyed boundaries marked on the ground (which have recently been retraced without difficulty by Mr. Acting-District Surveyor T. H. Smith).

This 287 acres contains improvements, the property of Mr. Crace, to the value of about £200; and the 93 acres which are included in the description in the deed of grant, but excluded from the marking on the ground, have recently been applied for as a conditional purchase by Patrick Ryan. Mr. Crace has commenced an action for trespass against Ryan, and in view of the fact that the deed of grant, by its description, includes this 93 acres, Mr. Crace may perhaps be able to eject Ryan; and it is a question for consideration by the Secretary for Lands as to whether Ryan's conditional purchase should be declared void, and Crace held to be the owner of the 93 acres on the ground that the deed includes the land (which it undoubtedly does).

There would then remain the 287 acres to the north to be dealt with, and the question is as to whether action should be taken to interfere with Crace's occupation of this land after it has been in occupation of the grantee and his alienees for over forty-six years, and has been considerably improved, and is included within the surveyed boundaries of the portion—also the descriptions in the deeds of grant of two portions on the north—sold to A. Rolfe—define the south boundary of those two portions as being the northern boundary of Morrissett's grant.

26 October, 1881.

C. O.

No. 56.

## The Crown Solicitor to The Under Secretary for Lands.

Sir,

Crown Solicitor's Office, Sydney, 17 October, 1881.

I have the honor to return herewith the papers relating to E. K. Crace's alleged claim to land in parish of Canberra, county of Murray, and to state that I have submitted the matter for the consideration of Mr. Attorney-General Wisdom, a copy of whose advising thereon will be found upon the other side.

I have, &amp;c.,

JOHN WILLIAMS,

Crown Solicitor.

OPINION.

In this case the quantity of land offered for sale and sold was 728 acres. The boundary-lines described in the grant include 728 acres, and the quantity of land said to be granted is 728 acres. It is clear, therefore, that the grantee, and those who claim under him, have no legal right to any larger area.

It seems, however, in marking out the land an error was made by the surveyor, Mr. Hoddle, and as a consequence of this error the grantee and those claiming under him have ever since been in occupation of a very much larger area than that to which they are entitled. There have no doubt been many cases in which grantees have, where the acreage has been larger than that said to be granted, been allowed to retain possession of the excess, but in such cases the excess was contained within the boundary-lines as described in the grant, and, therefore, had in fact been granted, it being considered that the boundary-lines define the grant, and that the grant is not affected by an incorrect statement of the number of acres intended to be granted. In the present case, however, all that can be said is that the grantee has by a mistake on the part of the surveyor been put in possession of a larger area than he was entitled to, and the question now to be considered is whether, after the lapse of forty years, that possession should be disputed. This is not a legal question calling for my opinion as Attorney-General. It is a matter to be determined by the Minister for Lands or the Cabinet after a careful consideration of all the circumstances of the case.

ROBERT WISDOM,

A.-G., 5/10/81.

Submitted.—J.D.D., 19/10/81. C.O., 20/10/81. I must have a concise *précis* of this case prepared for the Cabinet.—J.H., 21/10/81. Herewith.—C.O., 26/10/81.

[Enclosure.]

Enclosures.

Voidance approved of.—C.O., 8/6/82.

[Enclosure.]

E. K. Crace's alleged claim to land in parish of Canberra, county of Murray.

1. In October, 1835, Mr. Licensed-Surveyor Hoddle surveyed a block of 728 acres of Crown land in the parish of Canberra, which, on the 9th December, 1835, was sold at auction at Sydney to Lieutenant-Colonel T. J. Morrissett as 728 acres, who paid for that area only. The present owner is Mr. E. K. Crace. The deed of grant recites 728 acres, more or less, but the lengths given in the surveyor's plan and the lengths given in the deed of grant give 728 acres exactly. (For copy of description in deed see Annex A.)

2. The surveyor's plan, however, did not agree with the marking on the ground, as, by mistake, he took for a starting-point\* a marked tree about 37 chains north of the point† shown as the starting-point on his plan.

\*Point J on tracing.  
†Point K on tracing.

3. The north boundary-line on the ground being thus much farther north than shown on the plan, and described in the grant, whilst the south boundary as given in the grant was to the same extent too far south of the true southern boundary, and the holders of the land accepting the northern boundary as marked on the ground, and the southern boundary as given in the grant, as their limits, have, since 1835, been in occupation of over 1,041 acres.

4. About 1869, when dealing with other surveys in the neighbourhood, the Survey Department became aware of this great discrepancy in area and lengths between the land occupied and that shown on the plan and maps, but were unable to account for it until the early part of the present year. Until recently, therefore, the official maps delineated Morrissett's grant of 728 acres as extending about 154 chains from Palmer's southern block, No. 3 of 640 acres, to Palmer's northern block of 640 acres, marked X on tracing on Annex A, instead of from block No. 3 to the line A B, the land described in the deed of grant, 115 chains.

5. In 1869, the Survey Branch brought under notice the existence of this excess of area occupied over that mentioned in the grant, but Mr. Forster, the then Minister for Lands, by minute of the 13th August, 1869, stated that "No action can be recommended" (vide Aln. 69-6,391).

6. The subject was dismissed from that time till last year, when applications were tendered to conditionally purchase the northern part of the land occupied, i.e., the land between the lines AB, CD. These applications were declined, the land being improved. The Chief Commissioner, Mr. Moriarty, by minute of the 8th March, 1880, in connection with one of the conditional purchase applications, was of opinion that Mr. Forster's decision must be held to have operated as an abandonment of any claim to the excess of area; otherwise, that was the time to have asserted a claim on the part of the Crown to the area in question, which certainly cannot be said to be included in the grant, the description of which is definite. With this Mr. Hoskins concurred (vide C.S. 80-5,837).

7. On the application (Aln. 80-3,383) of the agents of Mr. Crace for an amended grant to include this excess of 313 acres, the case was submitted to the Court of Claims, the Commissioners of which, however, by report dated 11th October, 1880, declined to recommend the issue of a grant to him, for the following reasons:—

(a) That the Crown intended to grant 728 acres only.

(b) That that area is included in the grant.

(c) That by Hoddle's measurement he surveyed to give 728 acres only.

(d) That, although it was admitted that Crace had been in occupation of the excess for about forty years, it did not give any right as against the Crown (Court of Claims, case 1,518; Aln. 80-8,593).

8. Sir Henry Parkes, for the Minister for Lands, on the 16th June last, approved of the purport of the Commissioners' report being conveyed to the agents of Mr. Crace, and that that gentleman be offered the option of retaining the 728 acres described in the grant (see AK BH on tracing), or of surrendering the deed, and having a fresh one issue for 728 acres, to accord with the marking on the ground (see AD BN on tracing), and in the event of his declining to surrender it would be necessary to confine him strictly to the land described in the grant (vide Aln. 81-5,716). With the exception of the alternative, this was done by letter of the 9th July, 1881, to Messrs. Blomfield and Dickson.

9. By letter of the 20th July, 1881, Mr. Crace's solicitors, Messrs. Norton and Smith, express surprise that any reliance should be placed upon the report of the Court of Claims, and make statements which are not in accordance with the facts of the case. They urge:—

(a) That in view of Mr. Forster's minute of 13th August, 1869 (vide par. 5 ante).

(b) That, as the official charts have for many years shown the land occupied (viz., 1,041 acres) to be Morrissett's 728 acres, granted (vide par. 4 ante); and

(c) That, as Mr. Crace has been for years in undisturbed occupation, no further steps be taken to interfere with him (vide Norton and Smith's letter, Aln. 81-7,243).

10. The opinion of the Attorney-General is desired on the following points:—

(a) Whether Mr. Forster's minute should be considered as an abandonment of the Crown's claim to the excess.

(b) If not, whether the Crown can now assume and declare possession of the excess; and

(c) Whether, under the circumstances of the case, it would be advisable to do so, and so confine Mr. Crace to the boundaries of the land described in the grant.

C.O., 14/9/81.

ANNEX A.

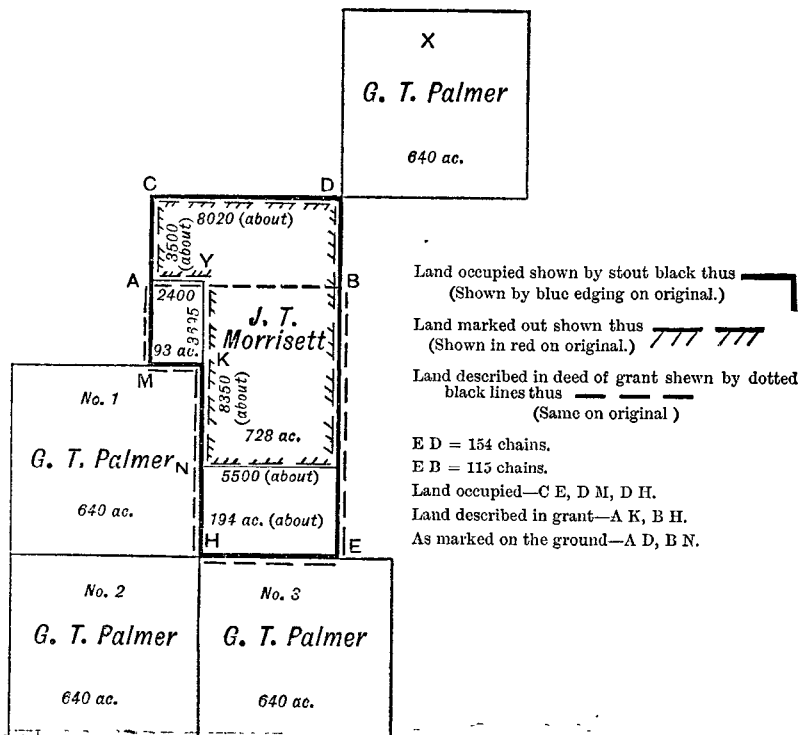

Description of J. T. Morrissett's 728 acres, county of Murray, parish unnamed.

728 acres, situated in the county of Murray, parish unnamed, near Gruningruninderry, and bounded on the east by the first section line east of G. T. Palmer's northern portion, being a purchase of 640 acres, north 115 chains, commencing at the south-east corner.

On the north by a section line west 80 chains; on the west by a section line south 35 chains to the northern boundary of G. T. Palmer's said 640 acres; thence by lines east 24 chains and south 80 chains; and on the south by part of G. T. Palmer's eastern portion, being a purchase 640 acres, east 56 chains to the south-east corner aforesaid.

Being the land sold as lot 69 in pursuance of the advertisement of 9th November, 1835.

Approved.—J.H., 15/9/81. The Secretary to the Attorney-General.—C.O., B.C., 16/9/81.

## No. 57.

## Office Memorandum by The Under Secretary for Lands.

5 March, 1883.

THE question for consideration in this case is as to whether steps shall be taken to convey by deed to Mr. E. K. Crace an area of 287 acres of land which has been for forty-six years in the occupation of that gentleman and previous holders of a deed of grant of 728 acres of land, through the surveyor (Mr. Hoddle) having, in 1835, included in his survey on the ground 287 acres of land in addition to the 728 acres described in the deed of grant.

The facts of this case are set forth in the annexed *précis*, the principal points being that the 287 acres above mentioned are not included in the description in the deed of grant; that the land contains improvements made by the grantee and his alienees to the value of about £200; that there is no conflicting claim for the land; that the survey marks on the ground include the 287 acres; that in the year 1869 the Secretary for Lands, Mr. Forster, declined to take any action to disturb the alienee of the grantee in his occupation of the 287 acres, and that Mr. Hoskins, when Minister for Lands in 1880, endorsed Mr. Forster's decision, and was of opinion that Mr. Forster's decision should be held to have been an abandonment on the part of the Crown of any claim to the 287 acres.

Mr. Crace, the present holder of the deed of grant for the 728 acres, desires to have his title to the whole area (the 728 acres and the 287 acres) perfected.

The purchase money paid in 1835 for the 728 acres, 5s. per acre.

I see no reason for disturbing the decision of the late Mr. Forster in 1869.—J.S.F., 5/3/83. Inform.—E.H.S., 8/3/83. E. K. Crace, 14/3/83.

Charting Branch, Reserves, by direction of the Under Secretary, to prepare description, &c., for the cancellation of reserve No. 98, which was notified on 25th January, 1881, and which includes land described in Morrissett's grant.—E.H.S., 14/3/83.

A description is enclosed for the cancellation of reserve No. 93, county of Murray.—G. LEWIS (for the Surveyor-General), 13/4/83. Mr. Wilson,—For Executive Council minute.—J.D.D., 18/4/83. Executive Council minute, Mis. 83-8,455, gazetted 28th May, 1883. Land Agent informed 28/5/83. Charted on parish map.—R.S.C. Examined.—G.B., 7/6/83.

## No. 58.

## Recommending the Revocation of Reserves from Sale.

Department of Lands, Sydney, 24 April, 1883.

It is recommended to His Excellency the Governor and the Executive Council that the temporary reservation of the portions within described and particularised in the annexed schedule be now revoked under the 6th section of the Crown Lands Alienation Act of 1861, the revocation to take effect at the expiration of thirty clear days from the date of notification in the *Government Gazette*.

JAMES S. FARNELL.

The Executive Council advise that the temporary reservation of the land referred to be revoked in terms of the 6th clause, Crown Lands Alienation Act of 1861, to take effect from the date specified.—ALEX. C. BUDGE, Clerk of the Council. His Excellency the Governor, the Executive Council. Min. 83-15, 25/4/83. Approved.—A.L., 25/4/83. Confirmed, 1/5/83. Gazetted, 28/5/83.

## Gazette Notice.

## Revocation of Temporary Reserves.

Department of Lands, Sydney, 28 May, 1883.

It is hereby notified, for general information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to revoke, under the 6th section of the Crown Lands Alienation Act of 1861, the temporary reservation from sale of the portions of land hereinafter described, the revocation to take effect at the expiration of thirty clear days from this date.

J. S. FARNELL.

No. 98, county of Murray, parish of Canberra, area about 194 acres. The Crown lands within the following boundaries: Commencing at the south-eastern corner of G. T. Palmer's most northern portion of 640 acres, parish of Canberra; thence bounded on the west by part of the eastern boundary of that portion northerly about 36 chains; on the north by a southern boundary of J. T. Morrissett's portion of 728 acres bearing easterly 54 chains; on the east by a line south about 36 chains; on the south by part of the northern boundary of G. T. Palmer's most eastern grant of 640 acres, parish of Canberra, bearing westerly, to the point of commencement.

Notified 25th January, 1881, for travelling stock and other public purposes.

[Min. 83-1,563.]

No. 60.

## No. 60.

## Office Memorandum.

A TRACING is enclosed showing position of reserve 98, cancelled 28th May, 1883, county of Murray, parish of Canberra, for the information of the Crown Lands Agent at Queanbeyan.

G. LEWIS

(For the Surveyor-General).

The Under Secretary for Lands, B.C., 7/6/83. Dealt with in the Reserve Branch. After informing Land Agent papers may, it is submitted, be forwarded for the information of Charting Branch (Mr. Elwin).—J.D.D., 13/6/83. Land Agent, with tracing, 13/6/83.\* †Plans M 47 and M 47A-743, with the numbers of the papers referred to, dealt with up-stairs.—J.H.C., 3/7/83. Mis. Records. Mr. Blaxland.—Any further action in Auction Branch?—J.D.D. (for F. H. Wilson), 5/7/83. No further action, the Minister having by minute of 5/3/83 on min. 83 declined to depart from Mr. Forster's decision of 1869, viz., not to interfere. Of course the department cannot amend, in face of such decision, Mr. Morrisett's (now Crace's) grant, so as to include 1,015 acres, when only 728 acres were paid for at auction.—R.H.D., 23/2/83. Put away.—R.H.D., 23/2/83.

This letter unobtainable.

**CROWN LANDS ACT OF 1889.**  
 (REGULATION No. 61, SUBSTITUTED FOR SAME NUMBER, NOW IN FORCE.)

Presented to Parliament pursuant to Act 53 Vic. No. 21.

Department of Lands,  
 Sydney, 16th December, 1890.

His Excellency the Lieutenant-Governor, with the advice of the Executive Council, has been pleased to substitute the following Regulation No. 61, under the "Crown Lands Act of 1889," for the Regulation bearing the same number at present in force under the said Act.

[Ml. 90-14,482]

JAMES N. BRUNKER.

## REGULATION 61.

When two or more complete applications for conditional purchases or conditional leases tendered at the same time appear to the Land Agent to be conflicting, he shall, unless all but one be then and there withdrawn, determine in the following manner how the applications shall stand to each other in order of priority:—The Land Agent shall make a list of the names of the several applicants, and shall number in consecutive order the names appearing on the list. The Land Agent shall select those of the marbles provided for the purpose, which bear the same consecutive numbers as appear on the list, and each applicant, if he so desire, may place, in the box supplied for the purpose, the marble, which bears the number corresponding to that appearing opposite to his name on the list, or otherwise the Land Agent shall do so. When all the marbles are in the box, the Land Agent shall, in the presence of as many of the parties as possible, lock up the box, turn it round on its axis, and then draw off all the marbles one by one; and if any stoppage occurs in the delivery of the marbles, the box may be turned round as often as may be necessary. As the first marble comes out, the Land Agent shall write the number 1 against the name of the applicant whose number on the list is the same, as that on the marble which first comes out; and as one by one the remaining marbles come out, the Land Agent shall, in like manner, write the numbers 2, 3, and so on, against the names of the respective applicants; and the applications shall stand to each other in order of priority according as the marbles relating to them come out as aforesaid. The Land Agent shall, after all the marbles have been drawn off, sign and certify the aforesaid list, and note therein the withdrawal of any application, and forward the list to the Chairman, and shall post up in his office a signed and certified copy thereof.

For the purposes of this regulation any duly authorised agent who tenders an application may act for the applicant.

1890.

NEW SOUTH WALES.

**CROWN LANDS ACT OF 1889.**

(REGULATION No. 274, SUBSTITUTED FOR SAME NUMBER NOW IN FORCE.)

---

 Presented to Parliament, pursuant to Act 53 Vic. No. 21.
 

---

Department of Lands, Sydney, 12th December, 1890.

His Excellency the Lieutenant-Governor, with the advice of the Executive Council, has been pleased to substitute the following Regulation, No. 274, under the "Crown Lands Act of 1889," for the Regulation bearing the same number at present in force under the said Act.

[Ml. 90-14,482]

JAMES N. BRUNKER.

---

 REGULATION No. 274.

Every holder of a pastoral lease who proposes to be registered as the holder of a homestead lease, and every holder of a homestead lease who proposes to be registered as the holder of another homestead lease, and every holder of a homestead lease who proposes to be registered as the holder of a pastoral lease, shall, with his transfer, lodge a statutory declaration, showing whether such transfer is by way of mortgage or not; and if it be by way of mortgage, what and whose moneys are intended to be secured thereby, and what portion of such moneys has already been advanced. The Minister may in any case require full particulars to be furnished and verified by statutory declaration as to all other pastoral and homestead leases held by the intending transferee, and as to all mortgages affecting such leases. It shall be in the discretion of the Minister whether he will allow any such transfer to be registered, and any registration obtained by fraud may be cancelled after notice has been given to the parties concerned.

## NEW SOUTH WALES.

## CROWN LANDS.

(PROPOSED DEDICATION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. No. 18, AND ACT 53 VIC. No. 21.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18, and Act 53 Vic. No. 21.

Department of Lands,  
Sydney, 25th April, 1890.PROPOSED RESUMPTION OF MARKET SITE AND  
CATTLE AND SHEEP SALE YARDS AT ARMI-  
DALE.

It is hereby notified for general information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedications of the lands at Armidale, hereunder described, areas 3 acres 3 roods 20 $\frac{1}{2}$  perches and 1 acre 3 roods 30 perches, dedicated on the 15th August, 1871, and 21st April, 1880, for market and cattle and sheep sale yards respectively, with a view to the reservation of the areas in question for market.

[Ms. 90-3,854]

JAMES N. BRUNKER.

## DESCRIPTIONS.

## Market.

3 acres 3 roods 20 $\frac{1}{2}$  perches. County of Sandon, parish of Armidale, allotment 5, section 2, City of Armidale: Commencing at the intersection of the southern side of Dumaresq-street with the eastern side of Dangar-street; and bounded thence on the west by Dangar-street bearing southerly 4 chains and 85 links to Moore-street; on the south by that street bearing easterly 8 chains to Faulkener-street; on the east by that street bearing northerly 4 chains and 85 links to Dumaresq-street; and on the north by that street bearing westerly 8 chains, to the point of commencement.

## Cattle and Sheep Sale Yards.

1 acre 3 roods 30 perches. County of Sandon, parish of Armidale, allotments 8, 9, 10, and 11, of section 98, City of Armidale: Commencing at the south-eastern corner of the section; and bounded thence on the east by Canambe-street, bearing north 8 degrees 15 minutes east 10 chains; on the north by Kirkwood-street, bearing north 81 degrees 45 minutes west 2 chains; on the west by the eastern boundary of allotment 12 of 2 roods, a line crossing a lane 30 links wide; and the eastern boundary of allotment 7 of 1 rood 35 perches, in all bearing south 8 degrees 15 minutes west 10 chains; and on the south by Dumaresq-street, bearing south 81 degrees 45 minutes east 2 chains, to the point of commencement,—exclusively of a lane 30 links wide, passing through this land in a westerly direction, the area of which has been deducted from the total area.

138—A

Department of Lands,  
Sydney, 25th April, 1890.PROPOSED RESUMPTION AND RE-DEDICATION OF  
PUBLIC SCHOOL SITE AT SOUTH CASINO.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to resume and re-dedicate the Public School site at South Casino, viz., portion No. 54, in the parish of East Casino, County of Richmond, dedicated on the 17th June, 1873, and hereunder described, an amended survey of the land in question having been effected.

[Ms. 90-3,853]

JAMES N. BRUNKER.

## DESCRIPTIONS.

## Public School Site, proposed to be resumed.

2 acres. County of Richmond, parish of East Casino, portion 54: Commencing at a point 11 chains westerly and 1 chain 50 links southerly from the south-eastern corner of portion 15 of 112 acres; and bounded thence on the north by a road 1 chain 50 links wide, dividing it from part of that portion, bearing west 4 chains; on the west by a line bearing south 5 chains; on the south by a line bearing east 4 chains; and on the east by a line bearing north 5 chains, to the point of commencement.

Plan P. 182-1,978.

## Public School Site, proposed to be dedicated.

2 acres 0 roods 36 perches. County of Richmond, parish of East Casino, at South Casino, portion 54: Commencing on the southern side of the road 1 chain 50 links wide from Casino to Coraki, at the north-western corner of portion 82 of 1 acre, appropriated for an addition to the site for a Public School, being a point distant 10 chains west; and thence 1 chain 50 links south from the south-eastern corner of portion 15 of 112 acres; and bounded thence on the north by that road, dividing it from part of the latter portion, bearing west 4 chains; on the west by a road 1 chain wide, dividing it from part of portion 58 of 50 acres 1 rood 38 perches bearing south 4 chains east 86 links, and thence south 2 chains; on the south by part of a northern boundary of portion 59 of 50 acres bearing east 3 chains and 14 links; and on the east by the western boundary of portion 82 aforesaid bearing north 6 chains, to the point of commencement.

Plan P. 1,633-1,978.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF RECREATION RESERVE AT CASTLE HILL AND RE-DEDICATION OF PART THEREOF FOR SHOW-GROUND.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Castle Hill, area 38 acres 2 roods 15 perches, dedicated on the 12th August, 1884, for public recreation, and hereunder described, with a view to the re-dedication of 35 acres 2 roods 36 perches thereof for show ground for the use of the Castle Hill Agricultural and Horticultural Association.

[Ms. 90-6,349]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Recreation Reserve, proposed to be resumed.

County of Cumberland, parish of Castle Hill, area 38 acres 2 roods 15 perches. Commencing on the south-western side of a road 1 chain wide at the northern corner of Michael Hancy's now F. W. Suttors 50 acres; and bounded thence on the north-east by that road dividing it from part of John Good's now R. Gilbert's 140 acres bearing north 65 degrees 37 minutes west 15 chains 22½ links; and thence by a line bearing north 72 degrees west 8 chains 73½ links; on the north-west by lines bearing south 74 degrees 21 minutes west 8 chains 44 links; north 88 degrees 18 minutes west 3 chains 27 links; and thence south 61 degrees 8 minutes west 76½ links; on the south-west by part of the north-eastern boundary of Michael Hancy's now F. W. Suttors 100 acres, bearing south 28 degrees 52 minutes east 22 chains 23 links; and on the south-east by the north-western boundary of Michael Hancy's (now F. W. Suttors) 50 acres aforesaid, bearing north 61 degrees east 26 chains 89 links, to the point of commencement.

Show Ground, proposed to be dedicated.

County of Cumberland, parish of Castle Hill, area 35 acres 2 roods 36 perches. Commencing on the north-eastern boundary of M. Hancy's 100 acres portion 125, at the westernmost corner of M. Hancy's 50 acres, portion 126; and bounded thence on the south-west by part of that boundary bearing north 28 degrees 52 minutes west 16 chains 90 links to the south-eastern side of a road 1 chain wide; thence on the north-west and north-east by lines forming south-eastern and south-western sides of that road bearing north 52 degrees 46 minutes east 11 chains 92½ links, south 72 degrees east 8 chains 73½ links, and south 65 degrees 37 minutes east 15 chains 22½ links to the eastern extremity of the north-western boundary of portion 126 aforesaid; and thence on the south-east by that boundary bearing south 61 degrees west 26 chains 89 links to the point of commencement.

Plan catalogued C. 1,390-2,030.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF RECREATION RESERVE AT EAST MAITLAND, AND RE-DEDICATION THEREOF FOR GIRLS' HIGH SCHOOL.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land in the town of East Maitland, area 2 acres 3 roods 23 perches, viz., allotment 14 of section 26, dedicated on the 23rd July, 1889, for Public Recreation, and hereunder described, with a view to the re-dedication of the land in question as a site for a Girls' High School.

[Ms. 90-6,070]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Northumberland, parish of Maitland, town of East Maitland, area 2 acres 3 roods 23 perches: Commencing at the intersection of the north-west side of High-street with the north-east side of Lindesay-street; and bounded thence on the south-west by part of the north-east side of the last-mentioned street bearing north 45 degrees west 5 chains 79½ links; on the north-west by the south-eastern boundary-line of Short-street, being a line bearing north 44 degrees 59 minutes east 4 chains 99½ links to a point on the south-western boundary of allotment 8 of section 26, G. H. Stephen's 2 roods; thence on the north-east by part of that south-west boundary and that of allotments 9, 10, 11, and 12, section 26, being in all a line bearing south 45 degrees east 5 chains 79·7 links to the north-west side of High-street first-mentioned; and thence on the south-east by part of that side of that street, being a line bearing south 45 degrees west 4 chains 99½ links to the point of commencement,—to include allotment 14 of section 26, as shown on plan catalogued M. 91-790.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION AND RE-DEDICATION OF RECREATION RESERVE AT BRUNSWICK RIVER (MULLUMBIMBI).**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Brunswick River, area 100 acres, dedicated on the 20th December, 1887, for public recreation, and hereunder described, with a view to the re-dedication of the land in question, as at Mullumbimbi.

[Ms. 90-5,093]

JAMES N. BRUNKER.

**DESCRIPTION.**

**EASTERN DIVISION.**

**LAND DISTRICT OF MURWILLUMBAH.**

County of Rous, parish of Brunswick, containing an area of 100 acres. The Crown Lands within the following boundaries: Commencing at a point 50 links west of the south-west corner of J. Chislér's conditional purchase of 110 acres; and bounded on the north by a line and part of the southern boundary of that portion bearing east 25 chains; thence on the east by a line bearing south 40 chains to the northern boundary of portion 28 of 160 acres; thence on the south by part of the north boundary of that portion and the north boundary of portion 29, W. Reddcliff's conditional purchase 85-5 of 60 acres in all, bearing west 25 chains; thence on the west by an east boundary of the aforesaid portion 29 and the east side of a road 1 chain wide in all, bearing north 40 chains, to point of commencement.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF PART OF CANDELO RECREATION RESERVE AND RE-DEDICATION FOR SITE FOR COURT-HOUSE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of that part of Candelo recreation reserve hereunder described, viz., section 31 of 2 acres 1 rood 39 perches, with a view to the re-dedication of that area for site for Court-house.

[Ms. 90-3,851]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Auckland, parish of Candelo, town of Candelo, being section 31, area 2 acres 1 rood 39 perches, exclusive of road: Commencing at the intersection of the south side of Queen-street with the east side of William-street; thence bounded on the west by that side of William-street bearing south 6 chains to the north side of Gordon-street; thence on the south by that side of Gordon-street bearing easterly 5 chains to the west side of Bega-street; thence on the east by that side of Bega-street bearing north 6 chains to the south side of Queen-street aforementioned; and thence on the north by that side of Queen-street bearing west 5 chains, to the point of commencement,—but exclusive of the road 1 chain wide from Bombala to Merrimbla.

Plan catalogued C. 11-1,906.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF SITE FOR PUBLIC BATHS AT GOSFORD.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Gosford, area 3 roods 8 perches, dedicated on the 15th January, 1886, for site for Public Baths, and hereunder described, it being intended to reserved another site in lieu thereof.

[Ms. 90-3,857]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Northumberland, at Brisbane Water (Gosford), area 3 roods 8 perches: Commencing at a point bearing about south 11 degrees 40 minutes 45 seconds east and distant 17 chains 30½ links from the south-eastern corner of 3 roods 17 perches, recreation reserve, town of Gosford; and bounded thence on the north by a line bearing east 2 chains; on the east by a line bearing south 4 chains; on the south by a line bearing west 2 chains; and on the west by a line bearing north 4 chains, to the point of commencement.

[Plan G. 51-1,123]

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF RECREATION RESERVE  
AT GLEN INNES, AND RE-DEDICATION FOR  
RACECOURSE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Glen Innes, area 222 acres, viz.:—Portions Nos. 118 and 119, in the parish of Stonehenge, county of Gough, dedicated on the 15th August, 1871, for public recreation, and hereunder described, with a view to the rededication of the land in question for Racecourse.

[Ms. 90-3,862]

**JAMES N. BRUNKER.**

**DESCRIPTION.**

County of Gough, parish of Stonehenge, area 222 acres: Commencing on the right bank of Beardy waters at the north-western corner of portion 120, George Every' 117 acres; and bounded thence on the south by the northern boundary line of that portion being a line bearing east 63 chains 80 links; on the east by a line bearing north 40 chains to a road 1 chain wide; on the north by that road bearing west 54 chains 70 links to Beardy waters aforementioned; and on the west by those waters upwards, to the point of commencement,—being portions 118 and 119, as shown on plan catalogued G. 81-1,761.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF WENTWORTH PARK,  
ORANGE, AND DEDICATION FOR PUBLIC  
RECREATION IN LIEU THEREOF.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of Wentworth Park, Orange, area 136½ acres, dedicated on the 8th November, 1881, for public recreation, and hereunder described, with a view to the dedication of portion 181 of 133½ acres, in the parish of Orange, county of Wellington, for the same purpose in lieu thereof.

[Ms. 90-1,282]

**JAMES N. BRUNKER.**

**DESCRIPTIONS.**

Reserve for public recreation, proposed to be resumed.

County of Wellington, parish of Orange, portion 181, containing 136 acres 1 rood, within the following boundaries: Commencing at the south-west corner of portion 6, H. Wright's 10 acres 2 roods; bounded thence on part of the east by the west boundary of that portion and its prolongation north 41 minutes east 15 chains 19 links to the south boundary of W. E. Sampson's 640 acres; thence bounded on the north by part of that south boundary west 36 chains 27 links to the south-west corner of aforesaid 640 acres; thence on the west by the eastern side of a road being lines bearing south 2 degrees 2 minutes west 33 chains 10 links, and south 20 minutes west 14 chains 48 links to the north-west corner of the temporary common at Orange, notified 1st March, 1867; thence on part of the south by a line bearing south 89 degrees 42 minutes east 17 chains 43 links; thence on the south-east by a line bearing north 62 degrees east 9 chains 22 links; on the remainder of the east by a line bearing north 1 degree 11 minutes east 23 chains 36 links; and thence on the remainder of the south by a line bearing south 88 degrees 53 minutes east 11 chains 17 links, to the point of commencement.

Area of 133 acres 2 roods proposed to be dedicated for public recreation.

County of Wellington, parish of Orange, area 133 acres 2 roods, being measured portion 181, within the following boundaries: Commencing at the south-west corner of portion 6, H. Wright's 10 acres 2 roods; and bounded thence on part of the east by a line partly forming the west boundary of that portion bearing north 12 minutes west 15 chains 16 links to the south boundary of portion 72, W. E. Sampson's 640 acres; thence on the north by part of the south boundary of that portion bearing south 89 degrees 5 minutes west 36 chains 24 links; thence on the west by the eastern side of a road being lines bearing south 1 degree 1 minute west 33 chains 9 links, and south 37 minutes east 12 chains 61 links to the northern side of a road 1 chain wide on the northern side of the railway from Molong to Orange; thence on part of the south by part of that side of that road bearing east 25 chains 46 links; on the remainder of the east by a line bearing north 16 minutes east 31 chains 16 links; and thence on the remainder of the south by a line bearing south 89 degrees 46 minutes east 11 chains 13 links, to the point of commencement.

Shown on plan catalogued W. 2,440-2,091, District Survey Office, Orange.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF RECREATION RESERVE  
AT COONAMBLE, AND RE-DEDICATION FOR  
RACECOURSE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Coonamble, area 225 acres, viz.:—Portion No. 212, in the parish of Coonamble, county of Leichhardt, dedicated on the 18th January, 1884, for public recreation, and hereunder described, with a view to the re-dedication of the land in question for Racecourse.

[Ms. 90-3,856]

**JAMES N. BRUNKER.**

**DESCRIPTION.**

County of Leichhardt, parish of Coonamble, area 225 acres, portion 212: Commencing on the left bank of Yuramie Creek at a point where the eastern side of a road 2 chains wide dividing it from portion 109 of 50 acres meets that creek; and bounded thence on the west by that road bearing south 55 chains and 64 links; on the south by a line bearing east 48 chains and 65 links; on the east by a line and a road 2 chains wide dividing it partly from portion 34 of 40 acres 2 roods in all bearing north 1 degree 23 minutes east 31 chains and 88 links to Yuramie Creek; and on the north-east by that creek downwards, to the point of commencement.

Plan B. 68-1,834.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF CRICKET GROUND  
AT TAMWORTH.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Cricket Ground at Tamworth, area 5 acres 2 roods 16 perches, dedicated on the 3rd May, 1865, and hereunder described, another site having been dedicated in the locality for the same purpose.

[Ms. 90-6,350]

**JAMES N. BRUNKER.**

**DESCRIPTION.**

County of Inglis, parish and town of Tamworth, area 5 acres 2 roods 16 perches: Commencing at a point bearing south 42 degrees west, and distant 1 chain 50 links from the most southerly corner of allotment 1 of section 3, town of Tamworth, being the eastern corner of reserve for public recreation of 8 acres 1 rood, dedicated 24th September, 1889; and bounded thence north-west by part of the south-east boundary-line of that reserve, being a line bearing south 48 degrees west 7 chains; thence on the south-west by a line bearing south 42 degrees east 8 chains; on the south-east by a line bearing north 48 degrees east 7 chains to the south-western side of Lower-street; and thence on the north-east by part of that side of that street, being a line bearing north 42 degrees west 8 chains, to the point of commencement,—shown on plan catalogued T. 30-1,393.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF SITE FOR MECHANICS'  
INSTITUTE AT WARREN.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the site for Mechanics' Institute at Warren, area 2 roods, viz., allotment 1 of section 11, dedicated on the 24th October, 1882, and hereunder described, the land not having been used for the purpose for which it was dedicated.

[Ms. 90-3,855]

**JAMES N. BRUNKER.**

**DESCRIPTION.**

County of Oxley, parish of Warren, town of Warren, 2 roods, allotment 1 of section 11: Commencing on the south-western side of Dubbo-street, at its intersection with the north-western side of Redford-street; and bounded thence on the north-east by Dubbo-street bearing north 46 degrees 15 minutes west 1 chain and 25 links; on the north-west by a line bearing south 43 degrees 45 minutes west 4 chains; on the south-west by a line bearing south 46 degrees 15 minutes east 1 chain 25 links to Redford-street aforesaid; and on the south-east by that street bearing north 43 degrees 45 minutes east 4 chains, to the point of commencement.

Plan W. 3-1,773.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF CATTLE MARKET AND  
GAOL SITES AT GRAFTON.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Cattle Market site at Grafton, area 5 acres 3 roods 28 perches, dedicated on the 18th March, 1873; and reserve 2,665 for Gaol site, in the same locality, area 6 acres 2 roods 3 perches, notified on the 14th September, 1886, both hereunder described, other sites having been appropriated in lieu thereof.

[Ms. 90-4,607]

JAMES N. BRUNKER.

DESCRIPTIONS.

**EASTERN DIVISION.**

**LAND DISTRICT OF GRAFTON.**

Within the boundaries of the City of Grafton.

**Cattle Market Site.**

County of Clarence, parish of Great Marlow, containing an area of 5 acres 3 roods 28 perches: Commencing at the intersection of the north-eastern side of Hoof-street with the south-eastern side of Mary-street; and bounded thence on the north-west by Mary-street north-easterly 10 chains; on the north-east by Arthur-street south-easterly 5 chains 92½ links; on the south-east by a line south-westerly, parallel with Mary-street, 10 chains to Hoof-street; and on the south-west by that street north-westerly 5 chains 92½ links, to the point of commencement.

The above was dedicated on the 18th March, 1873, for Cattle Market site.

**Gaol Site.**

Reserve 2,665 for Gaol site, notified 14th September, 1886. County of Clarence, parish of Great Marlow, area 6 acres 2 roods 3 perches. The Crown Lands with the boundaries of allotment 1 of section 118,—as shown on plan catalogued G. 63-1,359.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT WARIALDA, AND DEDICATION FOR THE  
SAME PURPOSE IN LIEU THEREOF.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the General Cemetery at Warialda, area 7½ acres, dedicated on the 6th December, 1867, and hereunder described, with a view to the dedication of 11 acres in the same locality, also hereunder described, for General Cemetery in lieu thereof.

[Ms. 90-4,605]

JAMES N. BRUNKER.

DESCRIPTIONS.

Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF MARKET RESERVE  
AT MUDGEES, AND RE-DEDICATION FOR PUBLIC  
RECREATION.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land in the town of Mudgee, area 3 acres 3 roods 38 perches, viz.:—Section No. 68, dedicated on the 12th March, 1869, for market, and hereunder described, with a view to the rededication of the land in question for public recreation.

[Ms. 90-1,281]

JAMES N. BRUNKER.

DESCRIPTION.

County of Wellington, parish of Mudgee, town of Mudgee, area 3 acres 3 roods 38 perches: Commencing at the intersection of the south side of Market-street with the east side of Douro-street; and bounded thence on the north by part of the south side of Market-street bearing north 89 degrees 54 minutes 30 seconds east 10 chains 2 links to the west side of Perry-street; thence on the east by part of the west side of Perry-street bearing south 1 minute 45 seconds east 3 chains 98 links to the north side of Market-lane; thence on the south by part of the north side of Market-lane bearing south 89 degrees 54 minutes 30 seconds west 10 chains 2½ links to the east side of Douro-street aforesaid; and thence on the west by part of the east side of that street bearing north 3 chains 98 links, to the point of commencement.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF HOSPITAL SITE  
AT WARIALDA.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Hospital site at Warialda, area 2 roods 34 perches, viz.:—Allotments Nos. 5 and 5 of section 54, hereunder described, another site having been dedicated in the locality in question.

[Ms. 90-3,859]

JAMES N. BRUNKER.

DESCRIPTION.

County of Burnett, parish of Warialda, at Warialda, area 2 roods 34 perches, allotments 5 and 6 of section 54: Commencing on the southern bank of Warialda Creek, at the north-eastern corner of allotment 4; and bounded thence on the west by the eastern boundary of that allotment bearing south 3 chains and 43 links; on the south by Hope-street bearing east 2 chains; on the east by the western boundary of allotment 7 bearing north 3 chains and 71 links to Warialda Creek; and on the north by that creek westerly, to the point of commencement.

Plans W. 3-1,371 and W. 4-1371.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF TOWN HALL SITE  
AT WICKHAM.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Wickham, area 2 roods 27 perches, dedicated on the 11th January, 1889, for site for Town Hall, and hereunder described, the land not having been used for the purpose for which it was dedicated.

[Ms. 90-3,858]

JAMES N. BRUNKER.

DESCRIPTION.

County of Northumberland, parish of Newcastle, private town of Wickham, area 2 roods 27 perches: Commencing at the north-eastern corner of portion 184, Thomas Bryant's 1 acre 0 roods 24 perches; and bounded thence on the north-east by a line forming part of the south-western side of Railway-street, bearing north 1 degree 3 minutes 30 seconds west 1 chain 95 links; on the north-west by a line forming part of a south-eastern boundary of portion 165, Henry Dangar's 24 acres, bearing south 88 degrees 48 minutes west 2 chains 82 links, and by part of a south-eastern boundary line of Bullock Island Railway bearing south 81 degrees 30 minutes west 2 chains 31½ links; and on the south-east by part of the north-western boundary of portion 184 aforesaid bearing north 88 degrees 48 minutes east 4 chains 6½ links, to the point of commencement.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF ROMAN CATHOLIC  
SCHOOL SITE AT POKOLBIN.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Roman Catholic School site at Pokolbin, area 2 roods 1 perch, viz., portion No. 235, in the parish of Pokolbin, county of Northumberland, hereunder described, the land not having been used for the purpose for which it was dedicated.

[Ms. 90-4,608]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Northumberland, parish of Pokolbin, at Pokolbin, area 2 roods 1 perch, portion 235: Commencing at the south-east corner of 1 acre appropriated for a Roman Catholic Church; and bounded thence on the west by part of the eastern boundary of that appropriation bearing northerly 1 chain 90 links; on the north by the southern boundary of 2 roods appropriated for a Roman Catholic Presbytery bearing easterly 2 chains 49 links; on the north-east by the road 1 chain wide dividing it from part of D. Wilson's 26 acres 3 roods bearing south 10 degrees 39 minutes east 1 chain 93 links; and on the south by a road 1 chain wide, dividing it from part of portion 222 of 1 acre 0 roods 4 perches, bearing westerly 2 chains 85 links, to the point of commencement.  
Plan N. 1,720-2,111.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF ROMAN CATHOLIC  
CHURCH AND PRESBYTERY SITES AT CURRABUBULA.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Roman Catholic Church and Presbytery sites at Currabubula, area 1 acre 2 roods, viz.:—Allotments 6, 7, and 8 of section 13, dedicated on the 30th November, 1877, and hereunder described, the land not having been used for the purposes for which it was dedicated.

[Ms. 90-4,606]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Buckland, parish of Currabubula, town of Currabubula, containing 1 acre 2 roods: Commencing at the intersection of the south-west side of Breeza-street with the north-west side of Armidale-street, at the eastern corner of section 13; bounded thence on the south-east by part of the north-west side of the last-mentioned street, being a line bearing south 43 degrees west, and distant 6 chains to the eastern corner of allotment 9 of the same section; on the south-west by the north-east boundary-line of that allotment, being a line bearing north 47 degrees west 2 chains 50 links to the south-east side of a lane 30 links wide; thence on the north-west by part of that side of that lane, being a line bearing north 43 degrees east, and distant 6 chains to the south-west side of Breeza-street first-mentioned; and thence by part of that side of that street, being a line bearing south 47 degrees east and distant 2 chains 50 links, to the point of commencement,—being allotments 6, 7, and 8 of section 13, town of Currabubula,—as shown on plan catalogued C. 597-1,984.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF OLD PUBLIC SCHOOL  
SITE AT TAMWORTH, AND RE-DEDICATION  
FOR SITE FOR COUNCIL CHAMBERS.**

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Old Public School site at Tamworth, area 1 acre 1 rood, viz.:—Allotments 10 and 11 of section 17, hereunder described, with a view to the re-dedication of the land in question for site for Council Chambers.

[Ms. 90-3,850]

JAMES N. BRUNKER.

**DESCRIPTION.**

Commencing at the intersection of the north-eastern side of Peel-street with the south-eastern side of Darling-street, being the north-western corner of allotment 11 of section 17, town of Tamworth; bounded thence on the north-west by part of the south-eastern side of Darling-street aforesaid, being a line bearing north 42 degrees east 5 chains to the south-western corner of allotment 9 adjoining; on the north-east by the south-western side of that allotment, bearing south 48 degrees

east 2 chains 50 links to the northernmost corner of allotment 12 of the same section; on the south-east by the north-western boundary of the aforesaid allotment, bearing south 42 degrees west 5 chains to the north-eastern side of Peel-street first-mentioned; and thence on the south-west by part of that side of that street bearing north 48 degrees west 2 chains 50 links, to the point of commencement,—being allotments 10 and 11 of section 17, town of Tamworth, containing 1 acre 1 rood, as shown on plan catalogued N. 41-1,367.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF NATIONAL SCHOOL  
SITE AT TABULAM AND DEDICATION FOR  
PUBLIC SCHOOL SITE IN LIEU THEREOF.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the national school site at Tabulam, area 2 acres, viz.: Allotment 1 of section 22, hereunder described with a view to the dedication of portion 105 of 4 acres in the parish of Tabulam, county of Drake, as a site for public school in lieu thereof.

[Ms. 90-437]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

National School Site, proposed to be resumed.

2 acres. County of Drake, parish of Tabulam, town of Tabulam, allotment 1 of section 22: Commencing at the south-westerly intersection of Court and Pond Streets; and bounded thence on the east by Pond-street southerly 4 chains; on the south by a line westerly at right angles to Pond-street 5 chains; on the west by a line northerly, parallel with Pond-street 4 chains to Court-street; and on the north by that street easterly 5 chains to the point of commencement.  
Plan N. 109-1,367.

Public School Site, proposed to be dedicated.

County of Drake, parish of Tabulam, containing 4 acres. Commencing at a point on the southern side of Court-street, at its intersection with the eastern side of Pond-street; thence by the southern side of Court-street and a line bearing south 77 degrees east 8 chains; thence south 13 degrees west 5 chains; thence north 77 degrees west 8 chains; thence north 13 degrees east 5 chains to point of commencement,—being portion No. 105, shown on plan catalogued D. 618-1,743.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION AND RE-DEDICATION OF  
PUBLIC SCHOOL SITE AT GLEN MORRISON.**

It is hereby notified for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to resume and rededicate the public school site at Glen Morrison, area 2 acres, viz., portion 3a, in the parish of Cobrabald, county of Vernon, dedicated on the 20th April, 1875, and hereunder described, an amended survey of the land in question having been effected.

[Ms. 90-4,609]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Public School site, proposed to be resumed.

County of Vernon, parish of Cobrabald, at Glen Morrison, area 2 acres: Commencing at a point bearing south 60 degrees west, and distant 142 chains and 50 links from the south-west corner of R. H. Dennis' 288 acres, parish of St. Leonard; and bounded thence on the north-east by a line bearing north 23 degrees west 4 chains and 48 links; on the north-west by a line bearing south 67 degrees 4 chains 48 links; on the south-west by a line bearing south 23 degrees east 4 chains and 48 links; and on the south-east by a line bearing north 67 degrees east 4 chains and 48 links, to the point of commencement,—being portion 3a, shown on plan catalogued P. 209-1,978.

Public School site, proposed to be dedicated.

County of Vernon, parish of Cobrabald, portion 3a, containing 2 acres: Commencing at a point bearing south 84 degrees 48 minutes 30 seconds east, and distant 11 chains 4½ links from the south-east corner of portion 198, James Walsh's 200 acres; and bounded thence on the west by a line bearing south 4 chains 48 links; on the south by a line bearing east 4 chains 48 links; on the east by a line bearing north 4 chains 48 links; and on the north by the south side of a road 1 chain wide, being a line bearing west 4 chains 48 links, to the point of commencement.

Shown on plan catalogued V. 1,461-1,719.

Department of Lands,  
Sydney, 25th April, 1890.

**PROPOSED RESUMPTION OF CATTLE SALE-YARDS  
AT BATHURST.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Cattle Sale-yards at Bathurst, area 6 acres 3 roods 39 perches, being part of section 103, City of Bathurst, dedicated on the 17th July, 1886, and hereunder described, with a view to the reservation of the land in question for water supply.

[Ms. 90-949]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Bathurst, parish of Bathurst, city of Bathurst, area 6 acres 3 roods 39 perches. Commencing at the intersection of the south-east side of Acheron-street with the north-east side of Russell-street; and bounded thence by that side of the latter street bearing south 50 degrees 4 minutes east 10 chains 10 links to the north-west side of Pearl-street; thence by that side of that street bearing north 39 degrees 56 minutes east 4 chains 90 links to the left bank of Queen Charlotte's Vale Creek; thence by that bank of that creek downwards to the south-west side of Howick-street; thence by that side of that street bearing north 50 degrees 4 minutes west 2 chains 30 links to the south-east side of Acheron-street aforesaid; and thence by that side of that street bearing south 40 degrees 33 minutes west 10 chains 53 links to the point of commencement,—being part of section 103, as shown on plan catalogued B. 25-2,038.

