Recreation.

Land Titles Office,
Sydney, 8th April, 1893.

CHARLES PINHEY,
Registrar-General.

Sydney: Charles Potter, Government Printer.—1893.

[3s. 3d.]

1892-3.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS BILL.

(MESSAGE No. 23.)

Ordered by the Legislative Assembly to be printed, 25 January, 1893.

JERSEY,

Governor.

Message No. 23.

In accordance with the provisions contained in the 54th section of the Constitution Act, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to make further provision for the leasing and sale of and for the granting of licenses over Crown Lands, and for the prevention of divers abuses in connection therewith; to repeal the existing law as to the extension of pastoral and homestead leases and make other provisions in that behalf; to extend the law in respect of compensation for improvements; to enable resumed areas to be attached to leasehold areas in certain cases; to provide for the division of leasehold areas in certain cases; to permit a new appraisalment of certain appraised rents to be made in rabbit-infested districts; to amend the law as to purchases, leases, and licenses heretofore made, granted, or applied for, and to declare the law in regard to matters as to which doubts have arisen; to validate certain conditional purchases heretofore confirmed, and to make better provision as to invalid purchases and leases, and as to surrenders and exchanges, and to extend the powers of the Governor in respect thereof; to amend the law as to dedicated lands and the revocation of dedications; to extend the Minister's power to refer to the Land Appeal Court cases on behalf of the Crown; to make better provision for the opening of roads, driftways, canals, and cuttings for irrigation purposes, and for making compensation in respect thereof, and for making compensation and limiting or modifying resumptions in respect of roads already opened; to declare reserved and other roads in certain cases to be dedicated to the public; to amend the law for the closing and sale of unnecessary roads; to make provision for the resumption of alienated lands for purposes of settlement out of moneys to be provided by Parliament for that purpose, and to enable the "Land for Public Purposes Acquisition Act" to be applied to such resumption with certain necessary modifications thereof; to provide for certain penalties and forfeitures; to make further provision for the care, control, and management of Crown Lands; to effect amendments in such statutes as may be necessary to give full force and effect to the aforesaid provisions; and for other purposes in connection with Crown Lands; and to revive certain provisions of the "Stock and Pastures Protection Acts" in respect of the destruction of rabbits; and to amend the existing law in certain respects as to contributions towards the cost of rabbit-proof fences and the persons liable to pay the same; and to effect amendments in such statutes as may be necessary to give full force and effect to the aforesaid provisions; and for other purposes connected therewith.

Government House,

Sydney, 25th January, 1893.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LAND ASSOCIATED SETTLEMENT BILL.

(MESSAGE No. 2.)

Ordered by the Legislative Assembly to be printed, 30 May, 1893.

R. W. DUFF,
Governor.

Message No. 2.

In accordance with the provisions contained in the 54th section of the Constitution Act, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to provide for and regulate the granting and renewal of Settlement Leases of Crown Lands to Settlement Associations, with right of purchase under certain conditions; for the granting and repayment of loans in connection therewith; for the amendment of the law so far as is necessary to fully effectuate the above objects; and for the doing of all things necessary or incidental thereto.

*Government House,
Sydney, 30th May, 1893.*

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

LAND LAWS.

PETITION FROM CERTAIN SELECTORS, INTENDING SELECTORS, TOWNSPEOPLE OF PILLIGA, AND OTHERS INTERESTED, REPRESENTING THE OPINIONS OF THE PETITIONERS RELATING TO THROWING OPEN FOR SELECTION AT THE EXPIRY OF PRESENT LEASES THE LAND COMPRISED IN THE LEASEHOLD AREAS OF THE NORTH-WESTERN DISTRICT, CENTRAL DIVISION.

Received by the Legislative Assembly, 8 September, 1892.

To the Honorable the Speaker and Honorable Gentlemen of the Legislative Assembly, in Parliament assembled.

The humble Petition of the undersigned selectors, intending selectors, townspeople of Pilliga, and other persons interested,—

RESPECTFULLY SHOWETH:—

That in the opinion of your Petitioners the land comprised in the Leasehold Areas of the North-western District, being portion of the Central Division, is required for settlement, and should, therefore, be thrown open for selection at the expiry of the present leases.

That your Petitioners consider the present system of auction sales of Crown lands detrimental to the public interests, and that all sales, other than of town and suburban lands should be entirely stopped

That at a public meeting largely attended, held at Pilliga on July 16th instant, resolutions to the above effect were unanimously adopted, and it was then resolved to urge the same for your consideration.

And your Petitioners, therefore, humbly pray you will give the above matters your favourable consideration when dealing with legislation concerning the public lands.

And your Petitioners, as in duty bound, will ever pray, &c.

[Here follow 78 signatures.]

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

LAND LAWS.

(PETITION FROM THE PRESIDENT, VICE-PRESIDENTS, AND HONORARY SECRETARIES OF THE WAGGA WAGGA LAND CONFERENCE.)

Received by the Legislative Assembly, 20 September, 1892.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the President, Vice-Presidents, and Honorary Secretaries of the Wagga Wagga Land Conference,—

SHOWETH :—

That a Conference of delegates from Farmers' Unions throughout the Colony of New South Wales, at which delegates from the following places—Albury, Adelong, Adelong Crossing, Brookong, Berrigan, Boggy Creek, Cootanundra, Clear Hills, Corowa, Cookardina, Goulburn and Crookwell, Coolamon, Currawarna, Doodle Cooma, Grogan, Germanton, Grong Grong, Gundagai, Grabben Gullen and Wheo, Hume, Howlong and Moorwatha, Junee, Jackson's Waterholes, Lalla Rookh, Mundawaddera, Moama, Maude, Morongla, Mimosa and Broken Dam, Narrandera, Nyngan, Pleasant Hills, Parkes, Queanbeyan, Rosewood, The Rock, Temora, Tumbarumba and Tumut, Tubbal, Urana, Urangeline Creek, Walla Walla, Wagga Wagga, Wallenbeen, Yerong, Yass, and Young—were present, was held at Wagga Wagga from the 22nd to 24th day of June last past, at which Conference, after full argument and discussion, the following resolutions were agreed to :—

Non-extension of Pastoral Leases.

That this Conference protests against any further extension of the pastoral leases in the Central Division, inasmuch as the lands so held are urgently required for *bonâ fide* settlement, and that any further extension of these leases after the termination of the present term of ten years would be adverse to such settlement, and detrimental to the best interests of the Colony.

Special Areas.

That the special area provision should be applied only to lands within suburban and population areas. That the Minister for Lands be urged to reduce the prices, and extend the time for payment of instalments on special areas that have already been selected, where it can be shown in open court that the price is excessive. That in all future special areas Local Land Boards shall fix the maximum price and area.

The Rabbit Question.

That in the opinion of this Conference the proposition of the Minister for Lands to run a wire-netting fence from Albury to Narramine, *via* Blayney, is against the best interests of at least half the agriculturists and pastoralists of New South Wales; and this Conference would earnestly ask the Minister for Lands to delay his proposition, with a view to starting the said barrier-fence from (say) Moama, on the Murray, *via* Deniliquin, Jerilderie, and Narrandera; thence to about Devlin's Siding; thence northerly to Merool Creek, below Mandamah; thence *via* Uigolo to Condobolin; thence northerly to the Bogan, and along that river on its left bank to some point near Nyngan, on the Western Line.

(2.) This Conference would urge the Minister not to proclaim any district rabbit infested unless it be recommended by a majority vote of the landholders affected.

Conditional and Annual Leases.

That in the opinion of this Conference the system of charging rent for conditional leases and annual leases from the date of application, and not from the date of confirmation, is an injustice to the selectors of this country, and should be amended by the Minister as early as possible.

Survey Fees.

That in the opinion of this Conference the present survey fees are detrimental to the best interests of settlement, and should be abolished.

Railway

Railway construction to centres.

That, in the opinion of this Conference, it is desirable that lines of railway be constructed to all important centres, as an incentive to settlement.

Finality of selection.

That Parliament be recommended to introduce some means of dealing with finality of selection, in order to induce people to stay upon the land.

Reserves on resumed areas.

That this Conference urges that all reserves not intended for public purposes on resumed areas be at once made available for settlement.

Land Boards.

That, in the opinion of this Conference, the Local Land Boards should consist of a chairman, appointed by the Government, and two members, to be elected for a term of three years by the residents of the district over which such Boards have jurisdiction.

Travelling Stock Reserves.

That all travelling stock reserves be withdrawn from leases and placed under the supervision of the local Stock Board and Stock Inspector, in order to keep the highway for stock protected from loafing stock and open for stock going to market.

Noxious Weeds.

That the Government be asked to eradicate the noxious weeds on the travelling stock reserves and highways, and compel adjoining land owners to do the same.

Local Government Bill.

That this Conference desires to express its opinion of the necessity for a Local Government Bill.

Diseases in Sheep Act.

That now that Parliament is about to consider the amending of the Diseases in Sheep Act this Conference recommends that the whole of the Acts relating to stock matters be incorporated or consolidated in one comprehensive measure, to be administered by the local Stock Boards, elected by stock owners in the various districts in order to relieve the owners of the annoying complications continually arising under the present system.

Public Roads.

That all necessary surveyed roads intended for the public convenience be opened.

The 46th Clause.

That in the opinion of this Conference the 46th clause of the Land Act of 1889 should be repealed.

Conditional Purchasers and the Land Boards.

That in the opinion of this Conference the delay caused to conditional purchasers by the lengthened and irregular periods of the sittings of the Land Boards and Land Court is detrimental to the settlement of the people on the land.

Petition to Parliament.

That a petition be drafted, embodying all the resolutions passed, this petition to be signed by the officers of the Conference, and as soon as practicable presented to the Minister for Lands, the Minister for Agriculture, and to Parliament.

Your Petitioners therefore humbly pray that your honorable House may be pleased to take the foregoing resolutions into your consideration at such time or times as the various matters therein referred to are before your honorable House.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 5 signatures.]

1892-3.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

PASTORAL LEASES IN THE CENTRAL DIVISION.
(PETITION FROM CERTAIN SELECTORS, HOMESTEAD LESSEES, AND OTHER RESIDENTS OF
WALGETT, AGAINST RENEWAL OF.)

Received by the Legislative Assembly, 9 February, 1893.

To the Honorable the Speaker and Honorable Gentlemen of the Legislative Assembly of New
South Wales.

The humble Memorial of the undersigned, Selectors, Homestead Lessees, and other interested
Residents of the Walgett and surrounding District,—

RESPECTFULLY SHOWETH:—

That it is essential, in the interest of the residents of this district and the country generally,
that when the present leases held by the pastoralists in the Central Division expire in 1895 there shall be
no further renewal of the same, as the land is urgently required by the people for settlement.

That there are at the present time hundreds of people in Victoria, Riverina, and elsewhere who
are anxious to obtain land in this district, but are unable to do so owing to the land being locked up in
the leasehold areas.

That we would respectfully draw your attention to the undermentioned statistics, gathered by us
at the Walgett Land Office:—

That from 1st January, 1888, to 1st January, 1892 (inclusive), 1,352,758 acres were applied
for at Walgett.

That the above statistics are conclusive proof of the demand for land in this district.

And your Memorialists respectfully pray that, after taking the foregoing into your consideration,
you will be pleased to recommend the refusal of any further extension of the leases referred to in this
Memorial; and your Memorialists, as in duty bound, will ever pray.

[Here follow 123 signatures.]

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS.

(APPRAISEMENT OF BULLANAMING RUN, MONARO DISTRICT, FOR THE YEARS 1884, 1885, 1886, 1887, 1888, 1889, AND 1890.)

Ordered by the Legislative Assembly to be printed, 6 September, 1892.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 15th March, 1892, That there be laid upon the Table of this House,—

“Copies of all papers in connection with the appraisement of Bullanaming Run, Monaro District, Eastern Division, for the years 1884, 1885, 1886, 1887, 1888, 1889, and 1890.”

(*Mr. Dawson.*)

SCHEDULE.

No. 1.

Appraisement of Rent of Leasehold Area of Bullanaming Pastoral Holding.

Crown Lands Act of 1884—(Part-II, Section 14, Sub-section 4.)

Decision of Local Land Board

New South Wales, }
to wit.

WHEREAS on the 11th day of July, 1887, it became a matter for investigation before us to appraise the leasehold area of Bullanaming pastoral holding, No. 381, and having taken evidence and inquired into the said matter, we find that one penny (1d.) per acre is the fair annual rental for this leasehold area, together with the sum of £2 per annum, being at the rate of 5 per centum on the value of improvements on this area, the property of the Crown.

Given under our hands, at the office of the Local Land Board, at Cooma, in the Colony of New South Wales, this 11th day of July, 1887,—

A. C. BETTS, Chairman.
J. E. BODY, Member.

Rent determined at the rate of 1½d. per acre per annum, to apply from the date of notification of division of pastoral holding until the expiration of the lease.—THOS. GARRETT, 16/8/87. Gazetted, 18 October, 1887. Lessee informed, 26 October, 1887.

168—A

THIS

[870 copies—Approximate Cost of Printing (labour and material), £5 16s. 0d.]

THIS deponent, *Alexander A. M'Keahnie*, of Rosedale, in the Colony of New South Wales, grazier, being duly sworn, maketh oath, and saith as follows:—I know the leasehold area of Bullanaming Run; it is scrubby, slaty, broken, mountainous country; I estimate it would take 7 or 8 acres to carry one sheep, and 40 or 50 acres to carry a beast.

Sworn by this deponent, A. A. M'Keahnie, on this } ALEX. A. M'KEAHNIE.
8th July, 1887, at Cooma, before us,— }
A. C. BETTS, Chairman.
J. E. BODY, Member.

THIS deponent, *William Cosgrove*, of Riversdale, in the Colony of New South Wales, grazier, being duly sworn, maketh oath, and saith as follows:—I am one of the lessees of Bullanaming Run; have heard the Inspector's evidence as to its carrying capacity; do not agree with it; I think it would take 8 acres to carry one sheep and 50 acres for one beast; thousands of acres are so scrubby as to be unavailable; there are not more than 2,000 sheep and about 100 head of cattle on this area now; the hut on portion 41 is occupied by one of my men

By the Inspector: Never had more than 2,000 sheep on the leasehold; have had at one time about 4,000 head of cattle on this area; on the whole holding have had about 5,000 or 6,000 head of stock and 2,600 sheep.

Sworn by this deponent, Wm. Cosgrove, on this 8th day } WM. COSGROVE.
of July, 1887, at Cooma, before us,— }
A. C. BETTS, Chairman.
J. E. BODY, Member.

THIS deponent, *Albert Ernest Middleton*, of Burrowa, in the Colony of New South Wales, Inspector of Runs, being duly sworn, maketh oath, and saith as follows:—On the 23rd, 24th, and 25th days of May, 1887, I inspected the leasehold area of Bullanaming pastoral holding, No. 381; it is the land indicated by tracing marked Exhibit A; my report, marked Exhibit B, which I now read (*report read*), is true in every particular to the best of my knowledge and belief; the fence alluded to as being on forfeited conditional purchase, being portion 51, was erected by lessee subsequent to forfeiture, and is useful to him; the hut is occupied; part of this country is suitable for cattle, *i.e.*, the north and western portions, the eastern portion for sheep.

By the Lessee: I have taken into consideration the large amount of unavailable country on this area; the greater portion of the good country has been alienated.

Sworn by this deponent, A. E. Middleton, on this } A. E. MIDDLETON.
8th July, 1887, at Cooma, before us,— }
A. C. BETTS, Chairman.
J. E. BODY, Member.

[Enclosure.]

Crown Lands Act of 1884—(Part II, section 14, sub-section 1.)

NEW SOUTH WALES. }
TO WIT. } Caption to Deposition of Witnesses.

The examination of *Albert E. Middleton*, of Burrowa, in the Colony of New South Wales, Run Inspector; *Wm. J. Cosgrove*, of Riversdale; *A. A. M'Keahnie*, of Rosedale, in the said Colony.

WHEREAS it became a matter for investigation to appraise the leasehold area of Bullanaming pastoral holding, No. 381, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

The Hon. the Minister for Lands, Sydney,— Bank of New South Wales, Cooma, 17 December, 1890.

Dear Sir,

I herewith have the honor to enclose two (2) applications for re-appraisal of lands, as particularised in the margin. I have, &c.,

J. H. ADAMS,
Manager.

Bullanaming
Pastoral Lease,
Eastern Division,
No. 381. Date,
31st July, 1885.

Applications acknowledged, 22/12/90.

The pastoral lease and occupation license of this holding is registered in the name of John Cosgrove. Inform the Manager of the Bank of New South Wales, Cooma, that a Crown Solicitor's certificate should be forwarded to this Department, empowering the executors to sign.—F.M.E., 29/12/90.
Informed, 30/12/90. Reminded, 10/2/91. Again, 29/4/91.

Bullanaming
Occupation
License,
Eastern Division,
No. 381. Date,
31st July, 1885.

SCHEDULE showing the nature and value of improvements effected by the pastoral lessee on the leasehold area of the Bullanaming pastoral holding, as elicited from evidence obtained at the date of appraisal of the leasehold and resumed areas.

Leasehold area No. 381, Eastern Division; executors John Cosgrove, pastoral lessee. Nature of improvements, 16 miles wire and log fencing at £25 per mile; value, £400.

(B.)

REPORT FOR APPRAISEMENT OF RENT OR LICENSE FEE.

Office reference number, L.B. 86-4,516; name of lessee or licensee, the executors of John Cosgrove; name of holding, Bullanaming, No. 381, leasehold; date of inspection, 23, 24, and 25 May, 1887; division, Eastern.

Is water supply natural and permanent? Yes.

Give the names of rivers, creeks, lakes, or lagoons affording this natural supply? Murrumbidgee River, Flynn's Creek, Back Gungah Creek.

Is this supply sufficient to keep the land fully stocked in ordinary seasons? Yes.

If any improvements in the shape of tanks, dams, wells, &c., are situated on freeholds or leaseholds, state the facts? Improvements on the leasehold, 16 miles of wire and log fencing, average £25 per mile, £400.

What is the nature of the soil and rock formation—such as granite, limestone, trap, &c.? Granite and slate formation variable, parts rich chocolate, generally poor granite soil.

What is the character of the country—is it level, hilly, or mountainous; thickly or thinly timbered; rocky, or otherwise? Mountainous, hilly, and rough; heavily timbered and scrubby; in parts rocky.

State whether the land can be classed as *fattening* or *breeding* country. Breeding country. Is

Is the country timbered; if so, is it heavily or thinly covered; and what is the kind or kinds of timber? Indicate position of different classes of timber on tracing? Heavily timbered in parts; gum, peppermint, apple-tree, and pine.

What is the description of pasturage; is it the stronger grasses of the Eastern Division, or the more succulent and fattening grasses, salt or other bush, and herbs of the Central and Western Division? Tussocky and kangaroo grass.

Where available certain months of the year, or all the year round, give the acreage required for a sheep or horned cattle? Five acres to a sheep; 30 acres to a beast.

Describe in general terms the kind of grasses, shrubs, timber, &c.? Tussocky grass, kangaroo grass, hophbush shrub, stunted apple-tree, gum, peppermint, and a little pine.

State nature and value of any improvements which have become forfeited to the Crown, and are situated upon Crown lands? Forfeited conditional purchase 51—Improvements, 45 chains of 7-wire fence, worth £28 2s. 6d., alleged to have been erected by the lessee since 1885; forfeited conditional purchases Nos. 50 and 53—Nil; forfeited conditional purchase No. 41—Hut built of pine, value £40.

State the annual value of such improvements in connection with the occupation of the adjoining land, whether Crown lands or not, for pasture purposes? Annually, about £4, as a shepherd's or workman's residence.

Remarks.

L.B. 86-4,516, No. 381, Leasehold Area.

On this leasehold there are patches of well-grassed land, open timbered trap ridges, but the general character of the country is mountainous, hilly, and broken, belt of dense scrub, and rocky mountains poorly grassed. The low hills fronting the Murrumbidgee are as a rule lightly timbered with apple and some pine, carry very little soil, and a light description of grass. Some of the forest country is open and fairly grassed. The higher parts of the area to the north are very cold, and only generally available for about six months in the year. I think 5 acres the fair carrying capacity, as where the grass is heavy it is of a sour character.

I hereby certify that I have inspected the land shown in accompanying tracing and described as L.B. 86-4,516, No. 381, by office reference, and I have also made inquiry concerning its character and capabilities, and I declare that the statements as to facts contained in this report are correct to the best of my knowledge, and that they are given to the best of my judgment as to other particulars.

Cooma, 2 June, 1887.

To the Chairman of the Local Land Board, Cooma.

A. E. MIDDLETON,

Inspector.

(B.)

REPORT FOR APPRAISEMENT OF RENT OR LICENSE FEE.

Office reference number, L.B. 86-4,516, No. 381: name of holding, Bullanaming resumed area; date of inspection, 23, 24, and 25 May, 1887; division, Eastern.

Is water supply natural and permanent? Yes.

Give the names of rivers, creeks, lakes, or lagoons affording this natural supply? Murrumbidgee River, Murrumbucca and Alum Creeks.

Is this supply sufficient to keep the land fully stocked in ordinary seasons? Yes.

What is the nature of the soil and rock formation—such as granite, limestone, trap, &c.? Rich chocolate soil in parts; poor granite generally; granite, trap, and slate formation.

What is the character of the country—is it level, hilly, or mountainous; thickly or thinly timbered; rocky, or otherwise? Mountainous and hilly; heavily timbered and scrubby in parts; rocky.

State whether the land can be classed as *fattening* or *breeding* country. Breeding country.

Is the country timbered; if so, is it heavily or thinly covered; and what is the kind or kinds of timber?—Indicate position of different classes of timber on tracing? Heavily timbered in parts; gum, muzzlewood, peppermint, and wattle.

What is the description of pasturage; is it the stronger grasses of the Eastern Division, or the more succulent and fattening grasses, salt or other bush, and herbs of the Central and Western Divisions? Mountain, tussock, and kangaroo grass.

Where available certain months of the year, or all the year round, give the acreage required for a sheep or horned cattle? Six acres to one sheep; 30 acres to the beast.

Describe in general terms the kind of grasses, shrubs, timber, &c.? Brittle gum, muzzlewood, peppermint, and wattle; mountain, tussock, and a little kangaroo grass.

Remarks.

L.B., 86-4,516, No. 381, Resumed Area.

This area is similar to the leasehold. Mountainous, hilly, scrubby, and rough in parts, with patches of good, well-grassed forest, and some narrow gullies and flats well-grassed. The high mountainous land to the north of the area is cold and subject to heavy falls of snow at times. I estimate the carrying capacity at 6 acres to the sheep. Some of this area is capable of vast improvement by ringing the timber.

I hereby certify that I have inspected the land shown in accompanying tracing, and described as L.B. 86-4,516, No. 381, by office reference, and I have also made inquiry concerning its character and capabilities, and I declare that the statements as to facts contained in this report are correct to the best of my knowledge, and that they are given to the best of my judgment as to other particulars.

Cooma, 3 June, 1887.

A. E. MIDDLETON,

Inspector.

To the Chairman of the Local Land Board, Cooma.

District

Sir, District Surveyor's Office, Cooma, 30 June, 1887.
I have the honor to return herewith two tracings showing respectively the leasehold and resumed area of Bullanaming holding, No. 381.

The estimated area available, as at date of notification of division, for appraisalment within the leasehold area was 45,095 acres.

The estimated area available for appraisalment within the resumed area—first, at date of division of the holding, is 37,775 acres; second, on 1st January, 1886, is 37,775 acres; third, on 1st January, 1887, is 36,825 acres.

The tracing showing the leasehold area is charted up to date as far as possible.

The tracing showing the resumed area is charted to show all withdrawals up to 31st December, 1886.

I have, &c.,

A. C. BETTS,
District Surveyor.

The Chairman of the Local Land Board.

Crown Lands Act of 1884.

Notice to Appear at Local Land Board.

New South Wales, to wit.

You are hereby notified to attend at the Land Board Office at Cooma, on the 8th day of July, 1887, at ten o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed, whether you appear in Court or not.

Given under my hand, at Cooma, this 23rd day of June, 1887.

W. M. J. CONDER,
Chairman.

To the executors of John Cosgrove, *c/o* Wm. Cosgrove, Esq., of Riversdale.

Matter for Investigation: Fixing the rent of Bullanaming pastoral holding, No. 381.

DECLARATION OF SERVICE.

I, WILLIAM HARVEY BYRNES, of Cooma, clerk, Local Land Board Office, sincerely declare and affirm that on the twenty-third day of June, 1887, I served a copy of the within notice upon the executors of John Cosgrove, *c/o* Wm. Cosgrove, Riversdale, the person to whom it was addressed, by posting the same as a registered letter at the Cooma Post Office; and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

Made before me, at Cooma, this }
8th day of July, 1887,— }
W. M. COSGROVE, J.P.

W. H. BYRNES.

No. 3.

The Under Secretary for Lands to J. Cosgrove, Esq.

Leasehold Area.

Sir,

Department of Lands, Sydney, 26 October, 1887.

I have the honor to notify to you that the rent of the Bullanaming leasehold area, No. 381, of an estimated area of 45,095 acres, has been determined by the Minister for Lands at the rate of 1½d. per acre, amounting to £328 16s. 4d. per annum for the full period of the lease, which commenced on the 31st July, 1885, and will end on the 30th July, 1890, unless the lease should in the meantime cease to exist.

The rent is payable on or before the 30th day of July of each year during the currency of the lease.

The amount required up to the 30th July, 1888, is £926 17s. 1d., of which £328 16s. 4d. represents the rent for the year commencing 31st July, 1887, and ending 30th July, 1888, while the balance, £598 0s. 9d., represents arrears.

The amount, £328 16s. 4d., must be paid to the Colonial Treasurer on or before the 17th December next, subject, in default, to the penalties imposed by the Crown Lands Act of 1884.

With regard to the arrears, you have the option of paying them in one sum, at the same time and under the same conditions as the rent now demanded, or of paying them, with an addition of 3 per cent., in four half-yearly instalments.

In the latter case, the instalments would be due on the four dates hereunder specified: but it may be pointed out that, after the first payment, the interest would be charged, not upon the original debt, but upon the debt as from time to time reduced.

1st payment due	17th June, 1888.
2nd	" 17 December, 1888.
3rd	" 17 June, 1889.
4th	" 17 December, 1889.

With regard to the manner in which the account has been adjusted, it may be explained that the first charge is based on the whole area of the original pastoral holding, and at the original rate, from the 31st December, 1884, up to the date of notification of division of the holding, after which date rent has been charged on the leasehold area, and at the rate determined for it as such. The whole of the rent which lay to the credit of the original pastoral holding since 1884, together with that paid subsequently on account of the leasehold area, has been credited to the one account—that is to say, no part of the money has been placed to the account of the occupation license, which will start with the deposit paid on the application put forward for it, and be subsequently credited only with such amounts as have since been paid for it as distinct from the leasehold area.

By this separation of the accounts, the probability of confusion arising in connection with them will, it is believed, be largely prevented.

I have, &c.,

F. H. WILSON,
(For the Under Secretary).

No. 4.

The Under Secretary for Lands to J. Cosgrove, Esq.
Occupation License.

Sir,

Department of Lands, Sydney, 26 October, 1887.

I have the honor to invite your attention to a notice in the *Government Gazette* of the 18th October, 1887, a copy of which is enclosed, setting forth the rates and amounts at which the fees for occupation license, No. 381, pastoral holding Bullanaming, in the Eastern Division of the Colony, have been determined. The rate has been fixed at £4 per section of 640 acres. The license fee for 1887 is £230 3s. 2d., and a similar amount should be paid in future on or before the 31st December of each year for the ensuing year, unless an official reduction should be made in the fee, or the license be forfeited, before such future fee should become due. The total amount required up to the 31st December, 1886, is £335 14s. 2d., which represents the sum remaining due after taking into account the deposit paid with the application for the license, and all sums paid for the license subsequently. The whole of the rent which lay since 31st December, 1884, to the credit of the runs out of which the resumed area was taken, together with any paid on the leasehold area as such, have been placed entirely to the account of the leasehold area, in order to simplify the accounts and keep them distinct.

The fee for 1887, £230 3s. 2d., must be paid to the Colonial Treasurer, on or before the 17th December next, subject, in default, to the penalties imposed by the Crown Lands Act of 1884.

With regard to the arrears, which amount to £50 9s. 2d., you have the option of paying them in one sum, at the same time and under the same conditions as the fee for 1887, or of paying them, with an addition of 5 per cent., in four half-yearly instalments. In the latter case the instalments would be due on the four dates hereunder specified, but it may be pointed out that after the first payment the interest would be charged, not upon the original debt, but upon the debt as from time to time reduced.

1st payment due 17 June, 1888.
2nd " 17 December, 1888.
3rd " 17 June, 1889.
4th " 17 December, 1889.

The license is, in accordance with the 2nd sub-section of the 81st clause of the Act, an annual one, commencing from the date of notification of division of the pastoral holding, and terminating 31st December of each year.

Any application for a reduction of the *fee* (or compensation for improvements), on account of the withdrawal of land by sale or lease, may be made to the Under Secretary for Lands on the form prescribed by the Regulations; but, as already pointed out, pending such adjustment, no reduced fee can be accepted for the then ensuing year.

Any application for the reduction of the *rate* of the license fee should be made to the Local Land Board, as prescribed by the Regulations.

I have, &c.,

F. H. WILSON,

(For the Under Secretary.)

In calculating the amount due, allowance has been made for the undermentioned withdrawals. Up to the date of commencement of the first of these, rent has been charged for the area as it stood previously.

No. of Resumed Area.	Name of Pastoral Holding.	Rate per section of 640 acres of Occupation License.	Nature of Withdrawal.	Name of Applicant.	Date of confirmation of Withdrawal.	Area Withdrawn.	Rebate allowed for such withdrawal, calculated from date of confirmation

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS.

(PASTORAL LEASES AND OCCUPATION LICENSES IN THE WESTERN OR CENTRAL DIVISIONS).

Ordered by the Legislative Assembly to be printed, 6 September, 1892.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 17th March, 1892, That there be laid upon the Table of this House, a Return showing,—

- “ (1.) The number of pastoral leases and occupation licenses in the Western and Central Divisions which have, since December, 1889, been forfeited, or become liable to forfeiture, for non-payment of rent or license fee.
“ (2.) The names, numbers, and areas of such leases or occupation licenses.”

(Mr. Kelly, for Mr. R. B. Wilkinson.)

RETURN showing Occupation Licenses in the Central and Western Divisions which have, since December, 1889, been forfeited, surrendered, abandoned, or not renewed.

No. 1.

Application for Conditional Purchase by J. Baker.

(C.P. No. 16, of 1887.) [Crown Lands Act of 1884, Part III, sections 24, 26, 42, and 47.]

Eastern Division—Land District of Murwillumbah—James Baker, applicant—area, 100 acres.

Murwillumbah, 19 May, 1887.

I HEREBY apply for 100 acres of Crown lands as original conditional purchase, and I tender the sum of £10, being a deposit of 2s. per acre thereon. A description of the land applied for is on the back hereof, and the prescribed declaration is attached hereto.

The land applied for is not improved.

To the Land Agent at Murwillumbah.

171—A

The

[870 copies—Approximate Cost of Printing (labour and material), £9 5s. 9d.]

The nature and position of the improvements are as follows :—

Description of the Land applied for.

Eastern Division, county of Rous, parish of Mooball, 100 acres, within special area notified in the *Gazette* on the day of 1887. Commencing at a post at the south-east corner of William Cashin's conditional purchase portion 43, and bounded thence by lines west 60 chains, then south, thence east, then north, to point of commencement.

I affixed the post referred to above on the 10th day of May, 1887.

JAMES BAKER.

This is the application marked A referred to in the annexed declaration of James Baker, made before me at Tweed this 19th May, 1887.—JOSHUA BRAY, J.P. This application, together with the deposit of £10, was lodged with me by James Baker, this 19th day of May, 1887, at 12 of the clock, noon.—JOSHUA BRAY, Land Agent at Murwillumbah. Confirmed. Forfeited, *Gazette*, 19/2/90. Non-fulfilment of conditions, and not within any holding.

No. 2.

Declaration by James Baker.

(C.P. No. 16, of 1887.)

[Crown Lands Act of 1884, Part III, sections 24, 26, 42, and 47.]

Declaration by Applicant for a Conditional Purchase.

I, JAMES BAKER, of Murwillumbah, farmer, do hereby solemnly declare and affirm that I am the applicant for the conditional purchase, as described in the application hereto annexed, and marked A, and that the several answers to the questions in the Schedule hereto are true and correct. And I make this solemn declaration as to the several matters aforesaid according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

Made before me, at Murwillumbah, this }
19th day of May, 1887,—

JAMES BAKER.

JOSHUA BRAY, J.P.

(C.P. 16, of 1887.)

[Crown Lands Act of 1884, Part III, sections 24, 26, and 47.]

Schedule.

(The answers to the following questions must be fully and accurately given).

1. What is your name? James Baker.
2. What is your age? Twenty-five.
3. State year and date of birth? Ninth August, 1861.
4. Are you married, single, or a widower? Single.
5. Where have you resided for the past two years? Tweed River.
And have you during that period borne any name or names other than [your present names; and, if so, what? No.
6. Have you been in the employment of any person during the last two years; if so, state of whom? No.
7. Do you intend using the land now applied for solely for your own use and benefit? Yes.
8. Have you entered into any agreement or arrangement by which any person other than yourself can acquire any interest in the land you apply for? No.
9. Is there any understanding between you and any person in reference to the land applied for that will tend to defeat or evade the provisions of the Crown Lands Act of 1884? No.
10. Are you under any obligation that will prevent you from fulfilling the law in regard to the land you apply for? No.
11. Do you hold any land from the Crown requiring residence at the present time? No.
12. Do you hold any conditional purchase or conditional leases; if so, state the Land District in which they are situated, and the respective dates of taking up the same? No.
13. Do you already hold a conditional purchase without conditions of residence under the Crown Lands Act of 1884?
14. Have you at any time made any conditional purchase of any kind under the Crown Lands Act of 1884, or any repealed Acts?
15. If you hold conditional purchases, are they mortgaged or encumbered in any way; and, if so, to whom? No.
Do you understand the conditions of residence and fencing required by the Crown Lands Act of 1884? Yes.
Give your address and post town? Murwillumbah.

JAMES BAKER.

Signature of attesting witness.—JOSHUA BRAY, J.P.

No. 3.

The Chairman, Local Land Board, Grafton, to The District Surveyor.

[Crown Lands Act of 1884, section 26.]

Land District of Murwillumbah, C.P. No. 16, of 1887.

EXTRACT from an application for conditional purchase, lodged with the land agent, on the nineteenth day of May, 1887, at 12 o'clock noon, by James Baker.

Description.

EASTERN division, county Rous; parish Mooball; 100 acres: Commencing at a post at the south-east corner of *William Cashin's conditional purchase, portion 43, and bounded thence by lines west 60 chains, then south; thence east, then north, to point of commencement.

Post referred to affixed by applicant, on 10th May, 1887.

Examined.—A.A.B. Referred to the District Surveyor for report, or survey.

Land Board Office, Grafton, 30 May, 1887.

B. S. LEVICK
(for the Chairman).

Mr.

*See Appendix A.

Mr. Licensed-Surveyor Somerville to measure, if unobjectionable, in the form indicated by red tint on the attached tracing, in accordance with decision on Land Board papers, No. 87-2,902. Survey should be effected with a mean depth of 60 chains, with frontage to reserve No. 1,082, notified 21st January, 1884; the said reserve embraces Crown lands within 5 chains landward from high-water mark on the sea coast.—P. R. DONALDSON, District Surveyor, 8/5/88. No. 88-12.

Dealt with by survey, under letter No. 88-40, 17th July.—RICHD. N. SOMERVILLE, Temporary Salaried Surveyor.

Conditional purchase 87-16, Murwillumbah, James Baker.—This case is dependent upon, and awaits action on conditional purchase 86-73, William Cashin. Should that conditional purchase be disallowed, then the full area will be available for 87-16, otherwise 71 acres only will be available.—B.S.L., 24/6/87.

Conditional purchase 86-73. Disallowed on 12th March, 1888.—A.B., 20/4/88.

No. 4.

The District Surveyor, Grafton, to The Chairman, Local Land Board, Grafton.

23 June, 1887.

Report of the District Surveyor, at Grafton, upon application for conditional lease, No. 87-16, of 19th May, 1887, under section 26 of the Crown Lands Act of 1884, for 100 acres, parish of Mooball, county of Rous, by James Baker.

THIS application, under section 26, and made by James Baker, is described as indicated by red edging upon the attached tracing, marked "A," embracing part of a prior additional conditional purchase by* Wm. Cashin, No. 86-73, shown by blue edging as described, but it was submitted by my report, L.B.D., 86-3,887, that the applicant be allowed the option of having his additional conditional purchase declared void, or accepting the modified form, shown by blue hatching. This conditional purchase 87-16 is therefore dependent upon the action taken upon Cashin's additional conditional purchase, should he decide to accept the land in the form recommended, then this conditional purchase is submitted for survey of the balance of area within the described boundaries red hatching (about 71 acres). In the event of Cashin's additional conditional purchase being disallowed, the full area applied for, viz: 100 acres is recommended for survey, as there is apparently no objection to the application, the design submitted is strictly in accordance with the provisions of the 56th section of the Act of 1884.

*See Appendix B.

P. R. DONALDSON,
District Surveyor.

Cashin's additional conditional purchase 86-73 having been disallowed, it is submitted that conditional purchase 87-16 go on for survey of the full area applied for.—B.S.L., 4/5/88. Yes.—W.B., Chairman, 4/5/88. Mr. Gregg,—For issue of instructions—J.F.C., 7/5/88. Copy of application, with illustrative tracing, forwarded this day to Mr. Licensed-Surveyor Somerville for survey, if unobjectionable.—J.F.C., 7/5/88. The Clerk in charge, Local Land Board, Grafton.

No. 5.

Mr. Licensed-Surveyor Somerville to The District Surveyor, Grafton.

Sir,

Lismore, 17 July, 1888.

I have the honor to transmit herewith the plan of one portion of land containing* 100 acres, numbered 59, in the parish of Mooball, in the county of Rous, conditionally purchased by James Baker, under the 26th section of the Crown Lands Act of 1884, measured by me on the 4th July, 1888, in accordance with instructions No. 88-12, dated 8th May.

Applicant's starting point (corner "C" on plan) was found on the ground.

The land is flat, half of it being heavily timbered ti-tree swamp, and the remainder thick scrub and heavy forest of bloodwood, turpentine, and mahogany.

Improvements none.

Within the Tweed and Richmond Rivers Gold-field.

I have, &c.,

RICHD. N. SOMERVILLE.

Licensed Surveyor, Temporary Staff.

R. 4,224-1,759. Mr. Callachor for charting.—P.R.D., 27/7/88. Mr. Buller,—To chart.—T.T.U., 28/7/88. Checked and charted.—T. BULLER, 31/7/88. The Chief Draftsman,—Survey approved.—P. R. DONALDSON, District Surveyor, 3/8/88.

The area defined as portion 59 of 100 acres is covered by this application, which is for an original conditional purchase, and there is no objection to its confirmation. There are no improvements. Certified tracing of plan herewith, also tracing for Conditional Purchase Inspector.—P. R. DONALDSON, District Surveyor, 3/8/88.

The Chairman, Local Board, Brunswick.—F.F., 20/10/88. Selector notified to appear on 20th October, 1888, at Brunswick.

No. 6.

Decision of Local Land Board.

New South Wales, } Crown Lands Act of 1884—(Part II, section 14, sub-section 4.)
to wit.

WHEREAS on the 20th day of October, 1888, it became a matter for investigation before us whether the application made by James Baker for conditional purchase of 100 acres, selected 19th May, 1887, at Murwillumbah, county of Rous, parish of Mooball, should be confirmed or otherwise, and having taken evidence

88-3 528
C.P. 87-10
100 acres
19 May, 1887;
Section 20.

evidence and inquired into the said matter, we confirm the application of 100 acres, being measured portion 59 in county of Rous, parish of Mooball, and order fencing, as per class 10, on all exterior boundaries.

Given under our hands, at the Court-house, at Brunswick, in the Colony of New South Wales, this 20th day of October, 1888,—

FRED. TROLLOPE, Chairman.
JOSHUA BRAY, Member.

No appeal lodged. Certificate may now issue.—A.B., 19/11/88. Confirmation certificate issued, and Land Agent informed, 19/11/88. Referred to District Surveyor.—A.B., 19/11/88. Plans and registers noted in District Survey Office.—R.T.T. (*pro* District Surveyor), 28/11/88. The Chairman, Local Land Board, Grafton,—For Inspection, January, 1889.—A.B., 29/11/88. Referred to Inspector West for report, 13/2/89.

No. 7.

Mr. Inspector G. W. West to The Chairman, Local Land Board, Grafton.

REPORT by Conditional Purchase Inspector George W. West on conditional purchase No. 87-16, of 100 acres, in the land district of Murwillumbah, held by James Baker, the application for which was confirmed by the Local Land Board on the 20th October, 1888.

Sir,

Casino, 6 June, 1889.

In obedience to your instructions of the 13th February, 1889, I have the honor to furnish the following report, and to state that having regard to the relationship which, in the matter of residence, fencing, &c., exists, under the Crown Lands Act of 1884, between conditional purchases of the same series and conditional leases granted by virtue of them. I have been careful to ascertain whether any condition attaching to the above described purchase has been fulfilled wholly or in part on other land, and to embody in this report any information on this point which I have succeeded in collecting, as well as to illustrate the report by exhibiting on the accompanying tracing the positions of any fencing or other improvements that have been made on the land.

I visited and inspected the land on the 18th May, 1889, and then found it not occupied and not used by selector.

The Conditional purchaser was at that time not resident upon the land.

From what I could ascertain, and having regard to observations of my own, I consider that since date of confirmation of the application residence was carried out in the following places, and during the following periods:—No. of conditional purchase or lease on which the residence has been carried out, 87-16; whether purchase or lease, purchase; No. of portion, 59; date of commencement of residence, not commenced; if continuously resident during the whole period I have written "Yes," if not I have written "No." No.

In addition to the fencing I found the following improvements on the land forming the subject of this report:—Description of improvements, nil.

Taking into account the foregoing, and having regard to the following considerations, I am of opinion—That the requirements of the Crown Lands Act of 1884 in regard to residence have not been fulfilled; that the requirements of the Crown Lands Act of 1884 in regard to fencing have been fulfilled; that the requirements of the Crown Lands Act of 1884 in regard to other improvements have been fulfilled.

No residence of any sort erected, or no improvements. It was stated to me selector lives on the Tweed and does not intend to live here.

Recommend this case for inquiry.

I have, &c.,

GEORGE W. WEST.

James Baker notified to appear (through police) on 14th October, 1889, at Brunswick, this 6th September, 1889.

No. 8.

The Chairman, Local Land Board, Grafton, to Mr. J. Baker.

New South Wales, }
to wit. } Crown Lands Act of 1884.

You are hereby notified to attend at the Court-house at Brunswick, on the fourteenth day of October, 1889, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Grafton, this 6th day of September, 1889.

FRED. TROLLOPE,
Acting Chairman.

Matter for Investigation.

Inquiry into conditional purchase 87-16, of 100 acres, made 19th May, 1887, at Murwillumbah, county Rous, parish Mooball.

Declaration of Service.

I, DENTS JOHN CAHILL, of Murwillumbah, constable, sincerely declare and affirm that on the twenty-seventh day of September, 1889, I served a copy of the within notice upon James Baker, the person to whom it is addressed, by serving him personally at his usual place of occupation; and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

Gazette Notice.

NEW SOUTH WALES, } Proclamation by His Excellency The Right Honorable CHARLES ROBERT,
to wit. } BARON CARRINGTON, a Member of Her Majesty's Most Honorable Privy
Council, Knight Grand Cross of the Most Distinguished Order of Saint
(I.S.) Michael and Saint George, Governor and Commander-in-Chief of the Colony
CARRINGTON, of New South Wales and its Dependencies.
Governor.

IN pursuance of the provisions of the 103rd section of the "Crown Lands Act of 1884," I, CHARLES ROBERT, BARON CARRINGTON, Governor of the Colony of New South Wales aforesaid, with the advice of the Executive Council, do hereby proclaim that the land specified in the Schedule appended hereto shall be and is hereby reserved from sale for railway purposes, that is to say,—

EASTERN DIVISION.

Land District of Murwillumbah.

No. 11,114. County of Rouse, parish of Mooball, containing an area of 100 acres. The Crown lands within the boundaries of measured portion 59,—as shown on plan catalogued R. 424-1,759.
[Ms. 90-3,755.]

Given under my hand and seal at Government House, Sydney, this twenty-second day of March, in the year of our Lord one thousand eight hundred and ninety, and in the fifty-third year of Her Majesty's reign.

By His Excellency's Command,

JAMES N. BRUNKER.

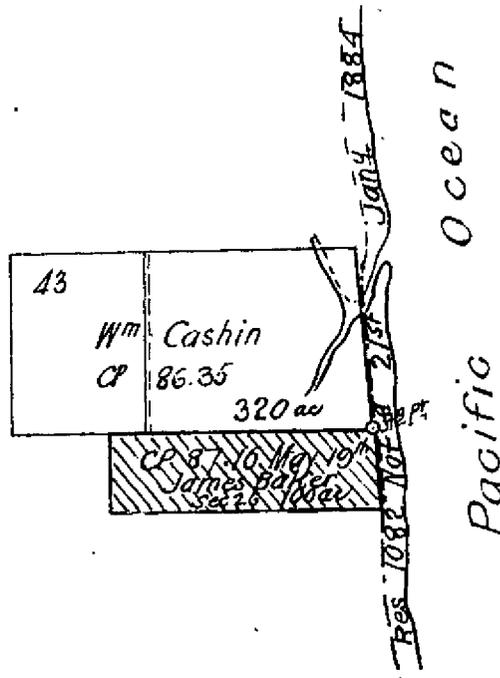

God Save the Queen!

No. 1.
Declaration.

[C.P. No. 36 of 1886.]

Crown Lands Act of 1884—(Part III, sections 24, 26, and 47).

Declaration by applicant for a conditional purchase to accompany application.

I, ARTHUR BRICE, of Tuggeranong, labourer, do hereby solemnly declare and affirm that I am the applicant for the conditional purchase, as described in the application hereto annexed, and marked "A," and that the several answers to the questions in the schedule hereto are true and correct.

And I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

Made before me at Queanbeyan, this }
26th day of August, 1886,— }

ARTHUR BRICE.

ALFRED M. DULHUNTY, J.P.

[C.P. No. 36 of 1886.]

Crown Lands Act of 1884—(Part III, sections 24, 26, and 47).

SCHEDULE.

The answers to the following questions must be fully and accurately given:—

1. What is your name? Arthur Brice.
2. What is your age? Thirty-five years.
3. State year and date of birth? 14th November, 1851.
2. Are you married, single, a widower or widow? Single.
5. Where have you resided for the past two years, and have you during that period borne any name or names other than your present name; and, if so, what? At Tuggeranong. No.
6. Have you been in the employment of any person during the last two years? If so, state of whom? Mr. J. Cunningham.
7. Do you intend using the land now applied for solely for your own use and benefit? Yes.
8. Have you entered into any agreement or arrangement by which any person other than yourself can acquire any interest in the land you apply for? No.
9. Is there any understanding between you and any person in reference to the land applied for that will tend to defeat or evade the provisions of the Crown Lands Act of 1884? No.
10. Are you under any obligation that will prevent you from fulfilling the law in regard to the land you apply for? No.
11. Do you hold any land from the Crown requiring residence at the present time? No.
12. Do you hold any conditional purchases or conditional leases; if so, state the land district in which they are situated, and the respective dates of taking up the same? No.
- 13 and 14. Nil.
15. If you hold conditional purchases are they mortgaged or encumbered in any way, and, if so, to whom? No.
16. Do you understand the conditions of residence and fencing required by the Crown Lands Act of 1884? Yes.
17. Give your address and post town? Tuggeranong.

ARTHUR BRICE.

Witness: A. M. DULHUNTY, J.P.

[Enclosure.]

[Enclosure.]

[C.P. No. 36 of 1886.] Crown Lands Act of 1884—(Part III, sections 24, 26, and 47).
Application for Conditional Purchase.

Eastern Division, Land District of Queanbeyan; Arthur Brice; area, 121 acres.

To the Land Agent at Queanbeyan,—

Tuggeranong, 26 August, 1886.

I hereby apply for 121 acres of Crown lands, as an original conditional purchase, and I tender the sum of £12 2s., being a deposit of 2s. per acre thereon. A description of the land applied for is on the back hereof, and the prescribed declaration is attached hereto.

The land applied for is improved.

The nature and position of the improvements are as follows:—Hut on portion 94; fencing along western boundary; ringbarking and clearing.

Description of the land applied for:—Eastern Division, County of Cowley, Parish of Congwarra, 121 acres. Being measured portion No. 94 in above parish.

ARTHUR BRICE.

Present and all previous holdings of the same series.

Conditional purchase.—L.A. No., 36; date of application, 1886; area, 121 acres.

Conditional lease.—L.A. No., 13; date of application, 1886; area, 308 acres.

This is the application marked "A" referred to in the annexed declaration of Arthur Brice, made before me at Queanbeyan, this 26th August, 1886.

ALFRED M. DULHUNTY, J.P.

This application (together with the deposit of £12 2s. sterling), was lodged with me by Arthur Brice this 26th day of August, 1886, at 2 of the clock, afternoon.

C. H. EMERY,
Land Agent at Queanbeyan.

Confirmed, *vide* 87-4,681.—L.B., 18/8/87.

This application conflicts with George Hatcliffe's application for conditional lease, No. 11 of 1886; which fact was duly explained to the applicant, who was also warned as required by regulation.—C. H. EMERY, Crown Land Agent, 26/8/86. The Chairman of the Local Land Board, Cooma.

No. 2.

The District Surveyor, Cooma, to The Chairman, Local Land Board, Queanbeyan.

Conditional Purchase 86-36, Queanbeyan, dated 26th August. Arthur Brice, 121 acres; parish of Congwarra, county of Cowley, No. 86-387.

29 September, 1886.

THE application is for portion 94 of 121 acres as indicated by red edging on the enclosed diagram.

This case should be considered in conjunction with conditional purchase 86-33, and conditional lease 86-11, a full report upon which has been made.

If the claims of Messrs. Cunningham Brothers and G. Hatcliffe, are disallowed, there is still another difficulty, in that portion 94 is improved to the amount of £40 4s. 9d.; by brush fence, £9 15s.; ringbarking, £6 1s.; hut, £12; log fence, £9 1s. 3d.; and stacking, £3 7s. 6d. These were apparently effected while the land was held under additional conditional purchase 83-33, which was gazetted forfeited on the 31st December, 1885.

It is a question whether the improvements, although the property of the Crown, unless the first claim is re-established, are not useful for the occupation of the land and thus debar selection.

Further, the portion is within the boundaries of the leasehold area of holding No. 383; but this was gazetted on the 31st July, 1885, during the currency of A. J. Cunningham's additional conditional purchase 83-33.

Conditional lease 86-13, has been applied for in right of conditional purchase 86-36, and a report made thereon this day.

A. C. BETTS,
District Surveyor.

Court, Queanbeyan, 17/10/86. Notice to A. Brice, 18/10/86. Case adjourned for the reasons stated on L.B. 86-3,229.—Wm. J. CONDEN, Chairman. Land Board, Queanbeyan, 17/10/86. Registered notice to A. Brice, 2/8/87. Queanbeyan Court, 18/8/87.

No. 3.

The Acting Chairman, Local Land Board, Cooma to Mr. A. Brice.

New South Wales, }
to wit. } Crown Lands Act of 1884.

You are hereby notified to attend at the Court-house, at Queanbeyan, on the 18th day of August, 1887, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Cooma, this 2nd day of August,— A. C. BETTS,
Acting Chairman.

Matter for investigation.

Your application for a conditional purchase of 121 acres, and a conditional lease of 308 acres, made at Queanbeyan on 26th August, 1886; conditional purchase 86-36, conditional lease 86-13.

Declaration of Service.

I, WILLIAM HARVEY BYRNES, of Cooma, clerk, Local Land Board Office, sincerely declare and affirm that on the 2nd day of August, 1887, I served a copy of the within notice upon Arthur Brice, Tuggeranong, *via* Queanbeyan, the person to whom it is addressed, by posting the same as a registered letter at the Cooma Post Office; and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

Made before me at Cooma, this 15th day }
of August, 1887,—

W. H. BYRNES.

A. C. BETTS, J.P.

No. 4.

Decision of Local Land Board.

New South Wales, } Crown Lands Act of 1884—(Part II, section 14, sub-section 4).
to wit.

WHEREAS on the 18th day of August, 1887, it became a matter for investigation before us whether the conditional purchase noted hereunder should be confirmed or disallowed—Conditional purchase 86-36, Queanbeyan, 121 acres, applied for by Arthur Brice on 26th August, 1886—and having taken evidence, and inquired into the said matter, we find that the application is confirmed; applicant to pay £21 8s. 6d., the value of improvements, consisting of ringbarking, hut, and stacking.

The brush and log fencing on boundary lines are not of the prescribed classes under the Act requiring removal, and the Board do not consider them improvements to be paid for.

Given under our hands, at the office of the Local Land Board, at Queanbeyan, in the Colony of New South Wales, this 18th day of August, 1887,—

A. C. BETTS, Chairman.
J. C. WOORE, Member.

Confirmation noted in the District Office.—J.F.E. (for the District Surveyor), 15/9/87. Applicant. Notice of confirmation, and agent informed, 16/9/87. Applicant called on to pay four instalments of £5 7s. 3d., £5 7s. 1d., £5 7s. 1d., £5 7s. 1d., annually, due from 15th December, 1887. Agent, Treasury, and Auditor-General informed. Class of fence has not been ordered.—W.O.R., 29/9/87. Mr. Salway. May be put down for next Court.—A.S., 20/9/87. Court at Queanbeyan, 13/10/87. Registered notice sent, 27/9/87. Six-wire fence to be erected.—A. C. BETTS, Chairman; J. C. WOORE, Member. Land Board, Queanbeyan, 13/10/87. Land Agent informed, and noted, 20/10/87. Inspector Manton to report.—W.H.B., 1/12/87.

No. 5.

The Acting Chairman, Local Land Board, Cooma, to Mr. A. Brice.

New South Wales, } Crown Lands Act of 1884.
to wit.

You are hereby notified to attend at the Court-house, at Queanbeyan, on the 13th day of October, 1887, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Cooma, this 28th day of September, 1887,—

A. C. BETTS,
Acting Chairman.

Matter for Investigation.

The class of fencing to be erected upon conditional purchase 86-36 of 121 acres, confirmed 18th August, 1887; also class of fencing upon conditional lease 86-13 of 308 acres confirmed same date, and fixing rental thereon.

Declaration of Service.

I, WILLIAM HARVEY BYRNES, of Cooma, clerk, Local Land Board Office, sincerely declare and affirm that on the 29th day of September, 1887, I served a copy of the within notice upon Arthur Brice, Tuggeranong, *via* Queanbeyan, the person to whom it is addressed, by posting the same as a registered letter at the Cooma Post Office, and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

Made before me, at Cooma, this 10th day }

W. H. BYRNES.

A. C. BETTS, J.P.

No. 6.

Inspector W. A. Manton to The Chairman, Local Land Board, Cooma.

REPORT by Conditional-Purchase-Inspector W. A. Manton on Conditional Purchase No. 86-36 of 121 acres, in the Land District of Queanbeyan, held by Arthur Brice, the application for which was confirmed by the Local Land Board on the 18th August, 1887.

Sir,

Queanbeyan, 31 January, 1888.

In obedience to your instructions of the 1st December, 1887, I have the honor to furnish the following report, and to state that having regard to the relationship which, in the matter of residence, fencing, &c., exists, under the Crown Lands Act of 1884, between conditional purchases of the same series and conditional leases granted by virtue of them, I have been careful to ascertain whether any condition attaching to the above-described purchase has been fulfilled wholly or in part on other land, and to embody in this report any information on this point which I have succeeded in collecting, as well as to illustrate the report by exhibiting on the accompanying tracing the positions of any fencing or other improvements that have been made on the land.

I visited and inspected the land on the 5th January, 1888, and then found it not occupied and not used by selector as a home.

In addition to the fencing I found the following improvements on the land forming the subject of report:—Description of improvements: Old hut, value, £5; 28 chains log fence, £9 14s; 121 acres packed, £18 3s.; £32 17s. When completed:—On the land at date of A. Brice selecting same.

Hut deserted; roof nearly all off; empty. No signs of residence. Selector not upon the land.

I have, &c.,

W. A. MANTON.

No signs of residence. For inquiry.—A.S., 5/3/88. Yes.—A. C. BETTS, 15/3/88. Registered notice to Arthur Brice, 5/6/88. Court at Queanbeyan, 28/6/88.

No. 7.

The Acting Chairman, Local Land Board, Cooma, to Mr. A. Brice.

New South Wales }
to wit. } Crown Lands Act of 1884.

You are hereby notified to attend at the Court-house, at Queanbeyan, on the 28th day of June, 1888, at 10 o'clock in the forenoon, when the matter or question stated at the foot hereof will be investigated.

On proof of due service of this notice, the investigation may proceed whether you appear in Court or not.

Given under my hand, at Cooma, this 5th day of June, 1888,—

A. C. BETTS,
Acting Chairman.

Matter for Investigation.

An inquiry as to residence on your conditional purchase of 121 acres, made at Queanbeyan on 26th August, 1886, and confirmed on 18th August, 1887, conditional purchase 86-36.

Declaration of Service.

I, WILLIAM HARVEY BYRNES, of Cooma, clerk, Local Land Board Office, sincerely declare and affirm that on the 12th day of June, 1888, I served a copy of the within notice upon Arthur Brice, Tuggeranong, *via* Queanbeyan, the person to whom it is addressed, by posting the same as a registered letter at the Cooma Post Office, and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided, for any wilfully false statement in any such declaration.

Made before me, at Cooma, this 27th day }
of June, 1888,— }

W. H. BYRNES.

No. 8.

Caption to Depositions of Witnesses, &c.

Crown Lands Act of 1884—(Part II, section 14, sub-section 1).

The examination of William A. Manton, of Queanbeyan, in the Colony of New South Wales, Conditional Purchase Inspector.

WHEREAS it hath been alleged that the condition of residence had not been complied with by Arthur Brice upon conditional purchase 86-36, Queanbeyan, of 121 acres, confirmed 18th August, 1887, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[Enclosure.]

THIS deponent, *Wm. A. Manton*, of Queanbeyan, in the Colony of New South Wales, Conditional Purchase Inspector, being duly sworn, maketh oath, and saith as follows:—On the 5th January, 1888, I visited and inspected conditional purchase 86-36, of 121 acres, made at Queanbeyan on the 26th August, 1886, by Arthur Brice, and confirmed on the 18th August, 1887; there was an old hut on the land, almost roofless and empty; it had not the slightest indication of being resided in; selector was not on the land.

Sworn by this deponent, *Wm. A. Manton*, on this 28th }
June, 1888, at Queanbeyan, before us,— }

W. A. MANTON.

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

No. 9.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4.)

New South Wales, }
to wit. }

WHEREAS, on the 28th day of June, 1888, it became a matter for investigation before us whether the condition of residence has been complied with on the conditional purchase hereunder particularised: Conditional purchase 86-36, Queanbeyan, applied for by Arthur Brice, at Queanbeyan, on 26th August, 1886, and confirmed on 18th August, 1887; and having taken evidence and inquired into the said matter, we find that the condition of residence has not been complied with, and this conditional purchase should, therefore, be forfeited.

Given under our hands, at Court-house, Queanbeyan, in the Colony of New South Wales, this 28th day of June, 1888,—

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

For report as to the advisableness of the land embraced by within-mentioned conditional purchase and lease taken in right thereof, being proclaimed special area reserve, &c.—A. SALWEY (for the Acting Chairman), 6/8/88. The District Surveyor.

The land is situated within the boundaries of the leasehold area No. 383, Eastern Division, and will probably be notified as a reserve from sale and lease pending legislation.—J.F.C. (for the District Surveyor), 7/8/88. The Chairman.

No. 10.

Messrs. A. M. Dulhunty & Co. to The Secretary for Lands.

Sir,

Queanbeyan, 10 July, 1888.

As agents for Arthur Brice we have the honor to state that, at a meeting of the Land Board held here on 28th June last, his conditional purchase 86-36, of 121 acres, county of Cowley, parish of Congwarra, was recommended for forfeiture on the grounds of non-residence. This is a very hard case, as the man had not received any notice until a few weeks ago that his application had been confirmed, and immediately he did so he left his employer, Mr. C. H. M'Keahnie, of Borroombah, to go to his selection, and now he is informed that it is recommended for forfeiture. It is the more hard as he had been informed by Messrs. Cunningham Brothers and Mr. M'Keahnie and others who were under that impression, that the land he applied for as conditional purchase and conditional lease had been withdrawn from sale and lease, being a forfeited selection with the leasehold area of Messrs. Cunningham Brothers.

Again, on account of Brice's having left his employer to go and live on his selection, he is, by the conditional purchase being forfeited, now thrown out of work.

We think, under these circumstances, that his case is one well worthy of consideration, and if you can see your way clear to have the forfeiture reversed it will be an act of justice to do so. The man is quite willing and ready to go and live on his selection, and comply with all the conditions of the Act.

Trusting you will give this matter your favourable consideration, and have the forfeiture reversed.

We have, &c.,

A. M. DULHUNTY & CO.

(Per E.H.O.),

Agents for Arthur Brice.

May be referred to the Chairman and writer informed.—T.B.S., 10/8/88. W.H.C., 14/8/88.
Yes.—F.H.W. (for Under Secretary), 14/8/88. A. M. Dulhunty & Co.—H.L.T., 18/8/88. The
Chairman, Local Land Board, Cooma.—F.H.W. (for Under Secretary), B.C., 18/8/88.

88-5,009, L.B. Papers in this case forwarded to Head Office, 8/8/88. Date of confirmation, 18/8/87. No instalments on account of improvements (conditional purchase or conditional lease) received.—W.O.R., 25/8/88.

Mr. Salwey,—Now forwarded to the Under Secretary for Lands, as the papers L.B. 88-5,009 were sent to him on 8/8/88, when the conditional purchase was recommended for forfeiture.—A.S. (for the Acting Chairman.) The Under Secretary for Lands. Land Board Office, Cooma, 10/9/88.

No. 11.

The Acting Chairman, Local Land Board, Cooma, to The Under Secretary for Lands.

Crown Lands Act of 1884—(Part III, section 39).

WHEREAS Arthur Brice applied at the Land Office at Queanbeyan, on the 26th day of August, 1886, for 121 acres of Crown lands, situated in the Eastern Division, county of Cowley, parish of Congwarra, being C.P. No. 36, of 1886, and afterwards on the 18th day of August, 1887, the Local Land Board confirmed the said application, the said Board hereby reports that, after due inquiry held for that purpose, the said Board is of opinion that the prescribed conditions of residence have not been fulfilled on the before-mentioned conditional purchase.

Given under my hand, at the office of the Local Land Board, at Cooma, this 7th day of August, 1888,—

ALFRED SALWEY

(For the Acting Chairman).

Lease 7,398, 48th clause. Taken in right of within-mentioned conditional purchase, and papers of same are now herewith. For forfeiture in accordance with the provisions of the 39th clause of the Crown Lands Act of 1884.—F.H.W. C.O., 20/9/88.

Forfeiture approved.—J.N.B., 22/9/88. Applicant and Chairman informed, 5/11/88. Within the leasehold area of Congwarra holding, No. 383, Eastern Division.—A.B.M.

No. 12.

Messrs. A. M. Dulhunty & Co., to The Chairman, Local Land Board, Cooma.

Sir,

Queanbeyan, 27 December, 1888.

We have the honor to state that on the 10th July last, we wrote to the Honorable the Minister for Lands in reference to a conditional purchase of A. Brice, county of Cowley, parish of Congwarra, No. 86-36; and on the 18th August we received a reply from the Under Secretary, stating that the papers in connection with the case were with the Local Land Board at Cooma. As we have heard nothing from the Board in reference to same, we shall feel obliged by your giving the case your earliest consideration, and if possible, comply with the wishes expressed in ours of the date above mentioned.

We have, &c.,

A. M. DULHUNTY & CO.

(Per E.H.O.),

Agents for Arthur Brice.

Conditional purchase 86-36, Queanbeyan. Conditional purchase within referred to was recommended for forfeiture for non-residence, 28th June, 1888, and the recommendation has been approved of by the Minister on 5th November, 1888.—W.O.R., 7/1/89. Mr. Salwey.

The writer may be informed, and this letter forwarded to the Under Secretary for Lands.—A.S., 18/1/89. Mr. A. Brice, care of A. M. Dulhunty & Co., informed, 18/1/89. The Under Secretary for Lands.—B.C., Local Land Board, 18/1/89.

No. 13.

Office Memorandum.

Arthur Brice.—Conditional Purchase, 86-36, Queanbeyan, 26th section, 121 acres.

THIS conditional purchase was applied for, 26th August, 1886, and confirmed 18th August, 1887, a registered notice to attend Court being sent to applicant, 2nd of that month. The case was again before the Board for the purpose of fixing the class of fence to be erected, 13th October, 1887. Notice to attend being sent by registered letter, 27th September. The inquiry as to the fulfilment of conditions was held 28th June, 1888. The registered notice to attend being posted to applicant, 5th of same month, who, however, did not attend on any of these occasions. The conditional purchase was recommended for forfeiture, and the forfeiture approved, 22nd September last, but has not yet been gazetted. On the 10th July, 1888, Messrs. Dulhunty and Co. wrote urging reversal of forfeiture as an act of justice, stating that Brice, the selector, had only a few weeks previously received the notice of confirmation, upon receipt of which he immediately left his employment to go to the selection, when he was informed that it was recommended for forfeiture, owing to the non-fulfilment of the conditions of residence. This letter was forwarded to the Chairman, and returned by him, as the papers of the case had previously been sent to this Department. Dulhunty & Co., through the Chairman, again urge reconsideration of Brice's case. It may be pointed out that although the conditional purchase was confirmed 18th August, 1887, the certificate of confirmation was not posted to applicant till the 16th September following, and the inspection took place the following 5th January, *i.e.*, four and a half months after date of confirmation, and three and a half months after the date notice was posted to Brice, the selector.

W. H. C., F. H. W., 1/3/89.

May perhaps pass on the distinct understanding that selector must comply strictly with the requirements of the law as to residence for the balance of three and a half years.—S.F., 9/3/89. Approved.—J.N.B., 20/3/89. Inform selector.—W.H.C., 3/4/89. A. Brice, care of Dulhunty & Co., informed, 12/4/89. Mr. Yorke to note; then send to Chairman of the Board.—W.H.C., 23/4/89.

No. 14.

The Under Secretary for Lands to Mr. A. Brice.

Sir,

Department of Lands, Sydney, 12 April, 1889.

Referring to the conditional purchase noted in the margin, I am directed by the Secretary for Lands to inform you that the conditional purchase in question will be allowed to pass, on the distinct understanding that you must comply strictly with the requirements of the law as to residence for the balance of three and a half years.

I have, &c.,

W. H. CAPPER

(For the Under Secretary).

Queanbeyan; conditional purchase 86-36; 26th August, 1886; 121 acres; Arthur Brice.

No. 15.

The Under Secretary for Lands to The Chairman, Local Land Board, Cooma.

27 May, 1889.

THE enclosed papers referring to the conditional purchase noted in the margin are retransmitted to the Chairman of the Local Land Board, Cooma, for necessary local action in view of the Minister's decision of the 9th March last, which is to the effect that "the conditional purchase may pass, on the distinct understanding that the selector must comply strictly with the requirements of the law as to residence for the balance of three and a half years."

Conditional purchase 86-36; Arthur Brice, Queanbeyan; 121 acres.

W.H.C.

(For the Under Secretary), B.C.

At confirmation improvements (section 41) were valued and appraised at £21 8s. 6d. The selector, on 16th September, 1887, was called upon to pay first instalment within three months from such date; this he neglected to do. A reminder issued 14th January, 1888, but failed to bring about the desired payment. Similar action has been taken with regard to attached conditional lease 7,398, upon which the improvements were appraised at £44 9s. Two payments in each case are now considerably overdue Submitted.—W.O.R., 4/6/89.

The selector may be informed that unless the payments due are made within one month from this date the conditional purchase and conditional lease will again come before the Board, with a view to forfeiture.—A.S., 5/6/89.

Arthur Brice, care of A. M. Dulhunty, informed, 5/6/89. Resubmit, July, 1889. First and second instalments now paid, *vide* L.B. 89-3,464 herewith.—T.B., 28/6/89. Original conditional purchase 86-36, Queanbeyan. For inspection, in August 1889.—A.S., 12/6/89. Inspector Manton to report, 3/9/89. Third and fourth instalments paid, *vide* 91-9,930 L.B. enclosed.

No. 16.

The Crown Land Agent, Queanbeyan, to The Chairman, Local Land Board, Cooma.

Sir,

Crown Lands Office, Queanbeyan, 19 June, 1889.

A sum of £10 14s. 4d. has been paid this day for first and second instalments in payment for improvements on the conditional purchase referred to in the margin.

C.P., No. 86-36; Arthur Brice.

I have, &c.,

C. J. B. HELM,

Crown Land Agent.

No. 17.

No. 17.

Inspector W. A. Manton to The Chairman, Local Land Board, Cooma.

REPORT by Conditional-Purchase-Inspector W. A. Manton on conditional purchase, No. 86-36, of 121 acres, in the Land District of Queanbeyan, held by Arthur Brice, the application for which was confirmed by the Local Land Board on the 18th August, 1887.

Sir,

Queanbeyan, 30 September, 1889.

In obedience to your instructions of the 3rd September, 1889, I have the honor to furnish the following report, and to state that having regard to the relationship which, in the matter of residence, fencing, &c., exists, under the Crown Lands Act of 1884, between conditional purchases of the same series and conditional leases granted by virtue of them, I have been careful to ascertain whether any condition attaching to the above-described purchase has been fulfilled wholly or in part on other land, and to embody in this report any information on this point which I have succeeded in collecting, as well as to illustrate the report by exhibiting on the accompanying tracing the positions of any fencing or other improvements that have been made on the land.

I visited and inspected the land on the 6th September, 1889, and then found it occupied and used by selector as a home.

The conditional purchaser was at that time resident upon the land above described.

From what I could ascertain, and having regard to observations of my own, I consider that since date of confirmation of the application residence was carried out in the following places, and during the following periods:—No. of conditional purchase or lease on which the residence has been carried out—86-36. Whether purchase or lease—Purchase. No. of portion—94.

In addition to the fencing I found the following improvements on the land forming the subject of this report:—Description of improvements: Slab hut, two rooms. Value: £20.

Taking into account the foregoing, and having regard to the following considerations, I am of opinion—

That the requirements of the Crown Lands Act of 1884 in regard to residence have been fulfilled.

That the requirements of the Crown Lands Act of 1884 in regard to fencing have been fulfilled.

That the requirements of the Crown Lands Act of 1884 in regard to other improvements have been fulfilled.

Single man, hut comfortable, and contains everything to make it habitable.

The place seems to be used as a *bona-fide* residence.

I have, &c.,

The Chairman, Local Land Board, Cooma.

W. A. MANTON.

Original conditional purchase, 86-36, Queanbeyan. Residence appears satisfactory to date. For inspection again in August, 1890.—A.S., 12/11/89. Yes.—A. C. BETTS, 16/11/89. Original conditional purchase, 86-36, Queanbeyan. For inspection again in August, 1890.—A.S., 6/1/90. Inspector Spicer, 10/7/90.

No. 18.

Office Memorandum.

Part of Road from the Tidbinbilla and Uriyarra Road towards Tharwa, parish of Congwarra, county of Cowley.

LAND for the above-mentioned road having been resumed under the 110th clause of Act 48th Victoria No. 18 by notice in the *Government Gazette* of 30th August, 1889, folio 5,903, it is hereby intimated that a certain area specified in schedule below has been resumed for that road from the undermentioned conditional purchase.

18th October, 1889.

A. J. STOPPS.

Land District of Queanbeyan.

No. of conditional purchase, 86-36; catalogued No. of plan, C. 668-1,793; No. 94, parish Congwarra; name of conditional purchaser, Arthur Brice; original area of portion, 121 acres; area resumed for road, 2 acres 0 roods 10 perches; present area of portion, 118 acres 3 roods 30 perches.

Forwarded for the information of the Chairman and for necessary action as to refund.—W.H.C. (for the Under Secretary, Department of Lands), B.C., 2/12/89. Applicant Refund Order No. 89-135, value 4s. 1d. Agent and Treasury informed, 24/12/89.

No. 19.

Mr. A. Brice to Mr. E. C. Harris.

Lanyon, 24 July, 1890.

I HEREBY authorise Mr. E. C. Harris, of Queanbeyan, to act as my agent in the taking up of a conditional purchase at the Land Office, Queanbeyan, on Thursday, 31st instant; also conditional lease; and to lodge application for same with the Crown Lands Agent.

ARTHUR BRICE.

No. 20.

Declaration by E. C. Harris.

[C.P. No. 96 of 1890.]

Crown Lands Acts Regulation, No. 46.

Declaration to accompany application for an Additional Conditional Purchase.

I, EDWIN CHARLES HARRIS, of Queanbeyan, clerk, do hereby solemnly declare and affirm that Arthur Brice is the applicant for the conditional purchase, as described in the application hereto annexed and marked "A," and that the statements contained in such application are true in substance and effect; and

I

I also solemnly declare and affirm that the several answers to the questions in the schedule hereto are true and correct; and I make this solemn declaration as to the several matters aforesaid, according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

Made before me, at Queanbeyan, this 31st day }
of July, 1890,—

E. C. HARRIS.

A. M. DALHUNTY, J.P.

SCHEDULE.

THE answers to the following questions must be fully and accurately given. The word "applicant," for the purpose of the following questions, and the answers thereto, means the person, corporation, company, or partnership in whose name the additional conditional purchase is to stand.

1. What is the applicant's name, style, or title? Arthur Brice.
2. What is the applicant's age? —
3. Is the applicant single, married, widower, or widow?
4. What is the name of the applicant's husband?
5. When and where was the applicant married?
6. Is the applicant judicially separated from her husband? If so, state when and by what Court the decree for separation was made?
7. What separate estate is the applicant possessed of?
8. Is the applicant incorporated or registered? If so, give particulars.
9. Is the applicant entitled to acquire and hold land in New South Wales?
10. If the applicant is a partnership, how many members are there in such partnership?
11. How did the applicant acquire the conditional purchase in virtue of which the present application is made? By conditional purchase.
12. Has the applicant ever made any original or additional conditional purchase under section 47 of the Crown Lands Act of 1884? If so, give particulars? No.
13. Is the land now applied for to be used solely for the applicant's own use and benefit? Yes.
14. Is there any agreement or arrangement by which any person other than the applicant can acquire any interest in, or obtain the use of the land now applied for? No.
15. Is there any understanding between the applicant and any person that will tend to defeat or evade the provisions of the law as to conditional purchases? No.

[Enclosure.]

Crown Lands Regulations No. 45.

[C.P. No. 96 of 1890.]

Application for a Conditional Purchase.

RECEIVED by me this 31st day of July, 1890, at 10 o'clock, together with a deposit of £20, and survey fee of £6 10s., and the following documents:—Forms 9 and 10, Crown Lands Act, agent's authority, and sketch.

C. J. B. HELM,
Land Agent.
31 July, 1890.

I HEREBY apply, on behalf of Arthur Brice, for 200 acres of Crown land, hereunder described, as an additional conditional purchase. The prescribed declaration is attached hereto. Particulars of all purchases and leases of the series are given on the back hereof. The land applied for is improved. The nature and position of the improvements are as follow:—Fencing. A corner of the land applied for is the south-west corner post of portion No. 94, parish Congwarra, county Cowley.

E. C. HARRIS,
Queanbeyan.

Description of the land applied for.

Parish of Booroomba, county of Cowley, Land District of Queanbeyan, in the Eastern Division: Commencing at the south-west corner of portion 94, parish of Congwarra; and bounded thence on the north by the south boundary of that portion eastward to the Tidbinbilla River; thence on the south eastward by that stream; thence on the southward by part of the north boundary of conditional pre-lease No. 4,548, same parish, westward to the east boundary of travelling stock reserve No. 13, now cancelled; thence north-westerly along that boundary to the commencing point, and containing 200 acres (more or less) and measured portion No. 29 of 180 acres; in all, 200 acres (more or less).

Present and all previous conditional purchases and conditional leases of the same series.

Conditional purchases:

Land Agent's No., 86-36; date of application, 26th August, 1886; area, 118 acres 3 roods 30 perches. Land Agent's No., 90-96; date of application, 31st July, 1890; area, 200 acres.

Conditional leases:

Land Agent's No., 86-13; date of application, 26th August, 1886; area, 308 acres. Land Agent's No., 90-37; date of application, 31st July, 1890; area, 600 acres.

This is the application, marked A, referred to in the annexed declaration made before me by Edwin Charles Harris, at Queanbeyan, this 31st day of July, 1890.

A. M. DALHUNTY, J.P., &c.

No. 21.

The Chairman, Local Land Board, Cooma, to The District Surveyor.

Land District of Queanbeyan.

Crown Lands Act of 1884, section 42, conditional purchase No. 96, of 1890.

EXTRACT from an application for conditional purchase, lodged with the Land Agent on the 31st day of July, 1890, at 10 of the clock forenoon, by E. C. Harris, on behalf of Arthur Brice, Lanyon. Deposit paid, £20; survey fee paid, £6 10s.

Description.

Eastern Division, county Cowley, parishes Booroomba and Congwarra, 200 acres: Commencing at the south-west corner of portion 94, parish of Congwarra; and bounded thence on the north by the south boundary of that portion eastwards to the Tidbinbilla River; thence on the south-eastward by that stream; thence on the southward by part of the north boundary of conditional pre-lease, No. 4,548,

same parish, westward, to the east boundary of travelling stock reserve No. 13, now cancelled; thence north-westerly along that boundary to the commencing point, and containing 200 acres (more or less), and measured portion No. 29, of 180 acres; in all 200 acres (more or less).

A corner of the land applied for is the south-west corner post of portion No. 91, parish Congwarra. The land applied for is alleged to be improved. The nature and position of the improvements being as follows:—Fencing.

Present and all previous holdings of the same series.

Conditional purchases:

No. 36; date, 26th August, 1886; area, 118 acres 3 roods 30 perches. No. 96; date, 31st July, 1890; area, 203½ acres. Total, 318 acres 3 roods 30 perches.

Conditional leases:

No. 13; date, 26th August, 1886; area, 308 acres. No. 67; date, 31 July, 1890; area, 600 acres. Total, 908 acres.

Examined.—W.H.B. Referred to the District Surveyor for report.
Land Board Office, Cooma, 12th August, 1890.

J. BAILIE
(For Chairman).

Instruction No. 55.

Mr. Licensed-Surveyor Conroy for measurement in the form indicated by red edge on the accompanying helio.; due provision to be made for intercommunication by roads or access to water. This will necessitate the amendment of survey of portion 29, parish Booroomba, by including about 20 acres east of the road, and the survey will cross the Tidbinbilla River. Service to be charged for at daily rates.—T. W. CONOLLY, Acting District Surveyor, 17/4/91.

Replied to by my letter No. 60, of 20th August, 1891.—ALFRED HUGH CONROY, Licensed Surveyor. The District Surveyor.

No. 22.

The District Surveyor, Cooma, to The Crown Land Agent, Queanbeyan.

Additional conditional purchase 90-96, Queanbeyan.

PLEASE state if rent has been paid to date on Arthur Brice's conditional lease 73-98, Queanbeyan, parish Congwarra, county Cowley.

J. F. COOKE
(For District Surveyor).

Rent paid on conditional lease 73-98, A. Brice, up to 17th instant.—C. HELM, Crown Land Agent, Queanbeyan, 27/8/90. The District Surveyor, Cooma.

No. 23.

The Acting District Surveyor, Cooma, to The Chairman, Local Land Board,
Queanbeyan.

12 September, 1890.

Conditional Purchase—Queanbeyan Land District.

REPORT of the District Surveyor at Cooma, upon application for conditional lease No. 90-96, of 31st July, 1890, under section 42 of the Crown Lands Act of 1884, for 200 acres, parishes of Booroomba and Congwarra, county of Cowley, by Arthur Brice; No. 90-343.

THIS application is for 200 acres, edged red on diagram, associated lease being edged blue, and prior conditional purchase and conditional lease, tinted red and blue respectively.

The land applied for embraces 20 acres, unmeasured (land included in John Noone's conditional lease 90-64, of even date) and measured portion 29, parish of Booroomba, which is situated on the opposite side of a frontage, viz., Tidbinbilla River. Section 27, Act 89, provides for the crossing of frontages only when all the available land on the one side has been absorbed; but if forfeiture has not been incurred on applicant's conditional lease 73-98 (86-13), it is available to him under section 25.

T. W. CONOLLY,
Acting District Surveyor.

Notice, 30/9/90. Court at Queanbeyan, 5/11/90. Case adjourned for further consideration.—
A. C. BETTS, 6/11/90.

No. 24.

Messrs. A. M. Dulhunty & Co., to The Chairman, Local Land Board, Cooma.

Sir, Queanbeyan, 17 October, 1890.

As agents for Mr. A. Brice, we have the honor to enclose herewith an application to substitute other improvements in lieu of fencing on his conditional purchase and conditional lease, Land District of Queanbeyan.

In connection with this application, we may state that Brice was under the impression that this application was made long since, and it was only very lately it was discovered that the same had not been done. Under these circumstances we have the honor to request that this application may be allowed to stand.

We have, &c.,
A. M. DULHUNTY & CO.
(Per E.S.G.),

Agents for Arthur Brice.

Court at Queanbeyan, November, 1890. Notice to A. Brice, 3/11/90.

No. 25.

No. 25.

Inspector Wm. Spicer to The Chairman, Local Land Board, Cooma.

REPORT by Inspector Wm Spicer, on conditional purchase No. 86-36, applied for by Arthur Brice, on the 26th of August, 1886; confirmed 18th August, 1887; portion No. 94; parish of Congwarra, county of Cowley; Land District of Queanbeyan.

Sir,

Cooma, 27 October, 1890.

In accordance with instructions dated 10/7/90, I have the honor to report that I personally inspected the above-described conditional purchase on the 7th October, 1890.

From the circumstances stated below, I am of opinion that the conditions of the law had not been complied with up to the time of my visit of inspection; I am also doubtful whether the land is held *bona fide* for the sole use and benefit of the conditional purchaser.

The conditional purchaser follows the calling of a labourer, and was present at the time of inspection. The residence, which is situated on portion No. 94, in my opinion, is his usual home, without any other place of residence. I did not notice any stock on the selection.

At the date of inspection the land had been improved by a house, garden, clearing, &c. The only fencing on this portion is a log fence near road on west, and a similar one from north-west corner, diagonally crossing the land to Paddy's River; erected before survey, as marked on tracing, as per schedule at foot hereof. Selector, single; residing. He was employed stacking dead timber.

I have, &c.,

WILLIAM SPICER,

Inspector.

Schedule.

Queanbeyan, 21/11/90.

Applicant informed, 19/2/91.

No. 26.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }

Land Court, No. 395.

WHEREAS, on the 22nd day of November, 1890, it became a matter for investigation before us to consider application for additional conditional purchase 90-96, of 200 acres, 31st July, 1890, by Arthur Brice involving the question as to whether land held under conditional lease, and available to applicant only, is available land within the meaning of section 27 sub-section 3, Act of 1889, Cooma, and having taken evidence, and inquired into the said matter, we find that all the vacant Crown land on the same side of Tidbinbilla

Tidbinbilla and Paddy's River as the basal conditional purchase and prior conditional lease has been exhausted, but in view of the fact that applicant's conditional lease, No. 86-13, is available to him for conditional purchase under section 25, Act of 1889, we refer the case to the Land Court for decision as to whether applicant should not first select this conditional lease, 86-13, before obtaining land in this series on the opposite side of either Tidbinbilla or Paddy's River under sub-section 3 of section 27.

Provided all available land can be considered as exhausted, there is no objection to crossing either river.

Given under our hands, at Queanbeyan, in the Colony of New South Wales, this 22nd day of November, 1890,—

A. C. BETTS, Chairman.
C. S. ALEXANDER,
O. WILLANS,
Members.

No. 27.

The Acting Chairman, Local Land Board, Cooma, to The Registrar of the Land Court.

Sir, Local Land Board Office, Cooma, 3 December, 1890.

I do myself the honor to transmit herewith the proceedings in the cases noted in the accompanying schedule, referred to the Land Court for decision by the Local Land Board at Queanbeyan, on the 22nd November, 1890.

I enclose the recommendation of the Board in the case, together with the original documents.

I have, &c.,
A. C. BETTS,
Acting Chairman.

Case referred to Land Court for decision by the Local Land Board at Queanbeyan, on the 22nd November, 1890.

C.P. No., or Lease No. and District,—C.P. 90-96, Queanbeyan (90-7,390 L.B.); name of original and present holder,—Arthur Brice. Referred to Land Court for decision under sub-section 3 of section 27. Papers of C.L. 90-67, in virtue of above conditional purchase, herewith (90-5,524 L.B.)
The Registrar, Land Court, Darlinghurst.

No. 28.

The Registrar of The Land Court to The Under Secretary for Lands.

Sir, Office of Land Court, Darlinghurst, 16 December, 1890.

I have the honor to inform you that the case as per margin has been referred by the Cooma Land Board to Land Court for determination, whether lands held under conditional lease, and available to applicant only, is available land within the meaning of section 27, sub-section 3, of the Act of 1889 and whether the conditional purchase application in question should be granted.

I have, &c.,
J. T. KEATING,
Registrar.

Queanbeyan;
conditional
purchase 90-96;
A. Brice.

No. 29.

The Registrar of the Land Court to Mr. A. Brice.

Notice of Case coming on before the Land Court.

In the Land Court of }
New South Wales. }

In the matter of Conditional Purchase 90-96, Queanbeyan, Arthur Brice.

THE above-mentioned matter having come under the cognizance of the Land Court upon the reference by Cooma Land Board for determination whether said additional conditional purchase should be granted, made in respect thereof upon the 22nd day of November, 1890, you are hereby notified that, at the sessions of the Land Court, to be holden at No. 3 Court, Darlinghurst, on the 9th day of February next and following days, the said matter will be brought before the Court for hearing or otherwise, as may be ordered in that behalf.

Signed this 14th day of January, 1891.

J. T. KEATING,
Registrar.

To Mr. Arthur Brice, of Lanyon, via Queanbeyan.

Statement of Service or attempts made to effect Service.

SERVED a true copy of the within notice upon Arthur Brice by delivering the same to him personally, at Tidbinbilly, on the 20th January, 1891.

HARRY WILLIS.

I, HARRY WILLIS, Constable of Police, do hereby solemnly declare and affirm that the above statement is true, and I make this solemn declaration as to the matters aforesaid according to the law in this behalf made, and subject to punishment by law provided for any wilfully false statement in any such declaration.

Made before me, at Queanbeyan, this 24th day }
of January, 1891,—

HARRY WILLIS.

WILLIAM PRICE, J.P.

No. 30.

Office Memorandum.

Before Land Court, at Sydney, on the 10th February, 1891—No. 395—Additional Conditional Purchase, 90-96, Queanbeyan—Arthur Brice.

10 January, 1891.

THIS is a reference by the Land Board to the Land Court to decide whether the selector can cross a frontage to make an additional conditional purchase (all the available land on the same side of the frontage having been taken), he being the holder of a conditional lease open to conditional purchase to him (only) on the same side of the frontage as the original conditional purchase. In other words, is a conditional lease "available land" within the meaning of the latter part of sub-section 3, of section 27, of the Act of 1889.

This is an important question, and if decided against the selector it will probably affect a great number of cases.

A.S.

The solution appears simple, but the case is of some importance, and the Crown should perhaps be represented. A conditional lease cannot, I think, be held to be available land within the meaning of the section quoted.—W.H., 20/1/91.

Approved.—J.N.B., 21/1/91.

No. 31.

The Registrar of the Land Court to The Chairman, Local Land Board, Cooma.

In the Land Court of New South Wales.

Reference to be heard at Session to be held at No. 3 Court, Darlinghurst, commencing on the 9th day of February, 1891.

Appellant: Cooma Land Board.

REFERENCE to Land Court for determination whether land held under conditional lease and available to applicant only, is available land within the meaning of section 27, sub-section 3, of the Act of 1889, and whether Arthur Brice's additional conditional purchase application, No. 90-96, Queanbeyan, should be granted.

Names and addresses of any other parties interested,—Arthur Brice, Lanyon, *via* Queanbeyan.

Notice of intention to hold Court gazetted 23rd January, 1891; notice issued to undermentioned parties, and date of issue, A. Brice, 14th January, 1891; service effected, 20th January, 1891; copies of evidence supplied to Land Court, 28th January, 1891.

Now forwarded to the Local Land Board at Cooma, the case having been brought before the Land Court sitting as above on the 10th day of February, 1891.

A copy of the order of the Court will be found on third page hereof.

J. T. KEATING,

To the Chairman, Local Land Board, Cooma.

Registrar, 20th February, 1891.

Copy of Order of Court.

Answer.—No; and, therefore, Brice's additional conditional purchase should be granted, if otherwise unobjectionable.

Notice to A. Brice, 7/3/91. Court at Queanbeyan, 6/4/91. We postpone confirmation till conditional lease is submitted.—A. C. BETTS, C. S. ALEXANDER, O. WILLIAMS, Queanbeyan, 6/4/91. Instructions on certified copy have this day issued to Mr. Licensed-Surveyor Conroy to measure, if unobjectionable, 10-55.—T.W., 17/4/91.

No. 32.

The Registrar of the Land Court to The Under Secretary for Lands.

Sir,

Office of Land Court, Darlinghurst, 20 February, 1891.

I have the honor to inform you that the matter of the appeal, as per margin, was brought before the Land Court of New South Wales, sitting at Sydney on the 10th instant, when the following order was made:—

Answer.—No; and, therefore, Brice's additional conditional purchase should be granted if otherwise unobjectionable.

I have, &c.,

J. T. KEATING,

Registrar.

May be communicated by circular to Land Agents, District Surveyors, and Chairman.—H.C., 27/2/91. The Registrar should be requested to forward a copy of the judgment at his earliest convenience.—W.H., 3/3/91. Approved.—J.N.B., 4/3/91.

Reference by Cooma Land Board whether land held under conditional lease available to applicant only is available lands within the meaning of section 27, sub-section 3 of 1889 Act, and whether A. Brice's conditional purchase, 90-96, Queanbeyan, should be granted.

No. 33.

No. 33.

Decision of The Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }
Decision of Local Land Board.

WHEREAS, on the 2nd day of June, 1891, it became a matter for investigation before us whether the condition of fencing has been fulfilled in respect of the conditional purchase noted hereunder—original conditional purchase 86-86. Queanbeyan, 121 acres, Arthur Brice, confirmed, 18th August, 1887, and, having taken evidence and inquired into the said matter, we find that the condition of fencing has not been fulfilled, and this conditional purchase should therefore be forfeited.

Mr. Dulhunty appeared, but offered no evidence.

Given under our hands, at Queanbeyan, in the Colony of New South Wales, this 2nd day of June, 1891,—

A. C. BETTS, Chairman.
C. S. ALEXANDER,
O. WILLANS,
Members.

[Enclosure.]

THIS deponent, William Spicer, of Cooma, Conditional Purchase Inspector, being duly sworn, maketh oath and saith as follows: I visited and inspected the land in question (conditional purchase 86-86, Queanbeyan), on 7th October, 1890, and found the improvements on the land—a house, £28, and garden £4. The only fencing on the portion was an old log fence near the road, on the west, and a similar one from the north-west diagonally crossing the land to Paddy's River. Selector was residing, and was employed stacking timber. He did not appear to be making sole use of the land, and had no stock on it. I am very doubtful as to his *bona fides*. His residence, I believe to be perfect. The fence is not actually on boundary. The land was not improved up to £1 per acre. I believe the land is probably improved up to about 6s. per acre. The river is not fenced, and the series is not enclosed.

Sworn by this deponent, at Queanbeyan, this 2nd day of June, 1891, before us,—

WILLIAM SPICER.

A. C. BETTS, Chairman.
C. S. ALEXANDER,
O. WILLANS,
Members.

Conditional lease 7,398, in virtue of this conditional purchase, recommended for forfeiture, *vide* 91-4,633 L.B. The District Surveyor for report as to whether land is required as a reserve or as a special area.—J.B. (for Chairman), 14/7/91.

The land is not required as a reserve, and I do not recommend proclamation as a special area. It does not appear desirable to offer this portion at auction.—F. W. CONOLLY, Acting District Surveyor, 17/7/91.

No appeal has been lodged, and the decision of the Board that the conditional purchase should be declared forfeited is now submitted for approval. The Inspector was also very doubtful as to the *bona fides* of the selector. It is submitted that the conditional purchase be forfeited.—W.H.C. (*pro* Under Secretary), 31/7/91.

Forfeiture approved.—J.N.B., 31/7/91. The land herein referred to falls within resumed area Congwarra, No. 38½ A., Eastern Division.—G.H.K. (*pro* A. BELG), 5/8/91. Applicant and Chairman as to intended forfeiture.

No. 34.

Messrs. A. M. Dulhunty & Co. to The Under Secretary for Lands.

Sir,

Queanbeyan, 29 June, 1891.

As agents for Mr. Arthur Brice we have the honor to request that a refund voucher may be granted to him for deposit paid on his conditional purchase 90-96, Queanbeyan, applied for on the 31st July, 1890, of 200 acres, also a refund voucher for deposit paid on his conditional lease, Queanbeyan 90-67, of 600 acres, applied for on same date. The grounds that this application is made on is that the conditional purchase and conditional lease in question were not confirmed within six months from this date.

We have, &c.,

A. M. DULHUNTY & CO.

(Per G.E.H.),

Agents for Arthur Brice.

May be instructed to apply to the Chairman in the prescribed manner, *vide* Regulation 72, and attention at the same time may be invited to the provision of section 15, Act of 1889.—A.S., 14/7/91. Yes.—W.H.C. (*pro* Under Secretary), 15/7/91. Messrs. A. M. Dulhunty & Co. informed, 15/7/91.

No. 35.

The Under Secretary for Lands to Messrs. A. M. Dulhunty & Co.

Gentlemen,

Department of Lands, Sydney, 15 July, 1891.

In reply to your letter of the 29th ultimo, applying for refund of deposit paid upon the conditional purchase and conditional lease application quoted in the margin, I have the honor to invite your attention to the provisions of section 15 of the Act of 1889, and to inform you that application for refund should be made in the prescribed manner (*vide* Regulation 72) to the Chairman of the Local Land Board.

I have, &c.,

WM. HOUSTON,

Under Secretary

(Per W.H.C.)

Queanbeyan;
conditional
purchase 90-96;
conditional
lease, 90-67;
A. Brice.

No. 36.

E. W. O'Sullivan, Esq., M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 21 July, 1891.

It is reported in the Queanbeyan district that the undermentioned conditional purchases are likely to be forfeited; and on behalf of a number of persons in my electorate, who require land, I am requested to ask that you will be good enough to throw them open to selection again. They are as follows:—

Andrew Cunningham.					a.	r.	p.
No. 94	118	3	30
No. 88	60	0	0
No. 25	88	0	0
J. Crawford.							
No. 52	40	0	0
No. 51	40	0	0
No. 50	40	0	0
No. 48	40	0	0

Parish of Congwarra, county Cowley, Land District of Queanbeyan. They were selected the last time by A. W. Brice. I have, &c.

E. W. O'SULLIVAN.

Will Charting Branch please quote the conditional purchase numbers of the portions herein referred to, 22/7/91.

The parish map shows portion 94, as held by A. Brice, under conditional purchase 86-36, and the other portions mentioned as forming conditional lease 73-98, by same party; both conditional purchase and conditional lease were confirmed on 18th August; and are situated in the Land District of Queanbeyan.—R.M., 22/7/91.

The conditional purchase has probably been recently before the Board, and the Chairman may be asked to state how the matter stands. Mr. O'Sullivan may be informed that the report of the Land Board in the matter has not yet been received in this office, and that the Chairman has been asked to state how the matter stands.—A.S., 23/7/91.

Yes.—W.H.C. (for the Under Secretary), 23/7/91. Mr. O'Sullivan and Chairman, 24/7/91.

No. 37.

The Under Secretary for Lands to The Chairman, Local Land Board, Cooma.

Sir,

Department of Lands, Sydney, 24 July, 1891.

I have the honor to request that you will be good enough to expedite your action on papers numbered 91-9,043, Departmental, relating to A. Brice's conditional purchase, 86-36, Queanbeyan, forwarded to your address on the 15th ultimo, and to state how the matter stands.

I have, &c.,

WM. HOUSTON,

Under Secretary
(Per W.H.C.)

The papers of the conditional purchase referred to (C.P. 86-36, Queanbeyan) were forwarded to Head Office on 25th instant with the Board's recommendation of forfeiture, as the conditions of fencing had not been fulfilled.—JAMES BAILEY (for Chairman), Cooma, 27/7/91. The Under Secretary for Lands, Sydney.

No. 38.

The Under Secretary for Lands to E. W. O'Sullivan, Esq., M.P.

Sir,

Department of Lands, Sydney, 24 July, 1891.

In reply to your letter of the 21st instant, requesting that the land quoted in the margin be thrown open to selection. I have the honor to inform you that these portions represent A. Brice's conditional purchase 86-36, and conditional lease 73-98, the report of the Local Land Board in connection with which has not yet been received, but the Chairman has been asked to state how the case now stands.

I have, &c.,

WM. HOUSTON,

Under Secretary
(Per W.H.C.)

No. 39.

Mr. A. Brice to The Chairman, Local Land Board, Cooma.

Sir,

Tidbinbilla, 3 August, 1891.

I am sorry to hear my selection is likely to be forfeited, as I do not know the Act. I think it very hard to lose it now after spending my time and labour on it. I did other improvements instead of fencing, as I thought it was right. I had no one to guide me. If you will allow me time to fence I will fence at once.

I have, &c.,

ARTHUR BRICE,

Tidbinbilla, via Tharwa, Queanbeyan.

No. 40.

Mr. A. Brice to The Chairman, Local Land Board, Cooma.

Crown Lands Acts: Regulations Nos. 79 and 123.

Application for extension of time to complete Fencing.

I, ARTHUR BRICE, hereby apply that the period within which the condition of fencing in connection with my conditional purchase No. 1886-36 of 118 acres 3 roods 30 perches, in the parish of Congwarra, county of Cowley, Land District of Queanbeyan, applied for on the 26th day of August, 1886, is to be fulfilled, may be extended for a period of three months.

The reasons for this application are as follows: That I, at the time within which application should have been made, omitted to do so, not knowing that it was necessary, as I otherwise had fully improved the land.

Signed, this 7th day of August, 1891.

ARTHUR BRICE,
Tharwa.

Disallowed, as being after the prescribed time.—A. C. BETTS, C. S. ALEXANDER, Queanbeyan, 24/11/91.

No. 41.

Mr. A. Brice to The Chairman, Local Land Board, Cooma.

Crown Lands Acts: Regulation No. 75.

Application for an Exemption from Fencing a boundary line of Conditional Purchase or Conditional Lease.

I, ARTHUR BRICE, being the holder of the conditional purchases and conditional leases specified in the first schedule on the back hereof, hereby apply for an exemption from fencing the following portions of the boundaries thereof for the reasons here given: That part of my land having creek frontage and adjoining my conditional lease 90-67 opposite such creek, which would be rendered unnecessary if conditional lease 90-67 is granted; and I further apply that I may be exempted from making other improvements in lieu of the fencing aforesaid.

The names of the holders of lands adjoining the aforesaid portions of the boundaries are stated in the second schedule on the back hereof.

Signed, this 7th day of August, 1891.

ARTHUR BRICE,
Tharwa.

First Schedule.

NOTE.—A Conditional Purchase and a Conditional Lease should not be entered on the same line. Conditional Purchases or Conditional Leases of different series should not be included.

	7396.....	26/8/86	18/8/87	do

Second Schedule.

Name of Holder.	Address and nearest Post Town.
A. J. J. Cunningham	Lanyon.
John Noone	Tharwa.

Conditional lease 73-98 forfeited, *vide Gazette*, 25/8/91, conditional purchase papers. Recommended for forfeiture, *vide* 91-4,632 L.B. Queanbeyan, 23/11/91. Notice.—5/11/91. Disallowed as being made after the prescribed time.—A. C. BETTS, C. S. ALEXANDER, Queanbeyan, 24/11/91.

No. 42.

Mr. Licensed-Surveyor A. H. Conroy to The District Surveyor, Cooma.

Sir,

Queanbeyan, 20 August, 1891.

I have the honor to transmit herewith the plan of one portion of land containing 203½ acres, numbered 29, in the parish of Booroomba, in the county of Cowley, conditionally-purchased by Arthur Brice, under the 42nd section of the Crown Lands Act of 1884, measured by me on 24th April, 1891, in accordance with instructions No. 55, dated 17th April, 1891.

Undulating land, of good grazing quality, wooded with box, apple, and stringy-bark, worth 25s. an acre. The necessary amendment in survey has been made, and the area estimated at 21 acres, included within portion 29.

The land can all be fenced, and is very suitable for grazing purposes.

Improvements are 13 chains log fence, at 5s.—£3 5s.

The

The old lengths have been copied, and placed on the present plan. I am not aware whether the work as a whole closes, but the portion surveyed by me does. I have charged for service at daily rates for one day, but this also includes office work. This is less than the ordinary fees at contract rates, and is not remunerative, barely paying camp expenses.

I have, &c.,
ALFRED HUGH CONROY,
Licensed Surveyor.

C. 1,134-1,793. Checked and charted.—M. W. LEWIS, junr., 26/9/91. Examined.—J. T. SMALL, 7/10/91.

Plan approved of portion No. 29, containing 203½ acres. Area applied for, 200 acres. Measured as described, embracing all available land north of the road. Area measured available for confirmation, improvements valued at £3 4s.; within resumed area 383 A, applied for as preferential occupation lease. For report on associated conditional lease 90-67, *vide* L.B. 91-7,062.—J. T. SMALL (*pro* District Surveyor), 7/10/91. The Chairman of the Local Land Board at Queanbeyan.

Notice, 28/9/91. Court at Queanbeyan, 15/10/91.

No. 43.

Messrs. Brett and Coghlan to The Under Secretary for Lands.

Sir,

19, Macquarie-place, 27 August, 1891.

Referring to our Mr. Brett's interview with you, respecting the conditional purchase noted in the margin, we have the honor to ask that you may be pleased to stay the forfeiture of the selection, in order to enable us to obtain a statutory declaration from Brice to the effect that he never received any notice to attend the Court, when the case was referred back under the 21st section. Had such reached him he would have been able to prove both his *bona fides* (which has been questioned apparently only on the surmise of Mr. Spicer) and that the improvements on the land were of much greater value than the inspector valued them at.

Queanbeyan: conditional purchase 86-86; 118 acres 3 roods; A. Brice; 91-17,578, Dep. Urgent.

Trusting to your sense of justice, we hope you may see your way to comply with our request, and thus give Brice, who is not physically a strong man, a chance of holding the land, on which he has spent years of labour and all his money, and who must, to use his own words, if turned out of his home, take his swag, and wander in search of a living almost penniless, without any return for years of work.

We have, &c.,
BRETT AND COGHLAN,
Agents for A. Brice.

No. 14.

Office Memorandum.

Department of Lands, 2 September, 1891.

Queanbeyan—Original Conditional Purchase 86-86, 118 acres 3 roods 30 perches—confirmed 18th August, 1887—Arthur Brice.

On 2nd June last the Board held an inquiry subject to 20th section, and found that the condition of fencing had not been fulfilled, and that the conditional purchase should be forfeited.

The Inspector, in his evidence, says the only fencing on the portion was an old log fence near the road on the west, and a similar one running diagonally across the land.

This fencing was on the land at date of confirmation.

The Inspector also says he is very doubtful as to the selector's *bona fides*, but the residence he believes to be perfect, and that the land is probably improved to about 6s. per acre.

This conditional purchase was recommended for forfeiture by the Board on a former occasion (28th June, 1888), but the Minister allowed it to pass on the distinct understanding that the condition of residence was strictly complied with.

On 16th October, 1890, the selector made an application for permission to substitute improvements in lieu of fencing, but it was disallowed by the Board, not being within the time allowed by law.

Messrs. Brett and Coghlan, on behalf of the selector, ask the Minister to stay forfeiture on the grounds that the selector did not receive any notice to attend the Court, and that, had such notice reached him, he would have been able to prove both his *bona fides* and that the improvements on the land were of greater value than the Inspector placed on them.

The matter is submitted for consideration, it being pointed out that no permission to substitute improvements in lieu of fencing has been granted, and that the Minister has already approved of the forfeiture, though it has not yet been gazetted.

A.S.

As the inquiry was held subject to the provisions of section 20, and no appeal was lodged, it is submitted that no consideration can now be given to the case.—W.H.C., 2/9/91. Submitted, that forfeiture should be enforced.—W.H., 4/9/91.

I concur, so far as the Board's finding, but in view of the representations which have been made the Board may be instructed to hold a further inquiry under the 20th section on the question of *bona fides*.—J.N.B., 4/9/91.

Brett and Coghlan informed, September, 1891. The Chairman, Local Land Board, Cooma.—H.W. (*pro* Under Secretary), B.C., 5/9/91. Notice, 6/11/91. Court. Queanbeyan, 24/11/91.

No. 45.

The Under Secretary for Lands to Messrs. Brett and Coghlan.

Gentlemen,

Department of Lands, Sydney, 4 September, 1891.

Queanbeyan :
original condi-
tional purchase,
86-86 ;
118 acres 3 roods
30 perches ;
Arthur Brice.

In reply to your letter of the 27th ultimo, respecting the conditional purchase quoted in the margin, I am directed to inform you that, although concurring with the finding of the Local Land Board that the condition of fencing has not been fulfilled, the Secretary for Lands has, in view of the representations made, decided that the Board be instructed to hold a further inquiry, subject to the provisions of section 20 of the Crown Lands Act of 1884, on the question of *bona fides*.

I have, &c.,

WM. HOUSTON,
Under Secretary
(Per W.H.C.)

No. 46.

Decision of Local Land Board, Queanbeyan.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }

WHEREAS on the 15th day of October, 1891, it became a matter for investigation before us to consider an application for the conditional purchase noted hereunder:—

Additional conditional purchase, 90-96, Queanbeyan, 200 acres, dated 31st July, by Arthur Brice, and having taken evidence and inquired into the said matter, we confirm the application for 203½ acres measured, as portion 29, subject to payment of extra deposit and survey fee, on increased area.

Four-wire fence, No. 11, on schedule herewith.

Given under our hands, at Queanbeyan, in the Colony of New South Wales, this 15th day of October, 1891,—

A. C. BETTS, Chairman.
O. WILANS, Member.

Applicant called upon to pay extra deposit, 6s. 6d., and survey fee, 2s. 6d. Agent and Treasury informed, 3/12/91. Crown land agent informed of confirmation, 3/12/21. District Survey Office, 22/12/91.

District Surveyor to note confirmation and for report as to disposal of land, the basal conditional purchase, 86-86, having been recommended for forfeiture by Queanbeyan Board, of 24th ultimo.—J.B., 22/12/91.

Confirmation noted. The land is not required as a reserve, and I do not recommend proclamation as a special area. It is not advisable to offer this land at auction.—G. H. SIEAFFE, District Surveyor, 22/12/91.

[Enclosure.]

Schedule of classes of fencing.

11. A substantial four-wire fence, the top wire of which shall not be less than 3 ft. 8 in. from the ground, having the wires tightly stretched, the spaces between the several wires and the bottom wire and the ground to be as nearly equal as possible. The posts to be not more than 11 feet apart, and straining posts not more than 100 yards apart, sunk 3 feet in the ground, or the posts may not be more than 16 feet apart, provided that there be two battens between the posts, leaving about 5 feet between the battens and between each post and each batten.

12. In mountainous country, or where a very substantial fence is not necessary, a post and top rail and three-wire fence, about 4 feet in height. The posts to be about 11 feet apart, and the wires to be placed at convenient distances. The top rail may be secured on top of the posts.

13. A combination of any of the above-mentioned fences.

No. 47.

The Crown Land Agent, Queanbeyan, to The Chairman, Local Land Board, Cooma.

Crown Lands Office, Queanbeyan, 19 November, 1891.

Re conditional purchase, 86-86, Arthur Brice. The third and fourth instalments due for improvements on above-mentioned conditional purchase, each £5 7s. 1d., were paid to-day.

C. J. B. HELM,
Crown Land Agent.

No. 48.

Decision of Local Land Board, Queanbeyan.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

Decision of Local Land Board.

New South Wales, }
to wit. }

WHEREAS on the 24th day of November, 1891, it became a matter for investigation before us to inquire further into the *bona fides* of original conditional purchase, 86-86, Queanbeyan, of 118 acres 3 roods 30 perches, confirmed on 18th August, 1887, to Arthur Brice, and having taken evidence and inquired into the said matter, we find that since date of application, the land has been leased to the lessee of the run for grazing purposes, and the selector does not know the amount paid as deposit on either the conditional purchase or lease, or the amount paid for the improvements at date of application.

There are great discrepancies in his evidence, and it would appear that the reasons given in application for "reversal of forfeiture" are not now borne out by the facts elicited on oath. This

This is the third inquiry in connection with this case, and the land appears to have been twice forfeited.

In view of the circumstances, we are of opinion that the land is not held *bona fide* for selector's sole use and benefit.

Given under our hands, at Queanbeyan, in the Colony of New South Wales, this 24th day of November, 1891,—

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

[Enclosure.]

This deponent, *William Spicer*, of Cooma, Conditional Purchase Inspector, being duly sworn, maketh oath, and saith as follows: I inspected conditional purchase, 86-36, in question, on the 7th October, 1890; have heard my previous evidence read, which is correct; know nothing further respecting *bona fides*; believe he does not make sole use of the land; Mr. Cunningham uses it for grazing; beyond living in the house, do not think selector was using the land; believe him to be an old employee of Mr. Cunningham; and has held selections previously.

Sworn by this deponent, at Queanbeyan, }
this 24th of November, 1891,—

WILLIAM SPICER.

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

This deponent, *James Cunningham*, of Lanyon, grazier, being duly sworn, maketh oath, and saith as follows: Know conditional purchase, 86-36, in question, held by Arthur Brice: have rented the land from selector, and run stock on it; beyond this, have no interest in the land, and have not made any arrangement with Brice respecting it; have not helped him in any way; he was once in my employ; believe selector took the land up for *bona fide* purposes; use all the land of Brice's; pay him about £32 a year; the agreement is drawn up for five years; believe I have paid him myself.

Sworn by this deponent, at Queanbeyan, }
this 24th of November, 1891,—

JAS. CUNNINGHAM.

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

This deponent, *Charles Joseph B. Helm*, of Queanbeyan, being duly sworn, maketh oath, and saith as follows: Am Crown Land Agent for the district of Queanbeyan; produce butt of receipt book, showing payment, 19th June, 1889, of £10 14s. 4d. by Arthur Brice, in respect of conditional purchase 86-36; and on 19th instant, a sum of £10 14s. 2d., on same conditional purchase, 86-36: the payments were made by Mr. Dulhunty.

Sworn by this deponent, at Queanbeyan, }
this 24th of November, 1891,—

C. J. B. HELM.

A. C. BETTS, Chairman.
C. S. ALEXANDER, Member.

This deponent *Arthur Brice*, of Congwarra, selector, being duly sworn, maketh oath, and saith as follows: Am holder of conditional purchase 86-36 in question; have heard the Inspector's evidence; took the land up for myself for stocking, and to make a home; was not in anyone's employment when I took the land up; have not been in Mr. Cunningham's employment for eight years; he rents the land from me; have an arrangement with him about using the selection; get rent for the land; have no other home but the one in question; the rent keeps me; am in delicate health, and cannot work hard; earn money at shearing time at Mr. Cunningham's; will swear I hold the land *bona fide*; have rented it for five years to Mr. Cunningham; have the agreement drawn up; he gives me £30 per annum; the last payment was made last February of £26; get some money from home; about eight years ago was in the Cunningham employ for five years; during that time selected on his run; transferred it to Mr. Cunningham; the lease drawn up is signed by me; Cunningham has used the land ever since I took it up; thought I had improvements enough at date of application; paid £10 into the Land Court for them in one instalment about three years after selection; have no receipts for the money; Mr. Dulhunty lent me the money; when the Inspector visited the land in 1888, I was in Sydney under the doctor's care; was away six months; went to live on the land for the first time when I returned.

By Inspector: Hold 900 acres on Paddy's River; Mr. Cunningham uses the land; do not get anything from him for it; do not use it myself; the two-roomed house was built in July; do not know the year; a selector built it on contract; the material had been used before; received information that this land was open from Mr. Dulhunty; Mr. Dulhunty was acting for me; have not been paid for any work done on the selection; the hut reported roofless in 1888 is the one I am residing in now.

ARTHUR BRICE.

Recalled.

By Inspector: Borrowed the money from Mr. Dulhunty to pay for the improvements on the land; have borrowed £30 in addition; still owe it to him; he charges me 7 per cent.

By Board: It was winter; I was in Sydney in 1889 for a month; the absence of six months owing to illness was not in 1888; cannot say if it was in 1887; do not know how much money I paid for the selection or lease at day of application; had money of my own then; gave Mr. Dulhunty instructions to do my land business; gave him £30 of my own money; it was not sufficient, and Mr. Dulhunty lent me the rest; put all the money I had saved into the land when I took it up.

Sworn by this deponent at Queanbeyan, }
this 24th of November, 1891.

ARTHUR BRICE.

A. C. BETTS, Chairman.

Messrs. Brett and Coghlan to The Under Secretary for Lands.

Sir, 19, Macquarie-place, Sydney; 7 December, 1891.

Queanbeyan ;
conditional
purchase 86-86 ;
A. Brice.
Notification of
intended for-
feiture was made
in *Gazette* of the
25th ultimo.
Enclosures.

With reference to the conditional purchase, quoted on the margin, we have the honor to ask that you may be pleased to suspend forfeiture, pending the hearing of an appeal against the finding of the Local Land Board, which we are this day lodging

We enclose a letter received by us from Messrs. Dulhunty & Co., the agents who have been acting for Brice.

Trusting this matter may receive your early attention,

We have, &c.,
BRETT AND COGHLAN.

May be informed that no action in regard to forfeiture for non-payment of the appraised value of the Crown's improvements will be taken till after the appeal has been decided by the Land Court.—A.S., 8/12/91. For approval.—W.H.C., 9/12/91. F.H.W. (for the Under Secretary), 9/12/91. Approved.—H.C., 10/12/91. Brett and Coghlan informed, 12/12/91.

[Enclosures.]

Department of Lands, Sydney, 11 December, 1891.

NOTICE.

It is hereby notified that the interest and instalments due on the undermentioned conditional purchases have not been paid, and such purchases will, therefore, be declared forfeited, unless the amounts due are received within one calendar month from this date.

HENRY COPELAND.

Conditional purchase No., 86-86; name of conditional purchaser, Brice Arthur; district, Queanbeyan; date, 26th August, 1886; 118 acres 3 roods 30 perches; amount overdue to 31st December, 1891, £11 17s. 10d.

Department of Lands, Sydney, 25 November, 1891.

NOTICE.

It is hereby notified that the instalments due for value of the Crown's improvements on the undermentioned conditional purchases have not been paid, and such purchases will, therefore, be declared forfeited unless the amounts due are paid within one calendar month from the above date.

HENRY COPELAND.

Land District of Queanbeyan.

Conditional purchase No., 86-86: name of conditional purchaser, Brice Arthur; date, 26th August, 1886; area of selection, 118 acres 3 roods 30 perches: amounts overdue, £5 7 1d., 15 December, 1889: £5 7s. 1d., 13 December, 1890.

Messrs. Brett and Coghlan, Macquarie Place, Sydney,—

Dear Sirs,

Queanbeyan, 3 December, 1891.

The inquiry on A. Brice Conditional Purchase was heard on the 24th ultimo by the Local Land Board, and recommended for forfeiture, the reason given being doubt as to *bona fides*, and residence. You know all about this case, and you also know it is the third time it has been recommended for forfeiture, and we should say the only hope now of getting the forfeiture reversed is for you to see the new Minister for lands. We may state that this land is an important item to poor Brice, and therefore, you should use all the despatch you can. You have strong grounds to go upon to the Minister, in the first place this unfortunate selector took these conditional purchases with money borrowed from ourselves, and his own small savings, in the year 1886, and we do think if the selector was to have lost his land it should have been forfeited long before now, especially as this case came before the Local Land Board first in 1889, and Brice has not received any intimation that his land would be forfeited, and has consequently gone on residing, and improving his selections.

With regard to the question of *bona fides* we think it has been clearly proved to-day by Mr. Cunningham's evidence (whose evidence before the Land Board for many years for truthfulness has never been questioned) that he, Brice, has not acted for, or been employed by, the Messrs. Cunningham to secure the land for them.

As to residence we think you have full particulars as to how the case stands, that is, in the first place, Brice had no intimation of the conditional purchase having been confirmed, until long after it had been confirmed. Brice is a man in delicate health whom we have helped with money to secure the land upon his word, knowing him to be honest and straight, and we consider that it will be a very hard case if at the end of five years this man should lose his land on a technicality and all his time and money be thrown away.

Yours, &c.,
A. M. DULHUNTY & CO.
(Per G.C.H.)

No. 51.

The Under Secretary for Lands to Messrs. Brett and Coghlan.

Gentlemen, Department of Lands, 12 December, 1891.

In reply to your letter of the 7th instant, I have the honor to inform you that the Secretary for Lands has approved of no action being taken with a view to forfeiture of the conditional purchase quoted in the margin for non-payment of appraised value of improvements on the land until the appeal referred to by you has been decided by the Land Court.

Messrs. A. M. Dulhunty & Co. to The Under Secretary for Lands.

Sir,

Queanbeyan, 18 December, 1891.
As agents for Arthur Brice, we have the honor to enclose herewith an appeal notice in reference to conditional purchase 86-36, Queanbeyan, a copy of which, together with bank draft for £10, has this day been forwarded to the Chairman of the Local Land Board, Cooma.

We have, &c.,

A. M. DULHUNTY & CO.
(Per G.C.H.)

Receipt acknowledged, 22/12/91.

[Enclosure.]

[Crown Lands Act, Regulation No. 42.]

Notice of appeal to the Land Court from decision of Local Land Board.

New South Wales, }
to wit.

WHEREAS on the 24th day of November, 1891, a certain matter wherein it became a matter of investigation to inquire into the *bona fides* of original conditional purchase 86-36, selected at Queanbeyan on the 26th August, 1886, by Arthur Brice, came before the Local Land Board at Queanbeyan, in New South Wales, I, Arthur Brice, being a party to such proceedings. And whereas the said Board decided that, in view of the circumstances, they were of opinion that the land was not held *bona fide* for selector's sole use and benefit; and whereas I am aggrieved by such decision, and desire to appeal therefrom to the Land Court: These are, therefore, to give you notice that I appeal as aforesaid, and that I deposit the sum of £10 as security for the costs of such appeal. The grounds of such appeal are set out on the back hereof.

Signed this 17th day of December, 1891.
To the Under Secretary for Lands, Sydney.

ARTHUR BRICE,
Care of A. M. Dulhunty, Queanbeyan.

GROUNDS OF APPEAL.

- 1st. That the decision of the Local Land Board is against evidence and the weight of evidence.
- 2nd. That the selector distinctly swore he took the land up for his sole use and benefit with his own money and some borrowed from Dulhunty & Co.
- 3rd. That Mr. James Cunningham, the lessee of the holding (Congwarra, No. 303, Eastern Division) within which the land is situated, distinctly swore he had no interest in the land, and had not made any arrangements with Brice respecting it beyond renting it for grazing purposes.

No. 54.

Messrs. A. M. Dulhunty & Co. to The Chairman, Local Land Board, Cooma.

Sir,

Queanbeyan, 18 December, 1891.
As agents for Mr. Arthur Brice we have the honor to enclose herewith an appeal against the decision of the Local Land Board in reference to conditional purchase 86-36, Queanbeyan; also, a bank draft in your favour for £10, as required by the Act.

We have, &c.,

No. 61.

Question and Answer.

Legislative Assembly, Thursday, 14th January, 1892.

(4) CASE OF MR. BRICE, Queanbeyan Land District:—Mr. O'SULLIVAN asked THE SECRETARY FOR LANDS:—

- (1.) Has the case of a man named Brice been referred by the Queanbeyan Local Land Board to him for his consideration?
- (2.) Has he received any information in the matter which would support the allegation that Brice has been a systematic dummy for years?
- (3.) Will he have a thorough inquiry made into this matter, to ascertain if there is any truth in the allegation?

Mr. COPELAND answered,—

- (1.) No.
- (2.) No; but a man named Brice has appealed to the Land Court against the decision of the Land Board at Queanbeyan to the effect that certain land was not held by him for his sole use and benefit.
- (3.) The Land Court will deal with the appeal in the usual manner.

No. 62.

The Registrar, Land Court, to The Chairman, Local Land Board, Cooma.

In the Land Court of New South Wales.

Appeal to be heard at Session to be held at Sydney, commencing on the 8th day of February, 1892.

Appellant: Arthur Brice.

Nature of appeal: Against the finding of the Land Board in respect of his conditional purchase No. 86-36, Queanbeyan.

Name and addresses of any other parties interested,—Arthur Price, care of Dulhunty and Co., Queanbeyan.

NOTICE of intention to hold Court gazetted, 15 January, 1892. Notice issued to undermentioned parties, and date of issue: A. Brice, 5 January, 1892. Service effected, 8/1/92. Copies of evidence supplied to Local Land Board, 25/1/92.

Now forwarded to the Land Board at Queanbeyan, the case having been brought before Land Court, sitting as above on the 8th day of February, 1892.

A copy of the order of the Court will be found on third page hereof.

J. F. KEATING,
Registrar.

25 February, 1892.

Copy of Order of Court.

Case referred back to Board for the purpose of taking the evidence of Mr. Dulhunty, who is to be examined minutely as to the transactions between himself and Brice with reference to this selection, and also examined as to whether he acts as land agent for Mr. Cunningham in matters relating to the station, and also whether he acted as agent for Brice when the selections which have now been transferred to Cunningham were taken up, and whether at that time he was also acting as agent for Cunningham with regard to station matters; also to take such further evidence as may be tendered either on behalf of the conditional purchaser or the Crown. Mr. Dulhunty to be directed to produce his books and production of the lease referred to in Brice's evidence to be required.

Next Board Meeting, Queanbeyan.—J. B.

CROWN LANDS.

No. 1.

Mr. T. Broughton to The Secretary for Lands.

Sir, "Bradley," near Paddington, 17 June, 1864.
I have the honor to make application under the pre-emptive right to purchase at my station known as Muttama, in the Lachlan district, 640 acres of land, on the north of Muttama Creek, and near Elton's old station, which is about 9 miles distant from any land previously sanctioned for purchase under pre-emptive right.
I have, &c.,
THOMAS BROUGHTON.

No. 2.

The Chief Commissioner of Crown Lands to The Commissioner, Lachlan.

Sir, Crown Lands Office, Sydney, 2 July, 1864.
I have the honor to refer the enclosed application to purchase under pre-emptive right, from Mr. Broughton, on his run, Muttama, for your report as to whether this is part of the land now in dispute between that gentleman and Mr. John Dallas, of Brawlan. See No. 1, letter enclosed.
I have, &c.,
A. O. MORIARTY,
Chief Commissioner of Crown Lands.

No. 3.

Mr. Commissioner Beckham to The Chief Commissioner.

Sir, Crown Lands Office, Binalong, 14 July, 1864.
I do myself the honor to acknowledge the receipt of your letter, requesting my report to you upon the accompanying application from Mr. Broughton, to purchase, under pre-emptive right, 640 acres of land on the Muttama Creek, near Elton's old station, and beg leave to state that it appears to me from the description given by Mr. Broughton of the situation of the land applied for, that it is a portion of that now in dispute between that gentleman and Mr. John Dallas, of Brawlan.
I have, &c.,
EDGAR BECKHAM,
Commissioner of Crown Lands.

Inform that pending the settlement of the improvements the application cannot be entertained.—22. Thos. Broughton, 27/7/64. To await settlement of dispute *re* Muttama *v.* Brawlan. Mr. Mansfield, Mr. Oliver. Return to me.—J.E., 29. Noted.—2/8/64.

The Land Agent for the Gundagai district should be informed that the portion of land as per description (for description *see* 64-2,570, C.L.A., No 8) having been applied for under pre-emptive right, by Mr. Thos. Broughton, and the measurement having been delayed, pending a settlement of a dispute respecting the boundaries of the Muttama and Brawlan Runs, it should be withheld from conditional purchase.—P. F. ADAMS, 16/4/64.

Gundagai Agt., 66-354.—26/4/64. This should, perhaps, be forwarded to the Chief Commissioner of Crown Lands, with a view to an early settlement of the disputed boundary case within referred to.—P. F. ADAMS, 20/10. The Under Secretary for Lands, B.C. Chief Commissioner of Crown Lands.—W.H.F., 29/10.

This application for the purchase of 640 acres under pre-emptive right of the Muttama Run, district of Lachlan, is referred to the Surveyor-General, with a view to the land in question being reserved from conditional purchase, pending the settlement of the disputed boundary between the above run and Mr. Dallas' Brawlan Run.—A.O.M. Crown Lands Office, B.C., 5/4/66. The Surveyor-General.

No. 4.

Memo. by Mr. Finch.

Six hundred and forty acres applied for by Mr. Broughton, of Muttama Run, under pre-emptive right. Application dated 17th June, 1864.

Description.

Six hundred and forty acres of land on the north side of Muttama Creek, and near Elton's old station, which is about 9 miles distant from any land previously sanctioned for purchase under pre-emptive right.

Being on a portion of the run in dispute, the survey and sale of this land to applicant has been delayed.—C.E.F.

No. 5.

Mr. T. Broughton to The Secretary for Lands.

Sir, "Bradley," near Paddington, 7 October, 1865.
I have the honor to make application to purchase, under pre-emptive right, at Muttama Station, in the Lachlan District, 120 acres at Muttama Creek, one of the sheep stations 3 miles north of the head station.
I have, &c.,
THOMAS BROUGHTON,
Chief

Chief Commissioner of Crown Lands.—M.P., 10/10.

Entered in pre-purchase book. The Muttama Run, district of Lachlan, is held under a promise of lease under the Orders in Council not yet expired, by Mr. Thomas Broughton. This application is now forwarded to the Surveyor-General (For description see 65-6,611).—A.O.M., Crown Lands Office, B.C., 29/11/65. The Surveyor-General.

Area of run, 131,000 acres. No previous purchases. Applications made for 640,423. Mr. Broughton may be informed that 160 acres is the minimum area which can be alienated under pre-emptive right, and requested to state whether he will increase this application to that area, otherwise it must be refused (For description of run see 65-21,612).—P.F.A., 8/12. Thos. Broughton, 20/12. 65-4,755.

Mr. Broughton has personally stated it to be his wish to amend this application as regards its area to 160 acres (See 66-1,253 put away).—Mr. Surveyor Wood may therefore be instructed to measure this 160 acres, taking care not to encroach on water reserve No. 68, rough sketch of a portion of which is herewith forwarded to him.—E.D., 27/12/65.

No. 6.

Memo. by The Deputy Surveyor-General.

AREA of run, 131,000 acres. No previous purchases. Application made for 640,423.

8 December, 1865.

Mr. Broughton may be informed that 160 acres is the minimum area which can be alienated under pre-emptive right, and requested to state whether he will increase this application to that area, otherwise it must be refused.

For description of run see 65-21,612.

P.F.A.

Mr. Broughton has personally stated it to be his wish to amend this application as regards its area to 160 acres. (See 66-1,253 put away.) Mr. Surveyor Wood may therefore be instructed to measure this 160 acres, taking care not to encroach on water reserve No. 68, a rough sketch of a portion of which is herewith forwarded to him.—E.D., 27/12/65.

Appendix A.

No. 7.

The Surveyor-General to Mr. T. Broughton.

Sir,

Surveyor-General's Office, Sydney, 20 December, 1865.

Referring to your application of the 7th October, to purchase, under the 7th clause of the Alienation Act, 120 acres of your Muttama Run, I have the honor to inform you that as 160 acres is the minimum area which can be alienated under pre-emptive right, your application is objectionable and must be refused unless you are prepared to purchase that area.

I have, &c.,

HENRY HALLAM

(For the Surveyor-General).

No. 8.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley," near Paddington, Sydney, 27 December, 1865.

In attention to your favour of 20th instant, referring to my application of the 7th October, to purchase 120 acres of Muttama Run, I have the honor to inform you that I desire to amend my application by inserting 160 acres in lieu of 120 acres, as previously stated.

I have, &c.,

THOS. BROUGHTON.

Entered in pre-purchase book:—Muttama Run, district of Lachlan, at date of application, was held under a promise of lease by Mr. Thos. Broughton; estimated area, 131,000 acres.—A.O.M. Crown Lands Office, B.C., 11/1/66. The Surveyor-General. Instructions were issued, on the personal application of Mr. Broughton, to increase this to 160 acres. This may, I suppose, be put away.—E.D., 22/1/66. Mr. Armytage.

No. 9.

The Surveyor-General to Mr. Surveyor Wood.

Sir,

Surveyor-General's Office, Sydney, 16 January, 1866.

Mr. Thomas Broughton having applied to purchase, under pre-emptive right, 160 acres of the Muttama Run, in the Lachlan district, I have to request that you will be good enough to measure and mark out the land applied for, provided that it is situated within the boundaries of the run named, and that its alienation will not give an undue command over water required for the beneficial occupation and cultivation of the adjoining country.

2. By the 3rd clause of the regulations, under the Alienation Act, land to be purchased under pre-emptive right must be measured with its boundaries, other than rivers, creeks, or roads, directed to the cardinal points by compass, and with an average depth from any river or creek frontage of 1 mile.

I have, &c.,

HENRY HALLORAN

(For the Surveyor-General).

P.S.—Care must be taken that this measurement does not encroach on water reserve No. 68, a rough sketch of which is 160 acres at Muttama Creek, one of the sheep stations 3 miles north of the head station.

Description of portion applied for annexed, also tracing of water reserve. (See enclosure to No 7)

No 10.

No. 10.

Memo. by The Deputy-Surveyor General.

10 April, 1866.

THE Land Agent for the Gundagai district should be informed that the portion of land, as per description (*see* No. 1), having been applied for under pre-emptive right by Mr. Thomas Broughton, and the measurement having been delayed, pending a settlement of a dispute respecting the boundaries of the Muttama and Brawlan Runs, it should be withheld from conditional purchase.

P. F. ADAMS.

This should, perhaps, be forwarded to the Chief Commissioner of Crown Lands, with a view to an early settlement of the disputed boundary case within referred to.—P. F. ADAMS, B.C., 20th October. The Under Secretary for Lands.

Chief Commissioner of Crown Lands.—M.F., 29/10/66. The dispute appears to be still pending.—A.O.P. Inquire present state of matters.—A.O.M.

No. 11.

Mr. Surveyor Sanderson to The Surveyor-General.

Sir,

Gundagai, 10 July, 1866.

I have the honor to return instructions for the measurement of 160 acres of the Muttama Run, Lachlan district.

On proceeding to measure this land, Mr. Thomas Broughton, whom I met at the Muttama Station, informed me that the land applied for is within water reserve No. 68, and declined having the land measured elsewhere.

I have, &c.

EDMUND SANDERSON.

Mr. Finch, 12. Mr. Ellis.—Was not the reserve 68 cancelled or referred to surveyor, as to which portion should remain—the reserve was objectionable as it crossed the creek?—P.F.A., 10th August.

No. Mr. Edwards, under instructions from Mr. Twynam, proposed a reserve at the same site, crossing the creek north-easterly and south-westerly, instead of, as recommended by Mr. Sanderson, east and west. I think you have referred the matter to Mr. Wood.—J.W.E.

The question as to the reserve crossing the Muttama Creek was referred to Mr. Licensed-Surveyor Edwards, and he states that the reserve No. 1, on the eastern side of the Muttama Creek, is the preferable one to retain. Should Mr. Broughton's application be refused?—C.E.F., 15/8.

It must be refused.—P.F.A., 16/8. Mr. Broughton should be informed.—C.E.F., 16/8.

No. 12.

Mr. Licensed-Surveyor Edwards to The Surveyor-General.

Sir,

Yass, 29 February, 1868.

I have the honor to transmit herewith the plan of four portions of land, containing 44 acres, 49 acres, 43 acres, and 51 acres, numbered 4, 5, 6, and 7, in the parish of Muttama, in the county of Harden, measured for sale. Appendix E.

2. The land is particularly good, especially along the creek, and is timbered with gum, box, and apple. I was informed some of it was likely to be selected shortly, and as I wished to keep open the road 150 * wide, which subsequently may be of importance as the direct route from Muttama to Young, I thought it preferable to secure that object by measuring three or four portions beforehand.

I have, &c.,

WILLIAM EDWARDS,
Licensed Surveyor.

Charted.—W.B., 10/12/68.

Mr. Broughton informed me that he had not yet replied to letter of 9/3/69, but that he did not intend exercising his pre-emptive right, but would take his chance and purchase at auction.—12/4/69.

Mr. Broughton should now be informed of day of sale.—17/6/69.

No. 13.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley," near Paddington, 2 February, 1869.

Referring to my application of 27th December, 1865, to purchase, under pre-emptive right, 160 acres of land at Muttama Station, and also to the answer of the Surveyor-General of 22nd August, 1866.

I have the honor to renew my application for permission to purchase under pre-emptive right in lieu of the †, reserved for water supply, and upon which my hut and improvements now stand.

Four measured portions of land, Nos. 4 to 7 inclusive, adjoining and near Luke Shalvey's 40 acres at Muttama Creek, and terminating near † water reserve, but on the opposite side of the said creek, there being no other land in the immediate †.

I have, &c.,

THOMAS BROUGHTON.

H. 321-1,716; 65-21,611; 66-12,479. The original application (160 acres) was refused, being for land required as a water reserve (No. 68). Under the circumstances there appears to be no objection to allowing Mr. Broughton 160 acres in the position now sought, subject to the terms of the 7th section of the Crown Lands Alienation Act of 1861, and provided the land has not been conditionally purchased and is otherwise vacant. The portions referred to as Nos. 4 to 7 have a total frontage of about 47 chains, and an average

† obliterated.

average depth of about 40 chains. Under the Regulations a pre-emptive purchase of 160 acres must have an average depth of 80 chains (20 chains frontage). The 160 acres should be so taken in this case if the application is to be allowed.—C.E.F., 24/2/69.

If Mr. Broughton elects to take the land under pre-emptive right it can only be in accordance with the Orders in Council.—P.F.A., 25/2. Thos. Broughton, 9/3/69. In a month.

Mr. Thomas.—Mr. Broughton called on the 24th instant, and in the absence of the Surveyor-General, I informed him that under the 7th section he would only be able to secure two of the portions applied for, and they would have to be altered so as to have a depth of 80 chains, and I understood from him that he would, in that case, sooner the land went on at auction. If now informed by letter he will perhaps withdraw his application, and ask for the land to be sent to auction.—C.E.F., 26.

No. 14.

The Under Secretary for Lands to Mr. T. Broughton.

Sir,

Department of Lands, Sydney, 9 March, 1869.

In reference to your letter of the 2nd ultimo, applying to purchase under pre-emptive right of the Muttama Run, portions 4 to 7, on Muttama Creek, in lieu of the 160 acres refused as being within a reserve for preservation of water supply, I am directed to inform you that under the Regulations under the Alienation Act a pre-emptive purchase of 160 acres must have an average depth of 80 chains, and that, therefore, you will be able to secure only two of the portions, which must be remeasured with the depth stated.

I have, &c.,

M. FITZPATRICK.

No. 15.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley," Glenmore Road, 13 April, 1869.

In attention to your favour of 9th March, as per margin, I have the honor to state that in lieu of putting the Government to the expense of remeasuring the land applied for by me, I will take my chance, and compete at public auction for the four farms as at present measured.

I have, &c.,

THOMAS BROUGHTON.

Mr. Johnson.—The portions referred to may now go on for auction. Mr. Broughton should be informed of the day of sale.—C.E.F., 19/4/69.

No. 16.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley," near Paddington, 12 March, 1872.

Referring to my application of 17th June, 1864, for the purchase by me of 640 acres of land on the north shore of Muttama Creek, and near Elton's old station.

I have the honor to state that the disputed boundary having now been settled in my favour, I beg to submit that I am entitled to purchase so much land as then applied for by me.

The whole of the land which I then applied to purchase having been improperly alienated, part of it by auction sales, and the residue by free selections to the following persons, viz.: Priest 100, Billingsley 40, and Plowright 100 acres. So far as these three selections are concerned, I do not seek to disturb them, because the land has been improved at their cost.

But I do solicit that the Minister will do me the justice to cancel the additional free selection by Billingsley of 140 acres, upon which no improvements have been made, upon the ground that my application to purchase was prior to his, and that instructions were given to the Land Agent on the 22nd April, 1866, not to permit the land to be free selected.

I respectfully request that permission be granted to me to purchase 640 acres of land on the same side of Muttama Creek, including the 140 acres, which on reference to the map you will see was taken up to shut me out from the land behind.

Or that the Government will grant me such compensation as may be considered just and equitable.

I have, &c.,

THOMAS BROUGHTON.

The land herein referred to having been applied for under pre-emptive right, in virtue of a lease under the Orders in Council not then expired, was directed to be withdrawn from conditional selection. The Land Agent appears to have neglected to carry out the instruction on this point, and subsequently the land has been selected. Mr. Broughton, although having undoubtedly a prior claim, does not seek to disturb the selections on which improvements exist, but asks for the cancellation of the additional selection made by Billingsley, and as yet unimproved. It is not my province to advise on this matter, but I may be allowed on behalf of the Crown tenant, to express my opinion that Mr. Broughton's claim should, under the circumstances, meet with as favourable consideration as may be practicable.—A.O.P., 15/3/72. The Under Secretary for Lands.

No. 17.

Memo. by The Chief Draftsman.

Mr. Broughton to purchase, under pre-emptive right, on Muttama Run, Lachlan District.

1. The description given in Mr. Broughton's original application is so vague, there is no wonder the Land Agent omitted to hold over the land from conditional purchase. Moreover, Mr. Broughton does not appear to have concerned himself much in the matter, as he must have been aware of some of the conditional purchases so far back as 1868, in which year he purchased at auction nearly all the portions in the locality submitted to auction on 22nd December.

2.

2. Mr. Broughton has a claim to purchase under pre-emptive right, in virtue of his application of 17th June, 1864, and the request contained in his letter, 12th March, 1872, should to some extent be complied with. See No. 1.
See No. 16.

3. I do not think Mr. Broughton's claim should be allowed to interfere with any of the conditional purchases that have been improved, nor with others, unless it can be clearly shown that they form part of the land originally applied for by him. Mr. Broughton waives his right (as far as he may have any) to all the conditional purchases, except Billingsley's additional conditional purchase of 120 acres, which he states is not improved. From the vagueness of the description, I am unable to say whether this 120 acres forms part of the 640 acres or not, but the surveyor reported it to be improved to the extent of £60. Possibly the surveyor intended this valuation to apply to the improvements on Billingsley's conditional purchase, under section 13, which he enumerated in his report.

4. I think it would be advisable, before complying with Mr. Broughton's request, to obtain a report from the surveyor as to whether the 120 acres is within the 640 acres originally applied for, and whether, and to what extent, it is improved. In the meantime, Mr. Broughton might be asked for a more definite description of what he now asks to be allowed to purchase; and Billingsley might be informed of the claim, and requested not to improve his conditional purchase until it is settled.

5. It may be mentioned Billingsley has recently taken up an additional conditional purchase of 40 acres, which probably forms part of the land claimed by Broughton, and in any case, must be cancelled if the 120 acres conditional purchase is cancelled.

J.S.A.

(For Surveyor-General).

B.C., 21 March, 1872.

Submitted for decision.—W.W.S., 21/3/72. Approved.—J.B.W., 22/3/72.

No. 18.

Memo. by Mr. Finch to The Chief Draftsman.

Mr. Broughton's claim to purchase under pre-emptive right, Muttama Run.

DURING the currency of the lease of Muttama Run, under the Orders in Council, Mr. Broughton applied for 640 acres on Muttama Creek, near Elton's old station, under his pre-emptive right. On account of that portion of the run being under dispute by the adjoining lessee, the application remained in abeyance pending a settlement of the boundaries, and the Land Agent was directed to withhold the land applied for by Mr. Broughton from conditional purchase.

Through some inadvertence, probably on account of the vagueness of the description given by Mr. Broughton, the land was not withheld, some of it having been conditionally purchased and some sold at auction.

Mr. Broughton stated by letter that he would forego his claim to the land conditionally purchased, except portion 33, taken up by J. Billingsley as an additional conditional purchase, but not, Mr. Broughton states, improved. See No. 16.

This request was complied with to a certain extent by minute of 22nd instant, but before any action was taken Mr. Broughton called here, and stated his request was in part misunderstood. He represents he is willing to take 160 acres, including the 120 acres above referred to, at the back of the conditional purchases taken up on the 640 acres originally applied for, but wishes to have the remainder on the left bank of Muttama Creek, between reserve 1 over 65 and the village of Muttama. See No. 22.

In addition to this 160 and 480 acres (640 acres), Mr. Broughton wishes to obtain 160 acres adjoining or forming one portion with the 480 acres, in virtue of an unsatisfied application made for that area during currency of lease under Orders in Council.

I think, under the circumstances of the first-mentioned application, Mr. Broughton is entitled to every consideration; but, in the latter case, in the absence of the papers, which I cannot at present obtain, I do not know how far his claim holds good. Under these circumstances, I would suggest, pending further inquiry into and decision of the Minister on this case, that it should be recommended that the Land Agent, Gundagai, be requested to withhold from conditional sale, on account of prior claim under pre-emptive (purchase) right by Mr. Broughton, the portions marked "A" and "B," shown on the accompanying tracing. Appendix IC.

After the other papers have been obtained and the matter decided on, more definite instructions should issue to the Land Agent.

25 March, 1872.

C.E.F.

I would suggest that this course may be carried out.—J.S.A., 25/3/72. I think the instructions contained in the minute of the 22nd March should be fulfilled before further action is taken in this case.—J.B.W., 1/4/72.

See papers 60-1,835 Misc. now herewith, which contain the "unsatisfied" application of Mr. Broughton. The 640 acres now applied for embraces that portion of the 160 acres now outside the reserve. The 160 acres were originally refused as being within reserve 68, which has been revoked and reserve 374 notified in lieu.—C.E.F., 13/8/73.

No. 19.

Memo. by The Chief Draftsman.

Mr. Broughton's claim to purchase under pre-emptive right, Muttama Run.

It should have been pointed out, when submitting this case, by my memo. of 25th March, that since the B.C. of 21st March was written, the extent of the portion of the run in dispute, and the position of Elton's old station, have been more clearly determined from a survey of the run in the Crown Lands Office, whereby the description of the 640 acres appears much more definite, fixing the portion applied for See No. 18.
See No. 17.
on

* See Enclosure
to No. 18.

on Muttama Creek between the points C and D on *tracing, from which it will be seen any measurement of 640 acres between those points, with a frontage of 80 chains, would embrace several of the portions alienated at auction or conditionally purchased, portion 33 included in the 160 acres, "B" amongst the number.

Under these circumstances, a report from the surveyor is not so desirable, and I would submit the suggestion contained in my B.C. memo. of the 25th ultimo for reconsideration, and if approved, would recommend the Land Agent be advised by telegram.

B.C., 17 April, 1872.

J. S. A.

(For Surveyor-General).

Submitted.—W.W.S., 17/4/72. Approved.—J.B.W., 17/4/72. Inform Mr. Broughton, urgent, 18/4/72. Mr. Broughton informed, 29/4/72. The tracing should perhaps be forwarded to the Land Agent in reference to the telegram of 18th April, 1872.—C.E.F., 29/4/72. Sketch sent to Land Agent, now to Mr. Finch, 29/4/72. Licensed-Surveyor James Evans.—Form F (with tracing and original description of 640 acres), to report as to improvements on portion 33, &c., 7/5/72. J. Billingsley should, I think, be written to in terms of the latter part of the 4th paragraph of memo. 21st March, 1872.—J.S.A. (for Surveyor-General), 7/5/72. Approved.—J.B.W., 10/5/72.

No. 20.

Telegram from The Under Secretary for Lands to The Land Agent, Gundagai.

18 April, 1872.

WITHHOLD from conditional sale 160 acres, adjoining north boundary of portions 23, 24, and 25, parish of Cowcumbala, county Harden; also 640 acres on east side of Muttama Creek. Commencing at southern corner of reserve 374, and extending southerly 1 mile, the same being claimed by Mr. Broughton as a pre-emptive purchase right.

W. W. STEPHEN.

No. 20A.

The Under Secretary for Lands to Mr. T. Broughton.

Sir,

Department of Lands, Sydney, 29 April, 1872.

With reference to your letter of the 12th ultimo, applying to purchase under pre-emptive right 640 acres of land on the Muttama Run, in lieu of the land applied for by you in June, 1864, I am directed to inform you, that pending further inquiry into the matter, the Land Agent at Gundagai has been instructed to withhold from conditional purchase 160 acres of land adjoining the north boundary of portions 23, 24, and 25, parish of Cowcumbala, and 640 acres on the east side of Muttama Creek at the southern corner of the reserve.

I have, &c.,

W. W. STEPHEN.

No. 21.

The Under Secretary for Lands to Mr. J. Billingsley.

Sir,

Department of Lands, Sydney, 31 May, 1872.

With reference to the conditional purchases of 120 and 40 acres, made by you at Gundagai on the 31st March, 1870, and 28th September, 1871, I am directed to inform you that the selections form part of 640 acres applied to purchase by Mr. Thomas Broughton under pre-emptive right, on the 17th June, 1864.

2. I am, therefore, to caution you against improving the land in question, as your applications will be cancelled should Mr. Broughton's claim be sustained.

I have, &c.,

W. W. STEPHEN.

No. 22.

The Surveyor-General to Mr. Licensed-Surveyor J. Evans.

Sir,

Surveyor-General's Office, Sydney, 1 July, 1872.

I have to draw your attention to my letter (Form F) of the 7th day of May, 1872, No. 55, whereby you were directed to report as to land applied for by Mr. Broughton, under pre-emptive right, Muttama Run, and improvements erected on additional conditional purchases by J. Billingsley, and to request that you will carry out the instructions referred to with as little delay as possible.

I am, &c.,

J. S. ADAM

(For Surveyor-General).

No. 23.

Mr. J. Billingsley to The Under Secretary for Lands.

Sir,

Gundagai, 8 July, 1872.

I am only this day in receipt of your letter of 31st May last, marked as per margin, intimating that my conditional purchase of 120 acres and 40 acres, made at Gundagai, on the 31st March, 1870, and 28th September, 1871, respectively, form a portion of 640 acres, applied for by Mr. Thomas Broughton as a pre-emptive right, in the year 1864, and cautioning me against making any further improvements on the

the land, as in the event of Mr. Broughton substantiating his claim, my purchases would be cancelled. In reply, I do myself the honor to state:—

1. That shortly after I purchased the 120-acre block it was surveyed for me by the Government Surveyor; that since the date of purchase I have held undisputed possession of the land; that I have made improvements on it to the value of at least £150; and that it is now partly under cultivation.
2. That this land is situate about 4 miles from Mr. Broughton's homestead, on the Muttama Run; that he never made any improvements on it, and could not, therefore, I apprehend, be entitled to purchase it as a pre-emptive right, as, if I am not misinformed, he has already availed himself of that privilege to secure other portions of his run.
3. That, although Mr. Broughton must have known that I have been in occupation of this land for over two years, neither he, nor any person on his behalf, has at any time disputed my right to the land, which is in itself, I would respectfully submit, sufficient to deprive him of any claim that he might have had.
4. That, considering that at the time I selected the land it was, according to the Government maps in the Gundagai Land Office, open to sale; that it was afterwards surveyed for me by a duly authorised officer of the Government; that I have held undisputed possession of it with Mr. Broughton's full knowledge for a period of over two years; and that I have expended time, labour, and money in improving it, I would most respectfully submit that my title to the land cannot now be disturbed by any pretensions on the part of Mr. Broughton, who must, in common justice to me, be held to have forfeited any claim that he might have had to the land by his unjustifiable silence in respect to his claim for so long a period.

In conclusion, I would urge on your consideration the fact that I am a poor man, with a large family depending on my exertions; I have worked hard for years to obtain the home I now have, and the cancellation of these purchases would be the destruction of that home, and, consequently, my utter and irretrievable ruin.

Earnestly praying your early and most favourable consideration,

I have, &c.,
JOHN BILLINGSLEY.

Please address—John Billingsley, Gundagai.

No. 24.

Mr. J. Billingsley to The Under Secretary for Lands.

Sir,

Gundagai, 2 August, 1872.

On the 8th June last I addressed you in reply to your communication of the 31st May, marked as per margin, on the subject of my conditional purchases made at Gundagai on the 31st March, 1870, and 28th September, 1871, respectively. As I have as yet received no reply to the explanation given in my letter referred to, and as I am very anxious about the matter, I would most respectfully beg the favour of your early attention. C.P. 70-1,075,
71-3,508.

Please address—Post-office, Gundagai.

I have, &c.,
JOHN BILLINGSLEY.

Action on this case is awaiting report from Mr. Licensed-Surveyor Evans, who was reminded 1st July, 1872.—C.E.F. (for Chief Draftsman), 5/8/72. Alienation Branch.

Any reply from Mr. Evans to instructions of 7th May, 72-58 (Form F), and reminder, 1st July? If not, he should again be reminded. The instruction does not appear in Mr. Evans' Progress Journal of either May or June, and might be mentioned to him.—C.E.F. (for Chief Draftsman), 21/8/72. Mr. Landers.

Mr. Davidson,—Remind Mr. Evans, please, 22. Licensed-Surveyor James Evans, 26/8/72. No. 200. Reminder was returned with B.C. endorsed, October 3.

No. 25.

The Under Secretary for Lands to Mr. J. Billingsley.

Sir,

Department of Lands, Sydney, 17 August, 1872.

With reference to your letter of 2nd instant, respecting certain conditional purchases made by you at Gundagai on 30th March, 1870, and 28th September, 1871, respectively, I am directed to inform you that the matter is under reference to Mr. Licensed-Surveyor Evans, who was requested to expedite his report on 1st ultimo.

I have, &c.,
W. W. STEPHEN.

No. 26.

The Surveyor-General to Mr. Licensed-Surveyor J. Evans.

Second reminder—(Form E.)

Sir,

Surveyor-General's Office, Sydney, 26 August, 1872.

I have to draw your attention to my letter of the 7th day of May last, No. 72-55, whereby you were directed to carry out certain instruction respecting Muttama Run, and to request that you will carry out the instructions above referred to with as little delay as possible. It does not appear in your Progress Journal of either May or June.

I have, &c.,
J. S. ADAM

(For Surveyor-General).

The instruction herein referred was replied to by my letter of the 31st August, No. 72-104, 72-4,946, Misc.—JAMES EVANS, 27/9/72.

No. 27.

Mr. Licensed-Surveyor Evans to The Surveyor-General.

Sir,

Murrumburrah, 31 August, 1872.

In obedience to your instructions dated 7th May, 1872, No. 55, I have the honor to inform you that John Billingsley has effected improvements on his 120 acres, additional conditional purchase, to the value of £60, consisting of fencing, clearing, and cultivation, £40 worth of which are upon the Muttama Run, and the remainder on the Brawlan Run. At the time I surveyed this land there was only a bark hut on it, and the improvements then noted were those upon the former conditional purchase.

I cannot give an opinion as to whether Mr. Broughton or Billingsley has the better right to this land, but would suggest that if Mr. Broughton's claim be acceded to, the lines shown in blue on the accompanying sketch be adopted as boundaries of the 160 acres. Mr. Broughton will then only lose about 30 acres of the land he applies for, and will not encroach on Billingsley's improvements. About 32 acres will be cut off the eastern side of Billingsley's conditional purchase, which can either be added to it on another side, or the money for that amount returned to him. I cannot identify the land referred to in the description forwarded to me, nor can Mr. Alfred Broughton, the superintendent of Muttama, give me any information regarding it, except that he thinks it is the land on the north bank of Muttama Creek, between portion No. 9 and reserve 374, in the parish Coweumbala.

With reference to the last paragraph of your letter, I can see no reason why Mr. Broughton should not be permitted to purchase the land therein described.

I have, &c.,

JAMES EVANS,
Licensed Surveyor.

Mr. Evans has mistaken the position of the boundary between the runs. The boundary as given in the award is as follows:—"From box-tree on south side of creek across the creek; thence by creek downwards to south-west corner of portion 30; commencing again at north-east corner of portion 33; thence by a line bearing north 48 degrees 37 minutes east to Cowang Gap." It will be seen from this description that the run boundary between the south-west corner of portion 30 and the north-east corner of 33 is not given, such being unnecessary for the purposes of the dispute between the lessees, each being bounded by the conditional purchases taken up on the confines of their respective runs. But for the purposes of the case now under consideration, I think the run boundary of Muttama may fairly be taken to be a line from the tree on south bank of the creek to the north-east corner of portion 33, the small triangular portion at south-west corner of portion 30 having been thrown into Brawlan, on account of its being cut off from Muttama by portion 30. Mr. Evans is requested to adjust his valuation of improvements accordingly, and give the respective value of fencing, clearing, and other improvements on either side of the assumed boundary line, together with the total value in each case, within portion 33. It has been represented that Billingsley has continued to improve the land since Mr. Evans inspected it; if so, Mr. Evans should not take such additional improvements into consideration in making his estimate, but he may show them on the sketch in red, and give their value in a separate note. The position of Elton's old station should be marked on the sketch.—J.S.A. (for Surveyor-General), B.C., 10/12/72. Mr. Surveyor James Evans.

No. 28.

Mr. J. Billingsley to The Under Secretary for Lands.

Sir,

Gundagai, 16 October, 1872.

Referring to your letter of the 17th August last, No. 72-9,903 Aln., on the subject of my conditional purchases, made at Gundagai on the 30th March, 1870, and 28th September, 1871, respectively, I would respectfully beg that I may receive an early intimation of the decision of the Government with respect to Mr. Broughton's claim, as the delay is causing me serious injury, inasmuch as it has, and is still, preventing me from cropping the land, and completing the improvements required by the Lands Alienation Act.

Praying your early attention,

I am, &c.,

Please address—Post Office, Gundagai.

JOHN BILLINGSLEY.

Mr. Herring.—Any report as yet from Licensed-Surveyor James Evans?—W.B., 5/12/72. See Misc. 72-4,946. Received 4 Sept.

The case (72-4,946 Misc.) has been referred to Mr. J. G. Evans for a further report, which is necessary before any decision can be come to. Applicant should be informed any improvements placed on the land claimed by Mr. Broughton since the letter of 31st May, 1872 (on 72-2,072 Misc.), will be at his own risk, it having been represented that he is still continuing to improve the land.—C.E.F. (for Chief Draftsman), 10/12/72.

Mr. Blackman.—This may then await reply from Mr. Licensed-Surveyor Evans to B.C. on 72-4,946 Misc.

No. 29.

Mr. J. Billingsley to The Under Secretary for Lands.

Sir,

Gundagai, 13 January, 1873.

Referring to your letter of the 17th August last, marked as per margin, intimating that Mr. Surveyor Evans had been instructed to report on the subject of my conditional purchases, made at Gundagai, on the 31st March, 1870, and 28th September, 1871, respectively, I beg that you will be pleased, at your earliest convenience, to cause me to be informed as to the determination of the Government in respect of Mr. Broughton's claim to the land I now occupy.

Earnestly praying your early attention,

I am, &c.,

JOHN BILLINGSLEY.

Any report as yet from Licensed-Surveyor Evans to B.C. on 72-4,946 Mis.?—W.B., 2/2/73. Mr. Davidson. Instruction to Licensed-Surveyor Evans, dated 10th December, 1872, not yet answered.—J.D., 6/2/73. Inform, 13/2/73. Mr. Davidson.—Any report as yet?—W.B., 22/4/73. No.—J.D., 24/4/73. End of May.

No 30.

No. 30.

The Under Secretary for Lands to Mr. J. Billingsley.

Sir,

Department of Lands, Sydney, 18 February, 1873.

With reference to your letter of the 13th ultimo, requesting that you may be apprised of the decision arrived at in the matter of Mr. Broughton's claim to the land selected by you at Gundagai, I am directed to inform you that Mr. Surveyor Evans' report on the subject has not yet been received.

I have, &c.,

W. W. STEPHEN,
Under Secretary.

No. 31.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley," near Paddington, 31 March, 1873.

Referring to my application of 17th June, 1864, to purchase under pre-emptive right, 640 acres of land near Elton's old station; and to the minute of Mr. Surveyor-General Adams, of 26th April, 1866; and the subsequent correspondence, &c.

I have the honor herewith to submit two declarations in connection with the case, and solicit early attention to the subject.

I beg respectfully to state that I fail to see any good purpose to be served by further procrastination.

I have, &c.,

THOMAS BROUGHTON.

The case herein referred to is 72-4,296 Misc. sent to Mr. Licensed-Surveyor Jas. Evans for report; this should also be forwarded to him with a request that he will hasten his report.—C.E.F., 7/4/73. Mr. Licensed-Surveyor Evans is requested to be good enough to hasten his report herein.—J. S. ADAM (for Surveyor-General), Surveyor-General Office, B.C., 9/4/73. No. 17, 73-2,442.

[Enclosure.]

Schedule U.

I, ALFRED BROUGHTON, superintendent of Muttama Station, do solemnly and sincerely declare that I visited John Billingsley's conditional purchase, consisting of 120 acres, at the latter end of the year 1871, and on or about the beginning of the year 1872, and that the improvements upon his conditional purchase consisted chiefly of a small brush paddock, a small hut, and signs of ploughing to the extent of about 4 acres, which had been planted with corn. The paddock was insecure, and I did not consider any of the improvements substantial, and worth not more than from £8 to £12 sterling, and any substantial improvements that have been made have been made lately, and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the effectual abolition of Oaths and Affirmations, taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of Voluntary and Extra-judicial Oaths and Affidavits."

Made and signed before me, at Gundagai, }
this 24th day of March, 1873,—

ALFRED BROUGHTON.

A. C. S. ROSE, J.P.

No. 32.

Mr. Licensed-Surveyor Evans to The Surveyor-General.

Sir,

Murrumburrah, 15 May, 1873.

In obedience to your instructions of the 10th December, 1872, I have the honor to inform you that when first I inspected Billingsley's conditional purchase, some time in May last, the only improvements on it consisted of a bark hut and a cultivation paddock (shown in red on the accompanying sketch), worth about £25, but at that time I could not report on it, as I omitted to make a sketch showing the position of the improvements, so had to postpone it till the 31st August, 1872, when the improvements stood as shown in my report of that date, since which time no other improvements have been made. The improvements and value are as follows:—Clearing cultivation paddock, 11½ acres, £25; 44 rods split fence, at 5s. per rod, £11; 24 rods log fence, £4; 42 rods rough-and-tumble fence, £3; partly clearing 30 acres, at 10s. per acre, £15; total, £58.

About £5 worth of the above improvements are upon the Brawlan Run. I cannot ascertain the position of Elton's old station nearer than is given in my report of the 31st August, so cannot show it on the sketch.

I have, &c.,

JAMES EVANS,

Licensed Surveyor.

This further report is now submitted for the consideration of the Honorable the Minister for Lands, with reference to the previous minutes, 72-2,072 Misc. With reference to the true position of Elton's old station, mentioned in Mr. Broughton's original application for 640 acres, I may state that 640 acres measured anywhere on the creek between where the run boundary crosses it and reserve 374 would embrace nearly the whole of that portion of the 120 acres now claimed by Mr. Broughton, and which he wishes to have included in the 160 acres applied for. There can be little doubt that Elton's old station is situated somewhere between the points on the creek above referred to.—ROB. D. FITZGERALD (for Surveyor-General), B.C., 26/5/73.

There is no doubt that Mr. Broughton has a pre-emptive right of purchase over the land in question, and it does appear that in the first instance of a greater area, but on account of the boundaries of the run not having been defined a portion of the pre-emptive has been alienated, and it is the remaining portion that Mr. Broughton now seeks to obtain, and which, in my opinion, he is entitled to. Billingsley was cautioned when he took up the additional conditional purchase, and when he had made improvements to the value of £25 on the land. Mr. Broughton will not accept his land in such a position as will allow Billingsley to retain the portion of land improved by him. Therefore, there is no alternative but that Mr. Broughton should have his land in accordance with his pre-emptive right application, and, under the circumstances, Billingsley should be allowed to remove such of his improvements as are removable.—J.S.F., 24/6/73.

Mr. Blackman to inform the conditional purchaser.—T.H.J., 25/6/73. Billingsley's transfer of this land, last February, should not, under the circumstances, be allowed.—W.B., 10/7/73. Inform, Mr.

Appendix E and F

Mr. Licensed-Surveyor James Evans is requested to measure the 160 and 640 acres applied for by Mr. Thomas Broughton, of Muttama Run, under pre-emptive right (section 7), and which are shown on the accompanying tracing by blue lines. The measurement of the 160 acres will cancel portion 33, parish Cowcumbala.—ROBT. D. FITZGERALD (for Surveyor-General), B.C., 21/8/73. Mr. Licensed-Surveyor James Evans.

No. 33.

The Under Secretary for Lands to Mr. J. Billingsley.

Sir,

Department of Lands, Sydney, 12 July, 1873.

See No. 30.

With reference to my letter of 18th February last, respecting Mr. Thomas Broughton's claim to purchase, in virtue of his pre-emptive right, the 120 acres of land selected by you at Gundagai, on 31st March, 1870, I am directed to inform you that it has been decided, after due inquiry, that Mr. Broughton has a pre-emptive right of purchase over the land in question, which he will consequently be permitted to exercise.

2. I am to state that you were cautioned with respect to Mr. Broughton's claim when you took up the additional conditional purchase, and when you had made improvements to the extent of £25 upon the land. As Mr. Broughton will not accept his land in such a position as will allow you to retain the portion improved by you, there is no alternative but that he must be allowed to purchase in accordance with his pre-emptive right application.

3. I am to apprise you that the additional purchase referred to, and the additional conditional purchase of 40 acres made by you on 28th September, 1871 (the latter being separated from your first conditional purchase by the former), have been cancelled, and, under the circumstances above stated, you will be permitted to remove such of your improvements as are movable. The enclosed vouchers, for the refund of your deposit money, should be signed by you and presented at the Treasury for payment.

I have, &c.,

W. W. STEPHEN.

Dr. to John Billingsley.

Department of Lands, Conditional Purchase Branch, 12 July, 1873.

	Amount to be refunded.
For the following refund, viz. :—	
Land Office at Gundagai; date of selection, 28th day of September, 1871; deposit paid on 40 acres.	£ s. d.
Selection cancelled; separated from first C.P.	
Deposit to be refunded on 40 acres	£ 10 0 0

I CERTIFY that the amount charged in this voucher as to computation, casting, and rate is correct, and that the refund is duly authorised in terms of the Audit Act.

WILLIAM BLACKMAN

(For the Under Secretary for Lands).

No. 34.

Mr. Licensed-Surveyor Evans to The Surveyor-General.

Sir,

Murrumburrah, 9 June, 1875.

A.—Appendices G and H.
See enclosure.

In obedience to your instruction, I have the honor to transmit herewith a plan of one portion of land containing 160 acres, in the parish of Cowcumbala, county Harden, applied for as a pre-emptive purchase, under the 7th section of the Crown Lands Alienation Act of 1861, by Thomas Broughton, in right of his licensed run Muttama. This land was improved by J. Billingsley to the value of £60 by fencing and clearing; but Billingsley has since removed the greater part of the fencing, and the improvements now upon the land are worth about £35.

I have, &c.,

JAMES EVANS,

Licensed Surveyor.

Date of survey, 30th October, 1874.

Description prepared.—W.H.A., 20/9/78.

Mr. Underwood,—For description, 19/8/78.

No. 35.

Description.

Six hundred and forty acres applied for by Mr. Broughton, of Muttama Run, under pre-emptive right. Application dated 17th June, 1864.

Description.

Six hundred and forty acres of land on the north side of Muttama Creek, and near Elton's old station, which is about 9 miles distant from any previously sanctioned for purchase under pre-emptive right. Being on a portion of the land in dispute, the survey and sale of this land to applicant has been delayed.

C.E.F.

No. 36.

No. 36.

Mr. Licensed-Surveyor Evans to The Surveyor-General.

Sir,

Murrumburrah, 9 June, 1875.

In obedience to your instructions, I have the honor to transmit herewith a plan of one portion of land, containing 640 acres, in the parish of Mooney Mooney, county of Harden, applied for as a preemptive purchase under the seventh section of the Crown Lands Alienation Act of 1861, by Thomas Broughton, in right of his licensed Muttama Run.

See enclosure
A.—Appendices
I and K.

Mr. Broughton has effected improvements on the land to the value of £20, consisting of a log fence.

I have, &c.,

JAMES EVANS,

Licensed Surveyor.

Licensed-Surveyor McCarthy has been instructed (Form F) to alter the numbering of the portion to 193, in consequence of the present number (93) having been given to another portion in the parish (*vide 75-4,295, Mis.), upon which a similar alteration has been directed in same instruction.—C.E.F., 5/78.

*These papers
refer to another
case—unnecessary.

Mr. Underwood,—For description, 19/8/78. Description prepared.—W.H.A., 20/9/78.

The portion herein referred to (193, parish of Mooney Mooney, county Harden, 640 acres) has been measured for sale to Mr. Thomas Broughton, under the provisions of the seventh section of Act of 1861, as part of his Muttama Run, and, in accordance with decision of the Secretary for Lands, referred to in the enclosed memo., in which the facts of the case are set forth. The land should now be appraised with a view to sale accordingly.—P. F. ADAMS, B.C., 9/10/78. The Under Secretary for Lands.

See enclosure B.

No. 37.

Description of land, County Harden.

Description.

SIX hundred and forty acres, county of Harden, parish of Mooney Mooney, portion 193: Commencing on the left bank of Muttama Creek, at a point bearing north 16 degrees 23 minutes east, and distant 13 chains 27 links from the north-east corner of portion 30 of 100 acres, on the right bank of that creek; and bounded thence on the north by a line bearing east 77 chains and 69 links; on the east by a line bearing south 80 chains; on the south by a line bearing west 88 chains and 4 links to Muttama Creek; and on the west by that creek upwards, to the point of commencement.

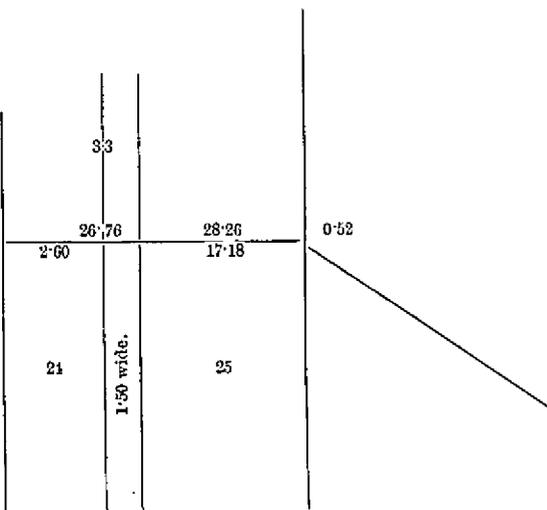

Exclusively of a road, 1 chain 50 links wide, passing through this land in a southerly and thence in a south-easterly direction, the area of which has been deducted from the total area.

No. 40.

Memo. by Mr. Finch.

Mr. Thomas Broughton's pre-emptive purchase, Muttama Run.

17 August, 1878.

1. The former papers in this case are with 75-4,269 Mis. (letter transmitting a plan of 160 acres measured for Mr. Broughton as a pre-emptive purchase, under section 7 of Act 1861, at Elton's old station).

2. The facts of this case are as follows:—In 1865 and 1866, Mr. Broughton applied for 160 acres at one of his sheep stations on Muttama Creek, about 3 miles above the head station, and for 640 acres at Elton's old station, on the same creek.

3. The former application was not complied with, as the land applied for was within reserve 68, and the latter remained in abeyance, as that part of the run in which the land is situate was in dispute.

4. No further action was taken for some time, and the greater part of the land applied for at Elton's old station was taken up by conditional purchase, the Land Agent having failed to apprise applicants that the land was under application as a pre-emptive right.

5. In 1872, Mr. Broughton revived his claim under the above-mentioned application, when it was ascertained that the reserve which had precluded the alienation of the land comprised in the first application had been revoked—a reserve embracing a small portion only of the land applied for having been notified in lieu, and that the land at Elton's old station was for the most part within Mr. Broughton's run, the boundary of which had been determined, but, as before stated, had to a large extent been alienated.

6. Taking into consideration all the facts of the case, the Secretary for Lands decided, by minutes on 72-2,072 Mis., that Mr. Broughton should be permitted to purchase 160 acres at Elton's old station (measured by 78-4,269 Mis., with which the former papers have been placed), and that 160 acres in satisfaction of the first mentioned application, together with 480 acres (640 acres in all), in lieu of the balance of the other application, should be measured in the position that portion 193 occupies, and should be also alienated to Mr. Broughton under pre-emptive right.

The plan of the 640 acres last referred to was transmitted by papers 75-4,270 Mis., which cover this memorandum.

C.E.F.

No. 41.

Application by Mr. G. Vincent.

D.

Application for the conditional purchase, without competition, of unimproved Crown Land.
(District of Gundagai. No. 257 of 1878.) [Alienation Act, section 13.]

Application by George Vincent (full age) for the conditional purchase, without competition, of 640 unimproved Crown Land.

Received by me, with a deposit of £160, this 22nd day of August, 1878, at 10-30 o'clock,—

CHAS. W. WEEKES,

Agent for the Sale of Crown Lands at Gundagai.

Sir,

22 August, 1878.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 640 acres, and I herewith tender the sum of £160, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

GEORGE VINCENT,

Coolac.

To the Agent for the Sale of Crown Lands, at Gundagai.

Description.

County of Harden, parish of Mooney Mooney, 640 acres. Bounded on the west by the Muttama Creek; on the north by a lapsed purchase by Andrew Melzer; on the east by Wm. Ward's conditional purchase; on the south by forfeited conditional purchase by James Thompson; the said 640 acres supposed to be a measured portion, No. 93, believed to have been surveyed by Surveyor Evans, and not yet offered for sale.

No. 42.

Mr. A. G. Blomfield to The Secretary for Lands.

Sir,

179, Pitt-street, Sydney, 20 September, 1878.

I have been instructed by Mr. Thomas Broughton to protest against the conditional purchase of George Vincent, noted in the margin, and to apply that the same may be declared void without delay.

The reason for making this application is on account of the land applied for by Vincent having been held under pre-emptive right by Mr. Broughton, and also that he had applied to purchase same by virtue of improvements prior to date of Vincent's application.

I am further instructed to state that my client has a letter, received from the Lands Department, stating that the land in question had been withdrawn from conditional purchase, and that instructions had been given to the surveyor to measure the land for, and in satisfaction of, his claim.

Under these circumstances I trust that the case may be dealt with at once, so that Mr. Broughton may not be subject to a continuance of the annoyance he is at present suffering from Vincent, who has warned him from fencing in the land, ordered Mr. Broughton's men to cease erecting the fence, and to take all the fencing off the ground.

I have, &c.,

A. G. BLOMFIELD.

Mr.

C.P. 78-257,
George Vincent,
640 acres.
Gundagai, 22
August, 1878.
13th section.

Mr. J. Leary's clerk, as the agent of the conditional purchaser, verbally protests against the claim of Mr. Broughton to this land, which has been allowed to Mr. Broughton as a pre-emptive right, as will be seen upon reference to the digest of the case with the within papers, and with regard to which it is submitted as to which person has the better claim.—ROBT. D. FITZGERALD (for Surveyor-General), 14/10/78. Chief Commissioner of Conditional Sales.

The land herein referred to was applied for, 17th June, 1864 (application for 640 acres), under the 7th section of the Act of 1861, but as that part of the run was at that time under dispute the application could not be dealt with. The boundary between the runs having been settled, the present survey of 160 acres has been made in accordance with the decision of the 24th June, 1873, and the land may be appraised with a view to sale accordingly. Tracing herewith.—P. F. ADAMS, B.C., Oct., 1878. The Under Secretary for Lands.

See enclosure B.

Taking the within statement to be correct as to the land being under measurement in satisfaction of a claim under pre-emption, I do not see how it can be supposed to be open to conditional purchase. The conditional purchase should, therefore, it is deemed, be declared void.—A.O.M., 14/10/78.

Approved.—J.S.F., 16/10/78. Declared void noted. Papers now to Miscellaneous Branch with reference to action on paper, dated 9th October, 1878.—W.A.T., 1/11/78.

No. 43.

Mr. F. J. McCarthy to The Chief Commissioner.

Dear Sir,

80, King-street, Sydney, 18 October, 1878.

On behalf of Mr. George Vincent, I beg to protest against the claim made by Mr. Thomas Broughton, of Muttama, to measured portion No. 93, of 640 acres, parish of Mooney Mooney, county of Harden, selected by my client on 22nd August, 1878. Mr. Broughton, I am informed, claims to be entitled to the land by virtue of an old pre-emptive. If this be true, my client will be in a position to show that the claim is groundless, by reason of this pre-emptive being exhausted long ago.

Query—portion 193.

I remain, &c.,

F. J. MCCARTHY

(Per R.A.F.)

Mr. McCarthy, on behalf of Mr. Vincent, should be requested to furnish the evidence alluded to.—C.N., 29/11/78. I do not think this would be the proper course on the face of the within decision of the matter by the Minister. Inform of that decision.—A.O.M., 12/12/78. Mr. M. A. M'Lean,—For action as to appraisement, *vide* Mr. Finch's memorandum.—J. McG., 17/2/79.

No. 44.

The Chief Commissioner to Mr. G. Vincent.

(C.P. No. 78-257 ; C.S. No. 78-37,956.)

Sir,

Department of Lands, Conditional Sales Division, Sydney, 23 October, 1878.

I am directed to inform you that the application made by you at Gundagai, on the 22nd August, 1878, for the conditional purchase of 640 acres of land, is void, the land required having been allowed to Mr. Thomas Broughton as a pre-emptive right.

Deposit paid, £160.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &c.,

A. O. MORIARTY,
Chief Commissioner

(Per J.R.Y.)

No. 49.

Telegram from the Secretary of Committee, Cootanundra, to The Secretary for Lands.

9 January, 1879.

By direction Muttama Progress Committee, have the honor to ask that all proceedings *re* George Vincent's selection, Muttama, be stayed, and sale of lot II, portion 99, set down for 22nd, be postponed; petition to be presented to Parliament.

FRED. PINKSTON,
Secretary of Committee.

Mr. Edwards.—Conditional purchase papers will be required in this case.—W.W.S., 10/1/79. The land referred to has been withdrawn, *vide* telegram from Land Agent, dated 17/1/79.—R.H.D., 21/1/79. The above noting refers to the latter part of the telegram.—R.H.D., 18/2/79. The question raised in 78-42,489 C.S. (*see* also first part of telegram) seems to be one between a conditional purchaser and an applicant for an improvement purchase.

No. 50.

Memo. by Mr. Curry.

It is enjoined in the 7th clause of the Crown Lands Alienation Act of 1861 that every application under that section should be advertised in the *Government Gazette* one calendar month before the completion of the sale.

I cannot see that any such notice, except the usual one as to payment of purchase money, has ever appeared in cases of this nature.

The notice would be sufficient for all purposes, but should the applicant pay the amount before the expiration of a month (against which there would be no obstacle) the law might be held to have been, in a certain degree, defeated.

It is highly improbable that such a circumstance would occur, but at the same time, it would perhaps be desirable that a short notice (in the form of the enclosed) should be inserted.

H.A.G.C.

The Occupation Branch dealt with cases under the 7th clause, except so far as the appraisement was concerned. Better refer the matter there.—L.G.T., 15/1/79.

Yes, after the appraisement is received; then it is sent on for approval of Executive, after which *Gazette* notice is prepared, calling for payment of purchase money under 5th clause of the Regulations under the Alienation Act of 1861.—G.M., 25/1/79.

Application for Pre-emptive Purchase.

Notice is hereby given that in satisfaction of an application under the 7th clause of the Crown Lands Alienation Act of 1861, portion 33, containing 160 acres, in the parish of Cowcumbala, county of Harden, has been measured for Mr. Thomas Broughton, to whom it is proposed to alienate it in terms of the Act referred to.

The Under Secretary for Lands.

No. 52.

Appointment of Appraiser by the Minister for Lands.

WHEREAS Thomas Broughton, of Muttama, in the Colony of New South Wales, has applied to purchase, under the 7th clause of the Crown Lands Alienation Act of 1861, certain Crown land, situate county of Harden, a description whereof is set out in the Schedule hereinafter written: Now I, the Under Secretary for Lands, having been duly authorised by the Minister for Lands, in pursuance of the powers vested in him under and by virtue of the Crown Lands Alienation Act of 1861, do hereby appoint Dudley Keele, of Wagga Wagga, in the Colony of New South Wales, to be the Appraiser on behalf of the Crown, to appraise the value of the said land, and the price to be paid by the said Thomas Broughton for the purchase thereof.

In witness whereof, I have hereto set my hand, this 3rd day of April, 1879,—

W. W. STEPHEN.

SCHEDULE REFERRED TO :—

Portion 193, containing 640 acres, parish of Mooney Mooney, county of Harden.

I, the within-named Dudley Keele, do solemnly and sincerely declare, that I am not directly or indirectly interested in the matter referred to me, and that I will faithfully and honestly, and to the best of my skill and ability, hear and determine the matters referred to me, under the Crown Lands Alienation Act of 1861.

Subscribed and declared this 11th day of April, }

No. 53.

The Under Secretary for Lands to Mr. T. Broughton.

Sir,

Department of Lands, Sydney, 3 April, 1879.

In reference to your application to purchase, under the 7th clause of the Crown Lands Alienation Act of 1861, the land specified in the margin hereof, I am directed to inform you that this land has been measured, and the Honorable the Secretary for Lands having authorised me in that respect, I have appointed Mr. Dudley Keele, of Wagga Wagga, appraiser on behalf of the Government. If you are satisfied that the land in question shall be valued by him alone, you will please sign the form sent herewith marked "A"; if, however, you wish to appoint an appraiser to act on your behalf, you will sign the form "B" annexed. In this case you will be required to pay the costs of such appraiser, and of the umpire, who will then have to be appointed, and upon forwarding the same to Mr. Dudley Keele, he will proceed herein, to act on behalf of the Government. You will, of course, understand, that unless an appointment, in either form A or B, be forwarded to him, within sixty days from this date, he will proceed with the appraisement, in accordance with 3rd clause of the 28th section of the Alienation Act.

2. In appointing an appraiser, you will be so good as to sign your name in full.

I have, &c.,

LINDSEY G. THOMPSON

Mr. T. Broughton concurring in appointment of Appraiser, D. Keele.

(A.)

WHEREAS I, Thomas Broughton, of Muttama, in the Colony of New South Wales, have made application to purchase certain unoccupied Crown lands situate at Muttama, county of Harden, parish of Mooney Mooney, a description whereof is set out in my letter to the Minister for Lands, bearing date ; and the Minister for Lands has intimated that he is willing to appoint Mr. Dudley Keele, of Wagga Wagga, in the Colony of New South Wales, to appraise the value of the said land on behalf of the Government. And whereas I am desirous of concurring in the appointment of the said Mr. Dudley Keele as such appraiser as aforesaid: Now, therefore, I, the said Thomas Broughton, do hereby nominate and

Portion 193, of
640 acres,
parish of
Mooney, county
of Harden.

and appoint the said Mr. Dudley Keele to be appraiser on my behalf, to the intent that upon his being appointed by the Minister for Lands as appraiser on behalf of the Government, he may, as sole appraiser, determine the matters aforesaid.

In witness whereof, I have hereunto set my hand, this 11th day of April, A.D. 1879.

THOMAS BROUGHTON.

Portion 193, containing 640 acres, parish of Mooney Mooney, county of Harden.

No. 55.

Appraisement by Appraiser D. Keele.

Appraisement by single appraiser.

To all whom these presents shall come—

I, Dudley Keele, of Wagga Wagga, in the Colony of New South Wales, send greeting:—

WHEREAS on the 3rd day of April, in the year of our Lord 1879, I was duly appointed by the Minister for Lands, and on the 11th day of April, in the year of our Lord 1879, by Thomas Broughton, of Muttama, in the Colony of New South Wales, as the sole appraiser to fix and determine the price or value to be paid by the said Thomas Broughton for entering certain unoccupied Crown lands situate at Muttama, a description whereof is set out in the Schedule in the paper writing hereto annexed, marked Y: And whereas I have entered upon the consideration of the value of the said land, and have heard and considered the evidence produced before me; by or on behalf of the Minister for Lands and the said Thomas Broughton. Now I, the said Dudley Keele, do hereby declare the sum of £1 5s. per acre to be the value of the said land, and do appraise and fix that sum as the amount to be paid by the said Thomas Broughton for the purchase thereof from the Crown—and I assess and fix the costs of this appraisement payable to me at the sum of £1 1s., which said sum I direct shall be paid by the Minister for Lands.

In witness,—

DUDLEY KEELE,

Government Appraiser.

20th April, 1879.

Portion 193, county of Harden, parish Mooney Mooney, area 640 acres.

The improvements erected on this area consist of about 2 miles of a six-wire and top-rail (gum post) fence, which I value at £85 per mile, erected by Thomas Broughton, £170. This area was applied for as a conditional purchase on the 22nd day of August, 1878, by George Vincent, who holds possession of the land at date. The man Vincent is prepared to state upon oath that there were no improvements whatever upon the area at date of his application for the land as a conditional purchase. The fence is a new one, and should say that it had not been up more than six months at the longest. The improvements are of a permanent character, and render more beneficial the occupation of the land.—DUDLEY KEELE, Government Appraiser.

No. 56.

Memo. by Mr. Curry.

It is submitted that a notice, as required by the 7th clause of the Crown Lands Alienation Act of 1861, should be published in the *Government Gazette* in connection with the enclosed case. I cannot find that in previous instances this course has been adopted, the only notice, apparently, having been the ordinary one, in which the applicant is invited to pay the appraised price.

This would, for all practical purposes, be sufficient; but, if the applicant should pay the amount before the expiration of a month, the requirements of the Act might be held not to have been fulfilled.

H.A.G.C., 2/9/79.

Under personal directions of Mr. Thompson, this case is forwarded to Mr. Mansfield, Occupation Office, for any information he may be in a position to supply regarding the notice referred to.—H.A.G.C., 24/2/80. The Under Secretary for Mines, B.C., Department of Lands.

Mr. Broughton's application should be with these papers, on separate memo.—G.M., 12/4/80.

This department has nothing to do with the working of the Crown Lands Alienation Act of 1861. The last proviso of the 7th clause has never been acted upon in this office. Some years since, after appraisement, it was the practice of this branch to submit for approval of the Minister, His Excellency the Governor, and the Executive Council, applications from holders of runs to purchase, under the right of pre-emption, lands formerly held under promise of lease under Orders in Council of 9th March, 1842, after which *Gazette* notice was prepared, and parties called upon for payment of the purchase money. This action will now be discontinued, the office being now under the control of the Honorable the Minister for Mines.—G.M., 13/4/80.

All Mr. Mansfield was asked to supply was the draft of the notice under the 7th clause of the Alienation Act. He has not done so, but a search into the *Gazette* about the year 1864 will lead to the discovery of that notice.—L.G.T.

No. 57.

Mr. P. Davies to The Under Secretary for Mines.

Sir,

20 January, 1880.

I beg to submit to your notice that some land in the parish of Mooney Mooney, county of Harden, is being alienated beyond the reach of those seeking for gold. This is being done in the interests of Muttama Station.

The description of the land is as follows:—Portions 193 and 96 and the land on the north of these portions, the first being a special purchase, and the last two, I believe, applied for under the 2nd clause.

This

This land contains a gold lead, shown by Mr. Jones to Mr. Young, Geological Surveyor, when he was at Muttama.

This ground should not, therefore, be shut up to the miner. I may mention that Mr. Young refused an application to take up a block of land on the south boundary of portion 193.

Yours, &c.,

PHILLIP DAVIES.

The Geological Surveyor, for report.—H.W., B.C., 9/1/80. This land should not be alienated under the 23rd clause of Land Act 1861, or the 2nd clause of the Amending Act.—LAMONT YOUNG, Geological Surveyor. The Under Secretary for Mines, 12/1/80. Sale by auction is objectionable, and the Lands Department may be so informed.—E.A.B., 14/1/80. The Under Secretary for Lands.—H.W., B.C., 14-16, 1/80.

No. 58.

Mr. T. Jones to The Secretary for Lands.

Sir,

Muttama Reef, 10 April, 1880.

I have the honor to request that you will reconsider George Vincent's conditional purchase No. 78-257, as promised to a deputation from Muttama in February, 1879; and having ascertained from you in January this year that his case, stated and forwarded to the Lands Department by the Progress Committee, has not been placed before you, I beg to give you some particulars relating to the case. On the 17th June, 1864, Mr. Broughton made application, under pre-emptive right, to purchase 640 acres, which land was clearly defined in and adjacent to land selected by John Billingsley in 1870 and 1871 (*see* letters to Billingsley, Nos. 72-2,072 Mis. and 73-2,442 Mis., on having Billingsley dispossessed, as shown by the following papers in the Lands Office, Sydney:—75-4,269 Mis., 75-4,295 Mis., and 79-6,257 Mis., Mr. Broughton, on the pretence of not wishing to disturb poor selectors, proposed to only take 160 acres there, and by this representation tried to get his claim shifted to measured portion No. 93, to secure more land, after having the other secured by selection. The above papers show that certain lands marked on plan were reserved from selection to satisfy the pre-emptive, 320 acres of which were selected by Frank Broughton in 1875; and after improving about 10 acres to debar re-selection he withdrew his deposit. On 29th July, 1876, John Priest selected 100 acres of this land, which was cancelled 31st October, 1879, for being within pre-emptive purchase of T. Broughton. John Sullivan also selected 240 acres, but, failing to get it surveyed after waiting about three years, sold out to Mr. Broughton for £100, 23rd December, 1879, who has since added 80 acres to it. John Priest selected another 100 acres, 20th July, 1878, and Thos. Broughton selected 210 acres adjoining east boundary of No. 32, Billingsley's cancelled conditional purchase, 2nd October, 1879, which facts clearly show that it was a mis-statement saying that there was no land available to satisfy the pre-emptive without removing selectors, when the 160 acres were surveyed in October, 1874, and that the object was to still keep this title a bugbear to *bona-fide* settlement on the lands of Muttama. The papers alluded to show that portion 93 was to be substituted for 480 acres short at Billingsley's selection, and 160 acres applied for on water reserve 65, which appears to have been recommended by Mr. Finch on Mr. Broughton's mis-statements, and not that I could see by the Minister for Lands. Mr. Broughton still claims 160 acres on the water reserve, as sworn in evidence at Cootamundra Police Court, 11th March, 1879. No. 93 was said not to be open for selection, though being surveyed for the pre-emptive, which is a mis-statement, as the land was measured in 1873 or 1874, before it was proposed to remove the title there, and, not being applied for under the Orders in Council, Vincent was legally entitled to select the land as a measured portion. The land being on a gold-field, and highly auriferous, should not be alienated from the reach of gold-miners, and to substitute this land for other land clearly defined, which was available until recently secured in another form by Mr. Broughton, would be doing Vincent an injustice. He has been fulfilling the residence with the hope of being done justice to.

I have, &c.,

TRAVERS JONES.

Urgent. The Chief Commissioner of Conditional Purchases.—Please have this letter placed with the other papers in this case, and after proper inquiry they should be sent to me for decision.—J.H., 16/4/80.

Papers herewith, 19/4/80.

In order to reply to the various statements made in this letter it will be necessary to see the papers referred to in the memo. enclosed, dated 17th August, 1878, viz.:—Papers with 75-4,269 Mis., which are stated to be with the Under Secretary, 9th instant.—R. D. FITZGERALD (for the Surveyor-General), B.C., 21/4/80. The Under Secretary for Lands.

Papers (which were not, however, with me) now herewith.—W.W.S., 22/4/80.

No. 59.

Description of Land applied for by Mr. T. Broughton.

District of Wagga Wagga.—Cat. No., L. 211-1,426.

Crown Lands Alienation Act of 1861.

DESCRIPTION of land applied for under the 7th clause by Thomas Broughton:—

Portion 33; lessee, Thomas Broughton; area, 160 acres; parish of Cowcumbala; county of Harden.

The Under Secretary for Lands.

No. 60.

The Under Secretary for Lands to Mr. Appraiser Keele.

Sir,

Department of Lands, Sydney, 14 April, 1880.

I am directed to forward you herewith the documents necessary to enable you to appraise the portion of land specified therein, which has been applied for under the 7th clause of the Crown Lands Alienation Act of 1861.

With

With respect to the mode of procedure in conducting an appraisalment, I am instructed to direct your special attention to the 28th section of the Crown Lands Alienation Act of 1861, and the Additional Regulations published in the *Government Gazette* of 27th September, 1876, copies of both of which are subjoined:—

TWENTY-EIGHTH SECTION OF THE CROWN LANDS ALIENATION ACT OF 1861.

Mode of appraisalment or arbitration.

28. Whenever it shall become necessary or desirable to fix or ascertain any price value or sum of money which by this Act it is provided may be fixed or ascertained by appraisalment in case of dispute as to the amount of any compensation to be made under the provisions of this Act and in case of any matter which by this Act is authorised or directed to be settled by arbitration the appraiser or appraisers arbitrator or arbitrators and umpire shall be appointed and the appraisalment or arbitration shall be conducted in manner hereinafter mentioned (that is to say)—

Appointment of appraisers or arbitrators.

- (1.) The Minister or an officer authorised by him in that behalf and the claimant in matters hereinbefore directed or authorised to be settled by appraisalment or the parties interested in any dispute which by the provisions of this Act may be left to arbitration may concur in the appointment of a single appraiser or arbitrator or failing such appointment each party on the request of the other shall appoint an appraiser or arbitrator as the case may require to whom the matter shall be referred and every such appointment shall be made by the Minister or officer and the claimant or by the parties to the matter in dispute under their hands in writing or if such party be a corporation aggregate under its common seal and such appointment shall be delivered to the appraisers or arbitrators and attached to the award when made and shall be deemed a submission to appraisalment or to arbitration as the case may be by the parties making the same.

Appointment not to be revoked.

- (2.) After the making of any such appointment the same shall not be revoked without the consent of both parties nor shall the death of either party operate as a revocation.

Single appraiser or arbitrator to act in certain cases.

- (3.) If for the space of sixty days after any such dispute or matter shall have arisen and notice in writing by one party who has himself duly appointed an appraiser or arbitrator to the other party stating the dispute or matter to be referred and accompanied by a copy of such appointment the party to whom notice is given fail to appoint an appraiser or arbitrator the appraiser or arbitrator appointed by the party giving the notice shall be deemed to be appointed by and shall act on behalf of both parties.

Award to be binding.

- (4.) The award of any appraiser or appraisers arbitrator or arbitrators appointed in pursuance of this Act shall be binding final and conclusive upon all persons and to all intents and purposes whatsoever.

In case of death of or failure to act by appraiser or arbitrator.

- (5.) If before the determination of any matter so referred any appraiser or arbitrator die or become incapable to act the party by whom such arbitrator was appointed may appoint in writing another person in his stead and if he fail so to do for the space of sixty days after notice in writing from the other party in that behalf the remaining appraiser or arbitrator may proceed *ex parte* and every appraiser or arbitrator so appointed shall have the same powers and authorities as were vested in the appraiser or arbitrator in whose stead the appointment is made.

In case of death or failure to act by a single appraiser or arbitrator.

- (6.) In case a single arbitrator die or become incapable to act before the making of his award or fail to make his award within sixty days after his appointment or within such extended time (if any) not exceeding thirty days as shall have been duly appointed by him for that purpose the matters referred to him shall be again referred to appraisalment or arbitration under the provisions of this Act as if no former reference had been made.

Appraisers or arbitrators to appoint an umpire.

- (7.) In case there be more than one appraiser or arbitrator the appraisers or arbitrators shall before they enter upon the reference appoint by writing under their hands an umpire and if the person appointed to be umpire die or become incapable to act the appraisers or arbitrators shall forthwith appoint another person in his stead and in case the appraisers or arbitrators neglect or refuse to appoint an umpire within thirty days after being requested so to do by any party to the appraisalment or arbitration the Minister may appoint an umpire and he is hereby empowered so to do and the award of the umpire shall be binding final and conclusive upon all persons and to all intents and purposes whatsoever.

Determination by umpire in certain cases.

- (8.) In case appraisers or arbitrators fail to make their award within sixty days after the day on which the last of them was appointed or within such extended time (if any) not exceeding thirty days as shall have been duly appointed by them for that purpose the matters referred shall be determined by the umpire and the provisions of this Act with respect to the time for making an appraisalment or award and with respect to extending the same in the case of a single arbitrator shall apply to any umpirage.

Production of documents.

- (9.) Any appraiser arbitrator or umpire appointed by virtue of this Act may require the production of such documents in the possession or power of either party as he may think necessary for determining the matters referred and may examine the parties as witnesses on oath.

Determination of costs.

- (10.) All costs of and consequent upon the reference shall be in the discretion of the appraiser or appraisers arbitrator or arbitrators or of the umpire in case the matters referred are determined by an umpire.

Arbitration subject to Rule of Supreme Court.

- (11.) Any submission to arbitration under the provisions of this Act may be made a Rule of the Supreme Court of the said Colony on the application of any party thereto.

Declaration by appraiser arbitrator or umpire.

- (12.) Before any appraiser arbitrator or umpire shall enter upon the consideration of any matter referred to him as aforesaid he shall make out and subscribe a declaration in the form following before a Justice of the Peace (that is to say):—

“ I A.B. do solemnly and sincerely declare that I am not directly or indirectly interested in the matter referred to me and that I will faithfully honestly and to the best of my skill and ability hear and determine the matters referred to me under the ‘ Crown Lands Alienation Act of 1861.’ ”

Declaration to be annexed to appraisalment.

- (13.) And such declaration shall be annexed to the appraisalment or award when made and if any appraiser or arbitrator or umpire shall wilfully act contrary to such declaration he shall be guilty of a misdemeanor.

Appraisalment to be transmitted to Surveyor-General.

- (14.) Every appraisalment or award shall be in writing and shall be transmitted to the Surveyor-General and deposited in his office.

(Additional

(Additional Regulations from the Government Gazette of 27th September, 1876.)

APPRAISEMENT.

Court of Appraisement.

The appraiser or appraisers having made the declaration prescribed by the Act, and appointed (except in the case of a sole appraiser) an umpire thereunder, shall appoint a time and place for holding a Court of Appraisement at some convenient place in the district; and shall give not less than fourteen (14) days notice in writing thereof to the parties interested, and to the umpire, if any.

How appraisement to be conducted.

The appraisement shall be made in open Court, and upon due inquiry and consideration of any evidence, documentary or otherwise, which may be laid before the appraiser or appraisers by the claimant, or at the instance of the Government, or which may have been produced at their own instance.

You are particularly to bear in mind that the appraisement must be conducted in open Court, that not less than *fourteen days* notice in writing of the time and place appointed for the holding of it must be given to every person interested in the case; that the declaration referred to must be made previously to the award, and that the award must be made within the term prescribed by law.

A report containing full particulars of the appraisement should be transmitted to this Department, and the enclosed tracing, which is forwarded for your guidance, you will be good enough to return.

You will observe that the 6th clause of the 28th section of the "Crown Lands Alienation Act of 1861," provides that a single appraiser or arbitrator must make his award *within sixty days* after his appointment, or within such extended time, if any, not exceeding thirty days, as shall have been duly appointed by him. Failure on the part of any appraiser or arbitrator to comply with the terms of this section involves the forfeiture of the appraisement fee.

I have, &c.,

W. W. STEPHEN.

No. 61.

Appointment of Appraiser by The Secretary for Lands.

WHEREAS Thomas Broughton, of "Bradley," Paddington, in the Colony of New South Wales, has applied to purchase, under the 7th clause of the Crown Lands Alienation Act of 1861, the Crown land specified in the schedule hereinafter written: Now I, the Under Secretary for Lands, having been duly authorised by the Minister for Lands, in pursuance of the powers vested in him under and by virtue of the Crown Lands Alienation Act of 1861, do hereby appoint Dudley Keele, of Wagga Wagga, in the Colony of New South Wales, to be the appraiser on behalf of the Crown, to appraise the said land, and to determine the price to be paid for the purchase thereof by the said Thomas Broughton.

In witness whereof, I have hereto set my hand, this 14th day of April, 1880,—

W. W. STEPHEN.

Schedule referred to:—

Portion, 33; area, 160 acres; parish Cowcumbala; county Harden; Muttama Run.

I, the within-named Dudley Keele, do solemnly and sincerely declare that I am not directly or indirectly interested in the matter referred to me, and that I will faithfully and honestly, and to the best of my skill and ability, hear and determine the matters referred to me, under the Crown Lands Alienation Act of 1861.

Subscribed and declared, this 20th day of }
April, A.D. 1880, before me,— }

DUDLEY KEELE.

No. 67.

Appraisement of Land by single Appraiser.

To all to whom these presents shall come—

I, Dudley Keele, of Wagga Wagga, in the Colony of New South Wales, send greeting:—

WHEREAS on the 14th day of April, in the year of our Lord one thousand eight hundred and eighty, I was duly appointed by the Minister for Lands, and on the 5th day of June, in the year of our Lord one thousand eight hundred and eighty, by Thomas Broughton, of Cowcumbala, Harden, in the Colony of New South Wales, as the sole appraiser to fix and determine the price or value to be paid by the said Thomas Broughton, of Cowcumbala, for the purchase of the Crown Lands specified in the schedule hereinafter written. And whereas I have entered upon the consideration of the value of the said land, and have heard and considered the evidence produced before me, by or on behalf of the Minister for Lands and the said Thomas Broughton: Now I, the said Dudley Keele, do hereby declare the sum of one hundred and sixty pounds to be the value of the said land, and do appraise and fix that sum as the amount to be paid by the said Thomas Broughton, of Cowcumbala, for the purchase thereof from the Crown—and I assess and fix the costs of this appraisement payable to me at the sum of 10s. Gd., which said sum I direct shall be paid by the Minister for Lands.

In witness whereof, I have hereunto set my hand, this 8th day of June, 1880.—

DUDLEY KEELE.

Schedule referred to.

Portion, 33; area, 160 acres; parish of Cowcumbala; county of Harden; appraised price per acre, £1; total, £160; Muttama Run.

No. 68.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir,

Department of Mines, Sydney, 29 June, 1880.

I have the honor to invite your attention to my letter of the 17th ultimo, in which a request was made that you would be good enough to inform me what steps, if any, have been taken in the matter of the paper (Ms. 80-321, Mines), forwarded to you on the 16th January last, being a letter from Mr. P. Davies, protesting against the alienation of certain land on the Muttama Run, in the parish of Mooney Mooney, county of Harden.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

Mr. Langster. Mr. Blaxland.—There is no intention to send the portions mentioned in Aln. 80-384 to auction; portion 9G is C.P. 75-369, Gundagai, and from plan stands good. 196 is applied for under 7th clause of 1861, and has been sent on for appraisement.—R.S., 5/8/80. Inform Mining Department in terms of Survey minute of 5th instant.—J.G.B., 13/8/80. U.S. for Mines informed.—26/8/80.

No. 69.

No. 69.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir,

Department of Mines, Sydney, 4 August, 1880.

I have the honor to invite your attention to my letter of the 17th May last, in which inquiry is made as to what steps, if any, have been taken in the matter of the alienation of certain land on Muttama Run, in the parish of Mooney Mooney, county of Harden, against which Mr. P. Davies protested in a letter (80-321, Mines), which was forwarded to you on the 16th January last.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

No. 70.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir,

Department of Mines, Sydney, 24 November, 1880.

I have the honor, by direction of the Secretary for Mines, to inform you that it is desirable, in view of mining interests, that portion No. 193, in the parish of Mooney Mooney, county of Harden, should not be alienated, unless subject to the provisions of the 29th section of the Lands Act Further Amendment Act, and I am accordingly instructed to ask you to be good enough to move the Secretary for Lands not to alienate the land, except subject to the section above quoted.

I have, &c.,

HARRIE WOOD,

Under Secretary.

No. 71.

Mr. W. Spicer to The Secretary for Lands.

Sir,

Spring-street, Sydney, 10 February, 1881.

I have the honor, as agent and acting for George Vincent, with reference to the conditional purchase noted in the margin, to beg of you, on behalf of my client, to inquire into the circumstances connected with this case, and that you will give it your careful consideration. Mr. Thomas Broughton, on the 17th June, 1864, applied to purchase 640 acres at Elton's old station as a pre-emptive right.

The alleged vagueness of Mr. Broughton's original application cannot be made to apply to his own want of knowledge of the locality where he wanted the 640 acres, yet up to the end of 1868 little was done to prevent the land being selected or sold by auction, in fact, the greater portion of the land was acquired by Mr. Broughton, and he purchased on the 22nd December, 1868, nearly all the portions offered for sale by auction, thus the improper alienation of the land complained of in his letter of 12th March, 1872, was chiefly done by himself, and the greater portion of the frontage to the creek taken up by his own acts in acquiring the land otherwise than by pre-emptive purchase. Referring again to this letter, Mr. Broughton asks for the cancellation of Billingsley's conditional purchase 140 acres, which was done to satisfy to this extent his application, at the same time retaining the land acquired by himself that should have been included in the 640 acres applied for in 1864, and then tries to make up the deficiency in his pre-emptive by applying for land elsewhere. Again in the letter referred to, Mr. Broughton requests permission to purchase 640 acres of land on the same side of Muttama Creek, including the 140 acres which was taken up, he states, to shut him out from the back land. This is incorrect, as Mr. Broughton owns the portion on the east side of Billingsley's cancelled conditional purchase.

George Vincent objects to the cancellation of his portion 193 for the following reasons:—

- (1.) After the settlement of the disputed boundary between Brawlan and Muttama Runs, Mr. Broughton could have secured all or the greater portion of his 640 acres at Elton's old station, and the fact of his having acquired any part of this land otherwise than by pre-emptive right looks like giving up his claim to such right, and cannot be fairly used as a pretext to have land located elsewhere.
- (2.) Mr. Broughton, in his letter, 12th March, 1872, objects to Billingsley's selection as shutting him out from the back land. Billingsley's has been given to Mr. Broughton, and on 2nd October, 1879, he selected 210 acres on the east side. If Mr. Broughton had been desirous of taking his pre-emptive here, there was enough land on the north and east to have supplied the quantity.
- (3.) Six hundred and forty acres being the maximum allowed under the 7th clause, Land Act, 1861, for every 25 miles square, can Mr. Broughton have any right to Vincent's conditional purchase of 640 acres, when he claims 160 acres of Billingsley's and 320 acres of Muttama village, distance of only 4 miles, besides holding as a pre-emptive 320 acres 2 miles down the creek. Mr. Broughton has exhausted his pre-emptive rights.
- (4.) The Under Secretary was not justified in allowing portion 193 to be measured, so it appears, in satisfaction of an unjust claim by Mr. Broughton. This portion of 640 acres was not applied for in this position, and ought not to have been given to Mr. Broughton to satisfy an application covering other lands.
- (5.) When Mr. Evans surveyed portion 193, 27th October, 1874, the only improvements consisted of a log fence, value £20.
- (6.) Portion 193, appraised by Mr. Dudley Keele, 20th April, 1879, the fencing valued by Mr. Keele was erected after the land was selected by Vincent.
- (7.) The concluding sentence of clause 7 in the Land Act of 1861, runs thus: "And provided that every application for the purchase of land under these conditions shall be advertised in the *Government Gazette* for the period of one calendar month before the sale is completed." This has not been done, but a memo. appears with the papers in this case as follows: "I cannot find in previous instances this course has been adopted, the only notice, apparently, having been the ordinary one, in which the applicant is noticed to pay the appraisement price. This would, for all

Gundagai.

all practical purposes, be sufficient, but if the applicant should pay the amount before the expiration of a month, the requirements of the Act might be held not to have been fulfilled." The above extract tacitly admits that the Act has not been complied with, and justifies this course, because in previous instances the same omissions have occurred. It also states what is considered sufficient for practical purposes. I cannot understand how the practice of the department can be directly opposed to the stringent and specific wording of the latter part of clause 7. No court of law would sustain such action, as the regulations and practice cannot be directly in opposition to the Act itself; also, the opinion that, for all practical purposes, the course pursued is sufficient, when in this case the evidence entirely controverts this view. For instance, conditional purchase 78-257 was surveyed four years before it was selected, without anyone at the Local Land Office or the selector being aware of the existence of any prior claim to the land in question.

- (8.) The delay from survey to the appraisalment appears inexcusable, and was at last only brought on by Vincent selecting the land.
- (9.) I think it will be admitted that Mr. Broughton's claim cannot be sustained; that the selection by George Vincent was perfectly a *bona-fide* one; that it was fairly a measured portion, open to selection; and that the reinstatement of George Vincent to this land must be the result.

The reasons given, I trust, will suffice to show that Mr. Broughton had no right to portion 193; that the Act, as affecting his claim to this portion, was not carried out; and that George Vincent is the rightful owner of the land in dispute.

I have, &c.,

WILLIAM SPICER.

No. 72.

Mr. W. Spicer to The Secretary for Lands.

Conditional purchase 78-257, portion 193.—640 acres, selected by George Vincent, 27th August, 1878, parish Mooney Mooney, county Harden, district Gundagai.

Sir,

5, Spring-street, Sydney, 10 March, 1881.

When I waited on you this morning, in company with George Vincent, the selector of the land, particulars of which are given above, you desired me to furnish you with a statement of the case, promising it should be at once attended to, and that you were not in a position to do so until it had been reported on by the Survey Department.

It is not necessary to enclose a copy of my letter of the 10th February, 1881, as this will be found in connection with the papers in this case, but I have to call your attention to the great and unnecessary delay that has occurred in dealing with the matter in question, urging you to bring the business to a definite settlement, which I beg to do on behalf of a *bona-fide* selector, who is severely suffering from no fault of his own, but from having been deprived of his land that was legitimately and legally taken up.

With the papers "72-2,072 miscellaneous, the description in Mr. Broughton's original application is vague; there is no wonder the Land Agent omitted to hold over the land from conditional purchase. Moreover, Mr. Broughton does not appear to have concerned himself much in the matter, as he must have been aware of some of the conditional purchases as far back as 1868, in which year he purchased by auction nearly all the portions in the locality submitted to auction on the 22nd December in this year."

Mr. Broughton and his family knew perfectly well the land applied for at Elton's old station, and no resident owner of a run can be ignorant of the position of an old station on it. Yet, in spite of this, instead of getting the land surveyed as it should have been, Mr. Broughton prefers to buy by auction, select, &c., until the intrusion of others makes him apply for permission to be satisfied by having other land allowed him. Objections may be raised that George Vincent allows Mr. Broughton to run his stock over the land, and has not more bitterly fought out the question of title, but circumstances alter cases, and Vincent resisted, as far as his means and strength permitted, adhering strictly as far as possible to the conditions imposed on a selector under the 13th section.

I may add that George Vincent by trade is a blacksmith; his intention (and a most laudable one) was to have opened in this line, and by combining his trade with farming, to have made a home.

I think you will admit there has been more than sufficient time for reports on this case to have been placed in your hands, and you will very much oblige the selector by appointing an early day whereon you will appoint to give him your decision. Awaiting your pleasure,

I have, &c.,

WILLIAM SPICER.

Very urgent. The Chief Commissioner of Conditional Purchases.—For Mr. Finch, Surveyor-General's Department.

The writer of this letter complains, and I think with some show of reason, of the delay that has taken place in having this matter disposed of. Please have this case prepared and submitted to me for decision with as little delay as possible.—J.H., 11/3/81.

No. 73.

Memo. by The Deputy Surveyor-General.

G. Vincent's void conditional purchase.

1. THIS is a protest by Mr. William Spicer, on behalf of George Vincent, against the voiding of conditional purchase 78-257.

2. On the 28th August, 1878, by conditional purchase 78-257, Gundagai, George Vincent applied for portion 193 (formerly 93), in the parish of Mooney Mooney, county Harden, of 640 acres, and on the 23rd October, 1878, this conditional purchase was declared void, in view of Mr. Secretary Farnell's decision of the 16th October, 1878, on 78-57,956 C.S., on the grounds of the land applied for being under process of sale to Mr. Thomas Broughton, under the 7th section of the Crown Lands Alienation Act of 1861. No further steps were taken either by Vincent, or on his behalf, until date of letter, 80-15,790 C.S., in which reconsideration of Vincent's claim is requested on grounds similar to those now set forth Mr. Spicer's letters.

3.

3. It is urged by Mr. Spicer that Mr. Broughton has no pre-emptive right over the land in question, and that consequently the land was open to conditional sale at the time it was applied for by George Vincent.

4. The reasons he gives for taking this view of the case may be briefly stated as follows:—

- (1.) That Mr. Broughton's application, made in 1861, does not describe the land that has been measured for him.
- (2.) That Mr. Broughton should not have been allowed this land in satisfaction of land applied for by him elsewhere, and which, it is alleged, through his own inattention was alienated otherwise, and partly purchased by himself at auction.
- (3.) That, in addition to the 160 acres, part of the 640 acres at Elton's old station, there is (or was) Crown land adjacent thereto, out of which Mr. Broughton's application might have been satisfied.
- (4.) That 640 acres being the maximum area allowed by law, under the 7th section of Crown Lands Alienation Act of 1861, for every 25 square miles, Mr. Broughton cannot be allowed the 640 acres in question, as he has 160 acres at Elton's old station, 320 acres at Muttama village, besides 320 acres 2 miles down the creek, which, it is alleged, exhausts his pre-emptive right.
- (5.) That the land was unimproved at date of conditional purchase.
- (6.) That the intention to alienate the land to Mr. Broughton has not been notified in the *Government Gazette*, as required under the provisions of the 7th section of the Crown Lands Alienation Act of 1861; and—
- (7.) That the Land Agent was not made aware of the fact that the land was under process of sale to Mr. Broughton.

5. In reply to the first four reasons given by Mr. Spicer for refusing the pre-emptive purchase and reinstating the conditional purchase, it will be necessary to state the circumstances of the case as regards the proposed alienation to Mr. Broughton as follows:—

- (1.) On the 17th June, 1864, in addition to many applications under 7th and 8th sections of Crown Lands Alienation Act of 1861, during that and previous years, Mr. Broughton, in virtue of his pre-emptive right under the 7th section of Crown Lands Alienation Act of 1861, applied for 640 acres of his Muttama Run at Elton's old station. At this time the land applied for—the exact position of which does not appear to have been known in the office—formed part of the run in dispute with the lessee of the adjoining run, Brawlan, in consequence of which no steps could be taken towards completing the sale of the land. In dealing further with the case in 1872, the dispute between the lessees as regards the run boundary having been determined in favour of Muttama Run, it was ascertained that the 640 acres at Elton's old station had, for the most part, been alienated by conditional purchase or at auction (in the latter case to Mr. Broughton), but an offer was made by Mr. Broughton to forego in part his pre-emptive right, provided he was allowed 160 acres embracing a conditional purchase by Billingsley, of the 640 acres at Elton's old station, and 640 acres lower down the creek (being the 640 acres now in dispute), in satisfaction of the balance, and of 160 acres applied for in 1875 at that spot, but which was refused on account of its being within a reserve since revoked.
- (2.) Under the circumstances of the case, which are set forth in memoranda on papers 72-2,072, Miscellaneous, it was recommended that the offer be acceded to, the Land Agent was advised of the proposed alienations under pre-emptive right, and the land was eventually surveyed in 1875. Some delay then occurred through the necessity for the alteration of the number (193) of the portion now in dispute, but this having been attended to the survey was accepted on the 16th August, 1878; and on the 8th October, 1878, the papers were sent to the Miscellaneous Branch, Lands, with a view to the appraisalment of the land.
- (3.) On account of the uncertainty of the position of the boundaries of the run, and in view of the fact that the number of portions alienated, forfeited, or proposed to be alienated to Mr. Broughton, under pre-emptive right, did not amount to the number he was entitled to, and as their gross area amounted to only about half the total area, he might have purchased the blocks of 25 square miles were not fixed so as to approximate them in form to blocks of 5 miles square, but care was taken that the purchases were fairly distributed over the run, and did not exceed the proportion of frontage (1 mile in 5) allowed under pre-emptive right.
- (4.) The area was 131,000 acres, which would have entitled the lessee to purchase eight portions of 640 acres, equal to 5,120 acres.

The lessee has purchased, under section 7 of Crown Lands Alienation Act of 1861, three portions—total area, 1,012 acres. He has forfeited his right to one portion of 640 acres, and three portions (including the one in dispute) in process of sale to him—three portions of 1,120 acres, making in all seven portions, of 2,772 acres, showing that Mr. Broughton has not exercised his right within 2,318 acres of the total. As regards the reasons 5, 6, and 7, it is submitted they cannot affect the case, as it is not necessary that land to be alienated under the 7th section of the Crown Lands Alienation Act of 1861 should be improved; and as the land has not yet been alienated to Mr. Broughton, the necessary notification can still be made "for the period of one calendar month before the sale is completed." As a matter of fact, notice was sent to the Land Agent with tracing of the 640 acres proposed to be alienated to Mr. Broughton.

The question to be determined, in view of all the facts of the case is whether or not, at date of George Vincent's conditional purchase 78-257, Gundagai, of the 22nd August, 1878, the land in dispute, portion 193, of 640 acres, in the parish of Mooney Mooney, county of Harden, on Muttama Run, "had been lawfully contracted to be granted in fee-simple," within the meaning of the 1st section of the Crown Lands Alienation Act of 1861. If it were so contracted to be granted it was not open to conditional purchase.

R. D. FITZGERALD
(For the Surveyor-General).

15 March, 1881.

The foregoing report has been prepared by direction of the Minister, and fully discloses the facts of the case.—C.O., 16/3/81.

I must ask the Survey Branch to report to me whether there is any documentary evidence to prove that any Minister for Lands has decided that Mr. Broughton has a legal claim, to be allowed to purchase, in virtue of his pre-emptive right, portion 193, parish of Mooney Mooney, county of Harden.—J.H., 17/3/81.

The Deputy Surveyor-General.—C.O., 18/3/81.

There is not, except by inference from the minutes of the Secretary for Lands (Mr. Farnell), of 24th June, 1873 (73-2,442), and 16th October, 1878 (78-37,956.)—R. D. FITZGERALD (for Surveyor-General), 18/3/81.

No. 74.

Memo. by Mr. Stobo.

21 April, 1881.

MR. MANSFIELD, Occupation Office, Department of Mines.—Will you please state when the lease of the Muttama Run to Mr. Broughton, under the Orders in Council, expired, and when the run was commenced to be held under lease under the Act of 1861.
Department of Lands.

E.H.S.

This information is desired by the Secretary for Lands. Lease of the above-named run, under the Orders in Council, expired 31st December, 1865; new lease, under the Crown Lands Alienation Act, commenced 1st January, 1866.—G.M., 21/4/81.

No. 75.

Minute by The Secretary for Lands.

22 April, 1881.

It appears that on 17th June, 1864, Mr. Thomas Broughton, lessee of the Muttama Run, applied to be allowed to purchase 640 acres of Crown land on the north side of Muttama Creek, and near Elton's old station, in virtue of his pre-emptive right. This application was held over, pending the settlement of the dispute as to the run boundary, and on 26th April, 1866, the Land Agent at Gundagai was instructed to withhold the land applied for by Mr. Broughton from conditional purchase.

On 12th March, 1872, Mr. Broughton wrote to this department, stating that as the dispute about the run boundary had been settled, he submitted that he was entitled to purchase so much land as had been applied for by him on 17th June, 1864, and further represented that some of the land so applied for had been sold at auction, and some conditionally purchased by John Billingsley and others. Mr. Broughton further stated in the same letter that, so far as these selections were concerned, he did not wish to disturb them, except an additional conditional purchase of 140 acres by Billingsley; and further, respectfully requested to be allowed to purchase 640 acres on the same side of Muttama Creek, including the 140 acres additionally conditionally purchased by Billingsley, and that Billingsley's additional conditional purchase should be cancelled.

Mr. Farnell, as Minister for Lands, decided, on 24th June, 1873, that Billingsley's additional conditional purchase should be declared void, and that Mr. Broughton was entitled to purchase the 140 acres, being Billingsley's additional conditional purchase, because the lessee, Mr. Broughton, had applied in 1864 to be allowed to purchase that with other land, up to 640 acres, in virtue of his pre-emptive right; and Billingsley's additional conditional purchase was accordingly cancelled.

Now Mr. Broughton, in his letter to this department of date 12th March, 1872, submits his claim to be allowed to purchase, in view of his pre-emptive right, the area specified in his application of 17th June, 1864, viz., 640 acres; and states that he wishes to have allowed him in satisfaction of that application Billingsley's additional conditional purchase of 140 acres, and an additional area, to make up 640 acres on the same side of Muttama Creek. Now the 7th section of the Crown Lands Alienation Act of 1861 prescribes that lessees of runs may be permitted to exercise a pre-emptive right of purchase over one portion, and no more, of an area not exceeding 640 acres out of each block of 25 square miles of his run. Now, as Mr. Broughton fixed the position of the land he sought to purchase in virtue of his pre-emptive right of 640 acres, by specifying that he wished to include Billingsley's additional conditional purchase in the 640 acres he sought to purchase, it follows that the land described must be north of the Muttama Creek.

It appears that Surveyor Evans measured a portion of 640 acres in October, 1874, plan No. 193, in satisfaction of Mr. Broughton's application by pre-emptive right, by direction of the Deputy Surveyor-General, but the action taken by Surveyor Evans was wrong, seeing that the 640 acres he measured did not include the 140 acres embraced in Billingsley's additional conditional purchase, which Mr. Broughton applied for by his letter of 12th March, 1872, to be included in the 640 acres pre-emptive purchase, and which could only be in one block, as provided by the 7th section of the Act of 1861; therefore, in my opinion, the action taken by Surveyor Evans was erroneous, and not in conformity with Mr. Broughton's application. I find further, that George Vincent applied to conditionally purchase 640 acres of Crown land on 22nd August, 1878, county of Harden, parish of Mooney Mooney, described as follows: "bounded on the west by Muttama Creek; on the north by a lapsed purchase of Andrew Melzer; on the east by William Ward's conditional purchase; on the south by forfeited conditional purchase by James Thompson; the said 640 acres being supposed to be a measured portion, No. 93, believed to have been surveyed by Surveyor Evans, and not yet offered for sale"; and it appears from papers Ms. 75-4,270 that portion 193, parish of Mooney Mooney, county of Harden, 640 acres measured by Mr. Surveyor James Evans for Mr. Broughton's pre-emptive purchase was first numbered 93, and the surveyor was instructed to alter the number of this portion to 193. Vincent's conditional purchase was protested against by A. G. Blomfield, for Thomas Broughton, on 20th September, 1878, on account of that gentleman having held the said portion under pre-emptive right, and that the Land Agent had been instructed to withdraw it from conditional purchase, when, in point of fact, there is no evidence in the papers to show that Mr. Broughton ever did apply for this portion under his pre-emptive right, but, on the contrary, he did apply for the portion adjoining Billingsley's additional conditional purchase.

It

It appears that my predecessor, Mr. Farnell, decided that Vincent's conditional purchase should be declared void, as it was represented to him that a previous Minister for Lands decided that Mr. Broughton should be permitted to purchase 640 acres of land in the position portion 193 now occupied, when, in point of fact, there is no minute on any official document to show that such a decision was ever given, the only reference in previous papers showing that Mr. Secretary Wilson approved of the Land Agent at Gundagai being requested to withhold from conditional sale 640 acres in the position 193 occupied, pending inquiry into a claim said to have been verbally made by Mr. Broughton for that land, although there is no official documentary evidence to confirm the statement that Mr. Broughton applied for this land in virtue of his pre-emptive right, while there is the lessee's (Mr. Broughton) written application to have Billingsley's additional conditional purchase included in an area of 640 acres to be sold to him in virtue of his pre-emptive right.

Since my predecessor (Mr. Farnell) decided to cancel Vincent's conditional purchase (on paper 78-37,956 C.S.) several protests have been sent to this department against the voidance of this conditional purchase; and although I am very reluctant to review any decision of my predecessor's, nevertheless, as the conditional purchaser and his agents have requested that I should give his claim to portion 193 my consideration, I feel bound to state that after having carefully perused all the papers in the case, I am constrained to arrive at the conclusion that the conditional purchase of George Vincent for 640 acres has been erroneously cancelled, and that such cancellation should be reversed for the following reasons:—First—Because Mr. Broughton applied by letter on 12th March, 1872, that his claim for a pre-emptive right to 640 acres made on 17th June, 1864, might be satisfied by permitting him to purchase 640 acres of Crown land to include Billingsley's additional conditional purchase of 140 acres; and as such purchase could only be made in one block in terms of the 7th section of the Act of 1861, Mr. Farnell agreed to allow Mr. Broughton to purchase Billingsley's additional conditional purchase, and of necessity the 640 acres, which Mr. Broughton desired should include Billingsley's additional conditional purchase, must be in that place, as he was only entitled to exercise his pre-emptive right by purchasing one block of land.

Secondly—Because Mr. Broughton's pre-emptive right of purchase of Crown land on the Muttama Run ceased on 31st December, 1865, when the lease of Muttama Run under the Orders in Council expired, therefore any application to purchase under pre-emptive right made by Mr. Broughton in 1872 was void, save that as an act of grace he was allowed by the decision of Mr. Farnell to revive his application made in 1864 in respect to Billingsley's additional conditional purchase of 140 acres. There is no evidence in Mr. Farnell's minute of 24th June, 1873, that he intended Mr. Broughton should be allowed to purchase by pre-emptive right more than the land embraced in Billingsley's additional conditional purchase; on the contrary, it appears from the Minister's minute that he appeared to consider that Mr. Broughton had waived his right to purchase by pre-emptive right any larger area of land than was included in Billingsley's additional conditional purchase.

I have no objection, if the land is available to be measured in a form in conformity with the regulations, to allow Mr. Broughton to purchase, in virtue of his pre-emptive right, 640 acres, including Billingsley's additional conditional purchase, as requested by Mr. Broughton on 12th March, 1872, seeing that some of the land applied for by him on 17th June, 1864, was erroneously alienated by the Crown, some of it to Mr. Broughton; but, in my opinion, he has no title to portion 193, parish of Mooney Mooney, county of Harden, and therefore George Vincent's conditional purchase application for that portion of land must stand good.

J.H.

The necessary action should now be taken, and Mr. Broughton and Vincent be duly informed.—
W.B., 22/4/81.

No. 76.

The Chief Commissioner to Mr. W. Spicer.

Sir,

Department of Lands, Conditional Sales Division, 3 May, 1881.

In reply to your letters of the 10th February and 10th March, on behalf of George Vincent, urging a reconsideration of the cancelling of his conditional purchase, and that the same may be restored to him, I have the honor, by direction of the Secretary for Lands, to inform you that after a careful perusal of all the papers in the case he has come to the conclusion that the cancellation should be revoked, which action will therefore be taken upon Vincent's returning the refund voucher sent to him on the 23rd October, 1878.

I have, &c.,

EDWARD BROWN

(For the Chief Commissioner).

No. 77.

The Chief Commissioner to Mr. A. G. Blomfield.

Sir,

Department of Lands, Conditional Sales Division, 3 May, 1881.

Referring to your letter of the 20th September, 1878, on behalf of Mr. Thomas Broughton, protesting against the conditional purchase of George Vincent, noted in the margin, which was in consequence of your protest declared void, I have the honor, by direction of the Secretary for Lands, to inform you that several protests against the course then taken have since been received in this department, and that, although Mr. Hoskins is very reluctant to review any decision of his predecessor, yet, as the conditional purchaser and his agents have requested that he would reconsider his claim to portion 193, he is constrained to arrive at the conclusion that Vincent's conditional purchase was erroneously cancelled, and that such cancellation should be reversed.

At the same time the Minister has no objection that Mr. Broughton should be allowed, under his pre-emptive right, 640 acres, if available, measured in conformity with the regulations, and including Billingsley's additional purchase, as requested by letter of the 12th March, 1872, but, in any event, the Minister is of opinion that Mr. Broughton has no claim to portion 193, and therefore that Vincent's conditional purchase must stand good.

I have, &c.,

EDWARD BROWN

(For the Chief Commissioner).

No. 78.

No. 78.

Mr. T. Broughton to The Secretary for Lands.

Sir,

Muttama, 9 May, 1881.

I have the honor to acknowledge receipt of your favour of 3rd instant, as per marginal. I have the honor of stating that your letter has taken me by surprise, and I cannot bring my mind to believe that the Minister has had placed before him the whole of the correspondence and circumstances in connection with this case. In fact, there was so much gross negligence and culpable mismanagement by those whose duty it was to prevent the difficult and embarrassing position the then Minister for Lands was placed in by the department permitting the whole of the land, 640 acres, which I have applied to purchase, to be absorbed by free selection and sale by public auction, that one could hardly expect that the fullest information would be supplied to the Minister upon any subject where the office had been at fault with reference to the subject of inquiry.

I have not the papers here in connection with this matter for reference, and must trust to memory.

The Government having appropriated my land, I naturally inquired what the Minister for Lands intended to do in the matter, and, after several interviews, I was desired to make application for any adjoining land, and I did apply for 640 acres, the only remaining land adjacent to my first application, except a portion improved by me, and occupied as a sheep station. This land the Minister also required for water supply, and I was informed it must be dealt with separately. Eventually the Minister agreed that in lieu of my first application, I must take 640 acres adjoining and lying south of my sheep station at the long water-hole. To this arrangement I assented, although the land was inferior to my first selection, and instructions were sent to the Land Agent at Gundagai, withdrawing the land from free selection; directions were also given to Mr. Licensed-Surveyor Evans to measure for Mr. Broughton 640 acres, the land in question, which he did so measure in the presence of my son, and No. 193. For a period of nine years I have held exclusive right to the said land as my pre-emptive purchase under the Orders in Council, and have been to the expense of fencing with one rail and five wires. That every succeeding Minister for Lands during the past nine years has treated the land as mine, and I have been patiently awaiting the Government Appraiser assessing the value per acre of the land for payment.

I have the honor to solicit the particular attention of the Minister to a return which he furnished to the Legislative Assembly, on the motion of Mr. Barbour, of all lands held by myself under the Orders in Council. By reference to that return it will be seen that this very identical portion of land of 640 acres is included in that return, and furthermore that I was then entitled to exercise my right over an area exceeding 2,000 acres of land.

With reference to the several protests which you state have been made against the course taken by the previous Minister's action, I have the honor to remind you that the steps which you have taken have been without my knowledge, and behind my back, and as my interests were to be materially affected, I think that in common justice I was entitled to have notice, and a hearing in the matter, before any final decision thereon.

I cannot pretend to say what effect the reviewing by one Minister of his predecessors' decisions, and reversals of those decisions, may have upon the public mind. But to say the least, it is a most objectionable course, and certainly not warranted in this case, for if carried into effect it would be upsetting that which had been sanctioned by Ministers for the preceding ten years, and would be nullifying the action taken by the present Minister on his return to Parliament, stating that the land is in progress of completion to me.

I have the honor of stating that there is not another acre of land available in the vicinity of Billingsley's additional purchase of 100 acres to satisfy 640 acres application, and that Billingsley's land was agreed to be substituted for other land, which I was entitled to, but which the Crown required, and I was fool enough to surrender, believing the Crown would reciprocate my forbearance.

I have the honor, therefore, respectfully to protest in the strongest terms against the alienation of the land in question as proposed, and I hope the Minister for Lands will reconsider the subject matter of this letter, and spare me the necessity of applying for compensation for the manifest injustice that his decision, if carried out, will entail upon me, or of taking such other steps as I may be advised.

I have, &c.,

THOMAS BROUGHTON.

No. 79.

Mr. E. Greville to The Chief Commissioner.

Sir,

83, New Pitt-street, Sydney, 26 May, 1881.

Referring to yours of the 3rd instant (81-16,284 C.S.) to Mr. William Spicer, I, as that gentleman's successor in business, and as the present agent of Mr. George Vincent, herewith enclose refund voucher, and would request that you will send to me at the above address the revocation of the cancellation of the conditional purchase noted in margin.

I have, &c.,

EDWARD GREVILLE

(Per H.L.)

Attention is drawn to communication from Mr. Thomas Broughton of 9th May, 1881.—Mr. BLACKMAN. After action on Mr. Broughton's letter, case should go to inspector.—W.A., 31/10/81. Attention is called to Mr. Broughton's letter enclosed, in case it has not already been considered by the Minister.—A.O.M., 1/11/81. Returned, without remark; now for inspector.—A.O.M., 3/11/81.

No. 80.

The Chief Commissioner to Mr. G. Vincent.

Gundagai; 640
acres; 22nd
August, 1878.

Sir, Department of Lands, Conditional Sales Division, Sydney, 14 June, 1881.
I am directed to inform you that the cancellation of your conditional purchase, noted in the margin, has been revoked, and the purchase stands now in your name, as before.

No. 83.

Declaration of Conditional Purchase by Mr. G. Vincent.

(C.P. No. 78-257.)

Declaration of Conditional Purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, GEORGE VINCENT, of Muttama Reef, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of building, fencing, land cleared, well sunk, and to the value of £524, have been made on such land; and I declare further, that the said land has been the *bona-fide* residence, continuously, of myself from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared, at Gundagai, this 23rd day of } GEORGE VINCENT.
August, 1881, before me,—

ARCHIBALD S. SMITH, J.P.

Description.

County of Harden, parish of Mooney Mooney, 640 acres, at Mooney Mooney, being conditional purchase No. 257, of 1878, in the district of Gundagai, made on the 22nd August, 1878.

£32 instalment credited at Treasury 3rd September, 1881. Correct in form.—W.B., 15/10/81.

No. 84.

Notification of Alienation of Conditional Purchase by Mr. G. Vincent.

H.

Notification of Alienation of Conditional Purchase under the Crown Lands Alienation Act of 1861.

Notification of Alienation of Conditional Purchase by George Vincent (full age) in the District of Gundagai.

I HEREBY notify to you, as the Agent for the Sale of Crown Lands for the district of Gundagai, that I have, in consideration of the sum of . this day alienated to the Bank of New South Wales, of Sydney, the

the 640 acres of land, situated in the county of Harden, parish of Mooney Mooney, which I selected at Gundagai as a conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, on the 22nd August, 1878.

GEORGE VINCENT,
Of Coolac.

Dated, at Gundagai, this 16th September, 1881.

Witness to signature of George Vincent,—

FRED. S. SMITH, J.P.

To the Agent for the Sale of Crown Lands at Gundagai.

I have duly registered the above notification of alienation in the records of this office.
Fee of 7s. 6d. paid for registration fee.

CHARLES W. WEEKES,
Agent for the Sale of Crown Lands.

District of Gundagai, Lands Office of Gundagai, 21 April, 1882.

Received into the office of the Registrar-General, at Sydney, this 22nd day of July, A.D. 1882, at 10 o'clock in the forenoon, from Frederick Murray, of Sydney, a copy of the above transfer, verified by George W. Halloran, of Gundagai, and numbered 719, book 249.

H. W. GILLAM,
Deputy Registrar.

90-107. Cir.

No. 85.

Mr. H. R. Way to The Under Secretary for Lands.

Sir,

118, Elizabeth-street, Sydney, 29 October, 1881.

I have the honor, on behalf of Mr. Thomas Broughton, to apply for copies of certain documents and papers referring to the application of the said Thomas Broughton to purchase, by virtue of his pre-emptive right, 640 acres of land, portion of the Muttama Run, which was surveyed by Mr. Licensed-Surveyor Evans, and is referred to as Gundagai, 78-257, portion 193; and also copies of the papers referred to in the application by Mr. George Vincent to select the same land referred to as conditional purchase No. 78-37,956.

The papers that I wish to have copies consist of the applications, correspondence, minutes, and protests in each case, except the following, which I now have, namely:—16th June, 1864, Thomas Broughton, Esq., to the Honorable Secretary for Lands; 20th June, 1864, S. B. Warburton to Thomas Broughton; 27th July, 1864, A. O. Moriarty, Esq. to Thomas Broughton; 29th April, 1872, W. W. Stephen to Thomas Broughton; 23rd October, 1878, A. O. Moriarty to A. G. Blomfield; 3rd May, 1881, Edmund Brown to A. G. Blomfield; 9th May, 1881, Thomas Broughton to the Honorable Minister for Lands; 21st February, 1879, printed document, purchases, Muttama Run.

I have, &c.,
H. R. WAY.

No. 86.

The Under Secretary for Lands to Mr. H. R. Way.

Sir,

Department of Lands, Sydney, 17 November, 1881.

With reference to your letter of the 29th ultimo, applying, on behalf of Mr. Thomas Broughton, for copies of certain documents and papers relating to his application for a pre-emptive purchase of 640 acres of land on the Muttama Run, I am directed by the Secretary for Lands to inform you that as, in his opinion, the case cannot be understood unless the whole of the papers are together, he is unable to sanction the copying of a portion, to be used separately from the rest.

2. I am, however, to state that, if the whole of the documents and correspondence are moved for in Parliament, Mr. Secretary Hoskins will offer no objection.

I have, &c.,
CHARLES OLIVER,
Under Secretary.

I see no objection to copies being supplied, but it must be at the expense of the applicant for them.—C.O., 8/11/81.

I object to allowing certain of the papers in this very intricate case being copied. In fact, the case cannot be understood unless the whole of the documents are together. Therefore, if the writer of this letter will take the usual course of having the whole of the documents, correspondence, &c., moved for in Parliament and printed, I shall offer no objection to such a course being taken.—J.H., 10/11/81.

Now returned to Conditional Sales Division for action directed on 81-40,013 C.S.—T.P.B., 17/11/81.
Mr. Capper. Case for inspector, *vide* 81-40,013 C.S.—C.N., 22/11/81.

No. 87.

Mr. H. R. Way to The Under Secretary for Lands.

Sir,

118, Elizabeth-street, Sydney, 8 December, 1881.

I have the honor to acknowledge the receipt of your letter of the 17th ultimo, stating that the Secretary for Lands considers that it is not desirable to let Mr. Broughton have copies of portion of the papers referred to.

I have, therefore, the honor now to apply for a copy of the whole of the documents.

I have, &c.,
H. R. WAY.
Submitted

Submitted. The writer was informed, in reply to a previous letter from him on this subject, that the Secretary for Lands could not sanction the copying of a portion of the papers referred to, but if the whole of the documents and correspondence are moved for in Parliament, he would offer no objection.—T.B., 13/12/81.

Copy of letter herewith.—T.B., 14/12/81. Mr. Way has evidently misunderstood the letter. His attention may be drawn to the last paragraph.—C.O., 18/12/81. Mr. Way informed, 22/12/81.

No. 88.

The Under Secretary for Lands to Mr. H. R. Way.

Sir,

Department of Lands, Sydney, 22 December, 1881.

Referring to your letter of the 8th instant, on the subject of Mr. Broughton's application for pre-emptive purchase of 640 acres on the Muttama Run, I am to point out that it appears evident that you have misunderstood my letter of the 17th ultimo, the second paragraph of which intimated "that if the whole of the documents and correspondence are moved for in Parliament, Mr. Secretary Hoskins will offer no objection."

I have, &c.,

CHARLES OLIVER,
Under Secretary.

No. 89.

Mr. A. Broughton to The Under Secretary for Lands.

Sir,

Circular Quay, Sydney, 7 June, 1882.

I do myself the honor to make application for copies of all the documents, papers, and correspondence relative to Thomas Broughton's application, under the 7th clause of the Alienation Act of 1861, and George Vincent's application to conditionally purchase the same 640 acres, situate on the eastern bank of Muttama Creek, being measured portion No. 193, in the county of Harden, parish of Muttama.

I have, &c.,

ALFRED BROUGHTON

(Pro Thomas Broughton).

Submitted in connection with decision of Mr. Secretary Hoskins on 81-7,132, Misc.—F.H.W., 3/6/82. J.B., 8/6/82. C.O., 9/6/82.

A copy of this correspondence has been made and forwarded to Mr. Broughton, by direction of the Secretary for Lands, on the 19th instant. See 82-4,897, put away; now returned to Miscellaneous Branch.—T.B., 25/8/82.

No. 90.

The Chief Commissioner to Mr. Inspector Evans.

Sir,

Conditional Sales Division, Sydney, 25 April, 1882.

I beg to transmit herewith a schedule of conditional purchases on which the declarations prescribed by the Alienation Act of 1861 to be made at the end of three years have been received, and I am to request that whether you have already inspected any of these conditional purchases or not, you will now endeavour * to ascertain how far the condition of residence has been complied with from the date of occupation to the end of the three years, by the original purchaser, or his alienee or alienees, should the land have been transferred, bearing in mind that every original purchase (except under the 19th clause of the Alienation Act), with the additional selections made in virtue thereof, will, as regards residence, be dealt with as one holding, and residence on any portion be deemed a fulfilment of the law.

Whenever a conditional purchase has been taken up under the 22nd clause by virtue of a freehold under the Alienation Act of 1861, it will be sufficient that the conditional purchaser should have been resident on the freehold at the date of selection; but when such purchases have been made under the Amendment Act of 1878, it will be necessary that there should be three years' residence on the freehold before the conditional purchase was made, or on the freehold or conditional purchase after the selection was taken up. Of course, if anyone has resided on his or her freehold for any portion of the time it will only be necessary to reside for the remainder of the years on the freehold or conditional purchase.

Original conditional purchases under the 13th and 19th clauses of the Alienation Act, together with the other purchases made in virtue thereof, will be regarded in so far as improvements are concerned as one holding; and I am further to request that you will furnish me with as concise and accurate a statement as you can of the nature, extent, and value of the improvements about to be made, and also that you will carefully note whether they are on the additional conditional purchases or on the original or freehold by virtue of which they were selected.

With regard to improvements under the 19th clause, specially to point out that a sum of money equal to £2 per acre must be expended in mining operations on the land selected for mining purposes, or any adjoining lands held and used in connection therewith; but should the area of any such purchase be reduced, say, for instance, from 200 acres to 40, as specially contemplated by the 19th clause of Alienation Act, then a sum of money equal to £3 per acre must be expended in the said operations on the said area.

I also transmit tracings of the conditional purchases made therefor. In all cases in which any special action has been taken or serious complications have arisen sufficient information for your guidance will be afforded you in the accompanying schedule.

It is confidently expected that if these general directions are intelligently carried out, such a reliable statement of the facts of each case will be obtained as will enable the Minister for Lands to decide whether the conditions of residence and improvement have been fulfilled as by law required, or whether it will be indispensable that a more public and stringent inquiry should be made before the Commissioner, as provided by the Lands Acts Amendment Act of 1875.

I have, &c.,

WILLIAM BLACKMAN

(For the Chief Commissioner).

No. 91.

No. 91.

Subpcena to The Chief Commissioner.

In the Supreme Court of New South Wales.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c.

To Abram Orpen Moriarty, Esquire, Chief Commissioner, Conditional Sales Branch,—

GREETING :

We command you that, laying all other matters and business aside, and notwithstanding any excuse, you personally be and appear before our Supreme Court of New South Wales, at the Court-house, situate in King-street, in the city of Sydney, in the said Colony, on Friday next, the 15th day of December now instant, at the hour of 10 o'clock in the forenoon, and thence from day to day, at the same hour of each day until the cause hereinafter mentioned shall be tried, to testify all and singular those things which you know in a certain cause now depending in our said Court, and on that day to be tried between Thomas Broughton, plaintiff, and George Vincent, defendant, in an action of trespass on the part of the defendant; and that you diligently search and inquire for, procure, and bring with you and produce at the time and place aforesaid all deeds, instruments, books, papers, maps, plans, specifications, writings, letters, vouchers, receipts, documents, and memoranda, and all drafts and copies thereof in your possession or power relating to or in anywise concerning, or which can or may afford any evidence or information respecting the matters in question in the said cause, and particularly application for conditional purchase by George Vincent, of 640 acres, county Harden, parish Mooney Mooney, made at Gundagai, on 22nd August, 1878, and all letters, papers, and documents in your possession or power relating to said selection * application by Thomas Broughton, to purchase under pre-emptive * Document mutilated. right 640 acres on Muttama Station, on north bank of Muttama Creek, dated 17th June, 1864, and all papers, letters, and documents in your possession or power relating to said application.

And the copy which shall be served upon you of this writ; and this you shall by no means omit, under the penalty of £100.

Witness.—the Honorable Sir James Martin, Knight, Chief Justice of our said Court, at Sydney, the 14th day of December, in the forty-sixth year of our Reign, A.D. 1882.

For the Prothonotary,

T. E. MURPHY,

Fourth Clerk of the Supreme Court.

JOHN McLAUGHLIN, Attorney for the Defendant.

No. 92.

Receipts for Exhibits from Supreme Court.

Broughton v. Vincent.

THE following papers, plans, &c., have been received by me as exhibits in the above cause:—

Application for conditional purchase by George Vincent, dated 22nd August, 1878, at Gundagai Crown Lands Office.

Declaration as to improvements as the above, said declaration being dated 23rd August, 1881.

Directions from Deputy Surveyor-General to Mr. Surveyor Evans, ordering him to survey land for Mr. Broughton. Directions dated 21st August, 1873.

Plan of portion 193, parish of Mooney Mooney, county of Harden.

Maps of parish of Mooney Mooney, county of Harden.

J. W. MARTIN,

Clerk of Nisi Prius.

Supreme Court, Sydney, 8th March, 1883.

No. 93.

Mr. G. Vincent to The Under Secretary for Lands.

Sir,

Sydney, 9 March, 1883.

I have the honor to bring under your notice the fact that the land, 640 acres, parish of Mooney Mooney, selected by me on the 22nd August, 1878, at the Land Office, Gundagai, has been declared, by a decision of the Supreme Court, to have contained, at the date of selection by me, improvements to the value of £40, and to have been a measured portion; and consequently, my selection of the whole area has been held bad.

Inasmuch as your department has represented, since the period I selected, that the land was available for selection, and after full inquiry into the matter by Mr. Secretary Hoskins, my selection was declared valid, and I was informed that I might proceed with my improvements, which I accordingly did. When my improvements were completed, the lessee of the run, Mr. Thomas Broughton, commenced an action against me for trespass, to test the validity of my selection; and a verdict has been given in his favour, upon the grounds above-mentioned. The case is a very hard one for me, as I have lost the three years during which I was compelled to reside upon the land; and having relied upon the fact that the department would not take money and allow me to reside upon and improve land which was not open to selection.

I have, therefore, to ask that you will be good enough to refund me my deposit, with interest thereon from the date of payment, and also the sums I have paid for interest since the year 1881, together with a reasonable sum as compensation for the value of my improvements, and the time lost by me in performing the residence conditions, and the amount of law costs I have incurred. The latter amount I am not yet aware of, as the costs will have to be taxed by the proper officer. But, pending the consideration of my claim, I shall be thankful if you will return at once the cash I have paid into the Treasury as deposit and interest.

I have, &c.,

GEORGE VINCENT.

Address—Care of Messrs. Gannon and McLaughlin, solicitors, Sydney.

Special.—A.O.M., 12.

181—E

No. 94.

No. 94.

Mr. T. Broughton to The Secretary for Lands.

Sir,

"Bradley Hall," near Paddington, 27 April, 1883.

With reference to my application of 17 June, 1864, to purchase 640 acres of land upon my leased run, Muttama. And to all correspondence on the subject.

I have the honor of stating that the Honorable James Hoskins, late Minister for Lands, did make Return to the Legislative Assembly, on motion by Mr. Barbour, "that the 640 acres of land" as above, "were in course of being conveyed" to me. But subsequently "from pressure without, he was constrained to review the decision of his predecessor in office, and to revise all proceedings," and to decide in favour of Mr. George Vincent getting the said 640 acres of land.

I have the honor to state that I have only the choice of one or two evils—either submit to the loss of the land with its improvements, or have the case tried in the Supreme Court. I herewith submit a certificate by the Prothonotary of the Supreme Court of the result of such trial.

I have the honor to state that the land having been valued, and all obstacles removed which might interfere with the completion of my purchase, &c., &c., I have the honor, therefore, to request that no further delay may take place, but that the last remaining steps may be at once taken to enable me to complete the purchase of this 640 acres of land.

I have, &c.,

THOMAS BROUGHTON.

Special—C.O., 30/4/83. E.B., 1/5/4.

Urgent, 27. Conditional purchase 78-257, Gundagai. The conditional purchase by George Vincent of portion 193, parish of Mooney Mooney, which was declared void on the 23rd October, 1878, but reinstated by desire of Mr. Secretary Hoskins in May, 1881, has formed the subject of an action in the Supreme Court, and of a verdict adverse to the conditional purchaser. Mr. McLaughlin, of Gannon and McLaughlin, the attorneys of the conditional purchaser, has called upon me to request refund of the deposit money and interest which has been paid in respect of the conditional purchase, and I submit that refund be authorised.—A.O.M., 21/6/83.

Approved.—J.S.F., 26/6/83. Gannon and McLaughlin with refund order. Agent and Treasury informed, 30/6/83.

[Enclosure.]

In the Supreme Court of New South Wales.

No. 2,179—A.D. 1883.

Between Thomas Broughton, plaintiff, and George Vincent, defendant.

I, FREDERICK CHAPMAN, Prothonotary of the Supreme Court of New South Wales, do hereby certify that a verdict was obtained in this action on the eighth day of March, in the year of our Lord one thousand eight hundred and eighty-three, by the plaintiff for forty shillings.

FRED. CHAPMAN,

Prothonotary.

No. 95.

Mr. J. McLaughlin to The Chief Commissioner.

Sir,

Temple Court, Sydney, 27 June, 1883.

I have the honor to request that you will forward to me, as promised, a refund voucher for the amount of deposit, interest, and instalments paid by George Vincent on his selection of 640 acres on Muttama Creek, known as portion 93, taken up by him at Gundagai on 22nd August, 1878. The selection was declared forfeited by the Supreme Court during last sittings, in an action brought by Mr. Broughton, the Crown lessee, against Mr. Vincent, and as the result of the action has nearly ruined Mr. Vincent, and the plaintiff is threatening to issue execution for his costs, your early attention will greatly oblige.

I have, &c.,

JOHN McLAUGHLIN

(Pro R.C.)

No. 96.

Application to Mr. J. Balfour.

K.

[Occupation Act, 1861, Lands Acts Amendment Act, 1875, and Lands Acts Further Amendment Act, 1880.]

To be used in claiming to lease adjoining lands under pre-emptive right.

District of Gundagai.

RECEIVED this 8th day of July, 1883, at 10 o'clock, together with the sum of £1.

CHAS. W. WEEKES,

Land Agent.

Sir,

Muttama, 8 July, 1883.

In pursuance of the provisions of the Crown Lands Occupation Act of 1861, the Lands Acts Amendment Act 1875, and the Lands Acts Further Amendment Act of 1880, and Regulations thereunder, I, James Balfour, do hereby apply to be allowed to lease the sections or portion of Crown lands, hereunder described, at the fixed rent of £2 per section, which I hereby tender.

The land in virtue of which I claim to exercise a right of pre-emption is situated as follows, and is now in my possession, viz.:—County of Harden, parish of Mooney Mooney, containing 267 acres, being condition purchase on the 24th day of January, 1878, by Alexander Armstrong at Gundagai, and transferred to me.

I am, &c.,

JAMES BALFOUR

(Per R. J. SMITH, Agent).

To the Land Agent for the District of Gundagai.

Description of the sections or portion applied for:—

Six hundred and forty acres, county of Harden, parish Mooney Mooney, adjoining the conditional purchase above mentioned, and being a measured portion, lately a conditional purchase by G. Vincent, and now void. 83-712 Chs.

—*—

Pre-lease

Pre-lease application, No. 83-6, district of Gundagai.

The enclosed pre-lease application is forwarded to Mr. Brown for the following purposes:—

1. In order that its number may be quoted against each of the conditional purchases in virtue of which it has been made.
2. That particulars, as indicated by the headings of the columns of the following Schedule, may be furnished of the conditional purchases.
3. That the number of any prior lease application made in virtue of any of the purchases may be stated.
4. That the selections may be classified according to series or groups.
5. That there may be furnished a copy of the application relating to any of the conditional purchases not yet measured.

H.F.F., 24/7/83.

SCHEDULE.

No. of conditional purchase, 78-24; section under which made, 13; area, 267 acres; present holder and date of transfer, James Balfour, 12/2/83, 83-6, 817 D; state of conditional purchase, correct; catalogue No. of plan, or registration number of Surveyor's report, H. 4,103-1,716; number of previous lease applications, L.A. 79-1,657.

No. 97.

Mr. F. W. Rutter to The Under Secretary for Lands.

Sir,

28 July, 1883.

I beg on behalf of Mr. Thos. Broughton, of Muttama, to request the cancellation of the pre-lease, noted in the margin, on account of its being improved land, and claimed by my client, who about twenty years since applied for the land in question under the "Orders in Council," and measured accordingly as portion 193, in virtue of Muttama Run. Some years ago, one George Vincent applied, under conditional purchase, for this land, and in response to my objection to his purchase I was informed that that purchase would be refused.

Pre-lease 83-6,
Gundagai, Jas.
Balfour, parish
Mooney Mooney,
county of
Harden.

Then Mr. Barbour moved for a return of the lands taken up by my client under the "Orders" referred to, and in the return furnished this land was included, presumably by Mr. Hoskins' orders, who, however, since decided that Vincent should have the land, thus acting in direct opposition to the decision of the present Secretary for Lands. My client had, therefore, to assert his right in the Supreme Court, much against his inclinations, and that Court ousted Vincent, whose application was declared void, as stated in the pre-lease application of which the applicant is evidently aware. The conditional purchase papers will, I presume, disclose this fact of improvement of the land. The year in which it was made was 1876, at Gundagia.

Yours, &c.,

FRED. WILLIAM RUTTER.

The Crown Lands Agent, Gundagai, for correct particulars of the purchase, in virtue of which the enclosed application (82-6) has been made.—H.C. (*pro* U.S.), B.C., Lands Department, 3/8/83. The date of selection should be 24/1/78.—C.H.W., C.L.A., Gundagai, 9/8/83.

Mr. Curry,—The land applied for is measured portion No. 193, parish Mooney Mooney, county Harden, which, according to plan, has been conditionally purchased by G. Vincent by conditional purchase 78-257, 640 acres. The improvements at date of survey were valued at £20, but, according to the notation on the plan, the conditional purchase was re-established after having been either forfeited or voided by Conditional Sales 81-16,284. This being the last action on the plan, reference should, perhaps, be made to Conditional Sales Branch as to state of conditional purchase and value of improvements.—J.B., 24/9/83.

Conditional Sales Branch for papers in the case.—H.C., 26/9/83.

From Conditional Sales 82-26,395 (Departmental) it seems the selector improved the land. Leasehold area 83-6 may be refused, as the land has been improved. The writer may be informed.—H.C., 19/12/83.

F.H.W., 20/12/83. C.O., 20/12/83. Approved.—J.S.F., 24/12/83.

3,803. Treasury to refund on leasehold 83-6, Gundagai, £1. Agent, applicant, and Thos. Broughton, care of F. W. Rutter, informed, 28/12/83. Misc. Branch.—W.H.H., 28/12/83.

No. 98.

The Manager, Bank of New South Wales, Gundagai, to The Chief Commissioner.

Sir,

Bank of New South Wales, Gundagai, 8th August, 1883.

I have been informed by the Local Crown Lands Agent that 640 acres of land, parish of Mooney Mooney, county of Harden, selected by George Vincent, on the 22nd August, 1878, and transferred by him to the Bank of New South Wales, has been declared void.

Will you, therefore, kindly forward me a refund voucher for the deposit (£160), also voucher for the three years' interest paid thereon (£96).

An early reply will oblige.

I have, &c.,

MAC. W. TURNER,

Manager.

No. 99.

Mr. F. Pinkstone to B. Smith, Esq., M.P.

Sir,

Cootamundra, 24 August, 1883.

Having visited Muttama this week, I was requested to ask you to try and get the cancelled conditional purchase mentioned in the margin hereof included within the village reserve as suburban land.

It may be pointed out that the land will realise far more to the Government if this course is taken with reference to it than if it is sold in a block or selected.

This letter might be placed before the Minister for Lands as the application, but I write to you in pursuance of promise.

I am, &c.,

FRED. PINKSTONE.

Dear Sir,—I shall be glad if you will give the question herein your consideration, and let me know as soon as convenient what you can do in the matter.—Yours, &c., BRUCE SMITH, 30/8/83. For report of Survey Office.—J.B.D. (*pro* J. G. BLAXLAND), 14/9/83. Mr. G. Lewis, 82-7,126, Lands.

Cancelled C.P.;
George Vincent;
No. 193; 640
acres.

No. 100.

August, 1878.
G. Vincent.

I have the honor to refer you to my letter to the Under Secretary for Lands, dated 9th March last, asking for a refund of the deposit and interest paid by me on my conditional purchase, noted in the margin; and to request that you will be good enough to refund me the undermentioned sums paid by me for improvements on my said selection, and for law costs incurred in defending my claim thereto; together with a reasonable sum as compensation for the time lost by me in performing the residence conditions:—

	£	s.	d.
The improvements effected by me on the land were as follows:—			
Two-roomed bark hut	8	0	0
Brush fence round 5-acre paddock	10	0	0
House—five-rooms, sawn timber and iron, cedar doors, windows and fittings.....	300	0	0
Well, 63 feet deep	60	0	0
Two acres cleared and stumped	9	0	0
Three-quarter mile deadwood fence, sheep and cattle proof.....	31	0	0
Half-mile two-log fence.....	10	0	0
Three-quarter mile dividing fence on southern boundary.....	23	0	0
Outhouse	5	0	0
	£456	0	0
The law costs incurred by me are as follows:—			
My costs of defence in action, Broughton v. Vincent	275	8	3
Amount paid by me to witnesses.....	149	19	0
Plaintiffs costs as taxed—Broughton v. Vincent	211	13	11
	£637	1	2

This makes a total of £1,093 ls. 2d., being the loss sustained by me in consequence of the Supreme Court deciding that the land was not open to selection in consequence of it being a measured portion, containing more than £40 worth of improvements, although I received letters from the department informing me that the Minister had decided in my favour, and informing me that I might proceed with my improvements.

In conclusion, I beg to ask that you will be good enough to place on the estimates for 1884, a sum of money to meet the above loss to me.

I have, &c.,

GEORGE VINCENT.

No. 101.

Memo. by Mr. Stobo.

A CLAIM for compensation is made by Mr. George Vincent for expenses incurred by him in connection with a conditional purchase, taken up by him at Gundagai on 22nd August, 1878, of 640 acres, in the parish of Mooney Mooney, and county of Harden.

Vincent's application for the conditional purchase was declared void on the 23rd October, 1878, on the ground that the land applied for was legally contracted to be alienated to Mr. Thomas Broughton, under the 7th clause of the Crown Lands Alienation Act of 1861, as a pre-emptive purchase.

Vincent protested against the voidance, and it being found on investigation by the Secretary for Lands, Mr. Hoskins, that no such contract to sell to Mr. Broughton existed, the voidance was revoked on 14th June, 1881.

After that Broughton commenced an action against Vincent for trespass, which came on in the Supreme Court on 8th March, 1883, and Broughton obtained a verdict for 40s. damages on the ground that the land applied for was a measured portion improved to the value of £40 at date of selection.

The case was decided entirely on that point, and no claim was made in the court to a verdict on the ground that the land was under contract to be sold to Mr. Broughton.

In Vincent's letter, claiming compensation for the loss of the selection and for the costs of the action, &c., he states that he was informed when the reversal of voidance took place that "he might proceed with his improvements." No such intimation, so far as I can discover, ever issued from this department to Vincent, nor was any such intimation ever ordered or authorised to be made.

E.H.S., 4/2/84.

At Vincent's request a voucher for the refund of his deposit money has been issued to him.—E.H.S.

The land appears to have been barred from conditional purchase by the improvements thereon, the property of the lessee, which is a point that was never before the department, and as their existence must, or should have been known to Mr. Vincent when he selected the land, under statute he has no claim for compensation. The action of the department did not in any way bear upon the Supreme Court action.—C.O., 6/2/84.

Approved.—J.S.F., 6/2/84. Messrs. Gannon and McLaughlin (for Vincent) informed, 15/2/84.

No. 102.

The Under Secretary for Lands to Messrs. Gannon and McLaughlin.

Gentlemen,

Department of Lands, Sydney, 15 February, 1884.

With reference to your letter of the 30th December last, addressed to the Colonial Secretary, and enclosing an application made by Mr. George Vincent, for compensation for law costs and other expenses incurred by him in connection with an action in the Supreme Court between Mr. T. Broughton and himself as to certain land in the parish of Mooney Mooney, county of Harden, applied for by Mr. Vincent as a conditional purchase on the 22nd August, 1878, I am directed by the Secretary for Lands to inform you that the land in question appears to have been barred from conditional purchase by the improvements thereon, the property of the licensee, which is a point that was never before the department, and as existence must, or should have been known to Mr. Vincent when he selected the land, under statute, he has no claim for compensation.

(2.) I am to add that the action * of the department in connection with the conditional * Word illegible. purchase did not in any way bear upon the Supreme Court action.

I have, &c.,

CHARLES OLIVER,

Under Secretary.

No. 103.

The Manager, Bank of New South Wales, Gundagai, to The Chief Commissioner.

Sir,

Bank of New South Wales, Gundagai, 16 May, 1884.

On the 8th August, 1883, I wrote asking you to kindly forward me refund vouchers for deposit, £160, and three years' interest, £96, due on a conditional purchase (as per marginal notes) of George Vincent's, transferred by him to this bank, and afterwards declared void.

As I have not to this date been favoured with any reply to the above letter, I shall feel obliged by your making inquiries why it is I am not furnished with the documents applied for.

I have, &c.,

MAC. W. TURNER,

Manager.

No. 105.

T. Jones, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 10 February, 1886.

I have the honor, on behalf of Mr. George Vincent, to bring the following facts before your notice, with the object of having the selection, shown on margin, validated under the 138th section of the Land Act of 1884. Nearly two years after he had fulfilled all the conditions of the amended Act of 1875, and made his declaration, the lessee of Muttama Run, Mr. Thos. Broughton, brought an action of trespass against him in the Supreme Court, Sydney, on the plea that the land being a measured portion improved to the extent of £40 was not open to selection. The case was tried in Sydney, on the 8th of March, 1883, resulting in a verdict against the selector for 40s. and costs, which amounted to £211 14s. 3d. The Judge ruling (as was decided by a previous case) that a measured portion improved to £40 (as this portion was) could not be selected. The lessee then took possession of the land, and further improved it by erecting a roadside fence. Vincent was obliged to clear off the selection, after having exhausted all his means in defending the action, and was not in a position to pay the costs.

Seeing that the present Land Act gives power to validate the selection, I beg to request that you will justly exercise the power given by law, in reinstating the selector on the land he has been so unjustly removed from, and robbed of his improvements, amounting to over £300, by a mere defect in the late Land Act.

Trusting that you may see the justice of complying with my request,

I have, &c.,

TRAVERS JONES.

Gundagai : C.P.
78-257 : 640
acres : 22nd
August, 1878 :
G. Vincent.

No. 106.

Memo. by Mr. Capper.

CONDITIONAL purchase 78-257, Gundagai, 640 acres, selected by George Vincent, 22nd August, 1878; transferred to Bank of New South Wales, 16th September, 1881.

The facts of this case are briefly set out in *précis* of 4th February, 1884, on 84-986 Mines, upon which Mr. Secretary Farnell decided that as the land was barred from conditional purchase by the improvements thereon, the property of the lessee, and as their existence must, or should have been known by Vincent when he selected, he had no claim for compensation.

A letter has now been received from Mr. Travers Jones, asking that the conditional purchase be validated under the 138th section of the Act of 1884.

It is, however, submitted that the 138th section does not apply in a case of this kind, the conditional purchase having been finally disposed of in a lawful manner, it having been declared void on 30th June, 1883, on account of improvements sufficient to bar selection.

W.H.C., 25/5/87.

F.H.W.,—S.F., 25/5/87.

No. 107.

T. Jones, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 21 July, 1887.

I have the honor on behalf of George Vincent to bring the following facts before your notice, with the object of having the selection shown on margin validated under the 138th section of the Land Act of 1884. Nearly two years after he had fulfilled all the conditions of the amended Act of 1875, and made his declaration, the lessee of Mutluma Run, Mr. Thomas Broughton, brought an action of trespass against Vincent in the Supreme Court, on the plea that the land being a measured portion improved to the extent of £40 was not open to selection. The case was tried in Sydney on the 8th of March, 1883, resulting in a verdict against the selector for £2 and costs, which amounted to £211 14s. 3d., the Judge ruling (as was decided by a previous case) that a measured portion improved to £40 could not be selected.

The lessee immediately afterwards cleared Vincent off the selection and took possession of it, and further improved it by erecting a road-side fence.

The verdict completely ruined the selector, and he was not in a position to pay the costs or further fight the case.

Notwithstanding the verdict given by the jury that £40 of improvements were on the land when selected, from personal observation, with many other reliable witnesses, the day after the selection was made, I can positively state that there was only 1 mile and forty panel of fencing erected, which certainly was not an improvement in the true sense of the word, as the fence consisted only of posts and top-rail, without being wired, that stock could go in and out through without any difficulty; and, furthermore, the fence was not complete at either end to make a paddock of it, so that stock could go through and round the fence.

From the above facts, that can be proved on most reliable witnesses, if necessary, I have the honor to request that you will fairly and justly exercise the power given by law (as was expressed so very recently in validating certain mineral selections on coal lands), by validating and reinstating the selector, George Vincent, on the land he has been so unjustly removed from, and robbed of his improvements, amounting to over £300, by a mere defect in the Land Act, that he is not responsible for.

Trusting that you may see the justice of complying with my request,

I have, &c.,

TRAVERS JONES.

Let me have the papers, with a submission on the proposal made herein.—T.G., 22/7/87. Mr. Capper. See covering minute, dated 26th instant (No. 108).—W.H.C., 26/7/87.

No. 108.

Memo. by Mr. Capper.

Conditional purchase 78-257, Gundagai—George Vincent.

26 July, 1887.

On the 22nd August, 1878, by conditional purchase 78-257, George Vincent applied for 640 acres of land, in the parish of Mooney Mooney, for 193 (originally portion 93), and on 20th September, 1878, it was protested against by Mr. A. G. Blomfield, for Mr. Thomas Broughton, on the grounds that the land in question had been held under pre-emptive right by Mr. Broughton, who had applied to purchase same by virtue of improvements prior to date of Vincent's application. Upon these grounds the conditional purchase was declared void on 23rd October, 1878; but it afterwards being found that there was no evidence in the papers to show that Mr. Broughton ever did apply for this portion under his pre-emptive right, Mr. Secretary Hoskins decided that the conditional purchase was erroneously voided, and the voidance was consequently revoked on 14th June, 1881.

Mr. Broughton then brought an action in the Supreme Court against Vincent for trespass, and obtained a verdict of 40s., damages and costs, not on the grounds that the land was under contract to be sold to Mr. Broughton, but on account of the portion being sufficiently improved to bar selection at date of application.

Vincent then put in a claim against the department for compensation, and on the 6th February, 1884, the following minute was made by the Under Secretary, and approved by the Minister, Mr. Secretary Farnell:—"The land appears to have been barred from conditional purchase by the improvements thereon, the property of the lessee, which is a point that was never before the department, and as their existence must, or should have been known to Mr. Vincent when he selected the land, under statute he

Gundagai,
C.P. 78-257,
640 acres;
22 Aug., 1878;
Geo. Vincent.

he has no claim for compensation. The action of the department did not in any way bear upon the Supreme Court action." The conditional purchase was consequently again declared void on 30th June, 1883.

In February, 1886 (849 Cor.), a letter was received from Mr. Travers Jones, M.P., asking that the conditional purchase be validated under the 138th section of the Act of 1884. A further letter to the same effect, dated 21st instant, has been received from Mr. Jones, in which he states that from personal observation, with many other reliable witnesses, the day after selection he could positively state that, notwithstanding the verdict given by the jury, there was not £40 worth of improvements upon the land at date of selection.

The claim to resuscitate the purchase under the 138th section of the Act of 1884 can hardly be considered, as, if the land was unimproved at date of selection, it requires no validation, as the application was good, and if the land was improved to the value of over £40, Vincent has no claim to it. If, however, the assertions made by Mr. Jones, M.P., in his letter of 21st instant, are substantiated, it is thought that Vincent's claim is good.

The portion in question was applied for by Mr. Thomas Broughton as an improvement purchase, on 20th December, 1884, No. 84-23.

This application, however, has not yet been dealt with.

W.H.C.

Submitted that the case cannot be reopened.—S.F., 26/7/87. The case will not be reopened by this department in any way.—T.G., 27/7/87. T. Jones, M.P., informed, 29/8/87.

No. 109.

Mr. F. A. Brock to The Under Secretary for Lands.

Sir, 8, Norwich Chambers, Hunter-street, Sydney, 10 January, 1890.

I have the honor to lay before you the following case, which I trust will receive your favourable consideration.

On the 22nd August, 1878, a conditional purchase of 640 acres was taken up in the parish of Mooney Mooney, county of Harden, by one George Vincent. On the 20th September, 1878, it was protested against by Mr. Thos. Broughton, on the ground that the land had been held under pre-emptive right by him, and he had applied to purchase in virtue of improvements. The conditional purchase was declared void on the 23rd October, 1878, but it was afterwards found that there was no evidence to show that Mr. Broughton ever did apply for this land under his pre-emptive right, and Mr. Hoskins, then Minister for Lands, decided that the conditional purchase was erroneously voided, and the voidance was revoked on the 14th June, 1881. Action was then brought by Mr. Broughton, who got a verdict in the Supreme Court.

The conditional purchase was again declared void on the 30th June, 1883, the land being barred by improvements. In February, 1886, Mr. Jones asked that the conditional purchase be validated, and stated that from personal observation the land was not improved to the extent of £40. The claim was then refused—then Mr. Broughton on the 20th December, 1884, applied to purchase in virtue of improvements, and this was refused.

George Vincent resided five years on this 640 acres, he paid his deposit and interest for three years, declarations were made, and the improvements passed by Mr. Inspector Spring. Possession has been held by Vincent up to the present time. About five years ago the land was embraced in the leasehold area of Muttama Run, which lease will expire in July, and then the land would be open to conditional purchase; therefore, it would appear that the man who has spent all his money on it, and lived there so many years, is entitled to consideration and has a prior claim.

I have, &c.,

F. ANNGIER BROCK.

Mr. Capper,—W.H., 10/1/90.

Mr. de Low,—How does improvement purchase 84-23, 640 acres, Gundagai, stand?—W.H.C., 13/1/90. Improvement purchase 84-23, Gundagai, stands noted "refused 18th August, 1887, as the land is not improved to the extent of £1 per acre by applicant—Mis. 87-10,354."—J.G.M., 13/1/90.

Mr. M'Ninn,—Is portion 193, parish of Mooney Mooney, county Harden, within the leasehold area of Muttama Run?—W.H.C., 13/1/90. Within the leasehold area of Muttama Holding No. 239, Eastern Division.—A.B.M., 13/1/90. Mr. Capper.

No. 110.

Memo. by Mr. Capper.

George Vincent, Gundagai, conditional purchase 78-257, 640 acres—void.

15 January, 1890.

The facts of this case are fully set out in *précis* of 26th July, 1887, C.S. 87-26,385 Dep., and the I.P. application 84-23 mentioned in the last paragraph was refused 18th August, 1887, as "the land was not improved to the extent of £1 per acre by the applicant (Thomas Broughton)." The *précis* was prepared on an application being made to have the conditional purchase validated under the provision of section 138 of the Act of 1884, but Mr. Secretary Garrett decided that the case should not be re-opened by the department in any way.

Mr. F. A. Brock, now makes a further application on behalf of the selector, and he asserts that Vincent lived on the land for five years and has fully improved it, and also has held possession up to the present time; Mr. Brock also points out that as the land is situated within the leasehold area of Muttama Holding, the land will be again open to selection when the lease expires, and under the circumstances of the case he contends that his client is entitled to some consideration, and has a prior claim to the land.

W.H.C.

F.H.W., 17/1/90. In view of the facts set forth on 87-26,388 Dep. and other papers, the case (as previously decided by Mr. Secretary Garrett) should not be re-opened.—W.H., 21/1/90. Approved.—J.W.B., 24/1/90. Mr. Brock informed.—H.T., 7/2/90.

No. 111.

The Under Secretary for Lands to Mr. F. A. Brock.

Sir,

Lands Department, Sydney, 7 February, 1890.

With reference to your letter of the 10th ultimo, relative to the voidance of the conditional purchase noted in the margin, I am directed by the Secretary for Lands to inform you that the case cannot be re-opened.

I have, &c.,

W. H. CAPPER

(For the Under Secretary).

General
C.P. 75-257
George Vincent.

No. 112.

Mr. T. Broughton to The Secretary for Lands.

Sir,

219, Broughton-street, Paddington, 29 March, 1890.

(1.) With reference to my application of the 16th June, 1864, claiming to be entitled to purchase, under the Orders of the Privy Council, and by virtue of the 7th clause of the Crown Lands Act of 1861, 640 acres of land, part of my licensed run in the Lachlan District, and to all correspondence in connection therewith.

(2.) I have the honor to state, as briefly as possible, that at the time of my application, my neighbour, Mr. Dallas, of Brawlan Run, disputed my right to the land applied for, and the matter was referred to arbitration, and eventually settled in my favour. But whilst the arbitration was pending instructions were given to the Crown Lands Agent at Gundagai to withhold the said portion of land from conditional sale; but notwithstanding such instructions the Crown Lands Agent did permit 440 acres of the said land to be conditionally purchased, and the residue was submitted to public auction.

(3.) That with reference to the conditional purchase land, it being improved, I did not insist to dispossess the selectors of the land or their improvements, provided the Crown would permit me to renew my application for the said 640 acres on the same side of Muttama Creek, and close to the land which I had been deprived of, and to this arrangement the Government willingly assented, for the simple reason that without any fault of mine I was deprived of my undisputable right to the land, by the unintentional acts of the officers of the Government; and as there were at that time abundance of Crown lands vacant, it could not and did not interfere with any person's right, until opportunity offered of levying blackmail upon me.

(4.) That acting under the advice of the then Minister for Lands, I renewed my application for 610 acres of land at Muttama Creek, in lieu of the 640 acres I was deprived of, and in reply to my application I received the letter dated 29th April, 1872. At the same time Mr. Licensed-Surveyor Evans was instructed to measure for me 640 acres of land, and on the 9th June, 1875, reported that he had surveyed 610 acres in the parish of Mooney Mooney, county of Harden, applied for as pre-emptive purchase, under section 7 of the Crown Lands Act of 1861.

(5.) That I then commenced to fence the said land with top-rail and five wires, and had fenced along the western side of the road, and from thence on the south and north boundaries to the creek.

(6.) That on the 3rd of April, 1879, Mr. Dudley Keele, with my consent, was appointed sole appraiser to value the land, and on the 20th April, 1879, Mr. D. Keele furnished his report, valuing the said land at 25s. per acre. That on the 22nd of August, 1878, Mr. George Vincent conditionally purchased the land surveyed for me.

(7.) That through my agent, Mr. Blomfield, I protested against Mr. Vincent's selection, and the then Minister for Lands, Mr. Farnell, cancelled the said selection, on the grounds that the land was in course of being conveyed to Mr. Broughton.

(8.) That Mr. James Hoskins succeeded the late Mr. Farnell in office as Minister for Lands, and he thought fit for the reasons stated in minute of 22nd April, 1881, to revoke the decision arrived at by Mr. Farnell, and to pronounce Mr. Vincent as the lawful owner of the said 640 acres, and at the same time stating "that he (Mr. Hoskins) had no objection that Mr. Broughton should be allowed" under his pre-emptive right to 610 acres if available, thereby admitting my right to 640 acres, notwithstanding the reasons given in his minute.

(9.) That I was, in the year 1864, an applicant entitled to two portions of land, the one above stated, and another in the same locality, and on the same creek, of 160 acres, and of this latter 160 acres the Government desired to make it a water reserve, and with a desire to fall in with the views of the Government, I consented to forego my claims to the land conditionally purchased, and also the second application for 160 acres, in consideration of 640 acres, and to include Billingsley's forfeited 120 acres, my meaning was that I should get 640 acres, as applied for; and in lieu of the 160 acres, I should get Billingsley's 120 acres, not to form part of the 640 acres, but distinct from that, and to include two portions, and so far as the Government were concerned, they did not carry out their arrangement with reference to granting me any pre-emptive right to any portion of the land that did belong to Billingsley; and on two occasions Mr. Hoskins prosecuted me at the Police Court, at Cootamundra, for improving and fencing the said 160 acres applied for by me.

(10.) Mr. Hoskins employed counsel, and sent surveyors and witness from Sydney against me, and then he was defeated, and as a last resource to satisfy his political friends, he directed the police to cut down my fence at the said 160 acres, and encouraged by these proceedings some other person or persons set fire to and burned to the ground a house on the said land, which cost me over £150. I should not have referred to this matter only in explanation of Mr. Hoskins' minute.

(11.) I have the honor to refer to the minute of Mr. Deputy Surveyor-General R. D. Fitzgerald, of March, 1881, who dealt fully with the matter.

(12.) That Mr. Barbour, in his place in the Legislative Assembly, moved for a return of all land granted under pre-emptive right to Thomas Broughton out of Muttama Run, and Mr. Hoskins then being Secretary for Lands, made the return, in which it is stated that the identical 640 acres of land was in course of conveyance to Mr. Broughton, that he had not exercised his right within 2,348 acres of what he was entitled, and yet in the face of his own return Mr. Hoskins took upon himself to revoke the deliberate decision arrived at by his predecessor in office as Minister for Lands, the late Mr. Farnell, and then confirmed Mr. Vincent's conditional purchase of my 640 acres.

(13.)

(13.) That I was then in self-defence constrained to commence proceedings in the Supreme Court to prove that I had a better claim to the said land (640 acres) than Mr. Vincent had, and the jury found their verdict in my favour. The certificate of the Court has been furnished to the Lands Department, but up to the present Mr. Vincent has not paid the law expenses of the said action.

(14.) I have the honor to state that the Minister for Lands was not justified by law in depriving me of my legal right to the land in question, for the right was granted to me in virtue of my lease held under the Orders of the Lords in Privy Council, and subsequently confirmed by the Lands Act, 1861, clause 7. In my opinion it was an assumption of power that the Minister for Lands did not possess to deprive me of the said land.

I have the honor, therefore, to request that you will do me the justice to re-open the consideration of my just claim to the 640 acres applied for, at your earliest convenience, and prevent greater vexatious complications which might shortly occur.

(15.) I have the honor to state that I do, with the utmost confidence, rely upon your well-known honorable and upright decisions in all matters connected with your honorable office, to do me justice, and I expect nothing more.

I have, &c.,

THOMAS BROUGHTON.

No. 113.

Memo. by Mr. Bronsdon.

T. Broughton's claim to portion 193, parish of Mooney Mooney, in virtue of an application under 7th section of the Act of 1861.

THE facts of this case prior to 1881 are set forth in the Surveyor-General's report of 15th March, 1881, on papers C.S. 81-9,833, and the minute of 22nd April thereon by Mr. Secretary Hoskins (C.S. 81-16,284), in which he decided that the sale of portion 193 to T. Broughton, in virtue of his application under 7th section (Act 1861), could not be proceeded with, and that Vincent's conditional purchase application 78-257, which had previously been declared void, must be re-established.

It appears from Ms. 83-7,271 that Broughton subsequently entered an action for trespass against Vincent, and secured a verdict, and in C.S. 83-1,912 it is stated by Vincent, through Messrs. Gannon and McLaughlin, solicitors, that the reason of the verdict being given was that the portion contained improvements to the value of £40, and was therefore not open to conditional purchase.

In consequence of this verdict, Vincent applied for and obtained a refund of his deposit (Ms. 83-7,271).

He also applied for compensation for his improvements, which he valued at £456 (C.S. 84-135), but this was not granted.

Subsequently Broughton made application for the portion in virtue of his improvements (No. 84-23), but this application was refused as the land was not improved to the extent of £1 per acre. (C.S. 90-109 Cir.)

Broughton now asks that the decision given by Mr. Secretary Hoskins may be reversed, with a view to his application under 7th section of the Act of 1861 being proceeded with.

With regard to paragraph No. 4 of this letter, it may be pointed out that portion 33 of 160 acres, parish of Cowcumbala, was measured in part satisfaction of the application of 17th June, 1864, for 640 acres, and portion 193, parish of Mooney Mooney, of 640 acres, was measured to satisfy the remaining 480 acres of application of 17th June, 1864, and the 160 acres applied for on 7th October, 1865, and 27th December, 1865. Neither of these portions have been actually sold.

With regard to paragraph 8, it will be seen that while Mr. Hoskins admitted the right to 640 acres, he decided that it must be taken in one block, and should include portion 33.

With regard to paragraph 9, papers Ms. 90-14,958, show that portion 33, which included the land previously covered by Billingsley's conditional purchase, was appraised by Mr. Keele, with a view to its sale to Mr. Broughton, but the case does not appear to have been further proceeded with.

With regard to paragraph 13, it may be remarked that the decision of the Supreme Court merely established Mr. Broughton's claim to the land as lessee, as against the conditional purchase, and does not in any way support his right to purchase.

The case is now submitted for decision.

6th June, 1890.

E.B.

The matter is resubmitted for further consideration in view of Mr. T. Broughton's letter of the 29th March last. It would appear that Mr. Broughton's claim to portion 33, parish of Cowcumbala, county Hardin, is good, and the sale might now be completed at the rate as appraised by Mr. D. Koelo on the 8th June, 1880, viz., £1 per acre.—W.H.C., 23/6/90.

No. 114.

Memo. by The Under Secretary for Lands.

THE details of this somewhat complicated case are fully set out on 81-9,833 and 81-16,284 C.S. herewith, and after a careful examination of the correspondence, it appears to me that the view taken by Mr. Secretary Hoskins' minute of the 22nd April, 1881, was technically correct. This is shortly, that Mr. Broughton, by virtue of his application of 16th June, 1864, was entitled to 640 acres, if it could be measured in conformity with the Regulations, to include Billingsley's additional conditional purchase, and that the preemptive right was thus exhausted, as the 7th section of the Act of 1861 enacted that the pastoral lessee was limited to the selection of only one block in each area of 25 square miles of the leasehold.

It is nevertheless evident that the department in 1872 (after the expiry of the pastoral lease) appear to have recognised Mr. Broughton's alleged claim to portion 193 of 640 acres, in addition to, or in virtue of (it is not clear which), the application before referred to, and caused the survey to be made as in satisfaction of the claim, following it in 1879 by the usual appraisal in such cases.

At this stage the matter seems to have stopped, apparently in consequence of the land having been selected by one Geo. Vincent, who was subsequently ousted by Mr. Broughton in the Supreme Court, it being proved that his application was invalid, as the land—a measured portion—at the date of Vincent's selection contained £40 worth of improvements.

The statements contained in Mr. Broughton's letter of the 29th March last, except in regard to the third paragraph—for which I see no direct authority in the papers—are substantially correct so far as the official records are concerned, and while Mr. Broughton might be unable to establish a clear legal right to the land included in portion 193, he was unquestionably led to believe by the action of the department in 1872, and up to 1883, that it would be alienated to him.

It is important, however, to notice that in 1884 Mr. Broughton applied for the same land in virtue of improvements.

His application was, however, refused.

Portion 33, which was measured to include Billingsley's additional conditional purchase before mentioned, is proposed to be set apart as a special area, but under the circumstances it might be advisable to defer the proclamation.

It is clear that Vincent has no claim whatever to the land included in portion 193 (640 acres), the application being invalid for the reason above given. The deposit was refunded to Vincent on the 23rd October, 1878.

The questions for consideration are whether the department is committed to the sale to Mr. Broughton of either portion 33 of 100 acres or portion 193 of 640 acres, in virtue of the application under the 7th section of the Act of 1861.

W.H., 15/7/90.

No. 115.

T. Jones, Esq., M.P., to The Secretary for Lands.

Dear Sir,

Legislative Assembly, 22 October, 1890.

I have the honor to inform you that I am requested by Mr. George Vincent to move in Parliament that a Select Committee be appointed to inquire into and report on his conditional purchase, noted in the margin.

Therefore, I beg to request that you will take no action in reference to Mr. Thos. Broughton's claim to the land until the case is dealt with by the Committee, which I intend to give notice of to-day.

I have, &c.,

TRIVERS JONES.

No. 116.

T. Jones, Esq., M.P., to The Secretary for Lands.

Legislative Assembly, 20 December, 1890.

24. Mr. JONES to move.—

(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon all the circumstances attending the conditional purchase made by one George Vincent, in the district at Gundagai, on the 22nd day of August, 1878, of 640 acres, parish of Mooney Mooney, county of Harden.

(2.) That such Committee consist of Mr. Brunner, Mr. Barnes, Mr. Ball, Mr. O'Sullivan, Mr. Cooke, Mr. Lakeman, Mr. Barbour, Mr. Gormly, Mr. McCourt, and Mover.

The Honorable J. N. Brunner, Secretary for Lands, Lands Department,—

Dear Sir,

I have the honor of calling your attention to the above attached motion, which I was unable to reach through the early closing of this Session of Parliament, and beg to inform you that it is my intention to replace the motion on the Business Paper immediately the House meets next Session. Therefore, I have to request that no action shall be taken in further dealing with this land until I have an opportunity of bringing the case before a Select Committee for inquiry and report.

Yours, &c.,

TRIVERS JONES.

It is presumed that this letter may be acknowledged, and Mr. T. Jones, M.P., informed that he will be acquainted of the intention to take any action during prorogation of Parliament.—W.H.C., 22/12/90.

May be so informed.—W.H., 23/12/90. Approved.—J.N.B., 23/12/90. Acknowledged, and Mr. Jones informed, 24/12/90.

No. 117.

The Under Secretary for Lands to T. Jones, Esq., M.P.

Sir,

Department of Lands, Sydney, 24 December, 1890.

I am directed by the Secretary for Lands to acknowledge receipt of your letter of the 20th instant, intimating your intention to replace your motion for appointment of a Select Committee in connection with the conditional purchase, quoted in the margin, on the Business Paper immediately Parliament meets next Session, and to inform you that you will be advised of the intention of this department to take any action in this matter during the recess.

I have, &c.,

WM. HOUSTON,
Under Secretary

No. 1.

G. White, Esq., to The Minister for Mines.

42, Margaret-street, Sydney, 9 December, 1889.

I HAVE discovered that a hemp called Sisal hemp can be produced in New South Wales.

Sisal hemp is the product of a Mexican agave, called the *Agave potatorum* of which three specimens are at present growing in the Sydney Botanical Gardens. They are in a most vigorous, thriving condition; and, favoured by the courtesy of Mr. Moore, I have extracted from them a hemp, which for strength, colour, and length, is in all respects fully equal to the hemp produced in Yucatan, Mexico; it is evident that the plant will grow freely in this Colony.

I sold, in 1866, the first 100 bales of Sisal hemp that were imported into Europe. The export commenced from Yucatan in that year; it has since developed into a trade of some 70,000 to 80,000 tons per annum, of a value of three to four millions sterling.

During the last fifteen years, since the introduction of the self-binding reaper, the demand for this hemp has largely increased; the hemp is used for rope and twine, and is also beginning to go largely into use for textile fabrics, matting, hand-bags, the backing of carpets, &c.

The plant grows in arid, sandy, rocky soil, which in this Colony is practically useless for any other productive purposes.

Will the Government aid me in starting and pushing this industry in New South Wales by a grant of land under conditions to be agreed on, or in any other way?

GEORGE WHITE,

42, Margaret-street, Sydney,
c/o Messrs. Harrison and Whiffen.

N.B.—I shall be pleased to call if the Minister should wish for an interview.

Submitted.—H.W., 9/12/89. Mr. White promised to call last Friday.—S.S., 3/1/90.

No. 2.

G. White, Esq., to The Secretary for Lands.

Re Land for the cultivation of Hemp and Fibre.

Sir,

42, Margaret-street, Sydney, 15 January, 1890.

Following up our conversation of yesterday, I now, on behalf of the gentlemen who are intending to cultivate on a large scale in this Colony certain aloes for the purpose of producing hemp and fibres, ask you to grant us, if it is possible for the Government of this Colony so to grant, or otherwise to lease to us on a long lease, at a nominal rental, the land requisite for that purpose. It

It may be well to put in writing what I have told you verbally as to this project: There are two aloes, the fibres of which are now recognised in the mercantile world as valuable and important articles of commerce; the one is the Magney, or *Agave potatorum*, which is largely grown in the province of Yucatan, in Mexico, for the purpose of producing what is known as Sisal hemp; the other is the *Fourcroya*, grown in the Mauritius, the product of which is the beautiful fibre known as the Mauritius aloe fibre. From specimen plants in the Sydney Botanical Gardens I have extracted both these fibres, and I find that on suitable ground both the plants will grow freely—like weeds—in New South Wales.

The ground that is requisite for both these plants is sterile, arid, sandy, rocky soil, of which there are large tracts in the Colony.

In order to ensure a commercial success for this venture, it will be necessary to plant on a large scale, as expensive machinery will be used for cleaning, which must be kept constantly going.

The gentlemen engaged in this enterprise confidently anticipate a commercial success, provided that certain conditions are observed, which are necessary to ensure that success; one of these conditions must be the obtaining of the needful ground at a nominal price.

I would suggest for your consideration that any exceptional action on the part of the Government to facilitate this enterprise, if exceptional action should be found to be necessary, would be more than amply justified for the following reasons, viz. :—

- (1.) That it is proposed to introduce into this Colony a new and thriving industry, which in the countries I have named already runs into a money value of some four to five millions sterling per annum, and which will be an addition to the resources of the Colony of the first importance.
- (2.) That the introduction of this industry into the Colony will utilise land that is at present practically useless for any other productive purposes.

Although at the outset we do not expect to be able to obtain plants more than sufficient to cover a square mile of ground, it will be necessary to secure at least 20 square miles of suitable ground, which will be covered as quickly as possible, and this ground it will be needful to secure in a district where water is obtainable, and whence the cost of carriage by water or rail to Sydney, or a port of shipment, will not be unduly onerous.

Thanking you for your courteous attention, and awaiting your reply,

I have, &c.,
GEORGE WHITE.

For the report of the Metropolitan District Surveyor.—J.N.B., 31/1/90. Report No. 269 of this date.—J. W. DEERING, 6/2/90.

No. 3.

The Metropolitan District Surveyor to The Under Secretary for Lands.

Minute Paper.

Subject :—George White applying for lease of about 20 square miles of land for growing the Agave Aloe, for the manufacture of hemp, fibre, &c.

Department of Lands, Sydney.

No. 269. 6th February, 1890.

1. The applicant, who has knowledge of the above industry, desires to introduce it to New South Wales, provided an extensive tract of country can be obtained on a long lease at a nominal rental.

2. Associated with applicant are several gentlemen of position and influence in Sydney, who desire to support the undertaking. As a guarantee of the *bona fide* character of the proposal, applicant has given me, officially, the following names as those of his supporters, viz., Honorable J. Lackey, M.L.C., Honorable J. B. Rundle, M.L.C., Honorable G. H. Cox, M.L.C.; and Messrs. W. B. Walford, W. H. Wesley, C. F. Stokes, A. H. Whiffen, and W. H. Chard.

3. The agave will grow in the poorest soil, provided water is obtainable. Of its value as a plant of commerce there can be no doubt. It is not necessary to deal with this part of the question. The best account of the plant, which is of American origin, I have been able to discover is in the *Encyclopædia Americana*, volume I, page 63 (Public Library).

4. Three areas are submitted, and shown upon the enclosed lithographs, as being probably suitable for the growth of this plant. The applicant, who waited upon me, has been informed of these localities, and desires to inspect them. To this end it is proposed that the three duplicate lithographs herewith might be forwarded to him. Probably the land in parish of Cudmerrah is the most suitable.

5. Whatever qualities the agave may possess, it is very doubtful if it can ever supersede the New Zealand flax plant, which will grow in a poor, arid soil.

6. A report upon this feature of the subject should be of value from the recently-established Sub-Department of Agriculture, Department of Mines, and it is recommended that the case should be referred thereto, prior to any final action being taken.

J. W. DEERING,
Metropolitan and Coast District Surveyor.

Submitted.—E.L., 11/2/90. There is not, apparently, any provision in the law which would enable an area of 20 square miles to be leased for a nominal consideration for a purpose such as is embraced herein on a long tenure. If the land were granted as special leases in blocks of 320 acres, the lessees would be required to pay a deposit of £5 on each application, a provisional survey fee, and the appraised rental. Before anything is done, however, it is advisable that a report from the Agricultural Branch of the Mines Department should be obtained on the proposals embodied in the letter of 15th January, 1890, and the possibility of establishing such an industry as that therein referred to.—W.H., 11/2/90.

I concur.—J.N.B., 11/2/90. Inform Mr. White Mr. White informed, 12/2/90. The Under Secretary for Mines.—F.H.W. (for Under Secretary). B.C., 12/2/90.

No. 4.

The Under Secretary for Lands to G. White, Esq.

Sir,

Department of Lands, Sydney, 12 February, 1890.

Referring to your letter of the 15th ultimo, applying for lease of about 20 square miles of land for the cultivation of certain aloes for the manufacture of hemp, fibre, &c., I am directed by the Secretary for Lands to inform you that there is not apparently any provision in the law which would enable an area of 20 square miles to be leased for a nominal consideration for a purpose such as this on a long term, and if the land were granted as special leases, the lessee would be required to pay a deposit of £5 on each application, a provisional survey fee, and the appraised rental.

I am to add that your application has been referred to the Agricultural Branch of the Department of Mines for report on your proposal, and the possibility of establishing such an industry as therein mentioned.

I have, &c.,

J. H. WILSON

(For the Under Secretary).

No. 5.

Office Memorandum.

Subject:—George White's application for the lease or sale of Crown Lands at a reduced rate, in consideration of the introduction of the culture of certain fibre-bearing plants. (Papers, Occupation, 90-2,613, Lands Department, received 4th March, 1890, and returned.)

Department of Mines, Sub-Department of Agriculture, 4 March, 1890.

THE enclosed papers were lodged at this department by Mr. G. White.

The submission of this department is to be found in copying-book, vol. 1, folio 104, registered as 90-373.

[Enclosures]

Encyclopædia Americana, 1883.

Article—"Agave" extract.

THE American aloe varies in the period of its coming to maturity, according to the region in which it is grown, from ten to seventy years.

It shares with the plantain, bread-fruit, and some others, the reputation of being among the most useful class of plants in the world; from it may be obtained water, oil, vinegar, honey, syrup, thread, needles, and innumerable things of value to humanity. The picture is not overdrawn. Engelmann says that from its leaves an immense quantity of saccharine juice is prepared. When the flower-scape shows the first signs of development, the terminal bud and the innermost leaves are removed, when in the basin thus formed the liquid collects, and is dipped out, on an average, a gallon a day for two or three months in succession from a single plant—150 to 300 gallons in all. From this juice the fermented (pulque) and distilled (mezcal) liquors are prepared, which are so generally used all over Mexico. It is remarkable that the saccharine matter enters only with the flowering condition; at other periods the juice is acrid, though some writers say that certain animals relish the leaves. The trunk is baked, and under the name of mezcal, is regarded as a savoury dish. A soap called amole is made from the roots. A gallon of the expressed juice, the water being evaporated by the sun, yields about 1 lb. of soap, which lathers with salt water, as well as with fresh.

But perhaps the greatest value of the Mexican aloe lies in their fibre. The famous picture-writing of the Aztecs is on paper made from the fibre, which seem to have been laid parallel together, and beaten in the process of manufacture. The fibre known in commerce as pita is chiefly made from *Fourcroya gigantea*. Some bromeliaceous plants are also believed to yield pita thread. The best known fibre comes from the *Agave rigida*, and is commercially Sisal hemp. It is equal to Manila, and yields about 250 dollars an acre. Professor Gabi states that if proper machinery for cleaning the fibre could be invented, the growing of Sisal hemp would be one of the most profitable industries of America.

Re the Production of Hemp and Fibres in New South Wales.

Sydney, 1 February, 1890.

My discovery some months since in the Sydney Botanical Gardens of two plants of the Magney, or *Agave potatorum*, the Mexican aloe, which produces Sisal hemp, induced me to investigate the possibility of profitably growing it on a large scale in New South Wales. I knew that there was a very large consumption for the hemp in Europe and in the United States, and that in Yucatan, where the plant is indigenous, large fortunes have been made by its growth during the last twenty-five years; that the production had during that period risen from 3,000 tons to about 70,000 tons per annum; that consumption was still ahead of production; and that the prices obtainable for the hemp were, on the whole, with fluctuations usual in all markets, steadily rising; that the consumption during the last ten years for the self-binding reaper alone approached one-third of the total of the world's production of hemp; that the cost price of Sisal hemp laid down in London, Liverpool, or New York, freight and charges included, did not amount to £10 per ton; that the average price obtained during the last twenty-five years was not under £35, and that the latest quotation in London was £53 per ton.

On making careful inquiry, I found that the Magney, in common with all the aloe tribe, grew freely, like a weed, in New South Wales, wherever the soil was suitable; and the result of my experiments proved that the fibre obtainable was by no means inferior, and that in softness it was superior, to that obtained in Yucatan; that machinery being employed, the cost of production in New South Wales would not be materially greater than in Yucatan; and that the land suitable for the growth of the plant, *i.e.*, light, sandy, rocky soil, useless for other productive purposes, exists in large tracts in the Colony; in fact, that there is every possible facility in New South Wales for the production of this hemp at a low price, whilst, at the same time, there are large markets for it in Europe and the United States at exceptionally remunerative rates. The present position and prospects of markets and prices may be gauged by the following statistics.

The total supply of hemp last year from all sources was estimated thus, more or less:—

Manilla	85,000 tons.
Sisal	70,000 "
Russian	20,000 "
New Zealand	15,000 "
	190,000 "

Whereas the consumption for the self-binding reaper in the United States alone was estimated for the year at from 55,000 to 60,000 tons. (*Fide* Sir Dillon Bell's special despatch on hemp to the New Zealand Government, dated 9th August, 1889.)

In New Zealand the production of what is called the New Zealand hemp or flax—the *phormium tenax*—is being rapidly pushed along as a result of the large profits which the prices obtained—£28 to £29 per ton—have left to the producer, and yet the cost of producing New Zealand hemp is greater than that of producing Sisal hemp, in consequence of the glutinous matter attaching to the *phormium tenax*, which is not found in the Magney. And Sisal hemp fetches over £20 a ton more than does New Zealand hemp.

In 1866 I sold in London the first 100 bales of Sisal hemp that were imported into Europe, and early in the following year two small cargoes. Since that time I have been continuously engaged in the sale of Sisal and other hems and fibres, and have gathered during the last twenty-five years from growers, consumers, and merchants engaged in the trade, a mass of information respecting the hems and fibres which are valuable in the mercantile world.

Sisal hemp is used not only for roping and twine, but also largely and increasingly for textile fabrics, matting, kits, carpets, &c., &c.

Since I discovered the Magney I have also discovered the *Fourcroya*, the plant which yields the beautiful and valuable fibre known as Mauritius blue fibre used for textile fabrics. This plant also grows freely, like a weed, in New South Wales, and the production of the fibre, for which there is practically an unlimited market, will be as important to the Colony, and as lucrative to the growers, as that of Sisal hemp. The *Fourcroya* is propagated by bulbs, and as no large supply of these is immediately obtainable, the question of its cultivation must necessarily be deferred.

Land.

I have applied to the Government of the Colony for at least 20 square miles of land suitable for the growth of the Magney and other allied plants, sufficiently cleared to be workable, and in a position where water is obtainable, and whence the cost of carriage to a port of shipment will be reduced to a minimum. My application has been favourably received, and Mr. Brunker promises immediately to put an offer of the requisite land in my hands. He thinks he has suitable land available in the direction of Wollongong.

Plants.

The two plants in the Sydney Botanical Gardens, which are about eight years old, are in the last stage of their existence. In dying off they have thrown the whole of their strength into their seed stems, which are most prolific. From them there is seed now available sufficient to produce, probably, from 300,000 to 400,000 plants, as each pod, of which there are some 2,000, contains about 200 seeds. Mr. C. Moore, the Curator of the Gardens, has kindly written me, placing this seed at my disposal, and from this seed, if carefully handled, we may probably get at least 200,000 plants—that is to say, sufficient to cover from 2 to 3 square miles of land. The Honorable Sydney Smith, on the part of the Government, has also, at my suggestion, written to Kew Gardens, London, to obtain further supplies of seed, and through private channels I have taken steps with the same object.

The propagation of this seed, which germinates freely, will require early attention, and the raising of the plants, which are of slow growth in their earliest stages, but which develop rapidly in their later growth, will be best carried out in a nursery on a part of the land where they would be ultimately planted out.

Production.

Planting 12 feet apart each acre of land would take 302 plants, but making provision for roadways 240 plants would cover an acre of land. These plants would begin to ripen and yield their leaves for hemp in their third year, and for my estimate of production, I assume that in their third, fourth, and fifth years after planting they would yield from a minimum weight of 480 lb. of leaf (sixty leaves of 8 lb. each) not over 30 lb. weight of hemp. This seems to be a low and safe basis upon which to estimate output. On this basis the production from 3 square miles of land in the first five years would be about 6,170 tons of hemp. In order to be on the safe side, I estimate from 3 square miles what might probably be the production of 1 square mile.

Cost of production.

The cost of production of Sisal hemp in Yucatan is not over £5 a ton; here, in New South Wales, provided always that the cost of clearing and fencing land is moderate, the cost of production should not be materially greater than in Yucatan. On this subject I have largely consulted Mr. Moore and Mr. Harwood, of the Sydney Botanical Gardens, and am largely guided in my conclusions by their opinions. I gratefully acknowledge the great interest they have taken in the matter. As the plants require no cultivation, and the cleaning of the leaves and press-packing is done by machinery, labour is not so important an element in the cost as might be supposed. One capable man, with occasional assistance, could do all the work necessary to produce seedlings. These are slow of growth in their early stages, and might take from six to nine months before they were ready for transplanting from the nursery. No cultivation is required in their later growth; but it is requisite to keep the ground clear of weeds. The heaviest labour would consist in the cutting and the cutting of the leaves to the cleaning mill, as each mature leaf would weigh from 8 to 12 lb. This labour could be advantageously minimised by running a light tram-line through the ground. The hemp is packed in uncovered bales, and bound with ropes made of hemp itself. There is no season for cutting the leaves, and the cleaning and packing can be carried on all the year round as the leaves mature. The number of men employed, as well as the number of cleaning machines and packing machines, will therefore be reduced to minimum point.

It would seem difficult to employ, during the first two years in the work of planting and weeding, &c., on the 3 square miles, or 1,920 acres, at any time more than ten men, at the outside cost of (say) £1,000 per annum, or during the following three years more than twenty-five men, at an outside cost of more than £2,500 per annum. The cost of machinery for cleaning and packing is not great, as the cleaning machinery is of the simplest description, and, including cost of buildings, tram lines, carts, horses, tools, and all the requisites for the work of 1,920 acres, £8,000 would appear to be an exaggerated estimate. The cost of carriage of the hemp from the mills to a port of shipment would depend on the situation of the ground. If this were in a convenient place, the cost of carriage should be well under £1 a ton. There remains the all-important question of clearing and fencing the land. If Mr. Brunker, as he says, he hopes and expects, is able, on the part of the Government, to put us in possession of land sufficiently cleared for planting, the expenditure on this account will be deprived of its importance; but it must be borne in mind that above all other considerations the avoidance of expenditure in clearing the land is of the highest moment to the success of this enterprise.

All charges for freight, marine insurance, sale, commission, brokerage, and dock charges would come off the gross proceeds at ports of sale, and would not be part of the expenditure in the Colony.

In the appended estimates of income and expenditure I have endeavoured to exaggerate to the utmost charges and expenses, and to minimise prices, income, and output of hemp. Even so, the margin of profit is immense.

It seems clear that if this enterprise is conducted with due energy, sound judgment, and discretion, it will not only be very lucrative to those engaged in it, but should become second only to the wool industry in importance to the Colony.

It is proposed to start this industry in New South Wales by forming a syndicate with a nominal capital of £25,000, in 250 shares of £100 each, to be registered as a limited liability company, under the Companies Act of New South Wales.

As the discoverer and promoter, I shall ask the syndicate to allot me fifty shares as fully paid-up shares; there will remain 200 shares upon which a deposit of £10 per share should be paid. No further payment would be needful for three months; if necessary, a call of £10 per share could then be made; the heavier expenditure for machinery, &c., would not fall within the first eighteen months; and the whole expenditure of the first three years should come well within £20,000; always provided that no heavy expenditure was incurred for clearing and fencing land.

The expenditure of the fourth and fifth years should be covered by the income of the third.

I shall ask the syndicate to vote me £200 for my expenses during the past four months, when I have been wholly occupied in experimenting and developing this enterprise.

GEORGE WHITE.

ESTIMATE of income and expenditure on the production of hemp from the Magney over 3 square miles of land during the first five years.

6,170 tons at £35 per ton.....		£215,950
Less—

Re the production of Ramie Fibre or Mauritius Aloe Fibre in New South Wales.

20th February, 1890.

Boehmeria.—There are numerous varieties—the *Boehmeria* grown in tropical and semi-tropical countries, all of which produce a fibre remarkable for strength, being stronger than Manilla hemp or abaca, but varying in length and fineness; the products of the different varieties are called China grass, rhea fibre, ramie fibre, Mauritius aloe fibre; of these China grass is probably the coarsest, and Mauritius aloe fibre the finest fibre.

The *Fourcroya gigantea* and the *Calatropis gigantea* appear to be varieties of, or allied to, the *Boehmeria* tribe.

The *Fourcroya gigantea*, largely cultivated in the Mauritius, where Messrs. Bourignon have exerted themselves to extend the growth of it, produces the Mauritius aloe fibre; of all known fibres this is undoubtedly the best, combining in the highest degree the qualities of length, strength, softness, lightness of weight, brilliancy and silkiness of appearance and colour, and capacity for splitting up into the finest possible thread. This variety, the *Fourcroya gigantea*, grows like a weed in the light sandy soil of New South Wales; it requires no cultivation, and when once planted reproduces itself freely; it yields numerous leaves of from 6 to 8 feet long, and the fibre runs the entire length of the leaf; the sap is largely saponaceous and lathers freely, and should of itself be a valuable product of the plant; the fibre is worth from £50 to £90 per ton, and is used exclusively for textile fabrics; there is practically an unlimited market for it.

The correspondent of the *Sydney Morning Herald* writing from Paris, 12th December, 1889, says:—"One of the results of the Paris Exhibition has been to quicken French jealousy of Australia and French determination to develop New Caledonia and its unrivalled textile wonder, Ramie. The society formed here for encouraging the production of the plant that furnishes fibre susceptible of surpassing hemp for cordage and the most delicate linen thread for lace or for household purposes, has just opened a splendid establishment in Paris for the display and sale of the marvellous tissues made from a plant of whose existence the world was ignorant until started by the fine display of the same in the Champ de Mars. As the climate of many parts of your great Southern Britain is equally adapted with that of your ambitious and jealous neighbour to the cultivation of this Queen of textile furnishers, it is to be hoped that Australia will, ere long, turn its practical talents to the cultivation of Ramie."

GEORGE WHITE.

Re Cultivation of Hemp and Fibres in New South Wales.

42, Margaret-street, Sydney, 10 January, 1890.

THERE are two aloes, the fibres of which are now recognised in the mercantile world as important and valuable articles of commerce—the one is the Magney, or *Agave potatorum*, a native of the province of Yucatan, in Mexico, the produce of which is called Sisal hemp (locally honeguen); the other is the *Fourcroya*, a native of the Mauritius, which produces what is known as Mauritius aloe fibre.

A number of gentlemen are associating in Sydney in order to start on a large scale the cultivation in New South Wales of both these aloes, and in order to ensure so far as possible a commercial success, it will be necessary to cultivate on a large scale and plant large tracts of land.

A large supply of seed of the Magney and of bulbs of *Fourcroya* is needful. Of the Magney a fair supply of seed is procurable at the Sydney Botanical Gardens, but it will be necessary to supplement this supply from abroad, and to obtain from abroad the needful supply of bulbs of the *Fourcroya*.

The authorities at Kew Gardens, London, will willingly and joyfully, if the matter is rightly placed before them, procure the necessary seeds and bulbs and forward them here. They have ever taken great interest in such matters, and the introduction of the Cinchona into India and Ceylon is in the main their work, and is only one example of the great interest they take in rendering aid in the work.

I gratefully acknowledge and avail myself of your kind offer on the part of the Government to put our requirements as respects seed of the Magney and bulbs of the *Fourcroya* before the authorities at Kew.

It would be highly desirable to obtain from them, and they would most willingly give also every possible information that could be procured as to the growth and cultivation of these aloes, the soil most suitable, climatic conditions most favourable, the period of the year (if any) for cutting the leaves, the power of reproduction inherent in the plants, their length of life, precautions and care in cutting the leaves necessary to preserve vitality, the best means of propagation, diseases (if any) and causes of decay other than natural, length of time the plants take to mature, the best means of extracting the fibre, the best machinery for that purpose, and the most recent improvements in the same, and where procurable, &c.

The authorities at Kew will take great interest in procuring and supplying such information, and we may, as a result, get many valuable suggestions in addition to those we already possess.

With

[The original of this document was received in an incomplete state.]

No. 6.

The Director of Agriculture to The Secretary for Mines and Agriculture.

Minute Paper.

The proposed introduction into New South Wales of the culture of certain fibre-bearing plants—George White, applicant.

Department of Agriculture, Sydney, 18 March, 1890.

REFERENCE is made herein only to those fibres which are mentioned in Mr. George White's application.

Sisal Hemp.

Sometimes called Mexican grass or Henequen hemp, is the product of the *Agave sisalana*, natural order, *Amaryllidaceæ*, of which there are two special varieties. Sacqui, which yields the largest quantity of hemp, and Yashqui, which yields a finer hemp, and requires more genial soil.

The demand for this hemp is growing yearly for ropes, cordage, being better than Manilla hemp for cold climates, and in fact for all kinds of work, especially as it takes dye better than any other fibre.

Pita Flax

is obtained from *Agave Americana*.

This fibre closely resembles the Sisal hemp, and, in fact, is said to be better than coir, jute, and sunn hemp. It makes splendid paper, and is used for carpets, fillings, ropes, &c.

A fibre somewhat coarser than that produced by the *Agave sisalana* is obtained from the *Agave potatorum*, probably the same as *Agave Mexicana*. This plant also yields, by removing its central stem just before efflorescence, from 200 to 300 gallons of pulque, which is the chief intoxicant of Mexico.

With the exception of the *Fourcroya gigantea*, this plant is the quickest grower of its kind.

Fourcroya gigantea.

This plant belongs to the same order, and resembles in a great degree the genus *Agave*.

In the Sydney Botanical Gardens it has been found to grow much faster than the agaves already mentioned.

Like the Sisal hemp, the fibre of this plant has a wide use, especially as it takes dye well.

These plants come to maturity in about three years, sending up a long flowering stem, and at ages varying from eight to twenty years gradually die away, to be replaced by one of their many suckers.

Each plant commences to yield in the third year about twenty-five leaves annually, which are from 5 to 12 feet long (with fibre the whole length), and 3 to 5 inches wide, and are all, except the leaves of the *fourcroya*, very fleshy, and charged with thorns.

About 1,000 plants are grown to the acre, and the yield from this area is about half a ton of fibre. The demand for this fibre, at about £45 per ton, has always exceeded the production.

The export of Henequen fibre from Yucatan in 1876 was 22,000,000 lb., 18,000,000 lb. of which went to British ports.

The profits for that year in Yucatan are said to have been 90 per cent. on the capital invested, whilst maize only paid 17 per cent., and rice 24 per cent., whilst the first outlay was less than that required for the other plants.

The expense incurred in the cultivation is very little, for during the first two years labour is only necessary to keep down the weeds. The laborious manual operation, which was at one time necessary for separating the fibre from the gummy matter, has been superseded by very simple chemical and mechanical processes. Even in 1880 there were "various steam engines in operation in Yucatan, not only for rasping but also for obtaining the raw material, and for spinning and twisting the cordage," while in more recent years considerable attention has been given to the improvement of this kind of machinery. Sea or fresh water is, however, more or less necessary.

All these plants will grow in New South Wales; most, if not all, of them have been grown in Mexico, United States, and Italy, and have done well in the Sydney Botanical Gardens.

They are hardy, and do equally well at altitudes ranging from 9 to 10,000 feet, in the richest and most sterile soils, on stony barren eminences, or in sandy coast lands, the more lime present the better.

Squires remarks thus:—In thousands of places where rocky, sandy, and arid soils prohibit every other kind of vegetation the agaves find root and are vigorous.

The vast area of sandstone country, such as lies round the Hawkesbury, and is useless for other cultivation, would be most suitable for the growth of these plants, although there would be difficulties in collecting the leaves from the sides of the deep gullies.

Calotropis gigantea.

Natural order *Asclepedaceæ*, yields a fibre of superior quality, which is tenacious and somewhat resembles flax in appearance. It is grown in India in the poorest soils, for it is difficult to conceive of anything less productive than dry sand, yet the *Calotropis gigantea* thrives in it, requiring no culture and no water.

The same difficulties of separating the fibre, as in the case of the agaves, have been overcome to a great extent by recent processes.

Ramie or Rhea Fibre.

Sometimes called China grass, is obtained from *Boehmeria nivea* and *B. tenacissima*, natural order *Urticæ*.

It is white, silky, and tenacious, makes good fabrics, and takes a position as to its qualities between wool and silk. It will do well in any level well-drained country, with a certain amount of care, and will stand Australian droughts, and a temperature as low as 9 per cent.; deep, rich, moist, and sandy soils, if broken up before cultivation, will produce good crops.

May be grown from seed or pieces of the roots, &c., planted about 18 inches apart. In the second year the plant will give three crops of 4 to 6 feet fibre.

Since January some new root cuttings have grown fully 4 feet in the Sydney Botanical Gardens. It is now grown in Queensland.

During 1880, in some parts of the United States, 8 tons per acre of dried stems were produced, which brought £2 1s. 8d. per ton, or £16 13s. 4d. per acre; but in that year commercial value of the fibre was not fully realised, and the "point in question was that of inducing worsted spinners to undertake the spinning."

In

In Queensland, during the last two or three years, it has been grown for commercial purposes, and exported in the stalk, but no returns are at hand with regard to the venture.

The large amount of manual labour which was at one time necessary for separating the fibre, made the growth of the plant unsuitable in places where labour is not cheap; but the great amount of attention lately given to this fibre has resulted in the discovery of chemical and mechanical processes for separating the fibre with little labour and expense.

In view of the evidence indicating the establishment of a large and profitable industry, and the utilisation of lands which are almost useless for other cultivation, by the introduction into this Colony of the culture of these fibre-bearing plants, it is submitted that Mr. G. White's application be recommended to the Department of Lands as worthy of favourable consideration, under the clauses of the Act of 1889 referring to inferior lands, if not possible in any other way; provided the area of the land leased be limited to 10 square miles, and the period of tenure to twenty years, and that every precaution be taken in drawing up the lease, so as that the land can be used for no other purpose than the one indicated, and that the interests of the public be in every way duly conserved.

HENRY C. L. ANDERSON,
Director of Agriculture.

No. 7.

G. White, Esq., to The Secretary for Mines.

Sir,

42, Margaret-street, Sydney, 25 June, 1890.

Since I last had the honor of speaking with you respecting the production of hemsps and fibres in New South Wales the project has taken practical form, and a company, with a capital of £25,000, in shares of £100 each, is now being formed privately for the purpose of growing hemp and fibres in the Colony. Amongst the shareholders are the Honorable Henry C. Dangar, M.L.C.; the Honorable George H. Cox, M.L.C.; John Y. Mills, Esq., of Messrs. Mills, Pile, and Wilson; Dennis G. Peele, Esq., of Messrs. Peele, Borradaile, & Co.; John Beveridge, Esq., of Messrs. George Griffiths & Co.; T. H. Kelly, Esq., of O'Connell-street; J. R. Carey, Esq., Chairman, Sydney Tramway and Omnibus Company, who have subscribed a large part of the capital. Other prominent gentlemen in Sydney have intimated their intention to take up shares, and thus enable us to complete the capital of the company, so soon as they are assured that the requisite land for starting this new industry in the Colony will be placed at the disposal of the company by the Government for the purposes for which the company is formed.

I have to-day seen the Honorable the Minister for Lands on this subject, and he has promised to give it his immediate attention. May I ask you kindly to forward him the report from the Agricultural Department, which he required.

I have, &c.

GEORGE WHITE.

No. 8.

Messrs. G. White and others to The Secretary for Lands.

Application for permission to immediately occupy 50 acres of inferior or waste land situated in the parish of Bherwerro, county of St. Vincent.

Sir,

42, Margaret-street, Sydney, 5 December, 1890.

With reference to our application of this date for lease of 6,300 acres of inferior or waste lands in the parish of Bherwerro, in the county of St. Vincent, for the purpose of growing fibre-producing plants, we now apply for permission to immediately occupy not exceeding 50 acres of the said land in the vicinity of Lake Windermere, with the object of starting nurseries of plants. And we ask you kindly to give this matter your urgent attention, as we have not only a large quantity of seed to sow, but also 100,000 imported bulbs, now lying at Circular Quay, which should be planted out without delay.

We have, &c.

GEORGE WHITE.
U. W. CARPENTER.
J. W. FLOOD.
R. J. MACKENZIE.

Urgent. Please submit at once.—W.H., 5/12/90.

No. 9.

Messrs. G. White and others to The Secretary for Lands.

Application for lease of inferior lands.

Sir,

42, Margaret-street, Sydney, 5 December, 1890.

We hereby apply for a lease for twenty years of the about 6,300 acres of land in the parish of Bherwerro, in the county of St. Vincent, at present unoccupied or abandoned. This company has been formed with a subscribed capital of £20,000 for the purpose of testing the possibility of utilising waste and inferior lands in this Colony for the growth of fibre-producing plants, and we ask for this lease at a peppercorn or nominal rental with that sole object.

We enclose deposit of £5.

In making this application we deem it right to say that if the growth of fibre-producing plants on inferior and waste lands in this Colony is to be carried on successfully as a commercial speculation, the work must not be done on a small scale, and that to limit our work to 6,300 acres would be an error of the first magnitude. We, therefore, ask that you will give us permission to select with the same object other blocks of inferior and waste land on similar terms as respects tenure and rental up to (say) 20,000 acres in all.

We have, &c.

GEORGE WHITE,
U. W. CARPENTER,
J. W. FLOOD,
R. J. MACKENZIE.

For the Australian Hemp and Fibre Company (Limited).

Urgent.

Urgent. Please submit at once.—W.H., 5/12/90. Cheque, £5, enclosed. £5 received on the within account and credited this day.—J.S.W. (for the Under Secretary). E.H. The Under Secretary for Lands.—W.N. (The Treasury), B.C., 5/12/90. Papers now herewith.—J.P.M., 9/12/90.

This request to have a large tract of country (6,300 acres), with a right of extension to 20,000 acres, at a peppercorn or nominal rental during a period of twenty years, does not in any particular come within the respective provisions for special leases under section 90, Act 1884. The purpose for which the land is required should, like tobacco, come under this section, but the proposed area, rental, and tenure would conflict with its provisions. It becomes a question for consideration whether the lease could be granted under section 37, Act 1889, as for inferior lands, or under section 35, Act 1889, for scrub lands, although it may be deemed that both these sections are intended to operate for pastoral purposes only. There is nothing in the language of either section to direct the use to which the lands should be applied after certain conditions of the lease have been fulfilled. Should it be considered expedient to deal with the application otherwise than under the 90th section, Act 1884, it is suggested that section 37 would be preferable to section 35, its only objection, from the applicant's point of view, is that the lease must be submitted to auction or tender, whereas, under section 35, the Minister may deal direct with the application, and competition is avoided. It is mentioned that the area applied for has been the subject of annual leases by tender on two occasions without results. Should the application be entertained as coming within the operations of either section 37 or 35, Act of 1889, perhaps the annual rental of £1 per section would be ample. This would, on the area applied for (6,300 acres), amount to £32, and could not handicap an industry that promises to be so profitable. A series of special leases of 320 acres covering this area would realise £200 per annum.—J.P.M., 10/12/90.

Submitted specially.—There would seem to be no provision in the law for such a case as this. It appears to be similar with that of Mr. Geo. White. Please see memo. on that case of 11/2/90, 90-2,613, Occupation, herewith.—R.H.D., 13/12/90.

Special.—F.H.W., 15/12/90.

There is no provision in the law empowering the Minister to lease any Crown land for a lengthened term at a peppercorn rental, nor could any such agreement be entered into to confer upon any person or company a preferential right to select other land in the manner suggested by Messrs. White, Flood, and Mackenzie. Section 35 of the Act of 1889 has no application whatever to the case. Section 37, however, provides for leasing inferior lands by auction or tender after report by the Land Board, and it appears to me that this is the only mode by which the land can be acquired. The applicants may, perhaps, be so informed, and their attention directed to the section and regulations thereunder.—W.H., 16/12/90.

I concur. No permissive right to occupy any portion of the land can at present be granted. The application may be dealt with under clause 37 of the Land Act of 1889, and the Board asked to furnish an early report.—J.N.B., 17/12/90.

Writer informed, 22/12/90. The Chairman, Local Land Board, Goulburn, for report.—J.P.M. (for Under Secretary). B.C., Lands, 22/12/90. The District Surveyor for report, &c.—J.G.B. (for Chairman), 29/12/90.

No. 10.

The Under Secretary for Lands to Messrs. G. White and others.

Gentlemen,

Department of Lands, Sydney, 22 December, 1890.

Referring to your application of the 3rd instant for a lease of the land noted in the margin, for the purpose of utilising it for the growth of fibre-producing plants, I have the honor, by direction of the Secretary for Lands, to inform you that there is no provision in the law for leasing the land on the terms you desire. However, the Board will be asked to furnish an early report upon the advisableness of leasing the land under section 37 of the Crown Lands Act of 1889.

At present no permissive right to occupy any portion of the land can be granted.

I have, &c.,

W.M. HOUSTON,

Under Secretary

(per R.H.D.)

6 300 acres,
parish Bhor
werre, county
St. Vincent

No. 11.

R. J. Mackenzie, Esq., to The Under Secretary for Lands.

The Australian Hemp and Fibre Company (Limited),

Dear Sir,

173, Pitt-street, 23 December, 1890.

The Board of this Company had hoped ere this to have received a reply from you re the land. You may not be aware that every day now that passes is of utmost value to us. Any delay in obtaining possession of the land for which we applied on the 3rd instant may endanger our operations for months to come, as we have a large number of perishable plants on hand which ought to be planted.

May I ask you for this reason to kindly give us, with the least possible delay, an answer to our application. Be good enough to address your reply to me, as the Acting Secretary, to lay before the meeting of the Board to-morrow.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

Informed by memo. that a letter was yesterday sent addressed to Messrs. G. White, U. W. Carpenter, &c., 42, Market-street, Sydney.—A.H., 23/12/90.

No. 12.

R. J. Mackenzie, Esq., to The Under Secretary for Lands.

Australian Hemp and Fibre Company (Limited),

Sir,

No. 11, Central Chambers, 173, Pitt-street, Sydney, 29 December, 1890.

I have the honor to acknowledge receipt of your favour dated 22nd December, in reply to our application to have permission to occupy a portion of 6,300 acres at once.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

No. 13.

G. White, Esq., to The District Surveyor, Goulburn.

Dear Sir,

42, Margaret-street, Sydney, 2 January, 1891.

Some months since, when you were in Sydney, you were good enough to interest yourself in looking out some blocks of waste land on which it might be possible to grow aloes for the purpose of producing hemp. The work of the Australian Hemp and Fibre Company (Limited), which now is formed with some of the leading men in the Colony—the Honorable Henry C. Dangar, the Honorable George H. Cox, and others—at its head, with a subscribed capital of £20,000, has been delayed by strikes, &c., but a month since an application was made to the Minister for Lands for the block of land in the parish of Bherwerre, in the Nowra district—one of the blocks which you yourself recommended as suitable for our work. I and some other friends had inspected the block, and find that it is sandhills and rock, useless for other productive purposes, but probably useful for growing aloes, and the company which has been formed for the purpose of testing the possibility of utilising such lands proposes to commence on this block. Our application, made under the Waste Lands clause, clause 37 of the Land Act, was sent in to the Minister for Lands a month since, and has been forwarded by him to the Local Land Board for report.

I now write you because we understand that the Local Land Board may not meet at Nowra for some three months, and as we have imported 100,000 plants which are now lying at Circular Quay, we are anxious to get possession of the land at the earliest possible moment in order to plant them, any undue delay may throw us back for at least six months.

We hear at the Lands Office to-day, that if the local Chairman of the Land Board applies to the Minister, our application, instead of waiting until the Board meets at Nowra, may be heard at Goulburn, Berrima, or wherever the Board may first meet, and we have been advised to write to you and Mr. Moriarty to ask you to make arrangements for that purpose.

Mr. Robert J. Mackenzie, the Secretary of the Company, is writing to Mr. Moriarty, and we shall all feel indebted to you if you will do what you can to get our application brought before the Local Board at the earliest opportunity wherever it may first meet, and to have their report forwarded to the Minister at the first possible date.

I am betraying no secret when I say that the Minister and the Under Secretary, Mr. Houston, are anxious to get this matter put through as quickly as possible.

Wishing you the compliments of the season,

I am, &c.,

GEORGE WHITE.

This letter, received by me, is now forwarded to the Chairman. The applicant, Mr. G. White, on behalf of the Australian Hemp and Fibre Company (Limited), is desirous of leasing the vacant land edged red, in the parish of Bherwerre, county St. Vincent, Land District Nowra, being an area of about 6,300 acres (*vide* litho., within L.B. 90-6,369). This lease is applied for under section 37, Act of 1889, and the Chairman is asked to be good enough to take this case at the first Land Board meeting in any district, section 5, Act 1889. This application was originally in the Metropolitan Land Board District when Land District of Nowra was under that jurisdiction, and the case was reported upon by me—Report No. 269, of 6th February, 1890; Occupation 90-2,613, herewith.—J. W. DEERING, District Surveyor, 5th January, 1891. The Chairman,—Authority requested to hold preliminary inquiry at Land Board, Berrima.—6/1/91.

No. 14.

R. J. Mackenzie, Esq., to The Chairman, Land Board, Goulburn.

Australian Hemp and Fibre Company (Limited),

Dear Sir,

173, Pitt-street, 6 January, 1891.

No doubt by this time you will have received intimation from the Minister for Lands that an application has been made to him by the Australian Hemp and Fibre Company (Limited), a Company recently formed here with a capital of £25,000, for the purpose of testing the possibility of utilising the waste lands of this Colony in order to grow fibre-producing plants, for a block of waste land of about 6,300 acres, in the parish of Bherwerre, in the Nowra District.

This application has been made direct to the Minister, in accordance with the Waste Land Act, clause 37 of the last Land Act, and can only be dealt with by the Minister after report by the Local Land Board.

This application is the first application which has been made for land under the Waste Land clause of the Land Act, and the object which the Company has in view is not only a novel one in the Colony, but is one in which the Minister himself not only takes great interest, but one of which some of the leading men of the Colony are taking a personal and pecuniary interest in.

My object in writing to you as the Chairman of the Local Land Board is to obviate in every possible way any delay that may occur, as the Company has 100,000 plants now lying at Circular Quay, and is, in common with the Minister, very desirous to get prompt possession of the land.

Will

Will you kindly make such arrangements as may be necessary in order that the application may be heard, and the report to the Minister sent in at the first possible opportunity. We understand that it is not necessary that the application should be heard at Nowra, but may be heard at Goulburn, Berrima, or any other town where the Local Land Board may first sit, and it is of the utmost importance that it should be done.

Mr. Deering, the local Government Surveyor, who tells us he has communicated with you, and is fully acquainted with the projects of the Company himself, selected the block of land for which we have applied, and will no doubt give you any further information you may require.

Thanking you in anticipation for our request.

I have, &c.,
R. J. MACKENZIE,
Acting Secretary.

No. 15.

Telegram from The Chairman, Land Board, Goulburn, to The Under Secretary for Lands.

6 January, 1891.

AUTHORITY requested under section five (5) recent Act for Land Board, Berrima District, to deal with application of Hemp and Fibre Company in its preliminary stage. Urgent.

A. O. MORIARTY.

Papers 90-3,839, miscellaneous leases, noted to Chairman, Goulburn, 22/12/90. The land applied for by the Australian Hemp and Fibre Company is in the Nowra Land District. The Chairman applies for authority under section 5, Act 1889, to have the case investigated in the Berrima Land District. Submitted for approval. Urgent.—J.P.M., 6/1/91.

For special consideration. No reason is assigned for this change of place of hearing, and it may be open to much doubt whether the policy of the Acts should be departed from unless good reasons are assigned for investigation to take place as near as possible to the land involved.—R.H.D., 7/1/91.

The parties interested called on me and urged that action in dealing with this application might be expedited, by having the case dealt with at Berrima, where a Land Board meeting was shortly to be held, instead of having it held over for about four months' time, when the next Court was proposed to be held at Nowra. I referred them to the Chairman at Goulburn, who has recommended their application. Under these circumstances, the application by the Chairman to have the case heard at the next Berrima sittings is submitted for approval.—F.H.W., 8/1/91.