1890.

## NEW SOUTH WALES.

## CROWN LANDS.

(PROPOSED DEDICATION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. No. 18, AND ACT 53 VIC. No. 21.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18, and Act 53 Vic. No. 21.

Department of Lands,  
Sydney, 23rd May, 1890.PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT DEEPWATER AND DEDICATION FOR THE  
SAME PURPOSE IN LIEU THEREOF.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the General Cemetery at Deepwater, area 7 acres 2 roods 3 perches, dedicated on the 17th June, 1873, and hereunder described, with a view to the dedication of 14 acres 1 rood 8 perches in the same locality, also hereunder described, for General Cemetery in lieu thereof.

[Ms. 90-7,263]

JAMES N. BRUNKER.

## DESCRIPTIONS.

General Cemetery proposed to be resumed.

County of Gough, parish of Deepwater, village of Deepwater, containing an area of 7 acres 2 roods 3 perches: Commencing at the south-west corner of portion 21, Emanuel Barrat's 40 acres; and bounded thence on part of the south by a line bearing west 8 chains; on part of the west by a line bearing north 5 chains; on part of the north by a line bearing east 4 chains 56 links; again on part of the west by a line bearing north 1 chain; on the remainder of the south by a line bearing west 4 chains 56 links; on the remainder of the west by a line bearing north 3 chains 96 links; on the remainder of the north by a line bearing east 8 chains to a point on the western boundary line of portion 21 above mentioned; and thence on the east by part of that west boundary line south 9 chains 96 links, to the point of commencement.

Shown on plan catalogued C. 322-1,984.

General Cemetery proposed to be dedicated.

County of Gough, parish of Deepwater, 14 acres 1 rood 8 perches, including road: Commencing on the eastern side of a road 1 chain wide, the western side of which partly forms the eastern boundary of portion 57, J. Sullivan's conditional purchase of 100 acres, at a point bearing about north 14 degrees 30 minutes east, and distant about 4 chains 30 links from the south-east corner of portion 57 above mentioned; and bounded thence on the south by a line bearing east 13 chains, being also the north boundary line of an area of 6 acres 2 roods, reserved for plantation and extension in connection with the cemetery; bounded thence on the east by a line bearing north 11 chains to the south side of a road 1 chain 50 links wide; on

the north by part of that side of that road being a line bearing west 13 chains to the eastern side of a road 1 chain wide first mentioned; and thence on the west by part of that side of that road being a line bearing south 11 chains, to the point of commencement.

Shown on plan catalogued Ms. 178 Ae.

Department of Lands,  
Sydney, 23rd May, 1890.PROPOSED RESUMPTION AND REDEDICATION OF  
GENERAL CEMETERY AT WENTWORTH.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to resume and rededicate the General Cemetery at Wentworth, area 10 acres 2 roods 13 perches, dedicated on the 6th December, 1867, and hereunder described, with a view to the redistribution of the allotments therein.

[Ms. 90-7,265]

JAMES N. BRUNKER.

## DESCRIPTION.

County of Wentworth, parish of Wentworth, town of Wentworth, containing 10 acres 2 roods 13 perches: Commencing at the intersection of the western side of Wilmot-street with the northern side of Cadell-street, at a point bearing west and distant 1 chain 50 links from the south-west corner of allotment 1, section 5; and bounded thence on the south by a line bearing west 10 chains to the eastern side of West-street; thence by part of that side of that street being a line bearing north 5 chains 30 links; thence by a line bearing east 10 chains to the western side of Wilmot-street first mentioned; and thence by part of that side of that street, being a line bearing south 5 chains 30 links, to the point of commencement. Again—Commencing on the western side of Wilmot-street, at a point bearing west and distant 1 chain 50 links from the south-west corner of allotment 1 of section 14; and bounded thence again on the south by a line bearing west 10 chains to the eastern side of West-street; thence by part of that side of that street being a line bearing north 5 chains 30 links to the south side of Adelaide-street; thence by part of that side of that street being a line bearing east 10 chains to the western side of Wilmot-street first mentioned; thence by part of that side of that street, being a line bearing south 5 chains 30 links, to the point of commencement,—shown on plan catalogued C. 849-730.

Department of Lands,  
Sydney, 23rd May, 1890.

**PROPOSED RESUMPTION OF PUBLIC SCHOOL SITE  
AT BUNDARIGO, AND DEDICATION FOR THE  
SAME PURPOSE IN LIEU THEREOF.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Bundarigo, area 2 acres, viz., portion 40 in the parish of Lanitza, county of Clarence, dedicated on the 9th July, 1886, and hereunder described, with a view to the dedication of portion 79 of 2 acres in the same locality as a site for Public School in lieu thereof.

[Ms. 90-7,264]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

**EASTERN DIVISION.**

**LAND DISTRICT OF GRAFION.**

Public School site proposed to be resumed.

County of Clarence, parish of Lanitza, at Bundarigo, 2 acres, portion 40. Commencing at the most northerly north-eastern corner of portion 41 of 8 acres; and bounded thence on the west by a line dividing it from that portion bearing south 4 chains; on the south by a northern boundary of that portion bearing east 3 chains 69 links; on the south-east by lines bearing north 39 degrees 38 minutes east 44 links; and thence north 31 degrees 39 minutes east 4 chains 30 links; and on the north by a line bearing west 6 chains 23 links, to the point of commencement.

Plan P. 1,557-1,978.

Public School site proposed to be dedicated.

County of Clarence, parish of Lanitza, containing an area of 2 acres. Commencing at the south-eastern corner of portion 80 (being the area set apart for Public School paddock); thence by the south boundary of that portion bearing west 5 chains

and 83 links; thence by a line bearing south 4 chains; thence by a line bearing east 4 chains and 18 links; and thence by a line bearing north 22 degrees 22 minutes east 4 chains and 33 links, to point of commencement,—being measured portion 79, as shown on plan catalogued C. 1,629-1,577.

Department of Lands,  
Sydney, 23rd May, 1890.

**PROPOSED RESUMPTION OF PERMANENT  
COMMON AT MOREE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the permanent common at Moree, area 606 acres and 30 perches, dedicated on the 19th May, 1868, and hereunder described, with a view to the area in question being included in a reserve for temporary common.

[Ms. 90-7,576]

## PROPOSED RESUMPTION OF HAM COMMON.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to resume the Ham Common, area 6,006 acres, hereunder described, with a view to reservation of a site for Agricultural College Farm, extension of the town of Windsor by auction sale, or other appropriations under the Crown Lands Acts.

[Ms. 90-11,546]

JAMES N. BRUNKER.

## DESCRIPTION.

All that piece or parcel of land situated in the county of Cumberland, parishes of Saint Matthew and Ham Common, containing by admeasurement 6,006 acres, be the same more or less: Commencing at the west corner of D. M'Arty's 40 acres; and bounded first on the south by a line bearing west 12 degrees north to the village of Little Richmond, dividing it from various grants; then on the north-west by the south-east boundary line of the village of Little Richmond bearing north 40 degrees east; then on the south-west by the north-east boundary line of that village bearing north 50 degrees west; then on the south-east by the north-west boundary line of that village bearing south 40 degrees west to the northern boundary line of William Minchin's 200 acres; then again on the south by that boundary line bearing west 12 degrees north to Yellow Mundy Lagoon; thence on the west by Yellow Mundy Lagoon to the southern corner of Charles Webb's 100 acres; then again on the north-west by Charles Webb's 100 acres bearing north 54 degrees east to a reserved road; thence across that road to the south-east corner of Thomas M. Pitt's 100 acres; and thence by the following farms bearing north 40 degrees east (namely:—Thomas M. Pitt's 100 acres, Mary Pitt's 100 acres, Thomas Spence's 100 acres, and William Small's 100 acres) to the western corner of the township of Richmond; then on the north-east by the south-west boundary of that township bearing east 40 degrees south 81 chains 75 links; then again on the north-west by the south-east boundary

of that town bearing north 38 degrees 20 minutes east 55 chains 27 links to the south-west side of Paget-street; then on the north-east by a line bearing east 19 degrees south 22 chains; then on the north-west by a line bearing north 19 degrees to Richard Dalton's 100 acres; then on the north by the southern boundary lines of Richard Dalton's 100 acres, of Thomas Arkell's 100 acres, and John Earl's 100 acres, bearing east 20 degrees north to the south-west corner of G. W. Evans' 519 acres; and thence by the southern boundaries of that land, of W. and J. Cox's 200 acres, and of Robert Forrester's 70 acres; then on the east by Wm. Naish's 108 acres bearing south; then on the north-east by Wm. Ezzy's 130 acres bearing south 32 degrees east to the Glebe land; then on the south-east by the Glebe land bearing west 37 degrees south; then again on the north-east by the Glebe land bearing east 40 degrees south; then again on the north-west by the Glebe land bearing north 34 degrees east to a point where the south-west boundary line of the Benevolent Asylum land prolonged would meet the Glebe land; then again on the north-east by a line to the west corner of the Benevolent Asylum land; and thence by its south-west boundary line bearing east 33 degrees 30 minutes south; then again on the north-west by the south-east boundary line of that land bearing north 33 degrees 30 minutes east to the south-west police boundary of the town of Windsor; then again on the north-east by that police boundary line bearing east 34 degrees south; then again on the north by the south police boundary line of that town bearing east to Thomas Cross' 30 acres; thence again on the east by part of the west boundary line of that farm and by John Burn's 30 acres; then again on the south by part of Jacob Russell's 30 acres; then again on the east by Russell's land; then again on the north by part of that land to the north-west corner of Edward Johnston's 25 acres; then again on the north-east by Edward Johnston's 25 acres and by Charles King's 30 acres bearing south 20 degrees east; then by Richard Ridge's 50 acres and by J. Podgett's 30 acres bearing south 23 degrees east; then by 30 acres of land granted to Edward Perkins in the year 1794 (but since cancelled); then again on the south-east by Luar's or Freeman's grant bearing south-westerly; then again on the north-east by that grant bearing south 30 degrees east to D. M'Arty's 40 acres; and then again on the south-east by D. M'Arty's 40 acres bearing west 30 degrees south, to the point of commencement (advertised as No. 41 in the Government notice, dated 11th July, 1850).

NOTE.—The above is in lieu of the notice in the Government Gazette of the 31st July, 1890.

Sydney, 2nd September, 1890.

**PROPOSED RESUMPTION OF FIRE ENGINE STATION  
AND TOWN HALL SITES AT GOULBURN AND  
DEDICATION FOR TOWN HALL SITE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedications of the Fire Engine Station site at Goulburn, area 3½ perches, and the Town Hall site, area 1 rood, dedicated on the 5th October, 1866, and 22nd April, 1886, respectively, both hereunder described, with a view to the dedication of allotments 11 and 17 of section 2, City of Goulburn, area 35½ perches, for site for Town Hall.

[Ms. 90-12,622]

JAMES N. BRUNKER.

DESCRIPTIONS.

**EASTERN DIVISION.**

**LAND DISTRICT OF GOULBURN.**

**Fire Engine Station site proposed to be resumed.**

County of Argyle, parish of Goulburn, City of Goulburn, containing an area of 3½ perches. The Crown Lands within the following boundaries: Commencing at the south-eastern side of Auburn-street, at the northern corner of M. Healy's allotment 6 of 2 roods; and bounded thence on the north-west by that street north-easterly 20 feet; on the north-east by a line south-easterly at right angles to Auburn-street 50 feet; on the south-east by a line south-westerly parallel to Auburn-street 20 feet; and on the south-west by part of the north-eastern boundary line of allotment 6 aforesaid north-westerly at right angles to Auburn-street 50 feet, to the point of commencement,—shown on plan catalogued G. 79-834.

NOTE.—The area proposed to be dedicated for Town Hall site includes the above.

**Town Hall site proposed to be resumed.**

County of Argyle, parish of Goulburn, allotment 14 of section 2, City of Goulburn, containing an area of one rood: Commencing on the south-western side of Montague-street, at the eastern corner of allotment 12; and bounded thence on the north-east by that street south-easterly 2 chains and 50 links; on the south-east by a line south-westerly at right angles to Montague-street 1 chain; on the south-west by a line north-westerly parallel with Montague-street 2 chains and 50 links; and on the north-west by the south-eastern boundary line of allotment 12 aforesaid north-easterly at right angles to Montague-street 2 chains and 50 links, to the point of commencement. Plan G. 72-834.

**Town Hall site proposed to be dedicated.**

County of Argyle, parish of Goulburn, City of Goulburn containing an area of 35½ perches. The Crown Lands within the following boundaries: Commencing at the most northern corner of Matthew Healy's allotment 6 of section 2 where that allotment meets Auburn-street; and bounded thence on the south-west by part of the north-eastern boundary of allotment 6 being a line bearing south 63 degrees 51 minutes east 150 feet; on the south-east by a line bearing north 26 degrees 9

minutes east 65 feet; on the north-east by a line bearing north 63 degrees 51 minutes west 150 feet to Auburn-street; and on the north-west by part of that street being a line bearing south 26 degrees 9 minutes west 65 feet, to the point of commencement, being allotments 11 and 17 of section 2,—shown on plans catalogued G. 79-834 and G. 103-834.

Department of Lands,  
Sydney, 2nd September, 1890.

**PROPOSED RESUMPTION OF RECREATION AND  
WATER RESERVE AT MUDGEES, AND RE-  
DEDICATION FOR THE SAME PURPOSES IN  
TWO AREAS.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Mudgee, area about 18 acres, dedicated on the 15th April, 1879, for public recreation and water supply, and hereunder described, with a view to the re-dedication of 2 roods 8 perches thereof for water supply, and the remainder, about 17½ acres, for public recreation.

[Ms. 90-12,621]

JAMES N. BRUNKER.

DESCRIPTIONS.

**Area proposed to be resumed.**

County of Wellington, parish of Mudgee, town of Mudgee, area about 18 acres: Commencing on the left bank of the Cudgegong River, at its intersection with the north side of Short-street; thence on the south by a line westerly to its intersection with the south-eastern bank of an ana-branch of the Cudgegong River aforesaid, said intersection being situated about 1½ chain northerly of the north-western corner of section 55; thence by that bank of that ana-branch north-easterly; and by the left bank of Cudgegong River upwards, to the point of commencement.

**Area proposed to be dedicated for water supply.**

County of Wellington, parish of Mudgee, town of Mudgee, being section 54a, area 2 roods 8 perches: Commencing on the left bank of the Cudgegong River, at its intersection with the north side of Short-street; and bounded thence by part of that side of that street bearing north 89 degrees 53 minutes west 3 chains; thence by a line bearing north 3 chains 68 links to the aforesaid left bank of the Cudgegong River; and thence by that bank of that river upwards, to the point of commencement,—as shown on plan catalogued W. 27-2,075.

**Area proposed to be dedicated for public recreation.**

County of Wellington, parish of Mudgee, area about 17½ acres: Commencing on the north side of Short-street, at a point situated 1 chain 50 links north from the north-west corner of section 1, town of Mudgee, being the south-western corner of section 54a of 2 roods 8 perches; and bounded thence by part of that side of that street westerly to its intersection with the south-eastern bank of an ana-branch of the Cudgegong River, said intersection being situated about 1½ chain northerly of the north-western corner of section 55; thence by that bank of that ana-branch north-easterly and by the left bank of the Cudgegong River aforesaid upwards to the northernmost corner of section 54a abovementioned; and thence by the western boundary of that section, being a line bearing south 3 chains 68 links, to the point of commencement.

NOTE—The above is in lieu of the Supplement published 24th October, 1890.

1890.

## NEW SOUTH WALES.

## CROWN LANDS.

(SETTING FORTH THE MODE IN WHICH IT IS PROPOSED TO DEAL WITH THE DEDICATION OF CERTAIN LANDS UNDER THE ACT 48 VIC. NO. 18, SEC. 5.)

Presented to Parliament pursuant to Act 48 Vic. No. 18.

Department of Lands,  
Sydney, 12th November, 1890.PROPOSED RESUMPTION OF WILBERFORCE  
COMMON.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to resume Wilberforce Common, area 7,970 acres, hereunder described, with a view to setting apart portions thereof as Special Areas and Temporary Common, and other appropriations under the Crown Lands Acts,—the claims of the various occupants to be dealt with on their merits.

[Ms. 90-16,458]

JAMES N. BRUNKER.

## DESCRIPTION.

All that piece or parcel of land situated in the county of Cook, parish of Wilberforce, containing by admeasurement 7,970 acres, be the same more or less, exclusive of the town of Wilberforce: Commencing at an ironbark-tree, being the north-west corner of Wm. Singleton's 92 acres; and bounded on the south by that land, being a line bearing east 21 degrees north 28 chains; thence on the west by the same land, being a line bearing south 1 degree east 32 chains 40 links; thence on the south-east by Baldwin's, Gosport's, Reiby's, and Reynolds' grants, being a line bearing north 62 degrees east 96 chains; thence on the south-east by J. Cobroft's 50 acres grant, being a line bearing north 39 degrees 15 minutes east 27 chains; thence on the north-east by Matthew Lock's 30 acres, being a line bearing north 21 degrees west 15 chains; thence on the south-east by the same land, being a line bearing east 24 degrees north 20 chains; thence on the south by Edward Robinson's 100 acres grant, being a line bearing east 2 degrees north 29 chains; thence on the south by Thomas Dargin's 150 acres grant, being a line bearing east 4 degrees north 42 chains 50 links; thence on the south-east by the land reserved as the extension of the town of Wilberforce, being a line bearing east 36 degrees north 52 chains; thence on the south-west by the same land, being a line bearing south 38 degrees 30 minutes east 41 chains 50 links; thence on the north-west by the town of Wilberforce, being a line bearing west 36 degrees south 8 chains; thence on

the west by John Howarth's 70 acres grant, being a line bearing south 22 chains 50 links; thence on the south-east by Charles Watson's 75 acres grant, being a line bearing east 17 degrees 30 minutes north 23 chains 40 links; thence on the east by D. Dunstan's 100 acres grant, being a line bearing north 35 chains 90 links; thence on the south-east by the same land, being a line bearing east 36 degrees north 19 chains; thence on the south-west by the same land, being a line bearing south 36 degrees east 31 chains; thence on the south-east by Joseph Banks' 30 acres grant, being a line bearing north 35 degrees east 11 chains 20 links; thence on the south-east by Fowke's and Waring's grants of 30 acres each, being a line bearing north 43 degrees east 31 chains 60 links; thence on the north-east by D. Brown's 100 acres grant, being a line bearing north 30 degrees west 23 chains 20 links; thence on the south-east by the same land, being a line bearing east 36 degrees north 35 chains 20 links; thence on the south-west by the same land, being a line bearing south 30 degrees east 1 chain 90 links to the north-west corner of W. Hopkins' 34 acres; thence on the south by W. Hopkins' 34 acres, being a line bearing east 24 chains to a reserved road 1 chain 53 links wide; from thence on the south-east by William Burgess' 150 acres grant, being a line bearing north 42 degrees 30 minutes east 36 chains 44 links to a gum-tree at the Hawkesbury River; thence by the Hawkesbury River to an oak-tree, being the south-east corner of Owen Cavenagh's 100 acres grant; thence on the north by Owen Cavenagh's 100 acres, being a line bearing west 36 chains; thence on the east by Cavenagh's, Davison's, and Howe's grants of 100 acres each, being a line bearing north 66 chains to a marked apple-tree, being the north-east corner of the Common; thence on the north, partly by Crown land, and Hall's, Beasley's, and Duncombe's grants, being a line bearing west 1 degree 30 minutes south 394 chains to the north-east corner of J. R. Hatfield's 50 acres; thence on the west by Hatfield's 50 acres, Sweeney's 40 acres, the grant to the Benevolent Society, and the grants of Yeomans, Gosport, Parr, Baldwin, and part of Mary Reiby's 100 acres grant, being a line bearing south 254 chains to the ironbark-tree at the north-west corner of Wm. Singleton's 92 acres as aforesaid.

Advertised as No. 63 in the Government notice dated 22nd August, 1851.

This area was dedicated 20th October, 1851.

Department of Lands,  
Sydney, 12th November, 1890.

**PROPOSED RESUMPTION OF PART OF SOUTH  
HEAD ROAD, PADDINGTON, AND REDEDICA-  
TION FOR TOWN HALL SITE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to resume that portion of the South Head Road, Paddington, area 1 rood  $4\frac{1}{4}$  perches, hereunder described, with a view to the rededication of that area for Town Hall site.

[Ms. 90-16,787]

JAMES N. BRUNKER.

DESCRIPTION.

County of Cumberland, parish of Alexandria, at Paddington, area 1 rood  $4\frac{1}{4}$  perches: Commencing on the north-western side of Oatley Road, at the north-east corner of the Barrack wall; and bounded thence on the south-east by part of the north-western side of Oatley Road bearing north 17 degrees 3 minutes east  $124\frac{1}{10}$  links to the proposed new southern building line of the South Head Road; thence on parts of the north-east by that proposed new building line, being lines bearing north 82 degrees 54 minutes west  $241\frac{4}{10}$  links and north 77 degrees 12 minutes west  $47\frac{1}{10}$  links; thence on the north-west by a line bearing south 6 degrees 57 minutes west  $80\frac{9}{10}$  links to the northern side of the Barrack wall aforesaid; and thence on the south-west by the northern side of the said Barrack wall bearing south 72 degrees 57 minutes east  $270\frac{9}{10}$  links, to the point of commencement.

Department of Lands,  
Sydney, 12th November, 1890.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT THIRLMERE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889 it is proposed to revoke the dedication of the General Cemetery at Thirlmere (Redbank), area 10 acres 3 roods 20 perches, dedicated 11th June, 1886, and hereunder described, with a view to its being included in a recreation reserve.

[Ms. 90-7,656]

JAMES N. BRUNKER.

DESCRIPTION.

County of Camden, parish of Couridjah, village of Thirlmere, area 10 acres 3 roods 20 perches: Commencing on the northern side of Mason-street, at the southern extremity of the western side of Goodlet-street; and bounded thence on the east by part of the western side of the last-named street north 5 chains; thence on the north by a line west 12 chains; thence again on the east by a line north 3 chains 74 links to the southern side of Oaks-street; thence again on the north by part of that side of that street south 89 degrees 11 minutes west 1 chain; thence on the west by a line south 5 chains  $97\frac{1}{2}$  links; thence again on the north by a line west 7 chains 29 links; thence again on the east by a line north 2 chains 25 links; thence again on the north by a line west 4 chains to the eastern side of a road 1 chain wide; thence again on the west by part of that side of that road south 5 chains to the northern side of Mason-street aforesaid; and thence on the south by part of that side of that street east 24 chains 29 links, to the point of commencement. Plan catalogued C. 1,078-1,984.

1890.

## NEW SOUTH-WALES.

## CROWN LANDS.

(SETTING FORTH THE MODE IN WHICH IT IS PROPOSED TO DEAL WITH THE DEDICATION OF CERTAIN LANDS UNDER THE ACT 48 VIC. NO. 18, SEC. 5.)

Presented to Parliament pursuant to Act 48 Vic. No. 18.

## CROWN LANDS.

(PROPOSED RESUMPTION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. No. 18, AND ACT 53 VIC. No. 21.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18, and Act 53 Vic. No. 21.

Department of Lands,  
Sydney, 17th June, 1890.PROPOSED RESUMPTION OF PERMANENT COMMON  
AT YASS.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Permanent Common at Yass, area 680 acres, dedicated on the 18th February, 1870, and hereunder described, with a view to its being included in a reserve for temporary common.

[Ms. 90-8,269]

JAMES N. BRUNKER.

## DESCRIPTION.

County of King, parishes of Yass and Derringullen, near Yass, containing 508 acres: Commencing at the north-eastern corner of Isabella Barber's 104 acres 3 roods; and bounded thence on the south by the northern boundaries of that land, R. M. Redmayne's 71 acres 2 roods, James Magrath's 61 acres, and R. Jones' 65 acres 2 roods 33 perches, being a line bearing west 66 chains 20 links to the eastern boundary of Thos. Barker's 800 acres; on the west by part of the eastern boundary line of that 800 acres bearing northerly to the north-eastern corner of that land; again on the south by part of the northern boundary line of that land bearing west to the south-easterly corner of G. Barber's 58 acres; again on the west by the eastern boundary line of that land bearing north to the south boundary of Thos. Hannan's 320 acres; on the north by part of the southern boundary line of that 320 acres bearing east to the south-eastern corner of that land; again on the west by the eastern boundary line of that land bearing north (crossing a road from Yass to Boorowa) to its north-eastern corner; again on the north by a line bearing east about 50 chains to a road dividing it from B. Aplin's 36 acres, portion 71, on Fairy-hole Creek; thence by that road southerly, and by the road along the southern boundary of that land easterly, to the road along the western boundaries of W. Tanswell's portions 73 and 74, each of 46 acres, and J. Collins' portion 75 and M. Langdon's portion 76 each of 42 acres; thence on the east by that road southerly about 42 chains; thence again on the south by a road along the northern boundary of Isabella Barber's 100 acres 1 rood 16 perches easterly, and along the western boundary of that land southerly, to the point of commencement.

County of King, parish of Yass, near Yass, on the Yass River, containing about 172 acres: Commencing on the right bank of the Yass River, at the north-eastern corner of J. M'Bean's portion 124 of 62 acres, parish of Yass; and bounded thence on the south by part of the northern boundary line of that portion bearing west about 39 chains 50 links; on the west by a road 50 links wide dividing it from part of George Barber's 990 acres bearing northerly about 44 chains to a point 2 chains southerly from R. M. Redmayne's 67 acres; on the north by a line bearing east 41 chains to the Yass River; and on the east by that river downwards, to the point of commencement.

Department of Lands,  
Sydney, 17th June, 1890.PROPOSED RESUMPTION OF SHOW GROUND  
AT PARRAMATTA.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to resume the land at Parramatta, area 15 acres, viz., portion 75, in the parish of St. John, county of Cumberland, set apart for the use of the Agricultural Society of New South Wales, and hereunder described, with a view to its being included in a reserve for Show Ground.

[Ms. 90-8,423]

JAMES N. BRUNKER.

## DESCRIPTION.

County of Cumberland, parish of St. John, 15 acres, at Parramatta, portion 75: Commencing at a point where the south-eastern side of a road 1 chain wide, dividing it from G. Oakes' portion 93 and J. S. Rodd's portion 87, meets the Great Western Railway; and bounded thence on the north-west by that road bearing north 22 degrees 20 minutes east 4 chains 80 links; and thence bearing north 29 degrees 20 minutes east 4 chains and 10 links; on the north by the southern boundary of a portion of 7 acres 1 rood 38 perches bearing east 18 degrees 45 minutes south 18 chains and 26 links; on the south-east by a line bearing south 18 degrees 45 minutes west 8 chains and 10 links to the Great Western Railway; on the south-west by the Great Western Railway bearing north-westerly, to the point of commencement.

## NEW SOUTH WALES.

## CROWN LANDS.

(PROPOSED RESUMPTION OF CERTAIN LANDS, UNDER THE ACT 48 VIC. NO. 18.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18.

Department of Lands,  
Sydney, 31st July, 1890.PROPOSED RESUMPTION OF RECREATION RESERVE  
AT BATHURST.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Bathurst, area 1 rood 22 perches, being part of section 88, dedicated on the 31st July, 1886, for public recreation, and hereunder described, with a view to the inclusion of the land in an area of 10 acres and 20 perches approved to be dedicated for public recreation.

[Ms. 90-10,588]

JAMES N. BRUNKER.

## DESCRIPTION.

1 rood 22 perches. County of Bathurst, parish of Bathurst, city of Bathurst, part of section 88: Commencing at the western corner of the section; and bounded thence on the north-west by the south-eastern building line of Bentwick-street north-easterly 2 chains; on the north-east by a line south-easterly at right angles to Bentwick-street, 1 chain and 64 links to Queen Charlotte's Vale Creek; thence by that creek upwards about 40 links; on the south-east by a line south-westerly parallel with Bentwick-street 1 chain 70 links to Howick-street; and on the south-west by the building line of that street north-westerly 2 chains, to the point of commencement.

Department of Lands,  
Sydney, 31st July, 1890.PROPOSED RESUMPTION OF WEDDIN PARK,  
GRENFELL.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of Weddin Park, Grenfell, area 260½ acres, viz.:—Portion No. 886, in the parish of Brundah, county of Monteaule, dedicated on the 10th February, 1885, for public recreation, and hereunder described, with a view to the reservation of the area in question for racecourse.

[Ms. 90-10,957]

JAMES N. BRUNKER.

## DESCRIPTION.

County of Monteaule, parish of Brundah, area 260 acres 1 rood. The Crown Lands within the following boundaries: Commencing at the intersection of the southern side of a road 1 chain wide with the western side of a road 1 chain wide, being a point 1 chain south of the south-east corner of suburban portion 262, and 1 chain west of the north-west corner of por-

tion 345; bounded thence on the east by the western side of the road before mentioned bearing south 51 chains 20 links; on the south by a line bearing west 50 chains 87 links; on the west by a line bearing north 51 chains 20 links to the southern side of the road first mentioned; and thence on the north by that side of that road bearing east 50 chains 87 links, to the point of commencement. Being measured portion 886,—as shown on plan catalogued L. 502-1,834.

Department of Lands,  
Sydney, 31st July, 1890.

## PROPOSED RESUMPTION OF HAM COMMON.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to resume the Ham Common, area 6,006 acres, hereunder described, the land being no longer required for the purpose for which it was set apart.

[Ms. 90-10,774]

JAMES N. BRUNKER.

## DESCRIPTION.

All that piece or parcel of land situated in the county of Cumberland, parishes of Saint Matthew and Ham Common, containing by admeasurement 6,006 acres, be the same more or less: Commencing at the west corner of D. M'Arly's 40 acres; and bounded first on the south by a line bearing west 12 degrees north to the village of Little Richmond, dividing it from various grants; then on the north-west by the south-east boundary line of the village of Little Richmond bearing north 40 degrees east; then on the south-west by the north-east boundary line of that village bearing north 50 degrees west; then on the south-east by the north-west boundary line of that village bearing south 40 degrees west to the northern boundary line of William Minchin's 200 acres; then again on the south by that boundary-line bearing west 12 degrees north to Yellow Mundy Lagoon; thence on the west by Yellow Mundy Lagoon to the southern corner of Charles Webb's 100 acres; then again on the north-west by Charles Webb's 100 acres bearing north 54 degrees east to a reserved road; thence across that road to the south-east corner of Thomas M. Pitt's 100 acres; and thence by the following farms bearing north 40 degrees east (namely:—Thomas M. Pitt's 100 acres, Mary Pitt's 100 acres, Thomas Spence's 100 acres, and William Small's 100 acres) to the western corner of the township of Richmond; then on the north-east by the south-west boundary of that township bearing east 40 degrees south 81 chains 75 links; then again on the north-west by the south-east boundary of that town bearing north 38 degrees 20 minutes east 55 chains 27 links to the south-west side of Paget-street;

then on the north-east by a line bearing east 19 degrees south 22 chains; then on the north-west by a line bearing north 19 degrees to Richard Dalton's 100 acres; then on the north by the southern boundary lines of Richard Dalton's 100 acres, of Thomas Arkell's 100 acres, and John Earl's 100 acres, bearing east 20 degrees north to the south-west corner of G. W. Evans' 519 acres; and thence by the southern boundaries of that land, of W. and J. Cox's 200 acres, and of Robert Forrester's 70 acres; then on the east by Wm. Naish's 108 acres bearing south; then on the north-east by Wm. Ezzy's 130 acres bearing south 32 degrees east to the Glebe land; then on the south-east by the Glebe land bearing west 37 degrees south; then again on the north-east by the Glebe land bearing east 40 degrees south; then again on the north-west by the Glebe land bearing north 34 degrees east to a point where the south-west boundary line of the Benevolent Asylum land prolonged would meet the Glebe land; then again on the north-east by a line to the west corner of the Benevolent Asylum land; and thence by its south-west boundary line bearing east 33 degrees 30 minutes south; then again on the north-west by the south-east boundary line of that land bearing north 33 degrees 30 minutes

east to the south-west police boundary of the town of Windsor; then again on the north-east by that police boundary line bearing east 34 degrees south; then again on the north by the south police boundary line of that town bearing east to Thomas Cross' 30 acres; then again on the east by part of the west boundary line of that farm and by John Burn's 30 acres; then again on the south by part of Jacob Russell's 30 acres; then again on the east by Russell's land; then again on the north by part of that land to the north-west corner of Edward Johnston's 25 acres; then again on the north-east by Edward Johnston's 25 acres and by Charles King's 30 acres bearing south 20 degrees east; then by Richard Ridge's 50 acres and by J. Podgett's 30 acres bearing south 28 degrees east; then by 30 acres of land granted to Edward Perkins in the year 1794 (but since cancelled); then again on the south-east by Luar's or Freeman's grant bearing south-westerly; then again on the north-east by that grant bearing south 30 degrees east to D. M'Arty's 40 acres; and then again on the south-east by D. M'Arty's 40 acres bearing west 30 degrees south, to the point of commencement (advertised as No. 41 in the Government notice, dated 11th July, 1850).

1890.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**SYDNEY COMMON AND MOORE PARK.**

(NOTICES OF DEDICATION AND APPOINTMENT OF TRUSTEES OF.)

*Ordered by the Legislative Assembly to be printed, 1 July, 1890.*

Government Public Notice.

Head Quarters, Sydney, 5 October, 1811.

HIS Excellency the Governor, anxious for the accommodation of the inhabitants of Sydney, and in pursuance of the intention signified in his General Orders of the 6th October last, gives this public notice, that he has assigned, and caused to be marked out and measured, a large common in the immediate vicinity of Sydney, containing one thousand acres, for the common pasturage of the cattle belonging to the inhabitants of Sydney. The public are to take notice that said commonage is described by the Acting Surveyor in the following terms:—Bounded on the west side by twenty-eight chains of Surry Hill Farm, and a south line of ninety-six chains; on the south side by an east line of ninety-seven chains; on the east side by a north line to the road leading from Sydney to the South Head; and on the north side by that road. For the purpose, however, of making said description and boundaries more clearly understood and known, the limits of said commonage will be further marked by four posts, with suitable labels, which will be erected on the most conspicuous angles or parts thereof.

This land being thus assigned for the use of the public, no excuse can be made for persons in future turning their cattle at large to seek food where it may be most easily found, without considering whether they may not trespass on private property, and do material injury to the gardens and enclosures of other persons; and the public are therefore cautioned not to permit any horses, horned cattle, sheep, goats, or pigs to stray in future, either upon the grounds called Hyde Park or on any private property belonging to other persons, as all cattle which may be thus found trespassing are to be taken up and put into the common pound of Sydney, until all damage incurred by them shall be fully discharged.

His Excellency thus communicates to the public that he will make a regular grant of said common lands to the Judge Advocate and Magistrates of Sydney for the time being, in trust for the benefit of the present and of all succeeding inhabitants of Sydney.

By command of His Excellency the Governor,  
J. T. CAMPBELL,  
Secretary.

Department

Department of Lands, Sydney, 5 October, 1866.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to dedicate the Crown Lands hereunder described to the several public purposes mentioned in connection therewith, abstracts of such intended dedications having been duly laid before Parliament, in accordance with the 5th section of the Crown Lands Alienation Act of 1861.

J. BOWIE WILSON.

SCHEDULE of Crown Lands authorized to be dedicated to Religious and Public Purposes, in accordance with the 5th section of the Act, 25 Victoria No. 1.

Place.	County.	Allotment.	Section.	Locality.	Area.			To what purpose dedicated.
					a.	r.	p.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**PERMANENT AND TEMPORARY COMMONS.**  
(RETURN OF.)

*Ordered by the Legislative Assembly to be printed, 7 May, 1890.*

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 4th September, 1889, That there be laid upon the Table of this House,—

“A Return giving the area of each common (either permanent or temporary) in the Colony, and the name and the population of the towns (according to last Census Returns) to which commons have been granted, such Return to be in schedule form, showing the permanent and temporary commons separately.”

(*Mr. Wright.*)

RETURN showing the area of each common (permanent and temporary) in the Colony, and the name and population of the towns to which they are attached according to last census.

## NEWCASTLE PASTURAGE RESERVE.

No. 1.

The Rev. J. Studds to The Secretary for Lands.

Sir,

Mudgee, 12 January, 1878.

I have the honor to request that 1½ acres of land on the Newcastle Commonage, and situated near Adamstown and described below, may be set apart as a site for a Primitive Methodist Church and Minister's residence.

I have, &amp;c.,

JAMES STUDDS,

Primitive Methodist Minister.

Reply to be addressed to Duguid &amp; Co., Exchange Corner, Sydney.

Until the Government has decided upon some definite course with regard to the disposal of the lands embraced by the Newcastle Pasturage Reserve it will be impossible to deal with applications of this character. Applicant should probably be so informed.—ROBT. D. FITZGERALD (*for* the Surveyor-General), B.C., 3/4/78. Informed, 23/1/78. Rev. J. Studds, 23/5/78.

To remain in abeyance pending decision of Government with regard to Newcastle Pasturage Reserve, 21/6/78.

No. 2.

Memo. from The Secretary for Lands to The Under Secretary for Lands.

MR. J. DAVIES, M.P., has asked me to have the matter of the application of the Primitive Methodist Church for a grant of land on the Newcastle Pasturage Reserve considered.

Mr. Fitzgerald, Deputy Surveyor-General, has reported to me that the application cannot be granted until after a decision has been arrived at respecting the final disposal of the land embraced in such reserve, which has been measured for auction. The matter has already engaged the attention of several Ministers, but up to the present time has not been settled.

Mr. Stephen will please let me have the papers having reference to this reserve.

J.H., 28/4/79.

Papers and *précis* herewith.—W.W.S., 30/4/79. I have written a minute for the Survey Department on the petition, to which I wish to receive a reply.—J.H., 1/5/79. Surveyor-General.—W.W.S., 2/5/79.

[Enclosure.]

To the Honorable James Hoskins, Esq., Minister for Lands,—

Adamstown, 20 March, 1879.

Honorable Sir,

We, the inhabitants of Adamstown, near Newcastle, humbly petition and respectfully ask that you will be pleased to grant to the Primitive Methodist denomination an acre of land for church and school purposes. The site asked for is bounded by Union-street, or the Lake Macquarie Road, and the street running between Adamstown proper and the commonage. It is the corner block of the commonage, and opposite the public school ground.

Reasons.

- 1st. The Primitive Methodists have had a church on the commonage for some years, but the ground on which it stands has been granted to the Council of Education, and the public school erected within a yard of the church. The public school has been taught in the church up to the present time.
- 2nd. The Primitive Methodist is the only church at Adamstown, and the Sunday-school, numbering 130 children, and the congregation are put to great inconvenience by this grant being taken from them.
- 3rd. Grants of land from the same commonage have been made not only to the Council of Education but also to the Wesleyans, &c., and at Lambton, and as the Primitive Methodist is the only denomination which has hitherto provided for the religious instruction of the inhabitants of Adamstown, they consider themselves entitled to the same consideration as other denominations.

Your Petitioners therefore pray that you will regard their application with favour, and grant the land asked for.

We have, &amp;c.,

GEORGE JAMES.

JAMES PEEK.

JAMES WRIGHT.

THOMAS RIDLEY.

WATKIN MORGAN.

JACOB CRAWHALL.

[Here follow 207 other signatures.]

Presented by John Davies. The Under Secretary,—This petition should be sent to the Surveyor-General for an early report.—J.H., 27/3/79. Mr. Peyton, 28/3/79. This case has remained in abeyance pending action respecting the disposal of the Newcastle Pasturage Reserve, which embraces the public school site and the land now applied for, and I have not been advised of the action of the Government respecting the disposal of this reserve; I am not in a position to report on the attached application.—ROBT. D. FITZGERALD (*for* Surveyor-General), April, 1879.

I notice from the papers that a portion of the Newcastle Pasturage Reserve was defined as the town and suburban boundaries of Lambton. I presume that none of the land embraced within those boundaries was alienated. I should like to know what kind of tenure the 1,300 acres called Lambton is held by the persons now occupying the same; also what is the area of the Newcastle Pasturage Reserve.—J.H., 1/5/79.

Has any land been alienated by the Crown out of the said reserve, and, if so, for what purpose?—J.H., 1/5/79. The Surveyor-General.—W.W.S., 1/5/79.

No. 3.

The Rev. B. Chapman to The Secretary for Lands.

Sir,

227, Pitt-street, Sydney, 8 July, 1879.

I have the honor to request you will have the goodness to grant for the use of the Wesleyan Methodist Church as sites for a chapel and minister's residence 1½ acres of land adjoining the north boundary of the Adamstown public school.

The portion desired is just outside the boundary of the Hamilton Municipality.

I have, &amp;c.,

BENJAMIN CHAPMAN.

Wesleyan

Wesleyan Church application, Adamstown, Newcastle Pasturage Reserve, for report of Survey Office.—J.D.D. Mr. Peyton. Mr. Lester, 14/7/79.

Understanding that the disposal of the Newcastle Pasturage Reserve, which embraces the land herein applied for, will shortly be considered, I am unwilling to hamper the action of the Government by recommending the alienation herein applied for.—ROBT. D. FITZGERALD (for the Surveyor-General), B.C., 12/8/79. The Under Secretary for Lands.

Submitted.—W.W.S., 9/9/79. Let this matter stand over until the disposal of the Newcastle Pasturage Reserve is decided by the Cabinet.—J.H., 11/9/79. Rev. B. Chapman, 6/10/79. With pasturage reserve papers.

In view of the recent decision of the Legislative Assembly that no more free grants are to be given for churches, it is recommended that applicant be informed that his request cannot be complied with.—T. LEWIS (for Surveyor-General), B.C., 17/7/80. The Under Secretary for Lands.

The Rev. B. Chapman informed, 31/7/80. Put away.—J.D.D., 9/8/80. No action in reference to this in Mr. District-Surveyor Allworth's report of 4th October, 1887. Mis. 87-13,013. Put away separately.—R.H.D., 22/5/90.

[Enclosure.]

Office Memorandum.

It was evidently thought that Rev. B. Chapman was acting for the Primitive Methodists in this matter, as a letter was sent to that gentleman on the 31st July, 1880, *vide* 79-8,169 Ms., covering the petition from the Primitive Methodists.

A report should probably be obtained from the Survey Office as to the claim of Primitive Methodists to a grant in the locality.  
J.D.D., 28/6/81. F.H.W., 28/6/81.

It has been decided to dedicate the Newcastle Pasturage Reserve for the benefit of the adjoining Municipalities. Care will be taken to exclude all areas required for public purposes, such as schools, churches, court-houses, &c. This application should be dealt with at once, in case it may be deemed advisable to exclude it.—G. LEWIS, 8/7/81. Mr. Peyton.

Mr. G. Lewis,—Under recent decisions of the Legislative Assembly it has been determined to discontinue free grants of land for church purposes, except where promises have been made, and there is no evidence in these papers to show that such has been the case in this instance. Probably the query of the Secretary for Lands, dated 1/5/79, on paper Mis. 79-3,676 herewith, should be replied to.—S.P., 14/7/81.

If there is no evidence should not the case be submitted so as to remove all uncertainty?—G.L., 15/7/81.

The question to be decided would appear to be whether the Primitive Methodists, by the erection of buildings, or effecting other improvements, have a claim for consideration in dealing with the general matter of the Newcastle Pasturage Reserve. A report is required from the Survey Office on the point mentioned.—F.H.W., 20/7/81.

As the Primitive Methodists appear to have erected a church on the pasturage reserve some years ago, perhaps in disposing of the pasturage reserve a portion of land to include the church may be reserved.—C.O., 20/7/81. Approved.—J.H., 21/7/81. Mr. G. Lewis, 22/7/81.

#### No. 4.

The Rev. G. James to N. Melville, Esq., M.P.

My dear Melville,—

Newcastle, 20 May, 1881.

The enclosed is a copy of the petition sent to Mr. Hoskins, to which there was attached about 200 names, and to which I never got the Minister's reply. There was an application went in from Mr. Studds some months before the one enclosed. The reason of the paper being dirty is that it was carried round for signing, and then it was rewritten for the Minister.

I hope yourself and Mrs. Melville and family are all well; all here join in kind remembrance.

Yours, &c.,

GEO. JAMES.

[Enclosures.]

To the Honorable James Hoskins, Esq., Minister for Lands,—

Adamstown, March, 1879.

Honorable Sir,

We, the inhabitants of Adamstown, near Newcastle, humbly petition, and ask that you will be pleased to grant to the Primitive Methodist Denomination an acre of land for church and school purposes; the site asked for is bounded by Union-street or the Lake-road opposite the new public school ground, the street running between Adamstown proper and the commonage.

Reasons :—

First.—The Primitive Methodists have had a church on the commonage for some years, but the ground on which it stands has been granted to the Council of Education, and a public school has been erected within a yard of the church. The public school has been taught in the church up to the present time.

Second.—The Primitive Methodist Church is the only one at Adamstown, and the congregation, and Sunday-school numbering 130 children, are put to great inconvenience through this ground being taken.

Third.—Grants of land from the same commonage have been made, not only to the Council of Education but also to the Wesleyans and Church of England Denominations at Lambton; and as the Primitive Methodist is the only denomination that has hitherto provided for the religious instruction of the inhabitants of Adamstown, they consider themselves entitled to the same privilege as other denominations.

Your Petitioners, therefore, venture to hope that you will be pleased to grant the land applied for.

We are, &c.

Presented by Mr. Melville, M.P.—C.O., 23/5/81.

Messrs. Duguid & Co.,—

Sirs,

Yours of the 19th instant came to hand.

Mudgee, 23 February, 1878.

Referring to the land applied for near Adamstown, I may just say that the land we have applied for is not in the township itself, but near to it on the Newcastle Commonage, and in the vicinity of the site recently dedicated or measured for a public school.

You can, perhaps, explain this. I have not yet been able to see Surveyor Anderson about the land at Cooyal Creek, but he has measured an acre and a half at Pipe Clay, so that I imagine that matter will soon be completed.

I am, &c.,

J. STUDDS.

No. 5.

## No. 5.

N. Melville, Esq., M.P., to The Secretary for Lands.

Dear Sir, Parliament House, New South Wales, 21 February, 1883.  
 Will you look into this case, and if it can be favourably considered I shall be pleased.  
 Yours, &c.,  
 NINIAN MELVILLE.

The land herein referred to forms part of the Newcastle Pasturage Reserve. The papers *re* this matter are with the general reserve papers.—F.H.W., 3/3/83. J.D.D., 3/3/83. Inform.—C.O., 3/3/83. N. Melville, M.P., informed; tracing returned, 6/3/83.

## [Enclosure.]

My dear Melville, Parsonage, Perkin-street, Newcastle, 25 October, 1882.  
 I find that it is about four years since our application for the land at Adamstown for church purposes was first made. The facts briefly put may be thus stated:—  
 1. About six years ago our people built a weatherboard church on the commonage. After occupying about two years, the Government wanted this site for a public school, and our people were desired to remove the church; this they did, to the opposite side of the street, nearly opposite the public school, when they were informed (by whom I cannot say), that they would not be disturbed again.  
 2. A petition was next prepared, and signed by nearly all the inhabitants of the township, and forwarded to the Minister for Lands, asking for a grant of the land on which the church stands for church purposes.  
 The trustees were advised to obtain a tracing plan of the site, which they did (which I enclose), and for which they paid, but it was not asked for.  
 3. Our church is the only church in Adamstown, and is now so much crowded at the ordinary services that a much larger building is an absolute necessity.  
 Our people are prepared to build immediately, but of course want a guarantee that they will not be disturbed.  
 I may add that our people feel that they have a moral claim on the land, and if affidavit to the correctness of above facts is needed, any number of persons can be obtained.  
 I may further add, that if our people were prepared to purchase land, there is none but commonage in the immediate neighbourhood.  
 An early reply will be deemed a favour, as we are anxious to begin to build.

N. Melville, Esq., M.L.A.

Yours, &c.,  
 E. COOK PRITCHARD.

## No. 6.

The Rev. E. C. Pritchard to J. Fletcher, Esq., M.P.

My dear Sir, Perkins-street, Newcastle, 5 March, 1883.  
 I have just seen Mr. Hall, and he tells me he had named to you our difficulty at Adamstown *re* land for church. The fact is, I had intended trying to see you on the question, but did not know you were at home.  
 Mr. Melville has all particulars in writing, and if you would kindly assist in trying to get us a grant, I and all our society would be greatly obliged to you.  
 This is our position: We are the only religious body in Adamstown. We have a weatherboard church now standing on the commonage opposite the public school. This will not accommodate our congregation. We want to build a brick or stone church, to seat 400 persons, but we are in a fix *re* land.  
 Long before the resolution of the House was passed to make no more grants of land for churches our application was in for the site on which our church stands.  
 A petition, signed by 190 persons, then the whole of the inhabitants almost without exception, accompanied the application; also a plan of ground, made by surveyor. This plan Mr. Melville holds at present.  
 The application is for 2 acres. Now I should be satisfied with half an acre. I feel that as the matter stands we have a moral claim to the ground. We have had a church at Adamstown now for about four years, and our people were led to believe that they would have the grant of land, and from time to time the matter has been postponed until we are now shut out from purchasing a suitable site.  
 We want to build at once. Our congregation cannot get into the church.  
 If you could help us in this matter I should esteem it a great favour, and especially if it could be settled soon.  
 Excuse this hastily-written note, as I am anxious to get it to you to-night.  
 I have, &c.,  
 E. COOK PRITCHARD.  
 Mr. Fletcher, M.P., may, it is submitted, be informed in the same terms as Mr. Mitchell, M.P. (*vide* 83-3,138 Ms. herewith).—J.D.D. Yes.—F.H.W., 21/3/83. J. Fletcher, M.P., informed, 22/3/83.