May be approved.—W.H., 8/1/91. Approved.—J.N.B., 8/1/91. For the information of the Chairman, Goulburn.—J.P.M. (for Under Secretary). B.C., 9/1/91. For Court, Moss Vale, 14th January, 1891. George White and R. J. Mackenzie notified 10th January.

After hearing the applicant and taking his evidence, he expressed a wish to withdraw the present application, with a view to renewing it in another form. At the same time, having regard to the situation of the land, and surrounding circumstances, it appeared to the Board that it might with advantage be reserved from sale under section 101, and they desired to be favoured with an expression of the District Surveyor's views herein.

No. 16.

Decision of Land Board, Nowra.

Crown Lands Act of 1884—(Part II., section 14, sub-section 4).

New South Wales, }
to wit. }

WHEREAS, on the 14th day of January, 1891, it became a matter for investigation before us as to an application by the Australian Hemp and Fibre Company for a lease of about 6,300 acres, for a period of twenty years, in the parish of Bherwerre, county St. Vincent, and having taken evidence and inquired into the said matter, after hearing the applicant and taking his evidence, he expressed a wish to withdraw the present application, with a view to renewing it in another form.

At the same time, having regard to the situation of the land and surrounding circumstances, it appeared to the Board that it might with advantage be reserved from sale under section 101, and they desired to be favoured with an expression of the District Surveyor's views herein.

A. O. MORIARTY,
Chairman.

It is recommended that this land (6,300 acres) might be reserved from sale, pending survey under 101st section of Crown Lands Act of 1884.—J. W. DEERING, 20/2/91. The Chairman. Before the Land Board at Nowra, 27th February, 1891. The Board concur in this recommendation.—A. O. MORIARTY, Chairman, Z. G. BICK, L. MCINTYRE. Description for 101st section herewith.—J. W. DEERING, 14/3/91.

The Chairman,—Messrs. White, Flood, Carpenter, and Mackenzie desire to withdraw their application of the 5th December last, on behalf of the Australian Hemp and Fibre Company for a twenty years' lease of 6,300 acres. The Board recommend that the withdrawal be allowed. It does not suggest that an amount should be deducted from the deposit of £5 to meet costs of inquiry. The Board also recommended the reservation under section 101, Act of 1884, of the area applied for as above, pending, it may be assumed, the consideration of a fresh application by the Company.—J.P.M., 23/3/91.

Submitted specially.—R.H.D., 23/3/91. F.H.W., 23/3/91.

I am under the impression that these gentlemen intimated to the Minister their intention of renewing the application for lease of inferior lands. It may be as well to allow the papers to remain in abeyance, say, for fourteen days, and the Board may be asked in the meantime whether such application has been renewed.—W.H., 25/3/91.

Approved.—J.N.B., 25/3/91. Please see fresh application 91-1,619, miscellaneous leases.—J.P.M., 26/3/91.

[Enclosure.]

[Enclosure.]

Area, 6,600
acres.

It is recommended that the defined area specified in margin, and situate in the county of St. Vincent, parish of Bherwerre, be notified under the provisions of the 101st clause of the Crown Lands Act as a reserve from sale pending survey.

District Survey Office, Goulburn, 14 March, 1891.

J. W. DEERING,
District Surveyor.

The Under Secretary for Lands.

Land District of Nowra, county of St. Vincent, parish of Bherwerre, containing an area of about 6,600 acres.

Reserve from sale pending survey.—Eastern Division.

The Crown lands within the following boundaries: Commencing at a point on the east boundary of portion 5, at the intersection of reserve No. 23A (for coal) with that boundary; thence bounded by the north boundary of that reserve and reserve 23C (for defence) to the south-west corner of John Bryce's additional conditional purchase No. 91-3 of 60 acres; thence by the west, north, and east boundaries of this conditional purchase and portion 16 to the north boundary of reserve 23A and 23C aforesaid; thence again by this boundary easterly to the south-eastern corner of railway reserve No. 168; thence by the south boundary of that reserve westerly to its south-west corner; thence by the west and south-west boundaries of this reserve to the east boundary of water reserve 165; thence by the east boundary of this reserve and village reserve southerly to the south-east corner of the latter reserve; thence by the south and west boundaries of this reserve and the west and north boundaries of water reserve 165 to the south-west boundary of railway reserve No. 168 aforesaid; thence by that south-west boundary north-westerly to the south-east corner of R. A. Smith's conditional purchase No. 91-1 of 120 acres; thence by the south boundary of that conditional purchase westerly to reserve No. 1,909 (for access); thence by the eastern boundary of that reserve south-westerly to its intersection with the east boundary of reserve No. 176; thence by the east boundary of that reserve and the north, east, and south boundaries of portion 39 to the east boundary of portion 84; thence by part of the east boundary of portion 34 and part of the north, the east, and south boundaries of portion 14 to the east boundary of reserve No. 1,910 (for access); thence by the east boundary of that reserve and the east boundary of portion 5, to point of commencement.

This reserve is exclusive of portions 17 and 19.

No. 17.

Applications by G. White for Annual Lease.

[Crown Lands Acts—Regulation No. 133.]

Application for an Annual Lease.

I, GEORGE WHITE, care of Robert J. Mackenzie, 173, Pitt-street, Sydney, hereby apply for an annual lease of the lands described hereunder; and I tender herewith a deposit of £2.

Signed, this 16th day of January, 1891,—

GEORGE WHITE,
Care of ROBT. J. MACKENZIE,
173, Pitt-street, Sydney.

Description of the land applied for:—

Eastern Division, Nowra Land District, county of St. Vincent, parish of Bherwerre, 640 acres. Commencing at a point on the northern boundary of Charles Gordon's portion No. 5, extending north and east along the boundaries of Government reserves sufficient distance to make up an area of 640 acres.

This application No. 1.

To the Land Agent at Nowra.

Received the sum of £2, as deposit on the above application.

16th January, 1891.

J. H. NISBETT,
Acting Land Agent.

Ministerial approval of withdrawal, 91-3,119. Miscellaneous leases—refund vouchers for £20 issued this day. Crown Land Agent informed of withdrawal.—J.P.M., 25/3/92.

[Crown Lands Acts—Regulation No. 133.]

Application for an Annual Lease.

No. 18.

R. J. Mackenzie, Esq., to The Secretary for Lands.

The Australian Hemp and Fibre Company (Limited),

Sir,

173, Pitt-street, 30 January, 1891.

I have the honor to request a refund of £5, being amount of deposit made by the Company when lodging application for lease of 6,300 acres of land at Jervis Bay, which application has been withdrawn, and fresh applications made, with necessary deposit.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

Papers 90-3,839, Miscellaneous Leases, which refer to this case, are with the Chairman.—W.L.D., 3/2/91. Please recall.—J.P.M., 3/2/91. Mr. Davies, Chairman, Goulburn (P) 1, 4/2/91.

No. 19.

The Under Secretary for Lands to The Chairman, Land Board, Goulburn.

Sir,

Department of Lands, Sydney, 4 February, 1891.

I have the honor to request that you will be good enough to return to the Department as soon as possible papers 90-3,839, Miscellaneous Leases, relating to application for lease of 6,300 acres of land at Jervis Bay by the Australian Hemp and Fibre Company (Limited), which were forwarded to you on the 22nd December, 1890. The paper will be returned immediately.

I have, &c.,

WILLIAM HOUSTON,

Under Secretary,

(Per J.P.M.)

Will the District Surveyor kindly attach papers, L.B. 91-124, to him 23rd January, 1891.—F.S.M., 5/2/91. Papers herewith.—J. W. DEERING, 7/2/91. Papers herewith as requested.—F.S.M. (for Chairman). Local Land Board Office, Goulburn, 9/2/91. Application for refund of deposit may be considered on the return of the papers with Board's report.—J.P.M., 12/2/91. Returned to Chairman.—J.P.M. (for Under Secretary), B.C., 12/2/91.

No. 20.

The District Surveyor, Goulburn, to The Chairman, Land Board, Goulburn.

12 February, 1891.

ANNUAL Leases Nos. 91-1 to 10, by George White; Nowra Land District, parish of Bherwerre, county of St. Vincent:—

1. These applications are for leases of the portions of land shown by red lines on enclosed tracing, each containing an area of 640 acres.

2. The land comprised is for the most part covered with low scrub, the soil is sandy and barren, and its grazing value does not exceed 1d. per acre, at which annual rental I would recommend the leases be granted.

J. W. DEERING,

District Surveyor.

Court at Nowra, 27th February, 1891. Applicant notified 21st February, 1891. For approval of leases as applied for at a rent of 1d. per acre.

No. 21.

Decision of Land Board, Nowra.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

Now South Wales, }
to wit. }

WHEREAS on the 27th day of February, 1891, it became a matter for investigation before us as to annual leases applications by George White, Nos. 1 to 10, of 1891, Nowra, for 640 acres each, parish of Bherwerre, county St. Vincent, and having inquired into the said matter, we recommend the granting of the leases at a rental of one penny per acre.

Given under our hands, at Nowra, this 27th February, 1891,—

A. O. MORIARTY, Chairman.

Z. G. BICE.

L. MCINTYRE.

Although this report is irregular, inasmuch as it covers a series of applications, the recommendation of the Board is submitted for approval.—J.P.M., 7/4/91. Special.—R.H.D., 7/4/91. F.H.W., W.H.—7/4/91.

In view of a recent application (on papers 91-1,619, Ms. Ls.) by the Australian Hemp and Fibre Company to lease under the 37th section, Act of 1889, the area applied for by Mr. White, as annual leases, and as Mr. White's interests in the land are identical with those of the Company, it is submitted that he be informed that it will be necessary for him to withdraw the annual lease applications so that the land may be free to lease when the Company's application is under consideration. Special.—J.P.M., 16/4/91.

Submitted whether such be done, or whether the annual leases of Mr. White be refused in view of the memo's of 25/3/91 on 1,528, and of 3/4/91 on 1,619. R.H.D., 16/4/91. Special.—F.H.W., 16/4/91. May be informed, as suggested.—W.H., 16/4/91. Approved.—J.N.B., 17/4/91. G. WHITE (M.), 20/4/91.

No. 22.

16

No. 22.

R. J. Mackenzie, Esq., to The Secretary for Lands.

Australian Hemp and Fibre Company (Limited),
 No. 11, Central Chambers, 173, Pitt-street, 11 March, 1891.
 Sir, Messrs. Flood, Carpenter, and White propose to call upon you at 11 a.m. to-morrow (Thursday), with reference to an extended lease of the 6,400 acres of land at Bherwerre, under the Waste Lands clause of the Land Act, which they have now taken over to secure possession under an annual lease for this Company.

I have, &c.,
 R. J. MACKENZIE,
 Secretary.

No. 23.

Messrs. G. White and others to The Secretary for Lands.

The Australian Hemp and Fibre Company (Limited),
 173, Pitt-street, Sydney, 13 March, 1891.
 Sir,

You are aware that this Company put in an application for a twenty years' lease of 6,400 acres of waste or inferior land at Bherwerre, in the county of St. Vincent, under the Waste Lands clause of the Land Act.

At the meeting of the Local Land Board at Moss Vale, on the 14th January, when our application came before the Board, we were advised by the Chairman to withdraw that application and to obtain possession of the land under an annual lease, and he said that if we did so, the Board would immediately recommend the Government to reserve the land, and that we could then, if we thought well, renew our application for an extended lease under the Waste Lands clause.

We have acted under the advice of the Chairman, have withdrawn our application for a twenty years' lease, and have got possession of the land under an annual lease, and are now at work.

Will you kindly tell us if the land has been reserved by the Government as recommended by the Local Land Board.

We now propose, subject to any suggestions that you may be so good as to make, to renew our application for a twenty years' lease under the Waste Lands clause of the Act.

We are not putting in plants that perish within the year, but hemp-producing plants that live and last for many years.

We are not expecting an immediate return for our outlay, and we feel that an extended tenure would give us security against disturbance, which we are not satisfied that we possess under an annual lease.

We are very sensible of the cordial goodwill and evidences of a strong desire to co-operate with us that we have received from you, and we wish to act in cordial agreement with you in any steps that we take as respects land.

We desire to repeat what we have already stated, that if our work is, as we expect it will be, successful, the result will be to give a value to large areas of what has hitherto been regarded as waste land, which it was not hitherto suspected to possess, and our work will thus benefit, not only ourselves, but the Colony.

Shall we now renew our application for a twenty-years' lease under the Waste Lands clause of the Land Act?

For the Australian Hemp and Fibre Company (Limited),
 GEORGE WHITE,
 U. W. CARPENTER,
 J. W. FLOOD.

No. 24.

Telegram from The Under Secretary for Lands to The Chairman, Land Board, Goulburn.

14 March, 1891.
 PLEASE return papers eight forty-two of ninety-one, miscellaneous leases, sent you 12th ultimo, re Australian Hemp and Fibre Company's application for lease of inferior lands. Required by Minister Tuesday.

WM. HOUSTON,
 Under Secretary for Lands.

Papers herewith as requested.—C.E.B. (*pro.* Chairman). B.C., Local Land Board Office, Goulburn, 14/3/91. The Under Secretary for Lands.

No. 25.

 WHITE's flax lease—your wire to-day to Chairman, our report has now gone on with final recommendation.
 J. W. DEERING,
 District Surveyor.

No. 26.

17

No. 26.

Messrs. U. W. Carpenter and others to The Secretary for Lands.

Application for waste or inferior land.

Sir,

173, Pitt-street, Sydney, 17 March, 1891.

We hereby renew our application for a lease for twenty years of the about 6,400 acres waste or inferior land in the parish of Bherwerre, in the county of St. Vincent, for which our application dated 5th December, 1890, was subsequently and temporarily withdrawn, and of which we have since that date obtained possession on an annual lease at a rental of £26 per annum.

Our object in renewing our application for a twenty years' lease is the same as that we had in making our original application, viz., to grow hemp and fibre-producing plants, which are not annuals, and the cultivation of which could not be carried on except with the security of an extended lease.

We have, &c.,

For the Australian Hemp and Fibre Company (Limited),
 U. W. CARPENTER.
 J. W. FLOOD.
 GEORGE WHITE.
 R. J. MACKENZIE.

The deposit of £5 lodged with our former application, kindly credit to us as our deposit on this application.

The request embodied in the communication may perhaps be acceded to, and the Board asked for a report on the application for a lease under the 37th section, as originally submitted. The Minister has, I understand, intimated personally to the applicants that he is unable to see his way to authorise the proposed reservation.—W.H., 3/4/91.

The suggestion made in the first part to be adopted. The reserve cannot be made.—J.N.B., 6/4/91.

No. 27.

R. J. Mackenzie, Esq., to The Secretary for Lands.

Australian Hemp and Fibre Company (Limited).

Sir,

173, Pitt-street, 18 April, 1891.

I have the honor to request that an interview be granted to Messrs. Carpenter, Flood, and White, who will wait on you, on Tuesday, the 21st instant, at 2 o'clock p.m., with reference to matters in connection with the land at Jervis Bay.

I have, &c.,

R. J. MACKENZIE,

Secretary.

In view of approval of Minister. 17/4/91, the papers are remitted to the Chairman in connection with any subsequent application that may be made.—J.P.M. (for Under Secretary). B.C., 12/5/91. Within application under 37th section for Board. Court, Nowra, 28th May, 1891. Secretary of the Australian Hemp and Fibre Company notified, 20/5/91.

Having heard Mr. White for the applicants, and considered the evidence, the Board are unhesitatingly of opinion that no ground whatever has been shown for locking up the area described for the purpose contemplated.—A. O. MORIARTY, Chairman, Z. G. BICE, LEWIS MCINTYRE.

No. 28.

The Under Secretary for Lands to G. White, Esq.

Sir,

Department of Lands, Sydney, 20 April, 1891.

Referring to your Company's application for an inferior lease of the land noted in the margin, for the purpose of growing fibre-producing plants, I have the honor, by direction of the Secretary for Lands, to inform you, in order that the land may be free to lease when such application is under consideration, that it will be necessary for you to withdraw your applications for annual leases.

I have, &c.,

JNO. G. BLAXLAND.

No. 33.

Caption to Depositions of Witnesses.

Crown Lands Act of 1884—(Part II., Section 14, Sub-section 1).

New South Wales, }
to wit. }

THE examination of George White, of Sydney, in the Colony of New South Wales, *re* the application by the Australian Hemp and Fibre Company for lease of 6,400 acres, parish Bherwerre, county of St. Vincent, before the Land Board at Moss Vale, 14th January, 1891, and at Nowra, 28th May, 1891, it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

George White, of Sydney, Manager of the Australian Hemp and Fibre Company, being duly sworn, saith: In my former evidence I used the word experiment; we have now got beyond the stage of experiment; we know now that we can carry through our work, and do it with such results as will satisfy us and be an enormous benefit to the Colony, because we shall be able to utilise land which at present is useless; no less area than that applied for would suffice for our purpose.

Sworn by George White, at Nowra, this }
28th May, 1891, before us,— }

A. O. MORIARTY, Chairman.
Z. G. BICE, }
LEWIS McINTYRE, } Members.

This deponent, *George White*, 42, Margaret-street, in the Colony of New South Wales, manager of the Australian Hemp and Fibre Company (Limited), being duly sworn, saith: I am, on the part of the Australian Hemp and Fibre Company (Limited), applying for the lease 6,300 acres of land, in the parish of Bherwerre, land district of Nowra; my application is made under the 37th section of the Land Act of 1884; we apply for a twenty years' lease under that section; the land is waste land; I have inspected it, together with Mr. Hugh N. Carpenter, J.P., of Sydney, and Mr. Cyrus Blackett, of Nowra; it is composed of sand-hills and rock, covered with fern, short grass, and patches of light scrub, apparently useless for any product we purpose; our object in applying for the land is to test the possibility of utilising it by attempting to grow hemp and fibre-producing plants; the Company is prepared to spend some thousands of pounds in this experiment, but as it is an experiment at present only, we ask for a practical grant of the land; some considerable expenditure has already been incurred in importing plants, amounting to about £80 to £90; an area of about 3,000 acres could be planted with the 100,000 plants, but we could do with 50 acres at present; we offered 1s. for the block, but we are prepared to pay £10 per annum for the block; we have taken no steps to secure land for the planting, apart from this application; the soil of this particular block seems suitable for the experiment; there are other blocks which we have inspected but which are not sterile enough for the purpose; the other two sites suggested by the District Surveyor were too good; up to the present time we have not inspected any other sites; there is no reason for applying for this land other than for the purpose of growing fibre plant.

Sworn by George White, at Moss Vale, this }
14th January, 1891, before us,— }

A. O. MORIARTY, Chairman.
DAVID MORRICE, Member.

GEORGE WHITE.

Re matter of inferior lands lease at Bherwerre, county of St. Vincent.—Ask the Chairman to return report to this office as soon as possible.

W.H., 3/6/91.

The Chairman at Goulburn (P.), 3/6/91.

No. 36.

The Under Secretary for Lands to The Chairman, Land Board, Goulburn.

Sir,

Department of Lands, Sydney, 3 June, 1891.

I have the honor to request that you will be good enough to return papers numbered 91-2.186, miscellaneous leases, relating to application for annual leases of lands, parish Bherwerre, county of St. Vincent, forwarded to your address on the 13th May, 1891; also Board's report on recent application for a lease of same lands, under 37th section, 1889 Act, by manager or secretary of Australian Hemp and Fibre Company.

I have, &c.,

WILLIAM HOUSTON,

Under Secretary

(Per J.P.M.)

Papers herewith, as requested.—Jno. G.B. (for Chairman), B.C., Local Land Board Office, Goulburn, 9/6/91. The Under Secretary for Lands.

No. 37.

Office Memorandum.

Australian Hemp and Fibre Company's application for a lease of inferior land, under section 37 of the Crown Lands Act of 1889.

With much respect attention is drawn to the character and result of the Board's inquiry into this case.

The Board makes no "report"; it merely expresses an opinion. It says:—"We are of opinion that no ground whatever has been shown for locking up the area described for the purpose contemplated."

The 37th section requires the Board to "report," and it may be fairly assumed that as the law allows long leases, the question of granting them is one of policy, to be determined by the Minister.

It is not clear that the opinion expressed by the Board means that the applicants should show grounds why the lands should be locked up for the purpose contemplated; but if such is the meaning, then the view is held that the applicant is not called upon to do anything of the kind; it is for the Department to show that the land should not be locked up.

Neither is it clear that the Department is called upon to inquire whether the land is suitable for the purpose contemplated by the Company. That is their look out. They are willing to spend their money, and it is only right that they should be sole judges in the matter of spending their own money.

The 37th section requires these lands to be let by auction or tender, under conditions which may be announced in the *Gazette*.

It would seem that the first point to be determined is whether the land is inferior land in the light of section 37, and then upon what terms and conditions it should be let; also, whether by auction or tender.

On these points the Board would by report be a board of advice to the Minister, ultimate action being with the Minister.

On the first point, Mr. District-Surveyor Deering's report of 12th February, 1891, bears largely that the land is inferior.

If the "opinion" of the Board can be construed into a "report," and be accepted to meet the initial requirements of section 37, the case can now be dealt with by the Minister, apart from the view expressed by the Board, but if otherwise then the Board may perhaps be invited to report on the points mentioned in paragraph 6 hereof.

R.H.D., 12/6/91.

The papers should, I think, be returned to the Chairman for a specific report by the Land Board, based upon evidence as to whether the land, the subject of the application in question, is of an inferior character, and such as is contemplated by the 37th section of the Act of 1889. The Chairman should instruct the District Surveyor to cause an inspection to be made, the cost of which should be dealt with under sub-section VII of section 37. It will be for the Minister to decide upon the advisableness or not of granting a lease.—W.H., 16/6/91.

I concur.—J.N.B., 17/6/91. This case has been so long under consideration it should be treated as urgent.—J.N.B., 17/6/91. Inform applicants of reference to Board.—J.P.M., 19/6/91. Done, 19/6/91. Remitted to Chairman, Local Land Board, Goulburn, in accordance with Mr. Secretary Bruncker's decision of 17th instant.—J.P.M. (for Under Secretary), B.C., 19/6/91. District Surveyor, B.C., 25/6/91. For next Court at Nowra.—A.O.M., 25/6/91.

An inspection of the land, as suggested by the Under Secretary, was made, but the character of the country is known to me personally. I shall personally attend the next Land Court at Nowra, which will be on 30th July, 1891.—J. W. DEERING, District Surveyor, 2/7/91. The Chairman.

Court at Nowra, 30th July, 1891. Secretary Australian Hemp and Fibre Company notified, 15/7/91. Present: Full Board. The applicants appeared by their agent, G. White, with Mr. Blackmore, solicitor, and called the undermentioned witnesses: George White, Alexander Mathie, Duncan Henry Inverarity, and Alexander Bryce. The following witnesses were examined by the Board: Henry Gordon Morton, James Monaghan, John Maclean, and John W. Deering, District Surveyor. The Board retired for five minutes to consider their finding. On returning to the Court—the applicant's agent and solicitor having left—the announcement of their finding was, at 5.15 p.m., adjourned until to-morrow morning at 10 a.m. 31st July. Present: Full Board, the applicants, and their solicitor. After recapitulating the leading features of this case and the evidence, the Board stated that they found it on further investigation unchanged in every leading respect, and they can only now report that the land, the subject of this application or question, is not of an inferior character, such as is contemplated by the 37th section of the Act of 1889, and further, that no grounds have been made to appear by the applicants to warrant compliance with the application, which, if admissible at all, should rather have been one for consideration under the 90th section of the Act of 1884, under which, however, the applicants would be unable to obtain the area they wish to secure.—A.O.M.

Sir,

Department of Lands, Sydney, 3 July, 1891.

Referring to your letter of 1st instant, asking that the application of the Australian Hemp and Fibre Company (Limited) for the lease of inferior lands, may be brought before the Land Board at Nowra on the 28th instant, I have the honor to inform you that the Chairman at Goulburn has appointed a meeting at Nowra on the 28th instant, expressly to deal with the case in question.

I have, &c.,

WM. HOUSTON,

Under Secretary

(Per R.H.D.)

No. 44.

Z. G. Bice, Esq., to The Chairman, Land Board, Goulburn.

Dear Sir,

St. Enedor, Nowra, 3 July, 1891.

I have been subpoenaed to appear in Wollongong as a witness on the 28th of this month. Could you arrange to have your meeting held a day or two before or after the 27th, as I would like to be present if possible.

I have, &c.,

Z. G. BICE.

Too late to alter sitting day, but will endeavour to see you on the 27th. (See later letter).

No. 45.

R. J. Mackenzie, Esq., to The Under Secretary for Lands.

Australian Hemp and Fibre Company (Limited),

173, Pitt-street, 7 July, 1891.

Sir,

I have the honor to request, on behalf of the Company, that a surveyor or other official be instructed to visit and report on the 6,400 acres of land at Bherwerre, Jervis Bay, and that the report be made to the Land Board in time for the sitting to be held on the 28th instant.

The Company are willing to defray the expense of such inspection and report—say £3 3s.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

Submitted. I think, however, the papers, now in the local office, show that District-Surveyor Deering is familiar with the land applied for.—J.P.M., 8/7/91. Special. It may be necessary to have an inspection of the land and a report. This may be forwarded to the Chairman.—R.H.D., 9/7/91. Submitted.—F.H.W. (for Under Secretary), 9/7/91. Approved.—J.N.B., 9/7/91. Inform Australian Hemp and Fibre Company to-day, and send on to-day, please.—10/7/91. Acting Secretary, Australian Hemp and Fibre Company, informed.—J.P.M., 10/7/91. The Chairman, Local Land Board, Goulburn.—J.P.M. (for Under Secretary), B.C., 10/7/91.

No. 46.

Z. G. Bice, Esq., to The Chairman, Land Board, Goulburn.

Dear Sir,

St. Enedor, Nowra, 3 July, 1891.

I have been subpoenaed to appear in Wollongong on the 28th in a criminal case, so if our meeting on the 27th takes all day, I shall have to travel all night; but if we can have it over by 1 o'clock, I can be in Wollongong by bed-time. If we could meet at the Court-house (say) at half-past 9, and have our private chat, and then sit punctually at 10, I would be able, most likely, to be able to get away in time. I expect Mr. White will have a lawyer, and they are always a nuisance.

I will see what evidence I can get in the district.

I am, &c.,

Z. G. BICE.

Adjourn to Thursday, 30th August.—A.O.M., 13. Mr. Bice and Mr. McIntyre informed, 14/7/91.

No. 47.

No. 47.

Z. G. Bice, Esq., to The Chairman, Land Board, Goulburn.

Dear sir,

St. Enedor, Nowra, 17 July, 1891.

I thank you for altering the day of our meeting, and would suggest that H. G. Morton, Esq., J.P., and James Monaghan Esq., J.P., be asked by you to give evidence at that meeting, the former being the agent for the Berry Estate, and the latter having a knowledge of the land applied for. If you would like more evidence, I would suggest Mr. Jno. Maclean, proprietor of the local paper.

I have, &c.,
Z.G.B.

Mr. Morton, Mr. Monaghan, and Mr. Maclean invited.—25/7/91.

No. 48.

The Under Secretary for Lands to The Chairman, Land Board, Goulburn.

Sir,

Department of Lands, 20 July, 1891.

It having been represented that one of the members will not be able to attend the Land Board meeting, at Nowra, on the 28th instant, on which date the application of the Hemp and Fibre Company for 6,300 acres of land, near Jervis Bay, will be considered, I have the honor to inform you that as the case is of some importance the Secretary for Lands considers it desirable that it should be dealt with by a full Board.

I have, &c.,
WM. HOUSTON,
Under Secretary
(Per F.H.W.)

No. 49.

The Mayor of Nowra to The Secretary for Lands.

Extract from telegram to The Honorable The Minister for Lands from R. Patterson, Mayor of Nowra.

At a public meeting called by me as Mayor of Nowra, in answer to a requisition, the following resolutions were passed last night:—

* * * * *

“That, in the opinion of this meeting, if the Minister for Lands should be induced by any representation to grant a twenty-one years’ lease to the Australian Hemp and Fibre Company for 6,400 acres of land at Jervis Bay, he be requested to put very stringent conditions in the lease, which will compel the lessors either to deal actively with the lease, or else immediately forfeit it, as it is directly contrary to the public interest that so large an area of land lying so close to the railway terminus should be leased for so long a period, and that the Chairman be requested to arrange that this opinion be presented to the Chairman of the Local Land Board at the next Land Court sitting, and also that the member for the district be requested to urge the Minister to attend to the wishes of this meeting.”

No. 50.

P. H. Morton, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 29 July, 1891.

I have been requested by the Chairman of a public meeting, assembled at Nowra, to draw your attention to the fact that the Australian Hemp and Fibre Company have applied for the lease of 6,400 acres of land at Jervis Bay.

The persons assembled at the meeting were of opinion that, should you be induced by any representation to grant a twenty-one years’ lease of this block of land to the Company, you should put very stringent conditions in the lease, which will compel the lessors either to deal actively with the lease, or else immediately forfeit it, as it is directly contrary to the public interest that so large an area of land lying close to the railway terminus should be leased for so long a period.

Trusting that this matter will have your attention,

I have, &c.,
P. H. MORTON.

No. 51.

Caption to Depositions of Witnesses.

Crown Lands Act of 1881—(Part II, Section 14, Sub-section 1).

New South Wales, }
to wit. }

THE examination of George White, of Sydney, in the Colony of New South Wales, managing director of Company; Alexander Mathie, of Tomerong; Duncan H. Inverarity, of George’s Basin; Alexander Bryce, of Bherwerre; Henry G. Morton, of Numba; James Monaghan, of Green Hills; John Maclean, of Shoalhaven; and of John W. Deering, of Goulburn, District Surveyor, *in re* application to lease 6,400 acres, parish of Bherwerre, alleged inferior lands, by the Australian Hemp and Fibre Company, before the Board at Nowra, 30th and 31st July, 1891, it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto:—

This deponent, *George White*, of Sydney, managing director of Australian Hemp and Fibre Company, being duly sworn, saith: I know the land which is being applied for by the Company; I have been all over the land; it is applied for for the purpose of growing the aloe plant, in order to extract the fibre from the leaf; the land was applied for as an annual lease and approved by the Land Board at Id.

per

per acre; that application has been abandoned; the land was not at that time occupied, nor has it at any time to my knowledge been occupied; the nature of the land is sand and rock—sterile soil of an inferior character; that is the reason why it has been selected for the purpose; it is an isolated position; our nearest neighbour is at the light-house, which is 5 miles from the land at the point where we commenced operations; the land applied for runs close up to the light-house at one corner; there are two small selections close to the land which have been selected recently; one of the selectors offered to resell his selection to me; the Company has spent about £800 generally; in tools and plants we have spent £300 or £400 on the land; I put it specifically when we applied for the land that we wanted it for fibre-growing, and suggested that a forfeiture clause be inserted in the lease, so that if it were not used for that purpose the land should be forfeited; although I consider the land useful for our purposes, I consider it useless for anything else.

By the District Surveyor: I stated to the Board, in January last, that the Company had spent £80; we have expended a lot since; the official plan now exhibited to me is not correct; it does not represent the area applied for; it includes land to the north and west of the water reserve, which is good land that we do not want; it lies between St. George's Basin, the Light-house Road, and the land we want, the boundary of which is shown upon the map by the line A B; with that exception I believe the map is correct; the items of additional expenditure since January are—office expenses, secretary, travelling, tools, tents, registration of the Company, solicitor's charges, importing more plants, &c.: we have sent out an order for 1,000,000 more plants; on the land itself we have spent over £100 in tools and tents, and have kept three men going for four months continuously putting in plants; we have spent in raising and importing plants £50 to £100 additional to the £80 mentioned by me in January; we did that when we were an applicant for an annual lease; we have not attempted to secure land elsewhere other than this land; I am familiar with the land near Sydney and Manly Beach; I took a fibre out of the sand near Manly Beach; the land we want may be fairly described as sand-hills, sandy flats, and rock lying between the coast rocks and the rocks of Jervis Bay and St. George's Basin; our cultivation includes something approaching 50 acres; we have got 100,000 plants in, and from 400,000 to 600,000 in drills growing from seed; there is no practical difference between the country here and that about Manly Beach, except that there are more sand-hills here.

By Mr. Blackmore: There are no inlets on the coast.

By the District Surveyor: We have planted about 50 acres under our holding as an annual lease.

By Mr. Bice: If we do not get the whole area we would rather not have any.

By Chairman: Three hundred and twenty acres would be out of the question. The Company are willing to give a reasonable guarantee to go on with the work at once.

Sworn by George White, at Nowra, this }
30th July, 1891, before me,— }

GEORGE WHITE.

A. O. MORIARTY, Chairman.

This deponent, *Alexander Mathie*, of Tomeroug, timber merchant and farmer, being duly sworn, saith: My residence is near the land applied for by the Company; I reside about 10 miles from it; I am acquainted with the land; I have resided in the district over thirty-five years; I consider the land very poor land—part of it; it is sandstone formation, about 400 feet above the level of the sea, and a high mountain range, and for about 3 miles along the basin of the same formation, and about the same height; the remaining portion, along the south-western side, is of a different formation from the water reserve to Sussex Haven Inlet; it is sea sand drifted up in small mounds; it is at present in an isolated position, especially the high land; I consider it inferior land—the whole of it; the lower land is better than the other, but I consider that of an inferior nature also.

By Chairman: I live on the western side of the basin, not far from Mr. Blackett's place, which lies between me and the basin; Mr. Inverarity's place is not near me and Mr. Blackett's; Mr. Inverarity lives there; where I live is about 5½ miles from South Huskisson; the road from Braidwood strikes the bay at that point; Mr. Blackett has spent a great deal of money at his place; he has made a very commodious residence there—a cottage, which cost a good deal of money, without the other improvements; I should think the cottage cost not less than £1,000; St. George's Basin is a very nice lake; it is shallow in some places; I have a schooner there which draws 4 feet of water; I had a ketch there drawing 6 feet of water, using the inlet between St. George's Basin and Sussex Inlet, and trading to Sydney with timber principally; the schooner had traded regularly for the last five years.

By Mr. Blackmore: The schooner discharges at the end of the point, on the opposite side of the basin from the land applied for; Mr. Blackett's place is also on the opposite side.

Sworn by Alexander Mathie, at Nowra, this }
30th July, 1891, before me,— }

ALEXANDER MATHIE.

A. O. MORIARTY, Chairman.

This deponent, *Duncan Henry Inverarity*, of George's Basin, selector, being duly sworn, saith: My selection is adjacent to Talran Point, on the opposite side of the basin to the land applied for by the Company; I know most of the land applied for; I walked last Saturday along the eastern boundary of the Lake Windermere water reserve and the village reserve, and was at the land selected by John Harris; and from there, through the land applied for, to the selection of John Brice; thence, about the property, in a northerly direction, to the shore of the basin; and at various other times I have been at other points of the property, at the selection of Jesse Rossou, near Sussex Haven; I know the land pretty well; it is of a sandy nature with rock cropping out in parts towards the Light-house Road; the part towards Sussex Haven is more of a sandy character; I consider it of inferior character; I know of no part of it which I would call good soil; I consider its position isolated; if we take a point about the centre of the land applied for, and a radius of about 8 miles, it will include the settlement at the light-house, the fishermen at Amos' selection; the population would number about fifty, of which the light-house includes about thirty; I saw one schooner and a yacht there; Mr. Mathie's is the only schooner trading there; it trades for the timber on the opposite side of the basin.

By Chairman: One selector lives at each of Harris and Brice's selections.

By District Surveyor: It is a fact that I have been appointed the local manager of the Company; I know the tools and plants that have been placed on the land.

By

By Chairman: I have been living for four and a half years where I am living now; I went to the land now in question by instructions from the Company to take particular notice of the soil; I have made a home of my selection, and spent about £500 on it; the land where the improvements have been made by the Company is of a sandy nature, with an outcrop of stone, covered with a growth of fern and heath.

Sworn by Duncan Henry Inverarity, at Nowra, this }
30th July, 1891, before me,— }

DUNCAN H. INVERARITY.

A. O. MORLARTY, Chairman.

This deponent, *Alexander Bryce*, of Bherwerre, farmer, being duly sworn, saith: I have lived in the district about thirty-six years; I know the land applied for by the Australian Hemp and Fibre Company; I know the whole of the land well; most part of it is very barren land, and the remainder very inferior; I consider it isolated land; I do not consider it of any value for anything other than the purpose for which the Company have applied for it.

Sworn by Alexander Bryce, at Nowra, this }
30th July, 1891, before me,— }

ALEX. BRYCE.

A. O. MORLARTY, Chairman.

Henry Gordon Morton, of Numba, Magistrate of the territory, being duly sworn, saith:—

By the Board: I have been living in the district since 1853, and managing the Berry Estate; I know Jervis Bay; I have considered the probability of Jervis Bay rising; I think it has a great future in front of it, and that before very long; I do not think there is so important a place on the coast as Jervis Bay for nautical purposes; my opinion is that the public interest would be prejudiced by the land lying between the pink lines on the map being locked up for a term of years; speaking generally, I would not consider land so situated inferior land; situation makes land; I know Sydney Heads; there is not much difference between this land and Sydney Heads, except that this land has more sand upon it; my remarks would apply to the whole of the land.

By Mr. Blackmore, solicitor: I consider that using the land in the way contemplated would be locking up the land; I was very anxious for some time past for the welfare of the whole of the district that Jervis Bay should go ahead; there is more likelihood of its going ahead now than there has been for the last ten years, because the surveyors are now engaged in making trial surveys for a line between Nowra and the deep waters of Jervis Bay; I have never been on this land applied for by the Company.

By Chairman: The line is in course of construction to the Shoalhaven, opposite Nowra, and it has been proposed to construct the line to Jervis Bay; the vote was taken and passed by Parliament in the Stuart Government to carry the line from Kiama to Jervis Bay; a sum of about £800,000 was voted for it, and if it were made it would be one of the most important railways in the Colony.

Sworn by Henry Gordon Morton, at Nowra, }
this 30th July, 1891, before me,— }

HENRY G. MORTON.

A. O. MORLARTY, Chairman.

James Monaghan, of Green Hills, Magistrate of the territory, being duly sworn, saith: I am an old resident of this district, and have considerable land in the neighbourhood of Jervis Bay; I have considered the probability of Jervis Bay becoming of considerable importance in the future: I think it has a very great future; the fishing trade is increasing very rapidly; I think when the railway reaches this town, it will be very largely increased; the bay is a very large bay; some of it is exposed, but Now Bristol Bay is a very safe harbour, where vessels seeking shelter lie; it is a capacious bay, with deep water, and a narrow entrance; it is about 6 or 7 miles from east to west, and north to south; I think it will be a very important coal port before many years; there have been two bores put down in the vicinity of the bay, without finding coal, but a bore further inland has been put down, which I think is likely to develop into a payable seam; the coal is of a good quality; I know the land between George's Head and St. George's Basin well; I held it for seven years as a cattle station; I held the whole of the land shown by pink lines on the map, as a cattle station, previous to part of it being selected: the land has been described fairly well by previous witnesses; it is of the ordinary character of sandstone coast country; considering its situation, I should call it valuable land; if cleared and improved, it could be made good grazing land; I do not think it would be much of an advantage to have the land alienated for a term of years; the application leaves out the land which would be most likely to be used for population; the fresh-water lake is the finest I have seen in my life, and would be polluted if any large amount of steeping were carried on; there is no other supply of water except the small streams through the sandstone, which fail in the summer months; any large population settling down in New Bristol Bay would get its water supply from these lakes; George's Basin is a very nice lake; I have seen several vessels sailing over it; in the event of the fishing trade increasing, the granting of this lease would prevent access; fishermen would require to cross this land to get to any means of transit; Bristol Bay is near the south head of Jervis Bay; I think it would be against the interests of the district that this land should be alienated; that applies to the part nearest the bay, Sussex Haven, and that part coming round to Cape St. George.

By Mr. Blackmore: There would be no objection if access were given to the water for the fishing trade; there are a number engaged in that trade who cannot get to it except over this land; they come as a rule by water to St. George's Basin; it is twenty-five or twenty-six years since I gave it up as a cattle station; I held it as a lease from the Government; I think we paid about £2 a section of 640 acres of this land; we abandoned these leases; I was leaving the Colony at the time; I think Mr. de Mestre occupied them as a cattle station; he went to great expense in fencing across the neck; I think he abandoned it owing to some adverse circumstances; I found that stock could not be left long upon it without taking a kind of disease I attributed to the indigo plant; they would thrive on it at first, and after a time would fall off; the plant usually grows on a sandy and rich brush soil; it is seven or eight years since Mr. de Mestre abandoned it; the part of the fence which I saw included a much larger area than the present area in question; I found the position most convenient; the position was isolated, but it was convenient on account of its position; I am not aware of the process of obtaining the fibre; I do not think it would be prejudicial to the public interest, if a large part of this area were alienated, if

access

access were left for the fishing interest; the main reason of this land not having been used is the reserve; there is a lot of valuable land for grazing, if it were improved; I am an experienced grazier in these districts; I know of no sandstone country where cattle will thrive if kept on it; compared with the rest of the land in the district, I consider part of it of very inferior character, and part not; if I were going to take up land, I would prefer a great deal of this land to anything that has been taken up about the forest; in comparing this land with adjacent lands, I do not include the rich Shoalhaven flats.

Sworn by James Monaghan, at Nowra, this }
30th July, 1891, before me,— }

JAMES MONAGHAN.

A. O. MORIARTY, Chairman.

John Maclean, of Nowra, proprietor of the *Shoalhaven Telegraph*, being duly sworn, saith: My attention has been directed to the question of leasing the land lying between George's Basin, Jervis Bay, and the coast for a term; I have considered the question, and consider that if a way of access were provided from the mouth of the Sussex Inlet or thereabouts, running north-east between St. George's Basin and Windermere Lake, to a point north of that lake on the Cape St. George, on Tomerong Road, and if no contamination of the lakes were allowed, I think that no injury to the public would result from such a lease as is applied for, provided conditions of annual labour and production were embodied in the lease; I have come to this conclusion by an examination; the land has been accurately described by previous witnesses: the land is absolutely worthless for grazing or agricultural purposes, as ossification of the joints sets in cattle run on it without improvement; I think it extremely probable that the extension of the railway will be through this land; it is the shortest route and the easiest to Ulladulla; if a platform were placed there it would give this land a greatly increased value; it would be used for all kinds of industries if a means of communication were provided; I think the railway is likely to provide those means; there has been a right of road in use through this land to Messrs. Goodlet and Smith's saw-mills at Redhead, and thence to Ulladulla.

By Mr. Blackmore: Goodlet and Smith's saw-mills were removed to Kifola six or seven years ago; one reason for the land not being occupied is its comparatively inferior character, another is the want of communication, which is the prime reason.

To the Bench: I think the 20-chain reserve should be continued further along the coast—along the Sussex Haven.

To Mr. Blackmore: I believe the trial survey will go right through this land, from a conversation I had lately with the surveyors; Walker's grant, which is about a mile from this land, is valued at £6 an acre; the owners refused a less price; it is the same character of land, but has a lake frontage; it has not been improved, and there is no timber on it.

Sworn by John Maclean, at Nowra, this }
30th July, 1891, before me,— }

JOHN MACLEAN.

A. O. MORIARTY, Chairman.

John William Deering, of Goulburn, District Surveyor, being duly sworn, saith: I know this land; the character of the soil has been very accurately described; it is inferior, but the land is very far from being inferior: no lands can be called inferior lands that have communication by water, and that will be within 15 miles of the railway terminus; there is no doubt whatever but that the railway will extend to Jervis Bay, which is the finest harbour and the easiest to enter, and the safest along the coast of New South Wales; it carries deep water right in to the shore; such a position cannot possibly be classed as inferior lands, as lands of an inferior character, and coming within the scope of section 37; I draw a very wide distinction between the character of the soil and the character of the land; neither can such lands possibly be described as being isolated; some years ago, anticipating settlement and the extension of the railway, I caused that water reserve to be made, and also the village reserve; in this locality a township named Queenstown has already been designed, and only awaits the extension of the railway to the deep waters of Jervis Bay; having in view this railway extension, I am satisfied that to grant a lease of 6,000 acres for twenty years to any company for any purpose whatsoever would be a fatal error on the part of Government; so far as I am connected officially with the matter, and I was connected with it from the very first step, I should be only too glad to aid such an industrial company, but I again repeat that it would be a fatal error to grant a lease of this land for twenty years.

To the Bench: As District Surveyor this is my special function, without fear or favour; I am bound to give my views in the public interest; it would be my duty to have this land sub-divided if for sale; I should sub-divide it into town and suburban lands; Jervis Bay is bound to make itself felt in the future; I would not recommend the sale of this land at all at present; it is too valuable to sell now; it has a far greater prospective value than at present, and twenty years' time is a long period for railway development; there is Walker's grant and Deas-Thomson's grant in the vicinity; South Huskisson on the Deas-Thomson grant; Huskisson is about 1½ mile further north; Walker's grant adjoins it; John Lamb's grant adjoins, and these were the early selected grants in this district; the experience in all countries will be found that where there is a deep-water harbour that harbour will command navigation and settlement; I see a sketch which I prepared with a view to having the land granted to the Company as an annual lease; I was of opinion that the annual lease should be granted, and the land reserved; reserve 23A, adjoining Sussex Haven, was reserved for coal-mining purposes; I heard the evidence of Mr. Morton, and having known this district intimately for thirty years, I entirely concur in the evidence he gave; there are a couple of mining permits applied for by Henry Copeland and Dr. Tarrant of 640 acres each, adjoining the land applied for by the Company, with the ulterior object of obtaining a lease; there are three of Copeland's permits: I recommended these annual leases at £2 per section; I should think £4 an acre would be its present value; it is partly in consequence of the inferior character of the land generally that it has not been occupied; there have been several selections taken on it; I think its position gives a value of £4 an acre, but I would not sell at all now; township of Huskisson has been laid out a very long time, and there has been no settlement as yet, but they are only waiting for the railway; I was asked in first step to pick out several areas suitable for this purpose, which were vacant; the Minister sent for me, and I sent in three large vacant areas, but nothing transpired as to a lease of land for twenty years within 15 miles of a railway station, and with a prospect of a railway going right on to the land in a short time; I was not asked to choose this land on account of the inferior character

and isolated position; the 37th section was not referred to me; in the event of there being no railway to Jervis Bay I would not then consider these inferior lands within 15 miles of a railway terminus; I am still in favour of an annual lease.

To the Bench: My remarks refer to the whole of the area applied for; any modification of the area would only be a modification of the error.

To Mr. Blackmore: In any case, I would now recommend the reservation of these lands from selection, and, in fact, I have already done so.

Sworn by John William Deering, at Nowra, }

A. O. MORIARTY, Chairman.

J. W. DEERING,
30 July, 1891.

No. 52.

Decision of Local Land Board, Nowra.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }

WHEREAS, on the 30th day of July, 1891, it became a matter for investigation before us as to an application by the Australian Hemp and Fibre Company (Limited) for a lease for twenty years of about 6,400 acres of waste or inferior lands, parish of Bherwerre, under section 37 of the Act of 1889; and having taken evidence and inquired into the said matter,—

The applicants appeared by their agent, Mr. G. White, with Mr. Blackmore, solicitor, and called the following witnesses: George White, Alexander Mathie, Duncan Henry Inverarity, and Alexander Bryce. The following witnesses were examined by the Board: Henry Gordon Morton, James Monaghan, John Maclean, and John W. Deering, District Surveyor. The Board retired for five minutes, to consider their finding; on returning to the Court—the applicants' agent and solicitor having left—the announcement of the finding was, at 5.15 p.m., adjourned to to-morrow morning at 10 a.m. 31st July, 1891.—Present: The full Board, the applicants, and their solicitor. After recapitulating the leading features of the case, and the evidence, the Board stated that they found it, on further investigation, unchanged in every leading aspect, and they can only now report that the land, the subject of the application in question, is not of an inferior character, such as is contemplated by the 37th section of the Act of 1889; and further, that no grounds have been made to appear by the applicants to warrant compliance with the application, which, if admissible at all, should rather have been one for consideration under the 90th section of the Act of 1884, under which, however, the applicants would be unable to obtain the area they wish to secure.

Given under our hands, at Nowra, this 31st day of July, 1891,—

A. O. MORIARTY, Chairman.
Z. G. BICE,
LEWIS McINTYRE,
Members of Local Land Board.

No. 53.

G. White, Esq., and others to The Secretary for Lands.

Australian Hemp and Fibre Company (Limited),
173, Pitt-street, Sydney, 10 August, 1891.

Sir,

After the sitting of the Land Board at Nowra, on the 30th July ultimo, the Chairman said that the Board had agreed to report that the about 6,400 acres of land at Bherwerre, for a lease of which under clause 37, this Company has made application, were not of an inferior character or in an isolated position, as those phrases were interpreted by the Board, because the extension of the coastal railway to Jervis Bay might probably give value to land in that district otherwise valueless; and that the Board had not deemed it necessary to carry out the instructions of the Minister to send an independent surveyor to report to the Board as to the character of the land before the Board sent in its report to the Minister.

We respectfully admit that facts are against the Board's report; and that the following questions, which contain the gist of the whole matter, have not in any way been considered by the Board.

Why is it that for over 100 years, since the advent of the British race to these shores, Jervis Bay, probably the finest harbour and haven in all Australia, has been, and still is, absolutely useless and unused for any commercial purposes whatever? That of the £46,000,000 sterling of yearly imports and exports of New South Wales not 6d. worth comes into or goes out of Jervis Bay. That absolutely no population has gathered on the tens of thousands of acres of land which front its waters; and that even the township of South Huskisson projected and partly built fifty and sixty years since has been abandoned. Men-of-war go there for gunnery practice, because there is no population to disturb; ships take refuge in its placid waters from the storms of the outer seas; but from year's end to year's end no trader unloads or takes in cargo in Jervis Bay.

The bay is only 100 miles south of Sydney; the entrance to it between the Heads is superb; it is a land-locked haven for steamers and sailing ships; it has deep sea-water anchorage close up to its shores; but with all these advantages it has been, and still is, useless and unused.

The ports of Sydney and Newcastle have attracted enormous and busy populations; sand-barred rivers such as the Clarence and Richmond, and even on a smaller scale the Shoalhaven itself, have an ever increasing traffic, and grow in importance; even such open roadsteads as Kiama are visited regularly by trading steamers. Jervis Bay stands alone in its pronounced desolation, and in total absence of life, of population, of trade; one may scan its waters for a sail for weeks at a time in vain; one may ride over the tens of thousands of acres which enclose it for days without meeting a human being. Why? The answer is simple.

It is admitted by the Land Board, and proved in evidence, that the land which surrounds Jervis Bay is of so inferior and sterile a character that tillage is impossible; for grazing purposes we have it in
evidence

evidence (by Mr. Monaghan and Mr. Maclean, of the *Shoalhaven Telegraph*) that cattle will not thrive there. Mr. Monaghan leased it for grazing, and had to abandon it; subsequently Mr. de Mestre leased it for grazing, and had to abandon it (*vide* Mr. Monaghan evidence). We ourselves have had to take out forage for horses from Nowra, 23 miles away; even the Land Board admits, as we understand, that the land, *per se*, is of an inferior and sterile character, which is one cause of the total absence of population.

The total absence of trade and traders at Jervis Bay is due to the simple fact that Jervis Bay is isolated from the mainland of Australia; it is connected by a narrow neck of land with the Illawarra district, but the trade of the Illawarra district does not go, cannot go, and will not go there, even when the coastal railway is extended to Jervis Bay; the products of the Illawarra district are practically butter and coal. Butter finds its natural market both for home consumption and export by the coastal railway in Sydney. The coal is shipped at Clifton or Bulli more cheaply than it would be if it was taken to Jervis Bay, and none of the trade of the Illawarra district has found its way to Jervis Bay, nor can it do so.

But more. The Illawarra district itself, in which Jervis Bay is included, is cut off and isolated from the main part of Australia by the coast range of hills which runs alongside of it from north to south, nearly parallel with the sea. It has no communication with the interior of the country. It taps none of the internal trade, nor can it do so. Even when the coastal railway is extended to Jervis Bay, steamers and sailing ships will not discharge or load there. There is no market or outlet for imported cargoes. They would have to be put on the rail and brought to Sydney, and it would save money for the ship to come on to Sydney and discharge there. As to taking in cargo, there is no cargo to take in, and ships going to Jervis Bay would look in vain for a freight.

Where, then, is the future of Jervis Bay to come from—the “great future” of which Mr. Morton and Mr. Deering speak in evidence, and for which they hope? They give no grounds for their hope. It is clear that it can come from only one of two courses, or from both.

Trade has not come to Jervis Bay for the last 100 years, and it cannot come for the next 100 years unless the hills are pierced and tunnelled, communication is opened up with the interior of the country by rail, and trade which now goes to Sydney is tapped and drawn off to Jervis Bay. Will the Colony consent to tunnel and construct railways at enormous expense for the purpose of transferring internal trade from Sydney to Jervis Bay? Will this be done within the next fifty years? We may safely say that it will not be done. Sydney will hold her own. Meanwhile, the Illawarra coastal railway will do the Illawarra coastal trade, but it will not turn Jervis Bay into a trading port.

Are, then, the sterile soil and isolated district round Jervis Bay to remain idle, unproductive, and uninhabited for another 100 years until railway communication is opened up direct with the interior; or are these waste lands to be unlocked and leased to those who, like ourselves, desire to start a new industry there, which may give an impetus to the whole district?

These matters have not been considered by the Local Land Board.

We have, &c.,

No. 54.

R. J. Mackenzie, Esq., to The Secretary for Lands.

The Australian Hemp and Fibre Company (Limited),
173, Pitt-street, 10 August, 1891.

Sir,

I have the honor to inform you that some of the directors of this Company will wait on you on Wednesday, the 12th instant, at 2 p.m., with reference to the evidence at the Land Board meeting on the 30th ultimo in connection with the land at Jervis Bay, and will esteem it a favour if you will grant an interview.

I have, &c.,

R. J. MACKENZIE,
Acting Secretary.

Papers with Board's decision not yet to hand.—E.A., B.C., 11/8/91. Perhaps the Chairman may be asked by wire to forward papers by to-night's mail.—J.P.M., 11/8/91. Perhaps the papers will not be required to-morrow; the facts of the case are pretty well known.—R.H.D., 11/8/91. Let me know to-morrow morning whether the papers have been received.—W.H., 11/8/91. The papers have not been received, Mr. De Low.—J.P.M., 12/8/91.

Inform that papers have not been received from the Chairman, and that consequently it is considered an interview would at present be useless, but that the Acting Secretary will be informed, as already promised, of receipt of papers.—W.H., 12/8/91. Acting Secretary, Australian Hemp and Fibre Company, 12/8/91.

No. 55.

The Under Secretary for Lands to R. J. Mackenzie, Esq.

Sir,

Department of Lands, Sydney, 12 August, 1891.

With reference to your letter of the 10th instant, intimating that the Directors of the Australian Hemp and Fibre Company (Limited) intended to wait upon the Secretary for Lands at 2 o'clock this afternoon in connection with land applied for by the Company at Jervis Bay, I have the honor to inform you that as the papers relating to the application have not been received from the Chairman of the Land Board at Goulburn it is considered that an interview would, at present, be useless.

You will be informed, as already promised, of receipt of papers.

I have, &c.,

WM. HOUSTON,
Under Secretary
(Per R.H.D.)

R. J. Mackenzie, Esq., to The Secretary for Lands.

Australian Hemp and Fibre Company (Limited),

Sir,

173, Pitt-street, 12 August, 1891.

I have the honor to acknowledge the receipt of your favour of to-day, postponing the interview asked for by the direction of this Company, in consequence of the non-receipt of the report from the Local Land Board, held on the 30th and 31st July.

As the Chairman of the Board definitely promised that the report should be forwarded the early part of last week, and as the interests of this Company are greatly prejudiced by the great delays in getting the matter of the land question settled, may I respectfully ask you to take what steps you may consider necessary to get a speedy transmission of the report.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

This statement is borne out by the newspaper report. Perhaps the Chairman may be asked to send the papers at once.—R.H.D., 12/8/91. Submitted.—W.H. Approved.—J.N.B., 12/8/91. Chairman asked by wire to return papers to head office.—J.P.M., 13/8/91.

PLEASE forward by next mail papers 91-3,893, mis. leases, respecting Australian Hemp and Fibre Company's application. See 37.

WILLIAM HOUSTON,

Under Secretary.

The decision form has been forwarded. Signature of member of Board I will send as soon as received.—Jno. G. BLAXLAND (for the Chairman). Land Board Office, Goulburn, 13/8/91. The Under Secretary for Lands.

No. 58.

The Chairman, Land Board, Goulburn, to The Under Secretary for Lands.

Sir,

Land Board Office, Goulburn, 15 August, 1891.

I have the honor to forward herewith the decision form, L.L.B., 10, in the matter of the application by the Australian Hemp and Fibre Company, which was before the Land Board at Nowra on the 30th ultimo, and to request that it may be attached to the case.

I have, &c.,

JNO. G. BLAXLAND

(For the Chairman).

Now that the Board's report is here, perhaps the Minister will name a day to receive a deputation from the Company as asked for.—R.H.D., 17/8/91. F.H.W.

No. 59.

Office Memorandum.

Australian Hemp and Fibre Company's (Limited) application to lease land at Jervis Bay.

THE enclosed lithograph, "X," shows, by red tinting, the land desired to be leased by the above Company.

The railway trial line is also indicated by red broken line; the terminus, as at present proposed, being at South Huskisson.

Reserves have, however, been notified beyond that point, pending determination of the route adjoining the land desired to be leased.

Part of the proposed railway, viz., from Kiama to the northern bank of the Shoalhaven River, is now in course of construction, but the proposal to extend the line beyond Nowra has not yet been before the Parliamentary Standing Committee on Public Works.

C.J.S., 19/8/91.

The Minister will see Messrs. Mackenzie and White on Wednesday next, at 11 a.m.—W.H., 20/8/91. Inform early.—R.H.D., 20/8/91. Acting Secretary, Australian Hemp and Fibre Company (Limited).—H.A., 20/8/91.

No. 61.

R. J. Mackenzie, Esq., to The Under Secretary for Lands.

Australian Hemp and Fibre Company (Limited), No. 11 Central Chambers,

Sir, 173, Pitt-street, Sydney, 21 August, 1891.

I have the honor to acknowledge your letter of yesterday's date, appointing Wednesday next, at 11 o'clock, for the Secretary for Lands to receive the directors of this Company.

I must thank you for the trouble and interest you have taken in endeavoring to assist the directors in the matter under discussion.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

No. 62.

Messrs. G. White and R. J. Mackenzie to The Secretary for Lands.

The Australian Hemp and Fibre Company (Limited),

Sir, 173, Pitt-street, Sydney, 24 September, 1891.

We desire to draw your kind attention to the position in which this Company is placed as respects the lease for which it has applied of the about 6,400 acres of land at Bherwerre, in the Nowra district.

Acting on the report furnished to you by the now District Surveyor, we, in November last year, inspected three blocks of land selected by him as being suitable for our work. We rejected two, which we considered to be too good as respects the character of the soil, and applied for this as being the only one of the three bad enough for our purposes.

We require not good soil, but sand and rock, and the 6,400 acres of land at Bherwerre are sand and rock.

Acting on the faith of what you yourself have said to us as a result of the report of the now District Surveyor, we have quietly, but steadily and cautiously, prosecuted our work on the ground. We have already about 150,000 plants in the ground; we have seed in the ground which should give us from 400,000 to 600,000 plants; and we have taken steps to import seeds and plants which may probably give us another million of plants.

We have established a permanent camp and put up buildings of a permanent character; we have had twelve men at work clearing and planting, and have incurred considerable expense in the prosecution of our work. To-day we find the whole of our work imperilled by the extreme delay which has taken place in granting us the lease for which we have applied. May we appeal to you to put an end to the delay and grant us the lease, so that we may prosecute our enterprise, which we believe to be one not only most promising as regards ourselves, but also as regards the interests of the Colony itself.

We have, &c.,

GEORGE WHITE,

R. J. MACKENZIE,

For the Australian Hemp and Fibre Company (Limited).

No. 63.

R. J. Mackenzie, Esq., to The Secretary for Lands.

The Australian Hemp and Fibre Company (Limited), 11 Central Chambers,

Sir, 173, Pitt-street, Sydney, 24 September, 1891.

Mr. White and I will have the pleasure of calling on you this afternoon, at 2 p.m., respecting the lease of the land at Bherwerre, at Jervis Bay.

I have, &c.,

R. J. MACKENZIE,

Acting Secretary.

No. 64.

Messrs. G. White and R. J. Mackenzie to The Secretary for Lands.

Australian Hemp and Fibre Company (Limited),

Sir, 173, Pitt-street, Sydney, 6 October, 1891.

It is now ten months since we first applied to you for a lease of the 6,400 acres of land at Bherwerre, under clause 37, for the purpose of starting an industry new in this Colony, viz., the growth on a large scale of hemp and fibre-producing plants; and it is more than six months since, acting in direct accord with your kindly suggestions and advice, we renewed that application.

Having had, and still having, the most implicit faith in your good self and in your honesty of purpose, and in the righteousness of the work we have undertaken, we have patiently or impatiently waited all these months for the lease which we were told would be granted to us, and in the full faith that we should have that lease, we have expended fully £1,000 sterling. Any suggestion that we might fail to get that lease has been put aside by you personally, and at our interview on the 21st April, when we pointedly asked you, "Is there any doubt whatever that we shall get this lease?" you replied, "None whatever."

So recently as the 24th September, you informed us that you were considering the terms upon which the lease would be granted, as it was necessary to meet the suggestions of the District Surveyor; and you then asked us to send you a letter stating what work had been done on the faith of your promises, so that you might have a basis upon which to act.

We have recognised to the full the difficulty which has been placed in your way by the apparently changed attitude of the District Surveyor, and it was our recognition of this which led us on the 26th August to suggest that you should get a report from an independent surveyor, when you told us that, for your own justification, you would send down, not a surveyor, but the Chief Surveyor, and have his report. We were, and we still are, sure that his report will put on one side once for all the suggestions which at the last moment have been made by the District Surveyor in contravention of his previous statements.

You

You will perceive by what we have written that your statement to us last Friday, that in the face of the report of the Local Land Board, you could not grant us the lease, has come upon us as a complete surprise, and that we are aghast and dumbfounded that, after waiting all these months, and after having had any suggestions of doubt allayed by such statements as we have quoted; and after the shareholders have been led by us to expend over £1,000, in simple and perfect faith in those statements, we should be exposed to the charge of having misled the shareholders, who, in simple faith in those statements, have allowed us to expend the money.

As we are anxious to do all that lies in our power to co-operate with and assist you in the settlement of this matter, we shall be glad if you will favour us with an interview to-morrow, Wednesday, the 7th instant, at 11 a.m.

We have, &c.,

GEORGE WHITE.
R. J. MACKENZIE.

This asks the Minister to grant an interview at 11 to-morrow. Is any reply needed on that point, please?—R.H.D., 6/10/91. F.H.W. Yes; please arrange the appointment.—J.N.B., 6/10/91. Messrs. White and Mackenzie, 6/10/91.

[Enclosure.]

WE, the undersigned, residents and property-holders in the Shoalhaven district, hereby declare and say that we are acquainted with the land at Bherwerre, on the north of Wreck Bay, for a lease of which the Australian Hemp and Fibre Company (Limited) has applied; that it is in an isolated position; and that it is inferior sterile land, useless for agricultural or grazing purposes; and we think it desirable in the interests of the Colony and of the district that the lease should be granted to the Company.

No. 65.

The Under Secretary for Lands to Messrs. G. White and R. J. Mackenzie.

Gentlemen,

Department of Lands, Sydney, 6 October, 1891.

Referring to your letter of 6th instant, asking to be favoured with an interview with the Secretary for Lands respecting application by the Australian Hemp and Fibre Company for lease of inferior lands, I am directed by the Minister for Lands to inform you that he will be pleased to receive you at 11 o'clock to-morrow morning.

I have, &c.,

WM. HOUSTON,
Under Secretary
(Per R.H.D.)

Parish of
Bherwerre.

No. 66.

No. 66.

Mr. J. Maclean to The Chairman, Land Board, Goulburn.

Sir,

Nowra, 7 October, 1891.

Under separate cover I enclose you a copy of the *Shoalhaven Telegraph*, containing an extract from the London *Times* on the subject of the growth of Sisal grass in the West Indian (British) Isles, and the rent there charged 4 dollars, or £1 of English money, per acre, somewhat in contrast to the price proposed to be charged, and the concessions of lease asked for by the Australian Hemp and Fibre Company of Jervis Bay.

The Sisal grass is so named after Sisal, a port of entry in Yucatan, and that plant is identical, I believe, with the *Agave* (from the Greek *Aganos*—noble) *Americana*, of the order *Amaryllidaceæ*, sought to be grown here.

I have, &c.,

JNO. MACLEAN.

P.S.—As the plant takes from ten to seventy years fully blossom, there would be an outcry by any proposal to terminate leases and destroy a half-grown crop.

J. M.

The papers relating to the application for special lease by the Australian Hemp and Fibre Company (Limited), L.B. 91—4,198, having been forwarded to Head Office, 13th August, 1891, it is submitted that this letter be also sent.—F.S.M., 12/10/91.

Yes. The Under Secretary for Lands.—Jno. G. B. (for Chairman). Land Board Office, Goulburn.—12/10/91.

[Enclosure.]

Extract from the *Shoalhaven Telegraph*, 7th October, 1891.

CULTIVATION OF FIBRE PLANTS.

At the last Land Court, held at Nowra, it will be remembered that the Australian Hemp and Fibre Company applied for a twenty-one years' lease of land, for which the original rent was to be 1d. per acre. The history of the application will still be fresh in the minds of readers. On the subject of fibre-raising, and the rent paid for land in the West Indies, the *Times*, of July, contains the following interesting information.

In the West Indies, commercial questions are very much the order of the day. The development of the cultivation of Sisal fibre in the Bahamas is likely to make an extraordinary difference in the position which this group of rocks and islands has hitherto held among British possessions, and the conversion of what was once looked upon as a useless weed into a source of wealth and activity has been sudden enough to give an almost phenomenal interest to the story. Only four years ago the natives were complaining of the impossibility of eradicating the aloe-like shrub from the lime soil of their plantations. It grew wild everywhere; its long intractable leaves obtruded themselves in the midst of every crop; the most determined efforts at repression were unavailing; it was regarded, in fact, as nothing less than the original sin of Bahaman agriculture. The commercial experience of the present Governor, Sir Ambrose Shea, enabled him fortunately, not only to perceive the possible value of such a fibre as that contained in the Sisal leaves, but also to take steps for making it known to the markets in which it would be most highly prized. Experts from Newfoundland were the first to confirm the high opinion which he had formed of the fibre. It was recognised as possessing qualities equal to those of the best rope fibres. Negotiations were entered into for its cultivation. Early in 1890, a bounty amounting to £4 10s. per ton on all exported was granted for a period of seven years, and capital began to flow into the islands.

Government lands, which had previously been regarded as waste, were taken up for the cultivation of the fibre, and the price of them was raised in the Government interest from 5s. an acre to 4 dollars. It was considered necessary, as a guarantee of the interests of early investors, to agree to limit the area of Government grants during a period of ten years to 100,000 acres. The allotments have been also carefully distributed with a view to averting any trouble likely to arise from a sudden disturbance of the labour market, and the largest plantations are situated in islands by themselves, where it is calculated that the existing labour supply will be able to meet the new demand without undue strain. In return for the care and forethought which have been shown in these arrangements, some of the more important investors that have taken up the land have contracted to forego the country, and the general feeling with regard to the prospects of the enterprise may be gathered from the fact that, though it is little more than a year and a half since the opening for capital became known, the last available land within the Government limitation was taken up last week. It has been found that an acre of land will produce a yearly crop of about half a ton of fibre; the Sisal plants last from twelve to fifteen years. They are planted in rows, with young ones coming up between them, so that the crop is practically self-renewing, while the soil is inexhaustible. The preparation for the market consists simply in crushing the leaves through rollers, and washing away the juicy matter, which is reduced to pulp. Very little labour is required, and while the present price of the fibre ranges up to £34 a ton, the cost of production and delivery averages about £12. The export trade of the Bahama in the year 1889 was slightly over £130,000. Already it has felt the influence of the fibre industry, and there is a confident anticipation that before the ten years which limit the extent of Government grant have elapsed the figures of the export trade will have risen to a million and a half. From the nature of the cultivation, which demands little outlay of capital, presumably the labouring population of the islands will desire to take part in it on their own account, and provision has been made that any native head of a family who is not already in possession of land may, upon application to the Government, receive a grant of 10 acres at the old price of 5s. an acre, to be paid out of the first year's crop. These grants will be outside the 100,000-acre limit; but in order to guard the natives from the temptation to sell as soon as the price of land is found to rise, they will be made in the form of an untransferable license of occupation, which must run for twenty years before the freehold title can be acquired. Already from the sale of Government land a fund of £50,000 has been created, which will be available for the purposes of public works in the Colony. If the improvement in the material condition of the natives creates a market for imports to correspond even partially with anticipated increase in exports, the commerce and revenue of the Bahamas will have taken an almost unprecedented bound forward. In this connection it is pardonable to note with satisfaction that the capital invested in the Bahama Islands comes entirely from England and Newfoundland.

No. 67.

The Chief Surveyor to The Under Secretary for Lands.

Application by the Australian Hemp and Fibre Company for lease of inferior land at Jervis Bay.

Nowra Land District—Goulburn Board.

I HAVE carefully perused all the papers in this case, which have been forwarded for my report, under B.C. of the 7th October instant.

It is needless for me to refer to the advantages which may accrue through the establishment of such an industry as that now projected; they appear to be fully recognised, and no doubt the enterprise will receive such encouragement from the Government as may be feasible.

The

The Company is disappointed and feels aggrieved at the result of the applications to lease, which has been reported as not coming within provisions of the 37th section of the Crown Lands Act, for the reason that the lands desired are not inferior lands within the meaning of law; and Company protests against this decision.

The evidence taken as to the character of the land is decidedly to the effect that it is of "inferior character," but apparently there is ground for difference of opinion as to the meaning of this term. With the utmost deference to opinion herein expressed to the contrary, I submit that if read in connection with the context the term "inferior lands" means lands which cannot in their natural state be profitably utilised for pastoral occupation, or which cannot be offered with reasonable prospect of sale at the minimum upset prices of the classes to which they belong; and certainly the weight of evidence supports this representation of the conditions of the country under consideration—which, moreover, are shown (Monaghan) to have been held under lease and abandoned several years ago.

The District Surveyor lays much stress upon the prospective value of this land to accrue through the probable construction of a railway to Jervis Bay. There can be no doubt that all land is enhanced in value by access, especially so through easy access by railway; but the District Surveyor attaches this higher value as applicable to town and suburban subdivisions, which brings into consideration the probabilities of extension of the south coast railway to Jervis Bay, and contingent public requirements.

Jervis Bay has been known for many years as presenting all the conditions of a grand harbour, but it has not attracted settlement, the reason being the poverty of the soil of the surrounding country; two or three of the witnesses in this case anticipate a successful future for the place, but, of course, that is uncertain, and even doubtful, inasmuch as any trade will be merely local, and I think this will be perceived on viewing the general scheme of railway intercommunication. As to possible coal-mining, the only evidence adduced is to the effect that coal has not yet been found.

It appears to me that the extension of the railway might be urged in connection with a scheme for defence of the Colony as much as for prospective settlement and local trade; but the extension from the Shoalhaven southward has not yet been recommended to Parliament, and perhaps it may not be presumptuous in me to state that circumstances indicate that the projected work may be postponed for a considerable period. Meanwhile, this land lies useless and yields no revenue.

The value of this land desired to be leased by the Company is certainly as low as any can be in the Eastern Division. It was appraised by the District Surveyor at 1d per acre; and although vacant, and available for occupation for many years, there has been no demand for conditional purchase, and even the few selectors who have ventured on to it during the last few years have not extending their holdings, notwithstanding the projected railway.

The assumed value of the land, which apparently prevents its being regarded as of inferior character, lies wholly in the probable construction of a railway, which might induce local settlement.

It will be observed that there are extensive reserves surrounding this land, more than sufficient for many years to meet all probable needs for residential settlement and other public requirements if the railway should be constructed. Consequently, I think this application might be entertained in this manner, viz., for (say) nine years, for that part of the area desired lying between reserves 165 and 168 and the ocean, as indicated by red hatching on lithograph X, and for fifteen years for the remainder, with conditions for renewal for shorter periods in such form or for such parts, and at such increased rentals as may be held desirable, and subject to resumption for public purposes, reservation for thoroughfare, &c. I think it is quite reasonable to hold that this land cannot be needed for *bona-fide* town or suburban settlement within those or even longer periods.

I note that the agent of the Company would abandon the enterprise if a term of twenty years' undisturbed possession cannot be guaranteed; but, perhaps, as the situation evidently has advantages for their purpose, the Company might be inclined to modify that decision.

I may state that if the Minister desires further evidence as to conditions and value of the land it can be obtained without much trouble. I believe it will be to the same purport as that given before the Court, at Nowra.

12 October, 1891.

E. TWYNAM,
Chief Surveyor.

Appendix attached.—W.B., 13/10/91. Submitted.—J.P.M., 14/10/91. Please see also appendix.—R.H.D., 14/10/91. F.H.W., 15/10/91.

The very reasonable suggestions contained in this report are well worthy of consideration. If, however, the Company are not disposed to entertain any modification of their application as to area or terms of lease, it should be refused forthwith.—W.II., 15/10/91.

Approved.—J.N.B., 16/10/91. R. J. Mackenzie informed, 23/10/91.

The land hatched red on litho. X may be temporarily reserved from sale or annual lease, and notice published in the *Gazette* calling tenders for lease, under section 37 of Act of 1880, for a period not exceeding twenty years, the upset rental being not less than 1d. per acre for the first seven years, and not less than 2d. per acre for the remainder of the term. If any tender is accepted the land must be surveyed, the applicants paying cost of survey. The lease may be for twenty years, subject to mining rights being reserved, subject also to an expenditure of not less than £3 per acre being made on or in connection with the land so leased during the first five years of the lease, or, in default, at the end of five years after execution of lease, all land not planted shall revert to the Crown, without compensation; lessees to have no right to sub-let, and lease to contain usual conditions appertaining to such leases. Mr. White may be informed of the full tenor of this minute.—H.C., 20/11/91.

Executive Council minute—Gazetted, and Land Agent informed, 24/11/91.

APPENDIX.

THE following remarks, which do not bear precisely upon the points referred to me have been jotted down whilst perusing these papers, and are placed with my report, as, perhaps, they may contain some useful suggestions.

As

As to site.

The land desired is shown to be valueless in its natural state, and inasmuch as other sites under similar conditions as to aspect, soil, and water, have been suggested and declined, it is a fair inference that proximity to a port and a probable railway station is the attraction which led to this selection.

As to the area, viz., 10 square miles, it appears to be very large, and it is scarcely likely that it can be all utilised for agave plantation; should this be the case, it might be supposed that the Company would be inclined to entertain the suggestion for selecting such parts as might be most suitable for the purpose instead of insisting upon the aggregate area mentioned.

The effect of plantation.

In this connection the question arises as to the state of the country on expiration of a lease or upon resumption by the Government, for if the aspect of the land be a thicket of aloes, it would involve labour and expenditure to eradicate the plant and place the land in a fit state for occupation of another character.

As to period.

As to the term of lease, it is stated in the report of the Agricultural Department that the aloe plant arrives at maturity in three or four years, consequently it is reasonable to allege that a shorter term than twenty years should suffice for a profitable venture, of course with probable extension of leasehold over parts under such conditions as may be expedient.

It may be assumed that in the separation of the fibre from the leaves there will be a large mass of waste vegetable matter, and it will have to be shown to satisfaction of the Government that this will be disposed of in such a manner as not to cause a nuisance, and possibly pollution of water supply.

Opposition to lease.

The local opposition to the proposed leasehold is somewhat difficult to understand, inasmuch as if the enterprise be successful it will largely benefit the locality; perhaps it may arise through a suspicion that the land may be utilised to advantage by the Company for some other purpose; the only other purpose possible would be residential occupation, and such occupation can only arise through Jervis Bay becoming an important port. In view of public requirements based on such a probability, extensive reservations have been made along course of the projected railway, and covering frontage of the bay—certainly sufficient in extent to meet all possible needs of population. A port to be of such importance as to enhance considerably such inferior land as this, at such a distance from harbour frontage and railway station, must have time to acquire trade and population, which in this case cannot be expected in twenty or even fifty years.

Although it is necessary to safeguard the public interest in all such matters, it would seem that in event of the opening of a railway and port, possible interference with public requirements for settlement through this leasehold for a long term has been somewhat over-estimated; and in view of the probable benefit to result from establishing such an important industry, it may be held that a lease under stringent conditions as to uses, &c., might be granted.

Manager's evidence.

It is noted that it was stated at the Board meeting that the Company declined to accept modification of the application. Perhaps this resolve might be reconsidered so as to allow of the matter being again brought under notice.

It is shown by the evidence that in respect of natural conditions the land cannot be regarded otherwise than of inferior character; but as it may acquire a comparatively high value by probable surrounding settlement, therefore it is held that an application should not be entertained under the 37th section. For sake of illustration, could the vacant Crown land in the parishes Manly Cove or Broken Bay (which generally is useless for depasturage or cultivation) be regarded as available for lease under this section of the Act. Probably not, on account of possible enhanced value to accrue through proximity to the metropolis.

Of course, in the drafting of section 37, it was not intended to be applied otherwise than to pastoral occupation; such a case as utilising waste lands for such an industry as this was not foreseen.

The Under Secretary.

No. 75.

Draft Agreement submitted by G. White, Esq.

Lease of land at Bherwerre to the Australian Hemp and Fibre Company (Limited).

Sydney, 27 November, 1891.

It is agreed between the Honorable the Minister for Lands and the Australian Hemp and Fibre Company (Limited), as respects the land at Bherwerre, in the county of St. Vincent, for a lease of which the Company has applied.

1. That a lease of the said land, less that portion of it lying to the south-east, as marked on the map, shall be granted to the Company for twenty years, under clause 37 of the Land Act, on the following terms and conditions, viz. :—

2. That the rental to be paid to the Government by the Company shall be 1d. per acre per annum for the first seven years, and 2d. per acre per annum for the remaining thirteen years.

3. That all mineral rights shall be reserved to the Government; but in the event of the land, or any portion of the land, being resumed or used for mining or mineral purposes, the Company is to be compensated for such land, or portion of land, as may be resumed. In the event of the parties hereto failing to agree as to the amount of such compensation, the same shall be referred to arbitration in the usual manner.

4. That the land leased to the Company shall be used by it for the purposes for which the Company has been formed and registered, *i.e.*, for the growth and production of hemp and fibres and hemp and fibre-producing plants, and for extracting hemp and fibre from such plants, and for manufacturing and dealing with the products of such plants in accordance with the Articles of Association of the said Company, and that the Government shall have power to resume the land if it should not be used by the Company for the purposes aforesaid.

5. That the Company shall not have the power to sublet the land, except for the purpose of getting the land more speedily under cultivation with fibrous plants than the Company itself might be in a position to do, and thus to give employment to many men who would work in co-operation with the Company and further its objects; and the Company shall have power to sublet such portions of the land as may be required for the purpose of furthering and developing the general work and objects for which the Company has been formed, especially for the establishment of industries connected therewith or allied thereto.

No. 76.

Gazette Notice.

Department of Lands, Sydney, 18 December, 1891.

TENDERS FOR A LEASE UNDER SECTION 37 OF THE CROWN LANDS ACT OF 1889, OF INFERIOR CROWN LANDS.

NOTICE is hereby given that, under section 37 of the Crown Lands Act of 1889, tenders will be received at this office not later than 12 o'clock noon, on Tuesday, the 19th day of January next, for a lease of about 4,000 acres of inferior Crown land, in the parish of Bherwerre, county of St. Vincent, at Jervis Bay. Subject to the provisions of the Crown Lands Acts, and the Regulations now in force.

1. The upset annual rental will be 1d. per acre for the first seven years of the lease, and 2d. per acre for the remainder of the term.

2. In the event of any tender being accepted, the lease will be granted to the tenderer who offers the highest annual rent, and shall have a term of twenty years from the date of notification of acceptance of the tender, and shall be subject to the reservation of mining rights, and also to the expenditure of not less than £3 per acre on or in connection with the land during the first five years of the lease, or in default thereof, at the end of five years after granting of the lease, all lands not in use for the purpose for which the lease shall be granted shall be liable to forfeiture, and in such case shall revert to the Crown without compensation.

3. The lessee shall have no right to sublet the land at any higher rent, or on any other conditions than those under which the lessee holds such land from the Crown.

4. On the lease being granted, the land will be surveyed at the cost of the lessee.

5. Any tender may, for sufficient reasons, be rejected and fresh tenders may be called for if deemed necessary; and no tender need necessarily be accepted.

6. Upon the expiration of the lease (unless a renewal be granted), or in the event of forfeiture for non-compliance with any of the conditions, all improvements of a permanent character shall become the property of the Crown without compensation.

7. The first year's rent and survey fee must be paid to the Colonial Treasurer within sixty days from notification of demand. The rent for each succeeding year to be in paid in advance, on or before the 18th January; if not so paid, or in the event of any of the conditions not being complied with, the lease will be liable to forfeiture.

8. Tenders must be in Form 55, as prescribed by the regulations under the Crown Lands Act of 1889, and must be addressed to the Under Secretary for Lands, endorsed "Tender for Lease of Inferior Crown

Crown Lands, Land District of Nowra," and must be accompanied by a receipt showing that the sum of £2 as deposit on tender has been lodged with the Colonial Treasurer, Sydney, or Crown Land Agent, Nowra. Tenders may be lodged at the office of the Department of Lands, Bridge-street, or may be transmitted thereto by post so as to reach the head office not later than noon of the day mentioned.

9. Tracings of the land proposed to be leased can be seen at the offices of the Local Land Board, Goulburn; Land Agent, Nowra; and at the Inquiry Branch, Lands Department, Bridge-street, Sydney.

HENRY COPELAND.

Tender for Lease.

[Crown Lands Act—Regulation No. 223.]

Tender for lease, under section 37 of the Crown Lands Act of 1889, of inferior Crown lands.

NOTIFICATION having been published in the *Government Gazette* of 18th December, 1891, that it is intended to let by tender the land specified in Schedule hereto, as inferior lease for twenty years, I hereby offer an annual rent of 1d. per acre for first seven years, and 2d. per acre for remainder of said lease of inferior lands.

Herewith is a receipt, showing that the sum of £2 has been paid to the Treasury at Sydney, as deposit hereon, and £20, survey fee.

SCHEDULE.

No. of Block, Portion, or Area.	Date of Gazette notice.	Area.	Land District, County, and Parish.	Rent or License Fee offered.
About 4,000 acres	18th December, 1891.	About 4,000 acres...	Nowra; St. Vincent; Blerwerre.	1d. per acre for first seven years. 2d. per acre for the remaining thirteen years.

REMARKS—(Further Particulars, such as will lead to identification of land tendered for): As per plan exhibited.

Signed this 19th day of January, 1892,—

For the Australian Hemp and Fibre Company (Limited),
UNNI W. CARPENTER, Chairman,
R. J. MACKENZIE, Secretary,

No. 11, Central Chambers, 173, Pitt-street, Sydney.

To the Under Secretary for Lands.

Opened this day.—W.H., H.C., 19/1/92. Tenders opened 19th January, 1892.—W.H. Recommended for acceptance.—H.C. Approved.—HENRY COPELAND, 20/1/92. Receipt, No. 1,877, in favour of the Australian Hemp and Fibre Company (Limited), for £22 (£2 deposit, and £20 for survey fee) returned this day.—R.H.D., 3/2/92.

No. 78.

Office Memorandum.

Section 37, Crown Lands Act of 1889—Lease by tender of inferior Crown lands.—The Australian Hemp and Fibre Company's Tender.

It is a question whether the purpose of the lease is to be announced.

The "conditions" make no mention of a "purpose," but Act 2 recites, "Not in use for the purpose for which the lease shall be granted."

From this it would seem the purpose of the lease should be announced; otherwise the phrase above quoted can have no application, and will, perhaps, tend to a nullity of the whole transaction.

Perhaps "The growth and cultivation of hemp and fibre-producing plants" will answer as the purpose.

Submitted for instructions—special.

R.H.D., 25/1/92.

F.H.W., 25/1/92. The purpose may as well be specified in the notification of the lease.—W.H., 27/1/92. Approved.—H.C., 27/1/92. Forwarded to the District Surveyor for survey in accordance with Ministerial approval on paper 91-6,829, Miscellaneous Leases.—J.P.M. (for Under Secretary), B.C., 5/2/92.

In reply to Mr. White's remarks in his letter of 6th October, 1891 (Miscellaneous Leases, 91-6,622) concerning suggestions by me at the last moment in contravention of my previous statements, I cannot allow this to be said by Mr. White, without saying it is not true. These papers show that my objection from the first was to locking up these lands, 20 miles only from a terminal railway and close to Jervis Bay, for so lengthy a period as twenty years. I believe it was not in the public interest to do so; and believing this I should have been unfaithful to the Government and unworthy of my position not to have expressed that opinion. Moreover, the area to be leased now is very different from that originally applied for.—J. W. DEERING, District Surveyor, 8/2/92. The Under Secretary for Lands.

Mr. Licensed-Surveyor Arnheim for survey. In carrying out this instruction it is to be remembered that the land is not for alienation, but only for lease; still the lease is for twenty years, and the marking is to be permanent. All previous measurements may be adopted. Trees had better be marked broad-arrow over L at corners, as shown upon accompanying litho., and at any other places that may appear to be desirable locally. The reserves 23A, also 23c 1,909 and 1,910, should be permanently staked, and trenched at about every 10 chains.—J. W. DEERING, District Surveyor, 8/2/92.

Returned for reference, in accordance with directions of 7th March, 1892.—FRED. ARNHEIM, Licensed Surveyor, 9/3/92.

No. 79.

Question and Answer, Legislative Assembly.

Wednesday, 27 January, 1892.

Question.

- (9.) SPECIAL LEASES NEAR JERVIS BAY:—MR. CARRUTHERS asked THE SECRETARY FOR LANDS,—
- (1.) Have any proposals or applications been made recently to the Government for a special lease of any Crown lands in the vicinity of Jervis Bay?
 - (2.) If so, what are the terms of such proposal or application?
 - (3.) Does the Government intend to grant any special leases of such land, and upon what terms and conditions?

Answer.

Mr. COPELAND answered,—

- (1 and 2.) Yes, and refused, as I deemed it advisable in the public interest to call for tenders for leasing the land as inferior Crown lands under the 37th clause of the "Crown Lands Act of 1889."
- (3.) I will lay upon the Table of the House a copy of the notice calling for tenders. A lease has now been granted to the Australian Hemp and Fibre Company (Limited).

No. 80.

Gazette Notice.

Department of Lands, Sydney, 2 February, 1892.

LEASE OF INFERIOR CROWN LANDS.

NOTICE is hereby given that a Lease has, in accordance with the 37th section of the Crown Lands Act of 1889, been granted of the undermentioned land for the purpose of "The growth and cultivation of Hemp and Fibre-producing plants."

1. The balance required to complete the rent to 1st February, 1893, must be paid to the Colonial Treasurer on or before the 2nd April. The rent for each succeeding year to be paid in advance, on or before the 1st February; if not so paid, or in the event of any of the conditions not being complied with, the lease will be liable to forfeiture.

2. The lease shall have a term of 20 years from this date, and shall be subject to the reservation of mining rights, and also to the expenditure of not less than £3 per acre, on, or in connection with the land during the first five years of the lease, or in default thereof, at the end of five years after granting of the lease, all lands not in use for the purpose for which the lease is granted shall be liable to forfeiture, and in such case shall revert to the Crown without compensation.

3. The lessee shall have no right to sublet the land at any higher rent, or on any other conditions than those under which the lessee holds such land from the Crown.

4. Upon the expiration of the lease (unless a renewal be granted), or in the event of forfeiture for non-compliance with any of the conditions, all improvements of a permanent character shall become the property of the Crown without compensation.

5. The lease is granted subject to all the conditions under which Tenders were invited in the *Government Gazette*, No. 801, of 18th December last.

HENRY COPELAND.

No. 81.

Question and Answer, Legislative Assembly.

Tuesday, 16 February, 1892.

Question.

- (8.) SPECIAL LEASE AT JERVIS BAY:—DR. ROSS asked THE SECRETARY FOR LANDS,—
- (1.) Has anything been done in the way of leasing by tender or otherwise a portion of land (4,000 acres) at Jervis Bay, near Nowra; if so, when, by whose authority, at what rental, on what terms, to whom, and for what purpose?
 - (2.) Is it true that the District Surveyor and Local Land Board have declined to sanction or approve of a lease of the land being granted, and for what reason?
 - (3.) Is it usual to withdraw such a large area of valuable land in the Central Division from settlement or alienation, especially in the midst of a thickly populated and important coast district, and was the land at any time open for lease or conditional purchase; if not, why not?
 - (4.) Will he have any objection to lay a copy of all letters, papers, and other documents, &c., having reference to this matter upon the Table of this House; also, the report of the District Surveyor, and the evidence taken before the Land Board, and their decision on the matter?

Answer.

Answer.

MR. COPELAND answered,—

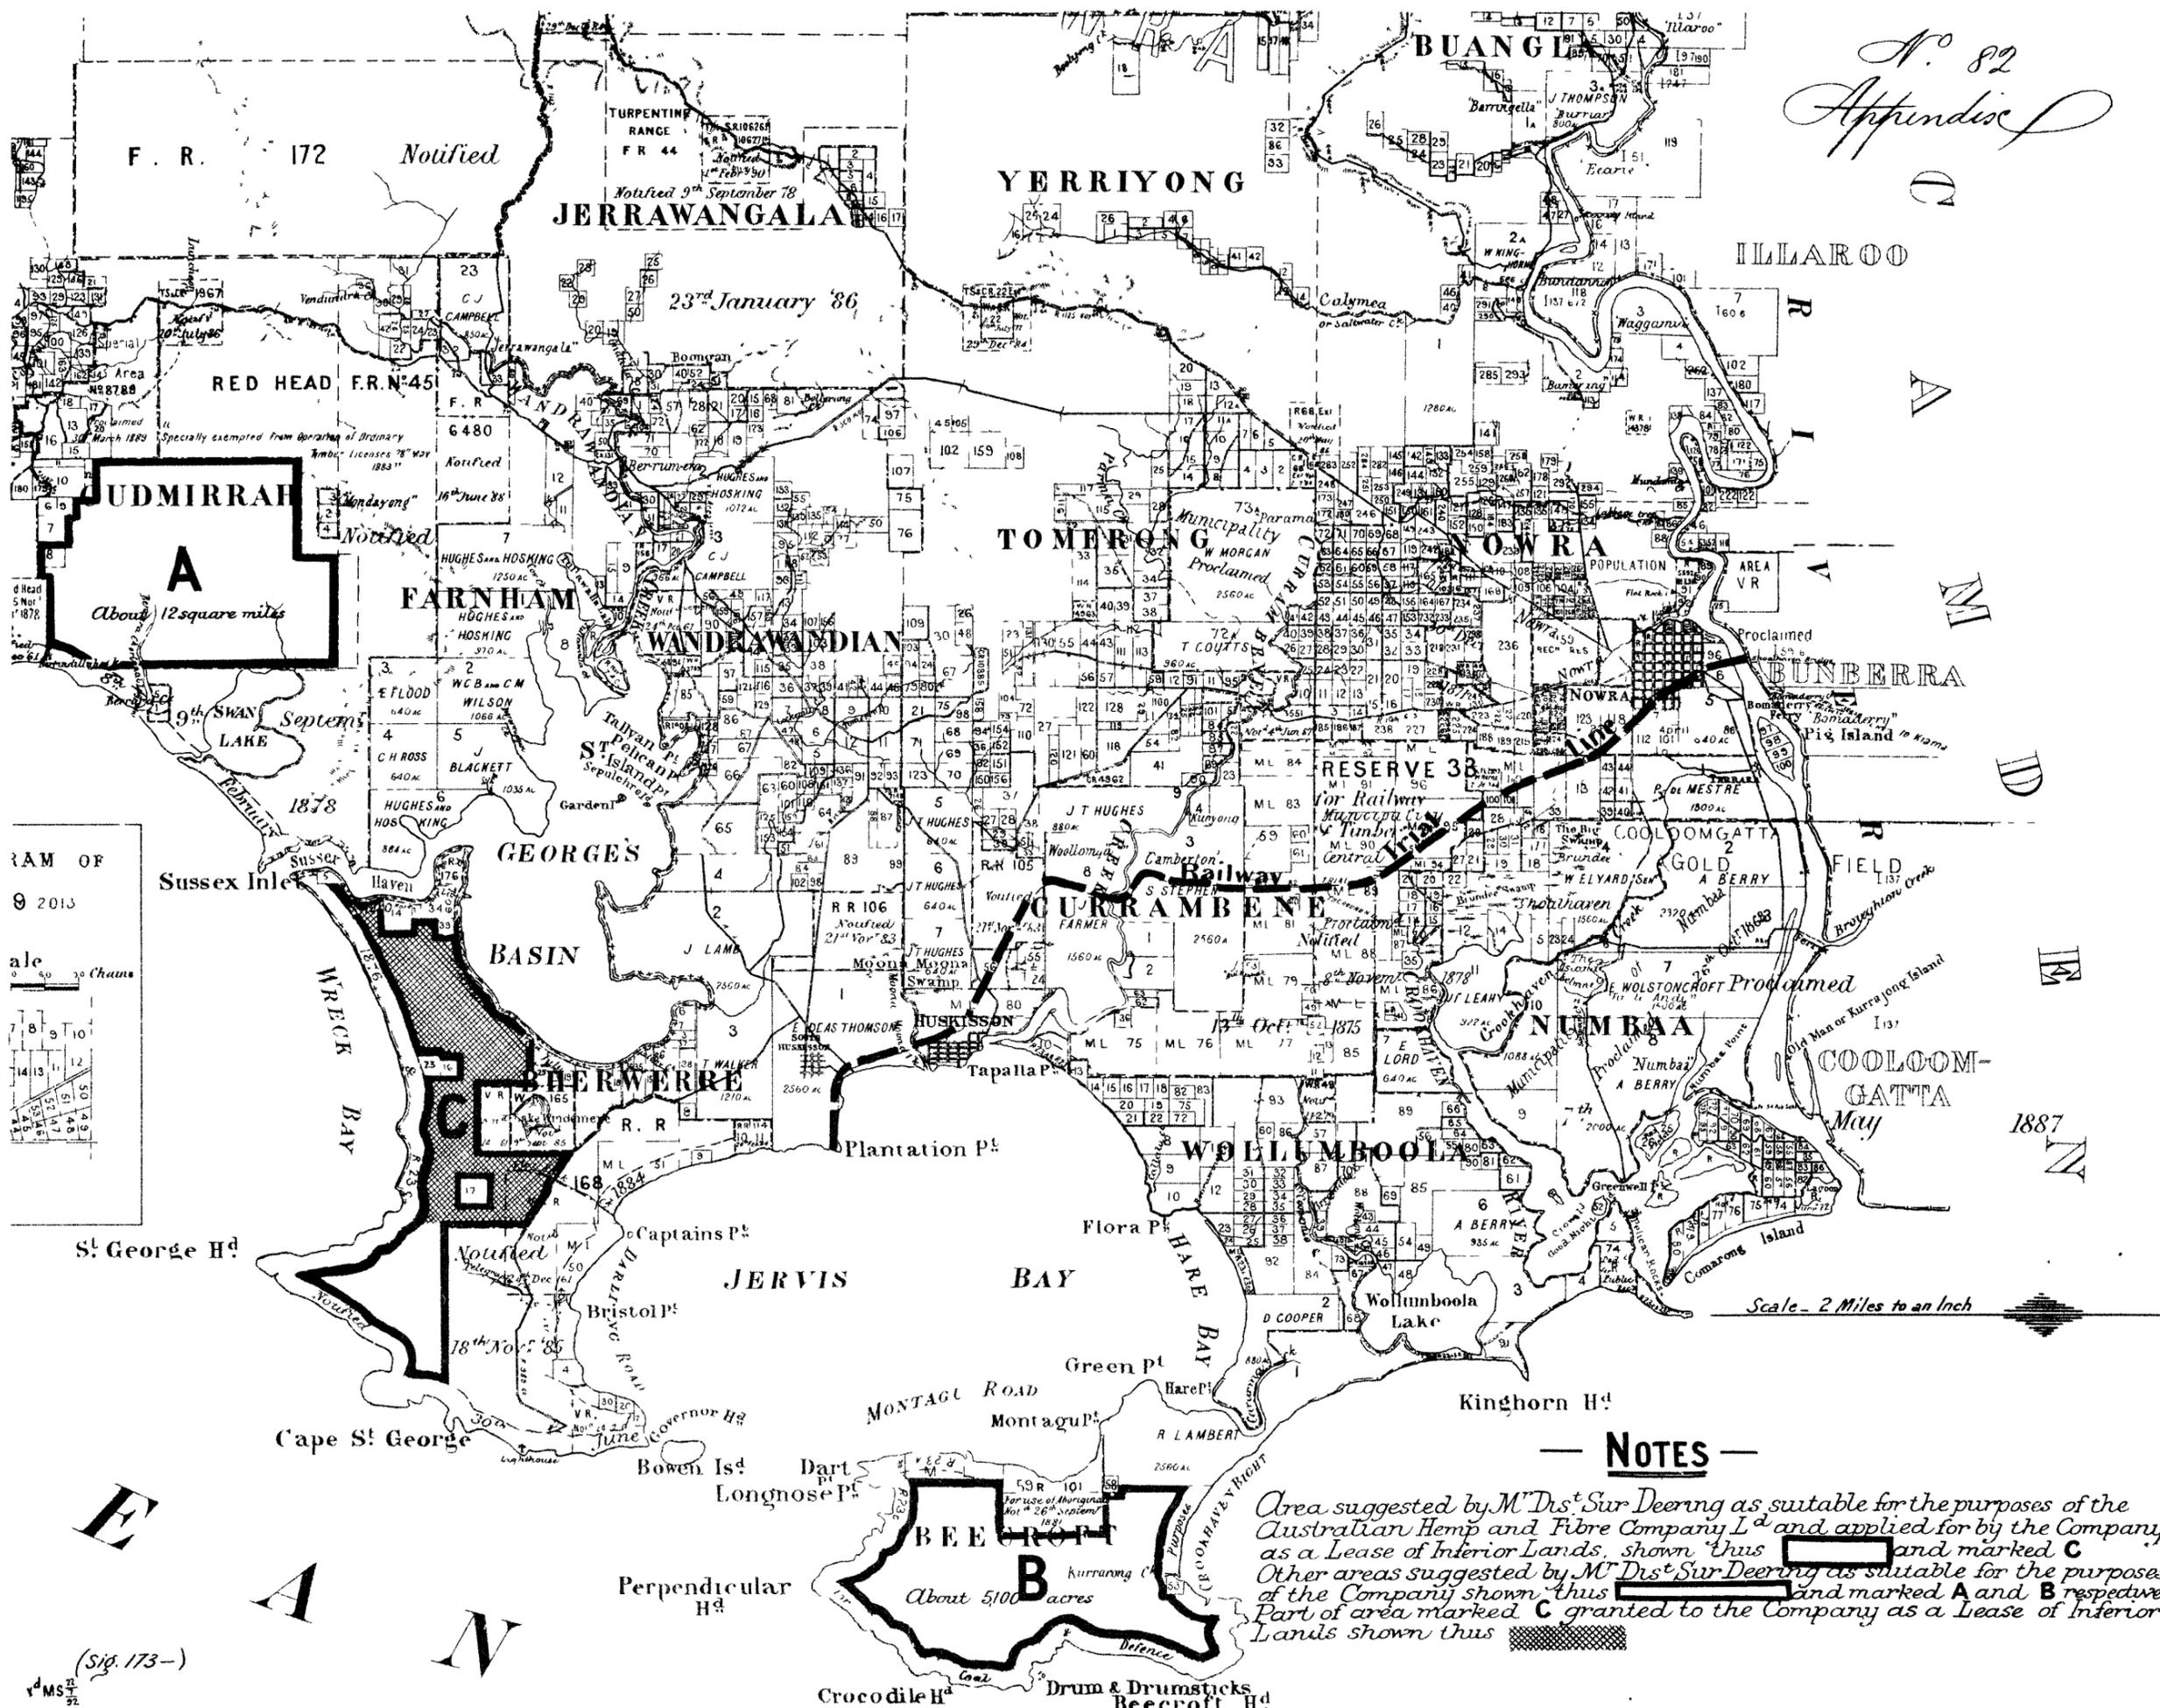

(1.) I beg to inform the Honorable Member that the papers in the case are at present with the District Surveyor, but I may refer him to the reply given by me to Mr. Carruthers on the 27th ultimo, and to the copy of the notice calling for tenders for this land, laid upon the Table of the House on the same day.

(2.) Neither the District Surveyor nor the Local Land Board have power to sanction or approve of such a lease being given.

(3.) The land is not in the Central, but in the Eastern Division, and on the sea coast, and is of such a barren description that it has not even been held under pastoral lease or occupation for many years. The land has been open to conditional purchase since the Lands Act of 1861 came into force.

(4.) There will be no objection to lay copies of all the papers on the Table, if moved for in the usual manner.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS.

(SPECIAL AREAS IN THE WAGGA WAGGA AND HAY LAND DISTRICTS.)

Ordered by the Legislative Assembly to be printed, 6 September, 1892.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 11th February, 1892, That there be laid upon the Table of this House,—

A Return (*in part*), showing,—

- “ (1.) All lands withdrawn from reserve and proclaimed special areas in the Wagga Wagga and Hay Land Board Districts.
 “ (2.) Correspondence (if any) from lessees, agents, or reputed owners of runs on which lands proclaimed, or about to be proclaimed, special areas were situated, offering prices or suggesting that certain prices should be placed on the land.
 “ (3.) Reports of licensed or staff surveyors, or other officers employed by the Government, as to the value of land about to be proclaimed special areas.
 “ (4.) Reports of District Surveyors as to the value of such lands.
 “ (5.) The final price fixed by the Minister.”

(*Mr. Gormly.*)

RETURN (*in part*) of Special Areas in the Wagga Wagga and Hay Land Board Districts, in pursuance of Order of the Legislative Assembly of 11th February, 1892.

Special Area.

Sir,

Camp, Weraí Run, 31 August, 1883.

I have the honor to transmit herewith the plans of three portions of land, containing 132 acres 1 rood, numbered 80 and 81, in the parish of Woorooma, county of Wakool, applied for by Lachlan McBean, under the 23rd section of the Crown Lands Alienation Act of 1861, and surveyed in accordance with instructions dated the 24th February, 1883, No. 70.

Improvements, portion 80, £13 15s.; viz.: Ringbarking, £4; fencing, £9 15s. Portion 81, nil. The country comprises open plain and ringbarked box forest, and is best adapted for pastoral purposes: loose clay soil; no permanent water. Situated on the Woorooma River; date of survey, 18th June, 1883.

I have, &c.,

The Surveyor-General.

M. J. CALLAGHAN,
Licensed Surveyor.

It is submitted for the consideration of the Secretary for Lands, that the parts of reserve 387 from sale, and 299 from lease, subdivided in accordance with ministerial decision (*vide* Mis. 83-447, enclosed), be now cancelled.—G. LEWIS (for the Surveyor-General), 31/12/85. The Under Secretary for Lands.

Special Area No. 1—Reserve 354.

Sir,

Survey Camp, near Wagga Wagga, 19 August, 1885.

I have the honor to transmit herewith, sketch showing proposed forest reserve in the parish of Brewarrina, county of Mitchell, inspected by me on the 18th August, 1885, in accordance with instructions dated 17th April, 1883, No. 151, to Mr. District-Surveyor Bolton, and transferred to me 11th August, 1885. Misc. 83-5,039, and sketch herewith.

I would recommend that the whole of the land shown within green edging on sketch herewith, be proclaimed a forest reserve.

The part south of the Old Man Creek, including measured portions 95 and 96, is thickly timbered with pine, a good proportion of which is sound, mature timber.

The land north of the Old Man Creek contained a quantity of good gum timber, and as I understand an application has been made to have it proclaimed a forest reserve, I would suggest that it be included in this reserve, as shown on sketch.

I have, &c.,

ARTHUR H. BRAY,
Surveyor.

Forwarded to the Surveyor-General, 19th August, 1885, with a recommendation that Mr. Bray's suggestion be acted upon and recommend the reserve for preservation of timber be duly notified.—C. F. BOLTON, District Surveyor.

(Ms. 85-21,788.)

3 November, 1885.

In view of the report and of the recommendation of District-Surveyor Bolton, it is submitted for the consideration of the Secretary for Lands, that the area within green edge on lithograph, containing 6,258 acres, be notified as a forest reserve, as requested by the Mining Department on Mis. 83-5,039, enclosed, and that the parts of water reserves Nos. 353 and 354 affected be cancelled.

The proposed reservation is situated partly within the leasehold, and partly within the resumed area, of the Brewarrina holding, Land Board and Land District of Wagga Wagga.

G. LEWIS

The Under Secretary for Lands.

(For the Surveyor-General).

In my opinion this is a case in which it would be a public wrong to proclaim this area as a forest reserve. The whole of the land contained in this reserve is within what is now the resumed area.

To make a forest reserve of it, it would be practically to secure by a lease one-half of Brewarrina Run to the lessee, and the other half to him by a forest reserve. This I shall not do. I notice by the papers that the lessee of the run has moved for this reserve to be proclaimed a forest reserve. This may have been upon public grounds, but I think if so the lessee is mistaken in his view of the question. The whole of this reserve No. 354 is at once to be cancelled, and thrown open for settlement.—J. P. ABBOTT, 20/11/85.

Sir,

District Surveyor's Office, Wagga Wagga, 4 March, 1886.

With reference to the revocation of reserve No. 354, parish Brewarrina, county Mitchell, notified on 6th February, 1886. I do myself the honor to inform you that portion of the land embraced in such reserve was reported on Mr. Surveyor Bray's letter of 19th August, 1885, No. 44, sent to head office on 19th August, 1885, in connection with your instructions of 17th April, 1883, No. 83-151, to report on an application by George Faithfull for a timber reserve in the parishes of Buckingham and Brewarrina, county Mitchell. Herewith I forward a letter from Mr. Faithfull relative thereto. Letters from M. G. Faithfull, dated 2nd March, 1886, enclosed. And recommended as a timber reserve.

I am, &c.,

The Surveyor-General, Sydney.

C. F. BOLTON,
District Surveyor.

Dear Sir,

Brewarrina, 3 March, 1886.

I observe that water reserve No. 354, in the parish of Brewarrina, is to be thrown open to sale. Part of this reserve has been applied for as a timber reserve, and should I think be reserved for that purpose, viz.: that portion south of a line east from the south-east corner of portion No. 64, parish of Buckingham, to the Old Man Creek, bounded from thence on the north by Old Man Creek. I draw your attention to this, as you may have overlooked the matter.

I am, &c.,

GEO. FAITHFULL.

There is not a timber reserve on this run.

Sir,

85-16,159 Mis.,
G. Faithfull.

Sir,

10 March, 1886.

We would draw your attention to the papers noted in the margin, and request that the reserve for preservation of timber may be gazetted as advised by the District Surveyor and another surveyor.

We would point out, the surveyor after a careful investigation reported on the necessity of this being made a timber reserve, and yet when the lessee applied to ringbark the reserve, the Minister for Mines refused on the ground that the timber was required in the public interest, and yet when reported by two surveyors that the reserve should be made for the preservation of timber, Mr. Abbott said it was not required, and ought to be cancelled in the public interest and thrown open at once for selection, and this without ever having been near the land. Had Mr. Abbott visited the land we could have understood him differing in opinion—not to take the whole responsibility on himself in the face of reports, simply because it would appear that the lessee asked for it to be made a reserve.

We would ask your careful consideration of the fact of the case, and request if any action is taken it may be done within sixty days from 6th February, otherwise the opportunity will be lost.

Yours, &c.,

BLOMFIELD AND DICKSON.

Sir,

Sir,

Brewarrina, via Wagga Wagga, 20 March, 1886.

Having observed in the *Gazette* that water reserve No. 354, in the parish of Brewarrina, in the county of Mitchell, is to be revoked on the 8th of April next, I have the honor to inform you that, being valuable land, situated about 13 miles from Narrandera, and having 1 mile frontage to the Murrumbidgee River, also a creek running over 3 miles through the reserve, if this reserve was subdivided, as you might think fit, and submitted to auction, it would realise considerably more to the Treasury than by throwing it open to selection. I am myself prepared to bid for the same if the upset price is fixed at £2 per acre. That portion of the reserve south of the Old Man Creek has been applied for, and should, I think, be gazetted a forest reserve, there being no timber reserve on Brewarrina Run.

Yours, &c.,

GEO. FAITHFULL.

The Honorable the Minister for Lands, Sydney.

Dear Sir,

Australian Club, 30 June, 1886.

If the reserve on Brewarrina Run, mentioned to-day, is submitted to auction, I will bid for very nearly, if not quite all of it, at the upset price of £2 per acre.

I am, &c.,

GEO. FAITHFULL.

C. Oliver, Esq., Under Secretary for Lands.

Sir,

Brewarrina, via Wagga Wagga, 20 March, 1886.

As one of your constituents, I write to inform you of a matter which should be brought to your notice, viz., that water reserve No. 354, situated on this run, is to be revoked on 8th April next. In the first place, I think it is rather hard lines that so large a reserve on such a small run as this should be thrown open in such a bad season as this, especially as so many large runs have a number of reserves. But the chief thing, it appears to me is, that at a time like this the Government should endeavour to obtain as much for the land as possible.

Now, if the reserve were subdivided and submitted to auction, I would myself bid £2 per acre for it, and I think the upset price should not be less. A great number of people hold the same idea.

It must be noted that the said reserve has 1 mile frontage to the Murrumbidgee and 3 miles to the Old Man Creek, and is about 13 miles from Narrandera, so that it is really a valuable piece of land. As it now stands, it is simply making a present of £2,560 to the man who shall draw the prize at the end of five years, without any benefit to the country. If submitted to auction there will doubtless be many buyers, and the country will have the benefit of it.

If you will draw the attention of your colleagues to the above matter, I feel sure they will have the matter carefully considered and have the land appraised by a competent person.

I have, &c.,

GEORGE FAITHFULL.

This land to be proclaimed a special area, at £2 per acre, to be open to selection in portions not exceeding 160 acres each.—H.C., 27/3/86.

A.

Gentlemen,

Deniliquin, 16 March, 1886.

We, the undersigned, respectfully beg to direct your attention to the following facts, viz. :—

“That on the 6th February last a valuable reserve, containing 2,444 acres, situated on the Tuppall resumed area, in the parish of Narrama, county of Townsend, was revoked by proclamation in the *Gazette*, and will be open for selection on the 8th of April.

“That under one portion of the 24th section of the Crown Lands Act of 1884 it is possible for the whole area to be taken up by one man.

“That there is a proviso in the said section which empowers the Minister, under certain circumstances, to make the reserve a special area.

“That if the Minister decides upon making the reserve a special area, only 160 acres will be allowed to each selector.

“That the land is exceedingly valuable for agricultural purposes, and it may be mentioned as a proof that such is the case, that a quantity of wheat grown in the locality about two years ago, was shipped to England, and realised about 4d. per bushel above the average of the colonial wheat sold in the English market that year.

“That in view of such being the case, and seeing that the alienation of the land in 160-acre blocks only would tend to increase the population much more than would the alienation of such a valuable area to one person.

“ We

"We respectfully suggest that steps be taken to promptly represent the case to the Minister, with a view of having the reserve proclaimed a special area within the meaning of the provisional clause section 24 of the Crown Lands Alienation Act of 1884.

"And we also desire to respectfully point out the necessity of watching the revocation of similar reserves in this district with the same object, for the reason that the establishment of industrious population on these small but valuable areas would be conducive to the best interests of the town and district.

"We have also respectfully to point out that the revoked reserve here referred to is situated only about 15 miles from Deniliquin, and that many persons who are known to be *bona-fide* selectors have expressed the wish that the area be cut up into such portions as are referred to in the proviso of the 24th section.

"We are, &c.,

"HENRY WILLIAM HUNTER.

[Here follow 29 more signatures.]

"The Mayor and Aldermen, Deniliquin Town Council."

B.

Dear Sir,

Deniliquin, 23 March, 1886.

I enclose you herewith a counter petition, largely signed by selectors and others, to the one forwarded to the Municipal Council, praying to have the reserves Nos. 1,020 and 1,020A, Narrama, Townsend, thrown open under the special area clause.

The other petition was got up by James Watson, and many who signed did not know what they were doing. It was represented to them that the petition was for the purpose of getting a larger amount of selectors on the reserve than would be the case if left as it at present stands, whereas the people who originated the movement did so in the interests of Mr. Brown, the squatter, of the Tuppal Run.

The land is situated about 20 miles from here, and is not adapted to be dealt with under this clause.

There is no water, and it is utterly impossible for any man to live on 160 acres in that locality. This reserve was originally applied for by Mr. Brown to be put up to auction, but when auction sales were done away with he commenced to improve the ground, and there are now somewhere about £1,000 worth on the land.

I also hold that the Council illegally acted in considering the petition at a special meeting, when it was called for "the final dealing with the gas question, and other matters." That is what was on my notice-paper, and I hold, and objected at the meeting, that "other matters" did not clearly define the business intended to be transacted, as per sections 104 and 105 of the Municipalities Act, 1867. I never heard a word of this petition until it was put on the table, and the Mayor said he would take the opinion of aldermen as to whether it would be considered or not. I objected, but was the only dissident, and as there were eight against me I stood no chance.

Since the petition was received by the Council it has been taken away from the Council Chambers, and has laid in Evans' shop, and signatures have been added to the document, to wit, Messrs. Heriot and Hetherington, a course which I think is *ultra vires*, as the document once going to the Council belonged to them, and not to any individual alderman. Two others have been asked to sign, viz., Messrs. A. Mayger and H. Hawkins, but they refused.

In addition to the petition, I enclose a statement from several who signed Watson's, setting forth that they were not aware of the intentions of the document, and three others who signed, but do not want their names again brought forward, are now convinced of the error they have made.

Selectors are very wrath about it, and Mr. Chanter, who has charge of Watson's petition, will find some day that he never made a greater mistake in his political career than he did when he took this matter in hand.

This petition has only been three days in getting signed, and I am sorry that the shortness of time prevented my getting more signatures of selectors. Mr. Cheriton would have signed it, but I cannot get to see him.

I would further refer you to next Thursday's *Chronicle*, as Mr. Mayger is up in arms, and will have an article in the *Chronicle* of the 25th.

I am, &c.,

A. JAMESON.

R. Barbour, Esq., M.P., Sydney.

If the Minister requires it, I can get a petition signed by at least 400 selectors and farmers, protesting. Special areas are meant for valuable agricultural and arable lands, not to be found far from towns and water.

Sir,

Deniliquin, 19 March, 1886.

We, your petitioners, respectfully approach you, to draw your attention to the following:—

1. That on 6th February, 1886, reserve 1,020 and reserves 1,020A and 1,020B, parish Narrama, county Townsend, were revoked as per *Gazette* notice of that date.
2. That in all there are 2,440 acres, which will be open for selection on the 8th April.
3. That at a meeting of the Deniliquin Municipal Council held last evening, a petition signed by some half dozen townsmen was presented, asking the Council to co-operate in getting these reserves named as special areas, although no notice of any such proceeding was given to Aldermen, the meeting having been called for quite another purpose.
4. That the Council by a majority agreed to co-operate with the petitioners as prayed by them for the purpose of having the land proclaimed a special area.

Now, therefore, we, your petitioners, humbly pray that you may not be pleased to advise His Excellency the Governor to proclaim the above-mentioned reserves as special areas, for the following reasons:—

- (a) Many of those who signed the petition were not fully aware of the intention of the document, or the provisions of the 24th section of the Crown Lands Act of 1884.
- (b) One hundred and sixty acres of land is of no use to any selector on the reserves mentioned, or in any part of this district without water frontage and special features.
- (c) The land is heavily improved and selectors would, in addition to paying 30s. per acre, have also to pay for improvements.

(d)

- (d) Land immediately adjoining and fully improved has been sold during the past five years at 27s. 6d. per acre, and during the last month conditionally-purchased land 16 miles south of Deniliquin realised 25s. per acre, and 1,200 acres 12 miles west of Deniliquin on the Edward's River was withdrawn at 30s. per acre, therefore it is not at all likely that selectors will pay 30s. and also for the improvements.
- (e) If the land is opened under the special areas provisions it will not be selected at all, and consequently will remain in possession of the pastoral lessee.
- (f) If in an amendment of the Act provisions were made for conditionally purchasing not exceeding 500 acres in the Central Division under the Special Area clause, such would be taken advantage of in this district providing that there are special natural features and advantages.

The Hon. the Minister for Lands.

We are, &c.,

THOMAS IRVING, J.P.

[Here follow 56 more signatures.]

Special Area 2,031.

Sir,

Town Council of Deniliquin, 22 March, 1886.

I have the honor, by direction, to state that in a supplement to the *Government Gazette*, No. 78, page 926, and dated 6th February last, it is notified that a valuable reserve, No. 1,020, and extensions 1,020A and 1,020B, containing 2,444 acres, situated on the Tuppall resumed area, in the parish of Narrama, county of Townsend, has been revoked, and will be open for selection at the expiration of sixty clear days from date of notification, say the 8th April next.

In connection with this matter, I beg to enclose petition presented to this Council, the prayer of which has been acceded to, and the signatures to same attested to by the Mayor and aldermen, and to respectfully request that you will at once endeavour to have the reserve referred to proclaimed a special area under clause 24 of the Land Act, 1884.

I have, &c.,

J. G. EVANS,

Mayor.

J. M. Chanter, Esq., M.L.A., Parliament House, Sydney.

Urgent. Let papers in this case be brought in at once.—H.C., 25/3/86.

Let this land be again reserved from sale with a view to its subdivision into special areas of 160 acres each approximate. The District Surveyor should be instructed to carry out this work immediately, and report on character of soil and capabilities.—H.C., 27/3/86.

C.

20 April, 1886.

RESERVES 18, 19, and 20 in the county of Townsend, parish of Narrama, were, on the 31st March last, notified pending subdivision, for the purpose of the land being subdivided for special areas, and the subdivision is now being carried out.

It is reasonable to suppose that the survey will be completed within two months, and it will therefore be desirable to notify the revocation of the reservations in order that the land may be available for alienation at the expiration of sixty days, which is the period which must elapse before this cancellation can take effect.

C.O.

Approved.—H.C., 3/5/86.

D.

Land Agent, Deniliquin,

Reserves Nos. 18, 19, and 20, parish of Narrama, county Townsend, cancelled 8th May, 1886, will, owing to technical error, be re-notified as reserves to-morrow, and will therefore not be open to selection on the 8th proximo.

Give full publicity, post notice outside your office, and, if possible, cause a local paragraph to appear.

86-12,391, U.S.

Telegram sent, 28/6. 86-850.

Telegram from Hay, addressed to Under Secretary Lands, Sydney.

New South Wales, 6 April, 1886.

Re subdivision of reserves, parish Narrama, for special areas, there are improvements effected prior to July, 1876, reputed to be worth over £160. In such cases, should an area commensurate with value be measured, or should the area be restricted to 160 acres. Please reply to-day. Surveyor on road.

R. M'DONALD,

District Surveyor.

As the improvements upon portion 47 are alleged to have been made prior to July, 1876, and are valued at £500, portion 47 may stand as surveyed, provided it does not interfere with a judicious subdivision of the other portions. In that event, another portion of equal area, and covering the improvements, may be surveyed. Improvements on the other portions are reported to have been made in January, 1878, and therefore need not be allowed to interfere with the subdivision.—H.C., 7/4/86.

Sir,

Deniliquin, 10 May, 1886.

Adverting to your telegram, dated the 4th instant, directing me to state by whom the improvements on reserves Nos. 12, 11, 13, 14, 22, 23, 24, parish of Narrama, county of Townsend, I have the honor to report that the lessees (Brown and McFarland) of Tuppall pastoral holding inform me that these improvements embraced by the above reserves were effected at their expense.

I have, &c.,

J. BROUGHTON,

Surveyor.

R. M'Donald, Esq., District Surveyor, Hay.

Sir,

Sir,

Sydney, 6 August, 1886.

Some months since I presented a petition from residents of Deniliquin, praying that the Narrama Reserve, situated on the resumed portion of Tuppal Run, in the district of Deniliquin, might be proclaimed a special area. This has been done (see *Gazette*, July 17th). I am astonished to see in *Gazette*, July 23th that you have advertised this reserve to be sold by auction.

Now, sir, in the event of these lands not being selected prior to that in small areas (and I do not think they will be, as the price is too high), I sincerely trust you will cancel the notice authorising these lands to be sold by auction, as that would enable interested persons to buy one or two of them only, and in such positions as to render the balance useless to others. Far better to let the reserve revert to its original position and be selected in the ordinary manner.

My constituents are up in arms about this matter, and if you sell these lands by auction will cause them to blame me for being the cause for having asked you to proclaim them special areas in the first place. Let me urge you to cancel the notice to sell by auction, and, if the land is not selected as special area, either re-convert it to its original position or reserve it until the law can be amended in regard to special areas. Under the circumstances, as there is so much bother over this particular reserve if, as I said before, it is not selected in small areas, then re-convert it and let it be selected as a whole as quickly as possible, as the people are clamouring for land. Your earnest consideration and reply will much oblige.

The Hon. the Minister for Lands.

Yours, &c.,

J. M. CHANTER, M.P.

I can only administer the land as it at present stands, and I do not think it would be judicious to throw these lands open to selection on payment of 2s. per acre, when I understand they are likely to be purchased for cash at £2 to £3 per acre. Instructions should, however, be sent to the Land Agent that in the event of any attempt being made of peacocking the lots that he must withdraw the land from sale, and he should state his intention of doing so before commencing to sell.—H.C., 6/9/86.

Sir,

Moama, 14 September, 1886.

Enclosed please find copies of resolutions passed at a large public meeting at Wamboota, protesting against the sale of lands by auction. It is needless to reiterate my previous statements to you concerning this question, but I would again respectfully urge you to reconsider your decision, and withdraw these lands from sale. The people in this portion of the Colony are strongly opposed to the system of selling lands by auction, and are crying out bitterly against the practice. Knowing by bitter experience how it prevents the settlement of a proper class upon the land, I, therefore, on their behalf, again respectfully appeal to you to withdraw these lands, and you will earn the lasting gratitude of the people.

Your early and favourable reply will greatly oblige.

Yours, &c.,

J. M. CHANTER.

The Hon. the Minister of Lands.

Sir,

Wamboota, 13 September, 1886.

At a public meeting held here this day, the following resolutions were unanimously passed and ordered to be transmitted to you.

Proposed by Mr. Denny; seconded by Mr. Pitty,—

That this meeting strongly protests against the action of the Minister of Lands in proclaiming the various reserves special areas placing a high price upon them, and then finally disposing of them by auction sale, as being calculated to increase the already large estates, and prevent *bona-fide* settlement on the remaining Crown lands.

Proposed by Mr. Pitty; seconded by Mr. Smith,—

That a copy of the foregoing resolution be transmitted to the hon. the Minister of Lands, through Mr. J. M. Chanter, and that the Minister be requested to withdraw the lands from auction sale.

I have, &c.,

The Honorable the Minister of Lands.

HENRY HOLSCHIER,

Chairman of Meeting.

Mr. Chanter may be informed that for the reasons already stated, both in former correspondence and in Parliament, I do not feel justified in withdrawing these lands from auction.—H.C., 21/9/86. Mr. Chanter, M.P., informed, 21/9/86.

Special Areas 2,322 to 2,327 inclusive.

Sir,

247, George-street, Sydney, 22 April, 1886.

We have the honor to apply, on behalf of Messrs. Watt and Thomson, that the measured portions of land in reserves 675 and 676, parishes of Cocketgedong and Watt, county Urana, and within the resumed area of the Cocketgedong Run, be submitted to public auction.

Our clients are prepared to pay £2 per acre for the land.

We have, &c.,

WILSON AND RANKIN.

The Under Secretary for Lands.

Sir,

District Surveyor's Office, Wagga Wagga, 16 July, 1886.

I beg to acknowledge the receipt of your B.C. of 18th May last, conveying instructions to me to report as to the propriety of revoking and alienating reserve Nos. 675 and 676, parishes Cocketgedong and Watt, county of Urana, and in reply I do myself the honor to inform you that I do not think that the interests of the public would be in any way prejudiced by the revocation and alienation of those reserves, as the land which they were intended to preserve access to has since been alienated.

There will be also a large area remaining in hands of the Crown within travelling stock reserve 987, which passes through the parishes herein alluded to. The land comprising reserves Nos. 675 and 676, is open

open plain, 160 acres of which could not be profitably occupied as a farm, but it possesses a special value to the holders of the adjacent lands, and would no doubt bring 40s. per acre if set apart as a special area and submitted to auction at that upset price.

Land has been measured in areas exceeding 160 acres. However, there does not appear to be anything in the 24th section of the Land Act to prevent larger areas being alienated by auction within a special area.

I have, &c.,

C. F. BOLTON,

District Surveyor.

The Under Secretary for Lands.

Special Area 2,330.

Sir,

247, George-street, Sydney, 8 June, 1886.

On behalf of Mr. R. Raud, we beg to intimate that he is prepared to purchase reserve 950 if offered at auction, at £2 per acre. The said reserve is situated in parish Finlay, county Urana.

We have, &c.,

WILSON AND RANKIN.

The Under Secretary for Lands.

Referred to the District Surveyor for report as to whether there is any objection to the cancellation and sale of this reserve.—C.O., B.C., 28/6/86.

Sir,

District Surveyor's Office, Wagga Wagga, 14 July, 1886.

I beg to acknowledge the receipt of your B.C. of the 26th ultimo conveying instructions to me to report on the propriety of revoking and alienating reserve No. 950, parish Finlay, county Urana.

And in reply, I do myself the honor to inform you that I do not think there is any longer a necessity for retaining that part of reserve 950, comprising portions Nos. 29 and 57, parish Finlay. Though 160 acres of the land in question would not suffice to support a family, yet the land possesses a special value to adjacent landholders, and would, if submitted to auction, bring 40s. per acre. A question, therefore, suggests itself as to whether the land should be disposed of as ordinary land by conditional purchase, as a rule represents less than 40s. per acre, or whether it should be dealt with as a special area. The portions contain $227\frac{3}{4}$ acres and $235\frac{1}{2}$ acres respectively, and might, therefore, be deemed necessary to subdivide the land into areas not exceeding 160 acres each. If it is to be alienated as a special area, such a course would involve expense and delay, whereas the land would sell as readily as now measured.

I have, &c.,

C. F. BOLTON,

District Surveyor.

The Under Secretary for Lands, Sydney.

This report is specially submitted. If recommended the revocation of the reserve as to portions 29 and 7 on certain terms.—R.H.D., 15/7/86. The land may be offered at auction at 40s. per acre, and also proclaimed a special area at that price. If conditionally purchased before date of sale it may be withdrawn.—C.O., 17/7/86. Approved.—H.C., 19/7/86.

Descriptions are enclosed for cancellation of part of reserve 950, within portions 29 and 67, and for the proclamation of same as special area as requested. The area has been previously submitted for cancellation as approved on papers Miscellaneous 84-2,371 on 19th May, 1884.—G. LEWIS (for the Surveyor-General), 19/7/86. The Under Secretary for Lands.

Special Areas 2,331, 2,332, 2,333, and 2,334.

Sir,

247, George-street, Sydney, 31 May, 1886.

On behalf of Mr. R. Raud we beg to intimate that he is prepared to purchase reserves 830 and 949 (Murrumbidgee), situated on the resumed area of Mohonga Run, Central Division, if offered at auction at £2 per acre.

It is, of course, understood that any improvement purchase claims to which he is entitled will be allowed him at the ordinary rate.

We have, &c.,

WILSON AND RANKIN.

The Under Secretary for Lands.

Referred to the District Surveyor for report as to whether the public interest demands that the reserves should be retained.—C.O., B.C., 4/6/86.

Sir,

District Surveyor's Office, Wagga Wagga, 14 July, 1886.

I beg to acknowledge the receipt of your B.C. of the 4th ultimo, conveying instructions to me to report as to the propriety of revoking and alienating reserves Nos. 830 and 949, county of Urana, and in reply I do myself the honor to inform you that owing to the adjacent lands to which they have intended to preserve access to having now been alienated there does not appear to be a necessity for retaining them any longer, and their alienation would not prejudicially affect the public interests.

The land is not of such a quality that 160 acres of it could be profitably occupied as a farm, or would otherwise yield sufficient to support a family. However, it possesses a special value to the adjacent landholders, and would no doubt meet a ready sale if submitted to auction at 40s. per acre, or a proportion of it might be taken as additional conditional purchases to adjacent conditional purchases at that upset price.

The land has been subdivided, with a view of alienation, and some of the portions exceed 160 acres in extent. (*Vide* Cat. U. 1,286-1880 and U. 2,050). However, there does not appear to be anything in the 24th section of the Act to prevent alienations by auction of areas exceeding 160 acres, though conditional purchases are restricted to that area.

The part shown on Cat. 2,050, as proposed to be retained as a reserve should still be withheld from alienation.

I have, &c.,

C. F. BOLTON,

District Surveyor.

The Under Secretary for Lands.

Sir,

Sir,

Legislative Assembly, 24 August, 1886.

I have the honor to enclose a letter from Mr. M. O'Connell, and would respectfully request that you will furnish me with the information required, as Mr. O'Connell resides where he receives his mail but once a week, and he wishes the information at an early date, you would oblige by letting me have the information with as little delay as possible.

I have, &c.,

JAMES GORMLY.

Inform Mr. Gormly, M.P., that the land, with the exception of portion 30, parish Morundah South, and 45, parish of Morundah, which are applied for in virtue of improvements, was, on the 25th instant, notified as a special area at the same upset price, as it will be offered for auction if not selected.—C.O., 27/8/86.

Dear Sir,

Urangeline, 22 August, 1886.

I have been requested to ask you whether the upset prices placed on the several lots on reserve 949, parish Finlay, county Urana, will prevent them from being selected. The unimproved lots (some of them) have an upset price of £2 10s. per acre, most of the rest £1 10s. per acre. I will illustrate my meaning. Lot A, portion 22, 346 acres, has an upset price of £1 10s., whilst the improvements on it are valued at over £300. Lots B, C, D, and E, being portions 24, 25, 26, have for upset price £2 10s. per acre respectively. Lot F portion has an upset price of £2 per acre. All these lots are situated in the parish of Finlay, county Urana, on reserve 949, and (with the exception of the first named allotment A, portion 22, which, as I stated, has improvements valued at over £300) are unimproved in any way. If you will kindly find out at the Lands Office the reason why the upset prices are so high on the unimproved blocks you will much oblige.

Many persons here think that the land has been valued so high in order to give the Minister an excuse for proclaiming special areas.

Yours, &c.,

MICHL. O'CONNELL.

James Gormly, Esq., M.P., Sydney.

P.S.—The land is of a middling description.

Special Area 2,385.

Sir,

Sydney, 14 June, 1886.

I have been requested by the Progress Committee, Mulwala, to apply for the revocation of the undermentioned reserves, No. 104, Mulwala Run.

I have, &c.,

J. HAILES.

The Under Secretary for Lands.

Extract from Miscellaneous 86-2,727.

I HAVE been given to understand that land at or near Yarrowonga, in Victoria, near Mulwala, and nearly similar in quality to the land within reserve 104A, is valued at about £3 per acre. I can, therefore, recommend that this reserve be proclaimed a special area, and that the upset price be £2 per acre.

J. H. WOOD,

District Surveyor.

The Under Secretary for Lands.

For approval. The deposit and instalment to be 4s. and 2s. respectively.—C.O., 17/5/86. Approved.—H.C., 17/5/86.

Sir,

Public Works Office, Sydney, New South Wales, 13 August, 1886.

I enclose extract of a letter to me from the Secretary, Goonambil Progress Committee, relative to reserves and selections, and shall be glad if you will let me know if anything can be done in the matter.

Yours, &c.,

WILLIAM JOHN LYNE.

The Under Secretary for Lands.

[Enclosure to extract referred to.]

- (ii) I beg to draw your attention to a reserve running through Clear Hill, Wangamong, Bull Plain, thence to Mulwala. All unnecessary reserves thrown open for selection, and in blocks of sufficient area to enable a settler to effect a living by, and as 2,500 acres is the maximum area allowed, we consider it ridiculous to divide land into such small portions as 160 acres.
- (iii) That adjoining residence should constitute priority of claim, and that a resident should be allowed to enlarge his holding to the maximum area.
- (iv) That in the event of two measured portions touching at right angles, as per sketch in margin, they should be considered adjoining one another, providing there be means of access to and from each.

Earnestly praying that you will use your best endeavours to forward our views on the subject.

I have, &c.,

C. D. STEWART,

Hon. Secretary, Clear Hill and Goomal.

Sir,

247, George-street, Sydney, 4 December, 1886.

On behalf of Mr. Alex. Sloane, we have respectfully to request that cancelled reserves 104 and 104A may be submitted to auction sales with as little delay as possible. These reserves are situated in the county Denison, parishes Mulwala and Saverlake; they were cancelled on 16th October.

Our client is prepared to purchase the whole or any parts of the reserve at the price named in the special area proclamation.

We have, &c.,

WILSON AND RANKEN.

The Under Secretary for Lands.

Sir,

Crown Lands Office, Corowa, 21 January, 1887.

Sale of the
30th March, 1887;
Lots G, H, K, N,
O, P, Q, R, and
S.

I have the honor to invite your attention to the sale of Crown lands to be held at Corowa on the 30th March, as per *Gazette* notice of the 17th instant (No. 39), and beg most respectfully to inform you that the lots advertised for sale as noted in the margin are now nearly all held as conditional purchases.

I have, &c.,

The Under Secretary for Lands.

FRANK G. BATTYE,
Crown Land Agent.

Submitted. The above lots be withdrawn as requested.—E.C.M., 29/1/87. Yes.—C.O., 31/1/87.

Special Area 2,433.

Dear Sir,

Sydney, 2 December, 1885.

In the county Townsend, parish of Purdaminna, there is a small reserve of 72 acres 3 roods, which is of no use as a reserve, and it is reserved from sale and lease; it adjoins portion 103, of 150 acres.

One of my constituents, who lives close by, would like to get it as an additional conditional purchase or a conditional lease, and in that case I suppose it would require the reserve to be cancelled. If it is considered inadvisable to cancel the reserve, I suppose if he applied for to lease it by tender, that it would be gazetted, and tenders called for it.

I am informed that it is within the leasehold boundary, but is, of course, not in the lease, being reserved from lease and sale.

The Hon. The Secretary for Lands.

Truly yours,
ROBT. BARBOUR.

The District Surveyor might, perhaps, be requested to report as to the advisableness of cancelling the reserve from lease, with a view to the land being offered at auction as an annual lease, or whether the retention of the reserve in the public interest is still necessary, as, if not, it might be thrown open to conditional purchase, as desired.—W.H., 5/12/85. The Under Secretary.

Referred to Mr. District-Surveyor Wood for report.—C.O., B.C., 7/12/85. Inform Mr. Barbour, M.P. Done, 7/12/85. District Surveyor, Hay.—V.C. Received, 11/12/85. D.S.O., Hay. Mr. Surveyor Broughton for report.—R. McDONALD, D.S., 15/12/85. No. 85-42. To Mr. District-Surveyor McDonald, with my report No. 22, of 6/2/86.—JOHN BROUGHTON, Surveyor.

The Under Secretary, Department of Lands,—I do not think sufficient reasons have been advanced to warrant the retention of the reserve from sale. It is not probable that any great amount of traffic will ever be attached to the Hill Plain Railway Station; Deniliquin, the principal town of the district, is nearer than Hill Plains. It should be pointed out that there is a reserve from sale and lease (about 640 acres), No. 579, with frontage to Wakool River, about 1½ miles R.L.S. No. 2,548.—R. McDONALD, District Surveyor, 11/2/86.

Under the report of the District Surveyor the reserve from sale and lease may be cancelled. As no doubt the land is of special value, it may, probably, with advantage be declared as special area at 40s. per acre, and if not selected within a reasonable period, offered at auction at that price.—C.O., 22/2/86.

Approved.—H.C., 9/6/86. I do not consider this land worth more than 30s. per acre.—JOHN BROUGHTON, Surveyor, 29/6/86.

The portion of land referred to has been measured as No. 104, containing 72 acres 3 roods, parish of Purdaminna, county of Townsend. Descriptions for revocation and of the portion as a "special area" are enclosed herewith. A tracing from parish map is furnished herewith. The original plan is at the Surveyor-General's Office. Mr. Surveyor Broughton is of opinion that the land is not worth more than 30s. per acre.—ROBERT McDONALD, District Surveyor, 7/7/86. The Under Secretary for Lands.

Special Areas 2,434, 2,435, 3,436.

Extract Report.

Licensed Surveyor Lockhart to The District Surveyor at Hay.

Sir,

Hay, 10 December, 1885.

* * * * *
W.R. 2,020, notified 26th July, 1880.—I would recommend that this reserve be retained as it is a valuable watering-place. Should it be deemed advisable to revoke it, I would recommend it being classed as a special area with a value of 35s. per acre, and would draw attention to my letter No. 85-69, to the Surveyor-General, which gives Messrs. Armstrong Brothers a claim to purchase 225½ acres, being value of tank W.R. 199 and its northerly extension.

I would recommend the revocation of these reserves, except that portion of water reserve 199, situated between the Murrumbidgee and a point 40 chains north of present road, which I am of opinion should be retained for the benefit of travelling stock. The revoked portion of the reserve south of portion No. 28, parish of Howlong, I would submit to your notice for classification as a special area with a value of £2 per acre. Proximity of railway line and alienation of surrounding land is cause of increased value. It would be advisable to retain a frontage road down eastern boundary of reserve of at least 3 chains, forming part of a road which must shortly be opened between Carrathool and the back portion of Wardry and Howlong Runs.

W.R. 483, notified 22nd August, 1871.—I would recommend the revocation of this reserve, except that portion of it between the river and a point 40 chains north of the road, and would class the revoked portion as special area with same value, and for same reasons as quoted in last paragraph. It is most essential that a portion of this reserve be retained for travelling stock as, being on a boundary fence between two runs, it is usually made a camping place.

R. 2,020.—Recommended that this reserve be made a special area.—R. McD., District Surveyor, 21/12/85.

Recommended

Recommended that the portion of W.R. 199, within the following boundaries be revoked, and be declared a special area. Commencing at the south-west corner of portion No. 23, parish of Howlong; thence by a line southerly to the south-east corner of portion No. 22; thence east to western boundary of No. 20; thence north to the south-east corner of portion No. 28.—R McD., District Surveyor, 21/12/85.

R. 483.—Recommended that the part of the reserve northerly of the northern boundary of portion No. 34, parish of Howlong, and its easterly prolongation be revoked and declared a special area.—R.McD., District Surveyor, 21/12/85.

Sir,

19, Macquarie-place, Sydney, 13 August, 1886.

We have the honor to apply that the portion of the reserve noted in the margin, notified as revoked in the *Gazette* of the 24th July last, and shown by red hatched lines on accompanying lithograph, may be proclaimed a special area and be put up for sale by auction.

If this is done, our clients, the lessees of the run, are prepared to pay at the rate of £2 per acre for same.

Trusting you may see your way to comply with this request,

We have, &c.,

RICHARDSON AND COGHLAN.

The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 9 September, 1886.

We have the honor to acknowledge the receipt of your letter of the 7th instant, respecting the case noted in the margin, and in reply beg respectfully to draw your attention to our request contained in our letter of the 13th instant to have portion of reserve, as shown on the sketch furnished you, put up for sale by auction.

Trusting you will give the matter your favourable consideration at an early date,

We have, &c.,

RICHARDSON AND COGHLAN,

Agents for Mills, Neilson, and Smith.

The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 9 September, 1886.

We have the honor to acknowledge the receipt of your letter of the 7th instant, respecting the case noted in the margin, and in reply beg respectfully to draw your attention to our request contained in our letter of the 13th instant to have portion of reserve, as shown on sketch furnished you, put up for sale by auction.

Trusting you will give the matter your favourable consideration at an early date,

We have, &c.,

RICHARDSON AND COGHLAN.

The Under Secretary for Lands.

18 January, 1887.

There does not appear to be any reason for deferring survey of special areas Nos. 2,435 and 3,436, parish of Howlong, and it is recommended that subdivision of these areas may be made in conjunction with subdivision of reserve No. 216, as recommended in my letter No. 87-1 of 17th January; also that these special areas may be similarly subdivided in regard to areas.

R. McDONALD,

District Surveyor.

Sir,

19, Macquarie-place, Sydney, 2 August, 1888.

On the 13th August, 1886, we had the honor to ask that the reserve noted in the margin might be sent to auction.

May we now renew our request and state that if put up for sale our clients are willing to purchase same.

Trusting you may be able to see your way to give this matter your early and favourable consideration,

We have, &c.,

BRETT AND COGHLAN.

The Under Secretary for Lands.

Sir,

19, Macquarie-place, Sydney, 20 November, 1888.

We respectfully ask that our request for sale by auction of the reserve noted in the margin may receive early attention. The papers in the case are with the District Surveyor, and if he was authorised to make the case special (it being a matter initiated so long back as the 13th August, 1886) it would be esteemed a great favour.

We have, &c.,

BRETT AND COGHLAN.

The Under Secretary for Lands.

Sir,

Hay, 10 August, 1889.

I have the honor to transmit herewith the plan of three portions of land numbered 63, 64, and 65, in the parish of Howlong, county of Sturt, and measured by me on 2nd August, 1889, in accordance with instructions No. 89-51, dated 6th July, 1889.

The country is open cotton-bush plain, and is destitute of timber, except of the south-eastern corner of portion No. 65, where there are some box trees.

The soil is light brown clay of a firm nature.

There is an old five-wire fence across portion No. 63. I was unable to ascertain its age, but it has been recently repaired, and is now in good order; the length of fence is 62.67 chains, and the value £15 per mile, £11 15s. The fence is the property of the lessees of Uardry Pastoral Holding.

A fair upset price per acre would be £2.

I have, &c.,

W. H. FOSTER,

Temporary Salaried Surveyor.

The Acting District Surveyor at Hay.

It

It is recommended that the limit of area of this special area be extended to the maximum under the 1889 Act.—THOS. BROUGHTON, Acting District Surveyor, Hay, 4/11/89.

P.S.—Parts of portions 63 and 64 in the eastern boundary are outside the limit of the special area, and should probably be proclaimed special area if it is intended to retain the special area 2,435.—A. R. GALL (*pro* Acting District Surveyor), 6/11/89.

Sir, Hay, 17 February, 1890.
I hereby make application that the land noted in margin should be regazetted as a special area under the 1889 Act, so that 640 acres can be applied for. Also that the upset price should be one pound ten shillings (£1 10s.) per acre.
Yours, &c.,
The Under Secretary for Lands. ROBERT GIBSON.

Sir, Hay, 17 April, 1890.
In reference to special area 2,434 being water reserve 2,020, parish Livingstone, county Sturt, I have the honor to request that the reclamation of above area, under 1889 Act, should be expedited as early as possible.
Yours, &c.,
The Under Secretary for Lands. ROBERT GIBSON.

Sir, Camp, 20 October, 1890.
In compliance with your instruction of the 1st October, No. 90-106, I have the honor to report that on the 4th of October, 1890, I inspected the country within special area, No. 3,436, parish of Howlong, county of Sturt.
South of the railway line, and for 3½ miles north of it, the country is level open plain, with rich chocolate soil, the remaining land is slightly undulating, and sandy in places, with scattered clumps of box and pine timber, otherwise it is similar to the southern portion of the special area.
There is no water on the land, and its conservation, except on the northern portion of the special area, by means of tanks, will be difficult owing to the level nature of the country.
I estimate the carrying capacity of the land at one sheep to about 2½ or 3 acres.
I am of opinion that it is well worth the price, £2 per acre, placed on it under the Crown Lands Act of 1884.
I have, &c.,
The District Surveyor at Hay. W. NEVILLE SANDALL.

Sir, Hay, 29 July, 1891.
Would you please inform me when the reclamation of the land noted on margin will take place.
Yours, &c.,
The Under Secretary for Lands. ROBERT GIBSON.

County Sturt,
parish Howlong,
Special area,
3,436.

Sir, Hay, 30 April, 1891.
I have the honor to transmit herewith the plan of seven portions of land, containing from 454½ acres to 640 acres. Total area, 4,077½ acres, numbered 87 to 89, in the parish of Howlong, in the county of Sturt, within the resumed area of Howlong, pastoral holding, No. 659, measured by me in April, 1891, in accordance with instructions No. 91-7, dated the 2nd February, issued by the District Surveyor at Hay.
The value of improvements are as follows:—Portion No. 83, £3 18s. 3d.; portion No. 84, £8 9s. 6d.; portion 85, £44 12s. 10d.; portion 86, £10 18s. 9d.; portion 87, £88 18s. 6d. Total, £156 17s. 10d.
I have, &c.,
The District Surveyor at Hay. S. A. M'DOUGALL.

Special Area 2,443. Reserve 3,145.

With respect to the part marked B on the sketch, the timbered part has been notified as forest reserve No. 2,526, the remainder being within reserve 3,145, which it is not proposed to cancel, being in the leasehold area, does not appear to require to be re-notified. As to portions Nos. 75 and 76, parish Benandra, which falls within the resumed area of the run, they may, I think, be revoked from reservation, and offered at sale as special areas at an upset price of 35s. per acre, as it would readily sell at that price.

The Under Secretary for Lands.

C. F. BOLTON,
District Surveyor.

Special Area No. 2,447.

Sir, 90, Pitt-street, Sydney, 22 July, 1886.
I have the honor, on behalf of the lessee of the Wallendoon Run, in the county of Urana, to request that the reserve, as per margin, may be cancelled, and the land put up to public auction as a "special sale without competition," and this application is made, as it is considered that if the land is thrown open to conditional sale, the value of it will not be obtained, and in proof of which I am authorised to offer, on behalf of the lessee, the sum of (£2) two pounds per acre.

The Under Secretary for Lands.

I have, &c.,
T. F. WALLER.

Submitted,—The reserve has been notified as revoked, but the revocation has not yet taken effect. Perhaps the land may be declared a special area at 40s. per acre, and steps also taken to bring it forward for auction, if not conditionally purchased.—C.O., 29/7/86.

Approved.—H.C., 23/8/86.

Reserve, 1,862.
8/11/72.

Special Area 2,570.

District Survey Office, Albury, 27 July, 1886.
It is recommended that the defined area specified in margin, and situate in the county of Hume, parishes Richmond and Goombargana, being part of reserve No. 923 for water supply be cancelled, under the provisions of the Crown Lands Act, as being no longer required in the public interests. This reserve has been subdivided for sale under the repealed Act. The adjoining land is said to be worth £2 per acre. I can, therefore, recommend that this land be proclaimed a special area, at a minimum upset price of £2 per acre.

The Under Secretary for Lands.

J. H. WOOD,
District Surveyor.

Within resumed area (*vide* description). Recommendation submitted for approval.—F.H.W.
Submitted.—C.O., 29/7/86. R.H.D., 28/7/86. Approved.—H.C., 30/7/86.

Special Area 2,831.

(Misc. 86-15,834.)

Sir,

I have the honor to request that you will be pleased to revoke the reserve particularised in the margin, in the interests of settlement.

Wentworth House, Sydney, 31 August, 1886.

I have, &c.,

JAMES CARROLL,

Agent.

(*Pro* WM. SEYMOUR & CO. AND OTHERS.)

Water reserve 821; notified 18th October, 1876; county Bourke, parish Lachlan; 640 acres.

The Under Secretary for Lands.

Sir,

District Surveyor's Office, Wagga Wagga, 21 October, 1886.

I beg to acknowledge the receipt of your B.C. of the 12th instant, No. 86-123, conveying instructions to me to report on the advisability of revoking reserve No. 821, parish Lachlan, county Bourke, and, in reply, do myself the honor to inform you that, owing to all the surrounding land having been now alienated, I do not see any necessity for retaining reserve No. 821. The land comprising the reserve is of good quality, and suitable for cultivation, and if sold at auction would, I think, bring 35s. per acre. I think, therefore, it might be measured in 160-acre portions, with a view to revocation and alienation. The upset price of 35s. per acre as a special area would not act as great an obstacle to selection as the restriction to so small an area as 160 acres.

I have, &c.,

C. F. BOLTON,

District Surveyor.

The Under Secretary for Lands.

Proposed special area, at 35s. per acre. Recommendation submitted.—R.H.D., 25/10/86. F.H.W. S.F., 26/10/86. Approved.—H.C., 27/10/86.

Special Area 2,833.

Sir,

Wagga Wagga, 27 October, 1886.

We have the honor to state that it is notified in the *Government Gazette* of 16th October instant that reserve 303, county Bourke, parish of Ganmain, containing 640 acres in Dirty Swamp Plain, has been revoked, and will, in due course, be open to conditional purchase. We desire to point out to you that the land has frontage to the Murrumbidgee, and is valuable, and will probably bring a high price if put up to auction sale. We are aware that the sum of £2 10s. per acre will be bid for it if put up to auction. We submit that, as the land is river frontage, it should be put to auction sale or made into a special area.

Fitzhardinge and Coleman, solicitors, &c.

As the land will be open for selection next month, we respectfully request that the matter may have your early attention.

We are, &c.,

FITZHARDINGE AND COLEMAN.

The Under Secretary for Lands.

Special Area 3,014, re-notified as 7,750.

Dear Sir,

Mulwala, 10 August, 1886

Referring to your letter of the 21st July last, a copy of which is appended, I am directed by the members of the Mulwala Progress Committee to express the hope that you will be pleased to reserve for further consideration the confirmation of the notification referred to in said letter. The Committee unanimously protest against any subdivisions being made in reserve 103A, Tarramia, and urge that there never existed the least shadow of an excuse for having recourse to such subdivisions, as there is more than sufficient land on the south side of the reserve to camp all the available stock in Riverina. Again, many *bona fide* selectors have been here for months past anxiously awaiting the wished-for moment when the reserve shall be thrown open for selection; but, by the notification of your letter, are now unfortunately doomed to bitter disappointment, inasmuch as the two best portions of the reserve, viz, one of 748 acres, the other of 152½ acres are cut off, thereby debarring the selector from selecting. Further, the members of the Committee desire me to state that they were in perfect ignorance of the notification announcing the proposed subdivisions of reserve 103A until the 7th instant, the date of the local Land Court (which they state was two days later than usual). Consequently, were the Land Court held on the 5th, instead of the 7th, the Committee was prepared to offer such objections as would be fatal to such subdivisions for all time. The Committee, therefore, with confidence appeal to your sense of justice, knowing, as it does, that it is your earnest desire to mete out justice between man and man; that you will be pleased not to confirm the subdivisions of reserve 103A, Tarramia, now or at any future time, unless some tangible reasons be offered in support thereof, which the Committee fail to see at present.

Yours, &c.,

C. A. HOWARD,

Secretary, Mulwala Progress Committee.

T. A. Brown, Esq.,

Chairman, Land Board, Albury.

Special

Dear Sir,

Corowa, 21 August, 1886.

I am directed by the Committee of the Land and Industrial Alliance to express the hope that you will reserve for further consideration the confirmation of the subdivision of water reserve 103A, Tarramia Run,—a copy of such notification enclosed.

The Alliance unanimously protest against any subdivisions being made in reserve 103A for camping or travelling stock purposes, as there is sufficient land on the south side of the reserve to accommodate all the travelling stock of the district.

And I would most respectfully point out that many *bona fide* selectors have been anxiously awaiting the time when this reserve would be thrown open for selection; but by your notification of the 21st July they are doomed to disappointment, as the two best portions of the reserve are cut off.

The Committee desire me to point out that they were in total ignorance of the notification until the 7th instant, and consequently were unable to offer any objections on the 5th instant, as required by the notification.

We, therefore, trust that you will be pleased not to confirm the subdivision until you have taken evidence as to the necessity of such subdivision.

T. A. Browne, Esq.,

Chairman, Local Land Board, Albury.

Yours faithfully,

ALEX. CAMERON,

Secretary.

Dear Sir,

Mulwala, 1 September, 1886.

I am directed by the members of the Mulwala Progress Committee to express the hope that in your jurisdiction you will be pleased to recommend and impress on the notice of the Honorable the Minister for Lands the immediate necessity of throwing open for selection reserves Nos. 103A, 104, and 105, with as little delay as the urgency of the case demands. It is a fact beyond contradiction that for months past many *bona fide* selectors in and around Mulwala have been anxiously awaiting the wished-for time when these reserves should be thrown open for selection, so as to enable them to create homes for themselves and families.

It is evident from present surroundings, and from the almost primitive state of Mulwala, that some action should be taken to advance the prosperity of the town and district. This, as you are aware, can only be accomplished by encouraging population, and successful population requires the blessings of homesteads. You are doubtless aware of the fact that Mulwala is one of the oldest townships in Riverina, and yet look at it. No helping hand has ever been put forth to aid its progress. It is not, therefore, surprising that it should be as it is. You have the remedy in your hands, and the Committee, having the utmost confidence in your integrity, trust that you will use the power vested in you to aid the advancement of the town and district, viz., by recommending the above reserves to be thrown open for selection, so as to enable the hard-working and industrious selector to make a home for himself and family. The Committee, therefore, rest satisfied in leaving the matter of these reserves in your hands.

I am, &c.,

C. A. HOWARD,

Secretary, Mulwala Progress Committee.

T. A. Browne, Esq.,

Chairman, Land Court, Mulwala.

District Survey Office, Albury, 15 December, 1886.

For revocation.
Areas—475
acres, 3,200
acres, 13 acres 1
rod 16 perches.

For reservation.
105½ acres,
120 acres,
about 3,236 acres,
162½ acres.

It is recommended that the defined areas specified in margin, and situated in the county of Denison, parish of Mulwala, and being reserve 103A, part of reserve 103, and reserve 103 extension, be revoked, under the provisions of the Crown Lands Act, and the defined areas in the parishes of Mulwala and Tarramia be reserved from sale for travelling stock and camping, from lease for traffic, and for special area under the 109th, 101st, and 24th clauses of the Crown Lands Act in lieu thereof.

J. H. WOOD,

District Surveyor.

The Under Secretary for Lands.

The travelling stock reserves referred to have been dealt with by the Local Land Board, and approved of (86-18,917). The additional recommendations made by the District Surveyor are submitted.—H.R.D., 20/12/86.

C.O., 31/12/86. Approved.—H.C., 3/1/87. The District Surveyor, Albury, to suggest price for special area.—R.H.D., 22/1/87. I can recommend that the upset price for this special area be £2 per acre.—J. H. Wood, D.S., 25/1/87. The Under Secretary for Lands. Recommendation submitted.—R.H.D., 24/2/87. F.H.W. Must await legislation in view of decision of Minister of 26/2/87.—S.F., 23/2/87.

Sir,

Sydney, 16 October, 1888.

Portions 160,
161, 162, 163, and
164.

We have the honor to draw your attention to the "special area," as notified in *Gazette* of 1st ultimo, parish of Tarramia, county of Denison, and to point out that the price fixed upon, viz., £2 per acre, is far too low an estimate of the value of this land, which will readily bring fully twice that amount if offered for competition.

We may mention that we are in receipt of a telegram from Mr. H. T. Whitty, lessee of Tarramia holding, wherein he states will guarantee to purchase (the portions as per margin) at £4 per acre, if offered for auction sale at that price; and in view of this, and the likely loss of revenue to the Crown if the price fixed is adhered to, we would respectfully submit that the land be at once withdrawn, so as to have it offered for auction sale at an upset price of £4 per acre.

As soon as we receive Mr. Whitty's letter confirming above-mentioned telegram, we will forward you same, and trust that you will see your way clear to approve of this request.

We are, &c.,

CLARK AND ROWLEY,

Acting as Agents for Mr. H. T. WHITTY.

The Under Secretary for Lands.

Sir,

Sir,

With reference to our letter of yesterday's date, *re* special area, in the parish Mulwala, county Denison, as notified in *Gazette* of 1st ultimo, we now beg to enclose letter from Mr. Hy. Whitty, dated 15th instant, guaranteeing to purchase, in the event of their being offered for auction sale, the under-mentioned portions, comprising the "special area," at the prices named, viz. :—Portion 158, of 40 acres, at £4 per acre; portion 160, of 178½ acres, at £4 per acre; portion 161, of 191 acres, at £4 per acre; portion 162, of 262 acres, at £4 per acre; portion 163, of 206½ acres, at £4 per acre; portion 164, of 249½ acres, at £4 per acre. Portion 151, of 320 acres, at £3 10s. per acre; portion 152, of 50 acres, at £3 10s. per acre; portion 153, of 166½ acres, at £3 10s. per acre; portion 154, of 320 acres, at £3 10s. per acre; portion 155, of 320 acres, at £3 10s. per acre; portion 156, of 60 acres, at £3 10s. per acre; portion 157, of 135½ acres, at £3 10s. per acre.

In view of this, we would respectfully submit that the land be at once withdrawn, with a view of having it offered for auction sale at the upset prices as above.

The Under Secretary for Lands.

We are, &c.,

CLARK AND ROWLEY,
Acting as Agents for MR. H. T. WHITTY.

These lands will be open to selection on first of next month, at £2 per acre. If the lands are worth the money stated herein they may be made special areas at that price perhaps. The request here is for auction sale.—R.H.D., 18/10/88. Submitted.

Telegraph to District Surveyor, advising him of this offer, and inquiring whether, in view of the special value which attaches to this land by reason of its proximity to the Melbourne market, and the connection therewith by rail direct from opposite Mulwala, he is prepared to modify his views as already expressed, and to state what value should be placed on the land.

Urge immediate report by wire, in order that due publicity may be given to any new conditions that may be determined.—J.N.B., 18/10/80.

Sir,

District Surveyor's Office, Wagga Wagga, 19 October, 1888.

I have the honor to inform you that the value of land, along the Murray River particularly, in this district has increased in value of late, and I beg to recommend that when reserves are dealt with which have been held over for a considerable length of time the papers be returned to me prior to notification, in order that I may report any increase on the value of the land that may have accrued.

I may state that in one case at Tarramia, the land had increased 100 per cent. between the date of Mr. District-Surveyor Wood's valuation and the date of notification of special area.

The Under Secretary for Lands.

I am, &c.,

WILLIAM ORR,
District Surveyor.

Telegram from Wagga Wagga to The Under Secretary for Lands, Sydney.

19 October, 1888.

In reply to telegram the prices of land in special area, parish Mulwala, county Denison, notified 1st September, should be increased at least to those offered by Mr. Whitty, and I am of opinion that his values might be raised.

The land may be reproclaimed as a special area, but at the increased rate of £4 per acre.

J.W.B.

Special Area 6,968.

Sir,

Pitt and Bridge Streets, Sydney, 26 November, 1886.

We are instructed by Mr. F. S. Falkiner to offer 40s. per acre for the reserve No. 1,177, county Townsend, exclusive of the land thereon applied for in virtue of improvements.

The Under Secretary for Lands.

We have, &c.,

DUGUID & CO.

Sir,

Germanton, 28 February, 1887.

In accordance with instructions No. 71, dated 16th December, 1886, I have the honor to report that on the 17th February, 1887, I inspected reserve No. 1,177A in the parish of Jerra Jerra in the county of Goulburn.

The timber thereon which consists of stringybark, box, and gum, is of very inferior quality, being neither suitable for the purpose of sawing nor splitting.

The quality of the land is only medium, being worth about 25s. per acre.

There are no springs nor other permanent water upon the reserve in question.

The District Surveyor, Albury.

I have, &c.,

IRWIN SMITH,
Licensed Surveyor.

The reserve referred to by Mr. Falkiner is probably in the county of Townsend, and he has evidently given the wrong number. I can recommend the revocation of reserve 1,177A, parish of Jerra Jerra, as it is not required in the public interests. I do not recommend a special area. Description for revocation and tracings herewith.—J. H. Wood, District Surveyor, 30/3/87. The Under Secretary for Lands.

Transferred to Mr. L. S. Smith for subdivision into 160-acre portions, he will report also as to the character of land, and say whether, in view of its proximity to Doodle Cooma Railway Station, it should be set apart as a special area.—C. F. BOLTON, District Surveyor, 23/9/87.

Sir,

Germanton, 29 February, 1888.

I have the honor to transmit herewith the plan of two portions of land containing 160 acres and 60½ acres, numbered 190 and 191, in the parish of Jerra Jerra, in the county of Goulburn, measured by me for sale on the 15th February, 1888, in accordance with instructions No. 87-130, dated 14th September, to Mr. District-Surveyor Bolton, and No. 87-35, dated 23rd September, to me.

I have to report that at the time of survey, improvements had been effected on portion 190, consisting of some top-rail five-wire fencing, worth £15. Portion 191 was unimproved.

These portions are situated about 10 miles from the Doodle Cooma Railway Station, but I do not think that they should be set apart as a special area, because the land is unsuitable for agriculture. It is, however, very fair for grazing purposes, being open forest ridges, well grassed and timbered, with white box, gum, and stringybark. There is no timber of any value on either of the portions. In all probability there would be competition for the land if it were offered at auction, and, in my opinion, it would realize £2 per acre.

I am, &c.

IRWIN SMITH,
Licensed Surveyor.

Memo. from the District Surveyor, Wagga Wagga, to The Under Secretary for Lands.

31 May, 1888.

Portion 190, of 160 acres, has been measured, comprising the land covered by reserve 1,177A, notified 21st July, 1874, Ministerial approval for the revocation of which is given upon Misc. 87-4,763 enclosed.

Portion 191, of 60½ acres, was measured at the same time, embracing part of reserve 1,743, notified 13th February, 1877, which I have now the honor to recommend for revocation. These two portions are situated in the resumed area of Buckeringah holding, and Mr. L. S. Smith values them at £2 per acre, but neither he nor the late District Surveyor at Albury advocate declaring them special areas. With a view, however, of securing a fair value for the land, I would recommend the proclamation of a special area, covering the two portions, at an upset price of £2 per acre, and failing selection under the 24th clause within a reasonable period, that the land be brought to auction at that price.

Portion 190 contains improvements worth £15; portion 191 is unimproved.

Description for revocation of reserve 1,177A and part of 1,743, and for proclamation of special area, are enclosed.

WILLIAM ORR,
District Surveyor.

The special area as described in the minute of the 13th instant, may, it is submitted, be notified.—
C.O., 14/7/88. Approved.—H.P., 16/7/88.

Special Area 6,977.

Sir,

Albury, 4 February, 1887.

In accordance with instructions dated 24th November, 1886, to inspect and report on improvements on reserve 2,313, being measured portion No. 30 in the parish of Glenkin, in the county of Selwyn, I beg to report as follows:—

I visited the land in question and made a thorough inspection of it, but owing to the time that has elapsed since the improvements were effected, causing all traces of the amount of work done in connection with scrubbing, clearing, and burning off to become obliterated, I find it somewhat difficult to arrive at a correct estimate of the amount of money spent.

I have interviewed Messrs. Cheney Brothers, the former owners of Ouranee Station on the subject, and although they have now no records of the amounts paid away, they were both unanimous in agreeing that improvements had been effected on this reserve to the extent of fully £1 per acre.

Mr. Lloyd, the present manager of Ouranee Station, informs me that when Messrs. Cobb and Co. took delivery of the pastoral holding, receipts were handed in to show that improvements had been effected on this portion to the amount of 12s. 6d. per acre, and that since then improvements in connection with fencing, clearing, burning off, and grubbing have been carried on to the extent of 10s. per acre.

The whole of the land has been ringbarked, and apart from grubbing, clearing, &c., I notice the following improvements on this portion:—

Hut (on bank of Ouranee Creek)	£40
Fence (five-wire top-rail, between road and bank of Ouranee Creek) ...	55
Two huts on bank of Johanna Creek	35
Two old huts on bank of Johanna Creek	15
Garden, bank of Johanna Creek	20
Ringbarking	80

Looking at the land as contrasted with the surrounding unimproved country, the land contained in this reserve would undoubtedly appear to have been, by improvements effected, benefited fully to the extent of £1 per acre; but, as stated before, as it is about eight years since these improvements were effected, in the case of grubbing, clearing, and burning off, there are now no traces of the work done on which to base an estimate of money expended.

I have, &c.,

A. H. CHESTERMAN.

The District Surveyor, Albury.

I can recommend the revocation of reserve No. 2,313, county Selwyn, and also that it be proclaimed a special area. Descriptions enclosed. The portion would probably sell at auction at the rate of £2 per acre.—J. H. Woon, D.S. The Under Secretary for Lands.

Special

Dear Sir,

Ouranie, 11 November, 1887.

There is a reserve. No. 2,313 on Ouranie which was I. Wanklin, selector. It had been forfeited or cancelled for not having sufficient improvements; it was rung to about 3 acres, grubbed; there is 511 acres in it, I believe, and it was made a water reserve or special area of; there is no travelling stock comes this way, and if there ever is any they never get water or camp there; there are a good many other reserves on this run; the squatter has the use of all those reserves now; I take this on myself to write to you to ask if this land could be selected or leased; if we could get 200 acres or the lot for conditional lease; it is on the resumed half.

My husband and daughters have been to Albury last February for land when it was open, and were not successful in the drawing; we have a large family of twelve children, and have not 1 acre of land, nor have never had the luck to get any as yet; my husband is a carrier, and is away wool carting with his teams; now he has to pay in the winter months for grass for his bullocks, it comes very hard on him, as it takes all he makes to keep our family and educate them, as they are mostly all young; now if we could get a piece of this land I speak of, it would enable me to keep my family altogether, as they could keep a dairy, to cultivate some of the land. I am anxious to make a home for my dear children, and I am sure that if we get some of this land by a little perseverance we could get a comfortable living. I hope you will comply with my wishes if in your power to do so, as I think it is a just case for consideration.

My husband said it would be no use writing, as he did not think a poor man could get this land so I have taken it on myself to write to you, trusting you will take this into consideration.

Yours respectfully,

MARGARET A. COSTELLO.

The Secretary for Lands.

Sir,

Camp Tooma, 31 December, 1887.

In connection with the enclosed letter by Mrs. Costello, asking to be allowed to select on reserve 2,313, parish of Glenken, county of Selwyn, I beg to report as follows:—

The writer of this letter has evidently made a mistake about reserve 2,313 being cancelled. It was the adjoining reserve, viz., portion 31 of 500 acres, parish of Ouranee, that was cancelled about twelve months ago, but being on the leasehold half of the run, it cannot be selected.

Reserve No. 2,313, viz., portion 30, parish of Glenken, selected by — Wanklin some years ago and forfeited is, I believe, still uncancelled.

This reserve is on the resumed half of the run, and is improved to the value of about £1 per acre.

When the Ouranee Gold-field reserve was thrown open to conditional purchase last February, the Costello family endeavoured to obtain some land, but were unsuccessful in the drawing.

I have, &c.,

A. H. CHESTERMAN.

The Acting District Surveyor, Wagga Wagga.

Sir,

Camp Ournie, 17 July, 1888.

In reply to instruction numbered 15, and dated 18th May, 1888, having reference to subdivision of reserve 2,313, parish of Glenken, county of Selwyn, I beg to submit herewith design for such subdivision:—

1. It is now about four years since any mining was carried on in that part of Johanna Creek included within this portion, and I do not think it is necessary to reserve any land along it for mining purposes. About fifteen months ago, J. Jeffreys was working on Ouranee Creek, just below the junction with Johanna Creek. Since then he has been mining near Omeo, in Victoria, although his family still reside on this reserve. About six months ago a miner, named Homer, was also working in Ouranee Creek, below the junction with Johanna Creek. At the present time no one is mining along the creek.

2. Wanklin's old hut is still occupied, and has been for the last eight and a half years, by a miner, named Jasper Brandt, who is working in the Peep o' Day Gully, on the northern side of Ouranee Creek. He is the holder of a miner's right, and I would suggest that quarter of an acre be reserved around the site of his hut.

3. I have already reported with reference to improvements upon this reserve. *Vide* my letter, 87-6, of 4th February, to the District Surveyor, Albury.

4. The quality of the land comprised within this reserve is so good that I would recommend its subdivision into areas not exceeding 80 acres.

5. The cost of this inspection and report may be estimated at about £3 3s.

I have, &c.,

A. H. CHESTERMAN.

Before completing the foregoing minute it was found that reserve 2,313 was revoked on the 30th July, 1888, and proclaimed special area, the projected subdivision may be abandoned. It is also observed that portion 30 is advertised for sale at Albury on the 10th October, 1888. Probably the portion will not be offered, as no doubt part of it will be selected under the 24th section; but to avoid any future complication, it is recommended that portion 30 be withdrawn from auction sale, as it is partly under occupation for mining, and excision of a few small areas would probably be necessary before sale. The portion might stand as a special area, and provision can be made in measuring any land applied for for the exclusion of any area in legal occupation for mining. The reservation from sale of the area shown by green hatching on tracing "A" is recommended as likely, from its situation, to prove useful in the future.—
WILLIAM ORR, District Surveyor, Wagga Wagga, 14/9/88. The Under Secretary.

Special Area, 7,011.

Wagga Wagga, 17 April, 1888.
 This portion has been measured in connection with an adjoining subdivision, and it is recommended should be brought to auction at an upset price of 35s. per acre, with value of improvements added for owner's protection. With this view it is submitted that the portion be withdrawn from railway reserves 218A and 218A extension, notified 26th November, 1868, and 28th June, 1880, respectively. The improvements upon the land consist of a tank valued at £75, constructed by pastoral lessee, situated within the resumed area of Kindra Creek Holding No. 699. Central. Descriptions for withdrawal from reservation enclosed.

The Under Secretary for Lands.

WILLIAM ORR,
 District Surveyor.

May go on.—T.G., 11/7/88.

Special Area, 7,012—Special Area, 7,984.

139, Pitt-street, 27 October, 1886.
 Sir,
 We have been instructed by Mrs. E. Green to apply to have that portion of travelling stock reserve 997, parish of Buraja, county of Hume, situated on the road from Jerilderie to Corowa, and bounded on the north by portions 41 and 23, parish Buraja; on the east by portion 100, parish Buraja; on the west by portion 421, parish Corowa; and on the south by portions 321 and 195, parish Corowa, being the land coloured blue on enclosed tracing, cancelled and the land measured and offered for sale by auction with as little delay as possible.

Yours, &c.,

BLOMFIELD AND DICKSON.

The Under Secretary for Lands.

The District Surveyor, Albury.—S.F., B.C., 12/11/86.

Mr. T. S. Cowley for the measurement for sale of that part of the travelling stock reserve north of portion 195 on the east side of the road Corowa to Jerilderie.—J. H. Wood, District Surveyor, 15/11/86.

Albury, 4 June, 1887.
 Sir,
 I have the honor to transmit herewith the plan of one portion of land containing 100 acres 3 roods 20 perches, numbered 167, in the parish of Buraja, in the county of Hume, within the Quat Quatta Run, measured by me on 14th April, 1887, in accordance with instructions No. 65 dated 15th November, 1886.

This land has been measured for sale on the application of E. Green.

This area was applied as a conditional purchase by D. Kelly, but was refused on account of being on travelling stock reserve 997. He has been until recently in occupation of this land.

The improvements were effected by him, and consist of: Ringbarking, to £12 12s.; fencing, to £29 4s.; tank, £20.

Yours, &c.,

WM. COWLEY,
 Licensed Surveyor.

The District Surveyor, Albury.

Plan approved. Dealt with in District Survey Office. This portion has been measured for alienation upon application, and it is submitted that it be brought to auction at an upset price of £2 10s. per acre after withdrawal from travelling stock reserve 997, notified 2nd December, 1873, description for which is enclosed. Value of improvements to be added.—WILLIAM ORR, Acting District Surveyor, 16/1/88. The Under Secretary for Lands.

Submitted, 16/1/88. C.O., 31/1/88. Hold over.

48, Castlereagh-street, Sydney, 24 September, 1888.
 Sir,
 I do myself the honor, on behalf of Mrs. E. Green, of Ellers Glen, Corowa, to inform you that she has been in possession of part of reserve 997, notified 2nd December, 1873, county of Hume, parish of Buraja, area 100 acres 3 roods 2 perches, situated within the boundaries of measured portion 167, having purchased the same from a man named Kelly, who had previously conditionally purchased and improved the same, the said land adjoining other property of Mrs. Green's.

The said reserve has been cancelled, and the area above mentioned has been proclaimed as a special area.

For the reasons above mentioned, the said land is of more value to my client than to any other person, and she is therefore prepared to purchase it at £4 per acre cash, or if it must be put up for sale by auction, she is willing that the upset price should be £4 per acre, and in case a large price should be offered for it at auction she will bid in competition with any other person.

As a proof of the *bona fides* of Mrs. Green's offer, I now enclose cheque for £403 10s., being the price of the land at £4 per acre.

I am, &c.,

R. J. ABBOTT.

The Minister for Lands.

Sir,
 Referring to my letter to you of the 24th September last, enclosing cheque for £403 10s., as a proof of the *bona fides* of an offer made by my client, Mrs. E. Green, of Ellers Glen, Corowa, to purchase 100 acres 3 roods and 2 perches, per part of reserve 997, notified 2nd December, 1873, county of Hume, parish of Buraja. If the Department has finally decided not to let the above go to auction will you be good enough to send me back the cheque at once, as my client is paying interest on the amount of same.

I am, &c.,

R. J. ABBOTT.

The Minister for Lands.

Special Area 7,021.

Sir,

Sydney, 12 July, 1887.

We have the honor to request, on behalf of Mr. Hy. Creswick, occupant of Liewah Holding, that about 1,570 acres of land may be measured and offered for auction sale at an early date, parish Mallan, county Wakool. Plan enclosed, shown by pink tint. Trusting that this application may receive the favourable consideration of your Department.

We are, &c.,

CLARK AND ROWLEY,

Acting as agents for Mr. Hy. Creswick.

The Under Secretary for Lands.

Submitted. This application be referred to the District Surveyor for report and measurement if unobjectionable.—R.H.D. The District Surveyor, Hay, accordingly.—S.F., B.C., 15/7/87.

Sir,

Moulamein, 9 November, 1887.

I have the honor to transmit herewith the plan of three portions of land, containing 357½, 448, and 520½ acres, respectively numbered 18, 19, and 20, in the parish of Mallan, in the county of Wakool, within the Liewah Pastoral Holding, measured by me on 1st to 10th November, 1887, in accordance with instructions No. 87-36, dated 28th September. This land has been measured for sale on the application of Henry Creswick, and consists of black soil, level, box country, with occasional patches of open plain, all well grassed where ringing exists, and more suitable for pastoral purpose.

There is no natural permanent water supply on portion 20, but on portions 18 and 19 permanent water exists in holes in the Mallan Mallan Creek.

The improvements are worth £14 8s. The ringing was done in the early part of 1882, and fencing in 1878, at the expense of the lessee and are of a useful character except the yards which are very old.

In my opinion the two frontage portions, Nos. 18 and 19, are worth 30s. per acre, because of the frontage, and portion 20 25s., all of the land being of good quality for pastoral purposes.

ARTHUR B. WOOD,

Licensed Surveyor.

Sir,

Sydney, 15th November, 1887.

We have the honor to request on behalf of Mr. H. Creswick, occupant of Liewah Holding, Central Division, that the following portion of land may be reserved from sale for access to water; portion 18 of 357 acres; parish Mallan, county Wakool.

We would respectfully beg to point out that in the event of forest reserve 1,789 being in any way interfered with, and the portion in question selected, our client would be entirely cut off from the water in Mallan Mallan Creek in this part of his run, and which would be the means of entailing heavy expense on him.

Trusting that this matter will receive the early and favourable attention of your Department.

We are, &c.,

CLARK AND ROWLEY,

Acting as Agents for Mr. H. Creswick.

The Under Secretary for Lands.

Memorandum from the District Surveyor, Hay, to the Under Secretary for Lands.

20 April, 1888.

MEASUREMENT of 1,326½ acres has been made in accordance with instructions on alienation 87-2,935 enclosed, application by the lessee of Liewah Holding, for the survey of 1,570 acres for auction sale.

The remainder of the land applied for is embraced within measured portions Nos. 13 and 14, applied for by K. M. S. McKenzie, under conditional purchase 86-20 and conditional lease 86-12, which were disallowed by the Minister on appeal, and reserve No. 613, from lease with which it is undesirable to interfere. Part of forest reserve No. 2,125 is embraced within the subdivision, and there appears to be no objection to revocation, a report to that effect having been obtained from the Department of Mines, *Vide Misc. 87-13,414.*

An application, Misc. 87-15,096, has been made by the lessee of the holding for the reservation from sale for access to water of portion 18, and the matter has been dealt with by my report No. 88-13.

A description of the part of forest reserve No. 2,125, proposed to be revoked is also enclosed.

It would appear that circular No. 88-14, precludes the sale by auction of portions 18 and 19, as Mallan Creek is held to contain permanent water. If, however, under the circumstances pointed out in my report No. 88-13 of this date on application for reservation of portion 18, viz.: that in the event of cancellation of forest reserve No. 2,125 (in lieu of 1,789), and ultimate selection of the land, the lessee's freehold would be cut off from Mallan Mallan Creek, thus necessitating the watering of sheep by reserve No. 613, and the travelling of about 4½ miles from the most remote part of the paddock which is partly comprised in these lands, it be decided to offer portion 18 at auction. I would recommend that an upset price of £2 5s. per acre be placed on the land.

JOHN BROUGHTON,

Acting District Surveyor.

Sir,

Sir,

District Survey Office, Hay, 20 April, 1888.

In compliance with your instructions No. 87-186 of the 6th December, requesting me to report on an application by H. Creswick (per Clark and Rowley), for the reservation from sale for access to water of portion 18 of 357½ acres, parish Mallan, county of Wakool, I have the honor to state:—

The establishment of this reserve would not be a public advantage, and cannot therefore be recommended, but there is no doubt that in the event of the cancellation of forest reserve No. 2,125 (in lieu of 1,789), and the ultimate selection of the land, the applicants freehold would be shut off from easy access to the Mallan Mallan Creek, though access can be obtained by way of reserve No. 613, which to water stock would necessitate them travelling about 4½ miles from the most remote point in the paddock, that is partly comprised by these lands.

My memorandum of this date deals with the applicants request for auction sale of the land.

I am, &c.,

JOHN BROUGHTON,
Acting District Surveyor.

Special Area 7,067.

Sir,

Deniliquin, 3 August, 1887.

Adverting to your instructions No. 2,8-87, directing a report upon reserves within resumed areas in this district, I have the honor to forward herein a tracing, showing reserve No. 3,779, for travelling stock purposes, in the parish of Whymoul, county of Wakool, and I beg to submit the following report:—

I am of the opinion that the retention of this reserve is unnecessary as a public requirement, and it is pointed out that it is not in the highway of stock, as the proposed stock road (parish road) is situated about 2 miles to the east of this land.

The character of this country is principally box forest, being a small proportion of open plain.

The improvements on this land consist of yards, hut, ringbarking, and fencing.

I am of the opinion that the nature of the soil is not of the quality that justifies a special area.

This reserve is situated within the resumed area of the Barham Pastoral Holding, lessees, Wilson and Dougherty.

The District Surveyor, Hay.

I am, &c.,

JOHN BROUGHTON.

It is submitted that the reserve which embraces the portions referred to be now revoked, and the portions brought forward for sale by auction, if not in the meantime conditionally purchased.—C.O., 16/7/88.

Approved.—H.P., 20/7/88. Very urgent. Will the District Surveyor, Hay, be good enough to report on the value of these two portions, and whether they should be made a special area.—R.H.D. (for the Under Secretary), 23/7/88.

I consider the value of the land comprising portions Nos. 20 and 25, parish of Whymoul, county of Wakool, 32s. 6d. per acre; but owing to its remoteness from settlement, or a market, and the limited area available as a special area, I consider that quality of the soil is not good enough, as far as agriculture is concerned, to warrant it being proclaimed such.—JOHN BROUGHTON, Acting District Surveyor, 25/7/88. The Under Secretary for Lands.

Special Area 7,144.

Telegram from Albury to the Under Secretary, Lands Department.

PLEASE proclaim as special area portion 5, parish of Glenken, county of Selwyn. It will be open to selection on 23rd.

14 August, 1888.

WILLIAM ORR,
District Surveyor.

It has been decided that the land be offered at auction at 25s. per acre. Submitted that it be declared a special area at 30s. per acre.—J.D., 14/8/88. C.O. Approved.—H.P., 14/8/88.

Special Area 7,181.

FORFEITED conditional purchase 82-151, of 179½ acres, comprises portion 76, of 40 acres 1 rood (within leasehold area), and portion 68, of 139 acres 1 rood (within resumed area). The conditional purchase was forfeited on the 19th December last. The District Surveyor recommends that the portion within the resumed area be declared a special area at £2 per acre.

Special Area 7,187.

Sir,

Camp, via Narandera, 13 August, 1887.

I do myself the honor to transmit herewith the plan of two areas, containing 274 acres, numbered 37 and 38, in the parish of Cadell, county of Urana, surveyed by me in compliance with your instructions No. 144, dated 7th October, 1886.

The land comprised within these portions, although of superior quality, could not be considered suitable for agriculture, owing to the dry and doubtful climate for grazing purposes, it is well adapted to pasturage, although these being of a rich fattening nature.

Water can easily be conserved by excavating tanks from ordinary rainfall, and a permanent supply can be obtained by sinking wells to depths varying from 100 to 130 feet, such water being fit for stock and domestic purposes.

I am, &c.,

W. A. LIPSCOMB.

Special

Special Area 7,188.

Sir,

Narandera, 29 April, 1886.

We, the undersigned, beg to ask of you that you will be pleased to revoke or cancel a certain reserve, viz., water reserve No. 1,314, notified 23rd March, 1875, situate in the counties of Boyd and Mitchell, containing 5,300 acres, more or less.

In making this request, we must explain that the surrounding country is watered by the Murrumbidgee River, Yanko Creek, and Cuddell Creek, and the reserve referred to, though notified as a water reserve, has not any connection with a travelling stock route, and serves only as an addition to the holding of the pastoral tenant.

There are in the immediate neighbourhood many settlers who are hemmed in and confined to small holdings, who are particularly anxious to have the opportunity of improving the land referred to.

We have, &c.,

H. D. ADAMS,

Mayor.

The Minister for Lands.

[And eleven more.]

5 May, 1886.

THE contiguous lands having now been alienated, there does not appear to be a necessity for retaining the whole of reserve No. 1,314, but, in view of the permanent character of Tom Grogan's Lagoon, I think about 180 acres should be retained, as indicated on sketch herewith. The balance is very good land, and might be set apart as a special area, at an upset price of 40s. per acre. I would also advise that it be surveyed before the reserve is revoked. Reserve 523 should be surveyed, and the two best roads down the river preserved. I do not think the land is of a quality to justify its being set apart as a special area.

C. F. BOLTON,

District Surveyor.

Approved. In surveying these areas, care should be taken, so as to ensure that the several portions of 160 acres or less might, if grouped together, allow of alienation being made of larger areas (say 320 acres or 640 acres each.—T.G.

Extract.

Re reserves 1,314 and 523, counties Mitchell and Boyd—Minute by District-Surveyor Bolton.

5 July, 1886.

THE contiguous lands having now been alienated, there does not appear to be a necessity for retaining the whole of reserve 1,314. But, in view of the permanent character of Tom Grogan's Lagoon, I think about 180 acres should be retained as indicated on sketch herewith. The balance is very good land, and might be set apart as a special area, at an upset price of 40s. per acre. I would also advise that it be surveyed before the reserve is revoked. Reserve 523 should be surveyed, and the two best roads down the river preserved.

I do not think the land is of a quality to justify its being set apart as a special area.

C. F. BOLTON,

District Surveyor.

The Chairman, Local Land Board, Wagga Wagga.

Sir,

District Surveyor's Office, Wagga Wagga, 27 July, 1886.

In reply to your B.C. of the 21st July, 1886, No. 72, requesting my report as to the advisability of cancelling water reserve No. 1,314, situated in the counties of Boyd and Mitchell, I do myself the honor to inform you that on the 5th instant, I furnished a report to the Chairman of the Local Land Board by B.C., on papers Misc. 86-10,459, as to the necessity of retaining reserves Nos. 1,314 and 523, which was as follows, viz.:—"The contiguous lands having now been alienated, there does not appear to be a necessity for retaining the whole of reserve No. 1,314; but, in view of the permanent character of Tom Grogan's Lagoon, I think about 180 acres should be retained as indicated on sketch herewith.

The balance is very good land and might be set apart as a special area at an upset price of 40s. per acre.

I would also advise that it be surveyed before the reserve is revoked. Reserve 523 should be surveyed, and the two best roads down the river preserved. I do not think the land is of a quality to justify its being set apart as a special area."

Papers Misc 86-10,459 herein referred to will no doubt be submitted to you by the Local Land Board in due course.

I am, &c.,

C. F. BOLTON,

District Surveyor.

15 November, 1887.

THESE portions form a subdivision of part of water reserve No. 1,314, notified 23rd March, 1875.

Portion 89 has been made with an area to commensurate with certain improvements existing thereon.

Descriptions, &c., for the cancellation of so much of the reserve as is embraced in these portions, and for the *Gazette* notification of the same as special areas, are forwarded herewith.

An area of about 180 acres of this reserve, including Tom Grogan's Lagoon, have been retained.

If not conditionally purchased the land may, I think, be offered at auction at 40s. per acre.

C. F. BOLTON,

District Surveyor.

The Chairman, Local Board, then Under Secretary, Lands.

Special

Special Area 7,190—Revoked and included in Special Area 11,166.

Sir,

Land Agency Office, 248, George-street, Sydney, 3 September, 1885.

I have the honor, under instructions from Mr. Robert Cust and other selectors in the locality, to apply for the cancellation of part of water reserve No. 287, situated in the county of Townsend, parish Kerranakoon: "Starting from the north-east corner of portion 25, running thence south along the eastern boundary of that portion and portions Nos. 20 and 41 to the northern boundary of travelling stock reserve 1,032; thence along that travelling stock reserve east to the western boundary of reserve from lease No. 198; thence north by that road to the 5-chain road south of travelling stock reserve 1,032; thence west along that road to starting point."

By reference to the map it will be seen that there is no available land in the locality; and, moreover, there are numerous reserves, and the granting of this application will not in any way vitiate the public interest, but will give the residents thereabouts an opportunity of extending their holding.

Will you please instruct the surveyor to report as soon as possible as to the advisability of revoking the reserve in question.

I have, &c.,

JOHN A. MARTIN

(Per G.D.C.)

The Under Secretary for Lands.

Enclosed are two applications for the revocation of portions of reserves 287 and 288, and extensions on the resumed area of Morago Holding, Central Division, which reserves have been partly subdivided with a view to revocation. The approval to cancel is of old standing, and the reserves are clearly not required in the public interest. Revocation was delayed, in the first instance, pending subdivision of some of the measurements to allow certain claims in virtue of improvements. (Mis. 81/21,079.) Those subdivisions having been made, the revocation was again stayed, except as regards the portions to be sold as improvement purchases, pending the passing of the new Land Act (Mis. 83-25,977). Being on resumed area, no objection now apparently exists to the revocation of the subdivided area, and also of that part of reserve 812 and extension north of portion 31 and 32, which has also been subdivided for revocation, and is on the same resumed area. In dealing with the division of the holding, attention was invited to these particular reserves, and therefore were included in resumed area as presenting a fair scope for intending selection. I would invite attention to the schedules particularising improvements with the papers, from which it may be seen that a considerable amount has been expended on the reserves since July, 1876. The two applications now lodged for revocation are—First, from the lessee of the run, Alienation 84-4,581, for part of 288 and extension, with a view to auction sale of certain portions; and, second, on behalf of intending selectors, Miscellaneous 85-17,274. This latter refers to a part of reserve 287, not yet subdivided, and lying between the inner and outer stock routes. It is submitted that the revocation of the subdivided areas might now be carried out (about 3,700 acres), and a report obtained from the District Surveyor on Miscellaneous 85-17,274, to which possibly some objection may exist.—C.J.S., 16/1/86. Mr. Houston.

Sir,

Deniliquin, 2 March, 1886.

Adverting to your instructions No. 2, of 8th January, 1886, directing a report upon reserves in this district, I have the honor to transmit herewith a lithograph showing part of reserve No. 287, which I beg to recommend be revoked for the purpose of the 22nd section of the Lands Act.

I am of the opinion that the retention of this reserve does not bestow an advantage to the public estate, as it will be seen that all adjoining lands are either alienated or held by conditional purchasers, and there being no permanent water contained by it, consequently it is not longer adopted for the purpose of a water reserve.

This reserve has been improved by the lessee of Marago Run.

The part of this reserve proposed to be alienated is lying on the north side of the travelling stock reserve to 32, and is indicated on lithograph by green edging. The land within it is principally an open plain, and it is well suited for settlement.

I have, &c.,

JOHN BROUGHTON,

Surveyor.

R. McDonald, Esq., District Surveyor, Hay.

Sir,

Deniliquin, 5 April, 1886.

Adverting to you B.C., dated 31st March, 1886, on paper, Land Board District, Hay, No. 86-850, directing a further report upon reserve No. 287, I beg to state that I am of the opinion that the purpose of special areas within this district without permanent water frontage or embracing low sand-hills, cannot be considered conducive to settlement, is owing to the annual rainfall of this locality being dubitable. The selector, as a rule, does not altogether depend upon the produce of agriculture, and during my experience in this district I find that the crop generally grown is wheat, and that this year, which has been an exceptionally good season for the agriculturist, the average crop to the acre is about 14 bushels, and the market price 3s. 6d. per bushel. The cost of producing is £2 1s. per acre, viz., ploughing, 14s.; sowing, 6s.; seed, 7s.; stripping, 10s.; bags, cartage, and other expenses, 4s. per acre, which would leave the farmer 8s. per acre, or (say) on 110 acres, £56 per annum, to pay for cost of land, clearing, fencing, and the necessities of life; and, as previous years crops have been below 10 bushels per acre, I do not consider the whole area of this reserve adapted as a special area, and suggest that the portion of 160 acres forming the northern end, and shown by red hatching on lithograph, may be proclaimed as a special area.

I do not consider this land worth more than £1 7s. 6d. per acre, and I am not aware of any person but the pastoral lessee who is likely to pay that price.

I am, &c.,

JOHN BROUGHTON.

R. McDonald, Esq., District Surveyor, Hay.

The Under Secretary for Lands,—Mr. Surveyor Broughton recommends the revocation of reserve No. 287, as being no longer required in the public interest. The reserve was submitted by Mr. Licenced-Surveyor Landon in 1879, but no further action appears to have been taken at the time of Mr. Landon's survey,

survey, portion Nos. 66 and 67, were improved to the value of £233 15s. and £205 respectively. Mr. Broughton reports that only about 160 acres at the northern extremity of the reserve are suitable as a special area. He does not consider the balance of the land to be worth more than £1 7s. 6d. per acre, and thinks that the lessee of the run is the only person who would be likely to give that amount.—ROBERT M'DONALD, District Surveyor, 6/4/86.

Sir,

Deniliquin, 30 November, 1886.

I have the honor to transmit herewith the plan of a portion of land containing 160 acres and numbered 68 in the parish of Boree, county of Townsend, measured by me on November 9th, 1886, in accordance with your instructions No. 14 (to L. S. McCulloch), dated 13th July, 1886.

The nature of the land embraced by this portion is principally a low sandy rise which is well suited for agriculture; the residue of the land comprises a small proportion of swampy box country, also part of an open red soil plain, the latter being fairly adapted to cultivation.

The water supply is dependent on the tank, and is dammed by the lessee, who informs me it was completed in May, 1876, the value of this improvement (which is the only one), is £31 17s. 6d., viz., 850, at 9d. per yard.

R. M'Donald, Esq., District Surveyor, Hay.

I have, &c.,

JOHN BROUGHTON.

Forwarded to the Under Secretary for Lands. Descriptions:—Seven acres are enclosed for revocation of parts of reserves 287, 288, and travelling stock reserve No. 1,032, in accordance with Ministerial approval on Misc. 86-6,654, also tracing showing portion No. 68, parish of Boree, decided to be made a special area, description for same enclosed. Mr. Broughton recommends that the price of the special area be 30s. per acre. I doubt if more could be obtained. Further revocations of the above-mentioned reserve are recommended, *vide* Surveyor Broughton's letter, No. 86-128, forwarded this date.—R. M'DONALD, District Surveyor, 11/3/87. The Under Secretary for Lands.

After report to be obtained.

Sir,

Deniliquin, 16 November, 1886.

Advorting to your instructions, No. 38, dated 5th May, 1886, directing a report upon reserve No. 287 and parts of reserves No. 288 and 812, situated within the resumed area of the Morago Pastoral Holding in the county of Townsend. I have now the honor to submit the following particulars.

Reserve 287 extension was inspected by me on the 8th instant, and I am of the opinion that it does not generally embrace land of the class that is suited for agriculture, and with the exception of that part of the reserve recommended as a special area (by my report No. 86-43), the country is of the ordinary kind, and would be more advantageously occupied under the provisions of the 26th and 48th sections, the nature of the country within this reserve (on the north side of the travelling stock reserve) is principally open red soil plains, there being a shallow box water-course running through it, which at the northern extremity there is about 100 acres of sandy red soil, which is adapted for agriculture, and has already been measured by me in accordance with instructions (No. 86-14 to L. S. McCulloch). That part on the south of travelling stock reserve No. 1,032, is chiefly a box forest, there being a few small unimportant patches of pine scrub, and at the locality of the east boundary of portion No. 20 there is a small area of low ground which is timbered with an inferior class of gum (stunted), upon which no commercial value can be placed. There is not any permanent natural water on these reserves, and I am of the opinion that the existence of reserve No. 98 from lease is sufficient for public requirements, viz., access to water, and I therefore recommend that the parts of this reserve as already measured and that described by pink tint on accompanying tracing, which also affects a portion of travelling stock reserve No. 1,032, and about 8 acres of forest reserve 1,792 (R. M'D.) be revoked and made available for the ordinary system of selection. I am of the opinion that no injury can occur by the alienation of the part of travelling stock reserve 1,032, as from its position and state it is not of any public benefit: I did not inspect the improvements on the measured portion of this reserve, as I concluded they had already been reported upon, and these are not any improvements on the residue of it.

Reserve No. 288. This reserve was reported upon by my letter, No. 86-33.

Reserve No. 812A the portions lying between portion No. 33, parish Morago and 25, parish of Devon. I am well aware of the character of the country embraced by this part of reserve No. 812, and I do not consider it of sufficient importance to justify a special area.

I have, &c.,

JOHN BROUGHTON,

Surveyor.

Proposed Special Area.

Sir,

Hay, 26 February, 1890.

With reference to the revocation of reserve No. 287 extended and 287 north extension, notified in *Gazette* of 15th instant, I have the honor to submit the following report:—

This land is situated on the Morago Holding resumed area, and distant 18 miles from Deniliquin. It is of good character, and, in view of the Land Act of 1889, I am of the opinion that it should be proclaimed a special area.

The part of this reserve north of travelling stock reserve No. 1,032 is measured and already partly covered by special area No. 7,190, being portion No. 68, parish Boree, area 160 acres, price 30s. per acre; but I recommend that this special area be revoked, and that the whole of the available land be proclaimed a special area; maximum limit, 640 acres; minimum, 40 acres; price per acre, £1 12s. 6d. The part of the land on the south of travelling stock reserve No. 1,032 is unmeasured, and it is presumed that a temporary reservation pending survey will be desirable, but, in the meantime, I consider the measured portion should go on for selection.

I have an intimate knowledge of this land, and consider the limits of area are appropriate. Tracing herewith.

In event of recommendation herein contained being approved of, I respectfully request that action be taken as early as possible, thus remove from the public mind the impression that this land will be open for ordinary conditional purchase.

I have, &c.,

J. BROUGHTON,

Acting District Surveyor.

Memorandum

Memorandum.
Proposed Special Area.

Sir,

Hay, 4 March, 1890.

With reference to the revocation of reserve No. 812 extension, notified in *Gazette* of the 15th February, 1890, I have the honor to submit the following report:—

This land is situated on the Morago Holding resumed area, and distant about 15 miles from Deniliquin. It is of good character, and, in view of the Land Act of 1889, I am of opinion that it should be proclaimed a special area.

The land has been already subdivided into portions whose areas range from 40 acres to 209½ acres, being measured portions 33 to 37, parish of Morago, and portions 54 to 56, parish Devon, county Townsend, and I recommend that these lands be proclaimed special areas of a maximum limit of 640 acres, and a minimum limit of 40 acres, at £1 12s. 6d. per acre.

I have an intimate knowledge of the locality, and consider the limits of area are appropriate.

In the event of the recommendations contained herein being approved, I respectfully request that action be taken as early as possible, and thus remove from the public mind the impression that this land will be open for ordinary conditional purchase. Tracing herewith.

I have, &c.,

J. BROUGHTON,
Acting District Surveyor.

The Under Secretary for Lands.

Submitted that the proposed special area be notified at 35s. per acre.—R.H.D., 12/3/90. W.H., 12/3/90. Approved.—J.N.B., 12/3/90.

Special Area 7,268, renotified as 7,909, and 7,270, 7,271, renotified as 7,725.

Sir,

Albury, 11 February, 1887.

I have the honor to request that you will be pleased to recommend as special areas at the rate of £2 per acre, the following reserves which I believe are about to be revoked:—

1. Part of travelling stock reserve 997, parish Buraja, situated on the parish boundary, and north of portions 23 and 41.
2. Part of travelling stock reserve 997, parish Buraja, situated on the parish boundary. That part south of portion 16.
3. Reserve 3,147, parish Buraja.
4. Water reserve 1,080, parish Lowes.
5. Water reserve 850, parish Buraja.
6. Camping travelling stock reserve 1,519, parish Boomanoomana.
7. Water reserve 106. That part north of main Deniliquin Road.

I am confident that these reserves will sell readily as special areas.

I have, &c.,

JNO. M'PHILLAMY,
Inspector of Conditional Purchases.

J. H. Wood, Esq., District Surveyor, Albury.

District Survey Office, Albury.

Revocations:—
Areas,
600 acres,
640 acres,
545 acres,
1,250 acres.

It is recommended that the defined areas specified in the margin, and situate in the counties of Hume and Denison, and being reserves from sale 1,080, 3,147, 106, 1,519, and from lease 186, 737, be revoked under the provisions of the Crown Lands Act, as they are no longer required, and that they be proclaimed as special areas, at a minimum rate of £2 per acre.

J. H. WOOD,
District Surveyor.

Reservations:—
600 acres,
640 acres,
545 acres,
890 acres.

The Under Secretary for Lands.

The special area may be proclaimed as recommended by the District Surveyor.—R.H.D., 28/7/88. C.O. Approved.—H.P., 2/8/88.

Sir,

Pitt and Bridge Streets, Sydney, 11 October, 1888.

Referring to the notification in *Government Gazette* of 22nd ultimo that water reserve No. 1,080, parishes of Lowes and Buraja, has been revoked, we are instructed by Messrs. Edols Brothers to state that, providing the land is not thrown open to selection, but put up to auction, they are willing to give £3 10s. per acre for it, as if selected the working of the run would be considerably interfered with.

Requesting the favour of your early attention to this matter.

We have, &c.,

DUGUID & CO.

The Under Secretary for Lands.

Sir,

48, Castlereagh-street, Sydney, 7 November, 1888.

I do myself the honor, on behalf of Mr. William Hay, of Boomanoomana, to request that he may be allowed to purchase special area No. 7,268, county of Denison, parish of Boomanoomana, containing an area of about 600 acres, part of reserve on the 22nd September last, at the price of £4 per acre, or that the same may be offered at auction the upset price to be £4 per acre, Mr. Hay bidding at the auction.

I am prepared in either case to lodge in your hands, if you consider it necessary, a cheque for £2,400, as earnest of the *bona fides* of my client.

I have, &c.,

R. P. ABBOTT.

The Minister for Lands.

Special

Special Area 7,294, revoked and reproclaimed as 8,133.

Sir,

Warratta, 12 March, 1887.

In reply to your instructions of 16th February, 1887, and 17th February, 1875, for report on part of reserve 109A, parishes of Tanganga and Tocumwal, county of Denison, I have the honor to reply as follows—that I inspected the land on the 6th instant, and find that there are about 50 acres of pine scrub on the land, as shown by me on tracing. If these were thinned out in a few years they would become timber.

The quarry is as shown on tracing, the rock extending easterly into this part of the reserve; it would be suitable for road metal or other purposes.

The old boundary fence (which went along the position of the red line) has been totally burnt by a bush fire, also it is difficult to determine through that cause the present value of the ringing and scrubbing, but they may be valued the same as in my report of 17th November, 82-106, viz., ringing at 1s. 3d. per acre, and scrubbing, with the exception of the 50 acres, at 1s. 6d. per acre.

I think because this pine scrub is, with the exception of another small patch or two westerly, the only place in the locality where there is any on Crown lands, and that the rocks may be useful for road metal and other purposes, that the reserve should be allowed to remain.

I have, &c.,

WM. CREED,
Licensed Surveyor

The District Surveyor, Albury.

Descriptions are now herewith for revocation of reserve No. 2,936, of the remaining parts of No. 1,460, 109A extension, 109A northerly and easterly extension, and 109 further extension, and for the reservation of parts in lieu thereof for traffic, quarry, and special area, the latter to be offered at a minimum price of £2 per acre.—J. H. WOOD, District Surveyor. The Under Secretary for Lands.

Australian Mortgage, Land, and Finance Company (Limited),

Sir,

2, Spring-street, Sydney, 13 November, 1888.

I have the honor to address you with reference to the special area reserve No. 7,294, in the parishes of Langunya and Tocumwal, county of Denison, notified on the 6th October, and I beg respectfully to request that this land may be submitted to auction sale at £4. You may accept this letter as I guarantee that it will fetch that price.

Asking your favourable consideration,

I have, &c.,

WM. F. ALLWORTH
(Per Manager),
Agent for R. P. McFARLAND.

Wire under to District Surveyor. Referring to special areas, parishes of Langunya and Tocumwal, county of Denison, notified in *Gazette* of 6th October, 1888, as available for ordinary special area selection at £2 per acre, in accordance with District-Surveyor Wood's suggestion of March, 1887, it has been represented that the land is worth £4 per acre. Please report by telegraph present value. Reply to-morrow, please.—S.F., 29/11/88.

Telegram from Wagga Wagga Station, addressed to Under Secretary for Lands, Sydney.

SPECIAL area, parishes Langunya and Tocumwal, county Denison, referred to in telegram of this afternoon, should be £4 per acre.

WM. ORR,
District Surveyor.

Submitted in connection with the Under Secretary's memo. of 29/11/88 on 14,511.—R.H.D., 3/12/88. Special. Re-notify at £4 per acre.—J.N.B., 3/12/88.

Re proclamation of special area 8,133, parish of Langunya, county of Denison.

Memo. from the District Surveyor to the Under Secretary for Lands, Sydney.

8 February, 1890.

REFERRING to circular 90-5 of the 24th ultimo, *re* reproclamation of unalienated parts of special areas, it is recommended that, as a reasonable time has elapsed since the proclamation of special area No. 8,133, parish of Langunya, &c., county of Denison, and a part of the area remaining unselected, the balance of the land be reproclaimed as a special area, under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres.

In view of the fact that the land is unmeasured, and that the provisions of the 18th section require that all lands should be measured before being declared as special areas, it is requested that authority be granted for the measurement of the same.

WILLIAM ORR,
District Surveyor.

Special Area 7,306.

Sir,

O'Brien's Creek, 15th January, 1885.

In compliance with instructions herewith, from Mr. District-Surveyor Wood, I have the honor to state that on the 14th instant, I inspected reserves Nos. 492A, 491, 491A, 489, and extension on west side of Kyeamba Creek, also reserve No. 1,030 in the parish of Book Book, county of Wynyard.

The particulars of the improvements are as follows:—On reserve No. 491, commenced 1879, completed 1879; 14-chain fence at £36 per mile, £6.

Rough plans attached show position of improvements referred to in report.

Distance travelled in reporting, 30 miles.

I may add that the reserves reported on are useless to the public, there being no traffic on the left bank of Kyeamba Creek, and the selections adjacent to the reserves are held by lessee of Book Book Run.

I have, &c.,

ARNOLD LOVE,
Licensed Surveyor.

The Surveyor-General, Sydney.

Sir,

Big Springs, 8 March, 1886.

I have the honor to transmit herewith the plan of three portions of land containing 1874, 50, and 160 acres, numbered respectively 99, 100, and 101, in the parish of Book Book, in the county of Wynyard, being subdivision of reserve Nos. 491 and 491A, and measured by me on 18th February, 1886, in accordance with instructions No. 85-718, reserve branch Misc. 85-19,493, forwarded to Mr. District-Surveyor C. F. Bolton, and transferred to me 19th November, 1885.

Improvements to the value of £50 have been effected on 491A, consisting of sheep-yards erected in 1875 by lessee of Book Book Run, and used at present time for stock purposes. Portion No. 100, containing an area commensurate with value of improvements, namely, 50 acres, has been surveyed.

On portions Nos. 99 and 101 there are not any improvements.

Roadway forming western boundary of portions No. 99 and 100, is a good practicable road, suitable for vehicular traffic.

Magnetic variation was not determined by me, but a previous observation has been adopted.

I have, &c.,

ARNOLD LOVE,

Licensed Surveyor.

Form herewith showing description of portions 99, 100, and 101. Dealt with in District Survey Office. This land is a subdivision of water reserves 491 and 491A, and has been measured with a view to its (the reserves) cancellation. See papers Misc. 86-19,493 with 86-2,289 L.B.D., descriptions and tracings herewith, for revocation of reserve, and notification of special area at upset price of 35s. per acre. If not conditionally purchased in three months may be offered at auction at that upset price.—C. F. BOLTON, District Surveyor, 15/12/87.

P.S.—Portion 100 should be offered at 35s. with improvements added.—C.F.B.

Special Area 7,341.

Sir,

Camp, Temora, 30 November, 1887.

I have the honor to transmit to you herewith the plan of fourteen portions of land, 2,283 acres, numbered 10, and 51 to 63 inclusive, in the parish of Wallundry, in the county of Bland, which I have measured for conditional sale, under the 24th section of the Crown Lands Act of 1884, in accordance with B.C. instruction 87-72, from Mr. District-Surveyor Bolton.

The only improvements on these lands is the top rail and wire fencing, which forms part of a paddock in connection with the sheep drafting yards of Narraburra Run, value £20, on portion 54. The brush fencing on portions 53 and 54 is only a temporary break.

The deadwood fencing forming the boundary between Narraburra and North Gundibindyal Run is also worthless, and cannot be considered as an improvement, though suitable for present requirement.

The land subdivided forms part of water reserve 3,018, notified 4th June, 1884, and reserve 1,562, notified 31st March, 1879. It is situated within the Gundibindyal Gold-field, proclaimed 13th May, 1879, and forms part of the resumed area of Narraburra Run.

This land is situated on the main road from Temora to Young; also on the direct road from the Merool to Young, and being very good agricultural land, it is desirable that it should be proclaimed as a special area, and alienated in accordance therewith. There being no natural permanent water supply, though usually water in Gilgai Holes dispersed throughout this area, I have not considered it advisable to recommend any area for a camping reserve, there being available unalienated land adjacent on the leasehold area. Water may be readily conserved in the various watercourses.

As the whole of these lands are being eagerly sought for, I would advise despatch in making it available.

I have, &c.,

V. F. TOZER,

Licensed Surveyor.

The District Surveyor, Wagga Wagga.

The road along the west boundary of portion 3 being unsuitable, a slight modification in design was necessary.—V. F. TOZER.

In the event of these lands being proclaimed special areas, the value of the land would then be 30s. per acre, and I would recommend that that sum be fixed for the upset price. As portion 10 could not be included in the special area, it would readily sell at auction at 30s. per acre.—V. F. TOZER, Licensed Surveyor.

Sir,

Parliament House, 1 April, 1890.

I would respectfully request that the proclamation fixing the area of land (160 acres) allowed to be selected on revoked reserve 7,341, county of Bland, parish of Wallundry, be withdrawn, and a fresh proclamation issued, so that a larger quantity can be taken by a selector. The proclamation was made before the amended Act came into force.

The Under Secretary for Lands.

Yours, &c.,

JAMES GORMLY.

5 February, 1890.

In accordance with circular 90-5, of 24th ultimo, referring to reproclamation of unalienated parts of special areas, it is recommended that as a reasonable time has elapsed since the proclamation of special area No. 7,341, parish of Wallundry, county of Bland, and a part of the area remaining unselected, that the balance of the land be reproclaimed as a special area under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres.

With this end in view, a description for reproclamation is enclosed.

WILLIAM ORR,

District Surveyor.

Submitted.—R.H.D., 28/2/90.
3/3/90.F.H.W. (*pro* Under Secretary), 1/3/90.

Approved.—J.N.B.,

Special

Special Area 7,341—Plan approved.

18 July, 1888.

It is now submitted that reserve 1,562, notified 31st March, 1879, and so much of water reserve 3,018, notified 4th June, 1881, as is comprised within the subdivision be cancelled, and that portions 51 to 63 inclusive, parish of Wallundry, county of Bland, be proclaimed a special area, open to conditional purchase, under the 24th section, at 30s. per acre. Portion 10, which is slightly in excess of the maximum area allowed under section 24, is recommended for auction sale at 30s. per acre.

Portion 54 is the only portion improved, and contains fencing valued at £20. Descriptions enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Special Area 7,409.

Sir,

Sydney, 22 March, 1888.

On behalf of the lessees, the N. Z. and A. Land Co. (Limited), of Bundure, No. 604, C. Division, we have the honor to request that steps may be taken for the cancellation of reserve noted in the margin, if not already acted upon, with a view of having the whole reserve offered at auction in areas as lately measured.

We have, &c.,

DU FAUR AND GERARD.

Reserve No. 1,205, notified 11th August, 1874, parishes of Broome and Cadell, county of Urana; resumed area Bundure

The Under Secretary for Lands.

Wagga Wagga, 2 July, 1888.

In connection with the enclosed application for the cancellation of water reserves 1,205 in the county of Urana, I have the honor to report that the retention of the whole of this reserve is now unnecessary, and recommend its revocation, with the exception of the unmeasured portions. The land is worth £2 5s. per acre, and should be proclaimed a special area or withheld from revocation pending amendment in Land Act.

Should it be approved to revoke the reserve, descriptions will be found enclosed for cancellation of the whole of reserve 1,205, and for notification of the portions proposed to be retained, also for proclamation of the measured parts as special areas.

Tracing enclosed illustrative of action suggested.

The reserve is situated within the resumed area of Bundure holding.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Sir,

Sydney, 6 August, 1888.

Referring to our letter of 22nd March last, applying for the cancellation of reserve noted in margin, with a view of having it offered at auction, we have the honor respectfully to urge that the District Surveyor's report as regards the measured portions within said reserve may be carried out and gazetted for auction sale at as early a date as possible.

Our clients are prepared to pay £2 5s. per acre, as appraised by District Surveyor's report referred to.

We have, &c.,

DU FAUR AND GERARD.

B. 1,205, notified 11th August, 1874, parishes of Broome and Cadell, county of Urana; resumed area No. 604, C. Division, Bundure.

The Under Secretary for Lands.

Sir,

Sydney, 21 November, 1888.

With reference to your letter of 24th ultimo, having reference to cancellation of reserve noted in margin, and its proclamation as a special area, i.e., we have the honor to urge now that the land proclaimed a special area, and not selected, may be brought to auction at an early date.

We have, &c.,

DU FAUR AND GERARD.

Reserve No. 1,205, notified 11th August, 1874, county of Urana.

The Under Secretary for Lands.

Memorandum.

Wagga Wagga, 5 February, 1890.

In accordance with circular 90-5, of 24th ultimo, referring to reclamation of unalienated parts of special areas, it is recommended that, as a reasonable time has elapsed since the proclamation of special area 7,409, parish of Broome, &c., county of Urana, and the area remaining unselected, that the land be reclaimed as a special area under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres.

With this end in view, a description for reclamation is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Sir,

Sydney, 28 November, 1890.

On behalf of the lessees of Bundure holding, we have the honor to apply for portions noted in the margin to be offered at auction sale at an early date, for which they are prepared to pay at the rate of £2 5s. per acre.

These portions, together with others, were declared special areas as early as September, 1888, and have not to the present time been selected, under which circumstances we trust the lands may go to auction at once.

We have, &c.,

DU FAUR AND GERARD.

The Under Secretary for Lands.

Memorandum.

Wagga Wagga, 18 February, 1891.

REFERRING to the enclosed correspondence regarding portions Nos. 37 and 38, parish of Cadell, and portions Nos. 85 and 86, parish of Broome, county of Urana, which form part of special area No. 7,409, proclaimed

Portion 37, of 114 acres; portion 38, of 100 acres, parish of Cadell, county of Urana; portion 85, of 160 acres; portion 86, of 160 acres, parish of Broome, county of Urana; part of special area No. 7,409; proclaimed 6th October, 1888.

proclaimed 6th October, 1888, and reproclaimed 30th April, 1890, I would respectfully state that the land has been open to conditional purchase as a special area for nine months, and the whole area available might have been applied for by one individual. I am of opinion, therefore, that there cannot be any reasonable objection to the auction sale of the same at £2 5s. per acre as upset price.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

Special area 7,413—Reserve 1,204.

Sir,

Exchange, Sydney, 22 March, 1888.

On behalf of the lessees of the N.Z. and A. Land Co. (Limited), we have the honor to request that a report may be furnished with a view of cancellation of reserve (part), noted in margin, with the object of having it offered at auction at an early date.

We are informed that it has been measured.

We have, &c.,

DU FAUR AND GERARD.

The Under Secretary for Lands,

This reserve was subdivided in 1882, and with the exception of the unmeasured portions is not now required. I would, therefore, recommend its revocation and the re-notification of the portions edged green on enclosed lithograph. The land is worth £2 5s. per acre and should be proclaimed a special area or revocation delayed, pending changes in legislation. Portion of the reserve to be revoked situated in resumed area is shown by red edging on lithograph; description enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga, 22/3/88. The Under Secretary for Lands.

That part of reserve No. 1,204, notified 11th August, 1874, situated within the resumed area of Bundure, No. 604, Central Division, parish of Bundure, county of Urana.

Sir,

Exchange, Sydney, 15 August, 1888.

Referring to our letter of 22nd March last, applying for the cancellation of reserve noted in margin, now approved and to be declared a special area at £2 5s. per acre, we have the honor to urge that the measured portions of said reserve may be offered for auction sale simultaneously with the land being declared a special area, or, if impracticable, at as early a date thereafter as possible.

We have, &c.,

DU FAUR AND GERARD.

The Under Secretary for Lands.

Ms. 88-3,513; part of reserve No. 1,204, R.A., Bundure, No. 604, Central Division.

Sir,

Exchange, Sydney, 21 November, 1888.

With reference to your letter of 25th ultimo, having reference to the cancellation of part of reserve noted in margin, and the proclamation of special area No. 7,413, &c., we have the honor to urge that that part of said special area not now selected may be brought to auction at an early date.

We have, &c.,

DU FAUR AND GERARD.

The Under Secretary for Lands.

Ms. 88-12,332; reserve No. 1,204, noted 11th August, 1874, county of Urana.

Re proclamation of special area 7,413, parish of Bundure, county of Urana.

5 February, 1890.

In accordance with circular 90-5, of 24th ultimo, referring to reproclamation of unalienated parts of special areas, it is recommended that as a reasonable time has elapsed since the proclamation of special area No. 7,413, parish of Bundure, county of Urana, and the area remaining unselected, that the land be reproclaimed as a special area, under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres. With this end in view a description for reproclamation is enclosed.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Sir,

Exchange, Sydney, 28 November, 1890.

On behalf of the lessees of Bundure Holding, we have the honor to apply for portions noted in the margin to be offered at auction sale at an early date, for which they are prepared to pay at the rate of £2 5s. per acre.

These portions, together with others, we would point out, were declared special areas as early as September, 1883, and have not to the present time been selected, under which circumstances we trust the lands may go to auction at once.

We have, &c.,

DU FAUR AND GERARD.

The Under Secretary for Lands.

Portions 87 to 94, 2,275 1/2 acres, parish of Bundure, county of Urana, part of special area No. 7,413, proclaimed 6th October, 1888.

Re reproclamation of special area 7,413, parish of Bundure, county of Urana.

18 February, 1881.

REFERRING to the enclosed correspondence regarding special area No. 7,413, parish of Bundure, county of Urana, I think it advisable that the public should have the privilege of selecting under more liberal terms, and I would, therefore, respectfully recommend that the special area in question be reproclaimed at 45s. per acre, with a maximum of 640 acres.

The necessary description is herewith enclosed.

WILLIAM ORR,

District Surveyor.

Sir,

Exchange, Sydney, 30 April, 1891.

Referring to special areas noted in the margin, and to our application for the lands contained therein, to be offered at auction sale—first, on 22nd March, 1883, which led same to be proclaimed special area; and, second, on 28th November last, with the result that on 4th instant same were reproclaimed to the effect that the maximum area was increased from 320 acres to 640 acres for selection,—at the time of making our second application, we were in a way assured that there would be no objection raised to the land going to auction after having been special areas since 1883, and not selected, for which reason we were informed personally that the matter had been sent on to the District Surveyor at Wagga Wagga, to ascertain as to whether the value of the land had in any manner varied.

Portions 87 to 94, area, 2,275 1/2 acres, parish Bundure, county of Urana.

As far as we know, the District Surveyor confirmed his former valuation, viz., £2 5s. per acre, on which we were again assured that it soon would go on; but the result was as above stated, showing that it was on account of our application that the question was dealt with in manner described, or, in other words, that it was our application for the lands to be offered at auction which drew the attention of your department to the value of lands referred.

This of course is very hard to our clients as well as to ourselves, for which reason we have the honor again most respectfully to request that the matter may be re-opened, and lands referred to, as specified in the margin, offered at auction within three months' time from now, at the upset price of £2 5s. per acre, which will bring in the handsome revenue of £5,465 Os. 3d.

In the meantime some of these lands may possibly, of course, be selected, with the result that eventually the station will have to buy out the selectors, who will thus reap the unearned increment of the land, whereas our clients are now prepared to pay cash at a very handsome price.

If the lands are not selected in three months' time, it is a sure sign that the country has no attraction for the industrious settler.

We have, &c.,

DU FAUR AND GERARD.

Sir,

Thurrova, Jerilderie, 31 July, 1891.

I do myself the honor to call your attention to a sale of special areas to be held at Urana on 23rd September; *Gazette* notice enclosed. May I beg of you to try and get it stopped, and have it opened to selection in the full area, viz., 2,560 acres, at a reasonable price. I might mention to you that all the good land on the station is taken up, and this is a small reserve, 1 mile wide. It is a dry hard plain, without a stick of timber on it for fencing, and the Government wants £2 per acre for it. I paid for the survey of this land about ten years ago, expecting to get it for a selection; and at that time the Minister for Lands promised me that it would be open for selection in due course. After twelve months the survey fee was returned from the Treasury. I have been waiting ever since, expecting that I would get it for a selection. Of course it was open in special areas, but the price was too high, and the area was too small. It is a very hard thing if this company (the New Zealand and Australian Land Company, Limited) would be allowed to get this piece of land, while myself and ten children would be deprived of the means of getting a living.

Praying you will use your influence with the Minister to get it open to selection.

Yours, &c.,

JOHN MITCHELL.

J. Gormly, Esq., M.P.

Sir,

Parliament House, Sydney, 5 August, 1891.

We enclose you a letter received from one of our constituents, asking that certain lands be withdrawn from auction sale, and declared open for ordinary conditional purchase, and shall be pleased if you will give the matter your careful consideration, and favour us with a reply at your earliest convenience.

We are, &c.,

J. M. CHANTER, M.P.

R. BARBOUR, M.P.

The Honorable the Minister for Lands.

[Enclosure.]

Sir,

Thurrova, Jerilderie, 31 July, 1891.

I do myself the honor to call your attention to a sale of special areas, to be held in Urana on 23rd September. The land is situated on Bundure Station, the property of the New Zealand and Australian Land Company (Limited), I beg of you to use your influence with the Minister for Lands to get the sale stopped, and have it opened to selection in the full area, 2,560 acres, at a reasonable price. I may state this land is situated on a hard dry plain, without a stick of timber for fencing.

The station has all the timber secured. It is utterly impossible for any person to get a living on 640 acres, and the price, £2 5s., is out of all reason. Of course the station will buy it at whatever price it goes to, as they have over a hundred thousand purchased on the station. It is a very hard thing if this selection, about 2,276 acres, is allowed to pass into this absentee company's hands, while I with my family of ten children am deprived of the means of getting a living. I paid for the survey of this land about ten years ago, and the Minister for Lands promised that it would be open for selection in due course. After twelve months my money was returned from the Treasury, and I have been waiting ever since for it.

I beg to congratulate you on your return for this district.

Yours, &c.,

JOHN MITCHELL

(Per J.M.)

J. M. Chanter, Esq., M.P.

Sir,

Thurrova, Jerilderie, 27 October, 1891.

I do myself the honor to call your attention to a special area on Bundure Run, county of Urana, parish of Bundure, Central Division. This land was made into a special area in 1888 at the enormous price of £2 5s. per acre, which is far more than it is worth. It has been modified in area three times and is still open for selection, but the price is so high and the area so small that it is impossible for any selector to make a living on it. I got this land surveyed and paid for the survey of it ten years ago, and the then Minister for Lands promised to have it open for selection.

Praying you will take the matter into consideration, and have it revoked from special area, and opened as an ordinary selection, and reduce the price to the same as land is taken up, viz., 2s. per acre.

I may state that this land is a dry hard plain, without a stick of timber or a drop of water. The lessees of the run have all the best of land taken up. They have 100,000 acres of purchased land.

Praying your favourable consideration,

I have, &c.,

JOHN MITCHELL

(Per J.M.)

The Honorable the Minister for Lands.

Dear Sir,

Thurrova, Jerilderie, 1 December, 1891.

I see by a local paper that Mr. Copeland said that he was favourable to open reserves for settlement. If I might presume on your kindness, would you please bring under his notice the special area made on Bundure Station that I wrote to you about some time ago. You might remember Mr. Brunker withdrew it from auction sale. The price is £2 5s. per acre, and I can assure you it is not worth more than £1 per acre. There is not a stick of timber on it for fencing, nor a drop of water. The station

station has all the best of the land secured. I know the company's agent in Sydney is doing his best against this being open for selection. There are about 100,000 acres of purchased land on Bundure Station, and it seems they are not satisfied. I think if you were to mention the matter to the Minister, he would open it for ordinary selection, as a special area is out of the question in such a situation.

Hoping I am not giving you too much trouble,

Yours, &c.,

JOHN MITCHELL.

J. Gormly, Esq.

Sir,

Parliament House, Sydney, 4 December, 1891.

I enclose a letter in reference to special areas on Bundure Run. I think the price should be reduced to £1 10s. an acre.

Yours, &c.,

JAMES GORMLY.

The Under Secretary for Lands.

Re Special Area 7,413, parish of Bundure, county of Urana.

21 November, 1891.

HAVING regard to the enclosed letter of John Mitchell requesting that special area No. 7,413, parish of Bundure, county of Urana, may be revoked and thrown open to ordinary selection, I beg to state that I am still of opinion that this land is worth 45s. per acre, and cannot therefore recommend compliance with the request until the land has been offered and passed at auction.

The person who complains about the price holds a large area in the vicinity, and reducing the price would not tend to increased settlement.

WILLIAM ORR,

District Surveyor.

Special Area, 7,450-7,451.

Dear Sir,

Gundagai, 27 December, 1886.

I am instructed to ask you to endeavour to get a reserve of about 500 acres on Mooney Run, cancelled and thrown open for selection, it being well suited for agricultural purposes and quite unnecessary for the purpose for which it has been reserved—namely, water.

I may mention that all the residents in that locality are unanimous in making this request, and that the reserve forms part of the resumed area.

Yours, &c.,

HARRY BOWDITCH,

Hon. Sec., G.P.C.

Hon. J. H. Want, M.L.A.

Description of Reserve:—Number, 107; area, about 500 acres; run, Mooney Mooney; parish of Bongongolong; purpose, water supply, &c.

Sir,

Camp, Coolamon, 21 May, 1887.

In compliance with instructions, dated 4th May, 1887, No. 21, I have the honor to report that on the 11th May, 1887, I inspected reserve No. 107, parish of Bongongolong, county of Harden.

With the exception of 60 or 70 acres at the southern end, the land is of good quality and fit for agricultural purposes, the remainder being fair grazing land.

The Bongongolong Creek, to which the reserve has a frontage, is almost, if not quite, permanent water.

I see no necessity for the retention of the reserve, and consider the land, as a whole, to be worth £2 10s. per acre.

I have, &c.,

ARTHUR H. BRAY.

From this report it would appear advisable to subdivide the reserve in question, with a view to alienation as a special area.—C. F. BOLTON, District Surveyor, 6/6/87.

Sir,

Camp, Germanton, 16 March, 1888.

Acting on your instructions, No. 22, of 23rd December, 1887, papers Misc. 87-7,786, I have the honor to transmit herewith a sketch showing proposed design for subdivision of reserve No. 107 from sale, No. 238 from lease, parish of Bongongolong, county of Harden.

For sake of reference I have numbered the blocks A, B, C, D, and E, and will refer to them under those letters.

Block A is designed to contain an area of 80 acres, with a rectangular frontage of 12 chains.

Block B is intended to have its south boundary flush with the south boundary of block A, and to contain 80 acres, viz., 1,334 x 6,000 links.

Immediately to the north of block B, I propose retaining a small area as a water reserve, as shown on design. This will include the crossing and the two most permanent holes on the creek, from which holes water was being drawn at time of my visit.

Block C is to contain an area of 160 acres, exclusive of reserved road, 150 links wide, as shown on sketch.

Block D is intended to contain an area of 160 acres, exclusive of reserved road, 100 links wide, as approximately shown on sketch.

Block E will contain an approximate area of 60 acres, being the balance of the land available.

Owing to a deep channelled creek on one side, and a steep hill on the other, it will not be practicable to provide for a road other than reserved road through blocks E and D.

This road should approximately follow the track in use, and at the southern end may be taken along the western boundary of J. Foley's conditional purchase, portion 20, of 108 acres 2 roods.

I am informed that this track is the only outlet to Cootamundra for vehicular traffic for Foley, and one or two other selectors at the back.

It

It will be seen that no provision has been made for a road through portion 2, of 372 acres, adjoining the reserve. At present no objection is made to people using this track through portion 2 and so out on to the Muttama crossing, but on the subdivision of the reserve, it will probably be necessary to provide an outlet for intending settlers.

The only improvements on the land other than boundary fencing are an old two-rail fence cutting across blocks A, B, and C, which I value at £25 per mile, claimed by Thomas Broughton, date of erection unknown, but should say at least fifteen years back, and about 4 acres clearing between the creek and the western boundaries of portions 17 and 18, which I value at £2 per acre.

The clearing was effected by J. Foley about 1875, who, being an illiterate man, and unable to identify the corners, was under the impression that the land cleared was within his boundaries.

North of the cross fence the country consists of black soil of considerable depth and great richness; along the creek, timbered with box and apple-tree, south of that fence, grey and red soil, box forest, good agricultural land, with exception of top of ridge, which is stony.

I recommend the follow upset prices, viz., for blocks A and C, £2 15s. per acre, block B, £2 5s. per acre, blocks D and E, £1 15s. per acre.

I have, &c.,

A. E. MACKAY,

Surveyor.

Sir,

Borambula, 13 July, 1888.

I have the honor to transmit herewith the plan of five portions of land as follows—No. 80 containing 80 acres; No. 81 containing 80 acres; No. 82 containing 160 acres; No. 83 containing 160 acres; No. 84 containing 56½ acres, in the parish of Bongongolong in the county of Harden, within the Muttama Run, measured by me on 1st July, 1888, in accordance with instructions of 20th June, from the District Surveyor.

The north-east corner tree at terminal point of eastern boundary of portion No. 15 has been destroyed, but the boundary has been correctly located. I marked a new reference tree at north-west corner of No. 38. The reference tree has also been destroyed, but sufficient remains to have enabled me to locate corner.

Roadway 100 links in width has been reserved through portions Nos. 83 and 84, approximately embracing track in use.

There is a discrepancy between original chainage of portion No. 15 in eastern boundary and that by me of 15 links, also in western boundary of portion No. 38 of 11 links (No. 12 on tree at south-east corner), in western boundary of portion No. 14 of 2 links, in part of western boundary of No. 17 of 26 links, and in part of western boundary of No. 18 of 22 links, and in remaining of western boundary of No. 19 of 2 links, and in remaining part of 7 links, that portion of south boundary of 19 shown on original plan as 600 links, chains on ground 500 links, and the westerly boundary of No. 20 shown on original as 2,011, chains 2,021.

Improvements consist of fence on No. 80, value £8, on No. 81, fence £8, on No. 82, fence £8, on No. 83, clearing £12, effected by P. Foley between western boundary of Nos. 17 and of 18 and creek, being prepaid at present time for annual crop of wheat, on No. 84 nil.

The land embraced by portions Nos. 80, 81, and 82 is good agricultural land, which I value at £3 per acre. Portions Nos. 83 and 84 are to about the extent of half in each portion suitable for agricultural purposes, value being £1 15s. per acre.

The water in Bongongolong Creek is not permanent.

A connection between portions Nos. 80 and 82 has been effected along the bank of creek and the letters W. B. have been marked on reference trees at corners D, E, F, J, and K; the roadway through reserve has not been marked, but a bearing taken to include crossing at creek.

A stellar observation has been taken for meridian.

I have, &c.,

ARNOLD W. LOVE,

Licensed Surveyor.

Memo. from the District Surveyor, Wagga Wagga, to the Under Secretary for Lands.

17 August, 1888.

SUBDIVISION of reserve 107 from sale and 238 from lease having been effected in accordance with Ministerial approval, descriptions are enclosed for the cancellation of the reservation from sale and lease.

It is recommended that portions 80, 81, and 82 be proclaimed a special area open to selection under the 24th section at £3 per acre, and that portions 83 and 84 be proclaimed a special area at a minimum of 35s. per acre. Descriptions enclosed.

The small area of Crown land retained at the crossing of Bongongolong Creek is recommended reserved from sale and lease for crossing-place.

The subdivision is situated within the boundaries of the reserved area of Muttama Holding No. 239, Eastern Division.

The following improvements had been effected on each portion at date of survey:—Portion 80, fence £8; portion 81, fence £3; portion 82, fence £8; portion 83, clearing £12; portion 84, nil;—total, £36.

WILLIAM ORR,

District Surveyor.

Special Area 7,523.

Sir,

Pitt and Bridge Streets, Sydney, 27 February, 1888.

Referring to papers 76-45,709 A1n., we have the honor, under instructions from Mr. Francis Jenkins, to point out that he purchased portion 26, parish Cuddell, county Mitchell, which, however, was subsequently found to be within travelling stock reserve 990. It was afterwards discovered that 80 acres of the land sold to our client were outside the reserve, and therefore available. This land Mr. Jenkins until the last ten days, felt satisfied was his property, but it is now found that by some inadvertence the sale was not completed. We have now to ask that as the matter is of considerable importance to Mr. Jenkins, and there are no conflicting interests, he may be permitted to complete the purchase. In making this request we would point out that it is evident that in the first instance the error was caused through the

the Department offering the whole of the land for sale, but as Mr. Jenkins after purchase relinquished it at once when assured that the sale had been made in error, we would respectfully submit that the concession now asked might readily be granted.

Mr. Jenkins is perfectly willing to declare that he fully understood that he held the grant of the land referred to.

The Under Secretary for Lands.

We have, &c.,

DUGUID & CO.

Submitted.

Sir,

Camp, Cuddell Siding, 21 June, 1888.

I have the honor to transmit herewith the plan of a portion of land containing 82 acres, numbered 54 in the parish of Cuddell, in the county of Mitchell, applied for to purchase by Francis Jenkins under the 2nd section of the Crown Lands Acts Amendment Act of 1875, and measured by me on 18th June, 1888, in compliance with instruction No. 14, dated 3rd May, 1888.

The only improvement on the land is an excavated tank, effected at the cost of lessee of Buckinbong Holding.

The tank was put down in the year 1876, and in the year 1880 was cleaned out and enlarged, its present cubic content being 4,000 yards, and value £200.

The improvement is necessary for the beneficial occupation of the land for pastoral purposes.

The land is distant from Narrandera, which is the nearest township, about 9 miles, the only water supply being that which is artificially conserved, and the aspect and character of the land is open, crab-hole plain, inclined to be swampy, the soil being of a stiff, clayey nature, well suited for grazing, but not arable purposes.

The value of the land, in my opinion, is 30s. per acre.

The District Surveyor.

I have, &c.,

W. A. LIPSCOMB.

This portion, containing 82 acres, has been measured in accordance with Ministerial decision upon 88-1,044 alienation, enclosed with a view of sale to Mr. Francis Jenkins, who has held it and improved it for a number of years under the impression that he held it in fee simple. It is now submitted that it be offered at auction at 30s. per acre with improvements. Tank £200 added for his protection. The portion at present forms part of travelling stock reserve 990 extension, notified 17th November, 1884, from which withdrawal will be necessary, and for which description is enclosed. Cost of subdivision amounts to £4, so that Jenkins is entitled to a refund of £1 5s. on fee deposited.—WILLIAM ORR, District Surveyor, Wagga Wagga, 26/7/88. The Under Secretary for Lands.

Special Area 7,529—Reserve 2,872.

Sir,

Temora, 28 October, 1887.

I am directed by the Temora Progress Committee to request that you be good enough to send in your report on the following matter, on which I have written to the Department, throwing open for selection that part of Narraburra Run of resumed area within water reserve.

Mr. District-Surveyor Bolton, Wagga Wagga.

I have, &c.,

W. LYELL.

Mr. Keating,—Can the water reserve be identified.—W.O., 25/1/88.

The only water reserve within the resumed area of Narraburra Run is water reserve 2,872. Mr. Tozer was some time ago asked to report as to whether it is necessary in the public interest to retain the whole of this reserve, as one Patk. Hennessy applied for part of it as a conditional purchase. The report has not yet been received.—J.T.K., 16/2/88. The Acting District Surveyor.

Water Reserve No. 2,872, parish of Narraburra, county of Bland.

Sir,

District Surveyor's Office, Wagga Wagga, 1 March, 1888.

I have now the honor to report that the reserve abovenamed is no longer required, and I have to recommend that it be revoked after survey in the manner shown by red hatching on the accompanying tracing.

That part of the reserve not hatched is required for a travelling stock and camping reserve.

I have, &c.,

WILLIAM ORR,

Acting District Surveyor.

The Under Secretary for Lands.

Survey may be effected as herein proposed.—R.H.D., 10/3/88. F.H.W. S.F. Approved.—T.G., 10/3/88.

Cootamundra Land District.

Sir,

Wagga Wagga, 13 July, 1888.

I have the honor to transmit herewith the plan of five portions of land, containing 160, 160, 124, 134½, and 95½ acres, numbered 30 to 34 inclusive, in the parish of Narraburra, county of Bland, being part of water reserve No. 2,872, within the Narraburra Run, Temora Gold-field, measured for sale by me on the 29th May, 1888, in accordance with your B.C. instruction No. 14, 27th April, 1888.

The wire fencing, value £3, on 30, effected by T. Kite. The brush fencing on 33 and 34, erected by the adjoining holders as a break, is not of any value.

This land is situated on the main road, about 12 miles from Temora, and there is an abundant supply of permanent water in Narraburra Creek, and the land consists of good sandy loam soil, well adapted for agriculture. I would therefore recommend that it be proclaimed a special area, it being worth 30s. per acre, in order to allow of these lands being taken up under conditional purchase.

These lands are 40 miles from the nearest railway station.

I have, &c.,

V. F. TOZER,

Licensed Surveyor.

The District Surveyor, Wagga Wagga.

Plan

Plan approved subdivision of water reserve 2,872 having been effected in accordance with Ministerial approval, description is enclosed for its revocation. A description is also enclosed for the notification for travelling stock and camping purposes of the unmeasured portion of the reserve fronting Narraburra Creek. It is recommended that the area subdivided, comprising five portions, aggregating 674 acres, be proclaimed a special area open to conditional purchase under the 24th section at 30s. per acre. Description for proclamation of special area enclosed, situated in the resumed area of Narraburra Holding No. 41, Eastern, dealt with in District Survey Office.—WILLIAM ORR, District Surveyor, 17/8/88. The Under Secretary for Lands.

Sir,

Temora, 14 April, 1890.

I have the honor to apply to you to cause a modification of special area 7,529, 17th October, 1888, plan of Narraburra, county of Bland, to be made, so that an area of 320 acres may be allowed as conditional purchase, being desirous of selecting that area.

P.S.—The number of the portion is 31.

I have, &c.,
THOMAS KITE.

The special area referred to, No. 7,529, embraces 30, 31, 32, and 33, and 64 and 67, parish Narraburra, county Bland, of an aggregate area of 674 acres, proclaimed 20th October, 1888. From the fact that the special area was proclaimed about six months ago, and only 241½ acres thereof have been selected, it may be inferred that the area is too small, and I would recommend increase to 320 acres. In view, however, of the character of the soil and the prices realised recently in the locality, I would advise increase of price to £2 per acre be tried.—WILLIAM ORR, District Surveyor, Wagga Wagga, 13/6/90.

Special Area 7,532.

Sir,

Tumut, 13 May, 1887.

In accordance with your instructions, No. 87-17, of the 20th April, requesting me to report on Mr. P. Clear's application for the revocation of a portion of water reserve 1,717, in the parish of Ellerslie, county of Wynyard, I have the honor to state that in my letter, No. 87-1, of the 3rd January, I mentioned that there was no objection to the cancellation of about 170 acres of the above reserve, between the Naacka Naacka Creek, at J. Woollam's wash-pen (situated on the portion of 5 acres hatched blue on tracing reported on in above letter), and portion No. 108, parish of Euadera; but I am of opinion that the remainder of this reserve should be retained for travelling stock, as the road down the Naacka Naacka Creek, past Ellerslie, traverses it, as shown on accompanying sketch.

I now recommend that the portion of reserve tinted red on sketch be thrown open to selection.

This land is hilly, and is fair grazing country, but not suitable for cultivation.

There are not any improvements on this portion of reserve.

I have, &c.
MAURICE BARLOW.

Sir,

Tumut, 8 December, 1887.

I have the honor to transmit herewith the plan of one portion of land containing 154 acres, No. 137, in the parish of Ellerslie, in the county of Wynyard, within the Ellerslie Run, measured by me on the 23rd November, 1887, in accordance with instructions No. 87-4, of the 23rd September, to me.

The portion consists of hilly country, timbered with gum, box, and apple. The pasture is good, and the soil of good quality.

Improvements (fencing), £27.

I have, &c.,
R. G. PRATT,
Licensed Surveyor.

Plan approved. Descriptions are enclosed for the cancellation of part of water reserve 1,717, notified 8th August, 1877, within the boundaries of portion 137, and for the proclamation of that portion as a special area at a minimum price of £2 per acre, in accordance with Ministerial decision, enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga, 22/8/88. The Under Secretary for Lands.

Special Area 7,549.

Sir,

Pitt and Bridge Streets, Sydney, 25 June, 1888.

Referring to our previous applications, on behalf of Mr. David Moore, to have portions 32, 34, 41, 68, 69, and 77, parish Miranda, county Wakool, sent to auction, we now, in respectfully asking for your reconsideration of the matter, herewith forward declarations from Mr. Thomas Stoddart (manager of Bundyulumblah) and Mr. David Moore (lessee of the holding), to the effect that the portions in question are in no way beneficial for water supply, all the land being open plains, and the portions in no way connected one with the other, being isolated and surrounded by Mr. Moore's purchased lands. It would be further noted that the portions referred to have no permanent water supply, and our client's sole desire in endeavouring to have them offered for sale is to save unnecessary expense in fencing.

We have, &c.,
DUGUID & CO.

Noted. Portions 32, 34, and 41 are already advertised for sale on 28th September next.—A. R. GALL, 17/8/88.

The land referred to being situated between the Murray and Murrumbidgee Rivers, circular 88-14 evidently precludes the sale of it by auction; but it would appear that portions No. 32, 34, and 41 are already advertised for auction sale on the 28th proximo, and an upset price of 25s. per acre fixed. I therefore recommend that this land be withdrawn, on the grounds that the upset price is much below the value of land, and as competition rarely occurs in cases of similar circumstances, it is obvious that the upset price should be the market value of the land. Apart from retaining the land applied for, with a view to its

prospective value (as set forth in circular 88-14), and as the land does not embrace any permanent water, nor is it necessary for any public purpose, I consider it advisable to offer the land at auction sales, as the areas are too small, and is isolated for settlement purposes. Portion No. 77 is at present covered by reserve No. 4,018, notified 3rd September, 1887, and I am of the opinion that the retention of it is unnecessary. A description for revocation is, therefore, enclosed. The character of this country consists of open plains, grass and cotton bush, with stumps of box timber and box scrub. If it should be decided to offer these portions at auction, I recommend that an upset price of 30s. per acre be fixed. This land is situated within the resumed area of the Bundyulumblah pastoral holding.—JOHN BROUGHTON, Acting District Surveyor, Hay, 24/8/88. The Under Secretary for Lands.

Special Area 7,609.

Sir,

Wagga Wagga, 8 April, 1887.

I have the honor to transmit herewith the plan of four portions of land, each containing 159½ acres; one portion, 160 acres; and one portion of 138 acres, numbered 202, 203, 204, 213, 214, 215, in the parish of Kindra, in the county of Bourke, within the Kindra Run, and the Bourke, Cooper, Dowling, and Gipps Gold-field, measured by me on 25th March, 1887, in accordance with instruction No. 2, dated 2nd March, 1887.

The country is slightly undulating and thickly timbered with box and oak, with a light undergrowth of sifting bush scrub. The soil is brown, and would be suitable for cultivation.

The land has not in any way been improved; situated about 4 miles from Coolamon.

I have, &c.,

J. MAUDSLEY NASH,

Licensed Surveyor.

To the District Surveyor, Wagga Wagga.

Sir,

Wagga Wagga, 8 April, 1887.

I have the honor to transmit herewith the plan of nine portions of land, four of them containing each 160 acres, three of them each 159½ acres, one 95½ acres, and one of 96½ acres, numbered 200, 205, 206, 207, 208, 209, 210, 211, 212, in the parish of Kindra, in the county of Bourke, within the Bourke, Cooper, Dowling, and Gipps Gold-field, and the Kindra Run, measured by me on 4th April, 1887, in accordance with instructions No. 2, dated 2nd March, 1887.

The land is slightly undulating, and is timbered with box, pine, and oak. Portions 206, 207, and 210 have also a dense undergrowth of sifting-bush scrub. Portion 209 has an undergrowth of pine scrub. The soil is of a very good character for cultivation, especially so on portions No. 200, 207, 209, 210. The land is situated about 2 miles from Coolamon. The only improvements consist of a brush and chock and log fence, which is worth on portion No. 208 about £16, and upon portion No. 209 is worth about £15 10s. This fence is the property of the lessee of Kindra Run, and was erected by him in the year 1875. These portions have been measured, as nearly as possible, in conformity with design transmitted to me with instruction, but as the area has exceeded that anticipated, I have been obliged to modify the design as regards portions No. 200, 208, and 209. Portions No. 200 and 208 being represented on the design by one portion, but as the area of the two combined would exceed the area allowed by law within a special area, viz., 160 acres, I have instead measured two portions, one of 95 acres, and the other of 96 acres 1 rood. Portion No. 209 on plan is shown upon the design as being bounded on the south by a meridional line, but, as the distance on the ground is considerably greater than appears on the design, it would seem to be needlessly departing from the uniformity of design to make the southern boundary otherwise than corresponding to the northern. I have therefore made the southern parallel. I have, in accordance with instructions, defined the northern boundary of reserve No. 218a from the north-eastern corner of portion No. 209 to the village of Coolamon, to effect which I have traversed the railway line and made the northern boundary of the reserve parallel to the traverse.

I have, &c.,

J. MAUDSLEY NASH,

Licensed Surveyor.

The District Surveyor.

21 April, 1888.

In connection with the approved subdivision of parts of railway reserves 218a, notified 26th November, 1878, and 218a extension, notified 28th June, 1880, on the line from Junee to Narrandera, county of Bourke, Mr. District-Surveyor Bolton pointed out in his report, 23rd April, 1887, No. 38 (papers, Miscellaneous 87-5,201, now in this Office), if the subdivision was proclaimed a special area, the limited areas that could thus be acquired would militate against the disposal of the land, as they would be too small to be advantageously occupied, whereupon the Secretary for Lands decided as follows:—

“When the survey of the railway reserve referred to is completed it should be submitted specially.

“If not too late the survey should be carried out so that the land could be taken up in larger portions than 160 acres.”

Part of the subdivision in question had been effected prior to the above decision in areas suitable for selection under the 24th section, and plans have now been dealt with and are forwarded to Head Office under separate cover this day. The papers and design for remainder of subdivision are retained here for action, in accordance with the Ministerial decision quoted.

It is submitted with regard to the portions already measured that they be offered at auction at an upset price of 30s. per acre after withdrawal from the reserves 218a and 218a extension aforesaid. Sale to take place at Coolamon, which is close to the land.

Descriptions for revocation of the portions of reserves subdivided enclosed, but it is pointed out that after withdrawal from these reservations the land will be open to selection, so that auction sale should take place on such a date as will preclude the intervention of a Land Office day, or probably the subdivision should be proclaimed a special area open to selection at 30s. per acre.

If not selected within a reasonable period, auction sale could then take place as recommended.

Description for proclamation of special area enclosed.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Dear

Dear Sir,

Coolamon, 7 July, 1888.

Adverting to my conversation with you when in Sydney one day last week, about the special areas of land within easy distance of Coolamon, I beg to supply the following information:—

Some eighteen months ago, at the instance of the District Surveyor, some 10,000 acres of land were surveyed and cut up into blocks of 160 acres, and made into special areas, the nearest point to the first being $1\frac{1}{2}$ mile from Coolamon, and running down 5 miles each side of the railway line; in all there are about 70 blocks.

The whole of this land is available for farming purposes, or to men capable of other industries. It is urgently necessary that the land be thrown open for selection or auction. The whole of the areas would, I am sure, meet with ready occupation and sale, as even late as to-day, my influence is sought to do something against the continued reservation of these very necessary blocks.

The immediate throwing open of these blocks would be the means of bringing close to this town, which is at present hampered and confined by men of large areas, a class of men useful and beneficial to the progress of this place, and would forge the town ahead, and in every way conduce to the prosperity of all classes.

I trust very sincerely you will give this your usual substantial support, in recommending it either in person or by letter to the proper source for attention, and need scarcely add your efforts will be esteemed, as not only to myself may the occupation of the lands be assured, but to all others following a business career.

Jas. Inglis, Esq.

Yours, &c.,

MITCHELL AND COOK.

Sir,

Legislative Assembly, 21 September, 1888.

I have the honor to request that the information asked for in the enclosed letter be furnished to me.

The Under Secretary for Lands.

Yours, &c.,

JAMES GORMLY.

[Enclosure.]

Dear sir,

Coolamon, 8 September, 1888.

At the instance of the Coolamon Progress Committee, I am desired to elicit of you the following information:—

1. The probable date on which 10,000 acres of reserve adjoining the township, and running each side of the railway line, at present surveyed and pegged out in 160-acre special areas, will be thrown open to settlement.
2. The conditions attaching to sale, whether for selection or auction purchase.

Yours, &c.,

W. E. COOKE,

Secretary, Coolamon Progress Committee.

The Under Secretary, Lands Department, Sydney.

Will the District Surveyor at Wagga Wagga be good enough to give some information as to this subdivision.—R.H.D. (for the Under Secretary for Lands), 28/9/88. 186.

The subdivision referred to is that of railway reserve 218A and 218A extended, in the parishes of Kindra, Coolamon, Lupton, Elliott, and Derry, county of Bourke. Portion of this subdivision was effected by Mr. Licensed-Surveyor Commins, and plan forwarded to Head Office (B. 1884 Roll) with a recommendation that the land be proclaimed a special area. This action was taken by Mr. District-Surveyor Bolton, but so far does not appear to have been carried out. Later, a further subdivision was effected by Mr. Licensed-Surveyor Nash, plans of which (B 1870 and 1871) and papers were sent to Head Office with my recommendation of 21st April, 1888, that the land be declared a special area or offered at auction at £1 10s. per acre. A still larger subdivision has been recently completed by Mr. Licensed-Surveyor Garland, and the plan (B 1,923) has been partially dealt with in the office, and is only awaiting return of photo-litho. proof from Head Office to complete action.—WILLIAM ORR, District Surveyor, Wagga Wagga, 11/10/88. The Under Secretary for Lands.

Sir,

Legislative Assembly, 17 October, 1888.

I have the honor to request that the land referred to in the enclosed memorandum be made for conditional purchase at an early date.

The Honorable the Minister for Lands.

Yours, &c.,

JAMES GORMLY.

Memo. for the Under Secretary.—Kindly place the papers in this matter before the Minister.—J. GORMLY, 17/10/88.

Sir,

Legislative Assembly, 8 November, 1888.

I would respectfully request that the land referred to in the enclosed letter be made available for conditional purchase.

The Hon. the Minister for Lands.

Yours, &c.,

JAMES GORMLY.

[Enclosures.]

Dear Sir,

Coolamon, 6 November, 1888.

Adverting to your letter under date 10th October, and in answer to your inquiries, "if we know anything in connection with the intention of the sale of the 10,000 acres reserved areas," I have to state that we know nothing beyond the information supplied by yourself from time to time. Will you kindly inform me whether the District-Surveyor has reported upon the blocks in question; and if so, what are his views?

It may be timely to state that if the land is thrown open to selection at an early date, we predict that the whole area, as measured into 160-acre blocks, will readily meet with occupation, as from its position to this town and line, added to the natural characteristics, it must prove a boon in its sale to the Crown and also a comfortable possession to the fortunate holder.

Yours, &c.,

W. E. COOK,

Secretary, Coolamon Progress Committee.

James Gormly, Esq., M.L.A., Sydney.

Re 10,000 acres Special Area.

Dear Sir,

Coolamon, 7 November, 1888.

Adverting to the above, of which you have given us the privilege of writing you, I should like to know if you have managed to advance the sale of lands by a system of selection a step further. As the disposition of the present Minister for Lands is to encourage the disposal of Crown lands by selection rather than by auction purchase, and especially in the case I present you, where the lands are bordering on our township, and where the Government are lying out of their money through sheer apathy, and people anxious and willing to settlement, but no means to direct the Crown to a proper sense of duty. I most respectfully urge your valuable assistance and support with the present Minister to bring about the throwing open of these blocks, or even (say) part, and give us a chance to encourage what is most desirable and needful to the better support and progress of this town and district.

Anticipating your reply of success,
Jas. Inglis, Esq., Sydney.

We are, &c.,
MITCHELL AND COOK.

Special Area 7,610.

Sir,

District Surveyor's Office, Wagga Wagga, 28 June, 1886.

I beg to acknowledge the receipt of your B.C. of the 6th ultimo, conveying instructions to me to report on the propriety of revoking reserve No. 2,059, parish of Edgehill, county of Mitchell, and in reply I do myself the honor to inform you that all the contiguous land having now been alienated there does not appear to be a necessity for retaining it any longer. However, in view of the agricultural settlement in the immediate vicinity and convenient access to a railway station, I think the land should be set apart as a special area at an upset price of £1 15s. per acre. I would also advise that the reserve be measured in 160-acre portions before revocation.

I have, &c.,
C. F. BOLTON,
District Surveyor.

The Under Secretary for Lands, Sydney.

Sir,

Camp, via Wagga Wagga, 19 November, 1886.

I have the honor to transmit herewith the plan of twenty-two portions, containing in the aggregate an area of 3,074½ acres, numbered 100 to 121 inclusive, in the parish of Edgehill, county of Mitchell, surveyed by me in accordance with instructions from Mr. District-Surveyor Bolton, dated 11th August, 1886, No. 131.

This subdivision comprises open forest land, especially well suited for the culture of wheat, the soil being of a strong red loamy nature, and the climate, as a rule, sufficiently moist for agricultural purposes.

The land is within from 5 to 11 miles of the Great Southern Railway at Dudal Comer.

Water can be conserved on this survey by excavating tanks.

I would recommend that portion No. 101 be retained as a reserve pending selection of site for cemetery which has been applied for by residents in the neighbourhood. It would also be advisable, in the public interest, to retain portion No. 114 as a reserve for camping purposes. In order to preserve continuity in the road along northern boundary of this subdivision, I would suggest that a road 100 links wide be resumed out of portion 10, at its north-east corner; the excision from the portion of this road will not reduce its area, as, with the corrected lengths of its boundaries, the area of portion 10 exceeds 320 acres.

I have, &c.,
W. A. LIPSCOMB.

When the necessity for the road suggested arises, the resumption of so much of the land as may be required will be effected, as provided for by section 110 of Act 1884.—W.A.L., 3/2/87.

Dealt with in District Survey Office. These portions are embraced within water reserve 2,059, which it is submitted should now be revoked, with the exception of those parts included in portions 101 and 114, the former of which the surveyor recommends to be reserved pending selection of site for cemetery and the latter for camping purposes.—C. F. BOLTON, District Surveyor, 25/2/87.

Special Area 7,626—Reserve 179, Further S. Extension.

Sir,

Narrandera, 23 May, 1887.

I have the honor to transmit herewith a plan of sixteen portions, Nos. 138 to 153, in the parish of Waddi, county of Boyd, containing an area of 2,334 acres 1 rood in all, and measured in accordance with instructions 87-4 of the 19th March, 1887.

The whole of the land comprised by these portions is so similar that it is not necessary to particularise each one, as with the exception of portions 147 and 148 (which are on a rather high sandhill) the country consists of open plain, with belts of box and clumps of pine and box. The only means of storing water would be by sinking tanks, there not being any natural watercourse.

The distance from the nearest point of survey to the nearest township, Waddi, is about 2 miles. It is about 12 miles from Darlington railway station, and 45 miles from Narrandera.

The improvements are:—				£	s.	d.
Portion 138	—	6-wire fence, erected by E. Landers, 42 chains 8 links, value £30 per mile	...	15	15	0
"	139	— do do do do do do	...	15	15	0
"	140	— do 35 chains 42 links, value £30 per mile	...	13	5	6
"	141	— do 42 chains 13 links, John Landers, £30 per mile	...	15	15	0
"	142	— do do do do do do	...	15	15	0
"	143	— do 35 chains 51 links, do do	...	13	6	0
"	144	— do erected by Duncan MacCalman, 4,209 links, at £30 per mile	...	15	15	0
"	145	— 38 chains 6-wire fencing, erected by D. MacCalman, do	...	14	5	0
"	145	— 38 chains do £20, owner, pastoral lessee	...	9	10	0
"	147	— 35-chain 5-wire fencing, at £20 per mile, owner, by Macleay and Clarke, the pastoral lessee	...	8	15	0
				Portion

" 153—12 chains 50 links 5-wire fence, erected by the pastoral lessees, at £12 per mile	1	17	6

There are not any improvements on the other portions.

I have, &c.,
C. S. CHAUNCEY,
Licensed Surveyor.

From recent communications it would appear that it is not the present policy to revoke reserves of this kind before there is further legislation respecting them. The land in question would bring 35s. per acre if submitted to auction. The question therefore presents itself as to whether or not it should be set apart as a special area. With that in view, I now submit the usual description and tracing.—
C. F. BOLTON, District Surveyor.

The Chairman, and then to the Under Secretary for Lands.

Mallery Park, Trainor's Lagoon, Victoria, 3 March, 1888.

Sir,
Your letter of the 29th ultimo to hand *re* my inquiry about land open for conditional purchase on the Kerarbury Holding, wherein you state reserve No. 179 is about to be proclaimed open for conditional purchase. Will you kindly inform me when the above area is available, and the mode of procedure for making application for same. Being a resident of Victoria, I have no means of knowing. Also the nearest Land Office to the land in question. Your kind attention will oblige.

Yours, &c.,
JOHN CUNNINGHAM.

The Under Secretary for Lands, Sydney.

Recommended that measured portions 139 to 153 inclusive, containing an area of 2,334½ acres, within reserve 179, be proclaimed a special area at 35s. per acre.—R.H.D., 26/7/88. The special area may be proclaimed as recommended by the District Surveyor.—R.H.D., 28/7/88. C.O. Approved.—H.P., 2/8/88.

Pitt and Bridge Streets, Sydney, 23 November, 1888.

Sir,
Referring to proclamation of special area on Kerarbury Holding (Central Division), in *Government Gazette* of 10th instant (Miscellaneous 88-13,660), at 35s. per acre, we are instructed by the lessee to respectfully request that amount may be increased to £2 5s. per acre, at which price he is prepared to purchase the land at auction.

We have, &c.,
DUGUID & CO.

The Under Secretary for Lands.

Special. This is an offer of £2 5s. per acre at auction of land, which will be open as a special area at 55s. per acre on 10 January, 1889. Submitted.—R.H.D., 26/11/88. F.H.W. The District Surveyor may, perhaps, be directed to furnish an immediate report as to the value of the land.—S.F., 1/12/88. Submission approved.—J.N.B., 4/12/88. The District Surveyor instructed to report this day.—F.W., 5/12/88. Mr. De Low.

(Misc. 88-15,54C ; L.B.D. 88-13,200.)

11 December, 1888.

In compliance with your B.C. on enclosed papers, I have the honor to report that, in view of the proximity of the Murrumbidgee southern main canal, as projected by the Water Conservation Commission, it appears desirable to withdraw from alienation portions 147, 148, and 149, in the parish of Waddi, county of Boyd, for probable future public requirements.

The description for the revocation of the part of special area 76-26 affected, and the reservation of the area from sale, under the provisions of the 104th clause of the Crown Lands Act of 1834 are enclosed.

WILLIAM ORR,
District Surveyor.

To the Under Secretary for Lands.

For approval.—S.F., 14/12/88. Approved.—J.N.B., 14/12/88.

5 December, 1888.

By direction of the Minister, you are requested to furnish an immediate report as to the value of special area 7,626, which was gazetted on 10th ultimo, being measured portions 138 to 153, parish Waddi, county of Boyd. The lessee of Kerarbury Holding has asked that it may be put up at auction at £2 5s. per acre.

By order,

The District Surveyor, Wagga Wagga.

R. H. DE LOW
(For the Under Secretary).

Wagga

Wagga Wagga, 6 December, 1888.

The area in question crosses a canal route proposed by the Royal Commission on Water Conservation, and in view of circular to District Surveyors, No. 88-14, it is questionable whether the land should be thrown open to conditional purchase under the 24th clause or not; but as the public look upon reservations within resumed areas with suspicion, perhaps it would be advisable to merely raise the price to £6 per acre, seeing that it will ultimately bring £10 if the irrigation scheme is carried out.

Under any circumstances the land should not be offered at auction under £6 per acre.

I may state my reason for suggesting £6, when the ultimate price is £10, is that no guarantee can be given to a purchaser with regard to the route of the canal, as it may be changed.

I now recommend that the price be raised to £6 per acre, and if within a reasonable period—say, two years—the irrigation scheme is still in abeyance, the question of reassessment of the value of the ground might be again investigated.

I also desire to mention the fact that the plan of the irrigation scheme only reached me within the last fourteen days.

The Under Secretary for Lands.

WILLIAM ORR,

District Surveyor.

Submitted in connection with memo. of 1st instant on—15,047.—R.H.D., 8/12/88.

Special Area 7,689—Reserve No. 374.

Sir,

Corienbah, 1 May, 1887.

I have the honor to respectfully suggest that that portion of reserve No. 374, in the parish of Borambula, county of Wynyard, and edged blue on tracing herewith, be subdivided for sale.

As a reserve, the portion to which allusion is made, is of no use for public purposes, and would be purchased if subdivided for sale.

The District Surveyor, Wagga Wagga.

ARNOLD W. LOVE,

Licensed Surveyor.

Sir,

Albury, 28 March, 1888.

Pursuant of your instruction No. 12, of 24th January, papers, L.B.D. 87-2,486, I have the honor to transmit herewith sketch showing proposed design for the subdivision of part of reserve No. 374, parish of Borambula, county of Wynyard. Block A, containing an area of 160 acres, consists of rough stony hills, is poor grazing land, and quite unsuitable for agriculture. I consider 25s. per acre the outside value for this block.

Block B contains 160 acres, about one-third of which is suitable for agriculture, the remainder being rough grazing land; estimated value, 30s. per acre.

Block C, containing an area of 160 acres, is all good agricultural red and grey soil, worth £2 5s. per acre. Block D is similar to Block C; estimated upset price, £2 5s. per acre. In the absence of a map, showing the locality, I am unable to state whether it is necessary to continue the road provided for between portions 88 and 36 along the southern boundary of Block A, but unless a road has been provided for between portions 89 and 35, the continuation will be unnecessary. As the land on either side of the proposed subdivision is apparently in the hands of one holder, the access provided should be sufficient.

The improvements are—On Block A, about 38 chains new heavy 7-wire fence; estimated cost, £45 per mile; amount, £21 7s. 6d.

On Block B or C, about 37 chains 6-wire fencing valued at £35 per mile; amount, £16 3s. 9d.

Also Blocks C and D have been ringed; estimated cost, 9s. per acre.

I have communicated with the lessee as to date when these improvements were effected, and whether with permission of Land Board or not, and will forward reply under B.C. when received.

Mr. District-Surveyor Orr, Wagga Wagga.

I have, &c.,

A. E. MACKAY,

Surveyor.

It is submitted that part of reserve 374, notified 30th December, 1865, in the parish of Borambula, county of Wynyard, as shown on enclosed tracing, be revoked after subdivision, in accordance with approved design with the view to proclamation of the subdivision as a special area; situated in the resumed area of Borambula Holding, No. 724, Central.—WILLIAM ORR, District Surveyor, 24/4/86. The Under Secretary for Lands.

Sir,

Keajura Creck, 29 July, 1888.

I have the honor to transmit herewith the plan of four portions of land containing 38½ acres, and numbered 63; 160 acres, and numbered 64; 160 acres, and numbered 65; 160 acres, and numbered 66, in the parish of Borambula, in the county of Wynyard, within the resumed area of Borambula Holding, No. 724, Central.

Improvements I value at £53 11s.

The land embraced by portion No. 66 consists of slate hills, and is adapted only for grazing purposes, the value being £1 5s. per acre, and portion No. 65 is adapted for agricultural purposes on flats, only the hills being of slate formation; value, £1 10s. per acre. Land embraced by portions Nos. 64 and 65 is agricultural on flat; value of same, £2 per acre.

In the survey of portion 66 I had occasion to re-chain eastern boundaries of portions No. 88 and 90, and have shown a slight discrepancy in chainage.

I have taken a reference tree at south-west corner of travelling stock reserve No. 2,142A, and numbered tree according. Reference tree at north-west corner of portion No. 51 I have also numbered travelling stock reserve No. 2,142A.

There is not any permanent water on these blocks; but the soil is adapted for conserving water. The most northerly block is situated about a mile from main road, Wagga Wagga to Tarcutta.

ARNOLD W. LOVE,

Licensed Surveyor.

Plan approved. Subdivision of part of reserve 374, notified 30th December, 1865, having been effected in accordance with Ministerial decision, description is enclosed for the revocation of the portion of

of reserve in question. Descriptions are also enclosed for the proclamation as special areas of portions 63 and 64, at £2 5s. per acre, and portions 65 and 66, at £1 10s. per acre. In the event of non-selection within a reasonable period, auction sale of the portions at upset prices quoted, with improvement added, is recommended.—WILLIAM ORR, District Surveyor, 29/8/88. The Under Secretary for Lands.

Submitted for approval.—S.F. C.O. Approved.—J.N.B., 25/9/88.

Sir, Wagga Wagga, 25 May, 1889.
I have the honor to request you will have submitted to public auction the land described in the margin.

The land in question adjoins my conditional purchase on the north, Mr. Bannatyne on the east, Mr. Rodney on the west, and travelling stock reserve 2,142 on the south.

As the matter is of importance to me, I trust you will have it attended to at your earliest convenience.

I have, &c.,

ROBERT FOULKES

(By his Agent—P. S. F. STEPHEN).

The Under Secretary for Lands.

Land District,
Wagga Wagga,
parish Boram-
bula, county
Wynyard;
special area
No. 7,689;
gazetted
17 Nov., 1889;
38½ acres,
portion No. 63.

Sir,

Wagga Wagga, 3 November, 1890.

I have the honor to call your attention to the fact that, owing to the manner in which the survey has been made, a special area, No. 7,689, there is a small portion consisting of 38 acres, situated between my conditional purchase and the travelling stock reserve, rendered unavailable, the area being too small for selection.

I have to request that if possible you will cause a resurvey of the land to be made, and 2 acres taken off the reserve, so that the area could be made up to the minimum amount allowed by the Act, or the piece in question submitted to public auction.

I have, &c.,

ROBERT FOULKES.

W. Orr, Esq., District Surveyor, Wagga Wagga.

Re re-proclamation of special area 7,689, parish of Borambula, county Wynyard.

REFERRING to enclosed correspondence regarding special area No. 7,689, parish of Borambula, county of Wynyard, I would respectfully recommend that the special area be re-proclaimed at the same price (£2 5s. per acre), but with the maximum area increased to 198½ acres, and the minimum decreased 38½ acres, in order that Robert Foulkes, who is apparently a *bonâ-fide* settler, may have an opportunity of conditionally purchasing the residue of the special area, consisting of 38½ acres.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Sir,

Wagga Wagga, 25 February, 1891.

I have the honor to apply to you to have the portion of land described in the margin, and which adjoins my conditional purchase, submitted to public auction, as it is not available for selection, the area being too small, viz., 38 acres 2 roods.

Trusting you will comply with my request as early as possible.

I have, &c.,

ROBERT FOULKES

(By his agent—PERCIVAL S. F. STEPHEN, Land Agent).

The Under Secretary for Lands.

District Wagga
Wagga, parish
Borambula,
county
Wynyard,
portion 63
38½ acres.

Special Area 7,692 and 7,693.

Sir,

Deniliquin, 3 February, 1886.

Adverting to your instructions No. 2, dated 1st January, 1886, directing a report upon reserves within this district, I have the honor to transmit herewith a tracing showing reserves Nos. 1,114, 1,114A, and parts of 1,982, and beg to recommend that the entire areas of reserves No. 1,114, and parts of No. 1,982, and the area of No. 1,114, with the exception of that part indicated by red hatching on tracing, be revoked for the purpose of conditional purchase.

The part proposed to be retained fronts a 3-chain road, which forms part of the mail route from Deniliquin to Noorong, and is also the main road from Goun, Wakool, Swan Hill, and Cummryoal to Deniliquin and Moama, and is for the purpose of a camping reserve.

The land embraced by these reserves is principally an open box forest, and fairly grassed, and does not contain any natural storage of permanent water beyond that in the Wakool River.

I am of the opinion that it is not necessary, in the interest of the public, to retain a greater area of these reserves than that proposed.

It would appear that water reserve 1,114A has been subdivided, and various areas measured in virtue of improvements, and I beg to suggest that an inspection, and if necessary a re-valuation, of these improvements be made with a view of ascertaining their relation to the occupation of the land.

It is evident from the settlements in the locality that this class of country is adapted for the subsistence of small land holders, *i.e.*, under the 26th, 42nd, and 46th sections.

The lessee of the Beremegad pastoral holding has improved these reserves to some extent in the shape of tanks and fencing.

I have, &c.,

JOHN BROUGHTON,

Surveyor.

Sir,

Cochrane's Creek, near Deniliquin, 20 February, 1886.

I am a selector in the parish of Bookit, county of Wakool, Land District Deniliquin. There is a small block joining me surveyed, ready to be thrown open. It is numbered 63 on the plan, and in extent is about 140 acres. I would take it as a great favour if you would throw it open for selection, as at present I have no frontage to the Wakool River. By throwing it open you will interfere with no interests, either squatting or otherwise.

I have, &c.,

WILLIAM ROSS.

Memorandum.

—Spring, Esq., M.L.A., Minister of Lands, Sydney.

Memorandum.

17 February, 1886.

I AM of the opinion that portion No. 9, parish of Corry, will suit the purpose of the reserve proposed.

I am not aware to what extent the unsurveyed portion of reserve No. 1,114 has been improved, but from my knowledge of the locality I infer it contains fencing of ringbarking improvements, which is the property of the lessee of Beremegad pastoral holding.

JOHN BROUGHTON,
Surveyor.

Mr. District-Surveyor M'Donald, Hay.

Hay, 12 March, 1886.

I BEG to recommend the revocation of the reserves referred to in the enclosed report by Mr. Surveyor Broughton, retaining portion No. 9, parish of Corry, as a reserve for camping, &c. Reserve No. 1,114 has been subdivided. Reserve No. 402, notified 30th December, 1855, appears to be included in water reserve 1,114A.

The Under Secretary for Lands.

ROBERT M'DONALD,
District Surveyor.

Sir,

Cochrane Creek, *via* Deniliquin, 8 March, 1886.

On the 25th January, 1883, I selected 640 acres of land in the parish of Bookit, county of Wakool.

The said land was nearly all thick scrub and box, and would not keep more than twenty sheep, besides being without water. I spent between £500 and £600 on the said land, and even now it will not carry quarter enough stock to keep me, and ask you to cause to be thrown open the water reserve 1,114A and 1,114B, one portion of which has been surveyed.

The land is very much like my own—scrub and box—and no water on it, and has never been used for a water reserve. Being no other land available to increase my present holding, may I beg that you will grant my request.

The Honorable Minister for Lands.

I remain, &c.,
C. FISHER.

Sir,

247, George-street, Sydney, 14 October, 1886.

On behalf of Mr. Thomas Wragge we beg to intimate that he is prepared to give the sum of £2 per acre for water reserve 1,114A, situated in county Wakool, on his Beremegad Run.

This reserve has already been surveyed. We have, therefore, respectfully to request that the reserve be cancelled, the land proclaimed a special area, and submitted to auction sale with as little delay as possible.

The Under Secretary for Lands.

We have, &c.,
WILSON AND RANKIN.

Sir,

247, George-street, Sydney, 21 January, 1887.

On the 14th October last, we addressed you with reference to the sale of reserve 1,114A, county Wakool, under special area conditions.

From a letter from Mr. Wragge we now find that the part of the reserve which he wishes to purchase extends from the river north to a camping reserve, lately proclaimed, and adjoins his purchased land on the east. The rest of the reserve runs between the conditional purchases the whole way, and would be of no benefit to Mr. Wragge.

We enclose tracing, showing the land he wishes to purchase, coloured yellow.

We have respectfully to request that Mr. Wragge's letter of 14th October may be modified, so as to include only the southern portion of the reserve.

The Secretary for Lands.

We have, &c.,
WILSON AND RANKIN.

Sir,

Cochrane Creek, Deniliquin, 30 January, 1888.

I wish to draw your attention to the fact that reserve No. 1,114, in the parish Corry, county Wakool, has now been surveyed some time, and as there are two or three anxiously waiting for same to be gazetted as revoked to conditionally purchase it, you would greatly favour by giving it your just consideration, with a view of revoking same as soon as convenient.

The Under Secretary for Lands,

I am, &c.,
G. W. FAULKS.

The reserve referred to was recommended by Mr. District-Surveyor M'Donald for revocation by his B.C. dated 12th March, 1886, on papers L.B.D. 86-585, with the exception of portion No. 9, which was proposed to be retained as a camping reserve. The papers in this case are now under cover, L.B.D. 87-3,612, Hay, forwarded to Under Secretary (from Land Board), on 27th July, 1887.—JOHN BROUGHTON, Acting District Surveyor, 8/3/88.

Dear Sir,

Cochrane Creek, Deniliquin, 19 August, 1891.

I am in receipt of your letter of the 10th instant about the letter to the Minister for Lands. What I meant is, that portion 15, parish of Corey, county Wakool, of 259 acres, be left open for conditional purchase in the ordinary way. I could select as additional conditional purchase if there be any more left open. I would have no chance of getting it, as a deal of applications would be for the same. Portion No. 15 is all dry land. If I can get it to select, it would answer my purpose. I would like the Minister for Lands to send the District Surveyor to my place to see damage done by the flood here.

Dear sir, it is useless to think that the land on this reserve would be taken up on special areas, as no man in his senses would think of the like, as there is land for sale here in the fee simple, and £2 could not be got for it.

R. Barbour, Esq., M.P.

I have, &c.,
JOHN TOLANO.

Sydney

Dear Sir,

Sydney, 7 September, 1889.

A hard-working, industrious man named John Tolan, who has a selection on Cochrane's Creek, about 50 miles from Deniliquin, which is the nearest township, sends the attached letter.

He wishes you to cancel the special area mentioned in margin, that he may have a chance of selecting it as an ordinary selection.

He says it is dry land, but his own selection is flooded land, and in a former letter he said he was nearly driven from it. He concludes his letter thus: "It is useless to think that the land on this reserve would be taken up on special areas, as no man in his senses would think of the like as there is land for sale here in fee simple, and £2 an acre could not be got for it."

I have to request that you will cause a special report to be made; it is a pity to drive away settlement, and if the facts are as this man represents, then your officers are doing their best to defeat settlement and give the country over to the squatters.

Yours, &c.,
ROBT. BARBOUR.

The Hon. the Minister for Lands.

Special Area 7,695—Reserve 2,161.

Sir,

Tubbul, Temora Road, Young, 6 June, 1887.

I have the honor to state that I am a selector in the above-named parish, and my land, 500 acres, is formed thus * * * * *

I would respectfully point out that the reserve of 40 acres is no use to any person, and if you would be kind enough to cancel it I would be most happy to select it, as it will take just as much wire to fence the 540 acres as it will take to fence the 500 acres.

By acceding to my request you will greatly oblige

Yours, &c.,
CHARLES BRUCE FRATER.

The Secretary for Lands.

Sir,

Cootamundra Land District, Wagga Wagga, 12 July, 1888.

I have the honor to transmit herewith the plan of two portions measured for sale, containing 51 acres and 42 acres 3 roods respectively, numbered 69 and 70, in the parish of Tumbleton, county of Bland, being a subdivision of reserve 2,161, notified 1st November, 1880, surveyed by me in accordance with your B.C. instruction No. 12, 30th May, 1888.

There are not any improvements on these portions, and as the lands are of exceptionally good quality and well situated, and in my opinion, if sent to auction should realise £3 per acre. I would recommend that they be sold at auction at the upset price of 30s. per acre.

I have, &c.,
V. F. TOZER.

The District Surveyor, Wagga Wagga.

Reserve 2,161, having been subdivided, description is enclosed for its revocation, in accordance with Ministerial approval upon C.S. 87-3,073, correspondence enclosed. A strip of land 5 chains wide has been left in subdivision as a driftway, which it is recommended should be reserved from sale for travelling stock. Description enclosed.

As Mr. Tozer reports this land as likely to realise £3 per acre, it is recommended that it be proclaimed a special area at that price, and failing selection within a reasonable period, offered at auction at £3 per acre.—WILLIAM ORR, District Surveyor. Under Secretary for Lands.

Special Area 8,004.

12 November, 1888.

Recommending Proclamation of Special Area.

I HAVE the honor to recommend that portion No. 43, of 600 acres, in the parish of Ashcroft, county of Mitchell, be proclaimed a special area at £2 per acre.

This portion is a forfeited conditional purchase, and unless proclaimed a special area before the 30th instant, will be open to reselection.

Necessary description is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

5 February, 1890.

Re proclamation of special area, 8,004, parish of Ashcroft, county of Mitchell.

In accordance with circular 90-5, of 24th ultimo, referring to reclamation of unalienated parts of special areas, it is recommended that as a reasonable time has elapsed since the proclamation of special area, 8,004, parish of Ashcroft, county of Mitchell, and a part of the area remaining unselected, that the balance of the land be re-proclaimed as a special area under clause 18. of the Crown Lands Act of 1889, allowing a maximum area of 320 acres. With this end in view, a description for reclamation is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Special Area, 8,005.

12 November, 1888.

[Urgent.] Forfeited Conditional Purchase. I HAVE the honor to recommend that portions 24, 25, 32, and 36, containing in the aggregate 600 acres, in the parish of Ashcroft, county of Mitchell, be proclaimed a special area at £2 per acre.

Unless proclaimed before the 30th instant, this land will be open to selection. Necessary description is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Special Area 8,041.

Sir,

Bridge and Pitt Streets, Sydney, 5 November, 1888.

Urana; C.P.,
86-43, 115 acres;
23 September,
1888; county
Urana, parish
Morundah
South; forfeited,
31st October,
1888; C.S.,
88-22,477 dept.

Referring to the forfeiture of the conditional purchase, noted in margin, we are instructed by Mr. J. T. Horsfall, the lessee of the holding, to respectfully suggest that the land in question be proclaimed a special area at £3 per acre, at which price he is willing to purchase the same at auction.

We made the application thus early in order that providing the suggestion is complied with, the necessary proclamation may be made before the end of the present month, when the land, under ordinary circumstances, would be open at perhaps a lower price.

We are, &c.,

DUGUID & CO.

The Under Secretary for Lands.

I HAVE the honor to recommend that portions 108 and 109, of 69 acres and 46½ acres respectively, in the parish of Morundah South, county of Urana, be proclaimed a special area at £3 per acre.

These portions were held under conditional purchase 86-43, Urana—*forfeited vide Gazette, 31st October, 1888*, and unless proclaimed special area before the 30th instant, will be open to reselection.

Necessary description is enclosed.

WILLIAM ORR.

The Under Secretary for Lands.

Special Area 8,118—Reproclaimed 11,594.

Sir,

Moulamein, 28 April, 1888.

I have the honor to transmit herewith the plan of five portions of land containing 1,833 acres 1 rood, numbered 60 to 64 inclusive, in the parish of Jimaringle, in the county of Wakool, within the Noorong Pastoral Holding, measured by me on 15th to 25th April, 1888, in accordance with instructions No. 88-14, dated February 6th.

The land is situated on Noorong Pastoral Holding, leased to executors of the late Thos. Armstrong, consists in portions 60, 61, and part of 62 of black soil country, subject to inundation, and timbered with box, the rest being chiefly open red-soil plain, part of portion 64 being black soil of a swampy nature. A little gum timber exists in some of the bends of the river, but of no practical value.

The subdivision has been carried on in accordance with the design furnished with instructions, and at 10 per cent. discount from scale of fees.

A gum-tree was found near the north-east corner of portion 61 on river bank marked R over 9, and connection to it is shown in plan.

Permanent water supply is afforded to portions 60 and 61 in the frontage. Portions 63 and 64 are furnished with tanks, in which a good supply—about three-parts full—existed at time of survey. Portion 62 is without water.

The values of land embraced in the several portions are as follows:—Portions 60 and 61, per acre, £1 10s.; portions 62, 63, and 64, per acre, £1 5s., the former being valuable on account of the good frontage.

With reference to the four-wire and two-rail fence on portion 61 and 62, I was unable to get the date of erection, but it must be twenty-five years or upwards, and the fence is of no use except as it stands, and would not bear removal. The plan has been drawn for photo-lithography.

A. B. WOOD.

Memorandum.

Hay, 17 September, 1888.

IN accordance with direction indorsed on Nos. 87-3,619 enclosed, the subdivision of water reserve No. 549, parish Jimaringle, county Wakool, has now been effected, and the plan of survey dealt with, in this office.

Part of forest reserve 2,125 is also embraced by the subdivision.

It would appear that circular No. 88-14 precludes the sale by auction of these lands, especially of the portions fronting the Neimur River, in which Mr. Wood states permanent water is to be found.

The value of the portions I estimate as follows:—Portions 60 and 61, 30s. per acre; portions 62, 63, and 64, 25s. per acre. The improvements effected by the lessee within the reserves having been made during its currency, and subsequent to July, 1876, are the property of the Crown.

While recognising the market value of this land, it is not considered that the soil is of such a quality as to justify it being proclaimed a special area, the maximum area available under that principle being too small, and the distance from market too great, to admit of an individual making a living.

Descriptions for revocation of water reserve 549, and the part of forest reserve 2,125, embraced in the subdivision, are now herewith.

JOHN BROUGHTON,

Acting District Surveyor.

The Under Secretary for Lands.

Sir,

4, Post Office Chambers, Pitt-street, 17 April, 1889.

We have been instructed by the lessee of Noorong Holding, No. 729, Central Division, to apply to have the portions of land noted in the margin within special area No. 8,118, gazetted 12th January, 1889, offered for sale by auction without delay.

We are, &c.,

BLOMFIELD AND DICKSON.

The Under Secretary for Lands.

Sir,

4, Post Office Chambers, Pitt-street, 1 November, 1889.

We beg to draw your attention to our application on behalf of the executors of the late T. Armstrong, to have several portions of land, in the parish of Jimaringle, offered for sale by auction, and now request that it may be dealt with without delay.

We have, &c.,

BLOMFIELD AND DICKSON.

Sir,

Parish
Jimaringle,
county Wakool,
portion 60, of
398 acres; por-
tion 61, of 633
acres; portion
62, of 283 acres
1 rood; portion
63, of 264 acres
2 roods; portion
64, of 239 acres
2 roods.

Parish Jimar-
ingle, county of
Wakool;
89-1,796; alm.

Sir,

Moama, 6 February, 1890.

I beg to enclose you a letter, for which I ask your earnest consideration. I fully indorse it. If in this district, where special areas are proclaimed, they should be as near as possible to the maximum 640 acres. In that case they will be occupied by *bona fide* selectors, otherwise they will fall into the hands of the squatter, and settlement will thereby be impeded.

I therefore earnestly entreat you to withdraw these lands from auction, and have them proclaimed under the amending Act.

Awaiting the favour for an early reply.
The Hon. Minister for Lands.

I am, &c.,

T. M. CHANTER, M.P.

Dear Sir,

Deniliquin, 5 February, 1890.

In the interests of intending selectors, I beg to call your attention to an advertisement in the *Government Gazette* of 24th January ultimo, No. 51, page 650, wherein certain lands situated in parish Jimaringle, county of Wakool, and aggregating 1,420 acres 1 rood will be offered for sale on 26th March at the upset price of 30s. per acre.

These lands are within special area 8,118, and have not been operated on, owing to the limited acreage allowed under 1884 Act.

I would strongly urge for you to at once bring under the notice of the Minister for Lands, the altered condition of the law, as enacted under section 18 of Crown Lands Act, 1889, wherein the Governor can proclaim special areas of 640 acres in the Central Division.

I have no hesitation in saying that if the old proclamation is withdrawn and a fresh one made, permitting of 640 acres being acquired, that there will be applicants for the land. I understand that Mr. Bruncker has publicly stated that he will encourage settlement all he can, and the special area provisions were specially enlarged on his recommendations; and yet, notwithstanding this statement, he advertises the lands I refer to for sale by public auction, when there will be only one buyer, the pastoral tenant.

I write in the public interests. I have no one in view to apply for the land.

This is a matter of great importance, and special efforts should be made. Your colleague when here said publicly that the public would have a chance of selecting in the maximum area first, and if not then acquired, the Minister would reduce the price, and again offer for selection, and that the Minister would not submit for public auction.

Yours, &c.,

A. JAMESON.

J. M. Chanter, Esq., M.P., Moama:

Having an intimate knowledge of the country comprising portions Nos. 60 to 64, in parish Jimaringle, county of Wakool, I consider that the most appropriate limit for special area is 640 acres, and I therefore recommend that portions 61 to 64 be excised from special area 8,118, and proclaimed a special area; maximum limit, 640 acres; price, 30s. per acre; portion No. 60 is partly within travelling stock and camping reserve No. 9,218, and subdivision is being made with a view of similar action being taken. Litho. herein.—J. BROUGHTON, Acting District Surveyor, Hay, 13/3/90. The Under Secretary for Lands.

Special Areas 8,180 and 8,181.

Sir,

Bongongolong Creek, 27 August, 1888.

I have the honor to transmit under separate cover the plan of seven portions of land as follows:—No. 210, containing 40 acres; No. 211, containing 40 acres; No. 212, containing 40 acres; No. 213, containing 47 acres; No. 214, containing 35½ acres, in the parish of Mundarlo in the county of Wynyard within the Jellengrove Run, measured by me in accordance with instructions of 4th August, No. 88-14, from the District Surveyor at Wagga Wagga. Date of survey 11th August, 1888. Improvements on Nos. 210, 211, 212, and 216 nil.

On No. 213, fence £3; on No. 214, fence £6; on No. 215, fence £6.

In chainage of west boundary of portion No. 8, a discrepancy of 40 links exists between chainage by Mr. Licensed-Surveyor Saunderson and myself. I found reference tree at north-west corner of portion No. 8. I located north-west corner which was on edge of bank of river. I therefore placed corner stake, 7 links south from its original position, making length of west boundary 6,373 in lieu of 6,780 as chained by me against 6,340 shown on original plan of survey.

In chainage of east boundary of portion No. 11, a discrepancy exists between original chainage and that by me of 17 links.

In chainage of north boundary of 122, a discrepancy of 18 links exists between chainage by me and that by Mr. Surveyor Maitland.

The land embraced by portion Nos. 210 to 214 is rich agricultural land subject to inundation, the value is £5 per acre.

Portions 215 and 216 embrace land suitable only for grazing, being rough, and broken, and rocky the value I consider is 30s. per acre.

I would respectfully state that though I accepted the survey at a reduction of 25 per cent. the remuneration is hardly commensurate with the labour attached thereto.

I have, &c.,

ARNOLD LOVE,

Licensed Surveyor.

Plan approved. The necessary tracings and descriptions for the revocation of the area measured from water reserve 176, notified 22nd December, 1865, and reserved from lease 338, notified 29th July, 1878, the proclamation of a water reserve to front the Ana branch, and also the notification of the area measured as special areas are enclosed. In view of the enclosed reports an upset price of £5 an acre is recommended in connection with portions 210 to 214 and 30s. an acre in connection with portions 215 and 216.—WILLIAM ORR, Wagga Wagga, 7/11/88. The Under Secretary for Lands.

Special Area 8,301.

Sir,

Council Chambers, Narandera, 1 May, 1889.

I am instructed by the Borough Council to bring under your notice the desirability of having cancelled and made available for selection, railway reserve No. 218A notified 26th November, 1878, and extending along the railway line from Narandera to Junee.

The land is valuable, and with the exception of a few inlet roads along the route is not required for Government or public purposes; but by making it available would largely increase settlement and prosperity owing to the great demand for land in this district and those adjoining.

This Council has, therefore, to request that you would give instructions for a report on the matter, and the advisability of such a step as urged, will no doubt make itself recognisable.

I have, &c.,

P. HIGGINS,

Council Clerk.

The Honorable the Minister for Lands.

17 May, 1889.

In compliance with B.C. on enclosed papers relating to the application by the Narandera Borough Council that railway reserve 218A along the railway line from Junee to Narandera be revoked and made available for selection, I have the honor to report that the land comprised within the reserve in question, situated on the resumed area of the various holdings has already been subdivided as hereunder specified, and the plans and papers are now at Head Office awaiting necessary action.

Portions 21 to 41, parish Coolamon, county of Bourke, B. 1,884-1,806.

Portions 200, 202 to 215, parish Kindra, county of Bourke, B. 1,870 and 1,871, 1,806.

Portions 42 to 64, 40 to 51, and 45 to 51, parishes of Derry, Elliott, and Lupton, county of Bourke, B. 1,923, 1,806.

Portions 169 to 190, parish Narandera, county of Cooper, C. 1,054, 1,804.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Sir,

Wagga Wagga, 16 June, 1888.

I have the honor to transmit herewith the plan of forty-two portions, measured for sale, numbered 42 to 64, in the parish of Derry; 40 to 51, in the parish of Elliott; and 45 to 51, inclusive, in the parish of Lupton, in the county of Bourke, surveyed in accordance with your instructions No. 18, dated 4th April, 1888.

The survey was commenced by me on the 28th March, 1888, and completed on the 16th May, 1888.

Improvements have been effected on the portions by the Scottish Australian Investment Company, as follows:—

	£	s.	d.
Ringling on portions 42 to 50, parish Derry	13	6	8
Ringling on portions 44 to 51, parish Elliott	13	6	8
Portions 54, 55, 56, parish Derry	6	13	4
Portions 45 to 49 and 51, parish Lupton	6	13	4
Portion 53, parish Derry	2	4	7
Portion 50, parish Lupton	3	6	5
Fencing portion 48, parish Derry	35	0	0
Portion 48, parish Elliott	30	0	0
Portion 51	15	0	0

The instrument used was a 6-in. theodolite.

Owing to the prevailing cloudy weather I was only able to obtain an observation of one star on portion 49, parish of Elliott.

I have, &c.,

B. CLAYTON GOWLAND,

Licensed Surveyor.

Indorsement on above.

B. 1,923-1,806 Roll, checked by me.—G. MEESON, 12/9/88.

14 September, 1888. The necessary descriptions for the revocation of reserve 2,257, water reserve 884 and water reserve 1,474, with the parts of railway reserve 218A and 218A North Extension, reserve 398 North Extension, water reserve 883 and water reserve 2,042 affected; also for the proclamation of a reserve for water supply in the parish of Lupton, a village site in the parish of Elliott, and an extension to water reserve 2,535, in the parish of Derry; also for the proclamation of the area measured as a special area are enclosed. The upset price of £2 10s. an acre is recommended in connection with the whole of this land.—WILLIAM ORR, District Surveyor, Wagga Wagga, 22/11/88. The Under Secretary for Lands.

Submitted for approval.—R.H.D., 29/11/88. S.F. Approved.—J.N.B., 10/12/88.

Sir,

Parliament House, Sydney, 21 January, 1890.

I have the honor to direct your attention to the quantity of Crown lands reserved from sale in the neighbourhood of Coolamon, and near the railway line between that place and Narandera.

I am of opinion all the reserves on the resumed portion of pastoral holding in the places I referred to is not required for public purposes, and that some portions of those lands should be thrown open to selection. I know there is a good demand for land for agricultural purposes in the Murrumbidgee district, and would, therefore, respectfully request that a number of the reserves be withdrawn, and made available for selection.

I am, &c.,

JAMES GORMLY.

The Honorable the Minister for Lands.

Memo.

22 December, 1890.

Memo. from the District Surveyor, Wagga Wagga, to the Under Secretary for Lands, Sydney.

Regarding reclamation of special area, No. 8,301, parishes Derry, Elliott, and Lupton, county of Bourke.

REFERRING to special area No. 8,301, parishes of Derry, Elliott, and Lupton, county of Bourke, which was proclaimed 15th February, 1890, with a maximum area of 320 acres, I am of opinion that, as it has only been partly selected, it would be advisable to re proclaim the special area with maximum area increased to 640 acres being the full area allowed by the Act in the Central Division. I would, therefore, recommend the reclamation of the special area.

Description enclosed.

WILLIAM ORR,

District Surveyor.

Submitted that the special area be modified by increasing the maximum to 640 acres, as suggested by the District Surveyor.—J.O'D., 12/1/91. R.H.D., 12/1/91. Special.—F.H.W., 13/1/91. Approved.—J.N.B., 13/1/91.

Special Area 8,510.

Sir,

Deniliquin, 6 June, 1887.

In compliance with your instructions No. 102, of 23rd October, 1886, the part of reserve No. 3,103, situated within the resumed area of the Chah Sing Pastoral Holding, parish of Wetuppa, county of Wakool, was inspected by me on the 23rd ultimo, and I have now the honor to submit the following report:—

It does not appear to me that there is any immediate necessity for taking action on the land within the leasehold area, especially as there are other matters of an important nature awaiting action, and there is no doubt that this class of land will receive due attention at a future date, consequently I now forward particulars of that part of this reserve, which is situated within the resumed area.

The south-western and western boundaries of the pine forest are indicated on accompanying tracing, and such positions were determined by compass survey, the other information is shown with a very close approximation.

I consider the pine forest lying to the north-east and east of red lines on tracing, is of sufficient importance to justify the retention of the land, the nature of the country comprised within this proposed amendment of boundaries is principally low sandy ridged, timbered with pine of a very healthy class, there is a scrub undergrowth, hop bush, thorn, &c.; there are also a few strips of box flats, which with the Nantree Lagoon, do not in my opinion represent an area of one-sixth of the pine timber.

The residue of the reserve (without that proposed to be retained) is principally ringbarked box country, there being a few clumps of pine timber which are indicated on tracing.

Under my report, No. 8,754, the forest reserve No. 1,787 is dealt with, and is a matter which may influence this case.

I am, &c.,

JOHN BROUGHTON.

Sir,

Deniliquin, 1 November, 1887.

With reference to your instructions S7-8,806r, of the 21st ultimo, *re* the cancellation of parts of forest reserve No. 3,103 and 1,789, as shown on tracing S7-8,806r west of red line, I have the honor to report that I do not consider it advisable to cancel any of the portions containing pine timber, and if those portions or part of them were excluded from the area proposed to be cancelled, I think it would be in the public interest. As this class of timber is very scarce in this district, and must become very valuable. As an instance of its value, the Telegraph Department are now paying 22s. 6d. each for pine telegraph poles cut on timber reserve No. 1,404, parish Mundewa, for the telegraph line between Deniliquin and Conargo. That amount includes the carting and erecting. The pine timber on the reserves in question is sound and healthy.

I am, &c.,

OSBORNE WILSHIRE.

The Under Secretary for Mines.

Under this report it is recommended that the Lands Department be asked not to cancel any portion of the reserve containing pine timber, there, however, would appear no objection to the cancellation of that part of the reserve, west of the red line, shown on tracing S7-8,806r, appended hereto.—Z.F.P., Forest Branch, 7/11/87.

Sir,

Moulamein, 30 June, 1888.

I have the honor to transmit herewith the roll plan of four portions of land, containing 1,733 acres 3 roods in total area, numbered 14 to 17 inclusive, parish of Wetuppa, in the county of Wakool, within the Chah Sing Pastoral Holding leased to Messrs. Grant and Child, and measured by me on 18th May to 30th June, 1888, in accordance with instructions dated 17th April, 1888, No. 23. This land consists chiefly of ring box black soil country with the exception of the pine sand ridges in portion 14 and patches of open plain.

The design has been slightly departed from to conform more to the feature and uniformity between portions 15 and 16.

Good water supply exists in the frontage to portion 14 in holes, but that to portion 15 is salt and unfit for use. Water also exists in holes in the Cunninyeuki Creek, portions 16 and 17, but is not permanent in dry seasons.

No useful timber exists on any of the portions.

The value of the land I estimate as follows:—

	£	s.	d.
Portion 14	1	12	6 per acre.
Portions 15, 16, and 17	1	5	0 "

The above improvements, value £60 1s. 2d., were made at the expense of the lessees, and are of a useful and good character; that of the ringing was made in February, 1881; that of the wire fence was made in April, 1880; that of the brush fence, old.

A. WOOD,

Licensed Surveyor.

Dear

Dear Sir,

2, Spring-street, Sydney, 2 October, 1888.

I have seen the Under Secretary for Lands with reference to certain papers, 88-14,751 Misc., which are marked to you on the 7th February, 1888, and he promised that he would ask you to complete your report upon an early date. I would now respectfully ask that you will give this matter your early attention. It is of the utmost importance to my client to get permission to deal with this reserve, which at best is only a clay pan. During this year only 4 inches of rain has fallen, and it would appear we are now on the eve of one of the worst seasons, perhaps ever experienced, and for this reason my clients are more than anxious to make every provision for the worst. Already on some of the neighbouring runs scrub-cutting has commenced, which is not a bright outlook, and if the Government will grant this land to my clients they would immediately erect all necessary machinery to irrigate and cultivate lucerne for an emergency.

Thanking you in anticipation.
The District Surveyor, Hay.

Yours, &c.,
WM. F. ALLWORTH.

17 September, 1888.

Memorandum from The District Surveyor, Hay.

In accordance with direction on Nos. 87-14,751 enclosed, the subdivision of part of forest reserve 3,103 has been carried out and the plan dealt with in this office.

Parts of forest reserves 2,125 and 1,787 are also embraced by the subdivision.

It would appear that circular No. 88-14 precludes the sale by auction of these lands, but, in the event of it being decided that they may be brought to sale, the following upset prices are recommended, viz.:—Portion 14, £1 12s. 6d. per acre; portions 15, 16, and 17, £1 5s. per acre.

While recognising the high market value of part of this land, it is not considered that the soil is of such a quality as to justify any part of it being proclaimed a special area, the maximum area available under that principle being too small and the distance from market too great to admit of an individual making a livelihood.

The improvements on the portions are the property of the lessee, and were effected prior to the notification of the reserves.

Descriptions for revocation of the parts of the above-mentioned reserves embraced by the subdivision are forwarded herewith.

JOHN BROUGHTON,
Acting District Surveyor.

The Under Secretary, Lands Department.

Special Area 8,525.

To the Honorable the Minister for Lands, Department of Lands, Sydney,—

Sir,

Goonambil, 8 January, 1887.

We, the undersigned, being selectors and residents on Goonambil and surrounding districts, humbly beg that you will cause to be revoked for the purpose of settlement so much of reserve 3,019A, 19 March, 1883, as is situated on the resumed area of Goonambil holding, gazetted 11th July, 1885, resumed area 8,463, county Urana, Urana Land District; and your petitioners, as in duty bound, will ever pray.

JOHN GOVSTRAY.

[Here follow 30 more signatures.]

Sir,

Corowa, 31 March, 1888.

In compliance with your instructions, dated 27th January, 1888, No. 15, I have the honor to report that on the 29th March, 1888, I inspected reserve 195*, now reserve 3,019A, from road adjoining portion 14, parish of Goonambil, to its south boundary, as also reserve 2,913, is thickly covered with dense pine scrub, but there is very little, if any, timber of any commercial value.

In its present state, it is simply a harbour for rabbits, which are already present on it. I am strongly of opinion that the whole of these reserves should be cut up and sold by auction, and a fair upset price would be 30s. per acre.

I would point out that these reserves are embraced within proposed travelling stock route from Goonambil to Mulwala. Land Board District 87-7,292 was returned with my letter of 31st March, 1888, No. 28, but, for reasons stated therein, I am of opinion that they should not be applied to that purpose.

The time occupied in this inspection was one day.

I would point out that there are other timber reserves nearer Urana, and that there is no timber of any commercial value on these reserves.

I am, &c.,
ARTHUR H. BRAY,
Surveyor.

In view of this report, and that of the Forest Ranger (enclosed), it is recommended that so much of water reserve 3,019A, notified 19th March, 1883, as falls within the resumed area of Goonambil Holding, No. 463, Central Division, be revoked after subdivision, in accordance with an approved design. The area proposed to be revoked is shown by red hatching on tracing enclosed, contains no valuable timber, and is not further required in public interests. Area to be subdivided amounts to about 1,700 acres.—WILLIAM ORR, District Surveyor, 17/5/88. The Under Secretary for Lands.

Subdivide, and then submit.—T.G., 8/6/88.

Sir,

Camp, Brookong, 24 October, 1888.

I have the honor to transmit herewith the plan of six portions of land, containing in the aggregate 1,393 acres, numbered 42 to 47 inclusive, in the parish of Clear Hill, in the county of Urana, within this resumed area of Goonambil Holding, measured by me from 16th to 25th September, 1888, in accordance with instructions No. 23, dated 23rd August, 1888.

The

*Now reserve 3,019A, county of Urana, reserve 195.

The land comprised within this subdivision is, generally speaking, flat, timbered with box, oak, and pine, and for the greater part encumbered with dense pine scrub, the soil being for the most part of a red, coarse nature. It is fairly suitable for agriculture, profitable crops of wheat having been grown on similar land adjoining. Taking into consideration the inferior quality of the land, and cost of improving same, I am of opinion that its fair capital value would be 30s. per acre.

I have, &c.,
W. A. LIPSCOMBS.

The necessary description for the revocation of the parts of reserve 1,127 and 3,019A effected, and the proclamation of the area measured as a special area, are enclosed. An upset price of £2 an acre is recommended in connection with this land.—WILLIAM ORR, District Surveyor, Wagga Wagga, 5/12/88. W.H.H. The Under Secretary for Lands.

Instructions for subdivision of the land were given on SS-6,081. Submitted that the revocations and special area recommended by the District Surveyor be notified.—R.H.D., 17/12/88. J.F. P.H.W. Submitted. Approved; price to be 40s. per acre.—J.N.B., 29/12/88.

Special Areas 8,537 and 8,538.

Sir,

7, Bent-street, Sydney, 16 August, 1888.

As agents for Mr. Wilson, lessee of Ringwood Holding, No. 369, Central Division, we have the honor to apply that the portions of land noted in the margin hereof may be offered for sale by auction with the value of the improvements thereon added to the upset price for the protection of the lessee, and we enclose herewith the required applications for remission of value of improvements, with declarations duly signed by Mr. Wilson.

Corowa District,
county Denison,
parish Denison,
portion 45, 309½
acres; portion
65, 528½ acres.

We have, &c.,
ALEX. WILSON & CO.

The Under Secretary, Department of Lands.

Report by Surveyor Mackay to Mr. District-Surveyor Orr reporting on reserve from sale No. 2,555, and from lease No. 586.

Sir,

Camp, Goonambil, 18 June, 1888.

Acting on your instruction No. 59, of 15th ultimo, papers Land Board District SS-1,956, enclosed with my letter No. 49, of this date, I have the honor to inform you that I have inspected reserve from sale No. 2,555, and from lease No. 586, being measured portion No. 45, of 309½ acres in the parish of Denison, county of Denison.

The improvements which were effected by the lessee and are claimed by him are valued at £318 1s. 6d.

It will thus be seen that this reserve is improved to the extent of over £1 per acre.

The improvements are all useful ones and were apparently effected for the more beneficial working of the run. The well has an unfailing supply of water, and during one of the recent dry seasons watered some ten or twelve thousand sheep. It is considered invaluable by the lessee, the run being naturally a dry one.

I do not consider the reserve is necessary in the public interests, and though the land is suitable for special areas, I think, in view of the extensive improvements on the block, and the fact that it is surrounded by freehold land the property of the lessee, the more equitable course would be to offer the land at public auction.

I therefore recommend the reserve for auction sale in one area at an upset price of £2 10s. per acre.

If, however, it is decided to proclaim the reserve a special area I would suggest that the lessee be allowed to purchase the portion hatched red. This would secure to him the principal improvement on the reserve.

I have, &c.,
A. E. MACKAY,
Surveyor.

In view of this report it is recommended that reserve 2,555 from sale, and reserve 586 from lease be cancelled, and portion 45 offered at auction at £2 10s. per acre, with value of improvements added. The improvements are valued by Mr. Surveyor Mackay, at £318 1s. 6d., and the bulk of them were effected prior to notification of reserve. The lessee had previously applied for this portion under Improvement Purchase 80-2, Corowa, which was refused under the limitation clause. Of the total amount of improvements, £27 1s. worth have been effected since date of reservation. Descriptions for revocation enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga, 10/10/88. The Under Secretary for Lands.

Special Area 8,736.

Sir,

Temora Progress Committee, Temora, 17 January, 1889.

I am directed by the above Committee to call your attention to the annexed advertisement, *ex Temora Independent*, announcing the sale by auction of certain portions of land in Bland County.

This land has been the subject of much correspondence between the Progress Committee and the Lands Department, and the Committee have received repeated assurances that the lands would be thrown open for selection.

About June or July, 1886, a deputation from Temora, Messrs. Hickey and King, accompanied by the late Mr. Gerald Spring, M.L.A., waited on the Minister. At the interview Mr. Abbott, temporarily acting for Mr. Farnell, who was ill, distinctly said that these lands should not be sold, but placed open for selection, the minutes of the Department will show this.

Great dissatisfaction has arisen in this district over this matter, and I am instructed to request you to cause the advertisements of the sale by auction to be cancelled forthwith.

Pardon my intimating that this matter requires prompt attention.

I have, &c.,
ABRAHAM COLLESS,

The Hon. the Minister for Lands.

Secretary, Temora Progress Committee.

Sir,

Sir, Temora Progress Committee, Temora, 17 January, 1889.
In my letter of this date addressed to the Minister, I omitted to attach the "advertisement extract" referring to the sale of lands in Bland County.

Pray oblige me by attaching the enclosed to my letter of this morning.

I am, &c.,

ABRAHAM COLLESS

(Per J.J.),

The Under Secretary for Lands.

Secretary, Temora Progress Committee.

Dear Sir,

Young, 24 January, 1889.

Referring to the letter sent you by Secretary, Temora Progress Committee, dated 17th instant, protesting against the gazetting of certain lands as per slip attached being put to auction, I have the honor to request that you will have this land withdrawn from auction as per Mr. Abbott's promise, which I remember well, and thrown open for selection in special areas. If this were done, it would be a special benefit to the district, as it would be sure to be settled upon by *bona fide* agriculturists.

I am, &c.,

J. A. MACKINNON.

The Hon. the Minister for Lands.

Sir,

Temora Progress Committee, Temora, 17 January, 1889.

I am directed by the above committee to call your attention to the annexed advertisement, *ex Temora Independent*, announcing the sale by auction of certain portions of land in Bland County.

This land has been the subject of much correspondence between the Progress Committee and the Lands Department, and the Committee have received repeated assurances that the land would be thrown open for selection.

About June or July, 1886, a deputation from Temora, Messrs. Hickey and King, accompanied by the late Mr. Gerald Spring, waited on the Minister. At the interview Mr. Abbott, temporarily acting for Mr. Farnell, who was ill, distinctly said that these lands should not be sold, but placed open for selection.

Great dissatisfaction has arisen in this district over this matter, and I am instructed to request you to cause the advertisement of the sale by auction to be cancelled forthwith.

Pardon my intimating that this matter requires prompt attention.

I have, &c.,

ABRAHAM COLLESS,

Secretary, Temora Progress Committee.

The Honorable the Minister for Lands.

Sir,

Temora Progress Committee, Temora, 17 January, 1889.

I enclose copy of letter sent this day to the Minister for Lands, and I have to request your prompt and cordial assistance on the subject.

I am, &c.,

ABRAHAM COLLESS,

Secretary, Temora Progress Committee.

James Gordon, Esq., M.L.A., Sydney.

Sir,

25 January, 1889.

On behalf of the Temora Progress Committee, I beg to send you the enclosed protest against the sale of the land referred to, and the *Gazette* notice. These lands ought not to be sold, but should be thrown open for conditional purchase under special conditions.

I have, &c.,

JAMES GORDON.

The Under Secretary for Lands.

Special Area 9,020.

Sir,

Albury, 16 March, 1889.

In compliance with your instructions, No. 88-102, of the 28th September, requesting me to report on reserve No. 2,833, parish of Cookardinia, county of Goulburn, I have the honor to state:—

That on the 7th March I inspected the above reserve, and I do not consider that it is required in the public interests; but as a considerable portion of it is swampy and liable to inundation, it is not suitable for a special area.

This reserve is held under annual lease by Mr. E. Herriott, and I would recommend that it be retained, and that the lessee be allowed to continue his occupation of it under the same tenure as at present.

The time occupied in dealing with this case was one quarter day in field and one quarter day office work.

I have &c.,

MAURICE BARLOW.

2 April, 1889.

Proposed revocation of water reserve 2,833, parish of Cookardinia, county of Goulburn.

In view of this report, it is inferred that part of the land is suitable for occupation, and no doubt there are persons who would be glad of the opportunity of conditionally purchasing it. As the land is not required as a reserve, I would recommend that the annual lease be cancelled at the expiration of the present term, and the land be proclaimed a special area at £2 an acre.

Description and tracings for the revocation of reserve 2,833, and the proclamation of the land as a special area enclosed.

WILLIAM ORR,

District Surveyor, Wagga Wagga.

The Under Secretary for Lands.

Special Area 9,081.

Sir,

Albury, 16 March, 1889.

In compliance with your instructions, No. 88-101, of the 19th September, requesting me to report on water reserve No. 919, I have the honor to state that on the 11th February last I inspected the land referred to, and found it to be level and fairly open box and gum forest, red soil, suitable for agriculture.

There is a small water-course running through the reserve, which was quite dry at date of inspection, thus showing that the spring referred to in Mr. Licensed-Surveyor H. Berry's letter, No. 72-28, is not permanent.

There are not any improvements on the reserve.

I do not consider that this reserve is now required in the public interests, and would therefore recommend that it be declared a special area, and thrown open to selection, at an upset price of £1 10s. per acre.

The 5-chain road leading from main Wagga Wagga road past this reserve is seldom used by the public. There are a few timber-waggon tracks on it, but as the stringybark ridges forming the Little Yambula Range have now been alienated, even this traffic will cease.

The time occupied in dealing with this case was one-quarter day field and one-quarter day office work.

I have, &c.,

MAURICE BARLOW.

Proposed revocation of reserve 919, parish of Morven, county of Hume. In view of this report it is recommended that reserve 919, in the parish of Morven, county of Hume, be revoked with a view to the proclamation of the land as a special area at £1 10s. per acre. The necessary description is enclosed for the action indicated.—WILLIAM ORR, District Surveyor, Wagga Wagga, 28/3/89. The Under Secretary for Lands.

Special Area 10,365.

13 November, 1889.

HAVING regard to the provisions of the 44th clause of the Crown Lands Act of 1889, I have the honor to invite attention to the necessity of proclaiming portion 101, parish of Methul, county of Bourke, a special area at an upset price of £1 15s. an acre.

The character of the land is such as to justify the action recommended, and it is respectfully submitted that the notification appear before the 1st December ensuing, so that the Department may receive a fair value for the land.

The necessary description for the action indicated is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Submitted.—R.H.D., 28/11/89. F.H.W. Special.—S.F. Approved.—J.N.B., 21/11/89.

Special Area 10,488.

11 December, 1889.

HAVING reference to portion G4, parish of Brangalga, county of Bourke. The character of the land embraced in this portion is such as to render it of a special value, and I would therefore recommend that it be proclaimed a special area at an upset price of £2 an acre. It may be pointed out that the land is now open to selection, so that it is respectfully submitted that the notification appear without any delay.

This recommendation is made with a view to meet the provisions of the 44th clause of the Crown Lands Act of 1889.

The necessary description for the action indicated is enclosed.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Submitted for approval, the minimum to be 40 acres.—R.H.D., 12/12/89. S.F. Approved.—J.N.B., 12/12/89.

12 February, 1890.

IN accordance with circular 90-5, of 24th ultimo, referring to reproclamation of unalienated parts of special areas, it is recommended that special area No. 10,488, parish of Brangalga, county of Bourke, be reproclaimed under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres. In view of the fact, however, that land is unmeasured, and that the provisions of the 18th clause, require that all lands should be measured prior to being declared special areas, it is requested that authority be granted for the measurement of the same.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands, Sydney.

Submitted that authority be issued for the measurement of the special area, with a view to its being brought under the provisions of the 18th section of the Crown Lands Act of 1889.—R.H.D., 4/3/90. F.H.W. (*pro* Under Secretary), 5/3/90. Approved.—J.N.B., 5/3/90

20 December, 1890.

WITH reference to instructions, No. 90-135 above, for measurement of special area No. 10-488, parish of Brangalga, county of Bourke, I have the honor to report that part of the land had been applied for as a conditional purchase (No. 89-120, Wagga Wagga) on 28th November, 1889, being therefore of prior date to proclamation of the special area.

The special area was embraced in portion 64 of 640 acres, and that portion has now been subdivided, and 480 acres excised for above conditional purchase.

Plan of residue of 160 acres has now been approved, and therefore no further action as to measurement is necessary.

The Under Secretary for Lands.

A. R. GALL
(For District Surveyor).

The balance of the special area referred to has been applied for by D. Hannab, junr., under conditional purchase 91-55.—A. R. GALL (for District Surveyor). The Under Secretary for Lands.

Special Area 10,968.

6 May, 1889.

J. H. Douglas; C.P. 84-27, and C.L. 85-30; portions, 5 and 6; parish of Willimbong; county of Cooper.

In compliance with memorandum over leaf, I have the honor to report that the land comprised in J. H. Douglas' conditional purchase 84-27, and conditional lease 85-30, is worth £3 an acre; but it is not, in my opinion, advisable to proclaim it as a special area at present, in view of the 18th section of the amending Bill now before Parliament. The land, though worth the amount specified in some parts, is not all good, and if proclaimed a special area at the present time, would have the eyes picked out of it, and, as a consequence, the sale of the balance would be prejudicially affected. Furthermore, I would point that the area of 160 acres should be measured to 640 acres, the former being insufficient for one person to make a living off.

The area embraced by the conditional purchase and conditional lease is 2,560 acres, and if subdivided at the present time into 160-acre blocks, measurement will be costly, and quite unnecessary in the event of the amended Bill becoming law. I would therefore recommend that the land be reserved from sale for the present, until the amended Bill has been passed, and that it then be proclaimed a special area at £3 an acre.

The necessary descriptions for the reservation of the area from sale, and subsequently for the revocation of the same, and the notification of the land as a special area are enclosed.

The Chairman, Local Land Board.

WILLIAM ORR,
District Surveyor.

Dealt with in Miscellaneous Charting Branch as regards reservation. It will be seen that the intention ultimately is to proclaim the land a special area under the provisions of the new Act.—R.M. (for J.T.K.), 18/9/89.

Resubmitted. The minimum of the proposed special area should perhaps be 40 acres.—F.H.W., J.K. T.F., 2/1/90. Approved.—J.N.B., 10/1/90.

Special Area 11,348.

Sir,

Moama, 27 August, 1888.

I am requested by a large number of my constituents, who are desirous of selecting land, to request that water reserve 109, notified 25th February, 1874, might be cancelled and thrown open for conditional purchase.

These reserves, although supposed to be beneficial, are of no benefit whatever, as there is no water upon them, and if thrown open to selection would be utilised as farms.

This reserve is situated in the parish of Tocumwal, county of Denison, land district of Curowa.

Your early attention and reply will oblige,
The Under Secretary for Lands.

Yours truly,
J. M. CHANTER, M.P.

Sir,

Albury, 28 November, 1888.

In compliance with your instructions, No. 83-118, of 25th October, requesting me to report on water reserve No. 109, parish of Tocumwal, county of Denison, I have the honor now to transmit herewith a sketch showing design for sub-division of a portion of that reserve, and to state:—

That I do not consider this reserve is now required in the public interests, as sufficient provision has been made for travelling stock in the vicinity, there being a good camping reserve (No. 1,359) adjoining water reserve 109.

As will be seen by sketch, nearly the whole of water reserve 109, and of Crown reserve 1,359, is at present fenced in, and has been for some years, so that the public have not derived any benefit from them.

I would suggest that the portion of reserve included within my design be cancelled, and proclaimed a special area, and thrown open to selection at the following upset prices.

Portion marked	A	B	C	D	E	£	s.	d.	per acre
Portion marked A	4	10	0	per acre
" B	4	0	0	"
" C	3	15	0	"
" D	3	15	0	"
" E	4	10	0	"

The improvements on this reserve with their values are worth—

On portion A	77	10	0	"
" B	57	5	0	"
" C	18	0	0	"
" E	64	0	0	"

On proposed reserve for roadway tank, 400 cubic yards, excavated about 1880; value, £20. Supply tank, 200 cubic yards, excavated about 1880; value, £10. Twenty-four chains, top rail and five-wire fence, erected in 1881; value, £12. Total, £42.

There

There is a natural water-course crossing the main road between portions 75 and 104, on which the lessee of the Barooga Run has formed a small dam, and excavated two small tanks, the latter being fenced off from the road; the tanks are of little value, and as they were excavated, subsequent to the year 1876, I would suggest that the lessee be requested to remove the fencing, and that the portion of reserve lying between the land designed as special areas, and portion No. 104 be retained at a reserve for roadway and access to water; there is frequently water on the road at this point when there is none on camping reserve No. 1,359.

The portion of reserve included within my design for subdivision is nearly all good agricultural land, that part of it lying to the east of north and south fence exceptionally so, the timber having been dead for a number of years, and partly cleared off, and the land being level and not too sandy, this land is similar to that included within portions 10, 11, 12 and 29, which has been converted into an irrigation farm by Mr. McFarland, the lessee of Barooga Run.

The western half of proposed subdivision is more sandy than the eastern, and the timber is green.

The portion of reserve to the south of portions D and E is very sandy, the sand hills being too steep for cultivation; I would, therefore, recommend that this portion of reserve be retained for access to water and camping, and I have designed a roadway 5 chains wide leading to it, and connecting it with camping reserve 1,359; except in wet seasons there is seldom any water on camping reserve 1,359.

I am, &c.,

MAURICE BARLOW.

Wagga Wagga, 18 January, 1889.

In view of the enclosed report, it is recommended that water reserve 109, in the parish of Tocumwal, county of Denison, be revoked after subdivision in the form indicated on enclosed tracing with a view to the proclamation of part thereof as a special area at prices named in fourth paragraph of enclosed report, and the notification of the frontage to the Murray River as a camping reserve; also for the proclamation of a reserve for roadway, and access to water on the main road.

WILLIAM ORR,

District Surveyor.

To the Under Secretary for Lands.

Wagga Wagga.

PLAN approved. Descriptions enclosed for the revocation of reserve 109 for the proclamation of the camping reserve, 670 acres, and the reserve for roadway and access to water, 87 acres; also for the notification of the area measured as a special area at an upset price of £4 per acre, with a maximum area of 160 acres; no special conditions.

The enclosed information form furnishes the particulars required by circular 90-12.

WILLIAM ORR,

District Surveyor.

Dear Sir,

Tocumwal, 15 July, 1890.

Will you kindly see the Minister for Lands, with a view to getting areas of special areas in county Denison, parish Tocumwal, portions No. 27 and 28, being revoked, reserve No. 109 increased.

I want to select along with others, if I can get at least 320 acres, but on application to Corowa Land Office, find I can only get 160 acres.

No one can make a living on 160 acres, so I withdraw my deposit.

The price, viz., £4 per acre, should also be reduced, as it is only fixed at that in the lessee's interest.

Yours, &c.,

JONATHAN G. HOWARD.

Robert Barbour, Esq., Sydney.

Dear Sir,

Sydney, 21 August, 1890.

I enclose a letter from a constituent of mine at Tocumwal. It is on the Murray, opposite to the Goulburn Valley, in Victoria, where the settlers are doing well, because of the advantages they derive from protection. Our people, if they send grain into Victoria, have to pay about 2s. per cental, and are thus heavily handicapped. On these accounts, the land in Victoria is high, and the residents prosperous; but on our side of the border river, the duty prohibits raising grain, and having no railway, they have to be graziers of sheep and cattle.

If they have to pay to the Crown £1 an acre for unimproved land, and if they can only get 160 acres, it is too small an area, hence the complaint.

If these high-priced lands are not taken up, no settlement can take place, and the land will remain in the possession of the squatter at from £2 to £6 per 640 acres, or from $\frac{1}{4}$ d. to $2\frac{1}{4}$ d. per acre, better far to sell at £2, the capital value of which, at 4 per cent., would be about $\frac{1}{4}$ d. to $\frac{1}{2}$ d. per acre, and the area should be at least 320 acres to each selector.

Soliciting your kind consideration,
The Hon. The Minister for Lands.

I am, &c.,

ROBT. BARBOUR.

Ms. 90-14,861; L.B. 90-10,302 herewith.

4 November, 1890.

HAVING regard to special area 11,348, proclaimed 17th May, 1890, in the parish of Tocumwal, county of Denison, I now recommend an increased maximum area, 320 acres, as suggested by Mr. Robert Barbour, M.L.A.

Part

Part of the land embraced in this special area has been applied for under volunteer land order—applications Nos. 3, 4, 5, and 6, by R. and P. McFarland in the form shown by red tint on the accompanying heliograph, marked A, and which have been recommended for measurement in the form shown by red hatching on the same heliograph.

It will be observed that if the Board should approve of the survey of the volunteer land orders, as applied for, the increase of the maximum area will be rendered imperative.

If the subdivision, as suggested by this office, be approved by the Board, full maximum areas may be obtained. With regard to the price, I have met several Victorians who are looking for land, and they informed me the chief obstacle is the small size of the special areas, and not the price. I am of opinion that the land is worth £4 per acre, and if the maximum area—320 acres—as prescribed by law, is obtainable, the ground will be selected.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Submitted. It would, perhaps, be best to defer increasing the maximum of the special area until the Land Board has dealt with the question of survey of the lands taken up in virtue of the volunteer land order applications.—J.O'D., 17/11/90.

Office memorandum.

3 November, 1891.

THE volunteer land orders referred to in previous report, No. 1,187 (Ms. 90-17,086) have now been confirmed by the Board in the forms shown by red hatching on the enclosed lithograph, marked A.

There would, therefore, now appear to be no obstacle to giving effect to previous recommendation as to increasing the maximum area of special area 11,348.

A. R. GALL
(Pro District Surveyor).

The Under Secretary for Lands.

In accordance with the recommendation of the District Surveyor on Ms. 90-17,086, next paper, it is submitted that special area 11,348, county Denison, parish Tocumwal (Central Division) be modified by increasing the maximum area for selection from 160 acres to 320 acres.—J.O'D., 12/11/91. R.H.D., 13/11/91.

Approved as to area.—F.H.W., 16/11/91. Let the price be £3.—H.C., 16/11/91.

Special Area 11,587.

Sir,

Camp, Gundagai, 18 January, 1890.

Pursuant to your general instruction, No. 150, of 28th October, 1889, requesting reports on all leasehold areas within that portion of the Eastern Division under my supervision, I have the honor to inform you that I, on the 9th and 10th instant, inspected the unalienated and unreserved lands within Nangus leasehold area, as shown by red tint accompanying sketches, marked 1 to 4, for convenient reference.

With regard to portion 5 (sketch 1), I find that portion to be a conditional purchase No. 63-120, of 5th February, by Maria Jenkins. There has been a considerable amount of correspondence over this selection, as the applicant was a married woman at the time of selection. The application was, by Ministerial decision, eventually allowed to stand good, and, according to Land Agent's books, the conditional purchase is valid at the present time.

With regard to the portions represented by red tint as Crown lands on sketch 2, measured portion No. 174 of 47 acres 1 rood has, I understand, been exchanged with Mr. John Jenkins, of Nangus, for an equivalent area, as shown by blue-tint on that sketch, though deed of exchange has not yet been issued. The portion was recently offered at public auction by mistake, but did not find a purchaser. Portions 52 to 56 consist of gently undulating greyish and red clay soil, of rather poor quality; and similar soil in the vicinity is stated by experienced farmers to be unprofitable under ordinary farming operations. It is fair to good grazing land, and as the greater part of it has been improved by partial clearing when held under conditional purchase, and the land is conveniently situated with regard to market, I consider £2 15s. per acre a fair upset price, at which figure I would recommend the portions be proclaimed as special areas marked A, B, and C on sketch. There is no permanent water on the land.

The land represented as Crown lands on sketch No. 3 has no special value being all rough rocky hills from inferior to fair grazing land. Measured portion No. 240 (sketch No. 3), represented as Crown lands by the Wagga Wagga office, is stated by Mr. Jenkins to be an additional conditional purchase taken by himself in virtue of George Sheather's conditional purchases, which Jenkins had previously acquired. On reference to Land Agent's books I could not identify this block; but there was an additional conditional purchase by John Jenkins, of 112 acres, which I could not identify on the parish map. Perhaps portion No. 240, of 98½ acres, is in satisfaction of this application. Papers Conditional Sales, 85-33,023, may throw some light on the matter.

The Crown lands indicated by red tint on sketch No. 4 have no special value, and comprise rough rocky ranges, from inferior to fair grazing land.

I have, &c.,

A. E. MACKAY,
Surveyor.

Sir,

Nangus, Gundagai, 17 June, 1890.

As lessee of the Nangus Run, 502, county Clarendon, I earnestly crave your attention to a grievous hardship that I shall be subjected to should portions Nos. 52, 53, 54, 55, 56, parish Nangus, containing in all 561 acres, become open for selection on the termination of the lease.

The facts of the case are as follows:—For many years past my drafting yards for 50,000 sheep have stood on these portions. Mr. Surveyor Conroy valued the improvements at £2 16s. 6d. per acre. The portions alluded to adjoin the block on which I have one wool-shed. The land, as a whole, is useless to the ordinary selector, nor is it suited for agriculture, consequently there will be no *bona-fide* selection of the lands on expiration of my lease.

I have hitherto, and will this season shear about 50,000 sheep, but will not have any place to conduct the operation should the land be alienated, and I must lose the season's wool clip. I would respectfully urge that the land may be put to auction or granted to me by private sale, with the value of the improvements added, for which I am willing to pay, notwithstanding that they have already been paid for by me. I will venture to point out that should you permit either of these courses to be adopted you would not only be granting justice but would be obtaining for the public revenue a reasonable and proper value for the land, and would otherwise be debarring what must otherwise ensue—blackmailing.

I enclose a sketch showing the relative position of the land; you will observe they are joining my wool-shed, not a distance of 2 chains.

Yours, &c.,
JOHN JENKINS.

To the Hon. The Minister for Lands.

Sir,

Parliament House, Sydney, 18 June, 1890.

Herewith you will please receive a letter and sketch from Mr. John Jenkins, of Nangus, the letter protesting against the alienation of certain portions of Crown lands on this leasehold of Nangus Kun, and a sketch showing portions of same.

By his letter you will see his reasons for protesting against the sale of these lands by selections, and likewise the proposals he makes to purchasing same, hoping you will give the matter your kind consideration. With kind regards, in haste.

Yours, &c.,
JNO. F. BARNES.

The Hon. The Minister for Lands.

Memorandum.

Wagga Wagga, 16 July, 1890.

REFERRING to the enclosed application from the lessee of Nangus Holding, requesting that portions Nos. 52 to 56 be submitted to auction, I have to report that on the 7th February last I recommended the portions for proclamation as special areas at £2 15s. per acre, and it was announced in the *Government Gazette* of the 18th ult. that the land would thus be open as special areas on the 7th August, 1890.