## No. 7.

The Under Secretary for Lands to N. Melville, Esq., M.P.

Sir, Department of Lands, Sydney, 6 March, 1883.  
 In reference to your letter of the 21st ultimo, forwarding a communication from the Rev. E. C. Pritchard, requesting the appropriation of certain land for Primitive Methodist Church purposes at Adamstown, I have the honor to inform you that as the land applied for forms part of the Newcastle Pasturage Reserve, the application cannot be dealt with until the general question of dealing with the whole of that reserve has been disposed of.  
 I return herewith the tracing forwarded with the application referred to.

I have, &c.,  
 CHARLES OLIVER,  
 Under Secretary.

Under Secretary.

No. 9.

Office Memorandum.

PRIMITIVE Methodist Church site on Newcastle Common:—Let me have any documents in office on this matter.

T.G.

Mr. De Low.—S.F., 9/9/87. Rev. Mr. James, Marrickville, and J. Fletcher, M.P.

The site applied for at Adamstown is probably the one referred to. It was applied for by petition of 20th May, 1881, Mis. 81-9,317. The papers have been connected with those relating to the Newcastle Commonage, and are at present in Maitland District Survey Office. In their absence it cannot be stated what action has been taken in the case, but, according to the registers, no dedication has yet been made.—R.H.D., 10/9/89.

Please see above in response to Minister's memo.—R.H.D., 19/9/89.

Inform the Reverend Mr. James that, pending the settlement of the entire question of the disposal of the reserve, no further steps can be taken in the particular case in which his church is interested, but remind him, as it is against the determined public policy of the country to make grants of land or money in aid of public worship, it will be necessary for his church authorities to purchase the site when it is available for sale.—T.G., 30/1/88.

Rev. Mr. James, 30/1/88.

No. 10.

The Under Secretary for Lands to The Rev. G. James.

Reverend Sir,

Department of Lands, Sydney, 30 January, 1888.

With reference to your personal inquiry respecting a site for Primitive Methodist Church on Newcastle Common, I am directed by Mr. Secretary Garrett to inform you that, pending the settlement of the entire question of the disposal of the reserve, no further steps can be taken in the particular case in which your church is interested.

I have to add that, as it is against the determined public policy of the country to make grants of land or money in aid of public worship, it will be necessary for your church authorities to purchase the site when it is available for sale.

I have, &amp;c.,

F. H. WILSON  
(For the Under Secretary).

No. 11.

The Rev. J. Penman to The Secretary for Lands.

Dear Sir,

Primitive Methodist Parsonage, Burwood, Newcastle, 19 June, 1889.

I again wish to bring under your notice the piece of land for a church and parsonage at Adamstown claimed by the Primitive Methodists of the Newcastle districts.

The history of the piece of ground is as follows:—

Several years ago the then Minister for Lands promised the society a block of land at Adamstown; in view of that promise the congregation erected a substantial church and fenced in the land. Relying on the promise, the congregational trustees took no further action in the matter, believing in good time the deeds of the land would be forthcoming.

When application was at last made for the deeds it was stated there was some difficulty as the law had been altered.

The deputation, however, pointed out that a clear and specific promise had been made, and that, in virtue of that promise, the people had erected a church, and that whatever alteration had taken place in the law or custom it should certainly not be made retrospective. I may add that several gentlemen known to yourself, namely, Richard Hall, Esq., Newcastle, Wm. Davis, late Miners' Association Chairman, A. Cameron, Esq., late Chairman of Committees, James Fletcher, Esq., M.P., and N. Melville, Esq., M.P., are prepared (as needs be) to make a sworn declaration that a promise was made to give the block of land in question.

The society is now become a large and important one, and it is necessary to afford more accommodation for our Ministers; with that view we are anxious to have the ground conveyed legally.

The matter has several times been before you, and you have several times promised to consider the whole matter.

Will you, therefore, be good enough to give this matter your favourable attention as early as possible and give effect to the promise long made.

I have, &amp;c.,

JOHN PENMAN.

No. 12.

## No. 12.

## Mr. R. Hall to The Secretary for Lands.

Sir,

Newcastle, New South Wales, 24 September, 1889.

I now have pleasure in submitting what information I can regarding land on which Primitive Methodist churches are erected upon at New Lambton and Adamstown. When the piece was selected at the former place the general impression was that it came under the control of the Newcastle Borough Council, as being on the Newcastle Pasturage Reserve. Before commencing the building I waited upon the late Mr. James Hannell, who was then mayor of Newcastle, also a member of Parliament, and he strongly advised us to take up the land, as any trustees that may afterward be appointed would be lenient to church people. At this time there were from 100 to 150 children running almost wild in this neighbourhood, and after erecting the building we opened a day and sabbath school, which was a great boon to the inhabitants.

At Adamstown a similar state of things existed, and we erected a building, and opened a day and sabbath school, and afterward let the building to the Department of Education for a public school. After a time they made choice of this same piece of land to erect their present public school buildings, and requested us to remove our building to a piece of land on the opposite side of the street, which we at once consented to do, and then erected a larger church, capable of holding 500 or 600 persons, and as we were anxious to get a title for the land a petition was signed by 259 inhabitants of Adamstown of all denominations, asking the Government to grant us the site. The then Minister for Lands, Mr. Hoskins, had no objection to do so, but thought he was powerless in the matter, on account of the land being on the pasturage reserve. It was then pointed out to him that similar grants had been made (on reserve land) to the Church of England people at Waratah, and also the Wesleyans at Lambton, at both of which places we had churches on freehold land. Mr. Hoskins stated if this were correct he would accede to our wishes, and the matter was left in the hands of Mr. Hungerford to complete, but he did not take any further trouble about it, although he promised to do so. We have another church (recently built) on reserve land at the Broadmeadow, but we are quite willing to pay for this at a fair valuation. These statements are substantially correct so far as my memory serves me. I believe several deputations from our Ministers and officials have taken place about the land, but I am not thoroughly acquainted with results.

I hope, sir, that you will be able to grant our request and convey the land as quickly as possible.

I have, &amp;c.,

RICHARD HALL.

## No. 13.

## The Rev. J. Penman to The Secretary for Lands.

Primitive Methodist Parsonage, Burwood, Newcastle, 29 April, 1890.

Dear Mr. Brunker,

Mr. R. Hall, of Newcastle, wishes me to write and call your attention to the fact that the deputation coming from Adamstown to interview you *re* a piece of land for council chambers, &c., are actually coming to ask for our land.

This land was promised to us by one of your predecessors. We have fenced it in, and intend erecting on it a minister's residence.

There are several other available allotments well suited to the purpose for which they require the land. I shall not attempt to describe the baseness of the boast these men are making about taking it from the Primitives, &c.

I cannot imagine religious bigotry going further. I trust the attempt may be frustrated, and our rights preserved.

I am, &amp;c.,

JOHN PENMAN.

## No. 14.

## The Secretary, General Post Office, to The Under Secretary for Lands.

Sir,

General Post Office, Sydney, 1 May, 1890.

Mr. Ninian Melville, M.P., having represented that it is desirable for the Government to secure as a site for a post and telegraph office at Adamstown "a piece of commonage, which is about to be sold in allotments," the Postal Inspector who has reported on the matter, states that there is a large and increasing business being done at the place in question, and he is satisfied before long it will be necessary to build an official office, and he recommends that, as the Government now holds all the land in Adamstown, a portion be secured as a site.

The Postmaster-General has approved of this, and I am directed therefore to request that you will be so good as to move the Minister for Lands to cause to be reserved for the purpose indicated a corner block of land having 40 feet frontage to Union-street, and 160 feet to Merewether-road.

I have, &amp;c.,

S. H. LAMBTON.

## No. 15.

## J. H. Creer, Esq., M.P., to The Secretary for Lands.

[Extract from Letter.]

2 May, 1890.

THE Mayor and Alderman Edden, of Adamstown Borough Council, wish to interview you on Thursday next, 8th May, with reference to site on commonage for post and telegraph offices, and site for school of arts.

They will be in Sydney on that day interviewing other Ministers, and I sincerely hope you will be recovered from your present illness and again in your Department, and consent to receive above deputation.

Yours truly,

JOSEPH H. CREER.

Submitted.—W.H., 3/5/90. Mr. Carruthers will receive the deputation on Thursday, the 8th instant, at 11:30 a.m. Inform at once.—W.H., 6/5/90. Mr. Creer, M.P., informed, 6/5/90.

No. 16.

## No. 16.

The Under Secretary for Lands to J. Creer, Esq., M.P.

Sir,

Department of Lands, Sydney, 6 May, 1890.

With reference to your letter of the 2nd instant, I have the honor to inform you that the Honorable J. H. Carruthers, Esq., M.P., will, in the absence of Mr. Secretary Brunker, receive the deputation from Adamstown in regard to a site on the commonage for a post and telegraph office, also a site for a school of arts, on Thursday next, the 8th instant, at 11:30 a.m. at this Department.

I have, &amp;c.,

WM. HOUSTON,

Under Secretary

(per R.H.D.)

## No. 17.

## Office Memorandum.

8 May, 1890.

DEPUTATION consisting of Mr. Creer, M.P., the Mayor, and Alderman Eddin, of Adamstown, *re* sites on the commonage, for post and telegraph offices, school of arts, etc.

The deputation said that they had come to ask that a portion of land might be granted from the commonage for post and telegraph purposes. They had just come from the Postmaster-General, who approved of substantial buildings being erected on a portion of the site now asked for, which had a frontage of 123 links to the Government road to Lake Macquarie, and 298 links to the Government road to the Railway Station, and west to the public school site. See Ms., 90-6,736.

Mr. Carruthers (who received the deputation in the absence of Mr. Brunker through illness) explained that the difficulty appeared to be that the Lands Department thought that this land had been promised to the Primitive Methodists. Portion 1,645 of 1 rood 20½ perches.

The deputation stated that the Primitive Methodist chapel stood a long way back, and that granting the land now asked for would not be to the detriment of the Church—that body first built a chapel on the present public school site, but the land being required for public school purposes, they had moved to another place across the road. They were not told to take up this particular land, and the minister of the church, at the time they were fencing in the chapel ground, had said they might as well enclose 3 acres as 1. This block that they were applying for was in the centre of the town, and was quite big enough for the three (post and telegraph office, school of arts, and council chambers). The church is in 1,646 of 1 rood 19½ perches with frontage of 125 links.

Mr. Carruthers replied that he could not give them a definite promise in the absence of Mr. Brunker, but he would lay the whole matter before him as early as possible; with regard to the school of arts they hoped to soon pass a Local Government Bill, which would place these institutions in a very different position to what they were at present, as they would then be municipal institutions, and doubtless care would be taken that a suitable site was provided for the school of arts.

WALTER D. BINGLE.

The deputation asked that Mr. Carruthers would be sure, and inform the Minister that they desired part of the area for a site for council chambers. There is no trace of any promise to the Primitive Methodists on the papers. I am much inclined to think that they should be restricted to the one allotment. Would the Minister kindly send for me if he thinks it necessary.—W.H., 23/5/90.

## No. 18.

## Office Memorandum.

Newcastle Pasturage—Primitive Methodist Church, Adamstown.

Lands, 15 May, 1890.

1. By plan of subdivision the church would seem to be on portions 1,646, and 1 rood 19½ perches.
2. Will the District Surveyor at Maitland be good enough to say what portions and area the church authorities have fenced in?
3. Also whether Merewether-road is the road to the south of the public school site, portion 268, leading to the Adamstown railway station.
4. Also as to the position of the Lake Macquarie Road, as referred to in Mis. 90-7,149. An early reply is desired.

R.H.D.

(For the Under Secretary.)

1. Yes.

2. Portions tinted red on lithograph, containing an area of 2 roods 39¼ perches.

3. Yes; tinted purple on lithograph.

4. Tinted brown on lithograph.

W.A., 16/5/90.

## No. 19.

## Office Memorandum.

Newcastle Pasturage—Primitive Methodist Chapel Site, Adamstown.

19 May, 1890.

THIS case has been for some time before the Department.

Some short time ago several Aldermen of Adamstown, including Mr. Firth (Mayor), accompanied by Mr. Melville, M.L.A., called on the Minister for Lands with respect to a part of the land now fenced in by Primitive Methodists being set apart for public requirements, such as council chambers, post and telegraph office, and school of arts.

On the 8th instant a deputation from the same Council waited on Mr. Carruthers (acting for the Minister for Lands) on the same subject. (See Mis. 90-7,149.)

The

The Primitive Methodists have fenced in allotments 1,646 and 1,645, of a total of 2 roods 39 $\frac{1}{2}$  perches. (See litho. enclosed.)

The Borough Council of Adamstown apply that the corner block, 1,645, of 1 rood 20 $\frac{1}{2}$  perches, be retained for public purposes.

The Postmaster-General has also applied for a part of 1,645. (See Mis. 90-6,736.)

The Primitive Methodist Church authorities have fenced in, and are now occupying, both portions 1,646 and 1,645, and they protest against the action of the Borough Council. They base their claim to the land on an alleged promise by Mr. Hoskins, when Minister for Lands, in 1879. They previously occupied a site opposite portion 268, on which the public school stands, and assert they removed to the present site, and vacated the old, on the distinct understanding that they were to get an equal area, about 2 acres. There is nothing on record of any such promise by Mr. Hoskins, nor yet of any such understanding, so far as the papers show. It is clear the church authorities were trespassers, and they do not deny it.

There is really no promise of grant to them in express words. The only memo. that by inference can be construed in favour of the granting any land at all is the memo. by Mr. Oliver, 20/7/81:—

“As the Primitive Methodists appear to have erected their church on the pasturage reserve some years ago, perhaps, in disposing of the reserve, a portion of the land to include church may be reserved.”

That minute was approved by the Minister, Mr. Hoskins, on 21/7/81. Nothing was said about granting the land to the church, nor was it set out what land, and how much.

When surveying the common, Mr. Surveyor Hawkins inquired into their claim, and in his report of 13th August, 1887, Mis. 87-13,016, he states the church authorities were unable to produce any documentary evidence in support of the alleged promise of Mr. Hoskins. Extract herewith.

Mr. District-Surveyor Allworth, in his report of 4th October, 1887, on the pasturage reserve, recommends the church be confined to allotment 1,646, of 1 rood 19 $\frac{1}{2}$  perches. (See paragraph 5, last sentence on page 62 of Select Committee Report to Legislative Assembly, ordered to be printed on 5th June, 1889.)

The question for determination now is:—

1. Was a promise, either expressed or implied, given to grant or to dedicate any land for the Primitive Methodist Church?
2. If so, when was such made?
3. If made “in tune,” is it to be confined to one portion, 1,646, on which the church stands, or to be expanded to include both lots, 1,646 and 1,645?

The phrase “in tune,” used in the preceding sub-paragraph, is inserted, because, by the Newcastle Reserve Act 53 Vic. No. 1, section 1, last part thereof, every promise made to give land for church purposes must have been made prior to 11th May, 1880, and Mr. Oliver’s (Under Secretary then) memo. is dated 20th July, 1881, and Mr. Hoskins’ approval the day after. Mr. Hoskins was Minister for Lands from December, 1878, to December, 1881.

R. H. DE LOW.

F.H.W., 21/5/90. Submitted.—W.H., 22/5/90.

A deputation, consisting of the Members for Northumberland and the Rev. J. Penman, informed me that the Primitive Methodist Church was erected on a portion of the pasturage reserve, which, at the request of the Department, was given in exchange for another portion required for a public school, and further, that the expense of removing the church to the site on which it stands at present was borne by the Department. Ask the Members to confirm this statement by handing in declarations as to the facts.—J.N.B., 30/5/90.

Messrs. Melville, Walker, and Creer, M’s.P., asked, 4/6/90.

[Enclosure.]

Extract from Lands, 87-13,016.

Local Land Board, Maitland, 87-5,153.

29 August, 1887.

Extract from Surveyor F. W. Hawkins to the District Surveyor, transmitting plans of portions of the Newcastle Pasturage Reserve, Waratab, No. 87-20. 13 August, 1887.

THE Primitive Methodist Chapel, opposite the Adamstown Public School (numbered 344 on plan), has been erected in lieu of an old chapel which was originally on the site now occupied by the public school. The clergyman and trustees of the church assert that they had a promise of a grant of land for church and parsonage when the commonage question was settled from Mr. Hoskins, when Minister for Lands, but they could produce no documentary evidence of it. The cost of erection, fittings, and fence was £700.

No. 20.

The Under Secretary for Lands to N. Melville, T. Walker, and J. Creer, Esq’s., M’s.P.

Gentlemen,

Department of Lands, Sydney, 4 June, 1890.

Referring to the representations made by you in company with the Reverend J. Penman to the Secretary for Lands, respecting the Primitive Methodist Chapel site on the Newcastle Pasturage Reserve at Adamstown, to the effect that a chapel was erected on portion of the pasturage reserve which, at the request of the Department was given in exchange for another portion required for a public school, and further that the expense of removing the chapel to the site on which it stands at present was borne by the Department,—I am directed to ask that you will be good enough to confirm such statements by handing in statutory declarations as to the facts.

Such declarations should also set forth by whom the promise of the land was made, to whom, and when; also what department paid for the removal of the building, and the date it was removed.

I have, &c.,

WM. HOUSTON

Under Secretary,

(Per R.H.D.)

No. 21.

## No. 21.

## Mr. J. Gray to The Secretary for Lands.

[Presented by the Rev. Geo. James and Penman.—R.H.D., 26/6/90.]

Dear Sir,

Crown-street, Adamstown, 13 June, 1890.

I, James Gray, carpenter and undertaker, of Crown-street, Adamstown, do hereby certify that I was a member and official of the Primitive Methodist Church, Adamstown, during the year 1877, and that during that time the above church was occupied during the week as a day-school under the Department of Education.

About this time there was an application by the people of Adamstown to the Government for the erection of suitable buildings as a public school, which application was granted, and the site chosen was that on which the Primitive Methodist Church then stood, which compelled us to remove the church on to the corner on the opposite side of the road—allotment marked on Pastures Reserve Plan 1,645.

A deputation was then appointed to proceed to Sydney to interview the then Minister for Lands, and apply for a piece of land for church purposes. The Minister's reply to the deputation was, that he could not then grant our application, the land applied for being a portion of the Newcastle Pasturage Reserve, but that we had to go on and fence in as much as was then usually given for church purposes, and when the whole question of the pasturage land was dealt with we should have ours properly conveyed to us. With this understanding and promise from the Minister we at once commenced to stump and clear, and ultimately fenced in with a good substantial paling fence that block of land which now comprises two allotments 1,645 and 1,646.

I also certify that on the church which stood on lot 1,645, and which we had previously brought from the opposite side of the road, becoming too small for the increasing congregation, we decided to build a new and larger church on what is now lot 1,646, with a view to erecting a Minister's residence on lot 1,645.

The present buildings on the land are as follows:—The church, a stable for the minister's horse, a buggy-shed, two waterclosets, one on lot 1,645, the other on lot 1,646, the one for the male Sunday-school scholars, the other for the females. The above information I give on my own certain knowledge of the facts herein expressed. And declare the same to be substantially true.

In witness whereof I hereunto subscribe }  
my name in the presence of,— }

JAMES GRAY.

THOMAS HETHERINGTON, a Justice of the Peace for New South Wales.

I declare the above signature to be that of James Gray, signed in my presence.—Witness, THOMAS HETHERINGTON, J.P., 14/6/90.

Presented by Reverends George James and Penman.—R.H.D., 26/6/90.

Adamstown.—See the Minister's minute of 30th May, 1890, 8,065. Ask the Department of Public Instruction to favour with any information—as to its disposal—as to site on which the public school now stands—the removal of the Primitive Methodist Church to allotment opposite, and as to paying cost of such removal.—R.H.D. (*for* Under Secretary), 5/7/90.

Corr. received, 5/7/90. Under Secretary, Instruction, asked, 14/7/90. Any reply to letter, 14th July last.—R.H.D., 7/8/90. Mr. Ferris.—Remind please.—J.O'D., 14/8/90. Mr. Chaplin (Urgent)—Remind Department of Public Instruction.—R.H.D. (*for* the Under Secretary), 3/9/90. Received, 1/9/90. Reminded (P), 4/9/90.

## No. 22.

## Declaration by J. Fletcher, Esq., M.P.

[Presented by the Reverends James and Penman.—R.H.D., 26/6/90.]

I, JAMES FLETCHER, of Sydney, New South Wales, do solemnly and sincerely declare that I, in company with a deputation, waited upon the then Minister for Lands during the year 1877, and represented to him that the land upon which the Primitive Methodist Church then stood being required for the now Adamstown public school, it would be necessary to have granted another site. The Honorable the Minister replied that he could not then make a grant till the commonage question was settled; but they the Primitive Methodist connection were to take and fence in the usual quantity that churches received, and upon the commonage question being settled they would get the title. On that understanding the Primitive Methodist connection took possession of the land (now known as allotments 1,645 and 1,646 on commonage plan) cleared, fenced, and stumped the same: And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Made and signed before me, at Sydney, }  
this 25th day of June, 1890,— }

JAMES FLETCHER.

JOSEPH CREER, J.P.

## No. 23.

## Declaration by N. Melville, Esq., M.P.

[Presented by the Reverends James and Penman.—R.H.D., 26/6/90.]

I, NINIAN MELVILLE, of Dover-street, Summer Hill, near Sydney, do solemnly and sincerely declare that during the year 1880, I, in company with J. Fletcher, M.P., and others, interviewed the then Minister for Lands, requesting land upon which the Primitive Methodist Church at Adamstown should be granted to the connection, upon the grounds that the church had been removed at the expense absolutely of the members of the congregation, from the land on the other side of the road, so that a public school

could be erected thereon. The Minister promised to give the land upon the settlement of the commonage question, as also the Honorable J. S. Farnell on a subsequent occasion. And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Made and signed before me, at Sydney, }  
this 25th day of June, 1890,— }

NINIAN MELVILLE.

JOSEPH CREER, J.P.

No. 24.

Declaration by the Rev. G. James.

[Presented by the Rev. George James and Penman.—R.H.D., 26/6/90.]

I, GEORGE JAMES, Primitive Methodist Minister, now of Dulwich Hill, Marrickville, do solemnly and sincerely declare that I was Minister of the Primitive Methodist Denomination in the Newcastle District from the year 1877 until 1881. Some time previous to my taking charge our people at Adamstown built a church on that piece of land now occupied by the public school. To accommodate the Department of Education, our people gave up the site, and removed to the opposite side of the road. About that time a deputation was sent to interview the then Minister for Lands with a view to obtaining the present site as a grant for church purposes. The answer given by the Minister to the deputation was that he could not then comply with their request, but to go on and fence in the amount usually given for church purposes, and when the commonage question was dealt with, the Primitive Methodists should receive the title to their land. On the basis of this promise we stumped the land, fenced it in with a good substantial paling fencing, also built a new and larger church than the one previously occupied. And I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Made and signed before me, at Sydney, this }  
26th day of June, 1890,— }

GEORGE JAMES.

JOHN CALLAGHAN, J.P.

No. 25.

The Under Secretary for Lands to The Under Secretary for Public Instruction.

Sir,

Department of Lands, Sydney, 14 July, 1890.

I have the honor to inform you that it has been represented to this Department that the present public school site at Adamstown, near Newcastle, was formerly occupied by the Primitive Methodists and a chapel erected thereon, but the land being desired for public school purposes, that body removed to a block of land opposite under an alleged promise of the land, and I have to ask that you will be good enough to furnish this Department with any information at your disposal as to the site on which the public school now stands, the removal of the Primitive Methodist Church to the allotment opposite, and as to paying cost of such removal, and whether any officer of your Department made any promise.

I have, &c.,

WM. HOUSTON,  
Under Secretary  
(Per R.H.D.)

No. 26.

The Secretary, General Post Office, to The Under Secretary for Lands.

Sir,

General Post Office, Sydney, 26 August, 1890.

Referring to my letter of the 1st May last, requesting that a portion of land at the corner of Union-street and Merewether road, Adamstown, might be set apart as a site for a post and telegraph office, I am now directed to ask that you will kindly favour me with a reply as to how the matter stands.

I have, &c.,

S. H. LAMBTON.

Any reply from Instruction Department? Not yet.—E.G.

No. 27.

The Secretary, General Post Office, to N. Melville, J. Creer, and T. Walker,  
Esq's., M's.P.

Gentlemen,

General Post Office, Sydney, 2 September, 1890.

With reference to previous correspondence, in which it was stated that the Lands Department had been asked to set apart land at the corner of Union-street and Merewether-road, Adamstown, as a site for a post and telegraph office, I am now directed to inform you that the Works Department has been requested to place on the Estimates for next year. £1,000 to provide for the erection of a new building.

I have, &c.,

S. H. LAMBTON,  
Secretary.

No. 28.

11

No. 28.

The Under Secretary for Lands to The Under Secretary for Public Instruction.

Sir,

Department of Lands, Sydney, 4 September, 1890.

I am directed to invite your attention to my letter of the 14th July, asking to be favoured with any information at your disposal as to site on which the public school now stands, the removal of the Primitive Methodist church to allotment opposite, and as to paying cost of such removal, and I am to request you to be good enough to furnish a reply thereto at your earliest convenience.

I have, &amp;c.,

WM. HOUSTON,  
Under Secretary  
(Per R.H.D.)

No. 29.

The Under Secretary for Public Instruction to The Under Secretary for Lands.

Sir,

Department of Public Instruction, Sydney, 29 September, 1890.

With reference to your letter, dated 14th July last, requesting information respecting the site of the public school at Adamstown, I am directed to acquaint you that it seems that the land on which the school now stands was applied for by the Council of Education, at the instance of a largely-signed petition from the residents, in May, 1877, and the grant was approved in December of that year, viz., 2 acres, part of Newcastle Pasturage Reserve. It appears that the Primitive Methodist church stood on the land when granted, and was also used as a school. This building was removed by the proprietors themselves without any notice whatever to the Local Board, in March, 1879.

2. From a perusal of the correspondence it appears that no promise whatever was made by the Council of Education to pay the cost of such removal.

I have, &amp;c.,

J. GIBSON  
(For Under Secretary).

Attach previous papers.—J.O'D., 9/10/90. Mr. Hancock.—Ms. 90-13,765 stands noted to Charting Branch, 27/9/90. Now herewith.—E.H., 10/10/90. Mr. O'Dwyer.

Newcastle Pasturage.—Special attention is invited to my memo. of 19th May last, Ms. 90-8,065, and to the Minister's of 30/5/90 thereon. The statutory declarations (three) now furnished do not say the buildings were removed at the expense of the Government; and this letter supports the view that they were removed at the cost of the church authorities. As regards the alleged promise, Mr. Fletcher says in his declaration it was in 1877; Mr. Melville says in 1880; Mr. James is silent as to the year. As regards the area, Messrs. Fletcher and Melville speak of the usual quantity for church purposes. The two allotments, 1,645 and 1,646 (2 roods 39 $\frac{1}{4}$  perches), do not exceed the usual quantity then allowed. It will be seen the Postal Department has asked for 1,645. It is now submitted whether any land is to be granted to the church; and if so, what land.—R.H.D., 16/10/90.

Special.—F.H.W., 18/10/90.

Submitted. The religious body referred to appear to me to be entitled to consideration; there is, I think, very little doubt that a promise was given many years ago; the questions are whether the grant shall be made, and what area shall be granted.—W.H., 20/10/90.

The land may be granted in terms of promise which appears to have been made previous to 1880.—J.N.B., 23/10/90. Inform the District Surveyor. The Rev. Mr. Penman, the Secretary to the General Post Office, and the Adamstown Municipal Council in reply to 7,149.—R.H.D., 24/10/90. Both portions for the church.—R.H.D. Above parties informed, 30/10/90.

No. 30.

The Under Secretary for Lands to The District Surveyor, East Maitland.

Sir,

Department of Lands, Sydney, 30 October, 1890.

Referring to the matter of the conflicting applications of the Primitive Methodist Church authorities, the Adamstown Municipal Council, and the Postmaster-General's Department for portions 1,645 and 1,646 of the Newcastle Pasturage Reserve, I have the honor to inform you that the Secretary for Lands has decided that both these portions be granted to the Primitive Methodists, in accordance with a promise apparently made prior to 1880.

I have, &amp;c.,

WM. HOUSTON,  
Under Secretary

## RECREATION RESERVE, PARISH OF WILLOUGHBY.

No. 1.

Mr. Surveyor Chapman to The Surveyor-General.

Sir,

St. Leonards, 19 November, 1884.

I have the honor to transmit herewith the plan and field notes showing the survey of the temporary reserve for recreation in the municipality of North Willoughby, parish of Willoughby, and county of Cumberland, and measured by me in accordance with the Reserves Branch Memorandum of Instructions, No. 432, of the 15th October, 1883.

1. Elizabeth-street passes through this reserve, dividing it into two parts, as shown on plan, by the areas 19 acres 3 roods 7 perches and 26 acres 0 roods 31 perches, exclusive of the reserved site for municipal buildings, measuring 1 acre 3 roods 34 perches, around which the Municipal Council has recently erected a substantial fence. The eastern and southern corner posts of this fence have, I believe, been placed in the positions of the original pegs.

2. The eastern corner of the temporary reserve for recreation was fixed by me from Mr. Surveyor Deering's peg; this corner does not agree with the intersection of the north-east side of Herbert-street and the south-east side of that reserve. (*Vide* diagram B on plan.)

3. All the corners, except where otherwise specified, are marked by stone posts, supplied by the Municipal Council, being about 2 feet 6 inches long, and dressed 9 inches square at top, with drilled hole, tarred disc, &c., and sunk about 2 feet into the ground.

I have, &amp;c.,

E. C. S. CHAPMAN.

Reserves Branch, instructions No. 432, plan and field notes herewith, C 70.2063. Metropolitan District Office, 22/11/84. Entered.—F.B.W.W, District Surveyor, 24/11/84. Field Book (No. 760) in General Survey Branch.—J.M.S., 25/11/84. Secretary and Cashier, Surveyor-General's Office, 27/11. General Survey Branch in first instance.—C.J.S., 12/12/84. Mr. Hay.

[Enclosure.]

Subject.	Reply.
<p>Reserve Branch. Surveyor-General's Office, Sydney, 15 October, 1883. Memorandum of Instructions. Mr. District-Surveyor Woolrych is requested at his early convenience to measure the boundaries of the temporary reserve for recreation adjoining the north-east boundaries of D. Curry's 25 acres, and portion marked G. Tilley's 25 acres, being about 48 acres, exclusive of North Willoughby Municipal Council's 2 acres for buildings, parish of North Willoughby, county of Cumberland. G. LEWIS (For Surveyor-General). Reserve Branch, Surveyor-General's Office, Instructions No. 432. Mr. District-Surveyor Woolrych.</p>	<p>Metropolitan District Office. -- Received, 23/10/83. Transferred to Mr. Surveyor T. G. Wilson.—D. M. MARR- LAND, Acting District Surveyor, 23/10/83. T. G. Wilson, 18/6/84. Returned with my letter No. 84.16 of this date. —E. C. S. CHAPMAN, 19/11/84.</p>

No. 2.

## Office Memorandum.

In his survey of the recreation reserve at North Willoughby, Mr. Surveyor Chapman, shows a considerable discrepancy between Mr. Surveyor Armstrong's survey of the site for municipal buildings surveyed by him in 1867, and dedicated 12th March, 1869, and the site as now fenced.

Mr. Chapman has adhered to the existing fences as the boundaries in his survey, the area of the site within which is 1 acre 3 roods 34 perches as against 2 acres dedicated.

Tracings are enclosed showing both surveys.

Submitted for the consideration of the Surveyor-General whether Mr. Surveyor Chapman's survey be accepted.

The Surveyor-General.

May be accepted.—R.D.F.G., 17/9/85.

See Appendix A.

No. 3.

## The Surveyor-General to The Under Secretary for Lands.

THE temporary reserve for recreation at North Willoughby, having now been measured and marked on the ground it is submitted that it be dedicated for public recreation under the 104th clause of the Crown Lands Act, 1884. The land is within the Municipal District of North Willoughby.

G. LEWIS

(For the Surveyor General),

3rd November, 1885.

Submitted.—

Submitted.—R.H.D., 16/11/85. F.H.W., C.O., 26/11/85. Approved.—J.P.A., 27/11/85.  
Mr. G. Lewis.—J.O'D. (*pro* R. H. DE Low), 3/12/85.

Descriptions are enclosed for the dedication of an area of 45 acres 3 roods 38 perches for public recreation and for the cancellation of the temporary reserve for public recreation at North Willoughby in accordance with ministerial decision.—G. LEWIS (for the Surveyor-General), 31/12/85. See Appendix B

For dedication list.—J.O.D., 11/1/86. For Executive Council Minute *re* revocation.—J.O.D., 10/3/86. Executive Council Minute. Miscellaneous 86-6029. Gazetted, 10/4/86. Erased from parish map plan, noted, Land Agent informed.—H.H.S. Examined.—J.F., 20/4/86. For any necessary action *re* dedication.—G. LEWIS, 22/4/86.

Mr. De Low,—The Temporary Reserve for Public Recreation, &c., at North Willoughby, notified under general notice of 24th December, 1861. County of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches. The temporary reserve for public recreation, &c., shown on the map of the parish of Willoughby in the Surveyor-General's Office.

The above is within the Metropolitan Land Board District. Miscellaneous 85-22,176.

[Enclosure.]

County of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches: Commencing at the eastern corner of J. Roberts' 25-acre grant; and bounded thence on the north-west by the south-east boundary of that grant, bearing south 49 degrees 19 minutes 27 seconds west (magnetic) 16 chains 1'30 links to its southern corner; thence on the south-west by part of the north-east boundary of G. Tilley's 25-acre grant bearing south 40 degrees 38 minutes 42 seconds east (magnetic) 12 chains 36'19 links; thence on the south-east by a line bearing north 49 degrees 20 minutes 37 seconds east (magnetic) 16 chains 00'29 link; thence on the north-east by a line bearing north 40 degrees 35 minutes 25 seconds west (magnetic) 12 chains 36'83 links, to the point of commencement. Again, commencing at the western corner of the site for municipal buildings dedicated 12th March, 1869; and bounded thence on part of the north-west by a line bearing south 49 degrees 20 minutes 37 seconds west (magnetic) 9 chains 99'92 links; thence on the south-west by part of the north-eastern side of Elizabeth-street, being lines bearing respectively south 40 degrees 38 minutes 42 seconds east (magnetic) 2 chains 67'92 links, and south 40 degrees 38 minutes 38 seconds east (magnetic) 16 chains 3'45 links to the western corner of J. Tyler's 25-acre grant; thence on south-east by part of the north-west boundary of that grant bearing north 49 degrees 23 minutes 15 seconds east (magnetic) 15 chains 9'41 links; thence on part of the north-east by a line bearing north 40 degrees 56 minutes 7 seconds west (magnetic) 14 chains 73'27 links to the eastern corner of the site for municipal buildings aforesaid; thence on the remainder of the north-west and north-east, being lines bearing respectively south 50 degrees 31 minutes 14 seconds west (magnetic) 4 chains 98'29 links, and north 41 degrees 9 minutes 49 seconds west (magnetic) 3 chains 88'89 links, to the point of commencement. Shown on plan catalogued C. 70-2,063. Surveyor-General's Office.

No. 4.

Gazette Notice.

REVOCATION OF TEMPORARY RESERVES.

Department of Lands, Sydney, 10 April, 1886.

It is hereby notified, for general information, that His Excellency the Governor, with the advice of the Executive Council, has been pleased to revoke, under the Crown Lands Act of 1884, the temporary reservation from sale of the portions of land hereinafter described,—the revocation to take effect at the expiration of sixty clear days from this date.

HENRY COPELAND.

The temporary reserve for public recreation, &c., at North Willoughby, notified under general notice of 24th December, 1861. County of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches. The temporary reserve for public recreation, &c., shown on the map of the parish of Willoughby, in the Surveyor-General's Office.

The above is within the Metropolitan Land Board District.

[Ms. 85-22,176.]

No. 5.

Office Memorandum.

Locality, North Willoughby; County, Cumberland; Plan, C. 70-2,063, 45 acres 3 roods 38 perches; Purpose of Dedication, Public Recreation; List, No. 5, of 1886.

Executive Council approval, 86-4,953. Dedication notified in *Gazette*, 26th March, 1886.

The dedication having been carried out, the papers may now be forwarded to the Mines Department. The Under Secretary for Mines.—G.W.G. (for the Under Secretary). Department of Lands.—B.C., 5/5/86.

No. 6.

Extract from *Sydney Morning Herald*, 26 March, 1888.

LAW REPORT.

Supreme Court, Saturday, March 24, 1888—In Banco, before their Honors the Chief Justice, Mr. Justice Owen, and Mr. Justice Forster.

In *re* F. E. Rogers and Thomas Broughton and the Real Property Act.

Mr. C. J. Manning, instructed by Mr. J. H. Clayton, appeared for the applicants; and Mr. Pring, instructed by the Crown Solicitor, on behalf of the Registrar-General.

Mr. Manning explained that the applicants desired to bring certain land under the Real Property Act, but the Registrar-General, on behalf of the Minister for Lands had lodged a *caveat*. The question whether there were any facts to go to a jury would have to be settled. If there were not then the Court

Court would be in a position to decide the matter. Francis Edward Rogers and Thomas Broughton claim to be the absolute owners in fee simple of 25 acres 2 roods 23½ perches, situated in the parish of Willoughby. The land was originally granted, as far back as November, 1794, to one George Tilley by His Excellency Francis Grose, then Lieutenant-Governor of the Colony, and was described in the grant as Tilley's Farm, situated in Lane Cove. The grant has been lost, but an alleged entry copy has been found in the office of the Registrar-General. The land, which was always known as Tilley's farm, subsequently became vested in one William Gore who was in possession thereof, in connection with other adjacent lands, prior to the year 1815, and it has remained in the continuous and undisturbed possession of William Gore and those claiming through him up to the present time, representing a period of upwards of sixty years, and has now become vested in the applicants. When the applicants sought to bring the land under the provisions of the Real Property Act, the title was duly passed by the examiners; but on the 19th August last the Registrar-General lodged a caveat on behalf of the Minister for Lands, alleging that the land had never passed from the Crown, or that it had reverted to the Crown. According to the caveator's statement it appears that after the execution of the grant to George Tilley, it was, by and with the consent of the grantee, cancelled, and in consideration of such consent and cancellation, and by way of exchange, a grant was issued to George Tilley, dated 10th May, 1798, of 25 acres of land, situated near Windsor. At the time of the cancellation it was a well-recognised custom, as between the Crown and the grantees, that land originally granted by the Crown should be deemed to revert in the Crown on the delivery up of the grant by the grantee on cancellation and the acceptance by him of a grant of other lands by way of exchange, and this custom was acted upon in the case of George Tilley and others. The Registrar-General also affirms that neither the applicants, nor any person through whom they claim, have been in undisturbed possession of the land, but the Crown has always disputed and never recognised the right of any private individual to the land. The only record which had apparently been made of the exchange of land was the entry appearing at the foot of the copy of Tilley's original grant, "cancelled," and a new grant given at the Hawkesbury.

The applicants now contended that in the absence of any evidence of a cancellation by the proper authority, and of any surrender and other authorised and regular mode of revocation, the land could not be held to have reverted to the Crown, but must be taken to have passed from the Crown to George Tilley by the issue of the grant, and that the Crown could not now claim any estate or interest therein, especially as applicants could prove a possessory title of upwards of sixty years.

After hearing argument the Chief Justice said the matter for the Court to determine was whether there were any issues raised for the determination of a jury on the cases filed. If there were no issues to be raised, it was then for the Court to make such order as they might think fit. There were two titles in point of fact upon which the applicants were entitled to rely. The first was the original grant which had been issued; and it was admitted by counsel for the Crown that the grant did issue, but the learned counsel contended that the relation of the grantee was really that of a tenant of the Crown, and that he could at any time, by word of mouth, have conveyed back his interest to the Crown, he (the Chief Justice) was not aware that any such proposition as that had ever before been stated, nor could he call to mind anything of this sort appearing in any book on real property that he had ever read relating to grants from the Crown; and the counsel for the Crown admitted he was not able to find any precedent in any text books upon the subject, or any authority that such a proposition could be maintained; in other words, that once the Crown grant was issued from the Crown to a subject, the subject could revest the land in the Crown again by simply declining to take the grant, or having taken it for several years, to revest it in the Crown by simply saying, "I do not desire to hold this any longer." He did not think that such a proposition could be maintained, or that any authority could be found in support of it. That being so, it seemed to him to be an end of the case. The grant was in existence until it was surrendered by deed to the Crown, but nothing of that sort appeared here. There was another point which seemed to him fatal to the claim of the Registrar-General. It was admitted that the applicants, or those through whom they claimed, had been in possession since prior to 1815. As against that the Registrar-General said that the possession of the land had been disputed, but there was only one way in which to dispute a person's right of possession to land, and that was by taking some steps to terminate his possession. Nothing of that sort had been done here, and for some officer connected with the Lands Department merely to be constantly saying to himself or other officers, "We dispute the possession of certain persons to such and such land," could have no effect. Under these circumstances he thought the case raised no issues to try before a jury, and raised no point of law which the Crown could determine in the Registrar-General's favour, but that, on the other hand, the applicants had made out a sufficient case to entitle them to bring the land under the Real Property Act.

Mr. Justice Owen and Mr. Justice Forster concurred.

The decision was, therefore, that there were no issues for a jury, and the Registrar-General was ordered to take his caveat off the file.

## No. 7.

### The Cumberland Ranger to The Under Secretary for Lands.

Sir,

Petersham, 10 August, 1888.

I have the honor to report that I laid information against one Malcolm Turner, for illegal timber cutting on certain Crown land in the parish of Willoughby, county of Cumberland.

The case came on for hearing on 3rd July, before Mr. Marsh, Stipendiary Magistrate, at St. Leonards Police Court, and the solicitors for the defendant asked for a postponement, on the grounds that the case involved a question of title. To this I consented, and the matter was postponed until 10th idem, when evidence was taken on both sides. A number of witnesses were called on behalf of the defendant to prove that the land upon which the timber was cut was part of Tilley's 25-acre grant, and owned by Mr. Thos. Broughton, who, they asserted, could produce a certificate of title, but that as Mr. Broughton was absent in the country Messrs. Way and Way, solicitors for the defendant, asked for a further postponement for a fortnight, to allow of his (Mr. Broughton's) appearance.

In

In reply to which Mr. Marsh said that a clear case had been made out for the prosecution, and that he had no hesitation in fining the defendant. However, he would consent to allow the matter to stand over for a fortnight, to allow of production of the certificate of title.

The case came before the Bench again on the 24th, when neither the defendant nor his solicitors put in an appearance.

Mr. Broughton was present in the Court, and Mr. Marsh, S.M., said that he would hear what he had to say. Mr. Broughton said that he knew nothing whatever about the land which the timber was cut upon, that he only claimed Tilley's 25-acre grant. A verdict was therefore given against the defendant, who was ordered to pay a fine of 40s., with £3 10s. costs.

Warrant to issue.

I beg respectfully to suggest the advisability of sub-dividing and selling a portion of Crown land that is temporarily reserved from sale in the parish of Willoughby, county of Cumberland. I forward herewith a rough sketch\* of the land referred to, edged pink and marked A and B, which contains about 45 acres, and it will be observed that it is intersected and partly bounded by Government roads, and that the site for Municipal Council Chambers of North Willoughby is situated alongside of, and was formerly a part of it. My reasons for making these recommendations are:—

- 1st. Owing to claims set up by the proprietors of lands in the neighbourhood, continual trespasses are being made on the ground, involving the Crown in frequently recurring and vexatious Court cases.
- 2nd. Owing to its proximity to the railway now in course of construction, North Shore to Pearson's Corner, and general advantages, the ground would bring a high price, especially as it can be conveniently subdivided so as to form an extension of the private township already laid out on adjoining portions. And
- 3rd. As the district is well supplied with reserves, without it there being three others containing respectively, 48 acres, 13 acres, and 79 acres, close adjacent.

I have, &c.,

JAS. M'KEOWN,

Cumberland Ranger.

Sketch herewith. Occupation Branch. Please note, then to Mr. Piper.—J.O'D. (*pro* R. H. DE Low), 16/8/88. Noted.—H.A., 17/8/88. Forest Branch. To note and return to Miscellaneous Branch.—H.A. (for E.L.), 17/8/88. Seen.—W.F.P.

#### No. 8.

The Metropolitan and Coast District Surveyor to The Under Secretary for Lands.

Reserve for public recreation 45 acres 3 roods 38 perches.—North Willoughby, No. 2375.

3 September, 1888.

REFERRING to the proposal of the Cumberland Crown Lands Ranger to subdivide and sell the above land, it may be stated that the area is already dedicated for public recreation, and was notified in the *Gazette* of 26th March, 1886, (Misc. 85-22,176.)

If the Cumberland Ranger had sought information at this office he would have been supplied with it, and the prosecution referred to on 3rd July last, would have been disposed of without postponement.

JOHN W. DEERING,

Metropolitan and Coast District Surveyor.

Submitted.—As to whether the proposal to subdivide, and submit the land to auction is to be entertained. If such a course be not pursued, it is further submitted that Mr. Ives, M.P., be asked to recommend trustees for its control.

The District Surveyor may be requested to report as to the need of this land being retained as a recreation reserve.—R.H.D., 6/9/88. Submitted.—F.H.W. S.F. Yes.—C.O., 8/9/88. Mr. District Surveyor Deering.

There is no necessity whatever for this reserve, extension reserves for public recreation, dedicated, exist in the immediate locality. This reserve, containing about 35 acres (exclusive of future roads of design) had much better be subdivided. It is worth not less than £200 per acre. I put the minimum price.—JOHN W. DEERING, B.C., 4/10/88. The Under Secretary for Lands.

Submitted the dedication be revoked under Section 105 of Lands Act of 1884, with a view to auction.—R.H.D. F.H.W. C.O., 9/10/88. Approved.—J.N.B., 16/10/88. For Executive Council Minute.—J.O'D., 18/10/88.

#### No. 9.

Minute Paper for The Executive Council.

*Subject*:—Proposed Revocation of Dedication.

Department of Lands, Sydney, 5 November, 1888.

It is recommended to His Excellency the Governor and the Executive Council, that in accordance with the provisions of the 105 Section of the Crown Lands Act of 1884, a notice be published in the *Government Gazette* proposing to revoke the dedication of the land at North Willoughby, area 45 acres 3 roods 38 perches, dedicated on the 26th March, 1886, for public recreation herein described, with a view to the sale of the land in question by auction.

JAMES N. BRUNKER.

His Excellency the Governor and the Executive Council.

The Executive Council advise that authority be granted for the publication of the proposed revocation of the dedication of the land referred to to the purposes specified.—ALEX. C. BUDGE, Clerk of the Council. Minute 88-53, 6/11/88. Approved.—CARRINGTON, 6/11/88. Confirmed, 13/11/88. *Gazetted*, 7/12/88. Laid before Parliament, 12/12/88.

## [Enclosure.]

## Description.

County of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches: Commencing at the eastern corner of J. Roberts' 25-acre grant; and bounded thence on the north-west by the south-east boundary of that grant bearing south 49 degrees 19 minutes 27 seconds west (magnetic) 16 chains 1'30 links to its southern corner; thence on the south-west by part of the north-east boundary of G. Tilley's 25-acre grant bearing south 40 degrees 38 minutes 42 seconds east (magnetic) 12 chains 36'19 links; thence on the south-east by a line bearing north 49 degrees 20 minutes 37 seconds east (magnetic) 16 chains 00'29 link; thence on the north-east by a line bearing north 40 degrees 35 minutes 25 seconds west (magnetic) 12 chains 36'83 links, to the point of commencement. Again, commencing at the western corner of the site for municipal buildings, dedicated 12th March, 1869; and bounded thence on part of the north-west by a line bearing south 49 degrees 20 minutes 37 seconds west (magnetic) 9 chains 99'92 links; thence on the south-west by part of the north-eastern side of Elizabeth-street, being lines bearing respectively south 40 degrees 38 minutes 42 seconds east (magnetic) 2 chains 67'92 links, and south 40 degrees 38 minutes 38 seconds east (magnetic) 16 chains 3'45 links to the western corner of J. Tyler's 25-acre grant; thence on the south-east by part of the north-west boundary of that grant bearing north 49 degrees 23 minutes 15 seconds east (magnetic) 15 chains 9'41 links; thence on part of the north-east by a line bearing north 40 degrees 56 minutes 7 seconds west (magnetic) 14 chains 73'27 links to the eastern corner of the site for municipal buildings aforesaid; thence on the remainder of the north-west and north-east, being lines bearing respectively south 50 degrees 31 minutes 14 seconds west (magnetic) 4 chains 98'29 links, and north 41 degrees 9 minutes 49 seconds west (magnetic) 3 chains 88'89 links, to the point of commencement,—shown on plan catalogued C. 70-2,063.

## No. 11.

## G. J. Sly, Esq., to The Under Secretary for Lands.

Sir,

32A, York-street, Sydney, 15 December, 1888.

I have been instructed by Messrs. Herbert Chappell and Charles Jackson Campbell, of Sydney, to inform you that they claim as their property the land at North Willoughby, having an area of 45 acres 3 roods 38 perches or thereabouts, which is described on the other side hereof, and with regard to which a notification appeared in the *Government Gazette*, dated 7th December, 1888, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it was proposed to revoke the dedication of the said land (dedicated on the 26th March, 1886, for public recreation), with a view to the sale by auction of the said land.

I have, &c.,

G. J. SLY

(Per H.D.R.)

As this communication sets forth no particulars of the alleged claim, there appears to be no reason to interfere with the departmental action (towards auction sale) now being taken. Submitted.—  
J. W. DEERING, B.C., 21/1/89. The Under Secretary for Lands.

## [Enclosure.]

---

No. 12.

F. B. Treatt, Esq., to The Under Secretary for Lands.

Sir,

Berry-street, St. Leonards, 17 December, 1888.

I respectfully desire to state for the departmental information of the Honorable the Minister for Lands that for many years I have been (until the last few months) a resident in the settled part of North Willoughby, and it has come to my knowledge that, consequent on the advertisement of 7th instant in the *Gazette*, proposing to sell a large reserve in the Municipality of North Willoughby, the North Willoughby Council at its next meeting will be asked to pass a motion inviting the Minister for Lands to give back to the municipality a portion of the proceeds of the sale of the 40-acre reserve in the shape of a 10 or 12-acre block in that part of Willoughby near to Chatswood Railway Station, which will soon be a densely populated district.

As the proposed resolution to be submitted to the North Willoughby Council commended itself to my judgment as a fair and reasonable one, one framed in the interests of the future—just and farseeing, I have thought I should be acting the part of a proper minded citizen in informing the Minister of the embryonic proposal without loss of time and mainly for two chief reasons:—

1. There is one special block of land lately purchased by speculators (Friedman and Muston) most admirably situated for the purpose of a park and recreation reserve. It is 10 or 12 acres, with good soil, low lying, a creek running through it, and, in my judgment, the future home of typhoid, if cut up in miserable allotments. It is conveniently situated to the Chatswood Railway Station, and there is no other reserve near.

I believe the price Messrs. Friedman and Muston gave for the land was £300 per acre cash two months ago.

2. My only justification for addressing the Minister on such slender grounds is based by me on my personal knowledge of all that is going on, of the reasonableness of the proposals not yet made public, and of the absolute certainty of exorbitant prices being asked for the said block, if it be known that the Government is even to be asked to purchase. And this would be a pity in the interests of the Chatswood District.

My submission is this, that the Minister might see fit swiftly and secretly to get the said block of land and any others in that district under immediate offer. After next council meeting will be too late.

I would willingly act as the agent without fee or commission, if the Minister thought favourably of it, and has not ready a skilled expert who could get the necessary offer on best terms.

I have, &c.,

FRANK B. TREATT.

P.S.—Values will jump immediately the terminus of the line to Milson's Point is practically decided.

Received.—J.W.D., 15/1/89.

Mr. Treatt urges that certain low-lying land near Chatswood should be purchased by Government, because if subdivided and built upon it will become "the future home of typhoid."

It appears to me that if such a reason were justification for the expenditure the Government will require a vast sum to meet other similar cases. On sanitary ground Mr. Treatt may be right; but on pecuniary grounds I think that such a proposal should not be entertained.

Submitted, that Mr. Treatt might be informed that the Government is not prepared to accede to his proposal.—J. W. DEERING. B.C., 21/1/89. The Under Secretary for Lands.

---

No. 13.

The Council Clerk, North Willoughby, to The Under Secretary for Lands.

Sir,

Borough of North Willoughby, 18 December, 1888.

I have the honor, by direction of this Council, to request that the Government dedicate three acres of land, adjoining the site dedicated for municipal buildings, as a site for markets and other municipal or public purposes, out of the 4.45 acres of land resumed by the Government by *Gazette* notice of the 7th instant.

I have, &c.,

JAMES ANDERSON,  
Council Clerk.

In this case, the proposed resumption was laid before Parliament on the 12th ultimo, and no further action as regards carrying out the proposal to resume and sell can be taken until the 12th instant.

Submitted, as to whether a report should be obtained from the District Surveyor on this application, as well as on 88-16,238 and 16,237, to which special attention is invited.—R.H.D. F.H.W., 7/1/89.

The District Surveyor should report on both letters.—S.F., 10/1/89. Approved.—J.N.B., 11/1/89. Mr. District-Surveyor Deering.—R.H.D. (for the Under Secretary), 15/1/89. Mr. District Surveyor Deering, for report, January, 1889. Report No. 214, of this date.—J. W. DEERING, 21/1/89.

---

No. 14.

## No. 14.

The Metropolitan and Coast District Surveyor to The Under Secretary for Lands.

Department of Lands, Sydney.

Minute Paper.

*Subject* :—Borough Council of North Willoughby, asking that 3 acres, as site for markets, &c., may be dedicated out of 45 acres 3 roods 38 perches, lately resumed by Government, parish of Willoughby, county of Cumberland.

No. 214, 21 January, 1889.

1. The dedication of the reserve for public recreation, containing 45 acres 3 roods 38 perches, as above, having been revoked, the area is going on for subdivision, and sale at public auction.

2. The Borough Council now asks that 3 acres, adjoining the 2 acres dedicated as a site for Council Chambers, 12th March, 1869, may be dedicated out of the intended sub-division, as a site for "Markets, and other Municipal or Public Purposes."

3. Under the circumstances, the application appears reasonable, and it is recommended for approval, with the proviso that the 3 acres be not at present dedicated, but be reserved for the purposes named.

4. Upon each of the papers herewith, Mis. 88-16,237 and 16,238, will be found a report as requested.

JOHN W. DEERING,  
Metropolitan and Coast District Surveyor.

The District Surveyor's reports hereon and on 88-16,237 and 16,238 are submitted for special consideration. The decision to resume the reserve and offer the land at auction was given on 88-10,848. Such resumption has not yet been carried out. No resolution against it has been passed by Parliament special. See also submission on 16,237 and 16,238.—R.H.D., 31/1/89. F.H.W.

There is apparently no objection to the application of the Borough Council of North Willoughby being approved in the event of completion of this resumption. It is observed, however, that the reserve is claimed by Messrs. Chappell and Campbell as their property, but as pointed out by the District Surveyor, no particulars are given of the alleged claim. It would, perhaps, be desirable to defer (for, say, one month) the proclamation required under the 105th section to give effect to the resumption, and in the mean time inform the persons referred to, through their attorney, that their letter contains no evidence of the basis of their alleged claim, but that the departmental action will be stayed for the period mentioned to enable them to place before the Department such particulars as will enable their claim to the land to be investigated.—W.H., 5/2/89.

Submitted.—S.F. Approved.—W.J.L., 9/2/89. Mr. O'Dwyer.

## No. 15.

J. F. Burns, Esq., M.P., to The Secretary for Lands.

Sir,

75, Elizabeth-street, Sydney, 9 February, 1889.

In compliance with the request of local residents, I have the honor to submit for your consideration that it is undesirable in the public interests that the recreation reserve at North Willoughby, containing about 45 acres 3 roods 38 perches, be revoked. I have ascertained that there is a strong feeling on the part of the local residents against the cancellation of the dedication, and I trust that before you proceed further in the business you will cause inquiry to be made in reference to the requirements of the neighbourhood for health and recreation.

I have, &c.,  
J. F. BURNS.

Submitted in connection with the decisions on 88-10,848, and 89-1,160 (next paper).—R.H.D., 4/3/89. Special.—F.H.W., S.F. Take action as directed by Mr. Secretary Lyne and then refer to District Surveyor.—J.N.B., 25/3/89. Inform Mr. Burns in terms of approval of 9/2/89 on 1,161. Though the month has passed since Memo. of 5/2/89 was written the time one month may start again.—R.H.D., 26/3/89. Correspondence Branch. J. F. Burns, M.P., and G. J. Sly, informed.—30/3/89. Mr. District-Surveyor Deering.

## No. 16.

The Under Secretary for Lands to G. J. Sly, Esq.

Sir,

Department of Lands, Sydney, 30 March, 1889.

Referring to your letter of the 15th December last intimating that Messrs. Herbert Chappell and Charles Jackson Campbell, of Sydney, claim as their property the land at North Willoughby, area 45 acres 3 roods 38 perches, dedicated on the 26th March, 1886, for Public Recreation, now proposed to be resumed, I have the honor to inform you that your letter contains no evidence of the basis of the alleged claim, but that the Secretary for Lands has approved of the proclamation of resumption being deferred for one month to enable Messrs. Chappell and Campbell to place before the Department such particulars as will justify their claim to the land being investigated.

I have, &c.,  
W. H. CAPPER  
(For the Under Secretary).

No. 17.

## No. 17.

The Under Secretary for Lands to J. F. Burns, Esq., M.P.

Sir,

Department of Lands, Sydney, 30 March, 1889.

Referring to your letter of the 9th ultimo, respecting the proposed reservation of the dedication of the land at North Willoughby, area 45 acres 3 roods 38 perches, dedicated on the 26th March, 1886, for public recreation, with a view to the sale of the land in question by auction, I have the honor to inform you that the reserve is claimed by Messrs. Herbert Chappell and Charles Jackson Campbell of Sydney, and that it has been decided to defer for one month the proclamation required under the 105th section of the Crown Lands Act of 1884, to give effect to the resumption, to enable Messrs. Chappell and Campbell to place before the Department such particulars as will justify their claim to the land being investigated.

I have, &amp;c.,

W. H. CAPPER

(For the Under Secretary).

## No. 18.

Messrs. Sly and Hamilton to The Under Secretary for Lands.

*Re North Shore Land.*

Australian Joint Stock Bank's new premises, George-street,

near King-street, Sydney, 29 April, 1889.

Dear sir,

We are duly in receipt of yours of the 30th ultimo, Misc. 89-1876. We have now to draw your attention to the following facts:—

- (1.) The block of land now in question, comprising an area of 45 acres 3 roods 38 perches and described in *Government Gazette* notice, dated 7th December, 1888, was originally composed of two Crown grants.
- (2.) This fact was soon afterwards overlooked, and the land being vacant, land lying between other grants then in the possession of the Gore family, was, before the year 1820, taken possession of by that family.
- (3.) About the same time, and for some years afterwards, a very voluminous correspondence took place between the Gore family and the then Government, with reference to a proposal that the grants then in possession of the family should be surrendered (which was actually done) with a view to the issue to Mrs. Gore and her children of a consolidated grant, comprising the lands to which the documentary title was clear, and the intervening blocks as well, which were at that time supposed to be Government.
- (4.) In the course of this correspondence a virtual promise was made that a grant should issue for the whole of the land thus applied for.
- (5.) Since that date the said land has been continually in the possession, firstly of the Gore family, secondly of Mr. John Boyle, and now of our clients Messrs. Chappell and Campbell, who have purchased the interests of the Gore family and of Mr. Boyle in this land.

You will observe, therefore, that our clients base their title on continuous possession of over sixty years, and that the Government are barred from making any claim to this land for two reasons:—

- (1.) That the land is not Crown land, having been the subject of two Crown grants, and,
- (2.) That this land is the subject matter of a Government promise to our client's predecessors in title.

If you wish for any further information on the subject, we shall be happy to send a complete abstract of our clients' title to the Crown Solicitor.

Yours, &amp;c.,

SLY AND HAMILTON

(Pro H.S.R.)

Please attach former papers.—R.H.D. (for the Under Secretary), 6/5/89. Mr. Deering,—  
Herewith.—J.W.D., 8 May, 1889.

Ask for the name of the two Crown grantees referred to in paragraph one, and for date of the Crown grant; ask also for a copy of the letter upon which is based the statement in paragraph four, as to a virtual promise being made to include the 45 acres in a consolidated grant with other lands.—R.H.D., (for the Under Secretary), 11/5/89.

## No. 19.

The Under Secretary for Lands to Messrs. Sly and Hamilton.

Gentlemen,

Department of Lands, Sydney, 18 May, 1889.

Referring to your letter of the 29th ultimo, respecting an area of 45 acres 3 roods and 38 perches in the parish of Willoughby, county Cumberland, lately resumed by the Government, and now claimed by Messrs. Chappell and Campbell. I have the honor to request that you will be good enough to state the names of the two grantees of the two portions referred to in the first paragraph of your letter and furnish a copy of such of the correspondence referred to by you as contains a promise that a grant should issue for a consolidated area.

I have, &amp;c.,

H. CURRY

(For the Under Secretary).

## No. 24.

Extract from *Sydney Morning Herald*, Thursday, 27 February, 1890.

## Chappell and another v. Broughton and another.

MR. WANT, Q.C., Mr. Lingen, and Mr. Wise, instructed by Messrs. Way and Way, appeared for the appellants (defendants), and Mr. Salomons, Q.C., and Mr. Walker, instructed by Messrs. Sly and Hamilton, for the plaintiffs (respondents) to show cause. This was an appeal against the order of the Chief Judge in Equity, dated 18th October last, continuing the injunction against the defendants until the hearing of the suit. The plaintiffs, Herbert Chappell and Charles Jackson Campbell, had filed a claim against Thomas Broughton, praying for a declaration that they are entitled to certain lands at North Shore, forming portion of the Gore Hill Estate, and they claimed a title, firstly by deed, and secondly by possession. The title by deed depends upon the transaction set out in one paragraph of plaintiffs' statement of claim, by which D'Arcy Wentworth exchanged the land in question for a grant of 1,500 acres in the Illawarra district. It appeared that D'Arcy Wentworth was the mortgagee of the land in dispute, which at the time was the property of Mrs. Gore, and, having foreclosed, he became the absolute owner. Then as Mrs. Gore and her family had been promised a grant of 1,500 acres of land at Illawarra, and wished to retain the land of which Mr. Wentworth had become the owner, had agreed with him to exchange one property for the other. When this agreement was made the grant had not issued to the Gore's, and it was arranged that it should go direct to Mr. Wentworth. Accordingly, the grant did issue to him, but he took no steps to convey the land at North Shore to the Gore's. One reason alleged by the plaintiffs for going to Equity instead of a Court of law was that their caveat had lapsed, and their next contention was that the usual notices not being issued within the proper time the Court should restrain the Registrar-General from granting a certificate for which defendant had applied. His Honor held that under the Act notice must be given to all persons who have an interest in the land applied for, and all persons who held land contiguous thereto, and who would therefore wish to see that the boundaries were correctly settled, and as these notices were not given in time to allow the persons interested to file caveats, if they desired

to

to do so, the initiatory steps required by the Act had not been taken, and if he were at that stage to refuse an injunction, he would enable the defendant to obtain an indefeasible title to the land, although the plaintiff had never had an opportunity of challenging his title. His Honor also said that although Wentworth executed no conveyance to the Gore's, still when he entered upon the 1,500 acres at Illawarra he did so on the faith of his agreement with the Gore's, and must therefore be taken to have been a trustee for them of the lands in dispute, and that the plaintiffs, who claimed through the Gore's, had a title; that was assuming that the facts were as set out in the statement of claim. Dealing with the question as purely one of pleading, his Honor was of opinion that the plaintiffs title was sufficiently set out, both by deed and by possession, and he, therefore, granted the injunction so as to keep the property *in statu quo* until the hearing. His Honor added that if he refused the injunction the effect would be that the certificate would issue to the defendant, and the question in dispute between the parties could never be decided, as the plaintiffs would be shut out for ever.

Defendant now appealed against this decision on the following grounds:—1. That Anne Gore and her children, being volunteers, claiming under an imperfectly executed and vague trust, had no estate in the land at North Shore. 2. That his Honor was wrong in holding that the grant of 1,500 acres by the Crown to D'Arcy Wentworth caused the alleged trust to cease to be executory. 3. That there was not sufficient allegation of proof of a possessory title under John Boyle. 4. That George Want was estoppel from setting up any beneficial title to this land, and his title barred by lapse of time. 5. That the omission by the Registrar-General to send a special notice to Thomas Robertson before the time advertised for caveats had expired gave no equity to the plaintiffs or their predecessors in title. 6. That his Honor was in error in assuming that the sending of such notice was a condition precedent to the applicant's right to a certificate. 7. That the said Thomas Robertson did not caveat within the time limited in the special notice sent to him, and that the plaintiffs were never caveators as to Nos. 3,801 and 7,019. 8. That the plaintiffs having purchased for trifling sums, after the time the caveats had expired, whether by advertisements or notice, and with notice thereof, have no claim to the assistance of a Court of Equity. 9. That even if the mortgage to Ambrose Foss had been wilfully omitted, the injunction ought not to have been granted, and at all events not against more than one fourth of the land. 10. That it was clear such omission did not deceive the examiners. 11. That such omission was not wilful. 12. That the injunction should not have been against the whole fee. 13. That the plaintiffs having purchased a pretended title under 32 Henry VIII c. 9 have no right to the land. 14. That the plaintiffs show no title to the alleged share of Charlotte France.

The argument on behalf of appellants was opened, but had not concluded when the Court adjourned.

#### No. 25.

Messrs. Sly and Hamilton to The Under Secretary for Lands.

*Re* North Shore land.

Australian Joint Stock Banks (new premises), George-street,  
near King-street, Sydney, 1 March, 1890.

Dear sir,

We have to acknowledge the receipt of yours of the 3rd ultimo and previous correspondence.

We delayed answering your letter, in the hope of being able to give you information at once definite and final.

As, however, we have not yet obtained such particulars as we desire, we are now writing to inform you that we hope very shortly to lay before you—

1. The names of the grantees.
2. The dates of the grants.
3. A copy of the correspondence referred to.

We have, &c.,  
SLY AND HAMILTON  
(*Per* H.D.R.)

Cannot trace anything further. Will Alienation Branch please try.—E.H., 14/7/90. Mr. Bronsden,—Nothing to date respecting this matter in Alienation Branch.—R.L. (*pro* E.A.B.), 11/7/90.

Mr. O'Dwyer,—The reference directed by the Minister's minute of 25/3/89, does not appear to have yet been made. Papers are now referred to Metropolitan District Surveyor accordingly.—J.O.D. (for the Under Secretary), 31/7/90.

The Metropolitan District Surveyor,—Required the original plans of the two portions which are the subject of these papers, also any evidence obtainable in this office as to the alleged grants covering the land. Was this land ever a part of the Gore Hill Estate, mentioned in the case *Chappell v. Broughton*? For early report.—E.T., 7/8/90. Miscellaneous Charting Branch. Mr. M'Lean.

#### No. 26.

Extract from *Sydney Morning Herald*, 6th March, 1890.

Supreme Court, Wednesday, 5th March.

In Banco (before their Honors the Chief Justice, Mr. Justice Stephen, and Mr. Justice Foster)—  
*Chappell v. Broughton* (part heard.)

THE arguments on the appeal by the defendant against an order of the Chief Judge granting an injunction to restrain the defendant from proceeding to bring certain lands at North Shore under the provisions of the Real Property Act until the hearing of the suit were resumed and concluded, and the Court delivered judgment.

The Chief Justice said that the Real Property Act, popularly known as "Torrens Act," was intended to be, and is a most beneficial Act, if properly worked; but if the provisions of the Act were abused as they had been in this case, and that by a public department, it became a weapon of great oppression, under which great hardship might be inflicted upon persons who had a right to seek protection under

under its provisions. He thought the history of this case, as disclosed on the proceedings before the Court, reflected the utmost disgrace upon a public department of this Colony, and showed how a man in Mr. Broughton's position might be baffled and oppressed in the endeavour to assert his rights. That, however, was not the question the Court had now to determine. He could not abstain from saying that he thought it was to be regretted that this order of his Honor granting an injunction was not at once submitted to in place of appealing against it in this Court. No doubt seeing that Mr. Broughton has been endeavouring for ten years to bring this land under the Act, it may appear hard to him to be thus baffled at the eleventh hour, and that the opportunity of thus baffling him should have been afforded by the gross neglect in consequence of this Department. He was, however, of opinion that this appeal must be dismissed, but he declined to express an opinion upon any of the points which have been argued here. These points might or might not become necessary to a decision in the case, and it might be he could see pretty clearly that the case made by the bill would not ultimately be sustained; but that was not sufficient in his opinion to enable him to say that this injunction ought not to remain. The case of the Great Western Railway Company v. Birmingham and Oxford Junction Company, 2 Phillips 602, appeared to him to lay down the law clearly with respect to injunctions where matters of law, and not merely matters of fact were to say the least doubtful, as they were in this case. (His Honor here quoted from the decision of the Lord Chancellor at page 602 of the case mentioned.) In the present case, if the Court were to set aside the injunction granted by His Honor the Chief Judge in Equity, the result would be that Broughton would get his certificate of title, which might or might not be set aside afterwards for error. He thought, therefore, without expressing or shadowing forth the initiation of his opinion as to the points submitted, that the appeal must be dismissed with costs.

Mr. Justice Stephen and Mr. Justice Foster concurred.  
Order accordingly.

---

No. 27.

Office Memorandum.

12 August, 1890.

ALL the original plans of adjacent land are herewith, except that for 150 acres, of William Gore's, which plan does not appear to exist, though H 109 old roll shows an outline of this portion.

On all the plans available the land embraced within the temporary reserve for recreation has always been shown as Crown or vacant land, and consequently there is no evidence of this land having been granted to any one.

Full descriptions from the Land Titles Registers of the surrounding blocks of land are attached, but they chiefly show that the land they refer to could only be identified by occupation.

William Gore's 150 acres, known as "Artarmon," is described the best, and cannot include any part of the recreation reserve.

The papers of the Gore Hill Estate, Aln. 90-3,993, Court of Claims case, have tracings therewith that show the land now under consideration as vacant.

G. J. SKINNER.

The Chief Surveyor.

---

Copied from Registers in Land Titles Office.  
William Gore's 150 acres.

(Volume 3, Folio 5.)

Hunter's Hill 150 acres unto William Gore, Esquire, his heirs and assigns to have and to hold for ever, 150 acres of land lying and situated in the District of Hunter's Hill, bounded on the south side by an east line of 36 chains, commencing at Roberts' east corner, on the east by a north line of 36 chains, on the north by a west line of 52 chains to the line marked for Nichols, and on the west side by Nichols and Roberts' Farm, a road of 1 chain wide reserved on the west side to be known by the name of Artarmon Farm.—Quit-rent 3/-. In testimony this 23/4/10.

L. MACQUARIE.

John Roberts, 25 acres (volume 1, folio 136); date of grant 19th November, 1794; 25 acres of land, to be known as Roberts' Farm laying and situated in Lane Cove, in the District of Hunter's Hill.

George Whitfield, 25 acres (volume 1, folio 137); granted 19th November, 1794, to George Whitfield, &c., for ever, 25 acres of land to be known by the name of Whitfield's Farm laying and situate in Lane Cove, in the District of Hunter's Hill.

George Tilley's, 25 acres cancelled\*, granted 19th November, 1794 (volume 1, folio 136); 25 acres of land to be known by the name of Tilley's Farm laying and situate in Lane Cove in the District of Hunter's Hill. \*Cancelled and a new grant given at the Hawkesbury.

Daniel Currey, 25 acres (volume 1, folio 136); 25 acres of land to be known as Currey's Farm laying and situate in Lane Cove in the District of Hunter's Hill. Granted 19th November, 1794.

Charles Robinson, 25 acres (volume 1, folio 135); 25 acres of land to be known as Robinson's Farm laying and situate in Lane Cove in the District of Hunter's Hill. Date of grant 19th November, 1794.

John Taylor, 25 acres (volume 1, folio 137); 25 acres of land to be known by the name of Taylor's Farm laying and situate in Lane Cove in the District of Hunter's Hill. Granted 19th November, 1794.

---

No. 28.

Office Memorandum.

13 August, 1890.

It was observed that the undermentioned grants were made out and cancelled for land at Lane Cove in the District of Hunter's Hill.

Robert King, 30 acres, dated 30th December, 1794; cancelled.

Humphrey Evans, 25 acres, dated 3rd December, 1794; cancelled; see submission on 90-5,019 Aln.

Henry Lamb, 25 acres; cancelled; demised to the Crown; Evans' and Lamb's are on parish map.

Thomas Bruin, 25 acres, of 3rd December, 1794; cancelled.

John

John Holdsworth, 25 acres, of 3rd December, 1794; cancelled; demised to the Crown.  
 F. Wilkinson's Farm, 25 acres, 3rd December, 1794; cancelled.  
 William Smith, 25 acres, 3rd December, 1794; cancelled.  
 James Brumby, 25 acres, 3rd December, 1794; cancelled.  
 George Tilley, 25 acres, 19th November, 1794; cancelled, and a new grant given at the Hawkesbury, but in connection with Tilley case it appears by decision of the Supreme Court, that the Crown cannot claim Tilley's 25 acres vide report of *Sydney Morning Herald*, 26th March, 1888, as noted on plan H 109, old roll (volume 1, folio 135).

G. J. SKINNER.

The Chief Surveyor.

These blocks that are shown as finally cancelled do not appear to be located on map, but all the other farms I noticed in searching are shown somewhere on the map. Of the field-books, I examined only Meehan's book, D 10 refers to land adjacent to the recreation reserve, and this shows survey of Wm. Gore's 150 acres, but no other block in this locality.—G.J.S., 13/8/90. The Chief Surveyor.

Inasmuch as Tilley's cancelled grant has been identified and is held not to be Crown land, I think it is requisite to ascertain whether the other cancelled grants may also be capable of being located, and whether it may be possible to show that any of them might be applied to the area now under investigation. I presume there are copies of the cancelled grants.—E.T., 15 August, 1890.

Copies made of the cancelled grants now herewith.—G.J.S., 19/8/90.

Case of Tilley, Lamb, and Evans, 88-4,954; Aln. 89-2,596, 90-5,019. Submitted, 1/7/90.

## No. 29.

### Office Memorandum.

#### Land in Lane Cove District.

COPIES of the cancelled grants herewith, and are all described alike, except that the farm bears the name of the grantee.

The grants have all been cancelled according to register by crossing over the indenture in black lines thus "X," and writing the word *cancelled* at the bottom of the description.

The grants of Humphrey Evans and Henry Lamb, each 25 acres, although recorded as cancelled in Registrar-General's Office, still are located on parish map of Willoughby, and in positions that do not affect the land shown as the recreation reserve.

There are six other grants, viz.: Robert King's, Thomas Bruin's, John Holdsworth's, F. Wilkinson's, Wm. Smith's, and James Brumley's, that appear to be forfeited to the Crown, and not located on map, and no attempt apparently has been made to revive them, without the present claim by the clients of Messrs. Sly and Hamilton refers to some of them, but no evidence has been found in the records of the Department to fix any of the cancelled grants on the land shown on map as the recreation reserves.

A list is hereon of the existing grants at Lane Cove, and now located in Parish Willoughby, County Cumberland, as taken from the Index Register in Land Titles Office, between the years 1792 and 1826, and which grants have been identified on map.  
 19 August, 1890.

G. J. SKINNER.

#### GRANTS located on Map and in existence, *vide* Register.

Thomas Baker, 25 acres.	Samuel Reddish, 25 acres.
Daniel Carr, 25 acres.	John Roberts, 25 acres.
Daniel Curry, 25 acres.	Charles Robertson, 25 acres.
John Darks, 25 acres, written John Deck on map.	John Sawyer, 25 acres.
Peter Dargin, 25 acres.	John Taylor, 25 acres, Tyler on map.
John Flemming, 25 acres.	George Tilley, 25 acres, being reinstated.
Gilbert Goodlet, 25 acres.	Robert Turner, 25 acres.
George Loder, 25 acres.	William Walker, 25 acres.
Benjamin Johns, 25 acres.	Henry Hacking, 30 acres.
William Hall, 25 acres.	Obadiah Skin, 30 acres.
	Thomas Whittle, 30 acres.

#### [Enclosure.]

William Wright.—30 acres. Exchanged by William Wright with Obadiah Skin for William Baker's farm, then sold on the 3rd of August, 1797, to John Holdsworth for £3, who sells it the 26th day of May, 1804, to Thomas Randal; he parts with it on the 17th October, 1805, to Edward Quinn, and it has now been surrendered by Wm. Sherwin in consideration of an 800-acre favour promised him in the Parramatta district, and not yet registered. Torn up by me this 15th September, 1821.  
 F. GOULBURN.

This transaction would appear to be cancelled, *vide* this statement by Mr. Goulburn. At any rate, from a sketch with papers, alienation 90-5,019, this land is not identical with any part of the recreation reserve.—G.J.S., 19/8/90.

Copied from Register No. 1, folio 135 to folio 141, Land Titles Office.

Henry Lamb.—In pursuance of the power and authority vested in me as aforesaid I do, by these presents, give and grant unto Henry Lamb, his heirs and assigns, to have and to hold for ever: 25 acres of land, to be known by the name of Lamb's Farm, laying and situate in Lane Cove, in the district of Hunter's Hill, the said 25 acres of land to be had and held by him, the said Henry Lamb, his heirs and assigns, free from all fees, taxes, quit-rents, and other acknowledgments, for the space of five years from the date of these presents. Provided that the said Henry Lamb, his heirs or assigns, shall reside within the same, and proceed to the improvement and cultivation thereof; such timber as may be growing, or to grow hereafter upon the said land, which may be deemed fit for naval purposes, to be reserved for the use of the Crown, and paying an annual quit-rent of 1/- after the expiration of the term of five years before mentioned. In testimony. Date, 19 November, 1794. Cancelled.

James Brumby.—In pursuance of the power, &c., give and grant, &c., 25 acres of land, to be known by the name of Brumby Farm, laying and situated in Lane Cove, in the District of Hunter's Hill. Dated, 3rd December, 1794. Cancelled.

Thomas Bruin.—In pursuance, &c., give and grant, &c., 25 acres of land, to be known by the name of Bruin Farm, laying and situated in Lane Cove, Hunter's Hill District. Date, 3rd December, 1794. Cancelled.

John

John Holdsworth.—In pursuance of, &c., give and grant, 25 acres of land, to be known as Holdsworth's Farm, laying and situated at Lane Cove, &c. Date, 3rd December, 1794. Cancelled. *This grant being found in the Secretary's Office, August, 1804; and not before cancelled in the Register with a note thereon. Demised to the Crown.*—D. D. MANN, Clerk.

Francis Wilkinson.—3rd December, 1794. In pursuance, &c., give and grant, &c., 25 acres of land, to be known as Wilkinson's Farm, laying and situated in Lane Cove, &c. Cancelled.

William Smith.—3rd December, 1794. In pursuance, &c., give and grant, &c., 25 acres of land, to be known as Smith's Farm, laying and situated in Lane Cove, in the District of Hunter's Hill. Cancelled.

Robert King.—Thirty acres, known as King's Farm, laying and situated in Lane Cove, in the District of Hunter's Hill. Date, 3rd December, 1794. Cancelled.

Humphrey Evans (volume 1 folio. 141).—In pursuance of, &c., give and grant, &c., 25 acres, to be known by the name of Evan's Farm, laying and situated in Lane Cove, in the Hunter's Hill district. Date, 3rd December, 1794. Cancelled; this grant being found in the Secretary's Office with a note thereon. Demised to the Crown, August 15, 1804.—D. D. MANN, Clerk.

## No. 30.

### The Chief Surveyor to The Under Secretary for Lands.

Misc. 90-3,645. Proposed sale of certain land at North Willoughby which was reserved for recreation.

Under provisions of the Crown Lands Act a reserve at North Willoughby, containing 45 acres 3 roods 38 perches, has been duly resumed with a view to sale by auction. Further action was delayed through representations by Messrs. Sly and Hamilton (on behalf of Chappell and Campbell) to the effect that the land in question was covered by two Crown grants of which they were in legal possession: particulars of the claim were invited 18th May, 1889, and after many reminders it is admitted by their letter of 1st March, 1890, that no evidence in support of such claim has been obtained, but that they hope to get it.

I have caused a thorough search and inspection of all plans and records in this office, and no evidence can be found showing that this land was ever granted; on the contrary, it appears upon all maps and plans as vacant Crown land.

It would appear that Chappell and Campbell pretend to have acquired some right or title in the Gore Estate (adjoining this land) which is the basis of this claim; and it is a reasonable inference that it is intended to endeavour to apply one of the many grants issued in this locality (and formerly embraced in that estate) to cover this land.

A part, viz., 2 acres of this land was dedicated 12th March, 1869, as site for Municipal Council Chambers; and excepting such part the land is not occupied and not enclosed.

There is access by a road cleared and formed, which leads to a level crossing of the St. Leonard's and Hornsby railway fronting the land.

The site is elevated about 350 feet above sea level, and on account of its position on a suburban railway it is eligible for suburban residences, and will sell at about £150 per acre.

Local opposition to sale of this land is now raised on the allegation that it is wanted for recreative purposes. In rejoinder to such alleged need, it is merely necessary to direct attention to the large area reserved for recreation on both sides of the railway in this locality, which is ample for all possible requirements even if ever this place should become populous and without imputation of illiberal motives. I may point out that there is much land for sale in this locality at high prices, and it is not to the interest of those concerned in such business to have a lot of Crown land put up for auction on easy terms.

An application is also preferred for 3 acres additional for Municipal purposes, viz., market. I do not think there should be further appropriation out of this area, but I may point out that a very suitable site may be secured alongside of the level crossing of the railway opposite the Municipal Chambers site, and the requisite alteration in dedication may be obtained at instance of the Council.

In conclusion I would state that all possible inquiry has been made in order to ascertain whether there are any outstanding claims over this land; that no better means of inquiry are available to the parties who pretend to a claim over this land, and as there is no evidence to show that Crown grants ever were issued, I submit that subdivision for auction sale proceed.

E. TWYNAM.

20th August, 1890.

This land has not yet been resumed, the action having been stayed by decision 9/2/89, to enable Messrs. Chappell and Campbell to bring forward evidence of the title they pretend to possess. More than a reasonable period has been allowed for the production of such evidence, but none has been adduced, nor any reason shown to justify the Department in giving any further consideration to such claims as Messrs. Chappell and Campbell appear anxious to controvert (*vide* their letter 90-3,645 Misc.)

This report by the Chief Surveyor shows that complete and careful inquiry has been made to ascertain the possibility of any outstanding claims being in existence, but nothing can be discovered to show that the land is other than dedicated Crown lands. It is, therefore, submitted, in accordance with this report, that the land be resumed, and sub-division for auction sale proceeded with, as it is evident that the requirements of the locality for recreation-grounds are more than provided for by the many other areas still available. Attention is, however, invited to the application by Mr. J. F. Burns, M.P., for retention of the land for recreation (89-1876). With regard to an application by the Borough Council of North Willoughby for 3 acres of the land for a market reserve, the Chief Surveyor reports that further dedication of any part of the land would not be advisable, but states that a suitable area opposite the site for Municipal Chambers could be provided if the Council desire the same. Submitted the Council be informed accordingly.—R.H.D., 3/9/90.

Special.—F.H.W., 5/9/90. Action may probably be taken in accordance with above.—W.H., 5/9/90. Approved.—J.N.B., 8/9/90. Correspondence to inform Council as to market.—J.O'D., 9/9/90. Received.—10/9/90. The Council Clerk, North Willoughby, 11/9/90. Ex. Co. Minute.

15

## No. 31.

The Under Secretary for Lands to The Council Clerk, North Willoughby.

Sir,

Department of Lands, Sydney, 11 September, 1890.

Referring to your letter of 18th December, 1888, requesting that 3 acres of land may be dedicated as a site for markets and other Municipal or public purposes out of the 45 acres 3 roods 38 perches dedicated on the 26th March, 1886, for public recreation, I have the honor to inform you that further dedication of any part of this land would not be advisable, but that a suitable area opposite the site for Municipal Chambers could be provided if your Council desire the same.

I have, &amp;c.,

WM. HOUSTON,

Under Secretary (*per* R.H.D.)

## No. 32.

Executive Council Minute.

*Subject* :—Revocation of Dedication.

Department of Lands, Sydney, 15 September, 1890.

It is recommended to His Excellency the Governor and the Executive Council, that the dedication of the land at North Willoughby, area 45 acres 3 roods 38 perches, dedicated on the 26th March, 1886, for public recreation and herein described, be now revoked, under the 105th section of the Crown Lands Act of 1884, as proposed in the *Government Gazette* of 7th December, 1888, the necessary preliminary action prescribed by that section having been taken.

JAMES N. BRUNKER.

The Executive Council advise that the dedication of the land referred to the purpose specified be revoked in terms of said Act.—ALEX. C. BUDGE, Clerk of the Council. Minute 90-39, 16/9/90. Approved.—CARRINGTON, 16/9/90. Confirmed, 23/9/90. Gazetted, 11/10/90. Steps to District Surveyor and Deeds Branch, 16/10/90.

[Enclosure.]

Description.

Country of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches: Commencing at the eastern corner of J. Roberts' 25 acres grant; and bounded thence on the north-west by the south-east boundary of that grant bearing south 49 degrees 19 minutes 27 seconds west (magnetic) 16 chains 1'30 link to its southern corner; thence on the south-west by part of the north-east boundary of G. Tilley's 25 acres grant bearing south 40 degrees 38 minutes 42 seconds east (magnetic) 12 chains 36'19 links; thence on the south-east by a line bearing north 49 degrees 20 minutes 37 seconds east (magnetic) 16 chains 00'29 link; thence on the north-east by a line bearing north 40 degrees 35 minutes 25 seconds west (magnetic) 12 chains 36'83 links, to the point of commencement. Again commencing at the western corner of the site for Municipal buildings, dedicated 12th March, 1869; and bounded thence on part of the north-west by a line bearing south 49 degrees 20 minutes 37 seconds west (magnetic) 9 chains 99'92 links; thence on the south-west by part of the north-eastern side of Elizabeth-street, being lines bearing respectively south 40 degrees 38 minutes 42 seconds east (Magnetic) 20 chains 67'92 links, and south 40 degrees 38 minutes 38 seconds east (magnetic) 16 chains 3'45 links to the western corner of J. Tyler's 25 acres grant; thence on the south-east by part of the north-west boundary of that grant bearing north 49 degrees 23 minutes 15 seconds, east (magnetic) 15 chains 9'41 links; thence on part of the north-east by a line bearing north 40 degrees 56 minutes 7 seconds, west (magnetic) 14 chains 73'27 links to the eastern corner of the site for Municipal buildings aforesaid; thence on the remainder of the north-west and north-east, being lines bearing respectively south 50 degrees 31 minutes 14 seconds, west (magnetic) 4 chains 98'29 links, and north 41 degrees 9 minutes 49 seconds, west (magnetic) 3 chains 88'89 links, to the point of commencement,—shown on plan catalogued C. 70-2,063.

## No. 33.

The Council Clerk, North Willoughby, to The Under Secretary for Lands.

Sir,

Borough of Willoughby, 4 October, 1890.

With reference to your letter in answer to this Council's application for 3 acres of land to be dedicated for Municipal markets, &c., and offering the Council 3 acres of the land opposite the 2 acres for Municipal buildings, &c., in lieu of the land asked for, I have the honor, by direction of the Council, to state that the Council accept the 3 acres of land offered, and to request that the land be marked out, dedicated for the purposes named, that a deed for the same be issued to the Council, and that they be appointed trustees of the same.

I have, &amp;c.,

JAMES ANDERSON,

Council Clerk.

Papers being otherwise dealt with. Should be kept separate, if possible. Make extract from District Surveyor's report *re* markets. Extract made herewith. Now to the Chief Surveyor for survey of market site as contemplated, J.O'D.—R.H.D. (*pro* Under Secretary), 28/10/90. The Chief Surveyor. Council Clerk informed, 31/10/90.

[Enclosure.]

EXTRACT of Miscellaneous 90-12,467.

An application is also preferred for 3 acres additional for Municipal purposes, viz., market. I do not think there should be further appropriation out of this area, but I may point out that a very suitable site may be secured alongside of the level crossing of the railway opposite the Municipal Chambers site, and the requisite alteration in dedication may be obtained at instance of the Council.—E. TWYNAM, 20 August, 1890.

With regard to an application by the Borough Council of North Willoughby for 3 acres of the land for a market reserve, the Chief Surveyor reports that further dedication of any part of the land would not be advisable, but states that a suitable area opposite the site for Municipal Chambers could be provided if the Council desire the same. Submitted. The Council be informed accordingly.—R.H.D., 3/9/90.

Action may probably be taken in accordance with above.—W.H., 5/9/90. Approved.—J.N.B., 8/9/90. The Council Clerk, North Willoughby, informed, 11 September, 1890.

## Proclamation by His Excellency the Governor.

New South Wales, } Proclamation by His Excellency The Right Honorable CHARLES ROBERT, BARON  
to wit. } CARRINGTON, a Member of Her Majesty's Most Honorable Privy Council, Knight  
(L.S.) } Grand Cross of the Most Distinguished Order of Saint Michael and Saint George,  
CARRINGTON, } Governor and Commander-in-Chief of the Colony of New South Wales and its  
Governor. } Dependencies.

WHEREAS under the 105th section of the Crown Lands Act of 1884, power is given for the revocation of any dedication, wholly or in part: Now, therefore, I, CHARLES ROBERT, BARON CARRINGTON, Governor of the Colony of New South Wales aforesaid, with the advice of the Executive Council, declare that all preliminary action in connection with the proposed revocation of the dedication of the land at North Willoughby, area 45 acres 3 roods 38 perches, dedicated on the 26th March, 1886, for public recreation, and hereunder described, has been taken, and hereby proclaim that the land in question is resumed.  
[Ms. 90-14,110]

Given under my Hand and Seal, at Government House, Sydney, this tenth day of October, in the year of our Lord one thousand eight hundred and ninety, and in the fifty-fourth year of Her Majesty's Reign.

By His Excellency's Command,  
JAMES N. BRUNKER.

GOD SAVE THE QUEEN!

## Description.

County of Cumberland, parish of Willoughby, area 45 acres 3 roods 38 perches: Commencing at the eastern corner of J. Roberts' 25 acres grant; and bounded thence on the north-west by the south-east boundary of that grant bearing south 49 degrees 19 minutes 27 seconds west (magnetic) 16 chains 1'30 link to its southern corner; thence on the south-west by part of the north-east boundary of G. Tilley's 25 acres grant bearing south 40 degrees 38 minutes 42 seconds east (magnetic) 12 chains 36'19 links; thence on the south-east by a line bearing north 49 degrees 20 minutes 37 seconds east (magnetic) 16 chains 00'29 link; thence on the north-east by a line bearing north 40 degrees 35 minutes 25 seconds west (magnetic) 12 chains 36'83 links, to the point of commencement. Again, commencing at the western corner of the site for Municipal buildings, dedicated 12th March, 1869; and bounded thence on part of the north-west by a line bearing south 49 degrees 20 minutes 37 seconds west (magnetic) 9 chains 99'92 links; thence on the south-west by part of the north-eastern side of Elizabeth-street, being lines bearing respectively south 40 degrees 38 minutes 42 seconds east (magnetic) 2 chains 67'92 links, and south 40 degrees 38 minutes 38 seconds east (magnetic) 16 chains 3'45 links to the western corner of J. Tyler's 25 acres grant; thence on the south-east by part of the north-west boundary of that grant bearing north 49 degrees 23 minutes 15 seconds east (magnetic) 15 chains 9'41 links; thence on part of the north-east by a line bearing north 40 degrees 56 minutes 7 seconds west (magnetic) 14 chains 73'27 links to the eastern corner of the site for Municipal buildings aforesaid; thence on the remainder of the north-west and north-east, being lines bearing respectively south 50 degrees 31 minutes 14 seconds west (magnetic) 4 chains 98'29 links, and north 41 degrees 9 minutes 49 seconds west (magnetic) 3 chains 88'89 links, to the point of commencement,—shown on plan catalogued C. 70-2,063.

## Questions and Answers.

Legislative Assembly, Wednesday, 22 October, 1890.

(1.) CANCELLATION OF LAND FROM DEDICATION, PARISH OF WILLOUGHBY:—MR. LYNE asked THE SECRETARY FOR LANDS,—What is the purpose for which 45 acres 3 roods 38 perches, parish Willoughby, is being cancelled from dedication, under notice of date 10th October, papers miscellaneous 90-14, 110.

MR. BRUNKER answered,—This land was originally dedicated for public recreation, and not being required for that purpose (several other areas in the neighbourhood being also dedicated) was resumed under the 105th clause of the Crown Lands Act of 1884, with a view to its being submitted to auction sale, after subdivision, and otherwise dealt with.

## NEW SOUTH WALES.

## LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTION IN CONNECTION WITH THE EXTENSION OF THE PUBLIC PARK AT CLARENCE TOWN.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER  
44 VICTORIA No. 16.NEW SOUTH WALES, } By His Excellency The Right Honourable  
to wit. } CHARLES ROBERT, BARON CARRINGTON,(L.S.) a Member of Her Majesty's Most  
Honourable Privy Council, Knight  
By Deputation from Grand Cross of the Most Distinguished  
the Governor: Order of Saint Michael and Saint  
ALFRED STEPHEN, George, Governor and Commander-in-  
Lieutenant-Governor. Chief of the Colony of New South  
Wales and its Dependencies.

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the extension of the Public Park at Clarence Town, in the said Colony, and for the acquisition thereof public funds are lawfully available: Now, I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification published in the Gazette, and in a newspaper, that is to say, in the "Maitland Mercury," circulated in the Police District wherein the said land is situated, declare that the land hereinafter described has been resumed for the public purpose hereinafter mentioned, that is to say, for and in connection with the extension of the public park at Clarence Town, to the intent that upon the publication of this notification in the Gazette the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estates, interest, contracts, charges, rates, rights-of-way, or other easements whatsoever; and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be

vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act: And I declare that the following is the description of the land hereinbefore referred to, that is to say:—

All that piece or parcel of land situate in the town of Clarence Town, parish of Uffington, county of Durham, and Colony of New South Wales: Commencing at the north-east corner of allotment 17, section 6, Felix Wilson's 2 roods, being also the most southerly corner of an area of 3 acres, proclaimed 5th July, 1887, for public park at that town; bounded thence on the south-west by the north-eastern boundary of that allotment and that of allotment 18 adjoining, being in all a line bearing south 22 degrees east 2 chains to the north-eastern corner of allotment 19, same section, Matthew Charlten's 2 roods; thence on the south-east by the north-western boundaries of allotments 2 and 1, section 6, being a line bearing north 68 degrees east 5 chains to the western side of Durham-street; thence by that side of that street bearing north 22 degrees west 2 chains to the south-eastern corner of an area of 3 acres appropriated for public park above mentioned; and thence by the south-eastern boundary of that appropriation, being a line bearing south 68 degrees west 5 chains, to the point of commencement; being allotments 3 and 4 of section 6, town of Clarence Town,—as shown on plan catalogued C. 10-789.

In witness whereof, I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this fourteenth day of January, in the year of our Lord one thousand eight hundred and ninety, and in the fifty-third year of Her Majesty's Reign.

By His Excellency's Command,

BRUCE SMITH.

GOD SAVE THE QUEEN!

## NEW SOUTH WALES.

**LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.**  
(RESUMPTION AT BALMAIN, FOR PUBLIC RECREATION.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER  
44 VICTORIA No. 16.

NEW SOUTH WALES, } By His Excellency The Right Honourable  
to wit. } CHARLES ROBERT, BARON CARRINGTON,  
a Member of Her Majesty's Most  
Honourable Privy Council, Knight  
(L.S.) Grand Cross of the Most Distinguished  
CARRINGTON, Order of Saint Michael and Saint  
Governor. George, Governor and Commander-in-  
Chief of the Colony of New South  
Wales and its Dependencies.