It will be seen from the enclosed sketch that the lessee has free access to his wool-shed, having alienated land on the east and west of the portion on which the wool-shed stands.

I would also point out that during the last few days I have been given to understand that there will be a great number of applications lodged for the land in question by intending selectors.

In view of these facts, therefore, I cannot recommend that the request of the lessee be acceded to.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands, Sydney.

In view of the District Surveyor's report, it is submitted that the request of Mr. Jenkins to have portions 52 to 56 submitted to auction be not complied with.—J.O.D., 17/7/90. Application for refusal in view of this report.—R.H.D., 25/7/90. F.H.W. (for U.S.), 26/7/90. Refusal approved.—J.N.B., 28/7/90.

Sir,

Sydney, 31 July, 1890.

Referring to interview this morning between yourself, Mr. John Jenkins, and myself, concerning certain portion of land situated at Nangus, near Gundagai, I find that portions Nos. 52, 53, 54, 55, and 56 were gazetted special areas on 18th June, 1890, at upset of £2 15s. per acre, and are open for selection on 7th August (next Thursday).

As there is very little time to spare in the matter, I should esteem it a great favour if you would give the matter your kind consideration without delay, and as Mr. Jenkins says if you could delay the alienation of the blocks mentioned for a time, which would enable him to get his shearing done, it would be of great service to him, as should he lose the land he will have no yards to proceed with that which he commences next month, and to do which will take him some considerable time to erect new yards. Hoping you will give Mr. Jenkins any chance which may lay in your power, with kind regards, in haste,

Yours, &c.,
JNO. F. BARNES.

The Under Secretary for Lands.

These portions being within a leasehold area, expiring 5th August, will be gazetted on Wednesday next, 6th August, at £2 15s. per acre.—W.H.H. (for J.O.D.). Are there any grounds whatever for acceding to Mr. Barnes' request?—W.H., 4/8/90. [Urgent.]

These papers disclose none. I have also seen the papers relating to portions 52, 53 and 54 (forfeited conditional purchases), and nothing is said in those papers as to the yards being erected on the land in question. The papers relating to the remaining portions (55 and 56) are apparently 90-11,292 Msc., submitted 31/7/90. The land will be open to selection on the 7th instant, and is to be proclaimed a special area at £2 15s. per acre.—J.O.D., 4/8/90.

R.H.D., 5/8/90. The Under Secretary. I am afraid that there are not sufficient grounds to justify the withdrawal.—W.H., 5/8/90. Approved.—J.N.B., 5/8/90.

Special Area 11,611—Reserve 2,958.

Sir,

Cootamundra Land District, Camp, Temora, 13 February, 1890.

I have the honor to transmit herewith the plan of your portions of land, containing 1,073 acres 3 roods, and reserve for road extension, 4½ acres, numbered respectively 58 to 61 inclusive, and reserve situated in the Grogan Run, Gundibindyal Gold-field, north extension, proclaimed 14th March, 1881, situated in the parish of Carumbie, county of Bland, surveyed by me on the 1st February, 1890, in accordance with your B.C. instructions, No. 93, dated 31st October, 1889.

There are no improvements on these portions. The fence along the south boundary of 61 (incomplete) was erected by A. J. J. Elliott.

No natural boundaries.

I have, &c.,
V. F. TOZER,
Licensed Surveyor.
Descriptions

Descriptions enclosed for the revocation of water reserve 2,958, for the proclamation of the special area and a reserve for water supply. I recommend an upset price of £2 an acre in connection with this land, and a maximum area of 320 acres under the proclamation, the action to be carried out on the determination of the leasehold area of the Molong Holding on 10th July next. The enclosed information form and tabulated statement furnish the information required by circular 90-12.—WILLIAM ORR, District Surveyor, Wagga Wagga, 13/3/90. The Under Secretary for Lands.

Number of portions, 58, 59, 60 and 61; about 3½ miles from Young and Cootamundra; water supply, none permanent, good catchment in water-course; timber and physical character of land, open box forest, with pine and oak scrub (not dense); soil, sandy clay, loam, fair agricultural land. I would recommend that an upset price of £1 10s. be placed on these lands.—V. F. TOZER, Licensed Surveyor, 13/2/90.

Special Area 12,138.

Conditional Sale 90-924 Cor., Land Board District 90-1,779.

Wagga Wagga, 6 March, 1890.

HAVING reference to B.C. on enclosed papers requesting me to state whether the land comprised in portions 27 and 28, parish of Bungambil, county of Bourke, possesses any special value, I have the honor to report that in my opinion the land is worth 32s. 6d. an acre, and should be proclaimed a special area at that upset price, the maximum area of the proclamation to be 640 acres. See telegram enclosed. Description enclosed for the action indicated.

WILLIAM ORR,
District Surveyor.

To the Under Secretary for Lands.

W.H.H., No. 296. S.A., No. 12,272. Within a reserved leasehold area.—E.D.

[Very urgent.]

District Survey Office, Wagga Wagga, 12 July, 1890.

Mis., Lands,
14 July, 1890;
10451.
No. 763.

It is recommended that the defined area specified in the margin and situate in the county of Buccleugh, parish of Adjungbilly, be proclaimed a special area at an upset price of 35s. per acre, under the provisions of the 18th clause of the Crown Lands Act of 1889.

The maximum and minimum area to be 40 acres.

WILLIAM ORR,
District Surveyor.

Leasehold expires 31st instant. Submitted.—J.O.D., 14/7/90. R.H.D. (for U.S.), special.
Approved.—J.N.B., 14/7/90.

Special Area 12,325.

Sir,

Albury, 19 October, 1889.

In compliance with your instructions, No. 89-87, of the 19th August requesting me to report on reserve No. 1,925, parish of Buckaringah, county of Hume, within the leasehold area of Buckaringah Pastoral Holding, I have the honor now to transmit herewith a sketch showing the position of that reserve and to state:—

That on the 11th instant I inspected reserve 1,925 and I do not consider that it is any longer required in the public interests, and would therefore suggest that it be put up for sale by auction in one block, leaving a road along south and east boundaries, at an upset price of £2 per acre.

The country embraced by this reserve is open box and gum forest, the soil being light and not suitable for cultivation, but there are several good springs within the area, which, although not permanent, are very useful to the owners of the adjoining land, and therefore add to the value of the reserve.

The country is not improved.

There are no tracks passing through this reserve, although there is a 3-chain road leading from its south-east corner.

If it is considered advisable to retain a portion of the reserve to protect the springs, an area of 36 acres might be kept at eastern end bounded on the west by a line 12 chains distant from the eastern boundary of reserve and parallel to it.

The time occupied by me in dealing with this case was a quarter day in field and a quarter day office work.

I have, &c.,
MAURICE BARLOW.

Proposed revocation of reserve 1,925, parish of Buckaringah, county of Hume.

Wagga Wagga, 12 November, 1889.

In view of the report which goes to show that no necessity exists for the retention of reserve 1,925 in the parish of Buckaringah, county of Hume, I recommend its revocation after measurement in one portion with a view to the proclamation of the land as a special area at £2 an acre.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

Sir,

Albury, 30 April, 1890.

I have the honor to transmit herewith the plan of two portions of land containing 72¼ acres, and 40 acres numbered 26 and 27 respectively in the parish of Buckaringah in the county of Hume, measured by me on the 26th April, 1890, in accordance with instructions No. 101, dated 29th November, 1889, and No. 42, dated 21st April, 1890.

I had carried out the field work in accordance with the former instructions, but on receipt of the latter, I returned to the ground and cut off an area of 40 acres to protect the springs.

I have to report that at the time of survey, improvements upon portion 26 consisted of 29 chains of posts and six-wire fencing worth £11 10s. I was unable to learn when, and by whom this fence was erected. Portion 27 was unimproved. There are good permanent springs on portion 27, but there is no permanent water upon portion 26. These portions embrace good undulating, open box and gum forest land, which is well adapted for agricultural purposes.

The roads leading to this land are not in use, but they are practicable, and Doode-Cooma Railway Platform is situated only about 5 miles distant. I am of opinion that the land is worth £3 per acre.

I am, &c.,

IRWIN SMITH,

Licensed Surveyor.

Reserve No. 1,925, parish of Buckaringah, county of Hume, has been subdivided in accordance with Ministerial approval on Misc. 89-16,681. The eastern part of the reserve (portion 27), contains a valuable spring, and should therefore be retained. Description enclosed for the revocation of the part reserve No. 1,925, affected also for the proclamation of portion 26 as a special area at an upset price of £3, with a maximum area of 80 acres, and minimum of $72\frac{1}{4}$ acres.—WILLIAM ORR, District Surveyor, Wagga Wagga, 11/6/90.

Special Area 12,335.

District Surveyor's Office, Wagga Wagga, 19 August, 1889.

MR. SURVEYOR BARLOW is requested at his early convenience to inspect and report upon the necessity of retaining reserve No. 1,381 within the leasehold area of Gerogery Pastoral Holding in the parish of Castlestead, county of Hume in the public interest.

Should cancellation be recommended a suitable design for subdivision should be furnished, and the report should clearly indicate the character, value, date of erection, and ownership of any improvements existing on the land.

The estimated value of the land, and the cost of report, and inspection should also be stated.

Tracing forwarded herewith.

WILLIAM ORR,

District Surveyor.

W.H.H.

Sir,

Albury, 3 October, 1889.

In compliance with your instructions, No. 89-91, of 19th August, requesting me to inspect reserve No. 1,381, parish of Castlestead, county of Hume, within the leasehold area of Gerogery pastoral holding, I have the honor now to transmit herewith a sketch showing proposed design for subdivision of that reserve, and to report,—

That on the 28th September last I inspected the above reserve, which was originally made to protect some good building stone.

There is no stone of any value on the eastern end of this reserve, but on the western end there is some good red sandstone suitable for building purposes, and, as the country is flat, access to it is easy. Some of this stone has been carted about 7 miles to build a Lutheran Church at Walla Walla, and stone has also been taken from here for coping for culverts on the main roads in the vicinity.

This stone outcrops in two places on the reserve, as shown on sketch, and as it appears to be fair building stone I would recommend that about 90 acres be still retained for quarry at the western end of the reserve, and that 130 acres to the east be cancelled and thrown open to selection as a special area at an upset price of £4 per acre.

The country embraced by the reserve is slightly undulating, fairly open box country, well grassed, red soil, suitable for agriculture and timber, all ringbarked.

The ringbarking was effected by the lessees of the run (Messrs. Watson) at a cost of 1s. per acre; value, £11 1s.; date of ringbarking, 1874.

The track shown on sketch leads from Gerogery railway station to Walla Walla, but it need be reserved through the proposed special area of 130 acres, as a good road can be obtained along the south boundary of that area, and thence in any direction through the portion of the reserve proposed to be retained.

The time occupied by me in dealing with this case was half a day in the field (on 28th September), and half a day, office work.

I have, &c.,

MAURICE BARLOW.

District Survey Office memo., 89-91, and sketch herewith, re reserve 1,381, parish Castlestead, county of Hume.

Wagga Wagga, 21 October, 1889.

In view of this report which goes to show that the retention of portion of reserve 1,381 is no longer necessary in the public interest, I recommend that about 130 acres, the eastern part, be revoked after subdivision, with a view to its proclamation as a special area at £4 an acre, the first action to be taken after the determination of the leasehold area.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Submitted for approval.—R.H.D., 25/10/89. S.F. Approved.—J.N.B., 30/10/89.

Wagga Wagga, 27 June, 1890.

THE subdivision of part of reserve No. 1,381, in the parish of Castlestead, county of Hume, has been carried out in accordance with Ministerial decision on Ms. 89-15,274 herewith.

Descriptions are enclosed for the revocation of the part of the reserve affected and for proclamation of the portion as a special area, at an upset price of £4 per acre, with a maximum area of 160 acres and minimum of 40 acres.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

8 September, 1890.

IT has been represented by Mr. Hayes, M.P., that special area 238, of 130 acres, parish of Castlestead, county of Hume, is practically only available to the lessees, in consequence of the interposition of the adjoining quarry reserve. Can the District Surveyor suggest a modification?

J. Hayes, Esq., M.L.A.

J.N.B.

10 October, 1890.

YOUR valuable letter is to hand *re* reserve 1,381. I see you have taken a lot of trouble over it, and if you are not successful, it will be taken up by Watsons on the 23rd instant, as no farmer about here cares to pay £4 per acre. I have four boys growing up, and I wished very much to get some land for one of them; the eldest is 15 years of age, and too young yet to select. The stone will not be wanted for ballast, as they can get nearer and better stone, and as for my part they can have them all, as there is plenty about.

Yours, &c.

J. CROSSE.

My heartfelt thanks for your trouble in the above cause to get a piece of land for a selection to you.—J.C.

Sir,

Sydney, 1 October, 1890.

I have to acknowledge receipt of your letter of 30th ultimo, stating, as the District Surveyor reports, reserve 1,381 contains valuable stone, which will probably be required in connection with the Culcairn-Corowa railway, the Minister does not see any modification can be made.

In reply I desire to say that the stone is a soft kind of sandstone, useless for either road or railway ballast, and is not likely to be used for any purpose connected with the railway. It may be used for private building purposes, but I only knew it to be used once for many years past.

As it cannot be required for public purposes, I suggest that it be revoked, or, if it is thought desirable to wait until the Culcairn railway is finished, then the whole reserve should be retained. If the portion now advertised as special area be left open, it will be taken by the large land owner who surrounds it, and the selectors at the western end will not be able to increase their present small holdings.

I have, &c.,

J. HAYES.

Special Area 12,477.

Wagga Wagga, 20 February, 1890.

IN reply to your request contained in Land Board District 90-453, referring to revocation of reserves from sale and lease, to protect Crown lands, &c., it is recommended that, on the determination of the leasehold area of Ten-mile Creek Holding, No. 320, reserve No. 3,574, parish of Mountain Creek, county of Goulburn, be revoked and proclaimed a special area at £3 per acre, with a minimum area of 40 acres.

The necessary descriptions for the action indicated are enclosed.

WILLIAM ORR,
District Surveyor.

Special Area 12,499.

Sir,

Camp, Bland, 20 May, 1890.

I have the honor to transmit herewith the plan of three portions of land, containing 720 acres 1 rood, numbered 61, 62, and 63, in the parish of Boginderra, county of Bland, situated in the Little Narraburra River, being a subdivision of part of reserve, surveyed by me on the 15th April, 1890, in accordance with your B.C. instructions No. 25, dated 5th March, 1890.

There are no improvements on these lands.

The access to these lands is from travelling-stock reserve 1,470, along the main road from Narraburra to Morangarell, also along the track from Narraburra to Thuranghy.

Schedule herewith.

I am, &c.,

V. F. TOZER,
Licensed Surveyor.

Special Area 13,154.

SUBDIVISION of part of water reserve No. 2,052 notified 16th August, 1880, in the parish of Boginderra, county of Bland, has been carried out in view of Ministerial approval on Misc. 89-1,200 herewith.

It is recommended that the portions be proclaimed a special area, at an upset price of 40s. per acre, the area allowed to each applicant not to exceed one portion, as measured with a minimum of 40 acres.

Descriptions are enclosed for the revocation of reserve No. 2,052, and for the proclamation of the proposed special area.

WILLIAM ORR,
District Surveyor.

Special

Special Areas 12,690 and 12,691.

5 February, 1890.

In accordance with circular 90-5, of 24th ultimo, referring to reclamation of unalienated parts of special areas, it is recommended that, as a reasonable time has elapsed since the proclamation of special area No. 7,181, parish of Hastings, county of Urana, and the area remaining unselected, that the land be re-proclaimed as a special area under clause 18 of the Crown Lands Act of 1889, allowing a maximum area of 320 acres.

With this end in view a description for reclamation is enclosed.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

W.H.H., No. 126.

As the land contains only 139½ acres, will the District Surveyor please say whether there are any special reasons for making this recommendation.—W.H. (*per* J.S.D.), Lands, B.C., 2/4/90. The District Surveyor, Wagga Wagga.

Re special area 7,181, portion 63, parish Hastings, county Urana.

Wagga Wagga, 8 April, 1890.

The portion in question adjoins Crown lands at present reserved as reserve 931 north extension, which has been approved for revocation after subdivision, with a view to the proclamation of the land as a special area, with a maximum area of 320 acres. The object of the present recommendation is to admit of the alienation of the land in conjunction therewith.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

No. 405.

Wagga Wagga.

In accordance with Ministerial approval on Misc. 89-17,773, enclosed water reserves Nos. 931 and 931 northern extension, in the parish of Hastings, county of Urgna, have been subdivided with a view to the proclamation of portions Nos. 45, 46, and 47 as special area, at an upset price of 60s., and portions 48 and 49 at an upset price of 50s., with a maximum of 640 acres and minimum of 40 acres.

Descriptions are enclosed for the revocation of the reserves and proclamation of the special areas proposed.

WILLIAM ORR,
District Surveyor.

A.G., 7/7/90. The District Surveyor's recommendation on first page is submitted for approval.—J.O'D., 15/7/90. R.H.D. (for the Under Secretary.) Approved.—J.N.B., 17/7/90.

Special Area 12,699.

Sir,

Albury, 6 August, 1890.

In compliance with your instructions, No. 89-36, of 10th May, requesting me to report upon reserve No. 769, parish of Jerilderie north, county of Urana, I have the honor to transmit herewith a sketch, showing the position of that reserve, and to state:—

That at the date of inspection (10th June), the weather was so wet that it was impossible to thoroughly inspect the above reserve, I rode on to portions, Nos. 137 and 138, the greater part of the former being at that time covered with water, and I found that I could not ride over the remainder of the reserve, as it was apparently all swamp.

There is a sand ridge on portion 138 along the west and north boundaries, and the remainder of the portion is fair sandy red soil, suitable for cultivation.

I believe that the northern end of the reserve includes some fair country, and on account of the proximity of the reserve to the town of Jerilderie, I would recommend that it be cancelled, and declared a special area, and thrown open to selection in portions as measured, at the following upset prices:—Portion 138, £2 10s. an acre; portion 137, at £2 an acre; and the remainder at £1 15s. per acre.

The back part of the reserve is level open country, and is fair grazing land.

The reserve is within from 4½ to 6½ miles of the town of Jerilderie, by fair level roads.

There is a little stunted box timber on portion 138, but the remainder of the reserve is open plain country.

There are no creeks running through the land, but it is low lying and swampy; and therefore good sites for tanks can be obtained.

I am not in a position to report upon the extent or nature of the improvements on the land for the reasons stated above, but would suggest that the Licensed Surveyor of the district might be asked to report on the matter, I do not consider this reserve is required in the public interests.

The time occupied by me in dealing with this case was a quarter of a day in the field on the 10th June, and a quarter of a day office work.

I am, &c.,

MAURICE BARLOW.

In view of this report, which indicates that the retention of reserve No. 769, in the parish of Jerilderie, county of Urana, is no longer required in the public interest, I beg to recommend its revocation with a view to proclamation of portion 138, as special area, at £2 10s. per acre, and the remainder at £2 per acre, with maximum area of 320 acres. I know the land well, and the two portions 137 and 138 are the only two not inundated in a wet season like the present. Though the remaining portions are low and swampy, they might be irrigated very easily, and as the ground is fair, and the herbage very fattening, they should not be sold for less than £2 per acre. If this land is not conditionally purchased, I think it should not be offered at auction, as by doing so it would certainly go to increase the vast estate adjoining. Necessary descriptions herewith.—WILLIAM ORR, District Surveyor, Wagga, 20/8/90. The Under Secretary for Lands.

Sir,

Council Chambers, Jerilderie, 24 November, 1890.

I have the honor, by direction of my Council, to bring before you the matter of the proclamation of some 2,000 acres, to be opened for selection as a special area in the parish of North Jerilderie, gazetted 25th ultimo, at the upset price of £2 per acre, which the Council considers excessive, as 1,000 acres of much better land, immediately adjoining, and held as a conditional purchase for sixteen years, was sold two months ago at £2 per acre, besides a great portion of said special area consists principally of swamps.

The Council, therefore, respectfully requests you will be pleased to reduce the upset price to £1 per acre, and enlarge the area for selection to 640 acres.

The Minister for Lands.

I have, &c.,

J. D. RANKIN,

Council Clerk.

Re special area, North Jerilderie, gazetted 25th October, 1890.

Sir,

Sydney, 25 November, 1890.

The Town Council of Jerilderie have had under their notice the gazetting of the special area above mentioned.

They inform me that they have written to you pointing out that the upset price is too high, and the area too small, and they suggest that the price be reduced, and the area increased to 640 acres, and they ask me to place before you the facts that bear upon the case.

In the first place this land is only grazing land. It is part of a great plain of dry loamy soil, growing grass and herbage that will carry about one sheep to 1½ acres. No trees and no stones, not even of the size of a boy's marble. When the land is ploughed, as soon as rain falls it melts like so much salt or sugar, and the soil lies too close to grow cereals.

The Town Council would like these lands when thrown open to be so in such a manner as to attract fresh population, so as to attract additional settlers and bring trade to the town, but their experience is that high prices and small areas prevent strangers entering upon engagements that cannot be made to pay, consequently there is no outside competition, so when such lands are sold they fall into the hands of selectors, should such happen to be alongside, or into the hands of the squatter as conditional purchases, because they can afford to pay the extra prices with a view of getting their properties consolidated, and small areas are no objection to such, because no residence is required of them.

The Minister for Lands.

ROBT. BARBOUR.

Special Area 13,002.

Sir,

Cootamundra, 15 July, 1890.

We have the honor to transmit herewith a plan of six portions, numbered 25 and 35 to 39, in the parish of Gidgingidginbung, county Bland, being part of the subdivision of about 9,000 acres, in the Temora Holding, measured and completed by us on the 22nd April, 1890, in accordance with instructions No. 1 of the 20th March, 1890.

The soil, which is of a red clayey character, is well suited for agriculture, and when cultivated would yield 20 bushels of wheat to the acre. It is poorly grassed, and would not carry more than one sheep to 7 acres.

The land, which is timbered chiefly with box, is covered with dense undergrowth.

The ringbarking, as defined on the accompanying plan, was done twenty years ago, and is worth 1s. per acre. We value the chock and log fences on portions 35, 37, and 38, at £20 per mile.

All improvements were carried out by the lessees of the Temora Holding.

These portions are about 13 miles distant from the town of Temora in a north-westerly direction, and we consider the value of the lands, exclusive of improvements, to be £1 15s. per acre.

The District Surveyor, Wagga Wagga.

We have, &c.,

MURRAY AND STARLING,

Licensed Surveyors.

Subdivision, late Temora, leasehold, parish Gidgingidginbung, county of Bland. Plan approved. subdivision of part of the late Temora leasehold area has been carried out in accordance with design. Approved by the Secretary for Lands on papers Mis. 90-1,364. Forwarded to head office with L.B. 90-5,431, in connection with Murray and Starling's survey of another part of the holding. Since this subdivision was authorised the greater part of the land measured has been included in railway reserve 11,233, notified 2nd April, 1890, in connection with Barmedman to Temora railway line, and which it is not advisable to interfere with at present. Portion 37 is, however, only slightly affected by the reserve, and might therefore be proclaimed special area at an upset price of £2 5s. maximum, 320 acres, being identical with block C of approved design, before mentioned. Of the remaining portions, portions 25, 39, and 36 are wholly within the railway reserve, and portions 35 and 38 to such a large extent as to preclude their being withdrawn therefrom for the present. Description enclosed for the proclamation of portion 37 as special area, and for withdrawal of that portion from railway reserve, and reserve 11,970, notified 25th June, 1890.—WILLIAM ORR, District Surveyor, Wagga Wagga, 3/10/90. The Under Secretary for Lands.

Special Areas 13,003 and 13,004.

Sir,

Cootamundra, 16 July, 1890.

We have the honor to transmit herewith a plan of seven portions, numbered 55 to 61, in the parish of Narraburra, county of Bland, being part of the subdivision of about 19,000 acres, in the Temora Holding, measured and completed by us on the 26th May, 1890, in accordance with instructions No. 1 of the 20th March, 1890.

The land is timbered with box, and about half of the total area is covered with pine and oak scrub. It is poorly grassed, and will carry one sheep to 10 acres.

The country contained in these portions is flat, but has good catchments.

The soil, which is light and sandy, is poor agricultural land, and would yield 15 bushels of wheat to the acre.

The

The ringbarking was done twenty years ago, and is valued at 9d. per acre.

The chock and log fence, and the stud and brush fence at £20 per mile, and the dam on portion 57 at £50. These improvements were carried out by the lessces of the Temora Holding.

These portions lie in a northerly direction from the town of Temora, and are distant from 8 to 11 miles.

We consider the present value of the ground, exclusive of improvements, to be £1 10s. per acre.

We have, &c.,

MURRAY AND STARLING,
Licensed Surveyors.

The District Surveyor, Wagga Wagga.

Subdivision of part of late leasehold area, Temora Holding, county of Bland. Plan approved of part of the subdivision of the late Temora leasehold area, authorised under Ministerial decision on Miscellaneous 90-1,364, which was forwarded to headquarters with Land Board 90-5,431, being the papers in connection with the plan of another part of the subdivision (90-11,091, Miscellaneous, otherwise being dealt with). The portions of the present subdivision are numbers 55 to 61, in the parish of Narraburra, county of Bland, and are identical with blocks C1, D1, J1, K1, P1, Q1, and R of approved design. Under the decision above referred to it was approved that portions 55 to 59 should be proclaimed special area of £2 an acre, and portions 60 and 61, special area at £1 15s. an acre; maximum, 320 acres; minimum, 40 acres. Descriptions for that purpose are enclosed, also for revocation of part of reserve 11,966, notified 25th June, 1890, pending survey.—WILLIAM ORR, District Surveyor, Wagga Wagga, 24/9/90. No. 1,049. The Under Secretary.

Special Area 13,038.

Sir,

Cootamundra, 17 July, 1890.

We have the honor to transmit herewith a plan of portions Nos. 43 to 46 inclusive, in the parish of Temora, county of Bland, being part of the subdivision of about 19,000 acres in the Temora Holding, measured and completed by us on the 27th June, 1890, in accordance with instructions No. 1, dated 20th March, 1890.

The country is timbered with box, and a great portion is covered with dense pine scrub.

The soil, being of a rich sandy loam, is first-class wheat-growing country, and capable of yielding 30 bushels to the acre.

The land is well grassed, and would carry one sheep to 4 acres. It is also well watered, having frontages to the Narraburra and Walladilly Creeks.

These portions are situated about 12 miles in a north-easterly direction from the town of Temora, and we consider their present value to be £2 per acre.

We have, &c.,

MURRAY AND STARLING,
Licensed Surveyors.

Subdivision of part of the late leasehold area of Temora holding has been carried out under Ministerial decision on Miscellaneous 90-1,364, which will be found with Land Board 90-5,431, being the papers in connection with another part of the subdivision and forwarded to head office. The portions of the present subdivision are numbered 43 to 46 inclusive, parish of Temora, county of Bland, and are identical with blocks D2, E2, F2, G2, of approved design. It was decided that these portions should be proclaimed a special area at £2 10s. per acre, with maximum of 320 acres. Description for the above special areas are enclosed, also for revocation of water reserve No. 1,018 and reserve 11,964, notified, pending subdivision. The whole of the subdivision of Temora Holding authorised under papers 90-1,364, Miscellaneous, above referred to has now been completed, and the plans and papers forwarded to head office. The design, which was detached from Miscellaneous, 90-1,364, and retained here until action had been completed on the whole area, is now returned herewith.—WILLIAM ORR, District Surveyor, Wagga Wagga, 20/10/90. A.G., 18/10/90. The Under Secretary for Lands.

Dear Sir,

Broken Creek, Benalla, 5 August, 1891.

Yours of the 29th to hand, and I am sorry to hear that there is no land, only special area, for that means none at all, to me your Government must be all land boomers, for to expect such prices for new country as they put on their special area, for my part and others that I know of here wanting selections, would sooner have a place in one of Her Majesty's hotels, than be numbered amongst Brunker's slaves; to my mind, no one can make a living on from 160 to 320 acres in that part of the world, with the prices that are put on it, and the jew's part added, it must be the intentions of the powers that be, to keep plenty of slaves for the monopolists that are already created over there, until the Act is fairly administered, I shall never think of selecting over there.

Yours, &c.,

EDWARD QUINN,
Broken Creek, Benalla.

Dear Sir,

Temora, 26 August, 1891.

I write to draw your attention that some of the special areas proclaimed in the Cootamundra Land District are dear at £1 per acre, amongst them are the following numbers, partly under water in the winter—portions 6, 8, 9, 36, 42, 43, 44, 45, 46, 48, 37, 38, 39, parish Temora, and the most of the land in the parish Carumby, in the county Bland, is low-lying land, not fit for agriculture, and it will never pay to take special areas for grazing only. Please let me know by return if you cannot cause the above to be thrown open for ordinary selection, as there are some South Australian farmers waiting for the result,

result, as they will not take special areas. I have received numerous letters from Victorians and South Australians, inquiring for ordinary land, as they will not take special areas. I enclose one of them, so that you can see what they think of the special areas. Please let me know the result in any case, as soon as possible, as there are some waiting for it. Oblige.

Yours, &c.,
W. FISHER,
Land Agent, Temora Post Office.

Mr. J. N. Brunker.

26 September, 1891.

IN accordance with your instructions of the 21st instant, directing me to report whether, in my opinion, the price 50s. of special area 13,038 might be reduced. I have the honor to state:—

1. That the surveyor who measured the land gave it an excellent character—"as first-class wheat-growing soil, capable of producing 30 bushels to the acre."

2. That, as shown by tracing enclosed, each portion has frontage to main creeks.

3. That this special area is only 6 miles from the projected railway line from Cootamundra to Temora.

4. That, as more than one fourth of the area has been conditionally purchased at 50s., and the balance of the ground is quite as good, and somewhat nearer the projected railway line than the portion selected, it would not be expedient in my opinion to reduce the price.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

A.G., 25/9/91. No. 91-786.

Special Areas 13,050, 13,051, and 13,052.

Sir,

Cootamundra, 18 July, 1890.

We have the honor to transmit herewith a plan of five portions numbered 11 and 47 to 50, in the parish of Temora, and two portions numbered 108 and 110, parish of Thanowring, county of Bland, being part of the subdivision of about 19,000 acres, in the Temora Holding, measured and completed by us on the 9th July, 1890, in accordance with instructions No. 1 of the 20th March, 1890.

These portions are timbered with box, and in places with gum and pine; there is, however, some ironbark in portions 108, 110, and 50.

The land is poorly grassed throughout, and would not carry more than one sheep to 7 acres; it would yield about 20 bushels of wheat to the acre.

The ringbarking, which we value at 1s. per acre, was done twenty years ago by the lessees of the Temora Holding, by whom the fences on portions 47, 48, and 50 were erected. The 6-wire fence on the boundaries of portion 23 was erected by George Elliott; it is worth £40 per mile.

These portions lie in a northerly direction from the town of Temora, and are about 7 miles distant from that place.

We consider the present value of the land to be £1 15s. per acre.

We have, &c.,

MURRAY AND STARLING,
Licensed Surveyors.

District Surveyor, Wagga Wagga.

Plan approved of part of the subdivision of the late Temora Leasehold Area, authorised under ministerial decision on Misc. 90-1,364, which was forwarded to head-quarters with L.B. 90-5,431, being the papers in connection with the plan of another part of the subdivision. The portions of the present subdivision are numbered 11 and 47 to 50, parish of Temora, and 108 and 110, parish Thanowring, county of Bland, and are identical with S¹ to V¹, X, Z, and A² of approved design. In decision above referred to it was decided that portions 11 and 50 should be proclaimed special areas at 40s. an acre, and portions 47, 48, 49, 1,089, 110 special area at 35s. an acre, with maximum 320 acres, minimum 40 acres. Since subdivision was approved, however, part of the land embraced in portion 110 has been included in reserve 11,233 for railway purposes, and that portion should therefore be retained for the present. Description for proclamation of special areas and for cancellation of part of reserve 11,963 notified pending survey are enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga. A.G., 23/9/90.

Special Area 13,063.

Sir,

Albury, 5 March, 1890.

IN compliance with your instructions, No. 89-85, of the 19th August, requesting me to report upon the necessity of retaining reserve No. 604, on the leasehold area of Billabong Forest Holding, parish of Jerra Jerra, county of Goulburn, I have the honor to transmit herewith a design for subdivision, and to state:—

That on the 27th February I inspected the above reserve and reserves Nos. 533 and 650 adjoining, and, with the exception of about 125 acres at the north end of reserve No. 604, which should be retained for camping, I do not consider they are now required in the public interests, and they might therefore be cancelled and thrown open to selection as special areas, in portions as designed, *i.e.*, in one portion of 160 acres on the west of the Back Creek, including part of reserves Nos. 604 and 533, and one portion of 160 acres on the east side of the creek, including reserve No. 650 and part of reserves Nos. 604 and 533.

The 5-chain road north of portions Nos. 77 and 78 is not required; I have therefore included in the portions designed, leaving a 1-chain road, which will be sufficient for any probable traffic.

The road from Jerra Jerra to Germanton crosses this land, and should be reserved in measurement; and the northern part of reserve No. 604 is frequently used as a camping place by teamsters, as, even when the creek is dry, they can water their horses or bullocks at a well on the small reserve, at the south-east corner of portion No. 17.

I value the land included in the above reserves at £3 10s. an acre; it is 12 miles distant from the town of Germanton by a well-beaten level road, partly formed, and is distant about 17 miles by a formed road from the Culcairn Railway Station.

The formation is volcanic, the soil being good red clay, suitable for agriculture; the land is almost level, and timbered with open box and apple.

The Back Creek is not permanent, but holds water fairly well, and is suitable for the construction of dams.

The climate is warm in summer, but the rainfall is good.

The only improvements on the land are as follows:—About 30 chains of new 7-wire fence on reserve No. 533 in the position shown on the sketch, which was erected by the lessees of the Billabong Forest Holding, Messrs. Ross Brothers, in May, 1889, and which I value at 15s. per chain.

The time occupied by me in dealing with this case was a quarter of a day in the field on the 27th of February and half a day office work.

I have, &c.,

MAURICE BARLOW.

Re reserves 533 and 604, parishes Jerra Jerra, Cookardinia, county Goulburn,—This report indicates that the retention of the greater part of reserves 533 and 604, in the parishes of Jerra Jerra and Cookardinia, county of Goulburn, is no longer necessary in the public interest. I therefore recommend their revocation after subdivision, in accordance with the enclosed amended design, with a view to the proclamation of blocks A and B as special areas at an upset price of £3 10s. an acre, with a maximum of 160 acres, on the determination of the leasehold area of the Billabong Holding on the 30th July next. The land is agricultural, the reserves were notified for water supply, and the measurement should be effected at local rates. The reservation of portion 11 and block 6 is also recommended for water supply.—WILLIAM ORR, District Surveyor, Wagga Wagga, 13/3/90. The Under Secretary for Lands.

Sir,

Camp, 30 June, 1890.

I have the honor to transmit herewith the plan of four portions of land containing 439½ acres numbered 6, 7, 11, and 197 in the parish of Jerra Jerra, in the county of Goulburn, measured by me on the 10th June, 1890, in accordance with instructions No. 90-41, dated 21st April.

I have to report that, at the time of survey there were improvements upon the land as follows:—

On portion 11, about 56 chains of posts and 3-wire fencing, recently erected by a man named Watson, who lives on portion 13 adjoining—value, £18. On portion 6, 19 chains of posts and 6-wire fence on west boundary, the property of Parnell; half value, £4 15s.; on portion 7, half value of 7-wire fence on south boundary of portion 8, £19 15s., and about 32 chains of 7-wire fencing on west boundary, worth £17 15s., erected by the lessee of the Billabong Holding about three years ago; half value of old 2-rail and 4-wire fence on north boundary of portion 74, £4 12s. 6d., and half value of old 1-rail 5-wire fence on west boundary of portion 77, £4 8s. 9d.; and on portion 197 half value of 6-wire fencing on south boundary, £4 12s. 6d., about 14 chains 6-wire fencing, £7; and about 4 chains of old 2-rail fence, £2; the improvements on portion 197 belong to the owner of the land adjoining. The portions measured embrace gently undulating or level, open box, gum, and apple forest land, which is situated about 14 miles from Germanton, and there are good roads leading to that town. At time of survey there was water in Back Creek, but I am of opinion that it is not permanent. The soil is good, being well adapted for agricultural purposes. I value the land at £3 per acre. Portions 90 and 91 are not shown on the design, but as the county map shows them to have been dedicated for Catholic Church purposes, I have excluded the area embraced by these measurements from portion 11, and I have also left a road of access to portion 91. I have to report that I found it necessary to renew all old corners. The reference trees, which I found standing, had quite grown up, and when cut out the wood was found to be so much decayed that the numbers were not legible, and renumbering had to be done. At four of the old corners new reference trees were marked by me.

I have, &c.,

IRWIN SMITH,

Licensed Surveyor.

The Hon. the Minister for Lands, Sydney, New South Wales.

THE Petition of the undersigned landholders, farmers, business men, and others residing in the locality of Cookardinia, respectfully sheweth:—

- 1st. That lately a survey of reserve No. 7, in the parish of Jerra Jerra, county of Goulburn, Land District of Albury, has been effected, in obedience to instructions from your Department, by Mr. Licensed-Surveyor Smith, it being presumably the intention of your Department to alienate the said land.
- 2nd. That the interests and claims of the general public have been ignored and neglected in respect to this survey in so much as sufficient road accommodation has not been made through the aforesaid reserve.
- 3rd. Your petitioners, therefore, humbly request that you will see fit to have the form of survey so amended as to place a road running from a point on the left bank of the Back Creek immediately at or near the north-west corner of the said reserve No. 7, along the left bank of the Back Creek to a convenient point on the southern boundary of reserve No. 7, thence east along the southern side of the said reserve to its most eastern extremity.
- 4th. The access which is now provided for by road will necessitate travellers crossing the Back Creek several times a condition which your petitioners seek to avoid.

And your petitioners, as in duty bound, will ever pray.

WILLIAM HENRY PORT,

Farmer, Cookardinia.

[Here follow 19 other signatures.]

Dear

Dear Sir,

7, Norwich Chambers, Sydney, 28 July, 1890.

The enclosed Petition has been forwarded to me by Mr. G. Byrne, of Cookardina, on behalf of a number of farmers and others of that locality, with the request that I should present it to you; it is in reference to a survey made of reserve No. 7, county Goulburn, parish Jerra Jerra, and the petitioners are of opinion that sufficient road accommodation has not been made through it.

I am not well enough to personally present the petition as requested, so enclose it with the hope that you will favourably consider their request.

Yours truly,

WILLIAM JOHN LYNE.

There is no reserve No. 7, in the parish of Jerra Jerra, county of Goulburn. It appears probable, however, that the petitioners intend to refer to a subdivision on Back Creek recently carried out by L. S. Smith (under Ministerial approval, with a view to special areas), the papers in connection with which L.B. 90-5,828 (Ms. 90-5,596), were forwarded to head office with my report No. 1,039, on the 22nd August last. It is respectfully suggested that the petitioners be informed, that there is no reserve No. 7, in parish of Jerra Jerra, but if they refer to the above-mentioned subdivision, they should mark the portion of the desired road on the accompanying tracing, which might be forwarded to them for that purpose.—WILLIAM ORR, District Surveyor, Wagga Wagga. A.G., 24/10/90. The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney.

I sent a petition signed by about twenty residents in the locality, asking the Minister for Lands to amend the form of survey of reserve No. 7, on Back Creek in parish of Jerra Jerra, so as to provide road accommodation along the left bank of Back Creek, which has been disturbed by the survey lately made, and as the land is about to be alienated the public will be cut off from what at present is a well trafficked road.

We wish you to do what you can to cause inquiries to be made into the matter, you will recognise by the number who signed the petition that a want is felt in this respect.

I would also wish to draw your attention to the fact, that it is the intention of the Department to throw open a reserve of about 400 acres on both banks of the Back Creek in the parish of Jerra Jerra, and on behalf of many heads of families in this locality who wish to procure a part of same on account of its convenience to the Public School. I would suggest that you would be doing a great service by waiting upon the Minister for Lands with the object of getting him to set a moderate price of, say, £2 per acre upon this land.

The whole of the land lies within a mile of the public school, and I know of no less than seven heads of families in this district who wish to get a portion of it if the price is not set so high as to place it beyond their reach.

Your knowledge of the district, and of the propensity to put such a high price upon all reserves which are being thrown open, will render it unnecessary for me to go into details further than to say that special prices will not tend to put families upon the land, but will rather tend to place it at the mercy of large holders adjoining, who can afford to give more than a small holder.

Hoping you will do what you can in this matter.

I am, &c.,

EDWARD BYRNE.

Mr. Lyne.

Dear Sir,

Cookardina, *via* Culcairn Railway Station, 22 July, 1890.

I wish to draw your attention to the fact that it is the intention of the Department to throw open a reserve of about 400 acres on both banks of the Back Creek, in the parish of Jerra Jerra, and on behalf of many heads of families in the locality, who wish to procure a part of same on account of its convenience to the Public School, I would suggest that you would be doing a great service by waiting upon the Minister for Lands, with the object of getting him to set a moderate price of, say, £2 per acre upon the land. The whole of the land lies within a mile of the public school, and I know of no less than seven heads of families in this district who wish to get a portion of it if the price is not set so high as to place it beyond their reach. Your knowledge of the district and of the propensity to put such a high price upon all reserves which are being thrown open, will render it unnecessary for me to go into details further than to say that special prices will not tend to put families upon the land, but will rather tend to place it at the mercy of large holders adjoining who can afford to give more than a small holder.

Hoping you will do what you can in this matter.

I am, &c.,

EDWARD BYRNE.

James Hayes, Esq., M.P., Parliament House.

Portions 6, 7, 11, and 197, parish of Jerra Jerra, county of Goulburn.

Wagga Wagga, 9 October, 1890.

This letter evidently refers to the survey of the portions above quoted, the papers in connection with which were forwarded to the Under Secretary on 22nd August last, with my report No. 1,039.

I recommended the proclamation of portions 6 and 7 as special areas, at 70s. per acre, and after due consideration of this letter, I do not see my way to making any alteration on my suggestion at the present time. The fact mentioned by the writer, that the land has the advantage of a public school near, it is not, in my opinion, a reason for reducing the price, as many parents desire to live near schools for the sake of their children. Notwithstanding the advantages afforded by the school, I do not think that conditional purchasers would be disposed to retain their land longer than is necessary, if they obtained it for 40s. per acre, when some one else would give them 70s.

There are so many persons in this district looking out for land to settle upon, that it would not be advisable to offer this land at auction as, in all probability, the neighbouring land-owners would purchase it at the upset price of 70s. per acre. If, however, the price is reduced to 40s., the result feared by the writer, namely, placing it at the mercy of large holders is more likely to occur.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Special

Special Area 13,154.

Sir,

I apply that that portion of the Adelong Temporary Common, in the parish of Adelong, county of Wynyard, between the freehold of the late Edward Williams and Sharp Creek Road, be surveyed for public auction in one block.

The Under Secretary for Lands.

Adelong, 29 May, 1888.

I am, &c.,

MICHAEL ARRAGON.

Sir,

In compliance with your instructions, No. 88-78, of 24th July, on papers Land Board District 88-7,139, requesting me to report on Michael Arragon's application to have a portion of the Adelong Temporary Common surveyed for auction sale, I have the honor now to transmit herewith a design for the subdivision of about 210 acres of land adjoining the south boundary of the common, and to report that the land Mr. Arragon wishes to purchase is that lying between the Sharpe's Creek Road, shown on sketch herewith, and portion No. 83, B. C. William's 60 acres.

Mr. Arragon applies to have the land put up for sale in one block, but as it would be inexpedient to do so, I have designed areas ranging from about 8 to 20 acres, which I think will sell readily at a moderate upset price.

The land embraced within design, with the exception of portions 825 to 828, on which there is some good open box country, is medium grazing country, thickly covered with box and gum saplings, and the ridges are steep. There is no permanent water on the land.

The road shown on sketch is the bridle track in present use from Adelong to Sharpe's Creek. In its present state it would be almost too rough for wheeled traffic.

In the survey of portion No. 150, the track is not reserved, but an almost useless road left along the boundary of the portion. M. Arragon, the owner of the land, has fenced the track in use on both sides through this portion, and is willing that the public should have the use of it; and I would therefore recommend that the surveyor entrusted with the survey of this subdivision should be instructed to mark the road through portion No. 150, as shown in red on my design.

I would suggest the following upset prices:—Portion 815, £3 per acre; portions 816 to 823, £2 10s. per acre; portions 824 to 827, £3 per acre; portion 828, £3 10s. per acre.

I am, &c.,

MAURICE BARLOW.

Sir,

I have the honor to transmit herewith the plan of fourteen portions of land numbered 815 to 822, 827, 828, 865 to 868, in the parish of Adelong, in the county of Wynyard, within the Adelong Gold-field, measured by me on the 7th January, 1890, in accordance with instructions No. 56, dated 29th July, 1889. The land is timbered with gum, box, apple, and stringy-bark, and is fairly good for grazing purposes. It is worth about £3 per acre, and is unimproved to any appreciable value. Portions Nos. 815 to 819, are fairly well watered by a small creek, and 828 by springs. The formation is of an argillaceous nature, shale predominating.

I am, &c.,

T. W. KEMP,

Licensed Surveyor.

Descriptions enclosed for the revocation of the area measured from the temporary common, noted 3rd November, 1871, the Adelong Creek Gold-field, proclaimed 15th February, 1855; reserved from conditional purchase proclaimed 23rd December, 1861, and for the proclamation of the land measured as a special area under the provisions of the 18th clause of the land being within the population area of Adelong. I recommend the following upset price in connection with the land:—£3 10s. an acre in connection with portion 828; £3 an acre in connection with portions 866, 827, 868, and 867; and £3 10s. an acre in connection with portion 815 to 822 and 865. I recommend that the alienation be effected under the system of deferred payments in portions as measured, no application to cover more than one portion, and that the residence and fencing conditions be similar to those attached to ordinary conditional purchase. The requirements of circular 90-12 are met in this and Mr. Surveyor Barlow's report enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga, 22/3/90. The Under Secretary for Lands.

Dear Sir,

You will do me a great favour, for which I shall feel very grateful if you will call on the Under Secretary for Lands, and induce him to have those portions of land on the Adelong Temporary Common, put up to public auction (numbers of said blocks at foot) which had been surveyed some time back for that purpose. If I buy them I wish to do so before the spring goes out, in order to fence it, and save the grass which I badly want at present.

I am, &c.,

J. H. ARRAGON.

T. Jones, Esq.

Portions 815 to 822, 827, 828, 865 to 868.

Special area 13,154, within population area at Adelong.

16 October, 1890.

In accordance with the Minister's decision of the 27th instant on Misc. 90-8,364, it is recommended these lands be declared a special area, at £3 per acre, with a maximum of 23½ acres and a minimum of 9 acres 0 roods 34 perches, residence and fencing and improvements to be the same as required in ordinary conditional purchases.

R.H.D.

F.H.W. (for Under Secretary), 20/10/90. Approved.—J.N.B., 20/10/90.

Special

Special Areas Nos. 13,466, 13,467, and 13,468.

Sir,

Welaregang, 11 March, 1890.

In accordance with instruction numbered 78, and dated 24th October, 1889, having reference to reporting upon leasehold areas, I beg to report as follows in connection with unalienated and unreserved lands within the leasehold area of Tumberumba Pastoral Holding.

1. The only portions of this leasehold area that call for special attention are those marked A, B, C, and D on the two accompanying tracings, and that principally owing to their proximity to the town of Tumberumba.

2. Portions A and B are situated just outside of the boundary of the temporary common, on and near the top of a high hill, and consist of very inferior country, timbered principally with stringy-bark and gum, unsuitable for agriculture, and with poor grazing qualities.

They would very probably be selected in connection with previous holdings, but are not suitable for original selection.

Although I do not consider the land worth more than 25s. per acre, a higher price than that might be realised if submitted to auction owing to competition.

3. Portion marked C also adjoins the Tumberumba Temporary Common, but the country included within it is very rough, timbered with gum, stringy-bark, apple, and peppermint, and as it is inferior grazing country might be allowed to become available for ordinary conditional purchase.

4. Portion marked D contains far better country than any of the before-mentioned portions, although stony along the east and south. On the west there is some fair agricultural land, and the timber consists of apple and stringy-bark. There is no water on the portion, but it could be conserved. If proclaimed a special area, I think that 50s. per acre would be a fair price to place upon it, although more might be realised if submitted to auction. The small area, the want of water, and the fact of it being surrounded by other portions constitute a great drawback to its value as a special area, and render it more suitable for auction sale.

5. The remaining area of the leasehold might be allowed to become available for ordinary selection, as the country is principally rough and mountainous, and thickly timbered with stringy-bark, gum, peppermint, and apple.

I have, &c.,

A. H. CHESTERMAN.

Re proposed special areas—Tumberumba leasehold area, parishes King and Tumberumba, county of Selwyn.

22 March, 1890.

THE enclosed report indicates that the character of the unalienated and unreserved land on the leasehold area of the Tumberumba Holding, in the county of Selwyn, is such as to justify its proclamation as special areas on the determination of the leasehold on 10th July next. I therefore recommend that Blocks A, B, and C be proclaimed a special area at an upset price of 30s. an acre, and Block D at 50s. an acre after survey, the maximum area of the notification to be 160 acres. I do not recommend any special conditions in connection with the proclamation.

The necessary descriptions for the reservation of the areas, pending survey, are enclosed.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

Sir,

Tumberumba, 19 August, 1890.

I have the honor to transmit herewith the plan of one portion of land containing 295 acres, numbered 122, parish of Burra, county of Selwyn, measured by me on 31st July, 1890, in accordance with your instruction No. 21, dated 28th June, 1890, and to report as follows:—

Heavily timbered with stringybark, apple, gum, peppermint, and urabee, very rough and poor granite ridges. Watered by springs which appear permanent. Poor grazing, 3 miles from Tumberumba, accessible by Upper Burra Road. Improvements, £10 2s. 6d; 30 chains, 2-rail and log fence at £25 per mile erected by lessees. I was unable to ascertain the date. I estimate the land to be worth £1 per acre.

The District Surveyor, Wagga Wagga.

I have, &c.,

PERCY COWLEY.

Subdivision of parts of the late leasehold area of Tumberumba Holding has been carried out with a view to proclamation of the portions as special areas, in accordance with Ministerial approval on Misc. 90-6,278, enclosed. Blocks A, and B, on the designs are represented by portions 3 and 4, parish of Tumberumba, and Blocks C and D, by portions 122 and 123, parish of Burra. Descriptions are enclosed for the proclamation of the special areas; also for the revocation of reserves 11,953, 11,954, 11,955, and 11,956, notified 25th June, 1890, to protect the land pending survey.—WILLIAM ORR, District Surveyor.

The report of the Licensed Surveyor indicates that the land does not possess a special value. Ask the District Surveyor for further particulars.—J.N.B., 14/1/91.

In accordance with your instructions of the 16th instant, No. 7, with reference to the above-mentioned portions, I have the honor to report that the proclamation of these portions as special areas, was approved of by the Minister for Lands, prior to the issue of Circular 90-68, and as the portions are valuable, because of their proximity to the rising town of Tumberumba, I considered that it would not be proper under the circumstances to suggest the advisableness of a second submission to the Minister. From my knowledge of the locality, I am of opinion that the portions in question will be taken up by adjoining conditional purchasers as additional, whether they are made special or not, consequently legitimate settlement is not likely to be affected by the proclamation of the special areas. In view, however, of the more recent decision of the Minister for Lands, as set forth in Sub-clause (d) of circular 90-68, it would doubtless be expedient not to proclaim these isolated portions special areas. With respect to the values of these lands as given by the licensed surveyor and the staff surveyor, I may say that the former

former has only been a few months in the district, and the latter has been many years, and the valuations of the latter are consequently more reliable. I might also mention that an agitation is going on for the extension of the railway to Tumberumba, and, if ever that town is made a terminus, the land in its vicinity will certainly increase in value, as it is already a favourite resort in summer, because of its high situation, and its salubrious climate.—WILLIAM ORR, District Surveyor.

Special Area 13,483.

Wagga Wagga, 5 August, 1890.

In connection with the design for subdivision of Narraburra leasehold area, 1, on the 16th December last, inspected water reserve 1,894, herein referred to.

The reserve is unimproved, and is useless as a water reserve, being situated on the top of a low, rocky, granite ridge.

It would, however, be valuable as a quarry reserve, if required for that purpose, but the provision already made in the vicinity for quarrying purposes will probably be sufficient to meet requirements for many years to come.

However, as the land is only fit for grazing purposes, it might, perhaps, be retained as a reserve, and the grazing right leased under the 85th section of the Crown Lands Act of 1884.

I consider 32s. 6d. per acre a fair value for the land.

A. E. MACKAY,

Surveyor, 13/8/90.

The District Surveyor, Wagga Wagga.

Wagga Wagga, 10 September, 1890.

In view of the enclosed report by Surveyor Mackay, which indicates that water reserve No. 1,394 in the parish of Wallundry, county of Bland, is no longer required in the public interest, I beg to recommend that it be revoked after survey, with a view to proclamation of the land as a special area, at an upset price of 35s. per acre.

The reserve is situated within the late leasehold area of Narraburra holding, No. 41, Eastern Division.

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

A.G., 9/9/90.

Wagga Wagga, 21 January, 1891.

REFERRING to the enclosed correspondence, regarding the revocation of reserve No. 1,394, parish of Wallundry, county of Bland, with a view to its proclamation as a special area, it is pointed out that the reserve in question has now been numbered on the ground. It is, therefore, recommended that the reserve be revoked and action taken to proclaim same as a special area, as approved on papers, Misc. 90-133,407.

The necessary descriptions herewith.

The land adjoins a special area (No. 12,203), consequently it does not come within the exemptions quoted in circular 90-68 to District Surveyor, dated 28th October, 1890.

WILLIAM ORR,

District Surveyor.

Special Area 13,600.

Sir,

Camp, Coolamon, 13 September, 1889.

Pursuant to your B.C., instruction No. 91, of 19th ultimo, I have the honor to inform you that I, on the 27th ultimo, inspected reserve 1,988, in the parishes of Temora and Thanowring, county Bland, and being of opinion that it is no longer required in the public interest, now transmit design showing proposed subdivision into two areas, marked A and B, containing about 320 acres and 240 acres respectively.

I consider 160-acre blocks too small to make a living off in this locality, and in view of legislation now pending to meet the case, I have designed on a larger scale.

The whole of the reserve is suitable for agriculture, and consists of a loose red soil, timbered with box and pine.

The whole of portion A, and part of portion B (as approximately shown on the sketch), has been ringed a number of years by the lessees of Temora. The exact date of the improvements cannot be supplied, but is stated to be prior to 1880.

The following is my estimate of the value of improvements, viz., block A, whole area ringed, at 1s. per acre—amount, £16; block B, about 100 acres, ringed, at 1s. per acre—amount, £5.

There is not any water on the reserve. I consider block A worth £2 per acre, and block B worth 35s. per acre.

I have, &c.,

A. E. MACKAY,

Surveyor.

In view of the report, which goes to show that reserve 1,988, in the parishes of Temora and Thanowring, county of Bland, is no longer required in the public interest, I beg to recommend its subdivision in the manner indicated on enclosed tracing, with a view to the proclamation of the land as a special area, at £2 per acre for block A, and 35s. an acre for block B. Part of the land proposed for subdivision is on the leasehold area of Temora holding, and consequently will be unavailable for selection until the expiration of the pastoral lease.—WILLIAM ORR, District Surveyor, Wagga Wagga, 21/9/89. The Under Secretary for Lands.

Sir,

Camp, Temora, 19 February, 1890.

I have the honor to transmit herewith the plan of three portions of land, containing 320 acres, 124½ acres, and 50½ acres respectively, numbered 36, in the parish of Temora, and 93 and 94, in the parish of Thanowring, county of Bland, and situate within the Temora gold-field and Temora Run, and forms part of reserve 1998, measured by me on the 11th February, 1890, in accordance with your B.C. instructions, No. 89, dated 26th October, 1889, and 6th February, 1890.

The only improvements on these lands consist of rung timber, value £12 on 36, and £1 10s. on 93. The brush fencing in 36 is old and valueless.

I have, &c.,
F. TOZER.

Plan approved. Descriptions enclosed for the revocation of the area measured from the Temora gold-field reserve 1988, and reserve from conditional purchase, noted 28th February, 1884, also for the proclamation of portion 36 as a special area at an upset price of £2 an acre, and portions 93 and 94 as a special area at an upset price of 35s. an acre, with a maximum area of 320 acres, no special conditions. The enclosed schedule complies with the requirements of circular 90-12.—WILLIAM ORR, D.S. The Under Secretary for Lands.

Special Area, 13,683.

Sir,

Kildary, 31 October, 1890.

Pursuant of your instruction, No. 196, of 1st October, 1890, Land Board 90-2,030, I have the honor to inform you that I, on the 29th instant, inspected the land embraced by conditional purchase 86-23 and conditional lease 86-10, being measured portions Nos. 5 and 52, in the parish of Beaconsfield, county of Bourke.

The land consists of level box forest, dead timber, good red soil, with pine and wattle scrub. I consider the unimproved value of the land to be £2 5s. per acre.

Improvements are as follows—viz., on portion 5,—

	£	s.	d.
About 16 acres, clearing at 30s. per acre	...	24	0 0
About 20 acres, 10s. per acre	...	10	0 0
About 44 acres, ringing, at 1s. per acre	...	2	4 0
Bark hut	...	3	0 0
Small dam, containing about 80 yards, at 1s.	...	4	0 0
Total	...	43	4 0

On portion 52,—

Whole area ringed at 1s.	...	6	0 0
Also six-wire boundary fencing, as shown on sketch, worth...	...	35	0 0 per mile.

I have, &c.,
A. E. MACKAY,
Surveyor.

Mr. District-Surveyor Orr.

Surveyor Mackay has inspected the ground, and reports it to be worth 40s. per acre in its unimproved state. The aggregate area of the two blocks, 200 acres, is somewhat small for a special area, but in view of the fact that it is only about 12 miles from the future railway terminus of Temora, I think it should be proclaimed a special area, and recommend accordingly.—WILLIAM ORR, D.S., 10/11/90.

Submitted that these 2 portions of 80 and 120 acres be proclaimed a special area at 40s., in accordance with District Surveyor's recommendation on conditional sales. 90 23,429 dep.—J.O.D., 20/3/90. For the U.S.—R.H.D., 20/3/91. Urgent. Approved.—J.N.B., 21/3/91.

Special Area 13,685.

Wagga Wagga; conditional purchase, 82-638, 320 acres; additional-conditional purchase 83-5, 320 acres. Thomas Moorhouse, deceased.

On 11th February, 1890, the Land Board at Wagga Wagga came to the decision that the land was not taken up by the selector for his own use, but in violation of section 9 of Land Act Amendment Act of 1875, and referred the case to the Minister for decision. The Board's decision, however, being under the Act of 1889, the case was referred to the Land Court.

On 22nd July last the matter came before the Land Court at Wagga Wagga, when it was held that the Board were right in their decision.

Notice was given requiring the Land Court to state a case for the Supreme Court, but this notice has now been withdrawn.

The conditional purchases are now submitted for forfeiture.

A.S., 7/11/90.

Forfeiture for approval.—W.H.C., 7/11/90. F.H.W. (for the Under Secretary), 11/11/90. Forfeiture approved.—J.N.B., 11/11/90. For the District Surveyor's (Wagga Wagga) report as to whether land has any special value.—J.R.Y. (for the Under Secretary), B.C., 13/11/90. The District Surveyor, Wagga Wagga.

Proposed special area; portions 6 and 7; parish Wauberrima, county Mitchell.—I am of opinion that portions 6 and 7, parish Wauberrima, county Mitchell, should be proclaimed a special area at £2 per acre. Maximum area to be the aggregate area of the portions. Description for special area enclosed, A.G., 19/11/90.—W. ORR, District Surveyor, Wagga Wagga. No. 1,238. 20/11/90. The Under Secretary for Lands.

Special Area 13,718.

24 March, 1891.

MEASUREMENT of the part 60½ acres of travelling stock reserve 987, within portion 7, parish of Quiamong, county of Townsend, has been made, and has been numbered 12 in that parish.

It would appear from papers that portion 7 was originally measured in March, 1884, in satisfaction of additional conditional purchase 82-71, by the London Chartered Bank (apparently the transferees of J. Tonkin's), and as it was found that the survey encroached to the extent above mentioned on travelling stock reserve 9,877. Ministerial approval was obtained on the 6th November, 1884, for the cancellation of the part affected, with a view to selection by the applicants after the prescribed time had elapsed, thus saving any further subdivision. The matter was, however, referred to the Board, the Crown Lands Act of 1884, having come into operation in the meantime, and it was decided in April, 1888, that the land should be revoked from the travelling stock reserve, and offered for auction sale, and this decision was confirmed in March, 1889, but nothing further appears to have been done, the papers apparently having been put away at head office.

In June last Messrs. Macnamara and Norton, on behalf of J. Tomkins, applied to have the revocation carried out, and the land thrown open for selection as a special area. Mr. Surveyor Broughton was instructed to report and survey, if unobjectionable, and measurement was accordingly made, as already stated.

Mr. Broughton reports that the land is suitable for agriculture, and recommends its proclamation as a special area at £2 5s. per acre, the maximum area to be the area of the portion. In view of the good character of the land, of the fact that it is practically useless to any one but Tomkins, and of the fact that application has been made on Tomkins' behalf to have it proclaimed a special area, I am of opinion that there are sufficient reasons to warrant its being gazetted a special area, and recommend action accordingly, the price and maximum area to be as suggested.

A fresh description for revocation has been prepared, and a description for the notification of the special area. Helio. copy of the plan is with the papers.

J. L. TRITTON,
District Surveyor.

The Under Secretary for Lands.

Proposed special area:—One portion of 60½ acres, at £2 5s. per acre. Submitted in connection with par. D of circular 90-68. The circumstances, as set out in the third page of the District Surveyor's report, appear sufficiently exceptional to warrant the proclamation of the special area.—J.O'D., 1/4/91.

R.H.D., 3/4/91. F.H.W., 6/4/91. Approved.—J.N.B., 6/4/91.

Papers, Land Board, 90-2,818, and plan herewith.

Sir,

Deniliquin, 16 December, 1890.

I have the honor to transmit herewith the plan of one portion of land containing 60½ acres, numbered 12, in the parish of Quiamong, county of Townsend, within travelling stock reserve No. 987 (and forms part of resumed area of Hartwood Run), measured by me on the 24th November, 1890, in accordance with instructions No. 44 of 24th July last.

The only improvement on this land is 50 links of seven-wire fence on west boundary, value 4s. This fence is claimed as the property of J. Tomkins.

I am of the opinion that this land can be excised from the travelling stock reserve without prejudicially affecting the public estate. It is pointed out that the land is enclosed and evidently occupied by John Tomkins, and there is practically no access for travelling stock to it.

In measuring this land, due regard is given to conditional purchase 82-71, John Tomkins, the area of which, according to records of Local Land Agent's office, covers the residue of the portion. The area of this conditional purchase stands as 214½ acres. There is not any evidence to show when the track or road forming the basis of travelling stock reserve 987 existed, but it is presumed that it was situated about the middle of the three-chain road through portion No. 55, which was measured subsequent to notification of reserve; therefore, if such assumption is correct, the conditional purchase does not encroach on the travelling stock reserve.

In view of the Board's recommendation, it is submitted that this portion of land be proclaimed a special area at £2 5s. per acre, maximum and minimum area to be that of the portion. This land consists of an open plain, red and grey soil. It is suited for agriculture.

The time occupied in this survey is half a day in field and half a day in office.

I have, &c.,

The District Surveyor, Hay.

T. BROUGHTON.

T. 3,793-1,803. Plan approved.—J. L. TRITTON, District Surveyor. To the Under Secretary for Lands, with covering report.—J. L. TRITTON, District Surveyor, 21/3/91.

Special Area 13,764.

Dear Sir,

Dora Dora, 18 February, 1889.

I wish to know if block No. 22, containing 40 acres (originally Jane Moody's conditional purchase), but now reserved for travelling stock, and only being 1½ miles from two large reserves being on each side of it, and the only watering place for my stock to get water at, also so small and of very little use to travelling stock, I wish, if there be any opportunity of it being thrown open, that I may select it.

By letting me know in a short time you will greatly oblige.

I have, &c.,

To the Honorable W. J. Lyne.

JOHN M'INTYRE.

26 March, 1889.

HAVING reference to your B.C. on enclosed papers relating to the application for the revocation of reserve 2,280 from sale and 2,281 from lease, the parish of Vantier, county of Goulburn, I have the honor to point out that though there are these reserves in the locality, it is proposed to revoke reserve 232, and instructions for its subdivision are now in the hands of the manager, being carried out.

Reserve

Reserve 245 has been curtailed to one-fourth of its original area, and consequently the reserve under review should, I respectfully submit, be retained. Should my recommendation not meet with your approval, I would point out that the Mines Department should be consulted before revocation, inasmuch as the reserve is one for the benefit of travelling stock.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

Mr. Gordon Bruce points out that travelling stock reserve 2,280 is not of much use to travelling stock, owing to its small area, one mob of sheep rendering it useless for the remainder of the season, and suggests that a fair portion of reserve 232 should be notified as a travelling stock and camping reserve. Mr. District-Surveyor Orr recommends the retention of travelling stock reserve 2,280, and I would recommend that the reserve be not interfered with south of the road; and, as it is the intention of the Lands Department to revoke reserve 232 after subdivision, I would beg to recommend that they be asked to retain a fair portion of it for the use of travelling stock.—A.B., 5/8/89. The Under Secretary for Mines.

Sir,

Camp, Welaregang, 29 October, 1889.

In reply to instruction, numbered 77, and dated 18th October, 1889, having reference to an application by the Mines Department that portions 8 and 9, in the parish of Vantier, county of Goulburn, be proclaimed a travelling stock reserve, I beg to report as follows:—

(1.) These portions form part of a subdivision of water reserve 232, and contain some of the best land on that reserve.

(2.) With reserve 231 about $1\frac{1}{2}$ mile to the west and the "Seven-mile" reserve, about $3\frac{1}{2}$ miles to the east, there would appear to be no necessity for the retention of any part of reserve 232, when consideration is taken of the fact that a watering place has been provided about half way between the two first-mentioned reserves, viz., at reserve 2,280.

(3.) However, since the Mines Department wish that a portion of reserve 232 be set apart for travelling stock, I would suggest that portions 12 and 13 be retained for that purpose in preference to portions 8 and 9.

The two former portions are situated on the main Upper Murray Road, whereas portions 8 and 9 are some distance off it.

With regard to water the advantages are almost equal, as portion 12 is well watered, the Basin Creek, which is a large watercourse running through it, and spreading out over it.

This creek may be called permanent, as I have seen it running in very dry seasons.

Portions 12 and 13 contain good grazing land, but portions 8 and 9 contain land admirably adapted for agriculture, to which purpose I think it should be devoted.

I have, &c.,

A. H. CHESTERMAN.

In view of this report I cannot recommend for approval the application of the Mines Department—that portions 8 and 9, parish of Vantier, county of Goulburn, be proclaimed a travelling stock and camping reserve. From the report it will be observed that the main Upper Murray road is situated about $1\frac{1}{2}$ miles north of the portions sought to be acquired, and I recommend that portion 12 of 150 acres be notified as a water reserve. In view of the expression of opinion on the part of the officers of the Mines Department, I recommend the revocation of travelling stock reserve 2,280 from sale and 2,281 from lease, covering portion 22 of 40 acres. The necessary tracings for exhibition are enclosed.—WILLIAM ORR, District Surveyor, Wagga Wagga, 22/11/89.

10 May, 1890.

REFERRING to the question on enclosed papers, *re* the cancellation of travelling stock reserve No. 2,280 from sale, and 2,281 from lease, I would respectfully state that I still adhere to my recommendation on Land Board 89-8,581, to the effect that travelling stock reserve 2,280 from sale, and 2,281 from lease, be revoked. I would also recommend that the land in question (portion 22, parish of Vantier, county of Goulburn, be proclaimed a special area at £4 per acre, with a maximum and minimum area of 40 acres.

The necessary descriptions and tracings for the action indicated are enclosed.

This matter should, perhaps, be referred back to the Board.

The Under Secretary for Lands.

WILLIAM ORR,
District Surveyor.

Sydney, 26 June, 1890.

Minute Paper.

Proposed cancellation of 2,280, county Goulburn.

THIS case refers to the proposed cancellation of travelling stock reserve 2,280, which was referred to this Department as to any objections, on the 23rd March, 1889, when it was recommended that that portion of the reserve south of the road be retained, and that a portion of reserve 232 be notified as a travelling stock and camping reserve.

When the case came before the Land Board they found that the only suitable portions of reserve 232 for a travelling stock and camping reserve had been selected, and they, therefore, made no further recommendation.

In view of the expression of opinion by this Department in reference to reserve 2,280, the District Surveyor now recommends its entire cancellation; but I would beg to recommend that as that portion of reserve 232, which it was sought to have notified as a travelling stock reserve in lieu of reserve 2,280, is not now available, that reserve 2,280 be retained.

It might be pointed out that should the reserve under review be cancelled, stock would be compelled to travel a distance of between 6 and 7 miles, along a narrow road, without a chance of getting to the river for water.

The Under Secretary for Mines.

ALEX. BRUCE,
Chief Inspector of Stock.
Report

Report of Local Land Board.

WHEREAS on 25th day of March, 1891, it became a matter for investigation before us as to whether travelling stock reserve No. 2,280 from sale, and 2,281 from lease, parish of Vantier, county of Goulburn, should be revoked, and having taken evidence and inquired into the said matter, we find that there is no objection to the revocation of the reserve in question.

Given under our hands at the Court-house at Germantown, in the Colony of New South Wales, this
25th day of March, 1891,—

J. W. WATT, J.P.,
Chairman.
J. H. WOOD, J.P.

Special Area 13,783.

Sir,

O'Brien's Creek, 15 January, 1885.

In compliance with instructions herewith from Mr. District Surveyor Wood, I have the honor to state that on 14th instant, I inspected reserve Nos. 492A, 491, 491A, 489, and extension on west side of Kycamba Creek, also reserve No. 1,030, in the parish of Book Book, county of Wynyard.

The particulars of the improvement are as follows:—On reserve No. 489, commenced 1880, completed 1880—40 chains fence at £36 per mile—£172. On reserve No. 489 extension, fence A.B., 40 chains, at £36 per mile, commenced 1883, completed 1883—value £18. Twenty-five chains fence X.Y., £36 per mile, commenced 1875, completed 1875—value £10. Sheep yards, commenced 1875, completed 1875—value £35. Dam, 350 yards, commenced 1874, completed 1874, at 1s. 3d. per square yard—value £17 10s. On reserve No. 1,030, chock and log dead wood fence, at £50 per mile, 40 chains, commenced 1880, completed 1880—£25. Ringing and clearing about 140 acres, at 7s. per acre, commenced 1880, completed 1880—£49.

Rough plans attached show position of improvements referred to in report.

Distance travelled in reporting, 30 miles.

I may add that the reserves reported on are useless to the public, there being no traffic on the left bank of Kycamba Creek, and the selections adjacent to the reserves are held by lessee of Book Book Run.

I have, &c.,
ARNOLD LOVE,
Licensed Surveyor.

The Surveyor-General, Sydney.

Wagga Wagga, 10 April, 1891.

I HAVE the honor to recommend the revocation of parts of reserves Nos. 489 and 489 extended, parish of Book Book, county of Wynyard, with a view to their proclamation as a special area, at £3 per acre, with a maximum of 640 acres.

On referring to alienation 86-612 enclosed, it will be seen that Mr. District Surveyor Bolton recommended this action, but it was apparently overlooked.

WILLIAM ORR,
District Surveyor.

Submitted for approval.—J.O.D., 15/4/91. R.H.D., 17/4/91. F.H.W. (for U.S.), 17/4/91.
Approved.—J.N.B., 17/4/91.

Special Area 13,828.

Sir,

Albury, 24 March, 1890.

Will you be good enough to have that part of reserve 1,461 lying south of a line joining the north-west corner of portion 125, and the north-east corner of portion 124, parish of Bulgandra, county of Hume, revoked, as I am anxious to select it, in order that I may get rid of the dense scrub on it, which is now a positive nuisance to all the settlers in the locality, as it affords such a safe harbour for rabbits and other vermin, and it is impossible to destroy them as long as the scrub is left on it. This part of the reserve is entirely useless to the public.

CARL VONTHEIN.

The Hon. the Minister for Lands.

Address: Care of George Adams, *Banner Office*.

Sir,

Albury, 11 July, 1890.

In compliance with your instructions No. 90-25, of the 8th April, requesting me to report upon the necessity for retaining that part of water reserves 1,461 and 1,461 extension, within the resumed area of the Bulgandra Holding, parish of Bulgandry, county of Hume, I have the honor to transmit herewith a sketch showing a design for the measurement of the area, and to state:—

That I do not consider these reserves are required in the public interests, and would, therefore, recommend that they be cancelled and declared a special area, and thrown open to selection in one portion as designed.

The portion of the reserves within the resumed area of Bulgandra Pastoral Holding, consists of level box country, with patches of thick pine scrub; the soil is red, sandy loam, suitable for agriculture.

The land is worth £2 10s. per acre; it is distant about 9 miles from the township of Walbundrie, and is easy of access by good level roads; there is no natural water supply on the land, but a fair site for a tank could be obtained; the formation is granitic.

The climate is mild in winter, but warm in summer.

The only improvements on the land consist of an old log fence along the run boundary and road frontage.

There is a Public School on portion 89, built of mud, with galvanised iron roof, and worth about £40, at which there is a fair attendance of children.

The time occupied by me in dealing with this case was one day in the field on 25th April, and a quarter of a day office work.

I have, &c.,
MAURICE BARLOW.

In view of this report, it is recommended that the part of reserves 1,461 and 1,461 extension, within the resumed area of Bulgandra Holding, in the parish of Bulgandry, county of Hume, and indicated by pink tint on enclosed lithograph, marked "A," be revoked, after measurement, with a view to proclamation as special area, at an upset price of 50s. per acre. The remainder of reserve 1,461 is situated within leasehold area of Wallandoon Holding, and no action on that portion is contemplated at present.—WILLIAM ORR, D.S., Wagga Wagga, 18/8/90. The Under Secretary for Lands.

Sir

Sir,

Camp, Yerong Creek, 23 October, 1890.

I have the honor to transmit herewith the plan of one portion of land, containing 140 acres, numbered 94, in the parish of Bulgandry, county of Hume, being subdivision of part of water reserve 1,461, surveyed by me on 25th September, 1890, in accordance with instructions from you dated 10th September, 1890, No. 59.

The country embraced by this survey is of a flat character, timbered with box, pine, and oak, and lightly encumbered with pine scrub. The soil is of a strong, red, loamy nature, and well adapted for pastoral and agricultural purposes.

There is no natural water supply, but an abundant supply of water can be conserved by excavating tanks with drains leading thereto, the subsoil being of a clayey, retentive nature.

The nearest settled township is at Walbundry, distant about 9 miles, and the nearest point of the railway is at Culcairn, distant about 22 miles.

£2 per acre would, I consider, be a fair value for the land.

The District Surveyor, Wagga Wagga.

I have, &c.,

W. A. LIPSCOMB.

Reserves 1,461 and 1,461 extension, county of Hume, portion 94, parish of Bulgandry. Plan approved 12th February, 1891. Subdivision of the abovementioned reserves has been effected, and an area of 140 acres measured in accordance with approved design, with a view to proclamation as special area, at an upset price of 50s., as authorised under Ministerial approval on papers Misc. 90-12,398, enclosed.—WILLIAM ORR, District Surveyor. The Under Secretary for Lands.

Special Area 13,947.

16 April, 1891.

REFERRING to your B.C. of 25th November, 1890, on papers Alb. 90-5,927 enclosed, as to the advisableness of offering for auction sale portions 61 to 64 inclusive, parish of Jimaringle, county of Wakool, I beg to report as follows:—

Portion No. 61 has been amended and 538½ acres of the original area are now comprised in P. P. Littlewood's additional conditional purchase 90-37 confirmed.

The balance of special area No. 11,594, proclaimed 14th June, 1890, comprising portions 71, 60, 63, and 64, is unalienated, and I would recommend that these portions be offered for sale at auction at an upset price of £1 10s. per acre.

Portion No. 60, which was comprised in the original subdivision has now been amended to 347 acres, and it is recommended that reserve 11,595 from sale, pending survey, which covers the land, be cancelled. This portion is, to a certain extent, isolated, as the only selector on the south side of the Niemur River who adjoins it has acquired his full limit of 2,560 acres. It is possible, however, that M. E. Perrignon, on the north side of the river, who has not yet obtained the limit of area allowable, may, after exhaustion of the available land (about 130 acres) on her side of the frontage, be desirous of extending her holding into portion 60, and, as the land from its character and situation is fully worth £1 10s. per acre, I would suggest that for the present it be proclaimed a special area at the price mentioned, with a maximum limit of 347 acres and a minimum of 40 acres.

It is also suggested that a helio, showing the land, might be exhibited at the post-office, Monlamein, as well as at the Lands Office, Deniliquin. Helios for this purpose are enclosed, together with descriptions for publication in the *Government Gazette*.

J. L. TRITTON,

District Surveyor.

The Under Secretary for Lands.

Special Area 14,907.

Reserve from lease No. 8,255, from sale No. 6,700, for water supply.

District Survey Office, Wagga Wagga, 11 July, 1890.

OWING to certain representations made by Mr. Byron Ferry to the Secretary for Lands (Mr. Brunkor), to the effect that during the severe drought that occurred at the close of the year 1888 the pastoral tenant of the Bullenbong Holding prevented the watering of Mr. Ferry's stock at a dam belonging to the Crown on portion 27 (*vide* tracing "A" enclosed), the reservation of portions 26 and 27, parish of Ashcroft, county of Mitchell, was specially directed by the Minister—Misc. 88-16,457—and they were accordingly reserved under the number specified above on the 19th December, 1888.

On the 6th February, 1889, whereas instructed, in furtherance of the Minister's orders, to ascertain if Mr. Ferry's statements were correct, and I have now the honor to report that I at once made inquiries and learned that the pastoral tenant had threatened to take legal proceedings if trespass occurred, and alleged that Mr. Ferry had not availed himself of the opportunities he had of storing a supply.

A period of more than eighteen months has elapsed since Mr. Ferry was granted the privilege of using the tank on portion 27, and we have lately had such a bountiful supply of rain that I deem it my duty to submit the advisableness of calling upon Mr. Ferry to show cause why the reservation from lease should not be revoked.

The reserve is so situated that its reservation permanently from lease for water or any other purpose is not a public necessity, and if it is decided that the privilege should no longer be continued to Mr. Ferry, I would recommend the revocation of the notification and the proclamation of a special area at 40s. per acre, maximum area to be allowed being 304½ acres.

I have, &c.,

WILLIAM ORR,

District Surveyor.

The Under Secretary for Lands.

This report was obtained in accordance with the Minister's instructions on 88-16,457 Misc. herewith. Submitted that the reserves be cancelled, and the land declared a special area, as recommended in the concluding paragraph of the District Surveyor's report.—J.O.D., 16/7/90.

R.H.D., 17/7/90. Special.—F.H.W. (for U.S.), 18/7/90. Approved.—J.N.B., 18/7/90.

Special

Special Area 15,058.

Dear Sir,

Parliament House, 16 April, 1891.

I have the honor to enclose a letter I received in regard to having a reserve thrown open to selection, and would respectfully request that inquiry be made on the subject.

Yours, &c.,

The Under Secretary for Lands.

JAMES GORMLY.

Sir,

Grong Grong, 14 April, 1891.

I have the honor to address these few lines to you, trusting you will use your best endeavours to comply with my request, and get the following piece of land thrown open for selection, which at the present time is termed a water reserve, and there is no water on any portion of it. At the present time it is only used for the squatters' sheep to graze on. This a good piece of land, well suited for agricultural purposes, and it is a shame to see it turned into a reserve for water when there is no water on it, just to suit one, the lessee of the adjoining run. If it is necessary that a petition should be signed by the inhabitants of this district, I will get one and forward it to you as early as possible. Attached is a letter sent to the Lands Inquiry Office, also a fuller plan, showing the land on the map.

I am, &c.,

J. Gormly, Esq., M.P.

THOMAS ARTHUR.

Sir,

Grong Grong, 6 April, 1891.

Will you kindly inform me if the block of land between 91-8,281, camping and travelling stock reserve, and blocks 45 and 46, on the north side of the South-western Railway line is available for selection, in the parish of Lupton, county Bourke, Land District of Narrandera, and oblige.

Yours, &c.,

To the Inquiry Office, Lands Department, Sydney.

JOHN ARTHUR.

Sir,

Camp, 27 May, 1891.

Pursuant of your instructions No. 91-23, of 6th May, 1891, Land Board 91-5,114, I have the honor to inform you that, I, on the 21st instant, inspected water reserve 8,299, in the parish of Lupton, county of Bourke, and within the resumed area of the Burrumbid pastoral holding.

The reserve in question contains about 300 acres, and is situated at the northern side of the railway line, within about 1 mile of the village of Grong Grong, and adjoining camping and travelling stock reserve No. 8,281, containing 499½ acres, and recently notified as a public watering place.

The latter reserve should, I think, be sufficient in this immediate vicinity for the accommodation of the travelling public, and I know of no special reasons why water reserve 8,299 should be further retained, excepting that, as the area is inconsiderable, and Grong Grong is thought by some people to be a rising village, it might, perhaps, be advantageous to retain the reserve for the present, with a view to an increased future price. The soil consists of a good red loam, timbered with box, oak, and pine, and patches of pine scrub. Fairly open country as a whole, and ringed a number of years by lessee (date unknown), at a cost of (say) 1s. per acre for the whole area.

There is no permanent water on the land.

In consideration of proximity to the village of Grong Grong, I consider £3 per acre a fair present value for the land, which, with the exception of ringbarking, is unimproved.

I have, &c.,

A. F. MACKAY,

The Under Secretary for Lands.

Surveyor.

In view of this report, which indicates that the retention of water reserve 8,299, parish Lupton, is not necessary in the public interest, it is recommended that the reserve be revoked after measurement, and the land proclaimed a special area at an upset price of £3 per acre. The reserve adjoins special area No. 8,301, and consequently would not be debarred from special area by circular 90-68 to district surveyors. The reserve was notified on 15th February, 1890, for water supply, No. 91-520.—A. R. GALL (*pro*, and by direction of, the District Surveyor), 9/6/91.

Special Area 14,497.

Sir,

Deniliquin, 11 May, 1891.

I have the honor to transmit herewith the plan of two portions of land containing 885½ acres, numbered 36 and 37, in the parish of Kerranakoon, county of Townsend, within the resumed area of the Marago Pastoral Holding, measured by me on the 9th April, 1891, in accordance with instructions No. 22, of 21st February, 1891.

The land is a black soil, flat timbered with box and gum. The latter is of poor quality, and of no commercial value. The character of this country is not of a first-class nature, but I consider it of sufficient importance to be proclaimed a special area, maximum area, 640 acres, minimum area, 40 acres; price, 30s. per acre.

The subdivision adopted is considered the most appropriate, and is submitted for approval.

It is considered that the retention of a 5-chain road along west boundary is sufficient for public requirements.

The only improvement on this land is 61½ chains six-wire fence on east boundary, portion 41, half value, £7 13s. 6d. This fence is claimed as the property of holder of portion No. 41, who is also licensee of run.

Time occupied, three and a half days in field, and one day in office.

I have, &c.,

J. BROUGHTON.

P.S.—I have every reliance in bearings and distances shown on my plan.—J.B.

The subdivision of reserve 11,168, pending survey, has now been effected (*vide* copy of plan enclosed), and it is recommended that the area subdivided, comprising 885½ acres, be proclaimed a special area at 30s. per acre, and maximum and minimum limit of 640 acres and 40 acres respectively. The necessary descriptions for the cancellation of reserves 11,168, 1,701 from sale, 229 from lease, no longer required in the public interest, and of the proposed special area are enclosed.—J. P. A. GARVIN (for D.S.), 21/8/91. The Under Secretary for Lands.

Special

Special Area 11,482.

14 January, 1890.

THE land comprised on G. Graham's conditional purchase 82-60, being portion 29, parish of Munderoo, county of Selwyn, is in my opinion worth £2 per acre.

The necessary description is enclosed for the proclamation of the land as a special area.

WILLIAM ORR,
District Surveyor.

Special Area 12,279.

Wagga Wagga, 25 June, 1890.

RESERVES, Nos. 6,575, 6,576, 6,577, and 6,578, embracing portions 59, 60, 96 and 97, parish of Billabung, county of Clarendon, having been revoked on 22nd March last, and being on the leasehold area of Bethungra Holding, which determines on the 4th August, 1890, would be then open for selection, but as the land is worth 32s. 6d. per acre, I beg to recommend that the portions in question be proclaimed special areas at that price, with a minimum area of 40 acres, and a maximum of 320 acres. Description enclosed for the action indicated.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.
A.G., 28/6/91.

Special Area 13,598.

Amended Survey.

Tumut, 31 December, 1890.

Sir,

I have the honor to transmit herewith a sketch showing amendment made in the survey of Nos. 145 and 121, in the parish of Hindmarsh, in the county of Wynyard.

The writer of the petition marked out the road required, and pointed it out to me. There is no doubt that the road will prove of great service to the surrounding inhabitants.

The instructions in this case are to Mr. A. H. Chesterman, who transferred them directly to me.

I have, &c.,
R. G. PRATT,
Licensed Surveyor.

Proposed special area:—Portions Nos. 145 and 121, parish of Hindmarsh. The survey of portions 121 and 145, parish of Hindmarsh, county of Wynyard, have been amended so as to front the road. Authorised under Ministerial approval on Mis. 90-10,094, enclosed. These portions were withdrawn from special area No. 11,078, and reserved from sale pending the above action. It is now recommended that the reserve be revoked, and the portions reproclaimed a special area at an upset price of £1 10s. per acre, maximum 160 acres, and descriptions for that purpose are forwarded herewith.—WILLIAM ORR, District Surveyor, Wagga Wagga, 11/2/91. The Under Secretary for Lands.

Sir,

Tumut, 20 June, 1890.

With reference to the enclosed application for a road through portions 121 and 145, parish of Hindmarsh, county of Wynyard, I can recommend that the request be granted, as it will be of great service to the rising industry of fruit-growing in the locality.

I have, &c.,
A. G. PRATT,
Licensed Surveyor.

The District Surveyor, Wagga Wagga.
Noted.—A.G., 27/6/90.

Sir,

Batlow, 20 June, 1890.

On behalf of the residents of Middle and Upper Adelong, I would request that a road be reserved in the position shown on sketch. It would be of great service to us, and we have cleared it at our own expense. As the ground in question will soon be open to conditional sale, I would point out the necessity for dealing with the matter at once. The road which I and others have to use at present is very steep, and entails about a mile extra travelling when going to Adelaide and Tumut. The road I apply for is extensively used for the carriage of fruit, vegetables, &c., and is fairly level and direct.

Yours, &c.,
EZRA W. QUARMBY.

The District Surveyor, Wagga Wagga.

District Survey Office, Wagga Wagga, 3 July, 1890.

Area, 125 acres;
portions 121
and 145.

It is recommended that the defined area specified in margin, and situate in the county of Wynyard, parish of Hindmarsh, be withdrawn from special area No. 11,078 of 24th May, 1890, under the provisions of the 18th clause of the Crown Lands Act, pending consideration as to whether a road should be reserved through the portions.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands. A.G., 3/7/90.

District Survey Office, Wagga Wagga, 3 July, 1890.

Area, 125 acres;
portions 121
and 145.

It is recommended that the defined area specified in margin, and situate in the county of Wynyard, parish Hindmarsh, be reserved from sale pending survey under the provisions of the 101st clause of the Crown Lands Act, pending consideration as to whether a road should be reserved through the portion, representations having recently been made to me that a road, not provided for in the original survey, would be of great service to the public.

WILLIAM ORR,
District Surveyor.

The Under Secretary for Lands.

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS.

(APPRAISEMENTS OF RENTS AND LICENSE FEES OF.)

Ordered by the Legislative Assembly to be printed, 6 October, 1892.

RETURN (in part) to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 19th August, 1891, That there be laid upon the Table of this House,—

“Copies of all papers having reference to the appraisalment of rents of pastoral leases, conditional leases, and license fees of resumed areas, including letter or memorandum from the Chairman and Members of the Local Land Board, at Forbes, dated 29th January, 1887; also copies of letters from the Chairman of the Local Land Board, Forbes, dated respectively 6th March, 1891, and 4th April, 1891.”

(*Mr. Hutchinson.*)

SCHEDULE.

NO.	PAGE.
1. The Chairman of the Local Land Board, Forbes, to the Under Secretary for Lands, explaining basis upon which rents of pastoral leases, &c., have been calculated. 31 January, 1887	1
2. The same to the same. 6 March, 1891	3
3. The same to the same. 4 April, 1891	4

No. 1.

The Chairman, Local Land Board, Forbes, to The Under Secretary for Lands.

Sir,

Local Land Board Office, Forbes, 31 January, 1887.

I have the honor to enclose herein a memorandum submitted by the Board, explaining the basis upon which rents of pastoral leases and fees of occupation licenses have been calculated. Under separate cover I also send you the papers in connection with fifteen holdings which have been appraised at Forbes.

As this is the first batch of cases dealt with by any of the Boards of which I am Chairman, I shall be glad to receive your instructions if you wish to direct any alteration in the mode of procedure or basis of calculation.

The Members of the Board wish me to invite your attention to the reports and evidence of Mr. Inspector Combes, and to express the great satisfaction they have in bringing under your notice the excellent manner in which he has done his work, and the thorough knowledge of the subject he has shown when under examination in the witness-box and called upon to verify his statements. I have much pleasure in adding to this recommendation my entire approval.

I may add that I anticipate equally good results from the work of the other two gentlemen employed in other parts of the district.

I have, &c.,

J. R. EDWARDS,
Chairman.

List of Runs:—Bundaburra, 446; Wowingoragong, 340; Walla Walla and Carragatcl, 570; Wandary, 21; Wongajong, 396; Bandon, 647; Back Daroualgie, 632; Back Yamma, 521; Bocabigal, 549; Eugowra, 656; Lower Daroualgie, 568; Tomanbil, 653; Yamma, 215; Nanima, 593; Upper Daroualgie, 286.

MEMORANDUM by local Land Board at Forbes to the Honorable the Secretary for Lands as to the appraisalment of rents and license fees of leasehold and resumed areas.

In considering the rents of leasehold areas we have had to formulate a standard for ourselves. The Act states (section 78, sub-section II) that the Board shall conduct all appraisements in the prescribed manner. No manner has been prescribed, nor has any standard, beyond the provisions of the Act, been suggested.

We have at various times taken a good deal of evidence as to conditional leases from which we gleaned, to some extent, what would be a fair rental per head for sheep under certain conditions and circumstances; but in most of those cases the lessees had little experience as to stock, and some of the surveyors who inspected the land and gave evidence, displayed a lamentable want of knowledge of the subject, and somewhat hampered our action by suggesting a rent which was not based on a sufficient knowledge of the subject.

In the cases of pastoral holdings we have been therefore compelled to adopt a course somewhat independent of that which obtained as regards conditional leases.

As regards pastoral leases the Minister determines the rents, the Boards merely take evidence and appraise so as to enable him to do so; therefore we think the Minister should know clearly the lines upon which our appraisements are based, so as to enable him to arrive at a sound conclusion, and with this view we submit the following.—

1. The colony of Victoria has fixed the rent for pastoral allotments under the Land Act of 1884 (*vide* section 2^c) at 1s. per sheep on the basis of 10 acres to one sheep. That would be, for the purpose of illustration, say, country capable of carrying one sheep to 5 acres, the rent would be 2½d. and ¾ farth. per acre; but the lease is for fourteen years (*vide* section 21) without increase, and the outgoing tenant is allowed compensation for improvements (*vide* section 28) necessary for working the holding in the shape of water conservation and fencing at the rate of the sum actually paid; provided it does not exceed 2s. 6d. per acre. Our Land Act allows no such privilege, the duration of our leases is probably shorter, and the rent is increased by statute for the second five years.
2. The Queensland law is of little guidance to us, as the latitude, climate, and circumstances, and conditions of the two colonies are totally different, but making the necessary allowances for those differences some information may be gleaned as to what is thought a fair rent for grazing stock. By the Queensland Crown Lands Act of 1884 a pastoral lessee cannot be charged more than £4 10s. nor less than 10s. per section of 640 acres, that is, not more than 1½d. and ¾ farth. nor less than three-fourths of one farthing per acre, and useless mountainous or scrub country is not charged for.
3. We think that any absolute rate of rent for holdings as in Victoria, even for land of the same quality, would prove unjust, for the lessee whose run may be within a few miles of a railway station should pay more, all other things being equal, than the lessee whose holding may be 200 miles or more from any such station; because (a) the lessee close to a railway station would be able to take advantage of any temporary rise, or anticipated rise in the market, either as regards the price of stock or wool; and (b) because the cost of carriage or droving to the metropolis, and the cost of obtaining supplies thence would be considerably less the nearer the holding might be to a railway.
4. From the evidence produced before us as to conditional and pastoral leases, our own experience, the laws of other colonies, and the consideration of statistics, we have arrived at a rate which we think will be fair between the lessee and the Crown as a rent per head per sheep.
5. The cases have been considered on the basis of a scale which we have given below, but each one may present slightly varying circumstances to permit of a small portion being adjusted for or against the lessee. In such cases we have generally noted the fact on the covering paper; or it may be that the holding is on the margin of the scale, showing the distances from railway station. We think the variation in distance, as assigned by our scale, sufficiently small for all practical purposes.
6. We therefore consider that lessees can pay rent per head of sheep as per scale.

Distance of Holding from Railway Station.	Rate per head of Sheep per annum.
Under 20 miles.....	10d.
20 to 60 miles.....	9d.
60 to 110 miles.....	8d.
110 to 160 miles.....	7½d.

The carrying capabilities will have to be adjusted to this scale.

7. The Legislature has drawn a distinction of one-half between the minimum rent of a pastoral lease and an occupation license. We have adopted this rule.
8. In some instances we do not think the land worth the minimum; but those cases may come before us again, and we have refrained from comment.
9. The annual charge for use of improvements on forfeited lands, we think, is a charge distinct from the rent or license fee, and we have appraised accordingly. Where the grazing capabilities are so inferior that with the value of improvements added to a fair rent the minimum would not be reached, we have recommended that no charge be made for the annual value of the improvements.
10. If, therefore, our appraisements, which are after all only in the nature of reports, do not meet the views of the Minister, he can see at a glance what the rent should be.
11. It would be as inconvenient as unnecessary to repeat this statement on each case, but it will be the basis of all our appraisements in the Land Districts of Forbes and Parkes; and the scale is considered by us as a guide as far as those districts only are concerned.

J. R. EDWARDS, Chairman.

ERNEST A. L. SHARPE, }
G. F. HUTCHINSON, } Members.

29 January, 1887.

No. 2.

The Chairman, Local Land Board, Forbes, to The Under Secretary for Lands.

Sir,

Court-house, Parkes, 6 March, 1891.

I have the honor to reply to your letter of the 2nd instant, requesting a report as to the basis of appraisement, and the method of calculation adopted by the Board in arriving at the rental values of pastoral and conditional leases and occupation licenses, &c.

As far as I am personally concerned, it would be impossible for me to convey any sufficiently reliable information within the limits of a letter, as to the methods which guide me in dealing with the various cases, to be of any service so as to guide another in following the intricate details that have worked out a result. The methods employed by me are based on the result of nearly a life's experience, having made stock a study; and also, in addition to this, I have for the past five years compiled statistics from official documents, sworn testimony, and other reliable sources, with the special object of appraising a fair annual rental for Crown lands.

Speaking generally, I may state that the underlying principle that has guided the Boards over which I preside in making their appraisements is what the lessee or licensee should be called upon to pay for the agistment of stock, or use of the land in certain situations and under ascertained circumstances.

A pastoral lessee holds his land for grazing purposes only, and *ceteris paribus* the Legislature has drawn a distinction of one half value between the leasehold and resumed area. The conditional lessee has a tenure of fifteen years, and the right of purchase at any time, as against the pastoral lessee's tenure of (now) five years with no right to purchase. The conditional lessee can also utilise his land, perhaps, for agricultural purposes, whilst such a pursuit would be wholly unsuited to a pastoral lessee, nor would he be justified in incurring the cost necessary to enable him to do so. The rate, therefore, of the conditional lessee should be higher than that of the pastoral lessee. But the fact must not be lost sight of that the Legislature granted these grazing areas (conditional leases) with a view to nursing the industry, energy, and capital of the selector till he can convert his conditional lease into a freehold; and having fixed a moderate deposit for the conditional purchase, and payment of the balance by instalments, with interest on the unpaid balance of capital, the interest may be regarded as rent. The rent on the conditional lease should not exceed this, except in very exceptional cases, which could be named. The interest on the balance of instalment on a conditional purchase amounts, as an average, to 4.43 pence per acre per annum, and the rent of a conditional lease should not, as a rule, be more than this. To assess more would be to compel the conditional lessee to convert his holding into a conditional purchase, and thus offend against the intention of the Legislature.

It would be impossible to lay down any rule of general application for the appraisement of rents of Crown lands, as each case varies, and sometimes on very material points, which can be gathered only from a careful balance of testimony, guided by a thorough and competent knowledge of the subject. No one not thoroughly conversant with pastoral and agricultural pursuits, and possessing an undoubted knowledge of income and expenditure, profit and loss of each, could hope to make a mere approximation to correctness.

If you look, for instance, at the evidence taken at Condobolin Land Board last January and February, particularly as to Carlishe, Condobolin, Borna West, Gulgo, and South Condobolin pastoral holdings, you may observe how the description of the country varies, and that, except in the case of Mr. Inspector Lowe, who brings to bear sound judgment, founded on great and varied experience, the Inspector's evidence cannot always be taken as a guide; indeed, in nearly every instance at Condobolin (except in Mr. Lowe's case) the appraisements were much higher than the Inspector's opinion of the carrying capability warranted.

Having gotten the whole of the evidence and weighed it carefully, technical knowledge then enables the appraiser to say what the kind of country described will carry, and what is its value, *i.e.*, how many acres it will take to carry a sheep, and what will be the value of the stock, or the stock and wool. On one occasion I examined two two-tooth ewe hoggets produced in Court. It was sworn that they were from the same stock, and that no difference could be pointed out in their progenitors. One was off country covered with winter grass, corkscrew grass, Bindii and scrub. The other was off clean country. The first ewe was wretchedly poor and ill-formed; the belly and inside of the legs were bare, and the rest of the body thinly covered; the pile was thin, staple, short, tender and lustreless; the fleece was nearly felted with grass-seed and burr, and the skin was an unhealthy blue or grey colour. There was but little wool, and it would not realise more than 3½d. to 4d. per pound. The other ewe was well conditioned, well clothed, and had a magnificent form, with head well set on. The wool was long, bright, elastic, strong, soft, dense, the serrations deep, and free from dirt; the skin was a very healthy pink; the fleece on this sheep was abundant, and would yield fully 4½d. or 5d. per lb. more than that off the other.

An expert, after hearing reliable evidence describing country minutely, could at once decide which kind of sheep it would produce, or any intermediate kind, and determine its values.

Two holdings having only a boundary line between them, may be described as exactly alike as to timber, rocks, and grass, and each capable of carrying one sheep to five acres when fully supplied with water, even in a natural state; but they may require totally different treatment, and it would be manifestly unjust to make both lessees pay the same rent, sheep cannot exist without water, and one holding may be fully watered naturally, whilst the other is waterless. The lessee on the dry country has to conserve water, and expend a large sum of money to do so, and although he may, at the end of his tenure, secure the principal expended, he is losing interest on the outlay, in the meantime, in the nature of ground rent to bring up the land to the carrying capability of his neighbours who has had everything done for him by nature.

Then there are other things to be considered, such as travelling-stock routes and camping reserves, the distance from market, timber, scrub, shrubs, herbs, grasses, soil, rock formation, salt required, if any and its cost, water necessary on waterless country at a certain number of gallons per sheep, at a certain rainfall, and allowing for soakage, evaporation, &c., and hundreds of other matters which are ever varying. A thorough knowledge of each is necessary to enable any one to decide what rent should be placed upon Crown lands, and without such knowledge a decision must of necessity be a failure. A description, however, of the kind of knowledge necessary for this operation is of such a delicately technical character as to be incapable of reduction by weights and measures, or paper description except in a very elaborate volume.

To

To ascertain the carrying capability is, therefore, a mental operation, and the mind must be stored with facts to arrive at fair accuracy.

Having then ascertained in the mind what is the fair carrying capacity or the holding, and what is a fair rate to pay per head for grazing stock in that locality, the rest is mere arithmetic of division, subtraction, and addition. The same rules apply to the resumed area, the final result being divided by two.

The rate for conditional leases should, of course, be higher, because the tenure is better in every way. There are many other considerations, too, to be taken into account as to conditional leases that cannot apply to pastoral leases or occupation licenses, I may mention one. A conditional lease might be apparently worthless, barren soil, rocky ranges, densely timbered, and waterless; but it might contain very valuable timber, which the lessee could cut down and sell in two years and then throw up the lease. In this case the rent should be very high, and the Boards never neglect their duty in a case of this kind.

I have, &c.,

J. R. EDWARDS,
Chairman.

Submitted.—W.H., 25/3/91.

No. 3.

The Chairman, Local Land Board, Forbes, to The Under Secretary for Lands.

Sir,

Local Land Board Office, Forbes, 4 April, 1891.

I have the honor to inform you that upon receipt of your letter of the 2nd of March last (Occupation, 91-2,469), bearing upon the subject of pastoral and conditional leases and occupation licenses, I was at Parkes, in the midst of a Land Board meeting, and drafted my letter of the 6th of March, and sent it to Forbes to be copied and forwarded to you.

When writing that letter I was absent from headquarters, and had not access to papers; but I had in view the fact that I had submitted, in 1887, an elaborate explanation of the *modus operandi* by which the rents were appraised, and I assumed that the paper was before you, and had been perused. But upon reviewing my letter of the 6th of March, I can see that if it be connected with the memorandum of the 29th of January, 1887, it will be misleading.

As it is my desire to afford you all the information in my power, allow me to go back to 1886, or earlier. From head office experience while floating the Act of 1884, and knowing all the possibilities that might arise under it, that the appraisement of pastoral leases would be an important feature of its administration, upon taking the chairmanship, one of the first things I set about was collecting reliable statistics of every kind bearing upon pastoral pursuits. I collected circulars and reports from woolbrokers (amongst these that of Henry Haigh and Son, with their circular of the 1st of May, 1886), the chart showing the London wool sales for fleece from 1865 to 1886. I obtained, also, list of stock for sale, classified, with the prices added, from all the commission agents in these districts. I took into account, also, reports in reliable newspapers, such as the *English Economist*, the *Sydney Morning Herald*, &c., the statistical registers for several years, the stock reports, copies of depositions taken by other Boards than those in these districts, which had to deal with the subject, before I commenced, and evidence compiled with great care in reference to conditional leases. These yielded facts as to yield per sheep, cost of management, weight and value of fleece and carcass, &c. This information supplied elements, and enabled me to construct a scale revealing a fair basis as a rate for sheep to pay for grazing. That scale I submitted, with an explanatory memorandum, on the 29th of January, 1887. But that scale was based on the assumption that the pastoral lessee would lose his holding at the end of his current term, without compensation for improvements, and that for the second period of five years; the law would load the rent with 25 per centum additional.

When the Act of 1889 was introduced I saw at once that the rates, when reappraising, would have to be raised considerably, as the new tenure and fresh conditions attached to pastoral leases were much more favourable to the lessees than under the Act of 1884. It was observable that there was a probability (however remote in these districts) of the lease being renewed, and that the lessees could in any case secure the value of their improvements at the end of their tenancy by converting the leasehold into an occupation license, and that the 25 per cent. additional was abolished. The 25 per cent. increase had been allowed for when compiling the scale of 1887.

Since the appraisements in 1887 I have been piling up information as to income and expenditure, and obtaining information from all sources likely to prove of service. Neither have I lost sight of the altered conditions of the country as affecting capital and labour, with the probabilities or otherwise of the conflict continuing. Applying my own knowledge and experience to all these elements, I endeavoured to construct a fresh scale as a mere crude basis for operation. It will be seen that it is much higher than the scale of 1887, and more graduated. I cannot state that this scale guided the other members of the Boards wholly, but it was explained to them, and they knew my method of working. But whether it guided them or not, where we were unanimous the result was the same.

I submit the scale:—

Miles from Railway.							
0 to 15	14d. per head.
15 to 40	13d. "
40 to 70	12d. "
70 to 100	11d. "
100 to 130	10d. "
130 to 160	9d. "
Beyond...	8d. "

Now I wish earnestly to point out that this scale in the hands of a novice would be, like Dr. Koch's remedy, fraught with the greatest danger. I shall, therefore, as well as I can within the limits of a letter, explain its operation.

Firstly, it should be noticed that it has been compiled for this part of the country alone, where there are characteristics peculiar to the districts.

Secondly,

Secondly, it may be noted that if an average be struck the rate per head, as an agistment fee, is 11d. The general impression among experienced men is that 9d. per head is sufficient. But an absolute scale of any kind, as I pointed out in my memorandum of 1887 would be unjust, as a lessee close to market or railway-station can pay more than one over 100 miles distant. A man at a great distance from railway has to face not only the disadvantages of often missing a rise in market prices, but he has also to pay greater cartage both ways, and loses considerably on his stock by drovage. Even in these districts, a lessee within 40 miles of Orange can afford to pay more than a man whose holding is the same distance from Nevertire (*vide* railway map), and the rate in the scale would have to be adjusted to meet cases of this kind. The scale cannot therefore be regarded as absolute, but as a reliable guide in the hands of one competent to use it. I have already, in my letter of the 6th of March, pointed out what should guide any one in his appraisements before giving a decision. I may now show, by way of further illustration, some of the views I hold, and which have guided me in the appraisements, and also the methods I have employed in using the scale. In the construction of the scale, and in estimating the value of the country, I have not lost sight of the fact that the law makes a great difference as to a contract between the Crown and a Crown lessee, and to private individuals. In the first case the lessee is part owner; in the second the occupier is a mere tenant having no interest in the land beyond his tenancy. The private tenant yields nothing during his tenure beyond the stipulated rent, absorbing all the profits; the Crown tenant produces national wealth, by extracting it from the soil, in the shape of wool, tallow, hides, beef, mutton, and other sources which increase the general revenue, as well as employing a large amount of labour, which should always be considered a source of national prosperity so long as it is profitably employed. These assertions do not encroach on grounds of Policy, the facts can be gathered from the Common and Statute Law.

After having taken volumes of evidence in these districts, I was unable to find that anywhere the gross return for sheep—both wool and increase—exceeded 5s. 2d. annually, or that, after deducting working expenses, and without allowing anything for interest on the capital sunk in purchase of station and making of improvements, I could not discover that the net return was more than 2s. 3d. per head. Indeed, those rates are exceptional, the majority of cases showing much less. But say that these maximum rates prevailed, then from it I take 11d. for rent. That leaves the lessee 1s. 4d. to meet interest on capital sunk, and the contingencies of drought, floods, grass-seed, burr, and disease. So far for the elements.

While on this branch of the subject I may invite your attention to the evidence referred to in my letter of the 6th of March last, and also to my remarks as to the colonies of Victoria and Queensland, in the letter of the 29th of January, 1887. The scale I submitted in 1887 and the one I forward now should also be compared, as they were compiled under entirely different states of the law.

The first thing necessary to put the scale in operation is to ascertain how many acres of the country under review will carry one sheep. To find this, the Board ought to be able, after hearing a description of the country, to fix it fairly apart from the witness's opinion. If that opinion come from a man of sound and mature judgment, it will be valuable; but *vice versa* it will be worthless. Judging the carrying capability of the country from the description is debatable ground; and it is just here where error can creep in. But if men having large experience in pastoral pursuits are liable to error, how much more must anyone be who has had no such experience, or possesses no knowledge of the subject. The opinion, and, therefore, the decision, will be valuable or worthless in proportion to the qualification of the appraiser. The Boards are, of course, the appraisers. It seems to me also that the Crown lessee should be charged at the rate per sheep on what the country will carry in its natural state with water, making an allowance for conservation of water where that is proved to be necessary. If the lessee choose to spend money in ringbarking, clearing scrub, or laying down artificial grasses, or in other modes of improving the country to make it carry more stock, he should not, I think, be charged a higher rent on the increased carrying capacity any more than he should have his rent increased because he purchased and kept none but stud or pure-bred sheep. To do so would be to tax his capital apart from his rent. The expenditure in the way indicated is a commercial speculation that benefits the lessee and also the State, because he will leave an improved property behind him. The cost of fencing I have allowed to go for nothing in the estimation of rent, because the sheep must be kept, and fencing is more profitable than shepherding; and although shepherds' wages would increase the annual working expenses, I have allowed the interest on fencing to be taken from the net profits.

Having then ascertained that, say, 5 acres will maintain a sheep all the year round in an average season of ten years, if fully supplied with water, and that the holding is 115 miles from a railway station, my scale applies, and at 10d. per head would give the rent at 2d. per acre.

But here other elements come in. It may be that two holdings, side by side, have to be appraised; both may be classed alike, except that one is fully supplied with abundance of natural water, while the other is waterless country. The scale would work them both out at 2d. per acre, but it would be manifestly unjust to assess them both alike.

In these districts we have an average rainfall of about 20 inches, and after the most careful calculation, I do not think any lessee would be justified in providing less than 2½ cubic yards per sheep by excavation. The value of tanks or dams can be secured at the end of the lessee's term, by his converting his leasehold area into an occupation license, but in the meantime he is paying interest or is entitled to receive an equivalent on the outlay, which can only be regarded in the nature of ground rent to put his holding on an equal footing with his neighbours. Say the holding is 35,000 acres, at 5 acres to 1 sheep, the country will carry 7,000 sheep. At 2½ yards per sheep, it will require an excavation of 17,500 yards, and at 1s. per yard the cost will be £875. I think that 5 per cent. is a fair allowance on this outlay, and that will give £43 15s. per annum. Divide this sum by the area of the run and we have 0.3 of 1d. per acre to come off the rent. Then the lessee with natural water will pay 2d. per acre, and the lessee who has had to incur the cost of conservation will pay 1.7d. per acre. This will make both holders equal as to rent.

Another factor is travelling-stock routes, say that the two holdings just mentioned were watered naturally, but one had a travelling-stock route traversing it, and making one-eighth of the whole area, and, as is not unusual, more than 100,000 sheep passing through it annually. These sheep eat the grass, bring grass seed, burrs, and disease, and necessitate a man to be often employed to see them off the run. The lessee pays rent for this route, and as it is one-eighth of the whole area, if it were that detriment,

detriment, one-eighth would have to come off the rent, but this seldom happens. The difficulty is to ascertain how much should be allowed. But suppose that the Board should decide that it was only one twenty-fifth depreciation, and the rent was assessed at 2d., then one twenty-fifth off would leave the rent at 1'92d. per acre. The two holders would then be paying equal rents.

There are many other things to be considered, such as the cost of salt, liability of country to disease, and above all the quality of the country.

It should not be lost sight of that the poorer the country the more it costs to work it and the less the return, the fences are longer, more boundary riding is required, greater water conservation is necessary, as tanks of less than 3,000 yards are unsafe, and sheep can travel only a certain distance to water, and the yield from sheep off poor country is always less than from those reared on rich pasture. I may mention here that in most cases appraised at Condobolin, the cost of salt, where it was necessary, allowing half a ton per thousand, and the cost of carriage and putting the salt out, &c., was 1½d. per head. I think you will find this sworn to in the case of the Condobolin leasehold area.

By sub-section (2) of section 78 of the Act of 1884, the minimum rent of a pastoral lease is fixed at 1½d. per acre; and by sub-section (1) of section 81 the minimum fee for an occupation license is prescribed as £2 per section of 640 acres, or equal to ¼d. per acre. The Legislature has therefore drawn a distinction between the leasehold area and the occupation-licensed land, making the latter one half the former, all other things being equal of course. My scale should be worked as for a leasehold area, and then divided by two in the case of a resumed area.

In my communication of the 6th March last, I pointed out that conditional leases should be treated by a special method, but I may here add that if the country should be considered as grazing land only, then my scale would apply if increased by about 2d. per head.

I sincerely hope that I have made this question plain, and fully explained the principles that have guided me in rent appraisements. As my three communications on this subject should be read together, I ask that my memorandum of the 29th January, 1887; my letter of the 6th of March last; and this letter, be specially laid before the Secretary for Lands.

I have, &c.,
J. R. EDWARDS,
Chairman.

1892.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CROWN LANDS.

(RETURN RESPECTING APPLICATION BY MESSRS. ROBSON AND SCHOFIELD FOR ANNUAL LEASES AT NUNDLE AND GRANT FOR COMMON FOR RESIDENTS OF HAPPY VALLEY.)

Ordered by the Legislative Assembly to be printed, 11 October, 1892.

[Laid on the Table of the House in accordance with a promise made by the Secretary for Lands to Mr. Levien, M.P.]

Application by Alexander Robson for an Annual Lease,
Parish Nundle, County Parry.

SCHEDULE.

NO.	PAGE.
1. Application by Alexander Robson for an annual lease of 1,280 acres, parish Nundle, county Parry. 19 February, 1892	1
2. Report by the District Surveyor, Tamworth. 8 March, 1892	1
3. Decision of Local Land Board. 14 March, 1892	2
4. Decision of Local Land Board. 14 June, 1892	2

No. 1.

Application by Alexander Robson for an annual lease.

Crown Lands Acts—Regulation No. 133.—Application for an annual lease.

I, ALEXANDER ROBSON, hereby apply for an annual lease of the lands described hereunder; and I tender herewith a deposit of £4.

Signed this 19th day of February, 1892,—

ALEXANDER ROBSON, Nundle.

Description of the land applied for.

Eastern Division, Land District of Tamworth, county of Parry, parish of Nundle, 1,280 acres: Commencing at the north-east corner of Nundle temporary common, to adjoin an annual lease of 1,920 acres of this date; thence by part of the south boundary of that lease easterly to the Hanging Rock temporary common; thence by part of the western boundary of that common to Happy Valley Creek; thence by that creek and part of the eastern boundary of the temporary common, to point of commencement,—exclusive of land held under lawful mining and other occupation.

To the Land Agent at Tamworth.

Received the sum of £4 as deposit on the above application.

19th February, 1892.

E. G. MARKHAM,
Land Agent.

No. 2.

Report by the District Surveyor, Tamworth.

Annual Lease, Tamworth Land District.

REPORT of the District Surveyor upon annual lease No. 92-26, dated 19th February, 1892, for 1,280 acres, parish Nundle, county Parry, applied for under section 33 of Crown Lands Act of 1889, by Alexander Robson.

No. 92-102 appears available, but only contains about 1,000 acres. Subject to the adoption of my recommendation of even date, on applicant's adjacent annual lease 92-25, allotment of about 1,280 acres, is recommended as shown by red hatching, provided it is considered that the granting of such a lease is not objectionable on the grounds of interference with mining.

I possess no information as to the annual value of this land, but it is in close proximity to Nundle, and forms part of its population area.

8th March, 1892.

FRED. POATE, D.S.

Attention is invited to Papers L.B. 92-2,100, and it is pointed out that the land applied for is exclusive of any held under lawful mining and other occupations.—F.P., 10/3/92.
The Chairman of the Local Land Board, Tamworth.

No. 3.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit.

WHEREAS on the 14th day of March, 1892, it became a matter for investigation before us whether the application No. 92-26, made at Tamworth, by Alexander Robson, for annual lease of 1,280 acres, parish of Nundle, county of Parry, should be granted, and having inquired into the said matter, we deferred action pending report by District Surveyor on L.B. 92-2,100, Tamworth, conveying protest from Nundle Progress Committee and L.B. 92-240, Tamworth, covering petition from residents of Happy Valley and others for the land for commonage purposes.

Applicant in attendance states he will be satisfied to have his annual lease granted so as to exclude the southernmost 500 acres, provided this 500 acres be not annually leased to any other person, but set apart for the use of the residents.

Given under our hands at Board Room, at Tamworth, in the Colony of New South Wales, this 14th day of March, 1892,—

WILLIAM FREEMAN, Chairman.
JAS. GARLAND,
THOS. R. HUTCHINGS, } Members.

No. 4.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit.

WHEREAS on the 14th March and 14th day of June, 1892, it became a matter for investigation before us whether annual lease application No. 92-26, made at Tamworth, by Alexander Robson, for annual lease of 1,280 acres, parish of Nundle, county of Parry, should be granted, and having taken evidence and inquired into the said matter, we allotted the annual lease for 1,280 acres in the modified form defined by red hatching on diagram tracing enclosed; subject to the conditions that free access to the land be permitted to miners, that mining operations be in no way interfered with, and that miners shall have free agistment on the lease for their stock actually used in connection with the mining operations.

We appraised the annual rental at £2 13s. 4d. per section of 640 acres. W. F.

Applicant attended on the 14th March, but not to-day.

Given under our Hands, at Board Room, at Tamworth, in the Colony of New South, this 14th day of June, 1892,—

WILLIAM FREEMAN, Chairman.
JAS. GARLAND,
THOS. R. HUTCHINGS, } Members.

Application by Alexander Robson for an Annual Lease, Parish Nundle, Dungowen, County Parry.

SCHEDULE.

1.	Application by Alexander Robson for an annual lease of 1,920 acres, parish Nundle, Dungowen, county Parry. 19 February, 1892	2
2.	Report by the District Surveyor, Tamworth. 8 March, 1892	3
3.	Decision of the Local Land Board, Tamworth. 14 March, 1892	3
4.	Mr. Thomas Lyons to Clerk-in-charge, Local Land Board, Tamworth. 23 March, 1892	3
5.	Decision of Local Land Board, Tamworth. 14 June, 1892	3

No. I.

Application by Alexander Robson for an annual lease.

Crown Lands Acts—Regulation No. 133.—Application for an annual lease.

I, ALEXANDER ROBSON, hereby apply for an annual lease of the lands described hereunder; and I tender herewith a deposit of £6.

Signed this 19th day of February, 1892,—

ALEXANDER ROBSON, Nundle.

Description of land applied for.

Eastern Division, Tamworth, Land District of Tamworth, county of Parry, parishes of Nundle and Dungowen, 1,920 acres: Commencing at the north-east corner of the Nundle temporary common; and bounded thence partly on the south by a line easterly to the Hanging Rock temporary common, R. 160 from lease; thence by a part of the western boundary of that common northerly about 65 chains; thence westerly by the Bowling Alley Point temporary common, R. 101 from lease, to the Peel River; thence by that river southerly to the northern boundary of the Nundle temporary common; thence by the northern boundary of that common to point of commencement,—exclusive of land held under lawful mining and other occupations.

To the Land Agent at Tamworth.

Received the sum of £6 as deposit on the above application.

19th February, 1892.

E. G. MARKHAM,
Land Agent.

No. 2.

Report by the District Surveyor, Tamworth.

Annual Lease, Tamworth Land District.

8 March, 1892.

REPORT of the District Surveyor upon annual lease No. 92-25, dated 19 February, 1892, for 1,920 acres, parishes Nundle and Dungowan, county Perry, applied for under section 33 of Crown Lands Act of 1889, by Alexander Robson.

92-101 appears available, but contains about 280 acres in excess of the maximum area of 1,920 acres.

The only objection I am aware of in connection with the approval of this application is on account of possible interference with mining, subject to which allotment of 1,920 acres is recommended as shown by red hatching.

I possess no information as to the annual value of this land, but it lies in close proximity to Nundle, and forms part of its population area.

Attention is invited to my report of even date on applicant's adjacent annual lease 92-26.

FRED. POATE, D.S.

Attention is invited to papers L.B. 92-2,100 and it is pointed out the land applied for is exclusive of land held under lawful mining and other occupation.—F.P.
The Chairman of the Local Land Board, Tamworth.

No. 3.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }

WHEREAS on the 14th day of March, 1892, it became a matter for investigation before us whether the application No. 92-25, made at Tamworth, by Alexander Robson, for annual lease of 1,920 acres, parishes of Nundle and Dungowan, county of Parry, should be granted, and having taken evidence and inquired into the said matter, we deferred action pending report by District Surveyor on L.B. 92, 2,100, Tamworth, conveying protest from Nundle Progress Committee, and L.B. 92-2,401, Tamworth, covering petition from residents of Happy Valley and others for part of the land for commonage purposes.

Applicant, present, claims to have 1,920 acres in pursuance of sec. 33, C. L. Act of 1884, being the first applicant for the land.

Given under our hands, at Board Room, at Tamworth, in the Colony of New South Wales, this 14th day of March, 1892,—

No. 1.

Application by John Schofield for an annual lease.

Crown Lands Acts—Regulation No. 133.—Application for an annual lease.

I, JOHN SCHOFIELD, hereby apply for an annual lease of the lands described hereunder; and I tender herewith a deposit of £6.

Signed, this 19th day of February, 1892,—

JOHN SCHOFIELD,
Nundle.

Description of the land applied for.

Eastern Division, Land District of Tamworth, county of Parry, parish of Nundle, 1,920 acres: Commencing at the south-east corner of portion No. 49; and bounded thence by the Nundle Creek, southerly to the population boundary; thence by that boundary easterly to the south-west corner of Hanging Rock reserve No. 160; thence on the east by that reserve boundary, northerly to Happy Valley Creek; thence by that creek and the eastern boundary of the temporary common; thence by the Oakenville Creek to the north-east corner of reserve 83; thence by the east and part of the south boundary of that reserve to north-east corner, portion 48; thence to point of commencement,—to exclude land held under lawful mining or other occupation, to embrace the area if available.
To the Land Agent at Tamworth.

Received the sum of £6 as deposit on the above application.

19th February, 1892.

E. G. MARKHAM,
Land Agent.

Case to be set down for Tamworth on 15th June, 1892. Annual lease No. 92-24, of 1,920 acres, parish of Nundle, county of Parry, John Schofield. Papers returned from Under Secretary now with the District Surveyor. For Board meeting at Tamworth, on 14th June, 1892. Notice sent to John Schofield.—T.W.W., 30/5/92.

No. 2.

Report by the District Surveyor, Tamworth.

Annual Lease, Tamworth Land District.

REPORT of the District Surveyor upon annual lease No. 92-24, dated 19th February, 1892, for 1,920 acres, parish Nundle, county Parry, applied for under section 33 of Crown Lands Act of 1889, by John Schofield, appears available, and I am aware of no objection to approval of this application other than a possible interference with mining operations. I possess no information as to the annual value of the land, but it is close to Nundle, and adjoins part of the temporary common. In the event of the lease being granted, applicant should probably be informed that he will have no right of interference with travelling stock using those parts of travelling stock reserves Nos. 13,176 and 339, included in this area.

FREDERICK POATE, D.S.

8th March, 1892.

Attention is invited to papers, L.B. 92-2,100, and it is pointed out that the land applied for is exclusive of land held under lawful mining, or other occupation.—F.P., 10/3/92.

THOS. R. HUTCHINGS, } Members.

[Enclosure.]

THIS deponent, *Frederick Poate*, of Tamworth, District Surveyor, being duly sworn, maketh oath, and saith as follows :— On the 1st June instant, I met the following trustees of the Nundle Common: John Schofield (Chairman), George Davidson, jun., John Hodges, and Alex. M'Clelland (secretary), and found that there were no commoners at Nundle within the meaning of the Commons Act. A so-called commoners' roll was produced by the secretary containing forty-six names, which were obtained partly in response to notices exhibited at the Court-house and elsewhere, at Nundle, asking the commoners to inform the trustees of the numbers and bounds of stock they wished to run on the common, and partly by the secretary inscribing names that he considered should be on the roll; thirty-two names were obtained as the result of the notices; the names and number of stock run will be supplied, as now read. (See document marked "List A," and dated 14th June, 1892, now enclosed herewith.—W.F., 14 June, 1892). The present trustees have just entered into office, and, prior to their taking office, the Nundle Common was used for the advantage of a few persons. The trustees informed me that they have set their faces against this abuse of the common, and that they are charging the following fees :—From 1 to 15 head, 1s. per head per annum; over 15 the stock are surcharged—from 16 to 20, 2s. per head per annum; from 21 to 25, 3s. per head per annum. No commoner is allowed to run more than twenty-five head. The stock that may be depastured are horses and cattle, bulls, if approved, and no entires over six months old.

The population of Nundle, by the last census, is 260.

The population of the Happy Valley is about fifty, eighteen of whom are adults; on Swamp Creek there are twenty-one residents, including thirteen adults, and there is a floating population of fifteen to twenty, principally of Happy Valley.

The permanent common of Nundle consists of 363 acres, and the temporary common of 1,420 acres, making a total of 1,783 acres for the benefit of 32 persons who have registered their stock, being 56 acres per so-called commoner. In calculating the area of commons, it is usual to base the area required in country like the Nundle Common at about 4 acres per possible commoner, and a fair estimate of the possible commoners would be about one-fourth the total population. The land applied for under annual leases Nos. 92-24, by Schofield, and 92-25 and 26, by Robson, is the balance of Nundle population area. Adjoining the population area on the east is the Hanging Rock Common of 13,120 acres, and adjoining it on the north is the Bowling Alley Point Common of 5,000 acres. The greater portion of the residents of the Happy Valley have moved from the Hanging Rock Common into Happy Valley, and the greatest number of possible commoners in the Happy Valley would not exceed twelve; on Swamp Creek there would be about five, and as both the settlements are conveniently situated as regards the existing common, I am of opinion that the common requirements of these people, if any, should be met by extending the commoners' boundaries, and not by extending the commons, subject to the following conditions: I see no objection whatever to the letting of this land under annual lease; that free access should be reserved to the miners to the land; that they should in no way be interfered with in their mining operations; that miners should have free agistment for the stock actually used in their mining operations; that there should be no interference with the legitimate use of the travelling stock reserves by travelling stock. Mr. Schofield informs me that he only requires the sole use of the southern part of the lease, and that the northern part of the lease will be open to the use of the residents upon their paying him a proportionate part of the rent as determined.

By the Chairman: I judge a fair annual rental for the land would be 1d. per acre per annum; the country is mountainous, timbered with stunted white and yellow box, with some stringy-bark; the country is well watered and is breeding country.

By Mr. Schofield: I have taken into consideration the risk of cattle falling into holes made by miners, in recommending the rent at 1d. per acre.

Sworn by F. Poate, at Tamworth, before us, } F. POATE.

No. 4.

Decision of Local Land Board.

Crown Lands Act of 1884—(part II, section 14, sub-section 4).

New South Wales }
to wit. }

WHEREAS on the 14th March and 14th day of June, 1892, it became a matter for investigation before us whether annual lease application No. 92-24, for 1,920 acres, made at Tamworth, by John Schofield, under section 33 of the Crown Lands Act of 1889, parish of Nundle, county of Parry, should be granted, and having taken evidence and inquired into the said matter, we allotted the annual lease for 1,920 acres as defined by red edging on the diagram tracing enclosed, subject to the condition that free access to the land be permitted to miners; that mining operations be in no way interfered with; that miners shall have free agistment on the lease for their stock actually used in connection with the mining operations; and that there shall not be any interference with the legitimate use of the travelling stock reserves by travelling stock. We appraised the annual rental at £2 13s. 4d. per section of 640 acres.

Applicant attended on 14th March, 1892, and to-day.

Given under our hands, at Board Room, Tamworth, in the Colony of New South Wales, this 14th day of June, 1892,—

WILLIAM FREEMAN, Chairman.

No. 1.

H. Levien, Esq., M.P., to The Under Secretary for Lands.

Dear Sir,

Sydney, 10 January, 1891.

Re grant of land for residents of Happy Valley, Nundle, I have the honor to enclose you a petition herewith signed by the residents and miners asking for a portion of land to be set apart for the use as a common.

I desire to support the same, and trust it will have favourable consideration.

Yours truly,

HENRY LEVIEN.

[Enclosure.]

To The Honorable the Minister for Lands,—

The humble Petition of the undersigned sheweth :—

1st. That a considerable number of the miners and others are now located and resident in the Happy Valley, near Nundle.

2nd. That for the proper maintenance and convenience of such families, cattle, horses, and other animals are required.

3rd. That owing to the peculiar position of such "Valley," the inhabitants are at present debarred from any of the privileges of either the Nundle or Hanging Rock Commons.

4th. That consequently there is no pasturage or sustenance for such cattle, &c., they require for use.

5th. That a piece of land starting from portion No. 120, near Nundle, thence up to Oakenville Creek to the population boundary near Ramsay's Gulley, from thence due north, forming a square block—all marked on parish of Nundle map—withdrawn from Wombramurra Run and annexed to Nundle or Hanging Rock Commons, would remedy such evil and sustain our cattle—

And for that we pray,—

John Blackham, miner.
William Paull, miner.
Stephen Paull, miner.
John Prisk, miner.
Ben. Blackham, miner.
John Leonard, miner.
George Prisk, miner.

No. 2.

No. 2.

Mr. R. Allbeury to The District Surveyor, Tamworth.

MR. JOHN RACCHAM might have the honor of meeting and explaining to you any further particulars you may ask for your guidance. As near as I remember the portion referred to starts about portion 120, end of Times-street, town of Nundle; then up Oakenville Creek to population boundary near Ramsay's Gully; then north to corner peg of Hanging Rock temporary common, forming nearly a square block, as shown on our map of parish of Nundle.

Awaiting your favour,

I am, &c.,

ROBERT ALLBEURY,
Nundle.

No. 3.

Mr. R. Allbeury to The District Surveyor, Tamworth.

Sir,

16 February.

The inhabitants of Nundle who signed the petition for extra commonage desire me to call your attention to the matter and earnestly beg to call your attention to the earnest need of an early report from you about the matter, as meantime their horses and cattle are likely to perish through impoverishment of pasture.

Begging your favour,

I am, &c.,

ROBERT ALLBEURY,
Nundle.

No. 4.

The Secretary, Nundle Progress Committee, to The District Surveyor, Tamworth.

Re extra Commonage for the Residents of Happy Valley.

Sir,

Progress Committee, Nundle, 6 April, 1891.

Some four months since the residents of this district petitioned on the above matter, when a reply was received that the matter was referred to you to visit the neighbourhood and report thereon. Winter is now setting in and grass is getting scarce. We trust you will soon give the matter your attention. Upon receiving a reply, making an appointment, our Committee will gladly meet you. Awaiting the above,

I am, &c.,

W. H. EVANS,
Secretary, Nundle Progress Committee.

No. 5.

The District Surveyor, Tamworth, to The Under Secretary for Lands.

8 April, 1891.

In reply to your instructions, 91-7, of 15th January, I have the honor to inform you that the land referred to in the enclosed petition for extra commonage near Nundle forms part of the population area of that place, and is shown by blue hatching on the enclosed lithograph. The boundaries of Woolamin and Wombramurra Holdings are indicated by red-edging. The land between these holdings does not form part of any lease or license as supposed by the petitioners, in view of which and section 13 of the Mining Act of 1874 there is apparently no necessity to notify the area referred to in the petition as a common. If the lessee of Wombramurra is using this land, as may be inferred from the petition, he is doing so illegally.

FRED. POATE, D.S.

No. 6.

The Chairman, Local Land Board, Tamworth, to The Secretary, Nundle Progress Committee.

Sir,

Local Land Board Office, Tamworth, 8 April, 1891.

In reply to your communication, dated 6th April, 1891, addressed to the District Surveyor, respecting extra commonage for Happy Valley, I have to inform you that the District Surveyor reports, as the land referred to is not under lease or license, field inspection is unnecessary, and that his report on the application has this day been forwarded to the Under Secretary.

I have, &c.,

W. ARDILL
(*Pro* Chairman).

No. 7.

H. Levien, Esq., M.P., to The Secretary for Lands.

Sir,

Parliament House, Sydney, 22 April, 1891.

I have the honor to forward you report from Mr. Ardill, for Chairman of Local Land Board Office, Tamworth, *re* extra commonage for Happy Valley. I trust you will see your way clear to grant the prayer of the petition presented by me some time ago. You will see that report on the application has been forwarded to the Under Secretary.

I have, &c.,

HENRY LEVIEN.

No. 8.

No. 8.

The Secretary, Nundle Progress Committee, to The Under Secretary for Lands.

Dear Sir,

Progress Committee, Nundle, 20 September, 1891.

With further reference to our petition of the 10th January last, *re* extra commonage for the residents of Happy Valley, we again ask you to re-consider this matter, as the population of Happy Valley is increasing rapidly and this is the principal part of Nundle for mining, and we ask that you will give us a favourable reply. Failing this, we are prepared, as per note attached, to lease the ground as per attached.

Awaiting a reply,

We are, &c.,

W. H. EVANS,

Secretary.

No. 9.

H. Levien, Esq., M.P., to The Under Secretary for Lands.

Sir,

Parliament House, Sydney, 25 September, 1891.

Re extra commonage for Happy Valley, Tamworth District. Herewith I have the honor to forward you a letter from the Secretary of the Progress Committee, Nundle, and request your early and favourable consideration of same.

I have, &c.,

HENRY LEVIEN.

No. 10.

H. Levien, Esq., M.P., to The Under Secretary for Lands.

180, Phillip-street, 25 February, 1892.

Re granting Commons at Happy Valley, near Nundle, I have the honour to forward you an important letter received by me with reference to the above subject, and in my opinion of sufficient importance to request an explanation. If it is true that a portion of this common has been leased to a single person, it seems indeed strange why such could not have been granted to the public.

I have, &c.,

HENRY LEVIEN.

[Enclosure.]

Dear Sir,

Progress Committee, Nundle, 22 February, 1892.

On behalf of the above Committee, I beg to bring under your notice, in view that the same may not do any injury hereafter, as the matter connected therewith has been brought under the notice of Lands Department through your medium, but without success. On the 16th January, 1891, the residents of Happy Valley make an application through you to have a common granted to them, but has been refused, and by referring to letters from Lands Department bearing dates 22nd April and 13th October, 1891, and Nos. 91-3,067 and 91-3,059, also a letter from the Land Board, Tamworth, dated 8th April, 1891, No. 91-3,059, stating that the land referred to is not under lease or license. After refusal to the Happy Valley residents, an application was forwarded by the Nundle Progress Committee to lease a certain portion of the land in view, to help the residents of Happy Valley, and that the land in question may be held in trust by Messrs. John Schofield and Thomas McClelland for the benefit of the public; but this was flatly refused on the grounds that the mining interests would be seriously injured. Now, from information received, the said land as applied for by the Happy Valley residents and the Nundle Progress Committee has been leased to one single individual and to the injury of the whole residents. The inhabitants request your immediate attention, and to do your utmost to prevent the lease from being granted to one person, and which has been refused to the inhabitants.

Yours truly,

ALEX. McLELLAND,

Secretary, Progress Committee.

R. H. Levien, Esq., M.P., Sydney.

No. 11.

H. Levien, Esq., M.P., to The Under Secretary for Lands.

Sir,

Sydney, 8 March, 1892.

Re Common between Happy Valley and Nundle, viz.: That portion of land which is bounded, beginning at the junction of Swamp Creek with the Peel River, by Swamp Creek easterly to Hanging Rock common; by Hanging Rock Common southerly to Oakenville Creek; by Oakenville Creek westerly to the Nundle temporary common; by Nundle temporary common and the Peel River northerly to the junction of Swamp Creek, the point of commencement.

Herewith I have the honor to forward you a petition from the residents of Happy Valley and Nundle in the above matter. I trust you will urge the same as soon as report from surveyor is received.

I have, &c.,

HENRY LEVIEN.

[Enclosure.]

The Honorable The Minister for Mines,—

Sir,

Nundle, 24 February, 1892.

The Petition of the undersigned residents of Happy Valley, near Nundle, and others, sheweth that—

1. The number of permanent householders of Happy Valley is twenty-one, and the total population, exclusive of Chinese, over 100 persons.
2. All the houses and cottages are of a substantial character, showing the present population to be fairly permanent.
3. Several of the families who now reside on Happy Valley removed from Mount Pleasant and other out of the way places in order to be within reach of the Public School.
4. The land in and around Happy Valley is Crown Lands, and not held under either lease or license.
5. Happy Valley is situated between Nundle and Hanging Rock Commons, and consequently the residents have great difficulty in preventing their stock from trespassing on either of those Commons.
6. The granting of a Temporary Common would not in any way interfere with the mining industry of the locality.
7. Your Petitioners are all directly or indirectly interested in mining, and would not be likely to advocate any step detrimental to such industry.
8. The extension of the Nundle Temporary Common so as to include the following area would meet the wants of your Petitioners—that portion of land which is bounded, beginning at the junction of Swamp Creek with the Peel River, by Swamp Creek easterly to Hanging Rock; by Hanging Rock southerly to Oakenville Creek; by Oakenville Creek westerly to the Nundle temporary common; by Nundle temporary common and the Peel River northerly to the junction of Swamp Creek, the point of commencement.

Your

Your Petitioners therefore pray that you will please to consider the facts set forth in this their prayer, with a view to granting an extension of the Nundle Temporary Common so as to include Happy Valley, and your Petitioners will ever pray.

James Hitchens, miner, Happy Valley.	T. M. McClelland, farmer, Nundle.
William Paull, miner, Happy Valley.	William Stewart, miner, Oukenville Creek.
James Westaway, miner, Happy Valley.	J. T. Taylor, blacksmith, Nundle.

No. 12.

Telegram from The District Surveyor, Tamworth, to The Under Secretary for Lands.

10 March, 1892.

Re Mr. H. Levien's letter, registered miscellaneous, individual, 92-800, respecting granting of annual leases on land sought to be made commonage for miners and residents of Happy Valley, Nundle—annual lease applications come before Land Board, Tamworth, on Monday next for consideration. I am referring letter for consideration therewith. Suggest that Mr. Levien be so informed.

FRED. POATE,
District Surveyor.

No. 13.

Telegram from The Under Secretary for Lands to The Chairman, Local Land Board, Tamworth.

14 March, 1892.

PLEASE postpone consideration of Schofield's and others annual lease application until next sitting of Board, and return papers to headquarters.

WM. HOUSTON,
Under Secretary for Lands.

No. 14.

H. Levien, Esq., M.P., to The Secretary for Lands.

Re Happy Valley Commons.

Sir,

Parliament House, Sydney, 21 March, 1892.

I have the honor to enclose you a letter from the Secretary, Progress Committee, Nundle, upon the above subject. You will see by it that neither Schofield and Robson have previously been lessees of the land referred to. You will recollect I had an interview with you and your Under Secretary upon the subject, when you directed that a telegram should be sent to the Board to withhold action. I am informed that the telegram was received too late, but as they (Schofield and Robson) have not been leaseholders of this common before, I trust you will give the matter immediate attention. Casually I heard that these leases were applied for within the population area, and in that event, I think you can (in the people's interest) refuse to ratify these leases.

I have, &c.,

HENRY LEVIEN.

No. 15.

Mr. T. Butler to The Secretary for Mines.

The Freeman's Journal, 15, Church Hill,
Sydney, 21 March, 1892.

Dear Sir,

I beg to direct your attention to the case stated in the enclosed letter, in which the rights and interests of a large number of miners are involved.

Trusting you will be able to give it favourable and early consideration.

I am, &c.,
T. BUTLER.

[Enclosure.]

Dear Sir,

Will you kindly use your valuable influence with the Minister for Mines on behalf of the miners on this gold-field, of which a portion is applied for by Alexander Robson, of Nundle, for grazing purposes. It is situated between Swamp Creek and the sandstone cutting. Gold-field is monopolised in that way. It will obstruct mining, and deprive the miner of the right of grazing a horse or cow. It is not safe to work in a mine where sheep are allowed to run; they are apt to knock stones or earth on the miners.

Swamp Creek, 16 March, 1892.

I have, &c.,
THOMAS LYONS.

Mr. Butler.

No. 16.

Office Memorandum.

MR. LEVIEN, M.P., at the instance of the Progress Committee of Nundle, urges that Messrs. Schofield and Robson's application for annual leases be not granted, pending consideration of their request for a common. The papers have been returned, as desired by the Under Secretary.

J.P.M., 23/3/92.

Submitted.—The Board seems to have "deferred action" on Schofield's (1) and Robson's (2) annual leases.—H.D., 31/3/92. I do not see how the leases can be summarily refused; but the Board in inquiring into them might ascertain whether the land is required for public purposes. If so the leases could be determined at the end of the year, by giving notice in September next.—W.H., 1/4/92. Approved. Mr. Levien may be informed.—H.C., 4/4/92.

No. 17.

Mr. W. E. Swan to The Secretary for Lands.

Dear Sir,

Nundle, 25 April, 1892.

You will pardon me for trespassing upon your valuable time, but will allow the circumstances are of such a nature that it wants your valuable attention.

Some little time back, we, the miners and farmers of Nundle, made a great effort to obtain an increase in the size of the common, the said extension to embrace the Happy Valley; you have the petition that was sent down, and you may form some idea as to the unanimous wish of the residents; you also know that one Schofield obtained part of this land as a lease, and that the District Surveyor acted in a manner which appeared to be inconsistent, favouring a private individual as against the whole community. The residents of the Happy Valley have established a township at a considerable amount of cost, and they have done more—they have settled down to do their level best to advance Nundle district. If you have (and I know you have) any idea of how difficult it is to raise townships, you will see that it is rather rough to refuse these people due extension of the Nundle Common. Let us look, for instance, how the miner stands in this matter. He leaves all town life and town comforts, and creates an industry by his pluck and perseverance. He also pays for the right to toil, a thing no other class in Australia does. Does the carpenter, blacksmith, stonemason, bricklayer pay for the right to toil? We know they do not; the miner does, and he does so willingly. Then, why rent the grass roots round his very home that he has reared with toil, labour, expense, for a few paltry shillings? Oftentimes he has long distances to ride to his work, and, if the grass round the door is eaten down, he has great trouble to find his horses. The man Schofield, who seems to possess more influence with the surveyor and Government than all the rest of the people together, was a member of the Nundle Progress Committee, and, while so was pledged to advance the interest of the people, and all the time, with the aid of a friend of his and an enemy of the people, he was working against us, and still this man made his money as a publican by the favour and patronage of the people whom he afterwards treacherously worked against and sold like a bullock in Smithfield. We knew nothing about him trying for this land, and why such treacherous work is allowed for people to take the land of the people away without others knowing, is to me a queer thing. He went in on the Friday, and stayed there till Monday. He knew of all our plans trying for the extension, and could act accordingly. We are all getting very curious to know how it is that Schofield can possess the power he does, he being of more consequence than all others put together, and we are getting riled at being made a door-mat of for him to wipe his feet on us. And we should like to know why a publican, and a traitor to the interests of the people, is of more consequence than a body of hard working farmers and miners. A few years ago we signed as a body to retain the services of one of the best postmasters that ever took charge of a post office—Mr. Keating. We signed in a body, with the sole exception of Schofield; but Schofield, through John Moor, went to the Postmaster-General, and, although the Postmaster-General telegraphed to us that our request was granted, still, to oblige Schofield, he was shifted in a few days. In the name of God, what is the mystery that a publican should possess this power? Before going into Tamworth, he stated that it was no good trying to do anything with a surveyor, unless you could get him in a back room with plenty of whisky. This was in the presence of the whole of the Committee. And this is why, I suppose, he went to Tamworth three days before he had need to. We in Nundle have struggled for our existence, even now there are people trying to get our common reduced, and the Land Board of Tamworth is our bitter enemy. We are in a corner with 80 miles round to go to get to Sydney, and we have to fight for our existence as a people. Very soon we shall tire of it, and leave the place in a body, and the cowardly skunks who are trying to take from us the very few privileges we possess.

possess. In conclusion, I ask you, straight, will you help us to get this common extension? You have before you a petition that is a credit to any body of men, and we ask justice at your hands and, on behalf of the Committee, I wish to express my utter disgust of the cowardly conduct of Schofield, who was then a member of the Committee. Further, put a stop to this secret tip business that concerning information coming from Sydney to private people, also make the Land Board give full notice of all cases coming before it, that we may know how to act. Let there be less of this sneaking secret work in the pillaging of the lands. As to the reduction of the commons, give the people a chance to pay for what you want to take off.

Believing that you will pardon me for troubling you,

I have, &c.,
W. E. SWAN.

P.S.—We pay for miners' right, dog taxes, cattle taxes, duties on goods, race fees, if required. We are the most law-abiding people in New South Wales. We cost the country nothing for paupers—we support our own poor. Surely we are worthy of honest and fair treatment, and not to be reduced to be the prey of sharks who would obstruct our progress.

No. 18.

Mr. W. E. Swan to The Secretary for Lands.

Dear Sir,

Nundle, 27 April, 1892.

Would you very kindly enlighten me as to how private tips of information reach people, so that they are able to undermine the prosperity of a whole district. Take, for instance, the case of John Schofield getting a piece of land. He stated that he had received a tip—a private tip—and the Land Board and the surveyor and himself, unknown to the people of Nundle, took possession of a piece of land unknown to the people living here. This piece of land is going to be used as a pounding trap, and will cost us scores of pounds a year. Imagine we, a people, have our rights sold away from us for the price of three miners' rights! It will be a nuisance and a tyranny, an outrage upon the people of Nundle. Kindly oblige by letting me know how this private information work is managed so that an infernal skunk can commit any outrage on a whole district. The second question is, this land surveyor and a Land Board dispose of the lands as they think fit and proper without consulting the interests of the people who live here. If so, then for God's sake brand us as serfs and forward along a few leg-irons, because, if so, with the Land Board of Tamworth as our bitter enemy, and a surveyor who is prepared to sell us like dogs, we might as well clear out and let the accursed land-grabbing crowd do as they like. Thirdly, I would wish to know whether you are prepared to stand by and allow the surveyor and Land Board of Tamworth to reduce our common—the effort is now being made to do so. Are we dogs or serfs that our rights shall be wrested from us by every land shark who wants to exterminate us as a people? In conclusion, I beg to ask are you prepared to give a guarantee that our common shall not be reduced in size? I appeal to you for help in our hour of need, when from all quarters efforts are being made to exterminate us.

Apologising for troubling you, and asking you to kindly answer these questions; and if my questions seem rather rough, you must remember that the treatment we have received is also rough.

I am, &c.,
W. SWAN.

No. 19.

The Acting Secretary, Nundle Progress Committee, to The Secretary for Lands.

Commonage for Happy Valley.

Sir,

Progress Committee, Nundle, 9 May, 1892.

Adverting to the facts set forth in my letter of even date on the above, my Committee trust that you will kindly re-consider the whole matter, and, in event of it appearing that no error has been made in your office in informing us that the land around Happy Valley could not be submitted to annual lease—*vide* your letter, No. 91-3,059—we trust that you will not allow the residents of Happy Valley to suffer through a departmental error. We are still prepared to lease the land through trustees.

I have, &c.,
H. FRASER,
Acting Secretary.

No. 20.

The Acting Secretary, Nundle Progress Committee, to The Secretary for Lands.

Sir,

Progress Committee, Nundle, 9 May, 1892.

The residents of Happy Valley, near Nundle, have for some considerable time been applying by letter, petition, &c., for the land in their immediate neighbourhood to be granted them as a temporary common, but without success.

Failing to obtain a temporary common, application was made to your Department to lease the land to trustees who should hold it for the benefit and use of the residents of Happy Valley. In reply to this request we are informed, in a letter from your office, dated 13th October last, No. 91-3,059, that as "mining interests would be injudiciously affected, it is not considered advisable to submit the land to annual lease."

It now appears that this same land, which was refused as a common and as a lease for the use of the public, has been or is about to be leased to two private individuals—persons who have hitherto had no claim whatever to it by lease or otherwise.

If it is a fact that the land in question has been or is about to be so leased, will you kindly inform us how it was that we were informed it could not be so leased for public purposes?

I have, &c.,
H. FRASER,
Acting Secretary.

No. 21.

No. 21.

W. S. Dowel, Esq., M.P., to The Secretary for Lands.

Sir,

Parliament House, Sydney, 14 May, 1892.

Please find herewith letters from the Progress Committee of Nundle, *re* Commonage, &c.
I shall be glad if you will give the matter favourable consideration, and let me have an early reply.

I have, &c.,
W. S. DOWEL.

No. 22.

Mr. T. Lyons, to The Secretary for Mines.

Sir,

Swamp Creek, Nundle, 6 June, 1892.

Hearing that Mr. A. Robson has applied for that portion of land vacant between Nundle and Bowling Alley Commons, I beg to lodge a complaint, as I had the honour to apply for same on January, 1877 (*See* my application—reply attached).

I am compelled to take this step, knowing that surveyors are at present in the vicinity, reporting and dealing with all vacant lands.

I am the holder of a purchased block of land, No. 71, and 2 acres of mineral lease—32. As the latter is entirely a speculation, and were I to be unsuccessful in same, my means of living would be gone, as I simply depend on the few head of stock for my family's subsistence.

Trusting that, before further action is taken, you will give my application your favourable approval.

I have, &c.,
THOMAS LYONS.

[Enclosure.]

Sir,

Crown Lands Office, Armidale, 20 January, 1877.

I have a tender of yours in my hands for report. Will you be kind enough to point out upon enclosed sketch where the creek is which you call Happy Valley Creek, and also the position of Messrs. Williams and Hole's purchased land, referred to by you. The land tendered for must be within the boundaries of the Peel River Gold-field, as proclaimed 23rd December, 1861, and would appear to be still within it. Your expression in the tender of "Originally Gold-fields Reserve," leads to the impression that you do not consider it to be so now. Can you give any reason why it should not be now considered as gold-fields reserve?

The run Woolomin has frontage to the Oakey Creek and to the Peel River, between Oakey Creek and the watershed, between Duncan's and Dungowan Creek, and includes the waters of Duncan's Creek within its boundaries.

I shall be obliged by your returning the enclosed tracing, with any remarks you may wish to make as to the position of the land tendered for by you.

I am, &c.,
T. WARRE HARRIOTT,
Commissioner of Crown Lands.

Mr. Thomas Lyons, Swampy Oak Creek, Nundle.

No. 23.

H. Levien Esq., M.P., to The Under Secretary for Lands.

Sir,

Parliament House, Sydney, 8 June, 1892.

Re common at Happy Valley, near Nundle, I have the honor to forward you two letters signed by "Agrarian" and Mr. Swan, Chairman of the Progress Committee, *re* the above matter, which appeared in the *Tamworth Observer*, of 28th May last.

I must certainly say I agree with these letters—"that it is strange, that if it was wanted for the miners, how is it leased to two private individuals?" I think the many petitioners who signed were entitled to consideration (and they are best judges of their local wants) and had it granted as a temporary common. You will recollect I interviewed the Minister upon this subject, and by letters urged the claim of the people. In justice to those interested, I hope I shall receive some information as to how this land came to be leased.

I have, &c.,
HENRY LEVIEN.

No. 24.

The Chief Draftsman, Department of Mines, to The Draftsman-in-Charge, District Surveyor's Office, Tamworth.

Department of Mines, Sydney, 24 June, 1892.

KINDLY state if area between the southern boundary of reserve from lease 101 for Bowling Alley Point miners and town of Nundle is the subject of any application to lease, or is proposed to be alienated under the Lands Act?

M. CAMPBELL,
Chief Draftsman.

No. 25.

Mr. T. Lyons to The Secretary for Mines and Agriculture.

Sir,

Swamp Creek, Nundle, 4 July, 1892.

I received a letter from the Tamworth Land Board stating that the annual leases were allotted by the Board to A. Robson, 14th June, 1892.

I have tendered for the same land as a cattle run. The latter end of 1876 it was granted to me by the Commissioners who sat in Sydney, and a year's rent of £10 was sent by me to the Colonial Treasury. Somehow the Land Commissioner of Armidale objected to my tender on the grounds of it being a proclaimed gold-field; I have sent his letter to you on the 8th June, dated 20th January, 1877, and I therefore beg your kind consideration of my case, as I am a twenty-five years' resident on the said land, and the first applicant for the said run.

I have, &c.,
THOMAS LYONS.

No. 26.

No. 26.

H. Levien, Esq., M.P., to The Secretary for Mines.

Sir,

Sydney, 11 August, 1892.

Re leases taken by John Schofield and A. Robson at Nundle, which the public wish to be resumed for a common for the use of the residents.

Some time ago I presented two petitions asking that this land should be made part of the common, but through some mistake or oversight the persons abovenamed seem to have obtained a lease of same.

On Saturday, the 6th instant, the largest meeting and most representative of the residents there waited upon the Hon. the Minister for Mines, and requested him to ask you to have these persons notified, and the land resumed and dedicated as part of the common.

I have the honor now, on behalf of the residents, to request that you will be pleased to comply with their desire. The public are almost unanimous in this matter. Had the public had sufficient notification that the matter of granting these leases would have been heard before the Local Land Board at Tamworth, they would have had a number of witnesses present to object to the granting of these leases.

I enclose report of the public meeting held at Nundle, at which the Minister for Mines was present. Trusting that you will accede to the request of the people, and favour me with an early reply.

I have, &c.,

HENRY LEVIEN.

No. 27.

Office Memorandum.

ANNUAL LEASES, county of Nundle, parish of Parry.

Annual Lease 92-24, Tamworth, by J. Schofield, Board allot 1,920 acres, indicated on tracing at £8 per acre with these conditions: Subject to miners having free access to the land; subject to mining operations having free scope; subject to stock used in mining operations having free agistment, and to travelling stock having free access to travelling stock reserves 339 and 13,176.

In his evidence Mr. District-Surveyor Poate states that applicant is Chairman to the Trustees of Nundle Common; that there are no commoners within the meaning of the Act (Commons); that there were some twenty-six so-called commoners; that prior to the present Trustees taking office the common was used for the advantage of a few persons; and that a small charge is now made.

Annual Leases 92-25 and 26 by Alexander Robson in the same locality have been allotted for 1,920 acres and 1,280 acres, at £8 and £5 6s. 8d. per annum respectively—with the same conditions as above, except as regards travelling reserves, in which they are not situated. These recommendations are submitted specially in view of local objections. Mr. Levien, M.P., on behalf of the Progress Committee at Nundle, urges that the land is required for the commoners. The Mines Department also object to the leases being granted. It is added that the District Surveyor sees no objection to the leases under the conditions suggested by him and adopted by the Board. J.P.M., 25/8/92.

Please have a litho. prepared, showing position of leases in relation to the common at Nundle—the area of which should be given.—W.H., 27/8/92. Chief Draftsman,—Sketch and approximate areas herewith.—G.S., 9/9/92. In view of the Board's report, I cannot see that sufficient grounds exist for terminating the leases.—W.H., 30/9/92. Approved.—H.C., 30/9/92.

No. 28.

Mr. D. McLean, to The Secretary for Lands.

Sir,

Tamworth, 7 September, 1892.

I have the honor to herewith hand for your favourable consideration the attached document containing the resolution passed most unanimously at one of the most attentive, appreciative, and influential public meetings ever held in Tamworth when dealing with such matters.

Trusting the same may have the desired effect in the interests of a just cause of the class so warmly espoused always by your attention to the interest of *bonâ fide* and industrious land settlers.

I have, &c.,

D. McLEAN,

Hon. Sec., Tamworth Branch, L.E.L.

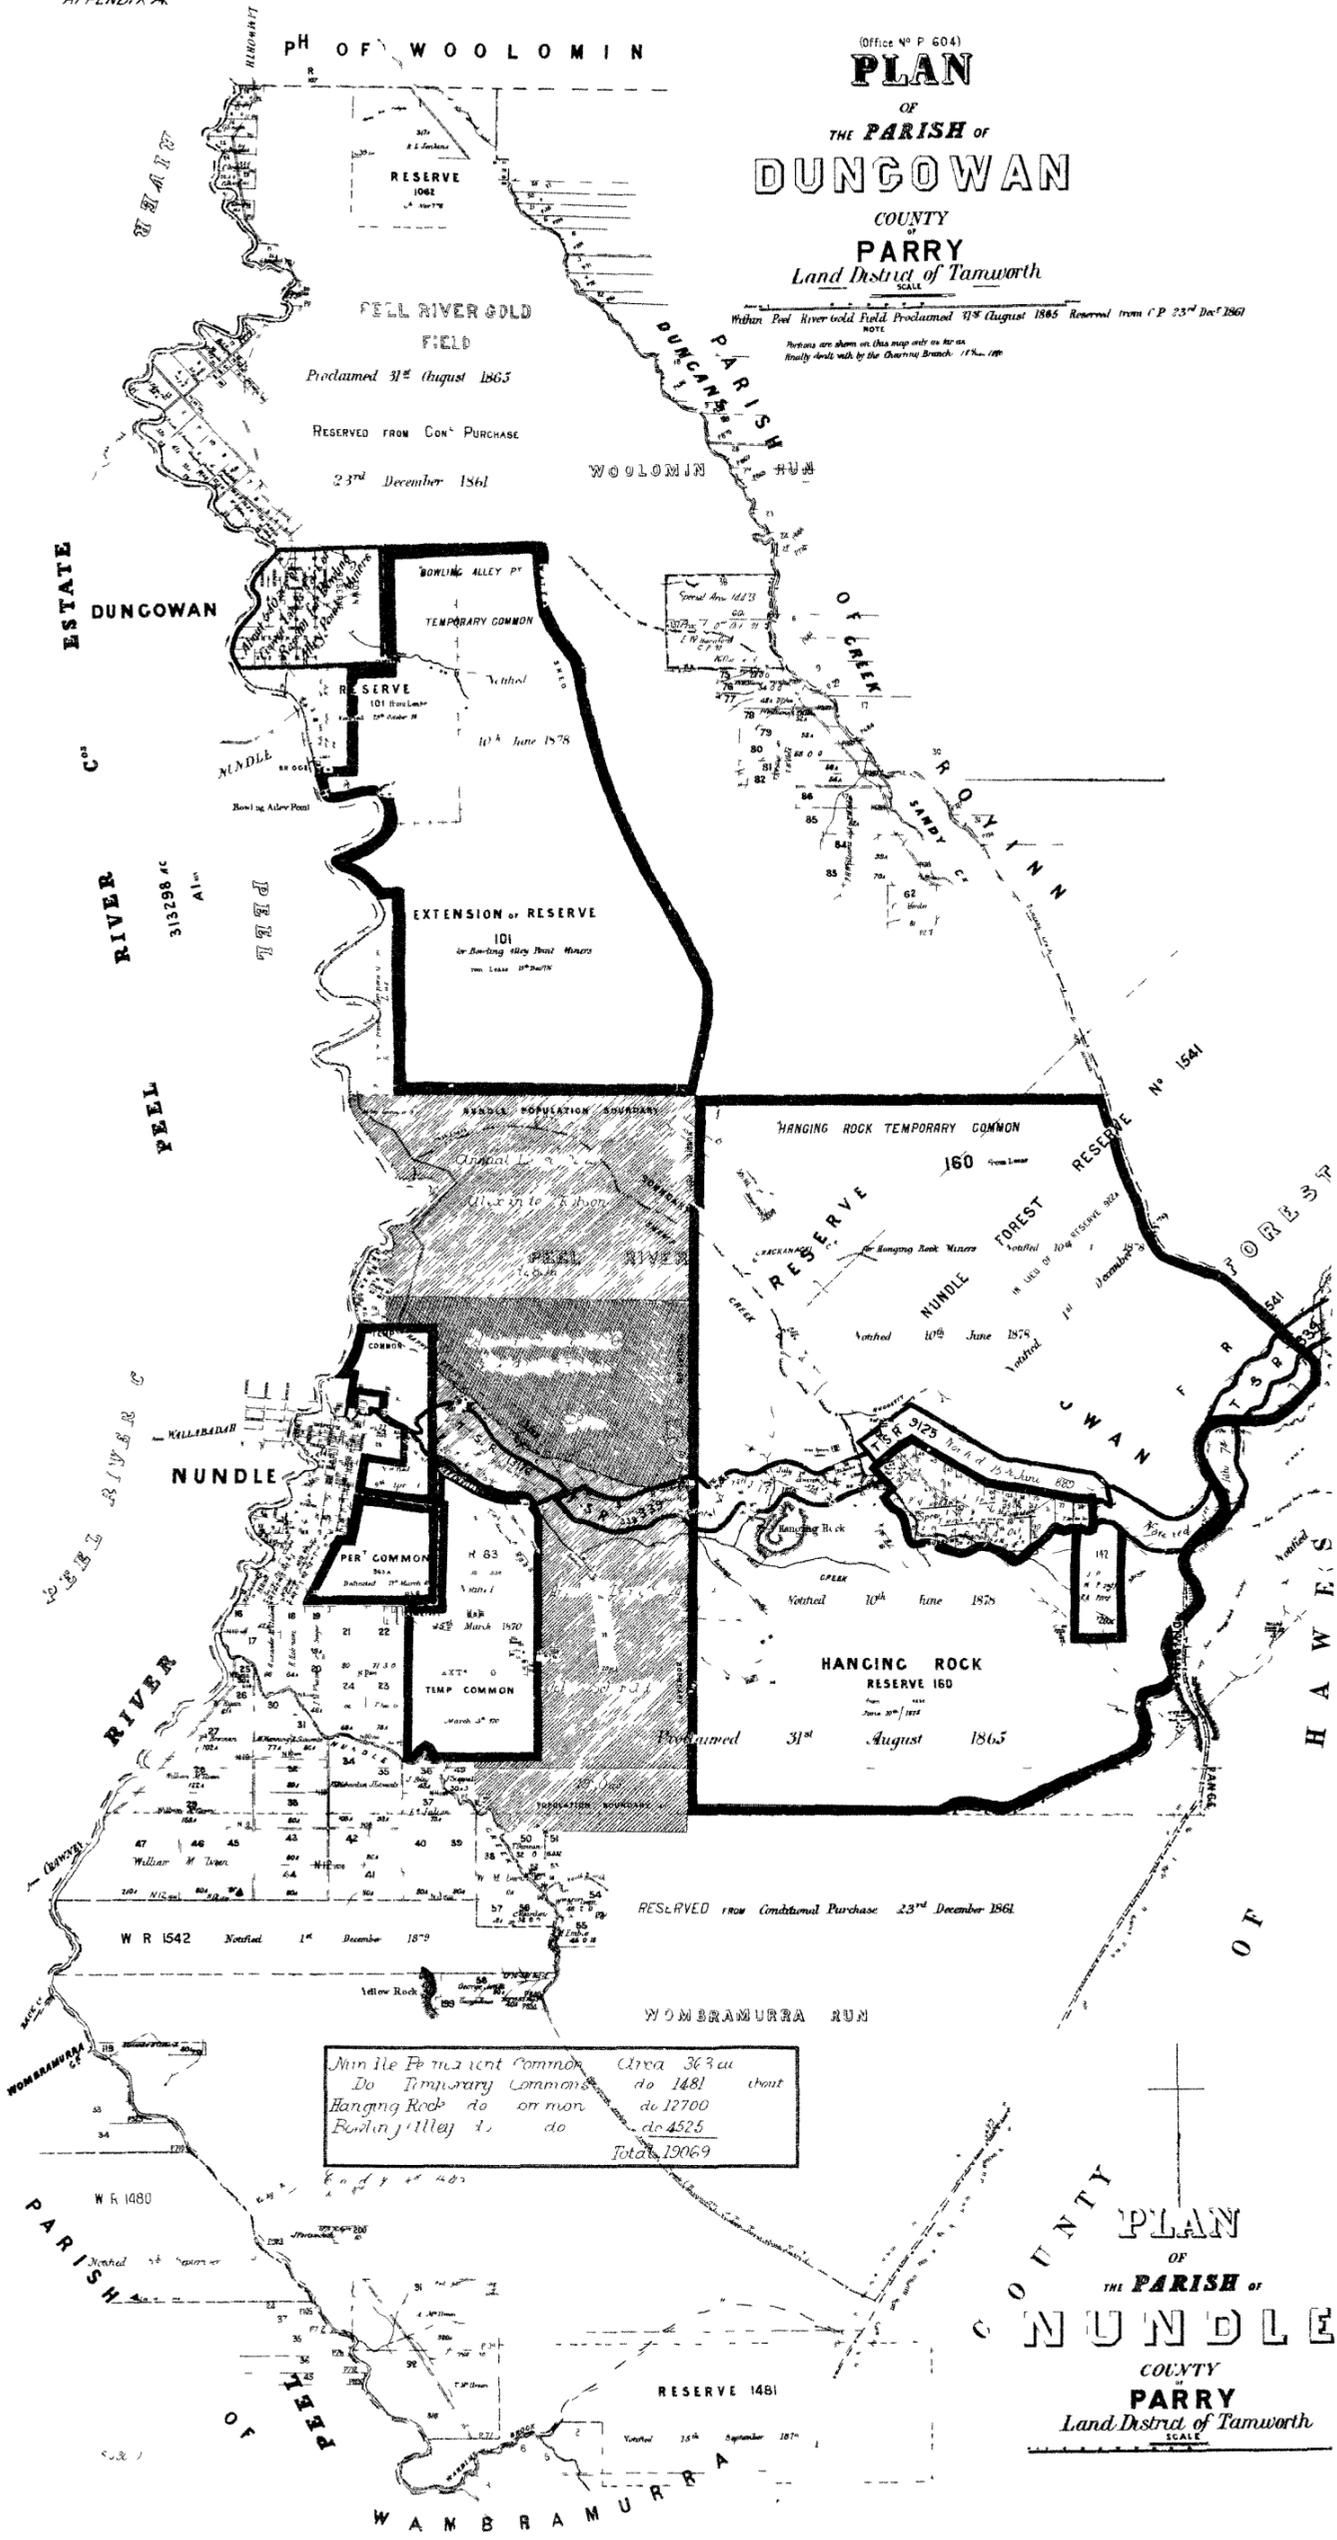

[Enclosure.]