WHEREAS I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, have duly sanctioned the establishment of a Recreation Ground at Balmain, in the said Colony, and for the acquisition thereof public funds are lawfully available: Now, I, the Governor of the said Colony, with the advice of the Executive Council of the said Colony, in pursuance of the powers in this behalf given to or vested in me by the "Lands for Public Purposes Acquisition Act," do, by this notification published in the Gazette, and in a newspaper, that is to say, in the "Balmain Observer," circulated in the Police District wherein the said land is situated, declare that the land hereinafter described has been resumed for the public purpose hereinafter mentioned, that is to say, for and in connection with the establishment of a Recreation Ground, to the intent that upon the publication of this notification in the Gazette, the legal estate in the said lands shall forthwith be vested in the Minister for Public Works and his successors on behalf of Her Majesty, for the purpose of the said last-mentioned Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estates, interest, contracts, charges, rates, rights-of-way, or other

easements whatsoever, and to the intent further that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the said Minister as a trustee with the powers stated in the said last-mentioned Act: And I declare that the following is the description of the land hereinbefore referred to, that is to say:—

All that piece or parcel of land situate at Balmain, in the parish of Petersham, county of Cumberland, and Colony of New South Wales, being part of the land comprised in certificate of title, volume 897, folio 48: Commencing at the junction of the southern boundary of Burt-street with the eastern boundary of Denison-street; and bounded thence by that boundary of Denison-street bearing southerly 84 feet 8 inches, and south-easterly 70 feet 10 inches, 78 feet, 19 feet 4 inches, 16 feet, 332 feet 10 inches, and 87 feet; thence by the north-western boundary of Abattoir Road bearing northerly 126 feet 10 inches, and north-easterly 107 feet 5 inches, and 310 feet 9 inches; thence by a line bearing northerly 70 feet 8 inches; thence by the southern boundary of a lane bearing westerly about 195 feet; thence by a line bearing northerly 120 feet; thence by the aforesaid southern boundary of Burt-street bearing westerly 673 feet, to the point of commencement, containing 4 acres 3 roods and 17 perches, more or less, and said to be in the possession of the Burwood Land, Building, and Investment Company (Limited).

In witness whereof, I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this tenth day of December, in the year of our Lord one thousand eight hundred and eighty-nine, and in the fifty-third year of Her Majesty's Reign.

By His Excellency's Command,

BRUCE SMITH.

## NEW SOUTH WALES.

## PUBLIC WORKS ACT OF 1888.

(RESUMPTION OF LAND IN THE VICINITY OF LONG COVE, PARISH OF PETERSHAM.)

Presented to Parliament pursuant to Act 51 Vic. No. 37.

## NOTIFICATION OF RESUMPTION OF LAND UNDER THE "PUBLIC WORKS ACT OF 1888."

NEW SOUTH WALES, } Proclamation by His Excellency The  
to wit. } Right Honourable CHARLES ROBERT,  
BARON CARRINGTON, a Member of Her  
Majesty's Most Honourable Privy  
Council, Knight Grand Cross of the  
(L.S.) Most Distinguished Order of Saint  
CARRINGTON, } Michael and Saint George, Governor and  
Governor. } Commander-in-Chief of the Colony of  
New South Wales and its Dependencies.

WHEREAS it is expedient that the public work herein-after mentioned shall be constructed, that is to say, the reclamation of certain low-lying mud flats in the vicinity of Long Cove, and confining the waters thereof within defined limits, the estimated cost of which will not exceed twenty thousand pounds: And that the said public work shall be carried out under the provisions of the "Public Works Act of 1888": Now, therefore, I, the Governor aforesaid, with the advice of the Executive Council of the said Colony, and under and by virtue of the powers and authority vested in me by the said Act, hereby direct that the said public work shall be carried out under the provisions of the said Act, and that the carrying out of the same shall devolve upon the Minister for Public Works of the said Colony, who shall in that behalf be deemed the Constructing Authority; and I hereby further direct that the land described in the Schedule hereto, being in my opinion required for the purpose of the aforesaid public work, shall be acquired for the said purpose under the provisions of the said Act:—

1st. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also part of section No. 4 of a subdivision called the Marion Estate; Commencing at the northern side of Marion-street, at a point distant westerly 8 chains 60 links from the intersection of the said northern side of Marion-street with the western side of Foster-street; and bounded thence on the east by other part of the said section No. 4 bearing north-westerly about 5 chains 44 links to the south-western corner of allotment No. 16 of the same section; thence on the north by allotment No. 17 westerly to high water-mark; thence on the west by high water-mark bearing southerly to the northern side of Marion-street aforesaid; thence on the south by that street bearing easterly to the point of commencement; containing 0 acres 2 roods 1½ perches or thereabouts, and said to be in the possession and occupation of G. Jackson.

2nd. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also allotment No. 17, section No. 4 of a subdivision called the Marion Estate: Commencing at a point on the southern boundary of Walter-street, being the north-west corner of allotment No. 16; and bounded thence on the east by the western boundary of that allotment bearing southerly to the south-west corner of the aforesaid allotment No. 16; thence on the south by a line at right angles to the western boundary of allotment No. 16 aforesaid to a point distant westerly 1 chain, the said point being the south-west corner of the said allotment No. 17; thence on the west by a line bearing northerly to the southern boundary of the aforesaid Walter-street; and thence on the north by part of that boundary easterly to the point of commencement; containing 0 acres 0 roods 24 perches or thereabouts, and said to be in the possession and occupation of Joseph L. Tilbury.

3rd. All that piece or parcel of land situated in the parish of Petersham, county of Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also allotment No. 8, section No. 3 of a subdivision called the Marion Estate: Commencing at the intersection of the northern boundary of Walter-street with the eastern boundary of Long Cove Parade; and bounded thence on the west by part of the eastern boundary of that parade bearing northerly to the south-western corner of allotment No. 9; thence on the north by the southern boundary of that allotment easterly to the north-west corner of allotment No. 7; thence on the east by the western boundary of that allotment southerly to the northern boundary of Walter-street aforesaid; thence on the south by that street westerly to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts, and said to be in the possession and occupation of Charles Crees.

4th. All that piece or parcel of land situated in the parish of Petersham, county of Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also allotment No. 9, section No. 3 of a subdivision called the Marion Estate: Commencing on the eastern boundary of Long Cove Parade, at the north-west corner of allotment No. 8; and bounded thence on the west by part of that parade northerly to the south-west corner of allotment No. 10; thence on the north by the southern boundary of that allotment easterly to the north-west corner of allotment No. 6; thence on the east by the western boundary of that allotment southerly to the north-west corner of allotment No. 7; and thence on the south by

the northern boundary of allotment No. 8 aforesaid westerly, to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts, and said to be in the possession and occupation of I. C. Price.

5th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also allotment No. 10, section No. 3 of a subdivision called the Marion Estate: Commencing on the eastern boundary of Long Cove Parade, at the north-west corner of allotment No. 9; and bounded thence on the west by part of that Parade northerly to the south-west corner of allotment No. 11; thence on the north by the southern boundary of that allotment easterly to the north-west corner of allotment No. 5; thence on the east by the western boundary of that allotment southerly to the north-west corner of allotment No. 6; and thence on the south by the northern boundary of allotment No. 9 aforesaid westerly, to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts, and said to be in the possession and occupation of I. C. Price.

6th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; and also allotment No. 11, section No. 3 of a subdivision called the Marion Estate: Commencing on the eastern boundary of Long Cove Parade, at the north-west corner of allotment No. 10; and bounded thence on the west by part of the eastern boundary of the said Long Cove Parade northerly to the south-west corner of allotment No. 12; thence on the north by the southern boundary of that allotment bearing easterly to the north-west corner of allotment No. 4, section No. 3 aforesaid; thence on the east by the western boundary of allotment No. 4 bearing southerly to the south-west corner of that allotment; and thence on the south by the northern boundary of allotment No. 10 aforesaid westerly, to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts, and said to be in the possession and occupation of Isaac Cantor Price.

7th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; also allotment No. 12, section No. 3 of a subdivision called the Marion Estate: Commencing on the south-eastern boundary of Long Cove Parade, at the north-west corner of allotment No. 11; and bounded thence on the north-west by part of the south-eastern boundary of the said Long Cove Parade north-easterly to the south-west corner of allotment No. 1; thence on the north by part of the southern boundary of that allotment easterly to the north-west corner of allotment No. 4; and thence on the south by the northern boundary of allotment No. 11 westerly, to the point of commencement; containing 0 acres 0 roods 16 $\frac{3}{4}$  perches or thereabouts, and said to be in the possession and occupation of F. A. Banks.

8th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; also allotment No. 1, section No. 3 of a subdivision called the Marion Estate: Commencing on the south-eastern boundary of Long Cove Parade, at the north-west corner of allotment No. 12; and bounded thence on the north-west by part of the south-eastern boundary of the said Long Cove Parade bearing north-easterly to the intersection of Loftus-street with the aforesaid Long Cove Parade; thence on the east by part of the western boundary of the said Loftus-street southerly to the north-east corner of allotment No. 2, section No. 3; and thence on the south by the northern boundaries of that allotment and allotment No. 12 westerly, to the point of commencement; containing 0 acres 0 roods 17 $\frac{1}{2}$  perches or thereabouts. Owners and occupiers not yet ascertained.

9th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; also allotment No. 2, section No. 3 of a subdivision called the Marion Estate: Commencing at the north-east corner of allotment No. 12; and bounded thence on the north by the southern boundary of allotment No. 1 bearing easterly to the western boundary of Loftus-street; thence on the east by that street southerly, to the north-east corner of allotment No. 3; thence on the south by that allotment westerly to the eastern boundary of allotment No. 12; thence on the west by part of the eastern boundary of that allotment northerly, to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts. Owner and occupier not yet ascertained.

10th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 270 acres to Hugh Piper; also allotment No. 3, section No. 3 of a subdivision called the Marion Estate: Commencing at the south-west corner of allotment No. 2; and bounded thence on the north by the southern boundary of that allotment bearing easterly to the western boundary of Loftus-street; thence on the east by that street southerly to the north-eastern corner of allotment No. 4; thence on the south by the northern boundary of that allotment westerly to

the south-east corner of allotment No. 12; thence on the west by part of the eastern boundary of that allotment northerly to the point of commencement; containing 0 acres 0 roods 13 perches or thereabouts. Owner and occupier not yet ascertained.

11th. 83rd. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 7, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of Cove-street, at a point distant about 1 chain 60 links westerly from its intersection with the western boundary of Charles-street; and bounded thence on the south by part of Cove-street westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 6; thence on the north by that boundary westerly to a point distant about 1 chain 45 links westerly from the south-east corner of allotment No. 6 aforesaid; and thence on the south-east by other part of the said allotment No. 7 south-westerly, to the point of commencement; containing 0 acres 0 roods 6¼ perches or thereabouts, and said to be in the possession and occupation of M. A. Burton.

84th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 6, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of allotment No. 7, at a point distant about 1 chain 45 links westerly from its north-east corner; and bounded thence on the south by part of that boundary westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 5; thence on the north by part of that boundary easterly to a point distant about 1 chain 30 links westerly from the south-east corner of allotment No. 5 aforesaid; and thence on the south-east by other part of the said allotment No. 6 south-westerly, to the point of commencement; containing 0 acres 0 roods 6 perches or thereabouts, and said to be in the possession and occupation of J. Stutchbury.

85th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 5, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of

allotment No. 6, at a point distant about 1 chain 30 links westerly from its north-east corner; and bounded thence on the south by part of that boundary westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 4; thence on the north by part of that boundary easterly to a point distant about 1 chain 15 links westerly from the south-east corner of allotment No. 4 aforesaid; and thence on the south-east by other part of the said allotment No. 5 south-westerly, to the point of commencement; containing 0 acres 0 roods 5¼ perches or thereabouts, and said to be in the possession and occupation of H. Thomas.

86th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 4, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of allotment No. 5, at a point distant about 1 chain 15 links westerly from its north-east corner; and bounded thence on the south by part of that boundary westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 3; thence on the north by part of that boundary easterly to a point distant about 1 chain westerly from the south-east corner of allotment No. 3 aforesaid; and thence on the south-east by other part of the said allotment No. 4 south-westerly, to the point of commencement; containing 0 acres 0 roods 5¼ perches or thereabouts, and said to be in the possession and occupation of Robert Fulton.

87th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 3, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of allotment No. 4, at a point distant about 1 chain westerly from its north-east corner; and bounded thence on the south by part of that boundary westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 2; thence on the north by part of that boundary easterly to a point distant about 85 links westerly from the south-east corner of allotment No. 2 aforesaid; and thence on the south-east by other part of the said allotment No. 3 south-westerly to the point of commencement; containing 0 acres 0 roods 5¼ perches or thereabouts, and said to be in the possession and occupation of Robert Fulton.

88th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 2, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the northern boundary of allotment No. 3, at a point distant about 85 links westerly from its north-east corner; and bounded thence on the south by part of that boundary westerly to high water-mark; thence on the north-west by high water-mark north-easterly to the southern boundary of allotment No. 1; thence on the north by part of that boundary easterly to a point distant about 70 links westerly from the south-east corner of allotment No. 1 aforesaid; and thence on the south-east by other part of the said allotment No. 2 south-westerly, to the point of commencement; containing 0 acres 0 roods 5¼ perches or thereabouts, and said to be in the possession and occupation of Charles Hudson.

89th. All that piece or parcel of land situated in the parish of Petersham, county Cumberland, at Long Cove, being part of a grant of 30 acres to J. Darbyshire; and also part of allotment No. 1, section No. 10 of a subdivision called the Helsarmel Estate: Commencing on the southern boundary of Augustus-street, at a point distant about 53 links westerly from its intersection with the western boundary of Charles-street; and bounded thence on the north by part of the said Augustus-street westerly to high water-mark; thence on the north-west by high water-mark south-westerly to the southern boundary of allotment No. 2; thence on the south by part of that boundary easterly to a point distant about 70 links westerly from the north-east corner of allotment No. 2 aforesaid; and thence on the south-east by other part of the said allotment No. 1 north-easterly, to the point of commencement; containing 0 acres 0 roods 8½ perches or thereabouts, and said to be in the possession and occupation of Charles Hudson.

Given under my Hand and Seal of the said Colony, at Government House, Sydney, this twenty-sixth day of September, in the year of our Lord one thousand eight hundred and ninety, and in the fifty-fourth year of Her Majesty's Reign.

By His Excellency's Command,

BRUCE SMITH.

GOD SAVE THE QUEEN!

## ANNUAL REPORT.

TO THE HONORABLE SYDNEY SMITH, ESQ., M.P., MINISTER FOR MINES, &c., &c.

Sir,

I do myself the honor to submit to you the following report upon the working of the Department under your control, and also the progress of Mining and the results obtained during the year 1889.

The following statement conveys some idea of the clerical work of the Department during the past year:—

STATEMENT of the number of Papers Registered, and Letters despatched, by the several Branches of the Department of Mines.

	Papers Registered.		Letters Written.	
	1888.	1889.	1888.	1889.
Mines proper .....	31,983	28,169	19,694	16,305
„ Account Branch .....	10,255	11,190	.....	.....
Stock .....	13,365	15,090	4,019	5,626
Public Watering Places .....	8,881	9,082	3,214	5,300

Prospecting Votes .....	1,060	2,565	911	1,871
Geological Branch.....	1,036	1,573	469	3,536
	71,079	71,706	30,205	34,398*

\* Exclusive of printed forms, circulars, and telegrams.

The increase upon 1888 is not large, but it must be borne in mind that the work in that year was exceptionally heavy. I am happy to say that the ready assistance which the heads of Branches have at all times rendered, and the zeal with which they and the gentlemen under them have devoted themselves to the work of the Department, have enabled me to keep abreast of the increased business without materially augmenting the staff. I do not mention it as exceptional, because, I presume, the same thing occurs in other departments of the service much more frequently than the public suppose; but I feel that it is due to the staff to say that it is no uncommon occurrence for gentlemen to work ten or more hours per day.

It affords me especial pleasure to record the fact that the very valuable services of Mr. Gerard E. Herring have been rewarded by promotion from the position of Chief Clerk to that of Assistant Under Secretary. I am also glad to refer to the recognition of Mr. M'Kinney's worth by his promotion to the position of Chief Engineer in the Water Conservation Branch. I cannot refrain from expressing regret that the Department has lost the able assistance of Mr. H. A. Gilliat, who, notwithstanding his well-earned promotion from the position of Chief Inspector of Public Watering Places to Officer-in-Charge, has been induced to accept an important position in another department of the service, where I have no doubt his abilities will cause him to be as highly valued as he was in this, and where I trust his opportunities of rendering valuable service to the public will be greater.

I have much pleasure in acknowledging my indebtedness to the Geological Surveyor and his staff, the Chief Mining Surveyor, the Chief Inspector of Mines, the Examiner of Coal-fields, the Chief Inspector of Stock, the Wardens, &c., for the valuable help they have given me in my efforts to expedite the work of the Department.

With

With regard to the occupation of lands for mining purposes, I have much pleasure in submitting the following facts :—

The number of applications made to lease Crown lands for mining purposes during the year 1889, including applications for special gold leases, was 2,285, being a decrease of 3,697, as compared with the number of such applications made in 1888, which, however, was quite an exceptional year.

Of the 2,285 applications so made, 1,345 were for auriferous land, comprising an area of 11,305 acres, being 3,529 acres less than was applied for in 1888, and 940 were for mineral land, comprising an area of 71,175 acres, being 109,473 acres less than was applied for in 1888.

The number of applications dealt with in 1889 was 4,155, which, compared with the number dealt with in 1888, shows an increase of 12. Having due regard for the exercise of such precautions as appear necessary to prevent the issue of conflicting or defective titles, or the inflicting of injury upon persons claiming or desiring to make a title to land for mining purposes, I have persistently endeavoured to secure the utmost expedition in dealing with applications to lease, and I am much indebted to the Chief Mining Surveyor and to Mr. Primrose for the zeal with which they have seconded my efforts. The adoption of certain proposed changes now under consideration will, I venture to think, tend largely to increase the expedition with which this branch of the departmental work is performed.

Of the 4,155 applications dealt with in 1889, 1,640 were for gold leases, comprising an area of 13,768 acres, and 2,515 were for mineral leases, covering an area of 160,700 acres.

The following table shows the quantity of Crown land applied for to lease during the year 1889 and the minerals to be mined for therein :—

	a.	r.	p.		a.	r.	p.
Gold .. .. .	11,309	0	0	Silver, lead, and limestone .. .. .	1,500	0	0
Antimony .. .. .	1,030	0	0	Silver, lead, and tin .. .. .	220	0	10
Cinnabar .. .. .	80	0	0	Silver, lead, and bismuth .. .. .	40	0	0
Copper .. .. .	441	1	0	Silver, lead, and zinc .. .. .	40	0	0
Antimony, manganese, and silver	120	0	0	Silver, lead, and mica .. .. .	40	0	0
Copper and iron .. .. .	20	0	0	Silver, lead, copper, and platinum .. .. .	80	0	0
Cobalt .. .. .	20	0	0	Silver, lead, and talc .. .. .	20	0	0
Bismuth .. .. .	60	0	0	Silver, lead, and slate .. .. .	40	0	0
Chrome .. .. .	80	0	0	Silver, lead, copper, and antimony .. .. .	60	0	0
Limestone .. .. .	180	0	0	Silver, lead, marble, and limestone .. .. .	400	0	0
Marble .. .. .	40	0	0	Silver, lead, copper, and ironstone .. .. .	40	0	0
Ochre .. .. .	44	0	0	Silver, lead, and ironstone .. .. .	624	2	0
Plumbago .. .. .	40	0	0	Silver, lead, limestone, and flux .. .. .	40	0	0
Diamonds .. .. .	640	0	0	Silver, lead, copper, and calcite .. .. .	40	0	0
Coal .. .. .	6,218	0	0	Silver, lead, and calcite .. .. .	40	0	0
Coal and shale .. .. .	35,226	0	30	Silver, lead, ironstone, and limestone .. .. .	180	0	0
Iron and oxide of iron .. .. .	95	0	0	Silver, lead, copper, and tin .. .. .	280	0	0
Slate .. .. .	40	0	0	Silver, lead, copper, and limestone .. .. .	220	0	0
Silver .. .. .	7,584	1	28	Silver, lead, copper, limestone, and ironstone .. .. .	60	0	0
Silver and lead .. .. .	6,751	3	12	Tin .. .. .	3,763	3	36
Silver and tin .. .. .	260	0	0	Tin and diamonds .. .. .	180	0	0
Silver and arsenic .. .. .	46	3	28				
Silver and copper .. .. .	20	0	0				
Silver, lead, and copper .. .. .	3,832	3	32	Total .. .. .	82,484	0	16

The decrease is chiefly in silver, silver-lead, &c., and the only important increase is in shale.

The following table shows the quantity of Crown land held under application to lease on the 31st December, 1889, and the minerals proposed to be mined :—

	a.	r.	p.		a.	r.	p.
Gold .. .. .	8,376	0	0	Silver and lead .. .. .	5,096	2	29
Antimony .. .. .	740	0	0	Silver, lead, and copper .. .. .	1,033	2	0
Bismuth .. .. .	110	0	0	Silver, lead, and ironstone .. .. .	320	0	0
Coal .. .. .	7,337	0	39	Silver, lead, and limestone .. .. .	924	2	0
Coal and shale .. .. .	16,042	0	0	Silver, lead, and mica .. .. .	40	0	0
Coal, shale, petroleum, and gas .. .. .	537	0	0	Silver, lead, and slate .. .. .	40	0	0
Cinnabar .. .. .	80	0	0	Silver, lead, and talc .. .. .	20	0	0
Chrome .. .. .	80	0	0	Silver, lead, and bismuth .. .. .	40	0	0
Copper .. .. .	639	1	0	Silver, lead, and zinc .. .. .	40	0	0
Diamonds .. .. .	150	0	0	Silver, lead, and tin .. .. .	60	0	0
Iron .. .. .	75	0	0	Silver, lead, copper, and antimony .. .. .	60	0	0
Iron and copper .. .. .	20	0	0	Silver, lead, copper, and platinum .. .. .	80	0	0
Kerosene .. .. .	640	0	0	Silver, lead, marble, and limestone .. .. .	240	0	0
Manganese, &c. .. .. .	120	0	0	Tin .. .. .	1,971	0	32
Limestone .. .. .	180	0	0	Tin and diamonds .. .. .	150	0	0
Ochre .. .. .	260	0	0	Tin and silver .. .. .	300	0	0
Silver .. .. .	7,160	0	0				
Silver and arsenic .. .. .	20	0	0	Total .. .. .	53,942	1	20

The aggregate area of Crown lands held under application to lease on the 31st December, 1889, is less than half the area as held at the end of 1888.

The

The following table shows the area of Crown land held under lease, and the minerals to be mined:—

	119,623	3	3	83,275	2	3	2,641	1	33	205,540	2	39

The above table shows a very large increase upon the area held under lease at the end of 1888. The increase is chiefly in gold, coal, shale, silver, silver and lead, and tin.

The number of applications for permits or authorities under section 27 or 28 of the Mining Act to mine under reserves received during 1889 was 340, being a decrease of 271 upon the number received during 1888. The number dealt with in 1889 was 390, being an increase of 111 upon the number dealt with in 1888.

The following table shows the area of reserved land comprised in permits or authorities granted during 1889, and the minerals to be mined thereunder:—

	a.	r.	p.
Coal .....	19,392	3	0
Coal and shale .....	31,175	3	12
Tin .....	12	3	29
Silver .....	140	0	0
Silver and lead .....	30	0	0
Copper .....	45	3	22
Bismuth .....	4	1	7
Gold .....	80	1	33
	50,832	0	23

In many cases the permits or authorities had not actually issued prior to 31st December, 1889.

The

The aggregate area of reserved lands comprised in permits and authorities granted in 1889 was about 100 acres less than the area so granted in 1888.

The following table shows the areas of reserved lands comprised in authorities granted under sections 27 and 28, which were issued prior to 1889, and the minerals to be mined thereunder:—

	a.	r.	p.
Coal .....	32,061	2	9
Coal and shale ..	649	1	0
Coal, iron, and shale ..	18	2	16
Shale ..	8	2	32
Ironstone .....	79	3	7
Limestone .....	10	0	0
Tin .....	323	0	15
Copper .....	80	0	0
Silver .....	20	0	0
Silver and lead .....	22	1	30
Marble ..	5	0	0
Gold .....	40	2	25
	33,319	0	14

The decrease of areas as above, in comparison with that held in 1888, has been caused by cancellation of authorities, and by issue in some cases of mineral leases in lieu thereof.

Area comprised in permits or authorities (sections 27 or 28) issued, which were in force 31st December, 1889:—

	a.	r.	p.
Coal ..	44,717	0	5
Coal and shale ..	13,982	1	31
Coal, iron, and shale ..	18	2	16
Ironstone ..	79	3	7
Limestone.....	10	0	0
Tin.....	290	0	35
Copper ..	135	3	22
Silver ..	160	0	0
Silver and lead... ..	22	1	30
Bismuth .. ..	4	1	7
Marble ... ..	5	0	0
Gold ... ..	162	3	34
	59,588	2	27

The above area is larger than the area so held at the end of 1888, due to the demand for authorities to search for shale.

The number of applications for permits under section 45 of the Crown Lands Act of 1884 to dig and search for gold received during 1889 was 320, being a decrease of 7 as compared with 1888. The number dealt with in 1889 was 273, of which 182 were granted and 91 were refused, against 97 granted and 51 refused in 1888. The number of such permits in force at the end of 1889 was 235, the number in force at the end of 1888 was 135.

The number of applications for permits under section 7 of the Crown Lands Act of 1884 received during 1889 was 78, compared with 128 received in 1888. The number finally dealt with in 1889 was 88, of these 58 were granted and 30 were refused, against 32 granted and 41 refused in 1888. Permits issued during 1889, 56. The number in force at the end of 1889 was 91. Several of these permits are lying in the office waiting payment of the stamp duty.

The number of applications made under section 98 of the Crown Lands Act of 1884 for permits to search for minerals in conditional leaseholds was 213, of which 154 were dealt with. Number in force at the end of the year, 82.

On the 30th September, the Mining Act of 1889 came into force. Under this Act permits can be granted to search for gold and other minerals within conditional leases, thus the regulations under section 98 of the Crown Lands Act of 1884 were superseded. This Act also gives power to grant permits to search for gold and other minerals in lands sold after the above date. And upon the discovery of gold or any other mineral within a conditional lease or within land sold after the above date, the lease or sale may be cancelled. The number of applications received under this Act was 22, but only 2 were finally dealt with during the year.

The foregoing statements comprise all lands occupied for mining purposes, except freehold lands and lands occupied in virtue of miner's rights and mineral licenses. The lands so excepted represent a considerable area.

During the year three returns of gold and mineral leases, namely, on 17th April, 14th September, and 5th December, and the fourth on 24th January, 1890; but, owing to pressure of work, only one return of authorities under sections 27 and 28 was published, the second return will, however, be issued shortly.

## PROSPECTING BOARD.

During the year the Prospecting Board visited the following amongst other places, viz. :—

Alicktown	Deepwater	Nerrigundah
Armidale	Delegate	Nimitybelle
Ballina	Denison Diggins	Nowra
Bega	Drake	Nullamana
Bellbrook	Dungog	Oberon
Bendmeccer	Eden	Peak Hill
Blayney	Emmaville	Red Rock
Boonoo-Boonco	Fernmount	Scone
Boro	Glen Innes	Stroud
Braidwood	Grafton	Stewart's Brook
Bredbo	Hillgrove	Tamworth
Bungendore	Inverell	Tarana
Cannowindra	Kempsey	Tarago
Cargo	King's Plains	Tenterfield
Casino	Lismore	Tichborne
Colinton	Locksley	Tingha
Coolongook	Long Creek	Tumberumba
Copmanhurst	Macleay	•Uralla
Cowra	Michelago	Walcha
Crookwell	Mogo	Wardell
Cudal	Moruya	Wiseman's Creek
Dalmorton	Mount Hope	Yalwal
Deep Creek	Mullion Creek	
Aid granted in ... ..	...	109 cases.
Aid refused ... ..	...	66 "
Applications not yet dealt with	...	320 "
		495

The following extracts are taken from Reports by officers instructed to measure up the work of parties aided from the Prospecting Vote.

James Patterson and party, Scrubby Rush, struck a reef showing splendid stone, and James R. Everett, of the same place, is on a reef showing good gold here and there.

Simon Brown and party, Wood's Flat, are on a very fine reef, 5 feet wide, showing good gold.

Thos. Austin and party, Woodstock, bottomed on wash, 15 inches thick, showing gold.

Richard Bourke and party, Scrubby Rush, are sinking on a reef showing good traces of gold all the way down.

Dennis C. J. Donnelly, Wangoola, is sinking a shaft which shows good traces of copper all the way down.

Immer Andrews, Temora, struck a vein showing good gold, and Bollord and party, 12 miles west of the same place, struck good coarse gold.

R. J. Phillips, sinking on the Day Spring Reef, near Parkes, which shows 4 feet wide at bottom of the shaft, and carries coarse gold freely.

Wm. Kiasils and party, to the north of Tambaroora, have struck a reef showing gold freely.

Macrominus and party, Tambaroora, struck a vein on the Valentine line of reef which shows good gold, and is considered payable.

Cullen and Levy, Tambaroora, are also on gold, but no definite results to hand.

T. C. Sattor, Hill End, obtained very rich gold.

Fraser and Dilliston, Golden Gully, Tambaroora, have struck a reef showing gold freely, and is payable.

Webb and party and Lee and party, Wattle Flat, are obtaining a little gold.

The Big Oakey Gold-Mining Co., Sofala, obtained some very rich prospects of gold.

G. R. Williams, Carney's Reef, Sofala, obtained payable gold.

Oliver Anderson, Nana Creek, was aided to prove a reef which shows well.

Greenaway and party, Dalmorton, have struck payable gold.

George Jenkins, Herbert Park, Armidale, has also struck a good payable reef.

Hunt and party, Bingera, struck good payable wash.

Matthews and party, Tumberumba, were aided to test the deep lead, and struck wash showing traces of gold. Work still in progress.

Maher and party, Eureka Flat, Grenfell, struck payable gold.

Cook and party, Dark Corner, Mitchell, discovered payable gold.

M'Lennon Day and party, are sinking on the Black Range, near Albury, with good prospects.

Burns and Graham, Rowley's Reef, Hill End, cut a vein at 110 feet 2 inches thick, showing very nice gold running probably from 5 to 10 oz. to the ton.

Carrol Rice and party, Doherty's Hill, Rocky River, are obtaining payable gold in 5 feet auriferous drift.

These results of prospecting operations carried on with aid out of the Prospecting Vote, though not perhaps extraordinary are, I venture to think, encouraging, and when compared with the results obtained in other colonies or even with prospecting operations supported by private funds, evidence, care, and judgment on the part of the members of the Prospecting Board. In some cases these finds have led to the employment of a number of men, and it is quite possible that they will in this way amply repay the expenditure of public funds.

The Board is much indebted to Mr. D. McCulloch, of the Drill Branch, who has, in addition to his other work, very ably performed a very considerable amount of clerical work connected with the Prospecting Vote.

## GEOLOGICAL SURVEY BRANCH.

The Geological Surveyor-in-Charge has, besides carrying out the departmental work of this branch at the head office, also examined portions of the New England districts when visiting these as a member of the Prospecting Board in company with the Chief Inspector of Mines.

In addition to the direct mining information acquired by the Board in dealing with the numerous applications for aid out of the Prospecting Vote, Mr. Wilkinson was enabled to make certain geological observations indicative of future mining development; viz., the modes of occurrence of the auriferous and argentiferous sulphide ores in the Drake, Rivertree, and Solferino fields; the source of the gold and platinum in the beach sands on the Richmond coast; the association of the auriferous antimony lodes with granite dykes; and the extension of the Coaldale coal seams beneath Grafton and other parts of the Clarence district. It is anticipated that the present prospecting of these seams by Messrs. See, Fisher, and others will lead to the profitable working of these seams.

Mr. Geological-Surveyor David is still occupied with the examination of the Hunter River Coal-field. He has furnished during the year eight progress reports referring chiefly to the occurrence of the coal formations between Maitland and Port Stephens, some iron ore deposits, and the salt-bearing rocks near Ellalong. This examination has enabled him to trace the Greta coal-measures from the Homeville colliery, near West Maitland, to beyond the half-way house on the Raymond Terrace to Stroud road, a distance of 30 miles, and thence a further distance of about 12 miles to Morna Point on the coast. These reports, with plans, indicate where the productive seams probably occur, and are therefore useful in showing where prospecting for coal and other minerals would be expedient. From the occurrence of fragments of kerosene shale on the beach at Morna Point it is believed that a seam of shale exists in the Greta measures in the vicinity. Four new collieries, viz., the Silkstone, Richmond Vale, East Greta, and Heddon Greta, have recently been started to work the seams discovered by Mr. David at Deep Creek in 1888. The royalty which the Government will annually receive from these will be considerable. On Mr. David's recommendation the bore for coal at Ash Island was continued, and the Rathluba seam was struck at the depth anticipated; and, in consequence of this, other boring operations have been carried on with success between here and Port Stephens. The geological survey will materially aid in proving the extension of the northern coal-field. A cursory examination of the Peak Hill Gold-field, between Parkes and Tomingley, has been made, but a more detailed geological survey is about to be undertaken, as the geological features of the country show the probability not only of permanent gold-bearing reefs, but also of the existence of deep leads.

Mr. Geological-Surveyor Anderson inspected and reported upon the Fiery Creek Gold-field, near Cooma, the discovery of bismuth near Ben Lomond, the Kookabookra Gold-field in the same district, and the Tumberumba deep lead formation, which latter he has mapped out, showing that for a considerable distance under the basalt the lead will probably be found payable. He has also commenced a survey of the southern margin of the artesian water-bearing cretaceous formation of the Upper Darling country, and his map showing the Bourke district has already been published.

Both Mr. David and Mr. Anderson have assisted the Prospecting Board in various parts of the country.

Mr. Stonier, formerly field-assistant, has been appointed acting Geological Surveyor. He has examined and reported on the Mogood Gold-field, near Ulladulla, the tin-bearing deposits at Mandamah, Peak Hill, Forbes, Melrose, Adelong, Belubula, and Rock Flat Creek. He also did duty for the Curator and Mineralogist (Mr. Carne), during the absence of the latter at the Melbourne and New Zealand Exhibitions.

Mr. Carne was deputed to carry out the preparation and arrangement of the collections representing the mineral resources of New South Wales at these Exhibitions, and performed this duty in a very able and satisfactory manner. The mineral exhibits of this Colony were amongst the most prominent features not only of the New South Wales Court, but of the whole Exhibition. Our mineral representation at New Zealand is the most complete that has yet been made, and nearly all the exhibits belong to the Department, having been obtained by officers of the Department or donated by private exhibitors, and it is hoped that a proper building for the Mining and Geological Museum will soon be provided for the permanent display in Sydney of these splendid collections.

During the year the Curator has examined 3,300 mineral samples which have been forwarded to the Department by persons interested in mining desiring information as to their value; when this cannot be determined by inspection alone the samples are submitted to the assayer and analyst for further necessary test.

The library of the Department has been increased by the addition of valuable works upon mining, geology, and paleontology received either by purchase or as exchanges for departmental publications, which have been distributed to various geological surveys, scientific and public institutions at home and abroad.

During

During the year the collections of economic minerals were sent as exchanges to Germany, Dresden, Denmark, Hamburg, California, Victoria, Queensland, South Australia, New Zealand, and Tasmania; whilst within the Colony educational collections of minerals were prepared for schools of arts and other public institutions.

The Palæontologist, Mr. Robt. Etheridge, jun., has been occupied with important duties connected with the more scientific work of the Geological Survey Branch. Besides determining various fossils specially submitted, he has completed the sorting of the supplementary palæontological collections, but further systematic classification cannot be carried out until more museum accommodation for the specimens has been provided. Under his editorship the memoir of Dr. Feistmantel, on the Palæozoic and Secondary plants has nearly passed through the press, and will be shortly published. The first volume, in three parts, of the Records of the Geological Survey of New South Wales has been completed. It is gratifying that this work, imparting as it does some of the more scientific results of the survey work, has been much appreciated by the public, and will therefore prove of educational value. The first part of the second volume is in course of preparation.

The assayer and analyst, Mr. Mingaye, and his assistants, Messrs. White and Neilson, have been doing good work during the year, no less than 3,222 samples having been assayed or analyzed, including metallic ores, coals, and other minerals, limestones, pottery clays, &c., and samples of water from underground sources in various parts of the Colony.

Important improvements have been effected under the supervision of Mr. Leigh, Superintendent of Caves, at the Jenolan, Wombeyan, Tarrangobilly, and Wellington caves, rendering these interesting places of public resort still more accessible and attractive.

#### MINING SURVEYS.

The mining excitement, which was at its height in 1888, had considerably abated during the year 1889, and, as a consequence, the number of mining surveys during the last twelve months amounted to only about half as many as were made in 1888, although considerably exceeding the number made in 1887.

Fifty-six surveyors were employed under the supervision of the Chief Mining Surveyor. Of these eight were in receipt of salaries, in addition to the fees, while forty-eight were paid by fees only, and were employed as occasion required.

The total number of surveys made during the year 1889 was 2,166, consisting of 1,245 gold-mining leases, 765 mineral leases, 45 mining tenements, and 111 mining permits. It will thus be seen that while the number of gold-lease surveys was about equal to that of the preceding twelve months, only about one-fourth of the number of mineral leases were surveyed. On the 1st January, 1890, there were 459 applications still awaiting survey.

In the Charting Branch 3,671 applications for gold-mining and mineral leases were finally dealt with under the system (introduced in 1888) by which each draftsman was paid extra for all cases in excess of a certain number per month. There were also 298 applications under section 28 of the Mining Act, dealt with during the year. In addition to this twenty-four parish maps were compiled, and 421 copies of mining maps were revised, chartered up to date, and forwarded to the various Wardens, District Surveyors, &c.

RETURN of Compiling Work for 1889.—List of New Maps compiled and published during 1889.

## INSPECTOR OF MINES.

The Inspector of Mines (Mr. Slee, F.G.S.) reports 15 fatal and 16 non-fatal accidents during 1889,—an increase as compared with 12 fatal and 9 non-fatal in 1888. The percentage of fatal accidents in 1889 was 08, and of non-fatal 085. Of the fatal accidents 2 were caused by fall of earth, 2 by foul air, 7 by falling down shaft, 3 by machinery, and 1 by explosives. Of the non-fatal accidents 9 were caused by drilling out missed shots, 5 by fall of earth, and 2 by falling down shaft.

During the year the mines in the following localities were inspected:—Mittagong, Shoalhaven, Goulburn, Yalwal, Boonoo Boonoo, Drake, Tooloom, Solferino, Glen Innes, Dalmorton, Inverell, Tingha, Emmaville, Hillgrove, Armidale, Uralla, Mombi, Bendemeer, Tamworth, Stewart's Brook, Denison Diggings, Copeland, Dungog, Casino, Lismore, Ballina, Maclean, Grafton, Nana Creek, Bellinger, Nambucca, Upper Macleay, Locksley, Blayney, Orange, Molong, Cudal, Cargo, Parke, Canowindra, Alick's Flat, Peak Hill, Tarana, Oberon, and Wiseman's Creek. In addition to the Inspector of Mines, Mr. Slee ably superintended the working of the diamond drills and water augers, and is one of the most active members of the Prospecting Board. It is most gratifying that Mr. Slee's zeal and ability have been recognized by promoting him to the position of Chief Inspector of Mines. Mr. Slee's report, appended hereto, will be read with interest.

## DIAMOND

## DIAMOND DRILLS AND WATER AUGERS.

Under the supervision of Mr. Sloc, F.G.S., the working of the diamond drills during the year 1889 has been very satisfactory, notwithstanding that the average depths bored in 1889 exceeds that of any previous year.

The aggregate depth of the bores put down in 1889 was 7,853 feet 10 in., being 438 feet 5 in. less than in 1888. The cost per foot of boring was higher in 1889 than in 1888, due to the greater depth of the bores. The destruction of diamonds was also greater by 3d. per foot, due mainly to the very hard country which had to be pierced at Broken Hill and at Woodford, but in spite of these facts the result of the year's operations shows a credit balance, after deducting 5 per cent. for wear and tear of machinery. To have obtained such a result in face of the low rates charged for boring is highly creditable to the Superintendent, and fully justifies the practice of allowing him the utmost freedom in the selection of the men employed on the drills. The staff, under Mr. Sloc in the office, the store, and the field, are most zealous in the performance of their duties, and much of the success in the working of the drills is due to that fact.

The work done by the water augers during the year has not been quite so satisfactory, but this is due to the fact that the augers which were guaranteed to bore to a depth of 300 feet have been made to bore over 1,100 feet, but as the work has progressed the bores have gradually reached greater depths, consequently the aggregate depth bored in 1889 was not so great as in 1888, and the cost per foot has increased to the extent of 5s. 1d. The total depth bored during the year was 1,448 feet 9 inches, being less by 513 feet 3 inches in 1888. During the year four bores were in progress, namely—two on the Wanaaring to Milparinka Road, one at 121 miles, 1,025 feet deep, and one at 106 miles, 1,112 feet 11 inches deep, and one at Tibooburra, 349 feet 6 inches. Here a large supply of good water has been struck, but it is hoped that an artesian supply will be obtained at about 500 feet. The cost per foot for the year was 28s. 2½d., exclusive of office expenses, or 32s. 7½d. including all expenses.

## MINERAL PRODUCTS.

The aggregate value of the mineral products of this Colony to the end of 1889 amounted to £81,599,113. The value of such products for the year 1889 was £4,780,364, being an increase of £90,458 6s. 0d. upon the value in 1888. The principal increases were in the output of gold, coal, and silver-lead. The minor increases were in silver, shale, antimony, bismuth, oxide of iron, zinc, spelter, and lead. The principal decreases are in tin and copper; the minor decreases in iron, manganese, and sundry minerals.

The following table shows the aggregate value of minerals, the produce of New South Wales, for the years 1888 and 1889 respectively compared:—

Minerals.	1888.			1889.			Increase in Value.			Decrease in Value.

## GOLD.

The yield of gold in 1889 was, I am happy to say, larger than it has been in any year since 1883. I trust that in 1888 we reached the lowest point, and are now in a fair way to recover our position amongst the gold-producing countries. That we should do so if our auriferous lands were well prospected, and our gold-mining operations conducted upon the most approved principles and with the aid of the best appliances. As will be seen by the table below, the yield of our gold-fields to the end of 1889 amounts to over 37½ millions sterling; and the opinion is frequently expressed by experts that we have barely tapped our gold deposits. Whether this view be strictly correct I am not prepared to say, but it is clear that the known alluvial deposits are to a large extent exhausted. That there may be very large deposits of alluvium yet untouched is probably true, especially such as are comparatively deep or covered by basalt, or such as can be worked profitably only under methods not yet commonly employed in this Colony. As regards our auriferous lodes, I think there can be little doubt that we have barely commenced to open them, and I look forward to a very considerable increase of gold yield when we have some cheap and effective modes of saving very fine particles of gold, and of extracting gold from pyritous ores.

TABLE showing the Quantity and Value of Gold won in the Colony of New South Wales from 1851 to 1889.

With a view to encourage inventors of new processes, Mr. Pittman, who is specially qualified for the duty, has been deputed to inspect and report upon two inventions that have been brought under notice of the Department.

The following extracts from the reports of Wardens and Mining Registrars indicate the condition of gold-mining in the several mining districts during the past year:—

In the Bathurst district the reports say:—Rich stone was struck at a depth of 600 feet vertical in the New Bathurst Company at Trunkey, the first crushing from which gave 910 oz. of smelted gold. It is expected that three other mines at Trunkey will be worked shortly. Sluicing was carried on vigorously during the winter at Mountain Run Creek with payable results. Good wages were made by parties of miners at Rocky Bridge, Mountain Run, Copperhannia, Trunkey, The Grove, and other creeks. A small trial crushing from the Monarch reef gave a highly satisfactory return. At Pharoah's Point a few miners have done remarkably well. At Bombah, gold has been obtained in alluvial, also in the Grove Creek, near Mount Gray. At the recently discovered quartz reef opposite Bombah the prospects are very good indeed, from 2 to 3 oz. per ton. A rich deposit of alluvium has been worked during the winter on private land on Tuena Creek, half-a-mile from its junction with the Abercrombie River. Many miners are working on Tuena Creek up to the junction. Gold has been found at Mount Werong. At Dark Corner the Paddy Lackey Company which was aided out of the Prospecting Vote (but for which their mine would now be idle), have sunk their shaft to a depth of 300 feet. They have a reef 3 feet wide, from which they have raised 400 tons of stone which yielded 442 oz. of gold. The St. George Company, depth of shaft 320 feet, width of reef 2 feet, have crushed 200 tons of stone for 100 oz. of gold. At Little Hill, Lane and Party raised 40 tons of stone which yielded 17 oz. 14 dwt. of gold. Several leases are being worked at Cheshire's Creek and Clear Creek with encouraging though not remunerative results. At Mount M'Donald rich stone was found in the Balmoral mine. In the Carcoar division the Prince of Wales and Gold Hill Companies at Burnt Yards have been successful. The conglomerate pebbly wash in the basaltic range, on the bank of the Belubula, contains gold in payable quantities, but the difficulty of constructing suitable shoots to convey the stuff to the river has prevented any marked progress in the sluicing operations, but it is intended to erect proper appliances at once. A prospecting party at Hancock's Paddock (Blayne division), at a depth of 80 feet struck an iron-stone reef 6 feet wide, which assays 1 oz. 15 dwt. per ton. In the Orange division about 100 oz. of gold and silver bullion have been raised during the year by Messrs. Cross and Spear, at Diggers' Creek. Tom's Lewis Ponds Company raised about 1,900 tons of ore, and treated about 679 tons, giving a return of £4,100. In the Tambaroora and Turon districts—a rich reef was found at Nuggetty Creek, near Wattle Flat. Several sluicing claims near Sofala were worked with satisfactory results, some of the men averaging £6 per week. On the Queenslander Reef 1,700 tons of stone raised yielded nearly 425 oz.; the reef is about 50 feet wide. The Big Oakey Co. raised 130 tons stone which yielded 272 oz. From the Caledonian Reef 544 tons of stone yielded nearly 138 oz. of gold. From Solitary Creek Reef 114 tons of stone yielded 44 oz. From the Magenta Reef 63 tons of stone yielded nearly 39 oz. of gold. Middle Creek Reef, 120 tons of quartz raised yielded 159 oz. of gold. At Hawkins' Hill, Hill End, rich stone was found in Suttor's and in Vere's claims.

In the Mudgee district, at Yahoo, on the west bank of the Macquarie River, a deposit of cement has been found under the basalt in the hills; the depth of wash is from 2 to 10 feet, and so far as tested is gold-bearing. A plant has been erected but operations had not commenced. At Peak Hill (Dubbo division), an important discovery of auriferous country was made from which, as far as could be ascertained, about 912 oz. of gold had been obtained to the end of the year, but none of the lodes had been worked. The Centenary Co., Tomingley, raised 533 tons stone, which yielded 237 oz. of gold, and Crowhurst and party raised 264 tons, which yielded 158 oz. of gold. At Myall 630 tons of stone yielded 710 oz. of gold. A shaft has been sunk in the Guntawang Paddock, near Gulgong, but could not bottom on account of the quantity of water, but fine gold was obtained through a bore put down to test the depth of the wash. Pumping machinery is now being erected.

In the Lachlan District several rushes took place during the year in the Parkes and Forbes division. One at Alick's Flat is likely to give employment to a number of miners, for some years. During the year a considerable quantity of gold was obtained. On the North Hill, Forbes, a reef 4 feet wide, said to contain very rich stone, was found on private property. The Pinnacle Reef has been proved to vary from 2 feet to 14 feet in width, and has averaged  $\frac{1}{2}$  oz. per ton.

The Bald Hill Co. washed 2,000 loads of dirt for a yield of 650 oz. of gold. On the Victoria Lead the Phoenix Co. recently found a rich run of gold, some of the nuggets weighing over 5 oz. The Britannia Co. crushed 248 tons of stone for 330 oz. of gold. A new vein, 6 inches to 2 feet wide, recently discovered, shows coarse gold. At Parkes, reefs which have been abandoned for years, are being taken up again, and satisfactory returns are being obtained from a number of claims. 134 tons from the Kohinoor Mine yielded 264 oz. of gold. 65 tons of stone from the Possum Gully Reef yielded 110 oz. of gold. A reef has been discovered at the head of the Welcome Lead, from which good prospects have been obtained. About 1 mile east of Alicktown a reef has been opened, showing stone similar to the Peak. The yield of gold in the Parkes division was 3,230 oz. from alluvial, and 5,016 oz. from quartz. From the Blue Jacket Reef (Canowindra) 125 tons of stone gave over 2 oz. of gold per ton. Yield for the year, 2,139 oz. Small parcels of quartz from Sandy Flat, aggregating 457 tons, gave 195 oz. of gold, and 112 tons of quartz from Lawson's Reef (Grenfell) gave  $\frac{1}{2}$  oz. per ton. At Delaney's Dyke (Molong) 1,727 tons of stone raised gave 978 oz. 11 dwt. of gold. At Muttama the Excelsior Co. obtained 128 oz. of gold from 154 tons of stone. At Coala the Mount Morgan Co. obtained 75 oz. from 179 tons of stone. At Eurongilly Holland & Co. and Lynch & Co. obtained 105 oz. of gold from 47 tons of stone. At Wantivol Hawthorne and Party crushed 99 tons of stone for 35 oz. At Temora, about 5,600 loads of wash yielded about 690 oz. of gold. At Barmedman 845 $\frac{1}{2}$  tons of stone crushed yielded nearly 450 oz. of gold. At Young the New Burrangong Co. obtained 2,019 oz. of gold. At Wombat Messrs. Barnes have taken £700 of gold from private land.

In the Cobar District, in the Chesney Cobar Mine, the lode varies from 4 to 25 feet wide without walls. 2,436 tons of quartz raised and crushed yielded 796 oz. 12 dwt. The vein in the Mount Billagoe Mine, at a depth of 202 feet, is 10 inches wide, from which 10 tons of stone has been raised. 4 $\frac{1}{2}$  tons crushed gave 20 oz. 8 dwt. 9 gr. of gold and 278 oz. 15 dwt. 11 gr. of silver. For want of proper appliances to extract the gold and silver, the ore has to be sent to Sydney, Melbourne, or South Australia. In the Occidental Mine the lode, at a depth of 100 feet, is 13 feet wide. 690 tons of stone crushed gave 718 oz. 3 dwt. 18 gr. of gold.

In the Albert District mining has been retarded by want of water. At Stringer's Hill, Kilgower and party obtained 208 oz. from 109 loads of wash; Crammond and party, 36 oz. from 60 loads; Swain and Conway, 14 $\frac{1}{2}$  oz. from 22 loads of wash. During the latter part of the year the miners had recourse to dry-blowing in order to obtain a livelihood. The Mount Browne Prospecting Co. had to suspend work to procure more powerful machinery to cope with the water. This machinery was nearly completed at the end of the year. Payable wash of limited extent was found at Mount Poole. The want of water has been specially felt at Tibooburra, but one man obtained more than 8 oz. in one week by dry blowing. When water is available a fossiker with a tin dish can make from £2 to £5 per week. The Gladstone Reef, 3 to 4 feet wide, is the only quartz reef at work in the Tibooburra division. Assays give good results, but there is no plant for treating the stone in bulk. At Nuggetty there is a very large quantity of cement, which yields from 3 to 15 dwt. to the load. The gold-saving appliances at Wanatta having proved wholly inadequate even in regard to free gold, nearly all work on the reefs has ceased, pending the erection of improved machinery. The Koorningberry Reefs were discovered during the year. A township has been laid out, and there are about 40 miners located there. 30 cwt. of the stone has been sent away for treatment. In the Wilcannia division a good deal of prospecting was carried on. At Cawker's Well, 37 miles from Wilcannia and about 12 from the River Darling, on the Wienterriga Run, several gold-bearing reefs have been found, 5 tons from which, crushed in Melbourne, yielded 1 oz. 2 dwt. of gold per ton. Assays have given as high as 19 oz. per ton from picked stone. At Kandie Peak, about 80 miles from Wilcannia, on the Mount Browne Road, some alluvial gold and also fairly good reefs were found.

In the Tumut and Adelong District :—At Hawksview (Albury), 35 tons of stone yielded 42 oz. of gold, and 44 tons gave 53 oz. On the Nine-mile Reserve, 2 tons gave 3 oz., 10 tons gave 29 oz., and 8 tons gave 31 oz. of gold. At Tumberumba, the most important event of the year was the opening of the deep lead under the basalt by the prospectors. If this lead prove payable a very large field will be opened up. From Adelong, 2,895 oz. of gold was sent by escort. Of this, 1,771 oz. was from alluvium, and 644 oz. from 812 tons of quartz; the bulk of the alluvial gold came from Mr. A. D. Shepard's mine. The Lady Mary Co., Gap Reef (aided from the Prospecting Vote), crushed 155 tons of stone for 124 oz. 4 dwt. 2 gr. The Great Victoria Co. crushed 199 tons for 238 oz. 8½ dwt. Good stone was met with in the Perseverance Co.'s mine, but the vein is thin. The Proprietary and Currajong Co. crushed 101 tons for 195 oz. 3 dwt.; the last parcel treated yielded 3 oz. 5 dwt. per ton. At Kiandra, the gold won did not exceed 400 oz. At Colinton, the stone crushed has yielded from ½ oz. to 5 oz. per ton. At Fiery Creek, the yield from quartz crushed has varied from 18 dwt. to 1½ oz. per ton. At Goodradigbee (Queanbeyan), 50,000 cubic yards of earth sluiced gave 64 oz. of gold. At Mac's Reef, a reef, called New Mac's Reef, 12 feet wide, and carrying gold, has been cut.

In the Southern District :—Some alluvial leads on private land at Jembaicumbene have been worked with satisfactory results. Arrangements are being made to work the Horseshoe Bend, Shoalhaven River, upon an extensive scale. Improved machinery has been erected by the Major's Creek Proprietary Co., and they have nearly completed their chlorination works. They have concentrates from 4,121 tons of stone, stacked ready for the new plant. The Day Dawn Co., Little River, raised and crushed 1,820 tons of stone for 910 oz. of free gold and 45 tons pyrites, which assay 6 oz. per ton. The reef is 3 feet wide. The Nerriga Freehold Co. have proved an alluvial lead under basalt at a depth of 130 feet; for a distance of 250 feet the wash varies in thickness from 5 to 7 feet, and yields 3 dwt. per load. At Araluen only a few of the claims were at work, and only during part of the year, but they raised 2,860 oz. 15 dwt. of gold. Stone pipes have been laid for draining a large area which is about to be worked, and which if payable will give employment to a large number of men. At Bell's Creek 205½ tons of quartz crushed gave 15½ dwt. per ton. At Yalwal the Homeward-bound Co. are erecting improved machinery, capable of treating 350 tons of stone per week. This mine has been worked as a quarry, and is said to have yielded £30,000 worth of gold. The Caledonian mine contains veins and reefs which aggregate 7 feet in width, the first 10 tons from which gave 2 oz. per ton; a further parcel of 77 tons gave 17 dwt. per ton, but another parcel of 50 tons treated at the Homeward-bound mine gave 150 oz. A ton of average stone sent to the Mint is said to have yielded 9 oz. 17½ dwt. and 2 oz. of silver. The Little Gem Co. raised about 800 tons of quartz, from which 600 oz. of gold was won. The Caledonian mine crushed 30 tons of quartz for 68 oz. of gold. The Crown Co. crushed 15 tons for 18½ oz. On North's Creek, Nerrigundah, several parties are getting payable alluvial gold. The Bodalla Co., Wagonga North Heads, crushed 210 tons for 95 oz. A small rush took place during the year to a gully on the east bank of the Wagonga River. From 25 to 30 men were employed to the end of the year. A deposit of auriferous quartz has been discovered at Yowaka, near Pambula, and a parcel of the stone has been sent to the Sydney Mint for treatment.

In the Hunter and Macleay District :—At Stewart's Brook the Ethel May Co. had a trial crushing of 100 tons of stone, which gave nearly 1 oz. of gold per ton. At Denison 211 tons of stone crushed gave 270 oz. of gold. At the Royal Standard mine £7,700 worth of gold was obtained from 1,309 tons of stone. In the Scone division about 3,500 tons of stone was raised, from which about 2,500 tons was crushed, giving gold to the value of £11,200. At the Wonga claim (Lower Wangat) 172 tons gave 130 oz.; width of vein, 12 inches. Good prospects have recently been obtained at Cherry-tree Creek, 6 miles from Dungog, on church and school land. At the Lady Belmore Mine (Copeland) a reef has been cut 8 to 14 inches wide showing gold.

In the Peel and Uralla district gold was discovered in an ironstone lode, from 1 to 3 feet wide, about 4½ miles from Tamworth. From Thompson's Reef (Nundle) 12 tons crushed gave 7 oz. per ton. The output of gold in the Armidale division is set down at 30,550 oz. During the year gold was discovered at Postman's Creek (now Melrose). The Enmore Consolidated Co. are erecting an extensive crushing plant. A trial crushing of 5 tons is said to have yielded 11 oz. 4 dwt. per ton. A trial crushing of 5 tons from Houghton's claim averaged 2 oz. 5 dwt. Stone from several other claims are said to average from 1 to 10 oz. per ton. At Hillgrove the Baker's Creek Co. are working two reefs, one about 1 foot and the other 2 feet. During the year 3,137 tons crushed gave 24,825 oz. of gold. The Eleanora Co. have a lode 8 feet wide, composed of quartz and antimony; the quartz averages 8 dwt. per ton. The ore is put through a furnace which extracts the antimony about 63 per cent. of pure metal, the remainder is then crushed for gold. The Sunlight Co. has a lode 6 feet wide, which gives an average of 2 oz. per ton. There are five other lodes in the mine which have been proved to contain gold. On the adjoining block is a reef about 2 feet wide, assays from which give 11 oz. 8 dwt. per ton. The Baker's Creek North Co.

have

have three reefs, one 1 foot wide, one 2 feet wide, and one 2½ feet wide; average yield from the last two reefs, 1 oz. 15 dwt. per ton. The Primrose Co. have a reef 1 foot wide, from which a trial crushing of 15 tons gave 6 oz. per ton; a second crushing of 15 tons gave 7 oz. per ton. The Enterprise Co. has a reef 1 foot wide from which a trial crushing gave 2 oz. per ton. The Cosmopolitan Co. has a lode from 2 to 6 feet wide, consisting of antimony and quartz. The quartz shows a little gold, and the antimony averages about 50 per cent. The Lady Carrington Co. have a lode about 2 feet wide, which gives about 1½ oz. of gold per ton, and three other reefs in which traces of gold have been found; 16 tons of quartz crushed in Sydney gave nearly 2 oz. per ton. The Mount Carrington Co. have small gold-bearing leaders and a lode 3 feet wide, showing 1 foot of solid quartz, which, tested by dolly, gives a return of 1 oz. of gold per ton. The Eleanor North Co. have three reefs showing gold, one 2 feet wide, one 1 foot wide, and one 1½ feet wide, besides three others not yet opened. The Garibaldi Co. has a lode 3 feet wide of quartz and a little antimony, averaging 1 oz. per ton; and another reef, from which a trial crushing of 6 tons gave 5½ oz. and 10 per cent. concentrates, half a ton of which, treated in Sydney, gave 14 oz. of gold. The Lord Hopetoun Co. have a reef which varies from 10 to 24 inches wide, from which a trial of 3 tons gave 5 oz. per ton. The Centennial Co. have a reef 2 feet wide, and one from 15 to 24 inches wide; 3 tons of stone crushed yielded 7 oz. of gold. The Princess Midas Co. have an antimony lode 6 to 8 feet wide, and a quartz reef 18 inches wide, containing a trace of gold. The Golden Gate Co. have two reefs, one 1 foot wide, a trial crushing from which gave 13 dwt. per ton, and one from 2 to 3 feet wide, showing gold. 8,300 tons of stone at Hillgrove yielded 29,300 oz. of gold. In addition to the above there are several mines in which occur quartz veins showing gold and lodes containing antimony. At Uralla Rice and party on payable alluvium, 6 feet of wash averaging 15 dwt. per ton. At Glen Morrison the Temperance Co. reef varies from 20 inches to 2 feet wide; 279 tons stone crushed gave 131 oz. 2 dwt. of gold. Homeward-bound Co. crushed 82 tons for 122 oz. of gold. At Bingera the Adelaide Co. have sunk a shaft 130 feet, striking wash under the basalt, the result was considered satisfactory, and are sinking and timbering a permanent shaft. The Bingera Co. have 60 or 70 tons of stone, showing very fair gold. An alluvial deposit has been found about 5 miles from Bingera, which has given employment to some 100 men, who obtained 1,000 oz. of gold. At Upper Bingera a reef in limestone formation has been opened, several tons of stone sent to Brisbane and Sydney yielding an average of 4 oz. per ton. At Barraba several reefs have been opened, in some cases yielding 3 oz. per ton. One parcel of 22 tons yielded 30 oz. of gold. In the Glen Innes division important discoveries of gold-bearing reefs were made at Kookabookra, Bear Hill, and it is reported that valuable reefs have been discovered at Glen Elgin. The quantity of gold won in the division was 556 oz.

In the New England district, the Great Northern Company are erecting reduction works. The ore is low grade, yielding probably not more than 4 or 5 dwt. of gold per ton. 1,500 tons, put through an old battery, which did not work satisfactorily, gave 270 oz. of gold. An improved method of amalgamation will be adopted by which it is expected nearly all the fine gold will be saved. The plant is expected to treat 360 tons of ore per week. A large amount of work has been done opening up the Mascotte Mine, but no machinery has yet been erected, but the following parcels of ore have been sent away for treatment:—20 tons, yield, 57 oz. silver and 1 oz. 6 dwt. of gold per ton; 4 tons yield 125 oz. silver and 1 oz. 2 dwt. of gold per ton; and 6 tons yield 37 oz. silver and 1 oz. 2 dwt. gold per ton. The Adeline Company is still working a well-defined reef, 5 feet wide. The ore is of a refractory character, containing a considerable percentage of copper. The assay value of the ore is about £3 per ton. Wann's Mine, Saw-pit Gully, contains a lode or dyke about 25 feet wide. The ore to a depth of 15 feet yielded per ton, bullion valued at £2. Below that depth sulphides are met with, but though the ore still shows good assays it cannot be treated by the appliances on the mine. 300 tons of ore from this mine treated at the Adeline Battery gave 325 oz. of free gold and 26 tons of concentrates, valued at £17 per ton. A rich find of gold occurred in River's lease, 7 miles from Fairfield. The first reef discovered was very narrow, and soon ran out. 353 oz. of gold was obtained from it. With aid from the Prospecting Vote the search was prosecuted, and a larger and promising reef was discovered. It is 8 inches wide, containing zinc blend, copper, and free gold is visible in it. 56 tons crushed gave 278 oz. of gold. The reef still looks well, but is situated in an almost inaccessible gully, from which the stone is removed with great difficulty. Prospecting for alluvial leads in the basalt ranges near Tooloom is being carried on. In the Dalmorton division, 150 tons, crushed at the Mann River, gave 62½ oz. of gold; about 100 tons, crushed at Dalmorton, gave 79½ oz. of gold. A trial sample of 8 tons of stone from the Sir Walter Scott Mine at Cangi, treated in Sydney, gave 3 oz. per ton. The discovery of payable alluvial gold at Marengo was reported during the year. Several new reefs were also reported. The Magpie Reef is only 2 or 3 inches wide, but it appears to be payable. 4 tons yielded about 45 oz. of gold. The Isabella Reef, 16 inches wide, in which a little gold can be seen. Other reefs have been opened, but no definite result yet obtained. From the Mountain Maid Prospecting Claim reef, from 2 to 5 feet wide, 64 tons crushed

crushed gave 1 oz. per ton. At Nana Creek the Jubilee Reef, 2 feet 6 inches wide, averaged 1 oz. 2 dwt. per ton. The Lady Bella Mine has two reefs, 15 inches and 2½ feet wide respectively. 83 tons of stone crushed gave over 128 oz. of gold, and 58 tons gave 96½ oz. The reef in the Nana's Daughter Mine is from 3 to 4 feet wide, 21 tons from which averaged 1 oz. 3 dwt. The parcels of stone crushed at the local batteries aggregate 266½ tons for nearly 306 oz. of gold.

The following information has been kindly furnished by R. Hunt, Esq., C.M.G., F.G.S., the Deputy-Master of the Royal Mint.

QUANTITIES of Gold, the produce of New South Wales, received into the Royal Mint, Sydney, during 1888 and 1889 compared.

	82,891·29	114,486·29

From the above statement it will be seen that the quantity of gold sent to the Mint in 1889, exceeds the quantity sent there in 1888 by 31,595 oz. The principal increases appear to be from the Tambaroora and Turon, the Lachlan, and the Peel and Uralla Districts.

The

The following table is compiled from information kindly furnished by the Collector of Customs.

EXPORT of Gold, 1889

Gold		Quartz Tailings and Pyrites		Total	
Quantity	Value	Quantity	Value	Quantity	Value
oz 10,966	£ 44,649	{ Quartz, 2,163 packages Pyrites, 8 tons 11 cwt. }	£ 3,074	oz. 11,785	£ 47,723

The quantity of gold sent to the Royal Mint added to the quantity exported equal 126,261·29 oz, but it appears that of the 11,785 oz. exported, 6,512 oz had passed through the Mint and is included in the Mint Return, therefore the total yield of gold for 1889 may be set down at 119,759·29 oz, which, compared with the yield for 1888, shows an increase in quantity of 31,595 oz., and in value of £116,970 16s. 4d.

The output of gold according to the returns furnished by the Mining Registrars' is less than the quantity sent to the Mint by 1,537 oz. This is due to the fact that, as usual, the efforts of the Mining Registrars to obtain complete returns have not been successful.

RETURN of Gold for 1889 from Mint and Mining Registrars compared.

District	Mint	Mining Registrars	Excess	Deficiency
Bathurst	7,781	16,449		8,668
Tambaroora and Turon	5,617	10,414		4,797
Mudgee	4,733	4,275	458

The following table shows the results obtained from the treatment in 1889 of certain parcels of alluvium compared with the results obtained in 1888. The return for 1889 is so meagre as to be utterly valueless. It is much to be regretted that the mine owners cannot be induced to furnish complete returns, as they would be most valuable for statistical purposes and could not possibly injure the owners' mines, while they might materially help forward the mining industry

COMPARATIVE Statement of Average Yields from Alluvial Mines for 1888-9.

1888				1889					
District	Quantity	Average per ton		Yield of Gold	District	Quantity	Average per ton		Yield of Gold
	Tons	oz	dwt	gr		Tons	oz	dwt	gr
Bathurst	70	0	6	6 85	Bathurst	200	0	7	0
Lachlan	10,439	0	3	5 63	Lachlan	4,454	0	14	12
Southern	200	0	15	21 60	Southern	1,110	0	11	4
Peel and Uralla	40	0	1	0 00					
	22,574	0	3	11 31		5,764	0	13	14
				1,865 12 1					3,920 0 0

The following table shows the yields obtained from certain parcels of quartz crushed. This is somewhat less meagre than the return of alluvium, but of course it is, as a rule, easier to keep account of the quantity of quartz crushed than of the quantity of alluvium washed, but none of these returns are as complete as they ought to be.

COMPARATIVE Statement of Average Yields from Quartz-mines for 1888-9.

	26,789 19 2 16	1 0 8-32	27,286 18 7		39,605 0 0	1 0 2	39,743 0 0

The number of miners engaged in gold mining during 1889 was, according to the returns furnished, 10,192, being 1,732 more than in 1888. Of these 9,632 were Europeans, and 560 were Chinese. 4,569 were engaged in alluvial mining, and 5,063 in quartz mining.

Dividing the quantity of gold won by the number of miners the result obtained is that the average earnings of each miner appears to be 11oz. 15dwt. of gold, equal to £42 11s. 9½d. This is an improvement upon the average earnings of 1888. But when the fact that a considerable portion of our gold-miners follow other pursuits during a part of the year is taken into account, it will be seen that this method of arriving at the earnings of the class is only a rough approximation. Moreover it makes no allowance for the expenses incidental to mining.

During the year 3,007 samples were assayed for gold, by direction of this Department.

1,763 yielded nil.

909 yielded under 10 dwt. per ton.

335 yielded as follows:—

COAL.

The output of Coal for 1889 shows as compared with that of 1888 an increase of 452,188 tons, while the increase in 1888 over that of 1887 was only 280,947. The value of the coal raised in 1889 as compared with that of 1888, shows an increase of £177,650, against an increase in 1888 over 1887 of £108,758. The total export of coal in 1889 shows an increase in quantity of 463,830 tons, and in value of £214,799, as compared with 1888. The export of coal to Colonial ports shows an increase in quantity of 270,464 tons, and in value of £113,907, as compared with 1888. The export of coal to Foreign ports shows an increase in quantity of 193,366 tons, and in value of £100,892 upon that of 1888 which was then the largest quantity ever sent in one year to Foreign ports. The average price of coal on the whole output was Ss. 11.20d. per ton; the average price of that sent to Colonial ports was 10s. 4.24d. per ton; the average price of that sent to Foreign ports was 11s. 1.88d. per ton being a decrease on the whole output equal to 1.82d. per ton on that sent to Colonial ports equal to 6.01d. per ton on that sent to Foreign ports, equal to 1.89d. per ton. Notwithstanding the decrease in price the improvement in our Coal trade may I think be regarded as eminently satisfactory.

QUANTITY and Value of Coal raised from the opening of the Coal-seams to 1837, inclusive :—

## Coke manufactured in New South Wales during the year 1889:—

	Tons.	Value
Northern District.....	16,626	£26,601 12s.
Southern „ .....	5,945	6,131 0s.
	22,571	£32,732 12s.

The aggregate thickness of coal-seams pierced in 1889 by the Government Diamond Drills, was 172 ft. 4 in., namely:—At Joadja, 1 ft. 6 in.; Lochend, 8 ft. 3 in.; Buttai, 24 ft. 5 $\frac{3}{4}$  in.; Woodford, 13 ft. 11 in.; Fassifern, 22 ft. 2 $\frac{3}{4}$  in.; Kahibah, 34 ft. 10 $\frac{1}{4}$  in.; Joadja Creek, 23 ft. 6 $\frac{1}{2}$  in.; Fassifern, 12 ft. 1 $\frac{3}{4}$  in.; Ash Island, 8 ft.  $\frac{1}{2}$  in.; Ravensworth, 23 ft. 4 in. In addition to the above 167 ft. 9 in. of coal and bands, and dirty coal was bored through.

The number of Collieries under inspection in 1889 was 67 coal and 1 shale mines in the northern district; 16 coal and 2 shale mines in the Western district, and 16 coal and 1 shale mines in the Southern district—Total 103, as compared with 91 in 1888.

The number of mines under inspection during the year was 104, and the number opened out, or in course of opening during the year was 16, and 8 were abandoned as compared with 30 opening out, and 1 abandoned in 1888.

There has during the year been a good deal of prospecting for deposits of coal and shale.

The following comparative statement shows an increase in the output of the Northern Collieries during 1889 as compared with 1888 of 557,305 tons, value £239,202. Whereas the output of the Western and Southern Collieries show a decrease as compared with that of 1888. The former to the extent of 9,881 tons in quantity, and £13,677 in value, and the latter to the extent of 95,234 tons in quantity, and £47,874 in value. The large decrease in value in the Western and Southern districts is accounted for by the reduced price of coal from those districts.

The number of accidents during the year was 41 fatal, and 57 non-fatal.

The geological survey of the Northern Coal-field is being proceeded with, and important results therefrom are anticipated. Already valuable seams of coal have been proved by boring in places indicated by Mr. Geological Surveyor David, and the Greta coal measures have been traced from Matland to Port Stephens, and thence to the coast.

The prospecting operations made during the year to prove the nature of the extension of the Homeville seams of coal in the Greta series, near West Matland, which was first traced out by Mr. David, have revealed valuable seams. At the East Greta Company's property, 2 miles south from Homeville, the upper seam of coal has been proved to be 31 feet thick, with only two bands, and 50 feet below this is the lower seam, about 12 feet thick, with three small bands. At the Heddon Greta Company's land (north end of Garven's 640 acres), 3½ miles south of Homeville, the shaft has penetrated to the floor of the seam, showing it to be 32 feet 6 inches thick, with a few bands, the central portion of the seam containing the remarkable thickness of 17 feet 11 inches of clean coal of excellent quality.

Near the south end of this property, Mr. David measured in the upper seam about 6 feet of coal (the full thickness not yet having been proved), and 60 feet below it, the lower seam, 22 feet 5 inches thick, with only two bands.

Under the sand flats between Stockton and Raymond Terrace, a Melbourne company has proved, at a depth of 327 feet, a seam of coal said to be 6 feet 8 inches thick.

Coal from the seams newly opened at Curlewis, near Gunnedah, is now being supplied for use on the Great Northern Railway line.

Near Coaldale, in the Grafton District, Messrs See and others have opened a seam of coal said to be about 5 feet thick. An analysis of the coal shows it to be of excellent quality for gas and steam purposes. It is believed by the Geological Surveyor-in-charge that payable seams of coal pass under the city of Grafton at a workable depth. A geological examination of the Clarence District has been authorized by the Minister for Mines.

Mr. Wilkinson is also about to make a survey of the coal formations in the Ulladulla, Jervis Bay, and Shoalhaven districts.

Coal has been found between the Kowmung and Boyd Rivers (Oberon Division); the proposed railway from Blacktown to Blayney, *via* Burragorang, will pass right through this formation.

It is reported that a seam of carboniferous shale has been found some 4 miles from Waratta, between Milparinka and Tibooburra.

From the coal-mines at Gunnedah 3,891 tons of coal were raised during the year.

Arrangements are being made for commencing operations at Coaldale near Grafton.

During

During the year the following analyses of coal were made in this Department —

Locality.	Hydroscopic Moisture	Volatile Hydrocarbons	Fixed Carbon	Ash	Sulphur	Coke	Specific Gravity	Remarks
Ash Island (Rathluba Seam)	0 91	30 07	52 33	16 69	0 682	60 02	1 410	Coke, well swollen, fairly bright, hard Ash, light grey, flocculent

## SHALE.

The output of boghead mineral or petroleum oil cannel-coal, commonly called shale, in 1889, being the product of four mines, was larger by 5,692 tons than that of 1888, but there is a decrease in the price. Indeed, the average price has not been so low since 1883, but the average has been reduced by the low price, about 16s. per ton, which the shale from the South Greta Colliery realized.

The following table shows the quantity and value of Kerosene Shale produced during the years 1865 to 1889:—

Year.	Quantity.	Average price per ton.	Total value.	Year.	Quantity.	Average price per ton.	Total value.
	Tons.	£ s. d.	£ s. d.		Tons.	£ s. d.	£ s. d.

Efforts are being made to open up deposits of shale at Capertee. Shale has been found between the Kowmung and Boyd rivers.

*Petroleum Oil, Cannel Coal, or Kerosene Shale.*

## SILVER.

In the Tuena division, the Cordillera and Peelwood have not been working regularly, consequently the return of silver is not so large as in 1888. The Mount Costigan mine has started again, and is running most successfully. At Wiseman's Creek Baker and party have been raising some silver ore, and are satisfied with their prospects. It is thought a rich silver lode will be found in this locality. Silver has been found at Mount Werong. If the proposed light line of railway from Piper's Flat Station to Sunny Corner were constructed, it is thought that the cost of coal and coke would be so much reduced, that the low-grade ore at the latter place would pay to work. Great improvements have been made during the year in the Sunny Corner mine and works. 204 men have been employed, and silver, gold, and copper to the value of £48,638 won during the year. During the year the Silver King mine has employed 150 men, and has raised and smelted 11,099 tons of ore, producing 1,018 tons of matte valued at £43,247, and lead to the value of £172. The Nevada mine has been started again under the name of the "Phoenix," but has not yet commenced smelting. In the Orange division 370 men are employed on the silver mines, the quantity of silver produced was 99,512 oz. of silver, and 267 tons of ore valued at £20,316.

In the Albert district.—A large extent of very rich ore was found in block 11 of the Proprietary Company's mine at Broken Hill. The quantity of ore raised at the Proprietary Company's mine during the year was 161,500 tons of ore, of which 145,041 tons smelted gave 6,236,006 oz. silver, and 25,170 tons of lead. This mine now employs 2,140 men, and has paid in dividends £1,160,000, and in bonuses £576,000. Several of the mines discovered large quantities of payable ore during the year. The concentrating plant at the Pinnacles has been working very successfully, reducing about 500 tons of ore per week. The Corona blocks, which have been abandoned for some time, are again attracting attention. The exports from the district include 42,253 tons 5 cwt. 2 qrs. 20 lb. of silver ore valued at £291,534, and 31,544 tons 4 cwt. 2 qrs. 18 lb. of argentiferous lead valued at £1,433,679.

At Queanbeyan the Commodore Company have proved a lode showing 13 ft. in width of decomposed ore, which can be easily mined, and furnaces will be erected shortly. The Vanderbilt Company raised 6,704 tons of ore, and smelted 4,704 tons of ore for 62,452 oz. of silver, 740 oz. of gold, 162 tons 9 cwt. lead. The Kohinoor Company raised 4,932 tons of ore, 4,732 tons smelted gave 54,511 oz. silver, 70 tons copper, 660 oz. gold, and 215 tons 3 cwt. of lead.

The Moruya Silver Mining Company have been exporting their ore for treatment. They have 300 tons at grass.

At the Walla Walla silver mine Burrowa, a galena lode 7 to 8 feet wide has been sunk through. Another shaft has been sunk in a lode consisting of carbonate of lead and galena, assays from which give from 30 to 325 oz. of silver, and as high as 78 per cent. of lead.

At Hillgrove there is a large lode 300 feet wide of felspathic rock formation, with ferruginous quartz veins containing silver and a little gold. Assays give from 15 oz. to 7,400 oz. of silver per ton, and from walls of lode 15 dwts. to 7 oz. of silver, and 3 to 17½ dwts. of gold per ton.

A silver lode has been discovered near Elsmore (Inverell), said to be 42 feet wide. Samples of the ore have been sent for assay, but the result is not yet known. In the Glen Innes division, 625 tons of ore yielded 43,750 oz. silver. Other parcels of poorer ore have been raised. The lodes opened at Castle Rag give evidence of permanence and richness. The Castle Rag Proprietary Company have erected extensive plant, and have raised some 4,000 tons of ore, and have sent away 200 tons for treatment. The Castle King Company raised 250 tons of ore. The other companies are engaged in opening up their mines, procuring plant, &c. At Pye's Creek a fair amount of ore has been raised. The New England Company at Nine-mile has done a large amount of work. Assays of ore from this mine have given as high as 700 oz. silver and 60 per cent. of bismuth per ton. Extensive plant has been erected at the White Rock mine (Drake). The mine still looks well, showing numerous seams of rich galena and pyrites. About 25,000 tons is now ready for treatment. The reduction plant will put through about 1,500 tons per week. For the present the ore will be concentrated, bagged, and sent away for treatment. A cut has been put into the face of the hill a distance of 60 feet, exposing numerous veins of very rich ore. Rich and extensive lodes have been discovered during the year at Rivertree (New England). At the Wongabah mine a 30 ton water-jacket furnace is now in operation. The ore consists of gossan, carbonate of lead, and galena. Ironstone and lime are found in the neighbourhood. Several parcels of ore sent away for treatment gave the following results:—3 tons yield 182 oz. silver per ton; 1 ton yield 39 oz. silver; 3 tons 16 cwt. yield 80 oz. silver per ton; 1 ton 2 cwt. yield 146 oz. silver per ton. The lodes are large and well defined.

The following table shows a very satisfactory increase for the year in the output from our silver mines, but the quantity of ore sent away for treatment shows that at many of our mines the means of treating the ore raised are not yet available, and we have much yet to learn before we shall be able to reap the full benefits of the valuable field for the employment of labour and capital presented by our argentiferous deposits

QUANTITY and Value of Silver and Silver and Lead Ore exported

Note —In the Annual Report for 1888, 11,739 tons 7 cwt of silver ore valued at £164,620 was omitted from the table

During the year 3,009 assays for silver were made in this Department, 1,481 samples yielded nil, 1,378 samples yielded under 20 oz per ton, and 150 samples yielded as follows —

Locality	Description of Mineral	Per ton		Per cent metallic lead

One other sample was assayed, yielding nil.

TIN.

## TIN.

From the following table it will be seen that, notwithstanding the satisfactory price of tin, the output for 1889 shows a further decline. The highest point, as regards the value of our output, was reached in 1882, the eleventh year from the opening of our tin deposits; but the largest output for any one year was in 1883. Since then it has declined, until the output for 1889 was little more than half that of 1883, while the value of the output for 1889 was less than half the value of the output for 1882. I attribute this decline to two causes, namely, the exhaustion of the shallow alluvial deposits on the older fields, and the inability or disinclination to develop either the deeper deposits or the lodes. There are new fields, containing shallow deposits, in the Lachlan and in the Southern Districts; but for some reason they have up to the present been merely tested.

TABLE showing the quantity and value of Tin exported from, and the product of, the Colony of New South Wales, since the opening of the Tin-fields in 1872.

Year.	Ingots.			Ore.			Total.

Some 9 tons of tin ore was sent away from Broken Hill.

Butler's Tin-mine, at Jingellic, has been worked during the year, and a small quantity of stream tin has been raised.

A rich find of stream tin has been made on the Tantowanglo Mountain (Bombala).

At Watson's Creek (Bendemeer), 26 tons of tin ore was raised during the year.

In the Inverell Division:—Improved appliances are being brought to bear upon the tin lodes, and it is anticipated that they will prove a permanent source of profitable industry. The Union Co. raised from their mine at Elsmore nearly 114 tons, value £5,928; from their Tingha mine, 102 tons, value £5,304. The Malacca Co. raised nearly 7 tons, value £351; Mr. Litchfield, 700 tons, value £36,400; Mr. Hill, 430 tons, value £22,360.

The quantity of ore raised in the Glen Innes Division was 142½ tons, value £7,137; and at Emmaville, 1,553 tons, value £77,650.

At Nine-mile, towards the end of the year, several shafts have bottomed on first-rate stream tin, and in one mine a really good reef has been struck. In the New England district a few new finds at Wylie Creek have been reported. During the year 254 tons of ore, value £13,716, was raised in the Wilson's Downfall division. Some prospecting was done at Brassington Creek, about 12 miles south of Tenterfield, with every prospect of success.

## ERRATUM.

" (8½ miles north) ..	Oxide of tin, with magnetic iron and a little carbonate of bismuth ..	19.24
The Nine-mile, New England	Chlorite rock, with oxide of tin ..	18.6

#### COPPER.

IN consequence of the low price of copper this branch of our mining industry has been carried on under serious difficulties, and it is matter for congratulation that in spite of such difficulties our output for 1889 was larger than that of 1888 as regards quantity, though, of course, for the reason above stated, the value of the output was considerably less. Our copper output reached the highest point, both as regards quantity and value in 1883; since then the fall in price has seriously affected the production, but it is to be hoped that the exercise of greater economy in raising and treatment, and greater facilities of transit may enable our mine owners to compete with other countries successfully in the production of this metal. Although the reduced price of copper does not encourage the opening up of our cupriferous deposits, some new lodes have been discovered during the year, and there can be no doubt that under favourable circumstances our copper mines would afford employment for a large number of men.

TABLE showing the quantity and value of Copper, the produce of the Colony, exported from the Colony of New South Wales, from 1858 to 1889.

The Burruga Copper-mine was idle for 6 or 7 months, but work has been resumed, and is employing 300 men.

In the Ironbarks division (Mudgee district) 6 tons of copper was raised. The Belara Copper-mine put out 300 tons of ore, which yielded 16 tons of copper; the furnaces were working only 3 months.

In the Cobar district the Great Cobar Co. stopped work in August last, owing to the low price of copper and the cost of transit. When the railway is extended to Cobar, it is thought the mine will resume work. From the Nymagee Mine, 8,755 tons of ore raised was smelted, and gave 843 tons of copper. At Yallock, 55 miles from Ivanhoe, 8 men are prospecting. From a depth of 14 to 65 ft. some of

of the ore sent to Melbourne was found to contain 4 oz. of gold and 57 oz. of silver per ton. The New Mount Hope Co. raised 1,870 tons of ore, which produced 260 tons of copper. The Great Central Co. raised 2,000 tons of ore, which produced 394 tons of copper.

About 106½ tons of copper ore, valued at £1,081, was sent away from Broken Hill.

The Frogmore Copper Mine (Burrowa) has been reopened.

During the year 54 samples of copper ore were assayed by this Department, 1 yielding a trace, 53 yielding as follows:—

Locality.	Description of Mineral.	Metallic Copper per cent.	Gold per ton.		Silver per ton.	
			oz.	dwt. gr.	oz.	dwt. gr.

IRON.

An attempt has been made by Mr. Brazenall, to make gas pipes, &c., from iron smelted from the ore, and taken direct to the mould from the furnace (cupola) without first making it into pig-iron, and hopes are entertained that he will succeed.

Twenty-four assays and analyses of Iron ore were made during the year by this department:—

Locality.	Description of mineral.	Metallic iron, per cent.

## ANTIMONY.

The output of antimony during the past year shows a slight increase upon that of the previous year, and with a better knowledge of the proper treatment of the ores our output may be expected to increase considerably.

DURING the year twenty assays were made for antimony, with the following results:—

		Metallic Antimony.	Gold.
Bowra (near)—	Stibnite with quartz .....	52·81 per cent.	nil.
Goolongolook—	” ” .....	41·32 ”	”
Guyra River—	” ” .....	42·66 ”	”
Hillgrove—	” ” .....	52·60 ”	2 oz. 2 dwt. 10 gr. per ton.
” (Baker's Creek) ”	” ” .....	72·55 ”	nil.
” (near) ”	” ” .....	44·05 ”	trace.
Keppsey District—	” ” .....	60·50 ”	”
” ”	with quartz and black slate .....	43·02 ”	”
” ”	Native metallic antimony .....	90·78 ”	”
Nambucca District—	Stibnite in claystone .....	32·82 ”	”
” (Deep Creek)—	and oxide with quartz .....	47·96 ”	nil.
” ”	Native antimony .....	95·54 ”	trace.
” ”	Stibnite with quartz and slate .....	23·49 ”	”
” ”	” ” .....	66·02 ”	nil.
” ”	with quartz .....	47·92 ”	”
” (Taylor's Arn)—	” ” .....	53·13 ”	trace.
” ”	and cervantite .....	53·60 ”	”
” ”	” ” .....	61·85 ”	nil.

Two samples yielded nil.

## COBALT AND NICKEL.

DURING the year, 11 samples of Ore were assayed for Cobalt and Nickel in this Department—1 yielding nil, 10 yielding as follows:—

Locality.	Description of Mineral.	Sesquioxide of Cobalt. Per cent.	Protoxide of Nickel. Per cent.	Other Minerals.
Bungonia .....	Cobaltiferous manganese oxide .....	2·65	.....	{ Binoxide of manganese, 48·21 %. Oxide of copper, 3·17 %.
” .....	Sandstone, with manganese oxide .....	1·92	·35	
” .....	” ” .....	1·87	·25	
” .....	Cobaltiferous manganese oxide .....	3·19	.....	
Carcoar .....	Finely crystalline glaucodot (a variety of cobaltiferous mispickel) and molybdenite .....	11·59	1·02	
Carcoar (near) .....	Cobaltiferous manganese oxide .....	2·47	·85	
” .....	” ” .....	56·53	.....	
Port Macquarie .....	Felspathic cobaltiferous wad .....	3·06	·70	
” .....	Iron ore, containing cobalt .....	6·92	1·07	
Tamworth (near) .....	Serpentinous schist, with cobaltiferous manganese oxide .....	5·20	3·70	
” .....	” ” .....	trace.	1·89	

## MANGANESE.

During the year the following assays for Manganese were made:—

Locality.	Description of Mineral.	Manganese. Per cent.	Other minerals.
Carcoar (near) .....	Cobalt-bearing manganese oxide.	Binoxide of manganese. 48·21.	Oxide of copper, 3·17 per cent., equal to 2·53 per cent. of metallic copper; sesquioxide of cobalt, 2·47 per cent.; protoxide of nickel, ·85 per cent.
Glen Morrison (near) .....	Oxide of manganese, with a little felspathic material.	Metallic manganese, 42·98	Gold, a trace per ton; no silver.
Tamworth (15 miles from) .....	Oxide, containing a little silicate of manganese.	48·9	.....

## ZINC.

During the year the following assays of Zinc Ore were made:—

Locality.	Description of Mineral.	Zinc. Per cent.
Bredbo .....	Calamine .....	40·25
Denison Town (Mount Stewart) .....	Moisture .....	·09
	Carbonate of iron .....	26·71
	” zinc .....	38·28
	” manganese .....	31·67
	Lime .....	2·16
	Sulphide of lead .....	·49
	Phosphoric anhydride .....	trace.
	Insoluble in acids (silica, &c.) .....	·72
		100·12

## PLATINUM.

Seven tests were made for this metal, four of which yielded nil; three gave as follows:—

*Broken Hill—*

Ochreous felspathic rock.....	1 oz. 9 dwt. 9 gr. per ton.
Compact ferruginous claystone.....	6 dwt. 12 gr. per ton.
Ferruginous felspathic rock, with joints filled with green carbonate of copper.....	A strong trace.

## BISMUTH.

Forty tons of ore raised in the Glen Innes contained 55 per cent. metal; value, £8,000.

## ASSAYS of Bismuth and Tellurium Ores made during the year.

Locality.	Description.	Bismuth. Per cent.	Tellurium.	Per ton.	
				Gold.	Silver.
Glen Innes (23 miles from)	Native and sulphide of bismuth .....	80.40	trace.	oz. dwt. gr. 24 10 0	oz. dwt. gr. 39 7 6
Molong (25 miles from) ...	Quartz, with carbonate of bismuth .....	13.05	„	.....	.....
Nimitybelle .....	Quartz, with a little pyrites and sulphide of bismuth .....	8.81	„	.....	.....
„	„	2.71	„	.....	.....
Oban .....	Native bismuth, carbonate and oxide of bismuth ...	75.60	„	2 7 21	.....
„	Friable earthy carbonate of bismuth .....	10.04	„	.....	.....
Tenterfield.....	Quartz, with oxide of bismuth .....	2.72	.....	.....	.....

Ten other tests were made for bismuth, the highest yielding a trace only.

## GRAPHITE.

A Graphite mine near Undercliffe (New England) is now yielding good ore.

## MICA.

The Geological Surveyor invites attention to the fact that there is a demand for mica plates properly prepared in sizes over 3 inches by 4, which are worth from 6d. to 1s. per pound, while plates not less than 10 inches by 12 bring up to 10s. per pound, provided the plates are perfectly clear when split, and without holes or cracks. Mica, free from colour (when split into thin plates), is the most valuable; but all varieties—black, green, white, amber, or speckled—are said to be in large demand, provided the plates, slabs, or blocks are sound, and will split readily. Mica in sizes less than 3 inches by 4 is not much wanted. Mica is likely to be found in some of the numerous granitic areas that occur in various parts of the Colony, especially in the coarsely-crystalline granitic formations in the Silverton District and elsewhere in the Barrier Ranges.

## DIAMONDS.

The Malacca Co. found 2,195 $\frac{1}{2}$  carats, value £878 5s.

## WATER.

During the year, 9 analyses were made of water, as follows:—

## OCEAN VIEW ESTATE, BEXLEY, NORTH ROCKDALE.

On evaporation the water gave a total solids of 129.2 grains per gallon. The water was clear, colourless, and odourless; it had a slight saline taste. The total solids were found to consist of chiefly chloride of sodium, with a fair proportion of sulphates of lime and magnesia, silica, &c. The quantity received was too small for a proper analysis.

## LOCALITY—NYMAGEE.

Insoluble solids.....	6.300 grains per gallon.
Soluble solids .....	13.300 „
Loss on ignition .....	4.284 „
Total solids .....	23.884
Chlorine.....	5.200 grains per gallon.
Phosphoric acid .....	strong trace.
Free ammonia .....	.054 grains per gallon.
„	.078 parts per 100,000.
Albuminoid ammonia.....	.033 grains per gallon.
„	.048 parts per 100,000.

This analysis shows the water to be seriously contaminated with organic matter, and utterly condemns the water as being absolutely unfit for human consumption. The residue on ignition strongly darkened, emitting a foul odour, thus confirming the previous tests made. On heating some of the water in a closed flask, and on opening the vessel, it gave off an unpleasant odour. A careful test was made for poisonous metals, but none were detected. The insoluble residue was found to consist of clay, carbonates of lime, and magnesia; the soluble, of chloride of sodium, with strong traces of sulphates of lime, magnesia, nitrates, &c. Water cloudy, with a small amount of suspended matter, consisting chiefly of clay.

I am strongly of opinion that the use of this water for domestic purposes should be discontinued, as in its present state it is liable to cause much sickness in the district. I would suggest that the tank be emptied and thoroughly cleaned, also that an examination of the surroundings be made with the view of ascertaining if there is any drainage into it, as the analysis points out a probable contamination from sewerage matter.

LOCALITY—

## LOCALITY—NYMAGEE

Appearance in a 2-ft. tube—reddish colour.
Smell when heated to 100° F—slight.
*Chlorine—2·60 grains per gallons.
Phosphoric acid—Strong trace per gallon.
Free ammonia—Parts per 100,000—trace.
"    Grains per gallon—trace.
Albuminoid ammonia—Parts per 100,000—·088.
"    Grains per gallon—·062.
Oxygen absorbed in 15 minutes per 100,000 parts—·261.
Oxygen absorbed in 4 hours per 100,000 parts—·524.
Total solids—104·38 grains per gallon.
Insoluble solids—95·79 grains per gallon.
Soluble solids—8·79 grains per gallon.
*Chloride of sodium—4·28 grains per gallon.

*Remarks* :—Water of a reddish colour, cloudy, due to fine red clay held in suspension. On the ignition of the residue it darkened strongly, thus showing the presence of organic matter. No poisonous metals detected. The water was of a red colour turbid, extremely difficult to filter, this being due to the fine clay and organic matter in suspension. The organic matter is most probably due to decomposing vegetable matter, and is so excessive as to compel me to condemn the water in its present state as being absolutely unfit for human consumption.

I am also of opinion that with a water containing such a large amount of clay it is not desirable that a quantity of this earthy matter be introduced into the stomach, as by so doing it would most likely cause stomachic derangements.

## LOCALITY—CLIFDEN RUN, BELUBULA RIVER.

Total solids residue.....	29·484 grains per gallon.
Bicarbonate of calcium .....	21·028
"    magnesium .....	3·897
"    silica .....	·280
"    alumina .....	trace.
Chloride of sodium.....	1·820
Sulphate of soda.....	2·140
"    potash .....	·183
	29·348

Specific gravity of water at 60° F—1·00041. No phosphate, ammonia, iodine, or bromine detected.

## LOCALITY—LEWIS PONDS.

The water yielded a total solid residue of .....	93·633 grains per gallon.
Loss on ignition .....	27·440 " " "
Free ammonia .....	1·000 parts per million parts.
Albuminoid ammonia .....	·400 " " "
Chlorine .....	9·400 grains per gallon."

The total solids were found to consist of carbonate of lime, carbonate of magnesia, silica, alumina, sulphate of lime (large quantity), sulphate of magnesia, chloride of sodium, and a large amount of organic matter.

*Remarks* :—Water turbid with much suspended matter, heavily charged with sulphuretted hydrogen, due no doubt to the decomposition of the sulphates in the presence of a large quantity of organic matter. The large amount of free and albuminoid ammonia, taken with the other constituents present in this water, thoroughly condemns it as totally unfit for human consumption, and it may be classed as a dangerous water.

## LOCALITY—MALLARA BORE, PAROO.

Chlorine (in combination) .....	79·70 grains per gallon.
Total fixed solids.....	141·75 " " "
Consisting of—Soluble solids .....	133·19 " " "
Insoluble solids.....	8·56 " " "

The soluble solids were found to consist of calcium (traces), potassium chloride, sodium chloride, and magnesium chloride. The insoluble solids were found to consist of silica (traces), ferric oxide, alumina, and calcium carbonate.

## LOCALITY—PARRAMATTA WATER SUPPLY.

Total solid residue .....	38·880 grains per gallon.
Loss on ignition .....	5·740 " " "
Free ammonia .....	·010 parts per 100 parts.
Albuminoid ammonia.....	·066 " " "
Chlorine .....	3·600 grains per gallon.

*Remarks* :—The water was of a dirty red colour, due to finely-divided clay being held in suspension. On heating some of the sample in a closed flask at 100° F. a faint odour was given off. On the ignition of the residue it strongly darkened, thereby showing the presence of much organic matter. The insoluble solids were found to consist of clay, with a small amount of carbonates of lime and magnesia; the soluble, of chloride of sodium, traces of sulphate of lime, organic matter, nitrates and nitrites. It was not thought necessary to make a quantitative analysis of the total solids, the large increase in weight over the analysis previously made being due to the clay. Last week, suspecting from various reasons that the water was contaminated, I submitted a sample obtained from a private tap to an analysis, and obtained the following results :—

Free ammonia .....	·045 parts per 100.
Albuminoid ammonia .....	·0400 " " "
Chlorine .....	3·500 grains per gallon.

*Remarks* :—This sample emitted, on opening the bottle, a putrid smell, and on the ignition of the residue it strongly darkened, thus proving the sample to be largely contaminated with organic matter. It was noticeable on visiting the dam that the water was in a dirty state before and after passing through the filter-beds, which were not acting, being choked up by the finely-divided clay held in suspension by the water. The analyses made show the water to be seriously contaminated, most probably with both animal and vegetable organic matter. The large amount of free and albuminoid ammonia obtained, and the large amount of finely divided clay held in suspension thoroughly condemns the water for human consumption or domestic uses. I am strongly of opinion that if the present supply is allowed to be used that many cases of disease, &c., will be found prevalent in the district, and would strongly recommend that its use be discontinued. In its present state it is practically impossible on a large scale by chemical or mechanical means to filter or destroy the organic matter present, and I would suggest that the dam be emptied and the filter beds thoroughly cleaned, also that the town be connected with the Nepean Water Supply which passes within a short distance of the town of Parramatta, this water being the same as supplied to the metropolis. I am credibly informed that 1 ton of lime was emptied indiscriminately into the dam for what purpose I am at a loss to understand as it could have no beneficial effect in clearing the water, but kill fish and frogs which were found floating on the top of the water in a decomposing state. All previous analyses made of water taken from this supply pointed it out to be a very fair description of potable water, and the only means I can account for this serious contamination is that the late heavy rains have caused much soakage water from the various orchards in and around the district to flow into the dam carrying with it the organic impurities derived from the fertilizers used in enriching the lands. I am also of opinion that the addition of the lime to the water thereby killing fish, &c.,

&c., is to some extent answerable for the excess of organic matter. I give an analysis made by me of the Parramatta Supply taken some five years ago from the dam before the filter beds were in existence, showing at that time the water was of a fair quality and would favourably compare with the Sydney Supply as delivered from Botany analysis of water obtained from Hunt's Creek made previous to the recent rains, date; June 22nd, 1885.