MOTION passed at a public meeting of citizens of Tamworth, and presided over by his Worship the Mayor of Tamworth, held in the Oddfellows' Hall, Tamworth, Tuesday evening, 6th Sept., 1892:—Proposed by Mr. Raymond J. Walsh, seconded by William Kennedy,—“That this public meeting of the townspeople of Tamworth, having listened to and learned from Mr. W. Swan (the Chairman of the Nundle Progress Committee) a full explanation of the trouble in connection with the lands situated between Nundle, Bowling Alley, and Hanging Rock Commons (at present held under two leases by private gentlemen), deeply sympathise with the inhabitants of Nundle, Bowling Alley, and Hanging Rock, and would urge upon the Hon. the Minister of Lands the necessity of reconsidering the granting of the said leases with a view to their cancellation.” Carried unanimously.

RICHARD BOURNE (Mayor of Tamworth),

Chairman, 6th September, 1892.

[Alienation Act, sections 13, 14, and 19.]

District of Tweed River.

No. 95 of 1881.

Application by James Baker, aged 18, on 11th February, 1881, for the conditional purchase, without competition, of 60 acres, unimproved Crown land.

Received by me, with a deposit of £15, this 3rd day of November, 1881, at 2.15 o'clock,—

JOSHUA BRAY,

Agent for the Sale of Crown Lands at Tweed River.

Sir,

496—A.

[570 copies—Approximate Cost of Printing (labour and material), £8 19s. 6d.]

Sir,

Tumbulgum, 3 November, 1881.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 60 acres; and I herewith tender the sum of £15, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

JAMES BAKER.

To the Agent for the Sale of Crown Lands at Tweed River.

Description:—

County of Rous, parish of Cudgen, 60 acres, in a square block at the junction of and lying between the Cudgen and Duranbar Road. Forfeited, *Gazette*, 13/2/89.

No. 2.

Application by J. Baker.

E.

[Alienation Act, sections 21 and 22.]

Application by James Baker, aged 19, on 11th February, 1882, for the conditional purchase, without competition, of 60 acres, unimproved Crown land, under section 21 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £15, this 10th day of August, 1882, at 11 o'clock,—

JOSHUA BRAY,

Agent for the Sale of Crown Lands at Tweed River.

2	150	10 Aug., 1882	60
Total.....			120

Sir,

Tumbulgum, 10 August, 1882.

I am desirous of purchasing, without competition, under the 21st section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown land hereunder described, containing 60 acres, which adjoins my conditional purchase of 60 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £15, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase of 60 acres.

I am, &c.,

JAMES BAKER.

To the Agent for the Sale of Crown Lands at Tweed River.

Description:—

County of Rous, parish of Cudgen, 60 acres, east of and adjoining my conditional purchase of 60 acres, and fronting Cudgen Road.

First conditional purchase, 81-95; application to Licensed-Surveyor Kelly, 22/12/81, 13th section. Copy of application to Licensed-Surveyor J. B. Kelly for measurement.—J.F.G., 12/9/82. R. 3,939-1,759, portion 210, parish of Cudgen, 87 acres; forfeited, *Gazette*, 13/2/89.

No. 3.

Declaration by J. Baker.

D.

(Alienation Act.)

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES BAKER, of Tweed River, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of house, fencing, felling, and clearing, and to the value of £100, have been made on such land; and I declare further that the said land has been the *bona-fide* residence, continuously, of myself, from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Tweed River, this 4th day of }
December, 1884, before me,—

JAMES BAKER.

JOSHUA BRAY, J.P.

Description.

County of Rous, parish of Cudgen, 60 acres, at Cudgen, being conditional purchase No. 95, of 1881, in the district of Tweed River, made on the 3rd November, 1881.

No. 4.

Mr. Inspector T. Miller, to The Chairman, Local Land Board, Grafton.

Report by Inspector of Conditional Purchases, respecting the selection of James Baker, made at Murwillumbah on 3 November, 1881.

C.P. 81-95; section 13 of 1861; portion 47; parish, Cudgen.

Sir,

Murwillumbah, 19 April, 1881,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 14th day of April, 1885, and that I found the selector then not resident upon his selection.

The

The land, which consists of rich scrub land, and comprises 60 acres, is occasionally occupied and used by the selector for grass-growing, and the selector, who follows the avocation of _____, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Single-room hut, 14 x 12, zinc roof	£10 0 0
About 25 acres falling done and grass sown	50 0 0
About 100 rods two-rail fencing	22 10 0
	£82 10 0

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

From inquiries I ascertained that this selector is a nephew of William Baker, the owner of adjoining portion 50, and that he assisted in carrying on the business of cordial manufacturer at the Junction, where he usually stays. He is a single man, and, I believe, has no other home except the selection.

The selector was not at his selection on two occasions that I called there; but there were some rations and signs of some one having been there lately.

I have, &c.,
T. MILLER,
Inspector of Conditional Purchases.

No. 5.

Report of Local Land Board.

Crown Lands Act of 1884—(Part II., section 14, sub-section 4.)

New South Wales, }
to wit. }

WHEREAS, on the 25th day of June, 1885, it became a matter for investigation before us whether the condition of residence has been complied with by James Baker upon his conditional purchase of 60 acres, selected at Tweed River, on the 3rd November, 1881, county Rous, parish Cudgen, and having taken evidence, and inquired into the said matter, action postponed pending further inspection and report to the Board.

Given under our hands, at the Court-house, at Murwillumbah, in the Colony of New South Wales, this 25th day of June, 1885.

WM. BLACKMAN, Chairman.
JOSHUA BRAY, Member.

[Enclosure.]

Mr. Donaldson, solicitor, appeared for selector.

This deponent, *Thomas Miller*, maketh oath, and saith as follows :—I am inspector of conditional purchases for the Tweed River district; I inspected James Baker's selection, on the 14th April, 1885; it is situated in the county of Rous, parish of Cudgen; the area is 60 acres, and the date of selection, 3rd November, 1881; selector was not resident at time of my inspection; I visited the selection three times, and he was not resident on either occasion; from the appearance of the place I would think some one visited the place; I saw some rations in the hut; the track to the hut was overgrown with weeds; I have seen the selector several times at Smith and Brett's hotel, at Tumbulgum; I was informed he was carrying on business with his uncle as a cordial manufacturer; I found the following improvements on the selection :—Hut, valued at £10; 25 acres of falling, £50; about 100 rods of fencing, £22 10s.; total value of improvements, £82 10s.

Examined by Mr. Donaldson, claimant's solicitor :—I saw his uncle at the selection, who informed me he was away after his horse; I saw rations there; I did not notice any cooking utensils there; I saw bedding in the hut; there was quite sufficient rations there to accommodate a single man for some time; I do not know if he has other employment; I do not remember having heard that the selector met with an accident a short time before I visited the selection; I would be surprised to hear there was 35 acres of falling on the selection; there may have been that; there was no corn growing; there was grass growing in front of the house; I saw his uncle on the selection at the time of inspection; I never heard a man falling on the land.

Sworn on oath, at the Court-house, Murwillumbah, }
this 25th June, 1885, before us,— }

WM. BLACKMAN, Chairman.
JOSHUA BRAY, Member of the Board.

THOMAS MILLER.

This deponent, *John Thos. Biffin*, maketh oath and saith as follows :—*By Board* : I am Senior-constable of Police, stationed at Murwillumbah; my duties often take me to Tumbulgum; I have seen James Baker there almost every time I went there, generally at each of the hotels; I cannot say if he was there on business; I should say, from my observations, that he had nothing particular to do; I have seen him the worse for liquor a good number of times; his uncle applied to the Licensing Court for a prohibition against the hotel-keepers supplying him with liquor; I have not been on his selection; if I required him I should go to Tumbulgum to look for him; I know his uncle William Baker's residence; I cannot say I have seen him there; I served the notice to this Court on him at Smith's hotel, Tumbulgum.

Examined by Mr. Donaldson, claimant's solicitor : I could not mention one selector I have seen drunk at Tumbulgum; I will not swear I have not seen one drunk; I do not know that Baker has any other home than his selection; he may have been on business when I saw him at Smith and Brett's; the Bench declined the prohibition asked for by his uncle; I have seen him day and night at Smith and Brett's; he has never been convicted of drunkenness to my knowledge or for any other offence; I consider he is a man very much addicted to drunkenness; I have not been subpoenaed as a witness here to-day; I know he is in delicate health.

Sworn on oath, at the Court-house, Murwillumbah, }
this 25th June, 1885, before us,— }

WM. BLACKMAN, Chairman.
JOSHUA BRAY, Member of the Board.

J. T. BIFFIN.

For Claimant. This deponent, *James Baker*, maketh oath and saith as follows :—*By Mr. Donaldson* : I am a free selector, residing at Duranbar, parish of Cudgen; I selected 60 acres in the parish of Cudgen, 3rd November, 1881; I was farming, prior to taking up the selection, for William Baker, at the Junction; I went to live upon the land about a month after selecting, and commenced to clear it, and was there seven or eight weeks, and I and another man cleared about 6 or 7 acres; I proceeded with the felling, and went backwards and forwards to work in improving the land; I was present when the surveyor measured the land, and had been resident most of the time; the land was not surveyed for nearly twelve months after selection; I was not resident when Inspector Miller visited the land, through a fall from

horse

horse about a week before ; I had to get medical assistance, and I was after the horse the morning Mr. Miller was there ; I have about 35 acres of falling, 16 acres under grass, a hut worth from £10 to £15, 35 chains two-rail split fence ; I think Inspector Miller's valuation a fair one, but it actually cost me more ; I have had bad health, and have had occasion to go to Brisbane and Sydney for medical assistance ; I had to go to Brisbane eighteen months ago, and was absent a fortnight ; about twelve months ago I was absent a second time ; I had an abscess in my side eight or nine years ago, and have never been strong since ; I had occasion to be absent from my selection a good many times under medical treatment ; I was working with my uncle at a lemonade manufactory about twelve months off and on ; I had an interest in the business ; I stayed in the "Metropolitan Hotel" when I was not strong enough to go to the selection ; it is more than three years since I selected ; I have had two crops of corn off the land during that time ; I have no interest in any other business at present, and have not for some time ; if I did not suffer from a chest complaint I think I would be able to live at the selection altogether ; I am not a married man ; my father and mother are not living ; I have no other home, and the selection has been my *bona-fide* home since date of selection ; I attribute my absence from the selection to ill-health, and being forced to work at the cordial factory for money to carry on the selection ; I have an additional 60 acres ; I do not know the date of selection ; I anticipate being able to live at the selection in future.

Examined by the Board : I was employed at the cordial factory for twelve months ; it is 4½ miles from the selection ; I was obliged to work at the factory ; I had an interest in the business, and resided a good part of my time at the selection ; the work at the factory was often finished at 4 o'clock ; I went rather more to the selection than the Junction ; I think I would have got on better if I had kept to the selection ; I have had to pay for over 30 acres of clearing ; the accident occurred through my horse falling with me when going to my selection.

Sworn on oath at the Court-house, Murwillumbah, }
this 25th June, 1885, before us,—

WM. BLACKMAN, Chairman.
JOSHUA BRAY, Member of the Board.

JAMES BAKER.

For Claimant.] This deponent, *Patrick Smith*, maketh oath, and saith as follows : *By Mr. Donaldson :* I am a publican resident at Tumbulgum ; I know the claimant, James Baker, and have known him fourteen or fifteen years ; I know he has a selection at Duranbar ; I do not think he is such a drunkard as he has been made out to be ; I have never seen him incapable ; he has been delicate in health, and is so at present ; I know that insurance companies have refused to insure his life on account of bad health ; when he comes to the Junction he makes my place his head-quarters ; he used to come in occasionally to the lemonade factory ; he used to take the men out to the selection to work ; he had not sufficient means to carry on the selection without working at the factory till after his father's death ; I had dinner with him one day on the selection ; I saw a bedstead, palliasses, and bedding there ; I know he has no other home but the selection.

Examined by Inspector Miller : I have no interest in the selection ; I have a public house and a billiard-room attached ; I believe Baker is a man of considerable means, and a very good customer of mine ; I will not swear that he has stayed at the hotel more than at the selection ; I believe the selection is as good as any one in the vicinity.

Sworn on oath at the Court-house, Murwillumbah, }
this 25th June, 1885, before us,—

No. 6.

Declaration by J. Baker.

D.

(C.P., No. 7, 82-150.)

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JAMES BAKER, of Tumbulgum, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase under the 21st section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of house, fencing, felling, and clearing, and to the value of £100, have been made on such land. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Murwillumbah, this 10th }
day of November, 1885, before me,—

JAMES BAKER.

JOSHUA BRAY, J.P.

Description.

County of Rous, parish of Cudgen, 60 acres, at Cudgen, being conditional purchase No. 150 of 1882, in the district of Murwillumbah, made on the 10th August, 1882.

No. 7.

Mr. Inspector T. Miller to The Chairman, Local Land Board, Grafton.

Report by T. Miller, Inspector of Conditional Purchases, respecting the selection of James Baker, made at Murwillumbah on 3 November, 1881.

C.P. 81-95 ; section 13 ; portion 47.

Sir,

Murwillumbah, 23 November, 1885.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 20th November, 1885, and that I found the selector then upon his selection.

The land, which consists of heavy brush, and comprises 60 acres, is occupied and used by selector occasionally, and the selector, who follows the avocation of _____ had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—Hut, falling and burning off, fencing, £90

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

Remarks.

This selector's case was put back from last Court for further report. I found him at Smith and Brett's when I arrived at Tumbulgum, and he then went on to his selection, and was there when I visited it. He has not made much improvement on it since I last visited it, and from what I could learn by conversation with others about there, I think he has spent most of his time at Smith and Brett's since he was remanded back.

I have, &c.,

T. MILLER,
Inspector of Conditional Purchases.

No. 8.

The Board's Decision.

Crown Lands Act of 1884—(Part II, section 14, sub-section 4).

New South Wales, }
to wit. }

WHEREAS, on the 8th day of September, 1886, it became a matter for investigation before us whether James Baker had complied with the residence condition upon his conditional purchase of 60 acres, taken up 3rd November, 1881, county Rous, parish Cudgen; and having taken evidence and inquired into the said matter, we postponed for such corroborative evidence of the *bona-fide* residence of James Baker (deceased) as will satisfy the Board that he was a *bona-fide* resident from June, 1885, to his death, in January, 1886.

Given under our hands, at the office of the Local Land Board, at Murwillumbah, in the Colony of New South Wales, this 8th day of September, 1886,—

WM. BLACKMAN, Chairman.
JOSHUA BRAY, }
THOS. CAMPBELL, } Members.

[Enclosure.]

Mr. Donaldson, solicitor, appeared for selector.

This deponent, *Thomas Miller*, of Casino, in the Colony of New South Wales, inspector of conditional purchases, maketh oath, and saith as follows:—I know James Baker's selection, taken up 3rd November, 1881; the area is 60 acres; I valued the improvements at £90 when I last inspected it; I previously inspected it in April, 1885, and valued the improvements at £82 10s.; I gave evidence at the inquiry held in June, 1885; the place did not seem to be the *bona-fide* residence of the selector; I have no doubt he was there occasionally; I saw him at Smith and Brett's public house, at Tumbulgum, when I was going to visit his selection; from what I could see and learn I think he lives more at Tumbulgum than at his selection.

By Mr. Donaldson: As far as I know, he had no other home.
Sworn by this deponent, Thomas Miller, on this 8th day of }
September, 1886, at Murwillumbah, before us,— }

T. MILLER.

WM. BLACKMAN, Chairman.
JOSHUA BRAY, }
THOMAS CAMPBELL, } Members of Board.

This deponent, *William Baker*, of Tumbulgum, in the Colony of New South Wales, farmer, being duly sworn, maketh oath and saith as follows:—*By Mr. Donaldson:* I knew James Baker; he was drowned on the 9th January, 1886; he left a will, and left everything to me; steps are now being taken to prove the will in the Supreme Court of this Colony; under that will I am entitled to the whole of his property, real and personal; I have known him since he took up this selection; my selection adjoins his: I heard Inspector Miller's valuation, and I should think the improvements worth £120—35 acres fell and cleared, at £2 10s. per acre; house, £15, to which one room has been added since Inspector Miller's valuation; 25 rods fencing, at 5s. 6d. a rod; he was always improving the place since the last Court; since the case was before the Court the selector was a great deal more on it than before; he was delicate for years, and went to Brisbane on one occasion for medical advice; he also went to the Clarence on one occasion; I think he was *bona-fide*; he had no other home to go to; sometimes he had to go away and earn money.

By Board: He was a man of means, but he spent that, and had to go and earn money; he was on the selection when Inspector Miller visited it.

Sworn by this deponent, William Baker, on this 8th day of }
September, 1886, at Murwillumbah, before us,— }

WILLIAM BAKER.

WM. BLACKMAN, Chairman.
JOSHUA BRAY, }
THOMAS CAMPBELL, } Members of Board.

This deponent, *Richard Waller Dodds*, of Cudgen, in the Colony of New South Wales, timber-getter, being duly sworn, maketh oath, and saith as follows:—*By Mr. Donaldson:* I know James Baker, now deceased, and have known him for twelve years; I know his selection, and have visited it at various intervals; I don't think I was ever on the place when he was there, but I have frequently seen him on the road, going or coming with rations; I know that since June, 1885, I have met him more frequently in the vicinity of the selection; I consider he was a *bona-fide* resident, because I bought the pine on the selection, and he told me not to put my cattle on the selection.

Sworn by this deponent, Richard W. Dodds, on this 8th day of }
September, 1886, at Murwillumbah, before us,— }

RICHARD W. DODDS.

WM. BLACKMAN, Chairman.
JOSHUA BRAY, }
THOMAS CAMPBELL, } Members of Board.

Register this, and resubmit to Mr. Blackman.—H.C., Inspector of Land Agents and Land Board Offices, 6/4/87. Mr. Edwards, Court, Murwillumbah.—W.B., 6/4/87.

No. 9.

Mr. Inspector T. Miller to The Chairman, Local Land Board, Grafton.

Report by T. Miller, Inspector of Conditional Purchases, respecting the Selection of James Baker, made at Murwillumbah, on 21 September, 1882.

C.P. 82-150, section 21.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th June, 1887, and that I found the selector then not resident upon his selection, being dead.

Casino, 2 July, 1887.

The

The land, which consists of scrub land, and comprises 60 acres, is occupied and used by William Baker, and the selector, who follows the avocation of had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

On original conditional purchase	Nil.
Hut	£15 0 0
Fencing	20 0 0
Falling and clearing 30 acres	120 0 0
						£155 0 0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

Remarks.

This selector's case came before the Land Board, owing to a complaint from me that he was not residing on his land, it was put off for further report, and was reported on again by me. Shortly after that the selector was drowned, and his uncle, William Baker, to whom I believe he was indebted, took possession of it, and has since been improving it.

I have, &c.,

T. MILLER,

Inspector of Conditional Purchases.

For Court, Murwillumbah.—W.B., Chairman, 23/7/87.

No. 10.

The Board's Decision.

Crown Lands Act of 1884—(Part II., section 14, sub-section 4).

NEW SOUTH WALES, }
to wit. }

WHEREAS, on the 13th day of March, 1888, it became a matter for investigation before us whether James Baker had complied with the condition of residence upon his conditional purchase of 60 acres, selected 3rd November, 1881, county of Rous, parish of Cudgen; and having taken evidence and inquired into the said matter, the Board considers the evidence produced at this second inquiry most unsatisfactory. The Board (and this specially refers to the local members) has no confidence whatever in the evidence of Thos. Baker, brother of deceased, or Henry Chappell, his "chum," the said James Baker being notorious for hard drinking; and looking at all the circumstances and evidence as a whole, the Board deems this a bad case of non-fulfilment of the condition of residence, and, therefore, strongly recommend forfeiture.

Given under our hands, at the office of the Local Land Board, at Murwillumbah, in the Colony of New South Wales, this 13th day of March, 1888.

WM. BLACKMAN, Chairman.

JOSHUA BRAY,

THOS. CAMPBELL, } Members.

[Enclosures.]

Mr. Donaldson, solicitor, appeared for William Baker.

This deponent, *Thomas Baker*, of Duranbar, in the Colony of New South Wales, timber-getter, being duly sworn, maketh oath, and saith as follows :—*By Mr. Donaldson*: I had a selection about two years ago adjoining James Baker's, and I knew him before his death; I know where his house is on the selection; I had been frequently at his place before his death, and I lived with him on his selection for three months before he was drowned; selector was there all that time; my place was sold off, and I went to live with him, and worked round about there; he fulfilled his residence very well; he had to go away sometimes for rations; he went to Quirk's for beef, about 7½ miles from the selection; I was there when Inspector Miller came; it was during the three months I was living with him; he grew a couple of crops of corn on the place; he had 10 or 12 acres under crop, and I drew it away for him; I often went to see him before I was sold off; my selection adjoined his, but the huts were half-a-mile apart; I knew pretty well when he was there, and when he was not there; from my own knowledge and observations, I should say it was his *bona-fide* home; he was a single man; I remember him being up at the first Land Court here; I think he complied with his residence better afterwards than he did before; it was after the Land Court I stayed with him for three months; I know that the five years expired in 1886.

By Board: I am James Baker's brother; I am living on his selection.

Sworn by this deponent, Thomas Baker, on this 13th day of }
March, 1888, at Murwillumbah, before us,— }

THOMAS BAKER.

WM. BLACKMAN, Chairman.

JOSHUA BRAY,

THOMAS CAMPBELL, } Members of Board.

This deponent, *Henry Chappell*, of Tumbulgum, in the Colony of New South Wales, cordial-maker, being duly sworn, maketh oath, and saith as follows :—*By Mr. Donaldson*: I know the selection of James Baker (deceased) taken up in 1881; I have known it from about twelve months after the date of selection; I have often been out at the selection, and I used to stay there on my way to Cudgen; the house was a quarter of a mile from the road; the place was the same as any other selection; I found him living there when I called; I passed there different times during the day on different occasions, and saw the selector working there; I do not know that he met with an accident, and had to go away for medical advice; I do not remember him being up at the Land Court; I worked for him during July, 1885, on the selection; I used to sleep with him; he was there during the whole of the time; from what I saw during my stay there he appeared to make it his *bona-fide* home.

By Board: I live at Tumbulgum, and carry on my business; I have been carrying on the business about fifteen months; previous to that I was farming with my parents; Baker was a sort of chum of mine, and that is why I went to see him; he used to be at the public-house at times, but I cannot swear he was not often there; I am not aware that he used to live at the public house.

Re-examined by Mr. Donaldson: My parents' farm was about 3 miles from James Baker's selection.

Sworn by this deponent, Henry Chappell, on this 13th day of }
March, 1888, at Murwillumbah, before us,— }

H. CHAPPELL.

WM. BLACKMAN, Chairman.

JOSHUA BRAY,

THOS. CAMPBELL, } Members of Board.

This deponent, *William Baker*, of Statt's Creek, in the Colony of New South Wales, farmer, being duly sworn, maketh oath, and saith as follows:—*By Mr. Donaldson*: I am uncle of the deceased selector, James Baker; I am the person entitled to the selection of James Baker, under letters of administration granted to me in the estate of James Baker (deceased) by the Supreme Court; I gave evidence at the last Court; I have improved the place considerably since; Inspector Miller has been there once or twice; there has been a good deal of burning off and clearing done; there is nearly 40 acres fell and partly burnt off and partly grassed.

Sworn by this deponent, William Baker, on this 13th day of }
March, 1888, at Murwillumbah, before us,— }

WILLIAM BAKER.

No. 11.

Notice of Appeal.

Form 62—Crown Lands Act of 1884—(Part II, section 17).

Notice of Appeal to the Minister from decision of Local Land Board, to be lodged with the Chairman.

New South Wales, }
to wit. }

WHEREAS, on the 13th day of March, 1888, a certain matter wherein William Baker was called upon to show cause why conditional purchase 81-95, taken up by the late James Baker, on 3rd November, 1881, together with the additional selections, came before the Local Land Board at Murwillumbah, in the Colony of New South Wales, for decision, I being a party to such proceedings; and the said Board, after having inquired into the premises, decided that the selection should be forfeited for non-residence.

And whereas I am dissatisfied with such decision, and intend to appeal therefrom to the Minister, these are, therefore, to give you notice of my intention to appeal as aforesaid, and I herewith tender the sum of £10 as security for the costs of such appeal, and the grounds of such appeal are annexed.

WILLIAM BAKER.

Grafton, 27 March, 1888.

Received the sum of £10 referred to above.

B. S. LEVICK,
Clerk-in-Charge.

Grounds of Appeal.

That the Land Board misinterpreted the evidence regarding residence.

No. 12.

Decision of The Secretary for Lands.

Crown Lands Act of 1884—(Part II, section 18).

Decision of Minister on a case of appeal from Local Land Board.

New South Wales, }
to wit. }

WHEREAS, on the 13th day of March, 1888, a certain matter, wherein the fulfilment of the conditions on the late James Baker's conditional purchase, 81-95, Murwillumbah, came on for investigation and adjudication before the Local Land Board at Murwillumbah, Colony of New South Wales, and the said Board decided that such conditional purchase be forfeited, and William Baker, one of the parties thereto, appealed from such decision to the Minister, and the said matter having this 21st day of May, 1888, come before me, Thomas Garrett, on appeal, I, being the Minister charged with the administration of the Crown Lands Act of 1884, having heard the said appeal in open Court, do hereby decide as follows:—I dismiss the appeal, and order the deposit lodged therewith to be refunded.

Given under my hand, at the Department of Lands, Sydney, this 21st day of May, 1888.

THOS. GARRETT,
Minister.

Submitted that the deposit on appeal be refunded to appellant in terms of Ministerial decision hereon, no expense having been incurred.—B. S. LEVICK, 5/6/88. The Chairm'n. Cheque, No. 28,013, herewith.—W.B., Chairman, 7/6/88. Mr. L. Deposit, on appeal, refunded to appellant, through Land Agent, Murwillumbah, by cheque, as above.—B. S. LEVICK, 14/6/88. District Surveyor for report under circular 86-19.—B.S.L. (*pro* Chairman), 15/6/88.

The land in question, viz., portions 48 and 210, parish of Cudgen, county of Rous, is not within the boundaries of any pastoral holding, but being within the boundaries of the Tweed and Richmond Rivers Gold-field, proclaimed 22nd October, 1887, is recommended for proclamation as an extension to same. The land is not required for reservation for any public purpose, but is recommended for proclamation as a special area at £2 per acre for residential, and £4 per acre for non-residential selection. The necessary descriptions and tracings are transmitted herewith. Additional conditional purchase, 82-150, portion 210, in virtue of conditional purchase, 81-95, should be gazetted as forfeited simultaneously with original conditional purchase.—P. R. DONALDSON, District Surveyor, June, 1888. The Chairman, Local Land Board.

The appeal having been dismissed, the recommendation of the Land Board that conditional purchase 81-95, Murwillumbah, be declared forfeited, is submitted for approval.—F.H.W. S.F., 11/7/88. Forfeiture approved.—H.P., 13/7/88. Forfeited, *Gazette*, 13/2/89.

No. 13.

Office Memorandum.

Conditional purchases 81-95 and 82-150, Murwillumbah; James Baker, 13th and 21st sections; county Rous, parish Cudgen, portions 48 of 60 acres, and 210 of 87 acres.

3 December, 1888.

INSPECTOR Miller visited the selection, 9th June, 1887, and reported that the selector had recently been drowned, and that the improvements were to the value of £155 on the original conditional purchase.

The selection consists of scrub land.

The decision of the Board was appealed from and the appeal dismissed by the Minister.

Not within the boundaries of any pastoral holding, but recommended by the District Surveyor as a "special area," and to be proclaimed an extension to the Tweed and Richmond River Gold-field.

F.G.

Forfeited conditional purchase not within any holding. In this case the District Surveyor recommends (*vide* conditional sales 89-21,350 departmental) that the land be proclaimed as a special area at £2 per acre, and also as an extension to the Tweed and Richmond Rivers Gold-field. The forfeiture will take effect on Saturday, the 16th proximo, and the land will be open to selection on the following Thursday. As it has been decided not to make special areas at present, it is submitted whether the land should be added to the gold-field and reserved from sale "to protect Crown lands from sale of any kind pending legislation to determine in what manner it may be dealt with." The land being in the county of Rous, the case is one of those which the Minister desired to have specially submitted as regards the making of special areas. Special.—R.H.D., 20/2/89.

Urgent.—S.F. This case is special, and the land may be made a special area as suggested, and at the price suggested.—W.J.L., 27/2/82. Executive Council minute, Ms. 89-3,257. Gazetted and Land Agent informed, 16/3/89. Under Secretary for Mines, with six slips, 26/3/89. Land Agent, with tracing, 4/4/89.

No. 14.

Gazette Notice.

FORFEITED CONDITIONAL PURCHASES.

Department of Lands, Sydney, 13 February, 1889.

HIS Excellency the Governor, with the advice of the Executive Council, directs it to be notified that the undermentioned portions of Crown land, conditionally purchased under the Crown Lands Alienation Act of 1861, the Lands Acts Amendment Act of 1875, the Lands Acts Further Amendment Act of 1880, and the Crown Lands Act of 1884, as well as all conditional leases or rights attached thereto, are hereby declared forfeited; but such forfeiture shall not take effect until the expiration of thirty clear days after this notification.

No. 17.

Office Memorandum.

Murwillumbah, conditional purchase 81-95, 60 acres, portion 48; additional conditional purchase, 82-150, 60 acres, portion 210, measured as 87 acres, James Baker.

13 March, 1889.
THE above conditional purchases were selected by James Baker on 3rd November, 1881, and 10th August, 1882, respectively; and on 14th April, 1885, the original conditional purchase was visited by Mr. Inspector Miller, who found improvements thereon to the value of £82 10s., and reported that Baker was not on the selection on two occasions when he called there, but there were some rations and signs of recent occupation, and he believed the selector had no other home.

On 25th June, 1885, the Board held an inquiry as to fulfilment of the condition of residence, but postponed action pending further inspection; and on 20th November, 1885, Mr. Inspector Miller again visited the land, and reported that in his opinion the selector had not been continuously resident upon the selection, but had spent most of his time at Smith and Brott's, a public house at Tumbulgum.

The selector was drowned on 9th January, 1886, and left all his property by will to his uncle, William Baker.

The Board resumed their inquiry on 3rd September, 1886, but again postponed it for such corroborative evidence of a *bona-fide* residence of James Baker deceased as would satisfy them that he was a *bona-fide* resident from June, 1885, to his death in January, 1886.

On the 13th March, 1888, the Board held a further inquiry, and after taking evidence they found as follows:—"The Board considers the evidence produced at this second inquiry most unsatisfactory. The Board (and this especially refers to the local members) has no confidence whatever in the evidence of Thomas Baker, brother of deceased, or Henry Chappell his "chum," the said James Baker being notorious for hard drinking; and looking at all the circumstances and evidence as a whole, the Board deems this a bad case of non-fulfilment of the condition of residence, and therefore strongly recommend forfeiture."

This decision was appealed against by William Baker, and on the 21st May last the matter came before Mr. Secretary Garrett, who dismissed the appeal, and ordered the deposit lodged therewith to be refunded.

On 4th September last, a petition from a number of the selectors of the district, asking for a re-hearing was presented by Mr. Kethell, M.P., who asked that the claimant, William Baker, might be allowed to re-select the land if a re-hearing could not be granted; and on 15th November, Mr. Kethell, was informed that the land would be added to the gold-field, and dealt with as a special area.

Forfeiture was approved on 13th July last by Sir Henry Parkes (as Acting Secretary for Lands), and gazetted on 13th ultimo; and on 27th ultimo, Mr. Secretary Lyne approved of the land being made a special area at £2 per acre for residential, and £4 per acre for non-residential selection.

A letter dated 12th instant has now been received from Mr. Ewing, M.P., in which he asks for a re-hearing, and states that the claimant can bring further evidence to bear on the matter.

W.H.C.

I see no reason for interfering with the action taken by my predecessors. The special area may be proclaimed as directed.—J.N.B., 13/3/89.

No. 18.

Minute Paper for The Executive Council.

Recommending proclamation of special areas under the 24th section of the Crown Lands Act of 1884, &c.

Department of Lands, Sydney, 16 March, 1889.

It is recommended to His Excellency the Governor and the Executive Council, that the portions of Crown land described in the annexed schedule be proclaimed as special areas under the 24th section of the Crown Lands Act of 1884, and that the price of the same by conditional purchase, under sections 22 and 42, be 40s. per acre, the deposit money be 4s. per acre, and the instalment of balance be 2s. per acre; and for non-residence selections under section 47, the area of which shall not exceed 160 acres, the deposit money be 8s. per acre, and the instalment of balance be 4s. per acre, and that the price per acre be double that stated above.

It is further recommended that the portions of land in question be proclaimed as extensions to the Tweed and Richmond Rivers gold-field, under the 10th section of the Mining Act of 1874.

WILLIAM JOHN LYNE.

SCHEDULE.

Registration number, Miscellaneous 89-2,692; area, 147 acres; No. of special area, 8,800; county of Rous, parish of Cudgen; number of portions, 48 and 210. Remarks: Shown on plan R 3,939-1,759.

The Executive Council advise that the recommendation herein set forth be approved, and the necessary notices issued accordingly.—ALEX. C. BUDGE, Clerk of the Council, 5/3/89. Minute, 89-17. Approved.—CARRINGTON, 5/3/89. Confirmed, 8/3/89. Gazetted, and Land Agent informed, 16/3/89. Under Secretary for Mines, with six slips of each, 26/3/89.

No. 19.

Telegram from W. Baker, Esq., to The Secretary for Lands.

Tumbulgum, 19 March, 1889.

In case of forfeiture of the selection owned by the late James Baker, and now in the holding of William Baker, it will be placed in the Supreme Court.

W. BAKER.

1892.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CROWN LANDS.

(RETURN SHOWING SALE OF CROWN LANDS IN COUNTIES OF CADELL, DENISON, TOWNSEND, HUME, URANA, AND WAKOOL.)

Ordered by the Legislative Assembly to be printed, 13 December, 1892.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 30th November, 1892, That there be laid upon the Table of this House,—

“ A Return showing the aggregate amount of money received from the “ sale of Crown Lands since the Land Act of 1861, within the counties of “ Cadell, Denison, Townsend, Hume, Urana, and Wakool.”

(Mr. Chanter.)

RETURN showing the aggregate amount of money received from the sale of Crown Lands in the Counties of Cadell, Denison, Hume, Townsend, Urana, and Wakool, from 1862 to 1891 inclusive.

	£	s.	d.	£	s.	d.
Amount for lands sold otherwise than conditionally			4,450,516	18	9
*Amount paid on conditionally purchased lands for which deeds have been issued	307,756	0	0			
*Amount paid as deposits on an area of about 1,471,985 acres, held under incomplete conditional purchase	373,196	0	0			
*Amount paid as interest and instalments of purchase money	740,000	0	0			
Total	£ 1,420,952	0	0	1,420,952	0	0
Grand Total	£			5,871,468	18	9

* These figures are approximate only, as the exact amounts cannot be stated without the preparation of a special return, which would be very costly, and take considerable time.

1892.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

AUSTRALIAN AGRICULTURAL COMPANY.

(RETURN RESPECTING THE.)

Ordered by the Legislative Assembly to be printed, 6 September, 1892.

RETURN (*in part*) to an Order made by the Honorable the Legislative Assembly of New South Wales, dated 21 December, 1891, That there be laid upon the Table of this House,—

- “(1.) A copy of the Act of Parliament made and passed in the fifth year of the reign of his late Majesty King George the Fourth, intituled “ ‘ An Act for granting certain powers and authorities to a company to be incorporated by Charter, to be called the Australian Agricultural Company.’ ”
- “(2.) A copy of the Charter under the Great Seal of Great Britain, dated at Westminster, the first day of November, in the fifth year of the reign of the aforesaid King George the Fourth, conferring certain powers on the Australian Agricultural Company, and grants of lands, tenements, and hereditaments in the Colony of New South Wales.
- “(3.) A copy of an Act, intituled ‘ An Act to amend an Act passed in the fifth year of the reign of His Majesty King George the Fourth for granting certain powers and authorities to the Australian Agricultural Company.’ ”
- “(4.) Copies of all reports, documents, letters, and plans in connection with the Crown grant (including the said grant) to the Australian Agricultural Company, dating from the fifth year of the reign of his late Majesty King George the Fourth up to the present time.”

(*Mr. Melville, for Mr. Dowel.*)

AUSTRALIAN AGRICULTURAL COMPANY.

No. 1.

Act granting certain powers and authorities to the Australian Agricultural Company.

Anno Quinto, Georgii IV, Regis, Cap. LXXXVI.

AN Act for granting certain powers and authorities to a Company to be incorporated by charter, to be called "The Australian Agricultural Company," for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto. (21st June, 1824.)

WHEREAS there are in the Colony of New South Wales divers waste lands, which might be cultivated to advantage, if sufficient capital were raised and advanced for that purpose: And whereas there are in the said Colony a large number of convicts, who are at present maintained at the public expense, but who might be advantageously employed in the cultivation of such waste lands as aforesaid, and thereby a considerable annual saving would accrue to the public; and whereas divers persons are willing to contribute and raise, by subscription among themselves, such a capital sum as will be necessary for bringing into cultivation such of the said waste lands as His Majesty may be pleased to grant to them, and for the employment thereon of a large number of convicts. And whereas the beneficial objects aforesaid cannot be effectually attained unless His Majesty should be pleased by his charter to constitute and declare the persons aforesaid one body politic and corporate; and in the event of such a charter being granted, it will be necessary, with a view to the beneficial objects aforesaid, to vest in the said Company such powers and authorities as cannot be granted without the aid of Parliament. May it therefore please your Majesty that it may be enacted, and be it enacted by the King's most excellent Majesty, by and with the advice and consent of the Lords Spiritual, and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, that in case His Majesty shall, within three years after the passing of this Act, be pleased, by charter under the Great Seal of Great Britain, to declare and grant that such and so many persons as shall be named therein, and all and every such other person or persons as from time to time shall be duly admitted members into their corporation, shall be a body politic and corporate, by the name of "The Australian Agricultural Company," and to declare that the said corporation so to be made and created shall be established for the purpose of cultivating waste lands in the said Colony of New South Wales, then and in that case it shall and may be lawful for the said corporation to hold to them and their successors, such lands, tenements, and hereditaments, within the said Colony of New South Wales, as shall or may be granted by His Majesty to them and their successors within the said Colony, or as shall be contracted for and purchased or acquired by them therein, and to hold, alienate, sell, and dispose of all such lands, tenements, and hereditaments, upon, under, and subject to such conditions, provisoes, limitations, and restrictions, as His Majesty by such his charter may impose, direct, or prescribe.

When His Majesty, by charter, shall declare the Australian Company a corporation, it shall be lawful to hold and acquire lands within the Colony of New South Wales.

The Company to appoint agents and attorneys in New South Wales.

4 G. 4, c. 26.

Charter of incorporation, verified on oath, to be transmitted to New South Wales, and enrolled in the Supreme Court.

Artificers and labourers empowered to contract with the Company.

Capital or joint stock of one million to be raised in shares of £100 each.

Three-fourths of the capital to be raised before powers of the Act exercised.

II. And be it further enacted, that it shall and may be lawful for the said Company from time to time to appoint any person or persons to act as and be the agent or agents, attorney or attorneys of the said Company, in the said Colony of New South Wales and its dependencies, and such appointment from time to time to revoke and recall, as occasion may require; and the said Company shall be and are hereby authorised to sue and be sued, plead or be impleaded, at Bar or in Equity, within the said Colony, by and in the name of such agent or agents, attorney or attorneys, as aforesaid: Provided always, that every such appointment of such agent or agents, or attorney or attorneys, as aforesaid, be made by the said Company under their common seal, and that the same be duly recorded and enrolled in the Supreme Court of New South Wales, established under and by virtue of an Act passed in the fourth year of the Reign of his present Majesty, intituled "An Act to provide until the 1st day of July, one thousand eight hundred and twenty-seven, and until the end of the next Session of Parliament, for the better administration of Justice in New South Wales and Van Diemen's Land, and for the more effectual government thereof; and for other purposes relating thereto."

III. And be it further enacted, that a copy of His Majesty's Charter of Incorporation, being duly verified on oath before one of the Masters in Ordinary of the High Court of Chancery at Westminster, shall be transmitted to the said Colony, and enrolled in the said Supreme Court of New South Wales, and such enrolment shall within the said Colony be deemed and taken to be good and sufficient evidence of the contents of such Charter of Incorporation to all intents and purposes.

IV. And be it further enacted, that it shall be lawful for any artificer, handicraftsman, clerk, mechanic, gardener, servant in husbandry, or other labourer, not being under the age of eighteen years, to contract with the said Company to serve the said Company, in the said Colony, or the dependencies thereof, in such and the same manner and form, and upon, under, and subject to all such and the same conditions and regulations, as are sanctioned and prescribed in and by the said Act, passed in the fourth year of His Majesty's reign, in respect to contracts entered into for the like purposes with any private persons or person; and all such artificers, and any other person or persons, as aforesaid, entering into any such contract as aforesaid with the said Company shall be subject and liable to be proceeded against in such and the same manner as is provided in like leases in and by the said Act; and in case of any such artificers, or other persons, as aforesaid, being employed, retained, harboured, or concealed by any persons or person in the said Colony, it shall be lawful for the said Company to bring and maintain such and the like actions against the persons or person so employing, retaining, harbouring, or concealing them or him, as may be brought and maintained in such and the like leases under and by virtue of the said Act.

V. And be it further enacted, that the capital or joint stock of the said Company to be used and applied in establishing or carrying on the undertaking, and for the purposes aforesaid, shall be the sum of one million pounds sterling, to be raised in shares of one hundred pounds each; and that the shares in the said undertaking, and in the profits and advantages thereof, shall be and be deemed personal estate, and as such personal estate shall be transmissible accordingly.

VI. Provided always, and it is hereby enacted, that the said Company shall not be authorised to exercise any of the powers granted under this Act until such time as three-fourth parts of the said capital shall have been subscribed for,

VII.

VII. Provided always, and be it further enacted, that the said Company shall not borrow or take up by way of loan any sum or sums of money whatsoever, other than by a subscription of shares in the manner and to the extent hereinbefore directed. Company not to borrow money.

VIII. And be it further enacted, that all and every person or persons by and from whom any subscription shall be made or accepted, or any payment made, pursuant to the orders of any general meeting or meetings to be held by the said Company for that purpose, for or towards the raising of the said capital sum of one million pounds as aforesaid, his, her, or their executors, administrators, and assigns respectively, no such subscription being less than one hundred pounds, shall have and be entitled to a share of and in the said capital or joint stock of the said Company, in proportion to the monies which he, she, or they shall have so contributed towards making up the same, and shall have and be entitled to a proportionable share of the profits and advantages attending the capital stock of the said Company, and shall be admitted to be a proprietor or proprietors of and in the same. Subscribers share in the stock in proportion to their subscription.

IX. And be it further enacted, that the said Company, or the directors, to be appointed by virtue of this Act, shall cause the names and designations of the several persons who have subscribed for, or may at any time hereafter be entitled to a share or shares in the said company, with the number of such share or shares, and also the proper number by which every share shall be distinguished to be fairly and distinctly entered in a book, or books, to be kept by their clerk; and after such entry, a certificate under the common seal of the said company, and countersigned by the clerk, shall be delivered to every proprietor upon demand, specifying the share, or shares, to which he or she is entitled in the said Company, and such certificate shall be admitted in all Courts whatsoever as evidence of the title of such proprietor, his or her executors, administrators and assigns, to the share or shares therein specified; but the want of such certificate shall not hinder or prevent the owner of any of the said shares from selling or disposing thereof. Names of proprietors to be entered, and certificates of their shares delivered to them.

X. And be it further enacted, that the several persons who have subscribed for and towards the said capital, or who shall at any time hereafter have or hold any share or shares in the same, shall and they are hereby required to pay the sum or sums of money by them respectively subscribed, or such parts or proportions thereof as shall from time to time be called for, pursuant to or by virtue of the powers and directions of this Act, at such times and places, to such person or persons, and in such manner as shall be ordered and directed by the directors for the time being hereinafter mentioned; and in case any person or persons shall neglect or refuse to pay any such sums of money at such times and in such manner as shall be ordered and directed by the directors as aforesaid, it shall be lawful for the said Company to sue for and recover the same, together with lawful interest from such appointed time of payment, from such person or persons, or in cases where two or more persons shall have jointly subscribed for or be jointly possessed of any one or more share or shares in the said Company, then from all, any, or either of such persons. To compel payment of subscriptions.

XI. And be it further enacted, that, whenever two or more persons shall be jointly possessed of or entitled to any share or shares in the said Company, the person whose name shall stand first in the books of the said Company as proprietor of such share or shares, shall, for all the purposes of the said Company and of this Act, be deemed and taken to be the owner or proprietor of such share or shares, and all notices required to be given to the owner or proprietor of any share or shares in the said Company, shall, and may be given to or served upon such person whose name shall so stand first in the books of the said Company, and such service upon such person shall be deemed and taken to be a service upon all the owners or proprietors of such share or shares for all the purposes for which such service is intended to be made upon the owner or proprietor of such share or shares; and all such owners or proprietors shall be entitled to give their vote or votes in respect thereof by the person whose name shall stand first in the books of the said Company as proprietor of such share or shares, and his vote shall on all occasions be deemed and allowed to be the vote for or in respect of the whole property in such share or shares, without proof of the concurrence of the other proprietor or proprietors of such share or shares. The person whose name stands first, for divided shares to be deemed the owner, and entitled to vote.

XII. And be it further enacted, that it shall be lawful for the several proprietors of the said Company, their executors, administrators, successors, and assigns, to sell and transfer any share or shares of which they shall respectively be possessed; and every such transfer shall or may be in the form and to the effect following; (that is to say) :—“I (or we) of of in consideration of paid to me (or us) by of do hereby bargain, sell, assign, and transfer unto the said the sum of , capital stock of and in the undertaking called ‘The Australian Agricultural Company,’ being share (or shares) number (or numbers) in the said undertaking; to hold to the said executors, administrators, and assigns, subject to the same rules, orders, and regulations, and on the same conditions that I (or we) held the same immediately before the execution hereof: And I (or we) the said do hereby agree to accept and take the said share (or shares) subject to the same rules, orders, restrictions and conditions. As witness our Hands and Seals this day of , in the year of Our Lord . And every such transfer shall be produced to the Clerk of the said Company and shall be registered by him in the books of the said Company, and the registry thereof shall specify the dates, names of the parties, and number of shares transferred; and a copy of such register, signed by the said clerk or other officer of the said Company duly authorised thereto shall be sufficient evidence of every such transfer, and be admitted and received as such; and until such transfer shall be registered in the books of the said Company as aforesaid, no purchaser or purchasers of any share or shares, his, her, or their executors, administrators, successors, or assigns, shall receive any interest or dividends for or in respect of such share or shares so purchased, nor be entitled to vote at any meeting or meetings, as proprietor or proprietors of the said Company, in respect of such share or shares, until the expiration of six calendar months after such transfer shall have been registered. Shares may be transferred.

XIII. Provided always, and be it further enacted, that after any call for money shall have been made and become due and payable by virtue of this Act, no person or persons shall sell or transfer any share or shares which he, she, or they shall possess in the said company, until the money so called for or in respect of his, her, or their share or shares intended to be sold shall be paid; and until such money so called for shall be paid, any such sale or transfer of any share or shares shall be void; and all and every person or persons making default therein shall be subject and liable to forfeit such his, her, or their share or shares in the said company, to and for the general benefit of the said company, unless he, she, or they shall, at the time of such sale or transfer, pay to the treasurer of the said Company the full No share to be sold after a call is made and due till the money is paid.

sum of money called for upon every share so to be sold or transferred; such forfeiture, nevertheless, to be first notified and declared in manner directed by this Act with respect to the forfeiture of shares for not answering the calls to be made thereon as aforesaid.

Proofs required where rights accrue by marriage or death.

XIV. And be it further enacted, that when any person or persons shall claim any part or share in the said capital or joint stock of the said Company, or the profits thereof, in right of marriage, an affidavit, containing a copy of the register of such marriage or the purport of such register shall be made and sworn to by some credible person before one of His Majesty's Justices of the Peace, and in the said Colony of New South Wales before a Judge of some Court of Record, or two of His Majesty's Justices of the Peace for the said Colony or some district thereof, and shall be delivered to and left with the clerk for the time being of the said company, who shall preserve the same, and make an entry thereof in the book or books which shall be kept by the said clerk for the entry of transfers and sales of shares in the said undertaking before such person or persons shall be entitled to sell and assign such share or shares, or to claim payment of any dividend or dividends in respect thereof; and when any person or persons shall claim any part or share in the capital or joint stock of the said Company, or the profits thereof, under or by virtue of any will or bequest, or in a course of administration the probate copy of the will, or the letters of administration in case the proprietor shall have died intestate, shall be produced and shown to the said clerk, who shall make an entry of such will or of so much thereof as shall relate to the disposition of the share or shares of the testator or of the letters of administration in case the proprietor shall have died intestate, before any person or persons shall be entitled to sell and assign such share or shares, or to claim payment of any dividend or dividends in respect thereof: Provided, nevertheless, that no bequest or clause in any such will contained shall bind or affect the said Company with notice of any trust or disposition of any share or shares in the capital or joint stock of the said Company, or the gains and profits thereof; but the registry of every such share or shares shall be in the name or names of the executor or executors, who shall prove the will of such testator, or the administrator or administrators of his effects, whose receipt or receipts to the said Company for the gains and profits thereof, and to any purchaser or purchasers for the amount of the purchase money paid upon the sale and conveyance of such share or shares, shall be good and effectual, and shall bind the cestuique trusts, and all other persons claiming in trust or otherwise, under such testator, any rule of law or equity to the contrary notwithstanding.

For ascertaining the proprietorship of shares in certain cases.

XV. And, whereas, in cases where the holder or proprietor of one or more share or shares in the said Company shall die, become insolvent or bankrupt, or go or be resident out of the kingdom, or shall transfer his or her right and interest to some other person or persons, and no register shall have been made of the transfer thereof with the clerk of the said Company, it may not be in the power of the said Company to know who is or are the proprietor or proprietors of such share or shares, in order to give him, her, or them, his, her, or their executors, administrators, successors, and assigns notice or notices of calls to be made on such share or shares, and to maintain any action or actions against him, her, or them, his, her, or their executors, administrators, successors, and assigns, for the recovery of the same, or for the purpose of safely paying to him, her, or them, his, her, or their executors, administrators, successors, and assigns, the interest or dividends to which he, she, or they may be entitled. Be it therefore further enacted that in all cases aforesaid, where the right and property in one or more share or shares in the said Company shall pass from the original subscriber or subscribers, or any proprietor or proprietors thereof, to any other person or persons by any other legal means than by a transfer or conveyance thereof, in the form and manner hereinbefore specified, an affidavit shall be made and sworn to by two or more credible persons before one of His Majesty's Justices of the Peace, and, in the said Colony of New South Wales, before a Judge of some Court of Record, or two of His Majesty's Justices of the Peace for the said Colony, stating the manner in which such share or shares hath or have passed to such other person or persons, his, her, or their executors, administrators, successors, and assigns, and such affidavit shall be delivered to and left with the clerk for the time being of the said Company, to the interest that he may enter and register the name or names of every such other proprietor or proprietors in the Register Book or List of Subscribers and Proprietors of the said Company to be kept in the office of the said Company; and until such time as such affidavit shall have been so delivered and left with the said clerk as aforesaid, no such person or persons shall be entitled to sell and assign such share or shares, or to claim payment of any dividend or dividends in respect thereof.

Directors may make calls on subscribers.

XVI. And be it further enacted, that the directors hereinafter mentioned, or the directors for the time being, shall have full power to make such call or calls for money from the several subscribers and proprietors of the said Company, their respective administrators, successors, and assigns, not exceeding in the whole the sum of one hundred pounds on each of the shares of the said Company held by him, her, or them respectively, as the said directors shall from time to time find wanting and necessary for the purposes of the said Company, so that no one such call do exceed the sum of ten pounds sterling for or in respect of any one share of one hundred pounds, and so that no call or calls be made but at the distance of three months at least from another; and the sum or several sums of money so to called for, shall be paid to or for the treasurer or treasurers of the said Company for the time being, and the said several sums of money so called for shall be paid at such time and place as shall be appointed by the said directors, of which time and place twenty days' previous notice at least shall be given in the *London Gazette*, and in two or more of the daily London newspapers, as the said directors shall direct.

In default of payment of calls, shares to be forfeited.

XVII. And be it further enacted, that if any subscriber, or any proprietor or proprietors of any share or shares in the said Company, his, her, or their executors, administrators, successors, or assigns, shall neglect or refuse to pay his, her, or their part or portion of the money to be called for by the directors as aforesaid, during the space of three calendar months next after the time appointed for payment thereof, together with lawful interest from the appointed time of payment, then, and in every such case, such person or persons so neglecting or refusing, shall absolutely forfeit all his, her, or their share or shares in the said Company and capital stock, and all profits and advantages thereof, and all money theretofore advanced by him, her, or them, on account thereof, to and for the use and benefit of the said Company; and all shares which shall or may be so forfeited, shall or may be at any time or times thereafter be sold at a public sale for the most money that can be gotten for the same, and the produce thereof shall go to and make part of the capital or joint stock of the said Company; but no advantage shall be taken of such forfeiture of any share or shares until after thirty days' notice shall have been given by the said directors, under the hand of the clerk of the said Company, to the owner or owners thereof, by notice

But notice to be given.

in

eight hundred and thirty-one, six others of the said directors, to be determined by lot amongst the first-appointed directors then remaining in office, shall go out of the said office of director; and on the third Tuesday in the month of January, one thousand eight hundred and thirty-two, six others of the said directors, to be determined by lot amongst the first-appointed directors then remaining in office, shall go out of the said office of director; and on the third Tuesday in the month of January, one thousand eight hundred and thirty-three, the remaining six of the said first-appointed directors shall go out of the office of director.

Election of directors.

XXIV. And be it further enacted, that at the general meeting, which shall be holden on the third Tuesday in the month of January, one thousand eight hundred and thirty, or within fourteen days thereafter, and at the like general meeting in every succeeding year, there shall be an election of six proprietors qualified respectively in manner hereinbefore mentioned, who shall thenceforth be six of the directors of the affairs of the said Company for four years, to be computed from the day of election, and until others or another shall be duly elected into their or any or either of their places.

Appointment of auditors.

XXV. And be it further enacted, that Cornelius Buller, William Haldimand, George Hathorn, and William Ward, Esquires, shall be and they are hereby constituted and appointed the first auditors and examiners of the accounts of the said Company.

Auditors to serve four years.

XXVI. And be it further enacted that the several persons hereby nominated, constituted, and appointed the auditors and examiners of the accounts of the said Company shall continue in office, and be respectively auditors and examiners for the term of four years from the third Tuesday, in the month of January one thousand eight hundred and twenty-five, and until others or another shall be appointed in their or any or either of their stead, in pursuance of this Act; and at the expiration of the said term, and also at the expiration of every succeeding year, four other persons shall be elected and appointed out of the proprietors of shares in the said undertaking, to be the auditors and examiners of the accounts of the said Company, who shall continue in their respective offices for the space of one year, to be computed from the day of election, and until others or another shall be duly elected into their or any or either of their places.

Officers may be re-elected.

XXVII. Provided always, and be it further enacted, that nothing in this Act shall be taken or construed to prevent any governor, deputy governor, director, or auditor and examiner, who shall go out of office on days aforesaid, or on any annual day of election thereafter, if qualified as aforesaid, from being eligible to be immediately re-elected to the said offices, or either of them.

Contracts made by or on behalf of governors, or directors, or auditors to be void.

XXVIII. Provided always, and be it further enacted, that all and every contract or contracts made or entered into by or on behalf of any governor, deputy governor, director, or auditor or examiner of accounts of the said Company, or in which any such governor, deputy governor, director, or auditor shall be either directly or indirectly interested or concerned for doing or causing to be done any work for or on behalf of the said Company, or for supplying any of the articles or materials or things to or for the use of the said Company, shall be absolutely null and void to all intents and purposes whatsoever; and every such governor, deputy governor, director, and auditor and examiner of accounts who shall enter into any such contract or contracts as aforesaid shall, *ipso facto*, cease to be such governor, deputy governor, director, or auditor and examiner, as the case may be, and a new election of some other proprietor duly qualified shall take place in the manner herein mentioned; and every such person shall also, for every such offence, forfeit and pay the sum of five hundred pounds to any person or persons who shall sue for the same, to be recovered in any of His Majesty's Courts of Record at Westminster by action of debt, bill, plaint, or information to be commenced within three calendar months next after the offence committed, in which action or suit respectively no protection, essoin, or wager at law, or more than one imparlance shall be allowed.

In case of death, resignation, or want of qualifications of governors, directors, or auditors, others to be elected.

XXIX. Provided always, and be it further enacted, that so often as it shall happen that any governor, deputy governor, director, or auditor and examiner of accounts of the said Company shall die, resign, or become disqualified to continue in or hold the said offices, or any or either of them, a special general meeting of the proprietors shall be convened by the directors of the said Company for the time being, for the purpose of electing some one or more proprietor or proprietors, qualified as aforesaid, to fill such vacancy or vacancies, and exercise the said office or offices, or either of them respectively, for such time and times, and with the like powers and authorities as the person or persons so dying, having resigned, or become disqualified would have done respectively if no such vacancy as aforesaid had occurred.

Powers of the directors.

XXX. And be it further enacted that the directors, for the time being, shall have the custody of the Common Seal of the said Company, and shall have full power and authority to use the same for the affairs and concerns of the said Company, and shall have full power and authority to meet and adjourn from time to time, and from place to place, and also to direct, manage, and transact the affairs and business of the said Company, as well in issuing, receiving, laying out and disposing of all sum and sums of money to be issued or received, laid out or disposed of for the purposes of the said Company, as in contracting for and purchasing messuages, lands, tenements, and hereditaments, situate in the said Colony of New South Wales and its dependencies, and materials, goods, and chattels for the use of the said Company; and in ordering, directing, and employing the clerk, agents, officers, servants, apprentices, labourers, and workmen, and each and every of them, and selling and disposing of all or any messuages, lands, tenements, and hereditaments, situate in the said Colony, and all materials, goods, chattels, and articles belonging to the said Company; and in making, enforcing, and carrying into effect all contracts and bargains touching, or in anywise concerning the same; subject to such orders, by-laws, rules and regulations, as shall at any time be duly made by the said Company in restraint, control, or regulation of the powers and authorities by this Act granted.

Powers of the directors as to calling the special general meetings. Notice of meetings, &c., hour to be given. Regulations of directors.

XXXI. And be it further enacted, that the said directors shall, and may at any time or times, and for such purpose or purposes as they may think proper, have power to call a special general meeting or meetings of the said Company, of which notice shall be given by advertisement in two or more of the public daily newspapers published in the City of London, or county of Middlesex, fourteen days at the least previous to such meeting.

XXXII. And be it further enacted, that the said Governor, Deputy Governor, and directors, shall meet together at the office of the said Company one day in every month at the least, and at such other times as they shall think proper; and any two or more of the said directors may at any time call a meeting of the said directors by notice in writing, to be sent to each of the said directors respectively; but no business shall be transacted at any such meeting unless five at the least of the said directors shall be present;

present; and all questions, matters, and things which shall be proposed, discussed, or considered by them, shall be decided and determined by the majority in number then present; and in case of an equal division, the director for the time being in the Chair, shall have an additional or casting vote besides his own personal vote; and if on the day appointed for any such meeting a sufficient number of directors shall not attend, then, and in every such case the said meeting shall be adjourned to the next day by the director or directors then present, or if none be present by the clerk to the said Company, or such other person as shall attend in his place, and the proceedings of every meeting of directors shall be entered in a book, to be kept by the clerk for that purpose, and shall be signed by the director who shall be in the Chair.

XXXIII. And be it further enacted, that it shall and may be lawful to and for the said governor, deputy-governor, and directors, and they are hereby authorised and required, from time to time, to nominate and appoint one or more banker or bankers, treasurer or treasurers, receiver or receivers, collector or collectors, of all and singular the sum and sums of money payable or to become due or payable under or by virtue of this Act, and also a fit and proper person, who shall be and be called the clerk of the said Company, and such other officers and servants, except as aforesaid, as the said directors shall think proper and expedient for the purposes of this Act; and also from time to time to discharge and dismiss or suspend any such clerk, receivers, collectors, or other officers or servants, and to appoint others in their stead, as there shall be occasion; and that every such clerk, receiver, collector, or other officer, who shall at any time quit or be dismissed from the service of the said Company, and the respective executors or administrators of those who may happen to die, shall immediately thereupon produce and deliver up to the said directors or to such person or persons as they shall direct, all books, accounts, writings, and papers whatsoever, which shall be in the custody or power of such clerk, receiver, collector, or other officer, his or their executors and administrators respectively, in any wise relating to the said Company.

Power to the directors to appoint bankers, treasurers, collectors, &c.

XXXIV. Provided always and be it enacted, that it shall not be lawful for the said Company to appoint the person who may be appointed to act as their clerk in the execution of this Act, or the partner of any such clerk, or any person in the service or employment of any such clerk, to be the treasurer for the purposes of this Act; or to appoint the person who may be appointed treasurer or the partner of any such treasurer, or any person in the service or employ of any such treasurer, to be the clerk of the said company, and if any person shall act in both the capacities of clerk and treasurer for the purposes of this Act, or if any person, being the partner of any such clerk, or in the service or employ of any such clerk, shall act as treasurer, or, being the partner of any such treasurer, or in the service or employ of any such treasurer, shall act as clerk in the execution of this Act, every such person shall, for every such offence, forfeit and pay the sum of five hundred pounds to any person or persons who shall sue for the same, to be sued for and recovered in any of His Majesty's Courts of Record at Westminster, by action of debt or on the case, or by bill, suit, or information, wherein no essoin, protection, wager of law, or more than one imparlance shall be allowed.

Clerk and treasurer not to be the same person.

XXXV. And be it further enacted, that the orders and proceedings of every general or special general meeting of the said Company, and of the governor, deputy-governor, and directors of the said Company, shall be entered by the clerk of the said Company, or such other person as shall attend in his place, in a book or books to be kept for that purpose; and such orders and proceedings so entered, and signed by the governor, deputy-governor, or such one of the directors or proprietors of the said Company who shall be in the chair at each respective meeting, shall be deemed and taken to be the original orders and proceedings, and shall be allowed to be read in evidence in all courts and places whatsoever, and by and before all judges, justices, and others.

Proceedings to be entered.

XXXVI. And be it further enacted, that no business shall be transacted at any special general meeting besides the business for which it shall have been called, and no other business shall be transacted at any adjourned special general meeting than the business left unfinished at the meeting from which such adjournment took place; and if at any special or general meeting ten proprietors at the least shall not assemble and proceed to business in one hour from the time appointed for such meeting, or if that number be not present when the whole or any part of the business to be transacted shall be decided upon, the meeting shall adjourn to the same day in the following week, or to some other day to be appointed by the governor, deputy-governor, and directors, of which adjournment or adjournments notice shall be given to the several proprietors of the said Company: Provided always that the several notices to be given to the proprietors of the said Company of any adjournment or adjournments of a general or special general meeting respectively, shall be given in the manner directed by this Act for notices of any special general meeting of the said Company.

Business at general meetings.

XXXVII. And be it further enacted, that at the said general meeting, or some adjournment thereof, to be holden in every year, a dividend or dividends shall be made, out of the clear residue (after deducting therefrom, provided the governor, deputy-governor, and directors shall so think fit, any sum not exceeding ten per cent. as herein is mentioned, of the profits or advantages of the said Company) unless such general meeting shall declare otherwise; and such dividend or dividends shall be at and after the rate of so much in the hundred upon all and every the sum and sums of money paid to the said Company by the members thereof, their executors, administrators, successors, or assigns, as such meeting or meetings shall think fit to appoint and determine; provided always, that no dividend shall be paid in respect of any share or shares, after any call for money, in respect of such share or shares, shall have become due and payable, until such money be paid; provided also that no dividend shall be made whereby the capital of the said Company shall be in any degree reduced or impaired; and the governor, deputy-governor, and directors, who shall make any such dividends, shall be personally responsible to the proprietors, and also the creditors of the said Company for any injury that may arise therefrom; provided also, that no dividend shall be declared, made, or paid for twenty-four calendar months after the passing of this Act.

Meetings to declare dividends.

No dividend for 24 months.

XXXVIII. And be it further enacted, that the said governor, deputy-governor, and directors shall have power and authority, and they are hereby required, to cause to be balanced the books of the said Company, on the thirty-first day of December in each year (the first balance to be made on the thirty-first day of December next after the passing of this Act), or at such other period of each year as any general meeting may from time to time appoint; and the same being so balanced, shall be examined and signed by two or more of the auditors and examiners, and approved by the said governor, deputy-governor, and directors; and an abstract of the said balance, showing the state of the debts and credits of the said Company, shall be signed by two or more of the auditors and examiners, and shall be

Books to be balanced yearly.

produced at the general meeting of the said Company, to be held upon the third Tuesday in the month of January in every year, or within fourteen days thereafter; so that any of the proprietors attending the said meeting may have an opportunity of inspecting the same.

General meetings to make by-laws.

XXXIX. And be it further enacted, that the said Company shall have full power and authority from time to time, at any of their general meetings or special general meetings called for that purpose, as aforesaid, to make such rules, orders, and by-laws, as to them shall seem meet and proper for the good government of the said company, and for regulating the proceedings of the said governor, deputy-governor, and directors, and the duties and conduct of the clerk, and all officers, attorneys, agents, apprentices, labourers, workmen, and servants to be employed in and about the affairs and business of the said Company, as well in the said colony of New South Wales as in the United Kingdom aforesaid, and for the superintendence, regulation, and management of the said Company in all respects whatsoever; and from time to time to alter or repeal such rules, orders, or by-laws, or any of them, and to make others, and to impose and inflict such reasonable fines and forfeitures upon all such person and persons offending against such rules, orders, and by-laws, or any of them, not exceeding the sum of two hundred pounds for any one offence, as to the said Company, at a general meeting or special general meeting shall seem meet and expedient, and all rules, orders, and by-laws so made as aforesaid, being reduced into writing, and the common seal of the said Company, thereto affixed, countersigned by the clerk to the said Company, shall be binding upon all such persons, and shall be sufficient authority in any Court of Law or Equity, as well in the said Colony of New South Wales as in the United Kingdom aforesaid, to justify all persons who shall act under the same; Provided always, that such rules, orders, or by-laws be not repugnant to the laws of that part of the United Kingdom of Great Britain and Ireland called England, or to any of the express directions or provisions of this Act. Provided also, that copies thereof shall be fixed and continued in the office of the said Company, and all such rules, orders, and by-laws shall be subject to appeal in manner by this Act directed, any law, usage, or custom to the contrary in anywise notwithstanding.

Power for proprietors to call special general meetings in certain cases.

XLI. And be it further enacted, that if at any time any nine or more of the subscribers or proprietors of the said Company who shall, together, be holders of ninety shares at the least, shall deem it necessary or expedient to call a special general meeting of the subscribers or proprietors at large, for the purpose of taking their opinion and determination upon any matter or thing relating to the said Company, and shall sign a requisition in writing to the said governor, deputy-governor, and directors for that purpose, which shall specify the object of such meeting, and shall deliver or cause the same to be delivered to the clerk to the said Company, it shall be lawful for the said governor, deputy-governor, and directors, and they are hereby required to call a special general meeting of the subscribers and proprietors at large, and in case the said governor, deputy-governor, and directors shall refuse or neglect, for the space of thirty days, to comply with such requisition, then, and in such case, it shall be lawful for the subscribers or proprietors who shall have signed the same to call a special general meeting of the said subscribers and proprietors at large, by advertisement in the *London Gazette*, and in four or more of the newspapers published in the City of London or county of Middlesex, specifying the place within the Cities of London or Westminster where, and the time when such meeting is to be held (the time not being less than fourteen days after such notice), and the reason for and intention of calling such special meeting, and the subscribers and proprietors are hereby authorised to meet pursuant to such notice, and take into consideration the matter or matters to be submitted to them by the persons calling such special meeting, and specified in such notice; and the decision, determination, and order of the subscribers and proprietors present at such meeting, or the majority of them, according to the number of votes they shall have a right to give respecting such matter or matters, shall be as valid, to all intents and purposes, as if the same had been made at any general meeting of the said company as aforesaid: Provided always that ten proprietors at the least shall be present at such meeting as hereinbefore is mentioned.

A fund to answer contingencies.

XLII. And be it further enacted, that it shall and may be lawful to, and for the said governor, deputy-governor, and directors for the time being, and they are hereby empowered, provided they shall so think fit, at or previous to each and every general meeting to be held, pursuant to this Act, for the purpose of considering of, or for making or declaring a dividend or dividends out of the clear profits of the said undertaking, to deduct and set apart any sum not exceeding one-tenth part of the said clear profits and produce of the said undertaking; and the said directors shall in such case forthwith lay out and invest, in the name of the said company, such one-tenth part of the said clear profits and produce from time to time, as and when the same shall be so deducted and set apart as aforesaid, in such one or more of the Parliamentary Funds or stocks of Great Britain, as the said governor, deputy-governor, and directors, shall in their discretion deem expedient, until the moneys so set apart and funded as aforesaid, shall amount to the sum of twenty thousand pounds; and also from time to time, and at all times hereafter, so often as the same fund or sum of twenty thousand pounds, shall be reduced by the payment of or for any extraordinary contingencies, to deduct and set apart, at any future or subsequent general meeting or meetings, the like one-tenth part of the said clear profits and produce, until the same fund shall be restored, and again amount to the said sum of twenty thousand pounds, and so on from time to time, and at all times hereafter, and so often as the same shall be reduced in manner aforesaid; and that the dividends and interest to become and be due and payable in respect of the said funds or stock so set apart and funded as aforesaid, and each and every of them respectively, shall fall into and become a part of the said profits and produce of the said undertaking, periodically to become and be divisible as herein mentioned. Provided always, that the said governor, deputy governor, and directors, for the time being of the said Company, shall have full power and authority from time to time, when and so often as they shall deem it expedient, to vary or transpose the funds or stock or any of them, or any part thereof, in which the said moneys or funds shall from time to time be invested, and also shall and may sell and dispose of all or any part or parts of the said funds or stock, and convert the same into money, for the purpose of answering every or any extraordinary contingency or contingencies, as and when the same or any part thereof, shall by the said directors be deemed necessary, anything herein contained to the contrary hereof in anywise notwithstanding.

Treasurer not to issue money without an order signed by the governor and directors.

XLIII. And be it further enacted, that the banker or bankers, treasurer, or treasurers, to be appointed by the said Company, shall not issue any sum or sums of money on account of the said Company, without an order or orders in writing, signed by three or more of the said governor, deputy governor, and directors, and that the receipts of the said banker or bankers, for all moneys payable to him or them, on account of the said Company, shall be effectual discharges for the same.

XLIII.

XLIII. And be it further enacted, that all offences whatsoever, which by virtue, or under the authority of this Act, or by or under any by-law, rule, order, or regulation, to be made in pursuance or by the authority of this Act, are or shall be punishable with any pecuniary penalties, fines, or forfeitures, for the recovery of which no express provision is hereinbefore made, shall and may in every case be heard, adjudged, and determined by or before two or more Justices of the Peace, in and for the county or place, or in and for the said Colony, or any district thereof, where the offence shall be committed, in a summary way, upon information or complaint made and exhibited in writing (and which shall in every case be made and exhibited within six calendar months at farthest next after the committing of such offences respectively, and not afterwards), and upon any such information or complaint as aforesaid, the said Justices shall examine into the matter thereof, and if upon the confession of the party or parties accused, or on the oath of any one or more credible witness or witnesses, the party or parties accused shall be convicted of having committed such offence or offences, then and in every such case the penalty or penalties, fine or fines, forfeiture or forfeitures, hereby made payable in respect of such offence or offences, together with the costs of conviction, to be ascertained by such Justices, shall be forthwith paid by the party or parties so convicted as aforesaid; and in case such party or parties so convicted shall refuse or neglect to pay the same forthwith, then (except in cases otherwise provided by this Act) the same shall, and may, by warrant or warrants, under the hand and seal, or hands and seals, of such Justices (which they are hereby empowered and required to grant) be levied and recovered, together with the costs of conviction and recovery thereof, to be ascertained by such Justices, by distress and sale of the goods and chattels of such offender or offenders, rendering the overplus of the money arising by such sale, if any, to the party or parties whose goods and chattels shall be distrained; one moiety of which penalties, not herein directed to be otherwise applied, shall be paid to the informer, and the other moiety shall be paid to the overseers of the poor of the parish where the offence shall be committed, for the benefit of the poor of the said parish, and in the said Colony to any public charitable institution to be named by the said Justices, and it shall and may be lawful for the said Justices to order the offender or offenders so convicted to be detained in safe custody until return can be conveniently made to such warrant or warrants of distress, unless the said offender or offenders shall give sufficient security to the satisfaction of such Justices, for his, her, or their appearance before the said Justices on any such day or days as shall be appointed for the return of such warrant or warrants of distress, such day or days not being more than fourteen days from the time of taking any such security, and which security the said Justices are hereby empowered to take by way of recognizances or otherwise; but if upon the return of such warrant or warrants it shall appear that no sufficient distress can be had whereupon to levy the said penalty or penalties, fine or fines, forfeiture or forfeitures, and such costs as aforesaid, and the same shall not be forthwith paid, then it shall be lawful for the said Justices, and they are hereby required and empowered, by warrant or warrants under their hands and seals, to commit such offender or offenders to prison, there to remain, without bail or main-prize, for any time not exceeding three calendar months, or until such offender or offenders shall have fully paid such penalty or penalties, fine or fines, forfeiture or forfeitures, and all other costs and charges attending such proceedings as aforesaid, to be ascertained by such Justices, or shall otherwise be discharged by the course of law.

Recovery and application of penalties.

XLIV. And for the more easy conviction of offenders, be it further enacted, that every conviction under this Act shall be in the form and to the effect following, *videlicet*.

Conviction of offenders against this Act.
Form of conviction.

“ _____ }
to wit. }
BE it remembered, that on the _____ day of _____, in the year of our Lord _____, is (or are) convicted before us _____, of His Majesty's Justices of the Peace, for _____, by virtue of an Act of Parliament, passed in the fifth year of the Reign of King George the Fourth, intituled [*here insert the title of this Act*] of having [*specifying offence, and the time and place when and where the same was committed, as the case may be*] contrary to the said Act, and for which offence we do adjudge the said _____ to have forfeited the sum of _____
Given under our hands and seals the day and year above written.”

XLV. And be it further enacted, that if any person or persons thinking himself, herself, or themselves aggrieved by any order, judgment, or determination relating to any matter or thing in this Act mentioned or contained, or by any order, judgment, or determination made or given in pursuance of any rule, order, or by-law, may, within three calendar months next after such order, judgment, or determination shall have been made or given (first giving ten days' notice of appeal to the person or persons appealed against), complain to the Justices of the Peace at the General Quarter Sessions to be held in and for the city, county or district, as well in the said Colony as in the United Kingdom aforesaid, in which the appeal shall arise, who shall in a summary way either hear and determine the said complaint at such General Quarter Sessions; or, if they think proper, may adjourn the hearing thereof to the next General Quarter Sessions of the Peace to be held for such city, county, or district; and the said Justices may, if they see cause, mitigate any forfeiture or fine, and may order any money to be returned which shall have been levied in pursuance of such order, judgment, or determination; but no proceedings to be had and taken in pursuance of this Act shall be quashed or vacated for want of form, or be removed by *certiorari*, or any writ or process whatsoever, into any of His Majesty's Courts of Record at Westminster or elsewhere, any law, statute, or usage to the contrary notwithstanding; and the said Justices may award and order to the party for whom such appeal shall be determined, such costs as they shall judge reasonable and proper; and all determinations of the said Justices shall be final, binding, and conclusive upon all parties, to all intents and purposes whatsoever.

Appeal may be made to the Quarter Sessions.

XLVI. And be it further enacted, that if any person or persons shall be summoned as a witness or witnesses to give evidence before any Justice or Justices of the Peace, touching any matter contained in any information or complaint for any offence against this Act, either on behalf of the person or persons accused, and shall refuse or neglect to appear from time to time, at the time and place to be for that purpose appointed, after having been paid or tendered a reasonable sum for his, her, or their costs and expenses, without a reasonable excuse for his, her, or their refusal or neglect of appearing, or, appearing, shall refuse to be examined upon oath, or in case of a Quaker or Quakers on solemn affirmation (which oath or affirmation such Justice or Justices is and are hereby authorised and required to administer), and to give evidence before such Justice or Justices of the Peace, then, and in every such case, every such person shall forfeit and pay for every such offence any sum not exceeding ten pounds.

For compelling the attendance of witnesses, and respecting service of notices.

XLVII.

What shall be deemed a service of notices, &c., on the Company.

Persons giving false evidence to be punished for perjury.

Public Act.

XLVII. And be it further enacted, that in all cases where it may be requisite or necessary for any person or persons, party or parties, to serve any notice or notices upon the said Company, or any writ or writs, or other legal proceedings, the service upon any director of the said Company, or left at his last or usual place of abode, or on the clerk of the said Company, or left at his last or usual place of abode, shall be deemed good and sufficient service of the same respectively on the same Company.

XLVIII. And be it further enacted, that if any witness or witnesses, who shall be examined by or before any Justice of the Peace, or otherwise, under this Act, upon oath, or, in case of a Quaker or Quakers, on solemn affirmation, shall wilfully and corruptly give false evidence, and shall be thereof convicted, he, she, or they so giving false evidence, shall be subject to the same punishment as if he, she, or they had been convicted of the crime of wilful and corrupt perjury.

XLIX. And be it further enacted, that this Act shall be deemed and taken to be a Public Act, and shall extend to and be in force in the said Colony of New South Wales and its Dependencies, and shall be judicially taken notice of as such by all Judges, Justices, and others in the United Kingdom aforesaid, and the said Colony and its Dependencies, without being specially pleaded.

No. 2.

An Act amending the Australian Agricultural Company's Act.

CAP. XXIV.

AN Act to amend an Act for granting certain powers and authorities to a Company to be incorporated by charter, to be called "The Australian Agricultural Company," for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto. (29 May, 1830.)

WHEREAS, by an Act passed in the fifth year of the reign of His present Majesty, intituled "An Act for granting certain powers and authorities to a Company to be incorporated by a charter, to be called 'The Australian Agricultural Company,' for the cultivation and improvement of waste lands of the Colony of New South Wales, and for other purposes relating thereto," it was enacted that in case His Majesty should, within three years next after passing that Act be pleased, by charter under the Great Seal of Great Britain, to declare and grant that such persons as therein mentioned should be a body politic and corporate by the name of "The Australian Agricultural Company," for the purposes therein expressed, the said Company should have and enjoy the rights and privileges, and be subject to the regulations, restrictions, and conditions in the said Act mentioned and contained. And whereas His Majesty was graciously pleased, by his royal letters patent, under the Great Seal of Great Britain, bearing date at Westminster the first day of November, in the fifth year of his reign, to grant and declare that the several persons therein named, and such others as were therein expressed, should be a body politic and corporate, by the name of "The Australian Agricultural Company," and by that name should have perpetual succession and a common seal, and by that name should and might sue and be sued, plead, and impleaded at law or in equity; and his said Majesty did thereby declare that the said corporation should be and was established for the purpose of cultivating waste lands in the said Colony of New South Wales, and that the business and affairs of the said corporation should be managed and conducted, and the officers thereof elected and appointed in the manner and form in and by the said Act provided in that behalf, and in none other: And whereas some of the provisions in the said Act contained for the regulation and government of the said Australian Agricultural Company have been found inconvenient, and it is expedient to alter and amend the same. May therefore please your Majesty that it may be enacted, and be it enacted by the King's most excellent Majesty, by and with the advice and consent of the Lords, spiritual and temporal, and Commons, in this present Parliament assembled, and by the authority of the same, that from and after the passing of this Act no vacancy already existing or hereafter to arise or exist in the number of the directors of the said Company shall be filled up until the number of directors shall be reduced below twelve, and in case the number of directors shall be reduced below twelve by death, resignation or disqualification of the existing directors, before the third Tuesday in the month of January, one thousand eight hundred and thirty-two, a new director or directors, as the case may require, shall be chosen in the manner directed in, and by the said Act, to make up the number of twelve directors; and in case the number of directors shall not, by the ways and means aforesaid, be reduced to twelve at or before the third Tuesday in the month of January, one thousand eight hundred and thirty-two, such a number of the directors shall then go out of the said office of director as shall reduce the number of existing directors to nine, and on the third Tuesday in the month of January, one thousand eight hundred and thirty-three, and in each successive year, three other directors shall go out of the said office of director; and at the general meeting of proprietors, which shall be holden on the third Tuesday, in the month of January, one thousand eight hundred and thirty-two, or within fourteen days after, and at the like general meeting in each succeeding year there shall be an election of three proprietors, qualified as in the said Act mentioned, who shall be three of the directors of the affairs of the said Company for four years to be computed from the day of election, and until others or another shall be duly elected into their or either of their places.

Reducing the number of directors.

No directors to go out by rotation, nor any to be elected in 1831.

Regulating the manner of directors going out of office.

II. And be it enacted, that none of the directors shall go out of the said office, by ballot or rotation, on the third Tuesday in the month of January, one thousand eight hundred and thirty-one, nor shall any election of directors be had at the general meeting of proprietors to be then held.

III. And be it further enacted, that the mode of determining the directors who shall go out of the office of director, and the mode of election and right of being re-eligible to the said office shall be the same as are in the said Act mentioned, or as near thereto as the circumstances of the case will admit of; and that all the powers and authorities in and by the said Act vested in the governor, deputy-governor, and twenty-four directors of the said Company, shall be vested in and shall and may be exercised by the governor, deputy-governor, and existing directors of the said Company until they shall be reduced to twelve, and thenceforth by the governor, deputy-governor, and twelve directors of the said Company, in the same manner and as amply and fully, to all intents and purposes, as if the same had been part of the original constitution of the said Company.

IV. And whereas it is in and by the said Act provided that the said Company, or the directors to be appointed by virtue of this Act, should cause the names and designations of the several persons who had subscribed for, or might at any time thereafter be entitled to a share or shares in the said Company, with the number of such share or shares, and also the proper number by which every share should be distinguished, to be fairly and distinctly entered in a book or books to be kept by their clerk, and after such entry, a certificate under the common seal of the said Company, and countersigned by the clerk, should be delivered to every proprietor, upon demand, specifying the share or shares to which he or she is entitled in the said Company, and such certificate should be admitted in all Courts whatsoever, as evidence of the title of such proprietor, his or her executors, administrators, and assigns to the share or shares therein specified, but the want of such certificate should not hinder or prevent the owner of any of the said shares from selling or disposing thereof; and whereas the issue of such certificate, as aforesaid, under the Common Seal of the Company, has been found to produce inconvenience; be it therefore enacted, that from and after the passing of this Act no proprietor shall be entitled to require any such certificate, nor shall any such certificate heretofore granted, or to be granted, be of any force or effect whatever.

Repealing provision in former Act respecting certificate of shares.

V. And whereas it is in and by the said Act provided, that all questions at any general or other meeting of the said Company, shall be decided by a majority of votes of the proprietors present, according to their respective shares, in manner therein mentioned. And whereas the said provision has been found inconvenient: be it therefore enacted, that it shall, and may be lawful to, and for the Chairman of any such meeting to take the decision of such meeting, on any questions submitted to them, by show of hands of the proprietors present; provided that it shall be competent to the Chairman, or to any two persons being proprietors of not less than ten shares each, if he, or they, shall be dissatisfied, to demand that such question shall be decided by a majority of votes of the proprietors present in the manner in the said Act provided, which decision shall be immediately taken in manner therein prescribed.

Amending provision in former Act respecting the manner of voting at meetings.

VI. And, whereas it may become necessary for the purposes of the said Company, that the said Company should be authorised to hold lands and tenements in the United Kingdom of Great Britain and Ireland; be it therefore enacted, that it shall, and may be lawful to, and for the said corporation to hold to them and their successors such lands, tenements, and hereditaments in Great Britain and Ireland, as shall be contracted for, and purchased, or acquired by them, and to hold, alienate, sell, and dispose of the same, provided that the said corporation shall not at any one time hold any lands, tenements, and hereditaments in Great Britain and Ireland exceeding in value the sum of one thousand pounds per annum.

Company authorised to hold lands in Great Britain.

VII. And be it further enacted, that this Act shall be deemed and taken to be a public Act, and shall extend, and be in force in the said Colony of New South Wales and its Dependencies, and shall be judicially taken notice of as such by all Judges, Justices, and other in the United Kingdom aforesaid, and in the said Colony and in its dependencies without being specially pleaded.

Public Act.

No. 3.

The Secretary of State for the Colonies to Governor Brisbane.

Sir, Downing-street, 13 July, 1824.

I do myself the honor to acquaint you that a Company has been formed with a view to purposes of agriculture generally in the Colony of New South Wales, but more particularly to the rearing of flocks of sheep of the purest and finest breed. His Majesty has been pleased to approve the formation of this Company from the impression that it afforded every reasonable prospect of securing to that part of His Majesty's dominions the essential advantage of the immediate introduction of a large capital, and of agricultural skill into the Colony, as well as the ultimate benefit of the increase of fine wool as a valuable commodity for exportation, to the production of which the soil or climate of New South Wales appears so peculiarly adapted.

You will perceive by the Act of Parliament, which I herewith have the honor to enclose the terms on which the Legislature has thought it expedient to provide for the interests of this establishment, and the title of the "Australian Agricultural Company," and which is to be incorporated by a charter already in preparation; but although this document will not be ready to forward by the present opportunity, I am unwilling to delay communicating to you the favourable disposition with which His Majesty's Government have entertained the proposal of the Company, which appear so exactly to correspond with the recommendation which Commissioner Bigge gives in his report for the future advancement of the agriculture of the Colony.

I shall communicate to you more fully on the subject when the copy of the charter is transmitted, and when I shall have the honor of conveying to you His Majesty's commands for the allotments of the grant.

But it is of the utmost importance that no time should be lost to enable the Company to commence those inquiries and that examination, which will be indispensable before the selection of a tract of land can be made, suited to the various and important objects of their undertaking. I have, therefore, to desire that you will afford every facility to those gentlemen who may be authorised to make the necessary arrangements in the Colony, and to collect information previous to the arrival of their agent, and the commencement of more active operations.

I informed the deputation of gentlemen who first applied to me on this subject that from the accounts I had received, it appeared to me that there was a tract of land situated between the Blue Mountains and the River Hastings, which would be very eligible from the goodness of the soil and the convenience of water carriage for the particular object of the Company. It will of course be necessary, previous to the allotment of the grant, that the Surveyor-General should complete a survey of the country, and as it is probable that the tract to which I have alluded may prove particularly suited for agricultural purposes, I am to desire that no delay may occur in the commencement of the survey in question, as it is desirable that the agent should be put in possession of the grant as soon as possible after the situation has been decided upon.

As the number of convicts that will be required by the Company will tend to decrease most materially the great expenditure which the maintenance annually causes to the public if retained on the hands

hands of the Government, I have to desire that you will pay attention to those applications for convicts that you may receive from the persons who are authorised to act on the part of the Company, at the same time you will not consider yourself as called upon to part with those convicts whose services may be absolutely necessary for the exigent purposes of Government, or to deny to private settlers that average accommodation of convict labour which they have been in the habit of receiving, and if you should ever have reason to believe that all the convicts will be so disposed of, you will take care to apprise His Majesty's Government at the earliest period of the probability of that contingency.

I have, &c.,
BATHURST.

No. 4.

The Secretary of State for the Colonies to Governor Brisbane.

Sir,

Downing-street, 17 April, 1825.

My despatch No. 20, of the 13th July last, will already have informed you of the formation of the Australian Agricultural Company, and of the terms upon which it has been considered expedient to give encouragement to this association. I have now the honor to inform you that His Majesty has been graciously pleased to grant a charter of incorporation to the said Company, dated the 1st November last, for the purpose of enabling them to hold lands, &c., in New South Wales, and for other purposes therein stated, and I herewith enclose to you a copy of the same, duly verified upon oath before one of the Masters in Ordinary of the High Court of Chancery, in order that it may be enrolled in the Supreme Court of New South Wales, according to the provisions required by the Act of the 5th George 4th, Cap. 86, section 3. As the charter itself specifies the terms under which the grant is to be made, and the conditions respecting the levy or redemption of quit rents, the employment of convicts, and the alienation of any of the land on the part of the Company at any future period, it will be unnecessary for me to detail them in this despatch. I have only, therefore, to direct your attention to the concluding declaration, and to desire that you will take especial care that in all grants which may be made to the Company, in pursuance of a warrant under His Majesty's sign manual, the Company be expressly bound to observe and perform the several conditions, provisions, and restrictions enforced upon them by the terms of the charter. Mr. Robert Dawson has been appointed the agent of the Company, to whom you will afford every reasonable facility in prosecuting the objects with which he is proceeding to the Colony.

He will lose no time after his arrival in examining the tract of country which may be considered most eligible for the proposed undertaking; and I have to desire that as soon as the situation has been fixed upon for the proposed establishment that you will make the same known to me, in order that I may take the necessary measures for carrying into immediate effect the gracious intentions of His Majesty, by submitting a warrant for the royal signature, in pursuance of which a grant of land may be made to the Company upon the conditions specified in the charter.

I have, &c.,
BATHURST.

No. 5.

The Secretary of State for the Colonies to Governor Brisbane.

Sir,

Downing-street, 18 May, 1825.

In reference to my letters of the 13th July, 1824, and the 17th ultimo, I have the honor to transmit to you a copy of the written proposals which were laid before me on the 22nd May, 1824, by the persons who had then associated themselves together to form the Australian Agricultural Company.

These proposals were subsequently approved by me on His Majesty's behalf.

I have on the present occasion to direct your particular attention to the 8th and 9th articles of these proposals, from which you will perceive that the Company is to receive a grant of 1,000,000 acres of land, and that, within the limits defined in the 9th article, the agents of the Company are to select the lands to be comprised in that grant, provided that the whole be taken in one distinct and continuous location.

Mr. Dawson, the general agent of the Company (the gentleman whom I have introduced to your notice in my despatch of the 17th April), will at the earliest practical period transmit to you a written notice, signed by himself and attested by two credible witnesses, in which he will point out, with all convenient precision, what are the particular lands which the Company propose to accept. Upon receiving this notice you will instruct the Surveyor-General to repair to the place thus selected, and, in concurrence with Mr. Dawson, to make as full and accurate a survey of this tract of country as may be possible. In carrying this instruction into effect it will be the duty of the Surveyor-General to avail himself of all natural landmarks which may best contribute to define permanently and with precision the limits of the Company's territory. Considering the importance of preventing all uncertainty upon this subject, the Surveyor-General will not be precluded from making a small addition to the district selected by the Company, if it be necessary for preserving a well-defined natural boundary. In the absence of conspicuous natural objects, such artificial landmarks must be substituted as may be best adapted to answer the same purposes.

The Surveyor-General and the general agent of the Company will then concur in drawing up a report, addressed to yourself, in which they will describe with the utmost possible exactness the tract of country to be granted to the Company, especially enumerating all landmarks, whether natural or artificial, by which the limits of the grant can be most clearly ascertained. This report being signed in duplicate by the Surveyor-General and the Company's agent, and attested by two witnesses, you will lose no time in transmitting one copy of that instrument to me, in order that I may submit to the King a warrant for his signature, authorising you to pass the grant under the great seal of the Colony.

Immediately upon receiving the report from the Surveyor-General and the Company's agent, you will grant to the Company a written license for the occupation of the land described in it, and you will take care that possession of those lands be delivered to the Company's general agent in the most public manner, and with such solemnities as may most conveniently be adopted for perpetuating the memory of that transaction.

If

If instead of receiving a grant of the whole of these lands in one continuous and unbroken tract the Company's general agent should make a written application for receiving two distinct tracts of land, you will be at liberty to carry these instructions into effect with that variation, unless you should be of opinion that any serious inconvenience is to be apprehended from such a deviation from the original plan.

The Company having requested to be allowed to purchase a small tract of land on the banks of the Coal River for the erection of quays and other buildings where cattle and other articles may be shipped or landed, or receive a temporary shelter, you will permit the general agent to purchase on the Company's behalf any tract of land on the banks of the Coal River, not exceeding 2,000 acres in the whole, provided that the purchase be made upon the same terms in every respect, as if a private person were the purchaser.

In conclusion, I have to direct your attention to the circumstance that in carrying the written proposals into effect by the Act of Parliament and subsequent Charter, some modifications were introduced by the desire, or with the consent of the Company, upon all such points, therefore you will consider the written proposals as superseded by the Charter.

I have, &c.,
BATHURST.

[*Enclosure to foregoing proposals.*]

1. The Company to be incorporated by letters patent or Act of Parliament, according to the usual form.
2. The Charter or Act to be obtained if possible in the present Session of Parliament, and to regulate according to customary forms the proceedings of the Company at home.
3. The capital of the Company to be £1,000,000 sterling, divided into 10,000 shares of £100 each.
4. The present committee of management to form the first court of directors and auditors, but at the expiration of the fifth year one sixth of the number to go out by rotation.
5. The directors going out by rotation to be re-eligible.
6. The qualification of a director to be fifty shares.
7. That no rival incorporation or joint-stock company with similar objects shall be established in New South Wales for twenty years, it being however expressly understood that no other exclusive privileges and no peculiar jurisdiction in the Colony are desired.
8. That a grant of land to the extent of 1,000,000 acres shall be made to the Company, subject to such conditions as shall be hereafter determined.
9. That the agents of the Company shall be permitted (subject to the public convenience, and not interfering with private rights) to select the situation of the proposed grant, either between the Blue Mountains and the river Hastings, or in the country recently explored between Lakes George and Bathurst, or in the interior westward of the Blue Mountains.
10. But the primary object of the Company being the production of fine merino wool as an article of export to Great Britain, they propose to purchase in the Colony such flocks of sheep as can be procured of good quality, and to increase and improve them by importations of the purest race from Spain and the electoral dominions of the King of Saxony.
11. The Company engage to erect suitable houses and other buildings upon the lands granted to them.
12. To send out free and experienced persons as agents and overseers, and to employ the convicts under their superintendence and direction.
13. That the shepherds and labouring men shall consist principally of convicts, and in this manner it is calculated that about 1,400 may be eventually employed, which will diminish the Government expenditure to the extent of £30,800 annually.
14. To employ those men under such discipline and regulations as may best conduce to the great object of Government in establishing and continuing the punishment of transportation.
15. To send from Europe persons skilled in the management of merino sheep and in the mode of assorting and preparing the fleeces for the London market. To afford also facilities to the diffusion of this useful knowledge throughout the Colony.
16. To promote (subordinate to the raising of fine wool) the cultivation of the olive, vine, and such productions as may appear best adapted to the climate and soil, and with this view to send from France, Italy, or Germany some families skilled in the management of olive grounds and vineyards.
17. To encourage and assist, as far as may be found practicable, the emigration of useful settlers and female servants.
18. To promote to the utmost of their power the system of rural industry directed by His Majesty's Government (on the recommendation of the Commissioner of Inquiry), as being best adapted to the state and circumstances of the Colony, and to diffuse the knowledge and practice of it amongst all classes of the inhabitants.

Quit rents.

A quit rent, being 30s. per cent. on the estimated value of 1,000,000 acres at 2s. per acre, would amount to £1,500, the sum necessary to redeem that quit rent at twenty years' purchase would be £30,000. But as this grant will be in one continuous location, it is probable that one-fourth of it will consist of land which would be objected in the case of a grant to a private individual, and therefore the quit rent to be demanded in this case shall not be raised on more than 750,000 acres.

The quit rent to be raised by the Company will thus be reduced to £1,125 per year, which, at twenty years' purchase, may be redeemed for £22,500. But as it is calculated that the operations of this Company will ultimately require the services of 1,400 convicts, there will be no objection to provide that at the termination of the first five years, the quit rents (which, under the regulations affecting grants of land will then first become due) shall not be demandable provided that 600 convicts are at that time maintained by the Company, nor at the end of ten years provided 1,000 convicts, nor at the end of fourteen years, provided that 1,400 convicts are then maintained by the Company.

And whenever £100,000 shall be actually saved to the public by the maintenance of convicts (calculating expense of each convict to the Government at £20 per annum), the quit rent of £1,125 shall be considered to be redeemed by the Company, and shall not be again demanded.

Approved by the General Committee,—

JOHN SMITH,
Chairman.

London, 22 May, 1824.

No. 6.

Précis of Charter.

Précis of the Charter of the Australian Agricultural Company.

- 1st. Grant not to be passed until His Majesty's warrant has been obtained.
- 2nd. The land to be valued at 1s. 6d. per acre, paying a quit rent of 30s. per £100.
- 3rd. Exemption of quit rent for five years from date of grant.
- 4th. Quit rent redeemable at twenty years' purchase.
- 5th. If quit rent be redeemed in part, payment of the remainder to be continued.
- 6th. One free superintendent to every fifty convicts.
- 7th. Lands not to be alienated for five years.
- 8th. Fifty thousand acres may be alienated when the Surveyor-General shall have reported to the Governor and Council that £10,000 has been expended in improvements, and so on upon every expenditure of £10,000 so reported.

Said

Said report to be enrolled in the Supreme Court.

Land may be alienated upon the especial license of the Secretary of State.

Every grant or conveyances of land to be null and void except the same refer to the Surveyor-General's report, or Secretary of State's license, as the case may be.

9th. Quit rent to be collected until the expiration of ten years from the date of grant, and the arrears then due to be remitted should it appear that the Company have maintained 600 convicts for the greater part of the latter five years.

10th. Quit rents accruing for the third period of five years to be remitted if 1,000 convicts have been maintained.

11th. Quit rents for the following four years to be remitted if 1,400 convicts have been maintained.

12th. If after twenty years the Treasury shall have been exonerated from a charge equal to £100,000, all payment of quit rent shall cease.

No. 7.

Minute by Governor Darling.

Australian Agricultural Company.

23 February, 1826.

In reference to Mr. Robert Dawson's letter of the 17th instant, requesting on the part of the Australian Agricultural Company, a ticket of occupation of the lands selected for the Company, the duplicates of the Secretary of State's despatches as per margin,* with their respective enclosures, are forwarded herewith, in order that the instructions therein contained may be carried into effect.

It will be seen at page 5 of the despatch, No. 31, that the Surveyor-General and Company's agent are required to draw up a report describing with the utmost possible accuracy the tract of country to be granted; and that the possession of the lands is then to be delivered up to the agent in the most public manner, and with such solemnities as may be most conveniently adopted for perpetuating the memory of that transaction.

Let Mr. Dawson be informed accordingly, and ascertain from the Surveyor-General what rule has generally been observed with respect to making grants of the smaller islands.

The question respecting the military post will be hereafter determined, when the general arrangements are taken into consideration.

R. DARLING.

N.B.—The original copy of the charter has been transmitted to the Chief Justice in order to its being registered in the Supreme Court, as directed by the Secretary of State.—R.D.

No. 8.

Mr. R. Dawson to The Colonial Secretary.

Sir,

Port Stephens, 28 July, 1826.

Having determined to take a portion if not the whole of the Australian Agricultural Company's grant on the north shores of this harbour, including the spot on which the Company's establishment has been formed, as well as a considerable portion, if not the whole of the unlocated land on the west or opposite side of the river called Karuer, extending as low as and probably beyond the confluence of Williams and Hunter Rivers, I have to request that you will be pleased to notify my intention to His Excellency the Governor, in order that the Surveyor-General may receive from His Excellency the requisite instructions to cause this district of country to be surveyed as early as may be convenient, it being impossible for me to define the exact boundaries and extent of any land I intend to take until this is completed.

In causing this notice to be attested by two witnesses I have followed that part of Earl Bathurst's instructions on the subject of the grant to the Company, and as soon as the Surveyor-General, under his Excellency's instructions, can make it convenient to send some person to survey the land, I shall be ready to attend him, and to point out generally the quarter in which I am desirous of taking it, as I have before proposed.

Witnesses:—

JOHN ARMSTRONG.

J. G. DAWSON.

I have, &c.,

ROBERT DAWSON.

I shall be glad to see Mr. Oxley *re* this on Wednesday.—R.D. See letter to the Surveyor-General dated 17th August; also to Mr. Dawson, 17th August, 1826. Reply N. 26-5,675, and 26-6,078.

No. 9.

The Colonial Secretary to Mr. R. Dawson.

Sir,

Colonial Secretary's Office, 17 August, 1826.

I have received and communicated to his Excellency the Governor your letter of the 28th ultimo, stating that you have determined to take a portion, if not the whole, of the Australian Agricultural Company's grant on the north shore of Port Stephens, including the spot on which the Company's establishment has been formed, as well as a considerable portion, if not the whole, of the unlocated land on the west or opposite side of the river called Karuer, extending as low as, and probably beyond, the confluence on Williams and Hunter Rivers.

In return, I am directed to inform you that it is not judged advisable by His Excellency to extend the limits of the land to be allotted to the Australian Agricultural Company so low as the confluence of the Williams and Hunter Rivers; but His Excellency has no objection to the Company's southern boundary

* 17th April, No. 28; 18th May, No. 31.

boundary extending from the most western part of Port Stephens directly west, to Williams' River, provided the line so drawn does not interfere with any land already allotted to a settler.

I am further directed to inform you that the Surveyor-General is instructed to proceed to Port Stephens for the purpose of joining you in making a full and accurate survey of the land selected by you, and transmitting a report thereon to His Excellency, agreeably to the directions of His Majesty's Secretary of State.

I have, &c.

ALEXR. MACLEAY.

No. 10.

The Colonial Secretary to Mr. R. Dawson.

Sir,

Colonial Secretary's Office, 21 August, 1826.

In transmitting to you the accompanying papers, relative to certain grants of land intended to be made to Messrs. Shortt and Cromarty, at Port Stephens, and which now appear to be included in the grant to the Australian Agricultural Company, I am directed by the Governor to inform you that His Excellency expects that you will on the part of the company, settle the claims of these parties.

I have, &c.

ALEX. MACLEAY.

No. 11.

Mr. R. Dawson to The Colonial Secretary.

Sir,

Port Stephens, 2 September, 1826.

I beg to acknowledge the receipt of your letter of the 21st of August, and also the accompanying papers upon the subject of Messrs. Shortt and Cromarty's possession of lands on the western banks of the river Karuah.

To His Excellency's request that I will on the part of the company, settle the claims of Messrs. Shortt and Cromarty, I beg to say in answer that I shall have no objection to settle every reasonable claim they may make for the expense of falling, cultivating, and planting the land, and also for the erection of huts upon it. That His Excellency may not be deceived as to the extent to which they can in reason make claims. I refer you to enclosed statement of the quantity of land cleared and cultivated by Mr. Cromarty, and as measured by the company's surveyor, Mr. Armstrong, this day.

Mr. Shortt has never fallen a tree, nor has anything been done to mark the spot where proposed to take his grants.

No other person than Mr. Cromarty has taken possession of any land up the Karuah, as far as I have been able to learn and the few acres which he has occupied have never been ploughed, stumped, or enclosed.

I have, &c.

ROBERT DAWSON.

Give me the applications of Messrs. Shortt and Cromarty. It now appears that there are settlers on the west bank of the river Kurear or Karuah, which appeared to me to be the proper boundary of the company's lands. The claim of these gentlemen must be very trifling—the amount must be ascertained in order to its being paid by Mr. Dawson—and they must receive other land.—R.D., 15. Inform Mr. Shortt of this.—MR. SHORTT, 16/9/26.

[Enclosure.]

F. Shortt,
Wm. Cromarty,

Quantity of land cleared at the river Karuah, by Mr. Cromarty:—

	a.	r.	p.
Cultivated with the hoe and sown with wheat	2	3	25
Timber fallen and ground hoed, but not sown	0	2	7
Timber fallen with brush partially left	2	1	0
	5	2	32

JNO. ARMSTRONG,

Surveyor to the Australian Agricultural Company.

2nd September, 1826.

No. 12.

Mr. R. Dawson to The Colonial Secretary.

Sir,

Sydney, 26 September, 1826.

In your letter of the 17th August, on the subject of the land to be granted to the Australian Agricultural Company, I received enclosed copies of a communication from the Surveyor-General to His Excellency the Governor relative to a claim on the part of Mr. Cromarty to certain lands lying on the west banks of the river Karuah, within the proposed boundary of the grant to be made to the Company at Port Stephens.

By the communication above alluded to I find that Mr. Cromarty had only a conditional grant of the land in question, and His Excellency having, in your letter to me of the 17th August, requested me to settle the claims of Mr. Cromarty, I was led to conclude that he would not be permitted to occupy the land in question.

I learn, however, that Mr. Cromarty has since proceeded to Port Stephens with his family and stock for the purpose of establishing himself there. I beg, therefore, to be informed whether I am to consider him as an intruder, or whether I have misunderstood His Excellency's request relative to the settlements of Mr. Cromarty's claims for labour performed on the land during his occupation of it.

It

It is most desirable that the Company's grant should not be interfered with in that quarter by any settlers whatever if it can be avoided, and if, therefore, as I presume it is His Excellency's intention not to permit Mr. Cromarty to take his grant there, I shall be much obliged by His Excellency causing his intentions to be made known to him.

I have, &c.,

ROBERT DAWSON.

Have you not written to Mr. Cromarty on the subject. If not, do so, according to my former memorandum. Let me see the letter to Mr. Shortt. Write a letter to Mr. Cromarty to the same effect. 9/10/26.

No. 13.

Mr. R. Dawson to The Colonial Secretary.

Sir,

Port Stephens, 24 November, 1827.

As it is important that the boundaries of the Australian Agricultural Company's grant should be defined as early as convenient, I beg to acquaint you, for His Excellency's information, that I am ready to enter into a final arrangement relative to them on the spot whenever His Excellency may please to appoint the proper officers to meet me.

I have, &c.,

ROBERT DAWSON, J.P.

This should not be delayed. Pray see Mr. Oxley on his coming to town on Monday next, and let some arrangement be made for what is necessary to be done, as it is impossible that Mr. Oxley can go to Port Stephens in his present state of health. Mr. Oxley is now unfit to go on the service.

No. 14.

Mr. W. Barton to The Colonial Secretary.

Sir,

Sydney, 29 February, 1828.

I beg to request, on the part of the Committee of the Australian Agricultural Company, that you will be pleased to procure the sanction of His Excellency the Governor that Major Mitchell may be authorised to deliver the plan of the outline of the company's grant to their surveyor, in order that a copy may be prepared for the information of the Court of Directors in England, and I am further to add that the said plan shall be returned in the course of a few days.

I am, &c.,

W. BARTON,

Secretary to the Committee.

Cannot be sent at present.—5/3/28.

Mr. Barton informed accordingly.

No. 15.

Governor Darling to The Colonial Secretary.

Government House, 27 June, 1828.

THE accompanying report of the Surveyor-General and the Agent of the Australian Agricultural Company, is annexed, in order that the instructions contained in the Secretary of State's despatch, dated the 18th May, 1825, No. 31, may be carried into effect, viz. :—"Immediately upon receiving the report from the Surveyor-General and the company's Agent, you will grant to the company a written license for the occupation of the land described in it; and you will take care that possession of these lands be delivered to the company's general Agent, in the most public manner, and with such solemnities as may most conveniently be adopted for perpetuating the memory of that transaction."

Let a Government order be prepared, making the necessary notification of the transfer of the land, described in the enclosed report, for the purpose of being published in the *Gazette*, so as to record in the most formal manner the particulars of the transfer. It will consequently be necessary that the order contain a copy of the accompanying report.

A copy of the Charter granted to the Australian Agricultural Company is annexed, with a view to its being duly registered in the office of the Colonial Secretary.

R. DARLING.

No. 16.

Mr. J. Bowman to The Colonial Secretary.

Sir,

His Majesty's General Hospital, Sydney, 14 July, 1828.

I have the honor to acknowledge the receipt of your letter of yesterday's date, addressed to the Committee of the Australian Agricultural Company, which in the absence of the other members of the Committee, I submit to Mr. Macarthur who has now the direction of the company's affairs at Port Stephens, and beg to acquaint you that gentleman will immediately communicate with His Excellency the Governor, on this subject.

I have, &c.,

J. BOWMAN.

Immediate—Memo. It will be necessary to write to the Committee of the Australian Agricultural Company to signify my desire to deliver over to the company, the land granted to them at Port Stephens. That it is my intention to appoint commissioners for the purpose, and I request to be informed who I am to consider as the General Agent the person to whom I am desired to deliver possession of the land.—R.D., 18th July.

Better post this letter under cover to Dr. Bowman.

Acknowledge and acquaint him, I wish to be informed officially, who is the accredited representative of the company in the Colony, as my instructions from the Secretary of State, speak only of the general agent, Mr. Dawson, who has signed the report respecting the company's grant together with the late Surveyor-General as required by the Secretary of State. It is, therefore, necessary I should

be

be informed, under present circumstances, who is authorised by the company to take the management of their concern.—R.D.

Let me have this with a copy of the letter of the 18th. I want this officially, but I recollect having seen an instrument authorising the commission, I think to act, and as I have it not, it may have been sent to Mr. Macarthur. I thought it had been given to you. I think it was from their Secretary. Pray look again.—D.

No. 17.

The Colonial Secretary to The Committee of the Australian Agricultural Company.

Gentlemen,

Colonial Secretary's Office, 18 July, 1828.

The Governor being desirous of delivering over to the Australian Agricultural Company the land granted to them at Port Stephens, I am directed to inform you that he intends to appoint commissioners for the purpose; and to request, therefore, that you will let me know, for his information, who is to be considered as the company's general agent, the person to whom His Excellency is instructed to deliver possession of the land.

I have, &c.,

ALEX. MACLEAY.

No. 18.

Mr. John Macarthur to Governor Darling.

My Dear Sir,

Saturday, 19 July, 1828.

I postponed answering Your Excellency's note last evening, that I might have more time to consider its contents. Placed in a most embarrassing situation by untoward events, which had not been foreseen, and could not be controlled, I must beg to decline taking any part in the intended ceremony of delivering formal possession of the land, which has been marked for the Australian Agricultural Company. [I have been induced to come to this determination from positive proof that the company's interest has been wilfully sacrificed by their agent, Mr. Dawson, in making the river Manning one boundary of the grant, with a view of securing for himself and junct of artful intriguers, a large tract of land of the richest quality, which the company's land surveyor was employed at a great expense to the company to explore and accurately survey, whilst no pains were taken to survey the land which Mr. Dawson consented to receive for the company.]

Since their officers have been under my direction, the surveyor has been employed in examining the interior of the proposed grant, but from various causes of obstruction, arising from the broken and nearly impracticable state of an unexplored wilderness, this undertaking advanced very slowly; sufficient, however, has been already ascertained to create an apprehension that at least two-thirds of the land which Your Excellency proposes to surrender, is either barren or nearly inaccessible, and that the allowance made by the late Surveyor-General for waste land is very insufficient.

Persuaded that it is the wish of Your Excellency to carry into effect the instructions of His Majesty's Government on a liberal and just principle, I would beg to press upon your consideration the expediency of postponing the formal surrender of the grant until the quality and usefulness of the land which has been chosen can be ascertained.

I have, &c.,

JOHN MACARTHUR.

No. 19.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, 14 February, 1831.

Referring to my letter of the 15th December, informing you that His Excellency the Governor intended to bring yours of 1st, requesting His Excellency's sanction on the following points, relative to the coal mines authorised to be granted to the Australian Agricultural Company at Newcastle, under the consideration of the Executive Council:—

- (1) To sink a pit, and to erect a steam engine, about 100 yards from the western boundary of the proposed town allotments of Newcastle.
- (2) To be allowed to work the coal under any of the unlocated parts in that neighbourhood, including, if requisite, the bed of the river.
- (3) To work the coal which lies under the intended town.
- (4) To be allowed a liberal water frontage somewhere abreast of the spot selected for the site of the steam engine and shaft.

I have now the honor, by the direction of the Governor, to inform you that the subject has accordingly been submitted to the Council, who saw no objection to a compliance with either of the above proposals, and that His Excellency has therefore been pleased to sanction the same, on the condition, however, that if you work any of the seams of coal under the intended town, above the one at present in use, it must not be at less depth than 100 feet from the surface, otherwise the safety of the town and inhabitants will be endangered.

I have, &c.,

ALEX. MACLEAY.

No. 20.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 22 February, 1831.

I am directed by His Excellency the Governor to request that you will allow Sir Edward Parry and Mr. Sempell to examine the maps of the Colony, in your office, and particularly of the unlocated lands lying to the west and north-west of the Australian Agricultural Company's land.

I have, &c.,

T. C. HARRINGTON

(For the Colonial Secretary).

No. 21.

No. 21.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 23 February, 1831.

In acknowledging the receipt of your letter of the 21st instant, addressed to the Private Secretary, Colonel Dumaresq, I have the honor, by direction of His Excellency the Governor, to inform you, in reply to the 2nd and 3rd paragraphs of that communication, that the Surveyor-General has been instructed to permit yourself and Mr. H. C. Sempill to examine the maps of the Colony, and particularly of the unlocated lands lying to the west and north-west of the land of the Australian Agricultural Company, and that the Land Board have been instructed to assign two carpenters and a blacksmith to the company as soon as possible.

I have, &c.,

ALEX. MACLEAY.

No. 22.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 3 March, 1831.

His Excellency the Governor has received and laid before the Executive Council your memorandum dated the 21st ultimo, proposing the following arrangements relative to the lands to be held under grant or lease by the Australian Agricultural Company, viz. :—

1. That the company shall give up so much of the land heretofore considered as their grant as is situated to the eastward of the line described in your memorandum.
2. That the company shall retain the remainder of the original grant, computed to amount to about 715½ square miles, or 457,920 acres.
3. That the company decline taking the land situated to the north of the river Manning, more recently reserved for their examination.
4. That for the purpose of enabling you to select the remainder of the land to be granted to the company you shall be put in possession of all information in the Surveyor-General's Office relating to that portion of the Colony lying to the west and north-west of the company's present estate, especially Liverpool Plains, the river Goulburn, and the country situated between these and the Company's grant.
5. That the company shall be allowed to rent certain parts specified in your memorandum of the clergy and school reserve, adjoining their present estate.

In reply, I am directed by His Excellency to inform you that there will be no objection on the part of this Government to a compliance with your first, second, third, and fourth proposals, and that the necessary instructions have accordingly been given to the Surveyor-General.

With respect to the arrangement suggested for renting certain parts of the clergy and school reserve, I do myself the honor to enclose, for your information, a copy of a letter from the Commissioners for managing the affairs of the church corporation which has received His Excellency's approval, and in which it is stated, for the reasons therein given, that the Commissioners see no objection to your occupying a part of their reserve, to the extent of five parishes, on behalf of the company, provided that the lands to be rented be selected in one continued tract.

I have, &c.,

ALEX. MACLEAY.

No. 23.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 21 April, 1831.

The commissioners for managing the affairs of the Australian Agricultural Company, having requested permission to fence in a paddock of 100 or 150 acres, situated about a quarter of a mile to the southward of the company's coal pit, and which he stated must necessarily be included in their intended coal grant, I have the honor to request that you will report if there be any objection to the making of the paddock in question.

I have, &c.,

ALEX. MACLEAY.

No. 24.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, 28 April, 1831.

With reference to your memorandum of the 23th February last, I have the honor to inform you that His Excellency the Governor has been pleased to order that the Australian Agricultural Company shall be allowed two allotments of ground in the town of Newcastle for the purpose of erecting buildings, &c., as requested by you.

You will, therefore, have the goodness to make your selection, and notify the same to the Surveyor-General, who has been duly instructed, in order that it may be finally approved.

I have, &c.,

ALEX. MACLEAY.

No. 25.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 28 April, 1831.

I have the honor, by the direction of the Governor, to inform you that His Excellency has been pleased to order that the Australian Agricultural Company shall be allowed two separate allotments of land in the town of Newcastle for the purpose of erecting buildings, &c.

Sir Edward Parry has accordingly been requested to notify to you, the selection, he may make, when you will have the goodness to include the same in your abstract of allotments for approval.

I have, &c.,

ALEX. MACLEAY.

No. 26.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, 5 May, 1831.

Referring to your letter of the 28th ultimo, No. 31-132, reporting that there appeared no objection to the application of Sir Edward Parry for permission to fence as a paddock 150 acres of land to the southward of the Australian Agricultural Company's coal pit at Newcastle being complied with, but recommending that an assistant surveyor should first mark off the ground, I have the honor, by direction of the Governor, to inform you that His Excellency has been pleased to order that Sir Edward Parry shall be allowed to fence in the above quantity in the situation mentioned, and to request that you will have the goodness to have the land marked off as you suggest.

I have, &c.,
ALEX. MACLEAY.

No. 27.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 30 January, 1832.

With reference to my letter addressed to you on the 4th of October last, on the subject of the water frontage and town allotments proposed to be granted to the Australian Agricultural Company, at Newcastle, I have now to request the favour of an early answer to that communication, as the further operations of the company are waiting for the determination of His Majesty's Government on this subject.

And as the portion of ground above mentioned will require to be marked out by a surveyor, I beg to suggest that it would be a saving of time if the surveyor to be so employed were also to be directed to mark out in some permanent manner the whole of the 1,500 acres (corresponding with the 300 yards of water frontage) which it is my wish to take for the company in their present location, the selection of the other 500 acres (with its proportion of water frontage) to be reserved for further consideration.

I have, &c.,
E. PARRY,
Commissioner to the Company.

No. 28.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 5 May, 1832.

Adverting to the arrangements made between His Majesty's Government and the Australian Agricultural Company, respecting the final selection of the company's grant of land in New South Wales, and more especially with reference to the documents noted in the margin,* I have now the honor to acquaint you, for the information of His Excellency the Governor, that, in conformity with those arrangements, I have at length, after much exertion, and with great expense to the company, succeeded in selecting two locations in the interior of the country, which, though at an inconvenient distance from their original grant and present establishment at Port Stephens, I consider the only selection which can be made in any degree fit for the company's purpose, in the unlocated parts of the Colony.

For a description of the two locations in question, comprising about 249,600 acres and 300,160 acres respectively, or about 549,760 acres in the whole, I beg leave to refer His Excellency to the accompanying map by Mr. Dangar, the company's surveyor, and the specification inserted therein.

It being of vital importance to the interests of the company (principally on account of the very large addition to their flocks, expected this year) that they should, with as little delay as possible, be put in possession of their land, I beg you will do me the honor to lay this communication before the Governor as early as convenient, together with my earnest request that His Excellency will be pleased to direct immediate steps to be taken for the final decision of the company's grant.

With a view to expedite the final settlement of this business, by affording His Majesty's Government any further information that may be required on the part of the company, it is my intention to proceed to Sydney very shortly, and shall hope to be allowed the honor of waiting upon His Excellency in a few days after your receipt of this communication.

I have, &c.,
ED. PARRY,
Commissioner to the Australian Agricultural Company.

Mr. Duncombe,—I wish you could get from the secretary the plan by Dangar of the first selection made by the company, that it may be compared with White's work; it was sent lately with my report on Sir E. Parry's selection.—Th. M.

Received the within requested plan.—H. HALLORAN.

If the map alluded to in this letter is with you (it never came to me) let the Surveyor-General have it, with directions to make such observations as strike him upon Sir Ed. Parry's selection.—R.B., 26/5/32.

Hon. Alex. M'Leay, Surveyor-General, 28/5/32.

Australian Agricultural Company,—Mr. Macleay has got Sir Edward Parry's last communication upon the subject of the additional location upon which the Governor has to minute his decision.—B.B., 5/6/32. Surveyor-General, 8 June, 1832.

Having seen Sir Edward Parry and the Surveyor-General on the subject of these locations the latter is to be instructed to send a surveyor of his Department, in company with one appointed by Sir Edward Parry, to sketch the mountain range to the northward of Peel's River from its source to its junction with the Meurindie, as pointed out to the Surveyor-General, at the conference held with Sir Edward Parry on the subject and to take the contents between that range and the river. The proposed location at the head of the Liverpool Plains is inadmissible, as its occupation in the manner proposed would render an immense tract of country nearly useless to other settlers. It is unnecessary to write to Sir Edward Parry on this subject until the return of the surveyors.—R.B., 6/6/32

*1. Sir George Murray's despatch (No. 23) to His Excellency General Darling, dated 21st April, 1830.

2. Sir Edward Parry's memorandum, addressed to His Majesty's Colonial Government, 21st February, 1831.

3. Mr. Macleay's letter in reply to the foregoing, dated 3rd March, 1831.

No. 29.

The Colonial Secretary to The Surveyor General.

Sir,

Colonial Secretary's Office, 28 May, 1832.

3rd March, 1831.

I have the honor, by the direction of His Excellency the Governor, to forward to you the accompanying copy of a letter, which was addressed to Sir Edward Parry, in reply to one received from him respecting a proposed alteration in the Australian Agricultural Company's lands, but which does not appear to have been communicated to you at the time.

5th May, 1832.

Two originals to be returned.

I am also directed to transmit to you the enclosed letter from Sir Edward Parry, together with the map therein alluded to, describing the lands which the company are desirous of obtaining, and to request that you will favour me at your earliest convenience, with such observations as may occur to you, upon the selection made.

I have, &c.,

ALEX. MACLEAY.

No. 30.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 31 May, 1832.

Original return. See Nos. 22 and 28.

I have had the honor to receive your letter No. 32-470, dated 28th instant, which was accompanied by a copy of your letter to Sir Edward Parry, of 3rd March, and one from the same gentleman, dated 5th May, 1832, with a map therein alluded, describing lands which the Australian Agricultural Company are desirous of obtaining, and on which selection you request me to submit any observations which may occur to me.

Government Order No. 50, 14th October, 1829.

I have, therefore, the honor to observe that the land selected lies altogether beyond, or on the interior side of the Liverpool Range, and the limits of the Colony of New South Wales, as these were described with a view to limit the selections of settlers in the year 1829, and that the land appears to me to be chosen, even on so large a scale, with a view to monopolise the heads of streams, good lands, and river frontages, in a manner in which settlers on a small scale are not permitted by the regulations, to take their grants. By the possession of two such tracts so situated, I beg to observe that the company would command all the intervening and lower country between the Dividing Range and Peel's River or Mulucrindi as exclusively as if they had full possession thereof, a tract containing about 1,600 square miles more than what is actually selected.

The numerous stock stations marked on the map show how distressing such a monopoly would be to the colonists, who during the late dry seasons were enabled to preserve their flocks only by resorting to these interior plains, while the non-extension of the Colony would still prevent them from obtaining possession even of the intermediate parts.

I would submit that under such circumstances a large selection of land in an extensive country where none else can attain any, is tantamount to the possession of the whole, at least as far as relates to grazing.

I would also observe, supposing that country open to the company for selection, that if no monopoly were intended, it would be more convenient to them to have the lands in one tract, and that instead of cutting off the heads of the streams on the southern part of Liverpool Plains, by the detached large parallelogram A, B, C, D, and taking another tract at a distance to the eastward, E, G, H, I, K; the whole might have been chosen together, as the land on the eastern bank of Peel's River would be equally available adjoining the tract selected on the western bank of that river (F, G, H, I, K), and the whole would lie nearer to the sea, and the present grant of the company.

To this tract, I am of opinion that a road might be made uniting it with the grant on the coast, so that the distance would not be half what it would be to travel from their coast grant up the valley of the Hunter by the usual route to Liverpool Plains.

I have also the honor to suggest that such extensive grants in any country should be bounded by great natural lines, such as mountain ranges or rivers, the company not being likely to enclose to such an extent, for it was found extremely difficult to run the straight lines for the interior boundary of their present grant across ravines, steep sides of rocky ranges, &c., while the ignorance of neighbours respecting the precise boundaries, when no regard is had to such features, is likely to keep the country in a desert state for many miles beyond.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

No. 30½.

Sir Edward Parry to Governor Bourke.

Sir,

Port Stephens, 15 June, 1832.

The question relative to the lands to be granted to the Australian Agricultural Company, which formed the principal subject of the conference with your Excellency on the 4th of the present month, is of such vital importance to their interests that it becomes my duty once more to draw Your Excellency's attention to some of the leading features of this case, and, at the same time, in order to obviate the possibility of future misapprehension, to place upon record my views respecting it. This I shall endeavour to do in the communication which I have now the honor of making to your Excellency.

2nd. For this purpose it will be necessary first to recapitulate briefly the circumstances which have led to my selection of those portions of land which, most unhappily for the company's interests, your Excellency has declined granting to them.

3rd. I need not inform Your Excellency that in the original selection of the company's grant so little pains were taken to survey the land that a very slight actual examination rendered it all but certain that it was unfit for the purposes of the company.

4th. This fact having been represented to His Majesty's Home Government, the latter could not fail to perceive that the intentions and hopes of the company must be altogether frustrated unless some relief

relief were afforded to them in this unlooked-for dilemma; and accordingly, just before I left England to proceed to this country, in July, 1829, the Secretary of State consented to allow the Company to exchange a portion of their original selection to a certain specified extent.

5th. In accordance with this permission, a demi-official communication to that effect was then made to General Darling, and this was afterwards followed up by Sir George Murray's despatch (No. 23), dated the 21st of April, 1830, conveying to the Governor the final instructions of His Majesty's Government on the subject.

6th. Some time before the receipt of this latter communication, however, I had, in the beginning of June, 1830, personally commenced an examination of the unexplored parts of the original grant, accompanied by Mr. Armstrong, one of the company's surveyors, and by the superintendent of their flocks.

7th. In the same month, Mr. Dangar, another surveyor (who had lately arrived from England for the express purpose of assisting me in the new selections) was despatched to survey the lands to the north of the Manning River, a considerable tract of country, which was for a short time expressly reserved by the Government for examination by the company.

8th. At the same time various minor excursions were made upon the original grant by other officers of the company's establishment to enable me to complete without delay its final examination.

9th. The result of these journeys accorded but too well with the previous accounts, and no doubt could any longer exist of the absolute necessity of relinquishing a very large portion of the first selection.

10th. Mr. Dangar, having continued his survey till his resources were expended, returned for a fresh supply, and, after thus far finishing his maps, he again set out, in September, 1830, to complete the examination of the whole tract north of the Manning.

11th. Having cherished a sanguine hope that this tract, so advantageous in point of locality, would prove favourable to the company's purposes, I was greatly disappointed in finding it quite the reverse, the proportion of available land being as small as in the original grant.

12th. Mr. Dangar was next employed from the month of November, 1830, till April, 1831, in surveying and completing his maps of the clergy and school reserve, adjoining the company's estate, with reference to certain conditions relative to the leasing by the company of a portion of that reserve.

13th. In March and April, 1831, I despatched Dr. Nisbet, accompanied by the superintendent of the company's flocks, to penetrate through the mountainous country to the westward of the same reserve, which they did to a considerable distance, but without the smallest success in the discovery of available land.

14th. On the 21st of February, 1831, after a personal communication with the Governor, on the subject of the company's lands, I drew up, by His Excellency's desire, and submitted to the Government a memorandum, stating, among other things, the quantity and situation of the original grant, which I proposed to relinquish on the part of the company reporting that the land to the north of the Manning was unfit for the purpose of the company, and requesting with a view to my further selection "to be put in possession of all information of this nature in the Surveyor-General's Office as related to that portion of the Colony lying to the westward and north-westward of the company's present estate, especially Liverpool and Goulburn* Plains, and the country situated between these and the company's grant."

15th. His Majesty's Government having immediately acceded to all these proposals, I applied without delay at the Surveyor-General's office, where, with no small difficulty, I procured from some inferior person, a sight of the only map (as he told me), which he was authorised to show. This map was entirely devoid of information relative to the country north-westward of the company's estate, nor did it even contain the paper on which Liverpool Plains ought to be.

16th. Subsequent inquiries were attended with no better success, and this was the result of the "instructions given to the Surveyor-General" to put me in possession of all his information relative to the lands in question.

17th. Having thus failed to obtain information where it was usual for grantees to seek it, I fitted out another exploring party with a view to the discovery of suitable lands in the interior. Early in July, 1831, I despatched Dr. Nisbet and Mr. Dangar to the north-westward of the company's present grant, with instructions to endeavour to penetrate in that direction. Notwithstanding the discouraging prospect of range after range, which there presented itself, with extreme labour and a degree of enterprise which would have done credit to any object, these gentlemen succeeded in travelling westward up the Manning River, through as rugged a country as any in the known parts of this Colony, coming out over the Great Dividing Range upon the heads of Peel's River.

18th. Their resources being almost exhausted by this effort, they could only make a partial discovery of land in the last mentioned locality, and then travelling southward crossed the Liverpool Range to "Segenhoc," whence having obtained fresh supplies, they traversed with great difficulty the rough and useless country immediately westward of the company's estate. Of this latter tract I laid before Your Excellency a map by Mr. Dangar at the late conference.

19th. The maps of this labourious journey being completed, I again, in November, 1831, despatched Mr. Dangar to examine Liverpool Plains, the still more distant country bordering upon Peel's River, and even beyond the River Mowherindi.

20th. After an absence of ten weeks on this service, Mr. Dangar returned in January of the present year, reporting to me that he had at length succeeded in discovering some portions of land, which, though at a great and inconvenient distance, he considered more likely to suit the company than any other that could be found.

21st. On the 1st of March, a party under my own direction, accompanied by Mr. Dangar and the superintendent of the company's flocks, set out from Port Stephens to make a further examination of the country named by Mr. Dangar, and to enable me to decide for myself without delay whether I should make application for it on account of the company.

22nd. In the course of this journey, which occupied me six weeks, besides going over the former ground, our examination was carried a considerable distance higher up the Mowherindi, till it was discovered to divide into two branches. Then following Peel's River to its sources, I crossed the Great Dividing Range, and, with the hope of discovering a route which might serve for conducting stock from the company's estate, returned home by a new line across the mountainous country before mentioned.

* This error was not mine, but occurs in cross maps on the very spot I have since selected as the Peel's River location.

23rd. Being now satisfied that the Colony did not contain a tract of country so suitable as that which I had just visited, I completed the map without delay, and on the 5th of May, by my letter to the Colonial Secretary, applied to Your Excellency for permission to select for the company the two portions delineated in the map.

24th. On the 4th of the present month I had the honor of a conference with Your Excellency on this subject, in the course of which Your Excellency declined granting to the company that location which I was the most anxious to obtain, and proposed an enlargement of the other location, which, so far as my present information goes, would entirely render null and void the selections I have made.

It only remains for me to add at present, on this part of the subject, that these selections were the result of an examination, during nearly two years unremittingly, of more than three millions and a half of acres, and that the expense to the company has exceeded £1,600.

26th. I have been obliged to trouble Your Excellency with all these details in order to show that since the consent of His Majesty's Government to an exchange of the land was obtained, the company has lost no time and spared no expense in endeavouring to make their selections.

27th. The necessity for my making this clear to Your Excellency arises principally from the remark made to me by your Excellency that it was the fault of the company's own agents that the original selection was a bad one, and that the company must abide by the consequences, or to that effect.

28th. It is quite true that it was the company's own agents who committed this error, but I trust, Sir, you will excuse my remarking that I cannot perceive the justice of the inference which Your Excellency appeared to draw from this fact, namely, that the company's claims to a fresh selection of land upon the same principles as at first, are on that account weakened.

29th. If, indeed, this inference were admitted, what would become of the assurance of His Majesty's Secretary of State that he was "convinced that the company's just interests required some relaxation of the first arrangement," and that on this account he had consented to the exchange of a large portion of the original grant."

30th. For if these considerations and the permission founded upon them mean anything, I humbly conceive they imply that a just and liberal sense of the company's claims had induced His Majesty's Home Government to overlook with considerate indulgence the important error committed at the outset of this extensive undertaking, and that leave was therefore given to repair this error by making a fresh selection, to a certain limited extent indeed, but unshackled by any conditions except those directly specified.

31st. I repeat, therefore, that I know not how to admit what I understood to be Your Excellency's inference, which would, in fact, amount to this—that His Majesty's Government is no longer disposed to view this matter in the same just and considerate light as when the permission to exchange was granted; that this indulgence is to be contracted within some narrower and undefined limits, and, in short, that this first error is still to be visited upon the company by a refusal of what would originally have been considered their fair and reasonable claims.

32nd. On the contrary, I think it is obvious that if His Majesty's Government had determined on putting a nominal value of £5 upon every acre of land in this Colony, instead of as many shillings, this circumstance could not upon any principle of justice, affect the company's previously admitted claims; provided it could be shown that no time had been lost, and no exertion or expense spared by the Company's agent in making the allowed selections.

33rd. On these grounds then I would now respectfully submit to your Excellency's sense of justice whether I am not correct in considering that in whatever degree the decision of this question is influenced by the present views of the Government as to the value and disposal of the land in this Colony, instead of the views entertained when the exchange was consented to precisely in that degree will His Majesty's Government commit a breach of faith in their dealings with the Australian Agricultural Company.

34th. If then the company have a just claim to make their selections on the same principles as at first, that is, on the principle by which all their grants were then regulated, I must contend that no just reason exists for the decided objection raised against the company possessing any portion of one of the locations I had, with so much labour and expense selected for their grant.

35th. That your Excellency arrived at an opposite conclusion, in consequence of the representations of the Surveyor-General, that it would cut off all future settlers from Liverpool Plains, and occupy almost the only desirable tract of country in that neighbourhood, I am well aware. But the Surveyor-General entirely failed to prove the correctness of this sweeping assertion, and I may safely defy him to do so. On the contrary, it is quite evident to every impartial person who knows the country (which, to be sure, Major Mitchell does not) that there would still remain an immense tract of highly desirable country, and that Liverpool Plains to an extent so great that it has never yet been delineated, would be just as much open to future settlers as it is at this moment.

36th. If I am not correct in this conclusion why did not the Surveyor-General propose some other form and situation for a location for the company in that neighbourhood, instead of urging your Excellency to settle the matter by a simple refusal, and thus denying to the company the right of every ordinary settler to choose his grant in a good location, rather than in a bad one.

37th. With respect to the claims of those individuals, or as the Surveyor-General feelingly called them, those "poor people," whose cattle are now grazing on a portion of the lands which I selected for the company, I trust I need scarcely submit to your Excellency whether the just claims of a chartered company, with a capital of one million sterling, are to be sacrificed to the pretensions (if any) of persons whether poor or rich, who have no right whatever to the possession of a single acre of that country.

38th. The fact, however, is, that these persons are by no means disposed to set up any such claims, nor to complain of the company's expected possession of that country as any hardship at all. On the contrary, when speaking of the alarm which the Surveyor-General had sounded, they uniformly treated it as a matter of trifling inconvenience to remove their herd to a somewhat greater distance, only observing that they hoped a few months notice would be given them.

39th. The Surveyor-General also urged as an objection to my selection that the Colony was already too extended, and, therefore, that it was highly inexpedient that the company's grant should be made in the manner I proposed. With this objection, Sir, I have of course nothing to do as a question of expediency.

expediency. It is for Your Excellency alone to determine this, and it did not form any objection on your part; but I cannot help reminding Your Excellency of the consistency with which this objection was urged by the Surveyor-General, when, in the next breath, he used all his logic to drive the company into one location, 40 miles farther from the present limits of the Colony than that which, on this very account, he objected to the company's possessing.

40th. In fact, if the objections raised by the Surveyor-General to the company's possession of the tract shaded green, were divested of the obscurity in which he involved it, they would, I am satisfied amount simply to this: that the tract in question is a desirable one, and that if the company possesses it, nobody else can. These are truisms, which cannot be denied; and I declare, sir, upon my honor, that I think the fact is precisely that and no more, and that if Your Excellency could personally have seen the land, you would never have objected to my selection of it for the company.

41st. The nearest and most desirable location of the two being thus refused, on the grounds to which I have alluded, the next object of the Surveyor-General at the late conference was to persuade me, as he had unhappily already persuaded Your Excellency, that the whole quantity of land required to complete the company's grant, might with advantage to the company, be taken in one location on the Peel's River without interfering with Liverpool Plains at all.

42nd. This object the Surveyor-General endeavoured to accomplish in two ways: first, by pushing the red shaded location back to a range, which, for this express purpose, as it appeared to me, he had opportunely transferred from Mr. Dangar's map to his own blank paper; and secondly, by making up any further deficiency by a few odds and ends of lands; if I may so express myself, on the opposite or right bank of Peel's River.

43rd. As to the first of these proposals: I must observe that the objection I made to this arrangement, being dependent on a physical fact, cannot be got rid of by any representations, however strenuously urged, on the part of the Surveyor-General. Whatever arguments he may have adduced on this occasion, land without water is incapable of supporting man, sheep, or cattle.

44th. If, therefore, the intended survey should then show (as we have much reason to suppose it will), that a tract of 160,000 acres without water is proposed to be added to this location by making the range the boundary, I am sure, Sir, that you would consider me wanting, either, in common sense or common honesty, if I should accede to such a proposal.

45th. I shall not add more on this point at present, since, in order to put beyond doubt the actual fact; I suggested, and Your Excellency has been pleased to direct, that an actual survey of the range be made by the surveyor of the Government and the surveyor of the company conjointly.

46th. I must, however, say a few words as to the general principle upon which as relates to water frontage, it has hitherto been customary to regulate the grants of settlers. And this I am specially anxious to do, because in this respect also, your Excellency appeared to me to apply to the company a principle of selection which was never before applied to any other grant in this Colony.

47th. The custom has hitherto been, to give about 1 mile of water frontage in a grant of 2,560 acres, or four square miles; so that no part of such a grant is more than about 4 miles distant from the water.

48th. The reasonableness and propriety of this arrangement are obvious, if we consider the principle upon which it was adopted, namely, that 4 miles is about the utmost limit of distance which stock should have to go for water, in order to make the whole grant available for their support. In this manner the interest of each individual proprietor is best consulted on the one hand, and the water frontage of any tract of country properly economised on the other.

49th. But supposing the case of any large grant, say, for instance 7,680 acres, or 12 square miles, it never would have been dreamt of, as a reasonable arrangement, that the grantee should still only have his 1 mile of water frontage, and the rest of his grant thrust back 12 miles from the water, so as to leave 7 or 8 square miles wholly destitute of this indispensable article. Otherwise the possessor of the small grant would be just as well off as the possessor of the larger one, inasmuch as he would have just as much land capable of supporting animal life.

50th. Will Your Excellency then deem me unreasonable if I claim for the company that their grant shall be made on the same principle? I do not say that, in so large a grant, it is possible to carry it to the same extent as in a small one; but I must say that it is anything but just to disregard this principle altogether in the case of the company, virtually to say to them, "Whatever care we take to provide for the support of the stock of all other settlers, yours must do the best they can without water," and to carve out for them, and for them only, a grant of land, which, however neat its boundaries may look upon the map, contains an immense proportion utterly unavailable for any one useful purpose.

51st. I have offered these remarks, Sir, because Your Excellency appeared to think that, according to the regulations hitherto in force, the Government would be bestowing a great boon upon the Company in not pushing their grant back from the water I know not how many more miles than I proposed. I maintain, on the contrary, that by so doing the Government would be infringing the very principle on which every other grant in the Colony has been measured out.

52nd. Nor would there be any difficulty in showing that in thus undertaking to mark out a grant for the company, the Surveyor-General has not, in other respects any more than in the water frontage, attended to the principles recognised in other grants.

53rd. For instance, the stress which, on this particular occasion, he has laid on making ranges the boundaries is entirely without precedent in this Colony, even in the company's original grant, the only one which could well furnish a precedent. And, although I have no objection whatever to a range as a boundary, preferring, of course, natural boundaries to any others, yet surely it is too much to expect that I should on this account consent to overlook the more important qualification of land capable of supporting animal life.

54th. Nor can I omit to express the sense I entertain of this attempt, on the part of the Surveyor-General, to drive the company into one distant and inferior location, and thus to blot out one of the most striking and important conditions contained in the permission of His Majesty's Home Government to exchange a portion of their lands. If the Surveyor-General could point out to me any one location suited to the views of the company, most gladly would I accept it; but I must claim your Excellency's protection against this or any other endeavour to deprive the company of the indulgence of selecting the remainder of their grant in two locations, except under circumstances which I, as their agent, can approve.

55th. In the course of this communication I have, without hesitation, assigned the representations of the Surveyor-General as the cause of your Excellency's decision on this subject, because this was obviously the case in the course of the late conference. I should have esteemed it a fortunate circumstance for the company had it so happened that my application for these lands had been made at a somewhat later period, when time had been afforded for your Excellency to put into execution the wise and judicious plan which it is understood to be your intention to adopt of seeing everything with your own eyes, and thus being enabled to form your own unbiassed and impartial judgment in this case. I am satisfied that I should not now have had to contend against the representations of a prejudiced individual.

56th. To prove that I am justified in using this last expression, I have only again to notice the circumstance which I before mentioned to Your Excellency in presence of the Surveyor-General, that that officer had, in a most unwarrantable manner, thought proper to excite an odium against the Company, and me as their agent, throughout the line of the Hunter River Road, and even at the most distant stock station, on Peel's River, by giving out that we were coming to turn everybody else out, and by asserting, in one instance (as I am ready to prove by most respectable testimony), that what Sir Edward Parry was going to ask for was quite inadmissible.

57th. I shall not here stop to remark upon the impossibility of the Surveyor-General's knowing what I was about to ask for, since I did not at that time know myself. But it is of importance that your Excellency should be clearly aware, as I have long been, that this conduct on the part of that officer is the real key to the whole of his objections. Major Mitchell undertook to be the champion of those "poor people," whose case he seemed to regard with so much sympathy, and the consequence was, as I told him in Your Excellency's hearing, that he was content in this affair to do a popular thing rather than a just one.

58th. But I have still to place on record in this communication one more circumstance as regards the Surveyor-General's objections. He told some of the persons on Peel's River that I was about to ask for the land on both sides of that stream, which was quite contrary to all regulations in the granting of land. Whatever I might have done had I not heard this, I determined from that moment not to think of asking for both banks; and, as Your Excellency is aware, I made no such proposition. But what was the result? This objection which the Surveyor-General had magnified into importance, so long as he had one object to effect, was carefully kept out of sight the moment he had another end in view. This latter end, as I have already explained, was to push the company up into one location. For this purpose he wanted 50,000 or 100,000 acres of land on the right bank, to throw into the scale as a convenient make-weight, and therefore not a syllable was said of the inadmissibility of the company's occupying both sides of the river.

59th. I cannot believe it possible, after this statement of facts, that upon the representations of a person so prejudiced, and so pre-determined to object to any thing I should ask for, Your Excellency will be disposed to confirm a decision which strikes at the very root of the company's prosperity.

60th. Under all these circumstances, I feel, Sir, that I should be unworthy of the trust reposed in me, if I did not protest against that decision; and I do, therefore, most respectfully, but most earnestly, entreat Your Excellency to reconsider it. For I now unequivocally repeat the declaration I before made, that this decision, if carried into effect, must not merely cramp the company's operations and retard their final success, but in all probability put an end to their continued existence.

In conclusion, it becomes my duty to request as a matter of immediate and urgent necessity, that Your Excellency will be pleased to direct that a license of occupation be granted to me, without delay, on account of the company, for such a portion of the green-shaded location near Warrah, say 40,000 acres, as may suffice to maintain 10,000 lambs, which are expected to be by birth added to the company's flocks between this time and next October. As regards the immediate urgency of this measure, I beg leave, in addition to my own repeated representations on this head, to refer your Excellency to the testimony contained in the affidavit of the superintendent of the company's flocks, appended to this communication.

I have, &c.,

E. PARRY,

Commissioner for managing the affairs of the Australian Agricultural Company in New South Wales.

[Enclosure.]

New South Wales, }
to wit. }

This deponent, *Charles Hall*, superintendent of flocks to the Australian Agricultural Company, maketh oath, and saith that he expects an addition by birth of about 10,000 lambs to the company's flocks by the month of October next; that none of this number can, in his opinion, be supported upon the company's present estate, in addition to the flocks now grazing upon it; nor does he know of any suitable unlocated pasturage on which so large a number of additional sheep can be placed nearer than the lands lately visited by him in company with Sir Edward Parry and Mr. Dangar, in the neighbourhood of Liverpool Plains.

Deponent is at a loss to know how the company's flocks are to be supported, unless additional lands be immediately granted, considerable preparation being necessary in the building of huts, sheds, &c., and the making of hurdles on the spot before sheep can be depastured on lands hitherto unlocated.

Sworn before me, at Port Stephens, this }
19th day of June, 1832, — }

CHAS. HALL.

R. G. MOFFATT, J.P.

Governor's decision on.

ACKNOWLEDGE letter of 15th June last, containing sixty-one paragraphs.

State that I hope I may be excused replying to that part of his letter which relates to the conversation passed when I had the pleasure of seeing him at Parramatta, further than to state the result of that conference as far as relates to my decision upon his application, upon which a considerable misapprehension seems to exist.

I objected to the selection made at Liverpool Plains, since to grant the land in the way proposed would evidently prevent the profitable occupation of another large tract of country by any other settlers.

I offered, however, the same quantity of land, or more, in those places, if taken up in a manner which should not preclude others from the enjoyment of the natural advantages of that situation.

In the same way I offered him the location on Peel's River, and the possession of the whole tract of land along one or both banks, if he took his selection back to the Dividing Range, which is the natural boundary, instead of cutting off by an arbitrary and artificial measurement a large portion of country from the occupation of others, and thus virtually adding it to the possessions of the Australian Agricultural Company, but without bringing it forward in account.

That in refusing the selection in the exact form proposed by him, I did nothing more than my duty to the Crown, whose property I protected from waste, and obeyed the instructions of the Secretary of State, who directs that selections of land by the Australian Agricultural Company shall be made so as not to interfere with the reasonable claims of private settlers. I cannot, therefore, make any change in the foregoing decisions.

With respect to the temporary occupation of 40,000 acres near Warrah, on Liverpool Plains, it may be granted to him; and I have to observe the affidavit of Mr. Hall was quite unnecessary.

I have only to add my expression of regret that he should have indulged in a stream of invective against the conduct of the Surveyor-General, and have imputed motives to that officer, for which there appears no reasonable foundation. Major Mitchell positively denied, in the presence of Sir Edward Parry, at the conference at Parramatta, having the least intention to excite an odium against the Company, or their agent. The representations which he made to me on the subject of the proposed locations were such as it became him as Surveyor-General at any time to offer, but more especially when I sent for him expressly to learn his opinion, and receive his professional assistance. I must request Sir Edward Parry to be in future more guarded in his correspondence, and to avoid commenting with such unwarrantable severity upon the conduct of an officer whom it has pleased His Majesty to place in a situation of trust under this Government.

No. 31.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 27 July, 1832.

By the command of the Governor, I have the honor to acknowledge the receipt of your letter of the 15th ultimo, addressed to His Excellency, on the subject of the proposed change of a portion of the Australian Agricultural Company's land, and in reply to state to you as follows:—

His Excellency trusts he may be excused replying to that part of your letter which refers to the conversation passed when he had the pleasure of seeing you at Parramatta, further than to state the result of that conference, as far as relates to his decision upon your application, on which a considerable misapprehension appears to exist.

The Governor objected to the selection made by you on Liverpool Plains, because to have granted the land in the way proposed would evidently have prevented the profitable occupation of another large tract of country by any other settlers. His Excellency, however, offered the same quantity of land, or more, on those plains if taken up in a manner which should not preclude others from the enjoyment of the natural advantages of that situation.

In the same way he offered you the location on Peel's River, and the possession of the whole tract of land along one or both banks, if you took the location back to the Dividing Range, which is the natural boundary, instead of cutting off, by an arbitrary and artificial measurement, a large portion of country from the occupation of others, and thus virtually adding it to the possessions of the Australian Agricultural Company, but without bringing it into account.

In refusing the selections in the exact form proposed by you, His Excellency preserved the property of the Crown from waste, and upheld the just expectations of private settlers, whose reasonable claims are not, as the Secretary of State directs, to be interfered with by the selections of the Australian Agricultural Company. His Excellency cannot make any change in a decision founded on those principles.

With respect to the Company's temporary occupation of 40,000 acres of land, now applied for by you, near Warrah, on Liverpool Plains, His Excellency has been pleased to grant your request, at the same time observing that the affidavit of the Superintendent of the company's flocks was quite unnecessary.

His Excellency has to add his expressions of regret that you should have indulged in strain of invective against the conduct of the Surveyor-General, and have imputed motives to that officer for which there appears no reasonable foundation. Major Mitchell positively denied, in your presence, at the conference at Parramatta, having the least intention to excite an odium against the Company or their agent. The representations made by that officer were such as it became him as Surveyor-General at any time to offer, but more especially when His Excellency sent for him expressly to learn his opinion and receive his professional assistance.

His Excellency hopes you will in future be more guarded in your correspondence, and avoid commenting with such uncalled for asperity upon the conduct of an officer whom it has pleased His Majesty to place in a situation of trust under this Government.

I have, &c.,
ALEX. MACLEAY.

No. 32.

Sir Edward Parry to The Colonial Secretary.

My dear Sir,

Port Stephens, 14 August, 1832.

The immediate occupation of the land at Warrah being very important to the Australian Agricultural Company, I have requested, by an official letter of this day's date, further information on this subject, to enable me to commence the erection of the necessary buildings there.

In

In the hope of expediting this business, Mr. Charles Hall, the superintendent of the company's flocks, will wait upon you with this letter, and will be ready to answer any questions on the subject which you may wish, or His Excellency may direct, to be put to him. I shall feel greatly obliged by your expediting this business, as there is much to be done, and little time now left to do it in.

I have, &c.,
E. PARRY.

The Colonial Secretary had better see Mr. Hall, and learn what he wants. My intention was to allow the company to depasture their surplus flocks on such a range of Liverpool Plains, near to Warrah, as may not be occupied by others, and as may contain the quantity of land asked for, but the range to be given up when required.—R.B., 23/8/32.

No. 33.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 14 August, 1832.

With reference to that part of your letter of the 27th ultimo, which intimates to me that His Excellency the Governor has been pleased to accede to my request to have temporary occupation of 40,000 acres of land near Warrah, on Liverpool Plains, on account of the Australian Agricultural Company, I request you will do me the honor to acquaint me whether I am at liberty to take possession of the same, and in what manner the limits are to be defined, in order to enable me to proceed with the requisite buildings.

I have, &c.,
E. PARRY,

Commissioner to the Company.

Mr. N.—Sir Edward was merely informed as stated, but no decision given on the points now submitted.

No. 34.

Mr. C. Hall to The Colonial Secretary.

Sir,

Sydney, 23 August, 1832.

In compliance with your request, I have the honor to inform you that to the best of my belief the tract of country wanted by Sir Edward Parry, on the part of the Australian Agricultural Company at Liverpool Plains, is that called Warrah, including both banks of brook and a portion of the plains in conjunction with the forest land.

I have, &c.,
CHAS. HALL.

Send this to the Surveyor-General, and request him to report whether there is any objection to the temporary occupation of this land by the Australian Agricultural Company. Immediate. 25/8/32. Mr. N.

No. 35.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 25 August, 1832.

I have the honor to acknowledge the receipt of your letter of this date, in which you transmit to me the letter of Mr. Hall, the Superintendent of the Australian Agricultural Company's flocks, and request my report for the information of His Excellency the Governor as to whether there is any objection to the temporary occupation of 4,000 acres of land at a place called Warrah, including both banks of the brook and a portion of the plain in conjunction with the forest land, and I have the honor to report that I am not aware of any objection, provided that these 4,000 acres—there may be well defined natural limits, and to obtain these I would, therefore, suggest that the Warrah Creek should be a boundary on the west, according to the accompanying sketch from the company's map, and that the description should be as follows:—Bounded on the west by Warrah Creek downwards to the intersection of an east and west line from Yoowhar Hill on the north by that line; on the east by a creek watering the valley to the eastward of Warrah, and the tract extending southward and into the forest land towards the mountains.

I have, &c.,
THOS. MITCHELL,
Surveyor-General.

Approved. To be communicated to Sir Edward Parry, with an intimation that the permission to occupy this land is given as a temporary accommodation, and that the land is resumable, and to be surrendered when desired by the local Government.—R.B., 27/8/32. Surveyor-General.

Sir Edward Parry, 28/8/32.

No. 36.

The Colonial Secretary to The Surveyor-General.

[Immediate.]

Sir,

Colonial Secretary's Office, 25 August, 1832.

His Excellency the Governor, being desirous of complying with an application made by Sir Edward Parry for permission to occupy, on behalf of the Australian Agricultural Company, 40,000 acres of land on Liverpool Plains, for the temporary depasturing of its flocks, I have now the honor, by the direction of his Excellency, to transmit to you the accompanying letter from Mr. Hall, the Superintendent of the company's flocks, describing the land required to be situated at a place called Warrah, including both banks of the brook, and a portion of the plain in conjunction with the forest land, and to request your report whether there is any objection to the temporary occupation of the quantity applied for in this place.

I have, &c.,
ALEX. MACLEAY.

Original, 23 August, 1832 to be returned.

No. 37.

29

No. 37.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, 28 August, 1832.

With reference to your letter of the 25th instant, stating in reply to mine of the same date, that you are not aware of any objections to the temporary occupation by the Australian Agricultural Company of the land applied for by Sir Edward Parry at "Warrah" on Liverpool Plains, according to the description subjoined to you.

I am directed by His Excellency the Governor to inform you that his Excellency has been pleased to approve of the occupation of the 40,000 acres in question, to be resumable and surrendered when desired by the Local Government—of which Sir Edward Parry has been apprised.

I am, however, at the same time to point out that your letter refers only to 4,000 acres instead of 40,000 applied for by Sir Edward Parry, but as this evidently appears a clerical error, and the sketch defines the larger quantity, the same has been authorised accordingly.

I have, &c.,
ALEX. MACLEAY.

No. 38.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, 28 August, 1832.

With reference to your letter of the 14th instant, requesting to know in what manner the limits of the 40,000 acres of land at Liverpool Plains, for the temporary occupation of which you have applied, and whether you are at liberty to take possession.

I have the honor by direction of the Governor to inform you that there appears no objection to your occupying this quantity at Warrah, according to the undermentioned description, and I am therefore commanded to authorise your taking possession of the same, upon the understanding that this permission is given as a temporary accommodation to the Australian Agricultural Company, and that the land is resumable and to be surrendered when desired by the Local Government, viz. :—

Bounded on the west by Warrah Creek, downward to the intersection of an east and west line from Yowhar Hill; on the north by that line; on the east by a creek watering the valley to the eastward of Warrah, and the tract extending southward into the forest land towards the mountains.

I have, &c.,
ALEX. MACLEAY.

Memo. by Governor Bourke.

Memorandum for the Colonial Secretary.

Mr. N.,

Government House, Sydney, 30 August, 1832.

In writing to Sir Edward Parry about the land he requests permission to occupy in Liverpool Plains, send him copy of the sketch transmitted by the Surveyor-General.

RICHARD BOURKE.

Sketch transmitted to Sir Edward Parry with reference to letter to him of 28th August, 1832.—
1/9/32.

No. 40.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 1 September, 1832.

With reference to my letter of the 28th ultimo, communicating to you the Governor's sanction for the temporary occupancy by the Australian Agricultural Company of 40,000 acres of land at "Warrah," Liverpool Plains, I have now the honor by direction of His Excellency, to transmit for your information, the enclosed copy of a sketch furnished by the Surveyor-General as showing the limits of the land in question.

I have, &c.,
T. C. HARRINGTON.

No. 41.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 11 October, 1832.

I have the honor, by direction of His Excellency the Governor, to acknowledge the receipt of your letter, of the 21st ultimo, signifying your desire to redeem the quit rent for a certain period on the lands of the Australian Agricultural Company, by the maintenance of convicts agreeably to the terms of the company's charter.

I have, &c.,
ALEX. MACLEAY.

No. 42.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 22 December, 1832.

Mr. Dangar having completed the map of his recent survey, made in conjunction with Mr. White, Government Surveyor, of that portion of land is included between Peel's River, the Dividing Range to the south-westward of it, for the purpose of ascertaining the precise position of the range and of the river respectively, and the real quality of the land enclosed by these boundaries.

2nd.

2nd. I have now the honor to transmit to you herewith, for the information of His Excellency the Governor, a sketch of Mr. Dangar's map; and with reference to my former communications on this subject, I beg leave to submit for His Excellency's consideration, the following observations and proposals.

3rd. The whole area proposed by His Excellency as one location of the two intended to be granted to the Australian Agricultural Company, as shown by the red boundary line A, B, C, D, has been ascertained to consist of 481,456 acres, reckoning to the summit of the range.

4th. Of this tract, the portion bounded by a yellow line, consisting of about 100,000 acres, is wholly without a stream of water, and, on that account a mere waste. The yellow line is drawn at the distance of 4 miles from the permanent streams.

5th. The tract bounded by a blue line, amounting to 40,960 acres, is in some parts mountainous, in other, rocky, with very small intervals of tolerable land.

6th. The portion C, D, G, H, amounting to 29,747 acres, contains two-thirds, or 19,831 acres of land, which, from its rough character, is of no value for any purpose.

7th. In addition to the above, there are 10,240 acres of precipitous and therefore useless land immediately bordering on the range.

8th. Thus it appears that, from the various causes above mentioned, 171,031 acres, being considerably more than one-third of the whole proposed tract A, B, C, D, is of little or no value.

9th. This proportion of available land being much greater than I should be justified in consenting to receive as one of the two locations intended to be granted to the company, I beg leave to propose as follows:—

10th. That a magnetic north line, EF, be drawn as the western boundary of the proposed location from a remarkable pointed hill in the Dividing Range (about a mile to the eastward of Durie), which is not in the range; and that the rough tract C, D, G, H, be altogether excluded, thus making the proposed location, E, F, H, G, to include 348,345 acres; of which 89,280 acres, or more than one-fourth of the whole, will still consist of unavailable land, as above described, namely of the yellow portion, 40,960 acres, the blue tract, also 40,960 acres; and 7,360 acres of the precipitous sides of the range.

11th. The land on the opposite or right bank of the Peel's River having been ascertained to be a still narrower strip than was before supposed, and nothing having been discovered worthy of notice to the north-eastward, though the surveyors pursued their way up the valley of Cockburn's River (the only opening in that direction), for about 30 miles, it is not in my power to propose any addition to this location on that bank of Peel's River.

12th. Should the Governor accede to the above proposal, in which it has been my anxious endeavour to conform, as far as possible, to His Excellency's wish, of making the range a boundary, there will remain to be selected for the company a second location, consisting of 193,735 acres.

13th. This second location it is still my wish to take for the company, as shown by the green shading in Mr. Dangar's former map accompanying my letter addressed to you on the 5th of May last, and, as by your letter of the 27th of July, His Excellency intimated his readiness to grant the required quantity of land, or more, on or near Liverpool Plains, if selected in a particular manner, I have only respectfully to request that His Excellency will be pleased to propose to me some other situation and shape if he still objects to the selection I made.

14th. As Mr. Dangar is now unoccupied, and is retained in the Company's service at a heavy expense, solely for the purpose of assisting in the settlement of their grants, I take the liberty of requesting as early an answer as the public service will allow as well to this communication as to my application of the 18th of October last for the decision of the company's coal grant at Newcastle.

I have, &c.,

E. PARRY,

Commissioner for managing the affairs of the Australian Agricultural Company in New South Wales.

Refer to the Surveyor-General. He has the maps. 33-7,181.—14/1/32.

Sir Edward Parry reports that the land on Peel's River, pointed out to him at the conference with His Excellency, has been surveyed, and found to consist of 171,031 acres bad; 310,425 acres available; total, 481,456 acres. States that he should not be justified in accepting this. Proposes one selection, containing 89,280 acres bad; 259,065 acres available; total, 348,345 acres; and refers to former map for the selection which he still wishes to make for the remaining 193,735 acres.

His Excellency will probably consult the Surveyor-General personally. The former map was not returned to this office from Government House, I believe.

Governor's Decision.

Refer to Surveyor-General for report. He has the map.—R.B., 14/1.
Surveyor-General accordingly (original sent).—15/1/33.

No. 44.

No. 44.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 17 January, 1833.

With reference to your letter of the 15th instant, No. 33-62, requesting, by the Governor's direction, my report on Sir Edward Parry's letter of the 22nd ultimo relative to the lands proposed to be retained by the Australian Agricultural Company, and observing that the plan which accompanied it is now in my possession, I have the honor to inform you that the plan alluded to is not in my possession, and accordingly request that it may be sent to me.

I have, &c.,

THOS. MITCHELL,
Surveyor-General.

Governor's Decision.

It is now with the Surveyor-General, as well as Sir Edward Parry's letter for report.