Total solids .....	11·9 grains per gallon.
Chlorine .....	5·9 " "
Free ammonia .....	nil. per 100 parts.
Albuminoid .....	·01 " "

*Remarks* :—Water turbid with traces of suspended matter (clay).

Analysis of total solids :—

Chloride of Sodium .....	9·74 grains per gallon.
"    Silica .....	0·17 " "
Oxide of iron and alumina .....	0·42 " "
"    Lime .....	0·25 " "
"    Magnesia .....	0·32 " "
Sulphuric Anhydride (SO <sub>3</sub> ) .....	0·22 " "
Organic matter, Carbonic Acid, &c. ....	0·78 " "
	11·9

*Remarks* :—This water may be classed as a second-class water, potable water being classed by the English authorities from 1 to 4. It is a fair water considering the period of drought we have had. As regards organic impurities it is just a trifle above the Sydney water obtained from the Botany Supply.

#### LOCALITY—JENOLAN CAVES.

Total solids residue .....	10·108 grains per gallon.
Free ammonia .....	·0036 " "
Equal to ·052 grains per million parts.	
Albuminoid ammonia .....	·0028 " "
Equal to ·040 grains per million parts.	
Chlorine.....	·52 " "

#### Analysis of Total Solids :—

Silica .....	·756 grains per gallon.
Alumina .....	trace.
Carbonate of lime.....	6·888 grains per gallon.
"    of magnesia .....	1·060 " "
Chloride of sodium .....	·856 " "
Trace of organic matter, nitrate of soda, alkaline carbonates, &c. ...	·558 " "
	10·108 " "

*Remarks* :—Water clear and free from matter in suspension. On heating some of the water in a stoppered flask at 100° C., and on opening the flask no smell was observed. No poisonous metals were detected. It will be seen on viewing the analysis made of the total solids that they consist chiefly of carbonate of lime with lesser quantities of carbonate of magnesia and silica. As regards organic impurities this water is exceptionally free, and may be described as an excellent sample of potable water.

#### LOCALITY—CUTTABURRA BORE.

The water yielded on evaporation a total fixed residue of 396·872 grains per gallon, consisting of :—

Silica .....	1·596
Protoxide of iron .....	·112
Alumina .....	tracc.
Carbonate of lime .....	6·664
"    of magnesia.....	·336
Chloride of sodium .....	349·040
"    of potassium .....	trace.
"    of calcium .....	27·580
"    of magnesium .....	4·190
"    of ammonia.....	·642
Alkaline carbonates, organic matter, strong traces of bromine, trace of iodine, and lithia, nitrates, &c. ....	6·712
	396·872

*Remarks* :—No poisonous metals detected. Water clear in colour and free from odour. On tasting, had a strong saline taste, due to the chloride of sodium (common salt) present. On perusing the various papers forwarded with the sample I find that it is proposed to conserve the water for watering stock. As regards its use for that purpose I am of opinion that it is a fairly suitable water, the magnesia salts being present only in a small quantity, and the proportion of chloride of sodium not excessive. In Foreman Carmichael's report to Inspector Slee, he points out the luxuriant growth of vegetation where the water has been in contact with the soil. This is what would be expected with this class of water, but for a time only, as when the soil becomes saturated with a large quantity of water, the saline matter deposited on evaporation would tend to kill vegetation. On referring to the analysis it will be seen that a strong trace of bromine and a minute trace of iodine were detected. I am not aware that bromine has previously been found in any of the waters of this Colony, though it is sometimes present in some of the mineral waters of South America. Mr. Hamlet informs me that he detected iodine in a mineral water in this Colony.

JOHN C. H. MINGAYE, F.C.S.,  
Analyst and Assayer.

#### MISCELLANEOUS.

Forty-eight miscellaneous analyses, assays, &c., were made during the year, nineteen of the principal being given :—

#### LOCALITY—THE SALT LAKE, PARISH OF BRADLEY, COUNTY OF WALLACE.

Description of mineral—salt.

*Analysis* :—The air-dried substance contained—

Matter insoluble in water .....	57·7 per cent.
Matter soluble in water .....	42·3 " "

The insoluble matter consisted chiefly of sand, carbonate of lime, magnesia mixed with small quantities of organic matter, ferric oxide, and alumina. The soluble matter consisted almost entirely of sodium chloride, with a small quantity of potassium and magnesium chlorides, and minute traces of nitric acid (combined). No sulphuric acid (combined) was found present. The soluble matter contained 56 per cent. of chlorine.

*Remarks* :—When first received the sample was moist, and on crushing it to powder a very disagreeable odour of decayed organic matter was given off. Sample too small for quantitative analysis.

LOCALITY—

## LOCALITY—MORUJA DISTRICT.

Description of material—Resinous substance

Analysis —

The substance consisted of —

Matter volatile at a red heat	39 48 per cent
Matter non-volatile at a red heat	60 52 „
	<hr/> 100 00 „

The portion volatile at a red heat was found to be colophony, mixed with small quantities of other resinous matters. The non-volatile portions consisted of carbonate of calcium, mixed with small quantities of silica, alumina, and magnesia.

## LOCALITY—NEAR CANDELLO

Description of material—Collophony

Analysis —

Volatile, at red heat	38 92
Moisture, at 100° C.	0 16
Carbonate of lime (by difference)	59 10
Silica	100 02
Alumina	1 80
Oxide of iron	trace
„ manganese	strong trace.
„ magnesia	„
Alkalies	„
Phosphoric anhydride (P <sub>2</sub> O <sub>5</sub> )	„
	<hr/> 100 00

This substance may be described as a resinous substance, mixed with carbonate of lime, but whether it is an artificial or natural product I am unable to state, but analysis and the microscope examination tends to the former theory. The late Government analyst (Mr Watt) reported some years ago on a specimen somewhat similar in appearance to this, and gave his opinion that it was artificial, and used by the Telegraph Department as a non conducting material. I have made careful inquiries at that Department and elsewhere, and in no case has it been recognised as an article used in commerce. On treating a weighed quantity of the sample in alcohol 33 58 per cent of this resinous substance was obtained. The only way I can see of settling this question, which is certainly a vexed one, having cropped up at various times for some years is by an examination of the district from which the sample was obtained.

## LOCALITY—NOWRA.

Dark deposit, coating the teeth of a two year old heifer

Analysis —The analysis proved it to consist of phosphates of lime and magnesia, organic matter, animal matter, and a strong trace of manganese. The deposit was readily detached from the teeth, especially by rubbing lightly with pumice stone. I have no doubt this steel-grey coloured deposit is salivary calculus or tartar, which may have been the means of causing sickness amongst the young animals by acting on the gums and periosteum, thus keeping up chronic inflammation.

## LOCALITY—PROSPECT DAM, PROSPECT

Description of mineral—Argillaceous limestone.

Analysis —

Moisture at 100° C	92	} Insoluble in acids, 37 37 per cent.
Silica	29 38	
Alumina and traces of oxide of iron	7 59	
Lime (CaO)	40	
Lime	27 83	} Soluble in acids, 62 63 per cent

} Insoluble matter, including 26 15 per cent of coarse and fine sand

## LOCALITY—COUNTY OF CUMBERLAND.

Description of mineral—Fire-clay.

Analysis —

Moisture at 100° C.	1 45
Combined moisture	3 44
Silica	80 79
Alumina	13 20
Oxide of iron	86
Oxide of manganese	Nil.
Lime	15
Magnesia	traces
Alkalies, loss, etc.	11
	<hr/> 100 00

Remarks —This is an excellent description of fire clay, and can be classed as equal, if not superior in quality, to the English imported article. It should prove useful for the manufacture of fire-bricks, tiles, etc., and perhaps might be utilized for the manufacture of crucibles, etc. The percentage of silica is higher than that usually present in the English fireclays,

fire clays, the nearest approach I can find to it, and which I give for comparison is of a clay obtained from Ireland. This article is spoken of as being of excellent quality, and useful for the manufacture of crucibles, etc.

*Remarks.*—This sample was tested as to its suitability for the manufacture of fire-bricks, crucibles, &c., by the method usually employed, *i.e.*, kneading the clay with water, and fashioning it into small prismatic pieces with sharp edges, and when thoroughly dry, heating in a covered crucible in the assay furnace to the highest heat obtainable. On heating, these models fused into a green mass, this being due to the excessive quantity of oxide of iron and alkalies present in the clay, which promotes its fusibility, and therefore makes it of little value as regards its uses for the manufacture of refractory metals.

In conclusion, it affords me very great pleasure to submit the following summary of the mineral products up to the end of 1889, the value of which has reached nearly eighty-two (82) millions sterling:—

## SUMMARY.

	Quantity.	Value.	Total Value.
Quantity and value of gold prior to 1st January, 1889 .....	9,972,597·49 oz.	£ 37,180,817 1 1	£ s. d.
Quantity and value of gold raised in 1889 .....	119,758·44 „	434,070 8 4

HARRIE WOOD,  
Under Secretary for Mines.

## WARDENS' AND MINING REGISTRARS' REPORTS.

## BATHURST DISTRICT—TRUNKY DIVISION.

(T. A. Smith, Warden.)

I HAVE the honor to forward my report for the past year.

The returns from gold-mining have increased considerably upon those of the previous year, more especially in the Trunkey, Tuena, and Bathurst portions of the district. In silver there was a great falling off at Mount Costigan and Cordillera. In copper the decrease was caused by the shutting down of the Burrage Mine for five months. Below you will find a detailed account of mining in each division of the district, also a schedule which, I hope, will give you full information as to the prospects of the district under my charge.

*Trunkey.*

In this division the New Bathurst Gold-mining Company is situated. From this mine, at a depth of 600 feet vertical rich stone was cut, and a crushing stoped out which gave a return of 910 oz. of smelted gold. This is the only quartz property that is systematically worked on this field. I think, however, three other properties will be worked shortly, viz., the leases known as No. 7 Crome's, Turner's, and Weinholdt's.

Sluicing was, during the winter, which was wet, carried out vigorously by M'Vicar and party at Mountain Run Creek with payable results. A considerable number of other miners worked the alluvial at Rocky Bridge, Mountain Run, Copperhannia, Trunkey, The Grove, and other creeks, making good wages.

A reef known as the Monarch, formerly worked by M'Alpin and Wilson, and sold to Mills & Co., is being again worked. A small prospect crushing gave a highly satisfactory return. The Butcher's Flat Sluicing Claim is also situated in this locality. It is proposed to work the ground by means of sluicing machinery; the proprietors are very sanguine, and I hope will not be disappointed. The Tunnel Point Sluicing Company is also situated on the river; this, together with the Three Barrier Sluicing Claims have been failures. At Pharoah's Point a few miners have done remarkably well. At Bombah gold has been obtained in the alluvial, also in the Grove Creek, near Mount Grey, where Douglas and his party worked (sluicing) while water lasted.

*Tuena.*

Tuena division is separated from Trunkey division by the Abercrombie River. Mr. Parsons is working a sluicing claim on Costigan's Flat. He has cut a race several miles in length to get sufficient water; the outlay has been considerable. Opposite Bombah is the recently discovered quartz claim now held by M'Vicar and party. The prospects are very good indeed, from 2 to 3 oz. to the ton. The local quartz battery is an antiquated affair, and I do not think it will give satisfaction.

On Tuena Creek, half a mile from its junction with the Abercrombie River, on Block 20, of 778 acres of freehold, held by A. M'Kenzie, is a rich alluvial deposit; this has been worked by employing thirty men during the whole of the winter. Many men are fossicking about here but cannot find the boundaries of M'Kenzie's land. It is believed that he has enclosed and cultivated without even leasing it. Opposite the junction of Copperhannia Creek, near the Sounding Rock, is the Handy Andy sluicing claim. This has been worked most of the year. On Tuena Creek, from M'Kenzie's and up to Junction Point, a good many Europeans and Chinese are working. At Junction Point some reefing has been done, but the results are not satisfactory.

The Mount Costigan, Cordillera, and Peelwood Silver Mines have not been regularly worked during the year, consequently the returns are below those of 1888.

*Burrage.*

Only one mine is worked in this division, the Burrage Copper Mine, owned by Mr. L. Lloyd. This too, was shut down for six or seven months; work has been resumed, 300 men are now employed, the furnaces are in blast, and everything augurs well for the future. About 2 miles from this mine Kaleski and party held leases for silver, but this property is not being worked, probably through the death of Mr. Kaleski. I forgot to mention that Mr. Hockey, of Rockley, holds a mineral conditional purchase adjoining Mr. Lloyd's mine. He informs me that it contains a rich copper lode.

*Rockley.*

A complete collapse has taken place in mining in this division. Back Creek Silver-mining Company appears to be a failure. Fossickers get a living working for gold in some of the creeks. Wiseman's Creek copper and silver mines are not doing much. I however, believe that a rich silver lode will be discovered in this locality. At Swallow's Nest, Crozier and party, who had assistance granted out of the Prospecting Vote to enable them to put a tunnel under the basalt, which crops out in the range immediately above, have not succeeded, they being unable to overcome the heavy flow of water.

*Oberon.*

But little mining is done in this division. The Homeward Bound, the Welcome Home, and the Luck's All reefs have been worked with only partial success. Foley and party are working a mineral lease (silver) near Campbell's River. M'Caulay and party are prospecting for silver upon a mineral lease at Diamond Hill. Gold and silver have been found at Mount Werong, 35 miles from here; and between the Kowmung and the Boyd Rivers coal and shale have been found. If ever the railway is constructed from Blacktown to Blayney, *via* Burrangorang, this coal and shale country will become very valuable; the proposed railway will pass right through this formation.

*Lithgow.*

I have not been able to get any returns as to the mining in this division.

*Katoomba.*

*Katoomba*

Until quite recently this formed portion of the Lithgow Division. A shale and coal mine is being worked, employing 110 men.

*Penrith.*

There is no mining here now, the boring for coal near Lawson not proving a success.

*Mitchell.*

A large quantity of gold, silver, copper, and lead has been obtained from this field. The Sunny Corner and Silver King Mines being the most prosperous. The Phoenix is to be started again in a few days. The black ore in this mine has always proved troublesome to treat. In gold, the Paddy Lackey lease has produced a considerable quantity. The proprietors received assistance out of the Prospecting Vote, which enabled them to prove the lease, or it would be now idle.

*Bathurst.*

Several new gold leases are being worked at Cheshire's Creek and Clear Creek; the returns so far are encouraging, but not remunerative.

*Mount Macdonald.*

This division did not produce as much gold as usual, but towards the end of the year a distinct revival took place. I think the present will be a prosperous year. The Balmoral mine has been sold, and transferred to a company formed in Hong Kong, and at the time of transfer, tributors who were working the ground had discovered rich stone in the original lease. The new proprietors have only to follow up this discovery. Butcher's leases have also been transferred, the purchasers are Campbell and Company, of Sydney. This is a good property, and produced good stone from the grass. A new Huntingdon battery has been erected near the main shaft. This, I think, should continue to be a payable concern. The other leases worked are the Bobby Burns, Woolstone, Everett's, True Blue, and Grants. The Eureka leases were in dispute during most of the year; when, however, the title was made satisfactory, a sale was effected for £1,500.

The rainfall for the district was about 31 inches.

## BATHURST DISTRICT—ORANGE DIVISION.

(J. T. Lane, Warden.)

THE contrast between the past year and its predecessor *re* silver-mining matters has been very marked. During 1888 the excitement prevailed to a degree bordering on an absolute fever. Leases were applied for indiscriminately so long as they were in the neighbourhood of Lewis Ponds, the Bulga, or some other spot which had by some circumstance or other attaching an imaginary importance to it in the direction of mining operations. Things are settling down to a more reasonable and healthy condition. Doubtful holdings are being declared void from one cause or another, and ere long our mining industry will be on a more solid and healthy basis than it has been for some time past. If the contemplated scheme to prevent fraudulent companies being formed be successfully carried out, it will be a great boon to the general public.

*Ophir.*

At the present moment our parent gold-field seems to be under a cloud. The few "old stickers" have been somewhat disheartened at the persistent complaints of a few persons touching their compliance with the labour conditions, and now the leases are cancelled nothing is being done on them. Some prospectors are said to be much pleased with the result of their labours, but I am not in a position to say anything definitely upon the point. Ophir will some day raise her head and proclaim to the world her innate wealth. Some fifteen men are working 4 miles from Ophir on new ground, and doing well.

*Lucknow.*

Promises are not so cheering as they have been. I understand Mr. Murphy has supplied you with some particulars he received from the indefatigable manager of this gold-field.

*Forest Reefs.*

These mines have ceased operations for some time past, the Great Extended more than a year ago and the Grand Junction more recently. Vast sums of money have been expended on these claims, and it is to be regretted with such poor results. Nothing doing in this locality of any moment. A few continue prospecting.

*Byng.*

Seems to be nearly at a standstill notwithstanding the anticipations that were excited about a year ago. I still have some faith that the many leaders in that neighbourhood will lead to something remunerative.

*Cadia.*

The Scottish Australian Mining Company (London) are operating here in search of gold and copper. The machinery is extensive, and valued at £1,750, and the buildings devoted to the mining industry are said to have cost £8,000. Fifteen men are constantly employed in the mine. 58½ oz. of gold, valued at £202, and 50 tons of copper ore have been raised during 1889.

*Diggers' Creek, or Four-mile.*

Messrs. Cross and Spears still continue their efforts here. Four men are constantly employed. The machinery is valued at £1,500, and the buildings at about £500. About 100 oz. of gold and silver bullion have been raised during the past year. The machinery is worked by steam-power.

*Lewis Ponds and Bulga Silver Mines.*

The last named is in a very dormant state, but some of our knowing ones continue very hopeful. The Lewis Ponds mines, those which have been at all developed, look well, and promise not to disappoint the sanguine expectations of the fortunate shareholders. There is a reticence observed in connection with the workings of some of these mines which, I believe, operates detrimentally to their interest. If they were all as outspoken as "Tom's" there would be no groping in the dark. I believe South Lewis Ponds and Spicer's are good mines, unless nature has made a wonderful mistake. I cannot see how they can be otherwise. It is merely a matter of cost in developing them. The value of New Lewis Ponds and Tom's seems to be generally admitted. The published returns, showing the results of the operations in these two mines, warrant the above conclusion. Many still maintain that the Lily will take a foremost place among these mines.

BATHURST

## BATHURST DISTRICT—CARCOAR DIVISION.

*(N. Connolly, Warden.)*

I HAVE the honor to forward my annual report of the Carcoar portion of the Bathurst Mining Division.

During the past year the Brown's Creek Gold Mine, which for twenty years has been continuously worked, giving regular employment to a large number of miners, and yielding about 250 oz. of gold per month, has, I regret to say, been closed, and the plant sold.

The new proprietors of the mine, I understand, however, intend to resume work, so soon as a fresh plant can be erected and got in working order.

The Homeward Bound Mine, at Galley Swamp, is still being worked by the local manager with energy, and the prospects continue to improve, and it is evident the property only requires a liberal expenditure of capital to make it a very valuable concern.

At Rowe and Company's and the Great Western, on the same field, the want of adequate machinery has prevented any considerable progress. The hope I expressed in my report last year, that this want would be supplied, has not been realized.

The Mandurama Gold-mining Company, known formerly as the Junction, have added largely to their plant and gold-saving appliances during the year, but with what results I have been unable to ascertain, owing to the frequent changes in the local management of the property.

The Prince of Wales and Gold Hill Companies at the Burnt-yards, about 12 miles from Carcoar, have prosecuted work with some success, as shown by the return of the legal manager for the year just past.

At the Needles, on the north bank of the Belubula River, about 24 miles from this town, several gold-mining leases have been applied for and taken up.

The conglomerate pebbly wash, being sluiced, undoubtedly contains excellent gold, and in payable quantities, but the difficulty of constructing suitable shoots to convey the stuff to the river from the precipitous basaltic ranges, under which it lies, has prevented any marked progress, beyond confirming the opinion of the leaseholders that, their claims worked with proper appliances, will yield handsomely; and they have accordingly determined, I am informed, to erect these without delay.

Although several leases were taken up during the year supposed to contain silver, no finds have yet been reported.

The state of mining, taken as a whole, in this rich district, must be considered anything but satisfactory.

The causes of this are, in my opinion, the want of capital, and of fresh blood in the shape of a body of experienced and persevering miners from other fields, where work has been carried on systematically and with determination.

## BATHURST DISTRICT.—MITCHELL DIVISION.

*(T. G. Wright, Mining Registrar.)*

IN forwarding my annual report for the year 1889, I must say that mining in general has a marked improvement in this portion of the Bathurst Mining District. In fact, this place was never firmer than at the present time, and with every likelihood of a light line of railway being constructed from Piper's Flat station to Sunny Corner in a short time by private enterprise, I cannot see but the place has a good and permanent future before it, as there are a great many of the leases in the neighbourhood with low-grade ores that would pay if the carriage of coke and coal were not so high. A number of leases are still held and not a tap of work done on them during the past three years.

Sunny Corner Mine has been in full swing during the past year. Great improvements have been made on the works, as also in the working of the mine, but no record whatever has been kept at the Sunny Corner office of the output of ore during the past year. The total value of silver, gold, and copper produced during the year was £48,638, value of plant £30,000, and 204 men employed.

The Silver King Mine has had a good run during the past year, with great success, under the management of Mr. Charles Henry Richards. The amount of ore raised and smelted during the year was 11,099 tons, producing 1,018 tons of matte, valued at £43,247 9s. 3d., and 15 cwt. 2 qr. 19 lb. of lead, valued at £172 8s. 11d., making total value £43,419 18s. 2d. This mine has had on an average of two and a half furnaces running during the year, and employs 150 men. Value of plant, £8,000.

The old Navada, now known as the Phoenix Silver-mining Company, has made another start, and is at present employing 45 men. No smelting has been done as yet. Alterations are being made in the smelting plant under the supervision of Mr. Richards, of the Silver King, who is also going to run the furnaces at the Phoenix. Value of plant, £4,000.

The Paddy Lackey Gold Claim at Dark Corner is still at work, with good results. The shaft is now 300 feet deep, with a reef 3 feet wide, dipping east 6 in 100. There were 400 tons of stone crushed during the year, which yielded 442 oz. of gold. Value of plant, £930. 12 men employed.

The St. George Gold Claim's deepest shaft is 320 feet, with a reef of 2 feet wide, having crushed 200 tons of stone, which yielded 100 oz. of gold. Value of plant £2,000, and employs 12 men.

At Little Hill, Lane and party raised 40 tons of stone, which, when crushed, yield 17 oz. 14 dwt. of gold.

At the Band and Albion very little work has been done during the year. The value of their plant is £900. No men employed.

At Mount Wolsley a mining plant has been erected, but no work done. The value of that plant is £200.

There are 80 men fossicking in the vicinity, 5 of which are Chinamen.

During the year there were 16 applications for mineral leases, viz., 9 for limestone, containing 200 acres, and 7 for silver, containing 219 acres. Also 4 applications for gold leases, containing 68 acres. I issued 256 miners' rights, 130 business licenses, and 13 mineral licenses.

The amount of gold bought by the local banks was 374 oz. 13 dwt. 15 gr., and by the stores, 207 oz., for the year.

The value of gold at this place during the year was £3 14s. 6d. per oz.

The total value of smelting and crushing plants in this district is £46,030.

BATHURST

## BATHURST DISTRICT—ORANGE DIVISION.

*(Stephen Murphy, Mining Registrar.)*

I HAVE the honor to submit my report for the year 1889. During that period my collections have been as follows:—

	£	s.	d.
321 miners' rights.....	136	10	0
5 business licenses .....	3	0	0
12 mineral licenses .....	12	0	0
Gold-mining leases .....	82	0	0
Mineral leases .....	35	0	0
Fees under Mining Act .....	0	5	0
Deed Fees and Stamp Duty .....	85	0	0
Revenue proper.....	353	15	0
Survey fees, &c. ....	27	0	0
Total .....	380	15	0

It was scarcely to be expected that the extraordinary rush for taking up land which occurred in the early part of 1888 would continue, and the foregoing figures show a marked decrease upon that year in applications for both gold and mineral leases. During 1889 the undermentioned applications to lease were lodged with me:—Gold-mining, 14 for an area of 79 acres; mineral, 5 for an area of 140 acres, not including reapplications for the same portions. The land applied for is in the undermentioned localities:—Digger's Creek, Cadia, Caleula, Ophir, Forest Reefs, Mullion Creek, Byng, Eldorado Gully, Emu Swamp, Lewis Ponds, Rosedale, and Bulga Mountain.

*Bulga Mountain.*

In this neighbourhood operations seem to have been almost entirely suspended and another boom appears to be required to infuse new life into the leaseholders. I do not believe that this locality has been properly tested, as no great depth has yet been reached.

*Lewis Ponds.*

The New Lewis Ponds Gold and Silver-mining Company (Limited) have been in full swing during the year. A large sum of money has been expended in opening out the ground, and in placing very complete machinery, including smelters, upon the property. Number of men employed, 132, and value of plant, £8,000. I trust that the enterprise of the Company may be amply rewarded by the discovery of richer deposits than any yet unearthed. I enclose returns furnished me by the Manager, Mr. J. B. Potter, who certainly appears to be doing his best in the interests of the mine. The Spicers and Lewis Ponds South are still carrying on operations under the same management.

The Toms Lewis Ponds Company has been gradually extending its operations during the year, so that 75 men are now employed. About 1,900 tons of ore have been raised during the year, and 679 tons treated by the Lewis Ponds Company, giving a return of £4,100. The prospects of this mine appear to be very satisfactory. The erecting of smelting works is under the consideration of the directors. I enclose reports from the several mines in this locality, giving details of the operations.

*Ophir.*

Nothing of importance to report at this locality. The crushing plant, worked by a 25 h.-p. engine, the property of the Bluff Gold-mining Company is at present idle. Value of the machinery about £1,100. There are about 50 miners employed at this old field, viz., 34 Europeans and 16 Chinese.

*Lucknow.*

Mr. H. W. Newman reports that the property of the New Reform Gold-mining Company (Limited) is now for sale, after being idle for the past six months, owing to the veins getting a bit poor.

The New Reform Pups property has lately passed into the hands of Mr. F. L. Gardiner, of Sydney, also some similar property in the same locality. I forward herewith particulars of the several mines on this field, showing total value of plant to be £23,250, and number of men employed, 79.

*Forest Reefs.*

The Grand Junction Gold-mining Company (no Liability), has ceased operations for sometime, a number of the shareholders having apparently lost heart. There is no work of any moment being carried on in this locality.

*Byng.*

Operations are still being carried on in this neighbourhood, and a crushing plant of the value of £1,100, will be shortly completed and ready for work. It is hoped that, with a battery on the spot, mining matters may go ahead.

*Cadia.*

During the past year the Scottish Australian Mining Company (of London), has raised 65 tons of quartz, giving a return of 58 oz. 12 dwt. of gold valued at £202 7s.; number of men employed, 16, and value of plant £1,500.

By the courtesy of the managers of the local banks, I am enabled to state that 3,796 oz. 4 dwt. 4 gr. gold passed through their hands during 1889, valued at £13,767 6s. 9d. No doubt a considerable quantity is sent direct to Sydney in excess of the above.

The gross value of machinery in this division is estimated at £40,000, and the number of men employed about 570.

## BATHURST—BLAYNEY DIVISION.

*(W. Roche, Mining Registrar.)*

I HAVE the honor to submit my annual report for the year 1889.

There has scarcely been anything done in the way of mining for the past year.

The Brown's Creek Gold-mining Company had to abandon their ground through the flooding of the mine which was afterwards cancelled through their not paying the rent. It was again taken up by Messrs. Johnson and Woodhouse, who intend putting new machinery on the ground as the plant now existing would not be sufficient to keep the water down. This Company intend starting sometime this month, and it will take them a considerable time before they will get the mine in working order again. The closing of this mine was a great loss to the district, as it employed a great number of hands.

Several parties have been prospecting in the district for the last twelve months with very little success.

A party of men have been prospecting in Hancock's paddock (known as the "Last Chance") for sometime; they have sunk a shaft 160 feet deep, following a reef varying from 6 inches to 4 feet in width from which they had several trial crushings, varying from 6 to 11 dwt. per ton. At a depth of 80 feet they struck an iron-stone reef 6 feet wide, which was thought nothing of at the time, but on getting it assayed it realized 1 oz. 15 dwt. to the ton. The party are now sinking a new shaft 9 by 4 feet in the clear, which they intend carrying to a depth of 260 feet, when they expect to strike the reef, which was underlaying to the east in the old shaft, from which they expect good results. The sinking is hard (through slate), and they consider it will take them 12 months to put it down; it will cost them from £1,200 to £1,500. There is very little doing at the Confidence Mine; it has been idle for twelve months; it has been lately rented for £6 per week to a man named Thomas Goodman; he has only had one crushing, which I have been informed was very poor.

At McPhillamy's Hill Gold Mining Company, which is on private property, situated four miles from Blayney. This mine is owned by a Sydney Company, who have expended a lot of money during the last year with very poor results. There has been very little done in the way of alluvial mining, as the old workings are worked out.

The Annandale Copper Mine has been working for the past twelve months with very fair results. The Company being a small one, it has a lot to contend with; they built a furnace on a new principle, which did not act, consequently necessitating their going to a double expense in erecting another one. There are seven shafts sunk on this Company's property, viz.:—1st, 292½; 2nd, 220; 3rd and 4th, 197; 5th, 110; 6th and 7th, 260 feet deep; so they have the ground thoroughly prospected. In the 120-foot shaft the lode is 30 feet wide, and is estimated to go from 10 to 12 per cent.; at present they have 200 tons of ore at grass, and they have sent away 6 tons of smelted ore to Sydney, which averaged £57 10s. per ton. It is the intention of this Company to offer 10,000 additional shares to the public, with a view of putting up three more furnaces and a refinery, and constructing a siding at the railway line, which is about 500 yards from the mine. No doubt if this idea is carried out, and copper keeps a reasonable price, this mine will be dividend paying, as it is now in working order, ore being raised from all the shafts above referred to.

3 gold-mining leases, 75 miners' rights, and 3 business licenses have been issued for the year.

## BATHURST DISTRICT—OBERON DIVISION.

*(J. S. Hayes, Mining Registrar.)*

IN submitting my annual report for the year 1889, I regret to state I am not in a position to report as favourably on the mines in my division as I would wish. There has been a lull in mining throughout this division during the past year, although prospecting has been carried on to some extent, and in some instances with great hopes of the prospectors being rewarded. The small amount of gold won, little more than 87 oz., speaks for itself. A portion of the Prospecting Vote has been granted to two parties, thereby rendering them great assistance in their operations. I have issued during the year—miners' rights, 52; mineral licenses, 5; gold lease applications, 6; mineral lease applications, 3.

## BATHURST DISTRICT—MOUNT M'DONALD DIVISION.

*(G. A. Gunning, Mining Registrar.)*

NOTWITHSTANDING the dull times experienced here during 1889 I feel justified in predicting a marked improvement during the coming year.

Some few months back Mr. Plumb, M.L.A., in conjunction with other gentlemen, purchased the Balmoral properties at what is considered a very low figure. These gentlemen have successfully placed the property on the market, resulting in the formation of a strong Company styled the Balmoral G.M. Co., Hong Kong. The new Company is now preparing for the erection of a crushing plant, with all the latest improvements, in the gully, a couple of hundred yards from the workings. At present there are forty-six men engaged constructing the dam for conserving water for crushing purposes. As this Company purpose using rock drills, &c., I will be much mistaken if some good reefs are not discovered which will bring again to this field its past prosperity.

The Eureka Mine has, this week, been sold to a Sydney gentleman, who will commence working the ground on Monday next. When this claim is put into working order and pumping plant fixed it should again pay handsome dividends.

During the year I have issued 90 miners' rights, valued at £41 10s.; 25 business licenses, £14 10s.; 1 mineral license, £1. Received 35 applications for gold-mining leases, comprising 163 acres; deposits lodged with same, £110. The total collection for the year is £250 10s., which is considerably less than former years.

The Mount M'Donald Gold-mining Syndicate have erected a Huntingdon mill, with latest gold-saving appliances on their property (formerly known as Butcher's). They are now getting out stone for their first crushing.

No work has been done at Milburn Creek Copper Mine for some months, and no prospect at present of being worked.

No alluvial mining being done (except fossicking about the river) in my division.

Several parties are awaiting the visit from Prospecting Board, having made application for assistance. Without aid, I fear, some will have to abandon their holdings. Prospecting is very expensive in this hard country.

BATHURST

## BATHURST DISTRICT—TRUNKY DIVISION.

*(W. T. Lee, Mining Registrar.)*

THE past year, which was marked by bountiful rain and crops, has not led to any fresh development in mining.

The New Bathurst Gold-mining Company (Limited) have made very satisfactory progress, the shaft being vertical to a depth of over 600 feet. During the year this Company crushed 300 tons of mullock for 34 oz., and 360 tons of quartz for 910 oz. The above mine is the deepest in the district. The Mount Gray Gold Mine Syndicate, Grove Creek, have suspended operations for a short term, as it was found the Huntingdon mill was not suitable for the stone.

The value of gold won is £7,032 4s. 1d., being the highest yield for many years. Nineteen applications were made for gold leases for 219 acres. Rainfall, 30.055. Mining revenue, £364 12s. 6d. I have issued 137 miners' rights, 28 business, and 7 mineral licenses. The retrospect is fairly encouraging, and the outlook promising. No attention is at present being paid to silver, copper, or opals.

## BATHURST DISTRICT—CARCOAR DIVISION.

*(C. Higgs, Mining Registrar.)*

IN forwarding the annual report as Mining Registrar of this District, I have the honor to bring under your notice the fact that I only took office on the first of this year as successor to the late Mr. W. B. Warner, which I trust will sufficiently account for the brevity of this statement, I shall however, in the current year, take every care that all information required by the Department is attained and set out in the next annual report.

The number of miners' rights issued for 1889, 104; mineral licenses, 3; business licenses, 1.

The returns received from five out of six mine owners in this district obtained after considerable delay, I have handed to the Warden.

## BATHURST DISTRICT—COWRA DIVISION.

*(B. P. P. Kemp, Mining Registrar.)*

I BEG to state that at present matters are exceedingly quiet in the Cowra District as regards Mining. There has been an attempt made to get some marble found in the district brought into the market, I believe, but whether the price obtainable for same will pay after deducting expenses for cartage, &c., is at present undecided. The extra demand last year for miners' rights and business licenses has not so far been renewed.

## BATHURST DISTRICT—TUENA DIVISION.

*(T. F. Bell, Mining Registrar.)*

IN submitting this, my annual report for the year 1889, I regret to say that the mining industry in this district is not in such a satisfactory and progressive state as I hoped it would have been. The Cordillera Silver Mine having shut down early in the year, also the Peelwood Mine, which only finished the erection of most extensive machinery a very short time back, has shut down, the difficulty being in treating the ore, there being so much zinc. The Mount Costigan Silver Mine has again started operations and is running most successfully. 248 acres have been applied for under gold lease during the past year and 140 acres under mineral lease; 332 miners' rights issued, 87 business licenses, and 4 mineral licenses. The total revenue collected for the year on account of Mines Department being £592 15s.

## BATHURST DISTRICT—COWRA NORTH DIVISION.

*(Wm. Cook, Mining Registrar.)*

I HAVE the honor to state that mining is now almost at a standstill in this division owing to the very poor returns obtained from crushing in most instances, not one payable crushing having taken place.

It is impossible to obtain a correct return of stone crushed, owing to a change of management of the battery, the present management not having any records, but about 150 oz. of gold from about 600 tons of stone crushed is probably a pretty correct estimate.

*The Manchester.*—Firth and party, Sullivan's Gully, have obtained the best results, 21 tons taken from a shaft from 25 to 76 feet in depth, with a vein of 4 inches wide, returned 12 oz. 12 dwt., from that depth, and 98 feet, 32 tons were crushed for 20 oz. 5 dwt., the vein being 6 inches; their shaft is now 110 ft. in depth. The vein now averages 9 inches, and improved in quality. The shareholders consider their claim payable if machinery were available, they now being 6 miles from the nearest battery.

Bourke and party are now working under permit on Flood's selection, and are raising stone showing gold freely; but the vein is small and very hard.

Kenworthy and party are working under the road at Stockyard Gully, but so far the result has not been satisfactory.

The Gospel Oak Gold-mining Company from which good results were expected has turned out a great disappointment to the shareholders owing to the poorness of the returns. The ground here is very hard, which, together with the small returns obtained, have caused all hands to be knocked off for a time.

The general opinion of miners is that nothing payable will be found in the division unless looked for at a depth.

No alluvial has been worked during the year.

Number of leases applied for during the year, 5 containing a total area of 53 acres.

Total value of mining plant £2,000.

## BATHURST DISTRICT—CANOWINDRA DIVISION.

*(W. Cook, Mining Registrar.)*

I HAVE the honor to report a further improvement in this division during the year passed, the yield being 2,298 oz. 11 dwt., against 1,939 oz. 12 dwt. for the previous year. This return does not include anything from the Cargo Gold-fields as that portion was during the year cut off from the division. The larger portion, however, has been won from the Blue Jacket Mine. During the year seven gold leases were taken up comprising 34 acres. The number of miners' rights sold was 134; mineral licenses, 7; business license, 1. The total amount of revenue received was £180 5s. Blue

Blue Jacket are now sinking at a depth of 260 feet, and are raising stone at the 240-foot level, the stone now being risen yielding at the battery about 2 oz. per ton. The proprietors have a parcel of 40 tons blanketing on hand. A sample of 6 tons taken from the heap yielded about 13 oz. per ton. These tailings were treated at the Clyde Works, Sydney. Total yield of gold for year, 2,139 oz. 14 dwt.

M'Closky and party on the south end of the Blue Jacket have sunk a shaft 177 feet, and have a vein of 15 inches, supposed to be the Blue Jacket vein; they have about 20 tons raised which is expected to be payable.

Red Jacket, on the north side of the Blue Jacket, have sunk a shaft 100 feet, and have a nice vein about 1 foot in width.

Queen of the Ranges have sunk their shaft 175 feet on the course of the vein, but the vein running out they have ceased work.

Richardson and party have been sinking a shaft under aid from Prospecting Board, but have done nothing for the past two months—but intend to resume at once—when they expect to get something payable.

Hayes' Reef is still worked on tribute. During the year 159½ tons crushed, yielded 149 oz. 7 dwt.

#### BATHURST DISTRICT—ROCKLEY DIVISION.

(*T. C. Cromie, Mining Registrar.*)

I HAVE the honor to herewith enclose, my annual report for 1889, from the Rockley division:—During the year I have sold 62 miner's rights, 33 business licenses, and 1 mineral license. There has been, during the year, 4 mineral leases applied for, representing 155 acres, and 2 gold-mining leases representing 7 acres. The mining collections from Rockley for 1889 amounted to £112 2s. 6d.

The Back Creek Silver-mining Company have ceased to exist during the year. Their land has been surrendered, and 75 acres of it again leased by Mr. George Withers, of Sydney. Mr. E. A. Baker and party have been raising some silver ore at Wiseman's Creek, and have every faith in their prospects there. Mining on the whole is very dull here.

#### TAMBAROORA AND TURON DISTRICT—HILL END DIVISION.

(*W. A. Steel, Warden.*)

I HAVE the honor to transmit herewith my annual report for the division of the Turon and Tambaroora mining district under my charge. I beg to state that I was transferred from Hill End to Bathurst early in July last as Acting Police Magistrate, therefore my report will only refer to the first half of the past year.

I regret to state that mining in every branch has declined, and no fresh discoveries have been made at Hill End in reefing or alluvial workings. Some very rich patches have been struck in an old claim at Prince Alfred's Hill, formerly known as Rowley's. In one instance, on a lease held by Mr. T. C. Suttor, as much as 150 oz. of gold was obtained from specimens alone, while stone from the same claim yielded nearly an ounce per ton. In the adjoining claim the same reef was struck at a depth of 95 feet, and 75 oz. extracted from specimens. The crushing has not yet taken place. This shows that many of the old rich reefs on Hawkins and Prince Alfred's Hill have not yet been properly worked, and vast wealth yet lies undeveloped. The Red Hill Mine, Tambaroora (Newton and others), stopped work last December, whilst the old Star of Peace, Hawkins Hill (now known as the Cornelian Company's), is still at work, and employing a considerable number of hands; nothing is made known as to what amount of gold is obtained, but it is believed to be payable. The number of miners' rights issued during the first half-year of 1889, as well as gold mining leases are considerably less as against those for the same period of the previous year. Nothing worth mentioning in the yield of gold at Hargraves and neighbourhood has taken place, and mining has declined even more in this division than any other under my charge.

#### *Sofala Division.*

The yield of gold from the various localities of Wattle Flat, Palmer's Oakey, Upper Turon, &c., are quite equal to the previous year, and indeed, the quantity of gold forwarded to the Mint has been larger, though some, doubtless, has come from Hill End. A rich reef has been discovered at Nuggetty Creek, near Wattle Flat, the prospects being good. Machinery is shortly to be erected on the old Solitary leases, Wattle Flat, for the purpose of extracting gold from pyrites. A Company has been formed for the purpose of testing the process known as Dr. Florance's, and great interest is taken among the mining community as to its success, the importance of which cannot be overrated.

#### TAMBAROORA AND TURON DISTRICT—SOFALA DIVISION.

(*M. Fagan, Mining Registrar.*)

I HAVE the honor to forward my report of the mining interest in this division for the year 1889. In so doing I am happy to remark that the amount of gold won during the year exceeds that of the past year.

The drought which has prevailed for the last five years may be said to have broken up here in April, when the welcome rains gave a copious supply of water to the Oakey, Two-mile, and Bell's Creeks, which are the streams whence the supply of water for the head-races in the vicinity of Sofala is mainly derived. Taken altogether this season has been the finest the miners have had for their occupation for many years past. Grass has been plentiful everywhere for their horses—no small consideration to a really enterprising miner. Several sluicing claims in the vicinity of Sofala have been worked during the year, and the results obtained by M'Lean and Herriott, Maitland Point, William's & Co.—adjoining claim, Bennett & Co., Wallaby, exceed by far in value all others in the division, some of these men averaging £6 a week per man.

*Queensland Reef, Sofala.*—The number of men employed on this reef during the year was as follows:—1st January to 25th September an average of 14 men per diem; 26th September to 20th November, 12 men per diem; November, 6 men; December, one man only in charge.

Quantity of stone raised, 1,700 tons, yielding 424 oz. 19 dwt. 7 gr.; value of same, £1,341 8s. 4d. The machinery consists of one 25-horse-power horizontal engine (30 h.p. boiler), ten-head stamper battery, two stone-breakers, one Watson & Denny pan; one Harrison Vortex mill, table, winding gear, and Tangye pump; value of same, £3,000. The

The workings are all on the surface, and there are no shafts or tunnels. It is, in fact, a quarry of diorite, with an area of about 17 acres.

The reef, which is about 50 feet wide, runs for a distance of about 600 feet.

There is no timbering required, nor is there any trouble with water.

The battery has hitherto occupied a site about a mile from the mine; is now being removed to the mine.

*The Big Oakey Gold-mining Company Surface Hill.*—The object this Company had, and are still carrying out, is to test the rock at a depth of 400 feet—present depth of shaft, 200 feet—and cross-cuts east and west. These have been extended west 113 feet 6 inches, and found the supposed tunnel vein, which dipped west through the shaft. About 10 feet west of foot of shaft pinched to about 1 inch dipping east. At 75 feet west a soft dig comes in, about 16 inches thick, dips west, coming into a small vein, carrying gold, joined it on floor of tunnel, dipping west. No other veins have been cut in this direction. In the east cross-cut, 86 feet from shaft, the only vein as yet worked was cut.

Driving 86 feet north, 37 feet south, 130 tons of quartz was raised from this vein, yielding 272 oz. A quantity of pyrites has also been obtained from this vein, but up to the present the Company has done nothing beyond a few experiments, but it is intended, if the Company cannot satisfactorily treat in this Colony, to concentrate and ship to Europe.

The machinery consists of 10-horse-power crushing battery and concentrator; value, £750, and winding plant, value, £100. There are sixteen or eighteen men employed, and a vast amount of work has been done by them during the year. They speak highly of the directors for their punctuality in paying their wages, and it cannot be denied that this Company has done more *bona-fide* prospecting than any other Company that ever started in this division.

It is to be hoped that they will yet find some of the very rich veins said to exist on this once famous hill. This Company has received aid from the Prospecting Vote.

*Caledonian Reef, West, Roberts, & Co.*—544 tons of quartz raised from various depths yielded 137 oz. 19 dwt. 18 gr. of gold, which is not payable. From six to eight men have been employed during the year.

*Solitary Creek Reef, Webb & Co.*—Extended quartz claim. 114 tons of quartz, raised from a depth of 200 feet, yielded 44 oz. 5 dwt. 6 gr. The vein averages 1 foot in width. Westerly underlay, running north and south; four men employed; steam-winding engine, value £300.

*Magenta Quartz Claim, Lee and party.*—63 tons of quartz, raised from a depth of 140 feet on this vein, yielded 38 oz. 14 dwt. of gold. The vein averages 8 inches in width. Eastern underlay bearing north and south. Only for the heavy influx of water that has to be contended with this reef would be payable. This party has received aid from the Prospecting Vote, without which no discovery would have been made. Total depth of shaft, 168 feet.

*Middle Creek, G.M. Co. Reef.*—This reef is situated about 6 miles south-west of Sofala, and discovered by Reilly Brothers in January last. Since then a shaft has been sunk from surface to a depth of 100 feet; 120 tons of quartz raised and crushed at Company's battery giving the handsome yield of 159 oz. of gold. This is the best return that has been obtained from any vein in my division during the year. The vein is 8 inches wide, bearing south-west. The Company have leased 25 acres in connection with this mine, erected a 10 h.p. engine, and five head of stampers; value of plant, £800.

*On the Old Solitary Reef.*—All the leases on this line of reef have been cancelled—in December—immediately after which a 9-acre lease was taken up by C. H. Beaver, who, in connection with Dr. Florance, is now having machinery erected upon the land for the purpose of treating the vast quantity of tailings at the old battery, which are said to contain a large quantity of gold.

*Upper Turon Sluicing Co., Messrs. Suttor, Langtree, & Co.*—This Company's property consists of 21 acres, comprising gold-mining leases, on which prospecting work has been carried on during the year, with a view of opening up and working the alluvial drift. The depth of wash in this ground is 3 feet. Up to the present no gold has been obtained or saved from the ground. Prospects show 3 to 5 dwt. per ton. A puddling machine has been erected in connection with these leases, and £1,000 has been expended in wages, &c., by the Company during the year.

With regard to the aid that has been received from the Prospecting Vote in this division, I may remark that, although up to the present the prospectors have not been as successful as was at first anticipated; I have every confidence that the tunnel now being driven by Ellis and party, Oakey Creek, will lead to a rich gold vein, as also that driven by Swain and party.

On the 10th September last I regret I had to report the accidental death of one of the prospectors, Louis Dupont, which was caused by his descending the prospecting shaft when it contained foul air.

At Razorback, Palmer's Oakey, Box and Quartz Ridges, work has almost been suspended during the year. There are several fossickers in these places who appear to make a good living, but I have been unable to obtain from any of them any reliable information as to the amount of gold obtained.

The following amount of gold from all sources has been transmitted from this division by gold escort and other means during the year, viz. :—

	oz.	dwt.	gr
For March quarter.....	544	5	4
For June quarter.....	642	2	11
For September quarter.....	950	15	5
For December quarter.....	996	15	7
Total by gold escort.....	3,133	18	3
By other means, so far as I can ascertain.....	1,190	2	3
	4,324	0	6

Being an increase of 1,269 oz. 6 gr. on the amount of gold transmitted during previous year; market value of same, £16,323 3s.

460 miners' rights, 23 business licenses, and 3 mineral licenses have been issued by me; 19 gold-mining leases, and 2 mineral leases have been applied for during the year.

Return of all machinery in the division herewith; estimated value of same, £6,450.

## TAMBAROORA AND TURON DISTRICT—IRONBARKS DIVISION.

*(J. Shillington, Mining Registrar.)*

I HAVE the honor herewith to submit my annual report for 1889. There are many gold-bearing reefs in this division, most of them having been surfaced, *i.e.*, worked by parties of miners till either the water-level was reached, necessitating the expense of pumping machinery, &c., or till they came on stone not payable, when the reef would be abandoned, the reefs here, like many others, being more or less patchy, and without capital the parties could not afford to work through the poorer portions of the reefs. Thus the reefs of this division have never been prospected sufficiently to enable a fair estimate of their value to be arrived at. Only two or three reefs have been tested to a depth of 200 feet, and even these have not been prospected to any considerable extent.

The Golden Gully Gold-mining Company, the most enterprising in the field, has employed about forty men during the year, with the result that the more the mine is opened out the better its prospects appear.