No. 45.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 22 January, 1833.

I have to acknowledge receipt of your letter No. 33-62, dated 15th instant, enclosing a letter from Sir Edward Parry, on which, by direction of His Excellency the Governor, you request my report, the same having reference to a plan by Dangar, which I have also received, and which is herewith returned, as well as Mr. Dangar's former map.

I have, therefore, the honor to refer to the fourth paragraph of that letter, which contains the first objection to the land on the Peel, namely, that the tract distinguished in Dangar's map by a yellow boundary, and containing 100,000 acres, is wholly without a stream of water, and on that account a mere waste, and to observe that, although there may be no stream-water, holes are not wanting, as one proof of which, I beg to state that I encamped in the very centre of it, at a place where there was water in abundance on the night on which I left my party on the bank of the Peel, last autumn, having also found water on another part, where I had encamped with my party two months before; and it may be added that one-half of this land is included in Sir Edward Parry's first selection on the Peel. It is bounded by bold hills on one side, and a fine river on the other, so that no part of this ground is distant above 6 miles from one of these. The whole affords good pasturage, and would not be less available to the company if divided from the company's grant by the imaginary line E F, as proposed, than if it were included therein; for the triangular portion, which would be separated therefrom by this line, is enclosed on the two other sides by such impassable barriers, namely, mountain range on the south-west and the Peel River on the north or towards the unlocated interior, that it could, in fact, only be entered by the side of the Company's grant, and thus this fine tract, containing about 100,000 acres, would be as much in the possession of a company possessing 358,000 acres adjoining, from which it would be separated only by a magnetic north line, E F, as if it formed part and parcel of the granted land. The tract bounded by a blue line (paragraph 5) is objected to as being in some parts mountainous, in others rocky, with very small intervals of tolerable land, but in a large tract such inequalities are necessary to supply the streams. A dead flat would be without water, and upon the whole, this, even as Mr. Dangar marks it, appears to be a remarkably small proportion, as it forms an intermediate basin, which retains the water between the Peel and the boundary range.

The portion C, D, G, H (paragraph 6th) of which two-thirds are stated to be of no value from the rough character, I have not seen; but from the admission that one-third is otherwise I conclude that it partakes of the general character of the valleys of the Liverpool Range, so much desired for the other location proposed, at the head of Liverpool Plains, by Sir Edward Parry, and which, not only from the proportion of good, namely, one third, but from the abundant pasture and unfailing springs of that higher region, would probably be now occupied by the colonists, were it accessible to them at all, since to occupy such parts somewhat nearer they leave their locations and cross a lofty range. Whether the company would virtually occupy this, while holding the land adjacent to it, admits of no question.

That land bordering on a range and being precipitous is, therefore, useless for sheep farming (as stated in paragraph 7th) does not appear to follow, for the steep sides of the range are in general well clothed with grass, and I believe in certain seasons such mountain pasturage is desirable, if not absolutely necessary, in extensive sheep-walks.

In paragraph 8th it is set forth that such objectionable parts, as they are at least represented to be by Sir Edward Parry or Mr. Dangar, amount to considerably more than one-third of the whole tract, A, B, C, D. I have already observed that one-third of good land is a great proportion, because I consider the average proportion of good or available land in the whole Colony is about one-seventh, and in ordinary sized grants will be frequently found a still smaller proportion even of good grazing land. I say one-seventh because my predecessor in this office thought the proportion of good still less, and having since ascertained the whole extent of the Colony, I find that the granted land bears about this proportion to the waste land, of which it was not for some years past in my power to point out to emigrants a four-section grant of average quality within the present limits of the Colony. It is admitted that two-thirds of the extension tract on the Peel offered to the company are good or unobjectionable. In paragraph 9th, Sir Edward Parry states that with such a proportion of unavailable land as one-third he cannot consent to receive it as one of the two locations intended to be granted to the company. He, therefore, still proposes to cut off by an imaginary line, E F, the triangular tract I have already alluded to, a portion confined on other sides by the continuation of the strong natural boundaries of the proposed grant to where they meet and enclose the whole on the north-west. He also proposes to enclose by another ideal line the track C, D, G, H, which is similarly situated at the opposite or south-eastern extremity of the proposed location, thus making it to contain 348,345 acres only, although it would really include within the natural limits of Dangar's calculation 478,000 acres. I would do myself the honor to observe that I see no reason whatever for leaving at each extremity of a tract enclosed by such boundaries so much land in the unauthorised possession of the company, especially considering the extensive survey which Government has found it necessary to make for the purpose of determining natural limits.

The

The tract now proposed to be taken by Sir Edward Parry is scarcely at all different from his former selection on the Peel, as shown in his first chart, the only difference being in the quantity, which was 300,160 acres, the situation is almost precisely the same.

The difference between the whole extent of the land on the Peel, as enclosed by the range and river, namely, 478,000 acres, and what would remain to be selected, as stated by Sir Edward Parry, would be about 64,000 acres, or 100 square miles.

It is, therefore, to be regretted that Sir Edward Parry cannot be persuaded to take this land on the right bank of the Peel, for, according to Mr. White's report, as well as Mr. Oxley's journal, the valley of the Cockburn is good, and there can be little doubt that 100 square miles at least of unexceptional land may be found. The plains of Mullaba, on the other side of the Peel, and part of which I traversed, are at least as good as Liverpool Plains, but their possession is not necessary to ensure it to the company as far northward as they choose to go, or eastward, even to their grant on the coast, while it is desired to extend their exclusive possession to the western limits of Liverpool Plains, where it would be available for the exclusion of the colonists; and if a tract can be shown equally good, where the interests of the company and those of the Colony would not clash, it seems most desirable on principles of common justice to arrange the locations accordingly. It is not only by the occupation of a great portion of what has been hitherto available to the colonists that their interests would be affected, the occupation of the two best watered tracts would leave the intervening country comparatively unavailable. On the other hand, for the ostensible objects of the company the one situation is as eligible as the other, the intrinsic value of the land nearest to the settlers might be the greatest, but all other circumstances being equal, the deterioration in value of a still greater extent left waste on the hands of the Government, and the wants of the colonists, on whose numbers and wealth the actual value depends, appear entitled to consideration. Adhering to the principle of natural boundaries for such large tracts, and admitting that the left bank of the Peel is an eligible tract of this kind, the adjacent country of Liverpool Plains may be considered another tract of much greater extent, having also its limits very well defined, viz., the Liverpool Range on the south, the Boonalla Range on the west, the Muluerindie or Peel on the north, and the range bounding the Upper Peel track on the east. The Conadilly divides it, and taking this river as a western boundary, it would confine a tract of twice the extent of all the land to be selected in two locations by the company. The colonists, by the occupation of the land, give it a value, and, therefore, Sir Edward Parry, to whom land unoccupied, and as good for sheep, has been offered in another situation, would prefer this, for no other reason that I am aware of than because it is occupied. Whether it was contemplated by His Majesty's Government, in granting to a company large tracts of land in New South Wales for the growth of wool, that room could be found there for the company and the colonists too, or not, I shall not presume to offer an opinion, but if the one hundred square miles only, which still remain to be selected are to be allowed on Liverpool Plains, I would beg to suggest that this land should be taken at the western part of the former large selection there, and between natural limits, so as to leave unequivocally open the whole space between that selection and the other on the Peel, with free access for the colonists to the intervening plains and the interior.

I would also have the honor to suggest that in granting the lands on Peel River the right may be reserved of making as many roads as may be necessary to the country beyond the Peel, and free passage to the public along those which may be made, or across the country before roads are made. Also the right of carrying great roads across any portion which may be granted on the west side of Liverpool Plains.

I have, &c.,

THOS. MITCHELL,
Surveyor-General.

Governor's Reply.

The reasons given by the Surveyor-General for adhering to the natural boundaries, as proposed by this Government for the company's location on Peel's River, are too cogent to allow of my adopting the modifications suggested by Sir Edward Parry. The Colonial Secretary is requested to prepare letter to Sir Edward communicating this opinion, and supporting it by the principal reasons adduced by the Surveyor-General, or by sending an extract of that officer's letter, the extent of which I have marked between pencil. Recommend to Sir Edward to take up on the right bank of the Peel what is wanting to complete the whole quantity, as securing for the company a compact location along both sides of a noble river with the best possible boundaries, and the probability of direct communication with Port Stephens. If Sir Edward should be so disposed, I would endeavour to accommodate the company by allowing a very full and favourable selection on the right bank. If he should decline the proposal, I have no objection to grant him a location on Liverpool Plains, if taken up on the principle that has been already suggested, viz., from the Dividing Range downwards along the streams, leaving perfectly open to the colonists all the space between it and the location on the Peel. State the reserve for roads.—31/1/33.

No. 46.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, 31 January, 1833.

I duly received and submitted to the Governor your letter of the 22nd ultimo, No. 764, transmitting Mr. Dangar's sketch of the recent survey made in conjunction with the Government, of the land on Peel's River, proposed for the Australian Agricultural Company, and preferring observations and proposals for determining the company's selection.

With reference thereto I am directed by His Excellency to inform you that the reasons given by the Surveyor-General, in the enclosed extract from his report on the subject, for adhering to the natural boundaries before proposed by this Government for the company's location on the Peel River are too cogent to allow of his adopting the modification suggested by you. His Excellency, therefore, recommends your taking on the right bank of the river what is wanting to complete the whole quantity, by which you will secure a compact location along both sides of a noble river, with the best possible boundaries, and the probability of direct communication with Port Stephens; and if you are disposed to do so, His Excellency will endeavour to accommodate the company by allowing a very full and favourable selection on the right bank.

Should

Should you, however, decline this proposal, the Governor has no objection to give you a location on Liverpool Plains, if taken upon the principle that has been already suggested, viz., from the Dividing Range downwards, along the streams, leaving perfectly open to the colonists all the space between it and the location on the Peel, reserving therein to the Government the right of making as many roads as may be necessary to the country beyond the Peel, and free passage to the public along those which may be made, or across the country before roads are made, as well as the right of carrying great roads across any portion which may be granted on the west side of the Liverpool Plains.

I have, &c.,
ALEX. MACLEAY.

No. 47.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 11 March, 1833.

I do myself the honor to acknowledge the receipt of your letter of the 31st of January last, acquainting me, by the Governor's commands, that His Excellency declines acceding to the proposals contained in my letter addressed to you on the 22nd December last, and also communicating to me His Excellency's recommendation that I should take, for the Australian Agricultural Company, on and near Peel's River, what is wanting to complete their whole quantity of land.

2nd. I regret that it will not be in my power to adopt His Excellency's recommendation in this respect, for the reasons already very fully detailed in my former communications, some of which reasons are again stated in the enclosure to this letter.

3rd. It is also a matter of sincere regret to me that I cannot consent to the second of His Excellency's proposals, and this for the following reasons: If I could conscientiously consent to take the whole tract (A, B, C, D) of 481,456 acres on the left bank of the Peel as one location, there would remain only about 60,000 acres to select elsewhere. If even these 60,000 acres were to be all good, or at least available land, it would become a question whether so small a portion of the company's whole grant, would be worth the expense of forming a third and very distant establishment. But to this consideration must be added the important fact, well known to any person acquainted with the nature of that country, that if these 60,000 acres were selected in the manner His Excellency proposes, namely, "from the Dividing Range downwards along the streams," towards Liverpool Plains, fully one-half on any such tract would be utterly useless. Whatever appearance, therefore, such an arrangement might make on paper, His Excellency will, I trust, perceive that I cannot accede to a proposal which, if adopted, would, in fact amount to a mere nominal possession of two new locations. Indeed, I cannot persuade myself that the granting of so small a portion of land to constitute a third location, separated 40 miles from the other, is in accordance with the spirit of the intentions of His Majesty's home Government, in granting to the company the indulgence of making two fresh selections.

4th. Your letter having informed me that the Governor's refusal to comply with my request is grounded on the reasons given by the Surveyor-General, in the extract from that officer's communication which you have enclosed for my information, it has become my duty to offer some remarks thereupon. To these, which form a part of the enclosure to the present communication, I respectfully solicit the Governor's attention, and through His Excellency, that of His Majesty's home Government.

5th. Anxious as I am to bring this matter to a conclusion, I cannot, for the reasons now fully stated in my various communications to His Majesty's Government, consent to betray my trust by accepting for the company a grant, in which the quality of the land and a supply of water are in my opinion, made to yield, as matters of comparatively light moment, to the convenience of adopting certain natural boundaries; the acceptance of which grant, would, therefore, according to my judgment, be committing a second error, similar to that which had nearly involved the company in ruin at the outset.

6th. Having given to this important subject the most mature consideration, it appears to me that His Majesty's local Government having virtually declined allowing me to select the lands required to complete the company's grant, I have no power to proceed any further, and shall, therefore, not be justified in incurring more expense on the selections now refused. Much less can I venture to commence afresh, by exploring some still more distant parts of the Colony, or rather out of the Colony, under the apprehension which I cannot but entertain that any fresh selection might be met by a similar refusal.

7th. I have, therefore, respectfully to request that His Excellency will be pleased to transmit to His Majesty's Secretary of State for the Colonies, copies of the several communications I have had the honor to make to His Majesty's local Government on this subject; and in compliance with the tenor of Lord Goderich's letter to His Excellency, dated the 3rd March, 1832, I beg to acquaint you that I am about to transmit to the directors of the company copies of the same communications for the purpose of enabling them to address His Majesty's home Government on this question.

As under these circumstances the prospect appears a distant one of any final settlement of this question, I would also respectfully request that His Excellency will be pleased to grant to the company during this interval, temporary occupation of such further portions of land near Liverpool Plains as may from time to time be absolutely necessary for the support of their increasing and valuable flocks.

And as I have given Mr. Dangar notice of my intention to discharge him almost immediately from the company's service, I trust His Excellency will be pleased to direct that the company's grant at Newcastle be decided on, and finally marked out without delay in the situation requested by my letter addressed to you on the 18th of October last, to which I have not received a reply.

I have, &c.,
EDWD. PARRY,

Commissioner for managing the affairs of the Australian Agricultural Company in New South Wales.

Sir Edward Parry declines the proposal last made, as suggested by the Surveyor-General; comments on various parts of the Surveyor-General's Report, 33-718; requests that if his former selection cannot be allowed, copies of correspondence may be sent to the British Government; that, until the decision of His Majesty's Ministers is received, the company may be allowed to occupy such portions of land as their live stock may require; and that an early answer may be given to his letter respecting the grant at Newcastle, 32-8,053.

For consideration and command; Governor's decision. Forwarded to Secretary of State, as desired by Sir Edward Parry. Immediate. Mr.

Mr. N.,—Prepare a copy of 33-2,161, and request the Surveyor-General to prepare a tracing of the accompanying map of Mr. Dangar's, and also of Mr. White's map, for transmission to the Secretary of State. Inform him that duplicate copies will be required, but request he will send one copy of each with as little delay as possible. To be sent by one of the ships now under despatch. Surveyor-General, 2 May, 1833.

[Enclosure.]

EXTRACT of a letter from the Surveyor-General to the Honorable the Colonial Secretary, dated 22nd January, 1833.

I HAVE therefore the honor to refer to the fourth paragraph of that letter which contains the first objection to the land on the Peel, namely, that the tract distinguished in Dangar's map by a yellow boundary, and containing 100,000 acres, is wholly without a stream of water, and, on that account, a mere waste; and to observe that although there may be no streams, waterholes are not wanting, as one proof of which I beg to state that I encamped in the very centre of it, at a place where there was water in abundance on the night on which I left my party on the bank of the Peel last autumn, having also found water on another part where I had encamped with my party two months before; and, it may be added, that one-half this land is included in Sir Edward Parry's first selection on the Peel. It is bounded by bold hills on one side and a fine river on the other, so that no part of this ground is distant above 6 miles from one of these. The whole affords good pasturage, and would be not less available to the company, if divided from the company's grant by the imaginary line E F, as proposed, than if it were included therein. For the triangular portion which would be separated therefrom by this line is enclosed on the two other sides by such impassable barriers, viz., the mountain range on the south-west and the river Peel on the north, or towards the unlocated interior, that it could, in fact, only be entered by the side of the Company's grant, and thus this fine tract, containing about 100,000 acres, would be as much in the possession of a company possessing 348,000 acres adjoining, from which it would be separated only by a magnetic north line (E F), as if it formed part and parcel of the granted land.

The tract bounded by a blue line (paragraph 5) is objected to as being in some parts mountainous, in others rocky, with very small intervals of tolerable land; but in a large tract such irregularities are necessary to supply the streams. A dead flat would be without water, and upon the whole, this, even as Mr. Dangar marks it, appears to be a remarkably small proportion, as it forms an intermediate basin, which retains the waters between the Peel and the boundary range.

The portion C, D, G, H (paragraph 6th), of which two-thirds are stated to be of no value from the rough character, I have not seen, but from the admission that one-third is otherwise, I conclude that it partakes of the general character of the valleys of the Liverpool Range, so much desired for the other location proposed at the head of Liverpool Plains by Sir Edward Parry, and which not only from the proportion of good, viz., one-third, but from the abundant pasture and unfailing springs of that higher region, would probably be now occupied by the colonists were it accessible to them at all, since to occupy such parts somewhat nearer they leave their locations, and cross a lofty range. Whether the company would virtually occupy this while holding the land adjacent to it admits of no question.

That land bordering on a range, and being precipitous, is therefore useless for sheep-farming (as stated in paragraph 7th) does not appear to follow, for the steep sides of the range are in general well clothed with grass, and I believe in certain seasons such mountain pasturage is desirable, if not absolutely necessary, on extensive sheep-walks.

SIR EDWARD PARRY'S remarks on the observations on the opposite page.

It is true that there are, at some seasons, waterholes in the extensive tract of land here alluded to, but they are only such as must be dried up during the summer months. The autumnal rains had commenced at the latter period mentioned by the Surveyor-General, namely, in March, 1832; and the expression of having "found water" two months before, implies the difficulty which there really was in finding it. If any portion of this tract of 100,000 acres could be advantageously occupied by stock during some part of the year, they must at least be removed every summer. It follows that, even on this most favourable supposition, this tract is virtually a mere waste, as I described it. No man would be unwise enough to form sheep stations on such a tract. It is true that I included a very considerable proportion of this land in my first selection, because I never have been so unreasonable as to expect that I could select the whole quantity good, and I therefore consented to include this very large portion of waste land. But this is a strange argument to use, as it here seems to be used against the company's claims. The distance of 6 miles from Peel's River is too great by at least 2 miles, or one-third of the whole, for stock to feed from the water. This circumstance, therefore, is nothing in favour of the tract. What advantage the Surveyor-General expects the company to derive from the fact that "no part of this ground is distant above 6 miles" from the bold hills on one side, I am quite at a loss to conceive. I appeal to the maps of the Colony, and to the experience of the settlers generally, whether this reasoning will not equally apply to any other unappropriated land in New South Wales. On three-fourths of the grants on the Hunter River, for instance, the proprietors enjoy the advantage of what is called a "back run" for their cattle, &c., namely, land not appropriated, nor ever likely to be appropriated as separate farms, being only useful in connection with the neighbouring estates, which latter must in a multitude of instances be passed through to arrive at the unappropriated land. But the company desire no such advantage, and I particularly solicit the attention of His Majesty's Government to the following observations: If these 100,000 acres do really constitute so very desirable a tract, what is to prevent its being occupied by other colonists? The Surveyor-General says, because "it could, in fact, only be entered by the side of the company's grant." If Major Mitchell has occasion to go to Port Macquarie by land, or to visit the grants on the Manning River, he would have to ride some 50 miles through the company's present grant. And why not? Has the company ever objected, or, if they did, would the objection be held valid for one moment, to roads being made and frequented through their grants in any direction necessary to the public convenience? The objection raised by the Surveyor-General on this head might indeed startle an English gentleman through whose park or game reserve a public road was about to be made, but in this country such an objection is never thought of; and it must be a weak cause that in New South Wales requires such an objection to support it.

If I understand these remarks aright, they amount to an admission that the tract in question is, as I described it, little better than waste lands. It is true that it is only a small proportion of the whole; but I only described it of its proper extent. The facts that "inequalities are necessary to supply streams, and that a dead flat would be without water" are truisms which cannot be denied, but they have nothing to do with the one only essential fact that the tract in question is principally bad.

The theoretical conclusion on which the Surveyor-General has here ventured is erroneous. I, who have seen the portion of land in question, know that it is not of the description so much desired by me elsewhere. The Surveyor-General's assertion that it probably is so seems to convey rather an insulting insinuation. If, however, this tract be really so desirable to the colonists as is here represented, it will most certainly be occupied by them whenever colonisation naturally extends so far. The company know, to their cost, that their neighbourhood is more sought after than is consistent with their interests; and with respect to roads, see my remarks above on this subject.

This question appears to turn on the meaning of the word "precipitous." My meaning was hills too steep for sheep or shepherds to climb without difficulty, which is the case generally with the hills to which I alluded.

In paragraph 8th it is set forth that such objectionable parts (as they are at least represented to be by Sir Edward Parry or Mr. Dangar) amount to considerably more than one-third of the whole proposed tract A, B, C, D. I have already observed that one-third of good land is a great proportion, because I consider the average proportion of good or available land in the whole colony is about one-seventh, and in ordinary sized grants will be frequently found a still smaller proportion even of good grazing land. I say one-seventh, because my predecessor in this office thought the proportion of good still less; and having since ascertained the whole extent of the Colony, I find that the granted land bears about this proportion to the waste land, of which it was not for some years past in my power to point out to emigrants a four-section grant of average quality within the present limits of the Colony. It is admitted that two-thirds of the extensive tract on the Peel offered to the company are good or unobjectionable, and in paragraph 9th Sir Edward Parry states that with such a proportion of unavailable land as one-third, he cannot consent to receive it as one of the two locations intended to be granted to the company.

He, therefore, still proposes to cut off, by an imaginary line, E F, the triangular tract. I have already alluded to a portion confined on other sides by the continuation of the strong natural boundaries of the proposed grant to where they meet, and enclose the whole on the north-west. He also proposes to exclude, by another ideal line, the tract C, D, G, H, which is similarly situated at the opposite or south-eastern extremity of the proposed location, thus making it to contain 348,345 acres only, although it would really include within the natural limits by Dangar's calculation, 478,000 acres. I would do myself the honor to observe that I see no reason whatever for leaving at each extremity of a tract enclosed by such boundaries so much land in the unauthorised possession of the company, especially considering the extensive survey which Government has found it necessary to make for the purpose of determining natural limits. The tract now proposed to be taken by Sir Edward Parry is scarcely at all different from his former selection on the Peel, as shown in his first chart; the only difference being in the quantity, which was 300,160 acres; the situation is almost precisely the same.

This is a very fallacious, and therefore a very unfair point of view to put it in. The question is not what is the average of good or available land in the whole Colony, but what is the average of good or available land in the tracts appropriated to the usual order of grants in the Colony. There are tracts of immense extent in New South Wales not worth one farthing, but nobody has ever thought of including these in any grants at all. I claim, then, for the company only the usual method of giving grants, that is, the usual proportion of good to bad land in the grants of the Colony generally; and every surveyor who knows the Colony is aware that, had the question been put in this the only fair point of view, and the Hunter River district, for instance, taken as a guide, the proportion of bad land would not be found to exceed one-eighth, instead of six-sevenths, as the Surveyor-General's observations appear to intimate. I earnestly request the attention of His Majesty's Government to the fallacy which is at least implied in the Surveyor-General's statement on this most important part of the subject.

I have before admitted that strong natural boundaries are extremely desirable to all parties; but if 100,000 acres in one place, and half as much in another, are to be sacrificed to this consideration, it would be purchasing boundaries much too dearly.

The insinuations that the company, or I, as their agent, desire to have "unauthorised possession" of any portion of land merits no reply on my part.

The real facts respecting surveys are these:—The company has been engaged for three years at an expense considerably exceeding £2,000 in endeavouring to complete their grant, extending their researches even beyond the proclaimed limits of the Colony for this purpose. Their selection is refused, and the expense, therefore, probably in great part thrown away. His Majesty's Government has made one survey, occupying a surveyor from four to five months, embracing some material points, calculated, as his Excellency justly observed, to be of great service to the geography of the Colony, even independently of the question relative to the company's lands. Is it anything new or unreasonable that the Government should survey lands proposed to be granted? Indeed, can lands be sold or granted without a Government survey? And yet the Surveyor-General speaks of this survey as some great and unusual boon conferred upon the company. I respectfully solicit the attention of His Majesty's Government to this instance, among many others, of the want of candour which characterises the Surveyor-General's statements in opposition to the company's just claims.

E. PARRY,

Commissioner to the Australian Agricultural Company.
Port Stephens, 11th March, 1833.

No. 48.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 2 May, 1833.

I had the honor to receive and submit to the Governor your letter of the 18th October last, accompanied by a sketch illustrative of the manner in which you are desirous that the coal grant of the Australian Agricultural Company at Newcastle shall be measured. In reply, I am directed to inform you that His Excellency, having had an opportunity of seeing the land and conferring with the Surveyor-General on the subject, has been pleased to sanction the following arrangement with reference to the sketch, viz:—

That the grant to comprise 2,000 acres, deducting the quantity specified in paragraph No. 2 below, have a frontage of 500 yards on the river adjoining the company's jetty, and be bounded by the road from Newcastle to Maitland, the lines F, G, D, and the line D, C, prolonged with an addition adjoining and parallel to the last line equal to any deficiency which may occur in this portion of the 2,000 acres.

2. That the company forego their application for the surface right of the portion comprised within the lines A, B, F, G, and stated to contain about 67 acres, on account of its forming a part of the town, and be allowed in lieu the town allotments Nos. 23 and 52 in Pacific and Wall Streets, Newcastle, together with the mining right to the tract so relinquished, subject to such conditions as to depth and necessary supports as may be approved by the Government mineral surveyor.

3. The grant of land and the town allotments to be subject to quit rents without power of redemption.

I do myself the honor to add that the Surveyor-General has been duly apprised as above, and also instructed to mark out the road in question, as far as it will bound the grant which His Excellency considers necessary, previous to the land being measured.

I have, &c.,

ALEX. MACLEAY.

Sir,

Colonial Secretary's Office, Sydney, 2 May, 1833.

I am directed by His Excellency the Governor to request that you will cause a tracing of Mr. Dangar's map of the land first selected by Sir Edward Parry on behalf of the Australian Agricultural Company, which was a short time since privately sent to you, to be immediately prepared and forwarded to me for transmission to the Secretary of State, in addition to the one mentioned in my former letter of this date, No. 33-427.

I have, &c.,

T. C. HARRINGTON.

No. 51.

The Colonial Secretary to The Surveyor-General.

[Immediate.]

Sir,

Colonial Secretary's Office, Sydney, 2 May, 1833.

Sir Edward Parry having addressed the Government on the subject of the Australian Agricultural Company's coal grant at Newcastle, and the Governor having had an opportunity of inspecting the land, and conferring with yourself on the subject, I am directed to communicate to you His Excellency's sanction of the following arrangements with reference to the enclosed sketch, which has been furnished by Sir Edward, viz. :—

1. That the grant to comprise 2,000 acres, deducting the quantity specified in paragraph No. 2 below, have a frontage of 500 yards on the river adjoining the company's jetty, and be bounded by road from Newcastle to Maitland, the lines F, G, D and the line D, C prolonged, with an addition adjoining and parallel to the last line equal to any deficiency which may occur in this portion of the 2,000 acres.
2. That the company forego their application for the surface right of the portion comprised within the lines A, B, F, G, and stated to contain about 67 acres, on account of its forming part of the town, and be allowed in lieu the town allotments Nos. 23 and 52, in Pacific and Wall Streets, Newcastle, together with the mining right to the tract so relinquished, subject to such conditions as to depth and necessary supports as may be approved by the Government Mineral Surveyor.
3. That the grant of land and the town allotments be subject to quit rent without power of redemption.

I am directed to add that the above arrangement has been communicated to Sir Edward Parry, and to request that, before measuring the land in conformity therewith, you will mark out the road in question by which it is to be bounded.

I am also directed to request that you will transmit to me a tracing of the enclosed sketch.

I have, &c.,

No. 58.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 12 September, 1833.

Having received a copy of Viscount Godrich's despatch, No. 153, dated Downing-street, March, 1833, and addressed to the Governor, and directing His Excellency, with as little delay as possible after the receipt of that despatch, to place me in possession of the two locations which I selected for the Australian Agricultural Company, as intimated to you in my letter of the 5th of May, 1832, accompanied by a map in illustration of my selections, I have now the honor respectfully to request that

His

His Excellency will be pleased to take the necessary steps for putting me in immediate possession of the same, and more especially the whole of the green shaded portion in the above-mentioned map, where the increasing quantity of scabby sheep is becoming a very serious evil, likely to affect the best interests of the company if suffered to proceed further for want of due authority to remove them.

I have the honor to add that I am ready, in compliance with Lord Goderich's desire, to enter into any reasonable arrangement for securing proper roads to be made at the expense of the Government wherever they may be requisite for public benefit, through either of these portions of the company's estate, as well as to secure to the settlers in the lands adjoining the company's tracts, the use of those streams which may be available for the fertility and cultivation of their land, as well as afford water-carriage for their produce.

I have, &c.,

E. PARRY,
Commissioner for managing the affairs of the Australian Agricultural
Company in New South Wales.

To await the answer to the letter written to him on M. 29-99.

No. 59.

The Colonial Secretary to The Surveyor-General.

Sir, Colonial Secretary's Office, Sydney, 16 September, 1833

I am commanded by His Excellency the Governor to inform you that the Right Honorable the Secretary of State for the Colonies has directed that Sir Edward Parry, as Commissioner for the Australian Agricultural Company, be placed in possession of the two locations selected by him, and reported at the beginning of the last year, and that care is to be taken that the company do not include within the space fixed by the boundaries of their new locations a larger extent of land than it was proposed to grant to them by the despatch of Sir George Murray, of which a copy is enclosed, to be held in lieu of an equal quantity of the original location of the company at Port Stephens, which is to be surrendered back to the Government at the time the company are put in possession of these lands.

Dated 21st April,
1830, No. 23.

The Governor requests that you will suggest what lines of communication it may be necessary to establish through these lands, in order to obtain full access to the country beyond, and what precautions it may be necessary to adopt for preventing the company from retaining for their sole use and benefit the streams which pass through the location on Liverpool Plains, as also for preserving to the public the free use of Peel's River, whether for water carriage or any other purpose.

Sir Edward Parry has been informed as above, and that arrangements will be made with as little delay as possible for putting him in possession of the two locations in question, for facilitating which he has been requested to name some professional person to communicate with you on the subject.

I have, &c.,

ALEX. MACLEAY.

No. 60.

The Colonial Secretary to Sir Edward Parry.

Sir, Colonial Secretary's Office, Sydney, 16 September, 1833.

I have the honor, by direction of His Excellency the Governor, to inform you that the Secretary of State has been pleased to order that you be put in possession, as Commissioner for the Australian Agricultural Company, of the two locations selected by you, and reported at the beginning of the last year, to the extent authorised by Sir George Murray's despatch, dated 21st April, 1830, No. 23, to be held in lieu of an equal quantity of the original location of the company at Port Stephens, which is to be surrendered back to the Government at the time the company are put in possession of these lands.

The Surveyor-General has accordingly been instructed to make the necessary preliminary arrangements with as little delay as possible, and His Excellency recommends that you name some professional person, on behalf of the company, to communicate with that officer on the subject.

I have, &c.,

ALEX. MACLEAY.

No. 61.

The Colonial Secretary to Sir Edward Parry.

Sir, Colonial Secretary's Office, Sydney, 20 September, 1833.

With reference to your letter of the 12th ultimo, relative to the land intended to be granted to the Australian Agricultural Company at Newcastle, I have the honor, by direction of His Excellency the Governor, to transmit to you a copy of the description furnished by the Surveyor-General of the full quantity of 2,000 acres, as well as of the portion upon which the town stands, and of which the company is only to have the mining right, but at the same time to inform you that that officer reports with respect to the latter portion as follows, having allusion to the boundaries mentioned in your letter of 18th October, 1832, and the map which accompanied it, viz. :—"I have, however, to remark that this latter portion contains only 55 acres 2 roods 20 perches, instead of 67 acres; and, moreover, that it is not, as stated, the figure A, B, F, G, but the part coloured green within that figure that contains this quantity."

As it is of importance that yourself and the Surveyor-General should be agreed respecting the descriptions and boundaries before any communication is made to the Secretary of State with a view to the execution of the grant, His Excellency requests that you will have the goodness to report upon the subject accordingly.

I have, &c.,

ALEX. MACLEAY.

No. 62.

No. 62.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 9 October, 1833.

I do myself the honor to acknowledge the receipt of your letter of the 16th ultimo, acquainting me, by command of the Governor, that the Secretary of State has been pleased to order that I be put in possession, as Commissioner for the Australian Agricultural Company of the two locations selected by me, and reported at the beginning of the last year, and recommending that I should name some professional person on behalf of the company to communicate with the Surveyor-General on this subject.

In reply, I beg to acquaint you, for the information of his Excellency, that I have taken the necessary steps for procuring a proper person to communicate with the Surveyor-General accordingly, and that I will lose no time in acquainting you therewith when I have been enabled to find a person to entrust with this duty.

I have, &c.,

E. PARRY,

Commissioner for the Australian Agricultural Company.

Governor's
decision read.

No. 63.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 16 October, 1833.

I have had the honor to receive your letter of the 16th ultimo, No. 33-852, in which is enclosed a copy of the despatch of Sir George Murray, respecting the lands to be granted to the Australian Agricultural Company in lieu of an equal quantity to be surrendered from the grant at Port Stephens, and I have the honor to state that I have prepared a sketch of the lines of communication it may be necessary to establish through these lands, &c., but that I have the honor to request further instructions relative to the land to be given up from the grant at Port Stephens, and also to refer to my letter of the 15th instant, No. 33-682, respecting the surveyor to be sent on this duty.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

Schedule 285-33, 28/10/33.

Colonial Secretary's report—for information and command. The despatch of the Secretary of State (No. 1,439 enclosed), which is to govern the extent to be exchanged, is not sufficiently specific as to the spots to be given up. Probably, therefore, the Surveyor-General should be requested to communicate with the company's surveyor and after thus arranging the matter, submit descriptions and report for approval.

Governor's decision.

The only instruction that can be given to the Surveyor-General founded on the Secretary of State's despatch, is to require the company to give up as much land of their present grant as they receive in the two locations lately ordered to be given them. The land to be given up, and consequently that to be retained, to be in one unbroken parcel, the Secretary of State declaring that the company is to have but three locations in all. As to the position and boundary of the land at Port Stephens to be retained by the company, it seems to be left to their choice. Surveyor-General, 14/11/33.

With respect to the other conditions set forth in Sir G. Murray's despatch, I request the Colonial Secretary to prepare a letter to Sir Ed. Parry, acquainting him with the second, third, and fourth conditions, and calling upon him to provide a fund of £300 per annum for the support of a clergyman, &c. Sir Edwd. Parry, 23/11/33.

The rent at which the land is to be leased, in pursuance of the fourth condition, is not stated by the Secretary of State. Has the question ever been asked?

No. 64.

The Colonial Secretary to Sir Edward Parry.

Sir,

Colonial Secretary's Office, Sydney, 31 October, 1833.

With reference to your letter of the 21st instant, representing that the description of the land at Newcastle of which the Australian Agricultural Company are to be allowed the mining right only, which was transmitted to you in my letter of the 20th ultimo, has been found to be incorrect, I have the honor, by direction of His Excellency the Governor, to inform you that the Surveyor-General has also reported the discovery of an error, stating at the same time that he has ordered a re-survey to be made, with a view to its being rectified, and that the result shall be duly communicated to you.

I have, &c.,

ALEX. MACLEAY.

No. 65.

Sir Edward Parry to The Colonial Secretary.

Sir,

Port Stephens, 4 November, 1833.

With reference to the concluding part of your letter addressed to me on the 16th September, I have now the honor to acquaint you that I have authorised Mr. John Armstrong, surveyor, to communicate with the Surveyor-General relative to the final delineation, marking, and description of the two portions of land which I have selected for the Australian Agricultural Company, at Liverpool Plains and Peel's River respectively.

I request you will be pleased to acquaint Mr. Armstrong, who is the bearer of this letter, when and in what manner he is to communicate with the Surveyor-General.

I have, &c.,

E. PARRY,

Commissioner for the Company.

Refer Mr. Armstrong to the Surveyor-General. Inform the Surveyor-General accordingly. Surveyor-General and Mr. Armstrong, 12/11/33.

No. 66.

The Colonial Secretary to Mr. J. Armstrong.

Sir, Colonial Secretary's Office, 12 November, 1833.
 Sir Edward Parry having intimated that he has authorised you to communicate with the Surveyor-General on the subject of the Australian Agricultural Company's lands at Liverpool Plains and Peel's River, I have the honor to inform you that Major Mitchell has been duly apprised, and to request that you will attend on that officer accordingly.

I have, &c.

The Colonial Secretary to Sir Edward Parry.

Sir, Colonial Secretary's Office, 14 November, 1833.
 The arrangement for effecting the exchange authorised by the Secretary of State's despatch of the 21st April, 1830, and 23rd March last, of a portion of the Australian Agricultural Company's land at Port Stephens being now in progress, I have received His Excellency the Governor's commands to refer your attention to the following extract from the original despatch above alluded to, and to request that you will be good enough to provide a fund for the purposes of religion and education, as therein mentioned, for the benefit of that portion of the first location retained at Port Stephens, viz. :—

Secondly. That a portion of each of the tracts, at least to one-fourth of such respective tract, be brought into cultivation, or be occupied by the company's flocks of sheep, herds of cattle, or other stock, within three years from the allotment of such tract; the remainder, within seven years more.

Thirdly. That the company provides on account, and, for the benefit of their original location, a fund of £300 per annum, to be immediately applied at the discretion of His Majesty's Government, either to the support of a clergyman, to be appointed by the Crown, or to such other purposes of religion and education as the Government shall think proper.

Fourthly. Should the company be placed in possession of any second location, that a similar provision of funds, viz. :—£300 per annum be made at the expiration of two years from the possession of such grant, and that another similar provision be made at the expiration of three years after the company shall have been placed in possession of any third location.

I have, &c.,
 ALEX. MACLEAY.

 The arrangement for effecting the exchange authorised by the Secretary of State's despatches of the 21st April, 1830, and 23rd March last, of a portion of the Australian Agricultural Company's land at Port Stephens being now in progress, I have received His Excellency the Governor's commands to refer your attention to the following extracts from the despatch first alluded to, and to request that you will

will have the goodness to provide a fund for the purposes of religion and education, as therein mentioned, for the benefit of the portion of the first location retained at Port Stephens, viz.:—

Secondly.—That a portion of each of the tracts, amounting at least to one-fourth of such respective tract, be brought into cultivation, or be occupied by the company's flocks of sheep, herds of cattle, or other stock, within three years from the allotment of such tract, and the remainder within seven years more.

Thirdly.—That the company provide on account, and for the benefit of their original location, a fund of £300 per annum to be immediately applied, at the discretion of His Majesty's Government, either to the support of a clergyman, to be appointed by the Crown, or to such other purposes of religion and education as the Government shall think proper.

Fourthly.—Should the company be placed in possession of any second location, that a similar provision of fund, viz., £300 per annum, be made at the expiration of two years from the possession of such grant, and that another similar provision be made at the expiration of three years after the company shall have been placed in possession of any third location.

I have, &c.,

ALEX. MACLEAY.

No. 71.

The Surveyor-General to The Colonial Secretary.

Schedule 9-34; 20 January, 1834.

Transmitting a map, showing the land proposed to be surrendered by the Australian Agricultural Company in lieu of that lately selected at Liverpool Plains, stating that this is said to have been approved by General Darling, but that no official communication has been made apprising the Surveyor-General of such approval, representing that the boundaries here proposed will exclude the lands surrendered from access to the fresh water of the Manning River, and that the total quantity retained will exceed 1,000,000 acres by 7,680 acres, and therefore recommending that that quantity be surrendered, in addition on the banks of the Manning.

The map must be inspected to render this report perfectly intelligible. The quantity of 7,680 acres does not appear to me to be a very great surplusage, being only 1/100th; but if the arrangement has not been already approved, I should certainly have recommended that the eastern boundary should have been required to be one continuous line, extending from the point where it might commence, the whole way to the Manning.

The Governor's decision.

I collect from the Colonial Secretary's report that the selection of the company has been already approved by my predecessor. If such be the fact, let the Surveyor-General be informed of it, adding, at the same time, that it is my intention to lay his observations as to the retention of the bank of the Manning before the Secretary of State, between whom and the directors of the company in London, the late exchanges have been negotiated and determined. I fully coincide, with the Surveyor-General, that the retention of the banks in the arbitrary manner which the map exhibits is very objectionable. Let me have a copy of the Surveyor-General's letter with the reduced sketch showing the whole grant and present selections of the company, for transmission to the Secretary of State. Let me also be informed whether this selection was approved of by General Darling.

Surveyor-General's Office,

6 January, 1834.

Sir,

Having applied to the agent of the Australian Agricultural Company respecting that portion of the grant at Port Stephens which is to be given up for the land lately selected at Liverpool Plains, I have received from him the accompanying map and communication, which I beg to submit for the consideration of His Excellency the Governor, with my report thereon.

I would, therefore, beg to refer to the termination of the proposed boundary on the Manning, as shown on the map, the effect of which would be to cut off all access to the fresh water of that river from the part which is to revert to the Crown.

It would appear from Sir Edward Parry's communication that the arrangement was approved of by Governor Darling, but I beg to observe that no notification of such approval has been communicated to me, and that although the map may not be considered correct, or the arrangement as final, I beg to point out that there is a considerable discrepancy between the quantities proposed to be retained and the original grant of 1,000,000 acres, as will appear from the following statement:—

Total contents of selections at	Acres.
Liverpool Plains	549,760
Total contents of lands proposed to be retained at	
Port Stephens	457,920
Total	1,007,680

which makes 7,680 acres more than the whole to be selected by the company.

I would, therefore, suggest that any surplus quantity of this kind may be taken from the portion comprising the fresh water frontage on the Manning, which evidently belongs rather to the tract to be relinquished than to that to be retained by the company. According to the quantities already calculated, the amount of lands selected and proposed to be retained exceeds 1,000,000 acres by 7,680 acres, or exactly twelve sections of square miles, which twelve sections I would, therefore, propose to take off the eastern part of the northern boundary of land to be retained along the Manning as marked in pencil on the map herewith transmitted.

I have, &c.,

THOS. MITCHELL,

Surveyor-General.

No. 72.

The Surveyor-General to The Colonial Secretary.

Surveyor-General's Office.

Sir,

4 July, 1834.

Report respecting the new selection of land by the Australian Agricultural Company.

Surveyor-General, 11th September, 1834.

I have the honor to refer to your letter, No. 33-852, in which you state that you are commanded by His Excellency the Governor to inform me that Sir Edward Parry is to be put in possession of the two selections at Liverpool Plains, as shown on the map dated in May, 1832; that care is to be taken that the extent does not exceed the 400,000 to 600,000 acres mentioned in the despatch of Sir George Murray, of which you enclosed a copy: that these lands are to be in lieu of an equal quantity of the Port Stephens' location, which is to be surrendered to the Crown when the company is put in possession of the new selections; and, further, that I am to preserve all necessary lines of communication to the country beyond, and prevent the exclusive appropriation by the company of the Peel River and the other streams; and that Sir Edward Parry has been thus informed, and requested to appoint some professional person to communicate with me on the subject.

Referring, also, to your letter, No. 33-1,057, in which you informed me that Sir Edward Parry has appointed Mr. John Armstrong to attend me professionally on behalf of the company, I have now the honor to state, for the information of His Excellency the Governor, that having seen Mr. Armstrong, I instructed Mr. Surveyor Ralfe to proceed with him to Liverpool Plains, in order to mark out the two selections, and that these lands have accordingly been marked out, and the measured descriptions thereof will be inserted in my next half-monthly abstract, in order that possession may be authorised in any way that His Excellency the Governor may think proper.

With regard to the preservation of rights of way, and of the use by the public of the Peel River and other streams, I have the honor to report that no particular lines of road have been marked out, under the impression that the "Road Act" now in force will secure such rights to the public. This, however, would be strengthened by the introduction of reservations into any deeds or letters of possession that may be issued to the company. With respect, however, to the streams, I have to remark that the Peel River, which is the principal stream, being the boundary of one of the selections, is available to the public; but I am not aware of any arrangements that could be made to give the public access to any streams included within the company's bounds.

A judicious arrangement of these selections might have been made with this view, but no control in this matter was left to me, my instructions being to measure to the company the lands marked in their map of May, 1832. My instructions, therefore, being so contradictory, I have not been able to take any measures in accordance with the views of His Excellency on this head. The extent of the location at Liverpool Plains* being now determined as 562,898 acres, immediate steps should be taken to resume a like quantity of the Port Stephens' land, particularly as Mr. Ralfe is now in that neighbourhood, and could be advantageously employed in marking it out. I have to refer to my letter No. 34-9, in which I commented upon the arrangement proposed by Sir Edward Parry; and I have now to observe that I further object to that arrangement, inasmuch as no part of the shore of Port Stephens' harbour is proposed to be surrendered.

Let.

The deed to the company must, no doubt, be a special one, and care must be taken to insert a clause.

Reservation of land for roads, without any compensation.

This was not proposed.

No deviation from the map of 1832 is permitted by His Majesty's Government, therefore, if any new selection had been required, the object could not have been effected. The instruction to the Surveyor-General (33-852) was with a view of obtaining such knowledge of the course of the streams which the company's grant on Liverpool Plains crosses, as should enable the law officers, in drawing the deed, to prevent these streams being diverted or intercepted by the company to the prejudice of the settlers lower down the Plain. This may be accomplished probably by the general wording of the deed.

The Surveyor-General's objections are of no avail. The company has been allowed to take the new grant according to its own selection, and in like manner, I consider that the King's Government contemplate the surrender by the company of such part of the old grant as it may not choose to retain.

* He means "and Peel River."

Let the matter be completed, subject to the preceding observation.—R.B., 31st July.

And as the coast possesses no harbour for vessels, I should consider the surrender of some portion of the harbour of Port Stephens was indispensable, and that justice will not be done to the Crown, or the land to be surrendered rendered available to purchasers unless this is acceded to.

I await the instructions of His Excellency the Governor.

I have, &c.,
THOS. MITCHELL,
Surveyor-General.

No. 73.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 30 August, 1834.

I have the honor to refer to my letter No. 32-327B, in which I requested the decision of His Excellency the Governor as to the land about to be surrendered by the Australian Agricultural Company at Port Stephens, and to request that this business may be expedited, if possible, in order that Mr. Kalfe, who is now in Sydney, may be instructed to return to that neighbourhood, and as he has an equipment there he could mark out the lands in question, and receive possession thereof on the part of the Crown.

I have, &c.,
THOS. MITCHELL,
Surveyor-General.

What is now the cause of delay? Mr. Tompson. Surveyor-General, as instructed on 34-4,427, 11/9/34.

No. 74.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 11 September, 1834.

I had the honor to receive and submit to the Governor your letter of the 4th July, No. 34-327, referred to in your subsequent one of the 30th ultimo, No. 34-443, relative to the commands of the Secretary of State on the subject of the locations of the Australian Agricultural Company, as communicated to you in my letter of the 16th September last, No. 33-852. With reference thereto I am directed by His Excellency to communicate to you as follows, and to request that the matter may be completed subject to these observations, viz. :—

1st. With respect to your suggestions respecting roads through the land, His Excellency observes that the deed to the company must no doubt be a special one, and care must be taken to insert a clear reservation of land for roads, without any compensation.

2nd. It was not proposed to give the public access to any streams included within the "company's bounds," as would appear to be the manner in which you understand the instructions given.

3rd. With reference to your observations that if left to your own control a judicious arrangement might have been made conformably with the preceding remark (No. 2), no deviation from the map of 1832 is permitted by His Majesty's Government; therefore, if any new selection had been required, the object could not have been effected. The instruction conveyed to you in my letter No. 33-852, was with a view to obtain such knowledge of the course of the streams which the company's grant on Liverpool Plains crosses as should enable the law officers, in drawing the deed, to prevent these streams being diverted or interrupted by the company to the prejudice of settlers lower down the plain, but this may be accomplished, probably, by the general wording of the deed.

4th. With regard to your concluding remark respecting the harbour of Port Stephens, His Excellency observes that the objections made by you are of no avail. The company has been allowed to take the new grant according to its own selection, and in like manner he considers that the King's Government contemplates the surrender by the company of such part of the old grant as it may not choose to retain.

I have, &c.,
ALEX. MACLEAY.

No. 75.

The Surveyor-General to The Colonial Secretary.

Sir, Surveyor-General's Office,
24 September, 1834.

I have the honor to acknowledge the receipt of your letter, No. 34-757, relative to the Australian Agricultural Company's lands, and in which you state that you are directed by His Excellency the Governor to request me to bring the matter to a conclusion, subject to certain observations.

I have the honor to refer to the fourth paragraph, in which you inform me that His Excellency the Governor considers the remark in my letter, 34-327, respecting the harbour of Port Stephens as of no avail, as it is evidently the intention of His Majesty's Government to permit the company to surrender what they think proper, and

If a portion of the harbour of Port Stephens can be obtained on the surrender of part of the company's grant, then it will be so much the better, and Mr. Ralfe may be instructed to make the best terms he can for the public. Surveyor-General, 14th October, 1834.

Let Colonel Dumaresq be applied to, as suggested. Colonel Dumaresq. Surveyor-General, 14th October, 1834.

I quite agree with the Surveyor-General that the addition given for a boundary should not be included in the 562,898 acres which the company are to surrender, but that it should be given up as having formed no part of the 1,000,000 acres, and being no longer required for the purpose for which it was granted. Surveyor-General, 14th October, 1834.

Map returned accordingly, 14th October, 1834.

To be open for purchase 9th October.—R.B. Surveyor-General, 14th October, 1834.

and to state that Mr. Surveyor Ralfe has given me to understand that Colonel Dumaresq, as the agent of the company, will not object to a surrender of a portion; but, however this may be, I would propose that the boundaries should be arranged by Colonel Dumaresq on the part of the company, and by Mr. Ralfe on the part of the Crown, and I have therefore the honor to request that Colonel Dumaresq may be communicated with in order that it may be understood whether he will on his own part see the surrender of the 562,898 acres, or whether Mr. Armstrong, or any other surveyor, is to be employed on the part of company, so that I may be enabled to instruct Mr. Ralfe, and that the business may be brought to a conclusion, as His Excellency wishes.

I have to observe that a considerable extent of land along the coast, viz., from Port Stephens to the mouth of Wallis's Lake, was not included in the area of 1,000,000 of acres; but, according to the documents left by Mr. Oxley, it was to be added to the grant as a boundary. It is therefore to be considered whether or not this land is to be included in the 562,898 acres to be given up. I should say not; for as the arrangement was no doubt made with a view to ulterior purposes as connected with the coast which the company now surrenders, I do not see that they are entitled to have it recognised as area in the pending settlement.

When the pleasure of His Excellency the Governor on these points is made known to me, I have to request that the engraved map which was transmitted in my letter. No. 34-9, may be returned.

The land in question being surrendered to the Crown, it is to be considered whether it is to be thrown open for purchase under the existing regulations.

I conclude that this will be done; but I beg to be informed officially on the subject, in order that I may make the usual arrangements to have the available land surveyed and mapped for sale in such a manner as may enable me to report on any application for purchase that may be made.

I have, &c.,
(For the Surveyor-General)
S. A. PERRY,
Deputy Surveyor-General.

No. 76.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 14 October, 1834.

With reference to your letter of the 24th ultimo, No. 34-491, in reply to mine of the 11th, No. 34-757, relative to the exchange of lands between the Australian Agricultural Company and the Government, I am directed by His Excellency the Governor to communicate to you as follows, viz. :—

1. If a portion of the harbour of Port Stephens can be obtained on the surrender of the part of the company's grant there, it will be so much the better, and Mr. Ralfe may be instructed to make the best terms he can for the public.

2. Colonel Dumaresq has been applied to, as suggested, to state whether he himself or what other person will see the surrender, on the part of the company, of the land to be given up at Port Stephens, and his reply shall be duly communicated to you when received.

3. With respect to the land along the coast, extending from Port Stephens to Wallis's Lakes, stated to be exclusive of the 1,000,000 acres, but apparently intended to have been added to the grant as a boundary, His Excellency quite agrees with you that this land should not be included in the 562,898 acres to be given up by the company, but that it should be surrendered, as having formed no part of the 1,000,000 acres, and being no longer required for the purpose for which it was intended.

4. The land to be surrendered by the company is to be open for purchase.

At the same time, I do myself the honor, agreeably to your request, to return to you the letter of Sir Edward Parry, and the engraved map of the company's land at Port Stephens therein enclosed, which accompanied your letter to me of the 6th January, No. 34-9.

I have, &c.,
ALEX. MACLEAY.

No. 77.

The Colonial Secretary to Colonel Dumaresq.

Sir,

Colonial Secretary's Office, Sydney, 14 October, 1834.

With a view to the completion of the exchange of lands between the Australian Agricultural Company and the Government, as sanctioned by the Secretary of State, I have the honor, by the direction of His Excellency the Governor, to inquire whether you will yourself on the part of the company, see the surrender of the land to be given up at Port Stephens, or whom, if not, you will authorise to perform this duty, in order that the officer deputed by the Crown may have a clear understanding with whom he is to communicate.

I have, &c.,

ALEX. MACLEAY.

No. 78.

Colonel Dumaresq to The Colonial Secretary.

Sir,

Port Stephens, 10 November, 1834.

I have the honor to acknowledge receipt of your letter of the 14th ultimo, and beg to inform you that I hope myself to be able to superintend the surrender of the land to be given up in this neighbourhood with a view to the completion of the exchange alluded to in your communication above mentioned.

I have not yet been able to obtain from the surveyor employed on the part of the Australian Agricultural Company to measure the grants at Liverpool Plains, and on the river Peel, the necessary reports and plans to enable me to communicate with the Government on the subject, and I am at present ignorant of the quantity of land comprised in these two locations. This delay, which I have been unable to avoid, has been extremely mortifying, but Mr. Armstrong has promised that he will furnish these documents, in the course of the present month.

I have, &c.,

H. DUMARESQ,

Commissioner of Australian Agricultural Company.

Have these yet been furnished? If not, write again. Mr. N.,—No report of the land to be surrendered has been received either from Colonel Dumaresq or the Surveyor-General. Commissioner, Australian Agricultural Company, 20/2/35.

No. 79.

The Colonial Secretary to The Commissioner of the A.A. Co.

Sir,

Colonial Secretary's Office, Sydney, 20 February, 1835.

Adverting to your letter of the 10th November, I do myself the honor to request that, if possible, you will now state at what time you will be prepared to complete the arrangements respecting land yet open between the Government and the Australian Agricultural Company.

I have, &c.,

Sir,

Colonial Secretary's Office, 23 June, 1836.

With reference to your letter of the 2nd February, No. 36-80, relative to the exchange of lands between the Australian Agricultural Company and the Government, I have the honor, by the direction of the Governor, to request that you will state to me, for his information, the amount of excess above 1,000,000 acres in the first selection of the company, that His Excellency may see what is to be obtained in return for the 27,538 acres proposed by you to be thrown into the present grant.

His Excellency does not approve of giving any land at Liverpool Plains in exchange of the harbour of Port Stephens, as recommended by you, or making any further exchanges with the company.

On receiving the information now required, His Excellency will decide on the notification proposed by you respecting the lands surrendered by the company.

I have, &c.,

A. MACLEAY.

No. 81.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 10 August, 1836.

In attention to your letter of the 23rd June, 1836, No. 36-500, in which you refer to the letter No. 36-80, of the 2nd February, relative to the exchange of lands between the Australian Agricultural Company and the Government, and to state that you are directed by His Excellency the Governor to inquire, for his information, the amount of excess above the 1,000,000 acres in the company's first selection, that His Excellency may see what is to be obtained in return for the 27,538 acres proposed to be thrown into the present grant; and, moreover, that His Excellency does not approve of giving any land at Liverpool Plains in exchange for land on the harbour of Port Stephens, as recommended, or making any further exchange with the company, I have the honor to request that you will represent to His Excellency the Governor that the information required cannot be obtained without a correct resurvey of the portion surrendered, and as Mr. Ralfe is removed from Port Macquarie, and the measurements

measurements of lands applied for are quite as much as one surveyor can attend to, so large a survey cannot at the present moment be undertaken, nor do I apprehend that His Excellency would desire it even were there less to do, when I explain, as stated in my letter No. 36-SO, 2nd February, 1836, that the excess must be proportionally equal in the portions retained and surrendered. The 1,000,000 acre grant is nearly a square. The boundary on the north is the Manning River, and it is the erroneous fixing of this river on the original map of the company's grant, prepared under the direction of Mr. Oxley, that the error in the area, if any, has originated. The survey on the coast side was made by Mr. Ralfe, that on the land side by Mr. Florance, and when the two surveys were put together a difference of 4 miles in the position of the Manning was found, the survey of Mr. Florance being so much longer than that of Mr. Ralfe, which is accounted for by the unevenness of the interior. Mr. Ralfe's survey, being on one level, was considered the most accurate, and adopted in the construction of the map before alluded to, from which the area was calculated; but it has been found, from the recent survey by Mr. Ralfe, that the medium would have been nearer the truth—at all events, he makes the Manning River 2 miles further north than it was laid down in the said original map, consequently there is so much of excess throughout the whole of the northern boundary, and therefore the excess in the portion retained as well as that surrendered must be pretty equal. Had Mr. Ralfe implicitly attended to instructions, this question would not have arisen, for apprehending that the area of the 1,000,000 acres had been but loosely calculated, that there might be either an excess or a deficiency, but with which I consider the Crown had nothing to do, the appropriation of the 1,000,000 grant being a fixed arrangement. The instructions to Mr. Ralfe were to cut of from the 1,000,000 acres an area equal to that located at Liverpool Plains, neither more nor less, and this, it appears to me, is all that the Government were entitled to; however, I feel assured that there is no deficiency in the area of the quantity surrendered.

In conclusion, I would beg to observe with reference to the proposed surrender of land on the harbour of Port Stephens, that Colonel Dumaresq has intimated that he is willing to take land at Liverpool Plains to the north of the Peel's River instead of to the southward thereof, so as to connect the two locations as at first proposed, which I consider objectionable. Perhaps under the circumstances the locations of the lands by the Crown, by sale on the borders of so fine a harbour as Port Stephens, may be considered more desirable than its being left in its present useless and uncultivated state, unless indeed it be the intention of the company to sell or to lease the land in this part of their grant.

I have, &c.,

S. A. PERRY,
Deputy Surveyor-General
(In the absence of the Surveyor-General).

No. 82.

The Colonial Secretary to Colonel Dumaresq.

Sir,

Colonial Secretary's Office, 26 August, 1836.

Referring to your letter of the 18th instant, I have the honor, by direction of His Excellency the Governor, to inform you that the Commanding Royal Engineer has been accordingly instructed to proceed in the quarrying on the Australian Agricultural Company's land at Newcastle.

I have, &c.,

A. MACLEAY.

No. 83.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, 29 December, 1836.

In transmitting to you the accompanying letter from the Commissioner for the Australian Agricultural Company, on the subject of a proposed exchange of a certain portion of their land in the neighbourhood of Port Stephens for other land to be added to their grant at Tamworth, for the purpose of adjusting the boundaries of their estates, I have the honor, by the direction of His Excellency the Governor, to request that you will furnish for his information a tracing of Port Stephens showing what part of its shores is now the property of the company, and what vacant Crown land, or alienated to others than the company.

Upon this tracing His Excellency is desirous to be shown the boundaries of the land lately returned by the company in lieu of the portions on Peel River and Liverpool Plains, and to be informed what steps have been taken for the putting up to sale the land so returned.

I have, &c.,

ALEX. MACLEAY.

No. 84.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 30 January, 1837.

In returning to you the accompanying letter from the Commissioner of the Australian Agricultural Company, transmitted to me by yours of the 29th ultimo, No. 36-1,089, for my report upon the subject of a proposed exchange of a certain portion of their land in the neighbourhood of Port Stephens for other land to be added to their grant of Tamworth, for the purpose of adjusting the boundaries of their estates, and calling for a tracing of Port Stephens, I have the honor to transmit herewith the tracing required, showing what part of the shores is now the property of the company edged green. The vacant Crown lands left blank, the alienated lands coloured green, and the Church and School land edged yellow. The blue boundaries upon the map furnished by the Commissioner appears, according to the sections, to comprise about 94,000 acres, and considering its locality only with reference to the objects mentioned in Colonel Dumaresq's letter, I should suppose to be of a value equal to land on the Peel, as it contains many spots upon which it would be highly desirable to form villages, and there is little doubt that the retention

18 December,
1836.
Original to be
returned.

Originals re-
turned. Sketch
unelosed.

retention of this land by the company has had considerable effect in retarding settlement of the northern parts, as the great tract of country between it and the Manning may be said to be inaccessible for want, of complete command of the harbour of Port Stephens, and of a land road by way of Clarence Town which the acquisition of the land now proposed to be ceded would afford. Having been to the settlement in a vessel of only 12 tons burthen, I am quite aware that the navigation of Port Stephens is somewhat intricate, owing to the number of shoals, but Sir Edward Parry, who made a careful survey of the harbour, assured me that there are channels by which vessels of considerable burthen may be taken very near the company's settlement. In this case it would seem that some facility in shipping produce might be afforded by the reservations of sections Nos. 1,637, 1,656, 1,659, and 1,588, and 1,589, to be laid out as villages, although the land is generally understood to be of inferior quality. Many patches on the borders of the swamps, and on the banks of the Myall River, might be found suitable for small farms. Under all the circumstances, therefore, I consider that in the actual state of the company's possessions on the Peel and at Port Stephens, the proposed exchange (while doubtless the company would be immediately benefited) would be advantageous to the country.

In replying to the concluding part of your letter, I have the honor to acquaint you, for the information of His Excellency the Governor, that although the duty of the surveying the land retained by the company for the purpose of putting it up to sale, has devolved on the Port Macquarie surveyor, no progress has yet been made in it, owing partly to the pressure of business at Port Macquarie itself, and partly to the few applications that have been made for land there, in consequence of the difficulty of access as above explained; and if the Commissioner's proposal be acceded to, it will be necessary to increase the surveying force in that neighbourhood. I would, therefore, in such cases propose to send Mr. Assistant-Surveyor Ogilvie there, for the purpose of surveying the part already surrendered; and, being on the spot, he may be instructed to perform what is required as soon as His Excellency's decision shall have been communicated to me; and as the survey of the land on the Peel by the surveyor of the north-west district would interrupt the measurement of lands already applied for at the Upper Hunter, I see no other means of accomplishing it in the present reduced state of this Department than by offering it as a private job, the expense attending the execution of which, at about 25s. per mile, would be £36 5s. and expenses.

It may be further observed with respect to the steps taken for the putting up to sale the land returned by the company, that in my letter, No. 36-80; it was proposed to announce the opening for sale in the *Gazette*, and your letter, No. 36-500, in reply states that on receiving the information required thereby His Excellency would decide. No decision has, however, been communicated to me, notwithstanding the information called for was furnished on 10th August last, No. 26-487, nor have the applications of a Mr. Stacey and a Mrs. Cann, for lands in the surrendered part, been advertised, although the approval of their selections has been notified and inquiry made as to when they can be measured.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

No. 85.

Colonel Dumaresq to The Colonial Secretary.

Sir,

Port Stephens, 17 April, 1837.

By a recent communication from the governor, and directors of this company, I have been requested, with much earnestness, to solicit the completion of the deeds of grant of the several locations of land made to the Australian Agricultural Company, viz. :—

- The location at Port Stephens.
- „ on Peel River.
- „ on Liverpool Plains.
- Coal grant and town allotments at Newcastle.

Should any further steps be requisite in order to obtain these important documents, and you will do me the favour to apprise me thereof, I will lose no time in adopting them.

I have, &c.,

H. DUMARESQ,

Commissioner for the Australian Agricultural Company.

The Commissioner of the Australian Agricultural Company urges the speedy preparation of the title deeds.

In order to do this it will be necessary—

1. To define positively the several portions of land which the company are to have, respecting which a separate memorandum is submitted.
2. To procure from the Attorney-General a form embodying so much as may be requisite of their charter of the reservations of roads, &c., mentioned in the correspondence with the Surveyor-General, and of their surrender of the lands before selected by them, and now exchanged, or about to be so.
3. To obtain the report of the Attorney-General (and act upon it), whether the Governor has power to execute a deed or grant under his general commission and instruction, or whether any special powers are required under the following clause, viz. :—“Firstly. That all grants of land in the said

This has been done. See memorandum, Colonial Secretary, 5th July, 1837.—R.B.

Let this be done. I have written all that occurs to me as to the reservation of roads in a minute on 3d-4,427.—R.B.

Let this be done.—R.B., 3rd August, 1837.

Attorney-General, 5th September, 1837.

said Colony which may be made to the said company by us, our heirs, and successors, shall be passed under the great seal of the said Colony, in pursuance of such warrants under our Royal Sign manual, as may for that purpose be issued by us, through one of our principal Secretaries of State."

The foregoing remarks apply to the general grant.

The papers respecting the coal grant will be submitted as soon as collected.

The Commissioner also informed of the case, 14/9/37.

No. 86.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, 19 June, 1837.

Description enclosed.

With reference to your letter of the 16th instant, No. 37-404, requesting, by direction of His Excellency the Governor, that I will furnish you with a general outline of the land surrendered by the Australian Agricultural Company for notification in the next *Gazette*, expressly describing that on the waters of Port Stephens, I have the honor to state that the description of the land absolutely surrendered has already been forwarded in my letter, No. 36-80, of the 2nd February, 1836, is forwarded herewith, the arrangement being as general as any other that could be prepared.

With respect to the land on the waters of Port Stephens, I beg leave to point out that no land on Port Stephens has been surrendered by the company, nor have I been favoured with any reply to my last communication on this subject, dated 30th January last, No. 37-57.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

[Enclosure.]

Description of the boundaries of the lands surrendered by the Australian Agricultural Company on the coast between Port Stephens and the Manning River.

Bounded on the east by the sea coast from the north head of Port Stephens to the Manning River: on the north by that river to the company's north-east corner, a few miles above the head of navigation of that river; on the west by the company's lines south 2 miles and 52 chains; west 7 miles; south 39 miles; and on the south by a line east 11 miles and 56 chains to the Myall Lake; and by that lake and the Myall River to Port Stephens.

No. 87.

The Colonial Secretary to The Crown Solicitor.

Sir,

Colonial Secretary's Office, 7 September, 1837.

With reference to my letter of the 21st January, 1836, requesting that you would obtain the opinion of the Attorney-General whether the coal-mines at Newcastle granted to the Australian Agricultural Company are contemplated in the charter of the company, I do myself the honor by the direction of the Governor, and request that you will immediately obtain the required opinion, and to point out to you the great inconvenience to the public services which results from the delay which has occurred.

I have, &c.,

E. DEAS-THOMSON.

No. 88.

The Colonial Secretary to The Commissioner of the A.A. Co.

Sir,

Colonial Secretary's Office, 14 September, 1837.

In acknowledging the receipt of your letter of the 17th April, I do myself the honor to inform you that the opinion of the Attorney-General has been called for, whether under the charter of the Australian Agricultural Company the Governor has power to execute the grants of land made to the company without special instructions from home.

When this question is decided no further time will be lost in doing what may be necessary upon the subject.

I have, &c.,

E. DEAS-THOMSON.

No. 89.

The Colonial Secretary to The Attorney-General.

Sir,

Colonial Secretary's Office, 15 September, 1837.

In transmitting to you the accompanying copy of the charter of the Australian Agricultural Company, I do myself the honor, by the direction of His Excellency the Governor, to request your opinion whether he has power to execute the deed of grant of the lands authorised to be made to the company under his general commission and instruction, or whether any special powers are acquired under the following clause in the charter, viz. — "Firstly. That all grants of lands in the said Colony which may be made to the said company by us, our heirs and successors shall be passed under the Great Seal of the said Colony in pursuance of such warrants, under our Royal Sign Manual, as may for that purpose be issued by us through one of our principal Secretaries of State."

I have, &c.,

E. DEAS-THOMSON.

1st November 1824. To be returned.

No. 90.

No. 90.

The Attorney-General to The Colonial Secretary.

Sir,

Attorney-General's Office, 7 October, 1837.

I have the honor to acknowledge the receipt of your letter of the 8th ultimo, enclosing a copy of the charter of the Australian Agricultural Company, and requesting my opinion whether His Excellency the Governor has power to execute the deed of grant of the lands authorised to be made to the company, under his general commission and instructions, or whether any special powers are required.

Enclosure
returned.
His Excellency
Commission
and copy of
instructions
returned
herewith.

In reply, I have the honor to state that I am of opinion a special power is required to authorise the Governor to execute and issue a deed of grant to the Australian Agricultural Company. The Governor's commission empowers him "to grant to any person or persons upon such terms and under such services and acknowledgments to be thereupon reserved unto us according to such instructions as shall be given to you under our sign manual." The 26th clause in the King's instructions is as follows:—"And it is our pleasure that all the waste and uncleared lands within our said territory which shall remain after making such reservations as before mentioned for the Public Service, shall be granted in our name, and in our behalf, to private persons willing to effect settlement thereupon, and subject nevertheless to the several rules and conditions hereinafter particularly mentioned"

It is clear from the foregoing clause, as also the 29th clause, which directs grants to be made "to such person or persons, their heirs and assigns" that the commission and instructions of the Governor do not authorise him to grant lands in pursuance of the charter of the Australian Company, the conditions of which are so peculiar; for instance, the charter provided that lands granted shall be held in mortmain, and shall be inalienable.

I am of opinion that the clause of the charter referred to requires a warrant under the King's sign manual for the express purpose of authorising a deed of grant to the Company.

I have, &c.,

JOHN H. PLUNKETT,

Attorney-General.

Let me have a copy of the Attorney-General's opinion, for transmission to the Secretary of State, with an application for the required authority, and inform Commissioner of Australian Agricultural Company of the state of the case.—16 October.

Mr. N.,—Immediate.—17 October. The Crown Solicitor requested to expedite opinion of Attorney-General whether the Newcastle lands come within the meaning of the charter.—2/11/37.

No. 91.

The Colonial Secretary to The Crown Solicitor.

Sir,

Colonial Secretary's Office, 2 November, 1837.

In reference to my letter of the 21st January, 1836, No. 36-51, requesting the opinion of the Law Officers as to whether the lands given to the Australian Agricultural Company at Newcastle are to be considered as granted under the charter of that body, I have the honor to request that you will obtain the opinion of the Attorney-General on the subject as soon as possible.

I have, &c.,

E. DEAS-THOMSON.

No. 92.

Memo. by Governor Gipps.

24 October, 1838.

A DESPATCH from Lord Glenelg, bearing date the 7th April, 1838, No. 100, was sent on the 28th August last to the Colonial Secretary's Office.

This despatch directed that grants under the Great Seal of the Colony should be made to the Australian Agricultural Company, the drafts of such grants to be made by the Law Officers of the Crown and forwarded to Lord Glenelg.

Have these drafts been received?

If not, write to the Crown Solicitor and say that I must have them in fourteen days.

G.G.

Received 31st October, 1838. Order to be returned by 7th November.—F.F.

No. 93.

The Colonial Secretary to The Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 29 October, 1838.

I do myself the honor, by the direction of His Excellency the Governor, to request, with reference to the first clause of the Australian Agricultural Company's charter, which directs that all grants of lands made to the company shall be passed under the Great Seal of the Colony, in pursuance of such warrants under the sign manual as may for that purpose be issued, that you will prepare and obtain the approval of the Attorney-General to such instruments as may appear best adapted to give effect to this provision in order that the same may be forwarded to the Home Government.

The extent of land authorised by Her Majesty's Government in pursuance of the said charter comprised about 1,000,000 of acres, and was originally located in one spot at Port Stephens, but, in consequence of the very inferior quality of a portion of the selection, the Secretary of State was pleased to allow an exchange of part for an equal extent elsewhere, either in one or two places, on the conditions expressed in the despatch, a copy of which you will find amongst the accompanying papers.

180—G

In

In accordance therewith, the company now retain of the original selection at Port Stephens 464,640 acres, and has taken in two distinct situations the equivalent for the portion to be surrendered—namely, 249,600 acres at Liverpool Plains and 313,298 acres on the Peel River, making in the aggregate 1,027,538 acres of land; and, in preparing the required instruments, I have to observe that, independently of the conditions mentioned in the charter, the grant is to contain the further reservations recommended by the Surveyor-General respecting roads, &c., as detailed in his letter of 4th July, 1834, No. 34-327, and it may likewise be proper that the land given up by the company at Port Stephens should be formally surrendered to the Crown, and you will accordingly have this done by the same instrument or separately, as may be thought best.

I have also to refer you to my letters of the 21st January, 1836, and 7th September, 1837, respecting the land subsequently given to the company for the purpose of working the coal-mines at Newcastle, and to request that if contemplated by the charter that they may be comprised in the grant, provided you see no objection, the requisite provisoes being inserted therein with reference to the letter addressed to the Commissioner of the company of date the 25th June, 1830, and the letter of the Mineral Surveyor of 10th February, 1831.

Any further information you may require respecting the lands, I have to request you will obtain from the Surveyor-General; but I am to add that His Excellency the Governor will expect the proper instruments to be ready for transmission home within fourteen days from this date.

I have, &c.,

E. DEAS-THOMSON.

[Enclosure.]

LIST of documents transmitted to the Crown Solicitor by Colonial Secretary's letter of 29th October, 1838, No. 38-514.

1. Memorandum of His Excellency the Governor, dated 24th October, 1838.
2. M. 4,386, No. 100, dated 7th April, 1838.
3. Memo. of Colonial Secretary on ditto, dated 24th September and 10th October, 1838.
4. Memo. of Colonial Secretary on M. 4,386, dated 8th October.

No. 94.

The Secretary of State for the Colonies to The Governor, Sir George Gipps.

Sir,

Downing-street, 12 January, 1839.

I transmit herewith, for your information and guidance, copies of a correspondence which has taken place with the Australian Agricultural Company relative to the three questions of their claim to the exclusive right of working the coal-mines in New South Wales for a given term; their application for a further exchange of their lands, and their convict servants.

On the first point I shall again communicate with you in answer to your despatch No. 84 of the 7th June, 1838, which I now acknowledge, when I shall have received the final report of the Law Officers of the Crown.

I am, &c.,

GLENELG.

C.O., 7th December, 1833.
A.A. Co., 22nd December, 1833.
A.A. Co.

C.O., 17th Jan., 1839.
For enclosures, see No. 97.

No. 95.

Memo. by Governor Gipps.

3 May, 1839.

Australian Agricultural Company's Deeds of Grant.

I CANNOT conceive that the drafting of these deeds ought to occupy any man more than a few hours.

The recital of the charter (if it be necessary) would be only clerks' work, and the incorporation of the conditions of the charter with the grant would appear to me to be all that the person drafting the deed would have to look to.

Three deeds might be required—that is to say, one for each of the portions at Port Stephens, Liverpool Plains, and Peel's River—though I do not see why one deed might not convey them all.

A separate conveyance will, of course, be required for the lands at Newcastle.

G.G.

No. 96.

No. 96.

The Secretary of State for the Colonies to Governor Sir George Gipps.

Sir,

Downing-street, 3 July, 1839.

To Mr. Brown-
rigge, 27th
February, 1839.
From J.C.B.,
30th May, 1839.
To Mr. J.C.B.,
2nd July, 1839.

With reference to your despatch No. 97, of the 4th July, 1838, and to Lord Glenelg's despatch No. 9, of the 12th January, 1839, relative to the claim of the Australian Company, to the exclusive right of working the coal-mines in New South Wales, and to their supply of convict and free labour, I now transmit to you for your information and guidance, copies of a further correspondence with the company on those subjects.

As the further report of the Crown lawyers goes to confirm their former opinion against the claim of the company in regard to the working of the coal-mines at Port Phillip, it will rest with you to take such measures as may appear most advisable for securing to the settlers at Port Phillip the benefit of those mines.

I am, &c.,

NORMANBY.

[Enclosures]

Sir,

Downing-street, 27 February, 1839.

With reference to Sir George Grey's letter of the 17th ultimo, I am directed by the Marquis of Normanby to acquaint you that the Law Officers of the Crown having again had under their consideration all the correspondence relating to the question of working the coal mines in New South Wales, together with so much of your letter of the 22nd December last, as related to that subject, have now reported that the additional information brought before them does not in any way affect the opinion which they formerly adopted, and which was communicated to you in the letter above adverted to, of the 17th ultimo. They observe that the letter written on the 31st July, 1828, by direction of Sir George Murray to the company does not appear to be in any material respect different from the despatch of the same date from Sir George Murray to General Darling.

They add that, although the only circumstance particularly mentioned in the letter and despatch, of the 31st July, 1828, as likely to induce the Home Government to interfere with the monopoly of the company, is the sale of coal at an exorbitant price, yet the power reserved is quite general and might be exercised whenever any circumstances should render it necessary; and that, in truth, unless the company mean to say that they will supply coal in abundance at Port Phillip from their mines at Newcastle at the same price at which coal might be raised and sold from the mines supposed to exist in the neighbourhood of Port Phillip, the Law Officers think the very case contemplated by the despatch of the 31st of July, 1828, will have arisen.

The excess of cost occasioned by the carriage of the coal 700 miles will make the price at Port Phillip an exorbitant price, within the fair meaning of the parties when they were settling the terms of the agreement in July, 1828.

I am, &c.,

HENRY LABOUCHERE.

My Lord,

Australian Agricultural Company, 12, King's Arms Yard, 30 May, 1839.

In obedience to your Lordship's wishes, as expressed in the Under Secretary for State's letter of the 3rd instant, I will endeavour to explain the object of the interview with which your Lordship favoured a deputation of the Directors of the Australian Agricultural Company on the 11th March last, in reference to the question of convict labour.

To make the company's right to receive convicts from the Government (as long as they have the power to grant them) more clear to your Lordship, it will be perhaps advisable to state, shortly, the origin of the Australian Agricultural Company and the promises of Government, by which they were led to undertake a great national object, namely, to cultivate, on a large scale, a breed of sheep, producing the finest wool for the cloth manufacturers of this country.

At that time the company was informed by Lord Bathurst, the Colonial Secretary of that day, that every convict cost the Government £20 annually, and that if the company would undertake to employ from 1,400 to 2,000 convicts annually, the Government would grant the company a charter, and also 1,000,000 acres of land, to encourage the breed of fine-woolled sheep; and also to induce the company to employ the largest number of convicts, it was inserted in their charter that the quit-rent on the 1,000,000 of acres should be paid off by the labour of a certain number of convicts, or by money.

The amount of the payment, if made in money, was about £22,000, but if made by convict labour, the company must prove that they had saved the Government £100,000 before the quit-rent would be considered as satisfied and paid, valuing the annual cost of each convict at £20 per annum. All this is fully explained in the company's charter.

4. In the earlier years of their undertaking the company do not appear to have experienced any material difficulty from the want of convict labour; but in the year 1831, Sir Edward Parry, the then Commissioner of the company, brought the subject before Sir Richard Bourke, and from that time, with the exception of part of the year 1837, when 222 convicts were assigned to the company for their agricultural establishment, in accordance with Lord Glenelg's instructions, the company have not had a sufficient number of convicts to meet their increasing want of labour.

5. In the year 1835, the Governor and Council in Australia came to the resolution of making a scale for apportioning convicts, which should be applicable to the Colony generally, in which scale the company were limited to 350 for their agricultural purposes, and for their colliery, to as many as would be sufficient to afford a liberal supply of coal to the whole Colony. The company appealed against the regulation of the Governor and Council, stating the insufficiency of the supply of convicts, and also their peculiar claims to be provided with convict labour, as sanctioned by their charter.

After much consideration, Lord Glenelg acknowledged the justice of the company's claim, and gave directions to the Governor to increase the number of their agricultural convicts to 500, and for their colliery, to give as many as should be required. And he added, that when by the increase of their tribes more convicts might be wanted, the company might apply to him as heretofore.

6. It may be here observed that the company have a claim for convicts, which no private settler has, because they undertook to employ a large number when their success was very doubtful, and because they expended a large sum of more than £300,000 to the great and permanent advantage of the Colony, when there were many chances that the speculation might entirely fail.

7. The number of convicts on the agricultural establishments of the company by the latest advices appear to have been about 440, instead of 500, the number ordered to be assigned to the company by Lord Glenelg. The company's Commissioner has informed the directors that the wants of the company in this respect are very pressing, and that, although he had frequently written to the local Government for convicts to supply the place of those constantly leaving the company's service, either by becoming free or obtaining tickets-of-leave, no notice has been taken by the Government of such applications.

8. In so far as the object contemplated by the Government in the grant of our charter is concerned, the undertaking has entirely succeeded.

The breed of fine-woolled sheep has been introduced and extended over the whole Colony; nor has the introduction of suitable breeds of kine and horses been neglected, the company having now nearly 100,000 sheep, besides large herds of cattle, amounting to about 4,000, and 450 horses and brood mares, and to spread our breed of fine-woolled sheep, oxen, and horses.

We have for some years established an annual public sale at Maitland, where thousands are sold to the settlers, by whom they are sought after, and much prized; while, on the other hand, the interests of the proprietors of the company and their reasonable expectations are yet to be realised, as your Lordship will see and admit, when I state that for the first ten years of the existence of the company the proprietors obtained no returns whatever in the shape of dividends on their expended capital, and that for the last five years the dividend has only been at the rate of 2½ per cent. per annum.

9. The directors cannot therefore view, without deep anxiety, any arrangements which may have the effect, after fifteen years of persevering labour and a liberal expenditure of capital, of depriving them of that assistance in convict labour,

labour, on the faith of which the company embarked in this great undertaking. At the same time we are prepared to admit that it would be neither becoming, nor is it our wish to press our claims in this particular in opposition to any general plan with regard to Australia which may have for its object either the immediate or gradual cessation of the transportation system.

10. In such a case we must be and are prepared to submit, however disappointing to our hopes and opposed to the expectations held out to us by the Government, to whatever Her Majesty's Government may deem of general good to the Colony; but we submit to your lordship, on the grounds I have briefly stated, that our charter justifies our expecting that so long as convicts are sent to the Colony our wants will be attended to, after those of the Government are provided for, in preference to that of private settlers, who have not, as we have, come under compulsory engagement to employ convicts when it was considered for the advantage of Government that we should be so bound.

11. With the foregoing short statement of the grounds on which our claims to the consideration of the Government are founded, I will only further state the points on which, during the interview alluded to at the commencement of this letter, we desired to entreat your lordship's attention and consideration.

12. Contemplating the heavy loss we should sustain were we at any time left without a competent establishment to look after our extensive and increasing flocks, and the necessity for our having ample time to provide against any arrangement that may cut off our supply of convict labour, we are desirous to know, as far as it may be proper to admit us to that knowledge, what are the plans of the Government with respect to the transportation system hitherto pursued, and I am encouraged to press for early information on this point, in consequence of your lordship having, at the interview already alluded to, admitted that such knowledge was of obvious and vital importance to us, and that we ought to have it.

13. If the system is to be discontinued, and we are not to receive any further supplies of convict labour, it will then be our duty to make the best arrangements we can to supply the place of the convicts now assigned, whose numbers are rapidly diminishing from the ordinary causes of tickets-of-leave, expiration of sentences, &c., &c.; but in that case I venture to press the claim of the Australian Agricultural Company to receive that portion of encouragement in sending out free labourers now granted to private settlers. If, on the other hand, the transportation system is to continue as heretofore, or in any modified shape, I have already stated the grounds on which the Australian Agricultural Company lay claim to peculiar consideration, and I hope I am not asking too much on its part when I respectfully request your lordship to confirm and enforce the orders of Lord Glenelg for completing the supply of convicts for our agricultural establishments to 500, and that when a further supply is required, we may have the privilege of applying to the Secretary of State as heretofore.

14. With regard to the colliery question I have already gone into much detail in my letter to Lord Glenelg, dated 22nd December, 1838, to which I venture to entreat your lordship's reference, as containing the grounds on which the Australian Agricultural Company found their claim to be protected by the Government from competition as far as the grant of leases or the aid of convict labour is concerned, to any other company or individual.

15. In addition to what is stated in my letter above mentioned, I would only further press upon your lordship's consideration that we undertook the working of the colliery at the express desire of the Government, and that our main inducement to do so was the promise made in the Under Secretary of State's letter of the 31st July, 1828, that during thirty-one years we should be protected from competition in the manner I have stated. Eleven years of that term have expired, and the company have yet to look for reimbursement of the heavy outlay they have incurred in placing the collieries at Newcastle in a condition to meet the public demand.

16. These points, as well as what is urged in my letter to Lord Glenelg of December last will, we doubt not, receive the attention of your lordship, and we are satisfied that the application to work coal mines at Western Port, to which I have adverted in my former letter, will be disposed of by your lordship with that consideration for the rights of the Australian Agricultural Company which our case may appear equitably to merit.

I have, &c.,
J. S. BROWNRIGG,
Deputy Governor.

No. 97.

The Secretary of State for The Colonies to Governor Sir George Gipps.

(Received by the "Ferguson," 25th July, 1839).

Sir,

Downing-street.

I transmit to you herewith, for your information and guidance, copies of a correspondence which has taken place with the Australian Agricultural Company relative to the three questions of their claim to the exclusive right of working the coal-mines in New South Wales for a given term, their application for a further exchange of their lands, and their convict servants.

On the first point I shall again communicate with you in answer to your despatch No. 84, of the 7th of June, 1838, which I now acknowledge, when I shall have received the first report of the Law Officers of the Crown.

I have, &c.,
GLENELG.

[Enclosures.]

(Enclosed in Lord Glenelg's despatch, No. 9-1,839).

Sir,

Downing-street, 7th December, 1838.

I am directed by Lord Glenelg to acquaint you that since the date of my letter to you of the 5th ultimo His Lordship has received from the Law Officers of the Crown a report of their opinion on the question whether the terms of the arrangement made by the Government in the year 1828 with the company for working the coal-mines in New South Wales precludes Her Majesty, in point of law, from the right of granting coal-mines, or from the right of working coal-mines in any part of that Colony.

The Attorney and Solicitor-General have reported it to be their opinion that the arrangement in question does not appear to them to impose any restriction whatever on Her Majesty's right of working coal-mines in the Colony, that it does prevent Her Majesty from granting coal-mines to other persons, to be worked by them without the previous sanction of the Secretary of State, but that, with such sanction, Her Majesty may, without at all infringing the terms of the arrangement, make a grant of land, including the coal-mines, or authorise any person to work coal-mines reserved to Her Majesty.

They further observe that the language of the 10th paragraph of the letter, addressed by the Colonial Secretary of New South Wales to Sir Edward Parry, on the 25th of June, 1830, is certainly somewhat ambiguous, but that, in its grammatical construction, the consent of the Secretary of State may be extended to authorise the grant of coal-mines as well as the use of convict labour, and that as the evident intention was to enable the Secretary of State to prevent the possible mischief of a monopoly in the company, and it might be impossible to carry out that intention without a grant of mines on which convict labour might be employed, they think that construction must be adopted which refers the consent of the Secretary of State to both members of the sentence.

Having communicated this opinion to the company, Lord Glenelg directs me to add that he will be happy to receive a deputation of the directors on any day next week, at 1 o'clock.

I have, &c.,
GEORGE GREY.

My Lord,

Australian Agricultural Company, 12, King's Arms Yard, 22 December, 1838.

On the part of the directors of the Australian Agricultural Company, I beg leave to lay before your lordship the annexed copy of a letter addressed by the Colonial Secretary at New South Wales to our Acting Commissioner, Mr. Ebsworth, under date the 28th of June last, and of Mr. Ebsworth's reply of the 7th July following, which have recently reached us.

In the first-mentioned letter it is stated that "the attention of the Governor having been drawn to the alleged fact of black or aboriginal women frequently living, and also travelling about the country, with assigned servants of the company," the Governor will, if the fact be well authenticated, be under the necessity of withdrawing the whole of the men in the district of the company's possessions where it occurs.

We entreat your lordship's serious attention to this letter, and to the reply of our Acting Commissioner.

In the absence of any specific case or cases, either as to time, place, or person, we can only deal with the accusation of the Governor in the same general way in which it is made. We believe this to be the first complaint of the kind that has been brought against our management of our assigned servants.

We are prepared to prove to your lordship's satisfaction that our unceasing anxiety, as well as that of our Commissioner, has been directed to the moral improvement of all placed under our control, and we would submit that the high character in this, as in every other respect of our two last Commissioners, Sir Edward Parry and the late lamented Colonel Dumaresq, will carry conviction that our instructions on this head were not confided to persons at all lukewarm or indifferent to such high and important consideration. We have every reason to believe that our newly appointed Commissioner, Captain King, R.N., will be equally zealous as his predecessor, in using every effort to improve the morals of all placed under his control.

We submit to your lordship that the case of the company's assigned servants cannot fairly be compared with those individual settlers, where they are generally few in number comparatively, and in situations where the master has them much under personal control, aided by the intervention, where necessary, of magisterial power to enforce existing regulations.

Our assigned servants are congregated in large numbers in three extensive locations, two of which are without the limits of the Colony, and where our supervising officers have not those aids in support of their authority to which we have alluded; and while we have to contend against the difficulty of keeping young unprincipled convicts under adequate control in that particular, which forms the ground of the Governor's complaint, a difficulty common to all having assigned servants, we have the additional evil of receiving much too frequently amongst convicts assigned to us, under your lordship's orders, an undue and unfair proportion of the worst and most depraved characters from the iron gangs, a circumstance which was much complained of by our late Commissioner, Colonel Dumaresq.

Nevertheless, we feel confident, upon an unprejudiced investigation of facts, it will be found that when their numbers and the foregoing considerations are fairly weighed the moral state of our assigned servants will be found to bear comparison with that of the assigned servants of individual settlers.

We cannot but lament that the Governor did not point out the cases and districts where the improper conduct he complained of had taken place, when every remedy in the power of our officers would have been applied, and that he has not, as far as we know, taken the trouble to ascertain whether the allegations, which he apparently too readily assumes to be facts, have not been made, and propagated by interested individuals, of whom there are too many in the Colony, watching anxiously to benefit by the operation of the threat made by the Governor, should such be carried into execution.

It will be obvious to your lordship that against such complaints as the Governor's, given in such a general way, we can offer no other reply than the foregoing, but when we contemplate the possibility of the Governor carrying the threat with which his accusation is coupled into execution, we are filled with alarm at the consequences to the interests of all concerned in the Australian Agricultural Company.

The effect of the Governor's threat would be that, where a few individual convicts may have misconducted themselves, and which it would in all probability be as much out of the power of the Governor himself to prevent as it is out of our Commissioners, the convicts on the same district of our possessions, amounting probably to more than 200, would be summarily withdrawn, and judging from the animus which dictated the threat, would not, we fear, be replaced.

The immense property under charge primarily of such a number of assigned servants, consisting of many thousand head of sheep and other cattle, would be lost to the company, for your lordship well knows that it would be utterly impossible to replace them by free labourers, except from England.

The result would indeed be in every way disgraceful and ruinous, and we earnestly entreat your lordship, with your accustomed sense of justice, to protect us from such an arbitrary and sweeping measure on the part of any Governor.

We fear that Sir George Gipps has not had time to inform himself of our position and the nature of our compact with Government, which requires us to maintain a large amount of convicts on our estates when our doing so was considered most beneficial to Government, and that it was on the faith of being supplied with that description of labour that the proprietors of this extensive concern have already expended near £300,000 in the Colony, a property which the Governor's threat would recklessly destroy, otherwise some shadow of ordinary consideration would, we think, have found its way into his secretary's communication, the absence of which we so much lament. We submit to your lordship that, even admitting the charge to the full extent, or even to a much greater and more flagrant degree than is attempted even to be surmised, the Governor would not be justified in having recourse to a measure of punishment which we unhesitatingly assert would be the instantaneous ruin of the company.

If, indeed, such a case should even be made out (but of which we have no fear), to satisfy your lordship's mind that the extreme penalty of withdrawing our assigned servants in any numbers beyond the offending parties should be inflicted, we still would claim, as a point of common justice to the offending proprietors in this country, that time should at least be given to us to supply their places by free labourers.

We confidently appeal to your lordship's sense of justice to protect the proprietors of this company from the contemplated measure of the Governor, and that you will be pleased to issue with as little delay as possible such instructions as the case may appear to call for.

I have, &c.,

J. S. BROWNRIGG.

Sir,

The attention of the Governor having been drawn to the alleged fact of black or aboriginal women frequently living and also travelling about the country with assigned servants of the company, I am directed to inform you that if the fact be well authenticated His Excellency will be under the necessity of withdrawing the whole of the men in the district of the company's possessions where it occurs.

I have, &c.,

T. C. HARINGTON.

Sir,

I have only this day had the honor to receive your letter of the 28th June, stating that the attention of the Governor had been drawn to the alleged fact of black or aboriginal women frequently living and travelling with assigned servants of the Australian Agricultural Company, and that if the fact be well authenticated His Excellency will be under the necessity of withdrawing the whole of the men in the district of the company's possessions where it occurs.

In reply, I beg leave to acquaint you, for the information of His Excellency the Governor, that it has been and will continue to be the anxious desire of the company's Commissioners to check the improper intercourse alluded to, and I will immediately recall the attention of persons in charge of the several branches of the Company's establishment to the instructions which were given some time since with a view to prevent the occurrence of such disreputable proceedings on the part of the assigned servants of the company.

I regret that the cases to which His Excellency the Governor refers are not specified to enable me to take measures for causing the offenders to answer for their misconduct.

I would assure His Excellency that, in every instance where an assigned servant shall be made known to be as living in intercourse with a black or aboriginal woman, he shall be dealt with as the police authorities may deem right; but I trust that the Governor will not inflict upon the company the penalty of withdrawing their assigned servants on account of the misconduct of individuals who may infringe the regulations, because they are beyond the immediate reach of my observation and control, more especially when His Excellency may ascertain that any measures which the Government may suggest will be readily adopted by the representative of the company to maintain as much as possible the proper discipline of the convict population in the instance now under notice, as well as in all other cases.

I have, &c.,

J. EDWARD EBSWORTH,

Commissioner for the Australian Agricultural Company.

My

My Lord, Australian Agricultural Company, 12, Queen's Arms Yard, 22 December, 1838.

In obedience to your lordship's wish, I proceed to state in writing those points connected with the interests of the Australian Agricultural Company which I had the honor to lay before your lordship at the conference on the 14th instant.

2. The first point to which I drew your lordship's attention was the application of certain individuals to work coal-mines at Western Port, and the degree in which the rights and interests of our company would be affected, were such permission granted.

3. Your lordship will bear in mind that it was in compliance with the expressed desire of the Government, that we undertook the hazardous speculation of working the coal-mines at Newcastle, and the best proof of the risk we ran was that Government had previously worked these mines at a loss.

4. We should not have considered ourselves justified in incurring the heavy outlay that we did in commencing the coal works, had not Government given us some security or assurance that as long as we complied with certain stipulations, having for their object the adequate protection of the public, we should, as far as rested with the Government, be secured for a limited time against competition.

5. These stipulations and conditions are, I submit, clearly laid down in the Under Secretary of State's letter of the 31st July, 1828, comprising under six distinct heads, in the 5th article, it is declared that Government will have the right to resume the grant of the coal-mines, and the privileges connected with that grant, "if the company shall raise a less quantity of coal than two-thirds of the weight, which on an average of the three years ending the 31st December, 1828, had been yearly raised from the mines," thereby securing to the public an adequate supply.

6. In the preamble to the 6th article, the consideration given on the part of the company is expressly recognised in the following words: "That as the company will have incurred as great preliminary expense for a public benefit, which expense they ought to have a fair opportunity of repaying to themselves, and then follows the pledge on the part of the Government at home, that no Governor would for the next thirty-one years, grant or convey any coal-mines, or land containing coal-mines, without a specific exception of the coal in such grant or conveyance, nor afford any assistance in convict labour for the working of any coal-mines to any other company, or to any other individual, without the previous sanction of the Government at home." And in order to leave no doubt on our minds as to the circumstances under which such a sanction on the part of the Government at home would be given, the article concludes by saying that "it would probably be given if the company should avail themselves of their monopoly to impose an exorbitant price on coal, the produce of their mine."

7. We submit therefore to your lordship, that it would be a manifest breach of faith, and contrary to the plain and honest meaning of the article in question, if the Government at home sanctioned the grant of coal-mines, or gave facilities in convict labour for working them to any other person until the expiration of the thirty-one years, unless it can be shown that we have failed in our part of the agreement, and that we have either not raised the quantity of coal stipulated for in the 5th article, or that as provided for in the 6th article, we have not incurred the heavy preliminary expenses contemplated or imposed an exorbitant price for coal.

8. No such complaints have been made, and we are prepared to prove, if proof be required--

1st. That we have raised an infinitely larger supply of coal than is stipulated for.

2nd. That we have, in addition to the great preliminary expense contemplated, incurred subsequently a very heavy outlay, in order to increase our power of supplying the increasing demands of the public, and that at this time we have not been reimbursed any part of our great preliminary expense, and

3rd. That so far from having availed ourselves of our monopoly to impose an exorbitant price on coal, it is sold for less than was charged by the Government when it worked the coal-mines, being 10s. per ton to the public, and 8s. to the Government.

9. I might here, my lord, further press upon your attention the fact of the monopoly granted to us being distinctly recognised in the very word, and the further consideration given by us, and stipulated for by the Home Government, that we should supply the coals required by the Colonial Government, at prime cost, were it not that I consider the right of the company to be fully made out in what I have already stated.

10. With regard to the opinion of the Law Officers of the Crown, which your lordship did us the honor to communicate to us in the Under Secretary of State's letter of the 7th instant, we beg leave in the first place to state that, given doubtfully as that opinion is, and with the admission that the language of the 10th paragraph of the letter addressed by the Colonial Secretary of New South Wales to Sir Edward Parry, on the 25th June, 1830, is certainly somewhat ambiguous; yet, without pretending to compete with such high authority on legal niceties, we submit that even if the abstract right of the Secretary of State to grant coal-mines or give facilities for working them were established, and that by the strict legal interpretation of the paragraph above-mentioned, we should have no legal redress were we so injured. We confidently state our belief that neither your lordship nor any Secretary of State would, with the Under Secretary of State's letter to us of the 31st July, 1828, fairly before him, grant such permission on any other grounds than a failure on our part in any of these stipulations, either expressed or fairly implied, by which the interests of the public, so far as our recognised monopoly is concerned, were very properly envied.

11. We further beg to draw your lordship's attention to the fact that the letter of the Colonial Secretary of New South Wales, on which the above-mentioned opinion of the Attorney-General and Solicitor-General is founded, is not the one on which we rest our claim. The Under Secretary of State's letter to us of the 31st July, 1828, contains the agreement as sanctioned by the home Government, and moreover, recognises in the preamble to the 6th Article the consideration given by us, which is altogether omitted in the Colonial Secretary of New South Wales' letter, and which might, had it been before the Law Officers of the Crown, have led, perhaps, to a different conclusion from that which they appear to have come to.

12. With this short exposition of the grounds of our claim, and the view which we take of the rights of the Australian Agricultural Company will leave the case in your Lordship's hands, being assured that we shall receive that justice and fair consideration which we have always experienced from your lordship.

13. The second subject which I have the honor to bring under your lordship's notice at the conference was the proposed exchange of lands.

14. The object we have in view, and the grounds upon which we urge the proposed exchange, were brought under your lordship's notice in June, 1837, at a conference, and subsequently in our letter to your lordship of the 7th July following, wherein we enclose a copy of our late Commissioner's, Lieutenant-Colonel Dumaresq, letter to the Colonial Secretary of New South Wales, dated 18th December, 1836. To this latter document we called your lordship's attention as going fully into the subject, and containing all the reasons in favour of the proposed exchange which we desired to advance.

15. In reply your lordship was pleased to order us to be informed in Mr. Stephens' letter of the 20th July, 1837, that "you felt it impossible to issue any instructions, or to express any opinion until in possession of the Governor's report on the subject."

16. The Governor being known to be on his way to England, we refrained from troubling your lordship again on the subject until his arrival, when we were grieved to learn that Sir Richard Bourke was unable, from recollection, to give any information connected with it; and it is now evident that no report from the present Governor is likely to be made without a special reference which would entail upon us the evil of a further delay, in addition to the long time during which we have patiently awaited your lordship's decision on this important matter.

17. In addition to the statements contained in Colonel Dumaresq's letter to the Colonial Secretary of the 18th December, 1836, already adverted to as having been before your Lordship with our letter of the 7th July, 1837, and to which we again crave reference, we beg to annex an extract from a report from the Deputy Surveyor-General Perry to the Colonial Secretary, dated 30th January, 1837, and we submit that both these documents go to establish the protection I assumed in our conference with your lordship, that the proposed exchange of land would be as advantageous to the country generally as to our company, the grounds of which assumption are very clearly stated by Deputy Surveyor-General Perry in the report above mentioned.

18. I took the liberty, further, to suggest to your lordship, as the Colonial Surveyor-General, Major Mitchell, was now in England, and was the officer through whom the preliminary negotiations of our Commissioner for the exchange had been made, and who would, in all probability, be the person on whose opinion the Government would place the most reliance, that his report on the matter might be called for, and that upon it your lordship would be pleased to decide as to the fate of our application; and this I beg respectfully to repeat.

19. In order to meet an objection that was hinted at by your lordship, I beg leave to remind you that in all grants or exchanges of lands, the Australian Agricultural Company have invariably negotiated with the Home Government and not with the Governor of the Colony. The Secretary of State has ordered the grant or exchange, and the Governor has taken care that it should not infringe on private rights.

20. Thus, in the year 1829, we stated to the Secretary of State that a considerable portion of our original grant of land was found to be unfit for the avowed and recognised object for which our company was principally established, namely, the rearing of fine-woolled sheep, the same was recognised as a valid and sufficient ground for authorising an exchange.

21. An exchange to the extent of 600,000 acres was consequently authorised by the Secretary of State without any previous reference to the Governor, but limiting the same to two locations.

At the time, however, the company could not find a sufficient extent of ground suitable for their purposes, limited as they were to the two locations, and 562,898 acres only were exchanged; there therefore remains 37,102 acres, which, under the former decision of the Secretary of State, the company submit their claim to have exchanged, has been recognised, provided it adjoins one of the present locations already chosen in exchange for the 600,000 acres of land north of Port Stephens, which have been given up to the Government.

22. From what I have stated, I trust your lordship will perceive that it will only be following the usual course if your lordship decided upon our application, leaving the Governor the care that in carrying your lordship's decision into execution the public interests and private rights are duly protected.

We respectfully but most earnestly deprecate another reference to the Colony after the long delay that has already taken place; and from the just and liberal consideration which this company has before experienced from your lordship, and which they always gratefully acknowledge, we feel assured that such will not be the case, if after a reference to the Surveyor-General, Major Mitchell, and to what I have now brought under your notice, your lordship is satisfied that our request is a reasonable one.

24. Having addressed your lordship separately with regard to the threatened withdrawal of our assigned servants by the present Governor of New South Wales, I have only to state, on the subject of convict labour generally, that the Australian Agricultural Company has reason to complain that your lordship's repeated instructions on this head have not been carried into execution either promptly or efficiently. By our late returns we were still forty-six men short of the 500 ordered by your lordship, exclusive of those employed in the colliery. If this non-compliance with your lordship's orders proceeds from there not being a sufficient number of convicts at the disposal of the local Government, we have no fair ground of complaint; and in bringing the above fact under notice we have only to request your lordship to give instructions that when a deficiency of convicts prevails, the same shall not fall unfairly on us, but that the supply to private settlers, as fixed by local ordinances, shall be ratably reduced, also a measure of justice which we have reason to believe has not been dealt to our company.

I have, &c.,

J. S. BROWNRIGG,
Deputy Governor.

EXTRACT from letter to the Colonial Secretary, dated 30th January, 1837.

THE blue boundary upon the map, furnished by the Commissioner, according to the sections, to comprise about 94,000 acres, and considering its locality only, with reference to the subjects mentioned in Colonel Dumaresq's letter, I should suppose to be of a value equal to land on the Peel, as it contains many spots upon which it would be highly desirable to form villages, and there is little doubt that the retention of this land by the company has had considerable effect in retarding the settlement of the northern parts, as the great tract of country between it and the Manning may be said to be inaccessible for want of a complete command of the harbour of Port Stephens, and of a land road by the way of Clarence Town, which the acquisition of the land now proposed to be ceded would afford. Having been to the settlement in a vessel of only 12 tons burthen, I am quite aware that the navigation of Port Stephens is somewhat intricate, owing to the number of shoals; but Sir Edward Parry, who made a careful survey of the harbour, assured me that there are channels by which vessels of considerable burthen may be taken very near the company's settlement. In this case it would seem that some facilities in shipping produce might be afforded by the reservation of sections Nos. 1,637, 1,656, 1,659, 1,588, and 1,589, to be laid out as villages, and although the land is generally understood to be of inferior quality, many patches on the borders of the swamps, and on the banks of the Myall River, might be found suitable for small farms. Under all the circumstances, therefore, I should consider that in the actual state of the company's possessions on the Peel, and at Port Stephens, the proposed exchange, while doubtless the company would be immediately benefited, would be advantageous to the country.

S. A. PERRY,

Deputy Surveyor-General.

Sir,

Downing-street, 17 January, 1839.

I am directed by Lord Glenelg to acknowledge the receipt of your two letters of the 22nd ultimo.

1. Lord Glenelg has referred to such of your letter as related to the working of coal-mines in New South Wales to the Crown lawyers, with a view to ascertain whether there is anything therein contained which would lead them to alter their opinion on the case.

2. With regard to the further exchange of land which the company are anxious to effect, Lord Glenelg cannot consent to decide on or to entertain such an application without the previous report of the local Government. If you are, therefore, desirous of bringing such a question under the consideration of the Government it will be necessary that you should instruct your agent to prefer the application, with whatever is to be urged in its support, to the local Government in the first instance; and in order to prepare the Governor for a consideration of the question when so brought before him, Lord Glenelg has transmitted to him copies of the correspondence.

3. With regard to the number of convicts assigned to the company. In my letter to you of the 20th July, 1837, I pointed out, by Lord Glenelg's directions, that in the increasing demand for labour existing in New South Wales, the colonists generally were turning their attention to the introduction of free labour, to supply the deficiency of convict servants. You are no doubt aware that on the 18th November, 1837, Governor Sir R. Bourke issued a general notice in the *Gazette* of the Colony, founded on instructions which he had received, intimating that it was the intention of Her Majesty's Government to discontinue at the earliest possible period the assignment of convicts to private service, and pointing out to the settlers the expediency of their looking for the future to immigration rather than to assignment as the source from which to obtain the requisite labour for the cultivation of their lands, and for other purposes. Any arrangements which may from time to time have been made for the supply of convict servants to the company depended, of course, on the continuance of the general system on which those arrangements were founded, and Lord Glenelg cannot lead the company to expect a permanent supply of labour from this source.

With regard to the representation which forms the subject of a separate communication from you in consequence of a notice which the Governor had given to the company's agent, that he should feel himself compelled to withdraw their assigned servants in a certain district in the event of an alleged fact being authenticated of black or aboriginal women frequently living and travelling about the country with such servants, Lord Glenelg directs me to state that the circumstances to which Sir George Gipps attention had been called was one which he could not consistently with his duty overlook, and he appears to have taken the proper course in addressing the company's agent on the subject. Lord Glenelg, however, does not find that the Governor adopted any proceeding injurious to the interests of the company, or that he expressed any intention of withdrawing their convicts, except upon proof of a neglect of duty on the part of the company's officers in charge of the district, which, in Lord Glenelg's opinion, would have rendered such a measure indispensable.

I have, &c.,

GEO. GREY.

No. 98.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 14 February, 1840.

With reference to your letter to the Commissioner for the Australian Agricultural Company, dated 14th September, 1837 (numbered 37-577) in reply to an application on the part of my predecessor for the completion of the title deed to the grants of land held by the Australian Agricultural Company

at

at Port Stephens, Peel River, Liverpool Plains, and Newcastle, in which you informed him that the opinion of the Attorney-General had been called for, whether, under the charter of the Australian Agricultural Company, the Governor has power to execute the grants of land made to the Company without special instructions from Home, and that when the question is decided no further time will be lost in doing what is necessary upon the subject, I do myself the honor to request your attention to the subject, in the hope that the affair in question may be brought to an early conclusion by transmitting to Her Majesty's Principal Secretary of State for the Colonies the requisite descriptions of the several grants above enumerated, for the purpose of obtaining the necessary warrants under the Royal Sign Manual for passing the grants under the Great Seal of the Colony, as provided by the first clause of the Company's charter.

I have, &c.,

PHILLIP P. KING,
Commissioner, Australian Agricultural Company.

Mr. Nowcombe, 25 February. Immediate.—See note enclosed.

Inform Mr. Fisher that the papers in question, which appear to have been sent to him on the 29th October, 1838, have not been returned to this office by Dr. Kinchola with the other arrears papers upon which he has given his opinion. It is concluded, therefore, that they are still in Mr. Fisher's possession. If so, request him to return them at his earliest convenience, as they are urgently required. Immediate, March 6.

Inform Captain King, and that on receipt of the papers no time will be lost in bringing the matter to a final determination. Mr. Fisher and Captain King, 6 March, 1840.

[Enclosure.]

[Private.]

My Dear Sir,

The directors have written to me pressing the completion of the title-deeds. I have therefore written the enclosed preparatory to my calling upon the Governor on the subject. No letter has been received from you upon the subject since the 14th September, 1837. I shall be very glad to get this little affair concluded.

I shall be in Sydney next week, when I will do myself the pleasure of calling upon you.

I am, &c.,

PHILLIP P. KING.

Mr. Newcombe, 24th February.—This matter awaits the form of deed which Mr. Fisher was some time since directed to prepare, and the papers do not appear to have been returned through Dr. Kinchola.—28.

This matter must not be lost sight of. If not received in ten days or a fortnight, let the subject be again brought forward. 29th February.—A.

Inform the Civil Crown Solicitor that my attention has been drawn by the Secretary of State to the first clause of the charter of the Australian Agricultural Company, which provides that all grants of land made to the Company shall be passed under the Great Seal of the Colony, in pursuance of such warrant under the Royal Sign Manual as may for that purpose be issued. Request him to prepare the draft of such instruments as may be best adapted to give effect to this provision of the charter.—C.G., 6th February. N.B.—This, though often called for, has not yet been furnished. Lord Glenelg's despatch is dated the 7th April, 1838, No. 100.

No. 99.

The Colonial Secretary to The Civil Crown Solicitor:

Sir,

Colonial Secretary's Office, Sydney, 6 March, 1840.

I do myself the honor to inform you that the papers connected with the form of deed to be used in granting certain lands to the Australian Agricultural Company, which were transmitted to you on the 29th October, 1838, do not appear to have been returned to this office by Dr. Kinchola with the other arrear papers upon which he has given his opinion, and it is therefore concluded that they are still in your possession. Should this be the case, I have the honor to request that you will return them at your earliest convenience, as they are now urgently required.

I have, &c.,

E. DEAS-THOMSON.

No. 100.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 9 March, 1840.

With reference to your letter of the 14th ultimo, I have the honor to inform you that the papers connected with the form of deed to be used in granting the lands promised to the Australian Agricultural Company were transmitted to the Civil Crown Solicitor on the 29th October, 1838, and have not since been returned. Mr. Fisher, with whom they are now supposed to be, has been written to to return these papers, and upon their receipt no time will be lost in bringing the matter to a final determination.

I have, &c.,

E. DEAS-THOMSON.

No. 101.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 12-13 May, 1840.

In attention to your letter of the 10th instant, I do myself the honor to transmit the whole of the papers connected with the Australian Agricultural Company's grants, including those relating to the coal-mines at Newcastle worked by the Company. See list enclosed.

I have, &c.,

T. C. HARRINGTON.

[Enclosure.]

LIST of papers forwarded to the Civil Crown Solicitor by Colonial Secretary's letter of 11th May, 1840.

- 26-622—17th February, 1826; Robert Dawson.
 " 23rd February, 1826; copy of minute, No. 47.
 26-4,750—28th July, 1826; Robert Dawson.
 26-5,675—2nd September, 1826; Robert Dawson.
 26-6,078—26th September, 1826; Robert Dawson.
 27-10,924—24th November, 1827; Robert Dawson.

 32-3,007—10th April, 1832; J. E. Ebsworth.
 32-3,910—16th May, 1832; Sir Edward Parry, with memo. of Sir Richard Bourke.
 M. 1,884—7th June, 1832; memo. of Sir Richard Bourke.
 32-4,842—27th June, 1832; memo. of Surveyor-General.
 32-8,053—18th October, 1832; Sir Edward Parry, with *précis* of Colonial Secretary and memo. of Sir R. Bourke.
 32-8,040—26th October, 1832; Sir Edward Parry.
 32-8,843—30th November, 1832; Auditor-General.
 33-508—17th January, 1833; Surveyor-General.
 33-3,252—30th April, 1833; Sir Edward Parry.
 33-3,254—8th May, 1833; Surveyor-General, with sketch.
 33-3,590—20th May, 1833; Sir Edward Parry.
 33-3,942—7th June, 1833;
 33-3,948—7th June, 1833; Deputy Surveyor-General.
 33-4,354—28th June, 1833; Auditor-General.
 33-4,447—6th July, 1833; Commissary Laidley, with statement of coal.
 33-5,589—12th August, 1833; Sir Edward Parry.
 33-5,488—20th August, 1833; Surveyor-General, with two descriptions.
 33-5,587—21st August, 1833; Sir Edward Parry.
 33-6,827—11th October, 1833; Surveyor-General.
 33-7,143—21st October, 1833; Sir Edward Parry.
 33-7,367—4th November, 1833;
 33-7,885—26th November, 1833;
 34-2,162—31st March, 1834; Surveyor-General.
 35-5,284—13th July, 1835; Commissary Laidley.
 35-6,223—21st August, 1835;
 Memo. of Sir Richard Bourke, 29th August.
 36-76—9th January, 1836; Colonial Secretary, with letter from P.M., Port Stephens.
 21st January, 1836; Colonial Secretary, with copy of Company's charter.
 17th June, 1837; Colonial Secretary, enclosing Commissioner's memorial, No. 800 and 939, with draft deed to John Brown of 2,000 acres of land, in parish of Nottingham.
 Memo. of Sir George Gipps, without date.

No. 102.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,
 Referring to your letter No. 40-180, of the 12th May last, I have the honor to request that you will expedite your report as to the proper form of deed to be used in granting the lands promised to the Australian Agricultural Company, repeated inquiries having been made by Captain King on the subject.

Colonial Secretary's Office, Sydney, 29 June, 1840.

I have, &c.,

E. DEAS-THOMSON.

No. 103.

No. 103.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 16 July, 1840.

I have the honor to return herewith all the papers relative to the land granted to the Australian Agricultural Company, together with a draft deed of grant to that Company, which has been perused and approved of by Dr. Kinchela, as also his opinion thereon.

I have, &c.,

GEO. COOPER TURNER,
Civil Crown Solicitor.

[Enclosure.]

I HEREWITH send you the draft of the deed of grant to the Australian Agricultural Company, which is a very peculiar one, and, under the circumstances of the case, very different from the ordinary deeds of grant. The recitals are necessary, as the validity of the grant will depend upon its being made in pursuance to the directions stated in the charter, as the Company, as a body corporate, could only take lands granted in pursuance of such direction to the ordinary reservations contained in the ordinary grants from the Crown. I have added one reserving all lands that may hereafter be required for the protection of the territory. This is done to save the necessity of an Ordinance Act in future, as I am not aware that the present Ordinance Bill would embrace the lands about to be granted to the Company. On this subject, however, the opinion of His Excellency the Governor should be taken before the deed will be engrossed. In the reservation of gold and silver mines I have also included the ordinary one of coal. This, perhaps, will not be inserted, as I conceive it was a very unwise and unfortunate thing for the Colony that the Government were ever induced to include such a reservation into the grants of land, which was done merely to protect the monopoly of the Australian Agricultural Company. The clauses and conditions respecting the quit-rent are now embarrassing, as from the length of time which has elapsed since the grant ought to have been made. The calculation will be difficult, if not impossible, to be made, and as the calculation under the grant can only be made from the date of the grant a question will arise as to the payment of quit-rents for the times past.

Before, however, the deed of grant will be executed by the Governor, it will be absolutely necessary for the protection of the Crown that all the lands the possession of which was formerly given to the Company, but which it was subsequently agreed should be exchanged for the lands which I presume will be now included in the grant, should be actually restored to the Crown, as a length of undisturbed possession would be good as against the Crown, even though no grant could be produced; and as the Company have now been in undisturbed possession for several years past of part of the land which it was the intention of the Government to take back in place of the land they agreed to give in exchange, a longer possession of such parts of the land may be prejudicial hereafter to the claims of the Crown.

JOHN KINCHELA.

Australian Agricultural Company's Agricultural
Grants.

A DRAFT of the proposed deed of grant has been prepared by the Civil Crown Solicitor, and approved by Dr. Kinchela, and is now enclosed. Since verbal alterations appear to be still required, but these I will arrange with Mr. Turner when the more important points have been decided on. These are:—

1. That a warrant is required under the Royal Sign Manual before any deed can be legally executed by the Governor.

This is required both under the provisions of the Company's charter and under the Attorney-General's opinion that the Governor's Commission empowers him to grant lands to private persons only, not to a body corporate. [See 37-9,398.]

2. That the exchange of certain portions of land originally located to the Company was sanctioned only on condition of their making provision for clergymen, but that it is uncertain whether this condition has been abandoned or not. [See 33-7,885.]

If this provision is to be made, the draft of deed must be amended accordingly.

3. That Dr. Kinchela suggests the necessity of a formal surrender of the lands heretofore occupied by the Company not afterwards exchanged, the object being to prevent the future assertion of any claim upon the ground of such occupancy. I am not myself apprehensive of any danger from this cause, but, if thought necessary, either the surrender may be recited in the deed of grant, and made the condition of the same, or a separate surrender may be formally obtained from the Company's attorney or agent, if he be duly accredited as required by the Company's Act of Parliament, 5 George IV, c. 86. To carry out the arrangements after determining these points, it appears proper—

1. To furnish the Company's agent with a copy of the proposed deed, and of the specific description of land to be therein inserted. That

I shall take care to point out the necessity of this when I send Home the drafts of the deed.—G.G., September 11, 1840.

On further search, I find that the condition has been given up, or at any rate that it cannot now be enforced, the Company never having been put in possession of the Church and School reserves. [See Sir R. B's despatch to the Secretary of State of the 18th February, 1834, No. 14, and the letter from Sir Ed. Parry enclosed in it.]

[See also Sir G. Murray's despatch of the 21st April, 1830, No. 23.]

G.G., 15 September, 1840.

The deeds may be prepared, but I shall not sign them until the requisite surrender has been made. The best way of proceeding would be, I think, to have the surrender drawn, and sent to England to be executed by the Directors of the Company. The Commission cannot have the required power to execute the surrender.—G.G.

Approved.—G.G.

That is my business.—G.G.

2. To transmit the same to the Secretary of State.
3. To execute the deed on receipt of the Royal Warrant.

Respecting the grants of coal lands and allotments a separate memorandum shall be submitted, when the foregoing points are decided on.

The deeds for these ought, in my opinion, to be distinct from those for the agricultural grants.—September, 9, 1840.

Before returning the enclosed draft to the Crown Solicitor for completion, it occurs to me to submit that some instructions are yet required with regard to the intended date of the deed.

It will be seen that agreeably to the provisions of the charter the Company are restrained (page 8 of the draft) from selling any portion of the land for five years after the date of the deed, and, on the other hand (pages 17 to 21 of draft), that the whole arrangement respecting the rates of quit-rent, their collection, and the redemption by employment, is, in like manner, to be calculated from the date of the deed.

Captain King's letter, 40-10,573, states that possession was taken of the original selection in February, 1826.—December 3, 1840.

The date of the deed must, of course, be the date of its execution. I am not aware that it would be competent to ante date it, so as either, on the one hand, to render the Company liable to an earlier payment of quit-rent, or, on the other hand, to give them sooner the privilege of sale.—December 6, 1840.

No. 104.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 20 July, 1840.

With reference to your letter of 24th June, communicating a draft of the title-deeds of the Australian Agricultural Company's lands, together with copies of the Solicitor-General's opinion, and a letter from the Crown Solicitor on the subject, I have the honor to return to same with the following remarks:—

As in the terms of the charter incorporating the Company, and by virtue of which they hold their land, all intended reservations and provisoes are fully described, I submit most respectfully that the grant ought not to contain any which are not thereon provided for.

If, therefore, as I presume must be the case, I am right in my conclusions, the title-deeds must be freed from the following reservations, which, although usually inserted in those of lands granted previous to the year 1825, have no reference to the case of the Australian Agricultural Company.

The objectionable clauses are contained between pages 12 and 18 of the rough draft, commencing at page 12, with the words "Provided nevertheless, &c.," and ending at the 18th page, with the words "whole or any part of the quit-rents remaining unredcedmed," and are as follows, viz. :—

1. The reservation of lands for the erection of fortifications.
2. Reservation for a public way or ways, and for the stone, gravel, indigenous timber, and other materials the produce of the said lands which may be required; also providing for the right of taking and removing the same, and for full and free ingress, egress, and regress into, out of, and upon the Company's lands.
3. The power for the Government to resume and take possession of all or any part of the said land which may be required at any time for any public purpose, upon payment being made by arbitration.
4. The proviso for the redemption of the quit-rents is unnecessary, as it is elsewhere provided for (see 11th and 12th clauses of the charter).

With respect to that part of your letter in which you require me to put the Company's solicitor in communication with the Crown Solicitor, should any question of legal or technical points arise, I have the honor to state that I have not yet submitted the draft to the Company's solicitor for his legal opinion. Supposing that, from the objections I have made, and which must be satisfactorily borne out by a reference to the charter and to the Solicitor-General's opinion, "that the declaration of the charter should be strictly followed," I shall be furnished with an amended draft.

The Company's solicitor will be instructed to draw up the indenture of surrender of the lands given up in exchange for those at Liverpool Plains and Peel River, as requested.

I have, &c.,

PHILLIP P. KING,
Commissioner, Australian Agricultural Company.

Rough draft of title-deeds. Opinion of Solicitor-General. Letter from Crown Solicitor, dated 29th May, 1841.

I see no reason to put any reservations in that are not in the charter.—G.G., 28rd July. Unnecessary.—G.G. Unnecessary.—G.G. Unnecessary.—G.G.

The reservation of lands for the erection of fortifications appears to have been suggested by Dr. Kinchela in order to save the necessity for an Ordnance Act in future, but he submitted the propriety of obtaining the Governor's opinion on this point (see opinion on original draft deed). The reservation of a public way or ways, &c., seems to be necessary, and was inserted on that account, as well as to assimilate the deed to the general form of all grants prior to 18th May, 1825. The power of resumption of any portion of the grant required for public purposes was doubtless inserted for the like purpose. I conclude the original draft approved by Dr. Kinchela, as well as the subsequent form prepared and submitted to the Solicitor-General, should be again laid before the law officers, with Captain King's letter.—22nd July.

I see no reason for any further application to the law officers.—G.G., 23/7/40.

The Governor says that there is no necessity for referring the subject again to the law officers. Is the deed to be prepared after striking out the objectionable clauses, or the copy to be again returned to Captain King with the Governor's decision, in order that the Company's solicitor may settle the draft with the Crown officers.—27 July.

The latter.—July 27. Captain King, 29 July.

The letter to the Crown Solicitor of 12th December, 1840, returned the draft deed prepared by Dr. Kinchela—a copy with certain alterations proposed; and it was intimated that it was considered advisable, in order to prevent any future mistake, to recite:—

1. The original selection at Port Stephens, estimated to comprise 1,048,960 acres.
2. The portion surrendered; the extent not given.
3. The portion of the original selection retained, comprising 464,640 acres.
4. The selection at Warrah, Liverpool Plains, comprising 249,640 acres, and the remaining selection.
5. At Tamworth, Peel River, comprising 313,298 acres.

1,048,960 acres;
464,640 acres
retained;
584,320 acres
given up.
Liverpool Plains,
249,640 acres;
Peel River,
313,298 acres;
total, 862,938
acres; difference,
21,382 acres.

The two latter portions being in lieu of the land surrendered.

To enable the law officers to complete the deed, the descriptions were sent, a letter from Captain King showing the dates of possession, and the despatch of the Secretary of State authorising the exchange of lands. The suggestion does not appear to be attended to, although very desirable, but a recital of the warrant directing the original grant at Port Stephens is simply made (although I do not believe there is such a document in existence, and, if not, one certainly will not now be made, the greater portion of the land being taken elsewhere) a recital that the Company entered into possession, a recital of the surrender of the portion of that land, and a recital that in consideration of such surrender, and of a warrant from Her Majesty directing a grant of the three portions in exchange for the surrendered land, Her Majesty, in pursuance of another warrant, grants the three portions in question. Some inaccuracies also appear in the form; it commences by reciting the Letters Patent. (The Act of Parliament upon which they are founded would perhaps have been best.) Whereas his late Majesty, "after reciting a certain Act," and so it goes on reciting that Act without coming to any definite conclusion; and then, "and whereas his said Majesty by his said above-mentioned charter (not before named, excepting in the recital), did declare, &c.," being a repetition of the recited Act as before recited. "Her" and "our" are indifferently mentioned in referring to Her Majesty. There are also pencil memoranda made by the law officers, but whether any attention is to be paid to them I am not aware.—28 July.

No. 105.

Captain P. P. King to The Colonial Secretary.

Sir,

Sydney, 4 September, 1840.

With reference to a former application respecting the title-deeds of the Australian Agricultural Company's property in this Colony, I beg to know whether the necessary documents have been completed, in order that they may be transmitted to England.

I have, &c.,

PHILLIP P. KING, Captain, R.N.,
Commissioner for the Australian Agricultural Company.

In order to the preparation of these deeds, request the Surveyor-General to furnish quickly descriptions of the following portions of land, specifying in each case the date when each selection was communicated to him, and by whom, the date of his report thereon, and the date and particulars of the Governor's decision, viz.:—The original selection at Port Stephens; the portion afterwards surrendered; the portion ultimately retained; the selections on the Peel and in Liverpool Plains respectively; each portion of land and allotment selected, surrendered, or exchanged, in the town of Newcastle, and the coal land adjacent.—14 September. Mr. N. Immediate. Surveyor-General, 15 September, 1840.

Inform the Commissioner that the proposed form of deed has been prepared by the Crown Solicitor, and that copies will be transmitted—one to the Secretary of State, for the purpose of obtaining the warrant under the Royal Sign Manual, as required by the charter, and another to the Commissioner himself, for the information of the directors, as soon as some verbal alterations have been made and the requisite descriptions procured from the Surveyor-General. Inform him also that copies will in like manner be prepared and transmitted of a deed of surrender of the lands originally selected and afterwards exchanged by the Company, of which the law officers consider it proper to procure the execution by the directors under their common seal. In the meantime, request he will enumerate the several portions of land of which he claims deeds of grant on behalf of the Company, specifying, if possible, in each case, the situation, extent, date of selection, date of possession, and authority under which that possession is held.—17 September, 1840. Immediate, Mr. N.—18 September, 1840.

No. 106.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 15 September, 1840.

I do myself the honor to request that you will, with the least possible delay, furnish descriptions of the following portions of land connected with the claims of the Australian Agricultural Company, specifying in each case the date when the selection was communicated to you, and by whom, the date of your report thereon, and the date and particulars of the Governor's decision, viz.:—

The original selection at Port Stephens; the portion afterwards surrendered; the portion ultimately retained; the selections on the Peel and in Liverpool Plains respectively; also, each portion of land and allotment surrendered or exchanged in the town of Newcastle, and the coal land adjacent.

I have, &c.,

E. DEAS-THOMSON.

No. 107.

No. 107.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 16 September, 1840.

With reference to the draft of the title-deeds which you were so good as to show me the other day, I beg to remark that the boundaries are so different to what are described in the description officially communicated to the agent of the Company, and also communicated to the Secretary of the Australian Agricultural Company, by Horace Twiss, Under Secretary of State, in a letter dated as per margin, that I feel it necessary to call your attention thereto. I mean more particularly to a reservation of water-frontage, which is proposed to be inserted in all grants subsequent to 18th May, 1825.

The following is a copy of the official description of the grant:—

A description of the boundaries of the lands intended to be granted to the Australian Agricultural Company; situated in the county of _____; bounded on the south by a line by compass bearing west 8 statute miles of 640 chains. Commencing on the west bank of the river Karuah, at a mark there set up a few yards below a reef of rocks stretching across the river; on the west by a line bearing north by compass to the river Manning; on the north by the south bank of the river Manning to the sea; on the east by the sea-coast at high-water mark to the north head of Port Stephens*; on the south and west by the waters of the harbour of Port Stephens and the river Karuah to the mark set up on the west bank; comprising 1,048,960 acres of land, whereof 35,040 acres consist of barren sandy sea-coast, rendered necessary to be included for the more complete definition of the Company's boundary, with a reservation to the Crown of 320 acres of land surrounding the north head of Port Stephens.

Given under our hands, at Port Stephens, this ninth day of January, one thousand eight hundred and twenty-eight.

JOHN OXLEY,
Surveyor-General.

Witness to signature,—

ROBERT DAWSON,
Principal Agent to the Company.
WM. CORDEAUX,
JOHN KEPTIN,
Commissioners of Crown Lands.

I apprehend that the grant ought not to contain reservations not contemplated at the time, and which would have been noticed, as was the peculiar arrangement for quit-rent, were such intended; but if in this case I am wrong, I would respectfully submit that, as the charter of the Company is dated 1st November, 1824, none be made that were not usual in grants of that period, in which there were no reservations "of land within 100 feet of high-water mark on the sea-coast, and on every creek, harbour, and inlet of the sea, and also all mines of gold, of silver, and of coal, with full and free liberty and power to search for, dig, and take away the same."

Respectfully submitting the above to the consideration of His Excellency,

I have, &c.,

PHILLIP P. KING,
Commissioner, Australian Agricultural Company.

No. 108.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 18 September, 1840.

In reply to your letter of the 4th instant, inquiring relative to the title-deeds of the Australian Agricultural Company's property in this Colony, I have the honor to inform you that the proposed form of deed has been prepared by the Crown Solicitor, and that copies will be transmitted—one to the Secretary of State, for the purpose of obtaining the warrant under the Royal Sign Manual, as required by the charter; and another copy to yourself, for the information of the directors, as soon as some verbal alterations have been made, and the requisite descriptions procured from the Surveyor-General, which have been called for.

Copies will, in like manner, be prepared and transmitted of a deed of surrender of the lands originally selected and afterwards exchanged by the Company, of which the law officers consider it proper to procure the execution by the directors under their common seal.

In the meantime I have the honor to request that you will enumerate the several portions of land of which you claim deeds of grant on behalf of the Company, specifying, if possible, in each case the situation, extent, date of selection, date of possession, and authority under which that possession is held.

I have, &c.,

E. DEAS-THOMSON.

No. 109.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, Sydney, 23 October, 1840.

In attention to your letter of the 15th ultimo, No. 40-540, in which you request me to furnish descriptions of the following portions of land connected with the claims of the Australian Agricultural Company; specifying in each case the date when the selection was communicated to me, and by whom, the date of my report thereon, and the date and particulars of the Governor's decision, viz.:—1. The original selection at Port Stephens; 2. The portion afterwards surrendered; 3. The portion ultimately retained; 4. The selections on the Peel and in Liverpool Plains respectively. Each portion of land and allotment selected, surrendered, or exchanged in the town of Newcastle, and the land adjacent.

I have the honor to state that I am unable to furnish the whole of the information required, especially with respect to the original, but I beg to subjoin what my records afford, and I hope that any difficulty in this respect may be easily supplied from the original papers in your office.

The original selection at Port Stephens was made, it would appear, by the Commissioners of the Company in 1825, and notified by them to the then Surveyor-General, the late Mr. Oxley. The description, with a plan, was forwarded to the Governor by Mr. Oxley prior to February, 1828; of this description I do not possess a copy.

The portion afterwards surrendered.—Of this I enclose a description, and would beg to refer you on this subject to your letters Nos. 34-886 and 36-550, and to my letters 36-80 and 37-341.

The portion ultimately retained.—A copy of the description of this land is enclosed. A reference to my half-monthly return would have given a copy of this description, and in the report thereon would have been found full information on the subject.

Of the lands on the Peel and Liverpool Plains.—I enclose descriptions. They were inserted in abstract, in compliance with the directions contained in your letter of the 12th November, 1833, in abstract 34-25 and 26, to the report on which insertion I beg to refer.

Of each portion of land and allotment selected, surrendered, or retained in the town of Newcastle, and the coal land adjacent.—I enclose descriptions. These, however, were inserted in abstract of the 15-31 March, 1833, as Nos. 33, 11, 12, 13, 14, and 15.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

[Enclosure.]

DESCRIPTIONS of the lands to be granted to the Australian Agricultural Company at Liverpool Plains, being in lieu of a like quantity to be surrendered out of the million of acres at Port Stephens:—

County unnamed, parish unnamed, 249,600 acres, at Liverpool Plains. Bounded on the south by a line west 39 miles: Commencing in a ravine forming the source of the Warrah Brook; on the west by a line north 13 miles; on the north by a line east 30 miles; and on the east by a line south 13 miles to the ravine at the head of Warrah Brook.

County unnamed, parish unnamed, 313,298 acres, at Liverpool Plains. Between the river Peel and the Turi Range. Bounded on the west by a line south from Peel River to a remarkable rocky pointed hill called by the black natives 'Turi, and measuring 16½ miles; on the south by lines from that rocky pointed hill bearing east 10 miles; then south 13 miles, east 4½ miles, south 5 miles, and again east 10 miles and 38 chains to Peel River; and on the east and north by that river.

Description of 464,640 acres of land to be granted to the Australian Agricultural Company at Port Stephens:—County of Gloucester, between Port Stephens and the Manning River. Bounded on the south by the harbour of Port Stephens: Commencing at the reserve at the base of the north head, the Karuah River, and a line west from about half a mile below the head of navigation of that river; on the west by a line north 47 miles to the Manning River; on the north by that river east direct 19 miles, exclusively of the windings of that river; and on the east by lines south 2 miles and 52 chains, west 7 miles, south 39 miles, and east 11 miles and 56 chains, to a creek of the Myall Lake, and by that lake and the Myall River to Port Stephens.

Query, if portion ultimately retained.

Description of the boundaries of the lands surrendered by the Australian Agricultural Company:—On the coast between the Manning and Port Stephens. Bounded on the east by the sea-coast from the north head of Port Stephens to the Manning River; on the north by that river to the Company's north-east corner, a few miles above the head of navigation of that river; on the west by the Company's lines south 2 miles and 52 chains, west 7 miles, south 39 miles; and on the south by a line east 11 miles and 56 chains to the Myall Lake, and by that lake and the Myall River to Port Stephens.

A.

Description.—County of Northumberland, parish of Newcastle, town of Newcastle, 36 poles, allotment No. 52: Commencing from the south-east corner of allotment No. 54 (William Evans); and bounded on the north by its south boundary line, bearing west 7 degrees north 2 chains 25 links; on the west by the east boundary line of allotment No. 53 (William Hicks), bearing south 2 chains and 25 links to Watt-street; and on the east by 1 chain of the west side of that street, bearing north 7 degrees east to the south-east corner of allotment No. 54 aforesaid.

Description.—County of Northumberland, parish of Newcastle, town of Newcastle, 36 poles, allotment No. 23: Commencing from the south-east corner of allotment No. 21; and bounded on the north by its south boundary line, bearing west 7 degrees north 2 chains 25 links; on the west by the east boundary of allotment No. 24, bearing south 7 degrees west 1 chain; on the south by a line bearing east 7 degrees south 2 chains 25 links to Pacific-street; and on the east by 1 chain of that street, bearing north 7 degrees east to the south-east corner of allotment No. 21 as aforesaid.

Description.—County of Northumberland, parish of Newcastle, 2,000 acres: Commencing at the north-east corner; and bounded on the north by 35 chains and 40 links of the coast on a west line; on part of the west by a south line of 10 chains to the south side of the road to Maitland; on the remainder of the north and on the north-east by the south side of the before-named road to the north-west corner, that corner bearing from the centre of the bridge over Throsby Creek north 319½ degrees west 50 chains; on the west by a south line of 193 chains 50 links; on the south by an east line of 162 chains to the coast; on the south-east by the coast; and on the east by a line bearing north 15 degrees west 47 chains to the coast at the north-east corner aforesaid.

Description.—County of Northumberland, parish of Newcastle, 87 acres: Commencing at the north-west corner of the township, according to the scale of the maps prepared by Mr. Dangar; and bounded on the west by a line bearing south 7 degrees west 17 chains and 15 links; and a line bearing south 15 degrees east 41 chains to the coast-line; on the south by the coast-line; on the east by a line bearing north 15 degrees west 47 chains to the harbour of Newcastle; and on the north by high-water mark of that harbour westerly to the commencing point.

Extract from Colonial Secretary's letter of Sir E. Parry, dated 2nd May, 1833.

THAT the Company forego their application for the surface right of the portion comprised within the lines A, B, F, G, and stated to contain about 87 acres, on account of its forming a part of the town, and be allowed in lieu of the town allotments Nos. 23 and 52 in Pacific and Watt Streets, Newcastle, together with the mining right to the tract so relinquished, subject to such conditions as to depth and necessary supports as may be approved of by the Government.

No. 110.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 24 October, 1840.

Having laid before the Governor your letter of the 16th ultimo, in which you represent that the boundaries used in the draft deed of the Australian Agricultural Company's grant at Port Stephens are different from those originally approved, and suggest that no reservations should be made in the deeds which were not in force at the date of the Company's charter (1st November, 1824), I have the honor to inform you that His Excellency is not at this present moment able to say what are the correct boundaries of the land; but in respect to the reservations, His Excellency thinks they must be those usually made in grants prior to the 18th May, 1825, as detailed in Form No. 1 of the forms of deeds as fixed by the Government notice of the 15th August, 1840, a copy of which is enclosed.

I have, &c.,

E. DEAS-THOMSON.

No. 111.

No. 111.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 12 December, 1840.

In returning to you the draft of the intended deed of grant to the Australian Agricultural Company, which was received in your letter of the 16th July last, I do myself the honor to inform you that certain alterations have been made therein, subject to your approval, for the purpose of assimilating it, in points not specially provided for in the Company's charter, to the general form of deed used for all grants prior to the 18th May, 1825, as notified in the Government notice of the 15th August, 1840.

I have also the honor to observe that your draft is apparently prepared for the purpose of granting to the Company one portion only of land; but their grant actually consists of three distinct portions, one of which is a part of their original selection, and the other two are in lieu of another part of that selection which was subsequently surrendered. To render this more clear, and to prevent any future mistake, it is considered advisable to recite in the proposed grant:—

- 1st. The original selection, which was estimated to comprise 1,048,960 acres at Port Stephens;
- 2nd. The portion of that selection surrendered by the Company, of which a description is furnished, but the number of acres not stated;
- 3rd. The portion of the original selection still retained, comprising 464,640 acres;
- 4th. The selection at Warrah, in Liverpool Plains, comprising 249,600 acres; and
- 5th. The selection at Tamworth, on the river Peel, comprising 313,298 acres;

these two selections at Warrah and Tamworth being in lieu of the portion surrendered at Port Stephens.

It is also considered desirable that the Company in London shall execute a formal surrender, under their common seal, of the land relinquished at Port Stephens, and that this surrender shall be recited in the grant from the Crown.

With regard to the conditions under which the exchange was sanctioned, it will not be necessary to introduce any clause respecting a provision for the support of clergymen, the lease of Church land not having been executed, in consideration of which the provision alluded to was to have been made.

But unless already secured, clauses will be required for enforcing the conditions respecting navigable rivers, as explained in the Secretary of State's despatch of 21st April, 1830, and the Surveyor-General's letter of 4th July, 1834.

To enable you to complete the form of grant from the Crown and of surrender by the Company, I do myself the honor to enclose the documents mentioned in the annexed list, and am directed by His Excellency the Governor to request that both instruments may be completed for transmission to England with the least possible delay.

On the subject of the Company's coal lands I shall do myself the honor of addressing to you a separate letter.

I have, &c.,

E. DEAS-THOMSON

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 28 December, 1840.

With reference to my letter of the 24th October last and former correspondence, I have the honor to request that for the purpose of facilitating the preparation of the deeds for the land at Newcastle you will be good enough to transmit a copy of the communication made to the Company by Mr. Hay, Under Secretary of State in 1830, which is alluded to in Sir Edward Parry's letter of the 4th October, 1831, No. 499.

I have, &c.,

E. DEAS-THOMSON.

No. 113.

The Colonial Secretary to The Commissioner of the A.A. Co.

Sir,

Colonial Secretary's Office, Sydney, 12 January, 1841.

With reference to my letter of 28th ultimo, respecting the Australian Agricultural Company's land at Newcastle, I do myself the honor to request that you will favour me with a statement showing the following particulars, viz.:—

1. The several portions of coal land in and near Newcastle originally selected by the Company or their agent.
2. All changes therein or portions surrendered.
3. The portions finally selected, and now claimed, with the dates of each selection changed or surrendered, and of possession having been authorised.

I have, &c.,

E. DEAS-THOMSON.

No. 114.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 12 January, 1841.

With reference to your letter of the 31st of March, 1834, No. 31-157, respecting the Australian Agricultural Company's land at Newcastle, I do myself the honor to request that you will favour me with a statement showing the following particulars, viz.:—

1. The several portions of coal land in and near Newcastle originally selected by the Company or their agent;
 2. All changes therein or portions surrendered;
 3. The portions finally selected, and now claimed;
- with the dates of each selection, change, or surrender, and of possession being authorised, and also a copy of the description of each portion.

I have, &c.,

E. DEAS-THOMSON.

No. 115.

No. 115.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 26 January, 1841.

In reply to your letter of the 12th instant, requesting a statement to show certain particulars relative to the Australian Agricultural Company's land at Newcastle, I have the honor to append such explanation as a reference to the papers connected with the subject enables me.

1. "The several portions of coal land in and near Newcastle originally selected by the company or their agent"—I am not aware that any other portions were selected other than the land the Australian Agricultural Company now holds. In Sir Edward Parry's letter, 30th January, 1832, he desired to have 1,500 acres measured, and to defer the selection of the remaining 500; but on the 18th October following he again wrote to request that the 500 that remained should be added to the 1,500, which was confirmed by the Colonial Secretary's letter of 2nd May, 1833.

2. "All changes therein or portions surrendered."—I knew of no change having been made or portions surrendered, unless it be the surface right of that part of the town where the Government formerly worked the coal. This Sir Edward Parry decided upon not interfering with, and received in lieu two allotments, together with the mining right of the portions so surrendered, by virtue of the authority contained in the Colonial Secretary's letter above referred to.

3. "The portions finally selected and now claimed, with the dates of each selection, change, or surrender, and of possession having been authorised."—The portion selected and now claimed is that described in the Colonial Secretary's letter above referred to. Permission to sink a pit was authorised in the Colonial Secretary's letter of 14th February, 1831, but possession can scarcely be considered to have been authorised until the date of the Colonial Secretary's letter, 2nd May, 1833.

Trusting that the above is sufficient for the purpose required.

I have, &c.,

PHILLIP P. KING, Captain, R.N.,

Commissioner for the Australian Agricultural Company.

No. 116.

The Colonial Secretary to The Surveyor-General.

Sir, *

Colonial Secretary's Office, Sydney, 10 February, 1841.

In acknowledging the receipt of your letter of 20th January, No. 41-29, I do myself the honor to inform you that the descriptions of the coal lands of the Australian Agricultural Company therein referred to (if received in your previous letter of 23rd October, No. 40-381) have been mislaid, and that I shall feel obliged, therefore, by your causing duplicates to be furnished, together with the dates of possession, if known, at your earliest possible convenience.

At the same time, I beg to suggest that the letters of 15th September and 23rd October related exclusively to the agricultural lands of the company—not the coal lands.

I have, &c.,

E. DEAS-THOMSON.

Sir,

Colonial Secretary's Office, 16 March, 1841.

In compliance with your request, I do myself the honor to transmit to you the accompanying copy of the charter of the Australian Agricultural Company, and to request that the same may be returned when done with.

I have, &c.,

E. DEAS-THOMSON.

No. 118.

The Surveyor-General to The Colonial Secretary.

Sir,

Surveyor-General's Office, Sydney, 23 March, 1841.

With reference to your letter of the 10th ultimo, No. 41-78, in which, in referring to my letter No. 40-29, of the 20th January, 1841, you request me to furnish duplicates of the descriptions of the coal lands of the Australian Agricultural Company, I have the honor to transmit herewith copies of the required descriptions, and to refer you to your predecessor's letter, No. 33-430, for the particulars of the arrangement made between the Government and the Australian Agricultural Company with respect to these lands.

I have, &c.,

T. L. MITCHELL,

Surveyor-General.

[Enclosure.]

Description:—87 acres, county of Northumberland, parish of Newcastle. Commencing at the north-west corner of the township (according to the scale of the maps prepared by Mr. Dangar); and bounded on the west by a line bearing south 7 degrees 17 chains and 15 links, and a line bearing south 15 degrees east 41 chains to the coast line; on the south by the coast line; on the east by a line bearing north 15 degrees west 47 chains to the harbour of Newcastle; and on the north by high-water mark of that harbour westerly, to the commencing point. Surrendered by Australian Agricultural Company; 87 acres.

Report:—Measured in conformity with the direction of Colonial Secretary's letter 33-430, being in lieu of the erroneous description transmitted in my letter No. 33-546. This is the portion, the surface right to which the company give up in consideration of receiving the allotments Nos. 23 and 52, in the Newcastle town.

Description

Australian
Agricultural
Company ;
36 perches.

Description :—36 perches, county of Northumberland, parish of Newcastle, town of Newcastle, allotment No. 52. Commencing from the south-east corner of allotment No. 54 (Wm. Evans) ; and bounded on the north by its south boundary-line bearing west 7 degrees north 2 chains 25 links ; on the west by the east boundary-line of allotment No. 53 (Wm. Hicks), bearing south 2 chains and 25 links to Wall-street ; and on the east by 1 chain of the west side of that street bearing north 7 degrees east to the south-east corner of allotment No. 54 aforesaid.

Report :—Measured in conformity with the directions of Colonial Secretary's letter No. 32-430.

Australian
Agricultural
Company ;
36 perches.

Description :—36 perches, county of Northumberland, parish of Newcastle, town of Newcastle, allotment No. 23. Commencing from the south-east corner of allotment No. 21 ; and bounded on the north by its south boundary-line bearing west 7 degrees north 2 chains 25 links ; on the west by the east boundary of allotment No. 24 bearing south 7 degrees west 1 chain ; on the south by a line bearing east 7 degrees south 2 chains 25 links to Pacific-street ; and on the east by 1 chain of that street bearing north 7 degrees east to the south-east corner of allotment No. 21 as aforesaid.

Report :—Measured in conformity with the directions of Colonial Secretary's letter, No. 33-430, as alluded to in my letter, 33-546. It is to be observed that this allotment was located to H. Feathers, of the Staff Corps, as directed by the Colonial Secretary's letter, 29-595. Feathers is supposed to have left the Colony, but it will be necessary either to cancel his order for this allotment, or to give the company another one.

Australian
Agricultural
Company ;
2,000 acres.

Description :—2,000 acres, county of Northumberland, parish of Newcastle. Commencing at the north-east corner ; and bounded on the north by 35 chains and 40 links of the coast on a west line ; on part of the west by a south line of 10 chains to the south side of the road to Maitland ; on the remainder of the north and on the north-east by the south side of the before-named road to the north-west corner, that corner bearing from the centre of the bridge over Throsby Creek north 319½ degrees west 50 chains ; on the west by a south line of 193 chains 50 links ; on the south by an east line of 162 chains to the coast ; on the south-east by the coast ; and on the east by a line bearing north 15 degrees west 47 chains, to the coast at the north-east corner aforesaid.

Report :—Measured in conformity with the directions of the Colonial Secretary's letter, 33-430, a similar description having been already transmitted to the Colonial Secretary in my letter, 33-546.

No. 119.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 18 May, 1841.

With reference to my letter of the 12th December, 1840, on the subject of the agricultural lands of the Australian Agricultural Company, I now do myself the honor to transmit to you the under-mentioned documents, relating to the company's coal lands, and am directed by His Excellency the Governor to request that the form of a deed of grant may be prepared in accordance with the following instructions, for transmission to England with as little delay as possible.

The deed of grant is to be separate from that of the agricultural lands, but under the opinion of Dr. Kinchela, transmitted in your letter of 2nd July, 1840, it is to be in all respects similar to it, except as otherwise directed in the present letter.

No recital is required of exchanges or surrenders.

A clause is to be inserted in compliance with the Secretary of State's despatch of 31st July, 1828, No. 18, reserving to the Crown the power of resuming the land if, in any year, the Company shall raise a less quantity of coal than two-thirds of the weight which, on an average of three years ending 31st December, 1828, had been yearly raised from the mines wrought by the Government.

A clause is also to be inserted in compliance with the same despatch reserving to the Crown in perpetuity a right to all coal wanted for its own consumption, not exceeding in any case one fourth of the average annual produce of the mines included in the land granted to be delivered at the pit's mouth at prime cost.

As the lands in question are situated either in or immediately adjoining the town of Newcastle, it will also be proper to insert a clause providing for the observance of the regulations for the alignment of streets and the construction of proper drains as in the forms of ordinary deeds published on 15th August, 1840, so far as the same may be or may become applicable.

With respect to one portion of these lands, namely, that of 87 acres in the parish of Newcastle, you will perceive that the company gave up the surface right on receiving two allotments in the town of Newcastle, and on condition of their retaining the mining right of the land in question, subject to such restrictions for the security of life and property on the surface as are pointed out in enclosure No. 5.

To enable you to comply with these instructions, the following documents are enclosed :—

- 1st. The Surveyor-General's letter of the 23rd March, 1841, containing descriptions of the four portions of land now to be granted.
- 2nd. A letter from the company's Commissioner, dated 26th January, 1841, showing the dates on which possession was obtained.
- 3rd. An extract from the Secretary of State's despatch, dated 31st July, 1828, respecting the two reservations before alluded to.
- 4th. A return, compiled from returns furnished by the Auditor-General and the Deputy Commissary-General, showing the quantity of coals raised by the Government during years 1826, 1827, and 1828.
- 5th. An extract from my predecessor's letter to the company's Commissioner, dated 2nd May, 1833, stating the terms on which the mining right of 87 acres of land in the parish of Newcastle, is to be exercised by the company.

What have we
to do with this?

I have, &c.,
E. DEAS-THOMSON.

[Enclosures.]

EXTRACT from the despatch of the Secretary of State, dated 31st July, 1828.

“AND it will be proper to insert a condition with respect to the 500 acres and any other coal land not already granted, that all such ground may be resumed by the Crown with the permission of His Majesty's Government in England, after reference to them by the Governor, if in any year the company shall raise a less quantity of coal than two-thirds of the weight, which, on an average of three years ending 31st December, 1828, has been yearly raised from the mines which are now wrought by the Government ; and a stipulation is also to be inserted that Government shall be entitled, in perpetuity, to all coal wanted for its own consumption, not exceeding, in any case, one fourth of the average annual produce of the mines included in the 500 acres, to be delivered at the pit's mouth at prime cost.”

A RETURN, compiled from returns furnished by the Auditor-General and Deputy Commissary-General, showing the quantity of coals raised by the Government, during the years 1826, 1827, and 1828.

No. 120.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 29 May, 1841.

With reference to your letter of the 12th December last, I have the honor to forward draft grant to the Australian Agricultural Company. The land granted will, of course, be that directed by warrants under the Royal Sign Manual, and which for accuracy must depend on the Surveyor-General's report.

As to the clause respecting roads, that is provided for, but the clause as to navigable rivers would be an unusual one. The surrender, I submit, should be prepared by the company's solicitor in London.

I have the honor to enclose a copy of the Solicitor-General's opinion on the draft being submitted to him. On referring to this you will observe that the last clause in the charter, "That in any grants to be made to the said Company, that all necessary covenants shall be made and entered into by the said company." This will be effected by the seal of the company being attached, which will render it necessary that the grant should be sent to England.

I have, &c.,

GEO. COOPER TURNER,

Civil Crown Solicitor.

This matter seems as yet far from concluded. The surrender by the company was also requested to be incorporated in this deed, but it is here recommended to be separate, and prepared by the company's solicitor, and the reservation with regard to the navigable rivers is stated to be unusual and consequently not inserted. The only way I apprehend of disposing of the matter will be to send a copy of the draft to the Secretary of State, with a copy of the letter to the Crown Solicitor, and the Solicitor-General's opinion, at the same time sending similar copies to the Commissioner, informing him what has been done. The Crown Solicitor has not returned the draft prepared by Dr. Kinchela. Write for it.—9/6/41.

The Crown Solicitor has received instructions to prepare a draft of the deed for the coal lands, and, I conclude, when furnished, the same course is to be pursued.—3 June. See above.—5 June.

[Enclosure.]

Copy of opinion of the Solicitor-General respecting the form of deed for granting land to the Australian Agricultural Company.

29 May, 1841.

I HAVE perused the draft settled by Dr. Kinchela, of which, so far as it goes, I approve; but I think the grant, if issued in that form, would be defective in one very material point. By the charter incorporating the company, it is declared that all land to be purchased or alienated by the company, or granted to them by the Crown, shall be held and alienated upon, and subject to certain conditions, &c., mentioned in the charter, and at the end of the charter there is a further declaration that "in any grants to be made to the said company of any lands situate in the said Colony, all necessary covenants shall be made and entered into by the said company for ensuring the due observance and performance on their part of the several conditions, premises, and restrictions aforesaid."

I am of opinion, therefore, as all grants are made to the company by virtue of the charter, that the declarations of the charter should be strictly followed, and consequently that in the present grant the company should enter into the necessary covenants prescribed.

This might be effected by the signature of the company, through their seal, to the grant, which will probably render it necessary to send the grant to England, in which case the draft might as well be settled by the law officers there, as in all probability similar grants have been issued under the Act, empowering the company to hold land in England.

W. A'BECKETT,

Solicitor-General.

No. 121.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 9 June, 1841.

With reference to your letter of the 29th May, returning the draft of the deed proposed to be executed of the Australian Agricultural Company's lands at Port Stephens, Liverpool Plains, and on the Peel River respectively, I do myself the honor to request that you will return to me the original draft of the deed furnished by you, and which was forwarded to you in my letter of the 12th December.

I have, &c.,

E. DEAS-THOMSON.

No. 122.

No. 122.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 18 June, 1841.

In compliance with the request contained in your letter of the 9th instant, I do myself the honor to forward herewith draft deed of grant to the Australian Agricultural Company of certain lands at Port Stephens, Liverpool Plains, and the Peel River, together with Dr. Kinchela's opinion thereon.

I have, &c.,

GEO. COOPER TURNER,

Civil Crown Solicitor.

Mr. N., 19 June. Civil Crown Solicitor to expedite coal lease drafts, with copy of deed, &c.,
24/6/41.

No. 123.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 24 June, 1841.

In reference to your letter of the 18th instant, relative to the proposed deed of grant for conveying the agricultural lands of the Australian Agricultural Company, I have the honor to acquaint you that the draft of the deed in question, together with copies of the Solicitor-General's opinion, and your letter of the 29th May last, have been forwarded to the company's commissioner, in order that, should he desire to make any representation with respect to the terms of the grant, he will instruct his solicitor to put himself in communication with you, when, if required, the papers will be returned to you for that purpose.

I am directed, however, to take this opportunity of requesting that you will endeavour to hasten the preparation of the draft deed of the company's coal lands, as called for by my letter of the 18th May last.

I have, &c.,

E. DEAS-THOMSON.

No. 124.

The Colonial Secretary to The Commissioner of the A. A. Company.

Sir,

Colonial Secretary's Office, Sydney, 24 June, 1841.

In reply to your letter of the 18th May last, inquiring what progress had been made in granting the lands of the Australian Agricultural Company, I do myself the honor to transmit to you, in order that you may have an opportunity of offering any remarks that may occur to you, a draft of the proposed deed for granting the company's agricultural lands, together with copies of the Solicitor-General's opinion, and a letter from the Crown Solicitor on this subject; but should it appear necessary to you to bring under notice any legal or technical points connected with the proposed grant, I am to request that you will instruct your solicitor to put himself into communication with the Crown Solicitor for that purpose.

The completion of the company's coal grant still awaits the form from the law officers, whose attention has again been drawn to the subject.

In conclusion, I have the honor to request that you will instruct your solicitor in Sydney to prepare the draft of a document proposed to be used in surrendering to the Crown the portions of land formerly selected by the company, which, when prepared, you will be good enough to forward me through the Crown Solicitor.

I have, &c.,

E. DEAS-THOMSON.

No. 124 $\frac{1}{2}$.

Office Memorandum.

Australian Agricultural Company's lands.

22 September.

THE opinion of the present Solicitor-General is that in conveying these lands the declaration of the charter should be strictly followed. Dr. Kinchela says that the validity of the grant will depend upon its being made in pursuance to the directions therein contained, as the company as a body corporate could only take lands granted in pursuance of such direction. Nevertheless, he recommended the insertion of several of the ordinary reservations not, however, mentioned in the charter. The commissioner objected to any such reservations, and the Governor especially decides that none other are to be inserted than those directed by the charter. And as it has been decided that the coal lands come within the charter, I have prepared the warrant for authority to grant these lands, also without any additional restrictions.

The charter declares that in all grants to the company, all necessary covenants shall be entered into by the company for ensuring a performance of the conditions on their part, and the Solicitor-General considers that these should be incorporated in the same deed. I have not referred to this in the warrant, as the general instructions given therein seem sufficient; but it may be observed that if this course be adopted upon receipt of the authority to execute the grant the document will, after preparation, require to be sent home for execution by the company previously to the signature of the Governor.

Under the opinion of Dr. Kinchela and the Solicitor-General, there would seem to be no necessity for the company to execute a formal surrender of the land given up at Port Stephens, for if it can only take land granted in accordance with the terms of the charter, surely it can retain no right without any document whatever.

I have included in the warrant the 87 acres at Newcastle, of which the company has only the mining right; but am doubtful about this, particularly as the Commissioner omits it in his statement of the grants made to the company.

If

1 July, 1825.

If this land could be excluded and given in some other way the necessary restrictions, as well as the conditions directed to be imposed by the Secretary of State's despatch, might be made with respect to this portion of the coal-mines.

It is, I believe, distinctly understood that although by the orders of the Secretary of State, the directions of Sir Richard Bourke, as well as of Sir George Gipps, other conditions than those mentioned in the charter were to be inserted in the grant, yet the intention is now entirely abandoned.

Should any difficulty occur in settling the form of the proposed warrant, might it not be as well simply to send home copies of the descriptions of the land to be conveyed, so that the necessary document could be prepared in the office of the Secretary of State, transmitting with them the opinion of Dr. Kinchela and the Solicitor-General's?

If a surrender of the portion of the land given up be considered essential, could it not be a separate document? If so, a form could be prepared, approved by Mr. Norton on behalf of the company, and at once forwarded home by the Commissioner for execution by the proper persons.

And if in the same deed could be incorporated the covenants to be entered into by the company for observing the conditions of the proposed grants, the delay contemplated would be prevented. A separate document, however, for this also would be simplest, and I do not think the course would be at variance, at any rate with the spirit of the charter.

In case the despatch of the Secretary of State should have reference to the form of grant and not to the warrant, it might prevent considerable delay if a form of the proposed deed was sent home, approved by the Solicitor-General and Mr. Norton.

The objectionable reservation accordingly struck out, and the drafts of the agricultural lands and the coal lands (exclusive of the 87 acres) sent to Commissioner to be returned through the Civil Crown Solicitor, together with a draft of transfer of the surrendered lands to be prepared by the company's agent. Copy of proposed warrant also sent Commissioner, 2/11/42.

The Civil Crown Solicitor informed and requested to prepare a separate deed for the 87 acres. Copy of proposed warrant also sent, 3/11/42.

No. 125.

The Colonial Secretary to The Commissioner of the A.A. Co.

Sir,

Colonial Secretary's Office, 2 November, 1842.

With reference to your letter of the 20th July, 1840, respecting the proposed deed of grant for the lands authorised for the Australian Agricultural Company, I now do myself the honor to inform you that the Governor has been pleased to direct that the objectionable reservations pointed out by you shall be omitted in the deed in question, and accordingly retransmit to you the form of deed for the conveying the lands situated at Port Stephens and Liverpool Plains, with the necessary alterations. At the same time I also forward to you a form of the deed which has been proposed by the law officers of the Crown for granting to the company the coal lands near Newcastle, as well as the two allotments in that township which were given in lieu of the surface right to the 87 acres of land now surrendered by the company, and I am to request that you will have the goodness to cause the same to be returned through the Civil Crown Solicitor, with any observations that you may consider necessary to make thereon, when no further delay will be made in obtaining Her Majesty's sanction to the execution of the proper deeds.

You will perceive by a note of the law officers on the latter draft that a separate deed is advised for the conveying to the company the mining right of the 87 acres of land alluded to above. In consequence of the necessity there exists of inserting therein some special clauses, the Civil Crown Solicitor has accordingly been directed to prepare the form of deed immediately, when, in like manner, it will be submitted to you.

I also beg to transmit to you a form of the warrant which it is proposed to obtain from Her Majesty for making the above grants.

In conclusion, I have to express my regret that so much unavoidable delay should have occurred in settling these documents, and to add that the matter shall now receive my best attention until finally completed.

I have, &c.,

E. DEAS-THOMSON.

No. 126.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 2 November, 1842.

With reference to your letter of the 18th June, 1841, enclosing a draft of the deed of grant proposed to be issued in favour of the Australian Agricultural Company for the land at Port Stephens, Liverpool Plains, and the river Peel respectively, I do myself the honor to inform you that, in accordance with an objection which has been raised by the Commissioner of the company in the letter of which the enclosed is a copy, His Excellency the Governor has authorised the striking out of all the reservations inserted therein not provided for by the charter. This has accordingly been done and the draft retransmitted to the Commissioner, with instructions that the same may be returned to me through you for transmission to the Secretary of State.

Similar alterations have been made in the form of deed referred to in your letter of the 15th February last for conveying the coal lands near Newcastle, and the two town allotments, and the draft has also been transmitted to the Commissioner to be in like manner returned through you.

It appears, by a note made by you on the last-mentioned draft, that it is considered advisable to give a separate deed for the 87 acres of land near Newcastle, of which the company retain only the mining right. No form for that purpose, however, accompanied it, and I am accordingly to request that you will have the goodness, as soon as possible, to furnish me with a draft of the document you would propose,

propose, inserting therein such restrictions as may seem necessary with reference to the enclosed extract of a letter addressed to the Commissioner on the subject.

At the same time I do myself the honor to transmit to you the accompanying draft of warrant which it is proposed to send to the Secretary of State, in order that Her Majesty's sanction may be obtained for executing the deeds of grant in favour of the Commissioner.

I have, &c.,
E. DEAS-THOMSON.

No. 127.

The Colonial Secretary to The Commissioner of the A. A. Company.

Sir,

Colonial Secretary's Office, Sydney, 2 November, 1842.

With reference to my former letter of this date, respecting the deeds of grants of land to be made in favour of the Australian Agricultural Company, I do myself the honor to inform you that I omitted to point out that it is considered necessary by the law officers of the Government that the company should transfer to the Crown that portion of the land originally located to them at Port Stephens; but subsequently surrendered for other land on Liverpool Plains and the Peel River, and I am accordingly to transmit to you a description of the lands, and to request that you will have the necessary document prepared for execution by the directors, and forwarded to me through the Civil Crown Solicitor.

I have, &c.,
E. DEAS-THOMSON.

[Enclosure.]

DESCRIPTION of the boundaries of the lands surrendered by the Australian Agricultural Company on the coast between the Manning and Port Stephens.

Bounded on the east by the sea coast from the North Head of Port Stephens to the Manning River; on the north by that river to the company's north-east corner, a few miles above the head of navigation of that river; on the west by the company's lines south 2 miles and 52 chains, west 7 miles, south 39 miles; and on the south by a line east 11 miles and 56 chains to the Myall Lake; and by that lake and the Myall River to Port Stephens.

No. 128.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Chambers, 27 December, 1842.

With reference to yours of the 2nd November last, enclosing a draft of the deed of grant proposed to be issued in favour of the Australian Agricultural Company for the lands at Port Stephens, Liverpool Plains, and the river Peel, I have the honor herewith to return the same, finally settled; and with reference to that portion of your letter concerning the 87 acres of land, near Newcastle, of which a right to dig for minerals is to be given to the company, to remark that the proper course will be for the Crown to grant the land to the company, taking a conveyance back from the company for which a license must be obtained, in which conveyance the company would reserve to themselves the right of mining, a draft of which deed has been prepared and perused by the Solicitor-General, and which I have now the honor to forward. The land, therefore, viz., the 87 acres, should be included amongst the other lands in the grant. At the same time, I do myself the honor to transmit to you the accompanying draft warrant, proposed to be sent the Secretary of State, which has been perused and approved of by the Solicitor-General.

I have, &c.,
G. COOPER TURNER,
Civil Crown Solicitor.

On the 2nd November, 1842, the draft of the proposed deed for granting to the Australian Agricultural Company the lands at Port Stephens and Liverpool Plains, and also the draft of the deed for the coal lands, was forwarded to the Commissioner with the objectionable clauses struck out, to be returned through the Crown Solicitor. The Commissioner was also informed that a separate deed was deemed necessary for granting the 87 acres of land to which the Company was only to obtain the mining right, and that the necessary form would be prepared and submitted to him. A form of the proposed Royal warrant for the grants was also sent. In addition, the Commissioner was apprised that it was necessary for the company to transfer to the Crown by deed the surrendered portion of the original location at Port Stephens, and instructed to get the proper document prepared for execution by the directors and forwarded through the Crown Solicitor. On the same day the Civil Crown Solicitor was duly apprised, as a lease and a copy of the letter to the Commissioners was furnished to him. At the same time he was instructed to prepare the form of deed for conveying the 87 acres at Newcastle, to which the company was to have only the mining right, introducing the necessary reservations. The form of warrant was also sent for approval. In this letter the Crown Solicitor returns, finally settled, the two forms of deeds of grant to the company, as well as the proposed warrant. Instead, however, of giving a separate deed for the 87 acres, it is proposed to include the same in the deed with the other Newcastle lands, and that the company, then reconvey the same to the Crown, reserving the mining right, and a form of such re-conveyance or grant is at the same time forwarded, which course, it will be seen, renders necessary a license from the Crown to the company for such alienation. The Crown Solicitor does not obtain from the company's solicitor the surrender of the land given up at Port Stephens. Perhaps the Commissioner may again be referred to this; informed of the course proposed with respect to the 87 acres, and the necessity for the special license, which the company should prepare, and at the same time furnished for approval, with the draft deed of grant to be made by the Company to the Crown for the 87 acres.—5th January.

Let what is herein proposed be acted upon.—5th January. Immediate. Captain King, as within proposed. Civil Crown Solicitor informed, 7th January, 1843.

No. 129.

71

No. 129.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 7 January, 1843.

In reference to your letter of the 27th December ultimo, respecting the lands of the Australian Agricultural Company, I do myself the honor to inform you that I have duly forwarded to the Commissioner the draft of the deed proposed by you for the company to transfer to the Crown the 87 acres of land at Newcastle, of which it is only to retain the mining right, in order that the same may be approved by the solicitor, and returned to me through you.

At the same time the Commissioner has been made acquainted with the necessity for the company's obtaining the license of Her Majesty for such alienation, and instructed to have the proper document prepared and forwarded through you, together with the necessary transfer of the portion of the original location at Port Stephens, afterwards surrendered by the company.

I have, &c.,

W. ELYARD, JUN.

No. 130.

The Colonial Secretary to The Commissioner of the A.A. Co.

[Immediate.]

Sir,

Colonial Secretary's Office, Sydney, 7 January, 1843.

With reference to my letter of the 2nd November last, I now do myself the honor to inform you that the Civil Crown Solicitor has forwarded to me the draft of the deed proposed for granting to the Australian Agricultural Company the lands at Port Stephens and Liverpool Plains, as well as for the coal lands at Newcastle, which were transmitted to you in my letter above referred to.

Instead, however, of making a separate grant for the 87 acres, of which the company have only the mining right, it is now considered preferable to include the same in the deeds for the Newcastle lands, and that the company should re-grant the same 87 acres to the Crown, reserving the mine, for which purpose the draft form of deed to be signed by the directors has been prepared, and is herewith transmitted for the approval of the company's solicitor.

You will observe that by the charter this arrangement will render it necessary for the company to obtain the special license of Her Majesty for alienating the 87 acres for this purpose. I have accordingly to request that you will have the necessary documents prepared and transmitted to me through the Civil Crown Solicitor, together with the surrender of that portion of the original location at Port Stephens, which was given up by the company, as requested in my letter of 2nd November, 1842.

The form of warrant authorising the Governor to authorise the necessary deeds of grants (of which I sent you a copy) has been duly approved on behalf of this Government.

I have, &c.,

W. ELYARD.

No. 131.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 14 January, 1843.

I have the honor to acknowledge the receipt of your letter of the 7th instant, respecting the progress that has been made relative to the title deeds of the Australian Agricultural Company, and informing me that instead of a separate grant for the 87 acres, of which the company have only the mining rights it has been considered preferable to include the same in the deed for the other Newcastle lands; and that the company should re-grant the same to Her Majesty, reserving the mining right, for which purpose the draft form of the deeds to be signed by the directors has been forwarded, the receipt of which I beg to acknowledge.

Previous to laying the said draft before the company's solicitor, I beg to suggest for your consideration whether the two allotments may not, with the mining right, be also reserved, as it will save much trouble, time, and expense, and be less complicated, because if they are not so reserved they will have to be again granted to the company, the two allotments and the mining rights being severally contained in the 87 acres.

With respect to the special license from Her Majesty for the alienation of the 87 acres, I beg to suggest the propriety of that document being prepared in England by the directors.

And in order to enable the company's solicitor to draw up a surrender of the land exchanged for the grants at Liverpool Plains, I have to request you will furnish me with the date of the Secretary of State's letter authorising the same, and such extracts as may be considered necessary to insert in the deeds.

I shall be very thankful for your early attention to these subjects.

I have, &c.,

PHILLIP P. KING,

Commissioner for the Australian Agricultural Company.

43,466.—By this letter it would seem that the Commissioner has an idea that the town allotments to be given to the company at Newcastle are situated on the surface of the 87 acres, to which the company obtain only the mining right. I accordingly ascertained at the office of the Surveyor-General that this is not the case, the allotments in question being in another part of the town. I find, however, what has escaped notice during the last four or five years—that the 87 acres forms a portion of the 2,000 acres, and that a great portion of the town is actually built on the 87 acres. In the year 1833 the Surveyor-General was instructed to furnish for deeds descriptions of the two town allotments, and also of the 2,000 acres after deducting the 87 acres, but having, on the contrary, sent in descriptions of the whole
four

missioner.

Approved.

four portions led, no doubt, to the misunderstanding. Although a great portion of the 87 acres has been alienated by the Crown, yet I do not see any difficulty in now granting the whole 2,000 acres, the same deed reserving to the Crown the surface right of the 87 acres, but the draft should be returned to the Crown Solicitor for the necessary alterations and amendments. This arrangement will supersede the necessity of the proposed transfer of the surface of the 87 acres to the Crown, as also for the Queen's special license to such alienation. The Commissioner requires to be informed the date of the Secretary of State's despatch authorising the exchange of the country lands; it seems to be enclosed in No. 1,439, and I conclude a copy may be sent, omitting the papers respecting the funds for the support of a clergyman, the same having been abandoned by the Government.—24/1/43.

25 January. Immediate. Crown Solicitor and Commissioner as within. 43-1,237.—Captain King, 17th February, stating that a deed of surrender of certain land to be unnecessary sent to the Crown Solicitor, 18th February.

No. 132.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 27 January, 1843.

With reference to my letter of the 7th instant respecting the deeds for the Australian Agricultural Company's lands at Newcastle, I now do myself the honor to inform you that it has been discovered that the 87 acres of land proposed to be conveyed to the company to enable it to transfer the surface right to the Crown, actually forms a portion of the 2,000 acres intended to be granted by the same deed. The grant, therefore, is to be made out for the 2,000 acres with an express reservation of the right of the Crown to the surface of the 87 acres, and must also contain such necessary clauses for restricting the mining thereof so as not to endanger life and property, as pointed out in letters of the 18th May, 1841, No. 41-303, and 2nd November, 1842, No. 42-525.

I accordingly beg to return you the draft deed, in order that you may, in conjunction with the company's solicitor, make the required alterations and amendments; but as it is so much cut up, I am to request that you will have the goodness to forward a fair copy of the approved deed, returning, however, the present draft.

Under the circumstances here communicated, there will, of course, be no necessity for the proposed transfer by the company of the surface right of the 87 acres, nor for obtaining the special permission of Her Majesty for such alienation of which the Commissioner has been duly apprised.

As some alterations and amendments may now be required in the form of warrant proposed to be issued by Her Majesty for executing the grants to the company, the draft is returned for your final approval.

I have, &c.,

E. DEAS-THOMSON.

No. 133.

The Colonial Secretary to The Commissioner of the A. A. Company.

Sir,

Colonial Secretary's Office, Sydney, 27 January, 1843.

In acknowledging the receipt of your letter of the 14th instant, I do myself the honor to inform you that the two allotments of Newcastle proposed to be granted to the Australian Agricultural Company in exchange for the surface of the 87 acres of land, of which the company retain the mining right are not situated on the said 87 acres, as you seem to suppose, and there would consequently be no necessity under the arrangement communicated to you in my letter of the 7th instant for any re-conveyance of the allotments in question. But on my inquiring at the office of the Surveyor-General, I now find that the 87 acres are included in the 2,000 acres to be granted to the company, a fact which appears to have been lost sight of during the whole of the correspondence. Under these circumstances the intended arrangement will require to be somewhat modified.

The draft deed has accordingly been returned to the Crown officers, with injunctions to communicate with the company's solicitor on the subject, for the purpose of amending the deed, so that it convey 2,000 acres and the two allotments only, and reserving to the Crown the surface right of the 87 acres.

Under these circumstances there will, of course, be no necessity for the transfer, nor the special authority of Her Majesty, referred to in my former letter; but in compliance with your request, I send you an extract from the Secretary of State's despatch of 21st April, 1820, authorising the exchange of some of the Company's pastoral lands.

I have, &c.,

E. DEAS-THOMSON.

No. 134.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 13 March, 1843.

With reference to yours of the 27th January last, respecting the deeds of grant to the Australian Agricultural Company's lands at Newcastle, and informing me that it has been discovered that the 87 acres of land proposed to be conveyed to the company, to enable it to transfer the surface right to the Crown, actually forms a portion of the 2,000 acres intended to be granted, I have the honor to inform you that there can be no reservation in the grant repugnant to the conditions of the charter (and reservation of the surface right to the 87 acres would be so). The only course to be pursued is that suggested by my former communication—that the 87 acres be granted to the company, and the company then convey the same to the Crown, reserving to themselves the right of mining, and covenanting not to endanger, by mining, life and property.

I have the honor to transmit to you the draft warrants and two draft deeds of grants.

I have, &c.,

G. COOPER TURNER,

Civil Crown Solicitor.

Under

Under these circumstances, I conclude the original arrangement is to be completed.

1. On the 2nd November, 1842, the Commissioner was apprised that the deed of the agricultural lands would contain no reservations not expressed in the charter, and the draft was accordingly sent to him for the approval of the company's solicitor, to be returned through the Civil Crown Solicitor. (Nothing further has been seen or heard of this).

2. In 43-466 the Commissioner returned the draft deed of the coal lands (also sent him on 2nd November). This should now be again returned to be resubmitted by the company's attorney, through the Crown Solicitor.—Yes.

3. The draft proposed surrender of the surface right to the 87 acres (sent also in letter of 2nd November, 1842, and since returned) will, I think, now require alteration. Perhaps it may be sent to the Civil Crown Solicitor, to be returned with the other document after submission to the company's attorney.—Yes.

4. With reference to the special license required by the company for alienating the surface right of the 87 acres, the Commissioner in 43-466 suggested the propriety of that document being prepared in England by the directors. Perhaps this course will be authorised.—Yes.

5. In addition to these, the only other document in the business is the warrant of Her Majesty authorising the grants to the company a draft approved is amongst the papers; but in order that the whole matter may be in unison, perhaps this may now again be returned to the Crown Solicitor to be submitted and forwarded to this office with the other papers.—21st March.

5. I do not think this necessary.—22nd March.

The Civil Crown Solicitor and Commissioner, Australian Agricultural Company.—24th March, 1843.

No. 135.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 13-14 March, 1845.

In attention to the request contained in your letter of the 28th ultimo, I do myself the honor, by the direction of His Excellency the Governor, to enclose a copy of a letter addressed to Sir Edward Parry, dated the 25th June, 1830, specifying the terms of the agreement entered into between the Government and the Australian Agricultural Company in respect to the coal mines at Newcastle; and I am desired to state to you, that from the returns received in this office, it appears that the company have carried out their agreement as to the quantity of coals to be raised.

I have, &c.,
W. ELYARD, JUNR.

No. 136.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 24 March, 1843.

In acknowledging the receipt of your letter of the 13th instant, respecting the grants to the Australian Agricultural Company, I now do myself the honor to inform you that in accordance therewith the draft deed proposed for conveying the coal lands at Newcastle has been again transmitted to the Commissioner, in order that the same may be referred to the company's solicitor, and returned to this office through you, finally approved.

As under the present circumstances of the case some alterations may be necessary in the form proposed for the company's surrender of the surface right of the 87 acres (comprising a portion of the 2,000 acres), I now do myself the honor to return the draft, together with a description of the 87 acres in question.

The Commissioner has likewise been informed in reply to his application on the subject that there will be no objection to the Directors in England preparing the special license required from Her Majesty for the alienation of the 87 acres, and in addition he has been requested to instruct the company's solicitor to communicate with you personally on the above points, in order that no further delay may occur in disposing of this long pending business, and I am to beg that you will settle every preliminary with the solicitor, and return the several documents (including the draft of the Australian Agricultural Company's land at Port Stephens, now with the Commissioner), in a proper state for transmission home.

I have, &c.,
E. DEAS-THOMSON.

No. 137.

The Colonial Secretary to The Commissioner of the A. A. Company.

Sir,

Colonial Secretary's Office, Sydney, 24 March, 1843.

With reference to my letter of the 27th January last, I do myself the honor to inform you that in accordance therewith the Crown Solicitor was duly instructed to make the required alterations and addition in the deeds for granting to the Australian Agricultural Company the coal lands at Newcastle, and I now beg to enclose you a copy of that officers communication by which it appears that the business cannot be legally settled in the manner proposed.

Under these circumstances, I have to return you the draft of the deed proposed for granting the lands in question in order that, after having been approved of by the company's solicitor, it may be forwarded to me through the Civil Crown Solicitor.

The draft of the surrender of the surface right to the 87 acres (which will of course be now required) has been returned to the Crown Solicitor for such alterations, as may be necessary with instructions to forward the same after obtaining the approval of the company's solicitor, and I am at the same time to inform you that as suggested in your letter of the 14th January last, there will be no objection to the special license required by the company for alienating the 87 acres in question being prepared by the Directors in England, to whom you will doubtless make the necessary communication.

In addition, I have again to express my regret at the unavoidable delay which has occurred in settling this long pending transaction, and to request that you will now have the goodness to direct the company's solicitor to communicate personally with the Law Officers of the Crown, so as to arrange all the preliminaries before the above document (together with the draft grant of the agricultural lands sent to you on the 2nd November last) are forwarded to this office for transmission home.

I have, &c.,

E. DEAS-THOMSON.

No. 138.

Memo. by Governor Gipps.

2 April, 1843.

THE restrictions imposed upon the Government of New South Wales in consequence of the agreement of the Home Government with the Australian Agricultural Company are specified in the following words in Sir George Murray's despatch to General Darling of the 31st July, 1828, No. 18.

His Majesty's Government deem it proper to desire that for the next thirty-one years, no Governor will grant or convey any coal-mine, or land containing any coal-mine, without a specific exception of the coal in such grant or conveyance, nor afford any assistance in convict labour for the working of any coal-mine to any other company, or to any individual or individuals, without the previous sanction of the Government at Home, a sanction which would probably be granted if the company should avail themselves of their monopoly to impose an exorbitant price upon coal, the produce of their mines.

2. By Mr. Labouchere's letter to Mr. Brownrigg, of the 27th February, 1839, of which a copy was enclosed to me in Lord Glenelg's despatch No. 84, of the 3rd July, 1839, it is shown that the law officers of the Crown in England were of opinion that "the letter written on the 31st July, 1828, by order of Sir George Murray to the company does not appear to be in any material respect different from the despatch of the same date, from Sir George Murray to General Darling. That although the only circumstance particularly mentioned in the letter and despatch of the 31st July, 1828, as likely to induce the Home Government to interfere with the monopoly of the company is the sale of coal at an exorbitant price. Yet the power reserved is quite general, and might be exercised whenever any circumstance should render it necessary, and, in truth, unless the company mean to say that they will supply coal in abundance at Port Phillip from their mines at Newcastle at the same price at which coal might be raised and sold from the mines supposed to exist in the neighbourhood of Port Phillip, the law officers think the case contemplated by the despatch of the 31st July, 1828, will have arisen, the excess of coal occasioned by the carriage of the coals 700 miles, makes the price at Port Phillip an exorbitant price within the fair meaning of the parties when they were settling the terms of the agreement in July, 1828."

3. Having the above papers before him, the Secretary of State authorised me, by his despatch No. 84, of the 3rd July, 1839, to take such measures as might appear most advisable for securing to the settlers at Port Phillip the benefit of the mines situated or supposed to be situated in their district.

4. Substituting only Moreton Bay for Port Phillip, and 400 miles for 700, the above documents may be equally applicable to the one place as to the other.

5. But though there can be no doubt of the nature of the decision which the Secretary of State will give whenever the case is referred to him, no reference has yet been made, and consequently, strictly speaking, I am not yet released in respect to Moreton Bay from the restrictions imposed on the Governor by the despatch of the 31st July, 1828. I can, therefore, for the present, grant no land without reserving coal, nor can I grant convict labour to assist in working it.

I am not, however, restricted from allowing coal to be worked by free labour on lands which are ungranted, and such permission, though not an exclusive permission, may be granted to any person making a specific application for it—and paying such a reasonable fee as may be fixed for a license.

I shall forthwith apply to the Secretary of State for permission to extend to the district of Moreton Bay the advantage secured to that of Port Phillip by Lord Glenelg's despatch of the 3rd July, 1839, and though in the meantime deeds of grant cannot be issued without the reservation of coal, such reservation may, of course, be ultimately given up or cancelled, as I hope it will be.

G.G.

No. 139.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 16 June, 1843.

Referring to my letter of the 24th March last, I do myself the honor to inform you that nothing further appears to have been done to complete the necessary documents for conveying the Australian Agricultural company's grants. I have again written to the Crown Solicitor, and it would perhaps be well if you would urge the company's solicitor also to expedite them.

I have, &c.,

E. DEAS-THOMSON.

No. 140.

The Colonial Secretary to The Civil Crown Solicitor.

Sir,

Colonial Secretary's Office, Sydney, 16 June, 1843.

Referring to my letter of the 24th March last, No. 12-159, I do myself the honor to request that you will hasten your transmission of the necessary document for conveying the Australian Agricultural Company's grant.

I have, &c.,

E. DEAS-THOMSON.

No. 141.

No. 141.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 7 August, 1843.

With reference to yours of the 24th March last, No. 43-159, respecting the grants to the "Australian Agricultural Company," I have the honor to inform you, that the draft deed of grant from the Crown to the company of the coal lands at Newcastle, and also the draft deed of grant from the company to the Crown of the 87 acres of land at Newcastle, have been referred to the company's solicitor, Mr. Norton, and finally approved by him, and I have the honor to forward the same for transmission to England.

With reference to that part of your communication, in which you remark, that the draft of the Australian Agricultural lands at Port Stephens, is at present with the Commissioner. I have the honor to state that I have applied to him for the draft, and that the Commissioner and his solicitor, Mr. Norton, informed me that the draft has been forwarded to your office.

I have, &c.,

G. COOPER TURNER,

Civil Crown Solicitor.

I have made some remarks in pages 6, 8, 9, and 10, of the draft which must be answered before I can send it home.—G.G., 15/8/43. It must be returned to me, and also the drafts for the deeds of the other lands with as little delay as possible, in order that I may send the whole to England.—G.G. Before I transmit them, I should like to see the charter, of which I have not a copy.—G.G.

No. 142.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, 1 March, 1844.

In reference to your letter of the 24th ultimo, requesting that a survey may be made of the improvements effected on their lands by the Australian Agricultural Company in terms of the 8th clause of the charter of incorporation.

I do myself the honor to state that the matter has been referred to the Surveyor-General, with instructions to put himself in communication with you, and report to the Government the nature of the operations which will be required before any expense is incurred.

I have, &c.,

W. ELYARD, JUNR.

No. 143.

The Colonial Secretary to Captain P. P. King.

Sir,

Colonial Secretary's Office, Sydney, 28-29 March, 1844.

I do myself the honor to inform you that His Excellency the Governor has now forwarded to the Secretary of State the following documents connected with the Australian Agricultural Company, viz. :—

1. Draft of a warrant from Her Majesty, authorising the Governor to grant to the company the agricultural and coal lands.
2. The draft deed of the three portions of land called the agricultural.
3. Draft of deed of coal land.
4. Surrender by the company of the 87 acres of land out of the 2,000 acres at Newcastle, reserving the mining right.

And I am now instructed to remind you that the following documents require to be sent home, or prepared there by the company, viz. :—

1. Surrender by the directors of the portion of land originally taken possession of at Port Stephens, but since given up.
2. The license of Her Majesty, authorising the company to alienate the 87 acres at Newcastle.

The deed of grant to the company, you are doubtless aware, contains conditions to be performed by them; and consequently under the charter the company must be a party of the grants. This is effected, it is believed, by the seal of the corporation being affixed and witnessed.

And it will be for the interest of the company to attend at the Secretary of State's office, or that of the Law Officer in England, and have the matter so arranged that their seal can be affixed to the original deeds previously to their being returned to this Colony for the signature of His Excellency the Governor.

I have, &c.,

E. DEAS-THOMSON.

No. 144.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 8 April, 1844.

I have the honor to acknowledge the receipt of your letter of the 28th ultimo, informing me that His Excellency the Governor has forwarded to the Secretary of State the documents connected with the title deeds, and reminding me that, besides Her Majesty's special license for alienating the 87 acres of land at Newcastle, it will be necessary that there should be a surrender of those lands at Port Stephens, which were originally taken possession of, but which since have been given up.

I beg to call your attention to a portion of the correspondence which has taken place relative to the subject, and that you will as early as is convenient inform me whether the document will be required.

It appears that about the 13th February, 1843, Mr. Norton saw the Crown Solicitor upon the subject of the surrender, when the latter explained that a surrender had never been necessary; that it had originated in a mistake of Mr. Kinchela's; and begged Mr. Norton to leave with him your letter to

me

me (dated 7th January, 1843), to enable him to explain to you that a surrender could not be made at the time without causing some inconvenience as respected the recent grants from the Crown.

You are doubtless aware that the Government has already sold several portions of these lands, and that the company cannot surrender that which does not belong to them, of which they are not, and have not been in possession for many years, but for which they have long since received an equivalent of land at Liverpool Plains and Peel's River.

I have, &c.,

PHILLIP P. KING, Captain, R.N.,
Commissioner for the Australian Agricultural Company.

It will be seen by the Governor's minute on 40-7,003, that he particularly observed on the necessity of having such a surrender, and I do not find any subsequent communication dispensing with it; on the contrary, the letter of 7th January, 1843, here referred to by the Commissioner, repeated the instructions for the preparation of the document. Even if the Government has sold any portion of the land in question, there can be no objection to the company transferring any right they may previously have acquired by sanctioned possession.—15th April.

I did not suggest that a surrender was necessary. The lawyers are the parties who did so. Refer to Mr. C. Turner.—G.G., 17/4/44. Blank cover No. 7, 24/4/44.—W. ELYARD, jurr., (for the Colonial Secretary).

No. 145.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 29 April, 1844.

With reference to Captain King's communication, forwarded to me under blank cover, on the 26th instant, relative to a surrender of 87 acres of land at Newcastle, I have the honor to state, for the information of His Excellency the Governor, that the company having no interest in the land, of course a surrender from them is quite unnecessary, and that a grant from the Crown of any portion thereof is a sufficient title to parties obtaining the same.

I have, &c.,

G. COOPER TURNER,
Civil Crown Solicitor.

My report to the Secretary of State having been forwarded (see despatch No. 34, of the present year), I can make no alteration in it. Moreover, as the 87 acres are included in the 2,000 to be granted to the company, a reconveyance or surrender of them by the company to the Crown does on reconsideration seem to me to be necessary.—G.G., 1/5/44.

The Crown Solicitor appears to labour under some mistake in this matter. The question referred to him was respecting the necessity of the company making a formal surrender of the two portions of land originally taken at Port Stephens, but since given up for land elsewhere. With respect to the surface right of the 87 acres of land at Newcastle there can, I imagine, be no doubt as to the receipt of their reconveyance to the Crown. 1/5/44.

This is my own view of the case; so refer again to the Crown Solicitor, who must, I think, lie under a mistake.—G.G., 1/5/44. Blank Cover, 2/5/44 (for the Colonial Secretary), W. ELYARD, junr. To be returned.

No. 146.

The Civil Crown Solicitor to The Colonial Secretary.

Sir,

Civil Crown Solicitor's Office, Sydney, 9 May, 1844.

With reference to your minute of the 24th April last, transmitting a communication from Captain King, of the 8th of the same month, acknowledging the receipt of a letter from you in which you inform him that His Excellency the Governor had forwarded to the Secretary of State the documents connected with the title deeds, and remind him that besides Her Majesty's special license for alienating the 87 acres of land at Newcastle it will be necessary that there should be a surrender of the lands at Port Stephens.

I have the honor to state, for the information of His Excellency the Governor, that a surrender of the land at Port Stephens is not necessary, as the company never had a legal title to the land; a surrender, therefore, under such circumstances would be of no effect.

The 87 acres were included in the 2,000 acre grant, which land will be surrendered to the Crown by the company after the execution of the grant, with a reservation to the company of the mining right, subject to certain restrictions, a draft for which purpose was prepared and transmitted to you.

I have, &c.,

G. COOPER TURNER,
Civil Crown Solicitor.

Commissioner Australian Agricultural Company, 12/6/44.

No. 147.

The Colonial Secretary to The Commissioner of the A.A. Co.

Sir,

Colonial Secretary's Office, Sydney, 12 June, 1844.

In acknowledging the receipt of your letter of the 8th April, I do myself the honor to inform you that I have since been in communication with the Law Officers of the Crown on the subject, and that they are of opinion that it will not be necessary for the company to surrender by a formal deed the land originally authorised at Port Stephens, but subsequently given up for other lands on Liverpool Plains and the Peel River.

Under the circumstances His Excellency the Governor has been pleased to amend his former report to the Secretary of State in the matter by despatch No. 110-1,844.

I have, &c.,

E. DEAS-THOMSON.

No. 148.

No. 148.

Captain P. P. King to The Colonial Secretary.

Sir,

Port Stephens, 25 June, 1844.

I have the honor to acknowledge the receipt of your letter of the 12th instant, informing me that it will not be necessary for the company to surrender by a formal deed the lands originally authorised at Port Stephens, but subsequently given up for other lands at Liverpool Plains and the Peel River.

I beg to offer you my due acknowledgment for the very great trouble that you have experienced during the progress of this long protracted affair, and to return you my best thanks for the attention you have on all occasions paid to such representations as I have from time to time found it necessary to make for the due observance of the interests of the proprietors of the Australian Agricultural Company.

I have, &c.,

PHILLIP P. KING, Captain, R.N.,
Commissioner of Australian Agricultural Company.

Read.—G.G., 29 June. It is satisfactory to see that Captain King throws no blame on the Government for the delays which have occurred.

No. 149.

The Colonial Secretary to The Surveyor-General.

Sir,

Colonial Secretary's Office, Sydney, 1 October, 1847.

In transmitting to you the accompanying copy of Her Majesty's warrant, directing the Governor to issue a deed of grant of the lands of the Australian Agricultural Company, I am directed by His Excellency to request that you will have the goodness to return the same to me with the descriptions inserted therein duly verified.

I have, &c.,

WM. ELYARD, JUNR.

No. 150.

The Deputy Surveyor-General to The Colonial Secretary.

Sir,

In attention to your letter of the 1st instant, No. 47-374, by which you transmit a copy of Her Majesty's warrants for the making of a deed of grant to the Australian Agricultural Company of the lands promised to them, and request me, by the direction of His Excellency the Governor, to cause the descriptions inserted therein to be duly verified, I have the honor to state, for the information of His Excellency the Governor, that the descriptions have accordingly been compared with the descriptions and maps in the office, and such corrections as were found necessary have been made in red ink, and the copy of the warrant is returned herewith.

I observe that the proposed deed releases the company from all reservations whatever, and I therefore take leave to allude to the expediency of making some arrangement for roads, and also to inquire whether, with reference to the restrictions relative to the working under the town of Newcastle of the land, the surface right to which is withheld by the Crown, it will be necessary to instruct the surveyor of the district, Mr. G. B. White, to see that such conditions as His Excellency the Governor may deem proper to impose are fulfilled.

I have, &c.,

S. A. PERRY,

Deputy Surveyor-General.

Australian Agricultural Company's grant; papers with Executive Council, 9th December, 1847; title deed of the above executed 20th November, 1847; despatched to Registrar-General, 1st December, 1847.

By the report of the Surveyor-General, it would seem that the descriptions given of the Australian Agricultural lands in the letters patent authorising the deed of grant do not, in all instances, agree with those recorded in the Survey Office. In order, however, that there may be no mistake, I am desirous of seeing the original letters again, which are at Government House. 15th October.

I have again carefully examined the descriptions in the letters patent with the copy sent to the Surveyor-General, and find the latter to be perfectly correct. The errors are pointed out by the Surveyor-General in red ink. 21st October.

I conclude that the deed may now be prepared with the descriptions as amended by the Deputy Surveyor-General. 23rd October. Approved.—CHAS. F., 23rd October.

The deed of grant of land to the Australian Agricultural Company (M. 7,261):—The Act of Parliament, 5 George IV., authorising the establishment of this company, directs that the lands shall be held alienated, &c., subject to such conditions, &c., as the charter may impose. The charter, dated 1st November, 1824, declares that all grants to the company shall be made in pursuance of Royal instructions and subject to as fair conditions and provisions therein set forth, which have reference only to the quit rents imposed, the mode of redeeming the same, without any mention of roads. When in the year 1830 the company was allowed to exchange a portion of their selection, it was upon certain conditions—one was that the amended selection should not interfere with the public objects of the Government. And it was originally intended to insert in all the deeds of grant the usual and ordinary reservation of roads, &c., and the Commissioner himself considered that they should be subject to the conditions of the time, namely, 1st November, 1824, but Sir George Gipps' minute on 41-6,786, negatived this as unnecessary, upon the Commissioner now objecting to the same. It appears that the new Act of Parliament enables the Crown to alienate lands freed from the conditions imposed by the charter. The despatch afterwards states that the Act authorises the Queen, by warrant, to grant the lands discharged from all conditions. The warrant itself contains the form of the deed of grant, which is directed to be issued for giving to the company the three portions of country

country lands, the 2,000 acres at Newcastle (reserving the surface of 87 acres, and the company's right to the mining under them), and the two town allotments there, without any conditions, and concludes as follows:—"Freed and discharged from all and every the quit rents, conditions, provisions, limitations, and restrictions in the said letters patent or charter expressed and contained." Now, as pointed out, the conditions of the charter has reference only to the quit rents, and, consequently, the necessary reservations for roads, &c., could be applied to the grant, as not being repugnant to the original charter usual in all grants, and necessary for the welfare of the public. If, therefore, it can be done, the grant of the lands might, as formerly contemplated, contain reservations to the following effect:—Lands required for fortifications and other defences; for public roads, stone, gravel, &c.; other land required for public purposes. In the two town allotments the other conditions, particularly the reservation of coal expressly inserted in other cases, unless the company be restricted in the working of that article, as in the case of the 87 acres, of which the Crown retains the surface right only. It may also be observed that according to the law laid down in this Colony, the conditions of all grants of land from the Crown should be expressly set out therein, and not be subject to definition hereafter, or by any second document, but in this instance the working of the coal under the 87 acres is to be subject to such conditions as to depth and necessary supports as may be approved of by the Governor for the time being, provided, however, that the depth of land from the surface shall not be less than 100 feet. On these 87 acres the greatest portion of the town of Newcastle is situated, and the inhabitants may require to dig for water beyond 100 feet. The home Government could, I imagine, scarcely have borne in mind the situation of these 87 acres, for the deed stipulates that if the company, by mining, damage the surface, it is to make reasonable compensation to the Crown. Under any circumstances, I conclude the descriptions will require to be verified by the Surveyor-General, and such corrections made as may be necessary.—27 September.

(Query). Would not this destroy the town and inhabitants?

The form of deed being given in the Queen's warrant, it does not appear to me that the local Government has any discretion but to follow implicitly the instruction therein given. It may not, however, be amiss before having the deed prepared, to cause the descriptions to be verified by the Deputy Surveyor-General.—29th September.

Let the Deputy Surveyor-General be instructed accordingly.—Cm. F., 30th September. Urgent. Surveyor-General, 1/9/47.

[Enclosure A.]

(No. 127.)

Copy, received by the "Sterling," on the 1st September, 1847.

Sir,

Downing-street, 13 April, 1847.

With reference to the despatches enumerated in the margin from your predecessor respecting the conveyance to the Australian Agricultural Company of the lands which they have occupied for several years under the provisions of their charter, and various arrangements from time to time since their incorporation in 1824, assented to on behalf of the Crown by my predecessors, I have now to apprise you of the decisions which the Government have taken on this subject, and to give you the necessary instructions for completing the title deeds of the company.

I do not propose, on the present occasion, to recapitulate the several matters which, as between the Crown and the company, required to be adjusted, nor do I think that any useful purpose will be accomplished by my drawing your attention to the correspondence on this subject that has passed between this Department, the company, and the Law Officers of the Crown. Upon my accession to office I found that progress towards completing the company's title had already been made, that communications had taken place between Lord Stanley, as well as my immediate predecessor, and the company, that the law officers had been instructed to prepare the necessary instruments to convey the lands to the company, with the right forthwith to alienate a considerable portion. It was, however, discovered, that in consequence of the conditions and restrictions imposed by their charter and the Act (5 George IV. cap. 71) under which it was issued, this conveyance, to be available to the company for the purpose of selling land, could not be effected without the sanction of Parliament. Accordingly, application was made to the Legislature for authority to the Crown to grant, and to the company to hold, or to dispose of land freed and discharged from the conditions and restrictions to which I have above adverted. Parliament has thought proper to sanction that application, acting, I presume, upon the assumption that many of the reservations in question are wholly inapplicable to the state of things at present existing in the Colony, while others are of doubtful advantage to the public; and I now transmit, for your information and guidance, a copy of the Act passed during the last Session, empowering Her Majesty by warrant to authorise you to execute a conveyance to the company of any lands in the Colony, freed and discharged from all conditions and restrictions. Since the passing of this Act I have, myself, also been in communication with the company, and I am unable to perceive that any adequate advantage to the Crown commensurate with the disadvantage to the company will be secured by continuing the conditions and restrictions respecting the tenure and sale of land which, in the early negotiations with the company, or at any subsequent period may have been contemplated on either side, whilst I am greatly impressed on the one hand with the evil that must result from land remaining unproductive in the hands of the company, and on the other with the importance to the Colony at large of encouraging the introduction of capitalists whether they may intend settling upon land the property of the Crown, or of an influential and well-established public company. I have, therefore, felt justified in submitting to the Queen the advice that Her Majesty should issue a warrant directing you to cause to be prepared a deed conveying to the company the land specified in the warrant freed and discharged from all conditions and restrictions; I may also add, that in submitting this advice I was not altogether uninfluenced by the altered state of the company's settlements as respects convict labour.

Her Majesty, approving of the course proposed, has been graciously pleased to affix the Royal Sign Manual to a warrant directing you to execute a deed according to the form therein set forth, which warrant I now transmit to you in original, and I have to instruct you to lose no time in giving due effect to Her Majesty's commands.

It is unnecessary for me to advert in detail to the provisions of the deed, but there is one point on which some further explanation may be convenient. You will not fail to observe that it includes the land at Newcastle where the company have their coal works. It has been thought advisable that the same principle dispensing with conditions and restrictions applied to the other lands should be extended to the land containing coal, and that the company should be released from any engagement to the Crown respecting the coal mines; at the same time that the Government is to be released from any stipulations which otherwise would be binding upon it in consequence of a former agreement with the company, giving them exclusive advantages in the working of coal, which agreement henceforth is to be considered at an end.

I have, &c.,

GREY.

[Enclosure B.]

Enclosed in Earl Grey's despatch, No. 127, 1847.

(L.S.) VICTORIA R.

TRUSTY and well beloved, We greet you well: Whereas by an Act of Parliament passed in the fifth year of the reign of His late Majesty King George the Fourth, intituled "An Act for granting certain powers and authorities to a company to be incorporated by charter to be called the Australian Agricultural Company for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto," it was amongst other things enacted that in case His said Majesty should, within three years after the passing of the said Act be pleased by charter, under the Great Seal of Great Britain, to declare and grant that such and so many persons as should be named therein, and all and every such other person or persons as from time to time should be duly admitted members into their Corporation, should

should be a body politic and corporate, by the name of the Australian Agricultural Company, and to declare that the said corporation so to be made and created should be established for the purpose of cultivating waste lands in the said Colony of New South Wales, then, and in that case it should and might be lawful for the said corporation to hold to them and their successors such lands, tenements, and hereditaments, within the Colony of New South Wales, as should or might be granted by His Majesty to them and their successors within the said Colony, or as should be contracted for and purchased or acquired by them therein, and to hold, alienate, sell, and dispose of all such lands, tenements, and hereditaments upon, under, and subject to such conditions, provisions, limitations, and restrictions, as His said Majesty, by such his charter, might impose, direct, or prescribe. And whereas, in pursuance of the said Act, His said Majesty was pleased by his letters patent or charter, under the Great Seal of Great Britain, dated at Westminster the 1st day of November, in the year of our Lord 1824, and in the fifth year of his reign, to grant and declare that certain persons therein named, and all and every such other person or persons as from time to time should be duly admitted as members into their corporation, should be a body politic and corporate by the name of the Australian Agricultural Company, and by that name should have perpetual succession and a common seal. And it was thereby further declared that all such lands, tenements, and hereditaments within the said Colony as should or might be granted by His Majesty to the said corporation and their successors within the said Colony, or as shall be contracted for and purchased, or acquired by them therein, should be held, alienated, sold, and disposed of, upon, under and subject to the conditions, provisions, limitations, and restrictions, set forth in the said letters patent or charter, among which were certain conditions relating to certain quit rents thereby directed to be reserved to His said Majesty, his heirs and successors, in respect of the lands to be so granted. And whereas, by divers instructions which have been issued from time to time by order of His said Majesty King George the Fourth, and our Royal predecessor, King William the Fourth, to the Governors of our said Colony of New South Wales, the said company have been authorised to take possession of the several lands and hereditaments hereinafter described and authorised to be granted, situated in our said Colony, and have, with the assent of the Governor for the time being of our said Colony, entered into and taken possession of the said lands and hereditaments, and the said company have now been for some several years past in the possession thereof, and they have laid out and expended very large sums of money in the improvement thereof, but no grant thereof hath yet been made to the said company. And whereas by an Act made and passed in the tenth year of our reign, intituled "An Act to amend an Act passed in the fifth year of the reign of His Majesty King George the Fourth, for granting certain powers and authorities to the Australian Agricultural Company" after reciting (among other things) to the effect aforesaid, and further reciting that the said company had substantially fulfilled divers of the conditions contained in the said letters patent on their part to be observed and performed, and that by reason of lapse of time, and the alteration of circumstances, others of the said conditions had become immaterial, it was enacted that it might be lawful for us and our successors from time to time, and at all times thereafter, by warrant under the Royal sign manual, to authorise and empower the Governor for the time being of the said Colony of New South Wales, to execute a deed or deeds under the Great Seal of the said Colony of New South Wales, granting to the said company any lands, tenements, and hereditaments in the said Colony, freed and for ever discharged of and from the quit rents, conditions, provisions, limitations, and restrictions in the said letters patent or charter expressed, or such of them, or such parts thereof, as we or our successors should in and by the said grant or warrant, or grants or warrants, direct, and that it should be lawful for the said company to hold, alienate, sell, and dispose of all or any part or parts of the said lands so to be granted, subject only to such conditions and restrictions (if any) as should be stipulated in and by the grant and grants thereof to the said company, and to hold, alienate, sell, and dispose of all lands purchased, or to be purchased by the said company, free from the conditions and restrictions imposed by the said letters patent. Now, therefore, in consideration of the instructions so issued by command of our said Royal predecessors, and in pursuance of the last hereinbefore recited Act of Parliament, we do hereby direct to you this our warrant under our Royal sign manual, authorising and empowering you to execute a deed under the Great Seal of our said Colony of New South Wales, of or to the tenor or effect following, that is to say: Victoria by the grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, and so forth. To all to whom these presents shall come greeting: Whereas by an Act of Parliament made and passed in the fifth year of the reign of His late Majesty King George the Fourth, intituled "An Act for granting certain powers and authorities to a company to be incorporated by charter, to be called the Australian Agricultural Company, for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto," it was amongst other things enacted that in case His said Majesty should, within three years after the passing of the said Act, be pleased by charter, under the Great Seal of Great Britain, to declare and grant that such and so many persons as should be named therein, and all and every such other person or persons as from time to time should be duly admitted members into their corporation, should be a body politic and corporate by the name of the Australian Agricultural Company, and to declare that the corporation so to be named and created, should be established for the purpose of cultivating waste lands in the said Colony of New South Wales, then and in such cases it should and might be lawful for the said corporation to hold to them and their successors such lands, tenements, and hereditaments within the said Colony of New South Wales, as should or might be granted by His said Majesty to them and to their successors within the said Colony, or as should be contracted for, and purchased or acquired by them therein, and to hold, alienate, sell, and dispose of all such lands, tenements, and hereditaments upon, under, and subject to such conditions and provisions, limitations, and restrictions as His said Majesty by his said charter might impose, direct, or prescribe. And whereas His said late Majesty, by his letters patent or charter under the Great Seal of Great Britain, dated at Westminster the 1st day of November, in the fifth year of the reign of His said Majesty, and in the year of our Lord 1824, after reciting the said Act of Parliament, did by his said letters patent or charter, and declare that certain persons therein named, and all and every such other person or persons as from time to time should be duly admitted members into the said corporation, should be a body politic and corporate by the name of the Australian Agricultural Company, and amongst other things did thereby declare that all such lands, tenements, and hereditaments within the said Colony as should or might be granted by His Majesty to the said corporation and their successors within the said Colony, should be held, alienated, and disposed of under and subject to the conditions, provisions, and limitations, and restrictions in the said letters patent or charter expressed, among which were certain conditions relating to certain quit rents thereby directed to be reserved to His said Majesty, his heirs and successors, in respect of the lands to be so granted. And whereas by divers instructions which have been issued from time to time by order of His said late Majesty King George the Fourth and of His said late Majesty King William the Fourth to the Governors of the said Colony, the said company have been authorised to take possession of the several lands and hereditaments hereinafter described and intended to be hereby granted, and have with the assent of the Governors for the time being of our said Colony entered into and taken possession of the said lands and hereditaments. And the said company have now been for several years past in the possession thereof, and they have laid out and expended very large sums of money in the improvement thereof, but no grant thereof hath yet been made to the said company. And whereas, by an Act made and passed in the tenth year of our reign, intituled "An Act to amend an Act passed in the fifth year of the reign of His Majesty King George the Fourth for granting certain powers and authorities to the Australian Agricultural Company," after reciting (among other things) in part to the effect aforesaid, and further reciting that the said company has substantially fulfilled divers of the conditions contained in the said letters patent on their part to be observed and performed, and that by reason of lapse of time and the alteration of circumstances others of the said conditions had become immaterial, it was enacted that it might be lawful for us and our successors from time to time, and at all times thereafter, by warrant under the Royal sign manual, to authorise and empower the Governor for the time being of the said Colony of New South Wales to execute a deed or deeds, under the Great Seal of the said Colony of New South Wales, granting to the said company any lands, tenements, and hereditaments in the said Colony, freed and for ever discharged of and from the quit rents, conditions, provisions, limitations and restrictions in the said letters patent or charter expressed, or such of them or such parts thereof as we or our successors should, in and by the said grant or warrant or grants or warrants, direct, and that it should be lawful for the said company to hold, alienate, sell, and dispose of all or any part or parts of the said lands so to be granted, subject only to such conditions and restrictions (if any) as should be stipulated in and by the grant or grants thereof to the said company. And whereas we, in consideration of the said instructions, and in pursuance of the last hereinbefore recited Act of Parliament, did, by a warrant under our Royal sign manual, bearing date on or about the 17th April, 1847, transmitted by the Right Honorable Earl Grey, one of our Principal Secretaries of State, authorise and empower the Governor of our said Colony to execute a deed under the Great Seal of the said Colony of or to the tenor or effect of these presents.

Now know ye that, in consideration of the premises, we, of our special grace, mere motion, and certain knowledge, have granted, and for us, our heirs and successors, do hereby grant unto the Australian Agricultural Company and their successors—

successors—Firstly, all that piece or parcel of land in our said Colony, containing by admeasurement, 464,640 acres, be the same more or less, situated in the county of Gloucester, between Port Stephens and the Manning River, bounded on the south by the harbour of Port Stephens : Commencing at the reserve at the base of the North Head, the Karuah River, and a line west from about half a mile below the head of the navigation of that river ; on the west by a line north 47 miles to the Manning River ; on the north by that river east direct 19 miles exclusively of the windings of that river ; and on the east by lines south 2 miles and 52 chains, west 7 miles, south 39 miles, and east 11 miles and 56 chains to a creek of the Myall Lake, and by that lake and the Myall River to Port Stephens. And also secondly all that piece or parcel of land in our said Colony, containing by admeasurement 249,600 acres, be the same more or less, situated in a county and parish unnamed, at Liverpool Plains, bounded on the south by a line west 30 miles : Commencing in a ravine forming the source of the Warrah Brook ; on the west by a line north 13 miles ; on the north by a line east 30 miles ; and on the east by a line south 13 miles to the ravine at the head of Warrah Brook ; and likewise, thirdly, all that other piece or parcel of land in our said Colony, containing by admeasurement 313,298 acres, be the same more or less, situated in a county and parish unnamed, between the river Peel and the Turi Range ; bounded on the west by a line south from Peel River to a remarkable rocky pointed hill, called by the black natives Turi, and measuring 16½ miles ; on the south by lines from that rocky pointed hill, bearing east 10 miles, then south 13 miles, east 4½ miles, south 5 miles, and again east 10 miles and 38 chains to Peel's River, and on the east and north by that river ; and fourthly, all that piece or parcel of land in our said Colony, containing by admeasurement 2,000 acres, situated in the parish of Newcastle, county of Northumberland : Commencing at the north-east corner, and bounded partly on the north by 35 chains and 40 links of the coast on a west line ; on part of the west by a south line of 10 chains to the south side of the road to Maitland ; on the remainder of the north and on the north-east by the south side of the before-named road to the north-west corner, that corner bearing from the centre of the bridge over Throsby's Creek north 319½ degrees east 50 chains ; on the west by a south line of 193 chains 50 links ; on the south by an east line of 162 chains to the coast ; on the south-east by the coast ; and on the east by a line bearing north 15 degrees west 47 chains to the coast at the north-east corner aforesaid, except and always reserved to us, our heirs and successors, out of the said piece or parcel of land containing 2,000 acres, all that piece or parcel of land containing by admeasurement 87 acres, situate in the said county of Northumberland and parish of Newcastle : Commencing at the north-west corner of the township (according to the scale of the maps prepared by Mr. Dangar) and bounded on the west by a line bearing south 7 degrees west 17 chains and 15 links and a line bearing south 15 degrees east 41 chains to the coast line ; on the south by the coast line ; on the east by a line bearing north 15 degrees west 47 chains to the harbour of Newcastle ; and on the north by high-water mark of that harbour westerly to the commencing point ; and fifthly, by way of further grant, and not of exception or reservation, all that other piece or parcel of land in our said Colony, containing by admeasurement, 36 perches, situate in the county of Northumberland and parish of Newcastle, and in the town of Newcastle : Commencing from the south-east corner of allotment No. 21 ; and bounded on the north by its south boundary line, bearing west 7 degrees north 2 chains and 25 links on the west by the east boundary of allotment No. 24, bearing south 7 degrees west 1 chain ; on the south by a line bearing east 7 degrees south 2 chains 25 links to Pacific-street ; and on the east by 1 chain of that street, bearing north 7 degrees east to the south-east corner of allotment No. 21 as aforesaid, being allotment No. 23 ; and sixthly, all that piece or parcel of land in our said Colony, containing by admeasurement 36 perches, situate in the county of Northumberland, parish of Newcastle, town of Newcastle : Commencing from the south-east corner of allotment No. 54 (William Evans), and bounded on the north by its south boundary line, bearing west 7 degrees, north 2 chains and 25 links ; on the west by the east boundary line of allotment No. 53 (William Hicks), bearing south 7 degrees, west 1 chain ; on the south by a line bearing east 7 degrees south 2 chains and 25 links to Watt-street ; and on the east by 1 chain of the west side of that street, bearing north 7 degrees east to the south-east corner of allotment No. 54 aforesaid, being allotment No. 52 ; and seventhly and lastly, full and free license, liberty, and authority unto and for the said Australian Agricultural Company, their successors and assigns for ever, and their agents, servants, and workmen, to enter into, search for, dig, get, take, and carry away to and for the use and benefit of the said company and their successors, all and all manner of coals and minerals, and mines and quarries of coals and minerals, now open for or known, or which at any time hereafter shall be found out and discovered in or under the piece or parcel of land containing 87 acres hereinbefore described, or any part thereof, subject, nevertheless, in the working of such mines in and under the last-mentioned piece or parcel of land to such conditions as to depth and necessary supports as may be approved of by the Governor for the time being of our said Colony, and provided that in no case the depth of land left from the surface of the mine shall be less than 100 feet, they, the said company, and their successors, making reasonable satisfaction unto us, our heirs and successors, for all damage which may be occasioned to all surface of the said piece of land, containing 87 acres, or any part thereof, by or by means of the working of the said mines, together with all rights, members, and appurtenances to the several lands and hereditaments hereby granted or intended so to be. To hold the lands and hereditaments hereby granted or intended so to be, and every part thereof, to the said Australian Agricultural Company, and their successors, for ever freed and for ever discharged from all and every the quit rents, conditions, provisoes, limitations, and restrictions in the said letters patent or charter expressed and contained.

In witness whereof, we have caused our trusty and well-beloved Sir CHARLES AUGUSTUS FITZROY, Knight, our Captain-General and Governor-in-Chief in and over our said Colony of New South Wales and its dependencies, to affix to these presents the public seal of our said Colony, at Government House. And for so doing this shall be your warrant.

Given at our Court at Buckingham Palace, the 31st day of March, 1847, in the tenth year of our reign.

By Her Majesty's Command,
GREY.

No. 151.

The Colonial Secretary to The Commissioner of the A. A. Company.

Sir,

Colonial Secretary's Office, Sydney, 15 November, 1847.

I duly received your letter of the 15th September last, and have delayed acknowledging the same until the instructions from the Secretary of State had been obtained with regard to the terms upon the deed of grant of the Australian Agricultural Company's lands should issue.

These instructions having since arrived, with directions to grant the lands in question upon the conditions referred to in the communication enclosed by you, I now do myself the honor to inform you that the deeds will accordingly be prepared without further delay.

I have, &c.,
E. DEAS-THOMSON.

No. 152.

Deed of Grant to the Australian Agricultural Company.

VICTORIA, by the grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, and so forth.

To all to whom these presents shall come, greeting :

WHEREAS by an Act of Parliament made and passed in the fifth year of the reign of His late Majesty King George the Fourth, intituled "An Act for granting certain powers and authorities to a company to be incorporated by charter, to be called 'The Australian Agricultural Company,' for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto," it was amongst other things enacted that in case His said Majesty should, within three years after the passing of the said Act, be pleased by charter under the Great Seal of Great Britain to declare and grant that

that such and so many persons as should be named therein, and all and every such other person or persons as from time to time should be duly admitted members into their corporation, should be a body politic and corporate by the name of the Australian Agricultural Company, and to declare that the corporation so to be made and created should be established for the purpose of cultivating waste lands in the said Colony of New South Wales, then and in such case it should and might be lawful for the said corporation to hold to them and their successors such land, tenements, and hereditaments within the said Colony of New South Wales as should or might be granted by His said Majesty to them and to their successors within the said Colony, or as should be contracted for and purchased or required by them therein, and to hold, alienate, settle, and dispose of all such land, tenements, and hereditaments upon and subject to such conditions and provisions, limitations and restrictions, as His said Majesty by his said charter might impose, direct, or prescribe.

And whereas His said late Majesty by his letters patent or charter under the Great Seal of Great Britain, dated at Westminster, first day of November, in the fifth year of the reign of His said Majesty, and in the year of our Lord one thousand eight hundred and twenty-four, after reciting the said Act of Parliament, did, by his said letters patent or charter, grant and declare that certain persons therein named, and all and every such other person or persons as from time to time should be duly admitted members into the said Corporation should be a body politic and corporate by the name of the Australian Agricultural Company, and amongst other things did thereby declare that all such lands, tenements, and hereditaments within the said Colony as should or might be granted by His said Majesty to the said corporation and their successors within the said Colony should be held, alienated, and disposed of under and subject to the conditions, provisos, and limitations and restrictions in the said letters patent or charter expressed, among which were certain conditions relating to certain quit-rents, thereby directed to be reserved to His said Majesty, his heirs and successors, in respect of the land to be so granted.

And whereas by divers instructions which have been issued from time to time by order of His said late Majesty King George the Fourth, and of his said late Majesty King William the Fourth, to the Governors of our said Colony, the said Company have been authorised to take possession of the several lands and hereditaments hereinafter described, and intended to be hereby granted, and to have, with the assent of the Governors for the time being of our said Colony, entered into and taken possession of the said lands and hereditaments; and the said Company have now been for several years past in the possession thereof; and they have laid out and expended very large sums of money in the improvement thereof, but no grant thereof hath yet been made to the said Company. And whereas, by an Act made and passed in the tenth year of our Reign, intituled, "An Act to amend an Act passed in the fifth year of the reign of His Majesty King George the Fourth, for granting certain powers and authorities to the Australian Agricultural Company."

After reciting (among other things), in part, to the effects aforesaid, and further, reciting that the said Company had substantially fulfilled divers of the conditions contained in the said letters patent, on their part to be observed and performed, and that, by reason of lapse of time and the alteration of circumstances, others of the said conditions had become immaterial. It was enacted that it might be lawful for us and our successors, from time to time, and at all times thereafter by warrant under the Royal Sign Manual, to authorise and empower the Governors for the time being of the said Colony of New South Wales to execute a deed or deeds under the Great Seal of the said Colony of New South Wales, granting to the said Company any lands, tenements, and hereditaments in the said Colony, freed and for ever discharged of and from the quit-rents, conditions, provisos, limitations, and restrictions in the said letters patent or charter expressed, or such of them, or such parts thereof as we or our successors should in and by the said grant or warrant, or grants and warrants, direct; and that it should be lawful for the said Company to hold, alienate, sell, and dispose of all or any part or parts of the said lands so to be granted, subject only to such conditions and restrictions (if any) as should be stipulated in and by the grant or grants thereof to the said Company. And whereas we, in consideration of the said instructions, and in pursuance of the last hereinbefore recited Act of Parliament, did, by warrant under the Royal Sign Manual, bearing date on or about the thirteenth day of April, one thousand eight hundred and forty-seven, transmitted by the Right Honorable Earl Grey, one of our Principal Under Secretaries of State, authorise and empower the Governor of our said Colony to execute a deed under the Great Seal of the said Colony, of or to the tenor or effect of these presents. Now know ye, that, in consideration of the premises, we, of our special grace, mere motion, and certain knowledge, have granted, and for us, our heirs and successors, do hereby grant unto the Australian Agricultural Company and their successors,—

Firstly, all that piece or parcel of land in our said Colony, containing by admeasurement 464,640 acres, be the same more or less, situated in the county of Gloucester, between Port Stephens and the Manning River; bounded on the south by the harbour of Port Stephens (commencing at the reserve at the base of the north head), the Karuah River, and a line west from about half a mile below the head of the navigation of that river; on the west by a line north 47 miles to the Manning River; on the north by that river east direct 19 miles, exclusively of the windings of that river; and on the east by lines south 2 miles and 52 chains, west 7 miles, south 39 miles, and east 11 miles 56 chains to a creek of the Myall Lake; and by that lake and the Myall River to Port Stephens. And also, secondly, all that piece or parcel of land in our said Colony, containing by admeasurement 249,600 acres, be the same more or less, situated in a county and parish unnamed at Liverpool Plains; bounded on the south by line west 30 miles, commencing in a ravine forming the source of the Warrah Brook; on the west by a line north 13 miles; on the north by a line east 30 miles; and on the east by a line south 13 miles, to the ravine at the head of Warrah Brook. And likewise, thirdly, all that piece or parcel of land in our said Colony, containing by admeasurement 313,298 acres, be the same more or less, situated in a county and parish unnamed, between the river Peel and the Turi Range; bounded on the west by a line south from the Peel River to a remarkably rocky point hill, called by the black natives Turi, and measuring 16½ miles; on the south by lines from that rocky pointed hill, bearing east 10 miles, then south 13 miles, east 4½ miles; south 5 miles, and again east 10 miles and 38 chains to Peel River, and on the east and north by that river. And fourthly, all that piece or parcel of land in our said Colony, containing by admeasurement 2,000 acres, situated in the parish of Newcastle, county of Northumberland: Commencing at the north-east corner, and bounded partly on the north by 35 chains and 40 links of the coast on a west line; on part of the west by a south line of 10 chains to the south side of the road to Maitland; on the remainder of the north and on the north-east by the south side of the before-named road to the north-west corner, that corner bearing from the

the centre of the bridge over Throsby's Creek north $319\frac{1}{2}$ degrees east 50 chains; on the west by a south line of 193 chains 50 links; on the south by an east line of 162 chains to the coast; on the south-east by the coast; and on the east by a line bearing north 15 degrees west 47 chains to the coast at the north-east corner aforesaid,—except and always reserved to us, our heirs and successors, out of the said piece or parcel of land, containing 2,000 acres, all that piece or parcel of land, containing by admeasurement 87 acres, situate in the said county of Northumberland and parish of Newcastle: Commencing at the north-west corner of the township (according to the scale of the maps prepared by Mr. Dangar); and bounded on the west by a line bearing south 7 degrees west, west 17 chains and 15 links, and a line bearing south 15 degrees east 41 chains to the coast line; on the south by the coast line; on the east by a line bearing north 15 degrees west 47 chains to the harbour of Newcastle; and on the north by high-water mark of that harbour westerly to the commencing point. And fifthly, by way of further grant, and not of exception or reservation, all that other piece or parcel of land in our said Colony, containing by admeasurement 36 perches, situate in the said county of Northumberland and parish of Newcastle, and in the town of Newcastle: Commencing from the south-east corner of allotment No. 21; and bounded on the north by its south boundary line bearing west 7 degrees north 2 chains and 25 links; on the west by the east boundary of allotment No. 24, bearing south 7 degrees west 1 chain; on the south by a line bearing east 7 degrees south 2 chains 25 links to Pacific-street and on the east by 1 chain of that street, bearing north 7 degrees east to the south-east corner of allotment No. 21 as aforesaid, being allotment No. 23. And sixthly, all that piece or parcel of land in our said Colony, containing by admeasurement 36 perches, situate in the county of Northumberland, parish of Newcastle, town of Newcastle: Commencing from the south-east corner of allotment No. 54 (William Evans); and bounded on the north by its south boundary-line bearing west 7 degrees north 2 chains and 25 links; on the west by the east boundary-line of allotment No. 53 (William Hicks) bearing south 7 degrees west 1 chain; on the south by a line bearing east 7 degrees south 2 chains and 25 links to Watt-street; and on the east by 1 chain of the west side of that street bearing north 7 degrees east to the south-east corner of allotment No. 54 aforesaid, being allotment No. 52. And seventhly and lastly, full and free license, liberty, and authority unto and for the said Australian Agricultural Company, their successors and assigns for ever, and their agents, servants, and workmen to enter into, search for, dig, get, take, and carry away, to and for the use and benefit of the said Company, and their successors, all and all manner of coals and minerals, and mines and quarries of coals and minerals now open for or known, or which at any time hereafter shall be found out and discovered in or under the piece or parcel of ground containing 87 acres, hereinbefore described, or any part thereof; subject, nevertheless, in the working of such mines in and under the last mentioned piece or parcel of land to such conditions as to depth and necessary supports as may be approved of by the Governor for the time being of our said Colony; and provided that in no case the depth of land left from the surface of the mine shall be less than 100 feet, they, the said Company and their successors making reasonable satisfaction unto us, our heirs and successors, for all damage which may be occasioned to the surface of the said piece of land, containing 87 acres, or any part thereof, by or by means of the working of the said mines; together with all rights, members, and appurtenances to the several lands and hereditaments hereby granted or intended so to be; to hold the lands and hereditaments hereby granted, or intended so to be, and every part thereof to the said Australian Agricultural Company and their successors for ever, freed and for ever discharged from all and every the quit-rents, conditions, provisos, limitations, and restrictions in the said letters patent or charter expressed and contained.

In witness whereof we have caused our trusty and well-beloved Sir Charles Augustus Fitzroy, Knight, our Captain-General and Governor-in-Chief in and over our said Colony of New South Wales and its Dependencies, to affix to these presents the public seal of our said Colony at Government House, Sydney, in New South Wales aforesaid, this 20th day of November, in the 11th year of our Reign, and in the year of our Lord 1847.

CHAS. A. FITZROY.

Entered on record by me, this 27th day of November, 1847. The words from "to execute, &c.," to "granting" being interlined after "Wales" in the 16th line of page 505, this registration being now a verbatim copy of the original deed as executed,—

E. DEAS-THOMSON,
Colonial Secretary and Registrar.

No. 153.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir, Surveyor-General's Office, Sydney, 28 February, 1876.

Under separate cover, I have this day forwarded for your information, a packet of tracings, and I have to request that you will survey the boundaries between the Australian Agricultural Company's grant and the Church and School Estate shown thereon, for which you will be paid £3 per diem.

You will start from the Karuah River at the known point half a mile below the head of navigation, and there observe for true meridian, and when ascertained to start off at a bearing of 278 degrees 51 minutes 30 seconds, and run the line out till you intersect the old marked west boundary with line or its prolongation. As you proceed, you will measure offsets from the astronomical line to the old marked line, and note the extent of deviation, and if it is progressive.

Should you find the deviation excessive, say 4 or 5 chains, you will (after testing the north line for a few miles, and finding the deviation continuous) alter the bearing an even number of minutes in order to make the offsets shorter, being careful to decrease the bearing one minute for every 11 miles and 60 chains made northerly to correct for divergence of meridian.

The old line to be established as nearly as possible in its present position, only straightening it between the mile marks, if they can be traced. This line as so re-established will be adopted in the subdivision of the Church and School lands adjacent.

As the portions to be measured will be scattered or in different localities it will be necessary that permanent marks and reference trees be left at intervals to afford connection for the portion so subdivided.

You

You will be good enough to supply a plan showing the relative position of the astronomical line and the old marked line, showing at what distance along the former line the offsets were taken, and the position of the reference trees on the old line. You will also leave permanent marks and reference trees at the station from which observation for the true meridian was taken.

You will please send the field and observation books with your plans, in order that a thorough examination of the work may be made in this office.

I am, &c.,

P. F. ADAMS.

Observations for the true meridian should be taken at distances not further apart than from 4 to 6 miles, the nearer to the 11 miles 60 chains spaces on the north line the better, and will simplify calculations. The line should never be more than one or two minutes out to be of geodetic value.—P.F.A., 3 March.

No. 154.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Camp, Cromarty's Creek, Dungog, 1 June, 1876.

I have the honor to transmit herewith the plan of part of the division line between the Australian Agricultural Company's grant and Church and School estate, together with list of observations taken for the purpose of re-establishing this line, also a report of each day's services performed by me during the period from the 1st to 31st May, 1876, performed in accordance with instructions dated 8th March, 1876-4.

It may be seen from the sketch herewith enclosed, that the country through which this line passes is very rough, which, together with its being thickly and heavily timbered, militates considerably against a more speedy progress of this work.

The line shown in blue and starting from a rock marked with broad-arrow, situated on west bank of Karuah River between Rocky Falls and head of navigation, represents the astronomical line which I am running on, bearing 278 degrees 51 minutes 30 seconds from true meridian—that marked in black represents the company's old marked southern boundary, its deviation from the astronomical line being shown by offsets on a scale of 2 chains to 1 inch.

In proceeding with the astronomical line, I find at 30 chains the company's marked line trended southward 30 links. Having used a 5-inch theodolite here for the purpose of clearing, I noticed slight local attraction varying from three to five minutes west of north; proceeding 30 chains further, both lines intersect and continue as one line for 10 chains, when the company's line again trended south, and at the end of the first mile the offset reaches 40 links. Proceeding on with the second mile, I find the offsets increasing gradually until, having reached 40 chains, where the old marked line is 1 chain south, and continues at this offset 20 chains further.

I now beg most respectfully to submit an account of each day's performances during the period from the 1st to the 31st May inclusive:—

1st and 2nd,—Delayed in Sydney awaiting preparation of letter to Mr. Gregson, requesting his concurrence in the survey of this line. May 3rd,—Called upon Mr. Gregson at Newcastle, and presented above letter, after which I proceeded to Maitland, and on the 4th started three men en route to camp. 5th and 6th May,—Delayed in Maitland obtaining necessary equipment for work. 8th—Arrived at camp, Clarence Town. 9th,—Reached head-quarters at Black Camp Creek. 10th,—Arranged camp, and called upon Mr. District-Surveyor Evans. 11th,—Removed to starting point on Karuah River, took two observations for true meridian and latitude. 12th,—Arranged camp, and spent remainder of the day in tracing old line. 13th,—Called upon Mr. Ogden, Australian Agricultural Company's surveyor at Stroud; started clearing. 15th,—Determined starting point, shown to me in the presence of my men by Mr. Ogden. 16th,—Cleared old scrub about starting point, drilled hole in rock, and marked broad-arrow. 18th,—Clearing for sight to top of hill 2,000. 19th and 20th,—Raining heavily; unable to perform any outside work. 22nd,—Clearing traverse to wharf at head of navigation. Owing to the wet and cloudy weather which continued from the 18th to the 22nd May, I was unable to obtain any observation for latitude and meridian. 23rd and 24th,—Took observations for latitude and azimuth. 25th,—Started in bearing 278 degrees 51 minutes 30 seconds from true meridian—2,000. 26th,—Continued 2,000 further. 27th,—Continued 2,000 further. 29th,—Reached end of first mile; drilled hole in flat stone, and placed it beneath surface marked by reference tree. 30th,—Continued on 3,000 further. 31st,—Reached 6,000 in second mile, intersected pole on first hill 2,000 chains from starting point. As I have no convenience for drawing or writing, having to use instrument box for table, I find a difficulty in preparing monthly sketches in anything like neat form.

I have, &c.,

DANIEL MURPHY.

Inform Mr. Murphy that he will be good enough in future to make separate communications on each subject. The journal for the month should have been sent in on the printed form. Then to Mr. Vessey for checking astronomical observations.—P.F.A., 22. Mr. Licensed-Surveyor Murphy, 27th June, 1876; No. 14.

No. 155.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 27 June, 1876.

In acknowledging the receipt on the 20th of your letter of the 1st instant, No. 76-12, transmitting your plan of part of division line between the Australian Agricultural Company's grant, and Church and School Estate, I have to request that you will be good enough in future to make separate communications on each subject; and that you will use the printed forms furnished from the office for your monthly progress journals.

I am, &c.,

P. F. ADAMS.

No. 156.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Dungog, 1 July, 1876.

I have the honor to transmit herewith sketch showing quantity of work performed by me during the month of June, performed in accordance with instructions, dated 8th March, 76-4.

Before proceeding further according to your directions, I have taken the liberty of reporting the result of this work at once, in order to obtain further information as to how I shall proceed.

The position of the Australian Agricultural Company's southern boundary with reference to the astronomical line is shown on sketch, and I find that the company's south-west corner is 1.79 chains south from the point where the astronomical intersects the western boundary-line, distance 8 miles 8 chains and 5 links from starting point on Karuah River.

Three sketches herewith.

I have, &c.,

DANIEL MURPHY.

Refer with any previous reports to Mr. Vessey, who will be good enough to examine observations, and return to me.—P.F.A.

No. 157.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 6 July, 1876.

In forwarding you herewith a proof copy of the note-book applied for by your letter of the 21st ultimo, No. 76-23, I beg to remind you that in the survey of the Australian Agricultural Company's boundary in the county of Gloucester, that you are at present engaged upon, you have only to record the magnetic variation as you progress, and that the only paragraphs of Mr. Russell's article that bear upon your work are the 7 S and 8 S concerning the daily variation of the needle.

I am, &c.,

P. F. ADAMS.

No. 158.

Office Memorandum.

Memo. to The Surveyor-General.

Surveyor-General's Office, Trigonometrical Branch, 11 July, 1876.

Mr. Licensed-Surveyor Murphy's azimuth observations at 2 miles 75 chains and at 7 miles from Karuah River.

MR. MURPHY uses the mean declinations of the stars observed as before, and he further uses the latitude of his starting-point at Karuah River, instead of the local latitude deduced from this and from the difference of latitude of his line. Fortunately in this case these errors tend to cancel each other, and Mr. Murphy's calculations are thus nearly correct.

His report, however, shows distinctly that his line both at 2 miles 75 chains, and at 7 miles from the starting-point, still bears 278 degrees 51 minutes 30 seconds (within a few seconds), or the same bearing as that on which he started it. This is manifestly impossible if the line be straight. It is just possible that Mr. Murphy has sent in an incomplete report of his observations and work, but as it stands he must either have run the line on a curve, or his observations are seriously at fault.

L. A. VESSEY.

No. 159.

Telegram from The Surveyor-General to Mr. Licensed-Surveyor Murphy.

TRUE bearing at elongation at *Alpha Pavonis* is now 139 degrees 56 minutes 45 seconds, and of *Beta Argus* is 204 degrees 53 minutes 20 seconds. Observe the stars, and start the western boundary from the south-west corner on true bearing 8 degrees 56 minutes, as shown in your instructions. If you run the line straight you will find its bearing change gradually, as shown on sketch. Letter by post.

P. F. ADAMS,

Surveyor-General.

No. 160.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 12 July, 1876.

In connection with my telegram to you hereon of yesterday, I have to inform you that true bearing at elongation of *Alpha Pavonis* is now 139 degrees 56 minutes 45 seconds, and of *Beta Argus* is 204 degrees 53 minutes 20 seconds.

Observe these stars, and start the western boundary from the south-west corner on true bearing 8 degrees 56 minutes, as shown in your instructions.

If you run the line straight you will find its bearing change gradually, as shown on sketch.

I am, &c.,

P. F. ADAMS.

No. 161.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Camp, Dungog, 26 July, 1876.

1. With reference to Mr. Vessey's memo., dated 5th July instant, pointing out certain errors in latitude, and azimuth taken by me on 22nd and 23rd May ultimo, for the purpose of defining southern boundary of Australian Agricultural Company's grant, I beg most respectfully to state:—

2. (1st.) That the observations taken by me on above dates, and forwarded to you in my letter dated 1st June, 76-22, are the only reliable observations in my possession, and considering that the error is according to Mr. Vessey's recalculation only 4" in azimuth and 25" in latitude, principally caused by my using mean declination taken from star book, this error might be overlooked, as judging from the inconvenience I am subjected to, especially at this time of the year, I find it practically impossible to obtain accuracy.

3. As Mr. Vessey has been good enough to point out these deficiencies in recalculating, and showing corrections, I have taken the liberty of adopting these corrected observations, and herewith submit a copy.

(2nd.) After having determined latitude and azimuth, I proceeded on bearing 278 degrees 51 minutes 30 seconds from true meridian, according to instructions, and having reached 2 miles 75 chains again, took observations to *A. Tranguli* and *B. Argus*, as shown on enclosed sheet, and I may here state that I was under the impression that my bearing should still be 278 degrees 51 minutes 30 seconds, therefore did not take into consideration the convergency thus producing, as I then thought, an error of nearly two minutes. On the following night I accordingly observed the same stars, and made my reading check as nearly as possible with 278 degrees 51 minutes 30 seconds; consequently the error.

(3rd.) At the end of the seventh mile I found the supposed error increasing, but as the weather at the time I sent in my report did not permit of my repeating observations, I sent in those taken, which Mr. Vessey has shown as manifestly impossible if the line were straight. Having finished the southern boundary I sent in my report, and pending reply to which, having right-angled off 278 degrees 51 minutes 30 seconds, I had proceeded with western boundary 1 mile on bearing 368 degrees 51 minutes 30 seconds, when I received your telegram sending bearings of *A. Pavonis* and *B. Argus*. I accordingly observed those stars and found a difference of 30 seconds in my western line.

I now beg most respectfully to state that there being no mention of convergency in my original instructions with reference to the southern line, and owing to my inexperience in this work, that, notwithstanding the extreme care with which I ran this line, I was at a loss to understand how any error could exist.

I have, &c.,

DANIEL MURPHY.

I am not at all surprised that Mr. Murphy should have become confused in his first geodetic operation, and he will remember that by offering him the district containing this important matter that I stipulated that he should not have full payment. He will at once proceed to Sydney, bringing all his notes, observations, and papers, when I anticipate no difficulty in extricating him from the difficulty.—P.F.A., S/S/

No. 162.

Office Memorandum.

Memo. to The Surveyor-General.

Surveyor-General's Office, Trigonometrical Branch.

Mr. Licensed-Surveyor Murphy's retrace of Australian Agricultural Company's boundary, county Gloucester.

It is impossible to learn from Mr. Murphy's reply what he has actually done upon the ground. The end of the fourth paragraph is a very unsatisfactory explanation of what he did at 2 miles 75 chains. Section five shows that he had what he thought was an increasing error at 7 miles, although his previous report showed none, and in section six he states that he started the western boundary on 8 degrees 51 minutes 30 seconds, although, by the sketch sent him, its bearing should have been 8 degrees 56 minutes.

I feel satisfied that his lines are straight between his stations, but I do not think he has sufficient geodetic knowledge to enable him to straighten his line throughout, without explicit directions, and to enable these to be issued, he must clearly state, showing all his supposed errors, what he has done at each station, and what changes he has made in the direction of his line, with rough sketches, if necessary. This will probably clear up section four, and may explain why the observations he now sends, as made upon 1st July, should differ more than 3 minutes from the same observations by his previous report.

L. A. VESSEY.

4th August, 1876.

Forwarded, with letter, for Mr. Murphy's information.—P.F.A., 8th August.

No. 163.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 8 August, 1876.

In acknowledging the receipt of your further report of 26th ultimo, in connection with your retrace of the Australian Agricultural Company's boundary, county Gloucester, I beg to inform you that I am not at all surprised that you should have become confused in your first geodetic operations, and you will remember that by offering you the district containing this important matter that I stipulated that you should not have full payment. I forward you herewith Mr. Vessey's memo., of the 4th instant, on the subject, and I have to request that you will at once proceed to Sydney, bringing all your observations, notes, and papers with you, when I anticipate no difficulty in extricating you from the difficulty.

I am, &c.,

P.F.A.

No. 164.

No. 164.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Dungog, 25 August, 1876.

I have the honor to transmit a general report on work performed by me during the period from 1st May to 25th August, 1876, surveyed, in accordance with instructions dated 8th March, 76-4.

2. In submitting the above-mentioned report, I beg most respectfully to state that I have now finished the fourth mile on western boundary of the Australian Agricultural Company's grant, county Gloucester.

3. Having started on the Karuah River, at a point shown by Mr. Ogden, Australian Agricultural Company's surveyor, and agreeing with your instructions, I proceeded on bearing 278 degrees 51 minutes 30 seconds from true north, and after running 8 miles 8 chains 0.5 links in a straight line, intersected the company's western boundary 1 chain 79 links north of old south-west corner.

4. Thence, in accordance with your instructions, dated 15th July, 76-17, I joined the old south-west corner and the starting point on the Karuah River by an indelibly marked tree line.

5. Having then started on bearing 8 degrees 56 minutes from the north, I found the old marked western boundary and the astronomical line agreed as one straight line during the first mile, the second and third miles showed that the old line trended on an average 0.40 links westward, but at the end of the third mile, and throughout the fourth, both lines agree as one.

Owing to the broken and rugged nature of the country through which this division line passes, as well as the fact of its being so heavily timbered, together with numbers of dense bushes which abound in this district, I find it very difficult to make anything approaching speedy progress, nor can I form any idea of the length of time it may take to finish this work.

When once finished, however, it will suffice to prevent all further doubt as to the exact position of this western boundary, and will also act as a reference line in the triangulation of the county of Gloucester.

I have, &c.,

DANIEL MURPHY.

Instruct Mr. Murphy to abandon the present practice of clearing the line for sky view throughout, adopting transit clearings on summits only, the intervening portions of the line to be marked as correctly as possible without clearing more than the undergrowths. He will, however, continue to be as accurate as possible in chaining.—P.F.A., 8th September.

Licensed-Surveyor Murphy informed, 12th September, 1876, No. 23.

No. 165.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Dungog, 1 September, 1876.

I have the honor to transmit herewith sketch showing position of western boundary of Australian Agricultural Company's grant, also amount of work performed by me during the period from the 1st to 31st August, 1876.

Previous to my proceeding to Sydney, on the 14th August ultimo, I cleared the valleys as well as the hilltops, but since my return, according to your directions, I have cleared the hilltops only, and find that it greatly expedites a more speedy progress with the work.

I have, &c.,

DANIEL MURPHY.

No. 166.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 12 September, 1876.

In reference to your report of the 25th ultimo, No. 76-27, on work performed, I have to request that you will be good enough to abandon your present practice of clearing the line for sky view throughout, adopting transit clearings on summits only, the intervening portions of the line to be marked as correctly as possible, without clearing more than the undergrowth. You will, however, continue to be as accurate as possible in chaining.

I am, &c.,

P. F. ADAMS.

No. 167.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Camp, Dungog, 2 October, 1876.

I have the honor to transmit herewith sketch and report, showing amount of work performed during the period from 1st to 30th September, 1876.

At the fifth mile, north from south-west corner the company's old marked and the astronomical line which I am running, showed no perceptible difference.

Consequently I continued in a straight line, but at 30 chains, on 6th mile, the old marked line began to trend westward (as shown on sketch), and at 10 miles the old marked line is 2 chains 50 links west of the astronomical line.

As this deviation appears to be progressive, and as it is more than probable that it may continue throughout, I intend reducing my bearing five minutes at the 11 miles 60 chains, but before doing so would beg most respectfully to ask your advice and directions as to the most desirable course to pursue.

I have, &c.,

DANIEL MURPHY.

No. 168.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 1 November, 1876.

Having heard that you are in ill-health, and unable to get on with the survey of the boundary line entrusted to you as fast as you desire, I have to inform you that should you desire it, I am prepared to relieve you of the duty.

I am about instructing Mr. District-Surveyor Evans to visit the ground and report on the progress and the manner in which the work is being done.

I am, &c.,

P. F. ADAMS.

No. 169.

The Surveyor-General to Mr. District-Surveyor Evans.

Sir,

Surveyor-General's Office, Sydney, 2 November, 1876.

I have to request that you will be so good as to visit the boundary-line in course of measurement between the Australian Agricultural Company's and the Church and School Estate near Stroud.

I forward you herewith all the papers connected therewith, and wish you to furnish me with a report as to whether you consider the time occupied reasonable or otherwise, and whether proper judgment has been used in working the party to advantage, and if strong enough to cope with the work. I do not require your report as to the astronomical part of the works, but you may note the delays, if any, caused by want of data to proceed with the work arising from this cause.

I transmit you herewith a copy of my letter to Mr. L.-S. Murphy on this subject.

I am, &c.,

P. F. ADAMS.

Returned according to verbal instructions from the Surveyor-General, Mr. Murphy having broken up his camp and left the ground before the receipt of these instructions.—THOMAS EVANS, District Surveyor, B.C., 2/1/77-1.

May be sent to Mr. L.-S. Wood, who will be appointed to succeed Mr. Murphy in this work.—P.F.A., 19. No. 123.

No. 170.

The Surveyor-General to Mr. Licensed-Surveyor Murphy.

Sir,

Surveyor-General's Office, Sydney, 24 November, 1876.

In reply to your letter of the 10th instant, reporting on your inability to proceed with the work in connection with the Australian Agricultural Company's western boundary, county of Gloucester, I have to request that you will be good enough to hand to Mr. District-Surveyor Evans all papers, instruments, &c., connected therewith. Salary will be paid to you to the end of last month, and the men's wages to the day of your discharging them, for which you will please furnish the abstracts at once.

I am, &c.,

P. F. ADAMS.

No. 171.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

East Maitland, 4 January, 1877.

I have the honor to acquaint you, in answer to your letter dated 29th December, 76-33, requesting return of all papers, plans, &c., in connection with Australian Agricultural Company's south boundary, that I have already transferred to Mr. District-Surveyor Evans, in accordance with instructions dated 24th November, 76-30, all papers, instruments, and tracings connected with the boundary line between the Australian Agricultural Company's land and Church and School Estate.

I have, &c.,

DANIEL MURPHY.

Mr. Evans will be good enough to return papers in this case.—P.F.A., 14/1. No. 12.

Enclosed please find eight letters addressed to Mr. Licensed-Surveyor Murphy, Nos. 76-4, 14, 16, 18, with enclosures 20, 23, 29, and 30, also field-book used by him in the survey of the Australian Agricultural Company's boundary, and, under separate cover, are forwarded by same post seven tracings of adjoining lands. I retain six in theodolite, S.G.O., No. 65, and telescope left by Mr. Murphy.—THOMAS EVANS, District Surveyor, B.C., 19/1/77-15.

Papers may be inspected by Mr. Licensed-Surveyor Wood, who will be employed on this work.—P.F.A., 8.

For enclosures see Nos 153, 155, 157, 160, 183, 166, 168, and 109.

No. 172.

The Surveyor-General to Mr. Licensed-Surveyor Wood.

Sir,

Surveyor-General's Office, Sydney, 11 April, 1877.

I have to request that you will be good enough to take charge of the measurement of the geodetic boundary-line between the Church and School Estate and the Australian Agricultural Company's land, as left by Mr. Licensed-Surveyor Murphy, and proceed with the instructions issued originally to that gentleman.

I am, &c.,

P. F. ADAMS.

Received and forwarded.—T.E., 18/4. Returned with my letter, 78-1, of 27th of February, 1878.—W. H. O'M. WOOD.

No. 173.

No. 173.

The Surveyor-General to Mr. Licensed-Surveyor Wood.

Sir,

Surveyor-General's Office, Sydney, 23 April, 1877.

Cost of transport for self and party as far from Maitland as he can travel by carriage, and returning to that place. Other forms forwarded under separate cover.

In reference to my letter of the 11th instant, No. 77-2, requesting you to take charge of the measurement of the geodetic boundary line between that Church and School Estate and the Australian Agricultural Company's land, I have now to inform you that the Honorable the Secretary for Lands has been pleased to approve of your carrying out such service on the same conditions as to payment, &c., as approved in the first instance to Mr. Murphy, viz., salary and allowances of a second-class surveyor, with wages of party and cost of transport as per margin, and as specified on form of account transmitted herewith for your use monthly.

I am, &c.,

ROBT. D. FITZGERALD

(For Surveyor-General).

No. 174.

Mr. Licensed-Surveyor Wood to The Surveyor-General.

Sir,

Camp, Barrington River, 8 September, 1877.

I have the honor to inform you that I am now remarking the old boundary between the Australian Agricultural Company's land and the Church and School Estate, in the county of Gloucester. And have the honor to draw your attention to the fact that Mr. Licensed-Surveyor Murphy did not remark that part of the old boundary lying beside that portion of the geodetic line measured by him. I have also the honor to state that the offsets from the geodetic line to the old marked line are very short, the offset at the point where Mr. Murphy left off being only $3\frac{1}{2}$ chains.

Would you kindly inform me whether I am to remark that part of the old boundary above referred to.

Should you require this part of the old line remarked, I have the honor to apply for a sketch or tracing showing the offsets taken from the geodetic to the old marked line by Mr. Licensed-Surveyor Murphy.

I have, &c.,

W. H. O'M. WOOD,

Licensed Surveyor.

Submitted that the geodetic line run by Mr. Murphy is in such close proximity to the old marked line, and the nature of the country being of an almost unavailable character, that there will be no necessity to remark the old line. I have no survey plan of the 11 miles of the west boundary made by Mr. Murphy. I am informed by Mr. Murphy that the few marked trees that he did find were so far apart that it would necessitate the calculation of the direct bearing between them to mark the intervening distance. Should you deem it unnecessary to remark the old line, will the question require the concurrence of Mr. Gregson?—C. B. BROWNRIFF, 28/9/77. The Surveyor-General.

Mr. Brownrigg,—Survey of Mr. Murphy's offsets to be supplied, the line to be remarked by compass, picking up the old trees, &c. The distance from them to the old line should be shown at every mile.—P.F.A.

Mr. Murphy instructed to forward plans, 5/10/77.

No. 175.

Mr. Licensed-Surveyor Murphy to The Surveyor-General.

Sir,

Barrington, 30 January, 1878.

I have the honor to transmit herewith the plan in duplicate of 11 miles 60 chains of the boundary between the Church and School Estate and the Australian Agricultural Company's grant, surveyed and drawn in accordance with instructions dated 8th March, 76-4, and 3rd October, 77-28.

I should have transmitted these plans while engaged at special rates, but was prevented at the time from doing so through illness.

This line starts on a bearing of 8 degrees 56 minutes east from true north, and shows no appreciable difference from the old marked line for half a mile, which here begins to gradually trend westward for 2 miles, when its greatest offset reaches 1 chain; it then trends eastward, until at the end of the 5th mile both lines again join, and continue as one for 20 chains further, when the old marked line again leaves the astronomical line, and continues gradually to trend westward, until at the end of 11 miles 60 chains the offsets reach 3 chains 50 links west.

Old marked trees are not so plentiful here as along the first 5 miles, but I succeeded in tracing the old line correctly to the finish.

With regard to the country through which this line passes, it is on the whole broken and rugged; in places tolerably suited for grazing purposes; but is in its present state, owing to the number of mountain bushes, almost unavailable.

It could, however, be greatly improved by ringbarking and clearing, as the country is of late years becoming inaccessible with undergrowth.

Sandstone ranges prevail, but at the 8th mile I noticed limestone cropping above the surface.

My last observations were taken 7 miles 53 chains north from south-west corner, and transmitted with letter dated 2nd October, 76-29, and showing an error of 7 seconds in astronomical line, which having corrected, I proceeded in the usual manner, viz., intersecting hilltops and obtaining long sights to 11th mile stone.

I have, &c.,

DANIEL MURPHY.

No. 176.

Mr. Licensed-Surveyor Wood to The Surveyor-General

Sir,

Sydney, 27 February, 1878.

In accordance with my instructions, No. 77-2, of 11th of April, I have the honor to transmit herewith a plan (in three sheets), and rendered in duplicate, of the geodetic line, fixing the position of the boundary between the Australian Agricultural Company's grant and the Church and School Estate in the county of Gloucester, I have the honor to draw your attention to the fact of my having changed the bearing of the geodetic line 10 minutes at the point where I commenced.

I have, &c.,

W. H. O'M. WOOD,
Licensed Surveyor.

No. 177.

Mr. Licensed-Surveyor Wood to The Surveyor-General.

Sir,

Sydney, 27 February, 1878.

I have the honor to transmit herewith a plan of the offset measured by me from the geodetic line to the western boundary of the Church and School Estate.

This measurement was done in accordance with verbal instructions.

Date of survey from 10th to 12th of January, 1878.

Five-inch theodolite used in survey.

I have, &c.,

W. H. O'M. WOOD,
Licensed Surveyor.

No. 178.

The District Surveyor, Maitland, to The Under Secretary for Lands.

Re the determination of part of the north and east boundaries of the Australian Agricultural Company's Estate at Stroud.

Sir,

10th December, 1887.

I have the honor to draw your attention to the apparent necessity that now exists for some steps to be taken to permanently define two of the boundaries of the Australian Agricultural Company's Estate at Stroud, county of Gloucester (*i.e.*, so much of the north boundary as forms the south boundary of the parish of Nerong, and of the east boundary as forms the west boundary of the parishes of Nerong, Willabah, Myall, Euther, Kyle, Mimi, and Belbora, county of Gloucester) edged red on annexed tracing.

Surveys are now advancing in the vicinity of these lines, and considerable doubt exists as to their true position. As will be seen by reference to the enclosures (Miscellaneous 84-9,757 and Land Board 87-5,138) and in view of the probable revocation of the Gooloogoolook Gold-field, it is desirable that the question be now set at rest.

The distance requiring re-definition is about 50 miles, which, with necessary connections, would total 56 miles of measurement.

The difficulties to be encountered, apart from the actual definition of the line, which, in one case, is a straight run of about 39 miles, will be considerable, as the country is very rugged, and in places covered with scrub and brush. So far, there is little or no settlement near, so that arrangements for victualling a strong party will have to be carefully planned.

From what I can learn, none of the old marks can now be found, and only a compass line has been run (along the boundaries) as a temporary expedient in connection with the cutting of timber on the Company's estate.

I have had a conversation on this subject with the general superintendent of the Australian Agricultural Company, and he said that they are desirous of having the position of the boundaries definitely fixed, and he was sure that a proportion of the expense would be borne by the Company, but to what extent he did not then commit himself.

With reference to the cost, I would point out that some years ago the position of the boundary between the Church and School Estate and the Australian Agricultural Company's Estate was determined, and from the cost of that some idea of the expense now to be incurred might be estimated. I think that, with the experience there gained, these lines should be done more reasonably.

This work should be done in connection with the trigonometrical survey, and I think that I am correct in saying that a point has been fixed near the intersection of the boundaries now under notice with that object in view.

The surveyor entrusted with this work would require a special outfit, and possibly Acting Surveyor-General might detail some surveyor specially fitted for the work, and give me any special directions he may consider necessary, so that it might be made use of in any general survey.

I would further suggest that the general superintendent of the Australian Agricultural Company be officially communicated with to learn what moiety of the cost the Company are prepared to bear.

I have, &c.,

J. WITTER ALLWORTH,
District Surveyor.

No. 179.

Mr. Surveyor Wood to The Acting Surveyor-General.

Dear Sir,

Queanbeyan, 26 December, 1887.

In reply to your letter of the 22nd instant, I do not think the system adopted for the determination of the boundary between the Australian Agricultural Company's grant and the Church and School Estate can be improved upon, excepting in matters of detail.

Care should be taken to select a man for the service who has had practical experience in cedar brush country, and his instructions in the details of the work should be more explicit than were supplied to me.

The geodetic line should be straight from start to finish, the azimuth to start on should be carefully determined from the line I ran and laid off on the ground by astronomy.

Latitude should be determined at the terminal points of the survey, and from these the latitude of intermediate stations can be interpolated.

Azimuth observations should be taken about every 10 or 12 miles; sufficient offsets to the old marked boundary should be taken to enable the surveyor to retrace it.

Where there is no brush I think a line carefully run with a 6-inch theodolite, blazed and aligned in the usual manner, would be good enough, provided that $1\frac{1}{2}$ mile-posts of exceptionally substantial character were put in and referenced.

In brush country mile-posts are necessary, but alignment pegs and half-mile posts might be dispensed with, the line run by needle, and well blazed. It would, however, be necessary to carry the line by a series of long sights with theodolite from hilltop to hilltop over the brush country. In order to prevent the surveyor from getting too much out with his compass work, it would be well to put some limit upon the length of his sights (say 3 miles). The sight-marks on hilltops should be well marked (a good method is to place a drilled stone 18 inches under the surface, a large peg on top of it, and a cairn of stones over all; one or two trees might also be referenced).

The brush I had to contend with rarely reached the tops of high hills, although the lower ridges and flat land were often so densely interwoven with scrub and vines as to render it impossible for a man to creep through them.

Each mile-peg on the boundary should be fixed by offset from the geodetic mile-peg, and if the geodetic line is chained twice (a practice that I strongly recommend) the chainage of the boundary need only be done roughly for the features.

In forest country the boundary between mile-posts might be run with theodolite and aligned, but in brush country, I think, the needle should be used and alignment pegs omitted.

If the work is carried out in this way I think the geodetic line might be completed at a cost of £5 or £6 per mile, and the boundary re-marked at about £2 per mile.

If an attempt is made to carry an accurate theodolite survey through the brush, making the work complete in every detail, it will cost nearly twice as much.

If any other information is required I will gladly furnish all I know.

Yours, &c.,

W. H. O'M. WOOD.

No. 180.

Office Memorandum.

Surveyor-General's Office, Sydney, 30 December, 1887.

THE eastern boundary of the Australian Agricultural Company's grant is a line north about 38 miles; the definition thereof is not a matter of ordinary survey, but requires greater skill and other appliances in order to ensure accuracy.

In a previous minute (Ministerial 86-S, 085), I have advised that the trigonometrical survey proceed in the county of Gloucester and adjacent counties; and in connection therewith this boundary should be determined, and marked in a permanent conspicuous manner. I may add that it is commonly reported that the rectilinear boundaries of this estate never were marked throughout their length.

I concur in the District Surveyor's opinion that the marking of these boundaries will probably lead to alienation or further settlement of a beneficial character on adjoining Crown lands, and I am informed that there are several applications which are necessarily in abeyance pending determination of this boundary.

Many parts of the boundary-line referred to pass through country of very rugged character, and there are unusual difficulties to be encountered in the undertaking proposed, chief amongst which are means of transit and maintenance of the party—double the usual expenditure.

Under these circumstances, I submit that it is desirable in the public interest that the boundaries herein mentioned—about 50 miles—be defined; also, in view of the fact that the determination of these boundaries will be of great use to the Australian Agricultural Company, and as the general manager has intimated verbally his opinion that the Company will contribute a part of the cost, that a communication be made, stating the circumstances, and inviting the Company to contribute towards the cost, either by paying one-half, or by payment at the rate of £2 10s. per mile; and in event of the total cost being less than £5 per mile, the difference between the Company's moiety and contribution as specified to be refunded.

E. TWYNAM.

Submitted.—R.H.D., 9/1/88. F.H.W.,—For approval.—C.O., 11/1/88. Approved.—J.T.B., 12/1/88. The Acting Surveyor-General.—R.H.D. (for the Under Secretary), 13/1/88. Seen.—A letter should be now written to the Manager of the Australian Agricultural Company.—E.T., 18/1/88. Mr. Thompson,—Superintendent, Australian Agricultural Company, Newcastle, asked.—31/1/88.

No. 181.

The Under Secretary for Lands to The Superintendent, A. A. Co.

Sir,

Department of Lands, Sydney, 31 January, 1888.

I am directed by the Secretary for Lands to inform you that it appears that the marking of the east and one of the north boundaries of your Company's grant of 464,640 acres at Stroud, has become effaced, and it is now proposed to re-establish and mark these boundaries, and inasmuch as this survey will be of great use to the Company, I have to ask that you will be good enough to state whether your Company are willing to pay half the cost of the same.

The survey will extend over about 50 miles, and the character of the country being very rugged, it is estimated that the total will be about £5 per mile, but should it prove less, any amount overpaid by the Company as their moiety, based on this calculation, will be refunded.

I have, &c.,

F. H. WILSON

(For the Under Secretary).

No. 182.

No. 182.

The General Superintendent, A. A. Co., to The Under Secretary for Lands.

Sir,

Australian Agricultural Company, Newcastle, 3 February, 1888.

I have the honor to acknowledge receipt of your letter of 31st ultimo.

Although marks are not easily found which will indicate the position of the greater part of the boundaries on the east, south, and north of the Company's Port Stephens estate, the corners and starting points are, I believe, tolerably well known, and can be fixed by the testimony of old residents, if in no other way.

Assuming that care would be taken in the proposed survey to make the new marking agree with those known points, and on the understanding that your proposal refers to the whole of the boundary lines from the Manning River to Dirty Creek and the Myall River, I am willing to undertake that the Company on being supplied with a plan, showing the result of the survey, and the marks indicating the boundary lines, will pay the half cost of the work, such half cost not to exceed £2 10s. per mile, the estimated maximum expense being stated in your letter at £5 per mile.

I shall be obliged if you will be good enough to have me informed when the survey is commenced.

I have, &c.,

JESSE GREGSON,

General Superintendent, Australian Agricultural Company.

No. 183.

Office Memorandum.

Surveyor-General's Office, General Survey Branch, 5 March, 1888.

To the Surveyor-General,—

It having been decided to resurvey the boundary between the Australian Agricultural Company's 464,640 acres, county Gloucester, and the Crown lands in the parishes of Nerong, Willabah, Myall, Euther, Kyle, Mimi, and Belbora, I forward in accordance with your instructions a recommendation that the survey should be conducted as below described.

The approval of the Secretary for Lands has been given only to survey of the boundary as far as it forms the south boundary of the above-named parishes, and the west boundary of that parish and the others named.

As, however, the communication last received from the general manager of the Company makes the Company's contribution towards the cost of the survey conditional upon the survey being extended to the Manning River, I have, in my description of the course to be followed, included the additional 9 miles 52 chains in anticipation of that extension being authorised.

With the object of determining the direction of the magnetic north at the time of the original survey, I have endeavoured to trace the field notes and original plan thereof, but without result. Plan catalogue A 507a, which was made in 1834, has since that year had the boundary subsequently charted on it, and as the date of grant is 1847, I have been obliged to assume for the purposes of computation the mean of those two dates, viz., 1840, as the probable date of the survey. The magnetic variation at Sydney then was 9 degrees 27 minutes east, and this corrected for the distance west of the line of equal variation would make the variation at Dirty Creek in 1840 to be 9 degrees 24 minutes east.

Commencement should be made at a point on Dirty Creek recognised as the intersection of the boundary with that creek.

At that point observations to determine the direction of the true meridian should be carefully made, and a line bearing 279 degrees 20 minutes (true) should be set out for a distance of about 936 chains to its intersection at point A (on diagram A. herewith), with a northerly line forming part of the boundary, or with a southerly prolongation of that line. The direction of the line so set out should be verified by astronomical observations at intervals of not more than 5 miles. This line being referred to the astronomical line may be hereafter termed the astronomical line.

Endeavour should be made to connect by offsets with the line originally marked out; for this purpose the probable position of the boundary, with reference to the astronomical line, has been computed, and is shown on diagram. As, however, the original survey may have been affected by local magnetic attraction, as well as by errors of alignment, this computation is to be considered only as a guide to the surveyor in finding the line. Should it be found that the marked boundary diverges so far from the astronomical line as to make the offsets of any considerable length, the astronomical line may be altered so as to follow as nearly as may be the marked line.

The chainage may be made on the astronomical line, or on the marked boundary, as may prove convenient, but two independent measures of distance should be made; the first by the surveyor himself, and a subsequent chainage by another member of his party, preferably a reliable field assistant. The second measurement, which is for the purpose of enabling any large accidental error to be eliminated, should be made with a chain of different length to that used in the first chainage.

Following the same procedure as above detailed, a line bearing 9 degrees 11 minutes 40 seconds, true by initial meridian, should be run from point A on diagram for a distance of about 3,120 chains, to the point B on diagram, adopting as part of the boundary the line already determined in position, and forming the west boundaries of portions Nos. 7, 18, 19, and 20, parish of Belbora.

From the point B a line bearing 99 degrees 10 minutes 50 seconds (by initial meridian) for about 560 chains, to the west boundary of the parish of Bootoowa, will be found to follow the boundary approximately to the point C, where it turns northerly on a bearing of 9 degrees 15 minutes 50 seconds for about 212 chains to the Manning River. Part of the boundary from C to the Manning River, forming also the west boundary of lands already alienated, will be found already marked, and need only be re-marked if found necessary.

Connection

Connection should be made by traverse as follows, viz., to surveys of—

- Wm. Dee, 40 acres additional conditional purchase No. 41, parish Nerong, G. 1,392-1,497.
 Wm. Dee, 90½ acres additional conditional purchase No. 58, parish Nerong, G. 1,656.
 Railway trial line from Maitland to Grafton, *via* Bullahdelah, parish Nerong.
 Peter Grey's 40 acres conditional purchase No. 37, parish Nerong, G. 1,389.
 Road from Booral to Bullahdelah, R. 807-1,603 roll.
 Charles Carr's 200 acres conditional purchase No. 57, parish Nerong, G. 1,659-1,497, or to
 Wm. Renwick's 60 acres additional conditional purchase No. 30, parish Nerong, G. 1,368.
 Forty acres No. 7-1, parish Enther, G. 305, and to stringbark tree marked \uparrow at F. on G. 305.
 Wm. Paterson's 40 acres conditional purchase No. 2-1, parish Kyle, G. 438.
 Railway trial line from Maitland to Grafton, parish Belbora.
 Road from Gloucester to road from Raymond Terrace, and Gloucester to Tinonee, R. 111-1,603.
 R. Easton, junr., additional conditional purchase, 240 acres, parish Belbora, G. 1,606.
 " " conditional lease, 262 acres, parish Belbora, G. 1,607.
 Wm. Easton, conditional purchase, 50 acres, parish Belbora, G. 447.
 " 41 acres, parish Bootoowa, G. 58.
 Road from Gloucester to Tinonee, R. 111-1,603 roll, parish Belbora Δ Gundaine.

Description herewith.

- Railway trial line from Maitland to Grafton, parish Bootoowa,—
 60 acres, No. 128, parish Bootoowa, G. 1,283.
 50 acres, T. Murray, parish Bootoowa, G. 39.
 46 acres, R. Easton, parish Bootoowa, M. 174-666.
 46 acres, W. Froude, conditional purchase, parish Bootoowa, G. 66.
 50 acres, T. A. Richardson, additional conditional purchase No. 75, parish Bootoowa, G. 506.
 75 acres, A. Richardson, additional conditional purchase No. 76, parish Bootoowa, G. 507.
 90 acres, T. Richardson, conditional purchase No. 76, parish Bootoowa, G. 8.
 Road from Wingham and Black Flat Roads to Tinonee, R. 847-1,603.

The field notes should be kept in ink, and transmitted to this office on completion of the survey, with a plan drawn on the best mounted drawing paper to the scale of 20 chains to an inch.

In tubular form herewith is given—

- (a) The convergence of the meridians of various points towards that of the starting point at Dirty Creek.
 (b) The assumed magnetic variation at the same points in 1840.
 (c) The deduced bearing of the old line between the same points, from true meridian of Dirty Creek.
 (d) The direct bearings and distances from corner to corner; and
 (e) The offsets from the direct lines to the probable position of the marked boundary.

Tracing from plan A 507a, which shows the boundary relatively to the features, and also lithograph maps of the parishes in the neighbourhood, are appended for the information of the surveyor.

In addition to this, I would recommend that tracings of such parts of the plans of surveys to be connected with as are likely to be required be made by a contract draftsman and forwarded with the instructions.

T. F. FURBER.

Description of boundaries of Australian Agricultural Company's grant, county of Gloucester.

20 November, 1847.

ALL that piece or parcel of land in our said Colony, containing by admeasurements 464,640 acres in the same, more or less, situated in the county of Gloucester, between Port Stephens and the Manning River: Bounded on the south by the harbour of Port Stephens (commencing at the Reserve at the base of the North Head), the Karuah River, and a line west from about half a mile below the head of the navigation of that river; on the west by a line north 47 miles to the Manning River; on the north by that river east direct 19 miles, exclusively of the windings of that river; and on the east by lines south 2 miles and 52 chains, west 7 miles, south 39 miles, and east 11 miles and 56 chains to a creek of the Myall Lake; and by that lake and the Myall River to Port Stephens.

No. 184.

Mr. Surveyor Scrivener to The District Surveyor, East Maitland.

Sir,

Camp Road, Sawyers' Point to Tea Gardens, 27 September, 1888.

With reference to the running of the east boundary of the Australian Agricultural Company's grant, I propose to make a careful traverse from Conger Hill corner to the Belbora corner, and computing the direct bearing and distance run the line back this traverse, if accurately run, the azimuth, carefully checked by numerous observations, would enable me to strike, say, within 20 links of Conger Hill corner, running from Belbora, or at least so near that no line would require to be offsetted. The instructions suggest running a line upon a given bearing, which line should strike the old corners. However, Mr. Surveyor Wood was more than a quarter of a mile from the old line before he had completed his geodetic line, and it is not probable that I should be more fortunate, thus I should have to offset to old corner, and clear a second line through what is undoubtedly rough country, and for more than half of the distance through dense brush. This would be a large undertaking, and would be most expensive. Clearing a line well through brush is very slow work indeed.

By making the traverse I should run along roads and tracks, avoiding clearing altogether, and should complete the preliminary work in about six weeks. The running of the line back would then be a simple matter, and there would be no doubt as to where I should come out. It would possibly be slow, on account of the character of the country, but it would not be necessary to run any other line. The work would be completed.

By the system suggested in instructions there are 80 miles of marking instead of 40, because both geodetic and old boundary would require marking well. By making the traverse some additional information would be supplied to the Department respecting the features of the country, and I cannot doubt but that by this method the cost of the work would be much less, while its accuracy would not be impaired.

From correspondence with the Company's surveyor, Mr. Elliott, I am inclined to think that the old marking will be difficult to find, and the Company would be quite satisfied with a direct line from corner to corner. The traverse would show if any glaring error existed in the fixing of the existing corners, and if no great discrepancy were discovered the straight line from end to end would appear to be the most satisfactory, and the method I propose to adopt would be the least expensive.

I have, &c.,

CHARLES ROB. SCRIVENER.

Forwarded to the Acting Surveyor-General.—J. WITTER ALLWORTH, District Surveyor, 2/10/88. Send memo. to Mr. Scrivener, asking for return of the tracing showing this boundary line.—E.T., 9/10.

Mr. Scrivener's proposition is approved. It is scarcely requisite for me to insist upon the importance of the utmost care in carrying out a traverse of more than 40 miles, on which to base the projection of a straight line between the termini of the traverse. It may be practicable, and certainly it will be desirable, to test the accuracy of the projection at a suitable distance from the starting point by a connection with the traverse mentioned. Of course additional topographical information may be obtained by the proposed mode of conducting the survey.—E.T., 15/10/88, No. 3. (Per the District Surveyor at Maitland, for Mr. Surveyor Scrivener.)

No. 185.

Mr. Surveyor Scrivener to The District Surveyor, East Maitland.

Sir,

Minto, 20 August, 1890.

I beg to transmit herewith plan of survey of Australian Agricultural Company's boundaries, county of Gloucester, marked in accordance with your instructions, No. 88-37, of 3rd July.

When this work was undertaken considerable doubt was felt as to the correctness of the assumed positions of the Australian Agricultural Company's corners, many old residents asserting that the present corners were in positions differing considerably from the original. This being the case, and considering the small amount of information available for purposes of identification, I suggested, by my letter No. 88-32, of 27th September, that a traverse should be run, connecting the assumed corners, so that some evidence

evidence might be obtained as to their accuracy or otherwise, the traverse being then used to compute the bearings of the straight lines forming the boundaries. It had been suggested that a trial line should be run from one of the corners, on a bearing which should agree with the original, allowance being made for variation of magnetic bearing. This assumed two things—first, that the corners were fixed points easily determined, and, second, that the surveyor who ran the lines was careful to see that his compass was accurate, conditions which seldom exist, and in this case had the proposal been adopted offsets as great as 40 or 50 chains would have been necessary. If these were run by compass, the boundary would be only roughly marked; if carefully fixed, the time occupied would have been very great, however. My suggestion was adopted, and the traverse run, the result being that the accuracy of the assumed positions of the extremities of the east boundary was placed beyond doubt.

A traverse was first run from Dirty Creek westerly to the south end of the east boundary. Here lines were frequently very short, and azimuth was checked by sun observations as the work proceeded. The lines were only chained once by 100-foot wires, the bearing of line between extremities of traverse computed from traverse, and the boundary run out, the deviation being $4\frac{1}{2}$ links from computed position, and the length of line, as computed from traverse, chained with feet wires, differing from the link wire chainage by about 3 links. There is an old blazed line from Dirty Creek, supposed to be the original boundary. It is very crooked, and is in places about 3 chains north of my line. Many of the creek crossings on original tracing agree closely with distances by my survey, but the whole length of line differs considerably. By me the length of boundary is 85,930 links, or about 863 chains to water's edge at Dirty Creek. By original and deed the distance is 936 chains. How this difference can exist is inexplicable, if the original line was nearly straight. It is shown on tracing supplied to me as running north of a high range near Dirty Creek, while my line is just to the south of that range, but even were the former position adopted there would be considerable difference between present actual distance and that on deed.

With reference to the east boundary-line, besides the traverse actually necessary for the determination of the position of the boundary, a subsidiary traverse was run from main traverse to trigonometrical station, Euther, as directed by memorandum upon my letter SS-32. This latter traverse took a very much longer time than I expected. The country is rough, and in places very brushy. We were surrounded by bush-fires for some time. I was left without an assistant, and lost time obtaining one, and when nearly finished wet weather caused greater loss of time.

The main traverse was twice chained, once by feet wires and once by link wires. The azimuth was checked by observation from trigonometrical stations and by star observations where these different methods of checking could be compared. Greatest weight was given to the observations from trigonometrical stations, and this will account for slight differences in variation when observations are reduced to the same meridian. The greatest difference is at Gloucester, where the observations from trigonometrical station differ $10''$ from star observations, although the latter were very carefully taken, and the results are good.

The observation at south end traverse 161 were used to check azimuth. When camped near this station observations could not be taken on account of bad weather. They were obtained later. The night was a bad one, cloudy, so that the stars could be observed only as clouds passed, and as the delays were considerable, there was probably movement of instrument from referring object. The adoption of these observations renders necessary somewhat large corrections in the subsidiary traverse which might be avoided by discarding them. A change of $15''$ in azimuth here would make the corrections on subsidiary traverse very small.

The main traverse passes over undulating country as far as Gloucester, but from there to the corner of Belboursa Creek the country is generally hilly and occasionally brushy, although generally favouring good work.

The result of running the east boundary on the bearing computed from traverse was that we were 7.9 links west of the computed position. The deviation was caused partly by a change of azimuth, due to the fact that observations from Euther trigonometrical station were not obtainable until after 20 miles of the line had been run out.

This boundary unquestionably occupies very nearly the position of original line, a comparison of the creek crossings showing that very clearly; and besides this, we found the old blazed trees on lines continuously for 10 miles from the north end of line. Then they were lost, but at 30 miles we run into what appeared to be old marking. Connections have been made to portions near the boundary according to instructions.

An inspection of the plan will show that the marking is likely to last, at least 50 per centum of the pegs have stone lock-spits, and are at intervals of about 8 chains, many surrounded by cairns. There are on all prominent ridges sunken stones with hole drilled in centre, often with post above and cairn, large numbered posts at each mile, and generally the marking is made as durable as possible. The gaps where the falling was heavy will be easily seen thirty years hence.

This boundary passes through rough country, the greater part covered by brush, and everywhere the timber is heavy. To get the camp we had in places to clear through brush for some distance, and from camp clear tracks to work, as the undergrowth is too thick to walk through. The falling in opening the ridge tops when ranging the line was very heavy, and the average rainfall about 2 inches each week. The mountains were frequently for days wreathed in fog, so that instrumental work was an impossibility.

In this country it is absolutely necessary, if a straight line is desired, to clear the hilltops, as the sights obtainable in ordinary way are not unfrequently as short as 50 links, from which good results cannot be obtained.

The running of the line from the north end of the east boundary easterly was commenced before the long line was run, as marked trees were found for about 1 mile from the Belboursa corner; but as these were then lost as we entered the brush, the work was left until the traverse of the Manning River was run. When this work had been carried some distance I was able to compute the bearing and distance of this boundary, but the line thus obtained would not pass through the marking at either extremity of the line. It was, therefore, necessary to run the line from both ends through the old marks and intersect.

The old corner was found near the Manning River Road, and a line of blazed trees is near to my boundary for about 180 chains; the old marks are then lost.

No. 186.

The General Superintendent, A.A. Company, to The Acting Surveyor-General.

Sir, Australian Agricultural Company, Newcastle, 22 August, 1890.

I have the honor to draw your attention to an arrangement by which a survey and re-marking of the east and north boundaries of this Company's Port Stephens Estate is now in progress by Mr. Surveyor Scrivener, at the joint expense of the Government and the Company.

In carrying out the work Mr. Scrivener found it necessary to make a traverse from the south corner, near Booral, to the northern portion of the estate, and as this part of the work will be equally useful to the Company as to the Government I have gone to a very considerable outlay in putting down permanent marks.

I have now to ask if you have any objection to my being supplied with the bearings and distances of this traverse, in order that we may utilise it for purposes of connecting with our detail subdivisions.

I have, &c.,

JESSE GREGSON,
General Superintendent, Australian Agricultural Company.

No. 187.

Memo. by The Chief Surveyor.

The Manager of Australian Agricultural Company re survey of boundaries of 464,640-acre grant, county of Gloucester.

THE arrangement with the Australian Agricultural Company was that moiety of the cost not to exceed £2 10s. per mile of marking the rectilinear boundaries of the 464,640-acres grant should be contributed by the Company, and that a copy of the plan should be supplied.

The plan is not yet transmitted; it is nearly finished, and may be expected in two or three weeks.

The survey has been very expensive, and the contribution of the Company will be but an insignificant part of the cost.

The manager of the Australian Agricultural Company now asks for a copy of the plans showing the subsidiary traverses in connection with this survey, intimating that the Company has inserted permanent marks at the stations on the traverses of adjacent features.

The understanding with the Company was precisely as before stated, and does not include the affording of collateral or incidental information.

There would be no objection to affording the additional survey, which would be very valuable to the Company, provided a part of the cost be contributed (say) at rate of £2 10s. per mile of traverse.

I would suggest that the manager be informed as above, also that the Department would not object to entertaining the request, subject to the above condition, and that two heliograph copies of the plans would be supplied.

E. TWYNAM,
28 August, 1890.

The Under Secretary.

Submitted. Please see last paragraph more particularly.—H.L.T., 29/8/90. Submitted. For approval.—W.H., 3/9/90. Approved.—J.N.B., 4/9/90. Manager, Australian Agricultural Company, 4/9/90. The Chief Surveyor.—H.L.T., 5/9/90.

No. 188.

The Under Secretary for Lands to The Manager, A. A. Co.

Sir, Department of Lands, Sydney, 4 September, 1890.

Referring to your letter of the 22nd ultimo, asking to be supplied with the bearings and distances of the traverse made by Mr. Scrivener from the south corner, near Booral, to the northern portion of the estate, I am directed by the Secretary for Lands to inform you that there is no objection to your being supplied with the additional survey, provided you contribute a part of the cost, viz., £2 10s. per mile of traverse; also that two heliographic copies of the plans will be supplied you.

I have, &c.,

WM. HOUSTON,
Under Secretary
(Per F.H.W.)

No. 189.

The General Superintendent, A. A. Co., to The Under Secretary for Lands.

Sir, Australian Agricultural Company, Newcastle, 6 September, 1890.

Minist. 00-10,422.

I have the honor to acknowledge receipt of your letter of 4th instant, numbered as per margin.

I submit for the consideration of the Minister that it is scarcely fair that I should be required to contribute more than I have already agreed to do in my letter to the Under Secretary, dated 3rd February, 1888, which undertaking, it will be seen on reference to my letter, was that this Company should pay the half of the expense, which the Government estimated would not exceed £5 per mile of the length of the boundaries, which were to be re-marked.

Mr. Scrivener's traverse from the south corner to the northern part of the estate is, I venture to think, a necessary part of the work then contemplated, and as such I conceive it may be justly covered by the wording of my letter, in which I stipulated "for a plan of the result of the survey."

Not

Not only so, but this company has gone to the expense, unassisted by the Government, of permanently marking Mr. Scrivener's traverse stations, and I submit that this will be as useful to the Government in making future surveys as to the company.

I think then I may fairly ask the Minister to reconsider his direction that the company should be called upon to pay for the traverse as for an additional survey. I submit that, if we are to be charged anything at all for the information requested, the cost of making a copy of the traverse plan is the most that we should be called upon to pay.

I have, &c.,
JESSE GREGSON,
 General Superintendent, Australian Agricultural Company.

The Chief Surveyor,—H.L.T., 9/9/90.

The arrangement was precisely as set forth in my previous minute, and it is unreasonable to endeavour to make it cover a large quantity of other feature survey. The company is about to subdivide this large holding, and the manager is desirous to utilise other traverse surveys which have been made for verification of the boundary connections to trigonometrical stations, &c. I submit this cannot be regarded as covered by an arrangement to pay a moiety of cost of re-marking certain specified rectilinear boundaries. The particulars desired are very valuable to the company, which should contribute towards the cost, of which cost, as previously pointed out, the contribution at £2 10s. per mile is comparatively an insignificant item.—E. TWYNAM, 15/9/90. The Under Secretary. I concur with the Chief Surveyor.—W.H. F.H.W., 18/9/90. Submitted. The company should certainly pay the contribution proposed by the Chief Surveyor.—J.N.B., 19/9/90. General Superintendent, Australian Agricultural Company, 22/9/90. J.R., 22/9/90.

No. 190.

The Under Secretary for Lands to The General Superintendent, A.A. Co.

Sir,

Department of Lands, Sydney, 22 September, 1890.

Referring to your letter of the 6th instant, asking for a reconsideration of the decision that the Australian Agricultural Company should pay part of the cost of survey of the traverse lines, I am directed to inform you that upon reconsideration the Secretary for Lands has decided that your request cannot be regarded as covered by an arrangement to pay a moiety of cost of re-marking certain specified rectilinear boundaries, and that you should pay the contribution asked for, viz., £2 10s. per mile.

I have, &c.,
WM. HOUSTON,
 Under Secretary
 (Per F.H.W.)

No. 191.

The General Superintendent, A.A. Co., to The Under Secretary for Lands.

Sir,

Australian Agricultural Company, Newcastle, 2 October, 1890.

I have the honor to acknowledge receipt of your letter dated 22nd ultimo, numbered as in margin, in which you inform me that, after reconsideration, the Secretary for Lands has decided that this company should pay the £2 10s. per mile of traverse of Mr. Scrivener's work in ascertaining the position of the east boundary of the company's estate. Ministerial,
80-10,766.

While I must still hold the opinion that the arrangement between the Department and the company in reference to the re-marking of this boundary properly covers the supply of full information of all work incidental thereto, I will submit to the Minister's ruling without further demur.

I have now to request that you will be so good as to direct that I should be furnished with a tracing showing bearings and distances of Mr. Scrivener's traverse from the company's south corner, near Gundaroo trigonometrical station, northerly as far as Coal Creek a distance of 30 miles or thereabouts, and I undertake the charge for same at the rate of £2 10s. per mile shall be duly paid.

I have, &c.,
JESSE GREGSON,
 General Superintendent, Australian Agricultural Company.

The Chief Draftsman,—On perusal of these papers it will be seen that the Australian Agricultural Company has agreed to contribute £2 10s. per mile towards cost of marking the boundaries of the grant, and is to have a copy of the plan showing particulars of the boundaries, in addition to which it has been decided by the Minister that particulars of incidental feature traverses may be supplied, for which a contribution at the same rate is to be paid. For a set of first-class heliographs, mounted, to be prepared for the company, and care is to be taken that the reference to traverse shall comprise only such parts for which a contribution is to be paid. A statement of linear measurement of boundaries and feature traverse is required, in order that the Company may be asked formally to contribute the quota of cost.—E. TWYNAM, 4/2/91.

Mr. Shaw for helios. Care should be taken that good helio.-paper is available for these copies. That now being supplied is inferior, I know. Please see whether it will be possible to stop out the information, which is not to be supplied to the Australian Agricultural Company. Particulars as required by the concluding part of the Chief Surveyor's memo. can be computed by Charting Branch in the meantime, and returned to me with heliographs.—C.J.S., 9/2/91.

Mr. M'Lean,—The mileage to be paid for by the company is 88 miles 70 chains.—R.M., 17/2/91.

No. 192.

The Chief Surveyor to The Under Secretary for Lands.

Determining and re-marking of the rectilinear boundaries of the Agricultural Company's 464,640 acres grant, county Gloucester; and other adjacent feature survey.

20 March, 1891.

REFERRING to previous correspondence, and in accordance with arrangement with the General Superintendent, a copy (heliograph) of the plan of this survey, which also affords particulars of traverse of adjacent feature surveys, has been prepared for transmission to the company's agent.

The contribution on the part of the company towards cost of survey amounts to £222 3s. 9d., payment of which sum should be formally requested when forwarding plans.

Plans herewith in roll.

E. TWYNAM.

Submitted.—H.L.F., 23/3/91. For approval.—F.H.W., 24/3/91. W.H. Approved.—J.N.B., 25/3/91. The Chief Surveyor.—H.L.F., 26/3/91. Manager, Australian Agricultural Company, with roll plan asked, 1/4/91. The Chief Surveyor.—H.L.F., 1/4/91. The Accountant.—E.T., 2/4/91.

No. 193.

The Under Secretary for Lands to The Manager, A.A. Company.

Sir,

Department of Lands, Sydney, 1 April, 1891.

With reference to your letter of the 2nd October last, and previous correspondence, I am directed by the Secretary for Lands to forward herewith a copy (heliograph) of the plan of the survey of the boundaries of the Australian Agricultural Company's 464,640-acre grant, county of Gloucester, which also affords particulars of adjacent feature surveys.

I have to add that the contribution due by the company towards the cost of this survey amounts to £222 3s. 9d., and to request you to be so good as to transmit that sum at your earliest convenience.

I have, &c.,

WM. HOUSTON,

Under Secretary

(Per F.H.W.)

No. 194.

The General Superintendent, A.A. Co., to The Under Secretary for Lands.

Sir,

Australian Agricultural Company, Newcastle, 16 April, 1891.

I have the honor to acknowledge receipt of your letter, dated 1st instant, numbered as in margin, as well as of the plans therein mentioned.

The copy of a letter, dated 9th instant, from Mr. Surveyor Elliott, which I do myself the honor to forward herewith, shows a small discrepancy between the amounts you and he respectively estimate as being the sum due from the company in respect of this survey. Perhaps you will be so good as to have the matter inquired into, and favour me with an explanation as to how the larger sum is arrived at.

I have, &c.,

JESSE GREGSON,

General Superintendent, Australian Agricultural Company.

The Accountant.—H.S.T., 17/4/91. Urgent. The Chief Draftsman.—V.C., 17/4/91. Charting Branch as to where discrepancy is. I think that Mr. Murphy dealt with this matter.—C.J.S., 20/4/91. Detailed statement herewith, showing the lengths of lines charged for.—N.W.M. A.A. Company's grant.

The following is a detailed statement showing the lengths of lines charged for:—

	links.
From Dirty Creek to Conger Hill corner	85,929
From Conger Hill to Belbora Corner	283,909
From Belbora Corner to Burrill Creek	56,952
From Burrill Creek to Manning River	22,202
Traverse lines, 90 to 196 inclusive	262,066

80) 711,058

miles 88.7058 links.

R.M., 25/4/91.

As the difference between the amount claimed by the Department and that estimated by Mr. Gregson is but £5 9s. 10d., and as some of the items included in the Departmental estimate are debatable under the agreement entered into as to payment, it may, perhaps, be thought advisable to close the matter by accepting the company's estimate of cost.—C.J.S., 28/4/91. The Chief Surveyor.

I have looked into this matter with the Chief Draftsman, and I would advise acceptance of the General Manager's amendment of the claim sent to him by this Department, and I would suggest that he may be informed accordingly.—E. TWYNAM, Chief Surveyor, 30/4/91.

The Under Secretary.—F.H.W. For approval.—W.H., 1/5/91. Approved.—J.N.B., 4/5/91. General Superintendent, Australian Agricultural Company, informed, 6/5/91.

[Enclosure.]

Sir,

Australian Agricultural Company, Newcastle, 9 April, 1891.

In accordance with your letter of 4th instant, I have examined Mr. Scrivener's plan of the Company's east boundary, which also shows traverse along the main road from Coal Creek to Booral, and a connection from Booral to the Conger Hill corner, with a view to ascertain the number of miles to be paid for by the company.

The

The lengths of the permanently-marked boundaries I ascertain to be as follows :—

From Dirty Creek Corner to Conger Hill corner	links. 85,929
From Conger Hill corner to Belbora corner	307,631
From Belbora corner to Burrill Creek corner	56,952
From Burrill Creek Corner to the Manning River	22,202
Total length of marked boundaries.....	
472,714	
Traverse from Conger Hill corner to the northern extremity of traverse No. 196, north of Coal Creek	220,716
Total length of chaining to be paid for	
693,430	
693,430 links ; 86 miles 54 chains 30 links, at £2 10s. per mile.....	£216 13 11

I have, &c.,

A. ELLIOTT,

Surveyor, Australian Agricultural Company.

Jesse Gregson, Esq., General Superintendent, Australian Agricultural Company, Newcastle.

No. 195.

The Under Secretary for Lands to The General Superintendent, A. A. Company.

Sir,

Department of Lands, Sydney, 6 May, 1891.

With reference to the re-marking, &c., of the boundaries of the Australian Agricultural Company's grant of 464,640 acres, county of Gloucester, and the amount claimed by the Department as a contribution towards expenses incurred, I have the honor to inform you that the Secretary for Lands has approved of the sum mentioned in your letter of the 16th ultimo, viz., £216 13s. 11d. being accepted in satisfaction of the claim.

I have, &c.,

W. HOUSTON,

Under Secretary

(Per H.C.)

No. 196.

The General Superintendent, A.A. Company, to The Under Secretary for Lands.

Sir,

Australian Agricultural Company, Newcastle, 13 May, 1891.

I have the honor to acknowledge receipt of your letter, dated 6th instant, numbered as in the margin, and, in accordance therewith, I beg to hand you cheque for £216 13s. 11d. in satisfaction of the claim made by your Department on account of re-marking of the eastern boundaries of this company's Port Stephens estate, county of Gloucester.

Minist. 91-4,714

I have, &c.,

JESSE GREGSON,

General Superintendent, Australian Agricultural Company.

Cheque enclosed.—H.L.F., 14/5/91. Received cheque, £216 13s. 11d.—T.A., 14/5/91. Receipt No. 950,938.—T.R., 14/5/91. Entered folio 141, Chief Draftsman.—V.C., 15/5/91. Mr. Vauten,—Is any further action necessary in regard to charting of plans by Mr. Harris?—C.J.S. The Chief Draftsman,—No further action necessary. Plans have been charted and traced and helios supplied.—E.S.V., 20/5/91. Mr. Briscoe,—The Chief Surveyor should see the reply from Australian Agricultural Company. Action is now, I think, complete.—E.J.S., 21/5/91. No further action required; papers may be put away.—E.T., 22/5/91.

No. 197.

Question and Answer.

Legislative Assembly.—Question for this day, Tuesday, 4th August, 1891.

6. AUSTRALIAN AGRICULTURAL COMPANY:—Mr. Williams asked the Secretary for Lands,—

- (1.) What is the exact area of land granted to the Australian Agricultural Company?
- (2.) When, where, how, and under what terms and conditions were said lands granted?

Mr. Bruncker answered,—

(1.) 1,029,451 acres 1 rood 32 perches.

(2.) The Imperial Parliament in 1824 (V George IV) passed an Act of Parliament (subsequently amended in the year 1829), for granting certain powers and authorities to a company to be incorporated by charter, to be called the "Australian Agricultural Company," for the cultivation and improvement of waste lands in the Colony of New South Wales, and for other purposes relating thereto. The Act seems to have remained in abeyance until 1847, when deeds of grant issued to the company.

No. 198.

J. Kirkpatrick, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 5 August, 1891.

Are you aware that the conditions under which the Australian Agricultural Company hold their land have never been fulfilled, and are you prepared to resume the land for the purpose of throwing it open for selection?

I write these questions to you, rather than waste the time of the House by asking them, and I think you will admit that, the company having failed to comply with the conditions imposed, they have no legal right to hold lands which ought to have reverted to the Crown long ago. I refer more particularly to Warialda, which is purely a sheep-walk.

The same remarks apply to the Peel River Company.

Trusting you will take steps to have the evils spoken of remedied.

I have, &c.,

JOHN KIRKPATRICK.

Since

Since the receipt of this letter the Minister has answered several questions in the Legislative Assembly bearing on the case. Perhaps the writer may be informed that the only special conditions attached to this grant were in reference to the surface rights of 87 acres, beneath which the company was authorised to mine. His attention may, perhaps, be drawn to the answers referred to above.—E.A.B., 20/8/91.

W.H.C., 27/8/91. F.H.W., 28/8/91. W.H. For approval. The writer is believed to be a Member of the Legislative Assembly. Yes.—W.H., 28. The writer may be informed as suggested.—J.N.B., 28/8/91. J. Kirkpatrick, M.P., informed, 31/8/91.

No. 199.

Question and Answer.

Legislative Assembly.—Question for this day, Tuesday, 18th August, 1891.

(22.) AUSTRALIAN AGRICULTURAL COMPANY:—Mr. Williams asked the Secretary for Lands,—

- (1.) Is there any agreement in existence between the Australian Agricultural Company and the Government of New South Wales, under which said Company was granted 1,029,451 acres 1 rood 32 perches for agricultural purposes?
- (2.) If so, what are the conditions specified in that agreement?
- (3.) Have those conditions been complied with?

Mr. Brunner answered,—No. The lands were granted in pursuance of Acts of the Imperial Parliament, passed in 1824 and 1829. A copy of the deed of grant will be laid upon the Table if moved for in the usual manner.

No. 200.

The Under Secretary for Lands to J. Kirkpatrick, Esq., M.P.

Sir,

Department of Lands, Sydney, 31 August, 1891.

In reply to your letter of 5th instant, respecting the grant to the Australian Agricultural Company, I am desired by the Secretary for Lands to invite your attention to the answers given in the Legislative Assembly on the 18th instant in reply to Mr. Williams.

I am to add that the only special conditions attached to the grant were in reference to the surface rights of 87 acres, beneath which the company was authorised to mine.

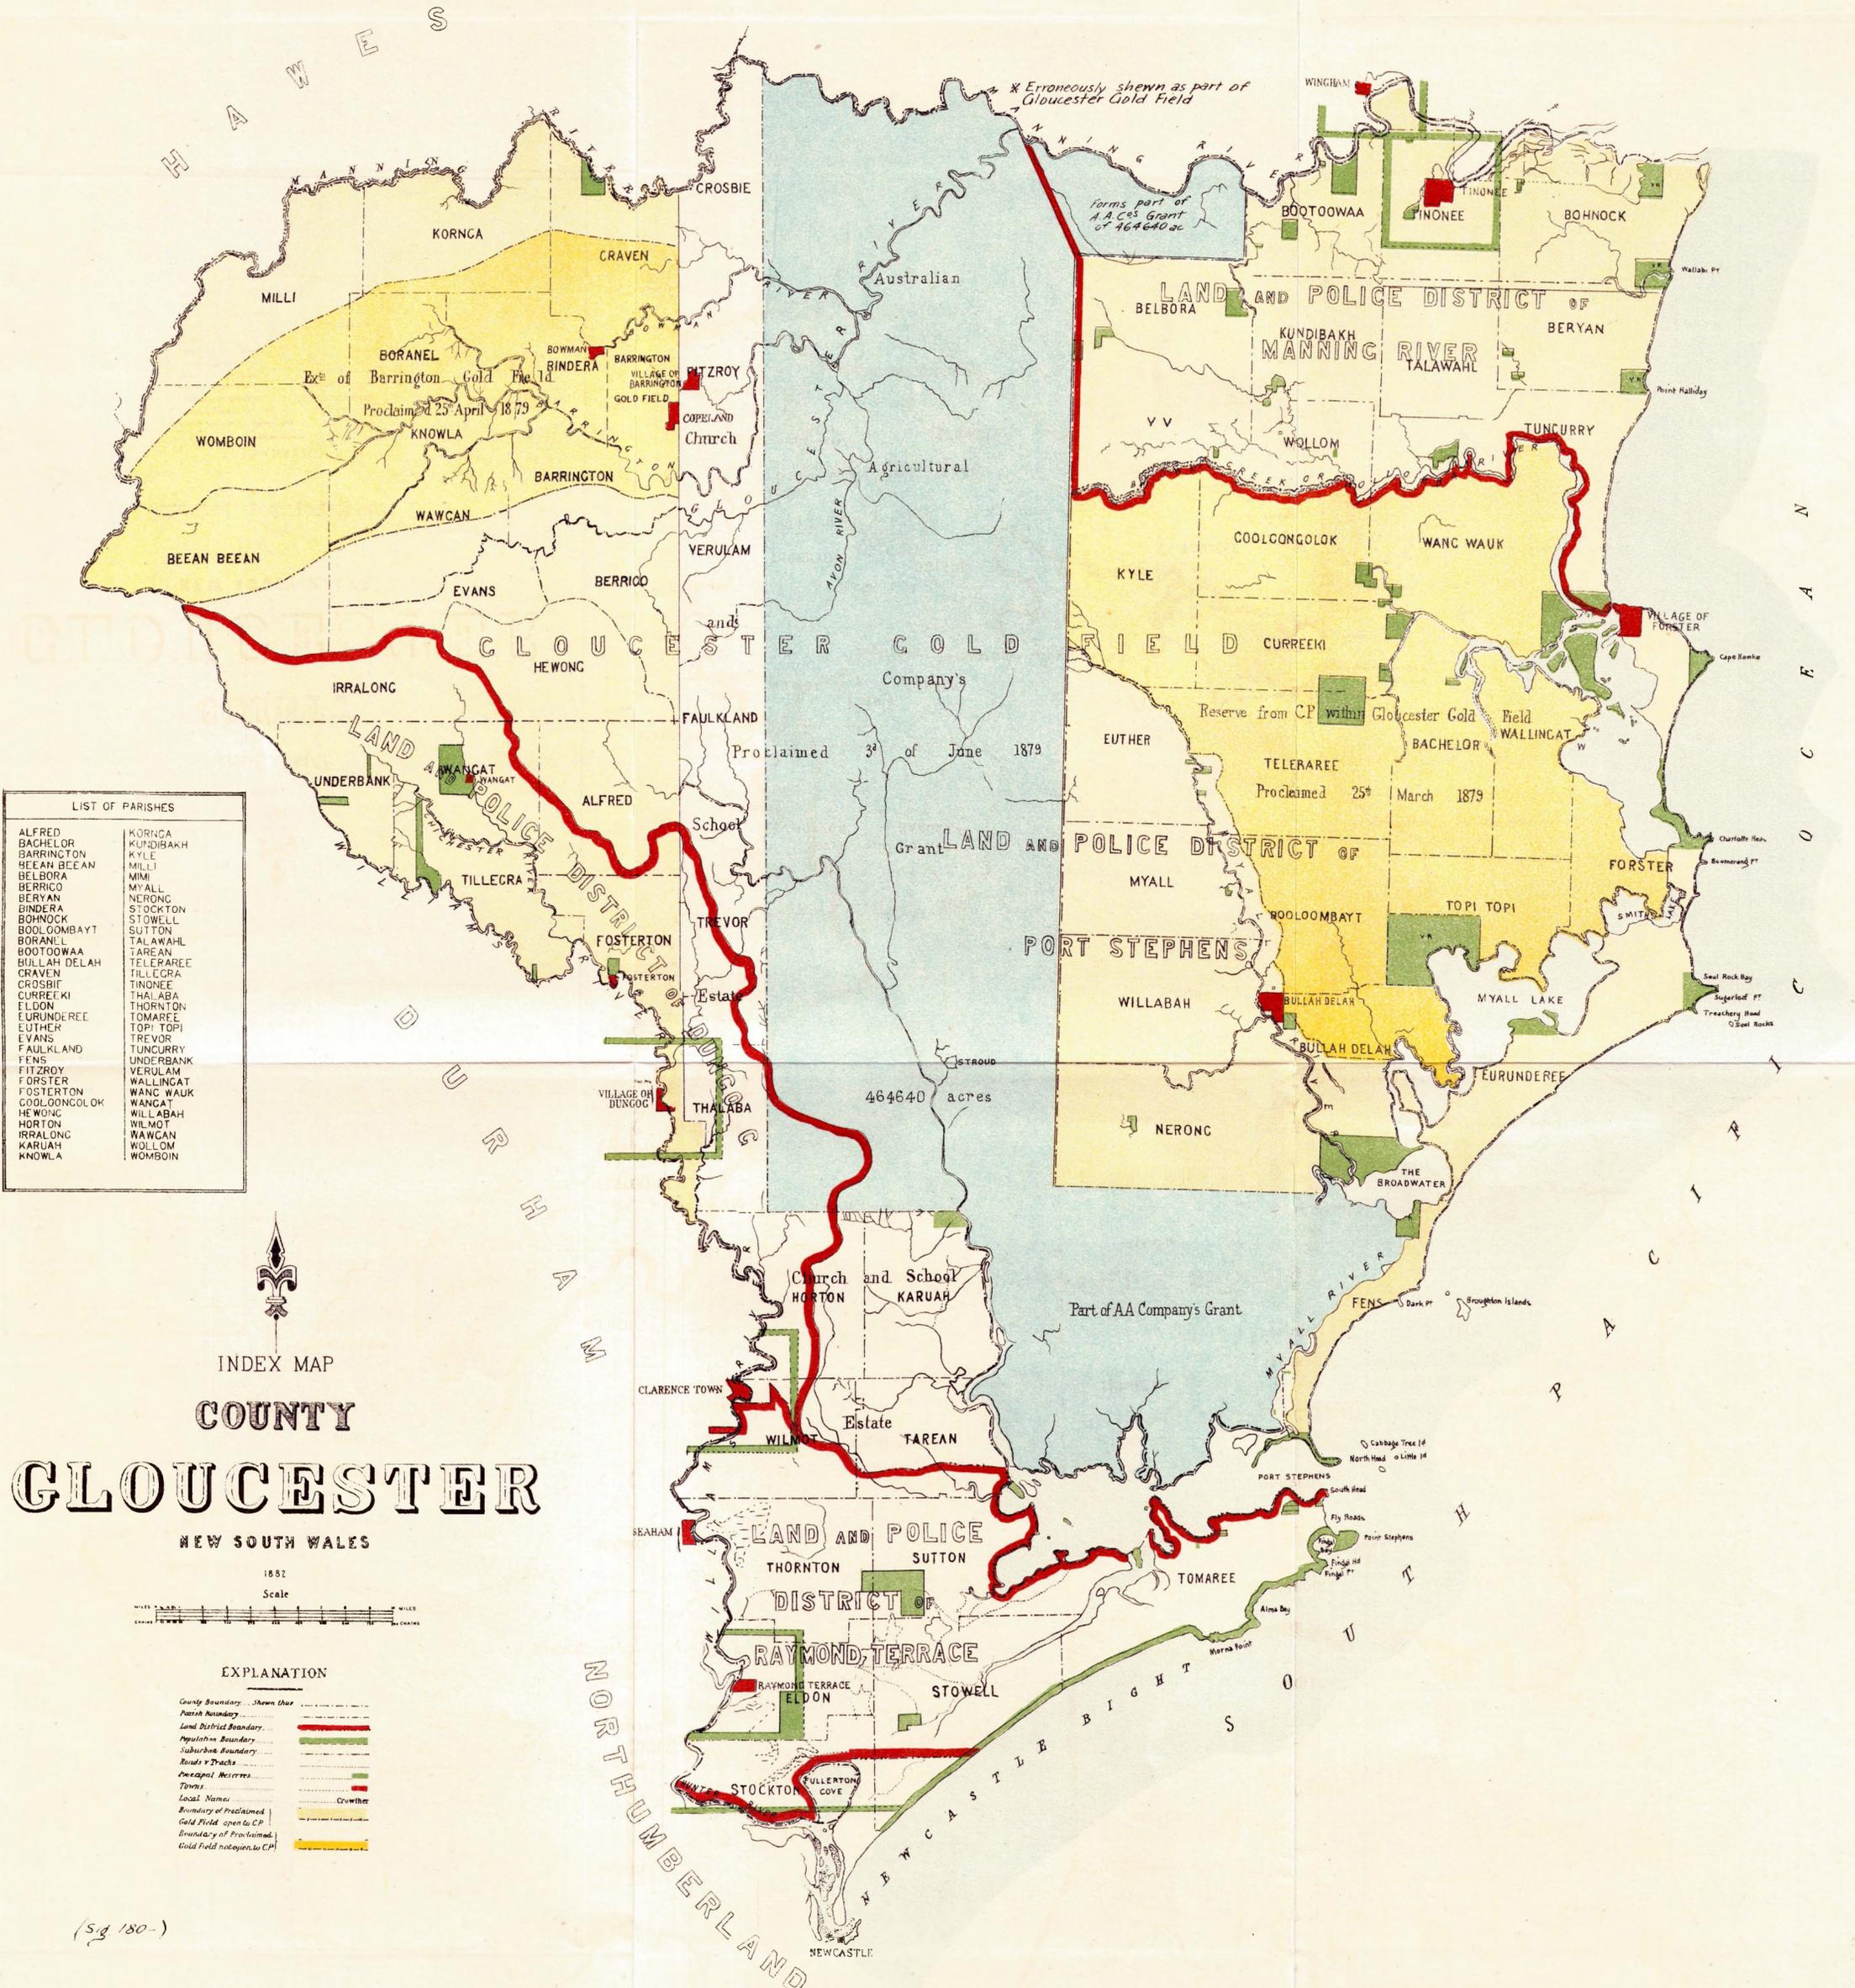

I have, &c.,

WM. HOUSTON,

Under Secretary

(Per W.H.C.)

LEGISLATIVE ASSEMBLY,
NEW SOUTH WALES.

AUSTRALIAN AGRICULTURAL COMPANY.

(RETURN RESPECTING.)

Ordered by the Legislative Assembly to be printed, 11 January, 1893.

RETURN (*in completion*) to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 21st December, 1891, That there be laid upon the Table of this House,—

- “(1.) A copy of the Act of Parliament made and passed in the fifth year of the reign of his late Majesty King George the Fourth, intituled ‘An Act for granting certain powers and authorities to a company to be incorporated by Charter, to be called the Australian Agricultural Company.’
- “(2.) A copy of the Charter under the Great Seal of Great Britain, dated at Westminster, the first day of November, in the fifth year of the reign of the aforesaid King George the Fourth, conferring certain powers on the Australian Agricultural Company, and grants of land, tenements, and hereditaments, in the Colony of New South Wales.
- “(3.) A copy of an Act, intituled ‘An Act to amend an Act passed in the fifth year of the reign of His Majesty King George the Fourth for granting certain powers and authorities to the Australian Agricultural Company.’
- “(4.) Copies of all reports, letters, documents, and plans in connection with the Crown grant (including the said grant) to the Australian Agricultural Company, dating from the fifth year of the reign of his late Majesty King George the Fourth up to the present time.”

(Mr. Melville, for Mr. Dowel.)

Charter, Australian Agricultural Company.

[Public Record Office Copy, pursuant to Statute 1 and 2 Vict., c. 94.]

Patent Roll (Chancery), 5 George the Fourth, Part II, No. 1.

GEORGE THE FOURTH by the Grace of God of the United Kingdom of Great Britain and Ireland King Defender of the Faith and so forth. To all to whom these presents shall come greeting. Whereas in and by a certain Act of Parliament made and passed in the fifth year of our reign intituled “an Act for granting certain powers and authorities to a company to be incorporated by charter to be called ‘The Australian Agricultural Company’ for the cultivation and improvement of waste lands in the Colony of New South Wales and for other purposes relating thereto.” After reciting that there are in the Colony of New South Wales divers waste lands which might be cultivated to advantage if sufficient capital were raised and advanced for that purpose and that there are in the said Colony a large number of convicts who are at present maintained at the public expense but who might be advantageously employed in the cultivation of such waste lands as aforesaid and thereby a considerable annual saving would accrue to the public and that divers persons are willing to contribute and raise by subscription among themselves such

581—

[870 copies—Approximate Cost of Printing (labour and material), £2 9s. 3d.]

such a capital sum as will be necessary for bringing into cultivation such of the said waste lands as we may be pleased to grant them and for the employment thereon of a large number of convicts. And further reciting that the beneficial objects aforesaid cannot be effectually attained unless we should be pleased by our charter to constitute and declare the persons aforesaid one body politic and corporate. It is enacted that in case we shall within three years after the passing of the said Act be pleased by charter under the Great Seal of Great Britain to declare and grant that such and so many persons as should be named therein and all and every such other person or persons as from time to time shall be duly admitted. Members into their corporation shall be a body politic and corporate by the name of "The Australian Agricultural Company" and to declare that the said corporation so to be made and created shall be established for the purpose of cultivating waste lands in the said Colony of New South Wales. Then and in that case it shall and may be lawful for the said corporation to hold to them and their successors such lands tenements and hereditaments within the said Colony of New South Wales as shall or may be granted by us to them and their successors within the said Colony or as shall be contracted for and purchased or acquired by them therein and to hold alienate sell and dispose of all such lands tenements and hereditaments upon under and subject to such conditions provisoes limitations and restrictions as we by such our charter may impose direct or prescribe and in and by the said Act provision is made for the Government and for the due management and regulation of the affairs of the said company. Now know ye that we of our especial grace mere motion and certain knowledge have granted and declared and by these presents do grant and declare that John Smith William Manning Cornelius Buller John Baker Richard William Astell and Campbell Majoribanks Esquires and all and every such other person or persons as from time to time shall be duly admitted members into their corporation shall be a body politic and corporate by the name of "The Australian Agricultural Company" and by that name shall have perpetual succession and a common seal and by that name shall and may sue and be sued plead and be impleaded at law or in equity and we do hereby declare that the said corporation shall be and is established for the purpose of cultivating waste lands in the said Colony of New South Wales and that the business and affairs of the said corporation shall be managed and conducted and the officers thereof elected and appointed in the manner and form in and by the said Act of Parliament provided in that behalf and in none other. And we do hereby further declare that all such lands tenements and hereditaments within the said Colony as shall or may be granted by us to the said corporation and their successors within the said Colony or as shall be contracted for and purchased or acquired by them therein shall be held alienated sold and disposed of upon under and subject to the conditions provisoes limitations and restrictions following that is to say: Firstly. That all grants of land in the said Colony which may be made to the said company by us our heirs and successors shall be passed under the Great Seal of the said Colony in pursuance of such warrants under our Royal sign manual as may for that purpose be issued by us through one of our principal Secretaries of State. Secondly. That for and in respect of all such lands within the said Colony as may be granted by us our heirs and successors to the said company in fee simple to be holden by them in free and common soccage there shall be reserved and paid and payable to us our heirs and successors and annual quit rent which shall amount to the sum of thirty shillings and no more for each and every parcel of the said lands of the value of one hundred pounds sterling. And that each and every acre of the said lands shall for the purpose of calculating the amount of such quit rent be taken and estimated as of the value of one shilling and six pence sterling and no more. Thirdly. That no quit rents shall accrue due or be payable by the said company for or in respect of any such lands as aforesaid during the term of five years to be computed from the date and execution of any grant in and by which such lands may be so granted. Fourthly. That upon giving six months' notice in writing under their common seal to the Governor of the said Colony it shall be lawful for the said company to redeem the said quit rent or any part thereof upon payment into our Treasury in British sterling money of a capital sum equal to twenty times the amount of the rent so to be redeemed. Provided always that the redemption of any portion of the said quit rents shall not exonerate or discharge any part of the lands to be granted to the said company from the payment of whole or any part of the quit rents remaining unredeemed. Fifthly. That the said company shall employ upon the lands so to be granted to them such a number of convicts as shall at the least be equal to the number of free labourers employed if the Governor for the time being of the said Colony shall be able and willing to supply a sufficient number of convicts for that purpose. Sixthly. That the said company shall at their own expense employ fit and proper persons not being or having been convicts to act as superintendents of the convicts so to be employed by them in the proportion at the least of one such superintendent to every fifty convicts. Seventhly. That no land granted to the said company by us our heirs and successors shall by the said company be granted bargained sold conveyed demised or alienated for and during a period of five years to be computed from the date of the grant in which any such lands may be comprised. And if any such grant bargain sale conveyance demise or alienation shall during any such period as aforesaid be made or executed the lands therein comprised shall be and become absolutely forfeited to and vested in us our heirs and successors. Eighthly. That the lands to be granted to the said company by us our heirs and successors shall be held by them in mortmain and be absolutely unalienable by them except upon the terms and conditions following that is to say: That it shall be lawful for the Governor and Legislative Council of the said Colony and they are hereby required upon application to them for that purpose made by the said company to direct the Surveyor-General for the time being of the said Colony to inquire and report whether the sum of ten thousand pounds sterling hath been laid out and expended by the said company in the formation of roads the erection of buildings the cultivation clearing fencing draining or other improvements of any such lands. And if the said Surveyor-General shall report to the said Governor and Council that the sum of ten thousand pounds sterling hath been so expended it shall be and become competent to the said company without license from us our heirs and successors to alienate and convey in fee simple but subject to the quit rents aforesaid any part or parts of the lands granted to them not exceeding fifty thousand acres in the whole and such and the same proceedings shall from time to time take place upon each successive application of the said company for the purpose aforesaid to the said Governor and Council and upon each successive report so made as aforesaid of the further expenditure upon any such lands of any further sum of ten thousand pounds the said company shall be and become competent to alienate fifty thousand acres or any smaller quantity of the lands to be granted to them until one moiety or equal half part of such lands shall in manner aforesaid become alienable. Provided always that every such report as aforesaid shall be enrolled in the Supreme Court of Justice of New South Wales

Provided

Provided also that it shall be lawful for the said company to alienate any of the lands to be granted to them upon obtaining a special license for that purpose from us through one of our principal Secretaries of State. Provided further that every grant or conveyance of lands to be made by the said company shall be absolutely null and void unless the same shall expressly refer to and particularise the Surveyor-General's report or the license from us (as the case may be) under the authority of which the same may be so granted or conveyed. Provided nevertheless that nothing herein contained shall extend to or prevent any demise of any such lands made by the said company for any term not exceeding twenty-one years without any covenant of renewal so as that not more than one moiety of the lands so to be granted as aforesaid be demised within twenty years next succeeding the date of any such grant. Ninthly. That the quit rents to accrue due upon any lands to be granted to the said company by us our heirs and successors for and during the term of five years to commence and be computed from and after the expiration of the first five years next following the date of any such grant shall not be actually collected and received until the expiration of such second term of five years. And that at that time all quit rents then due and in arrear by the said company shall be remitted if six hundred convicts shall have been regularly employed and maintained by the said company for and during the greater part of such second term of five years. Tenthly. That the said quit rents to accrue due for and during the further term of five years to commence and be computed from and after the expiration of the second term of five years next following the date of any such grant shall not be actually collected and received until the expiration of such third term of five years and that at that time all quit rents accrued due and then in arrear by the said company in respect of such third term of five years shall be remitted if one thousand convicts shall have been regularly employed and maintained by the said company for and during the greater part of such third term of five years. Eleventhly. That the said quit rents to accrue due for and during the further term of four years to commence and be computed from and after the expiration of the third term of five years next following the date of any such grant shall not be actually collected until the expiration of the said term of four years and that at that time all quit rents accrued due and then in arrear by the said company in respect of the said term of four years shall be remitted if one thousand four hundred convicts shall have been regularly employed and maintained by the said company for and during the greater part of such term of four years. Twelfthly. That if at any time within twenty years next after the date of any such grant it shall be made to appear to the satisfaction of us or of our Governor for the time being of the said Colony that the said company hath by the employment of convicts exonerated our Treasury from a charge equal in the whole to the sum of one hundred thousand pounds sterling then the lands which may by us our heirs and successors have been granted to the said company shall be for ever discharged of and from the quit rents originally charged thereupon. And in calculating the amount of the sums from which our said Treasury has been so exonerated it shall be assumed and taken that the said Treasury has saved the sum of twenty pounds sterling for each and every convict who shall appear to have been maintained during one whole year by the said company. And we do further declare that in any grants to be made to the said company of any lands situate in the said Colony all necessary covenants shall be made and entered into by the said company for ensuring the due observance and performance on their part of the several conditions provisoes and restrictions aforesaid. In witness the first day of November.

By the King.

I certify that the foregoing is a true and authentic copy.

J. M. THOMPSON,
Assistant Keeper of the Public Records, 29th October, 1892.

3. Mr. Licensed-Surveyor P. Riches to the District Surveyor at Wagga Wagga. 14 June, 1892	2
4. The District Surveyor at Wagga Wagga to the Under Secretary for Lands. 5 July, 1892	2
5. R. Barbour, Esq., M.P. (for executors of late E. Hillson), to the Secretary for Lands, with enclosure. 22 July, 1892	3
6. The District Surveyor at Wagga Wagga to the Under Secretary for Lands. 9 August, 1892	3

No. 1.

Memo. from The District Surveyor, Wagga Wagga, to The Under Secretary for
Lands, Sydney.

Re design for extension to village of Tocumwal, parish of Tocumwal, county of Denison.

9 March, 1892.

I beg leave to invite attention to my report No. 91-614. of 18th July, submitting a design, for extension to the village of Tocumwal, notified 5th December, 1891, for Ministerial approval, and to request that authority may be sanctioned for the carrying out of the survey of the proposed design, if approved, as a surveyor is at present ready to undertake the work.

The construction of a bridge over the Murray River at Tocumwal is now under consideration, and there is consequently demand for land there.

WILLIAM ORR,
District Surveyor.

As the design has been approved the papers can be returned to the District Surveyor for measurement. It would be as well for him to chart the new measurement on a proof of the town map directly after approval of plan for the information of Compiling Branch, and in order that the new map may be completed and published prior to the auction sale.—C.J.S., 26/3/92. Misc. Branch.

No. 2.

Mr. Police-Superintendent Grainger to The Inspector-General of Police.

Memo. :—*Re* Police Paddock, Tocumwal.

Police Department, Superintendent's Office, South-Western District, Deniliquin, 13 June, 1892.
It is intended to resume 34 acres, and is marked in pencil on plan. The police paddock will then only contain 18 acres 3 roods 37 perches; much too small. The paddock is fenced.

I think a portion of the water reserve adjoining might be obtained to add on to the portion left.

E. GRAINGER,
Superintendent.

Re Police paddock, Tocumwal.—This matter of the interference with the police paddock was dealt with by me when I submitted design for the subdivision of allotments. The head office communicated with the Police Department, but, the survey having been completed, all the papers are now at the head office, and I cannot state with certainty if that Department signified its consent, or whether an objection was raised and overruled. When forwarding final recommendation *re* auction sale of the allotments (*Vide* Misc. 92-1,702, Dept.), I suggested that a definite exchange of land should be made. On tracing "X" (enclosed), the police paddock is marked R. 2181, and is situated close to the proposed bridge site, where land is required for business purposes, and W. B. 188, edged green on tracing "X" was, I think, offered in exchange.—WILLIAM ORR, District Surveyor, Wagga Wagga, 14/7/92. The Under Secretary for Lands.

[Enclosure.]

Police Station, Tocumwal, 17 May, 1892.

SENIOR-CONSTABLE BURMAN respectfully reports, for the information of his superintendent, that there is a surveyor at Tocumwal who is surveying town lots, and he informed the Senior Constable that he had been ordered to survey a portion of the paddock here, and cut it up into town lots. What with this, and the land required for the bridge site, nearly half the paddock will be taken, and it is small enough at present.

Superintendent Grainger, Deniliquin.

A. BURMAN,
Senior Constable.

No. 3.

Mr. Licensed-Surveyor Riches to The District Surveyor, Wagga Wagga.

Extension of village at Tocumwal.

Albury, 14 June, 1892.

I have the honor to transmit herewith the plan of 39 acres 1 rood 38 perches, parish of Tocumwal, county of Denison, being an extension of the village of Tocumwal, measured by me on the 26th of May, 1892, in accordance with instruction No. 921, dated 6th May, 1892.

I have to report that at the time of survey the following improvements had been effected:—About 16 chains of top-rail and five-wire fencing, traversing sections 37, 34, and 35, erected about eight years by the Police Department, and worth about 15s. a chain; on section 42, old sheds and wharf erected about twenty-five years, by Edward Hillson, and still his property; value, £100.

The land is flat, and is for the most part subject to inundation at times of high flood, with the exception of part of allotment 4 of section 38, which is situated on a sand-hill, the country is fairly open, and timbered throughout with box and gum of large growth.

I am of the opinion that the following will be a fair upset price for the land:—

Section 32, allotment 1,	at £12; 2, 3, 7, 8,	at £10; 5 and 9,	at £15; 4 and 6,	at £20.	
" 33, allotments 1 and 4,	at £12; 2, 3, 6,	and 7,	at £10; 5 and 8,	at £15.	
" 34 "	1 and 5,	at £12; 2, 3, 4, 7, 8,	and 9,	at £10; 6 and 10,	at £15.
" 35 "	1, 5, and 10,	at £10; 2, 3, 4, 7, 8,	and 9,	at £8; 6,	at £12.
" 36 "	1 and 10,	at £10; 2, 3, 4, 7, 8,	and 9,	at £8; 5 and 6,	at £15.
" 37 "	1, 5, 6, and 10,	at £15; 2, 3, 4, 7, 8,	and 9,	at £10.	
" 38 "	1, 7, and 9,	at £10; 2, 3, and 8,	at £8; 4 and 6,	at £30; 5,	at £20.

I have also to report that the road from Deniliquin is formed and metalled through allotments 1, 2, 3, 4, and 5 of section 34.

I have, &c.,
PERCY C. RICHES,
Licensed Surveyor.

No. 4.

Memo. from The District Surveyor, Wagga Wagga, to The Under Secretary for Lands.

Village of Tocumwal Extension.

5 July, 1892.

SUBDIVISION in accordance with approved design has been effected of allotments in the extension to village of Tocumwal, proclaimed 5th December, 1891, as authorised to be surveyed under Ministerial decision of 25th March, 1892, on papers Misc. 92-1,702, Dept.

The subdivision embraces part of police reserve No. 2,181, and the police paddock of 19 acres. These reserves have not yet been revoked, although descriptions were prepared in head office for that purpose, the matter being delayed, apparently pending reply from the Police Department as to acceptance of site proposed to be granted in lieu; *vide* Misc. 91-7,493, Dept.

Attention is invited to my report No. 92-451, forwarded to the Under Secretary on the 17th May last, drawing attention to the action of the Roads Department in forming and metalling a deviation of the main Deniliquin Road through section 34 of this subdivision.

In view of the encroachment of the road, it is recommended that the sale of section 34 be postponed pending settlement of the question.

It is now recommended that the allotments in the remaining sections, not reserved, together with some allotments in the old township, as set forth in the accompanying schedule, be offered for sale at auction at the prices quoted in the schedule.

WILLIAM ORR,
District Surveyor.

No. 5.

No. 5.

R. Barbour, Esq., M.P. (for Executors of late E. Hillson), to The Secretary for Lands.

Sir,

Sydney, 22 July, 1892.

Under instructions from the Executors of the late Edward Hillson, the lessee of the punt site of 3 acres, and the owner of the punt which plies night and day at Tocumwal for the convenience of the public, I have the honor to direct your attention to the fact that, in the new surveys going on in the township this lease has been ignored; the effect being that the punt will be shut off, and stock and the travelling public will be inconvenienced if the land surveyed is sold at the auction sale.

I would remind you that a stock route terminates at the punt, and large quantities of stock are crossed here in going from and in coming into New South Wales.

It is contemplated to build a bridge (the site being near to the punt), at the joint expense of Victoria and New South Wales, and if part of the surveyed lots were not sold until the bridge were opened for traffic, very little inconvenience will be suffered by anyone.

I would suggest that surveyed portions Nos. 3, 4, 5, 6, 7 and 8 of section No. 37 be not sold until after the bridge be opened for traffic, and that section 34, portion 2, 3, 4, 5, 6, 7, 8, and 9, be treated in like manner, this would satisfy the executors.

May I request that you will send this application to the District Surveyor, Wagga Wagga, that he may deal with it when he deals with the survey of the village lots.

Yours truly,

ROBT. BARBOUR

(For the Executors of the late E. Hillson).

Gazette, 9th
January, 1891,
No. 596.

No. 6.

Memo. from The District Surveyor, Wagga Wagga, to The Under Secretary for Lands.

Re punt site at Tocumwal.

9 August, 1892.

MR. BARBOUR writes, respecting the withholding of parts of sections 34 and 37, village of Tocumwal, from sale, in order to give better access to the punt at that place.

The enclosed sketch shows the relative positions correctly of the punt site and town sections.

I have now the honor to report that this matter was not overlooked when the village design was prepared, and it was then considered that sufficient access was being left thereto. In view, however, of Mr. Barbour's representations, there is no objection to withholding the sale of the allotments 2 to 9 of section 34, and 3 to 8 of section 37 until the punt lease expires.

The present lease expires at the end of this year, and I would suggest that after the termination of the present lease the executors of Edward Hillson might be allowed an extension of lease until the bridge is open for traffic, if it is not opened before the termination of the present lease, and provided no extended delay in the construction of the bridge takes place.

The papers in connection with the village of Tocumwal, Mis. 92-1,702, Dep., were forwarded to head office on the 5th ultimo, with my report, No. 92-615, recommending sale of allotments recently surveyed.

WILLIAM ORR,
D.S.