There are many reefs in the district which, in the opinion of practical miners, would be well worth a fair trial. In alluvial nothing new has been discovered during the year, the cradle and sluice-box being, as usual, at work in the old gullies, which have yielded, as far as can be ascertained, about 1,225 oz. gold.

Recently the basalt-covered hills on the west bank of the Macquarie River, at Ya Hoo, for some miles, have attracted considerable attention. Under the basalt is found a cement wash from 2 to 10 feet in depth. The whole of the wash, so far as has been tested, is gold-bearing; over 300 acres have been secured. One company (the Scottish and Australian) have, at Ya Hoo, expended £5,030 in erecting a plant for treating the cement, and are now nearly ready to commence operations, which, if successful, will open up a large extent of similar country.

During the year 50 leases have been applied for aggregating 600 acres, for gold-mining.

Three leases for silver-mining and one for pigment were applied for; 348 miners' rights, 21 business licenses, and 2 mineral licenses were sold during the year.

The total revenue remitted from this office during the year amounted to a little over £1,000.

The total quantity of gold won in the Ironbarks Division during 1889, as far as can be ascertained, was:—Alluvial, 1,225 oz., and from quartz, 1,758 oz.; total, 2,983 oz., value about £11,782; average value per ounce, about £3 19s.

Six tons of copper was won, value £360, or £60 per ton.

## TAMBAROORA AND TURON DISTRICT—HILL END DIVISION.

*(T. Purcell, Mining Registrar.)*

I HAVE the honor to submit my report for the Hill End Division of the Tambaroora and Turon District for the last year, and cannot say it has been a prosperous one. The principal quartz mine, the Cornelian Gold-mining Company, Hawkins Hill, has not been successful, and from various causes I am informed has been carried on at a loss to the Company.

The Red Hill, Tambaroora, was also carried on at a loss to the owners for some time, and closed towards the end of the year.

The reefs at the Root Hog, also, I am informed, are not paying, with the exception of Clymo and Party, which pays well. There are a few other parties working quartz claims, but on the whole are not paying, the most noteworthy event of the year was the find in T. C. Suttor's lease at the head of Hawkins Hill, where very rich stone was found, and Vere and party, who took up the adjoining ground, also struck very good gold. I am informed the gold in those claims is only in patches and not general, they had only one crushing as yet, and it appears it paid the parties well.

In alluvial nothing new has been found, and the old ground is getting poorer yearly. Some claims have been taken up on the Macquarie for sluicing purposes, but as yet have done nothing.

I have been unable to get the amount of gold sent from here since the escort has been abolished, and the bank closed, as the parties are very reticent on the matter.

The number of miners' rights issued during the year was as follows: 309 as against 315 for the previous year; business licenses 17, as against 12 for 1888; 5 mineral licenses for 1889, as against 7 for 1888; gold-mining leases 23, as against 33 for previous year.

I have cheerfully obtained every information from all parties except Mr. Charlton, the manager for Messrs. Newton Bros., Red Hill Mine, Tambaroora, and although I sent your circular with the other forms to him, cautioning leaseholders about withholding information, he has again declined to furnish any information; he did the same last year, and informed Mr. Warden Steel he would give no information to the Department.

Three of the parties who obtained aid from the Prospecting Board here have struck gold, namely, Fraser and Dilliston, who inform me they have struck a vein which pays them £2 per week a man. Macryannis Bros., at the Dirt Holes, and Burns and Graham, at Hawkins Hill, the two latter parties have not yet crushed, but they think the claims are payable.

## MUDGE DISTRICT—DUBBO DIVISION.

*(W. S. Caswell, Warden.)*

I HAVE the honor to make my annual mining report for the year 1889, being the ninth since the discovery of the reefs at Tomingley.

There has been one important discovery of auriferous country during the past year. That is the discovery at Peak Hill, about 13 miles from Tomingley, in the direction of Parkes. A prospecting claim was taken up by Dennis Madden, Thomas Ring, John Hayes, William Fenton, and Gustavus Menzer, on the 3rd July, and registered about the 1st of August. The Peak is 45 miles from Dubbo, from which place coaches run to the field daily. Narromine, 22 miles further from Sydney by rail, is only 35 miles from the Peak, but the route *via* Dubbo is much the best, and travellers are sure of finding conveyance, and save the extra railway journey. A township has been surveyed at Peak Hill, in which there are already established two public-houses, eleven stores, two boarding-houses, two cordial factories, two timber yards, one billiard room, six butchers, three bakers, three blacksmiths, three barbers, two painters, five commission agents, one chemist, and other tradesmen. The town is regularly and well laid out, and

most

most of the allotments have been taken up. Forty-three applications have been received for gold-mining leases in areas from 2 acres to 25 acres. The population which at one time was supposed to have reached 2,000, was, at Christmas, about 700. Many went away harvesting, and others to spend their holidays in their more permanent homes.

I have traced 911 oz. 12 dwt. 2 gr. to the various Banks, the value of which was about £4,082 13s. 4d. A private individual also sent over 250 oz. of gold to the mint worth about £1,000. This is a fair return for four months work, especially as the greater portion of those assembled were speculators, tradespeople, or loafers.

The water supply is and will continue to be the greatest drawback. The miners are solely dependent on the gilgies or dams made by themselves. Clagga Springs, about 4 miles distant, are said to contain an unfailing supply for 2,000 people. There is no other water nearer than the Bogan River, which is not very permanent.

#### *New Rush.*

The new rush, about 4 miles nearer Tomingley than Peak Hill, still bears the name, attracted a considerable body of miners at first, who did a great deal of work, but on the whole the yield of gold was not sufficiently satisfactory. There were not more than twenty miners on the field at the end of the year.

#### *Tomingley.*

No. 1 North, formerly Croft, Reaches, and party, and No. 3 North, are now amalgamated and owned by the Centenary Company, of Orange, under the title of a lease. Their manager reports 533 tons of stone crushed for 237 ounces of gold, valued at £922 6s. 6d. No. 2 North, Crowhurst and party, report an output of 264 tons of stone, yielding 158 oz., worth £614 17s. 8d.

The population of Tomingley, including Myall, still remains about the same as last year, about 250. The water supply has been ample since last April. The Government tank is finished and full of water. There are numerous springs besides.

There are about 51 children attending the public school.

#### *Myall.*

The prospects at Myall Reefs are still considered as good as ever, though the mine has not been worked with the same success. The yield in 1889 was less than 1888, and that less than 1887. Last year the yield was £2,800; in 1888 it was £3,000. The falling off may be attributed principally to want of water. The proprietors have all become wealthy, and having offered the property to a syndicate in England are somewhat careless of results. The 100 tons of stone and tailings sent to England are said to have returned an average of nearly 3 oz. per ton.

#### *Ten-mile Ridge.*

This property, worked by Moore and party, has remained comparatively unworked owing to want of water and breaking down of machinery. Only 130 tons of stone have been crushed for 6 oz. of gold.

Miners' rights, Tomingley:—1888, 149; 1889, 402, being an increase of 253.

Miners' rights, Dubbo:—1888, 86; 1889, 84, being a decrease of 2.

Business licenses, Tomingley:—1888, 8; 1889, 44, being an increase of 36.

Business licenses, Dubbo:—1888, 1; 1889, 3, being an increase of 2.

Mineral licenses, Tomingley:—1888, 4; 1889, 4.

Mineral licenses, Dubbo:—1888, 42; 1889, 10, being a decrease of 32.

#### *Copper.*

Girilambone Copper Mine is still unworked. Rose Hill Mine is in the same position.

#### *Coal.*

In coal there is nothing to report since last year.

#### *Crushing Machinery.*

There are still three crushing machines in the Dubbo Division—one at Tomingley, belonging to the Centenary Company; one at Myall, belonging to Mooney and party; one at Ten-mile Ridge, belonging to Moore and party. That at Tomingley is reported to have crushed 797 tons for a yield of 395 cz. worth £1,537 4s. 2d. That at Myall reports 630 tons for 710 oz. of gold of the value of £2,800.

The gold won during the year 1889, as reported to me, amounts in value to £9,419 17s. 6d., but it is most improbable that I have received an account of all; so that I may claim for the Dubbo Division fully £11,000 worth, the largest yield known in any one year. Many miners came from Molong and Parkes districts, and if they returned there or elsewhere no trace of their earnings can be obtained.

### MUDGEES DISTRICT—WELLINGTON DIVISION.

(*F. Marsh, Warden.*)

I HAVE the honor to forward herewith the reports from the Mining Registrars of the Wellington Division of the Mudgee, and the Ironbarks Division of the Tambaroora and Turon Mining Districts, together with printed forms attached, duly filled up, and showing the detailed particulars of the several workings, &c., in both divisions.

The reports have been prepared with the view of showing as fully as possible the necessary information with state of the gold-fields under my charge. This has been done in a very exhaustive manner, and as it may not be considered necessary to recapitulate the substance of them, I beg that they may be accepted as containing the basis of my report for 1889.

### MUDGEES DISTRICT—MUDGEES DIVISION.

(*William J. E. Wotton, P.M., Warden.*)

I HAVE the honor to state that I took charge of this field in March last, and desire to forward the following report for the portion of the year 1889 of the several divisions under my charge.

*Mudgees Division.*—There has been nothing particularly of any note, but several gold leases have been taken up at Merrendee and one or two other places. It was reported that a powerful syndicate had leased

leased the Log Paddock, Melrose, and the Havilah Estate, to commence operations about October last for alluvial mining upon an extensive scale, but as the work has not been commenced, I cannot say whether the venture has been abandoned or not.

The limestone alluvial field still exists, but has not made any progress. About Apple-tree Flat, individual mining is, as is usual for years past, carried on with varied results.

A private Company has leased land from H. C. White, Esq., of Havilah, for cutting stone for sharpening purposes, and is in active operation, and as the Mudgee stone is superior to the Turkish—evidenced by its realizing a higher price in the market—the shareholders may be congratulated in having a valuable property.

The Robardah Gold Mine, at Cudgegong, is a property which, for money expended, roads made, and machinery erected, is a credit to the shareholders, who now appear to be short of funds to complete the tunnels and add to machinery. I understand negotiations exist with an English syndicate to float this mine, and I know of no mine in the district more worthy of success.

Mining generally in the district is on the increase, the change from the drought causing capital to be invested, and during the present year I anticipate a good deal of ground will be opened up.

In the Mudgee Division during the year applications have been made for—7 gold leases; total area, 75 acres; nil mineral leases; total area, nil; and there have been issued—167 miners' rights, 14 mineral licenses.

The local banks have purchased during the year 4,324 oz. 1 dwt. 10 gr. of gold, and doubtless a considerable quantity has been taken out of the district by miners without sale, and also through private buyers.

*Hargraves.*—Although, I think, in my division I find it is usually reported upon by the Warden at Hill End, and I do not desire to trench upon what may not be strictly within my province.

*Gulgong Division.*—Mr. Chappell is still at Tallewang, and it is to be hoped, his indomitable pluck and energy may meet with reward, as he has expended in machinery and labour a large amount.

Scully's Claim at the Black Lead still works on with varying success; another deserving enterprising miner.

The antimony mine at Ford's Creek is producing fair return, and is being prosecuted with vigour.

Mr. Frame Fletcher, who leased 500 acres of the Guntawang Paddock from Mr. R. Rouse, succeeded whilst in England in floating a £75,000 Company to work same. Since his return here to manage the property he has sunk a working shaft 9 ft. 4 in. x 3 ft. 6 in. in the clear, a depth of 124 feet. The first 90 feet sunk through was hard basalt, immediately under which is some 40 feet of a heavy dry drift. An auger put down 5 feet below bottom of shaft struck water in about 18 inches of drift overlying a heavy quartz wash. The sand forced through bore by water contains fine gold. Steam machinery is now being erected, and as the working capital in this instance is ample, viz., £17,000, other shafts are about being started.

The Venus Gold-mining Company, near Gulgong, have done good work, and erected machinery, and have been crushing with fair results; the formation appears to be a felsite with arseniate of iron and copper. This may lead to an explanation of the origin of the gold at Gulgong, and that it is in lodes, not reefs, and as a comparative stranger here, it appears to me singular that 22 tons of gold, as I am informed, were taken from the field from 1871 to 1875, and yet so little enterprise exists to ascertain from whence it came, as I presume the 22 tons did not fall from the heavens.

At Canadian Lead there is one party who appear to be doing well. They are down 150 feet, and have 15 feet of wash, and although it is difficult to know exactly what they are making, I believe it is at any rate 3 dwt. to the load. Various other places have been opened, but nothing of any very great importance.

The Denison Town field, although strictly in the Gulgong Division, I treat separately.

This field, which has now been opened a few years, contains several parallel lines of lodes which contain gold, galena, carbonate lead, and other silver-producing ores, and also diamonds.

Gold has been found in various portions of the field, as long back as 1870, but the most prominent mine in gold at present is the Mountain Wave, on the Narangarie Line. I believe this is in the hands of some Adelaide broker and expected to be floated shortly.

The diamonds are in the last fall of the Narangarie Range, and would appear to be in river drift, overlain by basalt, which has been denuded. Basalt is visible within a short distance. Some very nice diamonds, although not of any great size, have been obtained, and this mine also is in the hands of Adelaide people.

The Mount Stewart Silver Mine has been worked about two years. The main shaft is 255 feet down, and now driving east and west at 250 feet. This has the appearance, from surface indications, of being a very large lode. Galena was obtained upon the surface, and I believe Mr. C. S. Wilkinson has reported upon it. The underlay shaft, 102 feet to the 90 feet level in the vertical, shows galena and carbonate ore all the way, and I understand the percentage of lead is very high. Work appears to be carried on here systematically and well, and there are signs of healthy activity, which bodes well for the future prosperity of the mine.

I understand this mine is expected to be floated shortly, and if so will give employment to a large number of men.

There are two other lines of lode, namely, the Mount Heart (private property) and Mount Gladstone. Upon the latter, I am informed, very large assays were obtained from nodules found upon the surface, and that the results of a parcel in bulk sent to Adelaide for treatment showed a payable return of both silver and lead. This mine, I understand, is about being floated or capital brought in by a syndicate.

This field bears evidence of great mineral wealth, and its breadth at present proved is some 8 or 9 miles, and I believe were the field known and visited the necessary capital to place it in a prominent position would be forthcoming.

In the Gulgong Division the applications during the year for 11 gold leases, total area, 115 acres; 25 mineral leases, total area, 970 acres; and there have been issued 223 miners' rights, 8 mineral licenses.

The gold purchased by the local banks during the year was 1,200 oz., irrespective of that by private hands.

## MUDGEES DISTRICT—HARGRAVES DIVISION.

(T. O'Brien, Mining Registrar.)

I HAVE the honor to submit my annual report of mining matters, for the year ending 31st December, 1889.

Of the various parties holding leases in this division only one, The Hargraves Gold Mining Company (Limited), continued work during the whole year. The shaft being sunk by this Company has now reached a depth of 240 feet. Several veins bearing gold, but not in payable quantities, were cut during the sinking to its present depth. Nineteen men are constantly employed in connection with this lease. The machinery, which consists of winding and pumping engines, is valued at £3,000.

The Big Nugget Prospecting Lease has not been worked since the 2nd December, 1888. The machinery attached to this property consists of winding, pumping, and crushing engines, valued at £5,000.

The Hargraves Gold-mining Syndicate, which commenced operations in 1888, have sunk three shafts to the depths of 80 feet, 45 feet, and 34 feet, respectively. During this year 201 tons of quartz, yielding 112 oz. of gold, have been raised from these three shafts. Suspension of labour has been granted to this syndicate.

M'Gregor and party have sunk a shaft to the depth of 90 feet on their prospecting lease, at Happy Dick's Hill. Two drives have been put into this shaft, one at the 90-foot level, and the other at the 70-foot level. From the latter, 15 tons of quartz have been raised and await crushing.

The Lizzie Watson has been worked occasionally during the year with hardly payable results.

The Mudgee Reef, lying to the south of the Big Nugget, was at work during the early part of the year. The proprietors applied for, and obtained, suspension of labour for a term of four months. As no preparations for the resumption of work have been made, although the term granted for suspension of labour expired some time ago, it appears that the proprietors do not intend to give the ground a further trial.

No improvement has taken place in alluvial mining. During the year I issued 214 miners' rights, 21 business licenses, and received 6 applications for gold-mining leases.

## MUDGEES DISTRICT—WELLINGTON DIVISION.

(A. G. Chiplin, Mining Registrar.)

I HAVE the honor to herewith submit my annual mining report for the year 1889.

During the past year mining operations have been almost at a standstill in this division.

Several leases for copper-mining have been issued during the year, but only six have been executed by the lessees, many being allowed to lapse.

Only one gold lease was executed during the year.

Two of the copper leases, mentioned above as having been executed by the lessees, are held by the Lindberg Copper Company. Upon these, suspension of labour has been granted for a period of three months, arrangements having been made with a syndicate who are prepared to expend a sum of £3,000 in testing the mines. During the present week a manager sent in the interests of this syndicate has inspected the mines, and has now put on men to work. So that there is now some prospect of the mine having a thorough test.

The Belara copper mines have done very little work during the past year. The quantity of ore raised was 300 tons, giving a return of 16 tons of copper, valued at £800. The furnaces were only working for three months, most of which time was spent in experimenting on gossan containing gold and silver, the gossan assaying 3½ oz. gold and 4 oz. silver per ton. I am informed by the Manager that there are thousands of tons of zinc blend ore, containing 15 to 20 oz. silver and 6 dwt. of gold. The value of the Belara mining-plant is £3,000.

Only a small quantity of gold has been won during the year in this division, principally alluvial, obtained from the river beds.

At the Mitchell Creek Gold Mine operations are to commence almost immediately. New and expensive machinery has been erected by Davis & Co., the proprietors, for treating the pyrites. At this mine a large number of men are to be employed.

During the year one mineral lease and one gold lease were applied for. Miners' rights issued, 40; business licenses, 4; mineral licenses, 3.

Gold won in the division, 120 oz. from alluviums, and 20 oz. from quartz. The total value of same £455. Average value of gold £3 14s. to £3 16s. per oz.

## MUDGEES DISTRICT.—GULGONG DIVISION.

(H. De Boos, Mining Registrar.)

IN submitting my report for 1889 on the state of gold-mining in the Gulgong Division of the Mudgee District, I regret that I can show no improvement in mining matters during the above period.

During March last Parker and party hit upon a "leader" on Salvation Hill, about 2 miles from Gulgong. They found some rich specimens at first, but after working about two months they had to give it up, as the ground was too hard to work, and requires capital for its proper development.

Scully's claim, on the Black Lead, has been idle for the last month or two in consequence of an accident to the machinery, but I believe the energetic proprietor means to start almost immediately.

At the Canadian three or four parties are working, and doing pretty well.

This portion of the gold-field has never been without two or three parties on gold ever since its discovery twenty years ago, and there is no doubt that if the diamond drill were employed in this locality it would have the effect of encouraging the miners to prospect a field that has already proved so rich.

Chappell and party are still at work at Tallawang on the cement, but they have had to contend with great difficulties, and the want of water has been a serious drawback to the working of this ground.

Home Rule and Cooyal still support a small mining population, mostly working in the old ground, and generally earning fair wages. In this neighbourhood is the Perriwinkle Lead, where some very nice specimens of shotty gold were found by the prospectors, who seem to think that this lead will eventually prove as rich as the best of the old leads in this part of the gold-field.

There are several parties at work at Two-mile Flat, and I am informed that one of them has struck payable wash in shallow ground, with every probability of finding a permanent and payable lead.

At Gulgong work is going on at the Old Gulgong Reef and the Star Lead; both parties are obtaining gold, with the prospect of better results, as the work advances.

In Mr. Rouse's paddock (private property), an English Company has obtained a lease from the proprietor, of some hundreds of acres. Work was commenced in September last, and the pumping machinery is now being erected. There seems to be good ground for supposing that this venture will prove successful, as this paddock has produced a large amount of gold in past years, and it is the opinion of some of our old miners that all the leads in this locality trend towards the spot where the Company is sinking the present shaft.

At Ford's Creek, as recorded in my last report, several leases were taken up for antimony mining, but only one claim is being worked, which I believe is paying very well.

At Goodiman also there is a 40-acre lease, where they are obtaining ore of a very good quality, but scarcely enough work has been done to form an opinion upon it at present.

Silver-mining in this district has been very dull during the past year;—some few leases have been taken up, but no work of any account has been done. At the Mount Stewart claim, near Denison town, work has been carried on for the last eighteen months. Considerable capital has already been expended on this claim, as the shareholders consider that from all the present indications it is most likely to turn out a payable undertaking. In the same neighbourhood is the claim of M. Mahon and party, who have been at work for some time, but with what result I am unable to say.

During the year 223 miners' rights, 2 business licenses, and 12 mineral licenses have been issued from this office, and 36 applications for leases have been received. The amount of gold purchased by the banks from January to December, 1889, is about 1,481 oz.

#### MUDGEES DISTRICT—DUBBO DIVISION.

(*W. J. Martin, Mining Registrar.*)

I HAVE the honor to submit my report for the year 1889.

During the preceding twelve months nine applications for mineral leases have been made, comprising in all an area of 420 acres taken up for the purpose of mining for ochre or sienna. I am informed that no work has been performed upon any of this land, but in some instances the applicants are in treaty with foreign capitalists for the purchase of their property, at a satisfactory sum.

I have sold 84 miners' rights, 10 mineral licenses, and 3 business licenses. In nearly every instance these have been applied for by persons proceeding to the new diggings at Peak Hill.

#### MUDGEES DISTRICT—WINDEYER DIVISION.

(*F. Scheibel, Mining Registrar.*)

I BEG to report for your information on mining operations in my division during the past year 1889, and I am sorry to say it is still on the decline.

The proprietors of the Clarke's Creek Claims, Catherine, and Crystal Palace are idle. The machinery belonging to that Company have crushed about 100 tons of quartz for various small holders in the vicinity of Clarke's Creek. No reliable estimate of the yield can be obtained.

There are a number of miners at the alluvial diggings, but without much results, as they are mostly all working old grounds which have been worked before.

There has not been any miners' rights or business licenses issued here since this office was opened in September last.

I hope to have the pleasure of furnishing you a better account of this locality in my next yearly report.

#### LACHLAN DISTRICT—FORBES, PARKES, MOLONG, GRENFELL, TICHBORNE, CUDAL, CANOWINDRA, CARGO, AND CONDOBOLIN DIVISION.

(*E. A. L. Sharpe, Warden.*)

*Forbes.*

I HAVE the honor to submit, for the information of the Honorable the Minister for Mines, my annual report for the year 1889.

I am pleased to be able to state that during the past year mining in its various branches has been prosecuted vigorously throughout the mining district under my charge, and I think a larger number of miners have been following up their industry than for a number of years. Several rushes have occurred, and one of these appears to be permanent, and will probably afford employment to a considerable number of miners for some time to come. In June last Alexander Cameron, Alexander Patton, and Alexander Whitelaw reported the discovery of payable gold at Alick's Flat—a place situated 15 miles north of Parkes, on the Kadina Road. The discovery of alluvial wash was made 24 feet from the surface. The sinking is dry, and the yield on which payable gold was reported was 3 oz. 2 dwt. of gold from 2½ loads of wash dirt. A considerable number of persons, attracted by the exaggerated reports which are always spread abroad on these occasions by some of the metropolitan newspapers, flocked to Alick's Flat. I suppose at one time there must have been 1,000 persons on the field—of all sorts and conditions of men. The prospectors' claim is about half a mile or less from a conditional lease, belonging to A. N. Davy, and the lead, or series of cross leaders containing gold, appeared to follow the creek through this lease and the conditional purchase adjoining. The selector allowed the miners to enter his land and mark claims, on payment of a small sum, instead of insisting upon their waiting for permits and then marking their claims, as required by the "Crown Lands Act of 1884." The result of this proceeding was that all the claims had to be surveyed to ensure the correct boundaries, and a heavy expense had to be incurred, as well as considerable delay, before the permits could be issued. The applicants had to be found, if possible, to identify the claims they had marked. As soon as they had marked, in most cases, they lodged an application with the Warden's Clerk, at Parkes, and then departed to all parts of the Colony, following up their various occupations, and prepared to wait and see if payable gold

gold was discovered. Many of the applicants had interests outside the paddock, and they did not want the permits applied for until the value of their claims on the Crown lands was proved, as they might have to employ labour when perhaps neither holding was payable. Strangers coming in wanted to go to work at once, but said they were afraid to until they had a permit; besides, it was an impossibility to be sure of unoccupied land where there was a perfect forest of pegs. Some of these men waited for a week or two until their means became exhausted, and then had to leave. A great many shafts were however sunk on the conditional lease and conditional purchase without waiting for permits, but up to the present time I am not aware that any payable gold was obtained. Very good prospects in some claims were washed, sufficient to cause a great deal of work to be done. If another rush occurs on alienated or conditionally leased land, I trust that no marking—without the proper authority—will be allowed, so that expense, delay, and discontent may be prevented. At Alick's Flat, after all the expense of survey, &c., only one or two permits were taken up, and the expense of issuing the permits, and filling up the hundreds of shafts which riddle the land in question, will have to be borne by the Government instead of by the persons properly responsible. The Government will also have to compensate the owner for whatever damage has been done by the miners to his property. The rush, however, was a success, inasmuch as a considerable population have settled at Alick's Flat, a township has been formed, and a considerable number of alluvial claims, where the original discovery was made by Cameron and party, will afford steady work with satisfactory returns, probably for some years to come. The place is admirably adapted for a village—the climate and soil are good, water and wood are plentiful, and means of access by fair roads easy. With soil such as to be found at Alick's Flat it is not a hard matter for a miner to make a living, and many miners will doubtless make a home in a place having so many natural advantages. I may add that this is eminently a gold-bearing district; various gold-bearing reefs have been worked in this locality in time past, and it is very probable that valuable discoveries in quartz and alluvial gold will be made when the miners have time to prospect the surrounding country thoroughly. I think the permanent population may be put down as between 300 and 400.

#### *Forbes.*

At Forbes I regret to say that various mines, which were in full work at the close of last year with apparently good prospects, have been obliged to cease work, the yield of gold not being sufficient to pay expenses, which were in the old alluvial workings on the south lead exceptionally heavy. Of the mines still working the Britannia Quartz Mine is the principal, but owing to various causes the Company have barely been able to pay expenses. The machinery was blamed for losing the gold, and there was great dissatisfaction with the management. Recently a new manager, with high testimonials, has been appointed, and the best and most reliable gold-saving appliances have been purchased. Under these circumstances the directors of the Company look forward with confidence to proving the Britannia a payable reef.

On the North Hill, in the town of Forbes, in September last, in what appears to be a lode, a quantity of free gold was obtained at a depth of about 10 feet, by Messrs. Green and party. This lode is on purchased land, and consequently labour is not employed in the mine as it would have to be on Crown lands, or if the land was held under a permit. I am unable to get reliable information about this lode, but it is said to be 4 feet wide, and that stone from it or lodestuff crushed in Sydney yielded at the rate of 8 oz. per ton. Several applications have been made to work adjoining ground through which the lode is supposed to run, and if these are granted its value will soon be proved.

In the alluvial ground near the town the Phoenix Claim, on the Victoria lead, has been fairly payable, that is, it has yielded wages during the year. Just at present this claim is idle, owing to an influx of water. I am informed, however, that work will shortly be resumed.

At the Bald Hills Mine, 3 miles north of Forbes, work is being carried on with energy and success. New and costly machinery has been erected, with the result that small but regular dividends have been paid from wash-dirt returning about 6½ dwt. per load. The plant is now capable of putting through 300 loads of wash-dirt per week, which, it is estimated, will yield 90 to 100 oz. of gold. The wages and expenses are reckoned at £100 per week. This leaves a good margin for profit, and the prospects of the mine are considered very satisfactory. The company hold 35 acres of ground—mostly new ground—and employ thirty men.

The Pinnacle reefs, on Boyd Run, 20 miles from Forbes, are still being worked by Messrs. Nicolas and Raymond with, I am informed, satisfactory results. It seems to me that this mine would be more profitable if worked on a larger scale. There is a large body of stone, not rich, but very even as regards the quantity of gold it contains. With a large battery, and the mine properly opened up, it seems reasonable to suppose that the reef would pay better than it does at present with a few men, a small battery, and an insufficient supply of water.

#### *Parkes.*

At Parkes, which is the chief mining centre of this portion of the Lachlan mining district, a good many quartz claims are at work, from which satisfactory returns are obtained. A large number of miners are employed. New machinery has been introduced, and is in course of erection, and reefs which have been abandoned for years have been taken up by capitalists, who will doubtless give them a satisfactory trial. Hazlehurst's claim, to which reference has been frequently made in my former reports, and which has been working constantly since the latter end of 1883, has just been sold to a Company for £20,000. This block reef varies in width from 5 feet to a few inches. It has been worked along the line of reef about 150 feet, and to a depth of 220 feet—the highest yield has been 10 oz. per ton for 56 tons, but the reef has averaged all through over 3 oz. for, say, 2,500 tons of stone. If this mine only continues to yield in the future as it has done in the past, the new owners have a bargain. A recent crushing of 134 tons of stone from the Kohinoor Mine gave 26½ oz. of gold, and I am informed that there is plenty of stone of a similar character in the claim, that it is easily got, and that, at the 170-foot level, the reef is 3 feet wide. Fitzgerald and party, at Possum Gully, have a reef 4 feet wide, and obtained 110 oz. of gold from 65 tons of stone. I noticed a party of miners working at the head of the Welcome Lead, about 3 miles south of Parkes, and was informed that they had discovered a new reef from which they had obtained some very favourable prospects. Gold leases 47, 48, 49, 50, and 86 are held and worked by the Bushman's Hill Gold-mining Syndicate. £2,000 has been expended principally in sinking a main shaft, which

which will, it is supposed, prove the value of the mine—as soon as the drives are extended—which will be at a depth of 240 feet. Encouraging prospects were obtained at a depth of 140 feet, but the working manager informs me he intends sinking 100 feet deeper before driving along the reef. This Company are erecting two Huntingdon crushing-mills, with concentrators; these will soon be completed, and I am informed that one of them will be available for the public.

Machinery said to have cost £2,000 is just about to be erected for the treatment of the tailings at the Old Dayspring Mine, at Carrajong, near Parkes. If the treatment is successful, tailings are plentiful, in this district, some of which should give handsome returns, especially where pyritous stone has been treated.

#### *Tichborne.*

At the Tichborne, on the Old Wapping Butcher Lead, in July last, some very rich specimens were discovered in a 10-acre lease, known as Barnett's. This lease is right in the centre of the old alluvial workings, and the specimens I have mentioned were found in small leaders, 50 feet in the bed rock—that is, 110 feet from the surface. The small veins of quartz occur in a diorite belt, and in very favorable country for auriferous deposits. From the shaft in question about 137 oz. of specimen were obtained from, say, 2,000 oz. of stone.

#### *Grenfell.*

On the 23rd of July last Maher and party reported the discovery of payable gold in the alluvial, at Eureka Flat, about 8 miles west of Grenfell. This party were working with Government aid on a selection standing in the name of Adam and John Shannon; they held a protection area by virtue of a permit, and, at 215 feet from the surface, bottomed on washdirt which gave 7 grains of gold from two dishes of dirt. On the strength of this prospect, various parties of miners applied for permits, four or five shafts were sunk and bottomed on the lead—a few loads of dirt were puddled and gave from 3 to 4 dwt. to the load. The prospectors then washed a few loads with the same result. The place was then abandoned. I have nothing to report as regards the various reefs at and in the neighbourhood of Grenfell—a little work has been done, but the results have not so far been very satisfactory. At Sandy Creek, I am sorry to say the reefs have not proved payable. From 10 claims, 446 tons 19 cwt. of stone were crushed for a return of 195 oz. 20 gr. This was not payable, and caused a cessation of work except in one claim. If the battery which was erected by a private company remains at Sandy Creek it may be an inducement to miners to give the reefs a further trial. If it is removed I am afraid they are likely to be idle for some time to come.

#### *Canowindra.*

At Canowindra a good deal of work has been done on various reefs, with satisfactory results. I may mention that a crushing of 125 tons of stone, obtained in six weeks, gave rather over 2 oz. to the ton. This was from the Blue Jacket Reef. In this division of my district—which is eminently a reefing country—a good many permits have been applied for and issued, but it is as yet too soon for the various parties to have proved the value of their claims. A great deal of land has been alienated in this locality which should, in the interests of mining, have remained Crown land. It may be said that a permit does not cost a prospector anything. It does not in money, but it does in time. A poor man cannot afford to remain waiting for a permit in a place. His means are soon exhausted, and for this reason it seems to me that sufficient care was not exercised to prevent land containing reefs known to be auriferous from being sold—land, too, which, with the exception of a few alluvial flats, is only adapted for mining purposes. I should like to bring under the Minister's notice an abuse that exists in connection with permits. Certain persons apply for permits to mine in localities known to be auriferous. These permits they obtain and hold, and then sublet on terms. The permit costs nothing, and should the reef prove payable the speculators reap a handsome profit without expense or risk. I venture to think that it is necessary to make the holder of a permit work himself or else employ labour. Transfers of any kind should not be recognized, if the intention of the Act under which these permits are granted is to be carried into effect; I venture to think, too, that additional regulations are required to enable applications for permits to be dealt with promptly and properly. For instance, in most cases, all that is necessary, when the Warden is aware that the land is available, is to ascertain who is the first applicant. When, as often happens, there are several applications lodged at the same time for the same land, as there is nothing in the Land Act to empower marking until a permit is issued, a difficulty arises, which additional regulations might cure.

#### *Cargo.*

The principal mine at Cargo is the Ironclad, and this has been idle for some time owing to want of water for crushing purposes; but new machinery has been erected for treating the refractory ores, which this mine contains in considerable quantity. Fresh capital has been obtained to further develop the mine, and to effect necessary improvements in machinery, &c. The battery, which was at some distance from the mine, has been removed close to it. The main shaft has been sunk to a depth of 163 feet, and the work is proceeding. A large body of fair grade ore is in sight, and the prospects of the mine are regarded as satisfactory. A good deal of work has been done on the Dalcouth Mine. Two shafts have been sunk—one 140 feet, the other 90 feet. Mr. Powers, the owner of this mine, has, I am informed, spent £800 on this property, and has about 100 tons of stone raised, but there is no public crushing at Cargo, and it would not pay to cart the stone to a remote battery. Another mine at Cargo is that known as the Golden Clad, which was owned by Mr. W. J. Frank, of Sydney, but is now the property of a Company with a capital, I am informed, of £30,000. A large dam has been excavated, and a crushing plant will shortly be erected. Gazzard and party are working a lease at Gum Flat, but as yet have nothing payable.

#### *Cudal.*

At Boney's Rocks, on what is known as the American line of reef, J. E. Evans and party are working under a permit on Gransden's selection. This party have been doing a great deal of dead work, cleaning out an old shaft, deepening it, and putting the claim in working order. They recently crushed  $4\frac{1}{2}$  tons of stone at Canowindra for a return of 5 oz. 2 dwt. 12 gr. The London Claim, which is a short distance from that of Evans' and party, and on Crown land, has a shaft 210 feet deep, with a cross-cut in which is a vein estimated to carry from 3 to 4 oz. to the ton. Ten tons of stone have been crushed from this claim during the past year, and yielded 2 oz. per ton. In Shield and party's lease, which is about

12 chains north of the London Claim, a good deal of work has been done with the assistance of the Government vote. Six tons of stone from this mine yielded 13 dwt. of gold per ton. Two tons were treated at the Mint for a return of  $1\frac{1}{2}$  oz. per ton.

On O'Brien's lease, which adjoins that of Shield and party on the north, 2 shafts have been sunk, one 60 feet deep and one 120 feet. Three men are employed, and both shafts are on the reef, which shows gold freely, and varies in width from 4 to 30 inches. This party have crushed during the year 12 tons of stone for a return of  $2\frac{1}{2}$  oz. per ton. They have at the present time 40 tons of stone at grass.

At the Paling Yards, the Prospectors' Courts and party hold 8 acres under a permit, on a conditional lease, the property of John Kearney. This party have sunk three shafts an average depth of 45 feet on a lode which varies in width from 3 to 10 feet. They have about 10 tons of lodestuff at grass, estimated to yield 1 oz. to the ton. If this return is obtained, the lode is probably payable, and should afford employment to a large number of men. The prospectors have erected a small battery of 5 stamps at the mine.

#### *Molong.*

In the Molong division of my district, the principal mine at work is that known as Delaney's Dyke. Extensive crushing and gold-saving appliances have been erected at the mine, and it appears to be in a flourishing condition. I am informed that some of the lode yields at the rate of half an ounce to the ton. This return, with a large body of lodestuff, should make this mine a very valuable property.

In conclusion, I may state that during the past year, in the Parkes Division, as nearly as I can ascertain after careful inquiry, 4,886 oz. 3 dwt. and 16 gr. of reef gold was obtained, and 3,360 oz. 11 dwt. and 20 gr. of alluvial (chiefly from Alicktown), making a total of 8,247 oz. 3 dwt. and 12 gr. I must remark, however, that probably a small quantity of alluvial gold was obtained from the Peak Hill diggings, which is in the Wellington mining district. The returns I have given are from the various Banks at Parkes.

#### LACHLAN DISTRICT—YOUNG DIVISION.

(*S. Robinson, Warden.*)

I HAVE the honor to furnish my report for the year ending 31st December, 1889. The quantity of gold won in this division was 3,872 oz. 12 dwt. 23 gr., and of the net value of £14,904 3s. 8d. This is an increase over the previous year to the extent of £4,292 6s. 6d.

There has been a slight falling off in the issue of rights and licenses. In 1888 the number of miners' rights applied for was 574, whereas in 1889 only 534 were disposed of; eighty-six of these were taken out at Murrumburrah. I may also add that business and mineral licenses stood in 1888 at thirty-two and thirty-three respectively; in 1889 they were respectively twenty-three and twelve. The increase, yield of gold, arose from active operations recently prosecuted at the New Burrangong Company's works. That single leasehold has given to the year's production no less than 2,019 oz., worth £8,259 9s. The mine is alluvial, situated on Burrangong Creek, about 2 miles from Young; thirty-five men are at present employed on the works. Three stationary and two portable engines are in use, and of 60-horse-power, aggregate. The depth of shaft, 110 feet; lowest level, same depth. The lode varies in width from 20 feet to 100 feet, running north and south. The plant is worth £2,500. Adjoining is the South Burrangong holding, which is also alluvial, thirty men are on the works, with two portable engines of the aggregate power (30-horse-power.) The estimated value of the plant is £1,500; depth of shaft, 87 feet; lowest level also stands at the same depth; the lode runs due north and south. As yet only 28 oz. of gold have been extracted.

The Cunningar, extensive works near Murrumburrah, I have not been in a position to visit the place during the year, nor have I been successful in getting information from those in charge of the establishment. For description of the mine my report for 1888 may be referred to.

Messrs. W. S. Barnes and Sons, near Wombat, on their private property, have realized £700 for gold won during the past twelve months, with only four men employed. The mine is quartz, worked at lowest level of 80 feet, which is the depth of the shaft. The vein is 12 inches by 12 inches, and dips 10 inches in 100, bearing nearly east and west. The plant consists of a 10-horse-power engine, with battery valued at £500.

At Good Friday Gully somewhere about twenty men are earning fairly good wages.

Altogether, in my division about 220 men are engaged in gold-mining.

#### LACHLAN, TUMUT AND ADELONG DISTRICT.—TEMORA, BARMEDMAN, JUNE, AND COOTAMUNDRA DIVISIONS.

(*James Baker, P.M., Warden.*)

I do myself the honor to submit my annual report for the several divisions under my charge, that is to say, Temora, Barmedman, June, and Cootamundra. The several Mining Registrars and Warden's Clerks inform me that they have reported fully in *re* the statistical and other information required of them for the respective divisions. I need not, therefore, occupy either time or space in repeating what they have so well reported.

#### *Temora.*

*Population.*—The permanent settlement of the town and its environs are without doubt increasing, and the stability of Temora as an important inland town is perhaps more assured now than at any previous time; and this, too, despite the decrease in the mining population, as also in the yield of gold. This apparent, and, I think, real, stability is very largely due to the superior quality of the soil of the district for general cultivation and the genial nature of the climate. Both soil and climate are very suitable for horticulture, agriculture, and grazing. As fast as the land is thrown open for settlement it is taken possession of for *bona fide* settlement. Gardens, orchards, and vineyards are now in almost every direction taking the place of the "sifting bush" and "wild bush." In the growth of cereals too the district has been very successful. The orchards, gardens, and vineyards, planted from three to, say, five years ago, are this year bearing profusely, and supplying the town with very superior fruit and other produce of excellent quality. The increased activity in settlement on, and production from the soil, enables the town to do a little more than hold its own, even during a season of great mining depression, and if one may be guided by the present and the past in forming a forecast for the future, that future, for Temora, is certainly full of promise.

Returns

Returns kindly supplied to me by Sergeant Buckley show the population of the town of Temora in January last (1890) was 1,025. He could not give them for January, 1889, but in that month of 1888 the population of the town was 1,146. This shows a decrease in town population in two years of, say, 120; but notwithstanding this decrease, the district, including the town and its environs, has for the last three years held its own, and for the year 1890 there was an actual increase of population. The district in January, year 1889, had a population of 1,960, while in January, 1890, it was 2,018, or an increase of fifty-eight, added to the decrease of population in the town, shows that during the year 1889 the population of those who have settled on the land was increased by fully 100 persons, or some twenty to twenty-five families.

*Yield of gold.*—During 1889 there was a smaller number of miners working on this field, and a smaller yield of gold produced by it than in any previous year of its history since 1880. The following tables have been kindly given to me by Sergeant Buckley, the Gold Receiver at Temora:—

RETURN showing the quantities of gold received by the Gold Receiver at Temora, for transmission by Gold Escort, during the year 1888:—

	oz.	dwt.	qr.
24 January .....	542	2	12
21 February .....	71	19	15
20 March .....	239	15	9
17 April .....	308	4	6
15 May .....	57	0	0
12 June .....	159	15	19
10 July .....	291	8	12
7 August .....	59	5	5
4 September .....	239	1	18
2 October .....	161	8	18
30 " .....	119	13	0
27 November .....	53	17	16
25 December .....			
Total .....	2,353	12	10

RETURN showing the quantities of gold received by the Gold Receiver at Temora, for transmission by Gold Escort, during the year 1889:—

	oz.	dwt.	qr.
22 January .....	34	10	18
19 February .....	40	1	10
19 March .....	171	16	9
18 April .....	37	10	15
14 May .....	404	13	9
11 June .....			
9 July .....	79	6	4
6 August .....	125	19	3
3 September .....			
1 October .....	150	4	3
29 " .....	154	1	0
26 November .....	115	1	5
24 December .....	56	0	5
Total .....	1,369	4	19

For the purpose of comparison I give the amount of gold sent by escort from Temora for the years 1881 to 1889, both years inclusive:—

Year.	oz.	dwt.	qr.
1881 .....	29,652	14	4
1882 .....	33,348	0	7
1883 .....	17,347	8	6
1884 .....	14,381	16	1
1885 .....	7,865	15	9
1886 .....	7,161	10	3
1887 .....	3,406	14	13
1888 .....	2,353	12	10
1889 .....	1,369	4	19

That gold, however, includes both Temora and Barmedman gold; how much each of those divisions produced respectively, I cannot exactly say. The Mining Registrar, however, gives the quantity from Temora proper for the year 1889, at 690 oz., and the average price £3 17s. 6d., or in money value £2,673 15s. The reasons for the falling off in the yield of gold are various. A considerable number of miners have left the district, and some of those who remain here devote a considerable part of their time to other pursuits, chiefly land cultivation. The great feature of this field has been its alluvial mines, but the payable alluvial land as far as it is known is gradually getting exhausted, and of course the area of such land available to the miner is year by year getting less. Little or no prospecting has been done for some two years past. So that as far as appearances are concerned Temora, as an alluvial gold-field, is thought by some to be very nearly worked out. I do not, however, consider this to be a correct view of the case. Perhaps the "eyes of the field" have been picked out, but even this is by no means certain. For years past Mr. Geological-Surveyor Wilkinson has held the opinion that a "second bottom" of what is known as the main Temora alluvial lead to be possible, and even probable; but this was pooh-poohed by a considerable number of the class of men who dub themselves "practical miners," and practically regard themselves as infallible, and who sneer at what they are pleased to call the absurd theories of the non-practical scientific men, forgetting that the theories of the scientists are for the most part based upon or deduced from ascertained facts. I do not say that I actually believe there is such "second bottom," but I do think the probabilities are in its favour, and the workings in two of the mines at Upper Temora during the year 1889 tend to support that belief. In those mines gold in paying quantities from small fissures or ravines at depth varying up to some 30 feet below the old workings. And as far as I know, none of these fissures were bottomed. These auriferous workings have not of course demonstrated that there is a second bottom, but they have given additional reasons for its probability. And I certainly would like to see a series of bores put down under the supervision of the Geological Department to test it.

In quartz-mining we have not progressed much. From want of good management, want of sufficient capital, or from want of both, or from some other cause, the quartz mines of this district have never been fairly tested by proper systematic and economical working. One party after another have gone in to work them, and in one or two instances practical managers have been put in charge, but before these men could do either the mines or themselves justice, the money has run out, or from some other cause operations have been suspended. As far as they have been tested, the quartz lodes are "patchy" and uncertain. A large portion of them are very poor; then there has been a large waste of labour and expenses in their working, and the natural result, disappointment and loss.

During the year, a little spurt was given to the mining interest at Scrub Yards, and three parties are working there, and have, they think, fair prospects, but up to the present time none of them have yielded sufficient gold to pay for the cost of getting it.

Tin has been discovered at West Mandamah, some 30 miles from Temora, but whether payable or not I cannot say. Up to the present time it has not been proved payable. The discoverers sold their interest to a syndicate, and after spending a considerable amount of money in excavating a large tank, sinking shafts, &c., the syndicate have, I am informed ceased working, and are now offering their property for sale. It would therefore appear that whatever in future may develop, the workings have not yet given encouraging results.

#### Barmedman.

This division is in a very depressed state, the Mining Registrar gives the output of gold for the year at 449 oz. 19 dwt., which, at £3 17s. 6d. per oz. would be of the money value of £1,743, omitting fractions. This result was obtained from 845 tons of stone. This is essentially a "reefing district." No payable alluvial workings have been discovered there, and the quartz workings have been very much at a standstill during the year, partly for want of fresh water for steaming purposes; partly because the works in the principal mines have been more or less suspended, pending a London syndicate floating them into a Company with sufficient capital to efficiently test their value; and partly because some of the mines are held by the lessees for purely speculative purposes. Great discontent is often expressed at the quantity of auriferous land practically locked up unworked by the holders of gold-mining leases. The last time I was at Barmedman, Mr. Love, the Mining Registrar, mentioned the matter to me, and I requested him to give me the facts in writing, which he has done, and I now give the following statement as furnished by him:—

STATEMENT *in re* nine gold-mining leases demising auriferous land at Barmedman, concerning which the labour covenants do not appear to have been reasonably observed.

Lease No.	Portion	Area	Labour Cond.	Remarks.
		a. r. p.		
107	50	9 3 0	10 men	No work done on this lease, for about 8 months.
132	60	4 3 19	6 "	Last work done, August, 1888.
161	81	4 1 11	6 "	Last work done, May, 1889.
163	51	9 1 10	9 "	One crushing of 8 tons, in last 18 months.
190	111	3 3 19	6 "	Last work done, about May, 1889.
221	114	2 0 0	2 "	No work done since lease granted.
230	112	5 0 0	6 "	No work done, for over 12 months.
201	185	4 0 0	4 "	No work done, for over 12 months.
224	416	11 0 0	8 "	No work done, since September, 1889.

I may say that the holding of leased land without reasonable observance of the labour covenants is not confined to the Barmedman Division, but is a rather general failing on all the fields I have visited. I purpose writing at length upon this and some other matters which I think should be brought under the special notice of the Department. But to deal with these matters now would delay this report. I hope, however, to submit the paper within a fortnight or so, and perhaps, if it should be desirable, it might be printed as an appendix to the Under Secretary's Annual Report.

#### Cootamundra.

There has been very little mining done in this division for some years past, and what has been done has been in the neighbourhood of Muttama. Two parties only are at work namely, the Excelsior Company at Muttama, and the Mount Morgan Company, near Coolac, both of which are working in quartz. The Excelsior Company obtained during 1889, 128 oz. from 154 tons of stone, and the Mount Morgan, during the same year, obtained 75 oz. of gold from 179 tons of stone. About 15 miners are working alluvial ground and during the year obtained about 75 to 80 oz. of gold, making the yield for the division from quartz and alluvium combined, say, 280 oz. of gold, which, at £3 17s. 6d. per oz., would be in money value £1,085. About 26 miners are at work in the division.

The neighbourhood of Muttama and Mooney Mooney offer for the judicious employment of capital and labour, in the working of the unquestionably rich quartz loads that traverse the country, and it is difficult to understand how it is that a district so full of promise should be so much neglected by the enterprising mining capitalists.
